

Talent 451

Chapter 451: The Sacred Realm of Humanity!

You must be the Prince of Ten Thousand Laws, Prince Qin Chen suddenly spoke.

Yes, Your Highness is Ye Tian guessed that Qin Chens identity must be extraordinary, but he was somewhat unsure of the specifics.

I hail from the Supreme Hall of Humanity! Prince Qin Chen declared his identity, You may address me as Prince Qin Chen!

So, its Prince Qin Chen! Although Ye Tian appeared calm on the surface, he was extremely shocked inside.

The person before him hailed from the Supreme Hall of Humanity and referred to himself as a Prince, which implied an unmistakable status.

He indeed was a Child of the Universe, and moreover, at the level of a Great God.

Although he also addressed him as Your Highness, the disparity in their statuses and strengths was vast.

Prince Qin Chen, may I inquire as to the reason for your seeking me out? Ye Tian asked.

I am here on behalf of the Supreme Hall of Humanity to invite you to join the Supreme Hall of Humanity! Prince Qin Chen stated directly.

As expected! Once Ye Tian knew Prince Qin Chens identity, he had an inkling of his purpose, and his suspicion was confirmed upon hearing his words.

Prince Qin Chen, what benefits are there in joining the Supreme Hall of Humanity? Ye Tian inquired.

Prince Qin Chen was momentarily stunned; others would have eagerly accepted an invitation from the Supreme Hall of Humanity without question.

Yet, Ye Tian even asked about the benefits. Amusingly, Prince Qin Chen was not angered but responded with a smile, Joining the Supreme Hall of Humanity undoubtedly comes with numerous benefits. The hall possesses many inheritances and opportunities unavailable elsewhere, and can even aid a Child of the Universe in rapid growth.

Without joining the Supreme Hall of Humanity, no other force can offer what you need, and you might even embark on the wrong cultivation path.

I once knew a Child of the Universe, extremely arrogant, believing his talent was so exceptional that he didnt need to join the Supreme Hall of Humanity. Years later, he was defeated by a Great God at the same level who was merely a nine-star peerless Heavenly Pride of the Supreme Hall of Humanity.

A Child of the Universe, unable to defeat a nine-star peerless Heavenly Pride Great God, became a laughingstock!

Prince of Ten Thousand Laws, although you are a Child of the Universe, that title only commands respect within the Pan Star Field. Beyond it, there are many Children of the Universe who are your equals. Moreover, in the Supreme Hall of Humanity, there are several Children of the Universe who surpass you from generation to generation.

And humanity is just one of the myriad races in the universe, which is unimaginably vast.

If you dont enter the Supreme Hall of Humanity and remain confined to the small Pan Star Field, your achievements in life will be limited! Prince Qin Chen finished, awaiting Ye Tians response.

Ye Tian spoke softly, Prince Qin Chen, I am willing to join the Supreme Hall of Humanity!

Very well, that is a wise decision! Prince Qin Chen nodded, Besides you, this time, Prince White Bone and eight other nine-star peerless Heavenly Prides from the Pan Star Field will also enter the Supreme Hall of Humanity!

Nine-star peerless Heavenly Prides can also go to the Supreme Hall of Humanity? Ye Tian asked, somewhat surprised.

They couldn't in the past, but now they can. You will understand in due course.

However, they will go to the outer hall, while you, as Children of the Universe, will enter the inner hall, Prince Qin Chen explained.

Ye Tian nodded, understanding yet not fully grasping the explanation.

You will stay here for a while, and in ten days to a half month, I will take you all out of the Pan Star Field and towards the Supreme Hall of Humanity! Prince Qin Chen said.

Understood! Ye Tian nodded.

Subsequently, Ye Tian left, and a True God from the Undying Legion arranged accommodations for him.

Thus, Ye Tian settled down in the Undying Giant City.

No sooner had he settled down than Ye Tian integrated the talents he had copied from Prince Qin Chen.

Time flew by, and twelve days passed in the blink of an eye.

One day, Ye Tian received a notice instructing him to gather at the Undying Divine Temple.

They were about to depart! Thus, Ye Tian arrived at the Undying Divine Temple, where he saw many familiar faces.

Besides Prince White Bone, there were also the Raging Sun Heavenly Pride, Crescent Moon Heavenly Pride, and True Sword Heavenly Pride, with whom Ye Tian had conflicts.

These Heavenly Prides had all arrived, clearly having decided to enter the Supreme Hall of Humanity upon learning of the opportunity, foregoing the chance to break through to the God level. They were preparing to enter the Supreme Hall of Humanity to strive for the realm of a Child of the Universe.

Of course, even if they couldn't break through to become a Child of the Universe, gaining access to some inheritances in the Supreme Hall of Humanity was far better than staying in the Pan Star Field.

However, opportunities come with risks. Entering the Supreme Hall of Humanity presents a significant chance, but the competition inside is fierce, requiring one to compete with Heavenly Prides from myriad races. Those with insufficient strength could easily perish.

But entering the Supreme Hall of Humanity was their decision.

Once the decision was made, there was no turning back.

Two Children of the Universe and eight nine-star peerless Heavenly Prides stood together.

Soon, Prince Qin Chen and his guards appeared.

Follow me, Prince Qin Chen said indifferently.

Yes! everyone responded.

Subsequently, Prince Qin Chen led Ye Tian and the others away from the Undying Giant City.

Before long, they arrived at a vast mountain range on the Hengpan Continent.

There, a gigantic teleportation stone gate stood tall.

Upon arriving, Ye Tian and the others saw the stationed Undying Legion and realized this must be a crucial location.

Prince White Bone, what is this place? True Sword Heavenly Pride inquired through spiritual communication.

Prince White Bone, coming from the Undying Legion and being stationed here, with his status, was likely to be aware of this place's significance.

He dared not inquire directly from Prince Qin Chen and thus turned to ask Prince White Bone instead.

It's said that this teleportation stone gate can lead one out of the Pan Star Field to other star fields, Prince White Bone explained.

Soon, everyone approached the stone gate, and the stationed Undying Legion allowed them to pass.

Then, the Galaxy-level powerhouse beside Prince Qin Chen took out several enormous Divine Crystals, the quality of which was incomparable to ordinary ones.

The Galaxy-level powerhouse tossed a significant amount of Divine Crystals into the slots around the teleportation stone gate. In no time, he had inserted an amount of Divine Crystals that would pain even Great God-level powerhouses to part with.

Boom! The teleportation stone gate began to glow and vibrate.

A spatial vortex appeared in its center.

Stepping through the teleportation stone gate will take you out of the Pan Star Field and across numerous star fields directly into the sacred realm of humanity. However, the teleportation process might be somewhat uncomfortable, so bear with it, Prince Qin Chen advised.

Everyone nodded in acknowledgment.

Then, Prince Qin Chen's guards entered the stone gate one by one, disappearing from sight.

Afterward, Ye Tian and the rest followed Prince Qin Chen into the gate.

Upon entering, Ye Tian found himself in a spatial tunnel.

In this tunnel, Ye Tian could traverse space at unimaginable speeds, directly passing through star fields.

This speed was incomparable to flying, allowing one to move from one star field to another in no time.

Using a cosmic spaceship to travel from one star field to another might take years, and even six-star-level cosmic ships might not be able to reach other star fields.

After about half an hour, the teleportation ended.

Whoosh! Suddenly, a flash of light appeared, and Ye Tian and the others found themselves standing in a vast palace, with a giant teleportation stone gate behind them.

This is the teleportation hall of Tianlan Giant City in the sacred realm of humanity! Tianlan Giant City is a very important giant city within the sacred realm, with all teleportation stone gates from various star fields connected to this one.

However, the Supreme Hall of Humanity is not located here. To enter, one must undergo strict scrutiny. Only after passing the strict scrutiny can you use the teleportation array to enter the world where the Supreme Hall of Humanity is located. So, don't overreact during the scrutiny later, Prince Qin Chen reminded.

Prince Qin Chen, why must we undergo strict scrutiny? Ye Tian inquired.

Prince Qin Chen gravely replied, You should be well aware that there are various talents in the universe. For instance, the simplest disguise talent can allow other races to masquerade as humans. Some talents are even more terrifying than disguise talents, completely changing one's blood, soul, and aura. If a member of another race with such talent infiltrates the Supreme Hall of Humanity, the consequences would be dire. The Supreme Hall of Humanity is a crucial place for our humanity and the foundation of our race. There can be no problems or oversights there. If the Supreme Hall of Humanity were infiltrated by another race, our humanity would have been annihilated long ago!

I see! Ye Tian nodded, understanding the situation.

Chapter 452:

Follow me!

Prince Qin Chen led the way, with Ye Tian and the others following behind him.

As Prince Qin Chen emerged from the teleportation hall, many people respectfully greeted him, saying, Weve seen His Highness Qin Chen!

This showed that Prince Qin Chen had a great reputation in Tianlan Giant City and even within the human sacred realm.

Throughout the journey, Prince Qin Chen did not pay attention to those people, focusing only on moving forward, and with a Galaxy level powerhouse acting as a guard, others couldnt get close to him.

Soon, Prince Qin Chen led Ye Tian and the others to a magnificent temple.

The plaque of the temple was inscribed with three ancient characters: Holy Text Temple! Standing at the entrance of the Holy Text Temple, Prince Qin Chen explained, The Supreme Hall of Humanity is divided into an inner hall and an outer hall, and the Holy Text Temple is a very special institution within the outer hall. It is responsible not only for scrutiny but also for investigating various secrets. Its power is no less than some of the institutions in the inner hall! If we want to enter the Supreme Hall of Humanity, we must pass the scrutiny of the Holy Text Temple, and then through the teleportation array inside the Holy Text Temple, we will be teleported to the great world where the Supreme Hall of Humanity is located!

Ye Tian and the others nodded in understanding.

They then entered the Holy Text Temple and were quickly led by a Planetary System level powerhouse into the scrutiny hall.

Standing in the scrutiny hall, a formation enveloped the area.

Then, a fluctuation came, covering everyone.

All right, you have passed the scrutiny! said the Planetary System level powerhouse of the Holy Text Temple.

Passed?

Ye Tian was stunned; the process was unbelievably fast, not even lasting a minute.

Was such an inspection reliable enough to ensure accuracy? After leaving the scrutiny hall, Ye Tian asked, Your Highness Prince Qin Chen, isnt this scrutiny a bit too simple?

Simple?

Prince Qin Chen smiled slightly, When I first came here, I had the same thought as you. But in reality, the Holy Text Temple has already judged our identities from the human origin, causality, and various other aspects. Theres absolutely no chance of error! This time entering the Supreme Hall of Humanity, you will live there for a long time.

If you want to leave, you dont need to undergo scrutiny, but to enter the Supreme Hall of Humanity, everyone must pass through scrutiny. Even those beyond the Galaxy level have to, with no exceptions!

Prince Qin Chen explained this to alleviate any concerns Ye Tian and the others might have had, as this was also for the safety of the Supreme Hall of Humanity.

Because a long time ago, an alien race infiltrated the Supreme Hall of Humanity and even rose to a high level, becoming one of the human elites.

Fortunately, one of the top human beings discovered the identity of this alien race in time, thus averting a disaster.

The thought of an alien race becoming one of the human elites was terrifying.

To prevent such incidents from happening again, the Supreme Hall of Humanity and other institutions adopted very strict scrutiny methods to ensure that alien races could not infiltrate the core human institutions.

Subsequently, Ye Tian and the others arrived at a teleportation array! Standing in the teleportation array, Ye Tian felt somewhat excited.

Because he would soon enter the Supreme Hall of Humanity.

Boom!!! The teleportation began!

Whoosh! Ye Tian and the others were teleported into the great world where the Supreme Hall of Humanity was located, following Prince Qin Chen.

A few seconds later.

Ye Tian found himself in another teleportation hall, and soon after, they walked out of the teleportation hall and found themselves on a small floating continent.

In the far distance, there was a breathtaking palace standing in the starry sky.

Ye Tian was at a loss for words to describe the palace.

It was comparable to a planetary system.

At that moment, Prince Qin Chen pointed to the distant palace and said, That is the Supreme Hall of Humanity. Around the Supreme Hall of Humanity, there are many floating continents, mostly filled with teleportation halls and surveillance institutions to prevent external enemies from entering this great world!

This great world is as large as a galaxy, containing many special places. You'll find out later. Let me take you into the Supreme Hall of Humanity first! he said.

Ye Tian and the others were so shocked they were almost speechless; everything was beyond their imagination.

Whoosh, whoosh, whoosh!!! They quickly flew to an entrance of the Supreme Hall of Humanity.

The entrance seemed unguarded, but Ye Tian and the others were well aware that probably many powerful beings were watching this place.

After all, this was the headquarters of the Supreme Hall of Humanity, who would dare cause trouble here? As soon as Ye Tian entered the Supreme Hall of Humanity, suddenly, a flash of light appeared before his eyes, and a woman with phantom wings on her back appeared, resembling a fairy from the myths.

Greetings, Prince Qin Chen!

The fairy-like woman greeted Prince Qin Chen and then turned to Ye Tian and the others, saying, Prince Qin Chen, are these the two Princes and eight Heavenly Prides from the Pan Star Field?

Yes, Yun Sheng, my task is completed. Please process their paperwork, said Prince Qin Chen very politely.

Understood! Yun Sheng nodded gently.

Prince Qin Chen turned around and said to Ye Tian and the others, Manager Yun Sheng will take care of everything for you. If theres a chance, well meet again.

With that, Prince Qin Chen left.

Come on, kiddos, Ill take you to complete the formalities for joining the Supreme Hall of Humanity and then assign you living areas, said Yun Sheng.

Ye Tian and the others quickly followed Manager Yun Sheng to a space within the Supreme Hall of Humanity, which seemed to consist of one space after another. It was unclear how vast it was.

In this space, Manager Yun Sheng completed the formalities for Ye Tian and the others to join.

The identity information of Ye Tian and the others was all entered into the identity system of the Supreme Hall of Humanity.

Then, each person received an identity token.

The identity tokens for Ye Tian and Prince White Bone were golden, representing the status of Princes, while the tokens for the other eight Heavenly Prides were generally silver, representing the status of outer hall disciples.

Little ones, wait here for a moment. I will arrange a steward for each of you soon. If you have any questions in the future, you can ask your steward or have them do it for you, said Manager Yun Sheng.

Steward?

Ye Tian frowned slightly, not accustomed to being waited on.

However, he soon realized he was mistaken.

This steward was not an ordinary steward.

One by one, women with phantom wings flew in front of Ye Tian and the others.

Clearly, these women belonged to the same race as Manager Yun Sheng.

Ye Tian was still puzzled. Werent alien races forbidden from entering the Supreme Hall of Humanity? What was the deal with these women? They clearly werent human! Ye Tian wanted to check the talents of these women but found he couldnt see any information.

It was as if these women had no talents at all.

Even Manager Yun Sheng didnt display any talents, as if there was no one there at all, just an illusion.

At this moment, Manager Yun Sheng began the allocation.

Ziya, you will be Prince White Bones steward from now on!

Ziya, you will be the steward for Prince of Ten Thousand Laws!

(it was ziya for both in the RAWs)

Soon, all ten women were assigned.

Then, the eight Heavenly Prides were taken away by eight women, as they were to enter the outer hall area, while Ye Tian and Prince White Bone were to enter the inner hall area.

Manager Yun Sheng also left, as Ye Tian and Prince White Bone had already been assigned stewards, so she naturally left the place.

Master, my name is Ziya. Ill take you to the inner hall area, said Ziya with a smile.

Ye Tian took a closer look at Ziya, who appeared to be about 18 years old, with a very cute face and faint purple phantom wings on her back.

Ziya, are you human? Ye Tian couldnt help but ask.

Ziya explained with a smile, Master, Im not human. Im a phantom spirit, born from the human imaginary world, just like how weapons can breed spirit weapons.

The Supreme Hall of Humanity possesses a vast imaginary world, which contains countless data and inheritances. Princes can also fight and cultivate in this imaginary world.

Initially, there were no phantom spirits in this imaginary world, but as countless powerful beings left their marks there, and over time, the imaginary world gave birth to phantom spirits.

Humanity didnt erase our existence but allowed us to assist in human growth.

However, we phantom spirits can only stay in the Supreme Hall of Humanity and cannot leave here, for leaving the Supreme Hall of Humanity would mean leaving the imaginary world!

Phantom spirits!

This was the first time Ye Tian had heard of the existence of phantom spirits.

Now he finally understood why he couldnt detect any talents from these women.

Because these women were phantom spirits, not real life forms, similar to spirit weapons, which also dont possess talents.

Ziya, take me to the inner hall area, Ye Tian instructed.

Yes, Master! Ziya nodded.

Chapter 453: The Mysterious Earth, The Four Major Regions

With a wave of her hand, Ziya conjured a portal in front of her.

This portal led directly to the Inner Hall Area, functioning similarly to a spatial gate.

In fact, Ziya did not possess any spatial talents. However, she had limited access to the organizations High Hall, allowing her to open a spatial gate directly to the Inner Hall Area.

Without the assistance of phantom spirits, the Princes of the Supreme Hall of Humanity would find it difficult to navigate within the Supreme Hall of Humanity itself.

Prince White Bone and his phantom spirit had already gone to the Inner Hall Area before Ye Tian, so Ye Tian hurriedly stepped into the portal with his own phantom spirit, Ziya, to proceed to the Inner Hall Area.

Upon reaching the Inner Hall Area.

Ye Tian found himself standing on a vast expanse of land, looking around.

The yuan qi here was extremely rich, with even a trace of chaotic yuan qi present.

This place is truly a treasure land for cultivation. If an Emperor-level cultivator were to cultivate here, they would quickly break through their physical limits time and time again! Ye Tian exclaimed in amazement.

Ziya, where shall we go now? Ye Tian asked his steward, Ziya.

Ziya responded, Master, we now need to choose a place to reside. The Inner Hall Area of the Supreme Hall of Humanity is divided into four regions: Heaven, Earth, Mysterious, and Yellow. The region we are currently in is the Yellow region. As your steward, my permissions are closely tied to yours, Master. Since you have just joined the Supreme Hall of Humanity, you are currently considered a Yellow Prince and can only reside in the Yellow region. Therefore, I could only bring you here!

The Yellow region, among Heaven, Earth, Mysterious, and Yellow! Ye Tian, aware of the division within the Supreme Hall of Humanity, became very curious about the regions above Yellow, and thus inquired, Ziya, how can one enter the Mysterious region?

Ziya replied, Master, to enter the Mysterious region, one must reach the God level in cultivation and also pass certain assessments. Otherwise, it's impossible to enter the Mysterious region!

I see! Ye Tian abandoned the idea of entering the Mysterious region for the time being.

He figured that he would probably have to spend quite some time in the Yellow region. After all, he had just entered the Supreme Hall of Humanity and was unfamiliar with everything here.

He urgently needed to understand the situation here and learn about the upcoming cultivation.

Subsequently, Ye Tian asked Ziya many questions, such as the choice of residence.

The Yellow region boasted many treasured lands, each with a cultivation tower built on it.

Each cultivation tower could only accommodate one Prince. Unless a Prince perished or ascended to the Mysterious region, no other Princes could enter.

There were many vacant cultivation towers in the Mysterious region, and newcomers needed to choose one as their residence.

However, choosing a good cultivation tower was challenging because the better the location, the more difficult the set assessments.

A Prince must pass the assessment to occupy a cultivation tower.

It wasn't as simple as choosing any cultivation tower to enter.

In the Supreme Hall of Humanity, every Prince started on equal footing, without any background or connections.

To receive better treatment in the Supreme Hall of Humanity, one must prove their strength and talent through their own efforts, thereby earning superior treatment.

Ziya, take me to the best cultivation tower! Ye Tian commanded.

Master, the best cultivation tower has a very difficult assessment to pass. However, it's good for you to try, Ziya, though doubting Ye Tian's ability to enter the best cultivation tower, still led him there. Soon, Ye Tian arrived at the edge of a lake.

This lake was called Bi Bo Lake, and it contained an extremely rich concentration of chaotic yuan qi, making cultivation here much faster than in other places.

There were ten cultivation towers around Bi Bo Lake, five of which were already occupied, leaving five vacant.

When Ye Tian arrived, he encountered Prince White Bone, who looked dejected and was preparing to leave.

Prince White Bone, what happened to you? Ye Tian inquired.

I failed. I tried to enter a cultivation tower near Bi Bo Lake, but the assessment was ridiculously hard. I failed instantly! Prince White Bone said helplessly.

What! Ye Tian was quite surprised.

Although Prince White Bones strength was not as great as his, he was still a genuine Child of the Universe.

It was unexpected that even Prince White Bone failed instantly. What kind of difficulty was this assessment? Ye Tian did not ask further; after all, he would soon know, as the assessment was imminent.

After Prince White Bone left, Ye Tian approached one of the vacant cultivation towers.

As he entered the tower, the assessment began.

Boom! Ye Tian was transported to a space where a young man appeared.

Instantly, the young man attacked.

Not good! Ye Tian sensed the young mans strength. The opponent was likely not a real person but more like a phantom spirit, yet his combat power was real.

Ye Tian immediately activated his spatial talents and even deployed the Spatial Divine Form Divine Ability.

However, the opponents punch shattered Ye Tians Spatial Divine Form and sent him flying with a single blow.

Ye Tian was seriously injured in an instant.

Before he could retaliate, another sky-shattering punch came towards him.

Ye Tian only saw a flash of light before he found himself outside the cultivation tower again.

My injuries are gone?

Ye Tian examined himself in astonishment.

What had just happened was not an illusion. He was certain of it, as the physical exertion alone was proof enough of his experience.

Clearly, some force had instantly healed his injuries and extracted him from the assessment space.

This is difficult. Its entirely based on strength. It seems my current strength is insufficient to reside here!

Ye Tian had thought that as a Child of the Universe, he no longer needed to accumulate experience. Now, he realized there was much room for improvement even at the Child of the Universe level.

For instance, the young man, although a phantom spirit, was clearly a replica of a Prince who was also a Child of the Universe at the Emperor level.

The opponents strength far surpassed Ye Tians, breaking through his spatial divine abilities with a single punch.

Such strength was terrifying! And with five Emperor-level Children of the Universe residing in the Yellow region, it proved that these five Princes were more powerful than the young man from the assessment space.

These five Princes were still in the Yellow region, either because they had become Gods and failed to ascend to the Mysterious region, or they were still at the Emperor level.

Either way, it indicated their immense strength.

I originally thought I was strong among the Emperor-level Princes of the Supreme Hall of Humanity. Now it seems I am still weak! Ye Tian sighed.

However, he was also full of confidence.

After all, he had just entered the Supreme Hall of Humanity, whereas other Princes had been here for a long time, leveraging the inheritance, resources, and opportunities of the Supreme Hall of Humanity to reach their current levels. He believed he could do the same.

Ziya, lets go! Ye Tian called out to Ziya and continued searching for a place to reside.

Half an hour later.

Tongbei Mountains.

This area was considered a mid-level cultivation treasure land in the Yellow region of the Supreme Hall of Humanity, an excellent place for newly ascended Princes.

Most Princes who had just arrived in the Yellow region of the Supreme Hall of Humanity could only reside in the inferior cultivation towers.

There was only one cultivation tower here, and it was vacant.

Ye Tian put in some effort to pass the assessment and officially took possession of the place, becoming its master.

Ziya then transmitted the news that Ye Tian had taken over the Tongbei Mountains into the virtual worlds information network. From then on, this place had an owner, and other Princes stewards would naturally not bring them here.

Ordinary information exchange was also one of the phantom spirits abilities.

In the following days.

Ye Tian slowly learned about the situation of the Supreme Hall of Humanity through Ziya, focusing on the Inner Hall Yellow region.

In short, Ziya informed Ye Tian of everything she knew.

For example, there were currently 384 Princes in the Yellow region, 97 of whom were at the God level, while the rest were at the Emperor level.

These 97 God-level Princes remained here because they had failed the assessments repeatedly and could not ascend to the Mysterious region.

However, the Supreme Hall of Humanity had a rule that if a God-level Prince could not ascend to the Mysterious region within 300 years, they would leave the Inner Hall of the Supreme Hall of Humanity and descend to other star fields to guard a territory.

Therefore, competition among the Princes in the Yellow region was intense. Without sufficient strength, one would eventually be expelled.

Additionally, in the Supreme Hall of Humanity, there was something very important.

That was points!

Chapter 454: Division of Combat Strength among Children of the Universe

The Supreme Hall of Humanity was no charity. Although it cultivated the Children of the Universe and the top-tier Heavenly Prides of the human race, it did not provide unlimited support. Beyond some basic cultivation, other opportunities required points.

For instance, to access certain fortunate cultivation sites within the Supreme Hall of Humanity, points were needed. You also need them to purchase some precious inheritances.

Heavenly Prides entering the outer hall received no points, while Children of the Universe entering the inner hall were awarded 100 points.

Inside the cultivation tower.

Ye Tian was refining a phantom ring that Ziya had just brought. This phantom ring would allow Ye Tians consciousness to enter the phantom world of the Supreme Hall of Humanity.

Soon.

Ye Tian had refined the phantom ring and then activated it, allowing his consciousness to enter the phantom world.

In the next moment.

Ye Tian arrived at the cultivation tower in the phantom world, where Ziya appeared here as well.

Although Ziya did not possess a phantom ring, as a phantom spirit, she could freely move between the phantom world and the real world.

Master, you are now in the Yellow City, which corresponds to the Yellow region of the phantom world. The cultivation towers of other Princes are also here, and there are a few places worth visiting.

The first is the Inheritance Pagoda, which contains various cultivation-related treasures, especially those aimed at Princes. Every Prince who enters the Supreme Hall of Humanity would spend some time browsing it.

Next is the Battle Tower, which tests the combat strength of Princes. By challenging the Battle Tower, you can earn points, which is one of the ways for Princes to accumulate points! Ziya explained.

I understand, Ill go check out the Inheritance Pagoda first! Ye Tian said.

He urgently needed to understand the situation of the Children of the Universe and the direction of cultivation. Although Ziya knew a lot, she could not help with cultivation, so Ye Tian needed to explore this on his own.

Ziya led the way, and Ye Tian followed her out of his cultivation tower and into the outside.

At that moment, he saw several cultivation towers and numerous special buildings within the city.

There were not many people on the streets, only seeing one or two occasionally. These few people looked at Ye Tian with curious and puzzled eyes but did not come over to greet him.

These must be other Princes! Ye Tian speculated.

After all, this place corresponded to the Yellow region, where only various Princes and phantom spirits resided. These few individuals were not phantom spirits but humans, which meant they must be Princes.

Princes were mostly in cultivation and rarely appeared on the streets of the phantom worlds city, so it was normal not to see many people.

Ye Tian continued walking and soon arrived at a pagoda.

Ziya said, Master, this is it. I cannot enter, only Princes can!

Alright, you can go back first! Ye Tian said.

Ziya nodded and vanished in a flash.

Ye Tian then entered the Inheritance Pagoda and immediately saw a phantom spirit.

This phantom spirit appeared as a middle-aged man, his deep eyes clearly indicating that he was a very ancient phantom spirit.

Prince of Ten Thousand Laws, hello. This is the Inheritance Pagoda of the Yellow region. I am the keeper of the Inheritance Pagoda Hong Ling. Since its Your Highness's first visit, let me give you an introduction! The phantom spirit, Hong Ling, spoke very kindly.

The Inheritance Pagoda has seven floors. The first three floors are open for free, while the last four involve some precious inheritances and will charge a certain fee depending on the inheritance.

Additionally, it's not allowed to experiment within the Inheritance Pagoda, and in severe cases, punishment may include facing the wall to reflect on one's actions!

After Hong Ling finished these introductions, he left to avoid disturbing Ye Tian as he browsed the books in the Inheritance Pagoda.

There were many books within the Inheritance Pagoda. Ye Tian casually flipped through a few, which recorded a vast amount of secret techniques, such as physical body cultivation secrets. There were many available for free viewing and learning.

The second floor even contained numerous divine abilities inheritances, also free of charge, but only for learning and not to be taught to others.

In the following days, Ye Tian stayed in the Inheritance Pagoda, browsing through the books.

He focused on books related to the Children of the Universe, as this was the knowledge he lacked the most.

A few days later, Ye Tian had glanced through some of the more useful books on the first three floors of the Inheritance Pagoda, gaining enough understanding of the Children of the Universe.

Breaking through the body's limits for the twentieth time as a nine-star peerless Heavenly Pride can transform one into a Child of the Universe. The title Child of the Universe is given because they are not suppressed by the universe, allowing them to unleash their full combat power almost without limit.

Moreover, Children of the Universe can continue to enhance their physical strength, as if stepping into a new realm, unlike the divine bodies at the God level which are almost fixed.

Therefore, Children of the Universe should enhance their physique, yuan force, and soul as much as possible, striving for perfection before attempting to reach the God level!

Some powerful Children of the Universe can even defeat peak True Gods and weaker Great Gods at the peak of the God level!

Children of the Universe in the Yellow region can be divided into Ordinary, Peak, Eternal, and Supreme Children of the Universe based on their combat power!

The first to third floors of the Battle Tower are for Ordinary Children of the Universe, the fourth to sixth floors for Peak Children of the Universe, the seventh to ninth floors for Eternal Children of the Universe, and the tenth floor for Supreme Children of the Universe!

Ordinary, Peak, Eternal, Supreme! It was the first time Ye Tian had heard such a division, and he was very eager.

He longed to become a Supreme Child of the Universe but knew it would be extremely difficult.

By his estimation, his current combat power probably ranked him as an Ordinary Child of the Universe, not even a Peak Child of the Universe.

The strength enhancement of a Child of the Universe, apart from improving divine abilities, martial arts, and secret techniques, primarily involves enhancing the physique, yuan force, and soul power.

For a Child of the Universe, rapid strength enhancement comes from major divine abilities, and in terms of martial arts, it comes from supreme-level techniques, not to mention various peculiar secret techniques.

The Inheritance Pagoda also contains inheritances of major divine abilities, but they are very expensive.

Ye Tian even saw the Five Elements Great Divine Ability, which required 100 points. If purchased separately, a top-tier divine ability would cost 200 points.

Of course, purchasing a divine ability also comes with the cultivation material needed, which is considered a good deal.

But Ye Tian currently only had 100 points, not enough to redeem even one divine ability.

What intrigued Ye Tian the most was not the divine abilities but the divine canons that could enhance the physique, yuan force, and soul power of the Children of the Universe! Normally, the physique, yuan force, and soul of a Child of the Universe are already at an incredible level within the Emperor level, almost impossible to enhance further.

But divine canons could break these shackles and allow further enhancement.

It is said that divine canons contain endless supreme truths and are one of the most important cultivation methods of the human race.

To become a Supreme Child of the Universe, one must cultivate a divine canon to the perfected realm.

Divine Canons!

Ye Tian longed for a divine canon, but it was currently out of reach, as only during the Divine Canon Festival do Princes in the Yellow region who have not yet obtained a divine canon have a chance to acquire the inheritance of a divine canon. There was little hope for now.

Exiting the Inheritance Pagoda, Ye Tian was now content.

He finally understood the cultivation direction for a Child of the Universe, feeling as if he had a goal in life.

He was now ready to test his combat power in the Battle Tower to see at which level his strength truly lay.

Battle Tower.

Ye Tian arrived and immediately entered.

The Battle Tower also had a phantom spirit guardian named Hong Chen.

Under Hong Chens arrangement, Ye Tian began the combat assessment.

Boom! Ye Tian was transported to the first floor of the Battle Tower, and the assessment was about to begin.

Swoosh! Ten black-clad warriors appeared, all attacking Ye Tian.

After a battle, Ye Tian easily killed these ten black-clad warriors, passing the first floor of the Battle Tower.

This proved that Ye Tian possessed the strength of an Ordinary Child of the Universe. But, there were three tiers within the Ordinary level, and further testing was needed to determine his exact tier.

Subsequently.

Ye Tian entered the second floor of the Battle Tower, again facing the attack of ten black-clad warriors.

The strength of these ten black-clad warriors far surpassed those on the first floor.

This time, Ye Tian used all his methods, except for his time-related talents, to barely kill these ten black-clad warriors, sustaining serious injuries in the process. If not for his multiple healing talents, he probably wouldnt have been able to continue.

After passing the second floor of the Battle Tower, Ye Tian earned a total of 300 points, 100 for the first floor and 200 for the second.

It seems my combat power is at the second tier of the Ordinary Child of the Universe, far from the first tier!

At that moment, Ye Tian truly realized he was not yet strong and needed to cultivate even harder.

He set a new goal for himself to strive for the combat power of a Peak Child of the Universe!

Chapter 455: The Purple Mountain Saber Realm!

Ye Tian briefly planned his cultivation progress, deciding for the moment to set aside his focus on divine abilities.

For Ye Tian, he had already perfected his cultivation of the Phantom Gold Thread divine ability to the perfected realm. Although he could cultivate more divine abilities, they wouldn't be of much help.

What truly would be of great use to him was the cultivation of a great divine ability, but in the short term, he had no way to exchange for a great divine ability inheritance, let alone cultivate one to completion.

For Ye Tian, the method to rapidly enhance his strength now was to improve his Supreme Saber Technique.

Ye Tian's Supreme Saber Technique was only at the beginner level. If he could cultivate it to the minor or major realm, it would definitely rapidly enhance his strength.

The Supreme Saber Technique was related to the realm of Saber Dao. Ye Tian's current realm in Saber Dao had only been enhanced to 77%. If he could comprehend up to 80%, he could cultivate the Supreme Saber Technique—Heartless God Saber Technique—to the minor realm, and his strength would inevitably surge.

"If I comprehend slowly, even with the time and insight talents, it would take seven to eight years, or even more than a decade, to hope to enhance my Saber Dao realm to 80%, and this requires uninterrupted comprehension," Ye Tian reflected.

Such a speed of comprehension was too slow. If he were in the outside world, he couldn't enhance his comprehension speed, but in the Supreme Hall of Humanity, he could rapidly improve it!

Ye Tian learned from Ziya about some cultivation sacred lands, some of which were even open for free, albeit with time limitations.

For instance, in the Yellow region, there was a Saber Dao sacred land where the speed of comprehending the Saber Dao realm was much faster than in the outside world, and it was effective even for sabermen who had reached 80% in their Saber Dao realm.

However, a Prince only had one month of comprehension time per year in such a place. Once exceeded, they must spend points to comprehend, with one point allowing for a day's comprehension.

There were quite a few such cultivation sacred lands. As long as the Princes strictly controlled their time, they could rapidly increase their strength in the Yellow region of the Supreme Hall of Humanity, which was much better than the cultivation environment in the outside world.

But without points, those advanced cultivation sacred lands were inaccessible, and relying solely on these lower-tier cultivation sacred lands, it would soon become difficult to enhance one's strength.

"First, I'll go to that Saber Dao sacred land to enhance my Saber Dao realm, then cultivate the Heartless God Saber Technique to the minor realm. That's the first step of the plan!" Ye Tian decided.

Immediately, he headed to the Saber Dao sacred land.

In the Yellow region of the Supreme Hall of Humanity, the Purple Mountain Saber Realm.

Ye Tian arrived before a gigantic divine mountain. A huge divine saber phantom loomed over this realm.

As soon as he approached, Ye Tian felt an extremely dense saber qi.

This divine mountain in the Yellow region was named Purple Mountain, for its body was entirely purple, and there was a saber realm at the peak, hence the name Purple Mountain Saber Realm.

Whoosh! Ye Tian flew up to Purple Mountain, and upon entering the peak, it was as if he had arrived in a new world altogether.

Boom! In the void, terrifying Saber Dao principles crushed everything in their path, making all other principles retreat.

This was the true Saber Realm! As soon as he arrived, Ye Tian saw a dozen emperors and a god.

Clearly, these people were Princes of the Yellow region.

“Another newcomer!” one of the Princes opened his eyes and glanced at Ye Tian, murmuring.

Newcomers to the Yellow region were nothing new, especially since there had been a large influx of newcomers recently, so they had grown accustomed to it.

As Ye Tian walked towards the center of the Purple Mountain Saber Realm, where the best position for comprehension was, the dozen Princes were also cultivating there.

When Ye Tian walked over, the Prince who had spoken earlier asked, “Which star field are you from? Maybe we’re from the same place.”

“Pan Star Field!” Ye Tian replied indifferently.

“The Pan Star Field, the ancient and weakest star field?” The Prince was slightly surprised. “It’s been a long time since a Prince from the Pan Star Field came to the Yellow region. My name is Bei Shan, may I ask how to address you?”

“Prince Beishan, you can call me Prince of Ten Thousand Laws!” Ye Tian replied indifferently.

Prince Beishan was quite talkative, probably enjoying chatting with others. Even facing Ye Tian, a newcomer, he was quite engaged in conversation.

He talked about everything, and soon, the conversation turned to a significant matter. “Prince of Ten Thousand Laws, since you’ve just arrived at the Supreme Hall of Humanity, you

probably don't know much about many things here. I advise you to use all your resources to enhance yourself.

Becoming a Prince of the Supreme Hall of Humanity used to be a great honor, but now, unfortunately, it's become a bit of an unfortunate situation," Prince Beishan lamented.

"Damn, why is that?" Ye Tian frowned slightly.

"You don't know, decades ago, the Yellow region lost many Princes, and the only three Eternal Princes died in battle. Now, the strongest Prince in the Yellow region is just at the first tier of the Peak level, and the Princes in the Mysterious, Earth, and Heavenly regions also suffered heavy losses!" Prince Beishan sighed.

"What!!!" Ye Tian's eyes widened in utter surprise.

What had happened that so many Princes had died? A Prince was a Child of the Universe, whose status was incredibly high. Even forces on the level of the Undying Legion in the outside world wouldn't dare to kill a Child of the Universe! Moreover, those who died weren't ordinary Children of the Universe; even some from the Mysterious, Earth, and Heavenly regions had fallen. This was definitely a major event.

"No wonder this time even eight nine-star peerless Heavenly Prides could come to the Supreme Hall of Humanity. Prince Qin Chen had said that I would know the reason in the future, so this is why!" Ye Tian finally understood.

The Supreme Hall of Humanity had lost many Princes, so it began to expand its recruitment, even starting to recruit a large number of nine-star peerless Heavenly Prides. With a bit of training, these Heavenly Prides could also become Children of the Universe. Although such they wouldn't have great potential, they were still Children of the Universe.

"Prince Beishan, what exactly happened?" Ye Tian asked.

Prince Beishan spoke in a low voice, "Clashing with the Children of the Universe from other races, in a major event, our Princes from the Supreme Hall of Humanity suffered heavy losses, but the losses of the Princes from other races were not small either.

What's more critical is that in another hundred years, a grand era will begin, and we, as Princes of the Yellow region, must represent the Emperor level to participate.

We, the older generation of Emperor level Princes, might still be able to sign up, but it will be troublesome for you newcomers.”

“What about the God level Princes from the Yellow region? Would they be able to represent the Yellow region, right?”

Ye Tian asked through a transmission.

Since there was a God level Prince here, it wasn't appropriate to say it out loud, so he could only ask through a transmission.

Prince Beishan also replied through a transmission, “The God level Princes from the Yellow region naturally belong to the God level tier and will definitely join the God level Princes from the Mysterious regions in the event.

However, the God level Princes from the Yellow region also have a benefit. If they advance to the True God level, but still can't enter the Mysterious regions, they will be expelled, because the Supreme Hall of Humanity doesn't need waste.

I reckon that by then, many God level Princes from the Yellow region will forcibly advance to the True God level to avoid that grand event.

In doing so, they will stay safe!”

“But in this way, the God level Princes from the Yellow region will become True Gods and be expelled from the Supreme Hall of Humanity, losing the chance to enter the Supreme Hall of Humanity again!” Ye Tian said.

“It's better than dying, right?” Prince Beishan said.

“That's true!” Ye Tian nodded.

The two chatted for a while longer before ending their conversation.

Time for cultivation in the Purple Mountain Saber Realm was precious and naturally couldn't be wasted.

Ye Tian then used his copy talent to check the talents of others, but he didn't find any Universal level cultivation talents. However, the cultivation talents of these Princes were mostly at the Cosmic level.

“Start comprehending!”

Ye Tian found a spot slightly farther away from the others and began his cultivation comprehension, also activating his time talent and top-tier insight talent.

He didn't need to absorb yuan qi, so activating the time talent wouldn't cause too much disturbance, making it hard for others to notice.

This was also why Ye Tian felt confident activating the time talent! As soon as he began comprehending, Ye Tian felt his understanding of the Saber Dao deepening significantly, with remarkable effects.

His Saber Dao realm, originally at 77%, was now rapidly advancing towards 78%.

With the time talent and top-tier insight talent, Ye Tian's cultivation speed far exceeded that of other Princes.

In just one day, Ye Tian's Saber Dao realm had advanced to 78%, continuing to progress towards 79%.

“So fast, I can comprehend cultivation in the Purple Mountain Saber Realm for a month. After one month, I will definitely be able to comprehend the Saber Dao realm to over eighty percent!”

Ye Tian thought excitedly.

Chapter 456: Six Universal Gods, The Divine Canon Festival!

In the blink of an eye, a month had passed.

Ye Tian opened his eyes, and deep within them, there was a look of joy.

“82% mastery in the Saber Dao realm, a bit less than what I had anticipated. However, I hadn’t expected that after reaching 82% in the Saber Dao realm, the effect of the Purple Mountain Saber Realm on me would diminish greatly. Now, a Saber Dao sacred land like the Purple Mountain Saber Realm is almost useless to me!” Ye Tian said with some helplessness.

If he wanted to continue improving his mastery in the Saber Dao, he would need to rely on a higher-level Saber Dao sacred land; otherwise, he could only rely on the slow passage of time to gradually comprehend the Saber Dao realm.

The month was up, and if he continued his cultivation, his points would automatically be deducted.

Thus, Ye Tian left the Purple Mountain Saber Realm and returned to his own cultivation tower to begin cultivating the Heartless God Saber Technique.

The cultivation tower had a special cultivation space capable of withstanding attacks from individuals of the Prince level. Even if Ye Tian used his saber techniques with full force, he would not damage this cultivation space, allowing him to freely execute the Heartless God Saber Technique time after time.

Therefore, Ye Tian began to fervently cultivate the Heartless God Saber Technique, striving to reach the minor achievement stage in the technique.

Two months later, the Heartless God Saber Technique had finally been cultivated to the minor achievement stage by Ye Tian.

Afterward, Ye Tian entered the Phantom World Battle Tower to attempt the third layer of the tower but was narrowly defeated. His strength was still slightly lacking.

However, Ye Tian was now considered among the top-tier forces of the ordinary level Children of the Universe, not far from the first-tier ordinary level Children of the Universe.

One day, Ye Tian asked, “Ziya, do you know when the Divine Canon Festival begins?”

He had reached a bottleneck in his strength. He couldn’t improve his Saber Dao realm for the time being, and it was also difficult to further enhance his divine abilities.

As for other secret techniques, even if he cultivated them, it would be hard to significantly improve his strength.

Therefore, Ye Tian could only place his hopes on the Divine Canons.

The Divine Canons were only possessed by the Supreme Hall of Humanity and represented the highest inheritance for Children of the Universe.

Without cultivating the Divine Canons, it was difficult to elevate one’s strength to the level of a Peak Child of the Universe or Eternal Child of the Universe.

In the Purple Mountain Saber Realm, Prince Beishan had mentioned that in a previous conflict with foreign races, all three Eternal Princes from the Yellow region had perished.

And a hundred years later, another grand era was about to begin. At the very least, Ye Tian needed to elevate his strength to that of an Eternal Child of the Universe to have a chance to control his own destiny.

Otherwise, if he participated in that grand era, he could only rely on luck to survive.

Ye Tian never left his life to chance, as luck was too unpredictable.

Each Child of the Universe is blessed with incredible fortune, and although they encountered numerous opportunities, they still perished in battles against foreign races. Of course, Ye Tian was not afraid of that grand era and even longed to participate in it.

For the arrival of a grand era inevitably meant the emergence of great opportunities.

After all, if there were no interests to compete for, the human race would not put the Children of the Universe in danger.

Every situation has its pros and cons; where there is crisis, there is opportunity.

Regardless of the circumstances, strength is the foundation of everything.

Therefore, Ye Tian was eager to quickly enhance his strength, and cultivating the Divine Canons was his way to swiftly boost his power.

“Master, a few Princes from the Supreme Hall of Humanity have yet to arrive. Once all Princes have arrived, the Divine Canon Festival will begin!” Ziya explained.

“I see!” Ye Tian understood.

According to Ziya, the Divine Canon Festival would soon commence.

Half a month later, Ziya came to see Ye Tian.

“Master, the higher-ups of the Supreme Hall of Humanity have announced that the Divine Canon Festival will begin in three days!” Ziya reported.

“Finally, it’s starting!” Ye Tian was very excited.

“What’s the significance of participating in the Divine Canon Festival?” Ye Tian inquired.

After some thought, Ziya replied, “Master, there are many Divine Canons in the Supreme Hall of Humanity, each different from the others and requiring different cultivation requirements. In short, the more powerful the Divine Canon, the higher the requirements. Master, it’s best to find a Divine Canon that best suits you. Additionally, to obtain a Divine Canon, one must gain its recognition; otherwise, it’s impossible to receive the inheritance of the Divine Canon. The Divine Canon Festival lasts only one day. If one doesn’t receive the inheritance of a Divine Canon within that day, they can only wait for the next opportunity!”

“One day!”

Ye Tian took careful note of this.

Three days later, Ye Tian followed Ziya to the location of the Divine Canon Festival.

Ziya opened one spatial gate after another, constantly shuttling through them until they finally arrived at the space where the Divine Canon Festival was being held.

This space contained a very large altar surrounded by imposing statues.

There were seventy-eight statues in total, both male and female.

Through Ziya's explanations, Ye Tian learned that these statues represented the pinnacle existences of the human race, each with an unimaginable reputation among the myriad races of the universe.

Even mighty beings like the Undying Legion Lord from the Pan Star Field were nothing more than ants in the eyes of these seventy-eight top existences.

By this time, quite a few Princes had gathered here, including Prince White Bone.

Prince White Bone approached Ye Tian upon seeing him.

Both being Children of the Universe from the Pan Star Field, they naturally felt a closer bond.

"Prince of Ten Thousand Laws!"

"Prince White Bone!"

Ye Tian and Prince White Bone greeted each other and soon engaged in conversation.

Before long, around 100 Children of the Universe had gathered here.

Currently, there were seventy-two star fields in the human race, and on average, 2 Children of the Universe were born in each star field during this period, totaling 72 Children of the

Universe. Some star fields were stronger, naturally giving birth to a few more Children of the Universe, so it wasn't surprising to see 100 new Children of the Universe suddenly appear.

Finally, the number of Children of the Universe was set – 103!

At that moment.

Streams of light flashed, transforming into several figures.

There were six individuals, each with an aura as vast as the universe.

“They are the six Universal Gods!” Prince White Bone said with a slight surprise.

Universal Gods were a realm above the Galaxy level, the realm that the Undying Legion Lord was at.

In the entire Pan Star Field, only the four supreme forces possessed Universal Gods, and each supreme force had at most two Universal Gods, and some even only one.

This highlighted the rarity of Universal Gods, who were almost never seen.

For instance, Ye Tian had not seen a Universal God in the Pan Star Field.

But now, he was suddenly seeing six Universal Gods.

Ye Tian wasn't very far from these six Universal Gods, only about 100 meters away.

Although his copy talent was greatly suppressed in the Supreme Hall of Humanity, after the last transformation by the cosmic origin, the coverage of his copy talent had significantly expanded. Even within the Supreme Hall of Humanity, it could cover several thousand meters, so it immediately enveloped these six Universal Gods.

“Six Universal level cultivation talents!”

If it were before, Ye Tian would have been excited, but now he showed no such excitement.

Apart from the six Universal Gods having Universal level cultivation talents, among the 103 Princes present, there were also several with Universal level cultivation talents.

So, he wasn't lacking in Universal level cultivation talents.

"Universal level cultivation talent, copy!"

"Universal level cultivation talent, copy!"

Ye Tian copied these Universal level cultivation talents one by one. Although he only needed one Universal level cultivation talent, copying several more and integrating them into his own talent wasn't a bad idea.

Once he returned, he could integrate the Universal level cultivation talents, transforming his own cultivation talent, and then he would possess a cultivation talent above the Universal level.

At that moment.

One of the Universal Gods on the altar spoke, "I am Lord Dantai, the Hall Enforcer of the Yellow region in the Supreme Hall of Humanity. This time, along with the other five Hall Enforcers, I am responsible for opening the Divine Canon Festival. You all are the new Princes of the Supreme Hall of Humanity, and there are some rules I must explain."

Lord Dantai essentially reiterated what Ziya had told Ye Tian, albeit in different wording, but the gist was the same.

After explaining these rules, Lord Dantai added, "The Divine Canon Festival will begin shortly. Everyone, prepare yourselves. Choose a Divine Canon that suits you, but don't aim too high. Some Divine Canons, although powerful, are too difficult to cultivate. Even if they suit you, it's best not to choose them.

Each Prince can only cultivate one Divine Canon, with no second choice."

Many Princes below nodded, but what they truly thought remained unknown.

Boom!!!

The six Universal Gods activated the altar, and the seventy-eight statues around the altar began to emit dazzling light.

These lights converged, forming a massive array.

Suddenly, the space split open, and a corner of a world descended into this space.

That world was the Divine Canon World, housing a vast number of Divine Canons.

“Enter the Divine Canon World!” Lord Dantai announced.

Whoosh whoosh whoosh!

One by one, the Princes couldn’t wait to fly into the Divine Canon World, and both Ye Tian and Prince White Bone also flew in.

The selection of the Divine Canon inheritance began!

Chapter 457: The Supreme Chaos Divine Canon!

In the world of divine canons, there was nothing but emptiness. Within the void, there were orbs of light, and inside each orb, there lay a vast tome.

These tomes were the divine canons! Each one represented the essence of humanity, one of the highest inheritances of mankind, with a value beyond imagination.

It could even be said that a single divine canon was far more valuable than a Universal God.

After all, if a Universal God perished, another could be cultivated; humanity was not lacking in Universal Gods.

The strength humanity had developed to this day was not reliant on Universal Gods, but rather on the existences that stood above them.

Therefore, the death of a Universal God would not affect the overall strength of humanity, but the loss of a divine canon would shake the very foundations of humanity.

Conversely, the addition of a Universal God would not significantly enhance humanity's strength, but the addition of a divine canon would be of great significance.

“Seventy-eight divine canons!”

Ye Tian scanned the area and thought to himself.

There were a total of seventy-eight orbs of light, representing seventy-eight divine canons, and likewise, there were seventy-eight top existences among humanity.

“Could it be that the divine canons were created by the top existences of humanity, and each top existence could only create one divine canon? Why not create several?”

Ye Tian had many questions in his mind.

However, he shook his head and stopped pondering these questions.

There were too many things in the universe that he did not understand. It was unnecessary to delve too deeply.

The orbs of light containing the seventy-eight divine canons varied in size. Among them, twelve orbs emitted a golden light and were significantly larger, situated at the center of the world of divine canons.

Clearly, the divine canons within these twelve golden orbs were the most powerful among all the divine canons.

“Let’s sense them one by one!”

Ye Tian approached the nearest orb of light, placed his hand on its surface, and sensed the divine canon within.

From what he had learned from Ziya, to find out if a divine canon was suitable for oneself, one should follow the call of the heart.

“The call of the heart!” Ye Tian closed his eyes and opened his mind.

He felt no repulsion, only a sense of warmth flowing through his heart.

This feeling indicated suitability.

“A divine canon of the Gold Dao!” Ye Tian suddenly understood.

He possessed a God level, gold-attribute talent, meaning the divine canon of the Gold Dao was suitable for him.

However, Ye Tian decided to forgo this divine canon. Cultivating it would be a waste.

After all, he possessed many talents and was not solely focused on the path of the gold attribute.

Moreover, this divine canon was relatively ordinary among the seventy-eight divine canons, and naturally, he was not interested in it.

He continued his search! Soon, Ye Tian sensed one orb after another, discovering that he was basically suitable for all of them, with varying degrees of suitability.

In summary, none of the divine canons rejected Ye Tian.

“I’ve copied too many talents. My body completely aligns with any divine canon. If I choose an ordinary one, I won’t be satisfied!”

Ye Tian pondered for a moment and then turned his gaze to the twelve golden orbs at the center.

Whoosh! Ye Tian flew towards the twelve golden orbs.

Outside.

The six Universal Gods were observing the situation in the space of divine canons, keeping a close watch.

Suddenly, they noticed Ye Tian.

As he inspected many orbs and then flew towards the golden orbs, they frowned.

“This youngster has looked at quite a few orbs, and those divine canons seemed quite suitable for him. Some were very fitting, yet he aims too high, setting his sights on those twelve supreme divine canons!”

“He’s probably just curious. It’s unlikely he’ll choose one. His steward must have advised him, and we’ve warned him too. He can’t be confident enough to cultivate a supreme divine canon.”

“What good is a reminder? Every generation, there are people who attempt to cultivate the supreme divine canons, only to make slow progress or even fail to grasp the basics, eventually fading into obscurity!”

“The supreme divine canons were created by the twelve most powerful Supreme Beings of our human race. They’re extremely difficult to cultivate. Even if we could reincarnate and start over, we wouldn’t dare to attempt these twelve supreme divine canons. Over such a long period, many Children of the Universe have tried to cultivate the twelve supreme divine canons, but how many have truly succeeded? Even among those who have succeeded, how many have reached a high level of mastery? In my opinion, these twelve supreme divine canons should be hidden away, so these Children of the Universe don’t even know about them, or else they won’t be able to resist choosing them!”

“Shh, that’s the decision of the Supremes. We’d better not give our opinions.

Besides, the Supremes might also be watching over this place. Let’s not talk recklessly, or if we anger a supreme, we’ll be in big trouble!”

The six Universal Gods stopped discussing and watched silently.

At this moment.

Ye Tian had already arrived in front of a golden orb, placed his hand on it, and sensed the divine canon within.

“The Supreme Sword Dao Divine Canon!”

Ye Tian felt a gentle aura from this supreme divine canon, indicating a good match for him. However, since he didn’t primarily practice the Sword Dao, he immediately let it go.

Afterward, Ye Tian sensed a few other golden orbs of the supreme divine canons.

Among them, there was a divine canon representing the supreme fist technique, one for the supreme spear technique, one for the supreme Five Elements Dao, one for the supreme Dao of Life, and another for the supreme Dao of Destruction.

Suddenly, Ye Tian felt an incredibly fitting gentle sensation from one of the golden orbs.

The Supreme Saber Dao Divine Canon! Since he primarily practiced the Saber Dao, this supreme divine canon was exceedingly suitable for him.

Ye Tian almost couldn’t contain his excitement and wanted to choose this supreme divine canon right then.

But he held back! Because there was still one divine canon he hadn’t sensed yet.

This divine canon was also in the center, represented by the largest and brightest orb, far surpassing the other supreme divine canons.

Obviously, this divine canon was undoubtedly the most powerful legacy in the entire space of divine canons.

Ye Tian released his hand and walked towards the last divine canon orb.

“This divine canon might also be a perfect match for me. If it truly suits me, should I choose it or the Supreme Saber Dao Divine Canon?”

Ye Tian was undecided in his heart.

Regardless of the situation, he was determined to choose a supreme divine canon. As for the ordinary divine canons, he had no interest in them at all.

Others might not succeed with supreme divine canons, but Ye Tian felt confident in his ability to master one. With his talents, if he couldn't master it, he believed no one in the human race could.

Whoosh! Ye Tian placed his hand on the last divine canon orb.

He closed his eyes and opened his mind to sense it.

Boom!!! Ye Tian's spirit seemed to perfectly merge with this divine canon orb, feeling even more fitting than with the other divine canon orbs.

At this moment, golden light even burst forth from Ye Tian's body, merging as one with the orb.

This phenomenon caught the attention of the six Universal Gods outside.

“This...”

Lord Dantai stared wide-eyed, incredulously at Ye Tian in the space of divine canons.

“That’s a perfect match!”

What is a perfect match? It’s the most fitting divine canon, as if tailor-made.

Sometimes, even the creators of the divine canons might not perfectly match the divine canons they created, which shows how difficult a perfect match is.

“What a pity!”

One of the Universal Gods sighed, “If it were any other divine canon, a perfect match would be a good thing. But this is a supreme divine canon, and among them, it’s the most powerful one. No Child of the Universe has ever fully mastered this divine canon to perfection. Even if this Child of the Universe is a perfect match, it will likely be very difficult for him to reach a high level of mastery!”

“Should we warn him not to choose this supreme divine canon? If he chooses it, wouldn’t that be...”

“The Supremes have ordered that we must not interfere in any way with the Children of the Universe’s choice of divine canons. Have you forgotten that command?”

The Universal Gods shuddered and then shook their heads. They dared not defy the Supremes’ order.

As for whether Ye Tian would choose this supreme divine canon, they would not intervene.

“This is...”

Ye Tian was quite surprised at this moment. Although he didn’t know what a perfect match was, he clearly felt that this divine canon was the most suitable for him, even more so than the Supreme Saber Dao Divine Canon.

“The Supreme Chaos Divine Canon!”

This supreme divine canon astonishingly encompassed many attributes, representing the chaotic attribute that included all things.

And Ye Tian, having copied a multitude of talents, already possessed a body that contained various attributes, even capable of being described as a body of chaotic attributes, naturally making him a perfect match for this Supreme Chaos Divine Canon.

Now, he was hesitating.

Clearly, this Supreme Chaos Divine Canon was more difficult to cultivate than the other supreme divine canons, probably the most challenging one.

But—"It suits me the best and can bring out my advantages to the greatest extent. Chaos includes all things, whereas the other supreme divine canons at best can only bring out part of my advantages, far from what this Supreme Chaos Divine Canon can!"

Ye Tian pondered for a long time.

In the blink of an eye, half a day had passed.

By then, the other Princes had mostly made their choices, with only Ye Tian still undecided.

Finally,

He made a decision!

Chapter 458: Chaos Body Refining Technique, The Twelve Major Attributes!

"I'll choose the Supreme Chaos Divine Canon. This Supreme Divine Canon is the most suitable for me. With my talent, I might be able to cultivate this Supreme Chaos Divine Canon to its highest realm!"

"Neither the Saber Dao Supreme Divine Canon nor any other Supreme Divine Canons can maximize my strength. Only this Supreme Chaos Divine Canon can enable me to reach the pinnacle among the Children of the Universe!"

Ye Tian made his choice and stepped into the inheritance space of the Supreme Chaos Divine Canon.

Boom! A flood of inheritance knowledge poured into Ye Tian's mind, gradually forming an inheritance mark.

Once the inheritance mark was formed, Ye Tian could contemplate the Supreme Chaos Divine Canon at any time, but he could only cultivate it himself and couldn't pass it on to others. This was the magical aspect of the Divine Canon.

At this time.

The Princes were dumbfounded, looking at Ye Tian in disbelief as he chose the most powerful inheritance. They felt no envy, only thinking that Ye Tian was insane.

Each of them was a prodigious talent of their era, standing at the pinnacle in their respective star fields, ranked among the Children of the Universe.

Even so, they dared not choose one of the twelve Supreme Divine Canons, for without extraordinary talent, it was impossible to cultivate these Supreme Divine Canons.

However,

Ye Tian not only chose a Supreme Divine Canon but also the most powerful one among them. This was madness! If he couldn't cultivate it, he would definitely become the weakest Prince in the Yellow region, until he was expelled from the Supreme Hall of Humanity.

In the outside world.

The six Universal Gods were also stunned.

"This kid is really insane. He actually chose the most powerful Supreme Chaos Divine Canon. If he had chosen any other Divine Canon, he might have had a slight chance of success.

But he chose the most powerful Supreme Chaos Divine Canon, which is very difficult to cultivate.

In my opinion, at most, you can only become a Peak Child of the Universe, or even remain an Ordinary Child of the Universe forever!”

Lord Dantai commented.

“Let it be. It was his choice to select this Supreme Divine Canon, and we can’t interfere. Let’s just assume that the Yellow region is short of one Prince. There’s no need to dwell on it!”

“Right, we are Universal Gods, why bother over a Prince!”

As they spoke, the six Universal Gods no longer took Ye Tian’s matter to heart.

Soon after.

Ye Tian fully inherited the Supreme Chaos Divine Canon.

Then, he left the world of the Divine Canon.

Just as he was about to leave, Prince White Bone came to Ye Tian’s side.

“Prince of Ten Thousand Laws, you actually chose that most powerful Supreme Divine Canon. Aren’t you being too bold?”

Prince White Bone’s eyes were full of regret.

In his view, Ye Tian was undoubtedly a very powerful Child of the Universe, with both strength and potential surpassing his own. He believed that Ye Tian was destined to become a Peak Child of the Universe, and even had a slim chance to become an Eternal Child of the Universe.

But now, Ye Tian had chosen that most powerful Supreme Divine Canon, and perhaps he wouldn't be able to cultivate it at all, making it difficult for him to even reach the level of a Peak Child of the Universe.

"Prince White Bone, I have my own plans!" Ye Tian replied.

"Ah, well, you've already made your choice, and regret is useless now.

Prince White Bone shook his head and turned to leave.

At this moment.

Ziya came to Ye Tian's side and said, "Master, you chose the strongest Supreme Divine Canon. Didn't I remind you to choose a Divine Canon that fits you? But you shouldn't have gone so far as to choose one of those powerful ones. Why didn't you listen?"

Ziya's face turned red, obviously frustrated by Ye Tian's actions.

Ye Tian, looking at Ziya in such a state, smiled and said, "Ziya, do you have so little faith in your master? What if I can cultivate it and even reach a very high realm?"

"It's impossible!"

Ziya said, "Although I was born not long ago, many pieces of information are shared among us Phantom Spirits. To my knowledge, the strongest Divine Canon in the Divine Canon space was created by the most powerful Supreme Being of our humanity. Even the Supreme Being himself hadn't cultivated that Divine Canon initially but created it slowly over countless years after becoming a Supreme Being. Over the long and endless years, many Children of the Universe with heaven-defying talents also chose that Supreme Divine Canon, but basically, none could cultivate it successfully. A few were lucky enough to make some initial progress, but ultimately, they couldn't continue cultivating it.

Master, why don't we ask the higher-ups of the Supreme Hall of Humanity to let you switch to another Divine Canon?"

"No, this Supreme Divine Canon will do!" Ye Tian declared very decisively.

“Hmph, Master, you’ll regret this later!” Ziya pouted.

“Alright, let’s go back!”

Ye Tian commanded.

Although Ziya was somewhat angry, she didn’t forget her duty as a steward and thus, led Ye Tian away from there, returning to the Yellow region.

As soon as they returned to the cultivation tower, Ye Tian immersed himself in the cultivation chamber.

Within the cultivation chamber.

Ye Tian’s consciousness delved into the Supreme Chaos Divine Canon, starting to peruse the inheritance content of this Supreme Divine Canon.

In fact, this Supreme Chaos Divine Canon had its true name — the Chaos Body Refining Technique! This Divine Canon could only be cultivated by the Children of the Universe. If others tried to force their cultivation, they would surely suffer physical breakdown and death, regardless of how strong their cultivation was.

It could be said that the Divine Canon was specifically prepared for the Children of the Universe, containing the powers of various Dao of the universe, and the Chaos Body Refining Technique represented the most perfect Dao of Chaos.

As time passed bit by bit, although the content of the Chaos Body Refining Technique wasn’t very long, it was extremely abstruse. Ye Tian needed to roughly comprehend its meanings to understand it.

Thus, he spent several days just to roughly understand the cultivation requirements and general situation of this Supreme Divine Canon, the Chaos Body Refining Technique.

“No wonder very few can truly cultivate this Chaos Body Refining Technique. It actually requires at least seven attribute talents to begin cultivation.

Time, space, metal, wood, water, fire, earth, wind, thunder, ice, darkness, light — these are the twelve major attributes of the universe. Other attributes are extensions of these twelve, hence, they also belong to these twelve major attributes and are recognized by the Dao.

Thus, these twelve attributes are also recognized by heaven and earth as the twelve branches of chaos. Once the twelve branches of the Dao are merged, the Dao of all beings can be derived.”

“One must gather seven attributes to cultivate the Chaos Body Refining Technique, and all seven attributes must be of God level to even reach the entry-level of cultivation.”

Ye Tian finally understood the difficulty of cultivating the Chaos Body Refining Technique! How could a normal Child of the Universe possibly have seven God-level attribute talents? Therefore, it’s very hard for a Child of the Universe to cultivate the Chaos Body Refining Technique. Forcing cultivation could only lead to failure and even damage to one’s foundation.

Moreover, even if one really possesses seven God-level attribute talents, barely meeting the requirement to cultivate the Chaos Body Refining Technique, it’s only enough to reach the entry-level. To cultivate the Chaos Body Refining Technique to the highest realm, one must possess all twelve attributes at the God level, including time and space talents! Such a requirement, even Ye Tian as of now, couldn’t meet.

Metal, wood, water, fire, earth, wind, thunder, ice, light, darkness — Ye Tian had already merged all these ten attribute talents to God level through repeated copying over the years, but the time and space talents were far from meeting the criteria.

The space talent was slightly better, having reached the Mystic level, but the time talent was still at the Pseudo-Mystic level.

Thus, with his current talent, Ye Tian couldn’t cultivate the Chaos Body Refining Technique to the highest realm.

But...

“I have the talent copying ability. It’s not impossible to elevate my space and time talents to the God level! Therefore, I have a chance to cultivate the Chaos Body Refining Technique to the highest realm! Moreover, even without the time and space talents, my other ten attributes have reached the God level, which is enough to cultivate the Chaos Body Refining Technique to a very high level, helping me step into the power level of an Eternal Child of the Universe with ease!”

Thinking this, Ye Tian couldn’t help but smile.

Everyone thought he couldn’t cultivate it, but in his eyes, the Chaos Body Refining Technique was undoubtedly the best Divine Canon.

Of course.

The Chaos Body Refining Technique was indeed very difficult to cultivate, and this was no exaggeration.

The Chaos Body Refining Technique had seven layers. Cultivating the first layer meant entry-level, the third layer meant minor achievement, the fifth layer meant major achievement, and the seventh layer meant perfection.

Once the first layer of the Chaos Body Refining Technique was cultivated, coupled with progress in other aspects, Ye Tian could definitely step into the power level of a Peak Child of the Universe.

However, cultivating the Chaos Body Refining Technique required the aid of chaos yuan qi. Although the Yellow region also had chaos yuan qi, it wasn’t very dense. Considering the concentration of chaos yuan qi in the Yellow region, it would probably take a long time for Ye Tian to cultivate the first layer of the Chaos Body Refining Technique.

“First, I need to fully comprehend the content of the first layer of the Chaos Body Refining Technique, then buy some chaos resources to cultivate!” Ye Tian planned.

Chapter 459: The First Tier Ordinary Child of the Universe!

The Chaos Body Refining Technique was arcane and difficult to comprehend. To cultivate it, one needed to fully understand the intricacies of the Chaos Body Refining Technique.

For an ordinary Child of the Universe, it would take several years just to fully grasp the first layer of the Chaos Body Refining Technique. If they then attempted to cultivate it, it would require even more time.

This was actually quite fair, as divine canons that were both easy to understand and powerful in cultivation were exceedingly rare.

In the universe, the more powerful the techniques, secret arts, and divine abilities, the more difficult and challenging their cultivation would be.

The Chaos Body Refining Technique was no exception! However, Ye Tian possessed the time and comprehension talent, which made understanding the first layer of the Chaos Body Refining Technique not difficult at all.

In just five days, Ye Tian had completely mastered the first layer of the Chaos Body Refining Technique.

Then, he began his attempt at cultivation.

Boom! The chaotic yuan qi surrounding the cultivation tower surged towards Ye Tian, rapidly absorbed by his body. Under the refinement of the first layer of the Chaos Body Refining Technique, his physical body was strengthened, his soul was nourished, and his yuan force was enhanced.

Divine canons provided comprehensive improvements to the Children of the Universe, without any shortcomings in any aspect.

That was why divine canons were considered one of the strongest inheritances of humanity, capable of transforming and growing the Children of the Universe continuously.

Being strong in body, spirit, and essence was the true definition of strength. Otherwise, strength in one aspect alone would be considered a flaw, and the manual could not be considered a powerful divine canon. If it could not enhance all three aspects of essence, spirit, and body, it would not qualify as one of humanity's strongest inheritances and would not be so precious.

At this moment, Ye Tian felt his body slowly transforming. Although the overall effect was not very rapid, compared to the past, this speed was much faster.

Moreover, Ye Tian had never been able to cultivate his soul before, but now his soul was being nourished, and its strength was gradually increasing.

“The effects are good, but relying on this speed, it would take three hundred years to fully cultivate the first layer of the Chaos Body Refining Technique. Even with my talent in time, it would still require ten years.

I can’t wait that long!”

Ye Tian did not want to spend ten years to cultivate the first layer of the Chaos Body Refining Technique fully. If he became a peak Child of the Universe after ten years, he would only be a third-tier peak Child of the Universe, which was far from being an Eternal Child of the Universe.

However, a grand event was approaching in a hundred years.

As cultivation progressed, it became increasingly difficult. If it took ten years to advance to a peak Child of the Universe, then in a hundred years, he would definitely not be able to reach the strength of an Eternal Child of the Universe.

“It looks like I must rely on chaotic resources!” Ye Tian murmured to himself.

“Ziya!” Ye Tian called out.

Swish! Ziya appeared in front of Ye Tian.

“Master, what are your orders?” Ziya asked.

“The Supreme Hall of Humanity has some chaotic resources. I want to buy some. Help me purchase some. I have 400 points on hand. As long as it doesn’t exceed 400 points, you can buy as you see fit.” Ye Tian handed his identity token to Ziya and commanded.

“Master, you still want to cultivate that supreme divine canon that you can’t master. You’re wasting points!” Ziya said with a look of disappointment.

“Just go and buy them. That’s an order!” Ye Tian said sternly.

“Yes!” Ziya complied and then left.

Ye Tian did not tell Ziya about his copy talent, not because he was afraid of leaks.

He knew Ziya wouldn’t leak the information. Although phantom spirits could share information, they only shared basic information and what they were willing to share. They would not reveal the secrets of each Prince or Princess, and as long as they did not betray humanity, phantom spirits wouldn’t even reveal secrets to the higher-ups.

Thus, phantom spirits kept things strictly confidential.

Yet, Ye Tian still wanted to keep a low profile until the right opportunity arose to reveal himself.

Before long, Ziya returned, holding a storage ring.

“Master, these are the five pieces of chaotic resources purchased to assist in cultivation, totaling 370 points!” Ziya handed over the storage ring and the identity token to Ye Tian.

“Alright, you may leave now!” Ye Tian waved his hand dismissively.

After Ziya had left, Ye Tian opened the storage ring and took out the five chaotic resources.

These chaotic resources contained incredibly pure and dense chaotic yuan qi, akin to spiritual medicines, providing significant benefits to cultivation.

Such chaotic resources might not even be possessed by the four dominant forces, but the Supreme Hall of Humanity had many, which Ye Tian had learned from browsing the information in the inheritance pagoda.

Ye Tian placed one of the chaotic resources, which resembled a rock, in his palm and began to operate the first layer of the Chaos Body Refining Technique, absorbing the chaotic yuan qi within the resource to refine his body, yuan force, and soul.

Boom! A vast amount of chaotic yuan qi surged into Ye Tian's body, accelerating his cultivation.

With the help of the chaotic resources, Ye Tian's cultivation speed increased manyfold.

At this rate, with the assistance of his time acceleration talent, Ye Tian estimated that it would take at most six months to fully cultivate the first layer of the Chaos Body Refining Technique.

However, Ye Tian was concerned that the five chaotic resources might not be sufficient.

As days passed, especially in the accelerated time environment, although Ye Tian's cultivation speed was fast, the consumption of the chaotic resources was also rapid.

To ensure that the chaotic resources were enough to cultivate the first layer of the Chaos Body Refining Technique, Ye Tian had to use them sparingly, absorbing chaotic yuan qi from the Yellow region after depleting each resource.

In this manner, a year passed.

One day, after exhausting the last chaotic resource, Ye Tian finally cultivated the first layer of the Chaos Body Refining Technique.

Although it took six months longer than initially estimated, Ye Tian had achieved his goal! When he successfully cultivated the first layer, Ye Tian's physical body, yuan force, and soul all underwent significant improvements and transformations, as if reborn, even his physique transformed into a Chaos Body.

“So powerful, just by cultivating the first layer of the Chaos Body Refining Technique, and merely entering the first layer without fully mastering it, my strength has increased manyfold. If I can cultivate the Chaos Body Refining Technique to a minor accomplishment, even without significant progress in other areas, I should be able to reach the strength of an Eternal Child of the Universe, right?”

Ye Tian speculated.

Next, Ye Tian entered the Phantom World Battle Tower, challenging the third floor of the tower.

This time, Ye Tian easily passed the third floor of the Battle Tower.

Then, Ye Tian continued to challenge the fourth floor. If he could pass the fourth floor, he would possess the strength of a peak Child of the Universe.

However, after a long struggle, Ye Tian was defeated by the ten black-clad warriors on the fourth floor, although he managed to defeat eight of them.

“My strength is just below that of a peak Child of the Universe, mainly because my supreme saber technique has progressed slowly. Plus, I’ve just cultivated the first layer of the Chaos Body Refining Technique. If I can make a bit more progress, I should be able to pass the fourth floor of the Battle Tower, and then I’ll have the strength of a peak Child of the Universe!”

Ye Tian was not discouraged and prepared to continue using chaotic resources for cultivation, which should quickly elevate his strength to that of a peak Child of the Universe.

“Ziya!”

Ye Tian called out to Ziya again.

Swish! Ziya appeared and asked, “Master, what are your orders?”

“Go and buy me some more chaotic resources!”

Ye Tian commanded.

“...”

Ziya's eyes widened in surprise, staring at Ye Tian in astonishment, as if to say: Master, where do you still have points? Seeing Ziya's expression, Ye Tian immediately knew what she meant and said with a smile, "I just passed the third floor of the Battle Tower and obtained another 400 points, which is enough to buy a few chaotic resources!"

"What, Master, you passed the third floor of the Battle Tower, how is that possible!!!"

Ziya was incredibly surprised.

Passing the fourth floor represented the strength of a first-tier ordinary Child of the Universe, which, even in the entire Yellow region, was considered medium strength.

And Ye Tian had only been in the Yellow region for a short time, let alone having received the divine canon for only a year, and that manual was supposedly impossible to master.

In her estimation, it would take Ye Tian many more years to pass the third floor of the Battle Tower.

But now, Ye Tian told her that he had already passed the third floor!

"Master, did you master that supreme divine canon?" Ziya took a deep breath and asked.

"Secret!" Ye Tian replied indifferently.

"Hmph, keeping secrets, I know even if you don't tell me!"

Ziya had already concluded in her heart that Ye Tian had mastered that supreme divine canon, naturally feeling proud and honored for her master. If her master was powerful, as his little steward, she would also gain face, and she could hold her head high in front of her peers in the future.

"Master, I'll go buy the chaotic resources for you right away!"

Taking Ye Tian's identity token, Ziya hurriedly left.

Chapter 460: Gathering the Five Elements Great Divine Ability!

In no time, Ye Tian managed to purchase the five chaotic resources needed.

Following this, he entered into seclusion once again, using these five chaotic resources to continue cultivating the first layer of the Chaos Body Refining Technique.

Before long, half a year had passed.

With the aid of the five chaotic resources, Ye Tian made significant progress in refining his body with the Chaos Body Refining Technique.

As he refined his cultivation technique, Ye Tian's strength also saw considerable enhancement.

One day, Ye Tian once again challenged the battle tower in the phantom world. After a fierce battle, he finally defeated the black-robed warriors on the fourth level and successfully passed the fourth layer of combat.

This indicated that Ye Tian had achieved the strength of a Peak-level Universe's Child, albeit at the third tier of the Peak level, which was much stronger than an Ordinary Universe's Child.

According to Prince Beishan, there were no Eternal Universe's Children in the Yellow region of the Supreme Hall of Humanity at present.

The strongest in the Yellow region was only a Peak-level Universe's Child of the first tier.

It could be said that Ye Tian was now on par with the strongest in the Yellow region at the Peak level.

Given a few more decades, he would undoubtedly have the potential to become the strongest Emperor-class Prince in the Yellow region.

"After passing the fourth level of the battle tower previously, I was rewarded with 800 points. Now, I have nearly 900 points in total. I must make good use of these 900 points!"

Ye Tian knew that these 900 points were not enough to cultivate the Chaos Body Refining Technique to a minor completion stage, but they could be used to purchase divine abilities.

The Five Elements Great Divine Ability could be divided into five top-tier divine abilities. Since Ye Tian had already mastered the Water Sinking Realm Ability and the Phantom Gold Thread Ability, he only needed to exchange for the other three top-tier divine abilities to complete the Five Elements Great Divine Ability.

A top-tier divine ability could be purchased for 200 points, so Ye Tian would need only 600 points to exchange for the other three top-tier divine abilities.

With nearly 900 points at his disposal, he had more than enough to exchange for the three divine abilities.

Therefore, Ye Tian entered the phantom world and the Heritage Treasure Hall.

Inside the Heritage Treasure Hall, Ye Tian once again encountered the Phantom Spirit guarding the hall—Hong Ling.

“Hong Ling, I wish to exchange for the Wood Heaven Divine Ability, the Fire Cloud Divine Ability, and the Dust Realm Divine Ability from the fourth layer of the Heritage Treasure Hall!” Ye Tian spoke up.

The Wood Heaven Divine Ability, the Fire Cloud Divine Ability, and the Dust Realm Divine Ability were the three top-tier divine abilities that Ye Tian needed.

Along with the Water Sinking Realm Divine Ability and the Phantom Gold Thread Divine Ability, they would form the Five Elements Great Divine Ability.

“Prince of Ten Thousand Laws, are you intending to cultivate the Five Elements Great Divine Ability?” Hong Ling asked with some surprise.

“Yes!” Ye Tian nodded in affirmation.

He had no need to hide this fact, and it wouldn't have been possible to do so anyway. Normally, one would not exchange for these three divine abilities unless they intended to cultivate the Five Elements Great Divine Ability; otherwise, it would be meaningless.

After all, the essence of divine abilities lies in quality, not quantity. One great divine ability surpasses thousands of ordinary ones.

Even if a Prince cultivated hundreds of divine abilities, they would be utterly overpowered by another who had mastered a great divine ability.

This is the terrifying aspect of great divine abilities, far beyond comparison with ordinary ones! However, cultivating the Five Elements Great Divine Ability was extremely difficult.

According to what Ye Tian knew, even if one gathered all the necessary methods to cultivate the abilities, reaching the entry-level realm of the Five Elements Great Divine Ability required the assistance of the five elemental characters of gold, wood, water, fire, and earth, which are among the 55 heavenly dao characters.

Without these characters, it would be impossible to cultivate the great divine abilities.

Although Ye Tian was currently unable to cultivate the Five Elements Great Divine Ability, he wanted to gather all the necessary cultivation methods in advance. Otherwise, if he became eligible to cultivate them in the future but lacked the complete methods, he would regret it immensely. Thus, Ye Tian decided to spend 600 points to purchase the top-tier divine abilities and gather the Five Elements Great Divine Ability.

“Prince of Ten Thousand Laws, great divine abilities are not easy to cultivate, and among them, the Five Elements Great Divine Ability are particularly powerful and top-tier, making them much more difficult to cultivate than ordinary great divine abilities.

To cultivate the Five Elements Great Divine Ability, you must gather the five elemental characters of gold, wood, water, fire, and earth among the 55 heavenly characters.

Although these five characters are relatively common among the heavenly characters, their value can even tempt Galaxy-level beings... they are not easy to collect!” Hong Ling cautioned.

“I understand, thank you for the reminder, but I still wish to proceed with the exchange!” Ye Tian said.

Hong Ling did not try to dissuade Ye Tian any further and led him to inherit the Wood Heaven Divine Ability, the Fire Cloud Divine Ability, and the Dust Realm Divine Ability.

Soon after, Ye Tian received the inheritance and fully memorized the contents of these three divine abilities, and the 600 points were deducted from his account by the Heritage Treasure Hall.

Emerging from the Heritage Treasure Hall, Ye Tian’s consciousness returned to the Yellow area.

Shortly afterward, a phantom Spirit delivered all the materials required for the Wood Heaven Divine Ability, the Fire Cloud Divine Ability, and the Dust Realm Divine Ability to Ye Tian. These materials were included with the purchase of the three top-tier divine abilities.

“Now that I’ve collected all the Five Elements Great Divine Ability, I’ll start by cultivating the Wood Heaven Divine Ability, the Fire Cloud Divine Ability, and the Dust Realm Divine Ability. Once I gather the five elemental characters of gold, wood, water, fire, and earth, I can then cultivate the Five Elements Great Divine Ability!”

Thus, Ye Tian began his cultivation starting with the Wood Heaven Divine Ability.

With the help of his time and insight talents, coupled with his status as a Child of the Universe, cultivating divine abilities became easier for him.

In just ten days, he successfully cultivated the Wood Heaven Divine Ability to the entry-level realm.

Subsequently, Ye Tian spent another twenty days and finally cultivated both the Fire Cloud Divine Ability and the Dust Realm Divine Ability to the entry-level realm as well.

At this point, Ye Tian had mastered five top-tier divine abilities, leaving only the five elemental characters to fully master the Five Elements Great Divine Ability.

“Heavenly characters, the Supreme Hall of Humanity must have them, but I don’t know how I can obtain them.”

Ye Tian was keen to acquire the five elemental characters of gold, wood, water, fire, and earth, but he knew it would be difficult.

He currently possessed only one heavenly character, which was ‘saber.’ Although this character could enhance his comprehension of the Saber Dao, its true utility was in allowing Ye Tian to forge his own path in the Saber Dao and create ultimate techniques of the Saber Dao.

Unfortunately, Ye Tian had not yet comprehended any supreme-level saber techniques to a perfect level, so the ‘saber’ heavenly character was not of much help to him at the moment. However, once Ye Tian advanced his Saber Dao to 90% mastery, this ‘saber’ heavenly character would unleash its truly heaven-defying effects.

“Ziya!” Ye Tian called for his steward, Ziya.

With a swish, Ziya appeared.

“Master, what do you need Ziya for?” Ziya asked.

“Ziya, do you know where in the Supreme Hall of Humanity I can obtain the five elemental characters of gold, wood, water, fire, and earth?” Ye Tian inquired.

“Ah, Master, you want to obtain heavenly characters? That’s going to be difficult!”

Ziya explained, “The Supreme Hall of Humanity indeed possesses many heavenly characters, but they are mostly in the hands of Universal Gods. Heavenly characters are useful even to them, as the Universal Gods also wish to cultivate great divine abilities. So, you can’t buy heavenly characters with points; they are not for sale.”

“However...”

Ziya pondered for a few seconds, then suddenly added, “In over ninety years, a grand era will begin, and the Supreme Hall of Humanity will extensively cultivate its Princes. Master, you might have a chance to obtain heavenly characters then!”

“Here is a recent mission that Master might want to look at!”

With a wave of her hand, Ziya conjured a virtual screen in front of Ye Tian.

[Assassination Mission: Assassinate the Emperor-level Sub-God race Ordinary Universe’s Child, Prince Yuan Yu. Completing the mission will reward the Fire Elemental Heavenly Character.]

[Assassination Mission: Assassinate the Emperor-level Divine race Peak Universe’s Child, Prince Zhan Mie. Completing the mission will reward the Gold Elemental Heavenly Character.]

One after another, assassination missions appeared, each offering a heavenly character as a reward, enough to attract many Princes.

However, such missions were not easy to complete, and the likelihood of failure was high.

The Sub-God race and the Divine race were alien races, with the Divine race’s strength even surpassing that of the human race, and the Sub-God race, though not weaker than the human race, was still a formidable race.

Assassinating their Princes meant entering their territories, making it extremely difficult to succeed.

Even if one were lucky enough to successfully assassinate a target, since they were Emperor-level Universe’s Children, beings above the Emperor level could not intervene. However, their Eternal Universe’s Children at the Emperor level could, making it just as difficult to return.

In short, these missions were essentially trading one’s life for rewards.

Ye Tian was confident in assassinating an Ordinary Universe's Child and had a fair chance of escaping. But if the target was in seclusion for decades, he couldn't possibly wait for decades. Therefore, he was not interested in taking on these missions.

Suddenly, one mission caught Ye Tian's attention.
