

Talent 771

Chapter 771: Spreading the Information!

Gulp! Ye Tian swallowed the Heavenly Profound Fruit in one bite and began cultivating using another technique.

At that moment, he wasn't using the Heavenly Origin True Method. The Heavenly Origin True Method, created by the Master of the Primordial Era, was a life-level technique, but it wasn't useful for a Seventh Stage lifeform.

Instead, he operated the Heavenly Profound True Technique, a life-level technique he obtained from Harmon's soul memory. This technique was an accidental acquisition by Harmon and not part of the Hidden God Organization's methods. Hence, there was no oath binding it, unlike the Hidden God Organization's techniques, which had all crumbled along with the oaths. Therefore, Ye Tian couldn't learn them.

However, acquiring the Heavenly Profound True Technique was already quite fortunate. It was far superior to the Heavenly Origin True Method, aiming directly at the Eighth Stage.

With a better technique at hand, Ye Tian naturally discarded the Heavenly Origin True Method.

With the help of the Heavenly Profound True Technique, Ye Tian quickly refined the medicinal power of the Heavenly Profound Fruit, gradually advancing his life level to the late Seventh Stage.

Boom!!! At the moment when the Heavenly Profound Fruit's power was nearly exhausted, Ye Tian's life level finally broke through, reaching the late seventh-tier.

Simultaneously, his physical strength also broke through, becoming significantly stronger than before.

Naturally, Ye Tian's combat power increased as well.

"Previously, my combat power wasn't very strong among fifth-tier Supremes. I could only contend with top-tier fifth-tier Supremes using the Primeval Slash and could barely sustain it," Ye Tian

estimated. “But now, my combat power should have truly stepped into the ranks of top-tier fifth-tier Supremes!”

However, he was only speculating since he hadn’t fought a top-tier fifth-tier Supreme yet to make a definitive judgment.

Then, Ye Tian left this secret chamber and broke the barrier of the chamber on the right.

Inside this chamber, Ye Tian discovered numerous talismans, secret techniques, Chaos Black Crystals, and other resources. He even found a top-tier Chaos Spirit Treasure, specifically a defensive one.

This defensive Chaos Spirit Treasure was equivalent to four or five top-tier Strongest Supreme Treasures! Since Ye Tian practiced the Chaos Dao, this Chaos Spirit Treasure was highly compatible and significantly important to him, greatly enhancing his defense.

It could be said that with this defensive Chaos Spirit Treasure and the Chaos Origin Divine Well, Ye Tian no longer feared the attacks of fourth-tier Supremes.

In other words, Supremes like Kunwu Supreme would find it difficult to injure Ye Tian.

“Only one barrier left. I wonder if I can break it.” Ye Tian wondered aloud.

He approached the last secret chamber and attacked with the Primordial Saber, but it didn’t budge.

“What a strong barrier!” Ye Tian exclaimed.

Boom! Boom! Boom! He attacked repeatedly, but none of his attempts managed to shake the barrier.

“Let’s try the Primeval Slash!” Ye Tian thought.

“Primeval Slash!”

The terrifying attack of the Primeval Slash struck the barrier, but it still didn't break.

However, Ye Tian noticed that this strike had indeed caused some tremors in the barrier.

“By my estimation, if I were a bit stronger, perhaps with an attack comparable to a third-tier Supreme, I should be able to break this barrier. The Hidden God Organization likely intended for Harmon and the others to break through to the Heavenly Venerable Realm before attempting to breach this barrier.” Ye Tian speculated.

Unable to break this barrier, Ye Tian felt a bit regretful but didn't dwell on it too much.

“I'll come back to break this barrier once I'm stronger. Besides, there's still an unopened chamber in the first secret realm discovered by Harmon.”

By then, possessing the most precious treasures of both secret realms might lead to another surge in power, Ye Tian thought excitedly.

A few minutes later, Ye Tian calmed down.

This time, he had gained many resources, some of which were particularly effective for his cultivation of the Chaos Golden Desolation Technique. Moreover, the techniques and secret skills related to chaos proved to be significantly beneficial to him.

Therefore, he needed ample time to comprehend these techniques and secrets as well as to cultivate.

“I should stay here for a closed-door cultivation, but there are matters to attend to.”

Ye Tian thought about the issue he needed to address—the existence of the Reincarnators. He intended to spread this secret.

If the Reincarnators were allied with the Supremes of the Twelve Cosmic Eras, there would be no point in spreading the information. It would be useless.

However, the current situation suggested that the Supremes of the Twelve Cosmic Eras were unaware of the Reincarnators' existence. By leaking the existence of the Reincarnators and falsely

claiming they possessed secrets of true transcendence and numerous resources, many Supremes in the universe would start trouble for the Reincarnators, even attempting to kill them for resources.

“This way, spreading the information should cause some trouble for these Reincarnators, maybe even eliminating a few.” Ye Tian thought.

He had no other choice. The Reincarnators were advancing rapidly, potentially even surpassing the level of the Master of the Primordial Era. If he didn’t act now, and they eventually surpassed the Master, it would be a huge problem. He not only needed to spread this news but also exaggerate it.

“Harmon killed a Child of the Era and even confronted the Causality Supreme. Once this news spreads, the Supremes of the Twelve Cosmic Eras will surely believe it!”

Ye Tian laughed.

Thus, Ye Tian dispatched his second avatar.

The second avatar had no significant value. Even if it got exposed, it didn’t matter. At worst, he could just abandon it.

A year later.

A piece of news spread throughout the entire universe—Hidden God Organization, Chaos Reincarnators, countless Chaos resources, secrets of Transcendence... Any one of these rumors was enough to stir the whole universe.

Immediately, the Master of the Primordial Era and other Supremes gathered for a meeting.

In the Primordial Hall.

Seeing that the other Supremes had sent their avatars, the Master of the Primordial Era initiated the meeting.

“You all must have seen the recent rumors. The Hidden God Organization, Reincarnators, secrets of Transcendence, countless Chaos resources. We haven’t figured out who spread this information yet, but what do you think of its authenticity?” asked the Master of the Primordial Era.

“The matter of the Reincarnators should be true!” The speaker was the Cold Spirit Supreme.

She explained, “Everyone remembers that my disciple was killed by a mysterious Dominator. That mysterious Dominator was completely unknown and even managed to sever the Causality Supreme’s causality line with a talisman. Is there such a talisman in the universe? Even the Heaven Talisman Supreme, who excels in talismans, can’t create one like that.

Originally, we suspected that person came from Chaos. Now, combining this rumor, that mysterious Dominator should indeed be a Reincarnator! According to the rumor, that Reincarnator’s power in Chaos was far stronger than ours, with an exceptionally high realm. Therefore, they could exhibit formidable strength at the Dominator level, easily killing a Child of the Era!”

“What I’m considering now is, if the Reincarnators are real, what is their relationship with that esteemed person?” Golden Light Supreme frowned.

That esteemed person! Hearing this, all the Supremes frowned one by one.

“Are you suggesting that the esteemed person is part of the Hidden God Organization?” asked the Master of the Primordial Era.

“It’s not impossible!” The Cold Spirit Supreme sneered, “According to the rumor, it’s because we suppressed the universe’s origin that these powerful beings from Chaos could reincarnate into the universe. My concern is, if these Reincarnators recover to their peak strength and surpass us significantly, they might suppress us one by one, rendering us worthless! As the Master of the Primordial Era just said, if that esteemed person is not with the Hidden God Organization, we still have value. If they are, these Reincarnators could replace us. Would we still have any use then?”

“This...” All the Supremes felt a wave of panic in their hearts.

Yes! If they were deemed useless and the Reincarnators surpassed them, wouldn’t they be killed one by one? At that point, let alone transcendence, survival itself would be in question!

“Master of the Primordial Era, what should we do now? Give us a suggestion!” The Golden Light Supreme asked.

The Master of the Primordial Era remained silent. Originally, he believed that according to the esteemed person’s plan, as long as they waited for the dual universes to collide, they could strive for transcendence. But now, things were changing too quickly.

“We can’t contact the esteemed person directly. Let’s seek out these Reincarnators instead. They must harbor significant secrets, and obtaining some rare resources or information could benefit us. After all... the esteemed person never mentioned that these Reincarnators are under his command, so even if we destroy the Reincarnators, it won’t matter.

If we contact the esteemed person, it might become inconvenient to act against them!” The Master of the Primordial Era proposed.

Golden Light Supreme added, “We also need to find the person who spread the news. It could be someone from another Chaos faction, or maybe someone who killed a Reincarnator and obtained this information!”

“Alright, let’s do that!”

The Master of the Primordial Era nodded.

On the other side, after Ye Tian’s second avatar spread the news, he directly annihilated it. The Desolate Lord Mandate allowed his third avatar to refine and enter the Desolate Realm, becoming the new Desolate Realm Lord.

This was done for insurance.

If the Twelve Cosmic Eras or other Reincarnators paid a certain price to track down the second avatar, everything would be exposed.

So, for safety’s sake, this measure was absolutely necessary.

Moreover, Ye Tian used talismans from the secret realm to sever the causality and fate lines between himself and the second avatar, ensuring there was no chance of exposure.

For Ye Tian, even the slightest possibility of exposure was unacceptable.

Chapter 772: Two Major Systems, Power Surge!

The Primordial Hall.

The Master of the Primordial Era held another meeting with the other Supremes.

“Everyone, I investigated but couldn’t find the person who spread the news!”

The Master of the Primordial Era shook his head as he spoke.

The Causality Supreme also added, “I had no causal connection with that mysterious person. Although I found a faction that traded with the mysterious person and intentionally destroyed it to create a causal link, even paying a significant price to forcibly drive the law of causality, I still couldn’t find them. It was as if that person didn’t exist at all.

Now, my power has significantly decreased, almost dropping out of the second-tier Supreme level, and I can’t use the secret arts of causality for the time being!”

“It seems that the mysterious person was well-prepared and wasn’t afraid of us investigating. Let’s drop the matter.

How is the investigation on the reincarnators going?” the Master of the Primordial Era asked.

The Golden Light Supreme spoke up, “Everyone, I investigated but didn’t have any significant results.

The universe is too vast, and our numbers are too few. It’s almost impossible to find the reincarnators.

However, I discovered some information from the Holy Light Race. They seem to have found a powerful Dominator, far exceeding other Dominators. Even a Heavenly Venerable who tracked this Dominator went missing.

Although this doesn't conclusively prove anything, a powerful and unfamiliar Dominator might indeed be a reincarnator!"

"The Golden Light Supreme is right. Our individual strength is great, but in terms of gathering information, we are indeed inferior to the myriad races. Why not collaborate with them? They can search for the reincarnators, and once they find them, notify us so we can capture them.

After all, those reincarnators have many methods, and even a third-tier Supreme might not be able to capture one!" said the Master of the Primordial Era.

"Alright, then I'll contact the other cosmic races. Even if some don't cooperate, I'm sure some will, as long as we offer a bit of incentive. We won't lack partners!" Golden Light Supreme laughed heartily.

In the universe, the Three-Spirit Race.

This was a minor race in the universe. At this moment, on one of their planets, a cold and ruthless young man in black sat cross-legged on a mountain peak, seemingly cultivating or sensing something.

Suddenly.

He opened his eyes, revealing a solemn expression.

"Message received. Our existence has been exposed."

He found it unbelievable! He was No. 6, real name Chen Jun, a member of the Hidden God organization. In the Hidden God, his Earthly Venerable rank placed him in the top ranks in his previous life. Although he couldn't match the Destiny Realm, at his peak, his combat power could easily obliterate a first-tier Supreme of this universe.

But now, he was merely at the Dominator level.

Originally, they planned to reveal themselves in this universe only after reaching the Heavenly Venerable realm.

Yet now, almost all of them were at the Dominator level, their powers still undeveloped, and they had been completely exposed, even the name of the Hidden God organization.

“There’s a traitor.”

Chen Jun’s first thought was this, but he quickly shook his head.

A traitor was impossible. They were all members of the Hidden God organization with vast backgrounds and no prior connections with the natives of this universe. It was impossible for them to defect.

Moreover, they had all sworn oaths not to reveal their plans.

This time, although the rumors didn’t disclose their plans, they did expose their existence. None among them would be foolish enough to expose themselves.

That left only one possibility!

“Could someone have been captured by the natives?” Chen Jun thought.

This possibility existed but was very low!

“We were only vulnerable in the early stages. Once we found a secret realm, we could absorb its resources to enhance our strength. Now, almost all of us reincarnators are at the Dominator level.

Usually, when hidden in secret realms, the Supremes couldn’t find them.

Even if they left the secret realm to find another one, as long as they were careful, they faced almost no danger.

“Unless a reincarnator foolishly sought trouble with a Supreme, only then would there be problems!”

Chen Jun thought there might indeed be a few fools who would do this because some reincarnators completely disregarded the natives of this universe, possibly leading to bad luck and ambushes, and subsequently being captured.

“It’s hard for us reincarnators to communicate with each other, making it difficult to understand the situation. However, we must be extra cautious from now on, or we might truly fall in this universe!” Chen Jun pondered.

Whoosh! He left the planet because he had just sensed the presence of a secret realm and now intended to go there.

One hundred years later.

The matter of the reincarnators had long spread to every corner of the universe. All races in the universe took the reincarnators very seriously and actively searched for them.

With the efforts of the various races, several reincarnators were indeed found.

After all, once a reincarnator entered the territory of a cosmic race, they could be treated as a foreign race. If a fight broke out and their power was exposed, it would attract the attention of Supremes, naturally revealing their identities.

Although several reincarnators were exposed, even drawing the pursuit of second-tier and higher Supremes from the Twelve Cosmic Eras, they ultimately managed to escape using various methods.

To date, no one had been captured.

The reincarnators suffered no losses, but many criminals and smugglers in the universe were unlucky. Countless people died in this turmoil, and some alien spies were identified and killed by various races.

On Earth, within a secret realm.

Ye Tian had been in seclusion in this secret realm for a hundred years. With the acceleration of time within the realm, the duration of his seclusion felt much longer.

“The eighth layer of the Chaos Golden Desolation Technique has reached the major realm!”

Ye Tian was very satisfied with his current progress. However, to elevate the eighth layer of the Chaos Golden Desolation Technique from the minor to the major realm, he had almost exhausted all the useful resources in this secret realm. The remaining resources were of little use to him, only serving to nurture his avatars or members of the Tian Pavilion in the future.

Besides the Chaos Golden Desolation Technique reaching the major realm, Ye Tian also organized his various true techniques and ultimate skills.

Previously, the true techniques and ultimate skills he created were somewhat disordered. After studying the true martial arts techniques and various cultivation theories within the chaos, he gradually addressed the flaws in his own cultivation path and improved it.

Now, Ye Tian’s combat skills were mainly divided into three aspects: divine abilities, True Chaos Techniques, and saber techniques. Other techniques, such as the Tiangang Battle Laws, were considered secret arts and not part of the three main categories.

In terms of divine abilities, Ye Tian no longer needed to cultivate for the time being, focusing instead on True Chaos Techniques and saber techniques.

Ye Tian also created some True Chaos Techniques, such as the Black Lotus Realm and Chaos Divine Demon Form, but these weren’t systematic and were always in the process of being perfected, slightly off track.

As for saber techniques, he had the Heavenly Moon Saber, the Chaos Heaven Saber, and his strongest secret technique—the Primeval Slash! The Primeval Slash was a fusion of the Chaos Dao and the Saber Dao, making it his pinnacle secret technique, though it strictly wasn’t considered a saber technique.

During these hundred years, Ye Tian integrated many True Chaos Techniques and saber techniques, creating two systems.

The True Chaos Techniques were the Three Primordial Forms, while the saber techniques became the Three Heavenly Sabers! The reason there were only three forms was that Ye Tian’s current understanding was still limited, and he couldn’t create too many moves yet.

The Three Primordial Forms were the Primordial Divine Demon Hand, the Primordial Divine Demon Form, and the Primordial Domain. The Three Heavenly Sabers were the Heavenly Moon Saber, the Chaos Heaven Saber, and the Heavenly Kill Saber. The Heavenly Kill Saber was a new true saber technique created by combining a fraction of the profundities of the Primeval Slash with various secret saber techniques. Although it wasn't as powerful as the Primeval Slash, it was still very strong and could be used multiple times, making it one of Ye Tian's formidable methods.

With this, Ye Tian could discard other useless true techniques and focus on fully enhancing the Three Primordial Forms and the Three Heavenly Sabers, adding the Fourth Primordial Form and the Fourth Heavenly Saber in the future.

Most importantly, the Primeval Slash would also continue to be improved based on these two systems, eventually evolving into the Second Primordial Form.

In short, the Primeval Slash system would be Ye Tian's most powerful secret skill in the future.

"Having clarified the true technique system, there will almost be no bottlenecks in the future, making it easier to enhance my power.

In the chaos, many powerful talents typically choose their own exclusive systems, and now I have done the same. However, my system is quite powerful, so its improvement is naturally more difficult, but with my talent, these won't be problems!" Ye Tian thought to himself.

Chapter 773: One of the Three Thousand Great Divine Abilities!

The Chaos Golden Desolation Technique had broken through to the eighth layer, reaching the major realm. With the establishment of the Primordial Forms system and the Heavenly Sabers system, Ye Tian's strength had increased significantly.

Although he still remained at the pinnacle level of the Dominator realm, his combat power had already stepped into the fourth-tier Supreme realm. However, he had merely just crossed the threshold, and there was still a considerable gap compared to seasoned fourth-tier Supremes like Kunwu Supreme.

Nevertheless, Ye Tian was now capable of preserving his life in the hands of Kunwu Supreme. However, when compared to a third-tier Supreme, the disparity was too vast, making it difficult for him to escape.

“My ability to escape is still lacking,” Ye Tian thought regretfully. “Unfortunately, the space divine abilities among the Human Race are rather mediocre. There are only a few space divine abilities suitable for escaping, which might be invincible at the Dominator realm but are absolutely insufficient to escape from a third-tier Supreme.”

From Harmon’s memories, he had learned that within the Chaos, there existed great divine abilities. Some of these powerful divine abilities were incredibly heaven-defying, but they were also extremely difficult to learn. Harmon might have had similar divine abilities, but Ye Tian had not been able to absorb them.

Moreover, the more heaven-defying the divine ability, the higher the requirements for cultivation and comprehension.

“I wonder if I can break through the barrier of the final secret chamber now,” Ye Tian suddenly thought.

His current strength was much greater than before. If he used the Primeval Slash, although it couldn’t reach the attack power of a third-tier Supreme, it could achieve the strength of a powerful third-tier Supreme, significantly more potent than before. Perhaps it could cause some damage to the barrier.

Thus, Ye Tian walked to the barrier of the final secret chamber, gathered his strength, and unleashed his strongest secret technique—Primeval Slash!

Boom!!!

The Primeval Slash struck the barrier, causing a tremendous vibration.

Crack! This sound made Ye Tian excited.

“It’s effective!” Ye Tian was thrilled.

He had initially thought that he couldn't break through the barrier, but it turned out that his attack had indeed caused some damage.

However, a single Primeval Slash was not enough to break the barrier. It would take multiple attacks to do so. Yet, the Primeval Slash consumed a lot of Ye Tian's energy, and continuous use was not feasible. He needed to recover first.

"Time acceleration!"

Ye Tian used time acceleration to recover his strength quickly.

With full use of time acceleration and some healing treasures, he fully recovered in just ten seconds of external time.

After ten seconds.

Ye Tian once again performed the Primeval Slash! Thus, every ten seconds, Ye Tian would unleash another Primeval Slash on the barrier.

Boom, boom, boom!!!! Under Ye Tian's relentless and powerful Primeval Slash attacks, the barrier made cracking sounds, and its light gradually dimmed.

Ten times! A hundred times! Two hundred times! Ye Tian lost count of how many slashes he had performed or how many resources he had consumed. But he knew that the barrier was being worn down, and the cracks were increasing.

As long as he persisted, the barrier would eventually shatter.

After half a day had passed.

Suddenly.

Crash!!! A series of cracking sounds echoed together, signaling the complete shattering of the barrier.

“Finally, it’s broken!”

Ye Tian breathed a sigh of relief. If this had continued, his losses would have been enormous.

Fortunately, his efforts were not in vain. He had broken the barrier and could now enter the final secret chamber.

At this moment, he was very curious about what treasures this final secret chamber might bring him.

Crack! Ye Tian pushed open the door of the secret chamber and stepped inside.

“Just three items.”

Ye Tian felt a bit disappointed.

Logically, the last secret chamber should have been the most important, filled with numerous treasures. Yet, there were only three items.

“I hope these three things are what I need. Otherwise, it would be a waste of time and resources,” Ye Tian thought anxiously.

One thing he was sure of: these three treasures were undoubtedly precious, but precious items were not necessarily useful to him.

After all, every cultivator practiced different paths, lacking different things. For instance, Ye Tian possessed certain items, so he no longer needed similar ones.

Some treasures were sufficient with just one piece, and having more would be wasteful.

If these three items turned out to be of little use to him, or even completely useless, it would be equivalent to obtaining three pieces of junk.

Ye Tian walked over and examined the three treasures carefully.

One of them was a leather scroll, exuding the aura of a chaotic being, making Ye Tian tremble faintly. This should be the skin of a chaotic creature comparable to a Destiny Realm expert, likely containing some techniques or secret arts.

Ye Tian opened it and immediately his pupils contracted, filled with excitement.

“A divine escape technique!”

The scroll described a speed-type divine escape technique called the Eternal Light Divine Ability! According to the introduction, this divine ability was incredibly powerful, ranking 172nd among the Three Thousand Great Divine Abilities in Chaos! Although 172nd might seem low, considering the vastness of Chaos, even a universe was just a small dot within it. The great divine abilities within the universe, such as the Spear of Hellish Void, couldn't even make it into the Three Thousand Great Divine Abilities.

The fact that the Eternal Light Divine Ability ranked 172nd showed how formidable it was.

However, the Eternal Light Divine Ability was difficult to cultivate, with extremely stringent requirements.

Ye Tian thought that if Harmon had obtained this Eternal Light Divine Ability, he would have been dumbfounded. While he might have had hope to practice it in the future, Harmon definitely couldn't cultivate it now.

The Eternal Light Divine Ability required a fusion of God-level speed talent and God-level light attribute talent to practice.

Moreover, cultivating the Eternal Light Divine Ability needed an innate origin item—the Innate Light Source. Only by meeting these two conditions could one cultivate it!

“Harmon did not possess the fusion talent of God-level speed and God-level light attribute talents, so he definitely couldn't practice it. The scroll mentioned some treasures that could fuse these talents, but those treasures were incredibly rare. I've never even heard of them, and they are rare even in Chaos,” Ye Tian speculated.

The possibility was high that the Hidden God Organization placed this divine ability here intentionally, perhaps hoping Harmon and other reincarnators would collect the Innate Light Source.

This was highly likely because there indeed existed the Innate Light Source in the universe.

The Innate Light Source was a low-level innate origin item in the universe, much lower in level than the Origin Well. However, despite being low-level, it was still an innate origin item and extremely rare, but not impossible to obtain.

“For Harmon and others or the Hidden God Organization, fusing talents is incredibly difficult because speed talent and light attribute talent belong to two different systems. Forcing them to fuse is extremely difficult and requires rare special treasures.

But my copy talent can forcibly fuse two talents. I had previously fused time and space talents, so naturally, I can also fuse light and speed talents.

Earlier, I wanted to fuse twelve attribute talents to form the Chaos Talent, which would have taken billions of years. I can’t wait for billions of years.

However, fusing speed talent and light attribute talent won’t take that long. I can easily fuse them.

Therefore, the first cultivation condition poses no difficulty for me. The challenging part is the second condition—the Innate Light Source!” Ye Tian murmured.

Regardless, this was a divine ability ranked 172nd among the Three Thousand Great Divine Abilities in Chaos. If he mastered it, he would even have the confidence to escape from a third-tier Supreme. If cultivated to a profound realm, he might even escape easily from second-tier or first-tier Supremes.

“Let’s start by fusing the light attribute talent and speed talent!”

[Fusing Extreme Light Talent and Extreme Speed Talent] [Fusion in progress...]

Ye Tian noticed it would take 100 years! One year wasn’t much for him. During this time, he could collect the Innate Light Source. Once he had gathered the Innate Light Source and the fusion of

Extreme Light and Extreme Speed talents was complete, he could immediately cultivate the Eternal Light Divine Ability.

Chapter 774: Tremendous Gains!

Ye Tian no longer focused on the fusion of talents or the Eternal Light Divine Ability. Instead, he turned his attention to the second treasure.

The second treasure was a talisman. When Ye Tian picked it up and examined it, he understood its use.

“Immortality Talisman!” Ye Tian was astonished.

This talisman was extremely powerful, as it granted immunity to death for a certain period, determined by one’s cultivation level. For example, at the Dominator level, it could keep one alive for a whole day. Even if the Master of the Primordial Era attacked Ye Tian, once he activated this talisman, he wouldn’t be able to be killed for an entire day.

“What an incredible talisman. If Harmon had this talisman that day, I wouldn’t have been able to kill him. He would have had enough time to hide in a secret realm.” Ye Tian felt fortunate.

He stored the Immortality Talisman and looked at the third treasure.

The third treasure was a sword stele. With just a glance, Ye Tian felt an endless amount of sword dao principles.

This sword stele was undoubtedly a supreme treasure for a sword cultivator. However, it was not of much use to Ye Tian. He couldn’t start cultivating sword dao now, as it would overlap with his saber dao and be redundant.

“This can be given to Yue’er. This sword stele is enough to rapidly enhance Yue’er’s sword dao!”

Ye Tian, filled with excitement, stored the sword stele.

After collecting all three treasures, Ye Tian decided not to stay any longer.

Shortly after.

Ye Tian emerged from the secret realm. In truth, he could have stayed and let his fourth avatar collect the innate light source. However, to collect such a primordial source item, he needed a certain identity, which would require revealing his true identity.

He didn't want anyone to know he possessed his original talent, as few in the universe had the ability to create avatars, and most strong beings' avatars were quite weak and flawed.

If it became known that he had an original talent like Primordial Supreme, others might suspect he had a talent for replication, which would be troublesome.

Therefore, he decided to collect the innate light source himself.

However, before collecting the innate light source, he needed to visit another secret realm to retrieve the items in its final chamber. Otherwise, he wouldn't feel at ease.

Subsequently, Ye Tian left the territory of humanity. After over a day of travel, he arrived at another secret realm and entered it using a similar method.

He then proceeded to the core of the hall and spent nearly half a day breaking the barrier.

The final chamber in this secret realm contained different treasures than the last one on Earth. Although there were still three treasures, they were not the same.

The three treasures here were as follows: the Virtual God Incense, which, once ignited, could burn for a year, enhancing the user's comprehension by a thousandfold for that period. This was invaluable for understanding secret techniques and skills, making it a rare disposable treasure.

The second treasure was the Void Escape Talisman. Once activated, it allowed for instant escape across multiple star fields, making it one of the strongest talismans for fleeing.

The third treasure was a black stone called the Heaven Concealing Stone. It could obscure cause and effect as well as destiny. Unless faced with a Destiny Realm expert proficient in divination or the paths of cause and effect and destiny, no one could deduce Ye Tian's background or any information about him.

For Ye Tian, the Heaven Concealing Stone was the greatest gain.

After acquiring these three treasures, Ye Tian returned to the Holy City of humanity.

Soon after, Ye Tian arrived at the Holy City's Tian Pavilion.

Following that, Ye Tian contacted Kunwu Supreme.

Kunwu Supreme held a high status among humanity and was very active, often interacting with other supreme beings from different races. Therefore, Kunwu Supreme had extensive knowledge and was aware of many secrets.

Ye Tian wanted to ask Kunwu Supreme where or in whose possession he could find the innate light source.

Supreme Pavilion of the Holy City.

Ye Tian met with Kunwu Supreme here.

Currently, Ye Tian possessed the strength of a Supreme level. Naturally, Kunwu Supreme treated Ye Tian with greater respect, almost considering him an equal. As such, he welcomed Ye Tian warmly.

“Ye Tian, what do you need from me this time?” Kunwu Supreme asked.

“Kunwu Supreme, I want the innate light source. Does our human race possess such a primordial source item?” Ye Tian inquired.

“What, you want a primordial source item!!!” Kunwu Supreme was shocked.

At the Heavenly Venerable level, many were unaware of primordial source items and often mistook objects containing some source as primordial source items. However, only those with extensive knowledge, like the supreme beings, truly understood what primordial source items were.

“Ye Tian, do you know what a primordial source item is?” Kunwu Supreme asked seriously.

“I do!”

Ye Tian explained the primordial source item briefly, showing that he even knew more about it than Kunwu Supreme did.

Upon realizing that Ye Tian truly understood the nature of primordial source items, Kunwu Supreme continued, “Ye Tian, primordial source items are extremely rare. The entire universe only has a handful, no more than you can count on both hands. Some even exist only in legends, and it’s uncertain if they truly exist.

The innate light source, among primordial source items, isn’t the most precious, but it still holds significant value, comparable to five or six of the Strongest Supreme Treasures.

But even if someone possesses the innate light source, you wouldn’t be able to exchange it for five or six supreme treasures.”

“Is it really that valuable?” Ye Tian frowned. “So, the human race doesn’t have it?”

“No!” Kunwu Supreme assured, “I can guarantee we don’t have it. The human race doesn’t have a Supreme of the Light Dao. If we had the innate light source, it would’ve been traded long ago, not kept hidden.

The most likely places in the universe to possess primordial source items are the Holy Light Race and the Angel Race. These two races have many Light Dao cultivators. Most Supremes of the Holy Light Race practice the Light Dao, making them highly compatible with the light source. The innate light source is most useful to them.

Therefore, these two races might have the innate light source.

But even if they do, it’s nearly impossible for you to trade for it. You’d have to annihilate these two races to obtain it.”

“Besides these two races, where else might have it?” Ye Tian asked.

“I’m not sure!” Kunwu Supreme shook his head. He was only a fourth-tier Supreme, with limited knowledge of such secrets.

Suddenly, Kunwu Supreme said, “There might be one force that possesses the innate light source!”

“Which force?” Ye Tian’s expression shifted.

“The Supremes of the Twelve Cosmic Eras!” Kunwu Supreme smiled. “The Supremes from the Twelve Cosmic Eras must have amassed a vast amount of treasures through trades or plunder before the Great Cosmic Catastrophe. It’s possible that they nurtured the innate light source during those eras.

However, you’re only at the Dominator level, so you can’t converse or trade with them. Even if I had enough treasures for the trade, I wouldn’t dare approach them!”

Ye Tian nodded quietly. The Supremes of the Twelve Cosmic Eras were indeed formidable. The weakest among them had the strength of a second-tier Supreme, while Kunwu Supreme was merely a fourth-tier Supreme, not even top-tier among his peers. He wouldn’t dare trade with such powerful beings, fearing they’d simply rob him of his resources.

“Thank you, Kunwu Supreme. I’ll figure something out myself,” Ye Tian said.

“Ye Tian, what do you need the innate light source for? Your main cultivation is the Chaos Dao, which includes the Light Dao, but there’s no need to obtain the innate light source for it,” Kunwu Supreme asked, puzzled.

“Kunwu Supreme, it’s a secret. I can’t really say,” Ye Tian replied helplessly.

“Fair enough, I won’t pry,” Kunwu Supreme understood. Everyone had their secrets, even himself, and not everything could be shared, no matter how close they were.

Thus, he didn’t ask further.

After parting ways with Kunwu Supreme, Ye Tian returned to the Tian Pavilion and began to ponder.

As Kunwu Supreme mentioned, the Holy Light Race and the Angel Race's desire for the innate light source probably surpassed everything else. They wouldn't trade it even for seven or eight supreme treasures, let alone fewer.

Moreover, if they had the innate light source, they likely would've used it to boost their power, not kept it unused.

Trading for the innate light source from the Holy Light Race and Angel Race seemed less feasible than obtaining it from the Supremes of the Twelve Cosmic Eras.

"If I trade with the Supremes of the Twelve Cosmic Eras, my true self mustn't go. It would be too dangerous. But I can send my fourth avatar. With the Heaven Concealing Stone, even if the fourth avatar appears before those Supremes, they won't be able to deduce anything.

At worst, I can abandon the fourth avatar," Ye Tian gritted his teeth.

This was undoubtedly a gamble. Cultivating the fourth avatar had been resource-intensive, and he valued it highly. Losing it would be a severe blow.

Had he not just acquired a secret realm, substantially increasing his wealth, he wouldn't take such a risk.

But even sending the fourth avatar, it couldn't go as a Dominator. It wouldn't qualify for equal dialogue.

"Then I'll have the fourth avatar advance to the Heavenly Venerable level soon!" Ye Tian decided firmly.

Chapter 775: The Fourth Avatar's Breakthrough, Third-Tier Supreme Combat Power!

Ye Tian's fourth avatar had reached the peak of the Dominator level. Though its combat power wasn't formidable, it still possessed the strength of a second-tier Heavenly Venerable. This was due

to Ye Tian's divine abilities, mastery of the Chaos Dao, Primordial system, and the Heavenly Saber system, all of which could be manifested in the fourth avatar.

The only drawback of the fourth avatar was its physical body. Despite being nurtured by a Strongest Supreme Treasure, its body was far inferior to Ye Tian's main body, with a life level only comparable to a fifth-stage life form. Consequently, the fourth avatar's combat power could only reach that of a second-tier Heavenly Venerable, but this was already quite remarkable.

If the fourth avatar broke through to the Heavenly Venerable realm, it would instantly possess Supreme-level combat power. According to Ye Tian's estimation, once the fourth avatar broke through to the Heavenly Venerable realm, it should have the combat power of a third-tier Supreme. Although this wasn't exceptionally powerful and couldn't compare to those above the second tier in the Twelve Cosmic Eras, it would at least grant him a qualification for negotiations, ensuring he wouldn't be ignored.

Ye Tian planned to use the identity of a mysterious force for these negotiations. By establishing himself as a force comparable to the Hidden God Organization within the chaos, the Supremes of the Twelve Cosmic Eras wouldn't dare to attack him. Furthermore, Ye Tian could intentionally divulge some information, allowing him to trade with the Supremes of the Twelve Cosmic Eras.

"Innate Light Source," he thought. Once he obtained the Innate Light Source and mastered the Eternal Light Divine Ability, he would fear nothing. Even if he couldn't defeat his opponents, he could escape. Only some exceptionally powerful Supremes who could counter the Eternal Light Divine Ability could possibly stop him. By then, his survival ability would increase manyfold.

In the Desolate Realm, Ye Tian's third and fourth avatars resided. The fourth avatar's breakthrough to the Heavenly Venerable realm required a significant upheaval, making the Desolate Realm an ideal location. If the breakthrough occurred in the outside world, it would easily be detected. Even on the outskirts of the universe, the breakthrough's impact would be noticeable due to the descent of the vast cosmic origin, alerting nearby Supremes.

Previously, Ye Tian hadn't worried about such issues. Even if he was discovered, it didn't matter. However, the current chaotic state of the universe meant that anything could happen. For safety reasons, he needed to be cautious.

Thus, he chose to break through in the Desolate Realm, a special and rare chaotic spiritual treasure that Supremes couldn't spy on. Even if a Supreme outside the Desolate Realm knew about the breakthrough, they would only think that another innate deity in the Desolate Realm had broken

through to the Heavenly Venerable realm and wouldn't pay it much attention. Ye Tian's breakthrough would be extremely safe, and no one would suspect him.

In the Desolate Tower, the fourth avatar began a closed cultivation, preparing to break through to the Heavenly Venerable realm. Transitioning from Dominator to Heavenly Venerable was challenging, but not impossible with the right conditions. Ye Tian possessed top-tier talent, surpassing even mixed-tier cultivation talents, naturally meeting the requirements for entering the Heavenly Venerable realm. The only bottleneck was the state of mind, which Ye Tian had already overcome.

Currently, he not only had a seventh-level state of mind but also, due to his continually improving cultivation and increasing strength, his soul had grown stronger, naturally elevating his state of mind to the peak of the seventh level. Unfortunately, the universe lacked methods for cultivating an eighth-level state of mind. Otherwise, he would have undoubtedly reached that level.

With sufficient talent and state of mind, entering the Heavenly Venerable realm was not difficult for Ye Tian. Moreover, his second avatar had previously entered the Heavenly Venerable realm. Although the second avatar had since self-destructed, Ye Tian was not unfamiliar with the Heavenly Venerable realm.

After adjusting his state, Ye Tian began the breakthrough. Not long after, he succeeded.

Boom! The cosmic origin descended, enhancing the fourth avatar's physical body and expanding and strengthening its microcosm. Additionally, the fourth avatar's soul underwent a transformation due to the cosmic origin's reward. Although the universe suppressed physical and soul cultivation paths, upon reaching the Heavenly Venerable realm, both the body and soul would transform. Otherwise, a frail body couldn't bear the power of a Heavenly Venerable.

While the cosmic origin suppressed cultivation paths, it wouldn't completely sever them. Thus, Supremes had already broken through half of the suppression, enabling them to pay a certain price to slightly enhance their bodies and souls. This applied even to Supremes who didn't follow a heaven-defying path.

Previously, Ye Tian had thought one must follow a heaven-defying path to continually enhance the body and soul. However, after reaching this level, he understood many principles. The cosmic origin wasn't omnipotent, and even the universe's rules had loopholes. Finding these loopholes allowed one to break through constraints and enhance strength.

For instance, the First Divine Lord of the Immortal Race and the First Demon Lord of the Demon Race had stronger bodies compared to ordinary Heavenly Venerables and Supremes, though not as

powerful as those from the Twelve Cosmic Eras or Ye Tian. They had found loopholes and paid great prices to enhance their bodies.

Supremes, at least, had ways to enhance their bodies and souls. However, cultivators below the Heavenly Venerable realm had no such methods. Apart from having powerful divine force and slightly stronger souls, they were almost indistinguishable from God-level beings.

Time passed day by day. The Heavenly Venerable aura emanating from the Desolate Tower grew stronger, and the other innate deities in the Desolate Realm gazed at the tower with fear.

Somewhere in the Desolate Realm

The Desolate Lord and several Supreme-level innate deities sat together, their eyes fixed on the Desolate Tower, each with a furrowed brow.

“The Realm Master’s avatar is so powerful!” an innate deity remarked.

These deities were aware that Ye Tian possessed multiple avatars, but they had sworn not to reveal this information. Although Ye Tian had wanted to keep it secret, the frequent comings and goings of his avatars within the Desolate Realm, along with their need for resources, made it impossible to hide. Thus, he had informed these innate deities.

“Indeed, it has just broken through to the Heavenly Venerable realm, yet its aura is comparable to a third-tier Supreme! In our eyes, a third-tier Supreme is already a top-tier Supreme,” another deity commented. “Back then, even with the help of the Desolate Realm’s origin, our combat power was only that of a top-tier third-tier Supreme.”

“And now,” the Desolate Lord sighed, “the Realm Master’s avatar, relying solely on its combat power, is equivalent to a third-tier Supreme. If it utilizes the Desolate Realm’s origin, it might even exhibit the combat power of a top-tier second-tier Supreme. If a first-tier Supreme were to enter the Desolate Realm and be suppressed by it, the Realm Master might even be able to contend with them.”

Originally, they had already submitted to Ye Tian. Now, with Ye Tian’s fourth avatar breaking through to the Heavenly Venerable realm and possessing combat power on par with a third-tier Supreme, they had no thoughts of rebellion.

A year passed in the blink of an eye. During this time, Ye Tian thoroughly stabilized the fourth avatar's realm. Now, the fourth avatar could be called a Supreme. Supremes and Heavenly Venerables were of the same realm; the difference lay in their combat power. Once one possessed Supreme-level combat power, they were a Supreme, no longer a Heavenly Venerable.

However, Ye Tian's cultivation was relatively weak, having just broken through to the realm. There was still room for further cultivation and improvement.

"The Heavenly Venerable realm is divided into nine stages. Most ancient Supremes have the cultivation of the peak of the ninth stage. However, advancing within the Heavenly Venerable realm is exceedingly difficult. Moreover, a Supreme's combat power largely doesn't depend on cultivation; cultivation only determines the capacity of divine force. The key factors are combat techniques and secret arts. The gap between the first and ninth stages of the Heavenly Venerable realm isn't insurmountable. Otherwise, my main body wouldn't have been able to match a fourth-tier Supreme while still at the Dominator level," Ye Tian mused.

But there was an advantage to improving cultivation: it extended combat duration and slightly enhanced strength. For Ye Tian, increasing cultivation also meant a significant boost in combat power. While other Heavenly Venerables or Supremes could only improve their cultivation, with negligible enhancements to their physical bodies and souls, Ye Tian could continue to grow stronger.

However, this was limited to Ye Tian's main body. The fourth avatar, like other Supremes, had limited enhancement of its body and soul, only able to increase its cultivation.

"Even if it's just improving cultivation, it's still beneficial. My main body needs to accumulate, and now isn't the time to break through to the Heavenly Venerable realm. The fourth avatar is currently at the first stage of the Heavenly Venerable realm. Once it reaches the third stage, I can negotiate with the Master of the Primordial Era and other Supremes," Ye Tian thought.

Thus, he continued his cultivation, refining a large amount of resources to elevate the fourth avatar's realm. Ten years passed this way. With an abundance of resources, the fourth avatar finally reached the third stage of the Heavenly Venerable realm. Its combat power remained at the third-tier Supreme level, albeit now at the mid-tier rather than the initial stage.

"That's about right. Even if my cultivation immediately advanced to the peak of the ninth stage, it would only make me a top-tier third-tier Heavenly Venerable, far from the second-tier Heavenly Venerable level," Ye Tian understood the gap and constraints between the third and second tiers. If

it were so easy to attain second-tier Supreme combat power, the Human Race wouldn't be devoid of a single second-tier Supreme.

"It's time to find the Master of the Primordial Era," Ye Tian murmured.

The next moment, he left the Desolate Realm, heading towards the Ancient Hall.

Chapter 776: Making a Deal with the Master of the Primordial Era!

Ye Tian naturally wouldn't send his fourth true body directly to the Primordial Hall. If he got close and was killed by the Master of the Primordial Era with a single move, the loss would be immense! The current combat strength of his fourth true body was only at the third-tier Supreme level. Although it was a defensive avatar cultivated with the Strongest Supreme Treasure, it still couldn't withstand a blow from a first-tier Supreme.

Therefore, Ye Tian planned to approach the Primordial Hall with an avatar first.

In a star field near the Primordial Hall, Ye Tian stopped and then descended upon the Primordial Hall in the form of an avatar.

Outside the Primordial Hall.

Ye Tian sent a message, "I am Gusha, here to discuss information about the reincarnators with the Master of the Primordial Era!"

Ye Tian's message, delivered through divine sense, penetrated into the Primordial Hall. Although intercepted, some supremes in the Primordial Hall still heard it and quickly relayed it to the Master of the Primordial Era.

Inside the Primordial Hall.

The Master of the Primordial Era's gaze pierced through layers of void, looking at Ye Tian's avatar.

"A third-tier Supreme avatar!"

The Master of the Primordial Era frowned.

Such a weak Supreme would not typically warrant an audience. However, the claim of possessing information about the reincarnators changed the situation.

“Fine, let’s meet!” The Master of the Primordial Era thought.

Thus, he sent a message, “Come in!”

Hearing the message, Ye Tian entered the Primordial Hall with his avatar.

An avatar was no great loss. Moreover, inside the Primordial Hall, both the avatar and the fourth true body couldn’t resist the Master of the Primordial Era, so there was little difference whether it was the true body or not.

Soon, Ye Tian entered the Primordial Hall and saw many supremes, foremost among them the Master of the Primordial Era.

“Greetings, Master of the Primordial Era!” Ye Tian saluted.

“Who are you?” the Master of the Primordial Era asked.

“I come from the Chaos. The information about the last reincarnator was disseminated by me!” Ye Tian stated directly.

“What! You spread the information?” The Master of the Primordial Era was shocked.

However, he soon frowned. “No, the aura isn’t yours. Are you trying to deceive me?”

At this moment.

Ye Tian took out a weapon, which belonged to his second true body and still carried its aura.

“The one who spread the message is just one of our members. This is one of his weapons, still bearing his aura. With your power, you should be able to confirm this,” Ye Tian explained.

The Master of the Primordial Era examined the aura on the weapon and indeed sensed that it matched the one who had spread the information.

At this moment, the Master of the Primordial Era was almost certain.

This person was indeed associated with the one who disseminated the information.

“Alright, you said you come from the Chaos. Are you from that Hidden God Organization?” the Master of the Primordial Era asked coldly.

“Of course not!” Ye Tian laughed. “If we were from the Hidden God Organization, why would we spread the information?”

In reality, we are just observing a force in this universe. Due to the great distance, it’s difficult for us to intervene, so we only sent a few people here.

As the rumors say, the dual universe transcendence is the arm of the Hidden God Organization. Many members of the Hidden God Organization have entered this universe and are quickly recovering their strength.

Once they reach the Supreme level, you first-tier Supremes are no match for them.

Some members of the Hidden God Organization, at their peak as reincarnators, had combat strength second only to the Destiny Realm! The gap between a first-tier Supreme and the Destiny Realm is immense. They may dominate within the universe, but in the Chaos, they are quite ordinary!”

The Master of the Primordial Era was angered by Ye Tian’s belittling of first-tier Supremes but couldn’t show it, unsure of Ye Tian’s true identity.

Moreover, Ye Tian possessed crucial information he needed to understand.

“Gusha, what are you here for?” the Master of the Primordial Era asked.

“A transaction!” Ye Tian said seriously. “I’m here solely for a deal. The universe is vast with countless resources, but some things here are also needed by the strong in the Chaos. My organization can’t scheme against this universe, so we just want to collect some good things from here. We have no intention to interfere further.”

“Oh, what do you want?” the Master of the Primordial Era asked.

“Innate Origin Artifacts!” Ye Tian answered honestly.

“Innate Origin Artifacts!!!”

The Master of the Primordial Era’s eyes grew serious. Those were indeed valuable items, even to him.

“Innate Origin Artifacts, I do have some. But what do you have to trade? As far as I know, you reincarnators don’t carry any treasures with you when you reincarnate,” he queried.

“Hahaha, Master of the Primordial Era, sending some things from the chaos into the universe was not difficult. The hard part was figuring out how to take things out of the universe.

You all have fought with the Reincarnators, right? Their treasures seemed endless. Don’t you know how they brought them in? There were also quite a few relics from the chaos within the universe, so I don’t need to explain these, do I?” Ye Tian said.

The Master of the Primordial Era did not refute, continuing, “Ordinary things don’t interest me. What can you offer?”

“I have more information about the Reincarnators, as well as secret techniques and many Chaos Spiritual Treasures from the chaos. Although Innate Origin Artifacts are precious, they are not priceless to a first-tier Supreme. First-tier Supremes are almost at the peak of their realm, making it extremely difficult to improve. If you’re unable to progress further, Innate Origin Artifacts wouldn’t be very useful to the Master of the Primordial Era. Am I right?” Ye Tian said.

“Aren’t you afraid that I might kill you and seize the resources and inheritance you possess?” The Master of the Primordial Era tapped the armrest of the throne with his right hand, staring at Ye Tian with killing intent.

“Not afraid!” Ye Tian smiled slightly. “Because you can’t find my true self. The one standing before you is just a clone!”

“A clone?” The Master of the Primordial Era was stunned.

Then, he used a secret technique to perceive Ye Tian’s fourth true self in a distant star field through the clone.

“It really is a clone!” The Master of the Primordial Era was solemn.

A clone appeared identical to the main body but had an obvious characteristic: an imperfect origin! Such an imperfect origin had no chance of transcending. Only the main body could transcend, and through the clone, one couldn’t observe the soul imprint in the river of time.

Ordinary people couldn’t tell the difference between a clone and the main body, but how could the Master of the Primordial Era, a first-tier Supreme, fail to see it?

“Deduce!” The Master of the Primordial Era tried to deduce the location of Ye Tian’s main body, but Ye Tian’s true self was concealed by the Heaven Concealing Stone. Unless a Destiny Realm expert acted, it couldn’t be detected.

“Can’t be traced!” The Master of the Primordial Era was solemn.

Although he had expected this, he still harbored a sliver of hope.

“Back then, even the Causality Supreme couldn’t trace any causality. Naturally, I can’t trace destiny either. No wonder he dared to send a clone to negotiate with me!” The Master of the Primordial Era thought.

“The value of an Innate Origin Artifact should be clear to you. Information has value, but it doesn’t help much in terms of strength enhancement! As for Chaos Spiritual Treasures, I have plenty. The cultivation methods from the chaos that you possess wouldn’t attract me if they were ordinary!” The Master of the Primordial Era said. He didn’t want to suffer a loss, so he wouldn’t easily offer an Innate Origin Artifact.

Ye Tian gazed at the Master of the Primordial Era, squinting his eyes, inwardly sneering, “As expected of the Master of the Primordial Era, it wasn’t easy to deceive him out of his Innate Origin Artifacts.”

After pondering for a moment, Ye Tian continued, “How about this? Let’s first trade for one Innate Origin Artifact. If both sides were satisfied, I would offer more valuable items. To show my sincerity, I would first give you a piece of information for free. How about that?”

“Agreed!” The Master of the Primordial Era agreed.

Although an Innate Origin Artifact was precious, he could afford to lose one.

“I’ll first trade the least valuable Innate Light Source. Does the Master of the Primordial Era have one?” Ye Tian asked.

“The Innate Light Source is indeed a low-value, low-grade Innate Origin Artifact. I don’t have one, but other Supremes do. I can trade for it. Now, share your free information!” The Master of the Primordial Era said.

“Alright!” Ye Tian nodded, then said, “You Supremes are curious why it is hard to find the Reincarnators, and why they often disappear halfway through a chase, right?”

“Indeed!” The Master of the Primordial Era nodded. “I once tracked down a Reincarnator myself, but he quickly disappeared. Otherwise, with my speed, he couldn’t have escaped!”

“I know the reason!” Ye Tian smiled. “Every Reincarnator has at least one secret realm. These secret realms were constructed by the higher-ups of the Hidden God Organization. Even a first-tier Supreme can’t sense them. Only the Reincarnators can control the entry and exit. These secret realms contain numerous treasures, such as the talismans they frequently use, and even astounding inheritances. If you find the location of a secret realm and lay in wait, you might capture a Reincarnator! How valuable is this information?”

“Hahaha, Daoist Gusha, you’re indeed sincere!” The Master of the Primordial Era laughed heartily.

This information was invaluable. With it, there was hope of locating secret realms and capturing Reincarnators by lying in wait, rather than blindly pursuing them.

Although it was just a hope, it was far better than the previous aimless chases.

Next, Ye Tian and the Master of the Primordial Era discussed the trade of the Innate Light Source.

In the end, Ye Tian had to offer thirty-two inheritances from the chaos, six Chaos Spiritual Treasures, and numerous rare resources to qualify for the trade.

However, the actual trade would take some time, as the Innate Light Source was not in the Master of the Primordial Era's possession.

Chapter 777: Cultivating the Eternal Light Divine Ability

Three days passed.

The Master of the Primordial Era reappeared before Ye Tian. At this moment, the Master of the Primordial Era held a ball of light in his hand, which was the Innate Origin Artifact—Innate Light Source.

Although it was just a relatively low-level Innate Origin Artifact, it still possessed immense source energy.

"The Innate Origin Artifact is in hand. Where are your items?" the Master of the Primordial Era asked.

"We need to sign a contract to prevent either side from reneging," Ye Tian stated.

"Agreed," the Master of the Primordial Era nodded.

If it had been an extremely precious Innate Origin Artifact, he might have reconsidered. But for the Innate Light Source, he had no intention of backing out. Besides, Ye Tian's identity was not ordinary, and he didn't want to offend him. Moreover, this was just Ye Tian's clone; killing a clone would be useless. If it were the true body, he could have captured Ye Tian, performed a soul search, and obtained information and secrets.

However, a clone could be instantly annihilated, making it impossible to obtain any soul memory.

Both sides quickly completed the contract and began the transaction. Ye Tian handed over all the treasures and resources needed for the trade to the Master of the Primordial Era, who, in turn, gave the Innate Light Source to Ye Tian.

“Master of the Primordial Era, it was a pleasure working with you. Next time, I will bring more precious treasures and even more valuable information for our trade!” Ye Tian said as he left.

Swish, swish, swish!

Ye Tian’s fourth clone traversed swiftly, then took out two talismans, isolating time and causality. In this way, even if the Master of the Primordial Era and others wanted to track him, they absolutely wouldn’t be able to.

After Ye Tian had gone far away, several figures appeared here, including the Master of the Primordial Era, Causal Supreme, Stone Dragon Supreme, and Golden Light Supreme.

“Master of the Primordial Era, we can’t find the target. It’s impossible to track him!” Causal Supreme said.

“As expected, this person would never let us find his lair!” the Master of the Primordial Era replied.

“Master of the Primordial Era, did you really just trade the Innate Light Source so easily to that person?” Golden Light Supreme frowned.

“A mere Innate Light Source is of little use to us. Besides, the items we traded this time were plentiful, especially those cultivation secret techniques and legacies, which are quite valuable. The value absolutely exceeds that of an Innate Light Source, so I did not lose out.

Moreover, the information this person known as Gusha provided is also very valuable. We should focus on searching for reincarnators and also investigate the mysterious organization Gusha belongs to. If we find it, I wouldn’t mind wiping it out,” the Master of the Primordial Era said coldly.

In the Desolate Realm.

Ye Tian's fourth clone returned.

In the Desolate Tower, Ye Tian finally breathed a sigh of relief. This transaction with the Master of the Primordial Era had indeed been very dangerous. If he had failed to deceive the Master, this clone would have been doomed.

Cultivating a clone with Supreme combat power was not easy, and Ye Tian certainly didn't want to lose this clone.

More importantly, if this transaction failed, obtaining the Innate Light Source would become exceedingly difficult for him.

"The Master of the Primordial Era still wants to engage in another trade. Heh, I don't have much information left. Most of the resources I possess are useless to him. As for the truly valuable items, I wouldn't trade them so easily. This transaction will be the last one. Once I master the Eternal Light Divine Ability, the Master of the Primordial Era won't be able to kill me!" Ye Tian murmured.

He didn't return to the human race immediately. He needed to wait. What if the Master of the Primordial Era could track him down? Therefore, he decided to stay in the Desolate Realm for some time before secretly returning to the human race to hand the Innate Light Source to his true body.

This wait lasted a hundred years.

To a powerful being like Ye Tian, a hundred years passed in the blink of an eye, not a long time at all. He could afford to wait.

One day, Ye Tian's fourth clone left the Desolate Realm and secretly arrived at the edge of the human territories. Ye Tian's true body also came personally to receive the Innate Light Source from the fourth clone.

Afterward, the fourth clone returned to the Desolate Realm.

In the Holy City, within the Tian Pavilion, Ye Tian held the Innate Light Source in his hand, feeling extremely excited.

“The Speed Talent and the Extreme Light Talent haven’t fully merged yet, but I can’t wait any longer. Let’s start time acceleration!” Ye Tian murmured.

As long as it didn’t involve the fusion of time-related talents, time acceleration could be utilized. Therefore, after initiating time acceleration, it took Ye Tian less than a year in the outside world to successfully merge the Speed Talent and the Extreme Light Talent.

Ye Tian named the talent born from the fusion of these two God-level talents the Eternal Light Talent, corresponding to the Eternal Light Divine Ability.

With the Eternal Light Talent cultivated, the Eternal Light Divine Ability obtained, and the Innate Light Source in hand, Ye Tian met all the requirements to cultivate the Eternal Light Divine Ability.

“Finally, I can cultivate. Although I can’t yet cultivate the embryonic form of the Chaos Divine Ability, I can still cultivate the Eternal Light Divine Ability, one of the Three Thousand Great Divine Abilities. According to the inheritance of the Eternal Light Divine Ability, it was derived from a Chaos Divine Ability. If I can elevate the Eternal Light Talent to the Super God level in the future, I can directly cultivate that Chaos Divine Ability.”

“The value of the Eternal Light Divine Ability is immense, so I must master it,” Ye Tian said excitedly.

However, he was well aware that the Eternal Light Divine Ability was far more difficult to master than an ordinary Great Divine Ability. Although he could easily master a Great Divine Ability now, cultivating the Eternal Light Divine Ability to the introductory level would be extremely challenging and would require a long time.

“Ten thousand years... At 200 times time acceleration, that’s 2 million years! If I spend 2 million years comprehending the Eternal Light Divine Ability, I should be able to master it!” Ye Tian said confidently.

A 200-times time acceleration was also the maximum limit of his Super God-level Time Talent, which was the highest allowed by the universe. Even if Ye Tian’s Time Talent evolved further in the future, a 200-times acceleration would remain the limit.

Thus, Ye Tian began his secluded cultivation, focusing all his efforts on comprehending the Eternal Light Divine Ability. He even abandoned other aspects of his cultivation and forbade anyone from

disturbing him, except in the case of emergencies involving Xiao Yue, Ye Yu, or the survival of the Tian Pavilion and the human race.

In this manner, Ye Tian commenced a seclusion that lasted ten thousand years.

In the blink of an eye, ten thousand years passed.

During these ten thousand years, Ye Tian remained in seclusion, while his third and fourth clones continued to enhance their strength, completely ignoring everything happening in the outside world.

And in these ten thousand years, many significant events transpired in the outside world!

Chapter 778: Entry-Level Mastery of the Eternal Light Divine Ability

“A reincarnator was captured, and a secret realm was taken over by the Twelve Cosmic Eras?”

Ye Tian had just exited seclusion when he heard this news, and he was quite surprised.

Capturing reincarnators wasn't easy, which showed how much patience and effort the Master of the Primordial Era and others had put into it. They probably used many treasures to finally capture one reincarnator.

“The secret realm itself isn't significant. The reincarnator probably used up most of the valuable resources within it. A used-up secret realm holds little value. There are almost no unclaimed secret realms left in the universe!” Ye Tian shook his head.

He also wanted to obtain more secret realms, but the Hidden God Organization had rules. A reincarnator could only occupy up to two secret realms for their benefit. Otherwise, if one reincarnator went crazy occupying secret realms, what would the others do? Hence, the reincarnators' secret techniques could only be used on two secret realms at most. Even the compass Ye Tian had obtained could only locate one secret realm's position and could not be used again afterward.

Because of this, he hadn't wasted time searching for more secret realms.

From the Supreme of Humanity, Ye Tian learned that aside from one reincarnator being captured, many Children of the Era had fallen and died.

Some Children of the Era died under the Domination-level tribulation. They all walked the path of defiance, but their strength was insufficient. Underestimating the Domination-level tribulation, they were struck down by it.

Some Children of the Era, especially those at the Supreme level, were killed by reincarnators. The Twelve Cosmic Eras' Supremes forcibly searched the soul of a captured reincarnator, killing them in the process. This act enraged the other reincarnators, leading to their retaliation.

Overall, because of the reincarnators, the universe was in turmoil. Many Dominators and Heavenly Venerables had fallen as a result.

Of course, to the entire universe, these were just minor disturbances.

Ye Tian, after understanding the situation briefly, no longer paid attention to it.

“After ten thousand years of cultivation, I’ve finally mastered the entry-level of the Eternal Light Divine Ability. As expected of one of the Three Thousand Great Divine Abilities, even though I met the cultivation conditions, it still took so much time. If it were one of the top divine abilities among the Three Thousand Great Divine Abilities, wouldn’t it be even harder to cultivate? If it were a Chaos Divine Ability, the difficulty would be even greater!”

At this moment, Ye Tian no longer had any arrogance.

Strictly speaking, without the copy talent, his talent would have been average, and he couldn’t have grown to his current level. The help brought by the copy talent was enormous.

With the entry-level mastery of the Eternal Light Divine Ability, Ye Tian’s initial cultivation plan was complete. However, advancing the Eternal Light Divine Ability to the minor accomplishment realm was extremely difficult.

It wasn’t a resource problem, nor a talent problem, but rather a “Dao problem!”

“The origin of the universe is too weak. Compared to the entire chaos, it’s nothing. From Hamon’s memories, it’s known that becoming an Earthly Venerable in the outside world isn’t difficult. People

from small families could cultivate to the Earthly Venerable realm in tens of thousands of years if they had resources. But this is impossible within the universe.”

This demonstrated the strength of the Great Dao in the chaos and the excellence of the entire chaos cultivation system. It was easier to break through realms and cultivate divine abilities there.

However, within the universe, it was extremely difficult. Without Ye Tian’s copy talent, he wouldn’t have been able to master the Eternal Light Divine Ability.

If he were in the chaos, Ye Tian would have likely already cultivated the Eternal Light Divine Ability to the major accomplishment realm, possibly even the perfected level. But within the universe, the cultivation difficulty increased by a hundredfold or even a thousandfold.

Although cultivation in the universe was extremely difficult, it had one advantage—safety.

In the chaos, even a weak Destiny Realm cultivator could die at any time if they didn’t have a strong backer. Chaos was a place filled with endless dangers but also countless opportunities.

“It’s time to go out and test the speed of the Eternal Light Divine Ability!”

Ye Tian stepped out and left the Holy City.

Immediately, he used the Eternal Light Divine Ability to return to Earth.

Whoosh!! Ye Tian’s body transformed into a beam of light, instantly traversing the boundless void. The next moment, he arrived on Earth.

“So fast!!!”

Ye Tian’s pupils contracted sharply, genuinely shocked by the Eternal Light Divine Ability.

Even at the entry level, the Eternal Light Divine Ability was many times faster than the perfected realm speed-type divine abilities in the universe.

“The speed of a second-tier Supreme can’t compare to mine. Even some first-tier Supremes who aren’t skilled in speed are far slower than me!” Ye Tian understood at that moment.

This realization gave him the confidence to face a first-tier Supreme.

However, even with this newfound confidence, Ye Tian had no intention of provoking a first-tier Supreme. He was not their match and could only barely escape.

Whoosh!! Ye Tian returned to the Holy City from Earth and then went to the Origin Beast Pavilion of the Tian Pavilion.

The Origin Beast Pavilion was a newly established loft, home to the Origin Ancestor cub, Little Yuan Yuan.

As soon as Ye Tian entered the Origin Beast Pavilion, he saw Little Yuan Yuan, the size of a small mountain, sitting there and continuously eating various delicacies. These treats were offerings from the disciples of the Tian Pavilion.

“Master!” Little Yuan Yuan approached Ye Tian excitedly.

“Good, you haven’t slacked off in your cultivation!”

Ye Tian nodded with satisfaction.

Little Yuan Yuan’s current cultivation level was not low, having reached the Universal God level. Its physical body was even more terrifying, comparable to the peak strength of a Dominator.

In other words, Little Yuan Yuan’s current combat strength was almost at the peak Dominator level, even comparable to some of the weaker Heavenly Venerables.

This was the result of combining the Dao of the Physical Body with the cultivation path of Universal Divine Force. Unfortunately, Little Yuan Yuan’s talent in cultivating divine force was average. Despite having countless resources piled up, it had only reached the Universal God level.

But Ye Tian believed that given time, Little Yuan Yuan's days of achieving Supreme status were not far off. This was the advantage of having a powerful bloodline.

However, for Little Yuan Yuan to grow to the extent of protecting humanity, it wouldn't happen in a short time.

Ye Tian played with Little Yuan Yuan for a while, gave it some more valuable items, and then left.

Tian Pavilion.

Ye Tian held various documents, which contained all sorts of secrets and legends from the universe.

His current strength had reached a bottleneck, and he was not content to break through to Heavenly Venerable just yet. He wanted to continue accumulating power. Moreover, the eighth layer of his Chaos Golden Desolation Technique was only at the major accomplishment realm. He aimed to cultivate it to the perfected realm.

Therefore, he needed to continue accumulating resources.

However, the resources he currently had were insufficient to support further enhancement. So, he sought to find more opportunities, hoping that these secrets and legends might help him continue his breakthroughs.

Chapter 779: Ancient City of Tianya

Most of the rumors and legends in the universe were fabled and vague. Some were maliciously spread, others baseless, and some true but extremely mysterious and dangerous, so much so that even Supremes couldn't discern the truth.

The secrets and legends that reached Ye Tian's hands had naturally been filtered, with a truthfulness rate as high as ninety percent.

As Ye Tian went through the documents, he suddenly became captivated by a particular piece of information.

“In the Chaos Sea, a Misty Region appears every ten thousand years, inaccessible to anyone but Dominators. Even Supremes face the risk of death upon entering.

Inside, there are strange and dangerous exotic beasts, as well as many rare treasures.

Since the Primordial Era, no one has known the origin of this Misty Region....”

Ye Tian’s interest in the Chaos Sea was immediately piqued.

There were countless strong individuals in the universe, yet the secrets of the Chaos Sea remained unsolved. This was no ordinary place! Naturally, the Misty Region of the Chaos Sea was extremely dangerous. With Supremes having fallen there, even ordinary Supremes dared not venture in.

Ye Tian sent a message to Kunwu Supreme, inquiring about the Chaos Sea, particularly the Misty Region. Kunwu Supreme soon sent back more classified information.

After reading the information provided by Kunwu Supreme, Ye Tian frowned.

Previously, his collected information was not comprehensive, but Kunwu Supreme, an experienced Supreme who had traversed countless areas of the universe, had naturally been to the Chaos Sea and perhaps even the Misty Region. Hence, he had some understanding of it.

“The Misty Region contains Mist Beasts, which are nearly immortal and extremely difficult to kill, even harder to deal with than Creatures of Destruction. Mist Beasts are incredibly fast, often killing intruders before they can react. The deeper into the Misty Region one goes, the greater the danger.

The Misty Region seems to occupy a small part of the Chaos Sea, but it folds space within, making its true size unknown. The First Divine Lord of the Immortal Race once ventured into the Misty Region but returned injured and never dared to enter again!”

This was the specific information Ye Tian received.

Even the First Divine Lord of the Immortal Race was injured in the Misty Region, illustrating how dangerous it was.

However, Ye Tian had guessed correctly: the Misty Region of the Chaos Sea was indeed rich in resources, even containing elixirs capable of transforming Desolate level talents.

Elevating a Desolate-level cultivation talent to a Mixed-level talent was extremely difficult. But the Misty Region had such elixirs and treasures. Some powerhouses, trapped in the Dominator realm for countless years, would risk entering the Misty Region.

Yet, most of these powerhouses failed to find such elixirs and instead perished in the Misty Region.

The Misty Region appeared once every ten thousand years and lasted for only ten years each time. If one didn't exit within ten years, the region would disappear, along with all the living beings inside.

It was said that those who disappeared had never returned.

A Supreme, disbelieving this, once stood at the edge of the Misty Region, waiting for it to vanish. After it disappeared, ten thousand years passed, and that Supreme was never seen again.

Since then, no one dared to stay in the Misty Region for more than ten years.

Ten years was too short, and the interior of the Misty Region was exceedingly dangerous. If one were trapped inside, it would be catastrophic. Therefore, even the First Divine Lord of the Immortal Race never dared to enter such a bizarre Misty Region again.

"The Chaos Sea is worth visiting, especially since the next appearance of the Misty Region is imminent!"

Ye Tian murmured to himself.

Chaos Sea.

This was an immense sea region in the starry sky, its size comparable to a star field, earning it the title of the first sea of the universe.

Outside the Chaos Sea, a figure appeared—Ye Tian.

This time, Ye Tian was present in his true form.

It was his first time in the Chaos Sea, and he was immediately awed by its grandeur.

“The universe is truly marvelous, capable of birthing such an immense Chaos Sea. In the chaos, there must be even more wondrous places!” Ye Tian exclaimed.

With a swish, Ye Tian entered the Chaos Sea.

The yuan qi in the Chaos Sea was extremely dense, making it a cultivation paradise. Moreover, no race had claimed it, though many ancient cities had been established here.

These ancient cities were scattered across various regions of the Chaos Sea. Each city could be considered a power in its own right.

“These ancient cities in the Chaos Sea were all established by Supremes. Only with a Supreme overseeing it does an ancient city qualify to be situated in the Chaos Sea and keep others in check. Otherwise, in the chaotic environment of the Chaos Sea, if a Heavenly Venerable dared to establish an ancient city, they would perish by the next day!” Ye Tian thought to himself.

The resources of the Chaos Sea weren't abundant, but once the Misty Region appeared, the opportunities were immense. Many ancient cities were established here precisely to trade with those who emerged from the Misty Region.

Over time, many people settled in the Chaos Sea, gradually forming numerous ancient cities.

Each ancient city in the Chaos Sea housed at least one Supreme. The combined number of Supremes across these cities was significant. Moreover, these ancient cities formed an alliance, uniting against external threats. Even the Immortal and Demon Races dared not attack the Chaos Sea, knowing they would not fare well.

Ye Tian also had some understanding of these Supremes in the Chaos Sea. Most of them had offended major clans or were rogue cultivators, some of whom were notorious criminals. However, due to the alliance among the ancient cities, they survived.

“I should first find an ancient city to understand the situation better!”

Ye Tian flew continuously until he soon saw a massive ancient city on the sea’s surface. Although its grandeur was not on par with the Holy City of the Human Race, it was no less imposing than the Giant City of Tianlan.

“Tianya Ancient City!”

The four ancient characters above proclaimed the city’s history and vicissitudes.

Tianya Ancient City had eight gates. Ye Tian descended at the southeast gate, ready to enter when a row of soldiers stopped him.

“Esteemed Dominator, to enter Tianya Ancient City, you need a token. We detected that you do not have one. You need to obtain a token to enter the city,” a soldier said.

Ye Tian looked over. The soldier’s cultivation was not low, at the peak of the Galaxy level. In a small clan, such a cultivation level would qualify one as a great power, even an ancestor. Yet in Tianya Ancient City, he could only serve as a gate guard, indicating the city’s extraordinary nature.

“Understood!” Ye Tian nodded.

When in Rome, do as the Romans do. Ye Tian did not believe he could disregard everything. Moreover, having just arrived, he needed to be low-key and avoid trouble.

Soon, Ye Tian obtained a token at the gate’s office, paying some Divine Crystals, and then entered Tianya Ancient City.

Tianya Ancient City was bustling, home to many powerful individuals. With the Misty Region’s imminent appearance, many had come here.

In the following days, Ye Tian gathered information about the Misty Region, which largely matched what he already knew. He also learned that some people specifically formed Mist Mercenary Groups to enter the Misty Region.

These Mist Mercenary Groups were strong and experienced, having ventured into the Misty Region multiple times. Some older groups had entered over a hundred times! Many newcomers sought to join these groups for increased safety, as unfamiliarity with the Misty Region often led to perishing within.

“Should I join a Mist Mercenary Group?” Ye Tian pondered.

His true strength was formidable, comparable to a weak fourth-tier Supreme, and his speed surpassed even first-tier Supremes. Additionally, he had treasures from the Hidden God Organization’s secret realm, enhancing his survival capabilities.

But even the First Divine Lord had been injured in the Misty Region. If he entered blindly, it would be extremely dangerous.

“No matter how much I study the Misty Region, personal experience is invaluable. Joining a Mist Mercenary Group temporarily to understand the situation would be safer,” Ye Tian thought.

By now, he had altered his appearance and aura, making it impossible for others to recognize him as the Dominator of Ten Thousand Laws, whose fame shook the universe. Otherwise, his identity would undoubtedly bring trouble.

The Mist Mercenary Guild.

This organization was established by the Mist Mercenary Groups. Every ancient city had one. Ye Tian arrived at Tianya Ancient City’s Mist Mercenary Guild, intending to join a group temporarily.

At this time, many Mist Mercenary Groups were recruiting temporary members. Some old and reputable groups were highly sought after, requiring people to queue for a chance to join. Without Dominator-level strength, one had no qualification to join them.

Other groups had lower requirements, accepting even Universal Gods. However, these groups lacked security, and few were willing to join them.

After scanning the area, Ye Tian quickly made a decision.

Chapter 780: Yunmeng Mist Mercenary Group

In a corner of the Mist Mercenary Guild, three young women were recruiting temporary members.

A sign stood before them: “Yunmeng Mist Mercenary Group.”

Compared to other mercenary groups, Yunmeng Mist Mercenary Group had no particular advantages. The three recruiting young women were not very powerful; two were only at the Universal God level, and the third, though a Dominator, was only at the third stage.

Such a mercenary group lacked significant strength.

Although the three girls were cute, entering the Misty Region was risking one’s life. Even the most love-struck person wouldn’t rashly join a weak mercenary group, as it was practically seeking death.

“Sigh, we haven’t recruited a single temporary member. The group leader will surely be disappointed when we return!” lamented the girl at the third stage of the Dominator level.

“We can’t help it. Our Yunmeng Mist Mercenary Group is too weak!” the other two girls said, frowning.

Suddenly, a voice called out, “Are you recruiting temporary members?”

The three girls looked up and saw a kind-looking young man standing before them.

This young man was Ye Tian.

“Peak Dominator!” The three girls were astonished by Ye Tian’s cultivation.

Previously, a few cultivators had inquired, but they were all at the Universal God level. Stronger cultivators at the peak Dominator level usually chose to join large mercenary groups, not small ones like theirs.

“Yes, we’re recruiting!” the three girls responded quickly.

“What are the requirements for joining the Yunmeng Mist Mercenary Group?” Ye Tian asked.

“Above the Universal God level and low sin karma,” the girls replied.

A cultivation level above Universal God was a basic requirement; without it, entering the Misty Region meant certain death. As for low sin karma, only a few mercenary groups demanded it. Most groups focused solely on strength.

However, the Yunmeng Mist Mercenary Group clearly didn’t want to recruit sinners, as it would bring numerous troubles to the group.

Reaching the Universal God level often involved killing, and many might have done bad deeds. Those with low sin karma were indeed rare.

Although Ye Tian had killed many, his overall sin karma was not high. Besides slaying alien races, he didn’t kill innocents. The universe had specific standards for judging sin.

If Ye Tian’s sin karma was considered high, then all the universe’s strong warriors would be deemed irredeemable.

“Do you really want to join the Yunmeng Mist Mercenary Group?” asked the girl at the third stage of the Dominator level.

“Yes,” Ye Tian nodded.

“Then let’s test your sin karma.”

They produced a sphere. Though it wasn’t an Origin Artifact, it was quite valuable and used specifically to test sin karma—the Sin Sphere. Ye Tian extended his hand and tested it.

Soon, the Sin Sphere emitted a faint glow.

“Your sin karma is very low. Welcome to Yunmeng!” the three girls exclaimed joyfully.

Ye Tian then conversed with the three girls and learned their titles.

The girl at the third stage of the Dominator level was called Dominator Mei Yuan, while the other two were Iron Blue True Lord and Glorious True Lord.

Naturally, Ye Tian did not reveal his true title as the Dominator of Ten Thousand Laws. Instead, he chose a very ordinary title—Dominator Fa Tian.

A day passed, and the Yunmeng Mist Mercenary Group had only recruited one member at the peak Dominator level—Ye Tian.

“Let’s head back and introduce Dominator Fa Tian to our group leader!” said Dominator Mei Yuan.

Teleportation and flying were forbidden in Tianya Ancient City, so the group walked slowly through the city.

Along the way, Dominator Mei Yuan introduced the Yunmeng Mist Mercenary Group to Ye Tian in detail: “Dominator Fa Tian, our Yunmeng Mist Mercenary Group may not be very strong, but it’s a very old mist mercenary group. It has existed for over three million years. At its peak, it even had a Supreme and three Heavenly Venerables!”

“Oh, three million years!” Ye Tian was slightly surprised. This was indeed a very ancient mist mercenary group. However, he also understood that Mei Yuan was referring to the group’s glorious history, which was surely far less impressive now.

“How much strength does the Yunmeng Mist Mercenary Group currently have?” Ye Tian asked.

Dominator Mei Yuan awkwardly replied, “Currently, we have only four Dominators and twelve Universal Gods. Including you, Dominator Fa Tian, that makes five Dominators.”

Unfortunately, Ye Tian was only a temporary member. If he became a permanent member, the Yunmeng Mist Mercenary Group would truly have five Dominators. However, very few temporary members were willing to become permanent ones. Usually, only native cultivators from Chaos Sea would be willing to join a mist mercenary group permanently; most outsiders only joined temporarily.

But native cultivators were rare, and without enough temporary members from outside, the mist mercenary group would be too weak. Entering the Misty Region would be too dangerous. Hence, these mist mercenary groups had to recruit temporary members aggressively.

Soon, they arrived at the headquarters of the Yunmeng Mist Mercenary Group in Tianya Ancient City. Entering the headquarters, Ye Tian met the group leader—Dominator Yun Lan.

“Dominator Fa Tian, hello, I am the leader of the Yunmeng Mist Mercenary Group, Dominator Yun Lan, at the peak Dominator level,” Yun Lan introduced herself.

“Hello, Dominator Yun Lan, I am Dominator Fa Tian! My real name is Ye Chen,” Ye Tian briefly introduced himself. However, the name Ye Chen was fake; after all, he was only joining this mercenary group temporarily.

The two parties sat down. Yun Lan asked, “Dominator Fa Tian, how much do you know about the Misty Region?”

“Not much,” Ye Tian replied. “I only know that the Misty Region appears once every ten thousand years and lasts for ten years each time. There are many Mist Beasts inside, and even Supremes are at risk when they enter.”

“That’s correct,” Yun Lan nodded. “The Mist Beasts in the Misty Region are extremely dangerous and fast. We cannot match their speed. Therefore, the most important thing when entering the Misty Region is defensive formations. Some defensive formations are jointly set up by cultivators and can move with them. Mobile defensive formations are one of the ways to resist Mist Beasts. This is why mist mercenary groups need enough members; otherwise, entering the Misty Region is very dangerous. Although our Yunmeng Mist Mercenary Group is not strong, we have a lot of experience. With the experience handbooks of previous group leaders, as long as we don’t go too deep into the Misty Region, the danger isn’t too great.”

Ye Tian and Yun Lan then discussed some details about the Misty Region.

Gradually, Ye Tian gained a deeper understanding of the Misty Region. For instance, people divided the Misty Region into three main areas: the outer area, the inner area, and the core area. The outer area was dangerous for Dominators but not fatal. The inner area was hazardous, with even Heavenly Venerables at risk of falling. In the core area, even Supremes had to flee! Additionally, it was easy to lose direction in the Misty Region. Mist mercenary groups had to set up small formations to determine their position, enabling them to withdraw safely. Otherwise, losing direction could mean doom, even for Supremes.

“Dominator Fa Tian, by my calculations, the Misty Region will emerge somewhere in the Chaos Sea in about three years. During this time, please stay at the Yunmeng Mist Mercenary Group’s headquarters,” Yun Lan requested.

“Alright,” Ye Tian agreed.

Three years was not a long time; it would pass quickly while he was in seclusion.
