

Talent 471

Chapter 471: The Ultimate Saber Heart!

In the Phantom World Battle Tower, Ye Tian reached the seventh floor and confronted ten black-clothed warriors.

These warriors surrounded him in a special formation, with three of them employing suppressive secret techniques and talents, three using illusions, soul attacks, and disruptive secret techniques, and the remaining four launching physical attacks.

Their coordination was impeccable, a feat difficult to achieve by actual martial warriors.

Previously, Ye Tian was overwhelmed by their assault, unable to counterattack and defeated within a minute.

However, this time, Ye Tian unleashed his spatial divine abilities right from the start.

Now much stronger than before, the power of his spatial abilities surged, breaking through the enemy formation in an instant.

Then, with a Xumi Palm, he shattered one of the black-clothed warriors, instantly killing him.

Subsequently, Ye Tian's perfected Heartless God Saber Technique allowed him to swiftly eliminate the remaining warriors.

In no time, all ten black-clothed warriors were slain.

Thus, Ye Tian breezed through the sixth floor of the battle tower, earning a reward of 320 points.

His strength was now officially recognized by the battle tower as reaching the pinnacle of the first tier among the Children of the Universe.

"Let's try the seventh floor!"

Ye Tian advanced to the seventh floor of the battle tower.

Soon, a young man dressed in a blue robe appeared.

There was only one opponent! Ye Tian knew that the seventh floor of the battle tower featured real opponents, not virtual constructs.

Each Prince who entered the seventh floor faced different opponents, all of whom were past Eternal Children of the Universe materialized by the tower using special means.

Their strength was reduced to the weakest level of the Eternal tier, and only by defeating this peak Eternal opponent could one be considered to have successfully conquered the seventh floor.

Each Eternal Prince was nearly flawless, excelling in all aspects.

Suddenly, the Eternal Prince made his move, wielding a sword. The strike gave Ye Tian the sensation of unavoidable doom.

In an instant, Ye Tian's Spatial Divine Form Divine Ability was shattered, and he felt as if pierced through in multiple places.

Whoosh! A sword pierced through his heart before Ye Tian could even react.

It was as if the sword transcended time and space, too swift and powerful to evade. Despite possessing various recovery talents and even the Undying Talent, Ye Tian couldn't withstand this strike.

His body in the phantom world crumbled, marking his defeat. At that moment, he truly understood the might of an Eternal Child of the Universe. And this was merely the weakest among them; the stronger Eternals must be even more formidable.

“That must be an Ultimate Sword Technique!”

Ye Tian murmured to himself.

Having perfected his supreme saber technique, Ye Tian had a discerning eye. That sword strike was certainly not a perfected supreme sword technique but an ultimate sword technique that was unique to its wielder. Although it seemed flawed compared to the most powerful ultimate sword techniques, it was still remarkable, far surpassing any supreme sword technique.

“It seems to step into the realm of the Eternal Children of the Universe, I must comprehend my own Saber Dao ultimate technique or master a great divine ability. Moreover, I need to cultivate the Chaos Body Refining Technique to the fourth level to have a chance at reaching the strength of an Eternal Child of the Universe!”

This was no easy task. Despite the vast number of Children of the Universe in the Yellow region, none had reached the Eternal tier.

The absence of any Eternal Children of the Universe, despite the fall of three, over such a long period, highlighted the immense challenge. If it were easy, the Yellow region would be teeming with Eternals by now.

“Four more years until the New King’s Task competition. I’ll spend the next four years refining the Chaos Body Refining Technique and attempt to develop my own Saber Dao!”

Ye Tian mused to himself.

As for the New King’s Task competition, he felt no pressure. Among the 103 new Princes, none could match him.

Thus, for Ye Tian, the New King’s Task competition was merely a formality. He was poised to claim the title with ease.

His sights were set not on the new Princes or those in the Yellow region who had long joined the Supreme Hall of Humanity, but on the Eternal Children of the Universe, including those from other races.

Setting high goals creates pressure and motivation.

“Cultivation begins!”

Ye Tian sent Ziya to purchase a batch of high-grade chaos resources and embarked on a lengthy period of intense cultivation.

Before he knew it, a year had passed.

At this time, Ye Tian’s strength had not significantly improved; his physical prowess had only slightly increased from before. However, Ye Tian had made considerable progress in the Saber Dao.

He had taken the crucial step in carving out his own Saber Dao path by comprehending the essence of the Saber Heart.

In fact, reaching 90% mastery in the Saber Dao realm is considered a minor completion. Mere comprehension could not elevate the Saber Dao any further.

For most people, their Saber Dao would cease to advance upon reaching the 90% realm.

But Ye Tian was different, thanks to the Heavenly Dao characters of the saber, which enabled him to forge his unique Saber Dao.

“Everyone’s Saber Dao is different. Some are about slaughter, some about protection, some about ruthlessness, while my Saber Dao is about being the strongest. I have always pursued the ultimate strength, to surpass all, and thus my Saber Dao is the Dao of the Strongest!”

Ye Tian thought to himself.

The Dao of the Strongest is quite common among saber wielders, but it’s challenging to pursue because they lack the conviction of being the strongest.

Strong conviction isn’t about merely believing oneself to be the strongest.

For instance, some ordinary Princes, knowing well they cannot match many others and have no hope of catching up in their lifetimes, how could they cultivate a conviction of being the strongest?

Such Princes are not suited for the path of the strongest. Forcing themselves onto it would only lead to mediocrity.

But Ye Tian was different.

With the talent to copy, and possessing the strongest talents in the universe, even if others had stronger talents, he could replicate them, naturally becoming stronger than others.

Thus, he was suited for the path of the strongest.

Therefore, Ye Tian comprehended his own Saber Dao, the Dao of the Strongest, and was about to grasp the essence of the strongest Saber Heart! Once he comprehended the strongest Saber Heart, his Saber Dao realm would step into the 91% realm.

Reaching the 91% realm would qualify him to create a Saber Dao ultimate technique.

Of course, merely having a 91% mastery in the Saber Dao realm is still far from enough to create an ultimate technique.

However, with the Heavenly Dao characters of the saber, coupled with his top-tier talent for comprehension and the talent of time, enhancing his Saber Dao realm was not difficult.

As for when he could create an ultimate Saber Dao technique, Ye Tian couldn't guarantee.

One day.

While Ye Tian was contemplating the Saber Dao, he had a sudden epiphany.

Instantly, countless saber principles converged within him, gradually forming an ethereal small saber.

This ethereal saber, imbued with a trace of the saber's origin and completely merged with Ye Tian, was the embryonic form of the Saber Heart! As time passed, this ethereal saber seemed to solidify, and the aura of the Saber Dao origin grew stronger.

Boom!!! A supreme Saber Dao aura burst forth from Ye Tian, marking the moment he officially comprehended the strongest Saber Heart.

Simultaneously, his Saber Dao realm ascended to the 91% realm.

With the strongest Saber Heart formed, Ye Tian could perceive deeper principles of the Saber Dao from the Heavenly Dao characters of the saber.

But this was far from enough. Ye Tian needed to study a vast array of saber techniques and Saber Dao secret arts, drawing on the wisdom of predecessors to perfect his own Dao of the Strongest.

To Ye Tian's relief, the Heritage Hall in the phantom world possessed many saber techniques, mostly free of charge.

In the outside world, it would have been challenging for Ye Tian to find so many saber techniques. Even if he could, it would likely require a significant amount of time and resources, possibly exhausting all his possessions, which still wouldn't compare to those available in the Heritage Hall of the Supreme Hall of Humanity's Yellow region.

Therefore, Ye Tian felt fortunate to have come to the Supreme Hall of Humanity.

In the days that followed, apart from his usual cultivation, Ye Tian spent most of his time in the Heritage Hall within the phantom world.

Black Iron, Bronze, Silver, Gold, Legendary, God-level, and Super God-level saber techniques.

Ye Tian progressed from the basic to the advanced, mastering one or even several saber techniques daily.

In a short period, Ye Tian had mastered a vast array of saber techniques, accumulating a high level of proficiency in the Saber Dao.

Now, he could even effortlessly create several saber techniques.

In the Saber Dao, his insights and achievements were comparable to many great masters who had dedicated years to it.

92%, 93% Saber Dao realm! And so, three more years passed.

By then, Ye Tian had reached the 94% realm in the Saber Dao and had mastered thousands of saber techniques.

Additionally, he had expended 300 points worth of chaos resources to significantly advance the third level of the Chaos Body Refining Technique.

On this day.

The New King's Task in the Yellow region of the Supreme Hall of Humanity was about to begin!

Chapter 472: A Breeze Sweep, The New King Emerges!

“Master, the New King's Task is about to start, please enter the phantom world!”

Ziya reminded Ye Tian.

“Understood!”

Ye Tian nodded.

The New King's Tasks always took place in the phantom world, where all the Princes participating in this mission would enter the same illusory mission world for a battle royale. The last person standing would be the New King and would receive the rewards of the New King.

Of course, the more opponents one defeated, the better the rewards.

Swish! Ye Tian entered the phantom world and was quickly placed into the New King's Task world by the phantom world.

This time, all 103 newly-promoted Princes participated in this mission. After all, there were no penalties for this mission, and failure was inconsequential. If one was lucky enough to defeat a few Princes, even if they ranked low, they could still receive substantial rewards.

It could be said that this New King's Task was entirely a benefit. Not participating would be foolish! Thus, all 103 newly-promoted Princes joined in.

These 103 Princes had undergone 10 years of cultivation in the Supreme Hall of Humanity, and no one knew the extent of each other's strength.

This mission was not only a challenge for the title of New King but also an opportunity for them to witness the strength of the other Princes.

Whoosh whoosh whoosh!!! One by one, the Princes entered this illusory mission world, and soon all 103 Princes were present, scattered throughout the mission world.

At that moment, a voice resounded from the void.

"The New King's Task officially begins. Princes, please look at your left wrist, where you will find a wristwatch. This wristwatch can sense the locations of the other Princes."

Ye Tian looked down at his left wrist.

A golden wristwatch suddenly appeared on his wrist, featuring a virtual screen with red dots on it.

These red dots represented the Princes, with each dot indicating one.

This way, no Prince could hide. To survive until the end, one had to go through numerous battles. Relying on luck to achieve a good ranking was almost impossible.

“There’s a Prince nearby!”

Ye Tian confirmed through the wristwatch.

He immediately flew towards this Prince, who seemed to be flying towards Ye Tian as well.

In the blink of an eye, the two met.

“It’s him!”

The Prince recognized Ye Tian and became excited.

He knew that Ye Tian was the one who had chosen the strongest supreme scripture back then.

And that strongest supreme scripture was not only difficult to cultivate, but it had also been many years since anyone had successfully cultivated it.

He felt that Ye Tian couldn’t have made much progress in just 10 short years and that his strength hadn’t increased much.

Meanwhile, he had cultivated a common scripture to the entry level and reached the strength of a second-tier ordinary-level Child of the Universe, very close to the first-tier. He believed he should be able to defeat Ye Tian.

“You’re doomed to lose!”

The Prince charged over.

Ye Tian simply glanced at him indifferently and then executed a strike of the Heartless God Saber Technique.

Puff! The saber pierced through the body, instantly killing the opponent.

In the Yellow region, at a certain cultivation tower.

The newly-promoted Prince Ming Ao suddenly found himself back in the cultivation room and was stunned.

“I... wasn’t I fighting that Prince in the mission world? How could I...”

He couldn’t believe it, but he had to accept that he had been killed by the opponent and thus was ejected from the mission world.

“Who in the world is that guy? How is he so strong!!!”

He didn’t recognize Ye Tian, as they had all been cultivating during this time, with each Prince unwilling to waste even a moment.

As such, these newly-promoted Princes hadn’t interacted much with each other, except for that one time, and he had never seen Ye Tian again, naturally not recognizing him.

“Alas, I didn’t expect to be so weak!” Prince Ming Ao thought, deeply shocked.

In the mission world.

Ye Tian effortlessly killed Ming Ao and continued to search for other Princes.

Any Prince found by Ye Tian was almost instantly killed.

Moreover, with Ye Tian’s mystic-level spatial talent, his speed was incredibly fast, as was his killing pace.

In no time, 10 Princes had been eliminated by Ye Tian.

As the number of Princes in the mission world dwindled, Ye Tian had killed 20 Princes. When he checked his wristwatch again, he found only seven or eight red dots remaining on the virtual screen, indicating that only that many Princes were left.

Soon, Ye Tian encountered another Prince.

This Prince was dressed in a set of bronze divine armor, wielding a bronze divine spear.

“I am Prince Bronze!”

Prince Bronze introduced himself.

“I am called Prince of Ten Thousand Laws!”

Ye Tian stated indifferently.

Prince Bronze seemed quite confident, pointing his spear at Ye Tian: “Prince of Ten Thousand Laws, you might as well concede. You may not be aware, but I have recently officially become a peak-level Child of the Universe. You cannot defeat me!”

“Why don’t you try taking one of my strikes first!”

Ye Tian didn’t hold back at all and executed the Heartless God Saber Technique with full force.

After the strike, Prince Bronze’s expression froze, and he stood motionless in the void like a statue.

The next moment, Prince Bronze’s body collapsed! Although he was a peak-level Child of the Universe, he was only at the third tier, while Ye Tian was at the first tier. The gap in their strengths was too vast.

To Ye Tian, Prince Bronze was nothing more than a slightly stronger ant.

The following Princes Ye Tian encountered were also peak-level Children of the Universe, but undoubtedly, they were all at the third tier.

When Ye Tian met them, they were already engaged in combat with each other.

In the end, Ye Tian single-handedly eliminated all of them, sweeping through the competition.

“There’s no one left!”

Ye Tian looked at his wristwatch, which only showed one red dot, indicating himself.

Without a doubt, all the other Princes had been eliminated.

“Congratulations to Prince of Ten Thousand Laws for becoming the New King!”

The phantom world resounded with congratulations.

At the same time, all the Princes in the Yellow region received the results of this New King’s Task.

In an instant, Ye Tian’s reputation spread throughout the entire Yellow region.

At a certain cultivation tower.

Prince White Bone looked at the results of the New King’s Task sent from the phantom world, with the name Prince of Ten Thousand Laws standing out prominently.

“He actually became the New King!”

Prince White Bone was quite surprised.

Originally, when Ye Tian insisted on choosing that supreme scripture, he thought Ye Tian would fade into obscurity, and even advised him at the time.

Unexpectedly, Ye Tian quickly became the New King, completely dominating all the newly-promoted Princes.

What an honor this was!! In comparison, he only managed to luckily defeat one Prince in the New King's Task world before being eliminated by another powerful Prince.

The gap between him and Ye Tian was too significant.

“Prince of Ten Thousand Laws was already the top in the Pan Star Field. I didn't expect that even upon entering the grand stage of the Supreme Hall of Humanity, he would still be at the top. It seems the Legion Lord greatly underestimated Prince of Ten Thousand Laws!” exclaimed Prince White Bone.

Soon, the rewards for the New King's Task were distributed.

Although the other Princes did not win the title of New King, as long as they defeated a Prince in the New King's Task world, they would receive some rewards.

Most rewards were points, but some also included cultivation resources or inheritance of secret techniques.

As for how to choose the rewards, that was up to the individual Princes.

Ye Tian also received his rewards at this time.

His rewards were quite substantial, with several options available.

Among them, he was definitely awarded 100 points.

The subsequent rewards included a middle-grade Divine Artifact, a divine ability inheritance, a Heavenly Dao character, and a large amount of cultivation resources.

These cultivation resources could be converted into points, which would yield 300 points.

The middle-grade Divine Artifact, divine ability inheritance, and Heavenly Dao character could be chosen freely, but some particularly precious Heavenly Dao characters, such as the characters for “time” and “space”, were among the most valuable and could not be chosen.

Even if the Supreme Hall of Humanity had these Heavenly Dao characters, they would not likely bestow them upon a Prince. If a Prince who possessed such a character were to fall, it would mean the loss of that Heavenly Dao character for the human race.

Each Heavenly Dao character was extremely precious, with some being obtained by the ancestors of humanity at the cost of their lives, so they could not be wasted.

After some consideration, Ye Tian began to choose his rewards.

“Most of these cultivation resources are useless to me, so I’ll convert them into points. That way, I can have an additional 400 points.

As for the middle-grade Divine Artifact, I’ll choose a spatial artifact. Middle-grade saber artifacts can still be bought at a great cost, but middle-grade Divine Artifacts are hard to come by. Obtaining a middle-grade Divine Artifact would certainly aid my strength.

Regarding divine ability inheritance, ordinary ones are useless to me, but spatial divine abilities would be very beneficial. To maximize benefits, I’ll choose a spatial divine ability.”

After making his choices, Ye Tian reported his selection.

Then, he quietly awaited the arrival of his rewards.

First came the points, which were credited to his account very quickly! About half an hour later, a phantom spirit arrived at Ye Tian’s cultivation tower.

The rewards had arrived!

Chapter 473: The True Path to Supreme Strength

“Prince of Ten Thousand Laws, this spatial ring contains your reward!”

A phantom figure arrived at Ye Tian's cultivation tower, handed over the item to Ye Tian, and then departed.

Ye Tian opened the spatial ring and found a spatial divine artifact, a divine ability inheritance bead, and a scroll! He took out the scroll and opened it to reveal just one word.

“Metal!”

The word ‘Metal’ represented the Heavenly Dao character for metal, which was the character Ye Tian had chosen. To master the Five Elements Great Divine Ability, one needed the Heavenly Dao characters for metal, wood, water, fire, and earth. Unable to obtain all five characters at once, he had chosen the character for metal as a good starting point.

Next, he only needed to collect the other four characters to begin cultivating the Five Elements Great Divine Ability.

“Unfortunately, divine abilities related to the metal element are quite rare. Although the Supreme Hall of Humanity does have inheritances for metal element divine abilities, they are very expensive, even more so than the Five Elements Great Divine Ability, because rarity increases value. Moreover, even if I were to exchange for a metal element divine ability, just one metal Heavenly Dao character would not be sufficient to cultivate it!”

Ye Tian sighed.

Although the divine ability of the metal element only required the metal Heavenly Dao character, just one character was not enough.

The metal Heavenly Dao character was a common one in the universe, but each character had a different meaning. For example, some represented sharpness and offensive power, others defense, and some the indestructibility of metal. There were simply too many variations.

To cultivate a divine ability of the metal element, at least three different metal Heavenly Dao characters were needed.

For Ye Tian, the power of the Five Elements Great Divine Ability far exceeded that of a single-element metal divine ability. Since a single metal Heavenly Dao character could not enable him to cultivate a metal-element divine ability, it would be a waste to spend so many points to

exchange for one. Although collecting the characters for wood, water, fire, and earth might be slightly more complex, it was possible to gather them all eventually.

“First, I’ll inherit this metal Heavenly Dao character!”

Ye Tian’s consciousness entered the scroll, transporting him to a world of metal.

Boom! A majestic metal character appeared in Ye Tian’s consciousness.

He slowly approached the Heavenly Dao character and soon touched it.

“Absorb!”

The metal Heavenly Dao character instantly entered Ye Tian’s soul, creating a soul space within its depths. The essence of the metal character gradually converged there, making it difficult for outsiders to detect its presence.

Immersed in the essence of the metal Heavenly Dao character, Ye Tian sensed its representation of aggression. This was an offensive metal Heavenly Dao character, suitable for aggressive metal-element divine abilities.

With the metal Heavenly Dao character now within Ye Tian’s soul, the scroll became redundant. However, the material of the scroll was extraordinary, so he casually threw it into his personal Xumi Storage Realm.

Next, Ye Tian picked up the divine ability inheritance bead and immersed his consciousness in it.

This inheritance required an oath not to be shared. After making the oath, Ye Tian received the contents of the divine ability.

“Thousand Layer Realm!”

Ye Tian carefully reviewed the mysteries of the Thousand Layer Realm divine ability and was astounded by its power.

This divine ability was formidable, comparable to the Spatial Divine Form. Its utility lay not in space manipulation but in trapping enemies.

Once the initial stages of the Thousand Layer Realm were mastered, it could create a thousand layers of spatial barriers, exerting unimaginable spatial pressure on enemies. If cultivated to perfection, it could form ten thousand layers of barriers, with unimaginable power. Enemies would find it nearly impossible to break through, unless their strength was much greater than Ye Tian's.

“This divine ability is impressive. The Supreme Hall of Humanity has also provided spatial amethyst and Crystal Realm Stones, enabling me to cultivate this spatial divine ability. Once mastered, it will significantly enhance my strength.”

Pleased with this divine ability, Ye Tian then examined the spatial divine artifact.

This artifact was not an amplification type but an escape type— the Ziling Divine Shuttle! The Ziling Divine Shuttle, a mid-grade spatial divine artifact, could merge with a cosmic spaceship, transforming it into a spatial artifact vessel. Not only would it retain the functions of a cosmic spaceship, but it could also instantly activate to traverse the void and break through blockades, making it an excellent tool for escape.

Moreover, the defense of the Ziling Divine Shuttle was comparable to a seven-star cosmic spaceship, capable of withstanding attacks from Great God-level powerhouses. Possessing the Ziling Divine Shuttle meant that unless trapped, one could even evade the pursuit of Great God-level powerhouses.

Of course, if trapped, the Ziling Divine Shuttle would be nothing more than a breakable toy in the eyes of Great God-level powerhouses, with little utility.

After organizing his rewards from the New King event, Ye Tian was very satisfied.

“To think that I gained so much just from becoming the New King, the Supreme Hall of Humanity is indeed generous.

According to the cultivation system of the Supreme Hall of Humanity, there will be another great opportunity in ten years. I hope to elevate my strength to the level of an Eternal Child of the Universe within this decade!" Ye Tian hoped.

In the following days, Ye Tian began cultivating the Thousand Layer Realm spatial divine ability.

In just one or two months, he successfully cultivated the Thousand Layer Realm to the initial stage, which was his current limit.

The ability to cultivate divine abilities at the Mystic level was already the limit for those with spatial talents. To advance to the minor achievement realm and beyond, one must possess a God-level spatial talent. This was one of the reasons why Ye Tian had been unable to comprehend the Spatial Divine Form to the minor achievement realm.

Had he possessed a God-level spatial talent, he would have swiftly elevated the level of his spatial divine abilities with the opportunities provided by the Supreme Hall of Humanity.

Having mastered the initial stages of the Thousand Layer Realm, Ye Tian shifted his focus to creating an Ultimate Saber Technique and cultivating the Chaos Refinement Body Technique.

Once he created the Ultimate Saber Technique and cultivated the Chaos Refinement Body Technique to the fourth layer, he would undoubtedly ascend to the strength level of an Eternal Child of the Universe.

This was why he concentrated his efforts in these two areas.

For cultivating the Chaos Refinement Body Technique, Ye Tian had no tricks up his sleeve and could only use points to purchase high-grade chaos resources. Apart from cultivating the Chaos Refinement Body Technique, Ye Tian spent his other time comprehending the Saber Dao, cultivating various saber techniques, and attempting to create an Ultimate Saber Technique.

As time passed, years went by.

In the blink of an eye, eight years had passed.

“My understanding of the Saber Dao has reached 97%, and I have cultivated tens of thousands of saber techniques. My Ultimate Saber Heart has also become much stronger, but unfortunately, I still haven’t been able to create the Ultimate Saber Technique. Why is that?”

Ye Tian was puzzled.

For half a month, he was in deep thought, and if his mental state weren’t strong, he might have gone mad from obsession.

Thus, one day, he entered the Inheritance Pagoda.

This time, he didn’t go to the first three free levels but headed to the higher levels, hoping to gain insights from those precious books.

He only looked at books related to the Saber Dao. Ye Tian spent points to examine one book after another, but each time, he was disappointed.

Gradually, Ye Tian had spent three to four hundred points in the Inheritance Pagoda.

On the sixth level of the pagoda, a relatively simple book caught Ye Tian’s attention.

“The Path to Ultimate Strength!”

This wasn’t specifically about the Saber Dao, but it mentioned the path to ultimate strength, and Ye Tian was pursuing the path of the Ultimate Saber Dao.

“500 points!”

Ye Tian was shocked by the price displayed on the shelf.

Fifty points could purchase two divine ability inheritances, and even if used to buy resources, they would be enough for him to cultivate for a long time. Yet, just to look at this book, 500 points were required, which seemed excessively expensive!

“Buy!”

Ye Tian gritted his teeth and decided. If he truly gained something from it, it would be a huge win.

Immediately, Ye Tian explained his intentions to the guarding phantom spirit, Hong Ling, in the Inheritance Pagoda, and successfully retrieved the book from the screen. He opened the book.

As soon as the book was opened, Ye Tian’s consciousness was instantly pulled into a void.

Boom! A man whose face couldn’t be seen appeared, seeming both near and far.

He sat cross-legged, as if speaking to countless people about the path to ultimate strength.

“The path to ultimate strength is difficult, difficult, difficult. To walk the path of ultimate strength, one must be invincible among peers to truly step onto the path of ultimate strength, rather than just in one’s heart. Being strong in one’s heart is merely the threshold; one hasn’t truly entered the door...”

The mysterious man spoke a lot, and Ye Tian, listening to his words, was flooded with insights.

The man didn’t speak of any secret techniques but explained how to walk the path of ultimate strength, what to do, the detours, and the principles of ultimate strength.

Had an ordinary person said these words, Ye Tian might not have felt much, but coming from this person, it was like an enlightening baptism; he understood every word.

About ten minutes passed, and after the man finished speaking, Ye Tian’s consciousness was pulled back.

At that moment, he looked at the book and found that he had just finished it!

“What a marvelous technique!” Ye Tian exclaimed inwardly.

He flipped through the book again, and the content was exactly the same as what the mysterious man had said, but the imagery was gone! Ye Tian closed his eyes, immersing himself in the scenes from before, carefully contemplating the man’s words.

After a long time, Ye Tian opened his eyes, which were now filled with clarity.

He finally understood why he had been unable to create an Ultimate Saber Technique. Other saber wielders might have already created their ultimate techniques in his situation, but he hadn’t been able to because he was pursuing the path of ultimate strength in the Saber Dao.

Although his Ultimate Saber Heart had successfully condensed, he hadn’t received recognition from the heavens and earth or from other humans.

The path to ultimate strength inherently required one to be invincible among peers, and he had only defeated some newly minted Princes, far from achieving invincibility among his peers.

“My next goal is to sweep through all the Children of the Universe among humans, truly achieve invincibility among humanity, consolidate the path to ultimate strength, and create the Ultimate Saber Technique!”

Ye Tian’s eyes became clearer and clearer, and an aura of ultimate strength emanated from him.

Chapter 474: Initiating the Challenge, The Yellow Region Trembles

At the Supreme Hall of Humanity, in the Yellow region by the Bi Bo Lake, Ye Tian arrived once again. This place was renowned as the best cultivation site within the Yellow region.

There were a total of ten Cultivation Towers here, of which five were already occupied by five Princes.

Previously, Ye Tian was unaware of the strength required to enter this place, but now, he had come to understand.

A second-tier peak Child of the Universe could pass through the various assessments of the Cultivation Towers here and take up residence.

Ye Tian, with his current strength, naturally breezed through the assessments of the Cultivation Tower here. The reason he hadn't come sooner was due to his comfort at the Cultivation Tower in the Tongbei Mountains, so he wasn't in a hurry to come here.

However, now that he was prepared to consolidate the strongest path, he naturally sought to reside in the best Cultivation Tower, sweeping through all the Princes and truly becoming invincible among the Emperor-level Children of the Universe.

Thus, he came! Ye Tian chose an unoccupied Cultivation Tower, entered it, and soon passed through it.

Boom! The Cultivation Tower released a massive amount of light, shooting up into the sky, signifying that it now had an owner.

This spectacle caught the attention of the other five Princes at Bi Bo Lake.

Instantly, one by one, the Princes came out.

At this moment, Ye Tian also stepped out of the high-level Cultivation Tower and, with a thought, inscribed three words on the tower's plaque.

"Ten Thousand Laws Tower!"

These three words declared this tower as the Cultivation Tower of Prince of Ten Thousand Laws.

"So, it's the Prince of Ten Thousand Laws!"

The five Princes crossed Bi Bo Lake and came before Ye Tian.

Ye Tian glanced over and recognized only three of the Princes, whom he knew from trading Netherworld Stones with them. As for the other two Princes, he didn't know them but understood their talents and names after a quick use of his Copy Talent ability.

Among these five Princes, the strongest was the first-tier peak Child of the Universe—His Highness Prince Holy Heaven, while the other four were second-tier peak Children of the Universe, namely His Highness Yun Qiong, His Highness Feng Long, His Highness Ci Hun, and His Highness Wu Ying.

These five were among the most renowned Princes in the Yellow region, but whether they were the strongest was something Ye Tian dared not confirm. After all, some Princes were very low-profile, and a breakthrough in any area might allow them to match or even surpass these few Princes.

“Greetings to all the Princes!” Ye Tian greeted them with a slight nod.

“Hahaha, now that Prince of Ten Thousand Laws is here, we can interact more in the future!” exclaimed Prince Feng Long with a laugh.

The other Princes also showed goodwill towards Ye Tian, understanding the immense potential he had demonstrated by rapidly ascending to their level from being a newly ascended Prince. They naturally wanted to foster a good relationship, especially since he had the potential to become an Eternal-level Prince in the future.

However, at that moment.

Ye Tian spoke indifferently, “Princes, what I am about to say may offend you, but I hope you can understand.

I am pursuing the strongest path, but I have hit a bottleneck.

I plan to challenge all the Princes in the Yellow region. I will apply for a Battle Realm in the Phantom World, where any Prince can come to watch or challenge me. If anyone can defeat me, they will be rewarded with 100 points.

If they lose, they won’t have to pay anything!”

“What!”

The five Princes were shocked by Ye Tian's declaration.

"Prince of Ten Thousand Laws, isn't this a bit too arrogant?" Prince Ci Hun said discontentedly.

"I need to verify my path. If you Princes are dissatisfied, you are welcome to challenge me at that time!" Ye Tian stated fearlessly.

Then, Prince Holy Heaven spoke, "Prince of Ten Thousand Laws, although I don't understand why your strongest path requires this, you have your path, and we have ours. You are not the only one pursuing the strongest path. By doing this, you are suppressing others' paths. I will personally defeat you when the time comes!"

"You are welcome to!" Ye Tian replied with a slight smile.

Swish! The five Princes turned and left one after another, no longer entering Ye Tian's tower as guests.

Ye Tian understood the reaction of the five Princes. After all, they had come to congratulate him, and he ended up declaring his intention to sweep through the entire Yellow region, effectively challenging them. As Princes, each with their own pride, it would be embarrassing to be swept away by a newly ascended Prince of the Supreme Hall of Humanity. Thus, Ye Tian was now in opposition to them, and it was no surprise they didn't show any good feelings towards him.

Soon, the news of Ye Tian's challenge to all Princes spread.

Instantly, it attracted the attention of many Princes. The chance to challenge Ye Tian, with a victory yielding 100 points and no penalty for losing, seemed too good to be true. Many Princes signed up, including some new Princes who thought they might get lucky or catch Ye Tian in a weak state and possibly win by chance.

Of course, such thoughts were fanciful, but there was no harm in signing up.

Ye Tian's challenge to all Princes in the Yellow region had a significant impact, and the Hall of Enforcers, which had been monitoring Ye Tian's situation, also became aware of it.

At the Hall of Enforcers, Lord Dantai and several Enforcers were discussing Ye Tian.

“The Prince of Ten Thousand Laws intends to challenge all the Princes in the Yellow region,” one of the Enforcers remarked with surprise.

“Does Prince of Ten Thousand Laws gain any benefits from doing this? It seems he would only offend other Princes,” another Enforcer frowned.

Lord Dantai pondered for a moment, then suddenly said, “He must be doing it to consolidate his strongest path. I once had the privilege of hearing a Supreme mention that, in any era, only one individual can truly consolidate the strongest path. The others, at most, reach the threshold and serve merely as a backdrop.

Prince of Ten Thousand Laws must have encountered a bottleneck in his strongest path and seeks to sweep through the Princes of humanity to become the strongest among them. This way, he can break through the bottleneck and consolidate his own strongest path!”

The other Enforcers, upon hearing this, had a sudden realization.

“Prince of Ten Thousand Laws has actually reached this step. With this in view, it won’t be long before he becomes an Eternal Child of the Universe!”

“Yes, almost every Prince who has become an Eternal Child of the Universe has carved out their own path.

If Prince of Ten Thousand Laws also fully embarks on his own path, it would mean he has stepped into the threshold of becoming an Eternal-level Prince. I originally thought it would take him many more years to reach this step!”

“Let’s hope he can truly step out. This way, our Supreme Hall of Humanity could give birth to another Eternal Child of the Universe and not lose face!”

The discussion among the six Enforcers soon concluded.

In the Yellow region.

Ye Tian had moved from the Cultivation Tower in the Tongbei Mountains to the one at Bi Bo Lake.

Phantom Spirit Ziya, who was very excited about the move. Although she couldn't cultivate, she also wanted to settle in Bi Bo Lake, which was a symbol of status! Every Prince had a Phantom Spirit, and these Phantom Spirits generally knew each other. Ziya had always lived in the Cultivation Tower in the Tongbei Mountains, which was far inferior to those at Bi Bo Lake. She would even feel embarrassed to greet those living at Bi Bo Lake.

But now, she too had come to Bi Bo Lake, and with such a powerful master, her vanity was completely satisfied, naturally making her happy.

Among the Phantom Spirits, there were also circles, and on the first day of the successful move, she boasted about it in the circle of Phantom Spirits.

Instantly, many Phantom Spirits began to envy Ziya, saying she was lucky to have met such a powerful and impressive Prince.

One day.

Ye Tian's request to apply for a Battle Realm in the Phantom World was approved, but it required a payment of 100 points.

A mere 100 points were nothing to Ye Tian, who immediately made the payment.

Then.

A Battle Realm was created, constructed entirely according to Ye Tian's requirements.

The moment the Battle Realm was created, Ye Tian informed all the Princes.

"From now on, I will be waiting in the Battle Realm, and any Prince can choose to battle me!"

Ye Tian's message was received by all the Princes.

Subsequently, Ye Tian entered the Battle Realm, sat cross-legged, and waited for the challenges from other Princes.

Meanwhile.

One by one, the Princes entered the Battle Realm to observe the battle, not immediately challenging Ye Tian.

Swish! A Prince entered the battlefield and challenged Ye Tian: "Prince of Ten Thousand Laws, I am Prince Wang Yue, here to challenge Prince of Ten Thousand Laws!"

"Make your move!" Ye Tian gestured invitingly, showing no sign of seriousness, clearly not taking Prince Wang Yue seriously.

This scene angered Prince Wang Yue—"Hmph, you dare to underestimate me!"

Prince Wang Yue immediately made a move, his palm crushing down.

This was clearly a superior palm technique at the minor completion realm!

"Annihilate!" Ye Tian spoke indifferently, wielding his saber, and made a void slash.

Pfft! A single slash killed Prince Wang Yue instantly, his body disintegrating.

"Hiss"

Many Princes gasped.

They also knew Prince Wang Yue, who was a third-tier peak Child of the Universe, but now he had been instantly killed by Ye Tian.

“So strong, no wonder he dared to initiate such a challenge!”

Many Princes secretly exclaimed in admiration.

Chapter 475: The Final Battle

The pinnacle showdown!

“Who else wants to challenge me? Come forth!”

Ye Tian stood with his saber, declaring boldly.

Whoosh! Another Prince entered the arena, the Prince of Illusions, whose strength was even greater than that of Prince Wang Yue. He was not only a master of illusions but had also cultivated a divine ability in illusion techniques.

Typically, peak third-tier Children of the Universe didn’t want to encounter the Prince of Illusions because they were easily suppressed by him.

Once caught in the illusion techniques, if one couldn’t break free and had slightly weaker defenses, they would definitely suffer a severe blow and might even fall.

As soon as the Prince of Illusions made his move, he cast the Illusory Divine Realm! Boom! Ye Tian was immediately enveloped by the Illusory Divine Realm, falling into the Prince of Illusions’ magical art.

However, at this moment, Ye Tian activated his Xumi Eyes, yet he couldn’t see through this magical art.

“Interesting. It seems my Xumi Eyes are still lacking in level. Had you been a first-tier peak Child of the Universe, I might have been somewhat wary, but you are merely a third-tier peak Child of the Universe!”

Ye Tian activated his Spatial Divine Form Divine Ability, unleashing terrifying power.

Crack! The Illusory Divine Realm shattered under Ye Tian’s formidable force.

When strength reached a certain level, even illusions would crumble.

As the Illusory Divine Realm shattered, the Prince of Illusions was shocked. Before he could react, the tip of a saber pierced through his body.

Another swift defeat! The Prince of Illusions was defeated! Subsequently, one Prince after another attempted to challenge Ye Tian but were defeated in succession. Even the Princes with peculiar talents could only withstand one move, and would be defeated by the second.

Ye Tian's strength was beyond all the Princes' expectations.

Finally, a second-tier peak Child of the Universe stepped forward.

"Prince Ci Hun!"

Ye Tian looked at the Prince standing before him, who was one of the five Princes from Bi Bo Lake.

"Prince of Ten Thousand Laws, I challenge you!"

Prince Ci Hun said solemnly.

"Please proceed!"

Ye Tian responded.

In truth, Prince Ci Hun had no confidence, but he had to make a move. He needed to probe Ye Tian's strength to increase Prince Holy Heaven's chances of victory. Otherwise, if all the Princes in the Yellow region were swept away by Ye Tian, it would be a loss of face for them.

Whoosh! Prince Ci Hun became invisible, using a top-tier invisibility talent. He had also cultivated a special invisibility secret technique in combination with his talent, making his invisibility very effective.

If such a tactic was used during a duel, even if the opponent could discern it, a slight oversight would give the initiator the upper hand.

“To use invisibility in front of a mystic-level space talent holder is laughable!”

Ye Tian immediately entered a state of spatial invisibility, which was even more thorough than the invisibility talent.

He didn’t need to become invisible, but he wanted to defeat his opponent in the area they excelled at, thus increasing his momentum.

Ye Tian, now in a state of spatial invisibility, used his Insightful Eye talent to detect Prince Ci Hun’s whereabouts and immediately executed the Super God-level palm technique, the Xumi Palm, hitting Prince Ci Hun across the space.

Boom! Prince Ci Hun was thrown out of the void, severely wounded.

Just then.

Ye Tian’s saber slashed down, directly annihilating Prince Ci Hun.

“Prince Ci Hun has been defeated!!!”

All the Princes present were astonished.

Prince Ci Hun was a second-tier peak Child of the Universe, yet he was defeated so swiftly. The gap in strength was enormous!

“Prince of Ten Thousand Laws must be a first-tier peak Child of the Universe. Perhaps only Prince Holy Heaven has a chance to defeat him!”

One of the Princes lamented.

“Prince Feng Long, you try testing Prince of Ten Thousand Laws’s strength!”

Prince Holy Heaven transmitted a message to Prince Feng Long.

Prince Feng Long nodded. His strength was slightly stronger than that of Prince Ci Hun, and he had formidable defensive abilities, unlike Prince Ci Hun who specialized in assassination techniques and could easily be targeted and defeated.

Whoosh! Prince Feng Long entered the fray.

He was a master of wind attribute divine abilities and immediately activated a defensive wind attribute divine ability upon entering, followed by a top-tier offensive wind attribute divine ability—Wind Dragon Divine Ability! Boom! A massive wind dragon spanning thousands of miles charged at Ye Tian, like a real wind dragon, its terrifying claws aiming to shatter the heavens and the earth.

“Slash!”

Ye Tian executed the perfected supreme-level saber technique, Heartless God Saber Technique, shattering the Wind Dragon Divine Ability and heading straight for Prince Feng Long.

The saber cut through all of Prince Feng Long’s defenses, but he possessed a God-level healing talent and a life talent, allowing him to withstand the damage.

“A perfected supreme-level saber technique is indeed incredibly powerful!”

Prince Feng Long had to admit.

Whoosh! Ye Tian teleported over, moving too quickly.

Prince Feng Long merged with the wind laws, attempting to dodge Ye Tian’s attack.

But the ghostly saber still slashed through the wind laws, cutting Prince Feng Long in two.

Despite having numerous life-saving techniques, Prince Feng Long ultimately lost under the relentless saber attacks! After Prince Feng Long's defeat, he re-entered the phantom world and stood beside Prince Holy Heaven.

"Prince Holy Heaven, I couldn't probe Prince of Ten Thousand Laws's strength. He's very strong, definitely not weaker than you!" Prince Feng Long said with utmost solemnity.

"I'll continue to probe; after all, there's no loss in losing!" Prince Wu Ying stepped forward and said.

Prince Wu Ying entered the fray and battled Ye Tian.

However, it didn't take long for Prince Wu Ying to be defeated.

Then, Prince Yun Qiong took his turn and was also quickly defeated.

By this point, aside from Prince Holy Heaven, almost all the other powerful Princes in the Supreme Hall of Humanity's Yellow region had been defeated.

Having defeated so many Princes, Ye Tian's momentum had reached a pinnacle level, and his supreme saber heart was nearing perfection.

His path to supreme strength was about to be formed!

"There's one more left!"

Ye Tian looked towards Prince Holy Heaven.

Prince Holy Heaven was the most powerful Prince in the Yellow region before, and since the fall of the three Eternal Children of the Universe, no one had been able to shake his position.

Some even speculated that Prince Holy Heaven might achieve the strength of an Eternal Child of the Universe at the Emperor level in the future, making his name very prominent.

Although Ye Tian was powerful, he couldn't be called the strongest in the Yellow region unless he defeated Prince Holy Heaven.

“Prince of Ten Thousand Laws, let me be your final opponent!”

Prince Holy Heaven took a step forward, approaching Ye Tian, and said in a deep voice.

Ye Tian had been waiting for this moment, and so had he. He could have been the first to challenge Ye Tian, but he chose not to. Instead, he waited for Ye Tian to gather his strongest momentum before challenging him. Although he wasn't pursuing the path of supreme strength, defeating Ye Tian would also bring his momentum to a peak, greatly benefiting his own path. Perhaps, he could take this opportunity to step out on his own path by leveraging this peak momentum.

If he wins, he would surpass the peak in one fell swoop.

If he loses, then he would merely lay low for a while, which wouldn't be too much of a loss.

This battle was entirely beneficial for Prince Holy Heaven! In the vast battleground, the fight between Ye Tian and Prince Holy Heaven was about to begin, with all the Princes watching closely.

They were also curious to see who was stronger between Ye Tian and Prince Holy Heaven. “Prince of Ten Thousand Laws, your talent is the strongest I've seen among the Princes, even surpassing the growth rate of the former three Eternal Princes.

However, you've joined the Supreme Hall of Humanity too recently, and it might be difficult for you to surpass me. If you had another few decades, perhaps I truly wouldn't be your match!”

While Prince Holy Heaven praised Ye Tian, he also insinuated that Ye Tian was inferior to him. Such words not only boosted his own momentum but also avoided offending Ye Tian.

But Ye Tian didn't care about what Prince Holy Heaven said; he had only one thought.

To defeat Prince Holy Heaven!

“Let’s fight!” Ye Tian said indifferently.

“Alright!” Prince Holy Heaven nodded.

Boom! The two clashed!

“Saintly Sword! Fall!”

A colossal sword fell from the sky, sealing thousands of miles around.

This strike was enough to severely injure any second-tier peak Child of the Universe, but Ye Tian faced the Saintly Sword with his Spatial Divine Form Divine Ability, with just one hand.

Immediately, space shattered, and the terrifying shockwave swept across thousands of miles.

After the first exchange, Ye Tian and Prince Holy Heaven were evenly matched.

“Billion Sword Lights!”

With a wave of his hand, Prince Holy Heaven turned the giant sword into billions of sword lights, covering heaven and earth, blocking countless spaces.

Even if Ye Tian entered the space, the sword lights could still penetrate through.

This was a supreme-level sword technique that Prince Holy Heaven had cultivated to the perfected level.

At this moment, Ye Tian executed another spatial divine ability—Thousand Layer Realm! Boom! Layers of realms emerged, isolating the billion sword lights within thousands of layers, even isolating Ye Tian and Prince Holy Heaven within one of the realms.

“Thousand Layer Realm Suppression!”

“Spatial Confinement, Solidify!”

“Heartless God Saber Technique, Slash!”

Ye Tian executed a series of techniques, attacking Prince Holy Heaven.

Of course, Prince Holy Heaven had numerous defensive techniques, each countering Ye Tian’s attacks.

The two were evenly matched, making the surrounding Princes watch with great interest.

Suddenly, Prince Holy Heaven performed a series of hand seals, transforming into a giant figure with wings on his back, like a supremely holy deity.

“It’s the Saintly Light Scripture that Prince Holy Heaven has cultivated, a powerful scripture second only to the supreme scriptures. It’s rumored that he has cultivated this scripture to the major realm, allowing him to use the Saintly Light Divine Body, drastically increasing his power!” Prince Yun Qiong exclaimed.

The other Princes watched intently as Prince Holy Heaven executed the Saintly Light Divine Body, signaling a critical moment in the battle.

Chapter 476: The Fourth Layer of the Chaos Body Refining Technique

With the activation of the Holy Light Divine Body, Prince Holy Heaven reached his limit in terms of aura.

He unleashed nearly all the power of the Holy Light Scripture that he could muster, causing his combat strength to surge dramatically.

It could be said that the scripture served not only as a method of cultivation but also as a technique for combat.

Although the increase in combat power wasn’t excessively dramatic, it was enough to turn the tide in crucial moments.

At this moment, Prince Holy Heaven's combat power seemed to momentarily suppress Ye Tian.

"Holy Light Judgment!" Prince Holy Heaven unleashed his strongest sword technique.

Boom! The barriers of the ten thousand realms were shattered one by one by Prince Holy Heaven's Holy Light Judgment.

"Prince of Ten Thousand Laws might not be able to withstand this!" Muttered Prince Ci Hun.

Then, at this moment, Ye Tian remained extremely calm.

He fully activated the Chaos Body Refining Technique, unleashing the power of the Chaos Body.

Rustle! Strands of chaotic laws surrounded Ye Tian, seemingly crushing all other laws in their path.

"Heartless God Saber Technique!"

"Break!"

Gathering the power of chaos and unleashing it in a full-blown strike, the Heartless God Saber Technique collided with the Holy Light Judgment in the sky.

Endless radiance enveloped the sky, laws shattering inch by inch! Soon, the light dissipated, revealing the scene clearly! Ye Tian stood in the void, looking somewhat disheveled with some wounds, but these injuries were not severe and quickly healed.

On the other hand, Prince Holy Heaven's armor was shattered, and his long sword was broken in half.

It was clear to all the Princes that Prince Holy Heaven had a gash on his chest, a wound created by the saber qi.

“I have lost!” Prince Holy Heaven said helplessly.

Although he still had the strength for another battle, his injuries were not light, whereas Ye Tian was relatively unharmed.

Having played all his cards, he had almost no chance of turning the battle around. Continuing to fight Ye Tian would only lead to a more miserable defeat.

Rather than that, it was better to admit defeat now, which would be slightly better for his dignity than being miserably defeated and forced to concede.

“You are strong, but unfortunately, the scripture you cultivated is average. Had you cultivated a supreme scripture, I would have definitely lost this battle!” Ye Tian commented.

Prince Holy Heaven sighed, “How difficult it is to cultivate a supreme scripture, not everyone can cultivate one like you. If I had chosen a supreme scripture from the beginning, perhaps I wouldn’t have achieved what I have today! I am completely convinced by my defeat in this battle!”

With Prince Holy Heaven admitting defeat, Ye Tian effectively swept through all the Princes in the Yellow region.

No one dared to object, for Ye Tian had proven with his strength that he was the strongest Prince in the Yellow region.

The era to come would be overshadowed by Ye Tian’s fame.

“Does anyone else wish to challenge me?” Ye Tian asked loudly.

At this moment, there was no response.

“I am willing to acknowledge Prince of Ten Thousand Laws as the strongest Child of the Universe at the Emperor level among humanity, unmatched at his level, unparalleled in this era!”

Prince Holy Heaven said, bowing with his fists clasped.

“Prince of Ten Thousand Laws, unmatched at his level, unparalleled in this era!”

“Prince of Ten Thousand Laws, unmatched at his level, unparalleled in this era!”

“Prince of Ten Thousand Laws, unmatched at his level, unparalleled in this era!”

One Prince after another responded, shouting out! Boom! In the depths of the void, Ye Tian’s path to ultimate strength finally broke through its bottleneck and truly took shape.

And Ye Tian’s ultimate saber heart was also perfected.

Whoosh! Ye Tian’s consciousness returned to his body, leaving the phantom world.

At this moment, Ye Tian was immersed in the enlightenment of the Dao of the Saber, and with the help of the consolidation of the supreme Dao, he entered a state of sudden insight.

The Saber Dao realm, which had reached 97%, began to progress at an unbelievable rate.

98% realm! 99% realm! After an unknown amount of time, Ye Tian’s Dao realm reached a perfect 100%.

Having reached 100% in the Saber Dao realm and fully integrated with the Saber Dao words within his soul, he released all the ultimate truths of the Saber Dao.

Ye Tian absorbed these supreme truths of the Saber Dao and began to evolve the ultimate techniques of the Saber Dao through the countless saber techniques he had cultivated.

As time passed, a year flew by in the blink of an eye.

During this year, many Princes visited Ye Tian, but all were stopped by Ziya.

Ziya didn't want anyone to disturb Ye Tian.

Although she wasn't clear about Ye Tian's state, she could tell from the aura emanating from the cultivation chamber that Ye Tian was in the midst of a breakthrough and naturally didn't want others to disturb him.

On this day.

Ye Tian's aura began to converge, and soon he returned to a state of simplicity, appearing ordinary at a glance. Yet, once unleashed, his power could shake the heavens and the earth.

Suddenly.

Ye Tian opened his eyes and murmured, "I have finally deduced the ultimate technique of the Saber Dao!"

Ye Tian was extremely excited, but the cost was significant. The words of the Saber Dao in the heavens had completely disappeared, having exhausted their essence to assist him in deducing the ultimate technique of the Saber Dao.

It could be said that Ye Tian's perception and luck were truly against the heavens. Had it been someone else, they really wouldn't have been able to create a Saber Dao ultimate technique just from a single Saber Dao heavenly text.

However, although Ye Tian had created this Saber Dao ultimate technique, it was only in its initial stages and had many flaws.

Ye Tian named this Saber Dao ultimate technique.

Heavenly Moon Saber! The name was derived from his own name and that of his wife, Empress Yue, combining the two.

The Heavenly Moon Saber emphasized speed and strong attacks, far surpassing any supreme-level saber techniques.

Even in its nascent stage, once Ye Tian wielded the Heavenly Moon Saber, he could easily inflict severe damage on someone like Prince Holy Heaven, a top-tier first-class Child of the Universe.

“Let’s try to break through the seventh layer of the Battle Tower again!”

Ye Tian decided.

On the seventh layer of the Battle Tower.

Ye Tian once again encountered the Eternal Child of the Universe from that day. As soon as the opponent appeared, he unleashed that ultimate sword technique against Ye Tian.

That day, Ye Tian had almost no resistance against this sword Dao ultimate technique and was instantly killed with a single strike.

Today, he had a sliver of confidence.

Because he had also created a Saber Dao ultimate technique. Facing an ultimate sword technique with an ultimate saber technique, even if his cultivation was inferior, he shouldn’t be instantly killed with one strike, right?

“Heavenly Moon Saber!”

Ye Tian exerted all his strength in this one slash, meeting the sword Dao ultimate technique head-on.

The clash of the saber and the sword seemed to break through space and time, colliding beyond the confines of space-time.

The silent collision began! Thud, thud, thud!

Ye Tian was sent flying thousands of miles, and the area where they had clashed was now filled with countless spatial rifts.

He was injured! But he didn't die! In other words, Ye Tian had withstood the strike from that Eternal Child of the Universe, successfully holding his ground.

Suddenly.

The Eternal Child of the Universe attacked again, much faster than Ye Tian. Even instantaneous movement was hard to react to.

After several exchanges, Ye Tian was severely injured multiple times.

In an instant, Ye Tian couldn't maintain his physical body, which disintegrated.

Defeated again! His consciousness returned, and Ye Tian began to ponder over this battle.

The only reason for the gap in strength was cultivation! His physical strength was inferior, his yuan force was inferior, and naturally, there were gaps in speed and reaction time.

“As I suspected, I must fully comprehend the Saber Dao ultimate technique and cultivate the Chaos Body Refining Technique to the fourth level to truly possess the combat power of an Eternal Child of the Universe. Otherwise, I can't reach the level of an Eternal Child of the Universe.

The Eternal Child of the Universe I fought was just the weakest simulated version. Being overwhelmed by the weakest Eternal Child of the Universe shows how far I am from reaching the level of an Eternal Child of the Universe!” Ye Tian murmured.

In the following days, he planned to focus on cultivating the Chaos Body Refining Technique, relying on a lot of time and a massive amount of chaotic resources to advance the Chaos Body Refining Technique to the fourth level. Although the fourth level of the Chaos Body Refining Technique still belonged to the minor accomplishment realm, it was much stronger than the third level.

Once the Chaos Body Refining Technique reached the fourth level, his strength would surge, naturally entering the combat power level of an Eternal Child of the Universe.

“Let's start cultivating!”

Day by day, Ye Tian devoted himself to arduous cultivation, letting Ziya purchase more chaotic resources whenever they were about to run out.

He had a lot of points, enough to sustain his cultivation for a long time.

However, as time passed, Ye Tian's rate of consuming points increased.

In the blink of an eye, five years passed.

On this day.

Ye Tian's points were almost exhausted, but his progress in the Chaos Body Refining Technique was also rapid. He had now reached the peak of the third level, just one step away from breaking through to the fourth level.

The breakthrough from the third to the fourth level was just a minor one, not from minor to major accomplishment, so there was no need to rely on the Chaos Tower.

However, the difficulty of breaking through to the fourth level of the Chaos Body Refining Technique was also extremely exaggerated, not so easy to achieve.

Thus, he prepared to force a breakthrough.

Before the breakthrough, Ye Tian activated all his talents, such as the Immortal Talent, Life Talent, Healing Talent, etc., and even consumed various healing spiritual medicines to begin forcefully breaking through to the fourth level of the Chaos Body Refining Technique.

The breakthrough began! He consumed the last bit of chaotic resources in one go and started operating the Chaos Body Refining Technique at full strength.

Boom! The Chaos Body Refining Technique operated at high speed, and Ye Tian repeatedly assaulted the bottleneck, pushing his body into an overloaded state.

Crack, crack, crack! The sounds of fracturing echoed as Ye Tian's body cracked, but with the assistance of talents like the Immortal Talent, Life Talent, Healing Talent, etc., the wounds rapidly healed.

Cracking, healing, cracking, and then healing again! Without these talents, Ye Tian wouldn't dare to forcefully attempt to break through to the fourth level of the Chaos Body Refining Technique; he would have likely failed long ago! After countless attempts and an unknown amount of time.

Suddenly, Ye Tian felt a cracking sound from the depths of the universe, not from his body, but from the bottleneck.

Seizing this opportunity, Ye Tian operated the Chaos Body Refining Technique with all his might.

"Break!" Ye Tian roared inwardly.

Boom! The Chaos Body Refining Technique broke through, completely entering the fourth level.

With the breakthrough, Ye Tian's body surged with countless energies, repairing his physique and accelerating its transformation.

At the same time, Ye Tian took out a large number of Divine Crystals and swallowed them all, using them as nourishment for his body's transformation.

Half a month later, Ye Tian's realm had completely stabilized.

At this moment, Ye Tian felt he had entered a completely new realm.

"I should have entered the combat power level of an Eternal Child of the Universe, right?"

Ye Tian murmured.

...

Chapter 477: Eternal Child of the Universe, Reward Bestowed by Humanity

Ye Tian emerged from his seclusion and re-entered the phantom world's battle tower.

He was determined to challenge the seventh layer of the battle tower once again! Although he believed he had reached the power level of an Eternal Child of the Universe, failing to conquer the seventh layer would mean he did not qualify as such.

Upon entering the seventh layer of the battle tower, Ye Tian once again clashed with an Eternal Child of the Universe.

This time, Ye Tian was not at a disadvantage and even managed to suppress his opponent to some extent.

Utilizing his spatial talents and divine abilities, and wielding the Heavenly Moon Saber as his weapon, Ye Tian fought the Eternal Child of the Universe in the seventh layer for a long time.

Finally, Ye Tian inflicted severe injuries on his opponent without sustaining any significant injuries himself.

Suddenly, the Eternal Child of the Universe vanished, not defeated by Ye Tian but disappeared on its own.

"Could it be that I've passed?" Ye Tian wondered.

In a flash, Ye Tian was transported out of the seventh layer and informed that he had successfully passed it.

In reality, the strength difference between two Eternal Children of the Universe is usually minimal, making it difficult to kill each other. It's not impossible for a slightly weaker Eternal Child of the Universe to be defeated by a marginally stronger one in the end.

Therefore, the criterion for the seventh layer is to either suppress the Eternal Child of the Universe or maintain an unbeaten status to be recognized as having the strength of an Eternal Child of the Universe.

Since Ye Tian not only suppressed his opponent but also inflicted severe injuries, it was natural that he passed the seventh layer.

Upon passing, Ye Tian received 640 points.

At this moment, Ye Tian was overjoyed.

Suddenly, a bell toll resounded throughout the Yellow region, heard by all the Princes.

The bell's sound was long and lingered for a while.

At the Bi Bo Lake, within a cultivation tower, Prince Holy Heaven opened his eyes from his cultivation, showing a stunned expression.

“This is the Eternal Bell!!!”

There is an Eternal Bell in the Yellow region, the location of which he did not know, but he was aware that whenever someone reached the strength of an Eternal Child of the Universe, the Eternal Bell would automatically toll.

The tolling of the bell signified celebration! Now that the Eternal Bell had tolled, it meant that a new Eternal Prince had emerged in the Yellow region.

“It's him, Prince of Ten Thousand Laws, he has become an Eternal Prince!!!” Prince Holy Heaven was astounded.

The strength of an Eternal Child of the Universe, which he had longed for and paid a great price for, was still far away from him. Yet, just a few years after their last battle, Ye Tian had far surpassed him, becoming an Eternal Prince.

This rate of progress was unbelievable to him! Had he not fought Ye Tian himself, he might have assumed that Ye Tian had always been an Eternal Child of the Universe.

“Truly defying the heavens, to be a contemporary of such a Child of the Universe is quite a blow!”

Prince Holy Heaven expressed his resignation.

Recognizing the sound of the Eternal Bell wasn't limited to Prince Holy Heaven alone; apart from the newly ascended Princes, most of the other Princes recognized it too. When the three Eternal Princes were still alive, many had witnessed the tolling of the Eternal Bell themselves. The tolling of the Eternal Bell, marking the birth of an Eternal Prince, was a grand occasion in the Supreme Hall of Humanity's Yellow region. In the Hall of Enforcers, the Hall Enforcers also heard the Eternal Bell.

"The Eternal Bell in the Yellow region has tolled, but who has reached the strength of an Eternal Child of the Universe?"

While Lord Dantai was surprised, he also showed curiosity.

At this time, one of the Hall Enforcers speculated: "It might be Prince of Ten Thousand Laws. Currently, in the Yellow region, there are only two top-tier first-class Children of the Universe, besides Prince of Ten Thousand Laws, only Prince Holy Heaven has a talent that might allow him to become an Eternal Prince, but certainly not now.

But Prince of Ten Thousand Laws, who swept through all the Princes a few years ago and consolidated the strongest momentum, truly comprehended his ultimate path, has the possibility of becoming an Invincible Child of the Universe!"

"The birth of an Eternal Child of the Universe is a significant event; let's all six of us go and see!" Lord Dantai suggested.

The other Hall Enforcers agreed and headed towards the Yellow region.

In an instant, they arrived at the Yellow region and, after a brief investigation, learned who the new Eternal Child of the Universe was.

"It is indeed the Prince of Ten Thousand Laws!" Lord Dantai was not surprised.

"Let's report this up first. Once a Prince becomes an Eternal Child of the Universe, they are awarded a large amount of rewards. This time, even more rewards might be bestowed,

especially since Prince of Ten Thousand Laws is currently our humanity's only Eternal Prince at the Emperor level!" Lord Dantai stated.

"Indeed, we must report this!" The other Hall Enforcers nodded in agreement.

The six Hall Enforcers reported Ye Tian's achievement of becoming an Eternal Child of the Universe to the higher-ups. As for the rewards, that would be decided by those above.

In just one day, the high-level officials of the Supreme Hall of Humanity bestowed the rewards.

These rewards were distributed by the Hall Enforcers, as the true high-level officials of the Supreme Hall of Humanity would not appear in person.

On this day, in the Yellow region by Bi Bo Lake, a thunderous sound erupted as a beam of golden light enveloped the region, bringing with it an immense pressure.

Simultaneously, a voice announced, "Prince of Ten Thousand Laws has achieved the strength of an Eternal Child of the Universe, becoming the sole Eternal Prince in the Yellow region. The Supreme Hall of Humanity hereby bestows rewards!"

"Eternal Prince, please come forward!"

The six Enforcers appeared, standing at the other end of the golden light.

This scene left the other five Princes by Bi Bo Lake astonished, prompting them to emerge.

"This is the Supreme Hall of Humanity's accolade for an Eternal Prince!" Prince Holy Heaven said, filled with envy.

He had witnessed such a scene before, but that Eternal Prince had since fallen.

"I wonder how much the Supreme Hall of Humanity will reward the Prince of Ten Thousand Laws!" Prince Holy Heaven was curious.

Ye Tian emerged from his cultivation tower and saw the six divine beings. He respectfully greeted, “I pay my respects to the six Enforcers!”

The six Enforcers walked along the golden path, quickly reaching Ye Tian.

Meanwhile, more and more Princes gathered around, drawn by the spectacle created by the six Enforcers. The golden light, though covering only a portion of the area, was visible from afar, and the announcement had echoed throughout the Yellow region, making it difficult for the other Princes to remain unaware.

Lord Dantai, leading the group, presented a scroll that resembled an ancient imperial edict.

“The Prince of Ten Thousand Laws, the Supreme Hall of Humanity bestows upon you the following rewards!”

“As an Eternal Prince, from this day forth, Prince of Ten Thousand Laws will have unrestricted access to all techniques and secrets within the Yellow region’s Inheritance Pagoda, including the Great Divine Abilities.

Many secrets will also be open to the Prince of Ten Thousand Laws without restrictions...”

“Second reward, 100 points are bestowed upon the Prince of Ten Thousand Laws!”

“Third reward, an upper-grade defensive Divine Artifact is bestowed upon the Prince of Ten Thousand Laws for protection!”

“Fourth reward, the Prince of Ten Thousand Laws is awarded three lifetimes of cultivation in the Reincarnation Hall to refine his mental state.”

“Fifth reward, the Prince of Ten Thousand Laws is bestowed the position of a Pan Star Field Enforcer, with the authority to oversee the Pan Star Field and act on behalf of the Supreme Hall of Humanity, ranking just below the sovereign leaders of the Pan Star Field!”

“Sixth reward, one Planetary System level guard and ten Great God level guards are bestowed upon the Prince of Ten Thousand Laws!”

“Seventh reward, the Heavenly Dao characters of Wood and Water are awarded to the Prince of Ten Thousand Laws, one each!”

“Eighth reward, the Prince of Ten Thousand Laws is granted one opportunity for a cosmic expansion!”

“Ninth reward, one opportunity for a Universal God to take action on the Prince of Ten Thousand Laws’s behalf!”

“The Prince of Ten Thousand Laws, these are the nine major rewards bestowed by the Supreme Hall of Humanity, which will be delivered to you in the coming days!” Lord Dantai said with a smile.

He then handed the scroll to Ye Tian.

Ye Tian glanced at it, finding the contents exactly as Lord Dantai had described.

However, from a distance.

Prince Holy Heaven and others were gaping in disbelief.

“These rewards are too generous!”

They had witnessed the Supreme Hall of Humanity rewarding an Eternal Prince before, but those rewards paled in comparison to this time.

The previous rewards were only seven, and their value was not as great as this time.

“It must be because the Supreme Hall of Humanity lost three Eternal Children of the Universe all at once, and now that a new one has emerged, they’ve increased the rewards!” Prince Holy Heaven speculated.

He was very envious of Ye Tian. If he had been the one to become an Eternal Child of the Universe, all these rewards would have been his.

“Prince of Ten Thousand Laws, we shall take our leave now!” Lord Dantai and the others departed.

After the six Enforcers left, the surrounding Princes came forward to congratulate Ye Tian.

Previously, when Ye Tian swept through the Yellow region, they might have been somewhat resentful, but now they had no such feelings.

How could they dare to resent an Eternal Prince? They were too busy showing respect! Ye Tian didn’t pay much attention to these Princes. Suddenly receiving so many rewards, he was somewhat overwhelmed and needed time to digest everything.

Thus, Ye Tian excused himself from the Princes and entered his cultivation tower.

“Master, now that you’ve become an Eternal Child of the Universe, I, Ziya, am also the steward of an Eternal Child of the Universe, and my permissions have greatly increased!” Ziya was extremely excited, seemingly even more so than Ye Tian.

Ye Tian also smiled excitedly, “This time it’s a huge gain. I didn’t expect the Supreme Hall of Humanity to be so generous. The treatment of an Eternal Child of the Universe is far beyond that of a peak Child of the Universe.

If one could become a Supreme Child of the Universe, what kind of treatment would that entail?” Ye Tian wondered.

Chapter 478: Three Lifetimes!

The day after Ye Tian was commended by the Supreme Hall of Humanity, a reward arrived.

He received 100 points in his account! For Ye Tian, who had just exhausted his points, these 100 points were indeed very satisfying. With these points, he could continue his cultivation in the Yellow region for a considerable time to come.

However, the 100 points were just one of the more ordinary rewards among many. He was looking forward to the other rewards even more.

Soon, the other rewards also arrived in succession.

For example, his privileges were successfully upgraded, and the identity token he carried was replaced with one unique to the holders of the Eternal Prince title, one side of which was engraved with the architectural symbol of the Supreme Hall of Humanity, and the other with the word “Eternal.”

From then on, merely presenting this token would be enough to prove his identity.

Of course, the real privilege was access to internal information in the Yellow region. He could browse some secrets for free and was eligible to access most of the cultivation treasures without any cost. That was the greatest benefit of his upgraded privileges.

Additionally, the appointment letter and token of the Pan Star Field Regional Enforcer were also handed over to Ye Tian.

From that day forward, he was the Regional Enforcer of the Pan Star Field, with a status only second to a few overlord-level leaders such as the Undying Legion Leader. Even the Galaxy-level powers of the four overlord forces were not as high in rank as him.

Of course, Ye Tian did not really believe he had surpassed those Galaxy-level powers. Although the title of Regional Enforcer came with authority, others might not necessarily fawn over him. His position was high, but his strength was far behind!

On the third day, the reward of an upper-grade defensive Divine Artifact arrived! An upper-grade defensive Divine Artifact was extremely precious, and even many Planetary System-level powerhouses might not possess one. It was probably out of concern for his safety that the Supreme Hall of Humanity bestowed upon him an upper-grade defensive Divine Artifact.

Ye Tian was unable to fully refine the upper-grade defensive Divine Artifact, but as long as he refined it superficially, even if he could only mobilize a small part of its power, it would significantly increase his ability to protect himself.

On the fifth day, one of the hall enforcers brought him two Heavenly Dao characters, namely the Wooden Heavenly Dao Character and the Water Heavenly Dao Character.

With these two Heavenly Dao characters, Ye Tian now possessed the Metal Heavenly Dao Character, the Wooden Heavenly Dao Character, and the Water Heavenly Dao Character, leaving only the Fire Heavenly Dao Character and the Earth Heavenly Dao Character. Once he gathered these two, he would be able to cultivate the Five Elements Great Divine Ability.

That day.

Eleven martial warriors came to the outside of Ye Tian's cultivation tower, bowing and saying, "We pay our respects to the Prince of Ten Thousand Laws!"

Whoa! Ye Tian came out and saw these eleven martial warriors.

Among them, ten were at the Great God level, and one at the planetary system level.

He immediately knew the origins of these eleven martial warriors, who were likely the guards mentioned among the rewards.

In the past, Planetary System-level powerhouses were beings he looked up to, and now such beings were serving as his guards.

"Prince of Ten Thousand Laws, we are the guards arranged for Your Highness by the Supreme Hall of Humanity!" said the Planetary System-level powerhouse.

Through the copying of talents, Ye Tian knew the name of this Planetary System-level powerhouse to be Qian Chen, but the other's title was definitely not this, so he asked, "How should I address you?"

"This subordinate is called True Monarch Jin Chen!" said the Planetary System-level powerhouse.

Subsequently, the other ten Great God-level guards also reported their names one by one.

In the following days, through chatting with these guards, Ye Tian learned about their origins.

The Origin World of Humanity was a vast realm, encompassing not only the massive structure of the Supreme Hall of Humanity but also many cities and small continents. Among those cities were many martial warriors, including those above the God level.

These warriors, due to their talents, could not become part of the Supreme Hall of Humanity, but they were still nurtured and controlled by it. A portion of them was specifically cultivated as divine warriors for the Eternal Princes and other powerful figures.

For example, the current Great God-level and Planetary System-level guards were cultivated by the Supreme Hall of Humanity and now assigned to Ye Tian, serving as his guards.

These guards had very clear backgrounds and were selected and tested in multiple layers, ensuring high loyalty and eliminating the possibility of betrayal.

If there was even a slight problem, the Supreme Hall would not employ them.

In fact, these guards were not very useful inside the Supreme Hall of Humanity, but once outside in the wider world, these Great God-level and Planetary System-level guards could offer protection and also serve as a show of status.

Otherwise, it would be somewhat improper for an Eternal Prince of Humanity to travel without any guards.

“My cultivation tower is quite spacious. You can each find a cultivation room on the second floor to practice in. If there’s anything, I will arrange tasks for you!” instructed Ye Tian.

“Yes!” responded the eleven guards in unison.

A few days later, a phantom spirit came to Ye Tian’s cultivation tower.

“Prince of Ten Thousand Laws, the Supreme Hall of Humanity has sent me to take you into the Reincarnation Hall.”

The phantom spirit said.

The three lifetimes of cultivation in the Reincarnation Hall was one of the rewards, but Ye Tian was quite unfamiliar with this reward, as was Ziya.

“What exactly is the three lifetimes of cultivation in the Reincarnation Hall?” Ye Tian curiously asked.

The phantom spirit explained, “The Reincarnation Hall is an incredibly important reincarnation-type Origin Artifact of the Supreme Hall of Humanity. It allows one to enter reincarnation for cultivation. Of course, it’s not actual reincarnation but merely consciousness experiencing reincarnation.

However, these three reincarnations are just like true reincarnations, where one’s state of mind will be honed through the process. Thousands of years will pass in an instant, with each lifetime equivalent to a day.”

Prince of Ten Thousand Laws only needed to spend three days to undergo three lifetimes of experience, and upon completing these three lifetimes, he could return.

By then, Prince of Ten Thousand Laws’s state of mind would surely have greatly improved, and perhaps he might even elevate his state of mind to another level.

“So that’s how it is!” Ye Tian suddenly understood.

In terms of state of mind, he indeed had a shortcoming. Although he had cultivated for a long time thanks to his time-related talent, he had always been in the midst of cultivation and rarely experienced trivial matters. His state of mind had improved through cultivation techniques, but it still had some flaws and was difficult to elevate further.

There are seven levels of state of mind, and he was currently at the fourth level. However, having the same state of mind as other ordinary Princes was undoubtedly a shortcoming for an Eternal Child of the Universe.

Considering this, the Supreme Hall of Humanity rewarded him with three lifetimes of cultivation in the Reincarnation Hall.

“Lead the way!” Ye Tian instructed the phantom spirit.

After all, it was only three days' time, and it wouldn't delay his cultivation.

In no time, Ye Tian arrived at the Reincarnation Hall.

The Reincarnation Hall was a minor institution within the Supreme Hall of Humanity, not very influential, solely for the purpose of housing reincarnation treasures like the Reincarnation Mirror.

Upon entering the Reincarnation Hall, Ye Tian saw a huge mirror.

The phantom spirit couldn't enter the Reincarnation Mirror. A Galaxy-level powerhouse came out and introduced to Ye Tian, "Prince of Ten Thousand Laws, this mirror is the Reincarnation Mirror. Once the Reincarnation Mirror is activated, and you extend your consciousness into it, you will enter the reincarnation world created by the Reincarnation Mirror for transmigration cultivation.

Every person has only one chance to use the Reincarnation Mirror in their lifetime, but it's the same for everyone, only able to experience three lifetimes."

"Understood!" Ye Tian nodded.

Immediately.

Several Galaxy-level powerhouses appeared, jointly activating the Reincarnation Mirror.

Boom!!! The Reincarnation Mirror released infinite brilliance, illuminating the entire Reincarnation Hall. A giant vortex appeared in the center of the Reincarnation Mirror, and at that moment, Ye Tian extended his consciousness into it.

Instantly, a terrifying suction force pulled him in.

In just a moment, Ye Tian lost consciousness, and his body fell into a deep sleep.

Inside the Reincarnation Mirror.

Ye Tian quickly went through the first lifetime, where he was just an ordinary village boy with mediocre talent. However, after enduring hard cultivation, he finally left the village, came to the outside world, and after countless trials and opportunities, he eventually reached the peak of this reincarnation world.

In the end, as his life reached its limit, the first lifetime concluded.

The second lifetime was a bit more unfortunate. In this life, he had great talent, but halfway through his cultivation, he fell during a battle and hastily ended his second lifetime.

Then, the third lifetime began.

In this life, Ye Tian was just an ordinary person, unable to cultivate, and merely lived the life of an ordinary person.

The final scene was on a bed.

Ye Tian's murky eyes looked around at his descendants and slowly closed, only to hear many people crying.

Suddenly.

Countless memories surged, and his true self returned.

"I am Ye Tian, Prince of Ten Thousand Laws!" Ye Tian opened his eyes, and the reincarnation world shattered.

Boom!!! A supremely strong will burst forth.

At that moment, Ye Tian returned.

At this time, Ye Tian's strength had not improved, but his state of mind, after being honed through three lifetimes, was like a perfect gem.

Among the three lifetimes, the last one, although merely as an ordinary person, experienced the sweetness and bitterness of a common life, which was even more precious than the first and second lifetimes. The life of an ordinary person seemed even more valuable than the countless years of trials a martial warrior might face.

But to truly experience the life of an ordinary person is very difficult, even if one seals their cultivation and erases their memories, but some things are hard to change.

However, the Reincarnation Mirror allowed Ye Tian to truly experience the life of an ordinary person, which was immensely valuable and would be of great use for his future cultivation.

“Prince of Ten Thousand Laws, it’s time for you to leave the Reincarnation Hall!” A voice descended.

“Thank you!” Ye Tian turned and left, quickly departing the place under the guidance of the phantom spirit.

After returning to the Yellow region, Ye Tian prepared to start cultivating his state of mind.

Chapter 479: Cosmic Expansion

Ye Tian prepared not the Great Sun Sutra as his mental state cultivation method. Although the Great Sun Sutra was indeed a decent new cultivation method, relying on it for mental state improvement was too slow.

The Supreme Hall of Humanity had many mental state cultivation methods far superior to the Great Sun Sutra, and naturally, Ye Tian chose a better one.

At present, the heritage treasury in the Yellow region was open to Ye Tian for free, allowing him to browse any divine abilities, secret techniques, or martial arts knowledge without spending a single point.

After some searching, Ye Tian found a top-tier mental state cultivation method.

The Dark Silence True Scripture! This Dark Silence True Scripture was much more advanced than the Great Sun Sutra, also divided into six levels, but it almost caused no damage to the soul.

In contrast, with the Great Sun Sutra, if one was slightly careless in cultivation, it could damage the soul.

Ye Tian started cultivating from the first level of the Dark Silence True Scripture.

As soon as he began to cultivate the Dark Silence True Scripture, Ye Tian's consciousness arrived in a dark void.

There was no sound, no light, nothing but emptiness all around.

Such an environment was terrifyingly quiet, with an oppressive atmosphere enveloping Ye Tian.

It was like locking a person in a dark room with no sound at all. It might be bearable at first, but over time, it would definitely lead to a breakdown.

The environment Ye Tian was in now was like that feeling magnified countless times. If a martial warrior with a very weak mental state were here, they would break down instantly, unable to continue cultivating the Dark Silence True Scripture, and might never want to cultivate it again.

Therefore, to cultivate the Dark Silence True Scripture, one had to endure the torment brought by the quiet, or else it was impossible to cultivate it to higher levels.

Ye Tian's mental state had already reached the fourth level, making the first level of the Dark Silence True Scripture very simple for him.

Before long, Ye Tian successfully cultivated the first level of the Dark Silence True Scripture and then started on the second level.

Days passed, and Ye Tian had cultivated the Dark Silence True Scripture to the third level.

The third level of the Dark Silence True Scripture corresponded to the fourth level of mental state.

Ye Tian's current goal was to cultivate the Dark Silence True Scripture to the fourth level, thereby elevating his mental state to the fifth level.

A strong mental state was necessary to control one's power, and many secret techniques required a certain mental state level.

For example, Ye Tian's Heartless God Saber Technique became faster and stronger with a stronger mental state.

And with a strong mental state, Ye Tian could easily wield his Saber Dao ultimate technique, the Heavenly Moon Saber.

Similarly, to cultivate a scripture to the perfected realm, a strong mental state was indispensable.

Thus, mental state was extremely important.

Those powerful Eternal Children of the Universe all possessed a fifth-level mental state.

After undergoing the trials of the Reincarnation Mirror for three lifetimes, Ye Tian's mental state was very close to the fifth level.

Cultivating the Dark Silence True Scripture gradually progressed his mental state towards the fifth level.

On this day.

The Supreme Hall of Humanity awarded Ye Tian with the last reward, a once-in-a-lifetime cosmic expansion opportunity! As for the reward of summoning a Universal God that could only be used when Ye Tian wished to summon one. Currently, Ye Tian had no need to summon a Universal God, so that reward was not needed immediately.

Thus, the cosmic expansion opportunity was the last reward.

Ye Tian had always been unclear about what the cosmic expansion opportunity entailed, but he soon found out.

One of the Six Hall Enforcers, Lord Dantai, came to Ye Tian.

Inside the cultivation tower.

Ye Tian and Lord Dantai conversed.

“Prince of Ten Thousand Laws, I suppose you’ve been waiting for the cosmic expansion opportunity,” Lord Dantai said with a smile.

“It’s alright,” Ye Tian replied with a slight smile, then curiously asked, “Lord Dantai, what exactly is the cosmic expansion opportunity?”

Lord Dantai patiently explained, “You should know that the universe is constantly expanding. For example, the Pan Star Field where you are from is on the edge of the universe, and within it, there are new galaxies.

But for new galaxies to be born, the universe must expand to create some spare star space; otherwise, how could new galaxies emerge? In fact, every once in a while, after eons, the universe expands a bit. With each expansion, the universe slowly evolves into a large number of galaxies and gradually becomes a new star field.

And for the universe to expand, it must occupy a bit of the chaotic region. Outside the universe is chaos, and we cannot enter chaos. But as the universe occupies areas of chaos, it brings some of the things from within the chaos into the universe.

Therefore, each cosmic expansion signifies a chaos tide!”

“Chaos tide!” Ye Tian nodded in semi-understanding, continuing to listen to Lord Dantai’s explanation.

Lord Dantai continued, “A chaos tide is like a tide stirred up by the influx of chaos qi into the universe, similar to the tides in the ocean.”

The chaos qi from within the chaos is extremely violent and terrifyingly powerful, far beyond any chaos qi you have absorbed before.

The chaos tide is very dangerous, but it also presents an opportunity.

When the first chaos tide surged, due to the obstruction of the universe, the materials it brought were not many, but they were extremely precious.

Generally, the first chaos tide was somewhat dangerous for Emperor-level individuals, but those eight or nine-star Heavenly Prides could still barely enter the range of the chaos tide. However, only powerful God level beings could withstand the second chaos tide, only True Gods could withstand the third chaos tide, and only Great Gods could contend with the fourth chaos tide.”

Ye Tian listened carefully, gradually understanding what a tremendous opportunity the chaos tide was.

It could be said that the Supreme Hall of Humanity had acquired so many chaotic resources mostly from the chaos tides. Otherwise, it would not be so easy to obtain chaotic resources within the universe! Once one enters the chaos tide, they can acquire numerous chaotic resources, making such an opportunity extremely precious.

Lord Dantai said, “The universe is vast, and naturally, the area of cosmic expansion is also vast. However, not all places outside our universe in the chaos have abundant resources. Many chaotic regions have nothing but chaos qi.

Therefore, our human race’s upper echelons deduce which areas will spew a large amount of chaotic resources and treasures, and then seal off these areas first. Then, they allocate quotas to enter the chaos tide, with each quota being extremely precious.

Although the Supreme Hall of Humanity is the highest authority of the human race, there are many powerful forces within the human race, and these forces naturally have quotas to enter the chaos tide.

Among them, the second, third, and fourth chaos tides carry more chaotic resources, so more quotas are allocated! The first chaos tide carries fewer resources, so fewer quotas are allocated. Some of the great powers of the human race will send eight or nine-star Heavenly Prides into the chaos tide to collect or, to put it bluntly, plunder chaotic resources, leaving hardly any quotas left! The chaos tide is not an opportunity controlled by the Supreme Hall of Humanity, so the Supreme Hall of Humanity doesn't have many quotas. In the Yellow region, you are the only one with a quota.

No matter how many resources you obtain in the chaos tide, they all belong to you alone.”

“Only one quota in the Yellow region!”

Ye Tian immediately understood the preciousness of this quota.

In the universe, although the prodigies of some top human forces are eligible to enter the chaos tide, most of the collected resources go to their forces, and they hardly get any resources for themselves.

But all the resources he collects will belong to him alone, making this quota precious.

“Lord Dantai, when does the chaos tide start?” Ye Tian asked.

“In three to five months, the exact time is uncertain, so you must go ahead of time!” Lord Dantai said.

“This is the location of the chaos tide eruption. You can only look at it yourself and must not reveal it!”

Lord Dantai took out a map and handed it to Ye Tian. The map marked the location of the chaos tide eruption.

He then gave Ye Tian a token.

This token represented the quota. Otherwise, even if he arrived at the location of the chaos tide, he would be blocked and unable to enter the chaos tide.

After explaining all this, Lord Dantai left.

“There’s only three months left, I must leave now!” Ye Tian murmured.

Immediately, he called over Jin Chen True Monarch and others.

Swoosh! Jin Chen True Monarch and ten Great God level powerhouses arrived.

“Prince of Ten Thousand Laws, what are your orders?” Jin Chen True Monarch asked.

“I am leaving the Supreme Hall of Humanity. You few will come with me!” Ye Tian instructed.

“Yes!” Jin Chen True Monarch and the others nodded.

Ye Tian had nothing to pack, so he directly left the Supreme Hall of Humanity and the Origin Realm with Jin Chen True Monarch and others, entering Tianlan Giant City.

Afterward, Ye Tian prepared to head to the Pan Star Field via the teleportation gate in Tianlan Giant City.

The Pan Star Field was not within the usual route, but Ye Tian planned to make a trip back first, and there was enough time.

In the Pan Star Field, Hengpan Continent.

In front of the teleportation gate.

The Undying Legion guarding here was surprised to see the teleportation gate open again.

It was known that the teleportation gate in the Pan Star Field rarely had anyone coming through, like a forgotten teleportation gate.

Last time, a Prince teleported here, but who could it be this time?

Boom! A group of figures emerged from the teleportation gate, notably ten Great God level guardians.

Then, Ye Tian and Jin Chen True Monarch walked out together.

“Prince of Ten Thousand Laws!”

A Planetary System level powerhouse guarding here was immediately astonished.

Chapter 480: Earth's Troubles, Ye Tian's Return

The soldiers of the Undying Legion stationed here had mostly seen Ye Tian before, as he had traveled through this teleportation gate over a decade ago, leaving a strong impression on them.

As of today, although Ye Tian was still at the Emperor level, his aura had grown much stronger than before.

What was even more critical was the presence of some guards by Ye Tian's side.

“A Planetary System level powerhouse as a guard!”

The Planetary System level powerhouse stationed there was instantly dumbfounded.

He was a Planetary System level powerhouse himself and felt that Jin Chen True Monarch's aura was much stronger than his, likely possessing much greater strength.

Such Planetary System level powerhouses would be considered among the elites even in the Pan Star Field, yet here they were, serving as Ye Tian's guards.

“The Prince of Ten Thousand Laws must hold a special status within the Supreme Hall of Humanity!”

The Undying Legion's Planetary System level powerhouse thought to himself.

Ye Tian stepped out of the teleportation gate and did not stay, departing immediately.

This Planetary System level powerhouse from the Undying Legion relayed the news to his superiors, and the information quickly reached the ears of the Undying Legion Lord.

At the headquarters of the Undying Legion.

The Undying Legion Lord was shocked upon receiving the news about Ye Tian.

“Prince of Ten Thousand Laws actually has a Planetary System level guard and ten Great God level guards, how is this possible!!!”

The Undying Legion Lord was greatly surprised.

Others might not be familiar with the Supreme Hall of Humanity, but he was! As a former Prince of the Supreme Hall of Humanity, he was well aware of the situation in the Yellow region, where it was uncommon for Princes to have guards.

“Prince of Ten Thousand Laws having Planetary System level guards, could it be that he...”

The Undying Legion Lord thought of a possibility.

That was, the Prince of Ten Thousand Laws might have become an Eternal Child of the Universe! But upon further thought, something seemed off. It was almost unrealistic for Prince of Ten Thousand Laws to become an Eternal Child of the Universe in such a short period, especially since he had never seen such an exceptional Prince before.

Of course, there was another possibility that Prince of Ten Thousand Laws had hired a Planetary System level powerhouse and ten Great Gods as his guards. Although costly, a Prince could afford such an expense.

“I'll contact the Supreme Hall of Humanity and ask!”

He also held a position in the Supreme Hall of Humanity, albeit not a very high one. Yet, with his Universal God strength, contacting an old friend in the inner hall of the Supreme Hall of Humanity was not a problem.

Immediately.

The Undying Legion Lord attempted to contact that old friend using a communication device.

After a long while, a phantom figure suddenly descended upon the Pan Star Field.

This projection which only a Universal God could master, capable of traversing numerous star fields.

Of course, this required preparation.

“Undying Legion Lord, it’s been a long time since you’ve contacted me, what brings you to me now?” The Universal God spoke with a smile.

“Lord Chang Yun, I wanted to catch up and also inquire about a situation.” The Undying Legion Lord asked.

“Oh, what do you want to ask about?” Lord Chang Yun was curious.

“The Prince of Ten Thousand Laws—do you know of this person?” The Undying Legion Lord probed.

“The prince of Ten Thousand Laws, so you’re asking about him... Ah, if you had contacted me a month ago, I really wouldn’t have known him.

But now I do. Right, the Prince of Ten Thousand Laws is from the Pan Star Field, could it be that he’s a Prince you’ve cultivated?” Lord Chang Yun asked.

“He’s not someone I cultivated, just from the Pan Star Field. He just returned, so I wanted to ask you, how is he doing in the Yellow region? From your tone, he seems to be quite remarkable now.”

The Undying Legion Lord felt somewhat... Could his conjecture be true?

Lord Chang Yun was also very surprised, saying: "Prince of Ten Thousand Laws is now an Eternal-level Prince. I was also very shocked when I heard the news. His growth rate is too fast, and he's cultivating the most powerful Supreme Scripture in the Supreme Hall of Humanity, having already reached the minor achievement stage.

Now, the high-ranking officials of the Supreme Hall of Humanity think very highly of the Prince of Ten Thousand Laws, and there are even rumors that a Supreme is paying attention to him.

Moreover, he is now the Pan Star Field's Envoy, second only to you in status. His future is immeasurable. You should not deliberately offend him. Otherwise, you'll be at a disadvantage!"

"Lord Chang Yun, could it be that Prince of Ten Thousand Laws' cultivation talent is above the Universal level? If it isn't above the Universal level, even if his combat power is strong, he wouldn't be able to grow much, right?" The Undying Legion Lord frowned.

Lord Chang Yun quickly said: "Undying Legion Lord, you joined the Supreme Hall of Humanity at the God level, you know too little about the Supreme Hall of Humanity. To tell you the truth, as long as the Supreme Hall of Humanity pays a great price, even if Prince of Ten Thousand Laws' cultivation talent is low, they can forcibly raise it.

Besides, there has never been an Eternal-level Child of the Universe with cultivation talent below the Universal level. This is actually a secret that you didn't know."

"What!" The Undying Legion Lord was astounded.

Princes with cultivation talent below the Universal level could not become Eternal Children of the Universe, this secret was indeed unknown to him.

In that case, Prince of Ten Thousand Laws' cultivation talent was above the Universal level, and his achievements would at least reach Universal God.

An Eternal Universal God was terrifyingly powerful, easily capable of annihilating him in seconds.

“I absolutely cannot offend the Prince of Ten Thousand Laws!” The Undying Legion Lord thought to himself.

Then, the Undying Legion Lord and Lord Chang Yun chatted for a long time, without bringing up Prince of Ten Thousand Laws, Ye Tian, again.

In the Pan Star Field.

A cosmic spaceship was speeding through the starry sky.

This spaceship, belonging to Ye Tian, was a six-star level cosmic spaceship. However, after merging with the mid-grade spatial divine artifact Ziling Divine Shuttle, its speed and defensive capabilities were comparable to a seven-star level cosmic spaceship.

Such a spaceship could traverse galaxies quickly, and it wouldn’t be long before it reached the Milky Way.

“Prince of Ten Thousand Laws, where shall we head next?” Jin Chen True Monarch inquired.

“Let’s visit my hometown, the Milky Way, stay for a few days, and then leave!” Ye Tian replied.

In less than a day, Ye Tian returned to the Milky Way.

Silver Universe Star, Qingfeng Giant City.

Ye Tian returned here, to the place where he resided.

“He’s not here!” Ye Tian’s cloning talent did not sense the presence of Empress Yue; she wasn’t here.

“She must have returned to Earth!” Ye Tian speculated.

Although cultivating on the Silver Universe Star was beneficial, Empress Yue must have frequently returned to Earth during his absence.

“Let’s go to Earth!” Ye Tian departed.

Soon, they arrived at the Solar System.

The Solar System was vastly different from the past; many uninhabited planets had been transformed into small bases, and numerous spaceports had been constructed on Earth.

However, when Ye Tian descended into the Solar System, he immediately sensed a different atmosphere.

“Prince of Ten Thousand Laws, there seems to be some trouble on Earth!” Jin Chen True Monarch said.

“Trouble?” Ye Tian frowned.

The Solar System was his territory, and as a Prince of the Supreme Hall of Humanity, even if the powers of the Milky Way weren’t clear about what a Prince was, the news should have spread throughout the entire Milky Way. Who in the Milky Way would dare offend a Prince?

“Prince of Ten Thousand Laws, see for yourself!” With a wave of Jin Chen True Monarch’s hand, the scene on Earth was displayed.

In the Kunlun Mountain Range on Earth, two groups were confronting each other.

One of the groups was led by Empress Yue, while the other was entirely unfamiliar.

“Prince of Ten Thousand Laws, a Great God level powerhouse has appeared on Earth, and it seems he’s not one of Earth’s Great Gods.

This Great God has used a Divine Artifact to resist the world's power of Earth, indicating he's an external Great God level invader!" Jin Chen True Monarch explained.

"Enter Earth immediately!" Ye Tian was furious.

Earth was his. A mere Great God daring to act so recklessly, directly invading Earth, and even causing conflicts with his wife and others, was courting death.

In the Kunlun Mountain Range.

Empress Yue, along with Earth's native Gods and Emperors, stood in confrontation with a small group.

Leading them was a Great God level powerhouse—Great God Ghostflame, backed by three Heavenly Prides and dozens of eight or nine-star Emperors.

"Great God Ghostflame, as a Great God level powerhouse, it's quite inappropriate for you to barge into Earth like this. You should be aware of who owns the Earth and the Solar System," Empress Yue stated coldly.

Great God Ghostflame responded with a smile, "Of course I know, Earth belongs to the territory of the Child of the Universe, Ye Tian. The title of a Child of the Universe is indeed resounding, but he is merely an Emperor level being for now; who knows, he might fall any day.

Moreover, I haven't violated any rules. With my status as a Great God, what's wrong with wanting to enter Earth? I'm not asking for much; I just want this region of the Kunlun Mountains! If you're wise, you'll hand it over, or else don't blame me for being unkind!"

"Do you dare to kill me?" Empress Yue glared at him fiercely.

"You are the wife of the Child of the Universe, Ye Tian. I wouldn't dare kill you. However, if I wish to kill the other martial warriors of Earth, no one can hold me accountable.

If you don't want the beings of Earth to perish, you'd better retreat obediently!" Great God Ghostflame threatened.

“You...” Empress Yue was furious.

She had heard of Great God Ghostflame, ranked thirteenth among the Great God level powerhouses in the Milky Way, holding a very high status, backed by a top-tier power.

Logically, such a prominent figure wouldn't come to Earth.

Yet unexpectedly, a while ago, a beam of light appeared in the Kunlun Mountains, leaking traces of chaotic yuan qi.

Somehow, this news reached Great God Ghostflame, who then arrived! Earth repelled Gods above the God level, but it couldn't expel a top-tier Great God.

Great God Ghostflame, a top-tier Great God, had forcibly intruded into Earth, clearly aiming to uncover the secrets of the Kunlun Mountains.

However, what secrets the Kunlun Mountains held was unclear to her.

She only knew that Great God Ghostflame had been scheming in the Kunlun Mountains for some time. Upon receiving the news, she hurried back, but the opponent didn't fear her husband Ye Tian's status and still intended to forcibly occupy the Kunlun Mountains.

Suddenly.

A voice descended.

“Who dares to speak of annihilating my Earth's humanity?”
