Chapter 481: The Ancient Chaos Tree

“Who is it?”

Great God Ghostflame’s divine consciousness swept across the area, and he quickly discovered a spacecraft just outside Earth. At that moment, twelve individuals were descending from the spacecraft and appeared before Great God Ghostflame in the blink of an eye.

Ye Tian, being an Emperor-level and a native of Earth, was not restricted by Earth’s limitations. The other God-level beings were also formidable, naturally capable of countering the world force of Earth with their own strength. As for True Monarch Jin Chen, there was even less need to mention his capabilities; being a Planetary System-level powerhouse, it would be absurd if he couldn’t even enter Earth.

Earth was merely an ordinary high-tier planetary world, quite common in the universe. Unless Ye Tian one day decided to remodel Earth and forcefully alter its rules, perhaps then God-level powerhouses and even Planetary System-level or Galaxy-level beings might be unable to enter Earth. But currently, Earth’s world force was incapable of expelling God-level beings or higher.

“You are...”

Great God Ghostflame stared at Ye Tian, feeling a sense of familiarity. Then, turning to look at the others, his expression became extremely solemn.

“Husband!”

Empress Yue rushed towards Ye Tian and threw herself into his arms.

True Monarch Jin Chen initially wanted to stop Empress Yue, given his duty to protect Ye Tian’s safety, which naturally included preventing others from getting too close to Ye Tian. However, upon receiving a transmission from Ye Tian revealing Empress Yue’s identity, True Monarch Jin Chen refrained from intervening.

Holding Empress Yue in his embrace, Ye Tian said, “I’ve returned!”

“You’re the Child of the Universe, Ye Tian!”

Great God Ghostflame stared at Ye Tian in shock.

He wondered where Ye Tian had found so many God-level powerhouses, especially the leader among them... Under normal circumstances, he would definitely retreat and not dare to confront Ye Tian. But this time, he couldn’t bear to leave.

“Ye Tian, I wish to purchase the Kunlun Mountain Range on Earth. Name your price!” Great God Ghostflame declared.

Ye Tian’s sharp gaze fixed on Great God Ghostflame as he coldly retorted, “You still wish to buy the Kunlun Mountains? I heard everything you said earlier. You dare to threaten me. You are aware that Earth is my territory and yet you dare to intrude without permission?”

“I am a Great God-level being and not subject to the laws of the Solar Empire. The so-called territory is but a joke. You’re taking it seriously!”

Great God Ghostflame replied irritably.

As a God-level powerhouse, ranking among the top in the Milky Way, his strength was immense.

Initially, he wanted to claim Earth for himself, but the forces of the Silver Universe Star would not agree.

If it weren’t for considering Ye Tian’s status as the Child of the Universe, he would have attempted to seize Earth long ago.

However, consideration is one thing, but it does not mean he would concede.

Even if Ye Tian was powerful, he was still just an Emperor-level being.

“You have two choices: apologize immediately or die!” Ye Tian threatened.

“How dare you threaten me? I don’t know where you found these powerhouses, but this is the Milky Way Galaxy. These people aren’t from the Milky Way, are they? If you dare to have them take action, I can also summon my friends. You might not be able to deal with me!” Great God Ghostflame stood his ground.

“True Monarch Jin Chen, kill him!” Ye Tian commanded, tired of the pointless talk.

“As you command, Prince of Ten Thousand Laws!”

True Monarch Jin Chen, who had been concealing his presence at Ye Tian’s order, no longer hid his aura, revealing the overwhelming power of a Planetary System-level being.

Boom! The heavens and earth seemed to change color, and even the world force of Earth began to transform.

Planetary System-level beings were incredibly powerful, capable of destroying Earth with a single thought, and even dragging the sun was no difficult feat for them. True Monarch Jin Chen, cultivated by the Supreme Hall of Humanity, stood at the pinnacle of Planetary System-level beings, more powerful than many such beings in the Pan Star Field.

In the Milky Way, there were not many Planetary System-level beings, and most of them were relatively weak.

True Monarch Jin Chen was virtually invincible in the Milky Way.

“A Planetary System-level being, how is that possible! No, you can’t kill me. I am the Great Elder of the Ghost God Sect on Silver Emperor Star. Our Ghost God Sect also has a planetary ancestor!”

Great God Ghostflame attempted to deter True Monarch Jin Chen by mentioning the Ghost God Sect.

However, he was unaware of Jin Chen’s identity.

Even if the Ghost God Sect had a single Planetary System-level ancestor, it wouldn't matter. Could they contend against the Supreme Hall of Humanity of the human race? True Monarch Jin Chen's palm descended, and Great God Ghostflame couldn't resist at all, instantly turning to ashes.

The three Heavenly Prides and Emperors behind Great God Ghostflame remained unharmed, as True Monarch Jin Chen was aware of the universe's protection for Heavenly Prides. Even if they were to kill Heavenly Prides, they would only need to pay a small price, but the Supreme Hall of Humanity's punishment for wantonly killing Heavenly Prides was severe.

God-level beings and above were not allowed to kill Heavenly Prides, even if they were offended by them. They could only expel, not kill.

This was the protection offered by the upper echelons of humanity for Heavenly Prides! True Monarch Jin Chen was unsure how many of those Emperors were Heavenly Prides, so he chose not to act against them to avoid making a mistake.

At that moment, the three Heavenly Prides, seeing Great God Ghostflame dead, panicked momentarily before remembering their status and hurriedly declared, "I am a Heavenly Pride, you can't kill me!"

At this time, they were extremely grateful for their status as Heavenly Prides; otherwise, they might have met the same fate as Great God Ghostflame at the hands of the Planetary System-level powerhouse.

"Your Highness, these individuals are Heavenly Prides, and it's not appropriate for us to act!" True Monarch Jin Chen stated.

"If you find it inconvenient to act, I'll do it myself!"

With a flick of his finger, Ye Tian enveloped the Emperors with Phantom Gold Threads.

"No!!!"

The three Heavenly Prides and the other Emperors tried to flee in terror.

However, without exception, they were all cut down by the Phantom Gold Threads, unable to escape.

God-level beings and above might hesitate to kill Heavenly Prides, but Ye Tian dared to do so.

As an Emperor-level Child of the Universe, he held a status even more esteemed than that of Heavenly Prides, and thus had the authority to kill them.

At that moment, the God-level and Emperor-level beings on Earth were utterly astounded.

Earth had long been in communication with the outside world, and they were not lacking in knowledge. They understood the concept of a Great God-level being, and Ghostflame was among the top Great God-level beings in the Milky Way! When they learned of Great God Ghostflame's identity, they truly dared not provoke him, even believing that Empress Yue stood no chance against him.

Yet, to their surprise, Ye Tian had returned, and one of his subordinates had easily slain Great God Ghostflame.

"The existence above a God-level being serves as a guardian, hiss..."

The crowd gasped in astonishment. They had thought Ye Tian was already formidable, but now they realized they had completely underestimated him.

"Disperse!" Ye Tian commanded.

"Yes!"

The Emperors and a few God-level powerhouses promptly left, while Empress Yue and Ye Yu stayed behind.

"Yue'er, why did Great God Ghostflame come to Earth?"

Ye Tian inquired.

“It seems a treasure has appeared in the Kunlun Mountains. Great God Ghostflame arrived early and used a formation to envelop the mountains. I’m not clear about what exactly is inside.”

Empress Yue shook her head.

Ye Tian looked towards the depths of the Kunlun Mountains. Opening his Xumi Eyes, he was still unable to see through the formation set up by Great God Ghostflame.

After all, Great God Ghostflame was a top-tier divine being. If his formation could be so easily penetrated by Ye Tian, it wouldn’t be noteworthy.

“True Monarch Jin Chen, break these formations for me, but remember not to damage the Kunlun Mountains!”

Ye Tian instructed.

“As you command, Your Highness!”

True Monarch Jin Chen took action, effortlessly destroying all the formations on the Kunlun Mountains.

At that moment, Ye Tian was extremely curious about what had attracted the attention of a powerful being like Great God Ghostflame.

Although the Kunlun Mountains had previously birthed a Yuan Realm, that realm had long shattered. Could there be other treasures? As all formations were broken, Ye Tian’s divine consciousness probed deeper.

Soon, he discovered a massive fissure leading deep into the Earth, accompanied by the leakage of pure Chaos Qi.

“Your Highness, there’s a great opportunity beneath this mountain range!” True Monarch Jin Chen eagerly stated.

“Have you checked thoroughly?” Ye Tian asked.

“Yes!”

True Monarch Jin Chen explained, “My divine consciousness has clearly investigated. Below lies a small World Tree merging with a shattered Chaos Ancient Well. Once the merger completes, the World Tree will transform into an Ancient Chaos Tree. an Ancient Chaos Tree is even more valuable than a World Tree.

Such a small Ancient Chaos Tree is comparable to the entire fortune of a Planetary System-level being. Most importantly, both World Trees and Ancient Chaos Trees can create worlds and stabilize a realm.

If a Great God-level being obtains a World Tree or an Ancient Chaos Tree, even if they cannot advance to the Hong-level and become a Planetary System-level being, they can use the World Tree or Ancient Chaos Tree to create a world within themselves. Then, they can harness the world force to contend against Planetary System-level beings.

The Origin Realm is rumored to be a world created using a massive Ancient Chaos Tree, but that’s just a rumor; I’m not sure if it’s true.”

“So that’s how it is. No wonder Great God Ghostflame was willing to risk offending me to claim this place!” Ye Tian suddenly understood.

If it were just an ordinary opportunity, a person like Great God Ghostflame wouldn’t dare to offend a Child of the Universe, as even Planetary System-level beings would show respect to a Child of the Universe. But when it came to a great opportunity that could enhance one’s own strength, Great God Ghostflame naturally didn’t want to give it up.

Unfortunately, for his greed, he lost his life.

“Your Highness, if this World Tree successfully evolves into an Ancient Chaos Tree, it will be immensely useful. When you advance to a God, you can use the Ancient Chaos Tree to create a Ancient Chaos Realm within your Dantian World. By doing so, your divine power will be nearly inexhaustible during combat.

Of course, this is just something I've heard about because I read in ancient texts that an Eternal-level being had done this before.

Ancient Chaos Trees are extremely rare and immovable. Even the Supreme Hall of Humanity might struggle to provide you with one."

True Monarch Jin Chen cautioned.

"True Monarch Jin Chen, thank you for the reminder!" Ye Tian responded.

"Your Highness, it's my duty!" True Monarch Jin Chen hastily replied.

Realizing the immense value of the Ancient Chaos Tree, Ye Tian took out a formation disc and once again sealed the area.

Chapter 482: Regional Enforcer, Spectral Radiation Across the Milky Way

After sealing off the Kunlun Mountain Range, Ye Tian ordered that no one else on Earth was allowed to approach the Kunlun Mountains.

Although the martial warriors on Earth knew of the opportunities and treasures within the Kunlun Mountains, they dared not defy Ye Tian's orders. Even a Great God-level powerhouse had fallen; where would they find the courage to disobey Ye Tian?

"True Monarch Jin Chen, go and warn the Ghost God Sect. Even though you have killed Great God Ghostflame, if the Ghost God Sect dares to resist, annihilate them!" Ye Tian commanded.

"Yes!"

True Monarch Jin Chen accepted the order and left Earth for the Silver Emperor Star.

Ye Tian, along with Empress Yue, Ye Yu, and others, returned to Zhonghai Super Base.

Just after arriving back at the Tian Pavilion of Zhonghai Super Base, Empress Yue bombarded Ye Tian with a heap of questions.

“Husband, how do you have a Planetary System level powerhouse as a subordinate?” Empress Yue was immensely curious.

That Planetary System level powerhouse was extremely respectful towards Ye Tian, almost like a subordinate, definitely not a hired force.

But how formidable a Planetary System level powerhouse is! In the entire Milky Way, the strongest are only at the Planetary System level.

“Your husband is now the Eternal Child of the Universe of the human race!” Ye Tian said with great pride.

He then explained the hierarchy of the Children of the Universe and the basic situation of the Supreme Hall of Humanity to her.

When Empress Yue learned that her husband was the strongest Child of the Universe among all the emperors of the human race, she was thrilled beyond measure.

“Husband, how long will you stay this time?” Empress Yue asked.

“I can’t stay for long. I will leave in a few days. This time, I was supposed to go somewhere else and came back temporarily to check on things!” Ye Tian said truthfully.

Empress Yue felt somewhat disappointed; she had hoped to spend more days with Ye Tian.

However, she quickly adjusted her mood.

She was happy as long as Ye Tian could come back.

Afterward, Ye Tian shared his experiences over the years with Empress Yue, and she also shared the bits and pieces of her life over the years with Ye Tian.

Before long, True Monarch Jin Chen returned.

“How did it go?” Ye Tian inquired.

“Your Highness, the Ghost God Sect no longer exists!”

True Monarch Jin Chen began, “The Ghost God Sect had a Planetary System level ancestor and many great formations, aiming to besiege me. Following Your Highness’s instructions, I annihilated the entire Ghost God Sect!”

“Very well, you may go now!” Ye Tian nodded.

“Yes!” True Monarch Jin Chen then withdrew.

However, the annihilation of the Ghost God Sect soon caused a huge uproar in the galaxy.

The nine major stars of the Milky Way were in a state of panic. The Ghost God Sect was not an ordinary force; it was a top-tier power with a Planetary System level powerhouse, ranking among the top twenty in the Milky Way. No force dared to claim they could annihilate the Ghost God Sect.

Now that the Ghost God Sect had been destroyed, with its headquarters turned to ashes and even the Planetary System level ancestor unable to escape, other forces began to investigate.

The fact that Great God Ghostflame from the Ghost God Sect had come to Earth was no secret, and many emperors on Earth frequently communicated with the outside world, so the situation quickly became clear.

When all the forces in the Milky Way learned that the Ghost God Sect was wiped out by a subordinate of Ye Tian, everyone was shocked and couldn’t believe this truth.

At the Yun family, Elder Yun learned that a subordinate of Ye Tian had wiped out the Ghost God Sect and was dumbfounded, “That kid Ye Tian actually has such capability, possessing a Planetary System level powerhouse as a subordinate?”

He knew that Ye Tian had entered the Supreme Hall of Humanity but was not very familiar with the situation there. However, the fact that Ye Tian had a Planetary System level

powerhouse as a subordinate must mean that he was highly valued by the Supreme Hall of Humanity.

“This young man has truly risen!” Elder Yun sighed.

Soon, two days passed.

The matter of the Ghost God Sect’s annihilation was still a hot topic, with most powers feeling apprehensive.

On Earth, Ye Tian stood atop Mount Kunlun and took out the Regional Enforcer token.

He activated the token, immersing his consciousness within.

From the token, a beam of light burst forth, enveloping the heavens.

Shortly thereafter, a majestic phantom appeared in the starry sky, covering a vast expanse and radiating power across the entire Milky Way. Even those in distant locations could see the phantom formed by Ye Tian.

This was the purpose of the Regional Enforcer token. It was no mere token; it signified the power to suppress a domain, a position blessed with the destiny of the human race.

If Ye Tian were powerful enough, he could even use the Regional Enforcer token to radiate power across the entire Pan Star Field, suppressing anyone within it and killing enemies across numerous galaxies.

This was one of the privileges of being a Regional Enforcer! And now, Ye Tian utilized the Regional Enforcer token to manifest and radiate his presence across the entire Milky Way, merely a minor trick in his arsenal.

At this moment, many major powers were utterly astonished by Ye Tian’s methods.

“I am Prince of Ten Thousand Laws, the Eternal Child of the Universe from the Supreme Hall of Humanity. Great God Ghostflame rashly invaded Earth intending to threaten me and has

now been executed. The Ghost God Sect even dared to attempt to assassinate my guardian, True Monarch Jin Chen, and was annihilated by him.

Today, as the Regional Enforcer for the Pan Star Field, I warn all major powers in the Milky Way: should any force rashly intrude on Earth hereafter, seeking to wage war or threaten Earth, they will meet the same fate as the Ghost God Sect!”

Ye Tian’s voice spread across numerous regions of the Milky Way, and countless individuals on the nine major stars of the Milky Way heard Ye Tian’s voice, all stunned beyond belief.

At the Yun family, Elder Yun’s pupils shrank upon hearing Ye Tian proclaim himself as the Regional Enforcer.

“How is this possible, Ye Tian has become the Regional Enforcer!!!”

Elder Yun, who once was a Planetary System level powerhouse of the Yun family on the Hengpan Continent, although now fallen to the Milky Way, had not lacked in experience.

He knew what the Regional Enforcer represented; it was a figure second only to the heads of the four dominant forces of the Pan Star Field, far beyond the reach of even Galaxy level powers.

And Ye Tian was merely an Emperor-level Child of the Universe, yet he had become the Regional Enforcer!

“The Regional Enforcer, known to suppress an entire domain, holds great authority. Even at the height of the Yun family’s power, we were but ants in the eyes of a Regional Enforcer!”

Elder Yun was truly shocked! If before, he merely viewed Ye Tian as highly talented and potent, having a Planetary System level powerhouse as a guard was just enough to make him wary, but now, it was enough to instill fear in him.

Such a significant figure was far beyond his reach.

“If Ye Tian were to speak a word, perhaps our Yun family could return to the Hengpan Galaxy sooner!”

Suddenly, Elder Yun thought.

But he immediately shook his head, wondering why Ye Tian would help him. However, his descendant Yun Xi was also growing up and could soon lead the Yun family back to the Hengpan Galaxy with dignity.

On this day.

All the forces in the Milky Way were trembling, issuing one command — no one must offend Earth!

Earth.

Ye Tian's consciousness returned to his body, and he put away the Regional Enforcer token.

Empress Yue approached Ye Tian and asked, "Husband, did you do this to protect Earth?"

Ye Tian nodded, "Yes, I will be leaving soon again, and there's no guarantee that others won't come to Earth. Moreover, there's a World Tree growing beneath Kunlun Mountains, evolving towards an Ancient Chaos Tree. This evolution is very coincidental and hard to replicate. I wouldn't want anyone to harm this place or have designs on it, so I revealed my identity directly to deter other forces from coming here."

Empress Yue nodded, agreeing with Ye Tian's words.

Another day passed, and Ye Tian left some treasures for Empress Yue before departing from Earth.

He could no longer delay, for missing the opportunity of the Chaos Tide would be regrettable.

According to the information provided by the Supreme Hall of Humanity, the area where the universe's expansion would spew out a vast amount of chaotic resources this time was near one of the thirty-six star fields of humanity, the Meng Star Field.

The Meng Star Field was only three star fields away from the Pan Star Field, not too far.

Ye Tian quickly returned to the Hengpan Continent aboard a cosmic spaceship, but just as he entered the Hengpan Continent,

The Undying Legion Lord suddenly appeared before Ye Tian.

It was Ye Tian's first time seeing the Undying Legion Lord, but he had seen the name and talent of the Undying Legion Lord through his copy talent. Also, knowing that the Undying Legion Lord always wore a mask, it was not hard to guess his identity.

"Nice to meet you, Undying Legion Lord!" Ye Tian said very politely.

"Prince of Ten Thousand Laws is too courteous!"

The Undying Legion Lord smiled, devoid of any loftiness, as if catching up with an old friend.

"Would Prince of Ten Thousand Laws honor me with a visit to my Undying Legion?" The Undying Legion Lord said.

Ye Tian was initially stunned, quickly realizing the reason.

The Undying Legion Lord must have known that he had become an Eternal Prince and was now the Regional Enforcer for the Pan Star Field, hence the courteous invitation.

After all, in terms of status alone, he was only second to the Undying Legion Lord.

"Undying Legion Lord, I'm afraid I can't visit the Undying Legion this time. My time is limited on this trip as I have important matters to attend to; it was merely a detour." Ye Tian apologized.

"No matter, should the Prince of Ten Thousand Laws find the time in the future, feel free to visit the Undying Legion!" The Undying Legion Lord said.

“Sure, I will definitely visit the Undying Legion Lord when I have the time in the future!” Ye Tian promised.

Soon after, Ye Tian left, heading towards the teleportation stone gate of the Hengpan Continent.

As Ye Tian walked away, a smile appeared on the corner of his mouth.

Because just now, he had copied a remarkable talent.

The Undying Legion Lord’s cultivation talent was only at the Universal level, and Ye Tian’s cultivation talent had already reached the Chaos level, naturally uninterested in copying. But another talent of the Undying Legion Lord was quite exceptional, that is, the Immortality Talent!

It’s uncertain how many in the Undying Legion possessed the Immortality Talent, but the soldiers of the Undying Legion he had seen before at most had top-tier Immortality Talents, which were of no use to him.

But this time, he discovered that the Undying Legion Lord actually possessed a Mystic-level Immortality Talent.

It would take Ye Tian a long time to elevate the Immortality Talent to the Mystic level on his own, and with so many other things to enhance through cultivation, naturally, he didn’t have the time to focus on improving the Immortality Talent.

Now, having copied the Undying Legion Lord’s Mystic-level Immortality Talent all at once, it was quite a gain.

With this, his ability to preserve his life became even stronger!

Chapter 483: The Prince in the Heaven Region

Ye Tian arrived at the teleportation gate and took the one heading to the Meng Star Field. In no time, Ye Tian and his companions reached the Meng Star Field.

Ye Tian did not linger in the Meng Star Field and boarded his cosmic spaceship to head towards the edge of the universe.

A day passed.

Ye Tian's cosmic spaceship successfully traversed the entire Meng Star Field and arrived at the edge of the universe.

This area lacked any planetary systems. Perhaps, after countless years, this region might slowly evolve into various planetary systems, galaxies, and even star fields.

The edge of the universe was engulfed in darkness, a place seldom preferred by martial warriors for stay.

Upon reaching this area, Ye Tian felt uncomfortable but quickly adapted to the surroundings due to his strong heart condition, which spared him any significant impact in the short term.

Due to the unstable space in this edge region, the cosmic spaceship couldn't initiate spatial traversal and had to rely on its speed to travel, making the journey to the Chaos Tides region quite lengthy.

While the spaceship cruised smoothly, Ye Tian began integrating the Mystic-level Immortality Talent in another cabin of the spaceship.

Ye Tian's spaceship had significantly larger internal space than before, equipped with numerous cabins, each fortified with formations.

Thus, Ye Tian wasn't worried about True Monarch Jin Chen and the other God-level guards spying on him.

In fact, even without any formation concealment, these guards wouldn't dare to pry into Ye Tian's affairs with their divine senses.

Therefore, Ye Tian integrated the Immortality Talent at ease.

Soon, Ye Tian successfully merged with the Mystic-level Immortality Talent.

[Immortality Talent: Mystic-level]

Ye Tian examined the capabilities of the Mystic-level Immortality Talent. It not only had the effect of immortality as long as the life force remained undiminished but also could restore vitality.

Most importantly, the Mystic-level Immortality Talent possessed the ability to reconstruct the physical body. This meant that even if Ye Tian's body was largely destroyed, leaving only a small part of the tissue, as long as the life force persisted, he could use the Mystic-level Immortality Talent to rebuild his body completely. Of course, a full recovery would still take a considerable amount of time.

Besides the Mystic-level Immortality Talent, Ye Tian also possessed the Life Talent, Healing Talent, Blood Devouring Talent, and more.

In short, Ye Tian's ability to preserve his life had reached an unprecedented extreme.

Days passed by.

It was impossible for the cosmic spaceship to reach the region in a short span, so Ye Tian started his cultivation.

He primarily focused on cultivating the Dark Silence True Scripture. If he could refine the fourth layer of the Dark Silence True Scripture soon, his heart condition could advance to the fifth level.

Before long, two months had passed.

"We should be close now!" Ye Tian murmured.

Based on the designated area on the map and the speed of Ye Tian's cosmic spaceship, they were expected to arrive at that region within a day or two.

Another day went by.

At that moment, True Monarch Jin Chen spoke up, “Your Highness, a temple has been spotted ahead!”

“It seems we have reached our destination!” Ye Tian said with a smile.

This area couldn’t possibly harbor any forces, so the discovery of a temple undoubtedly indicated the region where the Chaos Tides were about to erupt.

That temple must have been placed by a certain force as a temporary base.

Just then, a voice came from ahead.

“This is the station of the Divine Blade Alliance. Who goes there?”

Subsequently, a man clad in golden armor appeared in front of the temple.

This man was a Universal God, exuding an extremely powerful aura.

“This is the cosmic spaceship of Prince of Ten Thousand Laws of the Supreme Hall of Humanity—an Emperor of the Eternal rank!” True Monarch Jin Chen hurriedly stated.

The name of an Emperor of the Eternal rank from the Supreme Hall of Humanity was quite renowned, and Universal Gods from other top-tier forces of humanity wouldn’t want to offend such a high-ranking figure.

“So, it is the Prince of Ten Thousand Laws from the Supreme Hall of Humanity!” The tone of the man in golden armor softened, and he retracted his aura.

Soon after, Ye Tian’s cosmic spaceship also approached the area.

“Prince of Ten Thousand Laws, I am Tyson, the Divine Master of the Divine Blade Alliance. I wonder if you possess the credentials. This area has been sealed off, and without credentials, entry is prohibited!” Tyson, the Divine Master, stated.

“Divine Master Tyson, here are my credentials!”

Ye Tian took out the token given to him by Divine Lord Dantai, representing a spot and serving as the credential to enter this region.

After Divine Master Tyson scanned the token with his divine sense and confirmed its authenticity, he said, “Prince of Ten Thousand Laws, you may enter this area. However, I must remind you of one thing: once the Chaos Tides begin, only you can enter. Your guards cannot enter the Chaos Tides and must stay outside, or we will be compelled to intervene!”

“Understood!” Ye Tian nodded.

Subsequently, Ye Tian and his companions entered the area.

Upon flying into this region, Ye Tian saw numerous temples.

These temples served as the stationed bases for various forces, where occasionally, figures of God-level, True God-level, Great God-level, and Planetary System-level could be spotted.

As Ye Tian flew for a while, suddenly a voice came through.

“Prince of Ten Thousand Laws, you’re here too!”

Following the voice, Ye Tian saw a figure swiftly flying towards him from the distance.

This figure was followed by a Galaxy-level powerhouse and ten Planetary System-level experts.

“Prince Qin Chen!” Ye Tian recognized the person; it was the Great God-level Prince who had initially taken him to the Supreme Hall of Humanity.

However, even to this day, Ye Tian was unclear about the exact status of Prince Qin Chen, but he was undoubtedly incredibly powerful.

There was a multitude of Princes in the entire Yellow region who couldn't enter the Mysterious region even after advancing to the God-level. They were now forcefully breaking through to the True God-level, abandoning the attempt to enter the Mysterious region. These Princes were essentially exiled from the Supreme Hall of Humanity.

With such difficulty advancing from the Yellow to the Mysterious region, and presumably even more so from the Mysterious to the Earth region, Prince Qin Chen must belong to the Heaven region. Even if he only belonged to the Earth region without breaking through to the Heaven region, that was still incredibly formidable.

Now that Prince Qin Chen had arrived here, clearly securing a spot for the Chaos Tides, he was undoubtedly a Prince from the Heaven region, otherwise, he wouldn't have received such attention from the Supreme Hall of Humanity.

A Prince from the Heaven region was extremely powerful! Upon encountering each other, Ye Tian expressed his surprise, "I didn't expect to meet Prince Qin Chen here!"

"The one who should be surprised is me!" Prince Qin Chen exclaimed deeply, "It's been just over a decade since I took you to the Supreme Hall of Humanity. At that time, I was merely completing a task, bringing you new Princes into the Hall. I never thought that a place like the Pan Star Field would have such a powerful Prince.

In such a short time, not only have you become the top Prince of the Yellow region, but you have also become the sole Eternal Prince of this era. I admire no one but you for this rapid progression!"

Prince Qin Chen's words held no deceit; he was genuinely astonished.

Becoming an Eternal Prince involved going through numerous hardships and countless battles, and perhaps even venturing into alien battlefields several times, eventually advancing to the Eternal level amidst blood and fire.

And yet, Ye Tian had reached the Eternal level in just over a decade, a feat that, if not unprecedented, was certainly among the very top in the history of cosmic humanity.

"Prince Qin Chen is aware of my situation?" Ye Tian was quite surprised.

“Of course, I am a Prince of the Heaven region, with far greater privileges than you. I can access information about events in the Yellow, Mysterious, and Earth regions.

When you advance to the Heaven region, you’ll understand the vast privileges we Princes of the Heaven region possess!” Prince Qin Chen explained.

“May I boldly ask, Prince Qin Chen, are all Princes of the Heaven region at the Eternal level or the Supreme level?” Ye Tian inquired curiously.

“Cough, cough!” Prince Qin Chen coughed lightly, seemingly a bit embarrassed, but still explained, “The Heaven region isn’t as exaggerated as you might think. I indeed reached the Eternal level while in the Yellow region, but I later fell back down. Now, I am only at the peak of the Great God-level, the first rank of Princes!”

“Eternal Princes can fall in rank?” Ye Tian heard this for the first time and was somewhat puzzled.

“Of course, they can fall in rank!” Prince Qin Chen began to explain, “For example, you are currently an Eternal Prince at the Emperor level. If you were to break through to the God-level now, how could you compare to those Princes who have been at the God-level for many years? Therefore, for a period, you would fall from the Eternal level. This period is a vulnerable phase for Princes, and whether you can re-enter the Eternal level depends on time.

However, for Princes who have fallen from the Eternal level, re-entering the Eternal level is not difficult.

But for other Princes who did not break through to the Eternal level at the Emperor level, it’s almost impossible to enter the Eternal level after reaching the God-level.

Alas, I didn’t accumulate enough at the God-level, and an accident forced me to break through to the True God stage, making it very difficult for me now to re-enter the Eternal level! As for the Supreme level, there isn’t a single Supreme Prince in the Supreme Hall of Humanity in this era. Not even among other foreign races!”

“There are no Supreme Princes in the entire universe?” Ye Tian was incredibly shocked.

“Yes, the birth of a Supreme Prince is extremely difficult. Legend has it, once a Prince ascends to the Supreme level, as long as they don’t perish, they are almost certain to become a Supreme. Our humanity currently has only twenty-three Supremes. You tell me, is it difficult to become a Supreme Prince? Of course, Eternal Princes also have a chance to become Supremes, but those would be ordinary Supremes. The twelve strongest Supremes of our humanity were once Supreme Princes!” Prince Qin Chen sighed.

Chapter 484: The Chaos Tide, Seeking Treasures Within

“I thought our human race only had 23 Supreme Beings. I actually thought there were 78!”

Ye Tian was somewhat surprised.

“How could there possibly be seventy-eight Supreme Beings? Do you think it’s so easy for a Supreme Being to be born? You must have seen the seventy-eight statues and the seventy-eight divine canons at the Grand Divine Festival, leading you to mistakenly believe that our human race has seventy-eight Supreme Beings! In fact, I’m also unclear about how the Supreme Beings are classified, but it’s said that those seventy-eight top existences of our race are on the same cultivation realm level, just with different combat strengths. Only those twenty-three top existences are considered Supremes, and the top twelve among them are the strongest Supreme Beings!”

Prince Qin Chen explained with a smile.

“I see!” Ye Tian nodded.

After a long conversation, Prince Qin Chen took his leave.

According to Prince Qin Chen, this time, individuals from the Mysterious, Earth, and Heaven regions had all come here.

This showed that the Supreme Hall of Humanity placed more importance on the Princes of the Mysterious, Earth, and Heaven regions.

However, upon further thought, it seemed quite normal. The Yellow regions were akin to a newbie village, and only by emerging from the newbie village could one gain the attention of the Supreme Hall of Humanity.

Ye Tian became an Eternal-tier Prince and thus received the attention of the Supreme Hall of Humanity; otherwise, he would be like those raised in a free-range manner, not garnering the attention of those significant figures.

Ye Tian did not seek to mingle with the Princes from the Mysterious, Earth, and Heaven regions, mainly because the gap in strength between them was still quite significant.

Ye Tian was only at the Emperor level, and communicating with a group of Princes above the God level would undoubtedly be challenging.

Therefore, Ye Tian did not seek out those Princes. Instead, he found a quiet place on his own, took out a palace, and stayed there with his guards, quietly waiting.

Time slowly passed, and in the blink of an eye, a month had gone by.

At this point, the Chaos Tide had not yet arrived.

This was relatively normal since even the top powers of the human race couldn't completely calculate the timing of the Chaos Tide; they could only make rough estimates.

Everyone was not in a hurry. After all, waiting a few more months was nothing to them.

One day.

Although the Chaos Tide had not arrived, Ye Tian's Dark Silence True Scripture made a breakthrough.

His heart condition was already close to the fifth level, and after several months of cultivation, the Dark Silence True Scripture was finally about to enter the fourth layer.

Once the Dark Silence True Scripture broke through, Ye Tian's heart condition could advance to the fifth level.

And now, he was breaking through to the fourth layer of the Dark Silence True Scripture.

Within the dark world formed by the Dark Silence True Scripture, Ye Tian sat there like a withered stone, motionless, enduring the torment of dark annihilation.

Silent stillness, oppression, and coldness enveloped Ye Tian completely, and he had been sitting quietly for a long time.

“The time is about right!”

Ye Tian’s voice echoed in his heart.

Boom! The dark world trembled, the entire dark void shattered, and then a more terrifying dark void enveloped the area, corresponding to the fourth layer of the Dark Silence True Scripture’s dark world.

Ye Tian, situated in the fourth layer of the Dark Silence True Scripture’s dark world, endured for a long time. His aura gradually stabilized. Although it was uncomfortable, he indeed entered this realm.

He successfully broke through to the fourth layer of the Dark Silence True Scripture! At the same time, Ye Tian’s heart condition began to transform, becoming increasingly powerful.

After a long time, Ye Tian stopped running the Dark Silence True Scripture and opened his eyes.

Joy filled Ye Tian’s eyes because his heart condition had indeed broken through, reaching the fifth level.

“What a wonderful feeling, as if everything could collapse without changing my expression! And I can even control every cell of such a huge body, with my heart condition even extending the power of the heart!”

The power of the heart was silent and could even penetrate the enemy’s heart, easily disturbing the enemy’s heart condition, or even peering into the enemy’s inner thoughts.

This was not a talent but one of the abilities of a powerful heart condition.

“If I were to face an ordinary Emperor, just one glance with the powerful power of the heart condition could make the opponent unable to exert any strength! If my heart condition was weak, and I were to fight those powerful Eternal Princes, I probably wouldn’t be able to exert even seventy percent of my strength!” Ye Tian thought.

At this moment, he finally understood the benefits of a powerful heart condition.

Before advancing to the fifth level of the heart condition, no matter how much others said, he couldn’t feel it. Only by truly entering this realm could he appreciate its wonderfulness.

In the next half-month, Ye Tian was consolidating his fifth heart condition.

One day.

True Monarch Jin Chen suddenly reminded, “Your Highness, intense spatial fluctuations are coming from the distant void ahead, it seems the Chaos Tide is about to arrive!”

Hearing True Monarch Jin Chen’s voice, Ye Tian walked out of the cultivation room in the palace.

“The Chaos Tide is coming, let’s go out!”

Ye Tian exited the palace, followed by True Monarch Jin Chen and ten God-level guards.

Immediately, Ye Tian put away the palace and flew forward.

Just then.

A faint light barrier instantly blocked everyone, seemingly dividing the area apart.

“No one is allowed to enter the area ahead anymore. The Chaos Tide will cover the entire void ahead, and those without a token are not permitted to enter.

For the first Chaos Tide, only Emperors with tokens are allowed to enter, and they only have one day. After a day, they must come out; otherwise, if the second Chaos Tide arrives and they forcefully stay, they can only blame themselves if they die!”

The speaker was a very powerful Universal God, whose voice enveloped the area.

At this time, everyone heard and consciously did not proceed any further.

Ye Tian and True Monarch Jin Chen stood outside the light barrier, looking at the situation inside.

They saw that in the distance, the void was constantly vibrating, and a strange noise was coming.

Crack, crack! It was as if something was breaking, and on a large scale, far from where Ye Tian was.

“The cosmic barrier is expanding!” Ye Tian thought to himself.

The cosmic barrier, similar to a world’s barrier, is located deep in space, and ordinary powerhouses cannot see it.

As the cosmic barrier expands, it naturally cracks but heals quickly.

During the process of expansion and healing, some chaotic yuan qi rushes in, bringing some items with it. This is the origin of the Chaos Tide.

Because the cosmic barrier cracks on a small scale at first, the power of the Chaos Tide is weak, and the chaotic resources it carries are not much.

This is the first Chaos Tide!

“The first Chaos Tide is about to arrive. Emperors entering the first Chaos Tide should carry their token past the light barrier. Do not attempt to trespass, or you will bear the consequences!”

The powerful Universal God spoke again.

Boom! A sound like the sky collapsing came.

They saw chaotic yuan qi rushing in like a tidal wave in the distance, covering that area.

At this time, everyone withdrew their divine senses, not daring to watch anymore, because the chaotic yuan qi at this moment was incredibly violent and could even impact the divine sense.

After waiting for ten minutes, the first Chaos Tide was fully formed, which was the best time to enter.

Soon, ten minutes passed.

“Let’s go!”

The Emperors from the top forces of the human race rushed into the area, and Ye Tian also entered the Chaos Tide.

As soon as he entered, the terrifying chaotic yuan qi struck Ye Tian.

Out of necessity, Ye Tian activated his defensive talents and various defensive measures to resist the chaotic chaotic yuan qi.

Inside the Chaos Tide, the range of divine sense exploration was limited, and the treasure-seeking talent was also suppressed, basically useless.

Therefore, Ye Tian could only slowly search for chaotic materials.

Swoosh! Ye Tian flew quickly, constantly scanning his surroundings with his divine sense while also opening his Xumi eyes to observe the situation in the distance.

Suddenly.

A small half-plant appeared under the observation of Ye Tian's Xumi eyes, but the plant was only half intact. However, even a common grass that could survive in chaos was a very precious chaotic resource.

So, Ye Tian quickly flew over.

As Ye Tian approached, another Emperor-level came close to this place.

This Emperor, probably a nine-star Heavenly Pride, not even a Child of the Universe, didn't recognize Ye Tian and seemed to want to compete with Ye Tian for this half-plant.

Ye Tian glanced over, and the power of the fifth-level heart condition suppressed it.

Boom! The nine-star Emperor-level trembled, losing the desire to fight and quickly flew in another direction.

"This guy is too weak, probably only at the second level of heart condition!" Ye Tian speculated.

In an instant, Ye Tian reached the half-plant and grabbed it.

He sensed the chaotic energy of the half-plant, comparing it to the chaotic materials he had refined before.

"This half-plant is of average value, probably worth about 50 points!"

Although the points were not many, Ye Tian did not disdain them and stored the half-plant in his Xumi Storage Realm.

Continuing the search! In the next few hours, Ye Tian found many chaotic resources, and the closer he got to the depths of the Chaos Tide, the greater the probability of finding chaotic resources.

Thus, Ye Tian quickly flew towards the depths of the Chaos Tide.

Suddenly.

A strong chaotic energy aura came, able to emit chaotic energy within the Chaos Tide and suppress the energy of the Chaos Tide, indicating the high value of that chaotic treasure.

“Absolutely a remarkable treasure!” Ye Tian flew over excitedly.

Chapter 485: Chaos Crystal, A Great Harvest

In the blink of an eye, Ye Tian arrived at the site of the chaotic energy explosion. The area was a mess, littered with soil and broken rocks.

Clearly, the expansion of the universe had swallowed a small piece of land from the chaos.

Although the soil and rocks from the chaos had some value, they were not highly prized, and Ye Tian did not concern himself with their worth.

He was searching for the treasure that had unleashed the chaotic energy previously, as that was the real gem.

“I’ve found it!”

It was a small pile of crystals, each about the size of a palm.

The crystals emitted an intense aura of chaos, clearly not ordinary treasures.

“Could this be...” Ye Tian suddenly speculated.

As a Child of the Universe who practiced the Chaos Body Refining Technique, he had a considerable understanding of chaotic resources.

He had thoroughly researched many chaotic resources in the inheritance treasury, one of which was the Chaos Crystal.

Chaos Crystals, similar to the yuan qi stones and Divine Crystals of the universe, were just several tiers higher in quality! Chaos Crystals were extremely rare and even the Supreme Hall of Humanity did not sell them.

Ye Tian knew that the Supreme Hall of Humanity must have Chaos Crystals, but certainly not in large quantities.

Such resources were extremely precious! Ye Tian quickly collected the Chaos Crystals, counting about 103 pieces in total.

Continuing deeper into the chaos tides, Ye Tian found more chaotic resources, such as broken tree roots, unknown grasses, and strange metals.

Of course, he found more Chaos Crystals, about several dozen more.

As the day was about to end, Ye Tian decided it was time to leave.

He was not greedy. Although confident in surviving a second chaos tide, persisting through it was pointless.

The Supreme Hall of Humanity had given him this opportunity to gather chaotic resources during the first tide only.

If he stubbornly stayed for the second tide, when numerous God-level powerhouses entered, he doubted he could compete with those supremely powerful beings.

More importantly, as the sole Emperor-level Eternal Child of Humanity, it would be unseemly to blatantly break the rules for some chaotic resources.

Thus, Ye Tian gave up.

Soon after, Ye Tian left the chaos tide.

“Your Highness!”

True Monarch Jin Chen and others flew to Ye Tian, greeting him respectfully.

“Let’s wait here a few more days before we return!”

Ye Tian wanted to observe the second, third, and even fourth chaos tides.

However, he would not enter, just watch from the outside.

Before long, the second chaos tide arrived.

With a thunderous roar, the violent chaos tide once again engulfed the area, covering the expanse of the first tide.

As the second chaos tide stabilized, a large number of God-level powerhouses rushed into the area.

Following that, Ye Tian could vaguely sense through the Xumi Eye battles raging within the chaos tide.

The real competition began with the second chaos tide. In comparison, the first tide was merely an appetizer, with little competition. After all, fewer Emperors entered and the chaos tide covered a vast area, making encounters with other Emperors rare.

But the second tide was different. With numerous God-level powerhouses entering, lacking sufficient strength meant hardly securing any chaotic resources.

“Many God-level powerhouses will likely fall in the second chaos tide!” Ye Tian couldn’t help but sigh.

Quickly, a day passed.

God-level powerhouses emerged from the second chaos tide, but fewer than those who entered, indicating many had fallen within.

The top forces of Humanity were indifferent to such losses. To them, the death of some God-level powerhouses was inconsequential.

Then came the third chaos tide.

Its scale dwarfed the second tide by many folds, its daunting waves even alarming Ye Tian.

Had he entered the third tide, a single wave could have annihilated him completely.

After the third tide stabilized, numerous True God-level powerhouses ventured in.

A day later, the fourth chaos tide arrived, with many Great God-level powerhouses entering, among them Prince Qin Chen.

“Let’s go!” Ye Tian suddenly told True Monarch Jin Chen and the others.

Having witnessed the subsequent chaos tides, there was no need to stay any longer.

“Yes, Your Highness!”

True Monarch Jin Chen and the others nodded in agreement.

Immediately thereafter, Ye Tian flew away from the area.

Then, boarding his cosmic spaceship, he slowly drifted away from the edge of the universe.

Two months later.

Ye Tian returned to the Yellow region of the Supreme Hall of Humanity, planning to settle down for a few days to cultivate thoroughly.

He had obtained a significant amount of chaotic resources, which were sufficient for his cultivation for a long time.

Inside the cultivation tower.

Ye Tian took out a piece of Chaos Crystal, holding it in both hands, and operated the Chaos Body Refining Technique.

He intended to test the effect of the Chaos Crystal on the cultivation of the Chaos Body Refining Technique.

Boom!!! A massive amount of pure chaotic energy transferred from the Chaos Crystal into Ye Tian's body, refined and absorbed by his Chaos Body Refining Technique.

"The effect is powerful, at least 5 times stronger than ordinary chaotic resources!" Ye Tian exclaimed in amazement.

Moreover, the energy contained in a single Chaos Crystal was far beyond that of an ordinary chaotic resource.

Ye Tian continued to absorb energy for several days and nights, yet the Chaos Crystal's energy hardly decreased.

This showed how immense the energy contained within the Chaos Crystal was.

"I've hit the jackpot. Even if I activate my time talent, one Chaos Crystal should be enough for several months of cultivation!"

It could be said that Ye Tian was no longer lacking in cultivation resources, with just the Chaos Crystals being enough for decades of cultivation! In the following years, besides cultivating the Chaos Body Refining Technique, Ye Tian spent the rest of his time perfecting the Ultimate Saber Technique, the Heavenly Moon Saber.

As for other aspects, it was hard for him to make further improvements.

For example, in terms of divine abilities, he was still missing two Heavenly Dao characters to cultivate a great divine ability. As for other ordinary divine abilities, cultivating more of them would be of little use.

Regarding spatial divine abilities, until his spatial talent reached the God level, these two spatial talents could only remain at the introductory level and could not be further improved.

“It’s too hard to improve strength. Now I understand how difficult it is to advance from the third tier to the second tier of the Eternal level. No wonder the three Eternal Princes from the Yellow region were only at the third tier!” Ye Tian sighed.

It was already so difficult to advance within the third tier, so becoming a Supreme Prince must be incredibly hard.

“I must rely on copying talents!” Ye Tian had an epiphany.

If he wanted to quickly improve his strength, relying on slow cultivation would take a long time.

Currently, his advantage was not very obvious.

Time acceleration was an advantage, but in reality, it wasn’t very significant.

Even the Pan Star Field could obtain ferocious beasts with time talents, so it wouldn’t be difficult for other Princes to acquire a pet with time talent.

Many Princes probably had pets with time talents, but those pets at most possessed top-tier time talents, capable of accelerating time by up to twentyfold, which was far inferior to his.

There was also the top-tier comprehension talent, which, although an advantage, wasn’t very conspicuous since there were many treasures capable of enhancing comprehension.

Time acceleration and comprehension talents were not the fundamental reasons Ye Tian became an Eternal Prince.

Otherwise, the Supreme Hall of Humanity could have cultivated many Eternal Princes.

“Copying talents is my foundation. If I can copy a God-level spatial talent or a mystic-level time talent, my strength will surely increase significantly.

Moreover, if I cultivate the Chaos Body Refining Technique and my spatial talent reaches the God level, my cultivation speed will surely increase.”

Ye Tian thought to himself.

Thus, Ye Tian began to use his Eternal Prince privileges to search for information on God-level spatial talents.

The talents of God-level powerhouses were basically fixed, and elevating spatial talent to the God level at the Emperor level was almost an impossible task.

Therefore, Ye Tian was not sure if he could find information on someone with a God-level spatial talent.

Through his search, Ye Tian found that among the Princes of the Supreme Hall of Humanity, many possessed spatial talents, but they were mostly pseudo-mystic-level spatial talents, far inferior to Ye Tian's.

Suddenly.

Ye Tian came across a race with spatial talents: the Crystal Spirit Race! The Crystal Spirit Race was a very special race, their bodies covered in thin crystal scales, resembling humans in appearance.

Within this race was a special royal family, the Purple Crystal Spirits.

Purple Crystal Spirits had a purple mark on their forehead, and all of them possessed spatial talents.

However, the spatial talents of these Purple Crystal Spirits varied, with the lowest being weak spatial talents and the highest reaching the level of mystic spatial talents.

More importantly, the Purple Crystal Spirits possessed Origin Artifacts of space, making it easier for them to elevate their spatial talents.

The records did not mention whether the Purple Crystal Spirits had God-level talents, but they were certainly one of the most likely races to possess them.

“According to the records of the Supreme Hall of Humanity, although the Crystal Spirit Race is not weak, the males are very handsome and the females very beautiful, making them targets for many clans.

The Purple Crystal Spirits are especially sought after, making each one a prime slave.

A long time ago, the Crystal Spirit Race faced a crisis, and Humanity ultimately helped them through it, making them one of Humanity’s vassal races!”

If the Crystal Spirit Race were an enemy of Humanity, Ye Tian would not dare target them.

But since the Crystal Spirit Race was a vassal race of Humanity, if they truly possessed God-level spatial talents, then he might have a chance to copy the God-level spatial talents of the Crystal Spirit Race.

Things like XYZ Clan is now changed to XYZ Race, unless actually talking about a specific clan.

Chapter 486: Crystal Spirit Galaxy, Crystal Spirit Race

“Unfortunately, it’s still impossible to confirm whether the Purple Crystal Spirit Race possesses a God-level spatial talent, and it’s also difficult for me to meet those powerful Purple Crystal Spirits,” Ye Tian said with a hint of helplessness.

Additionally, he had looked into talents related to time, but found that time talents were even rarer than spatial talents. Only certain specific creatures possessed time talents, and those creatures were extremely rare, making them hard to find. The Misty Fish was one such

creature, but its time talent was mediocre, while Ye Tian was in need of a Pseudo-Mystic level time talent or higher. Therefore, he could only temporarily give up on copying time talents.

Originally, Ye Tian had planned to cultivate for a few more years before trying to find a spatial talent to copy. However, one day, an opportunity arose.

The Supreme Hall of Humanity sent Ye Tian a notice, informing him that he would be given special training, separate from the other Princes in the Yellow region. After all, the other Princes in the Yellow region were too weak, and the ten-year training plan devised by the Supreme Hall of Humanity suited the other Princes but not Ye Tian. If Ye Tian were to be trained alongside the other Princes, it would undoubtedly hinder his cultivation progress.

Therefore, after discussions, the Supreme Hall of Humanity decided to single out Ye Tian for training. However, the specific training methods had not yet been fully decided, and Ye Tian could now make some requests for special training in certain areas.

Of course, Ye Tian's requests could not be too excessive and had to fall within the scope of training that the Supreme Hall of Humanity was willing to provide. Thus, Ye Tian could make as many requests as he wanted, but whether they would be approved was up to the Supreme Hall of Humanity to decide after discussions.

Upon receiving this notice, Ye Tian was very excited and immediately submitted a request to the Supreme Hall of Humanity. His request was simple: he wished to enter the Crystal Spirit Race's headquarters to learn about spatial cultivation from experts with spatial talents and to cultivate with the Crystal Spirit Race's spatial origin artifact for a period.

In truth, this was just an excuse. His real purpose was to enter the Crystal Spirit Race's headquarters to see if there were any God-level spatial talents! After submitting the request, Ye Tian quietly waited.

He was uncertain if his request would be approved, but if it were, perhaps he could truly copy a God-level spatial talent.

Time passed by.

Five days later.

A hall enforcer arrived, but it was not Divine Lord Dantai; it was another hall enforcer—Divine Lord Ri Yao.

“Greetings, Divine Lord Ri Yao!” Ye Tian said politely.

Divine Lord Ri Yao also smiled and said, “Prince of Ten Thousand Laws, there’s no need for formalities. I’m here regarding your recent application.”

“Did the higher-ups of the Supreme Hall of Humanity agree?” Ye Tian asked, surprised.

“Indeed, they have agreed. You wish to elevate your spatial talent to the God level, right?” Divine Lord Ri Yao inquired.

“Yes!” Ye Tian nodded in acknowledgment.

He possessed a Mystic-level spatial talent and had applied to consult with experts of the Crystal Spirit Race on cultivating spatial talents, which was something anyone could guess the purpose of. However, others definitely did not know he intended to use his talent-copying ability to copy a higher-level spatial talent.

At that moment, Divine Lord Ri Yao suddenly shared something that greatly shocked Ye Tian. “Actually, our Human Race has a Supreme Being who possesses a God-level talent, but that Supreme has been in seclusion for a long time, and with your status, it’s not yet possible to request a Supreme Being to instruct you. Therefore, for now, entering the Crystal Spirit Race to learn about spatial talent knowledge might be helpful to you.

It is said that the two supreme talents, spatial and time, are different from other talents. The limit of these two supreme talents is not at the God level, and there are other ways to elevate the level of God-level talents. However, I am not a bearer of a spatial talent, so I cannot inform you,” Divine Lord Ri Yao explained.

“There is a Supreme Being among us with a God-level spatial talent?” Ye Tian thought. He wished he could meet him, but he wasn’t yet qualified to meet a Supreme Being, let alone disturb a Supreme Being’s seclusion.

Suddenly, Ye Tian curiously asked, “Divine Lord Ri Yao, do you know if there is anyone among the Purple Crystal Spirits who possesses a God-level spatial talent? If they have never

produced a God-level spatial talent, it might be difficult for me to elevate my spatial talent to the God level, and they might not be able to help me!”

He was fishing for information, but Divine Lord Ri Yao, unaware of this, replied truthfully, “I’m not sure, as the Crystal Spirit Race is just one of the many vassal races of our Human Race. Who would pay attention to a vassal race? However, historically, it is recorded that the Crystal Spirit Race has produced God-level spatial talent bearers, and not just one.”

“Divine Lord Ri Yao, when can I go to the Crystal Spirit Race?” Ye Tian inquired.

“In a month, the Supreme Hall of Humanity needs to communicate with the higher-ups of the Crystal Spirit Race. But rest assured, as a vassal race, the Crystal Spirit Race would not dare to defy our Human Race and will surely agree.

However, don’t expect the Purple Crystal Spirits to wholeheartedly guide you. More likely, they will just go through the motions. Whether you can gain any benefits from the Purple Crystal Spirits depends on your ability.

Also, although the Crystal Spirit Race is a vassal race of the Human Race, they are certainly not content with our rule. If you go to the Crystal Spirit Race, expect the young geniuses of the Crystal Spirit Race to challenge you. With your strength, you should have no fear, but you must not be careless. Understand?”

Divine Lord Ri Yao reminded.

“Understood!” Ye Tian nodded.

Afterward, Divine Lord Ri Yao left, and Ye Tian used the remaining month to continue cultivating the Chaos Body Refining Technique. Unfortunately, the accumulation for the fourth layer of the Chaos Body Refining Technique was too slow, and Ye Tian was unclear about when he would reach the peak of the fourth layer. Only upon reaching the peak of the fourth layer could he apply to enter the Chaos Tower for cultivation, aiming to break through to the fifth layer of the Chaos Body Refining Technique, which is the major realm of completion.

However, as long as he continued to cultivate, he would eventually reach the peak of the fourth layer and then make a breakthrough to the fifth realm.

In the blink of an eye, a month passed.

On this day,

Divine Lord Ri Yao once again arrived at Ye Tian's location. He was there to take Ye Tian to the Crystal Spirit Race, as this was not an ordinary trip. Moreover, since they were visiting the vassal race, the Crystal Spirit Race, it was natural to send a Universal God to show some respect.

Otherwise, if only Ye Tian and his guards went to the Crystal Spirit Race, it would undoubtedly be somewhat disrespectful to the Crystal Spirit Race, which could have negative consequences.

More importantly, the area where the Crystal Spirit Race resided was not a human star field. A Prince of the Eternal level entering there might also fear assassination by other races.

Therefore, having a Universal God lead the way would be much safer.

Divine Lord Ri Yao took Ye Tian away from the Supreme Hall of Humanity and then boarded Divine Lord Ri Yao's eight-star level cosmic spaceship. Instead of using a teleportation stone gate, they left the human territory in three days.

On the fourth day, Divine Lord Ri Yao's cosmic spaceship arrived in a strange star field.

At that time, Divine Lord Ri Yao introduced, "Prince of Ten Thousand Laws, the Crystal Spirit Race doesn't have a large population, roughly equivalent to the population of a single galaxy. They reside in the Crystal Spirit Galaxy within the Bata Star Field. The Bata Star Field is not owned by the Human Race but is a rather chaotic star field with many races, most of which are minor races. Because the Crystal Spirit Race has sided with the Human Race, no race dares to bully them. However, you shouldn't underestimate the Crystal Spirit Race. Despite their small population and territory, there are many beings within the Crystal Spirit Race who are more powerful than I am."

"Is the Crystal Spirit Race that strong?" Ye Tian was quite surprised.

A single galaxy has given birth to many Universal Gods, which is not something even the Pan Star Field could boast. The Pan Star Field has thousands of galaxies but has only produced a

few Universal Gods. The ability of the Crystal Spirit Race to produce so many Universal Gods indicates the strength of this race.

However, the Pan Star Field was one of the weaker domains of humanity, located on the edge of the universe with scarce resources and severed inheritances, so it's not an appropriate comparison.

If compared to the powerful star fields of humanity, the Crystal Spirit Race wouldn't be considered much.

Soon, they arrived at the Crystal Spirit Galaxy! As soon as they entered the Crystal Spirit Galaxy, powerful auras enveloped Divine Lord Ri Yao's spaceship.

"Prince of Ten Thousand Laws, cosmic spaceships are not allowed to enter the Crystal Spirit Galaxy. Let's go out!" Divine Lord Ri Yao said.

Swoosh! Ye Tian, True Monarch Jin Chen, and other guards flew out, and Divine Lord Ri Yao also waved his hand, retracting his cosmic spaceship.

With the strength of Divine Lord Ri Yao, a Universal God, he could instantly take Ye Tian through the layers of blockades and directly descend onto the main continent of the Crystal Spirit Race, but that would undoubtedly be somewhat disrespectful.

Although the Crystal Spirit Race was a vassal to the Human Race, they were not slaves.

Though if a Supreme Being came, the Crystal Spirit Race would not dare to express any dissatisfaction.

But Divine Lord Ri Yao was merely a Universal God, not yet at the level of disregarding all rules.

In an instant, several Galaxy-level powers from the Crystal Spirit Race appeared before Ye Tian and the others.

These Galaxy-level powers of the Crystal Spirit Race, upon seeing Ye Tian and the others, knew that they were from the Human Race and dared not act rashly.

Of course, their attention was mainly on Divine Lord Ri Yao, knowing that he was a Universal God of the Human Race, which made him very prestigious.

“Respected Human Race powerhouse, may I ask how to address you?” Several Galaxy-level powers of the Crystal Spirit Race asked very respectfully.

“I am Divine Lord Ri Yao from the Supreme Hall of Humanity. This is our Human Race’s Supreme Hall’s Emperor-level Eternal Prince, Prince of Ten Thousand Laws. According to the agreement with the Crystal Spirit Race’s high-level officials, he is here for further studies. Just inform the high-level officials of the Crystal Spirit Race, and they will understand!” Divine Lord Ri Yao said indifferently.

“We will inform the high-level officials right away!” One of the Galaxy-level powers left to notify the high-level officials, but the other Galaxy-level powers did not allow Ye Tian and the others to enter the Crystal Spirit Galaxy.

After all, before confirmation, Human Race powerhouses could not enter the Crystal Spirit Galaxy at will.

Chapter 487: Tianyou, The Crystal Spirit Race’s Perfunctory Welcome

Not long after, the Galaxy-level powerhouse of the Crystal Spirit Race returned.

“Please, follow me,” said the Galaxy-level powerhouse respectfully.

“Let’s go,” Divine Lord Ri Yao stated.

Ye Tian followed Divine Lord Ri Yao, flying deep into the Crystal Spirit Galaxy. Due to Ye Tian’s relatively weaker cultivation, Divine Lord Ri Yao enveloped Ye Tian with his power, enabling them to traverse through planetary systems at an unbelievable speed.

Shortly after, the group arrived at the Crystal Spirit Continent.

The Crystal Spirit Continent was the sole main continent of the Crystal Spirit Galaxy, home to over fifty percent of the Crystal Spirit Race’s population.

Upon Ye Tian and the others' arrival at the Crystal Spirit Continent, a powerful member of the Crystal Spirit Race with a purple mark on his forehead appeared.

“Purple Crystal Spirit!” Ye Tian thought to himself.

The Purple Crystal Spirits were the royal family of the Crystal Spirit Race, each possessing a spatial talent.

As this Purple Crystal Spirit approached, Ye Tian used his Copy Talent to inspect the individual's talents.

Crystal Spirit Race: Tian Qian

Cultivation Talent: Universal

Strength Talent: Mystic

Speed Talent: Peak Mystic

Defense Talent: God level

Space Talent: Pseudo-Mystic 80%

Spear Technique Talent: Dawn level

“With a Universal Cultivation Talent and signs of aging on his face, this individual must be quite old, likely having reached the Universal God level. Unfortunately, his space talent isn't even at the Mystic level,” Ye Tian felt somewhat disappointed.

“So, it is Divine Lord Ri Yao from the Supreme Hall of Humanity!” said the Purple Crystal Spirit Universal God as he approached.

“Lord Tian Qian, long time no see,” Divine Lord Ri Yao replied, sounding quite indifferent.

Although the two were acquainted, they clearly weren't friends.

"And this must be the Prince of Ten Thousand Laws from the Supreme Hall of Humanity!" Lord Tian Qian's gaze shifted to Ye Tian.

"Lord Tian Qian, hello, I am the Prince of Ten Thousand Laws from the Supreme Hall of Humanity!" Ye Tian introduced himself.

"Lord Tian Qian, you must be aware of the purpose of our visit," Divine Lord Ri Yao got straight to the point.

"Of course!" Lord Tian Qian's eyes hid a trace of displeasure, but his face was all smiles as he said, "The Third Elder has been waiting for you both. Please, follow me."

"Lead the way," Divine Lord Ri Yao responded.

The group followed Lord Tian Qian into a massive city of the Crystal Spirit Race—Tianyou City.

Tianyou City wasn't the true headquarters of the Crystal Spirit Race. Even though Ye Tian and Divine Lord Ri Yao were from the human race, access to the core areas of the Crystal Spirit Race was restricted, just as it would be for anyone else.

Every race had its secrets, and allowing outsiders into one's core area could be catastrophic for any civilization.

Just like the Supreme Hall of Humanity, even for its own members, security was tight to prevent infiltration.

Although the Crystal Spirit Race had aligned with the humans, they maintained autonomous governance and protected their core secrets from prying eyes.

If any human attempted to forcibly enter the core area of the Crystal Spirit Race, it would be considered an act of hostility against the Crystal Spirit Race.

Naturally, the Crystal Spirit Race would not stand idly by! Thus, this time when Divine Lord Ri Yao brought Ye Tian to the Crystal Spirit Race, they were only permitted to enter Tianyou City.

Upon entering Tianyou City, they were led into a palace.

Here, Ye Tian and Divine Lord Ri Yao met with the Third Elder of the Crystal Spirit Race.

“Greetings, God Master of God’s Blessing!” Divine Lord Ri Yao said respectfully upon seeing the Third Elder of the Crystal Spirit Race.

“You are too polite, Divine Lord Ri Yao,” Divine Lord Tianyou responded with a slight nod.

Ye Tian observed Divine Lord Tianyou closely. The elder’s hair was thinning, his face was gaunt, and his body exuded a strong sense of decay.

“His life is nearing its end!” Ye Tian thought.

Judging by the elder’s appearance and vitality, his lifespan was definitely short.

However, Ye Tian did not dare to underestimate him.

Divine Lord Ri Yao was a Universal God of the Supreme Hall of Humanity, and the humans were considered the overlords of the Crystal Spirit Race, akin to masters.

Yet, Divine Lord Ri Yao still showed great respect to Divine Lord Tianyou, indicating the latter’s formidable strength, which surely surpassed Divine Lord Ri Yao.

Ye Tian was not far from Divine Lord Tianyou, allowing his Copy Talent to easily envelop the elder.

“Inspect!”

Under the coverage of the Copy Talent, the elder’s talents were fully revealed.

Upon seeing this, Ye Tian was greatly surprised.

Crystal Spirit Race: Yun Tianyou

Cultivation Talent: Universal

Strength Talent: God level

Defense Talent: God level

Speed Talent: God level

Saber Technique Talent: Supreme

Space Talent: Mystic level

Gold Shield Talent: God level

Gravity Talent: God level

“What an incredible set of talents!” Ye Tian was utterly astonished in his heart.

Such talents were extremely powerful. For instance, with the Mystic level space talent and the Crystal Spirit Race’s resources, Divine Lord Tianyou must have cultivated spatial divine abilities.

“Could it be that Divine Lord Tianyou is a Universal God who achieved his status as a Child of the Universe?” Ye Tian speculated.

If this was true, then Divine Lord Tianyou’s strength must be terrifying. He might have cultivated to the pinnacle of a Universal God, which would explain why Divine Lord Ri Yao showed him such respect.

It seemed likely that Divine Lord Tianyou was well-known throughout the universe, far from ordinary.

“Greetings, Divine Lord Tianyou!” Ye Tian greeted with a fist and palm salute.

“You must be the Prince of Ten Thousand Laws from the human race. Although humans are inherently weak, your potential is truly limitless!” Divine Lord Tianyou looked deeply at Ye Tian and praised.

Then he continued, “I am aware of your purpose. The Spatial Origin Artifact can be studied by the Prince of Ten Thousand Laws for a month, but you’ll have to wait some days because the Spatial Origin Artifact is in our Crystal Spirit Race’s secret realm world, and the secret realm will not open for another half a year! As for having one of our clan members with spatial talents guide you, I can only say I’ll do my best.

You probably want to elevate your Mystic level space talent to the God level, which is extremely difficult. Even I couldn’t achieve this in the past. It requires not only luck but also the right opportunity. In any case, it’s very challenging.

How about this: you can enter the Library Treasure Pavilion in Tianyou City to browse some tomes related to space cultivation, which might provide you with some insights. Later, I will arrange for one of our top Mystic level spatial talents to personally guide you. Whether or not this will be helpful to you depends on yourself!”

“Thank you, Divine Lord Tianyou!” Ye Tian expressed his gratitude.

“Divine Lord Ri Yao, Prince of Ten Thousand Laws, I will have someone arrange for your accommodation first. Tomorrow, someone will take you to the Library Treasure Pavilion. How does that sound?” Divine Lord Tianyou inquired.

“We will follow Divine Lord Tianyou’s arrangements,” Ye Tian nodded.

After all, this was their territory, and even Divine Lord Ri Yao dared not speak out of turn, so Ye Tian naturally had to comply with their arrangements.

Subsequently, Divine Lord Tianyou arranged for Ye Tian and Divine Lord Ri Yao to stay in a loft in Tianyou City.

In a room of the loft, Ye Tian and Divine Lord Ri Yao had a private conversation.

“Prince of Ten Thousand Laws, it seems they are indeed giving us a perfunctory treatment,” Divine Lord Ri Yao said gravely.

“Why do you say that?” Ye Tian inquired.

Divine Lord Ri Yao explained, “Tianyou City is merely a city built by Divine Lord Tianyou himself. The city’s foundation is weak, and the Library Treasure Pavilion in Tianyou City cannot contain many precious tomes. Moreover, asking you to visit the library tomorrow probably means they will remove the most valuable and core tomes today, leaving only some insignificant ones for you to see. Isn’t this perfunctory? However, I had already anticipated this. Most of these vassal races are somewhat servile, only wishing to use our human race as a protective umbrella, but they are not fully aligned with us.”

“I see!” Ye Tian nodded in agreement with Divine Lord Ri Yao’s words and then curiously asked, “Divine Lord Ri Yao, is Divine Lord Tianyou really that powerful?”

Divine Lord Ri Yao revealed a deep wariness and nodded, “Indeed, Divine Lord Tianyou once reached the peak Child of the Universe status at the Emperor level, but due to the Crystal Spirit Race’s lack of resources, he fell to the Ordinary level at the Great God stage. However, he has now reached the pinnacle of a Universal God, and his strength is far greater than mine. It would only take him one move to kill me. Once, on a Universal God battlefield, he alone defeated eight peak Universal Gods.”

“Truly powerful!” Ye Tian exclaimed.

“However, Prince of Ten Thousand Laws, if you ascend to the Universal God level in the future, strong beings like Divine Lord Tianyou will not be considered much,” Divine Lord Ri Yao said.

“Divine Lord Ri Yao, would it be okay if I went out for a walk?” Ye Tian suddenly asked.

“No problem. You are an Eternal Prince of our human race; the Crystal Spirit Race wouldn’t dare let anything happen to you in Tianyou City!” Divine Lord Ri Yao’s words reassured Ye Tian.

Ye Tian left the loft and wandered the streets. His purpose was not simply to relax but to observe the talents of other Crystal Spirit Race members, to see if he could encounter any with God level spatial talents.

However, this turned out to be a bit too optimistic. After walking around, Ye Tian used his Copy Talent to check the talents of all the Crystal Spirit Race members he encountered, except for those in buildings protected by powerful array formations, but he did not come across any with God level spatial talents.

Thus, Ye Tian returned to the loft.

The next day, a Great God level member of the Crystal Spirit Race was sent to take Ye Tian to the Library Treasure Pavilion in Tianyou City.

Chapter 488: Mastering Spatial Talent Thoroughly

In Tianyou City, within the Library Treasure Pavilion, under the guidance of a Great God level expert, Ye Tian arrived at this location and then entered the Library Treasure Pavilion alone.

The Library Treasure Pavilion in Tianyou City was divided into six floors, each of which housed many precious books.

However, upon entering, Ye Tian found many bookshelves to be empty, and the pavilion did not house as many books as expected.

“Indeed, Divine Lord Ri Yao was right; the Crystal Spirit Race really did give us the runaround, transferring many precious books away!” Ye Tian thought to himself.

This was understandable, as any race would not want their precious collections, accumulated over countless years, to be easily learned by outsiders.

Of course, the Crystal Spirit Race wouldn’t be too negligent, and the books they left behind were certainly valuable, including many regarding the study of spatial cultivation.

Ye Tian was particularly interested in books related to space, indifferent to other precious works.

There was no one guarding the Library Treasure Pavilion, so Ye Tian began his browsing from the first floor's collections.

He found great pleasure in reading through each book.

Although the Supreme Hall of Humanity's Yellow region had many precious books, there were few on the topic of space.

Yet here, there were many books about space. Ye Tian, despite possessing spatial talent, had not thoroughly studied it and had only been using his innate abilities.

The Purple Crystal Spirit Race's research on spatial talent was extremely advanced, allowing even those with weak spatial talent to perform corresponding secret spatial techniques.

Over the first three days, Ye Tian had thoroughly browsed all the books in the first level of the Library Treasure Pavilion.

He did not merely memorize the contents but also understood and studied them as he read.

It took him another five days to go through all the books on the second floor.

A month passed in the blink of an eye.

During this month, Ye Tian spent almost all his time in the Library Treasure Pavilion.

He had browsed through all the books and had a basic understanding of them.

Indeed, there weren't many precious books in the pavilion, but they were quite helpful to Ye Tian.

Previously, his use of spatial talent was rather crude, but now, having read so many books, he could refine his spatial techniques step by step, enhancing the power of his spatial talent.

Furthermore, Ye Tian had a rough idea of how to elevate his Mystic-level spatial talent to the God level.

Previously, Ye Tian knew that the talent copying ability could merge two similar Mystic-level talents into a God-level talent, provided they had the potential for such an upgrade.

Take the extreme speed talent, for instance, a God-level speed-type talent. The reason why a speed talent was hard to elevate to God-level was due to insufficient inherent potential, and both speed and flight talents shared a similar base.

Merging two Mystic-level talents was essentially about absorbing elements absent in one's talent, increasing its potential, and thus stepping into the God-level.

After entering the Supreme Hall of Humanity, Ye Tian fully understood this principle.

However, spatial talent was different, being a supreme talent with enough potential to ascend to or even surpass God level.

To elevate spatial talent to God level, one does not need to merge it with other talents but rather explore the inherent source of spatial talent.

As for how to tap into the source of spatial talent and unlock the potential of Mystic-level spatial talent, there were no records in the pavilion's books.

Perhaps the Crystal Spirit Race held the secrets, but such methods were undoubtedly closely guarded.

Even if one had such a method, elevating Mystic-level spatial talent to God level would be extremely challenging.

“The Crystal Spirit Race must have a method to elevate spatial talent to God level. Although it's rare, there must be someone with a God-level spatial talent. If I stay with the Crystal Spirit

Race longer, maybe I'll discover a miraculous spatial talent. That would be a great gain!" Ye Tian pondered.

After leaving the Library Treasure Pavilion, Ye Tian returned to his residence without disturbing Divine Lord Ri Yao.

After all, having someone like Divine Lord Ri Yao accompany him showed the Supreme Hall's regard for him, but he shouldn't hinder Divine Lord Ri Yao's cultivation.

Divine Lord Ri Yao's task was to bring Ye Tian here and take him back, not to attend to him at other times.

Just then, another God-level expert from the Crystal Spirit Race came to invite Ye Tian.

"Prince of Ten Thousand Laws, our Third Elder has summoned you!" A Crystal Spirit Great God level expert said.

"Lead the way," Ye Tian responded lightly.

Following this Crystal Spirit Great God, Ye Tian once again met Divine Lord Tianyou.

"Prince of Ten Thousand Laws, I had planned to arrange a guide for you earlier, but since you were always in the Library Treasure Pavilion, I didn't want to disturb you. Now that you've come out, I've invited you here to meet a top-tier spatial talent," Divine Lord Tianyou said.

"Chate, come out!" Divine Lord Tianyou called.

Whoosh! A figure appeared, clearly a spatial talent, as he had traversed space silently to arrive.

Had it not been for Ye Tian's Mystic-level spatial talent, he wouldn't have been able to detect the faint spatial fluctuations caused by the other's arrival.

"Prince of Ten Thousand Laws, this individual is the highest achiever in spatial talent within our race, named Chate. He is known in the outside world as True Monarch Dark Ghost. You may directly address him as True Monarch Dark Ghost," Divine Lord Tianyou introduced.

“Greetings to True Monarch Dark Ghost,” Ye Tian greeted with a fist salute.

“Prince of Ten Thousand Laws is too polite,” True Monarch Dark Ghost replied.

Ye Tian activated his talent-copying ability to check the talents of True Monarch Dark Ghost.

He noticed that True Monarch Dark Ghost’s other talents were passable, but his spatial talent was particularly impressive, also at the Mystic-level.

“Chate, for the next few months, please guide Prince of Ten Thousand Laws in his spatial cultivation,” Divine Lord Tianyou instructed.

“Yes, Third Elder,” True Monarch Dark Ghost, Chate, responded.

Soon after, True Monarch Dark Ghost led Ye Tian to a secluded side hall where they both sat cross-legged.

“Before I guide you, Prince of Ten Thousand Laws, I’d like to know what level your spatial talent has reached,” True Monarch Dark Ghost said.

“Mystic-level,” Ye Tian honestly replied.

True Monarch Dark Ghost’s pupils constricted, showing surprise.

The Purple Crystal Spirit Race, due to their racial characteristics, possessed high-level spatial talents and could easily advance their spatial talent levels. However, spatial talents were extremely rare among other races, and even if possessed, it was incredibly difficult to enhance.

Below the top-tier spatial talents, one could still use some treasures to advance, but after reaching the Pseudo-Mystic level, improving even a fraction of spatial mastery was as hard as ascending to heaven.

Therefore, True Monarch Dark Ghost was astonished by Ye Tian’s spatial talent.

“Could this Prince of Ten Thousand Laws be naturally born with Mystic-level spatial talent?” True Monarch Dark Ghost speculated.

If it was a natural Mystic-level spatial talent, Ye Tian was incredibly lucky. But if it was acquired later, it would mean Ye Tian’s talent was exceptionally heaven-defying.

Regaining his composure, True Monarch Dark Ghost continued, “Prince of Ten Thousand Laws, there’s only so much I can teach you. What I can truly guide you in is completely mastering your spatial talent.

Since we both have Mystic-level spatial talents, try teleporting on the spot!”

Ye Tian did as instructed, activating his spatial talent to teleport within the confines of the small side hall.

“Continue teleporting!” True Monarch Dark Ghost instructed.

With each teleportation, the spatial fluctuations caused by Ye Tian grew more significant.

“Stop!” True Monarch Dark Ghost eventually said.

Ye Tian ceased teleporting and stood before True Monarch Dark Ghost, awaiting his assessment.

Without any comment, True Monarch Dark Ghost said, “I’ll teleport for you to observe closely.”

He then began to teleport repeatedly, much faster and silently compared to Ye Tian, without causing any spatial fluctuations.

Only someone with Mystic-level spatial talent like Ye Tian could sense the faint spatial fluctuations; others without such talent might not detect them at all.

“Do you notice any difference in our spatial talents?” True Monarch Dark Ghost inquired.

“True Monarch Dark Ghost, your teleportation hardly causes any spatial fluctuations, whereas mine creates significant disruptions. The more I teleport, the more intense the fluctuations become. My control over teleportation is insufficient; I rely solely on my spatial talent,” Ye Tian responded.

“Correct. It seems you’ve recognized your shortcomings in spatial talent. What I’ll guide you in is controlling your spatial talent. Perhaps one day, when you’ve fully mastered it, you might be able to tap into the source of your spatial talent and elevate it to the God level,” True Monarch Dark Ghost tantalizingly suggested.

However, Ye Tian inwardly sneered at this.

If it were that simple, True Monarch Dark Ghost would have already elevated his spatial talent to the God level.

Nevertheless, Ye Tian wasn’t bothered by True Monarch Dark Ghost withholding the true secret to achieving God-level spatial talent.

After all, being taught to control his spatial talent by True Monarch Dark Ghost was still beneficial for him. He also wished to master his spatial talent thoroughly, as inadequate control during combat could easily lead to vulnerabilities and significant damage.

Thus, over the following months, Ye Tian diligently followed True Monarch Dark Ghost’s instructions to cultivate and attempt to master his spatial talent, rather than merely using it.

Chapter 489: God-Level Spatial Talent!

Inside a narrow side hall, Ye Tian kept teleporting. This time, he teleported for quite a while without causing any spatial fluctuations.

Soon after, Ye Tian manipulated the power of space, transforming spatial rifts into various shapes, even into words. This demonstrated a high level of control over his spatial talent.

Seeing how quickly Ye Tian grasped the essence of his spatial talent, True Monarch Dark Ghost exclaimed, “Prince of Ten Thousand Laws, your talent is heaven defying. In such a short time, you have mastered the control of spatial talent to this degree. Even among our Purple Crystal Spirit Race, there are few who can achieve this!”

“It’s all thanks to the guidance of True Monarch Dark Ghost!” Ye Tian humbly replied.

In fact, a small part of his rapid progress was due to the guidance of True Monarch Dark Ghost, but the real reason behind Ye Tian’s swift advancement was his top-tier talent in comprehension. With his extremely high comprehension ability amplified, Ye Tian’s learning capacity naturally accelerated.

Moreover, being an Eternal Prince, his comprehension abilities were naturally incomparable to others.

With multiple amplifications, Ye Tian was able to master the control of spatial power to a high level in such a short period.

However, even so, Ye Tian was still somewhat inferior to True Monarch Dark Ghost.

After all, True Monarch Dark Ghost had cultivated for many years and probably had some hidden techniques, naturally making him not comparable to Ye Tian.

“Prince of Ten Thousand Laws, let’s conclude the guidance here. In a little over half a month, the secret realm world will open, and you will be able to comprehend the Spatial Origin Artifact!” True Monarch Dark Ghost said.

“Alright!” Ye Tian nodded.

Then, Ye Tian left alone and returned to his residence.

Meanwhile, True Monarch Dark Ghost went to meet with the third elder, Divine Lord Tianyou.

Deep within the Tianyou Divine Hall.

True Monarch Dark Ghost knelt before Divine Lord Tianyou and said, “Third Elder, the task has been completed!”

“Did the Prince of Ten Thousand Laws say anything?” Divine Lord Tianyou inquired.

“Nothing. I only taught him to control spatial power. He seemed very interested and learned very diligently. His talent is indeed terrifying. In just a few months, he has freely wielded spatial power and controlled it to a high level,” True Monarch Dark Ghost said, filled with astonishment towards Ye Tian.

“A long time ago, the human race was just a minor race, not even comparable to our Spirit Race. But now, the human race is a major cosmic race, and we Spirit Race must submit to them to survive, how sad. However, even so, we must not leak the true inheritance of our Spirit Race to them. The Prince of Ten Thousand Laws of the human race wants our secret techniques to enhance his spatial talent? Hehe, dream on!” Divine Lord Tianyou said coldly.

“Third Elder, even if we gave various cultivation secret techniques to the Prince of Ten Thousand Laws, it would be difficult for him to advance his spatial talent to the God level, right?” True Monarch Dark Ghost muttered.

“Hmph, what do you know? Even if he can’t advance, if it’s given to the human race, there might be God-level spatial talents born among them in the future. The human race is a very peculiar race; they possess the talents of many races, and no one knows what will happen in the future. Our Spirit Race is valued by the human race because we are useful. If we lose the advantage of being a spatial talent race, we might be discarded by the human race one day! The human race is not a merciful race. They also rose through slaughter, and on their path to rise, they extinguished countless cosmic races,” Divine Lord Tianyou said with deep apprehension.

“Third Elder is right!” True Monarch Dark Ghost didn’t dare to contradict and nodded.

“You may go now. In half a month, when the secret realm world opens, you oversee it and arrange for the emperors of our clan to cultivate within. Remember, instruct those emperors to avoid interacting with the Prince of Ten Thousand Laws of the human race as much as possible and not to reveal the situation within our clan. Especially Heim, that child, he is the pride of our Purple Crystal Spirit Race. To prevent him from feeling inferior to the Prince of Ten Thousand Laws, let him hide his talent,” Divine Lord Tianyou instructed.

“Yes!” True Monarch Dark Ghost left.

After True Monarch Dark Ghost left, Divine Lord Tianyou murmured, “Supreme, oh supreme, if our Spirit Race could give birth to a Supreme Being, we wouldn’t have to be so aggrieved. It’s because we don’t have a Supreme Being that I could only cultivate a flawed divine canon and couldn’t break through to become an Eternal Child of the Universe. Even Heim, my most

talented disciple, can't break through to become an Eternal Child of the Universe. If we had a Supreme Being, our clan could have a complete divine canon, and perhaps we could rise like the human race and stand among the cosmic races!"

Unfortunately, giving birth to a Supreme Being was extremely difficult, and even a major cosmic race could only hope to produce one over a long period. For a minor race like the Spirit Race to give birth to a Supreme Being was almost hopeless. After all, not every race is the human race! In the blink of an eye, half a month passed.

On this day, a God-level member of the Spirit Race came to notify.

The secret realm world was about to open, and he was asked to go there.

Under the protection of True Monarch Jin Chen and others, Ye Tian went.

At that time, he saw True Monarch Dark Ghost.

"Prince of Ten Thousand Laws, follow me. Your guards can accompany you, but they cannot enter the secret realm world!" True Monarch Dark Ghost reminded.

"Understood!" Ye Tian nodded.

Shortly thereafter, everyone took a teleportation formation in Tianyou City and teleported to another city.

"Kison City!"

This city was not as grand as Tianyou City, but it was closer to the secret realm world, hence they teleported here.

Quickly, Ye Tian followed True Monarch Dark Ghost to a huge mountain range outside the city and stopped on a mountain peak.

"The entrance to the secret realm world is right here. Others are coming too. Once everyone has arrived, the secret realm world will be opened!" True Monarch Dark Ghost explained.

Ye Tian waited patiently.

Before long, streaks of light flew in, transforming into members of the Purple Crystal Spirit Race.

These members of the Purple Crystal Spirit Race were all Emperors, entering the secret realm world this time to comprehend the Spatial Origin Artifact.

“Greetings, Lord True Monarch Dark Ghost!” Each Emperor greeted True Monarch Dark Ghost respectfully upon seeing him.

Once everyone had arrived, True Monarch Dark Ghost took out a token and opened the entrance to the secret realm world.

Boom! A crack appeared in space, gradually enlarging into a black gate.

“Go in!” True Monarch Dark Ghost said.

Swish! The Emperors flew into the secret realm world, and Ye Tian followed.

As he flew into the secret realm world, Ye Tian’s copy talent enveloped all the Emperors who had just entered.

Instantly, the talents of these Emperors were completely visible to Ye Tian.

Most of these Emperors had Desolate-level space talents, with a few possessing Hong-level cultivation talents and two with Cosmic-level cultivation talents.

The one with the highest cultivation talent was a Universe-level talent! Most of these Emperors’ space talents were at the Pseudo-Mystic level, which was quite high compared to other space talent holders outside.

But what caught Ye Tian’s eye was a young member of the Purple Crystal Spirit Race, whose talent left him astounded.

The Purple Crystal Spirit Race's Heim had Universe-level cultivation talent, God-level speed talent, God-level defense talent, God-level space talent, Supreme-level spear talent, God-level water deity talent, among others.

“God-level space talent!”

Ye Tian was utterly shocked. The God-level space talent he had long coveted suddenly appeared before him.

“This Heim from the Purple Crystal Spirit Race must be the number one Emperor of this generation in the Purple Crystal Spirit Race, and likely a Child of the Universe. The Purple Crystal Spirit Race could never have anticipated my cloning talent; otherwise, they would never have allowed Heim to appear before me!” Ye Tian exclaimed joyously.

“God-level space talent, clone!” Ye Tian thought, and cloned the other's God-level space talent, feeling thoroughly satisfied.

The secret realm world was vast, with the Spatial Origin Artifact located at its center.

From afar, Ye Tian could sense the intense spatial origin fluctuations emanating from the distant center, spreading throughout the entire secret realm world.

The Emperors of the Purple Crystal Spirit Race quickly headed to the center of the secret realm world to comprehend the Spatial Origin Artifact.

For them, the chance to comprehend the Spatial Origin Artifact was rare, and some Emperors only had one opportunity, so they were eager to use the Spatial Origin Artifact to comprehend spatial mysteries or divine abilities.

Ye Tian didn't rush over. Instead, he flew to another location, plunged into the depths of the ground, and then created a small underground space deep beneath the surface.

He planned to integrate the God-level space talent here.

Once the God-level space talent was integrated, his space talent would be elevated to the God level.

This would allow him to use the Spatial Origin Artifact to enhance the level of his spatial divine abilities.

Ye Tian's spatial divine forms and the Multi-layered Realm, his two spatial divine abilities, had always been at the introductory level.

Previously, his space talent was at the Mystic level, preventing him from cultivating his spatial divine abilities beyond the initial stage.

Therefore, he urgently needed to elevate his space talent to the God level, enabling him to enhance his spatial divine abilities with the Spatial Origin Artifact; otherwise, comprehending the Spatial Origin Artifact would be of little use to him.

“Begin integration!”

Boom! Immense pain surged into the depths of Ye Tian's soul.

In the past, such pain would have been unbearable for Ye Tian, but now his heart condition had reached the fifth level.

With Ye Tian's powerful fifth-level heart condition, this pain was negligible.

Before long, Ye Tian successfully integrated the God-level space talent.

[Spatial Talent: God-level]

“Finally, my space talent has reached the God level!”

Ye Tian was incredibly excited, even more so than when he became a Child of the Universe.

This was a God-level space talent! Not to mention anything else, just the elevation of his space talent to the God level alone had increased all his spatial abilities by several folds.

Originally, Ye Tian was at a rather average level within the third tier of Eternal Children of the Universe. But with his space talent elevated to the God level and his strength significantly increased, he was now definitely at the top of the third tier of Eternal Children of the Universe.

“Quickly go and comprehend the Spatial Origin Artifact!”

Ye Tian burst out of the underground space and flew towards the central region of the secret realm world.

Chapter 490: Mastery of Spatial Divine Abilities

In the secret realm, at the central location, a purple bell dominated the void, surrounded by layers of spatial ripples.

Whoosh!

Ye Tian arrived! At this moment, everyone else was immersed in their cultivation and paid no attention to his arrival.

Therefore, Ye Tian casually chose a spot, sat down cross-legged, and began to meditate and comprehend with the aid of the purple bell.

This purple bell was the Spatial Origin Artifact, emitting a powerful aura of spatial origin. Being in its presence, Ye Tian felt as if he was dwelling deep within the essence of space.

Moreover, countless profound truths about space seemed to reveal themselves to him one by one in this place, making it an excellent location for comprehending spatial talents.

“Cultivate!”

Ye Tian recalled the method of cultivating the Spatial Divine Form from his mind, contemplating the laws depicted in the spatial divine form, striving to elevate his introductory level Spatial Divine Form to the minor achievement stage.

Previously, limited by his talent, he was unable to engage in such profound comprehension, as even attempting to do so would cause his soul to tremble.

But now, Ye Tian's comprehension process was remarkably smooth.

Ye Tian's chosen spot for cultivation was quite distant from the Crystal Spirit Race's Emperor level practitioners, allowing him to covertly activate his Time Talent and top-tier understanding talent, which significantly accelerated his speed of comprehension.

Instantly, countless intricate insights into the spatial origin that he sensed were absorbed by Ye Tian into his body, aiding him in advancing the realm of his spatial divine abilities.

Three days passed in the outside world, and Ye Tian successfully advanced his Spatial Divine Form to the minor achievement stage.

After eight days, Ye Tian's Spatial Divine Form made another breakthrough, reaching the major achievement stage! The spatial divine ability at the major achievement stage was incredibly powerful, certainly not inferior to a regular great divine ability, and perhaps even surpassing it.

However, when Ye Tian attempted to comprehend the Spatial Divine Form to the perfected realm, he found that this Spatial Origin Artifact was of little use to him. According to his estimations, even years of comprehension would not enable him to advance his spatial divine ability to the perfected realm.

"The remaining time should not be spent on comprehending the Spatial Divine Form; that would be a waste. Let's comprehend the Thousand Layer Realm!"

Thus, Ye Tian began to comprehend another spatial divine ability – the Thousand Layer Realm. Merely within ten days, Ye Tian also cultivated this spatial divine ability to the major achievement stage.

At this point, Ye Tian possessed two spatial divine abilities at the major achievement stage.

By then, there were only two days left before the closure of the secret realm.

The remaining two days, although equivalent to two months under the acceleration of time, were not of much help to Ye Tian.

In the following two days, Ye Tian merely consolidated his mastery over the Thousand Layer Realm and the Spatial Divine Form, nothing more.

Soon, the time was up!!! The period for comprehension ended! The Crystal Spirit Race's Emperors orderly left the secret realm, and Ye Tian, without showing any signs of excitement, pretended to be disappointed as he exited the secret realm and then left under the escort of True Monarch Jin Chen.

Upon returning to Tianyou City, Ye Tian did not continue to leave.

If he were to leave immediately, it would undoubtedly raise suspicions.

Thus, Ye Tian occasionally visited the Scripture Treasure Pavilion and had True Monarch Jin Chen secretly inquire about the situation regarding spatial talents.

In short, he tried his best to show a strong desire for the God level spatial talent.

In the blink of an eye, another half-month passed.

On this day, Ye Tian said to Divine Lord Ri Yao, "Divine Lord Ri Yao, let's return!"

"Prince of Ten Thousand Laws, are you not going to stay in the Crystal Spirit Race any longer?" Divine Lord Ri Yao asked.

"The Crystal Spirit Race will not share their core techniques with me. Staying here is just a waste of time. Moreover, while we are here, we are constantly under their surveillance. What's the point of staying any longer? Besides, I have already achieved my goal!" Ye Tian said with a smile.

Divine Lord Ri Yao's pupils shrank as he exclaimed, "Your Highness, could it be that you..."

“Divine Lord Ri Yao, you will know in the future!” Ye Tian did not elaborate, but he believed Ri Yao could guess something.

He could keep it a secret, but there was no need to. If he wanted to receive significant support from the Supreme Hall of Humanity, he must show remarkable performance and rapid improvement.

If he kept hiding his abilities, how could he receive the full support of the Supreme Hall of Humanity? Not to mention this visit to the Crystal Spirit Race, if he hid his strength and only showed the combat power of a peak Child of the Universe, the Supreme Hall of Humanity would not bother negotiating with the Crystal Spirit Race for him.

So, he would not hide his strength.

“Then let’s go!” Divine Lord Ri Yao nodded.

Subsequently, Divine Lord Ri Yao, accompanied by Ye Tian, went to see Divine Lord Tianyou at his residence.

“Divine Lord Tianyou, we have been a disturbance to the Crystal Spirit Race during this period. Now that the Supreme Hall of Humanity has many matters to attend to, we will not stay any longer!” Divine Lord Ri Yao bid farewell.

“Divine Lord Ri Yao, what are you saying? Our Crystal Spirit Race and humanity are like one family. If you wish to come, you are always welcome!” Divine Lord Tianyou said with a smile.

Then, he turned his gaze to Prince of Ten Thousand Laws, “Prince of Ten Thousand Laws, I wonder if you have gained anything during this time?”

Ye Tian bowed and said, “Thank you for your concern, Divine Lord Tianyou. During this period, I have significantly improved my control over spatial power. Unfortunately, I have not been able to elevate my spatial talent from the Mystic level to the God level!”

“Prince of Ten Thousand Laws, you need not be too concerned. Having a spatial talent is already highly commendable for someone from humanity. It is exceedingly difficult to possess

a God level spatial talent. For Prince of Ten Thousand Laws to use a Mystic level spatial talent is already quite impressive!” Divine Lord Tianyou seemingly consoled.

“Thank you for your guidance, Divine Lord Tianyou!” Ye Tian expressed his gratitude.

Then, Divine Lord Ri Yao led Ye Tian away, with several God-level crystal spirit beings escorting them out of the Crystal Spirit Galaxy.

After Ye Tian and the others departed, Divine Lord Tianyou asked True Monarch Dark Ghost, “Prince of Ten Thousand Laws of the human race hasn’t gained much in these days, has he?”

“Nothing!” True Monarch Dark Ghost replied, “Apart from gaining better control over spatial power, Prince of Ten Thousand Laws didn’t achieve anything else. They also tried to inquire about spatial secret techniques and God-level spatial talents, but such knowledge is beyond the reach of ordinary clan members, and the higher-ups are not accessible to them. So, they came up empty-handed.”

“Good, we’ve managed to send off the Prince of Ten Thousand Laws of the human race. The humans probably won’t feel comfortable sending anyone else here for a while!” Divine Lord Tianyou was in a very good mood.

Meanwhile, Ye Tian and the others left the Crystal Spirit Galaxy and began their journey back to the Supreme Hall of Humanity.

“Divine Lord Tianyou probably thinks I’ve gained nothing and is secretly pleased. If he knew I’ve obtained a God-level spatial talent, he would be furious. When my strength is greater, I’ll visit the Crystal Spirit Race again. Their profound spatial secret techniques are useful to me, and I’ll try to acquire them!” Ye Tian thought to himself.

A few days later, Ye Tian returned to the Supreme Hall of Humanity. Upon his return, he attempted to challenge the eighth level of the battle tower but failed. He had thought that with his spatial talent upgraded to God-level and both his spatial divine abilities advanced to the major achievement stage, his strength had increased manyfold and he should be able to conquer the eighth level of the battle tower, becoming a second-tier Eternal Child of the Universe.

However, to his surprise, he fell short, though not by much. He had managed to withstand the onslaught of the Eternal Child of the Universe on the eighth level for quite some time before ultimately being defeated.

“If I can cultivate the Chaos Body Refining Technique to the fourth level’s peak, my physique, yuan force, and soul would all strengthen by a small degree, and my strength should be sufficient to step into the second-tier Eternal Child of the Universe!” Ye Tian estimated.

Thus, in the following days, Ye Tian fervently used chaos crystals to cultivate the Chaos Body Refining Technique.

However, after only a year of cultivation, the Supreme Hall of Humanity conveyed a message. A month later, they would send him to cultivate in the Beast God Realm.

“The Beast God Realm!” Ye Tian was somewhat puzzled upon receiving this message.

Therefore, he used his permissions to investigate the Beast God Realm.

Soon, all the information about the Beast God Realm was laid out before Ye Tian. The Beast God Realm, located in the Human-Beast Domain, is a special world filled with numerous God-level ferocious beasts, the exact number unknown, but without any True God-level beasts or higher.

“Countless God-level ferocious beasts. Does this mean they want me to enter the Beast God Realm to face and slaughter God-level ferocious beasts, growing through the killings?” Ye Tian speculated.

Soon, he found out. A month later, Divine Lord Dantai arrived. “Prince of Ten Thousand Laws, I’ve been ordered to take you to the Beast God Realm!” Divine Lord Dantai stated directly.

“Divine Lord Dantai, I’d like to know why we’re going to the Beast God Realm. Is it mandatory?” Ye Tian inquired.

“You don’t want to go?” Divine Lord Dantai looked intently at Ye Tian and said, “Did you research the Beast God Realm and find out about the numerous God-level ferocious beasts there, hence worrying about your safety?”

“A bit,” Ye Tian admitted.

Divine Lord Dantai earnestly said, “You’ve had it too smooth up till now, without much experience in brutal battles. Other Eternal Children of the Universe have all emerged from mountains of corpses and seas of blood, possessing far richer combat experience than you. You need countless battles to temper yourself, and such battle experience can’t be compensated by phantom worlds. No matter how realistic a phantom world is, it’s still virtual. Only by experiencing real battles can one truly grow. As an Eternal Child of the Universe, ordinary secret realms are of no use to you. If we sent you to a world without God-level ferocious beasts, wouldn’t you sweep through it unchallenged? The Beast God Realm, although slightly more dangerous, poses not a great threat since its most powerful beasts are only at the God level, with no True God-level beasts or higher. You’re required to stay in the Beast God Realm for ten full years, with specific mission objectives.”

“What mission objectives?” Ye Tian casually asked.

“Kill a total of 100,000 God-level ferocious beasts!” Divine Lord Dantai revealed.

“What!!! 100,000 God-level ferocious beasts? Isn’t that too difficult? Even if I kill one a day it would only amount to a few hundred a year, and at most a few thousand in ten years!” Ye Tian was truly shocked.
