Chapter 591: Young Master of the Primordial Divine Mountain!

The Primordial True Canon was a scripture created by Primordial Supreme, involving many profound truths, including discussions and analyses of the Dao of Chaos.

Although the Chaos Body Refining Technique was a supreme divine scripture of chaos, it did not specifically discuss the Dao of Chaos. It was considered a general guideline for cultivation, whereas the Primordial True Canon was much more detailed.

Furthermore, the Chaos Body Refining Technique was created many years ago by Primordial Supreme and had not been verified. After its creation, it was given to the Supreme Hall of Humanity.

In contrast, the Primordial True Canon was different, being one of the supreme scriptures of Primordial Divine Mountain and frequently perfected by Primordial Supreme. Within the ranks of humanity, the Primordial True Canon held a tremendous reputation.

It was for this reason that Ye Tian longed to peruse the Primordial True Canon.

“What, you want to borrow the Primordial True Canon?!” Li Xin’er was surprised.

The Primordial True Canon was one of the supreme scriptures of Primordial Divine Mountain, and ordinary people did not have the audacity to even think of borrowing it.

Under normal circumstances, Primordial Divine Mountain would certainly refuse.

But this time was different; Primordial Divine Mountain was in need of reincarnation slots.

“Fairy Xin’er, if Primordial Divine Mountain is unwilling, then we can look for another opportunity to trade!” Ye Tian said with a smile.

Seven reincarnation slots were incredibly precious, and if it was just for an unknown opportunity, he would be foolish to trade them for just that.

Ye Tian would not agree to the trade without extracting more benefits from Primordial Divine Mountain.

Li Xin'er was silent for a moment, then suddenly spoke, "Alright, we at Primordial Divine Mountain agree!"

"Agreed?"

Ye Tian widened his eyes, slightly surprised as he looked at Li Xin'er.

"Do you not need to consult someone higher up now?" Ye Tian asked.

"No need!" Li Xin'er smiled slightly and said, "I have the authority to make this decision!"

Ye Tian looked deeply at Li Xin'er, increasingly feeling that her identity was not simple.

To be able to represent Primordial Divine Mountain in a trade with his rank as a Great God, and to easily allow him access to the Primordial True Canon, even the ruler of Primordial Divine Mountain might not have such authority.

"Could she be a descendant of a Supreme from Primordial Divine Mountain?" Ye Tian speculated.

Considering there were only two Supremes in Primordial Divine Mountain, one being Primordial Supreme and the other an Ordinary Supreme, it seemed unlikely that a descendant of the Ordinary Supreme would have such authority. Perhaps she was a close relative of Primordial Supreme, which could explain her significant privileges.

"Anyway, thinking too much is useless. Using seven slots to exchange for access to the Primordial True Canon and an opportunity to enter the Chaos Mini World is absolutely worth it!" Ye Tian thought.

After the successful trade, Ye Tian followed Li Xin'er as they left the Tianlan Giant City and headed to Primordial Divine Mountain.

Primordial Divine Mountain was not in the main space of the universe but in a special world, similar to how the Supreme Hall of Humanity was located in the Origin Realm.

The world where Primordial Divine Mountain was located was called the Primordial Heaven Realm! The Primordial Heaven Realm was protected by Strongest Supreme Treasures—ordinary beings couldn't enter the Primordial Heaven Realm, not even Supremes could easily infiltrate it.

Moreover, without special permission, ordinary people could not enter the Primordial Heaven Realm.

Now, under the guidance of Li Xin'er, Ye Tian easily entered the Heaven Realm.

Primordial Heaven Realm, Primordial Divine Mountain.

This was an unimaginably divine mountain, its scale almost comparable to the Supreme Mountain in the world of relics.

Ye Tian did not enter upon Primordial Divine Mountain itself but waited at the base of the mountain.

Even with Li Xin'er's considerable authority, she could not bring a stranger into the headquarters of Primordial Divine Mountain. It was still necessary to consult the higher-ups of Primordial Divine Mountain.

Soon, Li Xin'er reappeared in front of Ye Tian.

"Prince of Ten Thousand Laws, follow me. I will take you to peruse the Primordial True Canon first. Remember, you can only read it, and you must make a vow not to disclose the contents of the Primordial True Canon!" Li Xin'er instructed.

"That is a given!" Ye Tian nodded in agreement.

Rustling through various areas and crossing many buildings, Li Xin'er led Ye Tian to an incredibly splendid temple.

This temple was the Ten Thousand Canons Temple of Primordial Divine Mountain, a place obviously meant for storing scriptures, with the Primordial True Canon housed within it.

As Li Xin'er walked with Ye Tian into the Ten Thousand Canons Temple, everyone respectfully addressed her as "Young Master."

"Young Master?" Ye Tian was incredibly surprised by the title.

Such a title was not given lightly. In a place like Primordial Divine Mountain, only the direct descendants of the Mountain Master, specifically the primary heir, could be called Young Master. Other descendants could not claim this title.

"She is the daughter of the Mountain Master of Primordial Divine Mountain!" Ye Tian was thoroughly shocked by this revelation.

"As far as I know, the current Mountain Master of Primordial Divine Mountain should be the fourth son of Primordial Supreme, also the one with the highest talent. Although he is not yet a Supreme, he is at the Heavenly Venerable realm, not far from becoming a Supreme.

No wonder Li Xin'er has such great authority, being the daughter of the Mountain Master of Primordial Divine Mountain and the granddaughter of Primordial Supreme—such a high status!" Ye Tian thought to himself.

Although Li Xin'er was the Young Master of Primordial Divine Mountain, Ye Tian had no intention of currying favor.

As the sole Child of the Era in the human race and even the entire universe, even though he had not yet reached the battle power of a True God level Child of the Era, he had once become a God level Child of the Era, thus still counting as a Child of the Era! With the status of a Child of the Era, he did not need to please anyone.

Moreover, if he continued to grow, surpassing Primordial Supreme was only a matter of time.

Therefore, Ye Tian did not need to please Li Xin'er.

Soon, Li Xin'er led Ye Tian into a grand hall.

“Prince of Ten Thousand Laws, the Primordial True Canon is on the shelves in this grand hall. Remember, do not make too many unnecessary movements. This place is filled with beings beyond Universal Gods!” Li Xin’er warned.

“Don’t worry!” Ye Tian nodded slightly.

His copy talent had already gauged the layout here. The space around was filled with Universal Gods, and there were even Dominators lurking in the surroundings, so Li Xin’er’s reminder was unnecessary.

In the grand hall, an elder was sitting and scrutinizing his surroundings.

Seeing Ye Tian walk in, the elder said, “You must be the Prince of Ten Thousand Laws from the Supreme Hall of Humanity. Leave a vow first, then you may peruse the Primordial True Canon.”

“Yes, elder!” Ye Tian addressed the elder respectfully.

From his copy talent’s observation, this elder was a Dominator! And certainly one of the most powerful ones, not a weaker Dominator like Dominator Dark.

It was appropriate for Ye Tian to address such a powerful Dominator as elder.

Quickly, Ye Tian made his vow, walked up to the shelves in the grand hall, and picked up a golden book.

This golden book was the Primordial True Canon. It was initially sealed, but as he picked it up, the elder waved his hand, lifting the seal, allowing Ye Tian to safely peruse the text.

Thus, Ye Tian began to read through the Primordial True Canon, slowly absorbing its contents.

Chapter 592: Chaos Spiritual Treasure!

The Primordial True Canon contained the Dao of Primordial Supreme. A trace of the essence of the Primordial Great Dao leaked out, exposing Ye Tian to numerous profound truths.

The Primordial True Canon was not a cultivation method, but it surpassed one.

Within the Primordial True Canon, Ye Tian encountered numerous insights into the fundamental laws and the rules of the universe—knowledge he had previously been unaware of, or even unable to comprehend.

However, now, after perusing the Primordial True Canon, it was as if a new world had opened up to him, and he gained an entirely different perspective.

More importantly, the Primordial True Canon categorized the Dao into several levels.

The first level was superficial understanding, which meant grasping the principles and stepping into the threshold of the Dao, but without a deep understanding of the Dao itself.

The second level was manifestation, where the power of the Dao was materialized. This level of Dao could even be directly utilized in combat.

The third level was the embodiment of the Dao, where the Dao was condensed into a manifestation, powerful enough to crush an enemy with the realm of the Dao alone!

The fourth level was the origin, where one condensed the essence of the Dao, making oneself akin to a miniature version of the Dao, scattering all other Daos in its presence.

There was also a fifth level, which was on par with the true Dao itself, considered a transcendence of the Dao realm. This level was only speculated by Primordial Supreme, for once reached, transcending the universe would be effortless.

Previously, Ye Tian had only a vague understanding of the Dao and did not know how to advance.

But now, he had some enlightenment.

“According to the divisions above, I am currently at the superficial understanding. I haven’t even mastered the manifestation of the Chaos Dao. If I can’t even grasp its manifestation, how can I unleash the power of the Chaos Dao!” Ye Tian muttered to himself.

Of course, although he had not mastered its manifestation, the Chaos Dao was so powerful that his current realm could already contend with the manifestation level of ordinary Daos.

According to the Primordial True Canon, only Planetary System-level warriors would attempt to touch the manifestation level of the Chaos Dao. True God-level and Great God-level cultivations were still too low and far from reaching such a realm.

Moreover, True God-level and Great God-level beings did not live long. If they prematurely pursued the manifestation of the Dao, it could negatively impact their cultivation.

In the past, beings at the God-level had a lifespan of ten thousand years, True God-level had a hundred thousand years, Great God-level had five hundred thousand years, Planetary System-level had three million years, and Galaxy-level could reach up to ten million years.

To pursue advancement in cultivation, True God-level and Great God-level beings naturally would not waste time chasing the manifestation of the Dao. They might exhaust their lifespans without ever achieving it.

Even the Children of the Universe would not dare to pursue the manifestation of the Dao too early, as they had too many aspects to enhance.

For instance, Ye Tian himself, despite his heaven-defying talent and even possessing a talent for time, felt that time was insufficient because he had too much to improve.

However, now Ye Tian need not worry about time, as his lifespan was sufficient to last until the day the universe perished.

Thus, he could fully pursue the realm of the Dao’s manifestation.

Time gradually passed, and Ye Tian immersed himself in the insights of the Primordial True Canon.

Half a month flew by.

One day.

Ye Tian put down the Primordial True Canon and left the hall. Although he did not fully understand many of the teachings of the Primordial True Canon, he had gained much.

Continuing to read it would not be too beneficial; he only needed to slowly study, digest, and absorb it later.

After emerging from the hall, someone appeared before Ye Tian.

“Prince of Ten Thousand Laws, let me take you to a quieter place to talk about that Chaos Mini World!” Li Xin’er said.

“Alright!” Ye Tian nodded.

He was also very interested in that Chaos Mini World, so he followed Li Xin’er away.

In a loft.

Ye Tian and Li Xin’er sat face to face, and they soon began to discuss the Chaos Mini World.

“Prince of Ten Thousand Laws, I mentioned the Chaos Mini World to you before, but I omitted some details.

That Chaos Mini World is not very large, and even somewhat damaged, but there are still many chaos creatures existing there.

However, don’t worry, according to our initial exploration, all chaos creatures exceeding the Planetary System level in that minor world have died!”

Li Xin’er said, “The creatures beyond the Planetary System level have died.”

Ye Tian was quite surprised and immediately asked, “Why did they die?”

“Because the origin of the universe restricts these powerful chaos creatures from entering inside the universe. Otherwise, our universe would have long been invaded by the terrifying beings from chaos.

When this Chaos Mini World was swallowed by the universe, these powerful chaos creatures didn't have time to escape, and due to the universe's restrictions, they were directly annihilated by the universe.

Only some weaker chaos creatures, unable to pose a threat to the universe, survived.

Of course, even chaos creatures at the Great God level are extremely formidable.

Additionally, it seems due to a change in the rules, creatures at the Planetary System level and above are unable to enter that Chaos Mini World. At most, only beings up to the Great God level and below are allowed into that chaos world!” Li Xin'er explained.

“Fairy Xin'er, according to our agreement, I can enter the Chaos Mini World. I wonder what treasures are within?” Ye Tian inquired.

Li Xin'er responded, “A few days ago, we sent a batch of puppets into the Chaos Mini World from our Primordial Divine Mountain. According to the recordings of a few surviving puppets, this chaos world contains many rare chaos spiritual medicines and spirit plants, and there are also rich veins of chaos crystals.

Most importantly, there might even be Chaos Spiritual Treasures born inside!”

“Chaos Spiritual Treasures!” Ye Tian's pupils shrank.

He was indeed aware of the existence of Chaos Spiritual Treasures. Rumored to be innate weapons contained within chaos, they were almost on par with the most powerful supreme treasures in the universe.

“If there really are Chaos Spiritual Treasures, would your Primordial Divine Mountain let me in without fearing that I might take them?” Ye Tian curiously asked.

“Don’t worry!” Li Xin’er smiled and said, “Because the matter of the Chaos Mini World is known to the nine supreme human forces and the Supreme Hall of Humanity, and once a Chaos Spiritual Treasure is obtained, it must be sent to the Supreme Hall of Humanity. So, even if you obtain a Chaos Spiritual Treasure, it needs to be handed over to the Supreme Hall of Humanity.”

Ye Tian shrugged, unable to refute.

However, even if he obtained a Chaos Spiritual Treasure, it wouldn’t be of much use to him as his current level of cultivation couldn’t utilize it.

For example, that Chaos Black Lotus, which was definitely a treasure above the Chaos Spiritual Treasures, was unfortunately unusable by him right now, and he had no idea of its purpose.

Therefore, he wasn’t very interested in such treasures.

But the Chaos Mini World was full of treasures, and there might be some that could greatly aid him.

“When can we enter the Chaos Mini World?” Ye Tian asked.

“In about half a year,” Li Xin’er replied. “Since being swallowed, the Chaos Mini World has been in turmoil. It’s about to stabilize, which will take about half a year.

Entering now would be very dangerous. Some of the puppets sent earlier were damaged due to the instability.”

“Okay!” Ye Tian agreed.

Just waiting an additional half a year was nothing significant to him.

In the blink of an eye.

Half a year passed.

On this day, Li Xin’er informed Ye Tian that they could now enter the Chaos Mini World.

Chapter 593: Fierce Chaos!

The Chaos Mini World was located at the edge of the universe, but what shocked Ye Tian was that this mini-world was not at the edge of human territory, but near the territory of a mid-tier cosmic race, the Doma Clan, and quite far from human lands.

Through his conversation with Li Xin'er, Ye Tian uncovered a secret.

It turned out that the Primordial Divine Mountain controlled the Doma Clan, but it was a covert control unknown to other major cosmic races. The only ones who truly knew about it were the upper echelons of humanity.

Li Xin'er was willing to share this secret with Ye Tian because of his special status and his significant contributions to humanity, even surpassing those of some higher-ups.

Thus, telling Ye Tian was not a problem.

The candidates chosen to enter the Chaos Mini World this time were mostly Great God-level powerhouses from the Primordial Divine Mountain, and there were very few at the True God-level, one of whom was Ye Tian.

Additionally, Li Xin'er was also heading to the Chaos Mini World.

As the young master of Primordial Divine Mountain, Li Xin'er's safety was of paramount importance, but it was surprising that Primordial Divine Mountain would allow Li Xin'er to enter such a dangerous place as the Chaos Mini World.

However, Li Xin'er was, after all, a ninth-tier peak Great God-level cultivator with formidable combat capabilities, which was the highest permissible level in the Chaos Mini World. Ye Tian, currently at the peak of True God-level, might not even match Li Xin'er in terms of true combat strength.

Primordial Divine Mountain arranged an Origin Artifact warship to take Ye Tian and the others to the Chaos Mini World.

Ye Tian observed that there were about a hundred Great God-level cultivators arranged by Primordial Divine Mountain this time, and among the accompanying powerhouses, there were several Dominators. Whether there were any Heavenly Venerables or Supreme Venerables accompanying them was unclear to Ye Tian.

At levels above the Dominator, if someone intentionally concealed their presence, even with his copy talent, it was difficult to detect them.

A few days later.

The Origin Artifact warship arrived at the edge of the Doma Clan's territory but did not enter Doma lands.

Although the Doma Clan was a mid-tier race controlled by Primordial Divine Mountain, there were still eyes and ears of other races within the clan. If a human warship entered Doma territory, it could attract the attention of other major cosmic races, which would not be beneficial.

Therefore, the Origin Artifact warship directly headed for the void where the Chaos Mini World was located.

Not much later.

The Origin Artifact warship stopped, and the few Dominators came out.

Whoosh whoosh whoosh! One by one, Ye Tian and the others exited the Origin Artifact warship and looked towards the void ahead, but they could not sense the presence of the Chaos Mini World.

Ye Tian was not surprised by this.

Although the Chaos Mini World had been swallowed by the universe, it still existed deep in space, making it not so easy to sense.

However, Ye Tian did feel the difference in this piece of void. The spatial stability here was far stronger than other voids, indicating something unusual.

“In a moment, a few of us will join forces to open the passage to the Chaos Mini World. Take the opportunity to go in.

To prevent this place from being discovered, the spatial passage will only be open for a short while, so you must hurry in,” a Dominator said.

“Yes!” The many Great God-level cultivators nodded in response.

Boom boom boom!

The Dominators made their move, instantly tearing apart this piece of void and creating a passage.

As soon as this passage was opened, a large amount of chaotic yuan qi surged in.

“What pure chaotic yuan qi, and it’s yet to be assimilated chaotic yuan qi!” Ye Tian murmured.

Once chaotic yuan qi entered the universe, it would degrade into ordinary chaotic yuan qi, losing the true essence of chaotic yuan qi. Only the chaotic yuan qi that had just entered the universe and had not yet transformed was considered true chaotic yuan qi.

And such chaotic yuan qi in this passage had always existed in the Chaos Mini World, not yet in contact with the external yuan qi, hence it was not assimilated.

However, such chaotic yuan qi was also very volatile, difficult for ordinary people to absorb, but Ye Tian, with his chaotic physique and following the path of the Great Chaos, could absorb the chaotic yuan qi here.

“Let’s go!” The words of the Dominators resounded.

Swish, swish, swish!

One after another, the Great God-level cultivators rapidly traversed the passage, entering the Chaos Mini World.

Ye Tian and Li Xin'er were among the first to enter the passage and soon arrived in the Chaos Mini World.

Thud, thud, thud! In the distance, massive creatures appeared in everyone's sight.

Most of these creatures were at the peak of the Great God-level, and their auras far surpassed those of ordinary Great God-level beings.

Ye Tian and the others had just entered the Chaos Mini World and witnessed this scene, causing their expressions to change slightly.

Clearly, this place seemed to be the territory of a group of chaos creatures, with the passage having opened right there.

"We can't delay fighting here, break through!" Li Xin'er commanded.

"Yes, Young Master!"

The many Great God-level cultivators responded in unison.

The battle began! Those who were qualified to enter here were Great God-level powerhouses of considerable strength from Primordial Divine Mountain, and they had been at least seven-star Heavenly Prides during their Emperor-level times.

In the outside world, they would almost be considered first-tier Great God-level cultivators.

However, the creatures here were chaos creatures, originating from the chaos, and their combat abilities could not be measured by the standards of creatures within the universe.

As soon as the battle started, Ye Tian was astonished to find that these creatures were incredibly powerful, with seven or eight chaos creatures capable of contending against a single Great God-level cultivator.

And there were far too many chaos creatures here. If they continued to fight a protracted battle, this group of Great God-level cultivators would undoubtedly be annihilated.

Suddenly.

A massive chaos creature charged towards Ye Tian.

Out of curiosity, Ye Tian used his copy talent to check its talents.

Type: Chaotic Ferocious Mammoth

Bloodline talents: Universal-level

Strength Talent: God-level

Speed Talent: Mystic-level

Defense Talent: God-level

Gravity Talent: God-level

Charge Talent: Mystic-level

Roar Talent: Mystic-level

Earth Stomp Talent: God-level

“Impressive talents!” Ye Tian remarked.

But soon, Ye Tian discovered a secret.

The strength of these Chaotic Ferocious Mammoths far surpassed some Great God-level beings within the universe; they were simply not on the same level.

In an instant, Ye Tian understood.

Within the universe, the physical bodies of Great God-level and higher beings were essentially fixed, unable to enhance their physical strength due to cosmic restrictions, with only divine power and soul enhancement possible.

It was said that only after successfully becoming a Universal God would the body undergo a transformation, increasing in strength, but not by much, and only after reaching the Heavenly Venerable realm would the body transform again.

However, no matter how it transformed, the physical strength wouldn't be excessively exaggerated.

But these Chaotic Ferocious Mammoths were different; although they were only at the Great God-level, their physical strength far exceeded that of Great God-level beings within the universe.

“Could it be that within the chaos, there are no restrictions on physical strength, allowing it to continue to increase?” Ye Tian speculated.

If that was indeed the case, then the chaos creatures here were terrifyingly formidable.

Perhaps these chaos creatures were just the lowest level within the Chaos Mini World; if they encountered those extremely powerful Great God-level chaos creatures, that would be problematic.

“Let's break out first!” Ye Tian thought to himself.

Chapter 594: The Indestructible Ye Tian!

“Spear of Hellish Void!”

Ye Tian activated this major spatial divine ability, launching it at the rampaging Chaotic Ferocious Mammoth charging towards him.

The prowess of a spatial divine ability at the minor completion stage was terrifying. Even though Ye Tian was only at the True God level, and the Chaotic Ferocious Mammoth was at the peak of the Great God level, Ye Tian's combat power was enough to bridge a major realm gap.

With a piercing sound, the Spear of Hellish Void penetrated the Chaotic Ferocious Mammoth's body and exploded inside, shattering countless cells and its life force.

With a thud, the Chaotic Ferocious Mammoth fell, its life force slowly ebbing away, having been killed instantly by Ye Tian.

Seizing the moment the Chaotic Ferocious Mammoth died, Ye Tian stepped over its corpse and rushed forward.

At that moment, other Chaotic Ferocious Mammoths also charged towards him, attempting to intercept Ye Tian.

Ye Tian employed his spatial power to increase the distance between them and fend off the attacks of these Chaotic Ferocious Mammoths, while continuously using his time talent to employ the ability to freeze time.

Under Ye Tian's various strategies, many of the Chaotic Ferocious Mammoths couldn't even get close to him.

Finally, Ye Tian broke out of the encirclement of the Chaotic Ferocious Mammoth group and made a successful escape.

However, at that moment, Ye Tian noticed someone following him—Li Xin'er! Dressed in flowing white robes, she looked like a fairy, completely unharmed and at ease, obviously having had an easy time during their escape.

Swiftly, Li Xin'er flew to Ye Tian's side and said, "Prince of Ten Thousand Laws, would you mind if we joined forces?"

"Of course!" Ye Tian nodded.

Li Xin'er undoubtedly knew more about the Chaos Mini World than she had revealed to him earlier.

Thus, it might be better to stick with her.

The two concealed their presence and continued flying.

Along the way, Li Xin'er was full of praise for Ye Tian: "I had heard that the Prince of Ten Thousand Laws was the universe's number one genius, overpowering the myriad races. I thought it was an exaggeration, but just now, seeing the Prince instantly kill a peak Great God level chaos creature, the rumors are indeed true."

"You flatter me, Fairy Xin'er. My strength is still far from sufficient..." Ye Tian humbly said.

Then, Ye Tian asked, "Fairy Xin'er, where should we head to next?"

Li Xin'er was silent for a moment before speaking, "Prince of Ten Thousand Laws, I won't hide it from you any longer, I indeed know some information that others do not.

There's a place that might hold great fortune.

Although others are generally less powerful, your strength, even though at the True God level, is formidable. Moreover, we might still need your God-level spatial and time talents."

Under Li Xin'er's narrative, Ye Tian became aware of that place.

It turned out that the Primordial Divine Mountain had not only sent one batch of puppets but several, some of which were top-tier puppets comparable to monstrous Great God level beings and possessed self-awareness.

This batch of puppets had entered the Chaos Mini World and discovered many treasures and pieces of information, including the place Li Xin'er mentioned, which was dubbed Giant Wolf Mountain by the Primordial Divine Mountain.

On Giant Wolf Mountain lay a corpse of a wolf-like chaos creature, its oppressive presence dominating the entire mountain and surrounding areas.

According to the investigation, this giant wolf was likely a Universal God level chaos creature, unfortunately unable to withstand the cosmic origin force after the Chaos Mini World was swallowed into the universe and was directly eradicated.

On Giant Wolf Mountain was an ancient well, atop which lay a clear, silver liquid that seemed valuable but was occupied by a Silver Wolf, which was very likely the offspring of that Universal God giant wolf, surviving only because it was at the peak Great God level.

Originally, when the puppets entered Giant Wolf Mountain, they saw many chaos creatures attacking this Silver Wolf, but it killed them one by one.

The strength of that Silver Wolf was terrifying to the extreme, even discovering the puppets and killing them with one move.

If it weren't for the fact that the Silver Wolf didn't recognize the puppets, it wouldn't have allowed the core of the puppet to escape, thus sending the information out.

"Prince of Ten Thousand Laws, according to the information, that Silver Wolf's combat power should be equivalent to a Great God-level first-tier Eternal Prince.

My strength is only equivalent to a third-tier Eternal grade Prince, and while I can temporarily possess the strength of a second-tier Eternal grade Prince with some secret treasures, I'm still no match for that Silver Wolf," Li Xin'er said.

"Fairy Xin'er, my cultivation is only at the True God level, and I'm not an opponent for that Silver Wolf either!" Ye Tian quickly responded.

He had estimated his own strength; at most, he could contend with a Great God-level third-tier Eternal Prince, roughly similar to Li Xin'er. If Li Xin'er used some secret treasures, he might still not be her match.

After all, bridging the gap in such a significant realm was too difficult.

"Prince of Ten Thousand Laws, you possess a time talent and can wield the Blade of Time. As far as we know, that Silver Wolf is not young. If you continuously use the Blade of Time to erase the opponent's lifespan, perhaps there's a chance to kill it. I'll take responsibility for restraining it, giving you enough time to wield the Blade of Time!" Li Xin'er suggested.

“Okay!” Ye Tian agreed.

In terms of survival tactics, he was not inferior to anyone.

Even if there were unexpected situations, he still had confidence in escaping.

Immediately, Ye Tian and Li Xin’er hurried towards Giant Wolf Mountain.

Before long, the two arrived in the domain of Giant Wolf Mountain.

At this point, Ye Tian had already sensed the aura of the divine giant wolf, which somewhat oppressed him.

After a while, Ye Tian finally saw the Universal God Wolf.

This giant wolf was silvery-white, with a faint golden tint at its brow.

Its size was enormous, about thirty li, and its oppressive force far surpassed that of a typical Universal God.

Ye Tian believed its strength was enough to rival the most defiant Universal Gods because its physical body was truly powerful, far surpassing all the Gods of this universe.

The two continued to approach, constantly concealing their auras.

Soon, Ye Tian was not too far from the corpse of the giant wolf.

At that moment, he used his Copy Talent to check the talents of this giant wolf.

Type: Golden Glow Silver Wolf

Bloodline Talent: Chaos Level

Strength Talent: God level

Speed Talent: God level

Defense Talent: God level

Claw Technique Talent: Supreme Level

Golden Light Talent: God level

“This Golden Glow Silver Wolf has excellent talents!” Ye Tian assessed inwardly.

He looked around, and Giant Wolf Mountain was littered with the corpses of chaos creatures, including many powerful peak Great God level chaos creatures.

Li Xin’er, seeing these chaos creature corpses, waved her hand and collected them into her spatial artifact.

“Primordial Divine Mountain needs to study some chaos creatures, so I’m taking some back!” Li Xin’er said.

Seeing this, Ye Tian also collected some chaos creatures. Not to mention their research value, their true worth was very high. If sold, they could fetch a significant amount of Divine Crystals. He did not need these chaos creature corpses himself, but he could hand them over to the Tian Pavilion, which would aid in its development.

However, before the two had gathered many chaos creature corpses, a wolf’s howl emanated from the mountaintop.

Following that, a streak of silver light flashed.

“Be careful, the Great God-level Silver Wolf is coming!” Li Xin’er warned.

Instantly.

Li Xin'er was adorned in a set of incredibly ornate armor, robe, boots, and helmet, each piece unmistakably an Origin Artifact-level weapon.

With her Great God-level cultivation, she could just about activate an Origin Artifact.

Moreover, the sword in Li Xin'er's hand was also an Origin Artifact, and a top-tier one at that.

At the same time, Li Xin'er also consumed some life-preserving medicinal pills.

The next moment.

The battle began.

Fully armed and bolstered by many treasures, Li Xin'er managed to barely block the Silver Wolf's attacks.

Of course, it was just barely. She was still in a constant state of injury.

The gap between them was still too large, fundamentally difficult to contend with.

"Prince of Ten Thousand Laws!" Li Xin'er's consciousness transmitted a message.

Ye Tian wasted no time, deploying his Divine Space Talent and using spatial power to suppress the Silver Wolf, assisting Li Xin'er.

Then, Ye Tian also unleashed his temporal divine ability—Spear of Time.

Once mastered to a major realm, the Spear of Time could reduce an enemy's lifespan by 300 years and could be used ten times a day.

But now, Ye Tian had already perfected the Spear of Time to the Perfected Realm.

With his current cultivation, when deploying the Spear of Time, he could reduce an enemy's lifespan by up to 500 years, with a maximum of twenty uses per day.

This meant that Ye Tian could reduce an enemy's lifespan by a total of 10,000 years.

He was not sure how many years of life the Silver Wolf had left, but losing 10,000 years of life was undoubtedly a severe loss.

Moreover, the Spear of Time not only reduced lifespan but also vitality and state.

Once it lost 10,000 years of life, the Silver Wolf would definitely be in a weakened state.

"Spear of Time!" Ye Tian activated this temporal divine ability, targeting the Silver Wolf.

The Spear of Time divine ability activated almost instantaneously, and as the Silver Wolf was engaged in combat, it completely ignored Ye Tian, thus being struck by Ye Tian's Spear of Time.

"Roar!!!" The Silver Wolf howled in pain, feeling a portion of its vitality disappear and its condition weaken slightly.

It was enraged in an instant.

Swish! It charged at Ye Tian, and although Li Xin'er tried to intercept the Silver Wolf, she was knocked away by the enraged wolf.

At that moment, instead of thinking of escaping, Ye Tian continued to deploy the Spear of Time, striking the Silver Wolf again, causing it to lose another 500 years of life.

"Prince of Ten Thousand Laws, escape quickly!" Li Xin'er's consciousness transmitted again.

She had underestimated the Silver Wolf's strength. Its physical strength was too formidable, and it was too fast; she struggled to hold it back.

In fact, she had completely assessed this Silver Wolf's strength based on the cosmos's first-tier Eternal grade Prince-level Great Gods but forgot that the Great God-level in chaos cannot be measured by cosmic standards.

Perhaps their combat power was similar, but the degree of difficulty was even more formidable.

"Don't worry!" Ye Tian smiled slightly.

Thump! A beam of golden light shot out from the brow of the Silver Wolf, piercing Ye Tian's body.

If it were any other True God, they would have been reduced to ashes.

But Ye Tian's body was pierced, and yet he was completely unharmed.

"Spear of Time!" Ye Tian launched another attack.

Subsequently, no matter how the Silver Wolf attacked Ye Tian, it could not harm him.

Instead, Ye Tian's Spear of Time struck the Silver Wolf repeatedly, causing it to lose more and more life, and its condition became increasingly weaker.

Eventually, Ye Tian's twenty uses of the Spear of Time all hit the Silver Wolf, putting it into a weakened state.

Li Xin'er also rejoined the battle, and after a prolonged fight, Ye Tian and Li Xin'er still could not defeat the Silver Wolf.

At that time, Ye Tian suggested retreating for now and returning to deal with the Silver Wolf when the Spear of Time could be used again.

Thus, Ye Tian and Li Xin'er left, and the Silver Wolf did not dare to attack again.

From a distance.

Ye Tian and Li Xin'er stopped to rest.

"Prince of Ten Thousand Laws, how come you were attacked so many times by that Silver Wolf and yet were completely unharmed?" Li Xin'er was very puzzled.

Such a method didn't seem like a talent ability at all; she had never seen such a talent, and it was incredibly defying.

"Secret!" Ye Tian smiled.

In reality, Ye Tian was using his damage transfer talent, transferring all the damage to the Death Flowers in the ancient chaotic realm.

With the Death Flower Emperor and a large number of Death Flowers bearing the damage for him, he naturally wasn't afraid of the Silver Wolf.

However, after this battle, many of the Death Flowers that the Death Flower Emperor had painstakingly cultivated were severely injured.

Because of this, Ye Tian chose not to continue fighting and instead to leave, as the Spear of Time needed time to recover, and those Death Flowers also needed time to heal.

Chapter 595: The Sixth Stage of Chaotic Life!

In order to hasten the recovery of the Flowers of Death, Ye Tian sent some of his healing treasures to the Ancient Chaos Realm to assist the flowers in healing.

Thus, a day passed.

"Fairy Xin'er, let's go bother that Silver Wolf again!" Ye Tian suggested.

"Alright!" Li Xin'er nodded in agreement.

Immediately, the two of them returned to Giant Wolf Mountain.

At the summit.

The Silver Wolf, seeing Ye Tian and Li Xin'er return, was angry but also wary.

The previous day, Ye Tian had erased a hundred thousand years of its lifespan, which it had certainly felt, and it was still somewhat weak.

Now that Ye Tian was back, if he were to use the same method as yesterday, it would be troublesome.

But this was its lair, and it was not going to give it up.

Fight! The Silver Wolf charged out again, attacking Ye Tian.

The battle resumed.

However, this time, Ye Tian took the lead, with Li Xin'er providing support.

After all, Ye Tian was not afraid of injury. No matter how fierce the Silver Wolf's attacks, he could transfer the damage to the Flowers of Death, and only if the Silver Wolf's attacks completely annihilated the flowers would Ye Tian truly be injured.

"Blade of Time!"

"Blade of Time!"

"Blade of Time!"

Ye Tian repeatedly used the Blade of Time, each time seizing the opportunity perfectly. The Silver Wolf could not evade and was hit repeatedly, again having a hundred thousand years of lifespan erased.

At this point, the Silver Wolf already appeared aged, its vitality much weaker than at its peak.

After the weakness, the Silver Wolf couldn't even severely injure Ye Tian, barely managing to hold its ground against the combined attack of Ye Tian and Li Xin'er.

Time slowly passed, and the Silver Wolf began to suffer injuries.

"Spear of Hellish Void!"

Ye Tian unleashed a major spatial divine ability on the Silver Wolf. Countless spatial forces crushed a large number of the wolf's cells, causing it significant injury.

Before long, feeling outmatched, the Silver Wolf attempted to flee.

But how could Ye Tian allow the Silver Wolf to escape?

"Ten Thousand Layer Realm!"

"Time Stagnation!"

Using his talents in both time and space, Ye Tian did his utmost to prevent the Silver Wolf from leaving, and with Li Xin'er also starting to use some disposable attack treasures, they aimed to inflict massive damage on the Silver Wolf.

Finally, with a mournful howl, the Silver Wolf was utterly reduced to a corpse.

"We finally killed that Silver Wolf!" Li Xin'er sighed in relief.

Although she had many life-saving treasures, she was also not lightly injured at this time.

She glanced at Ye Tian, who had borne the brunt of the attacks, yet appeared unharmed.

She couldn't understand how Ye Tian was immune to the Silver Wolf's attacks.

Such a method was too monstrous!

Swiftly, Ye Tian and Li Xin'er flew to the summit of Giant Wolf Mountain, soon encountering an ancient well.

"This well resembles the Ancient Chaos Well!" Ye Tian remarked.

"Indeed it does, but it's not the Ancient Chaos Well," Li Xin'er stated.

Looking at the silver liquid in the well, they hesitated for a moment before each took a bit.

Ye Tian swallowed a bit of the silver liquid, testing its effect.

Boom!!! Suddenly, Ye Tian's body began to absorb the energy contained in the silver liquid, and his flesh, which had already reached the peak of True God level, gained a bit more strength.

Although this increase was very subtle, Ye Tian felt it distinctly.

Conversely, after Li Xin'er tried a bit of the silver liquid, she frowned, seemingly feeling nothing.

"No effect, how could this be?" Li Xin'er felt very puzzled.

For her, the silver liquid seemed to have no effect.

Then, Ye Tian explained, "Fairy Xin'er, this silver liquid enhances physical strength, but your body's strength is already fixed and can't continue to improve. Thus, you can't enjoy the benefits of this substance."

"I see!" Li Xin'er suddenly understood.

She then looked curiously at Ye Tian.

“Prince of Ten Thousand Laws, could it be that you can continue to enhance your physical strength?” she asked.

She had always felt that Ye Tian’s physical strength was terrifying, but due to concerns about secrets, she hadn’t inquired, but now she couldn’t help asking.

“Indeed!” Ye Tian nodded.

He then explained, “Actually, once one breaks the universal limits at the Emperor level and reaches the Supreme Emperor level, one gains the qualification to ignore the physical strength limit. However, this undoubtedly means defying the universe, resulting in oppression by the cosmic origin, and even the status of Child of the Universe is stripped away. So, now I am no longer a Child of the Universe!”

“Emperor level breaking through to Supreme level power!” Li Xin’er gasped.

All along, she had thought it was impossible for an Emperor to become a Supreme Emperor, which was common knowledge. The Invincible Eternal Child level was the limit of an Emperor.

Ye Tian explained to her that at the Emperor level, by breaking through limits and becoming a Supreme Emperor, one could continue to enhance physical strength even beyond the God level.

Li Xin’er was very aware that this step would be exceedingly difficult, attainable only by true talents who defied the heavens.

However, what she did not know was that Ye Tian had not only reached the level of Supreme Emperor, but he had also become a Child of the Era at the God level.

If she had known this, she probably would have been astounded.

“Li Xin’er, as per our agreement, we’ll split the silver liquid from this well half and half, how about that?” Ye Tian proposed.

“Agreed!” Li Xin’er nodded.

Immediately, Ye Tian extracted the silver liquid from the well.

The well was vast, filled with a substantial amount of the silver liquid.

Ultimately, Ye Tian and Li Xin'er each obtained about ten tons of the silver liquid.

Subsequently, Ye Tian and Li Xin'er spent a few more days together in the Mini Chaos World, during which they also collected some valuable items, mostly chaos materials.

These included various chaos spiritual flowers and plants, which were not only helpful for Ye Tian's cultivation but also highly valuable if sold.

One day.

Ye Tian decided to part ways with Li Xin'er, as continuing together meant that the treasures they could obtain would be limited.

Splitting up to search for resources might yield more gains.

Moreover, with Ye Tian and Li Xin'er's life-preserving skills, as long as they didn't seek death deliberately, the possibility of encountering danger was not too great.

Thus, they separated.

The Mini Chaos World was vast, and Ye Tian randomly chose a direction to travel swiftly by instant movement.

In the blink of an eye, a month had passed.

On this day.

Ye Tian sensed a faint aura of oppression. Although subtle, this aura made him feel a sense of submission.

“The oppressive aura of a powerful chaos creature’s corpse!” Ye Tian immediately realized.

Moreover, this aura was many times stronger than that of the corpse of the gold-glaring Silver Wolf.

Swish! Ye Tian flew towards the source of the oppressive aura.

If it were a living powerful chaos creature, Ye Tian would definitely not dare to approach, but a deceased one was within his bounds of courage.

Before long, Ye Tian arrived at a forest.

There, in the center of the forest, lay a gigantic python-like chaos creature, its body sprawling across like a mountain range.

“This is a Dominator level creature!” Ye Tian exclaimed in surprise.

It wasn’t just that it was a Dominator level creature that shocked Ye Tian, but that this chaos creature’s level of life was much higher than his.

It was definitely not a fourth-tier chaos creature, but a sixth-tier chaos creature.

“Being a sixth-tier chaos creature, it’s impossible to find one in this universe. Even Universal Gods are merely pseudo-fourth-tier beings, and Supremes are at most pseudo-fifth-tier. None can compare to the sixth-tier being before me.” Ye Tian thought.

Then, Ye Tian began to get excited.

The Heavenly Origin True Method, suggested a method cultivating life from the fourth to fifth level—using the life essence of a sixth-tier being to aid cultivation.

Under normal circumstances, a sixth-tier being would never extract their life essence as it would destabilize their level of life.

Thus, he could only seek the corpse of a deceased sixth-tier being.

But in a universe without sixth-tier beings, how could one find a sixth-tier corpse? Therefore, previously, Ye Tian had discarded this method.

But now, the corpse of a sixth-tier chaos creature lay before him, how could he not be shocked and thrilled?

Of course.

Now the only problem was how to approach this Dominator level chaos creature. The oppressive aura was too strong, and reaching the life level of the sixth-tier made it extremely difficult to approach the corpse.

“Let’s try it out!”

Ye Tian attempted to walk closer.

But having barely made any progress, the intense pressure nearly immobilized him.

Out of options, Ye Tian tried to transfer the damage to the Flowers of Death, which made it slightly more bearable, but as he got very close to the chaos creature’s corpse, he was almost overwhelmed.

“Could it be that I really can’t approach this Dominator level chaos creature’s corpse?” Ye Tian wondered.

Just then, a flash of black light appeared within the Ancient Chaos Realm, enveloping Ye Tian.

At this moment, the oppressive aura vanished.

“This is...”

Ye Tian was astounded.

The black light was emitted from the Chaos Black Lotus, which he had always believed was an item surpassing Chaos Spiritual Treasures, yet he had never known its purpose until now.

In this critical moment, the Chaos Black Lotus emitted light that protected him, shielding him from the oppressive aura of the Dominator level chaos creature's corpse.

"Truly a valuable item!" Ye Tian was very excited.

Seizing this opportunity, he hurriedly ran to the corpse of the Dominator level chaos creature.

Then, he pulled out a top-tier divine saber and began to pierce the skin of the chaos creature.

Had this been a living chaos creature, Ye Tian, no matter how he attacked, would not have been able to breach its defenses. But now that it was dead, unable to use defensive talents, its bodily defenses were not overly formidable.

With Ye Tian's full force piercing through, he finally breached the chaos creature's skin, with trickles of fresh blood flowing out.

Instantly, Ye Tian immersed his hands in the blood, silently practicing the fourth level of the Heavenly Origin True Method.

Boom! Countless essences of life seeped from the blood into Ye Tian's body, aiding him in his surge toward the fifth level of life.

Chapter 596: The Dark Ape! An Unknown Assessment!

To advance from the fourth stage of life to the fifth stage using the Heavenly Origin True Method, one required a large amount of essence of life from a sixth-stage being.

However, the chaos creature at the Dominator level was enormous, and its life essence was exceptionally abundant.

More importantly, this chaos creature had not been dead for long, so much of its life essence had not dissipated.

Had it been dead for countless ages, hardly any life essence would have remained.

It could be said that Ye Tian was quite lucky.

As time passed, Ye Tian absorbed a vast amount of the chaotic life essence. This essence was consumed to enhance his life level, with a portion stored within his body until the final moment when it burst forth, facilitating Ye Tian's ultimate transformation.

A day passed! Two days passed!

In the blink of an eye, seven days had gone by.

By this time, the aura of the chaos creature's corpse had weakened somewhat, and much of its blood had been drained, all refined by Ye Tian.

Ye Tian's life aura had also significantly strengthened, but he still remained at the peak of the fourth stage of life, just shy of the fifth stage.

"It's about time!" Ye Tian muttered.

Immediately, he fully activated the Heavenly Origin True Method, causing all the stored sixth-stage life essence within him to surge forth.

Instantly, Ye Tian's body began its transformation.

Countless life auras enveloped Ye Tian, forming a cocoon around him. Inside this cocoon, he endured the baptism and transformation of life.

The difference between the fourth and fifth stages of life was substantial, a complete qualitative transformation.

Apart from having a lifespan nearly equivalent to that of the universe, the fourth stage didn't offer much else special.

However, the fifth stage was different, possessing an intense life force which gave a terrifying recovery speed that wasn't linked to talents.

Thus, a fifth-stage being, when facing an opponent of the same level, would be dominant and nearly impossible to kill.

Several days later.

The cocoon shell cracked, and Ye Tian, clad in armor, stepped out with a life aura far surpassing his previous state.

The next instant, Ye Tian reined in his life aura, becoming more unassuming.

“Finally reached the fifth stage of life. Entering the Chaos Mini World was indeed a wise decision! If it were in the outside world, it would have taken me countless years to find a sixth-stage life corpse!” Ye Tian murmured.

Having become a fifth-tier being, Ye Tian felt that the strength in his body, celestial force, and celestial soul could continue to improve.

Therefore, Ye Tian spent some time in seclusion to cultivate.

With a 300-fold time acceleration and abundant cultivation resources, it didn't take Ye Tian much time to completely enhance his physical strength, celestial force, and celestial soul to their current limits.

At this moment, Ye Tian's combat power had increased manifold.

“Back to being a Child of the Era!”

Ye Tian was certain that his current combat power had returned to the level of a True God Child of the Era.

He had thought it would take a long time to return to the Child of the Era, but to his surprise, it hadn't been long before he was back to the strength of a True God Child of the Era.

It could be said that Ye Tian was very lucky.

Perhaps this was related to his enjoyment of the celestial race's destiny. Although he had been stripped of the Child of the Universe status by the universe's origin, being the first of the celestial race and one of the founders of the celestial plan, he enjoyed the entire celestial race's destiny.

As a result, his destiny was now stronger than before.

With strong destiny comes good luck.

After the breakthrough in strength, Ye Tian left the area. As for the corpse of the Dominator-level chaos creature, Ye Tian tried to store it in his Xumi Storage Realm but failed.

Without the aid of the Chaos Black Lotus, he wouldn't even have had the qualifications to approach the corpse of a Dominator-level chaos creature.

Ye Tian estimated that the strength of this chaos creature might be comparable to a Supreme in the universe.

Ye Tian could interact with Supremes because they reined in their aura; if they released it, just the aura alone would be enough to kill him.

This level of chaos creature's corpse was beyond his ability to take.

Reluctantly, Ye Tian had to abandon this chaos creature's corpse.

After leaving, Ye Tian sought other opportunities.

Suddenly, one day.

The sky shattered and a terrifying battle aura emerged.

Ye Tian's eyes widened as he saw a black ape and a blood-red giant dragon fighting in the distance, their battle fluctuations far exceeding Ye Tian's imagination.

"These two chaos creatures are definitely among the most terrifying Great God-level beings in the Chaos Mini World!" Ye Tian exclaimed.

That silver wolf paled in comparison to these two chaos creatures. Even though Ye Tian's strength had increased many times over, reaching the level of a True God Child of the Era, he was no match for these two beings.

Suddenly.

The black ape suddenly grew several times larger, grabbed the blood-red giant dragon, and tore it apart, scattering its blood across the void.

Instantly, only the ape's roar remained in the heavens and the earth.

As for the blood-red giant dragon, it was completely dead.

"Better leave this area quickly; encountering this black ape would be real trouble!" Ye Tian thought.

Whoosh! He changed direction and quickly departed, not daring to look back in that direction.

However, the next moment.

A black ape appeared in front of Ye Tian, staring at him.

Seeing this black ape, Ye Tian was quite helpless.

Clearly, this black ape was the one that had torn the blood-red giant dragon apart.

The opponent's speed was too fast, leaving Ye Tian no time to react.

At this moment, countless thoughts flashed through Ye Tian's mind.

He was looking for a way to survive. Although he possessed the talent of a decoy death, there was no guarantee that the ape wouldn't be able to find his true body, as the decoy death talent could only be used once in a short period.

So, there was only one chance! Time ticked away, and the black ape just stared at Ye Tian without making a move.

"You are not a creature of this world!" The black ape suddenly spoke.

"How do you know?" Ye Tian widened his eyes and asked.

"Aura!" The black ape said, "The aura on you is out of sync with this world; I can feel it. You must be a being from the outer universe, right?"

This made Ye Tian even more surprised.

This black ape even knew about the universe and possessed high intelligence.

Up until now, the intelligence of the chaos creatures in this world had not been very high, but this black ape was an exception.

"How do you know about the universe?" Ye Tian asked.

He didn't know if the ape would answer, but he asked anyway.

"Inheritance!" The black ape said, "Our race has an inheritance, so we know about the universe. Moreover, I also know that our mini-world has been swallowed by the universe, so those powerful beings are all dead. I will give you a chance. Come with me to a place for an assessment. If you pass, I will let you go. If you fail, sorry, but I will kill you."

With that, a hint of killing intent burst forth from the black ape.

Ye Tian was certain that the black ape was not joking.

At this moment, Ye Tian hesitated.

If he chose to use his death substitution talent to escape, there was a chance, but the talent's level was too low. Facing such a terrifying black ape, there was a significant chance of failure.

As for the flower of death, it also could not preserve Ye Tian's life.

The black ape only needed to attack again and again to obliterate all the flowers of death.

“Alright, I will go with you!” Ye Tian chose to agree.

Perhaps this was an opportunity. If he failed the assessment, he could still choose to flee later.

“Very well, then follow me!” The black ape said.

Immediately, Ye Tian used his copy talent to discern the name and talents of this black ape.

Species: Dark Heavenly Ape

Bloodline Talent: Mixed-grade

Strength Talent: God-level

Speed Talent: God-level

Punching Talent: Supreme

Claw Talent: Supreme

Stick Fighting Talent: Supreme

Darkness Talent: God-level

Spatial Talent: God-level

“It even has a God-level spatial talent. It didn’t use any spatial techniques before; it seems it had plenty of reserve when facing that red dragon!” Ye Tian thought.

It seemed that this Dark Heavenly Ape was even stronger than he had imagined.

Moreover, the bloodline talent of this Dark Heavenly Ape was very high, reaching a mixed-grade. Given the opponent’s combat power, it completely had the potential to become a Supreme in the future, and one stronger than the Supremes within the universe.

Before long, Ye Tian followed the Dark Heavenly Ape to a divine mountain.

At that moment, Ye Tian was surprised to discover that there were buildings on the mountain! Yes, buildings, and they were palace-type structures.

Given the lifestyle of these chaos creatures, it was unlikely they would build structures.

Moreover, this palace was extremely majestic, with a very strong aura, definitely not something that a Great God-level being could construct, and this palace also contained arrays.

“Why is there a building here?” Ye Tian asked.

“It was built by the Master!” The Dark Heavenly Ape replied.

“You have a master too?” Ye Tian’s pupils shrank.

“Not my master!” The Dark Heavenly Ape explained, “It’s the master of our clan. The master left this place countless ages ago, leaving only our race to guard here. When this mini-world was swallowed into the universe, my elders left in advance, leaving only me to guard.”

This information unsettled Ye Tian considerably.

From the words of the Dark Heavenly Ape, Ye Tian learned much.

The master of this palace was a strong being within the chaos, and as for what identity, that was hard to guess; it could even be a being surpassing the Supremes.

Of course, it could also just be a Supreme.

Moreover, the Dark Heavenly Ape's race had long known that this mini-world would be swallowed by the universe, which was quite remarkable.

“Go in, enter the palace, and participate in the assessment!” The Dark Heavenly Ape urged.

“Alright!” Ye Tian nodded and entered the palace.

At this moment, Ye Tian felt both anticipation and nervousness.

He did not know what kind of assessment he was about to undergo, but this might be an astounding opportunity, surpassing any he had ever encountered before.

Chapter 597: The True Chaos Technique!

As Ye Tian entered the palace, what he saw was an endless darkness.

Suddenly, a pulling force emerged, and Ye Tian was sucked into an unknown space.

Then, light burst forth before his eyes, and his vision started to expand.

At this moment, Ye Tian found himself in a large hall.

With a flash of white light, a young girl appeared before Ye Tian.

“An artifact spirit!”

Ye Tian recognized her at a glance.

The young girl, an artifact spirit, greeted Ye Tian with a smile, “I’m delighted to meet you, cosmic being. You are the first cosmic being to enter this Golden Desolation Hall!”

“Cosmic being!”

While Ye Tian found the title a bit strange, to the beings of chaos and the artifact spirits, he indeed qualified as a cosmic being, making the title quite fitting.

“Artifact Spirit, the monkey outside mentioned that I need to undergo a trial. May I know what the trial involves?” Ye Tian inquired.

The young girl replied, “I’m not entirely sure what the content of the trial is, as it was set by the master. You’ll only find out once you enter.

What I can tell you is that the trial is specifically prepared for cosmic beings, and your universe has been chosen for this. You are the third person fortunate enough to come here.

If you fail the trial, other cosmic beings will continue to come for the trial until someone succeeds!”

“The third participant in the trial?”

Ye Tian was initially surprised, then he speculated that the first two participants must have been the Great Gods of the Primordial Divine Mountain.

Since he was still eligible to participate in the trial, it indicated that the previous two Great Gods might have failed, and their likely fate was being killed by the Dark Heavenly Ape.

At this point, he finally understood why the Dark Heavenly Ape had chosen him for the trial instead of selecting the chaos creatures from the small chaos world. It turned out that those chaos creatures were not qualified to participate in the trial, nor was the Dark Heavenly Ape itself.

Only true cosmic beings were eligible to participate in the trial.

As for why cosmic beings were chosen, Ye Tian was not sure.

Fortunately, he was a cosmic being, or else the Dark Heavenly Ape would not have hesitated to attack him.

“I must pass the trial, otherwise, I’ll face the danger of the Dark Heavenly Ape as well!” Ye Tian thought.

“Cosmic being, go ahead!” The young girl waved her hand, allowing Ye Tian to enter the trial.

With a swish! Ye Tian found himself in a void.

Then, beams of light enveloped him, unclear of their purpose.

The light held no offensive power, but it could not be obstructed.

Soon, a few minutes passed.

A voice transmitted, “Testing completed, you qualify as a cosmic transcender, the first round of testing is over, preparing for the second round!”

Boom! A huge ape wielding a golden cudgel appeared before Ye Tian’s eyes. The cultivation of this ape was only at the True God level, far inferior to the Dark Heavenly Ape, but its combat power was terrifying.

This aura far surpassed those of True God princes in the universe, with a fleshly body of incredible strength.

Ye Tian used his Copy Talent to check, and found that this ape was not a real being, but a phantom, yet its combat strength was no different from that of a real creature.

Suddenly.

The giant ape swung its cudgel viciously, shaking the void.

Ye Tian swung his sword in response, clashing with the cudgel with a thunderous roar! The giant ape was sent flying, its body cracking continuously until it turned into ashes.

Although he killed the giant ape in one move, there was no sense of excitement.

From the brief exchange, this giant ape had clearly reached the power level of a Supreme Prince, and in this era's universe, apart from him, no one could defeat this giant ape.

"This trial is indeed difficult!" Ye Tian muttered to himself.

After defeating the giant ape, the trial did not end. The second creature appeared.

This time it was not a giant ape, but a creature resembling a mantis, incredibly fast and with an attack power equivalent to that of a powerful Supreme Prince.

However, Ye Tian also easily defeated this mantis creature.

Then, the third creature appeared.

This creature was a chubby sphere, with extremely terrifying defensive power. Ye Tian estimated that even a top-tier Supreme Prince might not be able to break through its defenses.

At the beginning, Ye Tian only demonstrated the combat power of a top-tier Supreme Prince, which surprisingly did not completely defeat the creature.

Eventually, Ye Tian unleashed the power of the Child of the Era and managed to vanquish it.

"There shouldn't be any more, right?" Ye Tian thought to himself.

Suddenly, another figure emerged—a humanoid creature.

This being had dark scales covering its body, a single horn on its head, and green eyes, looking quite eerie.

Moreover, the aura emanating from this figure was filled with chaotic energy, identifying it as a species from chaos, not a cosmic being.

The figure, wielding a long spear, launched an attack at Ye Tian.

Boom! Ye Tian battled fiercely with this opponent, neither gaining the upper hand.

“Spear of Hellish Void!”

“Spear of Time!”

“Heavenly Moon Saber!”

“Five Elements Divine Wheel!”

“Thousand Realms!”

Ye Tian held nothing back, deploying all his methods to unleash his utmost combat potential, yet he still couldn’t defeat the opponent.

“It’s actually a True God-level Child of the Era!” Ye Tian exclaimed in surprise.

This trial was exceedingly brutal. He was fortunate to possess the Copy Talent, along with numerous fortuitous encounters, to have the power of a Child of the Era.

If it were any other cosmic being, how could they possibly possess such strength?

Such a trial was virtually impossible to pass! Moreover, he wasn't even sure if this was the final test. If there were even more extreme challenges ahead, he certainly wouldn't be able to complete them.

After a prolonged battle, Ye Tian utilized his recovery speed and gradually gained the upper hand, eventually sending his opponent flying with a single strike, and the Child of the Era disappeared.

Clearly, Ye Tian had passed the trial.

"Congratulations on successfully completing the second round. You will now proceed to the third and final round of the trial!" the voice of the artifact spirit came again.

"What, a third round? It can't be another battle, can it?" Ye Tian tensed up internally.

Soon, the third round of the trial began.

This time, it was not a battle but rather the comprehension of a diagram.

In the void, a massive stone carving appeared, depicting a figure sitting cross-legged on a lotus.

"Comprehend the Chaos Stele, create a True Chaos Technique within three years! The use of time acceleration abilities and similar is forbidden!" the young artifact spirit's voice transmitted.

"What is a True Chaos Technique?" Ye Tian asked aloud.

He indeed didn't know what a True Chaos Technique was, and without knowing what it entailed, how was he to proceed with the trial? Suddenly, a beam of light flew towards him, and Ye Tian absorbed the orb of light, which contained information about the True Chaos Technique.

After browsing through this information, Ye Tian gained some understanding of the True Chaos Technique.

It turned out that the True Chaos Technique was a skill involving the power of chaos, akin to the ultimate techniques known in the universe.

Ye Tian had always followed the path combining the Dao of Chaos and the Dao of the Saber, focusing on creating ultimate saber techniques.

However, the ultimate techniques of chaos were even more powerful.

Unfortunately, this universe had too little understanding of chaos, and no one could teach Ye Tian, making it very difficult for him to create an ultimate chaos technique, also known as a True Chaos Technique.

In the realm of chaos, without a doubt, creating a True Chaos Technique was also challenging; otherwise, it wouldn't be part of the third round of the trial.

If Ye Tian were to create a True Chaos Technique out of thin air, it was definitely beyond his capabilities.

However, the Chaos Stele in the void now gave Ye Tian a chance to create a True Chaos Technique.

“Try to create a True Chaos Technique within three years. Even the simplest one will do; as long as it's created, the trial will be completed!” Ye Tian thought to himself.

Sitting cross-legged, his gaze fixed on the Chaos Stele, Ye Tian began his comprehension.

Chapter 598: Successful Assessment, Prospective Heir!

At the outset, when Ye Tian began to comprehend the Chaos Stele, his consciousness entered into the stele itself.

At that moment, Ye Tian witnessed the operation of numerous Chaos Laws.

Inside the universe, there are actually no true Chaos Laws, as they are formed by the fusion of many laws.

However, within the Chaos itself, it was different; the Chaos Laws existed first and then slowly evolved into other laws.

Thus, in the universe and the Chaos, they were not the same.

At this time, what Ye Tian witnessed was the operation of the Chaos Laws within the Chaos, and under the influence of the Chaos Stele, his comprehension increased manyfold, far surpassing his usual understanding of the Chaos Laws and the Great Dao of Chaos.

Simultaneously, Ye Tian also saw an image: a figure sitting cross-legged on a lotus flower, which was formed from the condensation of numerous Chaos Laws into a Chaos Dharma form.

This was not a real image, but one evolved from the Chaos Stele.

With such an image, Ye Tian could completely create a similar True Chaos Technique based on the Chaos Laws contained in this image, which was much easier than creating a True Chaos Technique from scratch.

Even so, the difficulty was immense, and with only three years and no use of time acceleration, the difficulty was even greater.

“The young female spirit forbade the use of time acceleration, but she didn’t forbid the use of other external objects.

I have a comprehension talent, which can increase comprehension by 20 times. Although the effect might not increase much, it is still effective.”

Thus, Ye Tian activated his comprehension talent.

After the increase in comprehension, Ye Tian began attempting to create the True Chaos Technique.

He started with simple movements, failing again and again, and summarizing each failure.

In the blink of an eye, a year passed.

On this day.

Ye Tian initially created an attack method and used the Chaos Laws to condense into a shield, forming a defensive method.

However, when he created it and released it, the spirit informed him that it was not up to standard.

“The method you created has not reached the minimum threshold of a True Chaos Technique; it can only be considered a minor chaos secret technique,” the young female spirit’s voice came.

He had failed! But Ye Tian did not mind, as only one year had passed, and he still had two years left.

Like this, another year passed, but Ye Tian still failed.

At this time, Ye Tian started to panic.

With only one year left, following his current progress, one year was not enough, and his hope of creating a True Chaos Technique was very low.

“The figure, the lotus, the lotus, right, the Chaos Black Lotus.

My Chaos Black Lotus must originate from the Chaos, and it is also filled with Chaos Laws, just too profound for me to understand.

If combined with the Chaos Stele, then attempting to comprehend and create a True Chaos Technique might be effective.”

Thinking this, Ye Tian’s consciousness entered the Chaos Black Lotus while another part connected with the Chaos Stele.

Combining the two, he began to comprehend.

Soon, Ye Tian had numerous insights and was astonished.

The laws contained in the Chaos Black Lotus were even higher than those in the Chaos Stele, and through the analysis of the Chaos Stele, Ye Tian gradually understood part of the laws of the Chaos Black Lotus.

Thus, Ye Tian immersed himself in the Chaos Black Lotus and the Chaos Stele, striving to create a True Chaos Technique.

Unbeknownst to him, another year was almost over.

Only half a month was left in the three-year period, and on this day, Ye Tian showed a joyful smile.

“I’ve finally created it, this time it’s definitely a real True Chaos Technique!” Ye Tian said excitedly.

Immediately, he began to deploy this true technique.

“Black Lotus Realm!”

Boom! A black lotus appeared out of nowhere, completely formed by the Chaos Laws.

Instantly, the petals of the black lotus scattered, forming a barrier that began to contract, crushing the central void to dust.

Although this move’s power could not compare to the Heavenly Moon Saber or the Hell God, and it was somewhat slow to deploy, it was indeed an ultimate technique or a true technique.

All that remained was to wait for the young female spirit’s evaluation. Soon, the voice of the young female spirit descended: “Test, the assessor has created a barrier attack type True Chaos Technique, meeting the assessment standards for a True Chaos Technique, assessment successful!”

Hearing the words ‘assessment successful,’ Ye Tian finally breathed a sigh of relief.

If the assessment had failed, he would have faced the threat of the Dark Ape, and even if he had escaped the Dark Ape’s pursuit, he would have forever missed this opportunity.

Missing the opportunity would have been the most regrettable.

Fortunately, he had successfully passed the assessment, and he was full of anticipation for the rewards after the completion of the assessment.

Splash! Ye Tian was transported back to the previous grand hall.

There, he saw the young female spirit.

At this time, the young female spirit looked at Ye Tian with surprise: "I didn't expect you to actually pass the assessment! This universe is still quite young; I thought it would take a long time, waiting for the Golden Desolation Hall to truly appear, to be known by countless beings in the universe, before slowly producing a cosmic being who passed the assessment.

I didn't expect that the third cosmic being to appear to pass the assessment.

Could it be that this universe era is very strong, full of countless geniuses?"

Ye Tian quickly responded: "I should be considered the most talented in this universe so far!"

"So it seems, the Golden Desolation Hall is indeed lucky to have welcomed a prospective heir so quickly!" The young female spirit explained.

"A 'prospective heir' means..." Ye Tian was very puzzled.

The young female spirit elaborated, "Let me first tell you about the origins of the Golden Desolation Hall. It was created by the owner, the Elder of Golden Desolation. It's not just this one hall; there are many such halls.

In the Chaos, there are quite a few universes like yours.

The owner constructed many Golden Desolation Halls and placed them not far from universes, waiting for the universes to expand and eventually engulf these halls.

This is one of the only ways to let the Golden Desolation Hall enter a universe, as even the owner actually can't enter the interior of a universe.

The reason the owner wants to send the Golden Desolation Hall into universes is to find a suitable cosmic being to inherit it, strictly speaking, a transcendent being of the universe.

Of course, the owner isn't looking for just any ordinary transcendent being, but one that is exceptional in every aspect."

Through his conversation with the young female spirit, Ye Tian gradually came to understand the transcendent beings of the universe and learned a very shocking secret.

In the Chaos, there was an even broader and more competitive world.

In the Chaos, there was no Supreme-limit; as long as one had the talent, one could transcend the Supreme level.

However, in the Chaos, even becoming a Supreme or higher did not count as a transcendent being.

Only beings that have transcended from within a universe are considered Universal Transcendents, and such beings are not constrained by fate, with limitless potential in the future.

This actually relates to transcending space-time, as the soul imprints of cosmic beings exist within the universe's river of spacetime, whereas the soul imprints of beings from the Chaos exist within the Chaos's river of spacetime.

Transcending the universe's river of spacetime is relatively simpler, but the Chaos is so vast and powerful that even beings surpassing the supreme level are mere ants in front of it.

Thus, escaping the space-time of the Chaos is exceedingly difficult, but transcending the space-time of a universe is much easier.

Therefore, once one transcends the space-time of a universe and enters the Chaos, one becomes a transcendent.

Transcendents are incredibly potent, and once they enter the Chaos, their strength increases immensely fast, and they are not constrained by fate, making them the envy of countless chaos creatures.

The owner of the Golden Desolation Hall aims to nurture such a Universal Transcendent, and not just any transcendent.

Hence, the assessment of the Golden Desolation Hall is so formidable.

As for who the owner of the Golden Desolation Hall is and what realm he belongs to, the young female spirit did not elaborate further.

“Assessor, you have passed the assessment. You are fortunate to receive a part of the owner’s legacy, but you are not yet a true transcendent and cannot know everything about the owner.

Once you become a transcendent, come back to the Golden Desolation Hall, and then, everything will be disclosed to you!” the young female spirit said.

Ye Tian nodded.

Immediately, the young female spirit brought two items.

One was the Chaos Stele, and the other was a golden book. “This golden book records the secrets of transcendents and the owner’s proudest Chaos Golden Desolation Technique. The Chaos Golden Desolation Technique is a powerful true method in the Chaos, which can be cultivated up to the transcendent realm.

Its main use is to expand the limits of the physical body, which is very important in the Chaos.

So, you must cultivate the Chaos Golden Desolation Technique extensively in the future!”

The young female spirit advised.

“Understood!” Ye Tian nodded and immediately took the Chaos Stele and the Chaos Golden Desolation Technique.

After Ye Tian stored these two items, he was transported out and arrived outside the Golden Desolation Hall.

“A cosmic being, you actually passed the assessment?” The Dark Heavenly Ape appeared, staring at Ye Tian in shock.

“I just got lucky!” Ye Tian modestly replied.

“I keep my word. Since you have passed the assessment of the Golden Desolation Hall, you are now considered the owner’s prospective heir, and naturally, I can no longer target you!” the Dark Ape declared.

“Then I’ll take my leave!” Ye Tian said as he prepared to leave.

“Don’t rush off. I intimidated you earlier, let me take you to a good place as an apology, how about that?” the Dark Ape quickly offered.

“Sure!” Ye Tian was delighted and agreed.

Immediately, the Dark Heavenly Ape grabbed Ye Tian and sped through the void at a high velocity.

Before long, the Dark Heavenly Ape brought Ye Tian deep underground, quickly reaching an underground space.

Here, Ye Tian saw the corpse of a chaos creature, its imposing presence not inferior to that of the previous dominator-level being.

“This is the lair of the Sky Mangle Beast, also one of the lords of this small world. Unfortunately, it did not know this world would be swallowed by a universe and did not leave in advance, dying here. There are good things in its lair that should be helpful to you!” the Dark Heavenly Ape explained.

Chapter 599: Copy Talent Transforms Again!

“Nice find!”

Upon hearing this, Ye Tian’s eyes gleamed with excitement, and he followed the Dark Heavenly Ape deeper into the lair.

The Sky Mangle Beast’s oppressive aura was powerful, but the Dark Heavenly Ape could barely withstand getting near it and could also protect Ye Tian. This allowed Ye Tian not to worry about the Sky Mangle Beast’s pressure and he didn’t need to attempt to mobilize the power of the Chaos Black Lotus.

As they delved deeper into the lair, the pair arrived at a vast underground nest.

This place was luxuriously decorated by the Sky Mangle Beast, the surrounding rock walls were covered with shimmering crystals, filling the entire lair with a spectrum of colors.

Moreover, there were massive amounts of chaos crystals in the Sky Mangle Beast’s lair, which were of even higher quality than those Ye Tian initially obtained in the Chaos Tide.

Such a vast quantity of chaos crystals, whose value was exceedingly high, were piled up here like common stones.

Of course, these chaos crystals were undoubtedly the more commonly valued treasures; there were many other treasures as well.

The Dark Heavenly Ape had no interest in ordinary treasures, for it was once one of the overlords of this minor world. Although the other powerful Dark Heavenly Apes had left, the resources that remained were abundant.

If it weren’t for the fear of advancing to the Planetary System level, it would have already used those resources to break through to the Planetary System level, Galaxy level, or even the Universal God realm.

“This place is full of the Sky Mangle Beast’s treasures; take whatever you find useful.

When the Sky Mangle Beast was alive, nobody dared to enter here.

Unfortunately, the Sky Mangle Beast is now dead, and we can come and go as we please,” said the Dark Heavenly Ape.

“Don’t you want these treasures?” Ye Tian asked.

“They’re of no use to me!” the Dark Heavenly Ape replied. “I need to leave this universe soon. I am not a creature of this universe, and I cannot advance to a higher realm here. The way I will leave is quite special, left by my master. I can’t take too many treasures with me, or else I won’t be able to go.”

“Leaving the universe!!!”

Ye Tian was shocked. Even a Supreme within the universe would find it difficult to accomplish such a feat, and yet the master of the Golden Desolation Hall had left the means for the Dark Heavenly Ape to leave. How incredibly profound.

He did not ask how to leave, as a creature of the universe, he was destined to not stray too far from the universe, as he would not be able to survive.

So, if he could not transcend, what use was there in asking how to leave?

“May I take all these?” Ye Tian asked.

“Go ahead!” the Dark Heavenly Ape said indifferently.

Immediately, Ye Tian began to collect the treasures. He first gathered the chaos crystals, then started collecting the other treasures.

Before long, Ye Tian had taken most of the treasures.

Suddenly.

A small flower with golden patterns caught Ye Tian’s attention; it was originally stored in a jade box, which Ye Tian had opened.

The moment he opened it, his copy talent transmitted a feeling of longing.

“This flower can evolve my copy talent!”

Ye Tian was thrilled.

It had been a long time since his copy talent had last improved.

During that time, he had encountered countless treasures, including many that could enhance talents, but his copy talent had shown no signs of activity.

He even thought that his copy talent had reached its highest limit and could not be further enhanced.

But now, this small flower told Ye Tian that his copy talent had not yet reached its limit and could continue to improve.

Immediately.

Ye Tian carefully collected the small flower with golden patterns, making no overly unusual movements.

He planned to refine this flower after leaving.

Besides this flower, there were many other extremely precious treasures that would be greatly beneficial even to Dominator-level beings.

Many of the treasures here were too advanced for Ye Tian to use now, but he could completely trade them with the Supreme Hall of Humanity or the nine Supreme-level forces to obtain the treasures he wanted.

Soon, Ye Tian had practically plundered the place.

Originally, Ye Tian had planned to have the Dark Heavenly Ape lead him to raid many overlord-level lairs in the Chaos Mini World, but he had no right to make the Dark Heavenly Ape do so.

The Dark Heavenly Ape had brought him here because he had become a potential inheritor, so it was merely giving him a chance and making amends.

Continuing to have the Dark Heavenly Ape help him find treasures would be excessive and might cause its displeasure.

Besides, having enough resources was sufficient; being too greedy was not good.

Immediately.

The Dark Heavenly Ape left, and Ye Tian also did not linger any longer, hurrying

to the entrance of the Chaos Mini World.

He had been in the Chaos Mini World long enough, according to the original agreement with Primordial Divine Mountain.

Every year, the Dominators of Primordial Divine Mountain would open a passage to let people from the Chaos Mini World come out.

However, if too much time passed, the people of Primordial Divine Mountain might think that no one was left in the Chaos Mini World and could leave.

“The Dominators of Primordial Divine Mountain would stay in the outside world for a few years at most. When I last spoke with Li Xin’er, she advised me to leave within three years, and it has already been three years.

I hope the Dominators of Primordial Divine Mountain will wait a little longer, or else I’ll have to wait for the upper echelons of the Supreme Hall of Humanity to rescue me!” Ye Tian thought.

On this day.

Ye Tian arrived at the spot where he had first entered the Chaos Mini World; this place was still the territory of the Chaotic Ferocious Mammoth, but these beasts were not gathered together but scattered around.

Ye Tian concealed his aura and stealthily awaited the opening of the spatial channel, ready to rush out the moment it appeared.

The Chaotic Ferocious Mammoth could not leave; if they tried to force their way out, they would certainly be annihilated by the dominators outside.

Time ticked away, and another three months passed, making it a total of four years.

Suddenly, the space ruptured! A spatial channel appeared, attracting the attention of many Chaotic Ferocious Mammoth.

However, these beasts were extremely wary of the spatial channel and dared not enter it, for none of their peers who had entered it had returned, believed to have died.

Thus, they refrained from entering the spatial channel.

Whoosh! Ye Tian teleported over, attempting to quickly enter the spatial channel.

At that moment, several Chaotic Ferocious Mammoth spotted Ye Tian and moved to block him.

“Die!”

Ye Tian waved his hand, and black lotuses appeared, quickly transforming into realms of black lotuses.

These black lotus realms enveloped the Chaotic Ferocious Mammoth, and then crushed the space within the black lotus realms.

Pfft! One by one, the Chaotic Ferocious Mammoth were crushed into dust, leaving no trace of life, all annihilated.

With the obstruction of the Chaotic Ferocious Mammoth removed, Ye Tian successfully entered the spatial channel and disappeared.

In the cosmic void.

Ye Tian emerged from the spatial channel and saw an Origin Artifact battleship, belonging to Primordial Divine Mountain.

The people of Primordial Divine Mountain had not left! Seeing Ye Tian emerge, a portal appeared on Primordial Divine Mountain's battleship, allowing Ye Tian to enter.

Inside the battleship.

Ye Tian met Li Xin'er, who smiled at him, seemingly pleased with her own gains.

"Prince of Ten Thousand Laws, you've finally come out. If I hadn't known that you wouldn't fall and suggested the battleship stay a bit longer, you would have had to wait until the people from the Supreme Hall of Humanity came to rescue you!" Li Xin'er said.

"Thank you, Fairy Xin'er. I was delayed by some matters inside!" Ye Tian responded.

"It seems Prince of Ten Thousand Laws had a good haul!" Li Xin'er remarked.

"Just scavenged a powerful creature's lair!" Ye Tian explained.

"That's really fortunate!" Li Xin'er commented.

"But, you'll never guess what treasure I obtained," Li Xin'er said.

"Could it be a Chaos Spiritual Treasure?" Ye Tian guessed curiously.

"You guessed right, I did obtain a Chaos Spiritual Treasure, but it was taken away by a dominator from the Supreme Hall of Humanity for safety reasons. The value of a Chaos Spiritual Treasure is comparable to a Heavenly Venerable," Li Xin'er explained.

Ye Tian was not disappointed at not having seen the Chaos Spiritual Treasure.

His own gains were more valuable than a Chaos Spiritual Treasure, and besides, he wouldn't have been able to use the Chaos Spiritual Treasure himself.

After Ye Tian's arrival, the people of Primordial Divine Mountain no longer waited and commanded the battleship to leave.

If there were still people in the Chaos Mini World, the Supremes of Primordial Divine Mountain could certainly calculate it and send dominators to rescue them later if necessary.

For now, their priority was to return those who had survived back to Primordial Divine Mountain, as this was the most pressing matter.

After all, this was not the territory of humanity, and staying here longer increased the risk of being discovered.

For safety reasons, they naturally had to leave immediately.

Several days later, the Origin Artifact battleship returned to Primordial Divine Mountain.

Ye Tian did not stay at Primordial Divine Mountain for long and was soon picked up by Dominator Dark, who brought Ye Tian back to the Supreme Hall of Humanity.

Upon his return, Ye Tian could no longer contain himself and immediately took out the golden-patterned flower.

“Hopefully, this will bring an amazing change to my copy talent!” Ye Tian hoped.

Then, he swallowed the golden-patterned flower and began to rapidly refine it.

Boom! A terrifying energy instantly engulfed Ye Tian's celestial soul, infiltrating the talent imprint of his copy talent, causing the copy talent's talent imprint to slowly undergo a transformation.

Time slowly passed, and the pain Ye Tian endured became increasingly terrifying.

However, his strong will and powerful celestial soul allowed him to gradually withstand it.

After an indeterminate amount of time, the pain disappeared, leaving only a sense of relief.

Immediately, Ye Tian checked the status of his copy talent.

Chapter 600: Super Copy Fusion!

Quickly, Ye Tian had roughly understood the situation with his Copy Talent.

After a transformation, the range of influence and other aspects of the Copy Talent had significantly improved, advancing a tier from its original foundation.

However, the real change was the addition of a new ability to the Copy Talent—Super Copy Fusion!

The ability to fuse talents was already inherent in Ye Tian's Copy Talent, but it wasn't very powerful, only capable of fusing two similar Mystic talents into a God level talent.

For instance, the previous God level Extreme Speed Talent was a fusion of a Mystic Speed Talent and a Mystic Flight Talent, and talent fusion was one of the methods to achieve many God level talents.

Additionally, the Five Elements Transformation Talent was also formed by fusing five types of Five Elements Mystic talents.

But that was about it for fusion capabilities; once a talent reached the God level, it could no longer be fused.

Ye Tian had thought that God level talents were incapable of fusion, as was the case with other people's God level talents.

But now, his Copy Talent had transformed and developed the Super Copy Fusion ability, which broke this limitation.

It could fuse multiple God level talents to produce even more powerful talents.

Of course.

This required time! The more talents that were fused, the longer it would take, and if strong talents were involved, the time required would be even longer.

“Activate the Super Copy Fusion ability!”

“Attempt to fuse the God level Five Elements Transformation Talent, God level Time Talent, God level Space Talent, God level Wind Blade Talent...”

Ye Tian was ready to try fusing twelve kinds of God level basic attribute talents, wanting to know how long it would take to fuse so many.

Soon, the Copy Talent provided a specific time.

“A billion years!”

Looking at such a lengthy time, Ye Tian was stunned.

Although he was confident he could live that long, that was indeed too lengthy.

He couldn't wait that long.

“Attempt to fuse the God level Time Talent and God level Space Talent!”

Ye Tian continued to activate the Super Copy Fusion ability.

This time, the Copy Talent gave out a fusion time.

“A hundred years!”

For Ye Tian, a hundred years wasn’t very long.

Now, his lifespan was almost infinite, and as long as the universe didn’t perish, he would almost never die of old age.

So, a mere hundred years was nothing to him, and even for other True Gods, ten years wasn’t considered long.

What was more crucial was that Ye Tian could use time acceleration to quickly pass the hundred years.

However, while fusing the Time Talent and Space Talent, these were practically unusable, which was one of the drawbacks of the Super Copy Fusion ability.

“Although I can’t use time acceleration while fusing the Time Talent and Space Talent, I possess a semi-finished Time Origin Artifact, and I can totally use this semi-finished Time Origin Artifact to create a time acceleration area, forming a time formation. With the semi-finished Time Origin Artifact, maintaining a 300 times acceleration for a hundred years will not consume too much energy.” Ye Tian thought to himself.

With that in mind, he did just that.

Immediately, he took out the semi-finished Time Origin Artifact crystal, activated a bit of its power, combined it with the power of formations, and constructed a time formation area.

Buzzing! The power of time rippled out, and the flow of time in the area began to accelerate, gradually reaching 300 times that of the outside world.

“I’ll begin my cultivation here for the time being!” Ye Tian murmured.

After all he had just returned from the Chaotic Minor World and there was much to cultivate.

For example, the Chaos Golden Desolation Technique, and the silver liquid substance he had obtained earlier that could enhance physical strength, were still to be consumed to improve his abilities.

“The Chaos Golden Desolation Technique records the secrets of transcendence and can expand the limits of the physical body, which will definitely greatly enhance my strength. If combined with that silver liquid substance, my physical body could reach unimaginable levels!” Ye Tian declared.

Thus, Ye Tian began to peruse the Chaos Golden Desolation Technique.

It wasn’t long before Ye Tian had skimmed through the golden book.

“The secret of transcendence is to take the path against the heavens. After becoming a Supreme, use one’s powerful force to communicate with the spacetime river, pulling one’s soul imprint from the spacetime river, and merging it with one’s body to truly transcend the universe.

The deeper one’s connection with the universe, the deeper one sinks into the spacetime river, making it infinitely harder to escape from it.

Therefore, to transcend the universe and become a transcendent being, one must take the path against the heavens; otherwise, it is nearly impossible.”

Ye Tian felt fortunate that he had chosen the path against the heavens early on. Otherwise, even if his talent reached the highest level, he couldn’t surpass the Supreme level. The universe’s origin would constantly suppress him, preventing his transcendence.

Of course, the universe’s origin did this as a protective measure; if it didn’t suppress individuals, almost all beings within the universe could transcend, leading to a plethora of transcendent beings who would continuously drain the universe’s resources, and even plot against the universe’s origin, directly causing the universe to die completely.

Having understood the secret of transcendence, Ye Tian felt somewhat reassured.

Immediately, he began to cultivate the Chaos Golden Desolation Technique.

The Chaos Golden Desolation Technique seemed like an upgraded version of the Chaos Body Refining Technique, only that after reaching the God level, one could no longer cultivate the Chaos Body Refining Technique, whereas the Chaos Golden Desolation Technique was applicable even beyond the God level.

Only a being of the Supreme level could create such a supreme divine scripture as the Chaos Body Refining Technique, showing how profound a realm was required to create the Chaos Golden Desolation Technique.

This made Ye Tian even more curious about the master of the Golden Desolation Hall, who was definitely a supreme existence far surpassing the Supreme level.

The Chaos Golden Desolation Technique had eight levels, the first of which could expand the physical strength of a God level body, the second could expand the physical strength of a True God level body.

However, the Chaos Golden Desolation Technique was very difficult to cultivate and required a considerable amount of time.

“A considerable amount of time, huh? Let’s try out the effects!”

Ye Tian began to cultivate the first level of the Chaos Golden Desolation Technique, and in the blink of an eye, several years had passed.

However, the enhancement of Ye Tian’s physical strength was very subtle.

This was only the first level.

Level 2, corresponding to the God level realm, would undoubtedly be even slower to cultivate.

However,

The Chaos Golden Desolation Technique also indicated that some chaotic resources could assist in cultivation.

Therefore, Ye Tian next used various chaotic resources to aid in his cultivation, and indeed, his progress sped up.

But in the end, Ye Tian astonishingly discovered that one type of auxiliary treasure was the most effective, far surpassing other resources.

This treasure was that silver liquid substance! If cultivating the Chaos Golden Desolation Technique alone had an effect of 1, and consuming the silver liquid substance alone had an effect of 3, then using the silver liquid substance to cultivate the Chaos Golden Desolation Technique resulted in an effect of 10, or even 20.

“Next, I’ll use the silver liquid substance to assist in cultivating the Chaos Golden Desolation Technique, which will definitely expand the limits of my physical strength once more!” Ye Tian excitedly said.
