Chapter 661: A Trace of Terrifying Sword Intent!

Although Ye Tian had never seen the First Divine Lord of the Immortal Race and the First Demon Lord of the Demon Race, he recognized their identities at a glance when they appeared.

In the universe, only the First Divine Lord and the First Demon Lord possessed such a terrifying aura, completely overpowering any other Supreme. Even Kunwu Supreme couldn't compare to the First Divine Lord and First Demon Lord of the Immortal and Demon Races—the gap between them was too vast! The Immortal and Demon Races, as super clans, were indeed formidable. The difference between the Human Race and the Immortal and Demon Races was enormous. No wonder Kunwu Supreme was so wary of the Immortal Race.

Boom!!! As soon as the First Divine Lord and First Demon Lord appeared, they acted immediately. Each took out a supreme treasure and, together with other Supremes, jointly suppressed the Abyss of Destruction.

Ahhhhh!!!! Countless screams and terrifying impacts emanated from the Abyss of Destruction.

Ye Tian even saw through the images in the Abyss of Destruction countless terrifying phantoms—powerful Creatures of Destruction far stronger than the one he had slain before.

At this moment, the First Divine Lord, the First Demon Lord, and other Supremes were joining forces to drive the Creatures of Destruction deeper into the Abyss of Destruction. Otherwise, the Planetary System-level and Galaxy-level cultivators like Ye Tian wouldn't be able to enter the Abyss of Destruction. If they did, they would be killed by the Creatures of Destruction.

Under the leadership of the First Divine Lord and First Demon Lord, the Supremes successfully drove the Creatures of Destruction to the deepest part of the Abyss of Destruction. Gradually, Ye Tian could no longer hear the roars and screams of the Creatures of Destruction.

The Abyss of Destruction calmed down!

“Hurry and go in, remember, do not go too deep into the Abyss of Destruction, otherwise, we cannot save you,” said the First Divine Lord and First Demon Lord.

Of course, they mainly spoke to their own clansmen. The Human Race Supremes also reminded Ye Tian and the human Planetary System-level and Galaxy-level cultivators who were entering.

Kunwu Supreme specifically warned Ye Tian to be extremely cautious once inside and to be wary of the Divine and Demon Race experts. After all, the Immortal and Demon Races were relatively familiar with that place, while the Human Race was completely in the dark, having no knowledge of the situation there.

This was indeed a significant opportunity, and the Human Race didn’t want to miss it. Neither did Ye Tian.

Whoosh! One by one, the Planetary System-level and Galaxy-level experts from various clans in the universe flew into the Abyss of Destruction. Ye Tian also entered the Abyss of Destruction immediately.

Upon entering, Ye Tian felt the suppression of the Abyss of Destruction. Although he could sense the laws of the heavens and earth here, they were too weak, severely affecting his ability to perform.

However, Ye Tian had already condensed the Origin of the Saber, and his Chaos Dao was not far from reaching the Dharma Aspect Realm. Coupled with his terrifying physical strength and the formidable soul strength of a Nether General-level celestial soul, his power here was immense. Even if he couldn’t contend with an ordinary Creature of Destruction, he could easily escape from one.

At this moment, Ye Tian seemed the calmest among the cultivators. In contrast, although the others appeared unflustered, their eyes betrayed their deep concern and anxiety, fearing that a Creature of Destruction might attack, ensuring their demise.

In the Abyss of Destruction, everyone’s flight speed was slow. Before long, they reached the mid-layer of the Abyss of Destruction.

At this time, Ye Tian sensed a strange fluctuation. The source of this fluctuation was undoubtedly extraordinary and likely the place they needed to enter.

Swish! The Divine and Demon Race cultivators immediately searched for the source of the fluctuation and flew towards it. Ye Tian and the Human Race cultivators also hurriedly followed.

Soon, they reached the source. Ye Tian saw a strange light source. Normally, in the Abyss of Destruction, light would be swallowed, making it impossible to see any light.

In the Abyss of Destruction, one couldn't see light with their eyes; it was pitch black. Only with divine sense could one observe the surroundings.

However, Ye Tian was very surprised because he could see the light source with his own eyes. Surely, others could see it too.

“This light is extraordinary,” Ye Tian thought.

The Immortal Race and Demon Race cultivators flew towards the light source, and Ye Tian followed without hesitation.

This light source was likely everyone's destination—the mysterious realm within the Abyss of Destruction.

In an instant, they all flew into the light source.

Whoosh! The world spun around, and Ye Tian found himself in a strange realm.

This world lacked laws, yuan qi, or any other energy. Logically, this world shouldn't exist and would collapse instantly. Yet, it existed in a very peculiar and extremely stable manner.

“What kind of world is this?” Ye Tian was incredibly curious.

It seemed that everyone who entered this world was randomly teleported, as Ye Tian saw no one else around. He stood alone in this place.

Unable to discover anything immediately, Ye Tian began flying in a certain direction.

Suddenly, he arrived at a cliff.

He noticed some peculiar marks on the cliff. As he approached, he found a strange little wooden hut and saw numerous sword marks on the cliff, as if someone had practiced swordsmanship here.

These sword marks appeared quite ordinary, similar to those made by a martial arts expert among mortals.

But as soon as Ye Tian sensed one of the finer sword marks, his expression changed drastically.

A terrifying sword intent surged from the tiny mark, almost tearing his soul apart.

If not for the fact that this sword intent wasn't aggressive, he might have been killed already.

"What kind of sword intent is this?" Ye Tian was utterly shocked.

It was merely sword intent, not even a law, yet it was so terrifying.

For the first time, he realized that such a powerful sword intent could exist, shattering his previous understanding.

"This place must have been the residence of a formidable expert," Ye Tian thought.

"Strange! How could such a powerful being exist in this world within the Abyss of Destruction? Even the First Divine Lord and First Demon Lord, both nearly at the peak of the Supreme realm, wouldn't dare to enter the Abyss of Destruction."

Unable to fathom it, Ye Tian stopped pondering and entered the wooden hut. He discovered that this hut, despite seemingly enduring endless ages, was imbued with eternal power, protecting it and keeping it immortal.

"It's a pity I don't cultivate the Dao of the Sword. Otherwise, merely comprehending these sword intents here could yield astonishing results," Ye Tian thought.

Chapter 662: Slaughter Them All!

Hi everyone, it's the translator here! If you're reading Your Talent is Mine on any pirate sites, please don't. There are no ads on my website Etude Translations and it's always updated the fastest, since it's the source (obviously)!

If you've been reading on a pirate site, I can forgive you if you leave a positive review of YTIM on Novel Updates 😊 Thank you!

...

Ye Tian stepped out of the wooden hut and immediately left, not lingering any longer. After all, this place didn't hold the opportunity he sought. He was now almost certain that a Supreme Power had once been here, someone even stronger than the First Divine Lord and the First Demon Lord. Of course, this was merely his preliminary conjecture; the true secrets of this world might run even deeper than he imagined.

Ye Tian continued to fly swiftly, but he hadn't gone far before he noticed signs of battle on the ground and discovered a corpse. It was the body of a Galaxy-level powerhouse from the Angel Race. Judging by the condition of the corpse, it had been killed by a single spear thrust from the front.

Seeing the corpse elicited no reaction from Ye Tian. Clearly, this angel had been killed by a strong warrior from another race. Given the generally strained relationship between humans and angels, the death of this Angel Race powerhouse didn't stir any emotions in Ye Tian.

He pressed on, searching for unknown opportunities. A thunderous roar indicated fighting ahead, and sensing this, Ye Tian instantly teleported over. In the blink of an eye, he arrived at the battlefield, witnessing a chaotic clash among multiple races: Immortals, Demons, Angels, Elves, Yashas, and others, all fiercely fighting.

It was obvious to Ye Tian what they were fighting over. Not far away stood an estate, the very object of their fierce contest.

An estate!

This piqued Ye Tian's interest. The previous wooden hut had been mysterious, and though it lacked what he wanted, it was clearly extraordinary. Now, this estate, sprawling and shielded by a faint

power, remained unaffected by the battle. No matter how these Galaxy-level powerhouses fought, they couldn't disturb the estate.

What if the estate held valuable treasures? That would be a significant gain. Until he understood the secrets of this world, Ye Tian deemed this estate a crucial opportunity.

He teleported directly in front of the combatants, announcing in a domineering tone, "This estate is mine!"

The others noticed Ye Tian's presence and sneered. A peak Galaxy-level powerhouse from the Immortal Race recognized him and said, "I thought it was someone important, but it's just the True Monarch of Ten Thousand Laws from the Human Race. True Monarch of Ten Thousand Laws, I admit I'm no match for you at the same level, but you are merely at the peak of the Planetary System level. We are peak Galaxy-level. Even if our cultivation is heavily suppressed here, defeating you won't be difficult."

"If you were at the peak of the Galaxy level, we would retreat immediately. But at your current level, you don't have the right."

"Hahaha, it's rare for the Human Race to produce a Supreme-level Prince. Who knew they'd let you come here? Today, we'll make the Human Race's Supreme-level Prince fall here."

The peak Galaxy-level powerhouse from the Demon Race attacked without hesitation, aiming to kill Ye Tian instantly. However, just before the attack landed, Ye Tian drew his saber.

"Heavenly Moon Saber! Slash!"

With a strike infused with the power of the Chaos Dao, this ultimate technique was too fast, fierce, and precise. The Demon Race powerhouse had no time to react, being split in two and falling instantly.

"What!"

The other strong warriors from various clans were stunned at the sight of the Demon Race's peak Galaxy-level powerhouse being killed.

“Too weak!” Ye Tian murmured. His disdainful gaze and invincible aura instantly intimidated everyone present. At that moment, no one dared to underestimate him anymore.

“Impossible!” Another peak Galaxy-level powerhouse from the Demon Race roared, “Kai Mo was one of our peak Galaxy-level powerhouses. He used to be an Eternal-level Prince with unparalleled combat strength. Even if you are a Supreme-level Prince, how could you, merely at the peak of the Planetary System level, kill him with one strike?”

The others also found it hard to believe, but the evidence was right before their eyes.

“You can’t fathom my strength because you are too weak,” Ye Tian said. “I gave you a chance to leave, but since you didn’t take it, you’ll stay here forever.”

“True Chaos Technique, Black Lotus Realm!”

One after another, black lotus realms flew out, enveloping the various powerhouses. They tried to escape, but the black lotus realms were too fast, trapping each of them. Then, the black lotus realms obliterated everything within them. Not even a scream was heard; many strong warriors were annihilated, and any who managed to escape were swiftly killed by Ye Tian’s saber. In an instant, all the Galaxy-level powerhouses had fallen.

After confirming there were no survivors, Ye Tian walked toward the estate. As he entered, he felt an aura of simplicity. For the first time in this world, Ye Tian sensed the presence of energy. The energy in this estate was extremely gentle, capable of nourishing both the body and soul—a very rare kind of energy.

Ye Tian searched the estate and found several areas covered by a special force that he couldn’t penetrate. However, the rest of the estate was open to him. Eventually, Ye Tian discovered a study that piqued his interest. Inside, he found some books made from special paper imbued with eternal power. Most of the books contained mundane records, poems, and stories, but one book held information that greatly intrigued Ye Tian.

Transcendence! Indeed, it detailed the concept of transcendence. It stated that beyond Supreme Powerhouses, there were Transcendents. In a single universe, only a few individuals could transcend. There were two methods to achieve this.

The first method was to take the path against the heavens, breaking through the five limitations of the universe at the Emperor level to become a defier of the heavens. The second method was to

follow the normal path of cultivation, becoming a Supreme Powerhouse, and then contending against the universe's origin. By forcibly breaking the suppression of the universe's origin, one could then transcend.

Ye Tian was astonished to learn there were two methods. The book noted that the second method was exceedingly difficult, more so than the first, and wasn't a correct approach. Relying solely on one's own power was impossible because all life forms were born within the universe and couldn't possess strength surpassing the universe. To transcend using the second method, one had to rely on external forces, specifically the power from the chaos beyond the universe. This required a special technique.

Ye Tian didn't know how to achieve the second method and wasn't particularly concerned. After all, he was already walking the path of a defier of the heavens. As long as he didn't fall, he would be able to transcend.

The book contained another piece of information that surprised Ye Tian. It stated that once one transcended, they could remain in the universe for a short period. During this time, the transcender could shield themselves from the universe's detection, but they couldn't stay too long. If they did, the universe's origin would eventually detect them. At that point, unless they could directly contend with the universe's origin, they would have to leave.

Chapter 663: The First Heaven-Defying One!

A Transcender! Ye Tian could hardly believe it. If the knowledge in this book were true, then the author must be a Transcender or at least know one. Otherwise, there was no way they could have written such detailed information about Transcenders.

Of course, there was also the possibility that the author had made everything up, purely from imagination. However, Ye Tian was certain that the owner of this manor had to be an incredibly powerful being. Even if they were not a Transcender, they were a heaven-defying Supreme.

Such a being would never collect a book full of fabricated information about Transcenders. Therefore, it was highly likely that this book was real and perhaps even written by a Transcender.

"According to my guess, perhaps a Transcender visited here before leaving the universe. It's even possible that this world was created by a Transcender," Ye Tian thought.

Ye Tian had explored most of the manor except for a few places. Only one place remained unexplored: an ancient well located at the center of the manor.

This well looked very ordinary, much like the ancient wells found in many homes. However, nothing here could be ordinary.

So Ye Tian returned to the well, ready to investigate its depths. He was unsure what he would find inside. His divine sense could not penetrate the well, indicating that it might be dangerous or contain a great opportunity.

Ye Tian entered the well. In an instant, streams of light flashed before his eyes. He found himself in a strange space with a lake. The lake did not contain ordinary water but water that emitted a faint glow.

Ye Tian reached out and touched the water, feeling it for a moment. Suddenly, a strange energy flowed into his hand. This energy slowly tempered his hand, but Ye Tian did not feel any increase in his strength.

After a while, Ye Tian withdrew his hand and examined it carefully.

“Strange! There’s no change at all!” he thought, puzzled.

Although his hand had been wrapped in strange energy and constantly tempered, there should have been some change given the amount of energy consumed. Yet, there was no visible difference.

He continued testing his hand and eventually discovered the change. When he tested the power of the Dao, he found that the power of the Chaos Dao combined with his hand could now exert more formidable strength. It seemed to be more in harmony with the power of the Chaos Dao than before.

“Could this water enhance the body’s compatibility with the Dao’s power?” Ye Tian thought, astonished.

If that were true, the value of this water would be immeasurable.

Immediately, Ye Tian began collecting the water. After gathering a large quantity, he immersed himself completely in the lake, allowing the strange energy in the water to continually temper his body. Simultaneously, Ye Tian meditated on the Chaos Dao.

He was amazed to find that his comprehension of the Chaos Dao had accelerated significantly. Moreover, his eyes seemed to perceive the Dao's trajectory, albeit faintly. This proved that his eyes had undergone a fundamental change due to the water. With enough of this water's tempering, his eyes might eventually observe the Chaos Dao's trajectory more clearly.

Excitement surged through Ye Tian.

As time passed, his body continued to be tempered by the strange water, becoming increasingly harmonious with the Chaos Dao's power. The changes in his eyes grew more profound.

Boom!!! An explosion echoed from outside.

"Someone's coming," Ye Tian thought to himself.

He knew he couldn't continue cultivating. If he did and someone arrived, this place would be exposed. So, he collected the remaining water and stored it in the Ancient Chaos Realm.

Immediately, Ye Tian flew out of the ancient well space. Upon emerging, he saw an Immortal Race expert not far away. This expert also saw Ye Tian.

"True Monarch of Ten Thousand Laws from the Human Race!" The Immortal Race expert looked excited upon seeing Ye Tian.

Ye Tian felt a slight sense of danger upon seeing this Immortal Race expert. Although it was just a hint of danger, it indicated that this expert was on a completely different level compared to the peak Galaxy level Immortal Race experts he had encountered before.

"This Immortal Race expert is very powerful!" Ye Tian thought.

"True Monarch of Ten Thousand Laws, you probably don't know me. I've lived for many years and am considered quite ancient even within the Immortal Race. Though I am at the peak of the Galaxy level, I've reached the fourth stage of life and have eternal life.

I thought I was the only lonely one in the universe, but it seems another heaven-defying one has been born. If you were a member of the Immortal Race, we could explore the Dao together and pursue the path of the Transcender. Unfortunately, you're a member of the Human Race, destined to be our enemy! I have a mission to kill you, but I didn't expect to find you so soon!" The Immortal Race expert spoke confidently.

Upon hearing his words, Ye Tian had some guesses about his identity.

"You're the first one to pass through the Ten Tribulations Region of the Supreme Mountain with Emperor-level cultivation!" Ye Tian exclaimed in surprise.

"That's right, it's me!" The Immortal Race expert replied proudly. "I was the first in the universe to pass through the Ten Tribulations Region of the Supreme Mountain with Emperor-level cultivation. I also broke the shackles at the Emperor level, becoming a Supreme Prince and embarking on the heaven-defying path."

"There were rumors that you died under the tribulation. I didn't expect you to still be alive. I'm even more surprised that you are only at the peak of the Galaxy level now," Ye Tian said, astonished.

"Of course, I didn't die under the tribulation; that was a rumor spread by the Immortal Race!" the Immortal Race expert explained. "Although my strength is formidable, I still don't dare to challenge the Universal God level. When I reached the Galaxy level, the tribulation almost killed me. If I tried to reach the Universal God level, the tribulation would be too terrifying. I need to continually accumulate power to be confident in challenging the Universal God realm. Without the tribulation, I would already be a Supreme!"

Ye Tian didn't refute his words because the talent of this Immortal Race expert was indeed terrifying. Without the tribulation, he would certainly have become a Supreme and might even rival the Immortal Race's top Supreme.

Unfortunately, once on the heaven-defying path, one couldn't leave it. Every breakthrough to a new major realm required enduring the tribulation.

Clearly, this Immortal Race expert's accumulation was still insufficient, and he dared not attempt the Universal God tribulation.

"You want to kill me? How coincidental, I want to kill you too!" Ye Tian said with a smile.

Chapter 664: Chaos Sea Dharma Aspect!

Boom! The killing intent between Ye Tian and the Immortal Race expert collided in the void, producing a thunderous roar.

Their combined momentum reached a terrifying level, and the battle was on the verge of erupting.

From the Immortal Race expert's aura, Ye Tian sensed that his opponent's physical body was also extremely powerful.

After all, this Immortal Race expert was a Defier, someone who had broken the universe's limits, allowing him to continue enhancing his physical strength even after reaching the God level. The Immortal Race, being a super clan, naturally possessed cultivation methods similar to the Eighteen Golden Body Technique to enhance physical strength.

Thus, it wasn't difficult for this Immortal Race expert to continue enhancing his physical strength. Moreover, the resources of the Immortal Race far surpassed those of the Human Race, making his physical body extremely formidable.

However, compared to Ye Tian, this Immortal Race expert's physical body was nothing.

Ye Tian had obtained numerous legacies, including the Chaos Golden Desolation Technique.

Furthermore, his accumulation was immense; even at the Great God level, his combat power had reached the pinnacle level of a Child of the Era.

Not only was his physical body incredibly terrifying, but his celestial force had also been compressed to an astonishing 36 times.

His celestial force, already far superior, was compressed 36 times, making it denser than that of some Universal Gods.

This Immortal Race expert couldn't compare to Ye Tian. Otherwise, he would have already advanced to the Universal God or even the Supreme realm, instead of remaining at the Galaxy level.

However, this Immortal Race expert was at the peak of the Galaxy level and had cultivated for countless years. His achievements in the Dao were undoubtedly higher than Ye Tian's.

With a major realm difference between them, it wouldn't be easy for Ye Tian to defeat his opponent.

Before entering the ancient void space, Ye Tian might not have been stronger than this Immortal Race expert. But now, after soaking in the peculiar water, his body had been tempered by the strange energy, and the power of the Chaos Dao perfectly matched his physical body, allowing him to exert the Chaos Dao's power more effectively.

It was known that the power of the Dao could crush everything. Previously, Ye Tian had difficulty unleashing the power of the Chaos Dao.

But now, with his ability to fully harness the Chaos Dao's power, his combat strength had increased tremendously.

"True Monarch of Ten Thousand Laws, before you die, let me tell you whose hands you will perish in. Within the Immortal Race, I have a title—Immortal True Lord!"

The Immortal Race expert, Immortal True Lord, spoke.

Boom! A gigantic tangible Dharma aspect appeared behind Immortal True Lord.

This Dharma aspect was filled with the rules of death and the power of the Dao, representing that Immortal True Lord followed the Dao of Death.

Moreover, the Death Dao Dharma aspect of Immortal True Lord wielded a long spear.

"Death Dao combined with the Spear Dao. Immortal True Lord has fused the Death Dao with the Spear Dao, and his Dao realm has reached the Dharma Aspect level!" RANöBÊ§

Ye Tian felt somewhat solemn. His Saber Dao realm was still at the Dao Form level, short of the Dao Dharma Aspect level.

Immortal True Lord's realm was undoubtedly higher than his, having reached the Dharma Aspect level, and even a high level within it.

However, Immortal True Lord had cultivated for countless years. With his talent, it would be abnormal if he hadn't comprehended his Dao to the Dharma Aspect level after such a long time.

At the same time, a phantom of a Greater Thousand World appeared on Immortal True Lord, and the terrifying power of the world accompanied his spear strike.

"The Pinnacle level Spear Dao ultimate technique, Great Thousand Divine Spear!"

Boom! The terrifying Great Thousand Divine Spear seemed to shatter the space Ye Tian was in completely.

Even some top-tier Universal Gods would struggle to withstand this spear and might be killed in one strike.

"Heavenly Moon Saber!" Ye Tian slashed with all his might, fully unleashing the power of the Chaos Dao.

Simultaneously, the power of the Heavenly Realm level Ancient Chaos Realm within him erupted, showcasing the full might of the Pinnacle level Saber Dao ultimate technique.

Boom! The Pinnacle level Spear Dao ultimate technique and the Pinnacle level Saber Dao ultimate technique collided.

Ye Tian retreated dozens of miles, while the Immortal True Lord also retreated nearly a hundred miles.

In this clash, the Immortal True Lord slightly fell behind.

"How is this possible? You are only at the peak of the Planetary System level!" The Immortal True Lord was stunned. He never expected to fall behind.

He initially believed he could kill Ye Tian with one strike. After all, Ye Tian was only at the peak of the Planetary System level, a whole major realm below him.

The difference of a major realm was immense. Moreover, he was not just any weakling but a Defier, the first Defier of the universe, with unparalleled talent and terrifying combat power. Yet even so, he fell behind despite being a major realm above Ye Tian.

“There’s nothing impossible about it. In terms of physical strength, you don’t match me. In terms of celestial force compression, you don’t match me. In terms of the level of the inner world, you also don’t match me. Even if you are a major realm higher, I can still beat you!” Ye Tian said confidently.

“I don’t believe it!” the Immortal True Lord roared.

The two clashed again.

In truth, the Immortal True Lord’s attacks were indeed powerful and could harm Ye Tian. However, Ye Tian used the Sea of Death to transfer the damage, making it impossible for the Immortal True Lord to injure him.

In contrast, Ye Tian’s attacks could genuinely harm the Immortal True Lord. Since the Immortal True Lord followed the Dao of Death and not the Dao of Life, his recovery was inferior to Ye Tian’s.

No matter what secret techniques the Immortal True Lord used or how terrifying his attacks were, he could not truly harm Ye Tian.

As time passed, Ye Tian’s advantage grew, while the Immortal True Lord’s increasing injuries gradually prevented him from exerting his true power.

In this life-and-death battle, Ye Tian continuously felt the impact of the Immortal True Lord’s Dao of Death at the Dharma Aspect level, gradually gaining some insights into the Dharma Aspect level of the Dao.

Given that Ye Tian was not far from the Dharma Aspect level, these insights sparked countless epiphanies in his mind.

Suddenly, countless sparks of light appeared in Ye Tian's mind, similar to the peculiar light of the strange water.

Some of this strange energy had been stored in Ye Tian's soul and now burst forth, allowing him to make rapid progress in understanding the Chaos Dao.

"The Dharma Aspect of the Dao is... to comprehend the essence of the Dao, to dominate the power of the Dao, and to fuse one's Dao power into a special Dharma Aspect!" Ye Tian realized.

Gradually, a phantom of the Chaos Dao appeared around Ye Tian.

This Chaos Dao phantom resembled an ocean; it was the Chaos Sea Dharma Aspect.

At this moment, Ye Tian was only condensing the Chaos Dao Dharma Aspect and had not yet truly formed it.

"What? You are about to condense a Dharma Aspect!" The Immortal True Lord was stunned.

He knew Ye Tian followed the Chaos Dao, the most difficult Dao to walk. Condensing the Chaos Dao Dharma Aspect was extremely challenging.

However, the power of the Chaos Dao was terrifyingly immense. Even its Dao Form was comparable to an ordinary Dharma Aspect level. If Ye Tian successfully condensed his Dharma Aspect, it could instantly crush the Immortal True Lord's Death Dao Dharma Aspect.

"Escape!" The thought struck the Immortal True Lord. He was no longer a match for Ye Tian. If Ye Tian condensed the Chaos Dao, he wouldn't even have a chance to escape.

He didn't want to die. He still hoped to break through to a Universal God, a Dominator, a Supreme, and even become a Transcendent.

If he perished here, everything would be lost.

This place was special. If he fell here, even a Supreme could not revive him. If he died here, it would be a true death.

Chapter 665: The Legacy Assessment of the Transcendent!

As the only Defier of the Immortal Race, the importance of the Immortal True Lord was self-evident. Naturally, he possessed some life-saving treasures bestowed upon him by the Immortal Race.

The Immortal True Lord produced a palm-sized statue and promptly activated it.

Instantly, the statue emitted a brilliant light that enveloped Ye Tian.

At that moment, Ye Tian's attack also struck, landing on the statue.

With a loud crash, the shattered statue fell from the sky, but the figure of the Immortal True Lord had vanished.

"He escaped!"

Ye Tian frowned, feeling somewhat disappointed.

Since beginning his cultivation, only a handful of people had ever escaped from his grasp. He had thought he could kill the Immortal True Lord, but unexpectedly, the latter possessed such a peculiar treasure that allowed him to escape instantly.

"Hmph, we will meet again. Next time I see you, I will kill you!" Ye Tian snorted coldly.

In another part of this world.

The figure of the Immortal True Lord reappeared, his face showing a trace of fear before calming down.

"Phew, I finally escaped.

This time, if not for the substitute statue bestowed by the First Divine Lord, it would have been difficult to escape! It's exceedingly challenging to escape from a Chaos Dao practitioner!"

The Immortal True Lord muttered to himself.

He then oriented himself and looked in a certain direction.

"The First Divine Lord mentioned that this world is likely not naturally born but created by a Transcendent.

That Transcendent has residences in this world, containing minor fortunes, but the true opportunity lies in the legacy left by the Transcendent. The First Divine Lord was fortunate enough to find the legacy site and obtained a combat technique, which secured his position as the First Divine Lord.

The First Divine Lord hopes that I, too, can obtain the legacy to increase my combat power and thus survive the Thunder Tribulation!" The Immortal True Lord thought to himself.

However, the legacy site was hard to find, as it was a place that could change locations at any time.

In the past, the First Divine Lord had the members of the Immortal Race search for it according to his instructions, but the previously discovered legacy sites could no longer be found. Later, Immortal Race members found the legacy site in other places, and the locations differed each time.

Therefore, the legacy site was not fixed.

Or perhaps the legacy site was fixed, but the entrance was not.

Only by finding the entrance to the legacy site could one enter it.

In summary, the entrance had one commonality, which was a building! Previously, Immortal Race members had sent him a message about the appearance of a manor, suspecting it to be the entrance, so he had gone there.

Unexpectedly, he encountered Ye Tian and almost perished there.

“The True Monarch of Ten Thousand Laws did not enter the legacy site, so that manor was not the entrance. I must continue searching for other buildings.

If I happen to find it and obtain an astonishing legacy, my combat power might surpass that of the True Monarch of Ten Thousand Laws, and then I can directly kill him!” The Immortal True Lord pondered. ¶

Time passed little by little.

In the blink of an eye, several months had gone by.

On this day.

Ye Tian received a message from a Peak Galaxy-level powerhouse.

Before entering, the Human Supremes had the group leave each other their communication methods to provide mutual care in this world.

In practice, however, even if they encountered danger, trying to send a message to others was of little use.

After all, they were often far apart from each other, and battles were usually quick and decisive, ending before any help could arrive.

So, up until this point, Ye Tian hadn’t received any calls for aid from anyone else.

Now, the message he received was not a distress signal but an informative one.

“A stone tower has been discovered with a legacy inside. Come quickly!”

This message seemed to have been sent to a group.

“Legacy!”

Ye Tian's interest was piqued. Confirming the location from the Peak Galaxy-level powerhouse's message, he immediately set off.

With a swift movement, Ye Tian advanced quickly and, after some time, finally arrived at the location.

There wasn't a single person in front of the stone tower; it was evident they had all entered the tower.

Outside the stone tower, a battle had taken place, with some corpse fragments left behind.

Ye Tian also discovered the bodies of a few Human Peak Galaxy-level powerhouses and one Peak Planetary System-level powerhouse, along with numerous corpses from other races.

Without hesitation, Ye Tian entered the stone tower.

Upon entering, Ye Tian was instantly transported to another place.

Boom!!! The world around him shifted.

Ye Tian found himself in a quiet space, completely empty.

Suddenly.

A warrior holding a spear appeared before Ye Tian, attacking him immediately.

Ye Tian raised his hand and struck out, shattering the warrior into pieces.

Soon, a flame warrior appeared but was also easily killed by Ye Tian.

Warriors continued to appear, each different and progressively stronger, but none were Ye Tian's match.

After killing ten warriors, a suction force pulled him into another place.

At this moment, a voice rang out.

“The legacy assessment begins now. Please choose your assessment mode!”

“Simple assessment or difficult assessment, choose one of the two!”

Hearing this voice, Ye Tian understood.

The warriors just now were not the actual assessment but merely a screening process.

If one failed to kill those warriors, there might be some rewards, but they wouldn't be valuable.

The real treasures could only be obtained by passing the legacy assessment, and the choice between simple and difficult assessments was tailored for the assessors.

If one was not powerful, they should choose the simple assessment. If one was exceptionally talented, they could opt for the difficult assessment.

Ye Tian didn't hesitate and chose the difficult assessment directly.

As one of the Defiers and a top-tier Child of the Era, Ye Tian naturally wouldn't choose the simple assessment, as that would show a lack of confidence.

The rewards for the simple and difficult assessments were definitely not on the same level, and Ye Tian didn't want to obtain just ordinary treasures or legacies.

“This legacy might have been left by the Transcendent. I must pass the difficult assessment to gain more precious opportunities, otherwise, this trip would be in vain!” Ye Tian thought to himself.

“I choose the difficult assessment!” Ye Tian declared.

“The assessor has chosen. The difficult assessment is about to commence. Please prepare yourself!” The mechanical voice echoed once more.

Chapter 666: The Challenge of the Third Layer, Passed!

Ye Tian eagerly anticipated the so-called difficult test and the rewards that came with it. If this test had indeed been established by a Transcendent, then the rewards would surely be astonishing.

With a flash, Ye Tian was transported to a new place where he encountered a young man.

The young man, upon seeing Ye Tian, spoke, “Challenger, your difficult test is divided into three levels. I will display three different levels of power. Since this inheritance was established, only two individuals have successfully passed the first level. As for the second and third levels, no one has yet succeeded.

Next, I will demonstrate the power of the first level test. Be prepared!”

Ye Tian was surprised by the young man’s words. Initially, he thought this young man was an illusory figure. However, from his words, Ye Tian sensed a deep emotion, something not possible for a virtual being.

“A real being, a phantom spirit, or perhaps a spirit of the artifact,” Ye Tian speculated about the young man’s identity.

However, the young man was enveloped in a power that even Ye Tian’s duplication talent couldn’t penetrate to understand his situation clearly. One thing was certain: this young man was extraordinary.

“Senior, I am curious about your identity in this place of inheritance. Are you truly a living being?” Ye Tian asked.

“If you can pass the three levels of the test, I will tell you whatever you want to know. Otherwise, there is no need for you to know,” the young man replied indifferently.

“Alright, I am ready to take the first level test now!” Ye Tian declared, preparing himself.

“Good!” The young man smiled faintly.

Boom! A terrifying aura erupted from the young man. His cultivation appeared to be at the peak of the Planetary System level, but his aura was far beyond that level.

By Ye Tian’s judgment, even an ordinary Supreme Prince at the peak of the Planetary System level wouldn’t possess such a terrifying aura. Only the top-tier Supreme Princes could exhibit such power.

At this moment, Ye Tian understood why only two people in the universe had passed the first level of the difficult test. Those two were likely the first Divine Lord of the Immortal Race and the first Demon Lord of the Demon Race.

There were many Supreme Princes born in the universe, but most were ordinary. Only a handful of top-tier Supreme Princes could enter this world, and among them, only the first Divine Lord and the first Demon Lord had managed to do so.

In summary, both strength and luck were indispensable. Even with unparalleled strength, if one didn’t encounter the turbulence of the Abyss of Destruction, there would be no opportunity to enter this middle region of the Abyss of Destruction.

“Be careful!” the young man reminded Ye Tian, then launched a punch.

Faced with this punch, Ye Tian remained extremely calm, casually chopping with his hand.

Boom! With a resounding explosion, the young man was directly sliced apart, disintegrating into nothingness. Soon after, countless lights reformed into the young man’s appearance.

The young man now looked at Ye Tian with astonishment in his eyes and said, “Your strength is impressive. You have a chance to pass the second level of the test.”

“Please start the second level test, Senior!” Ye Tian responded quickly.

“Alright!” The young man nodded.

Immediately, the young man's aura changed again, becoming even more terrifying.

At this moment, Ye Tian sensed a familiar aura emanating from the young man, or rather, a familiar feeling.

“Child of the Era!” Ye Tian murmured to himself.

This was the first Child of the Era he had encountered. Although the Immortal True Lord was a defier of fate, he wasn't a true Child of the Era, merely a half-step one. If the inheritance of this universe were more complete, the Immortal True Lord would undoubtedly have become a Child of the Era. Unfortunately, as the first defier of fate in this universe's era, he had no predecessors to guide him.

Otherwise, his achievements would be far greater than they were now, and becoming a Child of the Era would have been easy for him.

“Be careful!” The young man reminded Ye Tian once again before launching another attack.

This time, Ye Tian took it a bit more seriously. Although the young man's current displayed combat power was still not enough to pose a threat, it was sufficient to warrant his attention. Ye Tian found it challenging to assess his current combat strength accurately. If he continued to measure himself against the Child of the Era, he was undoubtedly beyond even the top-tier Child of the Era.

“Black Lotus Realm!” Ye Tian unleashed this True Chaos Technique, instantly enveloping the young man.

Boom! The young man was annihilated within the Black Lotus Realm, disintegrating into countless lights that quickly reformed into his original appearance.

The young man now stared at Ye Tian with eyes full of shock. “I didn't expect you to pass the second level of the test so easily!”

He understood very well what it meant to pass the second level test so effortlessly—it meant Ye Tian was definitely a Child of the Era, and not just any Child of the Era but one with a real chance of passing the third level test.

“Interesting, could it be that this time, we might witness a challenger who can pass the third level?” the young man thought to himself.

This inheritance test had existed for many eras. In this universe’s current era, only two had passed the first level of the difficult test. In previous eras, the best results only reached the second level of the difficult test. The most talented challenger almost passed the third level but ultimately failed.

Since the establishment of the inheritance test, no one had ever passed the third level of the difficult test.

“Senior, please proceed with the third level test!” Ye Tian requested.

“Alright,” the young man replied.

Immediately, an even more powerful aura erupted from the young man. The power of the Dao surrounded the area, and a terrifying will descended. This aura alone was enough to terrify a Child of the Era!

“Comparable to me before I entered this world,” Ye Tian thought.

Before entering this world, his body and the power of the Chaos Dao weren’t fully compatible, making it difficult to unleash its full power. His combat strength back then was probably comparable to the young man’s current display.

But now, after his body had been refined by that strange energy, perfectly compatible with the power of the Chaos Dao, his combat strength had skyrocketed, far surpassing his previous self.

“Here I come!” The young man attacked, seemingly transforming into the embodiment of the Dao, with his punch fully displaying the power of the Dao.

Ye Tian didn’t hold back either. He directly used his strongest saber Dao ultimate technique—Heavenly Moon Saber!

With one slash, the young man was sent flying, his body continuously cracking.

Ye Tian continued his assault, and after a few more moves, the young man disintegrated into countless lights.

Soon, the lights reformed, and the young man reappeared.

“You... passed the third level test!” the young man exclaimed in shock.

Chapter 667: The Tiangang Battle Technique!

The young man stared at Ye Tian in disbelief, unsure of how to express his shock and surprise.

The difficulty of the third level of the rigorous test was immense. For countless cosmic eras, no one had ever passed the third level. This test was set according to the highest standards. It was unbelievable that Ye Tian had managed to pass the third level of the difficult test, achieving an unprecedented accomplishment.

“Congratulations!” the young man said.

“Senior, I have passed the third level of the test. Can you now answer my previous question?” Ye Tian asked.

“Very well, I will tell you!” the young man replied. “I created this world and the inheritance test. However, I am merely a wisp of soul power, hiding here, unable to enter the universe; otherwise, I would be discovered by the universe’s origin.”

“Even those who transcend cannot contend with the universe’s origin, let alone a mere wisp of my soul. Only in this place, where the universe’s origin rules extend weakly, can I remain undetected. Over the long years, my wisp of soul has essentially become independent, but I still cannot truly become an independent entity. I must remain bound to the inheritance test site, guarding this place!”

“Senior, are you truly a transcender?” Ye Tian asked. Although he had some suspicions, he was still surprised to hear the young man’s confirmation.

“Yes, I am a transcender. However, to my knowledge, over many cosmic eras, I am the only transcender. Unfortunately, even becoming a transcender cannot change certain things!”

Thinking of this, the young man revealed a trace of sadness. “Senior, what is the situation outside the universe?” Ye Tian asked curiously.

“I don’t know!” the young man said. “I am just a wisp of soul, unable to know what happens to my main body. However, my main body can know what happens here. So, I cannot answer your question!”

Ye Tian understood and refrained from asking further about it. During their subsequent conversation, Ye Tian learned the young man’s name: Yun Tan, the Heavenly Monarch!

The next step was the most crucial reward segment. Ye Tian was eager to see what kind of reward Heavenly Monarch Yun Tan would grant him. A reward from a transcender was bound to be incredibly valuable.

“Ye Tian, my main body did not leave much behind. However, having passed the third level of the difficult test, you can receive the most precious inheritance left by my main body. It is a combat technique created over countless billions of years!” Heavenly Monarch Yun Tan said.

“A combat technique?” Ye Tian was curious.

“Yes, it’s specifically designed for combat, called the Tiangang Battle Technique. It can mobilize the potential of the physical body for battle without depleting that potential. For instance, if your physical strength is 1, exerting all your effort can only produce 1 in combat power. However, if you use the Tiangang Battle Technique, you can unleash a combat power of 5 or even 10.

The Tiangang Battle Technique consists of nine forms. If you pass the first level of the difficult test, you can obtain the first form, known as the Tiangang First Form. It allows you to integrate gang qi into your strength and can be used to enhance your moves,” Heavenly Monarch Yun Tan explained.

Ye Tian thought to himself, “The Tiangang Battle Technique can greatly enhance combat power. No wonder the first Divine Lord of the Immortal Race and the first Demon Lord of the Demon Race possess such terrifying combat strength, completely overwhelming other Supremes and being hailed as Pinnacle Supremes!”

Soon, Heavenly Monarch Yun Tan produced an inheritance orb.

“This is the complete inheritance orb of the Tiangang Battle Technique. You can receive the inheritance, but you must not pass it on to others. The Tiangang Battle Technique created by my main body is not something anyone can cultivate. Naturally, it is not allowed to be widely spread. By accepting the inheritance, you must swear an oath,” Heavenly Monarch Yun Tan stated.

“Agreed!” Ye Tian responded.

Immediately, he swore the oath and then began to accept the inheritance of the Tiangang Battle Technique.

Boom! Countless pieces of information flooded into Ye Tian’s soul. The content of the Tiangang Battle Technique, from the first to the ninth form, completely entered his mind and was absorbed by his celestial soul.

As he received the inheritance, Ye Tian reviewed the contents of the Tiangang Battle Technique.

“This profound Tiangang Battle Technique, worthy of being a secret art created by a transcender, completely surpasses the current cultivation systems. Although it is not as powerful as the Chaos Golden Desolation Technique, they follow different paths. The Chaos Golden Desolation Technique breaks the physical body’s limits and enhances its potential, while the Tiangang Battle Technique fully develops potential for combat but restores all potential to the body after the secret art is used,” Ye Tian pondered.

In essence, even if all the Supremes in the universe united, they would not be able to create such a secret art as the Tiangang Battle Technique. It exceeded their understanding. Moreover, the Supremes of the current universe had weak physical bodies and little understanding of them.

Ye Tian’s physical body was much stronger and more terrifying, making the Tiangang Battle Technique more suitable for him. Once he used it, his combat power would undoubtedly increase many times over. This was precisely why Heavenly Monarch Yun Tan was so shocked that Ye Tian had passed the third level of the difficult test without cultivating any secret arts like the Tiangang Battle Technique.

Had Ye Tian cultivated the Tiangang Battle Technique, his combat power would have reached a level beyond comprehension.

After Ye Tian received the inheritance, Heavenly Monarch Yun Tan said, “The inheritance of the Tiangang Battle Technique is only one of the rewards. There is another reward for you!”

Saying this, Yun Tan took out a small golden fragment and handed it to Ye Tian. “This is an origin fragment, a fragment of the origin from the universe where my main body resided. My main body was somewhat arrogant and attempted to contend with the universe’s origin, entering the place where the universe’s origin resides. Unfortunately, he was injured by the universe’s origin and had to escape here, creating this world. After leaving the inheritance, he retreated into chaos. Once in chaos, returning is very difficult.

In that battle, although my main body was severely injured, he managed to take away a piece of the universe’s origin—this fragment you see before you. This is a genuine fragment of the universe’s origin. Even the Supremes of your world cannot obtain even a trace of it.

Of course, you cannot bring this fragment into the main space of the universe; the universe’s origin will reclaim it. However, you can refine this fragment here. It will greatly benefit you, allowing you to comprehend all the laws of the universe. Your cultivation will advance rapidly, and creating various secret arts and techniques will become much easier.

In essence, you will have no limitations in comprehending any divine abilities, no longer needing Heavenly Dao scripts, as refining this fragment is equivalent to understanding countless Heavenly Dao scripts. Do you now understand the value of this fragment?”

Boom! Ye Tian was instantly overwhelmed with excitement, staring incredulously at the fragment of the universe’s origin.

Although the power of the universe’s origin often descended, it was only an external force. The universe’s origin could not leave its space, making obtaining a fragment impossible. Only a transcender could have the terrifying strength to seize a fragment from the universe’s origin.

“Thank you, Heavenly Monarch Yun Tan!” Ye Tian expressed his immense gratitude, immediately accepting the fragment of the universe’s origin.

Chapter 668: Refining the Universe’s Origin, Rapid Progress!

“Alright, I’ve given you the two rewards. You may leave now!” Heavenly Monarch Yun Tan said.

“Understood!” Ye Tian responded.

However, at that moment, Heavenly Monarch Yun Tan added, “Let me remind you once more: when you face the critical moment of becoming a Transcendent in the future, do not rush to break through the Transcendent Realm. Accumulate as much as possible.

Moreover, there should be secrets in the Abyss of Destruction. Back then, the main body faced the universe’s impending great destruction and hurriedly tried to become a Transcendent and resist the universe’s origin. Unfortunately, it failed.

As a result, it did not dare to enter the deepest part of the Abyss of Destruction with its severely injured body and only reached this middle layer.

So, if you have the chance, you should take a look!”

“If I become a Transcendent, I will definitely take a look!” Ye Tian nodded.

“Alright, you may leave now!”

With a wave of Heavenly Monarch Yun Tan’s hand, Ye Tian exited the place of inheritance.

After leaving the inheritance ground, Ye Tian departed from there.

The place had already been discovered and its location spread, so there would surely be powerful beings from various races visiting frequently.

Though he did not fear these strong beings, he did not want to waste time.

He urgently wanted to cultivate the Tiangang Battle Technique and refine that wisp of the universe’s origin.

The fragments of the universe’s origin could not be taken out, or they would be reclaimed by the universe’s origin itself, which he did not want to waste such a supreme treasure.

Therefore, he sought a quiet place to cultivate in peace.

Other matters were not important at the moment.

Soon, Ye Tian found a desolate mountain range, entered it, and carved out a cave mansion where he could retreat and cultivate.

Inside the cave mansion.

Ye Tian recalled the content of the first form of the Tiangang Battle Technique in his mind and began to silently comprehend it.

“So difficult!”

Ye Tian frowned.

Even the first form was extremely complex and could not be mastered in a short time. It required a long period to achieve mastery of this first form of the Tiangang Battle Technique.

“Of course, the Tiangang Battle Technique is so miraculous. It would be strange if it were easy to master! After all, once such a secret technique is mastered, it becomes one’s own and doesn’t need further cultivation. On the other hand, although the Chaos Golden Desolation Technique is more advanced, it is merely a method of cultivation, not a combat technique, and is naturally easier to practice!” Ye Tian thought to himself.

He had plenty of time, but not that much in this world. At most, he could stay for a few hundred years. If he didn’t leave by then, the universe’s origin would retreat from the Abyss of Destruction, and the Creatures of Destruction would reclaim the middle layer of the Abyss of Destruction.

These Creatures of Destruction could not enter the cave but could wait outside. Once he left, he would have to face their attacks.

Ye Tian’s strength was enough to deal with the weaker Creatures of Destruction, but if he encountered a Dominator-level Creature of Destruction, he would undoubtedly die.

“Let me refine that wisp of the universe’s origin first. Perhaps after refining it, comprehending the first form of the Tiangang Battle Technique will become many times easier!” Ye Tian thought to himself.

So, he took out the fragment of the universe's origin and began to absorb and refine it.

Boom! The aura of the universe's origin started to flow from the fragment into Ye Tian's body.

In just an instant, Ye Tian felt countless laws within the universe's origin, including the laws of time and space, which unfolded before him, deepening his understanding of time and space.

Absorbing the fragment of the universe's origin involved comprehending numerous laws in a completely predatory manner, as if he were devouring these laws. Although he might not immediately understand them all, he could absorb some of them, greatly increasing his own foundation.

As he refined the fragment of the universe's origin, the aura of laws surrounding Ye Tian grew stronger and stronger. Even the origin of the saber within him rapidly strengthened, and the rules of the Ancient Chaos Realm became increasingly perfected.

The Ancient Chaos Realm had currently grown to its limit. Without a breakthrough in cultivation, it couldn't expand further, but its space could be continuously solidified, as if welcoming a new transformation.

Of course, this was just a secondary effect.

The real benefit Ye Tian gained was a far deeper understanding of the universe's laws, as if he had comprehended them over countless years.

Previously, although Ye Tian had profound attainments in the laws, it was hard to compare with those who had lived for eons, such as the Immortal Lord, whose attainments in the laws and the Great Dao surpassed Ye Tian's.

Now, however, after refining the fragment of the universe's origin, Ye Tian instantly surpassed the Immortal Lord. The two were no longer on the same level.

Time passed little by little. After about a year, Ye Tian finally completely refined the fragment of the universe's origin.

Opening his eyes, Ye Tian's eyes were filled with joy.

He felt different, as if he had been sublimated.

“Let me try comprehending the Tiangang Battle Technique again!” Ye Tian resumed his comprehension.

This time, he found that areas he previously found obscure and difficult to understand now became clear at a glance, and he could even deduce other content.

“In a thousand years, I can definitely master the first form of the Tiangang Battle Technique!” Ye Tian was very confident.

And a thousand years to him was merely a ten year’s time, as he could accelerate time by a hundredfold.

With time acceleration activated, Ye Tian began to cultivate and comprehend the Tiangang Battle Technique in a time acceleration of a thousandfold.

In the blink of an eye, ten years passed in the outside world.

One day,

Ye Tian ended his cultivation. He had successfully mastered the first form of the Tiangang Battle Technique.

Immediately, he performed the first form of the Tiangang Battle Technique, and a shocking Tiangang force erupted from his body.

With a casual move, Ye Tian unleashed a terrifying destructive power.

Through his tests, he found that under the amplification of the first form of the Tiangang Battle Technique, his attacks had reached an astounding sixfold increase.

Not only did his attack power reach six times, but his defense and reaction speed also expanded sixfold, making his overall strength multiply by six.

Six times might not seem much, but considering Ye Tian's combat power had almost reached its limits, the Tiangang Battle Technique breaking this limit and increasing it sixfold was incredibly remarkable. Moreover, this was only the first form of the Tiangang Battle Technique, with eight more forms to go.

Once he mastered all nine forms of the Tiangang Battle Technique, Ye Tian's combat power would reach a terrifying level, one even he could not predict.

Immediately, Ye Tian continued to comprehend the pinnacle-level saber dao ultimate technique, True Chaos Technique, and Chaos Great Dao, progressing very quickly.

Originally, Ye Tian had only condensed the phantom of the Chaos Sea Dharma Aspect. After a period of further comprehension, he finally condensed a solid Chaos Sea Dharma Aspect.

Thus, Ye Tian's Chaos Great Dao officially entered the Dharma Aspect realm!

Chapter 669: Encounter with the Immortal True Lord Again!

"The Chaos Dao has fully entered the Dharma Aspect Realm. My strength has significantly increased once again. Coupled with the Tiangang Battle Technique, my power has multiplied several times since entering this world!" Ye Tian was extremely happy.

Moreover, after refining a trace of the Universe Origin and understanding its essence, he no longer needed to painstakingly search for corresponding Heavenly Dao texts to cultivate any divine ability.

For instance, his Spear of Hellish Void, a great divine ability, could now be perfected with much greater ease.

Additionally, although his Five Elements Divine Wheel was still in the minor achievement realm, its power was insufficient. Only upon reaching the major realm or perfected realm would it unleash truly terrifying power.

Previously, Ye Tian couldn't cultivate time-based divine abilities because he lacked the Time Dao text. But now, without needing the Time Dao text, he could comprehend and cultivate time-based divine abilities.

“Fortunately, before leaving the Supreme Hall of Humanity, I exchanged all my soon-to-expire points for resources and divine ability inheritances, acquiring many great divine abilities. Otherwise, obtaining even one great divine ability inheritance after leaving the Supreme Hall of Humanity would have been incredibly difficult, costing hundreds of times more, if not more!” Ye Tian felt relieved.

He possessed multiple great divine abilities, including time and space ones. Hence, he no longer lacked divine ability inheritances and could cultivate any divine ability at any time.

“Let’s not focus on cultivating divine abilities for now. I can do that later. There are still opportunities in this world worth seeking. I must not waste this chance!” Ye Tian thought to himself.

Thus, he decided to stay in this world a bit longer before choosing to leave.

Leaving now would undoubtedly be too soon! Ye Tian left his temporary cave dwelling and flew off in a random direction.

In the following days, Ye Tian indeed found some valuable items in this world. Although they were far from the level of the Tiangang Battle Technique, they were still precious treasures or opportunities.

One day, Ye Tian arrived at a lake.

“This lake is extraordinary. It’s actually the rare Thousand-Layer Weak Water!”

Ye Tian was quite surprised.

Thousand-Layer Weak Water was incredibly precious. Although he had previously visited a place with Thousand-Layer Weak Water for cultivation, that area was artificially created at great expense.

This lake, however, was clearly natural. Given that Heavenly Monarch Yun Tan left this world shortly after creating it, someone of his cultivation level wouldn’t have cared about Thousand-Layer Weak Water, let alone create a lake of it.

“This lake is impressive, but collecting it will be troublesome!” Ye Tian frowned.

Instantly storing the Thousand-Layer Weak Water lake in his spatial storage was unrealistic. This was not ordinary Weak Water but Thousand-Layer Weak Water, which couldn't be stored so easily.

A powerful Dominator could forcibly take the entire lake with their immense cultivation, but Ye Tian couldn't do that yet.

"I can only collect the Thousand-Layer Weak Water bit by bit and store it in the Ancient Chaos Realm. Although it will take a lot of time, it's worth it for the value of this lake!" Ye Tian decided.

He was about to enter the lake to slowly collect the Thousand-Layer Weak Water when he heard laughter from within the lake.

"Hahaha, True Monarch of Ten Thousand Laws, I didn't expect to meet you here again!"

As the voice fell, a figure forcibly emerged from the lake.

"Immortal True Lord, it's you!" Ye Tian was quite surprised.

He hadn't specifically investigated the lake's interior and thus hadn't detected the Immortal True Lord's presence.

What a coincidence! In such a vast world, he unexpectedly encountered the Immortal True Lord here!

"Immortal True Lord, instead of running away, you dare appear before me. Last time, you escaped using a special secret treasure. What will you use to escape this time?" Ye Tian said with a smile.

"This time, I won't run. I will kill you!" The Immortal True Lord spoke coldly.

"Do you have that strength?" Ye Tian sneered.

The Immortal True Lord laughed. "You don't know, do you? This time, I entered the inheritance land of this world and obtained an inheritance. I also acquired a treasure that greatly increases physical strength. Before, I used the Thousand-Layer Weak Water to assist in refining that treasure.

Now, my physical body has become several times stronger. While your power is formidable, it isn't significantly stronger than mine. Now, with my strength skyrocketing, you're doomed!"

"Inheritance, treasure, I see!" Ye Tian understood where the Immortal True Lord's confidence came from.

It turned out that the Immortal True Lord also entered Heavenly Monarch Yun Tan's inheritance land. With his strength, passing the first layer of the trial was easy, though the second layer would be a challenge. Performing well in the second trial, even if he didn't pass, would earn him additional rewards.

Thus, the Immortal True Lord likely obtained the first form of the Tiangang Battle Technique and a valuable treasure. Given his talent and the short time available, he couldn't have mastered the first form of the Tiangang Battle Technique. He was temporarily relying on the treasure to boost his strength.

Unfortunately, the Immortal True Lord didn't realize that the gap between him and Ye Tian hadn't closed but had actually widened.

"Immortal True Lord, is the inheritance you mentioned the Tiangang Battle Technique?" Ye Tian asked with a smile.

"What? You went in too?" The Immortal True Lord was surprised and a bit nervous.

He wasn't afraid of Ye Tian obtaining the complete Tiangang Battle Technique because it was profound and couldn't be mastered in a short time. Without mastering it, the inheritance couldn't be transformed into combat strength.

What he feared was Ye Tian also obtaining a treasure that could temporarily boost his power. In that case, he would have no chance of winning.

"I acquired the complete Tiangang Battle Technique and another treasure, but unfortunately, I wasn't given a treasure to enhance physical strength," Ye Tian said.

"Hahaha, then you're dead!" The Immortal True Lord was shocked.

This meant he could completely defeat Ye Tian. Even if he didn't obtain the complete Tiangang Battle Technique, he could get another treasure!

But then, Ye Tian added, "However, I mastered the first form of the Tiangang Battle Technique. I suppose you haven't mastered it yet. Would you like to see it?"

"Impossible! You can't have mastered the first form of the Tiangang Battle Technique in such a short time. You're definitely bluffing, trying to scare me away. I won't fall for it. This time, I'll kill you for sure!"

Saying this, the Immortal True Lord attacked, determined to kill Ye Tian.

"Why bother?" Ye Tian sighed softly.

Immediately, the Chaos Sea Dharma Aspect manifested around him. The fully formed Chaos Sea Dharma Aspect caused the Immortal True Lord's pupils to contract.

The last time, Ye Tian had only formed a prototype. Now, he had fully entered that realm, truly forming the Chaos Sea Dharma Aspect, making a significant difference in their combat power.

Next, Ye Tian performed the first form of the Tiangang Battle Technique, and Tiangang Qi surged around him.

When the Tiangang Qi enveloped Ye Tian completely, the Immortal True Lord's pupils constricted sharply, and his heart filled with immense fear.

"He really mastered the first form of the Tiangang Battle Technique!" The Immortal True Lord exclaimed in terror.

Chapter 670: Slaying the Immortal True Lord! The Enraged Immortal Race!

Even though the Immortal True Lord had not fully mastered the Heavenly Gang Battle Technique, he had grasped its first move and understood its terrifying power.

Originally, Ye Tian's combat strength had already surpassed his. Now, Ye Tian not only condensed a true Chaos Sea Manifestation but also saw his power of the Chaos Dao surge and mastered the first move of the Heavenly Gang Battle Technique.

The combined effect of these factors elevated his combat power to a terrifying level.

Despite enhancing his physical strength with treasures, the Immortal True Lord was still no match for Ye Tian, and the gap between them widened even further.

“Run!”

The Immortal True Lord panicked and prepared to escape once more.

“This time, you won't get away!” Ye Tian said coldly.

He sealed the void with the power of time and space. Then, he channeled the power of the Chaos Dao into the Heavenly Moon Saber Ultimate Technique and struck out viciously.

Boom! The terrifying strike split the Immortal True Lord in half, shattering even the Origin Divine Artifact he wore.

Whoosh! The Immortal True Lord's body reformed, but his injuries were severe.

Suddenly, a spear shot towards him—it was Ye Tian's Spear of Hellish Void, exuding an incredible power and speed that the Immortal True Lord could not evade.

With a sound like a wet squelch, the Spear of Hellish Void pierced through the Immortal True Lord's body. The destructive spatial power continuously ravaged his body, pushing him to the brink of death.

“This final punch will end you!” Ye Tian roared.

“Six Paths Chaos Palm!”

Ye Tian unleashed this powerful Chaos Divine Technique, striking the Immortal True Lord.

Crash! The Immortal True Lord's physical body disintegrated, but his soul leaped out.

Clearly, the Immortal True Lord had a special fortune, possessing a powerful soul that, despite losing his body, still allowed him the ability to escape.

At that moment, the Immortal True Lord performed a soul secret technique, ready to flee.

"True Monarch of Ten Thousand Laws, next time we meet, I will kill you!" the Immortal True Lord roared in anger.

He believed he could escape since his soul secret technique was formidable and Ye Tian could not possibly stop his soul.

Whoosh! As his soul turned into a light to escape, Ye Tian coldly smiled.

"Soul Spear of the Nether King, pierce!"

The powerful Soul Spear of the Nether King shot out, its speed surpassing everything.

As the Immortal True Lord fled, his soul was intercepted and pierced by the Soul Spear of the Nether King.

"No!"

His soul, pierced and disintegrating, let out a despairing roar.

But it was all in vain. His soul slowly disintegrated, turning completely to ashes.

After killing the Immortal True Lord, Ye Tian collected the remaining treasures and then entered the Thousand-Layer Weak Water Lake to slowly collect the weak water. ㊦

It took about a year for Ye Tian to finally collect the entire Thousand-Layer Weak Water Lake.

Then, Ye Tian left to continue searching for treasures or opportunities.

In the blink of an eye, a hundred years had passed.

One day, Ye Tian decided to leave this world. He had already gained many benefits, and staying any longer would yield no significant rewards.

Moreover, he clearly sensed the universe's rules weakening. If he stayed any longer, there would be constant danger. If any unforeseen events caused the universe's origin power to dissipate prematurely, he would be unable to leave the Abyss of Destruction.

Therefore, leaving early was the safest plan.

Outside the Abyss of Destruction.

A figure flew out—it was Ye Tian.

“Finally out!” Ye Tian breathed a sigh of relief.

Immediately, he flew towards the Human Race's direction.

At the first opportunity, Kunwu Supreme protected Ye Tian.

“Ye Tian, what did you gain?” Kunwu Supreme asked.

“I gained a lot!” Ye Tian replied.

“Can you tell us about that place so our Human Race can better understand it? Otherwise, our lack of knowledge will hinder those who venture there for opportunities,” Kunwu Supreme inquired.

“Yes, I can!” Ye Tian then described the inheritance of Heavenly Monarch Yun Tan and some other opportunities, but mainly focused on the inheritance of the Transcendent Heavenly Monarch Yun Tan.

“The inheritance of a Transcendent!” Kunwu Supreme was incredibly surprised.

He had only just learned that there was a Transcendent’s inheritance there. The various races of the universe strictly guarded this secret, with only a select few knowing about it.

They only informed those entering during the Abyss of Destruction’s turmoil about the secret, making it difficult for the Human Race to learn about it.

Now, Kunwu Supreme understood that the place was a world created by a Transcendent.

“A Transcendent, huh? Unfortunately, we may never reach that realm, but you, Ye Tian, have that hope!” Kunwu Supreme sighed.

Ye Tian remained silent, aware that Kunwu Supreme and the other Supremes had little hope of reaching the Transcendent level. It was an unavoidable reality.

After all, throughout many cosmic eras, only one Transcendent, Heavenly Monarch Yun Tan, had ever emerged. It was an incredibly difficult feat. Even someone as extraordinary as the Immortal True Lord had no hope of transcendence. He couldn’t overcome the tribulations. Even if Ye Tian hadn’t killed him, the Immortal True Lord would eventually perish under the Dominator or Heavenly Venerable tribulations.

Across numerous cosmic eras, many extraordinary beings had risen, including several Children of the Era. Yet, only Heavenly Monarch Yun Tan had transcended.

It could be said that without obtaining so many inheritances, Ye Tian’s chances of transcendence would be exceedingly low.

Kunwu Supreme had considered asking Ye Tian to share the inheritance, but when Ye Tian explained that he had sworn an oath and couldn’t hand it over, he abandoned the idea.

Soon after, Ye Tian revealed something that utterly shocked Kunwu Supreme.

“Kunwu Supreme, the Immortal Race’s extraordinary being is still alive. He also entered the Abyss of Destruction this time. His name is the Immortal True Lord, and his cultivation was at the peak Galaxy level. But I have slain him!” Ye Tian said.

“What? You killed the peak Galaxy-level Immortal True Lord!” Kunwu Supreme was stunned.

The Immortal True Lord was also a transcendent being, a prodigy who had broken through the cosmic limits with Emperor-level cultivation, becoming an extraordinary being. Over the long years, though he avoided entering the Universal God realm due to tribulation fears, his accumulation was immense, and his combat power was terrifying.

Ye Tian, at only the peak Planetary System level, was a whole major realm below the Immortal True Lord! Yet he had crossed a major realm to slay the Immortal True Lord. What a prodigious feat!

“Ye Tian, you must not let this information leak out. Although the Immortal True Lord was only at the peak Galaxy level, his identity is complex, with several Supremes and multiple Heavenly Venerables in his family. It’s rumored he was the disciple of the Second Divine Lord and had been taught by the First Divine Lord. If the Immortal Race learns that you killed the Immortal True Lord, I fear they will stop at nothing to kill you. Your current combat power is too frightening and will make the Immortal Race apprehensive,” Kunwu Supreme warned.

“Kunwu Supreme, I understand. I will keep this matter secret and not let it leak out!” Ye Tian assured.

“Yes, I will also refrain from telling other Supremes to prevent any leaks,” Kunwu Supreme said.

“Would our Human Race’s Supremes leak this information?” Ye Tian asked, puzzled.

“Of course they would!” Kunwu Supreme sighed. “Do you really think our Human Race is completely united? On your journey, you must have encountered many Human Race scoundrels. Some of these scoundrels can rise to high positions, even becoming Supremes. Though they fear us, the powerful Supremes, and dare not act rashly, there is always a risk. A Supreme might sell your information for benefits or simply because they don’t want to see you grow. We can’t rule out this possibility.”

“Understood,” Ye Tian nodded, his vigilance heightened.

Soon after, Kunwu Supreme sent Ye Tian back to the Human Race.

In the blink of an eye, two hundred years passed.

One day, the universe's origin power withdrew from the Abyss of Destruction. Numerous Creatures of Destruction reoccupied the mid-level regions and the entire Abyss of Destruction.

The Immortal Race, Demon Race, and other races' Supremes abandoned control of the Abyss of Destruction and dared not approach it again.

This time, many geniuses from various cosmic races gained benefits, but most still perished in the mid-level world's dangers.

At the Immortal Race's base.

The faces of the First Divine Lord and the Second Divine Lord were extremely grim as they scanned the surroundings.

"The Immortal True Lord hasn't returned," the Second Divine Lord said sorrowfully.

The Immortal True Lord was his disciple, his most prized student, with the potential for transcendence. If he became a Supreme, he would undoubtedly be among the strongest.

The Immortal True Lord was the hope and future of the Immortal Race. But now, he had fallen in that world's Abyss of Destruction.

"First Divine Lord, didn't you say that world wasn't dangerous, and the only threat came from other races' geniuses? But the Immortal True Lord was an extraordinary being at the peak Galaxy level. No other race's geniuses could be his match. How did he fall?" the Second Divine Lord questioned.

"Second Divine Lord, I am deeply saddened too. That world indeed posed no danger. With the Immortal True Lord's combat strength, he should have swept through everything. Perhaps he entered a hidden inheritance and lost track of time, which is why he didn't make it out in time," the First Divine Lord speculated.

“Hmph, the greatest inheritance there is Heavenly Monarch Yun Tan’s, which wouldn’t take long to obtain. Besides, the Immortal True Lord was very cautious. How could he make such a low-level mistake?” the Second Divine Lord retorted.

“Could it be that the Human Race’s True Monarch of Ten Thousand Laws killed the Immortal True Lord?” an ordinary Supreme suggested.

The Second Divine Lord glared at the ordinary Supreme. “Do you think that’s possible? The Human Race’s True Monarch of Ten Thousand Laws is a Defier, but so is the Immortal True Lord. The True Monarch of Ten Thousand Laws is only at the peak Planetary System level. It’s more likely that the Immortal True Lord would have killed him.”

Under the Second Divine Lord’s scrutiny, the ordinary Supreme dared not speak further.

Other Supremes also didn’t believe Ye Tian could have killed the Immortal True Lord, knowing his strength. They couldn’t imagine that the impossible had, in fact, occurred.
