Chapter 731: Entering the Desolate Realm, A New Cultivation Begins!

Several months later.

The Supremes of various clans, led by the Immortal Race and the Demon Race, contacted the Primordial Hall, requesting a negotiation. The topic of this negotiation revolved around the method of transcending the Dual Universes.

The Supremes of the Twelve Cosmic Eras could no longer argue against it, as the Supremes of the myriad races firmly believed the transcendence method of the Dual Universes was real. They suspected the Supremes of the Twelve Cosmic Eras of implementing this plan.

Unless both sides completely broke off relations, causing a huge conflict, the Master of the Primordial Era and other Supremes didn't want to see such a scenario unfold.

After all, they couldn't kill all the Supremes. If the cosmic origin strengthened, their plan would fail. Conversely, if they let the myriad Supremes help the cosmic origin break free from suppression, their plan would still fail.

Therefore, the Master of the Primordial Era and other Supremes had to agree to the negotiation.

In a certain area outside the Primordial Hall, a small world appeared. This world had been temporarily created for the purpose of the negotiation between the two sides.

This time, the First Divine Lord, the First Demon Lord, and other Supremes arrived, but not in their true forms; they sent avatars instead.

Previously, they had been truly frightened. Even though they had more confidence this time, they still didn't dare come in their true forms.

After all, the Master of the Primordial Era and the other Supremes might not dare to kill too many Supremes, but killing one or two wasn't an issue.

Thus, they didn't dare take too much risk.

In the small world.

The Master of the Primordial Era and other Supremes arrived to meet with the First Divine Lord and the First Demon Lord.

"First Divine Lord, you have some nerve to come here!" the Master of the Primordial Era said.

"Master of the Primordial Era, why wouldn't I dare? Your strength indeed far surpasses ours, but now that we know about your plan, you wouldn't dare kill too many Supremes. If your plan fails, what use would it be even if you controlled the entire universe? When the Great Cosmic Cataclysm occurs, you would die too, truly die, unable to live through another cosmic era!" the First Divine Lord replied with a smile.

"Hmph, though I don't know who leaked the information, do you think merely knowing this plan can threaten me?" the Master of the Primordial Era retorted angrily.

"Hahaha, Master of the Primordial Era, we can indeed threaten you. The cosmic origin has been suppressed by your strongest supreme treasure, hasn't it? We know this. It's no wonder that communicating with the cosmic origin has been so difficult recently and the cosmic origin has become so weak. Even some of our clan's Heavenly Prides who have reached the level of Child of the Universe have seen that the power of the cosmic origin is nearly exhausted.

But after all, this is our universe, and we are beings of this cosmic era.

If the myriad races use their destiny, integrate into the cosmic origin, and sacrifice their power to assist the cosmic origin, they can definitely break the seal. Isn't that right?" the First Divine Lord threatened.

"You..."

The Master of the Primordial Era and others wished to annihilate the First Divine Lord, but they didn't dare do so.

Even if he really killed the First Divine Lord, there were still the First Demon Lord and others... If they were pushed to the brink, causing their plan to fail, it would be regrettable.

Moreover, he could only act as a representative and couldn't truly control all the Supremes. For example, powerful Supremes like the Golden Light Supreme and the Stone Dragon Supreme usually listened to him but wouldn't let him act recklessly at critical moments.

"Speak then, what are your terms? Actually, this benefits you too. You also have a hope of transcendence. If you hinder us, you won't transcend either," he said.

"Very well!" the First Divine Lord smiled. "Master of the Primordial Era, we can refrain from disrupting your plan. Even if the Dual Universe Plan starts and eventually leads to the universe's destruction, it doesn't matter to us. After all... the future of the universe isn't our concern. We also want to attempt to reach the Transcendent Realm.

But you are too powerful. Compared to you, we have no advantage.

So, we need to sign a new agreement."

"What agreement? Speak!" the Master of the Primordial Era said impatiently.

"From now on, you need to ensure that you do not attack the major clans of our universe. As for the minor clans, do as you wish.

The territories of the minor clans combined are extensive enough for you to make use of.

Additionally, the Supremes are not allowed to attack and kill our younger generation of geniuses.

The most crucial point is that you need to inform us when the other universe will collide with ours.

How about that?" the First Divine Lord proposed.

The Master of the Primordial Era fell silent, contemplating.

Strictly speaking, the conditions proposed by the First Divine Lord weren't excessive, but this would affect their destiny.

They had been waiting for ten thousand years to pass so they could attack the myriad races, seize vast regions of the universe, and gather endless destiny.

But now, if they agreed, the destiny they could gather would be significantly less.

After deliberating with the other Supremes, the Master of the Primordial Era finally agreed.

"Alright, we agree," the Master of the Primordial Era said reluctantly.

Soon, both sides drafted a contract agreement, reaching a general consensus.

After the First Divine Lord and the other Supremes left, the Master of the Primordial Era and the other Supremes began discussing.

"Those damn myriad races dare to threaten us!" one Supreme said angrily.

"Forget it. Although it will slightly affect us, it won't impact the plan. The real accumulation of destiny will occur after the collision of the Dual Universes. Hmph, once the two universes make contact, war will inevitably break out.

By then, the Chaos Supreme Treasures of the two universes will merge, completely suppressing the origins of both universes.

At that point, killing as many Supremes as needed won't matter.

Whether these Supremes can survive the attacks from the other universe's Supremes is another issue.

They think that by not opposing us, they can survive and transcend. How laughable! Strength is what truly matters!" the Master of the Primordial Era declared.

“Indeed, the Master of the Primordial Era is absolutely right. We just have to wait!” the Supremes echoed.

While the Supremes of the Twelve Cosmic Eras and the Supremes of the myriad races were negotiating, Ye Tian initially had no knowledge of it. However, the matter soon spread, and he naturally became aware of it, including the agreement reached by both sides.

In the Desolate Realm.

The second avatar of Ye Tian murmured, “The Supremes of the myriad races and the Supremes of the Twelve Cosmic Eras have signed an agreement, buying me a considerable amount of time. Otherwise, if war broke out, the Human Race would also get involved, leaving me little time to grow. This is good; at least it gives me ample time to grow!”

He then prepared for his first avatar to enter the Desolate Realm.

Under Ye Tian’s arrangements, ten days later, his first avatar appeared outside the Desolate Realm and was personally received by the second avatar into the Desolate Realm.

The Desolate Tower also became Ye Tian’s cultivation place. Here, he would embark on a period of intense cultivation to significantly enhance his strength.

When the time came, his combat power would reach a terrifying level.

Chapter 732: Tremendous Surge in Power!

In the Desolation Tower.

Ye Tian’s primary avatar was cultivating. At that moment, his cultivation level had reached the peak of the Universal God realm. He had no immediate plans to break through to the Dominator realm and could only focus on improving other aspects.

“First, I’ll comprehend the Chaos Golden Desolation Technique!” Ye Tian murmured to himself.

The Chaos Golden Desolation Technique was an unparalleled secret art within the chaos. He had already begun cultivating the sixth level of this technique.

However, the Chaos Golden Desolation Technique was extremely difficult to practice. To cultivate the sixth level to perfection would take at least billions of years.

Strictly speaking, the universe was not a suitable place to cultivate the Chaos Golden Desolation Technique due to the lack of auxiliary materials.

But in the Desolation Realm, there were treasures that could aid in cultivating the Chaos Golden Desolation Technique, enough to shorten Ye Tian's cultivation time by countless times.

And this treasure was the source power of the Desolation Realm! He had once used the source power of the Desolation Realm for cultivation, and one of his main purposes in ruling the Desolation Realm was for this source power.

"The Desolation Realm is not a true world but a top-tier chaos spiritual treasure. The so-called source power is the essence of the chaos spiritual treasure. However, the Desolation Realm is unique; even if its source is partially consumed, it can slowly recover.

As long as the consumption of the Desolation Realm's source does not exceed thirty percent, it won't affect the realm! Thirty percent of the Desolation Realm's source is enough for me to cultivate for a long time!" Ye Tian muttered to himself.

Immediately, he began to summon the source power of the Desolation Realm, transforming the surroundings into a sea of source power.

Boom!!!! Ye Tian's cultivation commenced! In the ocean of source power, Ye Tian continuously absorbed and refined, comprehending the Chaos Golden Desolation Technique.

Originally, the cultivation of the Chaos Golden Desolation Technique was incredibly slow, but now it progressed at an astonishing speed. Time slowly passed.

"What a terrifying Chaos Golden Desolation Technique! The sixth level of this technique is far more frightening than the fifth level. The further I cultivate this supreme secret art, the more terrifying it becomes. Now, with just a small progress, my limits have expanded significantly. If I perfect the sixth level, my limits will be beyond imagination!" Ye Tian marveled internally.

He felt extremely fortunate to have acquired the Chaos Golden Desolation Technique. Without it, he wouldn't have possessed such combat strength today. At best, he would have been only slightly stronger than the Children of the Era in the twelve universes.

The primary factor that set him far above those Children of the Era was the Chaos Golden Desolation Technique.

In the blink of an eye, a hundred years passed.

"The sixth level of the Chaos Golden Desolation Technique has been mastered. The progress is astonishingly fast. Now, I need to slow down, stabilize my foundation, and further enhance my strength!" Ye Tian thought to himself.

Thus, he began consuming various treasures to boost his strength rapidly.

Soon, he reached his peak strength, having fully cultivated the sixth level of the Chaos Golden Desolation Technique.

In the eighth hundred year of his entry into the Desolation Realm, Ye Tian finally perfected the sixth level of the Chaos Golden Desolation Technique. The next step would be... the seventh level of the Chaos Golden Desolation Technique.

However, without stepping into the Dominator realm, he couldn't cultivate the seventh level.

"With the Chaos Golden Desolation Technique successfully cultivated, next is the Chaos Dao. My Chaos Dao has reached the pinnacle of the Dharma Aspect realm. The next step is the Origin realm!"

For Ye Tian, the Origin realm represented a new beginning. Only by stepping into the Origin realm could one be considered to have truly entered the threshold of the Dao; everything before that was merely laying the foundation.

Those powerful Supremes all had at least one Dao comprehended to the Origin realm.

To quickly elevate his Chaos Dao to the Origin realm, Ye Tian not only relied on the Chaos Stone Carvings but also took out a vast number of auxiliary treasures stored within the Desolation Tower, sparing no expense to assist his cultivation.

The Desolation Realm was a world of chaotic spiritual treasures that had flowed into it, and the Desolation Tower contained the wealth of an ancient innate Desolation Clan. The number of treasures was enough to rival a great clan in an ordinary universe.

Ye Tian's cultivation speed increased at an incredible rate because he spared no expense. In the past, he would have never dared to waste resources so extravagantly; the cost would have been unbearable even for a Supreme. However, Ye Tian no longer cared; since the resources came freely, why not use them? Another 200 years passed this way.

On this particular day in the Desolation Tower, Ye Tian's manifestation of the Chaos Dao had transformed into an ancient well, and within this well, a trace of origin gradually began to form. This trace of origin grew at an incredible speed.

Before long, the origin within the ancient well was fully formed.

"The Origin realm is here!"

Ye Tian opened his eyes and exhaled deeply.

Reaching the Origin realm in his Chaos Dao marked a significant surge in his power. The Chaos Dao at the Origin realm was far stronger than the Origin realm of other Daos, even comparable to the peak of other Daos' Origin realms.

In the current universe, there were almost no individuals who had their Dao reach the peak of the Origin realm. Advancing even slightly after entering the Origin realm was incredibly difficult.

Many Supremes were unsure how to progress and could only advance blindly.

Ye Tian's attainments in the Dao had already surpassed those of other Supremes. In terms of pure Dao power, Supremes could not compare to him.

However, Ye Tian was fully aware that his current strength was still far from sufficient.

“I need to further comprehend those great divine abilities, especially the Time Divine Ability and the Space Divine Ability. These two abilities are my true trump cards; the other divine abilities are somewhat weaker.”

Immediately, Ye Tian focused on comprehending the Wheel of Time and the Spear of Hellish Void, striving to perfect these great divine abilities as soon as possible. Only then would they become truly terrifying.

Unknowingly, Ye Tian had already spent ten thousand years in the Desolation Realm.

With his sister and wife managing the Tian Pavilion and his esteemed position among the human race, there were no pressing matters. Aside from occasionally sending messages to inquire about things, Ye Tian barely intervened.

“Ten thousand years. Although my cultivation is still at the Universal God realm, I am far stronger than I was in the past,” Ye Tian murmured to himself.

No one knew just how powerful he had become; only he was aware of it.

The Spear of Hellish Void, his Space Divine Ability, had reached the peak of mastery. The Wheel of Time had also reached the peak of mastery. Several other time-space divine abilities had been cultivated to either minor or major completion.

Most importantly, Ye Tian’s Chaos Heaven Saber had been perfected to a new level, and his Chaos God Demon Form had become even more terrifying.

Additionally, one of his trump cards—the Tiangang Battle Technique—had finally been cultivated to the third style, allowing him to fully enhance his combat strength tenfold.

“It’s time to leave the Desolation Realm. Although there are still many resources here, most of them are now useless to me. If I stay here, my progress will slow down. I need to seek other opportunities to continue enhancing my strength.”

Immediately, Ye Tian left the Desolation Realm but left his second avatar behind.

The Desolation Realm was his territory and a place of retreat. If he ever angered a powerful being that even the human race couldn't protect him from, he could retreat to the Desolation Realm.

Therefore, he didn't want to expose his second avatar or the Desolation Realm just yet.

Chapter 733: The Abyss of Destruction Stirs Again!

Ye Tian left his second self in the Desolate Realm and departed alone.

With his current combat power, few in the Dominator Realm could contend with him. Unless a Heavenly Venerable intervened, he faced almost no threats.

However, he still lacked the strength to oppose a Heavenly Venerable.

The gap between the Dominator Realm and the Heavenly Venerable Realm was immense. Moreover, he was only at the Universal God level. Challenging a Heavenly Venerable across two major realms was nearly impossible.

After all, there were no weaklings in the Heavenly Venerable Realm. Those who reached it were usually incredibly talented, often being Children of the Universe.

Thus, challenging a Heavenly Venerable across two major realms was out of the question.

Before long, Ye Tian returned to the Holy City of Humanity.

Not long after his return, the Abyss of Destruction in the universe stirred once more.

On this day, the previously calm Abyss of Destruction began to churn again.

Boom! A large number of Creatures of Destruction surged out of the abyss, ready to attack various parts of the universe.

It happened so suddenly that there were no signs at all.

In the past, the stirring of the Abyss of Destruction came with warnings, giving the myriad races time to react and prepare in advance.

But this time, there was no preparation time at all.

Additionally, there had been a recent turmoil of Creatures of Destruction, which had just been suppressed. It should have taken a long time before such turmoil occurred again.

Yet now, a sudden change had occurred. Caught unprepared, several nearby races suffered.

One by one, races were overwhelmed by the Creatures of Destruction, annihilated in an instant. Even a few Supremes failed to escape, being besieged and killed by powerful Supreme-level Creatures of Destruction.

The Creatures of Destruction cared not for their enemies; their only aim was to destroy everything. Countless stars and star fields were laid waste.

Soon, the strong figures of the Immortal Race and the Demon Race responded, rushing to suppress the Creatures of Destruction.

However, due to the lack of prior preparation, too many Creatures of Destruction had broken out, making this disaster far worse than the last.

In the Primordial Hall, the Master of the Primordial Era knew the Creatures of Destruction had emerged from the Abyss of Destruction. His expression changed drastically, and he immediately summoned other Supremes to suppress them.

Quickly, most of the Supremes from the Twelve Cosmic Eras arrived and provided support.

They did this not out of goodwill, but out of necessity.

“The Abyss of Destruction, we had forgotten about it,” the Master of the Primordial Era lamented.

“Indeed, every cosmic epoch has faced it, but because it erupts only after long intervals, we tend to overlook its presence,” Golden Light Supreme frowned. “Moreover, this cosmic epoch had just experienced a turmoil of Creatures of Destruction not long ago, so we paid even less attention.”

“Unexpectedly, a second turmoil erupted so quickly!”

“It must be due to the universe’s origin,” the Master of the Primordial Era said. “Although the origin cannot control the Abyss of Destruction, it has always suppressed it. This time, since we used a Chaos Supreme Treasure to suppress the universe’s origin, it likely deduced a countermeasure and utilized the Abyss of Destruction against us. The origin must have forsaken its suppression of the Abyss, allowing these Creatures of Destruction to break free.”

“Once these creatures destroy enough star fields and living beings, the power of the universe’s origin will return, possibly bringing about the Great Cataclysm ahead of schedule.”

“The universe’s origin is immortal; it won’t be destroyed, merely resetting the cosmic epoch.”

“We overlooked this. We didn’t expect the universe’s origin to use such a method to thwart our plans!” Stone Dragon Supreme said coldly.

“We should say that our forceful resistance against the universe’s origin led it to take measures for self-preservation.

Now, things have become troublesome. You all must have tried entering the Abyss of Destruction before. The most fearsome Creatures of Destruction slumber in its depths, and they are not easy to handle.

Under normal circumstances, those terrifying creatures would remain asleep during disturbances and would not emerge.

But now, with the universe’s origin no longer suppressing the abyss, those dreadful Creatures of Destruction will come out. The Supremes of this cosmic epoch will certainly be unable to withstand them. We must be the ones to hold them back!” said the Master of the Primordial Era.

“How frustrating, having to save the Supremes of this cosmic era! If it weren’t for the Dual Universe Transcendence Plan, I would let the Creatures of Destruction wipe out all the living beings of this epoch before taking action!” a Supreme remarked.

“Enough talk, let’s get going. We can’t wait for those terrifying Creatures of Destruction from the abyss to awaken and charge out, or it will truly be troublesome!” The Master of the Primordial Era urged, “Hurry up!”

“We understand, Master of the Primordial Era!” the Supremes responded.

In the Holy City of Humanity.

Ye Tian had just returned and was preparing to go into seclusion when news broke out.

The Creatures of Destruction had reappeared!

“What’s that? The Creatures of Destruction have appeared again?” Ye Tian was shocked.

He immediately contacted Kunwu Supreme. Considering the gravity of the situation, seeking out Kunwu Supreme was not an interruption.

One of Kunwu Supreme’s avatars met Ye Tian.

“Ye Tian, you seek me to inquire about the Creatures of Destruction?” Kunwu Supreme asked gravely.

“That’s correct!” Ye Tian nodded.

Kunwu Supreme explained, “This time, it’s very troublesome. There were no signs beforehand, so too many Creatures of Destruction burst out all at once. Several races have already been destroyed, and even a few Supremes have died.

We humans have dispatched nearly half of our Supremes and many Heavenly Venerables to head there. I, too, have gone, and the one before you is merely an avatar.

I estimate it won’t be long before we also need the aid of you Universal Gods and Dominators.

Ye Tian, you are at the Universal God level, so you must be ready to be summoned.

Remember, if you sense a powerful Creature of Destruction, do not engage in prolonged battles. Escape immediately, understand?”

“I understand!” Ye Tian nodded.

He realized the gravity of the situation. The previous turmoil of Creatures of Destruction had led to the fall of many Universal Gods and Dominators among humans.

That last time, there had been preparation, yet there were still such losses. Now, with no preparation at all, it was uncertain if they could hold back the Creatures of Destruction.

If they failed to do so, a large number of Supremes would fall, and the entire universe would prematurely enter the Great Cataclysm.

However—

“The Supremes from the Twelve Cosmic Eras will surely take action. If the universe enters the Great Cataclysm, they will perish too.

Moreover, the rampant slaughter of living beings and destruction of star fields by the Creatures of Destruction would hinder their plans.

Once the Supremes from the Twelve Cosmic Eras intervene, they will undoubtedly suppress the Creatures of Destruction. The only question is the extent of the losses. Hopefully, the human race will suffer fewer casualties,” Ye Tian lamented.

Chapter 734: The Appearance of the King of Destruction!

In the region outside the Abyss of Destruction, a group of Supremes arrived, continuously battling numerous Creatures of Destruction.

No one knew how many Creatures of Destruction there were. Previously, the upheavals in the Abyss of Destruction had never been this chaotic. In past epochs, only a small number of Creatures of Destruction had managed to break out.

Back then, these Supremes could set up countless formations in advance to intercept the Creatures of Destruction from the Abyss of Destruction. At most, a few would slip through, but it wouldn't affect the overall situation.

But now, there were no limitations. Creatures of Destruction were pouring out almost without end.

The pressure on these Supremes was immense. They realized there was little hope of completely intercepting these Creatures of Destruction. They could only keep killing some and try to stop others from breaking through.

They also knew the difficulty of this task was enormous, and it was unclear how many Supremes would have to sacrifice themselves.

However, they had no choice. If they didn't stop the Creatures of Destruction and the universe was destroyed, they would die as well.

Suddenly.

A Supreme-level Creature of Destruction charged into the area of an Angel Race Supreme, attacking him frantically.

If it had been just one Supreme-level Creature of Destruction, the Angel Race Supreme wouldn't have been afraid. But there were numerous Dominator-level and Heavenly Venerable-level Creatures of Destruction around him.

At first, he managed to hold his ground.

But only a few minutes later, a moment of carelessness led to him getting injured. The next moment, he was swarmed by numerous Creatures of Destruction, instantly overwhelming him.

“Ah!!!!”

Amidst his screams, the Angel Race Supreme's angel wings were torn apart, and countless divine blood scattered across the starry sky.

"Save me!!!" He cried out, but no one came to his rescue.

It wasn't that they didn't want to save him; they simply couldn't.

The number of Supremes was too few. The Heavenly Venerables were still on their way, and the Dominators and Universal Gods were being mobilized, but it took time.

Thus, the Supremes were the main force holding the line. But their numbers were pitifully small, and the Creatures of Destruction were overwhelming in number.

So, each Supreme had to face countless Creatures of Destruction alone, with no extra strength to save others. The Angel Race Supreme's aura grew weaker and his injuries more severe.

Then, at a certain moment.

Boom!!!!!! A shockwave swept across the entire region, annihilating countless Creatures of Destruction. The space within this starry sky was shattered to dust, leaving only some severely injured Heavenly Venerable-level Creatures of Destruction and the almost unharmed Supreme-level Creature of Destruction.

As for the Angel Race Supreme, he had long disappeared.

This was because he had self-destructed, taking countless Creatures of Destruction with him in his final moments. Yet, he still failed to kill the Supreme-level Creature of Destruction.

The recovery abilities of Supreme-level Creatures of Destruction were terrifying, and their life-saving methods were incredibly astounding. Even the self-destruction of the Angel Race Supreme couldn't kill it.

Only a Supreme like the First Divine Lord could kill an ordinary Supreme-level Creature of Destruction.

The Supremes had divided the Creatures of Destruction into separate battlefields, and one of these battlefields belonged to Kunwu Supreme.

He had also arrived here, fighting against the Creatures of Destruction.

Although Kunwu Supreme was far from the Angel Race Supreme, he sensed the latter's self-destruction and sighed inwardly, "Another Supreme has fallen."

Perhaps a part of the Angel Race Supreme was preserved by a protective artifact, but if he couldn't be resurrected, it still meant he had fallen.

Resurrecting a Supreme was incredibly difficult. Even preserving a part of their soul was almost impossible.

Only those like the First Divine Lord of the Immortal Race and the First Demon Lord of the Demon Race, who possessed true life-saving treasures, could hope to survive. But not every Supreme had the luck of the First Divine Lord and First Demon Lord.

So, the Angel Race Supreme had truly fallen.

"Ordinary Heavenly Venerables can't survive long on such a battlefield. Soon, I might fall as well. Only the truly top-tier Supremes can save themselves," Kunwu Supreme thought.

At that moment, a beam of golden light appeared, instantly crossing the battlefield and obliterating countless Creatures of Destruction.

Staring at the battlefield full of corpses, Kunwu Supreme's pupils contracted.

The recent attack had been terrifying. If it had landed on him, it would have annihilated him instantly.

Regarding this attack, he had some suspicions. A sweep of his divine sense revealed several figures.

"The Supremes of the Twelfth Universal Epoch have indeed taken action!" Kunwu Supreme thought to himself.

The one who had just attacked was none other than Golden Light Supreme. Golden Light Supreme was considered one of the strongest of the Twelfth Universal Epoch, basically on par with the Master of the Primordial Era in terms of power. His combat strength was incredibly fearsome.

“Roar!!!”

Two Supreme-level Creatures of Destruction sensed the presence of Golden Light Supreme and the other Supremes and charged toward them.

However, Golden Light Supreme merely slapped his palms twice, instantly killing the two Supreme-level Creatures of Destruction.

“Too weak!” Golden Light Supreme said, somewhat arrogantly.

“Act quickly, kill these Creatures of Destruction, and seal the Abyss of Destruction!” commanded the Master of the Primordial Era.

“Understood!” Golden Light Supreme and the other Supremes nodded.

With these formidable Supremes joining the fray, the pressure on the Supremes of the myriad races was significantly reduced. They soon pushed the battlefield to the edge of the Abyss of Destruction, showing signs of driving the Creatures of Destruction back into the abyss.

But at that moment, an extremely terrifying aura emanated from the Abyss of Destruction. It was a Creature of Destruction with golden eyes, and its aura of destruction was extremely potent.

“This...” The First Divine Lord and the First Demon Lord trembled.

“How could such a being exist in the Abyss of Destruction?” The Supremes, including the First Divine Lord, were in disbelief.

In previous upheavals of the Abyss of Destruction, such a Creature of Destruction had never appeared. If such a being had appeared, they would not have been able to hold it off.

“The King of Destruction has emerged!” murmured the Master of the Primordial Era.

“I will confront him!” said Golden Light Supreme.

Swish! Golden Light Supreme charged forward at incredible speed, wielding a massive golden seal. This seal was clearly a top-tier supreme treasure.

“Go!”

The golden seal attacked the King of Destruction, who also struck back at the seal with a claw.

Boom! The King of Destruction was sent flying, but Golden Light Supreme also took several steps back.

“As expected of the King of Destruction!” Golden Light Supreme was not surprised at all. During a previous upheaval of the Abyss of Destruction in the last Universal Epoch, he had entered the abyss and awakened a few Kings of Destruction, scaring him into fleeing. Otherwise, in such an environment, he would have perished.

But this was his first true confrontation. “Master of the Primordial Era, how could such a Creature of Destruction exist in the Abyss of Destruction?” inquired the First Divine Lord.

“This is the King of Destruction. It resides in the deepest part of the Abyss of Destruction and remains asleep due to the influence of the rules. It only awakens if disturbed. Otherwise, even during an upheaval of the Abyss of Destruction, it wouldn’t emerge.

But this time, it has emerged! Its strength rivals the top-tier Creatures of Destruction, making it extremely difficult to kill. It can only be suppressed and sealed!”

Chapter 735: Team Formation, Battlefield!

The words of the Master of the Primordial Era stunned the First Divine Lord.

“I never expected that there would be a King of Destruction in the Abyss of Destruction!!!”

The First Divine Lord felt an immense shock internally.

Immediately, he felt grateful for the support of the Supremes from the Twelve Cosmic Eras. Without them, if they encountered even one King of Destruction, their demise would be certain, and very few would escape.

But on second thought, it was the plan of those Supremes from the Twelve Cosmic Eras that led to this situation.

In any case, since the upheaval in the Abyss of Destruction was caused by the Twelve Cosmic Eras, it was only right for them to resolve it.

Boom!!!!

Another terrifying aura emanated from the depths of the Abyss of Destruction. Accompanied by a horrifying roar, yet another King of Destruction appeared.

“We must delve into the Abyss of Destruction to suppress those Kings of Destruction. The exit of the Abyss of Destruction is too vast, and too many Creatures of Destruction are emerging. If we don’t suppress them internally, it’s impossible to stop the Kings of Destruction.” The Master of the Primordial Era suggested.

Each of their Supremes was indeed very powerful, and at least a dozen Supremes combined could contend with one King of Destruction. However, even with the combined effort of a dozen Supremes, killing one King of Destruction was incredibly difficult and time-consuming.

They couldn’t afford to trigger the Great Cataclysm of the universe prematurely just to destroy one King of Destruction, as it would be meaningless! Therefore, they had to stop the Kings of Destruction from emerging and gradually seal the Abyss of Destruction.

This process would take a long time, but they had no other choice.

“Charge!”

The Master of the Primordial Era, along with the Golden Light Supreme and other Supremes, rushed into the Abyss of Destruction. However, they didn’t venture too deep, as the suppression there was too intense, making it impossible to contend with the Kings of Destruction.

Thus, they chose to intercept the Creatures of Destruction in the upper regions of the Abyss of Destruction.

Another group of Supremes was responsible for killing other Creatures of Destruction outside.

Even so, the number of Supremes was still insufficient, and reinforcements were needed.

Overall, the safety of the Supremes was now more assured. At least they wouldn't fall easily, and even if they were in danger, there would be other Supremes to support them.

So, the situation had improved significantly compared to before.

Holy City, the Human Race.

Many forces had been summoned to send Universal Gods and Dominators to the Abyss of Destruction to kill the Creatures of Destruction.

Ye Tian was also among those summoned. Being at the peak realm of a Universal God with unparalleled combat power, if he didn't go, how would other Universal Gods feel? Therefore, Ye Tian had to go.

In the Tian Pavilion.

Xiao Yue reminded Ye Tian, "Husband, be careful. Don't provoke those powerful Creatures of Destruction. There are many strong individuals in the universe; they don't need you alone!"

"Don't worry, I know my limits!" Ye Tian replied.

At the eastern gate of the Holy City, numerous massive warships were docked, waiting for the Universal Gods and Dominators to board.

At this moment, Ye Tian truly realized the number of Universal Gods in the Holy City.

Suddenly, Ye Tian's gaze fixed on one of the warships. The emblem on it was unmistakably that of the Four Great Heavenly Gates.

"It's a warship of the Four Great Heavenly Gates!"

Ye Tian saw many soldiers from the Heavenly Gates entering the warship, including some ordinary Universal Gods. Ordinarily, ordinary Universal Gods could opt out, but it seemed all the Universal Gods from the Heavenly Gates were heading there.

Ye Tian boarded an ordinary warship and entered the main cabin, where he saw other Universal Gods. This warship housed around a thousand Universal Gods.

However, it was uncertain how many would return alive.

Soon, the warship gathered about 140 Universal Gods and set off for the battlefield.

Suddenly, a Dominator appeared.

This Dominator was none other than the renowned Dominator Donghui from the City Lord's Mansion.

"Everyone, I am Dominator Donghui, the commander of this warship. Since you have boarded this warship, I have some arrangements to mention.

Universal Gods are indeed powerful within the human race, but on the battlefield against Creatures of Destruction, they are quite weak. A single Universal God can easily be surrounded and killed.

I suggest forming groups of five to join the battlefield.

Of course, I won't force you to team up. It's just a suggestion, and I hope you choose your teammates freely!"

After saying this, Dominator Donghui left.

As soon as Dominator Donghui departed, a group of people approached Ye Tian.

“True Lord of Ten Thousand Laws, let’s team up!”

“True Lord of Ten Thousand Laws, I am very strong. Choose me for your team!”

“True Lord of Ten Thousand Laws, I specialize in illusions and can be of help. Choose me!”

Looking at this group of Universal Gods, Ye Tian understood their intentions. Given his reputation, these Universal Gods naturally recognized him.

He was known as the universe’s number one genius, with terrifying combat power capable of defeating even a Child of the Era. Who wouldn’t want to team up with him? Following Ye Tian would at least provide some security!

Initially, Ye Tian didn’t want to form a team, preferring to execute the task of killing Creatures of Destruction alone. But upon reconsideration, having a few extra people to assist wasn’t a bad idea.

Moreover, the battlefield for these Universal Gods was naturally the rear, intercepting weaker Creatures of Destruction, so these Universal Gods wouldn’t be a burden.

Immediately, Ye Tian used his replication talent to assess the talents of these Universal Gods.

He wanted to select a few with strong survival talents, as he didn’t want to spend all his time rescuing teammates, which would surely delay him.

“You, you, and you, are you willing to team up with me?”

Ye Tian called out to four people.

“Willing!”

The four were overjoyed and nodded quickly.

Seeing Ye Tian had chosen his teammates, the other Universal Gods stopped crowding around him and started looking for their own teammates.

Soon, Ye Tian became acquainted with his four teammates.

These four were named Frost Flower True Lord, Seven Swords True Lord, Langya True Lord, and Black Wind True Lord, with Frost Flower True Lord being a female.

All four Universal Gods were at the peak realm of Universal God, with powerful auras, not weak Universal Gods.

Ye Tian chose them because they all possessed healing talents, immortality talents, or other types of recovery talents. Additionally, their defensive abilities were strong, providing better survivability.

During their conversation, Ye Tian also learned about their backgrounds.

Frost Flower True Lord belonged to a force in the Holy City called Frost Flower Palace, which was comparable in strength to the Tian Pavilion. Meanwhile, Seven Swords True Lord, Langya True Lord, and Black Wind True Lord were members of the Divine Blade Alliance, acting as free agents.

Because of this, they boarded this warship instead of going with the Divine Blade Alliance's internal warships to the battlefield.

Chapter 736: Battle, Slaying the Creatures of Destruction!

Ye Tian familiarized himself with the four Universal Gods: Frost Flower True Lord, Seven Swords True Lord, Langya True Lord, and Black Wind True Lord. These four had long heard of Ye Tian but were not well-acquainted with his true combat power.

After all, they had only heard rumors and had never met Ye Tian or witnessed any of his battles, so they had no concrete understanding of his strength.

“True Lord of Ten Thousand Laws, we’ve heard that your power is immense. Can you tell us more about it?” Frost Flower True Lord asked curiously.

“When we encounter the Creatures of Destruction and engage in battle, you’ll see for yourselves. During the fight, I hope you can assist by finishing off the creatures I heavily injure. Creatures of Destruction are difficult to kill. Even those I’ve severely wounded will still pose a challenge for you to finish off,” Ye Tian advised.

“We understand, True Lord of Ten Thousand Laws. We managed to intercept Creatures of Destruction the last time, so we have some understanding of them,” said Seven Swords True Lord.

“That’s good,” Ye Tian nodded slightly.

As time passed, three days went by.

Boom!!! The warship halted, and the voice of Dominator Donghui echoed.

“Everyone, disembark. This area already has many Creatures of Destruction. The warship cannot proceed further, or we risk being surrounded and becoming highly vulnerable. Group into teams of five to intercept the Creatures of Destruction. Remember, don’t move in large groups, or you’ll attract even more Creatures of Destruction, making it much more dangerous!” Tonghui warned.

Swish, swish, swish!!!

Each Universal God formed groups of five, or three, or acted alone, and one by one, they flew out of the warship to intercept the Creatures of Destruction.

“Let’s go!” Ye Tian said.

“Yes!” the four responded.

In this squad, Ye Tian was naturally the leader. They would never oppose Ye Tian’s arrangements because if he left the team, they wouldn’t find such a powerful Universal God as a teammate. They were well aware that this crisis far surpassed the previous one.

As Universal Gods with infinite lifespans, they had no desire to die here.

Swish! The five-man squad advanced swiftly, flying and weaving through one direction.

Soon, a wave of destructive aura approached.

“Creatures of Destruction!” Frost Flower True Lord said nervously.

Even though she had experienced such battles before, she was still somewhat anxious. But with Ye Tian present, she gradually calmed down.

“Twenty-six ordinary Universal God-level Creatures of Destruction, nine at the peak Universal God level, and one at the Dominator level!” Ye Tian announced.

“So many!” Seven Swords True Lord exclaimed in shock.

Logically, their five-man team handling seven or eight Creatures of Destruction was already a challenge, let alone facing a Dominator-level Creature of Destruction. This task seemed nearly impossible without joining forces with other teams.

“Don’t worry. I’ll handle the Dominator-level Creature of Destruction and the nine peak-level ones. The rest of the Creatures of Destruction are for you to intercept. Can you hold them off for a while?” Ye Tian asked.

“We can!” the four responded quickly.

They were all peak-level Universal Gods, so dealing with twenty-six ordinary Universal God-level Creatures of Destruction was not a problem.

“Then that’s the plan!” Ye Tian spoke.

Soon, the Creatures of Destruction arrived, devouring everything around them as they flew. Countless stars were consumed by them.

Swoosh! Ye Tian immediately charged forward, locking onto the Dominator-level Creature of Destruction and the nine peak-level Universal God Creatures of Destruction.

As for the other Creatures of Destruction, they were intercepted by the Four True Lords, including Seven Swords True Lord.

The battle erupted instantly!

“Chaos Heaven Saber!”

Ye Tian slashed with his saber, cutting the Dominator-level Creature of Destruction in half. However, it quickly regenerated, though its aura was significantly weakened, indicating it hadn't perished.

“This Creature of Destruction is likely in the mid-Dominator stage. Its combat power isn't strong, but its survival ability is terrifying!” Ye Tian thought.

Swoosh, swoosh, swoosh!!!

Saber lights targeted the mid-Dominator Creature of Destruction, obliterating its life force within seconds.

Meanwhile, the nine peak-level Universal God Creatures of Destruction were immobilized by Ye Tian's spatial power.

“Black Lotus Realm!”

Ye Tian employed this moderately powerful chaotic true technique, instantly erasing the nine peak-level Universal God Creatures of Destruction.

After slaying these creatures, Ye Tian ceased his attacks and observed the Four True Lords dealing with the twenty-six ordinary Universal God-level Creatures of Destruction.

Frost Flower True Lord and the others were astonished. They had witnessed Ye Tian effortlessly slaying these Creatures of Destruction, including a Dominator-level one, which left them utterly shocked.

They had expected Ye Tian to engage in a prolonged battle with the mid-Dominator Creature of Destruction, but he had resolved it so effortlessly.

“We need to hurry, or the True Lord of Ten Thousand Laws will think we’re useless!” Seven Swords True Lord transmitted to the other three.

His newfound respect for Ye Tian was evident in his speech.

After about ten minutes, the four finally killed all twenty-six Creatures of Destruction.

“Not bad!” Ye Tian remarked.

“We’re nothing compared to you, True Lord of Ten Thousand Laws,” Frost Flower True Lord said humbly.

“Let’s move on and continue searching for Creatures of Destruction. I’ll try to intercept more of them next time. Ensure the rest don’t escape, understood?” Ye Tian instructed.

“Yes!”

The four adjusted their strategy, focusing on containing the Creatures of Destruction rather than killing them outright to prevent any from escaping.

The five-man squad continued to search for and slay Creatures of Destruction in the area.

Ten days passed in the blink of an eye.

In one area, the squad took a break. Even Ye Tian couldn’t fight continuously without rest. Although his divine power was inexhaustible, his stamina would still deplete.

During these ten days, they had fought numerous battles. Even though Frost Flower True Lord and the others didn’t engage as much, they were mentally and physically exhausted. Ye Tian, too, had expended a significant amount of energy.

Thus, they needed to rest.

During their rest, Ye Tian activated time acceleration to maximize their downtime.

Ye Tian closed his eyes to rest, while Frost Flower True Lord and the others meditated, exchanging quiet thoughts.

“The True Lord of Ten Thousand Laws is incredibly powerful. We underestimated him, thinking we could help. Instead, we only prevented a few from escaping.”

“Indeed, we still can’t fathom his combat limits. When a peak-Dominator Creature of Destruction led five mid-Dominator Creatures of Destruction, I thought we were doomed. But the True Lord of Ten Thousand Laws killed them all single-handedly. It’s unbelievable! No other peak-Dominator human warrior could do that!”

“It’s an honor to follow the True Lord of Ten Thousand Laws. Let’s rest well; we’ll need our strength for the next battle.”

The four soon fell silent, focusing on recuperation.

Time slowly passed—Ye Tian suddenly opened his eyes and said, “Let’s go. Continue the fight!”

Chapter 737: Dividing the Battlefield! Three Major Battlefields!

Chapter 737: Dividing the Battlefield! Three Major Battlefields!

In the Abyss of Destruction.

The Master of the Primordial Era and the other Supremes were fiercely trying to fend off the Creatures of Destruction, whose number had increased from two initial Kings of Destruction to nine.

The presence of the nine Kings of Destruction indeed exerted tremendous pressure on the Master of the Primordial Era and the other Supremes.

However, they were still holding their ground.

“Let’s divide the battlefield!” the Master of the Primordial Era suddenly suggested.

“Divide the battlefield?”

Golden Light Supreme was initially taken aback but quickly grasped the Master of the Primordial Era’s plan.

“Master of the Primordial Era, are you planning to let the weaker Creatures of Destruction go while only blocking the nine Kings of Destruction and a few top-tier Supreme-level Creatures of Destruction?” Golden Light Supreme asked.

“Exactly!” the Master of the Primordial Era nodded. “There are far too many Creatures of Destruction here. It’s unrealistic to block them all.

The Abyss of Destruction is essentially a gathering place for the universe’s dark energy, constantly spawning Creatures of Destruction. Over countless ages, an unimaginable number of these creatures have been born. It’s impossible to kill them all.

If we try to block them all, we will exhaust our energy and perish.

Therefore, we must divide the battlefield. Within the Abyss of Destruction, we will block these Kings of Destruction and the top-tier Supreme-level Creatures of Destruction.

Outside the Abyss of Destruction, we can divide the battlefield into three major battlefields—the Supreme-level battlefield, the Dominator-level battlefield, and the Universal God battlefield.

All Supreme-level or Heavenly Venerable-level creatures should be intercepted at the Supreme-level battlefield, letting the other Creatures of Destruction pass through.

The Dominator-level battlefield will block the Dominator-level Creatures of Destruction.

As for the Universal God battlefield, it will intercept the remaining Creatures of Destruction.

By layering the battlefields this way, we can truly hold off the Creatures of Destruction.

Additionally, we will have some Supremes skilled in formations set up barriers at the entrance of the Abyss of Destruction, continuing until we can completely seal it off.”

“Alright, let’s do it!” Golden Light Supreme and the other Supremes agreed.

Subsequently, the Master of the Primordial Era and the other Supremes conveyed the plan to divide the battlefield to the Supremes outside.

These Supremes gradually relayed the plan to the Dominators and Universal Gods, explaining the details of the divided battlefield strategy.

....

“Divide the battlefield!”

Ye Tian received the message and learned of the plan to divide the battlefield. He agreed that it was a good strategy.

Given the current situation, dividing the battlefield was a relatively reasonable combat method. Otherwise, the pressure on the Supremes would be too great. If the Supremes collapsed, they would truly be defeated.

However, this would increase the pressure on the Universal Gods.

Once the plan to divide the battlefield began, more Creatures of Destruction of the Universal God tier would break through. Only the Universal Gods could deal with these Creatures of Destruction, as the Supremes and Dominators would not intervene.

Ye Tian remained calm, but the other Universal Gods’ expressions changed dramatically, feeling the pressure increase exponentially.

The Seven Swords True Lord frowned upon receiving the news and said, “Dividing the battlefield means our pressure will increase several times! With the swarming attacks from the Universal God Creatures of Destruction, who knows how many Universal Gods will die!”

Immediately, a few of them looked at Ye Tian and felt relieved.

Fortunately, they had Ye Tian. Without him, they would have been terrified by now.

“I will do my best to kill the Universal God Creatures of Destruction. If you can’t hold them off, come closer to me!” Ye Tian advised.

“Thank you, True Lord of Ten Thousand Laws!”

The Seven Swords True Lord and the other four hurriedly expressed their gratitude.

A few days later, large numbers of Universal God-tier Creatures of Destruction surged forward, clashing with the numerous Universal Gods.

Although some Universal Gods possessed extraordinary combat prowess, capable of fighting off large numbers of Creatures of Destruction alone, many Universal Gods still fell, surrounded and killed by these overwhelming forces.

Each day saw the tragic fall of numerous Universal Gods, including some from the Human Race.

However, Ye Tian’s five-man team faced relatively less pressure. Despite encountering many more Universal God-tier Creatures of Destruction, they did not come across a single Dominator-level Creature of Destruction.

Thus, with Ye Tian’s combat abilities, he was able to protect the other four, ensuring their safety.

On the other side of the Universal God battlefield, several Universal Gods effortlessly annihilated waves of Creatures of Destruction. These individuals were none other than the Children of the Era from the Twelve Cosmic Eras.

Under the Master of the Primordial Era’s instructions, these Children of the Era, along with the Supreme-level Lords, also joined the battle on the Universal God battlefield to exterminate the Creatures of Destruction.

Time passed slowly, and half a year went by in the blink of an eye.

In the Human Race’s Holy City.

On a massive screen, countless names vanished one by one.

Countless people watched the screen, deeply moved as they saw the names disappear.

These names belonged to peak-level Universal Gods and stronger warriors. Their fall would be known, causing their names to disappear from the screen. All the names on this screen belonged to the Human Race's warriors participating in this battle.

The screen was divided into three sections: one for the names of Supremes and Heavenly Venerables, one for the names of Dominators, and one for the names of Universal Gods.

Undoubtedly, the section for Universal Gods contained the most names. Among the crowd were Xiao Yue and Ye Yu.

Although both were peak-level Universal Gods, they did not participate in the battle, thanks to Ye Tian's efforts. The condition was that Ye Tian himself had to participate.

Fortunately, Xiao Yue and Ye Yu were relatively low-profile, with few notable achievements, thus escaping deployment by chance.

At this moment, seeing so many Universal Gods fall, they couldn't help but feel deeply moved.

Suddenly, the crowd erupted in exclamations, their attention riveted to the first section of the screen, where a name had just disappeared.

"Oh my God, Qingfeng Heavenly Venerable's name is gone!"

"That's a Heavenly Venerable! How could he fall? Qingfeng Heavenly Venerable was one of the oldest Heavenly Venerables of the Human Race, one of the seventy-eight great beings of the past!"

"This war is terrifying! Even a Heavenly Venerable has fallen!"

Countless people sighed and worried, expressing their concerns.

In the Human Race's Holy Domain, Qingfeng City.

As the city lord of Qingfeng City, Qingfeng Heavenly Venerable's fall cast a shadow over the entire city, bringing countless people to tears.

Qingfeng Heavenly Venerable was not the only Heavenly Venerable to fall. Two other newly promoted Heavenly Venerables of the Human Race had also fallen previously. However, Qingfeng Heavenly Venerable was a top-tier Heavenly Venerable, second only to the Supremes.

So far, the Human Race had lost three Heavenly Venerables.

Across the entire universe, countless Heavenly Venerables had fallen, and even several hundred Supremes had perished.

The only fortunate aspect was that no Supreme of the Human Race had fallen yet.

After several months of intense battle, the Supremes finally set up numerous divine formations at the entrance of the Abyss of Destruction. Though they had not completely sealed off the Abyss, they managed to block many Creatures of Destruction, significantly reducing the number breaking through.

This achievement lightened the burden on all three major battlefields, particularly the Universal God battlefield, which saw its pressure reduced several times.

Chapter 738: Confronting a Heavenly Venerable-level Creature of Destruction!

Another half year had passed.

Ye Tian had lost count of the number of Creatures of Destruction he had slain on the Universal God Battlefield. Although he had been in constant battle, the battlefield had posed no real pressure for him.

"Recently, there have been significantly fewer Creatures of Destruction. It seems that the turmoil in the Abyss of Destruction should be subdued soon," Ye Tian thought to himself.

Immediately, he glanced at his four teammates.

At this moment, all four of them looked exhausted. After all, they had been fighting continuously for half a year, and had often been surrounded by countless Creatures of Destruction of the Universal God level. Despite being under Ye Tian's protection, they still endured considerable pressure.

However, no matter what, they had survived.

On this day, Ye Tian and his team received news that the first batch of Universal Gods could withdraw from the battlefield, to be replaced by the second batch of Universal Gods.

The myriad races did not intend to treat the first batch of Universal Gods as cannon fodder, considering the prolonged battle had taken a toll on their mental and physical states. Additionally, resource scarcity had become an issue after such a long period of combat.

Therefore, the first batch of Universal Gods, with their limited combat power, could leave the battlefield and return to their respective races.

"Finally, the day of our return has come!" the Seven Swords True Lord exclaimed with relief.

Immediately, he asked Ye Tian, "Lord True Lord of Ten Thousand Laws, are you returning to the Human race?"

"No," Ye Tian shook his head, "I plan to enter the Dominator-level battlefield."

"What? Lord True Lord of Ten Thousand Laws, the Dominator-level battlefield is far too dangerous. You'll face numerous Dominator-level Creatures of Destruction!" the Seven Swords True Lord and others tried to dissuade him.

"Don't worry, I'm confident," Ye Tian replied with a faint smile.

Seeing this, the Seven Swords True Lord and the others said no more. Besides, they had no right to persuade him.

Moreover, they were unaware of Ye Tian's true combat strength. Even when surrounded by countless Creatures of Destruction, Ye Tian could still break through the encirclement. Perhaps their concerns were unnecessary.

A few days later, the Seven Swords True Lord and other Universal Gods left the battlefield and returned to the Human race.

A new batch of Universal Gods arrived on the battlefield.

Ye Tian stepped into the Dominator-level battlefield and encountered some Dominators.

They were surprised by Ye Tian's arrival. Some Dominators advised him to leave, but Ye Tian mostly ignored them.

Not long after, Ye Tian encountered his first Dominator-level Creature of Destruction.

Without a word, the battle commenced.

Ye Tian easily slew the Dominator-level Creature of Destruction and continued searching for others.

Although Ye Tian's cultivation was at the peak of the Universal God level and his combat strength did not reach the Heavenly Venerable level, he was formidable enough to dominate at the Dominator level. Therefore, he had no worries about encountering danger on the Dominator-level battlefield.

Unless he was extremely unlucky and encountered a Heavenly Venerable-level Creature of Destruction.

However, if a Heavenly Venerable-level Creature of Destruction appeared on the Dominator-level battlefield, a Heavenly Venerable or Supreme Venerable would arrive to deal with it and eliminate the threat.

Thus, the likelihood of Ye Tian being unlucky was slim.

Boom! Boom! Boom! A terrifying ripple of energy emanated from the distant horizon.

“This is...” Ye Tian’s pupils contracted.

It was unmistakably the aura of a Heavenly Venerable, filled with destructive energy.

Evidently, it was a Heavenly Venerable-level Creature of Destruction.

Moreover, this Heavenly Venerable-level Creature of Destruction was heading straight toward him.

If he could sense the creature’s presence, it was certain that the creature could also sense his aura.

“It must be a battle!” Ye Tian speculated.

If he fled now, the Heavenly Venerable-level Creature of Destruction might not necessarily pursue him. However, if he left, the Dominators engaged in battle might face danger and even fall. He was not known for his mercy, but abandoning others in the midst of a fight was not his style.

Besides, couldn’t a Heavenly Venerable be dealt with?

“My Death Flower Queen, after my efforts, has reached the peak of the Universal God level. The Death Flower Queen can cultivate a sea of death flowers formed by countless Universal God-level death flowers, enough to withstand the attacks of a Heavenly Venerable. Although I can’t defeat a Heavenly Venerable, they can’t kill me in one strike!” Ye Tian thought to himself.

With that, he flew over.

Soon, he saw the Heavenly Venerable-level Creature of Destruction and those fighting against it.

“It’s them!” Ye Tian was slightly surprised.

These fighters were not Dominators but were the Children of the Era from the Twelve Universal Eras, about twenty of them in total. They weren’t all the Children of the Era, just a small portion. They had formed a battle team and were using a top-tier supreme treasure to resist the Heavenly Venerable-level Creature of Destruction.

Even so, they couldn't hold back a Heavenly Venerable-level Creature of Destruction. The real reason they hadn't been defeated yet was a puppet, a binding-type Heavenly Venerable-level puppet.

In front of the Heavenly Venerable-level Creature of Destruction, a massive puppet with a ten-thousand-yard tall body released countless golden threads that bound the Creature of Destruction, restricting its movements. Otherwise, those Children of the Era would have been doomed long ago.

"I didn't expect they had a Heavenly Venerable-level puppet!" Ye Tian was a bit astonished.

Among the myriad races, he had never heard of a Heavenly Venerable-level puppet. Even if such puppets existed, they would at least require a Heavenly Venerable to control them. Yet now, a group of Universal Gods could control a Heavenly Venerable-level puppet, which was unprecedented.

Unfortunately, they couldn't fully utilize the puppet's power and couldn't defeat the Heavenly Venerable-level Creature of Destruction. They could barely hold on. Now, the puppet was covered in cracks and clearly wouldn't last much longer.

"True Lord of Ten Thousand Laws, we request your help!" one of the Children of the Era pleaded.

Ye Tian immediately recognized the speaker—it was Aurora, the Child of the Era who had fought him before.

"Didn't you call for reinforcements?" Ye Tian asked.

"We did, but just recently, a group of Supreme-level Creatures of Destruction emerged from the Abyss of Destruction, doubling the pressure on the Supreme-level battlefield. No Supreme or Heavenly Venerable can come to support us in the short term. Please, True Lord of Ten Thousand Laws, let go of past grievances and help us deal with this Heavenly Venerable-level Creature of Destruction," Aurora pleaded.

"Alright!" Ye Tian nodded.

Immediately, he charged towards the Heavenly Venerable-level Creature of Destruction.

“True Lord of Ten Thousand Laws, come over here and help us maintain the formation! Charging in alone will get you killed!” Aurora shouted in alarm.

However, it was too late. Ye Tian had already charged ahead.

The Heavenly Venerable-level Creature of Destruction, seeing a Universal God-level ant attacking, condensed a spear and thrust it at Ye Tian.

With a thud, the spear pierced through Ye Tian’s body, but he seemed indifferent. He activated the third form of the Tiangang Battle Technique along with the Chaos Heaven Saber, slashing fiercely at the Creature of Destruction.

With a thunderous boom, a crack appeared on the Heavenly Venerable-level Creature of Destruction’s body. Although it wasn’t a severe wound, it was a genuine injury.

After delivering this strike, Ye Tian immediately retreated.

His wounds quickly healed, leaving him completely unscathed.

“How is this possible?” Aurora and the other Children of the Era were utterly stunned by the scene.

By all rights, a Heavenly Venerable’s strike should have killed Ye Tian. But what was happening now?

Chapter 739: The Terrifying Explosion!

Though the Creatures of Destruction did not possess high intelligence, it did not mean they lacked intelligence entirely.

Their minds were filled with thoughts of slaughter and destruction, yet even a Heavenly Venerable level Creature of Destruction could distinguish between strength and weakness. In its eyes, Ye Tian appeared to be nothing more than an ant.

It was utterly shocked that its strike had failed to kill even an ant.

“Indeed, a strike from a Heavenly Venerable level Creature of Destruction can’t kill me. With the Sea of Death Flowers, I can’t die!” Ye Tian declared with confidence.

Of course, his attacks couldn’t kill a Heavenly Venerable level creature, not even inflict serious injuries.

However, he could completely restrain this Heavenly Venerable level creature, allowing Aurora and the other Children of the Era to control the Heavenly Venerable level puppet to attack the Creature of Destruction.

At present, it seemed that only the Heavenly Venerable level puppet had the potential to kill a Heavenly Venerable level Creature of Destruction.

“Control the Heavenly Venerable level puppet and attack with all your might. I’ll keep this Heavenly Venerable level Creature of Destruction distracted and restrained!” Ye Tian communicated telepathically.

“Alright!” Aurora and the others nodded repeatedly.

Without Ye Tian’s assistance, the Heavenly Venerable level puppet wouldn’t be able to withstand the Creature of Destruction and would be destroyed in no time.

With Ye Tian’s interference, the situation changed completely.

They might actually have a chance to kill or subdue this Heavenly Venerable level Creature of Destruction.

Swish! Ye Tian made his move.

He continuously attacked the eyes of the Creature of Destruction, aiming to inflict the most damage possible.

Initially, the Creature of Destruction didn’t care about Ye Tian, but after being wounded multiple times, it became enraged. Ignoring the puppet, it swore to kill Ye Tian.

However, Ye Tian's recovery speed was too fast, and he could transfer damage, making him unafraid of the beast's attacks.

While it attacked Ye Tian with full force, the Heavenly Venerable level puppet unleashed powerful strikes, severely injuring the beast.

Thus, Ye Tian and the puppet gradually suppressed the Creature of Destruction, causing its injuries to worsen.

A normal Heavenly Venerable level expert would try to escape when at a disadvantage, but Creatures of Destruction had no concept of retreat.

Their minds were solely focused on destruction and slaughter. Even against stronger opponents, they wouldn't flee, much like how a group of Universal God level Creatures of Destruction would dare to attack a Supreme.

Hence, this Heavenly Venerable level Creature of Destruction didn't consider escape, becoming even more frenzied.

In the blink of an eye, three days had passed.

Ye Tian and the puppet had been attacking the Creature of Destruction for three whole days. During this time, a few Dominator level beings had approached but quickly fled.

Clearly, not everyone had Ye Tian's courage to confront a Heavenly Venerable level Creature of Destruction.

"It's been three days, and we still haven't killed this beast. We've only managed to lightly injure it. At this rate, it's going to be very difficult to kill it!" Ye Tian frowned.

He knew how hard it was to kill a Creature of Destruction, but the difficulty of killing a Heavenly Venerable level Creature of Destruction exceeded his expectations.

If the battle continued, he and the puppet could outlast the beast.

But now, the puppet was sustaining more damage and couldn't hold out much longer. Moreover, it couldn't be repaired during the fight.

"Do you have any trump cards left to injure this beast? If the puppet gets destroyed, you'll all die, but I can still escape," Ye Tian telepathically told Aurora and the others.

Instantly, the faces of the Children of the Era changed.

Ye Tian was right. He could escape because he could withstand the beast's attacks, but they couldn't.

They didn't have Ye Tian's abilities to fight against the Creature of Destruction.

Once the puppet was destroyed, they would be doomed.

The expressions of the Children of the Era changed several times. After a few minutes, Aurora spoke.

"True Lord of Ten Thousand Laws, we do have some treasures that can injure the beast. The Supremes gave them to us so we could survive this upheaval.

However, we can't guarantee that these treasures will be able to kill the beast!"

"No matter what, we have to try!" Ye Tian said.

"Alright!" Aurora and the others nodded, then added, "True Lord of Ten Thousand Laws, to prevent the Heavenly Venerable level Creature of Destruction from dodging our attacks, please use your time-space powers to suppress it temporarily."

"Okay!" Ye Tian nodded.

Immediately, Aurora and the others took out various secret treasures.

Some were talismans sealed with terrifying power, and others were self-destructive treasures that could injure the Heavenly Venerable level Creature of Destruction but could also harm the users.

Fortunately, they formed a formation and had the Heavenly Venerable level puppet as a shield, preventing them from being killed by their own treasures.

Boom, boom, boom!!! One by one, the secret treasures were unleashed. Some of them even made Ye Tian feel a sense of crisis, demonstrating their formidable power.

In an instant, terrifying explosions echoed through this part of the starry sky, completely engulfing the Heavenly Venerable level Creature of Destruction.

Soon, the shockwaves dissipated.

Everyone's expressions changed as they saw the Heavenly Venerable level Creature of Destruction still alive, though covered in blood and severely wounded.

"Do you have any more trump cards?" Ye Tian asked.

"Yes!" A Child of the Era named Huo He took out a fireball, saying, "This is the Nine Heavens Nether Fire, capable of burning everything. It's sealed within this fireball, but I dare not release it, for it might not harm the Heavenly Venerable level Creature of Destruction and instead kill us."

"Give it to me!" Ye Tian said.

Huo He quickly responded, "True Lord of Ten Thousand Laws, based on my estimation, even with the Nine Heavens Nether Fire, it would be difficult to kill this beast. Its defense is too terrifying, and its skin seems to neutralize many energy attacks."

"What if we detonate the Nine Heavens Nether Fire inside the Creature of Destruction?" Ye Tian asked.

"That might be able to kill it!" Aurora estimated.

"Alright, then we'll detonate the Nine Heavens Nether Fire from the inside!" Ye Tian declared.

Immediately, Ye Tian took the Nine Heavens Nether Fire and charged towards the Heavenly Venerable level Creature of Destruction. To everyone's astonishment, Ye Tian directly entered the beast's mouth.

"He's crazy! This will kill him too!" Aurora and the others exclaimed in shock.

Once inside the beast's mouth, a terrifying explosion erupted.

Boom!!!! The Heavenly Venerable level Creature of Destruction was blown apart from within by the Nine Heavens Nether Fire, its body nearly torn to pieces.

Death was imminent.

The beast desperately tried to suppress the internal energy explosion, but it was futile.

Instead, its energy collided with the Nine Heavens Nether Fire, triggering a second explosion that was far more powerful than the first.

"This is bad, run!" Aurora realized the danger and shouted.

The other Children of the Era also noticed and flew away, leaving the Heavenly Venerable level puppet behind to absorb the shockwave.

As the Children of the Era hadn't flown far, a terrifying explosion erupted.

Boom!!!! The very fabric of space around was annihilated, and despite their best efforts to defend themselves, the Children of the Era were all blown away, each suffering severe injuries.

Chapter 740: The Origin Realm

In the far distance, Aurora and the other Children of the Era watched the center of the explosion with pale faces. The terrifying impact had shattered countless fragments of the surrounding rules, and the annihilating aura seemed capable of tearing apart a pinnacle Dominator-level strong practitioner.

Even they did not dare to enter that area at this moment.

“The True Lord of Ten Thousand Laws is probably dead!” Aurora lamented.

Although he and Ye Tian were not friends and could even be considered enemies, it was truly a pity that a genius more monstrous than him had died under such circumstances.

“Why did the True Lord of Ten Thousand Laws choose to perish together with a Heavenly Venerable-level Creature of Destruction? With his strength, escaping wouldn’t have been a problem. There was no need for him to save us!” Fire River frowned in confusion.

“Could it be that the True Lord of Ten Thousand Laws isn’t dead? He might have withstood the attack of the Heavenly Venerable-level Creature of Destruction. Such an explosion might not have killed him!” someone else suggested.

“Hahaha, everyone, I’m indeed not dead!” A voice filled with laughter came from the far distance.

In the next moment, Ye Tian’s figure appeared before them. He wasn’t injured, nor did he look the slightest bit disheveled.

“True Lord of Ten Thousand Laws, it’s great that you’re alright!” The many Children of the Era exclaimed.

However, some of the Children of the Era felt regret. They had hoped he would fall in the explosion. Even though Ye Tian had saved their lives, they didn’t want him to live. After all, Ye Tian was too monstrous, completely overshadowing their brilliance.

If Ye Tian continued to live, they would forever exist in his shadow.

At this moment, Aurora was puzzled. The direction from which Ye Tian came was clearly not the explosion area but another side. Under the circumstances just now, spatial traversal seemed impossible unless Ye Tian had achieved an unbelievable level in spatial mastery.

Aurora didn’t know that Ye Tian had not only used spatial traversal but had also utilized a death-substitute talent.

Although the death-substitute talent wasn't a very high-level talent—only a top-tier talent—it was indeed extraordinary.

Previously, Ye Tian didn't understand the reason behind the death-substitute talent, but now he knew. The death-substitute talent involved the powers of space and soul, and its effect could be blocked by a strong practitioner above the Dominator level.

Logically, Ye Tian shouldn't have been able to use the death-substitute talent to leave while inside the Heavenly Venerable-level Creature of Destruction. However, he had forcibly succeeded in substituting death by combining his understanding of the Great Dao of space and soul with the death-substitute talent, allowing his main body to switch with the substitute body.

Of course, this process could have been interrupted, but the Heavenly Venerable-level Creature of Destruction was too foolish to interrupt Ye Tian. If it had, Ye Tian would indeed have faced the burning and explosion of the Nine Heavens Nether Fire directly.

In that case, even if he didn't die, he would have been severely injured and on the brink of death.

Fortunately, everything proceeded according to his plan, and he was grateful for his habit of casually throwing out death-substitute bodies; otherwise, he wouldn't have been able to kill that Heavenly Venerable-level creature.

Suddenly, one of the Children of the Era shouted, "What..."

With his shout, everyone's gaze fixed on the center of the explosion. Amid the shattered void, there was a passageway leading to an unknown place.

"It's a spatial passage, and it seems quite extraordinary!" Aurora's expression changed, and he immediately flew over.

By this time, the shockwave had completely dissipated, and most of the annihilating aura had faded, making it basically incapable of killing them.

Ye Tian didn't hesitate at all and rushed over in an instant.

He was also curious about where this spatial passage, caused by the explosion, led and whether it might also be a great opportunity.

Soon, everyone stood before the spatial passage, each staring at it intently.

Judging from the fluctuations of the spatial passage, it certainly didn't lead to an ordinary world. The spatial tunnel was long, likely connecting to a deep-dimensional world. **ANOE**

Aurora and the others stared at the spatial passage, each deep in thought. No one knew where this passage led or if there were any dangers. As a result, no one immediately entered.

“It should be safe. I’ll go first!” declared one of the Children of the Era before rushing into the spatial passage.

Following this, the other Children of the Era also entered one by one. They had all overcome countless trials and dangers; fear was not in their nature. Moreover, their strength was not weak, so they wouldn't easily encounter danger.

Aurora also flew into the spatial passage, leaving only Ye Tian.

“Perhaps this is a great opportunity. My current strength is at a bottleneck. This might be a significant chance that I must seize!” With this thought, Ye Tian entered the spatial tunnel. After a moment of transmission, he found himself standing on unfamiliar ground.

In the distance stood the other Children of the Era, indicating that this was not a random teleportation, but a passageway.

Suddenly, several Children of the Era’s expressions changed dramatically. “No, the spatial passage is shrinking!”

Once the spatial passage disappeared, they would be unable to leave through this exit. But leaving immediately would be a missed opportunity. While they hesitated, the spatial passage completely vanished, making any regret useless.

Soon, they realized the peculiarity of this place. “We can’t use divine power here, and the rules suppression is strong. The rules of this world are incredibly powerful, but it’s extremely difficult to

manipulate them. Even soul power is suppressed here; only the physical body remains unaffected,” Aurora observed.

“What is this place? It’s clearly a place covered by the universe’s origin rules, yet these rules suppress us so much. Could it be because of our identities?” one of the Children of the Era pondered with a frown.

“It’s not because of your identities; anyone entering here would be suppressed because I’m also suppressed,” Ye Tian explained.

After a moment of silence, Aurora suddenly exclaimed with joy, “Could this be the Origin Realm?”

“What, the Origin Realm? The legendary Origin Realm that even Supremes couldn’t find?” the other Children of the Era exclaimed in shock.

“What is the Origin Realm?” Ye Tian asked curiously.

Aurora wasn’t surprised by Ye Tian’s question. The Origin Realm was a secret known only to powerful cosmic eras, and this cosmic era was still in its early stages, unaware of the Origin Realm’s existence.

Aurora explained, “The Origin Realm is something the Supremes informed us about. It’s a dimensional world very close to the universe’s origin, with unique rules that greatly suppress external beings. While the resources in the Origin Realm might not be abundant, it contains a treasure that is highly coveted by the outside world and even drives Supremes mad—the Well of Origin!”

“The Well of Origin!” Ye Tian seemed to have guessed what it was.
