

## Talent 751

### Chapter 751: Two Origin Ancestors!

Due to the strength of figures like Golden Light Supreme, it didn't take long for them to detect the aura of the Origin Realm.

"That's the Origin Realm..."

Golden Light Supreme's pupils contracted, filled with both shock and excitement.

That was the legendary Origin Realm. During the Twelfth Cosmic Era, he ruled the entire universe but never found the Origin Realm. He had only heard of it.

During the Twelfth Cosmic Era, the universe's origin was far stronger than it was now, making the Origin Realm even harder to find. Even when he mobilized many powerful beings, he couldn't locate it.

Moreover, the Origin Realm was situated at a special dimension. It wasn't simply a matter of breaking through layers of space to find it. One needed to locate specific nodes and break through the spatial dimensions at these nodes to find an entrance.

Throughout the entire Origin Realm, such entrances were scarce.

Considering the vastness of the universe, with only a few nodes, finding them was nearly impossible unless one's consciousness could traverse and cover the entire universe. Such an ability was beyond even the transcendent beings. Only someone far beyond the realm of the transcendent could achieve this, but was that even possible? Thus, finding the Origin Realm relied entirely on luck.

Once a node of the Origin Realm was found, opening the entrance became easy.

In essence, controlling an entrance to the Origin Realm meant having access to it.

However, this was only a temporary entrance.

“The universe’s origin has its own rules. It wouldn’t allow too many people or very powerful beings to enter the Origin Realm. If a Supreme-level powerhouse entered, the node would instantly shift, possibly trapping a Supreme within the Origin Realm! Furthermore, even if only weaker individuals entered, if they stayed for over ten thousand years, the node would still shift.

Fortunately, the time spent by Aurora and the other Children of the Era within the Origin Realm was not long, so there was still plenty of time.” Golden Light Supreme muttered to himself.

At this moment, another Supreme said, “Golden Light Supreme, the Origin Realm is incredibly precious. It is rumored to contain Origin Well Water. Even if we don’t dare enter, we could send more Universal Gods. If they find the Origin Well, we could obtain some of the Origin Well Water.

If we offer generous rewards, we might be able to trade for some Origin Well Water!”

“Alright, let’s send the remaining Children of the Era and Supreme-level princes of the Twelfth Cosmic Era into the Origin Realm. Spare no expense to bring back the Origin Well Water.

Moreover, the Origin Realm doesn’t just contain the Origin Well but also many rare materials and supreme treasures.

This is a great opportunity for us!” Golden Light Supreme said excitedly.

Immediately, he sent a message to the Master of the Primordial Era.

Soon, even the myriad races learned about this, as it couldn’t be kept secret.

In the current state of war, it was impossible to conceal Golden Light Supreme and the others’ actions. Both sides needed to work together to resist the Creatures of Destruction. Therefore, the various races also demanded to send some Universal Gods into the Origin Realm.

The Supremes like the Master of the Primordial Era didn’t dare to clash with the Supremes of the various races and thus had to agree.

Shortly after, batches of top Universal God geniuses were sent into the Origin Realm. Only true geniuses were given places in the Origin Realm.

Despite this, nearly ten Universal Gods broke into the Origin Realm, all unknown to Ye Tian. But even if he had known, he wouldn't have cared.

The Origin Realm.

Ye Tian flew aimlessly, without any clear purpose.

On this day...

He arrived at a river that seemed quite ordinary at first glance. However, the yuan qi here far surpassed that of other areas, and this yuan qi had a unique quality that nourished the body.

**RAJNóBEs**

"If I cultivate the Chaos Golden Desolation Technique here, my progress would be much faster!" Ye Tian thought to himself.

With a sweep of his talent-copying ability, he discovered numerous water-attributed origin beasts hidden within the river. Among them were several that even he found intimidating.

The river was vast, undoubtedly harboring origin beasts at the Origin Emperor level.

Given that his current strength was no match for an Origin Emperor, Ye Tian wisely descended, concealed his aura, and refrained from being overly bold.

Not knowing where to go, Ye Tian found a suitable spot along the river and established a temporary underground cave dwelling to cultivate for a while.

Time passed slowly —

Boom!!! A violent yuan qi tremor echoed through the air.

“What is that...”

Ye Tian opened his eyes, ending his cultivation. His divine sense scanned the distance, detecting a powerful aura shaking the yuan qi in the area for millions of miles.

“It doesn’t seem like a battle! Could it be a treasure?”

Curious, Ye Tian stealthily moved toward the source of the disturbance.

Before long, he arrived at the location that had caused the commotion.

“That is...”

Ye Tian’s expression changed when he saw a seven-leaf black grass. Though it was called grass, it stood at least a thousand feet tall. The seven-leaf black grass emitted an unusual fragrance, inciting the greed of countless origin beasts, each charging forward.

Surrounding the seven-leaf black grass were two formidable origin beasts.

One resembled a fox, while the other was a humanoid beast, looking somewhat like a bear and somewhat like an ape.

These two origin beasts stood in the air, gazing at the seven-leaf black grass without engaging each other.

However, whenever other origin beasts approached the seven-leaf black grass, the two would strike them down.

Boom!!!

The fox-like origin beast made a move, sweeping its tail across the area, annihilating all the origin beasts in its path, leaving none alive. Among the fallen was even a top-tier Origin Emperor, obliterated in a single strike.

“Hiss!” Ye Tian gasped.

This wasn’t a battle; it was a massacre! Moreover, he had roughly identified the two origin beasts.

“Origin Ancestors!” Ye Tian thought to himself.

Origin Ancestors were formidable beings comparable to the Supreme level in the outside world. They possessed terrifying combat power purely through their physical bodies and innate talents.

In Ye Tian’s eyes, an Origin Ancestor was even more fearsome than a Supreme.

If not for the limitations of being an origin beast, an Origin Ancestor might even transcend.

Chapter 752: Battle of the Origin Ancestors!

The two Origin Ancestors did not engage in battle at the moment; they merely faced off against each other.

Ye Tian understood very well that these two Origin Ancestors were not friends but enemies. Their auras locked onto each other, causing even the void around them to distort.

They did not allow other origin beasts to approach; any that did were swiftly killed by them.

“Those origin beasts are too foolish. With two Origin Ancestors there, going near is simply seeking death!” Ye Tian muttered to himself.

However, he also knew the reason—undoubtedly, it was the allure of the seven-leaf black grass.

Normally, no matter how foolish origin beasts were, they would not dare to offend Origin Ancestors and would be scared away. But under the attraction of the seven-leaf black grass, they seemed to lose the last bit of their intellect, completely overtaken by greed and driven to madness.

It was precisely because of this that these weaker origin beasts dared to offend the two Origin Ancestors.

“What exactly is that black seven-leaf grass to attract two Origin Ancestors? A treasure that can make them wait here must be extraordinary!” Ye Tian thought to himself.

Unfortunately, he did not recognize the seven-leaf black grass.

“I am at a considerable distance, and the focus of the two Origin Ancestors is entirely on each other, so they won’t pay much attention to their surroundings.

Furthermore, origin beasts are not adept in the realm of souls, and I have employed numerous stealth techniques and invisibility talents. As long as I remain still, even an Origin Ancestor might not easily detect my presence.” Ye Tian estimated.

Therefore, he did not leave and continued to wait.

As time passed, the origin beasts in this area died one after another, transforming the place into a graveyard of origin beasts. The death aura grew at an incredible rate.

Suddenly, Ye Tian sensed movement from the two Origin Ancestors. Though they had not yet fought, their blood energy surged, affecting the surrounding billions of miles.

“So powerful!”

Ye Tian’s expression changed slightly. The blood energy of the Origin Ancestors was incomparably stronger than his own. Such blood energy indicated an immensely powerful physical body!

At this moment, the two Origin Ancestors began to speak.

Although they did not speak the universal language of the cosmos, their words resonated with the heavens, containing the rules of the world. Thus, any powerful being could understand their meaning, and Ye Tian naturally comprehended it as well.

“Zhumo, do you really intend to compete with me for this Seven-leaf Ancestral Blood Grass?” One of the Origin Ancestors said coldly.

“Luoluo, the Seven-leaf Ancestral Blood Grass is a rare treasure, and it is nearly ripe. Having absorbed the blood of countless origin beasts, it is about to mature. Why should I give it up?” Zhumo replied coldly.

“This place belongs to my territory. The Seven-leaf Ancestral Blood Grass rightfully belongs to me!” Luoluo roared.

“Hahaha, ridiculous. If the things in your territory are yours, then I say the entire Origin Realm is my territory. Does that mean everything in the Origin Realm belongs to me?”

Zhumo showed no fear of Luoluo, as they were both Origin Ancestors and their powers were comparable.

If Luoluo had been the most powerful Origin Ancestor, Zhumo would have left without hesitation. However, since their strengths were similar and Zhumo had discovered the Seven-leaf Ancestral Blood Grass, gaining it would allow him to further enhance his power. ㄟㄎㄟㄎㄟㄎ

Therefore, he couldn't give up on the Seven-leaf Ancestral Blood Grass.

From a distance, Ye Tian overheard the conversation between the two Origin Ancestors and thought to himself, “So this grass is called the Seven-leaf Ancestral Blood Grass, and it's absorbing the blood of countless origin beasts to accelerate its maturity!!!”

He hadn't noticed this about the Seven-leaf Ancestral Blood Grass earlier because he had been focusing on the two Origin Ancestors.

“This means the Seven-leaf Ancestral Blood Grass is about to mature. Can I seize it?” Ye Tian wondered.

Of course, regardless of the circumstances, he wouldn't give up. If he had even a slim chance to seize it, he would definitely take action.

Boom!!!

The two Origin Ancestors clashed, but seemingly worried about destroying the Seven-leaf Ancestral Blood Grass, they battled deep in the void, leaving some power behind to protect the ground and prevent other origin beasts from approaching the Seven-leaf Ancestral Blood Grass.

It was evident that the goal of both Origin Ancestors was the Seven-leaf Ancestral Blood Grass. No matter who won or lost, they both intended to claim the Seven-leaf Ancestral Blood Grass. If it were destroyed, their battle would be meaningless.

“I need to wait!”

Ye Tian understood clearly that even if the two Origin Ancestors were fighting in the void, the residual power could still instantly injure or even kill him.

Boom!!! An Origin Emperor arrived. Seeing the Seven-leaf Ancestral Blood Grass, his eyes turned frenzied, and he rushed towards it at the fastest speed. However, before he could reach the Seven-leaf Ancestral Blood Grass, the power of an Origin Ancestor struck.

With just one blow, the body of the Origin Emperor began to disintegrate, turning into countless fragments and falling to his death.

“As expected, although this Origin Emperor was relatively weak, he was still stronger than me. I didn’t expect him to die so quickly!” Ye Tian thought.

However, he had some advantages over this Origin Emperor, such as his defense.

With the Chaos Origin Divine Well, his defense should be quite formidable. Moreover, he possessed a Super God-level time and space talent, which the origin beasts in the Origin Realm lacked.

In the Origin Realm, besides their excellent strength talents, origin beasts generally had ordinary talents. Time and space talents were extremely rare among origin beasts, let alone Super God-level time and space talents.

Therefore, this was one of Ye Tian’s advantages.

“Wait until the two Origin Ancestors are in a heated battle and the Seven-leaf Ancestral Blood Grass fully matures. That will be my chance to strike!”

Ye Tian understood very well that he had only one chance to act. If he failed, he would have to escape.

Although his realm was low and his strength was weak, his escape abilities were unmatched by other origin beasts.

If two Supremes from the outside world were battling here, he wouldn't dare to think of seizing anything. However, origin beasts were not good at chasing down prey, and they lacked understanding of the Dao. They relied on brute strength, and even at the Origin Ancestor level, they might not be able to catch him.

Chapter 753: Seventh Level of Life?

Boom!!! The battle in the void grew increasingly intense, and the Seven-Leaf Ancestral Blood Grass finally reached its maturity.

The Seven-Leaf Ancestral Blood Grass suddenly released circles of light, interspersed with strands of golden light. This phenomenon convinced Ye Tian that the Seven-Leaf Ancestral Blood Grass had fully matured.

The next scene confirmed Ye Tian's thoughts—swoosh, swoosh, swoosh!!! Several Origin Emperors rushed over from a distance, aiming directly for the Seven-Leaf Ancestral Blood Grass. These Origin Emperors were not weak; they were powerful and seemed somewhat intelligent, seizing the moment to act just as the Seven-Leaf Ancestral Blood Grass matured.

“Courting death!”

“Courting death!”

Two Origin Ancestors in the void were furious, sending blood-colored arrows at the Origin Emperors, intending to kill them.

“Good opportunity!”

Ye Tian was overjoyed and immediately teleported over.

He was not far from the Seven-Leaf Ancestral Blood Grass, and with his Super God-level space-time talent, his speed in traversing space was unmatched. In short-distance traversal, those Origin Emperors were no match for him.

In an instant, Ye Tian arrived in front of the Seven-Leaf Ancestral Blood Grass.

The two Origin Ancestors focused on their battle and the Origin Emperors, so they did not notice Ye Tian.

Moreover, Ye Tian's movement was too fast, catching them off guard.

After all, in the long history of the Origin Realm, they had never encountered such a Super God-level space talent, leading to their miscalculation.

Crack! Ye Tian uprooted the Seven-Leaf Ancestral Blood Grass in one go. Even if it slightly damaged the grass's effects, he couldn't care less.

He didn't have much time and had to escape immediately, or he would surely die.

After all, he had snatched the Seven-Leaf Ancestral Blood Grass from two Origin Ancestors, a matter not to be taken lightly.

"Ant!"

The two Origin Ancestors sensed Ye Tian and saw him trying to take the Seven-Leaf Ancestral Blood Grass, which enraged them. However, fearing they might damage the grass, they didn't attack Ye Tian with full force. They only launched two attacks equivalent to a full-strength strike from an Origin Emperor.

Ye Tian instantly activated various defensive measures, including the Chaos Origin Divine Well.

Boom!!! The attacks from the two Origin Ancestors hit the Chaos Origin Divine Well, causing it to tremble but not shatter, only knocking Ye Tian away.

“What, he’s not dead?”

“Impossible, how could a mere Origin King level anomaly survive?”

The two Origin Ancestors were incredulous.

Though they were not clear about Ye Tian’s background, his aura only matched the peak of a Origin King. While his methods were peculiar, they didn’t expect him to withstand their near full-strength attack! As the two Origin Ancestors were momentarily stunned, Ye Tian used his rare Splitting Talent. rANöBEş

Swoosh, swoosh, swoosh!!!! Numerous clones split from his body and fled in all directions.

Once he used the Splitting Talent, Ye Tian’s strength would greatly diminish. Although this talent was often seen as quite useless, at this moment, it was the perfect aid for Ye Tian’s escape.

Given that his strength was negligible before the two Origin Ancestors, the further reduction in his power didn’t matter.

With so many clones splitting off and fleeing in different directions, it effectively dispersed the attacks from the two Origin Ancestors.

If a Supreme from the universe had been present, they could have frozen time and space, hunting down each clone with a single thought, making Ye Tian’s escape impossible. But the Origin Ancestors of the Origin Realm couldn’t achieve this.

This was why Ye Tian dared to make a move! In the blink of an eye, Ye Tian’s true self and numerous clones fled, leaving the two Origin Ancestors furious. They split up to chase, annihilating clone after clone.

Half an Hour Later

In a certain location within the Origin Realm, a figure emerged from the void, then quickly burrowed deep into the ground, concealing its presence.

This figure was Ye Tian.

“That was close, I underestimated the Origin Ancestors a bit; almost couldn’t escape. So many clones were destroyed, but fortunately, I used some to divert the two Origin Ancestors. If my true body had been caught, I would have really died,” Ye Tian thought with relief.

However, with ninety-eight percent of his clones annihilated, he was severely injured. The clones carried his own strength, not just divine force. If it had been merely divine force, recovery would have been easy. The loss he suffered was akin to ninety-eight percent of his physical body being obliterated.

Had it not been for the Splitting Talent, Ye Tian’s physical body being destroyed to such an extent would have left him on the brink of death.

“Next, I need to restore my body first,” Ye Tian murmured.

He then initiated time acceleration to gradually recover his body.

One Year Later

Ye Tian emerged from his retreat. Utilizing time acceleration, he had completely restored his body, albeit at the cost of numerous rare treasures.

“The Seven-Leaf Ancestral Blood Grass, it’s time to study it. This is a precious item I risked my life to obtain. I hope it proves highly beneficial,” Ye Tian said cautiously.

He carefully took out the Seven-Leaf Ancestral Blood Grass and set up various arrays around him to isolate any aura.

Ye Tian began researching and testing the effects of the Seven-Leaf Ancestral Blood Grass.

A Few Days Later

Ye Tian roughly understood the effects of the Seven-Leaf Ancestral Blood Grass. In simple terms, it could enhance the level of life.

“Those two Origin Ancestors should be at the peak of the sixth level of life. They were desperate to seize the Seven-Leaf Ancestral Blood Grass, which clearly indicates its significant value even to peak sixth-level beings. It might help them break through their life limitations. And I am also at the sixth level of life; perhaps I can use it to advance my life level to the seventh,” Ye Tian said excitedly.

The seventh level of life! Even the Master of the Primordial Era hadn’t reached this level. Moreover, Ye Tian had cultivated the Chaos Golden Desolation Technique. Once he reached the seventh level of life, his true physical body would be comparable to the peak of the seventh or even the eighth level of life.

The thought thrilled Ye Tian.

He swallowed the Seven-Leaf Ancestral Blood Grass in one gulp and began practicing the sixth layer of the Heavenly Origin True Method.

The seventh layer of the Heavenly Origin True Method had flaws, so he wouldn’t practice it. However, the sixth layer was complete and could help him quickly absorb the energy of the Seven-Leaf Ancestral Blood Grass.

This time, he was using the power of the Seven-Leaf Ancestral Blood Grass to forcibly break through the life level limitation, not relying on his cultivation technique to break through, so he didn’t concern himself with the level of the technique.

Boom!!!! Ye Tian’s life force began to strengthen at an unimaginable speed, and trillions of cells started evolving to a completely new level.

“It’s working!” Ye Tian exclaimed joyfully.

At this rate, he might indeed break through the life level limitation and reach the seventh level of life while still in the Universal God realm.

Chapter 754: Breakthrough!

It should be noted that in the universe, aside from the Origin Realm, Universal Gods were typically pseudo-fourth-tier beings, and most of the Children of the Era from the Twelve Cosmic Eras were merely fifth-tier beings. Yet, he was about to become a seventh-tier being.

One could say he would be the only practitioner in this universe to enter the seventh level of life.

“The Origin Realm indeed contained great opportunities. Not only did it have the Well of Origin, but also treasures like the Seven-Leaf Ancestral Blood Grass. It was truly fortunate to be able to enter here!” Ye Tian murmured.

Immediately, he began to operate the Heavenly Origin True Method anew to refine the Seven-Leaf Ancestral Blood Grass. He also took out a pile of treasures that could enhance his physical strength, swallowing them one by one.

On this day, ten years later, Ye Tian’s body finally underwent a true transformation.

An aura belonging to a Seventh-level life form emanated from Ye Tian’s body, and his strength soared to an incredible extent.

After a long time, Ye Tian opened his eyes.

“Seventh-tier life form, I finally achieved it!” Ye Tian smiled.

At this moment, his physical strength was vastly superior to before. If previously he could match an ordinary top-tier Origin King in the Origin Realm, now he could crush any Origin King and even fight against weaker Origin Emperors. However, it would only be a brief clash. In a real fight, he still wouldn’t be a match for a Origin Emperor, merely able to clash a bit before escaping. Previously, he could only escape from an Origin Emperor with the help of the Sea of Death Flowers and the Chaos Origin Divine Well.

It could be said that Ye Tian had made tremendous progress! Moreover, this time, breaking through to the seventh level of life not only caused his physical strength to skyrocket but also granted him a new ability, a unique power exclusive to seventh-tier beings— “Life Heavenly Eye!”

Ye Tian activated this special ability, and a strange green light appeared in his eyes, transforming them into Life Heavenly Eyes.

The Life Heavenly Eye had no offensive or defensive capabilities; it was purely a support ability, but it was extremely heaven defying. This ability could sense the life aura within a region. As long as it was life and not above the seventh-level, it couldn't escape the detection of the Life Heavenly Eye. The range of this detection was vast, making it an incredible scouting ability!

“With the Life Heavenly Eye, even a Supreme wouldn't be as proficient in scouting as I am!” Ye Tian exclaimed excitedly.

Immediately, he began to use the Life Heavenly Eye to search for life forms in the Origin Realm.

Boom!!! The life forms within a region of the Origin Realm appeared within Ye Tian's Life Heavenly Eye perception. Countless life auras were displayed in the void scene before him.

He could even determine the life level of these beings based on their life auras.

“So many fourth and fifth-tier life forms, quite a few sixth-tier ones as well, no seventh-tier discovered. The Life Heavenly Eye can only sense life forms below seventh-tier, which is a good thing. Otherwise, other seventh-tier life forms might also be able to sense my existence!” Ye Tian murmured.

He continuously examined the life levels of these origin beasts, unaware that half a day had passed.

Suddenly, Ye Tian noticed a particular life aura. This aura was very far from him, but it was incredibly special.

It was the aura of a sixth-tier life form, but its aura was very weak. In other words, its life aura quality had reached the sixth-tier, but the aura itself was too feeble, far inferior to other sixth-tier life forms. ¶ A NOBES

Although the auras of other sixth-tier life forms varied in strength, none were as weak as this one.

“According to my guess, the owner of this life aura is either a severely injured and dying sixth-tier life form, or...” Ye Tian considered another possibility—it could be a cub!

Origin beast cubs were very weak, but their life tier was fixed at birth. For instance, a cub born from a sixth-tier life form would naturally be a sixth-tier life form, although its cultivation would be very weak, making its life aura equally weak. Even so, it would still be a genuine sixth-tier life form!

“If it’s a severely injured and dying sixth-tier life form, its value is limited. But if it’s a sixth-tier life form cub, its value would be immensely high!” Ye Tian was extremely excited.

This was because a sixth-tier life form cub was very likely to be a Origin Ancestor cub. Most Origin Emperors were only fifth-tier life forms, with only a few being sixth-tier.

“There are only a few weak origin beasts around this sixth-tier life form, and they don’t seem to belong to the same group. This is an opportunity!” Ye Tian didn’t hesitate long and immediately set off.

If it truly was a sixth-tier Origin Ancestor cub, its value would far exceed that of even the Strongest Supreme Treasures, potentially equaling the worth of dozens of such treasures! Previously, Aurora had gone mad over a Origin Emperor cub, which indicated how valuable a Origin Ancestor cub could be! Due to the considerable distance and the fact that he would encounter the territories of several sixth-tier life forms along the way, Ye Tian had to take a detour to avoid their domains. These sixth-tier life forms were not weak, and their life auras left Ye Tian in awe, indicating they were beings above the Origin Emperor level.

Thus, Ye Tian had to take a longer route, slowing down his journey.

Ten days later, Ye Tian finally arrived at his destination.

“Land of Fallen Rocks. This place must have been a mountain range before it was destroyed by battles, forming this field of fallen rocks!” Ye Tian didn’t investigate the cause of this area’s formation but quickly headed toward the location of the sixth-tier life aura.

However, he moved slowly and carefully, concealing his aura.

After all, he didn’t know the identity of that sixth-tier life form. If it were a severely injured Origin Ancestor, approaching recklessly would be suicidal. Even a weakened Origin Ancestor was not someone he could kill, so he had to be extremely cautious.

However, the likelihood of it being a Origin Ancestor was low since the sixth-tier life aura was very stable. If it were a Origin Ancestor, it would be trying to recover, and its life aura wouldn't remain unchanged.

“The possibility of it being a cub is the greatest!” Ye Tian speculated.

Soon, he finally got close to the sixth-tier life form.

“Formation!”

Ye Tian sensed the presence of a formation and quickly discovered it was a natural formation, not one artificially set up.

“Copy talent, investigate!” Ye Tian used his copy talent to scan the area and finally identified the sixth-tier life form.

Species: Two-Horned Round Bear Cub

Bloodline Talent: Mixed-level

Strength Talent: Peak God-level

Speed Talent: Mystic-level

Defense Talent: God-level

“It really is a cub!” Ye Tian was elated.

Chapter 755: Little Yuan Yuan

Very quickly, Ye Tian stood before the natural formation, his gaze piercing through it to observe the cub inside.

The two-horned round bear cub looked very much like a giant panda, also black and white, but even rounder, appearing as if it were an exceptionally chubby panda.

The only difference was that the cub had two small horns on its forehead: one black and one white.

It was precisely because of these two horns that it was called a two-horned round bear.

Although the two-horned round bear appeared cute and silly, it wasn't an ordinary origin beast, but a sixth-tier lifeform.

"From its aura, this two-horned round bear cub's cultivation wasn't high, only that of a peak origin beast. However, with the life level of a sixth-tier lifeform, it could match a weaker Origin King!" Ye Tian judged.

He didn't immediately enter the natural formation; instead, he scouted the surroundings. He couldn't guarantee there weren't other powerful origin beasts nearby. If the cub's parents were around, entering would be courting death.

"Better be cautious!" Ye Tian thought to himself.

Ye Tian waited quietly nearby, continually probing the area but found no strong origin beasts.

He even sent a clone to touch the natural formation, but nothing abnormal happened.

After confirming there was no danger, Ye Tian finally entered the natural formation.

As soon as he stepped inside, the two-horned round bear cub fixed its large, round eyes on Ye Tian, brimming with curiosity.

"Little guy, how about following me?" Ye Tian asked.

The cub, perhaps too young, didn't respond to Ye Tian and simply stared at him blankly.

Ye Tian knew that origin beasts in the Origin Realm generally had low intelligence, so he wasn't surprised. He bound the cub with his power and quickly left.

What if the cub's parents had merely gone out and came back? Taking the cub away immediately was undoubtedly the safest option. Once far from this place, even if the cub's parents returned, they wouldn't be able to find him.

A day later.

Ye Tian landed on a mountain peak and established a temporary cave dwelling, then began to study the two-horned round bear cub.

Of course, his primary focus was the cub's bloodline.

Through his research, he discovered that the cub's bloodline contained traces of the Origin Ancestor's aura.

The result was clear: the two-horned round bear cub was indeed an Origin Ancestor's offspring.

A sixth-tier Origin Ancestor's offspring far surpassed the value of the Nine-Colored Divine Ox. Even saying that ten Nine-Colored Divine Oxs couldn't compare to one two-horned round bear cub wouldn't be an exaggeration.

"This is a great find. If I can nurture this two-horned round bear cub, it could be taken out of the Origin Realm. In the future, it would be equivalent to having a Supreme battle pet."

"Just this battle pet would be enough to protect the human race!" Ye Tian said excitedly.

Immediately, he couldn't wait to make the two-horned round bear cub his battle pet.

In the universe, there were many ways to take on a battle pet, and Ye Tian naturally knew some secret techniques for doing so.

He then began to use these secret techniques on the cub.

A few days later, Ye Tian successfully formed a contract with the two-horned round bear cub, officially becoming its master.

“The cub’s intelligence is too low. There are quite a few treasures in the universe that can increase intelligence. I have some with me. Let’s take some out for the cub to consume!”

Ye Tian fed the two-horned round bear cub one precious spiritual herb after another.

After consuming a significant amount of these spiritual treasures, the cub’s intelligence gradually improved.

A month later.

The cub looked at Ye Tian, and a voice transmitted into his mind: “Master!”

“Little one, I’ll give you a name. How about Little Yuan Yuan?” Ye Tian said with a smile.

“Thank you, Master. Little Yuan Yuan likes this name very much!” The cub rolled around happily, expressing its joy.

“You should enter my small universe’s Ancient Chaos Realm to cultivate. You’re too weak now to help me,” Ye Tian said, tossing Little Yuan Yuan into his small universe. He also imparted some cultivation methods to the cub to facilitate its growth.

Next, Ye Tian roamed the Origin Realm, casually searching for various treasures.

Many treasures in the Origin Realm were suitable for the growth of origin beasts, so Ye Tian gave all these treasures to Little Yuan Yuan.

With so many treasures, Little Yuan Yuan was very happy and cultivated even more diligently. Meanwhile, Ye Tian continued to explore the capabilities of his Life Heavenly Eye and used its powers effectively.

Currently, the Life Heavenly Eye allowed Ye Tian to not only detect the life auras of other creatures but also combine this ability with his Super God-level Time and Space talent to investigate the conditions of those creatures.

For instance, if the Life Heavenly Eye detected a distant life aura, he could use his Super God-level Time and Space talent to extend towards the location pinpointed by the Life Heavenly Eye, thus observing the situation of that creature, much like a divine sense probe.

Due to the great distance, the other party couldn't detect Ye Tian, making this the perfect spying technique.

With this method, Ye Tian could not only discern the level of the life auras but also identify the creatures and their surroundings, ensuring his safety.

Thus, Ye Tian diligently examined the situation of each origin beast daily. Sometimes, he would locate an Origin Ancestor and be sensed by them, but the ancestor could only launch frenzied attacks around without knowing his location.

In the Origin Realm, in the One-Eyed Violent Wolf Mountain Range.

This was the territory of the One-Eyed Violent Wolf clan. As an Origin King species, an adult One-Eyed Violent Wolf could become an Origin King, and the elites among them could even become Origin Emperors. The clan leader's strength matched that of a top-tier Origin Emperor.

The One-Eyed Violent Wolf clan had over ten thousand members, with subordinate species numbering in the hundreds of thousands. Even an Origin Emperor wouldn't dare to cause trouble in the One-Eyed Violent Wolf Mountain Range.

On this particular day, a figure shuttled through space and sneaked into the mountain range.

This person was Ye Tian.

"The One-Eyed Violent Wolf clan has many members but no Origin Ancestors. Even if I'm exposed, they can't capture me. This clan must have accumulated many treasures. If I steal them all, it would be a huge gain!" Ye Tian thought to himself.

He had done similar things multiple times, stealing from several origin beast clans along the way. The value of these stolen treasures was immense, extremely rare in the outside world. However, the previously robbed clans were not as powerful as the One-Eyed Violent Wolf clan. He was very curious about how much wealth this clan possessed.

“Hope it doesn’t disappoint me!” Ye Tian thought, continuing to infiltrate deeper into the One-Eyed Violent Wolf Mountain Range.

Chapter 756: Dominating the Scene, Concealing the Well of Origin!

With Ye Tian’s capabilities, not to mention the One-Eyed Violent Wolf at the Origin King level, even a slightly weaker Origin Emperor wouldn’t have been able to detect him.

Thus, Ye Tian progressed without any obstacles; not a single One-Eyed Violent Wolf detected him.

Of course, Ye Tian couldn’t move too quickly. If his aura leaked, he would still risk exposure.

“The One-Eyed Violent Wolves’ territory didn’t have any protective formations. If there had been formations, I definitely wouldn’t have been able to penetrate this deeply and would have been exposed!” Ye Tian thought as he walked.

Without formations, the One-Eyed Violent Wolves’ territory was like an unguarded zone for Ye Tian, making his infiltration exceedingly easy.

In this manner, Ye Tian reached the core cave of the One-Eyed Violent Wolves’ clan.

Here, Ye Tian sensed the presence of various treasures, all piled up in this cave, guarded by only a few Origin Emperors.

There were no formations here either, so Ye Tian didn’t worry about being discovered.

“Although origin beasts are powerful, they lack methods. Such a grand clan doesn’t even have a single formation!” Ye Tian shook his head, feeling pity for the origin beasts.

Fortunately, these One-Eyed Violent Wolves didn’t know how to set up formations. Otherwise, it would have been impossible for Ye Tian to sneak in.

However, Ye Tian didn’t underestimate the One-Eyed Violent Wolves. Those powerful Origin Emperor-level wolves could still detect his presence.

Thus, Ye Tian didn't act recklessly.

With the investigation of the Eye of Life, he clearly understood the whereabouts of the strong Origin Emperor-level One-Eyed Violent Wolves, allowing him to easily avoid them.

Finally, Ye Tian found an opportune moment and sneaked into the depths of the core cave.

"Tiangang Bronze Stone, such a large piece, extremely rare!"

"Wuwang Treasure Bamboo, so many stalks!"

"Wuliang Divine Jade, as large as a small mountain. My heavens, the One-Eyed Violent Wolves collected such a huge piece!"

"Ice Profound Fruit, dozens of them. Unfortunately, the One-Eyed Violent Wolves didn't store them properly, probably losing thirty percent of their efficacy!"

"Ten Thousand Dragon Rock Crystal, Tenfold Vine, Green Yellow Stone...."

Ye Tian looked at each material and treasure, incredibly rare in the outside world, and felt immense excitement.

The One-Eyed Violent Wolves' clan might have recognized these items as treasures, but they didn't know how to use them. Ye Tian, however, knew! The combined value of these treasures far exceeded that of a Heavenly Venerable, even rivaling or surpassing that of a Supreme. ƎÁNoB Êş

"Collect!"

"Collect!"

"Collect!"

Ye Tian gathered these treasures one by one, storing them in his microcosm.

Originally, Ye Tian's wealth had significantly decreased due to cultivating his second avatar. Even though he controlled the Desolate Realm, he couldn't plunder his subordinates' resources, so his personal resources weren't very abundant.

But now, these resources and treasures had instantly increased Ye Tian's wealth dramatically.

In no time, Ye Tian collected all these treasures without leaving a trace behind.

“Go!”

Ye Tian teleported away without any concealment.

Naturally, this action alarmed the One-Eyed Violent Wolves, but they couldn't catch up with Ye Tian and quickly lost his trail.

Soon after, furious roars echoed through the One-Eyed Violent Wolves' mountain range.

Clearly, they had discovered that their treasures had been stolen by Ye Tian.

In a flash, fifty years had passed since Ye Tian entered the Origin Realm.

During these fifty years, Ye Tian's harvest had been immense, surpassing all his previous gains combined. The resources in the Origin Realm were incredibly abundant. Though it couldn't be described as treasures lying everywhere, it came close.

However, Ye Tian didn't rush to leave.

With his current strength, he couldn't break through the barrier of the Origin Realm to leave, but he could return to the place where he first entered and have the Supremes from the outside break the node to let him out.

In the short term, though, the Supremes outside were busy suppressing the creatures of destruction and might not have the time.

Therefore, it wasn't necessary for him to return now.

According to his estimation, the Supremes would likely be occupied for the next few centuries. Ye Tian set a personal deadline of a thousand years.

After a thousand years, he planned to return to the original entry point.

On this particular day, Ye Tian arrived at a new territory and once again used the Life Heavenly Eye to investigate the area.

Suddenly, he discovered a region where many origin beasts were gathered, numbering in the tens of thousands.

Initially, he thought it was a large tribe, but after using his time-space talent in conjunction with the Life Heavenly Eye to investigate further, he realized it wasn't a single tribe but various origin beasts congregating together.

Boom! The space rippled as Ye Tian's gaze traversed time and space, revealing the situation in that area.

He saw a large number of origin beasts gathered, all staring at a particular spot.

Crack! On the mountain peak, the void split open, and an ancient well slowly emerged.

As the well appeared, wisps of aura emanated, driving the origin beasts into a frenzy, seemingly trying to rush onto the mountain. However, the shattered void oscillated with threads of rules, slaughtering these origin beasts.

Clearly, the well hadn't fully emerged. Approaching it at this time would result in being killed by the rules it emitted.

"A Well of Origin!" Ye Tian was astonished.

He had merely intended to scout the area but unexpectedly discovered the Well of Origin, and it was a newly formed, complete Well of Origin.

Compared to this intact Well of Origin, the damaged one he had previously found was practically garbage!

“A great opportunity! The strongest beings here are just a few Origin Emperors. There’s no Origin Ancestor present. But if the Well of Origin fully manifests and its aura spreads, Origin Ancestors from other places will likely rush over!” Ye Tian pondered.

Immediately, he made a decision.

Swoosh! He moved quickly, using his fastest speed to reach the destination within three hours.

“Die!”

As soon as Ye Tian arrived, he struck! Boom! The God Demon Form activated, enhancing the third form of the Tiangang Battle Technique. The hand of the demon god swept over the mass of origin beasts, crushing them into dust.

Simultaneously, Ye Tian used his Super God-level time-space talent to harness the power of time and space, directly killing the weaker origin beasts.

In an instant, over ninety percent of the origin beasts were dead, leaving only those at the Origin Emperor level.

Ye Tian’s actions seemed to incite anger, and the Origin Emperor-level beasts charged at him.

However, these Origin Emperors were too weak, unable to break through the defense of Ye Tian’s Chaos Origin Divine Well. Moreover, with Ye Tian’s skyrocketing strength, he was nearly invincible at the Origin Emperor level.

Combined with his seemingly inexhaustible power, Ye Tian gradually annihilated the Origin Emperor-level beasts.

A few hours later, all the origin beasts in the area were dead.

Ye Tian didn't rest but immediately began setting up formations to conceal the aura of the place.

Gradually, numerous grand formations were set up by Ye Tian. Various concealing, defensive, killing, and spatial formations were all established.

"With so many formations in place, it should be enough to conceal the emergence of the Well of Origin and not attract those powerful Origin Ancestors," Ye Tian murmured to himself.

Chapter 757: The Complete Well of Origin!

Indeed, just as Ye Tian had suspected, after the formation concealed the aura here, no Origin Beasts came near.

Even if some Origin Beasts happened to come by, they left one by one after being blocked by the formation.

Seeing this, Ye Tian breathed a sigh of relief.

He knew he had managed to protect this Well of Origin, as with his current strength, he had no qualifications to compete with those powerful Origin Ancestors.

"This time, my luck was really good. There happened to be no Origin Ancestors nearby. Otherwise, if even one had arrived here earlier, I wouldn't have had the chance to seize this Well of Origin!" Ye Tian murmured.

At this moment, the Well of Origin had not fully formed; only half of it had emerged.

Thus, Ye Tian sat cross-legged and waited quietly.

Fortunately, without any Origin Beasts to compete with, he wasn't worried at all.

Time slowly passed, and two days went by in the blink of an eye.

On this day, accompanied by a rumbling sound, this ancient Well of Origin finally settled on this mountain peak.

Although it had just emerged, Ye Tian could already sense the aura of the Origin Water within the well. Clearly, this Well of Origin contained a substantial amount of Origin Water.

With a swish, Ye Tian flew over and immediately entered the Well of Origin.

The Well of Origin did not block Ye Tian's entry. Had the well not fully emerged, Ye Tian wouldn't have been able to enter. Forcing his way in would have resulted in being either blasted away or annihilated.

"So much Origin Water!" Ye Tian was stunned as he gazed at the Origin Water within the well's space.

Compared to the Origin Water contained in the damaged Well of Origin, there was at least several hundred times more here! And this was just the amount that had emerged. Given enough time, wouldn't there be even more?

At this moment, he truly realized how immensely valuable a complete Well of Origin was. It was an unimaginable treasure! One could even say that the assets of the human race couldn't compare to a single Well of Origin.

"Unfortunately, I can't stay in the Origin Realm forever. Otherwise, occupying this Well of Origin would be an enormous profit!" Ye Tian sighed.

He didn't dwell on this thought for long but began to cultivate instead.

For him, the most important thing now was to use the Origin Water to comprehend and enhance his strength. Turning resources into power was crucial.

The Well of Origin contained a lot of Origin Water, so he didn't worry about running out and began his comprehension with peace of mind.

With the assistance of the Origin Water, Ye Tian's understanding of the laws grew deeper and deeper.

His achievements on the Chaos Dao also became increasingly formidable.

Originally, Ye Tian's Chaos Dao was at the early peak of the Origin realm. Now, it was advancing at a rapid pace, and he was not far from reaching the mid-Origin realm.

Three months later.

An ancient well of Chaos Dao appeared on Ye Tian's body, and the essence within the well suddenly transformed, causing the well itself to evolve.

The aura of the ancient well grew stronger, and the Chaos rules it conveyed became increasingly terrifying! Ye Tian's aura also changed accordingly, as if he had stepped into another level.

Suddenly.

Ye Tian opened his eyes and murmured, "Mid-Origin realm, I finally broke through!"

Previously, he had used the damaged Well of Origin to push his Origin realm further, coming close to the mid-Origin realm. Now, after three months of cultivation with the complete Well of Origin, he had finally broken through the barrier and advanced to the mid-Origin realm.

Though it seemed like a small step from early Origin realm to mid-Origin realm, the difference was immense.

The improvement in the Origin realm had directly elevated Ye Tian's combat power to a new level. With the strength of the Chaos Dao, Ye Tian could now even fight against stronger origin creatures equivalent to Heavenly Venerable-level experts, rather than just barely holding his own.

"The Chaos Dao is the strongest Dao, and its Origin realm is extremely difficult to advance. Moving from mid-Origin realm to late-Origin realm is incredibly hard. This Well of Origin might not be enough," Ye Tian thought to himself.

So, he decided to focus on other aspects.

Immediately, he began to comprehend the great divine ability of time—the Wheel of Time.

Originally at the peak of major perfection, the Wheel of Time saw unimaginable progress with the aid of the Origin Water. In just a month, Ye Tian effortlessly elevated the Wheel of Time to the perfected realm.

With this, Ye Tian possessed both a perfected realm spatial great divine ability and a perfected realm temporal great divine ability.

“The Chaos Heaven Saber, this ultimate saber technique, also needs to be refined and improved. I’ve absorbed so much Origin Water that my understanding of the saber’s laws far surpasses that of others. I’m constantly progressing and can definitely perfect the Chaos Heaven Saber!” Ye Tian confidently declared.

Thus, he began refining the Chaos Heaven Saber.

Originally, the Chaos Heaven Saber could only be considered top-tier among supreme-level saber techniques, but it wasn’t exceedingly extraordinary. Many saber supremes had far greater achievements in saber techniques than he did. However, with the assistance of the Origin Water, Ye Tian step by step perfected the Chaos Heaven Saber, making it increasingly powerful.

Three years later.

Ye Tian stood in the void within the Well of Origin, holding a saber in his right hand. He lightly slashed.

Rip! The void tore open, and a streak of saber qi struck the wall of the Well of Origin, causing it to tremble.

Although the saber qi did not break the Well of Origin, its attack power left Ye Tian very satisfied.

“The Chaos Heaven Saber has reached the pinnacle of supreme-level saber techniques. Even those who have comprehended the saber for countless ages would find it hard to surpass me!” This was Ye Tian’s confidence! With the Chaos Heaven Saber perfected, Ye Tian temporarily concluded his cultivation.

He then checked the Origin Water in the well.

“Only half of the Origin Water has been consumed. I can continue cultivating for a long time. What should I work on next? There’s no need to cultivate the Chaos Golden Desolation Technique. The Origin Water doesn’t significantly aid in this technique. Using the Origin Water for it would be a waste of resources and time. Instead, I should cultivate the fourth form of the Tiangang Battle Technique!” Ye Tian suddenly thought.

The fourth form of the Tiangang Battle Technique was extremely difficult to cultivate, requiring sufficient comprehension and a deep understanding of the cosmic laws. Previously, Ye Tian had absorbed a trace of the cosmic origin, enabling him to quickly master the first form of the Tiangang Battle Technique.

Now, with a large amount of Origin Water, Ye Tian might be able to master the fourth form of the Tiangang Battle Technique.

If successful, his strength would once again soar!

Chapter 758: Perfection of the Seventh Layer of the Chaos Golden Desolation Technique!

“Mastering the fourth form of the Tiangang Battle Technique was incredibly difficult. I hoped that this time, I could quickly master it by relying on the Origin Well Water,” Ye Tian murmured with anticipation.

Immediately, he began absorbing a large amount of Origin Well Water, using the cosmic origin rules contained within it to comprehend the fourth form of the Tiangang Battle Technique.

As Ye Tian’s understanding of the cosmic rules deepened, his comprehension of the fourth form naturally increased.

Initially, he barely grasped a hint of the fourth form’s essence. Gradually, he began to understand it, and slowly, he penetrated its core.

One year passed. Then two years, three years, four years. In the blink of an eye, it was ten years.

On this particular day, Ye Tian opened his eyes and executed the fourth form of the Tiangang Battle Technique, causing his combat power to surge multiple times over.

“Twelve times over!” Ye Tian estimated.

He had successfully mastered the fourth form of the Tiangang Battle Technique, boosting his overall combat power twelvefold. This was a massive enhancement. Although it seemed only slightly stronger than the third form, at his level, any increase was extremely difficult to achieve, let alone such a significant one.

With the successful mastery of the fourth form, Ye Tian concluded his cultivation.

Immediately, he collected all the Origin Well Water from the Origin Well.

For the time being, he decided not to cultivate here anymore and intended to leave.

After all, he had gathered the Origin Well Water, and he could slowly absorb and refine it after returning to the Human Supreme Hall.

Moreover, he had already absorbed a substantial amount of Origin Well Water, achieving a deep understanding of the cosmic origin rules. Hence, the water no longer provided significant benefits to him.

Of course, the transformation brought about by the Origin Well Water was permanent. His understanding of the origin rules was so profound that most divine abilities or true techniques seemed as simple as elementary problems to him—he understood them at a glance.

With his current level of comprehension, even mastering a major divine ability to perfection wouldn't take long. For instance, the Five Elements Divine Wheel, a major divine ability, was comprehended to perfection by Ye Tian in a short time. Other major divine abilities also reached perfection successively.

In contrast, other practitioners in the universe required a large amount of Heavenly Dao script to master a major divine ability to perfection, while Ye Tian did not.

In fact, Ye Tian could condense Heavenly Dao script himself with some effort.

“This time, entering the Origin Realm had elevated my life level to the seventh tier. I mastered multiple major divine abilities to perfection, gained a God-level extreme strength talent, acquired a

sixth-tier life level Origin Ancestor cub, and obtained plenty of Origin Well Water. Just these gains alone would make any Supreme envious!” Ye Tian remarked joyfully.

Naturally, Ye Tian had another goal: to perfect the seventh layer of the Chaos Golden Desolation Technique.

Previously, he had used the Heavenly Extreme Fruit to advance the technique to the minor accomplishment realm. During his time in the Origin Realm, he found several treasures to assist in cultivating the Chaos Golden Desolation Technique, pushing the seventh layer to the peak of the minor accomplishment realm. ~~RN~~ ~~B~~ Es

In the outside world, finding treasures to quickly advance the seventh layer of the Chaos Golden Desolation Technique would be extremely difficult, but in the Origin Realm, it wasn’t too hard.

Therefore, Ye Tian planned to collect more treasures that could aid in perfecting the Chaos Golden Desolation Technique, aiming to achieve perfection in the seventh layer.

By then, Ye Tian might be able to kill weak Heavenly Venerables even at the Universal God level.

With a flash, Ye Tian left the Origin Well and headed to other places.

In the following days, Ye Tian continuously collected resources. With his Life Heaven Eye and Time-Space talent, finding treasures was not difficult, and he collected them at a pace far exceeding others.

Thus, another hundred years passed.

On this day, Ye Tian had gathered enough treasures and cultivated the Chaos Golden Desolation Technique at a certain place in the Origin Realm.

By now, his Chaos Golden Desolation Technique had broken through to the peak of the major accomplishment realm. The cost of this breakthrough was the consumption of a vast amount of treasures, including dozens of treasures comparable to the Heavenly Extreme Fruit.

“This Celestial Gold Grass is an even more precious treasure than the Heavenly Extreme Fruit and can assist me in cultivating the Chaos Golden Desolation Technique. It should help me break

through the shackles and perfect the seventh layer of the technique!” Ye Tian murmured as he gazed at a small golden grass in his hand.

Without hesitation, he swallowed the Celestial Gold Grass in one gulp.

Boom! An immense energy erupted within Ye Tian’s body. He continuously operated the seventh layer of the Chaos Golden Desolation Technique, steadily advancing the technique and pushing the limits of his physical body.

At a certain moment, there was a cracking sound! The shackles within Ye Tian’s body shattered. The seventh layer of the Chaos Golden Desolation Technique reached perfection, and the limits of his physical body ascended to a new level.

Immediately, Ye Tian swallowed several other celestial treasures, specifically those that enhanced physical strength.

Since his physical body’s limits had expanded, he could continue to increase his physical strength.

After consuming these celestial treasures, Ye Tian’s body began to transform and enhance.

After a long while, Ye Tian’s physical strength reached its peak once again.

“So strong. If I were to encounter those four Origin Emperors again, I could easily kill them!” Ye Tian muttered to himself.

In the main space of the universe.

The Supremes of the Twelve Cosmic Eras and the Supremes of the myriad races had preliminarily suppressed the Creatures of Destruction from the Abyss of Annihilation. There were essentially no more significant problems. The Creatures of Destruction in the Universal God battlefield and the Dominator level battlefield had almost been eliminated.

Therefore, at the node of the Origin Realm, besides the Master of the Primordial Era and others, some Supremes of the myriad races also arrived.

Suddenly.

The expression of Golden Light Supreme changed. “Not good, this node will probably shift in less than ten thousand years.”

“How could this happen?” the other Supremes asked.

The Master of the Primordial Era frowned. “It should be because some Universal Gods forcibly broke through to the Dominator realm in the Origin Realm, causing changes that affected this node.”

“The Master of the Primordial Era is right. Originally, this node could have lasted ten thousand years. However, I calculated just now, and it seems it can only last for another thousand years. No, even less than a thousand years, as there will surely be more Universal Gods attempting to break through to the Dominator realm,” Golden Light Supreme said.

“Hmph, we already warned them to refrain from breaking through, but those little fellows didn’t listen!” one Supreme complained.

“It is said that the Origin Realm contains some powerful creatures and is indeed very dangerous. Some of the weaker ones, when facing danger, will definitely try to break through to the Dominator realm forcibly. This is something we cannot stop,” the Master of the Primordial Era sighed.

“So, what should we do now?” Stone Dragon Supreme asked.

“We should first open the node. Then, using the power of our bloodlines, we will employ a secret technique to send a forced message to those little fellows, informing them about the node’s timing. Otherwise, if the node disappears, they will be trapped in the Origin Realm forever!” the Master of the Primordial Era suggested.

“Agreed!” The Supremes all nodded in agreement.

Chapter 759: Leaving the Origin Realm!

Boom!!! Numerous Supremes struck, tearing apart a node in the Origin Realm, and then invaded the Origin Realm.

Subsequently, each Supreme used secret techniques, bloodlines, or causal laws to transmit some basic information. This included Kunwu Supreme of the Human Race, as Ye Tian had entered the Origin Realm, and he had to inform Ye Tian.

Inside the Origin Realm.

Aurora was using some treasures to enhance his war pet, the Nine-Colored Divine Ox, when he suddenly received a message. This message came from the depths of his soul.

“Origin Realm...node...thousand years...return quickly!”

Although the message was brief, its intent was clear.

“This is...”

Aurora was stunned but quickly realized, “The Supremes are sending me a message. It seems the node we entered through is unstable, or something else is happening. Regardless, I must return.”

“I have already gained many treasures and obtained the Nine-Colored Divine Ox cub. Even though I haven’t found the Well of Origin, the harvest is enough to make the Supremes envious. There’s no need to continue venturing here!”

With this thought, Aurora hurriedly headed towards the node they had originally entered through.

Elsewhere.

Ye Tian also received a message from Kunwu Supreme. However, Kunwu Supreme’s power was limited, and the transmitted message was very brief.

“Return quickly...”

Receiving this message, Ye Tian’s expression changed.

“A message from a Supreme... If it warrants a Supreme’s message, I must return!”

Immediately, Ye Tian began his journey back.

Simultaneously, many Universal Gods in the Origin Realm started to return. Of course, some Universal Gods, blinded by greed, didn't want to leave early and continued to search for treasures in the Origin Realm.

Outside, on the Dominator-level battlefield.

The Master of the Primordial Era gazed at the node of the Origin Realm, frowning again, "Just now, we used Supreme-level power to send a message, causing changes in the rules of the Origin Realm. This node can no longer sustain for 1000 years; it will likely shift again in 300 years!"

"Hmph, this time is too short. If a few more Universal Gods break through to the Dominator realm, the time will shorten even faster.

"Tch, we should have never let so many Universal Gods enter back then, wasting the opportunities meant for other Children of the Era!"

Golden Light Supreme said coldly.

His meaning was clear: the Universal Gods of the myriad races were too weak. In his view, those who forcibly broke through to the Dominator realm were weak Universal Gods of the myriad races. After entering, they couldn't even protect their lives, causing them to break through to the Dominator realm in desperation. ðŶAŦoBEÿ

Nearby, the Supremes of the myriad races were somewhat annoyed but did not dare to retort. After all, their strength was inferior, and they couldn't argue with a terrifying Supreme like Golden Light Supreme.

Another half month passed! The node's duration shortened again, now able to last only 280 years! It seemed like a lot of time, but who knew if the rate of time reduction would increase? If the node encountered a mishap, those Children of the Era wouldn't be able to get out.

No matter how strong they were, they couldn't break through the world barrier of the Origin Realm.

The Origin Realm was under the protection of the cosmic origin, and with the origin suppressed, they couldn't enter the Origin Realm.

Moreover, they had their own plans and objectives. Venturing into the Origin Realm was risky; if trapped, they would have to wait for the Day of Cosmic Destruction! Therefore, they couldn't enter the Origin Realm and could only hope that the Children of the Era would come out soon.

"Let's open the node again. There should be some waiting." The Master of the Primordial Era suggested.

"Okay!"

Golden Light Supreme nodded, then tore the node open with one hand, creating a passage.

Swish! Several people flew out from the other end of the node.

"Greetings, Supremes!"

These individuals respectfully greeted.

Among them, one was a Child of the Era, while the others were Universal Gods of the myriad races —no, they should now be called Dominators.

At this moment, many Supremes glared at those Dominators with annoyance, causing them to tremble all over, not understanding what had happened.

However, the Supremes couldn't be bothered to argue with these Dominators and merely snorted coldly before ignoring them.

Subsequently, the Supremes tore open the node every half month, allowing those inside the Origin Realm to exit.

One day, Aurora emerged, relieving the Supremes who had placed high hopes on him.

It was one thing if other Children of the Era died, but Aurora was a top-tier Child of the Era, with potential to reach the level of the Master of the Primordial Era. His death would have been a significant loss.

“Almost at the node!”

Ye Tian murmured as he looked ahead.

Initially, he could have arrived much earlier, but he had been delayed. During his journey, he discovered a spiritual herb.

This herb’s grade was several levels higher than the Heavenly Extreme Fruit, attracting a fierce battle among hundreds of Origin Emperors. Eventually, an Origin Ancestor arrived. While this Origin Ancestor slaughtered the group of Origin Emperors, Ye Tian seized the opportunity to snatch the herb and successfully escaped, though he sustained minor injuries.

For safety reasons, he hid for a few days before hurrying over.

At this moment, thinking about the spiritual herb, Ye Tian felt a surge of excitement.

The herb, named the Celestial Scaled Flower, contained immense energy. Ye Tian calculated that he couldn’t consume it yet, as it would cause his body to explode. However, once he advanced to the peak of the Dominator realm, he should be able to consume the Celestial Scaled Flower, potentially allowing his body to transform once more.

“Finally here!”

Ye Tian landed, seeing several Universal Gods and Dominators.

“Greetings, True Lord of Ten Thousand Laws!”

“Greetings, True Lord of Ten Thousand Laws!”

“Greetings, True Lord of Ten Thousand Laws!”

The Universal Gods and Dominators greeted Ye Tian politely.

Ye Tian, however, was somewhat confused. When he first entered, there were only Children of the Era from the Twelve Cosmic Eras, not these individuals.

“They must have entered the Origin Realm after us, with the Supremes locating the node to find the Children of the Era, allowing these Universal Gods to enter as well,” Ye Tian speculated.

Ye Tian didn’t engage in conversation with the Universal Gods and Dominators, instead closing his eyes to rest, awaiting the node’s opening.

A few days later.

Boom!!! The node was torn open, forming a void passage.

Ye Tian and the others flew into the void passage, returning to the outside world.

On the Dominator-level battlefield.

Ye Tian saw many Supremes and, in an inconspicuous spot in the distance, Kunwu Supreme.

Swish! Ye Tian flew over.

Seeing Ye Tian emerge, Kunwu Supreme sighed in relief, saying, “It’s good that you made it out!”

“Thank you, Kunwu Supreme!” Ye Tian expressed his gratitude.

Without Kunwu Supreme’s reminder, he might have stayed in the Origin Realm for a long time, potentially missing the chance to exit. Once the node shifted, finding a new one would have been nearly impossible.

If it were that easy to find, those Origin Ancestors trapped in the Origin Realm wouldn’t have remained stuck inside.

Chapter 760: Striving for Dominator, Crossing the Tribulation!

“Kunwu Supreme, what has become of the Abyss of Destruction?” Ye Tian asked.

He had spent his recent time in the Origin Realm and hadn’t had the opportunity to inquire about the situation in the Abyss of Destruction. Naturally, he now wanted to know.

“It has been temporarily suppressed!” Kunwu Supreme replied. “However, the losses among the myriad races were severe. Many Supremes perished, and our human race also lost two ordinary Supremes!”

“What!” Ye Tian’s expression changed.

The number of Supremes among the human race was already limited, and losing two at once was a significant blow.

“Indeed, our losses were severe. Besides the two Supremes, we also lost six Heavenly Venerables and many Dominators. However, compared to some other major races, our losses are relatively minor. Some cosmic races lost nearly half of their Supremes,” Kunwu Supreme sighed.

Ye Tian stood silently, absorbing the gravity of the situation.

After a while, Kunwu Supreme said, “You should return to the human race for now. We don’t need Universal Gods to guard this place temporarily.”

“Understood,” Ye Tian nodded.

Subsequently, Ye Tian returned to the human race.

Human Race, Holy City

When Ye Tian returned to the Tian Pavilion, everyone there was extremely excited. They had been genuinely worried that Ye Tian might fall, especially given the recent high number of Universal Gods who had perished, including Dominators, Heavenly Venerables, and Supremes. But now that Ye Tian was back, the pillar of the Tian Pavilion had returned, and they were naturally reassured.

If Ye Tian had fallen, the strength of the Tian Pavilion would have diminished significantly, potentially leading to their expulsion from the Holy City. Therefore, Ye Tian's return was of utmost importance to them.

Tian Pavilion Inner Hall

"Husband, why couldn't I contact you during this period?" Xiao Yue asked Ye Tian.

"I entered the Origin Realm, so you couldn't reach me," Ye Tian explained his time in the Origin Realm, and Xiao Yue finally understood.

The recent battles had been extremely brutal, and she had been genuinely worried about Ye Tian. She had tried to contact him, only to find herself unable to. Had she not known that Ye Tian was still alive, she might have broken down. Even knowing he hadn't fallen, she had been constantly worried.

Now that Ye Tian was back, she could finally breathe a sigh of relief.

Ye Tian then recounted his experiences during this time to Xiao Yue and even summoned his battle pet from the small universe.

"Wow, such a formidable Origin Beast! Is this the Origin Ancestor cub—the Two-Horned Round Bear?" Xiao Yue stared at the Two-Horned Round Bear without blinking.

"Yes, it's a sixth-tier life form and an Origin Ancestor cub, with inherent advantages in physical cultivation that are unimaginable. Although it is mediocre in other aspects, with sufficient resources, Little Yuan Yuan can be adequately nurtured," Ye Tian affirmed.

Subsequently, Ye Tian went into seclusion.

This time, he aimed to break through to the Dominator realm. His accumulation at the Universal God level was already sufficient, and many of his techniques and secret arts had been cultivated to their limits, making further progress challenging. Therefore, he needed to break through to the Dominator realm to advance more rapidly. ❀ ÖbES,

Ye Tian chose to seclude himself at the edge of the human territory, in the border region of the universe.

After several months of seclusion, Ye Tian began his attempt to break through to the Dominator realm.

For a Universal God to advance to the Dominator realm, besides talent, the only requirement was the fusion of essence, qi, and spirit, thereby gaining control over the heavens and earth and transforming one's small universe.

Essence, qi, and spirit represented a person's physical body, divine force, and soul, respectively. If any one aspect was too weak, breaking through to the Dominator realm would be nearly impossible. Thus, cultivators at the extreme Universal God level, even if their cultivation talent met the requirements, would strive to enhance their souls and physical bodies.

In this cosmic era, it was exceedingly difficult for those above the God level to enhance their physical bodies, even seemingly impossible. However, this did not mean that physical strength couldn't be improved. Most extreme Universal Gods needed to cultivate a temporary secret technique to boost their physical strength, achieving the fusion of essence, qi, and spirit, thereby making the leap to the Dominator realm.

Ye Tian, being an extraordinary individual, had a physical strength far beyond what other cultivators could imagine. Therefore, he didn't need to cultivate such a secret technique and could directly attempt to break through to the Dominator realm.

Boom!!!! Ye Tian's essence, qi, and spirit began to fuse in the unseen, generating an origin force that surged into his small universe.

Subsequently, Ye Tian's microcosm started to transform, becoming increasingly vast and solid.

Moreover, life began to emerge within Ye Tian's small universe, a phenomenon that hadn't occurred before.

Crack! Crack! Crack!!! The shackles between Universal God and Dominator shattered, and an immense amount of energy flowed into Ye Tian, aiding his transformation.

"Not enough energy...!" Ye Tian realized.

Immediately, he took out a large quantity of Chaos Crystals and various rare resources, pouring them into his small universe to facilitate its complete transformation and his ascension.

Time passed slowly—until one day.

Ye Tian stood up, his aura far surpassing what it had been before. Not only had his physical body improved several times over, but his soul and divine force had also significantly enhanced.

His Nether King Secret Manual had also advanced, reaching the Nether King realm.

This time, it could be said to be a double blessing!

Rumble!!!!

In the endless void, a vast expanse of thunderclouds descended, covering an infinite territory. Traces of thunder law's aura spread out, enough to make any Dominator tremble with fear.

“The Dominator-level lightning tribulation is about to descend!” Ye Tian muttered, looking up at the thunderclouds.

Compared to the lightning tribulation for advancing to a Universal God, the Dominator-level lightning tribulation was several times more formidable. Yet Ye Tian wasn't worried at all.

“From the information gathered over Twelve Cosmic Eras, it's said that the nature of the Dominator-level lightning tribulation has changed. The power of the tribulation seems to have evolved!” Ye Tian murmured.

However, regardless of the changes, he had no fear.

If he failed to pass the tribulation, then no other extraordinary individuals could succeed.

Boom!!! The first bolt of lightning tribulation descended, and Ye Tian easily withstood it.

The second bolt of lightning tribulation! The third bolt of lightning tribulation!

Each bolt struck down, and Ye Tian easily endured them, barely expending any effort.

Before long, the eighteenth bolt of lightning tribulation descended, still posing no trouble for Ye Tian.

“The nineteenth bolt of lightning tribulation is different from the previous ones, and its power will increase several times! Many strong extraordinary individuals have fallen at the nineteenth bolt of the Dominator-level lightning tribulation,” Ye Tian recalled the information he had received.

Boom!!! The nineteenth bolt of lightning tribulation appeared.

This time, the lightning tribulation didn’t manifest as a lightning pillar but as a humanoid figure! This figure was entirely formed by the laws of thunder, wielding a lightning spear, resembling a thunder god of war. It descended from the sky, charging towards Ye Tian.

“Just as expected! The nineteenth bolt of lightning tribulation is the cosmic origin drawing battle consciousness from some ancient existence within the river of time, condensing it into a thunder god of war. Its combat power rivals that of some powerful Children of the Era, and this strike is equivalent to a Dominator-level Child of the Era’s desperate killing move. Normally, even some of the weaker extraordinary individuals, having reached the level of the Child of the Era, would be severely injured from resisting the previous tribulations. And since they’ve just broken through to the Dominator realm, their combat power is not strong enough to withstand this move!” Ye Tian thought.

However, he remained unflustered. He held a long spear and fiercely met the thunder god of war’s lightning spear.

The spear in Ye Tian’s hand wasn’t an ordinary spear but the Spear of Hellish Void at its perfected level, representing the ultimate space divine ability!

“Break!” Ye Tian shouted softly.

With a ripping sound, the thunder god of war was directly shattered by Ye Tian, effortlessly killed.

“The nineteenth bolt of lightning tribulation is still too weak!” Ye Tian smiled faintly.
