

## Talent 691

### Chapter 691: The Mighty Xiao Yue, One Move Victory!

“When Yue’er was at the Emperor level, she neither became a Child of the Universe nor one of the Nine-Star peerless Heavenly Prides. However, after Yue’er reached the God level, I repeatedly used my Seizure and Bestowal ability to grant her many powerful talents. Coupled with the numerous secret techniques and resources I bestowed upon her, Yue’er’s combat strength is certainly not inferior to an ordinary Child of the Universe!” Ye Tian thought to himself.

Being a Child of the Universe did not necessarily make one stronger than a Heavenly Pride. In the realms from Emperor to Great God, a Child of the Universe, protected by the universe, could break through the limits of combat power. It was indeed difficult for strong individuals, who advanced through the Heavenly Pride rank, to defeat a Child of the Universe.

However, once reaching the Planetary System level, the title of Child of the Universe vanished, and Heavenly Pride level individuals had the potential to defeat them.

In Ye Tian’s eyes, Yue’er possessed the strength to defeat a Child of the Universe.

On the stage.

Xiao Yue and Han Guang Sword Lord stood on opposite sides. Han Guang Sword Lord held a Longsword that emitted a chilling light, its terrifying aura bursting forth, shaking the entire venue.

“Han Guang Sword Lord is so powerful!” Someone exclaimed in awe.

At this moment, Xiao Yue also revealed her weapon.

Boom! A set of Origin Divine Armor appeared on Xiao Yue’s body. In her hand, there was an Origin Divine Longsword. On her feet were a pair of Origin Divine Boots, and on her head appeared an Origin Divine Helmet. Above her head floated a green lotus, another piece of Origin Divine equipment, an augmentation type Origin Divine Artifact.

“So many Origin Divine Artifacts!!!”

Han Guang Sword Lord was also stunned.

It was known that even at his level, obtaining a single Origin Divine Artifact was extremely difficult. If not for his unparalleled combat power, he wouldn't have gotten an Origin Divine Longsword.

But now, Xiao Yue had so many Origin Divine Artifacts, and their quality far surpassed his.

“All of them are top-grade Origin Divine Artifacts, while mine are just ordinary!”

Han Guang Sword Lord was envious, but he did not show any worry.

After all, although Origin Divine Artifacts could amplify combat power, they couldn't do so excessively. The real reliance was still one's own combat strength.

At this moment, everyone present was shocked by Xiao Yue's equipment, each marveling at the wealth of the Tian Pavilion.

Even the Universal Gods were somewhat envious. Although they had several Origin Divine Artifacts, their quality didn't match Xiao Yue's.

However, they also understood well that Xiao Yue and the Tian Pavilion couldn't obtain such Origin Divine Artifacts on their own; they must have been given by Ye Tian.

“Yue'er, don't hold back, unleash your full strength!” Ye Tian transmitted his voice.

“Husband, Yue'er understands!” Xiao Yue nodded.

Soon, the battle began.

In the first moment, Xiao Yue activated her Time Talent and Space Talent, both reaching the Mystic level.

Mystic level Time Talent and Space Talent were already sufficient for Xiao Yue to use. Ye Tian could elevate Xiao Yue's Time Talent and Space Talent to the God level, but there was no need; it would be too conspicuous and not a good thing.

If Ye Tian were at the Supreme level, he could do so, but as he was now only at the Galaxy level, he couldn't be so ostentatious.

Xiao Yue not only possessed Mystic level Time Talent and Space Talent but had also mastered a Time Divine Ability and a Space Divine Ability, both with immense power!

"Time Divine Ability – Thought Freeze!"

"Space Divine Ability – Three Realms Prison!"

Boom! In an instant, Han Guang Sword Lord's thoughts were frozen by the Time Divine Ability. Although he could still sense the outside world and perceive Xiao Yue's actions, his thinking speed couldn't keep up.

Moreover, the Three Realms Prison suppressed Han Guang Sword Lord's body, making it difficult for him to move.

The next moment.

Xiao Yue, holding the top-grade Origin Divine Longsword, slashed out. Although this strike didn't reach the level of a Sword Dao Ultimate Technique, it was an unparalleled sword technique. Combined with the amplification of the Origin Divine Artifact, it was comparable to a weaker Sword Dao Ultimate Technique.

As the sword slashed out, Han Guang Sword Lord's face showed a look of despair.

He knew he couldn't block it and would be killed instantly. But with his thoughts frozen and his body suppressed by the Space Divine Ability, he couldn't dodge or resist.

"Save me...."

Han Guang Sword Lord called out to Sword Master Baili for help, managing to shout a single word.

As a Universal God, Sword Master Baili understood that Han Guang Sword Lord couldn't withstand this strike, so he immediately intervened, taking him off the stage in an instant.

Boom! Xiao Yue's sword strike hit empty air, but she smiled because she had won.

"Sword Master Baili, what is the meaning of this?" Ye Tian questioned.

"We concede this match!" Sword Master Baili declared on behalf of Han Guang Sword Lord.

"Since the Ten Light Sword Sect concedes this match, Yue'er, come back," Ye Tian said.

"Yes!" Xiao Yue returned to Ye Tian's side.

At this moment, no one in the audience underestimated Xiao Yue anymore. It was evident that even without those Origin Divine Artifacts, her combat strength was superior to Han Guang Sword Lord's.

"I didn't expect the wife of the True Lord of Ten Thousand Laws to possess both Time Talent and Space Talent. It's truly astonishing!"

"Having Time Talent and Space Talent isn't rare, but having Mystic level Time Talent and Space Talent is incredibly rare. These talents allow one to cultivate Time and Space Divine Abilities, which are immensely powerful!"

"We always thought that aside from the True Lord of Ten Thousand Laws, the Tian Pavilion had no other geniuses. It seems we underestimated them!"

The Planetary System level matches concluded, and next were the Galaxy level matches.

The Ten Light Sword Sect knew they had no chance of winning at the Galaxy level, so they sent a top-tier Galaxy level deacon to the stage.

On the Tian Pavilion's side, Ye Tian naturally took the stage himself.

“Ten Light Sword Sect, Yuan Guang True Monarch!”

“Tian Pavilion, True Lord of Ten Thousand Laws!”

After exchanging names, the battle began.

Ye Tian didn't waste any time. With a wave of his hand, he suppressed Yuan Guang True Monarch with his aura, rendering him immobile and forcing him step by step off the stage.

Ye Tian won the match effortlessly.

This result surprised no one. Ye Tian was too extraordinary. If he couldn't handle a Galaxy level opponent, it would have been highly unusual.

With two wins out of three matches, the Tian Pavilion led by one point against the Ten Light Sword Sect.

However, the decisive battle was still between Ye Tian and Sword Master Baili. The true victory would be determined by their duel.

“True Lord of Ten Thousand Laws, do you need to prepare? If not, we can start the match now!” Sword Master Baili asked confidently.

“No need to prepare, let's begin!” Ye Tian replied, teleporting to the stage. Sword Master Baili also flew to the stage.

Judging by cultivation, Ye Tian hadn't even reached the peak of the Galaxy level; he had only recently broken through and stabilized at the third stage of the Galaxy level.

Although it wasn't difficult for him to advance from the first stage to the ninth, it would take some time. At the third stage, he was at a disadvantage against Sword Master Baili.

Sword Master Baili was at the peak of the Universal God level, with formidable combat strength. He had once been an ordinary Child of the Universe, albeit one of the weakest. Nevertheless, he could still crush countless Universal Gods and ranked among the top ten Universal Gods in Tianlan Giant City.

Many believed that while Ye Tian could fight above his level, he could only contend with some strong Universal Gods, not match someone like Sword Master Baili.

But they could never truly know Ye Tian's combat power. Ye Tian could kill Sword Master Baili with one move, but he wouldn't reveal his true strength this time.

"Showing a small part of my power will suffice, allowing others to underestimate me and avoid unnecessary trouble," Ye Tian thought.

In a flash, the duel began!

Chapter 692: Defeating Sword Master Baili! The Rise of the Tian Pavilion!

"One move to defeat you!"

Sword Master Baili shouted, unleashing a powerful sword strike. This strike was the culmination of his swordsmanship, a technique he had honed over many years of dedication. Though it was a rather ordinary ultimate sword technique, it was formidable for any Universal God.

Not everyone was a Peak Child of the Universe or a Supreme Child of the Universe. Creating an ultimate technique with ease was no simple feat.

Facing Baili's strike, Ye Tian didn't even draw his saber. He met the attack with a single palm strike.

"Six Paths Chaos Palm!"

With a thunderous roar, the terrifying force of Ye Tian's palm shattered Baili's sword light and sent Baili himself flying. Though not injured, Baili looked rather disheveled.

In contrast, Ye Tian stood firm, exuding an air of calm and ease.

“What!!!”

Everyone present was stunned. They had expected Baili to defeat Ye Tian with one move, but to their shock, Ye Tian effortlessly repelled Baili.

Though the outcome of the battle was still undecided, Ye Tian clearly had the upper hand in that initial clash.

“True Lord of Ten Thousand Laws, you are indeed formidable. I underestimated you, but your cultivation level is far beneath mine. No matter how skilled you are, you cannot defeat me!”

Baili declared, though his voice, despite its volume, lacked confidence.

Clearly, Baili’s initial self-assurance had been shaken. Ye Tian’s palm strike had not only knocked him back but had also shattered his confidence.

“Fury Armor!”

“Baili Divine Sword!”

With a roar, two Origin Artifacts appeared, amplifying Baili’s aura.

Next, Baili harnessed the power of his microcosm, a cosmic shadow appearing behind him.

“Slash!”

Baili attacked again, this time with full force, his assault far stronger than before.

Ye Tian feigned a serious expression and drew his Origin Artifact long saber, performing the peak-level saber technique, Heavenly Moon Saber.

He refrained from fully unleashing his physical strength and celestial force, as he didn’t want to kill Baili outright.

Since this was a show, he intended to make it convincing.

Boom! The collision between the two generated immense shockwaves. If not for the spatial stability enforced by numerous divine formations and the arena's energy containment effect, the place would have collapsed and been annihilated.

Ye Tian continuously suppressed Baili in their exchanges but refrained from causing him significant harm.

Suddenly.

Ye Tian used his spatial divine ability the Spear of Hellish Void without deploying its minor achievement. He only utilized the entry-level Spear of Hellish Void, controlling its power to avoid killing Baili.

Boom! The Spear of Hellish Void struck and injured Baili. Ye Tian then used temporal power to further hinder Baili, all while relentlessly attacking with his saber techniques.

Under Ye Tian's relentless barrage, Baili eventually reached his limit.

Another strike from the Spear of Hellish Void pierced through Baili. Fortunately, as a Universal God with regenerative abilities, he survived, though severely wounded and utterly incapable of continuing the fight.

"True Lord of Ten Thousand Laws, I concede!"

Dragging his heavily injured and nearly lifeless body, Baili admitted defeat.

At that moment.

The various factions were utterly stunned, including Divine Lord Tong Luo of the Gaohe Merchant Association.

To be honest, Divine Lord Tong Luo had never believed that Ye Tian could defeat Sword Master Baili. It wasn't that he doubted Ye Tian's strength, but in his understanding, no one could challenge a peak Universal God like Baili, who was once a Child of the Universe, while only being at the third stage of the Galaxy level.

This was simply impossible! This perspective stemmed from Divine Lord Tong Luo's limited view. Even some Universal Gods of the Supreme Hall of Humanity couldn't fathom it, only the Supremes could roughly estimate a portion of Ye Tian's strength.

If they knew that the combat power Ye Tian displayed was just a part of his true strength, they would be absolutely shocked.

"Sword Master Baili, you've lost. The Tian Pavilion has won the challenge against the Ten Light Sword Sect. According to the rules, the Tian Pavilion will replace the Ten Light Sword Sect as one of the ten elder forces of Tianlan Giant City. All the businesses and resource distributions of the Ten Light Sword Sect in Tianlan Giant City will now belong to the Tian Pavilion. Sword Master Baili, do you have any objections?"

Ye Tian asked.

Sword Master Baili, with a look of despair, replied, "No objections!"

He was well aware that upon returning to the headquarters of the Ten Light Sword Sect, he would face severe punishment, and might even need to compensate for the losses.

Thinking of this, he felt a deep sense of hopelessness.

"Do any other factions have objections? If so, you can challenge the Tian Pavilion. I, the True Lord of Ten Thousand Laws, will accept them all!" Ye Tian shouted.

The representatives and leaders of other factions looked at each other, but no one dared to raise any objections.

Ye Tian's strength was too terrifying, surpassing even Sword Master Baili. Among the forces in Tianlan Giant City, without the Dominators, only a few Universal Gods could suppress Ye Tian.

Moreover, Ye Tian was currently only at the third stage of the Galaxy level. If he reached the peak of the Galaxy level and cultivated for a few more years, being invincible below the Dominator realm wouldn't be an exaggeration.

Therefore, they didn't dare to offend Ye Tian and couldn't afford to.

Sword Master Baili and the others from the Ten Light Sword Sect left in shame, unable to stay any longer.

Everyone knew that the Ten Light Sword Sect would soon be forced out of Tianlan Giant City. Without the halo of an elder force and without resource distribution, the Ten Light Sword Sect couldn't remain as a minor power in Tianlan Giant City. Leaving was their only option.

After the Ten Light Sword Sect's departure, Divine Lord Tong Luo of the Gaohe Merchant Association stood up and said, "Let us congratulate the Tian Pavilion on becoming one of the ten elder forces of Tianlan Giant City. Now, let's discuss how to distribute the resources and territories of Tianlan Giant City!"

The meeting lasted three days and nights. Some factions even used force to negotiate resource distribution, but the Tian Pavilion found it relatively easy, facing almost no further disputes.

The Tian Pavilion wasn't greedy. Even regarding the Ten Light Sword Sect's territories and resources, they only took the core portion, leaving the peripheral resources and territories to other factions.

It wasn't that Ye Tian was magnanimous or afraid to seize all the resources, but the Tian Pavilion lacked manpower.

The foundation of the Tian Pavilion in Tianlan Giant City was too shallow. Accepting all those territories, businesses, and resources would overwhelm their personnel.

Moreover, there was another issue—there were too few strong members in the Tian Pavilion. They didn't dare to recruit many strong individuals hastily due to concerns about loyalty.

Without enough strong members to guard those places, it would be impossible to manage the businesses effectively, leading to potential losses.

Therefore, the Tian Pavilion opted not to accept all the businesses, territories, and resources, instead exchanging them for other benefits, such as policy advantages.

Additionally, Ye Tian planned to gradually intervene in businesses that couldn't be managed, ensuring the steady development of the Tian Pavilion.

In this way, the Tian Pavilion's growth would be genuinely powerful.

After the meeting ended, Ye Tian led his people back to the Tian Pavilion headquarters.

The following tasks involved taking over the territories, businesses, and resources, which took Ye Tian about half a year.

After half a year, Ye Tian finally handed all matters over to his wife, Xiao Yue, and his sister, Ye Yu. He then entered seclusion once again.

This time, he aimed to elevate his cultivation to the ninth stage peak of the Galaxy level and enhance other aspects before emerging from seclusion.

Chapter 693: The Hope of a Top-tier Supreme Treasure!

Ye Tian possessed a high cultivation talent, coupled with a time attribute and abundant resources. Consequently, it didn't take him long—merely twenty years—to advance his cultivation to the pinnacle of the ninth stage of the Galaxy level.

This was achieved while Ye Tian simultaneously cultivated and stabilized his realm, refraining from recklessly advancing his cultivation. Otherwise, he would have already reached the pinnacle of the ninth stage of the Galaxy level.

In addition to advancing his cultivation to the pinnacle of the Galaxy level, Ye Tian also visited the Six Paths Reincarnation Pagoda to inherit the eleventh set of movements for the Eighteen Golden Body Technique, enabling him to cultivate this set.

Moreover, Ye Tian began to cultivate other techniques like the Nether King Secret Manual and the Chaos Golden Desolation Technique.

Ye Tian also needed to comprehend the Chaos Dao, create True Chaos Techniques, and various Chaos Secret Arts. Simultaneously, he required the cultivation of Time Great Divine Abilities, Space Great Divine Abilities, Saber Dao Ultimate Techniques, and more...

Therefore, Ye Tian had many areas to cultivate. Even with his time attribute, he still felt the cultivation speed was too slow.

However, the path of cultivation inherently required persistent faith and spirit to reach its pinnacle.

Time flew by, and a thousand years passed in the blink of an eye.

During these thousand years, the Tian Pavilion developed rapidly, thanks to the resources and territory from the Ten Light Sword Sect and the deterrence of Ye Tian. The rapid development of the Tian Pavilion was inevitable.

Both Ye Yu and his wife Xiao Yue advanced to the Galaxy level, and numerous planetary system level experts emerged. The number of members in the Tian Pavilion increased at least four or five times.

Ye Tian's progress was significant; he not only perfected the eleventh set of movements for the Eighteen Golden Body Technique but also began cultivating the twelfth set.

The Chaos Golden Desolation Technique reached the pinnacle entry-level of the fifth layer under Ye Tian's cultivation. His soul realm reached the pinnacle of the Nether General stage, just a step away from the Nether God stage.

Ye Tian also further refined the True Chaos Technique, creating his strongest True Chaos Technique—Chaos God Demon Form! This technique was not only a True Chaos Technique but also integrated with the Chaos Dao realm. It required the use of the Chaos Sea Form, perfectly executing this True Chaos Technique.

This technique could not only perfectly harness the power of the Chaos Dao but its power also far surpassed other True Chaos Techniques. It was currently Ye Tian's strongest True Chaos Technique.

The Heavenly Moon Saber Ultimate Technique was also modified by Ye Tian. This technique had nearly reached its limit, unable to further improve to the level of the strongest saber ultimate technique.

After all, this technique was initially created when Ye Tian was much weaker and improved step by step. Its potential wasn't strong enough to reach the pinnacle level of a strongest saber ultimate technique.

Therefore, Ye Tian had to fundamentally alter this saber ultimate technique, meaning it would no longer be the Heavenly Moon Saber.

Hence, Ye Tian had to create a new, more powerful saber ultimate technique.

Ye Tian obtained many classics from the nine Supreme-level forces, including numerous saber Dao classics. Additionally, he refined a strand of cosmic origin, deepening his understanding of the Dao of the Saber. Therefore, creating a powerful pinnacle-level saber ultimate technique wasn't difficult for Ye Tian.

For this purpose, Ye Tian secluded himself again to create a brand new saber ultimate technique, which had to integrate with the Chaos Dao. Purely relying on the Dao of the Saber wasn't powerful enough; otherwise, Ye Tian would have chosen the Saber Dao Tome instead of the Chaos Divine Tome back then.

Strictly speaking, the Dao of the Saber was merely a branch evolved from the Chaos Dao, capable of integrating with it. Thus, a saber ultimate technique created this way could reach the pinnacle.

Years passed by.

Ye Tian repeatedly evolved his saber ultimate technique in the cultivation chamber, never giving up despite repeated failures.

Finally, after thirty years, Ye Tian made slow progress in this endeavor, slower than when creating the Chaos God Demon Form. The reason was that he had the assistance of the Chaos Stone Inscription when creating True Chaos Techniques. The Chaos Stone Inscription, a treasure within the Chaos, greatly aided the creation of True Chaos Techniques. However, he lacked such assistance for creating the saber ultimate technique, naturally slowing down the process.

On this day,

Ye Tian looked at a hazy saber qi in the void of the secluded chamber, revealing an excited smile.

“Finally, I’ve succeeded!” Ye Tian murmured to himself.

He had successfully fused the Chaos Dao with the Dao of the Saber, creating an incredibly formidable pinnacle-level saber ultimate technique.

“I’ll call it the Chaos Heaven Saber!”

Then, Ye Tian entered an uninhabited part of the starry sky to test the power of the Chaos Heaven Saber. Its power surpassed the Heavenly Moon Saber by at least threefold and inflicted greater damage on enemies, making recovery difficult. This was because the Chaos Heaven Saber contained the power of the Chaos Dao.

“With my current strength, I should be able to battle some of the weaker Dominators!” Ye Tian judged.

Dominators were exceedingly powerful, most of them were former Children of the Universe, and even the weakest among them had once been nine star Heavenly Prides. Challenging Dominators across levels was extremely difficult. Generally, Universal Gods at the Child of the Universe level could not challenge Dominators. However, Ye Tian, still at the pinnacle of the Galaxy level, now had the strength to challenge Dominators. If this were known, it would surely shock the myriad races of the universe.

As for the three Dominator-level Innate Blood Children in the Tomb of the Ancestral Gods, they were too weak; Ye Tian could almost kill them instantly.

“The Tomb of the Ancestral Gods, perhaps it’s time to revisit it.” Ye Tian pondered.

The Tomb of the Ancestral Gods still held great value for Ye Tian. Previously, he couldn’t simultaneously handle the three Dominator-level Innate Blood Children.

But things were different now. His cultivation had advanced to the pinnacle of the Galaxy level, allowing him to enter the Tomb of the Ancestral Gods again. His combat power had increased manifold, enabling him to easily sweep through the tomb.

All the resources left behind by the fallen cultivators within the Tomb of the Ancestral Gods could be taken by him, along with any other valuable items inside. The tomb, being ownerless, allowed Ye Tian to take everything without worrying about anyone troubling him.

More importantly, he sought the Ancestral God's companion Supreme Treasure. Since discovering the Tomb of the Ancestral Gods, he had returned to search for information and found some details about the Ancestral Gods.

The Ancestral Gods were among the first batch of Innate Deities born from the universe. Most Ancestral Gods possessed companion Supreme Treasures, which, although not as powerful as pinnacle Supreme Treasures, were comparable to top-tier Supreme Treasures.

Above Origin Divine Artifacts were Supreme Treasures, divided into ordinary Supreme Treasures, top-tier Supreme Treasures, and pinnacle Supreme Treasures.

Pinnacle Supreme Treasures were extremely difficult to wield. Even Supremes struggled to unleash the full power of a pinnacle Supreme Treasure. Otherwise, Ye Tian would not have offered the pinnacle Supreme Treasure, the Six Paths Reincarnation Pagoda, to the Supreme Hall of Humanity.

For instance, the Chaos Black Lotus within Ye Tian's body had yet to be fully utilized. He could only use it to resist pressure.

Obtaining a top-tier Supreme Treasure would greatly enhance Ye Tian's strength.

However, top-tier Supreme Treasures were incredibly rare and could drive ordinary Supremes to madness.

Ye Tian did not know where to find a top-tier Supreme Treasure, but the Tomb of the Ancestral Gods might have one.

If the top-tier Supreme Treasure remained with the Silver-Horned Ancestral God after his death, then Ye Tian had a chance to obtain it.

“I must revisit the Tomb of the Ancestral Gods!” Ye Tian thought determinedly.

Chapter 694: Accompanying Supreme Treasure, the Broken Sword!

The Tomb of the Ancestral Gods.

On this day, a figure appeared in front of the Tomb of the Ancestral Gods; that figure was none other than Ye Tian.

“Here again!” Ye Tian murmured.

Entering the Tomb of the Ancestral Gods was not an easy task. At the very least, it required someone at the Dominator level to tear open an entrance, something Ye Tian could not do before.

Now, Ye Tian had reached the peak of the Galaxy level, and his combat power was comparable to that of a Dominator. Entering the Tomb of the Ancestral Gods alone posed no problem for him, otherwise, he wouldn’t have come alone.

Standing before the tombstone of the Ancestral God, Ye Tian summoned his power to act upon the tombstone, attempting to tear open a spatial vortex.

Ye Tian even used his spatial talent!

Boom!!! The tombstone was torn open by Ye Tian, creating a spatial vortex that led into the Tomb of the Ancestral Gods.

“Success!”

Without hesitation, Ye Tian flew directly into the vortex, entering the Tomb of the Ancestral Gods.

Upon entering the Tomb of the Ancestral Gods, Ye Tian surveyed his surroundings. It was silent, with no sign of the Innate Blood Children.

Clearly, the three Dominator-level Innate Blood Children had not stationed their subordinates here.

“It seems those three Dominator-level Innate Blood Children think I wouldn’t come back!” Ye Tian thought to himself.

Last time, he had been extremely cautious, concealing his presence to sneak into the Tomb of the Ancestral Gods. But now, there was no need for such measures.

“Let’s head straight to the Ancestral God Hall of this grave!”

Ye Tian took a step forward, his aura undisguised.

Ye Tian moved quickly, rapidly approaching the Ancestral God Hall.

At this time, some Innate Blood Children naturally rushed over.

These Innate Blood Children, lacking much intelligence, had no idea of Ye Tian’s power and terror. They charged at him headlong.

“Die!”

With a faint word from Ye Tian, an invisible aura crushed these Innate Blood Children.

“Too weak!”

Ye Tian remarked indifferently.

These Innate Blood Children were too weak. Some possessed Galaxy-level strength, but their combat power was inferior to humans at the Planetary System level. For him, a mere wisp of his aura could obliterate them countless times over.

As Ye Tian continued to slaughter these Innate Blood Children, without hiding his presence at all, the three Dominator-level Innate Blood Children in the Ancestral God Hall naturally sensed him.

Ancestral God Hall.

“A familiar aura, it’s that outsider cultivator, he’s come in again. We must kill him!”

One of the Dominator-level Innate Blood Children roared.

“Let’s go, the three of us will surround and kill him together!”

Swish, swish, swish!!! The three Dominator-level Innate Blood Children rushed out of the Ancestral God Hall, no longer guarding it.

Their sole target was to kill Ye Tian.

Soon, the three Dominator-level Innate Blood Children encountered Ye Tian.

“You’ve come!” Ye Tian spoke in a very calm tone.

“Attack!”

The three Dominator-level Innate Blood Children prepared to strike, and Ye Tian acted as well, going all out.

Boom!!!! The Chaos Sea Avatar appeared, enveloping the area.

A terrifying divine demon figure rose from within the Chaos Sea Avatar.

“Chaos Divine Demon Avatar!”

This was Ye Tian’s new True Chaos Technique, the most powerful True Chaos Technique he possessed.

The massive Chaos Divine Demon Avatar charged at the three Dominator-level Innate Blood Children, its terrifying might shaking the Tomb of the Ancestral Gods, causing it to tremble slightly.

“This...”

The three Innate Blood Children were dumbfounded.

In terms of cultivation, Ye Tian was merely at the peak of the Galaxy level, but his combat strength was terrifyingly formidable, far beyond their understanding!

“Escape!”

The three Dominator-level Innate Blood Children were extremely frightened, with no desire to fight.

If struck by the Chaos Divine Demon Avatar, even with the protection of the Tomb of the Ancestral Gods, they would find it difficult to survive.

At that moment, a spear pierced the chest of one of the Dominator-level Innate Blood Children, and the terrifying spatial power instantly shattered the life force of the Dominator-level Innate Blood Child.

The spear, Spear of Hellish Void at the minor achievement, obliterated this Dominator-level Innate Blood Child, annihilating the microcosm within his body.

Ye Tian’s spatial and temporal powers sealed off this area, leaving the remaining two Dominator-level Innate Blood Children no time to escape. They were caught by the hands of the Chaos Divine Demon Avatar.

“Die!” Ye Tian commanded coldly.

Boom!!! The two Dominator-level Innate Blood Children were crushed to death by the Chaos Divine Demon Avatar, like ants.

“Such weak Dominators!” Ye Tian remarked.

Next, Ye Tian spent some time sweeping through the Tomb of the Ancestral Gods, killing all the Innate Blood Children.

Thus, the Tomb of the Ancestral Gods became a true graveyard.

At the sacred site of the Tomb of the Ancestral Gods, the place where the Silver-Horned Ancestral God had died.

Ye Tian arrived here. In the past, he had difficulty approaching the Silver-Horned Ancestral God's corpse, relying on the power of the Chaos Black Lotus to get close. Now, Ye Tian could approach with his own power.

"I hope the Silver-Horned Ancestral God still has top-tier treasures. Don't disappoint me!" Ye Tian thought to himself.

Boom!!! As Ye Tian got closer to the Silver-Horned Ancestral God's corpse, his divine sense continuously scanned the surroundings.

From the outside, there seemed to be nothing valuable on the corpse, but as a Supreme, the Silver-Horned Ancestral God's body likely contained a microcosm. Normally, a Supreme's microcosm wouldn't last long after death, but since the Silver-Horned Ancestral God was buried in the Tomb of the Ancestral Gods, his body and remains were perfectly preserved, making it likely that the microcosm had also been preserved.

If the Silver-Horned Ancestral God had indeed preserved a top-tier treasure, it would most likely be within the microcosm.

Ye Tian stood on the Silver-Horned Ancestral God's corpse, constantly sensing.

Suddenly.

Ye Tian stomped hard, causing a massive ripple on the Silver-Horned Ancestral God's corpse.

In that instant, Ye Tian was pushed back by a Supreme force, but he also detected a faint spatial fluctuation.

"Escape!"

Ye Tian used his low-level Super God time-space talent to capture this spatial fluctuation and followed it.

In a flash! Ye Tian found himself in another void, a chaotic space filled with spatial cracks.

However, this place had unique rules, different from those of the outside world.

Of course, it was still under the governance of universal rules.

“This is a microcosm, but it’s on the verge of breaking. Otherwise, I wouldn’t have been able to enter!” Ye Tian speculated.

This microcosm was vast. As Ye Tian flew, he saw many things, but much had turned to dust with the passage of time, leaving only a few nearly eternal items.

Even a small portion of an Ancestral God’s collection was a great harvest for Ye Tian! Several hours passed.

Suddenly, Ye Tian sensed a strong aura, the aura of a weapon.

“Could it be...”

Ye Tian flew over quickly.

Soon, he saw a broken sword! This broken sword was missing its tip, and the blade was covered in cracks, but its aura far surpassed that of Origin Artifacts.

“A top-tier treasure! No, it’s an accompanying supreme treasure. The blade carries the aura of heaven and earth, birthed by nature rather than forged. It is likely the accompanying supreme treasure of the Silver-Horned Ancestral God.

Unexpectedly, the Silver-Horned Ancestral God’s accompanying supreme treasure was a sword! Unfortunately, I specialize in the Saber Dao, not the Sword Dao. Switching to the Sword Dao now would be a waste of time!” Ye Tian sighed.

However, this didn't mean the sword was useless to him. He could have it reforged into a saber, though its power would be slightly reduced. Given that the accompanying supreme treasure was already damaged, its reforged power would be much stronger than an ordinary supreme treasure but not as powerful as a typical top-tier supreme treasure, making it a pseudo top-tier supreme treasure!

"A pseudo top-tier supreme treasure is perfect for me. If it were a complete top-tier supreme treasure, I wouldn't be able to wield its full power. This is a huge gain!"

Ye Tian eagerly collected the accompanying supreme treasure, the broken sword-turned-saber.

Chapter 695: Heavenly Venerable Blazing Fire! Divine Master of Refinement!

Afterward, Ye Tian found no more valuable treasures in the microcosm inside the Silver-Horned Ancestral God's body. However, there were still many other treasures, providing him with a significant haul.

"Unfortunately, the Silver-Horned Ancestral God only had one accompanying Supreme Treasure and didn't collect other pinnacle treasures," Ye Tian sighed silently.

This did not mean the Silver-Horned Ancestral God was not wealthy; it was just that he existed during the early universe period. At that time, most of the universe's pinnacle treasures had not yet been nurtured. If the Silver-Horned Ancestral God wanted to obtain pinnacle treasures, he could only plunder relics from other cosmic eras. However, those relics were mostly left for future generations. The Silver-Horned Ancestral God, being inherently powerful, couldn't enter those opportunity lands and thus couldn't acquire pinnacle treasures.

Moreover, during the early universe period, the cultivation system had just been born and was not yet prosperous. Even the Silver-Horned Ancestral God couldn't obtain many treasures.

The resources couldn't be preserved forever and naturally vanished over time. Thus, obtaining the Supreme Treasure Broken Sword and some other treasures was already a significant gain for Ye Tian.

"It's time to leave!" Ye Tian decided, no longer lingering in the Silver-Horned Ancestral God's microcosm. He continuously bombarded a spatial crack and then followed the spatial fluctuations to break out of the microcosm, arriving in the outside world.

On the Silver-Horned Ancestral God's corpse, Ye Tian's figure emerged. He then began collecting the Ancestral God's blood from the heart. Although he didn't need the Ancestral God's blood, it might be useful for trading with other Innate Deities in the future. Hence, collecting more Ancestral God's blood was definitely beneficial.

Before long, Ye Tian had gathered all the Ancestral God's blood, amassing a total of 86 blood crystals.

At this point, Ye Tian noticed the Silver-Horned Ancestral God's corpse's aura gradually diminishing, along with its oppressive force. Clearly, having lost all the Ancestral God's blood crystals, the supreme power of the Silver-Horned Ancestral God's corpse had been somewhat depleted, reducing its previous oppressiveness.

Even so, the Tomb of the Ancestral Gods was difficult to destroy, as it was the burial site blessed by the universe's origin. Ye Tian couldn't take the Ancestral God's corpse with him because the universe wouldn't allow it. Taking the Ancestral God's blood was the maximum extent of what was permitted.

Next, Ye Tian visited the Ancestral God's Hall, taking all the resources inside and finding another 14 Ancestral God's blood crystals. Thus, he now possessed 100 Ancestral God's blood crystals, in addition to a large number of resource treasures.

"This Tomb of the Ancestral Gods holds no more value for me; it's time to leave!" Ye Tian flew quickly to the exit, forcibly breaking out and returning to the outside world.

Upon his return, Ye Tian didn't use the Silver-Horned Ancestral God's accompanying Supreme Treasure. This treasure was not yet suitable for him, and even if he refined it, he couldn't fully utilize it since it was a sword, while he needed a saber.

Therefore, he had to find someone to transform this accompanying sword into a perfectly intact saber.

"Who should I ask?" Ye Tian pondered. Ordinary master refiners couldn't handle such a high-level weapon, and even if the transformation seemed simple, it wasn't something just anyone could achieve.

For instance, although Ye Tian possessed refining talent, his lack of experience made it impossible for him to transform this accompanying Supreme Treasure Broken Sword.

Additionally, transforming an accompanying Supreme Treasure required immense cultivation strength. Without strong cultivation as support, the transformation would be unsuccessful, and any forceful attempt would only result in an inferior defective product.

Ye Tian recalled information about the higher-ups of the Human Race and finally identified a target.

“Heavenly Venerable—Heavenly Venerable Blazing Fire!”

Heavenly Venerable Blazing Fire was one of the Heavenly Venerables of the Human Race and an expert in refinement, being one of the three Divine Masters of Refinement within the Human Race. His status surpassed that of typical Heavenly Venerable powerhouses.

Moreover, Heavenly Venerable Blazing Fire was not affiliated with any of the nine Supreme-level forces; he was a lone cultivator with his own dojo—Blazing Fire Heavenly Palace.

Blazing Fire Heavenly Palace was located in the Holy City, and Heavenly Venerable Blazing Fire always stayed there forging weapons. The nine Supreme-level forces frequently interacted with Heavenly Venerable Blazing Fire, often commissioning him to forge weapons.

Given Heavenly Venerable Blazing Fire’s status and strength, ordinary people naturally couldn’t meet him, let alone ask him to forge weapons. Even many powerful Universal Gods didn’t qualify to see Heavenly Venerable Blazing Fire; only some Dominators and Heavenly Venerables of similar levels had the chance to meet him.

“My potential is limitless, and many Supremes have high hopes for me. But rumors say Heavenly Venerable Blazing Fire has a fiery temper and doesn’t like to curry favor. He doesn’t care about status and could even snub Supremes if he’s in a bad mood. 𐄂

If I directly approach him, he probably won’t see me!” Ye Tian pondered.

If he asked Kunwu Supreme for help, it might work. But he couldn’t rely on Kunwu Supreme for everything, especially since this was a personal matter and not a major issue. Asking Kunwu Supreme for help would be somewhat inappropriate. Ye Tian then began collecting information about Heavenly Venerable Blazing Fire.

Half a month later.

Ye Tian, after going through the data on Heavenly Venerable Blazing Fire, finally came up with a plan.

According to his investigation, Heavenly Venerable Blazing Fire had a junior known as Fairy Mingyue. Not only was she very powerful, but her talent in refining was also exceptional, almost inheriting Heavenly Venerable Blazing Fire's skills. Despite only being at the ninth stage peak of the Galaxy level, she could already forge Origin Divine Artifacts.

Of course, Fairy Mingyue's success rate in forging Origin Artifacts was very low, only about ten percent, but her success rate for forging top-tier Divine Artifacts was nearly one hundred percent.

If Fairy Mingyue continued to train, she could potentially forge Supreme Treasures in the future. Only those who could forge Supreme-level weapons could be called Divine Masters of Refinement. Heavenly Venerable Blazing Fire could easily forge ordinary Supreme Treasures and even top-tier Supreme Treasures.

Top-tier Supreme Treasures were the strongest weapons the Human Race could currently forge, as the Strongest Supreme Treasures could only be nurtured by heaven and earth, and human weapon mastery couldn't achieve that.

Although Fairy Mingyue's refining skills were incredibly strong, with the potential to reach Heavenly Venerable Blazing Fire's level, her cultivation talent was unfortunately lacking, being only at the Cosmic level.

The Human Race did have methods to elevate Cosmic level cultivation talents to Universal level, but nothing was ever guaranteed. Heavenly Venerable Blazing Fire once used a treasure to enhance Fairy Mingyue's cultivation talent, which should have had a high success rate, but ultimately, it failed.

The effectiveness of such treasures was best on the first use; subsequent uses were much less effective. Thus, Fairy Mingyue's luck was at its worst, unable to elevate to Universal level, and thus unable to reach the Universal God realm.

Fairy Mingyue was already quite old, though she still appeared young. Without reaching the Universal God level, no amount of life-extending treasures could grant her eternal life.

Therefore, Heavenly Venerable Blazing Fire was deeply troubled, always searching for treasures that could significantly extend lifespan and enhance cultivation talent.

“Hahaha, I just happen to have half a piece of the Heavenly Dao Heart, capable of creating five Chaos-level cultivation talents, with an almost one hundred percent success rate.

The Heavenly Dao Heart is such a rare Supreme Treasure that even the Human Race cannot obtain it. I luckily acquired it from the Void Realm, which gives me absolute leverage to negotiate a trade with Heavenly Venerable Blazing Fire!” Ye Tian declared confidently.

Chapter 696: A Deal with Heavenly Venerable Blazing Fire!

In the Holy City, at the Fire Heavenly Palace.

A Planetary System level cultivator from the Tian Pavilion, True Monarch Wushuang, arrived at the gates of the Fire Heavenly Palace.

“Stop!”

Two peak Galaxy-level guards saw True Monarch Wushuang and immediately blocked his way. “This is the Fire Heavenly Palace. Unauthorized persons are not allowed to enter!”

Clearly, they looked down on True Monarch Wushuang’s mere Planetary System level cultivation. If it were a renowned powerful figure, they would have politely explained the reason for refusal, even if they did not permit entry.

At this moment, True Monarch Wushuang produced a letter. “Respected seniors, I am True Monarch Wushuang from the Tian Pavilion of Tianlan Giant City. By order of our Pavilion Master, the True Lord of Ten Thousand Laws, I am here to deliver a message to Heavenly Venerable Blazing Fire. Please convey this letter for me.”

“The True Lord of Ten Thousand Laws!”

One of the Galaxy-level guards reacted. “Is it the former strongest prince of the Human race, the Prince of Ten Thousand Laws?”

“Indeed!” True Monarch Wushuang nodded affirmatively.

The two guards communicated telepathically for a moment, and then one of them spoke up.

“Alright, we will deliver this letter for you! Hand it over, and you may leave.”

“Thank you, seniors!”

True Monarch Wushuang handed over the letter and then turned to leave.

The two guards immediately delivered the letter inside, without deceiving True Monarch Wushuang. If an ordinary Galaxy-level cultivator had delivered the letter, they would not have bothered sending it to the Fire Heavenly Palace. But Ye Tian’s identity was different. His growth was swift, and his combat power was immense. Even these two long-time Galaxy-level guards had heard of his name.

Moreover, the Human race was much stronger now than in the past, and Ye Tian’s contributions were significant.

Thus, the Fire Heavenly Palace naturally had to give face to Ye Tian.

The letter was delivered, but the specifics were left for Heavenly Venerable Blazing Fire to decide. The guards had no authority over it.

Soon, Heavenly Venerable Blazing Fire received the letter from Ye Tian and read its contents alone in the depths of the Fire Heavenly Palace.

“The True Lord of Ten Thousand Laws wants me to transform an accompanying Supreme Treasure, a broken sword, into a saber!” Heavenly Venerable Blazing Fire frowned.

Although modifying a weapon was easier than forging one, transforming an accompanying Supreme Treasure was very challenging.

While he could forge top-tier Supreme Treasures, he rarely did so due to the time and energy it required, needing long periods of rest afterward.

Moreover, he also needed time for cultivation and handling other matters, making him rarely accept tasks for modifying top-tier Supreme Treasures.

If it were an old friend, he would have agreed immediately, but he had never met Ye Tian, only heard of him. They were not acquainted.

Just as he was about to refuse, he noticed the latter part of the letter.

“The True Lord of Ten Thousand Laws claims to have a method to enhance Mingyue’s cultivation talent. Is this true?”

Heavenly Venerable Blazing Fire found it hard to believe. After all, even he, a Heavenly Venerable, struggled to find a treasure that could enhance Mingyue’s cultivation talent. Mingyue had already failed once and could not afford a second failure.

Without absolute certainty, he would not try again.

The letter did not specify the treasure, suggesting a face-to-face discussion.

After a few moments of hesitation, Heavenly Venerable Blazing Fire made his decision. “Let’s discuss it. If the treasure from the True Lord of Ten Thousand Laws cannot satisfy me, I will not agree!”

With this thought, Heavenly Venerable Blazing Fire sent someone to the Tian Pavilion in Tianlan Giant City to invite Ye Tian to the Fire Heavenly Palace.

In Tianlan Giant City, at the Tian Pavilion.

A Universal God visited the Tian Pavilion, requesting to see Ye Tian.

“Dragonfire Universal God pays respect to the True Lord of Ten Thousand Laws!”

Dragonfire Universal God from the Fire Heavenly Palace greeted respectfully.

As a Universal God, his status far surpassed that of ordinary people, but he dared not show disrespect to Ye Tian. He was well aware of Ye Tian's position and strength.

In terms of power, he was certainly not Ye Tian's match. Regarding status, Ye Tian was highly favored by many supremes and had made great contributions to the Human race. Even after leaving the Supreme Hall of Humanity, his status did not diminish much.

"Dragonfire Universal God, what brings you to the Tian Pavilion?" Ye Tian asked.

He already knew the purpose of Dragonfire Universal God's visit but could not state it outright. He needed Dragonfire Universal God to express it himself.

"True Lord of Ten Thousand Laws, Heavenly Venerable Blazing Fire invites you to the Fire Heavenly Palace to discuss a matter. Heavenly Venerable Blazing Fire said you would understand what it concerns," Dragonfire Universal God relayed faithfully.

"In that case, lead the way!" Ye Tian nodded.

"True Lord of Ten Thousand Laws, please!" Dragonfire Universal God responded promptly.

Ye Tian followed Dragonfire Universal God to the Fire Heavenly Palace in the Holy City. Not long after, he met Heavenly Venerable Blazing Fire.

Previously, Ye Tian had only seen statues and paintings of Heavenly Venerable Blazing Fire; this was his first time meeting him in person.

"Ye Tian greets Heavenly Venerable Blazing Fire!" Ye Tian saluted with the deference of a junior.

"No need for formalities, True Lord of Ten Thousand Laws. Please, have a seat!" Heavenly Venerable Blazing Fire invited.

Ye Tian sat down, and they immediately delved into the main topic.

“True Lord of Ten Thousand Laws, you mentioned in your letter that you have a way to enhance Mingyue’s cultivation talent. Is this true? I must inform you, Mingyue once used a treasure to enhance her cultivation talent, but it failed, making any further attempts exponentially more difficult.

Currently, the Human race possesses treasures that can enhance cultivation talent to the Universal level, but those are useless for Mingyue,” Heavenly Venerable Blazing Fire explained.

“I am aware of that, but the treasure I possess can elevate a person’s cultivation talent to the Chaos level, meaning it can create a Dominator. The success rate of this enhancement is nearly one hundred percent,” Ye Tian replied.

“Really? Such a treasure exists?” Heavenly Venerable Blazing Fire was astounded.

Dominators held an extremely high status among the Human race. Although they were not as rare as Heavenly Venerables and Supremes, those were incredibly rare, taking eons to emerge, while Dominators served as the main combat force in external conflicts for the Human race.

To become a Dominator, one needed a Chaos-level cultivation talent, which was exceedingly rare, often not found in an entire star field.

Ye Tian’s possession of a treasure that could elevate someone to Chaos-level talent was truly shocking. As far as he knew, no Human faction possessed such a treasure.

Of course, this was public information. If someone had privately hoarded such a treasure, he wouldn’t know about it.

“What kind of treasure is it?” Heavenly Venerable Blazing Fire asked, somewhat excitedly.

“The Heavenly Dao Heart! Have you heard of it, Heavenly Venerable Blazing Fire?” Ye Tian asked.

“The Heavenly Dao Heart?” Heavenly Venerable Blazing Fire frowned. “What kind of treasure is that?”

Ye Tian casually produced a small fragment of the Heavenly Dao Heart and handed it to Heavenly Venerable Blazing Fire. “This is a fragment of the Heavenly Dao Heart. You can examine it. With your abilities, you should be able to verify its effects.”

Heavenly Venerable Blazing Fire took the fragment and began to scrutinize it carefully.

After a few minutes, he was overjoyed. “Indeed, the Heavenly Dao Heart can enhance cultivation talent significantly, far exceeding other treasures. However, this fragment is too small to transform a person’s talent!”

“This is just a fragment, far from sufficient for one person. But if you want a full amount for one person, we can make a deal,” Ye Tian proposed.

“Agreed!” Heavenly Venerable Blazing Fire readily accepted.

Chapter 697: Two Conditions!

“True Lord of Ten Thousand Laws, you mentioned in your letter that you wanted me to help you transform an accompanying Supreme Treasure. I agreed to this!” Heavenly Venerable Blazing Fire promised.

“No, that’s not enough!” Ye Tian shook his head. “Having you transform an accompanying Supreme Treasure does indeed require some effort, but it doesn’t equate to the value of a piece of the Heavenly Dao Heart. After all, the Heavenly Dao Heart can elevate a person’s cultivation talent to the Chaos level. This isn’t an ordinary treasure, and for someone like you, who urgently needs such an item, its value is even more precious!”

“What do you want?” Heavenly Venerable Blazing Fire asked.

“First, you must help me transform the accompanying Supreme Treasure with utmost diligence and not just do it perfunctorily. Second, I want Fairy Mingyue to serve in the Tian Pavilion for ten thousand years. Of course, I won’t require her to perform missions or fight, just occasionally forge some weapons. If you agree to these two conditions, I will give you the Heavenly Dao Heart!” Ye Tian stated.

“True Lord of Ten Thousand Laws, you drive a hard bargain!” Heavenly Venerable Blazing Fire remarked.

“Whether you agree or not is up to you,” Ye Tian replied, waiting for his decision.

Heavenly Venerable Blazing Fire frowned. The first condition wasn’t a problem, but the second involved his junior. He understood that Ye Tian’s intention behind the second condition was to develop the Tian Pavilion. If Mingyue joined, not only would it boost the Pavilion’s reputation, but her weapon forging skills would ensure the Pavilion never lacked weapons. Moreover, the Pavilion could also engage in the weapon business, which over ten thousand years would generate astronomical profits.

Furthermore, if Mingyue truly enhanced her cultivation talent, she wouldn’t just be a Galaxy-level weapon forger, but could reach the Universal God level and might even advance to the Supreme Treasure level Divine Master. That would benefit the Pavilion immensely!

“I need to discuss this with Mingyue. Please wait a moment,” Heavenly Venerable Blazing Fire said.

“Alright,” Ye Tian agreed.

Subsequently, an avatar of Heavenly Venerable Blazing Fire descended to a location in the Holy City to meet his junior—Fairy Mingyue.

Fairy Mingyue was in the process of forging an Origin Divine Artifact when she sensed the presence of Heavenly Venerable Blazing Fire and immediately ceased her work.

“Mingyue greets the Ancestor!” she respectfully greeted.

“Mingyue, I found a treasure that can enhance your cultivation talent with almost a hundred percent success rate, elevating it to the Chaos level, enabling you to become a Dominator level powerhouse in the future!” Heavenly Venerable Blazing Fire stated.

“Is that true, Ancestor?” Fairy Mingyue asked excitedly. Her greatest desire was to enhance her cultivation talent and advance to the Universal God level. Repeated disappointments had almost extinguished her hopes of reaching this level. But now, her ancestor brought hope again!

“However,” Heavenly Venerable Blazing Fire frowned, “this treasure is brought by the True Lord of Ten Thousand Laws from the Human Race, the one whose name once shook the entire universe. He proposed two conditions. The first is for me to transform an accompanying Supreme Treasure for

him, which I agreed to. The second is for you to serve in the Tian Pavilion for ten thousand years, specializing in weapon forging. Since this involves your commitment, I wanted to consult with you.”

“Ancestor, I agree!” Fairy Mingyue replied eagerly. “Serving for ten thousand years is nothing for a Universal God or even a Dominator, and I’ve heard of the True Lord of Ten Thousand Laws. Joining his Tian Pavilion can only be beneficial!”

“Very well, I’ll inform him of your decision. Wait for my news,” Heavenly Venerable Blazing Fire said and then disappeared.

Back at the Fiery Heaven Palace, Heavenly Venerable Blazing Fire retracted his avatar and replied, “True Lord of Ten Thousand Laws, my junior, Fairy Mingyue, has agreed. However, I have one condition. She must first refine the Heavenly Dao Heart. If her cultivation talent successfully improves, I will agree to your two conditions.”

“If it fails, I can only agree to transform the accompanying Supreme Treasure for you. If you find that acceptable, then let’s sign the agreement!”

“Agreed!” Ye Tian nodded.

If Fairy Mingyue failed to enhance her cultivation talent by refining the Heavenly Dao Heart, he wouldn’t feel right making her serve in the Tian Pavilion for ten thousand years.

Soon after, Heavenly Venerable Blazing Fire brought Fairy Mingyue to meet Ye Tian. It was Ye Tian’s first time seeing this genius weapon forger.

Fairy Mingyue had a cold demeanor and looked very young, undoubtedly a beauty. However, Ye Tian sensed a trace of lifelessness in her aura.

“As expected, Fairy Mingyue doesn’t have much time left, maybe around ten thousand years of lifespan remaining,” Ye Tian thought. Ten thousand years might seem an incredibly long time to ordinary people, but for a Galaxy-level powerhouse, it wasn’t much. Some of them could spend tens of thousands of years in seclusion at a time. In comparison, ten thousand years was hardly significant.

“Greetings, Fairy Mingyue!”

“Greetings, True Lord of Ten Thousand Laws!”

Ye Tian and Fairy Mingyue exchanged greetings.

Ye Tian then took out a piece of the Heavenly Dao Heart.

“Heavenly Venerable Blazing Fire, this is a piece of the Heavenly Dao Heart. After Fairy Mingyue refines it, her cultivation talent can be elevated to the Chaos level,” Ye Tian explained.

Heavenly Venerable Blazing Fire took the Heavenly Dao Heart and handed it to Fairy Mingyue. “Mingyue, quickly refine the Heavenly Dao Heart!”

“Yes, Ancestor!” Fairy Mingyue took the Heavenly Dao Heart with excitement and began refining it in front of Ye Tian and Heavenly Venerable Blazing Fire.

Time passed—several days went by, and the Heavenly Dao Heart was almost completely refined.

Through his talent copying ability, Ye Tian observed that Fairy Mingyue’s talent had undergone a profound transformation. Previously, she had a Cosmic-level cultivation talent, but now it had surpassed the Universal level, reaching the Chaos level.

However, Ye Tian didn’t say anything immediately, waiting for Fairy Mingyue to announce it herself.

Fairy Mingyue finished her cultivation and opened her eyes, immediately sensing her enhanced talent.

“Ancestor, my cultivation talent has improved; it has reached the Chaos level!” she exclaimed excitedly.

Heavenly Venerable Blazing Fire was equally thrilled. Among his juniors, there were a few Dominators and several Universal Gods, but not many had good forging talents. For those who did not naturally align with forging, their progress was slow even with enhanced talent. However, Fairy

Mingyue had always been inherently suited for forging, making her the most talented forger among his juniors. He naturally wanted to cultivate her potential.

Now that Fairy Mingyue's cultivation talent had improved, he no longer had any concerns.

"Mingyue, for the next ten thousand years, you will stay in the Tian Pavilion. You don't need to worry about the trivial matters here," Heavenly Venerable Blazing Fire instructed.

"Yes, Ancestor!" Fairy Mingyue adjusted her excitement and nodded.

"Greetings, Pavilion Master!" Fairy Mingyue turned to Ye Tian and bowed respectfully, formally joining the Tian Pavilion.

"Fairy Mingyue, no need to be so formal. From now on, you are a member of the Tian Pavilion. You may leave now; I need to discuss something with your ancestor, Heavenly Venerable Blazing Fire," Ye Tian said.

"Understood!" Fairy Mingyue departed.

Ye Tian then took out the broken sword, an accompanying Supreme Treasure, and handed it to Heavenly Venerable Blazing Fire. "Heavenly Venerable Blazing Fire, this is the accompanying Supreme Treasure I need you to transform."

Heavenly Venerable Blazing Fire examined the broken sword and was surprised. "This must have belonged to an ancient Ancestral God."

Chapter 698: The Great Change in the Universe

"That's right, this is the companion supreme treasure of the Silver-Horned Ancestral God from the early universe!" Ye Tian said.

Heavenly Venerable Flame was somewhat surprised and said, "I have heard of the Silver-Horned Ancestral God's reputation. He was one of the top ten powerful Ancestral Gods. I didn't expect you to be so fortunate to obtain his companion supreme treasure.

Nowadays, most of the companion supreme treasures of Ancestral Gods are either in the hands of some Innate Deities or powerful Supremes, or they are buried in the tombs of the Ancestral Gods. It is not easy to obtain a companion supreme treasure of an Ancestral God.

Your companion supreme treasure, the broken sword, is not severely damaged. I am confident I can transform it into a pseudo-top-tier supreme treasure.

However, it will take some time to transform it into a supreme treasure. Come back in a hundred years to retrieve it!”

“Alright!” Ye Tian nodded.

Immediately, Ye Tian left.

When Ye Tian left, he also took Fairy Mingyue with him.

After returning to the Tian Pavilion, Ye Tian introduced Fairy Mingyue to the members of the Tian Pavilion.

When the members of the Tian Pavilion learned that Fairy Mingyue, a renowned refining master and descendant of Heavenly Venerable Flame, had joined the Tian Pavilion, they were all very surprised.

This news gradually spread, causing a sensation outside.

Many forces could not understand why someone of Fairy Mingyue’s status would join the Tian Pavilion. Even if she joined one of the nine supreme forces, she could be an honored guest! The Tian Pavilion had great potential, but who knew how many years it would take to grow! The Tian Pavilion could not help Fairy Mingyue and would only hinder her cultivation.

However, what the outside world did not know was that Fairy Mingyue had already used the Heavenly Dao Heart Wood that she traded with Ye Tian to successfully enhance her cultivation talent. If they knew, they wouldn’t be surprised at all.

If it were them, they would also join the Tian Pavilion without hesitation.

Fairy Mingyue did not reveal the reason. Aside from occasionally helping the Tian Pavilion forge some weapons, she spent the rest of her time in seclusion, preparing to attack the Universal God realm.

Ye Tian also frequently stayed in seclusion. He had many aspects of cultivation to work on, constantly improving his strength, seemingly without end.

In the blink of an eye, a hundred years passed.

On this day, Ye Tian arrived at the Heavenly Flame Palace.

Soon, he met Heavenly Venerable Flame.

“True Lord of Ten Thousand Laws, I have successfully transformed your companion supreme treasure, the broken sword, into a saber!”

Heavenly Venerable Flame brought out the modified weapon.

Ye Tian took the saber and carefully felt it.

Boom! An unimaginable saber aura surged from the saber, as if what he held in his hand was not just a saber, but an entire world of sabers.

“Good saber!” Ye Tian praised.

The level of this saber had reached the top-tier supreme treasure level and was very complete. If not for the fact that the aura of this saber was essentially the same as the previous companion supreme treasure broken sword, he would have suspected that Heavenly Venerable Flame had simply given him a random pseudo-top-tier supreme treasure saber.

This also showed that Heavenly Venerable Flame’s refining skills were too high, almost perfectly matching the abilities of the companion supreme treasure.

“Thank you, Heavenly Venerable Flame!” Ye Tian said gratefully.

With this pseudo-top-tier supreme treasure saber, he could now fully unleash the power of his mixed abilities, making him even stronger than before.

“Don’t mention it. This was a fair trade between us!” Heavenly Venerable Flame replied.

Afterward, Ye Tian left the Heavenly Flame Palace and returned to the Tian Pavilion in the Tianlan Giant City.

In the following years, Ye Tian took on missions from the Divine Blade Alliance to hone himself while simultaneously cultivating to strengthen his power, gradually approaching the limits of the Galaxy level.

During this time, Ye Tian’s capabilities grew rapidly in all aspects. Besides himself, no one knew how terrifying his true combat power was.

In the depths of the central black hole of the universe lay a world of ruins.

Normally, no living beings resided here, and the various races of the universe did not come to this place. However, strong individuals guarded it, with a Heavenly Venerable stationed here every few eras, rotating among the races.

Currently, the one guarding this place was a Heavenly Venerable of the Immortal Race—Heavenly Venerable Minglan! The Heavenly Venerables guarding this area didn’t need to do anything other than ensure nothing unexpected happened and prevent strong individuals from entering.

Besides these duties, they spent their time in seclusion cultivating. Once their term ended, they handed over their duties to another Heavenly Venerable and could then leave.

However, on this day, Heavenly Venerable Minglan was startled awake from his cultivation.

“What is happening?”

He looked at the central black hole in shock, sensing a powerful wave of energy emanating from it.

“Someone has infiltrated inside. No, each race has set up formations here. Sneaking in quietly is unrealistic, and to do so without me noticing would require the most top-tier Supremes. But the top-tier Supremes wouldn’t be so idle!”

Heavenly Venerable Minglan thought to himself.

Boom! The central black hole began to tremble, and a terrifying aura spread out.

At the same time, the universe’s origin also started to shake.

Sensing the danger, Heavenly Venerable Minglan quickly sent out a message.

Just then, a figure emerged from the depths of the central black hole.

Soon, Heavenly Venerable Minglan saw clearly who it was.

This person exuded a terrifying divine power. His eyes were golden, his skin was golden, and he held a long spear, resembling a Supreme War God. “Golden Immortal Race? How could it be? Wasn’t the Golden Immortal Race the strongest race of the last cosmic era?”

Heavenly Venerable Minglan was terrified.

As a high-ranking member of the Immortal Race, he possessed considerable knowledge about the previous cosmic era. For instance, in the last cosmic era, there were several powerful races: the first was the Golden Immortal Race, the second was the Celestial Immortal Race, and the third was the Demigod Race.

The Golden Immortal Race held a status comparable to the current Immortal Race in the universe. However, according to some inherited information, the Golden Immortal Race underwent several evolutions in the later stages of the universe, becoming far more terrifying than the present Immortal Race.

The person before him was evidently a Supreme from the Golden Immortal Race, and the aura emanating from him made Heavenly Venerable Minglan feel utter despair.

“Definitely comparable to the most powerful Divine Lords!”

Heavenly Venerable Minglan was horrified.

Immediately, he attempted to escape.

“Let your death announce our return in this cosmic era!”

The Supreme of the Golden Immortal Race thrust his spear, transcending time and space, piercing through Heavenly Venerable Minglan in a single strike.

In the next moment, Heavenly Venerable Minglan’s body turned to ashes, killed instantly.

Elsewhere in the universe.

An ancient temple appeared in the void, revealing itself as the Primordial Hall.

From within the Primordial Hall emerged ancient figures, their auras encompassing star fields.

Similar occurrences happened in various regions, signaling a massive transformation in the entire universe.

However, Ye Tian remained unaware of all these events.

Ten years later, Ye Tian was summoned by Kunwu Supreme.

Chapter 699: Forces from the Previous Cosmic Era!

Kunwu Pavilion.

Ye Tian arrived here and met the Kunwu Supreme.

However, he saw a grave expression on Kunwu Supreme's face.

Clearly, something significant had happened!

"Ye Tian, you're here!" Kunwu Supreme said.

"Kunwu Supreme, has something major occurred?" Ye Tian asked.

"Yes!" Kunwu Supreme nodded. "Not only has something major happened, but it's an earth-shattering event, even more significant than the last crisis with the Creatures of Destruction!"

"What?" Ye Tian was shocked and quickly asked, "Could it be that the Immortal Race is planning to invade the Human Race?"

"No, it's something that affects the entire universe!" Kunwu Supreme said. "Let me give you a few details first. Ten years ago, a change occurred in the Ruin World. A Heavenly Venerable from the Immortal Race guarding the outside of the Ruin World was killed! From the Ruin World emerged the Golden Immortal Race from the last cosmic era! Shortly thereafter, the Yuan Gu Palace reappeared, and some ancient Supremes appeared. Those who went to investigate were all killed, and even a high-level race was annihilated instantly. That place has now become the territory of the Yuan Gu Palace.

Recently, a change occurred in the Ghost Gate Tower within the Holy City. A Supreme from the Nether King Civilization attempted to break through the Ghost Gate. We managed to suppress them with the help of several Supremes. Had we not stopped them in time, the Human Race would not have been able to withstand them.

Even so, many Supremes' souls were severely injured. Fortunately, you had previously provided the Nether King Secret Manual; otherwise, this time, some Supremes would have perished. We immediately discarded the Ghost Gate. It's said that the Supremes from the Nether King Civilization have emerged from the Ghost Gate and currently occupy a region of the universe."

"This...", Ye Tian was utterly shocked.

"Kunwu Supreme, weren't these Supremes from the last cosmic era, or even multiple cosmic eras ago? Wouldn't they die once the cosmic cataclysm occurred?" Ye Tian asked.

“Yes, when the cosmic cataclysm occurs, Supremes would also die. Only transcendents can survive. But these Supremes have somehow come back to life, though not many of them. They must have had a special method, but it couldn’t revive all Supremes. Otherwise, the number of Supremes from numerous cosmic eras would far exceed those of our current era.

However, the number of Supremes that appeared is not many, which is why the various clans of our universe have not been immediately wiped out.

Besides the Supremes, there are also some cultivation practitioners at the Planetary System level and the Galaxy level. These practitioners possess incredibly terrifying combat power. An invincible Eternal Child of the Universe level practitioner from the Angel Race was instantly killed by one of these Galaxy level practitioners. Subsequently, a Supreme Prince went to challenge them and was also instantly killed.

According to our speculations, that person is likely a Child of the Era!” Kunwu Supreme said.

“What!” Ye Tian was utterly astonished.

It was already incredible that Supremes could survive, but that practitioners at the Planetary System level and Galaxy level could also survive through multiple cosmic eras was beyond belief!

“Kunwu Supreme, we have visited those ruins before. If those people were inside the ruins, why would they give us so many benefits and legacies? Wouldn’t this make our current cosmic era stronger?” Ye Tian asked in confusion.

Kunwu Supreme speculated, “Perhaps by doing so, they made us wary of these ruins and thus we wouldn’t try to destroy them. Otherwise, it might disrupt their plans. We don’t know the full extent of those forces’ foundations. Maybe the benefits they offered were just the tip of the iceberg!”

He continued, “From the current information we have, forces from multiple cosmic eras have appeared. Each force was a dominant power in their respective cosmic era. Besides the appearance of some Supremes, there are also some Children of the Era and Supreme Princes.”

As for the other cultivators, they did not appear and likely perished in the cosmic cataclysm. How these individuals managed to avoid the cosmic cataclysm remains unclear.”

“Kunwu Supreme, is there something you need me to do?” Ye Tian asked.

“Yes, indeed!” Kunwu Supreme replied. “When those forces appeared, although they clashed with the various clans of the universe, a full-scale war has yet to break out. I estimate that those Supremes are still being suppressed; otherwise, the Supremes of our universe would be unable to resist them.

Not long ago, the various clans of the universe, led by the Immortal Race and the Demon Race, held a meeting with those forces in the form of avatars. Those forces stated they wanted to see the geniuses of this universe. They dispatched three Galaxy level cultivators and set up an arena in front of the central black hole of the universe, with territory as the stakes.

If we lose one match, we must cede 100 star fields. If we win one match, they will refrain from attacking the various clans of the universe for a hundred thousand years.”

“This condition is too unfavorable for the various races of the universe. Did the Immortal Race and the Demon Race agree to this?” Ye Tian asked.

“They did!” Kunwu Supreme said. “The first Divine Lord of the Immortal Race and the first Demon Lord of the Demon Race agreed because the first Divine Lord sensed many presences stronger than himself. If they didn’t agree and war broke out, even with the few Supremes among those forces, it would cost countless lives of our Supremes to defeat them, and we might even lose the war!”

“I see,” Ye Tian understood.

Before understanding the enemy’s strength and true intentions, compromising was indeed the better option.

“Ye Tian, the Immortal Race and the Demon Race will each send a Galaxy level expert. For the third spot, the Immortal Race and the Demon Race hope you will participate!” Kunwu Supreme said.

“Do the Immortal Race and the Demon Race want to use the Children of the Era to get rid of me?” Ye Tian sneered.

“That’s not the case!” Kunwu Supreme said. “In the past, the Immortal Race and the Demon Race might not have wanted you to grow, but now that the Children of the Era have appeared, and not

just one or two, the Immortal Race and the Demon Race won't target you. They just hope that our cosmic era can win one match because they know their Galaxy level experts cannot win. They won't send very strong Galaxy level experts and have essentially given up the first two matches, pinning their hopes on you for the final match! Of course, the Immortal Race and the Demon Race have also offered benefits. If you agree to participate, they will allow you to cultivate in the Divine Demon Heaven for ten years."

"The Divine Demon Heaven, what is that?" Ye Tian asked.

Kunwu Supreme explained, "The Divine Demon Heaven is a special world jointly controlled by the Immortal Race and the Demon Race. Cultivating in the Divine Demon Heaven allows one to comprehend the Dao faster. There, you can witness the evolution of the Dao, which can greatly enhance your Chaos Dao realm! Even within the Immortal Race and the Demon Race, very few have entered Divine Demon Heaven. It is special because of a unique energy that accumulates over long periods.

Allowing you to comprehend it for ten years would consume many years of the Divine Demon Heaven's accumulation.

Ye Tian, although the opportunity given by the Immortal Race and the Demon Race is excellent, if you agree, it will be extremely dangerous. No one knows how powerful those Children of the Era are."

"What if I don't agree?" Ye Tian asked.

Kunwu Supreme sighed, "We would lose all three matches, and the various clans of the universe would cede 300 star fields. Our Human Race would likely have to cede one or two star fields since we are not the most powerful cosmic race.

However, if you agree to participate, even if you lose, the Human Race would not need to cede any star fields."

Ye Tian pondered for a moment and then said, "I am willing to participate. I also want to see how powerful those Children of the Era are!"

Chapter 700: Master of the Primordial Era!

Faced with Ye Tian's decision, Kunwu Supreme did not dissuade him.

Before summoning Ye Tian, the numerous Supremes of the human race had convened a meeting to discuss whether Ye Tian should participate or not. They recommended that Ye Tian participate, seeing it as a beneficial move for the human race.

If Ye Tian did not participate, the human race would inevitably have to cede one or two star fields. Losing one or two star fields wasn't a significant issue in itself, but the problem lay in those star fields being occupied by other forces. These terrifying entities nearby would pose a grave threat to the human race.

Moreover, if Ye Tian accepted the duel, he would inadvertently gain the favor of some major cosmic races. After all, Ye Tian was universally recognized as the most powerful genius in the universe, with combat power unmatched at the Galaxy level. Such a genius not participating would almost guarantee their loss. More importantly, Ye Tian couldn't avoid battle forever. Even if he skipped this duel, he would still be challenged by those Children of the Era, eventually forced to fight.

Rather than postponing the inevitable, it was better to participate now. At the very least, it would make the Divine Race and the Demon Race take Ye Tian and the human race seriously, seeing Ye Tian as a potential powerhouse against these forces, which might prompt them to protect the human race.

Otherwise, the human race wouldn't stand a chance against these terrifying Supremes.

"Ye Tian, be careful! This opponent isn't like any of your previous ones. They are Children of the Era, beings surpassing the level of the Child of the Universe.

I know you've reached the level of a Child of the Era, but there are varying strengths among them, and those Children of the Era may have legacies and foundations possibly greater than yours," Kunwu Supreme reminded.

"Kunwu Supreme, I understand," Ye Tian replied.

"Go in three years. Use this time to prepare yourself," said Kunwu Supreme.

"Yes," Ye Tian nodded.

In a blink, three years passed.

In such a short time, it was unrealistic for Ye Tian to make significant progress. He merely honed his combat strength and solidified his foundation.

On this day, Kunwu Supreme took Ye Tian to the center of the universe, where all major cosmic races sent their Supremes. Even if they didn't send fighters, they came to witness this significant event.

The First Divine Lord of the Divine Race and the First Demon Lord of the Demon Race personally arrived to witness this Galaxy-level battle.

Soon, they reached the central black hole of the universe.

“Ye Tian, we’ve arrived,” Kunwu Supreme said.

Ye Tian scanned the surroundings, sensing the presence of powerful auras—these were Supremes.

In the distance, majestic figures appeared, their auras seemingly incompatible with the universe yet integrated within it.

“These must be the Supremes of those forces. They are indeed incredibly powerful, even more so than Kunwu Supreme. However, these Supremes belong to various forces, maintaining some distance from each other, indicating a lack of harmony,” Ye Tian thought.

On closer consideration, it made sense. These forces didn't know each other before; they came from different cosmic eras and only gathered in this era now. They might have formed a temporary alliance without true unity.

This lack of unity was a weakness. If these forces were genuinely united, the various races of this cosmic era would face even greater trouble.

“Twelve forces!”

Ye Tian made a judgment.

From the positions of these Supremes, it appeared there were twelve forces in total. Of course, the ancient Supremes present were not all of them, perhaps only a small portion. But overall, it seemed there were only twelve forces.

“When I was in the Nether King Temple, that artifact spirit mentioned that our universe is currently in its thirteenth era. So, these twelve forces should belong to the twelve eras of the universe, possibly composed of the top Supremes from these eras,” Ye Tian speculated.  $\mathbb{R}$ ◆

Boom!!!! A massive arena appeared in the void, surrounded by thrones, each occupied by a Supreme.

At this moment, a Supreme appeared ahead. He looked like a middle-aged man, with strange patterns on his body and an extremely dark aura. He belonged to one of the twelve forces.

“Allow me to introduce myself. I am the founder of the Ancient Primordial Hall from the First Cosmic Era—Master of the Primordial Era!”

At these words, the entire audience was shocked.

Even Ye Tian was extremely surprised.

He had entered the Ancient Primordial Hall before and had received tremendous fortunes there, such as the True Law of Heaven and Yuan. This supreme secret technique directly pointed to seventh-order life forms. Without such a technique, he wouldn’t have been nearly as strong as he was now.

He had also gained a God-level poison curse talent from the Ancient Primordial Hall, a terrifying talent. One could say that the Ancient Primordial Hall had brought countless benefits to the various races of the universe.

Unexpectedly, the founder, Master of the Primordial Era, had now appeared!

“I can’t sense any aura!” Ye Tian frowned.

He couldn't sense the power of the Master of the Primordial Era, who was clearly deliberately concealing his aura.

"Let's use the copying talent to take a look!" Ye Tian thought.

His current copying talent covered a broad range, so scanning the Master of the Primordial Era wasn't an issue.

Swish! Ye Tian instantly used his copying talent to scan the Master of the Primordial Era.

Immediately, the talents of the Master of the Primordial Era appeared before his eyes.

"What, the Master of the Primordial Era possesses a Super God-level spatial talent!!!" Ye Tian was shocked.

[Space Talent: Super God-level]

In addition to the Super God-level space talent, the Master of the Primordial Era also had a God-level poison curse talent. His other talents were more common, including various God-level and supreme-level talents.

Ye Tian felt very excited! Although he possessed a Super God-level time-space talent, it was a lower-tier Super God-level time-space talent. If he copied this Super God-level spatial talent, his time-space talent would immediately evolve into a true Super God-level time-space talent.

At that point, his combat strength would undergo an unimaginable transformation!

"I came to the right place this time; otherwise, how would I have the chance to come into contact with someone like the Master of the Primordial Era?" Ye Tian thought.

"Copy!"

Ye Tian immediately copied the Super God-level spatial talent of the Master of the Primordial Era, but he didn't fuse with it right away. In front of so many Supremes, fusing with the Super God-level spatial talent would immediately expose him.

“I’ll wait until I return to fuse it!” Ye Tian decided.

Afterward, Ye Tian examined the talents of other Supremes. One of them possessed a Super God-level time talent, but unfortunately, it was of no use to him.

Apart from these two talents, the talent that satisfied Ye Tian the most was the God-level Heart Moment talent! This rare talent, judging by its name, was incredibly unique, so Ye Tian copied it as well, planning to fuse it when he returned.

Having acquired the Super God-level spatial talent and the God-level Heart Moment talent, Ye Tian was in a great mood, waiting patiently for the duel to begin!
