

Talent 741

Chapter 741: The Ultimate Strength Talent!

“What is the Well of Origin?”

The one who posed this question was not Ye Tian, but another Child of the Era.

It was evident that not all Children of the Era within the Twelve Cosmic Eras knew about the Well of Origin. Aurora happened to be one of the few who knew this secret.

Aurora explained, “The Well of Origin is an ancient well containing origin power, distinct from the Chaos Well, and even more precious to a certain extent.

The Chaos Well merely contains a high concentration of chaotic yuan qi, with a chaotic space inside that produces some chaotic materials.

While the Chaos Well is rare, it is not uncommon in the universe. However, the Well of Origin is almost entirely legendary.

Even the Supremes haven’t found a Well of Origin; it’s only known through the legacies of powerhouses from the chaos.

For us, entering the Well of Origin and absorbing its power means comprehending countless laws in a short time, gaining a deep understanding of many laws, and even improving our mastery of the Dao and various secret techniques quickly.

To us, the Well of Origin is absolutely a treasure that can drive people mad!” Aurora was visibly excited as he spoke.

“Aurora, is the Well of Origin equally rare in the Origin Realm?” Someone asked.

“Indeed!” Aurora nodded. “Even in the Origin Realm, finding a Well of Origin is not simple. The Origin Realm is dangerous; the creatures here are generally physically formidable, and our powers are suppressed. We may not even defeat some of the weaker creatures here.

Moreover, our movement will be very slow, and the Origin Realm is vast, seemingly boundless.

Additionally, I don't know much about the Origin Realm, just what I've heard from the Supremes. I never thought I'd be able to enter the Origin Realm, so I never tried to understand it deeply!"

Although Aurora revealed few secrets, everyone had a clear understanding now.

First, this place was undoubtedly the Origin Realm.

Second, the greatest opportunity here was the Well of Origin. Finding one would lead to a complete rise in power, far surpassing other Children of the Era.

For example, even the weaker Children of the Era, if they obtained a Well of Origin, could quickly rival Aurora, if not Ye Tian.

One by one, the Children of the Era flew off in different directions, including Aurora, who chose his own direction and quickly flew away.

It was clear that no one wanted to cooperate. Finding a Well of Origin and deciding how to divide it would lead to conflicts, possibly even deadly fights. Therefore, searching for opportunities separately was the most reasonable approach.

Ye Tian also teleported away, but he left a mark at his location. If he couldn't find a way out, he would return here. Even if he couldn't open the exit, the Supremes outside, once they dealt with the Creatures of Destruction, would find the explosion site of the Heavenly Venerable Creature of Destruction and force open the passage to the Origin Realm.

The Origin Realm was difficult to find because its entrance was unknown, but once the entrance was discovered, opening it again wouldn't be hard.

After leaving the area, Ye Tian searched for the Well of Origin.

A few minutes later, he hadn't found the Well of Origin but did encounter a creature.

“A black panther!”

A black panther appeared before Ye Tian. It wasn't very large, about a hundred meters long, quite ordinary compared to the powerful creatures outside.

But Ye Tian could sense the explosive power in every cell of this panther. Its muscles were perfectly streamlined without any excess.

This was no ordinary panther but a powerful creature with an exceptionally strong body.

Instantly, Ye Tian used his Copy Talent on the panther and was shocked.

“This...”

Upon investigating, he found the panther's talent to be quite unique.

Its bloodline and speed talents were nothing special compared to other creatures, but one talent stood out: its strength talent.

[Strength Talent: Peak Mystic]

Mystic-level strength talents were not uncommon; countless people in the universe had them, and most geniuses possessed God-level strength talents.

But what made this panther's talent strange was the peak mark beside its mystic talent, something Ye Tian encountered for the first time.

Roar! The panther roared at Ye Tian and charged at him.

Although the black panther was strong, Ye Tian didn't worry about it, as its strength was far inferior to his own.

Even though his abilities were suppressed in the Origin Realm, he could easily kill the panther in an instant. However, instead of ending its life immediately, he gently punched it.

Boom! The black panther was sent flying backward, but Ye Tian was a bit surprised.

He had used a force comparable to the panther's strength and even employed his God-level strength talent. Yet, despite this, he merely knocked the panther back without causing it any harm.

"My defense is incredibly strong, and my body is far superior to this panther's. For it to push me back is unrealistic. This means my strike was actually evenly matched with the panther's."

"But how is this possible? I used a God-level strength talent, and it used a mystic-level strength talent. There should be a significant difference between mystic-level and God-level strength talents. This result is unexpected," Ye Tian thought.

Moreover, he could confirm that the panther had only used its physical strength and mystic-level strength talent. It hadn't used any special techniques, attacking directly and straightforwardly.

"It seems the issue lies with its ultimate mystic-level strength talent," Ye Tian speculated.

Instead of killing the panther, he captured it and imprisoned it in the Ancient Chaos Realm.

He couldn't guarantee that every creature here was like this. If this panther was an exception, he didn't want to waste a research subject.

"It's a pity the panther's strength talent is only mystic-level. My strength talent is God-level, and I can't copy a talent inferior to my own. If the panther's strength talent were a Peak God-level, I might have had a chance to copy it." Ye Tian sighed.

He spent some time searching and found several more creatures in the Origin Realm.

These creatures all had strength talents marked as ultimate.

They could unleash attacks far stronger than what their strength talents typically allowed. This wasn't an isolated case; it was consistent.

This led Ye Tian to a hypothesis.

“Based on my investigation over the past few days, creatures in the Origin Realm all have ultimate strength talents. The mystic-level ultimate strength talent is evidently stronger than the normal mystic-level strength talent, almost comparable to God-level strength talent,” Ye Tian mused.

This might not seem significant, but encountering a creature with a Peak God-level strength talent would be a different story.

In the universe, the highest strength talent was God-level. Geniuses with God-level strength talents couldn’t improve further.

Because of this, these geniuses sought various ways to learn secret techniques to enhance their power, unleashing even stronger attacks.

For instance, the Tiangang Battle Technique, which enhanced overall combat power, also increased strength. This technique was considered one of the strongest in the universe.

If Ye Tian had a Peak God-level strength talent, it would exponentially increase his power, significantly boosting his combat strength. “I must find a Peak God-level strength talent!”

Excited, Ye Tian searched for creatures everywhere.

However, not everything went smoothly.

One day, Ye Tian saw a small hill and wanted to inspect it, but his expression quickly changed.

His Copy Talent detected that the hill had a talent, not a Peak God-level strength talent, but a mystic-level ultimate strength talent. This indicated that the hill was not a hill but a powerful creature.

As Ye Tian prepared to leave, two eyes appeared on the hill, staring at him. A terrifying aura emanated from it.

Boom!!!! The world changed color, and an unimaginable burst of blood energy erupted.

Then, a stone hand emerged from the hill, reaching out to grab Ye Tian.

“This creature’s body is far stronger than mine. Its physical combat power alone is likely not inferior to that of the Heavenly Venerable Creature of Destruction.”

“Even at my peak, I could only escape!” Ye Tian thought in shock.

He dared not stay. Although he had the Sea of Death, there was no one here to restrain the creature. If he were caught by the stone hand, he would only wait for death. Once the flowers of the Sea of Death died, his turn would come.

So, he had to flee! Teleport! Teleport! Teleport! The stone hand seemed to break through layers of space with sheer physical strength, trying to catch Ye Tian, but its other deficiencies prevented it from stopping Ye Tian’s teleportation.

In the end, Ye Tian escaped.

Chapter 742: The Heavenly Extreme Fruit!

After distancing himself from that terrifying stone mountain creature, Ye Tian finally stopped.

“That stone mountain creature just now possessed such horrifying power. Even the Supremes from the Twelve Universes wouldn’t have such powerful physical strength. Could it be a Seventh Stage lifeform?” Ye Tian speculated.

It wasn’t unreasonable for him to guess this way because he himself was a Sixth Stage lifeform. Even if he advanced to the Heavenly Venerable Realm, he estimated that he could only possess that level of strength.

But he was different. He cultivated the Chaos Golden Desolation Technique and the Eighteen Golden Body Technique, which meant his strength far exceeded others of the same stage. The stone mountain creature likely didn’t have access to such methods and relied solely on its inherent strength. Thus, it couldn’t be a Sixth Stage lifeform. It was probably a Seventh Stage lifeform or a quasi-Seventh Stage lifeform.

“Long ago, when I first obtained the Heavenly Origin True Method and learned about Seventh Stage lifeforms, I really thought that reaching the Seventh Stage would mean transcending. Now, I realize that even an Eighth Stage lifeform cannot transcend.”

“The Heavenly Origin True Method comes from the Primordial Hall and was likely created by the Master of the Primordial Era. The seventh layer of the technique is probably a theoretical extrapolation. Since the Master of the Primordial Era couldn’t transcend, the Heavenly Origin True Method genuinely only has the first six layers. The seventh layer is just boasting,” Ye Tian sneered.

Of course, he only needed the first six layers of the Heavenly Origin True Method and had no way to reach the seventh layer. Therefore, he didn’t care at all that the seventh layer had flaws.

“Seventh Stage lifeforms are extremely rare. It’s a pity my strength isn’t enough. Otherwise, I would love to study a Seventh Stage lifeform!” Ye Tian murmured.

Afterward, Ye Tian became much more cautious, at least not underestimating the creatures of the Origin Realm anymore. Initially, he thought the creatures of the Origin Realm were all like that black panther, which made him somewhat arrogant. Now, he understood that the Origin Realm contained such terrifying creatures that, relying solely on their physical bodies and talents, could rival Heavenly Venerables. There might even be creatures comparable to Supremes.

In the Origin Realm, in a mountain range with a river running through it, a giant tree bearing peculiar fruits was experiencing a special day. Today, its fruits were maturing. Many creatures, upon learning this news, had gathered nearby, each staring at the peculiar fruits and drooling.

For them, those peculiar fruits could enhance their physical strength, significantly boosting their power. Thus, they were willing to fight desperately for these fruits, even at any cost.

Suddenly, a fragrance spread out, permeating the entire mountain range. All the creatures became restless; they knew very well that this was a sign of the fruits about to mature. However, what these creatures didn’t know was that a stranger had arrived, hiding in the shadows and observing everything.

This stranger was none other than Ye Tian. It was a coincidence that he had come here. He saw some creatures flying towards this place at high speed, and since there was no fighting among them, he followed out of curiosity and witnessed this scene.

“What is that giant tree? And what is the use of those peculiar fruits?” Ye Tian was very curious about all of this.

“Right, my Ancient Chaos Realm still has that black panther suppressed. Perhaps I can find answers to these questions from the panther’s soul!” Ye Tian thought.

So, he began using his hypnosis talent and soul secret techniques to interrogate the black panther. As long as the panther had complete intelligence and wisdom, he could extract the answers. Obviously, although the black panther’s intelligence wasn’t high, it did possess wisdom, making the interrogation quite smooth.

The black panther indeed knew the origins of the giant tree.

“Heavenly Extreme Tree, Heavenly Extreme Fruit!” Ye Tian muttered to himself.

From the black panther, he learned that the Heavenly Extreme Tree was a divine tree that produced a batch of mature Heavenly Extreme Fruits every hundred thousand years. These fruits could temper each creature’s physical body, making them incomparably strong.

In the Origin Realm, every creature followed the path of physical cultivation. However, the difficulty of enhancing the physical body was immense. Without resources, one could forget about growing stronger.

“The Origin Realm focuses on the physical body path, while the main space of the universe prohibits it. It seems that although the universe’s origin suppresses physical body cultivation in the main space, it cannot truly ban it, only sealing it in the Origin Realm!”

This was Ye Tian’s speculation, and it might be quite accurate.

Since arriving in this world, he hadn’t started cultivating yet, as he was always on the move and searching for the Well of Origin. Now, he decided to cultivate a bit.

Immediately, he began to practice the Chaos Golden Desolation Technique, attempting to cultivate the path of the physical body.

As a result—

“Boom!”

Energy surged into his body, continuously pushing the limits of his physical body and enhancing its strength. The speed of this enhancement was much faster than in the outside world, and there was no invisible barrier hindering him.

“Indeed, in the Origin Realm, any method or secret technique to enhance the physical body becomes easier to cultivate, as if this place was naturally suited for it!” Ye Tian murmured.

Suddenly, his gaze fixed on the Heavenly Extreme Fruits! Since this place was conducive to cultivating the physical body path, the Heavenly Extreme Fruits might assist in cultivating the Chaos Golden Desolation Technique and quickly enhancing physical strength.

If he could obtain some Heavenly Extreme Fruits, his power would increase explosively in a short time.

Of course, he didn’t forget his other goal—finding a Peak God-level strength talent.

Swoosh! He used his copying talent, covering the area, trying to find a Peak God-level strength talent.

“None!”

“None!”

“Still none!”

Ye Tian frowned. There were quite a few creatures here, but none had a Peak God-level strength talent. Clearly, such a talent was extremely rare in the Origin Realm as well.

“Wait!” Ye Tian decided.

He didn’t want to act now, as there were too many powerful creatures here, many of which had auras no weaker than his. If he fought, he could easily be surrounded.

While he might not fear being surrounded, he wouldn't get his share of the Heavenly Extreme Fruits if that happened.

So, he couldn't rush and had to seize the right opportunity.

Additionally, Ye Tian had another guess—there might be even stronger creatures returning, arriving at the moment the Heavenly Extreme Fruits matured.

For instance, terrifying creatures on the same level as that stone mountain creature!

Chapter 743: Acquiring the Heavenly Extreme Fruit and an Experiment!

“It's almost ripe!”

Ye Tian gazed at the Heavenly Extreme Fruit on the Heavenly Extreme Tree, feeling a bit nervous.

Soon, the fragrant aroma gradually dissipated, indicating that the Heavenly Extreme Fruit had fully ripened.

When the Heavenly Extreme Fruit was fully ripe, it reabsorbed its aromatic essence, leaving no fragrance behind.

Boom, boom, boom!!! Numerous creatures rushed towards the Heavenly Extreme Fruit, initiating a fierce battle to seize it.

At that moment, a sharp eagle's cry echoed throughout the heavens and earth.

Swoosh! A massive divine eagle descended from the sky, tearing apart a powerful creature with one claw, its terrifying aura dominating the scene.

Thud, thud, thud!!! The divine eagle's wings slashed through numerous creatures, displaying an invincible stance.

“This divine eagle is so powerful!”

Ye Tian's pupils constricted sharply in astonishment.

In terms of strength, he was undoubtedly no match for this divine eagle. If he faced it, he would be instantly killed.

"This divine eagle is qualified to battle that stone mountain creature!" Ye Tian remarked.

With the divine eagle present, Ye Tian suppressed his urge to rush forward. If the divine eagle targeted him, even with the Sea of Death Flowers, he might not be able to escape.

"Wait!"

Ye Tian continued to hide his aura.

He believed that many creatures wanted the Heavenly Extreme Fruit, and there were definitely others on par with the divine eagle, as he had already sensed them using his copying talent.

Boom!!!! A gigantic black snake emerged from the ground, attacking the divine eagle to prevent it from seizing the Heavenly Extreme Fruit.

Next, a massive ape wielding a stone club appeared, sweeping through and killing numerous creatures with each strike.

Following that, a vine tree-man creature appeared, countless vines strangling towards the ape.

Thus, the four major creatures fought each other fiercely, each unwilling to let the others obtain the Heavenly Extreme Fruit. Other creatures attempting to approach the Heavenly Extreme Tree were also slaughtered by the four major creatures.

Ye Tian remained hidden, contemplating how to act.

In terms of strength, he was indeed no match for these four major creatures, but that didn't mean he had no way to obtain the Heavenly Extreme Fruit.

“I’m not their match, but they likely can’t kill me with a single strike.

I just need to seize the moment during their battle, teleport over, grab some Heavenly Extreme Fruits, and escape. I should have a chance to get away!” Ye Tian estimated.

Of course, he couldn’t be too greedy. If he angered the four major creatures, escape would be difficult.

So, Ye Tian began to look for an opportunity.

A few minutes later, he finally found a chance during a moment when the four major creatures clashed with all their might. They were in the brief interval after one round of attacks and before the next. **raNōßEs**

Swoosh! He teleported over, reached the Heavenly Extreme Tree, and swiftly picked the Heavenly Extreme Fruit.

The four major creatures sensed Ye Tian picking the Heavenly Extreme Fruit and each casually struck at him, then resumed fighting among themselves.

After all, in their eyes, Ye Tian, a mere Universal God ant, couldn’t withstand their attacks and would be instantly annihilated.

Why bother with a dead man? However, Ye Tian fully defended himself and transferred the damage to the Sea of Death Flowers.

Although Ye Tian transferred the damage, he still got injured, but fortunately, it was only a minor injury.

“Hurry, hurry, hurry!!!”

Ye Tian continued to pick the Heavenly Extreme Fruits without delay. He even used his time talent to pick more fruits faster.

“Roar!!!”

The four major creatures finally reacted. Seeing that Ye Tian was not dead and had picked quite a few Heavenly Extreme Fruits, they all charged at him.

“Escape!”

Ye Tian wasn't greedy at all. Even though there was still one more Heavenly Extreme Fruit within reach, he abandoned it.

Swish, swish, swish!!! Ye Tian teleported continuously at the fastest speed, using his Super God-level time-space talent to hinder the four major creatures from pursuing him.

However, the strength of the four major creatures was truly terrifying, as they shattered space to strike at him.

Ye Tian's body was repeatedly hit. If not for his damage transfer talent, he would have died long ago.

After enduring several heavy blows, Ye Tian finally managed to escape far away. The four major creatures did not chase him further, since there were still many Heavenly Extreme Fruits left on the tree, and he had only taken a small portion.

The four major creatures wouldn't abandon the majority of the Heavenly Extreme Fruits for the small amount he had taken.

But Ye Tian, being very cautious, flew for a long time before finally hiding in a forest.

“A total of 46 Heavenly Extreme Fruits!”

Ye Tian counted them and then revealed an excited smile.

Although 46 might not seem like much, Heavenly Extreme Fruits were extremely precious. From what he learned from the black panther, it was very difficult for creatures like him to obtain even one Heavenly Extreme Fruit.

Creatures that obtained Heavenly Extreme Fruits could quickly grow and become powerful figures in the Origin Realm, specifically an Origin King. In the Origin Realm, all creatures were origin beasts, categorized into low-level, mid-level, high-level origin beasts, Origin Kings, Origin Emperors, and Origin Ancestors.

The black panther was a high-level origin beast, not particularly strong in the Origin Realm, but not weak either.

In terms of strength, the black panther's physical body far surpassed the experts in the main space, but its combat power was only at the Galaxy level at most.

A Origin King was equivalent to a Universal God, an Origin Emperor to a Dominator, and an Origin Ancestor to a Supreme.

And this was achieved purely through physical strength and talent. Just thinking about it was terrifying.

Unfortunately, origin beasts had low intelligence. If they could step into the true path of cultivation, even an Origin Emperor could crush a Supreme.

“Whether the Heavenly Extreme Fruit can assist in cultivating the Chaos Golden Desolation Technique, I'll find out soon!”

Ye Tian did not hesitate at all. He swallowed one Heavenly Extreme Fruit in one gulp and immediately began cultivating.

He activated the Chaos Golden Desolation Technique, absorbing the energy of the Heavenly Extreme Fruit.

Boom!!!! Terrifying energy circulated within his body, causing the Chaos Golden Desolation Technique to transform at an incredible rate.

Ye Tian's Chaos Golden Desolation Technique had already reached the limit of the sixth level. Any further progress would be minimal. Initially, he just wanted to use the Heavenly Extreme Fruit as an experiment, not expecting to really advance the Chaos Golden Desolation Technique.

But now, Ye Tian felt that the Heavenly Extreme Fruit might help him break through the limit and advance to the seventh level of the Chaos Golden Desolation Technique.

If this were true, his accumulation at the Universal God level would reach an unimaginable and terrifying extent.

“One is not enough... I’ll use ten!”

Ye Tian swallowed ten Heavenly Extreme Fruits in one gulp. He wanted to verify this possibility.

Chapter 744: Peak God-level Strength Talent!

This time, the energy of ten Heavenly Extreme Fruits erupted, assisting Ye Tian in breaking through to the seventh level of the Chaos Golden Desolation Technique.

Originally, Ye Tian needed to reach the Dominator level in cultivation to practice the seventh level of the Chaos Golden Desolation Technique. However, the energy from ten Heavenly Extreme Fruits helped him break this limit, transforming his physical body to a degree where he could practice the seventh level of the Chaos Golden Desolation Technique.

In this way, he could break through the limit.

Time passed slowly, and a month went by in the blink of an eye.

On this day.

Ye Tian’s skin began to crack. No, it should be said that his entire body was cracking.

Then, Ye Tian’s physical body began to reorganize, becoming even stronger.

Boom!!! A terrifying aura emanated from Ye Tian’s body, and at the same time, his Chaos Golden Desolation Technique finally stepped into the seventh level.

He could now practice the seventh-level technique of the Chaos Golden Desolation Technique.

After breaking the limit, Ye Tian could continue to enhance his physical strength, but his cultivation level was still at the peak of the Universal God level.

It was as if he had broken through a shackle.

“I originally thought ten Heavenly Extreme Fruits would be enough. Unexpectedly, I ended up consuming another ten Heavenly Extreme Fruits. To break through the limit of the Chaos Golden Desolation Technique and practice the seventh level, I used up a total of twenty-one Heavenly Extreme Fruits.

But this breakthrough is of great significance. I broke the cultivation requirement of the Chaos Golden Desolation Technique. If I practice the Chaos Golden Desolation Technique to a certain level within the Universal God realm, my physical body will reach an incredible degree!” Ye Tian said excitedly.

Immediately, he swallowed another Heavenly Extreme Fruit to formally practice the seventh level of the Chaos Golden Desolation Technique.

With the help of the Heavenly Extreme Fruit, the progress of the seventh level of the Chaos Golden Desolation Technique was extremely fast, and his physical body could enhance simultaneously.

Thus, Ye Tian began a long-term cultivation in this forest.

In a flash, three years passed.

Ye Tian had been in seclusion for three years, completely unaware of the situations of other Children of the Era, and he did not care at all.

“Three years have passed, and I have used up all the Heavenly Extreme Fruits, barely bringing the seventh level of the Chaos Golden Desolation Technique to the minor success realm. However, my physical body has become several times stronger. Even if I gain nothing more in the Origin World, this harvest alone is worth it!” Ye Tian thought to himself.

Standing up, Ye Tian decided not to stay here any longer. He still had two goals to achieve.

The first was to copy a Peak God-level strength talent, which he had yet to encounter. The four major creatures he encountered earlier were formidable, but they only had peak pseudo-mystic level strength talents.

It was evident that finding a peak mystic-level strength talent was exceedingly difficult and required a bit of luck and time.

The second goal was to find the Well of Origin, which was the greatest opportunity! Ye Tian had once obtained a trace of the universe's origin and knew the benefits of the universe's origin. The Well of Origin might not be as good as a trace of the universe's origin, but it would not be much worse.

If he could obtain the Well of Origin, his accumulation would be incredibly terrifying.

If he could get several Wells of Origin, Ye Tian was confident he could grow in a short time to an unimaginable level.

Previously, Ye Tian was unfamiliar with the Origin World. Now, with the black panther as a guide and occasionally hypnotizing other creatures, he gradually gained some understanding of the Origin World. RăNõBEş

Although they were not clear about the location of the Well of Origin, they knew about some powerful creatures nearby.

Therefore, Ye Tian tried to avoid encountering any Origin Emperors and their territories. If he truly encountered an Origin Ancestor, he probably wouldn't even have time to escape.

On this day.

Ye Tian arrived at a prairie, his eyes filled with anticipation.

According to his continuous interrogation of nearby creatures, he learned that a powerful race lived in this prairie—the Triangular Blood Bulls! The Triangular Blood Bull clan was only a high-level origin beast clan, but they made many Origin Kings extremely wary.

The Triangular Blood Bull Clan had a Triangular Blood Bull King. Although it was a high-level origin beast, it could contend with an Origin King. Coupled with a large number of its kin, they were capable of killing an Origin King.

This was the information Ye Tian had obtained.

“The Triangular Blood Bull King is only a high-level origin beast, yet it can contend with an Origin King. This might be normal in the outside world, but in the Origin World, the power of origin beasts comes entirely from physical strength and talent power.

And strength talent is one of their main talents in battle. Generally, origin beasts can only possess pseudo-mystic level strength talents, but the Triangular Blood Bull King is so special. It might have a Peak God-level strength talent!”

Ye Tian speculated.

Although he wasn’t sure if this speculation was accurate, it was a hopeful lead.

Thus, Ye Tian entered the prairie, searching for traces of the Triangular Blood Bull King.

If he could confirm his speculation, it would be a huge gain and might even help him understand the profound aspects of peak talents.

Ye Tian continuously teleported, searching for the Triangular Blood Bull King.

Suddenly, a series of tremors could be heard.

Thump, thump, thump!!! Ye Tian felt the ground shaking and immediately used his divine sense and copying talent to probe the surroundings.

“Triangular Blood Bulls!”

Ye Tian was overjoyed. After searching for so long, he had finally found a group of Triangular Blood Bulls.

Whoosh! Ye Tian quickly approached the Triangular Blood Bull group, but soon felt a wave of disappointment.

This group did not have the Triangular Blood Bull King. Clearly, this was just one of the many Triangular Blood Bull groups on this prairie and not the one with the King.

A month later.

Ye Tian grew impatient. He had found several groups of Triangular Blood Bulls, but none had the Triangular Blood Bull King.

“Another group of Triangular Blood Bulls!”

This time, Ye Tian didn’t feel any excitement. He flew over at a moderate pace.

Soon, he discovered a pit surrounded by grass. Inside the pit was a small lake, and around the lake were caves extending deep into the ground where the Triangular Blood Bulls lived.

Some of the Triangular Blood Bulls were swimming in the lake, some were grazing on the grass, and others were sleeping.

Ye Tian immediately activated his copying talent to investigate the situation.

One by one, the Triangular Blood Bulls were scanned by Ye Tian’s copying talent, and his disappointment grew heavier.

Suddenly.

Ye Tian’s expression lit up with joy. He detected a cave space deep within the pit, and in that cave lay a much larger-than-normal Triangular Blood Bull King, sleeping.

“Triangular Blood Bull King!”

Ye Tian was thrilled.

What truly excited him was the strength talent possessed by the Triangular Blood Bull King.

[Strength Talent: Peak God-level]

“The Triangular Blood Bull King’s strength talent is indeed a Peak God-level!”

With an excited heart, Ye Tian immediately attempted to copy its strength talent.

“Peak God-level Strength Talent, copying successful!”

Seeing this, Ye Tian finally breathed a sigh of relief.

Chapter 745: News of the Well of Origin!

Ye Tian had always wanted to acquire a Peak God-level Strength Talent, and now he had finally copied it.

He had been very curious about what the so-called Ultimate Strength Talent entailed and why it could far surpass the strength talents of the same level.

Previously, he had no way of knowing, but now that he had copied the Peak God-level Strength Talent, as soon as he communicated with this talent, he would immediately understand the reason.

Without delay, Ye Tian connected with the newly copied Peak God-level Strength Talent to comprehend its essence.

Soon, Ye Tian thoroughly understood the nature of the Peak God-level Strength Talent.

“Incredible!!!” Ye Tian’s eyes widened in utter shock.

It turned out that everyone possessed talents, but the potential of a talent was not always fully realized. For instance, the Mystic Strength Talent appeared to amplify strength by a hundredfold upon activation, but in reality, its potential far exceeded a hundredfold. However, the physical

bodies of living beings did not perfectly align with the Mystic Strength Talent, making it impossible to fully unleash its potential.

Thus, the talents that cosmic beings possessed were not fully unlocked. But once the full potential was unlocked, its power would far exceed those of the same level.

For example, the origin beasts of the Origin Realm could fully realize the potential of their strength talents. Nearly every origin beast possessed an Ultimate Strength Talent, not because these beasts had unique, high-quality talents that could excavate potential, but because of the gift of the cosmic origin.

The cosmic origin completely sealed the path of the physical body within the Origin Realm, creating the realm's uniqueness and thereby unlocking the full potential of every origin beast's strength talent.

Of course, while origin beasts had unique potential in strength talents, they also lost other things, such as comprehension of the Dao and wisdom. This was also the suppression by the cosmic origin.

Otherwise, if the origin beasts of the Origin Realm had too high talents, wouldn't each one become an invincible existence? Wouldn't they then break out of the origin beast Realm and dominate the main cosmic space?

In such a scenario, how could the cosmic origin suppress the cultivation path of the Thirteenth Universe Era and protect itself? The Thirteenth Universe Era was a new cycle era, and the cosmic origin of this era was the weakest. If too many formidable beings were born and shared a part of the origin, it would cause the cosmic origin to become increasingly weak, ultimately possibly being subdued by cosmic beings.

For instance, if many Transcendents were born, they could even break into the cosmic origin space, just like Heavenly Monarch Yun Tan did in the past, who entered the cosmic origin space and even cut off a fragment of the cosmic origin.

Therefore, the cosmic origin, under the operation of its rules, naturally suppressed other cultivation paths within the Origin Realm.

“Hahaha, what great fortune! If I hadn't come to the Origin Realm, I wouldn't have known that talents had an ultimate level and that it was possible to develop the ultimate potential of a talent.

This time, having copied the Peak God-level Strength Talent, my power has instantly increased tremendously. I've struck it rich!" Ye Tian was quite excited.

If he could copy an Ultimate Super God-level Space-Time Talent, that would be even better.

But he knew it was impossible. He probably was the only person with a Super God-level Space-Time Talent. There couldn't be another, let alone an Ultimate Super God-level Space-Time Talent.

Perhaps if he entered the Chaos, there might be someone with such a talent.

But for now, there was no hope at all.

"The Triangular Blood Bull King is so special, possessing an Ultimate Strength Talent. I might as well capture it and interrogate it. Maybe I'll have some unexpected gains!"

With this thought, Ye Tian immediately headed towards the underground space where the Blood Bull King resided.

Along the way, other Triangular Blood Bulls saw Ye Tian and tried to stop him.

But Ye Tian knocked them all away.

A group of high-level origin beast scum, no matter how many, posed no threat to him. If it were a group of Origin Emperors, he would definitely leave immediately and not provoke them.

"Too weak!"

Ye Tian punched a large number of Triangular Blood Bulls away and quickly arrived at the underground space where the Triangular Blood Bull King resided. ㄟNOβĖş

At this moment, the Triangular Blood Bull King had already awakened and noticed Ye Tian, the intruder.

Boom!!! The Triangular Blood Bull King charged directly at him.

As an origin beast of the Origin Realm, it didn't have any fancy attack methods; it simply charged straight at him with brute force. Ye Tian didn't use any special techniques either. He assumed a straight punch stance, channeling his body's strength and his strength talent, aiming a punch at the three long horns of the charging Triangular Blood Bull King.

Crack!!! The three long horns of the Triangular Blood Bull King shattered, and its body was sent flying.

Not only that, its powerful body began to crack. Fortunately, Ye Tian had held back, not using his full strength; otherwise, that punch would have been enough to turn it into a mist of blood.

After severely injuring the Triangular Blood Bull King, Ye Tian instantly teleported over, grabbed it, and then absorbed it into the Ancient Chaos Realm, suppressing it.

Next, Ye Tian left the area. Otherwise, the Triangular Blood Bull herd here would continuously attack him.

Although he didn't take these weak Triangular Blood Bulls seriously, he didn't want to waste time. Besides, if the battle dragged on, who knew if it would attract an Origin Ancestor?

He certainly didn't want to encounter an Origin Ancestor now; that would mean certain death!

After flying for a long time, Ye Tian finally landed on a quiet hill and then sent his consciousness into the Ancient Chaos Realm to begin interrogating the Triangular Blood Bull King.

"Tell me, how did you obtain your Peak God-level Strength Talent?"

After hypnotizing the Triangular Blood Bull King, Ye Tian asked.

He had expected the Triangular Blood Bull King to say that its Peak God-level Strength Talent was innate, but the answer he received was incredibly surprising.

"It was by absorbing the water of the Well of Origin that I was lucky enough to advance!"

The Triangular Blood Bull King's soul conveyed the answer to Ye Tian through soul communication.

“What? The water of the Well of Origin!!!!” Ye Tian was utterly shocked.

The water of the Well of Origin should be the water within the Well of Origin itself, and the Triangular Blood Bull King had actually obtained this water. Didn't that mean the Triangular Blood Bull King had entered the Well of Origin?

“Do you know where there is a Well of Origin?” Ye Tian questioned.

“I know of a Well of Origin. It is a secret of our Triangular Blood Bull clan, only known to the heirs of the Triangular Blood Bull Kings of each generation!” The Triangular Blood Bull King replied.

“Take me to that Well of Origin!” Ye Tian commanded.

“Yes!” The Triangular Blood Bull King responded.

Immediately, Ye Tian released the Triangular Blood Bull King and let it lead the way.

Completely subdued, the Triangular Blood Bull King did not resist at all and obediently led the way.

Chapter 746: Perfection of the Spatial Divine Ability

The Triangular Blood Bull King flew with Ye Tian to a distant place, far from the grassland where the king usually resided.

Through inquiry, Ye Tian learned why the Triangular Blood Bull King did not live near the Well of Origin.

First, the king feared that other Triangular Blood Bulls would discover the Well of Origin, leading to the birth of new Triangular Blood Bull Kings. Secondly, the king wanted to avoid attracting the attention of other powerful origin beasts.

Of course, there was a third reason: the area was unsuitable for the Triangular Blood Bull clan's survival.

The Triangular Blood Bull clan thrived on the grasslands because the grass there contained the energy they needed for growth. If they relocated, the Triangular Blood Bull clan might degrade to a middle-tier origin beast, or even lower.

It was akin to forcing a fire attribute origin beast to live in a water area, which would be counterproductive.

Three days later, the Triangular Blood Bull King brought Ye Tian to a gorge. Within this gorge was a deep cave that extended far underground.

However, the cave entrance was very small and easily overlooked, especially by the not-so-bright origin beasts.

Additionally, the gorge was barren and lacked resources, making it unlikely for powerful origin beasts to visit.

"This is a good place. If the Well of Origin is here, it would indeed be hard to find!" Ye Tian nodded in admiration.

He wondered how the ancestors of the Triangular Blood Bull King had discovered this place. What great luck they had! The Triangular Blood Bull King led Ye Tian into the cave, flying downward continuously. They soon encountered several underground tunnels and chose one to continue their descent.

It was unclear how long they flew until the Triangular Blood Bull King finally stopped.

At this point, Ye Tian clearly felt a greater suppression from the Origin Realm, indicating that the deeper underground, the stronger the suppression.

Fortunately, there were no powerful creatures here; otherwise, Ye Tian would have been in danger.

"We've arrived!" The Triangular Blood Bull King looked at Ye Tian.

Ye Tian scanned the area with his divine sense and immediately spotted the Well of Origin.

The Well of Origin was located in the center of a nearby underground space, embedded in the void, emitting wisps of origin energy.

“The Well of Origin!!!” Ye Tian felt excited.

Suddenly, his expression changed.

He noticed that the wellhead and the body of the Well of Origin had several cracks. This was not an intact Well of Origin but a damaged one.

Swish! Ye Tian teleported over and examined the inside of the Well of Origin.

“An almost dried-up Well of Origin!!” Ye Tian felt disappointed.

The interior of the Well of Origin contained only a shallow layer of water. The value of such a Well of Origin had plummeted dramatically.

“What happened?”

Ye Tian questioned the Triangular Blood Bull King.

The Triangular Blood Bull King immediately explained the reason to Ye Tian. It turned out that when the Triangular Blood Bull King’s ancestors discovered the Well of Origin, it already had very little origin water inside. Over the long years, they could only accumulate a tiny bit of it. ~~It was~~ **It was**

The Triangular Blood Bull King had spent an immense amount of time visiting the Well of Origin multiple times, eventually and luckily transforming its strength talent.

Since its strength talent transformed into a Peak God-level strength talent, the Triangular Blood Bull King had rarely visited the well. After a long period, the Well of Origin had accumulated a little more origin water.

“Forget it, it’s still good to encounter a Well of Origin. Even though it has little origin water, just a bit of it can still enhance my strength,” Ye Tian thought.

Then, he killed the Triangular Blood Bull King. After all, the king knew of his existence. If the king were released and attracted an Origin Emperor, it would be troublesome.

He was no match for an Origin Emperor! After killing the Triangular Blood Bull King, Ye Tian stepped into the Well of Origin.

Within the void of the Well of Origin, Ye Tian sat cross-legged and began absorbing the origin water.

The origin water flowed into Ye Tian’s body, immediately allowing him to witness countless fundamental principles of laws. It was similar to when he had absorbed a trace of the universe’s origin, although the effect was much weaker.

Each trace of the universe’s origin contained the mysteries of various laws but not all of them. The origin water Ye Tian absorbed now contained origins vastly different from the universe’s trace origin.

Therefore, the origin water was useful to Ye Tian, greatly enhancing his accumulation and deepening his understanding of the major Dao laws.

Boom! Ye Tian’s Chaos Dao realm transformed into an ancient well, and with the power of the origin water, it gradually elevated the realm of the Chaos Dao.

As Ye Tian’s comprehension of the laws advanced, the patterns on the ancient Chaos Dao well became increasingly profound.

“Indeed, the origin water not only enhances my understanding of laws but also elevates my realm in the Chaos Dao. I have reached the Origin Realm but am still at its initial stage. If I had enough origin water, I might be able to advance to the mid-stage of the Origin Realm!” Ye Tian anticipated.

However, it was clear that this small amount of origin water was insufficient to significantly elevate his Chaos Dao realm, only allowing slight progress.

Nevertheless, absorbing the origin water would significantly accelerate Ye Tian's comprehension of divine abilities.

So, Ye Tian decided to directly comprehend a major divine ability here—the Spear of Hellish Void.

This spatial divine ability had already reached the peak of the major realm, just a step away from perfection. Ye Tian aimed to break through the bottleneck and achieve perfection.

Achieving perfection in a spatial divine ability was a feat even supreme experts proficient in the Space Dao might not accomplish.

Time passed. A few days later, the origin water in the Well of Origin had completely dried up, but Ye Tian had not yet ended his seclusion, feeling that his Spear of Hellish Void was just a hair's breadth away from breaking through.

Even without the origin water, he felt capable of achieving the breakthrough.

Half a year later.

Boom! A Spear of Hellish Void, containing terrifying spatial laws, gradually materialized. Despite being suppressed in the Origin Realm, it still exhibited formidable power, seemingly challenging the universe's fundamental laws.

“Phew, the Spear of Hellish Void has finally reached perfection. Its attack power now undoubtedly ranks as the top attack!” Ye Tian murmured.

Chapter 747: Fragment of the Well of Origin, Merging with the Ancient Well Phenomenon!

The Spear of Hellish Void advanced from the major realm to the perfected realm, which resulted in not just a slight increase in attack power, but a tremendous transformation, enough to double Ye Tian's strength.

At this moment, Ye Tian felt incredibly fortunate to have been able to cultivate the Spear of Hellish Void to the perfected realm within this Well of Origin. Otherwise, if he had to comprehend it on his own, he could have achieved the perfected realm eventually, but it would have taken considerable time, and time was something he lacked now.

“Unfortunately, this Well of Origin is almost exhausted, with hardly any Well of Origin Water left. Otherwise, I might have been able to cultivate the Wheel of Time, this great divine ability, to the perfected realm, or elevate the realm of the Chaos Dao by another small level!”

Ye Tian only sighed slightly. In reality, he felt quite satisfied. After all, this opportunity had saved him years of arduous cultivation, making it a significant fortuitous encounter.

Then, his gaze fixed on the Well of Origin, and he fell into silent contemplation.

This Well of Origin no longer had any Well of Origin Water. Perhaps, after countless years, it might accumulate some more Well of Origin Water, but by then, it would be useless to him, and he might not even be able to enter this place again.

Moreover, the Dual Universe Transcendence Plan was underway. If it were to proceed smoothly, the collision of the two universes would either lead to evolution or total annihilation. Therefore, this Well of Origin held no value for him anymore.

“I might as well destroy this Well of Origin. The material of this Well of Origin is quite special, so it might still hold some value. A fragmented Well of Origin could potentially be exchanged for something good!”

With that, Ye Tian began to bombard the Well of Origin.

If it were an intact Well of Origin, he would have no chance of shattering it. However, this Well of Origin was already covered in numerous cracks, clearly on the verge of breaking apart.

Therefore, he had hope of shattering the Well of Origin.

Boom!!!! Ye Tian’s Chaos Dao transformed into an ancient well, enhancing his body. He unleashed the Chaos God Demon Form, a true chaotic technique, turning his fists into god-demon fists, continuously striking the Well of Origin.

At the same time, the third form of the Tiangang Battle Technique also augmented him, continuously amplifying his strength. Naturally, his God-level Peak Strength Talent was also activated.

It could be said that this method of bombarding the Well of Origin was the most suitable. Techniques like the Spear of Hellish Void or the Chaos Heaven Saber were not as effective.

The Spear of Hellish Void was a spatial divine ability, not a pure power attack, making it difficult to destroy the Well of Origin. The Chaos Heaven Saber concentrated its attack along a line, but its effect was not as good as the Chaos God Demon Form.

Therefore, the best way to break the Well of Origin was through pure power attacks, providing the best hope of shattering it.

Crack, crack, crack!!!

Tiny fragments began to fall from the Well of Origin as the entire well trembled, with more and more cracks appearing.

Days turned into months as Ye Tian continued to bombard the Well of Origin. The loud noise naturally attracted many origin beasts, but most fled in terror upon sensing Ye Tian's formidable aura before even approaching the underground space.

While their intelligence was not high, they were not stupid. They knew they were no match for Ye Tian and approaching would mean certain death.

Thus, Ye Tian's bombardment of the Well of Origin proceeded without any interference from origin beasts, sparing him some trouble.

A year passed!

"Hasn't it shattered yet?" Ye Tian frowned slightly, feeling a bit anxious.

He had thought he could shatter the well quickly, but it proved to be incredibly challenging, always just a bit away from success.

Of course, he knew the Well of Origin was entirely on the verge of shattering. It might happen in the next moment or much later.

Given the situation, he naturally did not want to give up; otherwise, all his efforts would have been in vain.

Fortunately, his divine power was exceedingly abundant, virtually limitless. After all, the world he had initially condensed was of heavenly quality—no, it surpassed heavenly quality, but this universe’s highest rating was only heaven. Even the most powerful inner world could only be called heaven. 天壤之别

Now, with his world transformed into a microcosm, it was naturally the highest level of a microcosm, with the power of the universe being inexhaustible, resulting in limitless divine power.

Thus, Ye Tian almost never exhausted his strength. If it were any other Universal God, they would have long depleted their power and needed to rest.

Another month passed in the blink of an eye.

One day, a cracking sound echoed.

Ye Tian initially paid it no mind, having heard such sounds many times before.

But this time was different!

Crack! Crack! Crack! The continuous sound of cracking filled the air. Ye Tian did not need to guess what it meant.

“The Well of Origin has finally shattered!”

Ye Tian looked ahead excitedly, seeing the vast Well of Origin gradually break into countless fragments.

The Well of Origin was originally connected to the Origin Realm and could not be taken away. But now, as it broke into countless fragments, it was essentially detached from the Origin Realm.

Just as Ye Tian was about to collect these Well of Origin fragments, an unexpected situation occurred.

He watched as the numerous fragments flew towards his Chaos Dao phenomenon, specifically towards the ancient well within.

This ancient well was not real, merely a manifestation of Ye Tian's Dao realm.

But now, this phenomenon was absorbing the Well of Origin fragments. The dense fragments merged into the ancient well, making it increasingly real.

"What... What is happening?" Ye Tian was stunned. He had no knowledge of such a situation, having never encountered information about it before.

"Perhaps Aurora knows something about this!" Ye Tian speculated.

He did not stop the transformation. At least, from what he could see, this seemed to be a good thing rather than a bad one.

Maybe, this was another stroke of fortune.

Soon enough, the fragmented pieces of the Well of Origin completely merged into Ye Tian's ancient well phenomenon, making it seem like a real Well of Origin.

Moreover, the Chaos Dao essence within the ancient well also underwent subtle changes, becoming purer and exhibiting strange transformations.

In short, the ancient well phenomenon became even more powerful.

Ye Tian tested it, finding that the augmentation of his Chaos Dao power was significantly stronger than before. The most notable change was in the ancient well phenomenon itself.

Defense! Yes, the ancient well phenomenon now possessed formidable defensive capabilities, surpassing Ye Tian's original defense.

“Incredible! With this ancient well phenomenon, it will be much harder for others to harm me! This ancient well phenomenon might even withstand attacks from a Heavenly Venerable!” Ye Tian laughed.

Chapter 748: The Miserable Polar Light!

Of course, Ye Tian only speculated that the ancient well’s anomaly could withstand the attacks of a Heavenly Venerable. He had no way to test it unless he found an Origin Emperor. But he didn’t want to court death. In the Origin Realm, his strength had been greatly weakened. Even at his peak, he could barely protect himself against a weaker Heavenly Venerable. If he encountered an Origin Emperor, he’d be in real trouble.

Initially, the four Origin Emperors didn’t pursue him solely because of the Heavenly Extreme Fruit and the Heavenly Extreme Tree. Otherwise, he might not have escaped. Having witnessed the attacks of an Origin Emperor, he certainly didn’t want to invite trouble.

“It’s time to go!”

Ye Tian’s figure flashed as he left the underground space. The gorge had lost its value after the Well of Origin was taken.

...

Somewhere in the Origin Realm.

Aurora looked utterly disheveled, with a large hole in his body. Although the bleeding had stopped, it looked quite horrifying. His face was as pale as paper, and his aura had become extremely weak.

“Damn it, the origin beasts in the Origin Realm are way too strong!” Aurora trembled inwardly.

At first, he encountered some weak origin beasts in the Origin Realm that only attacked physically without any special methods. He had looked down on them. After all, in his view, origin beasts that only relied on brute force posed no real threat. Even a Heavenly Venerable, without endless divine power, secret arts, true techniques, divine abilities, or the realm of the Great Dao, would be nothing but a weakling. Compared to that, he was stronger.

But he never expected that the origin beasts of the Origin Realm could match even Dominators or Heavenly Venerables just with their physical bodies and innate strength. Recently, he had encountered a top-tier Origin King. Although not as formidable as an Origin Emperor, it still severely injured him with a single blow. If he hadn't escaped with the help of a secret treasure, he might have fallen there.

However, that origin beast seemed unwilling to give up and had been pursuing him relentlessly.

"The suppression in the Origin Realm is too severe. If I could unleash my full power, I wouldn't be unable to contend with this Origin King. The power of those secret treasures is greatly reduced here, preventing me from escaping far. Otherwise, I could surely escape!" Aurora thought.

He wanted to call for help but realized that everyone was too far apart. Even if he did call for help, they couldn't arrive in time. Besides, even if they came, what could they do? Without the Heavenly Venerable puppet, their combined combat power wasn't strong enough. The suppression of the Origin Realm made it impossible for the Children of the Era to defeat a top-tier Origin King together.

"I wonder if the True Lord of Ten Thousand Laws can contend with this top-tier Origin King," Aurora pondered.

In his view, the True Lord of Ten Thousand Laws, even suppressed in the Origin Realm, could at least survive against this Origin King. After all, the True Lord of Ten Thousand Laws had once withstood the attacks of a Heavenly Venerable and survived! Unfortunately, Aurora had no way to contact Ye Tian, the True Lord of Ten Thousand Laws. They had been enemies, after all, and had no means of communication.

Boom!!! A terrifying aura surged from afar.

Aurora's expression changed drastically as he sensed it. Without guessing, he knew that fearsome Origin King had caught up.

An overwhelming killing intent accompanied it as an enormous bull chased through the void as if it was non-existent, moving at incredible speed, far faster than the teleportation of a Universal God.

This bull, the Seven-Colored Divine Ox, shattered space-time purely with its physical body. Without speed-type great divine abilities, it wouldn't have caught up with Aurora. After all, Aurora possessed a light attribute great divine ability, making him incredibly fast.

But now, he was outmatched by the Seven-Colored Divine Ox.

Because of this, Aurora couldn't shake off the Seven-Colored Divine Ox and had to repeatedly use desperate measures to escape. But now, he was gravely injured, had no time to heal, and was getting slower.

If this continued, he wouldn't be able to escape.

"Should I abandon that...?"

Aurora contemplated. But soon, a determined look appeared in his eyes. "The value of that thing rivals a Strongest Supreme Treasure. I can't give it up!"

Aurora believed he still had a chance to escape. As long as the Seven-Colored Divine Ox made a mistake, he could slip away and hide. At that point, without special means, the bull couldn't find him.

Boom! Boom! Boom!

Chunks of land shattered as the Seven-Colored Divine Ox used its formidable strength to smash countless spaces and the ground itself, determined to kill Aurora.

After a while, Aurora suddenly sensed a familiar aura.

"True Lord of Ten Thousand Laws, save me! I'm willing to offer a top-tier Supreme Treasure as a reward!" Aurora sent a desperate telepathic message.

In the distance, Ye Tian had been approaching because he sensed the aura of an Origin King. He intended to test the defensive capabilities of his ancient well anomaly when he heard Aurora's plea for help.

"Could it be that the Origin King is chasing Aurora? What a coincidence!" Ye Tian chuckled.

He had no particular relationship with Aurora. He had saved him and the other Children of the Era before because they were on the same side against the Creatures of Destruction. But now, in the Origin Realm, there was no unified front. He could choose to save him or not.

However, Aurora's offer of a top-tier Supreme Treasure was too tempting to refuse. Besides, he was in need of such a treasure. "Let's go take a look!"

Ye Tian teleported several times and quickly arrived at the scene.

"Hmm, a top-tier Origin King!" Ye Tian observed the Seven-Colored Divine Ox and then glanced at Aurora's miserable state, feeling a bit sympathetic.

He knew Aurora had many life-saving items, and the Seven-Colored Divine Ox, without many pursuit methods, had been relentlessly chasing him. It was evident how unlucky Aurora was.

"True Lord of Ten Thousand Laws, save me quickly!" Aurora, upon seeing Ye Tian, sighed in relief and hurriedly flew towards him.

"I can save you, but you must promise me the top-tier Supreme Treasure you mentioned," Ye Tian said.

"I will definitely give it to you!" Aurora assured hastily.

Ye Tian knew that someone like Aurora, backed by numerous formidable Supremes, wouldn't go back on his word. So, he intervened to intercept the Seven-Colored Divine Ox.

Boom! Ye Tian clashed with the Seven-Colored Divine Ox. Naturally, Ye Tian was sent flying, but he wasn't injured.

Seeing Ye Tian genuinely blocking the Seven-Colored Divine Ox and remaining unharmed, Aurora was overjoyed.

"Such powerful strength, truly worthy of a top-tier Origin King!" Ye Tian remarked in surprise.

He had intended to wait for the Seven-Colored Divine Ox to continue its attack but was surprised when it ignored him, charging straight at Aurora with eyes full of anger and killing intent.

Immediately, Ye Tian intercepted the Seven-Colored Divine Ox again.

But the bull seemed fixated on Aurora, completely ignoring Ye Tian. No matter how Ye Tian attacked, it merely knocked him away and didn't continue attacking him.

“Aurora, you go first!” Ye Tian shouted.

“Thank you!” Aurora took off without a moment's hesitation.

After Aurora had left, Ye Tian activated his ancient well anomaly. Dense chaos rules rippled out.

Swoosh! Ye Tian used the ancient well anomaly to block the Seven-Colored Divine Ox's attack. This time, Ye Tian wasn't sent flying; instead, the bull was knocked back. The ancient well anomaly remained unbroken.

“Such strong defense, and it even has a rebound effect. Hahaha, integrating the Well of Origin fragment into the ancient well anomaly has truly transformed it. It deserves a new name,” Ye Tian thought.

Soon, he came up with a resounding name—Chaos Origin Divine Well!

Chapter 749: The Nine-Colored Divine Ox Calf!

Although Ye Tian did not fully understand the true situation of the ancient well's anomaly, the chaotic origin divine well formed after the fusion of the ancient well's Dao anomaly with the fragments of the origin well was indeed formidable. It was currently his strongest defensive measure.

However, he was uncertain if this defensive measure could be enhanced or cultivated. If it could be improved, it would undoubtedly become one of his strongest assets in the future.

If it couldn't be enhanced, it would still serve as a significant aid in the short term.

In any case, this time he had truly gained a lot.

“Unfortunately, I still couldn’t kill this top-tier Origin King!” Ye Tian thought to himself.

This Seven-Colored Divine Ox Origin King was not only immensely powerful but also possessed a terrifying physical defense. It was almost the pinnacle of the Origin King realm. In terms of sheer physical strength, even the bodies of the Supremes from the twelve cosmic eras were no match for this top-tier Origin King. If Ye Tian wanted to slay this Origin King, he would have some hope in the outside world. But within the suppressed conditions of the origin realm, his attack power couldn’t break through this top-tier Origin King’s defense.

In fact, he thought that even if this Seven-Colored Divine Ox stood still for a year, allowing him to attack, he still wouldn’t be able to kill it.

“That should be enough. Aurora has fled far away, and this Seven-Colored Divine Ox doesn’t have any means of pursuit. It shouldn’t be able to catch up.” Ye Tian thought.

Thus, he continuously teleported away.

Once the Seven-Colored Divine Ox could no longer sense Aurora’s presence, it rampaged through the area, destroying the land and causing numerous origin beasts to suffer.

None of this, however, had anything to do with Ye Tian, who had already fled far away.

Meanwhile, on the other side.

Aurora had flown for a long time before finally stopping.

“Phew, finally got rid of that Seven-Colored Divine Ox!” Aurora muttered.

He considered himself lucky to have encountered Ye Tian; otherwise, he would not have been able to escape from the Seven-Colored Divine Ox.

“I wonder how the True Lord of Ten Thousand Laws is doing. With his strength, he should be fine,” Aurora thought.

Not long after, a figure appeared in his sight—it was Ye Tian.

Aurora wasn't surprised to see Ye Tian catching up. After all, Ye Tian was proficient in the arts of time and space, as well as the soul path. During his hurried flight, Aurora hadn't bothered to erase his traces, so it was easy for Ye Tian to track him. However, the Seven-Colored Divine Ox, with its single-track means of pursuit, would have difficulty catching up once it lost the trail.

As Ye Tian flew over, Aurora retrieved a map from his microcosm.

“True Lord of Ten Thousand Laws, this is your reward!” Aurora handed over the map.

Ye Tian took it and examined it closely, discovering it to be a top-tier supreme treasure of the spatial type.

“This is the top-tier supreme treasure—the Floating Void Map. Inside, it contains the Thirteen Floating Realms, which have the effects of suppression and sealing. Moreover, the Thirteen Floating Realms can accelerate time by a hundredfold, making it excellent for cultivating certain medicinal herbs and spiritual plants.

Additionally, the Floating Void Map can enhance the spatial power of those who cultivate the space path, significantly increasing the potency of spatial attacks. It's a rare top-tier supreme treasure!” Aurora explained. **raDŌβEš**

Normally, Aurora wouldn't want to part with such a top-tier supreme treasure.

However, he had promised Ye Tian a top-tier supreme treasure as payment for saving his life, and he couldn't go back on his word.

In fact, given his status, he had more than one top-tier supreme treasure. The one least useful to him happened to be this precious spatial-type supreme treasure.

Because he walked the path of light, he wouldn't part with any top-tier supreme treasures related to the light path, leaving only this spatial-type supreme treasure to relinquish.

Ye Tian looked at the spatial-type supreme treasure—the Floating Void Map—in his hand with a satisfied expression. “Thank you!”

“True Lord of Ten Thousand Laws, since I’ve given you the reward, let’s part ways here!” Aurora cupped his fists.

With that, he turned to leave.

At this moment, Ye Tian hurriedly called out to him, “Aurora, wait!”

“True Lord of Ten Thousand Laws, is there something else?” Aurora asked.

Aurora asked, “True Lord of Ten Thousand Laws, do you have any other matters?”

“Why was that Seven-Colored Divine Ox chasing you? Even when I blocked and attacked it, it ignored me and focused solely on attacking you. Can you explain?” Ye Tian questioned.

Aurora’s face changed, his gaze shifting multiple times. However, he quickly explained, “It was in the process of advancing when I forcibly interrupted it, which enraged it, making it desperate to kill me.”

“Is that so?” Ye Tian sneered. “Aurora, your soul fluctuations reveal that you are not telling the truth. With your state of mind and cultivation, you wouldn’t react this way unless there was some hidden secret involved. Don’t worry, I have no intention of seizing your opportunity; I’m merely curious. If I truly wanted to take your chance, you would already be dead.”

“I naturally believe the True Lord of Ten Thousand Laws. If you wanted to kill me, I wouldn’t be alive now!” Aurora nodded.

“Speak,” Ye Tian said flatly.

Aurora dared not hide the truth any longer. He knew that if he concocted another story and Ye Tian saw through it, he would have offended him. At that point, even a hesitant Ye Tian might decide to act against him.

So, Aurora gritted his teeth and retrieved a small gray bead from his internal microcosm. This bead was an ordinary supreme treasure of the sealing type, notable only for its excellent ability to mask its aura.

With a gesture, Aurora cast a spell, projecting the scene inside the sealed bead. Inside, a small calf emitting nine-colored light lay sleeping in the sealed space.

“A origin beast cub!” Ye Tian’s pupils contracted, instantly understanding why Aurora was being chased by the Seven-Colored Divine Ox. He had stolen its child, hence the relentless pursuit.

“Aurora, why did you steal the Seven-Colored Divine Ox’s cub?” Ye Tian asked curiously.

Aurora looked at Ye Tian and smiled, “The True Lord of Ten Thousand Laws might not fully understand the origin realm. The origin realm is very special; the origin beasts here cannot leave it under normal circumstances. However, there is one condition under which an origin beast can be taken out: forming a contract with a cub and taking it out as a battle pet.

“Ordinary cubs aren’t valuable because origin beasts excel only in physical prowess. Their talent in other paths of cultivation is lacking. Though, if a cub is well nurtured, it can potentially cultivate other paths and even comprehend the fundamentals of the Dao. However, most cubs aren’t valuable to us, the Children of the Era. Becoming a Supreme is a certainty for us, and cubs that cannot attain Supreme-level combat power are worthless.

“The Seven-Colored Divine Ox, even at its peak outside, only possesses Dominator-level combat power, inferior to a Heavenly Venerable. But its cub is different. With the bloodline of the nine-colored divine ox, it can be considered an Origin Emperor cub. If one invests enough resources to nurture it into an Origin Emperor and let it cultivate other paths, it could achieve top-tier Supreme combat power or even higher.”

“I see!” Ye Tian understood.

Given this explanation, the nine-colored divine ox cub’s value was extraordinary. It was akin to a future Supreme. A Supreme-level battle pet was as valuable as a top-tier strongest supreme treasure, perhaps even more precious.

However, nurturing such a battle pet would undoubtedly require significant investment.

“Rest assured, I won’t covet your battle pet. However, I do have some questions,” Ye Tian said.

Aurora breathed a sigh of relief. If Ye Tian had demanded it, Aurora, although reluctant, wouldn’t have been able to resist. Now that Ye Tian didn’t want the cub, it was the best possible outcome.

“True Lord of Ten Thousand Laws, please ask. If I know the answers, I will certainly tell you!” Aurora assured.

Chapter 750: The Supremes’ Exploration!

“I wonder if the fragments of the shattered Well of Origin would merge into the Dao Phenomenon,” Ye Tian asked earnestly.

“What? Fragments of the Well of Origin?” Aurora’s pupils contracted sharply. He replied, “True Lord of Ten Thousand Laws, how could the Well of Origin, which is incredibly resilient, shatter? Even a Supreme like the Master of the Primordial Era couldn’t break a Well of Origin. The Well of Origin contains the power of the universe itself, capable of negating 99% law-based and pure energy attacks. Most of our cultivation attacks rely on rules, and even innate abilities are closely tied to these rules.

Soul abilities cannot harm the Well of Origin; only pure physical attacks can inflict any damage on it. Unfortunately, to shatter a Well of Origin, one would need to be a top-tier Supreme with a seventh-stage life level and have cultivated their physical body to the pinnacle. Only then could they break the Well of Origin.”

Ye Tian’s pupils contracted as he realized how difficult it was to destroy a Well of Origin. He had assumed that all Supremes could destroy a Well of Origin. After all, he had shattered a damaged Well of Origin while he was only at the peak of the Universal God realm!

“It seems that because that Well of Origin was already cracked, it couldn’t nullify attacks. Moreover, my attack power was not weak. Continuous attacks eventually broke that Well of Origin. According to Aurora’s explanation, a complete Well of Origin couldn’t even be destroyed by the Master of the Primordial Era. But the Ancestor of this world should be able to break it with pure physical strength.

Perhaps two Ancestors fought near that Well of Origin, causing its damage, which benefited me!”

This was Ye Tian's speculation, but he felt it was very reasonable.

"Aurora, I just want to know if, once the Well of Origin shatters, its fragments can merge into the Dao Phenomenon," Ye Tian asked again.

"This..." Aurora recalled his knowledge about the Well of Origin, then shook his head and said, "True Lord of Ten Thousand Laws, I'm really not sure about that. But I do know that the Well of Origin itself is considered a special supreme treasure. If the Well of Origin shatters, those fragments should be considered supreme treasure fragments.

Supreme treasure fragments are likely unable to merge into the Dao Phenomenon. I'm not sure why you are asking this."

"Nothing, just curious!" Ye Tian smiled.

Aurora didn't ask further. He suspected Ye Tian had some secret but didn't want to delve too deeply.

After all, he wasn't a match for Ye Tian. What if he stumbled upon some shocking secret and Ye Tian decided to silence him?

Subsequently, Aurora took his leave.

Watching Aurora leave, Ye Tian muttered, "It seems that Aurora is quite afraid of me!"

He understood why Aurora was afraid. Firstly, because of the Nine-Colored Divine Ox calf, secondly, because they were still technically enemies, and thirdly, due to the difference in their strengths.

"If it were an Ancestor's offspring, I might be concerned. But just a Nine-Colored Divine Ox calf doesn't bother me! Unfortunately, Aurora didn't know why the Well of Origin fragments would merge into the Dao Phenomenon. I'll have to ask Kunwu Supreme when I return. Maybe he knows." RÂÑöĔË§

However, Ye Tian also knew that the knowledge of Kunwu Supreme was limited, and he might not know this secret either.

Suddenly, Ye Tian thought of the Origin calf. It had to be said that an origin beast calf was indeed a significant help.

“If we could obtain an Origin Ancestor’s offspring, it would be a tremendous help to the Human Race. Even if I am not with the Human Race in the future, having an Origin Ancestor to oversee them would ensure that no other major race would dare to provoke us!” Ye Tian said.

He understood that in the future, he would often have to leave the Human Race to seek opportunities. The number of Supremes among the Human Race was truly limited and quite weak. There was no hope for the Human Race to rise quickly without external assistance.

Therefore, he very much desired an Origin Ancestor’s offspring, preferably a powerful one.

However, he also knew that obtaining such an Origin Ancestor’s offspring was extremely difficult. Even knowing the whereabouts of an Origin Ancestor’s offspring would mean going up against an Origin Ancestor.

Aurora had stolen a top-tier Origin King’s offspring and was chased to such an extent. If he attempted to steal an Origin Ancestor’s offspring, he probably wouldn’t even be able to escape. He didn’t believe that his Sea of Death Flowers could contend with an Origin Ancestor, nor did he think his Chaos Origin Divine Well could withstand an Origin Ancestor’s attack.

Therefore, it all depended on luck.

“Let’s go. I’ll keep an eye out for information about an Origin Ancestor’s offspring. If I can find one, I’ll give it a try. If not, so be it.”

With a swish, Ye Tian also left the area.

In the main space of the universe, the Supremes of the Twelve Cosmic Eras and the Supremes of all races had long since joined forces to repel the Creatures of Destruction. They had also cleared the Dominator-level battlefield and the Heavenly Venerable-level Creatures of Destruction from the Universal God battlefield.

In a certain part of the Dominator-level battlefield, the figures of seven or eight Supremes appeared. Among them, the strongest Supreme was the Golden Light Supreme.

As for the Master of the Primordial Era and other Supremes, they were still in the Abyss of Destruction. If too many Supremes left, the Kings of Destruction might charge out again, which would be troublesome.

The Golden Light Supreme and others were here not for anything else but to find Aurora and other Children of the Era.

“This is the place. The aura of Aurora and the other Children of the Era disappeared here. They are clearly not dead, which means they have entered some dimensional world.

Moreover, just now, I forcibly activated time and space and confirmed that the Children of the Era had entered a dimensional world.

However, there are countless dimensional worlds. Without knowing the coordinates, we need to explore layer by layer, which requires time and strength. I ask everyone to help me break the void here and trace their aura, exploring layer by layer!” The Golden Light Supreme said.

“Don’t worry, Golden Light Supreme. We will complete the task!” the other Supremes nodded in agreement.

Immediately, the Golden Light Supreme and the others activated their Supreme powers, breaking the void in this area and beginning to explore the dimensional worlds layer by layer.
