

## Talent 491

### Chapter 491: The Objective

“Kill a hundred thousand God-level ferocious beasts!”

“Divine Lord Dantai, it’s a bit exaggerated for me alone to kill 100,000 God-level ferocious beasts in the Beast God Realm,” Ye Tian said with a sense of helplessness.

“It’s actually achievable!” Divine Lord Dantai responded, “As long as you remain in constant battle, it is possible to kill a hundred thousand God-level ferocious beasts in ten years. Of course, you must also protect yourself, as some God-level ferocious beasts are not something you can deal with at the moment!”

“If you can achieve this target, the Supreme Hall of Humanity is willing to reward you with a Heavenly Dao character,” Divine Lord Dantai revealed the reward.

“A Heavenly Dao character, which one?” Ye Tian eagerly inquired.

“The Wood Heavenly Dao character!” Divine Lord Dantai declared.

“The Wood Heavenly Dao character!!!” Ye Tian was extremely excited; it was exactly the Heavenly Dao character he was missing.

Currently, he already possessed the Gold Heavenly Dao character, the Water Heavenly Dao character, and the Fire Heavenly Dao character, lacking only the Wood and Earth Heavenly Dao characters.

The Supreme Hall of Humanity was aware that he was missing the Wood and Earth Heavenly Dao characters and deliberately set up this reward fearing he would not accept the challenge.

Strictly speaking, if Ye Tian really decided not to venture into the Beast God Realm, the Supreme Hall of Humanity couldn’t force him.

The Supreme Hall of Humanity wasn’t a coercive organization; it was merely a training institution organized by the Supremes of humanity.

The Supreme Hall of Humanity doesn't enforce anything, so it doesn't restrict one's choices, even if one wishes to idle away their time within the hall.

"Divine Lord Dantai, I am willing to go to the Beast God Realm!" Ye Tian immediately agreed.

In fact, he never considered refusing; he was merely asking casually, hoping to learn more about the Beast God Realm from Divine Lord Dantai.

Now that the Supreme Hall of Humanity was willing to offer the Wood Heavenly Dao character as a reward, it was an unexpected surprise.

"Then I'll take you to the Beast God Realm now!" Divine Lord Dantai stated.

"Alright!" Ye Tian nodded.

The Beast God Realm.

This star field was very special, initially occupied entirely by countless ferocious beast races, but later taken over by humanity.

Humanity had subdued many powerful ferocious beasts, leaving behind a vast number of lower-level ones.

Even now, the Beast God Realm was home to countless ferocious beasts, some of which, due to their cute and beautiful appearances, had even become the favorites among many female powerhouses across human domains.

Many ferocious beasts were highly valuable and sold in large quantities.

The Beast God Realm could be considered a breeding ground for ferocious beasts, making it the prime location for trading them.

On the way, Ye Tian asked Divine Lord Dantai, "Divine Lord Dantai, with the countless ferocious beasts in the Beast God Realm, could there be any with a Mystic-level time talent?"

“I’m not sure, but I have heard of transactions involving time-talented ferocious beasts. However, most are top-level time talents or below, and their value is just so-so.”

Clearly, for a powerhouse like Divine Lord Dantai, ferocious beasts with top-level time talents were of no interest.

However, Mystic-level time talents were still exceedingly rare; otherwise, a Universal God like Divine Lord Dantai would have heard of them.

Soon, Ye Tian and Divine Lord Dantai arrived in the Beast God Realm.

Upon arriving, Ye Tian, through the cosmic spaceship, witnessed a stunning scene.

In the vast expanse of space, a gigantic golden bird, comparable in size to a small planet, was flying at high speed.

“What is that?” Ye Tian exclaimed in surprise.

“That’s a Galaxy-level ferocious beast, the Golden Silk Phoenix Sculpture. Such flying Galaxy-level ferocious beasts are the favorite mounts of many Universal Gods! That was a Universal God passing by just now. We exchanged greetings, but you wouldn’t be able to perceive our level of communication,” Divine Lord Dantai explained with a smile.

“So, it’s a Galaxy-level ferocious beast, no wonder it’s so imposing!” Ye Tian marveled.

Not long after, Ye Tian and Divine Lord Dantai arrived at the Great Continent of Ten Thousand Beasts.

The Great Continent of Ten Thousand Beasts, the Mountain Range of Ten Thousand Beasts.

Ye Tian was brought here by Divine Lord Dantai, and soon the two of them waited there.

“Divine Lord Dantai, are we waiting for—” Ye Tian inquired curiously.

“The World of Ten Thousand Beasts isn’t entirely controlled by our Supreme Hall of Humanity; it’s merely borrowed by us for now.

Although I can send you into the Beast God Realm, it’s best to let the master of this place open the Beast God Realm,” Divine Lord Dantai explained.

“I see!” Ye Tian understood.

Suddenly, a tremendous roar was heard as a gigantic gorilla, with each step causing the earth to tremble, approached them.

The ferocious aura caused countless ferocious beasts in the area to flee in terror, even the Great God-level ferocious beasts dared not withstand such a wild presence.

Through the Xumi Eye, Ye Tian saw the gigantic gorilla from afar.

Suddenly, the enormous gorilla turned its gaze towards Ye Tian, its eyes, like stars, fixated on him.

In that moment, Ye Tian felt as if he was immobilized, unable to move his body, and even his God-level spatial talent couldn’t help him break free from this constraint.

“It’s been a while, Divine Lord Gold Ape!” Divine Lord Dantai spoke up from the side.

Swish! The restraint disappeared, and Ye Tian could move again.

Then, the gigantic gorilla vanished in an instant and reappeared before Ye Tian and Divine Lord Dantai.

At this time, the gorilla’s aura had receded, making it seem like just an ordinary, albeit huge, gorilla.

It was only then that Ye Tian noticed a person standing on the gorilla’s shoulder.

This person appeared young, with incredibly deep eyes that had a faint golden glow swirling within them.

He was dressed in clothes that bore the emblem of a golden monkey, so lifelike it seemed almost real.

Out of habit, Ye Tian used his Copy Talent to check the young man's talents, and to his astonishment, he was stunned by what he found.

Gold Ape: Yuan Tian bloodline talent: Universal-grade strength talent: God-level defense talent: God-level speed talent: Mystic-level staff technique talent: Supreme-level golden armor talent: God-level.

“He's not human!”

Ye Tian was greatly surprised.

Whether this Divine Lord Gold Ape was a ferocious beast disguising as a human, or openly living as a ferocious beast in the Beast God Realm, was a significant matter. If it was the former, a ferocious beast disguising as a human, especially one at the level of a Universal God, could cause a lot of trouble, potentially leading to massive losses for humanity.

If it was the latter, it wouldn't matter as much since everyone would know he's not human, alleviating any concerns.

With the Divine Lord Gold Ape present, Ye Tian dared not inquire Divine Lord Dantai about it, to avoid offending the Divine Lord Gold Ape.

Divine Lord Dantai and the Divine Lord Gold Ape seemed to be friends, chatting for a while.

Afterward, Divine Lord Dantai said, “Divine Lord Gold Ape, this is an Eternal Price from our Supreme Hall of Humanity, Prince of Ten Thousand Laws. The Supreme Hall of Humanity has tasked him with training in the Beast God Realm for ten years. Please assist in opening the Beast God Realm.”

“No problem!” The Divine Lord Gold Ape said, patting his chest.

He then took out a token, emitting a beam of light into the void.

Boom! A portal appeared in the void, leading into the Beast God Realm.

“Divine Lord Dantai, I have some minor matters to attend to and must leave now. This portal will remain open for one day, and I will return in ten years to reopen the Beast God Realm!”

With that, the Divine Lord Gold Ape and the gigantic gorilla vanished.

Once the Divine Lord Gold Ape had left, Ye Tian couldn’t help but ask, “Divine Lord Dantai, what is the identity of this Divine Lord Gold Ape?”

“He is not human!” Divine Lord Dantai said with a smile, “He is the contracted beast of a significant figure, someone who is a true high-ranking member of humanity! His power is only second to the seventy-eight Supreme Beings of humanity; we are but ants in their eyes! Because of that figure’s status, the Divine Lord Gold Ape is free to move about in human territories. I once lived in the Beast God Realm for a while, which is how I came to know this Divine Lord Gold Ape, and we became friends.”

Reassured by Divine Lord Dantai’s words, Ye Tian said, “Divine Lord Dantai, I’ll now enter the Beast God Realm!”

Ye Tian turned and flew into the portal, entering the Beast God Realm.

World of Ten Thousand Beasts.

As soon as Ye Tian flew in, he saw a gigantic maw.

With Ye Tian’s speed, if he didn’t change direction, he would leap right into this maw.

“I’m jumping into the mouth of a ferocious beast!” Ye Tian thought to himself.

Luckily, this ferocious beast wasn't very strong, merely an Emperor-level ferocious beast, with strength roughly equivalent to that of a seven or eight-star Emperor.

"Die!" With a thought, Ye Tian activated his spatial talent, using powerful spatial forces to shatter the Emperor-level ferocious beast's body.

With a bang, the Emperor-level ferocious beast turned into countless mists of blood, dispersing without staining Ye Tian with a single drop of blood.

"Roar!!!" Many ferocious beasts rushed over, attracted by the scent of blood.

"Let's go!" Ye Tian quickly left.

Although his goal in the Beast God Realm was to kill a hundred thousand God-level ferocious beasts, there was no need to rush.

Immediately, he used his Disguise Talent to take on the form of an Emperor-level ferocious beast and swiftly departed.

The Disguise Talent was very useful, especially in a place like the Beast God Realm.

If a human entered and killed a God-level ferocious beast, word would spread, and countless God-level ferocious beasts would swarm to attack.

But if he used the Disguise Talent to become an Emperor-level ferocious beast and killed other God-level ferocious beasts, even if word got out, the beasts here would only marvel at the terrifying power of this Emperor-level ferocious beast, without attracting a mass attack from God-level ferocious beasts.

No one knew exactly how many powerful God-level ferocious beasts were in the Beast God Realm. Acting recklessly, not to mention killing a hundred thousand God-level ferocious beasts, even surviving for ten years would be in question.

Chapter 492: The Diamond Forest, Slaying a God-level Ferocious Beast

Disguised as an Emperor-level ferocious beast, Ye Tian flew a distance and finally arrived in a huge mountain.

Upon his arrival, a gigantic python with two heads charged out, roaring furiously at Ye Tian, “Scram, this is my territory!”

Ferocious beasts have a strong sense of territory and generally do not welcome outsiders.

“An Emperor-level ferocious beast!”

Ye Tian quickly determined the opponent’s cultivation level and immediately employed his spatial talent to enact a spatial lock.

Instantly, the space around them froze.

The Emperor-level ferocious beast became like a statue, unable to move at all.

“It’s too weak!” Ye Tian then activated his hypnotism talent and put the Emperor-level ferocious beast under.

Soon, Ye Tian roughly understood the situation in the Beast God Realm from the beast’s words.

This Emperor-level ferocious beast did not know how vast the Beast God Realm truly was, only that the area it inhabited was controlled by a powerful God-level ferocious beast.

The God-level ferocious beast, known as the Diamond Giant Crocodile, was incredibly strong, commanding over a hundred God-level ferocious beasts, with countless Emperor-level ones under its rule.

Every ferocious beast had to offer tribute periodically, and failure to do so meant becoming a meal for the Diamond Giant Crocodile.

In short, the Diamond Giant Crocodile was the undisputed ruler of this region.

“Die!”

Using his Soul Spear talent, Ye Tian obliterated the soul of the two-headed snake, effectively killing it.

Immediately afterward, Ye Tian took over the snake's den, transforming it into his own residence.

He planned to stay there for a while, until he killed the Diamond Giant Crocodile, and then move on to other areas to slay other God-level ferocious beasts.

"This two-headed snake was too weak, hardly knowing anything about the Diamond Giant Crocodile's strength. If it had, things would have been easier," Ye Tian muttered.

Like human God-level martial warriors, once a ferocious beast reached the God-level, its physical strength could no longer increase. What could improve were its divine power and soul strength, but enhancing soul strength was difficult, so God-level beings relied on cultivating divine power for advancement.

Depending on the strength of the divine power, there were nine small realms from first to ninth stage within the God-level.

Initially breaking through to God-level placed one at the first stage, and reaching the ninth stage meant attaining the peak of the God-level realm.

The gap between the first and ninth stages of the God-level was immense.

Ye Tian had not fought against anyone above the God-level, making it difficult to judge his own strength, but ordinary God-level beings were no match for him.

By his estimation, even some weaker God-level ninth-stage beings were no match for him.

However, the Beast God Realm was filled with countless God-level ferocious beasts, many with incredibly powerful talents that were beyond his current capability to defeat.

Over the next few days, Ye Tian continuously ventured out to find and capture solitary Emperor-level ferocious beasts, hypnotizing them to extract information.

Before long, Ye Tian had a good grasp of the Diamond Giant Crocodile's strength.

“A God-level sixth-stage ferocious beast!”

This level of God-level ferocious beast was not very powerful. Even with slightly better talents, Ye Tian was not afraid.

As long as it wasn't a peerless Heavenly Pride who had reached the sixth stage of the God-level, Ye Tian had nothing to fear.

The Diamond Giant Crocodile, with only a hundred God-level ferocious beasts under its command, could not be so heaven-defying. If each of them were that formidable, there would be no need for Ye Tian to slay God-level ferocious beasts since it would be an impossible task.

On that day, Ye Tian headed alone to the Diamond Giant Crocodile's lair – the Diamond Forest.

The Diamond Forest covered a vast area with extremely rich yuan qi, making it the most concentrated area in the region.

Hence, the Diamond Giant Crocodile made it its lair.

As Ye Tian approached the outskirts of the Diamond Forest, he saw a large number of Emperor-level ferocious beasts.

These Emperor-level ferocious beasts were mostly underlings of the Diamond Giant Crocodile, guarding the Diamond Forest on its behalf.

Ye Tian's goal was to slay God-level ferocious beasts; killing Emperor-level ones was of little value.

Therefore, Ye Tian directly used his invisibility to sneak into the depths of the Diamond Forest.

Passing through the outskirts and entering the deeper parts of the forest, he hardly saw any Emperor-level ferocious beasts.

Suddenly, a white fox appeared in Ye Tian's line of sight.

The white fox also noticed Ye Tian. Its large pupils fixed on the invisible Ye Tian, and its eyes flashed with a killing intent.

Swoosh! The white fox swiped its claw, which was imbued with intense divine power.

Clearly, it was a God-level ferocious beast.

Ye Tian knew his top-tier invisibility talent was useless against beings above the God-level, as their divine consciousness could penetrate the invisibility.

Therefore, he deactivated his invisibility talent.

Facing the God-level ferocious beast's claw, Ye Tian remained calm and instantly teleported away.

From that single swipe, Ye Tian preliminarily judged the beast's cultivation to be around the third stage of the God-level.

He also assessed the white fox's talents, which were average at best, with its strongest being only at the Mystic level.

Such a God-level ferocious beast was not very strong and could be considered one of the weaker ones.

“Thousand Layer Realm Barrier!”

Ye Tian cast the perfected realm spatial divine ability, Thousand Layer Realm Barrier, directly targeting the white fox.

Boom! With layers upon layers of barriers coming into effect, the white fox was not only trapped but also suppressed by the tremendous pressure, rendering it immobile.

“Spatial Collapse!”

In an instant, the area where the white fox was located collapsed, its divine body shattered into countless blood mists, dissipating in the broken space.

“It’s too weak!” Ye Tian muttered.

He had barely exerted any effort, and the God-level ferocious beast was already slain by him.

At the moment of the white fox’s death, a white light flew into Ye Tian’s wrist.

A virtual screen appeared on his wrist, displaying the number “1”, signifying that Ye Tian had slain a God-level ferocious beast.

This wristwatch, given to him by Divine Lord Dantai, was a minor gadget created by the Supreme Hall of Humanity. It could detect how many God-level ferocious beasts he had slain, and cheating was nearly impossible.

To complete the task assigned by the Supreme Hall of Humanity, Ye Tian had to increase this number to 10,000, thereby earning the reward from the Supreme Hall of Humanity—the Heavenly Dao characters of wood.

The death of this white fox caught the attention of some God-level ferocious beasts deep within the Diamond Forest. One after another, God-level ferocious beasts flew over.

Ye Tian didn’t take out his saber this time, intending to rely solely on his spatial divine abilities, as he was currently disguised as a ferocious beast. Using a saber would easily expose his identity.

Swoosh, swoosh, swoosh! One after another, God-level ferocious beasts appeared, surrounding Ye Tian.

“The White Fox is dead!” a giant bear exclaimed in shock.

Suddenly, its gaze turned to Ye Tian: “You’re just an Emperor-level ferocious beast. Why are you here? Who killed the White Fox? Speak up!”

Clearly, these God-level ferocious beasts assumed another God-level ferocious beast had infiltrated and killed the white fox, not considering Ye Tian as the killer.

To these God-level ferocious beasts, an Emperor-level, no matter how strong, would hardly be able to kill a God-level ferocious beast, especially a third-stage God-level one. After all, the transition from Emperor-level to God-level involves an increase in divine body and divine power by a hundredfold!

“This fox was slain by me!” Ye Tian said with a smile.

“You...” All the God-level ferocious beasts stared at Ye Tian with a sneer, utterly disbelieving him.

“Forget it, capture him and hand him over to the boss!” the giant bear said.

As it reached out to grab Ye Tian, suddenly...

Waves of spatial divine power erupted from Ye Tian’s body, transforming into a colossal divine figure.

Swoosh! With a swift movement, Ye Tian appeared beside two God-level ferocious beasts, his giant Xumi palm grabbing them. With a gentle squeeze, the two God-level ferocious beasts shattered into countless pieces.

Puff, puff, puff! God-level ferocious beasts were effortlessly slain by Ye Tian, instilling fear in the others. They couldn’t imagine an Emperor-level ferocious beast being so powerful, slaughtering God-level ferocious beasts as if slicing through vegetables.

“Run!” the giant bear roared.

By now, none of the God-level ferocious beasts still considered Ye Tian an Emperor-level. They were filled with endless fear, knowing they would undoubtedly die if they didn’t flee. Even if all the God-level ferocious beasts joined forces, they wouldn’t be a match for Ye Tian.

The gap between them was simply too vast! However, escape was impossible for them.

“Thousand Layer Realm Barrier!”

Thousands of layers of barriers enveloped the area, each layer stacking upon the next, trapping all the God-level ferocious beasts within the divine ability of Thousand Layer Realm Barrier, making it impossible for them to break free.

In the blink of an eye, most of the dozens of God-level ferocious beasts that had arrived were dead, leaving only about ten.

Just then, a roar came from the depths of the Diamond Forest.

“Who dares cause trouble in the territory of the Diamond Giant Crocodile?”

Boom! The sky and earth changed color, and the void trembled.

A silver ancient giant crocodile, its massive body resembling a small mountain range, flew over. It was the master of the Diamond Forest—the Diamond Giant Crocodile! Following behind it were about fifty other God-level ferocious beasts.

“The boss is out, we might have a chance to survive!”

The remaining God-level ferocious beasts rejoiced.

Unfortunately, before the Diamond Giant Crocodile could arrive, Ye Tian swiftly killed the remaining God-level ferocious beasts.

In a blink of an eye, the Diamond Giant Crocodile arrived.

At that moment, the Diamond Giant Crocodile stared at Ye Tian with immense rage, its killing intent darkening the skies.

It despised Ye Tian immensely! The God-level ferocious beasts Ye Tian had just killed were almost half of its subordinates.

“You’re dead!” the Diamond Giant Crocodile roared.

#### Chapter 493: Sweeping Through Dozens of Territories

The Diamond Giant Crocodile propelled its massive tail forward, combining its formidable divine power with its tail to form a silver spear that it viciously thrust towards Ye Tian.

“Ah, to use its own tail as a spear and to execute a spearmanship technique with it!” Ye Tian was quite surprised.

Through the use of his talent-copying ability, he learned that the Diamond Giant Crocodile possessed a spearmanship talent.

The crocodile’s spearmanship talent was of the Moonlight grade, which was quite impressive, considering that many God level beasts didn’t even have talents that combined with their strength talents.

In comparison, the Diamond Giant Crocodile was considered very powerful even among sixth-tier God level beasts.

Unfortunately for the Diamond Giant Crocodile, it encountered Ye Tian! Ye Tian was an Eternal Child of the Universe, having cultivated the Supreme Divine Canon of humanity, and his physical body was in no way inferior to the Diamond Giant Crocodile’s.

Moreover, Ye Tian possessed a God-level spatial talent and a majorly accomplished spatial divine ability.

“Xumi Palm!”

Ye Tian, in the state of the Spatial Divine Form divine ability, launched a palm strike towards the crocodile’s tail spear.

Boom! The void trembled, and spatial rifts spread out continuously.

Ye Tian remained unmoved, while the Diamond Giant Crocodile’s tail was sent flying back.

“Ah!!!”

The Diamond Giant Crocodile screamed in pain, its tail covered in dense cracks, from which copious amounts of divine blood gushed out.

It was wounded, and severely so.

“Impossible, I have divine power protecting my body, and I also possess a Mystic-grade defensive talent, how could I be injured by an emperor-level beast?”

The Diamond Giant Crocodile was stunned, unable to believe what had just happened.

It wasn’t that it hadn’t seen emperor-level beasts with extraordinary talents before.

But none of them could compare to Ye Tian, who, in its eyes, seemed not at all like an emperor-level beast, but more like a ninth-tier God level beast.

“Phantom Gold Thread Divine Ability!”

With a wave of his hand, Ye Tian surrounded the Diamond Giant Crocodile with countless Phantom Gold Threads.

With a thought, the Phantom Gold Threads sliced towards the Diamond Giant Crocodile.

“This is a legendary divine ability!”

The Diamond Giant Crocodile finally recognized it.

In the Beast God Realm, divine abilities were extremely rare, as the realm was largely isolated from the outside world.

And the strongest in the Beast God Realm were only ninth-tier God level beasts, who were incapable of creating divine abilities.

The divine abilities that were passed down in the Beast God Realm were brought in by some of the stronger beasts from the outside world, long before humanity had taken over the Beast Domain, and had been passed down through generations.

However, the Diamond Giant Crocodile had almost no background, and naturally, it was unable to cultivate divine abilities.

“Defensive talent!”

“Mystic Technique, Diamond Body Protection!”

The Diamond Giant Crocodile exerted its full defensive capabilities to resist Ye Tian’s Phantom Gold Thread Divine Ability.

However, as the Phantom Gold Threads sliced down, the Diamond Giant Crocodile’s diamond protective barrier gradually shattered.

Subsequently, the Diamond Giant Crocodile’s talent was broken through, and its thick scales began to crack and break in large numbers.

“Not good!”

The Diamond Giant Crocodile was filled with fear.

At this moment, its body was wrapped in a large number of Phantom Gold Threads, making it nearly impossible to move, and its defenses were almost completely breached, leaving it virtually defenseless against the Phantom Gold Threads.

“Not good, the boss has been defeated, let’s flee!”

Seeing that the situation was dire, the Diamond Giant Crocodile’s subordinates naturally abandoned their leader and prepared to flee.

“But you are all marked, I can’t let you escape!”

With a flick of his finger, Ye Tian sent Phantom Gold Threads through space, piercing through the heads of God level beasts far away, shredding their brains.

One after another, the God level beasts fell from the sky, turning into corpses.

In an instant, all of these God level beasts were slain, leaving not a single one alive.

At this moment, he glanced at the wristwatch on his left wrist, which displayed the number 103. This indicated that, in such a short period of time, he had slain 103 God level beasts.

“Please, spare me!”

The Diamond Giant Crocodile’s aura was already very weak, suspended in mid-air, bound by numerous Phantom Gold Threads, daring not to make any moves.

Seeing that Ye Tian did not immediately kill it, it harbored a glimmer of hope and pleaded with Ye Tian.

“If you want to live, tell me about the situation nearby, such as which powerful God-level beasts are in the vicinity!” Ye Tian interrogated.

“If I tell you, will you not kill me?” The Diamond Giant Crocodile asked eagerly.

“It depends on my mood. But if you don’t speak, you’ll die immediately!” Ye Tian exuded a murderous aura, even controlling the Phantom Gold Threads to continuously slice the Diamond Giant Crocodile’s body.

At this moment, the Phantom Gold Threads had already entered the Diamond Giant Crocodile’s body, and their sharp essence was cutting through its flesh.

Under severe pain, the Diamond Giant Crocodile hastily said, “I’ll speak!”

Immediately after, the Diamond Giant Crocodile relayed everything it knew.

As a sixth-tier God level beast with considerable strength and the overlord of a region, the Diamond Giant Crocodile naturally knew a lot.

According to the Diamond Giant Crocodile, the Beast God Realm was divided into thousands of beast domains, each of which was further divided into thousands of territories.

The Diamond Giant Crocodile occupied one of these territories, which was located in the Tyrannosaurus Domain.

The lord of the Tyrannosaurus Domain was a ninth-tier God level beast, a Tyrannosaurus. The Tyrannosaurus wasn’t a true dragon but a sub-dragon, albeit a very formidable one among them.

After understanding the general situation, Ye Tian activated his Phantom Gold Thread Divine Ability.

Rip! The Diamond Giant Crocodile was sliced into countless pieces by the Phantom Gold Threads, falling dead on the spot.

The Diamond Giant Crocodile had no idea that Ye Tian was not a beast but a human.

If it were another beast, it might not have killed the Diamond Giant Crocodile but rather subjugated it as a subordinate.

Unfortunately, Ye Tian was only in the Beast God Realm for training and would leave after ten years, not needing any subordinates.

Thus, the Diamond Giant Crocodile's fate was sealed.

"Ha!" Ye Tian glanced at his wristwatch, murmuring to himself.

Although he was far from slaying 100,000 God level beasts, this was undoubtedly a good start.

Moreover, according to the Diamond Giant Crocodile, the Tyrannosaurus Domain definitely had more than 100,000 God level beasts.

This meant that Ye Tian could complete his mission just by sweeping through the Tyrannosaurus Domain.

"Let's start with another territory, beginning with the weaker ones, and sweep through them one by one," Ye Tian planned.

In the following days, many territories in this region suffered misfortune.

Due to the unfavorable geographical location of this region, the lords of the God level beasts here were mostly fifth or sixth-tier God level beasts.

These God level beasts were no match for Ye Tian, unable to escape once they encountered him.

In just over ten days, the God level beasts in dozens of territories had been slaughtered by Ye Tian.

"Got it!" Ye Tian looked at the number on his wristwatch, smiling with satisfaction.

At this rate, reaching his goal of 100,000 slain God level beasts wouldn't be difficult.

However, he was well aware that his actions must have attracted the attention of the more powerful God level beasts.

For example, the lord of the Tyrannosaurus Domain, the Tyrannosaurus God.

In the Beast God Realm, within the Tyrannosaurus Domain, atop Tyrannosaurus Mountain, lay a massive Tyrannosaurus. It was absorbing the yuan qi between heaven and earth, refining its divine power.

Although it had reached the ninth-tier God level, it was restricted by the rules of the Beast God Realm and couldn't ascend to the True God level.

Nevertheless, it continued to cultivate day after day, hoping to one day break the rules and ascend to the True God level.

Suddenly, a leopard-like God level beast burst into Tyrannosaurus Mountain.

"Lord Tyrannosaurus God, something terrible has happened!" the God level beast shouted.

The Tyrannosaurus God opened its eyes, and its body moved, shaking the heavens and the earth.

Its sharp eyes stared at the newly arrived God level beast, slightly displeased, "Leopard God, what has happened that you disturb my cultivation?"

Leopard God hurriedly explained in panic, "Lord Tyrannosaurus God, just now, dozens of territories' emperor-level beasts came to report that all the God level beasts in their territories have been killed!"

"What? Dozens of territories' God level beasts have been killed? Who did this?" The Tyrannosaurus God was enraged. Although it didn't care much for the lives of those God level beasts, the death of so many God level beasts at once was a direct affront to its authority. If it did nothing, where would its dignity lie?

"Lord Tyrannosaurus God, according to those emperor-level beasts, the perpetrator was an emperor-level beast. But how could an emperor-level beast kill so many God level beasts? My

subordinates speculate that it might be a powerful God level beast disguised as an emperor-level beast, attacking those lords!” Leopard God speculated.

“Leopard God, go immediately with some seventh and eighth-tier God level beasts to investigate this matter. Confirm whether it’s true and report back to me immediately if it is!” The Tyrannosaurus God commanded.

“Yes, Lord Tyrannosaurus God!” Leopard God took the command and left.

Soon after, Leopard God led a dozen seventh and eighth-tier God level beasts to the territories where the God level beasts had been slaughtered.

After a short half-day investigation, Leopard God confirmed the truth of the matter.

The God level beasts in these territories had indeed been slaughtered, and not a single God level beast survived.

This was no small matter; those were thousands of God level beasts.

These God level beasts could all be considered under the Tyrannosaurus God’s command, and the loss of thousands of God level beasts weakened the Tyrannosaurus God’s power somewhat.

Immediately, Leopard God returned to Tyrannosaurus Mountain to report the situation to the Tyrannosaurus God.

“Lord Tyrannosaurus God, I have investigated. Thousands of God level beasts in dozens of territories have been slaughtered, with not a single survivor. As for the perpetrator, my subordinates have yet to find any leads,” Leopard God reported.

The Tyrannosaurus God frowned. The identity of the enemy was unclear, but anyone capable of killing thousands of God level beasts and letting none escape had extraordinary strength.

If the perpetrator was hiding somewhere in the Tyrannosaurus Domain, it would be somewhat difficult to find them.

“Leopard God, summon Elder White from the White Turtle clan. Tell him it’s my order!” The Tyrannosaurus God said.

“Yes!” Leopard God took the command and left.

#### Chapter 494: The Tyrannosaurus God Takes Action Personally

In the Tyrannosaurus Domain, there was a lake known as White Turtle Lake, where a tribe called the Golden Pattern White Turtles resided. These turtles were a type of ferocious beast, completely white but adorned with golden patterns across their bodies. This species was known for their divination talents, with most Golden Pattern White Turtles possessing a divination gift.

One day, the Leopard God arrived at White Turtle Lake. Standing by the lake, he loudly called out, “Elder White, I am the Leopard God, come out!”

After shouting several times, his voice reached deep into White Turtle Lake. With a splash, the lake’s waters churned as a massive white turtle floated up from the depths, its enormous body resembling an island. This giant turtle was Elder White, whom the Leopard God had called for, a God level beast of the ninth tier.

However, its combat talent was not strong, and its power paled in comparison to the Tyrannosaurus God. Thus, it could only serve as a minor territory lord under the Tyrannosaurus God.

“What do you want, Leopard God?” Elder White asked coldly.

Although he didn’t have a favorable impression of the Leopard God, he knew this ferocious beast was troublesome. Ignoring him would mean no peace, so he decided to show up.

“Elder White, the Tyrannosaurus God has summoned you,” said the Leopard God.

“What does the Tyrannosaurus God want?” Elder White asked, curious.

“You’ll know once you’re there. Do you think I’d dare to lie?” urged the Leopard God.

Knowing that the Leopard God, despite his cunning nature, wouldn't joke about matters involving the Tyrannosaurus God, Elder White replied, "Fine, I'll accompany you."

Elder White followed the Leopard God away from White Turtle Lake, heading towards the Tyrannosaurus Mountain. Before long, they arrived at the base of the mountain.

Upon entering Tyrannosaurus Mountain, Elder White met the Tyrannosaurus God.

"Elder White pays his respects to Lord Tyrannosaurus God!" Elder White bowed his head respectfully.

"There's a matter I need your help with," said the Tyrannosaurus God solemnly.

"Lord Tyrannosaurus God, please command me!" Elder White was ready to obey.

"Not long ago, the God level beasts of several dozen territories were all slain by an unknown beast. The reports from those Emperor-level beasts claimed it was an Emperor-level beast's doing, but I find that hard to believe. Moreover, we're currently unable to track down this beast, so I need you, Elder White, to use your divination talent to locate it," explained the Tyrannosaurus God.

Elder White was shocked by this significant event. If the perpetrator wasn't caught, countless God level beasts might die, possibly including himself and his tribe.

"Lord Tyrannosaurus God, do we have any blood or tissue from the deceased God level beasts? I need these for my divination to be more accurate and faster," Elder White quickly responded.

"Leopard God, give the materials to Elder White!" commanded the Tyrannosaurus God.

The Leopard God hastily handed over some blood from a God level beast to Elder White, who then began his divination. His shell emitted a dense white light, with complex golden patterns forming an ancient diagram in the void. As the blood entered the diagram, Elder White chanted, "Divine!"

But then, the diagram shattered, and the white light vanished.

“Elder White, what happened? Did you find anything?” asked the Tyrannosaurus God.

Elder White sighed, “Lord Tyrannosaurus God, the divination failed. I couldn’t find anything.”

“How could this be? With your cultivation and talent, even ninth-tier God level beasts can’t block your divination. Why couldn’t you find anything?” the Tyrannosaurus God was astonished.

Elder White pondered for a moment, then said, “Lord Tyrannosaurus God, there are only two possibilities. One is that the culprit possesses a treasure that can shield against my divination. The other is that the culprit is a Heavenly Pride, protected by the universe, making my divination unable to track them.”

“It can’t be a Heavenly Pride!” the Tyrannosaurus God asserted. “Only Emperor beasts can become Heavenly Prides, and once they become God level beasts, the title of Heavenly Pride vanishes. How could a Heavenly Pride kill so many God level beasts, including those of the sixth tier? Not even a legendary nine-star peerless Heavenly Pride has such ability!”

“Then the culprit must possess a treasure that shields against my divination,” Elder White concluded.

“Elder White, is there anything else we can do? We can’t let this situation worsen. If other domain lords find out, I’ll lose all my dignity!” the Tyrannosaurus God said.

After a long contemplation, Elder White suggested, “Lord Tyrannosaurus God, I can pay a certain price to divine which territory might face trouble next. Then, you can lead a large number of God level beasts to guard that area. If something happens, you can immediately take action and eliminate the enemy!”

“This plan is excellent!”

The Tyrannosaurus God nodded, deeming Elder White’s suggestion exceptionally good.

He immediately had Elder White begin the divination. This time, the divination’s cost was enormous, consuming a great deal of divine power and physical strength, even leading to

severe aftereffects. Moreover, Elder White would be unable to use his divination talent for some time.

As time ticked by, Elder White's aura weakened, but the white light around him grew brighter. The divination diagram in the air spun rapidly, communicating with the laws of heaven and earth.

Half an hour later, Elder White ceased his divination, and the diagram gradually faded.

"Lord Tyrannosaurus God, the divination is complete. The territory of the Dark Moon Wolf God will soon be attacked!" Elder White said weakly.

"Good, Elder White. If we catch the enemy, you will be credited as the main contributor. You won't need to submit any tributes for the next hundred years!" the Tyrannosaurus God promised.

"Thank you, Lord Tyrannosaurus God!" Elder White expressed his gratitude.

Immediately, the Tyrannosaurus God, along with 300 God level beasts, set off for the territory of the Dark Moon Wolf God. These 300 God level beasts were mostly of the seventh, eighth, and even ninth tiers.

Such a force was more than enough, even to face a powerful beast of the same tier. As for lesser creatures, bringing too many would be useless and might even alert the enemy.

This time, heading to the Dark Moon Wolf God's territory, the Tyrannosaurus God didn't even notify the Dark Moon Wolf God. Clearly, he considered the Dark Moon Wolf God expendable or even bait.

The Dark Moon Wolf God wasn't a crucial subordinate, and losing him wouldn't be a significant loss, as long as the unknown enemy was eliminated, whatever the cost.

Soon, the Tyrannosaurus God reached the outskirts of the Dark Moon Wolf God's territory and hid in a valley, concealing their presence.

After traveling for a while, Ye Tian arrived at another territory. After interrogating some beasts, he learned that the lord of this territory was a God level beast called the Dark Moon Wolf God, slightly stronger than the Diamond Giant Crocodile, being a seventh-tier God level beast.

Upon entering the Dark Moon Wolf God's territory, Ye Tian sensed an ominous malice.

"Could there be danger?" Ye Tian halted.

With his talent for sensing good and evil, he could feel the intentions of others. Now, the presence of malice indicated that God level beasts nearby harbored ill intentions towards him.

"An ambush?" Ye Tian speculated.

While unlikely, it wasn't impossible. Although Ye Tian's arrival should be unknown to other God level beasts, the universe was full of bizarre talents, and perhaps a God level beast had used a special talent to learn of his whereabouts and set up an ambush.

"It seems I must use my substitution talent. Even in danger, I can escape in time using it!" Ye Tian flew to a distant location, hid a substitute clone he had prepared, and re-entered the Dark Moon Wolf God's territory.

Of course, he could have left the area, avoiding the Dark Moon Wolf God's territory altogether. But fleeing now and possibly again later seemed less appealing than confronting the situation head-on. Even if numerous God level beasts were lying in wait, it could work in his favor.

At least, this way, he could eliminate many God level beasts and gauge the true strength of the God level beasts in the Tyrannosaurus Domain. Moreover, with his strong survival skills, even if the Tyrannosaurus God himself intervened, Ye Tian could survive using his substitution talent.

A battle where death wasn't a certainty was precisely what he wanted. The Supreme Hall of Humanity had sent him into the Beast God Realm not just to assassinate God level beasts but to engage in combat with powerful God level beasts, honing himself between life and death.

Thus, the significance of this battle was immense.

He wouldn't flee. If he did, the thought of retreat would linger in his mind, hindering his self-improvement. "No matter how many God level beasts there are... bring it on!"

Ye Tian stepped into the Dark Moon Wolf God's territory and entered the Dark Moon Mountain Range.

Upon entering, he sensed the presence of God level beasts.

"Kill!"

A massacre began!!!! One by one, God level beasts fell to Ye Tian's hands, and soon the Dark Moon Wolf God appeared.

It was a majestic silver-white giant wolf, its divine aura at the seventh tier.

Boom!!!! A moon blade flew out, aimed at Ye Tian.

Ye Tian activated his Spatial Divine Form Divine Ability, crushing the moon blade with one hand and teleporting next to the Dark Moon Wolf God, tearing it in two.

As Ye Tian slew the Dark Moon Wolf God, the entire mountain range was enveloped by a powerful aura.

"So, it really is an Emperor-level beast. I'm curious, you're just an Emperor-level beast, yet you slaughter God level beasts as if they were mere ants. Even the legendary nine-star peerless Heavenly Prides are far from your equal. What exactly are you?" the voice said, and a colossal Tyrannosaurus emerged, followed by 300 powerful God level beasts, each as strong as the Dark Moon Wolf God.

"The Tyrannosaurus God himself has come!" Ye Tian was somewhat surprised but showed no fear.

At this moment, Ye Tian was filled with an endless desire for battle!

## Chapter 495: The True Battle

The Tyrannosaurus God was highly confident in its own strength, especially since it was accompanied by 300 God-level ferocious beasts. It couldn't believe that Ye Tian could escape under these circumstances.

"Catch him!" the Tyrannosaurus God commanded.

Instantly, 300 God-level ferocious beasts charged towards Ye Tian. These weren't ordinary God-level beasts; they were all above the seventh tier of the God level.

Facing so many powerful God-level beasts at once, it was impossible for Ye Tian to say he felt no pressure.

At that moment, Ye Tian no longer concealed his strength.

He drew his saber, ready to unleash the ultimate techniques of the Saber Dao.

Currently disguised as an ape-like ferocious beast, he had a physique similar to humans, which made it feasible for him to use the Ultimate Saber Techniques. Although it might expose his capabilities, the Tyrannosaurus God couldn't be certain; at most, it would just have suspicions.

However, facing so many God-level beasts, Ye Tian activated all his defensive abilities immediately.

If his defenses weren't strong enough, even the most powerful attacks would result in being instantly killed.

Simultaneously, Ye Tian also used his spatial divine abilities, Thousand Layer Realm, and spatial confinement.

In an instant, God-level beasts were separated and trapped within the individual barriers of the Thousand Layer Realm.

Then, Ye Tian swiftly executed a strike.

"Heavenly Moon Saber!"

With a tearing sound, the saber strike instantly pierced through more than a dozen God-level beasts, shattering their life forces and causing them to fall on the spot.

However, Ye Tian's Thousand Layer Realm was also shattered by these God-level beasts in a short time.

In the blink of an eye, Ye Tian endured wave after wave of attacks from these God-level beasts.

“Kill!”

“Kill!”

“Kill!”

Ye Tian fought desperately, constantly teleporting to dodge the attacks of these God-level beasts. Although he was hit repeatedly, he still managed to maintain his vitality through talents like undying, healing, and life, among other recovery talents.

But these God-level beasts didn't have the same life-preserving abilities as Ye Tian and were killed one by one by his methods.

Gradually, the bodies of God-level beasts littered the entire mountain range.

From afar, the Tyrannosaurus God had not made a move, merely observing the battle.

As more and more of its subordinates fell, it could no longer hold back.

“What a bunch of trash!” the Tyrannosaurus God roared, and with a swipe of its claw from afar, it launched a terrifying attack.

Boom! A tremendous oppressive force descended, like a claw capable of supporting the heavens.

“Tyrannosaurus Claw!”

A massive claw descended from the sky, aiming for Ye Tian.

Ye Tian was already dealing with the attacks of other God-level beasts and had no time to dodge the massive Tyrannosaurus Claw.

With a thought, Ye Tian used the Phantom Gold Thread divine ability.

Countless Phantom Gold Threads surged towards the gigantic Tyrannosaurus Claw, but as soon as they neared it, they were shattered by its power.

The Tyrannosaurus Claw was a supreme level claw technique executed by the ninth-tier divine Tyrannosaurus God, while the Phantom Gold Thread was merely a perfected top-tier gold attribute divine ability, which couldn't even rank among Ye Tian's many techniques.

The Phantom Gold Thread divine ability was indeed very effective when slaughtering weaker God-level beasts, but it was useless against very powerful God-level beasts.

The Tyrannosaurus Claw continued its descent.

At the critical moment, Ye Tian attempted to evade the Tyrannosaurus Claw by using the Spatial Divine Form divine ability.

However, the power of the Tyrannosaurus Claw was too terrifying, and its speed was too fast.

Even though Ye Tian's Spatial Divine Form divine ability allowed him to move through space, the power of the Tyrannosaurus Claw could extend deep into space.

Thus, just as Ye Tian was about to teleport away, the Tyrannosaurus Claw tore through space and dragged him out with a claw.

Boom! Ye Tian was struck by the Tyrannosaurus Claw, sent flying backward, and the Spatial Divine Form divine ability was also broken by the Tyrannosaurus God.

This time, Ye Tian was truly injured, and the wounds were serious.

Despite possessing various healing talents, he couldn't recover in a short time.

“This Tyrannosaurus God is truly deserving of being the ruler of the Tyrannosaurus Domain; its strength is incomparable to other ninth-tier God-level beasts!” Ye Tian was deeply wary.

If it were any other ninth-tier God-level beast, he wouldn't have been concerned, but the Tyrannosaurus God's talents were too powerful. In the past, it definitely belonged to the level of Emperor-class ferocious beasts among the Heavenly Prides.

Such a level of beast, having advanced to the ninth tier of the God level, was incredibly powerful. It was very difficult to contend against this level of beast at the Emperor level.

Seeing that the Tyrannosaurus God had injured Ye Tian with a single strike, the other God-level beasts praised in admiration: “Lord Tyrannosaurus God is invincible!”

“Lord Tyrannosaurus God is invincible!”

“Lord Tyrannosaurus God is invincible!”

The Tyrannosaurus God snorted coldly, “Hmph, a bunch of trash. Don't just stand there, take action. He's already injured. Capture him alive for me!”

Only then did the other God-level beasts realize that this wasn't the time for praise. The enemy hadn't been captured yet, and the most important thing was to apprehend the foe.

If they let the enemy escape, given the Tyrannosaurus God's temper, they would definitely be in big trouble.

However, the Tyrannosaurus God had underestimated Ye Tian's injuries, thinking that Ye Tian was seriously wounded after taking its hit, when in reality, Ye Tian's injuries were only moderate.

“Heavenly Moon Saber!”

“Heavenly Moon Saber!”

Ye Tian executed one saber strike after another, with each terrifying execution of the Ultimate Saber Technique inevitably leading to the fall of a seventh or eighth-tier God-level beast.

Such frequent use of the Ultimate Saber Techniques, coupled with the energy required for healing, meant that Ye Tian’s yuan force was nearly depleted, and his physical strength was also significantly drained.

“He won’t last much longer!” a God-level beast exclaimed excitedly upon sensing Ye Tian’s extremely weak aura.

“It’s about time!” Ye Tian thought to himself.

In this battle, he had killed nearly 200 God-level beasts, about 100 of whom were subordinates of the Dark Moon Wolf deity.

Ye Tian was well aware that in his current state, he could at most kill a few more God-level beasts.

But that would be meaningless. If he miscalculated, he might even fall without a chance to use his substitution talent.

Whoosh! Ye Tian once again activated the Spatial Divine Form divine ability, weaving through obstacles and appearing before the Tyrannosaurus God.

“Tyrannosaurus God, die!” Ye Tian roared.

The Tyrannosaurus God panicked, thinking Ye Tian was about to execute a mutually destructive technique, and hastily launched a full-force attack on Ye Tian.

At that moment, Ye Tian’s lips curved into a smile as he secretly activated his substitution talent.

Buzz! Without a sound, Ye Tian's true body swapped places with a substitution clone located far away.

If it were a Great God-level expert, they might sense Ye Tian's use of the substitution talent, but the Tyrannosaurus God, being merely a God-level expert, couldn't detect the change in Ye Tian's substitution talent.

The substitution was completed instantly, and the Tyrannosaurus God's attack hit the substitution clone instead.

This substitution clone, created from the corpse of an Emperor-level beast, had no defensive capabilities...

Boom! Under the Tyrannosaurus God's strike, the clone instantly shattered into pieces, turning into a mist of blood.

Seeing the Tyrannosaurus God turn such a formidable enemy into a blood mist with one strike, the other God-level beasts cheered, "Lord Tyrannosaurus God is invincible!"

However, the Tyrannosaurus God was somewhat confused.

It thought Ye Tian was about to execute a mutually destructive technique, but with its own strike, it turned the opponent into a blood mist.

"How could his defenses be so weak?" the Tyrannosaurus God wondered.

Moreover, it was puzzled because Ye Tian had spatial divine abilities, could wield saber techniques, and possessed a saber weapon.

That saber weapon was a divine artifact-level saber, which was extremely rare in the Beast God Realm.

In the Beast God Realm, the methods of crafting divine artifacts were almost lost, with at most one or two God-level beasts knowing how to create them.

“Spatial divine abilities, gold attribute divine abilities, saber techniques, not God-level but possessing a body comparable to God-level, it feels like he’s from the outside world’s human race,” the Tyrannosaurus God mused.

Every so often, the human race would send people into the Beast God Realm.

As the ruler of the Tyrannosaurus Domain, it was naturally aware of this.

It also knew that the Beast God Realm lacked inheritance, whereas the human race had powerful inheritances, making it possible to give birth to such extraordinary Emperor-level beings.

“No, it really is an Emperor-level beast!” the Tyrannosaurus God realized after examining the blood mist, which contained the unique blood and bodily tissues of ferocious beasts, definitely not human.

“Perhaps this Emperor-level beast obtained a powerful inheritance, what a pity he’s dead, and there are no useful clues on him. If I could obtain that powerful inheritance, I might become the most powerful God-level beast in the Beast God Realm, and even have a chance to break free from the Beast God Realm!” the Tyrannosaurus God lamented.

“Collect the corpses of the God-level beasts who died in battle and bring them back!” the Tyrannosaurus God ordered.

“Yes, Lord Tyrannosaurus God!” the surviving God-level beasts responded.

In a far-off place.

Ye Tian’s body emerged from underground.

His gaze lingered on the territory of the Dark Moon Wolf deity for a moment before muttering, “Tyrannosaurus God, the next time we meet, you won’t hurt me so easily!”

Ye Tian left the area and arrived at a small mountain, where he established a temporary cave dwelling to recover from his injuries.

With a massive amount of God-level beast blood and his talent for blood absorption, Ye Tian's recovery of vitality and injuries was incredibly fast, especially with his undying and life talents, allowing him to recover from even the most severe injuries.

In the blink of an eye, a day had passed.

Using his talent for manipulating time, Ye Tian accelerated time, and his injuries were now fully healed without any aftereffects.

Moreover, Ye Tian discovered that his body seemed to have become even stronger after this battle.

Soon, he understood why.

"I had absorbed and refined too many chaotic resources before, advancing my Chaos Body Refinement to the fourth level. However, I hadn't fully absorbed and refined all the chaotic energy, with some of it hidden deep within my body.

This fierce battle, although I was seriously injured, also stimulated some of the chaotic energy, fully integrating it into my body, which made it stronger!"

Knowing the benefits of this, Ye Tian became even more eager for true battles.

#### Chapter 496: The Slug Monster, One Year

The Tyrannosaurus God probably thought he had already fallen, so he temporarily shouldn't attack God-level ferocious beasts in the Tyrannosaurus Domain.

Ye Tian prepared to leave the Tyrannosaurus Domain and head to other domains within the Beast God Realm.

After all, the Beast God Realm was a world of ferocious beasts, and the domains did not share information with each other.

For instance, what happened in the Tyrannosaurus Domain was unknown to others.

Thus, if Ye Tian were to enter another domain and start attacking some God-level ferocious beasts, there would initially be no issues.

Of course, such actions couldn't be repeated too many times. Once several domains experienced such incidents, the news would inevitably spread.

By then, Ye Tian's existence could no longer be concealed, and even the Tyrannosaurus God would know that Ye Tian had not perished.

"Let's set off!"

Ye Tian, while invisible, headed to a domain adjacent to the Tyrannosaurus Domain.

Based on his understanding, this domain was called the Golden Eagle Domain.

The master of the Golden Eagle Domain was a God-level ninth-tier golden eagle, whose strength was comparable to that of the Tyrannosaurus Beast.

In terms of speed, this golden eagle was even faster, making it a tremendously terrifying lord of a ferocious beast domain.

Even the Tyrannosaurus God did not dare to provoke this golden eagle.

After a journey, Ye Tian crossed the Tyrannosaurus Domain and entered the Golden Eagle Domain.

Upon entering the Golden Eagle Domain, Ye Tian mimicked his actions in the Tyrannosaurus Domain and began attacking the God-level ferocious beasts of various territories.

In just over ten days, thousands of God-level ferocious beasts perished at the hands of Ye Tian.

By then, the Golden Eagle God of the Golden Eagle Domain was naturally alarmed, but Ye Tian did not linger in the Golden Eagle Domain. Instead, he left for another major domain.

In this manner, Ye Tian would massacre a large number of God-level ferocious beasts in a domain every once in a while.

Over time, Ye Tian visited multiple domains, and tens of thousands of God-level ferocious beasts were killed.

For a while, the entire Beast God Realm was in a state of panic.

Tyrannosaurus Domain.

The Tyrannosaurus God had thought Ye Tian was already dead and was thus peacefully cultivating. However, several major domains in the Beast God Realm started experiencing disturbances.

As a domain lord, it quickly became aware of the situation.

“Golden Eagle Domain, Fire Charm Domain, Giant Serpent Domain... Many God-level ferocious beasts in these domains have been assassinated by an unknown emperor-level ferocious beast.”

The Tyrannosaurus Beast was highly puzzled because the situation was too similar to what had happened in its Tyrannosaurus Domain.

Similarly, a large number of God-level ferocious beasts were assassinated, and it was also done by an emperor-level ferocious beast.

To say it was not the same emperor-level ferocious beast would be too coincidental.

But if it was the same emperor-level ferocious beast, that would be incorrect too, because it had witnessed the death of that emperor-level ferocious beast by its own hands.

“Could it be that the emperor-level ferocious beast didn’t die?”

The Tyrannosaurus God suddenly entertained this thought.

It had always found Ye Tian's death to be very strange, easily turned into a mist of blood by its attack.

No matter how it looked, it didn't seem right, especially considering the defensive power Ye Tian had shown at the time, which should not have allowed him to be so easily vaporized.

Moreover, when Ye Tian suddenly charged at it, it thought Ye Tian was about to use a mutually assured destruction tactic, but it turned out to be a death wish.

"It's that emperor-level ferocious beast didn't die at all, then everything makes sense! It's just that I don't know how that emperor-level ferocious beast managed to escape."

The more the Tyrannosaurus God thought about it, the more convinced it became that Ye Tian had not died, and it was immediately enraged.

A mighty God-level ninth-tier ferocious beast domain lord had been played by an emperor-level ferocious beast.

"That emperor-level ferocious beast must die!"

The roar of the Tyrannosaurus God spread throughout the surroundings, causing countless ferocious beasts to shiver in fear.

Before long.

The lords of many major domains in the Beast God Realm gathered together.

The Tyrannosaurus God, Golden Eagle God, Fire Charm God, Giant Serpent God... These domain lords met to discuss the emperor-level ferocious beast that had attacked their domains.

At the meeting.

The Golden Eagle God spoke up: “Everyone, we’ve gathered here for the same purpose, which is to find that emperor-level ferocious beast and kill it at all costs. Otherwise, if we let it continue, we might not have many God-level ferocious beasts left under our command.

To be honest, I have never seen that emperor-level ferocious beast. I wonder if anyone here has seen or knows its origins.”

The other domain lords shook their heads one after another. They had not seen Ye Tian either because his speed was too fast, and he possessed talents for disguise, invisibility, and space, making it easy to avoid other God-level ferocious beasts.

Then, the Tyrannosaurus God spoke up: “I think I might have seen this emperor-level ferocious beast, but I’m not entirely sure if it’s the one you all are talking about.”

Saying so, the Tyrannosaurus God used its divine power to conjure the appearance of the monkey-like ferocious beast Ye Tian had disguised himself as.

“This ferocious beast had previously assassinated a large number of God-level ferocious beasts in my Tyrannosaurus Domain. According to the timeline, it was even before the incidents in your domains.

I had the most skilled diviner among my subordinates, Elder White, take action at a certain cost to divine that a territory would be in trouble.

So, I personally laid in ambush and eventually surrounded that emperor-level ferocious beast!”

“That emperor-level ferocious beast was extremely powerful, possessing not only spatial talents but also spatial divine abilities, metal system divine abilities, saber skills, and even a divine weapon-level saber.

Its strength was even greater than that of ordinary God-level ninth-tier ferocious beasts, and even I could not kill it in one strike.

But ultimately, he charged at me, and I turned him into a mist of blood with a single strike. I found his death to be very strange at the time. Subsequently, incidents occurred in your ferocious beast domains, and I suspect that this emperor-level ferocious beast did not die!”

After the Tyrannosaurus God finished speaking.

The expressions of the Golden Eagle God and other domain lords changed drastically. If the emperor-level ferocious beast attacking the God-level ferocious beasts in their domains was the same one that caused trouble in the Tyrannosaurus Domain, then this emperor-level ferocious beast was too terrifying.

With just the cultivation of an emperor-level, it was comparable to a mighty God-level ninth-tier ferocious beast. Once it became a God-level ferocious beast, its combat power would be overwhelming, easily annihilating them. Moreover, this emperor-level ferocious beast was extremely difficult to kill, which was very alarming.

“We must find the opponent!” The Golden Eagle God said with utmost gravity.

However, after a long discussion, they did not come up with a good solution.

Although Elder White of the Tyrannosaurus Domain could use divination talent to predict which territory would be in trouble, his divination talent had been unusable since he forcefully divined last time.

This plan had to be abandoned! “Let’s ask the Slug Monster to take action. That fellow’s talent could be helpful to us.”

The Giant Serpent God suddenly suggested.

Upon hearing the name Slug Monster, many domain lords immediately nodded in agreement.

The Slug Monster’s strength was not very formidable, even less so than the domain lords present, but its ability to preserve its own life was extremely strong, and it also possessed a very peculiar talent.

The Splitting Talent! The Slug Monster could split its massive body into countless little slugs, which, despite their lack of strength, could transmit information.

No matter where they were, these little slugs could promptly convey information, making them excellent assistants for gathering intelligence or spying.

Moreover, the little slugs could also transport the main body over.

Once the Slug Monster took action, it could split into a large number of little slugs, placing one in each territory.

If the emperor-level ferocious beast struck and killed a God-level ferocious beast in a certain territory, then the little slug in that territory could promptly transport the main body over.

The domain lords present could enter the Slug Monster's main body and be transported together, thus completely surrounding that emperor-level ferocious beast.

Of course, the Slug Monster would naturally not easily agree to such a plan, because once it agreed, there would be no guarantee for its life safety. If any domain lord wished to harm it, they could easily kill it from within its body.

To persuade the Slug Monster, each domain lord would not only have to swear not to harm the Slug Monster, but it was estimated that they would also have to pay a huge price.

"Then let's invite the Slug Ancestor. That emperor-level ferocious beast is too peculiar; an emperor-level is comparable to a ninth-tier God. Currently, we can still deal with him, but if he becomes a God-level ferocious beast, none of us will be a match.

With his method of slaughtering everything, he will probably target us."

The Tyrannosaurus God said.

"Mm, then let's ask the Slug Monster to take action!" The other domain lords unanimously agreed.

Immediately, they contacted the Slug Monster.

After some negotiation and discussion, they paid some resources and two divine abilities as a price to persuade the Slug Monster.

In this way, the Slug Monster continuously split into many little slugs, dispersing them into the territories of various domains.

Of course.

They also contacted the domain lords of other domains, asking them to join the plan, as the emperor-level ferocious beast was most likely to attack new domains.

Ye Tian was unaware that the entire Beast God Realm was in a state of panic, nor did he know that these domain lords were making all-out efforts to deal with him.

He was currently in seclusion, absorbing chaos crystals for cultivation.

By now, he had slain 60,090 God-level ferocious beasts, not far from completing his mission.

But Ye Tian also knew he had truly stirred up a hornet's nest, definitely provoking the fury of the mighty God-level ferocious beasts in the entire Beast God Realm.

Therefore, he planned to lay low for a while and cultivate properly.

Time passed bit by bit.

Using his talent for time, Ye Tian cultivated for an entire year, making some progress with the Chaos Body Refining Technique, significantly increasing his strength compared to a year ago.

One day, Ye Tian ended his seclusion.

"Continue to attack some territories!" Ye Tian decided.

In a certain territory within the Giant Serpent Domain.

Ye Tian did not feel any danger and charged in, instantly killing several God-level ferocious beasts.

But at that moment, a little slug in the territory, upon learning that some God-level ferocious beasts were continually falling, immediately transmitted itself through the main body.

Golden Eagle Cliff.

This was the lair of the Golden Eagle God in the Golden Eagle Domain. The Slug Monster and other domain lords were all here.

At this time, they had been waiting for a year.

“All domain lords, that emperor-level ferocious beast has appeared. It is currently in the Qingwanglin territory of the Giant Serpent Domain, killing God-level ferocious beasts. I will take you there now!”

The Slug Monster’s massive white body opened a slit, allowing the other domain lords to enter.

“Hahaha, finally, the wait is over!”

The Golden Eagle God and the Tyrannosaurus God and other domain lords breathed a sigh of relief.

They were indeed becoming impatient with the wait, almost ready to give up several times.

Fortunately, now, their wait was rewarded! Thus, they entered the Slug Monster’s body, allowing it to transport them there.

#### Chapter 497: The Domain Lords’ Dilemma

In the Giant Serpent Domain, a small slug’s body began to expand continuously, growing larger and larger until it resembled a small mountain range.

The true form of the Slug Monster appeared.

At that moment, the body of the Slug Monster split open, and domain lords such as the Tyrannosaurus God, the Golden Eagle God, and the Giant Serpent God emerged one after another from its body.

In the distance, Ye Tian, who had just slain several dozen God-level ferocious beasts and was preparing to kill other God-level ferocious beasts, suddenly felt a strong malice and danger.

This malice was even far greater than the previous time when he was besieged by the Tyrannosaurus God.

“This is bad!”

Ye Tian instantly used the Spatial Divine Form Divine Ability and escaped into the depths of space, fleeing towards the distance.

Just as Ye Tian had escaped, those domain lords arrived.

“Chase him!”

The Golden Eagle God said to the other domain lords as he looked in the direction of Ye Tian’s escape.

Whoosh! The domain lords chased after him.

However, they quickly realized they had lost track of Ye Tian. They were all God-level ninth-tier ferocious beasts with a very large area covered by their divine consciousness, enough to envelop a whole territory.

Despite this, they still couldn’t find Ye Tian.

“What’s going on?”

The domain lords were very puzzled and confused.

Their plan was foolproof and should have captured Ye Tian, but why had he suddenly disappeared? In another territory not far away, deep underground, a pangolin was burrowing through the ground.

This pangolin was Ye Tian in disguise.

Feeling the danger and strong malice, Ye Tian immediately used the Spatial Divine Form Divine Ability to escape.

However, he was also very aware of how powerful the divine consciousness of those God-level ninth-tier ferocious beast domain lords was. With their diverse talents, it wouldn't be difficult to penetrate the depths of space where he was hiding.

If he tried to use spatial divine abilities to escape in time, it would be easy to be interrupted and surrounded.

In that case, he would only be able to use his death substitution talent to escape.

However, the death substitution talent couldn't be used continuously; it had a time limit. If the enemy knew he hadn't died and thus searched for his true body, that would be dangerous.

The death substitution talent should be used only in the most critical moments.

Thus, he timely disguised himself as a pangolin and burrowed underground.

Just now, the divine consciousness of those domain lords had also probed underground, but they didn't know that this pangolin was him.

Therefore, Ye Tian successfully avoided them.

At this moment, Ye Tian continued to burrow underground, quickly leaving the area.

Before long, he arrived in the Golden Eagle Domain.

In a certain territory of the Golden Eagle Domain, Ye Tian took action against the God-level ferocious beasts of a territory, but after slaying only a dozen God-level ferocious beasts, a strong malice and danger descended upon him again.

With no other choice, Ye Tian had to resort to the same trick and disguised himself as a burrowing beast, tunneling through the ground.

Nearly being surrounded twice in a row, and in two different ferocious beast domains, was too much to be a coincidence.

“Those ferocious beast domain lords must have a way to arrive at any territory instantly. Once I take action in a certain territory, these ferocious beast domain lords can arrive in time.

This indicates that there is a kind of ferocious beast that timely informs these domain lords.”

Ye Tian deduced.

This time, he didn’t plan to attack God-level ferocious beasts but instead wanted to investigate the situation.

Thus, Ye Tian randomly entered a territory.

He disguised himself as an ordinary giant wolf ferocious beast, wandering around the territory, continuously activating his talent for copying to observe the surroundings.

In this manner, an hour passed.

Suddenly, the talent information of a ferocious beast appeared in Ye Tian’s eyes.

Type: Slug Split Body

Bloodline Talent: Dawn-Level

Defense Talent: Pseudo-Mystic 60%

Speed Talent: Pseudo-Mystic 70%

Strength Talent: Mystic-Level

Splitting Talent: Mystic-Level

Healing Talent: God-Level

Treatment Talent: Mystic-Level

“This is...”

Upon seeing the talents of this slug, Ye Tian realized something because under his divine consciousness coverage, this small slug at most possessed emperor-level cultivation.

However, apart from defense and speed talents, the other talents were extraordinary, such as God-level healing talent, mystic-level treatment talent, and splitting talent.

This splitting talent especially caught Ye Tian’s attention.

“The copying talent indicates that this slug is a split body, meaning it’s not the original body. And it possesses splitting talent; could it be that this splitting talent can split into a large number of split bodies?”

Ye Tian suddenly understood why he had been discovered twice in a row, but he still needed to verify it.

Thus, Ye Tian first copied the slug’s talents one by one, then left the territory for another one.

Before long, Ye Tian found another slug split body in a different territory.

Without a doubt, these slug split bodies all belonged to the same slug, which used its splitting talent to create numerous small slugs, scattered across various territories.

Whenever Ye Tian took action in a territory, that slug would inform the ferocious beast domain lords, who would then instantly arrive.

“Slug, if one didn’t know your talents, you’d seem enigmatic. But knowing your talents, you’re doomed!”

In a territory, the Slug Monster’s split body was resting on a rock when suddenly an attack descended.

Instantly, the small slug was slain! At the Golden Eagle Cliff, the Slug Monster’s expression slightly changed: “One of my split bodies died?”

It didn’t pay much attention, as these split bodies were relatively weak, and any encounter with a powerful emperor-level ferocious beast could lead to their demise. And those emperor-level ferocious beasts didn’t recognize its split bodies, so it was normal for them to kill them.

It had too many split bodies, so losing one or two didn’t matter much.

But soon, the second split body fell.

Then the third, the fourth, the fifth! The speed at which these split bodies were falling was too fast; this was not normal.

“Golden Eagle God, Tyrannosaurus God, Giant Serpent God... something’s wrong. My split bodies are being killed one by one. It can’t be such a coincidence that they all encountered danger. It’s very likely that they were discovered by that emperor-level ferocious beast, and the enemy is searching for my split bodies.” The Slug Monster panicked.

“Where did your most recently fallen split bodies reside? There should still be living split bodies in the nearby territories. Take us to those territories, and we might just be able to catch the perpetrator by chance.” The Golden Eagle God urged.

“Alright!” The Slug Monster nodded.

But by the time they got there, Ye Tian had long since left the vicinity of those territories.

Knowing that every territory had Slug split bodies, Ye Tian wouldn’t possibly kill the Slug split bodies one by one next to each territory.

After killing a Slug split body, he immediately went to a territory far away to find another Slug split body.

With the speed covered by Ye Tian’s copying talent, he could kill at least ten or more Slug split bodies a day, and 300 in a month.

Each Slug split body contained a strand of the Slug Monster’s soul. If too many split bodies fell, the Slug Monster’s original body would suffer soul damage.

Thus, this splitting talent was actually quite mediocre. Once a large number of split bodies were created, not only would the original body become weaker, but the soul would also be damaged if the split bodies fell.

Of course, this talent was still useful under certain specific circumstances.

In the blink of an eye, ten days passed. The Slug Monster and the Golden Eagle God had looked for Ye Tian many times but failed each time.

At this moment, the Slug Monster’s aura was very weak. It had lost too many split bodies, and its soul was injured.

If this continued, it would eventually fall.

“Fellows, I’ll return the benefits you promised me. I’m withdrawing from this plan. I’m of no use to you now. If this continues and all my split bodies die, my original body won’t survive either!”

The Slug Monster said helplessly.

The Golden Eagle God also knew that the Slug Monster was being targeted and wasn't of much use anymore, so it agreed to the Slug Monster's withdrawal.

Then, the Slug Monster deactivated its splitting talent, and all the split bodies returned to the original body one by one.

After that, the Slug Monster left the Golden Eagle Cliff.

"Golden Eagle God, I'm leaving too!"

The Giant Serpent God also took his leave.

The Tyrannosaurus God and the other domain lords left one after another. With the plan failing, there was no point in gathering here.

After all the domain lords had left, the Golden Eagle God issued an order.

It sent out a message that if any God-level ferocious beasts were willing to leave their territories, they could come to this area for protection.

This was the only solution the Golden Eagle God had! After the Tyrannosaurus God and other domain lords returned, they also chose the same method, allowing God-level ferocious beasts to seek protection in the center of their domains if they wished.

But as a result, those territories could only be managed by emperor-level ferocious beasts.

In the following days, Ye Tian rarely found God-level ferocious beasts in the territories. After interrogating some emperor-level ferocious beasts, he learned that most of the God-level ferocious beasts had sought protection with their domain lords.

That meant, if Ye Tian wanted to slaughter a large number of God-level ferocious beasts, he would have to directly confront a domain lord.

One day, Ye Tian arrived near Tyrannosaurus Mountain.

At that time, the area around Tyrannosaurus Mountain was filled with a large number of God-level ferocious beasts, which were scattered all around, establishing their nests.

At first glance, this place seemed to have become a kingdom of ferocious beasts.

Boom!!! Ye Tian attacked a nest of God-level ferocious beasts, turning all the God-level ferocious beasts and the nest inside into countless fragments.

Then, Ye Tian stepped towards Tyrannosaurus Mountain, blasting away the God-level ferocious beasts along the way.

“The emperor-level ferocious beast has appeared!”

The God-level ferocious beasts started to panic.

Suddenly, three God-level ninth-tier ferocious beasts blocked Ye Tian’s path. Their strength was not inferior to Ye Tian’s, but they were no match for him; however, stopping Ye Tian was not a problem.

Thunderous clashes!!! A fierce battle ensued! Atop Tyrannosaurus Mountain, the Tyrannosaurus God, upon learning of Ye Tian’s arrival, immediately flew over.

“It’s really you! you actually didn’t die!” The Tyrannosaurus God was furious.

“Of course, I didn’t die. Someone of your caliber can’t kill me!” Ye Tian confidently declared.

“Then I’ll kill you once more!”

The Tyrannosaurus God angrily made a move, unleashing its supreme claw technique. The terrifying power made the other God-level ferocious beasts retreat, not daring to participate in such a grand battle.

“To the death!”

Ye Tian fought with all his might against the Tyrannosaurus God, disregarding his injuries, seeking only an ultimate battle.

Boom, boom, boom!!! After fighting for a while, Ye Tian, severely injured, finally couldn't withstand it any longer.

“Death substitution talent!”

Ye Tian's true body swapped places with a substitute, instantly leaving the scene.

When the Tyrannosaurus God easily turned Ye Tian's substitute into a mist of blood with one swipe, it immediately knew Ye Tian had escaped again.

“Damn it!!!” The Tyrannosaurus God roared in anger.

But it couldn't find Ye Tian and could only roar a few times in this place.

#### Chapter 498: Completion of the Fourth Layer of the Chaos Body Refining Technique

At a distant location, Ye Tian appeared within an underground cave dwelling. He had successfully utilized his death substitution talent, allowing his original body to instantly return to this place.

“Although I still can't defeat the Tyrannosaurus God, I managed to hold on for a bit longer this time,” Ye Tian muttered to himself.

This time, his attempt to attack the Tyrannosaurus God was merely for the sake of honing his own skills and incidentally killing some God-level ferocious beasts.

He planned to attack the Tyrannosaurus God periodically, continuously honing his skills while also cultivating the Chaos Body Refining Technique, striving to reach the peak of the fourth layer within the time he had in the Beast God Realm, thus significantly enhancing his combat strength to the second tier of an Eternal Child of the Universe.

If he could advance to the second tier of an Eternal Child of the Universe, Ye Tian felt that he should be able to defeat the Tyrannosaurus God.

“First, I need to recover from my injuries!” Ye Tian silently healed himself, and after a few days, his injuries had recovered.

Then, Ye Tian took out a Chaos Crystal, activated his Time Talent, and began to cultivate the Chaos Body Refining Technique.

Before he knew it, a year had passed.

On this day, Ye Tian once again arrived at Tyrannosaurus Mountain.

As soon as he entered the region, Ye Tian saw a God-level ferocious beast and immediately killed it.

Humans and ferocious beasts were natural enemies unless a contract was signed to make the ferocious beast a pet. Otherwise, any ferocious beast was an enemy of humanity.

Being merciful to an enemy was cruelty to oneself.

The reason humans could stand among the great races of the universe was not because of mercy. Ye Tian had read about the rise of humanity in the Supreme Hall of Humanity.

Before the rise of humanity, the ferocious beast clan had slaughtered countless humans, and many even kept humans as livestock.

Since entering the Beast God Realm, Ye Tian had never shown pity towards ferocious beasts.

“Kill! Kill! Kill!” Ye Tian’s movements were swift, and one after another, the God-level ferocious beasts fell at his hands.

“Courting death!” A furious shout came from afar; it was the Tyrannosaurus God rushing over.

At this moment, the Tyrannosaurus God was extremely annoyed.

It had not expected Ye Tian to come here again to slaughter God-level ferocious beasts.

It believed it had never provoked Ye Tian, so such actions seemed utterly insane.

Unfortunately, it was unaware of Ye Tian's identity. Ye Tian was not a ferocious beast but a human, and he had the task of slaying 100,000 God-level ferocious beasts.

Soon, Ye Tian engaged in combat with the Tyrannosaurus God once again.

Although Ye Tian's strength had improved somewhat, he was still no match for the Tyrannosaurus God.

In a short while, Ye Tian was severely injured.

Immediately, Ye Tian used his death substitution talent to escape once again.

The Tyrannosaurus God, looking at the substitute that it had easily turned into a mist of blood, felt no joy in its victory.

“What kind of talent does this guy have that makes him so hard to kill every time!” The Tyrannosaurus God had never encountered such a tenacious Emperor-level ferocious beast.

In the following days, Ye Tian would seek out the Tyrannosaurus God almost every year.

Time and again, he faced defeat, but Ye Tian's strength steadily increased.

These years of conflict caused the Tyrannosaurus God to lose many God-level ferocious beasts.

Because of Ye Tian's repeated attacks, many God-level ferocious beasts dared not stay in Tyrannosaurus Mountain but hid elsewhere.

Unfortunately, they could not hide from Ye Tian. Under the coverage of his copy talent, even if they hid their aura, their talents could not be concealed.

These God-level ferocious beasts attempting to hide their tracks were almost all discovered by Ye Tian and fell one by one.

In the ninth year and the tenth month, only two months remained of Ye Tian's ten-year limit. He looked at his watch, which displayed a number.

In nearly ten years, he had used various methods to slay 98,600 God-level ferocious beasts, causing heavy losses to the Tyrannosaurus domain.

Even so, he still needed to slay over 1,000 more God-level ferocious beasts.

“After nearly ten years of cultivation and death-defying training, I have almost completely absorbed and refined the chaotic energy within my body. The fourth layer of the Chaos Body Refining Technique is about to reach its peak! Once I reach the peak of the fourth layer, I will truly not fear the Tyrannosaurus God!” Ye Tian was confident in his path.

In the blink of an eye, another month passed.

On this day, a strong chaotic aura erupted from Ye Tian, and strands of chaotic rules wrapped around him, forming a sphere.

With a thunderous roar, the fourth layer of the Chaos Body Refining Technique was completely perfected. Countless yuan qi surged into Ye Tian's body, promoting his physical growth.

Ye Tian, with a thought, made a large amount of Divine Crystals appear and swallowed them in one gulp.

The energy contained in the Divine Crystals was dense and pure, making them ideal for aiding breakthroughs.

In the blink of an eye, a day passed.

Ye Tian's aura gradually stabilized, and he opened his eyes, sensing the strength of his physical body.

"Once the fourth layer of the Chaos Body Refining Technique reaches its perfected peak, it truly is much stronger than before!" Ye Tian murmured.

At the same time, he also sensed a restriction. This was the bottleneck from the fourth to the fifth layer of the Chaos Body Refining Technique. He attempted to break through it but quickly realized that the restriction remained unyielding.

With his current foundation, there wasn't the slightest hope of breaking through this bottleneck. Therefore, Ye Tian gave up.

"I'll wait until I return to the Supreme Hall of Humanity and apply to train in the Chaos Tower before attempting to break through to the fifth layer of the Chaos Body Refining Technique," Ye Tian decided, putting this thought to the back of his mind. For now, completing the task of slaying 100,000 God-level ferocious beasts was the priority.

"Tyrannosaurus God, this time, you will be the one to lose!" Ye Tian spent a day or two stabilizing his realm, then immediately left for the Tyrannosaurus Mountain.

Upon just stepping into the area, a patrolling God-level ferocious beast's pupils shrank in terror. "He... he's here again!!!" the beast exclaimed, spreading panic throughout the region.

With a whoosh, a strand of Phantom Gold Thread instantly pierced through the head of this God-level ferocious beast, extinguishing its life force. Ye Tian, killing with one strike, hastened towards the Tyrannosaurus Mountain with unmatched speed. Along the way, God-level ferocious beasts, unable to flee in time, fell to Ye Tian's saber qi or Phantom Gold Thread.

Suddenly, a ninth-tier God-level giant black bear blocked Ye Tian's path. This bear, having once fought Ye Tian, possessed strength not much weaker than Ye Tian's at the time.

But Ye Tian was no longer the same as before; his strength had greatly increased since first entering the Beast God Realm.

“Thousand Layer Realm!”

“Spatial Imprisonment!”

“Heavenly Moon Saber!”

With one slash of his saber, Ye Tian seemed to shatter time and space. The terrifying saber qi ignored all defenses, instantly breaking through the black bear’s.

The bear coughed up blood, staring at the nearly penetrated wound on its chest in disbelief.  
“How have you become so strong?”

The bear couldn’t believe it; in its memory, only domain lords like the Tyrannosaurus God could inflict such severe damage with one blow.

Now, Ye Tian could do the same.

As the black bear prepared to flee, a strange fluctuation enveloped it.

“Time Stasis!” For the first time in the Beast God Realm, Ye Tian utilized his Time Talent. Since acquiring the Time Talent, Ye Tian had rarely used it, fearing the trouble it could bring if exposed. But now, as an Eternal Price of the Supreme Hall of Humanity and valued by the human upper echelons, even exposing his Time Talent wouldn’t attract covetous eyes. Moreover, this was the Beast God Realm, where such an exposure wouldn’t leak to the outside world.

With the Time Stasis ability activated, the black bear’s thoughts nearly halted for a moment. When its thoughts resumed, Ye Tian’s Heavenly Moon Saber Technique had already slashed its neck.

“Is that the legendary Time Talent?” the bear cried in terror.

With a thunderous roar, Ye Tian, embodying the Spatial Divine Form, slammed a hand down on the gravely injured bear. The already wounded bear couldn’t withstand Ye Tian’s Spatial Divine Form Divine Ability.

The Spatial Divine Form's hand struck the injured bear, shattering its divine body. The bear's divine body attempted to recover, but the Spatial Divine Ability's power shattered its cells again and again.

In a blink, the bear's life force was completely eradicated, truly falling dead.

The Tyrannosaurus God and other ninth-tier God-level beasts, arriving just in time, were astounded by this scene.

"How could this be... His strength!"

The Tyrannosaurus God's pupils shrank. Over nearly ten years, it had watched Ye Tian's strength skyrocket, but this time, the leap in Ye Tian's power was too great. It had just witnessed the death of one of its top three underlings at Ye Tian's hands.

To kill the bear so swiftly, Ye Tian's strength was undoubtedly no less than its own.

"Tyrannosaurus God, let's have another battle. This time, if I lose again, I will never enter the Tyrannosaurus Mountain area again!" Ye Tian declared boldly.

"This is your word!" The Tyrannosaurus God showed a hint of joy.

Over the past ten years, it had been nearly driven mad by Ye Tian's relentless challenges. Killing Ye Tian was impossible, and Ye Tian seemed to provoke a fight almost every year.

Now, its authority had significantly waned. If not for its overwhelming strength among other God-level ferocious beasts, it probably couldn't maintain control over the Tyrannosaurus domain.

Ye Tian's proposal for a final battle, with the condition of leaving if defeated, was a welcome one.

"Although losing the bear is a huge loss, winning this battle would be a gain for me!" thought the Tyrannosaurus God.

Then, the battle between Ye Tian and the Tyrannosaurus God began!

#### Chapter 499: Time Reversal, Peak State

Boom! Ye Tian clashed with the Tyrannosaurus God, and the aftermath of their fierce battle forced the surrounding God level beasts to retreat far away, daring not to approach the area.

The Tyrannosaurus God's defense was incredibly strong, possessing not only a divine defensive talent but also a powerful divine force defensive secret technique that could form dense golden dragon scales around its body.

Ye Tian's regular attacks could hardly break through the Tyrannosaurus God's defense. Only the Heavenly Moon Saber's ultimate technique and the Spatial Divine Form Divine Ability could barely injure the Tyrannosaurus God, but inflicting a serious injury was almost impossible.

Although the Tyrannosaurus God's attacks could break through Ye Tian's defenses and injure him, Ye Tian's recovery rate was astonishingly fast.

Boom, boom, boom! The battle between Ye Tian and the Tyrannosaurus God kept shifting locations. Some God level beasts that couldn't retreat in time were caught in their attacks and instantly perished.

Suddenly, Ye Tian seized an unguarded moment of the Tyrannosaurus God to deploy his time talent, causing a momentary stasis in time.

Buzz! Instantly, the Tyrannosaurus God was frozen for a split second.

"Heavenly Moon Saber!"

Ye Tian swung the Heavenly Moon Saber at an incredible speed, breaking through the Tyrannosaurus God's defenses and aiming directly at its eyes.

Puff! A slice of saber qi pierced into the right eye of the Tyrannosaurus God.

Immediately, the Tyrannosaurus God's right eye shattered, and blood flowed freely.

“Damn it, you actually injured my eye!”

The Tyrannosaurus God roared in anger, stimulating its divine power to heal the right eye.

Although the injury was not severe, having an eye injured was undoubtedly a huge humiliation.

However, the Tyrannosaurus God quickly realized something.

“That was... the time talent!”

The Tyrannosaurus God was incredibly surprised. The time talent was almost legendary in the Beast God Realm.

And even with a time talent, if it was of a low level, it shouldn't have any effect on a divine being like it, a ninth-tier level 9 powerhouse.

Yet, Ye Tian's use of the time talent caused a momentary lapse in its thoughts, which was not something an ordinary level of time talent could achieve.

Jealousy!

The Tyrannosaurus God was truly envious. Ye Tian possessed both the supreme talents of space and time, an incredibly fortunate circumstance. Moreover, Ye Tian had various powerful inheritances, each of which the Tyrannosaurus God coveted deeply.

If it had Ye Tian's talents, perhaps it could have unified the entire Beast God Realm long ago, breaking free from its constraints and venturing into the outside world.

“Kill!”

The Tyrannosaurus God attacked Ye Tian with frenzy.

The battle became even more intense, as if both had gone mad, space shattered inch by inch, turning the area into what seemed like the end of days.

In the distance, the Leopard God and Elder White stood together, the Leopard God wearing a look of concern on its face.

As the most loyal subordinate of the Tyrannosaurus God, if the Tyrannosaurus God were to be defeated, its fate would be sealed.

Therefore, it desperately hoped for the Tyrannosaurus God to defeat Ye Tian.

“Elder White, you are the best at divination. Can you foresee if Lord Tyrannosaurus God can defeat the enemy?”

As for killing Ye Tian, it didn’t entertain the thought at all, since in previous encounters, although the Tyrannosaurus God had blasted Ye Tian multiple times, Ye Tian had never died.

Facing such an almost indestructible enemy, it would be good enough if the Tyrannosaurus God could just defeat him.

“I can’t divine it!”

Elder White shook his head and then said, “The opponent of Lord Tyrannosaurus God is an Emperor-level being, with strength far surpassing a nine-star Heavenly Pride, protected by the universe. I can’t divine his fate, and since Lord Tyrannosaurus God is clashing with him, naturally, I can’t foresee the outcome.”

As time slowly passed, the battle between Ye Tian and the Tyrannosaurus God had reached a fever pitch, with both sides seemingly insane, sparing no expense to injure the other.

Gradually, the Tyrannosaurus God’s divine power was severely depleted, and Ye Tian’s yuan force was also significantly consumed.

Had it not been for Ye Tian’s cultivation of the Chaos Refinement Body, making him more durable in battle, he would have already been defeated due to exhaustion of yuan force.

In the blink of an eye, another half-hour passed.

The Tyrannosaurus God was seriously injured, and Ye Tian was also not lightly wounded. These injuries were at the level of laws, not mere physical or internal injuries, making them somewhat difficult to recover from.

In a calm situation, it would be possible to recover quickly, but in the midst of intense battle, there was no time for recovery.

“Heavenly Moon Saber, slash!”

“Heavenly Moon Saber, slash!”

Ye Tian didn’t know how many times he had executed the Heavenly Moon Saber’s ultimate technique, but in this life-and-death struggle, his understanding of the technique deepened.

A saber was not merely a weapon, but rather something more.

The true essence of saber techniques and Ultimate Saber Techniques needed to be understood through countless battles.

Although Ye Tian had previously gone through numerous insights, even condensing the supreme dao and perfecting the supreme saber heart, and even understanding the Ultimate Saber Technique, he had never experienced real pressure, or the sense of life-and-death urgency.

Previously, the Princes in the yellow area of the Supreme Hall of Humanity didn’t bring him such pressure.

He had almost swept through those Princes easily, effortlessly earning the title of the strongest Emperor-level Prince among humanity.

Now, in this life-and-death battle, Ye Tian realized the essence of saber dao he had been lacking before.

Only through experiencing life-and-death battles and feeling the true pressure did Ye Tian's Saber Dao truly reach completion.

He had an epiphany! A small part of Ye Tian's Ultimate Saber Technique, the Heavenly Moon Saber, was instantly perfected, significantly increasing its power compared to before.

If the Heavenly Moon Saber was previously considered the weakest Ultimate Saber Technique, it was now deemed a relatively ordinary one.

"Tyrannosaurus God, thank you for helping me comprehend the true essence of the Ultimate Saber Technique!" Ye Tian suddenly spoke.

At this moment, the Tyrannosaurus God's expression changed drastically.

Boom! A massive wave of saber qi, emanating an overwhelming aura, sliced through from the void, crushing all laws in its path.

The Heavenly Moon Saber! The same Ultimate Saber Technique and saber qi, but the aura was as if it had undergone a transformation.

"This is bad!" The Tyrannosaurus God realized the imminent danger.

It had not anticipated that Ye Tian would make a breakthrough in the midst of battle, enhancing the power of his Ultimate Saber Technique by another level.

"Divine Defensive Talent!"

"Golden Scales Divine Body!"

"Dragon Soul Protection!"

The Tyrannosaurus God activated its defensive measures to their limits, even burning its bloodline power in an instant.

Boom! The Heavenly Moon Saber slashed down, breaking through the Tyrannosaurus God's defenses and leaving a massive gash on its body.

Already not lightly wounded, the Tyrannosaurus God was now truly gravely injured.

“Bloodline Burn!!!”

The Tyrannosaurus God burned most of its sub-dragon bloodline, converting it into its own strength, and launched a supreme level claw technique, the Tyrannosaurus Claw, at Ye Tian with all its might.

With its bloodline power burned, the Tyrannosaurus God's strength surged, and its speed increased dramatically.

In such a situation, Ye Tian had no time to teleport away, and even if he attempted to, it would be interrupted.

Thus, he once again unleashed the Heavenly Moon Saber, clashing attack with attack.

The Tyrannosaurus God disregarded the attack of the Ultimate Saber Technique, enduring it with its physical body, and then struck Ye Tian.

Crack, crack, crack! Ye Tian's defenses shattered one by one, eventually leaving five blood holes on his body.

The Tyrannosaurus God was in a pitiable state, its massive body nearly bisected, and most of its scales shattered.

However, the most severe damage to the Tyrannosaurus God was internal, with numerous saber qi infused with the laws of the saber wreaking havoc on its divine body.

At this moment, the Tyrannosaurus God was truly severely injured, its strength reduced to a fraction of its former self.

Ye Tian was also quite severely injured, but faring much better than the Tyrannosaurus God.

“Indeed, the stronger the strength, the harder it is to kill an enemy of the same level. My strength is somewhat superior to the Tyrannosaurus God’s, but to kill it would require a huge price!” Ye Tian thought.

“Tyrannosaurus God, you have lost!” Ye Tian declared in the posture of a victor.

“Ha ha ha ha!!!” The Tyrannosaurus God suddenly burst into laughter. “Do you think you have won? Your injuries are also severe. Although I can’t defeat you, don’t forget where you are. This is the Tyrannosaurus mountain region. I still command a large number of God level beasts, including several ninth-tier subordinates. Do you think you can still win? You said earlier this would be the last battle. I guess that ability of yours... to never die, has probably run out, right?”

“All God level beasts, heed my command, attack him!” The Tyrannosaurus God shouted, then retreated.

Swish, swish, swish! God level beasts from all directions rushed over, including several powerful ninth-tier God level beasts.

“Tyrannosaurus God, do you really think my injuries are severe?” Ye Tian laughed.

The Tyrannosaurus God was momentarily stunned, then had a bad premonition.

Just then, a fluctuation of time power emanated from Ye Tian’s body.

Ye Tian’s time talent was not limited to temporal stasis and the Blade of Time.

“My time talent has also developed the ability of time reversal!” Time reversal could revert a thing to its state at a previous point in time, although this reversal was not permanent and could only last for a few hours.

This ability wasn’t much use under normal circumstances, but at critical moments, it could truly turn the tide of battle.

For instance, in the current situation, Ye Tian could revert his physical state to before the battle, returning to his peak condition.

Although this state could only last a few hours, that was enough time for him to eliminate all these God level beasts.

“Time Reversal!” Ye Tian’s wounds gradually disappeared, and even his torn clothes were restored.

In the blink of an eye, Ye Tian was back to his pre-battle state.

“How is this possible!!!” The Tyrannosaurus God was stunned. It had never imagined the time talent could possess such an ability.

At this moment, it was utterly despairing.

Chapter 500: Mission Complete, Leaving the Beat God Realm

“Run for your lives!”

The God level beasts surrounding them were filled with terror. Previously, even when Ye Tian was seriously injured, they had dared to besiege him. But now, Ye Tian’s injuries had healed, and he had returned to his peak condition.

Faced with Ye Tian in such a state, even the Tyrannosaurus God at its peak was no match for him, let alone these weaker beasts. Even in great numbers, they posed no threat to Ye Tian.

Forcing an attack on Ye Tian would only end in failure! Their only hope of survival was to flee. With so many God level beasts scattering in every direction, Ye Tian couldn’t possibly kill them all.

“Don’t even think about escaping, Thousand Layer Realm!”

Boom! The Thousand Layer Realm, perfected to its major realm, unfolded, enveloping the area and trapping most of the God level beasts within its layers.

“Kill!”

Ye Tian teleported continuously, slaying one God level beast after another.

Only God level beasts of the ninth tier could possibly withstand one or two of Ye Tian’s moves. The rest were almost instantly killed by him.

The God level beasts attacked the barriers of the Thousand Layer Realm with all their might, hoping to break through and escape in time.

However, Ye Tian’s Thousand Layer Realm had reached its perfected state, and breaking through its barriers was not an easy task.

Ten! Hundred! Thousand! The number of God level beasts Ye Tian killed kept increasing, and the remaining ones became fewer and fewer.

At this time.

The Tyrannosaurus God had completely despaired. Severely injured, it was even weaker than those ninth tier God level beasts.

It could only watch as its subordinates were killed one by one, unable to even flee for its life.

Outside the Thousand Layer Realm.

The God level beasts that weren’t trapped didn’t dare to linger any longer and fled one after another.

Ye Tian didn’t pursue these God level beasts, nor did he see the need to.

The ones trapped within the Thousand Layer Realm were enough for him to complete his mission.

Soon, almost all the God level beasts within the Thousand Layer Realm were slain by Ye Tian, leaving only the Tyrannosaurus God.

“Why are you doing this? Who exactly are you?” the Tyrannosaurus God asked, unwilling to accept its fate.

Although it had lost, it was utterly confused, not even knowing the identity of its enemy.

Normally, powerful beasts would focus on recapturing a large number of subordinates, aiming to become the strongest beast in the Beast God Realm and command the others.

But Ye Tian? He neither occupied territories nor sought subordinates, merely killing God level beasts. What was his purpose? It seemed there was no benefit in doing so, which puzzled the Tyrannosaurus God greatly. Facing the Tyrannosaurus God’s confusion, Ye Tian simply smiled and said, “Actually, I am not a beast.”

As soon as he finished speaking, Ye Tian executed the Heavenly Moon Saber Technique, aiming at the Tyrannosaurus God’s forehead and striking fiercely.

“So, you are human...”

The Tyrannosaurus God finally understood, but by then, the Heavenly Moon Saber Technique had already descended.

Boom! The terrifying saber qi directly shattered the Tyrannosaurus God’s skull, completely destroying its brain.

Even so, the Tyrannosaurus God didn’t die immediately.

“Heavenly Moon Saber!”

“Heavenly Moon Saber!”

Ye Tian slashed repeatedly.

Soon, the Tyrannosaurus God's life force was completely drained, turning into a corpse.

Ye Tian glanced at his wristwatch, which displayed a number.

“!”

By this time, Ye Tian had completed his mission of slaying 100,000 God level beasts, with an excess of over 300.

“It's time to leave!”

Ye Tian turned and left, with no intention of pursuing the remaining God level beasts.

With his current strength, killing 100,000 God level beasts was no challenge, let alone 200,000 or even 300,000.

However, that was pointless. The Beast God Realm was meant for human cultivation. Killing too many God level beasts would affect the development of the Beast God Realm and be detrimental to the humans there.

Moreover, the ten-year deadline was not far off, and Ye Tian naturally didn't want to waste time on futile tasks.

Soon after the Tyrannosaurus God was slain, other domain masters became aware of it.

In the Golden Eagle Domain.

The Golden Eagle God panicked immensely upon learning that the Tyrannosaurus God had been killed and a large number of God level beasts had fallen.

“The Tyrannosaurus God is dead? How is that possible?”

Although the Golden Eagle God had never clashed with Ye Tian, it knew from the Tyrannosaurus God that Ye Tian's strength was far inferior to its own. If not for Ye Tian's indestructibility, the Tyrannosaurus God wouldn't have considered him a threat.

But in such a short time, the Tyrannosaurus God had been killed.

If Ye Tian attacked his Golden Eagle Domain, could he defend it? Even if he could, what would the cost be? Immediately, the Golden Eagle God began contacting other domain masters to prepare for Ye Tian's potential attack.

However, they were all overly worried. Ye Tian had no intention of attacking them.

On this day.

On the God level beast Continent, within the God level beast Mountain Range.

The Golden Ape God once again arrived at this place, seeing Divine Lord Dantai meditating with his eyes closed.

"Golden Ape God, you've come!"

Divine Lord Dantai opened his eyes and looked towards the Golden Ape God not far away.

"Ten years have passed, and naturally, I had to come. Otherwise, who knows when that young fellow from the Supreme Hall of Humanity would be able to come out!" the Golden Ape God said with a smile.

Suddenly, he asked curiously, "Divine Lord Dantai, the Supreme Hall of Humanity must have assigned that young fellow a mission, right? May I know what that mission was?"

Divine Lord Dantai did not hide anything and directly said, "Just one mission, and that was to slay 100,000 God level beasts. You are a beast as well, I wonder how you feel about this."

The Golden Ape God glanced at Divine Lord Dantai, “Divine Lord Dantai, I grew up in the human territories, and the term ‘ferocious beast’ is just a general term. In reality, it’s a collective of countless races.

Moreover, even among the ferocious beasts, there is infighting, so there’s no sense of camaraderie to speak of. Not to mention slaughtering 100,000 God level beasts, even if it were 1 billion, I wouldn’t care! We are old friends, so let’s not tease each other!”

Divine Lord Dantai knew that the Golden Ape God didn’t mind such topics, and it was just a playful banter.

“Divine Lord Dantai, that young fellow from the Supreme Hall of Humanity is only a Sovereign Emperor level Child of the Universe. Inside the Beast God Realm, there are many powerful ninth tier God level beasts.

Sending him into the Beast God Realm to slay 100,000 God level beasts, isn’t that task a bit too difficult? If he’s not careful, the only Eternal Prince of the Supreme Hall of Humanity might fall!”

The Golden Ape God frowned.

Divine Lord Dantai lightly said, “Which Eternal Prince hasn’t grown up through countless battles? To become a true powerhouse, how can one not experience danger? And don’t underestimate the Prince of Ten Thousand Laws, his potential is boundless, and he even has the hope of becoming a first-tier Eternal Prince! Such a Prince is not easily fallen. The Beast God Realm, though somewhat dangerous for him, is not too perilous. If he were to fall in the Beast God Realm, then what value would there be in nurturing such a Prince?”

“That’s also true!” The Golden Ape God nodded, agreeing with Divine Lord Dantai’s statement.

“Golden Ape God, don’t delay any longer. Open the passage to the Beast God Realm!” Divine Lord Dantai urged.

“Alright!”

The Golden Ape God nodded and then took out the token to open the spatial passage to the Beast God Realm.

Activating the token! Boom!

The space tore open, forming a gigantic portal.

“Wait and see!” The Golden Ape God said.

As time passed, after half a day.

Whoosh! A figure walked out of the giant portal, and it was none other than Ye Tian.

Ye Tian stepped out of the spatial portal, saw the Golden Ape God and Divine Lord Dantai, and immediately saluted, “I pay my respects to Divine Lord Dantai and the Golden Ape God!”

“Let’s go back!” Divine Lord Dantai said.

Ye Tian nodded, followed Divine Lord Dantai onto his cosmic spaceship, and promptly left the God level beast Continent.

On the way.

Divine Lord Dantai asked, “Prince of Ten Thousand Laws, how did your mission go?”

“Divine Lord Dantai, I was fortunate to have completed the mission!”

Ye Tian activated the data display on his wristwatch, showing the numbers.

“1”

Seeing this number, Divine Lord Dantai was incredibly surprised.

He hadn't really believed that Ye Tian could complete this mission. The Supreme Hall of Humanity had issued this mission merely to motivate Ye Tian.

But he was very aware of the difficulty of this mission. Although there were many God level beasts in the Beast God Realm, slaying so many God level beasts would inevitably lead to being besieged by those powerful domain masters.

Once besieged by those powerful domain masters, even an Eternal Prince had a great risk of falling and might not even be able to escape.

An Eternal Prince entering the Beast God Realm and surviving safely for ten years would have to carefully slay those God level beasts. But in doing so, completing the mission of slaying 100,000 God level beasts would become difficult.

In Divine Lord Dantai's heart, he had hoped that Ye Tian could slay sixty to seventy thousand God level beasts.

If Ye Tian could slay sixty to seventy thousand God level beasts, that would be quite impressive.

At that time, even if Ye Tian couldn't complete the mission, the Supreme Hall of Humanity might still grant a reward.

But now, Ye Tian had actually completed this nearly impossible task.

"Well done!"

Divine Lord Dantai nodded with a smile, seemingly acknowledging Ye Tian's strength.

He didn't overly praise Ye Tian, to avoid making him complacent.

Before long, Ye Tian and Divine Lord Dantai returned to the Supreme Hall of Humanity.

As soon as he returned, Ye Tian entered the phantom world's Battle Tower.

He wanted to test his strength and see if he had reached the combat power of a second-tier Eternal level Child of the Universe.

In the Battle Tower, the eighth floor.

Ye Tian entered here.

Boom! A replica of an Eternal Prince appeared.

The battle was about to begin!
