Chapter 551: The Quarrel Among the Supremes

In the days that followed, Ye Tian focused his main energy on the third set of movements in the Eighteen Golden Bodies Technique and the creation of Chaos Divine Canon Secret Techniques. As for other aspects, he occasionally made improvements.

The third set of movements of the Eighteen Golden Bodies Technique required a long time to cultivate and necessitated the accumulation of time, thus impatience was not an option.

However, Ye Tian was nearly at the point of perfecting the third set of movements, and at his level of divinity, he could continue to cultivate the fourth set of movements.

Once he mastered the fourth set of movements, Ye Tian couldn't even imagine to what extent his physical strength would reach.

Time flew by, and six years passed.

One day, Ye Tian successfully perfected the third set of movements of the Eighteen Golden Bodies Technique. His physical strength surged, and his power increased explosively.

Ye Tian was surprised to discover that with the completion of the third set of movements, he also made significant progress in the aspect of celestial power, finding it easier to compress his celestial power.

"Eightfold celestial power! Not bad, at this rate, compressing the celestial power to tenfold won't be far off!" Ye Tian expressed his satisfaction.

That day, a piece of news arrived.

"Zhou Tian has become a Child of the Universe!"

Ye Tian wasn't surprised at all. With Zhou Tian's mastery in the Dao of the Saber, coupled with the cultivation environment of the Supreme Hall of Humanity, becoming a Child of the Universe was not difficult at all.

“After all, he is my first disciple. I should go see him!” Ye Tian stood up and headed to the Yellow Region.

Ordinarily, princes were not allowed to cross regions, but Ye Tian was an exception. His status was quite unique, and his permissions were high, even higher in some aspects than those of princes in the Heaven-tier regions.

Thus, he could freely enter and exit the Yellow and Mysterious Regions.

In the Yellow Region.

Just after Zhou Tian, following the suggestion of the Phantom Spirit Butler, passed the assessment of a medium cultivation tower and successfully settled in the tower, he thought to himself, “Finally, I’ve entered the Yellow Region of the Supreme Hall of Humanity. My master is in the Mysterious Region. As long as I diligently cultivate, even if I can’t match Master’s strength, at least I hope to be in the same area as him.”

Suddenly, a voice came from outside.

“Zhou Tian!” This voice was incredibly familiar, and Zhou Tian hurriedly walked out of the cultivation tower.

“Master!” Zhou Tian exclaimed joyfully, and then approached Ye Tian, performing a disciple’s salute.

Then, he said, “Master, please come in!” Ye Tian nodded with a smile and followed Zhou Tian into his cultivation tower.

In the first-floor hall of the cultivation tower, Ye Tian sat above, while Zhou Tian took a seat beside him.

“Master, I thought I had to enter the Mysterious Region to see you. I didn’t expect you to come so soon!” Zhou Tian said in surprise.

“You are, after all, my disciple. Hearing that you became a Child of the Universe, I came to see you. Originally, when you were among the nine-star Heavenly Prides, I could have come

to see you, but I thought that would affect your cultivation in the Supreme Hall of Humanity, so I didn't plan to go," Ye Tian said indifferently.

Zhou Tian nodded slightly, understanding Ye Tian's approach.

After chatting for a while...

Suddenly, Ye Tian said, "Zhou Tian, it's estimated that before long, you will inherit a Divine Canon of the Supreme Hall of Humanity. The Divine Canons are an extremely important inheritance for humanity and an indispensable method for Children of the Universe to enhance their strength at the emperor level.

I chose the strongest Supreme Divine Canon, the Supreme Chaos Divine Canon, for myself.

But I don't want you to choose this canon because it requires cultivators to gather twelve basic attribute divine talents to cultivate the Chaos Body Refining Technique to perfection, and you only have one or two God-level basic attribute talents, which is far from enough.

Therefore, this Supreme Divine Canon is not suitable for you. I suggest you choose the Supreme Divine Canon of the Saber Dao, second only to the Supreme Chaos Divine Canon, and the most suitable path for you.

Of course, the difficulty of cultivating a Supreme Divine Canon is great, and ordinary princes dare not choose it, but I believe in you!"

"Master, I understand!" Zhou Tian nodded.

Then, Ye Tian gave some advice, aiming to prevent Zhou Tian from taking unnecessary detours.

As for secret techniques and treasures, Ye Tian did not bestow any.

For a Child of the Universe, external objects are basically not that important; enhancing one's own strength is what matters most.

Ye Tian couldn't provide too much help to Zhou Tian, as their paths were different. Forcibly aiding Zhou Tian would only change his path, which wouldn't be beneficial for him.

Ye Tian stayed with Zhou Tian for a few hours before leaving and returning to the Mysterious Region.

Ye Tian was now one of the most precious and monstrous geniuses of the human race. Naturally, the human race wouldn't neglect him, especially considering Ye Tian's contributions. Therefore, whenever there were opportunities that could greatly benefit Ye Tian, the Supreme Hall of Humanity would think of him first.

Thus, one day, several Supremes of the human race began to discuss a significant opportunity that involved Ye Tian.

Inside a mysterious hall within the Supreme Hall of Humanity, Kunwu Supreme, Curse Supreme, and Qing Emperor Supreme, three Supremes who resided permanently in the Supreme Hall, were present, along with the avatars of other Supremes.

At that moment, eight of the twelve greatest Supremes had arrived, and more than ten ordinary Supremes were also present.

So many Supremes had gathered because of one matter.

"The World of Heavenly Dao Fragments is about to open. According to the rules of the past, each of the nine Supreme-level forces has two slots, meaning the Supreme Hall of Humanity has a total of eighteen slots, and these slots must be allocated to princes at the True God level and above.

Additionally, there are three slots for some loose cultivators obtained through auction.

This has been the arrangement for many sessions, but it seems Kunwu Supreme has some opinions. Is that the case?"

The speaker was one of the Supremes of the Infinite Saber Sect—Infinite Supreme, who was also the founder of the Infinite Saber Sect and one of the twelve Supremes.

Only one of the twelve Supremes dared to speak like this. Otherwise, ordinary Supremes wouldn't dare to say such a thing, for fear of offending Kunwu Supreme. Kunwu Supreme looked at Infinite Supreme and said solemnly, "Indeed, that was the rule in the past, but things are different now."

I suggest we give one of the slots to our Prince of Ten Thousand Laws from the Supreme Hall of Humanity. I believe he rightfully deserves this slot!"

Divine Blade Alliance's Divine Blade Supreme frowned and said, "Kunwu Supreme, the Prince of Ten Thousand Laws is only at the God level, which doesn't meet the standard. We can't just break the rules for the Prince of Ten Thousand Laws, can we?"

"Yes, the Prince of Ten Thousand Laws is only at the God level. This doesn't follow the rules!"

"If we break the rules for the Prince of Ten Thousand Laws this time, wouldn't we have to break them for other princes or inheritors next time? Then what's the point of having these rules?"

One Supreme after another rebutted, unafraid of offending Kunwu Supreme due to their numbers.

Seeing that many Supremes were opposed, Kunwu Supreme still insisted, "Everyone, don't forget, the Prince of Ten Thousand Laws has contributed various inheritances and treasures to the human race, even contributing the strongest Supreme Treasure, as well as the Celestial Body inheritance. You have all transformed your divine bodies, divine souls, and divine powers into celestial bodies, celestial souls, and celestial powers, haven't you? Each of your strengths has increased somewhat. More importantly, the overall strength of the nine Supreme-level forces has increased a lot, even doubling the strength of the entire human race."

As long as we continue to develop, it won't be difficult for the human race to surpass the Immortal Race, and we might even have the chance to exceed them."

Doesn't such a contribution deserve a slot?"

The other Supremes fell silent, while Infinite Supreme said, "Kunwu Supreme, the Prince of Ten Thousand Laws' contributions are indeed significant, but we can't just give him a slot because of his high contributions, can we? The World of Heavenly Dao Fragments is so

precious, and you should know that there are too few slots. Giving one to the Prince of Ten Thousand Laws would be depriving other princes of their slots, which would be too unfair to the other princes!”

“Fair?” Kunwu Supreme scoffed, “Do the other princes have the potential of the Prince of Ten Thousand Laws? I could even say that all the princes of the entire Supreme Hall of Humanity combined are not as good as one Prince of Ten Thousand Laws. If the Immortal Race had a Supreme-level prince, they would definitely cultivate him desperately. But in our human race, isn’t he even entitled to a bit of preferential treatment?”

“Supreme-level prince?”

Infinite Supreme’s pupils contracted, “Kunwu Supreme, what do you mean? Has the Prince of Ten Thousand Laws become a Supreme-level prince? He only became a God-level not long ago, and although there were rumors that he had the strength of an Invincible Eternal-level prince, there’s a huge threshold between an Eternal-level prince and a Supreme-level!”

Kunwu Supreme fell silent for a moment, then publicly said, “Well, I’ll reveal a bit to you all. Actually, the Prince of Ten Thousand Laws reached the Supreme-level when he was at the Emperor level, and now at the God level, he has returned to the Supreme-level. This is absolutely true. He recently passed the tenth floor of the battle tower!”

“A Supreme-level Emperor, this...”

Some Supremes suddenly thought of a possibility.

Divine Blade Supreme was stunned, “Kunwu Supreme, did the Prince of Ten Thousand Laws go to the Abyss of Destruction? Did you take him there?”

“Correct!”

Kunwu Supreme nodded, “I took him to the Abyss of Destruction, and he easily broke through the shackles and achieved the Supreme-level prince status.

Furthermore, he has cultivated the Chaos Body Refining Technique to perfection and obtained the inheritance of the Eighteen Golden Bodies Technique, mastering it. Even after becoming a God, he can still continuously enhance his physical strength and toughness.

Combined with his talents, he definitely has the hope of surviving multiple heavenly tribulations.

Everyone, I can't guarantee whether Ye Tian will transcend the universe, but once he becomes a Supreme, he might even be describable as the strongest Supreme.

The human race needs a strongest Supreme. Otherwise, no matter how many ordinary Supremes and Supremes like us there are, how can we compete with the Immortal Race?"

At this point, even Infinite Supreme and Divine Blade Supreme fell silent.

Kunwu Supreme's words were very realistic. The Immortal Race was too powerful, with a large number of Supremes, all of whom were very strong. The strength of the first Divine Lord was terrifying. Ordinary Supremes would be instantly killed by the first Divine Lord, and even a powerful Supreme like Kunwu Supreme couldn't withstand a few moves from the first Divine Lord.

If the Immortal Race wanted to annihilate the human race, it would be very simple.

However, the Immortal Race was restrained by the demon race, and other major universal races wouldn't sit idly by and watch the Immortal Race send troops to other races.

If the human race was content with the status quo, they wouldn't have to worry about the Immortal Race for the time being.

But if the human race wanted to truly stand shoulder to shoulder with the Immortal Race, without a Supreme comparable to the first Divine Lord, they definitely couldn't compete with the Immortal Race and the demon race.

Their potential was almost exhausted, and they couldn't improve any further, so they could only rely on the younger generation.

"Alright, I agree to give the Prince of Ten Thousand Laws a slot!" Infinite Supreme reluctantly nodded.

Divine Blade Supreme and the others also nodded one by one.

Chapter 552: The World of Heavenly Dao Fragments

After unanimous agreement, the Supremes began to determine the quota.

Naturally, the nine Supreme Powers would not give up their own slots. Instead, one was allocated to Ye Tian from the six slots of the Supreme Hall of Humanity.

Once this was settled, the meeting concluded.

Soon after, Ye Tian received a notification from Kunwu Supreme, asking him to visit the Kunwu Pavilion.

Led by Dominator Dark, Ye Tian arrived at the Kunwu Pavilion and met Kunwu Supreme.

“Greetings, Kunwu Supreme!”

Ye Tian greeted Kunwu Supreme with great respect.

Kunwu Supreme looked at Ye Tian and said in a deep voice, “Ye Tian, the reason I’ve summoned you is to bestow upon you a great opportunity. Originally, you were not entitled to this opportunity, but after some persuasion from a few Supremes, we finally managed to secure a slot for you!”

“A great opportunity!”

Ye Tian’s expression changed, showing interest.

If Kunwu Supreme mentioned it as a great opportunity, it must be beneficial to him. Otherwise, there would be no need to summon him. Of course, Ye Tian was no stranger to grand events, having visited places like the Ruin World, so he remained calm.

“Kunwu Supreme, what kind of opportunity is it?” Ye Tian asked calmly.

“The World of Heavenly Dao Fragments!” Kunwu Supreme announced.

“The World of Heavenly Dao Fragments? What is that?”

Ye Tian, hearing this for the first time, was very curious.

“Do you know where the Heavenly Dao Characters originated?” Kunwu Supreme asked with a smile.

“Could it be... the World of Heavenly Dao Fragments?” Ye Tian exclaimed in surprise.

“Exactly!” Kunwu Supreme nodded. “The Heavenly Dao Characters were born from the World of Heavenly Dao Fragments. It is said that such worlds evolved from the surplus universal origins at the dawn of the universe. There aren’t many Worlds of Heavenly Dao Fragments, and they are extremely difficult to find. Even our humanity has only one such world. In this world, Heavenly Dao Characters are born periodically. Of course, acquiring these scripts is not easy. One must defeat the Guardians of Heavenly Dao to obtain them.”

“Guardians of Heavenly Dao?”

Ye Tian was unfamiliar with this term, but as Kunwu Supreme explained, he gradually understood what these guardians were. They were beings evolved from the power of Heavenly Dao Characters, similar to the spirits found in artifacts. These spirits existed solely to protect the Heavenly Dao Characters. Without defeating them, one could not obtain the scripts.

Interestingly, within the World of Heavenly Dao Fragments, the power of Heavenly Dao Characters was incredibly formidable. Beings above the God level who entered the range of a Heavenly Dao Character had their cultivation suppressed and could not exert their full power. Additionally, all other law forces were also suppressed, allowing only the manifestation of the law force represented by that particular Heavenly Dao Character.

For instance, within the range of a Fire Heavenly Dao Character, martial warriors could only utilize the power of fire laws and employ fire-related divine abilities but were unable to use those of the water attribute.

Therefore, even high-level practitioners might not be able to obtain Heavenly Dao Characters. Only those with a deep understanding of certain laws and possessing unique methods could acquire Heavenly Dao Characters in this world.

“Kunwu Supreme, are there Heavenly Dao Characters of time and space in this world?” Ye Tian couldn’t help but ask. While ordinary Heavenly Dao Characters were of little use to him, those of time and space were immensely valuable. Kunwu Supreme shook his head, saying, “It’s unclear. Supremes like us cannot enter the World of Heavenly Dao Fragments due to the suppression by the universal origin, which even we cannot withstand. Those who have entered the World of Heavenly Dao Fragments have not fully explored it, as it is vast and seemingly boundless. There are even rumors that the Worlds of Heavenly Dao Fragments across the universe are interconnected, but due to the immense distances, no two martial warriors from different worlds have encountered each other. Whether this rumor is true remains unknown. However, you should remember that the area near the entrance is where Heavenly Dao Characters are most easily found. Venturing too far makes it nearly impossible to find any. The reason for this is also unknown to me.”

“How fascinating!” Ye Tian became even more intrigued by the World of Heavenly Dao Fragments. He then learned many basic facts about this world from Kunwu Supreme, such as the limitation of staying only one year within the world, after which one would be transported out. Additionally, the entrance fee to this world was 500,000, and the number of martial warriors sent in each time was fixed. For instance, humanity controlled 33 slots for the entrance to their World of Heavenly Dao Fragments. The nine Supreme Powers occupied 27 slots, with each power holding three slots, while the Supreme Hall of Humanity held six slots. Ordinarily, as a God-level practitioner, Ye Tian would not have been allocated a slot, but an exception was made for him. Now, with three months remaining until the opening of the World of Heavenly Dao Fragments, Ye Tian planned to use this time to enhance his strength. In the World of Heavenly Dao Fragments, many techniques were restricted, but one’s physical strength remained unrestricted.

Physical strength belongs to oneself, not an external force, making it difficult to restrict.

Thus, Ye Tian prepared to enhance his physical strength significantly.

Other beings above the God level could not enhance their physical bodies, but he could utilize the Eighteen Golden Bodies Technique to increase his physical strength and durability. He had already completed the first three sets and was fully capable of inheriting the fourth set of movements.

The next day.

Ye Tian entered the Six Paths Reincarnation Pagoda's inheritance space and adopted the fourth set of movements. In an environment where time was accelerated, he quickly succeeded in acquiring the inheritance of the fourth set.

Upon returning, Ye Tian fully utilized the time acceleration ability to cultivate the fourth set of movements.

Day by day, as he cultivated, the fourth set of movements finally reached the introductory level for Ye Tian, and his physical strength improved by another level.

At this point, Ye Tian himself did not know the extent of his strength. Although he was still at the level of a Supreme Prince, he was much stronger than a typical one.

Unfortunately, being the only Prince at the God level, it was difficult to compare with others, leaving him with no reference to estimate his strength.

In the blink of an eye, three months were almost up.

Although Ye Tian had not perfected the fourth set of movements and was far from achieving completion, he could maintain it for a few minutes, marking significant progress.

Outside the Supreme Hall of Humanity.

A cosmic spaceship was docked there.

Led by Dominator Dark, Ye Tian arrived and boarded the spaceship.

Upon entering the spaceship, he encountered a familiar face.

“Prince Qin Chen!”

Seeing an old acquaintance, Ye Tian approached him.

“Prince of Ten Thousand Laws!”

Prince Qin Chen also smiled and came forward upon seeing Ye Tian.

“Prince of Ten Thousand Laws, I didn’t expect you to be here too!”

Qin Chen was quite surprised. Based on his understanding, only those above the True God level had the chance to enter the World of Heavenly Dao Fragments. Ye Tian, being at the God level, surprisingly obtained a slot. However, considering Ye Tian’s current strength, potential, and status, it wasn’t excessive for him to have a slot.

“Prince Qin Chen, your aura seems much stronger than before. You must have stepped into the Eternal Prince level, haven’t you?” Ye Tian inquired.

“Fortuitously!” Prince Qin Chen replied with a smile. “I was lucky to survive in the Ruin World, where I came across a great opportunity. Later, I transformed into a member of the celestial race, which enhanced my potential, allowing me to leap into the Eternal Prince level, essentially returning to this level. I heard the celestial race’s inheritance came from you out of the Ruin World. I owe you a debt of gratitude!”

“Prince Qin Chen, you’re too modest. Even without the celestial race’s inheritance, you had the potential to return to the Eternal Prince level!” Ye Tian said.

“Hahaha, don’t flatter me, Prince of Ten Thousand Laws. I’m well aware of my potential. It was sheer luck that I advanced to the Eternal Prince level this time. After returning from the World of Heavenly Dao Fragments, I won’t stay at this level for long. I plan to challenge the Planetary System level. I’ve spent too long at the Great God level!” Prince Qin Chen lamented.

After chatting for a while, the spaceship took off. Among the six slots from the Supreme Hall of Humanity this time, three were for the Great God level, two for the True God level, and only one, Ye Tian, was at the God level.

The spaceship was swift. In what felt like a moment, they arrived at their destination—the Nanyun Star Field.

One of the thirty-six star fields of humanity, the Nanyun Star Field was considered an above-average star field.

Several cosmic spaceships descended into a quiet expanse of space. Soon after, these ships disembarked a number of True Gods and Great Gods, who were the inheritors of the various Supreme Powers and the six Princes from the Supreme Hall of Humanity.

The successors from the nine Supreme Powers and the six Princes from the Supreme Hall of Humanity did not interact, choosing instead to meditate quietly, waiting for the opening of the World of Heavenly Dao Fragments.

A few hours later.

Boom! Figures appeared, notably the avatars of various Supremes.

“The World of Heavenly Dao Fragments is now open!” the voices of the Supremes announced.

Although the World of Heavenly Dao Fragments had opened, it was hidden too deeply for Ye Tian and the others to perceive due to their cultivation levels.

At that moment, the Supremes’ powers enveloped Ye Tian and the others, tearing through countless spaces, transporting them into the World of Heavenly Dao Fragments.

Whoosh! Ye Tian felt a flicker before his eyes, and he found himself in another expanse of void.

In this void, he experienced an unprecedented level of suppression.

“The World of Heavenly Dao Fragments, I’ve finally entered!” Ye Tian murmured to himself.

...

Kunwu Palace changed to Kunwu Pavilion.

There seems to be an inconsistency with the amount of slots allocated, but it doesn't really matter I guess.

Chapter 553: Xu Kun, Talent of Information Sharing

Far away, the figures of Prince Qin Chen and his companions appeared, not far from where Ye Tian was located. After these princes and inheritors of Dao entered the world of Heavenly Dao fragments, they immediately split up to search for Heavenly Dao Characters.

Ye Tian also set out immediately, searching for Heavenly Dao Characters. However, finding Heavenly Dao Characters also depended on luck; Ye Tian had no way of knowing where the Heavenly Dao Characters were located. Among them, what he desired the most were the ones of space and time. As for other Heavenly Dao Characters, he didn't have much desire for them. But the Heavenly Dao Characters of time and space were extremely rare, making the chances of encountering them very slim.

As Ye Tian aimlessly flew around, his luck wasn't too bad, and after several days, he finally found a Heavenly Dao Character.

"Kill!" Ye Tian looked at the "Kill" Heavenly Dao Character floating in the void in the distance with some interest.

The "Kill" Heavenly Dao Character, representing the power of slaughter, was invaluable to those who walked the path of slaughter. To master Great Divine Abilities of Slaughter, the "Kill" Heavenly Dao Character was essential; otherwise, it would be impossible to cultivate it.

The power of the "Kill" Heavenly Dao Character formed a vast domain, and within this domain stood a figure. The figure's face was unclear, but his body was filled with the power of slaughter. "Guardian of the Heavenly Dao!" Ye Tian thought to himself.

Guardians of the Heavenly Dao protected the Heavenly Dao Characters. If one didn't step into the domain formed by the Heavenly Dao Character, the guardian wouldn't attack. However, if one entered the domain of the Heavenly Dao Character, the guardian would strike.

Within the domain of the “Kill” Heavenly Dao Character, powers such as divine force and celestial force were suppressed. Other divine abilities and secret techniques couldn’t be used, and even the power of chaos was somewhat suppressed.

Additionally, Ye Tian’s ultimate technique, the Heavenly Moon Saber, would also be suppressed to a weak level, unless his Heavenly Moon Saber specifically followed the path of slaughter. However, Ye Tian’s Heavenly Moon Saber wasn’t focused on slaughter; although it contained elements of slaughter, it wasn’t the main aspect. Therefore, it was impossible for Ye Tian to fully unleash the power of the Heavenly Moon Saber.

“I don’t have the Great Divine Ability of Slaughter, and my celestial force is inferior to the True God level and Great God level princes of the human race. However, my advantage lies in my physical strength. This is something that other princes and inheritors simply cannot match, so my strength in the domain of the Heavenly Dao Character might even be stronger than those of the Great God level princes,” Ye Tian thought to himself.

Other princes and inheritors might not be able to defeat the Guardian of the Heavenly Dao in the domain formed by the “Kill” Heavenly Dao Character, but Ye Tian’s chances were greater. Thus, Ye Tian stepped into the domain.

Boom! The Guardian of the “Kill” Heavenly Dao Character awakened. A pair of pupils in the darkness stared at Ye Tian as an intense aura of killing descended.

The Guardian of the Heavenly Dao, wielding a sword of slaughter, flew towards Ye Tian. Swish! A terrifying sword qi of slaughter came slashing, as if it intended to kill Ye Tian with a single strike.

At that moment, Ye Tian activated all his strength and displayed the Primordial Scales Armor. Although most of it was suppressed, he could still achieve some effects. Heavenly Moon Saber! Ye Tian slashed with his saber, and the formless saber qi met the tangible sword qi of slaughter.

Boom! The collision ensued! The Guardian of the Heavenly Dao retreated some distance, and so did Ye Tian. Bang bang bang! Ye Tian and the Guardian of the Heavenly Dao continued to exchange blows, filling the entire domain with saber light and sword light.

“This won’t do; this Guardian of the Heavenly Dao is too powerful. Moreover, it is supported by the power of the Heavenly Dao Character and will never exhaust its strength, even maintaining its peak state indefinitely!” Ye Tian frowned and pondered. Continuing to fight like this would inevitably result in his loss.

Therefore, he had to think of a solution. “Right, the power of the Guardian of the Heavenly Dao comes from the Heavenly Dao Character. If I can separate the Guardian from the Heavenly Dao Character and isolate it from this domain, I can defeat the Guardian of the Heavenly Dao!”

While it might be impossible for others to isolate the Guardian of the Heavenly Dao, Ye Tian had a way.

“Spatial Divine Form!”

With a thought, Ye Tian deployed this spatial divine ability. Although the power of space was also suppressed, reducing the strength of the Spatial Divine Form, it could still be executed. Being able to execute it was enough!

“Xumi Palm!”

Ye Tian’s hand fiercely reached towards the Guardian of the Heavenly Dao. Despite the risk of injury, he arrived above the Guardian’s head. Then, with all his might, Ye Tian activated the Xumi Palm to draw the Guardian into the Xumi Storage Realm.

Boom! The Guardian of the Heavenly Dao desperately attacked Ye Tian, while Ye Tian struggled to draw the Guardian into the Xumi Palm.

Puff puff puff!

Cracks appeared on Ye Tian’s palm, wounds inflicted by the Guardian of the Heavenly Dao, but Ye Tian persisted.

In the end...

With a swoosh, the Guardian of the Heavenly Dao was drawn into the Xumi Storage Realm by Ye Tian and was continuously suppressed layer by layer.

At this moment, the connection between the Guardian of the Heavenly Dao and the Heavenly Dao Character was largely severed, though a small part still remained connected to the inscription.

“Let’s go!” Ye Tian flew swiftly, quickly exiting the domain of the “Kill” Heavenly Dao Character.

Once Ye Tian completely left the domain, the connection between the Guardian and the Heavenly Dao Character was nearly gone. Without the support of the Heavenly Dao Character, the Guardian was like a rootless duckweed.

In a short while, the Guardian was repeatedly worn down by Ye Tian, turning into ashes and dissipating in this world of Heavenly Dao fragments.

Then, Ye Tian entered the domain of the “Kill” Heavenly Dao Character, reached its core, and grasped the “Kill” Heavenly Dao Character.

“Take!”

The “Kill” Heavenly Dao Character gradually merged into Ye Tian’s soul, eventually creating a small soul space within Ye Tian’s soul.

Having obtained this “Kill” Heavenly Dao Character, Ye Tian was in a good mood, as he hadn’t come away empty-handed.

In the following days, Ye Tian wandered around and gradually found a few more Heavenly Dao Characters. Half a year passed in the blink of an eye.

“It’s been half a year already. Although I’ve collected the Heavenly Dao Characters of Kill, Fire, Wood, Water, Life, and Illusion, unfortunately, I haven’t found any traces of the inscriptions for Time and Space!” Ye Tian couldn’t help but sigh inwardly.

Having collected six Heavenly Dao Characters was already a significant achievement, but Ye Tian was far from satisfied. These six characters, no matter how many he collected, wouldn’t be of much help to him.

“This can’t go on. If I continue searching in this area, even if I find a few more ordinary Heavenly Dao Characters, this great opportunity will be just mediocre for me,” Ye Tian thought.

After pondering for a while, he decided to venture deeper into the world of Heavenly Dao fragments. Although Kunwu Supreme had said that venturing deeper would likely yield nothing, it was better than wasting time here! Thus, Ye Tian began to fly deeper into the world of Heavenly Dao fragments, moving as fast as he could.

Time passed slowly, and Ye Tian kept flying, unaware of his destination. One day, a faint light flashed by at such speed that Ye Tian thought it was an illusion.

“What was that just now...?” Ye Tian was incredibly surprised. “A creature!”

Ye Tian was confident in his sensation, although he hadn’t had time to check with his Copy Talent, he was sure he wasn’t mistaken.

“Chase!”

Ye Tian swiftly flew in the direction where the faint light had disappeared, keeping his Copy Talent activated to avoid missing another opportunity.

After chasing for several hours, just as Ye Tian was about to give up, the faint light appeared again. This time, although Ye Tian didn’t catch up, he managed to use his Copy Talent in time to see the other party’s talent and successfully copied it all.

Type: Xu Kun

Bloodline Talent: Universal level

Strength Talent: Mystic

Speed Talent: Mystic

Defense Talent: Mystic

Space Talent: God level

Information Sharing: God level

“Xu Kun!”

This was Ye Tian’s first encounter with such a creature, and it even possessed a God-level Space Talent. In the universe, creatures with God-level Space Talent were extremely rare! Moreover, this Xu Kun moved very quickly, seemingly flying playfully, but its speed almost exceeded Ye Tian’s perception.

In the world of Heavenly Dao fragments, even the powerful were greatly suppressed, indicating that this Xu Kun must be very strong. Although it might not be a Universal God, it was definitely above the Great God level.

“There’s said to be a higher level of Space Talent beyond the God level, but it’s a pity that God-level Space Talents cannot be merged. Information Sharing Talent, is that even considered a talent?” Ye Tian was immensely curious.

Thus, he began to merge the Information Sharing Talent. Before long, Ye Tian successfully merged the Information Sharing Talent. Initially, Ye Tian hadn’t paid much attention to the Information Sharing Talent, but after merging it and understanding it, he was immediately shocked.

“It’s actually a God-level Talent that allows communication with other Xu Kuns regardless of distance!” Ye Tian was astounded.

When Ye Tian activated the Information Sharing Talent, he quickly received a set of information. “It’s so boring here. Are there any companions nearby?”

This message must have come from another Xu Kun, likely the one that had just left. Receiving this message, Ye Tian suddenly had an idea. “If I pretend to be a Xu Kun, might there be unexpected gains?” Ye Tian thought.

Chapter 554: The Void Heavenly Dao Characters

Ye Tian, who possessed a talent for disguise and had some treasures that could change his aura to aid in his disguise, could say that once he was disguised, unless it was by someone familiar with him, even powerhouses at the Planetary System and Galaxy levels might not be able to see through his identity unless they possessed a talent for insight.

However, Xu Kun clearly did not possess such a talent and found it difficult to see through Ye Tian.

Furthermore, Ye Tian also possessed a God-level spatial talent and an information-sharing talent. While there might be other beings with a God-level spatial talent apart from Xu Kun, adding the information-sharing talent into the mix probably meant Xu Kun was the only one.

Thus, when Ye Tian displayed these two talents, Xu Kun naturally believed that Ye Tian was one of its kind and did not doubt his identity.

“Disguise!”

Immediately, Ye Tian transformed into the appearance of Xu Kun.

He had already clearly seen Xu Kun’s appearance when he copied it with his talent for copying, so there was no mistake in his disguise.

In an instant, Ye Tian transformed into a Xu Kun.

Then, Ye Tian activated his information-sharing talent and contacted that Xu Kun.

“I’m here!”

Ye Tian sent this message, and the other Xu Kun quickly received it, immediately using the information-sharing talent to send back a message.

“Send me your location using your information-sharing talent! I’ll come and find you to play!”

The other Xu Kun replied.

Ye Tian immediately sent his location.

Before long, another Xu Kun appeared.

“Eh, it turns out to be a little Xu Kun, huh? Did your parents bring you here?” Xu Kun asked.

“I don’t know, I accidentally came here and found I couldn’t leave!” Ye Tian hastily replied.

“Can’t leave?” Xu Kun stared at Ye Tian and said, “That makes sense. Your cultivation is too weak. If you accidentally came in, it really would be difficult to leave. Do you want me to take you out? However, I don’t want to leave for the time being. If I leave, it would be troublesome to come back.”

“Then I won’t leave for now. I’ll just play here. Can you take me around to play?” Ye Tian asked.

“Of course!” Xu Kun agreed.

In the following conversation with Xu Kun, Ye Tian learned some basic information. For instance, in Xu Kun’s words, this place was not called the World of Heavenly Dao Fragments but the Void Realm! The Void Realm was vast, and according to this Xu Kun, it was divided into many areas, but there were connections between each area. However, the connection points were not easy for ordinary Xu Kuns to find.

Moreover, there were quite a few Xu Kuns in the Void Realm, and they were considered the dominant force in the Void Realm. However, due to the vastness of the areas in the Void Realm, it was difficult to encounter another Xu Kun in the same area.

Xu Kuns entered the Void Realm for a very simple purpose: to improve their strength.

Apart from the characters of the Heavenly Dao, special treasures would also be born in the Void Realm, which Xu Kuns could devour to enhance their strength.

“Here, take this!”

Suddenly, Xu Kun gave Ye Tian a leaf.

The leaf was dark in color but faintly emitted a golden light.

“This is a Heavenly Dao Leaf, which can counteract the void pressure of the Void Realm; otherwise, you couldn’t stay in the Void Realm for too long.

Take this Heavenly Dao Leaf, and you can freely enjoy yourself here. If you want to leave, just shield the power of the Heavenly Dao Leaf, and the Void Realm will automatically expel you.

This is also a way to leave the Void Realm, but you have to wait until the day the Void Realm automatically expels you.

Based on my experience, we Xu Kuns can stay in the Void Realm for about three years.”

Xu Kun explained to Ye Tian.

“Three years!”

Ye Tian was slightly surprised, as this was much longer than the one year for the human race.

However, considering the special nature of Xu Kun, it was easier to understand.

Immediately, Ye Tian took the Heavenly Dao Leaf and sandwiched it between his flesh.

In this way, he could stay in the Void Realm for a long time.

This Xu Kun was called Yama III because there was also a Yama I and a Yama II above it.

Regarding the naming method of Xu Kun, Ye Tian was speechless.

Ye Tian also randomly chose a name for himself, calling himself Ye I. This name fit well with the characteristics of Xu Kun, and Yama III did not doubt it at all, even praising the name.

Suddenly, Ye Tian asked, “Yama III, I saw an area before with something inside. When I tried to enter, a figure came out and attacked me, so I immediately left. What was that?”

“That was a character of the Heavenly Dao!” Yama III hastily replied.

It seemed that Yama III was quite bored and didn’t wait for Ye Tian to ask further before it started talking about the characters of the Heavenly Dao, which were mostly similar to what Ye Tian already knew.

However, Yama III mentioned an important piece of information.

“Ye I, the general characters of the Heavenly Dao are of no use to us Xu Kuns, only the Void Heavenly Dao Characters can enhance our strength, but they are quite rare.” Yama III said.

“Yama III, do you know where to find the Void Heavenly Dao Characters?” Ye Tian asked with some anticipation.

“I do know a place where the Void Heavenly Dao Characters can be found, but they are also beneficial to me, so why should I give them to you?” Yama III asked. Although it was simple-minded and not as scheming as many others, it didn’t mean it was foolish.

The Void Heavenly Dao Characters were extremely precious treasures. Given that Xu Kuns were almost considered spatial beings, their desire for the Void Heavenly Dao Characters was immense, so they wouldn’t easily give them to others.

“I once entered a place and obtained a spatial inheritance. I can exchange that spatial inheritance with you!”

Ye Tian brought out his bargaining chip.

“A spatial inheritance, could it be from one of those races in the universe?”

Yama III showed interest.

Then, it asked in surprise, “Did you perhaps enter the main space of the universe?”

“Yes, I’ve been there once!”

Ye Tian nodded, guessing that what Yama III referred to as the main space of the universe was the countless star fields where the myriad races of the universe resided.

“You’re bold, not afraid of being captured by the powerhouses of the universe’s main space. The elders of our race say that we Xu Kuns are highly valued, and those powerhouses from the great cosmic clans would definitely capture us for research once they see us.” Yama III said.

Ye Tian nodded in agreement with Yama III’s words, not contradicting it.

Then, Ye Tian took out a part of the inheritance: “This is a part of the inheritance, see if it’s useful to you.”

The inheritance he took out was about spatial secrets obtained from the Crystal Spirit Clan. As for whether it was useful to Xu Kun, he wasn’t sure.

After all, he didn’t know much about the Xu Kun race.

To his surprise, after browsing through the spatial inheritance, Yama III became excited and said, “Good, I’ll take this inheritance! I’m willing to make the trade!”

Clearly, the inheritance was of great help to Yama III.

“It seems that although the Xu Kun race has a high level of spatial talent, their actual research on spatial talent is far inferior to that of the Purple Crystal Spirit Race. It seems the Xu Kuns’ comprehension isn’t that great. No wonder this Xu Kun’s potential in other aspects is quite ordinary.”

Ye Tian thought to himself.

Following that, Yama III led Ye Tian deeper into the Void Realm.

Ye Tian’s speed was slow, but Yama III’s was fast.

Yama III, being at the Galaxy level and possessing a God-level spatial talent, seemed to also master a kind of spatial secret technique, allowing it to move through the Void Realm with the power of space, far exceeding Ye Tian's imagination.

Originally, when Ye Tian saw the fleeting figure of Xu Kun, that wasn't its true max speed; its real speed was so fast that Ye Tian couldn't even perceive a shadow.

As time passed, ten days went by in the blink of an eye.

On this day, under the guidance of Yama III, Ye Tian came to a ruin.

Indeed, ruins! This place looked like a continent, but all the buildings on it were shattered. The buildings here were large but had a somewhat strange style.

"This used to be the location of a Void Clan tribe. They must have moved their entire race into the Void Realm to live here, but they encountered a disaster. Perhaps they fled, or perhaps they perished in the Void Realm.

Inside one of the fortresses, there is a Void Heavenly Dao Character.

However, this Void Heavenly Dao Character has given birth to a guardian of the Heavenly Dao.

To enter the interior of the fortress, one must face the guardian of the Heavenly Dao.

If it were outside, my strength would definitely be enough to easily kill this guardian of the Heavenly Dao.

Unfortunately, once inside the domain, my void power is completely suppressed, and I can't exert my full strength, so I can't defeat this guardian of the Heavenly Dao." Yama III pointed at a central fortress and explained.

"If you can't defeat it, how can I?" Ye Tian asked.

“My cultivation will be suppressed when I enter the domain, but yours is lower, so the suppression might be slightly less.

It all depends on your mastery in the spatial realm. Having obtained this inheritance, you should have a high level of mastery over the spatial laws. Maybe you can get through.

I’ve brought you here where the Void Heavenly Dao Character is located. You won’t go back on your word, right?” Yama III said.

“I won’t go back on my word. Here, take this!”

Ye Tian gave the remaining spatial inheritance to Yama III.

This inheritance wasn’t of great value to him, so giving it away didn’t matter much.

Yama III, having received the entire inheritance, was overjoyed.

Meanwhile, Ye Tian flew towards the fortress and soon entered.

“What a naive member of a tribe, so easy to deceive. I obtained such a precious inheritance just by using information he couldn’t obtain. He probably has no idea how valuable this inheritance is!”

Yama III thought it had taken a great advantage and laughed joyfully.

It didn’t leave but waited there, planning to take Ye Tian out to play to make up for his loss after his failure.

Inside the fortress.

As soon as Ye Tian entered, he stepped into the domain of the Void Heavenly Dao Character and saw the character.

“Indeed, it’s the Void Heavenly Dao Character. Yama III didn’t deceive me!” Ye Tian exclaimed in surprise.

Chapter 555: The Void Demon and the Heavenly Dao Tree

Within the domain of the Void Heavenly Dao Character, the guardian of the Heavenly Dao stood there, silently protecting it.

Ye Tian stepped into the domain of the Void Heavenly Dao Character, and the guardian made its move.

It sought to expel Ye Tian, even to the point of killing him.

Boom! The might of the guardian of the Void Heavenly Dao Character was far more formidable than that of the guardian of the Heavenly Dao Characters of killing, as the power contained within the characters of emptiness far surpassed those of killing.

The guardian of the Void Heavenly Dao Character suddenly reached out its hand, tearing through the space and grasping towards Ye Tian.

The space all around was completely sealed off, making it impossible for ordinary people to break free from the confinement.

However, Ye Tian also possessed a divine spatial talent, allowing him to negate the spatial confinement imposed by the guardian of the Heavenly Dao.

Following that.

Ye Tian unleashed one of his spatial divine abilities, the Thousandfold Realm! Swish, swish, swish! Layers upon layers of barriers were pressed onto the guardian of the Heavenly Dao, weakening its strength and making it difficult for the guardian to attack Ye Tian.

“Spatial Divine Form!”

Ye Tian used another spatial divine ability to attack the guardian of the Heavenly Dao.

With two spatial divine abilities, along with Ye Tian's formidable physical body, he was momentarily no weaker than the guardian of the Heavenly Dao.

In the blink of an eye, the two had been fighting for quite some time.

"Strange," Yama III was extremely curious. "Why hasn't Ye I come out yet?"

According to his estimation, Ye I should have been defeated and exited quickly.

"Could he have been killed?" Yama III wondered in secret.

Immediately, its divine consciousness penetrated into the domain. However, the divine consciousness was greatly suppressed, making it difficult to see the situation inside clearly.

Within the domain of the Heavenly Dao Characters, only one creature could enter at a time. If a second creature attempted to break into the domain, it would be stopped unless the entire domain's power was shattered.

Even Yama III couldn't break the entire domain's power in an instant, as that would equate to destroying the Heavenly Dao Characters.

Boom! At that moment, Ye Tian was fiercely battling the guardian of the Heavenly Dao. Yama III sensed the battle vaguely and was immediately stunned.

"Impressive. Ye I's parents must be extraordinary, definitely strong beings within the void realm, otherwise, they couldn't have birthed such a powerful offspring!"

At this moment, a thought occurred to him. Perhaps Ye Tian really could defeat the guardian of the Heavenly Dao and obtain the Void Heavenly Dao Character.

Within the domain.

The guardian of the Heavenly Dao had many techniques, utilizing the power of space to its whim, even transforming the power of space into spears, swords, shields, and so forth, displaying even more terrifying offensive capabilities.

Compared to the techniques of the guardian of the Heavenly Dao, Ye Tian's methods were slightly immature but were many times more advanced than those of other spatial talent users.

Ye Tian had the support of the ancient chaos realm, making his power nearly inexhaustible, so he wasn't worried about the endurance of the battle.

As time passed day by day, Ye Tian initially fought just to simply defeat the guardian of the Heavenly Dao. Later on, he developed the idea of joining forces with the guardian to use its spatial techniques to refine his own, even absorbing the essence of space from the guardian to enhance his control over spatial power.

In the process of battle, refining oneself was extremely difficult, but Ye Tian, with his extraordinary aptitude and talent, along with his deep understanding of spatial power, definitely hoped to elevate his control over spatial power to a new level.

Thus, Ye Tian and the guardian of the Heavenly Dao battled for half a month.

On this day.

Ye Tian suddenly wielded the power of spatial laws to form a saber.

“Slash!”

The saber of spatial laws tore through the domain's space, striking the guardian of the Heavenly Dao and repelling it.

Of course, just like this, it was impossible to defeat the guardian of the Heavenly Dao, whose achievements in space far surpassed Ye Tian's.

Therefore, Ye Tian continued to refine himself, manipulating the power of space.

Gradually, Ye Tian's mastery over spatial power became more and more proficient, even gradually approaching the level of the guardian of the Heavenly Dao.

As his control over spatial power improved, Ye Tian's understanding of divine abilities also began to change.

"The Ten Thousand Layer Realm is indeed a formidable divine ability, capable of creating ten thousand layers of barriers. However, against true powerhouses, ten thousand layers are as flimsy as paper, and quantity cannot enhance quality.

If it were possible to merge these layers into a single layer, then the power of this single layer would far surpass the Ten Thousandfold Realm.

Previously, I couldn't merge the Ten Thousandfold Realm because my control over spatial power wasn't strong enough to evolve the divine ability."

Ye Tian thought to himself.

Evolving a divine ability is a way to enhance a divine ability beyond its perfected realm.

Ye Tian had always understood this principle, but it was difficult to achieve.

For example, the Fire Dragon divine ability, a rather common divine ability among fire attribute powers, upon release, forms a fire dragon. But if one could evolve the divine ability, transforming the fire dragon into various forms, its power would become much more terrifying.

The same applied to spatial divine abilities! Divine ability evolution is a necessary step in the development of divine abilities.

Many powerful beings, unable to cultivate great divine abilities, could only progress by evolving their divine abilities, thereby enhancing their power.

And now, Ye Tian had reached this stage.

As days passed, the barriers formed by Ye Tian's Ten Thousandfold Realm became fewer and fewer.

From ten thousand layers, it decreased to nine hundred layers, then to eight hundred, and the speed of reduction became faster as time went on.

Nine layers! Eight layers! Seven layers! Six layers! Five layers!

On this day.

Ye Tian's Thousandfold Realm had transformed into a single layer. It seemed like a step back, but in reality, it was a significant advancement.

Boom! The guardian of the Heavenly Dao's attack came once again, and with a wave of Ye Tian's hand, the single layer formed by the fusion of the Ten Thousandfold Realm easily blocked the guardian's attack.

"It shouldn't be called a Single Layer Realm; it should be called the Myriad Return Divine Ability!" Ye Tian thought to himself.

With the Myriad Return Divine Ability, the guardian of the Heavenly Dao could hardly harm Ye Tian, and the suppression effect of this divine ability far surpassed the perfected realm of the Ten Thousandfold Realm, weakening the guardian's strength even more.

Thus, Ye Tian's power began to suppress the guardian of the Heavenly Dao.

In the successive exchanges, the guardian started to falter and was eventually captured by Ye Tian into the Xumi Realm within the palm of his hand, then crushed into nothingness.

After killing the guardian of the Heavenly Dao, Ye Tian easily took the Void Heavenly Dao Character and stored them within his soul.

Whoosh! Ye Tian flew out of the castle.

"Ye I, you are incredible.

I didn't expect that you, being only at the God level, could take away the Void Heavenly Dao Character. If this is known back in the clan, the others will surely be shocked.

I think at the God level, your strength is absolutely number one!"

Yama III praised.

"It was just luck!" Ye Tian humbly replied.

Having obtained the Void Heavenly Dao Character, Ye Tian had completed his goal. He intended to leave this place, but what Yama III said next changed his mind.

"Ye I, although your cultivation is weak, your combat power at the same level is very strong. I know of a treasure land. Are you interested in going there with me? I can handle the dangers on the periphery for you, but there's a place in the core area I can't enter, but you can. I think with your strength, you should be able to get in. I only need one thing from there; the rest is yours." Yama III proposed.

"Yama III, what place is it? Will there be any dangers?" Ye Tian inquired.

"There's not much danger." Yama III hurriedly informed Ye Tian of the basic situation of that place.

It turned out that the place Yama III mentioned was another void region, but this area was somewhat different because it gave birth to a peculiar race known as the Void Demons.

The Void Demons were true beings of the void realm, wielding the power of the Heavenly Dao. They were nearly immortal in the void realm. Although their strength wasn't very formidable, their near indestructibility made them a troublesome race.

Of course.

The Void Demons were territorial and hardly ever left their territory.

The Void Demons also possessed the Heavenly Dao Tree, their most treasured possession. The Heavenly Dao Leaf was a leaf plucked from the Heavenly Dao Tree, and a single Heavenly Dao Tree had about a thousand leaves.

But for Yama III, neither the Heavenly Dao Tree nor the Heavenly Dao Leaf were important, as these items couldn't enhance one's strength, and the Xu Kun race didn't value money much.

Unless it was something useful to them, they didn't value other items much.

Items like the Void Heavenly Dao Character were important to every Xu Kun, hence their immense value. Among the Xu Kun race, those with considerable strength almost all possessed a Heavenly Dao Leaf.

For the Xu Kun race, the Heavenly Dao Leaf wasn't of much value, so they naturally didn't collect them extensively.

What Yama III truly cared about was the Heavenly Dao Wood Core bred within the Heavenly Dao Tree's space! The Heavenly Dao Wood Core was a miraculous treasure that could enhance bloodline talents.

Although Yama III's bloodline talent had reached the Universal level, it wanted to ascend above that. In the universe, almost nothing could elevate a Universal level cultivation talent by another level, but the Heavenly Dao Wood Core could do just that.

However, Yama III couldn't enter the Heavenly Dao space itself because it only allowed beings with weaker cultivations to enter, and once inside, one's cultivation would be thoroughly suppressed, even more so than in the domain of the Void Heavenly Dao Character.

Therefore, Yama III dared not enter the Heavenly Dao space, lest it truly fall there.

"Ye I, although I'm not sure what level your bloodline talent is, I can assure you that once you obtain the Heavenly Dao Wood Core, I only want half of it.

You should know, this Void Demon territory was a chance discovery of mine, unknown to other Xu Kuns.

Also, without my help in dealing with those Void Demons, you wouldn't be able to break into the Heavenly Dao Tree's vicinity.

Are you willing to go? If so, let's set off now.

If not, then let's part ways here!" Yama III inquired.

Ye Tian pondered for a while and finally nodded: "Alright, I'm willing!"

He was actually curious about the Void Demons, the Heavenly Dao Tree, and the Heavenly Dao Wood Core, and he wanted to seize some Heavenly Dao Leaves.

For the Xu Kun race, the Heavenly Dao Leaf wasn't much, but for the Human race, it was incredibly precious, signifying that the future powerhouses of the Human race could stay in the void realm indefinitely.

Perhaps in the future, the Human race could establish a base in the void realm!

...

Thank you to Banra for helping me edit!!

"Let's go, I'll take you to the territory of the Void Demon clan!"

Yama III urged anxiously.

Immediately, Yama III swiftly transported Ye Tian, and a month later, Ye Tian saw a huge hole.

This hole appeared in his field of vision, as if the void of the Netherworld had been penetrated.

“Ye I, this is one of the passages to other Netherworld regions. Otherwise, to traverse through the various regions of the Netherworld, even I would have to pay a certain price!”

Yama III said.

“Understood!”

Ye Tian nodded and followed Yama III into this passage, quickly arriving in another Netherworld region.

Of course.

This Netherworld region was not the final destination for Ye Tian and Yama III. They needed to pass through several Netherworld regions before they could finally reach the area where the Void Demon clan resided.

And so, time slowly passed.

In the blink of an eye, more than four months had passed.

And now, there weren't many days left until the end of the year.

Ye Tian wondered if he wasn't expelled from the Netherworld after a year, would the human race's powerhouses think he had perished?

“Probably not, I'm not a Child of the Universe now, not protected by the universe. Deducing my life and death shouldn't be difficult. Moreover, even for a Child of the Universe, the Supremes of the human race could deduce their life and death!” Ye Tian thought to himself.

Immediately, he stopped pondering these questions.

As soon as Ye Tian passed through a channel, arriving in a strange Netherworld region, Yama III's voice reached his ears.

“We've arrived!”

At this moment, Yama III reminded, “Remember, when encountering the Void Demons, there’s no need to use your ultimate moves, because you can’t kill them. Just inflicting serious injuries or trapping them is enough. Otherwise, in a place like the Netherworld where we are already suppressed, wasting strength to try to kill the Void Demons is completely a waste of energy!”

“I understand!” Ye Tian nodded.

However, this time, he was just an assistant, not necessarily going to confront the Void Demons directly. The main reliance was still on Yama III, this Galaxy-level Xu Kun.

Whoosh! A man and a Xu Kun flew towards the central area of this region.

A few days later, Ye Tian saw a creature... entirely black, covered with scales, and resembling a humanoid form.

“Is this a Void Demon?” Ye Tian asked.

“Yes, this is a Void Demon!” Yama III replied.

Then, with a thought from Yama III, a spatial blade slashed over.

With a swoosh! The Void Demon was directly split open by Yama III’s spatial blade, and even its entire body exploded into countless fragments.

But in an instant, the Void Demon recovered to its original state.

“It didn’t die!”

Ye Tian truly witnessed what it means to be undying. It was just a Void Demon with God-level cultivation, and yet a Galaxy-level warrior’s spatial blade couldn’t kill it.

If it were before, Ye Tian wouldn’t dare to believe it.

But now, he had to.

“Copy Talent!”

Ye Tian activated his Copy Talent, enveloping the Void Demon, wanting to see if this Void Demon had any astonishing talents.

Type: Void Demon

Bloodline Talent: Dawn-level

Strength Talent: Top-level

Speed Talent: Mystic

Undying Talent: Top-level

Healing Talent: Mystic

“There’s nothing special about the talents, it seems that the Void Demon clan’s ability to be undying isn’t due to talents, but because this race can utilize the Heavenly Dao’s power to remain undying!”

Ye Tian thought to himself.

But this ability was limited, confined to this piece of the void. They couldn’t leave this place; otherwise, they wouldn’t be able to control the Heavenly Dao’s power to remain undying.

And the Void Demon clan itself was very weak, hence they dared not leave their territory.

Otherwise, once they left their territory, any slight danger could kill the Void Demon, after all, their own strength was really weak.

“Don’t worry, the Void Demon clan in this region isn’t strong, the strongest one is also Galaxy-level, but its strength is far inferior to mine. Although I can’t kill it, I can trap it using spatial divine abilities.

As for the other Void Demons, they can’t pose any threat to me at all.

You can attack the Void Demons, but don’t stray too far from me, otherwise, I might not be able to rescue you in time!” Yama III instructed.

Ye Tian took note and knew his own strength was still weak, naturally not daring to stray too far from Yama III.

As they delved deeper into the Void Demon clan’s territory, they encountered more and more Void Demons, but these Void Demons were completely unable to withstand Yama III and were easily crushed by him. Although he couldn’t kill them, he could make them weakened, unable to attack Yama III again.

In a short while, Yama III brought Ye Tian to the area where the Heavenly Dao Tree was located, which was also the headquarters of the Void Demons.

“That is the Heavenly Dao Tree!” Yama III pointed at the giant tree rooted in the void and said.

Ye Tian looked over and saw a golden giant tree rooted in the void, firmly connected to this piece of the void. The tree had many leaves, these leaves were black, but with golden light shining through, clearly Heavenly Dao Leaves.

The aura of this Heavenly Dao Tree was supremely high and even transmitted a power that made people unable to resist.

“The power of the Heavenly Dao!” Ye Tian murmured.

This Heavenly Dao Tree was indeed a true treasure. Unfortunately, it was difficult to take away, but the Heavenly Dao Leaves were not hard to obtain.

At this moment, a group of Void Demons charged over.

Since they were almost impossible to kill, these Void Demons were not afraid of death at all. Even though Yama III was a Galaxy-level powerhouse, they still rushed over with a desperate stance, refusing to back down.

Yama III opened his massive mouth and let out a fierce roar, causing a spatial disturbance that swept across the area.

A large number of Void Demons were shattered into dust, but in the blink of an eye, they were whole again, just weakened.

“Xu Kun, you’ve come again!”

The Grand Elder of the Void Demon clan appeared, his Galaxy-level aura enveloping the area.

At that moment, Yama III teleported over and created a huge spatial orb that enveloped the Grand Elder of the Void Demon clan, trapping and suppressing him.

No matter how the Grand Elder of the Void Demon clan attacked, he couldn’t break through the spatial orb created by Yama III.

As for the other Void Demons, although they wanted to rescue their Grand Elder, they were too weak. Yama III could knock them back with ease from a distance.

“Ye I, go in now!” Yama III said.

“Yama III, I’ll collect some Heavenly Dao Leaves first!”

Ye Tian hurriedly flew to the Heavenly Dao Tree and began to pick the leaves.

Seeing this, Yama III said helplessly, “Ye I, these Heavenly Dao Leaves are not very useful. Didn’t I give you one already? One is enough, what’s the point of gathering so many?”

Ye I continued to collect Heavenly Dao Leaves, regardless.

If he were really a Xu Kun, he certainly wouldn't care about Heavenly Dao Leaves, but as a member of the human race, these leaves were treasures, extremely valuable! In case there was no gain inside the Heavenly Dao Tree, just these leaves alone would make a huge profit.

If he didn't take these leaves and found nothing in the inner space of the Heavenly Dao Tree, it would have been a wasted trip. In a short while, Ye Tian had picked thousands of leaves from the Heavenly Dao Tree and stored them in his Xumi Storage Realm.

It would probably take a long time for the Heavenly Dao Tree to grow thousands of leaves again.

At this time.

Ye Tian planned to enter the inner space of the Heavenly Dao Tree.

The space of the Heavenly Dao was connected to the outside world, and Ye Tian, possessing a God-level spatial talent, naturally could sense the spatial fluctuations of the Heavenly Dao space.

Following the spatial fluctuations, Ye Tian entered the Heavenly Dao space.

Upon entering, he felt a strong suppression.

"The Core of the Heavenly Dao Tree, I wonder where this thing is."

Ye Tian began to search for the Core of the Heavenly Dao Tree.

Suddenly.

Several murderous intents rushed over.

With a swoosh! Ye Tian teleported away and realized with his Copy Talent that they were a few Void Demons.

“Right, the Void Demon clan must have sent some Void Demons to stay in the Heavenly Dao space.

However, even the Void Demon clan will be suppressed in the Heavenly Dao space, and my strength here is definitely stronger than other Void Demons!” Ye Tian said confidently.

“Myriad Return Divine Ability!”

Ten thousand layers of barriers turned into one, easily deflecting the attacks of those Void Demons.

Although Ye Tian’s attacks could pierce or tear the Void Demons apart time and again, he couldn’t kill them.

With no other choice, Ye Tian could only trap these Void Demons in the Xumi Storage Realm within his palm, temporarily imprisoning them.

Capturing each one as they came, soon all the Void Demons guarding the Heavenly Dao space were trapped in the Xumi Storage Realm in Ye Tian’s palm.

Soon, Ye Tian arrived at the center of the Heavenly Dao space.

There, he saw a golden lake, the lake flowing with golden liquid, filled with unimaginable pure energy.

Ye Tian was unsure what the liquid in the golden lake was, but it felt like something excellent! And floating above the golden lake was a huge light sphere, within which was a piece of golden wood, not very long, about two meters in length and twenty centimeters thick.

“The Core of the Heavenly Dao Tree!”

Ye Tian was delighted.

This piece of wood must be the Core of the Heavenly Dao Tree.

Immediately, Ye Tian reached out to grab the Core of the Heavenly Dao Tree, but then the light sphere shook slightly and directly repelled Ye Tian.

That's when Ye Tian suddenly realized.

The Core of the Heavenly Dao Tree, being the essence nurtured by the Heavenly Dao Tree, couldn't possibly be without protection. If it were so easy to take, wouldn't everyone be able to take it away?

Boom!

A powerful aura burst forth from the light sphere.

Then, a figure emerged from the light sphere.

This figure was clad in golden armor and a golden cloak, filled with golden brilliance and the power of the Heavenly Dao.

“The Guardian of the Heavenly Dao!”

Ye Tian became slightly solemn.

This Guardian of the Heavenly Dao was clearly not simple, even more formidable than the Guardian of the Void Heavenly Dao Ye Tian had encountered. Yama III had not informed him about this Guardian, as perhaps even Yama III was not very clear, having never entered the Heavenly Dao space.

“As long as I defeat this Guardian of the Heavenly Dao, I should be able to take the Core of the Heavenly Dao Tree!” Ye Tian thought.

The Heavenly Dao Guardian was incredibly powerful. Ye Tian felt that even if he could defeat this Heavenly Dao Guardian, he would inevitably pay a certain price.

After all, this Heavenly Dao Guardian was extraordinary, incomparable to the previous ones he had faced.

“Although I could pretend to be defeated and flee, deceiving Yama III, it doesn’t seem right. Besides, Yama III has helped me a lot; doing this would be too insincere! It’s better to give my all to defeat this Heavenly Dao Guardian and seize the Heavenly Dao Wood Core!” Ye Tian secretly planned.

Boom!!! The Heavenly Dao Guardian made a move, launching a punch towards Ye Tian.

“Slash!”

Ye Tian executed the Heavenly Moon Saber, colliding his saber with the fist of the Heavenly Dao Guardian.

Instantly, Ye Tian was sent flying, his body aching immensely.

“So powerful!”

Ye Tian was slightly surprised.

This Heavenly Dao Guardian possessed the power of the Heavenly Dao, his punch shattering everything with its simplicity, devoid of fancy movements or even the power of laws. It was the Heavenly Dao’s power from the Void Realm, crushing all the laws of the Void Realm.

Fortunately, it was Ye Tian; anyone else would have been unable to withstand the impact of the Heavenly Dao and would have been instantly crushed.

Ye Tian’s formidable physical body was his capital in fighting the Heavenly Dao Guardian; otherwise, he wouldn’t dare to engage in battle with such a guardian.

Boom, boom, boom!!!

Ye Tian continued to clash with the Heavenly Dao Guardian, and he also used the Ten Thousand Realms Divine Ability, transforming into a barrier to withstand the attacks.

However, divine abilities like the Ten Thousand Realms were also suppressed here, otherwise, Ye Tian wouldn't have struggled so much.

“Chaos Palm!”

“Primordial Scales Armor!”

“Primordial Vines!”

Ye Tian deployed various techniques one after another. Although these methods couldn't unleash their true power, they still had a certain effect.

Although Ye Tian found it difficult to defeat the Heavenly Dao Guardian, the guardian couldn't truly harm Ye Tian either.

Time slowly passed by, with days slipping away.

“This won't do. At this rate, I can't defeat the Heavenly Dao Guardian. It's too powerful, and its strength comes from the Heavenly Dao, almost infinite.”

Thinking this, Ye Tian immediately flew away.

After Ye Tian flew away, the Heavenly Dao Guardian merged back into the orb of light and disappeared.

Before long, Ye Tian returned to the golden lake.

However, this time, Ye Tian didn't touch the orb of light.

Without the ability to defeat the Heavenly Dao Guardian, he couldn't take the Heavenly Dao Wood Core from within the orb of light; touching it would only cause trouble for himself.

At that moment, Ye Tian's gaze fixed on the golden lake.

"The liquid in this lake is definitely a treasure. I wonder what it is."

Out of curiosity, Ye Tian took a bit of the liquid and, after hesitating for a while, swallowed it to try.

This was highly risky, but Ye Tian felt that since the liquid was a form of energy, it might aid in cultivation.

Boom!!! A terrifying energy erupted within Ye Tian, prompting him to hurriedly circulate the Chaos Body Refining Technique to start refining it.

Although the Chaos Body Refining Technique couldn't continue cultivation, it was still an excellent method for refining.

Even so, the Chaos Body Refining Technique's refining seemed unable to completely absorb the energy from the liquid. If Ye Tian couldn't find a way to absorb it, his body probably wouldn't withstand it.

Therefore, Ye Tian thought of the fourth set of movements in the Eighteen Golden Bodies Technique.

Currently, Ye Tian had only initially mastered this fourth set of movements, far from reaching the perfected realm. He decided to try cultivating this fourth set of movements to see if it could help him digest the energy within his body.

Whoosh! Ye Tian assumed the fourth set of movements and began to circulate the technique.

Boom!!! A terrifying pressure attacked him, resulting from the confrontation between the Eighteen Golden Bodies Technique and the world.

Previously, Ye Tian didn't understand the source of this pressure, but now he was clear.

Simply put, the Eighteen Golden Bodies Technique was a technique against heaven, using confrontation with the world to induce the world to suppress him, thereby breaking limits time and again to enhance his physical strength.

During this confrontation with the world, the body faced unimaginable pressure, and the cells consumed energy rapidly while absorbing energy at an incredible speed.

Therefore, the Eighteen Golden Bodies Technique was very effective in absorbing energy! At this moment, Ye Tian had assumed the fourth set of movements, and the energy within him was being rapidly consumed.

Additionally, Ye Tian made an astonishing discovery that he could persist for a longer time.

“This golden liquid seems to promote the cultivation of the Eighteen Golden Bodies Technique. Perhaps I can use this golden liquid to cultivate the fourth set of movements to perfection. By then, my physical strength will surge, and maybe I’ll be able to defeat the Heavenly Dao Guardian!” Ye Tian thought to himself.

At the same time, he named the golden liquid “Heavenly Dao Golden Liquid.”

Immediately after, Ye Tian took out some more Heavenly Dao Golden Liquid, absorbed and refined it, and continued to cultivate the fourth set of movements of the Eighteen Golden Bodies Technique.

Of course, Ye Tian also activated time acceleration to shorten the duration. Otherwise, if he cultivated here for too long, Yama III outside might grow impatient and leave, which would complicate things for him.

As Ye Tian disregarded the effects of the Heavenly Dao Golden Liquid and cultivated fervently, his physical strength visibly increased at a rapid pace.

Days passed by.

In the blink of an eye, half a month had elapsed.

By this time, Ye Tian had refined a significant amount of the Heavenly Dao Golden Liquid. However, compared to the entire lake, this amount was negligible.

“The fourth set of movements is finally perfected!”

Ye Tian was thrilled.

Now, his physical strength had far surpassed his previous level, reaching an inconceivable degree.

It could even be said that without activating defensive talents or other protective measures, his body could withstand the attacks of ninth-tier God-level warriors standing still.

“Now, I should be strong enough to defeat that Heavenly Dao Guardian!” Ye Tian estimated.

Thus, he approached the orb of light and touched it.

Boom!!! The Heavenly Dao Guardian appeared and immediately attacked Ye Tian upon seeing him.

“Begone!”

Ye Tian executed the Chaos Palm, striking with his palm.

Amplified by his formidable physical strength and the secret technique of the Chaos Scripture, the power of Ye Tian’s palm reached a terrifying level.

The Heavenly Dao Guardian attempted to punch Ye Tian away, but after the collision between the punch and the palm, the guardian was sent flying back into the orb of light, causing a huge shockwave.

“The Heavenly Dao Guardian is injured!”

Ye Tian clearly sensed cracks appearing in the guardian’s armor, and its aura began to weaken.

Clearly, Ye Tian's strength had now surpassed that of the Heavenly Dao Guardian.

Boom, boom, boom!!! A fierce battle ensued! Under Ye Tian's relentless attacks, the Heavenly Dao Guardian kept getting injured. Despite the infinite strength granted by the Heavenly Dao, its wounds couldn't heal in time.

Half an hour later, a strike from Ye Tian's Heavenly Moon Saber completely shattered the Heavenly Dao Guardian, turning it into dissipating light particles.

Simultaneously, the orb of light above the lake also dispersed, leaving only the Heavenly Dao Wood Core floating there.

"Success!"

Ye Tian excitedly flew towards the Heavenly Dao Wood Core and grabbed it.

However, the Heavenly Dao Wood Core was still connected to the Heavenly Dao Tree. Ye Tian pulled with all his might, gradually drawing it into his personal Xumi Storage Realm.

Under such pulling, the Heavenly Dao Tree itself began to tremble.

Outside.

Yama III had been maintaining the state that trapped the Grand Elder of the Void Demon Clan. Although other Void Demons had recovered, they couldn't do anything against Yama III, being constantly repelled and unable to touch him.

But these Void Demons were fearless and kept attacking relentlessly, like tireless machines.

Suddenly.

Yama III looked towards the Heavenly Dao Tree, which was shaking continuously, and was immediately overjoyed: "This... could it be that Ye Tian succeeded in obtaining the Heavenly Dao Wood Core? I've only heard that our ancestors once managed to do so by luck with a

great secret treasure, obtaining the Heavenly Dao Wood Core. No one has succeeded since then.

Until now, the Heavenly Dao Wood Core has become a legend. I didn't have much hope for Ye Tian to succeed in obtaining the Heavenly Dao Wood Core; it was just a try. But I didn't expect..."

The strong members of the Void Demon Clan were also panicked. The Heavenly Dao Tree was their foundation and absolutely couldn't be compromised! However, entering the Heavenly Dao Space wasn't easy; without a God-level spatial talent, they had to use a special method and prepare for a long time before they could send their clansmen in.

And now, they were in battle with an enemy, leaving no time for preparation.

"Finally got it!"

Ye Tian sighed in relief. He had successfully taken the Heavenly Dao Wood Core into his personal Xumi Storage Realm.

"And there's still the Heavenly Dao Golden Liquid!"

Ye Tian's gaze turned to the golden lake.

So much Heavenly Dao Golden Liquid was definitely a treasure! For others, who couldn't enhance their physical strength beyond the God level, this golden liquid was merely an energy source similar to Divine Crystals. But in Ye Tian's eyes, it was an ultimate treasure for enhancing physical strength! Immediately, Ye Tian took out a spatial storage bottle and quickly collected the Heavenly Dao Golden Liquid! However, when one-third of the lake had been collected, he couldn't collect any more.

"The Heavenly Dao Golden Liquid must be one of the foundations of the Heavenly Dao Tree, similar to its origin. If all of it were collected, the Heavenly Dao Tree would probably die. The tree's self-protection system prevents outsiders from taking the remaining Golden Liquid!" Ye Tian guessed.

He tried several methods, but no matter how he tried to take the Heavenly Dao Golden Liquid, a force would appear to stop him.

With no other choice, Ye Tian had to abandon this plan. After all, he had already taken one-third of the Heavenly Dao Golden Liquid, which was enough for him to cultivate for a long time.

“It’s time to leave the Heavenly Dao Space!”

Ye Tian released the suppressed Void Demon from within the palm-sized Xumi Realm, then followed the spatial fluctuations and left the Heavenly Dao Space.

Chapter 558: The Great Spatial Divine Ability

Outside the Heavenly Dao Tree.

As Ye Tian appeared, the surrounding Void Demons rushed over, intending to kill him.

Suddenly.

Yama III waved his hand, directly using his ability to perform spatial translocation, moving Ye Tian to his side.

This was also an application of the spatial talent. Ye Tian possessed this ability, and since Yama III had a God-level spatial talent, he naturally had this ability as well.

“How did it go?” Yama III asked eagerly.

“It was a success!” Ye Tian responded.

“Good, let’s leave then. These Void Demons are too annoying; we can’t kill them!”

Yama III said.

Swish! Yama III, carrying Ye Tian, easily passed through the layers of encirclement. The strength of these Void Demons was too weak; they couldn’t catch up with Yama III at all.

Soon, Yama III had shaken off these Void Demons and successfully left the area.

In another area of the Void Realm.

Yama III stopped and couldn't wait to ask, "Ye I, did you really obtain the Heavenly Dao Wood Core?"

He still couldn't quite believe it. Although Ye Tian said he had obtained it, without seeing the actual object, he was still somewhat uncertain.

"Here is the Heavenly Dao Wood Core!"

Ye Tian took out the Heavenly Dao Wood Core and placed it in front of Yama III.

At that moment.

Yama III stared intently at the Heavenly Dao Wood Core, murmuring, "Right, this is indeed the Heavenly Dao Wood Core. According to the records of our clan, the Heavenly Dao Wood Core looks exactly like this."

After staring for a while Yama III said, "Ye I, according to the rules, we'll split it half and half.

A portion of the Heavenly Dao Wood Core is enough to elevate the universal level cultivation talent of ten of our race members to the Chaotic level, so we won't worry about wasting this Heavenly Dao Wood Core!"

Having said that, Yama III split the Heavenly Dao Wood Core into two halves! Yama III kept one half for himself, and Ye Tian also kept one half.

"Hahaha, not bad. This trip to the Void Realm, I didn't expect to acquire the Heavenly Dao Wood Core. Ye I, let's go. I'll take you to have some fun for a while. The Void Realm has many great places. I'll show you around!" Yama III said happily.

"Sure!" Ye Tian nodded.

At this moment, he didn't want to leave, as it might arouse Yama III's suspicion. Anyway since a year had already passed, leaving a bit later didn't matter.

While Yama III was taking Ye Tian around the Void Realm for a tour, the Supreme Hall of Humanity was discussing the matter of Ye Tian for a long time.

When the one-year period just ended, the princes of the Supreme Hall of Humanity and the heirs of the nine supreme level forces emerged from the Heavenly Dao Fragment World, except for Ye Tian.

Upon inquiry, no one had seen Ye Tian.

At first, those princes and heirs thought that Ye Tian had perished in the Heavenly Dao Fragment World. Some felt pity, while others were gloating or even overjoyed.

This matter also caught the attention of the Supremes, leading many of them to deduce Ye Tian's situation.

The conclusion they reached was — Ye Tian had not perished and was still in the Heavenly Dao Fragment World! As for Ye Tian's current situation, no one knew.

Thus.

Kunwu Supreme sent people to guard the entrance and exit of the Heavenly Dao Fragment World, but Ye Tian never came out.

In the Kunwu Pavilion of the Supreme Hall of Humanity.

Several Supremes were holding a meeting to discuss the matter of Ye Tian.

“Kunwu Supreme, is there any news of Ye Tian?” Curse Supreme asked.

“No!” Kunwu Supreme shook his head. “Ye Tian is still in the Heavenly Dao Fragment World, which is very strange. Normally, everyone can only stay in the Heavenly Dao Fragment World

for one year. Once the year is up, they will be expelled by the Heavenly Dao of the Heavenly Dao Fragment World. How could Ye Tian exceed this one-year limit? This breaks the restriction of the Heavenly Dao Fragment World!”

“Could it be that Ye Tian entered some peculiar place that is not restricted by the Heavenly Dao, allowing him to stay in the Heavenly Dao Fragment World indefinitely?” Qing Emperor Supreme speculated.

“The Heavenly Dao Fragment World has such places? Since the discovery of the Heavenly Dao Fragment World by our race, no one has found such a place yet!” Kunwu Supreme said.

“Regardless, one thing is for sure, and that is that Ye Tian is safe.

Let’s just wait patiently then. Perhaps before long, Ye Tian will return.

At that time, we can inquire further!” Curse Supreme suggested.

“We have no other choice!” Kunwu Supreme nodded.

Time slowly passed, and in the blink of an eye, Ye Tian had spent another two years in the Heavenly Dao Fragment World.

During these two years, Yama III took Ye Tian to many areas of the Void Realm, giving Ye Tian a deeper understanding of the Void Realm. They also visited many peculiar places, some of which were even greatly beneficial to cultivation.

Even so, the areas of the Void Realm that Yama III had visited were just a drop in the ocean.

One day.

Ye Tian bid farewell to Yama III, “Yama III, I plan to leave first!”

“Alright, I need to go back and refine the Heavenly Dao Wood Core as well!”

Yama III nodded.

Immediately afterward, Yama III sent Ye Tian back to the area of the Void Realm where he had been before. In this way, leaving the Void Realm would take him back to where he had originally entered, due to the rules of the Void Realm.

After sending Ye Tian back, Yama III left.

Once Yama III had left, Ye Tian placed all the Heavenly Dao leaves into his own Ancient Chaos Realm and used the power of the Chaos Black Lotus to seal the Heavenly Dao leaves.

Without the protection of the Heavenly Dao leaves, Ye Tian could no longer resist the Heavenly Dao of the Void Realm and was repelled by the Heavenly Dao of the Void Realm.

Swish! Ye Tian felt a tremendous repelling force, and uncontrollably entered a spatial tunnel.

In the blink of an eye, Ye Tian found himself having left the Void Realm and returned to the main space of the universe.

Suddenly, a voice came.

“Your Highness, you have finally returned!”

Ye Tian looked closely and saw it was his guard — Dominator Dark.

“Mm, I’m back. Let’s return to the Supreme Hall of Humanity!” Ye Tian said indifferently.

“Yes!” Dominator Dark nodded in response.

Before long, Ye Tian and Dominator Dark returned to the Supreme Hall of Humanity.

Immediately, Kunwu Supreme summoned Ye Tian.

In the Kunwu Pavilion.

Ye Tian stood in front of several Supremes, waiting for their questions.

He was well aware that these Supremes had many questions, such as why he was able to stay in the Heavenly Dao Fragment World for years, where he had been during these years, what he had done, and so on...

Kunwu Supreme scrutinized Ye Tian for a while before finally speaking, "Ye Tian, you've spent several years in the Heavenly Dao Fragment World. How did you manage to stay in the Supreme Hall of Humanity for so long? If it's inconvenient to talk about, we won't pry further."

Ye Tian hastily replied, "Kunwu Supreme, there's nothing I can't talk about. The reason I was able to stay in the Heavenly Dao Fragment World for a few years is because of this item!"

Ye Tian took out a Heavenly Dao Leaf and handed it to Kunwu Supreme, saying, "This leaf is called the Heavenly Dao Leaf, a leaf that grows on the Heavenly Dao Tree. It allows a being to stay in the Heavenly Dao Fragment World indefinitely without being expelled from the Void Realm!"

"What, there's such a thing!"

Kunwu Supreme and the others were shocked.

They then carefully examined the Heavenly Dao Leaf.

"Possessing the power of the Heavenly Dao, this object must have been born from the Heavenly Dao Fragment World. And what about the Heavenly Dao Tree you just mentioned? What's the deal with that?" Kunwu Supreme asked curiously.

Following that, Ye Tian briefly explained the situation.

Of course, he wouldn't narrate everything entirely truthfully, as some things couldn't be explained.

For instance, Xu Kun! Kunwu Supreme and the others might know about Xu Kun. If he mentioned that he had entered the Void Demon clan with Xu Kun, how could he explain gaining Xu Kun's trust? Pretending? That would be a joke. Without the talent for information sharing, no matter how well he pretended, he would have been discovered by Xu Kun.

And as a human, how could he possess the talent for information sharing? Therefore, he absolutely couldn't reveal that he had relied on Xu Kun's help! Hence, Ye Tian said he encountered a dead Xu Kun and obtained some inheritances from Xu Kun's internal space, learned about the Void Realm, then obtained the Heavenly Dao Leaf, survived in the Void Realm for a long time with the leaf's power, and acquired many Heavenly Dao Characters.

"Kunwu Supreme, these are the remaining Heavenly Dao Leaves. I plan to offer them to the human race!"

Ye Tian took out nearly a thousand Heavenly Dao Leaves, keeping only a few for himself.

Then, Ye Tian recorded the basic situation of the Void Realm into a piece of information and handed it over to Kunwu Supreme.

"Ye Tian, the information you've shared is extremely important and will greatly assist our human race in venturing into the Void Realm.

Now, even the Immortal Race lacks understanding of the Void Realm, and our exploration has suddenly placed us at the forefront among the major races of the universe!" Kunwu Supreme said excitedly.

Next, Kunwu Supreme and the others continued to inquire about the situation, and Ye Tian answered each question.

But throughout, Ye Tian never mentioned the Heavenly Dao Golden Liquid or the Heavenly Dao Wood Core.

After all, the Heavenly Dao Golden Liquid was of great help to Ye Tian, and although the Heavenly Dao Wood Core was useless to him, it was very important to the people of Tian Pavilion.

Although he possessed the ability to Seize and Bestow, aside from those close to him, this ability definitely shouldn't be overused. Otherwise, if exposed, it would undoubtedly be very troublesome.

Moreover, the Seize and Bestow ability didn't create something from nothing; it still required the talents of others.

Unless it was an enemy of Ye Tian, he wouldn't use such an ability.

And there were no such concerns with the Heavenly Dao Wood Core, so he could use it with confidence.

Afterward.

Ye Tian left the Kunwu Pavilion and returned to the Mysterious Region of the Supreme Hall of Humanity.

Immediately, Ye Tian used a large number of points to exchange for a great divine ability in spatial manipulation — the Spear of Hellish Void! This divine ability was incredibly powerful, possessing a terrifying tearing force. Once an enemy was hit by the Spear of Hellish Void, their body would be torn apart by the fearsome force of spatial laws into countless pieces, and cast into the depths of many spaces, unable to heal.

It could be said that even nearly indestructible beings, once struck by this great spatial divine ability, wouldn't die but couldn't recover either, effectively being dismembered and sealed in countless spaces.

Ye Tian exchanged for this great spatial divine ability, naturally intending to cultivate it.

However, he currently only had one spatial Heavenly Dao Character. If he had several spatial Heavenly Dao Characters, he could directly cultivate the great spatial divine ability and succeed quickly.

But now, with only one spatial Heavenly Dao Character, Ye Tian could only slowly rely on this one inscription and his understanding of spatial laws, relying on the lengthy passage of time to gradually comprehend the great spatial divine ability, which was also one of the methods to cultivate a great spatial divine ability.

Chapter 559: The Difficulties of the Yun Family! Farewell to Yun Xi!

“I shall slowly comprehend the Great Spatial Divine Ability – Spear of Hellish Void. The Heavenly Dao Characters of the void are too rare. It’s fortunate to have obtained one this time, but hoping to acquire more is nearly unrealistic. My only option is to slowly comprehend the Spear of Hellish Void,” Ye Tian thought to himself.

In the following days, Ye Tian earnestly secluded himself for cultivation, focusing on the Spatial Divine Ability while also working on other aspects of his training.

His combat power had reached an unbelievable level. If the ranks of Supreme Prince were to be divided, he would definitely be among the top. However, even so, Ye Tian did not dare to immediately attempt advancing to the True God level.

He planned to enhance his strength further to prepare for the tribulation of reaching the True God level.

Next, Ye Tian’s main goal was to compress his celestial force, perfect his Primordial Scales Armor – a divine secret technique, and refine the ultimate technique of the Heavenly Moon Saber.

Although Ye Tian had created the peak-level Saber Dao ultimate technique – Heavenly Moon Saber, it had not yet reached the strongest peak level of Saber Dao ultimate techniques. Ye Tian was pursuing the strongest saber, and if the Heavenly Moon Saber was not perfected to the strongest peak level, this ultimate technique would be somewhat imperfect.

To create the strongest peak-level Saber Dao ultimate technique, Ye Tian needed to fulfill one condition – to condense his own Saber Principle Origin.

Once he reached this level, even if he was in an area isolated from laws, Ye Tian would still be able to unleash the power of the Heavenly Moon Saber ultimate technique.

There were many places in the Mysterious Region suitable for saber practitioners to comprehend saber Dao, though they were not much help to Ye Tian. However, Ye Tian still

frequently visited these places for comprehension, in addition to studying numerous saber Dao classics and secret texts, steadily progressing in his saber Dao.

But the progress was too slow, and it was still far from perfecting the Saber Dao ultimate technique to the strongest peak level.

“If only I could enter the Saber Tomb once more,” Ye Tian thought to himself.

However, this was just wishful thinking. Even the inheritors of the nine Supreme Forces were only allowed to enter the Saber Tomb once, and as an outsider, he certainly was not permitted to enter again.

Therefore, for Ye Tian to perfect the Heavenly Moon Saber to the strongest peak-level Saber Dao ultimate technique in a short period, he needed to find other opportunities.

In the following days, Ye Tian returned to Earth for a visit.

This time, his main purpose was to leave the Heavenly Dao Wood Core in the Tian Pavilion and elevate the talents of several key members within the Pavilion to Chaos-level cultivation talents.

Any genius with a Chaos-level cultivation talent could potentially cultivate to the Dominator Realm in the future.

With half a Heavenly Dao Wood Core, a total of five individuals with Chaos-level cultivation talents could be created, meaning that besides himself, the Tian Pavilion could potentially bring forth five Dominators in the future.

In the entire human race, a force with five Dominators was exceedingly rare.

It could be said that the half Heavenly Dao Wood Core had instantly elevated the foundation of the Tian Pavilion by many tiers.

On this day.

Ye Tian had not been on Earth for long and was preparing to leave when an old acquaintance arrived on Earth.

“Yun Xi!”

Upon seeing Yun Xi before him, Ye Tian’s mind was flooded with memories of the past.

Speaking of which, his initial relationship with Yun Xi was merely a partnership, but they were somewhat friends.

I had thought there would be little chance for us to meet again, but Yun Xi had actually come to Earth.

“Greetings, Prince of Ten Thousand Laws!”

Upon seeing Ye Tian, Yun Xi bowed.

Although a smile appeared on her face, it was tinged with a hint of sadness and urgency.

Clearly, Yun Xi’s visit to Earth was not for a reunion but for seeking help.

At this time, although Yun Xi was already a fifth-tier God-level powerhouse, the gap between her and Ye Tian was immense, compounded by the change in their statuses from the past.

In the past, Yun Xi was the young miss of the Yun family in the galaxy, while Ye Tian was merely a Heavenly Pride without any significant background.

But now, Ye Tian was the renowned Prince of Ten Thousand Laws among the human race, a status comparable even to Dominators, while Yun Xi’s status remained the same.

Therefore, Yun Xi felt much restraint and even nervousness in front of Ye Tian.

“Yun Xi, tell me, what brings you to Earth?” Ye Tian asked.

Biting her lip, Yun Xi narrated her story.

It turned out that over a hundred years ago, Yun Xi, with the strength of an eight-star peerless Heavenly Pride, achieved outstanding results in a competition among the various branches of the Yun family, ultimately leading the Yun family of the galaxy back to the Hengpan Galaxy.

However, Yun Xi's branch of the Yun family was inherently weak and could not compete with the Yun family of Panyun Star in the Hengpan Galaxy. Even among the many branches, Yun Xi's was considered very weak.

Thus, Yun Xi's branch could only form alliances with other Yun family branches for mutual support.

However, not long ago, the celestial race's plan began to be executed in full swing, starting from the highest Supreme Forces, Dominator Forces, and Overlord Forces, gradually transforming the lower forces.

The Yun family of Panyun Star, being a quasi-eight-star force, became the first branch among the many Yun family branches to transform into the celestial race.

After transforming into the celestial race, the strength of the Panyun Star Yun family surged dramatically, with Great God level powerhouses emerging continuously.

The Panyun Star Yun family had many peak True God level powerhouses, but due to insufficient talent, they were unable to advance to the Great God level.

Now, having transformed into the celestial race, a very small portion of these peak True God level powerhouses had their talents upgraded by a tier, thereby instantly stepping into the ranks of Great God level powerhouses.

With many Great God level powerhouses, the Yun family met the requirements of an eight-star force and successfully advanced to become an eight-star force.

Moreover, one of the Yun family's ancestors fortuitously advanced to the Galaxy level, instantly elevating them to a quasi-nine-star force.

The Panyun Star Yun family did not have many Planetary System level powerhouses and could not meet the requirements to advance to a nine-star force in the short term.

Therefore, the Panyun Star Yun family aimed to annex other Yun family branches to consolidate the entire Yun family, making the Pan Yun Yun family a true nine-star force.

If the Panyun Star Yun family had been friendly, it would have been one thing, but they bore a deep grudge against Yun Xi's branch and proposed very harsh conditions. They demanded that Yun Xi's ancestral elder, Elder Yun, perform nine bows and kowtows to admit his wrongs, only then allowing Yun Xi's branch to survive and be integrated into the Yun family. Otherwise, they threatened to exterminate Yun Xi's branch.

In reality, the likelihood of the Panyun Star Yun family exterminating Yun Xi's branch was higher, and the so-called kowtowing and admission of wrongs were merely intended as humiliation.

Elder Yun was well aware that his branch had no chance of resisting the Panyun Star Yun family, and even if many Yun family branches united, they would not stand a chance.

With the emergence of a Galaxy level powerhouse within the Panyun Star Yun family, the other Yun family branches had no means of resistance. Any attempt to resist would lead only to a dead end.

Thus, Elder Yun sent Yun Xi to Earth to seek help from the Tian Pavilion.

To be precise, to seek help from Ye Tian.

However, Elder Yun was not sure of Ye Tian's whereabouts and could only turn to the Tian Pavilion.

Yun Xi was in luck; Ye Tian happened to be in the Tian Pavilion.

"Prince of Ten Thousand Laws, I beg you to save our Yun family! The elder said you are a Domain Enforcer, and even the Panyun Star Yun family cannot do anything to you.

If you are willing to intervene, our Yun family can survive! Whatever your demands are, both I and the Yun family will agree!" Yun Xi pleaded earnestly.

Chapter 560: The Performance of True Monarch Jin Chen

As Yun Xi was kneeling in worship, Ye Tian hurriedly said, "Rise! I can help you!"

"Thank you, Prince of Ten Thousand Laws. May I know if you have any requests? Feel free to ask!" Yun Xi responded.

"There's no need for any reward; after all, we are friends!" Ye Tian said with a slight smile.

If he truly desired a reward, given the Yun family's resources, they wouldn't be able to produce an item that would satisfy him at this point. Given his status and the level of his discernment, ordinary treasures hardly caught his eye, not to mention common Heavenly Dao Characters.

As for the Yun family, they probably couldn't even obtain the most basic Heavenly Dao Character. Even if they had one, exposing it would mean the Yun family couldn't protect the Heavenly Dao Character.

In Ye Tian's eyes, the Yun family was far too weak! If it weren't for Yun Xi seeking him out, he wouldn't have cast his gaze on such a minor force like the Yun family.

Ye Tian didn't make Yun Xi wait too long. He quickly took her aboard his cosmic spaceship and rushed to the Yun family's location in the Hengpan Galaxy system.

In the Hengpan Galaxy, within the Shaluo Star System.

This star system was relatively small within the Hengpan Galaxy and wasn't rich in resources. However, compared to other galaxies, the Shaluo Star System was undoubtedly a land of abundance.

Over a hundred years ago, the Yun family from the Milky Way occupied this place, making it the base for Yun Xi's lineage.

Since then, Yun Xi's lineage had become known as the Shaluo Yun family.

However, the Shaluo Yun family was now heavily surrounded by the Panyun Star Yun family, with several teleportation arrays either monitored or destroyed.

Under such a siege, a large number of the Shaluo Yun family's members couldn't leave.

Previously, Yun Xi could leave by using a secret treasure from Elder Yun, but such treasures were rare, and using one would render it useless.

On Shaluo Star, Elder Yun sighed deeply, "Yun Xi, everything depends on you now. The Panyun Star Yun family's patience is limited. I fear they might force our hand in a few days!"

Elsewhere.

Outside the Shaluo Star System, a large number of cosmic warships were stationed, monitoring the entire system. On one of these warships, the Yun family's Grand Elder, Yun Zhen, was present.

Yun Zhen's strength ranked in the top three within the Yun family. After transforming into a celestial being, his cultivation speed increased significantly. He had reached the eighth stage of the Planetary System level and was only a step away from the ninth stage.

Of course, given his talent, the ninth stage of the Planetary System level was his limit.

Yun Chen's cultivation was only at the third stage of the Planetary System level. Combined with his slightly inferior talents in other areas, his overall strength was much weaker than Yun Zhen's.

Even if the Yun family's galaxy-level powers did not come this time, Grand Elder Yun Zhen alone was enough to deter the Shaluo Yun family. Yun Chen's strength was not enough to contend with the Panyun Star Yun family.

"Grand Elder Yun Zhen, the Shaluo Yun family has not sent any messages yet. If the Shaluo Yun family really surrenders and Yun Chen is willing to bow and apologize, begging for our mercy, are we really going to spare the Shaluo Yun family? We have deep grievances with

them. If we let them go, it might cause trouble in the future!” a God-level elder beside Yun Zhen asked.

“Hmph, how could we possibly spare Yun Chen and the Shaluo Yun family? I just want to see Yun Chen kneeling and begging for mercy. He has always been so proud; I want to crush his pride completely, give him hope, and then plunge him into despair!” Grand Elder Yun Zhen laughed heartily.

As time passed, the deadline drew nearer and nearer.

Yun Chen had not provided any response, and with other Yun family branches showing signs of unifying, the Yun family needed to deal a significant blow to these branches. Grand Elder Yun Zhen, as the main force of the Yun family, naturally needed to return to the main battlefield soon. The Shaluo Yun family was just a minor branch, and spending too much time here could affect the Panyun Star Yun family’s plans.

Thus, Grand Elder Yun Zhen decided not to wait any longer. He directly led a fleet towards Shaluo Star.

The fleet’s purpose was not to attack but to prevent others from the Shaluo Yun family from escaping. The ones who would truly take action were Yun Zhen and some God-level powerhouses.

Soon, the fleet arrived near Shaluo Star, and Yun Zhen flew out towards the space surrounding Shaluo Star. His voice echoed down to the planet.

“Yun Chen, I have no patience to wait any longer. Make your choice. If you choose to kneel and admit your mistakes, begging for my mercy, I might let you have a way out. If you don’t, I will kill you all right now,” Grand Elder Yun Zhen threatened.

Whoosh! Yun Chen flew out from Shaluo Star. If he didn’t come out, and if Yun Zhen and the battleships attacked Shaluo Star, it wouldn’t be able to withstand the assault and would explode and be destroyed.

By then, only warriors at the God level would be able to survive. All other warriors would perish in the explosion of Shaluo Star.

Therefore, Yun Chen had no choice but to confront Grand Elder Yun Zhen directly.

Looking at Yun Zhen's sinister face, Yun Chen sighed, "Yun Zhen, I know you really want to kill me. Even if I kneel and beg for your mercy, you probably won't spare me. If you swear not to trouble the other members of the Shaluo Yun family, I can do as you ask, even commit suicide if necessary!"

Yun Zhen sneered inwardly at the idea of making a vow. How could he possibly swear such a thing?

"Sorry, I never intended to spare your branch from the beginning. I was worried about the other Yun family branches before, so I dared not destroy your branch. But now, the other branches can hardly stop our Panyun Star Yun family's offensive, let alone your small branch. After today, the Shaluo Yun family will cease to exist!" Yun Zhen declared.

In the next instant, he made his move! Yun Zhen casually struck out with his palm, sending Yun Chen flying.

Pfft! Yun Chen was sent flying hundreds of miles, continuously spitting blood. His entire body was nearly pierced through.

Just one move, and he couldn't bear it, severely injured and collapsing in the starry sky.

"You're too weak!" Yun Zhen arrogantly said. "I am now a celestial being, haha, within the same rank, my physical strength and celestial power far exceed what they were before. If you could survive, you might have become a celestial being in the future, but sadly, you have no hope now!"

Just then, "Who said he has no hope of becoming a celestial being?"

Hearing this voice, Yun Zhen angrily said, "Who dares to interfere in the Yun family's affairs?"

He was truly furious. This area had already been sealed off by the Yun family, and other forces would usually give face to the Yun family, which was about to advance to a nine-star power, and would not meddle in the Yun family's conflicts. But now, someone had brazenly entered

this area, which was undoubtedly disrespectful to the Yun family! Whoosh! A cosmic spaceship appeared not far away, breaking through the blockade with ease due to its high level.

Whoosh! Two people descended from the cosmic spaceship, one was Ye Tian, and the other was Yun Xi.

Grand Elder Yun Zhen recognized Ye Tian. Seeing him, he frowned and said, “Prince of Ten Thousand Laws, are you intending to help the Yun family?”

Originally, Ye Tian had conflicts with the Panyun Star Yun family, and he even slew many of their Heavenly Prides.

Naturally, Grand Elder Yun Zhen harbored deep hatred towards Ye Tian, but since Ye Tian had become a Child of the Universe and entered the Supreme Hall of Humanity, he didn’t dare to offend Ye Tian, despite not knowing much about the Supreme Hall of Humanity. The status of a Child of the Universe was too astonishing, protected by the higher echelons of humanity.

As for Ye Tian’s identity as a Domain Enforcer, only the four dominant powers and a few nine-star powers were aware. Yun Chen, who had the fortune to witness Ye Tian mobilizing the Domain Enforcer token, was also in the know.

But Yun Zhen was oblivious! If he knew that Ye Tian was a Domain Enforcer, he would have begged for mercy immediately.

“Indeed, I intend to protect the Yun family. Give me some face, and we’ll consider this matter settled,” Ye Tian said indifferently.

“I’m sorry, Prince of Ten Thousand Laws, but I can’t give you that face,” Yun Zhen flatly refused.

“It seems you wish for death!” A hint of killing intent appeared on Ye Tian’s face.

He was already quite displeased with Yun Zhen, and although they had conflicts, he didn’t bother dealing with someone as insignificant as Yun Zhen. But now that Yun Zhen was being so disrespectful, he couldn’t be blamed for what came next.

“True Monarch Jin Chen, kill him. Can you do it?” Ye Tian spoke.

Whoosh! A figure flew out from the cosmic spaceship, revealing himself to be one of Ye Tian’s guards, True Monarch Jin Chen.

“Your subordinate guarantees to complete the mission!” True Monarch Jin Chen assured.

He was well aware that Ye Tian also had a Dominator level guard and ten Universal God level guards. His strength was considered quite low in comparison to them, and he rarely had a chance to prove himself.

This time, he was determined to perform well.

In terms of cultivation, he was at the ninth tier of the God level and had cultivated many powerful secret techniques from the Supreme Hall of Humanity. He was among the first batch to transform into a celestial being and had even cultivated the latest celestial secret techniques created by the higher echelons of humanity.

Therefore, his combat power far exceeded his past self, and he was fully confident in defeating Grand Elder Yun Zhen.

“A ninth-tier God level star system powerhouse!” Yun Zhen’s pupils constricted; he had never expected Ye Tian to have such a powerful guard. He was somewhat taken aback for a moment.

But then he remembered the galaxy-level power behind him and felt fearless again.

Whoosh! True Monarch Jin Chen charged forward, clashing with Grand Elder Yun Zhen.

As for Ye Tian, he stood there, seemingly unconcerned and not at all anxious.
