

## Talent 671

### Chapter 671: Zhou Tian's Fall, Ye Tian's Fury!

The Immortal True Lord never emerged from the Abyss of Destruction, which most likely meant he had perished.

Subsequently, the Immortal Race used various methods to confirm that the Immortal True Lord had indeed fallen in that world within the Abyss of Destruction and was utterly incapable of resurrection.

When a being died, its soul imprint would be reclaimed by the universe's origin, enabling resurrection. Even if the Immortal True Lord had stored a sliver of his soul in treasures like the Zichen Wood, if the soul imprint dissipated, that sliver of soul would be like a rootless duckweed, useless for resurrection.

Thus, the Immortal True Lord's fall in that world within the Abyss of Destruction was a true demise.

Though the Immortal Race was enraged, they could do nothing, and the matter gradually passed.

From then on, the Immortal Race never produced another rebel, yet their power still overwhelmingly surpassed other races, remaining the foremost super race.

After Ye Tian returned, he began to comprehend the Spear of Hellish Void and a newly chosen great divine ability, the Wheel of Time. The Wheel of Time was a great divine ability that, once it struck an enemy, could draw them into a time loop, using time rules to continually annihilate the enemy's vitality.

For weaker enemies, unable to escape the time loop, their consciousness would become trapped in the cycle, ultimately leading to their death.

If the Wheel of Time was used in battle, it could decisively turn the tide.

Time practitioners who mastered great divine abilities were feared, and no one wished to battle such practitioners.

Previously, Ye Tian couldn't have mastered the Wheel of Time. He had barely managed to master the Spear of Hellish Void by using space source fragments and the twenty-one words of the Heavenly Dao of Space.

If he had to search for the words of the Heavenly Dao of Time, he wouldn't have been so lucky.

Now, having refined a sliver of the universe's origin, he no longer needed to seek out the words of the Heavenly Dao and could freely cultivate any great divine ability, including those of time.

“Begin cultivation!”

Ye Tian entered a frenzied state of cultivation.

Days passed, and Ye Tian continually pondered the Wheel of Time, from initial confusion to gradual understanding and eventual enlightenment.

A hundred years flashed by!

One day.

Ye Tian's excited shouts echoed in the cultivation chamber.

“Hahaha, I finally mastered the Wheel of Time!” Ye Tian exclaimed excitedly.

With the mastery of the Wheel of Time, Ye Tian's strength advanced further.

“If I can cultivate the Spear of Hellish Void to the minor realm, my power will grow even more.

Moreover, the Heavenly Moon Saber ultimate technique can still be refined, increasing its terrifying power.

This period is my time of rapid progress, a perfect opportunity to cultivate extensively without rushing to break through to the Galaxy level.” Ye Tian thought to himself. ㊄

Meanwhile, Ye Tian often bathed in the peculiar water to align his body with the power of the Chaos Dao.

This alignment had no limit, though the effects diminished over time, it was still effective overall.

Additionally, Ye Tian gave some of the peculiar water to his wife, Xiao Yue, for her to soak in, aiding her in mastering her own Dao in the future.

Besides these cultivations, Ye Tian did not forget to practice the Tiangang Battle Technique. The Tiangang Battle Technique was formidable; mastering all nine styles would greatly enhance his combat prowess, making this supreme battle technique essential to cultivate.

Having mastered the first style, he needed only to continually practice it, allowing him to start on the second style.

The second style of the Tiangang Battle Technique was more powerful, but naturally more challenging to cultivate.

Though Ye Tian had refined a sliver of the universe’s origin, enabling him to master the second style, he estimated it would take at least tens of thousands of years, even with accelerated time, it would take several decades.

Thus, while cultivating other aspects, Ye Tian occasionally pondered the second style of the Tiangang Battle Technique.

Time passed year after year.

Time flew, and a thousand years went by in a flash.

During this millennium, the Human Race grew increasingly prosperous. The Ghost Race Star Fields they once occupied now had a large human population, strengthening the Human Race.

Notably, the Human Race had produced a Heavenly Venerable and a Supreme, a cause for celebration.

In the universe, several new princes emerged, including a terrifying Eternal-level prince among the Great Gods. Though not an Invincible-level Eternal prince, he was far stronger than an ordinary first-tier Eternal prince, nearly an Invincible-level Eternal prince, making him the Human Race's most promising candidate to reach that level.

This prince was Ye Tian's disciple—Zhou Tian, known as the Heavenly Saber Prince! In the eyes of the Human Race's high-ranking members, Ye Tian's reputation was far greater than Zhou Tian's. However, to ordinary cultivators in the star field, the Heavenly Saber Prince was more renowned.

Ye Tian's rapid cultivation progress and lack of significant missions had left him with little reputation.

Conversely, the Heavenly Saber Prince had been active in various star matters, slaying countless traitors, accumulating considerable fame.

At the same time, the Heavenly Saber Prince had gained notoriety among other races, killing numerous princes, making him a thorn in their sides.

Yet, on this day.

The Heavenly Saber Prince encountered trouble!

Tian Pavilion.

Xiao Yue sought out the secluded Ye Tian.

"Husband, your disciple Zhou Tian is in trouble!" Xiao Yue said.

"What happened?" Ye Tian frowned.

"Zhou Tian's body is shattered, his soul about to be obliterated. Though a Dominator has forcibly stabilized his soul, it cannot be saved.

Now, Zhou Tian is in the Supreme Hall of Humanity. Because you are his master, the hall sent someone to inform you.

Zhou Tian wishes to see you before he dies...!” Xiao Yue hurriedly said.

“What!!!”

Ye Tian was furious.

His only disciple was about to fall.

“I’ll go to the Supreme Hall of Humanity immediately!”

Ye Tian teleported, rushing to the Supreme Hall of Humanity.

Soon, Ye Tian arrived at the Supreme Hall of Humanity, finding Zhou Tian in the cultivation tower of the Heavenly Region.

In a grand hall.

Zhou Tian’s illusory celestial soul sat there, accompanied by a Dominator and several Universal Gods.

Upon seeing Ye Tian, Zhou Tian forced a faint smile and said, “Master, I’m finally seeing you! Now I have no regrets!”

Ye Tian, observing Zhou Tian’s state, felt his heart sink.

The core of Zhou Tian’s celestial soul had shattered. If not for the Dominator continuously stabilizing it, Zhou Tian would have been obliterated instantly.

“How did this happen?” Ye Tian asked.

Zhou Tian was too weak to respond, so the Dominator beside him explained, “True Monarch of Ten Thousand Laws, one of the minor races rebelled, and the Heavenly Saber Prince happened to be on a mission with that clan. We didn’t anticipate that the race had already allied with a larger faction. Caught off guard, several Universal Gods protecting Zhou Tian perished, and a Dominator was severely injured. Despite the severe injury, the Dominator managed to bring back Zhou Tian’s nearly shattered celestial soul.”

“What about that minor clan?” Ye Tian inquired.

“They were wiped out by Kunwu Supreme,” the Dominator replied.

“Which major cosmic race backed them?” Ye Tian asked, taking a deep breath.

“The Angel Race,” the Dominator said. “Their strength still surpasses ours, being an old and powerful cosmic race. Our Human Race can’t contend with them, so we have to endure this loss.”

“Damned Angel Race!” Ye Tian wished to annihilate them, but he was too weak to contend with them. He then examined Zhou Tian’s celestial soul closely.

Despite possessing the Nether King Secret Manual and being highly knowledgeable about souls, Ye Tian couldn’t save Zhou Tian in his current condition.

“Can’t the Human Race do anything?” Ye Tian asked.

“Nothing can be done!” The Dominator shook his head. “Kunwu Supreme also came to assess the situation and expressed his inability to help. This isn’t an ordinary injury; it’s a shattered soul. No matter the cost, it can’t be healed, unless a Soul Supreme intervenes.”

“A Soul Supreme?” Ye Tian smiled bitterly. He was only at the Nether General level; his soul expertise was far from reaching the level of a Soul Supreme. Other Human Race experts had even less soul proficiency, so hoping for their help was unrealistic.

“Master, I have no regrets. To have my name known among the Human Race is enough. I only regret not being able to repay your teachings!” Zhou Tian said weakly.

“Zhou Tian, don’t worry. I will resurrect you!” Ye Tian assured him.

“True Monarch of Ten Thousand Laws, resurrecting the Heavenly Saber Prince, an Eternal-level prince, isn’t as simple as resurrecting an ordinary Universal God. The cost is enormous! Moreover, the Heavenly Saber Prince didn’t store a sliver of his soul in the Zichen Wood, so the cost will be even greater,” the Dominator hurriedly said.

“As long as he can be resurrected, I don’t care about the cost!” Ye Tian said firmly.

Seeing this, the Dominator said no more.

At this moment, Zhou Tian’s celestial soul completely collapsed, beyond even the Dominator’s ability to maintain.

After Zhou Tian’s death, Ye Tian sought out Kunwu Supreme.

To resurrect an Eternal-level prince, at least a Supreme had to intervene, and even then, not just any Supreme could do it. Thus, he went to Kunwu Supreme.

Soon, Ye Tian met Kunwu Supreme.

In the Kunwu Pavilion.

“Ye Tian, I know why you’re here. You want to resurrect Zhou Tian, right?” Kunwu Supreme asked first.

“Yes, Kunwu Supreme,” Ye Tian replied. “Our Human Race can resurrect Universal Gods and Dominators. Resurrecting Zhou Tian should be possible, right?”

Kunwu Supreme said, “It is possible, but the cost is enormous.

Some Universal Gods and Dominators can be resurrected because they stored a sliver of their soul in the Zichen Wood, making the cost slightly less, though still significant.

For instance, when several Universal Gods and Dominators of the Human Race fell last time, they all needed resurrection. However, the Human Race couldn't resurrect them all at once, or our strength would suffer greatly, making us vulnerable to annihilation by other cosmic races.

Therefore, these resurrections take time, requiring a queue.

Those with higher status and deeper backgrounds get resurrected first, then slowly the other Universal Gods. Some Universal Gods even need to wait tens of millions, or even hundreds of millions, of years.

Now, if you want to resurrect Zhou Tian, he can join the queue. In a few billion years, it will be his turn."

"What? A few billion years?" Ye Tian was stunned.

If it took that long, he wouldn't need the help of the Human Race's other Supremes. He could resurrect Zhou Tian himself by then.

"Kunwu Supreme, I can't wait that long. Is there a quicker way?" Ye Tian asked.

Kunwu Supreme pondered for a moment and said, "Yes!"

Chapter 672: Blood of an Ancestral God!

"Please, Kunwu Supreme, tell me!" Ye Tian pleaded.

Kunwu Supreme responded, "In truth, any Supreme has the ability to resurrect a Great God. Even a Supreme who isn't proficient in time and space can forcibly use their own power to reverse time and resurrect a Great God. However, doing so would incur backlash from the Universe's Origin. If one relies solely on their own strength, the cost is substantial. For a Supreme adept in time and space, the cost is much smaller.

Zhou Tian was an Eternal-level prince, infinitely close to an Invincible Eternal-level prince. His talent was indeed impressive.

But such a prince is not great for the Human Race. Only a Supreme-level prince would prompt the Human Race to immediately revive him as an exception.

I can't persuade other Supremes to revive Zhou Tian, nor can I act myself. I have many pressing matters, and reviving Zhou Tian would weaken my state, so I cannot intervene.

However, I can enlist the help of another Supreme from a different race, one you're familiar with!"

Ye Tian immediately guessed who Kunwu Supreme was referring to.

"Kunwu Supreme, you mean the Innate Deity, Lord Cang Yu?" Ye Tian asked.

"Correct!" Kunwu Supreme nodded. "It is indeed Cang Yu. Cang Yu is proficient in the Great Dao of Time and has mastered the great divine ability of Reversing Time. If he revives Zhou Tian, the cost would be very small, far less than what we Supremes would bear, and he would recover quickly."

"Kunwu Supreme, getting Cang Yu to act might not be so easy," Ye Tian frowned.

"Indeed!" Kunwu Supreme nodded again. "Even with a small cost, Cang Yu wouldn't resurrect a Great God lightly. Reviving a being defies the laws of the Universe, and if done too frequently, it would attract resistance from the Universe's Origin. Therefore, Supremes avoid reviving beings whenever possible.

To persuade Cang Yu to act won't be easy. Even if I mediate, it would only serve to introduce you to him. Whether he ultimately helps is uncertain."

"Thank you, Kunwu Supreme!" Ye Tian expressed his gratitude.

Soon after, Kunwu Supreme contacted Cang Yu, explaining the situation to him.

Ye Tian didn't know what was discussed between Kunwu Supreme and Cang Yu. He waited for three days before receiving a response from Kunwu Supreme.

In the Kunwu Pavilion, Ye Tian met Kunwu Supreme again.

“Ye Tian, Cang Yu is willing to resurrect Zhou Tian, but you must agree to one condition,” Kunwu Supreme stated.

“What condition?” Ye Tian’s heart sank as he asked. He suspected this condition wouldn’t be simple; otherwise, Cang Yu wouldn’t agree to revive Zhou Tian.

Kunwu Supreme explained, “Cang Yu, as a Supreme proficient in the Great Dao of Time, cares little for most things. However, there is one thing he greatly desires but has yet to obtain.

If you can find this item, he will resurrect Zhou Tian for free.”

“What is this item that even he cannot obtain? Can I really get it?” Ye Tian frowned.

“That item is called the Blood of an Ancestral God!” Kunwu Supreme revealed.

“The Blood of an Ancestral God?” Ye Tian was puzzled. “What is that?”

Kunwu Supreme explained, “In fact, when the Universe was first born, before the existence of the Immortal Race and Demon Race, the first beings to emerge were the Innate Deities. At that time, the Universe was controlled by these Innate Deities in their divine kingdoms.

Later, the Immortal Race and Demon Race emerged, wiping out most of the Innate Deities and taking control of the universe.

Afterwards, various powerful races appeared, leading to the current era where a myriad of races thrive.

The first batch of Innate Deities born at the beginning were called Ancestral Gods. These Ancestral Gods were incredibly powerful, each one at the Supreme level. However, most of the Ancestral Gods perished in internal conflicts early on; otherwise, the rise of the Immortal Race and Demon Race would not have happened.

The difference between ordinary Innate Deities and Ancestral Gods lay in their bloodline. The Blood of an Ancestral Gods was their most essential blood, containing unimaginable energy.

However, the Ancestral Gods existed in ancient times, and their blood had nearly been exhausted.

Although Cang Yu is a Supreme, he is merely an ordinary Supreme. However, with his mastery of the Great Dao of Time, other Supremes dared not provoke him.

Due to his bloodline, Cang Yu found it difficult to progress further, so he needed the Blood of an Ancestral God!”

“So that’s how it is!” Ye Tian began to understand.

Innate Deities followed the path of bloodlines, similar to the Fierce Beast Clan. However, the bloodline of Innate Deities was innate, determined from the moment they were born, unlike the Fierce Beasts who could enhance their bloodlines.

Therefore, Cang Yu could only rely on the Blood of an Ancestral God to advance.

“Where can I find the Blood of an Ancestral God? Without any clues, I can’t obtain it!” Ye Tian asked.

“In the universe, there is a Tomb of the Ancestral Gods. Due to special rules, strong beings dare not enter it. First, it is dangerous. Second, the Tomb of the Ancestral Gods doesn’t allow beings above the Universal God level to enter, particularly not Innate Deities.

Thus, Innate Deities have never entered that tomb. It is rumored that some Blood of an Ancestral God is still preserved there.

Unfortunately, almost everyone who entered the tomb perished, and those who survived didn’t obtain the Blood of an Ancestral God.

Cang Yu deeply desires the Blood of an Ancestral God from that tomb, but he cannot enter.

He once sent some peak-level Galaxy warriors into the tomb, but none acquired the Blood of an Ancestral God.

Now, Cang Yu hopes you can enter the Tomb of the Ancestral Gods and retrieve the Blood of an Ancestral God for him! Additionally, if you succeed, he is willing to grant you a great opportunity related to the Dao of Time!” Kunwu Supreme explained.

“I’ll think about it!” Ye Tian pondered for a while...

Ultimately, he decided, “Alright, I agree to Cang Yu’s request!”

“Good, I will arrange for you to meet Cang Yu. The rest you can discuss with him directly!” Kunwu Supreme said.

“Alright!” Ye Tian nodded.

Soon after, Ye Tian was escorted by Kunwu Supreme to Cang Yu’s domain, where he met Cang Yu.

“Greetings, Lord Cang Yu!” Ye Tian respectfully said upon seeing Cang Yu.

Cang Yu smiled upon seeing Ye Tian, “Ye Tian, it’s been a while!”

Kunwu Supreme said, “Cang Yu, I leave Ye Tian in your hands. The Human Race has other matters to attend to, so I must take my leave.”

“Kunwu Supreme, rest assured. I can’t guarantee Ye Tian’s safety in the Tomb of the Ancestral Gods, but outside of it, unless the Divine Lords of the Immortal Race or the Demon Lords of the Demon Race attack, I can ensure his safety against any ordinary Supreme!”

“Then I am reassured!” Kunwu Supreme left with confidence.

Chapter 673: The Innate Blood Child!

In the Cang Yu Realm.

Ye Tian sat with Lord Cang Yu, sipping tea and chatting leisurely.

As the Lord of Cang Yu, he had few hobbies. Having reached his current level, it was difficult to further enhance his strength through cultivation. Thus, he enjoyed tasting various teas to cultivate his mind and spirit, which kept him from feeling bored.

“Ye Tian, you want to resurrect your disciple Zhou Tian. I can indeed help you with that, but you must bring back the Blood of an Ancestral God from the Tomb of the Ancestral Gods. Kunwu Supreme should have mentioned this to you as well.

Now, let me tell you about some of the conditions inside the Tomb of the Ancestral Gods, so you won’t feel lost when you enter!” Lord Cang Yu explained.

“Alright,” Ye Tian responded.

“The Tomb of the Ancestral Gods is a divine tomb naturally formed by heaven and earth after the fall of the Ancestral Gods. It wasn’t built by the Ancestral Gods.

In fact, many people misunderstand, thinking that the Tomb of the Ancestral Gods was built by the Ancestral Gods before their death. This is actually incorrect!” Lord Cang Yu explained.

“Is that so?” Ye Tian was quite surprised. He had also believed that the Tomb of the Ancestral Gods was built by the Ancestral God before their death. He hadn’t expected it to be naturally formed.

Subsequently, Lord Cang Yu detailed the specific conditions of the Tomb of the Ancestral Gods to Ye Tian.

From his description, Ye Tian roughly understood the internal situation of the Tomb of the Ancestral Gods.

The inside of the Tomb of the Ancestral Gods was extremely dangerous, but there were primarily two types of danger.

The first danger came from the killing arrays within the tomb.

The Ancestral Gods were the first batch of Innate Deities of the universe, vastly different from the current Innate Deities. They were mostly deities skilled in killing. Although powerful, they were very brutal and frequently engaged in battles.

Because of this, the Ancestral Gods perished due to mutual slaughter. Otherwise, the Innate Deities would have had a say in the universe's power structure.

Unfortunately, after the Ancestral Gods died, the Innate Deities in the universe declined. Though the Innate Deities of the Desolate Realm were powerful, their strength relied on the unique nature of the Desolate Realm. Outside of the Desolate Realm, these Innate Deities were weaklings compared to the various races of the universe.

Therefore, the naturally formed Tomb of the Ancestral Gods contained many killing arrays styled after the Ancestral Gods' combat techniques.

These killing arrays were extremely powerful, capable of killing ordinary Universal Gods. Any ordinary Galaxy-level being entering them had no chance of survival. The second danger was the Innate Blood Child! The Innate Blood Child wasn't an Innate Deity, but a special creature born from the corpse of an Ancestral God, possessing the bloodline power of the Ancestral Gods, similar to their descendants.

Though the Innate Blood Child didn't inherit the Ancestral Gods' talents, they did inherit their brutality and love of slaughter, showing no mercy to those entering the Tomb of the Ancestral Gods.

In another sense, the Innate Blood Child could be considered guardians of the Tomb of the Ancestral Gods! The crucial issue was that while the Innate Blood Child's talents weren't exceptional, it didn't mean no highly talented ones emerged over the ages.

"Ye Tian, in the Tomb of the Ancestral Gods I know of, there are several Universal God-level Blood Children. Although their cultivation is high, their wisdom is low, and they lack any heritage, making their combat power weaker than cultivators.

With your combat strength, you should not fear Universal God-level Innate Blood Children.

But if there are Dominator-level Innate Blood Children, you must be careful. Even if their wisdom is low and they haven't cultivated any ultimate techniques or secret arts, their combat power would still rival the top-tier Universal Gods of the human race!" Lord Cang Yu reminded. P

"I understand," Ye Tian replied.

Internally, he felt relieved. Those Innate Blood Children lacked wisdom and heritage, making them a weak clan. Such a group had cultivation but couldn't fully exhibit their combat power, posing no significant threat.

Of course.

He wouldn't boast about his prowess to Lord Cang Yu, as that would expose his strength, which wasn't advisable. Hence, he responded modestly to Lord Cang Yu.

"Ye Tian, take a few days to rest. Then, I will take you to the Tomb of the Ancestral Gods.

If you bring back the Blood of an Ancestral God, the great opportunity I grant you will not disappoint! But if you fail to complete the task, I won't give you anything, nor will I help you resurrect Zhou Tian!" Lord Cang Yu stated firmly.

"Lord Cang Yu, I understand the agreement. Rest assured," Ye Tian assured him.

In the following days, Ye Tian rested in Cang Yu.

Three days later.

Lord Cang Yu took Ye Tian to the Tomb of the Ancestral Gods!

After traveling swiftly with Lord Cang Yu, Ye Tian finally arrived at a star river.

The star river, located in the starry sky, was a relatively common type of river.

"This is the place!" Lord Cang Yu pointed to the star river and said, "A Tomb of the Ancestral Gods was born in this star river. Many ages ago, this tomb was well-known, and many beings below the level of Universal Gods tried to enter it, but most perished inside. Only a very few managed to come out alive.

Some claimed to have seen the Blood of an Ancestral God, but unfortunately, they weren't strong enough to retrieve it."

“The information should be true, but it won’t be easy to find. Be careful!”

“Understood!” Ye Tian nodded.

Soon, Ye Tian and Lord Cang Yu entered the star river.

They quickly arrived at a certain area of the star river and saw a barrier.

“This is the barrier of the Tomb of the Ancestral Gods. It’s difficult for ordinary people to break through. Let me handle it!” Lord Cang Yu easily tore open the barrier and led Ye Tian inside.

Once inside the barrier, Ye Tian finally saw an incredibly majestic divine tomb.

In front of the tomb stood a towering statue of an Ancestral God, resembling a human but with a pair of sharp horns on its forehead and much larger eyes than humans.

“This is the Silver-Horned Ancestral God. Among the Ancestral Gods, he ranked in the top ten, far more powerful than I am. Unfortunately, even such a powerful Ancestral God still perished!” Lord Cang Yu lamented.

Without dwelling too much on his emotions, Lord Cang Yu brought Ye Tian to the tomb’s entrance and pointed to the tombstone. “This tombstone is the entrance to the Tomb of the Ancestral Gods. I will open it to let you in.

This is a sensor. When you want to leave, come to the entrance and use the sensor to contact me. I will open the tomb to let you out. Otherwise, it will be troublesome for you to get out on your own.”

Ye Tian took the sensor and replied, “Lord Cang Yu, I understand!”

Immediately, Lord Cang Yu opened the tomb’s entrance, and Ye Tian flew inside.

Watching Ye Tian disappear, Lord Cang Yu murmured, “Ye Tian, I hope you succeed. My hope of advancing further depends on you!”

In the Tomb of the Ancestral Gods.

Ye Tian swiftly traversed the boundary of the Tomb of the Ancestral Gods and arrived at the entrance path. Behind him was a stone door, presumably the entrance and exit connected to the outside tombstone.

Without lingering, Ye Tian continued forward.

This was just the entrance, likely not very dangerous. The real dangers lay deeper inside.

The killing arrays and the Innate Blood Children posed significant threats. The killing arrays were relatively simpler since they were fixed in place. Even if encountered, there was hope of breaking through or escaping.

However, encountering an Innate Blood Child would almost certainly lead to a fight. In unfamiliar territory like the Tomb of the Ancestral Gods, it would be challenging to evade them.

After walking a short distance along the tomb path, Ye Tian suddenly entered an array formation.

Boom! Terrifying beams of death energy shot towards him, attempting to pierce and tear him into nothingness.

However.

Ye Tian activated his defenses and spatial barrier, along with the Five Elements Divine Wheel, effortlessly protecting himself. No matter how terrifying the beams were, they couldn't penetrate his defenses.

“Break!” Ye Tian charged out of the killing array, easily breaking through it.

“Interesting, this killing array's power is decent. It could basically kill top-tier Galaxy-level beings and even threaten weaker Universal Gods!” Ye Tian remarked.

But such formations were useless against him. He was too powerful, and these formations were too weak to threaten him.

As he continued, Ye Tian encountered one killing array after another. Some were weak, while others had considerable power, making him take them slightly more seriously.

Finally, after passing through numerous areas, Ye Tian arrived at the central region of the Tomb of the Ancestral Gods.

Upon stepping into the central area, Ye Tian sensed an unusual atmosphere, as if something was approaching.

“Could it be...?” Ye Tian speculated.

Sure enough.

Soon, a blood-soaked humanoid creature charged towards Ye Tian.

“Copy talent, scan!” Ye Tian used his copying talent, instantly learning the humanoid creature’s talent situation.

Species: Innate Blood Child

Bloodline Talent: Desolate-level

Strength Talent: Top-level

Defense Talent: High-level

Speed Talent: Pseudo-Mystic-level

Absorption Talent: Mystic-level

Immortality Talent: Intermediate

Blood Wing Talent: High-level

Based on the talents, this humanoid creature's abilities were quite average.

In the human race, a person with Desolate-level cultivation talent would be highly valued by some sects, their talents far from mediocre.

This showed that the survival environment of these Innate Blood Children was poor, lacking heritage, and their combat abilities were indeed ordinary.

The Innate Blood Child couldn't recognize Ye Tian and naturally didn't fear him, charging at him recklessly.

With a wave of his hand, Ye Tian used spatial power to imprison the creature. Then, with a slight clench of his fist, the Innate Blood Child was crushed into a cloud of blood mist.

Ye Tian had effortlessly killed the Innate Blood Child!

Chapter 674: Ancestral God Hall and Sacred Land!

"This Innate Blood Child was weak, but there might be some powerful ones in the Tomb of the Ancestral Gods. If I encounter an Innate Blood Child at the Dominator level, even the weakest one would be tough to handle!" Ye Tian murmured.

Ye Tian did not know where the Blood of an Ancestral God was located within the Tomb of the Ancestral Gods. He could only search slowly.

The Tomb of the Ancestral Gods was vast, with numerous chambers and passages. The divine sense was suppressed here, making it difficult to explore too many places.

The entire Tomb of the Ancestral Gods seemed naturally formed, not constructed.

Seeing such a tomb, Ye Tian finally believed the words of Lord Cang Yu. This place was indeed not man-made but a wondrous tomb born from heaven and earth.

As he walked through a passage, Ye Tian suddenly saw a pile of bones.

These bones had existed for many ages but were still well-preserved.

They belonged to various races, not just one.

Ye Tian even saw the bones of a dragon and a phoenix. It was clear that these belonged to cultivators from various races who had entered the Tomb of the Ancestral Gods but had perished due to insufficient strength.

After walking for some distance, Ye Tian suddenly felt a surge of violent auras approaching.

“The aura of Innate Blood Children, and there is more than one!” Ye Tian noted silently.

He did not flee because there were no powerful beings among these Innate Blood Children. He had nothing to fear.

Boom!!! Dozens of Innate Blood Children, led by a Universal God Blood Child, appeared before Ye Tian.

“A Universal God, three Galaxy levels, six Planetary System levels, and the rest are Great Gods and True Gods. What a bizarre combination!” Ye Tian chuckled inwardly.

It was evident that the innate talent of these Blood Children was generally lacking, but some were still strong.

“Kill the outsider!” commanded the Universal God Blood Child at the forefront upon seeing Ye Tian.

Seeing this, Ye Tian laughed.

“This Universal God Blood Child seems quite intelligent. Perhaps I can get some information from him!” Ye Tian thought.

As the Innate Blood Children attacked, Ye Tian waved his hand, instantly killing all but the Universal God Blood Child.

This Universal God Blood Child, despite having the cultivation of a Universal God, was too weak in combat. He couldn't even break free from Ye Tian's spatial powers, making him comparable to a peak-level Galaxy-tier expert.

"Hypnosis!" Ye Tian used his hypnosis talent on the Universal God Blood Child, easily putting him under.

"I want to know how many Innate Blood Children are in the Tomb of the Ancestral Gods and how many above the Universal God level there are," Ye Tian asked.

The Universal God Blood Child, under hypnosis, did not resist and answered truthfully.

"There are hundreds of thousands of Innate Blood Children in the Tomb of the Ancestral Gods, with seventy-three at the Universal God level and three at the Dominator level."

The Universal God Blood Child responded truthfully.

"So many Innate Blood Children!" Ye Tian was a bit surprised. It seemed the outsiders had underestimated these Blood Children. However, it made sense. The Tomb of the Ancestral Gods continuously nurtured Innate Blood Children. Even if their talents were poor, some Universal Gods would eventually be born through generations of cultivation.

Universal Gods had infinite lifespans, and since there were no dangers inside the Tomb, their numbers naturally accumulated over generations.

"With so many Universal Gods and Dominators, no wonder most beings who entered here died. Only Galaxy-tier and below are allowed to enter, and those who can contend with Universal Gods and Dominators are rare. Most can't even handle top-tier Universal God level Blood Children. If they encounter Dominator level ones, it's certain death! Those who survive either have incredible luck or fled soon after entering!" Ye Tian speculated.

"Do you know about the Blood of an Ancestral God?" Ye Tian asked the question he most wanted answered.

He believed that a Universal God level Blood Child would hold a high position among the Innate Blood Children in the tomb. If the Blood of an Ancestral God truly existed here, this Universal God should know about it!

“I know about the Blood of an Ancestral God!” the Universal God Blood Child replied.

“Where is it?” Ye Tian asked excitedly.

“In the Ancestral God Hall and the Sacred Land!” the Universal God Blood Child replied.

“Ancestral God Hall and Sacred Land?” Ye Tian was puzzled by these two places and continued to inquire for more information.

Under Ye Tian’s persistent questioning, the Blood Child detailed the Ancestral God Hall and Sacred Land.

It turned out that the Ancestral God Hall was where the three Dominator Blood Children cultivated in seclusion.

As for the Sacred Land, it was where the Ancestral God slept! These Blood Children believed the Ancestral God’s death was merely a slumber and that he would eventually awaken.

Additionally, Ye Tian learned that Innate Blood Children had little intelligence before becoming Dominators. However, once they reached the Dominator level, they gained adult-level intelligence. Through various trials, they managed to grant Universal God level Blood Children the intelligence of teenagers, though their nature remained largely violent.

After obtaining all the information, Ye Tian killed the Universal God Blood Child.

Afterward, Ye Tian began to contemplate his next move.

“According to the information from this Universal God Innate Blood Child, the Ancestral God Hall contains the Blood of an Ancestral God, taken from the Sacred Land by the three Dominators and enshrined in the palace. The reason these Universal God Innate Blood Children possess intelligence is due to absorbing a tiny bit of the Blood of an Ancestral God.

The Sacred Land still has the Blood of an Ancestral God, but it is protected by the Ancestral God's immense pressure. Even those three Dominator-level Innate Blood Children could only barely approach it to extract a small amount of the Blood of an Ancestral God!" Ye Tian murmured.

Given the current situation, it seemed inappropriate to seize the Blood of an Ancestral God from the Ancestral God Hall.

After all, the strength of the three Dominators was unknown. He might not be their match, as their cultivation level was far higher than his. Even if they were weak in other aspects, their cultivation alone could compensate for those weaknesses.

"Slaying the three Dominators is unrealistic. If I don't eliminate them, I can't get the Blood of an Ancestral God from the Ancestral God Hall. Therefore, it seems more reliable to seek the Blood of an Ancestral God from the Sacred Land!"

Ye Tian decided.

Thus, Ye Tian headed towards the Sacred Land within the Tomb of the Ancestral Gods, where the remains of the Silver-Horned Ancestral God lay.

Whoosh! Ye Tian moved swiftly, disguising himself as an Innate Blood Child.

According to the information, the Tomb of the Ancestral Gods would nurture an Innate Blood Child every few ages, born from the power of the Ancestral God.

Therefore, Ye Tian could pose as a newly nurtured Innate Blood Child. With his skill in disguise, he ensured that his transformation was impeccable.

Even if he were discovered approaching the Sacred Land, he would not reveal his true identity.

Before long, Ye Tian arrived at the Sacred Land.

The Sacred Land was an independent space connected by numerous void wormholes. By passing through these wormholes, one could enter the Sacred Land.

“No Innate Blood Children guarding!” Ye Tian noted inwardly.

He quickly understood why.

Innate Blood Children below the Universal God level lacked intelligence and couldn’t guard the place effectively. Meanwhile, the Universal God-level Blood Children were few and likely uninterested in guarding this location.

Thus, at most, a Universal God Innate Blood Child might patrol occasionally, but they wouldn’t stay here constantly.

Immediately, Ye Tian flew into one of the void wormholes, entering the Sacred Land.

Boom!!! As soon as he entered the Sacred Land, Ye Tian saw an immense figure!

“The Silver-Horned Ancestral God!” Ye Tian murmured.

The corpse of the Ancestral God remained well-preserved, and its terrifying aura made Ye Tian’s heart tremble.

“Such powerful majesty! No wonder it’s the corpse of a Supreme. Even after countless ages, its aura is still so overwhelming. No wonder it doesn’t need weak Innate Blood Children to guard it; it’s completely unnecessary! Galaxy-tier beings can’t even approach the Ancestral God’s corpse in the Sacred Land. The three Dominator-level Blood Children probably know this, so they don’t bother to post guards here!” Ye Tian speculated.

But this rule did not apply to him. He was too strong. Although he was only at the peak of the Planetary System level, he was stronger than most Universal Gods, and even rivaled Dominator-level Innate Blood Children!

Therefore, he was confident he could approach the Silver-Horned Ancestral God’s corpse.

“Advance!”

Ye Tian walked step by step, continually approaching the Silver-Horned Ancestral God's corpse.

However, the difficulty he faced was greater than that of the Innate Blood Children.

The Innate Blood Children were born from the Silver-Horned Ancestral God's power and had a certain immunity to its pressure, making it easier for them to bear.

But Ye Tian would not give up easily. He kept moving forward.

As time passed, Ye Tian got closer and closer to the Ancestral God's corpse, but the pressure became increasingly unbearable.

"It seems I must use that object's power!" Ye Tian murmured.

Boom!!!! A shadow of a black lotus appeared around Ye Tian, the mysterious Chaos Black Lotus rooted in the ancient Chaos Realm.

This Chaos Black Lotus was likely a mysterious treasure beyond the strongest supreme treasures. It had previously helped Ye Tian withstand the pressure of a dominant creature in a small chaotic world, and now it could help him bear the pressure of the Silver-Horned Ancestral God.

As the black lotus's light enveloped Ye Tian, it shielded him from the Ancestral God's corpse's pressure.

Soon, Ye Tian reached the Silver-Horned Ancestral God's corpse.

"Lord Cang Yu said that the Blood of an Ancestral God is not ordinary blood but the blood from the heart, the essence of the body. However, this blood would gradually deplete over time, and the continuous birth of Innate Blood Children would also consume it.

Therefore, Lord Cang Yu wasn't sure if the Blood of an Ancestral God still existed in the tomb." Ye Tian pondered.

But from the information provided by the Universal God Innate Blood Child, the Blood of an Ancestral God still existed, and the three Dominator-level Blood Children had taken some. This indicated that he could also extract some Blood of an Ancestral God.

“There must be a wound on the Silver-Horned Ancestral God that leads to the heart!” Ye Tian speculated.

Sure enough, as Ye Tian stood on the Ancestral God’s corpse, he saw a crack on the chest, faintly revealing the Ancestral God’s heart.

But the pressure here was immensely terrifying. Even with the Chaos Black Lotus, Ye Tian could barely withstand it.

“I must quickly extract the Blood of an Ancestral God!” Ye Tian said gravely.

Whoosh! He flew into the Silver-Horned Ancestral God’s heart, prepared to take some of the Blood of an Ancestral God as swiftly as possible.

Chapter 675: Obtaining the Ancestral God’s Blood Crystals!

With the help of the Chaos Black Lotus, Ye Tian successfully reached the heart of the Silver-Horned Ancestral God.

Immediately, a terrifying surge of blood energy struck him. This energy came directly from the heart of the Silver-Horned Ancestral God, where there was a massive gash.

Through this gash, he could see several blood crystals. “That should be the Blood of an Ancestral God mentioned by Lord Cang Yu!” Ye Tian murmured. “Lord Cang Yu had said that the Blood of an Ancestral God was not in liquid form but crystallized.

The reason it was crystallized was that this form made it difficult for the energy to dissipate. If it remained in liquid form, the energy of the Blood of an Ancestral God would have dispersed over the ages. This crystallized state was a self-protection measure of the Blood of an Ancestral God.”

There weren’t many blood crystals in the heart of the Silver-Horned Ancestral God, and most of them were deep within. It was likely that the three Dominators couldn’t penetrate the heart’s depths

and only dared to extract blood from the heart's periphery. Along with some consumed outside, only these blood crystals were left.

"These Ancestral God Blood Crystals are enough!" Ye Tian thought to himself.

Immediately, he flew into the depths of the Silver-Horned Ancestral God's heart, but by then, his body was almost at its limit, cracking all over. The energy within the heart was continuously being released, unlike the Dominators who restrained their energy, allowing him to stand near them without difficulty. However, here, he could hardly withstand the pressure.

"I've reached it!" Ye Tian quickly gathered one blood crystal after another.

After a while, Ye Tian had collected twenty Ancestral God Blood Crystals.

As for the blood deeply embedded in the heart's flesh, he couldn't obtain it. Even without the extreme pressure, he couldn't cut through the flesh enhanced by the power of the Dominators. The physical strength of this Ancestral God wasn't exceptionally strong, but with the Dominator's power still lingering, it fortified its defenses, making them impenetrable.

"Ancestral Gods truly are a unique group of Innate Deities. If they were ordinary Dominators, their energy would have long been exhausted, leaving only physical strength. The Ancestral Gods were undoubtedly favored by the universe, born as Children of the Universe. Even in death, the heavens created tombs for them. However, despite their great talent and power, their inherent nature of slaughter led to their eventual extinction!" Ye Tian sighed.

Having obtained the twenty Ancestral God Blood Crystals, Ye Tian left.

However, the Silver-Horned Ancestral God's aura weakened slightly after losing the twenty blood crystals, causing the Sacred Land's space to tremble.

"Not good!" Ye Tian realized something was wrong.

The Dominators had incredibly powerful senses. The changes here would not escape their notice. Even the weakest Dominator would detect the situation here. Moreover, this was the Tomb of the Ancestral God, the territory of those innate blood beings.

In the Ancestral God Hall.

The three Dominator-level innate blood beings had been in closed-door cultivation when they suddenly opened their eyes.

“There’s an anomaly in the Sacred Land!”

Their divine senses immediately pierced through the void, scanning the Sacred Land.

They quickly discovered Ye Tian’s presence.

“An intruder has entered the Sacred Land, causing its weakening. Capture him!”

They did not immediately identify Ye Tian, assuming he was a disguised Innate Blood Child. However, once they engaged in battle, Ye Tian’s identity would inevitably be revealed.

Swish! One of the Dominator-level Innate Blood Children dashed out of the Ancestral God Hall towards Ye Tian’s location. The other two Dominator-level Innate Blood Children stayed behind, as guarding the Ancestral God Hall was equally important and they could not leave their posts.

Moreover, they didn’t think it necessary to dispatch all three Dominators for a mere peak Planetary System-level Innate Blood Child. If the matter weren’t so serious, they wouldn’t have intervened at all and would have sent a Universal God-level Innate Blood Child instead.

“Only one Dominator-level Innate Blood Child? It seems they don’t take me seriously!” Ye Tian sneered.

Swish! He accelerated, not wanting to fight the Dominator-level Innate Blood Child. Although he wasn’t afraid, it was difficult to kill a Dominator. The gap between a Universal God and a Dominator was vast. Even the weakest Dominator was hard to kill. Ye Tian was confident he could defeat any Universal God, but he couldn’t kill a Dominator. He could only seal and suppress them. Dominators had terrifying recovery abilities and formidable defenses, and their power crushed ordinary forces.

Thus, Ye Tian was reluctant to engage with a Dominator.

“Such speed! Is this really a peak Planetary System-level Innate Blood Child?” The Dominator-level Innate Blood Child was shocked.

Judging by Ye Tian’s speed, he wasn’t an ordinary Innate Blood Child. There were many Innate Blood Children, but only a few were outstanding, and he knew them all. None were like Ye Tian.

Innate Blood Children typically didn’t flee, but Ye Tian was clearly escaping. He was certain Ye Tian had noticed his presence.

“You can’t escape!” The Dominator-level Innate Blood Child increased his speed, fully pursuing Ye Tian.

It didn’t take long for Ye Tian to be caught. His combat power was extraordinary, but his speed couldn’t surpass a Dominator-level Innate Blood Child.

“As a Planetary System-level Innate Blood Child, how dare you trespass the Sacred Land and weaken it! You deserve death!” The Dominator-level Innate Blood Child attacked, aiming to capture Ye Tian rather than kill him.

“Too weak!” Ye Tian remarked.

Boom! The Dominator-level Innate Blood Child was sent flying by Ye Tian’s saber strike. Although not severely injured, he was furious. He was a mighty Dominator, one of the three in the Tomb of the Ancestral God, and he had been struck by a mere Planetary System-level being. He couldn’t tolerate such humiliation.

“You must die!” The Dominator-level Innate Blood Child attacked furiously, no longer holding back.

Ye Tian also fought with nearly all his strength, but he simultaneously moved toward the exit of the Tomb of the Ancestral God.

Boom! The battle between Ye Tian and the Dominator-level Innate Blood Child shook the Tomb of the Ancestral God. The other two Dominators in the Hall were astounded.

“How can this be? He’s just a Planetary System-level Innate Blood Child. How can he possess such terrifying power? Even a resurrected Ancestral God wouldn’t be this formidable!”

“Fool! That guy isn’t an Innate Blood Child. He doesn’t have the aura of an Innate Blood Child but a completely different energy.”

“Damn it! He’s from the outside world, disguised as one of our own to infiltrate the Sacred Land. We must kill him and not let him escape. Let’s go help. With the power of the three of us, we can definitely kill him!”

Swish! The two Dominators in the Ancestral God Hall also rushed out, heading to the battlefield to surround and attack Ye Tian.

Chapter 676: Resurrection of Zhou Tian!

In the midst of battle, Ye Tian sensed the approach of two more Dominator-level Innate Blood Children.

“It seems the other two Dominator-level Innate Blood Children are here. However, we are close to the exit. There’s no need to continue this fight. Let’s focus on defense, endure the damage, and retreat quickly!”

Ye Tian decided. Immediately, he stopped engaging with the Dominator-level Innate Blood Child before him and used all his power to teleport and fly towards the exit.

Boom! Boom! Boom! All the attacks from the Dominator-level Innate Blood Children were blocked by Ye Tian and the damage was transferred to the Sea of Death Flowers. Despite the strength of these attacks, they could not seriously injure Ye Tian.

As the other two Dominator-level Innate Blood Children arrived, Ye Tian reached the stone gate of the Tomb of the Ancestral Gods. He activated the sensor.

Outside, Lord Cang Yu sensed the activation and immediately opened the entrance passage of the Tomb of the Ancestral Gods.

Inside the tomb, Ye Tian stood before the stone gate. Suddenly, a void passage appeared in the gate.

Ye Tian stepped towards the void passage and said, “No need to see me off, Dominators!”

With that, he entered the void passage.

“No!” The three Dominator-level Innate Blood Children roared in fury. But upon reaching the stone gate, they stopped. They dared not leave, as their duty was to guard the Tomb of the Ancestral Gods. Leaving would be a betrayal of the Ancestral God’s will.

They could only watch helplessly as Ye Tian left through the void passage. Fortunately for them, they didn’t leave, or they would have faced Lord Cang Yu outside. Against a Supreme, their strength would have been no match, and they would have been easily killed.

Outside the Tomb of the Ancestral Gods, Ye Tian appeared before Lord Cang Yu.

Lord Cang Yu looked at Ye Tian with anticipation and asked, “Ye Tian, did you find the Blood of an Ancestral God?”

“Yes, I did!” Ye Tian replied, taking out all twenty Ancestral God Blood Crystals. Since these were of no use to him, he handed them all over to Lord Cang Yu.

“These are indeed Ancestral God Blood Crystals! And twenty of them! This is more than enough!” Lord Cang Yu exclaimed excitedly. Although the energy contained in these crystals was negligible to him, they served as a catalyst for transforming his innate bloodline. This transformation could significantly enhance his strength, possibly making him one of the strongest Supremes, especially with his mastery of the Dao of Time.

“Very well, Ye Tian. I will now help you resurrect Zhou Tian!” Lord Cang Yu promised.

“Thank you, Lord Cang Yu!” Ye Tian expressed his gratitude.

“Let’s go to the Human Race!” Lord Cang Yu led Ye Tian to the Human Race.

Soon, they arrived at the Holy Domain of the Human Race, where they were welcomed by Kunwu Supreme.

“Lord Cang Yu, you have arrived! It seems you have obtained the Blood of an Ancestral God. Congratulations!” Kunwu Supreme congratulated.

“It’s all thanks to Ye Tian of your Human Race. Without him, I wouldn’t have been able to acquire the Blood of an Ancestral God!” Lord Cang Yu replied with a smile.

After a brief exchange, they got to the main point.

“Come, I’ll take you to a pavilion in Tianlan Giant City where Zhou Tian once stayed. You can resurrect him there. As you are not of the Human Race, you cannot enter the Supreme Hall of Humanity. It’s our rule,” Kunwu Supreme explained.

“I understand. Any place will do. Once Zhou Tian is resurrected, I will leave,” Lord Cang Yu agreed.

Kunwu Supreme nodded. He led Lord Cang Yu and Ye Tian to a pavilion in Tianlan Giant City, clearing the area to ensure they wouldn’t be disturbed during the resurrection process.

In a room in the pavilion, Lord Cang Yu began to perform a great divine ability of time and space.

“Reverse time, trace the past!” He commanded.

Boom! The power of time surged. Even though Ye Tian was proficient in time manipulation, he was nowhere near the level of Lord Cang Yu. The difference in their realms and strength was vast.

Countless images flashed in reverse. Soon, Lord Cang Yu locked onto a past moment when Zhou Tian had been in that very place.

Boom! The Supreme power penetrated the past time-space, causing Ye Tian to feel an overwhelming temporal aura.

At this moment, Lord Cang Yu was extremely focused. With a hand imbued with the power of time and the strength of a Supreme, he forcibly reached into the past time-space to grasp Zhou Tian.

“Reverse time, return to the present! Universe’s Origin, retreat!” Zhou Tian from the past was forcibly brought back by Ye Tian.

On a deeper level, Lord Cang Yu was also clashing with the Universe’s Origin. Though not a direct confrontation, even this clash was intensely fierce.

Lord Cang Yu used the power of reversing time to seize a fragment of Zhou Tian’s soul origin from the Universe’s Origin. Without this, the resurrection through time reversal would have been impossible.

This process required withstanding the backlash from the Universe’s Origin. However, Lord Cang Yu possessed a time talent, making the cost of reversing time minimal and the backlash from the Universe’s Origin relatively small.

Boom! A figure slowly materialized in front of Ye Tian, gradually restoring from a state of nothingness to a physical body, then slowly manifesting its aura.

Finally, Zhou Tian was fully resurrected! As he opened his eyes, all his memories returned. Seeing Ye Tian, he was filled with shock.

“Master, this...”

“Zhou Tian, you have been resurrected!” Ye Tian said, patting Zhou Tian on the shoulder.

“I... I am resurrected,” Zhou Tian looked around, noticing Kunwu Supreme and Lord Cang Yu. He hurriedly greeted Kunwu Supreme, “Greetings, Kunwu Supreme!”

Kunwu Supreme quickly introduced Lord Cang Yu, “This is Lord Cang Yu. He is the one who resurrected you!”

“Thank you, Lord Cang Yu!” Zhou Tian quickly expressed his gratitude.

Lord Cang Yu waved his hand and said, “No need to thank me. It was merely a transaction. You should thank your master instead. Without him, I wouldn’t have revived you.”

“Master!” Zhou Tian looked at Ye Tian with a mixture of excitement and guilt. He wanted to say thank you, but he knew well that mere words couldn’t repay this debt. He had no idea what Ye Tian had done to get Lord Cang Yu to act, but he knew the cost must have been enormous, beyond his imagination.

“Zhou Tian, take some time to rest. Don’t overthink it,” Ye Tian advised.

“Yes, Master!” Zhou Tian replied.

“Ye Tian, it’s time for us to go. I’m sure you’re very interested in the great opportunity I promised you,” Lord Cang Yu urged. He was eager to deal with everything quickly so he could focus on refining the Blood of an Ancestral God.

“Yes, Lord Cang Yu, let’s go!” Ye Tian agreed. Turning to Kunwu Supreme and Zhou Tian, he said, “Kunwu Supreme, Zhou Tian, I will be leaving with Lord Cang Yu now!”

“Go ahead!” Kunwu Supreme said with a wave of his hand.

Zhou Tian bowed deeply, “Disciple bids farewell to Master!”

Swish! Ye Tian and Lord Cang Yu left Tianlan Giant City. In the void, Ye Tian asked, “Lord Cang Yu, what exactly is this great opportunity?”

Lord Cang Yu murmured, “It is a great opportunity related to time. You should know that the talents of time and space surpass other supreme talents. While other talents reach their peak at the God level, time and space talents have the potential to exceed the God level. Yet, no one in the universe has ever surpassed the God level in time or space talent. Isn’t that strange?”

“It is indeed strange, but as someone with time and space talents, I know that their limits are not at the God level,” Ye Tian replied.

“Exactly. The God level is not the limit for time and space talents. However, no one in the current universe has exceeded the God level in these talents. But this doesn’t mean such talents don’t exist. We live in the main space of the universe, but there are other unique spaces deep within the universe. It is rumored that in these other spaces, there are individuals with time and space talents that exceed the God level. No one has seen them, though. I don’t know where there are talents that exceed the God level, but I do know a place that offers the chance for your time talent to transform.

“I have been to that place before, but my potential wasn’t enough to make my time talent evolve. Additionally, that place can only be visited once in a lifetime by a being with God-level time talent,” Lord Cang Yu explained.

“There’s such a place? Where is it?” Ye Tian asked curiously.

“It’s in the Cang Yu Realm!” Lord Cang Yu replied, “I discovered that place and created the Cang Yu Realm there. I never moved my domain, even going so far as to make enemies with some Supremes and destroy a race that rose near the Cang Yu Realm to protect it.”

“Lord Cang Yu, why are you telling me such a secret? You could have promised me another opportunity without revealing this. This secret is too valuable!” Ye Tian asked in confusion.

“Because I am curious,” Lord Cang Yu said. “I can no longer enter that place, so it holds no value for me. I am curious to see if you can make your talent evolve to surpass the God level. Witnessing a time talent beyond the God level would fulfill a wish of mine.”

“I see. No matter what, I still thank you, Lord Cang Yu, for giving me this opportunity!” Ye Tian expressed his gratitude.

“Let’s go. I’ll take you to the Cang Yu Realm. Whether you can make your time talent evolve will depend on your own fate!” Lord Cang Yu said with a smile.

Swish! Ye Tian and Lord Cang Yu quickly left the Human Race’s domain.

Before long, they arrived at the Cang Yu Realm.

Chapter 677: The World of the Time Dimension!

Cang Yu Realm.

Lord Cang Yu led Ye Tian to a world within a world at the very center of Cang Yu.

Cang Yu was not a simple world but a grand world composed of many worlds. The great opportunity that Lord Cang Yu mentioned lay in the core world.

This world was completely shielded by Lord Cang Yu, making it difficult even for a Dominator to detect its existence. No one in Cang Yu knew about this world, as it was completely isolated from the outside.

Now, this world welcomed Ye Tian.

Upon entering this inner world, Lord Cang Yu introduced, "I named this world the Cangshen World. Besides me, you are the second living being to enter this world!"

With Lord Cang Yu leading the way, Ye Tian arrived at a central area of the Cangshen World.

Here, Ye Tian saw an ancient stone gate standing in mid-air.

"This is it!"

Lord Cang Yu pointed at the stone gate and said, "This stone gate is very mysterious. I don't know its origin, but it's clearly not from this cosmic era. There's no information inside explaining which cosmic era it came from, nor is there any inheritance. But once you enter, you'll understand the significance of this opportunity.

Once you enter, there is no time limit. As long as you can endure, you can stay inside indefinitely. But in reality, it's impossible to do so. I only lasted three years before I was forced out."

"Lord Cang Yu, does this opportunity have anything to do with cultivation level?" Ye Tian asked.

"No direct relationship!" Lord Cang Yu replied. "In fact, the level of cultivation doesn't affect it. You'll understand once you go inside."

Ye Tian nodded and prepared to enter the stone gate.

However, just as he was about to rush in, he was bounced back.

“I forgot to remind you, you must activate your time talent and wrap yourself in the power of time to enter the space on the other side of the stone gate!” Lord Cang Yu hurriedly explained.

“I see!” Ye Tian understood. He then activated his time talent, wrapped himself in the power of time, and rushed into the stone gate.

Boom!!! After a void transition, Ye Tian arrived in another world.

But as soon as Ye Tian entered, he did not observe his surroundings first; instead, he examined his own body.

“This...”

Ye Tian was shocked.

His body now felt as if it was not his own, filled with the power of time, entirely composed of time.

“This is the time dimension!” Ye Tian exclaimed.

The place where he stood was definitely not a real world but a dimensional world. He had become part of time.

No! He realized that his body remained in a special place, but his consciousness had arrived in the time dimension.

Here, he could not bring his celestial soul, physical body, or power.

“No wonder Lord Cang Yu said that this opportunity has nothing directly to do with cultivation level.

Even if one’s cultivation is strong, they can’t bring their power here. Therefore, high or low cultivation level makes no difference!” Ye Tian muttered.

But soon, his expression changed.

“No, I didn’t come here empty-handed!” Ye Tian was astonished. “I brought the Copy Talent with me!”

Ye Tian saw the talent mark of the Copy Talent in his consciousness.

“Strange, none of the other talents came along, but the mark of the Copy Talent did. I remember that it wasn’t possible to bring it with just my consciousness before! Could it be because the Copy Talent has been upgraded to its current level and can no longer be separated from me, so it followed my consciousness?” Ye Tian wondered.

Moreover, the Time Talent was not brought along either.

“The Time Talent didn’t come with me, so how will the Time Talent transform?” Ye Tian found it even more puzzling.

This time dimension resembled a world, and Ye Tian walked around casually.

Suddenly, he saw a plant that contained rich time power.

Ye Tian walked over, picked the plant, and prepared to refine it to see if he could use the things in this time dimension to enhance his power.

Soon, Ye Tian refined the plant, and the time power in his body increased slightly.

Suddenly, Ye Tian’s pupils contracted sharply as the time talent appeared on his body.

[Time Talent: High]

This was definitely not Ye Tian’s original time talent. His original time talent had merged with his space talent to become a God-level Time-Space Talent; it couldn’t possibly be just a High-level Time Talent.

“I understand now,” Ye Tian thought. “Drawing consciousness into the time dimension and then using a special method to make a being with a God-level time talent acquire another time talent—

when returning, the two time talents will forcibly merge, potentially causing the time talent to transform into a level beyond God.”

Next, Ye Tian searched throughout the time dimension for various treasures containing time power, frantically refining these treasures to continually enhance his time talent.

Gradually, Ye Tian’s time talent grew stronger, but the suppression of this time dimension on him also became more severe. Additionally, Ye Tian discovered that the higher his time talent became, the more he could partially resist the dimension’s suppression.

“Lord Cang Yu lasted for three years; I wonder how long I can last,” Ye Tian pondered.

In the blink of an eye, two years had passed.

At this point, Ye Tian’s time talent had reached the Mystic level.

However, advancing from Mystic to God level was considerably difficult. Based on Ye Tian’s guess, Lord Cang Yu could likely elevate his time talent to the Mystic level here as well, as it only involved refining some time treasures without much technique.

Ultimately, Lord Cang Yu failed to elevate his time talent to a level beyond God.

It was clear that in this time dimension world, merely having a Mystic-level time talent was insufficient.

Ye Tian murmured, “I must elevate my time talent to the God level!”

Determined, Ye Tian continued.

In the blink of an eye, several more months passed, and Ye Tian felt he was reaching his limit.

“Could it be that I will fail like Lord Cang Yu? No, I must succeed. This is a heaven-defying opportunity; no one in this universe can create such a place. If I lose this chance, I will never encounter such an opportunity again!” Ye Tian thought.

Thus, he moved swiftly, flying as fast as he could toward the distant horizon.

He no longer searched for ordinary time treasures; refining more of those would be useless. He needed more precious treasures, and he had to fly far to have a glimmer of hope.

“Roar!”

A beast’s roar caught Ye Tian’s attention.

“What? A living creature?” Ye Tian was surprised.

“Could it be a time creature?” Ye Tian speculated.

Immediately, he became excited.

If it was indeed a time creature, then it must possess a time talent, and since he had brought the Copy Talent, he could copy the creature’s time talent.

“Find that creature!”

Ye Tian searched in the direction of the sound.

Soon, Ye Tian finally saw a creature.

This creature resembled a goat but was many times larger, akin to a mountain.

At this moment, the creature was grazing on some grass in a meadow, and the grass contained considerable time power.

“Copy Talent, examine!”

Ye Tian immediately checked the creature’s talent.

Type: Time Battle Goat

Bloodline Talent: Hong-level

Time Talent: Mystic-level

“Only Mystic-level time talent!” Ye Tian felt a bit disappointed.

However, the appearance of the Time Battle Goat was undoubtedly good news. Perhaps there were creatures with God-level time talents in this world.

Following this, Ye Tian began to track the Time Battle Goat. If it had a herd, he could find other Time Battle Goats, increasing his chances of copying a God-level time talent.

After tracking for a few days, the Time Battle Goat finally headed in a specific direction.

A few days later, under the guidance of the Time Battle Goat, Ye Tian finally saw a herd of Time Battle Goats.

Chapter 678

“With so many Time Battle Goats, there should be some with God-level time talents, right?” Ye Tian wondered.

He activated his Copy Talent, enveloping the Time Battle Goats in front of him.

Instantly, the talents of these Time Battle Goats were displayed before him.

Mystic-level time talent! Mystic-level time talent! Pseudo-mystic-level time talent! Top-level time talent! The time talents of the Time Battle Goats varied, but most were Mystic-level, with a few below that level.

Suddenly, one of the Time Battle Goats’ talents caught Ye Tian’s attention.

[Time Talent: God-level]

Seeing this God-level time talent, Ye Tian felt extremely excited.

Immediately, he copied this God-level time talent.

Then, Ye Tian quickly fled, avoiding any interaction with the group of Time Battle Goats.

After all, he had already obtained the God-level time talent and had no need to provoke these Time Battle Goats.

After flying for a while, Ye Tian stopped and began to merge the God-level time talent.

“Merge!” Ye Tian thought.

Boom!! The God-level time talent started to merge with Ye Tian.

After enduring intense pain, Ye Tian finally integrated the God-level time talent into his consciousness.

With his time talent transformed to God-level, Ye Tian suddenly found that his resistance to the time dimension had increased significantly, allowing him to endure for a much longer period.

However, an unexpected change began!

Boom!!!!

Ye Tian noticed a massive stone gate appearing not far ahead, charged with powerful time rules.

“This is...” Ye Tian was utterly shocked, and he was sure that this stone gate was entirely different from the one in the Cang Yu Realm, a gate of a different nature.

“The Cang Yu Lord never mentioned such a phenomenon. Could it be that I triggered a hidden condition that caused this stone gate to appear?” Ye Tian speculated.

He pondered for a moment and concluded that it was likely due to his time talent advancing to God-level, thus triggering the special rules of this time dimension, resulting in the appearance of this stone gate.

Without hesitation, Ye Tian entered the stone gate, guessing it must be related to a great opportunity. If he didn't go in, he would miss out on this significant chance.

Ye Tian passed through the stone gate and found himself in a grand hall.

As he looked around, a voice suddenly echoed: "Successor, you have arrived."

Ye Tian's expression grew serious, and he quickly responded: "I don't know who is speaking..."

A flash of white light interrupted him.

Two old men appeared before Ye Tian.

"I am the spirit and guardian of the Time Temple. You may call me the Time Guardian," one of the old men introduced himself.

"Time Temple!"

"Time Guardian, can you tell me about this place?" Ye Tian asked, trying to understand his surroundings.

"Of course," the Time Guardian replied. "Explaining this place to the successor of the time legacy is my duty.

The Time Temple was established by the Time Lord. It is located in a mysterious place between the time rules of the Universe and the chaos time rules. This place is at the junction of the Universe and the chaos.

Even with the mighty power of the Time Lord, it is impossible to truly invade the universe, so he could only build the Time Temple here. It can guide the consciousness of beings from the Universe,

but it cannot transfer their souls or bodies, nor can it bring any power over. Otherwise, the origin of the Universe would interfere.”

“This place is actually in the time crevice between the Universe and the murky chaos!” Ye Tian was shocked.

He had always thought this was some time dimension within the universe, built by a powerful being from a certain cosmic epoch.

Now, he finally understood its origin. It was actually constructed by a mighty being from the chaos.

“Indeed, only a strong being from the chaos could possess such immense power. A Supreme within the Universe doesn’t have such capabilities. The Cang Yu Lord is a Supreme, and even a Time Supreme, but he knows nothing about this place and cannot control it. This is clearly beyond what a Supreme can achieve!” Ye Tian thought.

According to Ye Tian’s speculation, the strength of this Time Lord far exceeded that of a Transcendent. As for who was stronger between the Time Lord and the previous master of the Golden Desolation Hall, the Golden Desolation God, it was impossible to determine. However, there was no doubt that both the Golden Desolation God and the Time Lord were not weak within the chaos.

While Ye Tian was in shock, the Time Guardian continued, “The Time Temple was merely an experiment by the master. Despite being an experiment, it still holds the master’s ordinary legacy.

Of course, in your Universe, this ordinary legacy would be considered incredibly extraordinary.”

“Time Guardian, do I have a chance to obtain this legacy?” Ye Tian asked.

“Yes!” the Time Guardian replied. “Anyone who can reach the Time Temple as a time successor has the chance to obtain the legacy left by the Time Lord. The assessment for time successors will begin soon, so please prepare yourself!”

“I am ready!” Ye Tian responded.

The Time Guardian continued, “There is no need to be nervous. This assessment is somewhat unique, different from regular ones. It is essentially about accepting the legacy, mainly measuring how much of the legacy you can absorb. If you cannot endure the legacy’s assessment, then it means you have failed, and the legacy will be erased from your consciousness. If you pass the assessment, the legacy will completely belong to you.”

After hearing the Time Guardian’s explanation, Ye Tian understood.

The Time Guardian waved his hand, allowing Ye Tian to enter the legacy space.

In the void space, Ye Tian stood there, silently waiting for the assessment to begin.

Boom!!! A massive book appeared in the void, slowly opening.

Then, black characters flew out from the book, rushing towards Ye Tian. One by one, the characters entered Ye Tian’s consciousness.

“...’The Time Chapter, First Part!’”

The characters surged into Ye Tian’s consciousness, causing him a severe headache.

These were not simple characters; each one contained the power and mystery of time. They were part of the legacy itself. As more characters flowed into him, the pain Ye Tian endured grew.

At this moment, the words of the Time Guardian echoed.

“Do not forcefully endure the legacy. You need to learn to understand it. The more you comprehend, the less pain you will feel!” the Time Guardian advised.

“Understand, huh!” Ye Tian grasped the essence. While enduring the legacy, he began to comprehend the first part of the Time Chapter, striving to understand the meaning of each character. Even if he couldn’t fully grasp it, he needed to at least gain some insight.

Thus, time slowly passed!

Chapter 679: Low-Tier Super God-Level Time Talent!

“So painful!”

Ye Tian gradually felt his consciousness enduring unimaginable pain. Even though he tried his best to comprehend time, the limited duration left him with little opportunity to grasp much...

Ultimately, he had to rely on his willpower to endure.

Fortunately, Ye Tian had a strong state of mind. Coupled with the numerous times he had endured the pain of copying talents, he was more capable of withstanding the pain compared to others. Otherwise, he would have already given up.

“Halfway there!”

At this moment, Ye Tian had already accepted half of the content of the first section of Time. He only needed to accept the remaining half to complete the assessment, and the entire section on Time would be his.

If he couldn't hold on, the content he had received so far would be erased.

He believed that the Time Temple could erase this content from his consciousness, just like he could easily erase the memory of a weak Emperor-level consciousness.

Even though he had only accepted half of the time-related content, it was clear that this was a time manual far beyond his comprehension. Slowly comprehending time would undoubtedly benefit his cultivation in the field of time immensely.

Moreover, there were numerous time-related secret techniques within.

Thus, he was eager to obtain the Time! “Hold on, I must hold on!”

Ye Tian silently vowed.

His soul and body were not here, only his consciousness. Consciousness was hard to destroy and would only perish with the soul.

As long as the soul remained intact, it didn't matter if his consciousness collapsed.

Therefore, Ye Tian would not die from enduring the Time.

“As long as I don't die, what is there to fear? Even if my consciousness collapses, I must endure the inheritance of Time!”

Ye Tian resolutely stated.

Of course, understanding the principle was easy, but actually achieving it was incredibly difficult.

As time passed, Ye Tian's consciousness seemed to be splitting apart, and his eyes could hardly see anything, signaling the brink of collapse.

But suddenly, Ye Tian forcibly calmed himself down and continued to persevere.

“Almost there! Almost there!”

Ye Tian saw that the first section of Time was about to be fully inherited, filling his heart with joy, but he didn't relax at all, continuing to endure the pain brought by the inheritance.

When the last word was absorbed by Ye Tian, it signified that the first section of Time had been completely inherited by him.

“It's over!”

As his consciousness formed these three words, Ye Tian immediately fainted.

He should have fainted long ago but had forced himself to hold on for the sake of Time.

Now that the inheritance was over, he naturally had no willpower left to continue.

Ye Tian finally awoke groggily after an unknown amount of time.

At this moment, he saw the Time Guardian of the Time Temple.

“Time Inheritor, congratulations on completing the first section of the Time inheritance assessment. Do you wish to continue with the second section of Time?” ɾ

The Time Guardian asked.

“No, I give up!”

Ye Tian immediately responded.

He found the first section of Time challenging enough. How could he endure the second section? If he forced himself to accept the second section, he might collapse. Although he wouldn't die, it would leave an indelible psychological shadow.

So, he chose to give up.

Seeing Ye Tian give up on the second section, the Time Guardian appreciatively said, “A wise choice. With your current state and willpower, you wouldn't be able to endure the second section of Time. Moreover, the first section is enough to allow you to comprehend up to the Transcendent Realm. For now, the first section of Time is sufficient for your needs.”

Hearing this, Ye Tian's last trace of reluctance completely dissipated.

“Alright, you may leave now!”

The Time Guardian said.

With a swish, Ye Tian was teleported out of the Time Temple and left the time-dimensional world. His consciousness returned to his body, which had returned to the Cang Yu Realm.

Cang Yu Realm

When Ye Tian returned, he appeared in front of a stone gate.

At that moment, his God-level Time Talent also returned.

Ye Tian's Time Talent had already merged with his Space Talent to become a God-level Time-Space Talent.

The God-level Time Talent he acquired from the Time Dimension World could only merge with this Time-Space Talent.

Boom!!!!

The God-level Time Talent and the God-level Time-Space Talent began to fuse together.

Ye Tian's God-level Time-Space Talent, originally a fusion of God-level Time Talent and God-level Space Talent, was already at the pinnacle of God-level talents, close to surpassing it.

Now, with the integration of the second God-level Time Talent, the God-level Time-Space Talent finally began to transform.

As Ye Tian's Time-Space Talent transformed, the Cang Yu Lord nearby was stunned.

"What is this...?"

The Cang Yu Lord sensed the extremely intense time power emanating from Ye Tian, and this power was continuously increasing.

As a possessor of God-level Time Talent, he could detect the two time forces within Ye Tian, both at the God level.

This was clearly the fusion of two God-level Time Talents, evolving towards a higher level.

However, what puzzled the Cang Yu Lord was that he also sensed the God-level Space Talent involved in this transformation.

“Strange, what does Space Talent have to do with Time Talent’s transformation? Why is the Space Talent evolving with the Time Talent?”

The Cang Yu Lord was deeply puzzled.

But regardless, Ye Tian’s Time Talent was evolving, and that was enough!

“Unexpectedly, Ye Tian can really evolve his Time Talent to a higher level. Perhaps soon, I will witness a Time Talent surpassing the God level!” The Cang Yu Lord said excitedly.

He silently guarded Ye Tian, waiting for him to complete the transformation of his Time Talent.

Time passed slowly. After a long while, Ye Tian finally completed the fusion of his God-level Time Talent and God-level Time-Space Talent.

“Check!”

Ye Tian used his Copy Talent to check his talent situation.

At this moment, the God-level Time Talent had disappeared, and the God-level Time-Space Talent had undergone a transformation.

[Time-Space Talent: Low Pseudo-Super God Level]

Seeing this, Ye Tian revealed a happy expression.

His Time-Space Talent had finally transformed into a Pseudo-Super God Level Time-Space Talent. Although there was still the word “Low” indicating that his talent was not a complete Super God Level Time-Space Talent but a Low Pseudo-Super God Level Time-Space Talent, it was still slightly inferior to a complete Super God Level.

However, in terms of time power alone, the Low Pseudo-Super God Level Time-Space Talent was definitely much stronger than a pure Super God Level Time Talent. After all, it was the fusion of two supreme talents!

Due to the presence of the Cang Yu Lord, Ye Tian couldn't immediately test the power of his Low Pseudo-Super God Level Time-Space Talent.

When Ye Tian opened his eyes and stood up, the Cang Yu Lord immediately stood in front of him and asked, "Ye Tian, did you succeed in transforming your God-level Time Talent into a Super God Level?"

Facing the expectant gaze of the Cang Yu Lord, Ye Tian nodded and said, "That's right, my Time Talent is now at the Super God Level!"

"Great! That's wonderful!"

The Cang Yu Lord was extremely excited.

Then, he asked expectantly, "Ye Tian, can you demonstrate the power of your Super God Level Time Talent? If you don't want to, I won't force you."

"Sure!" Ye Tian thought for a moment and then nodded in agreement.

Next, Ye Tian activated his Low Pseudo-Super God Level Time-Space Talent, deliberately holding back a bit, and then performed the divine ability "Spear of Time."

"Spear of Time, break!"

The gray Spear of Time pierced through the void, shattering the time laws in the heavens and earth along its path, showcasing terrifying power.

Even without a reference object, the Cang Yu Lord could still sense the formidable power of time laws from the Spear of Time.

“Impressive! The power of this Spear of Time is far greater than when I performed my Time Divine Ability in the past. The Super God Level Time Talent is truly extraordinary. Unfortunately, I can never possess a Super God Level Time Talent in my lifetime!” The Cang Yu Lord sighed.

Ye Tian was also very satisfied with the power of the Spear of Time. Its power was several times stronger than before.

It could be said that Ye Tian’s strength had significantly increased once again.

Chapter 680: Ancient Tree of Life!

Lord Cang Yu requested Ye Tian to stay for a few more days, wanting to discuss the knowledge of time, specifically to study the Super God-level Time Talent.

Having received such a great opportunity from Lord Cang Yu, Ye Tian felt obliged to agree. Without the Lord’s help, he would not have been able to enter the Temple of Time.

For the next few years, Ye Tian stayed in the Cang Yu Realm, discussing the Dao of Time with Lord Cang Yu.

During their discussions, Ye Tian occasionally delved into the Chapters of Time, even sharing a bit of the concepts and understandings from the first part of the Chapters of Time, which greatly benefited Lord Cang Yu, often leaving him astonished.

After three years, although Lord Cang Yu still wished for Ye Tian to stay, Ye Tian decided it was time to leave.

This place was, after all, Lord Cang Yu’s domain. Ye Tian couldn’t cultivate in peace here and worried that exposing too many of his secrets might lead to their discovery.

Thus, he was eager to depart.

Seeing Ye Tian’s determination to leave, Lord Cang Yu did not insist further and personally escorted him back to the human realm.

In the Human Realm, Tianlan Giant City.

Ye Tian returned and briefly explained the situation to his wife, Xiao Yue, before entering seclusion.

This time, he planned to stay in seclusion for an extended period, mainly to comprehend the Chapters of Time.

If he could grasp even a little of the first part of the Chapters of Time, his strength would significantly improve, and he would have more means to handle enemies.

However, shortly after Ye Tian entered seclusion, someone came to visit.

In the Tian Pavilion Hall, Ye Tian met the visitor, who turned out to be his disciple, Zhou Tian.

“Zhou Tian pays respects to Master!” Zhou Tian knelt and kowtowed.

“Zhou Tian, rise!”

Ye Tian knew why Zhou Tian was performing such a grand ceremony—it was due to the revival granted by Lord Cang Yu.

“Yes, Master!” Zhou Tian stood up but did not sit down.

“Sit.”

Only then did Zhou Tian take a seat.

“How is your recovery?” Ye Tian asked.

After resurrection, one did not immediately return to their original state. For example, the celestial soul needed time to recover from the effects of time. Being revived from the past meant the celestial soul had traversed time dimensions, which was difficult for most to endure, requiring a long period to overcome the drawbacks of time.

Moreover, the newly resurrected body was weak and needed restoration.

“Thank you for your concern, Master. This disciple has fully recovered!” Zhou Tian respectfully replied.

“Good. Don’t take on any missions for now. Rest well and stabilize your foundation.”

“Yes, Master!”

Suddenly, Zhou Tian added, “Master, actually, there’s another reason I came.”

“Oh? Is there something else?” Ye Tian asked, surprised.

“Indeed!”

Zhou Tian said, “Master, you should know that I was ambushed in a small race called the Ironwood Race. The Ironwood Race is minor, without any Heavenly Venerable experts, only a few Dominators.”

“Ordinarily, such a small race would know the consequences of attacking us humans. Even with the Angel Race backing them, they wouldn’t dare do it under normal circumstances.”

“But the Ironwood Race ambushed me and severely injured a human Dominator. The real reason wasn’t an order from the Angel Race. They only used the Angel Race as an excuse.”

“The Ironwood Race had indeed allied with the Angel Race, but I don’t think the Angel Race ordered Ironwood to act. We humans didn’t verify this with the Angel Race, and the Angel Race likely wouldn’t investigate such a minor issue.”

“The true reason was that I discovered a secret of the Ironwood Race. Afterward, they must have noticed and decided to act, hoping to use my death as a merit to gain favor with the Angel Race.”

“But they never expected that the Angel Race wouldn’t accept them immediately. Moreover, the humans acted quickly, eradicating the Ironwood Race in no time.”

“The secret of the Ironwood Race died with them,” Zhou Tian said.

“What secret?” Ye Tian asked, his curiosity piqued.

Although the Ironwood Race was a small tribe, it lived peacefully under the protection of the human race. Moreover, it had secretly allied with the Angel Race, enjoying a comfortable and unrestrained life. What secret could be so significant that they would risk everything to kill Zhou Tian, disregarding their entire clan’s safety?

“Master, have you heard of the Ancient Tree of Life?” Zhou Tian inquired.

“I have heard of it,” Ye Tian responded. “The Ancient Tree of Life, the Ancient Chaos Tree, and the legendary Destruction Ancient Tree are known as the Three Great Ancient Trees of the Universe. Among them, the Ancient Chaos Tree is the most commonly encountered, while the Destruction Ancient Tree is only mentioned in ancient records from previous cosmic eras. The Ancient Tree of Life, though it has appeared before, is extremely rare. It is said that the Ancient Tree of Life can grant immortality. Even a mortal who consumes its sap would attain eternal life. Did you discover the Ancient Tree of Life within the Ironwood Race?”

“Yes, Master,” Zhou Tian replied eagerly. “I accidentally stumbled upon that place. Afterward, I went to the Ironwood Race’s library to read up on it because I didn’t initially recognize it as the Ancient Tree of Life. Upon thorough research, I learned about its existence. Perhaps because of my inquiries, the secret of my discovery leaked, prompting the Ironwood Race’s retaliation. They feared I would reveal this secret to the humans, which would spell their end. Hence, they took the extreme measure.”

“The Ancient Tree of Life!” Ye Tian was equally excited. This was a treasure even Supremes coveted! But what excited him more was the hope it brought for reaching the sixth layer of the Heavenly Origin True Method. Currently, Ye Tian had cultivated the Heavenly Origin True Method to the fifth layer, reaching the fifth stage of life. As a fifth-stage life form, he was already incredibly powerful. If he advanced to the sixth stage, his abilities would be even more extraordinary.

However, Ye Tian had never considered cultivating the Heavenly Origin True Method further because reaching the sixth stage required a specific medium—a large quantity of sap from the Ancient Tree of Life. The rarity of this tree meant that even Supremes desired it, and its appearance would undoubtedly lead to fierce battles among them.

Thus, Ye Tian never expected to find the Ancient Tree of Life. But now, Zhou Tian had brought him news of it!

“Zhou Tian, I indeed need the Ancient Tree of Life. I’m delighted you informed me. However, are you truly willing to share the Ancient Tree of Life with me?” Ye Tian asked seriously.

Zhou Tian quickly replied, “Master, I was already dead. Without you, I don’t know how long it would have taken for the humans to revive me, or if I would have been forgotten forever. My life belongs to you. If you need it, I am willing to dedicate the entire Ancient Tree of Life to you!”

“No, if we truly obtain the Ancient Tree of Life, we will split it equally,” Ye Tian said.

Then, Ye Tian and Zhou Tian discussed the location of the Ancient Tree of Life.

Soon, Ye Tian learned that the Ancient Tree of Life was located in a heritage space within the Ironwood Race. This heritage space had several entrances, but the Ironwood Race overlooked one entrance, which Zhou Tian happened to enter. After meeting certain conditions, he accessed the heritage space, where he saw the Ancient Tree of Life and some Ironwood Race members guarding it. Zhou Tian had avoided detection by using a secret treasure.

“Master, the heritage space only allows entry to those at the Galaxy level at most. So, the Ironwood Race members within the heritage space are at most at the peak of the Galaxy level. Although the humans eradicated the Ironwood Race swiftly, the clan members in the heritage space should still be alive. My strength is insufficient. Even if I enter, I cannot obtain the Ancient Tree of Life. Therefore, I am counting on you, Master,” Zhou Tian said.

“Alright. However, we must proceed secretly to avoid being followed. You, in particular, have just been revived. It is not advisable for you to go immediately, as it might attract attention. Let’s wait a while,” Ye Tian suggested.

“Yes, Master,” Zhou Tian agreed.
