

## Talent 761

### Chapter 761: The Pinnacle of Dominator, A New Cultivation Goal!

Boom! The twentieth lightning tribulation descended, once again appearing in the form of a Thunder God of War.

However, compared to the nineteenth tribulation, the power of the twentieth had nearly doubled. Even a medium-level Child of the Era facing the full force of this twentieth lightning tribulation would likely be severely injured. Without some life-saving treasures or hidden trump cards, it would be impossible to pass through it.

But for Ye Tian, this lightning tribulation still wasn't enough to be of concern.

“Die!” Ye Tian, holding the Spear of Hellish Void, fiercely thrust it at the thunder god of war, instantly piercing through it and annihilating the thunder rules embodied within it.

The twentieth lightning tribulation had been overcome.

“Only the final tribulation remains,” Ye Tian said calmly.

As long as he passed the final lightning tribulation, he would have successfully endured the Dominator realm's tribulation, officially becoming a true Dominator-level powerhouse.

Soon, the twenty-first lightning tribulation descended.

This time, Ye Tian chose not to attack because he knew very well that with his combat power, the twenty-first lightning tribulation still posed no threat to him. He could annihilate it in an instant.

Therefore, he wanted to test the defensive capabilities of his Chaos Origin Divine Well.

Boom! The power of the Chaos Great Dao descended, transforming into a great phenomenon—the Chaos Origin Divine Well in its original state. The fragments of the Origin Well attached to it were so lifelike that they seemed like the real Origin Well reincarnated.

In the next moment, the thunder god of war formed by the twenty-first lightning tribulation charged forward, launching a fatal strike at Ye Tian's Chaos Origin Divine Well.

However, the Chaos Origin Divine Well merely trembled slightly, and the thunder god of war collapsed.

"This full-force strike of the thunder god of war is comparable to a weaker Heavenly Venerable's full-force strike. Some powerful Children of the Era, using some life-saving trump cards or forbidden techniques, might not be killed and could survive.

But among the Children of the Era in the Twelve Cosmic Eras, only a few are truly heaven-defying, and less than thirty percent could actually pass the Dominator-level lightning tribulation!" Ye Tian judged.

The lightning tribulation ended, and the tribulation clouds dissipated.

Ye Tian sat cross-legged, continuing to stabilize his foundation.

Before long, Ye Tian's cultivation was firmly established at the first stage of Dominator.

"It's time to return!" Ye Tian boarded his spaceship and traveled back, then entered seclusion.

With his talent, advancing from Dominator stage one to the peak of Dominator stage nine would not be difficult, as long as he had enough resources. He could reach the pinnacle of Dominator stage nine quickly.

Therefore, Ye Tian naturally didn't want to waste time. He aimed to quickly elevate his cultivation to the pinnacle of Dominator stage nine, achieving the ultimate level of a Dominator.

The gap between Dominator stage one and Dominator stage nine was immense. Once his cultivation improved, Ye Tian's combat power would be overwhelming! Besides, he had many other aspects that needed enhancement. In the days ahead, he couldn't afford to waste time.

Simultaneously, the news of Ye Tian's breakthrough to Dominator began to spread gradually.

As Ye Tian broke through, the prestige of the Tian Pavilion naturally soared. Although it still couldn't match the long-established Dominator-level forces, it was now on par with ordinary Dominator-level forces. 不是吧

Moreover, in terms of high-end power, the Tian Pavilion left other Dominator-level forces in despair.

After all, Ye Tian alone was enough to sweep across the Dominator level; no other Dominator could compare to him.

Curious individuals even speculated about Ye Tian's combat power, comparing him to Heavenly Venerables.

Some believed Ye Tian could fight against a Heavenly Venerable, while others thought the gap between a Dominator and a Heavenly Venerable was too vast. They argued that anyone who could become a Heavenly Venerable was a true genius of the human race, and Ye Tian still needed some time to challenge them.

However, the upper echelons of the human race had a deeper understanding of Ye Tian's combat prowess.

At the Kunwu Hall, Kunwu Supreme had just returned from the Abyss of Destruction and heard the news of Ye Tian's promotion to Dominator.

He murmured, "At the Universal God level, Ye Tian already surpassed the combat power of top-tier Dominators, being just shy of the weaker Heavenly Venerables. Now that he's broken through to the Dominator realm, it won't take long for him to reach the pinnacle of Dominator. With some further enhancement of secret techniques and cultivation methods, his combat power could definitely rival top-tier Heavenly Venerables and might even challenge the power of a Supreme!"

This was the highest evaluation anyone had ever given Ye Tian. Throughout history, Dominators who could rival Heavenly Venerables existed, but none could match a Supreme.

But Ye Tian's talent was so extraordinary that Kunwu Supreme entertained this possibility.

In Holy City, at the Tian Pavilion, Ye Tian spent decades—accelerated by time manipulation—advancing his cultivation to the pinnacle of Dominator. His progress was steady, with each minor level being solidly grounded.

Afterward, he began cultivating the Eighteen Golden Bodies Technique.

The Eighteen Golden Bodies Technique was highly useful. Although there were techniques within the Twelve Cosmic Eras' heritage that surpassed it, Ye Tian's current physique was more suited to this technique. With his foundation set, he wouldn't easily switch to another technique.

Moreover, his true trump card was the Chaos Golden Desolation Technique; the Eighteen Golden Bodies Technique was merely supplementary, so whether he changed it or not didn't matter much.

In the accelerated time environment, he spent decades perfecting the fifteenth and sixteenth movements of the Eighteen Golden Bodies Technique, elevating his physical body to an incredibly formidable level. He then continued to enhance the eighth layer of the Chaos Golden Desolation Technique.

However, the eighth layer of the Chaos Golden Desolation Technique was extremely difficult to cultivate. Even with resources from the Origin Realm, he couldn't elevate it to a very high level in a short time.

Thus, Ye Tian shifted his focus to other areas, such as the ultimate saber techniques, Chaos True Techniques, the fifth form of the Tiangang Battle Technique, and the realm of the Chaos Great Dao.

Regarding divine abilities, Ye Tian had reached a limit.

He had already perfected his mastery of the Great Time Divine Ability and the Great Space Divine Ability. While he could continue to cultivate more time and space divine abilities, it wouldn't fundamentally enhance his strength.

Unless he could comprehend higher-level divine abilities, which didn't exist in the universe, the Great Divine Abilities were the limit.

“There might be higher-level divine abilities above the Great Divine Abilities, but they don't exist in the universe. However, I can fuse divine abilities to create stronger Great Divine Abilities. If I can create a Great Time-Space Divine Ability, its power would be formidable. But this step is very

difficult! If I combine twelve talents into a Chaos Talent and create a Chaos Great Divine Ability, my strength would transform even more. But this step is even harder. I might attempt it after becoming a Transcendent.” Ye Tian pondered.

He wouldn’t aim too high, as that would only hinder his progress.

“The Celestial Scaled Flower from the Origin Realm—I should be qualified to consume it now!” Ye Tian thought.

Chapter 762: The Power Division Above Heavenly Venerable!

The Celestial Scaled Flower was a rare spiritual medicine from the Origin Realm, its value beyond estimation. It might not have been of much use to other cultivators in the universe, as they hadn’t broken through the universe’s limitations and couldn’t enhance their physical bodies. However, for Ye Tian, whose body could be cultivated, the value of the Celestial Scaled Flower was immense.

At that time, Ye Tian had perfected the fifteenth and sixteenth sets of movements in the Eighteen Golden Bodies Technique. Progress in the eighth layer of the Chaos Golden Desolation Technique had slowed considerably, making it difficult to continue enhancing his physical strength. Thus, the Celestial Scaled Flower represented a hopeful opportunity for him to further elevate his dominator-level strength.

Ye Tian took out the Celestial Scaled Flower, swallowed it in one gulp, and began refining its medicinal power.

Boom! A terrifying force erupted, frantically tempering Ye Tian’s already extremely refined body.

If it had been anyone else, they wouldn’t have been able to withstand such terrifying power. Even a Heavenly Venerable couldn’t endure it; only a Supreme could use their supreme power to seal off this force, but they couldn’t refine it.

This was the terror of the Celestial Scaled Flower!

“Such terrifying medicinal effects! Even though my body had already reached its limit, unless the Chaos Golden Desolation Technique improved, it would be difficult to enhance my physical strength. But the medicinal power of the Celestial Scaled Flower tempered my body once more. Moreover, my life level is slowly rising!!!” Ye Tian felt incredibly excited.

His life level was extremely important to him. He was currently at the seventh level, but only at the early stage. Compared to those at the pinnacle of the seventh level, he was still far behind.

In the universe, raising one's life level to the seventh tier was a stroke of luck in itself. Advancing further was exceedingly difficult. Ye Tian had previously hoped to make a small advancement in his life level when breaking through to the Heavenly Venerable realm.

Unexpectedly, the Celestial Scaled Flower helped him achieve this goal.

According to Ye Tian's estimation, this Celestial Scaled Flower had the potential to advance his life level to the mid-seventh tier.

Time passed day by day! A year later.

Ye Tian finally refined all the medicinal power of the Celestial Scaled Flower.

At this point, his life level had reached the mid-seventh tier, far surpassing other cultivators. Even the Master of the Primordial Era was estimated to have only reached the peak of the sixth tier.

Perhaps he was the only seventh-tier life form among the universe's cultivators! Besides his life level, his physical strength increased by twenty percent. Although this seemed insignificant, considering he was already at an almost extreme level, a twenty percent increase was remarkable.

Now, Ye Tian truly realized the terrifying effect of the Chaos Golden Desolation Technique.

Even an extraordinary treasure like the Celestial Scaled Flower could only push his physical strength by twenty percent. Yet, the Chaos Golden Desolation Technique could continually push his physical limits many times over. Such an effect was simply terrifying!

"The value of the Chaos Golden Desolation Technique surpasses even that of the entire human race, and perhaps the entire Immortal Race!" Ye Tian speculated.

However, this heaven-defying technique came from the chaos and was restricted by an oath, making it impossible to pass on to others.

“For now, I’ll end my seclusion. I’m currently at a bottleneck, and improvements in other areas won’t be rapid. Without a quick way to enhance my strength, I’ll visit the Supreme Hall of Humanity and inquire about the situation in the Abyss of Destruction from Kunwu Supreme!”

With this thought, Ye Tian’s avatar headed to the Supreme Hall of Humanity.

Soon, Ye Tian met with Kunwu Supreme.

Upon meeting this time, Kunwu Supreme sensed a faint threat from Ye Tian. Of course, it was only a slight danger; in terms of actual strength, Ye Tian was naturally far from being a match for Kunwu Supreme.

“Ye Tian, your strength has improved a lot. I can even sense a slight threat from you!” Kunwu Supreme said with a smile.

“Kunwu Supreme, you’re too kind. My strength still has a long way to go. I came to learn more about the situation in the Abyss of Destruction!” Ye Tian replied.

Upon hearing about the Abyss of Destruction, Kunwu Supreme immediately became serious and said, “The Supremes of the Twelve Cosmic Eras used half of a chaos supreme treasure to suppress the origin of the universe. The universe’s origin is currently not suppressing the Abyss of Destruction, so we can only seal the Abyss of Destruction.

At present, the Abyss of Destruction is sealed, but not completely. Those Kings of Destruction are still attacking the seal. They might not be able to break out, but they can send some Creatures of Destruction out. Therefore, many Supremes are needed to suppress it continuously.

From the current situation, there’s no good solution.

However, the Supremes of the Twelve Cosmic Eras promised to find a way to resolve this issue.

Alas, if our strength weren’t so weak, how could we be led by the nose by the Supremes of the Twelve Cosmic Eras!”

Ye Tian nodded helplessly.

In terms of strength, the Supremes of the Twelve Cosmic Eras were indeed too powerful. They represented the most formidable Supremes from twelve different eras, while the current universe era was still in its early to mid stages. This was a period belonging to the weak new universe era, and the Supremes born in this era naturally weren't strong. Without the accumulation of time, it was impossible to contend with the Supremes of the Twelve Cosmic Eras.

"When I step into the Heavenly Venerable realm, perhaps I can change this situation. But the dual universe transcendence plan has already begun, and the origin of the universe has been suppressed. Even if I reached the Heavenly Venerable realm and instantly possessed combat power surpassing the Master of the Primordial Era, I wouldn't be able to stop the suppression of the Chaos Supreme Treasure.

Moreover, soon, when the two universes collide, nothing will be able to stop it." Ye Tian sighed inwardly.

Ye Tian and Kunwu Supreme chatted for a long time, gaining a general understanding of the basic situation.

Suddenly, Kunwu Supreme said, "Ye Tian, do you have a basic understanding of your current combat power?"

Ye Tian shook his head. "Not really. My strength has improved too quickly, and I haven't had much combat with Heavenly Venerable level opponents, so I don't have a rough estimate. But it's very easy for me to kill ordinary Heavenly Venerables!"

"I do have a method to test your approximate combat power," Kunwu Supreme said.

"Oh? What method?" Ye Tian asked curiously.

"There is a Primordial Tower in Primordial Divine Mountain, a Strongest Supreme Treasure found by Primordial Supreme from some ruins. It can test the combat power of those above the Heavenly Venerable level.

In today's universe, the combat power above the Heavenly Venerable level is divided into several tiers.

They are fifth-tier Heavenly Venerable, fourth-tier Heavenly Venerable, third-tier Heavenly Venerable, second-tier Heavenly Venerable, and first-tier Heavenly Venerable.

A first-tier Heavenly Venerable is a pinnacle Heavenly Venerable, just below the Supreme level. Above the first-tier Heavenly Venerable is the Supreme combat power, and the Supreme level is also divided into five tiers: fifth-tier Supreme, fourth-tier Supreme, third-tier Supreme, second-tier Supreme, and first-tier Supreme.

In today's universe, most Supremes are fifth-tier Supremes. A fourth-tier Supreme can be considered a powerful Supreme, and a third-tier Supreme can be called a top-tier Supreme.

I am a fourth-tier pinnacle powerful Supreme, just below the top-tier Supreme.

Primordial Supreme is the only top-tier Supreme among our human race. However, Primordial Supreme cherishes his life and has never used his true body in battle, only using avatars. His strongest avatar is just a fourth-tier Supreme.

The First Divine Lord of the Immortal Race is a top-tier third-tier Supreme," Kunwu Supreme explained.

"And what about second-tier Supremes? Does the myriad races have such Supremes?" Ye Tian asked.

"Currently, there are none," Kunwu Supreme shook his head. "Unless the First Divine Lord or the First Demon Lord make breakthroughs, no second-tier Supremes will emerge.

Among the Supremes of the Twelve Cosmic Eras, most are second-tier Supremes. The most terrifying Supremes, such as Golden Light Supreme and the Master of the Primordial Era, are first-tier Supremes, capable of easily annihilating a group of third-tier Supremes, and even killing a fourth-tier Supreme like me with just a glance!"

At this moment, Ye Tian finally had a clear understanding of the combat power divisions above the Heavenly Venerable level. This classification was obviously top secret, as spreading it would cause despair among many humans, given how weak the human Supremes were. It was precisely for this reason that the human race had sealed this classification from those below the Heavenly Venerable level.

“Ye Tian, let’s go. I’ll take you to Primordial Divine Mountain’s Primordial Tower to test your combat power!” Kunwu Supreme said.

Chapter 763: First-Tier Heavenly Venerable’s Battle Power?

Primordial Divine Mountain.

Ye Tian and Kunwu Supreme arrived here. He had visited this place once before, and now he came again.

As soon as they arrived, the master of Primordial Divine Mountain, Primordial Supreme, appeared. Of course, it was just one of his avatars.

“Kunwu Supreme, Ye Tian, welcome to Primordial Divine Mountain!” Primordial Supreme laughed.

Kunwu Supreme said directly, “Primordial Supreme, Ye Tian wants to enter the Primordial Tower to test his battle power!”

“Oh, testing battle power, sure. I also want to know what level Ye Tian’s power has reached after stepping into the pinnacle of the Dominator tier,” Primordial Supreme replied.

“Thank you, Primordial Supreme!” Ye Tian said politely.

“Let’s go, I’ll take you to the Primordial Tower!” Primordial Supreme said.

The three of them teleported to the front of Primordial Tower, and Ye Tian immediately entered.

Usually, Primordial Tower wasn’t open because it consumed energy to operate. Now that Ye Tian had entered, the activation of the tower caught the attention of many people in Primordial Divine Mountain.

Especially with the presence of both Primordial Supreme and Kunwu Supreme in front of the tower, many were astonished.

Swish, swish, swish!!! Numerous Universal Gods, Dominators, and Heavenly Venerables from Primordial Divine Mountain appeared in front of the tower.

“Disciple greets Primordial Supreme, greets Kunwu Supreme!”

“Disciple greets Primordial Supreme, greets Kunwu Supreme!”

“Disciple greets Primordial Supreme, greets Kunwu Supreme!”

Suddenly, a large figure appeared, and everyone exclaimed, “Greetings, Mountain Master!”

The Mountain Master of Primordial Divine Mountain appeared. He was also Primordial Supreme’s son.

“Father, the Primordial Tower has been activated,” the Mountain Master asked curiously.

“Yes, the Dominator of Ten Thousand Laws, Ye Tian, is here to test his battle power,” Primordial Supreme replied.

“So, it’s Ye Tian!” The Mountain Master understood.

“Father, Grandpa!” A beautiful figure suddenly appeared, hopping over in the void.

“Xin’er girl, you’re here!” Primordial Supreme looked at the girl with dotting eyes.

This girl was the young master of Primordial Divine Mountain, who had once entered a small chaotic world with Ye Tian. Back then, she was only at the Great God level, but now she had advanced significantly.

“Grandpa, Father, I heard the tower was activated. Hmph, I previously wanted to enter the Primordial Tower, but you all were unwilling. Why is it open this time?” Li Xin’er complained.

“The Dominator of Ten Thousand Laws, Ye Tian, is here to test his battle power. You, at your current Universal God realm, what would you do in Primordial Tower? You wouldn’t even pass the

first level. Opening the tower for you would be a waste of resources!” The Mountain Master said bluntly.

“Ah, Ye Tian is here? Has he reached the Dominator realm already? So fast!” Li Xin’er was astonished.

“Yes,” Primordial Supreme nodded.

“Grandfather, how many levels do you think Ye Tian can pass?” Li Xin’er asked curiously.

“That’s hard to say,” Primordial Supreme laughed. “Passing the first level is equivalent to having the battle power of a fifth-tier Heavenly Venerable. Passing the fifth level means having the battle power of a first-tier Heavenly Venerable. If he passes the sixth level, it means he has the battle power of a fifth-tier Supreme.”

“Ye Tian’s talent is extremely rare, and his combat power is naturally beyond comparison to ordinary geniuses. But as for exactly how powerful he is, I’m not entirely sure. Kunwu Supreme, you know Ye Tian best. What do you think his battle power can reach?”

Primordial Supreme didn’t want to make a hasty evaluation, so he passed the question to Kunwu Supreme. If Kunwu Supreme was wrong, it wouldn’t be his problem.

Kunwu Supreme glanced at Primordial Supreme, understanding his intentions, and smiled slightly, not minding.

He said, “I think Ye Tian should be able to pass the fifth level, which means he has the battle power of a first-tier Heavenly Venerable.”

“Primordial Supreme, you’re rating him too highly!” Primordial Supreme was surprised. “Each tier of the Heavenly Venerables is extremely difficult to cross. Ye Tian has only recently become a Dominator. Do you really think he can reach the battle power of a first-tier Heavenly Venerable so soon?”

“Primordial Supreme, this is my lowest estimation. Perhaps...” Kunwu Supreme didn’t continue. He feared that if he voiced his guess, everyone present would be utterly shocked.

Inside Primordial Tower, Ye Tian was fighting with five warriors on the first level. These warriors, each possessing unique talents that complemented each other perfectly, left no gaps. Relying on loopholes to defeat them was impossible; only true strength could crush them. This was why the tower was an accurate test of battle power.

After a few minutes of fighting and observing their combat styles, Ye Tian, having understood their tactics, wasted no more time and defeated them with a single blow, passing the first level.

Ye Tian then proceeded to the second level, where he faced another five warriors. These warriors were exceptionally strong, each just short of having the power of a fourth-tier Heavenly Venerable. Only a fourth-tier Heavenly Venerable could hope to defeat them when they fought together.

Ye Tian didn't waste time and easily defeated them, moving on to the third level.

Outside, someone exclaimed, "The Dominator of Ten Thousand Laws has entered the third level. At the very least, he now has the power of a fourth-tier Heavenly Venerable!"

"Has Ye Tian become this powerful?" Li Xin'er felt truly disheartened.

Her strength had also improved rapidly, with the resources of Primordial Divine Mountain and frequent guidance from Primordial Supreme, the foremost Supreme of humanity. Yet, the gap between her and Ye Tian was widening.

"He's in the fourth level! Ye Tian has entered the fourth level!" Primordial Supreme's expression changed.

Passing through so quickly indicated that Ye Tian's strength was far beyond just the fourth level.

"Could it be that Ye Tian truly possesses the battle power of a first-tier Heavenly Venerable?" Kunwu Supreme pondered.

As time passed, the fifth level of Primordial Tower suddenly glowed, indicating that Ye Tian had entered the fifth level.

“The fifth level! If he passes it, it means he has the battle power of a first-tier Heavenly Venerable. Even in Primordial Divine Mountain, throughout the long ages, those with the power above a first-tier Heavenly Venerable are few and far between!” Primordial Supreme sighed.

Ye Tian’s growth was astonishingly rapid. Even he hadn’t been this exceptional back in his day. After a while, the glow of the fifth level dimmed, and the sixth level began to shine.

At that moment, Kunwu Supreme smiled, Primordial Supreme’s eyes widened, and the numerous experts of Primordial Divine Mountain were dumbfounded.

“Ye Tian truly possesses the battle power of a first-tier Heavenly Venerable!” Li Xin’er covered her mouth, stunned.

Everyone expected Ye Tian to fail soon, believing that passing the sixth level required the battle power of a fifth-tier Supreme. A Dominator possessing Supreme-level battle power seemed impossible!

Inside the sixth level of Primordial Tower, Ye Tian was engaged in a fierce battle.

Chapter 764: Five-Tier Supreme Combat Power!

Although Heavenly Venerable and Supreme appeared to be within the same major realm, they spanned two vastly different levels of combat power.

Not even ten first-tier Heavenly Venerables could defeat one fifth-tier Supreme. The leap from Heavenly Venerable to Supreme was extremely challenging; in fact, most Heavenly Venerables found it nearly impossible to reach the Supreme level in their lifetime.

In the universe, only those Princes with Supreme potential had a chance to ascend to the Supreme level, and even then, it was merely a chance, not a guarantee.

Of course, exceptions existed. Some non-Supreme princes, if they encountered extraordinary fortunes, could also surpass their limits and ultimately achieve Supreme status, but such prodigies were exceedingly rare.

Moreover, even within the Heavenly Venerable realm, they were scarce among the human race. The Primordial Divine Mountain was the largest Supreme-level force among humans, yet it had fewer than ten experts at the Heavenly Venerable level, with only three Supremes.

Ye Tian's success in passing the fifth layer of the Primordial Tower had already exceeded others' expectations. Now, he was attempting to conquer the sixth layer, aiming to reach fifth-tier Supreme combat power.

If he truly managed to do so, it would be an astonishing feat!

Boom! Boom! Boom! Ye Tian continually battled against the five warriors of the fifth layer of the Primordial Tower. Relying on his extraordinary defense and formidable attack power, he withstood the combined assault of the five warriors.

Time passed bit by bit. Outside the tower, everyone began to breathe heavily.

They had expected Ye Tian to emerge from the Primordial Tower soon, but much time had passed, and he had not yet come out.

Since the Primordial Tower didn't cause fatalities, it indicated that Ye Tian was still fighting on the sixth layer.

The sixth layer of the Primordial Tower represented a fifth-tier Supreme!

"This Ye Tian has actually persisted on the sixth layer of the Primordial Tower for this long!!"

The Lord of Primordial Divine Mountain was stunned.

It seemed that even if Ye Tian had not yet achieved Supreme-level combat power, he was at least at the half-step Supreme level. If Ye Tian truly broke through the sixth layer of the Primordial Tower, he would possess fifth-tier Supreme combat power, and he was still only at the fifth-tier Supreme level!

This realization shocked the Lord of Primordial Divine Mountain.

He had cultivated for a long time, with the support of his father, Primordial Supreme, the foremost Supreme of the human race, and in an advantageous environment with strong heritage, taking many years to reach his current level.

But now, Ye Tian had achieved such progress in a much shorter time, which was incredibly stimulating!

Boom!!! The aura of Primordial Supreme suddenly enveloped the entire Primordial Divine Mountain as he spoke, “Today’s events must not be leaked by any disciple of the Primordial Divine Mountain. Everyone must swear an oath!”

Kunwu Supreme understood Primordial Supreme’s intentions—to protect Ye Tian.

If Ye Tian’s current combat power were revealed and aroused the jealousy of the Supremes from the Twelve Cosmic Eras, they might assassinate Ye Tian.

The Supremes from the Twelve Cosmic Eras wouldn’t dare to massacre Supremes on a large scale, but assassinating a single Dominator wouldn’t disrupt their plans.

To prevent this, Primordial Supreme naturally wanted to conceal Ye Tian’s combat power. Even if the secrecy couldn’t last long, delaying for a day was beneficial. Once Ye Tian truly grew stronger and reached the Heavenly Venerable realm, he would immediately possess top-tier Supreme combat power, or even surpass it.

By then, the human race would have a terrifying Supreme to guard them, potentially elevating their status to rival the Immortal Race and Demon Race, and giving them some leverage against the Supremes of the Twelve Cosmic Eras.

“Yes!” The disciples of the Primordial Divine Mountain responded in unison.

There weren’t many disciples in the Primordial Divine Mountain, and with the order of Primordial Supreme, each one began to swear an oath.

No one could deceive Primordial Supreme; they made genuine oaths, knowing that if Primordial Supreme discovered any deceit, the punishment would be severe.

Even the Lord of Primordial Divine Mountain, Kunwu Supreme, made an oath, as did Primordial Supreme himself.

Several hours later, the light of the sixth layer of the Primordial Tower dimmed.

“He should be coming out now,” Primordial Supreme remarked calmly.

But suddenly, his pupils constricted sharply.

The light of the seventh layer of the Primordial Tower shone brightly as Ye Tian entered the seventh layer.

Everyone understood the significance of this.

“Ye Tian possesses fifth-tier Supreme combat power!!!!”

Kunwu Supreme’s voice came out hoarse and filled with shock.

Primordial Supreme and Kunwu Supreme exchanged glances, both unable to believe it. But the Primordial Tower never lied; Ye Tian indeed possessed fifth-tier Supreme combat power!

“A new Supreme has emerged among the human race!”

Primordial Supreme and Kunwu Supreme burst into laughter.

They already envisioned the incredible combat power Ye Tian would have once he reached the Heavenly Venerable realm.

Creak! The Primordial Tower closed, and a battered figure appeared—it was Ye Tian.

Clearly, Ye Tian hadn’t managed to pass the seventh layer of the Primordial Tower and had quickly been defeated.

Primordial Supreme and Kunwu Supreme weren't surprised by this. If Ye Tian could pass the seventh layer, it would be astounding, given that even Kunwu Supreme had only barely passed the seventh layer.

Ye Tian was currently at the Dominator realm, and his cultivation time was too short. If he had passed the seventh layer, the Supremes would be ashamed to the point of suicide.

"Congratulations, Ye Tian. You have passed the sixth layer of the Primordial Tower, possessing fifth-tier Supreme combat power, deserving to be called the Supreme of Ten Thousand Laws! However, your current strength is still weak compared to the Supremes of the Twelve Cosmic Eras. For now, you should hide your strength," Primordial Supreme advised.

"Understood!" Ye Tian nodded.

Subsequently, Ye Tian, Kunwu Supreme, and Primordial Supreme engaged in a discussion about the Dao in the Primordial Divine Hall of the Primordial Divine Mountain. This discussion lasted for three years.

This discourse left Kunwu Supreme and Primordial Supreme greatly astonished. They had initially believed that Ye Tian's understanding of the Dao and various rules would be limited due to his short cultivation time.

However, during the discussion, Ye Tian's elucidation of numerous Dao principles and his understanding of various rules were incredibly profound, surpassing them in certain aspects.

Therefore, this discourse was highly rewarding for both Kunwu Supreme and Primordial Supreme, but the greatest beneficiary was undoubtedly Ye Tian.

Although Ye Tian had absorbed a trace of the universe's origin and a considerable amount of Origin Well Water, he hadn't fully digested it. Through the teachings of Kunwu Supreme and Primordial Supreme, he further enhanced his understanding of the Dao rules.

After the discourse ended, Ye Tian spoke, "Kunwu Supreme, Primordial Supreme, do you have any supreme treasures of the saber category? I'd like to trade with you."

"I don't have any supreme saber treasures," Kunwu Supreme shook his head.

“I do!” Primordial Supreme said. “I once obtained a supreme saber treasure, but its value is immense. What can you offer in exchange, Ye Tian?”

“Origin Well Water from the Origin Realm. It can deepen one’s understanding of the universe’s origin rules. It can even enable one to master great divine abilities without relying on the Heavenly Dao characters, and cultivate them to the perfected realm. Its value should be no less than a supreme treasure, right?” Ye Tian replied earnestly.

“What, Origin Well Water? Did you obtain it from the Origin Realm?” Kunwu Supreme was shocked.

He knew of the existence of the Origin Well Water, but the Well of Origin was extremely rare in the Origin Realm. Additionally, there would definitely be powerful origin beasts guarding it. How did Ye Tian, who was only at the Universal God realm at the time, obtain the Origin Well Water? Therefore, they hadn’t believed that Ye Tian possessed Origin Well Water.

“Yes, I obtained a significant amount of Origin Well Water. Would Primordial Supreme be willing to trade?” Ye Tian asked.

“Of course, I am willing to trade!” Primordial Supreme responded eagerly, fearing Ye Tian might change his mind about the saber.

Chapter 765: The Unknown Mysterious Dominator!

After some bargaining, Ye Tian finally exchanged three tons of Origin Well Water for a Supreme Treasure from Primordial Supreme.

Kunwu Supreme also desperately needed the Origin Well Water and had always taken good care of Ye Tian. Therefore, Ye Tian also took out three tons of Origin Well Water and traded it for a defensive Supreme Treasure.

With this Origin Well Water, Kunwu Supreme and Primordial Supreme might have hoped to advance further.

Strictly speaking, Ye Tian made a loss in this transaction.

Although Supreme Treasures were rare, they were not nonexistent in the universe. Some divine artifact masters who specialized in artifact refinement could even create Supreme Treasures, provided they found the materials capable of forging such treasures.

Therefore, Supreme Treasures had a price, but the Origin Well Water, a legendary treasure, was priceless. Other Supremes who obtained it would never trade it.

Hence, using Origin Well Water to trade for a Supreme Treasure was undoubtedly a losing deal for Ye Tian.

However, Ye Tian really needed Supreme Treasures at that moment.

He wanted to create another avatar. His second avatar had been nurtured from a pseudo top-tier treasure combined with his innate talent, limiting its potential. Now, it could only dominate in the Desolate Realm. Once it left the Desolate Realm, it would be nothing.

Therefore, he needed a Supreme Treasure to cultivate his third avatar. This way, the third avatar would reach the Supreme combat power level, helping Ye Tian solve many problems and even serve as a decoy to attract enemies.

In case someone truly wanted to harm him, the third avatar could lure out the enemies, thus protecting his own life.

This time, he sincerely wanted to cultivate a formidable third avatar, and even a fourth avatar.

He also had ample resources, enough to produce several Supreme-level avatars.

Afterward, Ye Tian and Kunwu Supreme left Primordial Divine Mountain.

Upon returning to the Holy City Tian Pavilion, Ye Tian began to cultivate his third avatar in seclusion. He chose a saber-type Supreme Treasure, as it suited the saber path. Ye Tian's accomplishments in the saber path were no less than those of top-tier saber Supremes.

Simultaneously, he cultivated a fourth avatar, choosing a defensive Supreme Treasure. This way, the fourth avatar would have extraordinary defensive power.

Fortunately, Ye Tian had acquired an abundance of resources in the Origin Realm, so he did not need to worry about running out of resources.

Time slowly passed, and the third and fourth main bodies were successfully cultivated. Under Ye Tian's control, they continued their cultivation diligently.

Both main bodies grew rapidly.

However, Ye Tian focused on solidifying their foundations, unlike the second main body, which had its potential squeezed.

Ye Tian's second main body had been quickly cultivated to the Heavenly Venerable realm to refine the Desolate Lord Mandate, without caring about its potential. The second main body was meant to be discarded at any time.

But the third and fourth main bodies were meant to be cultivated to truly top-tier Supreme levels, so he put in more effort.

Thus, ten thousand years passed.

During these ten thousand years, both the third and fourth main bodies reached the peak of the Dominator level, just one step away from the Heavenly Venerable realm. Ye Tian could have let them cross into the Heavenly Venerable realm at any time but chose to delay, wanting them to accumulate enough foundation before advancing.

Both main bodies progressed significantly, and Ye Tian himself made great strides as well.

During these ten thousand years, Ye Tian mastered the fifth form of the Tiangang Battle Technique and brought the eighth level of the Chaos Golden Desolation Technique to the minor accomplishment realm. This consumed a vast amount of resources, almost depleting those he had acquired from the Origin Realm.

Aside from these, Ye Tian's greatest achievement was creating a new technique, a fusion of Saber Dao and Chaos Dao—Primeval Slash! Primeval Slash was a move that fully utilized Ye Tian's potential, created through years of insight and a series of coincidences. It was a true ultimate move.

Ye Tian's current combat power was at the fifth-tier Supreme level, and Primeval Slash was an ultimate move capable of reaching the fourth-tier Supreme level. However, using this move drained nearly thirty percent of his strength, making it a move to be used only in critical situations.

Moreover, Ye Tian tempered his soul to the pinnacle of the Soul King level, ensuring no flaws in his soul.

"I've made so much progress, but unfortunately, I still can't break through to the fourth-tier Supreme combat power. Based on my calculations, I should now be at the mid-stage of fifth-tier Supreme combat power. If I add Primeval Slash, I can threaten the top-tier fifth-tier Supreme combat power," Ye Tian estimated.

"However, it would only be effective against those top-tier fifth-tier Supremes with weaker survival abilities."

At his current level, every step forward was extremely difficult. The time required for future progress would be measured in millennia.

While Ye Tian pondered the slow pace of his progress, events were unfolding across the universe.

In the Blood Cang Star Field, a domain of the Blood Clan, Feng Min, a Child of the Era from the twelfth cosmic era, entered a peculiar secret realm and discovered many treasures.

However, he encountered another Dominator in this secret realm.

As a Child of the Era, Feng Min's combat power was not weak. Among the Children of the Era, he was considered superior, and although not an ultimate talent, his potential undoubtedly promised he could become a second-tier Supreme.

Now, he stared solemnly at the unfamiliar Dominator before him, sensing a threat from this individual.

"Who are you?" Feng Min asked coldly.

If this person were a Child of the Era from the same faction, Feng Min would recognize him. Among the many races, there was currently only one Child of the Era, Ye Tian, and the Dominator before him was definitely not Ye Tian.

Thus, Feng Min was confused about the stranger's identity.

"You lowly native, do you think you're worthy of knowing my name?" the man sneered.

"What!?" Feng Min was furious. How dare someone look down on him? It was always he who looked down on others.

"You're dead!" Feng Min roared in anger, unleashing a tremendous divine ability—Nine Heavens Wind Howl! Yet, an astonishing scene unfolded.

The man merely punched lightly, shattering Feng Min's divine ability instantly, then another punch broke through Feng Min's defenses, obliterating nearly sixty percent of his body.

"So strong!" Feng Min's pupils contracted sharply, feeling the threat of death.

Immediately, he tried to use a rare secret treasure to escape, but the man threw a talisman that sealed the entire space, rendering Feng Min's precious secret treasure useless.

"Though my lord instructed us to avoid trouble, daring to strike at me is courting death!" The man punched again.

This punch was far more terrifying than the previous one, instantly killing Feng Min.

"This is the so-called Child of the Era? How weak. In the chaos, he would only be considered an ordinary talent. If all the universe's geniuses are like this, wouldn't I, Hamon, be able to sweep through everything?" The young man, Hamon, laughed heartily.

Chapter 766: The Supreme Lord's Secret Realm!

What! The Master of the Primordial Era and others knew what Golden Light Supreme referred to, but their expressions changed multiple times.

“Impossible!”

Stone Dragon Supreme said, “How could a powerful being from the Chaos enter the universe? This has never happened in countless cosmic eras! If it were possible, why would that esteemed individual need to waste so much time collaborating with us?”

“What if it’s precisely because of our assistance that the Chaos Supreme Treasure suppressed the cosmic origin, allowing a strong being from the Chaos to pay a certain price to enter the universe? This isn’t impossible. Although we deeply respect that esteemed individual, we can’t be sure...” Golden Light Supreme didn’t finish his sentence, but everyone understood his meaning.

The Master of the Primordial Era asked, “Should we consult that esteemed individual?”

“That wouldn’t be wise!” Golden Light Supreme replied, “That esteemed individual mentioned not to contact him unless it’s important. If we question him over a mere suspicion, it might provoke his wrath. Besides, we still need his power to secure a chance at transcendence. Even if he has other plans, can we really afford to turn against him?”

The twenty-one Supremes fell silent.

Clearly, they didn’t dare to defy that esteemed individual, at least not for now.

“Regardless, we must find that dominator. Feng Min’s death cannot be overlooked. Also, inform the other Children of the Era to be cautious to avoid any unnecessary casualties.” The Master of the Primordial Era advised.

The other Supremes nodded in agreement.

After they left, Cold Spirit Supreme’s face showed a murderous intent. Her anger was not directed at the other Supremes, but at the mysterious dominator.

“Daring to kill my disciple, no matter what your origin is, once I find you, you’re dead!” Cold Spirit Supreme declared coldly.

—

In another region.

Hamon gazed at the starry sky and murmured, "It seemed like a Causality Supreme was investigating me just now. Unfortunately, the causality path of this universe is too weak. If it were a strong causality practitioner from the Chaos, I definitely couldn't sever the causality line."

He felt fortunate to have found a secret realm sent into this universe by the Supreme Lord, obtaining some astonishing talismans. Otherwise, with his current dominator-level cultivation, he couldn't have severed the Causality Supreme's causality line.

"I've already caught the attention of this universe's Supremes. I need to stay low for now. Hmph, once I reach the Supreme realm in this universe, I'll fear nothing! If I transcend in this universe, returning to the Chaos, I will be a transcendent, far surpassing my previous status! This is the great opportunity granted by the Supreme Lord, and I must seize it!" Hamon thought to himself.

Suddenly.

He took out a compass and performed a secret technique to carefully sense it.

From what he knew, the Supreme Lord had grand plans, setting up many secret realms outside the universe, storing numerous treasures and opportunities. When the universe expanded, those secret realms would enter the universe with it.

However, these secret realms were hard to open and deeply hidden. Even Supremes would struggle to find them. Without the Supreme Lord leaving them a way to find these realms, he wouldn't have found any.

The compass he obtained from the last secret realm was a treasure that could speed up his search for the next secret realm.

Once he acquired multiple secret realms, his progress would accelerate.

In the outer world, he already possessed strength comparable to the highest level of this universe's Supremes. With sufficient resources, it wouldn't take long for him to re-cultivate to the peak Supreme level.

The only troublesome part was that he had to follow this universe's cultivation path; otherwise, he couldn't transcend, which would take a long time.

"Found it!" Hamon exclaimed with joy.

At that moment, the compass pointed in a direction. By following this direction, it wouldn't be long before he found the location of the secret realm.

Immediately, Harmon traveled through the starry sky in a star shuttle, heading to the next secret realm.

Before long, he arrived in a certain territory.

"According to the information, this is the territory of the human race, and the next secret realm is in their domain," Harmon thought.

The human race wasn't considered a powerful cosmic race, but they had quite a few Supremes. If a Supreme from the human race discovered his tracks, it would spell trouble.

"I need to be more cautious!" Harmon thought to himself.

After entering the human territory, he became much more low-key. He even put away his star shuttle, carefully navigating under the human race's starry sky.

One day, Harmon arrived at one of the many star fields of the human race—the Pan Star Field.

"Not far now, it seems the secret realm is indeed in the Pan Star Field. The Pan Star Field is one of the weaker star fields of the human race, with hardly any Universal Gods and no Dominator overseeing it. The chances of being discovered are nearly zero!" Harmon exclaimed with excitement.

Once he entered the Pan Star Field, he relaxed considerably and quickly approached his destination.

Pan Star Field, Milky Way, Earth.

Earth was his destination.

As Harmon prepared to enter Earth, an array formation appeared, sensing his presence.

“This an array formation!!!” Harmon was bewildered.

Such a small planet unexpectedly had such a powerful sensing array formation, capable of detecting his presence. This was definitely an array laid by a Dominator or above!

“How could this be?” Harmon wondered.

His first thought was that the secret realm had been exposed, but upon careful consideration, that seemed unlikely.

There were many humans on Earth, so he casually captured a human at the True God level, his consciousness delving into the human’s soul to extract their memories.

Soon, the history of this planet became clear to him.

“The number one genius in the universe—Ye Tian. So this planet is his home planet. It seems the arrays on Earth were either laid by him or by someone he hired!”

Understanding Earth’s situation, Harmon breathed a sigh of relief.

Apparently, this secret realm hadn’t been discovered.

As for Ye Tian, Harmon didn’t fear offending him. According to the information, Ye Tian had only recently broken through to the Dominator realm.

Regarding the geniuses of this universe, he held no regard. Even the so-called Children of the Era had fallen by his hand.

“Ye Tian, if you dare to come, I’ll kill you!” Harmon murmured.

Of course, if he killed Ye Tian, he would have to leave immediately, or else it would attract the Supremes of the human race.

Therefore, he needed to take the treasures from this secret realm as soon as possible.

Whoosh...!! Harmon descended to Earth, arriving at the Kunlun Mountains. He found the underground space deep within the Kunlun Mountains, the same place where Ye Tian had discovered the World Tree.

However, this underground space wasn't that simple; it was the entrance to a secret realm. Ye Tian, being too weak at the time, hadn't been able to uncover the mysteries of this space.

"This is it. It should take only a few days to open it."

"If Ye Tian comes, I'll capture him in one move. After taking the treasure, I'll kill him!"

This was Harmon's plan.

Chapter 767: Hamon Begged for Mercy!

In the Holy City, at the Tian Pavilion, Ye Tian suddenly opened his eyes while in seclusion.

"Someone on Earth has triggered my formation!" Ye Tian remarked coldly.

Ye Tian highly valued Earth, as it was his homeland. He considered its importance to be greater than that of an entire star field. He would not allow anything to happen to Earth.

For this reason, he had set up numerous safeguards on Earth, such as prohibiting experts above the True God level from remaining on or entering Earth. Recently, he had returned to Earth to personally arrange a formation infused with powerful rules. Even a Dominator-level expert would be detected by this formation, and weaker Dominators would not be able to enter Earth at all.

But now, someone had triggered the formation and entered Earth.

“A very powerful Dominator!” Ye Tian murmured.

Among the human race, the powerful Dominators knew that Earth was his homeland. Without his permission, they would not rashly enter Earth. But now, someone had entered.

“An alien Dominator?” Ye Tian speculated.

“Hmph, even if it’s a Dominator, or even a Heavenly Venerable, if they dare to harm Earth, they must die!”

With a flash, Ye Tian left seclusion and rushed towards Earth in the Pan Star Field with incredible speed. In no time at all, he returned to Earth.

Boom!!!! Ye Tian’s copy talent enveloped the entire Earth, and he also activated his Life Heavenly Eye ability.

Instantly, Ye Tian sensed a special presence on Earth.

“A sixth-tier life form!” Ye Tian’s pupils contracted.

He wasn’t afraid of a sixth-tier life form; he was shocked that one would appear here. In the Origin Realm, there were many sixth-tier life forms due to its unique nature. However, in the main universe, sixth-tier life forms were extremely rare. Most Supremes were merely pseudo-fifth-tier life forms! Moreover, this sixth-tier life form was merely a Dominator! A Dominator reaching the sixth-tier life form level was no less formidable than he had been before entering the Origin Realm! Additionally, the aura of this Dominator was incredibly strong, much stronger than the Child of the Aurora Era from the Twelve Cosmic Eras.

“This Dominator is very unfamiliar, and doesn’t seem to be one of the Children of the Eras from the Twelve Cosmic Eras. But among the myriad races’ Dominators, there’s absolutely no one this extraordinary!” Ye Tian did not know the identity of this Dominator, but he felt a heavy sense of gravity in his heart.

If someone as powerful as them started fighting, Earth would be obliterated in an instant.

“I hope this person is just passing through!” Ye Tian hoped.

On Earth, Hamon saw Ye Tian and immediately frowned.

“So fast,” he muttered in surprise, thinking Ye Tian would arrive later, not expecting him so soon.

“But it’s just a minor deviation from my plan. It won’t affect it!” Hamon sneered.

At this moment, Ye Tian transmitted his voice, “Why have you trespassed on my Earth? Please explain, or I will consider this a provocation!”

“A mere Dominator dares to be arrogant before me!” Hamon replied coldly, reaching out with five fingers to grasp Ye Tian, as if to suppress a part of the void.

Terrifying rules rippled out, enough to make any Dominator despair.

However, as Hamon made his move, Ye Tian also acted instantly. Since Hamon dared to attack, he was an enemy, and Ye Tian would not sit idly by.

To avoid affecting Earth, Ye Tian directly used a great divine ability—Wheel of Time! He rarely used the Wheel of Time, as the enemies he encountered were often weaker, and against overly strong enemies, it had limited use.

Only against evenly matched enemies did he use the Wheel of Time.

At this moment, Ye Tian used the Wheel of Time, dragging Hamon into the cycle of time.

To prevent Hamon from breaking the cycle of time, Ye Tian entered the time loop himself, fighting Hamon from within the dimension of time.

Within the time dimension, Hamon appeared and sneered, “A great divine ability, but unfortunately, this won’t trap me!”

Just as he prepared to break out, Ye Tian appeared.

Seeing Ye Tian, Hamon decided not to break the dimension. He didn't want to destroy Earth, fearing it might trigger changes in the secret realm, revealing it. So, capturing Ye Tian here was preferable.

"You must be Ye Tian. Rumor has it you're the top genius of this universe. Let's see if you can entertain me!" Hamon laughed.

"This person knows me, yet he shows no fear," Ye Tian thought deeply.

It was clear Hamon was not a weakling; even trapped in the time loop, he was unafraid.

A formidable enemy indeed! Immediately, Ye Tian used the Spear of Hellish Void, thrusting it toward Hamon.

This was a test!

Thud! The Spear of Hellish Void shot forward, and Hamon merely punched out.

Crack! The Spear of Hellish Void shattered, dissolving into spatial rules.

However, Hamon didn't have it easy; his fist trembled slightly.

"How can he be this strong?!"

Hamon was shocked internally but maintained his calm exterior. Instantly, his eyes flashed as he employed some sort of ocular secret technique.

"What? A seventh-tier life form?!"

Hamon was taken aback. If he had been at his peak, a seventh-tier life form wouldn't have mattered much since he himself was a pinnacle seventh-tier life form. But in this universe, without ample resources, and with his reincarnated body being quite ordinary, he had exhausted many resources to cultivate to the late sixth-tier life form level. Reaching the seventh-tier life form level was extremely difficult.

What he didn't expect was that Ye Tian was actually a seventh-tier life form!

"However, Ye Tian's cultivation time is short, so he might not be strong in other aspects. I'm currently at the peak of the Dominator level, but I can exert the combat power of a first-tier Heavenly Venerable. My survival abilities even surpass those of a fifth-tier Heavenly Venerable, so there's nothing to worry about!" Hamon thought to himself.

On the other side, Ye Tian, seeing that the Spear of Hellish Void couldn't break Hamon's defense, made a rough estimate. Hamon was indeed powerful, but not overwhelmingly so; otherwise, his fist wouldn't have trembled.

"Finish this quickly!" Ye Tian decided.

Boom!!! The Chaos Origin Divine Well enveloped his body, the fifth form of the Tiangang Battle Technique activated, and various talents were unleashed one by one.

"Primeval Slash!"

Ye Tian directly used his strongest move. He didn't want any unexpected events. The power of Primeval Slash was enough to rival a full-strength strike from a fourth-tier Supreme. Although he could only use it once, he didn't believe Hamon could withstand the Primeval Slash!

Boom!!! The blade light of Primeval Slash condensed into a point, tearing through the time dimension and slashing towards Hamon. This strike even froze time and space; unless one had heaven-defying escape techniques, there was no way to avoid this attack.

Always composed, Hamon finally panicked at this moment.

"This strike... how is this possible? He's just a Dominator!"

Hamon's pupils contracted sharply, and he couldn't believe his eyes. He had always looked down on the so-called geniuses of this universe. Even though Ye Tian was known as the top genius, he hadn't paid much attention, thinking it would be easy to capture Ye Tian.

But now, he realized he was wrong, incredibly wrong! A Dominator-level cultivator being able to unleash an attack comparable to a fourth-tier Supreme's full-strength strike was extraordinarily

heaven-defying. Even in chaos, such geniuses were extremely rare! How could a universe lacking powerful legacies produce such a heaven-defying genius? If such a genius entered chaos, wouldn't they become even more terrifying?

“Primeval One Qi Talisman!” “Divine Light Shield!” “Ten Light Shield!” “Immortal Body!”

One defensive technique after another was instantly deployed by Hamon, but they all shattered under the Primeval Slash. Ultimately, the blade light pierced through Hamon's body, severely wounding him.

However, a flash of light on Hamon's body stabilized his injuries.

“Escape!” Hamon summoned a new talisman imbued with the power of time.

“Time Blade Talisman, break!”

Time rules transformed into a sharp blade, instantly breaking through this time dimension and the Wheel of Time.

In the next moment, Hamon fled!

“I can't believe I didn't kill him!” Ye Tian was a bit surprised. That strike was comparable to a fourth-tier Supreme's full-strength attack, capable of killing even a Heavenly Venerable, yet Hamon, a mere Dominator, survived.

“This person has a significant background; he can't be allowed to live!” Ye Tian resolved.

Hamon's escape technique was extremely fast, almost on par with a Supreme, but Ye Tian had the Life Heavenly Eye, which allowed him to sense life auras over a large area. Once he locked onto Hamon, it would be hard for Hamon to escape.

“Chase!” Ye Tian immediately pursued.

As they fled and chased, they quickly left the Pan Star Field.

“Damn, I can’t shake him off. This guy is a seventh-tier life form with the Life Heavenly Eye. If I had reached the Heavenly Venerable level, I could block the Life Heavenly Eye’s ability. Perhaps if I had my treasures from chaos, I could block it, but now I can’t block this ability! Moreover, this guy has a Super God-level time and space talent. Damn, such talents are rare even in chaos. How did such a heaven-defying being emerge from a small universe?”

Hamon was extremely panicked! He was confident in escaping from a fourth-tier Supreme but had no confidence in escaping from Ye Tian.

Soon, Ye Tian caught up with Hamon, launching repeated attacks and battles.

Hamon tried to use talismans to kill Ye Tian, but Ye Tian’s Chaos Origin Divine Well defense was too formidable to break through.

“Ye Tian even has a Chaos Divine Ability prototype formed from the fragments of the Origin Well! Luckily, he hasn’t fully cultivated this Chaos Divine Ability; otherwise, just his defense would make him invincible at the Supreme level in this universe!” Hamon’s pupils contracted in jealousy.

Even in chaos, he hadn’t encountered such great fortune, yet Ye Tian, in a resource-scarce universe, had such significant opportunities.

With each encounter, Hamon’s injuries worsened.

“Ye Tian, let’s stop. We have no deep enmity. I’m willing to pay a certain price to spare my life. What do you say?” Hamon lowered his head and began to beg for mercy.

Chapter 768: Killing Hamon and Absorbing His Memory!

“If you want to save your life, it’s possible! But first, stop, and let’s have a proper talk.” Ye Tian spoke.

“Alright, I’ll stop. Don’t attack me!” Hamon actually halted.

Ye Tian also ceased his attack, standing not far from Hamon, facing him.

“So, who are you?” Ye Tian asked.

“My name is Hamon!” Hamon replied.

“A mere name isn’t enough. I don’t recognize you. In theory, I should know all powerful Dominators in the universe, but you’re very unfamiliar. And a Dominator as powerful as you can’t possibly be unknown!” Ye Tian stated.

Hamon’s expression changed several times before he finally said, “I come from the chaos, but I used a special method to reincarnate into this universe.”

“Reincarnate?” Ye Tian responded coldly, “Don’t try to deceive me. Would the Universe’s Origin allow chaotic beings to reincarnate into the universe? Even if a powerful being from the chaos enters the universe, they would still be suppressed and killed by the Universe Origin. How did you manage to survive?”

“It really is reavatar!” Hamon shouted, “Normally, I wouldn’t be able to reincarnate, but now your universe’s Universe Origin is very weak and suppressed. Because of this vulnerability, it was possible to reincarnate at a certain cost!”

“What’s your connection with the Supremes of the Twelve Cosmic Eras?” Ye Tian asked again.

“No connection, I don’t know them! But they seem to have obtained external inheritance and suppressed the Universe Origin. This news spread in the chaos, and that’s why I took the risk to enter the universe, aiming to transcend within it!” Hamon explained.

He intentionally deceived Ye Tian with these words. In reality, this matter was kept secret in the chaos, orchestrated by his master, but he couldn’t reveal his master’s existence. Otherwise, the oath would take his life.

Ye Tian didn’t notice any problem and didn’t care much. He continued asking, “Why did you enter the universe? You must be strong in the chaos too. Why take the risk to reincarnate into the universe? Is it only for transcendence? Can’t you achieve transcendence in the external world?”

Hamon smiled and said, “You’re a native of the universe and don’t understand the chaos. In the chaos, the realms of Heavenly Venerable and Supreme are collectively called Earthly Venerable. Above Earthly Venerable is the level of chaotic beings, also known as the Destiny Realm. In the chaos, there’s no such thing as transcendence. When an Earthly Venerable cultivates to the extreme,

they just need to transform into a chaotic being to step into the Destiny Realm. This step is difficult but has a ten percent chance. However, without a powerful bloodline, extraordinary fortune, and strong inheritance of techniques, one can only remain a weak chaotic being for life. They might dominate a small continent but are insignificant in the vast chaos.

But transcendents are different. Once you become a transcendent, your potential is limitless, and many great forces will seek you out. The weakest transcendent has the hope to surpass the Destiny Realm. Who wouldn't want to become a powerful being above the Destiny Realm? So, I abandoned everything outside and reincarnated into this universe."

"I see!"

Ye Tian finally understood Hamon's plan. No wonder Hamon was so powerful. As a strong Earthly Venerable in the chaos, he cultivated powerful techniques. Reincarnating into this universe, even at the Dominator level, naturally made his combat power formidable.

"How many have reincarnated here?" Ye Tian asked.

"I'm not sure, but reavatar carries risks. There's a thirty percent success rate, and failure means true death. I believe not many would take this risk, but there should be a significant number!" Hamon explained.

In reality, he had a rough idea of how many had reincarnated, as they belonged to the same faction, but he didn't want to disclose it. He preferred to be as evasive as possible.

"Why did you go to Earth?" Ye Tian asked again.

This was what he truly wanted to know. He believed a strong individual like Hamon wouldn't go to Earth for no reason. If it was just a coincidence, it seemed even more unlikely.

Hamon had anticipated this question and had prepared a response in advance.

"I just wanted to see you. I reincarnated into this universe and heard you were the number one genius. But you were in the human core territory, guarded by human Supremes. So I thought of Earth, your homeland, to lure you there!" Hamon explained.

“Really?” Ye Tian felt a bit skeptical, but this explanation made sense.

“It’s true!” Hamon nodded.

“Alright, even if what you say is true, I still have to kill you!!!” Ye Tian attacked again.

This time, he unleashed the Primeval Slash with full force! Using the Primeval Slash consumed a lot of energy, and he had previously used up much of it, so he hadn’t continued to use it. But now, he had recovered.

Indeed, his recovery speed was that fast! The reason he had been asking questions was not because he truly wanted to spare Hamon, but to buy time.

Of course, if he could extract some secrets, that would be a bonus.

However, he didn’t believe Hamon would reveal everything. Besides, someone like Hamon was too dangerous. If Hamon were to quickly break through to the Heavenly Venerable realm and gain Supreme-level combat power, it would be truly dangerous.

If Hamon acquired enough power, Ye Tian believed Hamon would definitely come after him! While he could escape, could the human race escape? Furthermore, Ye Tian didn’t want to break through to the Heavenly Venerable realm just yet; he wanted to accumulate his power to the utmost before making the breakthrough.

Therefore, he couldn’t afford to let Hamon go and bring trouble upon himself.

Hamon was also secretly recovering from his injuries, but his recovery speed was slow. The talismans that had previously allowed him to recover quickly were all used up.

Thus, Hamon’s expression changed drastically.

“Damn it, you’re too cunning!” Hamon cursed.

Puff!!! The Primeval Slash tore through Hamon’s body, injuring him severely once again.

This time, Hamon's injuries were even more severe! He had no choice but to flee at all costs. However, Ye Tian had no intention of letting Hamon escape.

Soon, Ye Tian unleashed the Primeval Slash again! Using the Primeval Slash twice in succession consumed most of Ye Tian's energy and placed a great burden on his body. However, compared to Hamon, Ye Tian was in excellent condition.

At this moment, Hamon was gravely injured and on the brink of death. Even though he had many trump cards and impressive survival abilities, he was still in a desperate situation.

"Ye Tian, I'll tell you a big secret, please don't kill me!" Hamon shouted.

However, Ye Tian didn't believe a word Hamon said. Even if Hamon did have a big secret, Ye Tian still wouldn't spare him.

Seeing that Ye Tian didn't care at all, Hamon realized that Ye Tian was determined to kill him.

"Ye Tian, if you kill me, you're dead too! Just wait, once news of my death gets out, my companions will surely find out you did it. Then you'll be finished!!!" Hamon threatened.

"Companions? Reincarnated into this universe, even if you're from the same faction, you're still competitors. If you die, they might even be happy! Do you think anyone would avenge you?" Ye Tian sneered.

Hamon's expression froze. He knew Ye Tian was right, but on the brink of death, he could only threaten Ye Tian. If Ye Tian hesitated even for a moment, he might have a chance to escape.

Unfortunately, Ye Tian was too smart to give him any opportunity.

Boom, boom, boom!!!! With repeated strikes, Hamon's soul began to collapse.

At this moment, Ye Tian took out a top-tier supreme treasure—the Floating Void Map, a top-tier supreme treasure from Aurora's body, with the power to suppress and seal.

Moreover, this was a spatial top-tier supreme treasure. For Ye Tian, who had a super-god-level time-space talent, he could even fully unleash the power of this top-tier supreme treasure, making it stronger than even the Strongest Supreme Treasures.

Gravely injured and on the brink of death, Hamon had no way to resist and was directly suppressed and sealed by the Floating Void Map.

“The Nether King Secret Manual contains a memory-absorbing secret technique. Hamon is about to die, his soul is about to shatter, I should be able to extract some knowledge!” Ye Tian muttered to himself.

Immediately, he began to use the secret technique—Soul Search Hand! With a swipe, Ye Tian’s soul power transformed into the Soul Search Hand and penetrated Hamon’s soon-to-shatter soul.

Strands of memory fragments were absorbed by Ye Tian. However, some memory fragments were bound by oaths and couldn’t be absorbed. Moreover, Hamon’s memories were vast, so only less than ten percent could be extracted.

Crack! Hamon’s soul completely shattered, and he perished.

Ye Tian sealed and collected that ten percent of Hamon’s memories.

“It’s time to return. There was a battle here, and since this isn’t the human territory, it might attract the prying eyes of Supremes!”

Immediately, Ye Tian left swiftly.

Shortly after, several Supremes arrived, investigated the area, found nothing, and then left one by one.

Chapter 769: Hidden God Organization

Earth.

Ye Tian had returned here and subsequently began researching Harmon's soul memories in Kunlun Mountain.

Harmon was a cultivator from the Chaos Realm. Even though he was considered insignificant within Chaos, his soul memories were invaluable to Ye Tian. Perhaps he could uncover some secrets from Harmon's memories.

"Let's start absorbing the memories," Ye Tian murmured.

With Ye Tian's powerful soul, he quickly absorbed and digested the fragments of Harmon's memories.

At that moment, Ye Tian felt immense shock.

Although these memory fragments did not include many core secrets, as they were obliterated due to an oath, the fragments he obtained still contained enough knowledge and secrets to astonish him.

"Hidden God Organization!"

This was the name of the organization Harmon belonged to. Harmon was merely a peripheral member of this organization, but he held a high position within this periphery. His strength was considerable, and he had powerful elders, which allowed him the opportunity to reincarnate into this universe.

Furthermore, the secrets of this universe had not spread within Chaos, and communication within Chaos was not easy. Therefore, Harmon had completely deceived him earlier.

The true holders of the universe's secrets were actually the Hidden God Organization.

As for how the Hidden God Organization schemed and how Harmon reincarnated into this universe, Ye Tian could not uncover these secrets. Clearly, these secrets fell within the bounds of the oath or were not captured during the memory extraction.

"The secrets of the Hidden God Organization are useless to me now. If I can't transcend, I can't leave this universe, so these secrets are of no immediate use to me," Ye Tian thought.

The truly useful information to Ye Tian was the secret realms of the Hidden God Organization! This was not a core secret, hence it appeared in Harmon's memories.

Harmon, when he first reincarnated here, was very weak and needed time to develop. He had been in this universe for ten thousand years.

In just ten thousand years, he had cultivated to the Dominator realm. Even with previous memories and a powerful heritage, without sufficient resources, it would have been impossible to reach his current level.

The secret realms were the biggest aid in Harmon's rapid power increase and were the opportunities provided by the Hidden God Organization to members who reincarnated.

Otherwise, if Harmon had nothing and reincarnated directly into this universe, how would he have developed? He couldn't just earn resources on his own. Such slow cultivation would have increased the risk of encountering dangers and dying prematurely in this universe, with no possibility of resurrection.

Ye Tian didn't know the specific plans of the Hidden God Organization, but those who dared to enter the universe had significant backgrounds; otherwise, they wouldn't have had the chance.

Therefore, they naturally didn't want these people to fall prematurely. They created many secret realms and placed them at the edges of the universe, waiting for the universe to expand and incorporate these secret realms.

These secret realms were very special. Even Supremes found it hard to detect them.

Of course, once discovered, if one couldn't break the formations of the secret realm, they couldn't enter it either.

There was such a secret realm on Earth, in the underground space of Kunlun Mountain.

"So, the underground space where the World Tree was discovered is actually the entrance to a secret realm. No wonder such a small planet like Earth could give birth to a World Tree. It must be due to the secret realm.

If I hadn't extracted Harmon's memories, even if I turned Kunlun Mountain upside down, I wouldn't have been able to find that secret realm!" Ye Tian pondered.

Aside from the secret of the hidden realm, what interested Ye Tian the most was the Chaos Divine Ability! The Chaos Divine Ability surpassed even great divine abilities. In Chaos, such abilities were extremely rare, and very few could master even one.

Take Harmon, for example. Despite his formidable strength and decent talent, he had no qualification to cultivate a Chaos Divine Ability. Even if he had the method, he couldn't master it.

To cultivate a Chaos Divine Ability, one first needed an innate origin object along with a corresponding Super God-level talent, thus gaining the qualification to cultivate.

However, mastering a Chaos Divine Ability was exceedingly difficult. Even if one met the conditions, it required an immense amount of time to comprehend and cultivate.

Innate origin objects were rare in Chaos, but not as scarce in the universe.

Of course, the universe's supreme treasures containing origins were not considered innate origin objects. Many items seemed related to origins but were not true innate origin objects.

According to Harmon's memory, there were few true innate origin objects in the universe, one of which was the Well of Origin! Using the Well of Origin as the innate origin object, combined with a highly compatible Chaos Divine Ability, there was hope to form the embryonic form of a Chaos Divine Ability.

Yes, only an embryonic form. To fully master a Chaos Divine Ability, one needed at least a Destiny Realm cultivation; otherwise, it was merely an embryonic form.

In Chaos, if a strong Earthly Venerable could cultivate an embryonic Chaos Divine Ability, they would become nearly invincible in the Earthly Venerable realm and might even battle Destiny Realm experts, potentially defeating weaker ones!

"Chaos Divine Ability!!!" Ye Tian felt thrilled because he had the qualification to cultivate it! He possessed a Super God-level time and space talent and had obtained the Well of Origin, with its fragments fully integrated into his ancient well phenomenon.

Therefore, if he acquired a time or space-type Chaos Divine Ability, he could cultivate its embryonic form, drastically enhancing his combat power.

But then, Ye Tian sighed, “Chaos Divine Abilities are too rare. Even Harmon only heard of them but never saw one.

The Hidden God Organization’s possession of Chaos Divine Abilities is uncertain, and Harmon didn’t know.”

“Never mind, Chaos Divine Abilities are exceedingly rare, difficult to obtain even in Chaos. I’m in the universe, why insist on it?

For now, I understand the basics. The real executors of the dual-universe transcendence plan should be the Hidden God Organization.

The Supremes from the Twelve Cosmic Eras likely collaborated with the Hidden God Organization, but they probably didn’t understand the organization well.

The Hidden God Organization was indeed using them. But one thing was true: once the dual universes merged, the difficulty of transcendence would decrease. However, transcending in that manner would result in minimal potential for becoming a transcender! Unless, after the dual-universe fusion, a Grand Universe formed, and transcending from it would make one a formidable transcender.

But transcending from a Grand Universe would be exceedingly difficult! Furthermore...”

From Harmon’s memory, Ye Tian learned that a Grand Universe seemed capable of accommodating Destiny Realm experts! But whether this was true, Ye Tian was unsure.

At the very least, based on the current situation, the Hidden God Organization aimed to cultivate some weaker versions of transcendents. Even the weakest transcendents had the potential to surpass the Destiny Realm.

Thus, if several transcendents emerged, the Hidden God Organization’s strength would undoubtedly soar.

Based on Ye Tian's calculations, the Hidden God Organization might also aim to cultivate a Grand Universe! The purpose of this was unclear to Ye Tian, but it undoubtedly benefited the organization.

Unfortunately, this detail was missing from Harmon's memory, and Harmon probably didn't know it either.

"Originally, I thought it was tough to progress quickly, and I'm unsure when the dual-universe transcendence would truly begin.

To progress rapidly, I might rely on this hidden realm on Earth!" Ye Tian concluded.

Chapter 770: Entering the Secret Realm, Heavenly Profound Fruit!

Originally, Harmon had obtained all the resources of a secret realm. Unfortunately, he had exhausted most of these resources, which was why he sought a second secret realm.

Even so, Harmon had still left behind some valuable items.

"Three pieces of Chaos Spiritual Treasures, thirty bottles of elixirs, two hundred and three pieces of Chaos Black Crystals, twenty-four talismans..."

All the miscellaneous items combined were roughly equivalent to four or five top-tier supreme treasures.

Regrettably, the three Chaos Spiritual Treasures were damaged during his battle with Ye Tian. Ye Tian's Primeval Slash had caused the damage, much to Ye Tian's regret.

But without going all out, he couldn't have killed Harmon.

Among these items, what interested Ye Tian the most were the talismans.

During their fight, Harmon had used talismans against him. These talismans were also obtained from the secret realm. However, the offensive and speed talismans had been used up, leaving only the rare, special talismans.

There were special talismans that could sever karmic fate, ones for detecting enemies, and others for concealing aura and strength.

These talismans were not very useful in battle, so Harmon hadn't used them, which worked to Ye Tian's advantage.

"Harmon had almost exhausted his resources, using up many items, yet he still had so many good things left. If it were an intact secret realm, how many resources and treasures would there be!"

Just thinking about it made Ye Tian very excited.

In the underground space of the Kunlun Mountains, Ye Tian had entered and taken out a compass. This compass, which belonged to Harmon, could sense the presence of a secret realm, but its range was limited. If the secret realm was too far away, it couldn't be detected.

At this moment, the compass accurately pointed to the entrance of the secret realm.

Confirming the exact location of the entrance spared Ye Tian a lot of trouble. Otherwise, he would have had to rely on Harmon's method to repeatedly confirm the entrance, wasting a lot of time.

With the entrance accurately detected, the next step was to decipher the secret realm's formation. Harmon's memory contained the method to decipher it, as it wasn't a core secret. Apparently, Harmon hadn't sworn to keep this part secret, so the memory remained.

Otherwise, Ye Tian could only look at this secret realm without being able to enter.

Clearly, the Hidden God Organization hadn't anticipated Harmon's premature demise, nor that his soul would be absorbed and his memories extracted.

"Deciphering the formation will take some time. Harmon was in the process of deciphering it before I interrupted him. At the time, I wondered why he was sitting there. It turns out he was deciphering the secret realm's formation."

Ye Tian wasn't worried about being disturbed. This was human territory, and it was unlikely anyone would trouble him.

Thus, Ye Tian began to use his soul power to emit a peculiar wave, sensing the secret realm's formation.

Boom!!!! A powerful array appeared in the depths of the void, touching Ye Tian's soul perception.

At this moment, Ye Tian truly witnessed the power of the secret realm's formation.

“What a profound formation. Even Supremes couldn't set this up, and it has the effect of shielding the universe's origin. The power of the universe's origin can't penetrate it!”

Ye Tian marveled.

He didn't waste time and immediately began to decipher it.

Deciphering involved using his soul to emit a set of rules and codes, breaking a gap in the secret realm's formation to form an array, allowing him to enter the secret realm.

This process required several hours.

During these hours, Ye Tian focused on deciphering, undisturbed by anyone.

Soon, the deciphering succeeded.

A spatial rift appeared! Swoosh! Ye Tian flew through it, entering the secret realm.

The moment Ye Tian entered, he felt an incredibly dense Chaos Yuan Qi, even purer than the Chaos Yuan Qi of the small chaotic world he had encountered before.

“If an ordinary God level cultivator were to cultivate here, as long as their talent isn't poor, they could quickly become Planetary System level or even Galaxy level!”

Ye Tian pondered quietly. This secret realm wasn't very large; its primary purpose was to store some resources. There was no need to make it too big, as the larger the secret realm, the harder it would be to hide.

At that moment, Ye Tian's divine sense swept across the area, sensing a grand hall. The entire secret realm was under his perception.

Ye Tian habitually investigated the secret realm, finding no signs of life or any dangers.

Thus, Ye Tian walked towards the grand hall.

"From Harmon's memory, the secret realm wasn't particularly dangerous. However, there were several barriers inside the hall. Only those with corresponding strength could obtain the treasures. If one's strength was inadequate, it would be impossible to acquire them."

Ye Tian was very confident in his strength, and the barriers in the secret realm weren't particularly powerful.

According to Harmon's memory, in the first secret realm, Harmon had broken through all the barriers except for the most core one.

Inside the grand hall, there were many chambers, each with a barrier. Breaking the barrier would allow access to the treasures within.

Ye Tian arrived at the first chamber and easily broke through its barrier.

However, upon entering the chamber, Ye Tian was quite disappointed. While there were plenty of resources, most were foundational, beneficial for those below the Emperor level or at the God level, but of little use to Ye Tian.

The only thing that piqued Ye Tian's interest was a few cultivation techniques and secret skills, which he could use for reference, though their value was limited.

Boom! Boom! Boom! One by one, the chambers were broken open by Ye Tian, and he took the items inside. Soon, Ye Tian reached a more central area, where the barriers required dominator-level strength to break through.

These chambers began to contain some formidable talismans, spiritual treasures comparable to supreme treasures, and some precious herbs.

“Only three chambers left!”

Ye Tian stared at the three chambers, feeling a bit excited.

The barrier of the most important chamber was incredibly strong, even Harmon couldn't break it. Ye Tian didn't know if he could break it either, but he was confident about the other two chambers.

Slash! Slash! Slash! Ye Tian slashed three times in succession, finally breaking the barrier of the left chamber and entering it.

“Talisman, two pieces of Chaos Spiritual Treasures, fifteen pieces of Chaos Black Crystals, three cultivation techniques and secret skills... Hmm, what's this?”

Ye Tian's gaze focused on one of the treasures, specifically a fruit.

This fruit contained immense power, even making Ye Tian feel a slight pressure. As he approached it, he felt his blood surging.

“Heavenly Profound Fruit, it must be the Heavenly Profound Fruit.”

Harmon had mentioned that it was difficult to reach the sixth-tier life level with the resources of this universe alone. However, Harmon managed to reach the sixth-tier life level within ten thousand years, thanks to obtaining a Heavenly Profound Fruit.

Each secret realm's treasures varied, and Ye Tian hadn't expected this secret realm to also have a Heavenly Profound Fruit.

Ye Tian was thrilled.

The Heavenly Profound Fruit could not only quickly elevate a low-level cultivator to the peak of the sixth-tier life level, but it also had significant effects on seventh-tier life levels.

For instance, Ye Tian was currently at the mid-stage of the seventh-tier. If he were to cultivate slowly, he didn't know when he would reach the late-stage of the seventh-tier.

But this Heavenly Profound Fruit had the potential to break his bottleneck, allowing him to reach the late-stage of the seventh-tier life level.

Once his life level advanced, his strength would skyrocket. Most importantly, the Heavenly Profound Fruit could only be consumed once in a lifetime, making it extremely rare even in the chaos. The Hidden God Organization had indeed invested heavily, consuming countless resources for this plan.

"I'll cultivate in this chamber for now. Anyway, a secret realm only allows one person to enter at a time. Since I've occupied this secret realm, even if other reincarnators from the Hidden God Organization come nearby, they won't be able to sense it." Ye Tian thought.

Thus, for him, this secret realm had become the safest cultivation place in the universe, and it could even serve as a secret base in the future.

He felt fortunate that he had dealt with Harmon before he could enter the secret realm. Otherwise, once Harmon had entered, Ye Tian wouldn't have been able to do anything against him.

In retrospect, Harmon's death was due to his own carelessness; otherwise, Ye Tian wouldn't have been able to kill him at all.
