

Talent 571

Chapter 571: Child of the Era!

“It’s all curse gu poison!”

Ye Tian surveyed his surroundings, only to see that the clouds above, the rocks below, the trees, and the streams were all covered with curse gu poison, presenting a landscape entirely in green.

To the uninformed, this place might seem welcoming.

However, Ye Tian was well aware that this place was undoubtedly a deathtrap for other creatures.

Standing in mid-air, Ye Tian appeared untouched by the curse gu poison, but the air was saturated with its essence, slowly seeping into his body.

If it were just this, naturally, it wouldn’t affect Ye Tian much. But the environmental conditions here were quite harsh. Without his poison curse talent, Ye Tian wouldn’t be able to exert much... strength, as he constantly needed to exert some power to protect himself, preventing the curse gu poison from invading.

This restriction significantly hindered his ability to fully unleash his strength.

“Fortunately, I have copied the God-level poison curse talent, which allows me to ignore the curse gu poison in the air!”

Ye Tian thought to himself.

Boom!!!

The ground split open, and a humanoid creature appeared. It looked almost like a normal human, except its hands were not human hands but spikes.

From this creature, Ye Tian sensed the chaotic power and an extremely dense curse gu poison.

Ye Tian used his copied talent to assess this creature's abilities but discovered no special talents. Clearly, this creature was engineered, not a natural being.

Such engineered beings were terrifying. Creating Supreme God-level creatures wasn't difficult with the mysterious capabilities of the Hall of Primordial Ancestry.

Pff! The humanoid's right-hand spike thrust violently, piercing through space towards Ye Tian, carrying high-grade curse gu poison. If pierced by this creature, others would definitely not be able to withstand the curse gu poison.

Ye Tian slashed at the humanoid's right-hand spike, attempting to deflect it with a single strike.

However,

The spike split into countless smaller spikes. Some were shattered by Ye Tian, but others broke through his defenses, even piercing his Primordial Scales Armor.

Several spikes penetrated Ye Tian's skin. Although they did not puncture through his body, the curse gu poison from the spikes seeped into his bloodstream.

"God-level poison curse talent, expel!"

Ye Tian activated the power of his God-level poison curse talent, quickly expelling the curse gu poison from his blood.

The process was simple, but Ye Tian was immensely relieved.

Had it not been for his God-level poison curse talent, he would have fallen this time! "A heavenly challenge level is indeed formidable; this humanoid's strength is equivalent to the top-notch God-level supreme princes, just below my own strength.

But without the God-level poison curse talent, I would have been invaded by the curse gu poison earlier, severely reducing my combat effectiveness, and I definitely wouldn't have been a match for this humanoid!"

Ye Tian thought.

Boom, boom, boom!!! Ye Tian clashed repeatedly with the humanoid, and although he was frequently broken through and affected by its curse gu poison, he relied on his God-level poison curse talent, thus.

And the humanoid also sustained numerous hits from Ye Tian, severely wounded.

Ye Tian's strength was limitless, and he feared not the poisoned environment here, thus he was not afraid of this humanoid.

Suddenly, Ye Tian seized an opportunity and executed one of his divine secret techniques.

“Primordial Vines!”

Countless vines wrapped around the humanoid, temporarily restraining it.

Although the humanoid broke free from the primordial vines in a blink, the Five Elements Divine Wheel followed, suppressing it. Meanwhile, a barrage of spatial blades shot out, continuously bombarding the humanoid.

At the same time, Ye Tian charged up and unleashed a formidable strike from the Heavenly Moon Saber ultimate technique.

Boom!!!

The terrifying saber dao ultimate technique struck the humanoid's neck, nearly decapitating it.

Having succeeded with one move, Ye Tian then employed the Spear of Time.

The Spear of Time could reduce lifespan, which was useless against humanoid creatures, but it could still obliterate their vitality, leaving the humanoid in a weakened state.

Pff! The Spear of Time pierced through, making the humanoid even weaker.

Next, Ye Tian solidified time, completely halting the humanoid's thought processes.

Ye Tian fully seized this opportunity, furiously executing a series of moves that battered the humanoid repeatedly.

Before long, the humanoid was severely damaged.

"The outcome is decided!" Ye Tian smiled slightly.

Quickly, Ye Tian executed numerous strikes with the Heavenly Moon Saber as well as spatial and temporal divine abilities, rendering the humanoid completely unable to resist.

The battle lasted for several hours, and eventually, the humanoid was completely eradicated by Ye Tian.

Even after the humanoid's death, its spirit did not emerge to move the creature's body away.

Clearly, to the Hall of Primordial Ancestry, although this humanoid was strong, it was deemed without value for improvement and could be discarded.

Whereas the Curse Poison Beast, currently not weaker than the humanoid, was a true creature that could become a Supreme and was thus deemed worth cultivating and not to be discarded.

After killing the humanoid creature, the voice of the artifact spirit descended.

"Enduring for one minute under the attack of a 30% clone of the Child of the Era completes the heavenly challenge level!"

It was the first time Ye Tian heard the term "Child of the Era," yet he felt an inexplicable crisis and pressure.

This was definitely not an easy feat, and the Child of the Era was likely a level above the Child of the Universe.

If the humanoid just now already possessed the combat power of a top-notch God-level supreme prince, and now he needed to withstand the attack of a 30% clone of the Child of the Era for one minute, then the strength of the Child of the Era must far surpass that of the humanoid.

Boom!!!

A youth dressed in silver armor, with black skin, black hair, and golden eyes, stepped out from the void, his terrifying presence making Ye Tian tremble.

“This is just a 30% clone of the Child of the Era; how horrifying must the complete Child of the Era be? Capable of annihilating me in an instant?” Ye Tian exclaimed in shock.

At that moment, the Child of the Era made his move, giving Ye Tian no time to prepare.

A long spear came thrusting through, carrying supreme power but not imbued with curse gu poison.

In the presence of this power, the curse gu poison was nothing.

For instance, under the power of this Child of the Era, the mere curse gu poison couldn't even get close, so what use was it?

Facing the spear of the Child of the Era, Ye Tian deployed various defensive measures and talents, but under one strike, these defenses shattered sequentially.

Pff! The spear pierced through Ye Tian's body, a trickle of fresh blood emerging from his chest.

However, Ye Tian ultimately survived and, with the aid of various recovery talents, he was only moderately injured, not critically.

Yet, the attacks of the Child of the Era came again, relentless and continuous.

Ye Tian used every means at his disposal just to stay alive, with no intention of fighting back.

Time ticked by second by second, and although he only needed to endure for a minute, every second was a brush with death for Ye Tian.

As Ye Tian desperately dodged and fought for his life, the minute finally passed.

Chapter 572: Life Techniques

The Child of the Era had disappeared, signifying that Ye Tian had overcome the defy-heaven difficulty.

At this moment, Ye Tian checked his own body, which was in terrible shape. The force of the laws from that Child of the Era lingered in his body, and was damaging his flesh.

Fortunately, Ye Tian's physical body was extraordinarily robust; otherwise, it would have already collapsed.

Moreover, nearly 90% of Ye Tian's vitality had been worn away. Had it been anyone else, they would not have been able to survive, but as long as Ye Tian had even a sliver of vitality, he would not die. This was the effect of his undying talent.

Before Ye Tian could begin to heal his injuries, the spirit of the artifact appeared.

This was also Ye Tian's first encounter with the spirit of the artifact.

The spirit took the form of a middle-aged man with green skin and a single horn on his head, likely modeled after a certain race.

Looking at Ye Tian, the spirit nodded and said, "You are quite remarkable. Among the countless talents in this universe's era, you have the best talent I have seen. Moreover, you have embarked on a path that transcends this universe, possessing the potential to transcend the universe itself.

Originally, you had no hope of overcoming the defy-heaven difficulty. Do you know what the true criterion of the defy-heaven difficulty is?"

Ye Tian was startled, then responded, "I do not know."

The spirit explained, “In fact, to overcome the defy-heaven difficulty at the God level, one must defeat a Child of the Era under that difficulty. However, no such genius has been born in this universe’s era until now. I had lowered the standards before, but one still had to endure for ten minutes.

Considering your high potential, possessing ten star potential, I took the initiative to further lower the standard for you, requiring you only to endure for one minute.

Otherwise, you would have certainly perished in the defy-heaven difficulty!”

Upon hearing this, Ye Tian trembled, realizing that he had unknowingly come very close to death.

Fortunately, the spirit of the Hall of Primordial Ancestry saw potential in him and adjusted the difficulty of the assessment for him, otherwise he would have had no hope of overcoming the defy-heaven difficulty.

“Thank you, Lord Spirit!” Ye Tian expressed his gratitude.

“You have potential, and the purpose of the Hall of Primordial Ancestry is to nurture promising successors, so naturally, I would not let you die,” the spirit explained.

“It’s time to choose your reward.”

Whoosh! The space shifted, and Ye Tian found himself inside a grand hall.

At that moment.

Various treasures appeared in the air, each radiating a dense, treasure-light.

“The treasures and inheritances of the Hall of Primordial Ancestry are tailored for individuals and are only suitable for personal use. You can say that every item here is of use, and each treasure and inheritance here can benefit you. Choose one,” said the spirit.

Ye Tian looked around, uncertain which treasure to choose, as he was unfamiliar with these treasures. Choosing rashly could prevent him from maximizing his benefits.

Having gone through immense hardships to pass the assessment, it would be regrettable to waste this opportunity.

“Spirit, could you give me a suggestion?” Ye Tian asked.

The spirit remained silent for a while, then said, “Very well, I shall give you a suggestion.

According to the division of eras in your universe, you had already reached the pinnacle of the God-level Supreme Child combat power. The next step would be a Child of the Era, a title representing the most monstrous genius of a universal era, an occurrence that might happen once in a billion years.

It is rare for a universe to produce multiple Children of the Era, and since your universe is still young and its inheritances are not strong, it is difficult to give birth to a Child of the Era.

Without an astonishing inheritance, it would be extremely difficult for you to step into the level of the Child of the Era. I recommend you choose a defy-heaven inheritance that suits you.”

“Spirit, which are the defy-heaven inheritances suitable for me?” Ye Tian asked again.

The spirit waved its hand, and three golden scrolls appeared in front of him.

“These three inheritances are suitable for you. They are all techniques to enhance the tier of life, and you have traces of a life technique in you, but it appears to be a mere fragment and somewhat ordinary, with lingering side effects.

However, your talent is commendable, and you have eliminated most of the side effects. Yet, relying on that incomplete technique to cultivate to the peak will be very challenging. These three inheritances, on the other hand, are the most perfect life-tier inheritances studied and created by countless powerful beings of our universal era, suitable for any race.

You must swear not to reveal any of these techniques if you choose to inherit one. The Hall of Primordial Ancestry is not unwilling to teach more people, but such techniques are defy-heaven methods. Once they are passed on to many, it would cause great trouble.

Moreover, others would not qualify for the cultivation, and sharing it with them would bring harm rather than benefit!” the spirit explained.

Ye Tian was initially confused about what enhancing the life tier meant.

However, as the spirit explained, Ye Tian gradually understood.

It turned out that the tiers of human life were also graded: ordinary mortals were first-tier life forms, Emperors were second-tier, and Gods were third-tier.

Due to universal constraints, it was difficult for those above the God level to enhance their physical strength. Therefore, all powerful beings above the God level in this universe were third-tier life forms, while Universal Gods were pseudo-fourth-tier life forms.

Pseudo-fourth-tier refers to those whose vitality has reached the fourth tier, but whose physical strength has not. This was because those above the God level could not enhance their physical strength—a significant limitation.

Ye Tian’s physical strength had reached the upper echelons of the third-tier life level, not far from the fourth-tier.

Once Ye Tian’s vitality was elevated, his life tier would be a true fourth-tier, not just pseudo-fourth-tier.

Now, Ye Tian finally understood what the incomplete life-tier technique, the Art of Immortality he had acquired, was all about. He had obtained this secret technique in the Andromeda Galaxy, thinking it was just an ordinary technique. However, upon arriving at the Supreme Hall of Humanity, he realized that even the Supreme Hall did not possess such a technique.

That was when he started to suspect that this technique was not simple.

Now, he finally knew that the Art of Immortality was a life-tier technique. Although incomplete, it was at least cultivatable, but it could only cultivate up to the fourth-tier life level.

However, the fourth-tier life level was not the end. Above it were the fifth-tier life level and even higher tiers....

For instance, the three great inheritances offered by the Hall of Primordial Ancestry's spirit could potentially lead to the seventh-tier life level. Once reached, even if the universe perished, he would not; this was true eternal immortality.

As for which life-tier technique to choose, Ye Tian fell into hesitation.

If possible, he wanted to obtain all three, but that was not feasible.

The Hall of Primordial Ancestry would not give him three inheritances; at most, it would only provide one, otherwise, it would violate the rules of the Hall of Primordial Ancestry.

After much thought, Ye Tian finally chose one of the techniques.

Chapter 573: Test of Will, 999 Stone Steps!

“Heavenly Origin True Method!”

Ye Tian decided to choose this technique. The Heavenly Origin True Method consisted of seven layers. Practicing the first layer wouldn't enhance one's life tier, but it could increase lifespan by a hundred years. Practicing the second layer could elevate one to a second-tier life. By mastering the third layer, one could reach the third-tier life. If one could master the fourth layer, one would achieve the fourth-tier life.

Once all seven layers of the Heavenly Origin True Method were mastered, one could ascend to the seventh-tier of life, transcending the universe and achieving an immortal and indestructible state.

Previously, Ye Tian had mastered the third layer of the Eternal Life Unification Technique to perfection, which was equivalent to the fourth layer of the Heavenly Origin True Method.

Unfortunately, the Eternal Life Unification Technique was incomplete and fraught with drawbacks. Practicing it to the fourth life tier would have side effects, making it troublesome to switch to other life tier techniques later.

Fortunately, Ye Tian had only practiced up to the second layer, so the side effects were minimal, allowing him to switch to the Heavenly Origin True Method.

After putting away the Heavenly Origin True Method, Ye Tian felt very pleased.

At that moment, the spirit artifact spoke again, “The challenge you just completed was only the second round of tests in the Hall of Primordial Ancestry. There are still the third and fourth rounds of tests to come.

Each round of testing offers rich rewards, but they might not be as precious as the Heavenly Origin True Method. This time, I made an exception to lower the difficulty for you, allowing you to overcome the heaven-defying difficulty and acquire the Heavenly Origin True Method. Otherwise, it would have been impossible for you to obtain it.”

Ye Tian nodded, understanding that with his own abilities, it would indeed be impossible to complete the heaven-defying difficulty of the entire challenge.

“Proceed to the third round of testing!”

As soon as the spirit artifact finished speaking, Ye Tian found himself teleported away.

The next moment, Ye Tian found himself at the base of a divine mountain.

There, besides him, were several God-level beings, including Prince Jun Jian from the human race and Disciple Yun Zhong.

“Prince of Ten Thousand Laws, you’re here!”

Prince Jun Jian and Disciple Yun Zhong flew over to greet Ye Tian.

“Have you started the third round of testing?” Ye Tian asked.

“Not yet!”

Prince Jun Jian shook his head, “We’ve also just arrived recently and are still observing. But we’ve pretty much figured out what the third round of testing involves.”

“Oh, what is it?” Ye Tian was curious.

“It’s about willpower!” Prince Jun Jian said, “Please look at this divine mountain, Prince. You cannot fly up; you must walk.

There are a total of 999 stone steps from the base to the summit, one step per stone. It is extremely difficult to reach the top, as you will endure willpower assaults from the unknown along the steps. If your will is not strong enough, you’ll fail instantly, and one can only attempt to walk up the steps once. If you fail, you can no longer attempt it!”

“Willpower, I see.” Ye Tian nodded.

At that time, some God-level beings were already attempting the third round. They moved very slowly, and some even took a long time to take a single step, which showed the terrifying nature of the willpower assaults.

The best performer so far was Prince Tianxuan, who was already at the 135th stone step and continued to ascend at a steady pace.

Due to Ye Tian’s previous challenges at death and heaven-defying difficulties, he had been delayed, allowing many others to attempt the third round.

Of course, the order of completion did not affect the results.

“Prince of Ten Thousand Laws, let us also make our attempt!” Prince Jun Jian and Disciple Yun Zhong saluted with their fists.

“Let’s go together!” Ye Tian declared.

Whizzing through the air, Ye Tian, Prince Jun Jian, and Disciple Yun Zhong arrived at the first stone step. As soon as they stepped onto the staircase, a powerful wave of willpower assaulted them.

Willpower was related to the strength of one's soul and one's temperament, but not entirely. Some individuals, despite having weak souls, possessed incredibly strong wills, whereas others with strong souls had weak willpower.

On the path of cultivation, those with strong willpower often found it easier to progress, break through bottlenecks, and even unleash greater combat power.

The willpower on the first stone step was not intense. For Ye Tian, it was as mild as a gentle breeze.

Thus, Ye Tian ascended step by step as if he were just walking normally, while Prince Jun Jian and Disciple Yun Zhong also initially faced the willpower impacts with ease. However, after a few dozen steps, their expressions grew serious, and their pace slowed considerably.

Step five! Step six! Step seven! Step eight! Ye Tian quickly surpassed the first hundred steps, leading the other God-level beings. Not many were ahead of him at this point.

He continued to overtake one God-level being after another.

Suddenly, a God-level being at the 127th step screamed tragically and was flung backwards, tumbling down the mountain.

This fall meant failure; he could no longer continue the assessment, and his achievement was fixed at the 127th step, certainly not securing him a significant reward.

Time passed slowly, and when Ye Tian reached the 200th step, he began to feel a slight pressure. The willpower from the unknown was like countless blades, constantly attacking his will.

Ye Tian's will and temperament were incredibly strong; obviously, the willpower at the 200th step couldn't trouble him.

Prince Tianxuan was currently at the 253rd step, Prince Xuefeng was at the 246th, and a few others were at the 200th step.

Next, Ye Tian passed the 250th step, the 300th step, and the 350th step.

At the 400th step, Ye Tian finally caught up to Prince Tianxuan.

Prince Tianxuan noticed Ye Tian and looked over, “Prince of Ten Thousand Laws, you’ve caught up. While I admit I’m no match for you in terms of strength, when it comes to willpower, you’re not necessarily stronger than me!”

“Not interested in comparing, sorry!” Ye Tian replied, stepping onto the 401st step and then onto the 402nd without hesitation, facing the willpower impact of two steps at once. This was risky; the safer approach was to take one step at a time, allowing for easier absorption of the impact.

“Prince of Ten Thousand Laws, are you afraid to compete?” Prince Tianxuan shouted.

“Hmph, try catching up to me first!” Ye Tian scoffed.

Then, Ye Tian sped up, quickly leaving Prince Tianxuan several steps behind.

Seeing this, Prince Tianxuan also quickened his pace in an attempt to catch up to Ye Tian, but nearly fell due to the increased willpower impact from his speed, which forced him to slow down.

“Damn, even the Prince of Ten Thousand Laws’ willpower is so strong. Am I really inferior to him in all aspects?” Prince Tianxuan muttered to himself.

Step 450! Step 500! Step 550! Step 600! As Ye Tian stepped onto the 600th step, the pressure was substantial. Each wave of willpower impact made him slightly dizzy and uncomfortable, requiring him to concentrate fully to resist being overwhelmed.

With each subsequent step, Ye Tian moved slowly, often resting for long periods to regulate his breathing.

“Based on the increase in willpower, I estimate it’s unlikely I’ll surpass the 700th step. This must be the true difficulty of the test. The heaven-defying difficulty I faced earlier definitely had lowered

standards, or else I wouldn't have been able to pass. Now, without the lowered standards from the Hall of Primordial Ancestry spirit, it's impossible for me to pass all 999 steps," Ye Tian thought.

However, even if he couldn't reach the 999th step, his current performance was already far beyond that of other God-level beings, even becoming the enviable achievement others could only dream of.

Chapter 574: Fragments of the Spatial Origin!

On the 486th step.

Prince Tianxuan trembled all over, sweat pouring down as his eyes gradually grew blurry and unfocused, struggling to concentrate.

At this moment, he was enduring an unimaginable assault on his will. Even his own will seemed unable to withstand it. He wanted to step onto the 487th step, but it felt like an insurmountable chasm, as if billions of mountains were pressing down on his right foot.

"Get up there!"

Prince Tianxuan gritted his teeth and forcefully stepped onto the 487th step. Yet, as soon as he stepped onto it, a stronger will assault hit him.

This time, Prince Tianxuan couldn't hold on and was sent flying backward.

At the foot of the mountain.

A group of Gods looked at Prince Tianxuan falling from the mountain, each of them sighing deeply.

"Prince Tianxuan stopped at the 487th step. What a pity."

"The Prince of Ten Thousand Laws is now at the 625th step. I thought that even if Prince Tianxuan wasn't as good as the Prince of Ten Thousand Laws, he could at least reach the 500th step. I didn't expect him to falter at just 487!"

“It’s not that Prince Tianxuan has a weak will, but that Prince of Ten Thousand Laws’s will is too terrifying!”

“If this were any other era, Prince Tianxuan would definitely dominate. Unfortunately, having met the Prince of Ten Thousand Laws, he can only serve as a backdrop!”

“Shush, keep it down. If you anger Prince Tianxuan, and we encounter him in the future, we could be in trouble.”

Prince Tianxuan stopped at the 487th step, while Prince Xuefeng of the Demon Race stopped at the 475th step, slightly weaker than Tianxuan but still a crushing performance compared to other princes.

At the foot of the mountain.

Prince Tianxuan, recovering from the impact of the will assault, looked towards Ye Tian, who was at the 625th step. At this moment, he was very calm, not too envious.

If he had been surpassed only once, he might have envied Ye Tian, even resented him, but being repeatedly surpassed, he had to admit the gap between himself and Ye Tian was too great.

In terms of talent and strength, he was inferior to Ye Tian, but Prince Tianxuan still harbored thoughts of surpassing Ye Tian.

“I am of the Immortal Race; our true foundation is beyond what the human race can imagine. Even if I can’t surpass Prince of Ten Thousand Laws at the True God or Great God level, with the cultivation of the Immortal Race, I still have hope to surpass him in the future,” Prince Tianxuan thought to himself.

On the steps.

Ye Tian took each step with difficulty but still managed to continue, preventing himself from falling off.

The 650th step! The 660th step! The 670th step!

When Ye Tian reached the 690th step, he was almost at his limit. Each step was incredibly challenging, and even his celestial soul was affected by the will assault.

With no choice left, Ye Tian activated his soul-enhancing talent, which barely allowed him to keep his consciousness clear and not be overwhelmed.

At this time, more and more people left to collect their rewards, but some still waited, wanting to see if Ye Tian could reach the 700th step.

As for higher steps, they didn't believe Ye Tian could continue.

From Ye Tian's expression and movements, they all knew he was at his limit and couldn't continue to the higher steps.

Clearly, about 700 steps: was his limit! Gazing at the 700th step, Ye Tian's eyes were confused, with ninety-nine percent of his will resisting the assault, and he was on the verge of collapse at any moment.

But under the force of a powerful will, he took the last step and entered the 700th step.

However, as he stepped onto the 700th step, the will assault overwhelmed him, and he fell from the mountain.

Regardless, Ye Tian had still reached the level of the 700th step.

At the foot of the mountain.

It took a while for Ye Tian to regain his will and he rested for a while.

Having seen that most others had already left, leaving only a few Gods still challenging the third round, Ye Tian also prepared to leave the third round of assessments and accept the rewards that came with it.

Wow! As soon as Ye Tian expressed his intention to leave, the spirit of the artifact transported him to a grand hall, indistinguishable from the previous one.

“Choose a reward!”

The voice of the artifact spirit came through, though its physical form did not appear.

Among the many rewards, Ye Tian casually selected one.

Wow! The sphere of light dissipated, revealing a mass of grey material.

“Space Origin!”

Ye Tian was slightly surprised. This grey material actually contained the essence of spatial origin and was of a very high grade. As a God-level practitioner with a spatial talent, he naturally could not be mistaken.

Swish! Information flowed from this grey material into his mind, detailing the uses of this treasure.

“One of the fragments of the Spatial Origin Source, it can replace the characters of Heavenly Dao of Space, aiding in the cultivation of great spatial divine abilities!”

Ye Tian’s breathing quickened. This object could aid in the cultivation of great spatial divine abilities.

He already possessed one Heavenly Dao Character of space. Now, with the addition of the Spatial Origin Fragment, he might be able to fully master the great spatial divine abilities.

“My Spear of Hellish Void, which I planned to comprehend over countless years, would take too long this way. Now, with the Spatial Origin Fragment and a Heavenly Dao Character of space, if I can master the Spear of Hellish Void, my strength will surge!”

Ye Tian excitedly stored the Spatial Origin Fragment, carefully preserving it. Once he left the Hall of Primordial Ancestry, he planned to refine it along with the Heavenly Dao Character of space and study the Spear of Hellish Void.

“Spirit, I wish to participate in the fourth round of assessments!” Ye Tian declared.

“Granted!”

The spirit activated the power of the Hall of Primordial Ancestry, instantly transporting Ye Tian to the area designated for the fourth round of assessments.

Within a vast mountain range, the roars of numerous beasts echoed around him.

At the same time, the presence of many strong beings permeated the mountain range, and sounds of battle could be heard from far distances.

Arriving in such a place, Ye Tian felt puzzled.

The voice of the artifact spirit descended: “Survive. The longer you survive, the richer the rewards!”

“Survive!” Ye Tian was slightly shocked.

He was unaware of this aspect of the challenge, and the human race had not managed to gather this information.

Just thinking about the fourth round of assessments being merely about survival, he knew the difficulty was not trivial.

Moreover, with survival time correlating with richer rewards, it implied everyone would die eventually; otherwise, it wouldn’t make sense to say longer survival leads to richer rewards.

Otherwise, if one truly died, how would they collect the rewards?

“It’s likely that just before dying, one would be transported away by the Hall of Primordial Ancestry, or perhaps this isn’t even the real world!” Ye Tian speculated.

The fourth round of assessments might not necessarily test strength but luck.

If someone with weaker abilities luckily survived till the end, they could receive substantial rewards.

Otherwise, even if one were very powerful but quickly met their demise, the rewards wouldn't be significant.

Immediately, Ye Tian concealed his aura, even using numerous secret treasures to completely hide his presence and disguised himself as a common creature, hiding within the mountain range.

However, Ye Tian was well aware that this might not be the best strategy. If hiding alone could avoid danger, then this round of assessments would be too simple.

But, not understanding this world, he could only proceed this way for now.

Chapter 575: Heart of the Saber Soul!

While Ye Tian kept himself hidden, within the fourth round of the assessment world, numerous God-level examiners were eliminated one by one by the powerful creatures of this world. Even the first-tier Invincible Eternal Children found it difficult to contend once they encountered danger.

In the midst of the mountains.

Ye Tian hid quietly, not presumptuous enough to survey his surroundings, for fear that it might expose his location.

It was better to hide like this.

However, clearly, the Hall of Primordial Ancestry would not allow him to continue hiding indefinitely.

Suddenly.

Ye Tian sensed a dangerous aura as a massive creature appeared in the skies above the mountain range where he was located.

It resembled a gigantic Kun, its aura unmistakably reaching the Great God level—not just any Great God level, but that of a terrifyingly powerful Great God.

In terms of strength, Ye Tian did not consider himself a match for this creature.

The creature roared.

Then, it fiercely unleashed a water column towards the mountain range where Ye Tian was located.

This water column struck down, shattering numerous peaks in the process.

Immediately, Ye Tian fled, using his God-level spatial talents to teleport continuously in an attempt to evade the creature.

But the creature had clearly noticed Ye Tian's presence and pursued him.

Fortunately, the creature was not particularly fast and could not catch up with Ye Tian, who possessed God-level spatial talents, allowing him to successfully escape.

Through this incident, Ye Tian confirmed something.

The creatures in this world must be illusions created artificially, not real beings, because he did not sense any talents from these creatures.

Previous cursed beasts possessed such talents, but this creature did not; however, it seemed like a real creature.

Thus, this creature must not be real but an illusion, just so realistic that even Ye Tian could not discern it with his physical body or divine sense. But no matter how realistic, it could not deceive Ye Tian's cloning talent.

Moreover, these creatures seemed to have the ability to detect outsiders, perhaps a permission granted by Hall of Primordial Ancestry. As such, no matter how he changed, he could not avoid these creatures.

Once these creatures approached him, they would discover his presence and then attack him.

Therefore, hiding was not a way to avoid danger, but running around blindly was even more dangerous.

As just seen, if it had been any other Prince, they certainly would not have escaped.

Subsequently, every so often, Ye Tian would be attacked again. The creatures that attacked him were all above the Great God level and were not ordinary Great God-level beings.

Thus, Ye Tian fled time after time, nearly losing his life on several occasions.

As time passed, the number of God-level examiners in this world dwindled, and even Prince Xuefeng of the Demon Race was unexpectedly eliminated in an accident, truly an instance of bad luck.

In a forest.

Ye Tian hid here, thinking he could stay for a while, but unexpectedly, he encountered an even more terrifying creature.

Thunderous rumbling! Out of the void, a giant python emerged, targeting Ye Tian and launching an attack.

Its powerful aura had already surpassed, reaching the Planetary System level. And among the Planetary System level, it was considered invincible, likely even surpassing Planetary System level beings like True Monarch Jin Chen.

Ye Tian wielded his saber and fiercely slashed down, but the saber qi struck the giant's body like a wooden sword against steel, instantly shattering and not harming the creature in the slightest.

Just as Ye Tian was about to be eliminated, he activated his substitution talent, swapping places between his real body and a substitute clone.

Immediately, Ye Tian's substitute clone was annihilated by the giant python, while Ye Tian's real body left the area and arrived at another location.

"Fortunately, I had prepared in advance and left the substitute clone here, otherwise I would have definitely been eliminated!" Ye Tian murmured.

The only pity was that his substitution talent couldn't be activated again in the short term. If Ye Tian encountered danger next time, he would truly be eliminated.

However, Ye Tian was lucky for the next day as he didn't encounter any significant dangers.

But the following day, Ye Tian's luck turned poor. He encountered a Galaxy-level creature. A mere glance from the creature caused Ye Tian to completely lose consciousness. When he came to, he found himself in a large hall.

Clearly, he had been eliminated.

"I wonder if I'm the person who survived the longest," Ye Tian thought to himself.

Just then, the voice of the spirit of the artifact descended: "Examiner, congratulations on being the second-longest surviving God-level participant. You may now receive your reward and choose it!"

"Second-longest," Ye Tian was not disappointed.

The fourth round of the assessment not only tested strength but also relied heavily on luck. If there were no other powerful creatures nearby, one would not die. For an assessment that was half based on luck, achieving second place was quite good. He did not harbor too many expectations.

Soon, a collection of treasures was presented before Ye Tian, allowing him to choose one.

Ye Tian followed his intuition and selected a saber-shaped crystal that felt useful.

He did not know exactly what this item was, but since it felt useful, he took it.

After Ye Tian collected the saber-shaped crystal, he was transported away from the Hall of Primordial Ancestry, directly leaving the void where it was located and returning to the Supreme Hall of Humanity.

He was unsure if the Supremes had come out, nor did he inquire; his first action was to check his gains.

First was the saber-shaped crystal; not knowing its purpose yet, he naturally wanted to examine it first.

Quickly, he learned from the information contained within the saber-shaped crystal about its origins and uses.

“Heart of the Saber Soul!”

That was the name of this crystal. Its uses were broad, aiding in the comprehension of the Saber Dao and enhancing the speed of cultivating saber techniques, but its most important function was assisting in the condensation of the essence of the Saber Dao’s rules.

The Heart of the Saber Soul internally contained a natural essence of the Saber Dao, a priceless treasure. Even a Supreme Saber wielder encountering such a Heart of the Saber Soul would surely be moved.

“What a treasure! My essence of the Saber Dao’s rules has always been lacking a bit. Now that I’ve obtained the Heart of the Saber Soul, I can completely condense the essence of the Saber Dao’s rules. Soon, I will be able to perfect the Heavenly Moon Saber to the level of the strongest peak saber dao ultimate technique.

And in the future, when I enter areas where the rules are blocked, I can still exhibit the power of the saber dao ultimate techniques, unrestricted by the region.”

Ye Tian was exceedingly excited and immediately began refining and absorbing the Heart of the Saber Soul, trying to break through the last barriers and condense the essence of the Saber Dao’s rules.

Time slowly passed, and before long, a year had gone by.

Most of the powerful beings from the various cosmic races had come out of the Hall of Primordial Ancestry, with only a few Supremes and dominators still lingering inside.

At this time, Ye Tian had no time to pay attention to these matters. He was continuously absorbing and refining the Heart of the Saber Soul, and with its aid, was condensing his own essence of the Saber Dao's rules.

On this day.

Strands of the Saber Dao's rules began to emerge from inside Ye Tian's body, gathering more and more, showing signs of evolving into the essence of the Saber Dao's rules.

"I'm going to succeed!"

Ye Tian was tremendously excited.

Chapter 576: Mastering the Great Divine Ability of Space!

The first step was to create his own Saber Dao rules, which Ye Tian had already accomplished. Only by accumulating more of his own Saber Dao rules could he evolve them into the origin of the Saber Dao.

Previously, Ye Tian had always been one step away from condensing the origin of the Saber Dao.

Now, with the help of the Heart of Saber Spirit, Ye Tian finally took that step.

Boom! Inside Ye Tian's body, a space of Saber Dao was born, and deep within this void, a divine saber evolved, representing the origin of the Saber Dao.

"The origin of the Saber Dao rules! Controlling the rules feels really great!"

Ye Tian closed his eyes and felt it. He seemed to be condensed upon the Saber Dao rules, easily able to create Saber Dao rules with a wave of his hand, effortlessly isolating the Saber Dao rules of the world to form a domain of his own Saber Dao rules.

At that moment, he truly understood the gap between having condensed the origin of the Saber Dao and not having done so—it was absolutely vast.

If other sabermen were to fight him, he could even strip them of their control over the Saber Dao rules, rendering them unable to use their powerful saber techniques and easily defeating them.

Now that Ye Tian had condensed the origin of the Saber Dao, he could create his own Saber Dao rules and control the Saber Dao rules of the world to the greatest extent.

Before him, other sabermen were like little brothers.

“I feel it, it won’t be long before I can create the strongest peak-level Saber Dao ultimate technique, and my strength will increase significantly!” Ye Tian murmured.

In the following days, Ye Tian diligently cultivated, trying to create a peak-level Saber Dao ultimate technique. With the aid of the origin of the Saber Dao, Ye Tian constantly had flashes of inspiration, facing no bottlenecks whatsoever. The Heavenly Moon Saber technique was perfected at an unbelievable speed, progressing rapidly.

Before long, Ye Tian successfully perfected the Heavenly Moon Saber ultimate technique to the level of the strongest peak-level Saber Dao ultimate technique, its power increasing several times over.

“The Heavenly Moon Saber has been perfected to the level of the strongest peak-level Saber Dao ultimate technique. For now, it’s impossible to continue enhancing it. The next level would be the pinnacle-level Saber Dao ultimate technique, and I have no understanding of that. It’s too difficult to create a pinnacle-level Saber Dao ultimate technique.”

Ye Tian decided not to continue creating Saber Dao ultimate techniques for the time being. He planned to cultivate the great divine ability of space—the Spear of Hellish Void.

He had obtained a Spatial Origin Fragment, and with this fragment and a Void Heavenly Dao Character, there was a great chance of successfully cultivating the Spear of Hellish Void.

Once he mastered this great divine ability of space, his strength would not just increase significantly, but skyrocket.

At that time, even if he couldn't become a Child of the Era, he would definitely become the strongest among the Supreme Princes.

Ye Tian took out the Spatial Origin Fragment and began to absorb and refine it, while also activating the Void Heavenly Dao Character within his soul to thoroughly refine it.

Only in this way could Ye Tian truly utilize the Void Heavenly Dao Character and the Spatial Origin Fragment to cultivate the Spear of Hellish Void, this great divine ability of space.

Time passed bit by bit, and Ye Tian slowly refined the Void Heavenly Dao Character and the Spatial Origin Fragment. He seemed to be immersed in the source of spatial rules, feeling the omnipresent spatial rules.

“Beginning to cultivate the Spear of Hellish Void, I hope I can succeed!” Ye Tian murmured.

The Spear of Hellish Void was a great divine ability of space. To cultivate this great divine ability from scratch was almost impossible. But at this moment, with the Void Heavenly Dao Character and the Spatial Origin Fragment, Ye Tian, filled with high-level spatial rules and spatial origin, forcibly began to comprehend the Spear of Hellish Void bit by bit, slowly starting the cultivation.

“Even just starting is a beginning, proving I can cultivate the Spear of Hellish Void. The Void Heavenly Dao Character and the Spatial Origin Fragment are sufficient to support me in this state for a long time, and I should be able to bring the Spear of Hellish Void to the beginner level.” Ye Tian thought.

Thus, Ye Tian continued to cultivate and comprehend, wasting no time.

In the blink of an eye, two years had passed.

On this day.

Ye Tian opened his eyes, and before him gradually condensed a dark long spear, radiating the aura of spatial rules, incredibly sharp and formidable.

“The Spear of Hellish Void, it’s done!”

Immediately.

Ye Tian entered a battle room in the cultivation tower, a room specially constructed by Dominator Dark for him. The materials used here were incredibly robust, capable of supporting his battles and experiments.

At this moment.

In the cultivation room, there stood a massive statue made of cosmic black steel, a material so durable that even attacks from a Great God level could hardly damage it.

Looking at the statue, Ye Tian activated the Spear of Hellish Void with a thought.

“Hit!”

The Spear of Hellish Void struck the statue at an extremely fast speed, and in an instant, the statue shattered into countless pieces, which then turned into dust.

“Such terrifying power, worthy of being a great divine ability of space. If it hits an enemy, even if that person possesses an undying talent, it would be utterly useless. In an instant, the power of space would pulverize the countless cells of the body, turning it into dust, extinguishing all life, rendering the undying talent useless!” Ye Tian said.

Having mastered the Spear of Hellish Void and the strongest peak-level Saber Dao ultimate technique, Ye Tian’s strength had increased significantly, but he still felt that he had not reached the level of a Child of the Era.

“What kind of monstrous being is a Child of the Era? I have already become such a formidable God-level being, yet I still haven’t reached the level of a Child of the Era. How then, can one become a Child of the Era?” Ye Tian frowned in deep thought.

He couldn't stay at the God level for too long. Could it be that it was impossible to become a Child of the Era at the God level? "Right, there's also the life-enhancing technique—Heavenly Origin True Method!"

Ye Tian thought.

The Heavenly Origin True Method could elevate the level of life, and the benefits of raising one's life level were manifold. Not only does it greatly increase one's lifespan, but more importantly, it also raises the limits of one's body.

For instance, if a person's strength is 100, reaching 100 means reaching the limit of that realm. However, if the life level is raised, that limit of 100 could increase to 120 or even more, allowing one to continue enhancing their strength without breaking through to a new realm.

For example, Ye Tian had nearly maximized his celestial force, celestial soul, and celestial body at the God level and found it difficult to enhance them further. However, if he could raise his life level by one more tier, he would be able to continue enhancing his celestial force, celestial soul, and celestial body.

Additionally, the longevity technique Ye Tian had cultivated before was incomplete, thus it did not enhance limits but only increased lifespan.

Therefore, all Ye Tian needed to do now was to switch to cultivating the Heavenly Origin True Method, which could stabilize his third-tier life level in a short time by cultivating it to the third layer.

"Beginning to cultivate the Heavenly Origin True Method!"

Ye Tian decided.

Immediately, he began to comprehend the first layer of the Heavenly Origin True Method.

With Ye Tian's comprehension, it didn't take long for him to thoroughly understand the first layer of the Heavenly Origin True Method, and then he began to cultivate the first level of this technique.

The first layer of the Heavenly Origin True Method had no special effects; it was merely foundational. A first-tier life cultivating the first layer of the Heavenly Origin True Method remains a first-tier life, only slightly increasing lifespan. However, this foundation was essential to cultivate, also laying the groundwork for the subsequent layers of the Heavenly Origin True Method.

After a few days, Ye Tian successfully cultivated the first layer of the Heavenly Origin True Method and immediately began to comprehend the second and third layers of the technique.

In a blink.

Five years had passed.

Using these five years, Ye Tian successfully cultivated the Heavenly Origin True Method to the third layer, achieving a perfect third-tier life level. Before, he was although also third-tier, was flawed.

Becoming a perfect third-tier lifeform, Ye Tian felt like an unfilled bottle, ready to take in more water.

He was far from reaching the limit at the God level and could continue to cultivate, enhancing his cultivation level.

Chapter 577: The Pill Tower, The Immortal Golden Pill!

“My celestial power has greatly increased, reaching its limit, and both my celestial body and celestial soul have also strengthened considerably, enhancing my overall strength significantly. However, I am still a bit short of becoming a Child of the Era,” Ye Tian mused to himself.

Yes, he was indeed just a little short.

Ye Tian could sense a kind of shackle within the unknown, tantalizingly within reach. Breaking through this barrier would allow him to ascend to the battle power of a Child of the Era and become the first such being in this universe.

But this bottleneck was not easy to break through. Currently, there were few avenues available for Ye Tian to improve, and all required a considerable amount of time. Such progress could not be achieved overnight.

For instance, if Ye Tian could ascend to the fourth stage of life, he might be able to break the shackle. However, achieving the fourth stage of life at present was not only difficult but also a tremendously challenging task.

The reason Ye Tian was able to advance the Heavenly Origin True Method to the third layer so quickly was that he was already a third-stage being, hence he faced no bottlenecks and reached the third layer with ease.

Advancing to the fourth layer of the Heavenly Origin True Method, however, was not as straightforward. It required cultivation in a special environment.

The Art of Immortality needed necrotic energy for advancement, and although the difficulty of advancing the fourth layer of the Heavenly Origin True Method was less than the Art of Immortality, it was still immensely challenging.

Ye Tian needed to find a location with Thousand Weak Waters and another with Thousand Heavy Waters. By exposing himself to both forms of water and undergoing their baptism, he could attempt to break through to the fourth layer of the Heavenly Origin True Method.

However, the fearsome nature of both the Thousand Weak and Heavy Waters made even locating them a daunting task. Entering these waters meant almost certain death.

Weak water had terrifying corrosive properties, and heavy water exerted immense pressure.

With his current strength, Ye Tian could hardly withstand the Thousand Weak and Heavy Waters unless he used special methods.

“Dominator Dark!” Ye Tian called out.

In the next moment, Dominator Dark appeared before Ye Tian.

“Your Highness, what do you command?” Dominator Dark inquired.

“Dominator Dark, I need to know where I can find the Thousand Weak and Heavy Waters. Also, with my current strength, how can I withstand their power?” Ye Tian earnestly asked.

Seeing Ye Tian’s serious expression and considering the suddenness of his query, Dominator Dark surmised that Ye Tian must be intending to cultivate some secret technique requiring the Thousand Weak and Heavy Waters.

A technique that needed such resources was surely earth-shattering, and ordinary individuals were not usually qualified to cultivate it.

However, considering Ye Tian’s situation and his extraordinary capabilities, it wasn’t too surprising.

“Your Highness, I know of some locations where both the Thousand Weak and Heavy Waters exist. It might be inconvenient if they are too far apart, considering your immediate need. However, there is one place that possesses both, perfectly suited for your cultivation needs. This place is under the domain of the Divine Blade Alliance, the Blue Water Realm, where various water-based cultivation environments exist, including both the Thousand Weak and Heavy Waters.

As for how to enable Your Highness to withstand the power of the Thousand Weak and Heavy Waters, that might be somewhat difficult,” Dominator Dark remarked, frowning slightly as if pondering deeply.

“A difficult task indicates there is still a way. Please, Dominator Dark, elaborate,” Ye Tian urged.

After a brief moment of contemplation, Dominator Dark spoke, “I know of several methods, but currently, only two are suitable for Your Highness. The first method is to find the essence of million-year Gui Water to protect your physical body so you can withstand the forces of the Thousand Weak and Heavy Waters. However, the essence of million-year Gui Water is exceedingly rare, and even I do not know where it might be found.

The second method involves using the Immortal Golden Pill to protect your body, which could allow you to withstand the power of both the Thousand Weak and Heavy Waters.”

“The Immortal Golden Pill, where can it be found?” Ye Tian asked, intrigued.

“One of the nine Supreme Forces, the Pill Tower!” Dominator Dark replied.

“The Pill Tower!”

Ye Tian was aware of this Supreme Force, one of the nine that tended to keep a low profile. Its strength was slightly weaker, but the Pill Tower played a significant role among the Supreme Forces.

The Pill Tower was divided into two forces: one for battle and one for alchemy. The battle force protected the Pill Tower, while the alchemy force primarily crafted pills, which were a relatively common resource that many cultivators needed. However, for individuals like Ye Tian, using pills to enhance cultivation was not beneficial; only power cultivated step-by-step on one's own was more pure.

Nevertheless, for the majority of human warriors, the benefits of pills were tremendous, hence many desired to enhance their cultivation through them.

The Pill Tower's pills included those that enhanced cultivation, healed injuries, temporarily boosted strength, and even those that enhanced talents, including Talent Pills and grade-enhancing pills, as well as various other rare pills.

High-grade pills for humanity were almost exclusively available from the Pill Tower.

Through Dominator Dark's explanation, Ye Tian understood the uses of the Immortal Golden Pill.

The Immortal Golden Pill was a life-saving pill that could coat the body with a golden layer for a short duration, enhancing defense and protecting against many forms of energy invasion and attacks.

Of course, such a pill was extremely precious, and even some Galaxy-level powers were reluctant to use it.

“Dominator Dark, if I were to purchase the Immortal Golden Pill from the Pill Tower, could I obtain it?” Ye Tian inquired.

“That might be difficult,” Dominator Dark responded. “It's not a matter of price but of scarcity. The materials for the Immortal Golden Pill are quite rare, and not many can be produced each time.

Moreover, the demand is high since the Immortal Golden Pill is one of the best life-saving treasures for weaker deities, and everyone wants to acquire one.”

“I’m not sure if the Pill Tower is willing to sell a few pills to Your Majesty, but I can inquire with a few old friends from the Pill Tower.”

“Thank you, Dominator Dark!” Ye Tian expressed his gratitude.

“Your Highness is too polite. As your guardian, it is my duty,” Dominator Dark replied before departing.

Ye Tian quietly awaited news from Dominator Dark, and three days later, Dominator Dark returned.

“Your Highness, I contacted a few of my old friends. Unfortunately, the current stock of the Immortal Golden Pills at the Pill Tower has almost been depleted, and the remaining pills have already been reserved. It would be difficult for my friends to cancel others’ reservations for these pills,” Dominator Dark said with a sense of helplessness.

“So, there’s no hope?” Ye Tian felt a wave of disappointment. Just when he thought there might be a chance, it seemed futile.

“No!” Dominator Dark quickly added, “There is still one way. Soon, the Pill Tower will begin refining another batch of Immortal Golden Pills. Gathering the materials for the pills is quite troublesome and difficult. If Your Highness is willing to assist, the Pill Tower is prepared to reward Your Highness with some Immortal Golden Pills in exchange for your contribution.”

“What specifically needs to be done?” Ye Tian inquired.

Dominator Dark detailed the situation, and Ye Tian quickly grasped the essence.

It turned out that among the materials needed for the Immortal Golden Pills, two were incredibly rare and scarce, found only in a few places. The safest of these was the Nether Flower Realm.

The Nether Flower Realm was an area that only God level beings could enter. However, the main issue was that inside the Nether Flower Realm, there were True God level creatures.

In such a world unfriendly to outsiders, the essential ingredients for the Immortal Golden Pill, the Purple Sandalwood Flower and Golden Bone Tree Leaves, could be found. Without these two components, the Immortal Golden Pills could not be refined.

Entering the Nether Flower Realm was highly dangerous for God level beings, with the risk of death lurking at every corner.

Every time the Pill Tower collected Purple Sandalwood Flowers and Golden Bone Tree Leaves, it suffered significant losses of God level beings. Despite the pain of such losses, they had no choice but to collect these materials, given the importance of the Immortal Golden Pills.

To mitigate these losses, every time they collected these materials, the Pill Tower also recruited a group of external God level beings to gather Purple Sandalwood Flowers and Golden Bone Tree Leaves.

Despite the known risks of collecting these materials, the rewards offered by the Pill Tower were too valuable, enticing many to enter the Nether Flower Realm.

This was how the Pill Tower minimized its losses, although still substantial.

“The Pill Tower wants me to go to the Nether Flower Realm!” Ye Tian understood the Pill Tower’s plan. Clearly, they valued his strength. With his capabilities, if he entered the Nether Flower Realm, he could certainly help the Pill Tower obtain a large quantity of Purple Sandalwood Flowers and Golden Bone Tree Leaves in exchange for just a few Immortal Golden Pills.

This deal was extremely beneficial for the Pill Tower, advantageous in every way.

Ye Tian also recognized that it was a loss-making deal for him, but he indeed needed the Immortal Golden Pills and had no choice but to agree.

“Dominator Dark, inform the Pill Tower that I am willing to go to the Nether Flower Realm. When do we leave?” Ye Tian asked.

“In about three months’ time,” Dominator Dark replied.

Immediately, Dominator Dark went to notify the Pill Tower, and they provided a specific timetable. Five months later, Ye Tian would enter the Nether Flower Realm, and he needed to arrive at the Pill Tower four months from now.

In the blink of an eye, four months passed.

On this day.

Under the escort of Dominator Dark, Ye Tian entered the Sacred Pill System where the Pill Tower was located.

The architecture of the Pill Tower consisted of various towers, some so large that they rivaled a planet in size, which astounded Ye Tian.

Upon entering the Pill Tower, Ye Tian was accommodated in one of the towers.

Inside one of the towers of the Pill Tower.

A woman in white was listening to the narration of a Planetary System level servant.

“Third Miss, the master has agreed to let you enter the Nether Flower Realm,” the servant informed her.

“Why has Father suddenly agreed?” The woman in white, Lu Qinghan, known as Fairy Qinghan and a daughter of one of the Pill Tower’s rulers, was curious. Her identity was immensely prestigious, and although she was only a ninth-tier God, her strength was considered top-tier

within the Pill Tower.

However, precisely because of her esteemed status, the Pill Tower was hesitant to allow her into dangerous places, and the Nether Flower Realm was particularly perilous. If any danger arose, even a Supreme couldn’t enter to rescue her.

Thus, Fairy Qinghan thought her father would refuse her request.

But unexpectedly, this time, her father had agreed, which was beyond her expectations.

“It seems the Pill Tower has invited a very powerful God level being!” the Planetary System level servant explained.

Chapter 578: Nether Flower Realm!

“A God?” Fairy Qinghan was very puzzled.

Even if this God level was exceptionally strong, what did it have to do with her entering the Nether Flower Realm?

“Could it be that father thinks this God level can protect me?” Fairy Qinghan speculated.

But upon further thought, it didn’t seem right. The Nether Flower Realm was home to True God level creatures. She wasn’t afraid of ordinary True God level creatures herself, but there were those extremely heaven-defying True God level beings in the Nether Flower Realm that even a successor disciple level God level powerhouse couldn’t contend with. Once encountered, it was very easy to fall and perish.

With Pill Tower’s style, they wouldn’t risk sending a successor disciple of Pill Tower into the Nether Flower Realm. The loss would be too great if a successor disciple were to fall, not something mere materials could compare to.

After all, the price Pill Tower paid to cultivate a successor disciple was enormous, losing one was akin to losing countless resources and treasures! Other forces’ successor disciples and Children of the Universe were also reluctant to enter the Nether Flower Realm, because it was indeed too dangerous.

The reason Fairy Qinghan wanted to enter the Nether Flower Realm was that there was a wondrous flower known as the Eternal Flower within.

The Eternal Flower did not enhance cultivation; it only had the effect of preserving youth.

For women, the Eternal Flower was a priceless treasure, capable of preserving their beauty for millions of years. Even after death, their appearance and bodies would remain ageless for many years.

Fairy Qinghan longed for the Eternal Flower, but sadly, this kind of flower only existed in the Nether Flower Realm and couldn't be taken out, as the Eternal Flower only had an effect if consumed within a minute of being picked while blooming.

Some tried to bring immature Eternal Flowers out, but once the Eternal Flower left its birthplace, it immediately withered.

Because of this, the Eternal Flower couldn't be cultivated in the outside world.

Thus, if Fairy Qinghan wanted to obtain the Eternal Flower, she had to enter the Nether Flower Realm.

According to the information, an Eternal Flower in a certain part of the Nether Flower Realm was about to bloom soon. This was an opportunity that if missed, she didn't know how long she would have to wait.

Moreover, she couldn't always stay at the God level. Once she advanced to True God level, she would no longer be able to enter the Nether Flower Realm.

"No matter what, since... father has allowed me to enter the Nether Flower Realm, this is the only chance, I can't miss it!"

Thinking this, Fairy Qinghan smiled slightly.

On the other side.

Ye Tian was resting in one of Pill Tower's towers when suddenly, a ruler of Pill Tower came to visit him.

Inside the tower.

A ruler who looked like a young man smiled at Ye Tian and said, “Prince of Ten Thousand Laws, I am pleased to meet you. I am one of the high ranks of Pill Tower, you can call me Ruler Yun Dan!”

“Nice to meet you, Ruler Yun Dan!” Ye Tian politely said.

After Ruler Yun Dan sat down, he went straight to the point, “Prince of Ten Thousand Laws, I have come to ask for your help with a matter.”

“What is it, Ruler Yun Dan, please speak.” Ye Tian said.

Ruler Yun Dan hesitated a bit and then said, “My third daughter is named Qinghan. She is talented but unfortunately, I have spoiled her too much, and she has hardly suffered any hardships...”

Seeing Ruler Yun Dan continuously introducing his daughter, Ye Tian quickly interrupted, “Ruler Yun Dan, let’s focus on the matter at hand, shall we?”

“Of course!”

Ruler Yun Dan nodded and said, “My daughter is also planning to enter the Nether Flower Realm this time, and I am worried about her safety, so I hope Prince of Ten Thousand Laws could look after my daughter a bit more in the Nether Flower Realm.”

“What’s in it for me?” Ye Tian asked.

He wouldn’t dare to take on something with no benefit.

Others might try to please a ruler, but he certainly wouldn’t regard a ruler that highly.

Ruler Yun Dan said, “Prince of Ten Thousand Laws, I know you want the Immortal Golden Pill, I can guarantee that no matter how many materials you collect, I will personally gift you an Immortal Golden Pill along with a personal promise from me.”

“Agreed!” Ye Tian consented.

Getting an additional Immortal Golden Pill was a good deal; why wouldn't he be pleased?

An Immortal Golden Pill—he could never have too many of those, as one might not be enough, and having more was always better.

“Thank you!” Ruler Yun Dan expressed his gratitude.

He had known that Ye Tian would agree, but he hadn't expected that such a price would be enough to convince him.

If Ye Tian had refused, he would have had to keep increasing the stakes.

Time flew by, and nearly a month later, Pill Tower was ready and about to send people into the Nether Flower Realm.

That day.

On a certain plaza of Pill Tower, Ye Tian arrived early.

In the distance.

Atop a stone tower, Ruler Yun Dan and Fairy Qinghan.

“Father, you're not having second thoughts, are you?” Fairy Qinghan looked nervously at her father and asked.

“Of course not!” Ruler Yun Dan said, “I have allowed you to enter the Nether Flower Realm, I certainly won't go back on my word.

This time, I just came to tell you, after entering the Nether Flower Realm, stay close to the Prince of Ten Thousand Laws, I have already instructed him to protect you there.”

“The Prince of Ten Thousand Laws, who is that?” Fairy Qinghan asked.

“The Prince of the Supreme Hall of Humanity, far stronger than our successor disciples in Pill Tower. With him around, you should be safe in the Nether Flower Realm,”

Ruler Yun Dan explained.

“Is this... Prince of Ten Thousand Laws really that powerful?” Fairy Qinghan asked doubtfully.

“Of course, he is that powerful. Remember, don’t be rude to the Prince of Ten Thousand Laws; his status is very prestigious, even comparable to mine. Do you understand?” Ruler Yun Dan instructed.

“Father, I understand. I will definitely stay close to Prince of Ten Thousand Laws!” Fairy Qinghan assured her father.

In truth, however, she didn’t take Prince of Ten Thousand Laws seriously, assuming he was merely a scion of some bigwig. The claim that his combat power surpassed that of Pill Tower’s successor disciples was probably just bluster.

Of course, she didn’t dare contradict her father, lest he change his mind.

After all, once she entered the Nether Flower Realm, no one could control her.

Moreover, this time entering the Nether Flower Realm, her God level guard team would also be entering with her. Coupled with her own strength, as long as she was careful, she might not necessarily encounter danger.

“Father, I’m going!”

Fairy Qinghan flew towards the plaza, followed by a dozen God level guards soaring behind her.

These dozen God level guards were all strong, each previously achieving 8 or 9 stars as peerless Heavenly Prides, their power just below some of the weaker successor disciples, all personally acquired by her father at great expense.

This time, she had brought them all.

On the plaza.

As soon as Fairy Qinghan arrived at the plaza, Ye Tian approached her.

“Are you Fairy Qinghan?” Ye Tian asked.

“Yes!” Fairy Qinghan sized up Ye Tian, “And you’re what, the Prince of Ten Thousand Laws?”

“Correct!” Ye Tian nodded.

“Prince of Ten Thousand Laws, actually, I don’t really need your protection. It’s just that my father insists on you protecting me, and I couldn’t say no. Once we enter the Nether Flower Realm, I have my mission, and we can avoid interfering with each other, how about that?” Fairy Qinghan proposed.

“I am entering the Nether Flower Realm to collect Purple Sandalwood Flowers and Golden Bone Tree Leaves. Isn’t Fairy Qinghan also collecting Purple Sandalwood Flowers and Golden Bone Tree Leaves?” Ye Tian asked.

“No, I am looking to collect the Eternal Flower, so I guess we’re not heading the same way.” Fairy Qinghan said.

“Then how about this: I can accompany Fairy Qinghan to first pick the Eternal Flower, then we can collect the Purple Sandalwood Flowers and Golden Bone Tree Leaves. How does that sound?” Ye Tian suggested.

Seeing Ye Tian’s attitude, Fairy Qinghan knew it wasn’t so easy to make him give up following her, and if she irritated Ye Tian and he immediately informed her father, it would be troublesome.

So, she said, “Prince of Ten Thousand Laws, let’s do it that way then!”

As time passed, a massive battleship flew over, and the God level individuals present one by one entered the battleship, leaving Pill Tower, heading to the location of the Nether Flower Realm.

Three days later, the battleship arrived in a strange starry sky.

Instantly.

One by one, God level beings flew out from the battleship.

Ye Tian scanned the area and knew that roughly tens of thousands of God level beings had entered the Nether Flower Realm this time, but how many would be able to come out was unknown.

Among these God levels, most were from external forces, serving as cannon fodder. However, once they came out of the Nether Flower Realm with Purple Sandalwood Flowers and Golden Bone Tree Leaves, it would be akin to striking it rich.

Boom!!! The void split open, a void passage appeared.

This passage led to the Nether Flower Realm, and one by one, the God level beings surged into the Nether Flower Realm, including Ye Tian and Fairy Qinghan and others.

Nether Flower Realm.

Above a swamp, a group of God level beings appeared one by one.

Then, these God level beings flew towards various parts of the Nether Flower Realm.

In the Nether Flower Realm, there were many places where Purple Sandalwood Flowers and Golden Bone Trees grew, so these God level beings wouldn't head to the same place.

Fairy Qinghan wanted to leave immediately, but Ye Tian stood by her side and said, "Fairy Qinghan, let's set off."

"Alright!" Fairy Qinghan reluctantly nodded.

Swish swish swish!!!! A group flew towards a certain direction.

Along the way, Fairy Qinghan was very alert, watching her surroundings vigilantly. Although she was headstrong, she wasn't foolish and knew the Nether Flower Realm was extremely dangerous. Thus, she was very cautious, fearing an attack by terrifying creatures.

On the other hand, Ye Tian was very calm, a faint smile always on his face.

After not flying long, Ye Tian's smile disappeared, he lightly said, "Be careful, there's a group of creatures ahead!"

"Let's charge through, we can't delay. This route is the quickest, I must ensure we reach the location of the Eternal Flower as soon as possible, so we need to move fast." Fairy Qinghan said.

"Yes, Third Miss!"

The dozen God level guards responded, and immediately charged forward.

Boom!!! A hundred huge toads leapt out from the swamp, most of them at God level, with about a dozen at True God level.

These toads were of ordinary talent, thus their combat power was quite average. The dozen God level guards, all of whom were 8 or 9 star Heavenly Prides, had terrifying combat capabilities and easily slaughtered the group of toads.

As the corpses of the toads floated on the swamp, Fairy Qinghan looked proudly at Ye Tian and said, "Prince of Ten Thousand Laws, my guards are quite capable, aren't they?"

"Not bad!" Ye Tian nodded.

"So, I really don't need your help!" Fairy Qinghan said.

"However, there's a big guy down below. I wonder if your guards can handle that." Ye Tian suddenly smiled, teasingly.

Chapter 579: Total Annihilation!

“Big guy?” Fairy Qinghan was taken aback, realizing that the “big guy” Ye Tian mentioned must be an even more formidable True God-level creature.

Before she could ponder further, the swamp began to tremble.

A poison dragon, its body teeming with toxins, emerged from the swamp, its huge green eyes fixed on Fairy Qinghan and the others.

Its aura was incredibly powerful, definitely at the peak of the True God level, and its presence far exceeded that of a typical peak True God-level being.

“There are actually dragons here!”

Fairy Qinghan was somewhat surprised, but then she recalled that many areas in the human territories had also given rise to dragons, so she dismissed the thought.

Dragon bloodlines had scattered across the universe, and many places could give rise to dragons, though these dragons that had not ventured to the dragon territories could only be considered wild dragons.

This poison dragon was one such wild dragon, but its strength was not inferior to that of the true dragons. In fact, among the dragons, it would be considered a top-tier True God-level dragon.

“All of you, together, subdue this poison dragon!” Fairy Qinghan commanded.

“Yes!” The God-level guards responded and immediately launched an attack on the poison dragon.

However, as soon as they engaged, the God-level guards’ expressions changed. The poison dragon released an endless stream of toxins, creating a domain of poison that was terrifyingly potent, continuously diminishing the state of the God-level guards.

“This poison dragon possesses a God-level toxin talent, making it extremely formidable in battle. Thankfully, it wasn’t born in the dragon territories. Otherwise, if it had learned the Divine Poison Technique, all your God-level guards would have been annihilated in one blow!” Ye Tian evaluated.

Fairy Qinghan's expression tensed. If this continued, her guards might lose their lives.

"Frozen Gate!"

Fairy Qinghan decided to intervene, starting with a divine ability.

Boom! A massive gate of ice descended in front of the poison dragon, unleashing endless cold air and instantly freezing the dragon in place.

But before Fairy Qinghan could smile, the ice shattered, the poison dragon roared, and its momentum grew even stronger.

At that moment, a massive tail of the poison dragon swept across, striking several God-level guards and heading straight for Fairy Qinghan.

At this moment, Fairy Qinghan felt the danger approaching and tried to dodge, but she couldn't keep up.

Normally, she was considered exceptionally powerful at the God level, but this poison dragon was a peak True God-level creature with a God-level talent, which was extraordinarily strong.

Such a dragon could only be suppressed by those at the Child of the Universe level among the God-level beings. Fairy Qinghan was not a Child of the Universe, nor were her guards. Even if they combined forces, they could not match a Child of the Universe, naturally unable to suppress this poison dragon.

Just when Fairy Qinghan thought she was going to be injured, a hand suddenly intercepted the dragon's tail, then transformed into a giant hand, grabbed the poison dragon's tail, and fiercely pulled, hurling the poison dragon away.

"Are you alright?" Ye Tian looked at Fairy Qinghan.

"I'm....fine!" Fairy Qinghan hesitated before responding.

“The most formidable aspect of this poison dragon is its God-level toxin talent. As long as you suppress its toxins, you can defeat it. Aren’t you disciples of the Pill Tower? Don’t you have any treasures to suppress toxin talents?” Ye Tian asked curiously.

“We do!” Fairy Qinghan quickly responded.

Immediately, Fairy Qinghan took one, and the other God-level guards also took a pill.

Then, Fairy Qinghan took out a top-tier Divine Artifact, similar to a scepter, which emitted endless green light, directly enveloping the True God-level poison dragon.

Under the suppression of this artifact, the poison dragon’s toxins were contained.

Soon, the poison dragon was at a disadvantage, but its cultivation was too powerful for Fairy Qinghan and the others to suppress fully, making it difficult to kill.

“Prince of Ten Thousand Laws, won’t you help?”

Fairy Qinghan’s celestial force was running low, so she called out for help.

If she or one of the guards had been at the True God level, they could have killed the poison dragon without much effort. Unfortunately, they were only at the God level, which was far too inferior compared to the peak of the True God level.

In the midst of this prolonged battle, Fairy Qinghan and the others were severely depleting their celestial force. If they continued to fight, the poison dragon’s divine power would not be exhausted, but Fairy Qinghan and her team would run out of celestial force.

Therefore, Fairy Qinghan sought help from Ye Tian.

“I can help, but from here on, you’ll need to follow my lead. By the way, there are several dozen True God-level creatures coming from the surrounding area, some of which are not weaker than this poison dragon!” Ye Tian announced.

“What!” Fairy Qinghan’s face changed.

If that were true, it would be bad news.

With so many True God-level creatures approaching, they definitely wouldn't be able to withstand them.

"Alright, I agree!" Fairy Qinghan conceded.

"Good, step aside!" Ye Tian instructed.

Whoosh, whoosh, whoosh! Fairy Qinghan and the others instantly dodged to safety, positioning themselves behind Ye Tian.

The poison dragon hesitated as it eyed Ye Tian warily, remembering how Ye Tian had flung it away with ease previously.

Although Ye Tian had not injured it, the dragon was unclear about his true strength and hesitated about whether to attack him.

But soon, it charged forward.

"Let's test out my Spear of Hellish Void!" Ye Tian thought to himself.

Although he had tried the power of the Spear of Hellish Void in the Cultivation Tower, he had never used it against a real creature.

"Spear of Hellish Void!"

A spear suddenly pierced through the air, striking the poison dragon in an instant.

Following that, the poison dragon screamed tragically as its body turned to ashes.

A one-hit kill! This scene was witnessed by Fairy Qinghan, who stared in disbelief.

“The poison dragon is dead?” Fairy Qinghan couldn’t believe it.

She and a dozen guards had attacked the poison dragon together but couldn’t defeat it, yet Ye Tian killed it with a single move.

Boom, boom, boom! Just then, several powerful True God-level creatures appeared.

“There really are a lot of True God-level creatures coming, he didn’t lie to us!” Fairy Qinghan murmured.

If Ye Tian hadn’t intervened just now, she and her guards would have definitely been in danger.

Fairy Qinghan sensed around and counted seventeen True God-level creatures, among which three had an aura comparable to the poison dragon they had just faced.

“The Nether Flower Realm really is dangerous. No wonder my father forbade me from entering. If it weren’t for Prince of Ten Thousand Laws, I would have definitely been in danger this time!” Fairy Qinghan thought.

In an instant, those True God-level creatures approached.

“Spatial Imprisonment!”

Ye Tian’s spatial power confined the area around them, and with his strength, the spatial techniques he employed were terrifyingly effective. Although these True God-level creatures were not completely immobilized, their speed was reduced to an extreme.

Then, Ye Tian continuously teleported and used the Heavenly Moon Saber Ultimate Technique, killing one True God-level creature with each strike.

Swipe, swipe, swipe! After a dozen teleports, a dozen True God-level creatures were all slain.

In Fairy Qinghan’s eyes, it seemed like only a moment had passed, and the bodies of those True God-level creatures had already fallen into the swamp, turning into corpses.

Chapter 580: The Beast of Devouring Recognizes Its Master!

“How powerful!”

Fairy Qinghan was dumbstruck.

Killing the poison dragon in one move was one thing, but now he had effortlessly slain a group of True God level creatures. This indicated that Ye Tian’s strength far surpassed these True God level creatures.

“No wonder my father, a great Dominator himself, holds such high regard for the Prince of Ten Thousand Laws. I indeed underestimated the Prince from the Supreme Hall of Humanity!”

Fairy Qinghan thought to herself.

“Let’s go. I’ll help you pick the Eternal Flower first, then we’ll collect Purple Sandalwood Flowers and Golden Bone Tree Leaves!” Ye Tian said solemnly.

“Okay!” Fairy Qinghan nodded.

The group set off, heading towards a specific area in the Nether Flower Realm.

Along the way, they encountered many creatures, and Ye Tian led them through forcefully. No matter how powerful the creatures were, they met their end at Ye Tian’s hands.

After about half a day, they finally reached their destination.

“This is the place!”

Fairy Qinghan pointed to a valley filled with fragrant flowers and said, “According to the information, the Eternal Flower grows here. It wasn’t mature at the time, but it’s about to mature now. We need to wait until it’s fully matured before we can pick it!”

“Let’s go in!” Ye Tian nodded.

The group walked into the valley, while Ye Tian kept a vigilant watch over their surroundings with his spatial awareness and copied talents, guarding against any strong creatures approaching them.

“Uh...” Ye Tian suddenly paused, his gaze shifting towards the depths of the valley.

“Be careful, there’s a troublesome creature in this valley!” Ye Tian suddenly said.

“A troublesome creature!”

Upon hearing this, Fairy Qinghan was startled.

Previously, neither the poison dragon nor creatures slightly stronger than it were a concern for Ye Tian. Now, however, there was a creature here that even Ye Tian found troublesome—how formidable this creature must be! Immediately, Fairy Qinghan and the guards moved closer to Ye Tian, fearing they might be instantly killed by the powerful creature.

“Prince of Ten Thousand Laws, what kind of creature is it that even you find it troublesome?” Fairy Qinghan asked.

“A half-step Great God creature!” Ye Tian replied.

“What, a half-step Great God level creature in the Nether Flower Realm?” Fairy Qinghan exclaimed in surprise.

“The Nether Flower Realm only prohibits the appearance of Great God level creatures. This half-step Great God level creature is still at the ninth tier True God level, but its divine soul aura has reached the Great God level, making it a half-step Great God. Additionally, it seems to have a special heritage as its divine power is greatly compressed. Otherwise, there would be no way to compress divine power like this. Moreover, its talents must be incredibly strong!” Ye Tian explained.

Fairy Qinghan now fully trusted Ye Tian’s words. Although she wasn’t quite sure how Ye Tian determined that the half-step Great God level creature had strong talents, she did not doubt him.

Indeed, Ye Tian wasn’t exaggerating at all. Through his copied talent, he had a complete understanding of the creature’s talents.

Species: Devouring Beast

Bloodline Talent: Universal Level

Strength Talent: God level

Speed Talent: God level

Defense Talent: God level

Devouring Talent: God level

Dark Spear Talent: God level

Healing Talent: God level

From its talents, this Devouring Beast was incredibly formidable. If it were in the outside world, this Devouring Beast would have grown significantly already.

Unfortunately, it was in the Nether Flower Realm, constrained by the realm's suppression, which limited its strength to half-step Great God level, preventing further advancement. Otherwise, it would have become a Great God level creature, possibly even reaching Galaxy level or beyond.

“Devouring Talent, copy!”

Ye Tian easily copied the Devouring Beast's devouring talent, a talent he hadn't possessed before and naturally wanted to acquire.

“Let's go in. As long as you don't leave my sensing range, I can ensure your safety!” Ye Tian assured.

“Then we greatly rely on the Prince of Ten Thousand Laws!” Fairy Qinghan said.

Soon after, the group entered the valley.

Quickly, they arrived at a sea of flowers.

In the sea of flowers, a semi-illusory flower was about to bloom, its vibrant fragrance spreading, as if enveloping the entire valley.

Moreover, the flower displayed intricate patterns and emitted a golden glow, presenting a noble aura.

It was the Eternal Flower!

“This is it, the Eternal Flower. And by the looks of it, it will only be a few years until it blooms. With our Pill Tower’s secret techniques, we can make it bloom within a month!” Fairy Qinghan excitedly said.

“That creature is still asleep; Fairy Qinghan, you start catalyzing the Eternal Flower.” Ye Tian urged.

He wasn’t afraid of the creature, but there was no need to engage in battle unnecessarily.

If they could safely allow Fairy Qinghan to obtain the Eternal Flower, why bother troubling themselves with the Devouring Beast?

“Alright!” Fairy Qinghan nodded.

In fact, she also sensed the oppressive aura, undoubtedly belonging to a very terrifying creature.

However, she dared not use her divine sense to explore, lest she disturb it.

Immediately, Fairy Qinghan set up an array and used a secret technique to begin catalyzing the Eternal Flower.

This catalyzation method was without side effects, a closely guarded secret of the Pill Tower.

Actually, Ye Tian had a way to accelerate the growth of the Eternal Flower using his Time Talent, but since Fairy Qinghan had her own method, there was no need for him to intervene. Time slowly passed, and the Eternal Flower rapidly matured, drawing ever closer to its blooming day.

During this time, Ye Tian strolled around the valley and unexpectedly found a few Purple Sandalwood Flowers. Although they were far from the required amount, it was still a gain and not a waste of time.

Half a month later, on this particular day.

Ye Tian sensed that the Devouring Beast deep within the valley was about to awaken, as its aura began to permeate the entire valley.

“Prince of Ten Thousand Laws, has that creature awakened?” Fairy Qinghan trembled.

“Correct!” Ye Tian nodded.

Boom! Suddenly, the sky darkened, and a sinister aura enveloped the valley.

The Devouring Beast had arrived! The valley was now its territory, and to it, Ye Tian and his companions were intruders.

Naturally, the Devouring Beast was immensely furious upon encountering intruders.

Suddenly, a massive black hole appeared in the sky, swallowing everything in its path.

Fairy Qinghan and about a dozen God level guards seemed unable to resist being pulled into the black hole.

“Devouring Divine Ability, and it’s at the Perfected Realm!”

Ye Tian was somewhat surprised.

Divine abilities were difficult to master, especially in a place like the Nether Flower Realm. Yet, this Devouring Beast had managed to cultivate a Devouring Divine Ability to the Perfected Realm. In terms of combat power, this Devouring Beast was definitely not inferior to an ordinary Child of the Universe at the True God level.

If it were to cultivate further in the Divine Canons, it might even have a chance to become a Peak or even an Eternal Child of the Universe.

To the Devouring Beast, Fairy Qinghan and her guards were no more significant than ants, terribly weak.

“Prince of Ten Thousand Laws, save me!” Fairy Qinghan panicked.

She felt utterly powerless against the Devouring Beast, and even when using her life-saving items, she couldn’t escape the pull of the Devouring Divine Ability.

At that moment.

Ye Tian waved his hand, instantly moving Fairy Qinghan and the others to his side, and then he struck the center of the Devouring Divine Ability with his saber, breaking it open.

“Courting death!”

Ye Tian activated various defensive measures, even deploying the Primordial Scales Armor secret technique, practically going full force.

If the Devouring Beast had not been skilled in divine abilities, he wouldn’t have cared.

But this beast was not only skilled in divine abilities but had also mastered the Perfected Realm of Devouring Divine Ability, and its cultivation was comparable to the Great God level. This made the Devouring Beast exceptional in other aspects too, and if Ye Tian were not serious, he might not lose, but it would be easy for the beast to exploit any weaknesses and harm Fairy Qinghan and the others.

Fairy Qinghan and her companions were too weak to withstand even a casual strike from the Devouring Beast.

Therefore, he absolutely could not give the Devouring Beast any opportunity.

“Five Elements Divine Wheel!”

“Spatial Imprisonment!”

“Temporal Stasis!”

“Thousand Realms Barrier!”

He deployed several suppressive techniques in quick succession, causing the Devouring Beast’s movements to slow significantly.

Seizing this opportunity, Ye Tian unleashed the Spear of Hellish Void, piercing it fiercely.

With a splurt, the Spear of Hellish Void penetrated the Devouring Beast’s body, then exploded inside it.

Although the Devouring Beast managed to devour part of the Spear of Hellish Void’s power, it was still severely injured by it.

Then, Ye Tian continuously unleashed the Heavenly Moon Saber Ultimate Technique, inflicting heavy injuries on the Devouring Beast.

However, the Devouring Beast’s devouring talent allowed it to absorb the surrounding life force to heal its injuries, somewhat like the Blood Devouring Talent, but even more terrifying.

Even so, the Devouring Beast could not recover quickly enough from its injuries to withstand Ye Tian’s onslaught.

Soon, the Devouring Beast’s aura began to wane, and it even started to feel fear.

“Human, I surrender, stop attacking!” The Devouring Beast spoke.

“Surrender? You attacked us first, why should I spare you?” Ye Tian retorted.

“You came into my home; I only attacked because of that!” The Devouring Beast argued.

“Survival of the fittest. You’re weaker, and I hold dominion. Why should I let you go without any benefit?” Ye Tian coldly laughed.

Boom, boom, boom! With successive attacks, the Devouring Beast neared death, unable to escape.

Ye Tian possessed both Time and Spatial Talents, and there were hardly any creatures that could escape him if they were weaker.

“Human, I have a great opportunity to tell you, and I am willing to acknowledge you as my master, please don’t kill me!”

The Devouring Beast finally submitted, hurriedly speaking.

Upon hearing about a great opportunity, Ye Tian stopped his attacks.

Had it been any other creature mentioning a great opportunity, he might not have believed it, but he found the Devouring Beast’s words highly credible.

Without such an opportunity, this Devouring Beast could not possibly have grown to its current level in a place like the Nether Flower Realm.

“First, acknowledge your master!” Ye Tian commanded.

Then, the Devouring Beast obediently completed the ritual to recognize its master, becoming Ye Tian’s pet.

Nearby.

Fairy Qinghan and the others were flabbergasted by this swift change.

Just moments ago, they were in a life-and-death battle, and now, such a terrifying creature as the Devouring Beast had become Ye Tian's pet.

At this moment, Fairy Qinghan also had a basic assessment of Ye Tian's strength.

"He's incredibly strong. Even the strongest successor disciple of the Pill Tower is no match for Prince of Ten Thousand Laws!" Fairy Qinghan thought to herself.
