

Talent 511

Chapter 511: First Tier Eternal Child of the Universe!

In the Supreme Hall of Humanity, within the Yellow Region, Ye Tian had returned. Upon his return, he immediately entered the phantom world's Battle Tower, challenging the ninth floor. Successfully breaching the ninth floor signified that Ye Tian's strength had reached the first tier of the Eternal Child of the Universe.

Upon entering the ninth floor of the Battle Tower, a clone of an Eternal Child of the Universe appeared. This Eternal Child of the Universe must have been at the first tier of the Eternal level, otherwise, his clone wouldn't appear on the ninth floor of the Battle Tower. It was conceivable that in the future, when a Prince breached the ninth floor, they might encounter Ye Tian's clone.

The challenge commenced! Facing the opponent on the ninth floor of the Battle Tower, Ye Tian did not dare to conceal his strength. He suppressed his opponent with his God-level spatial talent and unleashed the Primordial Scales Armor.

Boom!!! The opponent's attack bombarded Ye Tian's Primordial Scales Armor, but couldn't breach his defense. Amplified by the Primordial Scales Armor, Ye Tian's strength reached an immensely terrifying level.

"Heavenly Moon Saber!"

The moment he executed the Heavenly Moon Saber, the strongest ordinary-level Ultimate Saber Technique, the terrifying saber light directly blasted the opponent away. In just a short time, the opponent was severely injured, whereas Ye Tian remained unscathed.

Half an hour later, Ye Tian successfully killed his opponent, conquering the ninth floor of the Battle Tower. At this point, Ye Tian had a rough understanding of his own strength.

His strength was much greater than that of the weakest first-tier Eternal Child of the Universe, but defeating the 21 weakest of the first-tier would still take a considerable amount of time.

"My strength is quite strong among the first-tier Eternal Children of the Universe, but it still falls short compared to the strongest Eternal Child," Ye Tian mused.

Meanwhile, the news of Ye Tian breaching the ninth floor of the Battle Tower quickly reached the higher echelons of the Supreme Hall of Humanity. The news shocked the high-ranking officials. At the Emperor level, being at the first tier of the Eternal Child of the Universe was already a pinnacle.

Although an Eternal Child of the Universe could continue to enhance their strength within the first tier, they could never reach the level of a Supreme Child of the Universe. Thus, Ye Tian had already achieved the strongest realm of the Child of the Universe at the Emperor level.

It had been a long time since the Supreme Hall of Humanity had produced a first tier Eternal Child of the Universe. This not only signified that Ye Tian's strength had reached a very high level, capable of bringing glory to humanity, but also indicated that Ye Tian had the potential to become a Supreme Prince.

A Supreme Prince was more important than a hundred Eternal Princes. An Eternal Prince could bring temporary glory to humanity, but a Supreme Prince could bring everlasting fame.

Unbeknownst to Ye Tian, the higher-ups of the Supreme Hall of Humanity convened an important meeting, attended even by an avatar of a Supreme.

Now that Ye Tian was a Prince of the first tier of the Eternal Child of the Universe, ordinary opportunities and treasures would be of little use to him. Thus, the higher-ups naturally wouldn't offer him mundane fortunes or items.

In the end, the Supreme Hall of Humanity decided to elevate the level of protection for Ye Tian. They also dispatched a Universal God to permanently station in the galaxy system of the Pan Star Field.

This measure was taken to prevent any adverse actions against Ye Tian's family members by alien races, as his fame might spread across the universe, potentially leading alien races to infiltrate human territories and target his family. Such incidents were not beyond the realm of possibility, given the despicable nature of some races.

Therefore, the Supreme Hall of Humanity needed to ensure adequate defense and caution in this regard.

Originally, the Supreme Hall of Humanity had planned to assign some missions to Ye Tian, but this proposal was vetoed by the Supreme. The birth of a Supreme was not something that

could be forced. While the Supreme Hall of Humanity could cultivate Eternal Princes, it couldn't forcibly cultivate a Supreme Prince.

Ye Tian's path was his own to choose, and the Supreme Hall of Humanity shouldn't impose too many restrictions or obligations, as this could easily distort his path to becoming a Supreme Prince.

On this day, a Prince came to visit Ye Tian.

If it were a regular Prince, Ye Tian probably wouldn't have met with them, but this particular visitor was an old acquaintance of his.

In the Cultivation Tower, Ye Tian looked at the person before him, the Crescent Moon Heavenly Pride, or rather, Prince Crescent Moon, with some surprise.

"Prince Crescent Moon, congratulations on becoming a Child of the Universe!" Ye Tian congratulated.

Prince Crescent Moon hastily responded, "I merely became a Child of the Universe by chance. Compared to the Prince of Ten Thousand Laws, I'm far too inferior!"

Although he had just entered the Yellow Region of the Supreme Hall of Humanity, a brief inquiry had informed him about Ye Tian's situation. The initial shock he felt upon learning about Ye Tian's circumstances was immense.

The strongest Prince in the Yellow Region of the Supreme Hall of Humanity was also the only Eternal Prince.

What a concept this was! Before entering the Yellow Region of the Supreme Hall of Humanity, he had at most thought that Ye Tian's strength was relatively strong in the Yellow Region, but he had never imagined that Ye Tian could be so powerful! Compared to Ye Tian, he truly was far too weak, like an ant's existence.

"Prince Crescent Moon, what about the Raging Sun Heavenly Pride?" Ye Tian casually inquired.

At this moment, Prince Crescent Moon's expression suddenly turned somber.

"Raging Sun Heavenly Pride has fallen, not just him, but almost all the other Heavenly Prides from the Pan Star Field have fallen too!" Prince Crescent Moon sighed.

"How could this have happened?" Ye Tian was somewhat surprised and also felt some regret.

After all, they were all from the Pan Star Field, and hearing that these peers who had arrived together had fallen was naturally regrettable.

"It was because of a trial!" Prince Crescent Moon explained, "Ten years ago, a large number of Heavenly Prides from the outer halls of the Supreme Hall of Humanity, along with Heavenly Prides from several cosmic races and many other races, underwent a trial. This trial was incredibly brutal. Thankfully, my strength had improved a lot over the years in the Supreme Hall of Humanity. Even so, I barely survived, while Raging Sun Heavenly Pride and the other Heavenly Prides unfortunately fell."

"With the rewards from that trial, and an opportunity I gained in the trial world, I barely became a Child of the Universe not long ago."

Becoming a Child of the Universe should have been a very joyful occasion, but Prince Crescent Moon wasn't very happy, because he had learned that a grand era was about to be born in the universe soon, and they, as Children of the Universe, must represent humanity in it.

That grand era was not only a time of prosperity but also a brutal competition.

He hadn't died in the Emperor-level trial, but he might die in the grand era of the Children of the Universe.

Of course, if he were to choose again, he would still choose to become a Child of the Universe.

Prince Crescent Moon didn't stay long with Ye Tian and soon left.

In the following days, Ye Tian devoted all his energy to the Chaos Body Refining Technique and the divine secret techniques.

The Chaos Body Refining Technique had to be advanced step by step, with the aid of his time talent and chaos crystals among other chaos resources to continue progressing.

As for the divine secret techniques, Ye Tian planned to create another divine secret technique.

Having already created the Primordial Scales Armor, a chaos divine secret technique, creating another divine secret technique wasn't difficult for him.

Years later, after continuous effort, Ye Tian finally created the Primordial Vines Technique.

The Primordial Vines, based on vine talents and infused with the power of the Chaos Dao, was a binding and attacking chaos divine secret technique.

With the creation of the Primordial Vines, Ye Tian's strength increased further.

Time gradually passed.

Ye Tian remained in seclusion within the Cultivation Tower, not participating in other Princes' gatherings or group missions.

In the eyes of some newly advanced Princes, Ye Tian seemed to become a legendary figure, always hearing about Ye Tian's legends but never seeing him in person.

Of course, even though Ye Tian didn't appear, no one dared to disrespect him.

The number of Princes in the Yellow Region of the Supreme Hall of Humanity continued to grow, and the number of peak Princes also increased substantially.

One day, the Supreme Hall of Humanity's Yellow Region finally birthed another Eternal Prince.

This Eternal Prince was none other than Prince Holy Heaven, who had been defeated by Ye Tian.

After decades of effort and several significant opportunities, Prince Holy Heaven finally elevated his strength and barely stepped into the realm of an Eternal Prince.

Even so, there were only two Eternal Princes in the Yellow Region.

This was inevitable, as three Eternal Princes had fallen all at once, and it was quite difficult for the Supreme Hall of Humanity to train new Eternal Princes in such a short time.

This was still due to the strong destiny of humanity, which allowed two new Eternal Princes to emerge within just a few hundred years. If it were any other weaker race, it would be impossible even to think of birthing even one Eternal Prince.

In the blink of an eye, nearly a hundred years had passed since Ye Tian entered the Supreme Hall of Humanity.

This was a time of great tension for all the Princes, even Ye Tian felt a stirring.

The grand era of the universe was approaching!

On this day.

The six Hall Enforcers of the Yellow Region gathered all the Princes at Bi Bo Lake in the Yellow Region.

Soon, all the Princes arrived.

Boom!!! The void trembled as the six Hall Enforcers descended.

Ye Tian watched intently; the faces of the six Hall Enforcers were filled with solemnity.

At this moment, all the Princes felt a jolt in their hearts, and the atmosphere grew more tense.

Divine Lord Dantai stepped forward, facing all the Princes and spoke, “You must have guessed the purpose of summoning you all here. Yes, the grand era that has been mentioned is about to arrive!”

Chapter 512: The Ruined World from the Previous Cosmic Era!

“Indeed, a grand era has arrived!”

All the Princes truly heard this news from the mouths of the six Hall Enforcers, and it felt different from the previous speculations.

After all, previous speculations were just that—speculations, not certainties. Despite the tension, there was still a sliver of hope in their hearts.

But now, with the six Hall Enforcers personally acknowledging it, it was confirmed without a doubt.

The grand era was truly about to arrive!

“The six Hall Enforcers, what exactly is this grand era? Please, enlighten us in detail!”

Ye Tian, as the strongest Prince in the Yellow Region, spoke up.

Divine Lord Dantai looked at Ye Tian and said, “Prince of Ten Thousand Laws, please be patient, I will explain everything, but you must be prepared. Before I talk about the grand era, let me first reveal a secret to you all!”

All the Princes listened intently.

Divine Lord Dantai began, “How much do you really understand about the universe? You might talk about how many major races exist, the vast territories and so on, but in reality, your understanding of the universe is very limited.

For instance, do you know how many years the universe has existed?”

“This...”

Ye Tian pondered for a moment; he did not know how many years the universe had existed.

Billions of years, or perhaps hundreds of billions?

“And what do you think was the state of affairs before the universe was born?” Divine Lord Dantai asked further.

The numerous Princes shook their heads.

Divine Lord Dantai began to narrate the secrets of the universe— “In fact, the universe has a lifespan, from birth to death, a long period so lengthy that it seems as if the universe is eternal. However, once the universe reaches the end of its lifespan, it will enter a cosmic destruction.

But after the cosmic destruction, a new universe will be reborn after a certain period.

Death, birth, death, birth... This was the cycle of the universe.

And when the universe dies in a great destruction, it does not mean that everything returns to nothingness. Some things can be carried over from the previous cosmic era into the next.”

“Now, the grand era is related to a relic left over from the previous cosmic era.

This relic was able to withstand the destruction of the universe without being destroyed, showing its invaluable nature. It is an objective that all major races in the universe wish to compete for.

This relic is incredibly durable, unaffected by the destruction of the universe, and even the Supremes of our universe cannot destroy it, nor would they want to.

It is said that this ruin world contains amazing legacies and many great opportunities, any one of which could cause a race to rise to prominence.

The reason why our Human Race was able to rise from a minor presence in the universe to become one of the major races is related to this relic.

The specifics involve the highest secrets of the Human Race, which I am not entirely clear about.

However, what I want to inform you of is that this time, you will have the opportunity to enter this ruin world from the previous cosmic era and obtain some precious treasures and opportunities for the Human Race.

The opening of this ruin world from the previous cosmic era signifies our era's grand era. Many races are desperate for this grand era because it is usually during then that a cosmic race obtains astonishing opportunities and becomes one of the major races after many years.

Although our Human Race has already become one of the major races of the universe, if we cannot compete for more opportunities, we will eventually be eliminated and become the stepping stone for other cosmic races to become a major race."

"Now do you understand the importance of this grand era?"

After Divine Lord Dantai finished speaking, the other Princes fell silent.

This news was astounding, involving a ruin world from the previous cosmic era, a leap too large that even shattered many Princes' perceptions.

Ye Tian was the first to recover from the shock and asked, "Divine Lord Dantai we are only Emperor level. It is said that Princes from the Mysterious, Earth, and Heaven Regions will also participate in this grand era. Could it be that we all need to enter the ruin world from the previous cosmic era together? In that case, how can we compete with the God level and above Princes?"

The other Princes only then considered this issue. They were Emperor level Children of the Universe; if they were to stay in a ruin world with those God level and below Children of the Universe, wouldn't that be akin to seeking death? Even the weakest God-level Child of the Universe could easily sweep through a group of Emperor-level Princes; they were not even on the same level.

Divine Lord Dantai hurriedly explained, "Of course not together. In fact, although that ruin world withstood the cosmic destruction, it was not unscathed but rather divided into fragmented ruin worlds. Each fragmented ruin world is isolated from the others, making it impossible to pass through, so you need not worry about encountering higher-level Princes."

With Divine Lord Dantai's explanation, Ye Tian breathed a sigh of relief. He was confident competing with other cosmic races' Emperor level Eternal Princes, but if he had to fight against God level and above Princes, he had no hope at all.

Subsequently, Divine Lord Dantai shared some details about the grand era.

The start of the grand era was one year away, but in reality, they needed to depart with the large troops from the Supreme Hall of Humanity in half a year because the location of that ruin world was in the central region of the universe.

And the Human Race's territory was far too distant from the center of the universe, requiring a significant amount of time to reach.

Soon after, Divine Lord Dantai and the others left.

The other Princes also departed from Bi Bo Lake, each returning to their respective places, all beginning their preparations for the upcoming grand era.

They were aware of the unparalleled brutality of this grand era, yet it was also an unimaginable opportunity. If they were to encounter some fortunes, it was even possible for them to become one of the upper echelons of humanity, or even a Supreme.

A few days later Dominator Xuan Yuan summoned Ye Tian.

This time, Dominator Xuan Yuan met Ye Tian not as a mentor, but in his capacity as a high-ranking official of the Supreme Hall of Humanity.

Soon after, Ye Tian arrived at the divine palace of Dominator Xuan Yuan.

"Instructor Xuan Yuan!"

Upon seeing Xuan Yuan, Ye Tian greeted him respectfully.

“This time, I have summoned you not for guidance, but on behalf of the Supreme Hall of Humanity to discuss matters regarding the grand era!”

Dominator Xuan Yuan spoke with a grave tone.

“Instructor Xuan Yuan, the six Hall Enforcers have already briefed me on the basic situation...” Ye Tian said.

“No!” Dominator Xuan Yuan shook his head. “The Hall Enforcers only told you the basic situation. There is more that I need to inform you about.

The competition this time is even more brutal than you can imagine. You will be facing not just the Princes of this era, but also Emperor-level Princes from thousands, tens of thousands, and even a hundred thousand years ago.”

“Princes from tens of thousands, a hundred thousand years ago?”

Ye Tian was somewhat baffled. How could this be possible?

The lifespan of an Emperor level is only 300 years, and even as a Child of the Universe, there is no extension of lifespan unless one cultivates a heaven-defying technique like the Art of Immortality.

Ye Tian was very aware of the difficulty in cultivating such a heaven-defying technique. If not for his copying talent and the sacrifice of his necromancy talent along with numerous other healing talents, he could not have mastered the second layer of the Art of Immortality.

Even if he passed the Art of Immortality to others, he believed that very few people in the entire universe could succeed in cultivating it.

So, how many Emperor-level individuals could there be with a lifespan of a hundred thousand years? And from Xuan Yuan’s tone, it seemed there were quite a few of such Emperor-level Princes!

“Instructor Xuan Yuan, what’s the situation with those Princes from tens of thousands or even a hundred thousand years ago?” Ye Tian couldn’t help but ask.

“I knew you would ask.”

Dominator Xuan Yuan explained: “Actually, the opening of the ruin world from the previous cosmic era was predetermined long ago, occurring every ten million years. The Princes from ten thousand or even a hundred thousand years ago simply could not make it in time for the grand era, as they would have advanced to Great God level or even reached the realm of Universal God within a hundred thousand years.

However, some major forces froze and sealed those powerful Princes, freezing their lifespans, waiting for this era to unleash them, so they could catch the arrival of the grand era.”

“So that’s how it is!” Ye Tian was shocked.

Children of the Universe from tens of thousands to a hundred thousand years ago entered into seals to avoid the passage of time, just to participate in this grand era. The sacrifice was indeed great, so for the Children of the Universe of this era, the pressure was immense! Those Princes who were sealed were definitely Eternal Princes, and perhaps some minor cosmic races could only seal peak-level Princes, but there were undoubtedly many sealed Eternal Princes.

With so many Eternal Princes emerging, the competitive pressure was enormous.

If Ye Tian had only the strength of a first tier Eternal Child of the Universe, he would definitely panic.

Dominator Xuan Yuan continued: “Actually, our Human Race also sealed six Eternal Princes, one of which is a first-tier Eternal Prince, and the other five are second-tier Eternal Princes.

These six Eternal Princes volunteered to be sealed. Originally, there were more Eternal Princes willing to be sealed, but unfortunately, the other Eternal Princes only possessed third-tier strength, and their participation would not be of much use.

Initially, the Supreme Hall of Humanity did not place their hopes on you for this grand era, but for the future.

However, your progress has been so rapid, becoming a first-tier Eternal Child of the Universe, exceeding many high-level officials and even my expectations.

Now, we, the high-ranking officials, have decided that you will lead the Emperor-level Princes, and even those six Eternal Princes will be led by you.

Additionally, the Supreme Hall of Humanity is prepared to give you some life-saving items.”

Saying this, Dominator Xuan Yuan took out a talisman, a golden bead, and a pair of black wings.

These three treasures were evidently extraordinary, instantly capturing Ye Tian’s attention.

Then, Dominator Xuan Yuan began to explain the uses of these three treasures.

Chapter 513: Six Eternal Princes!

“This talisman is called the Immortal Charm. It grants you immunity from death once. Attacks below the Planetary System level cannot break the limit of the Immortal Charm.

As long as you activate the Immortal Charm in time, you will not die.

Of course, it can only be activated once, as it is a disposable talisman.”

“This golden bead, known as the Gold Dust Bead, is forged from the core of a neutron star, concentrating all its power into this single bead. Its power is terrifying, capable of severely injuring or even killing an Eternal Child of the Universe at the first tier.

However, due to its wide-ranging impact, once activated, it explodes instantly, affecting even the user. Therefore, it should not be used unless absolutely necessary.”

These wings are a secret treasure, not a Divine Artifact. Divine Artifacts have cultivation requirements for their users and consume divine power significantly, which is not very useful for Emperors.

Secret treasures are different; they contain yuan force and utilize this power in battle, placing minimal demands on the user. However, if a secret treasure is used for too long and its yuan force is exhausted, then the treasure becomes useless.

The cost of creating a secret treasure is significant, and since it cannot be used continuously, it makes secret treasures somewhat impractical. However, in this grand era, they are of great importance.

These wings, named Black Feathers, once refined, can significantly increase your speed, providing considerable help in battle and making it easy to escape.”

After introducing the Black Feathers, Ye Tian softly asked, “Instructor Xuan Yuan, with my spatial talent, I shouldn’t need a secret treasure like the Black Feathers, right?”

“No, you will find it useful!” Instructor Xuan Yuan explained, “Your spatial talent allows you to teleport and phase into space, so speed is not an issue.

But that’s under normal circumstances. The ruins we’re talking about are from a previous universe, even surviving the great cosmic calamity, making its space incredibly stable. Your spatial talent cannot break through it, preventing you from phasing into space. Even your teleportation abilities are severely restricted.

Limited teleportation is useless in equal combat, far inferior to the help provided by the Black Feathers.”

“Spatial talent is restricted!” Ye Tian was somewhat surprised.

But considering that the space in the ruins could withstand the great cosmic calamity, it seemed normal to restrict spatial talent.

In fact, even in the Supreme Hall of Humanity, Ye Tian couldn’t use his spatial talent to traverse space and leave; he was confined to the Yellow Region and had a small portion of his spatial talent suppressed.

Of course, even if his spatial talent was restricted in the ruins, it didn’t significantly impact his strength.

Unable to break through with spatial talent, which primarily manipulates spatial forces rather than breaking space, his divine abilities like the Ten Thousand Realms and Spatial Divine Form were not greatly affected and could still be deployed.

In other words, even without spatial talent, Ye Tian's strength remained at the first tier of an Eternal Child of the Universe.

"Thank you, Instructor Xuan Yuan!" Ye Tian took the three treasures and expressed his gratitude.

"These are treasures bestowed by the Supreme Hall of Humanity, not by me personally.

The Supreme Hall of Humanity is concerned for your safety, as you have the potential to become a Supreme Prince. Your loss would be a great blow to humanity," Instructor Xuan Yuan said.

Soon after, Ye Tian left Instructor Xuan Yuan's temple and returned to the Yellow Region.

In the blink of an eye, a month passed.

One day, six Eternal Children of the Universe arrived in the Yellow Region of the Supreme Hall of Humanity, which Instructor Xuan Yuan mentioned.

Upon their arrival, four of the Six Eternal Princes occupied the four cultivation towers by the Bi Bo Lake, while the other two challenged Prince Feng Long and Prince Wu Ying.

Since the ten cultivation towers by Bi Bo Lake were already occupied, it would seem beneath them to go elsewhere for cultivation towers.

Therefore, they decided to occupy the towers of Prince Wu Ying and Prince Feng Long.

Of course, direct seizure was not allowed. Once a tower was occupied, no one could take it unless the occupier willingly gave it up.

However, provoked by the two Eternal Princes, Prince Feng Long and Prince Wu Ying were enraged, thinking these two were newly promoted princes and thus accepted the challenge.

The stakes for Prince Wu Ying and Prince Feng Long were the rights to the towers, while the two Eternal Princes wagered some precious treasures.

This competition attracted many princes' attention, who came to Bi Bo Lake to watch the battle.

This incident also alerted Ye Tian, who emerged from his cultivation tower.

“Greetings to the Prince of Ten Thousand Laws!”

“Greetings to the Prince of Ten Thousand Laws!”

“Greetings to the Prince of Ten Thousand Laws!”

Each prince greeted Ye Tian respectfully.

From afar, the Six Eternal Princes also turned their gaze towards Ye Tian, whispering among themselves.

“That is the current Yellow Tier Prince—the Prince of Ten Thousand Laws, possessing the strength of an Eternal Prince. According to the information revealed by the Supreme Hall of Humanity, he now has the strength of a first tier Eternal Child the Universe!”

“Prince Bairen, I wonder how the Prince of Ten Thousand Laws's strength compares to yours. I think you are stronger and have more experience. Yet, the Supreme Hall of Humanity has chosen the Prince of Ten Thousand Laws to lead us, which is quite frustrating!”

“Indeed, it's quite disrespectful to have a junior leading us!”

“Let it be. We dare not defy the orders of the Supreme Hall of Humanity.”

As the six Eternal Princes looked at Ye Tian, he also glanced back at them.

From these six Eternal Princes, Ye Tian sensed a trivial malice, or rather, dissatisfaction, but it wasn't hostility.

Soon, the competition began.

Prince Wu Ying's opponent was Prince Bi Qiong, and Prince Feng Long's opponent was Prince Aolen.

The other princes were unaware of the strength of Prince Bi Qiong and Prince Aolen, assuming they were newly promoted princes. Everyone thought Prince Wu Ying and Prince Feng Long were sure to win, cheering for them.

At this moment, Prince White Bone approached Ye Tian and transmitted a message telepathically, "Prince of Ten Thousand Laws, who do you think will win?"

Ye Tian replied indifferently, "Prince Wu Ying and Prince Feng Long are bound to lose!"

"What?" Prince White Bone looked at Ye Tian in surprise.

Bound to lose! What did that mean? It was known that after continuous cultivation, both Prince Wu Ying and Prince Feng Long had reached the pinnacle of a peak Children of the Universe. No other peak Child of the Universe could confidently claim to defeat them.

The only possibility for Prince Feng Long and Prince Wu Ying to be bound to lose was if their opponents were Eternal Princes.

But how rare was an Eternal Prince? In the entire Yellow Region, only Ye Tian and Saint Heaven Prince were known, and there had never been a third.

How could these two suddenly emerging princes be Eternal Princes?

"Prince of Ten Thousand Laws, are these two newly promoted princes actually Eternal Princes?" Prince White Bone couldn't help but ask.

“Yes!” Ye Tian confirmed, “Not only are these two princes Eternal Princes, but the other four princes are as well.”

“...” Prince White Bone’s eyes widened, speechless and completely stunned.

Suddenly, six Eternal Princes emerged. Could they be hidden princes of the Supreme Hall of Humanity? No, that couldn’t be right! To become an Eternal Prince, one must go through countless trials and opportunities. It’s highly unlikely to cultivate such strength in secret, thought Prince White Bone, but he couldn’t make sense of it and decided to let it go.

The battle began! Prince Wu Ying and Prince Bi Qiong stood high in the sky, clashing! Boom!!! In an instant, a figure fell from the sky, crashing into the ground.

There, Prince Wu Ying lay in a pitiable state, covered in blood.

He was severely injured in one hit!

“Are you an Eternal Prince?” Prince Holy Heaven asked gravely.

“Correct!” Prince Bi Qiong nodded and then declared, “I’ve won the competition. This cultivation tower is mine from now on!”

Next, the competition between Prince Feng Long and Prince Aolen began.

The outcome was clear. Prince Feng Long was also severely injured in one hit and lost.

Prince Holy Heaven couldn’t stand it anymore and questioned, “You are Eternal Princes, challenging peak Children of the Universe. Isn’t that a bit too much?”

“Too much?” Prince Aolen sneered, “The strong rule. This is the best cultivation spot in the Yellow Region. Do you expect us to go elsewhere and leave this place to a few peak Children of the Universe? That’s a joke. If not for the Supreme Hall of Humanity’s rules against seizing cultivation towers, we wouldn’t have to provoke intentionally but would have taken them

directly. If you're unhappy, we can settle this through a duel. Let's bet on points. How about that?"

Just as Prince Holy Heaven was about to agree, Ye Tian stopped him.

"Prince Holy Heaven, you are not his match. Don't fall for his provocation," Ye Tian intervened.

"Prince of Ten Thousand Laws, are you saying I'm not his match?" Prince Holy Heaven looked at Ye Tian, somewhat dissatisfied.

Ye Tian replied calmly, "Prince Holy Heaven, do you think you can defeat a second-tier Eternal Child of the Universe?"

"What, they are second-tier Eternal Children of the Universe?" Prince Holy Heaven was shocked.

If that were true, he certainly wasn't a match.

Even among the third-tier Eternal Children of the Universe, he was considered weak, let alone compared to the second-tier. Prince Holy Heaven silently backed down, no longer daring to challenge Prince Aolen and the others.

"Prince Aolen, Prince Bi Qiong, you must not cause any more trouble. Let this matter rest!" Ye Tian commanded authoritatively.

Upon hearing this, Prince Aolen and Prince Bi Qiong showed signs of dissatisfaction.

Chapter 514: Six Eternal Princes Convinced!

"Why should we obey your commands, Prince of Ten Thousand Laws?" Prince Biqiong challenged with an indignant face.

"It's by the command of the Supreme Hall of Humanity!" Ye Tian replied coolly, his gaze fixed on Prince Biqiong. "The Supreme Hall has appointed me as the leader to guide all the

princes in the Yellow Region for the upcoming grand era. With only half a year left before we depart, no prince is allowed to cause any trouble during this period.”

“You...” Prince Biqiong wanted to retort but was stopped by Prince Aolen who was beside him.

At that moment, Prince Bairen, one of the six Eternal Princes, stepped forward and said, “Prince of Ten Thousand Laws is right. With the grand era approaching, we indeed should not be causing disturbances. However, the other five Eternal Princes are somewhat unconvinced of your strength, Prince of Ten Thousand Laws. If you can spar with me and defeat me, the others will surely be convinced. How about we enter a phantom world for the battle? This way, it won’t cause any physical harm.”

Ye Tian looked at Prince Bairen, already aware of his identity.

“The only one among the six Eternal Princes who is a first-tier Eternal Child of the Universe!” Ye Tian thought to himself.

Both being first-tier Eternal Children of the Universe, and with Prince Bairen being a prince from tens of thousands of years ago, it was natural for him to be unwilling to be led by a junior, which is why he proposed this sparring match.

Although Ye Tian understood this, he couldn’t refuse, as it would significantly undermine his prestige.

“Fine, you want to spar with me, I’ll oblige!” Ye Tian agreed.

Soon, Ye Tian and Prince Bairen entered the phantom world, with the other princes entering one by one to witness the battle.

In the phantom world, a separate world for combat was created.

Ye Tian and Prince Bairen stood face to face in mid-air.

“Let’s begin!” Ye Tian gestured.

Prince Bairen drew a white saber. He was skilled in the Saber Dao.

“Aurora Blade!”

The saber light seemed to pierce through time and space, heading straight for Ye Tian.

This move was Prince Bairen’s ultimate technique in the Saber Dao and was almost at the limit of ordinary saber techniques, not inferior to Ye Tian’s Heavenly Moon Saber Technique.

Ye Tian also executed the Heavenly Moon Saber Technique, and the two saber lights collided in the void, obliterating a large portion of space.

Boom! Boom! Boom! In an instant, Ye Tian and Prince Bairen exchanged blows several times, seemingly evenly matched.

“Your strength is commendable! Unfortunately, I was just warming up!” Prince Bairen said calmly.

“Warming up? My moves just now didn’t even count as a warm-up!” Ye Tian responded.

“Hmph, arrogant!” Prince Bairen no longer concealed his strength and activated his divine canon.

He cultivated one of the supreme divine canons, the Infinite Saber Scripture, and had reached the major realm.

Once the Infinite Saber Scripture was activated, Prince Bairen transformed into an invincible saber.

Then, Prince Bairen used a secret technique from the divine canon.

Countless Infinite Saber Qi formed a giant, wielding a huge saber blade, and struck ferociously at Ye Tian.

This strike seemed powerful enough to shatter a planetary system, extremely terrifying.

Compared to their previous exchanges, this attack seemed a hundred times stronger.

The surrounding princes were astonished, and Prince Holy Heaven was especially horrified.

“So powerful, what level is this?”

Prince Holy Heaven murmured.

He felt that he would be annihilated by Prince Bairen in a single strike, not even leaving dust behind.

“Hmph, Prince Bairen is a first-tier Eternal Prince. Eighty thousand years ago, he was the foremost among the Yellow Tier, the strongest emperor-level prince of the Human Race at that time, and even had a great reputation among the myriad races of the universe. For this grand era, Prince Bairen was voluntarily sealed for eighty thousand years; otherwise, with his ability, he would have already advanced to the Universal God level!” Prince Biqiong explained.

“An Eternal Prince from eighty thousand years ago, sealed for eighty thousand years!!!”

Prince Holy Heaven and the other princes were stunned.

At this moment, they finally understood the background of the six lesser Eternal Princes, who were indeed predecessors from tens of thousands of years ago. No wonder they were so arrogant!

“Can Prince of Ten Thousand Laws defeat such a powerful Prince?”

Many princes wondered in their hearts.

They were still hoping for Ye Tian’s victory, as they were more familiar with him.

At this time, facing Prince Bairen's Saber Dao divine canon secret technique, Ye Tian did not dare to underestimate it.

“Chaos Divine Canon Secret Technique—Primordial Scale Armor!”

Swoosh! Dense Primordial Scales covered Ye Tian's body, forming an indestructible Primordial Scale Armor.

Simultaneously, Ye Tian activated all his other defensive measures.

Prince Bairen's Saber Dao divine canon secret technique struck Ye Tian, breaking through all other defenses but failing to penetrate the Primordial Scale Armor!

“What, you've cultivated a Supreme Chaos Divine Canon, and you've also mastered such a powerful Chaos Divine Canon Secret Technique!!!” Prince Bairen's expression changed.

Beforehand, he was unaware that Ye Tian was cultivating the Supreme Chaos Divine Canon. Thus, he hadn't investigated Ye Tian, assuming that Ye Tian might be cultivating an ordinary Supreme Divine Canon, or perhaps even just a regular Divine Canon.

Little did he expect that Ye Tian was cultivating the strongest of them all, the Supreme Chaos Divine Canon.

“Spatial Imprisonment!”

“Ten Thousand Layer Realm!”

Boom! The void was completely frozen, and even Prince Bairen, with his strength, felt a strong suppression.

At the same time, a divine wheel came slashing down.

Seeing this divine wheel, Prince Bairen's expression slightly changed.

“The Five Elements Divine Wheel!!!”

The Five Elements Divine Wheel was renowned, a famous great divine ability that was somewhat more powerful than ordinary great divine abilities.

More crucially, the Five Elements Divine Wheel suppressed divine abilities and secret techniques related to the five elements.

Facing the Five Elements Divine Wheel, Prince Bairen slashed down fiercely.

“Aurora Blade!”

The saber light hit the Five Elements Divine Wheel, blocking it.

And at that moment.

Vines emerged from the void, continuously encircling and attacking Prince Bairen.

These were Ye Tian’s Chaos Divine Canon secret technique—Primordial Vines! The attacking power of these vines was not weak, and their binding ability was strong. Once ensnared by the Primordial Vines, even a first-tier Eternal Child of the Universe would find it difficult to break free.

Prince Bairen recognized the trouble posed by these vines and did not wish to be entangled, as that would undoubtedly lead to his defeat.

Immediately, he executed his second Saber Dao Divine Canon secret technique.

“Infinite Saber Domain!”

Dense Infinite Saber Qi formed a domain, within which the vines were shredded by numerous Infinite Saber Qi as soon as they entered.

Instantly, the two Divine Canon secret techniques began a prolonged clash.

At that moment, Ye Tian once again executed the Heavenly Moon Saber Technique.

Amplified by the Primordial Scale Armor, Ye Tian's strength received a terrifying boost, making the Heavenly Moon Saber Technique far more formidable than before.

Moreover, Prince Bairen was suppressed by the Ten Thousand Layer Realm, and under the dual influences, Ye Tian's Heavenly Moon Saber Technique was not so easily countered.

"Heavenly Moon Saber, Slash!"

The dazzling saber light pierced through, breaking into Prince Bairen's Infinite Saber Domain.

Boom! The Infinite Saber Domain was breached, and the Heavenly Moon Saber Qi surged directly towards Prince Bairen.

Puff! Prince Bairen's layers of defense were broken, and a strand of saber Qi entered his body, causing him a slight injury.

Although the injury wasn't severe, it signified that Prince Bairen was wounded.

"Prince Bairen is injured!"

Prince Biqiong, Prince Aolen, and others slightly changed their expressions.

The battle continued! Soon, Prince Bairen was repeatedly put at a disadvantage, unable to overcome Ye Tian.

Protected by the Primordial Scale Armor, a Chaos Divine Canon secret technique, Prince Bairen's attacks couldn't break Ye Tian's defense, while Ye Tian's attacks could breach his.

Furthermore, Prince Bairen was trapped in the Ten Thousand Layer Realm, with no chance of escape.

More importantly, Ye Tian was continuously narrowing the range of the Ten Thousand Layer Realm, and the Primordial Vines were increasing, putting more pressure on Prince Bairen.

After several minutes.

Suddenly, at one moment, Ye Tian broke through Prince Bairen's Infinite Saber Domain again, and the dense Primordial Vines rushed towards Prince Bairen.

By then, the Ten Thousand Layer Realm had shrunk to a certain range, leaving Prince Bairen with little space to dodge.

Consequently, Prince Bairen was entangled by the Primordial Vines.

Just as Prince Bairen was about to forcefully break through the Primordial Vines, Ye Tian's Heavenly Moon Saber Technique slashed down again.

Puff! Saber after saber, leaving wounds on Prince Bairen that were difficult to heal.

Eventually, Prince Bairen's body disintegrated and vanished.

This signified that in the phantom world, Prince Bairen was slain by Ye Tian, proving Ye Tian's strength to be far superior.

The next moment.

Prince Bairen reappeared in front of Ye Tian.

"Prince of Ten Thousand Laws, I admit defeat!" Prince Bairen bowed, willingly conceding.

"Do you accept me as the leader now?" Ye Tian asked.

"I accept!" Prince Bairen responded.

Swoosh! Ye Tian's gaze turned towards the other five Eternal Princes, waiting for their response.

The five Eternal Princes trembled, then bowed and said, "We accept!"

"Now that you all accept, disperse. From now on, I don't want to see anyone causing trouble again, understand?"

After speaking, Ye Tian logged off.

He then returned to his cultivation tower, no longer concerned with these trivial matters.

The other princes also departed one by one, and the Yellow Region became much quieter.

This battle truly established Ye Tian's title as the strongest emperor-level prince!

Chapter 515: The Black Hole at the Center of the Universe!

In the blink of an eye, half a year had passed.

The Supreme Hall of Humanity issued a notice, and all the princes of the entire Supreme Hall of Humanity immediately gathered together.

They were about to embark on a journey to the ruin world of the previous cosmic era, to participate in the grand era of the entire universe.

In the Yellow Region.

Ye Tian emerged from the cultivation tower, and the other princes also gathered one by one at Bi Bo Lake, the gathering place of the Yellow Region.

Soon, all the princes were assembled.

Ye Tian quickly counted, and there were a total of 598 princes, representing all the Emperor-level Children of the Universe that the Supreme Hall of Humanity had accumulated over the past hundred sessions.

Before long, six Hall Enforcers arrived.

“Follow us!” commanded Divine Lord Dantai.

“Yes!” responded the congregation of princes.

Subsequently, the numerous princes, led by the six Hall Enforcers, left the Yellow Region and arrived outside the Supreme Hall of Humanity.

Afterward.

The princes left the Sacred Realm of Humanity and entered Tianlan Giant City within the Sacred Realm of Humanity.

Soon, Ye Tian and the other human princes met in a massive temple space.

There, Ye Tian saw many God-level princes, True God-level princes, and Great God-level princes, among which the Great God-level princes were the fewest, numbering only eighteen.

It was unclear whether there were originally only eighteen, or if the other Great God-level princes had forcibly broken through to the Planetary System level and were unwilling to participate in this grand era.

Among these eighteen Great God-level princes was Prince Qin Chen.

Prince Qin Chen also noticed Ye Tian and nodded slightly as a greeting, to which Ye Tian also responded with a nod.

After waiting for about half an hour.

Several figures descended here.

Among these figures, Ye Tian saw Dominator Xuan Yuan.

Clearly, these individuals were Dominator-level powerhouses.

At the same time, a vague shadow appeared, before whom even those Dominators slightly bowed.

However, this shadow was enveloped in layers of mist, making it impossible to discern its appearance.

“Is this person one of the seventy-eight top existences of the Human Race?” Ye Tian speculated.

As for whether it was a Supreme, he couldn’t be sure since the Supremes of the Human Race were very rare.

However, the possibility of a Supreme appearing was quite high, as this grand era was very important, even related to the strength and decline of an entire race.

“Let’s depart!” the mysterious powerhouse who might be a Supreme said indifferently.

Subsequently, Ye Tian found himself teleported to a hall on a cosmic spaceship, along with the other princes.

Shortly thereafter.

A voice came through.

“This is our humanity’s nine-star cosmic spaceship. Only with the speed of a nine-star cosmic spaceship can we reach the center of the universe in a few months. Otherwise, even Dominator-level powerhouses wouldn’t be able to reach the center of the universe within a few months.”

The speaker was none other than a Dominator.

This Dominator stood in front of the princes, explaining to them.

At this moment, Ye Tian's copy talent enveloped this Dominator, as well as the other Dominators.

After all, the suppression of Ye Tian's copy talent by this cosmic spaceship wasn't significant. His copy talent could easily envelop the entire spaceship, naturally allowing him to check the talent status of these Dominators.

"Chaos level Cultivation Talent!"

"Chaos level Cultivation Talent!"

"Chaos level Cultivation Talent!"

There were a total of eight Dominators, and all eight of them possessed Chaos level cultivation talents. None of them had a cultivation talent surpassing the Chaos level.

As for that mysterious existence surpassing the Dominators, Ye Tian's copy talent couldn't envelop them.

There were only two possibilities: one was that the mysterious powerhouse wasn't on the spaceship, and the other was that they could shield against the sensing of the copy talent, making it impossible for the copy talent to detect them.

"It must be a shield, considering such a grand era. It's unlikely that the Supremes wouldn't come, and there might even be more than one Supreme protecting us," Ye Tian guessed.

Although he couldn't copy a cultivation talent surpassing the Chaos level, Ye Tian had just copied several Chaos level cultivation talents. As long as he integrated these Chaos level cultivation talents into his own, his cultivation talent could evolve beyond the Chaos level.

"This cosmic spaceship is vast. You all can find a cabin to settle in," said one of the Dominators.

Subsequently.

The Dominators disappeared one by one.

Then, the other princes also started to search for empty cabins, with fewer and fewer princes remaining in the hall.

Ye Tian also left the hall and found a fairly spacious cabin, closed the door, and settled in.

Immediately.

Ye Tian set up a concealment formation and a soundproofing formation among others. Although they weren't of much use, setting them up provided some peace of mind.

Then, he began to integrate the Chaos level cultivation talents he had just copied.

"Integrate!" Ye Tian thought to himself.

Boom! The integration began! After enduring intense pain for half an hour, Ye Tian finally completed the integration and transformation.

With a thought, Ye Tian checked his talent status.

At this moment, his cultivation talent had undergone another transformation.

[Cultivation Talent: Mixed]

"As expected, chaos! Primordial chaos! My cultivation talent was at the Chaos level before, and now it has become Mixed. I wonder if this Mixed level cultivation talent is the limit," Ye Tian mused to himself.

The Mixed level cultivation talent signified that Ye Tian could cultivate beyond the realm of Dominators, placing him on the same level as those seventy-eight Supremes of humanity.

Divine Lord Dantai had also mentioned that those seventy-eight Supremes of humanity were actually at the same realm. Although some Supremes were more powerful, they were still on the same level.

Just as Ye Tian, being an Emperor-level Eternal Child of the Universe, could instantly annihilate a million ordinary Emperors.

“The strongest of humanity are the Supremes, and those Supremes probably have Mixed level cultivation talents. Having a Mixed level cultivation talent, what more could I ask for?”

With this thought, Ye Tian no longer cared if there was a higher level of cultivation talent above the Mixed level.

Time slowly passed.

Ye Tian quietly cultivated the Primordial Chaos Body Refining Technique on the cosmic spaceship. Although it wasn't of much use, he didn't want to waste time. Any increase in strength was beneficial.

Thus, four months passed.

One day.

The voices of the Dominators came.

“We've arrived at our destination, everyone come out!”

Boom! The spaceship's hatch opened, and the princes descended from the spaceship one by one.

Stepping out of the spaceship, Ye Tian was completely astonished by the sight before him.

In the far distance was a massive black hole, devouring the surrounding light. This black hole was too large, far beyond Ye Tian's imagination.

Even the laws here were in chaos, as if torn apart by the black hole's force.

Standing here, even with Ye Tian's strength as an Eternal Child of the Universe, he found it difficult to maintain his stance.

Fortunately, the Dominators' power radiated over, stabilizing Ye Tian's form.

Around the black hole, there was no light, but at Ye Tian's level, light wasn't needed to see. He could rely on his divine sense to observe things. However, here, even the divine sense of an Eternal Prince had difficulty seeing too far. The entire black hole appeared as endless darkness and void under Ye Tian's divine sense.

Black holes were mysterious and terrifying. Ye Tian had never approached even a small black hole in a galaxy before.

He never expected that his first encounter with a black hole would be at the center of the universe, and such a massive one at that.

All the princes were puzzled as to why they were here.

Could it be...

At this moment, Dominator Xuan Yuan explained, "The ruin world lies deep within the black hole. With your power, you cannot approach the depths of the black hole. This is a Supreme Order, possessing a trace of a Supreme's power for protection, enough to allow you to ignore the black hole's gravitational pull."

Swoosh! Supreme Orders fell into the hands of each prince. All the princes immediately refined the Supreme Orders, and suddenly, they no longer felt the black hole's gravitational pull.

Then, Ye Tian and the others were enveloped by the Dominators' power and flew towards the black hole.

Soon.

They were extremely close to the black hole, but its gravity did not affect Ye Tian and the others, demonstrating the power of the Supreme Order.

Without the Supreme Order, Ye Tian and the others would have been attracted by the black hole and then torn apart by its force, turning into nothingness.

In an area very close to the black hole, one of the human Dominators threw out a massive altar, which stood in the void.

The eight Dominators and the human princes flew onto the altar, waiting for the opening of the ruin world.

At this time, there were already some princes and powerhouses from other races nearby.

However, the human princes like Ye Tian, with limited vision, had difficulty spotting those from farther areas.

But some races were very close to humanity, and Ye Tian still noticed them.

He saw an area in the distance where some members of the Dragon Race were coiled, among them a massive golden true dragon, as vast as an immense ancient mountain range.

“Those are the Dragon Race’s powerhouses and princes!” the other princes also noticed.

The relationship between humanity and the Dragon Race was very delicate. In some areas on the edge of the universe, their territories bordered each other, like the Milky Way and a certain planetary system of the Dragon Race.

In the ancient eras, the Dragon Race was considered one of the beast races, but eventually, they separated from the beast races and led most of them, establishing their own race.

However, the Dragon Race was not considered one of the major cosmic races, only as one of the higher races.

The reason was the Dragon Race's small population. Even though almost every member of the Dragon Race could become a God-level powerhouse, their small numbers meant that they could not produce many strong individuals.

For example, humanity, with its vast population, though individually weaker and less talent, had, through sheer numbers and intelligence, produced many Universal Gods, Dominators, and seventy-eight Supremes.

The Dragon Race had far fewer Universal Gods than humanity, and Dominators were even rarer.

However, other major cosmic races still dared not underestimate the Dragon Race, as it boasted three Supremes, known as the Three Great Ancestor Dragons.

A race with Supremes, no matter how few, was not easily oppressed by other major cosmic races, as a single Supreme going berserk could cause unimaginable disaster.

Ye Tian had also had encounters with the Dragon Race before, but those were with a weak branch of the Dragon Race from one of their weaker planetary systems, not even worthy of mention as a Heavenly Pride.

Suddenly.

A team flew over, attracting the attention of many human princes.

Ye Tian also looked over, and was slightly surprised: "It's that race!"

Chapter 516: The Supreme Makes a Move, Entering the Ruins World!

"The Giant Race!"

The race that appeared within Ye Tian's field of vision was, astonishingly, the Giant Race.

The Giant Race was also one of the major cosmic races. They were enormous in size, with even the infants of the Giant Race standing ten meters tall, and the adults could grow up to a hundred meters.

Moreover, the Giant Race possessed a divine ability that allowed them to increase their size. It was rumored that the powerful members of the Giant Race could, after enlarging themselves, swallow the sun and the moon and wield the galaxy in their hands, a truly terrifying sight.

Ye Tian had only heard of the Giant Race before but had never seen a real member of the race.

The Giant Race was one of the few cosmic races that had a relatively good relationship with the Human Race. There were rumors of marriages between the Giant Race and the Human Race, giving birth to humans with the bloodline of giants.

Upon the arrival of the Giant Race, several dominators of the Human Race went up to greet them, chatting with the dominators of the Giant Race.

Subsequently, one after another, different races arrived at the scene, many of which Ye Tian had never even heard of before.

In the blink of an eye, a month had passed.

At this time.

The Instructor Xuan Yuan spoke, "This time, as you enter the ruin world, pay attention to several aspects. Regardless of whether you are an Emperor, God, True God, or Great God, you must first be wary of the princes from the two super cosmic races. If ordinary or peak princes encounter princes from these two super races, flee immediately! Do not engage in combat with them, as the likelihood of falling is as high as ninety percent. However, for Eternal Princes, if you encounter princes from these two super races, act according to your strength.

You may have heard of these two races—the Immortal Race and the Demon Race! This is the real Immortal Race and Demon Race, not some heretical creations from within our Human Race."

"Immortal Race! Demon Race!" Ye Tian's expression turned solemn.

The Supreme Hall of Humanity had very few records about the Immortal and Demon Races, seemingly to avoid causing panic. As an Eternal Prince, he was able to access some basic information about the Immortal and Demon Races, but not much.

He knew that the Immortal Race and Demon Race had existed since the birth of the universe, long before the Human Race came into being.

The Immortal Race and Demon Race were once the two overlords of the entire universe, dominating most of the cosmic territories. Over the eons, other cosmic races rose, and the constant warfare between the Immortal and Demon Races provided opportunities for other races to ascend.

Even as many cosmic races emerged in the universe, the Immortal Race and the Demon Race remained the most powerful, known as the super cosmic races.

A single cosmic race was no match for either the Immortal and Demon Race, and many cosmic races had to unite to stand against the Immortal and Demon Races.

The mutual restraint between the Immortal and Demon Races also allowed other races to coexist.

As the cosmic races developed to their current state, many cosmic races possessed Supremes, making it difficult to annihilate a cosmic race entirely. The era of myriad races seemed to have solidified.

Unless a race produced a being that surpassed the supreme level, the current state of affairs was unlikely to change.

The Immortal Race and Demon Race, as super cosmic races, had very powerful princes. The Immortal Race, in particular, had strong physiques and excellent talents, as well as the most powerful divine canons and the best resources.

Therefore, it was not difficult for princes of the Immortal Race to grow to the peak level of Child of the Universe, and even cultivating an Eternal Prince was relatively easy.

Moreover, with the vast resources of the Immortal Race, even peak Children of the Universe possessed many trump cards. If a peak Child of the Universe from the Human Race encountered one from the Immortal Race, the likelihood of being killed was significant.

For this reason, Instructor Xuan Yuan warned the princes of the Human Race to avoid clashing with the princes of the Immortal and Demon Races to prevent heavy casualties.

Of course.

If there was confidence in slaying a prince of the Immortal and Demon Race, Instructor Xuan Yuan naturally hoped that the princes of the Human Race would do so, as it would also inflict losses on the Immortal and Demon Race and curb their development.

Besides the Immortal and Demon Races, there were other races to be cautious of, such as the Golden Race, Sea Race, Diamond Race, Blood Race, Angel Race, etc.

These races were all major cosmic races and had unfriendly relations with the Human Race.

Instructor Xuan Yuan briefly reminded them and then said no more.

In reality, once inside the ruin world, even the internal factions of the Human Race might not be harmonious. If a startling opportunity arose, the possibility of infighting was not nonexistent.

And some friendly races might stab you in the back at critical moments.

Thus, upon entering the ruin world, one must remain vigilant towards everyone.

Time passed again for a few months, and the other races had mostly arrived.

At that moment.

Several majestic figures suddenly appeared in this part of the void, their powerful aura even causing the central black holes of the universe to halt their operation.

Instructor Xuan Yuan and others protected Ye Tian and the other princes with their aura, shielding them from the impact of this terrifying presence.

“Supremes!” Ye Tian realized.

These majestic figures must be Supremes. Only they possessed such grand power, capable of annihilating stars with a mere flick of their hand.

Unfortunately, these Supremes were too far away for Ye Tian to use his copy talent to view their talents, he couldn’t even discern their true forms.

These majestic figures were clearly just a radiation of their power, not their true forms.

“Let’s begin!”

A voice echoed through the void, not in the human language, but in the Divine Tongue.

However, everyone understood the meaning of this Divine Tongue.

“This person who spoke must be a Supreme from the Immortal Race!” Ye Tian speculated.

Swiftly, one Supreme after another made their move, with colossal palms appearing, each seemingly larger than entire galaxies, all exerting their force upon the vast black hole.

Crackling sounds filled the air as the Supremes’ powers tore open several pathways through the black hole, which eventually formed into four distinct channels, each leading to a different area of the ruin world.

“Stabilize!”

“Stabilize!”

“Stabilize!”

The voices of the Supremes resonated through the void, causing laws to collapse and the black hole to cease its spinning, everything came to a standstill.

“Prepare yourselves, we are about to send you in. Once inside, you will appear randomly within the ruins. Be cautious once you enter.”

After the dominators had finished their reminders, they divided the princes of the Human Race into four groups and sent them into the black hole.

Ye Tian barely had time to react, unable to even see his surroundings.

The power of the dominators transported him into the black hole, a place where light, consciousness, and perception were all swallowed.

He felt surrounded by darkness and void, almost causing his thoughts to freeze.

After an unknown amount of time, Ye Tian suddenly regained his consciousness, and light appeared before his eyes.

Thump! Ye Tian felt his feet touch solid ground, and upon closer inspection, he found himself on a vast expanse of land, standing atop a small hill.

Immediately, Ye Tian concealed his aura and surveyed his surroundings.

“The chaos yuan qi here is so rich!” Ye Tian exclaimed in surprise.

The chaos yuan qi here seemed no less than that in the first layer of the Chaos Tower, and although it couldn’t help him break through to the sixth layer of the Chaos Body Refining Technique, it could refine his cultivation.

Moreover, this seemingly ordinary place possessed such a dense concentration of chaos yuan qi, surely containing some cultivation treasures, not inferior, perhaps even superior, to the environment in the second layer of the Chaos Tower.

If he could cultivate here continuously, even without any fortuitous encounters, Ye Tian was confident he could advance to the sixth layer of the Chaos Body Refining Technique, thereby significantly enhancing his strength.

Besides the rich chaos yuan qi, the space here was exceptionally stable, and the suppression of heaven and earth was immense.

In the universe, Ye Tian, as a Child of the Universe, was free from the pressure of heaven and earth, but here, he felt a suppression, making it difficult to cause significant destruction in this place.

Ye Tian squatted down, picked up a rock, and gently squeezed it with his hand, causing it to crack.

“Such a sturdy rock!” Ye Tian was astonished, his physical strength was such that he could crush a piece of Millennium Xuan Iron, but this ordinary rock merely cracked and did not shatter, indicating its extraordinary toughness.

“As expected of a ruin world that evaded cosmic destruction. Everything here is incomparable to the outside world!” Ye Tian thought to himself.

He looked into the distance, seeing cracks all over the land, indicating that this ruin world had also suffered unimaginable destruction.

This ruin world was vast, divided into four parts, but each part was still unimaginably large.

However, with many princes entering the ruin world this time, the chances of encountering each other were still high.

“According to Instructor Xuan Yuan, the most precious things in the ruin world are the legacies from the previous universe. As the previous universe neared its end, many forces, knowing they couldn’t escape the cosmic cataclysm, placed some treasures and legacies in this world, hoping they would be passed down.”

Ye Tian also wished to obtain such a legacy. Even if a legacy was useless to him, he could give it to the Supreme Hall of Humanity in exchange for precious treasures and opportunities.

Ye Tian scanned his surroundings with his divine sense, finding nothing of interest.

Then, Ye Tian flew slowly, keeping an eye on his surroundings to guard against any Child of the Universe that might attack him from the shadows.

Not long after, Ye Tian sensed a strong fluctuation of chaos power, completely overshadowing the world's own chaos yuan qi.

“There must be a treasure of chaos over there!” Ye Tian thought, his interest piqued.

Treasures of chaos born here were bound to be precious.

Swoosh! Ye Tian flew rapidly towards the source, lest other princes snatch the treasure.

In an instant, Ye Tian arrived at his destination.

Chapter 517: The Ancient Monastery Ruins!

When Ye Tian arrived here, it just so happened that a Prince was also present, having hurried over as well.

Immediately, Ye Tian's clone talent enveloped the other, examining the latter's talents.

Triangle Race: Golden River

Cultivation Talent: Hong level

Strength Talent: God level

Speed Talent: God level

Defense Talent: God level

Boxing Talent: Supreme level

Golden Armor Talent: God level

Thunder Talent: God level

“Triangle Race!”

Ye Tian had little impression of this race; it likely wasn’t one of the major cosmic races, but it definitely belonged to one of the higher races.

Only higher races had the chance to enter the ruin world; weaker races had no such opportunity.

The criterion for evaluating a higher race was whether there was a Supreme within the race. If there was, along with some Dominators, it could be evaluated as a higher race. Otherwise, no matter how many Dominator level powerhouses there were, it couldn’t be considered a higher race.

For instance, the Crystal Spirit Race, one of the vassal races of humanity, couldn’t be ranked as a higher race due to the absence of a Supreme and was merely considered a minor race.

“Human Race!”

The Triangle Race’s Golden River’s expression changed slightly upon seeing Ye Tian.

As a Prince of a higher race, what he feared the most was encountering a Prince from one of the major cosmic races.

“I hope it’s just an Ordinary level Prince!” Golden River hoped inwardly.

He really didn’t want to give up the chaotic treasure not far from here. Although he wasn’t cultivating the Chaos Dao, chaotic treasures were useful to all cultivators, just more so for those cultivating the Chaos Dao.

Whoosh! Golden River flew swiftly, hoping to seize the chaotic treasure first.

“Almost there! Almost there!”

The treasure was now in sight, a grass growing on a cliff fissure.

This grass was about the height of a person, filled with dense chaotic laws and a hint of chaotic origin.

Clearly, this grass was a relatively high-level chaotic treasure.

Golden River saw it, and so did Ye Tian! However, Golden River was a bit closer to the grass.

“Ten Thousand Layer Realm!”

Ye Tian instantly used this space divine ability, trapping Golden River within the Ten Thousand Layer Realm.

He wasn’t sure about Golden River’s strength, but even a first-tier Eternal Prince wouldn’t be able to break through the Ten Thousand Layer Realm instantly.

After trapping Golden River, Ye Tian activated Black Feathers.

Whoosh! A pair of black wings appeared on Ye Tian’s back. With a slight flutter, Ye Tian flew at a speed surpassing instant teleportation, reaching the cliff in a blink.

Immediately.

He carefully picked the chaotic grass, while the Triangle Race’s Golden River pulled out a golden arrow, activating it to release a beam of golden light.

Boom!!!! The golden light penetrated Ye Tian’s Ten Thousand Layer Realm barrier with incredible speed and power.

“Drop that grass!” Golden River roared.

The level of that grass was so high that if he absorbed and refined it, he might even advance his divine canons to the perfected realm. Naturally, he didn't want Ye Tian to take it.

For this, he even used a secret treasure given by the higher-ups of his race, specifically targeting formations and barriers, with immense destructive power.

"Interesting treasure, it actually broke through my Ten Thousand Layer Realm!" Ye Tian thought.

The golden light returned to Golden River's hand, transforming into a golden arrow.

"This grass was obtained by me and rightfully belongs to me. Are you trying to rob it?" Ye Tian questioned.

"Indeed!" Golden River threatened, "I saw it first. If you hadn't used spatial divine ability to trap me, this chaotic grass would have been mine. Hand over this grass, and I'll only take half. If you refuse, don't blame me for killing you!"

"You think you can kill me?" Ye Tian scoffed with a cold laugh.

Hearing Ye Tian's scorn and disdain, Golden River threw a punch, as if unleashing a great sun.

This was clearly a perfected level Supreme Punch Technique!

"A Supreme Punch Technique. You're too weak!" Ye Tian casually slashed with his saber.

The Heavenly Moon Saber Ultimate Technique instantly broke through Golden River's Supreme Punch Technique, then pierced through his flesh.

Instantly.

Golden River stood frozen in mid-air, the light in his eyes gradually dimming.

Then, he fell from the sky, his body disintegrating, until only fragments remained upon hitting the ground!

“A second tier peak Child of the Universe. Quite a decent strength, probably one of the Triangle Race’s leading figures. Too bad, still too weak!” Ye Tian murmured.

With Golden River dead, Ye Tian stepped forward to take his Xumi ring, finding many valuable items inside.

After all, the Triangle Race was also considered one of the higher races, aiming to break into the ranks of the major cosmic races, hence investing heavily in their Princes, even bestowing many treasures, hoping for one of them to bring back a legacy or astonishing treasure.

Thus, even a second tier peak Child of the Universe received treatment comparable to Ye Tian’s.

Besides the arrow treasure, there was also a pearl containing terrifying thunder yuan force, startling even Ye Tian, likely another one-time weapon capable of unleashing terrifying attacks.

Moreover, there was a drop of million-year-old stone milk that could instantly heal a Prince from near-death to peak condition.

Such rare treasures were not even in Ye Tian’s possession.

Apart from these items, Golden River also had numerous divine crystals and other treasures, totaling a significant value.

Killing a Prince had substantially increased Ye Tian’s wealth.

However, ordinary treasures were of little use to Ye Tian now, so his excitement wasn’t much.

What truly moved Ye Tian’s heart was that chaotic grass, its value immeasurable, greatly beneficial to Ye Tian.

Ye Tian had never seen such a high-level chaotic treasure; it might even advance his Chaos Body Refining Technique to the fifth layer's perfected realm.

"Let's go!"

Ye Tian quickly departed, continuing to seek opportunities.

In this ruin world, the chaotic grass wasn't considered a true great opportunity. A true great opportunity could greatly assist a race, even leading to its rise.

And a single piece of chaotic treasure like this grass was nothing in comparison; it only seemed precious to Ye Tian and Golden River because they had just arrived. Once more treasures like the chaotic grass were encountered, they would seem ordinary.

Before long.

Boom! A battle sounded ahead. Ye Tian, now invisible, approached for a closer look but didn't engage upon seeing two different races fighting, choosing instead to leave.

In the following day, Ye Tian encountered many valuable items, taking them one by one, reaping a rich harvest. During this time, he also easily killed a few Princes from different races.

On this day.

Ye Tian walked through a mountain range and saw a majestic figure emerge ahead, a terrifying aura enveloping the area.

Seeing this, Ye Tian's heart stirred.

"Could it be someone has triggered the ruins!" Ye Tian thought.

The ruins were undoubtedly the most precious part of the ruin world, but not many had been preserved through the great cosmic destruction and remained untouched by predecessors.

In the previous cosmic era, many forces preserved some legacies and treasures in this ruin world, thus creating numerous ruins.

However, with the ruin world opening many times, many ruins had been discovered, with only a few still containing treasures and legacies that hadn't been taken due to their difficulty. Even Emperor level Princes found them nearly impossible to take, and some were not allowed to be taken.

The Human Race also knew the locations of some ruins, but going there wouldn't yield much benefit, so they didn't provide Ye Tian with a map.

Only some undiscovered ruins might contain valuable treasures.

Whoosh! Ye Tian activated Black Feathers, flying swiftly towards the destination.

Soon, Ye Tian arrived.

Indeed.

There was indeed a ruin deep in this mountain range, an ancient monastery.

The ancient monastery bore the marks of time and the tremors of cosmic destruction, now quite dilapidated, but its once grand scale was still evident.

At the same time.

Ye Tian also saw several Princes, including two from the Immortal Race, two from the Demon Race, one from the Golden Race, and one from the Angel Race.

With Ye Tian's arrival, seven Princes had now gathered here.

"Human Race!"

The Princes from the God and Demon Races sneered disdainfully at Ye Tian, considering him no threat.

The Golden Race Prince approached Ye Tian, saying, “Friend from the Human Race, how about we form an alliance? This ruin has just appeared, and we don’t know what’s inside. It’ll be safer for us to be allied!”

“Not interested!” Ye Tian flatly refused.

“You...”

The Golden Race Prince was somewhat irritated but said nothing more and retreated far away.

These Princes hesitated to enter the ancient monastery immediately because the situation was unclear. Instructor Xuan Yuan had also warned Ye Tian that even upon finding a ruin, one should not enter recklessly without understanding the situation, or else facing a killing formation would mean certain death. At this moment.

The Princes from the God and Demon Races took out puppets, sending them into the ruins first.

Ye Tian also took out a puppet, exchanged from the Supreme Hall of Humanity, naturally preparing some items for the visit to the previous cosmic ruin world, to avoid being at a disadvantage.

Boom! The puppets entered the ancient monastery and quickly returned.

No danger! The Princes rushed into the ancient monastery, fearing the good opportunities would be taken by others.

Ye Tian also entered immediately. Upon entering, he saw a large number of skeletons.

These skeletons were mostly sitting cross-legged, with no flesh visible, just white bones filled with the marks of time and ancient aura.

The Golden Race Prince touched a skeleton, which instantly turned to dust.

“These must be beings from the previous cosmic era, their bodies too long decayed to be preserved!” Ye Tian sighed.

So many had died at once, and from their sitting positions, it seemed they were not killed by others, nor did it seem like they were killed by the shockwave of the cosmic destruction.

In fact, Ye Tian had always been puzzled why, despite the ruin world surviving the cosmic destruction, not a single being from the previous cosmic era survived into this one.

Entering the main hall of the ancient monastery.

Ye Tian saw a massive Buddha statue. In the previous cosmic era, there were also forces related to Buddhism.

And beneath the Buddha statue sat a person in a kasaya, seemingly alive.

But Ye Tian was certain the person was long dead, devoid of any vitality.

A Prince from the Demon Race touched the person, half-expecting them to turn to ash.

Suddenly, a fluctuation spread.

“Not good!”

All seven Princes’ expressions changed drastically.

Boom! A vision suddenly filled their minds.

Chapter 518: The Fight Within the Ancient Temple!

In the boundless void, a monk clad in a kasaya emanated endless sorrow and despair.

He watched as star fields in the universe collapsed, and countless lives perished.

He wanted to stop it but was powerless.

On a continent, there was a magnificent, immense Buddhist temple, along with countless other temples.

Suddenly, the continent was destroyed, and many powerful beings were obliterated.

The monk took some disciples with him, traversing numerous star fields step by step, until they reached a ruin world. Here, in one of the precious temples, they awaited the final moment.

Then, all the monks sat down cross-legged.

Suddenly, a terrifying shockwave struck, causing the world to shake immensely.

Without warning, one by one, the Buddhist disciples silently lost their lives, and this terrifyingly powerful monk also closed his eyes, his breath gone.

Before his death, he cried out, "I am not willing to accept this!"

Crack! The scene shattered, and princes like Ye Tian came back to their senses.

"That was the obsession scene of the monk before his death. It has not dissipated in this universe even now," Ye Tian thought to himself.

From that scene of obsession, it was evident that this monk was incredibly powerful, capable of crossing numerous star fields in a single step and suppressing galaxies with just one hand—a terrifyingly powerful being.

He might have been a Supreme! Yet, even a Supreme met his end.

"This monk and the other monks came to this ruin world not killed by the impact but died silently. Even a Supreme died without a sound. Could it be..."

Ye Tian suddenly thought of a possibility.

Once the universe was destroyed, all beings must die, even Supremes couldn't survive.

Perhaps this was why all beings from the previous universe didn't live to see this era.

At this time, one of the princes from the Immortal Race, named Yuan Feng, sighed, "When the great destruction of the universe occurs, even Supremes can't survive. One day, when our universe faces its great destruction, even if we can cultivate to the realm of Universal Gods with infinite lifespans, we will perish along with the universe!"

A prince from the Demon Race sneered, "Heh, it's not even certain whether you can leave this ruin world alive, yet you're lamenting about this. Even if you eventually reach the realm of Universal Gods, or even the Dominator Realm, our universe is still a long way from its destruction. Is there a need for you to worry now?"

"Hmph, I was just sighing!" Yuan Feng retorted coldly.

At this moment, all the princes were very wary of each other, each activating their defensive measures to prevent sneak attacks.

In this ancient temple, treasures might be encountered at any time. If a treasure appeared, a fight might break out.

The reason everyone was standing here peacefully for the time being was that no treasures had been found that were worth fighting over.

Although the bones of the monk who was suspected to be a Supreme were preserved, they had lost the power of a Supreme. Otherwise, none of the princes present could even get close to a Supreme.

Ye Tian tried to use his talent-copying ability to check the talent situation of this monk, but he was disappointed.

The monk did not have any talents, perhaps because they had dissipated. After all, this powerful being was a creature from the previous universe and had died countless ages ago. Perhaps even the mark of his talents had perished with the great destruction of the universe and naturally couldn't be preserved until now.

Another possibility was that beings from the previous universe were not limited by talents, as the universe was different and so were its rules.

The bones were not valuable, so the other princes naturally didn't pay attention to them, each searching for treasures within the ancient temple.

Ye Tian, however, approached the monk's bones and touched his skull, arms, and so on...

"Such a powerful body!!" Ye Tian was astonished.

He felt that his own body was too weak compared to the monk's, not even one in ten thousand as strong!

"Strange, above the level of God, the divine body is fixed and cannot continue to increase in strength or defense, only divine power and soul can be improved. Even if this person was a Supreme Child of the Universe, his body shouldn't be this strong after becoming a God!" Ye Tian was puzzled.

Now, he finally understood why the monk's body hadn't decayed.

Normally, once divine power and soul are lost along with the laws and origins, even the bodies of powerful beings would gradually decay, just at varying speeds.

For example, the monks outside the grand temple hall were also incredibly powerful, definitely strong beings, but they still decayed into dust and dispersed upon touch.

This monk's body, however, was strong to an inconceivable degree. Even after losing all power, his mere physical body was enough to remain undecayed for endless ages.

Such a body was beyond Ye Tian's imagination. "If I could also possess such a body, perhaps there's a hope of advancing to the level of a Supreme Prince at the Emperor level and breaking the shackles of the universe!" Ye Tian speculated.

He didn't search the monk's body for treasures but chose to leave directly.

The dantians of powerhouses above the Planetary System level turn into worlds. Many times, such beings store their treasures within their dantian worlds or in spatial storage items like the Xumi Storage Ring.

Regardless of the situation, the inner world of this strong being collapsed and disappeared the moment he died. If there were any treasures, they would have entered the spatial turbulence and dissipated along with the great destruction of the original universe, and spatial rings and the like would have become useless long ago.

Because of this, there were no valuable items left on the bodies of strong beings from the previous cosmic era. Only items stored in this ruin world could be preserved, but even those were extremely rare.

This knowledge was also imparted to Ye Tian by Dominator Xuan Yuan to prevent him from wasting time.

Suddenly.

Boom!!! A battle began not far away! Whoosh! Ye Tian flew towards the direction of the battle.

This ancient temple was not limited to a single grand hall but consisted of multiple buildings.

At this time, several princes were engaged in a fierce battle beneath a pagoda. A prince from the Golden Race and one from the Demon Race already fallen, and a prince from the Angel Race severely injured, on the brink of death.

Ye Tian's arrival drew the hostility of two princes from the Immortal Race and another from the Demon Race.

“Scram!”

One of the Immortal Race princes launched an attack at Ye Tian.

“An Eternal Child of the Universe!”

Ye Tian was slightly surprised.

Eternal Children of the Universe were exceedingly rare; even the major cosmic races didn't have many Eternal Children of the Universe. These two Immortal Race princes and the Demon Race prince were all Eternal Children of the Universe, whereas the fallen Demon Race prince and the Golden Race prince probably were not, hence they were instantly killed.

As for the Angel Race prince, his strength was also quite weak; merely being caught in the aftermath was enough to leave him gravely injured and near death.

“Die!”

Ye Tian showed no mercy against the Immortal Race prince, immediately unleashing the Heavenly Moon Saber.

Pfft! A single slash pierced through the body of the Immortal Race prince, the terrifying power of the saber's law shattering the prince's life force.

In just an instant, this Eternal Child of the Universe from the Immortal Race fell.

“Not good, he's not an ordinary Eternal Child of the Universe!”

Yuan Feng, the prince from the Immortal Race, and the Eternal Child of the Universe from the Demon Race were both terrified and hurriedly tried to escape.

“Ten Thousand Layer Realm!”

With a thought from Ye Tian, he trapped the two Eternal Children of the Universe from the Immortal and Demon Races.

These two Eternal Children of the Universe were only of the third tier, far inferior to Ye Tian in strength.

With just two slashes, Ye Tian easily killed them.

“Don’t kill me!”

The Angel Race prince, who was probably just an Ordinary Child of the Universe, was retreating in terror.

Pfft! Ye Tian swiftly slashed, directly killing this Angel Race prince.

Immediately after, Ye Tian went over and took the weapon in the hand of the Angel Race prince. It was a sharp weapon, likely a one-time use weapon capable of delivering a fatal attack to the enemy.

Every prince had means to protect their lives or a last resort. If one was compassionate or a bit slower, allowing the opponent to unleash their trump card, they might indeed suffer a heavy blow.

Ye Tian understood this principle well. He didn’t give his enemies any chance to turn the tables, not even if the enemy was just an Ordinary Child of the Universe.

After collecting these princes’ storage rings, Ye Tian didn’t look closely at what was inside but checked the surroundings and finally understood why these princes had fought.

“An armor set!”

Ye Tian’s gaze fell on a set of armor on a skeleton in front of the pagoda. This skeleton was clad in the armor set, which was perfectly preserved.

This person's status must have been not low, possibly the guardian of this pagoda. The armor set was also extraordinary, containing a faint aura of the origin law of gold.

Ye Tian had seen upper-grade Divine Artifacts, but their fluctuations were not as strong as this armor set.

“Could it be a supreme-grade Divine Artifact?” Ye Tian speculated.

He reached out and touched the skeleton, but it didn't completely turn to dust; only the flesh part had dissipated, leaving behind a golden skeleton.

The golden skeleton was well preserved, indicating that this person's physical body was also very strong, although not as much as the one in the grand hall, but not too far off.

Ye Tian removed the armor set from the skeleton and then attempted to refine it.

“It's difficult to refine!” Ye Tian frowned.

Immediately, he activated his time talent, accelerating time, and then continued to refine.

In the outside world, ten days had passed in a blink of an eye, while Ye Tian had been refining for a year under accelerated time.

On this day, Ye Tian finally managed a preliminary refinement and finally understood the level of this armor set.

It was not a supreme-grade Divine Artifact but an Origin Artifact that surpassed supreme-grade Divine Artifacts! However, Ye Tian couldn't utilize this Origin Artifact now; he had to wait until his cultivation was higher to truly use this Origin Artifact.

Having obtained an Origin Artifact, Ye Tian was in a good mood and then turned his attention to the pagoda.

The pagoda was located in the center of the ancient temple and was likely a very important place in the temple.

After some thought, Ye Tian decided to enter the pagoda.

Perhaps, there were precious items within this pagoda.

Chapter 519: The Mysterious Eighteen Movements!

Ye Tian entered the Buddha Pagoda without any hindrance. Perhaps the power that presided over this ancient monastery knew that everyone was destined to perish and merely wished to leave something behind after the universe's destruction. Thus, no deadly formations were set up.

Otherwise, with the strength of Ye Tian and his companions, they wouldn't even dream of entering this ancient monastery.

Inside the Buddha Pagoda.

Ye Tian stood there, about to explore the surroundings.

Suddenly, a child about one meter tall appeared before Ye Tian.

"Who are you?" Ye Tian displayed a cautious demeanor.

However, he soon speculated the identity of the child.

"An artifact spirit!"

He had encountered artifact spirits before, so he was quite familiar with their aura. This child was clearly an artifact spirit, and very likely the artifact spirit of this Buddha Pagoda.

"Are you one of the legendary living beings?"

The artifact spirit was thrilled to see Ye Tian.

"Legendary living beings?" The words sounded exceedingly strange to Ye Tian.

“Have you never seen a living being?” Ye Tian inquired.

“Never!” The artifact spirit shook its head. “Since my birth, I have been here, never having seen a living being. Moreover, I can’t leave this place and am confined here.”

After some questioning, Ye Tian finally learned about the origins of this artifact spirit.

Strictly speaking, this artifact spirit was born in this cosmic era. The artifact spirit from the previous cosmic era had perished.

After a long passage of time, this Buddha Pagoda gave birth to a new artifact spirit, which was the young child before him.

“Artifact spirit, does this Buddha Pagoda contain any treasures?” Ye Tian inquired.

“This Buddha Pagoda itself is a treasure!” The artifact spirit declared.

“The Buddha Pagoda itself?” Ye Tian looked at the pagoda but couldn’t discern anything particularly valuable about it.

At that moment, the artifact spirit explained, “This Buddha Pagoda, known as the Six Paths Reincarnation Pagoda, is the supreme treasure of the Six Paths Temple. However, the origin of the Six Paths Reincarnation Pagoda has fallen into slumber, making it difficult to revive its origin.

Although I am the artifact spirit of the Six Paths Reincarnation Pagoda, I am actually unable to activate it. When I was born, the origin of the Six Paths Reincarnation Pagoda was already in deep slumber, so I can’t control its origin unless the origin of the Six Paths Reincarnation Pagoda is revived.”

“Can I take the Six Paths Reincarnation Pagoda with me?” Ye Tian posed this question.

Although he was unclear about the terms ‘supreme treasure’ and ‘Six Paths Reincarnation Pagoda’, he was certain that the Six Paths Reincarnation Pagoda was an extraordinary artifact.

If he could bring it back to humanity, given humanity's foundation, they should be able to revive the origin of the Six Paths Reincarnation Pagoda.

By then, the magnitude of his contribution would be enormous, and he would surely receive astonishing rewards.

"I don't know!" The artifact spirit waved its hand. "I can't even leave this place myself, so I'm not sure if you can take the pagoda with you."

However, there is a place in the Six Paths Reincarnation Pagoda that I cannot enter, but you might be able to. Perhaps you can find a way to take the Six Paths Reincarnation Pagoda from there."

"Artifact spirit, can you take me to that place?" Ye Tian was somewhat eager.

"Of course!" The artifact spirit nodded.

Although the artifact spirit couldn't leave the Six Paths Reincarnation Pagoda, it had a certain level of authority over it.

In an instant, Ye Tian was teleported by the artifact spirit to the top of the Six Paths Reincarnation Pagoda.

There, Ye Tian saw a colossal ancient stone door.

"This is the place!" The artifact spirit said. "Apart from the slumbering origin of the Six Paths Reincarnation Pagoda, this is the only place I cannot enter. Only a true living being can enter here, and I am not one!"

As Ye Tian approached the ancient stone door, a light enveloped him.

In the next moment.

Ye Tian was sucked into the other side of the ancient stone door.

“Where is this?” Ye Tian looked around the void, utterly baffled.

At that moment.

In this void stood several Buddha statues, each in a peculiar pose, as if they were part of a series of movements.

Initially, Ye Tian thought he was in danger, but after moving around for a while, he encountered no threats.

Besides these Buddha statues, there was nothing else in this place.

“Strange, did I enter through that ancient stone door just to see these statues?” Ye Tian was profoundly puzzled.

After some contemplation, he suspected that the secret lay within these statues.

This was a place even the young child artifact spirit couldn’t enter, so it was unlikely to contain ordinary items.

There were a total of eighteen Buddha statues, which were undoubtedly precious and might conceal great secrets.

He attempted to attack a Buddha statue, but his attacks had no effect on it, akin to a common person punching a boulder.

As time passed, even someone with Ye Tian’s strong disposition began to grow impatient.

“Calm down!” Ye Tian sat cross-legged, calming himself to ponder the mysteries of the Buddha statues.

Before long, Ye Tian suddenly opened his eyes, struck by a possibility.

“Normal Buddha statues wouldn’t be so peculiar, assuming all these poses. These poses clearly form a set of movements. Could it be that I’m supposed to replicate these movements?”

With this thought, Ye Tian mirrored one of the poses.

With Ye Tian’s capabilities, mimicking a simple movement was naturally effortless.

However, as soon as he assumed the exact same pose, an overwhelming pressure descended upon him.

Boom! Ye Tian’s physical body seemed to be crushed under an incredible force, starting to collapse.

“Immortality Talent!”

“Healing Talent!”

“Life Talent!”

“Blood Devouring Talent!”

Ye Tian activated a series of talents to stabilize his physical body and promptly changed his pose.

As he altered his stance, the omnipresent pressure vanished.

And with the aid of various recovery talents, his collapsing physical body gradually healed and restored.

“This movement nearly cost me my life!” Ye Tian was somewhat shocked.

That was clearly a simple movement; why did it have such a significant impact?

“No, if that movement were made outside, it would definitely be harmless. It’s only here that performing such a movement triggers changes. The mystery must lie within this set of movements. Perhaps completing the entire set will unveil the secret!” Ye Tian thought.

After his injuries healed, Ye Tian selected another Buddha statue and replicated its pose.

As expected, the terrifying force crushed down again, nearly pulverizing Ye Tian’s physical body.

Recover! Continue with the movements! Recover again! In this manner, Ye Tian spent several days completing all eighteen sets of movements, each time nearly resulting in his physical body’s complete collapse.

Through the continuity of these movements, Ye Tian discerned the sequence of each set, his only insight over these days.

The First Set of Movements! Ye Tian continued with a movement similar to boxing, his body twisting. When his movement perfectly aligned with the Buddha statue, the terrifying force crushed down.

Crack! Ye Tian’s body felt as if it had broken, and he promptly changed his stance, causing the terrifying force to dissipate.

Then, Ye Tian healed his injuries.

Ye Tian repeated the first set of movements over and over, the only thing he could do.

Perhaps after numerous repetitions, he would comprehend the purpose of these movements.

One time, two times! Ten times, a hundred times, a thousand times, ten thousand times! Ye Tian initiated time acceleration, thus not worried about the time.

In the blink of an eye, a month passed.

After so many trials, Ye Tian noticed that he could maintain the first set of movements for longer.

Initially, he could only hold it for 0.

0 seconds, but now he could sustain it for 0.1 seconds.

More importantly, Ye Tian found that his physical strength had significantly increased, likely due to the repeated collapse and repair of his body, akin to body training.

“Could these movements be a method of cultivation?” Ye Tian suddenly realized.

This was highly probable, as the cultivation methods of the previous universe could have been incredibly unique, with various peculiar cultivation techniques being quite normal.

“Right, I previously obtained a Chaos Grass. This is a good opportunity to consume it and test these movements. Perhaps this set of movements is indeed a cultivation technique that can strengthen the body, maybe complementing the Chaos Body Refining Technique!”

With that thought, Ye Tian acted.

He took out the Chaos Grass and swallowed it, immediately running the Chaos Body Refining Technique and starting the first set of movements.

The moment the first set of movements was made, Boom! A terrifying force crushed down, seemingly intending to grind Ye Tian to dust.

After 0.1 seconds, Ye Tian changed his movement, and the terrifying force dissipated.

At this moment, Ye Tian discovered that a small portion of the Chaos Grass’s energy had been absorbed by his body, and the Chaos Body Refining Technique was operating at an unbelievable speed.

“The rate of progress is astounding!” Ye Tian was truly shocked.

Knowing that the energy contained within the Chaos Grass would require him decades to fully assimilate, even with time acceleration, yet now, in merely 0.1 seconds, Ye Tian had assimilated a small portion of the Chaos Grass's energy. Although this portion was very weak, the rate of assimilation exceeded Ye Tian's own by countless times.

"Opportunity, a real great opportunity. Just this little usage I've discovered is enough to prove the benefits of this set of movements.

It's a pity I don't know if these movements will be effective outside. If they don't work outside, I should seize the chance to cultivate here, otherwise, I would waste this great opportunity!" Ye Tian thought.

Thus, he began to repeatedly perform the first set of movements, assisting his cultivation with the Chaos Body Refining Technique.

Although each cultivation session required healing and recovery, the speed of cultivation remained incredibly fast.

In this way, a month quickly passed.

On this day, Ye Tian laughed heartily in this void.

"Hahaha! I've finally cultivated the fifth layer of the Chaos Body Refining Technique to the perfected realm!" Ye Tian was incredibly excited.

Chapter 520: The First Set of Moves for the Eighteen Golden Bodies Technique!

Ye Tian had never imagined that he could refine his Chaos Body Refining Technique to the fifth level's perfected realm in such a short time. According to his own calculations, even if he had gained a great opportunity in the world of relics, it would likely require a period of cultivation after leaving before he could hope to refine the Chaos Body Refining Technique to the fifth level's perfected realm.

After all, the refinement of the Chaos Body Refining Technique was gradual and step-by-step, making it very difficult to leap forward in one go.

Yet now, with just a set of mysterious movements and a Chaos Grass, Ye Tian had successfully refined the Chaos Body Refining Technique to the fifth level's perfected realm in a short period.

Such a speed of refinement was astoundingly fast!

Moreover,

Ye Tian discovered that he could now maintain the first set of movements for 3 seconds, a significant improvement from the initial 0.1 seconds.

"I can now maintain the first set of movements for three seconds. If I continue to refine, perhaps I can sustain it for even longer, and then I might truly be able to explore the mysteries of this set of movements!" Ye Tian thought.

For him, this was a great opportunity, but not so for others.

If an ordinary Eternal-level prince came here, even if they discerned the mysteries of these statues, attempting these movements would instantly disintegrate their bodies.

Ye Tian was able to change his movements in time.

He had the time to react, along with various recovery talents, otherwise, he couldn't have saved his own life.

Thus, Ye Tian's acquisition of this opportunity was also due to his sufficient strength; otherwise, even if the opportunity was there, he wouldn't have been able to seize it.

Time passed by slowly.

Ye Tian only practiced the first set of movements, gradually extending the duration of his hold.

Of course, he couldn't abandon the refinement of the Chaos Body Refining Technique. Although it was difficult to break through the limit of the fifth level, he could solidify this realm.

The cost was the exhaustion of all the Chaos Crystals and other Chaos materials on him, but in the end, it thoroughly solidified the perfected realm of the fifth level of the Chaos Body Refining Technique, truly reaching the limit of the fifth level.

4 seconds! 6 seconds! Ye Tian's duration continued to increase, and he felt as if he was about to grasp the essence of this set of movements.

On this day.

Boom!!! While maintaining the first set of movements, Ye Tian suddenly felt a powerful force emerge within him, flowing around his body and transforming it.

Instantly, his physical strength increased at an unbelievable speed.

To double one's physical strength was not something even the Chaos Body Refining Technique could achieve instantly, except during a breakthrough.

And now, he had just performed a movement, so why did it have the effect of a breakthrough? Ye Tian was puzzled and had no time to think about it because, at that moment, a huge phantom appeared in the void.

This phantom maintained the first set of movements, seemingly demonstrating the essence of the first set.

Unlike the Buddha statue, this phantom was entirely composed of countless threads, resembling the meridians of the human body. These threads infused power through countless meridians, forming a human meridian map.

Boom!!! The phantom surged into Ye Tian's soul, and a plethora of information was presented.

After a long while, Ye Tian's eyes were filled with joy and madness.

"It's actually a path of physical cultivation!" Ye Tian was shocked.

He finally understood why the monk's body in the ancient temple hall was so strong, far beyond his imagination. It was because the monks of the Six Paths Temple specialized in enhancing physical strength, not divine power.

In other words, in the previous cosmic era, it was possible to continue enhancing the divine body beyond the God level, unlike in this cosmic era, where once one became a God level, the strength of the divine body was set.

And this set of movements was specifically designed to enhance physical strength, the supreme secret for the physical body.

The Eighteen Golden Bodies Technique! The Eighteen Golden Bodies Technique consisted of eighteen sets of movements, not merely performing eighteen movements but required breaking countless meridians and circulating the body's power along specific routes through these meridians before performing a series of movements to be considered officially mastered.

Ye Tian did not break any meridians while using the first set of movements for cultivation because the void would automatically allow him to complete the circulation of the Eighteen Golden Bodies Technique's first set.

If Ye Tian performed these movements in the outside world, it would be useless.

At this moment, Ye Tian had fully inherited the cultivation method and essence of the first set of movements of the Eighteen Golden Bodies Technique. He just needed to follow the steps to have a chance to fully cultivate the first set to the perfected realm.

And only by cultivating the first set to perfection could he continue to cultivate the second set; otherwise, it would not be very useful.

The first two sets of movements were suitable for Emperor-level cultivation, according to the information included in the inheritance of the first set of the Eighteen Golden Bodies Technique.

And now, Ye Tian had only inherited the first set of movements. He couldn't inherit the other seventeen sets yet; he must cultivate to the corresponding levels to inherit them.

“The Eighteen Golden Bodies Technique and the Six Paths Reincarnation Pagoda are of great use to me and humanity. I must take them with me; otherwise, I won’t be able to cultivate the subsequent movements of the Eighteen Golden Bodies Technique!” Ye Tian thought.

However.

Although he had received the inheritance, he was still unclear on how to take the Six Paths Reincarnation Pagoda with him.

“Let’s formally cultivate the Eighteen Golden Bodies Technique first. Maybe there will be some changes after mastering it.”

Ye Tian sat cross-legged and began to break his meridians.

The human body contains countless meridians, with the Twelve Primary Meridians and the Eight Extraordinary Meridians being the most important. The rest, often imperceptible and unused in daily life, are ignored in the practice of martial arts, which typically does not utilize these finer or hidden meridians. Without inheriting the first set of movements of the Eighteen Golden Bodies Technique, Ye Tian would have remained unaware of the immense treasure hidden within the human body. It could be said that the cultivators of the previous cosmic era had far surpassed the current era in their exploration and understanding of the human body.

“Begin the refinement!”

Ye Tian activated his time acceleration ability, which allowed him to break through numerous minor and hidden meridians and acupoints. Some of these meridians were so concealed that they were difficult to locate without a specific cultivation route map. Without such a guide, even Ye Tian would have struggled to find these pathways.

Boom, boom, boom! Ye Tian broke through one meridian after another, stabilizing and repairing them. The process inevitably caused self-injury, but his various recovery talents quickly healed these wounds.

As time passed, a large amount of meridian impurities and waste blood accumulated on Ye Tian’s body, almost enveloping him. With a slight shake of his body, he expelled the impurities and waste blood and continued his cultivation.

A month went by in this manner.

On this day, Ye Tian finally broke through all the meridians required for the first set of movements, allowing the energy to circulate through the entire meridian map.

Thus, Ye Tian began his first complete refinement of the first set of movements of the Eighteen Golden Bodies Technique. As soon as he started, he felt his entire body boiling with a terrifying pressure that almost crushed his physical form. However, the human meridian map counteracted the mysterious forces, protecting Ye Tian's body and allowing him to endure for a longer period.

One hour! Two hours! Three hours! After a full six hours, Ye Tian finally exhausted his strength and collapsed.

At that moment, Ye Tian felt his body absorbing countless energies, refining and enhancing his physical strength. The sensation was incredibly soothing. At this point, Ye Tian had preliminarily mastered the first set of movements. Once the first set of movements no longer produced any effect on him, it would be considered perfected.

After Ye Tian had mastered the first set of movements, he felt that he could leave.

"I want to leave!" Ye Tian tried calling out.

At that moment, the statue corresponding to the first set of movements absorbed Ye Tian.

The next moment, Ye Tian emerged from the inheritance space of the Eighteen Golden Bodies Technique, returning to the top of the Six Paths Reincarnation Pagoda, in front of the ancient stone door.

Ye Tian knew he could re-enter the inheritance space, but there was no point in doing so. He couldn't acquire the second set of movements yet, and entering again would be a waste of time.

"You've come out!" The spirit of the tower appeared, circling around Ye Tian and said, "I sense a familiar aura on you, the essence of the Six Paths Reincarnation Pagoda's origin. You've gained the tower's acknowledgment, which is great!"

“What’s so great about it?” Ye Tian was somewhat confused.

The spirit explained, “You are now considered a half-owner of the Six Paths Reincarnation Pagoda. I can acknowledge you as my master. Then, we can use your connection with the Chaos Origin to awaken the tower’s origin, and I can become the true spirit of the Six Paths Reincarnation Pagoda!”

Although Ye Tian didn’t fully understand the spirit’s explanation, he grasped the gist of it.

“Spirit, if the Six Paths Reincarnation Pagoda is awakened, can it be taken away?” Ye Tian inquired.

“Yes!” The spirit nodded. “The awakening of the Six Paths Reincarnation Pagoda means it can be taken away. However, it’s only a small part of the origin that will awaken, which is insignificant. A complete awakening is very difficult. But once a small part awakens, I will become the true spirit of the Six Paths Reincarnation Pagoda and can control its size reduction, allowing you to take it with you. However, the awakening process will cause astonishing phenomena, and if there are other beings outside, they might come to snatch it. Do you want to awaken the Six Paths Reincarnation Pagoda?”

Ye Tian remained silent for a moment, then clenched his teeth and said, “Awaken it!”

He must take the Six Paths Reincarnation Pagoda with him, despite the astonishing phenomena that would attract many Eternal-level princes. Now, having refined the Chaos Body Refining Technique to the fifth level’s perfected realm and mastered the first set of movements of the Eighteen Golden Bodies Technique, his physical strength had more than doubled.

His current strength was significantly greater than when he first entered the world of relics, placing him among the top tiers of the Eternal-level universe.

With his current strength, what was there to fear?

“Good, then I’ll start acknowledging you as my master. Here’s a strand of my spirit’s origin; begin by refining it!” The spirit extracted a strand of its origin and said.

Ye Tian knew how to refine the spirit's origin and immediately started the refinement process.
