Chapter 791: The First Divine Lord Agreed

Among the Immortal Race, the highest authority undoubtedly belonged to the First Divine Lord. As long as the First Divine Lord permitted him to enter the Chaos Ancient Well, he could proceed with his plan.

However, persuading the First Divine Lord of the Immortal Race was no easy task.

“The First Divine Lord is at the second-tier Supreme level. Even within that tier, he isn’t considered particularly powerful. But even so, there aren’t many conditions that could sway him. My true leverage is my potential!” Ye Tian murmured to himself.

He understood clearly that even the First Divine Lord harbored great concerns. His power was too weak to compare with the Supremes from the Twelve Cosmic Eras.

If given a long period, Ye Tian believed the First Divine Lord could ascend to the first-tier Supreme level. However, there wasn’t enough time for him to improve his strength significantly.

“A single condition, an agreement to aid the Divine Lord once in the future, should suffice to entice the First Divine Lord. Moreover, just borrowing the Chaos Ancient Well for cultivation once isn’t too demanding. The First Divine Lord should agree to this!” Ye Tian murmured.

Immediately, he sent a letter to the Immortal Race, requesting an audience with the First Divine Lord, using the title of the Dominator of Ten Thousand Laws.

Whether the First Divine Lord would see him or not was another matter. If not, he would find another way to meet him.

In the Immortal Race’s palace, a Dominator handed Ye Tian’s letter to the First Divine Lord.

“A letter from the Dominator of Ten Thousand Laws of the Human Race,” the First Divine Lord said with some surprise, not understanding why the Dominator of Ten Thousand Laws had sent a letter.

He knew about this genius from the Human Race but hadn't paid much attention because the other was still too weak.

In the past, he might have considered assassinating this genius. However, with the appearance of the Supremes from the Twelve Cosmic Eras, the emergence of many Children of the Eras, and the dual cosmos transcendence, he had no time to deal with Ye Tian.

In his view, Ye Tian couldn't influence much under these circumstances. Furthermore, with all races united, it was even more inconvenient to make a move against him.

The First Divine Lord opened the letter, and suddenly a powerful aura transformed into Ye Tian's phantom.

"Ye Tian of the Human Race greets the First Divine Lord!" Ye Tian said.

At that moment, the First Divine Lord's expression changed. He sensed an aura comparable to a Supreme's from this phantom. Although the power was faint, it proved that the creator of this phantom possessed Supreme-level combat strength. Yet, the creator was definitely at the Dominator level!

"A Dominator with Supreme-level combat strength. This is the power of the universe's top genius. I underestimated him!" the First Divine Lord exclaimed in surprise.

"Should I see him or not?" The First Divine Lord hesitated.

If Ye Tian were too weak, meeting him would have been beneath his dignity. But now, with Ye Tian displaying Supreme-level strength and being the top genius of the universe, he decided it was worth meeting him.

The letter indicated that Ye Tian wanted to discuss an important matter within the Immortal Race's territory.

"Hmph, a cautious person!" the First Divine Lord muttered coldly.

Still, he didn't insist on Ye Tian entering his palace. If he did, Ye Tian might have left directly.

In a flash, the First Divine Lord left his palace, crossing star fields instantly to reach the agreed meeting place.

He didn't bring any other Supremes because he was the strongest Supreme of the Immortal Race. There was no need for additional Supremes to meet a Dominator.

Soon, Ye Tian and the First Divine Lord met.

"Are you alone? Didn't the Human Race's Supremes come with you?" the First Divine Lord asked.

Ye Tian smiled and replied, "In the presence of the First Divine Lord, even if the Human Race's Supremes came, they wouldn't be your match!"

The First Divine Lord found Ye Tian's words reasonable. If he truly acted, the Supremes of the Human Race wouldn't be able to protect Ye Tian.

"Dominator of Ten Thousand Laws, why have you come to see me?" the First Divine Lord asked.

"There is only one thing. I want to enter the largest Chaos Ancient Well controlled by your Immortal Race and cultivate there for a short period," Ye Tian replied truthfully.

"Are you joking?" The First Divine Lord's smile froze, and his voice turned cold.

"First Divine Lord, I am not joking. I am very serious about this matter!" Ye Tian continued, "If the First Divine Lord agrees, I am willing to assist the Immortal Race in the future, ensuring its safety.

If the two universes collide in the future, the Immortal Race, being the strongest in cosmic destiny, will definitely be the primary target. With your current strength, you may not be able to protect the Immortal Race."

"Ridiculous! I can't protect the Immortal Race, and you think you can? Do you really believe I won't dare to kill you?" The First Divine Lord was furious.

He had reigned over the universe for countless years. Even the First Demon Lord was not his match, only able to barely contend with him. Now, this junior, Ye Tian, who had not cultivated for long and only reached the pinnacle of Dominator cultivation, dared to speak to him in such a manner.

“Courting death!”

The First Divine Lord struck out, his attack imbued with the power of a second-tier Supreme. If Ye Tian couldn’t withstand such an attack, then his death would be inconsequential.

“Primeval Slash!”

Ye Tian retaliated with the Primeval Slash. This attack could now reach the strength of a third-tier Supreme, thus easily breaking through the First Divine Lord’s casual attack.

Boom! The saber light from the Primeval Slash tore through the First Divine Lord’s divine force attack and headed straight for him.

Boom! The First Divine Lord shattered Ye Tian’s Primeval Slash with a single punch, his face showing immense surprise. “I didn’t expect you to be able to launch an attack comparable to a third-tier Supreme with your Dominator cultivation. Indeed, you are a genius, but that is still not enough to speak to me in such a manner!”

The First Divine Lord attacked again, this time with the full power of a third-tier Supreme.

Boom! The endless void seemed to collapse, and time and space were frozen.

“I can’t block it!” Ye Tian judged.

Since he couldn’t block it, he naturally wouldn’t foolishly try.

“Eternal Light Divine Ability!”

Ye Tian transformed into a beam of eternal light, piercing through the void and escaping instantly. His speed was so fast that even the second-tier Supreme First Divine Lord couldn’t stop him.

Ye Tian's speed far exceeded the First Divine Lord's expectations. From a distance, Ye Tian's figure appeared, staring at the First Divine Lord. He said, "First Divine Lord, my current strength is inferior to yours, but my speed surpasses that of a typical first-tier Supreme. You, a mere second-tier Supreme, cannot do anything to me.

In other words, you cannot kill me.

Moreover, I am about to step into the Heavenly Venerable realm. At that time, my strength might directly rival yours and soon surpass you. The first-tier Supreme level is not far from me."

"I don't believe your speed is that fast!" The First Divine Lord pursued him.

However, his speed was indeed far inferior to Ye Tian's. No matter how much he increased his speed, he couldn't even touch Ye Tian's shadow. This was even with Ye Tian intentionally slowing down; otherwise, he would have vanished long ago.

After a long time, the First Divine Lord gradually accepted this fact.

"Ye Tian, I agree to your terms!" The First Divine Lord took a deep breath and said reluctantly.

Chapter 792: Found

The First Divine Lord had already clearly understood that Ye Tian's speed had indeed reached the level of a first-tier Supreme. Furthermore, his own strength was in the realm of a fourth-tier Supreme. If he unleashed his ultimate move, he could momentarily erupt with power comparable to a full-force strike of a third-tier Supreme.

Currently, Ye Tian was merely a Dominator.

Once Ye Tian broke through, he would truly possess the strength to match him, and could even surpass him very quickly.

He naturally did not wish to offend such a terrifying existence.

If he could kill Ye Tian, he might take the risk to do so. However, since he couldn't kill Ye Tian now, there was no need to continue offending him.

Besides, there was no irreconcilable enmity between Ye Tian and the Immortal Race, and reconciliation was entirely possible.

Moreover, Ye Tian promised to help in the future, which was invaluable.

Thus, he agreed to Ye Tian's conditions.

"First Divine Lord, let's sign the contract. Otherwise, I won't dare to enter the Chaos Ancient Well. If you set up a formation here, I might not be able to escape!" Ye Tian said.

"Alright, let's sign the contract," the First Divine Lord replied.

Quickly, Ye Tian and the First Divine Lord jointly signed a contract.

The contract stipulated that the First Divine Lord would allow Ye Tian to enter the largest Chaos Ancient Well to cultivate. He also could not harm or in any way attack Ye Tian. In return, Ye Tian had to help the Immortal Race once in the future if the Divine Lord was in trouble, and as long as the Immortal Race did not provoke the Human Race, the Human Race should not attack the Immortal Race.

The last clause was naturally added by the First Divine Lord. In the past, he would not have paid any attention to the weak Human Race. But now, with a genius like Ye Tian, who would surely surpass him in the future, he had to add this clause. Without it, he feared that the Human Race might grow stronger and act against the Immortal Race, and he would be unable to contend with the future Ye Tian!

After the contract was successfully signed, Ye Tian followed the First Divine Lord to the largest Chaos Ancient Well, which was the Divine Lord's Chaos Heavenly Well.

"Dominator of Ten Thousand Laws, the Chaos Heavenly Well is located in a Origin Realm. This Origin Realm was later named the Divine Realm by our Immortal Race. The Divine Realm is the foundation of our Divine Lord, with many Immortal Race members stationed there long-term. Unless there's a catastrophe, those Supremes won't come out.

You can follow me into the Divine Realm, but you must not intrude on other places. Otherwise, even if we have an oath, other Immortal Race Supremes won't consider it," the First Divine Lord reminded.

"I understand. I just want to enter the Chaos Heavenly Well to cultivate for a while. It won't be too long," Ye Tian replied.

"Good then," the First Divine Lord nodded.

Soon, the First Divine Lord and Ye Tian arrived at the Ten Thousand Immortal Star of the Immortal Race. This planet used to be ordinary, but since the birth of the Divine Realm and the Chaos Heavenly Well, it had been transformed into a colossal planet, containing powerful rules. Even Supremes found it difficult to destroy it easily.

To enter the Divine Realm, one must first enter the Ten Thousand Gods Star and pass through its entrance to the Divine Realm.

Naturally, this entrance was strictly guarded by the Immortal Race.

But this time, with the First Divine Lord personally bringing Ye Tian, no one dared to obstruct them.

Boom! The First Divine Lord led Ye Tian through the entrance on the Ten Thousand Gods Star into the Divine Realm of the Immortal Race.

When the First Divine Lord and Ye Tian appeared together, projections of Supremes emerged.

"Greetings, First Divine Lord!"

"Greetings, First Divine Lord!"

"Greetings, First Divine Lord!"

The Supremes greeted the First Divine Lord, but their gazes locked onto Ye Tian.

“The Human Race’s Dominator of Ten Thousand Laws is with me. He will enter the Chaos Heavenly Well to cultivate for a while. I have agreed to this,” the First Divine Lord announced.

“Since the First Divine Lord has brought him, he naturally can enter the Chaos Heavenly Well,” the projections of the Supremes dispersed.

“Hmph, let’s go,” the First Divine Lord seemed somewhat displeased.

He was, after all, the First Divine Lord of the Immortal Race. Personally escorting Ye Tian here, how could these Supremes not understand the situation? They were doing this deliberately! However, he was also well aware of the responsibilities of these Supremes. Even as the First Divine Lord, he couldn’t command them at will during normal times. They were the oldest Supremes of the Immortal Race and had lived for an extremely long time.

In terms of status, he was still their junior. It was only because of his formidable strength that he had ascended to the position of First Divine Lord.

“Alright,” Ye Tian nodded.

With a few teleports, Ye Tian and the First Divine Lord arrived in front of the Chaos Heavenly Well.

Heavy formations were arranged here, showcasing how much the Immortal Race valued the Chaos Heavenly Well.

“This is the Chaos Heavenly Well,” the First Divine Lord said, pointing to it.

Ye Tian glanced at the Chaos Heavenly Well, which spanned several hundred miles. The Chaos Ancient Well that had appeared on Earth’s Origin Realm was merely a few meters wide in comparison; the two were not comparable at all.

Moreover, the rules contained within this Chaos Heavenly Well were extremely powerful. Non-Dominators were not allowed to enter. If they forcibly entered, the rules of the Chaos Heavenly Well would kill them instantly.

Under normal circumstances, those below the level of Dominators would at most cultivate nearby. Only powerful Dominators with significant contributions were permitted to enter the Chaos Heavenly Well to cultivate.

“First Divine Lord, I will enter the Chaos Heavenly Well now,” Ye Tian said.

“Go ahead,” the First Divine Lord nodded.

He didn’t know why Ye Tian insisted on entering the Chaos Heavenly Well, but this was Ye Tian’s secret. Since they had a transactional relationship, it was naturally inappropriate to inquire.

Boom! Ye Tian stepped into the Chaos Heavenly Well, instantly appearing in a chaotic void.

“What powerful rules!” Ye Tian was shocked.

The rules here were even stronger than those of the Origin Realm, and the area was vast. Using his Life Heavenly Eye, he discovered many strong Immortal Race members meditating and cultivating in this chaotic void.

The Immortal Race had divided this area into several sections, each with a palace, and they almost never disturbed each other.

Ye Tian’s arrival did not attract the attention of any Immortal Race members. Even for Immortal Race Dominators and Heavenly Venerables, it was very difficult to gain access to this place, so they would not waste time observing the outside world, focusing solely on their cultivation.

“I need to investigate whether this is the place I’m looking for,” Ye Tian thought to himself.

Immediately, he used a secret technique to investigate.

“The concentration of chaotic yuan qi is sufficient!”

“Chaotic origin aura...”

Ye Tian searched diligently and finally found a trace of chaotic origin aura, located deep within the Chaos Heavenly Well. The rules there were even stronger; ordinary Dominators and even Supremes couldn't approach.

Swoosh! Ye Tian continued flying deeper, facing increasing pressure.

Other Supremes wouldn't have been able to withstand it because their bodies weren't strong enough. Even if they used their divine force to enter the depths, they wouldn't be able to cultivate, as they couldn't continuously maintain their protective divine force. However, Ye Tian's physical body was extraordinarily powerful and could withstand the pressure, allowing him to reach the depths of the chaotic void within the Chaos Heavenly Well.

"I've arrived!" Ye Tian stood atop a vast ocean.

This was not a real ocean, but one formed from extremely dense chaotic yuan qi. Here, there was a faint chaotic origin aura, making it an ideal spot for him to gather the essence of a Half-Step Chaos Life Body.

"Although it's far from the best place in the chaos, it's enough for me to condense a Half-Step Chaos Life Body!" Ye Tian thought to himself.

Immediately, Ye Tian set up some simple measures and took out a palace treasure, transforming it into his cultivation abode.

He needed to retreat and cultivate here, aiming to break through to the Heavenly Venerable Realm and simultaneously condense a Half-Step Chaos Life Body. Once successful, his power would reach unimaginable levels, potentially surpassing the First Divine Lord in one leap.

Chapter 793: Fifty Percent Half-Step Chaos Life Body

In the depths of the Chaos Ancient Well, Ye Tian began his closed-door cultivation. He had already reached the pinnacle of the Dominator level, and from the perspective of cultivation, there was almost no further progress he could make.

Thus, after a period of slight refinement to adjust his mental state to its peak, he started to challenge the Heavenly Venerable realm.

Ye Tian was very familiar with challenging the Heavenly Venerable realm. After all, several of his clones had also achieved this realm, so failure was not an option.

However, this time the challenge was different. He needed to condense a half-step Chaos Life Body, which he was attempting for the first time. Therefore, he had to be extremely cautious.

If he failed, he estimated there wouldn't be a second chance.

Condensing a half-step Chaos Life Body required specific conditions. For instance, living beings in this universe almost couldn't achieve it because it required a sixth-tier life form to even attempt it.

If one couldn't reach the sixth-tier life level and still tried to condense a half-step Chaos Life Body, the result would be physical collapse and death.

Ye Tian was a seventh-tier life form, having even reached the late stage of the seventh-tier life level, and was not far from a perfect seventh-tier life.

Therefore, he fully met the basic conditions for condensing a half-step Chaos Life Body.

“To condense a half-step Chaos Life Body, one must absorb a wisp of Chaos Origin Qi at the moment of breaking through to the Heavenly Venerable realm. This establishes the supreme foundation for the half-step Chaos Life Body, enabling its complete formation.

However, absorbing the Chaos Origin Qi required a powerful soul. Therefore, I needed to break through in all three aspects: essence, energy, and spirit. Using the soul power of the Heavenly Venerable level to draw a wisp of Chaos Origin Qi into the body, everything must go perfectly,” Ye Tian mused to himself.

Half a month later, Ye Tian officially began his breakthrough.

“Boom!!!”

His physical body transformed, divine force transformed, and his soul also transformed.

At the same time, Ye Tian achieved breakthroughs in the three paths of essence, energy, and spirit, all stepping into the Heavenly Venerable realm.

Countless strands of Chaos Yuan Qi surged into his body. Each strand of Chaos Yuan Qi here was more precious than Divine Crystals in the outside world, comparable even to a piece of Chaos Crystal.

With such a vast amount of Chaos Yuan Qi, Ye Tian didn't need any additional resources.

He lacked no energy for the breakthrough!

“Chaos Origin Qi, come to me!!!”

Ye Tian's soul transformed into a pair of large hands, reaching towards a wisp of Chaos Origin Qi deep within the Chaos Ancient Well.

The Chaos Origin Qi seemed to want to evade, but Ye Tian's soul was too powerful, and his strength too terrifying, making it impossible for the Chaos Origin Qi to escape. It was instantly caught.

The soul hands returned, bringing the wisp of Chaos Origin Qi into Ye Tian's body.

Crack!!! Ye Tian's body began to crack, but this was not a real physical collapse; it was a reshaping.

To condense a half-step Chaos Life Body, reshaping and recreating were necessary.

Of course, the accumulation differed, and the resulting half-step Chaos Life Body also differed. Generally, the talent of chaos, if lucky enough to condense a half-step Chaos Life Body, was approximately one-thousandth of a Chaos Life Body, with the elites reaching one-tenth, and the limit being fifty percent! Because once it exceeded fifty percent, it would completely transform into chaos, initiating a true metamorphosis.

However, if the realm was not at the Destiny Realm, even if the physical body reached the Chaos Life Body level, intervention by a powerful chaos being would be futile, as it violated the rules of chaos.

Boom!!! The sea of Chaos Yuan Qi poured into Ye Tian's body, accelerating the transformation, pushing his body step by step towards the half-step Chaos Life Body.

Meanwhile, Ye Tian's aura grew increasingly terrifying, reaching an unimaginable level.

Time passed little by little. Fortunately, the Chaos Ancient Well had a temporary shielding effect against the universe's rules; otherwise, Ye Tian's tribulation would have already descended.

On this day...

Ye Tian's physical body completed its transformation entirely. Faint chaotic rule patterns appeared on his body, emanating an aura that even Supremes would fear.

The half-step Chaos Life Body was complete!

"Fifty percent! I actually condensed the ultimate half-step Chaos Life Body!" Ye Tian was shocked.

He knew his accumulation was profound, but he hadn't expected to reach the fifty percent ultimate half-step Chaos Life Body. In the chaos, only the true top-tier geniuses had the potential to condense a fifty percent half-step Chaos Life Body. Though this was merely the starting point of chaotic cultivation and not overly significant, it reflected a crucial fact: Ye Tian's foundation was exceptional, and his future potential was immense.

In other words, even if copying talents became useless in the future, Ye Tian alone would be enough to become a true Heavenly Pride within the chaos.

The successful condensation of the half-step Chaos Life Body also enhanced his divine force and soul, making his divine force purer and stronger and raising his soul strength to a new level.

"My strength is vastly superior to what it was before the breakthrough!" Ye Tian marveled.

As for how powerful he had become, he didn't have a specific standard for comparison, but he believed he wasn't weaker than the First Divine Lord, possibly even much stronger.

“This place is no longer useful to me. It’s time to leave!” Ye Tian murmured.

In an instant, Ye Tian teleported to the entrance of the Chaos Ancient Well and stepped out.

...

At the entrance of the Chaos Ancient Well, the First Divine Lord had been staying there, not waiting for Ye Tian to emerge but worrying about what Ye Tian might do. Thus, he had been both cultivating and waiting.

Suddenly, he sensed Ye Tian’s aura. Ye Tian had come out.

“How could this be...?” The First Divine Lord’s expression changed dramatically.

He discovered that Ye Tian had reached the Heavenly Venerable realm, and his aura was so terrifying that it made him feel extremely threatened.

Boom! Boom! Boom! In the void of the Divine Realm, clouds of tribulation lightning covered the entire world.

“A tribulation for the one who defies the heavens!”

For a moment, all the powerful beings of the Immortal Race in the Divine Realm were alarmed.

The tribulation lightning would only harm the person undergoing it and would not affect others, so the Immortal Race wasn’t worried about the Divine Realm being destroyed.

Swoosh! Swoosh! Swoosh! Several Supremes, Heavenly Venerables, and Dominators appeared beside the First Divine Lord.

One of the Supremes asked, “First Divine Lord, what’s happening?”

“The Human Race’s Dominator of Ten Thousand Laws has broken through to the Heavenly Venerable realm and is now a true Supreme. He is undergoing the tribulation of one who defies the

heavens. We should just observe and learn. This is the first time we are seeing a Heavenly Venerable-level tribulation of a heaven-defier,” the First Divine Lord explained.

The other Supremes nodded in agreement. Although heaven-defiers had the potential to transcend, only a few could actually grow to the Supreme level, and they were merely legends from past cosmic eras. This cosmic era had yet to produce a Supreme-level heaven-defier. Therefore, understanding the power of the tribulation would naturally be helpful for future heaven-defiers.

Under the tribulation lightning, Ye Tian remained very calm. Even if he hadn’t condensed the half-step Chaos Life Body, he wouldn’t have taken this tribulation lightly.

He sat cross-legged, calmly stabilizing his foundation, completely ignoring the tribulation above.

Chapter 794: Breakthrough, True Supreme

Boom! The first bolt of tribulation lightning descended, striking directly onto Ye Tian. However, it didn’t cause him any harm, not even making him tremble.

The power of the first bolt was too weak! But this weakness was relative only to Ye Tian. For others, the first bolt was already extremely powerful.

“The power of the first bolt alone is comparable to a full-strength attack from a third-tier Heavenly Venerable!” The First Divine Lord exclaimed in shock.

Such an attack might not be much for some, but this was only the first bolt! Generally, when a Dominator broke through to the Heavenly Venerable realm, their combat power would only be that of a fifth-tier or fourth-tier Heavenly Venerable. They couldn’t withstand even the first bolt.

The tribulation for reaching the Heavenly Venerable realm consisted of a total of twenty-four bolts. One could imagine how terrifying the twenty-fourth bolt would be; even an average Supreme might not withstand it.

The second bolt! The third bolt! The fourth bolt! One after another, the tribulation lightning struck down. Yet Ye Tian remained motionless, continuously cultivating, as if these bolts were merely scratching an itch.

The nineteenth bolt descended.

This time, it took the form of a humanoid lightning figure, attacking Ye Tian with supreme combat power. However, to the shock of the many strong members of the Immortal Race, the power, which was equivalent to a full-strength strike from a fifth-tier Supreme, posed no threat to Ye Tian.

Ye Tian remained unmoved, and the humanoid lightning's full-force attack shattered upon his body.

“What kind of physique is this?”

The Supremes of the Immortal Race were dumbfounded, and even the First Divine Lord was incredibly shocked.

If he were in Ye Tian's position, he would have to protect himself with divine force. Yet Ye Tian didn't use any divine force, relying solely on his physical strength to crush the full-strength attack of a fifth-tier Supreme.

Such a physique was terrifying!

“Is the body of a heaven-defying individual truly so formidable?” The First Divine Lord wondered aloud.

He had seen some Children of the Era from the Twelve Cosmic Eras, some of whom were also heaven-defying individuals. However, none of them had a physique as terrifying as Ye Tian's. Even ancient records never mentioned such a formidable body.

This was absolutely abnormal! The twentieth bolt descended but still couldn't harm Ye Tian, shattering upon contact.

Soon, the twenty-first bolt descended.

“That's enough.”

Ye Tian opened his eyes and stood up.

He had withstood the tribulation with his physical strength only to show the Immortal Race his might and to warn them.

Now that the warning had achieved its effect, he had no need to fully display his power.

Facing the twenty-first bolt, Ye Tian moved. With a single hand, he shattered the twenty-first bolt.

Quickly, the twenty-second bolt appeared.

This time, it wasn't a humanoid form. Boom! A massive qilin lightning bolt descended, as if to swallow Ye Tian whole.

"The power of this tribulation has already risen to the level of a top-tier fifth-tier Supreme. Based on this trend, the final bolt should be equivalent to a full-strength strike from a fourth-tier Supreme. Even if I were still at the Dominator level, I could withstand this bolt. It seems the tribulation can no longer threaten me!" Ye Tian murmured.

"Slash!"

Using his hand as a blade, Ye Tian cut through the qilin lightning.

The twenty-third bolt was a phoenix lightning, descending with terrifying momentum, obscuring the sky.

At this moment, nearby Dominators and Heavenly Venerables flew away, not daring to approach. The sheer power of the bolt alone was more than they could bear! Next to the First Divine Lord, a fifth-tier Supreme said, "The tribulation of a heaven-defying individual becoming a Heavenly Venerable is truly terrifying. This power could severely injure me!"

However, the phoenix lightning, despite its formidable power, was still slashed apart by Ye Tian, completely dissipating.

The final bolt of tribulation lightning soon descended.

As Ye Tian had predicted, this bolt reached the level of a fourth-tier Supreme, manifesting as a dragon-shaped lightning bolt.

It gazed down at Ye Tian like an ancient Ancestral Dragon.

Ye Tian looked at the lightning dragon and said, “You’re too weak. Begone!”

With a single slash, he not only annihilated the lightning dragon but also pierced through the boundless thunderclouds.

As the Heavenly Venerable tribulation dispersed, Ye Tian had truly stepped into the Heavenly Venerable realm. In terms of combat power, he had become a true Supreme.

“Supreme, the pinnacle of the universe. The next step is transcendence! Unfortunately, I have no clue how to achieve that right now,” Ye Tian mused.

Swish! He teleported in front of the First Divine Lord.

“First Divine Lord, I have become a Supreme. I won’t linger here any longer.”

“Supreme of Ten Thousand Laws, you are welcome to visit the Immortal Race anytime,” the First Divine Lord said politely.

“Certainly!” Ye Tian smiled, then turned and left.

After Ye Tian departed from the Divine Realm and the Immortal Race territory, a Supreme asked the First Divine Lord, “First Divine Lord, what level of Supreme has the Supreme of Ten Thousand Laws reached now?”

The First Divine Lord frowned and replied, “At least a second-tier Supreme. As for a first-tier Supreme, he hasn’t reached that level yet. The strongest in the universe are first-tier Supremes, and he has only just broken through. However, after reaching the Heavenly Venerable realm, divine force can still be accumulated. The physical body and soul of a heaven-defying individual can continue to cultivate.

The Supreme of Ten Thousand Laws has a long way to go before reaching his limits. His strength can still increase significantly. It shouldn’t be long before he reaches the combat power of a first-tier Supreme!”

“A first-tier Supreme!” The expressions of the Immortal Race members changed dramatically.

The strongest among their Immortal Race was the First Divine Lord, who was currently only in the second-tier Supreme rank, and he couldn’t dominate even within that tier. If the Supreme of Ten Thousand Laws reached the first-tier Supreme rank, wouldn’t he surpass the First Divine Lord? Wouldn’t the Human Race surpass the Immortal Race in the future?

“We can no longer stop the rise of the Human Race. However, I have reached an agreement with the Supreme of Ten Thousand Laws. If our Immortal Race faces a great calamity in the future, he will help us once. Additionally, the Human Race will not attack the Immortal Race. This is also part of the agreement. Simply allowing the Supreme of Ten Thousand Laws to enter the Chaos Celestial Well once has earned us such benefits. It was well worth it!” The First Divine Lord explained.

If he knew that Ye Tian had condensed a half-step Chaos Life Body in the Chaos Celestial Well, which granted him that terrifying physique, who knows if he would regret it.

After becoming a Supreme, Ye Tian quickly returned to the Human Race.

Now, he feared no Supreme, so he had no more reservations.

At present, he was eager to know his combat power’s limits.

Unfortunately, the Primordial Tower of the Primordial Divine Mountain could no longer completely test his combat limits. After all, the Primordial Tower was merely a Strongest Supreme Treasure and couldn’t simulate a Supreme that was too powerful.

Chapter 795: Supreme Hall

Ye Tian’s ascension to the rank of Supreme was not kept a secret; it was announced to the other Supremes of the Human Race.

For a moment, the Human Supremes were overjoyed.

Simultaneously, they were intensely curious about the true extent of Ye Tian’s power.

Soon, one Supreme after another arrived at the Holy City.

Ye Tian, in the Tian Pavilion, hosted the various Supremes. The entire Human Race knew that a new Supreme had emerged among them, and it was none other than the renowned Supreme of Ten Thousand Laws whose fame had spread across the entire universe.

Previously, although Ye Tian's combat strength had reached the Supreme level, it wasn't widely publicized. Regardless of how powerful a Dominator's cultivation might be, he would only be considered a Dominator. Only by entering the Heavenly Venerable Realm and achieving Supreme combat strength could one be recognized as a Supreme.

In the Tian Pavilion, Ye Tian and a group of Supremes sat on thrones. Numerous exotic fruits were placed on the tables beside their thrones, and the Supremes chatted and laughed as they ate.

Suddenly, Divine Blade Supreme asked, "Supreme of Ten Thousand Laws, now that your cultivation has broken through, what tier of Supreme have you reached?"

"I'm not sure," Ye Tian shook his head. "My strength has increased significantly, but I can't determine exactly what tier of Supreme I am. However, if compared to the First Divine Lord of the Immortal Race, he is no match for me."

"What? The First Divine Lord of the Immortal Race isn't your match?" The Supremes were stunned.

The First Divine Lord of the Immortal Race was a terrifying Supreme, a second-tier Supreme. If it weren't for the arrival of the Supremes from the Twelve Cosmic Eras, the First Divine Lord would have been the strongest Supreme in the universe. Yet, now, Ye Tian, having just stepped into the Heavenly Venerable cultivation, claimed his strength surpassed the First Divine Lord.

If anyone else had said this, they would have been dismissed as boasting. But since Ye Tian said it, they were unsure whether to believe him.

"Supreme of Ten Thousand Laws, my strength is that of a third-tier Supreme. My current clone is an ultimate fourth-tier Supreme, my most powerful clone. This clone can temporarily unleash an attack equivalent to a third-tier Supreme through secret techniques. Perhaps it can test your strength," suggested Primordial Supreme.

“Sure,” Ye Tian nodded.

However, he didn’t mention that a third-tier Supreme’s attack was too weak. Even when he was at the Dominator level, he could exert the strength of a third-tier Supreme. Therefore, Primordial Supreme’s clone’s attack was merely comparable to the Primal Slash.

Now that he had stepped into the Heavenly Venerable Realm, his strength had increased many times over. A mere third-tier Supreme’s attack was like a scratch to him.

Still, he refrained from saying this, not wanting to undermine Primordial Supreme and the other Supremes.

“Supreme of Ten Thousand Laws, this place isn’t sturdy enough. Let’s go to the edge of the universe to test,” Primordial Supreme suggested.

“Alright,” Ye Tian agreed. The Human Territory was not far from the edge of the universe, and the Supremes’ speed was such that they could reach it in no time.

Moreover, the space at the edge of the universe was extremely stable, ideal for Supremes to test their moves.

With a series of space-tearing sounds, the Supremes departed and soon arrived at the edge of the universe.

Ye Tian stood in the void while Primordial Supreme’s clone stood at a distance.

“Primordial Supreme, attack,” Ye Tian said calmly.

“Be careful!” Primordial Supreme spoke in a serious tone.

He produced an axe, a supreme treasure. This clone of Primordial Supreme was also nurtured with supreme treasures, including this powerful axe, thus significantly amplifying its power.

“Sky-Split!”

Primordial Supreme swung the axe, splitting the void as if cleaving the heavens and earth. The void was instantly split in two.

The terrifying axe light obliterated everything, descending upon Ye Tian with immense power.

However, Ye Tian did not move; he merely raised a simple defense.

“Supreme of Ten Thousand Laws, dodge quickly!” Kunwu Supreme shouted.

This was an all-out attack comparable to a third-tier Supreme’s. Even a second-tier Supreme wouldn’t dare to face it without any resistance. A simple defense was tantamount to no defense at all!

Boom! The axe light struck Ye Tian, yet it did not force him back even a step. Although it broke through his simple defense, Ye Tian’s powerful physique shattered the axe light.

“Still too weak,” Ye Tian thought privately.

His current defensive ability was terrifying. Perhaps only a first-tier Supreme could hope to harm him; even a second-tier Supreme couldn’t break through his true defense.

This was the horror of a half-step Chaos Life Form!

“It’s nothing,” Primordial Supreme was shocked. This was the result of his full-strength attack. Although it wasn’t his true body, its attack power had reached the level of a third-tier Supreme, yet it couldn’t even breach Ye Tian’s defense.

“Sorry, I can’t test the strength of the Supreme of Ten Thousand Laws,” Primordial Supreme said helplessly.

Although his true body was stronger, he wouldn’t reveal it. In fact, few had ever seen his true body. It was his secret; he wouldn’t expose it just to help Ye Tian test his strength.

“Supreme of Ten Thousand Laws, your physique is too terrifying!” Divine Blade Supreme exclaimed.

Kunwu Supreme stepped forward and said, “Supreme of Ten Thousand Laws, your current strength has made you the strongest in the Human Race, the first Supreme of Humanity!”

Primordial Supreme had no objections to Kunwu Supreme’s words. He had been the first Supreme of Humanity, but now Ye Tian was stronger, naturally becoming the first Supreme of Humanity.

Ye Tian smiled and said, “Very well, I accept the title of the First Supreme of Humanity. Moreover, I propose that the Human Race establish a Supreme-level alliance to facilitate faster development.”

In the past, the Human Supremes hadn’t united because their numbers were too few, and each Supreme had their own faction. Additionally, there hadn’t been a sufficiently powerful Supreme to lead them.

Although Primordial Supreme was formidable and the only third-tier Supreme of the Human Race, his true body never appeared. His strongest clone was only equivalent to an ultimate fourth-tier Supreme. The Human Race had several fourth-tier Supremes, so Primordial Supreme couldn’t fully lead them.

Ye Tian, on the other hand, was different. At the very least, he was now a second-tier Supreme, capable of easily subduing all the Supremes of the Human Race alone.

He proposed forming an organization to unite all Supremes, and the other Supremes naturally dared not oppose him.

After some discussion, an organization called the Supreme Hall was established.

The Supreme Hall stood above the Nine Supreme-level forces and the Supreme Hall of Humanity. The minimum requirement for membership was a third-tier Heavenly Venerable. Heavenly Venerables were only considered peripheral members; to be a full member, one had to possess Supreme-level combat strength.

The purpose of the Supreme Hall was mainly to unite Supremes, exchange ideas to improve their strength, and help more powerful individuals become Supremes.

Ye Tian was the Hall Master of the Supreme Hall!

Soon, the news of the establishment of the Supreme Hall spread throughout the Human Race, and the fame of the Supreme of Ten Thousand Laws resounded across countless territories of the Human Race.

Chapter 796: The Rise of Humanity, 62 Supremes

The Supreme Hall was established, and the human Supremes joined one after another. Ye Tian placed many precious manuals in the Supreme Hall's library, allowing all members to browse these texts for free.

Some of these manuals were as valuable as the Strongest Supreme Treasures, yet Ye Tian shared them selflessly. Given his current status and position, even the Strongest Supreme Treasures held little value for him. These texts could strengthen the human race, and he was naturally willing to provide them.

Influenced by Ye Tian, other human Supremes also contributed some precious manuals. However, they did not share their core secret techniques; everyone had their own selfish motives, and the Supremes were no exception.

Although Ye Tian was the Hall Master of the Supreme Hall, he usually had little to do and soon began to meditate in seclusion. Having just broken through a realm, his strength could still increase in a short time.

For example, the seventeenth and eighteenth movements of the Eighteen Golden Bodies Technique. However, since he had already condensed a Half-Step Chaos Life Body, the Eighteen Golden Bodies Technique were not very useful to him anymore.

As for the Chaos Golden Desolation Technique, it had only eight layers, all of which Ye Tian had perfected. He could no longer progress with this technique.

“Divine force can continue to increase and accumulate to its limit, but it won't significantly enhance my strength. The remaining option is to create new techniques. My Heavenly Sabers and Primordial Forms currently have only three forms each. If I develop the fourth form, it would greatly benefit me. Additionally, the Tiangan Battle Techniques can still be cultivated further. I have only mastered the first five forms, but there are nine forms in total.”

Ye Tian pondered. Although he could no longer progress with the Chaos Golden Desolation Technique, he could still enhance his physical strength gradually or by using various elixirs that augmented physical strength.

In summary, once one entered the Supreme level, it was difficult to improve strength rapidly after the initial phase. Every step forward became incredibly challenging, requiring long periods or significant opportunities.

For instance, Primordial Supreme, a third-tier Supreme, had not advanced to the second tier despite countless years, barely making any progress.

“Regardless, I must strive to improve my strength!” Ye Tian muttered.

In the days that followed, Ye Tian focused on cultivation. He practiced the Eighteen Golden Bodies Technique, perfecting the seventeenth and eighteenth movements within just a hundred years, thereby enhancing his physical strength by another level.

Subsequently, Ye Tian consumed a vast amount of resources, spending nearly ten thousand years to elevate his divine force and expand his internal microcosm significantly, marking another leap in strength.

After another ten thousand years, Ye Tian nearly exhausted all the elixirs he had acquired from the Misty Region, further refining his physical strength.

In other areas, Ye Tian’s progress was limited. Given the constraints of time, creating the fourth form of the Primordial and Heavenly Saber series was no easy task. Likewise, his progress in the realm of the Chaos Dao was also limited.

He had already reached the Origin Realm of the Chaos Dao, a state far beyond the perfected origin realms of other Daos. His Chaos Dao was in the mid-Origin stage, but advancing to the later stage was extremely difficult without an extraordinary opportunity or a long period.

Currently, Ye Tian did not have such luxury and could only wait for a chance.

“Even the introductory stage of the Eternal Light Divine Ability surpasses the perfected great divine abilities of the universe. The universe’s divine abilities are fragmented compared to Chaos, offering little utility. Unfortunately, I am struggling to advance the Eternal Light Divine Ability to the minor accomplishment realm,” Ye Tian muttered.

In the following tens of thousands of years, while Ye Tian continued his secluded cultivation and accumulation of strength, he occasionally emerged to guide some members of the Tian Pavilion and the Supreme Hall. Moreover, every ten thousand years, Ye Tian ventured into the Misty Region, each time returning with a vast amount of elixirs. Despite this, he had yet to explore the entire inner region of the Misty Region, let alone its core.

With the abundance of elixirs provided by Ye Tian, the Tian Pavilion's development accelerated rapidly, leaving no concerns over cultivation talents or resources. Currently, the Tian Pavilion had produced three Heavenly Venerables, dozens of Dominators, and over a thousand Universal Gods. This number even surpassed other supreme-level forces, earning the Tian Pavilion the title of the tenth supreme-level force of humanity, and it was often hailed as the strongest due to having the most powerful human Supreme, the Supreme of Ten Thousand Laws, within its ranks.

The three Heavenly Venerables of the Tian Pavilion were none other than Xiao Yue, Ye Yu, and Ye Tian's direct disciple, Zhou Tian. After emerging from the Supreme Hall of Humanity, Zhou Tian joined the Tian Pavilion. With his impressive talent and Ye Tian's cultivation, Zhou Tian's strength increased rapidly, becoming the third Heavenly Venerable of the Tian Pavilion. Additionally, Zhou Tian had other opportunities that strengthened his foundation, making him comparable to a Supreme-level prince, with the potential to become a Supreme in the future.

As for Xiao Yue and Ye Yu, although they were not Children of the Universe, Ye Tian continuously bestowed talents and countless resources upon them, increasing their comprehension and potential. They too had the hope of entering the ranks of Supremes in the future. However, Ye Tian could not continue to enhance their strength in the short term unless he could transcend and find more extraordinary resources within the chaos to forcibly elevate them to the Destiny Realm. But that was a goal far in the future.

One day, at the Supreme Hall of Humanity, Ye Tian summoned Primordial Supreme, Kunwu Supreme, and others.

"Kunwu Supreme, you have broken through," Ye Tian immediately noticed the aura of Kunwu Supreme, which was much stronger than before. He had crossed the boundary between a fourth-tier Supreme and a third-tier Supreme, becoming a third-tier Supreme.

"Thanks to the numerous elixirs brought back by the Supreme of Ten Thousand Laws from the Misty Region and some secret tomes from the chaos, I had an epiphany and broke through the barrier, advancing to the third-tier Supreme," Kunwu Supreme said with a smile.

“How many Supremes do we currently have? I’ve been in seclusion and haven’t kept track,” Ye Tian inquired.

Primordial Supreme responded, “We currently have 62 Supremes!”

Sixty-two Supremes! This was a number unimaginable to the human race in the past. When Ye Tian first began cultivating, the human race had only 23 Supremes. Now, in just a few hundred thousand years, the number of human Supremes had skyrocketed to 62.

All the Supremes knew that this was entirely due to Ye Tian. It was Ye Tian who brought back a large number of elixirs capable of enhancing talents to the chaos level from the Misty Region, enabling some ancient Dominators of the human race to break through. Combined with other opportunities, they entered the ranks of Supremes.

However, most of these Supremes were relatively weak, primarily fifth-tier Supremes. Even so, for the human race, this was of great significance. Supremes represented the pinnacle combat power of a race. With 62 Supremes, humanity ranked among the top in the universe’s major races.

Once the human race exceeded 100 Supremes and produced a second-tier Supreme, they would be considered a super race in the universe. The Immortal Race and the Demon Race were the only two current super races in the universe, but the human race was on the verge of joining their ranks.

Chapter 797: The Lord Reappears

The changes among humanity had naturally been noticed by other great clans in the universe.

In a short time, many Supreme beings had emerged from the human race. This phenomenon caused a lot of apprehension among the other great clans because the speed at which these Supremes were being born was terrifying. It was even faster than that of the Immortal and Demon Races in their prime.

However, they could do nothing about it. They dared not confront the humans, nor could they suppress their rise.

In the Immortal Race, the First Divine Lord also received the data collected on the humans. After reviewing it, he was extremely shocked.

“What? In such a short time, the human race has produced dozens of Supremes!”

The First Divine Lord found it hard to believe. Even the Immortal Race couldn't cultivate so many Supremes in such a short period unless they exhausted all their resources and heritage.

How did the human race manage this?

“Forget it, the power of the Supreme of Ten Thousand Laws has already surpassed mine. Even if the humans have great secrets, what can we do? The Immortal Race can't do anything to them!” the First Divine Lord sighed.

It was similar to when the Myriad Races Alliance confronted the Master of the Primordial Era, who killed a group of Supremes with a single move. If not for his life-saving treasure, allowing him to survive once, he too would have perished completely.

He wasn't sure if Ye Tian had reached the level of a first-tier Supreme. Even if he hadn't, if all the Supremes of the Immortal Race attacked the humans, the outcome would be disastrous, possibly leading to a total defeat.

Moreover, there was no need for the Immortal Race to confront the humans.

Immediately, the First Divine Lord issued an order to leave the humans alone and not to take any actions against them.

He was worried that some Supremes or Heavenly Venerables might act on their own against the humans, causing him trouble.

In the universe, on an ordinary star of the Gao Mountain Race, a figure suddenly appeared.

“I've finally become an Earthly Venerable!”

The person murmured. He was a member of the Hidden God Organization, codenamed Number 2. The code didn't indicate his strength ranking but was assigned randomly.

His real name was Zhang Ling. Within the Hidden God Organization, his strength at the Earthly Venerable level was certainly not weak.

Since the Supremes of the Twelve Cosmic Eras searched for reincarnated individuals like him, he had been hiding in this secret realm, quietly improving his strength.

Now, he had finally entered the Earthly Venerable realm with a solid foundation, having exhausted his resources to temper his physical body to an incredible level. Coupled with some secret techniques he mastered, his power was not inferior to some Second-tier Supremes in this universe.

Unfortunately, without enough resources, he couldn't advance to the level of a first-tier Supreme or beyond.

"Damn Master of the Primordial Era, just a pawn of our Hidden God Organization, dared to hunt us down!" Zhang Ling said coldly.

However, the Master of the Primordial Era didn't know about the existence of the Hidden God Organization, and their Lord didn't tell him anything about it.

Therefore, it was normal for the Master of the Primordial Era to hunt them down.

And he couldn't reveal that the Master of the Primordial Era was a pawn of the Hidden God Organization. If he did, what good would it do? Their Lord had the Master of the Primordial Era help execute the Double Universe Transcendence Plan while sending reincarnators into the universe without informing them.

Moreover, the Master of the Primordial Era and their Lord were merely collaborators, not loyal to each other. Revealing the relationship wouldn't help much.

"I've become an Earthly Venerable and can contact the Lord now!" Zhang Ling murmured.

With a tearing sound, Zhang Ling ripped open the void, breaking through infinite space to reach the edge of the universe.

Gazing at the rules of the universe's barrier, Zhang Ling said, "It's said that only transcendents can break through the universe barrier and enter chaos.

If not transcendent, even forcibly entering chaos through special means would result in instant death! Now that I've reincarnated as a universe being, leaving without transcending would mean certain death!"

Thinking of this, Zhang Ling felt a bit apprehensive.

In chaos, he had a chance to break through to the Destiny Realm. But even if he succeeded, it would be a weaker Destiny Realm, which tempted him to enter the universe.

If successful, his future would be limitless, possibly holding a high position within the Hidden God Organization, even standing alongside the Lord.

If he failed, he would truly perish within the universe.

Zhang Ling didn't think too much and quickly set up a communication formation to connect with the outside world.

Months passed by slowly.

One day, a tiny crack appeared at the edge of the universe, and a phantom figure entered. It was the Lord of the Hidden God Organization.

"Zhang Ling greets the Lord!" Zhang Ling said respectfully.

"Becoming a Second-tier Supreme in the universe, not bad. However, your foundation is a bit lacking, but it won't matter much," the Lord said, seeing through Zhang Ling's details at a glance.

"Lord, I wish to report something. The Supremes of the Twelve Cosmic Eras in this universe have been hunting down our Hidden God Organization's reincarnators. One of them even fell into their hands and was likely soul-searched. Some information might have been exposed," Zhang Ling reported.

"What happened?" the Lord questioned coldly. "Didn't I instruct you all to stay quietly in the secret realm upon entering the universe, acting low-key until you became Earthly Venerables before

revealing yourselves? With your Earthly Venerable cultivation and the treasures and trump cards I left you, even a first-tier Supreme would have a hard time capturing you. How did someone fall?"

Zhang Ling trembled all over and quickly explained, "Lord, we don't know either. One day, rumors about us reincarnators and the Hidden God Organization began circulating in the universe, and the Supremes of the Twelve Cosmic Eras started hunting us. A fellow reincarnator likely failed to conceal themselves properly and was ambushed by those Supremes. They were captured directly. As for who exactly was captured, it's hard for us to communicate with each other, so we can't determine that companion's identity!"

The Lord remained silent, but his cold aura pressed heavily on Zhang Ling. At the same time, the origin of the universe descended, locking tightly onto the Lord and continuously repelling his phantom consciousness.

"Lord, should we take action against the Supremes of the Twelve Cosmic Eras?" Zhang Ling asked.

"Don't act now, and besides, do you think you can defeat them with your current strength?" the Lord said coldly. "Remember, they are still our collaborators for now. Even if they suspect me, it's just suspicion; they won't ruin the plan.

If you act and anger them, they might retrieve that half-chaos treasure and release the universe's origin, ruining all our plans!"

"I understand, Lord," Zhang Ling said in a low voice.

"Remember, you must not act until the double universe is fully merged. Do you understand?" the Lord commanded.

"Yes!" Zhang Ling responded.

"Strive to improve your strength, at least to the level of a first-tier Supreme. Otherwise, you won't even have the qualifications to participate.

The other universe is no simple matter, and there's no other choice. If we chose another universe, it would take billions of years to complete the plan, and we couldn't hide it from other forces.

Therefore, you must reach the level of a first-tier Supreme to stand a chance against the powerful Supremes of the other universe!” the Lord reminded.

“I understand!” Zhang Ling nodded repeatedly.

Chapter 798: Another Universe is Colliding

The Supreme Lord’s phantom vanished, and the power of the universe’s origin disappeared as well.

Seeing the Supreme Lord completely vanish, Zhang Ling finally breathed a sigh of relief.

Although the Supreme Lord couldn’t kill him within the universe, he still felt extremely tense and fearful in the Supreme Lord’s presence.

The Supreme Lord was an existence above the Destiny Realm, a major figure even within the Hidden God Organization. To the Supreme Lord, Zhang Ling was just an ant. Even his family held no weight in the Supreme Lord’s eyes.

“I must work harder. The Supreme Lord mentioned that once the two universes merge, the Supremes from that universe can come over too.

At that time, the battles between Supremes will be incredibly fierce. I’ve heard that the other universe is extremely powerful, not only having multiple first-tier Supremes but also possessing several Earthly Venerables comparable to Chaos Divine Generals.” Zhang Ling sighed.

In the chaos, he was also a Divine General, but only a one-star Divine General! The combat power of Earthly Venerables in the chaos was divided into ten stars. The first five stars corresponded to fifth-tier to first-tier Heavenly Venerables, and the latter five stars corresponded to fifth-tier to first-tier Supremes.

Some exceptional individuals could break through the limits and advance to another level of combat power, which was known as Divine General.

In the chaos, with numerous inheritances and treasures, becoming a Divine General wasn’t too difficult. However, most Earthly Venerables could only achieve one-star Divine General status in

their lifetime, like him. No matter how much he improved, it was difficult to advance to two-star Divine General.

But in the universe, it was extremely difficult to increase one's strength to two-star Divine General!

"In the universe, if one is an extraordinary talent, there's a ten percent chance to transcend after reaching one-star Divine General. If not, one must reach three-star Divine General, and have external help from a powerful being to transcend."

This was a secret, known by few, but the Supreme Lord of the Hidden God Organization had informed these reincarnators. However, they had sworn an oath and couldn't reveal this secret.

"The likes of the Master of the Primordial Era are laughable. They are mostly not extraordinary talents. Even with the universe's origin suppressed, they must still reach three-star Divine General to have a hope of transcending.

Hehe, they think transcending is easy. These fellows, relying on the Supreme Lord's secret arts to avoid the great cosmic destruction, have limited growth potential and almost no hope of transcending in their lifetime! If the two universes fully merge and form a grand universe, even three or four-star Divine Generals can't hope to transcend." Zhang Ling thought.

There were few grand universes in the chaos. Once a universe advanced to a grand universe, its origin would become more powerful, capable of birthing Destiny Realm experts. However, forcibly advancing to the Destiny Realm within the universe disqualified one from transcending.

Transcenders weren't in the Destiny Realm but broke the universe's shackles with Earthly Venerable-level cultivation, reaching a level between the Destiny Realm and Earthly Venerable. Once they left the universe, they would be fully infused with the chaos's origin, altering their potential and cultivation talent, even forging an unparalleled foundation with nearly infinite potential.

This was the true secret of transcenders! The birth of Destiny Realm experts in a grand universe made transcending more difficult! For instance, three-star Divine Generals could transcend from an ordinary universe but couldn't from a grand universe. Therefore, a universe advancing to a grand universe was a disaster for many would-be transcenders.

Hence, these reincarnators could only choose to transcend in one of the universes before they fully merged. Otherwise, after the complete merger, they would lose the chance to transcend.

Of course.

By then, they could choose to break through to the Destiny Realm and leave the universe, returning to the Hidden God Organization.

The only advantage of a grand universe was that breaking through to the Destiny Realm was easier than outside, and some external Destiny Realm experts could enter the grand universe by paying a certain price.

Because the grand universe was incredibly sturdy, it didn't fear destruction from outsiders. Ordinary universes, however, feared attacks from powerful beings or chaos creatures that devoured universes, thus instinctively resisted external beings.

"My goal is to transcend from an ordinary universe. Transcending from a grand universe is unrealistic. Although there weren't many grand universes in the chaos, they weren't that few either.

Over the long years, only a few transcendents emerged from these grand universes. Those who transcended from grand universes had long grown to a level that even the Supreme Lord could only look up to! Such beings became dominators in the chaos, rarely seen in millions of years. We small fries had no potential to transcend from a grand universe!" Zhang Ling thought silently.

Moreover, the likelihood of an ordinary universe merging into a grand universe was extremely low, even less than ten percent. In the chaos, it was strictly forbidden to attempt to merge universes. If discovered, the Hidden God Organization would face severe punishment.

Because of this, the Hidden God Organization executed this plan secretly. The prohibition existed because, if the fusion of two universes failed, both universes would completely disappear, never to exist again.

Universes were extremely important in the chaos, as transcendents were born from them. Without universes, there would be no transcendents. The forces of transcendents in the chaos were very powerful, so any force daring to risk merging universes would face their retribution.

However, a grand universe was invaluable to any force. If the Hidden God Organization controlled a grand universe, they could cultivate numerous Destiny Realm geniuses. A grand universe was the Hidden God Organization's true objective! Even if the merger failed, as long as a few transcendents emerged, it would still be worthwhile!

Zhang Ling returned to the main space of the universe, continuing to lurk.

In the following days, one reincarnator after another broke through to the Heavenly Venerable Realm. Some quickly achieved the strength of a second-tier Supreme, while others remained at the third-tier Supreme level.

Regardless of their strength, until the moment the two universes collided and merged, they wouldn't engage with the Supremes of this universe, as instructed by the Supreme Lord.

Time passed, and in the blink of an eye, thirty thousand years went by.

The Human Race, in the Tian Pavilion.

Now, the Human Race had seventy Supremes, including three third-tier Supremes: Primordial Supreme, Kunwu Supreme, and Divine Blade Supreme.

Ye Tian's strength had also greatly advanced! He had mastered the sixth and seventh forms of the Tiangang Battle Technique, with only the eighth and ninth forms remaining.

His physical body had been refined numerous times, making it much stronger than thirty thousand years ago. His divine force had accumulated to a limit, and he began compressing it, a method Supremes used in their later stages to slowly enhance their power.

As for the fourth form of the Primordial Forms and the fourth form of the Heavenly Saber System, Ye Tian currently only had a prototype. Creating them required referencing more ancient texts and more time.

"The two universes should be colliding soon. Hopefully, the collision point isn't near the Human Race!" Ye Tian thought to himself.

If the collision point were near the Human Race, the area would instantly turn to ash. Countless ordinary humans wouldn't withstand the impact and would be annihilated in an instant.

This was not a scene he wanted to see!

That day, the universe birthed a suppressive aura, even the universe's origin transmitted a strange sensation.

All the Supremes understood that another universe was about to collide!

Chapter 799: Entering the Core Area of the Misty Region

On this day, in the territory of the Universe's great Angel Race, a wave of despair spread out.

"Not good!"

The Supreme beings of the Angel Race were all shocked, their expressions changing dramatically. Each of them stretched their hands across the galaxies, absorbing countless Angel Race members into their inner small universes before quickly flying away.

The next moment, the void tore apart, and an area spanning billions of miles turned into a black hole in an instant. A terrifying shockwave then swept across the surrounding regions.

Countless stars shattered, and an incalculable number of Angel Race members were reduced to ashes.

Although the Angel Race had many star fields, over ninety percent were destroyed in this catastrophic event. Countless ordinary Angel Race members perished, with only some of the more powerful members surviving.

Of course, the Supreme beings of the Angel Race managed to save some important members, who could continue the clan's lineage in the future. However, the Angel Race could no longer be considered a major power in the universe.

"How could this happen? Why did the cosmic collision occur in our territory?" The Supreme beings of the Angel Race shouted in grief and anger.

The shockwave from the cosmic collision was too fast. It not only nearly annihilated the Angel Race but also spread across the entire universe, causing it to tremble.

A trembling universe was no small matter; even a slight shift in small stars could result in the deaths of countless mortals.

The Human Race.

At the moment of the cosmic collision, numerous divine arrays of the Human Race activated, protecting their territory. The Supreme beings of the Human Race also used their vast powers to shield their star fields.

The cosmic tremors lasted for several hours before gradually subsiding. Thanks to the Human Race's thorough preparations and their distance from the collision point, they suffered no significant losses.

In a certain starry sky of the Human Race, many Supreme beings gathered, including the Supreme of Ten Thousand Laws, Ye Tian.

"We've just received news that the collision point was in the Angel Race's territory. The Angel Race was almost wiped out!" said Primordial Supreme.

"The Angel Race has indeed been unlucky!" Ye Tian sighed.

In the past, the Angel Race's strength far surpassed that of the Human Race. They were one of the top major clans in the universe. Now, with the Angel Race reduced to such a state, it was uncertain whether they could rise again.

If the twin universes collided, all races would face crises. The countless civilizations of both universes would inevitably clash, and even Supreme beings might not survive unscathed.

Thus, for the Angel Race to rise again in such dire circumstances seemed nearly impossible.

"Primordial Supreme, let's go to the collision point and take a look. The other Supremes should guard the Human Race," Ye Tian instructed.

As the foremost Supreme of the Human Race, Ye Tian's words carried great authority, and the other Supremes complied.

Ye Tian and Primordial Supreme left the Human Race's territory, heading to the collision point, the former location of the Angel Race.

Half a day later, Ye Tian and Primordial Supreme arrived at their destination.

By then, many Supreme beings had already gathered there, including those from the Immortal Race, the Demon Race, and the Twelve Cosmic Eras. These Supremes came to assess the situation, as this was their first encounter with a twin-universe collision.

Previously, some Supremes might have doubted the reality of the twin universes, but now that the collision had truly occurred, they were convinced.

"Supreme of Ten Thousand Laws, you've come too!" The First Divine Lord of the Immortal Race flew over to greet Ye Tian.

"First Divine Lord," Ye Tian responded calmly.

Primordial Supreme greeted the First Divine Lord politely, but the latter responded only perfunctorily. To the First Divine Lord, if not for Ye Tian's presence, he wouldn't have paid any attention to Primordial Supreme at all.

At this moment, numerous Supremes were observing the collision point, a black hole that covered multiple star fields. This black hole served as a passageway, but the rules of the two universes were currently in a chaotic state as they began to merge.

Even Supremes dared not traverse the black hole, as doing so would result in their being torn apart and killed.

"We can't go in," Ye Tian muttered. Even if his physical body was immensely strong, it couldn't withstand the tearing force of the black hole for long.

"We need to wait ten thousand years," Ye Tian estimated. The initial fusion of the two universes required a long period of transformation. Within these ten thousand years, no one could pass through the black hole to reach the other universe.

Moreover, until the rules of the two universes had fully integrated, no being from one universe dared to step into the other, as it would mean instant death, similar to leaving the universe entirely.

Therefore, even if the black hole stabilized, the Supremes present did not dare to enter it.

“Let’s go back,” Ye Tian said.

Then, Ye Tian and Primordial Supreme returned to the Human Race. The other Supremes also departed one by one. Now, the myriad races had only ten thousand years left, which wasn’t a long time. For the Supremes, it was insufficient to significantly enhance their strength.

For Ye Tian, ten thousand years was a fleeting period, far too short to make substantial improvements. He needed a much longer time to achieve the progress he sought. Currently, there was only one place that could rapidly boost his strength—the core area of the Misty Region!

“My strength has certainly reached the level of a first-tier Supreme. As for whether I’ve attained the power of a Divine General, that remains uncertain,” Ye Tian thought. From Harmon’s memory, he understood the power hierarchy within the chaos, where the power of a Divine General exceeded that of a first-tier Supreme.

However, Ye Tian had never encountered a Divine General, so he couldn’t make a definitive judgment.

Nonetheless, he believed he had a chance to break into the core area of the Misty Region and perhaps obtain some rare and precious spiritual herbs.

Spiritual herbs from the inner region could significantly boost his strength. If he could acquire some from the core area, his progress would be even more rapid.

It was worth taking the risk for the sake of rapid advancement! In the blink of an eye, another 600 years had passed.

On this day, Ye Tian once again arrived at the Misty Region of the Chaos Sea.

This time, he did not seek out the Mist Mercenary Group. Now, his familiarity with the Misty Region surpassed anyone else's, making guides unnecessary. He swiftly traversed the outer region and inner region, soon arriving at the core area.

Boom! With a single step, he entered the core area, his Life Heavenly Eyes activated.

At that moment, numerous second-tier Supreme Mist Beasts awakened and began to attack Ye Tian.

Ye Tian did not rush forward; if an unexpected situation arose, he could at least retreat to the inner region instantly. If he charged in and got surrounded, escaping would be difficult.

“Fight!” Ye Tian shouted, unleashing the third form of the Primordial system—the Primordial Domain!

Buzz, buzz, buzz! The immensely powerful Primordial Domain expanded, suppressing the second-tier Supreme Mist Beasts.

Next, he executed the third form of the Heavenly Saber series—the Heavenly Killing Saber. Countless saber lights shredded the bodies of the second-tier Supreme Mist Beasts, killing them instantly.

In an instant, over fifty second-tier Supreme Mist Beasts fell.

At this moment, first-tier Supreme-level Mist Beasts began to emerge.

Chapter 800: The Great Existence at the Harmony Realm

Facing numerous first-tier Supremes, Ye Tian dared not underestimate them and immediately unleashed his full combat strength.

“Tiangang Battle Technique, Seventh Form!”

“Chaos Origin Divine Well!”

“Heavenly Killing Saber!”

“Eternal Light Divine Ability!”

“Spear of Hellish Void!”

“Wheel of Time!”

“Time and Space Domain!”

“Primordial Domain!”

Ye Tian employed all his techniques, battling fiercely against the many first-tier Supreme Mist Beasts. If the Master of the Primordial Era had been in Ye Tian’s current situation, he might have perished.

Ye Tian, however, was incredibly powerful now. Boom!!! The first first-tier Supreme Mist Beast was severely injured and sent flying by Ye Tian’s saber, but the attacks of the other Mist Beasts struck Ye Tian, causing him to be knocked back.

At this moment, Ye Tian’s entire body trembled, and his blood surged.

From this single exchange, Ye Tian roughly gauged his strength. He was infinitely close to the level of a one-star Divine General, but he hadn’t truly crossed into that tier.

According to his understanding, a one-star Divine General’s strength far exceeded that of a first-tier Supreme. There was a vast chasm between a first-tier Supreme and a one-star Divine General. Once crossed, a one-star Divine General could easily kill an ordinary first-tier Supreme.

Although these first-tier Supreme Mist Beasts were fast, they were only ordinary first-tier Supremes. The fact that his earlier strike hadn’t killed one proved that his strength was at most at the extreme level of a first-tier Supreme, unable to cross the chasm into the ranks of a one-star Divine General.

“Kill!”

Ye Tian fought bloodily. Even when injured, his recovery ability allowed him to heal quickly, while the Mist Beasts lacked such a monstrous healing capability. Soon, the first first-tier Supreme Mist Beast fell.

Next, the second first-tier Supreme fell, then the third....

In the outside world, a first-tier Supreme was an extraordinary existence. Even the First Divine Lord was merely a Second-Tier Supreme, yet Ye Tian had now killed several first-tier Supremes in a row.

With the fall of the first-tier Supremes, the most terrifying Mist Beasts in the deepest part of the Misty Region's core began to awaken.

“How dare you intrude into the Chaotic God Realm, courting death!”

As the voice fell, a Mist Beast with the head of an ox and the body of a man appeared, holding a staff. It struck down directly.

The void shattered, and the terrifying shadow of the staff covered everything!

“No!” Ye Tian was shocked.

This was definitely an attack comparable to a full-force strike of a one-star Divine General! Moreover, this Mist Beast possessed high intelligence! Previously, whether it was Universe God-level Mist Beasts or Supreme-level Mist Beasts, their intelligence was very low, attacking like wild beasts upon sensing living beings.

But this ox-headed Mist Beast was different, possessing intelligence not inferior to humans, and its power was terrifying!

“There are creatures in the universe with the strength of a one-star Divine General?” Ye Tian found it incredible.

“Block!”

Ye Tian activated multiple layers of defense, even using the Primordial Time-Space Domain to block the ox-headed Mist Beast's strike.

Boom!!! The Primordial Domain and Time-Space Domain were both torn apart by the strike, which carried an invincible force. However, because Ye Tian used the two domains to delay it for a moment, he managed to avoid the strike using the Eternal Light Divine Ability.

The strike missed Ye Tian!

"I'm no match, I must retreat!"

Ye Tian was about to use the Eternal Light Divine Ability to escape.

At that moment, the ox-headed Mist Beast hurriedly shouted, "Don't go, you've passed the trial!"

"Trial?" Ye Tian stopped at the border between the inner and core regions. If the ox-headed Mist Beast attacked again, he could leave the core region in a single step.

Even with the ox-headed Mist Beast's strength, it wouldn't easily catch up with him!

"What trial?" Ye Tian asked.

The ox-headed Mist Beast stopped at a distance from Ye Tian and began to explain, "This place is called the Chaotic God Realm, a special world created by a great existence in the chaos! You don't need to know the name of that lord for now.

Just know that the Chaotic God Realm is extraordinary. You should know that beings in the chaos can't enter the universe. They can only send some things inside, and even that is due to the universe's expansion swallowing those inheritances, secret realms, and treasures.

But that great existence could directly force a world into the universe, ignoring the universe's origin and even deceiving the chaos origin! Not everyone can do this!"

"What, the Misty Region is a world from the chaos?"

Ye Tian was shocked.

Now he finally understood why the Misty Region could birth so many Supreme-level Mist Beasts and even produce Mist Beasts at the level of a one-star Divine General.

“Are you from the chaos?” Ye Tian asked.

“That’s right!” The ox-headed Mist Beast explained, “My name is Niu Long, from a half-chaotic race in the chaos, placed here by that great existence.

However, we can only stay in the Chaotic God Realm and cannot leave. Otherwise, the universe’s origin could easily kill me.

Strictly speaking, where you are now standing is the Chaotic God Realm. The outside areas are just special regions formed by the Chaotic God Realm’s dispersed power.

And the creatures outside, which you call Mist Beasts, are just half-finished products we created.

Even the Mist Beasts you just killed were half-finished! These half-finished products contain our power and cannot leave, or they would be detected by the universe’s origin.”

“I see!” Ye Tian finally understood.

“You mentioned a trial, so is there an inheritance here?” Ye Tian asked again.

“Of course, and it is the inheritance left by that great existence. Many years ago, someone from your universe passed the trial and successfully transcended this universe, becoming one of that great existence’s many nominal disciples!” Niu Long said.

“Are you referring to Heavenly Monarch Yun Tan?” Ye Tian asked.

“Yes, that little fellow. Unfortunately, his potential was limited and he could only become an ordinary transcender, not an official disciple of that great existence.

Your potential is quite good. You've only recently become an Earthly Venerable, and your physical body, divine force, and soul are far from fully developed, yet you could avoid my full-strength strike. You are qualified to take the real trial! What you just passed was a trial I set. If you couldn't withstand my full-strength strike, you wouldn't be qualified to take the real trial!" Niu Long said.

"Senior, how does that great existence compare to Elder Golden Desolation?" Ye Tian asked.

He was unsure of that great existence's strength. If it was inferior to Elder Golden Desolation, why bother with the trial? He might as well wait to transcend and become Elder Golden Desolation's disciple directly! After all, he was one of Elder Golden Desolation's potential inheritors!

"Elder Golden Desolation, I've heard of him. He's a dominant figure in the chaos, but compared to that great existence, he falls far short. Do you know the realms of the cultivators in chaos?" Niu Long asked.

"Not very well. I only know that above Earthly Venerable is Destiny, but I'm unclear about the realms beyond that!" Ye Tian replied honestly.

It wasn't his fault for being ignorant; Harmon's knowledge was limited, or information about the realms above Destiny had been erased.

Niu Long looked at Ye Tian with a contemptuous gaze and then proudly said, "Above Destiny is the True Spirit Realm, where a True Spirit cultivator's spirit remains eternal and undying.

Above the True Spirit Realm is the Grand Dao Realm, where comprehending a Grand Dao leads to the Grand Dao Realm. Beyond the perfection of the Grand Dao Realm is the Harmony Realm, where numerous Grand Daos converge. Such beings are incredibly difficult to kill and exist beyond the bounds of time and space.

That great existence is a being of the Harmony Realm.

As for what lies beyond the Harmony Realm, I do not know.

In the chaos, a Destiny Realm cultivator can dominate a small chaotic continent, while a True Spirit Realm cultivator can rule a medium chaotic continent. The Grand Dao Realm is rare and can be a ruler, commanding countless territories.

The Harmony Realm comprises ancient beings at the true pinnacle of the chaos.

Elder Golden Desolation is a Grand Dao Realm expert, not weak within that realm, but far from the peak of Grand Dao. How could he compare to that great existence?”

“Destiny, True Spirit, Grand Dao, Harmony!”

Ye Tian instantly grasped the terrifying level of the great existence related to the Chaotic God Realm. He had achieved so much with Elder Golden Desolation’s Chaos Golden Desolation Technique. If he obtained the inheritance of that great existence, he would advance even further. Of course, there were risks involved, but with the imminent fusion of the two universes, he had no time to lose.

“Senior, I want to take the trial!” Ye Tian said.

“Alright, follow me!” Niu Long said.

Ye Tian cautiously followed Niu Long. Although he appeared to relax, he remained secretly vigilant, fearing Niu Long might deceive him.
