Chapter 681: Journey to the Ironwood Race Ruins

After Zhou Tian departed, Ye Tian continued his secluded cultivation.

In the short term, he and Zhou Tian wouldn't head to the Ironwood Race ruins, so he wouldn't waste this time and aimed to further enhance his strength.

Currently, Ye Tian could boost his power mainly through mastering the Spear of Hellish Void. Once he comprehended this spatial great divine ability to a minor achievement level, it would greatly enhance his strength.

As for the Wheel of Time, although it could also be elevated to a minor achievement level, since it hadn't been long since he mastered it, he found it easier to advance the Spear of Hellish Void to the minor achievement level.

Of course, Ye Tian also strove to perfect other secret techniques and the ultimate techniques of the Heavenly Moon Saber.

Time passed slowly. In the blink of an eye, a hundred years had gone by.

On this day.

Ye Tian was overjoyed, gazing at the spear that appeared in his hand—it was the Spear of Hellish Void.

At this moment, the Spear of Hellish Void was filled with terrifying spatial rules, its momentum far surpassing before.

“The Spear of Hellish Void, minor achievement!”

Ye Tian exclaimed excitedly.

Moreover, in this hundred years, he had also further comprehended the ultimate techniques of the Saber Dao, allowing the Heavenly Moon Saber techniques to advance to the mid-lower tier of the strongest saber Dao ultimate techniques.

Previously, the Heavenly Moon Saber techniques were considered the lowest tier of the strongest saber Dao ultimate techniques. Now, having elevated from the lowest tier to the mid-lower tier marked significant progress. In other aspects of secret techniques, Ye Tian had made considerable strides, and his Celestial Soul realm had also advanced to the middle extreme of the Nether General stage.

Additionally, Ye Tian utilized a substantial amount of unique water-energy to temper his body to the limit, achieving an incredible level of compatibility with the Chaos Dao.

Furthermore, Ye Tian slightly enhanced the Chaos Dao at the Dharma Aspect realm, making the Chaos Sea Dharma Aspect even stronger than before!

“The time is about right!” Ye Tian murmured.

After waiting for a hundred years, Zhou Tian had long since fully recovered and had started taking on some missions. Even going to the Ironwood Race ruins now wouldn’t attract attention.

Immediately, Ye Tian notified Zhou Tian to come to the Sky Pavilion.

It didn’t take long for Zhou Tian to arrive!

“Master, are we departing now?” Zhou Tian asked.

“Yes, after a hundred years, it’s time to go to the Ironwood Race ruins!” Ye Tian replied.

“Yes!”

Zhou Tian was also very excited. After all, the Ancient Tree of Life represented eternal life for him. Unlike Ye Tian, who defied the heavens, Zhou Tian required a lengthy accumulation of resources, and before becoming a Universal God, his lifespan was limited.

Lifespan-enhancing treasures were extremely rare. If he could obtain the Ancient Tree of Life, it would solve his problems, allowing him to accumulate resources for a long time even at the Great God level.

Thus, he eagerly wanted to head to the Ironwood Race ruins to seize the Ancient Tree of Life.

Of course, he knew not to rush things, so he held back!

“Master, should we take a mission to the Ironwood Race ruins? This way, we can handle things along the way!” Zhou Tian suggested.

“No!” Ye Tian flatly refused, “Although there are many missions related to the Ironwood Race ruins, there are essentially no benefits. If you take one, it might be excusable, but if I take a mission, it would arouse suspicion.” **R**

“We’ll go directly, wander around a few star fields first, and then head to the Ironwood Race ruins. This way, it should be harder for anyone to track us!”

“Alright, I’ll follow Master’s lead!” Zhou Tian agreed.

Soon after.

Zhou Tian boarded Ye Tian’s spaceship and set off from the Tianlan Giant City.

This time, Zhou Tian didn’t inform his guards, embarking on the journey alone.

Although loyal, the guards’ so-called loyalty could waver in the face of the Ancient Tree of Life.

Therefore, Zhou Tian only mentioned to his guards that he was going to Tianlan Giant City for a stroll and didn’t have them follow.

Besides, with Ye Tian’s strength, even a Dominator tracking him would be instantly detected.

After confirming no one was following, Ye Tian piloted the spaceship at full speed through the Holy Domain, heading toward other star fields.

A few days later.

Ye Tian traversed several star fields before heading to the Ironwood Race ruins.

The Ironwood Race had been destroyed by the Human Race, but many buildings remained intact.

The Ironwood Race still possessed considerable wealth. Despite the core area being looted by the nine supreme forces and the Supreme Hall of Humanity, other areas still held many treasures.

As a result, many humans came to the Ironwood Race to collect resources and treasures, leading to a large influx of people.

Most of these individuals were of the Great God, Planetary System, or Galaxy levels, with very few humans above the Universal God level.

“We’ve arrived at the Ironwood Race region,” Ye Tian said to Zhou Tian.

“Zhou Tian, let’s head straight to the entrance of that inheritance space,” Ye Tian suggested.

Zhou Tian had already informed him of the exact location, so Ye Tian directly steered the spaceship in that direction.

“Alright,” Zhou Tian nodded.

The spaceship soon arrived outside the Ironwood Continent, the headquarters of the Ironwood Race, and stopped there.

The Ironwood Continent was vast, and its most abundant resource was a type of tree known as Nine-segment Ironwood.

These trees were harder than black iron, very flexible, and had some regenerative abilities, making them ideal for construction.

On the Ironwood Continent, most buildings were made of ironwood, and the Ironwood Race took pride in possessing these resources.

“Zhou Tian, let’s disembark. The spaceship is too conspicuous to enter the Ironwood Continent,” Ye Tian said.

“Yes! Besides, the entrance isn’t far. Master, we can fly there,” Zhou Tian suggested.

With a wave of his hand, Ye Tian stored the spaceship and led Zhou Tian to the entrance of the inheritance space.

Soon, they arrived at an ancient mountain peak with an equally ancient temple.

This temple wasn’t made of ironwood but of ordinary stone. From the temple’s dilapidated interior, it was clear that it had been abandoned for a long time.

“Master, this used to be a shrine, but it was abandoned. The Ironwood Race never realized that this was one of the entrances to the inheritance space. The last time I was here, I accidentally triggered the inheritance mechanism and luckily entered the space,” Zhou Tian explained.

The two of them entered the temple.

Inside the temple stood a deity statue of unknown material.

“Master, it’s this statue. Inside, there’s a small formation. Activating the formation will trigger a detection device. If it deems you suitable, you can enter the inheritance space,” Zhou Tian explained, then used his celestial force to activate the formation within the statue.

A beam of light emerged, illuminating Ye Tian and Zhou Tian.

Ye Tian immediately recognized that this formation tested a person’s potential. If suitable, it would activate deeper formations.

Of course, Ye Tian's celestial soul strength allowed him to perceive this effortlessly. Otherwise, even a Dominator might not easily detect it. This explained why the Ironwood Race had never discovered it.

This temple was ancient, predating the Ironwood Race's occupation of the continent. The Ironwood Race didn't know its history.

Boom! The spatial formation descended! Instantly, Ye Tian and Zhou Tian were drawn in.

Ye Tian could have resisted but chose not to, as entering the inheritance space would be difficult otherwise.

After transitioning through the void, Ye Tian found himself in another world, with Zhou Tian standing beside him.

"Master, we've entered!" Zhou Tian exclaimed.

Chapter 682: The Spirit of Life Clan!

Upon entering the inheritance space, Ye Tian carefully investigated his surroundings.

From Zhou Tian's account, Ye Tian learned that Zhou Tian did not know much about this inheritance space. He had quietly retreated after discovering the Ancient Tree of Life and the guardians of the Ironwood Race.

Therefore, Zhou Tian was unaware of what opportunities this inheritance space held.

But just the Ancient Tree of Life alone was enough to drive a Supreme crazy! "This should be inside a mountain," Ye Tian speculated as he observed the space around him.

"Yes," Zhou Tian nodded. "This is indeed inside a mountain. Once we leave here, we'll find a barren mountain range. A few hours' flight west of the mountains is where the Ancient Tree of Life is located. Given Master's speed, we should arrive there quickly! Master, should we proceed cautiously or crush everything in our path?"

“Crush everything in our path!” Ye Tian said confidently. “This inheritance space doesn’t allow Universal God-level experts. I can easily crush the Ironwood Race here!”

“Alright, Master, let’s go!” Zhou Tian responded.

Ye Tian and Zhou Tian then left the mountain and ventured outside, directly flying towards the Ancient Tree of Life.

—

At the Ancient Tree of Life.

There stood a massive palace inhabited by elite Ironwood Race geniuses, all at the planetary system and galaxy levels, as well as numerous guards. They were stationed to protect this place.

The Ironwood Race had almost completely controlled this inheritance space, with only a few areas still inaccessible, while the rest were being developed.

To the Ironwood Race, this was both an inheritance and a resource space.

However, the Ironwood Race’s galaxy-level geniuses now wore worried expressions.

“Everyone, it has been confirmed. The Ironwood Race has been destroyed by the human race,” said a galaxy-level peak expert of the Ironwood Race. “A planetary system-level expert skilled in disguise went out to investigate and confirmed this. To avoid detection by the humans, we have been hiding here. What should we do now?”

“I suggest we stay here until the right opportunity arises to leave,” said another galaxy-level expert. “After all, we’ve consumed the sap of the Ancient Tree of Life, granting us unlimited lifespans. We don’t fear wasting time.”

At this point, another planetary system-level peak expert said, “I suggest we leave as soon as possible. Don’t forget, the maximum limit of this inheritance space is the galaxy peak level. If we stay here, we won’t be able to reach the Universal God realm. We might not worry about lifespan, but without enough strength, how can we avenge ourselves against the humans or protect the last of our race? Also, humans haven’t occupied the Ironwood Race’s territory yet; they are only looking

for resources. We can leave unnoticed now. If humans take over completely and gather their strong here, it will be much harder for us to escape.”

“We understand, but the Ancient Tree of Life is difficult to move. Are we to abandon it? We haven’t obtained all the inheritance here yet. Leaving now means it will be hard to return.”

“Right, this is the greatest secret of the Ironwood Race! We can’t abandon it!”

“But if we don’t give up, what then?”

The Ironwood Race’s galaxy-level experts argued without reaching a consensus.

At this moment, Ye Tian and Zhou Tian approached the Ancient Tree of Life.

“It really is the Ancient Tree of Life!” Ye Tian exclaimed, looking at the massive tree with anticipation and desire. He also noticed the palace and the Ironwood Race members stationed around the tree. 

Due to Ye Tian’s powerful celestial soul, his divine sense had a long range, allowing him to detect the Ironwood Race members who had yet to notice Ye Tian and Zhou Tian’s presence.

“Let’s go,” Ye Tian said.

“Yes, Master!” Zhou Tian followed Ye Tian towards the Ancient Tree of Life.

In a flash, Ye Tian appeared under the Ancient Tree of Life, and at this moment, the Ironwood Race members finally noticed Ye Tian and Zhou Tian.

Ye Tian and Zhou Tian did not disguise themselves, appearing as humans.

This caused shock and panic among the Ironwood Race members.

“Not good, humans have appeared!” a shout echoed around.

In a flurry, thousands of Ironwood Race members flew out of the palace, mainly galaxy-level, with a few planetary system-level experts.

The galaxy-level members were the majority. With only Zhou Tian's strength, he could defeat an ordinary galaxy-level opponent, but these were top-tier galaxy-level experts.

Hence, seeing so many galaxy-level experts, Zhou Tian felt slightly nervous. However, remembering that his master Ye Tian was there, he felt reassured.

He knew his master's strength, comparable to top-tier Universal Gods.

With Ye Tian present, these Ironwood Race members were no more than paper tigers!

"Humans, how did you discover this place?" a galaxy-level peak expert of the Ironwood Race asked fearfully.

At this moment, Zhou Tian stepped forward and said, "Don't you know why the Ironwood Race was destroyed?"

The Ironwood Race members looked at Zhou Tian and quickly recognized his identity.

"It's you, the Heavenly Saber Prince of the human race!" a galaxy-level Ironwood Race member shouted.

"That's right, it's me!" Zhou Tian admitted.

"Weren't you killed by our Ironwood Race?" the galaxy-level Ironwood Race member asked, frowning deeply.

"I was indeed killed by your Ironwood Race, but didn't you know that the Supremes can resurrect me? Well, it makes sense that you wouldn't. Your Ironwood Race doesn't have a Supreme, so you wouldn't think of resurrection. I came here before. The humans resurrected me, so this place was exposed!" Zhou Tian explained.

At this moment, the Ironwood Race members looked around and, not seeing any other human experts, a peak galaxy-level expert said, “Zhou Tian, you discovered the Ancient Tree of Life and didn’t inform the high-ranking humans. Otherwise, there would be a large number of galaxy-level peak experts from the human race here now. Ha ha ha, you want to monopolize the Ancient Tree of Life, but you underestimate our Ironwood Race. You brought only one peak planetary system-level human! Today, you’re destined to die here. Once you’re dead, we’ll retreat in time, and the humans won’t react quickly enough!”

“Surround them!” he commanded.

Boom! The galaxy-level Ironwood Race members spread out, sealing off the entire area, preventing Ye Tian from leaving.

“Master, this disciple’s strength is insufficient. Please, Master, take action!” Zhou Tian bowed.

In the distance, the Ironwood Race members were shocked.

They knew little about Zhou Tian, only that he was the Heavenly Saber Prince of the human race, but they didn’t know he had a master.

However, they weren’t fearful.

From the numbers and cultivation levels, they held the advantage. The humans were only two, one at the Great God level and the other at the planetary system level.

No matter how they calculated, their chances of victory were high.

“Attack!” the galaxy-level Ironwood Race member shouted.

Boom! The galaxy-level experts made their move.

At this moment, Ye Tian waved his hand, and time and space froze in this void.

“Black Lotus Realm!”

Black lotuses formed a series of Black Lotus Realms, enveloping the galaxy-level Ironwood Race experts.

Boom! In an instant, all the galaxy-level experts were annihilated within the Black Lotus Realms.

In a blink, most of the Ironwood Race experts were dead or injured, leaving only a few galaxy-level, planetary system-level, and Great God-level members who hadn't yet acted.

"Impossible!" The remaining Ironwood Race members were in disbelief.

So many galaxy-level experts, many of whom were once Heavenly Prides, and even a few Children of the Universe, representing the strongest galaxy-level fighters of the Ironwood Race, were all killed by Ye Tian in one move.

If Ye Tian had been a Universal God, they might have accepted it, but he was merely at the peak planetary system level! They were certain Ye Tian hadn't hidden his cultivation. During the recent attack, his cultivation remained at the peak planetary system level, unchanged.

A peak planetary system-level expert killing so many galaxy-level peaks was unbelievable! Suddenly, a planetary system-level expert exclaimed, "He... he is the Prince of Ten Thousand Laws of the human race, now the True Monarch of Ten Thousand Laws!"

"What, the True Monarch of Ten Thousand Laws? Him! The most brilliant genius in the history of humanity, even in the universe! True Monarch of Ten Thousand Laws, we surrender, please spare us!" One by one, the Ironwood Race members fell to their knees, begging for mercy.

They knew very well that no matter how they resisted, they couldn't contend with Ye Tian. Surrendering might give them a chance to live!

"Hypnosis," Ye Tian silently activated his hypnotic talent, instantly controlling them.

Given that the Ironwood Race members' souls were weak compared to his own, Ye Tian's soul was overwhelmingly superior, allowing him to control them easily.

"Tell me everything about this world!" Ye Tian demanded.

Immediately, the Ironwood Race members revealed everything they knew.

Quickly, Ye Tian understood everything about this world.

It turned out that, besides the Ancient Tree of Life, there was a true inheritance in this world. However, the Ironwood Race was too weak to obtain it and had only gained some ordinary inheritances.

This world's inheritances were primarily related to life and belonged to a grand race from a previous cosmic era—the Life Spirit Race!

This Life Spirit Race was different from the current Spirit Clan in the universe. The Life Spirit Race followed the Great Dao of Life, and each of them was born with a Divine Life Body, achieving great accomplishments in the Great Dao of Life.

Unfortunately, the Life Spirit Race was very few in number, leading to their lack of combat strength and their lack of power in their cosmic era.

However, in terms of research on the Great Dao of Life, the Life Spirit Race was absolutely among the best across numerous cosmic eras!

Chapter 683 The Life Divine Canon!

After asking most of the questions, Ye Tian decided not to keep the Ironwood Race any longer.

He couldn't possibly let those Ironwood Race members go: otherwise, the secrets here would be exposed.

Ye Tian didn't believe that he, with merely a peak Planetary System level strength, could protect the Ancient Tree of Life and the inheritance here. Even the nine supreme forces of humanity would intervene to claim a share.

Therefore, he had to kill all the Ironwood Race members here.

Boom! The power of time and space enveloped those Ironwood Race members, and under Ye Tian's command, they were all obliterated by the power of time and space.

"Zhou Tian, stay here. There are other Ironwood Race members elsewhere in this inheritance world. I'll go deal with them!" Yo Tian said.

"Yas Mastor" Zhou Tian replied.

Over the next day, Yo Tian sought out and exterminated the remaining Ironwood Race members in the inheritance world.

With this, not a single Ironwood Race member remained in this inheritance world.

Under the Ancient Troo of Life.

Yo Tian and Zhou Tian looked at the Ancient Tree of Life, discussing the issue of the troo's sap.

"Zhou Tian, this Ancient Troo of Life has produced some more sap, which the Ironwood Race didn't take. Let's take it. We'll split it evenly, how about that?" Yo Tian asked.

Zhou Tian nodded. "As you wish, Mastor!"

Immediately, Yo Tian bogan to harvest the sap from where the Ironwood Race had previously tapped the troo

Soon, a large quantity of sap was collected and evenly divided between Yo Tian and Zhou Tian

Although the sap wasn't abundant, it was plenty for the two of them.

After obtaining the sap, Zhou Tian eagerly went to a nearby palace to cultivate in seclusion.

Yo Tian also found a secluded cultivation chamber in the palace to begin his own cultivation

He didn't need to use the sap to extend his lifespan since he already had infinite longevity.

However, he saved a few portions of the sap to give to his wife, Xiao Yua, and his sister, Yo Yu, when he returned.

This way, the two of them could also enjoy eternal life without having to reach the Universal God level

Next, Ye Tian placed the remaining sap in a pool

"This sap should be enough for me to break through to the sixth layer of the Heavenly Origin True Method. I hope I can succeed. If I do, I'll become a sixth-level life form, making my physical strength even more formidable!" Ye Tian anticipated.

Splash! Ye Tian entered the pool of sap, immersing himself entirely.

Then, he began to cultivate the Heavenly Origin True Method, striving to break through to the sixth layer.

Time passed steadily, and Ye Tian's progress was stable and orderly.

On the other side.

Zhou Tian used the sap to greatly enhance his vitality. Although he couldn't strengthen his physical body, his lifespan increased indefinitely

One hundred million years! One billion years! Ten billion years!

In the blink of an eye, a month had passed, and Zhou Tian's lifespan had become virtually eternal, akin to that of a Universal God.

It could be said that as long as the universe didn't collapse, his lifespan would be eternal

"*From now on, I'll never have to worry about my lifespan again!" Zhou Tian exclaimed excitedly.

Afterward, he emerged from seclusion, eager to share his joy with his master, Yo Tian.

But soon, he discovered that his master was also in seclusion.

"Master must be refining the sap too. I'll wait for him to come out, it shouldn't take long!" Zhou Tian speculated.

Thus, Zhou Tian waited day by day.

A year passed in the blink of an eye.

One day.

The sixth-level life aura emanated from Yo Tian's cultivation chamber

Outside the chamber, Zhou Tian felt this life aura and immediately collapsed to the ground, unable to rise.

"This aura. it's a life aura! Zhou Tian was shocked.

His lifespan was already eternal yet he couldn't withstand his master's life aura.

"How can Master's life aura be so strong? I feel like an ant!" Zhou Tian thought in astonishment.

At this moment, his reverence for his master deepened, surpassing even his respect for the Supremos!

In the cultivation chamber.

Yo Tian slowly opened his eyes, gazing at the nearly dried-up sap in the pool. He felt his current life force and murmured, I managed to break through. Luckily, I had enough sap, or I would have failed or had to ask Zhou Tian for more sap."

Breaking through from the fifth-loval life to the sixth-loval life had significantly strengthened his physical body, and it could still improve further.

The sixth-level life was just one stop away from the seventh level. Once he became a seventh-loval life form, the universe could perish, but he would remain indestructible.

At that time, even if he couldn't transcend, he would still be immortal even if the universe perished!

However, Ye Tian knew very well that achieving the seventh-level life form was even harder than transcending! Many who transcended had not become seventh-loval life forms. Yet, if Ye Tian could become a transcendent, he would surely become a seventh-loval life form, as he was already at the sixth level. Upon transcending, he would immediately rise a life level.

Ye Tian didn't exit seclusion right away. Instead, he accelerated time and took out many resources to enhance his physical strength, resuming his cultivation.

His physical body, previously at its limit, could now be strengthened further since his life level had advanced to the sixth level.

Thus, he aimed to push his physical strength to its limit before exiting seclusion. By then, his combat power would surge once more.

"Cultivate! Cultivate!"

Ye Tian accelerated his cultivation, and within just half a year, he fully maximized his physical strength.

At this moment, Ye Tian was capable of battling some of the weaker Dominators of humanity without falling behind. Among the Universal Gods, unless they were particularly extraordinary, they wouldn't stand a chance against him.

Splash! Ye Tian pushed open the door of his cultivation chamber and stepped out.

As soon as he exited, residual auras emanated from him, causing Zhou Tian to back away, unable to approach Yo Tian.

"Congratulations, Master, for another surge in strength!" Zhou Tian congratulated.

"Zhou Tian, you've done well too. With your eternal lifespan, you can now safely accumulate your foundation at the Great God level!" Yo Tian said with satisfaction.

"Thank you for your praise, Master!" Zhou Tian quickly responded.

"Let's go, we should check out the inheritance site in this world!" Yo Tian said.

"Hmm!" Zhou Tian was also very interested in the inheritance of this world. If he could gain some powerful inheritance, it would greatly benefit his strength.

Thus, Zhou Tian followed Yo Tian to the inheritance site.

The inheritance site was not far from there, and soon they arrived at their destination.

"This is it!" Yo Tian said, looking at an ancient Temple of Life before them.

Splash! The two stepped into the Temple of Life together.

At this moment, a young girl with green wings appeared.

"Oh, more visitors!" the spirit said cheerfully.

"Artifact Spirit, we wish to take the test!" Yo Tian said.

He had learned from the Ironwood Race that there was an artifact spirit here, which turned out to be this green-winged girl.

The artifact spirit didn't care about the visitors' identities, only about guiding them through the test.

"Alright!" the young artifact spirit replied.

Splash! Ya Tian and Zhou Tian were simultaneously teleported to the testing grounds.

The Life Spirit Race was not skilled in combat, so the test content had nothing to do with fighting

The test only assessed their understanding of the Dao of Life! Being a sixth-level life form, Ye Tian's comprehension was likely far superior to that of the Life Spirit Race. Moreover, having inherited the Heavenly Origin True Method, a profound study of the Dao of Life, his understanding was extremely high

Thus, Ye Tian passed each test with ease, effortlessly completing the challenges set by the Life Spirit Race.

After passing all the tests, the young artifact spirit reappeared.

She stared at Ye Tian in astonishment and said, "I didn't expect you to pass all the tests. Your understanding of the Dao of Life rivals that of our elders! Congratulations, you are awarded the highest inheritance of the Life Spirit Race-the Life Divine Canon!"

Then, the young artifact spirit took out the Life Divine Canon.

It wasn't just a simple inheritance but a tangible book that could be taken away and used to cultivate others.

"The Life Spirit Race is quite generous, not imposing any restrictions!" Ye Tian was surprised.

After receiving the Life Divine Canon, Ye Tian briefly skimmed through it.

Upon finishing, Ye Tian frowned

He underestimated the Life Spirit Race. This Life Divine Canon can be considered an encyclopedia of the Dao of Life, but it's not very useful to me. It's not even as valuable as the Heavenly Origin True Method."

However, it made sense. The Heavenly Origin True Method was an ultimate socratic art aimed at life goals, while the Life Divine Canon was more of a theoretical research on the Doo of Life. For a race, the Life Divine Canon was extremely precious, but for an individual, the Heavenly Origin True Method was

for more valuable.

Yo Tian thought to himself, "Of course, the Life Divine Canon can help me understand the Heavenly Origin True Method better, making future cultivation easier, but it has little other use"

"Better keep it for now!"

Yo Tian stored the Life Divine Canon and exited the temple.

Zhou Tian hadn't come out yet, so Ya Tian waited outside for him.

Chapter 684: Negotiations with Kunwu Supramol

After waiting for a while, Zhou Tian finally arrived from the Temple of Life.

"How did the assessment go?" Yo Tian asked as he approached

"I only made it through the third round of the assessment," Zhou Tian replied with some disappointment.

It was clear that he hadn't obtained a particularly good inheritance.

"You can accept this inheritance; it will be beneficial to you." Yo Tian said, taking out the Life Divine Canon. "This is the supreme inheritance from the Temple of Life - the Life Divine Canon. It has no restrictions, and you can accept its contents. However, I can't give it to you permanently, I still need it."

"This." Zhou Tian was stunned.

He had soon his master, Yo Tian, amargo first and assumed that his master's assessment results were also not very good. Yet, in an instant, Yo Tian had brought out the suprema inheritance of the Temple of Life - the Life Divine Canon! This indicated that Yo Tian had casily passed all the assessments of the Temple of Life and obtained its supreme inheritance with the best possible result.

"Mastor..you are still as extraordinary as over," Zhou Tian sighed.

Compared to Yo Tian, he felt incredibly weak and mediocre.

Zhou Tian did not rofuse Ye Tian's suggestion. He took the Life Divine Canon and allowed his consciousness to enter it, accepting its inheritance.

Boom! Countless picces of information surged into Zhou Tian's soul as he continuously absorbed the contents of the Life Divine Canon.

"What a profound Life Divine Canon!" Zhou Tian cxclaimed in excitement.

Although his path was not the Dao of Life but the Sabar Dao, the Life Divine Canon still greatly benefited him. Any prograss in the Doo of Life would significantly enhance his survival capabilities, which was crucial for any cultivator on the path to becoming a Supreme.

For instance, Zhou Tian had previously boon instantly killed by a Dominator, and even the Dominator of the Human Race couldn't save him because his survival capabilitics were wook Just a single shockwave had annihilated him.

Tharafora, Zhou Tian was koon on improving his survival capabilities, and the Dao of Life was undoubtedly a powerful path for this.

Of course, if he had to start cultivating the Dao of Life from the basics, Zhou Tian would definitely give up. But starting directly from the supramo inheritance of the Life Divine Canon was like taking a loop to the top. The Life Divine Canon affered immense help, although his physical body's strength couldn't bo onhanced, making it hard to clovate his life lovel Despite this, the Life Divine Canon significantly boosted his survival capabilities.

After a long while, Zhou Tian finally withdraw from the inheritance process of the Life Divine Canon.

"How was it?" Yo Tian asked.

"Very impressive!" Zhou Tian nodded. "The divine canon is incredibly profound, definitely one of the highest inheritances I've encountered. It also contains many life secret techniques. With the assistance of the Life Tree's sap and the Ancient Tree of Life, I can master those techniques quickly, greatly enhancing my survival capabilities."

"Yes, you can delve into the Dao of Life, but remember, your primary focus should be on the Saber Dao," Ye Tian reminded him.

"Understood, Master!" Zhou Tian replied earnestly.

Yo Tian retrieved the Life Divine Canon and then returned to the Ancient Tree of Life with Zhou Tian.

"Master, what should we do with the Ancient Tree of Life?" Zhou Tian asked.

Yo Tian pondered for a moment before saying. "The Ancient Tree of Life cannot be moved. Although it will continue to produce Life Tree sap, the process takes a long time. I suggest using the Ancient Tree of Life and the inheritance here to make a deal with the high-ranking members of the Human Race. We can hand it over, but we must receive some benefits in return. Moreover, you will need a lot of resources in the future. Once you leave the Supreme Hall of Humanity, it will be difficult to acquire more resources. This is a good opportunity."

Zhou Tian nodded and said, "Master, that is a good suggestion. However, if I go to negotiate with the high-ranking members of the Human Race, they might not take me seriously. Please handle this, Master."

"Very well, I will handle it," Ye Tian agreed.

Then, Ye Tian and Zhou Tian left the inheritance world and returned to the outside world. After that, they discreetly returned to Tianian Giant City in the Human Race's sanctuary.

Zhou Tian went back to the Supreme Hall of Humanity, while Yo Tian sought out Kunwu Supreme a few days later. Among the many Supremes of the Human Race, he was most familiar with Kunwu

Supreme, who also hold a very high position. Negotiating with Kunwu Supreme would definitely secure the best

benefits.

In the Supreme Hall of Humanity, inside the Kunwu Pavilion, Kunwu Supreme received Ye Tian's message and was a bit surprised. Usually, Ye Tian sought his help or asked questions, but this time, Ye Tian mentioned a transaction.

Interesting, it seems Ye Tian has discovered something good again. When he was part of the Supreme Hall of Humanity, he secured many extraordinary inheritances for the Human Race. Unfortunately, back then, he was a member of the Supreme Hall and had to accept the opportunities granted to him. He had no room to negotiate with the high-ranking members. Now that he has left the Supreme Hall of Humanity, he has the right to negotiate," Kunwu Supreme thought, not at all angry.

He understood that since Ye Tian had left the Supreme Hall, it would be foolish to selflessly offer any discovered opportunities to the Human Race without asking for anything in return. Just like the nine Supreme-loyal forces of the Human Race, who rarely shared discovered opportunities.

Kunwu Supremo immediately responded agreeing to meet with Ye Tian at any time.

Three days later, Ye Tian personally went to the Supreme Hall of Humanity and met with Kunwu Supremo.

In the Kunwu Pavilion, Kunwu Supreme smiled and said, "Ye Tian, what have you discovered this time? If it's something good, I will make sure you get some benefits and won't let you suffer a loss!"

Ye Tian seriously replied, "Kunwu Supreme, would the high-ranking members of the Human Race be interested in the Ancient Tree of Life?"

"What? The Ancient Tree of Life! Are you serious?" Kunwu Supreme was shocked, staring at Ye Tian in disbelief.

"Absolutely," Ye Tian affirmed, taking out a drop of Life Tree sap from the Ancient Chaos Realm. "This is Life Tree sap. Kunwu Supreme, you should recognize

it

Kunwu Supreme scanned it with his divine sense and immediately confirmed its authenticity, noting the terrifying life essence it contained. With his vast experience, he couldn't be wrong.

"The value of the Ancient Tree of Life is indeed very high. What do you want?"

*Kunwu Supremo, I haven't finished. Besides the Ancient Tree of Life, there is also a Life Divine Canon far surpassing any in the Human Race's collection. It's the supreme inheritance of a Life Spirit Race from a certain cosmic era. Additionally, there is the Temple of Life, the inheritance ground of the Life Spirit Race. Combined, those should be enough to tempt the nine Supreme-level forces and the Supreme Hall of Humanity." Yo Tian explained.

Kunwu Supremo stared at Yo Tian and said, "Yo Tian, you have certainly given me a surprise. This is equivalent to handing over the inheritance of an entire racial Ordinary rewards won't suffice. I can convene a Supreme Council and you can participate. Then you can negotiate with the leaders of the nine Supreme-level forces. How does that sound?"

"Agreed!" Yo Tian nodded.

Chapter 685: Trading with the Supremes, Three Great Benefits!

A few days later, Kunwu Supreme gathered the Supremes of the nine supreme forces. Of course, the Supremes did not attend in person but sent their avatars to the Holy City.

In one of the palaces within the Holy City, the avatars of the Supremes from the nine supreme forces appeared one after another. Kunwu Supreme represented the Supreme Hall of Humanity at this meeting.

Interestingly, the representative from the Primordial Divine Mountain was not Primordial Supreme but another Supreme—Jiangshan Supreme! Although Jiangshan Supreme was merely an ordinary Supreme, he had the authority to represent the Primordial Divine Mountain.

“Kunwu Supreme, where is Ye Tian? Is what you told us before true? If there really are Ancient Tree of Lifes and the supreme inheritance of the Life Spirit Race, that indeed qualifies him to negotiate with us,” said Divine Blade Supreme.

Infinite Saber Supreme added, “Ye Tian is just at the Galaxy level. I suggest he hand over everything directly, and we give him some benefits. There’s no need for such a grand meeting to trade with him.”

Kunwu Supreme smiled and replied, “Infinite Saber Supreme, are you still displeased about Ye Tian’s actions during his visit to the Infinite Saber Sect? But don’t forget, Ye Tian’s talent is the strongest in the history of the universe. He is destined to become the strongest Supreme, and his potential is limitless. Are you sure you want to offend him? Be careful that your Infinite Saber Sect doesn’t have a tough time in the future.”

“Ahem, just pretend I never said that!” Infinite Saber Supreme coughed dryly.

He clearly worried that Kunwu Supreme’s words might come true. He could disregard Ye Tian now, but Ye Tian’s potential was evident to all. As long as Ye Tian didn’t fall, he would undoubtedly surpass Infinite Saber Supreme and others in the future, potentially becoming a leader among humanity, similar to the First Divine Lord among the Immortal Race, with absolute authority and decision-making power.

Therefore, Infinite Saber Supreme didn’t dare to offend Ye Tian. His earlier words were merely casual remarks.

“I have already informed Ye Tian. He should be arriving soon!” Kunwu Supreme stated.

Before long, Ye Tian stepped into the meeting room.

“Greetings to all Supremes!” Ye Tian said respectfully.

“Sit down!” Kunwu Supreme instructed.

Ye Tian found an empty seat and sat down.

“Let the meeting begin!” Kunwu Supreme announced.

“Ye Tian, I’ve explained the basic situation to the Supremes, but since this involves trading with the nine supreme forces and the Supreme Hall of Humanity, you should elaborate,” Kunwu Supreme said.

Ye Tian nodded and began, “Honorable Supremes, I discovered a world of inheritance where an Ancient Tree of Life exists. Additionally, there is a Life Spirit Race’s Life Shrine within this inheritance space. Inside the Life Shrine, I found the Life Spirit Race’s supreme inheritance. I successfully passed all their tests and obtained the Life Shrine’s supreme inheritance—the Life Divine Canon. I propose trading this world of inheritance with the nine supreme forces and the Supreme Hall of Humanity. You can share this inheritance world. However, I require equivalent compensation for this trade.”

“What do you want?” Divine Blade Supreme asked.

The Supremes present were not afraid of Ye Tian lying since they could reclaim any compensation if he did. Moreover, Ye Tian was only at the Galaxy level, and he wouldn’t dare joke with them.

“First, I want some precious tomes from the nine supreme forces and the Supreme Hall of Humanity. I only need imprinted versions or a single viewing.

“Second, I need sufficient resources to cultivate from the Great God level to the Dominator level. The specific amount can be discussed later.

“Third, I want to enter the Supreme Sacred Realm of humanity for cultivation!”

As soon as Ye Tian finished speaking, Infinite Saber Supreme shouted, “Impossible! We can agree to the first two conditions, but absolutely not the Supreme Sacred Realm. Do you know what the Supreme Sacred Realm is and how it is opened? It can only be opened when a Dominator is about to break through to Supreme, and it requires a great price. You want the Supreme Sacred Realm? You must be dreaming!”

Seeing Infinite Saber Supreme’s strong reaction, Ye Tian remained calm and said, “Infinite Saber Supreme, I know the cost of opening the Supreme Sacred Realm is high, but the value of the Ancient Tree of Life and the Life Divine Canon is immeasurable. I can show the Supremes one-third of the content of the Life Divine Canon. Then you can decide whether to agree to my terms.”

“Agreed!”

“Agreed!”

“Agreed!”

...

After some discussion, all the Supremes nodded in agreement. No matter how Ye Tian exaggerated the Life Divine Canon, they hadn't seen it and couldn't determine its exact value. So, they decided to review the Life Divine Canon first before making a final decision.

Otherwise, they would never have paid such a high price.

Ye Tian took out several crystal balls and imprinted one-third of the content of the Life Divine Canon into each of them. Soon, he completed the imprints.

These imprints were simple and would not last long before fading away. However, Ye Tian only needed the Supremes to take a look and didn't require them to be preserved.

One by one, the Supremes received the crystal balls and inserted their divine senses to examine the contents of the Life Divine Canon. They were quickly captivated by what they saw, each becoming deeply engrossed.

After a long time, Infinite Saber Supreme withdrew from the contents of the Life Divine Canon and muttered, “What a profound Life Divine Canon, such a mysterious and extraordinary Life Dao!”

The other Supremes also displayed excited expressions, eager to obtain the complete Life Divine Canon. For these Supremes, the Life Divine Canon held immense value.

Their strength had reached a plateau, making further progress nearly impossible. At this point, enhancing their survival abilities became a necessary cultivation method. However, increasing survival abilities was extremely challenging since their current capabilities were already formidable. To enhance them further was nearly impossible. But now, they saw hope in the Life Divine Canon.

“It is said that the Immortal Race also has a powerful life tome, but it is probably not as good as this Life Divine Canon. Once we obtain this Life Divine Canon, our survival abilities will be strengthened, which is equivalent to an increase in strength,” Divine Blade Supreme remarked.

The Supremes then began to discuss among themselves.

“Everyone, the Ancient Tree of Life combined with this Life Divine Canon holds immense value. Should we agree to Ye Tian’s demands?”

“The first two requests are acceptable, but the cost of opening the Supreme Sacred Realm is too high. Many Dominators on the verge of becoming Supremes are in line, waiting a long time to enter the Supreme Sacred Realm. Moreover, those Dominators are willing to pay a certain price, but Ye Tian wants to enter for free. This...”

“We should agree. Opening the Supreme Sacred Realm to help Ye Tian is not a waste. We can set a condition that once Ye Tian reaches the peak of the Dominator level, the Supreme Sacred Realm will no longer be open to him. This way, it’s like opening the Supreme Sacred Realm for Ye Tian in advance. What do you all think?”

“Agreed, let’s do that!”

After their discussion, Divine Blade Supreme spoke on behalf of the group, “Ye Tian, we have discussed it and agreed to your demands. However, the precious tomes from the nine supreme forces and the Supreme Hall of Humanity cannot be provided excessively. We also need to discuss the resource allocation in detail.”

“Agreed!” Ye Tian nodded.

Ye Tian and the Supremes then spent nearly a day discussing the terms. Ultimately, Ye Tian secured sufficient resources and access to many precious tomes. These tomes were incredibly valuable and were previously inaccessible to him, even as a prince in the Supreme Hall of Humanity.

Now, he could freely browse these precious tomes, which would greatly expand his horizons and increase his foundation. In the future, he could even create countless secret techniques based on these tomes.

This was the true wealth!

Following this, Ye Tian and the Supremes signed an agreement, setting the rules. Over the next month, the nine supreme forces and the Supreme Hall of Humanity delivered the resources and imprinted versions of the precious tomes.

Ye Tian mentioned that the inheritance world was discovered by him and Zhou Tian. Therefore, those precious tomes could be browsed by Zhou Tian. Beyond that, no one else could view these tomes, and they had to be destroyed afterward.

On this day, the Supremes asked Ye Tian, “We have given you everything except access to the Supreme Sacred Realm. Now, tell us the location of the inheritance world.”

Ye Tian replied, “It’s in the Ironwood Race ruins.”

He then explained the situation involving the Ironwood Race and Zhou Tian.

At this, Kunwu Supreme realized, “So, the Ironwood Race attacked Zhou Tian because of this. Zhou Tian did not report this matter!”

Ye Tian smiled and said, “Kunwu Supreme, if the higher-ups of the Human Race were willing to resurrect Zhou Tian, he would have reported it. But Zhou Tian was resurrected by Lord Cang Yu, and it was my effort. Besides, even if Zhou Tian reported it, the benefits would not have been as great as they are now.”

“True!” Kunwu Supreme replied helplessly.

Soon after, the Supremes located the inheritance world and quickly sent people to occupy the Ironwood Race ruins, protecting the inheritance world.

Ye Tian no longer concerned himself with the matter.

He then sought out Zhou Tian, giving him most of the resources and allowing him to browse all the precious tomes. After all, Ye Tian gained access to the Supreme Sacred Realm, but Zhou Tian did not. Therefore, Ye Tian had to compensate Zhou Tian with resources.

Overall, Ye Tian still profited! Once everything was prepared, Ye Tian was ready to enter the Supreme Sacred Realm!

Chapter 686:

The Supreme Sacred Realm was not an ordinary place. Many people were completely unaware of its existence. However, as Ye Tian gradually entered the upper echelons of human society, he became privy to many secrets.

Among these secrets, the Supreme Sacred Realm was one of the core mysteries of humanity.

In reality, the Supreme Sacred Realm was an immensely powerful supreme treasure, not just any ordinary one, but one of the top-tier supreme treasures, forming one of the foundations of humanity.

Located in the Holy City, the Supreme Sacred Realm was safeguarded by multiple Heavenly Venerables and a Supreme to ensure that there were no issues.

The Supreme Sacred Realm possessed no offensive or defensive capabilities. It was an auxiliary supreme treasure with the function of enhancing one's heart condition.

In the classification of heart conditions among humans, there were a total of seven levels. Ye Tian, however, knew that beyond the seventh heart condition, there were higher levels. However, with the current human methods, it was impossible to reach the eighth heart condition.

Moreover, the seventh heart condition was already sufficient to impact the Heavenly Venerable realm. Whether one could ascend to the eighth heart condition was not particularly important to those Heavenly Venerables or even the Supremes.

“The reason why peak Dominators want to enter the Supreme Sacred Realm is because it can help them reach the seventh heart condition, thereby eliminating the only barrier to reaching the Heavenly Venerable realm. Otherwise, forcefully attempting to break through to the Heavenly Venerable realm can lead to a collapse of their heart condition and death. I have already achieved the sixth heart condition, and I am not far from the seventh. But my accumulation far surpasses others, so naturally, I can't have the same requirements as them. I need to elevate my heart condition to the seventh level as soon as possible. Once I achieve the seventh heart condition, even if the universe collapses, my heart condition would be stable. Only such a state can withstand any trials and tribulations, allowing me to ascend to the pinnacle realm!” Ye Tian thought to himself.

Additionally, Ye Tian wanted to achieve the seventh heart condition because he felt that he had difficulty controlling his powerful physical body.

In terms of pure physical strength, he couldn't even count how many times he surpassed those Supremes. However, because Supremes had the support of supreme power, he couldn't contend with them.

But with such terrifying physical strength, if one's heart condition wasn't high enough, it was like a child wielding a hammer—somewhat strenuous.

Ye Tian found himself in this awkward situation now!

If his physical strength continued to improve in the future, he would struggle to unleash its full potential.

Thus, elevating his heart condition was imperative.

Originally, Ye Tian was troubled about how to enhance his heart condition. Now, an opportunity presented itself. He had secured a chance to enter the Supreme Sacred Realm, and he had to seize it.

As for the future, if he couldn't enter the Supreme Sacred Realm again, he didn't care!

Once his heart condition reached the seventh level, the Supreme Sacred Realm would be of little help to him. Whether he could enter again would naturally be of no consequence.

...

Holy City.

On this day, Xi Qing arrived here.

Initially, Ye Tian didn't know the exact location of the Supreme Sacred Realm. He only knew it was in the Holy City, with no further information.

When he entered the Holy City, a Dominator led Ye Tian to the Supreme Hall of the Holy City.

The Supreme Hall was a place where the statues of Supremes were placed, an important memorial site in the Holy City.

Currently, there were twenty-four Supremes in the human race, and their enormous statues were situated in the Supreme Hall. This place was seldom visited and rarely opened.

“I didn’t expect it to be here!”

Ye Tian was surprised.

He had thought the Supreme Sacred Realm would be in a very secretive location!

The accompanying Dominator, seeing Ye Tian’s astonishment, explained, “True Monarch of Ten Thousand Laws, you must be curious why the Supreme Sacred Realm is placed in such a conspicuous location like the Supreme Hall? Actually, if someone could breach the Holy City, nowhere would be safe. So, it doesn’t matter where it’s placed. Additionally, the twenty-four statues in the Supreme Hall are very special. They can connect to the Supremes’ true bodies, allowing them to descend with their power and teleport here instantly. Thus, this place offers the fastest support from the Supremes.”

“I see!” Ye Tian understood.

After entering the Supreme Hall, Ye Tian was taken to its depths.

After passing through layers of grand formations, he arrived at an ancient stone gate.

In the center of the stone gate, a phantom-like light orb appeared before him.

This light orb was the Supreme Sacred Realm!

Near the Supreme Sacred Realm, Ye Tian sensed several auras, each as vast and powerful as an ocean.

“It must be the Heavenly Venerables guarding this place,” Ye Tian guessed.

Soon, the Supreme Sacred Realm activated, transforming into a small vortex.

“Enter!” a voice commanded from the void.

“Thank you, seniors!” Ye Tian responded gratefully.

Immediately, he turned into a beam of light and entered the Supreme Sacred Realm.

At this moment, several voices echoed in the void.

“I observed that the True Monarch of Ten Thousand Laws has already reached the sixth heart condition. Do you think he can elevate his heart condition to the seventh level with the help of the Supreme Sacred Realm?”

“It’s too difficult. The gap between the sixth and seventh heart conditions is not small. Many in the race have reached the sixth heart condition, but few have attained the seventh. If the True Monarch of Ten Thousand Laws had reached the peak of the Dominator realm and had undergone extensive cultivation and trials over the years, I would believe he could use the Supreme Sacred Realm to break through to the seventh heart condition. But he’s too young now, I don’t think he can reach the seventh heart condition!”

“You never know. The True Monarch of Ten Thousand Laws is a miracle worker; other people’s examples may not apply to him!”

“Let’s wait quietly. It won’t be long before we know the result!”

The voices of the Heavenly Venerables gradually faded away.

...

In the Supreme Sacred Realm, Ye Tian found himself in a void.

There were no mountains or rivers, no flowers or trees, no wind, rain, thunder, or lightning, and not even a trace of yuan qi.

This place was like a true void!

However, there were still rules here, the original laws of the universe remained. Even the most powerful supreme treasure couldn't block the universal rules.

"Joy!" Ye Tian suddenly felt a sense of joy from his celestial soul, as if there was an aura here that made his celestial soul feel immensely comfortable.

"I can't see anything particularly special for now, but I need to cultivate my heart condition techniques here to truly experience the uniqueness of the Supreme Sacred Realm," Ye Tian thought.

The heart condition technique he was currently cultivating was the Dark Silence True Scripture. He then sat cross-legged and began to practice it.

Boom!!!

In the endless darkness, a ray of light appeared before Ye Tian.

Soon, a figure almost identical to Ye Tian appeared in the darkness, also practicing the Dark Silence True Scripture.

Gradually, a powerful heart condition aura emanated from the figure.

So this is it...

Ye Tian finally understood the use of the Supreme Sacred Realm. It manifested the heart condition cultivation method to aid practitioners in comprehending heart condition techniques.

However, Ye Tian quickly frowned.

This method was good, but it required a certain level of insight. Without it, one could not fully understand the heart condition techniques demonstrated.

Of course!

Using this method to break through bottlenecks and reach the seventh heart condition had a much higher probability than cultivating alone in silence.

“But this method isn’t quite suitable for me. My accumulation is still insufficient. If I use this method, it might take a long time to break through, and I can’t possibly use the Supreme Sacred Realm for too long!” Ye Tian thought.

After a moment of silence, Ye Tian suddenly remembered the Nether King’s Secret Manual!

Chapter 687: Seventh-Level Mental State!

The Nether King Secret Manual was the supreme scripture of the soul, a culmination of countless years of the Hades civilization’s essence, surpassing any soul-related scripture in the universe.

This secret tome also contained some knowledge regarding the mental state.

After all, the mental state and the soul were closely related; although they were different, they shared commonalities.

“There was a secret technique in the Nether King Secret Manual that amplified mental strength using powerful soul energy. This was originally a minor technique with little practical use.

After all, mental strength usually wasn’t very useful, and consuming soul energy to enhance it had minimal impact, only being useful in specific situations,” Ye Tian pondered.

Previously, he hadn’t considered this secret technique, thinking it useless and therefore not learning it.

But now, he suddenly remembered it and decided to cultivate it.

Perhaps, he could use this secret technique to successfully elevate his mental state to the seventh level.

“Nether King Secret Manual – Soul Sea Secret Technique!”

Ye Tian began to comprehend this secret technique, and it didn’t take long before he thoroughly understood it.

Immediately, Ye Tian started to perform this secret technique.

“Even if others learned the Soul Sea Secret Technique, they wouldn’t dare to perform it. If their souls weren’t strong enough, it would directly lead to soul exhaustion! But my Celestial Soul is extremely powerful, far exceeding others, making me fully qualified to use this technique. What a stroke of luck!”

Thinking this, Ye Tian immediately performed the Soul Sea Secret Technique.

Boom!!!! Ye Tian’s powerful Celestial Soul energy gradually consumed, and his soul’s aura grew weaker.

At this moment, Ye Tian suddenly felt a surge of mental energy entering the depths of his mental state.

Boom!!!! As this external energy surged in, his mental state gradually approached the seventh level.

With the execution of the Soul Sea Secret Technique, Ye Tian’s cultivation in the Supreme Sacred Realm also improved.

The power of the shadow figure he faced also increased, and the Dark Silence True Scripture it displayed became clearer and easier for Ye Tian to comprehend.

“Half-step to the seventh-level mental state!”

Ye Tian sensed his current mental state level.

In fact, his mental strength wasn't much weaker than the seventh-level, but it was temporarily amplified, not fully controlled, so it could only be considered a half-step to the seventh level.

Now, it was as if Ye Tian stood on the shoulders of giants, overlooking everything. The profound aspects of the mental state that he previously didn't understand were now clear to him at a glance.

He continually focused on the shadow figure in the Supreme Sacred Realm, comprehending the mental state realm and the profound techniques it displayed, gaining more and more insights.

As time passed, although the consumption of Celestial Soul energy was considerable, Ye Tian had many treasures to replenish soul energy, so he wasn't afraid of soul depletion. ¶

A year passed this way. One day,

Ye Tian's eyes were filled with joy, and he couldn't help but laugh heartily.

“Hahaha, finally broke through!”

At this moment,

Ye Tian's body radiated boundless mental energy, illuminating the entire Supreme Sacred Realm.

This boundless mental energy marked the strength that came with reaching a certain level, a sign of advancing to the seventh-level mental state.

Reaching this level, nothing could challenge Ye Tian, and he could see through many powerful illusions at a glance, unless they were at the supreme level.

Of course, this didn't mean Ye Tian could break through all illusions; some could be seen through but not broken.

As Ye Tian advanced to the seventh-level mental state, his mental power surged rapidly!

Twice! Three times! Five times! Ten times! Eventually, Ye Tian's mental strength was over twenty times stronger than before his advancement, completely overwhelming sixth-level mental power.

It could be said that the seventh-level mental state was vastly superior to the sixth-level, incomparable in magnitude.

After the breakthrough, Ye Tian felt he could fully control his physical power, down to the finest detail.

"This feeling is wonderful!" Ye Tian murmured as he closed his eyes.

Afterward, Ye Tian continued to comprehend within the Supreme Sacred Realm for some time. However, after reaching the seventh-level mental state, the Supreme Sacred Realm offered little help, only allowing him to stabilize his newly attained mental state.

"It's time to leave!" Ye Tian sighed.

Immediately, he exited the Supreme Sacred Realm.

Outside the Supreme Sacred Realm, several Heavenly Venerables observed Ye Tian with discreet glances.

At that moment, Ye Tian turned his gaze towards the hiding place of the Heavenly Venerables and said, "Greetings, three Heavenly Venerables!"

Swish! All three Heavenly Venerables were stunned.

"He discovered us!"

The three Heavenly Venerables had concealed themselves so well that it was difficult to detect them. Even sensing their Heavenly Venerable aura wouldn't pinpoint their location, only indicating their presence nearby.

Yet just now, Ye Tian's gaze accurately found them without any deviation, undoubtedly discovering their whereabouts.

“How is this possible?” one Heavenly Venerable was shocked.

In fact, Ye Tian didn’t rely on his copy talent to find the three Heavenly Venerables but used his mental state power. Although mental state power couldn’t be used for probing, it could instantly lock onto anyone when their gaze fell upon him.

Ordinary people couldn’t sense the gaze of a Heavenly Venerable, and even Ye Tian couldn’t have done so before.

But now, with his mental state power at the seventh level, matching that of the Heavenly Venerables, he could immediately detect and lock onto their gazes.

Soon, the three Heavenly Venerables realized a fact.

“Ye Tian’s mental state power has broken through to the seventh level!!!!”

They could hardly believe it, but it was the truth. They sensed the mental state power emanating from Ye Tian, residual from his recent breakthrough, which he couldn’t entirely conceal.

This mental state power was definitely at the seventh level; there was no mistake!

“Congratulations, Ye Tian!” the three Heavenly Venerables responded but did not reveal themselves.

They were the hidden guardians of the Supreme Sacred Realm and naturally didn’t want to appear openly. Moreover, Ye Tian’s current status still wasn’t on par with theirs. If they showed themselves, it would be a loss of face!

Subsequently, Ye Tian left and returned to Tianlan Giant City.

The news of Ye Tian reaching the seventh-level mental state quickly spread among the high circles of the Human Race.

In the Kunwu Pavilion, Kunwu Supreme, upon learning that Ye Tian had reached the seventh-level mental state, couldn't help but laugh, "It seems the only condition preventing Ye Tian from becoming a Supreme has completely disappeared. It won't be long before our Human Race has another Supreme, and the strongest one at that!"

After returning to Tianlan Giant City, Ye Tian rested for a few days and then prepared for a significant event: overcoming the lightning tribulation to break through to the Galaxy level!

Chapter 688: First Stage of the Galaxy Level!

Ye Tian's accumulation at the Planetary System level had long been sufficient. Not only had his physical body reached its limit, but his internal Ancient Chaos Realm had also expanded to its extreme, making further expansion difficult.

Additionally, his Ancient Chaos Realm possessed heavenly potential, ensuring no issues with potential would arise. The real accumulation began at the Great God level, and after reaching the Planetary System level, it was mostly fixed. Only at the peak of the Galaxy level would further accumulation be necessary.

Furthermore, Ye Tian's Celestial Soul had already reached the mid-stage limit of the Nether General, equivalent to the limit of the Planetary System level. If he continued to advance, he would inevitably break through the barrier, making it impossible to suppress his realm any longer.

Therefore, regardless of the circumstances, he could not delay any further.

Advancing to the Galaxy level was imperative! However, to reach the Galaxy level, Ye Tian had to endure fifteen thunder tribulations, each far surpassing the previous ones. Such a grand tribulation would create a significant commotion, potentially affecting numerous planetary systems.

Thus, Ye Tian could not undergo tribulation in an ordinary location. If he did, he would not be able to hide from others. If other races learned about it, it would cause major trouble.

Previously, only the Immortal True Lord knew Ye Tian's true combat power. However, the Immortal True Lord had long perished in the world of the Abyss of Destruction and could not be resurrected.

So, for the time being, other races were unaware of Ye Tian's true strength. Even if they knew he was a defier of the heavens, it was extremely difficult for a defier to become a Supreme. For

instance, the Immortal True Lord had remained at the Galaxy level for ages, not daring to challenge the Universal God realm.

Therefore, as long as Ye Tian hadn't reached the Universal God realm, the super clans of the universe, such as the Immortal Race and Demon Race, did not pay much attention to him.

But if news of his tribulation leaked and he displayed power far beyond the Immortal True Lord, it would surely cause trouble. The Immortal Race would stop at nothing to kill him.

"I must find a safe place!" Ye Tian muttered to himself.

The Supreme Hall of Humanity was indeed a relatively safe place, but he had already left it. Returning to undergo tribulation there was not ideal. "I'll undergo tribulation at the edge of the universe!" Ye Tian decided.

The edge of the universe was a void, devoid of any planetary systems. Undergoing tribulation there would be difficult to detect.

The Pan Star Field's edge was the edge of the universe, an expansive area perfect for undergoing tribulation.

Thus, Ye Tian, after disguising himself, returned to the Pan Star Field. However, he did not meet anyone there, instead heading straight through the Pan Star Field to the edge of the universe.

...

At the edge of the universe.

Ye Tian randomly chose a region, put away his spaceship, sat cross-legged, adjusted his mindset, and prepared to advance to the Galaxy level.

Advancing from the Planetary System level to the Galaxy level required transforming the internal world into a starry space.

When Ye Tian first broke through to the Planetary System level, his internal world was akin to a single planet surrounded by a void space, forming an Ancient Chaos Realm comparable to an ordinary planetary system.

Now, his Ancient Chaos Realm was no longer a single world but a vast planetary system with numerous stars scattered in the void. The main world was the Ancient Chaos Realm continent.

To reach the Galaxy level, he needed to break through the world's limit, transforming the Ancient Chaos Realm into a true starry sky world, akin to a galaxy, with countless stars shining and many continents floating in the void, comparable to a small star field.

This world would be the Galaxy-level Ancient Chaos Realm. At the Universal God realm, the internal world would transform into a small universe, or a microcosm.

Of course, it could not compare to the real universe, but the small universe would still count as a universe, albeit a minuscule one.

“Time to break through!” Ye Tian muttered.

Then, he continuously circulated his cultivation method, attacking the barriers of the Ancient Chaos Realm, manipulating the celestial force within his body to constantly assault it.

Soon, the world barrier cracked.

Boom! The world began to transform, breaking through the realm without any hindrance.

Ye Tian's talent was extremely high, a pinnacle-level cultivation talent, surpassing those of the Supremes.

Thus, breaking through realms was incredibly easy for Ye Tian, with no bottlenecks or difficulties whatsoever.

With a wave of his hand, Ye Tian scattered countless Divine Crystals, Chaos Crystals, and other resources around him, which he then absorbed into his body to ensure a smooth breakthrough.

He did not lack resources now and therefore felt no regret in using them.

At the moment of his breakthrough, Ye Tian's Celestial Soul also advanced, easily reaching the late stage of the Nether General realm.

Soon, Ye Tian's cultivation formally stepped into the first stage of the Galaxy level. Although it was not yet stabilized, he was already considered a Galaxy-level cultivator.

At that moment, a thunder tribulation cloud appeared in the void.

The size of this thunder tribulation cloud was unimaginably vast, almost comparable to the area of several planetary systems.

Moreover, the aura of the thunder tribulation was enough to terrify other Galaxy-level cultivators. Even a wisp of its aura was sufficient to suppress ordinary Galaxy-level beings, and even typical Universal Gods would not dare to withstand this thunder tribulation's power.

"Back then, the Immortal True Lord probably paid a huge price to survive the Galaxy-level thunder tribulation. The Immortal Race likely invested countless resources in him. Too bad the Immortal True Lord was killed by me. I wonder how much the Immortal Race regrets it!"

Thinking of this, Ye Tian laughed happily.

Boom!!! The first thunder tribulation descended.

Ye Tian stood still, relying purely on his own defense to withstand the first thunder tribulation.

Then, the second thunder tribulation, the third all struck Ye Tian one after another.

Only when the tenth thunder tribulation arrived did Ye Tian take it a bit more seriously, casually smashing the thunder tribulation pillar.

Finally...

“The fifteenth thunder tribulation, the last one, is here!”

Ye Tian looked at the descending thunder tribulation pillar and gently slashed with his saber.

“Heavenly Moon Saber!”

Boom!!! Ye Tian’s strike split the thunder tribulation, even creating a large hole in the thunder tribulation cloud.

Wow!!! The thunder tribulation cloud dispersed, signifying Ye Tian’s successful passage through the thunder tribulation! At the same time, Ye Tian’s state recovered at an incredible speed, and the power within his body grew rapidly.

“Time to stabilize my realm!”

Ye Tian closed his eyes and began to regulate his breath, stabilizing his Galaxy-level realm.

Time passed slowly, and in the blink of an eye, a year had gone by.

A year later.

Ye Tian opened his eyes, having not only fully stabilized his realm but also organized the Ancient Chaos Realm. Otherwise, the recently transformed Ancient Chaos Realm would be chaotic, hindering future cultivation.

“It’s time to return!” Ye Tian muttered.

Immediately, he boarded his spaceship and left, returning to Holy Domain’s Tianlan Giant City.

As soon as he returned, he announced to the outside world that he had advanced to the Galaxy level.

With this news, the reputation of the Tian Pavilion soared.

After all, the Tian Pavilion now not only had Ye Tian, a Galaxy-level boss, but also multiple Planetary System-level members.

Moreover, Ye Tian, this Galaxy-level figure, was more powerful than typical Universal Gods, making him far from an ordinary Galaxy-level being. It could be said that the Tian Pavilion's status was now equivalent to that of a star field's dominant force. In Tianlan Giant City, it was no longer a minor power but a medium force.

As the Tian Pavilion's reputation grew, many people chose to join, making the Tian Pavilion increasingly prosperous.

In the third year after Ye Tian's return, a piece of news reached him.

“Tianlan Giant City Powers Gathering.”

Ye Tian looked at the invitation and remained silent.

Chapter 689: Challenging the Elders

This invitation came from the Gaohe Merchant Association, the second-largest force in Tianlan Giant City. It was not just an invitation but also a message, signaling that the Tian Pavilion had officially caught the attention of the major powers in Tianlan Giant City.

Although Ye Tian didn't know much about Tianlan Giant City, he was aware of some secrets. Tianlan Giant City boasted numerous forces, including hegemonic and dominator-level powers.

For instance, the top ten forces in Tianlan Giant City generally had dominators stationed there. Although these dominators might not always be present in Tianlan Giant City, the forces they established there were still considered dominator-level.

The leading force in Tianlan Giant City was naturally the City Lord's Mansion, but the City Lord's Mansion didn't involve itself in the disputes among the various forces. Gaohe Merchant Association, on the other hand, was the second-largest dominator-level force in Tianlan Giant City and had significant influence.

Additionally, the top ten forces in Tianlan Giant City had formed an alliance primarily to distribute business and resources within the city. Weaker forces found it very difficult to survive in Tianlan Giant City.

If not for Ye Tian's initial status and identity, the Tian Pavilion wouldn't have been able to survive in Tianlan Giant City.

Now, although the Tian Pavilion had grown, it was still difficult to obtain resources in Tianlan Giant City. They often had to acquire resources from outside, but getting high-level resources was very challenging. Without access to the high-end market, the Tian Pavilion couldn't develop further.

Previously, the Tian Pavilion couldn't enter the circle of major forces in Tianlan Giant City, making it hard to access high-level resources and further develop.

Ye Tian couldn't support an entire force by himself. If he did, the Tian Pavilion would become a burden rather than an asset. Now that the Tianlan Giant City alliance had invited the Tian Pavilion, it meant they could officially participate and enter this circle.

"This alliance is essential. Although Tianlan Giant City can't compare to the Holy City, it's still one of the top giant cities in the Holy Domain. Establishing a foothold here is the first step to growing the Tian Pavilion, ultimately matching the nine supreme forces!" Ye Tian murmured.

Thus, this alliance marked the beginning of the Tian Pavilion's rise, though challenges were expected.

"This invitation appears to be an offer to join the resource distribution and territory division, but it might also be a way to test the Tian Pavilion," Ye Tian thought.

However, he wasn't worried at all. Immediately, he called his wife, Xiao Yue, and his sister, Ye Yu.

Now, Xiao Yue and Ye Yu had both reached the peak of the Planetary System level, with combat power comparable to strong Galaxy level warriors.

Then, Ye Tian summoned a few elders at the Planetary System level and informed them about the upcoming alliance meeting, planning to take them along.

A few days later, the alliance meeting was about to begin.

Ye Tian led the Tian Pavilion's members to a large pavilion belonging to the Gaohe Merchant Association, where the meeting would be held.

This time, over a hundred forces participated in the alliance meeting. Although the Tian Pavilion was among the lesser-known, Ye Tian's presence drew attention.

After all, Ye Tian's reputation as the universe's top genius was enormous. Despite not having many battle records, each one he had was sensational.

Entering the alliance pavilion, Ye Tian and his group stepped into an internal void space.

In this void space, there were floating stone platforms, each large enough to serve as a temporary base for a participating force. The attending forces would settle on these platforms.

Ye Tian and his group were assigned to one of the platforms. It wasn't the most prominent, but the location was decent.

Soon, members from other forces arrived one by one.

Here, Galaxy-level warriors were common, and occasionally, even Universal Gods could be seen.

Ye Tian didn't know these people, as he rarely interacted with cultivators from Tianlan Giant City. However, his sister, Ye Yu, recognized many of them, having gathered information on these individuals even if she hadn't met them before.

Thus, Ye Yu continuously transmitted information to Ye Tian about these people.

Ye Tian wasn't interested in most of the people here, but a few caught his attention.

“Brother, that Universal God is the third-ranking member of the Gaohe Merchant Association—Divine Lord Tong Luo. His weapon is a large hammer, and his strength is formidable, ranking among the top ten Universal Gods in Tianlan Giant City!”

“That person is Baili Jian, the Sword Master of the Ten Light Sword Sect, a remarkably powerful Universal God, not weaker than Divine Lord Tong Luo. The Ten Light Sword Sect was a force in Tianlan Giant City long ago, but their headquarters have since moved. This branch still qualifies to participate in the alliance, with Baili Jian currently in charge,” Ye Yu continued.

“And that woman over there is the proprietress of Plum Blossom Tower, Divine Lord Mei Hua, another formidable Universal God. It’s said she’s a master of illusions. Without specific countermeasures, even Universal Gods much stronger in combat power could lose to her. She’s a very fearsome and tricky opponent.”

Ye Yu provided basic information on these Universal Gods, though some were unfamiliar even to her. There was no need to introduce the more ordinary Universal Gods.

Soon, all the forces had arrived.

At that moment, Divine Lord Tong Luo of the Gaohe Merchant Association stood up and said, “Everyone, the alliance meeting is about to begin. First, I need to announce that due to violating certain agreements, the Sanhua Palace was wiped out by a significant figure and has thus been expelled from the alliance. However, we have a new member joining us today—the Tian Pavilion!”

Immediately, many powerful figures turned their gaze towards Ye Tian.

Just then, Baili Jian of the Ten Light Sword Sect spoke up, “Isn’t it a bit presumptuous for the Tian Pavilion to join the alliance? As far as I remember, the requirement to join is ten top-tier Galaxy-level warriors or one Universal God. For Planetary System level forces, at least dozens of Planetary System level members are needed. From what I know, the Tian Pavilion has many ordinary God-level members and even some cultivators who haven’t reached god level. They only have about ten Planetary System level members, and just one Galaxy-level warrior, True Lord of Ten Thousand Laws. Is such a force really necessary in the alliance? While this was decided by the Gaohe Merchant Association and many other forces voted in favor, the Ten Light Sword Sect remains unconvinced!”

As soon as Baili Jian finished, other representatives echoed his sentiment, “Indeed, we disagree as well. Forces stronger than the Tian Pavilion are still waiting for approval, so what qualifies the Tian Pavilion to join?”

“Because of me,” Ye Tian replied coldly. He didn’t wait for the Gaohe Merchant Association to explain or suppress these forces; he intended to do it himself, ensuring other forces took the Tian Pavilion seriously.

“Baili Jian, you mentioned these conditions, and indeed, the Tian Pavilion doesn’t meet them. But I remember an alliance rule stating that defeating an elder-level force grants eligibility to join the alliance, correct?” Ye Tian asked.

“Correct!” Baili Jian nodded, not denying it.

“Very well. The alliance has ten elder-level forces, correct? I choose to challenge the Ten Light Sword Sect!” Ye Tian said, his gaze fixed on Baili Jian.

“What? You choose to challenge the Ten Light Sword Sect? If you fail, the Tian Pavilion will never be able to join the alliance. True Lord of Ten Thousand Laws, your talent is indeed extraordinary, but think carefully!” Baili Jian advised.

“I understand the rules,” Ye Tian responded. “But if I succeed, the Tian Pavilion will replace the Ten Light Sword Sect as one of the top ten elder-level forces in the Tianlan Giant City Alliance, enjoying all the previous benefits.”

“Very well, I, on behalf of the Ten Light Sword Sect, accept your challenge!” Baili Jian replied angrily.

He didn’t care if it would offend Ye Tian; he was determined to teach Ye Tian a lesson.

Chapter 690: The Official Challenge, Xiao Yue Takes the Stage!

“True Lord of Ten Thousand Laws, shouldn’t we reconsider this matter?”

Divine Lord Tong Luo tried to persuade him. He didn’t want to see such a scene, nor did he want the Tian Pavilion to be defeated and thereby exit the stage of Tianlan Giant City.

After all, even if the Tian Pavilion left Tianlan Giant City, they could still rise elsewhere, though it would delay them for some years. As a member of the Gaohe Merchant Association, Divine Lord Tong Luo hoped to bring Ye Tian and the Tian Pavilion into the ranks of the Tianlan Giant City powers. If Ye Tian became the Supreme of the Human Race in the future, they could gain more influence within the human race. This was also the desired outcome of the Dominator of the Gaohe Merchant Association.

Furthermore, the Gaohe Merchant Association had a good relationship with the City Lord of Tianlan. With the City Lord's support, they had grown to become the second largest power in Tianlan Giant City. The Gaohe Merchant Association also learned about Ye Tian's situation from the City Lord of Tianlan, which was why they were so eager to associate with Ye Tian.

While other forces knew Ye Tian was formidable and the most powerful prince of the contemporary human race, they merely regarded him as an ordinary Supreme-level prince. They believed Ye Tian had the potential to become a Supreme in the future, but that future seemed far off.

It was impossible for them to be intimidated just because a genius had the potential to become a Supreme. If the competition for power within the human race was based on talent alone rather than strength, there would be no need for the various human factions to compete at all. Some people would try to curry favor with geniuses, but others would not.

The Ten Light Sword Sect did not try to curry favor with Ye Tian and disliked seeing the Tian Pavilion rise. If the Tian Pavilion did rise, the Ten Light Sword Sect's future interests in Tianlan Giant City would inevitably diminish. Unlike other forces, which had largely stalled in their development and were not significantly impacted by resource fluctuations, the Ten Light Sword Sect was rapidly developing. Otherwise, they wouldn't have relocated their headquarters.

Currently, even a branch of the Ten Light Sword Sect in Tianlan Giant City ranked among the top forces there. Considering the overall strength of the entire Ten Light Sword Sect, they could absolutely rival the City Lord's mansion of Tianlan Giant City.

Now, the entire Ten Light Sword Sect was a high-tier Dominator-level force, boasting several Dominators. It was not without hope of advancing to a Supreme-level force in the future. Therefore, the Ten Light Sword Sect was now in the process of cultivating a Supreme, albeit with slim chances. They were still making the effort.

In addition, they were also striving to cultivate other disciples, resulting in an astronomical consumption of resources. Tianlan Giant City was an important resource point for the Ten Light Sword Sect. They had to suppress new forces to secure enough resources.

The Tian Pavilion wanted to join the Tianlan Giant City Powers Gathering, but the Ten Light Sword Sect naturally opposed this and was not afraid of offending Ye Tian.

"Divine Lord Tong Luo, there's no need to persuade further. I have a plan!" Ye Tian said with a smile.

Seeing this, Divine Lord Tong Luo waved his hand and sighed, giving up on persuasion. The Gaohe Merchant Association, being just one member of the assembly, could not decide the entire assembly's actions and thus could not prevent the Tian Pavilion from challenging the Ten Light Sword Sect!

"If the Tian Pavilion loses, they will never be able to join the Tianlan Giant City Powers Gathering. The chairman will definitely blame me for not handling the matter well!" Divine Lord Tong Luo thought helplessly.

Soon, the various forces cleared an area for the Tian Pavilion and the Ten Light Sword Sect to challenge each other.

Sword Master Baili announced, "According to the challenge rules, both sides need to send out one Great God-level, one Planetary System-level, and one Galaxy-level warrior to fight. Each victory counts as one point, and the most important is the leaders' battle, worth six points. If it ends in a draw, each side gets three points. The winner will be determined by the total score. True Lord of Ten Thousand Laws, you may call your Great God-level warrior. As for the Galaxy-level, you, True Lord of Ten Thousand Laws, will have to fight personally since your Tian Pavilion only has one Galaxy-level warrior."

Sword Master Baili's words were full of provocation, which made Ye Yu, standing nearby, very angry.

"Brother, let me handle the Planetary System-level fight. I want to crush the Ten Light Sword Sect's arrogance!" Ye Yu quickly said.

"No, let your sister-in-law take the Planetary System-level fight. Her strength is superior to yours. Besides, the Tian Pavilion needs to showcase its strength to intimidate the enemies, and your strength isn't enough to do that," Ye Tian replied.

"Alright," Ye Yu nodded. In terms of strength, she was indeed inferior to Xiao Yue. Xiao Yue frequently benefited from Ye Tian, and her strength had grown far beyond Ye Yu's.

Of course, she did not envy her sister-in-law because Ye Tian also gave her many benefits and opportunities. In terms of combat talent and potential, she was truly no match for Xiao Yue.

“But Brother, our Tian Pavilion doesn’t seem to have anyone particularly powerful at the Great God level,” Ye Yu frowned.

She was well aware that the Ten Light Sword Sect, as an established Dominator-level force, could very well cultivate a Child of the Universe. Perhaps this generation might even have a Great God-level expert at that tier. Of course, it was unlikely to be someone on par with the Supreme Hall of Humanity’s Heaven-level prince. However, even the most ordinary Child of the Universe would be beyond the reach of the Tian Pavilion’s Great God-level members.

“It doesn’t matter. Consider the Great God-level battle a loss; the real deciding factor is the leaders’ battle. The Great God, Planetary System, and Galaxy levels merely showcase the strength of both sides’ disciples. Moreover, the Ten Light Sword Sect in Tianlan Giant City is just a branch, so it’s unlikely they’ll field an overly powerful Great God. As long as our Great God-level doesn’t lose too badly, it’s fine,” Ye Tian said.

“Alright, I’ll call Feng Zhi over. Her talent is exceptional, and her combat power is the highest among the Tian Pavilion’s Great Gods. She was once a top-tier Nine-Star Heavenly Pride, just one step away from being a Child of the Universe,” Ye Yu said.

“That will do,” Ye Tian nodded.

Before long, Feng Zhi from the Tian Pavilion arrived, and a Great God from the Ten Light Sword Sect also appeared.

“Not a Child of the Universe,” Ye Tian immediately discerned the Ten Light Sword Sect’s Great God’s status. However, in terms of aura, the Ten Light Sword Sect’s Great God was much stronger than Feng Zhi. This wasn’t because their potential or talent was greater, but rather due to their longer cultivation period and deeper accumulation. Feng Zhi simply lacked the same depth of experience.

As expected, after exchanging several dozen moves, Feng Zhi was defeated by the Ten Light Sword Sect’s Great God.

“Pavilion Master, Vice Pavilion Master, I’ve disgraced the Tian Pavilion,” said the injured Feng Zhi, feeling ashamed.

“You did well. You just need more time to cultivate. In the future, you’ll surely surpass your opponent,” Ye Tian encouraged her.

“Thank you for your reassurance, Pavilion Master. Feng Zhi will continue to work hard!” Feng Zhi said with determination.

Meanwhile, a Galaxy-level expert from the Ten Light Sword Sect communicated with Sword Master Baili, “Lord Baili, the Tian Pavilion’s foundation is too weak. They can’t field strong Great God or Planetary System-level fighters. Although the True Lord of Ten Thousand Laws is formidable at the Galaxy level, our Ten Light Sword Sect can’t match him there. But at the Planetary System level, we can easily crush them. Whom should we send for the Planetary System level? What are your instructions?”

“Send out the branch’s First Sword Disciple. Make sure to defeat the Tian Pavilion’s Planetary System-level fighter decisively. The Tian Pavilion’s Planetary System-level members haven’t cultivated for long. This should be an easy task,” Sword Master Baili replied.

“Lord Baili, if the First Sword Disciple takes the field, it will undoubtedly be easy. He once reached the level of a Half-Step Child of the Universe. If not for a slight deficiency in destiny, he could have become a full-fledged Child of the Universe,” the Galaxy-level expert said.

With a thunderous boom, the Ten Light Sword Sect’s First Sword Disciple appeared on the temporary arena, while the Tian Pavilion sent out Xiao Yue. All the major forces knew Xiao Yue’s background and were stunned to see her take the stage.

“The True Lord of Ten Thousand Laws’ wife is fighting? Isn’t he worried about her safety?”

“Haha, the True Lord of Ten Thousand Laws possesses time and space talents. If something happens, he can intervene in time.”

“Hahaha, that’s true!”

“Who do you think will win?”

“Is that even a question? It has to be the Ten Light Sword Sect. Their First Sword Disciple, Han Guang Sword Lord, ranks among the top three Planetary System-level experts even at the main sect.”

The crowd discussed fervently, and no one believed in Xiao Yue's chances. Meanwhile, Ye Tian kept smiling, entirely unconcerned about his wife. Only he knew Xiao Yue's current combat strength. Han Guang Sword Lord was definitely not a match for Xiao Yue!
