

Your Talent is Mine

Chapter 5: Copying Talent from a Ferocious Beast?

"Ferocious beast!!!"

Ye Tian had also been stunned.

He had never seen a ferocious beast, but he had heard that they were extremely terrifying. They could easily slaughter ordinary people, and the only ones who could deal with them were warriors.

Outside the coastal base was a ring of walls, but sometimes the walls couldn't stop the ferocious beasts, and occasionally a beast would break into the base.

When ordinary people encountered a ferocious beast, there was only one outcome: death.

"I have to go home quickly!"

Ye Tian thought of his sister, Ye Yu. The house was not far from here, and the fragile walls were completely unable to withstand the ferocious beasts. He was very worried about his sister.

As he ran, Ye Tian vaguely saw a silver-white shadow darting back and forth at the end of the street, and one after another, ordinary people died under the shadow's attack.

"What a fast speed!"

Ye Tian was shocked.

Such speed had already surpassed the reaction speed of the eye. He was only watching from a distance; at close range, he would likely be killed by the ferocious beast without even seeing its shadow.

"If I encounter this beast, I will surely die!"

Ye Tian thought.

He would not foolishly believe that he was the protagonist who would never die in any situation, nor would he foolishly go and fight with the ferocious beast.

When faced with an unbeatable situation, the best course was to flee as quickly as possible!

Ye Tian was not foolish, so he ran.

Unfortunately, his speed was too slow compared to that of the ferocious beast, and the beast seemed to be charging in Ye Tian's direction.

Ye Tian knew that this beast was not targeting him, but if he encountered it, the beast would certainly not hesitate to kill him with a swipe of its claw.

"Scum, daring to kill in the base!"

Several warriors, led by a middle-aged man, rushed over and quickly surrounded the ferocious beast.

"Great, it's the Wind Wolf Hunting Squad!"

Someone shouted.

The Wind Wolf Hunting Squad?

Ye Tian knew the name of this hunting squad. It was a well-known squad in his area. The squad leader had a title called Wind Wolf and was a high-level warrior in the late stage, with more than a dozen early or middle-stage warriors under his command.

Seeing that the Wind Wolf Hunting Squad had arrived, many people breathed a sigh of relief, some even looking excitedly.

"Get out of the way, this ferocious beast is no ordinary one!"

The Wind Wolf squad leader yelled at the onlookers.

With this shout from the Wind Wolf squad leader, many people finally realized that watching a fight between warriors and a ferocious beast was not safe; if they were careless, they might die at the hands of the beast, and even the warriors might not have time to rescue them.

Retreat! Retreat! Retreat!

Everyone retreated, and Ye Tian also retreated far away but did not leave.

He also wanted to know what the combat power of a warrior was like.

Soon, the battle began!

The Wind Wolf squad leader's blade swung at the ferocious beast, the blade's light extremely dazzling in the night, obviously very powerful. The stone slabs on the street were slashed with a mark three meters long by the squad leader's blade.

Unfortunately, the speed of the beast was too fast, and it dodged the strike.

"What a powerful attack! Even the street slabs were cut open. If it were to strike a person, it would probably split them in half instantly. Is this the power of a warrior?"

Ye Tian was somewhat envious.

The warriors of the Wind Wolf Hunting Squad all drew their weapons and began to battle the ferocious beast, but their expressions were serious.

Suddenly,

A warrior was struck by a ferocious beast, flung away in one blow, and a bloody mark was left on his chest.

"Xiaobai!"

The Wind Wolf team leader looked on with concern but didn't check Xiaobai's injuries, instead attacking the ferocious beast.

Though the beast had seriously wounded a warrior, it was surrounded by many others and quickly injured.

"Be careful, this beast is trying to escape!"

The Wind Wolf team leader shouted.

As expected.

Seeing the situation turn against it, the beast transformed into a silver light, breaking through the encirclement, and tried to flee into the distance.

At that moment, an arrow shot from afar hit the beast.

Following a loud thump, the beast fell onto the street, its true form fully exposed.

"It's a silver mink!"

Ye Tian saw it clearly.

This silver mink, a meter long, had sharp claws and blood-red eyes.

"This Silver Moon Mink has been critically injured by Xiao Yue. Let's work harder and kill it. Then we won't have to hunt beasts for a month!"

The Wind Wolf team leader excitedly said.

Obviously, the Silver Moon Mink was very valuable.

The injured Silver Moon Mink was no match for the Wind Wolf hunting team, but it seemed it hadn't given up hope.

Suddenly.

A silver glow burst from its body, and its momentum dramatically increased.

"Be careful, it's stimulating its bloodline and preparing to explode!"

The Wind Wolf team leader roared, warning the others.

Swish swish swish!

The warriors quickly backed away, lest they perish with the Silver Moon Mink.

But suddenly, the mink charged toward the crowd of people.

All the warriors' faces changed; they understood the Silver Moon Mink's intentions!

"You all scatter!"

The Wind Wolf team leader shouted at the distant crowd.

Sadly, the Silver Moon Mink was too fast, especially after unleashing its bloodline power; there was no way the ordinary people could dodge.

In a breath's time, the Silver Moon Mink reached the crowd.

Without any technique, merely a crash, ordinary people were sent flying, their fates unknown.

Unexpectedly.

Another arrow shot from the hidden Wind Wolf team member Xiaoyue.

Thwack!

The arrow entered the Silver Moon Mink, passing through its wound.

The already critically injured Silver Moon Mink finally died, its life force gradually fading.

At that moment, many people ran away, not daring to approach the Silver Moon Mink.

Yet a young man approached the Silver Moon Mink, gently touching its skin.

"Young man, you are brave, daring to touch a ferocious beast?"

The Wind Wolf team leader approached, laughing heartily.

"It's the first time I've seen a ferocious beast, I couldn't help but touch it out of curiosity!" the young man said awkwardly.

The Wind Wolf team leader nodded approvingly, "Not bad, lad. You are already a martial disciple, aren't you? At this age, it's good progress. You might even become a warrior. Once you do, I'll allow you to join our team!"

"Thank you, Wind Wolf team leader!"

The young man said excitedly.

The Wind Wolf hunting team didn't linger and carried away the Silver Moon Mink's corpse, departing one by one.

The young man who had talked with the Wind Wolf team leader stood in the street, smiling foolishly. Everyone who saw this thought the young man had gone mad.

Becoming a warrior wasn't so easy, and they thought the Wind Wolf team leader's words were mere pleasantries.

However, the young man's laughter was not because of the Wind Wolf team leader's words.

This young man was Ye Tian.

"Haha, I didn't expect the second talent I copied to be from a ferocious beast!" Ye Tian said excitedly.

Chapter 6: Triple Speed Boost

When the Silver Moon Mink died, it was less than three meters away from Ye Tian. At that time, Ye Tian was very panicked. Fortunately, the Silver Moon Mink was dead, or else he might have been killed by it. All in all, he was quite lucky.

Seeing that the Silver Moon Mink had died, he had a sudden thought to use his duplication talent to examine it.

Fierce Beast: Silver Moon Mink

Bloodline Talent: Subpar

Speed Talent: Basic

When he saw these talents, Ye Tian was truly shocked.

Fierce beasts mainly rely on their bloodline to evolve, much like human cultivation talents. Without a strong bloodline, it's impossible for them to become powerful beasts.

The Silver Moon Mink only had a subpar bloodline talent. Considering its realm, it was at most equivalent to an early-stage martial warrior. But it could easily inflict heavy damage on a martial warrior and even give a late-stage martial warrior like Captain Wind Wolf trouble, thanks to its other talent – the speed talent.

With its speed talent, the Silver Moon Mink had become a terrifying beast. Ordinary low-level fierce beasts wouldn't be able to withstand an onslaught from so many martial warriors.

At that moment, Ye Tian, having already duplicated the speed talent, knew that once he integrated it, his speed would greatly surpass others at the same level, and fighting those of higher levels would no longer be a dream.

"Home!" Ye Tian ran towards his house.

Once home, Ye Tian had dinner with his sister and then went to his room alone, preparing to try integrating the talent.

"Normally, talents other than cultivation talents awaken slowly at the martial warrior level, but my duplication talent can break this rule. I should be able to safely integrate the speed talent," Ye Tian speculated.

"Whatever, integrate!" Ye Tian bit a piece of cloth and began the integration.

Boom!

A pain only second to the integration of medium cultivation talents surged into his mind. Ye Tian, having prepared himself mentally, endured it completely.

Ten minutes later, the pain disappeared, and a feeling of exhilaration filled his heart.

Ye Tian knew that he had successfully integrated the speed talent.

With a thought, he checked his own talent situation.

Human: Ye Tian

Cultivation Talent: Medium

Speed Talent: Basic

Too tired and mentally exhausted from the beast attack, Ye Tian gradually fell asleep.

Early the next morning, Ye Tian couldn't wait to go to the academy's small grove. At that time, no one was there yet.

"Let's try the speed talent!" Ye Tian activated his speed talent and, like a shadow, rushed towards the distance.

"What incredible speed!" Ye Tian was astonished.

After several tests, he was finally sure that his speed had tripled. A basic speed talent gave him such speed, almost comparable to ordinary martial warriors, and with his cultivation growing, his speed would naturally increase even further.

"Legend has it that humans with multiple talents are favored by heaven and earth. It's true! With just a basic speed talent, I can probably defeat most martial disciples. It won't be long before I can contend with martial warriors!" Ye Tian was thrilled.

But he also knew very well that the true foundation was cultivation. Without strong cultivation as support, having multiple talents would be in vain, making it hard to compare with true strong ones.

"I have one month's time before I can duplicate new talents. The goal for this month is to temper my body and reach a strength of 300 pounds!" Ye Tian set a small goal for himself.

With a target in sight, Ye Tian worked even harder in his cultivation.

Moreover, he had initially revealed to other students that he could cultivate physical training techniques. After all, many of his peers were also able to cultivate, so he didn't attract much attention.

In his spare time from cultivation, Ye Tian examined the talents of the entire fifth academy's students but found no remarkable talents. Except for Chen Dong, the best were only at the basic level.

A month passed quickly, and Ye Tian achieved his small goal, possessing a strength of 300 catties.

"The speed is still too slow. If only I could increase the cultivation speed!" Ye Tian sighed.

Walking on the road leaving the academy, a voice called out, "Ye Tian, wait for me!"

Ye Tian turned around and saw that it was Zhang Bao, so he stopped.

"Ye Tian, you've become a martial disciple, haven't you?" Zhang Bao asked quietly.

"Yes!" Ye Tian nodded, admitting that becoming a martial disciple was not difficult. He didn't need to hide it, as long as he didn't reveal that he had the strength of 300 catties.

"Ye Tian, do you want to increase your cultivation speed?" Zhang Bao asked eagerly.

"Do you have a way?" Ye Tian was shocked.

"Have you heard of ferocious beast blood?" Zhang Bao said.

"Of course I have!" Ye Tian nodded. His parents were martial warriors, and naturally, he learned many things from them that ordinary people didn't know. Ferocious beast blood contained powerful energy, and consuming it while cultivating physical training techniques could accelerate body refinement. Unfortunately, his parents were gone, and he had no way to get the ferocious beast blood.

"Ye Tian, our talent isn't great. If we cultivate step by step, we may only hope to reach the martial warrior level when we're old. But with ferocious beast blood, we might reach it by age 20. Even if we can't improve our cultivation due to our limited talent, we can still live a good life with martial warrior strength," Zhang Bao explained.

"That's true, but we have no way to get the ferocious beast blood!" Ye Tian said helplessly. He wanted to get it but had no means to do so.

"Ye Tian, since we're close, I'll tell you. The five major academies at Linhai Base are preparing to open a trial. The high-level members of Linhai Base have created a small wilderness area in YeWai. All the ferocious beasts have been killed, leaving only some fierce beasts, which are the descendants of ferocious beasts. Even ordinary people with weapons can deal with them. Once a fierce beast is killed, its valuable parts can be exchanged for ferocious beast blood. I heard that the first place will be rewarded with intermediate ferocious beast blood," Zhang Bao said, growing envious.

Intermediate ferocious beast blood! Ye Tian was also tempted. An intermediate ferocious beast could only be killed by an elite martial warrior. If he had that blood, he might become a martial warrior within six months.

"How do you know?" Ye Tian frowned, as he had not received any notification.

Zhang Bao proudly said, "I know an older student with a strength of 500 catties who told me. But this trial is a bit dangerous, so the academy did not inform the newly made martial disciples."

"Ye Tian, I know the benefits of ferocious beast blood better than you. My talent isn't good, but some time ago, my parents spent most of their savings to buy a low-grade ferocious beast blood. Now I've become a martial disciple thanks to it. Your talent is better, so you'll absorb it more efficiently and cultivate faster. Let's sign up together for the trial. We'll definitely get some ferocious beast blood!" Zhang Bao tempted.

"Zhang Bao, you've invited more than just me, haven't you?" Ye Tian asked.

"Of course, I've invited more than just you. We've just become martial disciples. How can we compete with those strong ones without teaming up? I've asked eight other martial disciples, and they've all agreed. We're waiting for you!" Zhang Bao revealed a confident expression.

"I'm sorry, but I don't want to team up!" Ye Tian refused.

"Alright then!" Zhang Bao showed regret and walked away. He had merely asked, so Ye Tian's refusal was no big deal, especially since Ye Tian had just become a martial disciple and wasn't of much use.

However, what Zhang Bao didn't expect was that Ye Tian's refusal wasn't about the trial, but rather that he simply didn't want to team up.

"The trial might be an opportunity for me!" Ye Tian muttered to himself.
