Chapter 521: Brutal Slaughter, Cleaning Up the Aftermath!

Not long after, Ye Tian successfully assimilated a strand of the artifact spirit's origin from the Six Paths Reincarnation Pagoda, becoming the master of the artifact spirit.

However, this form of acknowledgment was only the most basic and did not grant true control over the artifact spirit.

To truly control the Six Paths Reincarnation Pagoda, one needed to refine the tower's origin and control the artifact spirit with it, which was true control.

But at the moment, Ye Tian couldn't control the Six Paths Reincarnation Pagoda. If the tower's origin were to fully revive, it would be impossible for Ye Tian, with his current cultivation, to refine it. Therefore, it was already quite an achievement to have the artifact spirit acknowledge him as its master in a preliminary manner.

"I will start to communicate with a small part of the Six Paths Reincarnation Pagoda's origin, allowing that part of the origin to revive, thereby initially controlling the Six Paths Reincarnation Pagoda!" the artifact spirit said.

"Good!" Ye Tian nodded.

Immediately, the artifact spirit began to use Ye Tian's connection with the Six Paths Reincarnation Pagoda to communicate with its origin.

About ten minutes later:

Boom!!! The entire Six Paths Reincarnation Pagoda trembled, and the originally ordinary tower began to release endless divine light.

Boom! The ground shook, and waves of aura spread out, covering billions of miles around in the pressure of the Six Paths Reincarnation Pagoda.

At the same time, many princes nearby noticed the situation here, realizing that a heaven-defying treasure had appeared.

Swoosh! One after another, princes flew over, including some at the Eternal level.

However, most ordinary princes dared not approach. They knew that the emergence of such a treasure would surely provoke a fierce battle among the princes. With their strength, rashly joining the fray would not only prevent them from obtaining the treasure but might also cost them their lives.

But this time, the number of Eternal Princes entering this ancient world was enormous. Even if only a small part headed towards the Six Paths Reincarnation Pagoda, the scene of their battle would be astonishing.

It could be said that even the slightly weaker princes might be killed by the aftershocks.

Soon, some princes arrived at the ancient temple and the Six Paths Reincarnation Pagoda, and they were immediately attracted by the tower.

“A true treasure!” many princes were moved.

Such a treasure, once obtained, would be more precious than countless other treasures. Moreover, if there were any inheritances inside this treasure, its value would be even greater.

“At all costs, we must obtain this tower!” thought the princes from various major cosmic races.

The origin of the Six Paths Reincarnation Pagoda was reviving, its powerful pressure preventing many princes from approaching, let alone subduing the tower.

So, they all waited.

Time passed bit by bit, and a large number of princes gathered around, forming many camps.

Among them, the Immortals formed one camp, the Demons another, and the major cosmic races often formed a camp with several allied races. As for the princes of higher races, some also arrived, but they mostly watched from afar, not daring to approach.

Soon, the light from the Six Paths Reincarnation Pagoda slowly faded.

At this moment, the princes present became eager.

Inside the Six Paths Reincarnation Pagoda.

Ye Tian and the artifact spirit stood together, with the artifact spirit having initially taken control of the Six Paths Reincarnation Pagoda.

“Artifact spirit, can you see the outside scene now?” Ye Tian asked.

“Yes!” the artifact spirit nodded.

“Show me what’s happening outside!” Ye Tian commanded.

With a wave of the artifact spirit’s hand, the outside scene was displayed.

Seeing so many princes, Ye Tian frowned.

He was confident in facing any prince, but with so many gathered here, if they attacked him together, a single wave of their attacks might be enough to besiege him.

Although he was powerful, he was not truly invincible.

“Artifact spirit, you don’t need to control the Six Paths Reincarnation Pagoda for now. Just let it stand on the ground as it is, and close the tower’s doors.

If someone tries to take the Six Paths Reincarnation Pagoda, cooperate a bit, making them feel like they can subdue it, but ultimately, it should seem difficult.

This way, the princes outside will fight each other. Once they have fought enough, I will come out and clean up the aftermath!” Ye Tian instructed.

The artifact spirit nodded and did as Ye Tian instructed.

The light from the Six Paths Reincarnation Pagoda dissipated, and it stood firm on the ground.

At that moment, a prince flew over, attempting to take the Six Paths Reincarnation Pagoda.

Many treasures are difficult to take, so he was just testing the waters.

Boom! The Six Paths Reincarnation Pagoda vibrated and began to slowly fly towards him, as if it was about to be taken.

“What? This treasure can be taken?” The other princes went crazy and immediately attacked the prince trying to take the Six Paths Reincarnation Pagoda.

In just an instant, that prince was torn apart by the attacks of the many princes and fell on the spot.

The slaughter began, each one fighting desperately for the Six Paths Reincarnation Pagoda.

Among them, the Immortal and Demon Races were the most powerful factions.

The Immortals had four top-tier Eternal level Children of the Universe, and the Demons had three.

Against top-tier Eternal level Children of the Universe, other princes couldn't withstand them unless they used some special powerful weapons to severely injure a top-tier Eternal level Child of the Universe.

Boom! The scene was chaotic. Many princes went mad, using their ultimate abilities and releasing terrifying weapons. Many princes who were just watching didn't want to get involved but were also affected by the aftershocks of those terrifying weapons.

Some princes with life-saving treasures might survive, but those with average life-saving means were instantly killed.

In a blink of an eye...

Outside the Six Paths Reincarnation Pagoda, within a million miles, the scene was completely devastated.

The corpses of many princes were scattered everywhere, the sight was extremely tragic.

Many princes were frightened and fled far away, daring not to approach this area again.

As for the Six Paths Reincarnation Pagoda, they had completely given up on it, not daring to harbor any more thoughts about it.

In the end, princes from several major races like the Immortal, Demon, Angel, and Light races were still engaged in fierce battles.

At that moment, a prince from the Immortal Race took out a bag, which was also a secret treasure.

It transformed into a giant bag, covering the sky and shrouding the Six Paths Reincarnation Pagoda.

Other princes from the Immortal Race used binding techniques to stop princes from other races, buying time for this Immortal Prince.

“No, it’s the Gluttonous Bag, a spatial treasure refined from the stomach of a Universal God level Gluttonous Beast. It can take in many treasures. We can’t let the Immortal Race take away this treasure!” a prince from the Demon Race roared.

The Demon Race unleashed a shocking attack-type Divine Artifact, which exploded and turned into countless divine lights, bombarding the Immortal Race’s defenses.

However, the Immortal Race was prepared and used another secret treasure.

Swoosh! A blade slashed, separating the area where the princes of other races were from where the Immortal Race was.

A single slash seemed to have divided the world into two.

This was a spatial secret treasure capable of dividing an area into two separate spatial regions. It was difficult to break through this division; one could only fly over, but it would take a lot of time for an Emperor level being to fly over.

Of course, such a spatial secret treasure could not maintain this effect forever; it could only last for a short while.

What the Immortal Race wanted was to delay time. Once they obtained the Six Paths Reincarnation Pagoda, with the strength of the four top-tier Eternal Princes of the Immortal Race, they could retreat swiftly.

“It’s over, the treasure has fallen into the hands of the Immortal Race!” princes from the Demon Race, Angelic Race, and other major races thought helplessly.

However, unexpectedly, the Six Paths Reincarnation Pagoda emitted a beam of light, repelling the Gluttonous Bag and flying to another side.

Seeing this, all the princes understood. The Six Paths Reincarnation Pagoda clearly had a master already, someone who had arrived earlier and refined the Six Paths Reincarnation Pagoda. This person had been hiding inside the tower, watching them fight each other.

“Who is it?” All the princes were puzzled.

Which race did this person belong to? If it was a prince from their own race, they would naturally protect them. If not, they would spare no effort to kill them.

“Surround him!” The princes from the Immortal Race did not hesitate to attack the Six Paths Reincarnation Pagoda.

The person hiding in the Six Paths Reincarnation Pagoda was definitely not from the Immortal Race; otherwise, they wouldn't have avoided them just now. Thus, they did not hesitate to take action.

Inside the Six Paths Reincarnation Pagoda, the artifact spirit said, "Master, the Six Paths Reincarnation Pagoda does not have an attack effect, and I only have initial control over it. I can only control its size and movement. If the enemy traps the Six Paths Reincarnation Pagoda, it will be troublesome!"

"I understand. After I go out, shrink it down and let me put it away!" Ye Tian instructed.

Swoosh! Ye Tian flew out of the Six Paths Reincarnation Pagoda, which immediately shrunk down to the size of a palm.

"Take!" Ye Tian put the Six Paths Reincarnation Pagoda into his Xumi Storage Realm.

At the same time, Ye Tian directly faced the many princes present.

"A Human!" The princes from the Immortal Race, Demon Race, and other major races were furious upon seeing Ye Tian.

They hadn't expected to be played by a Human prince, causing them heavy losses and the death of many companions.

"Kill him first," the princes from the Immortal Race suggested.

The other major races' princes had no objections. Although the Human Race was also a major race, it wasn't ranked very high among the major cosmic races. After all, the Human Race was one of the newer great races and couldn't compare with the established ones, let alone the super great races like the Immortal and Demon Races.

Moreover, these major races were also aware of the Human Race's situation. The Human Race had lost all its Eternal Princes in the last incident, and no powerful princes had emerged from the Human Race recently. Although some sleeping princes might participate in this grand era, the overall strength of the Human Race's princes was weak and not worthy of attention.

Therefore, they didn't think Ye Tian, this Human prince, would be very powerful.

Killing Ye Tian and then seizing the Six Paths Reincarnation Pagoda was the thought of these princes.

Swoosh! One after another, princes attacked Ye Tian.

"Seeking death!"

"Ten Thousand Layer Realm!" Ye Tian immediately activated his spatial divine ability, trapping these princes.

Then, Ye Tian activated his Mixed Yuan Armor, boosting his strength to a terrifying level.

"Heavenly Moon Saber! Slash!" Ye Tian unleashed a full-strength slash at an Eternal Prince.

In just an instant, that second-tier Eternal Prince was slain by Ye Tian, with the other princes unable to stop him in time.

"Die!"

"Die!"

"Die!" Ye Tian's speed was too fast, much faster than these princes. Those with strength below the first-tier Eternal level had almost no chance to resist. Before they could react, they were killed by Ye Tian.

Chapter 522: The Corpse of a Supreme

In the blink of an eye, only about ten first-tier Eternal Child of the Universe remained on the field. The Ten Thousand Layer Realm barrier were shattered one by one by these princes, and the Angel Child of the Universe, who was the closest to Ye Tian, broke through multiple barriers and arrived in front of Ye Tian.

"Blade of the Angels!"

A massive white blade tore through the void, slashing with terrifying force.

This Child of the Universe, a leading figure of the Angel Race and stronger than the average first-tier Eternal Child of the Universe, was well documented among the information Ye Tian had on these first-tier beings.

“Prince Blade!”

Prince Blade, highly esteemed within the Angel Race, had disappeared thirty thousand years ago, leading humanity to speculate he had been sealed away. Now, it seemed this was indeed the case. However, Prince Blade did not recognize Ye Tian, as Ye Tian’s rise had been meteoric and he had kept a low profile, without gaining much notoriety in other parts of the universe, making it difficult for information about him to spread among the various races.

At that moment, Prince Blade mistook Ye Tian for a first-tier Eternal Child of the Universe of similar strength, who had only managed to kill other second-tier beings quickly due to his spatial talents. He believed his own strength was not inferior to Ye Tian’s and that by holding Ye Tian off, the other first-tier Eternal Children could join forces to kill him.

But he overestimated his own strength.

“Heavenly Moon Saber!”

With a slash of his saber, Ye Tian collided with the Angelic Blade of Prince Blade.

With a thunderous boom, Prince Blade was sent flying, his divine armor cracking.

At the same time, Prince Blade spat out blood, heavily wounded.

“This guy’s strength is second only to an Invincible Eternal Child!” Prince Blade roared.

The Angelic and Demon first-tier Eternal Children were shocked at this.

The term “Invincible Eternal Child” wasn’t just a title; it referred to those with freakishly strong abilities among the Eternal Children. An Invincible Eternal Child could easily kill ordinary first-tier beings, possessing extreme power.

If Prince Blade had faced a true Invincible Eternal Child, he would have been mortally wounded by now. While Ye Tian’s strength had not reached that of an Invincible Eternal Child, it was certainly close.

But even if not invincible, Ye Tian was not someone they could deal with.

“How could humanity have such a powerful Eternal Child without any leaks of information?” the Immortal and Demon Children wondered in disbelief.

Both the Immortal and Demon Races had their own near-Invincible Eternal Children who hadn’t made it to this encounter, busy with other fortunes to seize. They couldn’t believe that humanity, considered a mid-tier force in the universe, could produce such an extraordinary being.

They indeed possessed weapons that could severely injure Ye Tian, but those were uncontrollable and posed a significant risk of killing the wielder.

“Retreat!” The Immortal Princes prepared to flee.

Seeing this, the Demon Princes also chose not to engage with Ye Tian any further, fearing total annihilation.

“We shall remember this, Human Prince!” Prince Blade exclaimed, producing a small angelic statue that transformed into a massive angelic phantom enveloping him.

In a flash of white light, Prince Blade and the phantom vanished.

In an instant, all first-tier Eternal Children had fled, with Ye Tian unable to stop any of them. It wasn’t for lack of desire but capability.

“First-tier Eternal Children are indeed difficult to kill, with all their life-saving treasures,” Ye Tian frowned, realizing the challenge unless he reached or surpassed the invincible tier, which would allow him to kill a first-tier Eternal Child in a few moves.

Far away, four Immortal first-tier Eternal Children, having successfully escaped, stopped.

“Cursed Human Prince, causing such losses to our Immortal Race, this cannot stand,” they lamented, acknowledging their inferior strength to the Human Prince.

“We await Prince Tian Zhen,” they concluded, hoping that with a slight advantage from the fortunes obtained, Tian Zhen could reach the invincible tier and possibly defeat Ye Tian.

Ye Tian, having left the ancient monastery which held nothing of value except for the Six Paths Reincarnation Pagoda, continued his quest for new opportunities, flying towards an unspecified direction in the ruin world.

Prince Crescent Moon, dragging his heavily wounded body, was fleeing with two princes of the Ghost Race in pursuit.

The strength of the two Ghost Race princes was not particularly formidable, merely first-tier Ordinary Children of the Universe, while Crescent Moon himself was a second-tier Ordinary Child of the Universe.

A second-tier Ordinary Child of the Universe stood little chance against two first-tier ones. If not for a one-time use escape artifact he relied on, Crescent Moon would have likely been killed instantly.

“I must not be caught; if they catch up, I am doomed!” Prince Crescent Moon thought.

He continued to flee, activating a secret technique to boost his speed, disregarding his injuries entirely.

Suddenly, a range of five mountains appeared before him, towering like colossal pillars.

Without a second thought, Crescent Moon attempted to cross the mountains, but the Ghost Race princes caught up to him.

A spear, moving with incredible speed, was thrust at him! Crescent Moon tried to block the spear and activated a protective armor, but the armor cracked, and he was sent flying.

He crashed against one of the towering pillars of the five mountains, causing the entire range to tremble.

“Ha ha ha, human, you are doomed! There’s no support from Human Princes nearby. Killing a prince of the major cosmic Human Race, ah, the very thought excites me!” said one of the Ghost Race princes.

“We must kill him quickly, lest we attract the attention of peak Human Princes or those of other races, which would spell trouble for us!” urged the other Ghost Race prince.

As the Ghost Race princes were about to finish Crescent Moon, an unexpected change occurred.

The entire mountain range shook, and the ground began to crack.

In moments, the five mountains transformed into five giant fingers, with rocks peeling off to reveal their true form.

Simultaneously, strands of chaotic energy emerged, enveloping the area.

“What’s going on?” Crescent Moon grew anxious.

The Ghost Race princes, too, hesitated to attack, retreating swiftly to avoid the unforeseen change.

As time passed, the chaotic energy spread, and Crescent Moon was no longer detectable.

Initially hesitant to enter the area due to potential dangers, the Ghost Race princes eventually couldn’t resist.

They entered the five-mountain area, protected by various defenses.

Upon reaching the site, they saw the five fingers, realizing that they belonged to an unimaginably powerful being.

“Whose fingers are these, so large they rival stars?”

They speculated that the owner might be a powerful being from the previous universe, whose body hadn't decayed over countless ages.

They surmised that the body of this powerful being lay underground, with only the five fingers visible.

The pervasive chaotic energy was emanating from this corpse, indicating the being was of chaotic nature.

“Where's the Human Prince?” They scanned the area but found no trace of Crescent Moon.

“There's a cave leading underground; he must have gone down there! After him!” The Ghost Race princes pursued Crescent Moon into the depths.

Unbeknownst to them, the chaotic area continued to expand, attracting many princes to the site.

One day, Ye Tian sensed the dense chaotic energy and headed towards the five mountains.

Upon arrival, he felt the chaotic energy mixed with the essence of chaos and a faint oppressive force.

Without hesitation, Ye Tian entered the area and saw several princes fighting under the giant fingers, tearing the ground open to reveal an unknown creature's arm and a massive skull, its mouth swallowing all light like a mini black hole.

“A corpse of a Supreme!” Ye Tian was astonished.

Chapter 523: The Sixth Layer of the Chaos Body Refining Technique!

Ye Tian had seen the bones of Supreme powerhouses before; the monk from the Six Paths Temple was probably a Supreme powerhouse as well.

However, the Supreme-level skeleton in front of him was different. It was enormous and incredibly well-preserved, even emanating a thick aura of chaos yuan qi.

This was highly unusual! After the monk from the Six Paths Temple died, his power dissipated, leaving behind a skeleton of little value.

But the skeleton of this Supreme-level creature, although it had lost the oppressive aura and energy of a Supreme, seemed as if the essence of its flesh and blood still remained. This made it far more valuable.

Such a Supreme-level creature's corpse was a treasure, immensely precious indeed.

At this moment, the few Princes engaged in combat were not fighting over treasures but due to grievances.

Upon Ye Tian's arrival, these Princes did not attack him.

Ye Tian couldn't be bothered with them and chose to enter the mouth of the Supreme-level creature directly.

He felt there must be some unique conditions within the body of this Supreme-level creature; otherwise, its corpse wouldn't be so well-preserved, with so much energy still contained within.

Whoosh! Ye Tian passed through the giant mouth of the Supreme-level creature and successfully entered its body.

Then, a deep abyss appeared before Ye Tian.

This abyss was actually the esophagus of the Supreme-level creature, leading to its stomach.

Ye Tian flew into the abyss and soon came across several passages, likely the blood vessels of the Supreme-level creature.

Without delay, Ye Tian randomly picked a blood vessel and flew into it.

He had no intention of entering the stomach of the Supreme-level creature. If there were still stomach acids, with the strength of a Supreme-level creature's digestive fluids, they could easily dissolve him.

The oppressive force inside the Supreme-level creature far exceeded the outside world, greatly inhibiting Ye Tian's speed.

Moreover, instant teleportation was impossible here, which restricted him further.

However, this environment would restrict others as well, putting everyone on equal footing.

Ye Tian touched the wall of the blood vessel, feeling it briefly.

"This creature's body is almost entirely composed of chaotic forces, likely a being of chaotic attribute. Even though I'm forming a Holy Chaos Body, I'm not a creature of chaotic attribute, unless born with such attributes.

I didn't expect there to be such powerful beings in the previous universe. If such a creature were to cultivate the Chaos Body Refining Technique, perhaps even without the talents of time and space, it could still reach a high level of mastery!" Ye Tian thought to himself.

Moreover, Ye Tian's cloning talent was severely suppressed inside this chaotic creature's body. It was already constrained by the ruins of the world and now further suppressed by this chaotic creature's corpse, limiting his cloning talent to a mere ten-mile radius.

Compared to the size of this chaotic creature, ten miles was nothing, barely a speck.

As time passed, Ye Tian navigated through the blood vessels, encountering some Princes along the way. If they didn't attack him, he didn't bother with them.

But if anyone dared to attack him or harbor ill intentions, he would kill them on the spot.

In no time, half a day had passed.

Ye Tian hadn't found much. Although the body of this Supreme-level creature had nurtured some chaotic materials, they weren't significant enough for Ye Tian.

Suddenly, Ye Tian's cloning talent detected someone.

"Prince Crescent Moon!"

At the moment, Prince Crescent Moon seemed to be in dire straits, severely injured and with his energy at a critical low.

Prince Crescent Moon wasn't far from Ye Tian, about ten miles away.

Immediately, Ye Tian flew towards Prince Crescent Moon's location.

Soon, Ye Tian arrived where Prince Crescent Moon was hiding.

As soon as Prince Crescent Moon sensed someone approaching, his expression drastically changed. But upon realizing it was Ye Tian, he immediately revealed himself.

"Prince of Ten Thousand Laws, you're here too!"

Prince Crescent Moon was thrilled to see Ye Tian.

"How did you get so severely injured?"

While asking, Ye Tian used his healing talent to treat Prince Crescent Moon's wounds, handing him some treasures that could aid in recovery.

Quickly, Prince Crescent Moon's ordinary injuries were healed, leaving only the wounds inflicted by laws, which would require time to slowly recover, beyond the capabilities of the healing talent and ordinary healing treasures.

Prince Crescent Moon then shared what had happened.

"So, you were the first to discover this place. Those two Ghost Race Princes must have entered as well. Once we find them, I'll help you kill them!" Ye Tian said indifferently.

"Thank you, Prince of Ten Thousand Laws!" Prince Crescent Moon was grateful.

Suddenly, Prince Crescent Moon said, "Prince of Ten Thousand Laws, I was the first to enter here, the only one to escape those two Ghost Race Princes. I flew deep into this corpse, hoping to use a treasure land I discovered to heal my wounds.

Unfortunately, someone else had entered that treasure land, and I had no choice but to retreat, or I would have lost my life!"

"A treasure land, are you sure?" Ye Tian was surprised.

"Absolutely!"

Prince Crescent Moon affirmed without a doubt, "That place must be the heart of this divine being, evolved into a lake. The concentration of chaos yuan qi there is unbelievably rich, making cultivation significantly faster. Prince of Ten Thousand Laws, with your cultivation of the Chaotic Supreme Divine Canon, that place would be even more beneficial for you!"

"Lead the way, don't worry. With me here, no one can kill you!" Ye Tian assured.

"Alright!" Prince Crescent Moon responded.

He too was eager to cultivate there, as it would also assist with his own divine canon. Given his current strength and injuries, he wouldn't dare venture there alone, as death would be certain.

But now, with Ye Tian's protection, he was full of confidence! Prince Crescent Moon led the way with Ye Tian following closely behind.

It didn't take long for them to reach the heart of the Supreme-level creature.

Boom! A vast heart space appeared, manifesting as a lake.

The entire lake was saturated with rich blood essence and chaos yuan qi, turning it into a precious cultivation haven.

Around the lake, approximately thirty Princes were cultivating, absorbing the lake's energy to enhance their own power.

Ye Tian and Prince Crescent Moon's arrival was noticed by the two Ghost Race Princes not far away, who immediately flew over.

"Prince of Ten Thousand Laws, it's them!"

Prince Crescent Moon pointed at the two approaching Ghost Race Princes.

"Hmm!" Ye Tian hummed casually, not even sparing the two Ghost Race Princes a glance.

As the Ghost Race Princes approached, Ye Tian waved his hand, and a terrifying spatial force immobilized them.

"Shatter!"

The void trembled, and the two Ghost Race Princes were crushed into dust like ants, instantly falling dead.

"Hiss" Prince Crescent Moon couldn't help but gasp at this sight.

Ye Tian's power was terrifying; with a mere wave of his hand, he killed two Ghost Race Princes as if squashing two ants.

The gap was immense! This realization struck Prince Crescent Moon hard.

He had thought that becoming a Child of the Universe would narrow the gap between him and Ye Tian, but it had only widened.

Ye Tian's growth was almost immeasurable.

"Prince Crescent Moon, cultivate around here. I'll enter the center of the lake!" Ye Tian instructed.

"Be careful, Prince of Ten Thousand Laws. The closer you get to the center of the lake, the more oppressive it feels!" Prince Crescent Moon warned.

Ye Tian nodded slightly and then stepped into the lake, flying towards its center.

Boom! A terrifying pressure assaulted Ye Tian, crushing his body.

This crushing force was somewhat similar to the pressure from the first set of movements of the Eighteen Golden Bodies Technique but not the same.

Ordinary princes couldn't venture deep into the lake, but Ye Tian's physical body was strong enough, and his power was sufficient to approach the center gradually.

However, Ye Tian didn't reach the lake's center but stopped after covering about a third of the distance.

He felt that continuing further could be dangerous, so he stopped.

"I'll cultivate here. The chaos yuan qi here is much purer than the second layer of the Chaotic Tower, which should be enough to help me break through to the sixth layer of the Chaos Body Refining Technique!" Ye Tian estimated.

He prepared to use this cultivation environment to attempt breaking through to the sixth layer of the Chaos Body Refining Technique. If successful, his physical body would undergo a

transformation, and his power would significantly increase, reaching the combat power of an Invincible Eternal-level Prince.

Sitting cross-legged, he began to operate the Chaos Body Refining Technique, absorbing the chaos yuan qi and blood essence around him. The blood essence could also strengthen his physical body and was a good energy source.

To cultivate faster and not waste time, Ye Tian also activated his time talent, accelerating time in his vicinity.

Soon, a day was about to pass in the outside world, but Ye Tian had been cultivating for a month.

At this moment, Ye Tian was attempting to break through to the sixth layer of the Chaos Body Refining Technique. The indestructible barrier began to crumble under his repeated assaults.

With a thunderous impact, the fifth layer of the Chaos Body Refining Technique transitioned into the sixth layer, and Ye Tian's body began to transform.

Instantly, the lake's water turned into pure chaotic energy and blood essence, flowing into Ye Tian's body to assist in his rapid transformation.

Ye Tian's transformation caused significant disturbances in the area, creating an energy tide.

"What's happening over there?"

Some Princes sensed the changes in the area, but their divine senses were heavily suppressed, preventing them from probing the situation inside.

Unable to approach Ye Tian's area, they speculated that a treasure might have appeared.

"The treasure belongs to our Immortal Race!"

An Immortal Race Prince arrived, revealing himself to be an Eternal-level Prince.

Sensing the aura of this Eternal-level Prince, the other Princes retreated, not daring to provoke this Eternal-level Prince.

Chapter 524: The Invincible Eternal Prince!

The Eternal Prince of the Immortal Race fixed his gaze towards the area where Ye Tian was. Unable to see clearly, he flew towards that location.

Soon, he could no longer withstand the overwhelming force and could not continue to advance.

However, the Eternal Prince of the Immortal Race activated a pupil technique, his gaze instantly piercing through the void to look at Ye Tian's position.

Suddenly.

He saw Ye Tian, who was sitting cross-legged in meditation.

Ye Tian opened his eyes, his profound gaze crossing the void and colliding with that of the Eternal Prince.

Without a sound, the Eternal Prince of the Immortal Race felt a pain in his gaze and involuntarily stepped back several paces, his body breaking out in cold sweat.

“What a terrifying gaze!”

The Eternal Prince of the Immortal Race thought to himself.

He knew that Ye Tian's strength was far beyond his own, and he was not his match.

Immediately.

He ran to another area, no longer daring to attempt to spy on Ye Tian.

Ye Tian was undergoing a transformation of his physical body and naturally couldn't be bothered with a weaker Eternal Prince.

As time passed, his aura became stronger and stronger.

Suddenly, at a certain moment, Ye Tian's transformation ended.

By then, he had successfully broken through to the sixth level of the Chaos Body Refining Technique.

“Continue forward, this lake is definitely not simple. There must be secrets in the center of the lake!”

Ye Tian stood up and slowly flew towards the center of the lake.

Originally unable to advance further, Ye Tian now, with a significant increase in physical strength, naturally could continue flying in, easily withstanding the powerful crushing force.

Before long.

Ye Tian indeed flew to the center of the lake, and at this point, he was almost reaching his limit.

With a splash! Ye Tian entered the lake, and countless pure chaos yuan qi and vitality surged into his body, enhancing his cultivation and strength.

But Ye Tian didn't care about absorbing the chaos yuan qi and vitality; he just wanted to know the secrets here.

Thump, thump, thump!!! A terrifying pressure came surging. Ye Tian felt he was close to uncovering the secret. There must be something in the center of the lake, perhaps a treasure or some unknown entity.

As Ye Tian delved deeper, under the detection of his divine sense, he finally saw strands of black light.

Following the black light, he drew closer and soon saw the source of the black light.

“That is...”

Ye Tian was slightly surprised.

Not far away, a black lotus floated, emitting a strange glow.

This black lotus was about five li in size, with seventy-two petals, each filled with the intense power of chaos laws.

“Another treasure!”

Ye Tian felt that this black lotus was no less valuable than the Six Paths Reincarnation Pagoda.

Ye Tian slowly approached the black lotus, attempting to collect it, but the lotus remained immovable.

“I can’t take it away. Do I need to refine it?” Ye Tian frowned.

He had taken away the Six Paths Reincarnation Pagoda by luck. If it weren’t for obtaining the inheritance of the Eighteen Golden Bodies Technique and mastering the first set, he wouldn’t have been able to gain the tower’s recognition.

But how to refine this black lotus, he was completely clueless.

Whoosh! Ye Tian summoned the Six Paths Reincarnation Pagoda.

The Six Paths Reincarnation Pagoda transformed into a small tower in Ye Tian’s palm, and Ye Tian asked, “Spirit, can you collect this black lotus?”

“It should be possible!” The spirit of the Six Paths Reincarnation Pagoda replied.

“Good, then collect this black lotus!” He commanded.

“Yes, Master!”

The spirit controlled the Six Paths Reincarnation Pagoda to fly to the black lotus, beginning to absorb it.

Rumble!!! The entire corpse of the Supreme began to tremble, and the lake also started to churn wildly.

“What’s happening?”

The princes inside the corpse of the Supreme were all stunned, not understanding what was happening.

Some frightened princes flew away, preparing to leave the body of the Supreme to avoid any accidents.

Prince Crescent Moon, observing the center of the lake, had some guesses, feeling that the vibration of the Supreme’s corpse might be related to Ye Tian.

However, he couldn’t confirm it.

As time passed, under the absorption of the Six Paths Reincarnation Pagoda, the black lotus was slowly moved into the tower.

At a certain moment.

The black lotus whooshed into the Six Paths Reincarnation Pagoda.

At the same time, the body of the Supreme began to collapse, and its heart started to crack.

The crushing force from the unknown began to dissipate.

Ye Tian flew swiftly, quickly arriving at the location of Prince Crescent Moon, grabbed him, and said, "Let's hurry out of here!"

With Ye Tian's speed, they soon left the corpse of the Supreme and returned to the outside world.

Standing in the outside world, Ye Tian's gaze turned towards the skull of the Supreme, only to see that the skull was already full of cracks, and the chaos yuan qi leaking out was gradually thinning.

Following this trend, the corpse of such a Supreme would soon become ordinary, with almost no value left.

"It seems that the well-preserved state of this Supreme's corpse was due to that black lotus. Unfortunately, I can't recognize the origin of that black lotus," Ye Tian thought to himself.

Regardless, that black lotus was definitely an incredibly precious treasure. Once back among humanity, with their profound knowledge, they should be able to identify the origin of that black lotus.

"Prince Crescent Moon, let's part ways here! With your strength, try not to get close to any structures. The ruin world has also bred many medicinal herbs and chaos materials. You should try to collect these resources," Ye Tian suggested.

"I understand, Prince of Ten Thousand Laws!" Prince Crescent Moon nodded his head.

He knew all too well how weak he was. If he encountered even a slightly powerful Child of the Universe, escaping would be a luxury. Muddling through, with a bit of luck, he might be able to leave alive; otherwise, it was easy to perish in the ruin world.

Afterwards, Ye Tian and Prince Crescent Moon parted ways.

"According to Instructor Xuan Yuan, the reason why the ruin world only opens once every ten million years is due to the intense turbulence that occurs between the ruin world and the universe once every ten million years, making it easier to tear the barriers between the ruin world and the universe.

The ruin world is a product of the previous universe and is repelled by the current one, making it very difficult to tear its world barriers under normal circumstances.

And this period of turbulence lasts about a hundred years, meaning we princes can only stay in the ruin world for about a hundred years. If we don't leave by then, we'll have to wait another ten million years!" Ye Tian thought.

Ten million years, one would quickly die living in the ruin world.

Because in the ruin world, it was impossible to become a God-level being, as the rules of the ruin world and the universe were inconsistent. Only by following the cultivation path of the previous universe could one become a God-level being.

However, these princes' paths were already set, leaving no room to change to other paths.

And how many years does an Emperor-level being have? Which prince would dare wait here, courting death?

"A hundred years, I've only entered the ruin world not long ago, there's still plenty of time, and my current strength has already reached the Invincible Eternal Prince level, I can be a bit more reckless, actively seeking out places of inheritance and slaying princes from races hostile to humanity! When the time is almost up, I'll head to the Supreme Mountain!"

The Supreme Mountain was a place known to all princes, where the ruin world was divided into four.

But the Supreme Mountain was very dangerous, filled with spatial rifts everywhere, and one would die getting close to it without the strength of an Eternal Prince.

Moreover, one only gets one chance to enter the Supreme Mountain, and Ye Tian naturally didn't want to go now. He wanted to improve his strength a bit more before going, as there was still a long time before leaving the ruin world, so there was no rush to enter the Supreme Mountain.

In the days that followed, Ye Tian continuously sought out princes, and those from races hostile to humanity, especially princes from the Ghost and Angel Races, suffered heavy casualties.

Ye Tian also entered some places of inheritance, gaining many benefits, such as inheritances of pill concoctions, formations, secret techniques, and so on, all of which yielded considerable gains.

Although these items were of little use to him, they could be offered to the Supreme Hall of Humanity in exchange for some benefits.

In the blink of an eye, thirty years passed.

During these thirty years, Ye Tian fought countless battles, gaining many benefits while not neglecting his cultivation.

Now, Ye Tian's Chaos Body Refining Technique's sixth level had improved slightly, and he could maintain the first set of movements of the Eighteen Golden Bodies Technique for a long time, almost reaching the major realm, not far from perfection.

In terms of overall strength, Ye Tian was now much stronger than before.

At the same time, Ye Tian's fame spread throughout the entire ruin world, and many princes from major cosmic races trembled at the mention of the Prince of Ten Thousand Laws.

Even the princes of the Immortal and Demon races could not disregard Ye Tian. Once they saw Ye Tian, they immediately fled, not daring to confront him.

One day, in the ruin world, a young man wearing golden armor walked out of an ancient temple.

This young man had a pair of golden pupils and bore the unique divine patterns of the Immortal Race, the most noble golden divine patterns.

Every member of the Immortal Race bore divine patterns, the color of which indicated the strength of their bloodline. Among them, the most concentrated bloodlines bore golden divine patterns, followed by black and then white.

Among the Immortal Race, unless one's talent was very high, those with golden divine patterns held a much higher status than those with white divine patterns under similar talent levels.

This young man was one of the rare and noble Golden Patterned members of the Immortal Race!

Outside the temple, many princes of the Immortal Race bowed respectfully and said, "We welcome Prince Tianxuan's emergence from seclusion!"

"Why have you all come?" Prince Tianxuan frowned slightly.

"Prince Tianxuan, our Immortal Race has suffered heavy losses recently, and we had no choice but to wait for your emergence," said one who had once clashed with Ye Tian, a first tier Eternal Prince, named Prince Diwen.

"Prince Diwen, you're an Eternal Prince of the first tier, could it be that your opponent's strength surpasses even yours? Did Prince Xuefeng of the Demon Race make a move?" Prince Tianxuan inquired.

"It's not Prince Xuefeng of the Demon Race; the Demon Race has also suffered heavy losses. The one who acted is the Prince of Ten Thousand Laws of the Human Race. His strength is very close to that of an Invincible Eternal Prince, and we are no match for him!" Prince Diwen reported truthfully.

"What, from the Human Race... that newly rising major cosmic race that isn't considered strong among the cosmic races?" Prince Tianxuan was very surprised.

Chapter 525: The Time Talent Holder

Prince Tianxuan had never paid much attention to the princes of the Human Race.

What he truly cared about was only Prince Xuefeng of the Demon Race, who, like him, possessed strength nearly at the level of an Invincible Eternal Prince.

Now, having leveraged a great opportunity, he had successfully ascended to the level of an Invincible Eternal Prince, and it was presumed that Prince Xuefeng had also reached this level.

As for the other princes, he didn't take them seriously at all.

However, now, a prince of the Human Race at the Eternal level had caused severe losses to both the Immortal and Demon Races.

"What exactly happened, speak!" Prince Tianxuan demanded coldly.

Prince Diwen quickly recounted his initial encounter with Ye Tian and the acquisition of the Six Paths Reincarnation Pagoda by Ye Tian, as well as the various events over the past decades.

Of course.

Prince Diwen was unaware that Ye Tian's strength had reached the level of an Invincible Eternal Prince, assuming Ye Tian's strength was still at the level he had initially encountered.

"The Human Race, Prince of Ten Thousand Laws, hmph, daring to kill the princes of my Immortal Race, you're seeking death!" Prince Tianxuan roared in fury.

"The rules of the ruin world are peculiar, ordinary communication devices are useless here. This is the Yunmo Pearl I obtained by chance in the ruin world, allowing communication between us, but only within this ruin world. Each of you keep one. If you find any trace of the Prince of Ten Thousand Laws, notify me immediately!"

Immediately, Prince Tianxuan distributed the Yunmo Pearls among the Immortal Race princes, then instructed Prince Diwen to take a large quantity of Yunmo Pearls to the other Immortal Races in various locations.

Prince Diwen immediately complied, taking the Yunmo Pearls and departing.

Ye Tian was unaware that Prince Tianxuan of the Immortal Race was about to act against him, and even if he knew, he wouldn't care.

With his strength as an Invincible Eternal Prince, he was certainly not inferior to Prince Tianxuan. Moreover, his strength had improved over the past decades, possibly even surpassing Prince Tianxuan! On this day.

Ye Tian discovered a place resembling a celestial palace. It was located above a river, with a cloud and mist area above, and within this cloud and mist was a celestial palace.

At this celestial palace, Ye Tian also found many skeletons, each having died silently.

The celestial palace was filled with cloud and mist-like energy, resembling a fairyland. However, the presence of the skeletons added a sense of eeriness to the place.

The celestial palace didn't have much inheritance, just a dozen celestial pools containing a lot of pure energy, not inferior to chaos yuan qi, beneficial for refining the body and enhancing the divine domain realm.

Of course.

Ye Tian's realm was too high, so this place wasn't of much help to him.

However, Ye Tian refined the key nodes of the formation here, gaining control of some of the formations. Although these formations were far less powerful than before, and he couldn't unleash their full power, they were enough to block an Eternal Prince.

"This place can serve as a stronghold for the princes of the Human Race. Once we leave here, if I encounter any princes of the Human Race, I'll give them the location and a token to enter this celestial palace. After all, the Supreme Hall of Humanity has tasked me to lead the team in the ruin world, to take care of and protect them. I can't just do nothing, otherwise, there's no point in being the leader!" Ye Tian thought to himself.

He took some tokens that allowed entry into the celestial palace and started searching for traces of the Human Race princes.

Thus, half a year passed.

During this half-year, Ye Tian found quite a few princes, including Prince Holy Heaven and Prince Bairen, and informed them of the celestial palace's location, giving each of them a token.

As for whether they would go or not, Ye Tian didn't care.

"Immortal Race prince!"

While Ye Tian was flying, he suddenly sensed an Immortal Race prince passing by, who showed a trace of surprise and then quickly retreated.

Ye Tian didn't mind and prepared to leave.

However, he noticed that this Immortal Race prince was trailing him from afar, not truly leaving.

"Following me, how interesting!"

Ye Tian flew over, quickly confronting the prince.

Seeing Ye Tian, the Immortal Race prince became extremely panicked.

He attempted to flee immediately! However, with a light slash, Ye Tian severely injured him, rendering him incapable of escape.

Had Ye Tian not shown mercy, this Immortal Race prince would have been dead.

"You're quite bold, a mere peak-level Child of the Universe daring to follow me. Speak, what's your real purpose?" Ye Tian interrogated.

"Just passing by, nothing more!" the Immortal Race prince stammered in fear.

“Speak or die!” Ye Tian threatened coldly.

As soon as the words left his mouth, Ye Tian’s spatial talent acted upon the Immortal Race prince, continuously crushing his physical body.

Faced with the threat of death, the Immortal Race prince could no longer bear it and hurriedly said, “It was our Immortal Race’s leader, Prince Tianxuan, who commanded us to notify him immediately upon finding you!”

After some questioning, Ye Tian finally understood the situation.

“The Immortal Race, Prince Tianxuan, so it was him!” Ye Tian’s eyes lit up with excitement.

Ye Tian had only learned about this prince shortly after entering the ruin world. The prince had a very prominent reputation, nearly renowned across all races in the universe as a tremendously terrifying Eternal Prince, reputed to be close to the Invincible Eternal Child of the Universe, and on par with Prince Xuefeng of the Demon Race.

Ye Tian’s excitement stemmed from the fact that Prince Tianxuan possessed an incredibly heaven-defying ability – the time talent! According to the information gathered by the Human Race, Prince Tianxuan’s time talent was very close to the Mystic level, at least a 70% Pseudo-Mystic time talent.

Compared to that, Ye Tian’s time talent was far inferior! The Immortal Race naturally had longer lifespans than the Human Race, with Emperor-level beings of the Immortal Race having lifespans of ten thousand years, and with the help of the Immortal Race, Prince Tianxuan’s lifespan could definitely reach tens of thousands of years.

Additionally, possessing a Pseudo-Mystic time talent, which could accelerate time for cultivation, allowed him to advance rapidly, making him a renowned Eternal Prince in the universe.

The reason Prince Tianxuan of the Immortal Race possessed such a high-level time talent was not due to luck or accumulation through treasures, but because of his bloodline. The Immortal Race was a very special race. For instance, within the Immortal Race, such as the Golden Pattern Race, if an elder possessed a high-level talent, the descendants with the same Golden Pattern bloodline had a high chance of inheriting this talent.

While other races could also inherit talents from their elders, the probability was much lower and could not compare with the Immortal Race.

For example, among Prince Tianxuan's ancestors was a Supreme known as the Time Supreme, which gives an idea of how arrogant this being was! The descendants of this Time Supreme almost all possessed time talents, including some with Mystic-level time talents. However, this lineage was not numerous and strictly controlled their numbers to prevent dilution of their bloodline, which could lead to a decrease in talent among the descendants or even a devolution from the Golden Pattern Immortal Race.

Therefore, not many in the Immortal Race possessed the time talent, and in this generation, Prince Tianxuan was the strongest. Not only did he possess a time talent close to the Mystic level, but he was also exceptional in other aspects and had mastered a supreme divine canon of the Immortal Race.

An Invincible Eternal Prince with a Pseudo-Mystic time talent was incredibly formidable.

“With Prince Tianxuan's time talent, if he were to unleash the Blade of Time, he could potentially reduce an enemy's lifespan by seven to eight hundred years in a single instance. Some Eternal Princes with shorter lifespans, no matter how strong, would meet their demise upon encountering Prince Tianxuan. Even some powerful beings with limited lifespans would be extremely wary of Prince Tianxuan. After all, Prince Tianxuan could unleash the Blade of Time at least ten times a day, equating to a reduction of seven to eight thousand years of lifespan!” Ye Tian calculated.

Frankly, if it weren't for his ability to copy talents, allowing him to replicate others' talents, he wouldn't want to engage in a fight with powerhouses like Prince Tianxuan. Otherwise, regardless of the outcome, he would lose thousands of years of his lifespan.

However,

Ye Tian's lifespan was over a hundred thousand years, and he also possessed the time talent. Although not as powerful as Prince Tianxuan's, it could offer some resistance.

Moreover, he was only interested in copying Prince Tianxuan's time talent.

After the copying was complete, there was no need to engage in a fight.

“I’ve already told you, now let me go!” the Immortal Race prince pleaded.

“I’ll let you go when Prince Tianxuan arrives!” Ye Tian replied indifferently.

“What!” The Immortal Race prince was stunned.

He thought Ye Tian would flee, but to his surprise, Ye Tian didn’t and was waiting for Prince Tianxuan’s arrival.

Time slowly passed, and about half an hour later.

Powerful auras approached.

Then, more than a dozen Immortal Race princes arrived, led by Prince Tianxuan of the Immortal Race.

Upon arriving and seeing Ye Tian and the severely injured Immortal Race prince, Prince Tianxuan regarded Ye Tian with a newfound respect.

“So you’re waiting here for me. It seems you’re quite confident in your strength. But do you not know that I possess the time talent?”

“I know, but I’m not afraid!” Ye Tian replied with a slight smile.

Whoosh! Prince Tianxuan flew towards him.

At that moment, Ye Tian activated his Copy Talent, enveloping Prince Tianxuan, instantly capturing the details of Prince Tianxuan’s talents.

Upon seeing this, Ye Tian was truly astonished!

Chapter 526: The Second Set of Movements!

“It’s not just a Pseudo-Mystic level time talent!”

As Ye Tian stood there in shock, he was also filled with surprise.

At this moment, under the talent copy, the talent situation of Prince Tianxuan was fully revealed.

Immortal Race: Jin Xuan

Cultivation Talent: Chaotic level

Strength Talent: God level

Talent: God level

Defense Talent: God level

Swordsmanship Talent: Supreme level

Time Talent: Mystic

Healing Talent: God level

Regeneration Talent: God level

“A Mystic level time talent, this is much more powerful than a Pseudo-Mystic level time talent. Prince Tianxuan must have upgraded his time talent after entering the ruin world.

If that’s the case, Prince Tianxuan probably hasn’t mastered a time divine ability.”

Ye Tian thought to himself.

If Prince Tianxuan had mastered a time divine ability, it would be quite terrifying. Even Ye Tian would have to be wary.

“The Blade of Time formed by the Mystic level time talent can reduce 1,000 years of lifespan. I absolutely cannot be hit by Prince Tianxuan’s Blade of Time, or the loss would be significant!”

Ye Tian first copied Prince Tianxuan’s Mystic level time talent, then copied the regeneration talent.

The regeneration talent, similar to the healing talent and the immortality talent, serves the purpose of regeneration, such as instantly regrowing flesh and a new arm if one is severed.

Of course.

Under the effects of talents like the healing talent, immortal talent, and life talent, a new arm can also be regenerated, but the regeneration talent can directly grow it back, with a better effect, just consuming a bit more power.

Therefore, the regeneration talent was also somewhat useful to Ye Tian, and naturally, he copied it.

Prince Tianxuan approached Ye Tian, and without a word, directly executed an Ultimate Technique.

“Sword Extreme!”

Whoosh!!! A sword strike surpassing limits swept across the sky, with speed reaching its pinnacle.

Facing this strike, Ye Tian was fully prepared, unleashing a full-powered strike with the Heavenly Moon Saber ultimate technique.

Boom!!! The clash of the sword and the saber caused ripples to spread through the void.

Swoosh!!! Ye Tian and Prince Tianxuan each retreated some distance.

“An Invincible Eternal Prince, so you’ve also reached this level!”

Prince Tianxuan was somewhat solemn.

An opponent at this level was indeed difficult to deal with. He would not wish to offend the other party unless absolutely necessary, as the retaliation of an Invincible Eternal Prince could cause heavy losses to the Immortal Race, and even he might not be able to rescue others in time.

However, he couldn’t just let Ye Tian go.

“Blade of Time!”

A phantom Blade of Time appeared above Prince Tianxuan’s head, aiming at Ye Tian, seemingly ready to launch at any moment.

“This is the Blade of Time, activated by a Mystic level time talent, capable of reducing 1,000 years of lifespan. Your lifespan may far exceed that of an ordinary Emperor level, but losing 1,000 years in one go would surely pain you. If you apologize and make amends to our Immortal Race, I’m willing to let this go. How about it?” Prince Tianxuan said.

“I don’t think so!” Ye Tian shook his head, rejecting Prince Tianxuan’s offer.

“Then don’t blame me!” Prince Tianxuan coldly stated.

Although he was reluctant to engage with an opponent of equal status as an Invincible Eternal Prince, it didn’t mean he couldn’t.

If Ye Tian’s lifespan was not much, and he was hit by the Blade of Time multiple times, there was indeed a hope for Prince Tianxuan to kill Ye Tian.

“Blade of Time, strike!” With a thought from Prince Tianxuan, the Blade of Time attacked Ye Tian with extreme speed.

The Blade of Time was very fast, as the talent could twist time, affecting the flow of time around it, thus affecting the enemy's thoughts and consciousness, and reactions.

Therefore, at the same level, it was very difficult to dodge the Blade of Time.

But Ye Tian was not without hope of dodging it, as he also had a time talent.

Facing Prince Tianxuan's attack.

Ye Tian knew he had to reveal his time talent.

"Blade of Time!"

Ye Tian also activated his time talent and the Blade of Time.

Boom!!! Ye Tian's Blade of Time was easily shattered by Prince Tianxuan's Blade of Time, and Ye Tian's time talent was also suppressed by Prince Tianxuan's time talent.

However, Ye Tian also possessed a God level spatial talent, ranked equally with the time talent as a supreme talent.

Under the effect of the God level spatial talent, the space around began to distort.

Prince Tianxuan's Blade of Time was first blocked by Ye Tian's Blade of Time and then affected by the spatial talent, slowing its attack speed.

In such a situation, Ye Tian used Black Feathers to timely dodge the Blade of Time.

The first strike was ineffective!

"What, you also have a time talent, and you have a God level spatial talent too!"

Prince Tianxuan was somewhat envious.

He also wanted a God level spatial talent, but he already had a time talent. Even if he paid some price to add a spatial talent, it would be difficult to elevate the spatial talent to a Mystic level.

Therefore, he had given up on this idea early on.

But now, Ye Tian possessed both time and space talents, and more crucially, his space talent had reached the God level, while his time talent had ascended to the Pseudo-Mystic level.

“Kill!”

Prince Tianxuan continued his assault on Ye Tian, engaging in fierce combat with him.

He had planned to take advantage of Ye Tian’s distraction during their fight to unleash the Blade of Time again, aiming to reduce Ye Tian’s lifespan.

However, Ye Tian had no desire to continue clashing with Prince Tianxuan. Spreading his Black Feathers, he transformed into a streak of light and headed into the distance.

“Prince Tianxuan, I have some matters to attend to. When we meet again, we’ll have a proper contest!”

Prince Tianxuan wanted to pursue, but considering Ye Tian’s possession of the God level spatial talent and strength that was in no way inferior to his, he knew he couldn’t catch up.

In the distance.

The other princes of the Immortal Race were dumbfounded.

Although Ye Tian had left, they could see that Prince Tianxuan was unable to do anything to him, even his Blade of Time had been successfully dodged by Ye Tian.

They had thought that with Prince Tianxuan becoming an Invincible Eternal Prince, he could successfully kill Prince Ye Tian of Ten Thousand Laws. However, they hadn't expected Ye Tian to also step into the realm of an Invincible Eternal Prince.

"Let's go!"

Prince Tianxuan, with a gloomy expression, turned and left.

Elsewhere.

Ye Tian found a mountain peak, created a temporary cave dwelling, and began to cultivate in seclusion.

Firstly, his task was to merge the Mystic level time talent.

"Mystic level time talent, merge!"

The merging process began! Half an hour later, Ye Tian successfully merged the time talent, and his time talent underwent a transformation.

[Time Talent: Mystic]

Seeing his time talent become Mystic level, Ye Tian was thrilled.

He immediately deployed the time acceleration ability.

Whoosh!!! The flow of time around him began to change, quickly accelerating to 100 times its normal speed.

A 100x time acceleration meant that Ye Tian could cultivate for 100 years within a time-accelerated environment, while only one year passed in the outside world. Such a rate of cultivation was astonishing.

Subsequently, Ye Tian also successfully merged the regeneration talent.

After resting for a few hours, Ye Tian prepared to first cultivate using the Mystic level time talent for a while.

He planned to cultivate the first set of movements of the Eighteen Golden Bodies Technique to the perfected realm, and then inherit the second set of movements. In this way, his strength would advance to another level.

By then, if he encountered Prince Tianxuan again, he could completely suppress the opponent.

“Time acceleration, 10x!”

Within the time-accelerated environment, Ye Tian began to perform the first set of movements, and also operated the corresponding technique.

Boom!!! The terrifying force of oppression acted upon him, and Ye Tian silently endured it.

As time gradually passed, Ye Tian could no longer bear it, and his physical body was about to collapse, so he timely stopped operating the technique of the first set of movements and changed his posture.

After spending some time recovering from his injuries, Ye Tian continued to cultivate.

In the blink of an eye, half a year had passed in the outside world, but Ye Tian had cultivated for a full fifty years under time acceleration.

He hadn’t anticipated that perfecting the first set of movements would be so difficult and time-consuming.

But ultimately, Ye Tian successfully cultivated the first set of movements of the Eighteen Golden Bodies Technique to the perfected realm on this day.

One hour! Two hours! Three hours! Ye Tian maintained the first set of movements, immovable, completely withstanding the oppressive force of the first set of movements, with no chance of his physical body collapsing.

This indicated that he had fully cultivated the first set of movements to the perfected realm! At the same time, Ye Tian's physical strength had also become much stronger than before, with his pure defensive power increasing by several tiers.

Ye Tian didn't rush to inherit the second set of movements but first solidified the first set. After spending some time completely stabilizing the first set, he then re-entered the inheritance space behind the top stone door of the Six Paths Reincarnation Pagoda.

In the inheritance space.

Ye Tian returned here and then performed the second set of movements.

The second set of movements was vastly different from the first. Even though Ye Tian had fully withstood the first set of movements and his physical body had become many times stronger, he still struggled to endure the oppressive force of the second set, as if the second set's oppressive force increased with the strengthening of his physical body.

Crack! Ye Tian's physical body began to crack. If he continued to maintain the second set of movements, he would perish from physical collapse.

At the critical moment, Ye Tian changed his posture, halting the collapse of his physical body.

"Not bad!" Ye Tian nodded to himself in satisfaction.

After repairing his injuries, Ye Tian continued to perform the second set of movements, and activated time acceleration again.

In this way, under the time-accelerated environment, Ye Tian attempted countless times, each time enduring a bit longer than the last.

Thanks to time acceleration, it didn't take Ye Tian long to successfully complete the inheritance assessment.

Boom!!! A phantom of the corresponding Buddha statue for the second set of movements emerged, containing detailed routes of operation, which immediately merged into Ye Tian's soul, bringing forth a flood of information.

Thus, Ye Tian successfully acquired the cultivation method for the second set of movements of the Eighteen Golden Bodies Technique.

Chapter 527: The Sixth Level of Heart Condition!

After acquiring the cultivation method for the second set of movements in the Eighteen Golden Bodies Technique, Ye Tian began to unblock the corresponding meridians.

Since the meridians associated with the second set of movements largely overlapped with those of the first set, Ye Tian didn't need to unblock many meridians and quickly managed to clear all the necessary channels.

Next, Ye Tian started cultivating the second set of movements.

In the beginning, the second set proved quite difficult to cultivate, but Ye Tian wasn't worried about time. With his rapid recovery speed, he was naturally suited for cultivating the Eighteen Golden Bodies Technique.

As time passed, Ye Tian quickly made progress on the second set of movements.

Simultaneously, the strength of Ye Tian's physical body became increasingly exaggerated, even surpassing some Divine Artifacts in toughness, capable of withstanding the sharpness of Divine Artifacts with his flesh.

Originally, Ye Tian planned to continue cultivating the second set of movements of the Eighteen Golden Bodies Technique, striving to perfect the second set.

However, suddenly one day, Ye Tian experienced a sense of unease, especially when cultivating the second set of movements. That feeling of unease grew stronger and stronger.

Normally, he could easily suppress it, but not while cultivating the Eighteen Golden Bodies Technique.

"What's going on?" Ye Tian was very puzzled.

After much contemplation, Ye Tian finally understood the reason.

It was a problem with his heart condition!

“Strange, my heart condition has reached the fifth level, and yet I’m still encountering issues with it?” Ye Tian was baffled.

Many powerful beings, due to not cultivating heart condition techniques, were far inferior to him in this aspect.

Yet even so, he still found flaws in his heart condition, preventing him from continuing the cultivation of the Eighteen Golden Bodies Technique.

“The Eighteen Golden Bodies Technique doesn’t mention anything about heart condition. Perhaps in the previous cosmic era, heart condition was a primary focus, so there was no need to mention it. However, in the current universe, heart condition is generally weak, thus becoming a flaw. It seems I must elevate my heart condition to the sixth level to continue cultivating the Eighteen Golden Bodies Technique!” Ye Tian thought.

However, enhancing one’s heart condition was not an easy task, especially progressing from the fifth to the sixth level of heart condition, which was even more difficult.

He was cultivating the Dark Silence True Scripture, and only by mastering the fifth level could he achieve the sixth level of heart condition.

But mastering the fifth level of the Dark Silence True Scripture was no simple feat!

“The Six Paths Reincarnation Pagoda!”

Ye Tian suddenly remembered this treasure.

According to the spirit of the artifact, the Six Paths Reincarnation Pagoda was the treasure that guarded the temple of the Six Paths Temple. Its true purpose was to construct a world of six paths of reincarnation, allowing one to experience cycles of life and death, similar to the

effects of the Reincarnation Mirror in the Supreme Scriptures of Humanity but far more powerful.

One of the greatest abilities of the Six Paths Reincarnation Pagoda was to allow beings to reincarnate, albeit at a certain cost.

Reincarnation was a terrifying ability! For instance, a God with limited talent would have no choice but to face death when their lifespan reached its limit.

However, if the Six Paths Reincarnation Pagoda were used, it could send them to reincarnate and start anew.

After reincarnation, everything would be like a new soul, naturally starting life afresh.

The Six Paths Reincarnation Pagoda's uses were vast and significant! For Ye Tian personally, the Six Paths Reincarnation Pagoda was of average use, but for a race or a force, it was truly a supreme treasure that could affect the rise and fall of a race! Of course.

Most of the origin of the Six Paths Reincarnation Pagoda was still dormant, and the cost to awaken all of its origins was unimaginable for Ye Tian.

Thus, the Six Paths Reincarnation Pagoda currently couldn't assist in reincarnation.

Swish! Ye Tian summoned the Six Paths Reincarnation Pagoda and called out its spirit, asking, "Spirit, can the Six Paths Reincarnation Pagoda currently allow me to enter the six paths of reincarnation to cultivate and train my heart condition?"

The spirit replied, "It's possible, but currently, only the realms of humans and Asuras can be accessed. The other four realms of reincarnation cannot be opened!"

"Alright, then I'll first enter the realm of humans for reincarnation training!" Ye Tian thought for a moment and said.

The spirit cautioned, "Master, entering the reincarnation worlds constructed by the Six Paths Reincarnation Pagoda, the more worlds you experience, the better the training effect. However, if you fail to awaken your memories in the reincarnation world, it will be deemed a

failure, and you won't be able to undergo further reincarnation training. You'll be forcibly removed by the Six Paths Reincarnation Pagoda.

I can't assist Master with the reincarnation training; it's all up to you!"

"Understood!"

Ye Tian nodded and then instructed the spirit to mobilize the power of the Six Paths Reincarnation Pagoda.

Boom! A reincarnation passage appeared in the hall of the tower, representing the realm of humans.

Ye Tian entered the realm of human reincarnation and went on to train.

Of course, this wasn't true reincarnation but a simulated one, yet the experience felt as real as actual scenarios.

In the reincarnation world, in the realm of humans, Ye Tian was born into an ordinary family of the Heavenly People, becoming one of them.

The Heavenly People, a race concocted to be perfect, were incredibly strong from birth, with terrifying aptitude and talent, superior to countless other races.

At birth, Ye Tian had no memories, like a blank slate, absorbing all knowledge of this world and embarking on the path of cultivation, gradually advancing from weakness to strength.

Decades later, Ye Tian reached the Emperor level and went through numerous battles.

Suddenly, one day, after a life-and-death battle, he fell unconscious for ten days and nights, and then Ye Tian awakened his true memories.

"The realm of humans, the Heavenly People, so this is the reincarnation world constructed by the realm of humans!" Ye Tian murmured.

Looking at the situation in this world, the strongest were at most at the Planetary System level, with Great Gods enough to dominate a region.

But this didn't mean the world was weak because, in terms of strength at the same level, the Heavenly People in this world were far superior to the typical humans.

After awakening his memories, Ye Tian's progress accelerated even further, quickly becoming renowned.

Initially, Ye Tian treated this world as merely an illusion, viewing it as nothing more than a trial without paying much attention to its details.

However, suddenly one day, Ye Tian had an epiphany.

It seemed he had embarked on a path different from the real world, following the way of the Heavenly People, and the multitude of their secret techniques turned out to be real.

"Right, the world might be false, but the methods of cultivation are real. The Six Paths of Reincarnation World constructs reincarnation worlds, but some things must exist for these worlds to be viable.

Training in such worlds, the primary goal isn't just to enhance one's heart condition but to comprehend countless secret techniques and methods, forging a different path.

Witnessing one's own path to becoming the strongest through various roads, that's the ultimate gain!"

With this realization, Ye Tian's perspective changed, treating each cycle of reincarnation as if it were the real world.

As the long years passed, Ye Tian explored numerous secret texts and cultivation methods, elevating his strength from Emperor level to God level, True God level, and then to Great God level, ultimately reaching the limit of this world and becoming one of its strongest beings.

Unknowingly, Ye Tian's lifespan reached its end, and he passed away, entering his second life.

In the second life.

Ye Tian started without any awakened memories, beginning from infancy and gradually growing up.

The world of his second life was much weaker than the first, but it was still a world of the Heavenly People.

At the age of eighteen, Ye Tian fortuitously awakened his memories and began another glorious life!

The third, fourth, fifth, sixth life...

Ye Tian lost track of how much time had passed in the real world, knowing only that he had lived through nine lives in the reincarnation worlds.

Through cycles of reincarnation, he nearly mastered the Dao of the Heavenly People, achieving accomplishments comparable to those in the real world.

In his tenth life, Ye Tian wasn't as fortunate. Before he could awaken his memories, he was killed in an accident, ending his cycle of reincarnation.

Back in the Six Paths Reincarnation Pagoda.

Ye Tian returned, his eyes filled with a sense of vicissitude.

At this point, his heart condition had greatly improved, and perhaps with just a bit more insight into the Dark Silence True Scripture, he could truly elevate his heart condition to the sixth level.

“Twenty years have passed!”

Ye Tian murmured, feeling that time in the outside world had flown by swiftly.

He hadn't yet entered the Asura path.

After pondering for a while, Ye Tian decided to enter the Asura path, possibly gaining unexpected insights.

Immediately, he instructed the spirit to activate the Six Paths Reincarnation Pagoda and entered the Asura path.

The Asura path's reincarnation world was filled with slaughter, with endless killing aura pervading the world.

In his first life, Ye Tian was born into the family of a general in an Asura realm, trained in the art of killing from a young age.

Due to the endless slaughter nearly obscuring Ye Tian's inner self, it was difficult for him to awaken his past memories under such circumstances.

An accident brought Ye Tian close to death, and amidst the chaos of his soul, he finally awakened his memories.

In this life, Ye Tian followed the path of slaughter, the Asura path.

Amid countless acts of killing, Ye Tian cultivated a heart of slaughter, where a mere wisp of killing intent could slay his enemies.

Ultimately, Ye Tian became a fearsome Asura in this life.

The second, third, fourth life...

Throughout cycles of reincarnation, Ye Tian faced inner demons, nearly becoming a true killing maniac, but ultimately, through the training and experiences of the Heavenly People's path, he forcefully suppressed the inner demons of this life.

In the ninth life.

Ye Tian, now one of the strongest beings in this Asura world, resided in his supreme demonic palace.

At this moment, he prepared to undertake a very important task.

That was to sever his inner demons. Once the inner demons were eradicated, his heart condition would soar, possibly entering the sixth level without needing to cultivate the Dark Silence True Scripture.

Then, the demonic nature would naturally dissipate! Whoosh! An Asura saber appeared before Ye Tian.

Aiming the saber at his own heart, he forcefully provoked his inner demons and struck himself fiercely with the blade.

Puff! The blade pierced through! Ye Tian screamed in agony, both he and his inner demons were wounded.

This method of severing inner demons was undoubtedly self-destructive, but Ye Tian chose this direct approach because this was the reincarnation training world, and he didn't fear death.

Puff, puff, puff! With each strike, Ye Tian's body was gravely injured, and the inner demons were repeatedly hit by the Asura saber, nearly obliterated.

"The final strike, Asura God-Slaying Saber! Cut!"

After the final strike.

The inner demons vanished, and Ye Tian also perished completely.

In the tenth life! Upon birth, Ye Tian immediately awakened his memories.

At this moment, his heart condition had already broken through!

“The sixth level of heart condition, haha, probably no one has forcibly severed their inner demons and broken through the fifth level of heart condition like me. At the sixth level of heart condition, with my current level, very few things can shake my heart condition!” Ye Tian thought to himself.

In this life, Ye Tian lived peacefully, despite being in a world of slaughter, he refrained from excessive killing, ending this life with research on the art of killing.

Ye Tian intended to live through an eleventh life, but what he returned to wasn’t the eleventh life, but directly back to the hall of the Six Paths Reincarnation Pagoda.

“Master, your heart condition has reached the sixth level, and the current level of reincarnation worlds is no longer beneficial for you. Moreover, the Six Paths Reincarnation Pagoda has expended a lot of energy, and it will be difficult to open the reincarnation worlds again for now!” The spirit explained.

“I see, it doesn’t matter. After all, I’ve already elevated my heart condition to the sixth level; there’s no need for further reincarnation training!” Ye Tian said with a smile.

With his heart condition breakthrough, Ye Tian prepared to cultivate the second set of movements in the Eighteen Golden Bodies Technique again.

This time, he should be able to perfect the second set of movements!

Chapter 528: Three Disasters, Nine Tribulations, and Ten Calamities!

Previously, when Ye Tian practiced the second set of moves of the Eighteen Golden Bodies Technique, he would experience a sense of panic, making it difficult to continue his practice.

However, now that Ye Tian’s mental state had broken through to the sixth level, practicing the second set of moves of the Eighteen Golden Bodies Technique no longer caused any unusual reactions.

“Indeed, I can continue my practice now!” Ye Tian rejoiced.

Next, he began to practice diligently, striving to perfect the second set of moves of the Eighteen Golden Bodies Technique.

As for seeking other inheritances, he wasn't much interested now.

After all, he had already obtained the Six Paths Reincarnation Pagoda and the mysterious Black Lotus, along with many other inheritances. Seeking more might not necessarily yield any better inheritances, as that would depend on luck.

His most important goal now was the Supreme Mountain. The Supreme Mountain also had inheritances, and without a doubt, it was the most mysterious place in the entire ruin world. If he could gain some benefits there, that would be a real opportunity.

And to obtain a good fortune, strength was very important.

Although his strength was already formidable, having surpassed both Prince Tianxuan and Prince Xuefeng of the Demon Race, it didn't mean he could gain heaven-defying opportunities in the Supreme Mountain.

His strength was only more formidable than those of his generation, but among all the Princes of past generations, there were definitely those who were invincible and more powerful than him.

"With nearly 30 years left until the century mark, I can only continue my practice for 20 years. I must reserve ten years for the Supreme Mountain," Ye Tian planned.

Following this plan, Ye Tian began his practice with the acceleration of time.

Days passed, and for others, 20 years were just that, but for him, with his Mystic-level time talent, 20 years were equivalent to 200 years.

Even Princes with Mystic-level time talents wouldn't dare to practice in such a manner. Otherwise, depleting their lifespan was no joke. At that point, no matter how strong one was, they would still die from lifespan depletion.

But Ye Tian had no such fears. With over a hundred thousand years of lifespan, even a hundredfold acceleration in time for his practice wouldn't concern him with lifespan depletion.

The difficulty of practicing the second set of moves of the Eighteen Golden Bodies Technique completely exceeded Ye Tian's expectations. As years passed, he still hadn't perfected the second set, but his physical strength became increasingly terrifying.

He was confident that the physical strength of the other Princes couldn't compare to his, not even Prince Tianxuan's.

With such a monstrous physical strength, Ye Tian was hard to be seriously injured.

Of course, Ye Tian was still not satisfied. He wanted to completely perfect the second set of moves. At that time, his strength would be even more terrifying, possibly far surpassing invincible Princes like Tianxuan.

In the blink of an eye, twenty years had passed in the outside world, while Ye Tian had practiced for a full 200 years.

Even so, Ye Tian was still somewhat short of perfecting the second set of moves of the Eighteen Golden Bodies Technique.

"Unable to perfect it isn't a matter of time. Even if I spend more time, it's very difficult to perfect the second set of moves. It seems like something is missing!" Ye Tian frowned.

After all, the Eighteen Golden Bodies Technique was an inheritance from the Six Paths Temple and naturally wasn't easy to practice. Now, only this inheritance remained, with all other aspects of knowledge lost.

Thus, Ye Tian could only rely on his own understanding and existing inheritance for practice, equivalent to groping in the dark, and naturally, he easily encountered bottlenecks.

He was now stuck in a bottleneck. Although he could continue to practice, the speed was exceedingly slow.

"Let's enter the Supreme Mountain for now. I can currently maintain the second set of moves for nearly an hour, and my physical body is very strong. According to my calculations, my

physical strength and power is stronger than a Prince who has cultivated a supreme physical divine canon to the perfected level!”

With such a powerful body, Ye Tian naturally felt confident. He was fully convinced that he could gain benefits in the Supreme Mountain.

Whoosh! Ye Tian summoned his Black Feathers, spread them, and flew towards the Supreme Mountain.

Meanwhile, the Supreme Mountain had already gathered some of the Princes.

Some Princes gathered at the foot of the mountain, while others ventured into the Supreme Mountain.

The Supreme Mountain was divided into four distinct zones, each inaccessible to the others. This meant that the Emperors didn’t have to worry about encountering Princes above the God level.

Otherwise, they would naturally stand no chance against those above the God level.

Before long, Ye Tian arrived at the Supreme Mountain.

At that moment, several Princes from the Human Race approached Ye Tian, greeting him respectfully, “Prince of Ten Thousand Laws!”

These Princes included Prince Bairen among several Eternal-level Princes, as well as a few Peak-level Princes.

“Who is currently performing the best?” Ye Tian inquired.

“It’s Prince Tianxuan from the Immortal Race; he has already breached the Sixth Tribulation!” Prince Bairen hurriedly replied.

“The Sixth Tribulation, huh? Not too fast!” Ye Tian murmured.

The Supreme Mountain was quite peculiar, testing challengers with various disasters. The trials were life-threatening.

The Supreme Mountain encompassed Three Disasters, Nine Tribulations, and Ten Calamities, totaling twenty-two challenges.

The difficulty of these challenges was related to one's cultivation level, with different levels of difficulty for Emperors and Gods.

Most people couldn't even surpass the first disaster, let alone the subsequent nine tribulations and ten calamities.

Once one overcame the Three Disasters, they could enter the Three Disasters Pavilion to gain an opportunity. If they could breach the Nine Tribulations, they could enter the Nine Tribulations Pagoda for another opportunity. And if they could pass through the Ten Calamities, they would be able to enter the Ten Calamities Divine Hall to receive a supreme inheritance.

Historically, it was incredibly rare for Princes to surpass the Ten Calamities. Almost no Emperor had managed it, and only a few Princes above the God level had succeeded. Those who did were almost invariably the most dazzling Princes of their cosmic era.

Ye Tian didn't know if he could overcome the Ten Calamities, but his minimum goal was to surpass the Three Disasters and Nine Tribulations. Otherwise, it would be a disservice to his strength.

"I'm going to enter the Supreme Mountain now!" Ye Tian informed Prince Bairen and the others.

"Please be careful, Prince of Ten Thousand Laws!" Prince Bairen said.

"Understood!" Ye Tian nodded slightly, then, with a flash, entered the Supreme Mountain.

The Supreme Mountain was vast, extending beyond sight, with only a small portion of its base visible.

This mountain was comparable to a small continent! Soon, Ye Tian saw an area engulfed by hurricanes, known as the Wind Disaster Area.

The Wind Disaster was the first of the Three Disasters. Although this hurricane area seemed ordinary, the winds here were not normal but disaster winds.

Disaster winds were created using special methods, and such winds were not natural in this universe. Hence, there were no means to counter them. An ordinary Emperor encountering a disaster wind would instantly be reduced to dust, dissipating into the cosmos.

Even an ordinary Universal Child would struggle to last long in the Wind Disaster Area, let alone venture deep into it. Venturing too far could mean never returning, perishing within the disaster wind.

Ye Tian was unsure of the effects of the disaster wind, feeling not fear but curiosity.

Whoosh! Ye Tian flew into the Wind Disaster Area, bracing for the first wave of disaster wind!

Chapter 529: After the Three Disasters, the Seven Treasures Glazed Tree

Whoosh, whoosh, whoosh!

Gusts of disaster wind blew in. At first, upon entering the region affected by the wind disaster, the blowing disaster winds were not too intense. It was only upon venturing deeper into the wind disaster region that the disaster winds became truly terrifying. Ye Tian attempted to activate various defensive and spatial measures to withstand the disaster winds.

However, a surprising scene unfolded! The disaster winds, as they blew, ignored spatial barriers and spatial restrictions, and even disregarded Ye Tian's defenses, penetrating into his body.

At that moment, these disaster winds were eroding Ye Tian's flesh, as if they intended to whisk away his flesh.

However, Ye Tian's physical body was extremely strong, so the disaster winds did not significantly affect him. They didn't whisk away his flesh; instead, they blew away some unknown impurities within Ye Tian's body.

This turned into a pleasant surprise for Ye Tian! For other princes, the disaster winds were terrifying, a horrific phenomenon, but for Ye Tian, the disaster winds seemed more like an aid to cultivation! Thus, Ye Tian ventured deeper into the wind disaster region, encountering even stronger and more terrifying disaster winds.

Whoosh, whoosh, whoosh!!! A massive amount of disaster winds blew, nearly enveloping Ye Tian, whirling within his body.

In the most violent areas of the wind disaster region, Ye Tian stopped.

He sat down cross-legged and began to cultivate.

Every so often, the Supreme Mountain would project images, allowing those outside the Supreme Mountain to see the situation atop it.

At this moment.

The Supreme Mountain began a new projection. The situation of Prince Tianxuan was displayed; he was still in the sixth tribulation.

Prince Xuefeng was in the fifth tribulation area, and a few other princes were in the fourth and third tribulations.

Prince Bairen and others did not pay attention to these Immortal and Demon princes. Their gaze was searching for Ye Tian.

Soon, Ye Tian's figure appeared.

In the wind disaster region!

“How is the Prince of Ten Thousand Laws still in the wind disaster region? With his strength, he should have easily passed through the wind disaster region,” Prince Bairen exclaimed in surprise.

Although he hadn't started his challenge, merely observing and waiting to make his attempt on the Supreme Mountain later as each person only had one opportunity to challenge the Supreme Mountain. He wanted to understand more because his goal was also the nine tribulations. However, the other Eternal princes had already passed through the wind disaster region, easily overcoming it, as it was only the first challenge and couldn't be too difficult.

But Ye Tian was still in the first challenge, the wind disaster region, which was beyond his expectations.

He had thought that Ye Tian had already passed through the three disasters and entered the Three Disasters Pavilion. But soon, Prince Bairen understood Ye Tian's intentions.

"The Prince of Ten Thousand Laws must be cultivating! He's using the disaster winds for cultivation. As expected of the Prince of Ten Thousand Laws!" Prince Bairen marveled.

Before long.

Prince Bairen couldn't hold back anymore and entered the Supreme Mountain himself, preparing to challenge it in hopes of passing through the three disasters and nine tribulations to gain better rewards.

As for the ten calamities, he had little interest.

Time gradually passed, and in the blink of an eye, half a month had gone by.

Meanwhile, in the wind disaster region, Ye Tian had been using his ability to accelerate time for cultivation, allowing the disaster winds to continuously buffet his physical body.

Now, the disaster winds couldn't affect him at all, not even able to blow a single impurity from within his body anymore.

"It's time to move on to the fire disaster region!"

Ye Tian quickly passed through the wind disaster region and, after going through a short safe area, arrived at the fire disaster region.

Crackle, crackle, crackle!!! Flames blazed out of nowhere, with the flames displaying a dark hue, a single strand of which could reduce an Emperor-level being to ashes.

Disaster fire was an incredibly terrifying fire, capable of not only scorching a person's physical body but even burning a person's soul.

The fire disaster region was even more terrifying than the wind disaster region. Upon entering the fire disaster region, strands of disaster fire attempted to burn Ye Tian's flesh and soul.

Even with Ye Tian's soul strength, he could feel a sense of scorching within his soul, illustrating how painful it must be for the weaker princes to face these disaster fires.

Deeper in the fire disaster region, Ye Tian discovered that the disaster fire could burn away some unseen impurities deep within his body, so he continued to cultivate there.

He found a place where the disaster fire was particularly intense and started a closed-door cultivation session using his ability to accelerate time, utilizing the disaster fire to temper his physical body and burn away the impurities within.

In this way, another half month passed.

Seeing that the disaster fire no longer benefited him, Ye Tian left the fire disaster area and entered the last of the three disaster areas—the water disaster area.

The fire disaster area was like a huge river encircling the Supreme Mountain, blocking Ye Tian's path.

Once he passed through the water disaster area, he could enter the Three Disasters Pavilion and gain its benefits.

However, the water disaster was the most terrifying area among the three disasters. The disaster water here was full of corrosiveness, and ordinary princes couldn't withstand it at all. If they couldn't hold on, they would sink into the depths of the disaster water area, enveloped by countless disaster waters, with no hope of struggling free.

Others who entered the water disaster area, although they couldn't fly, merely skimmed across the surface of the water and quickly passed through the water disaster area.

But after Ye Tian entered the water disaster area, he went straight to the bottom.

Countless disaster waters enveloped Ye Tian, and massive amounts of disaster water tried to corrode him. Initially, Ye Tian's skin was slightly pained by the corrosion, but as time passed, his skin became completely immune to the disaster water.

"The gains are not as good as in the wind disaster area and the fire disaster area. Let's leave!"

Ye Tian emerged from the bottom of the water disaster area and quickly left the area.

When Ye Tian passed through the water disaster area, a pavilion appeared in the void before him.

The pavilion was enormous, and its plaque bore three ancient characters from a previous cosmic era—Three Disasters Pavilion! Without hesitation, Ye Tian entered the Three Disasters Pavilion, arriving at the grand hall of the pavilion.

Suddenly.

The phantom of an elderly man with graying hair appeared before Ye Tian.

"An artifact spirit!"

Ye Tian recognized it.

This person must be the artifact spirit of the Three Disasters Pavilion, and judging by the other's weathered eyes and appearance, he seemed to have existed for a long time, not a... newly born artifact spirit like those in the Six Paths Reincarnation Pagoda.

The artifact spirit looked at Ye Tian and said, "Young man, you have passed through the three disaster areas and can obtain an item from the Three Disasters Pavilion.

But you can only choose one at random. You may obtain a very powerful item, or you may only get an ordinary one. It all depends on luck!”

After saying this, the artifact spirit waved his hand, and countless orbs of light appeared in the void.

Ye Tian couldn’t even tell what was inside these orbs of light, whether they were secret techniques, weapons, or some kind of precious legacy, etc.

Ye Tian also knew that merely passing through the three disaster areas, the item he would get wouldn’t be very good, so he randomly chose an orb of light.

“I choose this orb of light!”

Ye Tian grabbed one of the orbs, and quickly, the item within the orb appeared before him.

It was a sapling!

“Lucky you, this is a sapling of the Seven Treasures Glazed Tree. Once it matures, it can bear Seven Treasures Glazed Gourds, and these gourds can be used to nurture Origin Artifacts, which are extremely valuable.

However, cultivating the Seven Treasures Glazed Tree requires a very long time, and its value to an individual is not great, but it is extremely precious to a power!”

The artifact spirit explained.

“An Origin Artifact!” Ye Tian’s expression shifted.

Those were artifacts that surpassed even the finest divine artifacts, very rare, and the Seven Treasures Glazed Gourds could be used to nurture Origin Artifacts. Doesn’t this mean the Seven Treasures Glazed Tree could produce a large number of Origin Artifacts? Even for humanity, the demand for Origin Artifacts was very high. Once the Seven Treasures Glazed Tree was grown, it would be of great help to humanity.

“A good gain!” Ye Tian nodded in satisfaction.

Then, Ye Tian left the Three Disasters Pavilion.

After Ye Tian left, the artifact spirit murmured to himself, “The Six Paths Reincarnation Pagoda from the Six Paths Temple was actually obtained by this kid. He’s quite lucky. Moreover, he seems to carry the aura of that one artifact. If it truly is that artifact, this kid’s destiny is quite substantial. In the future, he’s likely to become one of the top existences in this cosmic era. It’s just too difficult to transcend the universe!”

Ye Tian was unaware that the artifact spirit had discovered the secret of him obtaining the Six Paths Reincarnation Pagoda and the mysterious Black Lotus. Otherwise, he would have been greatly surprised.

An artifact spirit being able to peer into his Six Paths Reincarnation Pagoda and the mysterious Black Lotus within it was no simple artifact spirit!

“Next up are the nine tribulations. The nine challenges of the tribulations are far more terrifying than the three disaster areas, not even on the same level.”

Even so, Ye Tian wasn’t fearful of the nine tribulations; he was more curious!

Chapter 530: Overcoming the Nine Tribulations, Appearance of the Nine Tribulations Pagoda

The nine tribulations were primarily divided into three categories. The first three tribulations target the body, the middle three the soul, and the last three the heart.

There was also a concept of nine tribulations on Earth, but it wasn’t the same. The nine tribulations of the Supreme Mountain were merely nine tests and didn’t represent any particular philosophy.

Quickly, Ye Tian arrived at the area of the first tribulation.

The first tribulation was that of hunger.

Upon entering the area of the first tribulation, an invisible force acted upon Ye Tian, bringing forth an unprecedented sense of hunger, an immense hunger.

But if it were just hunger, that wouldn't be much. After all, why would the Children of the Universe fear hunger? As long as one endured, there wouldn't be any problem.

However, the key issue was that the area of the first tribulation also presented many dangers. Passing through the first tribulation wasn't simple.

Whoosh, whoosh, whoosh!!! A large number of black wolves appeared, their eyes red, emitting a hungry emotion, and they charged towards Ye Tian.

These black wolves weren't real but creatures formed by the power of the Supreme Mountain.

These black wolves were not weak, each comparable to the strength of a Child of the Universe, and there were many of them. A Child of the Universe in a state of extreme hunger would definitely not be in good shape.

And as time dragged on, the hunger would become more and more severe.

Fight! Although Ye Tian was hungry, his strong heart condition and will allowed him to endure. These black wolves were not very powerful to him, and he easily killed a large number of them, moving forward at a rapid pace.

Ye Tian had no intention of staying in the first tribulation. This place was of no use to him. Cultivating here would only temper his sense of hunger, which he had no interest in doing.

Quickly.

Ye Tian passed through the first tribulation area and arrived at the second.

The second tribulation was that of fatigue, where one would fall into an extremely tired state, as if one's physical strength had been completely drained. Likewise, one would face various dangers, such as attacks from many creatures, and these creatures were stronger than those in the first tribulation.

After a series of battles, Ye Tian also passed through the second tribulation. The third tribulation was that of plague. In this tribulation, countless plague auras filled the entire area. The power of these plagues could even affect a Child of the Universe. Even Ye Tian was affected by various plagues, his body becoming weak, but the degree of weakness was very limited because his physical strength was too terrifying.

But if other Children of the Universe entered this area, it would probably be troublesome.

In the area of the plague tribulation, there were also creatures carrying plague toxins. These creatures were everywhere, and Ye Tian forcefully killed his way through the third tribulation area with his overwhelming strength.

Thus, Ye Tian overcame the first three tribulations! These first three tribulations affected only the physical state and were relatively easy, as long as one was strong enough. However, the middle three tribulations were not so simple.

The middle three tribulations affected the soul, and although Ye Tian's soul was strong, it was only slightly stronger compared to other Eternal princes, not to a dominating extent.

Therefore, facing these middle three tribulations, Ye Tian naturally couldn't take it lightly.

In the area of the fourth tribulation.

As soon as Ye Tian entered this area, he was attacked by the power of illusion.

The fourth tribulation was that of illusion. If one's soul was weaker, one would be pulled into the world of illusion, forever lost in the illusion, unable to distinguish between reality and fantasy.

Immediately, Ye Tian activated the Eyes of Xumi and also deployed his soul-strengthening talent, greatly increasing his soul strength. Combined with his heart condition reaching the sixth level and the numerous reincarnation experiences in the Six Paths Reincarnation Pagoda.

Therefore, Ye Tian was not affected by the illusion and easily passed through the fourth tribulation. However, this fourth tribulation was the simplest of the middle three tribulations.

After passing through the fourth tribulation, Ye Tian arrived at the fifth tribulation, which involved enduring soul attacks.

All princes possessed soul defense items, which are essential for protecting the soul from being instantly killed by soul talents.

After all, the soul was often a weak point for some princes. It wouldn't do to have great physical strength but be obliterated at the soul level by the soul talent of a lesser prince.

Therefore, powerful warriors typically refined one or two soul defense artifacts.

In theory, having soul defense artifacts should make passing through the fifth tribulation not difficult. However, as soon as Ye Tian entered the fifth tribulation, he found his soul defense artifacts restricted by a force.

Clearly, relying on external objects to pass through the fifth tribulation was impossible. The mechanism of the Supreme Mountain limited reliance on external aids.

Whoosh! A phantom saber thrust towards Ye Tian, who did not dodge but endured the strike head-on.

With a thud, the phantom saber struck Ye Tian's soul, shattering instantly like a wooden saber against stone.

"This strike isn't strong, but this is just the periphery of the fifth tribulation area, where soul attacks are fewer and weaker. If I continue forward, the soul attacks will become more frequent and much stronger!"

Ye Tian pressed on, facing increasingly frequent and powerful soul attacks.

At first, Ye Tian could have dodged these soul attacks, but deeper into the fifth tribulation area, dodging became impossible due to their density and incredible speed. He had no choice but to endure them head-on.

Even with Ye Tian's soul strength, overcoming the fifth tribulation required enduring some pain, but it wasn't dangerous for him. After all, he possessed talents for soul defense and soul enhancement. If even he couldn't pass through the fifth tribulation, then no one could.

Ye Tian dared not linger in the fifth tribulation area. Although he had activated his soul enhancement and soul defense talents, they still consumed some soul power. Moreover, the soul attacks here were too dense. Staying here too long and exhausting his soul power was no joke.

Confident as he was, Ye Tian wasn't reckless.

Thus, Ye Tian hastened through the fifth tribulation area and entered the sixth.

The sixth tribulation area, the last of the middle three tribulations, was not only the most difficult but also the most troublesome.

This tribulation involved enduring suppression on the soul. Deeper into the sixth tribulation area, the suppression became increasingly terrifying, to the point where weaker souls could be crushed into nothingness.

Walking through the sixth tribulation area, Ye Tian felt a heavy burden on his soul.

This suppression wasn't a soul attack, so soul defense talents were ineffective; only soul enhancement talents could help.

After activating his soul strengthening talent, Ye Tian swiftly moved through the sixth tribulation area.

Just as he was about to leave the sixth tribulation, he spotted a figure: "Prince Tianxuan!"

Ye Tian was slightly surprised.

At that moment, Prince Tianxuan's complexion was somewhat pale, clearly having suffered in the sixth tribulation area.

Prince Tianxuan also saw Ye Tian and, noticing Ye Tian's normal complexion and swift pace, as if he hadn't endured much pain, realized that Ye Tian must have a unique method to counter the soul suppression force.

Whoosh! Ye Tian and Prince Tianxuan left the sixth tribulation area one after the other. As they entered the seventh tribulation area, Prince Tianxuan stopped to rest and didn't proceed, while Ye Tian didn't take a break and directly entered the seventh tribulation area.

The seventh, eighth, and ninth tribulations target the heart. In other words, only those with strong heart conditions could pass these three tribulations. Eternal princes with heart conditions only reaching the fifth level couldn't pass these tribulations, only those whose heart condition reached the limit of the fifth level and were on the verge of the sixth could hope to overcome these three tribulations.

With his heart condition reaching the sixth level, Ye Tian was full of confidence.

Boom! A terrifying phantom appeared before Ye Tian, gazing at him and emitting a resounding celestial tone: "Why do you cultivate?"

Why, why, why... Countless voices flooded Ye Tian's heart, questioning him. This seemed not just a query but an attack, targeting his innermost being and shaking his spirit.

"To strengthen myself, to avoid being bullied, for eternal immortality, to stand at the pinnacle of the universe and look down upon all beings. In a world where the strong prey on the weak, I refuse to be the weaker party!"

Walking forward, Ye Tian spoke loudly and clearly, showing no fear.

Question after question was posed, and Ye Tian answered each one without slowing his pace.

This might seem like a simple Q&A, but Ye Tian was well aware that if his momentum weakened and his heart condition retreated, he would be crushed.

This was a battle of the heart, a clash of heart conditions! It appeared easy but was fraught with danger. Ye Tian only managed to quickly pass through the challenges because of his strong inner self and having reached the sixth level of heart condition.

For an invincible Eternal prince like Prince Tianxuan, if his heart condition hadn't reached the sixth level, passing the seventh tribulation would require some effort.

Before long, Ye Tian finally passed through the seventh tribulation.

The eighth tribulation directly affected one's emotions. Dark shadows whispered ancient languages all around, their countless noises disturbing Ye Tian's emotions, seemingly trying to unleash the hatred, bloodlust, and worries within him.

If one couldn't withstand it, they would truly fall into a passive state and be unable to pass this tribulation.

With the strength of his sixth-level heart condition, Ye Tian firmly stabilized his heart and walked step by step, eventually overcoming the ninth tribulation after some time.

It must be said, the ninth tribulation was indeed difficult. Other first-tier Eternal princes with only a fifth-level limit heart condition might need to prepare some means to pass the ninth tribulation.

Now, the nine tribulations were over.

Ye Tian saw a pagoda ahead, which was none other than the Nine Tribulations Pagoda!
