Chapter 531: The Ten Calamity Zone, The Terrifying Thunder Calamity

Ye Tian soared towards the Nine Tribulations Pagoda and promptly entered it.

Upon entering the Nine Tribulations Pagoda, Ye Tian encountered the tower's spirit.

The spirit of the Nine Tribulations Pagoda took the form of an elderly man, his eyes brimming with endless vicissitudes, and every move he made was filled with the power of the tower.

Within the Nine Tribulations Pagoda, this spirit possessed unrivaled power.

“Young man, having braved the nine tribulations, you can obtain one of the top inheritances from the cosmic heaven-grade forces, or a top-tier Supreme Treasure!” the spirit said.

“What are the top inheritances of the heaven-grade forces, and what are the top-tier Supreme Treasures? Could Senior Spirit explain a bit?” Ye Tian asked curiously.

His knowledge of the cultivation practices from the previous universe was very limited. Although he had the spirit of the Six Paths Reincarnation Pagoda, it only knew about the affairs of the Six Paths Reincarnation Pagoda and nothing else.

As for the higher-ups of humanity, they definitely knew much more, but they couldn't possibly disclose everything to Ye Tian.

The Nine Tribulations Pagoda's spirit was quite amiable and explained directly, “In the previous cosmic era, the forces were divided into four tiers: Heaven, Earth, Mysterious, and Yellow, with the Heaven tier being the highest among these four. Above the Heaven tier, there exists another level of forces, the Dao tier! There aren't many Dao tier forces, and they are mostly transcendental.

Heaven tier forces are already quite powerful, and the top inheritances of the heaven-tier forces are of great value.

As for the top-tier Supreme Treasures, that's a level among the Supreme Treasures.

Above the Origin Artifacts are the Supreme Treasures, divided into ordinary Supreme Treasures, top-tier Supreme Treasures, and the strongest Supreme Treasures, each with three levels: basic, intermediate, and advanced.

If you choose a top-tier Supreme Treasure, you can only select an ordinary level top-tier Supreme Treasure!”

Upon hearing this, Ye Tian understood immediately. It turned out that Supreme Treasures were a level above Origin Artifacts. Many precious items within humanity were described as Supreme Treasures because the classification of these items was unknown. But in reality, among the higher-ups, Supreme Treasures weren’t referred to casually, as they were beyond the reach of ordinary warriors and represented a level above Origin Artifacts.

Origin Artifacts were already incredibly precious to Ye Tian, let alone Supreme Treasures.

“Ordinary Supreme Treasures, top-tier Supreme Treasures, the strongest Supreme Treasures.

The spirit of the Six Paths Reincarnation Pagoda said it was among the strongest Supreme Treasures. Before, I didn’t understand the value of the strongest Supreme Treasures, but now I do.”

Ye Tian thought about the preciousness of the strongest Supreme Treasures and became very excited.

At this moment, he was hesitant.

To choose a top-tier Supreme Treasure or to choose a top-tier inheritance.

He soon made a decision.

“I choose a top-tier inheritance!” Ye Tian’s reason for choosing the inheritance was simple. The top-tier Supreme Treasure was useless to him; he already had the Six Paths Reincarnation Pagoda, one of the strongest Supreme Treasures, and possibly a mysterious black lotus, which might also be among the strongest Supreme Treasures.

So, a mere top-tier Supreme Treasure was completely useless. Even if it were given to humanity, its value would not compare to an inheritance. What humanity needed to grow stronger was not treasures but inheritances.

Inheritances were the most important for a race.

“Very well!” With a wave of his hand, the spirit of the Nine Tribulations Pagoda made several inheritance orbs appear, each orb containing an inheritance pearl.

“Please choose one!” the spirit said.

The Three Disasters Pavilion also made Ye Tian choose randomly. Before choosing, he had no idea what the reward would be.

If he knew, Ye Tian would definitely choose the best inheritance, but now he could only pick one at random.

Whoosh! Ye Tian grabbed an orb and obtained an inheritance pearl.

Immediately, his consciousness entered the inheritance pearl.

Soon, he learned what this top-tier inheritance was.

“The Ten Thousand Swords Sect’s Three Thousand Sword Techniques!”

He glanced over it briefly. This inheritance was the Three Thousand Sword Techniques of the Ten Thousand Swords Sect, a heaven-tier force, which included three thousand sword techniques from low to high level and countless insights into the sword techniques, essentially a complete sword dao of the Ten Thousand Swords Sect.

Such an inheritance was very valuable, especially for sword cultivators, as it was undoubtedly a priceless treasure.

Ye Tian stored the inheritance pearl and left the Nine Tribulations Pagoda.

After the Nine Tribulations came the Ten Calamities! These Ten Calamities were Thunder Calamities! One could say that the Ten Calamities were the most direct, but their difficulty was unparalleled. The first calamity had just one thunder calamity, the second had two, and the third had four.

By this progression, the tenth calamity would have 512, and each of these 512 thunder calamities was far stronger than the first.

To overcome these Ten Calamities, one couldn't rely on luck but on genuine strength.

If one's strength was not strong enough, they wouldn't even get past the first thunder calamity and would be instantly reduced to ashes.

Whoosh! Ye Tian flew into the first calamity zone.

Boom! In the high sky, thunder clouds gathered.

Soon, the first thunder calamity struck down.

This first thunder calamity was as thick as an arm, containing terrifying laws of thunder and destructive power.

This strike was comparable to the full-force strike of a first-tier Eternal Prince.

A typical first-tier Eternal Prince, although capable of surviving the first thunder calamity, would still be injured.

For Ye Tian, the first thunder calamity was negligible.

He didn't dodge at all and took the full brunt of the first thunder calamity.

Boom! The first thunder calamity struck Ye Tian, and the released power of the thunder calamity blasted a large crater around him, scorching the earth black.

However, this was the Supreme Mountain, and even if there was significant damage, the area would soon return to its original state.

Having survived the first thunder calamity, Ye Tian felt only a slight numbness on his body and proceeded towards the second calamity zone without much trouble.

Ye Tian quickly arrived at the second calamity zone, where the thunder calamity clouds had also formed, unleashing the first thunder calamity.

The first thunder calamity in the second calamity zone was much more powerful than the thunder calamity in the first calamity zone.

With a loud boom, this thunder calamity struck Ye Tian, causing his entire body to ache.

Then, the second thunder calamity of the second calamity zone descended.

The second thunder calamity was even more powerful than the first, striking Ye Tian and forcing him to take a step back.

Afterward, Ye Tian successively passed through the third, fourth, fifth, and sixth calamity zones.

Finally, Ye Tian arrived at the seventh calamity zone.

In the seventh calamity zone, Ye Tian had to endure the onslaught of 64 thunder calamities.

Even Ye Tian felt the pressure at this point.

Ye Tian not only activated various defensive talents but also used high-level chaotic divine techniques like the Primordial Scales Armor.

He also used the Primordial Vines, turning them into a giant vine ball to weaken the power of the thunder calamities through the vines' barrier.

Additionally, Ye Tian utilized his spatial divine abilities.

The Thousand Layer Barrier transformed into ten thousand layers, attempting to block the thunder calamities.

Boom, boom, boom! Under the bombardment of one thunder calamity after another, the Thousand Layer Barrier shattered.

The thunder calamities struck Ye Tian but were blocked by various defensive measures.

Although he was injured in the end, Ye Tian successfully survived the onslaught of 64 thunder calamities.

The minor injuries on his body quickly healed under the effect of various healing talents.

Next, the eighth and ninth calamities were even more terrifying. Even Ye Tian had to be extremely cautious, and as for the tenth calamity, it was even more daunting. Ye Tian didn't have complete confidence.

After all, the seventh calamity had injured Ye Tian, and the power of the thunder calamities in the tenth calamity was many times more terrifying than the seventh, with as many as 512 thunder calamities. The sheer number made it easy to exhaust one's strength and die even with the capability to withstand the power of the thunder calamities.

Stepping into the eighth calamity zone.

Boom! In the void, an unimaginable cluster of thunder calamity clouds appeared, covering the sky.

In an instant, the first thunder calamity struck down.

This thunder calamity was about ten meters thick, containing the strongest laws of thunder. If it were in the outside world, this single thunder calamity could destroy the space of an entire planetary system.

At this point, Ye Tian no longer just endured the attacks; he needed to counterattack.

“Heavenly Moon Saber, slash!”

Ye Tian slashed towards the thunder calamity column with his saber.

With a loud boom, the saber qi collided with the power of the thunder calamity. The first thunder calamity was forcibly dispersed by Ye Tian’s slash, and the residual power of the thunder calamity didn’t harm Ye Tian at all.

However, this was just the first of 128 thunder calamities, not even enough to be considered an appetizer.

The second thunder calamity! The third thunder calamity! The fourth thunder calamity! One after another, the thunder calamities struck down, and Ye Tian continuously struck back at these thunder calamities. However, he couldn’t possibly keep fighting against these thunder calamities forever. If he expended too much energy and physical strength, it would be difficult to withstand the later thunder calamities.

Therefore, Ye Tian occasionally rested, secretly recovering his strength and only defending against the power of the thunder calamities.

In such a state, Ye Tian was continuously injured.

Half an hour later, Ye Tian finally survived the eighth calamity, although he spent a lot of energy and was not lightly injured. However, he quickly recovered under various healing talents and arrived at the ninth calamity in peak condition.

The ninth calamity was definitely more terrifying than the eighth, and Ye Tian was extremely cautious.

But having come this far, there was no turning back.

Boom, boom, boom! Thunder calamities struck down in an orderly fashion, and Ye Tian fought with all his might against these thunder calamities.

Meanwhile, the Supreme Mountain once again projected the situation, attracting the attention of many princes below the Supreme Mountain. Ye Tian's progress had been closely watched by these princes, and even the princes of the God and Demon races took notice of Ye Tian.

After all, Ye Tian's strength had been recognized by everyone, possessing the power of an invincible level Eternal Prince, which was far beyond that of a typical first-tier Eternal Prince.

In this ruin world, there were only three invincible level Eternal Princes.

And currently, Ye Tian was the most dazzling among them, surpassing both Prince Xuefeng and Prince Tianxuan in terms of speed.

"Look, the Prince of Ten Thousand Laws has entered the ninth calamity zone!" shouted one of the princes.

Chapter 532: The Tenth Calamity Zone, The Princes' Astonishment

The Ninth Calamity Zone proved too challenging, such that even an Invincible Eternal Prince would hesitate to enter, risking a fall within.

Ye Tian had now ventured into the Ninth Calamity Zone, an impressive feat indeed! Everyone eagerly anticipated whether Ye Tian could transcend the Ninth Calamity, possibly even braving the Tenth.

However, only those above the God level, the Princes, could truly overcome the Tenth Calamity. If Ye Tian were to do so, it would be defying the heavens.

"Prince Tianxuan is in the Seventh Calamity Zone!"

The gaze of the Princes turned towards the Seventh Calamity Zone.

There, Prince Tianxuan was withstanding the lightning calamity, appearing somewhat disheveled.

Given Prince Tianxuan's condition, surpassing the Tenth Calamity seemed unlikely, likely departing after the Seventh, as continuing might risk a fall.

As for Prince Xuefeng, he was slightly behind Prince Tianxuan in the Sixth Calamity Zone of the Ten Calamity Area, not due to lesser strength but merely because he ascended the Supreme Mountain later, thus a bit delayed.

Soon, the projection ended, obscuring the view of the Supreme Mountain.

However, the intervals between each projection from the Supreme Mountain weren't too long, and they awaited in anticipation.

In the Seventh Calamity Zone of the Supreme Mountain.

Prince Tianxuan was vigorously resisting the successive lightning calamities.

After enduring the calamities for a while, Prince Tianxuan sustained injuries, worsening over time.

Eventually, as the Seventh Calamity Zone unleashed all its lightning calamities, Prince Tianxuan successfully transcended the Seventh Calamity.

But he was apprehensive.

"No, the Seventh Calamity's lightning was terrifying enough. The Eighth will be even more formidable, not just twice as difficult. If I enter the Eighth Calamity Zone, the likelihood of falling is significant!"

With that thought, Prince Tianxuan retreated, heading towards the base of the Supreme Mountain.

He abandoned the challenge of the Tenth Calamity! In reality, he was well aware of his incapacity to surpass the Tenth Calamity. Among the Eternal Princes of previous generations, even stronger Invincible Eternal Princes failed to overcome it. Knowing the impossibility and still recklessly attempting would be folly.

Having transcended the Seventh Calamity and honed himself, he didn't disgrace himself.

Prince Tianxuan left the Seventh Calamity Zone, descending the mountain without facing further lightning calamities or tribulations, smoothly exiting the Supreme Mountain.

Upon Prince Tianxuan's return from the Supreme Mountain, a group of Immortal Princes rallied around him.

"How did Prince Xuefeng and the Prince of Ten Thousand Laws of the Human Race fare?"

Prince Tianxuan inquired.

One of the Immortal Princes hastily responded, "Prince Tianxuan, from the latest projection, Prince Xuefeng is in the Sixth Calamity Zone, while the Prince of Ten Thousand Laws is in the Ninth."

"The Prince of Ten Thousand Laws entered the Ninth Calamity Zone?!"

Prince Tianxuan was astounded.

Although he had transcended the Seventh Calamity Zone, he dared not venture into the Eighth, fearing a fatal fall. Yet, Ye Tian not only surpassed the Eighth but also dared to step into the Ninth Calamity Zone.

"Hmph, I hope you perish in the Ninth Calamity Zone!" Prince Tianxuan secretly hoped.

In the Ninth Calamity Zone.

By this time, Ye Tian had withstood dozens of lightning calamities, gradually accumulating numerous wounds.

The Ninth Calamity consisted of 256 lightning calamities, and Ye Tian needed to withstand all to truly transcend the Ninth Calamity. Although not as arduous as the Tenth, it remained exceedingly difficult.

Before long, Ye Tian endured 100 lightning calamities, nearing completing the Ninth.

With each lightning calamity, Ye Tian bore the minimum cost, cautious not to deplete too much strength in repelling them, lest he exhaust his power and meet his end. Due to Ye Tian's numerous recovery talents and vital medicines, along with his time talent, he stood a better chance.

Utilizing his time talent, he accelerated time by a hundredfold to heal his injuries before the next calamity struck, maintaining his combat strength.

As time ticked away, Ye Tian grew more solemn. The remaining calamities were few, but their power intensified, and his injuries deepened.

The 250th, 251st, and 252nd lightning calamities struck! Ye Tian valiantly withstood them, battered and bruised but his combat strength scarcely diminished.

Finally, the 256th lightning calamity descended.

Ye Tian deployed a multitude of vines to intercept this final calamity. Though the last lightning calamity shattered all his vines, most of its force was obliterated by a strike from Ye Tian's Heavenly Moon Saber.

The residual attack, though hitting Ye Tian, merely blasted him underground without inflicting a fatal wound.

"I've transcended it!"

Ye Tian offered a slight smile, feeling quite pleased.

After stepping out of the Ninth Calamity Zone and before entering the Tenth, Ye Tian swiftly healed all his injuries and then proceeded into the Tenth Calamity Zone.

This zone was the final barrier. Once crossed, Ye Tian would have overcome the Three Disasters, Nine Tribulations, and Ten Calamities, qualifying him to enter the Ten Calamity Palace to obtain a legacy of immense importance to humanity.

At that point, humanity was bound to grow even stronger.

Thus, this barrier was of utmost significance, not only for Ye Tian but also for humanity, marking a pivotal turning point.

As Ye Tian formally entered the Tenth Calamity of the Supreme Mountain, a beam of golden light radiated in all directions from the mountain, capturing the attention of all the Princes.

Subsequently, an image appeared, showing only the Tenth Calamity Zone, exclusively focusing on Ye Tian.

“That’s the Tenth Calamity Zone!”

All the Princes were astounded.

Human Princes like Prince Bairen and Saint Prince were dumbfounded.

That was the Tenth Calamity Zone, and Ye Tian dared to enter, unaware that even the Immortal Princes Xuefeng and Tianxuan had retreated.

“The Prince of Ten Thousand Laws is too bold, venturing into the Tenth Calamity Zone!”

Prince Bairen’s pupils shrank in sheer horror.

With Ye Tian entering the Tenth Calamity Zone, he realized the widening gap between his strength and Ye Tian’s.

Initially, though weaker, Ye Tian would have found it difficult to kill him, but now, Ye Tian could likely do so with ease.

“Such rapid growth. He might have the chance to become a Supreme Prince!”

Prince Bairen commented.

As for his own chances of becoming a Supreme Prince, he wasn't too confident. Maintaining his current level of strength as a first-tier Eternal Prince after reaching the God level was already commendable.

On the other side.

Prince Tianxuan was also dumbfounded.

He had been hoping for Ye Tian to perish in the Ninth Calamity Zone, yet now Ye Tian had entered the Tenth Calamity Zone, triggering a phenomenon that made the Supreme Mountain project his challenge. This was an unparalleled honor! Undoubtedly, Ye Tian's achievements now completely overshadowed both him and Prince Xuefeng.

"Die, according to the Immortal Race's historical records, only one Eternal Prince of the Emperor level has ever crossed the Tenth Calamity Zone of the Supreme Mountain. All other Invincible Eternal Princes who dared to challenge the Tenth Calamity perished. Prince of Ten Thousand Laws, no matter how strong you are, you cannot surpass the Tenth Calamity. Your end is certain!"

Prince Tianxuan thought to himself.

Prince Xuefeng was also greatly shaken. He had never clashed with Ye Tian, always considering only Prince Tianxuan as his rival.

But now, Ye Tian's fame completely eclipsed both him and Prince Tianxuan, virtually making him the undisputed First Emperor-level Eternal Prince of the entire universe.

Like Prince Tianxuan, Prince Xuefeng too hoped for Ye Tian to fall in the Tenth Calamity.

In the Tenth Calamity Zone.

Under the watchful eyes of all, Ye Tian began to face the first lightning calamity of the Tenth Calamity.

This challenge involved enduring 512 lightning calamities, each far surpassing the first calamity of the other nine in power.

Boom! A colossal pillar of lightning, akin to a pillar holding up the sky, struck down. Ye Tian exerted all his might to deploy the Ten Thousand Layer Realm Barrier in an attempt to block the first calamity and also summoned the Primordial Vines to intercept it.

Crack! Layer upon layer of barriers were shattered, yet stopped by the Primordial Vines, successfully blocked.

But this was merely the first calamity! Subsequent calamities descended one after another, imposing immense pressure on Ye Tian.

Before long, Ye Tian had endured twenty calamities, but by then, his Ten Thousand Layer Realm Barrier had been shattered several times, making it difficult to continue deploying this spatial divine ability.

The Primordial Vines Secret Technique also shattered countless vines, significantly draining Ye Tian.

Gradually, Ye Tian could only rely on various methods to weaken the calamities before physically withstanding them.

By the fifty-fifth calamity, Ye Tian spat out blood, heavily injured.

Seeing this, the Human Princes became anxious! This was only the fifty-fifth calamity, and with so many more to come, each growing stronger, how could he possibly withstand them?

“Hahaha, the Prince of Ten Thousand Laws is doomed!” Prince Tianxuan thought to himself.

The Immortal, Demon, and other races’ Princes were pleased to witness this, feeling secretly delighted.

After all, Ye Tian’s fall would be advantageous for all races! By the sixtieth calamity, Ye Tian finally deployed his Five Elements Great Divine Ability—The Five Elements Divine Wheel!

The Five Elements Divine Wheel, part of the Five Elements Great Divine Ability, also had defensive and offensive capabilities, making it an all-encompassing divine ability.

Crucially, the Great Divine Ability hardly drained Ye Tian.

Initially, Ye Tian intended to conceal this ability, but now he had no choice but to deploy it. Otherwise, deploying the Five Elements Divine Wheel later would barely withstand a few calamities before shattering. It was better to use it now to buy some time for healing.

Chapter 533: Reversal of Time, The Chance to Turn the Tables

The Five Elements Divine Wheel hovered above Ye Tian, blocking the sixtieth lightning calamity.

With a thunderous crash, the Five Elements Divine Wheel was blown away by the sixtieth lightning calamity, numerous cracks appearing on it before it shattered into countless pieces.

The strength of the sixtieth lightning calamity somewhat exceeded Ye Tian's expectations, and he had overestimated the defensive capabilities of the Five Elements Divine Wheel. However, this did not mean that the Five Elements Divine Wheel could no longer be deployed.

Unless the Great Divine Ability was damaged at its core, it could still be utilized in the short term.

Of course, the Five Elements Divine Wheel couldn't be used indefinitely. Given the current situation, it could be deployed around twenty more times. After that, it would become difficult to continue using it as being shattered repeatedly would affect its core.

A new Five Elements Divine Wheel appeared, floating above Ye Tian's head.

Soon, the sixty-first lightning calamity descended.

Unsurprisingly, Ye Tian's Five Elements Divine Wheel was once again shattered, but he easily withstood the remnants of the lightning calamity.

With each successive lightning calamity, Ye Tian relied on the Five Elements Divine Wheel to forcefully endure.

In the blink of an eye, Ye Tian had surpassed eighty of the Tenth Calamity's lightning calamities.

Compared to the Tenth Calamity's total of 512 lightning calamities, these eighty were merely an appetizer, hardly significant.

Even so, Ye Tian found it extremely challenging to endure just this appetizer.

At this point, many Princes were pessimistic about Ye Tian's chances, believing he had no hope of overcoming the Tenth Calamity and was likely to fall beneath it.

Had Ye Tian not entered the Tenth Calamity Zone, he could have left the Supreme Mountain. However, once one enters the Tenth Calamity Zone, there's no leaving halfway through, such are the rules of the Supreme Mountain.

At this time, the Human Race's Eternal Princes were undoubtedly the most anxious.

Ye Tian's importance to the Human Race was incomparable to that of any other Eternal Prince. Should Ye Tian return to the Human Race, they would gain immense benefits.

But should Ye Tian fall, all the opportunities he had gained would dissipate, resulting in a loss not just of an Eternal Prince but also of those inheritances for the Human Race.

"Prince of Ten Thousand Laws, you must overcome the Tenth Calamity!" Prince Bairen clenched his fist and thought to himself.

In the Tenth Calamity Zone.

Although Ye Tian was solemn, he did not panic.

"The Five Elements Divine Wheel has shattered too many times and can no longer be deployed. I'll rely on the Heavenly Moon Saber to counter the lightning calamities and delay, enduring a few more." Ye Tian planned.

Immediately, he deployed the Heavenly Moon Saber ultimate technique time and again to counter the lightning calamities.

The Heavenly Moon Saber ultimate technique, being the strongest among ordinary ultimate saber techniques, was naturally formidable enough to match the power of the lightning calamities.

Despite this, Ye Tian could not ensure he remained unharmed.

With each thunderous calamity, Ye Tian managed to split the lightning with the Heavenly Moon Saber, but he continued to sustain injuries, albeit managing to hold on for the time being.

After some time, Ye Tian had endured the 120th lightning calamity, but by then, he was severely injured.

However, Ye Tian had not yet activated his time talent to heal his wounds.

Seeing his dire state, Ye Tian immediately activated a 100x time acceleration, along with his Undying Talent, Healing Talent, and Life Talent, to treat his injuries.

Simultaneously, Ye Tian consumed some healing items to speed up his recovery.

Additionally, Ye Tian executed the first set of movements from the Eighteen Golden Bodies Techniques. He had discovered that this could accelerate the refinement of some energies, naturally including the healing items he had just consumed.

In an instant, Ye Tian's injuries were somewhat healed.

Using such methods, Ye Tian forcefully withstood another ten lightning calamities.

Before long, Ye Tian's injuries worsened again, and he could no longer continue.

Thus, he consumed a drop of million-year-old stone milk, obtained from slaying a Prince. The million-year-old stone milk could instantly heal injuries and was invaluable in such a situation. Boom! As the energy from the million-year-old stone milk entered Ye Tian's body, it rapidly repaired his injuries. Coupled with his other healing talents, Ye Tian's condition almost returned to its peak.

However, the million-year-old stone milk could only be effective once. Consuming more would be useless, serving merely as a life-saving measure.

Following this, Ye Tian relied on life-saving items acquired from other races' Princes to overcome several more lightning calamities.

Below the Supreme Mountain.

Seeing Ye Tian use a life-saving item unique to the Immortal Race, the Immortal Princes realized it must have been plundered from a slain Immortal Prince.

As a result, the Immortal Princes were greatly irritated.

"Hmph, Prince of Ten Thousand Laws, you indeed surpass me in strength, but you're still doomed. How many life-saving items can you have? And with so many lightning calamities still to come, you won't overcome the Tenth Calamity!"

Prince Tianxuan sneered coldly.

The 150th, the 170th, the 210th lightning calamities! Ye Tian, relying on a plethora of life-saving and healing items, pushed his condition to the peak repeatedly. However, having consumed healing items excessively, Ye Tian had almost become immune to some, making it difficult to recover through them any longer.

Moreover, Ye Tian's life-saving items were dwindling, signaling dire circumstances.

Finally, Ye Tian used up his last life-saving item, having only surpassed 320 of the 512 lightning calamities of the Tenth Calamity. The situation was extremely grim for Ye Tian.

“If only I could summon something as powerful as the Six Paths Reincarnation Pagoda, surpassing the Tenth Calamity would be simple!” Ye Tian thought to himself.

The defense of the Six Paths Reincarnation Pagoda was formidable, and the lightning calamities of the Tenth Calamity couldn’t shatter it. Since the calamities lacked intelligence and attacked blindly, Ye Tian could easily transcend the Tenth Calamity by hiding within the tower.

Clearly, the Supreme Mountain’s trial wouldn’t have such a glaring loophole. Otherwise, the major races of the universe would have long exploited precious defensive treasures to assist their princes in surpassing the Ten Calamities.

In reality, higher-tiered weapons and artifacts were unusable, with the Supreme Mountain’s power suppressing them, rendering them ineffective.

Thus, Ye Tian’s Six Paths Reincarnation Pagoda was unusable in the Supreme Mountain, as was the mysterious Black Lotus.

Nonetheless, Ye Tian remained composed, even in dire straits, maintaining his calm with a strong heart condition, especially since he was far from a hopeless situation.

Following this, Ye Tian resisted the lightning calamities with all his might, sustaining injuries with each one, their severity increasing and the rate of recovery lagging far behind the rate of injury.

Gradually, Ye Tian neared a deathly state.

At the 352nd lightning calamity, his body was almost entirely shattered. Had it not been for his Undying Talent, which kept him alive as long as there was a sliver of life force, his current state would have undoubtedly been fatal.

At this point, all princes believed Ye Tian had no hope left.

Even Prince Bairen of the Human Race sighed, no longer believing Ye Tian could transcend the Tenth Calamity.

However, at this moment, Ye Tian did something unforeseen by many.

“Reverse Time!”

Waves of time fluctuated, and Ye Tian’s flesh miraculously restored itself at an incredible speed.

In an instant, his condition returned to its peak, as if he had just begun the battle.

This was the effect of reversing time, returning the body to a previous state, while the Tenth Calamity Zone, having recognized Ye Tian enduring 352 lightning calamities, couldn’t be reversed.

“Time talent. The Prince of Ten Thousand Laws possesses time talent!” Prince Tianxuan’s face darkened.

Previously, he had only wished for Ye Tian’s death, forgetting about Ye Tian’s time talent.

Possessing a Pseudo-Mystic level time talent allowed for the reversal of time, even if only once in a short period, but it was enough for Ye Tian to endure more calamities.

“Hmph, the upcoming calamities are increasingly terrifying. You still have little hope!” Prince Tianxuan coldly stated.

Yet, a thought suddenly struck him – if Ye Tian truly surpassed the Tenth Calamity, it would spell significant trouble! After reversing time, Ye Tian faced the calamities anew in a refreshed state.

Five Elements Divine Wheel! Ten Thousand Layer Realm Barrier! Heavenly Moon Saber Ultimate Technique! Primordial Vines! Primordial Scales Armor!

Ye Tian deployed every possible method against the subsequent calamities, sparing no effort to block as many as possible.

Despite this, upon the arrival of the 423rd lightning calamity, Ye Tian’s body collapsed again.

At this critical moment, Ye Tian once again utilized his ability to reverse time.

A Mystic level time talent could perform time reversal two to three times in a short period, though each subsequent reversal incurs a backlash.

For instance, this time, Ye Tian suffered a backlash, losing 100 years of life instantly.

However, with a lifespan of over 100,000 years, losing 100 years was negligible, so he didn't care.

Ye Tian's second use of time reversal stunned Prince Tianxuan.

"How is this possible? He only has a Pseudo-Mystic level time talent. How could he perform a second time reversal? Only a Mystic level time talent could allow another reversal, at the cost of 100 years of life. Could it be..."

Prince Tianxuan suddenly considered a possibility – perhaps Ye Tian wasn't merely a Pseudo-Mystic level time talent holder but a Mystic level one.

"Damn, I underestimated him! To think he also possesses a Mystic level time talent; it seems he was bluffing me last time!"

While Prince Tianxuan was annoyed, he also grew wary.

Ye Tian's strength had already far surpassed his, and his only advantage was his Mystic level time talent. Now, even that advantage was gone.

Chapter 534: A Substitute for Death, Successfully Overcoming the Tenth Calamity

After employing the time reversal ability for the second time, Ye Tian continued to withstand the lightning calamity in his peak condition.

However, even so, it was difficult for Ye Tian to rely solely on this time reversal to get through the tenth calamity.

As expected.

As the strikes of the lightning calamity descended one after another, Ye Tian's injuries gradually worsened.

Before long, Ye Tian finally endured until the 492nd strike of the lightning calamity.

At this time, Ye Tian's physical body collapsed once again! Witnessing this scene, Prince Tianxuan of the Immortal Race was incredibly excited.

“Hahaha, Ye Tian, you're definitely going to die! The lifespan of humans is naturally short, an Emperor-level human only has a lifespan of 300 years, and it's very difficult to extend it. Since you possess the talent for time, you must often use the time acceleration ability for cultivation. I don't believe you have much lifespan left.

If you wish to use the time reversal ability for the third time, then you must expend 10,000 years of lifespan. Do you have 10,000 years of lifespan?”

Prince Tianxuan almost certainly believed Ye Tian was doomed to die.

If Ye Tian didn't use the time reversal ability, he wouldn't be able to get through the lightning calamity and would die under it. If he used the time reversal ability, he would die from the depletion of his lifespan.

This was a true dead end! Of course, this was only what Prince Tianxuan believed to be a dead end! In reality, Ye Tian's lifespan far exceeded Prince Tianxuan's imagination.

Ye Tian had cultivated the second level of the Eternal Return Technique, which allowed him to extend his lifespan by 100,000 years at each realm.

In the area of the tenth calamity.

Seeing that his physical body was too severely injured to maintain any longer, and the next strike of lightning calamity was about to descend, if he faced the next strike in his current state, he would definitely be killed in one hit.

Immediately, Ye Tian made a decision.

“Time Reversal!”

Buzz! Ye Tian’s body returned to its previous peak condition, and the price paid was 10,000 years of lifespan.

To be honest, 10,000 years of lifespan was a lot for Ye Tian, and it was impossible not to feel the loss, but it was still within an acceptable range.

Having lost so much lifespan, he still had nearly 90,000 years of lifespan left, and once he broke through to the God level, not only could he obtain the normal ten thousand years of lifespan of a God level powerhouse, but he could also gain an additional hundred thousand years of lifespan.

Therefore, if these 10,000 years of lifespan could help him successfully get through the tenth calamity, it was absolutely worth it! With the third time reversal successful, Ye Tian once again withstood the lightning calamity with his full strength.

Prince Tianxuan, Prince Xuefeng, and other princes from the divine and demon races were all incredibly shocked, hardly daring to believe it.

“It can’t be, how could he not have perished, that’s 10,000 years of lifespan! Adding the previously set 100 years of lifespan, he has lost a total of 10,100 years of lifespan this time, he’s just a human, and he must have frequently used his time talent for cultivation, yet he still has so much lifespan left, I don’t believe it!” Prince Tianxuan roared.

After all, he couldn’t believe it, and many princes who understood the talent of time were also in disbelief, but Ye Tian indeed successfully used the third time reversal, returning to his peak condition.

The 493rd strike of lightning calamity! The 494th lightning calamity! The 495th strike of lightning calamity! With each strike of lightning calamity descending, Ye Tian became more and more solemn, and the other princes watching under the Supreme Mountain also had complicated feelings.

Most of the princes did not want Ye Tian to be able to get through the tenth calamity and were afraid that Ye Tian would get through it, but from the current situation, Ye Tian really seemed likely to get through the tenth calamity and enter the Ten Calamities Divine Hall.

Time passed little by little, and the power of the subsequent lightning calamities became more and more terrifying, with Ye Tian under great pressure.

“The next strike should be the 510th lightning calamity!”

Ye Tian, dragging his heavily injured body, looked at the lightning calamity clouds above his head and said solemnly.

Although there were only three strikes of lightning calamity left, these last three strikes were not so easy to withstand.

At this moment, his yuan force was severely depleted, and the spiritual medicines and treasures on him that could restore strength were almost exhausted.

With no other choice, Ye Tian made a decision.

Boom! The 510th strike of lightning calamity descended.

At this moment, Ye Tian waved his hand, throwing out various divine artifacts. These were ordinary divine artifacts that he had acquired from slaying other princes and from their xumi storage rings.

He hadn't refined any of these divine artifacts.

At this time, he threw these divine artifacts into the air to meet the lightning calamity, trying to use these divine artifacts to consume some of the power of the lightning calamity.

After all, even unrefined divine artifacts had very sturdy materials, and the lightning calamity striking a large number of divine artifacts would definitely consume its energy.

Boom! The lightning calamity descended, striking the divine artifacts, shattering and blowing them away. With so many divine artifacts blocking, the power of the lightning calamity was greatly reduced.

Then, Ye Tian mobilized the little yuan force he had left, and the Heavenly Moon Saber ultimate technique struck fiercely.

With a booming sound, the saber qi shattered the lightning calamity, but the remnants of the lightning calamity blew Ye Tian away, making his injuries even more severe.

However, fortunately, he had successfully gotten through the 510th lightning calamity.

“Only two strikes of lightning calamity left!” Ye Tian thought to himself.

He estimated that in his current state, he should still be able to withstand one more strike of lightning calamity, but after one strike, he would have no more fighting strength left and definitely would not be able to withstand the last strike of lightning calamity.

The power of the last strike of lightning calamity was extremely terrifying, far beyond any other lightning calamity.

In an instant, Ye Tian thought of a plan.

“There’s only that method left, I hope it works!”

Soon, the 511th strike of lightning calamity descended.

Ye Tian activated all his defensive talents, used his God-level spatial talent to bind space, and employed spatial barrier, spatial collapse, spatial disturbance, and all other means to try to block this 511th strike of lightning calamity.

With a booming sound, Ye Tian’s body was pierced with a hole, although not very large, his body was indeed severely damaged and difficult to recover from.

However, Ye Tian's vitality did not extinguish, he lived on, and also got through the 511th strike of lightning calamity.

At this moment, Ye Tian was attempting to heal his injuries, even activating a 100-fold time acceleration, but time was still too short. It only allowed Ye Tian to stabilize his body, preventing it from collapsing.

It was unrealistic to expect to heal his injuries in such a short amount of time, so Ye Tian could only face the final strike of the lightning calamity with his critically injured body.

Boom! The final strike of the lightning calamity descended! This strike was incredibly terrifying, like a true pillar reaching for the skies emerging from the clouds of calamity, aiming straight for Ye Tian.

At that moment.

Ye Tian actually rushed towards the lightning calamity in the high skies, instantly consuming all his yuan force and even burning a portion of his flesh to execute an astonishing saber strike.

“Heavenly Moon Saber, slash!”

This strike seemed to cut through the heavens, colliding with the final lightning calamity.

In an instant, a remarkable collision commenced.

In the end, Ye Tian's strike was annihilated, but the final lightning calamity also had much of its energy consumed, continuing to strike Ye Tian as a smaller lightning pillar.

This scene touched many hearts.

“Hahaha, he can't withstand it, he's definitely going to die!”

Prince Tianxuan exclaimed excitedly.

Everyone could clearly see Ye Tian's condition, having expended all his strength for that strike and still failing to destroy the lightning calamity, he had no strength left to contend with this final strike.

Under the watchful eyes of many, Ye Tian's body was about to collide with the final lightning calamity.

Logically, in such a short time, Ye Tian wouldn't have had the chance to employ any techniques.

But he had already activated the 100-fold time acceleration ability, giving him the time to use a talent — the death substitution talent! This was Ye Tian's last resort! He had placed his substitute avatar far away early on, and in the area of the tenth calamity, he was resisting the lightning calamity while switching places.

Now, the location of the substitute avatar was far from his current position, absolutely out of reach of the calamity.

"Death Substitution Talent, activate!"

Instantly, Ye Tian activated the death substitution talent, successfully swapping places with the substitute avatar far away.

And the power of the lightning calamity struck Ye Tian's substitute avatar in the next instant.

Upon impact, the substitute avatar turned to ashes.

Because Ye Tian executed the death substitution talent so swiftly, the other princes didn't see it clearly and thought Ye Tian was struck by the lightning calamity, perishing in the process.

At this moment, the mood among the human princes was terrible.

However, the mood among the princes of the Immortal, Demon, and other races was quite good, especially for Prince Tianxuan, who was in high spirits! If Ye Tian were alive, he estimated he would live in Ye Tian's shadow for a long time.

“No, the Prince of Ten Thousand Laws isn’t dead!” A prince exclaimed.

Swish, swish, swish! All the princes looked over, only to see the scene in the area of the tenth calamity on Supreme Mountain shift to another area.

There, Ye Tian was seen lying there, his power drained, but his breath was still present; he hadn’t died.

“Impossible!”

Prince Tianxuan was stunned.

In that situation, how did Ye Tian escape? Instantaneous movement wasn’t possible! Under those circumstances, the power of the lightning calamity bound space, and instantaneous movement wouldn’t have been fast enough, plus the lightning calamity would turn to follow Ye Tian, not sparing him.

Moreover, they had seen with their own eyes Ye Tian’s physical body being shattered. “Damn, it must be some kind of secret technique!” Prince Tianxuan speculated.

But even if they figured it out, what could they do? Ye Tian had successfully passed through the tenth calamity area and was about to enter the Ten Calamities Divine Hall to obtain the most precious inheritance.

“Let’s go!” Prince Tianxuan ordered.

Immediately, the other Immortal Princes realized the situation and hurriedly followed Prince Tianxuan as they flew away.

They didn’t dare stay here any longer. With Ye Tian’s strength, if he left Supreme Mountain and acted against them, they probably wouldn’t survive.

Even Prince Tianxuan might fall, so they didn’t dare stay.

After the Immortal Princes left, the demon princes also departed one by one.

Soon, the princes who had passed through Supreme Mountain all left.

In the area of the tenth calamity.

Ye Tian had slightly recovered some strength and then left the area, arriving at the peak of Supreme Mountain.

At this time.

He saw a chaotic void ahead, surrounded by terrifying power, as if it could annihilate all strong beings.

Ye Tian knew that this chaotic void led to the other three areas of the ruin world. One had to cross this chaotic void to enter the other areas, but he didn't have the ability to cross this region.

Meanwhile,

A dilapidated Ten Calamities Divine Hall was on the peak of Supreme Mountain.

The Ten Calamities Divine Hall Ye Tian was facing was probably only one-fourth of the whole, with the other three-fourths in the other three areas.

Even if it was only a quarter of the Ten Calamities Divine Hall, its aura far surpassed that of the Three Disasters Pavilion and the Nine Tribulations Pagoda.

One could imagine how terrifying a complete Ten Calamities Divine Hall would be, definitely an incredibly heaven-defying treasure among the strongest treasures.

Chapter 535: The Heritage of the Celestial Race!

Ye Tian did not immediately enter the Ten Calamities Divine Hall but chose to first heal his wounds.

Utilizing the ability to accelerate time, it took Ye Tian several days to mostly mend his injuries. As for some lingering effects, those could not be healed in a short period and required prolonged treatment.

Of course.

Had Ye Tian obtained some medicinal ingredients capable of healing special injuries, he could have quickly mended his wounds.

After largely recovering from his injuries, Ye Tian approached the Ten Calamities Divine Hall and swiftly entered its interior.

He had thought that given the hall's dilapidated state, there wouldn't be a spirit guardian, but the spirit of the Ten Calamities Divine Hall appeared before him.

The spirit of the Ten Calamities Divine Hall took the form of a middle-aged man, radiating celestial light, as if a celestial being bathed in the aura of immortality.

"It's unexpected that another individual from your universe could overcome the Ten Calamities at the Emperor level and arrive at the Ten Calamities Divine Hall!"

The spirit regarded Ye Tian with surprise.

"Merely by chance!" Ye Tian responded modestly.

"Since you've passed through the Ten Calamities and arrived at the Ten Calamities Divine Hall, you can obtain the supreme inheritance of a Dao-level force."

After speaking, the spirit waved its hand, and dozens of light orbs appeared before Ye Tian.

Each of these light orbs represented a supreme inheritance.

In essence, a single supreme inheritance could significantly enhance the strength and foundation of the human race.

“Choose!” The spirit said.

Ye Tian examined the light orbs and, unable to discern their specifics, randomly selected one, acquiring an inheritance.

This inheritance was a stone tablet inscribed with two characters — “Celestial Body!”

Upon seeing these characters, Ye Tian became curious.

But before he could explore this inheritance further, the spirit expressed surprise: “You actually obtained the Celestial Body inheritance; your luck is truly remarkable.

Among all the supreme inheritances, the Celestial Body inheritance may not be the highest in value to an individual, but it is undoubtedly the highest for a force or a race.

And this inheritance has always been here with me; the other three areas do not possess the Celestial Body inheritance.

Previously, there was also an Emperor-level individual who entered here, but unfortunately, he did not choose the Celestial Body inheritance and instead selected a more conventional supreme inheritance.

Compared to him, your luck is far too good!”

After hearing the spirit’s introduction, Ye Tian became immensely interested in the Celestial Body inheritance.

The spirit didn’t keep Ye Tian for long and let him go.

However, Ye Tian didn’t actually leave.

In fact, Supreme Mountain was also an excellent place for cultivation.

Many princes came here not just for inheritance but mostly for cultivation.

For instance, at the peak of Supreme Mountain, the dense primordial chaos energy was even slightly more concentrated than the chaos energy at the heart lake of a Supreme from before.

Cultivating in such a place would also aid Ye Tian in practicing the Chaos Body Refining Technique.

At this point, Ye Tian had already acquired many inheritances. With the time to leave the ruin world approaching, he felt no need to seek further inheritances elsewhere. He planned to cultivate and heal his injuries here, ready to leave the ruin world once he had sufficiently recovered.

But before focusing on healing and cultivation, Ye Tian examined the Celestial Body inheritance stone tablet at the peak of Supreme Mountain.

As soon as Ye Tian's consciousness touched the Celestial Body inheritance, he quickly understood what this inheritance entailed.

“To elevate one's race to the Celestial Race, rising as immortals!”

Ye Tian was astounded upon reading this introduction.

The Celestial Body inheritance was, in fact, an advanced supreme inheritance. Although the human race had progressed quickly, it still had a significant gap compared to many other races.

For instance, compared to the Immortal and Demon Races, there was a vast difference.

The Immortal and Demon Races had much longer lifespans, and beings of the same level had lifespans far exceeding those of the human race. Moreover, the Immortal and Demon Races found cultivation relatively easy, with inherently high cultivation talents, and lacked members with low cultivation talents.

In contrast, the human race as a whole was significantly behind, only rising to the status of a major cosmic race through sheer numbers and the emergence of Supremes.

But in reality, on an individual basis, humans were inferior to other cosmic races, not even on par with some of the higher cosmic races.

However, with the Celestial Body inheritance, that would change.

The Celestial Body inheritance could advance the entire human race.

Transforming the race into Celestials would still fundamentally make them human, but it would elevate them several levels.

Should the human race evolve into the Celestial Race, future generations would be born as Celestials, with higher talents and finding cultivation much easier. Anyone without extremely poor talent could cultivate to the God level and beyond.

By that time, the human race might even have the potential to surpass the Immortal and Demon Races.

Moreover, the first Celestial Race would possess astounding destiny, making their cultivation speed and Celestial qualifications the strongest among Celestials.

Without a doubt, Ye Tian naturally wanted to become the first of the Celestial Race.

Of course.

To become a Celestial, one must create a true Celestial Body Transformation Technique based on the human bloodline map combined with the core method of the Celestial inheritance.

Without that core method of the Celestial inheritance, it would be impossible to become a Celestial.

The Celestial inheritance stone tablet contained the core method of the Celestial inheritance. As long as this method was not lost, even if the Celestial Body Transformation Technique

created was stolen by other races, the impact would be minimal: because the technique created would only be suitable for humans and not for other races.

Next.

Ye Tian began to create the Celestial Body Transformation Technique for humans, combining his own bloodline map with the core method of the Celestial inheritance.

The creation process was not difficult, and with the environment accelerated by time, it took Ye Tian only three years, which, when converted to accelerated time, was merely 300 years.

“I’ve created it; this Celestial Body Transformation Technique shall be called the Human Celestial Art!”

After creating the Human Celestial Art, Ye Tian began to practice it.

The Human Celestial Art mainly targeted the transformation of bloodlines, influencing the entire body through the bloodline to transform it into a celestial body.

As the cultivation began, Ye Tian gradually remodeled his bloodline, refining it bit by bit, transforming it into a celestial bloodline.

Before long, Ye Tian’s body emitted rays of celestial light, and faint celestial patterns began to appear.

These celestial patterns, emerging within the flesh, were one of the hallmarks of the Celestial Race, similar to the divine patterns of the Immortal Race.

Boom! Accompanied by a strong surge, Ye Tian’s bloodline was completely transformed into a celestial bloodline.

Simultaneously, Ye Tian’s physical body also underwent significant changes.

Crackling sounds echoed as Ye Tian’s body, which had almost reached a bottleneck, transformed once again.

Not long after, Ye Tian's body transformation was complete. Not only did he become a celestial being, but his physical strength greatly increased, and his yuan force began to carry a trace of celestial essence. As long as he broke through to the God level, he would completely transform his yuan force into celestial force, rather than divine force.

"If my yuan force becomes celestial force, then the God level should be called the Celestial level. The True God level could be called the True Celestial level, and the Great God level could be called the Great Celestial level."

Ye Tian said with a smile.

However, the so-called level names were just labels and didn't really matter.

After becoming a celestial, Ye Tian found that all his lingering injuries had disappeared, and his condition was better than ever! Immediately, Ye Tian tried practicing the second set of movements of the Eighteen Golden Bodies Technique.

Just starting the practice, Ye Tian was shocked to find his progress incredibly fast.

Utilizing time acceleration, Ye Tian practiced for another year.

After a year, Ye Tian successfully perfected the second set of movements of the Eighteen Golden Bodies Technique.

"Previously, I was stuck in a bottleneck, struggling to perfect the second set of movements. I never expected that after transforming into a celestial, I would perfect the second set of movements of the Eighteen Golden Bodies Technique. Could it be that the creator of the Eighteen Golden Bodies Technique was a celestial? Previously, as a non-celestial, not only was my cultivation speed slow, but it was also difficult to perfect the second set of movements." Ye Tian speculated.

With the second set of movements of the Eighteen Golden Bodies Technique perfected, Ye Tian's strength surged. Combined with becoming a celestial, Ye Tian's combat power far exceeded his previous levels.

If he were to go through the Ten Calamities area again, it wouldn't be as strenuous.

Ye Tian then entered the Six Paths of Reincarnation Tower once more, but unfortunately, he couldn't learn the third set of movements.

The third set of movements could only be practiced by those above the God level, and Ye Tian, even as a celestial, couldn't break this restriction.

Over the next few years, Ye Tian focused on cultivating the Chaos Body Refining Technique, but he could never perfect the sixth layer of the technique.

Perfecting the sixth layer of the Chaos Body Refining Technique was exceedingly difficult, let alone the seventh layer.

However, Ye Tian's physical strength was not at all inferior to an Eternal prince who had perfected the seventh layer of the Chaos Body Refining Technique. After all, Ye Tian had perfected the two sets of movements of the Eighteen Golden Bodies Technique at the Emperor level, and his physical strength reached terrifying levels under the augmentation of the two sets of movements, naturally incomparable to ordinary Eternal princes.

According to Ye Tian's speculation, if he perfected the Chaos Body Refining Technique and created a peak-level Saber Dao ultimate technique, and elevated his time talent to the God level, he might become a Supreme Prince and break through the cosmic shackles.

"It's about time to leave!"

Ye Tian flew down from Supreme Mountain, but he didn't see any princes; most had already left the area.

After some time, Ye Tian flew to where he had first entered the ruin world.

According to the teachings of Instructor Xuan Yuan, the Children of the Universe were randomly transported to various parts of the ruin world, but those supreme beings could release a teleportation light to enter the ruin world and take away the Children of the Universe.

Thus, the locations of the teleportation light were basically where they had first entered the ruin world. If Ye Tian wanted to leave the ruin world, he naturally couldn't just wait anywhere; he had to go to where he was transported in.

“This is the place.”

Ye Tian looked at the familiar hillside, sat down cross-legged, and quietly waited for the arrival of the teleportation light.

One day.

The teleportation light descended, enveloping the area.

Ye Tian stood up, didn't resist the pull of the teleportation light, and was transported out with the light.

Chapter 536: Supreme Protection, Returning to Humanity

Outside the central black hole of the universe, the dominators and supremes of various cosmic races silently awaited the arrival of the princes.

With a thunderous roar, the hands of the supremes tore through the black hole, guiding the princes out one by one.

Quickly, a large number of Children of the Universe emerged from the black hole and were immediately moved by the supremes of various races to their respective camps.

Ye Tian also came out and was moved to the human race's area.

There, he saw Xuan Yuan and several other dominators.

Immediately, Ye Tian flew to Xuan Yuan and said, “Instructor Xuan Yuan, please notify the supremes right away. I have made a significant discovery that might provoke other cosmic races to act!”

“What kind of discovery?” Xuan Yuan asked in surprise.

Ye Tian whispered, “It’s a supreme heritage that can allow our human race to rival, even surpass, the Immortal Race. I obtained it by passing through the ten calamities of the Supreme Mountain, from the Ten Calamities Divine Hall.”

“What, you passed through the ten calamities of the Supreme Mountain?!” Xuan Yuan was utterly shocked.

As a dominator, he was well aware of the situation in the Supreme Mountain of the ruin world. Since the birth of the universe, only one Immortal from the Immortal Race had managed to pass through the ten calamities at the emperor level.

It was unthinkable that Ye Tian, with his previous strength, could have passed through the ten calamities. This only indicated that after entering the ruin world, Ye Tian’s strength had advanced by leaps and bounds, allowing him to reach this level due to numerous great opportunities.

“Alright, I’ll notify the Supremes immediately!” Xuan Yuan nodded.

He understood how precious Ye Tian’s great opportunity was. If the princes of the Immortal and Demon Races reported it, it wouldn’t be safe to assume that they wouldn’t take action.

For safety, the human race had to be extremely cautious.

Ye Tian didn’t know how many Supremes would come, and even if there was a confrontation at the supreme level, he, being at the emperor level, wouldn’t be able to participate.

All he could do was wait. As time passed, suddenly, powerful auras pressed down.

These were the Supremes’ auras pressing down. Although the dominators, such as Xuan Yuan, protected Ye Tian and the other princes, they were still somewhat overwhelmed.

“Human race, hand over the supreme heritage!” a figure from the Immortal Race demanded, his presence so commanding that the power of the black hole couldn’t spread.

He stood there, as if he were the lord of all gods.

“This is bad, it’s the Ninth Divine Lord from the Immortal Race!” Xuan Yuan’s complexion drastically changed.

The Immortal Race’s nine strongest supremes were named Divine Lords, ranked from strongest to weakest. Although the arrival was not the First Divine Lord, the Ninth Divine Lord was still much stronger than an average supreme.

Besides the Ninth Divine Lord, several other supremes from major cosmic races were pressuring the human race.

Faced with so many supremes from cosmic races, even if all human supremes arrived, they might not be able to resist. Just then, one of the human supremes appeared.

He stood in the void, holding a black skull, facing the many supremes.

“It’s the Curse Supreme!” Xuan Yuan exclaimed with joy.

“Do you really think you can rob our human race of the supreme heritage? Do you think we’re easy to bully?” the Curse Supreme said coldly.

Seeing the black skull in the Curse Supreme’s hand, the other supremes were extremely wary.

“You actually brought that thing!” the Ninth Divine Lord said, apprehensive.

“Hahaha, if I didn’t bring this, how could I dare confront you, the Ninth Divine Lord?” the Curse Supreme laughed, “In terms of strength, I’m indeed not your match. Even if all twelve supremes of our human race came, we couldn’t directly confront so many supremes here. So, I had to bring the skull of this cursed ancient beast. You could indeed withstand the skull of the cursed ancient beast, but in this region, all beings dominator level and below would perish!” The Curse Supreme threatened.

“Hmph, then all your dominators and everyone in your race will also die!” the Ninth Divine Lord said grimly.

“But if you push our human race too far, we have no choice but to do so. The supreme heritage was earned by our princes risking their lives. Why should we hand it over to you? The Immortal Race has the most supreme heritages in the entire universe, and your race is the strongest. The demonic race is not weak either. Why don’t you share your supreme heritages? If the Immortal and Demon Races hand over one supreme heritage, our human race is also willing to share one.” The Curse Supreme said.

Under the threat of the Curse Supreme and the skull of the cursed ancient beast, the supremes of the cosmic races wavered and soon retreated one by one, taking their dominators and princes with them, no longer intending to get involved.

They couldn’t afford the loss like the Immortal and Demon Races.

After some deliberation, the supremes of the Immortal and Demon Races ultimately chose to give up.

It was just one supreme heritage, and it was unclear what it was. If it turned out to be of no use to the Immortal Race and they suffered heavy losses, it wouldn’t be worth it.

Although the human race gained one more supreme heritage and might become stronger, converting the supreme heritage into strength would take a long time. Even if they fully assimilated that heritage, surpassing the Immortal Race would still be unlikely.

The Immortal Race truly considered the demonic race as their main opponent, not the so-called human race.

Therefore, to avoid losses, the Immortal Race chose to back down.

“Let’s go!” commanded the Ninth Divine Lord, ordering a retreat.

“Quickly, leave!” the Curse Supreme instructed Xuan Yuan and the others.

In an instant, Ye Tian and the others were arranged into a cosmic spaceship, which began flying towards the direction of a human star field, gradually leaving the central black hole region of the universe.

At a certain moment, the Curse Supreme waved his hand, bringing the cosmic spaceship into the world within his body, then used a concealment technique to change the route and hurried back to the human territory.

Simultaneously, other supremes of the human race came one after another to meet the Curse Supreme.

As expected, the Immortal Race subsequently sent several supremes to intercept the human team. Previously, the dominators and princes of the Immortal Race were present, so they dared not take action.

But now that the dominators and princes of the Immortal Race had left, several of their supremes naturally dared to pursue and kill the Curse Supreme.

However, the Curse Supreme had long since changed his route, and after several pursuits, they still couldn't catch up with the Curse Supreme.

The Curse Supreme and the several supremes escorting him safely arrived in the human territory and then released the cosmic spaceship.

Inside the cosmic spaceship, Ye Tian and the others were completely unaware that they had been taken into the world within the Curse Supreme's body, thinking they were still flying through the universe.

Back at the Supreme Hall of Humanity, before Ye Tian could properly rest, he was notified by the Divine Lord Dantai that Kunwu Supreme, one of the human supremes, wanted to see him.

Through Divine Lord Dantai, Ye Tian learned a bit about the human supremes.

In fact, not all human supremes managed the Supreme Hall of Humanity. Each supreme had their own forces, and the Supreme Hall of Humanity was merely a training institution established jointly by the human supremes and top beings. Only three supremes truly presided over the Supreme Hall of Humanity.

One of them is the Curse Supreme, and Kunwu Supreme is also one of them.

Kunwu Supreme's strength is regarded as the second strongest among the human race, even stronger than the Curse Supreme.

In the Supreme Hall of Humanity, within the Kunwu Palace, Ye Tian arrived under the guidance of Divine Lord Dantai and met Kunwu Supreme.

This was Ye Tian's first time being so close to a supreme. Although he had seen the Curse Supreme before, the distance was too far, and he could only sense a shadow.

Kunwu Supreme appeared as a middle-aged man. In reality, with the supremes' realm, changing into a young appearance would be very simple, but many powerful beings preferred to appear as middle-aged or even elderly individuals for a more imposing presence.

Upon seeing Kunwu Supreme for the first time, Ye Tian activated his copying talent and checked Kunwu Supreme's talent situation.

Human: Chen Kun

Cultivation Talent: Mixed

Strength Talent: God-level

Speed Talent: God-level

Defense Talent: God-level

Gravity Talent: God-level

Boxing Talent: Supreme

Earth Spike Talent: God-level

“Indeed, all supremes have mixed cultivation talents. Let’s copy it!”

In an instant, Ye Tian copied Kunwu Supreme’s mixed cultivation talent, meaning that Ye Tian only needed to copy one more mixed cultivation talent to raise his cultivation talent above the mixed level.

“Greetings, Kunwu Supreme!” Ye Tian said respectfully.

“Dantai, you can leave us for now!” Kunwu Supreme waved his hand, dismissing Divine Lord Dantai.

After Divine Lord Dantai left, Ye Tian noticed several other supremes appearing in the great hall.

They were the Curse Supreme and another supreme of the Supreme Hall of Humanity—Qing Emperor Supreme. “These two are the Curse Supreme and Qing Emperor Supreme!” introduced Kunwu Supreme.

Ye Tian greeted the two supremes and then waited for Kunwu Supreme to speak.

“Ye Tian, I heard you passed through the ten calamities of the Supreme Mountain and obtained a supreme heritage. May I know what it is?” Kunwu Supreme asked.

Ye Tian replied, “The three supremes can take a look at the current situation of my body and bloodline, and you’ll understand!”

Upon hearing this, the three supremes used their divine senses to inspect Ye Tian’s body, focusing on his bloodline.

To their surprise,

“Your bloodline is not that of the human race, no, it’s a new bloodline evolved from the human race’s bloodline, stronger than the human race’s bloodline. Could your heritage be related to bloodlines?” Kunwu Supreme asked.

Ye Tian explained, “The heritage I obtained is called the Celestial Body Heritage, which can transform a race into immortals. Eventually, our human race can become a celestial race, potentially even more terrifying in potential than the Immortal Race. Everyone will have the chance to become a being above the God level, completely raising the human race from the aspects of bloodline and potential!”

“What, turning the entire human race into celestials!!!” Kunwu Supreme was shocked.

As a supreme, he was somewhat aware of the situation in the previous universe and had heard of a very powerful civilization known as the Celestial Civilization.

He had thought that the Celestial Civilization was innate, just like the Immortal and Demon Races, but he had never imagined that the Celestial Civilization could be evolved.

Chapter 537: Supreme-Level Talent in Talent Refinement!

“Supremes, this is the Celestial Body Inheritance Stele!”

Ye Tian brought out the Immortal Body Inheritance Stele for the three Supremes to inspect.

He had no intention of monopolizing the Immortal Body Inheritance Stele. After all, he had already transformed into an immortal body, making the stele somewhat redundant for him. However, for the entire Human Race, the significance of this stele was beyond imagination.

Moreover, only the Supremes could transform the Human Race into immortals at a rapid pace.

After inspecting the Immortal Body Inheritance Stele, the Supremes instantly recognized the truth in Ye Tian’s words.

“Ye Tian, would you consider leaving the Immortal Body Inheritance Stele in the Supreme Hall of Humanity? The Hall will compensate you, and we will do our utmost to meet any of your demands,” promised Kunwu Supreme.

“Agreed!” Ye Tian nodded.

Then, he added, “Supremes, I’ve also obtained many other inheritances, which I’d like to entrust to the Supreme Hall of Humanity as well.”

Subsequently, Ye Tian presented each inheritance to the Supremes. Although these inheritances paled in comparison to the Immortal Body Inheritance, they were indispensable and significantly beneficial for the development of the Human Race. For instance, the top-tier inheritance of the Ten Thousand Swords Sect, the Three Thousand Swords Technique, held immense value.

Suddenly, Ye Tian spoke again, “Supremes, this time I’ve also obtained a supreme treasure!”

“What, you’ve found a supreme treasure?” The three Supremes were shocked.

“Ye Tian, are you aware of how precious a supreme treasure is? Such claims should not be made lightly,” Kunwu Supreme hastily advised.

“It’s true. However, the majority of the treasure’s origin is dormant. Additionally, I’ve acquired an astonishing inheritance from this supreme treasure, which was instrumental in helping me overcome the Ten Tribulations,” Ye Tian explained, revealing the Eighteen Golden Bodies Technique inheritance.

In truth, he could have kept this information to himself. Given his power, he was incapable of fully reviving the supreme treasure, the Six Paths Reincarnation Pagoda. Only with the Human Race’s assistance could the tower be revived. He could also utilize the Six Paths Reincarnation Pagoda to undergo repeated cycles of reincarnation for training.

Moreover, by contributing the supreme treasure, the Human Race would not shortchange him and would not restrict his use of the Six Paths Reincarnation Pagoda.

All things considered, handing over the Six Paths Reincarnation Pagoda to the Human Race was entirely beneficial.

Following this, Ye Tian presented the Six Paths Reincarnation Pagoda.

Upon inspection, the Supremes confirmed the level of the Six Paths Reincarnation Pagoda. It indeed qualified as a supreme treasure, though most of its origin was dormant, diminishing its formidable presence.

“So, it’s the Eighteen Golden Bodies Technique from the Six Paths Temple. Actually, our Human Race previously obtained a fragmentary special movement secret technique, very similar to the Eighteen Golden Bodies Technique, but only the latter half, making it impossible to refine.

Ye Tian, your contribution of the Eighteen Golden Bodies Technique and the Six Paths Reincarnation Pagoda is immensely helpful to the Human Race!” Kunwu Supreme exclaimed, momentarily unsure how to reward Ye Tian. After all, the value of the Immortal Body Inheritance, the Six Paths Reincarnation Pagoda, and the Eighteen Golden Bodies Technique was immeasurable.

After a brief consultation, the three Supremes made a decision.

“Ye Tian, the value of your contributions is significant, and we’re unsure how to appropriately reward you.

Thus, from now on, if you wish to purchase resources from the Supreme Hall of Humanity, you’ll only need to pay half the usual points.

Additionally, your permissions will be elevated to the same level as a Universal God, allowing you access to numerous secrets.

You will also have free access to the Six Paths Reincarnation Pagoda without any cost.

Furthermore, the Supreme Hall of Humanity will assign you one Dominator-level guard and ten Universal God-level guards.

This is the highest level of protection the Supreme Hall of Humanity offers. Even princely figures from the heavenly regions do not receive such treatment.

If you have any other requests, feel free to discuss them with us,” Kunwu Supreme offered.

Ye Tian pondered for a moment. The terms provided by the three Supremes were indeed generous, especially the provision of a Dominator-level guard, an exceptionally high honor.

A Dominator was among the upper echelons of the Human Race. Having a high-ranking human as his guard was enough to evoke envy and jealousy among countless princes.

“Supremes, I possess a Mystic-level talent in time. I wonder if our Human Race has anyone with a God-level talent in time, as I wish to seek their guidance on advancing my talent in time,” Ye Tian inquired.

“Mystic-level talent in time!” The Supremes were slightly surprised.

Then, Kunwu Supreme responded, “In the universe, individuals with God-level talent in time are exceedingly rare. After reaching the God level, one’s talent is usually fixed, making further advancement difficult.

However, if it’s about refining cultivation talents or other talents, our Human Race could pay a certain price to elevate your talent.

But time and space talents are considered the two supreme talents, making them extremely challenging to enhance.

We do not have anyone with God-level talent in time. However, I know a Supreme with God-level talent in time, and our relationship is quite good. We could pay a price for his guidance on your cultivation in time, but it might not be very effective. After all, if advancing time talent were easy, there wouldn’t be so few individuals with God-level talent in time in the universe!”

“Who is the Supreme with God-level talent in time that the Supremes mentioned?” Ye Tian asked curiously.

“It’s an Innate Divine Spirit!” Kunwu Supreme revealed.

“Innate Divine Spirit!” Ye Tian was aware of such divine spirits. They weren’t born in the usual sense but were nurtured by the heavens and earth, possessing God-level strength or higher right from the outset.

Some of the most outstanding among them were comparable to Universal Gods at birth, incredibly formidable. For example, the Ancestor Dragon of the Dragon Race was an Innate Divine Spirit who later, based on its bloodline, developed the Dragon Race, leading to the widespread proliferation of the Dragon Race and its bloodline across numerous star fields, even establishing the Dragon Race as a higher race.

In the universe, Innate Divine Spirits were exceedingly rare and difficult to give birth to. However, most Innate Divine Spirits held terrifying potential, but typically there was only one of their kind in existence, like the Ancestor Dragon of the Dragon Race, which was a rare exception.

“Supremes, during my journey into the ruin world, I also acquired a mysterious black lotus, but its purpose is unclear to me. Do any of you recognize it?” Ye Tian inquired.

“Where is it?” asked Kunwu Supreme.

“It’s still within the Six Paths Reincarnation Pagoda!” Ye Tian indicated towards the tower.

The three Supremes, along with Ye Tian, entered the Six Paths Reincarnation Pagoda and observed the mysterious black lotus suspended in the void on one of the tower’s levels.

Upon seeing the black lotus, the Supremes frowned slightly.

Suddenly, Curse Supreme suggested, “Could this item be from Chaos?”

“It should be!” Kunwu Supreme agreed. “Such an object couldn’t have originated from our universe; it must be from Chaos. Its value is no less than that of a supreme treasure. This object is entirely composed of chaotic energy and contains intense chaotic laws. However, to refine this black lotus, at least the power of a Universal God is required. Moreover, most Universal Gods, and even Dominators, would not be able to refine it; only beings with a chaotic constitution could.”

“Ye Tian, we can help seal this black lotus within your body, allowing you to enter and refine it at any time. It should speed up your cultivation of the Chaos Body Refining Technique. You might even gain insights from the chaotic laws contained within the lotus. Remember, do not

reveal the existence of this black lotus to anyone else, or else beings with a chaotic constitution in the universe might covet it!” Kunwu Supreme advised.

“Thank you, Supremes!” Ye Tian expressed his gratitude.

Immediately, the three Supremes took action and sealed the black lotus on Ye Tian’s wrist.

In an instant, the sealing was successful, and a black lotus mark appeared on his wrist.

The Supremes were indeed interested in studying the black lotus, but Ye Tian had already contributed so much. Since the black lotus was not an inheritance item and wasn’t of significant help to the Human Race, they naturally felt it inappropriate to ask for it, as it would be excessive.

“You should return and rest for now. We need to communicate with the Innate Divine Spirit before we can arrange for his assistance in refining your talent in time!” Kunwu Supreme stated calmly.

“Understood!” Ye Tian nodded and left the Kunwu Palace.

Returning to the Supreme Hall of Humanity’s Yellow Region, to the Bi Bo Lake’s Cultivation Tower, Ye Tian began preparing to integrate the Mixed-level cultivation talent. Originally, he had only copied one Mixed-level cultivation talent, but with the arrival of two more Supremes, he naturally copied their cultivation talents as well.

Now, having replicated three Mixed-level cultivation talents, he could elevate his own Mixed-level cultivation talent to a new level.

“Integrate!” Ye Tian began the integration of the first Mixed-level cultivation talent, quickly completing it, and then moved on to the second.

After half an hour, enduring the intense pain of integration, Ye Tian finally elevated his cultivation talent by one level.

[Cultivation Talent: Supreme-Level]

“Supreme-Level cultivation talent, so above the Mixed-level is the Supreme-Level. I wonder if, besides myself, there’s anyone else in the universe with Supreme-Level cultivation talent!” Ye Tian mused curiously.

With his cultivation talent elevated to the Supreme-Level, Ye Tian’s speed of cultivation reached an unimaginable level. Once he ascended above the God level, he estimated that he could quickly advance his cultivation to the ninth tier of the God level.

“My next goal is to elevate my time talent to the God level, refine the Chaos Body Refining Technique to the seventh layer’s Perfected Realm, and enhance the Ultimate Saber Technique to the peak level. Hopefully, I can break through the cosmic shackles and become a Supreme-Level Prince. Then, I can confidently attempt to break through to the God level realm!”

Ye Tian looked forward with anticipation.

In the blink of an eye, half a month passed.

One day, a Dominator and ten Universal Gods appeared at Ye Tian’s Cultivation Tower.

Chapter 538: The Spear of Time!

This Dominator, along with those ten Universal Gods, were assigned by the Supreme Hall of Humanity as guards for Ye Tian.

“Greetings, Prince of Ten Thousand Laws!”

Upon seeing Ye Tian emerge, the Dominator and the ten Universal Gods all paid their respects.

Ye Tian exchanged a few words with the Dominator and the ten Universal Gods and learned about their backgrounds.

The Dominator was known as Dominator Dark, one of the high-ranking humans, but his status was definitely not as high as that of the Dominator Xuan Yuan. He must be one of the more ordinary Dominators, otherwise, he wouldn't have been sent to guard Ye Tian.

The ten Universal Gods were part of the Supreme Hall of Humanity's guard team, responsible for maintaining the order of the Supreme Hall of Humanity. Their status was only second to the Hall Enforcers of the Yellow Region.

Even though a new group of guards had been assigned, the original group wasn't removed. Ye Tian ordered them to guard Earth in the Milky Way, to prevent any issues from arising there.

Although Dominator Dark and the ten Universal Gods had become Ye Tian's guards, they were free to continue their cultivation as usual.

They would only follow Ye Tian when he left the Supreme Hall of Humanity.

During this time, Ye Tian mostly cultivated within the mysterious black lotus, to which he had given the name Chaos Black Lotus.

Cultivating within the Chaos Black Lotus proved to be extremely beneficial, especially for his cultivation of the Chaos Body Refining Technique. After becoming a member of the Celestial Race and coupled with his supreme cultivation talent, his cultivation speed had increased manyfold.

According to Ye Tian's calculations, with the help of a hundredfold time acceleration, he hoped to perfect the sixth level of the Chaos Body Refining Technique within a hundred years.

By then, he would be ready to challenge the seventh and highest level of the Chaos Body Refining Technique.

A few days passed.

Dominator Dark informed Ye Tian that Kunwu Supreme was looking for him.

"Dark Dominator, please take me to Kunwu Supreme," Ye Tian said.

“Alright!”

Dominator Dark nodded and led Ye Tian to the Kunwu Palace.

Upon seeing Ye Tian, Kunwu Supreme immediately asked Dominator Dark to leave.

In the great hall, it was just Kunwu Supreme and Ye Tian.

“Ye Tian, I have called you here for two matters. The first is about the God-level time talent. After communicating with the innate spirit, he has agreed to guide you for a while and will allow you to enter a secret time realm to comprehend the laws of time.

The second matter is about the evolution of the Human Race towards becoming a Celestial Race. The plan is about to start, but we can’t proceed on a large scale at the beginning, as it would cause too much disturbance and attract the attention of other major cosmic races.

Therefore, we have decided to conduct pilot tests in some areas. After discussions among us Supremes, your hometown has been chosen as one of these pilot areas.

You will be in charge of this. What do you think?” Kunwu Supreme explained.

“I agree,” Ye Tian nodded in response.

“Good. I’ll take you to meet that innate spirit. His name is Cang Yu, the Lord of the Cang Yu Realm. He was born in the Cang Yu Realm and now governs it, having opened countless small worlds around it. He is also the master of the Cang Yu Thousand Worlds,” Kunwu Supreme detailed.

Ye Tian listened attentively, nodding continuously.

With a wave of Kunwu Supreme’s hand, the void transformed, and in the blink of an eye, Ye Tian was taken by him out of the Supreme Hall of Humanity, traversing through various star fields.

A Supreme's speed was incredibly fast, comparable to that of a nine-star cosmic spaceship, and even faster than most.

A day later, Ye Tian had left the human star field and arrived in a quiet part of space.

Soon, points of light appeared in the space, gathering into a dense cluster like a sphere of light.

As they approached, Ye Tian realized these points of light were worlds, with the largest one in the center being the Cang Yu Realm.

Before they could get close to the Cang Yu Realm, laughter echoed.

"Haha, Kunwu Supreme, you've arrived!"

A figure, towering tens of thousands of feet tall, appeared before Kunwu Supreme, facing him.

This was Lord Cang Yu!

"Lord Cang Yu, this is the Prince of Ten Thousand Laws from our Human Race," Kunwu Supreme introduced.

Lord Cang Yu looked at Ye Tian and commented, "Not bad, he has the potential to become a Supreme in the future!"

"Greetings, Lord Cang Yu!" Ye Tian bowed respectfully.

"Little guy, let's go. I will guide you for ten years. Whether you can gain anything depends on your luck!" Lord Cang Yu said with a smile.

"Lord Cang Yu, I'll leave this young one in your care!" Kunwu Supreme entrusted.

Ye Tian followed Lord Cang Yu into the Cang Yu Realm, while Kunwu Supreme temporarily departed.

In the Cang Yu Realm, Lord Cang Yu led Ye Tian into his palace.

There were no guards here, just Lord Cang Yu living alone in this vast palace.

At this time, Ye Tian's focus wasn't on the surroundings but on Lord Cang Yu himself.

Upon approaching Lord Cang Yu, Ye Tian checked his talents and found a God-level time talent among them.

Immediately, Ye Tian copied Lord Cang Yu's God-level time talent.

After copying the God-level time talent, Ye Tian felt much relieved, as his mission this time was essentially completed.

Of course, he also wanted to thoroughly understand the time talent and the laws of time from Lord Cang Yu.

After all, when it came to the understanding of the laws of time, Lord Cang Yu undoubtedly far surpassed him.

In the following days, Lord Cang Yu indeed spared no effort in guiding Ye Tian, sharing knowledge about the laws of time and instructing him on how to comprehend the laws of time.

If one could comprehend the essence of the laws of time, there was a hope to elevate the Mystic-level time talent to God-level. Or, by absorbing the origin of a Time Origin Artifact, one could also raise their time talent to God-level.

However, Time Origin Artifacts were extremely rare, and it was estimated that even the Human Race did not possess any.

Even if Lord Cang Yu possessed such an artifact, he would not let Ye Tian absorb its origin.

Ye Tian did not immediately integrate the God-level time talent because Lord Cang Yu frequently examined his use of the power of time. If he were to integrate the God-level time talent, no matter how well he hid it, he would not be able to deceive Lord Cang Yu.

Thus, Ye Tian planned to integrate the God-level time talent after leaving the Cang Yu Realm and returning to the Supreme Hall of Humanity.

Time passed by.

At Lord Cang Yu's place, Ye Tian gained a lot of knowledge about time.

Especially when he learned that the time talent could eventually reverse time and space to resurrect creatures that had died in the past, Ye Tian was truly shocked.

Reversing time and space was an astonishing divine ability related to time. One must reach God-level in time talent and possess a Supreme's cultivation level to master this divine ability. Otherwise, forcibly using this divine ability to reverse time and space would result in a backlash from the universe, leading to severe injuries if not death.

With this information, combined with the situation of Lord Cang Yu, Ye Tian speculated boldly.

Lord Cang Yu should be capable of using the divine ability to reverse time and space, able to resurrect creatures that had died in the past.

Of course, such a resurrection came at a cost, and the higher the cultivation level of the resurrected person, the greater the cost.

With this knowledge, Ye Tian became even more enthusiastic about researching time.

One day, Lord Cang Yu brought over a divine ability, "This is a time-related divine ability that the Supreme Hall of Humanity asked me to pass on to you. Your time talent has reached the Mystic level, allowing you to cultivate time-related divine abilities. If you can master a time-related divine ability, it will also be very helpful for your study of the laws of time."

Ye Tian took the divine ability and carefully went through it.

"The Spear of Time!"

This divine ability was extremely terrifying. For Emperors, it was a disaster, and even for God-level powerhouses, it was extremely frightening.

Once the Spear of Time was mastered, even at the entry level, if it hit the enemy, it could take away 200 years of the enemy's lifespan and also obliterate their vitality.

Of course, if the Spear of Time was only at the entry level, it could only be used three times a day.

But if one could cultivate the Spear of Time to the major realm, it could take away up to 300 years of the enemy's lifespan, and it could be used ten times a day.

That meant Ye Tian could take away a total of 3,000 years of lifespan from his enemies in a day. Most of the God-level powerhouses in the Human Race only had a lifespan of about 10,000 years. Facing Ye Tian's Spear of Time, they would definitely die from the depletion of their lifespan.

Next, Ye Tian began to seriously cultivate the Spear of Time. This time, the Supreme Hall of Humanity also sent materials to assist in the cultivation of the Spear of Time – Time Grains. With the Time Grains and the guidance of Lord Cang Yu, along with Ye Tian's own understanding and talent, it didn't take long for him to successfully master the divine ability of the Spear of Time.

In the blink of an eye, Ye Tian had been in the Cang Yu Realm for nine years, with only one year left before he had to leave.

One day, Lord Cang Yu took Ye Tian to a time-related secret realm – the Eternal Sand Realm! Boom! The void rippled, and Ye Tian found himself in a secret world full of deserts.

The power of time here was very unstable, with the forces of time laws appearing in the void.

"The time here is unstable, and the laws of time are manifest. You can use this opportunity to comprehend the laws of time. After a year, I will take you away!" Lord Cang Yu said before leaving.

Not long after Lord Cang Yu left, Ye Tian could no longer hold back and immediately began to integrate the God-level time talent.

“Integrate!” Ye Tian thought to himself, starting the integration process.

Soon, his time talent began to transform.

Chapter 539: The Earth Celestial Race Pilot Project!

Half an hour later, Ye Tian had finally completed the transformation of his time talent, successfully elevating it by a tier.

[Time Talent: God Level]

Gazing at his now God Level time talent, Ye Tian felt very pleased.

At this moment, all twelve of Ye Tian’s attributes had reached the God level, signifying that he could now cultivate the Chaos Body Refining Technique to the highest possible realm, the seventh stage. Otherwise, he would have been confined to the perfection of the sixth stage for life.

Suddenly, Ye Tian’s physical body began to undergo changes. Strands of chaos principles started to integrate with his body, remodeling it.

“This is...”

Ye Tian considered a possibility.

At this time, his body was probably transforming into a Holy Chaos Body. Once all twelve attributes reached the God level, his body would transform into a Holy Chaos Body. Ye Tian’s time talent had not reached the God level before, so it had not transformed into a Holy Chaos Body.

Now that Ye Tian's time talent had finally been elevated to the God level, the transformation could take place.

Once Ye Tian transformed into a Holy Chaos Body, and coupled with his Celestial Body, it would be equivalent to becoming a Chaos Celestial Body, which among the many physiques in the universe, would definitely be one of the most heaven-defying.

As time slowly passed, Ye Tian's body was rapidly transforming.

Ten days later, Ye Tian's transformation was complete.

At this point, he had truly become a Chaos Celestial Body, with every cell containing the essence of chaos principles.

And because he had become a Chaos Celestial Body, Ye Tian's physical strength had also increased slightly, making a small progress in his overall power.

In the following time, Ye Tian focused on comprehending the Spear of Time divine ability.

With his time talent elevated to the God level, Ye Tian could fully comprehend the Spear of Time to the perfected realm. However, comprehending a divine ability of time to the perfected realm was quite difficult.

Suddenly, Ye Tian took out a crystal, which was the time wondrous object he had obtained before.

This time wondrous object had some effects on comprehending profundities, but the effects were not significant, so Ye Tian had not utilized this time wondrous object much to enhance his comprehension of profundities.

But that did not mean this time wondrous object was not of great use. This time wondrous object was very mysterious, capable of granting a race with time talents, which was incredible.

Ye Tian had reviewed many secrets and was aware of the content regarding time wondrous objects. However, a time wondrous object that could endow an entire race with time talents simply did not exist, at least it was not mentioned in those time knowledge.

Therefore, this time wondrous object was extraordinary! In the past, Ye Tian had examined this time wondrous object multiple times without much discovery.

This time, Ye Tian held the time wondrous object again, attempting to utilize it to comprehend the Spear of Time divine ability.

Ye Tian held the time wondrous object in both hands, silently commencing his comprehension.

With the assistance of the time wondrous object and the time secret realm, Ye Tian's speed of comprehending the Spear of Time was very fast.

Suddenly, a strong fluctuation surged into Ye Tian's perception, and following this fluctuation, his perception abruptly entered into a void.

Boom!!! A powerful surge of time essence emerged, appearing within Ye Tian's perception.

"This is..."

Ye Tian instantly came back to his senses, opening his eyes and looking at the time wondrous object in his hands.

He realized that he had just been attracted into the internal void of the time wondrous object by its fluctuation, sensing the existence of the time essence.

"Indeed, this time wondrous object is no ordinary item.

The reason I couldn't sense the special nature of the time wondrous object before was due to the low level of my time talent.

Now that my time talent has been elevated to the God level, I've sensed the extraordinariness of the time wondrous object!" Ye Tian thought.

Immediately, Ye Tian used his God level time talent to manipulate the power of time, extending it into the time wondrous object.

Soon, Ye Tian sensed the existence of the time essence again.

“Time Origin Artifact, no, it should be a semi-finished Time Origin Artifact!” Ye Tian realized.

In the universe, some wondrous objects could evolve into Origin Artifacts over a long and arduous process, but this process was extremely lengthy and the success rate was very low.

Normally, wondrous objects couldn’t evolve into Origin Artifacts.

However, once a wondrous object gives birth to the essence of a principle within it, it gradually advances towards the essence of an Origin Artifact. Such wondrous objects are known as semi-finished Origin Artifacts.

But semi-finished Origin Artifacts were too rare, and Ye Tian was unaware of this time wondrous object’s situation.

“This time wondrous object turned out to be a semi-finished Time Origin Artifact, its value far exceeds that of a mere wondrous object!” Ye Tian was thrilled, this was undoubtedly a pleasant surprise.

He could now completely absorb the time essence within the time wondrous object, which would be enough to elevate the Spear of Time divine ability to the perfected realm in a short period.

However, doing so would render this semi-finished Time Origin Artifact useless.

After some thought, Ye Tian decided to continue utilizing it. Moreover, if this time wondrous object continued to be nurtured, perhaps finding some way to accelerate its nurturing, maybe this time wondrous object could become a Time Origin Artifact in the future.

In the days that followed, Ye Tian, with the aid of this semi-finished Time Origin Artifact and the effects of the time secret realm, continued to comprehend the Spear of Time.

Occasionally, he also practiced the use of temporal power.

Thus, Ye Tian cultivated in the time secret realm for an entire year.

On this day.

Ye Tian was brought out of the time secret realm by Lord Cang Yu, and by then, he had successfully cultivated the Spear of Time divine ability to the major realm, which was his current limit.

He wanted to cultivate the Spear of Time to the perfected realm, but that would require a long time, or perhaps encountering other significant opportunities that could aid in the cultivation of the Spear of Time, which might allow him to cultivate the Spear of Time to the perfected realm within a short number of years.

The Spear of Time at the major realm was also very powerful, capable of reducing an enemy's lifespan by 260 years, and could be used eight times within a day.

For Ye Tian, the Spear of Time at the major realm was sufficient.

Outside the Cang Yu Realm.

Just as Ye Tian was brought out by Lord Cang Yu, Kunwu Supreme appeared.

Kunwu Supreme fixed his gaze on Ye Tian and, seeing that Ye Tian had become a Holy Chaos Body, was incredibly surprised.

“Lord Cang Yu, it seems your guidance was very useful, indeed successfully helping Ye Tian elevate his time talent to the God level, thank you!”

Kunwu Supreme expressed his gratitude.

At this time, Lord Cang Yu felt somewhat awkward. In fact, he felt that Ye Tian had little hope of elevating his Mystic-level time talent to the God level because the process was too difficult! He had managed to do so initially because of a great opportunity, which was not replicable.

But he had never expected Ye Tian to elevate his time talent to the God level in the time secret realm, which was completely beyond his expectation.

“Kunwu Supreme, Ye Tian’s talent is heaven-defying, and it’s all the result of his own efforts.” Lord Cang Yu said indifferently.

The two did not chat for long before Kunwu Supreme took Ye Tian away.

Back at the Supreme Hall of Humanity.

Kunwu Supreme then brought up the issue of the Human Race’s evolution into the Celestial Race with Ye Tian.

“Ye Tian, the plan for the Human Race to evolve into the Celestial Race has already begun, with some trials officially underway, though done very covertly.

The plan for the transformation of Earth’s humans into the Celestial Race will be executed by you. When the time comes, we will completely seal off the area around Earth. Before the first step of the plan is completed, Earth will not be open to the outside, to prevent any leaks. This time, you will go to Earth to execute this plan.” Kunwu Supreme said.

“Alright, when should I go?” Ye Tian asked.

“You can go at any time. Your mission time is 100 years. It’s best to transform all of Earth’s humans into the Celestial Race within 100 years, understand?”

Kunwu Supreme issued the mission objective.

“Understood!” Ye Tian nodded.

This trial was just a small pilot, not very difficult. In a hundred years, many ordinary humans would have died, and the cultivators, after transforming into the Celestial Race, would have offspring that are all of the Celestial Race.

Just through 100 years of the pilot, all humans on Earth could absolutely become the Celestial Race.

Ye Tian used points in the Supreme Hall of Humanity to purchase some resources and then left the Supreme Hall of Humanity.

This time, Dominator Dark and ten Universal Gods accompanied him.

With the Dominator Dark as the escort, Ye Tian did not need to go through the teleportation gates and directly had Dominator Dark's spaceship carry him and the other Universal Gods to the Pan Star Field.

A few days later, they arrived on Earth.

Empress Yue was cultivating when suddenly a voice came.

"Yue'er, I'm back!"

Empress Yue opened her eyes and flew out, only to see a figure suddenly appearing in front of her, which was Ye Tian.

"My Husband!" Empress Yue was very surprised.

The two embraced on the spot.

Then, Empress Yue noticed the eleven guards behind Ye Tian.

She didn't know these people were Universal Gods and a Dominator; otherwise, she would have been extremely shocked.

"Let's go back first!"

Ye Tian took Empress Yue's hand and returned to the Tian Pavilion, while Dominator Dark and others hid in the depths of the void and did not follow Ye Tian.

They only needed to ensure that Earth was not disturbed, and Ye Tian's safety would not be a problem.

Inside the Tian Pavilion.

Ye Tian explained the matter of the Celestial Race to Empress Yue, who was immensely surprised after hearing it.

"My lord, many of Earth's humans have gone to other areas of the star field. Should we call them back?" Empress Yue asked.

"Yes, all Earth's humans who can be contacted should be gathered back. If they can't be gathered back, they won't be able to participate in this pilot and will have to wait for the later widespread implementation." Ye Tian said.

"Alright, then I'll arrange it and summon all Earth disciples from the various branches of the Tian Pavilion!" Empress Yue said.

In the days that followed, Earth's humans scattered throughout the star field were notified to return to Earth at all costs, abandoning all their foundations in the outside world.

Most of Earth's humans returned, but some did not want to return to Earth, that small place, and ignored these notices.

In the blink of an eye, a year passed.

Chapter 540: The Solar System Blockade, The Rise of Earth!

After a year, all the humans from Earth who were meant to return had done so. Those who hadn't returned were no longer waited for by Ye Tian.

Since these individuals chose not to return, they missed the chance to become among the first batch of immortals. Falling behind step by step, they had no one to blame but Ye Tian.

“Dominator Dark, blockade the solar system. Allow no beings to leave or enter the solar system!” Ye Tian commanded.

“Understood!” Dominator Dark nodded.

Instantly, he began to exert a tremendous force on the solar system.

Boom! The entire solar system was sealed off by an immensely powerful force, losing all contact with the outside world. This sealing force reached the level of a Dominator, making it extremely difficult for even the Undying Legion Lord from the Pan Star Field to break through and enter the solar system.

The solar system’s teleportation arrays were connected to many other star systems, especially since the solar system had become famous due to the emergence of Ye Tian, a Child of the Universe. Many people often wanted to travel to the solar system.

However, to the shock of many, the teleportation arrays could no longer access the solar system.

All teleportation arrays had become ineffective and could not transport anyone into the solar system.

To investigate the situation, a God-level powerhouse crossed the spatial turbulence to enter the solar system, attempting to understand what had happened, but found himself completely unable to locate the solar system.

The solar system had vanished! This news quickly spread throughout the entire galaxy, and considering the prior message from Earth calling all humans to return at all costs, there was undoubtedly some connection between the two events.

Earth.

The faces of some God-level powerhouses slightly changed. They had just rushed back from other parts of the galaxy.

But shortly after their return, they found themselves unable to contact the outside world.

Some communication devices capable of spanning star systems had become ineffective.

Immediately.

Some God-level powerhouses tried to use the teleportation arrays to leave the solar system, but they found they were unable to do so.

Subsequently, many powerhouses realized that Earth had been blockaded, and they could no longer leave the solar system.

Without delay, these God-level powerhouses, along with a multitude of Emperor-level beings, headed to the Zhonghai Super Base.

The Zhonghai Super Base had grown many times more magnificent than before, filled with splendid buildings.

The territory of the Tian Pavilion was even larger, resembling a colossal divine palace.

These God-level and Emperor-level beings gathered outside the Tian Pavilion, waiting for a response.

They were well aware that everything was related to the Tian Pavilion, as it was the Tian Pavilion that had summoned them back. If it wasn't related to the Tian Pavilion, that would be surprising!

"Moon Goddess Xiao Yue, please come out and speak. Why has the solar system been blockaded?"

"What exactly happened? We need an explanation!"

Faced with the questioning of so many powerhouses, Ye Yu and Ye Tian's wife, Empress Yue, now the Moon Goddess Xiao Yue, came forward.

Xiao Yue's gaze was firm as she exuded the formidable aura of a ninth-tier God, silencing the entire crowd.

“Silence!” Xiao Yue’s command made all the martial warriors dare not speak further.

Xiao Yue had risen from being a Heavenly Pride, and with the numerous God-level talents Ye Tian had fused into her, her combat power was terrifying. Even ninth-tier God-level beings of the same level were mere ants before her, and even some True Gods were no match for her.

Thus, these God-level powerhouses dared not cause trouble in front of Xiao Yue.

Moreover, behind Xiao Yue was an even more fearsome existence—Ye Tian!

“I know you all are very puzzled about the blockade of the solar system. I will tell you now that the blockade was enacted by the human high command, and we at the Tian Pavilion only learned of it recently.

As for the reason behind the blockade, I want to tell you that this is a great opportunity, a grand boon bestowed by my husband.

You should be well aware that our human overall talents are lacking, even far inferior to the Dragon Race, where purebred dragons can become God-level powerhouses upon reaching adulthood.

What I’m telling you is that now, each of you holds the potential to surpass the Dragon Race, and every one of you has the hope of becoming a God.

The entire Human Race on Earth will become a very powerful race, known as the Celestial Race,” Xiao Yue explained.

Celestial Race! This term caused a stir among the crowd.

Following that, Xiao Yue explained the concept of the Celestial Race, leaving everyone present in shock.

The Celestial Race was far more incredible than the Dragon Race, and Xiao Yue’s implication was that all humans on Earth would become part of the Celestial Race within a hundred years.

“Next, I invite my husband to explain further!” Xiao Yue said.

“The Prince of Ten Thousand Laws returned?”

Many were surprised, but then they quickly reasoned that it was natural for Ye Tian to return given such a significant event occurring on Earth.

Whoosh! Ye Tian teleported over, facing the many powerhouses, and said, “This Celestial Race project is aimed at all of humanity. There are thirty star fields inhabited by humans, among which the Pan Star Field is the smallest and weakest.

And within the Pan Star Field, there are numerous galaxies, each containing a multitude of planetary systems.

The Solar System in the Milky Way is but a minor location within the human territories, originally not even considered for the Celestial Race project.

However, since I initiated the Celestial Race project, you are fortunate to become the first beneficiaries of this plan.

Once the Celestial Race project is completed, our Human Race will rise completely. Thus, even if your cultivation doesn’t increase immediately, your lifespan will significantly extend.”

Upon hearing this, the God-level powerhouses were immensely excited.

They had always known that the Solar System was just a small place in the Milky Way, and to think that the Milky Way was just a minor galaxy within the Pan Star Field, which in turn was just one of the many star fields inhabited by humans.

Seeing it this way, they were indeed fortunate to have birthed a Child of the Universe like Ye Tian!

Ye Tian continued, “No matter how much I speak of the benefits of being a Celestial Race member, you won’t fully grasp it, so let me just talk about lifespan.

Once you become a Celestial Race member, even ordinary people will have lifespans no less than 1,000 years, Emperor-level beings will have lifespans over 10,000 years, and God-level powerhouses will have lifespans over 100,000 years.”

“What, ordinary members of the Celestial Race have a lifespan of 1,000 years, and God-level beings have 100,000 years!!!”

Many warriors were shocked.

Especially the God-level ones, whose current lifespan limit was 10,000 years. If they became members of the Celestial Race, wouldn't their lifespans instantly surge by tenfold! What kind of opportunity was this! Even consuming countless lifespan-extending treasures couldn't instantly increase their lifespans to 100,000 years!

“Prince of Ten Thousand Laws, when will the Celestial Race transformation plan begin?”
Many warriors asked eagerly.

Ye Tian declared, “One batch at a time, starting with the God-level powerhouses as the first batch, Emperor-level as the second, Saint-level as the third, and King-level as the fourth.

First, you must be aware that to become a member of the Celestial Race, one must cultivate the Celestial Body Transformation Technique. This requires a certain understanding of the technique and the human bloodline. It's somewhat easier for God-level powerhouses to cultivate the Celestial Body Transformation Technique. Once the God-levels have learned it, they can then teach the Emperor, Saint, and King-levels. The first batch of God-levels wishing to transform into the Celestial Race can come and register with me!”

“Prince of Ten Thousand Laws, I want to register!”

One God-level after another ran over, shouting. Soon, Ye Tian registered these God-levels.

In the following days, other God-levels also came to register one by one.

Ye Tian counted and found that over the years, Earth had produced a total of 72 God-level beings.

For a planet to produce so many God-level beings was already quite impressive, and this was thanks to Ye Tian, who had greatly improved Earth's standing and ensured that resources were plentiful. Otherwise, a high-level world like Earth could not have produced so many God-level beings.

On this day.

Ye Tian gathered these God-level beings and began instructing them in the Celestial Body Transformation Technique, which was only suitable for humans. Other races, not having access to the core inheritance of the Celestial Race, could not transform themselves.

However, even so, Ye Tian did not allow these God-level powerhouses to leak the information prematurely, to avoid causing chaos.

The comprehension abilities of the God-level powerhouses were not poor, with the quick learners mastering the technique in a few days and the slower ones in about half a month.

Next was the transformation process, which took some time.

In the blink of an eye, another year passed.

The original God-level powerhouses had all become members of the Celestial Race, and a batch of Emperor-level beings had also become members of the Celestial Race.

The rest of the instruction no longer required Ye Tian's involvement, and he began to cultivate in seclusion, activating time acceleration abilities and using the Chaos Black Lotus to comprehend the Chaos Body Refining Technique.

And so, years passed.

During this time on Earth, the topic of the Celestial Race was rampant, with everyone taking pride in becoming a member. After all, being part of the Celestial Race signified potential and a long lifespan.

Moreover, some warriors with low cultivation talents found that after becoming members of the Celestial Race, their cultivation talents were gradually enhanced under the influence of the Celestial Race's bloodline.

However, this enhancement was not unlimited; many people found it difficult to advance beyond the Moonlight level, while a few could reach the Dawn level, which related to the concentration of their bloodlines.

Of course.

Becoming a member of the Celestial Race was not without its drawbacks, one of which was a reduced fertility rate. It was no longer possible to have a child every year as before.

Because after becoming a member of the Celestial Race, with higher cultivation levels, the probability of having offspring decreased, and even if one did conceive, it was no longer a matter of ten months but several years of pregnancy.

This was the norm for higher beings.

Overall, the benefits of becoming a member of the Celestial Race far outweighed the few drawbacks. And if one truly wished to have offspring, the long years made it possible to have many children, making conception not a difficult issue.

In the blink of an eye, fifty years passed.

In these fifty years, nearly seventy to eighty percent of humans on Earth had transformed into members of the Celestial Race, and the number of God-level beings had surpassed a thousand.

Ye Tian didn't pay much attention to the Celestial Race project, focusing entirely on his cultivation.

Now, Ye Tian had used fifty years, coupled with a hundredfold time acceleration, to cultivate for a total of five thousand years.

In such a long period, Ye Tian successfully cultivated the Chaos Body Refining Technique to the peak of the sixth level, just one step away from breaking through to the seventh level.
