Chapter 581: Clearing Eight Finger Mountain, Rich Harvest!

The battle between Ye Tian and the Devouring Beast had ended, and the Eternal Flower remained unaffected. The Eternal Flower possessed its own protective powers, and Ye Tian had deliberately avoided the area where the Eternal Flower was located.

Thus, the Eternal Flower was not destroyed.

After the Devouring Beast acknowledged its master, Ye Tian asked it to stand aside.

He was not in a hurry to inquire about the so-called great opportunity, deciding to wait until the Fairy Qinghan successfully obtained the Eternal Flower.

Several days passed, and the Eternal Flower finally bloomed completely.

Upon blooming, Fairy Qinghan carefully plucked the Eternal Flower and immediately began to refine it on the spot.

Soon.

The Eternal Flower was completely refined by Fairy Qinghan, making her skin even more delicate and moist, and her aura became even more intense, enhancing her charm beyond her previous state.

However, the true effect of the Eternal Flower was eternal youth; no matter how old Fairy Qinghan would become in the future, even at the limit of her lifespan, she would still maintain such beauty.

“It worked!” Fairy Qinghan was very surprised.

At that moment, Ye Tian urged, “Fairy Qinghan, now that you have refined the Eternal Flower, we should go and collect the Purple Sandalwood Flowers and Golden Bone Tree Leaves!”

“Alright, I happen to know a place where many Purple Sandalwood Flowers and Golden Bone Tree Leaves have emerged. However, it’s a very dangerous place, so although the disciples of the Pill Tower know of this place, few dare to go there. The stock of Purple Sandalwood Flowers and Golden Bone Tree Leaves there should be plentiful,” said Fairy Qinghan.

“Let’s go there then!” agreed Ye Tian.

Led by Fairy Qinghan, Ye Tian arrived at a place called Eight Finger Mountain in the Nether Flower Realm.

Eight Finger Mountain was formed by the merging of eight large mountains, resembling the eight fingers of a human hand, hence its name.

On Eight Finger Mountain, there were many powerful True God level creatures, as well as an extremely terrifying species—the Five-Poison Emperor Bees, all of whom were True God level creatures, and their numbers were too great.

Due to the presence of the Five-Poison Emperor Bees, people from the Pill Tower dared not enter, fearing being discovered by the bees. Once the Five-Poison Emperor Bees attacked, it was overwhelming, and even inheritors of the Dao could not escape.

If it were not for Ye Tian’s immense strength, Fairy Qinghan would not have dared to suggest that Ye Tian come here.

At the base of Eight Finger Mountain.

Ye Tian and his companions stood there, not entering rashly.

“Prince of Ten Thousand Laws, there are too many True God level creatures here, we should be careful!” Fairy Qinghan warned.

“Mm, I can sense it. There are indeed many True God level creatures here, and I can also smell the fragrance of the Purple Sandalwood Flowers. Clearly, there are many of them here. If we take away the Purple Sandalwood Flowers and Golden Bone Tree Leaves from here, we probably won’t need to go anywhere else,” Ye Tian muttered.

“You all wait here; I’ll go in alone. Otherwise, with so many True God level creatures, I might not have time to protect you all,” Ye Tian proposed.

“Alright!” Fairy Qinghan nodded, understanding that their own strengths were too weak to be of any help to Ye Tian and would only be a burden instead.

“Master, should I also help?” asked the Devouring Beast.

“Come with me,” nodded Ye Tian.

The Devouring Beast was not weak, and with its strength, there should be no True God level creature capable of killing it. Allowing the Devouring Beast to enter could help deal with the True God level creatures more quickly.

Whoosh! Ye Tian and the Devouring Beast teleported inside, and as soon as they entered one of the mountains of Eight Finger Mountain, the aura of several True God level creatures rapidly surged towards them.

“Roar Roar Roar!!!”

About a dozen True God level creatures approached, most of them being ninth-tier True God level creatures.

“Die!”

Ye Tian unleashed the Chaos Palm, easily crushing one True God level creature after another.

Next, Ye Tian began to sweep through the True God level creatures on each mountain and soon attracted the attention of the Five-Poison Emperor Bees.

Buzzing!!! From the void, tens of thousands of Five-Poison Emperor Bees swarmed in, each at least at the first tier of True God level, with many at the ninth tier.

With so many Five-Poison Emperor Bees attacking at once, even an extremely powerful inheritor would struggle to withstand them and would surely be overwhelmed and killed.

“Master, let me help you!”

The Devouring Beast volunteered, immediately opening its massive mouth to unleash its Devouring Divine Ability.

Instantly, several of the Five-Poison Emperor Bees were swallowed by the Devouring Beast, but after devouring a few hundred, it reached its limit and could no longer continue.

“Master, I can’t do it anymore!” the Devouring Beast hurriedly said.

It dared not use its Devouring Divine Ability anymore, and although it could face any of the Five-Poison Emperor Bees without fear, it would still be killed if so many attacked it at once.

“Primordial Vines!”

“Primordial Scales Armor!”

“Phantom Gold Thread Divine Ability!”

“Five Elements Divine Wheel!”

Ye Tian deployed one technique after another, unleashing several area-of-effect attacks, slaughtering a large number of the Five-Poison Emperor Bees.

Numerous bodies of the Five-Poison Emperor Bees fell from the sky, almost covering the ground.

As time passed, the number of Five-Poison Emperor Bees dwindled, while Ye Tian’s fighting strength showed no signs of weakening.

He possessed the power of the Ancient Chaos Realm, his energy nearly inexhaustible, so no matter how many Five-Poison Emperor Bees there were, they couldn’t overpower him; they were only being wiped out one by one.

Before long, the Five-Poison Emperor Bee swarm collapsed, attempting to flee, but they were trapped by Ye Tian’s Myriad Layers Realm and subsequently harvested, completely annihilated.

After clearing out the True God level creatures of Eight Finger Mountain, Ye Tian allowed Fairy Qinghan and the others to enter the area.

Fairy Qinghan and the others entered Eight Finger Mountain and were stunned to see the ground littered with the bodies of True God level creatures.

“So many True God level creatures!” Fairy Qinghan was incredibly surprised, knowing she would have died immediately had she come in alone.

“Let’s collect the Purple Sandalwood Flowers now!” Ye Tian said.

“Okay!” nodded Fairy Qinghan.

With no more threats from True God level creatures, collecting the Purple Sandalwood Flowers became much easier for Ye Tian and Fairy Qinghan, and there were plenty of them on Eight Finger Mountain.

In less than a day, Ye Tian collected 872 Purple Sandalwood Flowers, and Fairy Qinghan and the others gathered nearly 20,000.

At the same time, Ye Tian and his group discovered three Golden Bone Trees and harvested about 50,000 Golden Bone Tree leaves.

This was their total harvest. “Prince of Ten Thousand Laws, we’ll take just ten percent of these Purple Sandalwood Flowers and Golden Bone Tree leaves; the rest are yours,” Fairy Qinghan suggested.

“Thank you very much!” Ye Tian was not one to feign modesty. He indeed needed the Purple Sandalwood Flowers and Golden Bone Tree leaves to obtain more Immortal Golden Pills.

After all, these Purple Sandalwood Flowers and Golden Bone Tree leaves would go to the Pill Tower, and Fairy Qinghan was only losing some of the tower’s rewards, and given her father’s status, she did not lack for such rewards.

After distributing the Purple Sandalwood Flowers and Golden Bone Tree leaves, Ye Tian personally escorted Fairy Qinghan and the others out of the Nether Flower Realm, as he still had his own tasks to complete and could no longer protect Fairy Qinghan.

And with her mission completed, there was no need for Fairy Qinghan to stay in the Nether Flower Realm any longer.

Returning to the initial entrance of the Nether Flower Realm, Ye Tian watched as Fairy Qinghan and her divine guards all exited through the spatial passage, and then he felt relieved.

“Devouring Beast, what is the great opportunity you mentioned? Tell me!” Ye Tian turned to ask the Devouring Beast.

Chapter 582: The Nectar of the Sea of Death Flowers!

The Devouring Beast had already become Ye Tian’s pet, and naturally, he did not dare to hide anything from Ye Tian. He quickly spoke up, “Master, we Devouring Beasts possess inherited memories, and I have obtained the inherited memories of the Devouring Beast clan. These memories include many divine abilities and secret techniques. However, my current strength is also related to a great opportunity in the Nether Flower Realm, specifically the Sea of Death Flowers in the Nether Flower Realm!”

“The Sea of Death Flowers?”

Ye Tian had not heard of this place before and asked, “Is there something special about this place?”

The Devouring Beast explained, “Master, the Sea of Death Flowers is an ocean formed by a plant called the Flower of Death. The Flowers of Death also possess the power to devour, and any creature that enters the Sea of Death Flowers will be devoured by these flowers.

Since I possess the divine ability of devouring, I am not afraid of the Sea of Death, but I only dared to roam around the outskirts of the Sea of Death Flowers.

Many years ago, I entered the Sea of Death Flowers and was shocked to discover that some Flowers of Death could condense a type of nectar that is incredibly precious.

This nectar has the effect of tempering the divine soul. The reason my divine soul was able to advance to the level of a Great God was due to the assistive effects of that nectar.

Moreover, the nectar can also enhance one's comprehension."

"What, it can temper the divine soul and also increase comprehension!" Ye Tian was astounded. Such a treasure would be extremely rare in the outside world, and even more so for something effective for True Gods, making it even more precious.

Ye Tian was currently only at the God level, and without a doubt, that nectar would also definitely be beneficial to him.

From ancient times to the present, only those at the God level could enter the Nether Flower Realm, and with the Sea of Death Flowers being so dangerous, the Pill Tower would definitely not allow anyone to enter the Sea of Death Flowers; it was suicidal behavior.

Thus, Ye Tian was certain that the Pill Tower was not aware of the secret of the Sea of Death Flowers.

If it weren't for subduing the Devouring Beast, Ye Tian would also have been unable to learn the secret of the Sea of Death Flowers.

The universe was incredibly vast, and often, a small place could give birth to incredibly precious treasures, such as the Sea of Death Flowers in the Nether Flower Realm.

"An opportunity, definitely a major opportunity!" Ye Tian said excitedly.

"Let's go, take me there!" Ye Tian commanded.

"Yes!" The Devouring Beast responded.

Swish, swish! Ye Tian and the Devouring Beast hurried toward the Sea of Death Flowers.

Along the way, they occasionally encountered some Purple Sandalwood Flowers, but Ye Tian was too lazy to pick them.

He no longer lacked Purple Sandalwood Flowers; what he truly wanted was the nectar from the Sea of Death Flowers—that was the treasure he currently desired the most.

After traveling for a few days, Ye Tian and the Devouring Beast finally arrived at the vast expanse of the Sea of Death Flowers.

“Master, this is the Sea of Death Flowers!” The Devouring Beast introduced.

Ye Tian stared at the Flowers of Death for a moment; these flowers had sharp serrated edges and were constantly swaying, their mouths opening and closing as if they were breathing.

And Ye Tian noticed some clear liquid substances inside certain flowers, undoubtedly the nectar.

“Plant life!” Ye Tian murmured.

He then used his talent copying ability to examine the closest Flower of Death to him and actually managed to see its talent situation.

Species: Flower of Death

Bloodline Talent: Desolate level

Strength Talent: Top-tier

Speed Talent: Top-tier

Defense Talent: Top-tier

Devouring Talent: Mystic

Damage Transfer Talent: God level

“Damage transfer talent, this talent is said to be possessed only by some special species, which can transfer damage to other members of their kind, thus negating the damage!” Ye Tian thought to himself.

If it were just an individual life, this talent would not be very useful.

But here, there were countless Flowers of Death. Once the damage was transferred, it was sufficient to distribute the lethal damage and thus ignore it.

From the Devouring Beast’s account, Ye Tian also understood that to deal with these Flowers of Death, one must uproot them and then devour them to kill them effectively; otherwise, even the strongest attacks would hardly kill a single Flower of Death.

Killing one Flower of Death was tantamount to killing countless Flowers of Death simultaneously, a feat not within Ye Tian’s capabilities—probably only those Universal Gods had the power to do so.

“Individual Flowers of Death are not strong, and I also possess the Devouring Talent, so the devouring power of these Flowers of Death cannot affect me; I can completely ignore these Flowers of Death!”

With this thought, Ye Tian flew into the Sea of Death Flowers, searching for the nectar.

At that moment, a large number of Flowers of Death unleashed their devouring power, attempting to devour Ye Tian, but their power was too weak to affect him.

However, the continuous disturbance from so many Flowers of Death was quite annoying to Ye Tian.

Therefore, Ye Tian deployed the Xumi Palm, instantly absorbing a bunch of Flowers of Death into the Xumi Storage Realm.

In the Xumi Storage Realm, Ye Tian instantly annihilated these Flowers of Death before they could connect with the external Flowers of Death.

In this way, this batch of Flowers of Death truly died.

As time passed, Ye Tian found quite a bit of nectar and easily collected it.

One day! Two days! Three days! In the blink of an eye, half a month had passed.

During this half month, Ye Tian had collected about eighty pounds of nectar.

Since the Devouring Beast needed to come here every so often to plunder the nectar, there wasn't much nectar left on the outskirts; that was all that remained.

"Devouring Beast, I want to go into the interior of the Sea of Death Flowers!" Ye Tian said.

"Ah, Master, the interior of the Sea of Death Flowers is very dangerous. I also dare not enter. If Master wants to go, please be careful!" the Devouring Beast cautioned.

"No worries, even if I encounter danger, if I want to escape, there's nothing that can stop me!" Ye Tian declared confidently.

Swish! Ye Tian constantly teleported, and soon he entered the interior of the Sea of Death Flowers.

The exterior Flowers of Death were yellow, but the interior ones were purple and more robust and tenacious.

In terms of cultivation, these purple Flowers of Death were all at the ninth stage of True God level, and they all possessed God-level Devouring Talents, with their other talents being equally strong.

With such numerous threatening purple Flowers of Death, the Devouring Beast naturally dared not step into this area, as it might not have been able to escape.

Fortunately, these Flowers of Death were dependent on the soil and had difficulty moving, otherwise, this species would undoubtedly be the most terrifying in the Nether Flower Realm, capable of sweeping through it.

Boom, boom!! The purple Flowers of Death released their devouring power, hoping to devour Ye Tian.

However, Ye Tian used his Spatial Talent to phase into space, completely ignoring the devouring efforts of the purple Flowers of Death.

Of course, he was not afraid of these purple Flowers of Death, but he did not want to engage them without any gain, as that would be pointless.

Ye Tian continued searching and soon discovered some purple nectar within a purple Flower of Death.

Instantly, Ye Tian made his move, quickly reaching through space with his right hand and grabbing the purple nectar from the flower, and the purple Flower of Death, in its rage, was utterly powerless against Ye Tian.

Just like that.

Ye Tian continued using this method, stealing the purple nectar from one purple Flower of Death after another.

Although these purple Flowers of Death were not highly intelligent, they quickly devised a strategy.

They completely closed their flower mouths, keeping the purple nectar entirely inside.

This made it difficult for Ye Tian to easily find and take the purple nectar.

Chapter 583: The Death Flower Emperor! Submit or Perish!

Upon seeing the purple flowers of death close their blossoms, Ye Tian decided to attack them forcefully. With his current strength, he did not fear these purple flowers of death.

However, this approach increased the difficulty of collecting the purple nectar and slowed down the process.

Nevertheless, faced with such a treasure as the purple nectar, Ye Tian was not the least bit impatient.

In the following days, Ye Tian continually clashed with the purple flowers of death. Unfortunately, the roots of the purple flowers of death were deeply embedded in the ground, making them difficult to absorb into the Xumi Storage Realm.

Therefore, Ye Tian found it hard to kill a purple flower of death or even to harm them, managing only to suppress these flowers.

When Ye Tian attacked these flowers, they had to open their blossoms to retaliate. This allowed Ye Tian to identify which of the purple flowers of death contained the purple nectar.

Thus, Ye Tian slowly collected the purple nectar.

Time passed, and half a year went by in a blink.

There were no explicit rules from the Pill Tower about how long one must stay in the Nether Flower Realm, but the spatial gateway would close after ten years. Thus, it was only necessary to leave the Nether Flower Realm within this ten-year period.

Ye Tian was not in a hurry.

Before he knew it, three years had passed.

Ye Tian did not know how many times he had battled the purple flowers of death over these three years, but the result was favorable—he had collected about thirty pounds of purple nectar.

Although this amount was not as much as regular nectar, its value far surpassed that of the ordinary kind.

Ye Tian wanted to collect more of the purple nectar, but unfortunately, the purple flowers of death that contained the nectar were few, and they were very well protected. He needed to fight repeatedly to identify which flowers had the nectar, thus making the search for it slow.

Moreover, since there were not many purple flowers of death in the sea of death flowers, collecting thirty pounds of purple nectar was already quite an achievement.

“It’s difficult to collect more purple nectar. It’s time to check out the core area of the sea of death flowers!”

Ye Tian muttered to himself.

The core area of the sea of death flowers was small, enveloped in a thin layer of purple mist, which made it difficult for divine consciousness to penetrate and see inside.

Concerned about potential dangers, Ye Tian had not ventured into the core area to explore.

Now that he had nearly finished collecting the purple nectar, he prepared to enter the core area of the sea of death flowers to take a look. If there were no significant findings, he planned to leave the Nether Flower Realm.

Whoosh! Ye Tian passed through the purple mist and entered the core area.

Before entering, Ye Tian had activated all his defensive measures, prepared for a battle.

However, he had not expected the core area to be completely safe.

There was only one blood-red flower of death here, and it showed no intention of attacking upon Ye Tian’s arrival.

“Check!”

Ye Tian used his copied talent to instantly understand the talents of this flower of death.

Type: Death Flower Emperor

Bloodline Talents: Universal level

Strength Talent: God level

Speed Talent: God level

Defense Talent: God level

Devouring Talent: God level

Damage transfer Talent: God level...

“The Death Flower Emperor, this flower must be the source of the sea, the king among flowers, even capable of controlling the entire sea of death flowers!” Ye Tian speculated.

At that moment, the Death Flower Emperor was emitting strands of pollen, spreading throughout the sea of death flowers.

Ye Tian looked and understood the use of this pollen.

The pollen was similar to seeds that could give birth to flowers of death.

He even checked the flowers of death he had destroyed; new flowers of death were already sprouting there, indicating that even if some were eradicated, the Death Flower Emperor could still cultivate a new batch.

It could even be said that the sea of death flowers was continuously expanding.

As for why the Death Flower Emperor did not attack Ye Tian, there was only one reason.

“It is wary of me, so it dares not attack rashly!” Ye Tian guessed.

If this was indeed the case, it indicated that the Death Flower Emperor possessed high intelligence.

Ye Tian stared at the Death Flower Emperor, pondering for a long time.

Finally, he made a decision—to subdue this Death Flower Emperor.

This Death Flower Emperor would be highly useful to him. If subdued, he could plant the Death Flower Emperor in his own Ancient Chaos Realm.

And Ye Tian had already copied the damage transfer talent; he simply hadn't fused it yet. Once he fused the damage transfer talent and subdued the Death Flower Emperor, he could transfer the damage to the flowers of death.

In this way, if he encountered an unstoppable enemy in the future, he could transfer the damage away, essentially making himself immortal.

The thought excited Ye Tian tremendously.

"The Death Flower Emperor must be subdued!" Ye Tian's eyes sparkled with determination as he spoke.

"Death Flower Emperor, stop pretending. I know you possess high intelligence. Submit to me, how about it?" Ye Tian spoke boldly.

A few seconds passed before the Death Flower Emperor finally spoke, "Human, you dream of subduing me? I am the Death Flower Emperor. You should be very clear, your attacks can be transferred away. You can hardly kill an ordinary purple flower of death, let alone kill me."

"Are you sure?" Ye Tian smirked coldly.

"I am very confident in my strength and talents. You can't do anything to me!" the Death Flower Emperor declared.

"Ah, I actually didn't want to use this talent, but if you won't submit, then I can't be blamed!" Ye Tian said as a green mist began to form in his hand, growing more intense.

"This is my God-level poison curse talent, capable of releasing various poisons and even curse poisons. Just a touch is enough to spread throughout the body. Can you transfer a curse poison as well? If you can, even better, as the entire sea of death flowers will be infected with the curse poison. Even if you can suppress the curse poison for a while, I can keep releasing it, and eventually, you won't be able to withstand it."

Having said that, Ye Tian launched his attack on the Death Flower Emperor.

Although the Death Flower Emperor was the sovereign of the sea of death flowers, its strength was only slightly greater than that of the ordinary purple flowers of death, roughly equivalent to a Devouring Beast. Such strength could not withstand Ye Tian, and he quickly inflicted damage.

Although the Death Flower Emperor transferred the damage away, Ye Tian's curse poison invaded its body.

Instantly, green spots appeared on a petal of the Death Flower Emperor and began to spread rapidly.

Immediately, the Death Flower Emperor noticed the curse poison and tried desperately to suppress it, attempting to extinguish it.

But soon, it became fearful! The curse poison could not be extinguished, although it was suppressed, it still spread throughout its body at a very slow rate.

With no other choice, it took drastic action.

Snap! The petal contaminated with the curse poison was severed by the Emperor and fell to the ground nearby.

Quickly, this piece of petal turned completely green, clearly overwhelmed by the curse poison.

"Cutting off the petal, a smart move. But if I keep applying the curse poison, are you going to keep cutting off petals until you eventually commit suicide?" Ye Tian asked.

"What must I do for you to spare me?" the voice of the Death Flower Emperor carried a slight plea.

"Submit to me, recognize me as your master, and I can take you away from the Nether Flower Realm. In the Nether Flower Realm, your cultivation cannot improve, and you will eventually face death. But if you leave the Nether Flower Realm, your cultivation can break free from its limits, and you might even have the chance to become an eternal Universal God.

Compared to that, you're merely giving up your freedom. Moreover, you're stuck here, unable to move, which is practically the same as having no freedom. So, recognizing me as your master, you lose nothing."

"Submit, or die. The choice is yours!" Ye Tian issued his final ultimatum.

Chapter 584: Celestial Soul Strength Increased Sevenfold!

The Death Flower Emperor remained silent for a while before finally submitting.

"Human, I am willing to recognize you as my master!" the Death Flower Emperor said reluctantly.

Unlike other flowers of death that do not fear dying, the Death Flower Emperor possessed high intelligence and feared death greatly. It did not wish to perish.

Moreover, Ye Tian had something that attracted it.

That was the ability of Ye Tian to take it out of the Nether Flower Realm. Currently at the peak of the True God level, it had been unable to ascend to the Great God level, and its lifespan could not be extended.

If it could leave the Nether Flower Realm, then it could strive to reach the Great God level or even higher realms.

In doing so, its lifespan could be continually extended.

Then, the Death Flower Emperor completed the master recognition ceremony, successfully recognizing Ye Tian as its master and becoming his plant pet.

"Master!" the Death Flower Emperor called out after recognizing its new master.

"I am going to transfer you to my Ancient Chaos Realm. Soon, I will lift this piece of land, so please cooperate with me to make the transfer to the Ancient Chaos Realm easier," Ye Tian instructed.

"Yes, Master!" the Death Flower Emperor responded.

Boom! The earth began to crack, and the area where the Death Flower Emperor resided started to crumble under the power of Ye Tian. The Death Flower Emperor cooperated by retracting its roots and attempting to detach from the area.

Soon, a piece of land resembling a floating island rose into the air with the Death Flower Emperor on it.

Next, Ye Tian began to absorb this floating island into the Ancient Chaos Realm.

Since the Death Flower Emperor did not resist, everything went smoothly.

Before long, the Death Flower Emperor, along with a large expanse of land, entered Ye Tian's Ancient Chaos Realm and merged into it, becoming a part of the realm.

"What about the Sea of Death Flowers?" Ye Tian asked.

"Master, let the kin of the Sea of Death Flowers remain in the Nether Flower Realm. Let them vanish over time in the Nether Flower Realm. I will reproduce a new batch of flowers of death in the Ancient Chaos Realm," the Death Flower Emperor replied.

"Alright," Ye Tian nodded.

The Sea of Death Flowers was vast, and countless flowers of death were rooted in that land. Transferring them individually into the Ancient Chaos Realm would be a colossal waste of time.

Moreover, with the Death Flower Emperor, he had no reason to worry about the number of flowers of death.

Once the Death Flower Emperor returned to the outside world, its cultivation could quickly break through to the Great God level. Then, as a Death Flower Emperor at the Great God level, cultivating a large number of flowers of death would be an easy task.

"Let's go!" Ye Tian flew out of the core area of the Sea of Death Flowers and arrived at the outskirts.

Seeing Ye Tian come out, the Devouring Beast followed and asked, “Master, how did it go?”

“We’ve achieved a lot, and now it’s time to leave this realm,” Ye Tian replied.

“Yes!” the Devouring Beast nodded.

Soon after.

Ye Tian left the Nether Flower Realm and returned to the Pill Tower.

Subsequently, Ye Tian handed over the collected Purple Sandalwood Flowers and Golden Bone Tree Leaves to a person in charge at the Pill Tower and then awaited the refining of the Immortal Golden Pills.

According to the agreement, Ye Tian was to receive approximately 16 Immortal Golden Pills, and with an additional pill promised by Ruler Yun Dan, that made a total of 17 Immortal Golden Pills.

With 17 Immortal Golden Pills, Ye Tian felt that it was sufficient.

As the refining of the Immortal Golden Pills would take some time, Ye Tian did not stay at the Pill Tower. He had his guardian, Dominator Dark, maintain contact with the Pill Tower so that once the Immortal Golden Pills were ready, they could be delivered through Dominator Dark.

Afterward, Ye Tian returned to the Supreme Hall of Humanity.

Upon returning, Ye Tian immediately entered a state of seclusion.

At this time, he took out some flower liquid.

Through his communication with the Death Flower Emperor, Ye Tian finally learned the true name of this substance—Soul Liquid! Soul Liquid was a magical substance condensed by the flowers of death. The more Soul Liquid gathered, the more it could condense into a Soul Pearl, which could help the flowers of death themselves increase their cultivation and break through limits.

For instance, an ordinary flower of death could use a Soul Pearl to break its limit and become a Purple Death Flower, and a Purple Death Flower could also enhance to a Red Death Flower through a large quantity of Soul Pearls.

Red Death Flowers were the closest to the Blood-red Death Flower Emperor, but to become a Red Death Flower required a long time that the lifespan of a True God level death flower could not achieve.

It was for this reason that the Sea of Death Flowers had never birthed a Red Death Flower.

Soul Liquid could temper the soul, but it had no such effect on the flowers of death themselves, only on other beings, which was a source of frustration for the flowers of death.

“Let’s try the effect of the ordinary Soul Liquid!” Ye Tian murmured.

He took a sip of the ordinary Soul Liquid, and a surge of energy entered his celestial soul, beginning to temper it.

His celestial soul, which was already nearly at the limit of the God level, began to experience an increase, becoming stronger and the rate of improvement was not slow.

“It really works!” Ye Tian exclaimed in surprise.

A stronger celestial soul would enhance comprehension, cultivation speed, and certain soul-related techniques.

Moreover, a powerful celestial soul also aided in breaking through bottlenecks.

All in all, the celestial soul was very important.

Ye Tian began consuming a large amount of ordinary Soul Liquid, and within a few months, he had used up all the ordinary Soul Liquid, successfully increasing his celestial soul’s strength by threefold.

A threefold increase might not seem much, but Ye Tian's celestial soul was already much stronger than those of other gods; a threefold increase was indeed significant.

"Let's try the Purple Soul Liquid!"

Ye Tian took a sip of the Purple Soul Liquid, and an even more potent energy surged into his celestial soul, tempering it with an even faster and more terrifying effect.

"At least ten times the tempering effect!" Ye Tian was incredibly excited.

Following that, Ye Tian continued to absorb the Purple Soul Liquid day by day, tempering his celestial soul. However, towards the end, it seemed that his celestial soul reached some sort of limit, and the difficulty of further improvement increased.

When the Purple Soul Liquid was also nearly depleted, Ye Tian checked and found that his celestial soul was now about eight times stronger than before he had started using the Soul Liquid.

An eightfold increase was a terrifying enhancement!

"Good, once the Death Flower Emperor's cultivation increases and it cultivates more high-level flowers of death, more and higher-quality Soul Liquid will be produced. Even after I reach the True God level and the Great God level, I can still use Soul Liquid to enhance my celestial soul strength!" Ye Tian thought to himself.

After the eightfold increase in strength, Ye Tian felt that his understanding of laws and the effects of divine abilities had improved a lot, and the power of his soul attacks had increased many times, enhancing his overall strength significantly.

All in all, this was a significant gain.

But the biggest gain was still the Death Flower Emperor. With the Death Flower Emperor, it would be difficult for Ye Tian to die in the future.

He checked the progress of the Death Flower Emperor. It had now successfully broken through to the Great God level and had cultivated a batch of flowers of death, forming a small Sea of Death Flowers in the Ancient Chaos Realm.

At this rate, it wouldn't be long before the Sea of Death Flowers could grow in size, and Ye Tian could use it to transfer damage.

That day.

While Ye Tian was in the midst of cultivating, Dominator Dark brought news that the Pill Tower had completed the first batch of Immortal Golden Pills, and soon his 17 Immortal Golden Pills would be delivered.

A few extra chapters since my site was down for almost a day! Sorry everyone! Thank you for your patience!

Chapter 585: The Lands of Thousand Weak Waters and Thousand Heavy Waters!

"The Immortal Golden Pill has been refined!" Ye Tian was overjoyed; this news was truly exciting.

Once he obtained the Immortal Golden Pill, he could proceed with his next plan.

Soon after, Dominator Dark returned and handed over seventeen jade vials containing the Immortal Golden Pills to Ye Tian.

"Dominator Dark, how is the matter with the Blue Water Realm going?" Ye Tian asked.

He had previously asked Dominator Dark to handle the Blue Water Realm affair, to negotiate with the Divine Blade Alliance and allow him to cultivate there. The Blue Water Realm, which contained both the Thousand Weak Waters and the Thousand Heavy Waters, was the perfect place for cultivation, fully capable of allowing him to reach the fourth level of the Heavenly Origin True Method.

However, the value of the Thousand Weak Waters and the Thousand Heavy Waters was immense, and even galaxy-level powers coveted them. Consequently, the Divine Blade Alliance tightly controlled access to the Blue Water Realm, reluctant to allow outsiders in for fear of theft of these rare water attribute treasures.

For most people, gaining entry to the Blue Water Realm was an impossible hope.

However, although the Divine Blade Alliance was one of the nine supreme-level forces, its structure and management style were entirely different from other supreme forces. It was a loosely organized force with minimal restrictions, operating on a basis of equivalent exchange. Many lone cultivators who were reluctant to join other supreme forces chose to join the Divine Blade Alliance.

The Divine Blade Alliance also issued tasks for its members to undertake, and completing these tasks would earn them remarkable rewards.

Because of its lax management and trade-based operations, as long as a certain price was paid, one could still gain entry to the Blue Water Realm. This time, Dominator Dark had negotiated with a high-level member of the Divine Blade Alliance who managed the Blue Water Realm.

“Your Highness, I spoke with the Golden Saber Sovereign of the Divine Blade Alliance,” Dominator Dark reported. “After some negotiation, the Divine Blade Alliance has agreed to allow Your Highness to enter the Blue Water Realm under two conditions.

The first condition is that Your Highness must swear not to take any treasures from the Blue Water Realm. The second condition is for Your Highness to provide a slot in the Six Paths Reincarnation Pagoda.

Besides, Your Highness will need to pay a fee of one million Divine Crystals to enter the Blue Water Realm. Even members of the Divine Blade Alliance themselves have to pay this fee when entering, as the Alliance incurred significant costs in constructing the realm.”

“Agreed, I accept these terms!” Ye Tian nodded.

The first condition, though it involved making a vow, was quite normal. The Divine Blade Alliance was naturally concerned that someone might secretly take some water attribute treasures, such as the Thousand Weak Waters and Thousand Heavy Waters, which would be a significant loss.

As for the second condition, it wasn’t much of an issue. The Six Paths Reincarnation Pagoda was a pinnacle supreme treasure. Even within the Supreme Hall of Humanity, it was difficult to obtain such an opportunity, and though the Divine Blade Alliance was a supreme force, it couldn’t secure a slot on its own.

Since the Six Paths Reincarnation Pagoda was brought back by Ye Tian, who had certain permissions, providing the Divine Blade Alliance with a slot was a simple matter that the Supreme Hall of Humanity would not refuse.

In conclusion, these two conditions were manageable for Ye Tian. Afterwards, Dominator Dark went to respond to the Divine Blade Alliance.

The Divine Blade Alliance promised that Ye Tian could enter the Blue Water Realm for cultivation at any time without restriction.

On this day.

Led by Dominator Dark, Ye Tian arrived at the agreed location, completed the transaction, and then took a token from the Divine Blade Alliance to proceed to the Blue Water Realm.

The Blue Water Realm was located in the same galaxy as the Divine Blade Alliance, situated along a river of stars.

A river of stars is a common celestial feature in the universe, a river that traverses the cosmos. However, the space surrounding a river of stars is unstable, and even gods typically do not dare approach it closely, lest they be swallowed by the star river.

In the star river, the force of the water was formidable, and even gods could be crushed into nothingness if they were not careful. An ordinary god, if swallowed by the star river, would surely perish.

However, Ye Tian was undaunted by the star river. He arrived outside the star river where the Blue Water Realm was located and promptly stepped into it.

Boom! The surging waters of the star river stirred the cosmos, imposing certain pressure on Ye Tian, but he countered this force with his own strength.

Atop this star river was a massive altar, which served as the gateway to the Blue Water Realm.

Around the altar, numerous fortresses had been constructed, hosting a large number of the Divine Blade Alliance's powerhouses, including Dominators stationed here to prevent the Blue Water Realm from being invaded by external enemies.

Ye Tian arrived there, presented his credential, and smoothly entered the altar.

Immediately, a Galaxy-level powerhouse opened the portal for Ye Tian.

“Prince of Ten Thousand Laws, keep this credential. Once you wish to leave the Blue Water Realm, activate this credential,” the Galaxy-level powerhouse advised.

“Understood!” Ye Tian put away the credential and entered the spatial portal.

The Blue Water Realm.

Ye Tian stood on a vast land, surveying his surroundings.

This place was somewhat different from what he had imagined. Apart from the pervasive yuan qi of water in the air, other aspects seemed no different from a normal world.

He had thought that this place would be filled with water everywhere, but it seemed he was mistaken.

“That makes sense, if it were all water, then various water attribute cultivation sites would be too chaotic,” Ye Tian chuckled.

Next, Ye Tian began searching for the Thousand Weak Waters and the Thousand Heavy Waters he needed.

Before long, Ye Tian discovered a cultivation treasure land, though it was not the place of the Thousand Weak Waters or the Thousand Heavy Waters, but rather a cultivation site containing unimaginable water yuan qi. Here, the cultivation speed for water attribute cultivators was dozens or even hundreds of times faster than in the outside world.

Ye Tian continued flying, discovering various water attribute treasure sites, but none were the ones he sought.

After half a day.

Ye Tian arrived at a small lake. Sensing the water, he was instantly overjoyed.

“The power of weak water, could it be...”

Ye Tian tested the waters; almost instantly upon touching the lake, his hand was corroded, and a force pulled him toward the lakebed.

Weak water possessed a terrifying corrosive power, and once one sank into it, it was very difficult to rise back to the surface.

The weak water here was exactly like the Thousand Weak Waters he had envisioned. He was now certain, this indeed was a lake of Thousand Weak Waters.

Ye Tian marked this location, then left to continue searching for the Thousand Heavy Waters.

If he were to reach the fourth level of the Heavenly Origin True Method, he needed to refine both the Thousand Weak Waters and the Thousand Heavy Waters within a short period. It would be too time-consuming and risky to refine the Thousand Weak Waters first and then slowly search for the Thousand Heavy Waters; such a delay could jeopardize his advancement.

After spending about half a day more, Ye Tian finally found a small river of Thousand Heavy Waters. Although the river was small, the water within was indeed Thousand Heavy Waters, each drop as heavy as a mountain.

Having found both the Thousand Weak Waters and the Thousand Heavy Waters, and with the Immortal Golden Pill in hand, there were no significant obstacles left for Ye Tian to reach the fourth level of the Heavenly Origin True Method.

Thus, Ye Tian prepared to make his breakthrough to the fourth level of the Heavenly Origin True Method.

Chapter 586: The Universe's First Child of the Era!

Within the multitudinous depths of the Thousand Heavy Waters Rivers.

Before entering the Thousand Heavy Waters, Ye Tian had swallowed an Immortal Golden Pill. Had he not taken the Immortal Golden Pill, once he entered the Thousand Heavy Waters, he would have been crushed into dust by the immense pressure, and not even his Undying Talent or Healing Talent could have saved his life.

Only under the protection of the Immortal Golden Pill could he survive in the Thousand Heavy Waters and commence the cultivation of the fourth level of the Heavenly Origin True Method.

Ye Tian swallowed an Immortal Golden Pill and activated all his talents such as the Undying and Healing Talents before stepping into the flow of the Thousand Heavy Waters.

As soon as he entered, an unimaginable pressure surged, seemingly ready to crush Ye Tian into dust instantly. However, at that moment, various talents and the power of the Immortal Golden Pill emerged, protecting Ye Tian and preventing his celestial body from collapsing.

By then, the power of the Immortal Golden Pill was rapidly depleting, and at this rate of consumption, it could last no more than a day.

“Cultivate the fourth level of the Heavenly Origin True Method!”

Ye Tian hurriedly operated the cultivation method of the Heavenly Origin True Method, beginning to absorb the power of the Thousand Heavy Waters and condensing the Thousand Heavy Waters Mark inside his body, a necessary step in his cultivation.

Soon, a day passed, yet Ye Tian had still not condensed the Thousand Heavy Waters Mark, so he swallowed another Immortal Golden Pill.

Thus, day after day passed, and it took about six days for Ye Tian to finally manage to condense the Thousand Heavy Waters Mark.

“Quickly proceed to the Thousand Weak Waters!”

Ye Tian burst out from the Thousand Heavy Waters Rivers and headed toward the Thousand Weak Waters.

Before long, he arrived at the lake of the Thousand Weak Waters and entered the waters at the edge of the lake.

In the Thousand Weak Waters, Ye Tian's body corroded at an extremely rapid rate, but the power of the Immortal Golden Pill protected him, allowing his body to quickly recover.

Corrosion, recovery, then corrosion again, and recovery... Ye Tian's body was constantly in this cycle, but overall, he suffered no significant harm.

“Hurry and cultivate!”

Ye Tian operated the fourth level of the Heavenly Origin True Method, starting to absorb the power of the Thousand Weak Waters in an attempt to condense the Thousand Weak Waters Mark.

Only by gathering both the Thousand Heavy Waters Mark and the Thousand Weak Waters Mark could he truly transform his body to reach the fourth level of the Heavenly Origin True Method.

The body corresponding to the fourth level of the Heavenly Origin True Method was known as the Heavenly Origin Indestructible Body, possessing an eternal lifespan, which meant a lifespan parallel to that of the universe. However, if the universe were to perish, even with the Heavenly Origin Indestructible Body, one would still die.

Therefore, the lifespan granted by the fourth level of the Heavenly Origin True Method was merely equivalent to a universal era and could not transcend the universe to achieve a lifespan beyond an era.

Cultivating in the Thousand Weak Waters was excruciatingly painful, but for a lifespan comparable to that of a Universal God, Ye Tian had to endure it.

One by one, the Immortal Golden Pills were consumed, and after using about eight, Ye Tian finally condensed the Thousand Weak Waters Mark.

At that moment, Ye Tian possessed both the Thousand Heavy Waters Mark and the Thousand Weak Waters Mark.

The next crucial step was to merge the Thousand Weak Waters Mark with the Thousand Heavy Waters Mark, thereby forming the Heavenly Origin True Water, and using it to cleanse his entire body and forge the Heavenly Origin Indestructible Body, possessing a nearly eternal lifespan.

“Begin!”

Ye Tian activated the Thousand Weak Waters Mark and the Thousand Heavy Waters Mark, allowing them to slowly merge.

Boom!!! The Thousand Heavy Waters Mark and the Thousand Weak Waters Mark merged, and the transformation began.

At that moment, Ye Tian’s robust physique seemed on the verge of shattering, forcing him to swallow another Immortal Golden Pill.

Time gradually passed, and the transformation became more intense.

After nearly two days, the Thousand Weak Waters Mark and the Thousand Heavy Waters Mark achieved a perfect fusion, gradually forming an almost void-like drop of water within his body.

This drop was the Heavenly Origin True Water! When Ye Tian activated the fourth level of the Heavenly Origin True Method, the true water exploded, enveloping Ye Tian in a vast amount of water and encasing him in a water orb.

The true transformation began! At this point, wrapped in the Heavenly Origin True Water, Ye Tian’s body gradually altered its constitution, evolving towards the Heavenly Origin Indestructible Body. Once the evolution succeeded, he would possess a lifespan equal to that of a Universal God, nearly immortal unless the universe itself was destroyed.

Then, he would no longer need to worry about his lifespan, and even techniques involving time would have little effect on him.

After an indeterminate amount of time, Ye Tian finally succeeded in his transformation, evolving from a third-tier life form to a fourth-tier life form.

At the moment of successful transformation, an undying golden light emanated around Ye Tian.

Undying golden light was a phenomenon that appeared only when a Galaxy-level powerhouse attempted to break through to a Universal God, also recognized as one of the unique signs of eternal life.

And now, Ye Tian too was considered one of the eternal life forms, a fourth-tier life form.

With a thought, Ye Tian retracted the undying golden light.

Through his divine consciousness, he clearly saw that countless cells within his body contained undying light, signifying his eternal immortality.

Having become a fourth-tier life form, Ye Tian felt an emptiness inside, far from reaching the limits of a god.

His celestial force, celestial body, and celestial soul still had tremendous room for improvement.

“First, let’s go back. In case the breakthrough to the Child of the Era causes a significant phenomenon, it would be too dangerous to stay here!” Ye Tian thought to himself.

Thus, Ye Tian left the Blue Water Realm and returned to the Mysterious Region of the Supreme Hall of Humanity.

Upon his return, the first thing Ye Tian did was to instruct Dominator Dark to send a message to Kunwu Supreme, informing him that he was about to attempt a breakthrough to a new realm, and to ask the Supremes to suppress any extraordinary phenomena that might arise.

After making these arrangements, Ye Tian entered a state of seclusion.

In the Mysterious Region, within the infinite void, Kunwu Supreme, Qing Emperor Supreme, and Curse Supreme gathered, their gazes fixed intently on the cultivation tower where Ye Tian was in seclusion.

“Kunwu Supreme, Ye Tian said he is attempting a breakthrough to a new level. What does this mean? If it’s just a True God level, it would only involve a Thunder Tribulation. Hiding somewhere to transcend the tribulation wouldn’t cause any trouble. Why ask you to suppress the phenomena?” Qing Emperor Supreme asked curiously.

Kunwu Supreme replied, “I suspect he is attempting to break through to a realm above the Supreme level. From what I understand, Ye Tian has already reached the pinnacle of Supreme-level combat power. Beyond that is... breaking the limits of Supreme-level combat power.”

“Isn’t Supreme-level combat power the highest within a tier? Are there other levels above it?” Curse Supreme asked curiously.

“Of course, there are. Have you forgotten about the Hall of Primordial Ancestry? Even a Supreme-level being wouldn’t dare to challenge the heaven-defying difficulty; it would almost certainly result in death. Moreover, according to some records from the Hall of Primordial Ancestry, Supreme-level is only the limit of our universe era, not the limit of all universe eras. Above the Supreme-level combat power, there are even more terrifying levels of power! I once came across a name in a mysterious ancient relic inheritance—Child of the Era! It is said that a Child of the Era is a terrifying genius rarely born even in an entire universe era!” Kunwu Supreme mentioned.

“Child of the Era! Kunwu Supreme, are you saying Ye Tian is attempting to become a Child of the Era!!!” Qing Emperor Supreme was shocked.

“That’s a possibility!” Kunwu Supreme nodded. “If that’s the case, Ye Tian’s potential in the future is unimaginable!”

Qing Emperor Supreme and Curse Supreme nodded repeatedly, filled with anticipation for Ye Tian’s breakthrough.

Inside the cultivation tower.

Ye Tian continuously enhanced the total amount of his celestial force and compressed the enhanced celestial force. He also utilized the third and fourth sets of movements from the Eighteen Golden Bodies Technique to further strengthen his physical body and continued to temper his celestial soul with soul fluid.

In short, Ye Tian spared no effort in elevating himself to the peak limit of God-level.

The peak of a fourth-tier life form far exceeded ordinary expectations.

Every moment, Ye Tian's power was growing.

Suddenly, at a certain moment.

It seemed as if Ye Tian had broken through some limit, his consciousness as if entering into a void, overlooking the entire Mysterious Region, the entire Supreme Hall of Humanity, the entire Sacred Realm of Humanity, and even all of humanity.

Time passed unknowingly, and Ye Tian seemed to enter a god-like mode, looking down upon countless regions of the universe with a supreme gaze.

However, soon after, Ye Tian's consciousness returned to his body.

At the same time, Ye Tian's body emitted endless golden light, illuminating the entire Mysterious Region and gradually shining beyond the Supreme Hall of Humanity.

"Not good!"

In the infinite void, Kunwu Supreme's expression changed slightly.

Ye Tian's phenomenon was too astonishing; in just an instant, it spread throughout the entire Supreme Hall of Humanity, and even secret places couldn't stop the golden light. If it continued to shine like this, wouldn't it reach even the Sacred Realm of Humanity and even more distant places?

Such a phenomenon was too shocking and would definitely attract the investigation of other races, possibly even the deductions of many powerful Supremes. If they deduced it was Ye Tian, that would be troublesome.

Immediately, Kunwu Supreme took action.

Using the power of a supreme, he sealed off the golden light, successfully suppressing the phenomenon.

Thus, the golden light was confined to the Supreme Hall of Humanity.

“Qing Emperor Supreme, Curse Supreme, later we’ll say this was us testing a secret technique that accidentally radiated throughout the entire Supreme Hall of Humanity. We absolutely cannot reveal that Ye Tian is attempting to become a Child of the Era!” Kunwu Supreme instructed.

“Understood!” Qing Emperor Supreme and Curse Supreme nodded repeatedly.

At this moment, the three Supremes were utterly convinced that Ye Tian had successfully reached the realm of a Child of the Era, or else such an extraordinary phenomenon would not have occurred.

As time slowly passed, the golden light began to fade and gradually disappeared.

The phenomenon vanished, and Ye Tian slowly opened his eyes.

At that moment, he was no longer a Child of the Universe but a Child of the Era, the first Child of the Era in this universe!

Chapter 587: The Realm of True Gods!

“The feeling of being a Child of the Era is so powerful!”

Ye Tian felt that he now far surpassed his former self and could easily kill his past self. Even God-level Children of the Universe and Supreme Children of the Universe seemed like mere ants in his eyes.

This is what it means to be a Child of the Era!

“Having become a Child of the Era, my accumulation is already sufficient. There’s no need to continue accumulating at the God level. It’s time to break through to the realm of True Gods!”

To challenge the realm of True Gods, Ye Tian had to withstand six Heavenly Tribulations, and the Supreme Hall of Humanity, being a Strongest Supreme Treasure, would block the arrival of the tribulations.

Therefore, Ye Tian needed to leave the Supreme Hall of Humanity.

The Origin Realm. (Sacred Realm of Humanity)

Ye Tian arrived at a secluded expanse of the void, beginning his challenge to the True God realm.

In just an instant, Ye Tian broke through the bottleneck of the True God level, and his celestial force began to transform into True God level celestial force.

Breaking from God level to True God level involved the transformation of celestial force or divine power. Normally, one's physical body could not be enhanced, and although Ye Tian could cultivate the Eighteen Golden Bodies Technique, his physical body wouldn't automatically upgrade.

At this moment, Ye Tian's transformation of celestial force was completed, stepping officially into the realm of True Gods.

True God level celestial force was far more powerful than that of the God level. Upon entering the True God level, Ye Tian's power surged many times over, his presence enough to overpower the God level, rendering them immobile.

Thunder roared! A field of tribulation clouds appeared in the void.

"The Heavenly Tribulation is coming!" Ye Tian murmured.

This time, the tribulation clouds brought six Heavenly Tribulations, each incredibly terrifying in power. Even the first tribulation was enough to kill an ordinary Great God level warrior.

If a recently ascended Invincible Eternal Child of the Universe faced such a tribulation, death was certain. However, Ye Tian, now a Child of the Era, had no fear of such tribulations.

Soon, the first Heavenly Tribulation descended!

Boom!!!

A pillar of lightning struck down, and Ye Tian, with a single hand, used the Chaos Palm to extinguish the first tribulation, displaying an invincible posture.

The second Heavenly Tribulation! The third! The fourth! The fifth!

One after another, the tribulations could do nothing against Ye Tian, easily swept away by him. Only the sixth tribulation made his palm tingle, but still, it did not injure him.

“If I were still a Pinnacle Supreme Child of the Universe, although I could have passed the six Heavenly Tribulations, I would definitely have been injured, and seriously so.

But for a Child of the Era, these six tribulations are just a piece of cake!” Ye Tian thought to himself.

Having passed the tribulations, Ye Tian had no more concerns, truly becoming a God level warrior.

Returning to the Supreme Hall of Humanity, Ye Tian had plans.

He first needed to raise his cultivation from the first stage of the True God level to the ninth stage of the True God level. Accumulating cultivation was very simple for him, given his Supreme talent and possessing the God level Time Talent, allowing him to easily advance to the ninth stage of the True God level.

With infinite lifespan, Ye Tian now used his God level Time Talent to accelerate time. Within a few months, he successfully raised his cultivation to the ninth stage of the True God level.

Next, Ye Tian began to cultivate the fifth and sixth sets of movements in the Eighteen Golden Bodies Technique.

Currently, wanting to enhance his physical strength, he could only rely on the Eighteen Golden Bodies Technique; otherwise, there was no way to increase his physical strength.

Thus, Ye Tian went to the Six Paths Reincarnation Pagoda, inherited the fifth set of movements, and began to cultivate.

With the aid of the Heavenly Dao Golden Liquid, Ye Tian made rapid progress in cultivating the fifth set of movements, completing it within a month.

Then, Ye Tian inherited the sixth set of movements, which also took only a month and a half to fully cultivate.

With this, Ye Tian completed the cultivation of the Eighteen Golden Bodies Technique at the True God level stage, and his physical strength increased many times over.

However, even so, Ye Tian's combat power had still fallen to the level of a Supreme Child of the Universe. He needed to enhance other aspects, such as celestial force compression, Saber Dao Ultimate Technique, divine secret arts, and divine abilities. These were all areas that needed improvement, otherwise his combat power would fall.

Only through continuous improvement could one maintain or even surpass the combat power of their peers.

Currently, the simplest method was compressing celestial force, which constantly progressed as long as one diligently cultivated, allowing the continual compression of celestial force.

However, enhancing the Saber Dao Ultimate Technique and divine abilities proved more challenging! Ye Tian had already advanced his Saber Dao Ultimate Technique to the strongest pinnacle level. The next step, the Supreme Saber Dao Ultimate Technique, was incredibly difficult to achieve.

One day,

Ye Tian arrived at the ancient stone gate between the Mysterious Region and Earth Region of the Supreme Hall of Humanity, also known as the Earth Gate.

Passing through the Earth Gate allowed entry into the Earth Region, and Ye Tian effortlessly breached the gate, arriving in the Earth Region and becoming one of its princes.

The Earth Region, the Ancient Sea.

This was the largest cultivation treasure land in the Earth Region, dotted with ancient pagodas which served as the best cultivation sites in the area.

After entering the Ancient Sea, Ye Tian claimed the best pagoda in the very center of the Ancient Sea as his own cultivation tower.

Soon, news of Ye Tian's arrival in the Earth Region spread, and the princes of the area came one by one to visit him.

Ye Tian hosted them, thus beginning to acquaint himself with these Earth-level princes.

There were not many Earth-level princes, only ninety-eight, as the Supreme Hall of Humanity valued quality over quantity. Hence, many princes from the Mysterious Region simply could not come to the Earth Region.

The weakest among the Earth-level princes possessed the combat power of a first-tier Ordinary Child of the Universe, while the strongest had the capabilities of a second-tier Eternal Child of the Universe.

However, upon Ye Tian's arrival in the Earth Region, he immediately became the strongest prince.

After entering the Earth Region, Ye Tian settled into a stable period of cultivation, compressing celestial force daily, contemplating divine secret arts, perfecting his own divine secret arts, and occasionally cultivating the Saber Dao Ultimate Technique.

Thus, thirty years passed.

One day,

While Ye Tian was cultivating, he received a message from Kunwu Supreme, requesting his presence at the Kunwu Pavilion.

Thus, Ye Tian ended his cultivation and went to the Kunwu Pavilion.

In the Kunwu Pavilion.

Kunwu Supreme, Qing Emperor Supreme, and Curse Supreme—these three Supremes were present.

“Greetings, Kunwu Supreme, Qing Emperor Supreme, and Curse Supreme!” Ye Tian bowed respectfully.

Kunwu Supreme spoke, “Ye Tian, we called you here this time concerning the Six Paths Reincarnation Pagoda. After countless treasures from our race and great sacrifices, we have finally fully revived the origin of the Six Paths Reincarnation Pagoda. Now, it possesses the full power of a Strongest Supreme Treasure.

The Six Paths Reincarnation Pagoda can now fully activate the six paths of reincarnation, allowing beings to reincarnate once, starting a new life of cultivation.”

“The Six Paths Reincarnation Pagoda is revived!” Ye Tian was also extremely delighted.

Once revived, the Six Paths Reincarnation Pagoda as a Strongest Supreme Treasure would be of tremendous help to the human race.

Kunwu Supreme then said, “Ye Tian, I recommend you use the Six Paths Reincarnation Pagoda to undergo some trials through reincarnation.

Additionally, I will grant you ten quotas for reincarnation. If you don’t need them for yourself, you can use these ten quotas to secure some benefits for yourself.”

Chapter 588: The Six Paths of Reincarnation Law!

The Tower of Six Paths of Reincarnation.

Ye Tian had returned here once again, but this time, the Tower was filled with an unmatched majestic presence, an aura that rivaled its past state.

“This is the true Tower of Six Paths of Reincarnation!” Ye Tian couldn’t help but exclaim.

As he entered the Tower of Six Paths of Reincarnation, Ye Tian encountered the spirit of the Tower.

Although Ye Tian was no longer the master of the Tower, the spirit still recognized him.

“Prince of Ten Thousand Laws!” The spirit greeted Ye Tian respectfully.

“I want to enter the other four paths of the Six Paths of Reincarnation for training!” Ye Tian declared his intent.

Previously, he had trained in the Heavenly and Asura Paths of the Tower, but at that time, the source of the Tower had not been revived, and the other four paths had been closed.

Now that the Tower was fully revived, all paths of reincarnation training were naturally opened.

“Granted!” The spirit responded.

“I’ll start with the Hell Path!” Ye Tian stated.

Following this, the spirit activated the Hell Path of Reincarnation world, allowing Ye Tian to enter and undergo the reincarnation training to temper himself.

The environment of the Hell Path Reincarnation world was incredibly harsh, inhabited by the hellish race, known for their brutal and terrifying nature, rife with slaughter.

Ye Tian was born into the world of Hell Reincarnation, in the Abi World, into a powerful royal family of Hell. From a young age, he underwent inhuman tempering and grew increasingly stronger. At the age of eighteen, Ye Tian awakened his memories of past lives, truly beginning his defiant ascent.

In the Abi World, Ye Tian rose from weakness to strength, becoming a ruler of Hell, overpowering countless geniuses and living in this world for thirty thousand years.

Finally, Ye Tian ended this life and continued on to reincarnate and temper himself.

Thus, life after life passed by.

Ye Tian spent a total of thirteen lives in the Hell Reincarnation world before concluding his training there.

If it were the previous Tower of Six Paths of Reincarnation, it wouldn't have been possible to maintain thirteen lives of reincarnation training.

Subsequently, Ye Tian entered the Hungry Ghost Path Reincarnation world for a new round of reincarnation training.

In the Hungry Ghost Path Reincarnation world, Ye Tian went through twelve lives, one less than in the Hell Reincarnation world. In these lives, he faced many trials and unimaginable hardships, yielding significant gains.

Then, Ye Tian moved on to the Animal Path Reincarnation world.

In this reincarnation world, Ye Tian reincarnated time and again.

He became part of the pig clan, the cattle clan, the dog clan... All in all, Ye Tian underwent many lifetimes, and although each life was not long, he experienced eighteen lives in total, each with its own substantial gains.

For the final path of the Six Paths, Ye Tian entered the Human Path, reincarnating as a human.

In the Human Path of Reincarnation, not referring specifically to humans but to humanoid beings as every reincarnation world possessed such a race, Ye Tian underwent numerous reincarnations. He had been an ordinary person, a general, a cultivator, and even an emperor. In total, Ye Tian reincarnated thirty-six times within the Human Path of Reincarnation world. Perhaps because he resonated so well with the principles of the Human Path, he underwent so many reincarnations.

Across the Hell Path, Hungry Ghost Path, Animal Path, and Human Path, Ye Tian experienced many lives, accumulating millions of years within these reincarnation worlds...

Such a prolonged period, filled with countless experiences, left Ye Tian appearing profoundly aged and wise beyond measure, as if he was an ancient being who had lived through endless ages.

“Just one more step, and my mental state will reach the seventh level!” Ye Tian murmured.

This time, not only had his mindset improved significantly, but his insights had also deepened considerably.

Although on the surface, his combat power and cultivation hadn’t increased much through these numerous reincarnations, his gains were immensely substantial.

During these millions of years of reincarnation, as soon as Ye Tian awoke his memories, he engaged in deep reflection on the Saber Dao Ultimate Technique and various principles.

The miraculous aspect of the Tower of Six Paths of Reincarnation lay in its creation of phantom reincarnation worlds where the principles remained real, allowing for true comprehension within these worlds.

Thus, Ye Tian’s understanding of these principles was now exceedingly profound, which would greatly assist in enhancing his mastery over great divine abilities in the future.

However, Ye Tian’s greatest achievement lay elsewhere.

After experiencing the Six Paths of Reincarnation worlds, Ye Tian synthesized many principles and characteristics of these worlds to create a new principle of his own.

This new principle, imbued with the essence of the Six Paths of Reincarnation, was named by Ye Tian as the Six Paths of Reincarnation Principle.

The Six Paths of Reincarnation Principle was a unique law, created by Ye Tian, and entirely under his control. In time, as he continued to refine this principle, it could form the core source of the Six Paths, similar to the core of the Saber Principle.

Moreover, after creating the Six Paths of Reincarnation Principle, Ye Tian integrated this strand of principle into his own Chaos Principle, transforming it. The Chaos Principle seemed to become even more complete.

“The Chaos Principle encompasses everything. Although the Six Paths of Reincarnation Principle is not a fundamental law but a special one, it can still be integrated into the Chaos Principle, even perfecting my Path of Chaos!” Ye Tian suddenly realized.

His cultivation of the Path of Chaos was based on the strongest Supreme of the human race—Primordial Supreme—who had created it. Primordial Supreme had not delved deeply into the Chaos Supreme Canon nor practiced the Chaos Body Refining Technique. Hence, while his understanding of the Path of Chaos was profound, it was not thoroughly researched.

If Ye Tian continued to follow Primordial Supreme’s philosophy on the Path of Chaos, he would naturally face limitations and possibly fail to reach an extremely profound level of understanding.

However, if he mixed some of his own understanding into the Path of Chaos, making it more perfect, then Ye Tian’s mastery over the Path of Chaos would undoubtedly far surpass that of Primordial Supreme.

In the days that followed, Ye Tian immersed himself in new reflections and creations, attempting to integrate the Supreme Chaos Canon with the mysteries of the Six Paths of Reincarnation, further advancing the Supreme Chaos Canon.

With the accumulation of millions of years in the Six Paths of Reincarnation worlds, Ye Tian had countless ideas, thus successfully integrating the mysteries of the Six Paths into the Supreme Chaos Canon.

One day.

Through the mysteries of the Six Paths and the Chaos Canon, Ye Tian successfully created a new divine secret technique—Six Paths Chaos Palm! This technique was an enhanced version of the Chaos Palm, incorporating the mysteries of the Six Paths and greatly increasing its power, with the palm technique containing the power of the Six Paths, capable of suppressing all forces.

Next, Ye Tian further refined other divine secret techniques, enhancing their power even more than before.

Since Ye Tian returned from the Tower of Six Paths of Reincarnation, ten years had swiftly passed.

One day.

A dominator from the Pill Tower came to visit Ye Tian.

Chapter 589: Origin Divine Pill!

Outside the Supreme Hall of Humanity, in the headquarters of the Tianlan Giant City's Tian Pavilion, Ye Tian met with his visitor.

The visitor couldn't enter the Supreme Hall of Humanity unless they were a current member. Even former Princes like the Undying Legion Lord, now an external member, found it hard to gain entry.

"Lord Yun Dan!"

Ye Tian was somewhat surprised to see this acquaintance and wondered why Lord Yun Dan had come to see him.

Logically, since their transaction was already completed, Lord Yun Dan wouldn't visit without a reason; there must be another matter at hand.

"Lord Yun Dan, may I know the reason for your visit?" Ye Tian asked.

Lord Yun Dan quickly said, "Prince of Ten Thousand Laws, our Pill Tower has learned that you possess ten slots for reincarnation in the Six Paths Reincarnation Pagoda.

The Six Paths Reincarnation Pagoda requires significant resources to assist someone in reincarnation. Even the Supreme Hall of Humanity doesn't have many slots available at once, and the number distributed among the Supreme-level forces is even fewer and hardly sufficient."

Ye Tian agreed with Lord Yun Dan's remarks.

Within humanity, too many wished for reincarnation.

Reincarnation was not simply experiencing a cycle; it was about crafting a reincarnation world where one's consciousness cycled through, while the original body was preserved in the Six Paths Reincarnation Pagoda.

True reincarnation meant shedding everything except memories to live anew.

Many beings at the pinnacle of the Galaxy level with limited lifespans desired reincarnation, hoping to reach the Universal God tier.

Even if reincarnated with poor luck and low talent, if the backing force found the reincarnated individual and began nurturing them from a young age, enhancing their talent wouldn't be difficult with the capabilities of a Supreme-level force.

Since it's easier and less costly to enhance talent at lower cultivation levels, waiting until reaching the Galaxy level to enhance one's cultivation talent was too risky and possibly futile.

Moreover, many strong individuals had taken the wrong path, stalling their progress. If they could reincarnate, they might become a Child of the Universe, or even an Eternal Child of the Universe.

Thus, if reincarnation was possible, everyone could potentially become a true genius.

However, although the Six Paths Reincarnation Pagoda was a Strongest Supreme Treasure, the cost of enabling one person to reincarnate was substantial, so the Supreme Hall of Humanity could only allow a small number of strong humans to undergo reincarnation.

"The Pill Tower wants slots?" Ye Tian inquired.

"Yes!" Lord Yun Dan responded. "The Pill Tower wants three slots. One of them is for me; my thirteenth wife, Qinghan's mother, has limited talent. Despite my efforts to enhance her cultivation talent, her potential is too low, and the cost I've paid has not enabled her to possess Universal-level cultivation talent. Her lifespan isn't much either.

Therefore, I wish for her to reincarnate and cultivate anew."

"Lord Yun Dan, you must understand how precious reincarnation slots are. Even though I don't need to reincarnate, some of my relatives and friends do. So, what price will Pill Tower pay?" Ye Tian asked.

"What would Prince of Ten Thousand Laws want?" Lord Yun Dan inquired.

Ye Tian pondered. While Pill Tower, as one of the Supreme-level forces, might not be as powerful as others, its financial strength was undoubtedly the strongest, and it had many valuable items.

“I want ten Origin Divine Pills!” Ye Tian declared.

“What? Origin Divine Pills!!!” Lord Yun Dan exclaimed in shock.

He had never imagined Ye Tian would aim so high, demanding Pill Tower’s Origin Divine Pills.

“Prince of Ten Thousand Laws, do you realize how precious the Origin Divine Pills are? Even the Immortal Golden Pills aren’t worth one ten-thousandth of an Origin Divine Pill, and you want ten at once!!!” Lord Yun Dan said, his expression drastically changing.

“I am well aware of what the Origin Divine Pill is,” Ye Tian said with a smile. “The Origin Divine Pill is crafted by the Pill Tower using special methods, and to this day, the ingredients remain unknown to the outside world.

The Origin Divine Pill is invaluable even to Universal Gods and Dominators, as it can exponentially enhance one’s insight in a short period of time. Many Universal Gods and Dominators desire to use the Origin Divine Pill to comprehend great divine abilities, laws, and supreme secret techniques.

It is precisely because of the rarity of the Origin Divine Pill that I desire it!”

“Prince of Ten Thousand Laws, to tell you the truth, even I can only receive one Origin Divine Pill as a reward over countless ages, and it is a supreme elixir that only a Supreme can concoct.

Merely three reincarnation slots are not worth ten Origin Divine Pills!” Lord Yun Dan explained earnestly.

“How about five pills then?” Ye Tian proposed.

He knew the unparalleled value of the Origin Divine Pills but was unsure of Pill Tower’s bottom line, so he was probing with each offer.

Ye Tian and Lord Yun Dan discussed for a long time, and ultimately, Lord Yun Dan did not give a definitive response, only stating that he needed to consult with the other senior members of Pill Tower and even seek the Tower Master's permission! In the blink of an eye, ten days had passed.

Lord Yun Dan once again came to Tianlan Giant City and resumed discussions with Ye Tian.

"Prince of Ten Thousand Laws, Pill Tower has responded. Pill Tower is willing to offer four Origin Divine Pills in exchange for your three slots. What do you think?" Lord Yun Dan stated.

"Agreed!" Ye Tian immediately accepted the offer.

The deal was exceedingly favorable since reincarnation itself carried risks, and he personally did not need to reincarnate, nor did his relatives.

Should his relatives possess poor talent, he could simply seize talents from others and bestow them upon his relatives in the future, eliminating the need for their reincarnation.

Thus, for him, the ten reincarnation slots were merely a bargaining chip.

Now, trading three slots for four immensely valuable Origin Divine Pills was an excellent deal.

Subsequently, under the witness of the high-ranking members of the Supreme Hall of Humanity, Ye Tian and Pill Tower completed the trade.

Pill Tower acquired the three slots, and Ye Tian obtained four Origin Divine Pills.

Immediately after, Ye Tian secluded himself to use the Origin Divine Pills.

In the cultivation chamber, Ye Tian took out one Origin Divine Pill. The pill was golden, interspersed with faint multicolored lights, appearing as if it contained a world within, utterly profound and magical.

Without hesitation, Ye Tian swallowed the Origin Divine Pill.

Boom! The energy from the Origin Divine Pill surged into Ye Tian's celestial soul.

In an instant, his insight was multiplied countless times, and numerous flashes of enlightenment occurred.

Then, Ye Tian began to comprehend the Five Elements Divine Wheel, a major divine ability.

Previously, advancing the Five Elements Divine Wheel beyond the introductory stage had been incredibly challenging, requiring endless ages of contemplation for any hope of progress.

But now, Ye Tian had drastically shortened this period of comprehension.

Time passed unknowingly, and when the energy of the Origin Divine Pill was finally exhausted, Ye Tian opened his eyes, exhilarated.

"It's done!"

At that moment, Ye Tian had successfully advanced the Five Elements Divine Wheel to the Minor Completion stage.

From the introductory to the Minor Completion stage, the power of the Five Elements Divine Wheel did not just double but increased by five or six times, if not more.

"The effects of the Origin Divine Pill are excellent; continue using it!"

Ye Tian then consumed another Origin Divine Pill. This time, instead of focusing on the Five Elements Divine Wheel, he decided to comprehend the Spear of Hellish Void, a major spatial divine ability.

Chapter 590: Small Worlds within Chaos!

It was undeniably difficult for the Five Elements Divine Wheel divine ability to advance from the major realm to the perfected realm. The difference between a major realm divine ability and a perfected realm divine ability was substantial.

Ye Tian also hoped to elevate his Five Elements Divine Wheel to the perfected realm, but with only four Origin Divine Pills at his disposal, he naturally sought to maximize their use.

Moreover, the power of the Spatial divine ability surpassed the Five Elements Divine Wheel by a significant margin, hence Ye Tian was keen on advancing his Spear of Hellish Void, a spatial divine ability, from the introductory level to the major realm.

With this advancement, Ye Tian's overall strength would surge significantly.

Under the influence of the Origin Divine Pills, Ye Tian began to comprehend the profound principles of the Spear of Hellish Void. Previously, the complexities of the Spear of Hellish Void were incomprehensible to him, but now, it seemed as if he was looking at the answers during an exam, suddenly understanding everything at once.

As time gradually passed, the energy of one Origin Divine Pill was depleted.

Subsequently, Ye Tian consumed another Origin Divine Pill and continued his study of the Spear of Hellish Void.

He felt he was not far from advancing this spatial divine ability to the major realm, so he continued to consume the Origin Divine Pills.

Finally, Ye Tian depleted the energy of this second Origin Divine Pill as well.

"Just a bit more!"

Ye Tian was filled with excitement. With just a bit more comprehension, he would be able to advance the Spear of Hellish Void to the major realm.

Immediately, he looked at the last Origin Divine Pill, gritted his teeth, and swallowed it.

"I must advance the Spear of Hellish Void to the major realm!"

With the aid of the last Origin Divine Pill, Ye Tian soon completed his final comprehension and finally advanced the Spear of Hellish Void to the major realm.

The major realm Spear of Hellish Void, with its formidable power, was definitely far superior to the major realm Five Elements Divine Wheel.

Afterward,

Ye Tian went to the battle tower to test his strength and easily defeated a True Monarch level examiner, whose combat power was comparable to that of a Sovereign Prince.

By his own estimation, Ye Tian's combat power was now not far from that of a Child of the Era. Once he compressed his celestial force and created a strongest-tier Saber Dao ultimate technique, his combat power would definitely reach the level of a True God Child of the Era!

"It's tough to maintain the combat power of a Child of the Era. At the God level, I was lucky to have elevated my life stage to the fourth stage, but now that I have advanced to the True God level, it's more challenging to return to the power of a Child of the Era, although there's still a great chance."

Ye Tian thought to himself.

If he could now elevate his life stage to the fifth stage, entering the combat power of a Child of the Era would be relatively easy.

However, advancing to the fifth stage at the True God level was extremely difficult.

The life stage of the fifth stage was comparable to that of a Supreme level; in this universe, the Supreme life stage was also the fifth stage. As for whether there were any sixth-stage Supremes, Ye Tian was not sure.

But he was very clear that advancing to the sixth stage at the True God level was far too difficult, even many times more difficult than advancing the Spear of Hellish Void to the perfected realm.

Ye Tian dared not even consider it now; he only wanted to slightly compress his celestial force, look for some opportunities, and see if he could make progress in the Saber Dao ultimate techniques. Even if he couldn't create a strongest-tier Saber Dao ultimate technique, at least he should gain some insights.

On this day,

Dominator Dark came to inform Ye Tian of something—Primordial Divine Mountain wanted all the reincarnation slots.

“Primordial Divine Mountain!”

Ye Tian had some understanding of this power, albeit not much.

Primordial Divine Mountain was one of the nine Supreme level powers and was a highly mysterious one.

This power had few members, definitely the fewest among the nine Supreme level powers, but it was also the most terrifying. It was established by Primordial Supreme, the foremost Supreme of the human race, whose strength was above that of Kunwu Supreme. Rumor had it that Primordial Supreme had created a technique for creating multiple avatars, each stationed at different human locations.

As for how many avatars Primordial Supreme had and where the original body was located, no one knew.

Primordial Supreme, known as the strongest and most mysterious Supreme of the human race, was equivalent in strength to many other Supremes by himself.

It was precisely because of Primordial Supreme’s presence that many major cosmic races were wary of the human race.

Since each avatar of Primordial Supreme possessed Supreme level power, if one avatar invaded another major cosmic race, it would undoubtedly bring great losses to those races.

And if an avatar of Primordial Supreme unfortunately perished, the loss would be just one avatar.

Thus, Primordial Supreme’s technique of duplicating one’s essence caused the myriad races of the universe to dread the human race, hesitant to openly break ties with them, lest they suffer unbearable consequences.

The presence of Primordial Supreme's Primordial Divine Mountain indicated its immense power, positioning it as arguably the foremost among the nine supreme forces.

"Your Highness, the Primordial Divine Mountain is very mysterious, and even I know little about it. However, Primordial Supreme is one of the oldest Supremes of the human race. It is rumored that it was under Primordial Supreme's leadership that the human race first rose to power. The treasures and opportunities possessed by the Primordial Divine Mountain are truly unparalleled by other supreme forces."

"In fact, the Supreme Hall of Humanity doesn't really have many opportunities; it's just some leftovers divided among the nine supreme forces, hardly worth mentioning."

"Your Highness, this time you could use this reincarnation slot to gain some benefits from the Primordial Divine Mountain." Dominator Dark reminded.

"I know!" Ye Tian nodded.

Under the arrangements of Dominator Dark, Ye Tian met with an envoy from the Primordial Divine Mountain.

In the headquarters of the Tian Pavilion in the Tianlan Giant City, Ye Tian looked at the young girl in front of him, quite surprised.

Her age was unclear, but her cultivation level was distinctly visible—a Great God level.

For a representative of a supreme force, being at the Great God level seemed too low, even if she was exceptionally talented.

Of course.

Ye Tian did not dare underestimate this Great God level envoy. From the aura she emitted, it was clear she was a formidable Great God level, at least an Eternal Prince.

“Prince of Ten Thousand Laws, hello, I am Li Xin’er from the Primordial Divine Mountain. You can just call me Xin’er!” Li Xin’er said with a smile.

“Fairy Li Xin’er.”

Ye Tian looked at Li Xin’er, somewhat surprised that she didn’t use a title.

In the universe, many were accustomed to introducing themselves with titles, but it was quite rare to use one’s real name.

“Xin’er, it is said that the Primordial Divine Mountain wants the reincarnation slots I hold. I currently have seven slots available. I wonder what the Primordial Divine Mountain is willing to offer in exchange?” Ye Tian asked.

Li Xin’er paused for a moment before replying, “Prince of Ten Thousand Laws, I am also very familiar with you. Ordinary treasures certainly won’t catch your eye, nor would typical opportunities.

But there is an opportunity that you would definitely find very interesting!”

“What opportunity?”

Ye Tian was curious.

“A small world within the chaos, are you interested?”

Li Xin’er’s words shocked Ye Tian.

“A small world in the chaos, how is that possible!!!”

Ye Tian exclaimed, “Aren’t the beings in our universe unable to leave it?”

Li Xin’er smiled and said, “It’s not that they can’t leave, the Supremes have a way to leave the universe, but it comes at a cost. However, even if they leave, they can’t go too far, because as long

as they don't transcend the universe, their true spirits still exist within the universe's river of spacetime. Once they move too far from the universe, even supreme levels will weaken until death.

The Chaos Mini World I mentioned is indeed real. You must be well aware that the universe is constantly expanding. Just recently, the expansion absorbed a small world, bringing it into our universe.

Currently, this small world has been discovered by our Primordial Divine Mountain, and a group has already entered it.

As for the details, I'm not at liberty to say. It depends on whether you're willing to trade."

"Okay, I'm willing to trade, but I must add one condition—I want to borrow the Primordial True Canon from the Primordial Divine Mountain!"

Ye Tian stated his condition.
