

Talent 411

Chapter 411: Collecting the Mira Sutras

Heavenly Pride Lie Jun, Heavenly Pride Hong Yang, Im actually here this time because I have a favor to ask of you, Ye Tian stated straightforwardly, without beating around the bush.

What do you need our help with? the two responded, not immediately agreeing to help. Given that their relationship with Ye Tian was merely that of ordinary friends, they naturally wouldnt agree to just anything. If it were a minor matter, they wouldnt mind agreeing, but if it involved risking their lives or endangering their respective forces, they would definitely refuse.

I want to collect the Mira Sutra pages and am willing to trade using divine crystals and secret techniques for physical body cultivation! Ye Tian revealed his purpose.

Youre willing to trade secret techniques for physical body cultivation? Heavenly Pride Lie Jun and Heavenly Pride Hong Yang were astounded. Secret techniques for physical body cultivation were incredibly precious, with only a handful of top forces in the Andromeda Galaxy possessing one or two such techniques, and most forces lacked them entirely.

Moreover, these top forces tightly controlled their secret techniques for physical body cultivation, almost never trading them. Only Heavenly Prides like Ye Tian, who happened upon such techniques by chance, wouldnt mind them, but how many Heavenly Prides could obtain several secret techniques for physical body cultivation like Ye Tian?

Yes, I am willing to trade secret techniques for physical body cultivation for the Mira Sutras. Could you help me spread this message? Ye Tian inquired.

No problem, its just a small matter! Heavenly Pride Lie Jun immediately promised.

At that moment, Heavenly Pride Hong Yang said, Heavenly Pride of Ten Thousand Laws, Ive heard of the Mira Sutras. When the nine-star wondrous object, the Mira Sutra, first appeared, it indeed caused a huge fight, even shattering a planetary system. However, people later found that the requirements for cultivating the Mira Sutra were too stringent, making cultivation almost impossible. Over time, few paid attention to the Mira Sutra.

Moreover, youre already an eight-star peerless Heavenly Pride. Why do you want to collect the Mira Sutra?

I have my reasons. Just help me spread the word. If you do me this favor, you can come to me if you ever encounter trouble in the future, Ye Tian promised.

Alright!

The two were very excited. A promise from an eight-star peerless Heavenly Pride was no small matter, something ordinary people could hardly receive, especially since all they had to do was spread a message. So, Heavenly Pride Lie Jun and Heavenly Pride Hong Yang went to spread the word for Ye Tian, not just in the Andromeda Galaxy but also leveraging their forces to spread the news to several nearby galaxies.

If individuals from other galaxies also obtained pages of the Mira Sutra, they might come to the Andromeda Galaxy's Xianqiong Star upon hearing the news.

After spreading the message, Ye Tian waited in a luxurious tavern in Xianqiong City, the largest main city on Xianqiong Star.

On the third day, a True God named Absolute Hand True God found Ye Tian. This True God wasn't particularly strong among True Gods but wasn't the weakest either, belonging to the middle tier.

Heavenly Pride of Ten Thousand Laws, is it true that the Mira Sutras can be exchanged for secret techniques for physical body cultivation? Absolute Hand True God asked upon seeing Ye Tian.

Yes, how many pages of the Mira Sutras do you have? Ye Tian inquired.

Only one page! Absolute Hand True God was somewhat nervous. Can one page of the Mira Sutras be exchanged for a secret technique for physical body cultivation?

Add 100 divine crystals, and I'll give you a secret technique for physical body cultivation. You may teach it to others, but you cannot trade it. After signing a contract, we can proceed with the trade, Ye Tian pondered and then said.

Agreed!

Absolute Hand True God found the trade quite fair, even advantageous. After all, he had possessed this page of the Mira Sutras for many years, but its content was utterly useless to him. To him, the Mira Sutras were just an object, nowhere near as precious as a secret technique for physical body cultivation. Besides, a mere 100 divine crystals were nothing to a True God like him; he didn't care at all.

Soon, they signed an agreement and commenced the trade. Ye Tian traded the Flaming God Physique Technique, which had been auctioned in the Milky Way Galaxy before. Since he still owned the rights to this secret technique for physical body cultivation, he could trade it again.

After completing the trade, Absolute Hand True God departed.

At this moment, Ye Tian took a closer look at the Mira Sutra he had just traded for.

Xumi Escape Technique!

After carefully studying the Xumi Escape Technique, Ye Tian found this secret technique to be incredibly heaven defying.

Not only did the Xumi Escape Technique require the Xumi Storage Realm, but it also the ability to phase into space.

The Xumi Escape Technique was a combination of the Xumi Storage Realm and the ability to phase into space, creating an astonishing escape technique.

Once the Xumi Escape Technique was mastered, one could quickly escape. A Heavenly Pride could instantly escape a planetary system, even surpassing the capabilities of a cosmic spaceship.

Regardless of the level of the cosmic spaceship, it needed preparation time to perform a spatial jump.

However, the Xumi Escape Technique didn't require preparation time; it could be activated instantly, phasing from the depths of space, making it very difficult to interrupt. Unless the

enemy was much stronger than Ye Tian, freezing the space and preventing the activation of the Xumi Escape Technique.

But for an enemy to prevent Ye Tian from activating the Xumi Escape Technique, their strength must far exceed his own or possess a special divine artifact.

In any case, once the Xumi Escape Technique was mastered, the ability to preserve ones life greatly increased.

What a gain! I didnt expect to encounter such an incredible secret technique. Absolute Hand True God couldnt cultivate it, which is why he traded it with me.

However, Absolute Hand True God could remember the content of the Xumi Escape Technique and trade it with others, which is why he was willing to trade the original with me! Ye Tian thought to himself.

Both he and Absolute Hand True God benefited from the trade, a win-win situation.

But the bigger winner was Ye Tian.

In the following days, Ye Tian began to study and cultivate the Xumi Escape Technique. A few days later, another God-level powerhouse came to trade with Ye Tian.

This time, Ye Tian obtained another page of the Mira Sutra.

This page of the Mira Sutra recorded the Xumi Imperial Body, a defensive secret technique that could withstand external attacks. It also required the Xumi Storage Realm, constructing the Xumi Storage Realm around the body to form a perfect cycle.

Thus, one could execute the Xumi Imperial Body, forming a defensive barrier on the bodys surface, capable of blocking some fatal attacks.

However, the recorded Xumi Imperial Body was only the second level, lacking the first level, which was clearly in other pages of the Mira Sutras.

In the blink of an eye, five months passed.

During these five months, Ye Tian met many Gods and True Gods, trading for a total of eleven pages of the Mira Sutras. Together with the three pages he had before, he now had fourteen pages of the Mira Sutras, leaving only two pages unaccounted for.

Of course, during these five months, he also encountered Gods with fake Mira Sutras, which he immediately exposed.

Additionally, in five months, Ye Tian mastered the Xumi Escape Technique and obtained the content of the Xumi Imperial Body from the first to the sixth levels, mastering the second level of the Xumi Imperial Body.

Besides, Ye Tian also acquired secret techniques like the Xumi Dust Realm Technique and the Xumi Invisibility Technique.

Among them, the Xumi Dust Realm Technique was similar to a space imprisonment secret technique but with significant destructive power. It was similar to the Water Sinking Realm secret technique, just with different attributes, one being water and the other space.

The Xumi Invisibility Technique was like spatial phasing but invisible. The Xumi Invisibility Technique involved phasing into a smaller space, offering better invisibility and certain defensive capabilities.

Although these secret techniques were good, they were of minor use and couldnt truly transform Ye Tians strength.

However, after gathering fourteen pages of the Mira Sutras, Ye Tian found that the pages began to connect, forming the Mira Sutra book, missing only two pages.

Moreover, the Mira Sutras vibrated, corresponding to two distant directions.

Ye Tian knew this meant the Mira Sutras were connecting with the other two pages, and by following this connection, he could find those two pages.

Perhaps gathering the complete two pages of the Mira Sutra will reveal the true secrets of the Mira Sutra! Ye Tian thought.

Thus, he followed one of the directions, activating his cosmic spaceship, and quickly flew through the cosmic starry sky.

One day, Ye Tian arrived at a planet in the Andromeda Galaxy.

This was just an ordinary human planet, seemingly without any strong beings.

Andromeda Galaxy, planet 4! This was the location shown on the map.

Whoosh! Ye Tian flew into the planet and quickly found the location of that page of the Mira Sutra.

Chapter 412: Spatial Absorption Technique

Upon entering this planet, Ye Tian arrived at a mansion.

The mansion was somewhat dilapidated, inhabited by a young girl.

This girl was around twelve years old, and apart from her, there were signs of an elderly person who had passed away not long ago.

At this moment, the girl was in tears.

So, it's a young girl who has just lost a loved one, Ye Tian murmured to himself.

He was accustomed to using his talent-copying ability to check the talents of others, and he was somewhat surprised upon examining the girl's talents.

She actually possesses a Desolate-tier cultivation talent!

Ye Tian was aware of the rarity of a Desolate-tier cultivation talent; even some Heavenly Princes did not possess such a talent.

It was nearly impossible for an ordinary planet to produce a Desolate-tier cultivation talent. For instance, Earth, where not even a Supreme-tier cultivation talent could be found, let alone a Desolate-tier one.

Could it be that this planet has some uniqueness? Ye Tian pondered.

However, when he covered most of the planet with his talent-copying ability, he did not find any other high-tier cultivation talents.

Most humans on this planet lacked cultivation talents, and even a Morning Star-tier cultivation talent was considered relatively high-level here.

It could be said that this young girl was an exceptional existence.

Let it be, its just a Desolate-tier cultivation talent after all, no need to delve deeper! Ye Tian thought.

He extended his divine sense into the mansion, searching for the Mira Sutra because, according to the sensations from the Mira Sutra, one page of it was within this mansion.

Ye Tians divine sense was incredibly powerful, swiftly scanning every corner of the mansion.

He quickly located the page of the Mira Sutra, which was astonishingly hidden within a stone statue.

Its hidden within a stone statue, probably concealed there by an ancestor of this mansion, Ye Tian suddenly realized.

The ancestor of this mansion must have been a God-level or True God-level powerhouse.

This powerhouse, after obtaining a page of the Mira Sutra during a conflict, ended up on this planet for some unknown reason.

After his demise, likely worried that his descendants could not protect this page of the Mira Sutra or fearing that it might bring disaster to them, he hid it within the stone statue, along with a spatial ring.

The page of the Mira Sutra was inside the spatial ring.

With a flick of his hand, Ye Tian entered the mansion.

At that moment, the weeping girl noticed Ye Tian and immediately became very wary, saying, Who are you? Why are you barging into my home? I dont have any money!

She was visibly frightened, mistaking Ye Tian for a robber. Little girl, dont be afraid. I mean you no harm, Ye Tian explained, though such assurances did little to ease the girls worries.

Thus, without further explanation, he approached the stone statue.

With a wave of his hand, the stone statue crumbled to dust, leaving only a spatial ring floating in the air.

Witnessing this, the girl trembled all over.

She knew the statue was incredibly sturdy; as a child, she enjoyed striking it with objects, but it remained unmarked regardless of what she used.

Her grandmother had told her that the statue had been there for a very long time, left by their ancestors, and even powerful martial warriors could not damage it. Strangely, the statue was fused with the entire mansion, immovable.

Yet now, Ye Tian had shattered it with a single blow.

She understood the implications of Ye Tians strength; he was far more powerful than anyone she had ever encountered. With such a person entering her home, her fear was understandable, especially since her beloved grandmother had passed away, leaving her alone.

Filled with terror, the girl watched as Ye Tian took the spatial ring, initially claimed it, and then extracted the page of the Mira Sutra from within.

Spatial Absorption Technique!

Ye Tian was surprised upon reviewing the page of the Mira Sutra, as it pertained to absorbing spatial power.

However, the cultivation requirements for this Spatial Absorption Technique were extremely high, so high that even Ye Tian was unable to cultivate this spatial technique.

This was because the cultivation requirement for the Spatial Absorption Technique was a Mystic-tier space talent.

Ye Tians current spatial talent was still some distance from the Mystic-tier, naturally rendering him unable to cultivate the Spatial Absorption Technique.

Additionally,

Although this page recorded spatial techniques, it did not explain the use of the Spatial Absorption Technique.

Perhaps the content describing the use of the Spatial Absorption Technique is on the last page of the Mira Sutra! Ye Tian speculated.

Regardless, this page on the Spatial Absorption Technique must be extremely precious, especially since its cultivation requirement demands a Mystic-tier spatial talent.

I've hit the jackpot! Ye Tian thought to himself.

At this moment, he truly felt that the Mira Sutra was no ordinary wondrous object and that it must contain significant secrets.

And now, he was only one page away from uncovering the entire secret.

This thought excited Ye Tian.

Suddenly, he remembered the young girl beside him.

Clearly, this young girl must be a descendant of that powerful individual.

Although he did not know how many generations had passed, the girl surely inherited the talent of that powerful ancestor.

The stronger the ancestors, the higher the cultivation talent of their descendants.

This young girl was fortunate to be born with a Desolate-tier cultivation talent, but her luck was also quite unfortunate.

All her family members had died, even her last relative, and given her age, she might not survive on this planet until the day she could rise.

At this moment, Ye Tian could simply

Ignore the young girl and leave the planet.

However, he always believed in fair exchange.

Strictly speaking, this page of the Mira Sutra belonged to the young girl. Taking something of hers and just leaving would somewhat violate the principles of fair exchange.

Your name is Li Xintong, right? Ye Tian learned the girls name through his talent-copying ability and thus addressed her.

Yes, the young girl replied in a very soft voice, almost as faint as a mosquitos hum.

However, Ye Tian heard her quite clearly.

Ill call you Tongtong. This spatial ring was placed in the stone statue by your ancestors.

I only need the Mira Sutra inside this spatial ring. The rest of the items will be left for you.

Moreover, I can offer you some benefits, which will be our deal.

No matter. Whether you understand or not, Im now giving you two choices.

The first choice is that I will give you a vast amount of wealth, providing you with enough resources to cultivate. However, on this planet, its easy for someone alone like you to have their resources stolen or even be killed by others.

The second option is I will take you away from this planet and send you to a planet with a very orderly legal system. You will become a resident of that planet, where you will almost have no safety concerns.

However, in that case, I cannot provide you with too many resources.

Now, tell me your choice!

Ye Tians words left the girl named Li Xintong somewhat baffled.

She did not understand much of what he said, but she roughly grasped Ye Tians meaning.

Ye Tian would take something left by her ancestors and then give her many good things as compensation but would not ensure her safety.

She could also follow Ye Tian to another place, a safer location, but Ye Tian would not provide her with many benefits.

My grandmother has passed away, and many bad people are eyeing this mansion. Even if this big brother gives me a lot of wealth, I probably wont be able to protect it, Li Xintong thought to herself.

Although only twelve years old, Li Xintong was not foolish and knew how to choose.

She was not afraid that Ye Tian would deceive her, as such a powerful martial warrior had no need to lie to her.

Moreover, the item left by her ancestors was already in Ye Tians possession.

To deceive her further would be superfluous. Therefore, Li Xintong softly said, Big brother, I am willing to follow you and leave!

Very well, your choice is very wise. In the future, you will be grateful for your decision today! Ye Tian said with a smile.

In his view, Li Xintongs decision to leave with him could lead to her rise in the future, possibly even becoming a powerful Great God-level warrior in the Andromeda Galaxy.

Subsequently, Ye Tian helped Li Xintong bury her grandmother and then took her aboard a cosmic spaceship, leaving the planet.

Chapter 413: Elder Yun, the Last Page of the Mira Sutra

The Andromeda Galaxy, on the planet Milan.

Milan was a technologically advanced planet and the capital of the Milan Empire.

The Milan Empire was a vast empire within the Andromeda Galaxy, occupying many planetary systems. Its legal system was very well-established, and even True God-level powerhouses respected the Milan Empire, making its capital extremely safe.

Once one becomes a resident of the Milan Empire, as long as they did not commit crimes, their safety was almost guarenteed.

Therefore, Ye Tian brought Li Xintong to Milan, planning to make her a citizen of the Milan Empire.

Soon, their spaceship arrived at the spaceport of Milan.

Upon standing at the spaceport, Li Xintong was astonished by the sheer number of spaceships, shattering her understanding and imagination. Coming from an ordinary planet, it was like an ancient person suddenly arriving in the modern world, where everything seemed marvelously strange.

Ye Tian did not explain much to Li Xintong, the young girl; he was only responsible for delivering her to the Milan Empire.

In Milan City, the capital city of the Milan Empire, Ye Tian announced his identity.

Quickly, a God-level powerhouse personally came to meet Ye Tian.

This God-level powerhouse was a general of the Milan Empire, known as the Blood-Weeping General. Greetings, Heavenly Pride of Ten Thousand Laws!

The Blood-Weeping General spoke with great reverence.

Blood-Weeping General, I've come to ask a favor from the Milan Empire, Ye Tian said.

Please speak, Heavenly Pride of Ten Thousand Laws! the Blood-Weeping General said somewhat nervously.

He was indeed worried that Ye Tian was here to cause trouble. This was because Ye Tian, being an eight-star peerless Heavenly Pride, was not someone the God-level powerhouses could deal with, and no Heavenly Pride in the entire Andromeda Galaxy could match him.

If Ye Tian were to trouble the Milan Empire, they would truly be at a loss.

Thus, when they learned of Ye Tian's arrival, the Emperor of the Milan Empire instructed to treat him well and send him off happily. For the Milan Empire, Ye Tian was like a major calamity, but one they dared not offend.

This girl is an ordinary resident of a small planetary system under the Milan Empire. I have a connection with her but cannot take her with me, so I plan to make her a citizen of the Milan Empire. I wonder if that's possible? Ye Tian inquired.

The Blood-Weeping General glanced at Li Xintong, scanned her with his divine sense, and realized she was just an ordinary girl who had not yet started cultivating.

It's a small matter. Heavenly Pride of Ten Thousand Laws, the Milan Empire will help with this! the Blood-Weeping General immediately agreed.

Then I thank you, Blood-Weeping General, Ye Tian said, bowing.

Subsequently, Ye Tian witnessed the Blood-Weeping General and officials of the Milan Empire personally processing Li Xintong's documents, officially making her a citizen of the Milan Empire.

Ye Tian also purchased a property for Li Xintong and gave her the spatial ring inherited from her ancestors, helping her initially refine it. However, as Li Xintong was not a martial warrior, she would need to become one to use the spatial ring.

Moreover, Ye Tian opened a bank account for Li Xintong, depositing 10 billion star points as compensation for the transaction of the Mira Sutra.

After everything was settled, Ye Tian prepared to leave.

Thank you, big brother! Li Xintong expressed her gratitude as Ye Tian was about to depart.

Tongtong, after you turn 15, you can start cultivating. You have good talent; cultivate well, and perhaps we'll have the chance to meet again in the future! Ye Tian said, patting Li Xintong's head with a smile.

Then, Ye Tian teleported away, leaving Milan.

Big brother, Tongtong will do her best! Li Xintong murmured to herself.

For Ye Tian, helping Li Xintong was merely to clear his conscience.

He did not dwell on Li Xintongs matter any longer, his attention quickly shifting to the last page of the Mira Sutra.

The last page of the Mira Sutra seems to be in the direction of the Milky Way! Ye Tian noted, following the Mira Sutras guidance to the edge of the Andromeda Galaxy, facing the boundless region of spatial turbulence.

Crossing this area of spatial turbulence would lead to the Milky Way.

Clearly, the last page of the Mira Sutra was likely in the Milky Way.

Riding a six-star-level spaceship, Ye Tian crossed the spatial turbulence between the Andromeda and Milky Way galaxies in just one day, entering the Milky Way.

Following the Mira Sutras guidance, he flew until he finally found the location of the Mira Sutra.

Here is Ye Tian stood amidst the stars, looking at a fog-covered area before him.

This fog enshrouded a star that was unmarked on any map.

What place is this? Ye Tian wondered.

Hesitant about this unknown territory, Ye Tian did not rashly enter. Who knew what dangers lay within? If it were a deadly trap, entering could mean certain death.

First, Ill record this location, then ask others about it.

Thus, Ye Tian left the area and took a spaceship back to Silver Universe Star.

Afterward, Ye Tian visited the lord of Qingfeng Giant City Great God Qin Niu! As a Great God-level powerhouse, Qin Niu should know about this place.

Now an eight-star peerless Heavenly Pride, Ye Tians visit was naturally received by Great God Qin Niu.

At the lords mansion, Ye Tian met Great God Qin Niu, once again.

Greetings, Great God Qin Niu! Ye Tian was very polite.

Heavenly Pride of Ten Thousand Laws, theres no need for formalities. Do you have a matter to discuss with me? Great God Qin Niu, inquired.

Ye Tian nodded, Indeed, I have a matter to consult with Great God Qin Niu. I wonder if you might know about this place. Ye Tian conjured a hologram of the fog-covered star and marked its location using his illusionary talent.

Upon seeing the location, Qin Nius expression changed abruptly, and he quickly said, Heavenly Pride of Ten Thousand Laws, why are you inquiring about this place?

I happened to pass by and wanted to take a look inside. Could it be that Great God Qin Niu knows of this place? Ye Tian asked, his face showing eagerness.

I do. That place belongs to a Planetary-level powerhouse. Heavenly Pride of Ten Thousand Laws, although you are a Heavenly Pride, its better not to enter and risk angering that Planetary-level powerhouse! Great God Qin Niu, urgently warned.

Which Planetary-level powerhouse is it? Ye Tians interest was piqued.

Its Elder Yun. The Great God-level powerhouses all refer to him as Elder Yun. As for his origins, Im not sure. I only know he wasnt originally a Planetary-level powerhouse from the Milky Way, but he came here a long time ago and has lived here ever since! Great God Qin Niu, explained.

Its him! Ye Tian immediately realized who Elder Yun was, as described by Great God Qin Niu.

Initially, when the planetary birth opportunity arose, an Elder Yun, who surpassed the Great God level, appeared. This Elder Yun must be the Planetary-level powerhouse mentioned by Great God Qin Niu.

Thank you, Great God Qin Niu, for resolving my doubts! Ye Tian took his leave.

After departing from the lords mansion, Ye Tian pondered deeply.

Obtaining the last page of the Mira Sutra wouldnt be easy. If it were a True God-level powerhouse, he might be able to trade, but trading with a Planetary-level powerhouse would be impossible since he had nothing of equal value to offer. Would a Planetary-level powerhouse lack physical cultivation techniques? Certainly not! And even if they needed divine crystals, they would require a massive amount, far beyond what he possessed.

In short, aside from the time artifact, nothing he had would be of interest to them.

Trading for the last page of the Mira Sutra from a Planetary-level powerhouse would be incredibly difficult.

However, that page of the Mira Sutra might just be a minor collection to that Planetary-level powerhouse, possibly overlooked by them. Maybe I could acquire it. I should pay a visit first.

After thinking it through, Ye Tian once again approached the star where Elder Yun resided in his spaceship.

Junior Heavenly Pride of Ten Thousand Laws, Ive come to visit Elder Yun! Ye Tian stood outside the fog, bowing in greeting.

After waiting a few minutes, an opening appeared in the fog.

A woman emerged from within.

This woman was Yun Xi, the young girl who had accompanied Elder Yun previously.

Initially, Yun Xi had just entered the Emperor level, and in the few years since, she had already broken through her fifteenth physical limit, showing her talent as a Heavenly Pride.

Heavenly Pride of Ten Thousand Laws, its you. Are you here to see my ancestor? Yun Xi recognized Ye Tian and asked.

Yes! Ye Tian nodded.

Yun Xi revealed a sly smile and quickly said, You can meet my ancestor if you want, but if you give me something nice, Ill take you to him!

What would you like? Ye Tian felt that if he could handle the clever and quirky Yun Xi, he might be able to accomplish his task.

Chapter 414: Deal with Elder Yun

Give me 100 pounds of the Nine Heavens Immortal Brew!

And 100 pounds of the Monkey Wine aged for a hundred thousand years!

Or, a pot of Eternal Dream Wine would also do.

Do you have these things?

Yun Xi listed three items and asked.

Ye Tians eyes widened slightly, and he wanted to say, Are you a drunkard?

However, to not ruin this opportunity, he held back from saying it.

The three things mentioned by Yun Xi were likely three kinds of rare and exquisite wines. Ye Tian had never heard of them before, but he could imagine that these three types of wine must be extremely precious.

For instance, the Monkey Wine aged for a hundred thousand years just the age alone spoke volumes of its value!

I don't have any of these three things, Ye Tian honestly replied.

Then I won't help you, Yun Xi pouted.

Ye Tian was about to leave to see if he could acquire these three items.

But at that moment, an aged voice came through.

Little Xi, stop being naughty. Heavenly Pride of Ten Thousand Laws, please come in.

Ye Tian knew without guessing that the voice belonged to Elder Yun, the planetary-level powerhouse.

Elder Ancestor has invited you in. Follow me, Yun Xi said reluctantly.

She had hoped to gain some benefits from Ye Tian, but to her surprise, her ancestor had invited Ye Tian in.

Her plan had fallen through! Ye Tian followed Yun Xi into the mist, where it automatically parted to form a path.

Be careful and follow me. Do not touch this mist. It has the power to bewilder the soul, and even a True God cannot withstand it, Yun Xi warned.

Even True Gods can be bewildered? Ye Tian was quite surprised.

Had he trespassed here earlier, he probably would have lost his way in this mist.

Soon, Ye Tian passed through the mist and arrived on the star.

There were many people on this star, including numerous God-level powerhouses.

The humans on this star are all members of our Yun family. Normally, ordinary people are not qualified to enter our Yun family. You're lucky that the Elder Ancestor allowed you in, Yun Xi looked at Ye Tian and said.

Shortly after, Ye Tian entered a huge fortress on the star.

There, he met Elder Yun.

Greetings, Elder Yun! Ye Tian was very polite and respectful.

After all, Elder Yun was a planetary-level powerhouse who had lived for who knows how many years. Ye Tian wouldn't dare to act arrogantly in front of such an elder, as that would be deliberately offensive.

Heavenly Pride of Ten Thousand Laws, it's surprising that you, who were once a normal Heavenly Pride, have stepped into the realm of an eight peerless Heavenly Pride in such a short time. Your talent is truly heaven-defying; you might even have a chance to achieve greatness, Elder Yun praised highly.

Elder Ancestor, can he become a Child of the Universe? Yun Xi was clearly skeptical.

She knew very well how formidable a Child of the Universe had to be. Becoming one was extremely difficult. Even she, the most talented of her generation in the Yun family, was deemed by her elder ancestor as having no hope of becoming a Child of the Universe.

Yet now, in her presence, her ancestor mentioned that Ye Tian had the potential to become a Child of the Universe, which naturally made her unconvinced.

Elder Yun looked at Yun Xi and shook his head without explaining.

Elder Yun, I have come here to trade something with you, Ye Tian said.

He had sensed through the Mira Sutra in his possession that the last page of the Mira Sutra was nearby, presumably in Elder Yuns possession.

Do you wish for the Mira Sutra? Elder Yun asked with a smile.

Elder Yun, how did you know? Ye Tian was quite surprised.

Logically, he could sense the presence of another page of the Mira Sutra through the wondrous object he had, given he had already collected 15 pages, while Elder Yun had only one page and shouldnt be able to sense the Mira Sutra on him.

Yet now, Elder Yun seemed to know his purpose! Elder Yun explained, I know a bit of divination. I understood your purpose when you first came.

Since Elder Yun is aware, I wonder if you would be willing to part with the Mira Sutra. I am willing to exchange it for something of equal value, Ye Tian proposed.

Do you think you possess treasures that I would need? Elder Yun asked with a slight smile.

This Ye Tian didnt know how to respond.

Indeed, given Elder Yuns current realm and status, aside from the time-related wondrous object, there really wasnt anything else that could catch Elder Yuns eye.

Just as Ye Tian was feeling disappointed, Elder Yun added, Actually, Im not opposed to giving you that page of the Mira Sutra, but I have a small request. If you agree to it, I will give you the page.

Whats the request? Ye Tian quickly asked.

Elder Yun pointed at Yun Xi: Yun Xi here is the most talented among the younger generation of our Yun family. I plan to send her to the Hengpan Galaxy, but due to some special reasons, I cannot enter the Hengpan Galaxy myself. However, a great opportunity there is very important for Yun Xi and also for our Yun Family.

But if Yun Xi goes to the Hengpan Galaxy, there will be dangers.

Therefore, I need you to accompany Yun Xi there.

Elder Yun, I am merely at the Emperor level. I doubt I can complete this task! Ye Tian was not foolish. A mere page of the Mira Sutra in exchange for putting himself in danger was not a worthwhile deal.

Clearly, the Yun Family had formidable enemies in the Hengpan Galaxy. Protecting Yun Xi there would be extremely dangerous!

Elder Yun continued, Heavenly Pride of Ten Thousand Laws, dont worry. Both you and Yun Xi are Heavenly Prides, and if anyone troubles you, they would be Heavenly Prides too.

You are an eight star peerless Heavenly Pride. Even in the Hengpan Galaxy, you should be able to protect Yun Xi.

Moreover, Yun Xis destination is a place of great opportunity. I will also allow you to enter, which can be considered as giving you a great opportunity. In this way, you still benefit!

What kind of great opportunity? Ye Tian suddenly became interested.

He was always interested in beneficial matters. A place described as a great opportunity by a planetary-level powerhouse, and situated in the Hengpan Galaxy, must be extraordinary. Otherwise, Elder Yun would not send Yun Xi there.

Elder Yun was silent for a while before finally saying, Well, Ill tell you.

Its about the inheritance of Origin Artifacts. That place was once an inheritance site left by the ancestors of the Yun Family in the Hengpan Galaxy. Later on, the Yun Family faced a calamity and split into several branches. My branch of the Yun Family is one of them, but unfortunately, its a declining one.

That inheritance site contains Origin Artifacts left by our ancestors, one of which is the Sword Dao Origin Artifact. It can rapidly enhance ones Sword Dao, and theres even a small chance to

transform ones Sword Dao talent. I want Yun Xi to enter there to greatly improve her Sword Dao, and even try to break through the limits of her Sword Dao talent.

Origin Artifacts, what are those? Ye Tian was very curious.

Elder Yun suddenly remembered that Ye Tian was just an Emperor and had never encountered Origin Artifacts, so he explained, Origin Artifacts are a level above nine star wondrous objects, also nurtured by heaven and earth. A small place like the Milky Way cannot nurture Origin Artifacts.

You just need to know that even planetary-level powerhouses find it difficult to obtain an Origin Artifact. Even the lowest level Origin Artifact can cause numerous planetary-level powerhouses to fight to the death.

A treasure above nine-star Wondrous Objects!!! Ye Tian finally understood the preciousness of Origin Artifacts.

The Hengpan Galaxy can produce some nine-star peerless Heavenly Prides because those powerful hegemonic forces control Origin Artifacts. For example, a Sword Dao genius, with the aid of a Sword Dao Origin Artifact, can quickly elevate their Sword Dao realm to 50%, 60%, or even 70% in a short period of time. How can other geniuses compete with that person? Elder Yun sighed.

Ye Tian nodded silently, agreeing with Elder Yuns statement.

The Hengpan Galaxy had resources and opportunities not found in other galaxies, which was one of the reasons other galaxies could hardly compete with it.

Initially, Ye Tian wasnt interested in escorting Yun Xi, but now that it involved Origin Artifacts, he was naturally very interested.

Elder Yun, Im not a member of the Yun Family. Can I still enter that inheritance site? Ye Tian asked.

Of course, you can! Elder Yun nodded, If it were many years ago, you wouldnt be able to enter. But now, the Yun Family has long been fragmented, and even some families pretending to be the Yun Family have emerged. Therefore, the ownership of that inheritance site hasnt

been truly established. Anyone with an inheritance token can enter that place, according to the rules set.

As long as you have the inheritance token, it doesn't matter whether you are a member of the Yun Family or not. No one delves into it.

However, another branch of the Yun Family is at enmity with me. If Yun Xi enters the Hengpan Galaxy, that branch will definitely know and will surely send Heavenly Prides to attack Yun Xi.

To my knowledge, the most powerful Heavenly Pride of that branch is also an eight-star peerless Heavenly Pride and does not have a nine-star peerless Heavenly Pride.

In that case, Elder Yun, I am willing to accept your request and escort Yun Xi to the Hengpan Galaxy! Ye Tian agreed.

Chapter 415: Spatial Divine Ability

Upon Ye Tian's agreement, Elder Yun took out a piece of paper, which turned out to be the last page of the Mira Sutra.

Here is the page from the Mira Sutra. Take it!

Elder Yun casually handed over this page of the Mira Sutra to Ye Tian.

Ye Tian excitedly accepted the page and promptly stored it away. Given that he was in the Yun residence, it was not convenient for him to examine the Mira Sutra there.

He planned to study the Mira Sutra in detail after leaving.

Heavenly Pride of Ten Thousand Laws, we will set off after a year. In this year, I plan to have Yun Xi cultivate diligently to enhance her strength. Moreover, the heritage site will not open until after a year, so there's no use going early.

After a year, come back here, and I will give you the heritage token that grants entry to that site!

Elder Yun was not worried about Ye Tian reneging on his promise.

Being a powerhouse at the planetary level, and Ye Tian merely at the Emperor level, even if he was a Heavenly Pride, it was unlikely he would never reach the God level. Thus, Elder Yun believed Ye Tian would not break his promise, as it would not be in his interest.

Moreover, Elder Yun was confident that Ye Tian would not give up on such a great opportunity and would surely arrive as scheduled.

Elder Yun, I will return after a year, Ye Tian promised.

Soon after, Ye Tian departed.

Elder Yun had a God-level powerhouse personally escort Ye Tian away from the star.

Within the fortress, Yun Xi asked, Grand Ancestor, do I really need to go to the ancestral heritage site?

Elder Yun gravely replied, You must go. Among the younger generation of our Yun family, you have the best talent. However, you are still somewhat weaker compared to other Heavenly Prides of the Yun family. Only by entering the ancestral heritage site can your strength undergo a transformation.

You are our Yun familys hope for rejoining the Hengpan Galaxy and gaining recognition from the other branches.

Yun Xi fell silent.

She knew that her great ancestors greatest wish was for their branch to return to the Hengpan Galaxy. However, due to certain events, their branch was forced to leave the Hengpan Galaxy. They could only return if their branch produced a powerful peerless Heavenly Pride.

For this reason, the Yun familys grand ancestor had been nurturing his descendants generation after generation.

Unfortunately, all had failed so far.

Some had decent talent but were killed by other Heavenly Prides upon entering the Hengpan Galaxy. Others lacked the talent or the opportunity to meet the requirements.

Now, Yun Xi had emerged with promising talent and rapid progress in the Yun family.

That's why Elder Yun pinned his hopes on Yun Xi, hoping she could change the Yun family's fate.

Great Ancestor, I will surely defeat the Heavenly Prides of other families and secure a place for our Yun family in the Hengpan Galaxy! Yun Xi declared seriously, her previous playfulness replaced by solemnity and determination.

After leaving the Yun family, Ye Tian quickly returned to Silver Universe Star aboard a cosmic spaceship.

Upon his return, Ye Tian began to study the Mira Sutra in his cultivation chamber.

His visit to the Yun family had been very smooth.

Not only did he successfully obtain the Mira Sutra, but he also gained a great opportunity. Although this opportunity might bring him some trouble, gaining such fortune without any hassle was unthinkable. If attracting trouble could bring great opportunities, he would prefer to encounter troubles every day.

Taking out the last page of the Mira Sutra, Ye Tian started to read it carefully.

Soon, he finished reading the page, his face showing a look of astonishment.

As he had guessed, this page did not contain any secret techniques but rather the purpose of the sutra itself, mentioning the use of the Spatial Absorption Technique.

The Spatial Absorption Technique could extract the power of space with the aim of condensing a Spatial Divine Body.

Once a Spatial Divine Body was condensed, all the secret techniques in the Mira Sutra would merge, forming the divine mark of a Spatial Divine Ability.

Spatial Divine Form!

This was the name of this divine ability.

Such a terrifying divine ability, Spatial Divine Ability! The Mira Sutra is a wondrous object, but its definitely man-made. The Dragon Race could consume the world force of a planet to nurture wondrous objects, and so could others.

The Mira Sutra must have been an attempt by some great being to nurture in the distant past, and the Spatial Divine Ability on it must be the legacy he left behind. Ye Tian speculated.

Elder Yun, upon seeing this page of the Mira Sutra, must have been aware of the existence of the Spatial Divine Form divine ability but chose not to collect the Mira Sutra.

This leaves only one explanation Elder Yun deemed the Spatial Divine Form Divine Power as insignificant, essentially unattainable.

Although the Spatial Divine Form Divine Power only required a Mystic-level talent to cultivate, which was different from other talents that required God-level talent. Mystic-level spatial talent far surpassed God-level talents of other abilities.

Within the Pan Star Field, even Pseudo-Mystic-level spatial talent was considered quite rare. Even those with Pseudo-Mystic-level spatial talent usually only achieved between ten to fifty percent, as advancing further was as difficult as ascending to the heavens.

For example, Ye Tian himself, after copying the Pseudo-Mystic-level spatial talent from other beings and experiencing the opportunity of a planets birth, along with the help of top-tier comprehension talent, finally managed to elevate his Pseudo-Mystic-level spatial talent to sixty percent.

As for advancing to seventy percent, Ye Tian also found it exceedingly difficult and was uncertain how long it would take to achieve.

Its easy to imagine, then, how difficult it would be for someone with spatial talent to elevate it to the Mystic level, unless they were a heaven-defying genius born with Mystic-level spatial talent.

But such a heaven-defying Heavenly Pride was probably unheard of even by Elder Yun.

Even if one were to obtain the Spatial Divine Form Divine Power, what use would it be besides serving as a decoration? Therefore, Elder Yun did not bother collecting the Mira Sutra.

However, Ye Tian was different. With his ability to copy talents, he truly could elevate his spatial talent to the Mystic level.

Although I cant cultivate the Spatial Divine Form now, if I enter the Hengpan Galaxy and encounter martial warriors or creatures with Pseudo-Mystic-level spatial talent, I can quickly elevate my spatial talent to the Mystic level.

Then, I will be able to cultivate the Spatial Divine Form!

Ye Tian was in high spirits. A spatial divine ability was far more valuable to him than the Five Elements Divine Ability.

With one year left before heading to the Hengpan Galaxy, Ye Tians current strength had reached a bottleneck, making it difficult to continue improving.

Thus, Ye Tian started working on enhancing his talents.

Ye Tians swordsmanship and palm technique talents had reached the Supreme level, but his claw technique talent needed to merge with a Dawn-level claw technique talent to ascend to the Supreme level.

After inquiring around, Ye Tian finally learned of a God with Dawn-level claw technique talent, approached him, and successfully copied the Dawn-level claw technique talent, elevating his own claw technique talent to the Supreme level.

Additionally, Ye Tian spent some time elevating his swordsmanship talent to the Supreme level as well.

Besides these, Ye Tian also maximized many other talents.

Aside from copying talents, Ye Tians main focus was on comprehending the Claw Dao and Palm Dao, and occasionally, the Sword Dao.

In this way, a year passed.

During this year, he made significant progress in the Claw Dao and Palm Dao. Even his swordsmanship, which had reached sixty-five percent, advanced further to sixty-six percent.

On this day.

Ye Tian left Silver Universe Star and arrived at the Yun familys planet.

Upon Ye Tians arrival, a God from the Yun family came out to escort him into the Yun residence.

Seeing Yun Xi again, Ye Tian noticed with his Insight Eye talent that she had broken through her bodys limits for the seventeenth time. Breaking the bodys limits twice in one year, especially the sixteenth and seventeenth times, showed the immense investment the Yun family had made in Yun Xi.

Moreover, Yun Xi must have cultivated divine abilities, and perhaps even mastered Super God-level sword techniques! With the entire Yun familys resources and the nurturing of a planetary-level powerhouse, Yun Xi might now be a six-star peerless Heavenly Pride!

Soon,

Elder Yun appeared. Heavenly Pride of Ten Thousand Laws, you are punctual.

Here are the heritage tokens, one for you and one for Yun Xi!

Elder Yun took out two heritage tokens and handed them to Ye Tian and Yun Xi.

Ye Tian accepted the token and stored it away.

After giving Yun Xi a few words of advice, Elder Yun allowed Yun Xi and Ye Tian to leave.

Outside the Yun familys star.

Ye Tian took out a six-star-level cosmic spaceship, and the two boarded it.

Heavenly Pride of Ten Thousand Laws, youve done well to acquire a six-star-level cosmic spaceship. With this, our journey to the Hengpan Galaxy wont take long! Yun Xi exclaimed in surprise.

Yun Xi, whats your current strength? I need to know your situation to protect you! Ye Tian asked.

Six-star peerless Heavenly Pride, close to the intermediate level. What about you? Yun Xi looked towards Ye Tian.

Among eight-star peerless Heavenly Prides, no one can kill you! Ye Tian confidently stated.

Chapter 416: Arriving at the Hengpan Galaxy

Among eight-star peerless Heavenly Prides, none can slay me.

Yun Xi was very surprised.

Ye Tians tone was perhaps a bit too grand, wasnt it? Such intense confidence was surely not a pretense, which meantIn the realm of eight-star Heavenly Prides, he is invincible!

Yun Xi speculated.

She wouldn't naively believe that Ye Tian possessed the strength of a nine star peerless Heavenly Pride. Therefore, a more likely scenario was that he was among the top of the eight-star peerless Heavenly Prides, truly invincible among them! With such a powerful expert for protection, Yun Xi felt much more at ease.

The Hengpan Galaxy encompasses at least tens of thousands of galaxies, but traveling in a straight line from the Milky Way to the Hengpan Galaxy requires passing through only dozens of galaxies.

Thus, with the speed of a six star level cosmic spaceship, it would take at most two months to reach the Hengpan Galaxy.

Along the way,

Ye Tian, finding himself rather bored, engaged in conversation with Yun Xi.

During their talks, Ye Tian inquired about the Hengpan Galaxy.

Yun Xi, do you know about the situation in the Hengpan Galaxy?

Ye Tian thought that since Yun Xi was from the Yun family, and the Yun family's ancestor was a Planetary level powerhouse, plus the fact that the Milky Way's Yun family was also a branch that originated from the Hengpan Galaxy even if they were now in decline they would still have considerable knowledge about the Hengpan Galaxy, far surpassing his own.

I know a bit!

Yun Xi began to share what she knew, The Hengpan Galaxy is vast, the largest within the Pan Star Field.

At the center of the Hengpan Galaxy lies a supermassive black hole, surrounded not by planets but by a starry continent.

This continent is known as the Hengpan Continent, the wealthiest region in the Hengpan Galaxy, where competition is fierce.

The headquarters of several dominant forces in the Hengpan Galaxy are located on the Hengpan Continent. These forces are true powerhouses; even if all the branches of the Yun family were to unite, they wouldn't stand a chance against them.

As Yun Xi narrated, Ye Tian learned the names of these dominant forces.

The Eternal Sect! Heartless Valley! Divine Desolation Hall! And the most mysterious, the Undying Legion! The Undying Legion was a military-based force, highly cohesive, and even the other three dominant forces dared not oppose it.

These four forces were the supreme rulers of the Hengpan Galaxy.

Below these dominant forces were numerous nine-star forces. The power structure in the Hengpan Galaxy was graded by stars, similar to the Milky Way, though it was rarely mentioned.

For instance, the previously mentioned Glory Pavilion was a five-star force, just stepping out into the wider world.

A force can be considered five star with a God level powerhouse at the helm. If a True God level powerhouse emerged, with over a hundred God level powerhouses, it can advance to six-star status. With a Great God level powerhouse and at least thirty True Gods, it can become a seven-star force.

By extension, an eight-star force must have a Planetary level powerhouse, and a nine-star force must have a Galaxy level powerhouse.

This illustrates that the four dominant forces possessed power beyond the Galaxy level.

Although the Yun family had a Planetary level powerhouse, Elder Yun, their number of Great God level powerhouses was scarce, not meeting the criteria for eight-star status. Thus, the Yun family was considered a pseudo-eight-star force, or rather, a top-tier seven star force.

Yun Xi's knowledge was limited, only extending to some forces within the Hengpan Galaxy.

As for which Heavenly Prides were present in the Hengpan Galaxy, she was unaware.

But Ye Tian had a basic understanding of the situation, which was better than being completely clueless.

Since Yun Xi was with him, Ye Tian couldnt conveniently use his time talent for cultivation, so there wasnt much progress on their journey to the Hengpan Galaxy.

In the blink of an eye, two months had passed.

One day,

Ye Tians cosmic spaceship passed through a spatial turbulence and arrived in the Hengpan Galaxy.

Upon entering the Hengpan Galaxy, Ye Tian immediately sensed different celestial rules.

Moreover, the density of cosmic energy in the starry sky was much richer than in other galaxies.

Hengpan Galaxy, Panyun Planetary System.

Panyun Star.

This was the Yun familys main planet! There were many Yun families in the Hengpan Galaxy, but the Yun family of Panyun Star was basically the strongest, though there were a few other Yun family branches not far behind. Combined, these branches could easily overpower the Yun family of Panyun Star.

However, the Yun family of Panyun Star often claimed to be the main lineage, regardless of whether the other branches acknowledged it or not; they were content in their self-proclaimed status.

At this moment,

In a grand hall within the Panyun Star Yun family,

An elder suddenly opened his eyes and made a prediction.

Yun Chen, that old fellow, has actually sent family members to the Hengpan Galaxy again. It seems he wishes for his descendants to enter the ancestral heritage site.

Hmph, the more descendants you send, the more will perish! Your branch is doomed to a complete downfall, never to set foot in the Hengpan Galaxy again!

The elder coldly stated.

Someone come!

The elders voice echoed.

Whoosh! A Great God level powerhouse appeared before him, respectfully saying, Elder Yun Zhen, what are your orders?

Notify them that the Yun family from the Milky Way has sent another descendant to the Hengpan Galaxy. Find her and then kill her. I dont want her entering the Yun familys ancestral heritage site!

Elder Yun Zhen commanded.

Yes!

After receiving the order, the Great God level powerhouse of the Yun family departed.

Elder Yun Zhen also resumed his cultivation, putting this matter out of his mind.

To him, this was but a trivial issue, merely requiring a simple command, unworthy of further attention.

Yun Xi, where is your Yun familys heritage site located?

Ye Tian inquired.

In the Panyun Planetary System!

Yun Xi frowned, saying, But the Yun family on Panyun Star is the strongest among all branches. To enter the heritage site, we inevitably have to confront the Heavenly Prides of the Panyun Star Yun family.

Most of the Panyun Star Yun family do not share our bloodline. Its said that this Yun family was originally just a servant who took a Yun family woman. Later, when the Yun family faced disaster, this servant seized the opportunity to take some of the Yun familys resources and reestablished the Yun family under his name, claiming to be the legitimate lineage, which is quite shameless Our branch is at odds with the Panyun Star Yun family, resulting in deep conflicts and ultimately being driven away.

We still have about half a years time; were not in a rush to enter the Panyun Planetary System. Lets find a place to settle down for now!

Ye Tian suggested.

Okay!

Yun Xi nodded.

She was completely following Ye Tians lead, as she still needed his protection before entering the Yun familys ancestral heritage site.

Soon after,

Ye Tian and Yun Xi arrived at the Ziya Planetary System in the Hengpan Galaxy.

Through the map, Ye Tian knew this star system was relatively ordinary in the Hengpan Galaxy, but it was home to a Planetary level powerhouse, the master of the Ziya Planetary System Lord Yaber!

Many Planetary level powerhouses liked to use the title Lord, such as the previously mentioned Unparalleled Lord and now Lord Yaber.

Of course,

What title one uses was a personal choice, as long as others recognized it.

Some people weren't too concerned about titles, like Elder Yun. The Ziya Planetary System was vast, with dozens of life-bearing planets, with the largest undoubtedly being Yaber Star, which was Lord Yaber's territory.

Ye Tian and Yun Xi decided to stay on Yaber Star for a while.

However,

Just a few days after Ye Tian and Yun Xi settled on Yaber Star, a Heavenly Pride arrived at their residence.

Those inside, come out. I wish to challenge you!

A voice filled with hostility entered the villa where Ye Tian was temporarily residing.

This was the capital city of Yaber Star, surrounded by many God level and above powerhouses.

Thus, when a Heavenly Pride issued a challenge, many God level and above powerhouses turned their attention to it.

Inside the villa,

Yun Xi's expression changed: Heavenly Pride of Ten Thousand Laws, someone has come to challenge us. We haven't revealed our identities; the Heavenly Prides of the Hengpan Galaxy shouldn't be targeting us. Could it be

It must be the Yun family. It seems they already know you've come to the Hengpan Galaxy!

Ye Tian said gravely.

Since they had been discovered, there was no need for Ye Tian and Yun Xi to hide any longer.

The two stepped out of the villa directly. Outside the villa,

Ye Tian and the incoming Yun family Heavenly Pride looked at each other, assessing each other.

He must be a seven star peerless Heavenly Pride!

Ye Tian guessed based on the others talent.

At that moment, the Heavenly Pride introduced himself: I am Jiang Huang, a Heavenly Pride of the Yun family, and I wish to challenge you!

Jiang Huang's finger pointed at Yun Xi.

This seemed like a typical challenge among Heavenly Prides, but Ye Tian's good-evil talent sensed unimaginable malice, which was actually murderous intent! Yun Xi was about to speak, but Ye Tian stopped her.

He stared at Jiang Huang, activating the Heavenly Pride mark on his forehead: I am the true Heavenly Pride. If you wish to challenge, let us face each other in combat!

Chapter 417: Slaying Four Heavenly Prides, the Yun Family in Fury

You!

Jiang Huang, a Heavenly Pride of the Jiang realm, stared at Ye Tian, his brow slightly furrowed.

He did not recognize Ye Tian, but seeing him stand beside Yun Xi, it was clear they were allies.

Perhaps this is a Heavenly Pride from the Yun family of the Milky Way who has befriended another Heavenly Pride and come together to the Hengpan Galaxy! Jiang Huang speculated.

From the information he had, Yun Xi and Ye Tian had arrived in the Hengpan Galaxy together, but there was no information about Ye Tian.

However, by aiding Yun Xi, Ye Tian became an enemy of the Yun family from Panyun Star.

If you wish to challenge me, very well, lets take this to space! Jiang Huang said coldly.

The capital of Yaber Star did not permit fighting. Even during the period of Heavenly Pride battles, the prides could not break this rule.

Moreover, the cities on Yaber Star were densely populated, and the clashes between Heavenly Prides could not affect others.

Therefore, if the Heavenly Prides wished to engage in combat, they had to move to the starry sky.

Lets go!

Ye Tian moved, flying towards the starry sky, with Yun Xi following.

Jiang Huangs face turned stern, and he too flew towards the starry sky.

At the same time, many strong beings above the God level also headed to the starry sky, eager to witness the spectacle.

In the starry sky, not far from Yaber Star, Ye Tian and Jiang Huang stood opposite each other.

Yun Xi stood not too far away. You should not have helped her!

Jiang Huang had barely spoken when he made his move.

A giant water dragon emerged in the starry sky, roaring as it charged towards Ye Tian.

This was not a water element talent, but a water element divine ability.

A water element divine ability? Well then, let me show you the power of a top-tier water element divine ability!

Ye Tian smiled slightly and used the Water Sinking Realm divine ability.

Whoosh! A barrier enveloped this part of the starry sky, covering both Ye Tian and Jiang Huang.

Water Sinking Realm, suppress!

With a thunderous boom, the water dragon divine ability, stretching for thousands of miles, instantly crumbled and vanished into the starry sky.

At the same time, Jiang Huang, suppressed by the Water Sinking Realm, was covered in blood, his body continuously cracking.

He might be a seven-star peerless Heavenly Pride, but Ye Tian was a top-tier eight-star peerless Heavenly Pride; the gap between them was too vast.

Even if the Water Sinking Realm was not Ye Tians strongest move, it was not something Jiang Huang could withstand.

I am a Heavenly Pride of the Yun family from Panyun Star; you cannot kill me!

Jiang Huang was in a panic, invoking the Yun family from Panyun Star, reminding Ye Tian not to kill him, or else the consequences would be beyond Ye Tians ability to bear.

However,

Ye Tian was not one to be threatened. Had Jiang Huang begged for mercy, Ye Tian might have only severely injured him and not killed him.

But since he dared to threaten Ye Tian, his fate was sealed.

The Water Sinking Realm divine ability was fully activated by Ye Tian! Jiang Huang was completely immobilized, feeling an immense pressure disintegrating his body.

Death was imminent.

Hurry up! Jiang Huang roared with his soul.

In the distance.

Three Heavenly Prides appeared, one charging at Yun Xi and the other two at Ye Tian.

These three Heavenly Prides were the other three seven-star peerless Heavenly Prides of the Yun family! This showed the strength of the Yun family from Panyun Star, who could easily dispatch four seven-star peerless Heavenly Prides, a feat impossible for the Milky Way and the Andromeda Galaxy.

Courting death!

Ye Tian no longer held back.

With a single thought, he activated the Water Sinking Realm to kill Jiang Huang, then instantly moved to Yun Xis side.

The Yun familys Heavenly Pride did not expect Ye Tian to move so swiftly and attempted to flee, but Ye Tian eliminated him with a single strike.

At this point.

The other two seven-star peerless Heavenly Prides were stunned.

Ye Tian far exceeded their expectations, clearly a powerful eight-star peerless Heavenly Pride.

How could the two of them stand against an eight-star peerless Heavenly Pride? Together, they were merely courting death.

Escape!

The thought crossed their minds.

Immediately, they flew together and tore a spatial talisman.

With a whoosh, a spatial rift appeared in the starry sky, swallowing the two, who then vanished.

This spatial talisman allowed them to phase into space and leave, akin to the effect of the Xumi Escape Technique.

This highlighted the preciousness of the spatial talisman.

They wanted to flee, but Ye Tian was not about to let them escape easily.

Thinking of escaping?

Ye Tian snorted inwardly.

Xumi Eye!

Under this secret technique, Ye Tians gaze pierced through the void, spotting the two seven-star peerless Heavenly Prides flying at high speed deep within the space.

Void God Sword Technique!

With one slash, he pierced through space.

Ye Tian accurately grasped their trajectory and was fast enough.

In the far distance, two figures fell from the space, clearly the ones whose spatial talisman had been destroyed by Ye Tians slash.

At this moment.

The two Heavenly Prides of the Yun family were not yet dead, but severely injured. But before they could react, Ye Tians blade descended once again.

Poof poof! The two seven-star peerless Heavenly Prides of the Yun family were thoroughly slain! Thus, four seven-star peerless Heavenly Prides of the Yun family fell in this part of the starry sky.

For a moment, the powerhouses around were stunned.

The Yun family from Panyun Star also had a significant reputation in the Hengpan Galaxy, considered a pseudo nine-star force.

Other Heavenly Prides, even if they defeated a Heavenly Pride of the Yun family, would give the Yun family face and not kill their Heavenly Prides.

But now, Ye Tian had killed four seven-star peerless Heavenly Prides of the Yun family in one go.

A little killing god!

Many martial warriors commented.

They were unaware of the grievances between Yun Xi and the Yun family from Panyun Star, nor did they know that these Yun family Heavenly Prides came to kill Yun Xi; otherwise, they wouldn't have thought this way.

Ye Tian, killing them will bring great trouble!

Yun Xi came over and whispered.

Even without killing them, the Yun family from Panyun Star would still not let you go.

I promised to protect you, which means we must be enemies with the Yun family from Panyun Star, and they would surely want to put me to death.

Don't worry, unless the Yun family from Panyun Star has a nine-star peerless Heavenly Pride, no one can do anything to me!

Ye Tian was not worried at all, rather somewhat pleased.

For him, the Heavenly Prides of the Yun family from Panyun Star were delivering destiny to him! For instance, the four seven-star peerless Heavenly Prides just now provided Ye Tian with more destiny than defeating an eight-star peerless Heavenly Pride.

Just now, by killing the four seven-star peerless Heavenly Prides of the Yun family, his destiny soared to over 500th place.

Yun family, send more Heavenly Prides, preferably to help me raise my destiny to the top 100!

Ye Tian thought.

Soon after, Ye Tian and Yun Xi returned to Yaber Star.

Not long after, the Yun family from Panyun Star also learned about the death of the four seven-star peerless Heavenly Prides.

Immediately, the Yun family from Panyun Star was enraged.

The first thing, the Great God-level powerhouse responsible for the attack on Yun Xi came before Elder Yun Zhen to admit guilt.

The mission failed, and four seven-star peerless Heavenly Prides died. Is this how you handle things?

Elder Yun Zhen was extremely angry.

Although the Yun family was large and wealthy, cultivating a Heavenly Pride also required a lot of resources, let alone four seven-star peerless Heavenly Prides.

Those four seven-star peerless Heavenly Prides could have become top-tier Great God-level powerhouses in the future, absolutely the pinnacle of the Yun familys combat force.

But now, due to one mistake, four seven-star peerless Heavenly Prides fell.

Elder Yun Zhen, I didnt expect that little girl from the Yun family in the Milky Way to have an eight-star peerless Heavenly Pride by her side. If I had known, I would have sent an eight-star peerless Heavenly Pride to kill him!

The Great God-level of the Yun family said in panic.

So you mean to send an eight-star peerless Heavenly Pride? Our Yun family only has three eight-star level peerless Heavenly Prides. Without understanding the opponents strength, you want an eight-star peerless Heavenly Pride to take the risk? If another one falls, who will bear the responsibility, you? Humph, your value is not even comparable to an eight-star peerless Heavenly Pride!

Elder Yun Zhen rebuked.

Elder Yun Zhen, I was wrong, please instruct me!

This Great God-level fell to his knees, prostrating and pleading.

Lets not bother with those two for now. Lets wait for Yun Xingling to return.

Then, well have our three eight-star peerless Heavenly Prides join forces to attack that eight-star peerless Heavenly Pride. Then, well definitely be able to kill him! Elder Yun Zhen planned.

Yun Xingling was the top Heavenly Pride of the Yun family from Panyun Star, possessing the strength of a top-tier eight-star peerless Heavenly Pride, while the other two eight-star peerless Heavenly Prides were of medium or lower-medium strength.

But with three eight-star peerless Heavenly Prides joining forces, along with some of the Yun familys trump cards, they could even surround and kill a top-tier eight-star peerless Heavenly Pride.

As long as the three eight-star peerless Heavenly Prides all returned, in his view, killing Ye Tian would be effortless.

Elder is wise! The Great God-level quickly praised.

Now get out, Im annoyed just looking at you! Elder Yun Zhen said angrily.

Yes, yes, yes!!! The Great God-level quickly retreated.

In the empty hall, after a long time, Elder Yun Zhens murmuring voice finally emerged again.

Yun Chen, this time you actually found an eight-star peerless Heavenly Pride to protect your Yun familys younger generation, huh? Do you think you can succeed like this? I will make you despair once again!!!

Chapter 418: Eighty Percent Pseudo-Mystic Level Spatial Talent

With the Yun family from Panyun Star not dispatching any more Heavenly Prides, Ye Tian found himself relatively free.

In fact, Ye Tian was still hoping that the Yun family from Panyun Star would send someone.

In the following days, Ye Tian occasionally practiced cultivation, and sometimes he also explored the talents of other people on Yaber Star, but unfortunately, he didnt gain much.

He originally wanted to copy a Cosmic level cultivation talent, but the highest cultivation talent he found was only of the Hong level.

However, he thought that those with Cosmic level cultivation talents must become Galaxy level powerhouses, which were much rarer than nine-star peerless Heavenly Prides.

Thus, it was not surprising that small Yaber Star did not have anyone with Cosmic level cultivation talents.

Although Yaber Star did not have anyone with Cosmic level cultivation talents, it did have individuals with Pseudo-Mystic level spatial talents, and not just one, but two.

One of them was at the Emperor level, and the other was a True God.

The Emperor level individual was not a Heavenly Pride but a seven-star Emperor.

Ye Tian easily found this seven-star Emperor and then secretly copied his 10% Pseudo-Mystic spatial talent.

As for the True God, he rarely made appearances and was a trusted subordinate of Lord Yaber. He was often in seclusion.

His seclusion area was enveloped by a law formation, making it impossible for Ye Tians copy talent to penetrate, thus he couldnt copy the spatial talent and had to keep watch continuously.

Three months later, on this day.

Ye Tian finally caught the moment when this True God came out of seclusion.

When the True God emerged, Ye Tians copy talent enveloped him.

Human: Yuan Gang

Cultivation talent: Desolate level

Strength talent: Mystic

Speed talent: Mystic

Defense talent: Mystic

Spear technique talent: Morning Star

Spatial talent: Pseudo-Mystic 30%

Yuan Gangs other talents were quite good for ordinary warriors, but they were very poor compared to the talents of Heavenly Prides.

However, this was also quite normal. Most warriors with good cultivation talents did not receive proper nurturing, making it difficult for them to develop God level talents, and after becoming a God level, it became even harder to improve their talents.

Unlike Ye Tian, who could copy and merge talents, the level of talents did not limit him.

But not everyone could do this!

Strictly speaking, Yuan Gangs talents were considered good among the True Gods, and he also possessed 30% Pseudo-Mystic level spatial talent, which also meant his strength was not weak, making him definitely powerful among the True Gods!

30% Pseudo-Mystic level spatial talent, copy!

Ye Tian copied the spatial talent in a thought and left contentedly.

After returning, Ye Tian began to merge this Pseudo-Mystic level spatial talent, and ten minutes later, Ye Tians spatial talent underwent a change.

[Spatial Talent: Pseudo-Mystic 80%]

Previously, Ye Tians Pseudo-Mystic spatial talent was only sixty percent, but now it had suddenly become eighty percent Pseudo-Mystic level spatial talent. Such a significant improvement was not something ordinary opportunities could achieve.

Even if Ye Tian was given another chance for a planetary birth opportunity, he wouldnt be able to use it to increase his spatial talent from sixty percent Pseudo-Mystic to eighty percent Pseudo-Mystic.

This showed how extraordinary Ye Tians copy talent was.

With the spatial talent increasing from sixty percent Pseudo-Mystic to eighty percent Pseudo-Mystic level, Ye Tians strength improved slightly, but it still did not break through the bottleneck between the eight-star peerless Heavenly Prides and the nine-star peerless Heavenly Prides.

The gap between the eight-star peerless Heavenly Prides and the nine-star peerless Heavenly Prides was quite significant, and Ye Tians strongest attack method was not his spatial talent, so a slight improvement in spatial talent hardly led to a significant transformation in strength.

In the next two months.

Ye Tian explored his spatial talent further and developed two more techniques.

One was a spatial corridor.

He could create a spatial corridor, trapping someone inside, where they would continuously loop within the space, unable to escape.

This was an excellent method for trapping enemies.

The other was group teleportation, which allowed him to instantly teleport multiple people to a faraway place. This ability was very powerful for escaping and saving others, as it could instantly teleport someone from a great distance to another place.

For example, if Yun Xi was in danger and was blocked far away, unable to reach her in time, he could activate the group teleportation ability to instantly wrap and teleport Yun Xi to another place.

In this way, it was almost impossible for others to kill Yun Xi!

80% Pseudo-Mystic level spatial talent, if I copy one or two more Pseudo-Mystic level spatial talents, I will be able to successfully upgrade my spatial talent to the Mystic level!

Ye Tian was looking forward to it.

If it were not for the need to protect Yun Xi, he would want to leave Yaber Star now and go to other planets in the Hengpan Galaxy to find warriors with Pseudo-Mystic level spatial talents and copy their talents.

Unfortunately, he not only needed to protect Yun Xi, but the ancestral land of the Yun family was also about to open.

During this critical period, he naturally couldn't leave.

On this day, Ye Tian and Yun Xi left Yaber Star, preparing to head to the Panyun Planetary System.

As one could imagine, there would be numerous obstacles ahead, and once they entered the Panyun Planetary System, a great battle was inevitable.

Yun Xi was very nervous! Her strength was weak, being only a six-star peerless Heavenly Pride. In the Milky Way. This was enough to crush most Heavenly Prides, but in the Hengpan Galaxy, it was quite ordinary.

Not to mention comparing to those Supreme-level peerless Heavenly Prides, even compared to the top Heavenly Prides of the Yun family in Panyun Star, she was somewhat inferior.

Therefore, she could only rely on Ye Tian! But the Yun family was very powerful. According to her investigations over the past half year, the Yun family had three eight-star peerless Heavenly Prides, including one top-tier eight-star peerless Heavenly Pride, which indeed surprised her, and even her ancestor Yun Chen hadn't expected the Yun family of this generation to produce such Heavenly Prides.

The Milky Way was too far from the Hengpan Galaxy, and Yun Chen couldn't enter the Hengpan Galaxy, so it was normal not to have clear information.

Hopefully, the Heavenly Pride of Ten Thousand Laws can successfully lead me into the ancestral inheritance land! Yun Xi hoped so.

Soon, they arrived at the Panyun Planetary System. Yun Xi, we need to leave the spaceship now! Ye Tian reminded.

Okay! Yun Xi nodded.

After leaving the cosmic spaceship, they flew towards a certain location in the Panyun Planetary System.

That place was the ancestral inheritance land of the Yun family! And the moment Ye Tian and Yun Xi entered the Panyun Planetary System, the Yun family became aware of it.

The Yun family's detection system covered the entire Panyun Planetary System. They could detect even a fly entering the system, let alone a cosmic spaceship! On Panyun Star, within the Yun family.

The Elder Yun Zhen immediately gathered the three eight-star peerless Heavenly Prides of the clan upon receiving the news of Yun Xi and Ye Tian's arrival.

By this time, these three eight-star peerless Heavenly Prides had already returned.

Soon, the three eight-star peerless Heavenly Prides arrived.

Greetings to Elder Yun Zhen! They all paid their respects.

Just now, the news came that Yun Xi from the Milky Ways Yun family and the Heavenly Pride of Ten Thousand Laws, who killed four of our seven-star peerless Heavenly Prides, have arrived in the Panyun Planetary System. Their target must be the ancestral inheritance land. That is our Yun familys ancestral ground. The Milky Ways Yun family is just a branch that was expelled, not worthy of entering our ancestral land. You three go and kill that Heavenly Pride of Ten Thousand Laws and Yun Xi from the Yun family, and show no mercy! Elder Yun Zhen ordered.

Yun Xingling immediately spoke, Elder, I alone am enough to kill them!

The previous four seven-star peerless Heavenly Prides thought the same as you. Remember, I want absolute certainty. Do you understand? Elder Yun Zhen did not give Yun Xingling any face and coldly rebuked him on the spot.

Yun Xingling was frightened and quickly responded, Yes, Elder!

Take this! Elder Yun Zhen casually threw a blood-colored small sword to each of the three eight-star peerless Heavenly Prides.

What is this? Yun Xingling carefully looked at the blood-colored small sword in his hand, shuddering and almost throwing it away in fear.

Elder, this wouldnt happen to be the Blood Devouring Sword, would it? Yun Xingling asked tremblingly.

Indeed, it is the Blood Devouring Sword! Elder Yun Zhen said solemnly, This is just a precaution. The Blood Devouring Sword is indeed a one-time weapon created by a certain demon, very cruel. But even if you use it, no one will blame you. As for the 100 years of

lifespan consumed by using the Blood Devouring Sword and the period of weakness, I will compensate you after the task is completed. Any more questions?

No! Yun Xingling shook his head, not daring to question Elder Yun Zhens decision.

Although he was an eight-star peerless Heavenly Pride, his cultivation talent was only of the Desolate level, with no chance of reaching the Planetary level in the future, and he could never surpass Elder Yun Zhen in his lifetime.

Therefore, he had no right to refute Elder Yun Zhens decision! He could only obey Elder Yun Zhens orders.

Chapter 419: Battle Against Three Eight-Star Peerless Heavenly Prides

Yun Xingling and the other two eight-star peerless Heavenly Prides sheathed their Blood Devouring Swords and bid farewell to the great elder Yun Zhen before departing.

Their mission was to intercept Ye Tian and Yun Xi.

Yun Xingling was not worried about this mission. He believed he could handle Ye Tian and Yun Xi on his own, without the need for the other two eight-star peerless Heavenly Prides, let alone the Blood Devouring Sword.

However, since Elder Yun Zhen instructed him to take the Blood Devouring Sword, he dared not leave it behind. But he was determined not to use it unless it was absolutely necessary.

The use of the Blood Devouring Sword had more side effects than just the two mentioned by Elder Yun Zhen.

Losing 100 years of lifespan was not a big deal, as it could be compensated with life-extending elixirs. The period of weakness would last at most two or three months, and with specific elixirs, it could even be reduced to ten to fifteen days.

But the biggest downside of using the Blood Devouring Sword was the damage to ones foundation.

Once the foundation was damaged, it would be extremely difficult to repair.

If Yun Xingling used the Blood Devouring Sword, it would not significantly impact his progression to God level, but his chances of becoming a Child of the Universe would be dashed.

He was already at the pinnacle of eight-star peerless Heavenly Prides and even had a chance of advancing to a nine-star peerless Heavenly Pride.

He had a slight opportunity to become a Child of the Universe, even though the probability was very low, no one would want to extinguish that glimmer of hope. If he used the Blood Devouring Sword, he might as well not participate in the Heavenly Pride battle and directly aim for the God level. However, he had no intention of giving up the chance to become a Child of the Universe.

Even without the Blood Devouring Sword, I can still kill you, Heavenly Pride of Ten Thousand Laws, Yun Xingling thought to himself.

There was a forbidden area in the Pan Yun Planetary System.

This forbidden area was a star, but not only was it unsuitable for human habitation, it also posed a great danger even to Emperors.

This star was named Yun Jue Star, and it was filled with a rare toxin. This toxin posed little threat to beings above God level, but for martial warriors below God level, 99% who entered Yun Jue Star would perish, with only the top-tier Heavenly Prides capable of surviving.

The ancestral land and legacy of the Yun family was located on Yun Jue Star, specifically within a world on the star.

Ye Tian and Yun Xi had already arrived in the starry sky where Yun Jue Star was located.

Is this the place? Ye Tian asked, looking at Yun Xi.

This is it. However, we seem to have arrived a bit early. It will probably take another two or three days for the ancestral legacy site to truly open, Yun Xi replied.

No problem, we can wait for two days, Ye Tian said indifferently.

Yun Xi nodded, her brow furrowed as she scanned the surroundings with her divine sense.

The expected ones will still come. Dont worry, with me here, no one can hurt you, Ye Tian reassured her.

Yun Xi nodded slightly, her furrowed brow relaxing a bit.

As time passed, a luxurious six-star cosmic spaceship appeared in the distant void.

Is it the Yun family from Panyun Star? Yun Xi suddenly became nervous.

Ye Tian shook his head, It shouldnt be the Yun family from Panyun Star. Panyun Star is not too far from here, so theres no need for them to come by spaceship. Their Heavenly Prides could just fly here directly. I suspect these are Heavenly Prides from other branches of the Yun family.

The spaceship halted, and more than a dozen Heavenly Prides flew out from within.

Soon, these Heavenly Prides stood not far from Ye Tian, looking at him and Yun Xi with curiosity about their identities.

We are Heavenly Prides from the Yun family of Flying Emperor Star. Which branches Heavenly Prides are you? I dont seem to have seen you before, one of the Heavenly Prides inquired curiously.

Yun Xi hesitated for a moment before responding, I come from the Milky Way galaxy.

The Milky Way?! Most of the Heavenly Prides, puzzled by the mention of the Milky Way, showed confused expressions, but a few of them looked surprised.

Are you from the Yun family of the Milky Way, the one expelled by the Yun family of Panyun Star? one of the Heavenly Prides asked in shock.

Thats right, its that Yun family, Yun Xi confirmed.

Youve got quite the nerve! The Heavenly Pride remarked in surprise.

In their view, the Yun family of the Milky Way should not dare to send Heavenly Prides here, otherwise, the Yun family of Panyun Star would surely intercept the Milky Ways Heavenly Prides.

These Heavenly Prides kept their distance from Ye Tian, flying a bit farther away to avoid any misunderstanding with the Yun family of Panyun Star.

After all, among all the branches, the Yun family of Panyun Star was the most dominant, and their Heavenly Prides were the strongest.

Suddenly, a group of Heavenly Prides flew over from the distance.

Leading them were three Heavenly Prides, their gazes fixed intently on Ye Tian and Yun Xi.

Its the Heavenly Prides from the Yun family of Panyun Star. This is going to be interesting! a Heavenly Pride from the Yun family of Flying Emperor Star murmured quietly.

Boom! Led by Yun Xingling, the three eight-star peerless Heavenly Prides unleashed the formidable aura unique to those of their caliber.

With weapons in hand, their killing intent was palpable.

Heavenly Pride of Ten Thousand Laws, you dared to kill four of our Yun familys seven-star Heavenly Prides. This time, no one will be able to save you. Youre as good as dead! Yun Xingling declared furiously.

His words shocked the Heavenly Prides from Flying Emperor Star. They had not been paying attention to the affairs of the Heavenly Prides from the Yun family of Panyun Star and were completely unaware of the loss of four seven-star peerless Heavenly Prides.

The fall of four seven-star peerless Heavenly Prides was a massive loss.

If it were their families, they would not be able to withstand such a loss.

Are you also seeking death? Ye Tian retorted coldly.

You are the one who will die! Yun Xingling countered.

Boom! The three eight-star peerless Heavenly Prides flew over, surrounding Ye Tian.

Though it seemed unfair to be three against one, Yun Xingling dared not disobey the orders of Elder Yun Zhen.

The Yun family could not afford any mishaps; Ye Tian had to be eliminated.

Meanwhile, Ye Tian used his copying talent to assess the talents of the three eight-star Heavenly Prides.

The talents of the other two Heavenly Prides did not concern Ye Tian much, but Yun Xinglings talent caught his attention.

Yun Xingling actually possesses a supreme swordsmanship talent! Ye Tian was quite surprised; this was the first time he encountered a Heavenly Pride with a supreme swordsmanship talent.

Moreover, Yun Xinglings other talents were mostly at the God level, and he had also broken through his nineteenth physical limit.

What caught Ye Tians attention was Yun Xinglings God-level wind talent.

Given the resources of the Yun family, Yun Xingling must have mastered a top-tier wind divine ability.

Rumors have it that Yun Xingling is among the top eight-star peerless Heavenly Prides. He must have cultivated this top-tier wind divine ability to at least the minor or even major accomplishment stage! Ye Tian surmised.

As expected, Yun Xingling made his move, immediately using his signature top-tier wind divine ability.

The Windless Blade!

Pfft! A sliver of wind law transformed into a Windless Blade, slicing towards Ye Tian at an astonishing speed, catching even him by surprise.

Ye Tians spatial barrier was shattered, along with various other defenses.

The delays caused by his defenses bought Ye Tian enough time to teleport.

A short distance away, Ye Tian reappeared.

He examined his arm, where a cut from the Windless Blade had broken his skin.

As expected of a top eight-star peerless Heavenly Pride, to have cultivated a top-tier wind divine ability to the major accomplishment stage! Ye Tian was quite surprised. However, he felt that Yun Xingling could not have achieved this solely through his own efforts; he must have been assisted by a wind elemental origin artifact.

Dimensional Cube artifact!

Spatial Imprisonment!

Spatial Collapse!

Phantom Gold Thread divine ability!

Great Flame Extinguishing Hand!

Void God Sword Technique!

XumiPalm!

Ye Tian no longer held back, unleashing his full strength and demonstrating the combat capabilities of a top eight-star peerless Heavenly Pride.

For a time, Ye Tian and the three eight-star peerless Heavenly Prides from the Yun family were locked in intense combat, causing the surrounding space to fracture.

Suddenly, at the cost of taking a direct hit from Yun Xingling, Ye Tian grievously wounded one of the Yun familys eight-star peerless Heavenly Prides, forcing him to withdraw from the battle.

Soon after, Ye Tian found another opportunity and severely injured another eight-star peerless Heavenly Pride from the Yun family.

Now, Ye Tian only had to face Yun Xingling.

Damn it, his recovery speed is too fast. He took two of my full-powered strikes head-on, clearly getting injured, but now it seems like nothing happened! Yun Xingling felt helpless.

Chapter 420: The Ineffectiveness of the Blood Devouring Sword, Two Eight-Star Heavenly Prides Fall

Yun Xingling was unaware that Ye Tian possessed multiple talents for healing injuries. Unless he was completely at a disadvantage, attacks from Heavenly Prides of the same level couldnt inflict significant harm on him.

Ye Tian was a top-tier eight-star peerless Heavenly Pride, and so was Yun Xingling.

However, in terms of true strength, Ye Tian was slightly more powerful.

Therefore, it was impossible for Yun Xingling to seriously injure Ye Tian unless Ye Tian stood still and didnt activate any of his talents.

Unfortunately, such a scenario was impossible! At this moment, Ye Tian had no injuries, but Yun Xingling had been wounded by him.

Following this rhythm, Yun Xingling was bound to be defeated in the end.

The two eight-star peerless Heavenly Prides who had already retreated from the battlefield exchanged glances.

They began to communicate through their divine senses.

Yun Xingling is probably not a match for that Heavenly Pride of Ten Thousand Laws. We must eliminate one first.

Yun Xi, who belongs to the Yun family of the Milky Way, is our primary target for assassination.

Indeed, while the Heavenly Pride of Ten Thousand Laws is occupied by Yun Xingling, we should kill the one named Yun Xi from the Milky Ways Yun family.

After discussing their plan, they took action.

Despite their serious injuries, they had just consumed a healing treasure, which had significantly alleviated their wounds.

With their eight-star peerless Heavenly Pride strength, dealing with a Heavenly Pride like Yun Xi was more than enough, even to the point of instant kill.

In an instant, the two eight-star peerless Heavenly Prides from the Panyun Stars Yun family rushed towards Yun Xi.

This is bad!

Yun Xis expression drastically changed.

She was merely a six-star peerless Heavenly Pride, while the two Heavenly Prides from the Panyun Stars Yun family were eight-star peerless Heavenly Prides. Even with injuries, it would only take them a move to kill her.

On the other side, Ye Tian, even amidst intense battle, always kept an eye on Yun Xi.

When the other two eight-star peerless Heavenly Prides charged at Yun Xi, he naturally noticed.

In an instant, he deployed a group teleportation spatial ability.

In a flash, both Ye Tian and Yun Xi disappeared and reappeared far away.

Whats going on?

The two eight-star peerless Heavenly Prides from the Panyun Stars Yun family were baffled.

They had clearly reached Yun Xi and were about to kill her with a move, but Yun Xi vanished in an instant, faster than their reaction speed.

Its the group teleportation of spatial talent. I didnt expect his spatial talent to be so advanced!

Yun Xingling, with his extensive knowledge, recognized Ye Tians ability at a glance.

What, its the group teleportation of spatial talent!

Not only were the other two eight-star peerless Heavenly Prides from the Yun family shocked, but even the Heavenly Prides from the Flying Emperor Stars Yun family watching from afar were utterly astonished.

To them, group teleportation was undoubtedly a legendary spatial talent ability.

This ability appeared right before their eyes.

With the Heavenly Pride of Ten Thousand Laws possessing group teleportation ability, its impossible for the Heavenly Prides from the Panyun Stars Yun family to kill the Heavenly Pride from the Milky Ways Yun family.

A Heavenly Pride from the Flying Emperor Stars Yun family commented.

Yun Xi, enter my Xumi Realm! Ye Tian suggested.

Alright! Yun Xi agreed without hesitation.

Her strength was too weak, potentially distracting Ye Tian. If she entered Ye Tians Xumi Realm, then Ye Tian could fight with all his might.

Go in! Ye Tian opened his palm and sucked Yun Xi into the Xumi Realm at the center of his hand.

Without the burden of Yun Xi, Ye Tians fighting spirit surged.

In a flash, Ye Tian teleported, intending to kill those two Heavenly Prides, but at that moment, Yun Xingling stopped Ye Tian.

However, at that moment, Ye Tian deployed another ability of the spatial talent.

Spatial Corridor! With a booming sound, the void trembled, and the three eight-star peerless Heavenly Prides from the Panyun Stars Yun family vanished from this star field.

At this time, Yun Xingling entered one of Ye Tians spatial corridors, while the other two eight-star peerless Heavenly Prides entered another.

In essence, Ye Tian separated the three of them.

But Yun Xingling, with his top-tier eight-star peerless Heavenly Pride strength, forcefully broke through the spatial corridor and returned back.

However, Ye Tian then entered another spatial corridor he had set up.

He planned to eliminate the two eight-star peerless Heavenly Prides first, then return to deal with Yun Xingling.

Inside the spatial corridor.

The two eight-star peerless Heavenly Prides from the Panyun Stars Yun family looked around at the numerous spatial corridor passages.

No matter how they flew, they couldn't leave this place.

Clearly, this was a looping corridor.

Therefore, the two of them began to attack the spatial corridor with all their might. As eight-star peerless Heavenly Prides, the spatial corridor indeed couldn't confine them, but breaking through it would take some time. However, at that moment, Ye Tian entered the scene.

Not good, quickly deploy the Blood Devouring Sword!

The faces of the two eight-star peerless Heavenly Prides changed drastically.

At this point, if they didn't deploy the Blood Devouring Sword, they feared they would lose their lives. If their lives were at stake, they wouldn't worry about any foundational damage. Even if their foundations were damaged, they were willing to bear the consequences as long as they could survive.

Two Blood Devouring Swords appeared in their hands, frantically devouring their vitality and blood.

A terrifying aura emanated from the two Blood Devouring Swords, causing the entire spatial corridor to crack.

This is bad!

Ye Tian felt the terrifying energy and extraordinariness of the two Blood Devouring Swords.

Suddenly.

The two Blood Devouring Swords transformed into two beams of blood light, charging towards Ye Tian.

Xumi Escape Technique!

Ye Tian deployed the Xumi Escape Technique recorded in the Mira Sutra, attempting to instantly evade and avoid the two beams of blood light.

But just as he phased into space, the two beams of blood light seemed to penetrate all his defenses and struck his body.

At that moment, the terrifying energy contained within the two beams of blood light erupted, seemingly about to devour Ye Tians vitality.

Normally, if a Heavenly Pride were struck by these two beams of blood light, much of their vitality might be devoured, greatly reducing their lifespan and weakening their strength even if they didnt die.

However, Ye Tian astonishingly discovered that the energy contained within the blood light was similar to the energy of the undead, also associated with death, capable of eroding others flesh and consuming their vitality and lifespan.

The two Blood Devouring Swords were undoubtedly extremely terrifying energy weapons.

But Ye Tian was not afraid of such energy; he had mastered the Art of Immortality, capable of eroding and devouring a large amount of undead energy.

Moreover, he possessed a top-tier undead talent.

Therefore, the blood light transformed by the two Blood Devouring Swords couldnt harm Ye Tian at all. In just a moment, Ye Tian suppressed the energy eruption and quickly refined the blood light energy.

You are alright?

The two eight-star peerless Heavenly Prides showed incredulous expressions.

In the Hengpan Galaxy, the Blood Devouring Sword was considered a forbidden weapon. They had never heard of any peerless Heavenly Pride who could ignore the Blood Devouring Sword.

Some dominant forces had also created weapons and equipment to resist the Blood Devouring Sword, but such weapons and equipment were extremely rare.

They didnt believe Ye Tian possessed such equipment, and even if he did, it wasnt about ignoring the Blood Devouring Sword but merely resisting it! Yet Ye Tian was clearly struck by the blood light transformed by the Blood Devouring Sword.

But Ye Tian was unharmed, and they were in trouble.

Originally, they were already seriously injured, and forcibly activating the Blood Devouring Sword had almost devoured all their blood. Furthermore, 100 years of their lifespan were absorbed, exacerbating their injuries.

At this point, their combat power was barely a tenth of their full strength.

Void God Sword Technique!

Ye Tian fully deployed the Void God Sword Technique, striking twice in succession.

Stop!

A shout came from the distant starry sky.

But unfortunately, it was too late. The light from Ye Tians Void God Sword Technique pierced through the bodies of the two eight-star peerless Heavenly Prides.

The bodies of the two eight-star peerless Heavenly Prides disintegrated instantly, all their cells obliterated, turning into ash, and they fell completely.

Boom! Ye Tian emerged from the spatial corridor.

Yun Xingling was about to make a move, but a figure blocked him.

Seeing the person before him, Yun Xingling respectfully said, Elder Yun Zhen!

Elder Yun Zhen ignored Yun Xingling and stared intently at Ye Tian.

He wanted to take down Ye Tian but didnt dare to.

Why did you still kill our Yun familys two eight-star peerless Heavenly Prides even after I told you to stop?

Elder Yun Zhen questioned.

They wanted to kill me, so I killed them. Isnt that only natural? Although you are a Galaxy-level powerhouse, you cant intervene in battles between Heavenly Prides.

Could it be that only the Heavenly Prides of your Yun family cant die, while others can? Do you intend to dominate the battles between Heavenly Prides?

Ye Tian immediately put the Yun family in a difficult position.

When it came to battles between Heavenly Prides, Elder Yun Zhen showed a fearful expression and quickly said, What nonsense are you spouting? When did I intervene in battles between Heavenly Prides?

The battle and killing among Heavenly Prides, your command for me to stop, isn't that intervention? What if your words distracted me, leading to a mistake in the battle, then the outcome would be different.

If everyone acted like you, what would be the point of battles between Heavenly Prides? Ye Tian said coldly.

You

Elder Yun Zhen was extremely angry but had no rebuttal.

So he simply remained silent.
