

## Talent 501

Chapter 501: Second Tier of the Eternal Child of the Universe

Ten years ago, Ye Tian entered the eighth floor to challenge it but was defeated.

Now, Ye Tian's strength was far beyond what it had been ten years ago.

As the battle began, Ye Tian's spatial talent and two spatial divine abilities, combined with the ultimate technique of the Heavenly Moon Saber, completely suppressed the opponent.

This clone of an Eternal Prince was indeed powerful, wielding a long spear and possessing an ultimate spear technique, with almost no weaknesses in other areas.

However, Ye Tian was stronger, and his spatial talent allowed him to suppress the opponent, giving him the advantage in the battle.

Boom, boom, boom! The two fought for a long time, yet no winner was determined.

Although Ye Tian was slightly stronger, it was not enough to decisively defeat this clone of the Eternal Prince.

The defense of this Eternal Prince was very strong, and his recovery speed was fast. Even if he was slightly injured, he could recover quickly.

Therefore, for Ye Tian to defeat this Eternal Prince, the battle would have to last a long time.

But in reality, Ye Tian could not kill such an Eternal Prince. If the opponent couldn't beat Ye Tian, he could still escape.

Suddenly.

Ye Tian left the eighth level of the battle tower and returned to the main hall of the tower.

He knew he had passed the eighth level of the battle tower. On the eighth level platform, one did not need to defeat the opponent; just surviving for a certain period was enough.

Undoubtedly, Ye Tian possessed the strength of the second tier of the Eternal Child of the Universe.

When Ye Tian passed the eighth level of the battle tower, the phantom spirit guarding the tower reported this news upwards.

Soon, the higher-ups of the Supreme Hall of Humanity were informed of Ye Tian's situation.

They were also quite surprised that Ye Tian's strength had improved so rapidly. At the level of an Eternal Child of the Universe, even a slight increase in strength required a lot of effort and time.

More than 90% of Eternal Princes were at the third tier, and only a very few could hope to reach the second tier after a long time.

But at the Emperor level, it was extremely difficult for many Princes to enter the second or even the first tier.

It wasn't a lack of talent, but a lack of time.

If these Eternal Princes were given ample lifespans, without worrying about lifespan, then they could spend a lot of time advancing to the second tier.

However, many Eternal Princes, when two-thirds of their lifespan was depleted, dared not stay at the Emperor level any longer and chose to break through to the God level.

Once they became God-level powerhouses, their lifespans would increase significantly.

At that time, they would have the lifespan to continue accumulating their foundation.

Failing to reach the third tier of the Eternal Child of the Universe at the Emperor level did not mean that one cannot reach the second tier of the Eternal Child of the Universe at the God level.

Of course, most Children of the Universe can only maintain the same level, or even be downgraded.

The higher-ups of humanity held a meeting immediately upon learning of Ye Tian's breakthrough to the second tier of the Eternal Child of the Universe.

The Supreme Hall of Humanity prepared to heavily cultivate Ye Tian.

In the Yellow Region, Bi Bo Lake.

Ye Tian was in the Cultivation Tower, cultivating.

At this time, Divine Lord Dantai visited.

Ye Tian immediately came out of seclusion to welcome Divine Lord Dantai.

The two started talking in a hall of the Cultivation Tower.

“Prince of Ten Thousand Laws, for your previous completion of the task of slaying the God-level ferocious beasts in the Beast God Realm, the Supreme Hall of Humanity has already issued a reward.

And because you passed the eighth level of the battle tower and possess the strength of a second tier Eternal Child of the Universe, the Supreme Hall of Humanity has decided to give you an additional reward.”

“What reward?”

Ye Tian was quite curious. He felt that the reward from the Supreme Hall of Humanity must not be an ordinary treasure, as the Supreme Hall of Humanity was always generous. An additional reward, if it were just an ordinary reward, would not have been necessary.

Under Ye Tian's expectant gaze, Divine Lord Dantai spoke, “For your accomplishment in slaughtering 100,000 God-level ferocious beasts in the Beast God Realm, your reward was the Wood Heavenly Dao Character. And now, the additional reward from the Supreme Hall of

Humanity is the Earth Heavenly Dao Character. With the other three Heavenly Dao Characters you possess, you can now assemble the five Heavenly Dao Characters corresponding to the Five Elements Great Divine Ability.

The Supreme Hall of Humanity also hopes that you can master the Five Elements Great Divine Ability, as it can enhance your strength and make you even stronger!”

“The Earth Heavenly Dao Character!” Ye Tian was thrilled, for this was the Heavenly Dao Character he had longed for.

He was aware that the Supreme Hall of Humanity surely possessed the Earth Heavenly Dao Character, but they would not bestow it lightly.

If such resources were so easily granted, it could lead to laziness or dependency among the Princes.

Had he not passed the eighth level of the battle tower this time and achieved the strength of a second tier Eternal Child of the Universe, the Supreme Hall of Humanity probably would not have bestowed the Earth Heavenly Dao Character upon him.

“Here are two scrolls, sealed with the Wood and Earth Heavenly Dao Characters. Take them!” Divine Lord Dantai handed over the scrolls to Ye Tian.

“Thank you, Divine Lord Dantai!” Ye Tian expressed his gratitude with a fist salute.

Divine Lord Dantai laughed heartily, “You don’t need to thank me. This was a decision made by the higher-ups of the Supreme Hall of Humanity.

You are now the only face of the Supreme Hall of Humanity at the Emperor level. The higher-ups are counting on you to be able to contend with the Eternal Princes of other cosmic races!”

Ye Tian accepted the two scrolls and then suddenly asked, “Divine Lord Dantai, there’s something that has puzzled me for a long time. May I ask for your enlightenment?”

“Ask away. As long as it’s not too confidential, I will tell you,” Divine Lord Dantai responded.

Ye Tian inquired, “Divine Lord Dantai, I know that there were three Eternal Princes in the Yellow Region previously. And according to what other Princes have said, in a previous encounter with alien races, our Princes suffered heavy losses, with even three Eternal Princes falling. What exactly happened back then? The Princes hardly mention this incident, and I couldn’t find out more.”

“This matter...” Divine Lord Dantai frowned and then sighed deeply, “You should be well aware that there are many powerful races in the universe, some of which are comparable to or even stronger than the Human Race.

It’s not possible for major cosmic races to easily wage wars against each other, as the consequences would be too great.

A war between cosmic races is not about destroying one or two galaxies. There have been wars where entire star fields of a race were obliterated.

Therefore, a long time ago, the cosmic races signed agreements not to wage wars whimsically.

But as you know, resources in the universe are limited. When rare resources or great opportunities arise, how could the cosmic races not compete? The Supremes naturally cannot intervene, so it falls to the Children of the Universe to fight on their behalf, contesting for opportunities and resources, and also to showcase the strength and foundation of their races!”

“I see!” Ye Tian gained some understanding.

Divine Lord Dantai continued, “The last time, 300 years ago, a very precious secret realm appeared, containing resources that could even drive Universal Gods mad.

And this secret realm appeared within a minor cosmic race, which was destroyed on the second day. Many major cosmic races joined forces to occupy this secret realm, and our Human Race was one of them.

It was then decided that the distribution of resources in this secret realm would be determined by the slaughter among the Children of the Universe.

Such an arrangement is indeed unfair to the Children of the Universe. However, for the prosperity and glory of the Human Race, and to ensure we are not weaker than other cosmic races, the Children of the Universe must stand out.”

A sorrowful expression appeared on Divine Lord Dantai’s face.

He added, “The Heavenly Prides, the Emperor-level Children of the Universe, the God-level Children of the Universe, the True God-level Children of the Universe, the Great God-level Children of the Universe—they were divided into five groups. Each entered one of the five trial worlds to engage in a trial slaughter by seizing the identity tokens of the opposing Children of the Universe! The Heavenly Pride level was the most brutal, with thousands of nine-star peerless Heavenly Prides falling.

Many Princes from the Yellow Region also perished. The three Eternal Princes were targeted by Eternal Princes of several cosmic races and eventually fell into their traps and perished.

In that battle, our Human Race’s Heavenly Prides and Children of the Universe suffered heavy losses, with even two Great God-level Children of the Universe dying in battle!”

Listening to Divine Lord Dantai’s words, Ye Tian seemed to envision the scenes of that battle, witnessing the tragic sight and cruel slaughter.

“Prince of Ten Thousand Laws, in a few decades, a grand era will arrive. I cannot tell you now what kind of grand era it will be, but the competition will be even more brutal than the last time. So you must grow at all costs,” Divine Lord Dantai advised.

“Understood!” Ye Tian nodded.

After a long conversation, Divine Lord Dantai finally left Ye Tian’s Cultivation Tower.

That day.

Ye Tian applied to enter the Chaos Tower for cultivation. His Chaos Body Refining Technique had already been cultivated to the perfected realm of the fourth layer, and there had been no progress during this period; he had truly reached a bottleneck.

Therefore, Ye Tian didn't want to waste any more time. He wished to use the Chaos Tower to break through to the fifth layer of the Chaos Body Refining Technique.

The fifth layer of the Chaos Body Refining Technique was the major realm. Once Ye Tian stepped into this realm, his strength would undergo a tremendous transformation, and he would be extremely powerful even among second tier Eternal Children of the Universe.

The request from Ye Tian was quickly approved by the Hall of Enforcers, but an inspection and review were still required.

Thus, Ziya took Ye Tian to the Hall of Enforcers.

## Chapter 502: The Great Divine Ability of the Five Elements Divine Wheel

The Hall of Enforcers.

Ziya led Ye Tian to the place, and then Ye Tian entered the Hall of Enforcers alone.

This time, all six Enforcers appeared again, all looking at Ye Tian.

"Prince of Ten Thousand Laws, we believe that your Chaos Body Refining Technique has indeed reached the fourth level's perfected realm, but according to the rules, you still need to demonstrate it!"

Divine Lord Dantai spoke earnestly.

"Alright!"

Ye Tian nodded, then immediately began operating the fourth level technique of the Chaos Body Refining Technique.

Boom! A strong chaotic aura burst forth from Ye Tian's body, strands of chaotic laws encircled him, forming a spherical chaos orb around him.

This was indeed the sign of the Chaos Body Refining Technique's fourth level being perfected.

“It really is the perfected fourth level of the Chaos Body Refining Technique!”

The six Enforcers were very surprised; they could no longer predict Ye Tian’s talent, having never seen a prince with such formidable talent before.

“Prince of Ten Thousand Laws, wait here. We will go and open the second layer of the Chaos Tower!” Divine Lord Dantai said.

Ye Tian nodded, then waited there.

After the Enforcers confirmed Ye Tian’s status, they reported it upwards, and soon, the high echelons of the Supreme Hall of Humanity gave their approval, allowing Divine Lord Dantai and the others to open the second layer of the Chaos Tower.

In a short while, Divine Lord Dantai and the other six Enforcers arrived at the space where the Chaos Tower was located, and immediately began to open the second layer together.

Rumble! The Chaos Tower began to shake, the array of the second layer started operating, countless pure chaos yuan qi and the essence of chaos surged out, converging in the second layer space.

Soon, the second layer of the Chaos Tower was fully opened.

Immediately after, Divine Lord Dantai and the others returned to the Hall of Enforcers.

Divine Lord Dantai personally led Ye Tian to the front of the Chaos Tower, where the gate had already been opened.

Ye Tian entered the Chaos Tower, arriving at the second layer space of the tower.

“Such pure chaos yuan qi and the essence of chaos, much better for cultivation than the first layer of the Chaos Tower by many times!”

Ye Tian couldn’t help but exclaim.

The cost of opening such a Chaos Tower was too great.

If Ye Tian hadn't entered the Supreme Hall of Humanity, he would never have received such treatment. It was almost impossible to attempt to break through to the fifth level of the Chaos Body Refining Technique in the outside world, unless he had heaven-defying luck.

"Better seize the time to cultivate!"

Ye Tian didn't activate his time-enhancing talent, opting for normal cultivation instead.

He knew the chaos yuan qi here was limited; even if he activated his direct time-enhancing talent, it wouldn't be much use. Although it could shorten the time, once the chaos yuan qi was exhausted, speeding up time would be pointless.

One month was enough for a prince to attempt to break through to the fifth level realm of the Chaos Body Refining Technique. If unsuccessful, even two months wouldn't make a difference.

Ye Tian operated the Chaos Body Refining Technique, frantically absorbing the surrounding chaos yuan qi and essence, tempering his physical body, yuan force, and soul.

Time passed slowly, and in the blink of an eye, 20 days had gone by.

One day.

Ye Tian felt his physical body, yuan force, and soul were about to break through a certain limit, stepping into another realm.

"I'm about to break through!"

Ye Tian pushed the fourth level technique of the Chaos Body Refining Technique to its limit, gradually transitioning to the fifth level technique.

Suddenly, at a certain moment.

Boom! Ye Tian's technique finally broke through! At this moment, he was operating the fifth level technique of the Chaos Body Refining Technique, and it was successful.

Simultaneously, Ye Tian's physical body was continuously breaking down and healing, breaking and healing again. Countless chaos yuan qi infused into his body, accelerating the transformation of his physique.

After a long while, Ye Tian fully stabilized the fifth level realm of the Chaos Body Refining Technique, and his physical body, yuan force, and soul had all undergone transformation.

"I've broken through!"

Ye Tian was extremely joyful, feeling incredibly powerful, as if he could punch and shatter his former self.

Although it was an illusion, his strength had indeed greatly increased compared to before.

In the following days, Ye Tian continued to cultivate, absorbing chaos yuan qi to stabilize his realm. However, the chaos yuan qi had become very thin by then, only useful for stabilizing the realm and hardly sufficient for enhancing cultivation.

Before long, the one-month period came to an end.

Ye Tian walked out from the chaos, and Divine Lord Dantai appeared, glanced at Ye Tian, and asked, "Prince of Ten Thousand Laws, did you succeed in your breakthrough?"

Ye Tian nodded, "I was fortunate enough to succeed!"

"Congratulations!"

Divine Lord Dantai congratulated him, "In the history of the Supreme Hall of Humanity, you are the second person to have cultivated the Chaos Body Refining Technique to the major realm!"

"Who's the first then?" Ye Tian asked curiously.

The Chaos Body Refining Technique was created by one of the Supremes of humanity after becoming a Supreme, so that Supreme definitely hadn't cultivated it; it must have been some prince afterward.

"He has fallen," Divine Lord Dantai sighed. "I don't know much about that prince since it was a very long time ago, and I wasn't born yet. Although that prince's growth rate was far less than Prince of Ten Thousand Laws, it was still incredibly heaven-defying. It's just unfortunate that our Human Race wasn't strong back then, and it was very difficult for the princes to grow, leading to their easy demise!"

Ye Tian felt pity for him; after all, he had the talent to copy, which allowed him to copy so many God-level talents and meet the requirements to cultivate the Chaos Body Refining Technique.

The talent of that ancient prince, who managed to cultivate the Chaos Body Refining Technique to the major realm, must have been incredibly heaven-defying.

"Let me take you out," Divine Lord Dantai said, leading Ye Tian away from there and back to the Hall of Enforcers.

Afterward, Ye Tian left the Hall of Enforcers and had Ziya take him back to the cultivation tower by the Bi Bo Lake in the Yellow Region.

On the second day after returning, Ye Tian went to the ninth layer of the Phantom World Battle Tower.

He managed to last only a dozen or so moves before being defeated by that Eternal-grade prince.

Although defeated, it proved Ye Tian's strength was very formidable.

If it was an Eternal-grade Child of the Universe who had just advanced to the second tier facing a first-tier Eternal-grade Child of the Universe, they'd probably be killed in one move.

In the days that followed, Ye Tian prepared to cultivate the Five Elements Great Divine Ability.

The power of the Great Divine Abilities was indeed very formidable, and more importantly, they were instantaneous and consumed almost no yuan force.

Great Divine Abilities mainly mobilized the power of laws rather than utilizing yuan force to unleash power.

On the other hand, the Ultimate Saber Techniques were different; they consumed a lot of yuan force and physical strength. If it came to prolonged battles, Ye Tian wouldn't be able to execute the Ultimate Saber Techniques many times.

For example, during his battle with the Tyrannosaurus God, his yuan force was consumed very quickly, and if it weren't for the time-reversal ability of his time talent, he probably would have been in big trouble.

But if he had a Great Divine Ability, everything would be different.

Even if Ye Tian's yuan force and physical strength were exhausted, as long as he had a Great Divine Ability, his combat power wouldn't decrease too much. Relying on the Great Divine Ability, he would be able to kill a large number of enemies.

"The Heavenly Dao characters of gold, wood, water, fire, and earth, I've gathered them all. The five top-tier divine abilities derived from the Five Elements Great Divine Ability, I've also mastered them all.

Now, I just need to integrate these five Heavenly Dao characters into my soul, and slightly cultivate the method of the Five Elements Great Divine Ability, to condense the divine ability imprint of the Five Elements Great Divine Ability."

Thus, Ye Tian began his cultivation.

Starting with the Heavenly Dao character of gold, he began the integration, infusing each Heavenly Dao character into his soul.

In just half a month, all five Heavenly Dao characters gathered in the depths of Ye Tian's soul.

Then he started to cultivate the method of the Five Elements Great Divine Ability.

Boom! The five Heavenly Dao characters exploded with the original power of the Heavenly Dao characters in Ye Tian's soul.

These five streams of original power circulated within Ye Tian's body and soul, forming a perfect diagram of laws.

Suddenly, a gigantic diagram of laws emerged above Ye Tian's head, with the original powers of wood, water, fire, and earth intermingling.

The diagram of laws gradually merged perfectly with Ye Tian's body, beginning to nurture the divine ability imprint.

After an indeterminate amount of time, Ye Tian's top-tier divine ability imprint began to crumble and gradually transformed into a new divine ability imprint, containing the original powers of the five attributes of gold, wood, water, fire, and earth.

It was the divine ability imprint of the Five Elements Great Divine Ability!

"I've finally mastered the Five Elements Great Divine Ability!"

Ye Tian was very excited, so he immediately entered the Phantom World and went to his private cultivation world.

Here, he prepared to test his Five Elements Great Divine Ability.

The true name of this Five Elements Great Divine Ability wasn't actually Five Elements Great Divine Ability, but Five Elements Divine Wheel.

Ye Tian saw the name Five Elements Divine Wheel in the Heritage Hall, while in the Pan Star Field, it was only known as the Five Elements Great Divine Ability.

“Let’s call it the Five Elements Divine Wheel; after all, there’s more than one Five Elements Great Divine Ability!”

Ye Tian murmured.

He activated the Five Elements Divine Wheel, and a Five Elements Divine Wheel appeared in front of him.

“Go!”

Under Ye Tian’s control, the Five Elements Divine Wheel charged towards a mountain range ahead.

Everything in its path was destroyed by the power of the Five Elements Divine Wheel.

In an instant, the entire mountain range disappeared, and even the space in that area was forcibly shattered by the Five Elements Divine Wheel.

Afterward, Ye Tian tested the power of the Five Elements Divine Wheel several more times.

Soon, Ye Tian found the effects of the Five Elements Divine Wheel to be astonishingly good and very versatile, definitely one of the most practical and powerful Great Divine Abilities.

Chapter 503: Above the Universal Gods, the Dominator Level!

The Five Elements Divine Wheel was a Great Divine Ability, containing the origins of five attributes.

Therefore, the Five Elements Divine Wheel came with five attribute powers. For instance, it could unleash the effect of the Phantom Gold Thread Divine Ability, bursting forth with golden threads of the five elements to pierce through enemies. Similarly, it could manifest the effect of the Water Sinking Realm Divine Ability, creating a Five Elements Barrier that exerted a special oppressive force to subdue foes.

Of course, these five abilities were merely additional effects. The true power of the Five Elements Divine Wheel lay in its ability to suppress various divine abilities containing the five elements.

For example, if someone had cultivated a fire attribute divine ability to perfection, it would be of little use against the Five Elements Divine Wheel.

Only Great Divine Abilities of the five elements category could contend against the Five Elements Divine Wheel.

Now that Ye Tian had mastered the Five Elements Divine Wheel, even though he had only just begun to cultivate it, its immense power significantly enhanced his strength.

With the Five Elements Divine Wheel mastered, Ye Tian re-entered the battle tower in the phantom world, attempting to challenge the copy of a Eternal Prince on the ninth floor.

As expected, even with the mastery of the Five Elements Divine Wheel, which had increased his strength somewhat, Ye Tian was still no match for the Eternal Prince's copy on the ninth floor.

At this moment, Ye Tian was contemplating his next steps in cultivation.

Currently, having his two spatial divine abilities cultivated to the major realm and having created a Great Divine Ability with his Ultimate Saber Technique, along with the fifth level of his Chaos Body Refining Technique already cultivated, it was utterly impossible to break through to the sixth level in a short time.

"I seem to be reaching my limits in many areas, and it's not something that can be improved quickly. Even becoming a first-tier Eternal Prince is incredibly challenging. How exactly did those Supreme-level Princes in human history become Supreme-level Children of the Universe?" Ye Tian wondered in doubt.

Could it be that those Supreme-level Princes had a lifespan of over 100,000 years like him during their Emperor level, and then used the long years to accumulate strength, eventually stepping into the God-level Child of the Universe realm?

"That seems unlikely. Spending tens of thousands or even nearly a hundred thousand years to strive for the Supreme-level Child of the Universe realm is too impractical. There must be

some special method to become a Supreme-level Prince, but I just don't know it yet!" Ye Tian thought.

In the blink of an eye, a year passed.

During this year, Ye Tian made little progress. His fifth level of the Chaos Body Refining Technique had improved slightly, but it was still far from reaching the perfected realm.

Ye Tian was well aware that relying on his talent in time would not be of much help in advancing quickly. Even if his time talent could accelerate his progress by hundreds or thousands of times, it would hardly result in a significant increase in his strength.

If merely relying on time could rapidly increase one's strength, then those who had cultivated for countless years at the Planetary System level, Galaxy level, or even as Universal Gods would be incredibly powerful.

Some aspects of progress simply cannot be measured by time. Without significant opportunities, one should not expect to improve rapidly.

For example, in reaching the perfected realm of the fifth level of the Chaos Body Refining Technique, Ye Tian found that ordinary chaos resources were ineffective for him, and even chaos crystals only slightly increased his cultivation speed.

Without higher-grade chaos resources, it would be extremely difficult for Ye Tian to advance his Chaos Body Refining Technique to the perfected realm of the fifth level.

This time, the visit from Divine Lord Dantai brought Ye Tian a most surprising piece of news.

"Prince of Ten Thousand Laws, congratulations!" Divine Lord Dantai exclaimed with a laugh upon arrival.

"Divine Lord Dantai, what has happened? Why are you congratulating me?" Ye Tian was full of questions.

Divine Lord Dantai explained, "Prince of Ten Thousand Laws, you must be aware that your strength has hit a bottleneck. This time, the Supreme Hall of Humanity plans to assign a very

powerful being as your mentor to guide your cultivation. You should know that even those Princes in the Mysterious Region have to pay a price for the guidance of a mentor, and only the top Princes in the Mysterious Region are qualified to receive it. The Yellow Region has never been given much attention by the Supreme Hall of Humanity. The three Eternal Princes from the Yellow Region had never received any guidance before. This time, the Supreme Hall of Humanity is making an exception for you!”

“Divine Lord Dantai, what is the strength of that mentor?” Ye Tian was curious.

He had always known that with his heaven-defying talent, he could cultivate to the realm of Universal God.

And his cultivation talent had already surpassed the universal level, reaching the chaos level.

Chaos level cultivation talent was extremely rare. Even the heritage treasure pavilions of the regional areas did not have records of it, so Ye Tian was unclear about the realms above Universal God.

At this point, Divine Lord Dantai spoke with immense respect, “I am at the Universal God realm, and that mentor’s cultivation is above Universal Gods, in a realm referred to by the myriad races of the universe as the Dominator realm! Once someone becomes a Dominator, they can become a hegemon in the universe, even though our Human Race has become a great race in the universe, Dominators are still very rare. Each Dominator is a high-ranking member of our race, usually overseeing a region and maintaining our race’s dominion. Many Dominators are the leaders of the pinnacle forces of our race. It’s extremely difficult to mobilize a Dominator, so think about it, having a Dominator to guide your cultivation is a tremendous opportunity!”

“Above Universal Gods, the Dominator realm!” Ye Tian took a deep breath, filled with longing for this realm. With his current chaos level cultivation talent, he could ultimately reach the Dominator realm. However, how many years it would take to cultivate to the Dominator realm was still unknown; it would surely be a long journey.

For the current him, a Dominator was undoubtedly an unimaginably powerful being.

At the same time, Ye Tian also felt a secret thrill. If that mentor was at the Dominator realm, then his cultivation talent must have reached the chaos level. Now that his own cultivation talent was also at the chaos level, he just needed to copy two more chaos level cultivation talents to undergo another transformation in his own cultivation talent.

Chaos-level cultivation talent was indeed rare, and with his strength and status, Ye Tian had no way to come into contact with anyone possessing such talent. However, now the Supreme Hall of Humanity had assigned him a mentor, allowing him to copy a chaos-level cultivation talent.

Thinking of this, Ye Tian was incredibly excited.

“Divine Lord Dantai, when will the Dominator mentor be able to guide my cultivation?” Ye Tian asked eagerly.

“In half a month, the Dominator will return to the Supreme Hall of Humanity and will then provide you with individual guidance! I’m here to inform you now so that you can prepare. This is a great opportunity, and you must seize it well!” Divine Lord Dantai solemnly reminded.

“I understand!” Ye Tian nodded.

Following that, Divine Lord Dantai left.

In the blink of an eye, half a month passed.

On this day.

Ye Tian received notice that the Dominator mentor had arrived at the Supreme Hall of Humanity.

Ziya was temporarily granted the permission to accompany Ye Tian to enter the palace where the Dominator resided.

On the way.

Ziya was incredibly excited. Learning that she was accompanying Ye Tian to enter the palace of a Dominator, a being beyond Universal Gods, thrilled her immensely.

“Master, you are amazing to have a Dominator guide your cultivation!” Ziya thought she could boast about this back home and make the other phantom spirits in the Yellow Region envious.

After all, Ye Tian was probably the only Prince in the long history of the Yellow Region to be guided by a Dominator, breaking the precedent. As Ye Tian’s steward, she felt extremely honored.

“Ziya, stop flattering and lead the way!” Ye Tian said with a smile.

“Alright!” Ziya used her permissions to open one spatial gate after another, traversing one space after another, finally arriving at a space deep within the Supreme Hall of Humanity.

There stood a colossal temple in the void.

At the temple’s main entrance, two giant stone figures stood guard.

These stone figures were not living beings but a type of puppet.

Even though they were just puppets, their aura was incredibly powerful, making Ye Tian feel almost immobile.

“Definitely Universal God realm puppets!” Ye Tian guessed.

Having two Universal God realm puppets as gatekeepers indicated the immense power of this Dominator.

At that moment, the puppets subdued their aura and remained motionless, as if they were mere stones.

Then, a voice came, “Come in. Your steward cannot stay here!”

As soon as the voice faded, Ziya was expelled from the space.

Ye Tian walked towards the temple and soon arrived at the main entrance. The two puppets, having received instructions, did not stop Ye Tian, allowing him to enter the temple's interior.

Soon, Ye Tian reached the depths of the temple and saw the Dominator.

This Dominator wore a light gray robe, had long hair that draped loosely, and eyes that shone like stars. His aura was ancient and profound, shrouded in mystery.

“Greetings, Dominator!” Ye Tian said with great respect.

“My name is Dominator Xuan Yuan. The Supreme Hall of Humanity has entrusted me to guide your cultivation. From now on, you can call me Instructor Xuan Yuan,” the Dominator Xuan Yuan said indifferently, his tone devoid of emotion, making it impossible to discern his thoughts.

“Yes, Instructor Xuan Yuan!” Ye Tian responded.

At that moment, Ye Tian activated his copy ability, attempting to envelop Dominator Xuan Yuan.

Although here, his copying ability's range was suppressed to a very small area, he still successfully enveloped Dominator Xuan Yuan.

Instantly, the talent details of Dominator Xuan Yuan were revealed to Ye Tian.

At that moment, the stone figures seemed to reverse time, and all data returned to three o'clock in the afternoon.

Chapter 504: Guidance from Dominator Xuan Yuan!

Human: Li Xuan

Cultivation Talent: Chaos Level

Strength Talent: God Level

Extreme Speed Talent: God Level

Defense Talent: God Level

Palm Technique Talent: Supreme Level

Healing Talent: God Level

Wind Blade Talent: God Level

Fire Dragon Talent: God Level

Ye Tian discovered that Dominator Xuan Yuan possessed high talents, but what truly interested Ye Tian was the Dominator's Chaos level cultivation talent.

“Chaos level cultivation talent, copy!”

Ye Tian silently copied Dominator Xuan Yuan's Chaos level cultivation talent, feeling extremely delighted in his heart.

Now, he was only one Chaos level cultivation talent away from advancing his own cultivation talent to the next tier.

“Ye Tian!”

Dominator Xuan Yuan called out Ye Tian's name and said, “You need to give me a rough idea of your strength so that I can guide your cultivation more effectively!”

Ye Tian hastily replied, “Instructor Xuan Yuan, I have now cultivated the Chaos Body Refining Technique to the fifth level realm, achieved major realm in two spatial talents, cultivated a great divine ability known as the Five Elements Divine Wheel, and also created a Ultimate Saber Technique.”

“Not bad!”

Dominator Xuan Yuan nodded, but his eyes showed no sign of surprise, as if Ye Tian's strength was not astonishing in his view.

"Do you have any questions?" Dominator Xuan Yuan suddenly asked.

After pondering for a moment, Ye Tian then asked, "Instructor Xuan Yuan, my strength has already advanced to the second tier of the Eternal Child of the Universe level, but I'm almost reaching my limit in terms of areas where I can improve. It seems difficult even to ascend to the first tier of the Eternal Child of the Universe level. How do those Supreme Princes become Supreme Children of the Universe?"

Dominator Xuan Yuan explained, "Actually, you're mistaken. There are no Supreme Children of the Universe at the Emperor level. Even if you cultivate the Chaos Body Refining Technique to the highest seventh level and perfect the Ultimate Saber Technique to an extremely high level, or even master many great divine abilities, you would only be considered the strongest Eternal Child of the Universe, still unable to become a Supreme Child of the Universe."

"Why is that?" Ye Tian was extremely surprised.

"Because at the Emperor level, being an Eternal Child of the Universe is the limit. Those Supreme Princes in the universe didn't achieve their status at the Emperor level, but after it.

A very few Supreme Princes became Supreme Children of the Universe at the God level, some at the True God level, and most at the Great God level.

The reason is that the Emperor level is not perfect. The physical, yuan force, and soul of an Emperor level are somewhat lacking and haven't been truly sublimated. Only by becoming a God level can one achieve the most perfect divine body and become a Supreme Child of the Universe! In short, it's very difficult to become a Supreme Prince. Sometimes, being powerful isn't enough to reach that level. When you're truly ready to strive for the Supreme level, I'll tell you the specific methods.

But it's not beneficial for you to touch upon this kind of knowledge too early!"

"So that's how it is!"

Ye Tian had an epiphany! However, it was still crucial to continuously enhance his strength at the Emperor level. If he couldn't become the first tier Eternal Child of the Universe at the Emperor level, it would be almost hopeless to aim for the Supreme Child of the Universe level in the future.

After a moment of silence, Dominator Xuan Yuan then offered some suggestions to Ye Tian.

“Ye Tian, you're cultivating the Chaos Body Refining Technique. To cultivate it to the perfected realm, all twelve of your talents need to reach the God level, among which it's nearly impossible for the space and time talents to reach the God level. Your space talents have already achieved the God level.

As for whether you possess time talent, I'm not certain, but even if you do, your time talent definitely hasn't reached the God level!”

“Perhaps you're wondering why I'm so sure. That's because if your time talent reached the God level, you would have all attributes at the God level, and your physique would become a true Holy Chaos Body.

Every cell in a Holy Chaos Body contains the laws of chaos, while your current physique is merely a Chaos Body cultivated through the Chaos Body Refining Technique, far from comparable to a Holy Chaos Body.

Thus, I'm certain you don't possess a God level time talent!”

Dominator Xuan Yuan stated with absolute certainty.

“A Holy Chaos Body!”

This was the first time Ye Tian heard about this physique, but he was surprised that gathering all twelve God level attributes could actually condense into a Holy Chaos Body.

If that were the case, if he could elevate his time talent to the God level in the future and the Holy Chaos Body were to condense, then his time talent would naturally be revealed.

Even if it meant exposing his time talent, Ye Tian would be willing to condense into a Holy Chaos Body.

At this moment, Dominator Xuan Yuan continued, “Since you don’t possess a God level time talent, you can’t cultivate the Chaos Body Refining Technique to the highest seventh level realm. Therefore, you don’t need to rush to advance the realm of the Chaos Body Refining Technique. Even trying to elevate it from the fifth to the sixth level would be unimaginably difficult for you! My advice is to first elevate your spatial divine ability to the perfected realm, then perfect the Ultimate Saber Technique, and thirdly, create your own divine canon secret technique, among which the secret technique is of utmost importance.

Since you’re cultivating the Chaos Body Refining Technique, you need to create your own Chaos Secret Technique!”

“Chaos Secret Technique, what is that?”

Ye Tian was quite puzzled.

The supreme divine canon, Chaos Body Refining Technique, had never mentioned anything about a Chaos Secret Technique. This was the first time he heard about the need to create a Chaos Secret Technique.

“Divine canons are one of the most important inheritances of a race. Without a sufficient number of divine canons, a race could hardly become a major cosmic race.

As for the divine canons, let alone you, even some Universal Gods cannot fully comprehend their mysteries.

Divine canons are not just for the Children of the Universe to continue advancing their cultivation; they are more like a general guideline.

Some Eternal Princes cultivated ordinary divine canons and perfected them at the Emperor level. So, after becoming God level, what would they cultivate? Would they continue to cultivate divine canons?”

“No, once one becomes God level, it’s impossible to continue cultivating divine canons! However, the use of divine canons doesn’t vanish. The Children of the Universe can continue

to comprehend the divine canons and create secret techniques suitable for their own divine canons. These secret techniques can significantly increase their combat power, but of course, they can only enhance the power in combination with the divine canons.

These secret techniques are only useful to themselves, useless to others, so they cannot be passed down and can only be created and comprehended by oneself!”

“Other Princes will only start to create divine canon secret techniques after reaching God level, but as for you, you must start creating divine canon secret techniques at the Emperor level. Only then can you become the first tier Eternal Child of the Universe at a faster pace!”

“My real intention in guiding you is to help you create a divine canon secret technique. But, I can only point you in the right direction, telling you how to truly comprehend the mysteries of the divine canon. You have to rely on yourself!”

With these words from Dominator Xuan Yuan, Ye Tian had a complete epiphany.

Following that, Ye Tian listened to Dominator Xuan Yuan discussing many aspects to pay attention to in cultivation, benefiting greatly.

After a long while, Dominator Xuan Yuan said to Ye Tian, “From now on, you can come here once every year, and I will only guide you for one month.

I will try to answer any questions you have regarding cultivation, and if you stray in your training, I will remind you!”

“This month, I will mainly talk to you about how to elevate your spatial divine ability to the perfected realm.”

Dominator Xuan Yuan spoke in great detail and earnestness.

In fact, Dominator Xuan Yuan didn’t possess spatial talents nor had he cultivated any spatial divine abilities, but his knowledge was so vast that he naturally knew how to guide Ye Tian.

Elevating spatial divine ability from the major realm to the perfected realm was very difficult, with basically three methods.

The first method is to use his spatial divine ability countless times, comprehend them over a long period, and gradually elevate the spatial divine ability to the perfected realm. This method is undoubtedly the slowest but also the most stable.

The second method is to use a high-level Spatial Origin Artifact, extract spatial origin, and forcibly elevate the spatial divine ability to the perfected realm.

However, this method is undoubtedly a short-term solution with too great a cost, and no race is willing to do so.

A high-level Spatial Origin Artifact was too precious, sometimes even more valuable than a peak-level Child of the Universe by many times, enough to match the value of an Eternal Child of the Universe! More importantly, Eternal Children of the Universe could be gradually nurtured, but if a Spatial Origin Artifact is destroyed or severely damaged, it's difficult to obtain another complete one.

The third method is to cultivate a spatial cultivation secret technique, tapping into the potential of spatial divine abilities, thereby elevating the spatial divine ability to the perfected realm in one fell swoop.

However, spatial cultivation secret techniques were extremely rare. Ye Tian had only heard about them among the Crystal Spirit Race, and even in the Yellow Region of the Supreme Hall of Humanity's Heritage Hall, he had never seen one.

Suddenly.

Dominator Xuan Yuan took out a golden secret manual: "This is a spatial cultivation secret technique called the Divine Space Secret Technique, originating from the Purple Crystal Spirit Race!"

"Instructor Xuan Yuan, the Purple Crystal Spirit Race strictly controls their spatial cultivation secret techniques, not leaking them at all. How do you have one?" Ye Tian was astonished.

"Ye Tian, you underestimate the Human Race and overestimate the Crystal Spirit Race! In the eyes of our Human Race, the Purple Crystal Spirit Race is nothing but ants. They think they completely control their race, but in reality, their inner workings have already been infiltrated

by the high ranks of our Human Race! Thus, many precious secret techniques of the Crystal Spirit Race are essentially in the hands of our Human Race's upper echelons.

It's just that to avoid the Crystal Spirit Race becoming aware and causing turmoil, it hasn't been made public.

You can take this spatial cultivation secret technique to study, but you must absolutely not reveal it, even forbidding its sale, or else, even if you are an Eternal Prince, our Supreme Hall of Humanity will impose severe punishment on you." Dominator Xuan Yuan solemnly reminded.

"Yes, Instructor Xuan Yuan!"

Ye Tian nodded and then took the spatial cultivation secret technique from the Instructor Xuan Yuan's hands.

Chapter 505: Divine Canon Secret Techniques, Utilizing the Chaos Dao!

Following that, Dominator Xuan Yuan provided guidance to Ye Tian on spatial divine abilities, based on the spatial secret technique.

In the blink of an eye, a month had passed.

"After a year, I will come again, Instructor Xuan Yuan," Ye Tian said as he bid farewell.

"Go ahead!" Dominator Xuan Yuan responded, waving his hand.

Ye Tian left the divine palace of Dominator Xuan Yuan and then called for Ziya. Soon after, Ziya arrived, taking Ye Tian away and returning to the Cultivation Tower in the Yellow Region.

As soon as he returned, Ye Tian immediately entered a state of cultivation, where he was comprehending the divine secrets of space.

The spaital secret technique, originating from the Purple Spirit Crystal Race, was a precious manual. Its primary function was not to enhance the power of spatial divine abilities or to raise the level of spatial talents, but rather to deeply explore the potential of spatial divine abilities.

By cultivating the spaital secret technique, Ye Tian could grasp the essence of spatial divine abilities. With the help of this essence, he could understand how to elevate his spatial divine abilities.

As long as he continued to delve into the spaital secret technique, Ye Tian could elevate his major realm spatial divine abilities to a perfected realm.

Of course, this process wasn't going to be immediate; uncovering the potential of spatial divine abilities required a step-by-step approach and a highly keen intellect.

Being an Eternal Child of the Universe, Ye Tian possessed an extraordinarily keen intellect, along with top-tier comprehension talent, making the comprehension of the spaital secret technique not an issue at all.

In the days that followed, Ye Tian focused on leveraging the spaital secret technique to unearth the potential and essence of spatial divine abilities, gradually enhancing them.

Thus, another year went by.

Under the time talent, Ye Tian had devoted a full 30 years to his comprehension but had yet to elevate any of his spatial divine abilities to the perfected realm.

However, Ye Tian felt significant progress and believed that in a few more years, he could bring his spatial divine abilities to the perfected realm.

One day, Ye Tian visited the divine residence of Dominator Xuan Yuan again.

This time, Dominator Xuan Yuan's guidance focused on the ultimate techniques of the Saber Dao.

"Ye Tian, it is indeed commendable that you have created an ultimate technique for the Saber Dao and have begun to refine it. However, the path of the Saber Dao is vast and profound. Even if you have created an ultimate technique, you are far from reaching the pinnacle of the

Saber Dao. In fact, ultimate techniques of the Saber Dao can be classified into several tiers: ordinary, peak, and pinnacle,” Dominator Xuan Yuan explained earnestly.

Listening intently, Ye Tian quickly learned from Dominator Xuan Yuan that the ultimate technique he had created, the Heavenly Moon Saber, was merely at the ordinary tier.

It could even be said that Ye Tian’s Heavenly Moon Saber Technique wasn’t particularly strong even among ordinary-tier Ultimate Saber Techniques.

Above the ordinary tier, there were peak and pinnacle-tier Ultimate Saber Techniques.

However, for Ye Tian, who was only at the Emperor level, peak and pinnacle-tier Ultimate Saber Techniques were far too lofty. Some Princes in the Mysterious and Earth Tiers who specialized in the Saber Dao had not even comprehended peak-tier Ultimate Saber Techniques.

Ye Tian’s current goal wasn’t to achieve a peak-tier Ultimate Saber Technique but to refine his Ultimate Saber Technique to the strongest level within the ordinary tier.

Even this goal was incredibly challenging. If Ye Tian were to rely solely on his own insights, it would be difficult to achieve at the Emperor level.

However, with the guidance of Dominator Xuan Yuan, Ye Tian gradually understood how to progress on the path of the Saber Dao.

His Saber Dao had already taken a definitive shape, and it was impossible to change this aspect.

Dominator Xuan Yuan’s advice was to create saber techniques! In his quest to create an ultimate technique for the Saber Dao, Ye Tian had perused countless saber techniques and manuals.

But those were creations of others, not truly his own. After absorbing the essence of countless saber techniques and integrating them, he created something that was entirely his own, thus forming his own Ultimate Saber Technique.

To further refine his Ultimate Saber Technique to a stronger level, Ye Tian couldn't rely solely on the creations of others. He needed to create his own saber techniques. Through the creation of countless saber techniques and years of accumulation, he could hope to refine his Ultimate Saber Technique further.

Many saber techniques of humanity were actually created by those powerful beings attempting to perfect their skills, which then spread and became the cultivation manuals for countless saber wielders.

Now, Ye Tian had reached this stage; he too needed to create a multitude of saber techniques. Only after many years of accumulation would he have a chance to further refine his Ultimate Saber Technique.

Over the course of a month, Dominator Xuan Yuan continuously provided guidance on refining Ye Tian's Ultimate Saber Technique, even asking Ye Tian to display his Heavenly Moon Saber Technique, pointing out its flaws.

With the flaws of the Heavenly Moon Saber Technique identified, it was easier for Ye Tian to refine it, making the process much more straightforward.

Of course, only a powerful being like Dominator Xuan Yuan could easily identify the flaws in the Ultimate Saber Techniques.

Ye Tian himself was completely oblivious to them; had he been able to see these flaws, he would have perfected them on his own long ago.

With the guidance of Dominator Xuan Yuan, Ye Tian made significant progress and had formulated a rough plan for improvement.

According to this plan, once fully implemented, Ye Tian estimated that the power of his Heavenly Moon Saber Technique could at least double.

By then, even if Ye Tian's Heavenly Moon Saber Technique wouldn't be the strongest among the ordinary-tier Ultimate Saber Techniques, it would at least be considered upper-class.

Soon, another month passed.

Ye Tian returned to his cultivation tower and began to comprehend the spaital secret technique while attempting to create saber techniques.

Starting from the lowest Black Iron tier, Ye Tian progressively created Bronze tier, Silver tier, Gold tier, Legendary, and then God level and Super God level saber techniques...

This process also required a significant amount of time and was not something that could yield results quickly.

Ye Tian was not impatient. Now that he had a direction, he was full of motivation in his cultivation, unlike before when he had no clear path forward and his progress in cultivation was slow.

The guidance of Dominator Xuan Yuan was immensely helpful to him, akin to a complete transformation.

Ye Tian went into seclusion for another year.

One day.

Ye Tian once again visited the divine residence of Dominator Xuan Yuan. This visit was extremely important for Ye Tian because Dominator Xuan Yuan was going to guide him on creating divine canon secret techniques.

Divine canon secret techniques were crucial in cultivation, not only at the Emperor level of a Child of the Universe but even more so after breaking through to the God level. Divine canon secret techniques would accompany a Child of the Universe for countless years, playing a very important part in their cultivation. Ye Tian sat cross-legged below, listening to Dominator Xuan Yuan speak about divine canon secret techniques.

“Each Divine Canon actually represents a method of a great Dao. For example, the Chaos Body Refining Technique you practice represents the Chaos Dao. Divine canon secret techniques are an application of a Dao. Although you are barely on the path of the Chaos Dao, you can only barely activate the power of the Chaos Body with the Chaos Body Refining Technique to enhance some combat power.

In reality, you haven't even achieved the most basic application of the Chaos Dao. To utilize the power of the Chaos Dao, you must create divine canon secret techniques. The strength of divine canon secret techniques also represents a Child of the Universe's understanding of the Dao and Divine Canons!"

"Ye Tian, my expectations for you are not high. You don't need to create those powerful divine canon secret techniques. For now, you just need to create a divine canon secret that can slightly mobilize the power of the Chaos Dao.

Even if it barely qualifies as a divine canon secret, then you would be considered successful!"

Following that, Dominator Xuan Yuan spoke a lot more about divine canon secret techniques, providing Ye Tian with much valuable insight.

A month later, Ye Tian left satisfied and returned to the Yellow Region.

In this manner, Ye Tian received guidance from Dominator Xuan Yuan once every year.

As time slowly passed, ten years went by.

One day, Ye Tian laughed loudly in his cultivation tower.

Because just then, he had fully unearthed the potential of the Spatial Divine Form, elevating this divine ability to the perfected realm in one fell swoop.

The transition of the Spatial Divine Form from the major realm to the perfected realm significantly increased its power.

With the Spatial Divine Form reaching the perfected realm, Ye Tian's strength also increased somewhat, but he was still far from the first tier of the Eternal Child of the Universe.

With one spatial divine ability reaching the perfected realm, it became much easier for Ye Tian to elevate a second spatial divine ability to the perfected realm.

Half a month later, another spatial divine ability, also reached the perfected realm, allowing him to form a ten-thousand-layer barrier once activated.

With two spatial divine abilities reaching the perfected realm, Ye Tian temporarily set aside the comprehension and cultivation of spatial divine abilities, turning his focus to creating saber techniques and divine canon secret techniques.

By now, Ye Tian had created countless saber techniques, creating over ten thousand techniques for each tier.

Currently, he had begun creating Super God level saber techniques and had already created quite a few of them.

If the Heavenly Prides of the galaxy were to know that Ye Tian could now easily create a large number of Super God level saber techniques, they would be utterly astonished.

For those Heavenly Prides, obtaining a Super God level saber technique was extremely difficult and required a significant cost.

Even the top forces in a galaxy wouldn't possess as many Super God level saber techniques, yet, Ye Tian could create them effortlessly on a whim.

It could be said that Ye Tian's achievements had far surpassed the imaginations of those Heavenly Prides and top forces in the galaxy.

"In a few more decades, that grand era will arrive. With my current rate of progress, I should be in the first tier of the Eternal Child of the Universe in strength by then, and even be among the top of the first tier. Even if I can't become the strongest Emperor-level Prince in the universe, I should at least be among the best!"

Ye Tian confidently said to himself.

Chapter 506: Guidance Ends, Trial Begins!

Ye Tian was making steady progress in creating saber techniques, a process that required accumulation and couldn't be achieved overnight.

Thus, he wasn't in a hurry with his saber techniques, knowing well that perfecting a Ultimate Saber Technique wasn't easy. However, as long as he was on the right path, it was only a matter of time before he perfected it.

On the other hand, his progress in creating divine canon secret techniques was slow.

After all, he had just begun exploring this area and creating divine canon secret techniques truly relied on oneself, without the possibility of drawing from others' secret techniques.

Even Dominator Xuan Yuan could only offer symbolic guidance and advice, unable to directly assist Ye Tian.

Therefore, Ye Tian hadn't yet created a divine canon secret technique, despite leveraging his top-tier talent for understanding. Without this talent, he might have lost all confidence.

One day,

Dominator Xuan Yuan provided his final guidance to Ye Tian. After this session, Ye Tian would have to rely on himself for further cultivation at the Emperor level.

Unless he became a God level Prince in the future, there might be a chance to seek advice from Dominator Xuan Yuan again.

"Ye Tian, your progress over the years has been commendable. If you continue to cultivate methodically, becoming a first-tier Eternal Child shouldn't be a problem.

However, you must not be impatient, as it could backfire," said Dominator Xuan Yuan.

"Yes!" Ye Tian nodded.

"What insights do you have in creating divine canon secret techniques?" Dominator Xuan Yuan inquired further.

Ye Tian shook his head. "I have only a slight clue but still can't create a divine canon secret technique! I don't even know how long it will take me to create one."

Dominator Xuan Yuan slightly said, “It’s normal to be confused when you first delve into this field. Once you create a divine canon secret technique, it will be somewhat easier to create others in the future.

In fact, with your current power realm, it’s difficult to make significant progress in the Supreme Hall of Humanity. It might be better for you to venture out.

As for the progress of the Chaos Body Refining Technique, you need not be anxious.

If you can break through to the first-tier Eternal Child before that grand epoch arrives, you’ll have the opportunity to gain incredible fortunes during that epoch, possibly advancing the Chaos Body Refining Technique to the sixth level.

At that time, becoming an Eternal being wouldn’t be difficult! Of course, you don’t need to consider these for now; just focus on perfecting your saber techniques and divine canon secret techniques!”

“Thank you for the guidance, Instructor Dominator Xuan Yuan!” Ye Tian expressed his gratitude.

Then, Dominator Xuan Yuan shared many aspects of knowledge and cultivation elements.

Ye Tian listened attentively. In a blink of an eye, a month passed.

“Leave this place! I have given you all the guidance I can. At the Emperor level, you must rely on yourself!” Dominator Xuan Yuan waved his hand, transporting Ye Tian out.

Standing outside Dominator Xuan Yuan’s divine palace, Ye Tian gazed deeply for a while, then turned and left.

Ziya arrived to pick Ye Tian up.

Back in the Yellow zone, Ye Tian pondered over Dominator Xuan Yuan’s words.

Indeed, continuing to stay in the Supreme Hall of Humanity wouldn't significantly speed up his strength enhancement. The pace of cultivation and enlightenment outside might be similar to here.

Thus, Ye Tian decided to leave the Supreme Hall of Humanity for a while to undergo trials in the human region. He might encounter opportunities that suited him or gain new insights.

According to Dominator Xuan Yuan, creating divine canon secret techniques can be quite miraculous; sometimes, an epiphany could lead to the creation of a secret technique, while years of diligent study might yield nothing.

Being overly eager in creating divine canon secret techniques isn't beneficial.

A few days later, after informing the steward Ziya, Ye Tian left the Supreme Hall of Humanity.

This time, he didn't take True Monarch Jin Chen and the others with him.

Although having True Monarch Jin Chen and others' protection would ensure his safety, there would be no point in undergoing trials if he were protected by a Planetary System level guardian.

Moreover, in the human star field, the likelihood of Ye Tian encountering danger was minimal. That's why he chose to leave the Hall alone.

In the Pan Star Field.

Ye Tian used a teleportation stone gate to return to the Pan Star Field's Hengpan Continent.

As soon as Ye Tian stepped out of the teleportation gate, the stationed Undying Legion soldiers immediately bowed and said, "Greetings, Prince of Ten Thousand Laws!"

Seeing these soldiers of the Undying Legion, Ye Tian was reminded of his agreement with the Undying Legion's leader. Thus, he said, "Take me to your leader!"

The Planetary System level powerhouse immediately nodded, “Prince of Ten Thousand Laws, I will take you to our leader right away!”

The Undying Legion leader had long issued an order to grant Ye Tian immediate access without any hindrance upon his visit.

After all, Ye Tian was a Domain Enforcer, whose status and position were second only to the heads of the Pan Star Field’s four dominant forces.

Furthermore, as Ye Tian was an Eternal Prince of the Supreme Hall of Humanity, with boundless potential, as long as he didn’t fall, he was bound to surpass the Undying Legion Lord.

It was for this reason that the Undying Legion Lord valued Ye Tian immensely, desiring to forge a strong alliance. Hence, he had ordered that no soldier should obstruct Ye Tian’s visit.

Subsequently, a small squad of the Undying Legion, led by the Planetary System level powerhouse, escorted Ye Tian to the headquarters of the Undying Legion.

Undying God Mountain.

This was the headquarters of the Undying Legion, a place usually off-limits to many of its members. However, today, Ye Tian, an outsider, arrived at the Undying God Mountain.

Soon, Ye Tian met the Undying Legion Lord.

The Undying Legion Lord, still wearing a mask that concealed his face, was visibly pleased to see Ye Tian and greeted him with a smile, “Prince of Ten Thousand Laws, you’ve finally arrived. Please, have a seat!”

Ye Tian sat down, and the two of them chatted about various topics at first.

Suddenly,

The Undying Legion Lord said, "Once a Child of the Universe reaches the Planetary System level, they generally leave the Supreme Hall of Humanity. Only a very few remain within certain institutions of the Supreme Hall.

Prince of Ten Thousand Laws, would you consider joining the Undying Legion once you reach the Planetary System level? I am willing to offer you the position of the next leader of the Undying Legion. With your talent and potential, you are destined to become a master of a domain in the Pan Star Field in the future!"

"Undying Legion Lord, I am merely at the Emperor level right now; it's too early to discuss this. Let's talk about it later!" Ye Tian responded.

In truth, this was his polite way of declining. He had no interest in becoming the leader of the Undying Legion or a master of a domain in the Pan Star Field.

His growth rate was too rapid, and he didn't want minor matters to delay his cultivation.

For Ye Tian, the positions of the leader of the Undying Legion and a master of a domain in the Pan Star Field were of no use.

If Ye Tian's ultimate limit were to be a Universal God, he might have considered the Undying Legion's invitation.

However, Ye Tian's potential was far greater; with his talent-copying ability, he could continuously improve his cultivation talent.

Even now, his cultivation talent has reached the Chaos level, and he could become a Dominator in the future.

For a Dominator, the position of a domain master in the Pan Star Field was insignificant.

The Undying Legion Lord had vastly underestimated Ye Tian's talent. If he knew Ye Tian's true talent, he would never have made such an offer.

Seeing Ye Tian's polite refusal, the Undying Legion Lord wasn't offended but continued to smile, "Let's not dwell on this matter for now. Prince of Ten Thousand Laws, do you have any tasks in the Pan Star Field this time? If you need my assistance, feel free to ask!"

"Undying Legion Lord, I'm not here for any specific task this time. I'm just here for some trials. Moreover, the Pan Star Field is just one of my stops!" Ye Tian truthfully said.

"A trial, I see!" The Undying Legion Lord nodded.

In the following days, the Undying Legion Lord hosted a banquet, inviting many significant figures from the Hengpan Continent, including the heads of the other three dominant forces.

It was Ye Tian's first time meeting these influential figures of the Hengpan Continent.

Most attendees were Galaxy level or above, with Ye Tian being the only Emperor participant.

At the banquet, the Undying Legion Lord formally introduced Ye Tian.

The revelation that Ye Tian was the Domain Enforcer of the Pan Star Field astounded the attendees.

Initially, they didn't pay much attention to Ye Tian, seeing him as just an Emperor level, even if he was a Child of the Universe. But the status of a Domain Enforcer was significant, second only to the heads of the four dominant forces, and not something these Galaxy level powerhouses could compare with.

Many Galaxy level powerhouses eagerly conversed with Ye Tian, hoping to make his acquaintance, but Ye Tian merely responded with a polite smile.

This banquet solidified Ye Tian's status at the pinnacle of the Pan Star Field.

Without this banquet, other forces would have remained unaware of Ye Tian's true identity.

Although Ye Tian wasn't concerned about these matters, if his wife, Empress Yue, and his sister, Ye Yu, expanded Tian Pavilion to the Hengpan Galaxy system in the future, Ye Tian's status would become crucial.

Knowing that Tian Pavilion was established by a Domain Enforcer, the powers of eight or nine stars would naturally not dare to provoke or suppress it.

After the banquet, Ye Tian left the Hengpan Continent.

He boarded a cosmic spaceship and soon returned to Earth in the Milky Way.

Empress Yue was mostly staying on Earth now, with the resources Ye Tian had provided her, she didn't need to go to the Silver Universe Star for cultivation.

And since Earth was Empress Yue's home planet, she naturally didn't want to leave.

Tian Pavilion.

The Moon God Sect had fully integrated with Tian Pavilion, so Empress Yue was always stationed there.

Currently cultivating, Empress Yue suddenly felt a powerful and familiar aura approaching Tian Pavilion.

"My husband is back!" Empress Yue's face lit up with joy.

Chapter 507: A Step into the Dao!

Empress Yue hastily concluded her cultivation and exited the Tian Pavilion.

Instantly, her gaze locked with a pair of eyes in the distance.

It was Ye Tian! In a flash, Ye Tian teleported over and stood in front of Empress Yue, embracing her tightly in his arms: "Yue'er, I'm back!"

“Husband, I’ve missed you!” Empress Yue held Ye Tian tightly and murmured.

“Yue’er, I missed you too!” Ye Tian spoke softly.

The two embraced for a long time before finally letting go and entering the Tian Pavilion together.

The development of the Tian Pavilion was rapid, and it had already produced many God level powerhouses, even Empress Yue had stepped into the sixth tier of the God level.

After all, Empress Yue’s cultivation talent was high, and with ample cultivation resources, her progress was naturally swift.

Ye Yu, Ye Tian’s sister, was slightly slower in her cultivation pace but had also reached the third tier of the God level.

Ye Tian stayed on Earth for three full months, during this time he was always with his wife, Empress Yue.

Three months later.

Ye Tian left Earth, his purpose was to experience trials and not to be affectionate with his wife on Earth.

In the following days, Ye Tian did not undergo trials in his original appearance but disguised himself as an inconspicuous young man.

After all, Ye Tian’s fame was significant, not to mention in the Pan Star Field, even in other star fields, some powerful forces might have information on Ye Tian.

If he underwent trials in his original appearance, it would bring many troubles to Ye Tian; probably every region he visited would have powerful forces inviting him as a guest or paying him a visit, then how could he continue his trials? After disguising his identity, almost no one recognized Ye Tian.

Ye Tian roamed various places in the Pan Star Field, witnessing countless people, events, and objects, and even entered some secret worlds and heritage sites suitable for Emperor level, although he didn't obtain anything significant, he gained a lot of insights.

Sometimes, Ye Tian disguised himself as a mortal to experience the life of ordinary people.

Sometimes, he mingled with cosmic pirates, witnessing the life of cosmic pirates, and then annihilated them.

From the Pan Star Field to other star fields, Ye Tian's footprints covered many star fields.

In the blink of an eye, 20 years had passed.

During these 20 years, Ye Tian did not waste any time; although he was undergoing trials, he did not neglect his cultivation, focusing most of his mind on creating saber techniques and attempting to create divine secret arts.

Ye Tian had already begun attempting to create supreme level saber techniques and had recently succeeded in creating one.

This marked a new beginning, indicating that Ye Tian's proficiency in the Saber Dao had reached a pinnacle.

As for the divine secret arts, Ye Tian also made some progress; he could now initially harness some power of the Chaos Dao, albeit with great difficulty, not yet amounting to a divine secret art.

However, this was a good start, as long as Ye Tian continued his comprehension, he would definitely create a divine secret art.

One day.

Ye Tian arrived at a high-level planet brimming with life. This planet was not very powerful, with only seven or eight God level powerhouses.

Moreover, this world had little connection with the outside world, akin to a native planet.

However, martial arts were thriving on this planet, almost everyone practiced martial arts, very similar to Earth in the past.

Ye Tian walked on this planet, watching events unfold without getting involved.

One day.

An event caught Ye Tian's attention.

He saw about ten Great Martial Warriors chasing a young martial warrior, who should have been doomed.

However.

This young man killed all the Great Martial Warriors one by one.

“Such a powerful martial warrior, even I couldn't kill so many Great Martial Warriors at the martial warrior level back then!”

Ye Tian was quite surprised.

He used his talent copying ability to check this young man's talents and was greatly shocked.

Human: Zhou Tian

Cultivation talent: Low

Defense talent: Basic

Speed talent: Intermediate

Saber talent: Supreme

Apart from his saber talent, Zhou Tian's other talents were extremely poor.

Especially his cultivation talent, which was only low; this level of cultivation would at most make one a martial warrior in their lifetime.

It could be said that if Zhou Tian did not improve his cultivation talent, he would never become an Elite Martial Warrior, let alone a Great Martial Warrior.

“Zhou Tian just killed those Great Martial Warriors with saber techniques. His saber techniques are very special. Though they don't possess the power of normal saber techniques, they are extremely fast, even comparable to the speed of first-tier saber techniques! But what Zhou Tian used was not a complete saber technique, it couldn't even be called a saber technique!”

Ye Tian was very interested in this martial warrior named Zhou Tian, so he followed him invisibly.

Zhou Tian was just a martial warrior, while Ye Tian was an Eternal Prince.

Thus, Zhou Tian could not detect Ye Tian's presence at all.

In the following days, Zhou Tian kept evading his enemies.

During this time, he entered a forest, killed some ferocious beasts, collected their blood, sneaked into a nearby city, sold the beast blood for some money, and then used the money to buy some medicinal herbs for his sister.

Afterward, Zhou Tian zigzagged and finally entered a mountain range.

On a mountain.

There was a wooden hut, Zhou Tian arrived here, entered the hut, and inside was a little girl.

This little girl was his sister, named Zhou Keke.

“Sister, here’s the medicine I just bought. I’ll cook it for you later, and I also brought back some beast meat to nourish your body!” Zhou Tian said.

“Brother, you should go out less. The enemy is searching for us; it’s very dangerous for you to go out like this!” Zhou Keke said worriedly.

“It’s okay, my strength is very strong! Besides, if I don’t earn money to buy medicinal herbs, how can I cure your illness?”

Saying this, Zhou Tian’s eyes filled with worry.

Outside.

Ye Tian, watching this scene, couldn’t help but think of his past with his sister.

He and his sister also depended on each other from a young age, but he was luckier than Zhou Tian.

He had the copy talent and rose quickly, so he and his sister hardly suffered.

Zhou Tian, however, was in a more difficult situation, not only being pursued by enemies but also hiding in the mountains with his sister.

Moreover, Zhou Tian’s sister was always seriously ill.

In fact, Zhou Keke’s illness was not a big deal; it was just a lung injury that had led to a lung disease. For a powerful martial warrior, such an injury could easily be healed with some high-grade medicinal liquids.

Unfortunately, Zhou Tian couldn’t obtain those high-grade medicinal liquids and could only buy some herbs to nourish and stabilize Zhou Keke’s condition.

In the following days, Zhou Tian did not go out but continued his cultivation in the deep mountains.

On a rock under a mountain waterfall.

Zhou Tian took out a saber and slashed at the waterfall again and again.

Ten slashes! A hundred slashes! A thousand slashes! Zhou Tian seemed like a never-tiring machine, continuously swinging and repeating this action.

His sweat had completely soaked his body, his physical strength had dropped to a limit, but he still swung the saber, putting his full force into every slash without any deviation or error.

Normally, even powerful individuals couldn't exert their strongest combat power when their yuan force and physical strength were severely depleted.

But Zhou Tian broke this limit; his saber technique seemed to ignore yuan force and physical strength.

As long as he didn't faint, he had the strongest combat power! Ye Tian stood not far away, constantly watching Zhou Tian swing his saber time and time again.

Such moves seemed to lack technique, but only those who understood the saber could truly appreciate the terror of these moves.

"His technique is almost Dao!" Ye Tian commented.

He now fully understood that Zhou Tian had never systematically learned any saber techniques; he was completely a novice in martial arts.

But precisely because he was a novice, he had carved out his own path in the Saber Dao from the beginning.

"He is about to step into the Dao!" Ye Tian murmured.

He had once seen a record in the Supreme Hall of Humanity's Heritage Hall that mentioned stepping into the Dao. It referred to someone who started with a very low realm.

Let's take the Saber Dao as an example.

At the beginning, this person couldn't even master the Black Iron level saber techniques, not to mention grasping the saber momentum or saber intent. It was as if they didn't understand what saber techniques were.

But suddenly one day, this person instantly comprehended the Saber Dao to a profound degree. Some of the outstanding ones even grasped moves that were only second to the ultimate saber techniques of the Saber Dao.

Such individuals could easily comprehend the ultimate saber techniques of the Saber Dao, with great potential for the future.

When Ye Tian first saw this record, he didn't take it seriously and even thought it was a bit far-fetched. After all, how could someone go from knowing nothing to instantly comprehending the Saber Dao, skipping the stages of saber momentum and saber intent? And since the realm of the Saber Dao was so difficult to improve, how could someone leap so far so suddenly? But now, Ye Tian believed it! Zhou Tian in front of him was about to step into the Dao, and in his saber, he could even mobilize a trace of the power of the laws of the saber.

"This is a born saber wielder, who pours all of himself into his saber, with only the saber in his heart. Although he hasn't systematically learned any saber techniques, he has comprehended the true essence of the saber."

"Compared to him, I even feel somewhat inferior in some aspects. His obsession with and sincerity towards the saber are too strong. Although he only knows one move, as long as he perfects this one move to the extreme, it can break all saber techniques in the world! This is the ultimate Saber Dao technique! The Dao is in simplicity. It turns out I've always been thinking about complicating the ultimate techniques of the Saber Dao, but the more complicated they are, the harder it is to optimize the Ultimate Saber Techniques! Why can't I take a different approach and simplify the Ultimate Saber Techniques?" Ye Tian suddenly realized.

The reason the Dominator Xuan Yuan didn't tell him this was that the Dominator Xuan Yuan didn't practice the Saber Dao, but the Palm Dao.

And the path each saber practitioner takes is different; it's undoubtedly inappropriate to forcibly make other saber practitioners follow one's own path.

Ye Tian's Saber Dao aimed to be the strongest. However, simplicity was also the strongest.

"Zhou Tian's Saber Dao is still different from mine. I won't follow Zhou Tian's Saber Dao, but I can draw inspiration from it.

My path is the strongest Saber Dao, but the Heavenly Moon Saber that I fused contains the essence of numerous saber techniques, creating an Ultimate Saber Technique that, although contains the strongest mysteries, also mixes other concepts."

"I need to perfect the Heavenly Moon Saber, just remove other concepts, and perfect the Heavenly Moon Saber into the purest ultimate technique of the strongest Saber Dao! The saber techniques I need to create don't have to be many, just need to create the strongest one!"

At this moment, Ye Tian fully understood, and the strongest path within him became even purer and stronger! At this time, Ye Tian's mind was clear, with numerous inspirations flashing.

Boom!!! A large number of Black Iron level saber techniques appeared in Ye Tian's mind, continuously breaking down and then fusing, eventually forming a new Black Iron level saber technique.

This Black Iron level saber technique reached the strongest attack limit that Black Iron level saber techniques could achieve.

This was the limit of the Heavenly Dao, unable to be improved further.

It was called the strongest Black Iron level saber technique.

The strongest Silver level saber technique was born, the strongest Gold level saber technique was born. At this moment, Ye Tian was completely immersed in an epiphany.

Unknowingly, his invisibility talent had run its course.

The invisibility talent couldn't be kept active indefinitely, but it could be reactivated just before it disappeared.

However, Ye Tian, completely immersed in the epiphany, naturally couldn't reactivate his invisibility talent.

So, his body became visible!

Chapter 508: The First Disciple, Bestowing the Talent for Cultivation!

Time slowly passed, and Ye Tian had no idea how long he had been in a state of sudden enlightenment, so much so that he had lost all concept of time.

He was simply guided by his instincts, continuously creating the strongest saber techniques.

The strongest Legendary-level saber techniques! The strongest God-level saber techniques! The strongest Super God-level saber techniques! Eventually, Ye Tian finally created the strongest Supreme-level saber technique.

In an instant, Ye Tian's foundation in saber techniques erupted, with numerous flashes of inspiration surging forth, providing him with a wealth of insights and ideas about the Ultimate Saber Technique, Heavenly Moon Saber.

Thus, Ye Tian set about perfecting the Heavenly Moon Saber.

Many irrelevant concepts and contents were meticulously removed by Ye Tian, propelling the Heavenly Moon Saber towards becoming the strongest Ordinary-level Ultimate Saber Technique.

Of course, turning the Heavenly Moon Saber into the strongest Ordinary-level Ultimate Saber Technique in one go was practically unrealistic.

But this moment of sudden enlightenment had saved Ye Tian a significant amount of time.

More importantly, Ye Tian had found the best shortcut to perfect his own Ultimate Saber Technique, which was the greatest benefit!

“I’ve succeeded!”

Ye Tian emerged from his state of sudden enlightenment, having successfully refined the Heavenly Moon Saber Ultimate Technique once, gaining the embryonic form of the strongest Ultimate Saber Technique. It was considered one of the top among Ordinary-level Ultimate Saber Techniques, much more powerful than before.

Immediately upon opening his eyes, Ye Tian saw a person.

“Zhou Tian!”

The person standing not far in front of Ye Tian was Zhou Tian.

Around them, the corpses of ferocious beasts were scattered.

Clearly, during the time Ye Tian was in sudden enlightenment, some ferocious beasts had approached, but Zhou Tian had killed them one by one to protect Ye Tian.

“Elder!” Zhou Tian approached, addressing Ye Tian with respect.

“It’s been a month, you’ve been guarding me this entire month?” Ye Tian inquired.

“Yes, elder. I saw that you were in some sort of trance and didn’t respond to my inquiries, standing motionless here all the while. Since ferocious beasts occasionally come here, I was worried they would disturb you, so I stayed to guard you!” Zhou Tian explained.

Ye Tian said nothing, his gaze fixed on Zhou Tian, his thoughts unknown.

Zhou Tian was very nervous. Although Ye Tian had never made a move, he knew that Ye Tian was an incredibly powerful martial warrior.

The saber aura that Ye Tian emitted during his enlightenment was so potent that compared to Ye Tian’s saber aura, Zhou Tian felt incomparably weaker.

The gap between them was like comparing a vast ocean to a small ditch.

“Do you wish to become a strong warrior?” Ye Tian suddenly asked.

“Yes!”

Zhou Tian nodded repeatedly, but then his gaze dimmed, “Elder, my cultivation talent is very poor, just a Low-level cultivation talent. Being able to cultivate and become a warrior was already through countless hardships.

With my cultivation talent, there’s no hope of becoming a strong warrior!”

Despite the dimness in his gaze, one could still see a persistence and a faint hope shining through.

“Cultivation talent can be changed, many treasures can enhance cultivation talent. If you are willing, I can improve your cultivation talent!” Ye Tian promised.

He was willing to help Zhou Tian, not out of pity for Zhou Tian, but as an equivalent exchange.

Zhou Tian might be weak, but witnessing Zhou Tian practicing saber techniques had triggered his own sudden enlightenment, perfecting his own Ultimate Saber Technique.

Without Zhou Tian, Ye Tian might still have been able to comprehend the strongest Ultimate Saber Technique and know how to perfect his own Ultimate Saber Technique, but it would not have been achieved in a short time.

It could be said that Zhou Tian had saved him many years of cultivation and spared him many detours.

If he were to leave just like that, he would feel guilty, so he wanted to help Zhou Tian.

“Elder, if you can enhance my cultivation talent, Zhou Tian is willing to repay you for a lifetime!”

With a thud, Zhou Tian knelt down, bowing continuously.

Seeing Zhou Tian like this, Ye Tian suddenly had an idea, saying, “Would you like to become my disciple?”

Taking a disciple! This was an idea that suddenly came to Ye Tian.

Zhou Tian was about to step onto the path, and with his talent and astonishing comprehension in saber techniques, as long as his cultivation talent was enhanced, his future potential would be incredibly formidable.

Taking such a disciple was also a matter of pride.

Of course, even if Zhou Tian did not rise to prominence in the future and remained mediocre, it would not have any impact.

“Willing, willing, your disciple greets Master!”

Zhou Tian bowed three times in succession, accepting Ye Tian as his master.

At this moment, Ye Tian took out a bright red fruit and handed it to Zhou Tian, “Eat this fruit, it can improve your cultivation talent!”

Indeed, this fruit had the effect of improving cultivation talent, but it could only enhance a person’s cultivation talent to the Extraordinary level.

Naturally, Ye Tian would not just elevate his disciple’s cultivation talent to the Extraordinary level. The fruit was merely a cover.

He planned to use the Seizure and Bestowal ability of his talent-copying to bestow Zhou Tian with Hong-level cultivation talent.

During this period of experience, Ye Tian had encountered many evil Heavenly Prides and God-level powerhouses, all of whom had fallen by his hand. Among them, some warriors with good cultivation talents had their bodies collected by him and stored in a certain area of his Xumi Storage Realm.

Some of these corpses possessed Hong-level cultivation talents, allowing Ye Tian to bestow Hong-level cultivation talent to Zhou Tian at any time.

“Thank you, Master!”

Without any hesitation, Zhou Tian swallowed the fruit in one gulp.

As the fruit entered his mouth, a surge of energy flowed into his body.

And at that moment, Ye Tian bestowed upon Zhou Tian the Hong-level cultivation talent.

Boom! The Hong-level cultivation talent merged with Zhou Tian’s Low-level cultivation talent, transforming Zhou Tian’s cultivation talent.

Instantly, Zhou Tian’s soul felt as if it were about to explode, the intense pain almost drowning his consciousness.

“Cultivating talent will be painful, you must endure!”

Ye Tian’s voice reached into Zhou Tian’s soul.

Hearing Ye Tian’s warning, Zhou Tian forcibly endured the intense pain, rolling on the ground, almost crushing his teeth.

Where an ordinary person might have fainted from the pain, Zhou Tian’s will was extraordinarily strong, far surpassing that of an average person, allowing him to bear the pain successfully.

In the blink of an eye, half an hour passed.

Ye Tian used his talent-copying ability to check Zhou Tian's talent and, seeing that Zhou Tian's talent had changed, smiled slightly.

[Cultivation Talent: Hong-level]

At this moment, Zhou Tian's cultivation talent had reached the Hong-level. As long as he did not fall, Zhou Tian would inevitably become a Planetary System-level powerhouse in the future.

Moreover, with countless opportunities in the universe, Zhou Tian might be able to elevate his Hong-level cultivation talent even further on his own.

“Healing Talent!”

Ye Tian activated his healing talent, emitting a healing glow from his hands, enveloping Zhou Tian.

Zhou Tian had rolled continuously while enduring the fusion of talents, injuring his body all over, and his teeth were nearly shattered.

If Ye Tian did not heal Zhou Tian, it would take an unknown amount of time for Zhou Tian to recover from his injuries with his own cultivation.

As the healing light enveloped Zhou Tian, his injuries healed at a visible speed, and even his teeth grew back.

In an instant, not only had Zhou Tian's injuries healed, but even the hidden issues in his body caused by forcibly cultivating were repaired.

“My body feels so light!”

Zhou Tian stood up and moved his body, immediately feeling exhilarated.

He felt better than ever before, as if he had a completely new body.

“Thank you, Master, for healing my injuries!” Zhou Tian expressed his gratitude.

“It’s nothing. Your cultivation talent has now reached the Hong-level. If you continue to cultivate, you can reach the Planetary System level!” Ye Tian said.

“Hong-level cultivation talent, Planetary System level?”

Zhou Tian heard these terms for the first time and was utterly perplexed.

“Master, what is Hong-level cultivation talent, and what is the Planetary System level?” Zhou Tian asked.

It was not strange that Zhou Tian was unaware of the Hong-level cultivation talent and the Planetary System level, given that the strongest beings on his planet were only at the God level. This planet was almost completely isolated from the outside world, and he had never been exposed to profound cultivation inheritances, essentially being a martial arts novice.

Ye Tian explained, “Cultivation talents are classified as Weak, Low, Basic, Intermediate, High, and Top levels.

Above the Top level, there are the Extraordinary, Morning Star, Moonlight, Dawn, Supreme, Desolate, Hong levels, and above Hong level are the Cosmic and Universal levels.

As for cultivation levels, let’s not talk about the lower ones, just those above Grandmaster, which are King level, Saint level, Emperor level, God level, True God level, Great God level, and then Planetary System level, Galaxy level, and even Universal God. Now, your cultivation talent is at the Hong level, which means you can cultivate to the Planetary System level.

On this planet, the strongest are only at the God level. If you work hard, you can easily become the strongest being on this planet.

Now that you are my disciple, your future goal should be the vast starry skies, not this tiny planet!”

Zhou Tian was stunned! The information Ye Tian shared completely shattered his understanding. The Hong-level cultivation talent surpassed the Low-level cultivation talent by so many levels.

Originally just a cultivation failure, had he not become a heaven-defying cultivation genius? He knew about God-level powerhouses, but those were legendary figures.

Now, in Ye Tian's words, God-level powerhouses seemed like mere mortals. With his Hong-level cultivation talent, he could easily surpass the God level and become a high and mighty Planetary System-level powerhouse in the future.

"Master easily changed my cultivation talent to the Hong level, so Master must be a powerhouse above the Planetary System level!" Zhou Tian thought.

However, he was indeed overthinking it. Although Ye Tian was an Eternal Child of the Universe, his cultivation realm was still at the Emperor level.

"Master, can you save my sister?" Zhou Tian knelt down and pleaded.

"Yes!" Ye Tian nodded in agreement.

"Thank you, Master!" Zhou Tian was extremely excited.

Then, Ye Tian and Zhou Tian returned to the small cabin.

As soon as they entered, Zhou Tian introduced Ye Tian to his sister.

Zhou Keke, knowing that Ye Tian was an incredibly powerful martial warrior, was somewhat restrained and even nervous.

"I will start the healing now!" Ye Tian deployed his healing talent, easily treating Zhou Keke's injuries.

In just an instant, Zhou Keke's complexion returned to normal, and her lung injuries were completely healed.

“Brother, I’m healed!” Zhou Keke moved her body and exclaimed excitedly.

#### Chapter 509: Zhou Tian’s Battle

Zhou Keke was bouncing around energetically in front of Zhou Tian, who, at that moment, was overwhelmed with joy and tears.

He felt both heartache and helplessness towards his sister’s illness, which had gradually become a source of constant worry for him.

Every time he saw his sister suffering from her illness, he wished more than anything that she could recover, or that he could bear her pain himself.

In many a night’s dream, he had seen his sister healed, only to wake up to disappointment.

Zhou Tian pinched his own arm, feeling a faint pain.

“This is not a dream!”

Zhou Tian embraced his sister tightly.

Seeing the siblings so happy, Ye Tian slowly stepped out of the wooden house.

Not long after, Zhou Tian came out of the wooden house.

“Master, thank you for curing my sister!”

Zhou Tian expressed his gratitude again.

“Curing your sister was a trivial matter for me. Since you’ve taken me as your master, I will guide you for a while, but I will soon leave this place,” Ye Tian said.

“Master, can I leave with you?” Zhou Tian hastily asked.

“No, you cannot,” Ye Tian shook his head and said, “I will continue to travel to various places, and following me will hinder your cultivation progress. Although there are not many powerful beings on this planet, it is still a decent environment for cultivation. When you leave this planet and truly shine among humanity, perhaps we will meet again.”

“Master...” Zhou Tian did not insist on following Ye Tian, knowing that his own strength was too weak and would only be a burden to his master.

In the following months, Ye Tian detailed every level of cultivation from Martial Warrior to Emperor level, and passed on to Zhou Tian an advanced yuan force cultivation secret technique.

Under Ye Tian’s guidance, Zhou Tian’s insights broadened, and he was no longer a novice in martial arts.

At the same time, his cultivation speed reached astonishing levels.

In a short period of time, he became a Great Martial Warrior, and this was with suppressed cultivation speed; otherwise, he could have directly become a Grandmaster or even a King-level powerhouse.

With Ye Tian’s help, he also broke through his physical limits, enabling him to exert greater combat strength.

Ye Tian only imparted basic knowledge and the considerations in cultivation to avoid detours for Zhou Tian.

As for the Saber Dao, Ye Tian did not guide Zhou Tian, as he should cultivate his own Saber Dao.

If Ye Tian forcibly instructed Zhou Tian in the Saber Dao, it could potentially destroy Zhou Tian’s own path.

Thus, Ye Tian only gave Zhou Tian two words: persevere! Zhou Tian only needed to adhere to his own Saber Dao, and one day it would shine brilliantly.

On this day, a group of black-clad warriors arrived at the mountain range where Zhou Tian and his sister resided, totaling seventy to eighty people.

The weakest among these black-clad warriors was at the Great Martial Warrior level, including eight Grandmasters and one King-level powerhouse.

“Lord Han Nan, according to our investigation, Zhou Tian and his sister are most likely hiding in this mountain range. We have located Zhou Tian several times before, but to confirm his location, we only sent a few Great Martial Warriors to scout, all of whom died. This time, with Lord Han Nan personally taking action, Zhou Tian will have no escape! The powerful saber technique in his hands will then belong to Lord Han Nan!” a Grandmaster said while bowing.

“If we truly capture Zhou Tian this time, everyone will be rewarded!” Han Nan promised.

“Thank you, Lord Han Nan!” all the warriors shouted excitedly.

“It seems there will be some entertainment,” Ye Tian said with a slight smile after glancing outside the mountain range.

“Zhou Tian!” Ye Tian called out.

Whoosh! A figure ran over.

“Master, do you have any instructions?” Zhou Tian asked.

“A group of warriors is coming this way, likely your enemies. There’s a King-level warrior, eight Grandmasters, and a large number of Great Martial Warriors among them,” Ye Tian said calmly.

“A King-level warrior!” Zhou Tian’s pupils shrank.

Before meeting Ye Tian, King-level warriors were legendary figures to him.

Even now, he was unsure if he could defeat a King-level warrior.

His self-created saber technique was indeed powerful, capable of invoking the power of the Saber Dao.

However, his current cultivation was only at the Great Martial Warrior level, with Grandmasters above him and King-level warriors above Grandmasters.

The gap between a Great Martial Warrior and a King-level warrior was immense.

“Don’t worry, you can fight to your heart’s content this time,” Ye Tian said.

“Master, I understand!” With no fear in his heart and his powerful master present, Zhou Tian knew he wouldn’t die.

This battle would be... his chance to prove his strength!

Rumble! Han Nan and his group quickly located the mountain where Zhou Tian and his sister lived.

A powerful divine sense swept over, instantly covering the mountain, belonging to Han Nan.

“Hahaha, found them! Zhou Tian and his sister are indeed here!” Han Nan exclaimed excitedly.

Soon, Han Nan and his group arrived. To prevent the battle from affecting his sister, Zhou Tian took the initiative to attack Han Nan and his group.

The two sides met beside a stream.

“Capture Zhou Tian for me!” commanded Han Nan, the King-level powerhouse. His status was too noble to lower himself by taking action personally.

“Yes!” A group of Great Martial Warriors charged towards Zhou Tian.

These weren't ordinary warriors; they were top-tier Great Martial Warriors, at the pinnacle of their cultivation level, far stronger than those Zhou Tian had previously defeated.

However, Zhou Tian's strength had also significantly surpassed his previous level.

"Kill!" Zhou Tian drew his saber, striking with incredible speed.

Thud, thud, thud! One by one, the Great Martial Warriors fell to Zhou Tian's blade, unable to mount any resistance.

Witnessing this, a Grandmaster couldn't help but rush forward, only to be split in half by a streak of saber light as he approached Zhou Tian.

"How is this possible?" Han Nan was stunned.

That was a Grandmaster, not a newly advanced one but a seasoned fighter. Not the strongest among Grandmasters, but certainly a powerful one. And yet, a Great Martial Warrior had instantly killed him! However, this excited Han Nan. The stronger Zhou Tian was, the more formidable the mysterious saber technique seemed.

If he could master this technique, his strength could soar, possibly making him invincible among King-level warriors, maybe even challenging those at the Saint level.

"All seven of you, attack together!" Han Nan ordered.

The remaining seven Grandmasters felt a chill. Their strength wasn't much greater than the one who had just perished. If Zhou Tian could instantly kill that Grandmaster, he could surely do the same to them.

"Lord Han Nan, our strength might not be sufficient... Perhaps you should take action yourself," one of the Grandmasters suggested timidly.

"If I have to act, what use are you to me?" Han Nan's killing intent enveloped the seven Grandmasters, causing them to tremble.

Knowing Han Nan was truly enraged and that failing to act could mean their demise, they charged at Zhou Tian.

Seeing the seven Grandmasters approaching, Zhou Tian was solemn. His speed and defense were his weaknesses; he relied on his attack power and saber speed. If he couldn't kill his enemies in one strike, he might be the one to die.

"Slash!" Zhou Tian struck with all his might.

Three Grandmasters attempted to counter Zhou Tian's strike with their attacks but were effortlessly defeated, their defenses shattered.

Three Grandmasters died instantly! The remaining four, who managed to dodge in time, were still grazed by the saber qi.

"He's a Great Martial Warrior; his speed and defense must be weak. Use long-range attacks!" one of the Grandmasters suggested before unleashing his fire spear talent.

Boom! A massive fire spear formed and shot towards Zhou Tian.

Zhou Tian, with his lower cultivation level, struggled to detect the fire spear's trajectory. But relying on his instinctive reactions, he met it with a slash of his saber.

Boom! The fire spear shattered under Zhou Tian's blade, but the explosive fire energy engulfed him, leaving wounds across his body.

"He's injured; let's capture him!" the four Grandmasters rushed in excitedly, thinking Zhou Tian was severely wounded and weakened.

However, as they approached, Zhou Tian ignored his injuries and unleashed his lightning-fast saber strikes.

Thud, thud, thud, thud! The four Grandmasters couldn't dodge in close range and were each struck down.

With that, all the Grandmasters had fallen.

At that moment, Han Nan laughed, freezing the remaining Great Martial Warriors into ice statues with his cold ice talent.

“You killed your own men?” Zhou Tian was astonished.

“A bunch of useless beings, and they could potentially reveal my secrets. Now, if I capture you, only I will know of the mysterious saber technique!” Han Nan declared.

Zhou Tian was gravely serious; he was no match for Han Nan, especially not against his cold ice talent.

Suddenly, Han Nan’s expression changed as lights approached from afar.

In an instant, figures appeared, all of them King-level warriors.

“Nineteen King-level warriors!” Zhou Tian’s pupils constricted, surprised that so many had appeared for a non-existent mysterious saber technique.

Chapter 510: Divine Canon Secret Techniques, Creation Success

“Why have you all come?”

Han Nan looked at the King-level powerhouses who had suddenly arrived, and his expression changed dramatically.

These King-level powerhouses were almost all not weaker than him, and a few were even stronger.

Moreover, these King-level powerhouses belonged to various forces, each with an extraordinary background.

At this moment, one of the King-level powerhouses spoke up, “Han Nan, the matter of Zhou Tian has already spread. He is said to possess a powerful saber technique inheritance. You are not the only one interested. Did you think you were the only one tracking Zhou Tian? In fact,

among your subordinates, there are our planted pieces. When they discovered Zhou Tian, they sent us the information.”

Another King-level powerhouse said, “Han Nan, we do not wish to put you in a difficult position. How about each of us gets a copy of this inheritance?”

“Fine!” Han Nan reluctantly agreed.

If he didn’t agree, these King-level powerhouses would probably join forces against him, and he might lose his life, let alone obtain the mysterious saber technique.

“Little guy, come over here!”

A King-level powerhouse appeared in front of Zhou Tian at an extremely fast speed, reaching out to grab Zhou Tian’s shoulder, intending to capture him.

“Too fast!”

Zhou Tian couldn’t react in time. Moreover, the aura of a King-level powerhouse suppressed him, making it difficult for him to even move his saber.

At this moment, he finally understood how powerful a King-level was, and how far his own strength was from reaching that level.

But just as the hand of the King-level powerhouse was about to grasp Zhou Tian, everything froze.

Zhou Tian saw the King-level powerhouse frozen in mid-air, completely unable to move.

“The master has made a move!”

Zhou Tian realized.

“Eliminate!” A faint voice came.

In the next instant, the King-level powerhouse turned into countless pieces, dissipating between heaven and earth.

“Run!”

Han Nan and the others’ pupils shrank sharply.

A King-level powerhouse was silently annihilated. The person who made the move must be extremely powerful, definitely above the King level.

Such a powerhouse was not something they could contend with. If they didn’t flee, they would surely die.

However, as these King-level powerhouses were about to fly away, a fluctuation froze the space around them.

Then, with a spatial disturbance, all the King-level powerhouses were shattered into dust.

Whoa! Ye Tian emerged from the void, standing in front of Zhou Tian.

Zhou Tian stared dumbfounded at everything, his mouth agape in disbelief.

These King-level powerhouses were extremely powerful, but in front of his master, Ye Tian, they were like ants, annihilated in an instant, without even leaving corpses behind.

This was the first time he had seen his master make a move, and he finally recognized how powerful his master truly was.

“Zhou Tian, I am preparing to leave. After I leave, take your sister and leave this mountain range. This planet is also very vast for you. The place you are in now is just one of the many empires on this planet.” Ye Tian advised.

“Master, are you really leaving?” Zhou Tian was somewhat reluctant.

“I have already stayed on this planet for enough time. If I continue to stay, it will delay my training. Before I go, I’ll give you a little something.”

Ye Tian casually took out a Xumi storage ring and said, “This is a Xumi storage ring. It contains a large space inside, and I have placed some items in it. Only when your strength reaches a certain level will you be able to take out the items inside.”

“Thank you, Master!”

Zhou Tian received the Xumi storage ring.

In fact, there weren’t many precious resources inside the Xumi storage ring. The most valuable thing was a small cosmic spaceship.

This planet was a native planet, relatively far from other civilized planets. If there was a cosmic spaceship, it would be much more convenient; otherwise, even if Zhou Tian became an Emperor-level in the future, relying on his own speed to fly slowly would probably waste a lot of time.

Therefore, Ye Tian left behind this small spaceship.

Ye Tian turned and left, disappearing from sight.

“Master, your disciple will definitely become stronger and not disappoint you!” Zhou Tian murmured.

Outside this planet.

Ye Tian took out his own cosmic spaceship and sat inside.

The cosmic spaceship started and disappeared from this planetary system in a blink of an eye.

In the days that followed, Ye Tian devoted himself to perfecting the Ultimate Saber Technique, the Heavenly Moon Saber.

In his previous moment of enlightenment, he had perfected the Ultimate Saber Technique once, but the Ultimate Saber Technique could still be further perfected.

Thus, Ye Tian continued his training while perfecting the Ultimate Saber Technique.

In the blink of an eye, another ten years had passed.

During these ten years, Ye Tian had once again perfected the Ultimate Saber Technique, the Heavenly Moon Saber, which had now become the strongest ordinary-level Ultimate Saber Technique.

As a result, Ye Tian's strength had surged.

Additionally, Ye Tian had consumed a considerable amount of Chaos Crystals, and his Chaos Body Refining Technique had also made some progress.

The only regret was that the Divine Canon Secret Technique had not yet been created.

Ye Tian's Divine Canon was the Chaos Supreme Divine Canon, the strongest Divine Canon of the Human Race, and thus creating a Chaos Divine Canon Secret Technique was naturally much more difficult than other Divine Canon Secret Techniques.

Of course, Ye Tian was only one step away from creating a Divine Canon Secret Technique.

There had been many times when he had a flash of insight, as if he was about to create the Divine Canon Secret Technique, but in the end, he was just a hair's breadth away.

One day, Ye Tian returned to Earth in the Pan Star Field galaxy system.

Having trained for 30 years, Ye Tian felt it was long enough, and continuing would not be of much use to him.

Earth.

The happiest about Ye Tian's return was undoubtedly Empress Yue.

Ye Tian spent half a month with Empress Yue, then went to the Kunlun mountain range.

Deep beneath the Kunlun Mountains, there was an underground space where a World Tree was evolving towards an Ancient Chaos Tree.

Ye Tian wanted to see how quickly this World Tree was evolving, so he entered the underground space of the Kunlun Mountains.

A massive World Tree rooted deep underground, anchoring this space.

A shattered Chaos Well was merging with the World Tree.

At this moment, over seventy percent of the shattered Chaos Well had been merged, with only thirty percent remaining unmerged. Once the remaining Chaos Well was completely consumed by the World Tree, the World Tree would evolve into an Ancient Chaos Tree.

Ye Tian dared not interfere with the World Tree and the Chaos Well, fearing that disturbing the balance might cause the World Tree's evolution to fail, which would be a great loss.

Although the World Tree was precious, it was far less valuable compared to an Ancient Chaos Tree.

Ye Tian sat cross-legged at the entrance of the underground space, watching the process of the World Tree evolving into an Ancient Chaos Tree.

Time slowly passed.

Suddenly, one of the World Tree's branches began to change, evolving towards the branches of an Ancient Chaos Tree. The branch was imbued with strong chaos power, and faint patterns of chaos laws appeared on it.

Ye Tian watched this transformation process intently, suddenly gaining insight.

“The transformation of chaos laws, the use of chaos power, I’ve been thinking about it all wrong. I’ve been trying to create purely chaotic moves, completely controlling chaos power for attacks. But in reality, such chaotic moves are too advanced.

A Chaos Divine Canon Secret Technique only needs to be able to mobilize chaos power, which doesn’t mean it can’t mix with other powers.

This branch of the World Tree now possesses both the power of the World Tree and the Ancient Chaos Tree, perfectly merging without collapsing.

If I could emulate this, perhaps I could create a Chaos Divine Canon Secret Technique.”

Ye Tian immediately began to create and comprehend.

As time went by, scales appeared on Ye Tian’s body.

These scales were transformed from the scales of the Dark Scale Demon Body Technique that Ye Tian had cultivated, but now Ye Tian was using the Dark Scale Demon Body Technique as the foundation, transforming this ten-star defense secret technique, integrating the power of the Chaos Body Refining Technique, to create a new Chaos Divine Canon Secret Technique.

Gradually, these scales turned into the color of chaos, and more and more scales enveloped Ye Tian.

At first, these scales were quite fragile, but as Ye Tian continued to improve and perfect them.

Eventually, these scales became not only incredibly sturdy but also had faint chaos law patterns on them, filled with the aura of chaos.

Under the acceleration of time talent, Ye Tian spent a whole year to finally create a Chaos Divine Canon Secret Technique.

Ye Tian named this Chaos Divine Canon Secret Technique “Primordial Scales Armor”! When he used the Primordial Scales Armor, his entire body would be covered in numerous chaotic scales, as if wearing a full-body scale armor.

This Primordial Scales Armor Secret Technique was not only for defense but could also resist certain types of attacks and amplify strength.

It could be said that the Primordial Scales Armor Secret Technique fully demonstrated a small part of the power of the chaos path from the supreme divine canon, the Chaos Body Refining Technique, much better than Ye Tian had expected.

Initially, Dominator Xuan Yuan only required Ye Tian to create the simplest and weakest Chaos Divine Canon Secret Technique, but Ye Tian had far exceeded Dominator Xuan Yuan's expectations.

If Dominator Xuan Yuan knew that Ye Tian had created a Divine Canon Secret Technique like the Primordial Scales Armor, he would be utterly astonished.

"The Heavenly Moon Saber has been perfected into the strongest ordinary-level Ultimate Saber Technique, and now I've created a Divine Canon Secret Technique like the Chaos Armor. My strength has increased far too much compared to when I left the Supreme Hall of Humanity!"

Ye Tian estimated that his strength had already reached the first tier of the Eternal Child of the Universe.

Of course, to truly determine if he had reached this level, he needed to return to the Supreme Hall of Humanity and enter the ninth level of the Yellow Region's Battle Tower for a test.

At this time, Ye Tian's gaze lingered on the World Tree for a while, murmuring, "Looking at the situation, it will take several more decades for the World Tree to transform into an Ancient Chaos Tree."

Ye Tian did not stay any longer and turned to leave.

Before long, Ye Tian was ready to return to the Supreme Hall of Humanity.

There wasn't much time left before the grand era, and he needed to return to the Supreme Hall of Humanity for the final push, trying to raise his strength to an even stronger level.
