

Talent 721

Chapter 721: Instantly Killing Over a Hundred Supremes!

Outside the Primordial Hall.

The First Divine Lord, Second Divine Lord, and others trembled as they sensed the aura emanating from the Primordial Hall. This aura far exceeded the Supreme level.

“What is that...” The First Divine Lord trembled as he spoke.

“I don’t know. It seems to be the aura of a treasure. Could it be a Chaos Supreme Treasure beyond the strongest supreme treasures?” The First Demon Lord speculated.

The nearly 300 Supremes from the myriad races were terrified, ceasing their attacks. Some Supremes even considered leaving, fearing imminent danger.

At the same time, the power of the Chaos Supreme Treasure, the Essence-Sealing Heavenly Pendant, invaded the cosmic origin space, clashing with the cosmic origin. On an unknown level, the Chaos Supreme Treasure contended with the cosmic origin, forcing the cosmic origin to expend some power to suppress the Essence-Sealing Heavenly Pendant, thus weakening the cosmic origin’s strength.

Due to this influence, the rules of the universe began to weaken, reducing the suppression on the Supremes of the Twelve Cosmic Eras. Consequently, the difficulty of future cultivation for everyone would lessen, and breaking through the limits of the universe would become easier, increasing the Supremes’ chances of transcending.

Inside the Primordial Hall.

The Master of the Primordial Era closed his eyes, feeling the surge of power within him. He clearly felt the universe’s suppression on him gradually disappearing, even vanishing completely.

“I can now unleash my full power!” The Master of the Primordial Era exclaimed excitedly.

Golden Light Supreme and other Supremes also shouted in excitement. With the universe's suppression gone, they could truly unleash their full potential.

At this moment, the Nether King Supreme proposed, "Master of the Primordial Era, now that we can exert enough power, should we kill all those Supremes?"

"No!"

The Master of the Primordial Era shook his head. "We cannot kill all the Supremes of the Thirteenth Universe Epoch. You must understand that Supremes are special. Every Supreme born in the Thirteenth Epoch bears the power of the cosmic origin. They are essentially the embodiments of the cosmic origin's authority in the universe.

If we kill too many Supremes, their power will be reclaimed by the cosmic origin, strengthening it. This would make it difficult for the Essence-Sealing Heavenly Pendant to contend with the cosmic origin.

However, killing a small number of Supremes can intimidate the rest, preventing them from disrupting our future plans!"

"Alright, let's follow the Master of the Primordial Era's plan!"

The other Supremes agreed.

Boom! The doors of the Primordial Hall opened, and the divine formations protecting the area vanished.

Swoosh! Swoosh! Swoosh! A number of Supremes flew out of the Primordial Hall, led by none other than the Master of the Primordial Era.

Seeing the Master of the Primordial Era emerge, the First Divine Lord, First Demon Lord, and other Supremes grew nervous. Although the terrifying aura had dissipated, the unknown situation before them made them feel uneasy.

"First Divine Lord, what should we do? I estimate there will be a battle soon!" The First Demon Lord transmitted his voice.

“A battle it is! We have nearly 300 Supremes here. How many do the Supremes of the Twelve Cosmic Eras have? Even if their combat power is formidable, in a fight, who knows who would suffer more losses! The Master of the Primordial Era and the other Supremes wouldn’t dare fight us; at most, there will be some quarrelling.” The First Divine Lord responded.

“Let’s hope so!” The First Demon Lord thought.

“Supremes of the myriad races, you dare attack here. Do you intend to start a war with us?” The Master of the Primordial Era coldly questioned.

The First Divine Lord stepped forward and shouted, “Master of the Primordial Era, what are you doing here? So many Supremes gathered here, and you’ve set up such divine formations. And that aura from earlier, was it a Chaos Supreme Treasure?”

The Master of the Primordial Era sneered, “First Divine Lord, what do these matters have to do with you? Our agreement only included one clause: we would not attack the myriad races. That doesn’t mean we can’t do other things. You’re overstepping your bounds.”

The First Divine Lord, realizing the futility of arguing, replied, “Then we shall leave now!”

However, as the First Divine Lord and the other Supremes prepared to leave, the Master of the Primordial Era and his Supremes locked onto them with their energy.

“Leave? You attacked our Primordial Hall and now you want to leave? Our agreement stated that we wouldn’t attack you, but you initiated the attack. That doesn’t mean we can’t retaliate. If you want to leave, you’ll have to leave something behind!”

With that, the Master of the Primordial Era made his move.

“Primordial Seal, descend!”

A formidable Primordial Seal descended from the void, suppressing the vast skies. The terrifying power of the seal caused all the Supremes, including the First Divine Lord, to tremble in fear.

“This...”

The First Divine Lord had always considered himself the strongest Supreme in the universe, but now, seeing the Master of the Primordial Era in action, he realized the vast disparity between them.

“Tiangang Battle Technique, First Form!”

“Heavenly God Battle Body!”

The First Divine Lord unleashed his strongest attacks, hoping to counter the Primordial Seal. He didn’t try to escape because the Primordial Seal had locked onto him, making escape impossible.

The First Demon Lord also employed the Tiangang Battle Technique, First Form, joining forces with the First Divine Lord to resist the Primordial Seal.

However, the immense power gap made their efforts futile.

Boom! The overwhelming force swept across the area, instantly crushing the bodies of the First Divine Lord and the First Demon Lord into dust, along with some nearby Supremes who also turned to nothingness.

In just one strike, nearly a hundred Supremes were killed, and hundreds more were injured.

“Escape!”

The remaining Supremes fled in terror, not daring to stay any longer.

“No need to pursue them!” The Master of the Primordial Era ordered.

The other Supremes nodded and refrained from chasing, knowing that with their power, killing all the fleeing Supremes would have been easy.

“Master of the Primordial Era, it seems the First Divine Lord and the First Demon Lord aren’t dead. Their auras still linger in the heavens and earth!” Golden Light Supreme noted.

“That’s right. Although I annihilated them instantly, their souls escaped. They must have used a rare soul-protecting supreme treasure, allowing their souls to reincarnate elsewhere. However, such a supreme treasure can’t be used many times. Forget it, they’re just ants. Whether they live or die doesn’t matter. I am, however, interested in the secret technique they used, which greatly amplified their combat power instantly.” The Master of the Primordial Era remarked.

Golden Light Supreme from the Seventh Universe Epoch said, “Master of the Primordial Era, if I’m not mistaken, the First Divine Lord and the First Demon Lord used the Tiangang Battle Technique, which is the signature combat technique of Heavenly Monarch Yun Tan!”

“Heavenly Monarch Yun Tan, is he the transcendent you mentioned earlier? Did he truly transcend?” The Master of the Primordial Era inquired curiously.

Golden Light Supreme nodded, “Heavenly Monarch Yun Tan was a legendary figure of the Seventh Universe Epoch, a lone cultivator who became invincible in the Seventh Universe Epoch while still a Supreme. Later, he vanished. A world emerged in the Abyss of Destruction, likely his creation, which even Supremes cannot shake. His power surpassed the Supreme level, and given his disappearance, it’s likely he transcended.”

“I envy Heavenly Monarch Yun Tan. But once our plan is fully realized, we too have a chance at transcendence!” The Master of the Primordial Era mused.

“Yes, we too can transcend!” The other Supremes echoed in anticipation.

Chapter 722: Ye Tian’s Plan, the True Talent!

Deep within a magnificent temple, a phantom soul suddenly appeared atop a cyan treasure lotus. This soul was none other than the First Divine Lord of the Immortal Race.

The First Divine Lord opened his eyes, and deep within them lay sheer terror. “What a terrifying Master of the Primordial Era! He killed me in an instant with just one move. If it weren’t for the soul treasure lotus storing my soul and being able to reshape it back into my body in an instant, I would truly be dead!”

With a swish, the First Divine Lord stepped out of the soul treasure lotus, his body slowly regenerating.

In no time, the First Divine Lord had a complete physical body again.

However, he was now extremely weak and would need a long time to recover.

“Send the order: the Immortal Race is to enter a state of alert and be ready for battle at any moment. Also, notify all the other Supremes of the Immortal Race to gather here immediately!” the First Divine Lord commanded.

At the same time, the First Demon Lord of the Demon Race also appeared as a soul deep within the Demon Race’s headquarters. After recovering his body, he convened a meeting, and the Demon Race also entered a state of war readiness.

This incident had truly shocked all the races.

The death of over a hundred Supremes was a minor issue. The real problem was that all the races would completely lose their ruling power.

In the Human Race’s Holy City.

Ye Tian quickly received news about the fall of over a hundred Supremes. Due to the immense impact of this event, even the intelligence network of Tian Pavilion had learned of it.

Additionally, Ye Tian heard about the severe injury of Kunwu Supreme, one of the Human Race’s Supremes.

The only fortunate thing was that no Supremes of the Human Race had fallen.

Immediately, Ye Tian went to Kunwu Pavilion to visit Kunwu Supreme, but Kunwu Supreme did not see him right away as he was in the middle of healing.

Three years later, one of Kunwu Supreme’s avatars met with Ye Tian.

“Kunwu Supreme, how are you?” Ye Tian asked.

Kunwu Supreme sighed, “I won’t die, but this injury won’t heal in a few thousand years.”

“Kunwu Supreme, what exactly happened?” Ye Tian asked in confusion.

Kunwu Supreme revealed his fear, “Honestly, I don’t really know what happened. The Supremes of the Immortal and Demon Races discovered that the Supremes of the Twelve Cosmic Eras were gathering in the Primordial Hall, seemingly for some major event, and informed the Supremes of all races to come. However, we were stopped by the outer divine formation.

Shortly after, an aura similar to a chaos supreme treasure emanated, shaking the universe. Then, the Master of the Primordial Era and the other Supremes came out. The Master of the Primordial Era alone instantly killed over a hundred Supremes, including the First Divine Lord and the First Demon Lord.

But I heard that the First Divine Lord and the First Demon Lord reappeared in the Immortal and Demon Races, seemingly surviving through some special secret technique. However, the fall of those over a hundred Supremes and the severe injuries of several hundred more. I was lucky to be a bit further away; otherwise, I wouldn’t have survived either.”

“What? How could this happen?” Ye Tian was shocked.

Kunwu Supreme said, “I speculate that those Supremes of the Twelve Cosmic Eras have likely shed the universe’s suppression and can now wield immense power. The Master of the Primordial Era, who became supreme as a Child of the Era, is far stronger than us.”

“So, doesn’t this mean that the Supremes of the Twelve Cosmic Eras could sweep through the Supremes of all races, putting all races in danger?” Ye Tian asked.

“They probably won’t!” Kunwu Supreme said. “At that time, after the Master of the Primordial Era killed over a hundred Supremes, he didn’t make any further moves, nor did the other Supremes of the Twelve Cosmic Eras.”

It was evident they wouldn’t kill us all; otherwise, most of our Supremes wouldn’t have returned. Additionally, they likely wouldn’t attack the myriad races, as the agreement signed back then hadn’t expired. For the next ninety thousand years, they probably wouldn’t make a move. But after ninety thousand years, who could say for sure!”

“Ninety thousand years, huh?” Ye Tian murmured.

“Ye Tian, grow quickly. The current situation of the universe is ever-changing. We still don’t know what the Supremes of the Twelve Cosmic Eras are planning. Only if you grow rapidly will there be hope to counter those Supremes,” Kunwu Supreme advised.

“Kunwu Supreme, I will do my best!” Ye Tian nodded.

“Ye Tian, I need to return and stabilize my injuries. I won’t be coming out for the next few thousand years. If you need anything, seek help from the other Supremes. During this period, they will all fully support you!” Kunwu Supreme said, then retracted his avatar.

Ye Tian also left the Supreme Hall of Humanity.

Upon returning to Tian Pavilion in the Holy City, Ye Tian began to ponder.

His current growth rate was already very fast, but aiming to become a supreme within ninety thousand years seemed challenging. It wasn’t an issue of cultivation talent or resources but a matter of accumulation. He needed to accumulate to the extreme in each realm; otherwise, it would affect his breakthrough to the Transcendent Realm. But doing so would slow down his cultivation process.

If he didn’t prioritize accumulation and potential, he could absolutely rush to the supreme realm in a short time, but that would make him the weakest supreme. Moreover, he might even die under the tribulation.

“I need trump cards, and I need to grow faster!” Ye Tian pondered and soon thought of a solution.

“True Talent!”

This talent came from Primordial Supreme, and it was the secret behind Primordial Supreme becoming one of the most unique Heavenly Venerables with the strongest survival abilities. Many Supremes in the universe knew Primordial Supreme had many avatars, and even if one died, he could create another. No one knew which was his true body.

Ye Tian had used his Copy Talent to examine Primordial Supreme’s talent and had fused it into himself but had never used this talent.

The True Talent was different from ordinary avatar talents. Ordinary avatar talents allowed one to split off an avatar with similar cultivation, but they couldn't last long. True Talent, however, could create a second and third true body, each capable of unique cultivation. This was what Ye Tian understood from the True Talent.

Creating a second true body wasn't easy; it required a supreme treasure as a foundation.

Moreover, all true bodies shared one consciousness, meaning it wasn't practical for multiple true bodies to fight simultaneously. In a full-force battle, only one true body could be used, while the others would be empty shells.

In real combat, splitting one's focus to control multiple true bodies, each performing different secret techniques and talents, was too difficult and could weaken one's combat strength.

In simple terms, True Talent was akin to creating several backup puppets. Unlike ordinary puppets, these could integrate with the main body's consciousness, cultivate, and fight.

This explained why Primordial Supreme's battles always featured only one true body and never multiple true bodies attacking an enemy simultaneously. This was a limitation of True Talent.

Now, Ye Tian planned to create a second true body and quickly elevate it to the supreme realm. A mere ordinary supreme wouldn't be much help, but it could enter the Desolate Realm and use the Desolate Lord Mandate to control it.

The Desolate Realm was not a weak force and could serve as Ye Tian's trump card. Moreover, he could use the Desolate Realm's origin power to rapidly enhance his cultivation.

Chapter 723: The Water Dao, Trading with the Heavenly Venerable Blazing Fire!

"I already possessed my true talent, now I just needed a supreme treasure. Ordinary supreme treasures were useless and had limited potential. At best, they could elevate the second body's cultivation to the Dominator level. At the very least, it must be a top-tier supreme treasure," Ye Tian mused silently.

He currently possessed several supreme treasures, with the most mysterious and precious being the Chaos Black Lotus.

However, using the Chaos Black Lotus as the second body's vessel seemed wasteful, and he might not even be able to refine it. Moreover, the second body would become useless after he transcended, effectively turning it into a discarded object.

Therefore, he saw no need to waste the mysterious Chaos Black Lotus.

“Aside from the Chaos Black Lotus, the only other top-tier supreme treasure I have is a long saber, reformed from the accompanying treasure of the Silver-Horned Ancestral God. This weapon is still useful to me, so using it as the second body's embryo would also be wasteful,” Ye Tian thought.

After some contemplation, he decided to exchange for a top-tier supreme treasure from the higher-ups of the human race.

He was quite wealthy, possessing many treasures whose combined value far exceeded that of a single top-tier supreme treasure. Exchanging for one would not be a problem at all.

“The Heavenly Venerable Blazing Fire could forge top-tier supreme treasures, and his Heavenly Fire Palace must have some in stock. Why not exchange with him?” Ye Tian considered.

Thus, he headed to the Heavenly Fire Palace and soon met with the Heavenly Venerable Blazing Fire.

...

“True Lord of Ten Thousand Laws, such a rare guest. You rarely visit me. Could it be that my junior, Mingyue, caused some trouble?” The Heavenly Venerable Blazing Fire said upon seeing Ye Tian.

“How could Fairy Mingyue cause any trouble? I came here for something else,” Ye Tian replied.

“What is it?” the Heavenly Venerable Blazing Fire inquired.

“I want to purchase a top-tier supreme treasure from you,” Ye Tian stated plainly.

“Purchase a top-tier supreme treasure?” The Heavenly Venerable Blazing Fire was slightly surprised. “True Lord of Ten Thousand Laws, don’t you already have a top-tier supreme treasure? Although it can only be considered a pseudo top-tier treasure, it is no different from a top-tier one for you. Why buy another?”

“Heavenly Venerable Blazing Fire, I have a significant use for it. May I ask if you are willing to sell me one?” Ye Tian asked.

“Well...” The Heavenly Venerable Blazing Fire appeared troubled. “True Lord of Ten Thousand Laws, you should know how rare top-tier supreme treasures are among humans. The materials to forge them are hard to come by. Typically, the top-tier treasures I forge are commissioned by the nine supreme-level forces. Over the years, my Heavenly Fire Palace only has a few genuine top-tier supreme treasures, each one considered a treasure of the palace. Many forces have tried to buy them, but I have refused.”

“Heavenly Venerable Blazing Fire, what do you think of this?” Ye Tian retrieved some peculiar water from his miniature universe. It was obtained from an ancient well in the world of a Heavenly Monarch in the Abyss of Destruction. This water could make a person’s body align perfectly with the Dao.

Ye Tian had been using this peculiar water to temper his body, achieving the most perfect alignment with the Chaos Dao, allowing him to harness its power to a terrifying extent.

While this peculiar water couldn’t directly enhance cultivation, it could significantly boost strength. After all, the better one could harness the Chaos Dao’s power, the more their strength increased indirectly.

Hence, this peculiar water was useless to the weak but invaluable to the strong, especially those who had been immersed in the Dao for long ages. For them, it was a priceless treasure.

“What is this?” The Heavenly Venerable Blazing Fire asked, curious, as he took the peculiar water and touched it with his hand.

Instantly, the strange energy flowed into his body, tempering it and aligning it with the Chaos Dao. Initially, he didn’t notice any changes in his body.

Just as he was feeling puzzled, Ye Tian's voice broke the silence.

"Heavenly Venerable Blazing Fire, try channeling the power of the Fire Dao."

"Alright!" The Heavenly Venerable Blazing Fire attempted to channel the power of the Chaos Dao and immediately his expression changed.

"How is this possible!!!" He discovered that his alignment with the Chaos Dao had slightly improved. Although it was a subtle change, he could definitely feel it.

"This is the Water Dao!!! You actually possess the legendary Water Dao!!!" The Heavenly Venerable Blazing Fire exclaimed in shock.

"So this is called the Water Dao," Ye Tian remarked, learning the name of this peculiar water for the first time.

"Yes, this should be the legendary Water Dao. It's said that this water is drawn from the Dao itself when one's understanding reaches a certain level. The water in your possession appears to be a diluted version of the Water Dao. The legend says that a single drop of pure Water Dao is enough to grant someone a Dao Physique, perfectly aligning them with the Dao's power. With enough Water Dao, one could even form a Dao Sacred Body.

Our human race once obtained a heritage that mentioned the Water Dao. Unfortunately, it is exceedingly rare and can only be found in the inheritances of powerful beings from the Chaos. I didn't expect you to have such a thing!" The Heavenly Venerable Blazing Fire spoke with excitement.

"Heavenly Venerable Blazing Fire, would you be willing to trade a top-tier supreme treasure for this Water Dao?" Ye Tian asked.

"Of course!" The Heavenly Venerable Blazing Fire responded eagerly. "However, this water is extremely diluted, so its value is limited. I would need 300 catties of it to trade for a top-tier supreme treasure!"

"Deal!" Ye Tian agreed immediately.

For others, 300 catties of diluted Water Dao would be a lot, but for him, it was quite manageable. Despite using a significant amount of this water, he still had plenty left. A mere 300 catties was nothing to him.

“So quick to agree?” The Heavenly Venerable Blazing Fire felt a twinge of regret. Seeing Ye Tian’s swift agreement, he realized that Ye Tian must have a substantial amount of this water. Perhaps he could have asked for a thousand catties, and Ye Tian would still have agreed.

However, he had already spoken, and it wouldn’t be appropriate to go back on his word. Besides, 300 catties of Water Dao were more than enough to justify the value of a top-tier supreme treasure. This amount of water would greatly enhance his alignment with the Fire Dao, allowing him to unleash its power more effectively.

In doing so, his battle strength, which had stagnated for ages, would see a significant boost. Many Heavenly Venerables had paid enormous prices to improve their strength slightly, often without success.

By merely trading a top-tier supreme treasure, he could greatly enhance his strength. This was a great deal for him! Therefore, he didn’t feel any loss in this transaction.

Soon, the trade was completed.

Ye Tian obtained a top-tier supreme treasure as he had hoped: the Forbidden Space Pearl!

Chapter 724: The Second True Body - Heavenly Venerable Realm!

The Forbidden Space Pearl was a top-tier supreme treasure with sealing capabilities, encompassing suppression and prohibition abilities. Once activated, it could suppress an entire void, making it difficult for even those skilled in spatial talents to escape.

Of course, the Forbidden Space Pearl wasn’t among the absolute top-tier supreme treasures; it was considered an ordinary top-tier supreme treasure, but it was sufficient for Ye Tian’s use.

After completing the transaction, Ye Tian left the Palace of Blazing Fire with the Forbidden Space Pearl and returned to the Tian Pavilion.

Upon his return, Ye Tian immediately entered seclusion.

He intended to use the Forbidden Space Pearl as an embryo to create a second true body through his innate talent.

This process required a long time, but with Ye Tian accelerating time by a hundredfold, it would take much less time in the outside world.

“According to my calculations, it should take at most ten thousand years to form the second true body, which would be equivalent to only a hundred years in the outside world. A hundred years is not a long time, and the external situation shouldn’t change much,” Ye Tian thought to himself.

In the seclusion chamber, Ye Tian first activated a formation to prevent anyone from spying on him. Then, he took out the Forbidden Space Pearl.

Holding the Forbidden Space Pearl in his hands, Ye Tian activated his innate talent. Countless rays of light converged in his hands, infiltrating the Forbidden Space Pearl.

The Forbidden Space Pearl began to change, slowly decomposing. Once decomposition was complete, it would recombine into an embryo, which would gradually nurture a new true body.

As time passed, Ye Tian only needed to activate his innate talent. The rest of the process was handled by the innate talent itself, requiring no additional control.

Therefore, while creating the second true body, Ye Tian also continued his cultivation, ensuring his training wasn’t delayed.

In the blink of an eye, ten years passed in the outside world, while Ye Tian had experienced ten thousand years with the accelerated time.

“Finally, it’s almost successful!”

Ye Tian looked at the gray embryo before him, within which a figure began to emerge. This figure was none other than Ye Tian’s second true body.

Suddenly, a wave of energy rippled out, revealing the aura belonging to the second true body.

Ye Tian knew that the second true body had successfully been nurtured, so he diverted a portion of his consciousness into the second true body.

“Open!”

Ye Tian controlled the second true body to break out of its incubation. The embryo shattered into countless pieces, transforming into a garment that attached to his second true body.

This garment was akin to an Innate Supreme Treasure, although its quality was only equivalent to an ordinary supreme treasure.

“The second true body has just been nurtured, and its cultivation level is only at the Galaxy level. It needs to be re-cultivated,” Ye Tian murmured.

This was inevitable, considering that within the limits of the universe, the second true body was essentially a new being. Being born with a Galaxy-level cultivation was already comparable to some Innate Deities.

Therefore, to elevate the second true body’s strength, it needed to be re-cultivated.

However, with Ye Tian’s consciousness as the guiding force, cultivating the second true body wouldn’t be difficult, and it could be easily enhanced.

Thus, Ye Tian began the process of cultivation.

The second true body also possessed innate talents, and these talents were exceptionally high. However, the variety of talents was limited. Compared to the Children of the Universe, the second true body’s talents fell short.

Through his innate talent, Ye Tian knew that to endow the true body clone with extremely high and numerous talents, he needed to use higher-level supreme treasures, such as the strongest supreme treasures.

But Ye Tian could only use a top-tier supreme treasure as the embryo for the second true body, hence the slightly lower talent level. This wasn't an issue for Ye Tian; he had killed many Children of the Universe and seized their talents, which he could now bestow upon the second true body.

Thus, the talent problem was essentially non-existent.

Time flew by, and a hundred years passed in accelerated time.

By now, Ye Tian's second true body had reached the pinnacle of the Universal God realm. This was partly because Ye Tian took time to familiarize himself with the second true body and solidified its foundation at the Galaxy level. Otherwise, it would have reached the Dominator realm long ago.

On this day, Ye Tian began to break through to the Dominator realm.

Everything went smoothly, and Ye Tian easily broke into the first stage of the Dominator realm. He then used a large number of resources to boost his cultivation.

Dominator second stage! Dominator third stage! Dominator fourth stage!

In just three hundred years, Ye Tian's second true body successfully reached the ninth stage pinnacle of the Dominator realm, just a step away from the Heavenly Venerable realm.

"Although the second true body has reached the pinnacle of the Dominator realm, its life level is still at the fourth stage. Moreover, it hasn't had much time to cultivate the Chaos Golden Desolation Technique or the Eighteen Golden Body Technique. This second true body cannot be considered a true genius. Even if it breaks into the Heavenly Venerable realm, it might not possess supreme combat power.

But it doesn't matter. As long as it reaches the Heavenly Venerable realm, this second true body can refine the Desolate Lord Mandate.

Once the Desolate Lord Mandate is refined, I can control the Desolate Realm. No matter how powerful the Desolate Lord in the Desolate Realm is, he cannot oppose me within the Desolate Realm!" Ye Tian thought to himself.

Without further ado, he didn't worry about the foundation of the second true body. After all, the second true body was just a tool for him and would be discarded in the future.

After slightly stabilizing the second true body's pinnacle Dominator realm cultivation, Ye Tian began to break through to the Heavenly Venerable realm.

Breaking through to the Heavenly Venerable realm only required satisfying the conditions of mindset and talent, both of which he met.

On this day, at the edge of the universe, Ye Tian chose to break through to the Heavenly Venerable realm.

The Heavenly Venerable realm required the soul to be entrusted to the heavens and earth. The second true body had a unique soul, though its consciousness was shared with the first true body. Thus, the souls of the first and second true bodies existed separately, not affecting each other. Otherwise, Ye Tian wouldn't have dared to cultivate the second true body.

“Open!”

As Ye Tian broke through to the Heavenly Venerable realm, his vast soul was entrusted to a special void in the universe, and the power of the universe's origin poured in to aid his breakthrough.

Very quickly, Ye Tian broke through the barrier between the Dominator and Heavenly Venerable realms, effortlessly crossing into the Heavenly Venerable realm.

Upon entering the Heavenly Venerable realm, Ye Tian sensed a different world.

It felt as if he could control all the laws of the heavens and earth. Even without certain talents, he could still grasp the rules corresponding to those talents.

This was similar to how some Supremes without time-space talents could still manipulate time and space to resurrect people, though it required some cost.

At this moment, Ye Tian also saw the river of time and space hidden deep within the universe's origin. He saw countless soul imprints struggling within the river of time and space.

“So this is the Heavenly Venerable realm! However, despite being at the Heavenly Venerable realm, I dare not touch the river of time and space!” Ye Tian remarked.

Chapter 725: Return to the Desolate Realm

Although Ye Tian’s second avatar had reached the Heavenly Venerable Realm, Ye Tian knew very well that if he dared to twist time and space in an attempt to resurrect someone with his current strength, he would undoubtedly face fatal backlash.

“Forget it. This second avatar’s strength is somewhat lacking, but it still equates to the combat power of a top-tier Heavenly Venerable. I’ll first refine the Desolate Lord Mandate, then enter the Desolate Realm. I should be able to take control of it,” Ye Tian pondered.

Immediately, he took out the Desolate Lord Mandate and began to let his second avatar refine it.

“Next, I’ll let my main body sleep and fully control the second avatar,” Ye Tian murmured.

Thus, his main body began to slumber, with all his consciousness concentrated on the second avatar.

“Begin refining!” Ye Tian silently commanded.

Under the Heavenly Venerable realm’s refining process of Ye Tian’s second avatar, the Desolate Lord Mandate was gradually being refined.

In the blink of an eye, several years had passed.

On this day...

Ye Tian had successfully initiated the refinement of the Desolate Lord Mandate, but he wasn’t yet considered the true master of the Desolate Realm, only a half-master at best.

To become the true master, he needed to enter the Desolate Realm and let the Desolate Lord Mandate successfully control the realm’s origin, only then could he become the Desolate Realm’s master.

However, before becoming the master, the Innate Deities of the Desolate Realm would certainly come to stop him, leading to an inevitable great battle.

Although Ye Tian could utilize the Desolate Lord Mandate to mobilize the Desolate Realm's power and exert the combat strength of a powerful Supreme within the realm, it was uncertain if this strength would be enough to persist until he successfully controlled the realm.

“My Chaos Dao realm has already reached the pinnacle of the Dharmic Aspect Realm. Although the second avatar cannot align with the Chaos Dao as well as the main body, it can still comprehend it. If I can elevate the Chaos Dao realm in a short time and combine it with the Chaos True Technique in combat, it should significantly boost my combat power. Additionally, the Tian Gang Battle Technique can also be applied to the second avatar, which increases the hope,” Ye Tian thought.

Thus, in the following days, Ye Tian began to use his second avatar to comprehend the Chaos Dao.

However, using a different body, Ye Tian found it extremely difficult to comprehend the Chaos Dao. This body seemed to be completely out of sync with the Chaos Dao, and even the Dao Water was of no help.

This was because this body was only a second avatar, created using supreme treasures, making it different from a real living being in terms of cultivation.

Nevertheless, since Ye Tian had already comprehended the Chaos Dao to the pinnacle of the Dharmic Aspect Realm, recovering to this pinnacle wasn't impossible, just troublesome.

In the blink of an eye, several centuries had passed.

Through Ye Tian's full efforts in comprehension, the second avatar not only entered the threshold of the Chaos Dao but also reached the pinnacle of the Dharmic Aspect Realm.

At this point, Ye Tian realized that the second avatar could never enter the Origin Realm, as its foundational comprehension of the Chaos Dao was unstable from the start, and the path taken had been somewhat skewed.

Ye Tian understood the reason—he had been too hasty, focusing solely on quickly enhancing his strength at the expense of a solid foundation. However, he had no choice but to do so.

He couldn't afford to squander much time; he had to rise rapidly.

"The outcome is favorable. The second avatar should now be infinitely close to the Supreme level. If I use the Desolate Lord Mandate to control the Desolate Realm's power, it would certainly rival a top-tier Supreme. Even if I can't match the Desolate Lord, I won't be instantly killed and can persist until the moment I control the Desolate Realm!" Ye Tian estimated.

"It's time to go to the Desolate Realm. But this time, I'll leave the main body behind. Once I control the Desolate Realm, I can bring the main body in," Ye Tian thought.

Subsequently, Ye Tian sent his second avatar out of the Holy City and the human territory, knowing that a stranger at the Heavenly Venerable level wandering in human territory would easily be detected and killed by the Supremes.

Ye Tian certainly didn't want his painstakingly crafted second avatar to die at the hands of his own people, which would be a significant loss!

Outside the human territory,

Ye Tian's second avatar appeared here, then immediately boarded a spaceship to travel towards the location of the Desolate Realm.

Along the way, Ye Tian avoided the territories of some major clans, passing through only the territories of smaller clans and desolate areas.

A few days later, Ye Tian finally arrived in the region where the Desolate Realm was located.

At this time, the Desolate Realm was very peaceful. Always keeping a low profile, the Desolate Realm had long been forgotten by the myriad races, and even the Supremes of the Twelve Cosmic Eras had not set their sights on it.

Thus, there were no powerful beings outside the Desolate Realm at this moment.

“The Desolate Realm prohibits powerful beings from entering. If other Supremes tried, they wouldn’t be able to get in, but with the Desolate Lord Mandate in my hand, the prohibitions of the Desolate Realm are ineffective against me!” Ye Tian murmured.

Then, holding the Desolate Lord Mandate, he flew to the barrier of the Desolate Realm and stepped into its interior.

In the Desolate Realm, within a strange mountain range, Ye Tian’s second avatar’s figure appeared.

“I’m in!” Ye Tian said.

At this moment, with the Desolate Lord Mandate refined, he clearly sensed the Desolate Realm’s power surrounding him, which he could control, far surpassing the power controlled by the Desolate Mark talent.

“This is true control over the Desolate Realm’s power. The Desolate Mark talent is merely an incidental gift created by the Desolate Lord when he birthed the Desolate Beasts. It’s nothing significant.

Now that I’ve entered the Desolate Realm, the Desolate Lord won’t notice. But if I fully activate the Desolate Lord Mandate to control the Desolate Realm, the Desolate Lord and other Supreme-level Innate Deities will definitely become aware!” Ye Tian thought.

After contemplating for a while, Ye Tian decided to activate the Desolate Lord Mandate.

“It’s starting!” Ye Tian fully activated the Desolate Lord Mandate.

Boom!!!! The Desolate Lord Mandate transformed into a massive sphere of light, communicating with the Desolate Realm’s origin, gradually invading its core. Once the Desolate Lord Mandate fully controlled the Desolate Realm’s origin, it would mean Ye Tian controlled it.

By that time, he could suppress all living beings within the Desolate Realm with a single thought. Unless the power of a certain being could rival the Desolate Realm or forcefully break through it, no one could resist Ye Tian.

Simultaneously...

At the center of the Desolate Realm, in an ancient temple.

A figure that had remained motionless for millennia suddenly stirred.

This person wore ancient beast-skin robes, exuding an archaic aura, with golden patterns on his body.

He was the creator of the Desolate Beast clan—the Desolate Lord.

“The aura of the Desolate Lord Mandate... Someone is attempting to control the Desolate Realm. Who could it be?” the Desolate Lord roared in fury.

He had always sought the Desolate Lord Mandate but had failed repeatedly. Unexpectedly, it had resurfaced now.

“Could it be that while I was in seclusion, some Innate Deity obtained the Desolate Lord Mandate from the Desolate Tower and now seeks to control the Desolate Realm? Hmph, courting death! The Desolate Lord Mandate belongs to me!”

The Desolate Lord flew out of the temple, heading towards the source of the Mandate’s aura.

Aside from the Desolate Lord, other Supreme-level Innate Deities in the Desolate Realm also emerged from seclusion, moving towards Ye Tian’s location.

As for the weaker Innate Deities, though they didn’t dare to approach, they still sent their divine senses.

An astounding battle was about to unfold!

Chapter 726: I Am the Lord of the Desolate Realm!

“They’re here!”

Ye Tian sensed the presence of some Innate Deities, each extremely powerful, all at the level of Heavenly Venerable or Supreme. There were dozens of them.

Such a formidable force, enhanced by the Desolate Realm, would deter even the Supremes of the Immortal Race from attacking. In the outside world, they could easily be considered a major cosmic clan.

Yet now, Ye Tian had to face the attacks of so many Supremes alone, a colossal challenge indeed.

“It would take about ten more minutes to fully control the Desolate Realm. I just needed to hold on for ten minutes,” Ye Tian calculated.

One by one, the Innate Deities arrived. The first to come was the foremost Innate Deity of the Desolate Realm, the first Supreme—Desolate Supreme.

Boom! The aura of Desolate Supreme enveloped the area, his gaze fixed on Ye Tian.

“Heavenly Venerable realm, not an Innate Deity!”

Desolate Supreme was initially stunned, somewhat puzzled as to how an external Heavenly Venerable like Ye Tian could appear here, but he quickly understood.

“I see, you’re an external Heavenly Venerable who once intruded into the Desolate Tower, obtained the Desolate Lord Mandate, and now, having broken through to the Heavenly Venerable realm, you wish to control the Desolate Realm. Damn outsider, courting death!” Desolate Supreme was furious.

In his view, the Desolate Realm belonged to the Innate Deities, and no outsider was allowed to interfere.

But now, Ye Tian was attempting to control their Desolate Realm. If he succeeded, they would be doomed. He could not allow this to happen.

“Desolate God’s Heavenly Hand!”

Desolate Supreme pressed down with a hand, a giant hand obscuring the sky, emerging from the void, and slamming towards Ye Tian.

Such a strike was undoubtedly comparable to a full-force attack of a powerful Supreme, enhanced by the power of the Desolate Realm, enough to threaten a powerful Supreme's life.

In Desolate Supreme's eyes, Ye Tian was merely at the Heavenly Venerable combat level and could not withstand such a powerful blow.

“As expected of the first Supreme of the Desolate Realm, Desolate Supreme. But did you forget that I possess the Desolate Lord Mandate?” Ye Tian sneered.

Boom! The power of the Desolate Realm was bestowed upon Ye Tian, merging with his own strength. Instantly, Ye Tian executed the Chaos True Technique—Chaos God Demon Form, along with the first style of the Tiangang Battle Technique.

Suddenly, an earth-shaking demonic aura was born.

The Chaos God Demon Form, standing on the ground and supporting the sky, protected Ye Tian, striking out with both hands to meet Desolate Supreme's Desolate God's Heavenly Hand. This collision created a thunderous shockwave.

Boom! Boom! Boom! The surrounding void continuously shattered, but under the strong recovery power of the Desolate Realm, it gradually calmed down.

“Desolate Lord Mandate, I didn't expect it to allow you to mobilize so much power of the Desolate Realm!!!”

Desolate Supreme's face showed an incredulous expression as he roared.

Without the Desolate Lord Mandate, he believed he could instantly kill Ye Tian.

But with the Desolate Lord Mandate, Ye Tian, a top-tier Heavenly Venerable, could exert the combat power of a top-tier Supreme. Although still inferior to him, Ye Tian could hold his ground for a while.

Time was limited, and he couldn't afford to delay. Once Ye Tian completely controlled the Desolate Realm, he could even strip them of their permission to use the Desolate Realm's power. Without it, they could only use their original strength.

These Innate Deities seemed invincible, but they relied on the power of the Desolate Realm. Even the First Divine Lord couldn't contend with them in the Desolate Realm.

Without the power of the Desolate Realm, these Innate Deities were nothing. Combined, they couldn't match a Supreme like the First Divine Lord.

Most of them were ordinary Supremes, with only a few powerful ones. They were not formidable enough to resist a realm master who controlled the Desolate Realm.

"I must kill him quickly, or I won't be able to resist him anymore!" Desolate Supreme was desperate.

As the foremost Supreme of the Desolate Realm for a long time, no other Supreme dared to oppose him.

He had even thought the Desolate Lord Mandate was unimportant, but he never expected someone to actually obtain it.

Once the Desolate Realm had a realm master, his position would be threatened, and he might even die.

Thus, he had to kill Ye Tian.

Boom! Boom! Desolate Supreme continuously attacked Ye Tian, using one powerful secret technique after another.

Under such powerful attacks, even though Ye Tian could mobilize the power of the Desolate Realm, he still got injured, and his injuries worsened progressively.

But he persisted!

“Join forces! This man is an external cultivator. If he controls the Desolate Realm, where will us Innate Deities find room to survive?” Desolate Supreme shouted.

“Yes, Desolate Supreme!”

The other Supreme-level Innate Deities also realized the gravity of the situation. They had to kill Ye Tian; otherwise, their Desolate Realm would completely fall into the hands of an outsider.

Boom! Boom! Boom! Numerous Supremes attacked simultaneously. In just an instant, Ye Tian was sent flying, severely wounded!

“Escape!”

Ye Tian started to move rapidly. Controlling the Desolate Realm didn't require him to be stationary. The Innate Deities couldn't interrupt his control process now; as long as he didn't die, he could succeed.

So, his most crucial task at the moment was to stay alive.

“You want to escape? Don't even think about it!” Desolate Supreme said.

One after another, the Innate Deities tried to intercept Ye Tian. They also controlled the power of the Desolate Realm, making it very difficult for him to escape.

Gradually, Ye Tian's aura weakened significantly.

“I still underestimated these Innate Deities. Desolate Supreme's power alone is terrifying, and the other Supreme-level Innate Deities are not weak either. Luckily, I still have a trump card; otherwise, I'd be dead already, unable to last until I control the Desolate Realm,” Ye Tian thought to himself.

Just when his body couldn't hold on any longer, Ye Tian finally activated one of his trump cards.

“Time Reversal!”

In an instant, Ye Tian's condition reverted to what it was before he got injured.

Time Reversal was a capability of his Time Talent. He had used Time Reversal during the final tribulation in the Ten Tribulations Area of the Ruins World, which had allowed him to pass the Ten Tribulations Area.

For a long time, he hadn't used Time Reversal.

This time, he unleashed it again. His second self's Time Talent wasn't of the Super God level, but rather the Mystic level, which he had once seized from an enemy who was a Child of the Universe.

The Mystic-level Time Talent could perform Time Reversal, though its effect was limited and the reversed time wasn't long.

Moreover, using Time Reversal at the Heavenly Venerable level had significant side effects.

But to fully control the Desolate Realm, he didn't care about the side effects, no matter how severe.

Seeing Ye Tian's condition rapidly return to its peak, Desolate Supreme's pupils contracted.

"Time Talent! Damn it, attack with full force, or we're finished!"

The other Supremes also understood and unleashed forbidden techniques, determined to kill Ye Tian at all costs.

Soon, Ye Tian was forced to use Time Reversal again, for the second time. On the surface, he appeared to return to his peak state, but as time passed, the side effects would become severe.

In the past, the side effects merely involved losing some lifespan. But using it at the Heavenly Venerable level, the side effects now included permanent damage to his soul and body, which was difficult to recover from.

Nine minutes passed.

It seemed that he could completely control the Desolate Realm, but Ye Tian couldn't hold on any longer.

At this moment.

Ye Tian gritted his teeth and began to use Time Reversal for the third time.

Boom! The power of time fluctuated, and Ye Tian once again returned to his peak state.

Seeing this, Desolate Supreme's pupils shrank.

“Madman! You're at the Heavenly Venerable level, and your Time Talent is only Mystic level. Yet, you dare to use Time Reversal a third time. Doing this, you might never be able to progress again.

Madman! What good is it for you to control the Desolate Realm this way?!”

Ye Tian ignored Desolate Supreme's words and continued to protect himself.

The final wave of attacks soon passed, and ten minutes finally elapsed.

Boom! The Desolate Realm was completely controlled by the Desolate Lord Mandate, which flew to Ye Tian and merged into his body.

At this moment, Ye Tian declared, “From today onwards, I am the Lord of the Desolate Realm!”

Chapter 727: Chaos Spirit Treasure – Desolate Realm!

At this moment, Ye Tian was severely injured, looking quite disheveled, but he felt extremely excited, his face full of smiles.

He had become the Lord of the Desolate Realm.

Therefore, he feared nothing.

Even though he was severely injured, he could now completely control the power of the Desolate Realm, stripping these Innate Deities of their control over the realm's power. As a result, their strength plummeted, rendering them no match for him.

Thus, the battle had ended.

“Surrender, or you will all die!” Ye Tian said coldly.

“Surrender to an external Heavenly Venerable? Impossible!” A Supreme-level Innate Deity spoke.

At this moment, Ye Tian waved his hand, and the power of the Desolate Realm bound the opponent.

“Die!”

Ye Tian merely pointed a finger, and the Supreme deity was effortlessly obliterated.

This scene completely stunned the numerous Innate Deities, leaving them dumbfounded.

They attempted to control the power of the Desolate Realm, only to find they couldn't. Their strength dropped significantly, making them unable to resist Ye Tian.

“We lost!” Desolate Supreme sighed.

“Desolate Supreme, do you still wish to resist?” Ye Tian asked.

“I am willing to surrender!” Desolate Supreme bowed.

A wise man knows when to submit to circumstances. He naturally understood this principle. If he could kill Ye Tian, he would have done so at any cost.

But now, they had failed to kill Ye Tian. Ye Tian had successfully controlled the Desolate Realm, and their resistance was meaningless.

Desolate Supreme did not want to die, so he naturally chose not to resist Ye Tian.

“Very good. Although you all tried to kill me just now, I am a magnanimous person. I won’t do anything to you because the Desolate Realm still needs you to guard and maintain it. So, I won’t kill you!” Ye Tian said.

He wasn’t lying but stating the truth.

These Innate Deities were a powerful force. If he killed them all, external forces could easily invade, and he alone might not be able to withstand those external Supremes.

The reason he could disregard this group of Innate Deities was because he could strip them of their ability to control the Desolate Realm’s power. If he allowed them to use the realm’s power, he still wouldn’t be their match.

Therefore, this group of Innate Deities was crucial.

They were excellent helpers.

Moreover, he needed to frequently cultivate and was too lazy to manage the Desolate Realm. It was necessary to leave this group of Innate Deities.

“I need to heal. You may leave now!” Ye Tian said.

The numerous Innate Deities hesitated for a moment but then retreated, not daring to act rashly.

Even with Ye Tian severely injured, they had no hope of winning. It was better to withdraw, or they would end up like the Innate Deity who had just died.

After the Innate Deities retreated, Ye Tian began to heal on the spot, using healing talents to recover from his injuries while also consuming a large amount of healing medicine.

Despite this, Ye Tian felt that the wounds on his second true body and soul were severe, making it difficult to fully recover.

“The potential of the second true body has been almost exhausted. It’s hard to continue progressing, but the value it has brought is sufficient!” Ye Tian thought to himself.

In the blink of an eye, several years had passed. Ye Tian had nearly repaired his second true body, though some deeper wounds proved difficult to heal, and he had grown lazy about fixing them.

One day, Ye Tian summoned several ancient Innate Deities of the Desolate Realm, including the Desolate Supreme.

He did not immediately bring his main body to the Desolate Realm but first sought to understand the realm’s situation.

During the meeting, Ye Tian asked the Desolate Supreme, “Desolate Supreme, you are the oldest Supreme of the Desolate Realm. You should be quite knowledgeable about it. I only know that the Desolate Realm was left behind by the Innate Desolate Clan, but I don’t know much about anything else!”

The Desolate Supreme replied honestly, “Lord, we actually don’t know much about the Desolate Realm either. It indeed was left by the Innate Desolate Clan, which seemed to be a clan from the Fifth Cosmic Epoch. The Innate Desolate Clan consisted of the first batch of Innate Deities who combined to form the clan and then created many bloodline clansmen, forming a powerful race.

We Innate Deities have obtained a lot of information from the Desolate Tower, including detailed information about the Desolate Realm.

According to what we have learned, it seems that the Desolate Realm was not built by the Innate Desolate Clan!”

“The Desolate Realm wasn’t built by the Innate Desolate Clan?” Ye Tian was somewhat surprised.

“Yes, it wasn’t built by the Innate Desolate Clan!” The Desolate Supreme continued, “Only the Desolate Tower was constructed by the Innate Desolate Clan as the strongest supreme treasure, but not the Desolate Realm itself.

The Innate Desolate Clan didn't have the power to build a storage world like the Desolate Realm. Although the Desolate Realm is not a Chaos Supreme Treasure, it is a top-tier Chaos Spirit Treasure. In terms of level, it is comparable to the strongest supreme treasure, but it is still more powerful since the limits of a Chaos Spirit Treasure exceed those of a supreme treasure."

"Chaos Spirit Treasure? Could it be that it comes from Chaos?"

Ye Tian suddenly realized.

Chaos Spirit Treasures are categorized below Chaos Supreme Treasures and theoretically are on the same level as the strongest supreme treasures but are more valuable.

"Yes, the Desolate Realm indeed comes from Chaos. During a Chaos Tide in the Fifth Cosmic Epoch, the universe swallowed it, and it was subsequently discovered and occupied by the Innate Desolate Clan. This secret was scarcely known even in the Fifth Cosmic Epoch. People only believed that the Desolate Realm was built by the Innate Desolate Clan, but that was just a rumor spread intentionally by the clan. It was because of the Desolate Realm that the Innate Desolate Clan became so powerful!" The Desolate Supreme explained.

"I see!" Ye Tian began to understand.

He had previously suspected that if the Innate Desolate Clan could indeed create such a terrifying Desolate Realm, why weren't they one of the dominant forces in the Twelve Cosmic Eras?

If the Innate Desolate Clan was truly that formidable, they would have become the rulers of a Cosmic Epoch, and they should have known how to avoid the Great Cosmic Destruction.

Now he finally understood the reason. The Innate Desolate Clan wasn't inherently powerful; they had merely been fortunate to occupy the Desolate Realm.

"Desolate Supreme, couldn't you refine the Desolate Tower?" Ye Tian asked again.

In his view, the Desolate Tower was just a supreme treasure, and these Supremes should have been able to refine it.

“Lord, we cannot refine the Desolate Tower!” The Desolate Supreme quickly replied, “The Desolate Tower is integrated with the Desolate Realm, making it impossible for us to refine it, but you should be able to!”

“I see!” Ye Tian understood.

After asking a few more questions, he dismissed the Desolate Supreme and the other Innate Deities.

He also gave them a task: to proclaim his existence and make all the races of the Desolate Realm recognize him as their master.

On this day, Ye Tian arrived at the Desolate Tower, prepared to refine it!

Chapter 728: Dual Universe Transcendence Method!

Ye Tian’s true body, still at the Universal God level, couldn’t refine the Desolate Tower on its own. Only his second true self could undertake this task.

Because Ye Tian’s second true self controlled the Desolate Realm, and the Desolate Tower was connected to this realm, refining the tower was much easier than expected.

In just half a year’s time, Ye Tian successfully refined this pinnacle supreme treasure—the Desolate Tower.

After refining the Desolate Tower, Ye Tian fully controlled it and became its master.

In an instant, Ye Tian entered the Desolate Tower.

The Desolate Tower lacked a spirit but operated according to its own rules.

As the tower’s master, Ye Tian could understand everything within it.

Soon, Ye Tian reached a space deep within the Desolate Tower.

“This is the Desolate Ancient Hall at the tower’s deepest part. Even the Desolate Supreme and other Innate Deities never entered here. I might be the first living being to enter since the Innate Desolate Race,” Ye Tian thought.

The Desolate Ancient Hall contained numerous rare texts, recording many secrets and some innate techniques of the Desolate Race.

Ye Tian wasn’t very interested in the innate techniques of the Desolate Race, as they were designed for Innate Deities and weren’t very useful for other races.

What intrigued Ye Tian were the texts recording various secrets. Those were what piqued his interest.

After all, the Desolate Realm also emerged from chaos, so there might be records of chaos secrets within these texts.

Immediately, Ye Tian began to browse through these texts one by one.

The materials of these texts were unique, almost eternal, and combined with the special nature of this space, the texts were well-preserved.

Soon, Ye Tian found a text that fascinated him.

“Innate Chaos Lifeforms!”

From this text, Ye Tian learned about a type of lifeform within chaos, known as Innate Chaos Lifeforms. These beings were born from chaos itself, came in many types, and possessed immense power. They could also produce offspring, becoming an innate race with significant potential within chaos.

“Each Innate Chaos Lifeform is much stronger than the Supreme beings in the universe, equivalent to the realm of transcendents. Unfortunately, universe lifeforms can’t possess such powerful bloodlines. It’s extremely difficult for universe lifeforms to transcend!” Ye Tian sighed.

After reading for a while, he stopped focusing on the Innate Chaos Lifeforms, as the content wasn’t particularly useful to him and served only to expand his knowledge.

Ye Tian then continued to peruse the remaining texts.

Finally, a text that greatly intrigued Ye Tian appeared.

“Universe!”

This text introduced the universe.

In theory, Ye Tian had a good understanding of the universe, but it was only a basic one.

The strong within chaos undoubtedly knew about the universe. Although they couldn't enter its interior, they surely conducted extensive research on it. Some chaotic forces even put great effort into studying the universe.

Thus, Ye Tian wanted to uncover secrets about the universe that he didn't know, like the Great Cosmic Cataclysm and more.

“I hope this text can reveal the secrets to me!” Ye Tian hoped.

He continued to read, absorbing every bit of content.

Time passed slowly, and several hours quickly went by.

At this point, Ye Tian closed the text and took a deep breath.

“So, the universe is so marvelous. I knew too little about it!” Ye Tian muttered.

From the texts, he learned that although the universe would repeatedly undergo great cosmic cataclysms, it was not eternally indestructible. The period of a single cosmic cataclysm was defined as one cosmic era, and a universe could endure a maximum of ten thousand cosmic eras.

Once it reached ten thousand cosmic eras, the universe would completely collapse and dissipate into chaos.

The universe had a lifespan of ten thousand cosmic eras, and currently, this universe was only in its thirteenth cosmic era. It could be considered very young, a newborn universe.

“The universe has a lifespan of ten thousand eras, with every twelve cosmic eras constituting a cosmic cycle. The thirteenth cosmic era marks the beginning of a new cycle, during which the universe is at its weakest state.

In the thirteenth cosmic era, the universe’s origin would shield many rules to protect itself.

No wonder it’s difficult to cultivate the physical body and soul in this universe; it turns out they are being suppressed.” Ye Tian realized.

The text also discussed the cosmic cataclysms, explaining that any living being in the universe wanting to escape these cataclysms had to transcend the universe and enter chaos, becoming a transcendent.

This was the only chance for beings in the universe.

If one didn’t want to transcend by leaving the universe, the only other option was for a great power in chaos to forcibly extract that person’s soul from the universe’s origin at a significant cost, something even the most powerful beings often couldn’t afford.

“The text also mentioned methods of transcendence, similar to what Heavenly Monarch Yun Tan had said, but it added a third method.

Heavenly Monarch Yun Tan only knew of two methods of transcendence, but this text mentioned a third.”

Ye Tian was shocked by the third method of transcendence described in the text.

“Dual Universe Transcendence Method!”

This was a shortcut method, utilizing the collision of two universes to create a rare dual-universe state.

However, both colliding universes had to be extremely weak, with their origins suppressed. Otherwise, if two universes collided without these conditions, their origins would devour each other, leading to utter chaos and even bringing about a cosmic cataclysm.

Only when the origins of both universes were suppressed could the collision avoid triggering a cosmic cataclysm.

Once two universes were in a dual-universe state, a connection point would form.

At this point, a top-tier Supreme could break out of their universe and enter another, comprehending the rules of the other universe, greatly increasing their chances of transcending.

Additionally, they could gather some destiny from the other universe, combine it with the destiny from their own universe, and take advantage of the suppressed origins to break through the rules in one go, becoming a transcendent.

If this situation occurred, the chances of becoming a transcendent were many times higher than in any other scenario.

However, creating a dual-universe state was nearly impossible without the help of a chaotic force. Otherwise, how could two universes collide within the chaos?

Moreover, suppressing the universe's origin required cooperation from the forces within the universe.

“How could the forces within the universe cooperate with chaotic forces? This seems highly unlikely...”

Ye Tian was about to dismiss the idea when he suddenly recalled the forces from the twelve cosmic eras.

“Could it be...?” Ye Tian's pupils contracted sharply.

“Could the Supremes from the twelve cosmic eras have reincarnated into this new era with the help of a certain force or powerful individual from chaos? Otherwise, how could they have created the method of reincarnation to avoid the cosmic cataclysm?”

It seems very likely that the forces from the twelve cosmic eras were involved in the dual-universe method.” Ye Tian murmured.

Additionally, there was another possibility with the dual-universe method: the creation of a higher-level universe.

The text mentioned that there were a few rare high-level universes within chaos, seemingly formed by the fusion of two universes, though the success rate was very low.

If the dual-universe fusion failed, both universes would be completely annihilated. Unless one transcended and left before the fusion ended, everyone would perish.

“If the forces from the twelve cosmic eras are indeed implementing the dual-universe method, then the stakes are incredibly high.

They are risking everything! But it makes sense—they can’t avoid the cosmic cataclysm any longer. This is their last chance, and they must be willing to take the risk!” Ye Tian thought to himself.

Chapter 729: Spread Among the Myriad Races!

“The method for transcending the dual universes... Those Supremes from the twelve cosmic eras had this in mind. If the fusion of the dual universes failed, this universe would be completely destroyed.

Originally, I intended to help my relatives avoid the great cosmic cataclysm, but now it seems this plan must be abandoned!” Ye Tian thought.

Of course, he didn’t know when the two universes would collide. It might not happen at all. After all, the situation in the chaos was unpredictable. If the powerful beings or forces behind the chaos had fallen, this plan would be shelved, and there would be no dual universe transcendence plan.

However, this possibility was not very likely. Ye Tian naturally couldn’t place his hopes on luck.

He needed to be prepared!

“The hope still lies in my true self. The second clone is of no use; its potential is limited. In the Desolate Realm, it could exert the combat power of a top Supreme, but once it left the Desolate Realm, it would be just an ordinary top Heavenly Venerable! However, the method for transcending the dual universes still needed to be communicated to other Supremes to prepare the Supremes of the myriad races.” Ye Tian thought.

But he wouldn’t personally disclose this matter, as it would easily reveal his secrets.

After all, such a secret wasn’t something ordinary people could know. It must have been learned from an astonishing inheritance. If any Supreme investigated or spied on him, it would be dangerous.

He was more worried about those Supremes from the twelve cosmic eras. If disclosing this information attracted their attention, it would not be a good thing for him.

Therefore, he decided to spread the news in a special way, without letting others suspect him.

“I’ll use the second clone to deliver the message, and from now on, the second clone will always guard the Desolate Realm and never go out. This way, the possibility of leakage will be eliminated!”

Immediately, Ye Tian’s second clone left the Desolate Realm.

Next, Ye Tian visited trading cities of various cosmic clans, exchanging the method for transcending the dual universes through transactions.

Soon, the method for transcending the dual universes spread. When linked to the actions and experiences of those Supremes from the twelve cosmic eras, it was easy for people to connect it to the dual universe transcendence method.

For a time, the universe was shaken.

Immortal Race.

The First Divine Lord was looking at the information just sent by his subordinates— “The method for transcending the dual universes, this...”

The First Divine Lord was shocked.

The transcendence method was very detailed, closely resembling the actions of those Supremes from the twelve cosmic eras.

“Suppressing the cosmic origin... I finally understand.

Those Supremes from the second cosmic era collected Innate Supreme Treasures, likely to repair the damaged Chaos Supreme Treasure.

That day, when the Chaos Supreme Treasure was restored, its power intimidated the universe. After that, the power of the cosmic origin declined, definitely suppressed by that Chaos Supreme Treasure.

It was precisely because the cosmic origin was suppressed that the Master of the Primordial Era could exert his true power and killed hundreds of Supremes with one blow!” The First Divine Lord suddenly understood.

“Judging from the current situation, the Supremes of the twelve cosmic eras’ plan was only halfway through. Next, they would probably gather strength, expand their power, and then wait for the dual universes to collide.

The plan seemed not to affect the myriad races, but if those Supremes from the twelve cosmic eras wanted to expand their destiny, they might attack the myriad races.” The First Divine Lord said.

Thinking of this possibility, the First Divine Lord hurriedly contacted the First Demon Lord.

The Immortal Race and Demon Race were close to each other, so the First Divine Lord and the First Demon Lord met soon.

“First Demon Lord, you should also know about the method for transcending the dual universes, right?” the First Divine Lord asked.

“Yes, I know. Although we don’t know who spread it, it should be true. I never expected that those Supremes from the twelve cosmic eras avoided the great cosmic cataclysm and reincarnated into the thirteenth cosmic era. Their real purpose was to use the dual universe transcendence method to achieve transcendence!” the First Demon Lord sighed.

“Hmph, those Supremes have already lived through countless eras. If there was no hope of transcendence, why would they live through another cosmic era? Now I finally understand—they still have hope for transcendence, and their chances are greater than the two transcendence methods we know of,” the First Divine Lord said.

“What should we do now? In terms of strength, we are absolutely no match for them. But what if, after another ninety thousand years, they are no longer bound by the agreement? Will they kill us?” the First Demon Lord asked.

“They probably won’t kill us, but they are very likely to attack the myriad races and seize territory.

Previously, the Master of the Primordial Era only killed over a hundred Supremes but didn’t kill any more. He was probably afraid that killing too many Supremes would cause the cosmic origin to reclaim more power, which would make them worry that their Chaos Supreme Treasure could no longer suppress the cosmic origin, leading to the failure of their plan,” the First Divine Lord speculated.

“Yes, that should be the reason. We couldn’t understand it before, but now that we know the dual universe transcendence method, everything is clear. But how should we respond now?” the First Demon Lord frowned.

“There are two countermeasures. One is to unite the myriad races to resist those Supremes from the twelve cosmic eras, but the possibility of such resistance succeeding is very low.

You and I both know how powerful those Supremes are. Their strength is not something that can be countered just by having a large number of Supremes.

The second countermeasure is to sabotage their plan,” the First Divine Lord said.

“Sabotage their plan? But the plan of those Supremes from the twelve cosmic eras also benefits us. After all, you and I originally had no hope of transcendence. Now, if their plan succeeds, we might have a sliver of hope!” the First Demon Lord disagreed somewhat with this approach.

“No, I mean pretending to sabotage their plan. For example, we could pretend to destroy the Chaos Supreme Treasure that suppresses the cosmic origin, thereby gaining some benefits for ourselves.

After all, if the Chaos Supreme Treasure can no longer suppress the cosmic origin, their plan would fail.

So, to ensure their plan’s success, they should agree to some of our demands,” the First Divine Lord explained.

“That’s a good plan. But we still need to discuss it with other major cosmic clans. Otherwise, relying solely on our two clans would be difficult to threaten those forces from the twelve cosmic eras!” the First Demon Lord said.

“Agreed!” the First Divine Lord nodded.

Primordial Hall.

The Master of the Primordial Era and a group of Supremes were furious. They also knew that the method for transcending the dual universes was spreading among the myriad races.

“Who leaked it? We all promised not to reveal this plan. We even forbade mentioning it during meetings, and now the plan has been completely exposed!!!” the Master of the Primordial Era roared.

Chapter 730: Unknown Existence!

The Master of the Primordial Era was furious, and the other Supremes were also extremely angry.

The Dual Universe Transcendence Plan was their most closely guarded secret, known even to very few Children of the Era.

Once this plan was leaked, if the Supremes of this universe interfered, it could potentially affect their plans. Even the slightest disruption was unacceptable.

They could not allow even a small mistake in this plan. If the plan failed, they would lose their only hope for transcendence.

“Master of the Primordial Era, we all made oaths, and they were life-bound oaths. It absolutely wasn’t us who leaked this. Could it be that they found some heritage and learned about the Dual Universe Transcendence method?” suggested Golden Light Supreme.

“Hmph, the heritage I mentioned last time was just to deceive the Supremes of all races. How could there coincidentally be a heritage about the Dual Universe Transcendence method? However, it’s true that we Supremes couldn’t have leaked it. Those Children of the Era might have just been lucky and found the heritage about the Dual Universe Transcendence method. Still, we need to investigate how this matter was leaked,” proposed the Master of the Primordial Era.

“Yes, we definitely need to investigate, otherwise, we are too passive. Based on current knowledge, it wasn’t spread by the Immortal Race or the Demon Race but in various trading cities, as if someone was selling this heritage!” said another Supreme.

“Stone Dragon Supreme, this is up to you. You are proficient in the Dao of Time and Space and should be able to find out the information about this mysterious person,” the Master of the Primordial Era looked at one of the Supremes and said.

Stone Dragon Supreme was also a very formidable Supreme. Although not as strong as the Master of the Primordial Era, he was not much weaker and was proficient in the Dao of Time and Space. His talent in time had reached the Super God level, making him one of the most troublesome Supremes.

Even though the Master of the Primordial Era could defeat Stone Dragon Supreme, he couldn’t kill him. Additionally, Stone Dragon Supreme was the top Supreme in tracking and investigating.

“No problem, one day is enough!” promised Stone Dragon Supreme.

“Good, then we shall wait for Stone Dragon Supreme’s news!” declared the Master of the Primordial Era.

One day wasn’t long, and even before a full day had passed, Stone Dragon Supreme returned.

After all, Stone Dragon Supreme’s speed far surpassed other Supremes. If it were any other Supreme, just traveling might have taken several days.

“Stone Dragon Supreme, have you found out anything?” asked the Master of the Primordial Era.

“It was a Heavenly Venerable, origins unknown, who seems to have some understanding of the Dao of Time and Space. They avoided time-space detection and disturbed time-space wherever they went. Even I couldn’t track their location. However, I have captured their aura. If they appear again, I will definitely recognize them!” replied Stone Dragon Supreme.

“It seems someone intentionally spread the information. If we can’t find them for now, so be it. Now, how do we solve this problem? The entire universe knows this secret, and we can’t possibly kill all the living beings in this universe,” sighed the Master of the Primordial Era.

“Let’s contact that existence again and explain the situation to them to avoid affecting the plan!” suggested Golden Light Supreme.

“Alright!” The Supremes nodded.

Boom!!!!

The Supremes blasted through layers of space, arriving directly at the cosmic barrier.

Next, they took out a formation altar, attempting to contact the outside.

Although they couldn’t leave the universe, it didn’t mean they couldn’t contact the chaos beyond.

“I wonder when that existence will be able to come over,” murmured the Master of the Primordial Era.

Time passed little by little.

Three days later.

A phantom descended upon the cosmic barrier. It was an entity with two horns on its head, but its face remained obscured.

Its aura was incredibly terrifying; as soon as it appeared, it caused a tremor in the universe's origin. Infinite origin power of the universe transformed into the Eye of the Heavenly Dao, staring at the phantom.

Both sides engaged in a new confrontation on an unknown level, making the Supremes feel as insignificant as ants.

"Why have you summoned me? I cannot enter the universe, and this thought form cannot last long. Speak quickly if there is something you need to say!" the unknown existence said coldly.

"Lord, the method of Dual Universe Transcendence has been leaked. We do not know who leaked it, but it was definitely not us," the Master of the Primordial Era said trembling.

"Leaked, huh?" The unknown existence was silent for a moment before continuing, "It's likely that a faction in the chaos mentioned the Dual Universe Transcendence method in their heritage, which was then fortunately obtained by the Thirteenth Era's forces. However, you need not worry. The forces in this area are mostly restrained by the faction behind me and cannot interfere here. Therefore, the Dual Universe Transcendence Plan will not be affected by the forces from the chaos. You only need to safeguard that Chaos Supreme Treasure. It is very rare; you have only repaired half of it, and the other half is in another universe. In the chaos, there are only a few treasures that can suppress a universe's origin. If you lose it, I won't be able to find a new one. Do not let the universe's origin break free from its restraints, and the plan will not fail. Do you understand?"

"Yes!" The Master of the Primordial Era and the other Supremes responded.

"Lord, may I ask, when will the other universe collide with ours?" the Master of the Primordial Era inquired.

"Wait. Their plan is not as advanced as yours. They have not yet completed the task of suppressing their universe's origin. Once it is suppressed, the final plan can be initiated, and it will take about 200,000 years for the two universes to collide. After the initial fusion, it will take another 100,000 years for the universes to stabilize. Then you can enter the other universe, comprehend its rules, enhance your foundation and destiny, and strive for the Transcendent Realm!" the unknown existence explained.

"Thank you, Lord, for informing us!" The Master of the Primordial Era quickly expressed his gratitude.

“My thought form cannot hold much longer. Do not summon me unless it is of great importance. Each entry into the universe costs me considerable power. Understand?” The unknown existence finished and then vanished.

After the unknown existence departed, the Master of the Primordial Era and the other Supremes breathed a sigh of relief.

Though they were powerful enough to instantly kill ordinary powerful Supremes, they felt like ants before that existence.

Upon returning to the Primordial Hall, the other Supremes departed one by one.

After the Supremes from other factions had left, a Supreme from the Primordial Hall spoke, “Hall Master, I always feel that this existence is using us. Otherwise, why would it help us without compensation?”

“Shut up!” The Master of the Primordial Era roared in anger, “Is that existence someone you can discuss?”

“Forgive me, Hall Master. I was just speaking casually!” the Supreme said in fear.

“Forget it. That existence doesn’t have the ability to spy on the universe’s situation; otherwise, it wouldn’t need us. However, you are somewhat correct. That existence is certainly using us. Not only do I understand this, but other factions are also very clear. Yet, even if we are being used, we are willing! The opportunity for transcendence, no matter how dangerous or exploitative, is worth it!” declared the Master of the Primordial Era.

“Hall Master, I understand!” The Supreme bowed his head.

“Go now, and investigate the situation of the other races as well!” commanded the Master of the Primordial Era.
