Chapter 541: Supreme Level, The Path Against the Heavens

During these past decades, Ye Tian, aside from advancing the Chaos Body Refining Technique to the pinnacle of the sixth layer, also perfected two Chaos Divine Canon secret techniques: the Primordial Scale Armor and the Primordial Vines Technique, enhancing their power significantly.

Furthermore, Ye Tian made progress in the ultimate Saber Dao technique. His Saber Dao technique, the Heavenly Moon Saber, was already among the strongest of the ordinary Ultimate Saber Techniques.

Now, Ye Tian sought to elevate the Heavenly Moon Saber to the pinnacle level. This step was immensely challenging, but for Ye Tian, who had a clear path and method of cultivation, it was achievable.

He executed the Heavenly Moon Saber countless times, refining its techniques by discarding the superfluous elements, seeking only the most powerful principles of the saber.

With each slash, Ye Tian felt as if he merged with the saber, deepening his understanding of it. However, the gap to creating a pinnacle-level Ultimate Saber Technique remained vast.

One day, Ye Tian summoned Dominator Dark.

“Dominator Dark, I wish to return to the Supreme Hall of Humanity and use the Chaos Tower to break through to the final layer of the Chaos Body Refining Technique!” Ye Tian said.

“Prince, you’ve cultivated the Chaos Body Refining Technique to the pinnacle of the sixth layer?” Dominator Dark was astounded.

“Yes!” Ye Tian nodded.

“Alright, I’ll take you back to the Supreme Hall of Humanity immediately!” Dominator Dark quickly replied.

This was a significant event! If Ye Tian successfully broke through to the seventh layer of the Chaos Body Refining Technique, he would be the only prince in humanity to have fully mastered it.

In the blink of an eye, Ye Tian and Dominator Dark departed, unbeknownst to others. Although the Solar System was under blockade, Ye Tian wasn't restricted by it. If he wished to leave, he could do so at any time, unbound.

Before long, Ye Tian returned to the Supreme Hall of Humanity.

Dominator Dark was responsible for activating the Chaos Tower, which required no application from Ye Tian.

Soon, the Chaos Tower was activated.

This time, the fourth layer of the Chaos Tower, its highest level, was opened. The Chaos Tower consisted of only four layers. Although the third layer would have sufficed for Ye Tian's needs, the Supreme Hall of Humanity, to be on the safe side, activated the highest level.

Ye Tian's contributions to humanity were unimaginable. Even though activating the fourth layer of the Chaos Tower was costly, it was insignificant for the entire Human Race.

Thus, the Supreme Hall of Humanity didn't hesitate to open the fourth layer of the Chaos Tower.

The authorization to activate the fourth layer of the Chaos Tower came from Kunwu Supreme himself.

Boom! The fourth layer of the Chaos Tower was activated, and Ye Tian, led by Dominator Dark, entered the Chaos Tower.

Immediately, he sat down in the lotus position on the fourth layer of the Chaos Tower, cultivating the Chaos Body Refining Technique and beginning to absorb the Chaos Qi and the Chaos Origin Essence of the fourth layer.

In terms of purity, the Chaos Qi here far surpassed that of the first and second layers of the Chaos Tower.

Moreover, the quantity here was overwhelmingly abundant. With just a slight absorption, countless Chaos energies surged into his body, almost to the point of bursting him.

Days passed by.

Ye Tian did not activate time acceleration and simply cultivated in real-time.

On the fifteenth day, Ye Tian suddenly sensed the opportunity for a breakthrough and vigorously cultivated the seventh layer of the Chaos Body Refining Technique.

Boom! The Chaos Body Refining Technique broke through, and Ye Tian's body transcended to another level.

At the same time, Ye Tian's body frantically absorbed the Chaos energies, enhancing his physical strength and power.

His Yuan Qi became purer, and his soul grew stronger.

In a few days, Ye Tian's breakthrough stabilized.

At this point, his body was far stronger than before. Perhaps because Ye Tian had become the first of his kind, endowed with the grand destiny of his race and having cultivated two sets of the Eighteen Golden Bodies Technique, the boost from this breakthrough to the seventh layer of the Chaos Body Refining Technique was far greater than before.

Simultaneously, Ye Tian truly touched upon a limit.

This limit seemed to be the shackles between an Eternal Child of the Universe and a Supreme Child of the Universe. Breaking through this barrier would allow one to step into the realm of a Supreme Child of the Universe.

However, achieving this status at the Emperor level was exceedingly difficult. Dominator Xuan Yuan had also mentioned that it was impossible to become a Supreme Child of the Universe at the Emperor level due to the universal rules. At the Emperor level, the physical body, yuan qi, and soul are not perfect, making it impossible to become a Supreme Child of the Universe.

Ye Tian had discussed this with his guard, Dominator Dark, who also believed it was impossible for an Emperor-level being to become a Supreme Child of the Universe, advising Ye Tian not to waste his time attempting to reach such a lofty status.

But Ye Tian firmly believed he could achieve it! In the following days, he continued to cultivate in the fourth layer of the Chaos Tower, stabilizing the realm of the seventh layer of the Chaos Body Refining Technique.

In the blink of an eye, several days passed.

Ye Tian emerged from the Chaos Tower.

Upon his return, Dominator Dark informed him that Kunwu Supreme had summoned him.

Thus, Ye Tian made his way to the Kunwu Palace.

“Ye Tian, you’ve broken through to the seventh layer of the Chaos Body Refining Technique, haven’t you?” Kunwu Supreme asked.

“Yes!” Ye Tian nodded.

“Having reached the seventh layer of the Chaos Body Refining Technique, it’s time for you to attempt the breakthrough to the God level. Lingering at the Emperor level for too long offers no benefits,” Kunwu Supreme stated.

Ye Tian promptly responded, “Kunwu Supreme, I have reached the limit of an Eternal Child of the Universe and wish to attempt the breakthrough to a Supreme Child of the Universe.”

“Do you really wish to attempt the breakthrough to a Supreme Child of the Universe?” Kunwu Supreme inquired.

“Yes.” Ye Tian nodded, then asked, “Does Kunwu Supreme believe it’s possible to break through to a Supreme Child of the Universe at the Emperor level?”

Kunwu Supreme remained silent for a moment, then said, “I do know some secrets. In fact, following your current method of cultivation, it’s almost impossible to break the shackles and become a Supreme Child of the Universe at the Emperor level. The universe will hinder you from becoming a Supreme Child of the Universe. Although you have reached the limit now, you’ll find it difficult to make progress in other aspects, or even impossible to progress further. Only by advancing to the God level can you continue to progress.

However, there is a way that can allow you to continue progressing and break the shackles to become a Supreme, but not as a Child of the Universe!”

“A Supreme, but not as a Child of the Universe?” Ye Tian frowned, puzzled by what Kunwu Supreme was implying.

Kunwu Supreme continued, “A Child of the Universe is a title bestowed by the universe’s favor, always protected by the universe. Thus, it’s very difficult to transcend the universe. Even if one’s cultivation talent allows them to progress beyond the Supreme level, it’s hard to transcend the universe, as the universe does not permit it.

In this case, no matter how high your cultivation talent is, it’s difficult to break the shackles within the universe and achieve the Supreme level.

Many dominators are unaware of this, and only a few Supremes understand. To transcend the universe, one must not follow the intentions of the universe but instead take another path, contrary to the universe’s rules.

According to our speculation, if you defy the universe’s rules at the Emperor level, you can become a Supreme Prince, but no longer a Child of the Universe. However, you will face suppression from the universe, your cultivation speed will decrease by ten or even a hundredfold, and your luck will also diminish significantly.

Of course, as the first Celestial, relying on the Celestial Race’s destiny, you can compensate for the loss of luck, so there’s no need to worry about that.

The last challenge is that each time you break through a major realm, you will face a heavenly tribulation!”

“Heavenly tribulation!” Ye Tian’s heart stirred, having thought there were no heavenly tribulations in this universe, but learning that taking another path would indeed invoke them.

Kunwu Supreme added, “Heavenly tribulations are incredibly terrifying, even more so than the ones you encountered at the Supreme Mountain. If your foundation is insufficient, it will be challenging to grow and survive the tribulations.

However, if you break through the tribulations time and again, reborn through the heavenly tribulations, your ultimate achievements will be boundless.

You might even have the chance to become a being above the Supreme, which is the goal of all of us Supremes!”

“Kunwu Supreme, has anyone in the universe taken this path?” Ye Tian inquired.

“There was one!” Kunwu Supreme revealed, “A member of the Immortal Race, the first prince to brave the ten calamities of the Supreme Mountain at the Emperor level. He was even stronger than you but barely survived the tribulations with severe injuries and without using time reversal.

In the end, he chose to attempt the breakthrough to Supreme level, forsaking the title of a Child of the Universe.

It is said that he perished under the heavenly tribulations, but the specifics are unknown to anyone.

However, his existence proves that this path is viable, and according to many Supremes’ deductions, it’s a path that can lead to transcending the universe.

Ye Tian, think carefully. With your talent, you have a great chance of becoming a Supreme later on.

If you choose the other path, it's fraught with difficulties and dangers, and you might easily perish under the heavenly tribulations. But there's a sliver of hope to transcend. The choice is yours!"

Ye Tian fell silent, pondering deeply for a long time, before finally saying, "I choose to take that path against the heavens!"

This wasn't a spur-of-the-moment decision, but the result of careful consideration.

With his talent-copying ability, and having elevated all twelve basic attribute talents to the God level, he could definitely aim for the Supreme level if he followed the usual path.

However, under the suppression of the universe, even if his cultivation talent reached the highest level, it would be difficult to become a being above the Supreme level.

But by taking the path against the heavens, he was confident he could become a Supreme, or even exist beyond that, transcending the universe.

Once transcended, even if the universe were to face a great calamity in the future, he wouldn't die and could even save his family.

Supremes would be powerless in the face of a universal calamity. Having been reborn and possessing a heaven-defying talent like the talent-copying ability, if that member of the Immortal Race dared to take this path, why couldn't he?

Sensing Ye Tian's resolve, Kunwu Supreme nodded, "Alright, since you've made your choice, I will assist you in attempting the breakthrough to the Supreme level!"

Chapter 542: Breakthrough, to the Supreme Prince!

"Kunwu Supreme, I have chosen this path against the heavens, please tell me how to become a Supreme Prince," Ye Tian earnestly asked.

Kunwu Supreme replied solemnly, “To elevate you from the Emperor level to the Supreme Prince, there is only one way. You must go to a place that even the Universe’s Origin cannot glimpse.

The Supreme Mountain in the ruin world is one place, but at that time, you had not yet reached the limit of an Eternal Prince on the Supreme Mountain, so you missed that opportunity.

Now, there is only one place where even the Universe’s Origin cannot spy on, suitable for your push towards the Supreme level!”

“What place is that?” Ye Tian was very curious.

“The greatest forbidden zone of the universe: the Abyss of Destruction!”

Kunwu Supreme spoke of the Abyss of Destruction with a heavy tone.

Through Kunwu Supreme’s narration, Ye Tian gradually understood the Abyss of Destruction.

The Abyss of Destruction seemed like the dark side of the universe, gathering various negative energies. The air was filled with the aura of dead spirits and destruction, but utterly devoid of yuan qi.

There wasn’t even a trace of yuan qi within millions of miles around the Abyss of Destruction. The entire area seemed like a true purgatory, devoid of any living beings.

Not only was there no presence of yuan qi, but even the laws of the universe could not extend into it.

In the Abyss of Destruction, one could only rely on the strength of their body, yuan force, and talents. It was impossible to utilize the power of laws, and divine power, which also contains the power of laws, was severely suppressed. Even Supreme level powerhouses dared not delve deep into the Abyss of Destruction.

It was rumored that the Abyss of Destruction was the source of a cosmic cataclysm. Once the universe neared its end, it would begin with the Abyss of Destruction, plunging the entire universe into a great destruction.

Because of the unique nature of the Abyss of Destruction, even the Universe's Origin could not peer into it, making all actions within it invisible to the Universe's Origin.

That was why, if Ye Tian wanted to break through to the Supreme level from the Emperor level, he could attempt it within the Abyss of Destruction.

Once the breakthrough was successful and he left the Abyss of Destruction, Ye Tian's situation would naturally be discerned by the Universe's Origin, and he would lose the status of a Child of the Universe.

Though he would lose his status, Ye Tian's strength would not diminish in the slightest.

The Universe's Origin operates according to rules without a consciousness similar to living beings, so it cannot truly penalize someone like Ye Tian who defied the heavens.

"Ye Tian, since you have decided, I will take you into the Abyss of Destruction!" Kunwu Supreme said.

"Thank you, Kunwu Supreme!" Ye Tian responded.

The Abyss of Destruction was far from the human territories. It would be quite dangerous for him to go, even with the protection of Dominator Dark.

After all, they would have to cross the territories of many cosmic races, and only a Supreme could silently escort him to the Abyss of Destruction.

Soon after, Kunwu Supreme took Ye Tian away from the Supreme Hall of Humanity and headed towards the Abyss of Destruction.

The Abyss of Destruction was located in the central region of the universe, not too far from the central black hole. However, the distance was still immensely vast for Ye Tian.

After more than ten days, Kunwu Supreme and Ye Tian finally arrived at a region.

This region lacked any trace of yuan qi, filled only with dense dead spirits' aura and destructive energy.

Ordinary people would find it difficult to replenish their energy here, but Ye Tian could.

He possessed the Chaos Celestial Body, capable of absorbing most of the universe's energy, and his top-tier necrotic talent allowed him to absorb the aura of dead spirits.

Of course, he was also suppressed in this area because attacks that involved the laws could not be unleashed, and even the power of his Ultimate Saber Technique was greatly reduced.

Ye Tian's Ultimate Saber Technique was still at the level of invoking the laws of the saber and had not yet reached the stage of creating his own laws. If he had reached the stage of creating his own saber laws, he could still unleash the power of laws regardless of his location.

Upon nearing the Abyss of Destruction, Kunwu Supreme and Ye Tian continued forward and soon arrived at the entrance.

Thunderous roars came from ahead, continuous and deafening.

Ye Tian's divine sense swept over the area, only to see a region of darkness ahead, with chaotic energies raging. The fierce destructive energy seemed capable of tearing everything apart.

"This is the Abyss of Destruction. With your cultivation and strength, as long as you don't venture deep into the Abyss, you'll be fine.

Due to certain special reasons, we Supremes cannot enter the Abyss of Destruction, as it would trigger some special changes. So, you can only go in alone.

Remember one thing, do not delve deep, just stay at the edge of the outer layer of the Abyss of Destruction," Kunwu Supreme warned.

"Kunwu Supreme, I understand!" Ye Tian nodded.

Immediately, Ye Tian entered the Abyss of Destruction, and his figure was quickly obscured by the destructive energy.

After entering the Abyss, Ye Tian activated various techniques and also cast the Chaos Scales Armor. At the same time, he operated the Chaos Body Refining Technique to absorb the destructive energy, replenishing his own consumption.

Not long after entering the Abyss, Ye Tian chose a relatively calm area, sat down cross-legged, and began his cultivation.

In fact, Ye Tian was already at the limit of an Eternal Prince, needing only a slight improvement to break through the bottleneck.

However, in the outside world, the Universe's Origin suppressed Ye Tian's breakthrough, making further progress difficult.

At this moment, Ye Tian sensed that the shackles in the void began to loosen, as if they were about to break at a mere touch.

“Cultivate the Chaos Body Refining Technique!”

Although Ye Tian had broken through to the seventh level of the Chaos Body Refining Technique, he was still far from perfecting it and could continue to cultivate it.

However, previously, under the suppression of the Universe's Origin, it was difficult for Ye Tian to further enhance his physical strength through the Chaos Body Refining Technique.

But now, without the suppression of the Universe's Origin, the speed at which Ye Tian cultivated the Chaos Body Refining Technique increased manifold.

Boom! The aura of dead spirits, the energy of destruction, along with various chaotic materials that Ye Tian had prepared, all surged into his body.

Simultaneously, Ye Tian also entered the Chaos Black Lotus to absorb the chaos yuan qi emitted by it for cultivation.

In such a state, Ye Tian's physical strength, yuan force, and soul were all growing.

One year, three years, ten years! In the fifteenth year, Ye Tian suddenly broke through his limits, undergoing earth-shattering changes.

Boom! Infinite light burst forth from the Abyss of Destruction, extending beyond it.

At the same time, a terrifying phantom emerged over Ye Tian, overlooking the void, its pupils seemingly containing the universe.

Outside the Abyss of Destruction, Kunwu Supreme, who had been waiting there, saw this and murmured, "The Supreme Phantom, Ye Tian has successfully broken through the restrictions and achieved the level of a Supreme Prince. Our first Emperor-level Supreme has appeared among humans. I wonder if this is right or wrong!"

Of course, deep down, he hoped for Ye Tian's transcendence. Humanity did not lack a Supreme, but a transcendental being. If Ye Tian, as a transcendental being, stepped into the Supreme level or even beyond, his value to humanity would far exceed that of several Supremes, even all of them.

By then, humanity might truly surpass the Immortal Race!

Abyss of Destruction.

Ye Tian broke the limits, entering a special state.

In this state, Ye Tian involuntarily began to operate the Chaos Body Refining Technique, advancing at an unimaginable speed.

The seventh level of the Chaos Body Refining Technique reached its peak, then mastery, then completion, and finally perfection. After perfecting the seventh level, Ye Tian involuntarily began to comprehend the Ultimate Saber Technique, the Heavenly Moon Saber.

Since he could not comprehend the laws of the saber here, Ye Tian took a step closer to creating his own laws.

As time passed, Ye Tian slowly generated a strand of saber law on his own.

This was not a saber law under the Universe's Origin but a law Ye Tian had formed on his own. Although weak, it was his own law.

If this trend continued, once Ye Tian truly condensed his own source of saber laws, he could easily create a peak-level Ultimate Saber Technique.

Unfortunately, before he could fully condense the source of his saber laws, Ye Tian exited that state.

Opening his eyes, Ye Tian sighed deeply, "It's a pity that I couldn't condense my own source of saber laws, but I successfully created saber laws, advancing from controlling to creating, which is significant progress.

As long as I continue to work hard, even if I can't condense the source of saber laws, I can still create a peak-level Ultimate Saber Technique!"

Standing up, Ye Tian moved his body.

At this moment, he found that with the completion of the seventh level of the Chaos Body Refining Technique, his physical strength had reached an incredible level, as if he could easily injure his former self with a mere gesture.

"I've reached the Supreme Prince level!" Ye Tian was incredibly excited.

Having become a Supreme Prince, Ye Tian's strength had greatly increased, but he could no longer advance in the short term.

Thus, staying here was of no use.

So, Ye Tian flew out of the Abyss of Destruction.

Before leaving, he glanced at the depths of the Abyss. He was curious to explore, but remembering Kunwu Supreme's warning, he decided not to court death! Soon.

Ye Tian flew out of the Abyss of Destruction, and Kunwu Supreme appeared before him.

"Well done, Ye Tian. You've successfully become a Supreme Prince," Kunwu Supreme said with satisfaction.

"Thank you, Kunwu Supreme. Without you, I might still be blindly attempting to reach the Supreme level," Ye Tian expressed his gratitude.

Just then, Ye Tian suddenly felt a gaze upon him, and the destiny that marked him as a Child of the Universe was stripped away in an instant.

Additionally, he mysteriously lost something else.

He knew he had been stripped of the Child of the Universe status by the Universe's Origin, not only suffering a great loss in destiny but also experiencing a significant reduction in cultivation speed.

However, this wasn't much of a concern.

His innate cultivation talent was of the Supreme level, far surpassing other Children of the Universe, and he also possessed a God level time talent. Even if his cultivation speed was greatly reduced, it still exceeded that of other Children of the Universe.

So, this didn't have a significant impact on him.

"Let's go back," Kunwu Supreme said, taking Ye Tian away from there, heading towards the human territories.

Chapter 543: The Ancient World of Chaos, God level!

Upon returning to the Supreme Hall of Humanity, Ye Tian first stabilized his realm before contemplating his future path in cultivation.

At the Emperor level, he had reached the limit of what could be achieved. Although further improvement was possible, it would only slightly enhance his strength without fundamentally benefiting him. Since the transition from Emperor to Supreme Emperor involved breaking through cosmic restrictions, he decided not to waste time lingering at the Emperor level.

What he aimed for next was the ascent to the God level. With Ye Tian's cultivation talent and potential, becoming a God level being was not difficult; by the standards of the celestial race, this would equate to the celestial level. He needed to transform his body into a true celestial body, his yuan force into celestial force, and his soul into a celestial soul.

Fundamentally, there wasn't a significant difference between an celestial body, celestial force, and celestial soul and their regular divine counterparts, except that the celestial body was more powerful, similar to how the bodies of beings from the Immortal Race were stronger than those of other races. The term for a God level body among the Demon race was not "Divine Body" but "Demon Body".

Due to the physiological differences among races, the divine bodies of each race varied. The Human Race was gradually transitioning into the Celestial race, and it was possible that their nomenclature would change in the future.

However, Ye Tian did not want to become a God level being in the conventional sense; he aspired to become a unique God level being. This led him to think of the Ancient Chaos Tree on Earth.

Now that the Ancient Chaos Tree had successfully transformed, he could utilize it in his ascent to the God level by creating an Ancient Chaos Realm within his body.

This would grant him an almost inexhaustible supply of divine power for battles, allowing him to fight indefinitely, which held great significance for him.

With this plan in mind, Ye Tian prepared to return to Earth to use the Ancient Chaos Tree there to establish the Ancient Chaos Realm and thus become a special God level being.

Shortly thereafter, Ye Tian and Dominator Dark left the Supreme Hall of Humanity and soon returned to Earth.

Kunlun Mountain Range, underground space.

The area had been sealed off by Dominator Dark, making it inaccessible to others except for them.

At that moment, Ye Tian looked at the Ancient Chaos Tree in front of him with satisfaction.

Ancient Chaos Trees were extremely rare; encountering one was a matter of sheer luck, and even Dominator Dark did not possess one.

Imaginably, Ye Tian's fortune in finding an Ancient Chaos Tree was extraordinary.

"Time to begin my ascent to the God level; I've lingered at the Emperor level for far too long!" Ye Tian exclaimed.

With his control, the Ancient Chaos Tree slowly uprooted from the ground and began to rise.

As the entire tree levitated above the ground, Ye Tian activated the world within his dantian, drawing the tree in with a powerful suction force.

Swish! The massive Ancient Chaos Tree entered Ye Tian's dantian, gradually taking root within the world inside him.

With the first step complete, Ye Tian began his ascent to the God level.

His body quickly transformed into a celestial body, his yuan force into celestial force, and his soul gradually became a celestial soul.

Celestial light burst forth from Ye Tian, illuminating the entire underground space.

His aura grew increasingly powerful by the second.

Transitioning from the Emperor to God level would increase his strength a hundredfold in all aspects, effectively augmenting his overall bodily strength by the same magnitude.

Given Ye Tian's already extraordinary body, a hundredfold increase would be unimaginably formidable!

Soon, Ye Tian's body fully transformed into a celestial body, fully activating the properties of the Chaos Celestial Body.

At this moment, Ye Tian officially entered the God level.

Yet, his body's transformation was not complete.

As Ye Tian ascended to the God level, his dantian world began to expand wildly. At this point, Ye Tian used the power of the Ancient Chaos Tree to instantly stabilize the world.

A larger world was not necessarily better; without stability, a vast world could be less valuable than a space as small as a palm.

Ye Tian now stabilized his dantian world, beginning to integrate the essence of the Ancient Chaos Tree with it, gradually transforming the dantian into the Ancient Chaos Realm.

The branches of the Ancient Chaos Tree gradually disintegrated and merged into the world, making the space within more stable and gradually manifesting real lands, mountains, and forests—all transformations of the Ancient Chaos Tree.

As more of the tree's essence merged, the dantian world underwent a fundamental change.

After an indeterminate amount of time, the entire Ancient Chaos Tree, along with its essence, fully integrated into the dantian world.

The size of the dantian world had not increased significantly, but its stability and strength were now millions of times greater than those of a typical God level being's dantian world.

Boom! In the center of the Ancient Chaos Realm, a Chaos Ancient Well began to form.

However, in the end, a true Chaos Ancient Well did not emerge, only a phantom.

But as Ye Tian's cultivation and the Ancient Chaos Realm evolved, a real Chaos Ancient Well might truly form.

With the birth of the Ancient Chaos Realm, it would continuously absorb external yuan qi and various energies, generating vast amounts of Chaos energy. These energies would be stored within the realm, ready to be converted into Ye Tian's Immortal force or even replenish his physical strength during battle.

Essentially, as long as the energy within the Ancient Chaos Realm was not depleted, Ye Tian could fight indefinitely.

Depleting the realm's energy would be an immense challenge! As Ye Tian prepared to rise, the Chaos Black Lotus sealed on his wrist unexpectedly moved into the Ancient Chaos Realm within him.

This unexpected change left Ye Tian astounded. The Chaos Black Lotus had been sealed inside him by Supremes and, theoretically, could not be moved. Yet, it had broken through their seals and entered the Ancient Chaos Realm.

This indicated that the Chaos Black Lotus might transcend the concepts of the Supremes, potentially being more mysterious and powerful than the strongest treasures.

Ye Tian thought intensely as he quietly observed the changes within the Ancient Chaos Realm and the Chaos Black Lotus. He knew better than to intervene now, as it could cause undesirable alterations.

Time slowly passed, and the Chaos Black Lotus, as if finding a home, gradually took root in the Ancient Chaos Realm. Slowly, a lake formed within the realm, and the Chaos Black Lotus quietly floated on its surface.

With the Chaos Black Lotus rooted in the Ancient Chaos Realm, Ye Tian distinctly felt the space within becoming many times more stable. It also formed a barrier that blocked others from peering into the realm, which was a fortunate development for Ye Tian. Moreover, he sensed the Ancient Chaos Realm growing incrementally. Although the growth was slow, it was indeed happening.

Normally, even for the Ancient Chaos Realm, Ye Tian would need to continue cultivating and breaking through realms for it to evolve. Yet now, without any cultivation effort, the realm was evolving on its own.

This effect might not seem significant in a day or two, but over time, the evolutionary speed of the Ancient Chaos Realm would be astonishing.

“The accompanying effect of the Chaos Black Lotus is causing my Ancient Chaos Realm to continuously evolve. This effect alone is terrifying, and I must ensure that no one else becomes aware of it,” Ye Tian mused.

After his breakthrough, Ye Tian left the underground space and returned to the surface world, where tribulation clouds appeared in the sky. His expression changing, he immediately flew out of Earth and into space.

Boom! A thunderous heavenly tribulation descended.

“As expected, having embarked on a path against the heavens, I must endure heavenly tribulations with each major breakthrough from now on,” Ye Tian thought.

Although the God-level heavenly tribulation was not immensely terrifying, it was by no means weak. This particular tribulation consisted of three strikes, each far more formidable than the final strike of the Supreme Mountain tribulation he had faced before.

However, Ye Tian’s strength had also far surpassed his previous level, so he wasn’t overly fearful of these three tribulation strikes.

Boom! The first strike descended, and Ye Tian cleaved it with his saber. The residual energy wounded him slightly, but he persevered through the second and third strikes with all his might, albeit sustaining more severe injuries.

Seated cross-legged in space, Ye Tian began to rest and heal his wounds. A few hours later, his injuries were mostly healed.

“Congratulations, Prince, on your breakthrough to the God level!” Dominator Dark appeared and congratulated him. But the next moment, his expression subtly changed.

As a Dominator, he should be able to perceive everything about a God-level being, including their soul space. Yet now, he found himself unable to peer into Ye Tian's dantian world.

He knew Ye Tian had used the Ancient Chaos Realm for the breakthrough, but even that shouldn't have concealed anything from his observation.

He didn't inquire further, knowing it involved Ye Tian's secrets, which, if probed carelessly, could make Ye Tian uncomfortable. Although he was one of the higher-ups of the Human Race, he was also Ye Tian's guardian and couldn't overstep his duties.

"Dominator Dark, I'll be going into seclusion to cultivate for a while, aiming to advance my cultivation to the ninth-tier God level as soon as possible," Ye Tian stated.

"That's wise, Prince. You indeed need to elevate your cultivation to ninth-tier God level promptly, or it might affect your Invincible Eternal-grade combat power," Dominator Dark agreed, nodding.

Unaware that Ye Tian had already become a Supreme Emperor, he spoke accordingly.

Ye Tian offered no explanation, believing the fewer people knew about his Supreme Emperor status, the better. Although he had just become a God level, his current cultivation was only at the 1st tier, not quite at the level of a God-level Supreme. However, Ye Tian was confident it wouldn't take long to return to the Supreme level.

Returning to the Heavenly Pavilion, Ye Tian activated a 300-fold time acceleration. His time talent, now at the God level, allowed him to enhance his time acceleration ability to 300-fold.

The implications of a 300-fold time acceleration were significant, increasing his cultivation speed by 300 times compared to his peers, not to mention other amplifications.

Under the 300-fold time acceleration and his supreme cultivation talent, even with the suppression of the universe, his cultivation speed reached an alarming rate.

Months later in the real world, Ye Tian emerged from seclusion, having reached the ninth-tier God level. However, his cultivation wasn't yet stable, and without experiencing God-level battles, his cultivation hadn't fully translated into combat strength.

Thus, for a considerable time, Ye Tian maintained this level of cultivation without attempting to break through to the True God level.

In the years that followed, Ye Tian mostly stayed on Earth, often sparring with his Great God-level guards.

Given his current combat strength, few True Gods could match him, and even his Great God-level guards could only manage a draw at best.

Being Ye Tian's guards, these Great Gods were formidable even among their peers, highlighting Ye Tian's immense strength. Once Ye Tian reached the peak of the True God level, he might even contend with some Planetary System-level powerhouses.

Chapter 544: The Mysterious Region!

In the blink of an eye, the hundred-year plan of the Earth's Celestial Race had come to an end. By this time, humans on Earth had almost entirely transformed into members of the Celestial Race, with only a few centenarians remaining due to various reasons who hadn't undergone the transformation. However, this did not affect the overall situation.

Although the outcome was slightly short of the initial goal, it was expected that in a few more years, once those elderly who hadn't transformed passed away, Earth would be fully populated by the Celestial Race. Thus, the pilot program for the Earth's Celestial Race could be considered a success.

Despite having achieved the plan, Ye Tian still hadn't lifted the blockade. He needed to return to the Supreme Hall of Humanity and wait for the second phase of the human plan.

"Dominator Dark, let's return," Ye Tian called out.

Dominator Dark appeared before Ye Tian and nodded, "Your Highness, let us depart then!"

Together, Dominator Dark and Ye Tian set off for the Supreme Hall of Humanity. As for the ten Universe Gods who remained stationed there, the ten Great Gods and True Monarch Jin Chen continued to stay on Earth.

Soon after, Ye Tian returned to the Supreme Hall of Humanity and met with Kunwu Supreme.

“Greetings to Kunwu Supreme!” Ye Tian said respectfully.

Kunwu Supreme, upon seeing Ye Tian, nodded in satisfaction, “Well done. In a few days, you will undergo the assessment for the Mysterious Region. Once you pass, you will become a Prince of the Mysterious Region.”

“I understand,” Ye Tian responded.

Then, Ye Tian inquired about the progress of the Celestial Race project.

Kunwu Supreme explained, “The pilot projects have mostly been successful, with many of our people transforming into members of the Celestial Race. However, compared to the numbers of our race, these are still too few. The second phase of the plan involves implementing these transformations based on influence. For instance, everyone in the Supreme Hall of Humanity will transform into members of the Celestial Race, as well as the major powers within the Sacred Realm of Humanity. Furthermore, humans within worlds covertly controlled by these major powers will also undergo the transformation. Starting from the top-tier powers of our race and gradually moving to the weaker ones, we aim to transform a significant portion of our race’s territories into the Celestial Race, eventually encompassing all of humanity.”

Ye Tian quickly said, “Kunwu Supreme, wouldn’t this approach easily expose us?”

“It’s inevitable that we’ll be exposed, given the countless humans across the thirty-six domains of our race undergoing transformation. However, we’ve taken measures, such as sealing off our territories to prevent other races, even our vassal races, from entering. Moreover, we’re utilizing several of our most powerful treasures to monitor the thirty-six domains of our race. This should minimize the risk of exposure. During this period, humans are also forbidden from leaving our race’s territories, including you,” explained Kunwu Supreme.

Ye Tian nodded, finding the plan reasonable.

Afterward, Ye Tian left the Kunwu Palace and returned to Earth. He then instructed Dominator Dark to lift the blockade and advised the humans on Earth to avoid revealing anything about the Celestial Race. Additionally, those below the level of True Gods were not allowed to leave Earth, to prevent the large number of Gods on Earth from causing a stir in the outside world, which could lead to the discovery of the Celestial Race.

According to Kunwu Supreme's plan, other powers in the Milky Way Galaxy would have to wait a long time before they could transform into the Celestial Race, hence the need for secrecy.

Having settled Earth's affairs, Ye Tian left and did not plan to return soon. He wasn't too worried about Earth's safety, as it was now home to a vast number of Gods and even several True Gods. Although no Great Gods had emerged due to limited time, Ye Tian had left behind ten Great Gods and a Planetary System-level being to ensure Earth's strength was more than enough to dominate the major powers of the Milky Way Galaxy.

Therefore, Ye Tian had no concerns about Earth's safety.

Moreover, with the Supreme Hall of Humanity's powerful treasures monitoring the thirty-six domains, and Earth being one of the pilot projects, any significant incursion by a powerful foreign race would be immediately detected, posing no danger.

Thus, Ye Tian departed from Earth with peace of mind.

Back at the Supreme Hall of Humanity.

Upon returning, Ye Tian first went to his cultivation tower by the Bi Bo Lake, and then told his housekeeper Ziya, "Ziya, I'm about to enter the Mysterious Region."

"Wow, Master is going to the Mysterious Region! I'll pack our things right away!" Ziya exclaimed excitedly.

There wasn't much of value in Ye Tian's cultivation tower, mostly just daily necessities and some plants he had been cultivating. He wasn't concerned about them, but Ziya was very attentive and packed everything.

Moving from the Yellow Region to the Mysterious Region required an assessment. Even with the recognition from the Supremes, one still had to undergo the assessment as per the rules. The assessment took place at the Mystery Gate, a massive ancient stone gate also known as the Gate to the Mysterious Region. Only by passing through this gate could one enter the Mysterious Region.

From what Ye Tian knew, a God-level being needed to possess the combat power of a second-tier ordinary Child of the Universe to pass through the Mystery Gate. However, in reality, many ordinary princes' combat power would drop significantly after ascending to Godhood. Reaching back to the level of an ordinary prince would take a considerable amount of time.

After all, it was improbable for a Prince of the Ordinary level in the second tier to maintain the same ranking in the God level after ascending to Godhood.

Therefore, for many ordinary princes, maintaining their status at the Emperor level after long years of cultivation in the God level was already commendable, with many even dropping a tier.

Normally, many Princes from the Yellow Region, after becoming Gods, would choose to cultivate in the Yellow Region for a considerable time before attempting the Mystery Gate.

Ye Tian, however, did not need to do this, as his strength had already reached levels unattainable by many.

With a step, Ye Tian entered the Mystery Gate and quickly arrived in a void.

There, Ye Tian encountered a clone of a Prince with the strength of a second-tier Ordinary Child of the Universe.

Ye Tian effortlessly eliminated the clone with a single slash, passing through the Mystery Gate.

In the Mysterious Region.

Ye Tian set foot on the land of this area, and the moment he passed through the Mystery Gate, Ziya's permissions were upgraded, allowing her to immediately traverse and enter the Mysterious Region.

The Mysterious Region, much like the Yellow Region, had no fundamental difference; it was simply another cultivation area.

“Ziya, let’s go find a cultivation tower!” Ye Tian said.

“Yes, Your Highness!” Ziya promptly replied.

As for Dominator Dark and the others, Ye Tian hadn’t informed them, but they were undoubtedly already aware.

After finding a new residence, it would suffice to inform them.

After all, Ye Tian rarely saw Dominator Dark and the others, given the vast difference in their levels.

In the Mysterious Region, Mystery Emperor Mountain.

This was the area with the densest yuan qi in the Mysterious Region, housing thirteen cultivation towers, eight of which already had occupants.

Soon, Ye Tian arrived at Mystery Emperor Mountain.

“Master, the cultivation tower at the peak of Mystery Emperor Mountain is unoccupied. Master should claim it,” Ziya suggested.

“Alright!” Ye Tian agreed.

With a swift movement, Ye Tian flew towards the peak of Mystery Emperor Mountain, and this scene came to the attention of the guards of various Princes.

Immediately, the Princes of Mystery Emperor Mountain were informed, and they all came out.

Initially, these Princes thought Ye Tian was just some reckless newcomer attempting to claim the cultivation tower at the peak of Mystery Emperor Mountain. They wanted to teach this newcomer a lesson.

However, when they arrived at the peak and saw Ye Tian, one of the Princes's expression subtly changed.

This Prince, known as Prince Jun Jian, was one of the remaining Eternal Princes in the Mysterious Region. The other Eternal Princes had perished in the last ruin world.

The other Princes, unfamiliar with Ye Tian, were about to reprimand him, but Prince Jun Jian stopped them.

"Greetings to the Prince of Ten Thousand Laws!" Prince Jun Jian said courteously.

"Do you know me?" Ye Tian asked, looking at Prince Jun Jian.

"I've heard of the Prince of Ten Thousand Laws's reputation. It's an honor to meet you this time," Prince Jun Jian said respectfully.

At this, the other Princes were taken aback.

Prince Jun Jian, now their leader in the Mysterious Region, was being so polite to an unknown new Prince.

"Celestial Race, I see," Ye Tian realized upon noticing the Celestial Race's aura on Prince Jun Jian.

Clearly, Prince Jun Jian was among the first batch of pilot participants, thus somewhat knowledgeable about the Celestial Race project. Perhaps there was a significant figure backing Prince Jun Jian. Moreover, with Ye Tian's remarkable performance in the ruin world and his fame resonating throughout the universe, his information was certainly accessible.

Unless one diligently sought out the information, they wouldn't be aware of an Emperor-level Prince overpowering the myriad races in the ruin world.

“I’ll go and test this cultivation tower’s assessment. I won’t keep you any longer,” Ye Tian said, turning to enter the tower for the assessment.

With Ye Tian gone, one of the Princes couldn’t help but ask, “Prince Jun Jian, why were you so respectful towards this new Prince? Could he be the progeny of a high-ranking member of our Human Race?”

Prince Jun Jian smiled, “You’re too uninformed. Our Human Race’s Mysterious, Earth, and Heavenly Regions suffered significant losses in the ruin world, with little to gain. However, the Emperor Yellow Region saw great successes, and the Prince of Ten Thousand Laws of the Emperor Region possessed the strength of an Invincible Eternal Prince, slaying numerous Eternal Princes in the ruin world, even overpowering two Invincible Eternal Princes from the Immortal and Demon Races, and passing through the Ten Tribulations Zone, breaking the Human Race’s record. He’s known as the universe’s number one Emperor-level Prince, unmatched by anyone. His true strength is unknown, and despite being a new Prince in the Mysterious Region, he far surpasses us.”

“What?!!!” The other Princes were utterly astonished.

Ye Tian’s feats were seemingly too extraordinary, almost mythic. At this moment, they were filled with awe for Ye Tian!

Chapter 545: The Third Set of Movements!

Quickly, Ye Tian emerged from the cultivation tower atop Mystery Emperor Peak.

It was quite evident that Ye Tian had passed the assessment and had become the master of this cultivation tower.

“Ziya, go in!” Ye Tian said to Ziya.

“Yes, Master!” Ziya cheerfully entered the cultivation tower.

The other princes soon departed one after another, while Ye Tian officially took residence in the cultivation tower at the peak of Mystery Emperor Mountain.

Before long, the news of Ye Tian entering the Mysterious Region spread, and following that, the tales of Ye Tian's battle achievements were circulated, astonishing many princes.

In the following month, Ye Tian first familiarized himself with the Mysterious Region and understood the situation there, then he began his own cultivation in the Mysterious Region.

The first thing he did was to test his combat strength.

At the Emperor level, he had become a Supreme level prince, but now that he had reached the God level Ninth Tier, it was difficult to say what level his combat strength was at.

However, it wasn't very difficult for Ye Tian to return to the Supreme level.

There was a corresponding battle tower in the Yellow Region, and there was also one in the Mysterious Region.

The standards of the battle tower in the Mysterious Region were consistent with those in the Yellow Region, where the first to third floors represented Ordinary level princes, the fourth to sixth floors represented Peak level princes, and the seventh to ninth floors represented Eternal Princes.

The only difference was that the battle tower in the Mysterious Region had a tenth floor, and passing through the tenth floor meant becoming a Supreme level prince.

Ye Tian entered the battle tower in the phantom world, starting from the first floor.

The first floor—challenge passed in a second! The second floor—passed in a second! The third floor! The fourth floor!

Quickly, Ye Tian had passed the seventh floor, indicating that he possessed the combat strength of an Eternal level God-level prince.

Then, Ye Tian also passed the eighth floor without feeling any pressure.

On the ninth floor, Ye Tian felt some pressure for the first time. He fought for a long time against the ninth floor's prince clone before finally winning.

This indicated that Ye Tian currently possessed the strength of a first-tier Eternal Prince, still far from the Supreme level.

Ye Tian wasn't surprised by this strength.

Currently, his cultivation was much higher than the Emperor level, but there weren't significant improvements in other aspects. So, it was quite normal for him to fall from the Supreme level to the first-tier Eternal Prince.

Exiting the phantom world, Ye Tian then prepared to make a plan for his future cultivation.

Cultivation at the God level was different from that at the Emperor level. From the first to the ninth tier at the God level, it was about quantitative increase, which for Ye Tian meant increasing the total amount of celestial power.

In theory, the ninth-tier God level was the limit of the God level, and it wasn't possible to increase the total amount or cultivation level anymore.

But this was for ordinary God-level practitioners. In reality, one could continue to cultivate beyond the ninth-tier God level, not by increasing the total amount but by compressing divine power or celestial power.

Of course, this process was also very slow and lengthy. At the God level, divine power or celestial power could only be compressed to a certain extent before it became very difficult to compress further.

However, once compressed, the strength would correspondingly become much stronger, and this was also a way to enhance strength.

The princes in the Mysterious Region could purchase divine compression techniques, and Ye Tian could even cultivate the most powerful divine power compression techniques.

Thus, Ye Tian purchased a technique called Ancient Sheng Compression Technique. This was a divine power compression technique created by a powerful being named Ancient Sheng, ranking high among many techniques.

This technique focused not on rapid compression but on steady compression, holding great potential and suitable for those who had time.

Thus, for Ye Tian, this technique was very fitting.

After obtaining the Ancient Sheng Compression Technique, Ye Tian began to focus on cultivating the Ancient Sheng Compression Technique. With the effect of 300x time acceleration, his cultivation speed was extremely fast.

At the same time, Ye Tian needed to cultivate two other aspects.

One was to create a peak-level Ultimate Saber Technique, and the other was to create more powerful divine canon secret techniques.

Of course, Ye Tian also needed to cultivate various secret techniques for divine power defense, replacing the various secret techniques he cultivated at the Emperor level one by one.

Time slowly passed, and in the blink of an eye, ten years had gone by.

During the ten years in the Mysterious Region, Ye Tian continuously improved himself in all aspects. He compressed his celestial power by five times, and all his secret techniques were replaced with God-level secret techniques.

The only regret was that he had not yet created a peak-level Ultimate Saber Technique. However, he had created another divine canon secret technique, an attack-type divine canon secret technique—Chaos Palm! The Chaos Palm, drawing on the Xumi Palm and many other palm techniques, used the method of palm techniques to unleash the power of the supreme divine canon, the Chaos Body Refining Technique, forming a unique attack.

In reality, divine canon secret techniques were the application of one's own Dao.

Ye Tian's fundamental Dao was the Chaos Dao, and the Saber Dao was just an auxiliary Dao. So, in a sense, divine canon secret techniques were the most important, even more important than Ultimate Saber Techniques.

The power of Chaos Palm was terrifying, but its consumption was also severe, making it one of Ye Tian's trump cards.

With the power of Chaos Palm and five times the celestial power, Ye Tian's strength once again soared to the level of an Invincible Eternal Prince, but he was still far from the Supreme level.

According to Ye Tian's estimation, if he increased his celestial power to the tenfold limit, created a peak-level Ultimate Saber Technique, and cultivated the Five Elements Divine Wheel to a minor completion state, that would be almost enough.

The power of the Five Elements Divine Wheel was very strong. Previously, it was only at the entry level, so it was difficult to become Ye Tian's top attack method. But once it was elevated to the minor completion state, its power would be terrifying.

Although there were many things that needed to be cultivated, Ye Tian at least could achieve them, given time. But, other princes would never have the hope of becoming Supreme Princes in their lifetimes. Even if the Immortal Race's Prince Tianxuan and the Demon Race's Prince Xuefeng were Invincible Eternal Princes at the Emperor level, meaning their probability of becoming Supreme Princes in the future was higher than most, it would still be extremely difficult to become Supreme Princes after reaching the God level.

But Ye Tian didn't need to.

He had already reached the Supreme Prince level at the Emperor level, so it was much easier for him to return to the Supreme Prince level now. Moreover, Ye Tian's future achievements would far exceed those of ordinary Supreme Princes, with boundless prospects.

One day.

Under the guidance of Dominator Dark, Ye Tian came to the Six Paths Reincarnation Pagoda.

Now, the Six Paths Reincarnation Pagoda was placed in a space within the Supreme Hall of Humanity by the Supremes of the Human Race, inaccessible to ordinary people.

But since the Six Paths Reincarnation Pagoda was contributed by Ye Tian, he naturally could enter at will.

When Ye Tian arrived in front of the Six Paths Reincarnation Pagoda, he saw that its aura was much stronger than before, indicating that under the efforts of the Human Race, the origin of the Six Paths Reincarnation Pagoda was slowly recovering. Perhaps it wouldn't be long before the Six Paths Reincarnation Pagoda could regain its power as a supreme treasure, and the Human Race would have another supreme treasure.

Dominator Dark waited outside, while Ye Tian entered the Six Paths Reincarnation Pagoda and immediately came to the inheritance space.

This time, he intended to inherit the third set of movements of the Eighteen Golden Bodies Technique. If he obtained the third set of movements, Ye Tian could continue to enhance his physical strength.

This was a heaven-defying secret technique that broke the universe's limitations, a pity that only he could cultivate it. Others might be able to cultivate the first and second sets of movements under the universe's restrictions, but after becoming God-level, their physical bodies could not be enhanced, and they could not cultivate the third set of movements.

But Ye Tian was a heaven-defier, already having broken the restrictions. Now, he naturally could continue to break the bonds and enhance his physical strength.

In the inheritance space.

Ye Tian performed the third set of movements, trying over and over, persisting for longer and longer periods.

Before long, Ye Tian received the recognition of the third statue and obtained the cultivation method for the third set of movements of the Eighteen Golden Bodies Technique.

Afterward, Ye Tian left the Six Paths Reincarnation Pagoda.

Upon returning, Ye Tian diligently practiced the third set of movements of the Eighteen Golden Bodies Technique. With each persistence, his physical strength grew stronger, and naturally, his strength became stronger.

At this rate of improvement, the day Ye Tian would become a Supreme Prince was not far off.

After experiencing the grand era of the ruin world, the Supreme Hall of Humanity, having lost too many princes, began to recruit nine-star peerless Heavenly Prides for training.

They gathered Heavenly Prides from all the major star fields through repeated selections. The most outstanding ones were chosen to be cultivated into Children of the Universe and sent into the Supreme Hall of Humanity.

Among them was Zhou Tian!

Chapter 546: The Disciple of Ye Tian!

At present, Zhou Tian was a nine-star peerless Heavenly Pride, having broken through the limits of his body for the nineteenth time.

It could be said that he was only a step away from becoming a Child of the Universe.

Now, the Supreme Hall of Humanity was looking to recruit a large number of nine-star peerless Heavenly Prides, and naturally, he was selected.

One day.

Over ten thousand nine-star peerless Heavenly Prides from various star fields arrived at the outer area of the Supreme Hall of Humanity.

Here, they would undergo rigorous training and teaching.

As for how many of them could become Children of the Universe, it depended on their efforts and potential.

Zhou Tian came to the outer hall of the Supreme Hall of Humanity and saw so many nine-star peerless Heavenly Prides. He learned that above the rank of nine-star peerless Heavenly Pride was Child of the Universe, and there were even specific divisions among them.

This place was truly where all the geniuses of humanity gathered! He didn't feel pressured, only an endless fighting spirit.

In his own star field, although his strength couldn't be considered invincible at the Emperor level, it definitely belonged to the top few. If it weren't for the knowledge that above nine-star peerless Heavenly Pride there were Children of the Universe, he would have already made a move towards the God level.

"Could my master also be in the Supreme Hall of Humanity?" Zhou Tian suddenly speculated.

This speculation was not without reason, as his master, Ye Tian, was extremely powerful. His master had once said that when he shone brightly among humanity, they might meet.

What did this imply?

"Shining brightly among humanity must mean making a significant impact in the Supreme Hall of Humanity, only then would my master come to know." Zhou Tian thought to himself.

With this thought, Zhou Tian's interest in cultivation deepened, and his desire to become a Child of the Universe grew stronger.

Of course, he also wanted to inquire about his master's situation.

However, he knew too little about his master; he only knew that his master was named Ye Tian, and nothing else.

With just a real name, it was naturally impossible to inquire about Ye Tian's situation.

If he knew Ye Tian's title, perhaps he could find out more.

In a flash, ten years passed.

During these ten years in the Supreme Hall of Humanity, Zhou Tian's progress was immense, and his combat power completely overwhelmed other nine-star peerless Heavenly Prides, almost reaching the limit of nine-star peerless Heavenly Pride.

Zhou Tian's fame also thoroughly resonated throughout the outer hall of the Supreme Hall of Humanity and even attracted the attention of some Universal Gods of the outer hall.

In the Supreme Hall of Humanity, Universal Gods or Dominators were not allowed to take any Prince as a disciple, as this ensured fair competition among the Princes.

If the higher-ups of humanity kept taking Princes as disciples and nurtured them secretly, it would disrupt the Princes' competition method, which would be detrimental to the Supreme Hall of Humanity.

However, before becoming Princes, if they took Heavenly Prides as disciples, it wouldn't be considered a violation of the rules.

Now, with Zhou Tian's fame echoing throughout the outer hall of the Supreme Hall of Humanity and being recognized as a sure success for becoming a Child of the Universe, naturally, there were many who wanted to take Zhou Tian as a disciple.

Of course, most Universal Gods were quite reserved and embarrassed to do so, but that didn't mean all Universal Gods would let go of their pride.

One day.

A Universal God of the outer hall of the Supreme Hall of Humanity summoned Zhou Tian.

In front of a magnificent temple.

Led by a guard, Zhou Tian arrived here, feeling slightly nervous at the moment.

He knew that the one summoning him was one of the authorities of the outer hall of the Supreme Hall of Humanity, a great Universal God.

What a powerful existence a Universal God was! Their lifespan was almost infinite, and in any domain, they would be considered supreme rulers! He hadn't expected such an existence to summon him!

Soon, Zhou Tian met this Universal God—Divine Lord Yun Huang.

“Greetings, Divine Lord Yun Huang!” Zhou Tian said somewhat nervously.

Divine Lord Yun Huang appeared as a middle-aged man, wearing a purple gold crown and a golden battle robe, sitting high above on a divine throne, looking down at Zhou Tian.

“Zhou Tian, your performance in the outer hall of the Supreme Hall of Humanity has been outstanding, especially your path in the Saber Dao, which is unique even among many Princes of the inner hall.

You will surely become a Child of the Universe in the future and may even shine brightly in the inner hall.

However, if one cultivates alone, they might take many detours.

I am willing to take you as a disciple and guide your cultivation, which could help you become a Child of the Universe faster and enter the inner hall of the Supreme Hall of Humanity! What do you think?”

Divine Lord Yun Huang asked.

“Take me as a disciple?” Zhou Tian was startled, having speculated this possibility, but didn't expect it to come true.

If it were anyone else, they would be extremely excited, as being taken as a disciple by a Universal God was an immense honor with a limitless future!

But Zhou Tian declined politely, “Divine Lord Yun Huang, I already have a master!”

“Oh, did you take another Universal God as your master?” Divine Lord Yun Huang frowned.

According to his knowledge, other Universal Gods of the Supreme Hall of Humanity hadn’t taken Zhou Tian as a disciple, otherwise, he would have known.

Zhou Tian shook his head, saying, “I am not clear about my master’s cultivation level; he only taught me for a while. But without his permission, I won’t take anyone else as my master, I hope Divine Lord Yun Huang understands.”

“Who is your master?” Divine Lord Yun Huang asked.

He speculated that Zhou Tian’s master might not be a strong figure, perhaps a minor character in some star field. As long as he dealt with Zhou Tian’s master, then he could take Zhou Tian as a disciple.

“My master is named Ye Tian, as for other information, I am not clear!” Zhou Tian recounted.

“Ye Tian, that name... why does it sound so familiar?”

Divine Lord Yun Huang pondered for a moment, then suddenly thought of someone.

“It can’t be, it shouldn’t be him. He has only just become a God, and has been in closed-door cultivation all along. How could he possibly have the time to take a disciple? Moreover, Zhou Tian is not from the same star field as him; the possibility of them knowing each other is almost non-existent, not to mention being master and disciple!” Divine Lord Yun Huang thought to himself.

However, skeptical as he was, he still casually asked, “Zhou Tian, do you remember what your master looks like?”

“I do!” Zhou Tian nodded and immediately formed an image of Ye Tian using yuan qi.

When Divine Lord Yun Huang saw the likeness of Ye Tian, his pupils constricted in shock and exclaimed, “The Prince of Ten Thousand Laws! How is this possible!!!”

Seeing Divine Lord Yun Huang’s expression, Zhou Tian immediately knew that Divine Lord Yun Huang recognized his master.

“Prince of Ten Thousand Laws, could this be my master’s title?”

Zhou Tian was surprised and immediately asked, “Divine Lord Yun Huang, do you know my master?”

Divine Lord Yun Huang took a deep breath and said, “I am aware of your master, but we do not know each other personally.

He is a Prince in the inner hall of the Supreme Hall of Humanity, who has recently advanced to the Mysterious Region.

Unexpectedly, you are his disciple, what good fortune!”

He didn’t think Zhou Tian was lying; as a Universal God, he could easily tell if an Emperor was lying.

“Divine Lord Yun Huang, do you know about my master?” Zhou Tian inquired.

“I do!” Divine Lord Yun Huang said, “Your master far surpasses your imagination. Although you are currently outstanding in the outer hall of the Supreme Hall of Humanity, you are far from your master’s level.

He is arguably the most talented Prince in our humanity’s history and has even crushed countless Princes from the universe’s myriad races in a recent grand era, with no one able to rival him.

Moreover, he has made great contributions to humanity, and even my status within humanity is not as high as your master’s.

Our supreme leader of humanity once said, 'If the Prince of Ten Thousand Laws does not perish, he will surely become a Supreme!' Perhaps you do not fully grasp the concept of a Supreme, but a single glance from one could kill me countless times."

"..."

Zhou Tian was stunned; he had just found out his master was a Prince and thought he was just an ordinary God level Prince.

He had not expected his master to be so formidable, overpowering the Princes of the universe's myriad races and being hailed as the foremost Prince in humanity's history.

He had originally thought that one day he might surpass his master, but now, it seemed there was no hope of surpassing his master.

"Even if I can't surpass my master, I must strive to come close to his achievements!"

Zhou Tian felt pressured but even more motivated.

"Since you are a disciple of the Prince of Ten Thousand Laws, I am not qualified to take you as a disciple. However, if you have any doubts about your cultivation in the future, you are welcome to seek me out!" Divine Lord Yun Huang said with a smile.

He might not have the chance to curry favor with the Prince of Ten Thousand Laws, but he could befriend Zhou Tian, the disciple of the Prince of Ten Thousand Laws, which would only be beneficial to him in the future and not detrimental.

"Thank you, Divine Lord Yun Huang!" Zhou Tian expressed his gratitude.

After Zhou Tian left, Divine Lord Yun Huang spread the news of Zhou Tian's arrival at the Supreme Hall of Humanity to an inner hall enforcer, who then relayed it to Ye Tian's guard.

In the Mysterious Region.

Ye Tian was cultivating when a Universal God guard requested an audience.

“What is it?” Ye Tian asked.

The guard hurriedly said, “Prince, news from the outer hall: your disciple, Zhou Tian, has arrived at the Supreme Hall of Humanity!”

“Zhou Tian, that kid has come to the Supreme Hall of Humanity!”

Ye Tian was slightly surprised but not too unexpectedly so.

Given Zhou Tian’s talent in the Saber Dao and the boost in his cultivation talent that he had given Zhou Tian, as long as Zhou Tian diligently cultivated, his rise was inevitable.

Ye Tian chose not to meet Zhou Tian, at least not now.

Furthermore.

Ye Tian dispatched guards to keep the news of Zhou Tian being his disciple under wraps to avoid affecting Zhou Tian’s cultivation.

“Let’s wait until Zhou Tian truly becomes a Child of the Universe before I meet him,” Ye Tian thought.

So, he continued his cultivation.

Now, his third set of movements was nearing the perfected realm, and the framework of a peak-level Ultimate Saber Technique was taking shape, not far from truly creating a peak-level Ultimate Saber Technique.

With progress in other areas, Ye Tian’s strength was infinitely close to a Supreme level Prince.

Chapter 547: The Infinite Saber Sect!

On this day, while Ye Tian was in the midst of his cultivation, suddenly, a multitude of destiny threads appeared on his body.

These threads of destiny converged above his head, intertwining to form an ancient well.

Quickly, Ye Tian noticed this and opened his eyes.

“A Destiny Well!” Ye Tian was quite surprised.

Logically, having been affected by the Universe’s Origin’s fluctuations and removed as a Child of the Universe, his destiny should have plummeted, making it impossible to form a Destiny Well.

Moreover, Destiny Wells only formed during battles among Heavenly Prides, where they could snatch each other’s destiny. A massive accumulation of destiny in a short period allowed for the formation of a Destiny Well by the end of the battle.

However, such Destiny Wells were temporary and eventually had to shatter.

Under normal circumstances, forming a Destiny Well was possible, but it required a colossal amount of destiny, beyond the reach of ordinary individuals.

Those who could truly form a Destiny Well were high-ranking individuals of a race who, over long years, had accumulated vast amounts of destiny, along with the destiny of humanity, to successfully form a Destiny Well.

“Right, it’s the destiny of the Celestial Race!” Ye Tian suddenly remembered.

Being the first of the Celestial Race and one of the initiators of the Celestial Race project, he naturally enjoyed the destiny of the Celestial Race.

Initially, with the Celestial Race’s sparse numbers, the destiny he enjoyed wasn’t much.

Now, as more and more humans transformed into the Celestial Race, even if each Celestial contributed just a tiny bit of destiny, the vast accumulation of destiny from a multitude of Celestials was immense.

At this point, this accumulation of destiny had undergone a qualitative change, starting to evolve into a Destiny Well.

The benefits of a Destiny Well were numerous, not only increasing the speed of cultivation and aiding in breaking through bottlenecks but also in obtaining opportunities.

The more abundant one's destiny, the higher the likelihood of encountering opportunities.

Thus, seeing his own Destiny Well evolving, Ye Tian was quite excited.

Soon, the evolution of the Destiny Well was complete.

“An eight-foot Destiny Well!”

This level of Destiny Well meant Ye Tian could increase his cultivation speed by eightfold, which was quite impressive.

Moreover, this Destiny Well was still growing.

As the number of Immortals increased, Ye Tian's Destiny Well would grow larger, bringing increasingly terrifying effects.

“Dominator Dark!” Ye Tian called out.

Whoosh! The void rippled, and Dominator Dark appeared.

“Your Highness, what do you need?” Dominator Dark asked.

“Dominator Dark, my Ultimate Saber Technique is on the verge of a breakthrough, but it still lacks a slight edge. My path is already very clear, but the accumulation is just slightly insufficient.

I know how to create a peak-level Ultimate Saber Technique, but it feels like it still needs some time.

Do you know of any place that could help me quickly create a peak-level Ultimate Saber Technique?” Ye Tian inquired.

Dominator Dark pondered for a moment, then spoke, “Your Highness, perhaps the Saber Tomb of the Infinite Saber Sect could assist you in successfully creating a peak-level Ultimate Saber Technique!”

“The Infinite Saber Sect, you mean one of the nine supreme forces of humanity, the Infinite Saber Sect?” Ye Tian asked.

“Yes!” Dominator Dark nodded.

Ye Tian fell silent. The Infinite Saber Sect was no ordinary force but a supreme one, possessing a Supreme.

Among the many forces of humanity, the nine supreme forces undoubtedly stood at the pinnacle, followed by dominator-level forces, then overlord-level forces, and then nine-star forces below that.

The Supreme Hall of Humanity could be considered a first-tier force, but in reality, it was merely an institution jointly established by the nine supreme forces.

It could even be said that the nine supreme forces held significant sway in the Supreme Hall of Humanity.

The nine supreme forces could influence the Supreme Hall of Humanity, but the Supreme Hall of Humanity had no authority over the nine supreme forces.

Humanity’s true powerhouses were within the nine forces, and the powerhouses of the Supreme Hall of Humanity were actually not as numerous.

For instance, though Kunwu Supreme and Curse Supreme were stationed within humanity, they were actually Supremes of the nine supreme forces.

Given Ye Tian's current status and contributions to humanity, he might receive some generous treatment in the Supreme Hall of Humanity, but he held no significant position among the nine supreme forces.

Thus, if he wished to enter the Saber Tomb of the Infinite Saber Sect, it wouldn't be easy.

Of course, he could seek help from Kunwu Supreme, whose influence was undoubtedly enough to grant him access to the Saber Tomb of the Infinite Saber Sect.

However, Ye Tian was reluctant to ask Kunwu Supreme for help.

"Dominator Dark, how do you think I could gain access to the Saber Tomb of the Infinite Saber Sect?" Ye Tian sought advice.

"Your Highness, the Infinite Saber Sect has two Supremes. One of them is the Saber Supreme, one of the twelve Supremes, second only to Kunwu Supreme in strength. The other is an ordinary supreme named Star Origin Supreme.

Neither of these Supremes would care about the dignitaries of the Supreme Hall of Humanity, not even the dominators of the Supreme Hall of Humanity, unless one of the three Supremes like Kunwu Supreme intervened.

"If the three Supremes do not intervene, then there's only one way to enter the Saber Tomb of the Infinite Saber Sect." Dominator Dark said.

"What way?" Ye Tian promptly asked.

"Challenge the Infinite Saber Tower of the Infinite Saber Sect!" Dominator Dark explained, "The Infinite Saber Tower is an extremely important place within the Infinite Saber Sect. Any disciple or even outsider can enter the Infinite Saber Tower. Outsiders who can pass the third level of the tower and are of good standing can join the Infinite Saber Sect. Those who can pass the sixth level can become a successor disciple of the Infinite Saber Sect.

If someone can pass the ninth level, the highest level, they can make a request. As long as the request does not exceed the bottom line of the Infinite Saber Sect, they will generally agree.

The Saber Tomb is an extremely important place within the Infinite Saber Sect. Apart from the successor disciples and the higher-ups of the Infinite Saber Sect, others cannot enter.

However, if Your Highness can pass through the ninth level of the Infinite Saber Tower, you can request to enter the Saber Tomb.”

After pondering for a while, Ye Tian said, “Dominator Dark, accompany me as we leave the Supreme Hall of Humanity and visit the Infinite Saber Sect, how about that?”

“Yes, Your Highness!” Dominator Dark nodded.

Immediately, Ye Tian and Dominator Dark left.

This time, Ye Tian only brought Dominator Dark, leaving behind his ten Universal God guards.

The nine supreme forces of humanity were all located in the Sacred Realm of Humanity, and the Infinite Saber Sect was situated above the Infinite Continent in the Infinite Galaxy within the Sacred Realm.

The entire continent was the domain of the Infinite Saber Sect, and even the entire Infinite Galaxy was considered part of the Sect’s territory.

Normally, ordinary people were not allowed to enter the Infinite Galaxy, only certain merchant groups or powerful individuals had the qualification to enter.

On this day.

Ye Tian and Dominator Dark arrived at the Infinite Galaxy.

The arrival of a Dominator naturally faced no obstruction.

Quickly, Dominator Dark led Ye Tian onto the Infinite Continent.

There, Dominator Dark was stopped.

Boom! A powerful Dominator appeared in front of Ye Tian and Dominator Dark.

“Dominator Dark, what a rare guest! You’ve actually come to our Infinite Saber Sect!” This Dominator expressed surprise.

“Dominator Blood Jade of the Infinite Saber Sect, long time no see.

This time, I’m here with Prince of Ten Thousand Laws for some matters at the Infinite Saber Sect!” Dominator Dark said.

At this, Dominator Blood Jade turned to Ye Tian, “So, you are Prince of Ten Thousand Laws. May I know the purpose of your visit to our Infinite Saber Sect?”

Dominator Blood Jade was aware of Ye Tian’s existence, his remarkable abilities, and also the role he played in the Celestial Race project.

Since the entire Infinite Saber Sect had transformed into the Celestial Race, he dared not disrespect Ye Tian, lest it cast a bad light on the Infinite Saber Sect.

After all, without Ye Tian, neither the Infinite Saber Sect nor humanity’s strength would have increased so significantly, so he wouldn’t speak to Ye Tian in a condescending tone.

“Dominator Blood Jade, I wish to enter the Infinite Saber Sect’s Saber Tomb!” Ye Tian stated truthfully.

Dominator Blood Jade frowned and said, “Prince of Ten Thousand Laws, you have made significant contributions to humanity, and even our Infinite Saber Sect has benefited from your kindness, but one matter is one matter.

The Infinite Saber Sect also has its rules, and the Saber Tomb cannot be opened to outsiders. If we make an exception for you today, tomorrow there might be descendants of other Supremes

wanting to enter our Saber Tomb, turning it into everyone else's backyard. We cannot set such a precedent, please understand, Prince of Ten Thousand Laws!"

Ye Tian smiled and said, "I'm aware of the rules of the Infinite Saber Sect, but I'm also very clear about another rule: if anyone can pass the ninth level of the Infinite Saber Tower, they can make a request. I wonder, can entering the Saber Tomb be considered an acceptable request?"

Dominator Blood Jade was silent for a moment, then nodded, "Naturally, it counts. If Prince of Ten Thousand Laws truly passes the ninth level of the Infinite Saber Tower, not to mention entering the Saber Tomb, even if you wish to become an elder of our Infinite Saber Sect, that would also be possible."

"I'll pass on the position of elder. I only wish to enter the Saber Tomb for a visit," Ye Tian quickly said.

"In that case, I'll take Prince of Ten Thousand Laws to the Infinite Saber Tower," Dominator Blood Jade offered to lead the way, and Ye Tian followed along with Dominator Dark.

Before long, Ye Tian arrived at the Infinite Saber Tower.

The tower had nine levels, standing a thousand feet tall on a vast square. Its body was golden and filled with the aura of the laws of the saber.

Around the Infinite Saber Tower were smaller towers, each emitting the aura of a powerful individual. These individuals were the guardians of the tower.

When Ye Tian arrived, the Infinite Saber Tower was still closed.

"Prince of Ten Thousand Laws, the Infinite Saber Tower opens once every ten days, and there are still three days until the next opening. Shall we wait here for three days? If you're in a hurry, I can break the rules and open the Infinite Saber Tower early, allowing you to enter," Dominator Blood Jade offered.

"There's no need to open it early; we'll wait for three days," Ye Tian quickly said.

He didn't want to break the rules of the Infinite Saber Sect, so as not to provoke their hostility.

After all, it was he who needed a favor from the Infinite Saber Sect, not the other way around.

Chapter 548: The Ant-like Successor Disciple!

Ye Tian was waiting outside the Infinite Saber Tower, and the news of this spread quickly.

Immediately, numerous disciples of the Infinite Saber Sect arrived at the scene.

They weren't very familiar with Ye Tian. After all, although Ye Tian's name was well-known, only the higher-ups of humanity and some of the strong figures and princes in the Supreme Hall of Humanity were aware of him. As for warriors from other human factions, they were oblivious to Ye Tian's existence.

Merely being a prince of the Mysterious Region wasn't enough to intimidate the disciples of the Infinite Saber Sect.

In terms of overall strength, the Supreme Hall of Humanity wasn't even comparable to the Infinite Saber Sect. After all, aside from a smaller number of Supremes, the Infinite Saber Sect was much more powerful in other aspects, such as the number of God level, True God level, Great God level, Planetary System level, and Galaxy level warriors. The Infinite Saber Sect had an overwhelming number of such warriors. Moreover, the Universal Gods and Dominators that the Infinite Saber Sect had accumulated over countless years were not few.

It could even be said that apart from the Sect Master of the Infinite Saber Sect and a few elders, others were unaware of the Infinite Saber Sect's true foundation and strength.

Ye Tian paid no heed to the arrival of the Infinite Saber Sect's disciples. He sat cross-legged on an open space, waiting silently.

Suddenly, a commotion arose.

"The three God level successor disciples are here!"

Whoosh whoosh whoosh! Three ninth-tier God-level disciples of the Infinite Saber Sect, dressed in Daoist robes, came stepping on void.

Upon their arrival, the other disciples showed great respect.

The successor disciples were exceedingly noble within the Infinite Saber Sect. Anyone who could surpass the sixth level of the Infinite Saber Tower could become a successor disciple of the Infinite Saber Sect. Each successor disciple possessed great strength and potential.

“Your Highness, the successor disciples of the Infinite Saber Sect might provoke you. Please show some mercy in your actions. Otherwise, it would be easy to offend the Infinite Saber Sect, making it difficult to enter the Saber Tomb!”

The voice of Dominator Dark came.

Dominator Dark was hidden in the shadows, invisible to the Infinite Saber Sect’s disciples, nor did they have the qualification to see the Dominator.

A Dominator was an extremely powerful being, even within the Infinite Saber Sect, equivalent to an inner elder, lofty and exalted, and ordinary successor disciples didn’t have the qualification to meet a Dominator.

“Dominator Dark, I feel that the aura of the successor disciples of the Infinite Saber Sect is that of Children of the Universe. Aren’t all the Children of the Universe supposed to have entered the Supreme Hall of Humanity?” Ye Tian communicated telepathically.

Dominator Dark explained, “Your Highness, in fact, only half of humanity’s Children of the Universe are concentrated in the Supreme Hall of Humanity, and the other half are mostly located within the nine supreme powers.

For example, a supreme power like the Infinite Saber Sect’s successor disciples were Children of the Universe. As successor disciples in the Infinite Saber Sect, their treatment is not inferior to that in the Supreme Hall of Humanity.

Therefore, the nine supreme powers only send some of the weaker successor disciples to the Supreme Hall of Humanity. The truly outstanding successor disciples are retained in their own factions.

Your Highness, you might have also noticed that many princes in the Supreme Hall of Humanity come from star fields outside the Sacred Realm of Humanity.

The overall strength of the Sacred Realm of Humanity even surpasses the combination of other star fields. The reason why only so many princes have entered the Supreme Hall of Humanity is due to the nine supreme powers.”

“Dominator Dark, in that case, if other Children of the Universe joined the nine supreme powers, wouldn’t that also be good? Why do they all join the Supreme Hall of Humanity?” Ye Tian asked curiously.

“Because of the rules!” Dominator Dark said, “The Supreme Hall of Humanity was established by the Supremes of the nine supreme powers, so they cannot compete with the Supreme Hall of Humanity for other Children of the Universe.

Moreover, some opportunities and treatments are only available to the princes of the Supreme Hall of Humanity, which the successor disciples of the nine supreme powers cannot enjoy.

For example, the title of ‘Your Highness’ can only be used by the princes of the Supreme Hall of Humanity, and these successor disciples cannot use it.

Furthermore, many opportunities outside of humanity are also unavailable to the successor disciples of the nine supreme powers.

For example, in the last ruin world, the successor disciples of the nine supreme powers were not qualified to go.

Of course, by not going to the ruin world and other places of opportunity, the successor disciples of the nine supreme powers are exposed to fewer dangers.

As a result, the successor disciples of the nine supreme powers face almost no danger, while the princes of the Supreme Hall of Humanity often need to fight for the glory of humanity, leading to many casualties.

In comparison, successor disciples are safer, but they generally lack the willpower and the ability to face life and death situations like the princes of the Supreme Hall of Humanity, resulting in far fewer strong figures and prodigies emerging among successor disciples than those cultivated by the Supreme Hall of Humanity.”

After Dominator Dark explained, Ye Tian understood the gist.

Simply put, these successor disciples were just flowers in a greenhouse, lacking nothing in talent and resources but missing the willpower and the ability to confront life and death situations.

Of course, this did not mean that true powerhouses and prodigies could not emerge among the successor disciples, but they were extremely rare, with a very low probability.

“So, you are the prince from the Supreme Hall of Humanity?” One of the three God level successor disciples, Disciple Lei Dao, approached Ye Tian and asked.

“Do not disturb me!” Ye Tian replied indifferently and then closed his eyes to rest.

Disciple Lei Dao was angered, feeling disregarded.

In the Infinite Saber Sect, he was a highly esteemed successor disciple with limitless potential, and yet he was being ignored.

Although Ye Tian came from the Supreme Hall of Humanity, Disciple Lei Dao felt superior to him.

In his view, the princes of the Supreme Hall of Humanity were only so powerful, many not even as strong as him.

“A message came from the high ranks of the Infinite Saber Sect. A prince from the Supreme Hall of Humanity wants to enter our Infinite Saber Sect’s Saber Tomb and even brazenly claims to challenge the Infinite Saber Tower, aiming to surpass the ninth level.

Hehe, do you know what surpassing the ninth level of the Infinite Saber Tower signifies? A God level Child of the Universe who has never challenged the Infinite Saber Tower is far too dismissive of our Infinite Saber Sect's Infinite Saber Tower," Disciple Lei Dao said coldly.

At this moment, the other disciples of the Infinite Saber Sect started shouting, "Disciple Lei Dao, teach this prince from the Supreme Hall of Humanity a lesson, and show him the prowess of our Infinite Saber Sect's successor disciples!"

"Our Infinite Saber Sect's successor disciples are the invincible ones among their peers, the most formidable!"

"Disciple Lei Dao, make your move, glorify our Infinite Saber Sect!"

High above.

Dominator Dark was standing in front of Dominator Blood Jade.

"Dominator Blood Jade, your Infinite Saber Sect's successor disciples are provoking the Prince of Ten Thousand Laws. Aren't you going to stop them? Otherwise, your successor disciples might be in trouble! You should know the Prince of Ten Thousand Laws's strength. Even though he has only recently become a ninth-tier God, these successor disciples are far from his match," Dominator Dark said.

Dominator Blood Jade smiled slightly, "Why stop them? It's good for these successor disciples to suffer a bit, to prevent them from being too arrogant."

Seeing that Dominator Blood Jade didn't care, Dominator Dark also lost interest.

However, since Dominator Blood Jade was already present, the lives of these successor disciples were no longer a concern, and Dominator Dark was not afraid that the Prince of Ten Thousand Laws would accidentally kill these successor disciples.

At this moment.

Disciple Lei Dao, encouraged by many disciples, challenged Ye Tian, "You, the prince from the Supreme Hall of Humanity, I challenge you. Will you accept?"

Disciple Lei Dao, holding his saber, pointed it at Ye Tian and asked.

“Not interested!” Ye Tian replied indifferently.

“You should know this is the Infinite Saber Sect, not a place where you can just refuse a challenge. If you don’t accept, you won’t be able to wait peacefully for these three days,” Disciple Lei Dao threatened.

Then.

Ye Tian stood up and said, “Come at me together, so you won’t bother me one by one!”

This statement was extremely arrogant, infuriating Disciple Lei Dao and the other two successor disciples, as well as many disciples of the Infinite Saber Sect.

“I alone am enough to defeat you. Let’s go to our Infinite Saber Sect’s fighting platform!” Disciple Lei Dao said.

“Let’s go!” Ye Tian, with his hands behind his back, spoke lightly.

Whoosh whoosh! Ye Tian and Disciple Lei Dao flew towards a fighting platform of the Infinite Saber Sect. After all, they were both God level powerhouses, not ordinary ones at that, with tremendous destructive power. The fighting platform was capable of withstanding their attacks and was a suitable place for a duel.

Other disciples of the Infinite Saber Sect followed, and even some Planetary System level and Galaxy level powerhouses of the Infinite Saber Sect came over to watch the excitement.

On the fighting platform.

Ye Tian and Disciple Lei Dao stood facing each other.

“You make the first move! Otherwise, you won’t have the chance to!” Ye Tian said.

“Don’t underestimate me!” Disciple Lei Dao roared and then displayed a saber technique.

This was not an Ultimate Saber Technique but a Supreme-level saber technique. However, Disciple Lei Dao was carving his own path with this technique, its power even three times stronger than that of an ordinary Supreme-level perfected saber technique.

This strike was extraordinary!

“A third-tier peak Child of the Universe!” Ye Tian judged instantly.

Such strength was indeed commendable, strong even in the Supreme Hall of Humanity’s Mysterious Region, but still too weak in his eyes.

Ye Tian didn’t even dodge or launch an attack but just put up his defense.

Boom!!! Disciple Lei Dao, merging with his saber, slashed with an incredible momentum towards Ye Tian, the powerful upper-grade divine saber seeming to pierce directly into Ye Tian’s chest.

But at that moment.

A wave of spatial fluctuation froze the space around them, and Ye Tian’s two fingers forcefully clamped down.

Under Disciple Lei Dao’s horrified gaze, his saber technique was stopped, and even the upper-grade divine saber in his hand was clamped between two fingers, almost completely immobilized.

“Free!”

“Free up!”

Disciple Lei Dao exerted all his strength, trying to break free and escape.

But with the void frozen and the terrifying spatial pressure acting upon him, he was unable to move at all.

“You are too weak!” Ye Tian looked at Disciple Lei Dao, speaking as if he were addressing an ant.

Then, with a gentle palm strike on Disciple Lei Dao’s body, he shattered the divine armor on him, and the terrifying shockwave sent him flying back.

With a thunderous sound, Disciple Lei Dao’s body crashed at the other end of the fighting platform, colliding harshly with the surface.

Then, Disciple Lei Dao vomited blood, his aura extremely weak, almost losing his combat ability.

“Impossible, how can you be so strong!!!” Disciple Lei Dao was in shock, his eyes filled with disbelief.

Chapter 549: The Saber Tomb, Entrance

This moment not only dumbfounded Disciple Lei Dao, but also shocked the onlooking disciples of the Infinite Saber Sect.

Disciple Lei Dao was an extraordinary figure, the pride of their Infinite Saber Sect! As one of the three God-level successor disciples, his status was extremely high, almost invincible within the God level.

To Disciple Lei Dao, even the top-tier God-level disciples were like ants, no match for him at all.

Moreover, not even a few Princes of the Supreme Hall of Humanity from the Infinite Saber Sect could match up to Disciple Lei Dao.

However, now Disciple Lei Dao had been easily defeated by Ye Tian, as if an ordinary disciple was facing a successor disciple. The gap was too vast!

“Nothing is impossible, you are indeed too weak!” Ye Tian spoke in a very calm tone.

“You....”

Disciple Lei Dao was furious but had no way to refute.

Ye Tian was indeed too powerful, so much so that he couldn't fathom Ye Tian's actual combat strength.

But without a doubt, Ye Tian must be an Eternal-level Prince!

“Does anyone else want to challenge me?” Ye Tian asked.

At this moment, the other disciples remained silent, and even the other two successor disciples stepped back a few steps, not daring to challenge Ye Tian.

Their strength was similar to that of Disciple Lei Dao. Since Disciple Lei Dao was instantly defeated, they wouldn't stand a chance even if they attacked together.

In the blink of an eye, three days passed! The Infinite Saber Tower opened!

Swish, swish, swish!!!

Numerous disciples of the Infinite Saber Sect entered the Infinite Saber Tower.

Each time the Infinite Saber Tower opened, many disciples would enter, as overcoming each layer would significantly change their status and treatment in the future.

Additionally, many talented disciples from afar also entered the Infinite Saber Tower. If they could reach a certain standard, they could become disciples or even successor disciples of the Infinite Saber Sect.

Ye Tian also entered the Infinite Saber Tower at this time.

Disciple Lei Dao and the other two successor disciples didn't enter the Infinite Saber Tower. They were already successor disciples and didn't need the Infinite Saber Tower to prove themselves. Besides, they knew they couldn't overcome a higher layer, so entering was a waste of time.

"Disciple Lei Dao, do you think this person can overcome the ninth layer?"

One of the three God-level successor disciples, Disciple Qingchen, asked with a smile.

"How is that possible? It took us three immense effort to overcome the seventh layer, and the eighth and ninth layers are even more monstrous. As far as I know, even the first-tier Eternal-level Princes can't overcome the ninth layer, only the legendary Invincible Eternal-level Princes can.

Although I don't know the origins of this person, I've heard that in this era of the Supreme Hall of Humanity, there are no first-tier Eternal-level Princes. Moreover, not long ago, the Supreme Hall of Humanity seemed to have participated in a grand era where many Eternal-level Princes fell. This person must have risen from that event, probably a second-tier Eternal-level Prince.

Even if he were a first-tier Eternal-level Prince, he still couldn't overcome the ninth layer."

Disciple Lei Dao said with a cold laugh.

"Right, the ninth layer of the Infinite Saber Tower is too difficult. We intentionally made it so hard to block others from overcoming the ninth layer."

Disciple Qingchen nodded, agreeing with Disciple Lei Dao's words.

Just then, a disciple shouted.

"Quick! Someone has already reached the fourth layer, such a fast speed!"

The fourth layer of the Infinite Saber Tower shone brightly, a sign that someone had reached the fourth layer.

Soon, the fifth layer also lit up.

Not long after, the sixth layer lit up too!

“It’s that Prince from the Supreme Hall of Humanity!” Disciple Lei Dao and the others murmured.

On the seventh layer of the Infinite Saber Tower.

Ye Tian stood in the void of this layer, surrounded by numerous foreign races launching an assault on him.

These foreign races were incredibly realistic and skilled in various aspects. If a Prince’s strength wasn’t very strong, and they had even the slightest flaw, they wouldn’t be able to overcome this obstacle.

But for Ye Tian, this level was still very simple.

“Primordial Vines!”

With a wave of his hand, countless Primordial Vines swept across all directions, grinding numerous copies of the foreign races to dust.

In an instant, Ye Tian overcame the seventh layer.

The eighth layer was more challenging. Without the strength of an Eternal-level Prince, it would be tough to overcome this layer.

But Ye Tian still easily passed through the eighth layer of the Infinite Saber Tower. Finally, Ye Tian reached the ninth layer of the Infinite Saber Tower.

This layer had only ten opponents, but each one possessed the combat strength of a first-tier Eternal-level Prince, making it many times more difficult.

Ye Tian's strength was infinitely close to the Supreme level. Not to mention that these ten opponents were only first-tier Eternal-level Prince combatants, even if they were ten typical Invincible Eternal-level Princes, Ye Tian wouldn't fear them and was confident in victory!

"Kill!"

Ye Tian didn't hold back, showcasing terrifying combat power.

Boom, boom, boom!!!!

One after another, the copies of the first-tier Eternal-level Princes were shattered by Ye Tian's Heavenly Moon Saber. In a short time, Ye Tian successfully annihilated all ten opponents.

Buzz!!!! The ninth layer of the Infinite Saber Tower shone brightly.

At this moment, Disciple Lei Dao and the others' pupils shrank, unable to believe what they saw.

"H-he overcame the ninth layer of the Infinite Saber Tower!"

Disciple Lei Dao swallowed hard, his face filled with horror.

At this point, he finally understood Ye Tian's strength.

"An Invincible Eternal-level Prince. I dared to provoke such a prince!"

Disciple Lei Dao wiped the sweat from his forehead.

This was a legendary prince, after all. In the eyes of such a prince, even though he was a peak Child of the Universe, he was almost like an ant.

According to the secret lore of the Infinite Saber Sect, anyone who could become an Invincible Eternal-level Prince was destined to achieve greatness beyond even the Dominators.

Such a prince, even a Dominator would not wish to offend lightly, let alone him!

High above.

Dominator Dark was not at all surprised by Ye Tian overcoming the Eternal-level Prince. As Ye Tian's protector, he knew Ye Tian better and was truly aware of Ye Tian's rapid progress and defiance of the heavens.

Of course, having been warned by the Supremes, he naturally would not disclose Ye Tian's situation.

Dominator Blood Jade was incredibly surprised. In his view, Ye Tian was an Invincible Eternal-level Prince when he was at the Emperor level. Now that he had become a God level and had not accumulated much at the God level, logically, he should have fallen by at least one level, if not two, at most a second-tier Eternal-level Prince.

Therefore, he believed that Ye Tian could at most overcome the eighth layer, but not the ninth.

"Dark Dominator, the Prince of Ten Thousand Laws only broke through to the God level not long ago. How has he so quickly returned to the strength level of an Invincible Eternal-level Prince?" Dominator Blood Jade asked curiously.

Dominator Dark casually said, "The Prince of Ten Thousand Laws's progress is very fast. It's inappropriate to compare ordinary Eternal-level Princes with the Prince of Ten Thousand Laws. Moreover, the Prince of Ten Thousand Laws possesses a God-level time talent, allowing him to accelerate time by hundreds of times. It's normal for him to progress quickly!"

"..."

Dominator Blood Jade didn't know what to say.

He didn't believe Dominator Dark's words. Time acceleration was indeed incredible, but some aspects couldn't be improved just by accelerating time.

If strength could be improved just by accelerating time, since their Infinite Saber Sect also had time acceleration cultivation sites, wouldn't everyone be able to become strong? But seeing that Dominator Dark clearly didn't want to speak further, he knew it was futile to ask.

Wow!!! Ye Tian walked out of the Infinite Saber Tower, ignoring the disciples of the Infinite Saber Sect.

Then, Dominator Dark silently took Ye Tian away, following Dominator Blood Jade to the Infinite Saber Sect's Saber Tomb.

According to the rules, since Ye Tian had overcome the ninth layer of the Infinite Saber Sect, he was now entitled to enter the Saber Tomb. The Infinite Saber Sect couldn't renege on this, or it would tarnish their reputation.

Before long, they arrived at the Saber Tomb.

"This is the entrance to the Saber Tomb!"

Dominator Blood Jade pointed to a mountain of sabers in front of them.

Ye Tian looked over and saw a mountain with a multitude of sabers planted in the ground, their saber auras enveloping the peak.

Moreover, many divine-grade sabers were among them. The countless saberse gathered together, creating an incredibly terrifying saber aura capable of suppressing ordinary divine warriors.

However,

"This probably isn't the real Saber Tomb!" Ye Tian speculated.

As expected.

Dominator Dark activated his power, splitting the entire mountain of sabers to create a crevice.

Deep within the crevice, Ye Tian saw a stone gate.

“Go ahead, remember not to venture too deep into the Saber Tomb, or if you’re injured by the sword aura, don’t blame me for not warning you!” Dominator Blood Jade warned.

“Thank you for the reminder, Dominator Blood Jade!”

Ye Tian nodded and then stepped into the crevice, entering the stone gate.

Beyond the stone gate, the world transformed.

On a vast land, Ye Tian stood alone, his divine consciousness scanning the surroundings.

He only saw countless fragments of sabers buried in the ground, the occasional waft of saber aura proving their existence.

“All ancient saberes, filled with the traces of years and an ancient aura!” Ye Tian murmured.

The Saber Tomb wasn’t a treasure trove for non-swordsmen, as the vitality here wasn’t rich, but it was a real treasure trove for swordsmen, invaluable.

The greatest benefit of the Saber Tomb was to experience the life of a saber, to feel the true essence of a sword.

For example, a saber that accompanied its master through countless battles, just before breaking, would be sent to the Saber Tomb. After eons of evolution and the special rules of the Saber Tomb, the life of the sword was preserved, allowing later generations to feel the essence of the saber, understand its emotions, etc.

Such insights were incredibly precious to swordsmen! And once a saber’s life was comprehended by a swordsman, it would once again be covered in dust, only to reveal its life again after long periods of evolution.

Thus, the Infinite Saber Sect strictly controlled the quotas for the Saber Tomb. Even successor disciples had only one chance in their lifetime to enter the Saber Tomb.

If the quotas weren't limited, the Saber Tomb would lose its value.

As for which sabers could allow swordsmen to feel the essence and life experience of a saber, that was easy to recognize. Sabers displaying phantom images and glows were the ones.

Ye Tian flew slowly, searching for the target saberes.

Soon, he spotted a half saber stuck in a rock emitting a faint glow and phantom images from afar.

“Found it!”

Ye Tian teleported over, standing in front of the half saber.

Chapter 550: God level, Supreme Prince!

Gazing at the broken saber in front of him, Ye Tian reached out to touch it.

As soon as Ye Tian made contact with the broken saber, countless images flooded into his soul, revealing the past of this saber within his consciousness.

“The Green-Red Saber!”

This was an upper-grade divine artifact, once wielded by a Great God level powerhouse. After fifty thousand years of conquest, it had broken in half and was collected by the Infinite Saber Sect, to be placed within the Saber Tomb.

Now, Ye Tian could sense the essence of the saber, along with its emotions, will, and even the saber techniques that had been performed with it.

Time slowly passed, and three hours had gone by.

Ye Tian released his hold on the broken saber and shook his head.

This time, the gain was minimal, mainly because the experiences of this saber were ordinary, and the level it reached was relatively low, which made it of little use to him. However, it was of some minor help.

By now, the broken saber had lost its luster and was of no use anymore, waiting only for the long years to evolve it once again.

Ye Tian left the place, continuing his search for other sabers.

There were many sabers in the Saber Tomb, but since it had been opened many times, many of the sabers had become quite ordinary and of no use.

In the blink of an eye, five days had passed.

In these five days, Ye Tian had encountered six useful sabers. With the help of these six sabers, his understanding of the essence of sabers deepened a bit, but it was far from transformative.

“I’m currently on the outskirts of the Saber Tomb, far from the core area. The closer to the core of the Saber Tomb, the better the essence of the sabers, and the more useful the sabers.” Ye Tian thought to himself.

However, venturing deeper into the Saber Tomb was quite dangerous due to the saber qi permeating the air.

This saber qi, like oxygen, continuously penetrated into the body. However, unlike oxygen, which is harmless to the body, saber qi is aggressive. If a God level being with weak strength were to be hit by the saber qi, their physical body would be shattered and they would die.

But Ye Tian was quite confident in himself.

His physical body was far superior to other beings above the God level. Although his celestial power was not as strong as some True Gods or Great Gods, his body’s endurance far exceeded

many beings above the God level, making it easier for him to withstand the impact of the saber qi from the Saber Tomb.

“Forward!”

Ye Tian flew towards the depths of the Saber Tomb, ready to enter the inner area and look for higher quality sabers.

As soon as he entered the inner area of the Saber Tomb, Ye Tian discovered a top-tier divine black saber. Although this top-tier divine saber was full of cracks, as if it was about to shatter, it was still in good condition.

The fact that a top-tier divine artifact had such cracks meant it must have gone through a fierce battle.

The majority of this top-tier divine black saber was buried in the soil, with its blade stuck into the ground.

Ye Tian approached and grasped the hilt of this top-tier divine long saber, feeling the life experiences of this long saber and the essence of the saber.

Gradually, Ye Tian became immersed in his perceptions.

Thus, a day went by.

“It was actually the personal saber of a Galaxy level powerhouse, who had fought for a million years. Moreover, it was from an era when humanity was still oppressed by myriad races and had not yet become a major cosmic race. He fought for humanity, nourishing his saber technique with endless slaughter, truly perceiving the essence of saber techniques through combat!”

Ye Tian took a deep breath, gaining a deeper understanding of the saber dao.

Releasing his grip, Ye Tian continued his search for other sabers.

As days passed, Ye Tian found more and more sabers in the inner area of the Saber Tomb, deepening his understanding of the essence of sabers.

This assistance was more direct than secluding himself to ponder the saber dao and allowed Ye Tian's saber dao foundation to improve more directly.

Ye Tian had already figured out how to improve his Ultimate Saber Technique, the Heavenly Moon Saber, but due to insufficient foundation, he found it difficult to elevate his Ultimate Saber Technique to the peak level.

It was like knowing what to do for a task but lacking experience, making the first attempt clumsy. This was the difference between experience and foundation.

Ye Tian's time in the Saber Tomb was not infinite; otherwise, how would others find useful sabers when the Saber Tomb opened next time?

He could only stay in the Saber Tomb for three months. Once the time exceeded three months, he would be expelled by the Saber Tomb.

Now, Ye Tian had already spent over a month in the Saber Tomb, and not much time was left.

"I must enter the core area!" Ye Tian decided.

Whoosh! Ye Tian flew rapidly towards the core area.

As soon as he entered the core area, terrifying saber qi surged towards him.

Instantly, Ye Tian's physical body endured immense pain, as if he was being cut by thousands of sabers.

"The saber qi in the core area is truly terrifying. I guess even Great God level powerhouses can't protect their physical bodies here with just their divine power," Ye Tian speculated.

Fortunately, his physical strength was strong enough.

Barely managing to walk in the core area with his celestial power protecting his body, he couldn't approach the very core.

However, in the core area, Ye Tian dared not fly too fast. Most of his strength had to be used to protect himself, or he wouldn't withstand the impact of the saber qi.

Days passed, and in the blink of an eye, ten days had gone by.

One day, Ye Tian saw a saber, or rather, a saber tip, emitting strong light and ethereal echoes, floating in mid-air.

"This is an Origin Artifact!" Ye Tian recognized.

He possessed a defensive armor of Origin Artifact level, so he was quite familiar with Origin Artifacts.

Although this Origin Artifact was only a saber tip, its value was immeasurable.

However, things here could not be taken away, and Ye Tian didn't covet the Origin Artifact. But the life story of this Origin Artifact was of great help to Ye Tian, equivalent to the essence of dozens of top-tier divine sabers.

Whoosh! Ye Tian flew over and touched the saber tip of the Origin Artifact.

Boom! Countless images emerged, and Ye Tian was instantly immersed in the understanding of the saber's essence and the life experiences of this saber artifact.

Numerous battles, countless slaughters! Insights into numerous saber techniques, realizations of the essence of numerous saber daos! Ye Tian seemed to have entered a state of sudden enlightenment, taking a long time to emerge from his deep contemplation of the saber's essence.

Days passed in this manner.

In the blink of an eye, half a month had gone by. The Origin Artifact saber tip had completely lost its glow, turning into ordinary Origin Artifact fragments and falling to the ground.

Ye Tian slowly opened his eyes, and in that moment, his gaze seemed to reveal a world of sabers.

“It was actually a saber of a Universal God. Unfortunately, that Universal God was killed alongside this saber by enemies, and even the Origin Artifact was shattered!” Ye Tian lamented.

However, it was undeniable that the help he received from this Origin Artifact saber tip far exceeded that of top-tier divine artifacts, even surpassing the sum of his previous accumulations.

“There’s still a bit of time left. I hope to find a second Origin Artifact level saber!”

Ye Tian continued his search, and his luck was good this time. In just one day, he found a second Origin Artifact level saber.

This saber only had a hilt left but was still considered a part of an Origin Artifact.

With the help of this Origin Artifact, Ye Tian continued to comprehend the essence of the saber and accumulate his foundation.

“Three months have passed. Prince of Ten Thousand Laws should be coming out!”

Dominator Dark stood under the saber mountain at the entrance of the Saber Tomb, murmuring. Beside him, Dominator Blood Jade was also waiting.

This place was, after all, the site of the Infinite Saber Sect. Naturally, he was not at ease with Dominator Dark being here alone. In case Dominator Dark did something, he would bear a great responsibility.

Although the possibility was small, Dominator Blood Jade did not want to take the risk.

Boom! The saber mountain split open, and the entrance to the Saber Tomb opened.

A figure, accompanied by light, was sent out. It was Ye Tian.

“Your Highness, we should leave now!” Dominator Dark said.

“Alright!” Ye Tian looked at Dominator Dark and nodded slightly.

Then, Ye Tian bid farewell to Dominator Blood Jade and left with Dominator Dark, leaving the Infinite Saber Sect.

Not long after, Ye Tian returned to the Mysterious Region of the Supreme Hall of Humanity.

Shortly after coming back, Ye Tian entered a complete state of seclusion.

He intended to sort through and comprehend all the gains from his time in the Saber Tomb, to make one final push and create a peak-level Ultimate Saber Technique.

Three years later.

One day, an extremely strong saber dao aura suddenly emanated from Ye Tian’s cultivation chamber.

Although Dominator Dark was not cultivating in Ye Tian’s cultivation tower, he had always been paying attention to Ye Tian’s situation.

“This aura...”

Dominator Dark noticed and was slightly surprised.

“Such speed, the talent of Prince of Ten Thousand Laws is indeed against the heavens. He has created a peak-level Ultimate Saber Technique so quickly. With this, the prince’s strength must have stepped into the Supreme level!” Dominator Dark thought to himself.

He did not report this news to the Supremes, not only because it was unnecessary but more importantly, because he was now Ye Tian's guard and did not need to do anything else.

In the cultivation tower.

As soon as Ye Tian created the peak-level Ultimate Saber Technique, he immediately entered the Phantom World Battle Tower.

He wanted to test whether his strength had truly reached the level of a Supreme Prince.

In the battle tower, on the tenth floor.

A clone of a Supreme Prince appeared.

The last time Ye Tian faced this clone of a prince, he was defeated within a few moves.

But this time, Ye Tian was not afraid.

At the beginning, Ye Tian activated all his defensive measures and also used his spatial divine ability, the Ten Thousand Layer Realm.

Then, he cast Time Stasis, affecting the clone of the Supreme Prince.

Finally.

“Heavenly Moon Saber! Slash!”

The peak-level Ultimate Saber Technique erupted, turning into an astonishing saber light, seemingly tearing through space and time, slashing towards this clone of the Supreme Prince.

With a loud boom, the clone of the Supreme Prince was sent flying.

Boom! An intense battle began, and Ye Tian kept fighting. Although it was difficult to injure this clone of the Supreme Prince, he could now directly confront it.

During this battle, an hour passed.

Suddenly.

Ye Tian left the battle tower, which meant he had passed the tenth floor and possessed the combat power of a Supreme Prince.

“I’ve passed the tenth floor, albeit barely, by dragging out the time rather than defeating the opponent, but I’m still the weakest among the God level Supreme Princes!”

Ye Tian said with a smile.

Returning to the strength of a Supreme level, Ye Tian was in a good mood but thought about advancing to the True God level.

There was no need to rush to the True God level as he could still improve at the God level.

He was walking the path against the heavens. Advancing from God level to True God level required facing six thunder tribulations, each incredibly terrifying. Even with the power of a newly entered Supreme Prince, it wasn’t necessarily safe, so Ye Tian had to ensure his strength was against the heavens before attempting.
