

Talent 441

Chapter 441: Agreement Reached, Comprehending the Origin Artifact of Saber Dao

For others, five years might just be five years, but for Ye Tian, it was far more than that. Possessing a time talent, he could accelerate time by thirtyfold, making five years equivalent to 150 years for him.

Comprehending the Saber Dao Origin Artifact for 150 years was baffling. Coupled with Ye Tians top-tier comprehension talent, which could amplify his understanding by twentyfold, he could easily elevate his comprehension of the Saber Dao to an exceedingly high level until the Saber Dao Origin Artifact was no longer of much use to him.

Once his realm in the Saber Dao improved to over 75%, Ye Tian could then cultivate the supreme level saber technique Heartless God Saber Technique. By then, his strength would once again increase significantly.

Our Sword Emperor Sects Origin Artifacts are mostly related to the Sword Dao. We did acquire an Saber Dao Origin Artifact once, but it has been sealed in the treasury, accessible only by the Sect Master.

I will need to consult the Sect Master after I return, which will take some time! said Black Abyss Sword Monarch in a deep voice.

Thats fine. Ill wait. But before any agreement is signed, I wont release the True Sword Heavenly Pride! Ye Tian was cautious not to release the True Sword Heavenly Pride only for the Sword Emperor Sect to renege on their promise, which would be a significant loss for him.

Alright! agreed Black Abyss Sword Monarch with a grim face before turning and disappearing from sight.

At this moment, many powerhouses above the God level looked at Ye Tian with admiration. After all, it wasnt something ordinary people could do to threaten the Sword Emperor Sect.

However, some thought Ye Tian was insane for provoking the Sword Emperor Sect, believing he wouldnt live long.

Ye Tian then returned to his temporary villa, waiting quietly.

The True Sword Heavenly Pride was captured by the Heavenly Pride of Ten Thousand Laws, who then threatened the Sword Emperor Sect to allow him to comprehend the Saber Dao Origin Artifact for five years, otherwise he wouldn't release him. The Heavenly Pride of Ten Thousand Laws has such audacity, Crescent Moon Heavenly Pride was genuinely stunned.

He recalled his encounter with Raging Sun Heavenly Pride. Although Ye Tian took their permission tokens, their overall loss wasn't significant.

Had they been captured by Ye Tian back then, and had Ye Tian demanded benefits from the Divine Desolate Hall and the Eternal Sect, they would have lost all their dignity.

Fortunately, their luck wasn't too bad. For a moment, he started to sympathize with the True Sword Heavenly Pride.

Out of all people, the True Sword Heavenly Pride chose to challenge Ye Tian and ended up being captured directly! Apart from Crescent Heavenly Pride and Raging Sun Heavenly Pride, the other nine peerless Heavenly Prides in the Hengpan Galaxy also became wary of Ye Tian.

There weren't many nine-star peerless Heavenly Prides in the entire Hengpan Galaxy, only about a dozen or so.

But the strength of these nine-star peerless Heavenly Prides was not much different from each other. Ye Tian's ability to capture the True Sword Heavenly Pride alive meant it wasn't an exaggeration to call him the number one Heavenly Pride in the Hengpan Galaxy.

Having a Heavenly Pride from another galaxy take the position of the number one Heavenly Pride in the Hengpan Galaxy didn't sit well with many forces.

But Ye Tian's strength was indeed formidable. Many forces even analyzed the battle between Ye Tian and the True Sword Heavenly Pride, and after careful calculation, they concluded that the other nine-star peerless Heavenly Prides indeed couldn't defeat Ye Tian.

With a perfected level Super God-level saber technique, spatial divine abilities, and top-tier metal attribute divine abilities perfected These skills almost made Ye Tian invincible.

The outside world expected the four dominant forces to make some moves, but they didn't react at all, which made many forces curious.

But Ye Tian was very clear that the four dominant forces and a few nine-star forces knew the secret of becoming a Child of the Universe. No matter how strong the combat power was, if one didn't have the fourth level of heart condition, they couldn't break through the twentieth physical limit and become a Child of the Universe.

Only those four dominant forces and a few nine-star forces had the methods to enhance the heart condition.

They believed Ye Tian didn't have a heart condition method, so they didn't take him seriously.

After all, who would care about a nine-star peerless Heavenly Pride who couldn't become a Child of the Universe? All forces, including Raging Sun Heavenly Pride and Crescent Moon Heavenly Pride, who revealed the secret to Ye Tian, didn't know that Ye Tian possessed a heart condition cultivation method and had even advanced to the fourth level of heart condition.

If they had known, the four dominant forces would have been in a panic by now.

Time slowly passed.

On the third day, Black Abyss Sword Monarch came before Ye Tian again.

Heavenly Pride of Ten Thousand Laws, our Sect Master has agreed to let you comprehend the Saber Dao Origin Artifact. Here is the agreement, please sign it! Black Abyss Sword Monarch presented an agreement filled with the patterns of laws, saying.

Once the agreement of laws was signed, it was difficult for any martial warrior to renege, but it required both parties to sincerely sign it.

Ye Tian carefully checked it, and after confirming there were no issues, he inscribed his name with his soul's breath, and Black Abyss Sword Monarch did the same.

Boom! The agreement of laws took effect, transforming into two beams of light, which flew into Ye Tian and Black Abyss Sword Monarch's bodies, respectively.

Where's the True Sword Heavenly Pride? Release him!

Black Abyss Sword Monarch urged.

Seeing the agreement take effect and knowing the Sword Emperor Sect wouldn't dare to go back on their word, Ye Tian waved his hand and released the True Sword Heavenly Pride.

At that moment, the True Sword Heavenly Pride was heavily injured, his aura extremely weak.

Upon seeing Black Abyss Sword Monarch, the True Sword Heavenly Pride wanted to say something, but was met with a cold snort from Black Abyss Sword Monarch: Useless!

Hearing this, the True Sword Heavenly Pride felt an immense shame and dared not say a word.

Someone, take the True Sword Heavenly Pride back! commanded Black Abyss Sword Monarch. Following his order, two God-level powerhouses appeared and took the True Sword Heavenly Pride away.

Heavenly Pride of Ten Thousand Laws, let me take you to where the Saber Dao Origin Artifact is, said Black Abyss Sword Monarch, somewhat reluctantly.

Thank you, Black Abyss Sword Monarch! Ye Tian was in a good mood, as he was about to comprehend the Saber Dao Origin Artifact.

Shortly after, they set off.

Before long, Ye Tian arrived at the headquarters of the Sword Emperor Sect.

The headquarters of the Sword Emperor Sect was located on a huge planet, as large as the main planet of a galaxy. This illustrated the immense power of the Sword Emperor Sect, with countless disciples and an unknown number of powerhouses above the God level.

This was the foundation of a top-tier nine-star force! Ye Tian didn't enter the core area of the Sword Emperor Sect but arrived at a remote great hall.

The Saber Dao Origin Artifact is placed inside this great hall. You can see it once you enter! After five years, you must come out, or we will send someone to fetch you! Black Abyss Sword Monarch said, pointing at the great hall.

Ye Tian nodded and walked into the great hall.

The interior of the great hall wasn't large. A divine saber floated in mid-air, with chains locking the blade, connecting it to the great hall.

Hmph, are they afraid I'll take this Saber Dao Origin Artifact? They are indeed cautious! Ye Tian chuckled.

As he approached, Ye Tian sensed the aura of the Saber Dao Origin Artifact and his expression changed slightly.

The aura of this Saber Dao Origin Artifact is much weaker than that of the Sword Dao Origin Artifact I encountered before!

Upon further thought, Ye Tian understood the reason.

It was because the people from the Sword Emperor Sect had extracted some of the saber dao essence, significantly weakening the effect of this Saber Dao Origin Artifact. Moreover, once the saber dao essence was extracted, it wouldn't bestow any more saber dao essence.

For example, when Yun Xi absorbed a strand of the sword dao origin essence from the Sword Dao Origin Artifact, one wouldn't be able to obtain any more sword dao essence thereafter.

The people of the Sword Emperor Sect feared that Ye Tian might absorb a strand of the saber dao essence, so they directly extracted it themselves to prevent Ye Tian from benefitting.

Never mind, it's reasonable for the people of the Sword Emperor Sect to do this. If I were in their place, I would do the same!

Ye Tian didnt dwell on this minor issue. For him, comprehending for five years was enough to elevate his saber dao realm to an extremely high level, without the need to absorb any saber dao origin.

Hmph, five years. After five years, youll see what a depleted Origin Artifact is! Ye Tian thought to himself with a smirk.

After all, while comprehending, he would also consume the power of the Saber Dao Origin Artifact. Otherwise, the Yun family wouldnt have opened the ancestral heritage site for only a month.

So many people comprehending next to the Origin Artifact for a month would also consume a lot of its power. Over time, it could damage the Origin Artifact.

Now, with Ye Tian comprehending alone for five years, it wouldnt necessarily damage the Saber Dao Origin Artifact. However, Ye Tian possessed the time talent, which was something the Sword Emperor Sect couldnt have anticipated.

Continuous comprehension, especially since some of the origin had already been extracted from the Saber Dao Origin Artifact, was bound to be deplete it.

Anyway, since Ye Tian couldnt obtain this Saber Dao Origin Artifact, he wasnt afraid to deplete it.

Lets start the cultivation! Ye Tian sat cross-legged, activated his top-tier comprehension talent and time talent, and began comprehending the Saber Dao!

Chapter 442: The Number One Heavenly Pride on the Golden List!

Assisted by his top-tier comprehension talent and Pseudo-Mystic-Level Time talent, Ye Tians comprehension of the Saber Dao progressed at an incredible speed, reaching a pace beyond imagination.

In just over ten days, Ye Tian had improved his Saber Dao realm to 70%. After reaching 70%, the advancement in the Saber Dao realm slowed down significantly.

Origin Artifacts were also categorized by tiers, and this Saber Dao Origin Artifact was definitely of a lower tier. The Origin Artifacts owned by the Yun family were also of lower tiers. Therefore, when Ye Tians Saber Dao realm reached 70%, the effectiveness became quite minimal.

However, Ye Tian was not greedy; he only hoped to elevate his Saber Dao realm above 75%.

Even though it took 150 years just to improve the Saber Dao realm to 75%, other Heavenly Prides would definitely be unwilling, as their lifespans were only about 300 years. They wouldnt want to spend such a long time improving their Saber Dao realm by just a bit.

But Ye Tian wasnt worried! With a lifespan of 13,000 years, what were a mere 150 years if he could enhance his Saber Dao realm to over 75%? It would allow him to cultivate Supreme-level Saber Techniques, making him much stronger than he currently was.

As time passed by, a year went by in the blink of an eye.

In the external world, a year had passed, but under the influence of the time talent, Ye Tian had contemplated for thirty years. Now, he had elevated his Saber Dao realm to 73%, not far from the 75% realm.

Of course.

Ye Tian wasnt always focused on comprehending the Saber Dao realm; he occasionally cultivated other aspects, such as contemplating the mysteries of time, studying the Palm Dao, and so on.

According to my calculations, to elevate the Saber Dao to 75%, I probably need three more years! Ye Tian frowned.

These three years referred to the external world, and it was indeed longer than Ye Tian had budgeted to improve his Saber Dao realm to 75%. He initially sensed that he could reach the 75% realm within one or two years, but the effect of this Saber Dao Origin Artifact was diminishing.

Now, the power of the Saber Dao Origin Artifact was continuously weakening, and its aura was getting fainter.

After all, Ye Tian had relied on it for cultivation for such a long time, depleting much of its power and causing its origin to weaken.

Continue to contemplate! murmured Ye Tian.

In the blink of an eye, another three years passed in the outside world.

By then, Ye Tian had been in the Sword Emperor Sect for a total of four years.

On this day.

Ye Tian burst into laughter

Hahaha, my Saber Dao realm has finally reached the 75% realm!

Ye Tian was extremely excited.

This meant he could now cultivate the Heartless God Saber Technique, a Supreme-level Saber Technique! Therefore, Ye Tian didnt continue to contemplate the Saber Dao. After all, continuing to do so wouldnt allow him to elevate his Saber Dao realm to 76%, so he might as well use the time to cultivate the Heartless God Saber Technique.

The Heartless God Saber Technique was a Supreme-level Saber Technique and inherently difficult to cultivate. If he were to rely solely on himself, it would probably take a lot of time to master it.

However, with the aid of the Saber Dao Origin Artifact, it would be possible to master it to the entry level in a short time.

Thus, Ye Tian started to cultivate the Heartless God Saber Technique in this grand hall, aided by the Saber Dao Origin Artifact.

The Heartless God Saber Technique required a strong heart condition and a Saber Realm realm of 75%, both of which Ye Tian met. Therefore, there were no bottlenecks during the cultivation process.

Day after day passed.

In the blink of an eye, three months had passed.

During these three months, Ye Tian didn't use the time talent, focusing solely on cultivation.

After three months of diligent cultivation, Ye Tian finally cultivated the Heartless God Saber Technique to the entry level. However, he didn't stop there but continued to refine the Heartless God Saber Technique.

He wanted to become even more proficient in the Heartless God Saber Technique, making it more effortless to use.

And so Ye Tian stayed there for a full five years before finally stepping out of the grand hall.

When Ye Tian left the grand hall, the Black Abyss Sword Monarch of the Sword Emperor Sect came to the hall, planning to take away the Saber Dao Origin Artifact.

Previously, the Saber Dao Origin Artifact wasn't here but in the treasure vault of the Sword Emperor Sect.

He had placed the Saber Dao Origin Artifact here, as it wasn't possible to let Ye Tian enter the treasure vault of the Sword Emperor Sect to contemplate this Saber Dao Origin Artifact! But when the Black Abyss Sword Monarch entered the grand hall and saw the Saber Dao Origin Artifact, he was stunned.

What happened? The Black Abyss Sword Monarch was baffled.

Now, this Saber Dao Origin Artifact barely retained any semblance of its original grandeur, resembling an ordinary weapon instead.

Even the law patterns on its surface were faintly visible, its aura extremely weak, nothing like an Origin Artifact should be.

Black Abyss Sword Monarch clearly understood what this implied: the unmistakable sign of an Origin Artifacts depleted essence.

An Origin Artifact in such a condition was nearly useless, almost akin to waste, and its recovery seemed highly improbable.

Restoring such an Origin Artifact would cost no less than acquiring a new one.

Its impossible. The Heavenly Pride of Ten Thousand Laws has only been cultivating for five years. How could one person deplete so much energy How could the essence of the Saber Dao in this Origin Artifact be exhausted to this extent?

Could he have found a way to drain all the Saber Dao essence from the Origin Artifact?

Impossible. Not even an Emperor-level, let alone a Great God-level powerhouse, could accomplish such a feat!

Black Abyss Sword Monarch raged incredulously.

The loss of a Saber Dao Origin Artifact, though not a devastating blow to the Sword Emperor Sect, could not be overlooked by the sect master, who would undoubtedly demand retribution.

Being fully responsible for this matter, he was sure to face punishment.

Damn you, Heavenly Pride of Ten Thousand Laws. Just you wait. Once you ascend to the God level, your doom is sealed!

Black Abyss Sword Monarch harbored intense hatred for Ye Tian.

Meanwhile.

Ye Tian returned to Qingzang City on the Hengpan Continent, elated.

His strength had increased significantly compared to five years ago.

He had mastered the Heartless God Saber Technique, nearing complete mastery. Even his time talent had improved to 20% at the Mystic level, and he had unearthed a new time-related ability.

Time Retrospection! He could rewind time in a small area to review past events, but not for events involving True God-level or higher beings, as the retrospective scene would shatter.

This ability, usable only once a day, occasionally proved to be astonishingly useful for Ye Tian.

With my current strength, slaying an average nine-star peerless Heavenly Pride is easy. However, breaking through the twentieth physical limit proves challenging unless I can enter a high-level Yuan Realm.

From the memories inherited from the Universal True Lord, Ye Tian learned that Yuan Realms were classified by levels.

For instance, the Yuan Realm where Earth originated was merely a low-level one, with not only inferior Chaos Primordial Qi but also in scant amounts.

It was impossible for a Heavenly Pride to break through the twentieth physical limit in such a low-level Yuan Realm, regardless of how long they cultivated there.

Numerous powerful forces in the Pan Star Field controlled one or two Yuan Realms, opening them only after lengthy intervals.

For example, the four dominant forces and the nine-star powers in the Pan Star Field controlled several Yuan Realms across various galaxies, enabling the birth of so many peerless Heavenly Prides. Otherwise, even with abundant resources in the Hengpan Galaxy, it would be impossible to nurture so many Heavenly Prides in such a short period.

Medium-level Yuan Realms were far superior to low-level ones in both the quality and quantity of Chaos Primordial Qi but were much rarer.

Using a medium-level Yuan Realm, there was a chance to break through the twentieth physical limit, but the probability was not high. This was only under the condition that a Heavenly Pride who had broken through the nineteenth limit cultivated alone. If multiple Heavenly Prides entered together, the chance to break through the twentieth limit vanished.

High-level Yuan Realms were different, capable of accommodating hundreds of Heavenly Prides for cultivation. As long as one reached the fourth level of heart condition, there was a chance for everyone to break through the twentieth physical limit.

Rumors suggested that the ultimate opportunity in the Battle of Heavenly Prides was to cultivate in a high-level Yuan Realm, jointly owned by the four dominant forces of the Pan Star Field and offered as a reward for the battle.

Unfortunately, the end date of the Battle of Heavenly Prides remained unclear.

Based on records from previous battles, it would last anywhere from twenty to a hundred years.

And now, the battle had only been ongoing for a little over a decade. In the following period, Ye Tian did not linger in Qingzang City but traveled across the Hengpan Continent, challenging eight-star and nine-star peerless Heavenly Prides everywhere.

In essence, Ye Tian swept through his adversaries, his destiny ranking on the Heavenly Pride Gold List climbing continuously.

A year later.

One day, Ye Tians destiny finally soared to the first place.

Across the Pan Star Field, atop the vast Heavenly Pride Gold List, the name of Ye Tian, the Heavenly Pride of Ten Thousand Laws, shone brightly and resoundingly.

At this moment, countless Heavenly Prides and forces across the Pan Star Field marveled at Ye Tians achievement!

Chapter 443: The Order from the Supreme Hall of Humanity!

In the Milky Way galaxy, Empress Yue was overjoyed and immensely proud upon seeing her husband ascend to the top of the Heavenly Pride Gold List.

The other Heavenly Prides of the Milky Way system were all dumbfounded. Being first on the Heavenly Pride Gold List was an extraordinary honor.

In such a short span of time, Ye Tian had grown to such an extent that he had crushed countless Heavenly Prides throughout the entire Pan Star Field.

Upon hearing this news, Great God Qin Niu, the lord of Qingfeng Giant City, couldnt help but marvel at how wise his decision had been to align with Ye Tian early on. By enlisting Ye Tian under the banner of Qingfeng Giant Citys Heavenly Pride and joining the Heavenly Pride Pavilion of the Silver Universe Star, even though Ye Tian had left the Milky Way system, the achievements he brought still garnered great fame for Qingfeng Giant City. In terms of resource cultivation, Qingfeng Giant City even surpassed other giant cities, approaching the treatment of a main city.

At the Yun Family in the Milky Way system, Yun Chen, despite being a Planetary System level powerhouse with a strong heart condition, couldnt remain calm upon learning that Ye Tian had become the number one on the Heavenly Pride Gold List.

Initially, although he mentioned that Ye Tian had the potential to become a Child of the Universe, it was more of an exaggeration. After all, in his view, many Heavenly Prides had the potential, but none had achieved it. Deep down, he didnt hold much hope for Ye Tian becoming a Child of the Universe, let alone imagine that Ye Tian could crush all the Heavenly Prides in the entire Pan Star Field, including the nine Peerless Heavenly Prides cultivated by the four dominant forces.

Ye Tians talent was truly heaven-defying!

Perhaps the Heavenly Pride of Ten Thousand Laws really can become a Child of the Universe. Then, the four dominants and the numerous nine-star forces of the Hengpan River System will truly be slapped in the face!

Yun Chen said with a laugh.

With Ye Tian becoming number one on the Heavenly Pride Gold List and defeating several nine-star Peerless Heavenly Prides, no one could challenge his position.

Thus, Ye Tian began to quietly cultivate, waiting for the end of the Heavenly Pride War.

In the following years, Ye Tian paid a huge price, not only perfecting the ten-star Yuan Force defensive secret technique Dark Qilin Demon Body Tecchnique but also purchasing numerous treasures to assist in palm techniques, forcibly comprehending the Palm Dao to 70% and perfecting the Super God level Palm Technique, Xumi Palm.

As for the Claw Dao, Ye Tian also improved it to 65% and purchased a Super God level Claw TechniqueShadow Claw, perfecting it to a major realm.

In summary, Ye Tian maximized his improvement in all possible aspects, continuously accumulating his foundation.

Even so, Ye Tians combat power was still at the nine-star Peerless Heavenly Pride level.

As for the specific division of nine-star Peerless Heavenly Prides, Ye Tian was unclear. In any case, he was much stronger than other nine-star Peerless Heavenly Prides, ranking among the top of the Pan Star Field.

But compared to nine-star Peerless Heavenly Prides from other star fields, Ye Tians exact level was uncertain.

Additionally, over these years, several nine-star Peerless Heavenly Prides emerged in the Pan Star Field, intensifying the competition among Heavenly Prides. Everyone wanted to squeeze into the top hundred of the Heavenly Pride Gold List.

Only the top hundred could enter the high-level Yuan Realm and obtain significant opportunities.

Thus, the competition for the hundredth spot on the Heavenly Pride Gold List was fierce, with news of the hundredth Heavenly Pride being killed from time to time.

A rumor then spread that the Heavenly Pride War was nearing its end, which made the battles even more brutal.

On this day, deep in the Hengpan Continent, a thousand-man legion walked through the void, quickly arriving at the gate of the Eternal Sect.

At that moment, a Galaxy-level powerhouse from the Eternal Sect came out and frowned upon seeing the legion.

This legion wasn't strong, merely consisting of weak soldiers led by a Great God.

For him, such a thousand-man legion was nothing but ants that could be easily crushed.

However, he dared not act against this legion, which came from the Undying Legion. The Undying Legion's strength was somewhat stronger than the Eternal Sect's.

Why has the Undying Legion come to our Eternal Sect? The Galaxy-level powerhouse inquired.

The leading officer stepped forward, respectfully saying, Greetings to Lord Ancient Dust. We are here to deliver an invitation, requesting Lord Ancient Dust to pass it to the Eternal Sect's master.

Whose order are you following? Lord Ancient Dust asked.

We are here by the order of the Undying Legion Lord! The officer replied.

The Undying Legion Lord! Lord Ancient Dust's pupils shrank.

The Undying Legion Lord was the leader of the Undying Legion. Every once in a while, when the lifespan of an Undying Legion Lord reached its limit, a new commander would be selected. The current Undying Legion Lord was the eighth in succession, and his strength had surpassed the Galaxy level, achieving the realm he had always yearned for in his lifetime.

Such a prominent figure had personally issued an invitation, indeed, only the sect master of the Eternal Sect had the right to review it.

Lord Ancient Dust accepted the invitation, and the Undying Legion flew towards the direction of the Divine Desolation Hall, soon disappearing from sight.

Shortly thereafter, Lord Ancient Dust handed the invitation to the head of the Eternal Sect.

Several days later, the leaders of the three major forces: the Eternal Sect, Divine Desolation Hall, and the Heartless Valley, all arrived at the Hengpan Mountain Range.

The Hengpan Mountain Range, located in the central part of the Hengpan Continent, was a vast mountain range with a strategic geographical location. The four dominant forces had divided their territories around this range, each in a different direction.

This time, the Undying Legion Lord invited the other three heads of the dominant forces to discuss matters on the Hengpan Continent; otherwise, it was rare for the leaders of these powerful entities to leave their headquarters.

Atop the largest divine mountain of the Hengpan Mountain Range, the Undying Legion Lord had already arrived early. The sect masters of the Eternal Sect, Divine Desolation Hall, and Heartless Valley also descended one by one, taking their places on the thrones prepared by the Undying Legion Lord.

With all the heads of the four dominant forces present, a huge barrier enveloped the area, preventing their conversation from being heard by the outside world.

What matter is so important that you invited us here? asked the Divine Desolation Hall sect master, dressed in a golden robe.

The Undying Legion Lord, wearing a white mask and clad in black and white attire, spoke in a hoarse voice: Actually, the reason I invited the three of you here is regarding the Battle of Heavenly Prides.

Battle of Heavenly Prides? Are you joking? With our status, why should we concern ourselves with such trivial matters? Let our subordinates handle it! the Heartless Valley Master expressed his dissatisfaction.

Their statuses were high; how could a mere Battle of Heavenly Prides warrant their discussion?

The Undying Legion Lord, youre making us appear over such a trivial matter. Are you jesting? Although your Undying Legion ranks first among the four dominant forces, our three forces are not to be underestimated either! The sect master of the Eternal Sect said, looking displeased.

Hahaha!!! The Undying Legion Lord laughed heartily. Why so impatient, my friends? I havent finished speaking yet!

He then threw out a scroll, which floated in the air and slowly unfurled.

In the next moment, golden characters flew out from the scroll, forming a message.

The Supreme Hall of Humanity has decreed that every major star field must put all their efforts to cultivate a Child of the Universe. Star fields without a Child of the Universe must select three nine-star peerless Heavenly Prides. The Supreme Hall of Humanity is now recruiting new members in preparation for a forthcoming grand era.

The Undying Legion Lord explained.

The Supreme Hall of Humanity!!!

The sect masters of the Divine Desolation Hall, Heartless Valley, and Eternal Sect were all stunned, looking at each other in disbelief upon reading the words on the scroll.

Undying Legion Lord, is this order genuine? the Divine Desolation Hall sect master asked quietly.

Of course, its real! the Undying Legion Lord replied with a cold laugh. As a former member of the Supreme Hall of Humanity, how could I dare to fabricate such a thing? If the Supreme Hall were to investigate, even I wouldnt be able to bear their punishment. Who would dare to jest with an order from the Supreme Hall of Humanity?

The three nodded, finding it hard to believe that the Undying Legion Lord would take such a risk. After all, the Supreme Hall of Humanity was one of the most powerful organizations in the human race, specializing in cultivating Children of the Universe, Heavenly Prides, and talents with high cultivation potential.

However, the Supreme Hall of Humanity had never actively recruited talents from the Pan Star Field, as the Heavenly Prides from the Pan Star Field generally had low cultivation talents and were considered negligible by the Supreme Hall of Humanity.

Logically, unless a Child of the Universe emerged from the Pan Star Field, it wouldn't qualify to enter the Supreme Hall of Humanity.

But now, the Pan Star Field had been allocated three spots.

This seemed like good news, but they were well aware that the competition within the Supreme Hall of Humanity was fierce. The Heavenly Prides from the Pan Star Field, entering such a place, would likely only serve as a backdrop or even as stepping stones and cannon fodder.

Thus, this was not necessarily good news.

But an order from the Supreme Hall of Humanity couldn't be defied.

Now, the problem was, if the Heavenly Prides from the Pan Star Field were too weak, even lacking a Child of the Universe, it would be quite embarrassing.

With 36 star fields in humanity, each having one or two Children of the Universe, the Pan Star Field would lose respect from humanity's upper echelons if it didn't have any.

Undying Legion Lord, are you suggesting we conclude the Battle of Heavenly Prides early? the Divine Desolation Hall sect master inquired.

Chapter 444: The End of the Battle of Heavenly Prides, Destiny Well Emerges!

Indeed, I wish to conclude the Battle of Heavenly Prides ahead of time! You all saw the decree issued by the Supreme Hall of Humanity just now. In ten more years, envoys from the Supreme Hall will be dispatched here. Therefore, we must end the Battle of Heavenly Prides

soon, allowing the top 100 Heavenly Prides on the Golden List to enter the high-level Yuan Realm. As for whether they can become Children of the Universe, it will depend on their luck! the Undying Legion Lord stated.

Luck, huh? Without reaching the fourth level of heart condition, the Heavenly Prides have no hope of becoming Children of the Universe. None of our three forces have a Heavenly Pride who has achieved the fourth level of heart condition. If we end the Battle of Heavenly Prides now, the title of Child of the Universe would have nothing to do with our three forces! the Lord of Divine Desolation Hall said coldly.

The Valley Master of Heartless Valley also spoke up, Undying Legion Lord, your Undying Legion is in possession of a Soul Origin Artifact. Its likely that youve already nurtured a nine-star peerless Heavenly Pride who has reached the fourth level. Ending the Battle of Heavenly Prides now wouldnt affect your Undying Legion at all; naturally, youd be happy about it!

Are you suggesting we continue to drag this out? If a Child of the Universe doesnt emerge from our star field, it wouldnt look good for any of us! the Undying Legion Lord retorted.

The Lord of Divine Desolation Hall, the Valley Master of Heartless Valley, and the Sect Master of Eternal Sect fell silent for a moment.

Indeed, their forces could choose not to conclude the Battle of Heavenly Prides, but that wouldnt benefit them much. It would only prevent the Undying Legion from producing a Child of the Universe before the envoys from the Supreme Hall of Humanity arrived, essentially just delaying the inevitable.

Once the Peerless Heavenly Pride of the Undying Legion enters the Supreme Hall of Humanity, if they have the potential to become a Child of the Universe, they would still achieve it.

If they lack the potential, then ending the Battle of Heavenly Prides now would still not enable the Undying Legion to produce a Child of the Universe.

With this realization, the Lord of Divine Desolation Hall, the Valley Master of Heartless Valley, and the Sect Master of Eternal Sect agreed.

Undying Legion Lord, we can agree to end the Battle of Heavenly Prides, but we want to arrange for one nine-star peerless Heavenly Pride from each of our forces to cultivate with the

aid of your Undying Legions Soul Origin Artifact for one month. You can rest assured, we are willing to pay a price to guarantee your satisfaction! the Lord of Divine Desolation Hall proposed.

Agreed! the Undying Legion Lord consented.

The Lord of Divine Desolation Hall, the Valley Master of Heartless Valley, and the Sect Master of Eternal Sect were surprised; they didnt expect the Undying Legion Lord to agree so easily. This was not his usual style! In the past, when they requested the Undying Legion Lord to spare a slot or two in the Soul Origin Artifact, no matter what treasures they offered, the Undying Legion Lord had never agreed. But this time, he consented without hesitation.

Are you curious why I agreed so readily? After all, the destiny of a star field can at most accommodate the birth of one or two Children of the Universe. Assisting the nine-star peerless Heavenly Prides under your command is essentially adding competitors to my own ranks. However, I have full confidence in the nine-star peerless Heavenly Pride under my command. Moreover, if we can have one more Child of the Universe, it would also benefit our star field! the Undying Legion Lord explained.

Undying Legion Lord, we thank you for your generosity! the masters of the Divine Desolation Hall, Heartless Valley, and Eternal Sect expressed their gratitude with a smile.

Soon, they discussed the specifics.

After the meeting concluded, the Lord of Divine Desolation Hall, the Valley Master of Heartless Valley, and the Sect Master of Eternal Sect left one by one.

Once they had departed, the Undying Legion Lord murmured, Executioner King!

Whoosh! A young man enveloped in a murderous aura appeared before the Undying Legion Lord and knelt on one knee, saying, My Lord!

Arrange for the conclusion of the Battle of Heavenly Prides. Additionally, if the other three dominant forces send their nine-star peerless Heavenly Prides, take them to comprehend the Soul Origin Artifact for a period of one month, the Undying Legion Lord ordered.

My Lord, why let the Heavenly Prides from the other three major forces comprehend the Soul Origin Artifact? Isn't that Executioner King was puzzled.

You should know, I've been to the Supreme Hall of Humanity before. Everyone thinks I fared well there, but in reality, I was just a failure.

Back then, although I was a Child of the Universe, I was among the weakest. I had no real standing in the Supreme Hall of Humanity. For the Supreme Hall, nurturing a Child of the Universe is not difficult. The competition among our four dominant forces is nothing more than child's play in their eyes.

White Bone is talented, and he should become a Child of the Universe. But even among Children of the Universe, he wouldn't be considered strong. If our star field could have one more Child of the Universe, at least they could support each other in the early days in the Supreme Hall.

The initial period in the Supreme Hall is the most difficult.

Therefore, helping the other three dominant forces isn't a big deal. Even if they produce one more Child of the Universe, would it matter?

The Undying Legion Lord looked at the Executioner King.

The Executioner King shook his head, It wouldn't matter. According to our intelligence, the nine-star peerless Heavenly Prides under the other three dominant forces are all of Hong level cultivation talent. Although they could become Children of the Universe and transform their talents with the power of the universes origin, the chance of transforming Hong level cultivation talent into Cosmic level is not even one percent. A Child of the Universe with Cosmic level cultivation talent would, at best, achieve a Galaxy level in the end. A mere Galaxy level can't affect the grand scheme of things!

Exactly, this generation's nine-star peerless Heavenly Prides lack those monstrous beings. Moreover, even if one of the other three dominant forces had a nine-star peerless Heavenly Pride with Cosmic level cultivation talent, the chance of using the universes origin to elevate Cosmic level to Universal level is less than ten percent.

Unless it's a nine-star peerless Heavenly Pride with Universal level cultivation talent, they wouldn't be of concern to me!

Universal level cultivation talent is extremely rare, far rarer than a Child of the Universe!

Executioner King shook his head, doubting that any of the three dominant forces would possess such a Heavenly Pride.

What Executioner King didn't know was that the Supreme Hall of Humanity had given him a target: to nurture a Child of the Universe.

Although the Undying Legion Lord had left the Supreme Hall of Humanity, he still held a position there, unknown to the outside world.

Therefore, the Undying Legion Lord was keen on nurturing another Child of the Universe.

In the eyes of the Undying Legion Lord, the development of humanity was of utmost importance, followed by the Undying Legion itself.

In the past, whenever God-level powerhouses in the star field killed Heavenly Prides, it was always the Undying Legion that the higher echelons of humanity ordered to act.

It could be said that the Undying Legion was like a sharp blade for the higher echelons of humanity within the star field, eliminating certain threats.

As for other conflicts, the Undying Legion didn't care.

It was for this reason that the Undying Legion had become incredibly mysterious.

However, the other three dominant forces had no idea that the Undying Legion had always been supported by the Supreme Hall of Humanity. They thought the Undying Legion was just a simple dominant force within the star field.

Of course.

This secret was unknown to most of the Undying Legion, only vaguely known by the most core members.

Ten days later.

The four dominant forces of the star field announced that the Battle of Heavenly Prides would end in one month.

This news shocked countless forces in the star field.

All forces were curious why this Battle of Heavenly Prides was ending so quickly. Many nine star forces approached the four dominant forces, but to no avail.

In Qingzang City of Hengpan Continent.

The Battle of Heavenly Prides is going to end?

Ye Tian was also quite surprised but then felt joy.

The quick conclusion of the Battle of Heavenly Prides was good news for him.

His current strength had truly reached a bottleneck and was difficult to improve further. Only by advancing to the Child of the Universe realm could he continue to enhance his strength.

Thus, he was most eager for the end of the Battle of Heavenly Prides.

For the Heavenly Prides in the forefront of the Golden List, this month was very calm. They had no need to risk their lives in combat just to climb a few ranks. What if they were to fall?

However, for those ranked around the 100th or in the 80-90 range, this month was challenging.

The entire star field turned into a battlefield of Heavenly Pride slaughter.

Because of this, many Heavenly Prides hid in their forces headquarters, fearing being killed by some destiny-seeking Heavenly Pride if they ventured outside.

Amidst the slaughter and fear, a month passed.

On this day.

A massive Heavenly Pride Golden List flew from the depths of the void, covering a swath of the starry sky.

The next moment.

The names of the top 100 on the Heavenly Pride Golden List began to flicker, and countless Heavenly Prides gazes seemed to transcend time and space to see this golden list.

And the name of the top-ranked Heavenly Pride was the Heavenly Pride of Ten Thousand Laws, the largest and most radiant name.

The next moment.

The Heavenly Pride Golden List shattered, turning into countless pieces that flew towards the numerous Heavenly Prides in the star field.

The largest piece landed on Ye Tian.

At this moment, the fortune on his body began to transform from illusory to tangible.

Suddenly.

A well appeared above his head! A Destiny Well!

Ye Tian recognized this object. He had inherited the memories of a Galaxy-level powerhouse and naturally recognized it.

The Destiny Well was the condensation of destiny, only emerging after the end of the Battle of Heavenly Prides with the help of the heavenly treasure, the Heavenly Pride Golden List.

The effect of the Destiny Well lasted only about a decade and was only effective within the star field.

It could enhance cultivation speed and comprehension.

For every foot, the Destiny Well could double comprehension and cultivation speed, a two-foot Destiny Well could triple them, and so on. The larger the Destiny Well, the higher the increase in comprehension and cultivation speed.

I wonder how big my Destiny Well is!

Ye Tian looked forward to it.

Chapter 445: Obtaining the Last Cosmic-level Cultivation Talent

At the top of Ye Tians head, the Destiny Well initially appeared faint and merely a foot in diameter.

As time passed, the Destiny Well grew larger and more solid.

Two feet! Three feet! Four feet! Half an hour later, Ye Tians Destiny Pool had expanded to nine feet in diameter and had solidified as if it were a tangible object.

A nine-foot Destiny Well means I can enhance my comprehension and cultivation speed by nine times!

Ye Tian was very satisfied with this result.

This enhancement in comprehension and cultivation speed could be stacked with talents and a secret technique of physical body cultivation.

One could imagine the degree to which Ye Tians cultivation speed and comprehension could be enhanced with the boost from a nine-foot Destiny Well! More importantly, the Destiny Well greatly aided in breaking through the twentieth physical limit.

This was why the four dominant powers of the Pan Star Field opened the Battle of Heavenly Prides; without such benefits, the Battle of Heavenly Prides would lose its significance.

After all, the ultimate goal of the Battle of Heavenly Prides was to nurture a Child of the Universe, not just to improve the cultivation speed of the Heavenly Prides.

In the Hengpan Continent.

The Undying Giant City! This city, under the command of the Undying Legion, far surpassed cities like the Qingzang City in scale.

One day, the four dominant powers of the Pan Star Field announced that the top 100 Heavenly Prides on the Heavenly Pride Gold List should head to the Undying Giant City in the Hengpan Continent within ten days.

The great opportunities awarded after the Battle of Heavenly Prides would be bestowed upon these one hundred Heavenly Prides in the Undying Giant City! Thus, the top 100 Heavenly Prides on the Pan Star Fields Heavenly Pride Gold List gradually made their way to the Undying Giant City.

Ye Tian also arrived at the Undying Giant City at the earliest opportunity.

Upon arriving at the Undying Giant City, Ye Tian immediately sensed the city's strength.

On the streets, one could constantly see troops of the Undying Legion patrolling back and forth.

Most of these Undying Legion troops were God level or above, and some were even led by Great God level leaders.

Surrounding the Undying Giant City were floating Divine Artifact fortresses, each stationed with a large number of troops.

The defense of the Undying Giant City definitely surpasses other cities; there might even be several Galaxy-level powerhouses here! Ye Tian thought to himself.

He wanted to replicate the Cosmic-level cultivation talents of Galaxy-level powerhouses, but his talent replication was heavily suppressed in the Hengpan Continent. Furthermore, the cultivation sites of Galaxy-level powerhouses would surely be protected by many law formations, making it impossible for his talent replication to cover them.

Thus, Ye Tian could only try his luck; if he was fortunate enough to encounter a Galaxy-level powerhouse or a martial warrior with a Cosmic-level cultivation talent, it would be a huge gain.

However, Cosmic-level cultivation talents were exceedingly rare, and after several days, Ye Tian still hadn't encountered one.

In the blink of an eye, ten days passed.

The top 100 Heavenly Prides had all arrived at the Undying Giant City, waiting for the notification from the four dominant powers. Suddenly, a voice reached the ears of the top 100 Heavenly Prides.

All top 100 Heavenly Prides, come to the plaza in front of the Undying Divine Temple.

The person transmitting the message was undoubtedly a powerhouse! Ye Tian and the other Heavenly Prides quickly gathered at the plaza in front of the Undying Divine Temple.

There, Ye Tian saw many familiar faces.

For example, the Raging Sun Heavenly Pride, Crescent Moon Heavenly Pride, True Sword Heavenly Pride, and so on

Most Heavenly Prides showed fear and resentment upon seeing Ye Tian, as most of them had been challenged and miserably defeated by him.

Boom! A powerful aura enveloped the entire area.

The Heavenly Prides fixed their gaze on a young man wearing a black robe who appeared before them.

It's the Executioner King of the Undying Legion!

Many Heavenly Prides exclaimed in surprise.

The Executioner King was one of the ten King-level commanders of the Undying Legion. The command hierarchy of the Undying Legion, from high to low, was the Legion Lord, the three Vice Legion Lords, and then the ten King-level commanders. Although the Executioner King ranked among the lower of the ten King-level commanders, he was among the top tier of Galaxy-level powerhouses, far surpassing ordinary Galaxy-level powerhouses in strength.

For instance, the Universal True Lord, from whom Ye Tian received memory inheritance, was far from being a match for the Executioner King.

Such a significant figure taking charge of the Battle of Heavenly Prides was quite unexpected.

In their view, having an ordinary Galaxy-level powerhouse from the four dominant powers take charge would have already been a considerable honor. Now, a King-level commander from the Undying Legion was directly assigned to this task, which seemed overly significant, perhaps even excessively so.

I am the Executioner King of the Undying Legion. I won't waste words. You 100 have earned the top 100 spots on the Heavenly Pride Gold List and have qualified to enter the high-level Yuan Realm.

Next, I will lead you into the high-level Yuan Realm, where you can cultivate for five years.

The Executioner King said coldly.

Then, with a wave of his hand, he produced a cosmic spaceship.

This was no ordinary cosmic spaceship, but a seven-star cosmic spaceship.

A seven-star cosmic spaceship had the ability to traverse many galaxies within the Pan Star Field.

It could even be said that it could shuttle from one end of the Pan Star Field to the other in just a day.

Board the spaceship! the Executioner King commanded.

Swiftly, one by one, the Heavenly Prides entered the Executioner Kings seven-star cosmic spaceship, with Ye Tian deliberately getting close to the Executioner King as he boarded.

The Executioner King didnt notice anything amiss.

However, as Ye Tian approached the Executioner King, he silently replicated his cultivation talent.

The last Cosmic-level cultivation talent is now mine!

Ye Tian was extremely excited. He was already a possessor of a Cosmic-level cultivation talent and had previously replicated the Cosmic-level cultivation talent of the Black Abyss Sword Monarch. Now, he had replicated the Executioner Kings Cosmic-level cultivation talent.

By integrating the Executioner Kings Cosmic-level cultivation talent, he could enhance his own cultivation talent, elevating his Cosmic-level cultivation talent to a Universal level.

What does a Universal-level cultivation talent represent? It signified that Ye Tian could surpass the Galaxy level, reaching a level above the Galaxy level.

Why does the Pan Star Field only have four dominant powers? Only these four possess beings who have surpassed the Galaxy level.

For instance, some top-tier nine-star powers in the Hengpan Galaxy possess strengths far surpassing ordinary nine-star powers, and at the Galaxy and Planetary System levels, they are not much weaker than the four dominant powers.

These nine-star powers remain as such and have not ascended to the status of Pan Star Field dominant powers precisely because they lack beings who have surpassed the Galaxy level.

This illustrates how rare possessors of Universal-level cultivation talents were.

And soon, Ye Tian would become one, hence his excitement. As all the Heavenly Prides boarded the seven-star cosmic spaceship, the Executioner King also entered and activated the spaceship.

Whoosh! The seven-star cosmic spaceship took off.

After half a day.

The seven-star cosmic spaceship finally came to a stop.

It seems this high-level Yuan Realm is likely at the edge of the Pan Star Field, far from the Hengpan Galaxy! Ye Tian guessed.

Given the speed of a seven-star cosmic spaceship, having traveled for half a day, its unlikely to still be within the Hengpan Galaxy but has traversed many galaxies.

Therefore, the possibility of the high-level Yuan Realm being at the edge of the Pan Star Field is quite high.

Exit the cosmic spaceship! came the voice of the Executioner King.

The doors of the seven-star cosmic spaceship opened, and one by one, the Heavenly Prides flew out.

In the midst of space.

One hundred Heavenly Prides stood there, looking around.

This was an entirely unfamiliar starry sky! Then, the Executioner King spoke, Some of you Heavenly Prides might know this place, while others might not. Let me explain.

This is at the edge of the Pan Star Field, near the edge of the universe, in a new galaxy called the Ancient Pond Galaxy. The high-level Yuan Realm is located within the Ancient Pond Galaxy and has been occupied by our four dominant powers of the Pan Star Field!

Next, follow me there, and remember not to fly around recklessly. The four dominant powers have set up numerous killing, trapping, and defensive formations throughout this galaxy.

The Executioner King warned.

Yes! responded the many Heavenly Prides.

Following the Executioner King, they flew towards a particular area.

Along the way, they passed through numerous barriers and formations, each guarded by many powerful beings.

Before long, they arrived at a huge star.

This star was one of the main stars of this galaxy and their final destination.

The high-level Yuan Realm is on this Chenming Star!

The Executioner King led the many Heavenly Prides into Chenming Star and soon descended onto a sacred mountain.

At that moment.

Many powerful beings on the sacred mountain respectfully greeted, We pay our respects to the Executioner King!

Chapter 446: Attempting for Child of the Universe

This is a joint decree from the four dominant forces, to open the high-level Yuan Realm!

The Executioner King produced a document of rules, allowing the stationed powerhouses to review it.

The stationed powerhouses were all from the four dominant forces, jointly guarding the high-level Yuan Realm. Normally, it was impossible to open the high-level Yuan Realm; it could only be opened by a mutual agreement among the four dominant forces.

Now, the Executioner King had brought out the decree, which contained the command to open the high-level Yuan Realm.

Consequently, the stationed powerhouses activated the formation, removing the entrance concealment and defense formations of the high-level Yuan Realm, among others.

Boom! A massive vortex suddenly appeared atop the divine mountain, serving as the entrance to the high-level Yuan Realm.

Enter!

The Executioner King declared solemnly.

Yes!

Numerous Heavenly Prides nodded, and one by one, they passed through the vortex into the high-level Yuan Realm.

Ye Tian had entered a Yuan Realm before, but it was a low-level Yuan Realm that exhausted potential.

Upon entering this high-level Yuan Realm, he immediately felt the difference between the two realms.

The chaos yuan qi here is so rich!

Ye Tian marveled.

The Yuan Realm was filled with unimaginably rich chaos yuan qi, incomparable in both quality and quantity to that of the low-level Yuan Realm.

Swoosh! Heavenly Prides flew towards the center of the Yuan Realm, where the chaos yuan qi was the richest.

However, Ye Tian didn't rush over but instead found a secluded corner.

He planned to integrate the Cosmic-level cultivation talent he had just acquired. Once integrated, his Cosmic-level cultivation talent could be upgraded to a Universal-level cultivation talent.

The cultivation speed of a Universal-level cultivation talent was much faster than that of a Cosmic-level one, so naturally, Ye Tian wanted to upgrade his cultivation talent to Universal-level. This way, he could absorb and refine more chaos yuan qi, making it easier to break through the twentieth physical limit.

Begin integration!

Ye Tian initiated the integration ability of the Copying Talent, merging it with the Cosmic-level cultivation talent he had copied from the Executioner King.

Boom! Intense pain surged through him, and Ye Tian clenched his teeth to endure it.

Moreover, to avoid wasting time and arousing suspicion among the other Heavenly Prides, Ye Tian activated his time talent.

Integrating and upgrading talents would take at most half an hour. Once the time talent was activated, speeding up time by thirty times meant that the integration would be completed in just a minute.

This way, others wouldn't be too suspicious. Otherwise, if any Heavenly Pride came here, it would be difficult for Ye Tian to explain.

Soon.

A minute passed in the outside world, and Ye Tian, under the accelerated time, endured half an hour of pain and finally completed the integration and upgrade process.

After the integration, Ye Tian checked his cultivation talent.

[Cultivation Talent: Universal-level]

Finally, it's upgraded to Universal-level cultivation talent!

Ye Tian laughed excitedly and then used various recovery talents to eliminate his fatigue, quickly returning to his peak condition.

Immediately after, Ye Tian flew towards the center of the Yuan Realm.

In the center of the Yuan Realm.

A gigantic chaos ancient well sat on the ground, with unimaginable chaos yuan qi gushing out from it.

Heavenly Prides were seated all around, each in a state of cultivation, with a Destiny Well above their heads assisting them in refining the chaos yuan qi.

Swoosh! Ye Tian arrived! He found an unoccupied spot a little away from the others and also began to sit cross-legged to start his cultivation.

Ye Tian's nine-foot Destiny Well appeared, attracting many Heavenly Prides' attention.

A nine-foot Destiny Well, how enviable! said a Heavenly Pride with only a three-foot Destiny Well.

However, as Ye Tian was ranked first on the Heavenly Pride List, having a nine-foot was to be expected.

The other Heavenly Prides didnt dwell on Ye Tian for too long, as time was limited, and they didnt want to waste it.

However, many Heavenly Prides unaware of the hidden condition to become a Child of the Universe, even if they absorbed a vast amount of chaos yuan qi, couldnt become a Child of the Universe. Still, they could improve their strength somewhat.

Breaking through the nineteenth physical limit and reaching the twentieth seemed like only a step away but was actually a vast distance apart.

Continuously absorbing chaos yuan qi indeed strengthened the physical body, marking a form of progress.

After the nine-foot Destiny Well emerged, Ye Tian activated the unnamed secret technique of physical body cultivation, but he did not activate the time talent.

After all, once the time talent was activated, he estimated that he would quickly break through the twentieth physical limit, which was unnecessary.

Moreover, once the time talent was activated, the speed at which he absorbed chaos yuan qi would be too fast. Other Heavenly Prides would guess the time talent just by seeing the flow of chaos yuan qi.

After all, the Heavenly Prides here were not like the inexperienced martial warriors on Earth. He could use the time talent in the Yuan Realm on Earth, but he dared not use it in front of so many Heavenly Prides, as it would be easily discovered.

The time talent was Ye Tians trump card, second only to the Copying Talent, and he naturally did not want to reveal it so soon.

Boom! Countless chaos yuan qi surged into Ye Tians body, being absorbed and refined by him.

In terms of the speed of absorbing and refining chaos yuan qi, Ye Tian was undoubtedly the first among the many Heavenly Prides.

Every moment, Ye Tians physical body was rapidly improving. The strength of his physical body, which was originally difficult to enhance further, seemed to have broken some invisible shackles.

The chaos yuan qi of the high-level Yuan Realm is indeed powerful. At this rate, I might be able to completely break through the twentieth physical limit in less than three years! Ye Tian judged.

One year! Two years! In the blink of an eye, two and a half years had passed.

At this time, Ye Tians aura had become much stronger than before, reaching a critical point.

At this moment, Ye Tian knew he was at the critical point between the nineteenth and twentieth physical limits. One more step forward would break through the twentieth physical limit.

As he was about to attempt breaking through the twentieth physical limit, a sudden sense of panic and heaviness surged in his heart, but under the fourth level of his heart condition, he forcibly suppressed it.

At this time.

Ye Tian finally understood the importance of the heart condition. Without the fourth level of heart condition, it was impossible to attempt breaking through the twentieth physical limit. Forcibly attempting would undoubtedly lead to failure, madness, and physical collapse.

Break through! Ye Tians consciousness seemed to transform into a golden light, charging towards the heavens in the unknown! With a thunderous boom, the unbreakable shackles were cracked open under Ye Tians full effort.

That was the crack of the bottleneck of the twentieth physical limit! Crack after crack appeared as Ye Tians body crazily absorbed chaos yuan qi, continuously striking against the physical shackles.

This scene naturally attracted the attention of many Heavenly Prides.

From a distance, the True Sword Heavenly Pride glanced at Ye Tian, seeing that he had reached the critical point of the twentieth physical limit and was attempting to break through. He couldn't help but sneer, Your cultivation speed is indeed fast, reaching the bottleneck of the twentieth physical limit. Unfortunately, you have no way of breaking through the twentieth physical limit without the fourth level of heart condition. Forcibly attempting is equivalent to suicide.

Hmph, this time, you will either die or be gravely injured!

Elsewhere, Raging Sun Heavenly Pride and the Crescent Moon Heavenly Pride were also watching Ye Tian with confusion.

They had once told Ye Tian about the hidden condition for striving for the title of Child of the Universe, but why was Ye Tian still attempting it? In their view, without the mental cultivation method, Ye Tian couldn't improve his heart condition. Even if he obtained a mental cultivation method, elevating his heart condition to the fourth level would be extremely difficult.

With the strong support from the Divine Desolation Hall and the Eternal Sect, plus the opportunity to comprehend the Soul Origin Artifact for a month, they still couldn't elevate their heart condition to the fourth level.

If they couldn't do it, naturally, Ye Tian couldn't elevate his heart condition to the fourth level either. So, why was he still attempting to become the Child of the Universe?

The Heavenly Pride of Ten Thousand Laws is too reckless. Is he being stubborn? Continuing like this will lead to death! The Raging Sun Heavenly Pride and the Crescent Moon Heavenly Pride thought to themselves.

However, they did not intervene.

After all, they weren't friends with Ye Tian, so there was no need to stop him.

It can be said that the Heavenly Prides who truly understood the secret of breaking through to become a Child of the Universe were not optimistic about Ye Tian. Only those naive Heavenly Prides envied Ye Tian, thinking he might become the Child of the Universe! But these naive Heavenly Prides guessed right, and those self-righteous Heavenly Prides would soon be fiercely slapped in the face.

Crack, crack, crack! The shackles in the unknown were gradually cracked open by Ye Tian, and after repeated strikes, they were about to shatter.

At a certain moment,

Break!!!

The void erupted with an explosive sound, and Ye Tians body suddenly transformed into countless rays of light at that moment.

Countless chaos yuan qi poured into Ye Tians body, transforming it.

A supreme aura burst forth from Ye Tians body.

At that moment, Ye Tian became the focal point of the entire Yuan Realm.

No one cared about cultivation anymore; they all turned their attention to Ye Tian!

Chapter 447: Two Children of the Universe, The Shattering of Destiny Well!

How is this possible

True Sword Heavenly Pride was stunned! He could tell that Ye Tians current state was not that of a failed breakthrough. If it were a failed breakthrough, Ye Tians aura would have drastically decreased, or even his physical body would have collapsed.

But now, Ye Tians aura was soaring continuously, which didnt seem like a failed attempt at all, but rather

A successful breakthrough. True Sword Heavenly Prides pupils constricted in disbelief.

He was well aware of the hidden conditions for becoming a Child of the Universe, which required one to elevate their heart condition to the fourth level. Even he had no hope of raising his heart condition to that level.

His reason for coming to the high-level Yuan Realm was merely to further temper his physical body, making it stronger and enhancing his foundation, which would be beneficial for the future.

As for becoming a Child of the Universe, he had no intention at the moment since he hadn't elevated his heart condition to the fourth level. Therefore, he couldn't utilize the high-level Yuan Realm to break through the shackles and become a Child of the Universe.

He also didn't expect the Heavenly Pride battle to end so quickly. If it had been delayed by a few decades or even a century, he might have had a chance to encounter other opportunities to elevate his heart condition.

Heavenly Pride of Ten Thousand Laws doesn't have the backing of a dominant power, not even the support of a nine-star force. How could he possibly elevate his heart condition to the fourth level?

True Sword Heavenly Pride couldn't believe it, and neither could the other Heavenly Prides.

Sun Heavenly Pride and Crescent Moon Heavenly Pride exchanged glances, speculating the reason.

Clearly aware of the conditions for striking towards becoming a Child of the Universe, Ye Tian still proceeded with the attempt. Initially, they thought Ye Tian was reckless, but now they understood the reason his heart condition had already reached the fourth level.

Unexpectedly, Heavenly Pride of Ten Thousand Laws has become a Child of the Universe!

Crescent Moon Heavenly Pride and Sun Heavenly Pride sighed deeply.

Before this, the four dominant forces didn't consider Ye Tian capable of becoming a Child of the Universe, not treating him as a competitor at all.

But now, they were harshly proven wrong! Currently, many Heavenly Prides couldn't believe Ye Tian had become a Child of the Universe, but the fact was, Ye Tian had indeed broken through the twentieth physical limit.

At this moment, his physical body was undergoing a transformation.

Meanwhile, in the outside world.

The Executioner King, who was meditating with closed eyes, suddenly opened them.

Boom!!! The origin of the universe descended, enveloping this part of the void.

No, to be precise, it enveloped the high-level Yuan Realm.

The origin of the universe descends, at such a scale, could it be

The Executioner King thought of a possibility a Heavenly Pride had become a Child of the Universe, drawing the descent of the universe's origin.

Is it White Bone?

The Executioner King thought of the White Bone Heavenly Pride from the Undying Legion. He knew White Bone Heavenly Pride had elevated his heart condition to the fourth level, qualifying him to strike towards the Child of the Universe level, with a very high possibility.

In the high-level Yuan Realm.

Ye Tian, feeling the transformation of his physical body, suddenly sensed the presence of the universe's origin.

At this moment, the power of the universe's origin was pouring into his soul.

The universes origin can change ones talent. Its rumored that the moment some Heavenly Prides become Children of the Universe, their cultivation talents can break through limits and elevate by one level under the transformation of the universes origin.

However, my cultivation talent has already reached the universal level, and even with the help of the universes origin, I cant elevate to the next level!

With this thought, Ye Tian dismissed the idea of elevating his talent.

His most desired improvements were in the talents of time, space, and copying.

But according to his calculations, elevating the talents of time and space might not yield significant improvement, as both were supreme talents with immense difficulty in enhancement.

I cant elevate the talents of time and space. In the future, if I encounter wielders of space or time talents, I can copy their time and space talents, merge them, and use them to elevate my own time and space talents. Hence, elevating the talents of time and space would be somewhat disadvantageous. But the copy talent, for so long, I have never encountered any treasure that could elevate the copy talent. Perhaps the universes origin could transform my copy talent, allowing it to undergo another metamorphosis!

Ye Tian decided to elevate his copy talent.

Boom!!!! Ye Tian activated the mark of his copy talent, beginning to absorb the energy pouring in from the universes origin, transforming his copy talent.

As soon as he absorbed the energy from the universes origin, Ye Tian felt his copy talent slowly begin to metamorphose.

The special energy bestowed by the universe indeed had the potential to elevate the level of the copy talent.

Ten minutes passed.

Ye Tians copy talent finally completed its transformation.

At that time, the gift from the universe had not yet completely finished, continuing to merge into Ye Tians soul.

Ye Tians soul strength improved somewhat, and slowly, his time talent mark absorbed it.

Unfortunately, the time talent only elevated to 30% Pseudo-Mystic level before the energy gifted by the universe was completely depleted.

Even so, Ye Tian was very satisfied.

Furthermore, Ye Tians body had completed its transformation, achieving the most perfect foundation.

At this moment, he became a true Child of the Universe.

If Ye Tian wished, he could now ascend to the God level, becoming a God level powerhouse with a single thought, with his body, yuan force, and soul all transforming into a divine body, divine power, and divine soul in a short period of time without needing gradual transformation. This was one of the benefits of being a Child of the Universe.

But Ye Tian didnt do so! He wasnt sure if he needed to continue advancing after becoming a Child of the Universe, but he felt it was best not to immediately ascend to the God level; otherwise, he might regret missing something.

After all, he wasnt in a rush to break through to the God level at the moment.

Ye Tian tested his strength and felt that his physical power had increased more than tenfold, and it seemed as if the heavens and earth no longer suppressed him.

It could be said that his strength had increased manyfold!

As a Child of the Universe, my combat power seems to have broken the limit of a nine-star peerless Heavenly Pride. Im not sure how to categorize it, but if I wanted to kill a nine-star peerless Heavenly Pride, even the previous me, I could do it in an instant!

Heavenly Pride of Ten Thousand Laws has become a Child of the Universe. I need to speed up as well!

White Bone Heavenly Pride thought to himself not far away.

He was not anxious and continued to cultivate.

He felt he was also approaching the threshold of the twentieth physical limit, and once reached, he could attempt to break through the twentieth physical limit.

Once successful, he too would become a Child of the Universe! In the following days, Ye Tian continued to absorb chaos yuan qi to stabilize his foundation, but eventually, he found that chaos yuan qi wasn't as effective for him anymore.

Clearly, after becoming a Child of the Universe, the high-level Yuan Realm was of no use to him anymore.

But he could still cultivate in the high-level Yuan Realm for over two years, so Ye Tian began to comprehend other aspects.

Such as the realms of saber and palm.

Ye Tian astonishingly discovered that after becoming a Child of the Universe, his comprehension ability had increased many times over, and if combined with top-tier comprehension talent, his comprehension would be even more incredible.

However, even so, it would take quite some time for him to elevate his 75% saber realm to 76%.

A mere two years or so probably wouldn't allow Ye Tian to continue enhancing his strength, but at least he could make some minor improvements.

In the blink of an eye, another year and more passed.

On this day.

A powerful aura burst forth from White Bone Heavenly Pride; he was attempting to reach the Child of the Universe realm.

Not long after, White Bone Heavenly Pride broke through the shackles with a thunderous boom, his body emitting infinite light, drawing the descent of the universes origin.

Then, White Bone Heavenly Prides body began to transform, forging the most perfect foundation under the aid of the universes origin.

Outside the high-level Yuan Realm.

The descent of the universes origin once again surprised the Executioner King.

The second Child of the Universe, this was beyond the Legion Lords expectations. The Legion Lord previously calculated that at most, only one Child of the Universe could be born this time, as the Heavenly Prides from the other three dominant forces didnt make much progress even with the aid of soul origin artifacts. It was estimated that no Heavenly Pride could elevate their heart condition to the fourth level, so it was impossible for another Child of the Universe to be born. Could it be that someone in the high-level Yuan Realm fortuitously broke through to the fourth level of their heart condition?

The Executioner King couldnt understand, unable to guess who the second Child of the Universe was. If the Executioner King knew he was wrong in his guess, that the first Child of the Universe was not White Bone Heavenly Pride but Heavenly Pride of Ten Thousand Laws, he would probably be extremely shocked!

Not much later.

White Bone Heavenly Prides body was completely transformed, his soul strength significantly enhanced, and he fully stepped into the ranks of the Children of the Universe.

The universes origin departed!

Suddenly.

Crack! Crack! Crack!

The destiny wells above the heads of numerous Heavenly Prides shattered, even the destiny wells above the heads of Ye Tian and White Bone Heavenly Pride, the two Children of the Universe, began to crack.

This was because the birth of two Children of the Universe had exhausted most of the destiny, making it impossible for the star field to produce another Child of the Universe in the short term, hence even the destiny wells couldn't be preserved.

It's over, there's no hope left!

Seeing the shattering of the destiny wells, all the Heavenly Prides despaired.

Chapter 448: Prince

The Destiny Well shattered, and even with the fourth level of heart condition now within their grasp, it seemed highly unlikely for them to break through the twentieth physical limit.

Consequently, the nine-star peerless Heavenly Prides completely lost their confidence.

However, most peerless Heavenly Prides were indifferent.

Most of them never really expected to become a Child of the Universe. Some were merely top-tier eight-star peerless Heavenly Prides, entering the high-level Yuan Realm solely to challenge for the nine-star rank, without much hope for the title of Child of the Universe.

Therefore, even without the chance to become a Child of the Universe, their disappointment was fleeting, and they quickly moved on.

With the Destiny Well broken, the cultivation speed of all the Heavenly Prides plummeted, but everyone quietly continued their cultivation, waiting for the five years to end.

In the blink of an eye, five years passed!

The five years are up, all Heavenly Prides must come out!

A voice from the outside world reached them.

Whoosh whoosh whoosh!!!

One by one, the Heavenly Prides stood up and flew towards the outside world.

Ye Tian also stopped his cultivation and left the place.

Soon after.

A hundred Heavenly Prides emerged from the high-level Yuan Realm, one by one arriving in the outer world.

At that moment.

The Executioner King immediately looked towards the White Bone Heavenly Pride, as he was a Heavenly Pride under the command of the Undying Legion and thus under his direct supervision, warranting his close attention.

Seeing the aura of a Child of the Universe emanating from the White Bone Heavenly Pride, the Executioner King felt reassured.

Not bad!

The Executioner King praised.

The Executioner King, I have disappointed the legion commander and the Undying Legion by not becoming the first Child of the Universe in the Pan Star Field, White Bone Heavenly Pride apologized.

You're not the first Child of the Universe?

The Executioner King exclaimed in shock.

No, I am the second Child of the Universe. The first Child of the Universe is the Heavenly Pride of Ten Thousand Laws!

White Bone Heavenly Pride reported truthfully.

The Heavenly Pride of Ten Thousand Laws, this

The Executioner Kings gaze shifted towards the Heavenly Pride of Ten Thousand Laws, and indeed, he had become a Child of the Universe, with an aura seemingly much stronger than that of White Bone Heavenly Pride.

How could this be

The Executioner King was puzzled.

Ye Tian had no power to rely on, so where did he get the method to cultivate his heart condition, and how did he elevate it to the fourth level? It was indeed strange! But every Heavenly Pride had their own secrets, and he had no intention of probing into Ye Tians.

Moreover, with Ye Tian becoming a Child of the Universe, his status had changed, and he would surely attract the attention of the Supreme Hall of Humanity. The Executioner King dared not act rashly, lest he incur the displeasure of the Supreme Hall. Even as a Galaxy-level powerhouse, he would still face severe punishment.

Lets leave this place!

The Executioner King, without dwelling on why Ye Tian became a Child of the Universe, led the Heavenly Prides away from the star.

Not long after.

The many Heavenly Prides left the ancient Chi Galaxy and returned to the Heng Pan Galaxy aboard the Executioner Kings seven-star universal spacecraft.

Subsequently, a message spread throughout the Pan Star Field.

Ye Tian and White Bone Heavenly Pride had become Children of the Universe! Such a noble title, one that might only emerge once every ten thousand years or even longer, and now, two had appeared at once.

In an instant, Ye Tian and White Bone Heavenly Pride rose to the pinnacle.

Meanwhile,

Something happened in the Milky Way.

On the Silver Universe Star, within the Yan Sect.

The Sect Master of Yan Sect also quickly learned of the events in the Heng Pan Galaxy and the news that Ye Tian had become a Child of the Universe.

Within the Yan Sect Hall.

The Sect Master of Yan Sect roared, Impossible, how could the Heavenly Pride of Ten Thousand Laws become a Child of the Universe? For countless ages, even since the birth of our Milky Way, we have never produced a Child of the Universe. How could he possibly become one?

In fact, the Sect Master of Yan Sect had feared Ye Tian becoming a Child of the Universe ever since he topped the list of Heavenly Prides. To his dismay, his fears had come to fruition! Ye Tian had indeed become a Child of the Universe, and that changed everything.

Had Ye Tian been merely a nine-star peerless Heavenly Pride, as long as he wasn't a Child of the Universe, the Sect Master could have easily arranged for his demise once Ye Tian reached the god level, unless Ye Tian found a powerful backer. Otherwise, he would not fear Ye Tian.

But things were different now! Ye Tian had become a Child of the Universe, and even if he reached the God level, he would still be a Child of the Universe, a status that would always accompany him.

The human races higher-ups had once decreed that unless a Child of the Universe committed a grave error, no power was allowed to kill a Child of the Universe.

In the eyes of the human races higher echelons, a small power like Yan Sect was far less noble than a Child of the Universe. If the Yan Sect were to harm a Child of the Universe, the higher-ups of the human race might erase Yan Sect in an instant.

The thing that Yan Sects sect master feared the most now was that if Ye Tian casually mentioned to the outside world, Im not pleased with the Yan Sect in the Milky Way, it might result in a Planetary System-level powerhouse crossing realms to obliterate Yan Sect.

Fear, panic, helplessness! Various emotions appeared on the face of Yan Sects sect master, leaving him at a loss for what to do.

At this time, an elder suggested, Sect Master, now that the Heavenly Pride of Ten Thousand Laws has become a Child of the Universe, we must change our strategy. Actually, we dont have a significant feud with the Heavenly Pride of Ten Thousand Laws, although we once hired an assassin to kill him, it wasnt successful! As long as we apologize to the Heavenly Pride of Ten Thousand Laws and make compensation, we wont incur his hatred.

Apologize, compensate,

Yan Sects sect masters face darkened, Doing so, wouldnt our Yan Sect lose all its dignity?

The elder hurriedly said, Sect Master, thats a Child of the Universe. Apologizing to a Child of the Universe isnt too much, right? Besides, preserving the Yan Sect is important. If a Child of the Universe retaliates against our Yan Sect, the consequences would be unimaginable!

After much contemplation, the Yan Sects sect master sighed, Alright, then we shall apologize. The Heavenly Pride of Ten Thousand Laws is in the Hengpan Galaxy, but his wife is on Silver Universe Star. Send someone to apologize to the wife of the Heavenly Pride of Ten Thousand Laws, and I will personally go to the Hengpan Galaxy to apologize to the Heavenly Pride of Ten Thousand Laws. Remember, prepare generous gifts!

Yes!

The elders below responded in unison.

Hengpan Galaxy, Qingzang City.

Ye Tian had just returned not long ago when the Executioner King of the Undying Legion paid a visit.

Inside the villa.

Ye Tian stood in front of Executioner King, somewhat restrained, as he was in the presence of an invincible Galaxy-level powerhouse.

Heavenly Pride of Ten Thousand Laws, no, you should be addressed as Prince of Ten Thousand Laws! Executioner King said politely.

Prince was the title for a Child of the Universe, derived from the Supreme Hall of Humanity, as all Children of the Universe would enter the Supreme Hall of Humanity and thus were granted the title of Prince. Over time, Prince became the exclusive title for Children of the Universe.

Ye Tian, previously known as the Heavenly Pride of Ten Thousand Laws, had naturally become the Prince of Ten Thousand Laws.

Executioner King, may I know the reason for your visit? Ye Tian asked curiously.

I wish to inform Your Highness that its best not to attempt to reach the God level now! Executioner King advised.

Why is that? Ye Tian was puzzled.

Executioner King shook his head, Actually, Im not sure either. This is an order from our army commander, seemingly related to the Supreme Hall of Humanity. If Your Highness was to

reach the God level, its likely youd regret it. But the decision lies in Your Highnesss hands, and our Undying Legion naturally wont interfere.

Thank you, Executioner King. I understand! Ye Tian said.

He was aware of the Supreme Hall of Humanity, one of the highest authorities of the entire human race, before which the entire realm was insignificant.

From the memories inherited from the Universal True Lord, Ye Tian had some understanding of the Supreme Hall of Humanity from the ancient times. Back then, the human race didnt have thirty-six star fields but only seven or eight. The Supreme Hall of Humanity was established by some of the most powerful beings of the human race.

Those who could enter the Supreme Hall of Humanity were undoubtedly the true elites of the human race, and a Child of the Universe had the opportunity to enter the Supreme Hall of Humanity, receive cultivation, and leave after being capable of taking on great responsibilities.

In Ye Tians understanding, the Supreme Hall of Humanity was similar to an academy, specializing in cultivating elites. It didnt vie for power or profit, but its authority couldnt be ignored either.

After a conversation, Executioner King departed.

From Executioner Kings words, Ye Tian knew that an envoy from the Supreme Hall of Humanity would come, and he was likely to be invited to enter the Supreme Hall of Humanity.

Undoubtedly, Ye Tian was quite interested in the Supreme Hall of Humanity.

Moreover, it was rumored that the powerhouses who emerged from the Supreme Hall of Humanity each ruled over a territory, becoming one of the overlords.

If Ye Tian wanted to grow quickly, merely cultivating on his own wouldnt suffice. For instance, this time, if he hadnt been lucky enough to enter the saber realm fragment world of the Saber God Sect and received the inheritance of the Saber God Sect, he definitely wouldnt have become a Child of the Universe.

He didn't want to rely on luck, so entering the Supreme Hall of Humanity was a must for him.

As for the exposure of his talent, he wasn't afraid. After all, a Universal level cultivation talent was enough to make him a powerhouse above the galaxy level. By then, even if his copy talent was exposed, he wouldn't be afraid.

Chapter 449: Wife Becomes a God

In the days that followed, Ye Tian prepared to cultivate in peace.

Then, one day, an unexpected guest arrived.

You are the Sect Master of the Yan Sect!

Although it was the first time Ye Tian had seen this Great God-level individual, he guessed the person's identity from his name.

The Sect Master of the Yan Sect, Li Juexin! Ye Tian had grievances with the Yan Sect, so he had naturally inquired about it and recognized the Sect Master at first glance.

He was somewhat puzzled as to why the Sect Master of the Yan Sect would appear here. This place was the Hengpan Galaxy, while the Sect Master was a God-level figure from the Milky Way.

He didn't think the Sect Master of the Yan Sect came to trouble him. A mere Great God-level figure wouldn't dare to trouble a Child of the Universe unless he was tired of living.

Prince of Ten Thousand Laws, I have come to apologize!

The words of the Sect Master of the Yan Sect were shocking.

Apologize for what? Ye Tian feigned ignorance.

The Sect Master of the Yan Sect said awkwardly, I previously hired Netherkill Heavenly Pride to assassinate you, which was my mistake. On behalf of the Yan Sect, I apologize to you.

Please, Prince of Ten Thousand Laws, let bygones be bygones. This is a small token of my sincerity!

The Sect Master of the Yan Sect took out a spatial ring and handed it to Ye Tian.

Ye Tian took the spatial ring and scanned it with his divine sense, seeing the contents inside.

So many Divine Crystals!

Ye Tian initially judged that there were at least a million Divine Crystals inside the spatial ring, which was a huge sum even for a God-level individual. It could be said that the Yan Sect had made a significant sacrifice this time. Lets forget about the past. I hope such things wont happen again! Ye Tian said coldly.

Thank you, Prince of Ten Thousand Laws! The Sect Master of the Yan Sect quickly thanked him.

At this moment, although he was in pain, he also breathed a sigh of relief.

He feared that Ye Tian would not accept the apology and would vow to fight the Yan Sect to the death, which would be real trouble.

Fortunately, Ye Tian had let bygones be bygones! Then, the Sect Master of the Yan Sect left! This incident with the Sect Master of the Yan Sect showed the importance of status. As a Child of the Universe, Ye Tians status had skyrocketed to an extremely high level, making even the Great God-level Sect Master of the Yan Sect personally cross many galaxies to apologize to him.

If he were merely a Heavenly Pride, he would not have received such treatment.

It was imaginable that once he truly entered the Supreme Hall of Humanity, his status would become even higher. If he could gain some position in the Supreme Hall of Humanity, perhaps even Galaxy-level powers would respect him immensely.

One day.

Ye Tian purchased many treasures on the Hengpan Continent and then returned to the Milky Way aboard his six-star cosmic spaceship.

He planned to spend some time with his wife, as he estimated he would enter the Supreme Hall of Humanity in a few years, and it might be a long time before he could return.

Two months later.

Ye Tian returned to the Milky Way and entered the Silver Universe Star.

Qingfeng Giant City.

Ye Tian returned to his original residence. Empress Yue sensed someone entering and immediately ended her seclusion.

My husband! Empress Yue embraced Ye Tian excitedly.

Yueer, Im back! Ye Tian also missed Empress Yue deeply and held her tightly.

After a long time, Ye Tian released Empress Yue and shared his experiences during this period.

Empress Yue had become a Heavenly Pride through her efforts over this period. Although her cultivation speed was not fast, it was quite good compared to other Heavenly Prides.

Ye Tian also shared some of his experiences, from entering the Hengpan Galaxy to becoming a Child of the Universe, recounting every detail.

Yueer, these resources are from the Hengpan Galaxy and are very helpful for breaking through the bodys limits. They should be enough to help you break through the eighteenth body limit!

Ye Tian said, taking out a bunch of treasures.

Thank you, my husband!

Empress Yue accepted the treasures, showing a happy smile.

Yueer, my mysterious technique has been upgraded, and I can now enhance several of your talents at once! Ye Tian suddenly said.

Naturally, he was referring to the ability to copy and bestow talents, which had undergone significant changes this time. The transformation of his talent copying ability was substantial, not only increasing the normal coverage area to a million miles but also removing the limitations on the number of copies and the disappearance time.

Moreover, the ability to bestow talents was no longer limited to once a year but could be done three times a year.

In addition to this, the talent copying ability gained a new feature Concealment of Talents! As long as Ye Tian wished, he could conceal his other talents and only display the ones he wanted to show, even hiding the talent copying ability itself.

With this, even if others possessed treasures or means to detect all talents, they wouldnt be able to discern Ye Tians talents.

This was of great help to Ye Tian, especially since he wouldnt have to worry about his other talents being exposed when he later entered the Supreme Hall of Humanity.

Otherwise, in a place like the Supreme Hall of Humanity, it would be quite easy for all his talents to be revealed.

Really? Empress Yues eyes widened in excitement.

Yes, but I need some preparation. Ill enhance your talents after a while!

The preparation Ye Tian spoke of naturally involved finding some targets. After all, the bestowal and deprivation of talents didnt come from nowhere. He couldnt bestow his own talents to Empress Yue, so he had to deprive others of their talents to bestow upon her.

Of course.

Ye Tian wouldnt just deprive anyone of their talents; he only chose those Heavenly Prides with a bad reputation.

Thus.

In the following period, Ye Tian went around looking for Heavenly Prides with bad reputations and many misdeeds, personally annihilating them.

With his status as a Child of the Universe, the forces behind those Heavenly Prides could only swallow their grievances, daring not to retaliate or even utter a word of objection.

Ye Tians targets were not limited to the Milky Way but covered several surrounding galaxies.

Through such searching, Ye Tian finally deprived a Hong-level cultivation talent, a Supreme-level sword talent, and a God-level Water Screen talent for Empress Yue.

Afterward.

He allowed Empress Yue to integrate these three talents.

As a result, Empress Yues cultivation talent became Hong-level, her sword talent reached the Supreme level, and the God-level Water Screen talent also proved to be of great use.

Ye Tian personally taught Empress Yue the Water Sinking Realm divine ability and, after paying some price, went to the Hengpan Galaxy to trade for the materials needed for cultivating the Water Sinking Realm divine ability. He brought them back for Empress Yue and assisted her in cultivating it.

With Ye Tians relentless support, Empress Yues combat power soared rapidly.

One day.

Empress Yue stepped into the realm of a six-star Peerless Heavenly Pride, truly standing among the top Heavenly Prides of the Milky Way.

Two years later, Empress Yue broke through the eighteenth body limit, comprehended a Super God-level sword technique to the major realm, and entered the beginner level of the Water Sinking Realm divine ability, her power stepping into the seven-star Peerless Heavenly Pride realm.

And in those two years, Ye Tian also helped his sister Ye Yu enhance her talents, elevating her cultivation talent to the Desolate level and granting her two God-level talents, making her combat power many times stronger than before.

Yueer, you are now a seven-star Peerless Heavenly Pride. Advancing further will require opportunities, and it might be difficult to continue improving.

As for your talents, I can continue to enhance them in the future. There's no need to linger at the Heavenly Pride level; I suggest you aim for the God level! Ye Tian proposed.

Alright, I'll aim for the God level right now! Empress Yue nodded.

In fact, she also wanted to advance to the God level as soon as possible. She didn't have Ye Tian's ambition to become a Child of the Universe; becoming a seven-star Peerless Heavenly Pride was already more than satisfying for her.

Thus, Empress Yue began her pursuit of the God level.

She possessed the Divine Body Transformation Secret Technique, Divine Power Transformation Secret Technique, and Divine Soul Transformation Secret Technique. Coupled with the time talent acceleration of the Misty Fish, she completed the condensation of the Divine Body, Divine Power, and Divine Soul in just half a year, transforming into a God-level powerhouse.

One day.

Ye Tian prepared to leave the Milky Way to return to the Hengpan Galaxy, and this time, he estimated it would be a long while before he could return.

Before leaving.

Ye Tian discussed the situation with Empress Yue.

Although Empress Yue was very reluctant, she still supported Ye Tians decision; she didnt want to hinder his growth.

Besides, she had now become a God-level powerhouse with a lifespan of ten thousand years. And as her cultivation improved, her lifespan would extend even further, so she didnt mind this short separation.

Ye Tian spent some quality time with Empress Yue before boarding his cosmic spaceship and leaving the Milky Way.

Two months later.

Ye Tian returned to Qingzang City in the Hengpan Galaxy.

Upon his return, Ye Tian devoted himself to cultivation, comprehending the Saber Dao.

Since becoming a Child of the Universe, Ye Tians aptitude had transformed dramatically. He made significant progress in the Saber Dao. After years of diligent cultivation, his Saber Dao realm had reached 70% completion, and in a few more years, he was sure to enter the 79% realm.

Unfortunately, he couldnt find any treasures in the Hengpan Galaxy that could rapidly enhance his Saber Dao realm. Even ordinary Saber Dao origin artifacts were no longer of help to Ye Tian.

Perhaps after entering the Supreme Hall of Humanity, I can find a way to rapidly enhance my Saber Dao realm!

Ye Tian thought to himself.

Chapter 450: The Envoy Arrives, Prince Qin Chen

In a certain part of the Hengpan Continent, in front of an ancient, gigantic stone gate, a powerful Undying Legion was stationed, guarding the gate day and night.

This gate might seem unremarkable, resembling any ordinary door, yet it was a teleportation gate capable of transporting an individual out of the Pan Star Field and into other star fields. However, the cost of activating this teleportation gate was substantial, causing even God-level beings to wince.

Suddenly, the gate lit up, producing massive spatial fluctuations.

Someone has activated the teleportation gate, intending to come through!

A Planetary System level powerhouse within the Undying Legion exclaimed in shock.

Moreover, the identity of the incoming individual was bound to be extraordinary, as this stone gate wasn't something that could be activated casually. Without a certain status, one would definitely be unable to use the teleportation gate.

Immediately, this Planetary System level powerhouse relayed the news of the disturbance, informing the King-level leaders of the Undying Legion.

Boom! The stone gate trembled, and figures began to emerge.

Planetary System level powerhouse! Planetary System level powerhouse! Planetary System level powerhouse!

Watching as several Planetary System level powerhouses appeared, the Undying Legion's Planetary System level powerhouse remained unfazed. However, these Planetary System level powerhouses were all clad in identical black attire, clearly belonging to a specific force, yet they weren't the important figures.

The individuals were coming through the gate one by one, not all at once.

The real VIP must be coming later! Soon, ten Planetary System level powerhouses had come through, lining up in two rows, facing the gate and bowing slightly, seemingly welcoming their master.

Woosh! Two figures emerged from the gate together.

One was a middle-aged man, a Galaxy-level powerhouse donning golden armor, whose aura made it difficult even for the Undying Legions Planetary System level powerhouses to circulate their divine power.

A Galaxy-level powerhouse not weaker than a King-level leader perhaps even stronger than the King-level leaders!

The Undying Legions Planetary System level powerhouse inwardly exclaimed in awe.

Yet what surprised him most was not the Galaxy-level powerhouse but the young man standing beside the Galaxy-level powerhouse.

This young man was merely at the Great God level, but the Galaxy-level powerhouse seemed to consciously step back half a step, a gesture indicating their respective statuses.

Hisss

The Undying Legions Planetary System level powerhouse took in a sharp breath.

Having a Galaxy-level powerhouse as a guard indicated the extraordinary status of this Great God-level individual.

Suddenly, he recalled the instructions from a few King-level leaders, and a speculation formed in his mind.

Are you from the Pan Star Fields Undying Legion? The God-level young man spoke.

Yes! The Undying Legions Planetary System level powerhouse nodded.

At that moment, the Galaxy-level powerhouse introduced, This is Prince Qin Chen from the Supreme Hall of Humanity, on a mission here!

Greetings, Prince Qin Chen!

The Undying Legions Planetary System level powerhouse hurriedly clasped his fists in salute.

His guess was correct; the young man before him was an envoy from the Supreme Hall of Humanity.

The Undying Legion Lord had already given orders, and now the envoy had indeed arrived. I would like to meet your commander, if possible.

Prince Qin Chen inquired.

The commander had already decreed that the envoy could meet him upon arrival. Please follow me! The Undying Legions Planetary System level powerhouse stated.

Lead the way! Prince Qin Chen nodded slightly.

Not long after.

Prince Qin Chen met the Undying Legion Lord.

Greetings, Undying Legion Lord! Prince Qin Chen said very politely.

He had also heard of the Undying Legion Lords reputation, who was once a prince from the Supreme Hall of Humanity. Although he was the weakest among the princes, the Undying Legion Lord possessed a Universal-grade cultivation talent, which allowed him to become a being surpassing the galaxy level.

Therefore, he dared not show any disrespect to the Undying Legion Lord.

Prince Qin Chen is too polite. I have heard of your great name, Prince Qin Chen. In the future, you will surely surpass me with ease! The Undying Legion Lord said.

If it were any ordinary prince, he wouldn't have cared much, but the princes from the Supreme Hall of Humanity were ranked, and Prince Qin Chen was undoubtedly among the top-tier. Although currently only at the God level, the number of Planetary System level alien beings that had fallen to his hand was not few.

Even though he was in the Pan Star Field, he often heard of Prince Qin Chen's battle achievements.

Thus, the Undying Legion Lord also did not dare to neglect this prince.

Undying Legion Lord, you flatter me. I can hardly compare to you! Prince Qin Chen humbly replied.

Shortly thereafter, as they conversed, the topic of the Children of the Universe came up.

Undying Legion Lord, you must be aware of the Supreme Hall of Humanity's directive. Do you know if any Children of the Universe have been born in the Pan Star Field? Prince Qin Chen inquired.

Two Children of the Universe have been born! The Undying Legion Lord truthfully responded.

Two Children of the Universe have been born!!! Prince Qin Chen was quite astonished.

It was difficult for the Pan Star Field, with its insufficient destiny, to give birth to a Child of the Universe. He had thought that at most one Child of the Universe would be born in this era of the Pan Star Field. The emergence of two Children of the Universe was indeed beyond his expectations.

But this was good news! The more Children of the Universe there were, the stronger the Human Race would naturally become.

In the absence of intervention from the higher echelons of the Human Race, the Children of the Universe were the facade of the Human Race, the sharp edge in the competition against other alien races.

Without the Children of the Universe, how could the Human Race achieve such scale? Therefore, the Supreme Hall of Humanity naturally hoped that more Children of the Universe would be born. Prince Qin Chen, the previous directive from the Supreme Hall of Humanity allocated three slots, hasnt it changed?

The Undying Legion Lord inquired.

Prince Qin Chen stated, This time, the Supreme Hall of Humanity has set a target of ten slots for the Pan Star Field. This is the new directive!

The Galaxy-level guard beside him took out a scroll and handed it over to the Undying Legion Lord for inspection.

After examining it, the Undying Legion Lords expression changed.

Indeed, its ten slots. Why has the target suddenly changed, and increased by so much? The Undying Legion Lord wondered.

This situation was very strange, but unfortunately, his knowledge was limited since he was not in the Supreme Hall of Humanity. It was difficult for news from the Supreme Hall of Humanity to reach here.

Prince Qin Chen frowned, You should be aware of the composition of the members of the Supreme Hall of Humanity, divided into the Inner Hall and the Outer Hall. The Inner Hall is composed of many princes, with generation after generation of princes gathering in the Supreme Hall of Humanity, keeping the number of princes at a not low figure. The Outer Hall is composed of those peerless Heavenly Prides who have the potential to become Children of the Universe. But recently, in a game of wits with many alien races, the Supreme Hall of Humanity lost quite a few princes, and even more peerless Heavenly Prides died.

Moreover, with a grand era approaching after a period, the Supreme Hall of Humanity must increase its member count to compensate for the previous losses.

I see! The Undying Legion Lord suddenly realized.

Ten slots! Ye Tian and the White Bone Heavenly Pride occupied two slots, and the remaining eight slots must be selected from among the nine star peerless Heavenly Prides.

However, not all among the nine-star peerless Heavenly Prides aspire to enter the Supreme Hall of Humanity. Some might have already given up on becoming Children of the Universe and are preparing to break through to the God level.

Prince Qin Chen, I will notify the leaders of the other three dominant forces in the Pan Star Field and discuss how to allocate these ten slots! The Undying Legion Lord said.

Hmm, the matter of the slots is for you to decide, but those two Children of the Universe, we must strive to have them join the Supreme Hall of Humanity! Prince Qin Chen stated.

Of course! The Undying Legion Lord nodded.

A few days later.

Ye Tian received an invitation from the Undying Legion, inviting him to the Undying Giant City.

The invitation mentioned the Supreme Hall of Humanity, urging Ye Tian to go to the Undying Giant City.

Could it be that an envoy from the Supreme Hall of Humanity has arrived?

Ye Tian speculated.

After putting away the invitation, Ye Tian left Qingzang City and headed for the Undying Giant City.

Before long, Ye Tian arrived at the Undying Giant City.

He then made his way to the Undying Divine Temple.

This place was an important stronghold of the Undying Legion, and the destination indicated in the invitation was the Undying Divine Temple.

Upon presenting the invitation, a True God from the Undying Divine Temple escorted Ye Tian into one of the side halls of the temple.

In this side hall, Ye Tian met a Great God.

Upon seeing this Great God, Ye Tian instinctively used his copy talent to check the other party's talents.

At that moment, he was utterly stunned!

Human: Qin Chen

Cultivation Talent: Universal level

Strength Talent: God level

Speed Talent: God level

Defense Talent: God level

Spear Technique Talent: Supreme level

Life Talent: God level

Radiance Talent: God level

Such splendid talents!

Ye Tian had to admit, this Great God named Qin Chen had the best talents he had ever seen.

Moreover, the other party also possessed a Universal level cultivation talent, which was on the same level as Ye Tians own cultivation talent.

Universal level cultivation talent, copy!

In an instant, Ye Tian copied Qin Chens Universal level cultivation talent. If he could copy another Universal level cultivation talent in the future, he would be able to elevate his own cultivation talent above the Universal level.
