Chapter 561: Capturing Yun Zhen Alive

Boom! The clash between True Monarch Jin Chen and Elder Yun Zhen sent shockwaves surging in all directions, forcing even the Yun Family's warship in the Panyun Star Field to retreat to avoid being caught in the aftermath.

Despite the warship's formidable strength, it struggled to withstand the onslaught from two Planetary System-level powerhouses.

However, Ye Tian's vicinity remained unaffected by the residual impacts. Even if the attacks from True Monarch Jin Chen and Elder Yun Zhen reached their area, they would silently dissipate.

Yun Chen cast a curious glance at Ye Tian, finding it strange. It seemed as if a powerful force protected this area, preventing the shockwaves from reaching them.

"How peculiar, could it be that someone is safeguarding the Prince of Ten Thousand Laws?" Yun Chen wondered.

But upon considering Ye Tian's identity, the oddity made sense.

After all, Ye Tian was a Domain Enforcer, his status only second to that of the four dominant power leaders, which is just below a Universal God! For such a distinguished individual, having a Galaxy level powerhouse as a secret protector seemed normal. However— "Even a Galaxy level being shouldn't be able to silently erase the shockwaves from two Planetary System level powerhouses." Yun Chen thought to himself.

Before long, the battle between True Monarch Jin Chen and Elder Yun Zhen neared its end.

Elder Yun Zhen was significantly weaker than True Monarch Jin Chen and couldn't hold out for long, even with a desperate effort.

By this time, Elder Yun Zhen had sustained severe injuries and stood no chance against True Monarch Jin Chen.

“How about we stop here, Your Excellency? Our Yun Family in the Panyun Star Field has a Galaxy level powerhouse and we also have the longstanding nine star force, the Sword Emperor Sect, as our backing. If you kill me, you’ll be in big trouble!” Elder Yun Zhen hastily said.

Recognizing he was no match for True Monarch Jin Chen, he could only invoke the name of a Galaxy level powerhouse... and the Sword Emperor Sect, their significant backer.

The Sword Emperor Sect was immensely powerful, ranking among the top within the nine star forces, boasting numerous Galaxy level powerhouses. It was only lacking a Universal God, which prevented it from being classified as an overlord level force.

In the Pan Star Field, aside from the four overlord-level forces, most powers and powerhouses generally respected the Sword Emperor Sect. By associating with the Sword Emperor Sect, a significant backer, he believed True Monarch Jin Chen would surely hesitate to kill him due to fear of offending the sect.

However, he was mistaken! True Monarch Jin Chen wasn’t just any Planetary System level powerhouse from the Pan Star Field; he was cultivated outside the Supreme Hall of Humanity, having seen all manner of powerhouses. A mere nine star force truly couldn’t intimidate him.

Moreover, he only heeded Ye Tian’s commands.

If Ye Tian ordered him to kill, he wouldn’t hesitate, even if Elder Yun Zhen belonged to an overlord or even a dominator level force.

Boom! With a thrust, True Monarch Jin Chen impaled Elder Yun Zhen but didn’t finish him off. Instead, he brought the dying elder before Ye Tian.

“Your Highness, I have captured this man. Please instruct me on how to proceed!” True Monarch Jin Chen said.

Ye Tian didn’t respond but turned to look at Yun Chen.

“Old Yun, what do you think we should do with Yun Zhen?” Ye Tian asked.

Yun Chen hurriedly bowed and said, “Prince of Ten Thousand Laws, Yun Chen is at your service. I dare not make this decision.”

“Let’s go to Panyun Star!” Ye Tian instructed.

“Yes!” True Monarch Jin Chen nodded in agreement.

At this moment, Yun Chen anxiously said, “Prince of Ten Thousand Laws, you mustn’t do this. Panyun Star is the headquarters of the Yun Family in the Panyun Star Field, guarded by a Galaxy level powerhouse and it’s also fortified with numerous formations. Even powerhouses at the Galaxy level wouldn’t dare to intrude recklessly! Although you are a Domain Enforcer, the members of the Yun Family in Panyun Star are unaware of this!”

His ideal solution was for Ye Tian to utilize his status as a Domain Enforcer to mobilize forces from the Undying Legion or the other three dominant powers, which would easily suppress the Yun Family in Panyun Star.

However, since Ye Tian was here to assist him, he dared not dictate what Ye Tian should do.

“Old Yun, rest assured, if I dare to venture into Panyun Star, I naturally do not fear the Yun Family!”

Ye Tian said with a slight smile.

Seeing Elder Yun Zhen captured, the Yun Family’s warship attacked in an attempt to rescue him.

However, True Monarch Jin Chen swiftly penetrated and destroyed the warship with a single spear thrust.

Subsequently, Ye Tian secretly ordered a Universal God to guard Shaluo Star, to prevent the Yun Family from destroying it after their departure, which would render his rescue mission meaningless.

At the Yun Family in Panyun Star.

Within a magnificent hall, an elderly man sat on the throne.

This elder was the Yun Family's Galaxy level powerhouse—Piaoyu True Lord, the former Patriarch of the Yun Family and currently the Supreme Elder.

Having fortuitously ascended to the Galaxy level, he returned from behind the scenes to retake control of the Yun Family, intending to lead them to challenge the nine star forces.

But now, his expression was extremely somber, and the Generals and Planetary System level elders below were all very anxious.

“Supreme Elder, has something happened? Weren't we supposed to immediately attack the other Yun Family branches? Why has the plan suddenly been halted?” A Planetary System level elder asked curiously.

“Yun Zhen has run into trouble!” Piaoyu True Lord said furiously.

“What, Elder Yun Zhen is in trouble? How could this happen? Wasn't he just going to surround the Shaluo Star branch of the Yun Family? This should have been a very simple matter!”

The others were puzzled, each looking at Piaoyu True Lord, waiting for his response.

“I just received news from the Shaluo Star System that Elder Yun Zhen has been captured. I also tried to contact Elder Yun Zhen but couldn't reach him, so it's highly likely true.

It's very possible that the captors might come to our Panyun Star, which is why I stopped the plan to attack the other Yun Family branches.

Those Yun Family branches don't have any strong powerhouses; they are just scattered forces. It wouldn't matter if we annex them later.

But Yun Zhen is a major Elder of our Yun Family, and we absolutely cannot afford to lose him.”

Piaoyu True Lord spoke gravely.

The other elders nodded in agreement, endorsing Piaoyu True Lord's statement. After all, they had already absorbed some branches, and the remaining few were not a concern. Given time, they were confident of assimilating these branches as well.

However, the loss of Elder Yun Zhen would be a devastating blow to the Yun Family.

"They are here!"

Piaoyu True Lord's eyes seemed to penetrate through layers of space, gazing into the stars as he murmured.

Swoosh! One after another, the Divine Generals and Planetary System level powerhouses of the Yun Family rushed out, following Piaoyu True Lord, ready to confront the imminent enemy.

They were also curious about who would dare to oppose the Yun Family at this time.

As for panic, there was none.

Piaoyu True Lord was a Galaxy level powerhouse and had once been a peerless Heavenly Pride. His combat strength far surpassed that of ordinary Galaxy level powerhouses, and he wielded an Origin Artifact.

It could be said that Piaoyu True Lord's combat strength was incredibly formidable even among newly advanced Galaxy level powerhouses.

With such a Galaxy level powerhouse at the helm, what was there to fear in Panyun Star, within the distant expanse of space?

The members of the Yun Family appeared one by one, and Ye Tian's spacecraft also docked in the area, leading to a standoff between the two parties.

Clang! The hatch opened, and True Monarch Jin Chen appeared, holding the severely injured and dying Elder Yun Zhen. Ye Tian, Yun Chen, Yun Xi, and others also followed.

Seeing Ye Tian, many of the Yun Family members' expressions slightly changed.

"Supreme Elder, he is the Prince of Ten Thousand Laws!" one of the Yun Family elders reported to Piaoyu True Lord.

"Prince of Ten Thousand Laws, the Child of the Universe!" Piaoyu True Lord's expression changed.

This was somewhat troublesome. The Child of the Universe was under the protection of the Supreme Hall of Humanity, and Ye Tian was a prince of the Supreme Hall of Humanity. Although it was unclear what status that entailed within the Supreme Hall of Humanity, even a hint of status meant he dared not kill a prince.

Chapter 562: The Arrival of a Universal God!

"Supreme Elder, what should we do now? It's a prince from the Supreme Hall of Humanity. Although his strength cannot compete with our Yun family, we cannot kill a prince either!"

A Planetary System level elder from the Yun family communicated through spiritual consciousness.

Piaoyu True Lord frowned, but then he transmitted his message: "Just do not kill the prince from the Supreme Hall of Humanity. As for the others, even if they are killed, the Supreme Hall of Humanity cannot hold us accountable. After all, they are now invading our Yun family's territory and are provoking us."

"Yes!" The members of the Yun family responded.

From afar.

Yun Zhen, the Grand Elder, looked towards Piaoyu True Lord and weakly said, "Supreme Elder, save me!"

Boom! Piaoyu True Lord stepped forward, his aura of Galaxy level oppressing everything around, attempting to intimidate Ye Tian.

Yun Chen and Yun Xi's expressions changed. Had it not been for the aura of Jin Chen Divine Lord protecting them, they probably wouldn't have been able to stand steady.

"Prince of Ten Thousand Laws, what is the meaning of this? Why are you capturing my Yun family's Grand Elder?" Piaoyu True Lord demanded.

"How dare you speak to our prince like that!" Jin Chen Divine Lord shouted loudly.

"Step back!" Ye Tian waved his hand.

Jin Chen Divine Lord bowed and stepped back. With his strength, he couldn't assist Ye Tian; he could only watch over Yun Zhen, the Grand Elder.

His shouting at Piaoyu True Lord was merely to defend Ye Tian, but in terms of real strength, he was no match for Piaoyu True Lord.

Of course, he was not worried about Ye Tian's safety, as Ye Tian still had Dominator Dark and ten Universal Gods. With a Dominator's majestic power, even across many galaxies, he could easily protect Ye Tian.

Thus, he retreated confidently.

"Piaoyu True Lord, the Shaluo Yun family is my friend. If you intend to destroy the Shaluo Yun family, what's wrong with my intervention? Moreover, I have killed quite a few Heavenly Prides from the Pan Yun family of Yun family, causing heavy losses to the Yun family. Doesn't the Yun family want to deal with me?" Ye Tian provocatively stated.

Piaoyu True Lord clenched his fists; he desperately wanted to kill Ye Tian immediately, but doing so might mean the end of the Pan Yun family.

The Pan Yun family did not have a strong backing in the Supreme Hall of Humanity and dared not act recklessly.

“Prince of Ten Thousand Laws, what are you saying? You are a prince from the Supreme Hall of Humanity, how could our Yun family possibly go against you! However, the Shaluo Yun family is a branch of our Yun family, and our dispute is an internal matter. Could it be that the Prince of Ten Thousand Laws intends to meddle in internal conflicts?” Piaoyu True Lord asked.

“I indeed can intervene in the internal conflicts of major forces!” Ye Tian laughed and casually took out his Domain Enforcer badge.

Although he did not care about the identity of a Domain Enforcer, to the major forces of the Pan Star Field, this badge was more effective than his own status.

Indeed, the Yun family, a power like this, had a shortsighted view and was unaware of Ye Tian’s formidable identity. However, they recognized the Domain Enforcer badge.

When Ye Tian presented the Domain Enforcer badge, Piaoyu True Lord was stunned.

“A Domain Enforcer badge... how do you have a Domain Enforcer badge? It can’t be! The previous Domain Enforcers were at least at the Planetary System level, and most were at the Galaxy level.

You’re only at the God level, how can you be a Domain Enforcer?”

Piaoyu True Lord took a step back, frightened.

A Domain Enforcer, this status was enough to surpass all the Galaxy level forces in the Pan Star Field, second only to a Universal God.

He was merely the leader of a pseudo-nine-star force; even a true nine-star force like the Sword Emperor Sect would not dare to offend a Domain Enforcer, because a Domain Enforcer could mobilize the power of the four great overlord forces, and even the heads of these overlord-level forces would give face to a Domain Enforcer.

“Greetings, Domain Enforcer!” Piaoyu True Lord said respectfully.

Seeing that Piaoyu True Lord had conceded, Ye Tian smiled and said, “Piaoyu True Lord, from today onwards, the Pan Yun family must not act against the Shaluo Yun family. What do you think?”

He wanted Piaoyu True Lord to make a clear stance. If Piaoyu True Lord didn’t show understanding, Ye Tian wouldn’t mind erasing him.

After all, he did not want to waste too much time here.

Piaoyu True Lord hesitated. Naturally, he didn’t want to let go of the Shaluo Yun family, but he also did not want to offend a Domain Enforcer! The current Yun family could not afford to offend a Domain Enforcer, as it would make their future very difficult.

Just as he was about to give up, a voice transmitted.

“Piaoyu True Lord, the Yun family need not fear a prince, I will support you!”

Whoosh! A sword light tore through the void, forming a figure.

Seeing this person, many Yun family warriors greeted, “Greetings, Sword Master Hei You!”

This person was none other than Sword Master Hei You, formerly known as Hei You Sword Monarch.

Now, Sword Master Hei You was a Galaxy level powerhouse, and his strength was much greater than that of Piaoyu True Lord, especially since Hei You Sword Monarch was among the top-tier fighters at the Planetary System level back then.

“Sword Master Hei You, you’re here!” Piaoyu True Lord greeted with a smile.

“Rest assured, Piaoyu True Lord, since the Yun family has aligned with our Sword Emperor Sect, we are willing to support you! What of a Domain Enforcer? Although they hold great

power, as long as the major forces do not violate the rules and do not betray humanity, a Domain Enforcer cannot annihilate a force of eight stars or higher!” Sword Master Hei You said coldly.

Piaoyu True Lord was worried and transmitted, “Sword Master Hei You, Ye Tian is the Prince of Ten Thousand Laws from the Supreme Hall of Humanity, and now somehow has become a Domain Enforcer. If he mobilizes the powerhouses from the four great overlord-level forces, can our Yun family, even the Sword Emperor Sect, withstand it?”

Sword Master Hei You laughed loudly, “Piaoyu True Lord, the Pan Star Field now doesn’t have four great overlord-level forces, but five!”

“Could it be...”

The pupils of Piaoyu True Lord suddenly contracted, and he quickly thought of a possibility, exclaiming with joy, “Could it be that the Sword Emperor Sect has someone who has stepped into the Universal God realm?”

“Indeed, the old sect master took advantage of the opportunity to transform the celestial race, boosting his cultivation talent in one fell swoop. He has now become a Universal God, and our Sword Emperor Sect has officially entered the ranks of an overlord-level force.

Previously, our Sword Emperor Sect lacked only a Universal God compared to other overlord-level forces, so now what is there to fear?” declared Sword Master Hei You proudly.

“Congratulations!” Piaoyu True Lord offered his congratulations.

As the two chatted, they seemed to have forgotten the existence of Ye Tian.

“Sword Master Hei You, you want to stand up for the Yun family?” Ye Tian said coldly.

“Indeed!” Sword Master Hei You stared directly at Ye Tian. “Prince of Ten Thousand Laws, you dared to threaten me in the past. Although you have become a Prince of the Supreme Hall of Humanity, I wouldn’t dare to touch you.

But what does being a Prince of the Supreme Hall of Humanity mean? In the Pan Star Field, many Children of the Universe have been born, but only a few have become Universal Gods.

Although I'm unclear about how you obtained the position of a Domain Enforcer, a Domain Enforcer can only serve for a millennium. After a millennium, you're just another Child of the Universe. Compared to our Sword Emperor Sect, you're nothing!" Sword Master Hei You believed that with the Sword Emperor Sect becoming an overlord-level force, they had grown significantly, but he utterly failed to understand the significance of a Domain Enforcer and the protection of a Planetary System-level guard.

Ye Tian was no ordinary Prince. Not to mention the Sword Emperor Sect, even the entire Pan Star Field meant little in Ye Tian's eyes.

"True Monarch Jin Chen, kill Elder Yun Zhen. I... don't want to waste any more time!" Ye Tian commanded.

"Yes!" True Monarch Jin Chen nodded.

With a thrust of his spear, Elder Yun Zhen's head was obliterated.

Thus, the Planetary System-level powerhouse, Yun Zhen, fell at the hands of True Monarch Jin Chen.

At this moment, Piaoyu True Lord and Sword Master Hei You were stunned, and even Yun Chen and Yun Xi were taken aback.

Yun Chen thought that Ye Tian would make some concessions, given that this now involved an overlord-level force! The birth of a Universal God in the Sword Emperor Sect was a monumental event, and a Universal God was almost immortal. As long as the Universal God wasn't killed, the Sword Emperor Sect would always be an overlord-level force.

The gap between a nine-star power and an overlord-level force was immense, and while many Princes had arisen in the Pan Star Field over generations, only a handful of these Princes survived in the end.

Thus, Yun Chen also felt that Ye Tian's status was far inferior to that of a Universal God, let alone his own strength.

Yet now, Ye Tian had disregarded the Sword Emperor Sect and directly killed Yun Zhen.

“Prince of Ten Thousand Laws, this could bring trouble upon you!” Yun Chen expressed his gratitude but also voiced his concerns.

Ye Tian responded with a faint smile, “Elder Yun, as I said, the Yun family alone amounts to nothing. Let alone the Yun family, even the Sword Emperor Sect is nothing in my eyes. Even if it were the Universal God of the Sword Emperor Sect who arrived, it would not change today’s outcome!”

These words enraged Sword Master Hei You.

“Prince of Ten Thousand Laws, aren’t you being too arrogant? How dare you show disrespect to a Universal God!” Sword Master Hei You roared.

Immediately, he made his move. He dared not kill Ye Tian, but he felt emboldened to kill those around Ye Tian.

He wanted to make Ye Tian regret!

“Nine Heavens Sword Technique!”

Sword lights tore through the starry sky, aimed at everyone around Ye Tian, except for him.

An upper-grade sword technique from a Galaxy-level powerhouse, each strand of sword light capable of killing a top-tier Planetary System-level warrior.

Yun Chen and Yun Xi panicked, their faces showing despair, while Ye Tian and True Monarch Jin Chen remained utterly calm.

Just as the sword lights were about to strike, a finger appeared and instantly obliterated all the sword lights.

Then, this finger, as if piercing through the galaxy, covered the entire starry sky and crushed down towards Sword Master Hei You.

The void was locked, and everything stood still! Sword Master Hei You tried to manipulate the laws of the sword and execute a powerful technique, but under this finger, the laws of the sword collapsed.

The finger struck! Sword Master Hei You spat out blood, his sword shattered into countless pieces, and even his body was pierced through with a blood hole that could not heal.

“Universal God!”

Sword Master Hei You was filled with terror.

He did not know which Universal God had intervened, but he was far inferior to any Universal God, not even one ten-thousandth as powerful.

“Save me!”

Sword Master Hei You immediately crushed a jade amulet for help.

This was a lifeline held by every high-ranking member of the Sword Emperor Sect. As long as the distance was not too great, the Universal God of the Sword Emperor Sect could project his presence through space.

As the amulet shattered, the laws and energies of the universe automatically formed a figure.

This figure was that of a middle-aged man with sword-like eyebrows and pupils as deep as bottomless ancient wells.

Surrounded by the laws of the sword, he appeared like a supreme divine being.

The Universal God of the Sword Emperor Sect—Divine Lord Jianyu had arrived!

...

Btw guys, I wouldn't mind the title convention. They all mean the same thing really and I'm still trying to figure it out (like character combinations).

Chapter 563: Divine Lord Jianyu Concedes! The Seal of Panyun Star!

“Divine Lord Jianyu!”

Sword Master Hei You bowed respectfully.

At the same time, other members of the Yun family also knelt down and said, “We greet Divine Lord Jianyu!”

“What’s going on, Hei You?” Divine Lord Jianyu asked.

He had descended in an avatar and thus was unaware of the situation, but he was certain that something had gone wrong.

Otherwise, Sword Master Hei You would not have sustained serious injuries nor would he have crushed the talisman for emergency aid.

Given Sword Master Hei You’s cultivation and combat prowess at the Galaxy level, only a being stronger than a Galaxy level could have inflicted such damage on him.

Sword Master Hei You conveyed the situation to Divine Lord Jianyu through telepathic transmission.

“A Universal God intervened?” Divine Lord Jianyu exclaimed in shock.

Within the Pan Star Field, there were only a few Universal Gods, apart from those belonging to the four major overlord-level forces.

As a newly ascended Universal God, Divine Lord Jianyu was wary of offending other powerful Universal Gods. He inquired, “May I know which Divine Lord has graced us with their presence, and could we possibly meet?”

Meanwhile.

Yun Chen was utterly stunned. He had merely called for help, and he couldn't fathom how a conflict of this level at the Yun family could involve a Universal God.

What surprised him even more was that a Universal God had intervened on behalf of Ye Tian, swiftly defeating Divine Lord Jianyu.

"I guessed right. When the residual shockwaves from the attacks of True Monarch Jin Chen and Elder Yun Zhen suddenly disappeared, it wasn't the work of a Galaxy level, but a Universal God," Yun Chen thought to himself.

A Universal God, secretly protecting Ye Tian.

Boom!!! One of the ten guardians, a Universal God, appeared beside Ye Tian.

After consulting with Ye Tian, he began to speak, "Divine Lord Jianyu, I am Divine Lord Jue Ming from the Supreme Hall of Humanity, currently one of the guardians under the Prince of Ten Thousand Laws!"

"What? A Universal God from the Supreme Hall of Humanity! And a guardian under the Prince of Ten Thousand Laws!" Divine Lord Jianyu was shocked.

Although he was surprised by the presence of a Universal God from the Supreme Hall of Humanity, he would not have been overly fearful; after all, Universal Gods vary in strength and status, and not every Universal God from the Supreme Hall of Humanity held a noble position.

But to have such a Universal God as a guardian under the Prince of Ten Thousand Laws was truly shocking! He did not doubt the words of Divine Lord Jue Ming; there was no need for deception at the level of Universal Gods, especially since it would be implausible for a Universal God to pretend to be a guardian unless it was true. This meant one thing: it was the truth! Although Divine Lord Jianyu was not very familiar with the princes of the Supreme Hall of Humanity, he was well aware that an ordinary prince could not possibly have a Universal God as a guardian. He remembered that many princely figures with god-like status had only Galaxy level guardians, and many of them only achieved Galaxy level in their lifetime, with few ascending to Universal God.

Having once been a nine-star peerless Heavenly Pride, he never became a Child of the Universe, but his current achievements surpassed many such individuals.

Therefore, he was aware of the statuses of historical Children of the Universe within the Pan Star Field; how could there be such a high treatment.

“The Prince of Ten Thousand Laws is definitely not an ordinary prince!” Divine Lord Jianyu thought to himself.

At that moment, he wanted to leave, but as a Universal God, simply leaving would be too humiliating. Then,

Divine Lord Jue Ming continued, “Divine Lord Jianyu, I advise you to apologize to the prince. He is not someone you can afford to offend.

Otherwise, if the prince becomes wrathful towards the Sword Emperor Sect, a single word from him could lead to its destruction!”

“Hmph, Divine Lord Jue Ming, don’t underestimate our Sword Emperor Sect. Although you are a Universal God, your aura isn’t very strong, and you might not be my match!” Divine Lord Jianyu declared.

At that moment,

Ye Tian waved his hand, causing one guardian after another to appear.

Two! Three! Four!

As Universal Gods appeared one after another, Divine Lord Jianyu’s expression drastically changed.

In the blink of an eye, nine Universal Gods were standing behind him.

There was another Universal God staying on Shaluo Star; otherwise, there would have been one more Universal God present here.

“Divine Lord Jianyu, I don’t want to waste too much time here. Originally, I had no intention of targeting the Sword Emperor Sect, but if you insist on protecting the Yun family, I’m sorry to say, you are not someone I can afford to offend!” Ye Tian said coldly.

Boom, boom, boom!!!

The momentum of the nine Universal Gods surged like a tsunami toward the Yun family, causing utter panic among them.

Let alone that Divine Lord Jianyu had descended in an avatar, even if his true body had been present, he would definitely not dare to face nine Universal Gods at once!

“Nine Universal Gods, the entire Pan Star Field only has that many at most! Just what kind of background does the Prince of Ten Thousand Laws have. Could he possibly be the illegitimate child of some major figure?”

It wasn’t strange for Divine Lord Jianyu to think this way, as everything had exceeded his understanding.

“Hei You, return to the Sword Emperor Sect!” Divine Lord Jianyu issued the command.

Immediately, he allowed his avatar to dissipate.

“Yes!”

Sword Master Hei You, dragging his severely injured body, crushed another treasure and transformed into a beam of light flying towards the Sword Emperor Sect.

“No, Divine Lord Jianyu, Sword Master Hei You, save our Yun family!” True Lord Piaoyu cried out.

Regrettably, they could no longer hear him.

At that time, he despised Sword Master Hei You immensely.

Had it not been for Sword Master Hei You, he might have conceded; after all, he originally had no desire to offend a Domain Enforcer. However, Sword Master Hei You declared that the Sword Emperor Sect, soon to be elevated to an overlord-level force, supported him.

As a result, he now conceded and fled, but the Panyun Star Family had no choice but to bear the blame.

“Prince of Ten Thousand Laws, I acknowledge my mistakes, please spare our Yun family. We are willing to relinquish our position as the head family and let the Shaluo Star Family take over!” said the True Lord Piaoyu.

The other elders of the Yun family also knelt down and pleaded for Ye Tian to spare them.

Ye Tian pondered for a moment. His grudge with the Panyun Star Family hadn’t reached the point of exterminating their clan, and he also didn’t want to directly obliterate the Yun family, which would be too cruel.

Yun Chen and Yun Xi had come to him for help, merely asking him to free them from the Yun family’s predicament, not to annihilate them.

However, if he simply left now, the Shaluo Yun Family would sooner or later still be oppressed by the Panyun Star Family.

Moreover, this time the Yun Family had indeed infuriated him; he had even used his identity as a Domain Enforcer, yet the Yun Family still refused to compromise.

Therefore, a punishment for the Panyun Star Family was necessary.

“Divine Lord Jue Ming, seal the Panyun Star for a million years, not to be unsealed!” Ye Tian commanded.

“Yes!” responded Divine Lord Jue Ming.

Subsequently, Divine Lord Jue Ming took action.

Under the tremendous power of a Universal God, True Lord Piaoyu and the others could no longer control their bodies and were flung back to Panyun Star.

“No, Prince of Ten Thousand Laws, you can’t seal our Panyun Star Family for a million years! Please, spare us, we are willing to pay a tremendous price!”

Regardless of how True Lord Piaoyu and the others pleaded, even offering to give up all their family wealth, Ye Tian remained unmoved.

All the mighty warriors of the Yun Family were sent back to Panyun Star, and layer upon layer of the Universal God’s power was applied to Panyun Star, sealing it in the depths of the void.

In the blink of an eye, Panyun Star disappeared.

Unless a Universal God intervened, Panyun Star would only reappear after a million years.

A million years was an exceedingly long time, and given Panyun Star’s limited resources, with no access to external resources, by the end of the million years, the older generation of the Yun Family would have reached the limits of their lifespan and perished, while the new generation, lacking resources, could not advance their strength.

Thus, even if the Yun Family still existed after a million years, they could only be a minor family, incapable of contending with the Shaluo Star Family.

“Elder Yun, are you satisfied with this arrangement?” Ye Tian looked at Yun Chen.

Yun Chen quickly bowed and clasped his fists, saying, “Prince of Ten Thousand Laws, you can just call me Yun Chen. No matter how you arrange things, Yun Chen is very satisfied!”

“Very well, the Panyun Star Family has been sealed. I believe you won’t face any dangers now. I’m heading back!”

Then, Ye Tian boarded his cosmic spaceship and left, soon disappearing from Yun Chen's sight.

"Yun Xi, let's go home too!"

Yun Chen, along with Yun Xi, left the Panyun Star system and returned to the Shaluo Star System.

Sword Emperor Sect.

Divine Lord Jianyu had suffered great humiliation in the Panyun Star system and did not dare to go out of the Sword Emperor Sect after repeated outbursts of anger.

Not long after, the news of Divine Lord Jianyu's ascension to a Universal God was still publicized, and the Sword Emperor Sect formally stepped into the ranks of hegemon-level forces.

On this day.

The leaders of the four major hegemon-level forces came to the Sword Emperor Sect to celebrate its ascension as the fifth hegemon-level force in the Pan Star Field.

The five Universal Gods also sat together in a grand hall, chatting idly.

Suddenly.

The Undying Legion Lord spoke up, "According to the intelligence of our Undying Legion, did Divine Lord Jianyu recently have a run-in with the Prince of Ten Thousand Laws?"

"Yes!" Divine Lord Jianyu nodded expressionlessly.

"Divine Lord Jianyu, I must say, you are quite bold to have provoked the Prince of Ten Thousand Laws," said the Undying Legion Lord with a meaningful look. "Do you know the current status of the Prince of Ten Thousand Laws? Let alone that you have only just ascended

to a Universal God, which isn't much in the grand scheme of Universal Gods, even if you were at the peak of Universal Gods, you should not provoke the Prince of Ten Thousand Laws!"

Divine Lord Jianyu was startled and quickly asked, "Undying Legion Lord, could it be that you know about the Prince of Ten Thousand Laws' situation?"

"Of course!" The Undying Legion Lord nodded, "There are not many Universal Gods in our Pan Star Field to begin with, and I reckon the Prince of Ten Thousand Laws will not stay in the Pan Star Field in the future. So, I don't want our star field to lose a Universal God, hence I'll tell you.

In fact, I have acquaintances in the Supreme Hall of Humanity, which is why I know about the Prince of Ten Thousand Laws' situation.

His status is extremely high, and his contributions to humanity far exceed your imagination!"

"Let me put it this way, the Prince of Ten Thousand Laws has ten Universal God guards and one Dominator-level guard!"

As soon as the Undying Legion Lord finished speaking, Divine Lord Jianyu exclaimed in shock, "Impossible! Dominator-level beings are among the upper echelons of our human race, how could one possibly serve as a guard to the Prince of Ten Thousand Laws!"

He couldn't believe it!

The Undying Legion Lord added, "At first, I didn't believe it either, but this is the truth!"

Chapter 564: The Hall of Primordial Ancestry

Next, the Undying Legion Lord revealed a startling secret.

"It is said that the Prince of Ten Thousand Laws was also the founder of the Celestial Race Project. Divine Lord Jianyu, the reason you were able to become a Universal God is largely thanks to the Celestial Race Project. Without it, you would never have been able to become a member of the celestial race, nor could you have enhanced your cultivation talent to fortuitously step into the ranks of the Universal Gods.

While those at the Galaxy level have a lifespan limit, Universal Gods do not.

Now that you have such an opportunity, it is all thanks to the Prince of Ten Thousand Laws. Yet now you have angered him. I must say, you've really done nothing good."

Divine Lord Jianyu was stunned; he had never expected the Prince of Ten Thousand Laws to be related to the Celestial Race Project.

Immediately afterward, the Undying Legion Lord continued, "Apart from being the founder of the Celestial Race Project, I have also learned that the Prince of Ten Thousand Laws is of highest talent and strength of his tier among our Human Race. Even in the previous grand contest of the Supreme Princes, the Prince of Ten Thousand Laws suppressed all other princes from the myriad universal races, claiming the title of the strongest prince in the universe. Even the great Supremes hold him in high regard.

Because of this, the Supremes assigned a Dominator as a guard for the Prince of Ten Thousand Laws.

Now, do you understand the status of the Prince of Ten Thousand Laws among the human race?"

"I understand!" Divine Lord Jianyu nodded repeatedly, his heart filled with panic.

The status of the Prince of Ten Thousand Laws, Ye Tian, was simply too high. If he truly wanted to deal with him, just having his Dominator guard take action would mean his end without even knowing how it happened.

He should feel fortunate that the Sword Emperor Sect hadn't completely offended the Prince of Ten Thousand Laws, otherwise the recently promoted hegemonic power of the Sword Emperor Sect might have declined.

"Hmph, Hei You really caused me trouble, almost destroying the foundation of the Sword Emperor Sect that has lasted for countless years. When I return, I must punish him properly!" Divine Lord Jianyu thought to himself.

But he forgot that Sword Master Hei You was authorized by him to protect the Yun family.

Back on Earth.

Ye Tian had returned.

For him, the matter of the Yun family was merely an interlude.

Shortly thereafter, Ye Tian left Earth, but he took with him some Earthlings with good talent, including his wife Xiao Yue and his sister Ye Yu.

He planned for Xiao Yue and Ye Yu to establish a Tian Pavilion in the Sacred Realm of Humanity within Tianlan Giant City.

In terms of cultivation and strength, neither Xiao Yue nor Ye Yu were powerful, and it would be difficult for them to establish themselves in Tianlan Giant City. However, with Ye Tian's support, it was a different story.

Now, in Tianlan Giant City, many major forces were aware of Ye Tian's presence, so no one would suppress the Tian Pavilion. Instead, they would even support it. Once the Earthlings' cultivation levels improved and they began producing strong individuals, the status of the Tian Pavilion would naturally rise.

The reason Ye Tian wanted Xiao Yue to establish the Tian Pavilion in Tianlan Giant City was primarily so that his wife could be closer to him, allowing him to see her whenever he wished.

Additionally, the Sacred Realm of Humanity was the core star field of the human race, constituting the central region of the human race, where safety far surpasses that of other star fields.

By staying in Tianlan Giant City, Xiao Yue and Ye Yu's safety would no longer be a concern. Even the Supremes from other races would not dare to enter Tianlan Giant City.

If they were to remain on Earth, as Ye Tian's reputation continued to grow, it was possible that some alien races might infiltrate the human race's area and target Ye Tian's family.

This was not an unlikely scenario, so it was essential to prevent it.

Even if the human leadership might not be able to respond in time, and considering that Earth and the Milky Way are on the fringe of Human Race territory, if alien races truly decided to attack, the human leadership might not be able to provide timely assistance. Such an oversight was something Ye Tian did not want to see.

Tianlan Giant City.

As Ye Tian, his wife, and his sister descended into Tianlan Giant City, many greeted Ye Tian and paid their respects. However, with the Universal God guards protecting Ye Tian, others did not dare to approach too closely.

“Tianlan Giant City is so huge! There are so many powerful beings here!” Xiao Yue was slightly astonished.

She was now at the peak of the True God level, and although she could contend with Great God-level powerhouses, there were simply too many True Gods and Great Gods in Tianlan Giant City, and one could even spot some at the Planetary System and Galaxy levels at any time.

Even some roadside stall owners might be Galaxy-level powerhouses, and the children working in some shops might be Great Gods. (wtf lol)

Along the way,

Xiao Yue and Ye Yu kept exclaiming in wonder, much like country folk coming to the city for the first time.

Soon after, Ye Tian purchased a small area in Tianlan Giant City for Xiao Yue and others, which included residential areas, skyscrapers, and grand halls, among others. He paid a considerable price, a sum even Galaxy-level powerhouses could not afford.

However, Ye Tian easily produced the necessary assets, having killed many alien princes whose riches and treasures were substantial. Simply selling some of these treasures could fetch many Divine Crystals.

Thus, Ye Tian was not short of money or ordinary resources.

After settling his wife and sister, Ye Tian returned to the Supreme Hall of Humanity.

In the following days, he planned to cultivate diligently, aiming to further enhance his strength before attempting to reach the True God level.

Three years quickly passed.

By this time, Ye Tian had made some progress. He had compressed his celestial force by tenfold, achieving his previous goal.

Just as Ye Tian was considering whether to attempt the breakthrough to the True God level, Kunwu Supreme summoned him.

In the Kunwu Pavilion,

Ye Tian saw Kunwu Supreme and bowed, "I pay my respects to Kunwu Supreme!"

In the Kunwu Pavilion, there were no other Supremes present; it was clear that Kunwu Supreme had summoned him alone.

"Ye Tian, I have called you here to advise you not to rush into advancing to the True God level!" Kunwu Supreme said.

"Why is that?" Ye Tian asked, curious.

"Because the Hall of Primordial Ancestry is about to open!" Kunwu Supreme explained. "If you advance to the True God level now, while it won't take long to reach the ninth tier of the True God level, it would take some time to restore your combat power to the Supreme level. At that time, your combat ability at the same level would not be as strong as it is now.

Therefore, it's best for you to stay at the God level for a while, maintaining your Supreme-level combat power at this level, so you can truly seize the opportunities in the Hall of Primordial Ancestry!"

“What is the Hall of Primordial Ancestry?” Ye Tian inquired with interest.

Kunwu Supreme explained, “There are many great opportunities in the universe, among which the Ruin World is one. The Hall of Primordial Ancestry is another, not inferior to the Ruin World in terms of opportunity. In fact, in some ways, the Hall of Primordial Ancestry is even older than the Ruin World; it has existed for more than two cosmic eras!”

“What!” Ye Tian was shocked.

The Ruin World was left from the previous cosmic era, but the Hall of Primordial Ancestry dated back even further, which was astonishing.

Immediately, Kunwu Supreme detailed the circumstances surrounding the Hall of Primordial Ancestry.

After gaining a basic understanding of the situation, Ye Tian truly realized the incredible opportunities the Hall of Primordial Ancestry offered.

In fact, even the human race, to this day, didn’t have a thorough understanding of the Hall of Primordial Ancestry, and the Immortal Races also know very little about it.

The appearance of the Hall of Primordial Ancestry was irregular and happened only after long periods, with its emergence showing no discernible pattern, making it unpredictable.

It had been 130 million years since the last appearance of the Hall of Primordial Ancestry.

At that time, the human race was not one of the great universal races but merely a minor race, oppressed by the universe and had never even entered the Hall of Primordial Ancestry.

Nowadays, what the human race knows about the Hall of Primordial Ancestry came from intelligence gathered from the other great universal races.

However, it was undeniable that the Hall of Primordial Ancestry was shrouded in mystery.

Unfortunately, while the opportunities within the Hall of Primordial Ancestry were greatly beneficial to individuals, they were of little use to a race or a power as a whole.

Moreover, there were no cultivation restrictions for entering the Hall of Primordial Ancestry. Even Supremes could enter. As for Emperors, although they too could enter, it was unnecessary; they might not even be able to withstand the pressure of the Hall, likely struggling to even walk. What would be the point of entering?

Kunwu Supreme disclosed that countless Primordial Orders had already been issued for the Hall of Primordial Ancestry. Anyone holding a Primordial Order could enter the Hall.

Now, the great universal races were all competing for these Primordial Orders.

According to the timeline Kunwu Supreme mentioned, ten years after the appearance of the Primordial Orders would be the day the Hall of Primordial Ancestry emerges.

Chapter 565: The Fears of Various Races, The Opening of the Hall of Primordial Ancestry!

Ye Tian was also looking forward to the Hall of Primordial Ancestry, as it was a place where one could obtain opportunities even more precious than those in the Ruin World, specifically aimed at enhancing individual strength.

In the Ruin World, Ye Tian had relied on several opportunities and now could easily possess the combat strength of a Supreme Prince. Should he gain more from the Hall of Primordial Ancestry, his strength was bound to increase significantly, and he might no longer need to worry about thunder tribulations in the future.

Walking the path against the heavens, what he feared most were the thunder tribulations. The higher one's cultivation, the more terrifying the tribulations faced. Without sufficient strength and potential, one couldn't transcend the universe, and might even fall to the tribulations before reaching the Supreme level.

Thus, Ye Tian had to continuously enhance his strength, elevating it to a very high level to confidently overcome the thunder tribulations time and again, aiming to become a being that transcended even the Supreme level.

There were still ten years until the Hall of Primordial Ancestry would open.

It wasn't a short period, and Ye Tian could fully utilize these remaining ten years to further enhance his strength.

As for the matter of seizing the Primordial Orders, Ye Tian couldn't be much help; that was a concern for the higher echelons of humanity.

Regardless as Kunwu Supreme had said, no matter how many Primordial Orders the human race managed to seize, he was certain to have one. This was also the cultivation and reward given to him by the human race.

If even he didn't have an Primordial Order, then others were even less qualified.

Thus, Ye Tian need not worry about the Primordial Orders.

In the days that followed, the universe was anything but peaceful. The great cosmic races and even some smaller ones were slaughtering each other over the Primordial Orders. Each order sparked a bloody storm, and many races were annihilated in this struggle for the orders.

During this time, it was inevitable that some alien powerhouses infiltrated the human race.

Given the vast territories of the human race, it was impossible to defend timely against all alien powerhouses. Some alien powerhouses were killed by the human higher-ups, while others managed to escape by luck.

As time passed, the human race's plan to transform into the Celestial Race unavoidably leaked.

For a moment, many cosmic great races were incredibly shocked.

The name "Celestial Race" was not unfamiliar to many cosmic great races, as some legacies in the Ruin World had mentioned the Celestial Race, which was one of the top races in the previous cosmic era.

It was unexpected that this universe had also given birth to the Celestial Race. It was even from the human race, a race not known for high individual potential.

In a magnificent grand hall.

The first Divine Lord of the Immortal Race sat high upon the Divine Throne, with other Divine Lords seated in order.

The nine Divine Lords were the strongest among the Supremes in the Immortal Race. Unlike the human Divine Lords and those of many other races, who were often titled using various names, in the Immortal Race, due to the nine Divine Lords, Universal Gods could not assume the title of Divine Lord but were called Divine Generals. Those in the Dominator realm among the Immortal Race were called God Kings, and those surpassing the Dominator realm were known as God Emperors. Ordinary Supremes were referred to as God Venerables, and the nine strongest Supremes were the Divine Lords! At this moment, six of the nine Divine Lords were gathered, discussing a matter.

Below, a Dominator-level Divine General was reporting.

“Six Divine Lords, it has just been confirmed that the human race is transforming into the Celestial Race. Many humans have already become Celestials, significantly increasing their strength and giving birth to a massive number of beings above the God level,” reported the Divine General truthfully.

The first Divine Lord pondered for a moment, then said, “Interesting, I didn’t expect this minor cosmic great race, which is hardly within the top hundred among the cosmic races, to have taken the path of the Celestial Race. It poses a threat!”

The third Divine Lord spoke, “Should we, the Immortal Race, strike against the human race, taking advantage of their incomplete rise and erase them?”

“No!” The first Divine Lord shook his head, “The human race has some foundations. Erasing them would also cost our Immortal Race, albeit not much. But we fear that the Demon Race might take the opportunity to strike against us, which would be too great a loss for our Immortal Race. Besides, the human race’s rise has been too rapid. Several cosmic great races have attempted to suppress the rise of the human race but have all failed, indicating that the human race has some secrets that are not so easy to deal with.”

“What if the human race fully rises and poses a threat to our Immortal Race?” questioned the sixth Divine Lord.

“Don’t rush. Our Immortal Race’s strength is beyond what the human race can imagine. Even if the human race becomes the Celestial Race, they can’t contend with our Immortal Race.

After the matter of the Hall of Primordial Ancestry is concluded, we will then take some measures against the human race,” The first Divine Lord commanded.

“Yes!” responded the other Divine Lords in unison.

Similar discussions took place among many cosmic great races.

However, many cosmic great races that harbored enmity towards the human race were somewhat wary of the humans’ strength and dared not directly confront them. Therefore, they all watched from the shadows, quietly searching for opportunities.

If an opportunity arose, they would definitely strike against the human race, aiming to inflict significant damage even if they couldn’t annihilate them.

In the blink of an eye, ten years passed.

During these ten years, Ye Tian diligently cultivated. Although his cultivation level remained at the ninth stage of the God level, he had compressed his celestial force by eleven times and had slightly perfected the Heavenly Moon Saber Ultimate Technique. He was not far from creating his own original law of the saber.

Moreover, Ye Tian had perfected many divine techniques, such as the Primordial Scales Armor, Primordial Vine, and Chaos Palm, enhancing their power considerably.

In short, Ye Tian’s strength had grown stronger than it was initially.

However, at Ye Tian’s level, it was too difficult to significantly increase his strength, so any improvement was quite remarkable.

“Your Highness, Kunwu Supreme summons you!” Ye Tian’s guardian, Dominator Dark, appeared before him and said.

“Take me to him,” Ye Tian nodded.

He knew the day to go to the Hall of Primordial Ancestry had arrived! Soon, Ye Tian arrived at Kunwu Pavilion and met with Kunwu Supreme.

Upon seeing Ye Tian, Kunwu Supreme took out an ancient silver token.

From this silver token, Ye Tian sensed an eternal aura, supreme power, and unimaginable mystery.

“Ye Tian, this token is the Primordial Order. The Hall of Primordial Ancestry is located at a special latitude, transcending time and space. Even Supremes can only sense the location of the Hall of Primordial Ancestry when it opens and can hardly enter without the help of the Primordial Order.

Take this Primordial Order. After refining it and activating the Primordial Order, you can enter the spatial latitude where the Hall of Primordial Ancestry is located!” Kunwu Supreme explained.

“Thank you, Kunwu Supreme!” Ye Tian received the Primordial Order with both hands and then retreated.

Next, Ye Tian returned to refine the Primordial Order. Although the Primordial Order was very mysterious and not a low-level item, it was surprisingly easy to refine, and Ye Tian successfully refined it after not too long.

At this moment, Ye Tian truly sensed the specific day the Hall of Primordial Ancestry would open through the Primordial Order.

“There are still eight days!” Ye Tian thought to himself.

Eight days was not a long time, and soon, the eight days passed.

On that day.

The aura of the Hall of Primordial Ancestry spread throughout the universe, and the Hall of Primordial Ancestry truly opened.

Immediately, many powerful beings activated their Primordial Orders, and Ye Tian was among them.

Chapter 566: Potential Star Level Test!

“The Hall of Primordial Ancestry has opened, and I must enter too!”

Ye Tian held the Primordial Order and activated it.

In the next instant.

The Primordial Order transformed into a bundle of light that enveloped Ye Tian, teleporting him into an unknown dimensional space.

Whoosh! Ye Tian only felt a flash of light before his eyes, and he had already arrived in a silent starry sky.

Around him, various powerful beings continuously appeared, including members of the human race and other races. God level, True God level, Great God level, Planetary System level, and even Galaxy level and Universal God level... In short, many powerful beings appeared in this void.

Clearly, these were all powerful beings from various races who had entered here holding the Primordial Order.

“Ye Tian!”

A voice suddenly came.

Ye Tian knew the owner of the voice was Kunwu Supreme, but Kunwu Supreme himself did not appear beside Ye Tian; instead, he communicated through a transmission.

“Ye Tian, after entering the Hall of Primordial Ancestry, you will be transported to different areas based on your cultivation. The place we Supremes go to is different from the area where

you Gods enter. It is forbidden to fight here, and many areas inside the Hall of Primordial Ancestry also prohibit fighting, so there is no need to worry about others harming you.

However, it is said that some assessments carry certain risks, so measure your strength accordingly!” Kunwu Supreme warned.

Ye Tian nodded silently, acknowledging the information.

Just then.

Boom!!! A massive hall, unimaginably huge, was born from the void and appeared in the distance.

This hall was even many times larger than the Supreme Hall of Humanity and was filled with supreme majesty. Rays of light illuminated this unique space.

This hall was the Hall of Primordial Ancestry! Swoosh, swoosh, swoosh!!! Numerous powerful beings flew towards the Hall of Primordial Ancestry and entered. Many powerful beings entered quickly, while Ye Tian and other Gods moved slower and were the last to fly into the Hall of Primordial Ancestry.

Upon entering the Hall of Primordial Ancestry, Ye Tian was immediately transported to a huge hall.

Inside this hall, Ye Tian saw many Gods, mostly from different races, with only three Gods from the human race present, showing that only three Gods from the human race had come to the Hall of Primordial Ancestry this time.

Swoosh, swoosh! The other two human Gods quickly flew to Ye Tian’s side and greeted him with a fist salute: “Greetings, Prince of Ten Thousand Laws!”

These two were Prince Jun Jian from the Mysterious Region of the Supreme Hall of Humanity and Disciple Yun Zhong from the Divine Blade Alliance. Since Prince Jun Jian knew Ye Tian, he naturally recognized Ye Tian’s name and was aware that his own strength was far inferior to Ye Tian’s, hence he regarded Ye Tian as the leader. Disciple Yun Zhong, having heard of Ye Tian’s battle achievements, naturally respected and admired Ye Tian.

In their ignorance of the Hall of Primordial Ancestry, they naturally chose to stick together.

“Prince of Ten Thousand Laws, do you understand the Hall of Primordial Ancestry?”

Prince Jun Jian asked.

“Not really!” Ye Tian shook his head.

Prince Jun Jian and Disciple Yun Zhong were immediately disappointed, as they also lacked understanding of the Hall of Primordial Ancestry.

Among the myriad races in the universe, there were more than ten thousand Gods who had entered here. The Gods gathered densely in this large hall, which did not seem crowded at all.

Suddenly.

Ye Tian felt an extremely chilling gaze, and his talent for discerning good and evil also sensed an extremely intense malice.

Swoosh! Ye Tian looked over and saw a familiar figure.

“Prince Tianxuan of the Immortal Race!” Ye Tian thought to himself.

This Prince Tianxuan of the Immortal Race, who was an Invincible Eternal Child at the Emperor level, had once been his rival and even caused him concern.

Unfortunately, since he had passed through the Supreme Mountain, he no longer regarded Tianxuan as a concern.

Now, Prince Tianxuan had also reached the God level. Even with powerful nurturing and Tianxuan’s own talent for time, he had at most regained the combat power of an Invincible Eternal Child, and it was unlikely he had reached the level of a Supreme Emperor.

Moreover, even if Prince Tianxuan were to become a Supreme-level God, he would still be no match for Ye Tian. Ye Tian's current strength far exceeded that of a newly promoted Supreme-level prince, and there was no uniform standard to measure how advanced he had become.

He only had one self-assessment of his combat power—invincible among Gods! Elsewhere.

Several God level powerhouses from the Immortal Race gathered together, all led by Prince Tianxuan.

“Prince Tianxuan, over there seems to be the Prince of Ten Thousand Laws of the human race. It is said that the Prince of Ten Thousand Laws, once proclaimed as the number one emperor, has now reached the God level, and his strength is probably not weaker than yours!” An immortal prince whispered.

“There's no need to overly praise me. I must admit, this Prince of Ten Thousand Laws is very strong, and there's a great chance that I'm no match for him! Even if we attack together, we might not be able to defeat him.

However, this is the Hall of Primordial Ancestry, and we are not allowed to fight here, so let's go ahead with the first round of tests!” Prince Tianxuan transmitted his voice.

“Yes!” A group of God level princes responded.

Deep within the grand hall, there stood a huge crystal pillar.

This crystal pillar, like a pillar supporting the heavens, stood in the depths of the grand hall, emitting a faint light and a mysterious aura, clearly something extraordinary.

Many God level beings did not know what this crystal pillar was for, as some had obtained the Primordial Order by chance and knew nothing about the Hall of Primordial Ancestry.

Yet, some of the God level beings were aware of the origins of this crystal pillar, and someone even began to explain.

“This crystal pillar is used to test potential. As for the criteria used to test potential, I'm not quite sure.

According to the standards of the Primordial Order, potential is rated from one star to nine stars. Only God level beings with a potential of five stars or higher can enter the deeper parts of the Primordial Order. If one's potential is below five stars, they can only go to some ordinary areas to seize some common opportunities, after which they will be expelled from the Primordial Order.

Thus, testing potential is a very important round." A demon race God said.

Immediately, someone exclaimed, "I am ranked first among the Children of the Universe in my race, so my potential value must be high!"

"Hehe, every God level being who can enter here has high potential, but reaching above five stars according to the standards of the Hall of Primordial Ancestry is quite difficult! As for what star level of potential one possesses, one will know after taking the test!"

Amidst the bustling noise, one God level being after another began to test their potential.

The method to test potential was simple: directly touch the crystal pillar with a hand, infuse it with power, and wait for the pillar's assessment.

The first to test was a member of the Iron Armor Race, a Child of the Universe. He stepped forward to test, and soon the crystal pillar emitted a burst of light, revealing two ancient characters.

Ye Tian did not recognize the characters, but they were imbued with the laws of heaven and earth. With just a slight sense, he understood their meaning.

"Three stars!"

Seeing this three-star rating, the Child of the Universe from the Iron Armor Race was stunned and immediately shouted, "How can this be? I am a peak Ordinary Child of the Universe. How could I only receive a three-star rating!"

The other God level beings were also shocked. If even a peak Ordinary Child of the Universe could only achieve a three-star rating, reaching a five-star or higher rating might require the

combat power of an Eternal-level prince. Of course, it might not necessarily be related to strength, as the specific criteria for assessing potential were unclear to everyone.

Following this, one God level being after another stepped forward to test their potential. Some were not as strong as the Iron Armor Race member but received a four-star potential rating.

Ye Tian observed, analyzing the talent, strength, and potential standards of these individuals to understand the general criteria for assessing potential.

Others could not see the talent level of their peers, but Ye Tian could.

Thus, Ye Tian was able to deduce the standards for potential.

“It’s related to the level and quantity of one’s talents, with the level of one’s cultivation talent being the most important. Those with high cultivation talent levels tend to have higher potential ratings, but strength also plays a role; greater strength can enhance one’s potential,” Ye Tian speculated.

According to these standards, his potential was undoubtedly very high.

“Prince Jun Jian, why don’t you give it a try?” Ye Tian said to Prince Jun Jian beside him.

Prince Jun Jian nodded and went forward to test. The result came out immediately—“Six stars!”

This rating was expected. Prince Jun Jian was, after all, an Eternal-level prince and had a Chaos-level cultivation talent. He was destined to become a Dominator.

Even so, Prince Jun Jian only possessed a six-star potential, indicating that the standards for potential were quite strict.

Subsequently, Disciple Yun Zhong also went to test his potential, but it was only five stars, not even as high as that of Junjian.

More and more God level beings tested their potential, but the peak Eternal-level princes had not yet taken their turn, waiting until the last.

Suddenly.

A peak Eternal-level prince from the demon race tested his potential, and the result shocked many God level beings.

“Seven stars!”

This was the highest potential star level seen so far; the previous highest was only six stars.

Then.

One after another, several God level beings with seven-star potential appeared, but Tianxuan from the Immortal Race and Xuefeng from the demon race had not yet tested.

These two were particularly remarkable; they had been unrivaled in their generation at the Emperor level and continued to be so even after advancing to the God level.

Prince Xuefeng suddenly spoke, “Prince of Ten Thousand Laws, aren’t you going to test your potential?”

Ye Tian calmly replied, “You go ahead and test first.”

Prince Xuefeng glanced at Tianxuan, who also showed no immediate intention to test, and could not help but step forward to test himself.

Boom! The crystal pillar immediately displayed a potential rating level that had never appeared before.

“Eight stars!”

This potential rating was fitting for Xuefeng, outstripping the other peak Eternal-level princes.

“Prince Tianxuan, my potential is eight stars. Aren’t you going to test yours?” Xuefeng asked.

“Alright, I’ll give it a try!”

Prince Tianxuan walked over, touched the crystal pillar, and infused his power into it.

Whoa! Eight stars! Just like Xuefeng, Tianxuan’s potential was also eight stars.

Chapter 567: Ten-Star Potential!

“Eight stars!”

Prince Tianxuan was not very satisfied with his own potential rating; he believed that his potential should have been higher than that of Prince Xuefeng.

However, it was clear that even if his potential was higher than Prince Xuefeng’s, it had not reached nine stars.

Whoosh! Prince Tianxuan’s gaze suddenly turned to Ye Tian, speculating about how many stars Ye Tian’s potential could reach.

Although he was reluctant to admit it, he had to acknowledge that Ye Tian was excellent in every aspect. Otherwise, he could not have passed through the ten calamities of the Supreme Mountain and become the second emperor-level being in the universe to do so.

Therefore, Prince Tianxuan also accepted that Ye Tian’s potential was higher than his.

“Please don’t let it be nine stars!” Prince Tianxuan silently hoped.

“Prince of Ten Thousand Laws, there aren’t many people left; aren’t you going to test your potential?” Prince Xuefeng asked.

Ye Tian smiled faintly, stepped forward, and said, “Alright, then let me test it.”

He touched the crystal column with his right hand, and immediately channeled his power into it.

Hum!!! The crystal column emitted light, and two ancient characters emerged.

It wasn’t eight stars! The first character was different from eight, indicating that Ye Tian’s potential was not eight stars.

“Nine stars, huh?” Prince Tianxuan and Prince Xuefeng exclaimed unconsciously.

But when they sensed the meaning emanating from these two ancient characters, it was not what they had thought.

“It’s not nine stars, it’s... ten stars!”

At that moment, Prince Tianxuan, Prince Xuefeng, and other Gods were dumbfounded, their eyes widening in disbelief.

“Impossible!!!” Prince Tianxuan, feeling provoked, shouted out loud.

In fact, if Ye Tian had been at nine star potential, although he would have been envious, he wouldn’t have been too surprised. After all, Ye Tian was stronger than him in every respect and possessed multiple divine talents. Such potential being higher than his own was indisputable.

But Ye Tian did not possess just nine star potential; he had ten star potential, which felt unreal to him.

The gap between seven star and eight star potential was significant, as was the gap between eight stars and nine stars. As for ten star potential, they had not previously known there was such a level, having thought nine stars was the pinnacle.

One could imagine the vast chasm between eight star potential and ten star potential, which was beyond their imagination.

Before Ye Tian's rise, Prince Tianxuan had been acclaimed as the universe's foremost imperial prince. Now, he was entirely overshadowed by Ye Tian, and the sense of loss and shock he felt was simply indescribable.

"Ten stars!"

Ye Tian was also surprised for a moment. He had initially thought his talents could only reach nine stars, but unexpectedly, it turned out to be ten star potential.

"It must be related to my talents. My cultivation talent has already surpassed those Supremes, reaching the pinnacle of cultivation talents. Additionally, I possess an abundance of divine talents, incomparable to others, and my strength has reached the level of a supreme prince, far surpassing others. All these combined, I have reached the ten-star level!" Ye Tian speculated.

Previously, Ye Tian's achievements had become renowned across the major races of the universe. Many Gods were aware of Ye Tian's strength. Now, with Ye Tian's potential reaching the unprecedented ten-star level, it instantly sparked jealousy, admiration, worship, and shock among everyone.

Soon after, the other Gods also tested their potentials. Only three individuals reached eight star potential, among whom one was a first-tier Eternal Prince from the Angel Race. This prince's strength was not on par with Prince Tianxuan or Prince Xuefeng, but Ye Tian understood why this person was ranked at eight star potential.

This Eternal Prince of the Angel Race possessed a Mixed-tier cultivation talent. With this level of cultivation talent, if one methodically cultivated, they could definitely become a powerhouse above the Dominator Realm, and even if they couldn't reach the Supreme level, they could certainly attain the Heavenly Venerable status.

The Heavenly Venerable was a realm above Dominator and was a universally recognized level among the various races in the universe.

'Supreme' was actually just a tier within the Heavenly Venerable realm, merely the title for the strongest among them, with power far surpassing that of the Heavenly Venerable, but still within the same realm.

This was similar to 'Heavenly Pride', or an 'Emperor-level Child of the Universe', which technically belonged to the Emperor level, but whose strength far surpasses that of ordinary Emperors.

However, possessing Mixed-tier cultivation talent was a prerequisite for reaching the Supreme level. Without such a talent, it is fundamentally impossible to break through to the Heavenly Venerable or even the Supreme level.

Of course, some powerful races had ways to defy destiny, nurturing Gods whose cultivation talents were only at the Chaotic level, to have the qualifications to become Supremes.

For example, a Dominator with immense power but only Chaos-level cultivation talent cannot become a Heavenly Venerable.

However, if such a Dominator had the potential to become a Heavenly Venerable, the hopes of them achieving this status are significant, and their race would undoubtedly spare no expense to cultivate this Dominator and endow them with Mixed-tier cultivation talent.

Naturally.

A major universal race, or even the Immortal Race, would not enhance the cultivation talent of their weaker members prematurely, as the loss would be great if they were to fall midway.

Just like Prince Tianxuan, his cultivation talent was only at the Chaotic level. The Immortal Race did have the means to elevate his cultivation talent to the Mixed level, but it would require a huge price. Currently, they would not enhance his cultivation talent but would wait until Prince Tianxuan reached the peak of the Dominator level to assess his true potential and then decide whether to elevate his cultivation talent.

In the universe, beings born with Mixed-tier cultivation talent were exceedingly rare. The Eternal Prince from the Angel Race likely belonged to those naturally possessing Mixed-tier cultivation talents, which made him exceptionally unusual and thus with high potential.

Not long after, all the Gods in the great hall had completed their tests.

Suddenly.

A voice echoed throughout the entire hall.

“All beings with a potential of five stars or above, enter the inner sanctum of the Hall of Primordial Ancestry. Those with potentials below five stars, proceed to the outer sanctum!”

As soon as the voice faded, a group of Gods was transported away. These were Gods with potentials below five stars, who were moved to the outer sanctum. It was presumed there wouldn't be much to gain there; this time, entering the Hall of Primordial Ancestry, they shouldn't expect significant rewards.

Then, Ye Tian and the other Gods with potentials above five stars were also transported away.

Hall of Primordial Ancestry, Inner Sanctum.

“No one else.”

Ye Tian looked around and noticed that the other princes had disappeared; he was alone in this place.

He was now in a small hall, the walls of which featured several portals, each bearing some descriptions.

The script here, similar to the one used for star potential evaluation, was unfamiliar to Ye Tian, but he could sense the meanings contained within.

“Ordinary Difficulty!”

“Difficult Difficulty!”

“Hell Difficulty!”

“Death Difficulty!”

“Heaven-Defying Difficulty!”

There were five portals in total, each corresponding to a level of assessment difficulty, and he could freely choose which to undertake.

“Which one should I choose?” Ye Tian hesitated.

Chapter 568: The Curse! The Divine Origin Crystal Statue!

Although the human race did not have much knowledge about the Hall of Primordial Ancestry, they happened to know a bit about the second round of assessments in the Hall of Primordial Ancestry, which included ordinary, difficult, and hell levels of difficulty. These three levels actually posed no great threat to life; even if one failed, they could still come out safely.

However, the death level and the heaven-defying level were lethal. If one's strength was insufficient and they forcefully attempted these two levels, it was akin to seeking death! As for the rewards obtained after passing these five levels of difficulty, the human race was not clear, as they had never received the Primordial Order themselves; all their information was traded or investigated from other cosmic races. But obtaining specific information was extremely difficult.

Ye Tian pondered for a long time; he would not choose the ordinary or difficult levels, as they presented no challenge at all.

For him, the hell level was somewhat interesting, but what he most wanted to challenge were the death level and the heaven-defying level. However, due to the unclear standards of the last two levels, it was naturally not wise to challenge them rashly; otherwise, failure might cost him his life.

“Death level difficulty!”

Ye Tian eventually chose this level.

He did not choose the heaven-defying level, not out of fear, but because it was unnecessary. If he could pass the death level, then he would still have an opportunity to choose again.

If the death level turned out to be not difficult for him, he would naturally choose the heaven-defying level.

Splash! Ye Tian stepped through the portal corresponding to the difficult level and entered into an unknown territory.

Ye Tian did not know what the difficult level assessment entailed, so as soon as he was transported in, he immediately activated various defensive techniques to guard against any unforeseen circumstances.

“This place is....”

Ye Tian found himself in a desolate wilderness, a place devoid of vegetation, with nothing but endless desolation.

The sky here was yellow, the earth was parched, and everywhere were fragments of broken weapons, as if it was a desolate ancient battlefield that had endured endless years.

Ye Tian didn't encounter any assessment or hints, completely different from the various opportunities and assessments he had faced before.

Ye Tian spotted a broken spear not far away and touched it.

Instantly, the broken spear turned to ashes.

“It seems this spear has existed for countless years, its power exhausted, unable to withstand the passage of time, turning into ashes!” Ye Tian murmured.

Just as he was preparing to leave, his expression suddenly changed.

He looked at his palm; his originally smooth palm now showed faint green spots, and these spots were spreading.

“Poison,”

This was Ye Tian's first thought, but soon, he concluded that it was not poison.

Ordinary poison was ineffective against him; truly terrifying poisons contain principles of poison, whereas these green spots did not contain such principles, instead, they carried a very strange aura, beyond Ye Tian's imagination.

Immediately, Ye Tian activated healing talents, life talents, immortality talents, and more... talents, attempting to restore his palm. Although the green spots were suppressed, they did not disappear completely.

"Sever!"

Ye Tian directly cut off his own palm, and then, using regeneration and healing talents, instantly grew back a new palm.

The palm that fell to the ground was quickly covered by the green spots and turned into a green palm.

"This place is not simple!"

Ye Tian's expression grew grave.

If an ordinary Eternal Prince had come here, with the situation just now, they might have been done for.

"What exactly are these green spots?"

Standing in front of the green palm, Ye Tian carefully examined it, trying to analyze the substance contained in the green spots.

"Similar to the power of a curse, could it be a poisonous curse?" Ye Tian speculated.

The poisonous curse was not a toxin per se, but it had the ability to spread like one, and it did not dissipate even over extended periods. Once contacted, one would be afflicted, making it an extremely terrifying curse.

These green spots were different from typical poisonous curses, but they could be considered a mutated form, which made them even more fearsome! Having recognized the dreadful nature of this poisonous curse, Ye Tian naturally refrained from touching anything carelessly. He immediately employed a protective shield and various defensive measures to safeguard himself from being invaded by this curse.

Subsequently.

Ye Tian walked across this ancient battlefield, scrutinizing the surroundings.

Given that this place was set for a death level difficulty assessment, it couldn't just involve these conditions; certainly, something terrifying or some event was bound to occur.

“Here it comes!”

Ye Tian felt the ground shake, as if something was about to emerge from beneath this ancient battlefield.

Boom!!! A series of green figures burst from the ground, charging at Ye Tian with incredible speed.

The dense figures seemed to cover heaven and earth, their numbers too vast to count.

“Poisonous curse creatures, huh!”

Ye Tian thought to himself.

These creatures were entirely green—not their skin color, but because they had been invaded by the poisonous curse or perhaps were inherently imbued with the power of the curse.

The cultivation levels of these creatures were roughly similar, all at the ninth stage of the God level, although their combat power varied.

Now, roughly thousands of these creatures attacked Ye Tian, and he couldn't allow these beings to strike his flesh. Given the spreading speed of this poisonous curse, it would definitely invade Ye Tian's body and be difficult to expel.

Ye Tian deployed the Thousand Layers Realm, using a ten thousand-layer barrier to block these green creatures, then he employed the Phantom Gold Thread Divine Ability.

The offensive power of the Phantom Gold Thread Divine Ability was not strong, but its speed was rapid, and it could form a large number of phantom gold threads, making it quite effective in reaping enemies.

And since Ye Tian was merely testing the strength of these creatures, using the Phantom Gold Thread Divine Ability was quite appropriate.

Thump, thump, thump!!! One by one, the green creatures were sliced into pieces by the Phantom Gold Thread, turning into corpses that fell to the ground.

"How weak!"

Ye Tian sighed.

In reality, the strength of these green creatures was comparable to that of the ninth tier of the ninth stage of Peerless Heavenly Prides, which was not weak. But to Ye Tian, these green creatures were far too weak.

In a blink of an eye, Ye Tian had slain all the green creatures, not letting a single one escape.

At the same time, Ye Tian used his copy talent to examine the talents of the green creatures.

These green creatures were ordinary beings of various types. Although their talents were decent, they did not possess any talents related to poisonous curses.

Clearly, the power of the poisonous curse within these green creatures was acquired through infection. Therefore, they carried the power of the curse, not because it was an innate talent.

Having slain these green creatures, Ye Tian was not pleased; he was well aware that these creatures were just an appetizer, and the death level difficulty would not be limited to just this.

Suddenly.

The green creatures turned to ash, and countless green particles flew towards the distance, seemingly guiding Ye Tian.

After a moment's hesitation, Ye Tian followed.

If he did not proceed, he wouldn't know how to complete this death level assessment. Rather than waiting here, it was better to face the challenge directly.

Swoosh! Ye Tian flew rapidly, soon arriving in front of an ancient statue.

The green particles flew to the statue and merged into it.

"Divine Origin Crystal!" Ye Tian was astonished.

This statue turned out to be the legendary Divine Origin Crystal, rumored to be able to seal life and delay the lifespan. For example, the prince from the human race who had been sealed for a hundred thousand years had not aged much all thanks to the Divine Origin Crystal.

The Divine Origin Crystal was one of the most common sealing materials in the universe, used by many significant figures when their lifespans were dwindling.

Normally, beings used the Divine Origin Crystal in a weak state, sealed with just a thin layer of it, not daring to use too much.

But this statue was enormous, indicating the vast amount of Divine Origin Crystal used.

"Could there be some formidable being sealed inside?" Ye Tian speculated.

But upon reflection, it seemed unlikely. He was facing only a God-level assessment, and even at the death level difficulty, it was improbable for such a terrifying being to appear.

Moreover, the Hall of Primordial Ancestry was a hall from several cosmic eras ago; it was unlikely for a being from several eras ago to appear here, and even those green creatures were actually cultivated in this cosmic era.

The Hall of Primordial Ancestry had a spirit; it was not difficult for the spirit to cultivate some creatures.

Even if there were a life inside this Divine Origin Crystal statue, it would only be a God-level life, cultivated within this cosmic era, not a terrifying being from several eras ago.

Crack, crack, crack!!! As the Divine Origin Crystal statue absorbed those green particles, it began to crack.

Ye Tian stepped back a bit, gazing intently at the Divine Origin Crystal statue!

Chapter 569: Poisoning!

Boom!!!

The Divine Origin Crystal shattered completely, but instead of scattering, the fragments transformed into streams of energy that surged into the interior of the Divine Origin Crystal.

The next moment, a figure appeared atop Ye Tian.

“Immortal race!”

Ye Tian was slightly surprised.

The figure before him was clearly a God-level member of the Immortal Race. Although his body was covered in numerous green spots, the aura of the Immortal Race and the golden patterns had not dissipated.

It was evident that this member of the Immortal Race was a noble within their ranks—a Gold-Pattern Immortal!

“Why is there an Immortal Race member here? Could it be...”

Ye Tian pondered a possibility—that this Immortal Race member was once a Prince of the Immortal Race who had entered the Hall of Primordial Ancestry. Unfortunately, he failed during the death-level difficulty and was left behind here.

At this time.

The Immortal Race member opened his eyes and looked at Ye Tian.

“Another one has come!”

The Immortal Race member spoke.

“You are conscious?”

Ye Tian was mildly surprised; he had thought this Immortal Race member was in a puppet-like state. However, he did not expect that the figure possessed its own consciousness.

“You thought I was a puppet?”

The Immortal Race member suddenly laughed. “Of course, I possess consciousness, but I am no longer the same Immortal Race member from before. The consciousness of that previous member has been completely transformed into the consciousness I have now.

If you lose to me, you too will be invaded by the Curse Gu poison, transforming your consciousness and turning you into a poison person within the death-level difficulty assessments of the Hall of Primordial Ancestry! As a poison person, I have my own consciousness, so if I do not wish to die, I must defeat you or even kill you!”

“So, that’s how it is!”

Ye Tian understood.

The body before him was that of the previous Immortal Race corpse, but the consciousness was entirely new.

Thus, strictly speaking, this poison person was also a creature with a limited lifespan, necessitating their sealing away, unable to emerge unless someone attempted the death-level difficulty.

At that moment, he also finally understood what the green substance was.

“Curse Gu poison!”

Ye Tian was very wary of this Curse Gu poison, capable of altering even one’s consciousness! He did not want to end up like this Immortal Race member, where a change in self-consciousness meant being virtually another person, equivalent to his own death.

Swish!

The Immortal Race poison person rushed forward, throwing a punch.

Although transformed into a poison person, the Immortal Race member’s combat abilities had not diminished much. Any Immortal Race daring enough to attempt the death-level difficulty would not be weak, at least a first-tier Eternal Prince. Unfortunately, this Immortal Race member had overestimated his abilities and fell during the death-level difficulty, now tragically turned into a poison person for others’ assessments.

“Heavenly Moon Saber!”

Ye Tian slashed with his saber, sending the Immortal Race poison person flying and even leaving a saber mark on his body, nearly piercing through.

“Not strong, just equivalent to a weaker first-tier Eternal Prince.” Ye Tian thought to himself.

But soon, Ye Tian grew solemn as he saw the Immortal Race poison person's wound quickly heal under the cover of the green substance.

Clearly, the Curse Gu poison also had healing properties, although limited to the poison person.

Following this, Ye Tian did not attack with his full strength. Instead, he repeatedly tested the poison person's capabilities and tactics to understand more about them, preparing for encounters with other poison persons.

He believed that within the death-level difficulty, there would likely be more than one poison person. Otherwise, any significantly powerful first-tier Eternal Prince would have a high chance of passing the death-level difficulty, making it far too easy.

After several minutes, Ye Tian had a good grasp of the situation with the Immortal Race poison person.

Simply put, the Immortal Race poison person could not fully utilize their previous combat strength. However, the Curse Gu poison could spread to the opponent during attacks. If the poison person breached your defenses, you would be in grave danger.

For instance, if Ye Tian were invaded by the Curse Gu poison, he would have to use his power to suppress the Curse Gu poison, rendering him unable to exert his full strength, eventually becoming weak and losing to the poison person.

Therefore, it was crucial to protect his body from the invasion of the Curse Gu poison, otherwise, he would easily be defeated.

After understanding the situation, Ye Tian no longer held back.

“Die!”

He executed the Time Stasis technique, instantly slowing the Immortal Race poison person's thoughts to a crawl. In that instant, Ye Tian performed several Heavenly Moon Saber strikes, directly slaying the Immortal Race poison person. The body turned into a large amount of Curse Gu poison that drifted away and flew off into the distance.

Clearly, the second poison person was about to appear.

Swish! Ye Tian flew over and soon encountered another Divine Origin Crystal statue.

Soon, this Divine Origin Crystal statue also shattered, and another poison person appeared.

This poison person was a God-level member of the Yaksha Race, and a royal one at that—the Void Yaksha, proficient in spatial talents. His body was naturally attuned to space, even more so than the Purple Crystal Spirit Race.

The Yaksha Race was also an old and powerful cosmic race, existing far longer than the human race.

Apart from the Immortal Race and the Demon Race, two super races, the Yaksha Race was easily among the top ten in the universe, while the human race could only rank within the top hundred.

However, the foundations of the Yaksha Race were far from those of the Immortal and Demon Races, and this Yaksha Race God was probably much stronger than the previous Immortal Race poison person. It was unfortunate that such a prince had fallen during the death-level difficulty and was transformed into a poison person. The Yaksha Race must have been incredibly pained by this loss.

“You managed to defeat the first poison person, well done!”

The Yaksha Race poison person had a grave expression. Possessing self-awareness, he naturally did not want to disappear. Since Ye Tian had slain the first poison person and was not weak, he also feared he might not be a match.

But the rules of the Hall of Primordial Ancestry bound him, and he had no choice but to make his move.

Swish! Wings unfurled behind the Yaksha Race poison person, and his body vanished instantly.

“Spatial power!”

Ye Tian activated his spatial talent, sensing the surroundings. When the Yaksha Race appeared not far behind him, wielding a long spear thrusting forward, Ye Tian instantly teleported away, launching a spatial blade in a sweeping strike.

“Hmph, merely a Mystic-level spatial talent, and you think to deceive me?” Ye Tian secretly sneered.

Following this, the Yaksha Race poison person was continuously suppressed by Ye Tian in terms of spatial power control, and in all other aspects, he was no match.

In terms of strength, this Yaksha Race poison person was equivalent to a top-tier first-tier Eternal Prince, not very far from an Invincible Eternal Prince.

Unfortunately, Ye Tian was a Supreme Prince and among the very pinnacle of Supreme Princes, so this Yaksha Race poison person was naturally no match for him and was merely toyed with by Ye Tian.

After about a few minutes, Ye Tian lost interest and swiftly killed the Yaksha Race poison person.

Not long after, the third poison person appeared.

This time, however, the poison person was not a member of any intelligent species but a gigantic monster, with strength comparable to an Invincible Eternal Prince, likely concocted by the Hall of Primordial Ancestry.

Given the limited number of poison persons and the rarity of powerful ones, they had to resort to substitutes when lacking poison persons for assessments.

This monster lacked intelligence, possessing only brute strength and aggression, but was far from a match for Ye Tian, who quickly annihilated it.

Just then, a voice rang out.

“Assessor, you only need to defeat the last poison person to pass the death-level difficulty!”

Upon hearing this voice, Ye Tian knew it was the spirit of the Hall of Primordial Ancestry.

“Is it the last one?”

Ye Tian didn’t relax at all and remained vigilant.

Finally, he arrived at the location of the last poison person.

There was no Divine Origin Crystal statue here, but instead, a green-colored egg!

Chapter 570: God-level Poison Curse Talent!

This green egg was filled with curse-poison, yet it was also imbued with the essence of life.

Crack, crack, crack! The shell of the green egg began to crack, and a claw reached out.

Then, a fierce creature crawled out.

In an instant, this fierce creature swallowed the entire shell of the green egg, doubling its size.

Seeing this, Ye Tian revealed a look of confusion.

This fierce creature resembled a cat in form, but it was distinctly different from the previous monster.

The previous monster was obviously created through various means, not resembling a natural life form, more akin to a puppet, and devoid of any intelligence.

However, the fierce creature before him showed a glint of intelligence in its eyes, and it was not green.

Only a small area on the creature's forehead was green; the rest of its body was golden. Instantly, Ye Tian used his Copy Talent to check.

“How could this be...”

Ye Tian was shocked.

The talent profile of the fierce creature appeared before him, and it was beyond Ye Tian's expectations.

Type: Curse Poison Beast

Bloodline Talent: Mixed Tier

Strength Talent: God level

Defense Talent: God level

Speed Talent: God level

Claw Technique Talent: Supreme level

Poison Curse Talent: God level

Illusion Talent: God level

“It actually possesses a mixed-tier bloodline talent!” Ye Tian was astonished.

This indicated that if the curse-poison beast continued to grow, it could eventually become at least a Heavenly Venerable-level powerhouse, and given its talents, as well as being the final

poisonous person's test of death-level difficulty, its combat power should surpass that of an Invincible Eternal Prince, perhaps reaching Supreme Prince combat power.

This meant that the creature could even become a Supreme in the future. In other words, this was a... juvenile Supreme Curse Poison Beast!

"It's a true life form, and the spirit of the Hall of Primordial Ancestry actually created such a potent life form—it's terrifying!" Ye Tian muttered in astonishment.

If such curse-poison beasts could be mass-produced and cultivated, wouldn't it be possible to develop a host of Supremes?

"The foundation of the Hall of Primordial Ancestry is too strong, no wonder even the Supremes cannot fathom the mysteries of the Hall of Primordial Ancestry, only knowing that it originates from several universal eras ago!" Ye Tian thought.

Having checked the curse-poison beast's talents with his Copy Talent, Ye Tian casually copied the beast's God-level Poison Curse Talent.

Perhaps this poison curse talent could immunize him against some of the curse-poison forces, which would be useful for Ye Tian.

Swoosh...!!! The curse-poison beast transformed into nine shadows, likely an effect of its Illusion Talent.

Ye Tian also possessed a similar shadow division talent, but in truth, such talents generally had limited effects.

Ye Tian used his Insight Talent along with Xumi.

He easily saw through the curse-poison beast's Illusion Talent and directly slashed at the beast's true body.

Boom! The body of the curse-poison beast was sent flying, but surprisingly, it was not severely injured, receiving only a shallow wound.

Ye Tian was then astonished.

Although he had not used his full strength, he had employed more power than a typical Supreme Prince and had directly hit the curse-poison beast's true body. Without any Divine Artifact for protection, the beast should have sustained significant injuries.

Yet now, this curse-poison beast barely seemed wounded.

"It's a matter of physical strength; the physical strength of this curse-poison beast far surpasses the God level, even comparable to my own physical strength!"

Ye Tian exclaimed in surprise.

He had taken a path against the heavens, broken universal limits, and obtained the Eighteen Golden Bodies Technique, which allowed him to continually enhance his physical strength and toughness beyond the God level.

And yet, this newly born curse-poison beast already possessed such terrifying physical strength, which was truly incredible! After a brief exchange, Ye Tian truly understood the strength of this curse-poison beast, equivalent to the combat power of a God-level Supreme Prince, but it was merely at the beginner level of Supreme Prince, far too inferior compared to Ye Tian, who was among the very top Supreme Princes.

Boom, boom, boom!

Ye Tian began to strike with full force, giving no chance to the curse-poison beast. No matter how the beast attacked, it couldn't breach Ye Tian's defenses, preventing the curse-poison forces from infiltrating his body.

Boom! The Five Elements Divine Wheel suppressed downwards, with spatial power restraining the curse-poison beast.

Suddenly, Ye Tian's Heavenly Moon Saber slashed down, almost completely annihilating the curse-poison beast.

Just as the curse-poison beast was about to perish, it vanished, having been teleported away.

Clearly, the Hall of Primordial Ancestry did not wish for the curse-poison beast to die like this, thus it was moved away.

“Congratulations, you have passed the death-level difficulty test!”

“Would you like to claim your reward, or continue with the challenge at the against-heaven level difficulty?”

The voice of the spirit of the device came.

“Could I have a moment to think it over?” Ye Tian asked.

“You may, but I can only give you half a day!” the voice responded.

“Half a day is enough,” Ye Tian thought.

Immediately, he began to integrate the God-level Poison Curse Talent.

Ye Tian considered that if the death-level difficulty was already this formidable, the against-heaven level difficulty would probably be even more terrifying, likely involving curse-poison as well.

If he encountered a creature not weaker than him, and he was unable to completely prevent the invasion of the curse-poison forces into his body, and if he could not neutralize the curse-poison forces, his strength would gradually weaken, ultimately leading to defeat.

Thus, he had to integrate the God-level Poison Curse Talent.

Of course, this was just his speculation, but he needed to prepare for the against-heaven level difficulty, otherwise, once he entered the test of that difficulty, he might not have the time to integrate the God-level Poison Curse Talent.

Boom! The integration began! Half an hour later, Ye Tian successfully integrated the God-level Poison Curse Talent and checked its specific effects.

“Just as expected, the poison curse talent can immunize against some of the curse-poison force, but it cannot completely immunize against the enemy’s curse-poison force.

This is similar to a fire attribute talent; one can be immune to some of the attacks from fire attribute forces, but it is not possible to completely ignore an enemy’s fire attribute attacks.

Moreover, the poison curse talent can control some of the poison curse power, including the curse-poison force!”

Ye Tian thought to himself.

He opened his palm, and a strand of green substance appeared in the center of it.

Immediately, he took out a spiritual herb and infused the curse-poison force into the herb.

In a blink of an eye, the spiritual herb turned green, completely invaded by the curse-poison force.

“A good effect, and the curse-poison force I wield does not harm myself, only the enemy!” Ye Tian murmured.

Afterwards.

Ye Tian familiarized himself with the Poison Curse Talent and how to utilize it.

After about half a day of getting used to it, the time was almost up.

At that moment, the voice of the spirit of the device descended again: “Examinee, what have you decided, will you choose the reward or continue with the challenge?”

Ye Tian, looking up at the void, said, “I choose to continue the challenge!”

“Very well!” the spirit replied.

Whoosh! A surge of teleportation power came, and without any resistance, Ye Tian was teleported away from there, arriving in yet another unfamiliar place.

Just arriving in this strange area, Ye Tian’s expression subtly changed.
