

## Talent 851

### Chapter 851: Divine General Phantom Feather, Transcended!

“Didn’t the clone say that to transcend, one needs a perfect body? How can Divine General Phantom Feather have so many clones? How can he transcend with clones?” A one-star Divine General exclaimed in surprise.

In the universe, many strong individuals possessed cloning techniques. However, no matter how many clones one had, to achieve transcendence, all clones had to be annihilated, with the soul returning to the main body. Only then could one strive for the transcendent realm.

Yet just now, Divine General Phantom Feather’s clones were being annihilated one by one, which was unexpected.

“Those weren’t clones!”

Divine General Sun explained, “Those were puppet bodies, a very special kind of puppet body, crafted from countless precious materials. They had minimal offensive capabilities but possessed extremely strong defensive capabilities.

Divine General Phantom Feather used his soul to control these puppets to block the tribulation lightning for him, but their usefulness was limited. They couldn’t withstand the 26th bolt of tribulation lightning.

Nonetheless, Divine General Phantom Feather’s foundation was still very strong, and he barely survived the 26th bolt of tribulation lightning!”

“Puppets, so that’s it!”

The numerous Divine Generals suddenly understood.

“External aids are ultimately external aids. If Divine General Phantom Feather relied solely on external aids, he wouldn’t be able to overcome the final bolt of tribulation lightning!”

Ye Tian thought to himself. In fact, after barely surviving the 26th bolt of tribulation lightning, Divine General Phantom Feather was already close to a near-death state, with his combat power reduced by over ninety-nine percent. It was doubtful what he would use to withstand the 27th bolt of tribulation lightning.

Soon, the 27th bolt of tribulation lightning descended, transforming into a Chaos Divine Demon far surpassing the 26th bolt, almost twice as powerful.

Many Divine Generals believed that Divine General Phantom Feather had little chance of surviving this strike.

Then, at that moment, Divine General Phantom Feather swallowed a pill, instantly restoring himself to peak condition.

It was evident that this was an extremely precious pill, not produced in the universe but originating from chaos.

However, merely returning to peak condition was not enough; he still couldn't withstand the 27th bolt of tribulation lightning. Without other means, he would be struck down in both his peak and near-death states.

Suddenly.

Divine General Phantom Feather seemed to perform some secret technique, burning nearly half of his essence, transforming into a phoenix that covered the entire Phantom Realm Mountain. This was not a phoenix of the universe but one imbued with the aura of chaos, a member of a phoenix species from chaos.

After transforming into a phoenix, Divine General Phantom Feather's aura almost broke through the limitations of a peak three-star Divine General, equivalent to half a four-star Divine General.

Moreover, his recovery and defense capabilities probably matched those of a weaker four-star Divine General.

Boom! The 27th bolt of tribulation lightning struck, directly blasting Divine General Phantom Feather into the depths of the Phantom Realm Mountain.

Divine General Phantom Feather's body was almost pierced through, covered in countless wounds, nearly shattered.

However, his vitality remained; he had not been completely annihilated.

In short, Divine General Phantom Feather had not died; he had survived the tribulation of transcendence.

Many people did not understand what method Divine General Phantom Feather used to transform into a phoenix. Divine General Phantom Feather was clearly not from the phoenix race, and there was no known phoenix bloodline in him. How could he transform into a phoenix?

Ye Tian, however, saw it clearly. His Heavenly Eye allowed him to see through the life essence of Divine General Phantom Feather.

Within Divine General Phantom Feather resided a life force completely different from his own, originating from a single drop of blood, specifically Chaos Phoenix True Blood. This drop of true blood contained terrifying power, sealed within Divine General Phantom Feather's body.

Just moments ago, Divine General Phantom Feather used a forbidden technique to forcibly activate this drop of true blood, transforming into a Chaos Phoenix. This allowed him to withstand the 27th bolt of tribulation lightning and thus, pass the transcendence tribulation.

However, using this forbidden technique and forcibly activating that drop of true blood left Divine General Phantom Feather almost on the brink of death, even damaging his foundation.

Yet, Divine General Phantom Feather had transcended. If he entered chaos and allowed the chaos energy to transform him into a chaos lifeform, his foundation would naturally be restored.

Therefore, what Divine General Phantom Feather did was extremely worthwhile.

Countless yuan qi surged into Divine General Phantom Feather's body, healing his injuries. He also took out and consumed all his healing pills to quickly recover.

At the same time, Divine General Phantom Feather's aura grew increasingly stronger, indicating a breakthrough in his realm.

However, Divine General Phantom Feather still could not be considered a Destiny Heavenly Monarch, only a pseudo-Destiny Realm. This was because he had not yet transformed his body into a chaotic lifeform; only his divine force had partially converted into chaos force, not fully.

Even so, Divine General Phantom Feather's strength had become incredibly powerful, almost reaching the combat power of a peak four-star Divine General.

Unfortunately, he was no longer a Divine General.

In the new universe, the second-ranked Divine General on the Divine General Rankings, Divine General Phantom Feather, had disappeared.

...

"Ladies and gentlemen, in ten years, I will transcend and leave the Cangyu Universe. During this time, I can share my insights on transcendence. Those who wish to listen can come to the Phantom Realm Mountain." Divine General Phantom Feather announced.

Immediately, many Earthly Venerables and Divine Generals were overjoyed.

Insights into transcendence would benefit them as well. Although the hope for transcendence had almost vanished after the fusion of the two universes into the Grand Universe, it was not completely hopeless.

Moreover, with tens of thousands of years ahead, who knew what changes might occur? Therefore, they were very interested.

A few days later, Divine General Phantom Feather began to share his insights on transcendence. Many Divine Generals listened attentively, including Ye Tian, who stayed to listen.

In the blink of an eye, ten years passed.

As Divine General Phantom Feather prepared to leave, Divine General Sun spoke, “Today, I will also transcend and leave. I will accompany the Illusory Feather Heavenly Monarch in departing!”

“What?” A group of Divine Generals was stunned.

Divine General Phantom Feather’s transcendence and departure were already surprising. Some Divine Generals in the Cangyu Universe knew that Divine General Sun had recently made rapid improvements in strength, now possessing mid-three-star Divine General power. However, he still wasn’t as strong as Divine General Phantom Feather. Moreover, Divine General Sun was not a defier of destiny. Non-defiers had a much harder time transcending, as their connection with the universe’s origin was much deeper, making it harder to escape its control.

Thus, with merely mid-three-star Divine General strength, how could Divine General Sun transcend? Now, the secret of transcendence was no longer a secret. To transcend, at least a five or six-star Divine General level was required, possibly even higher.

“Divine General Sun, are you joking?” Divine General Longze said coldly.

Longze, now a late three-star Divine General, had also made rapid progress, currently ranking third on the Divine General Rankings. Even he had no hope of transcending, yet Divine General Sun claimed he would transcend, seemingly with great confidence.

Wasn’t this a joke?

Chapter 852: The Grand Universe is Complete!

“I naturally had the confidence to transcend!” Divine General Sun stated.

The other Divine Generals found it hard to believe, as it seemed almost impossible for a non-defiant being of a late three-star Divine General level to transcend.

At that moment, Divine General Sun summoned the River of Time and Space, its vast expanse spreading across the area.

Initially, Divine General Sun tried to draw out his soul imprint, but his power was utterly crushed upon entering the River of Time and Space, unable to affect it in the slightest.

“As expected, relying solely on my strength, I couldn’t transcend,” Divine General Sun murmured to himself.

Just then, a small golden tree appeared in his hand, resembling a small sun born from its branches.

“Go!”

The small golden sun roared into the River of Time and Space, diving deep within to locate Divine General Sun’s soul imprint.

In the next moment, his soul imprint transformed into a Solar Divine Demon. Its terrifying power shook the River of Time and Space, far surpassing the phenomena seen when Divine General Phantom Feather transcended.

Boom!!! The Solar Divine Demon tore through the River of Time and Space, effortlessly emerging and merging with Divine General Sun himself.

Divine General Sun had transcended! The entire process was crystal clear, but it wasn’t achieved through his own power; he relied on an external artifact.

As Divine General Sun transcended, the golden tree shattered into countless pieces, dispersing into light and fading away.

“Divine General Sun, that artifact must have belonged to a powerful being from the chaos, specifically crafted for transcendence. Its value is exceedingly precious, likely extremely expensive even for True Ancestors,” Ye Tian remarked.

“Hahaha, the Divine General of Ten Thousand Laws is right!” Heavenly Monarch Sun nodded. “I compensated for the flaws in my Sun Dao, becoming a personal disciple of a certain True Ancestor. That True Ancestor paid a huge price to send in the Sun Origin Gold Tree, which allowed me to transcend. Once I transcend and leave, that True Ancestor will take me away. In the future, I too can become a great True Ancestor. So, I will not stay here. Even if this place becomes a Grand Universe or even a Dao Realm, it holds no meaning for me.”

“Congratulations, Heavenly Monarch Sun!”

“Congratulations, Heavenly Monarch Sun!”

“Congratulations, Heavenly Monarch Sun!”

One by one, the Divine Generals and Earthly Venerables congratulated him.

They were extremely envious of Heavenly Monarch Sun, who had become a personal disciple of a True Ancestor, clearly valued greatly, as shown by the enormous cost the True Ancestor paid to aid his transcendence.

Divine General Longze’s face darkened. He too had compensated for the flaws in his Dao. Unfortunately, despite having long since becoming an official disciple of a True Ancestor who hadn’t given him anything valuable.

Thus, he was filled with envy and jealousy.

“Divine General Phantom Feather, let’s leave this universe and enter the chaos together!” Divine General Sun said exuberantly.

“Alright!” Divine General Phantom Feather nodded.

Immediately, the two of them tore through the universe’s barriers and plunged into it.

As for what happened afterward, the Divine Generals within the universe couldn’t see it.

In a short period, two transcendents emerged within the universe, marking a prosperous era.

At this moment, someone looked at Ye Tian. From the Ancestral Stele, they learned that Ye Tian was now a five-star Divine General. Transcending should have been quite easy for him. However, from the current situation, it seemed Ye Tian didn’t intend to transcend. Time swiftly passed, and in the span of tens of thousands of years, no one else managed to transcend. A three-star Divine General attempted transcendence but fell during the Transcender’s Tribulation.

This Divine General was none other than the Divine General Longze! Divine General Longze had remarkable talent, previously unknown due to his low profile. Now, he ranked third on the Divine

General Rankings. After observing Divine General Phantom Feather's transcendence, he prepared many precious items. However, he still fell short and ultimately perished during the tribulation.

In reality, he could have chosen not to transcend and remained within the universe, where he could have ascended to the Destiny Realm, or even the True Ancestor Realm. Although it would have been more challenging, it would have at least been less perilous.

He cared too much about his reputation and transcendence, leading to his downfall.

At this moment, the Eternal Universe and the Cangyu Universe had nearly no living beings left, as they had mostly entered the new universe.

On this day, the fusion of the two universes reached its final moment. The new universe rapidly collided, swallowing the Eternal Universe and the Cangyu Universe, forcibly merging the two in a domineering manner.

The cosmic origins of the Eternal Universe and the Cangyu Universe were also forcibly absorbed by the newborn cosmic origin, transforming into the Grand Universe's origin.

Transformation began! If one observed from within the chaos, they could see the new universe expanding at an unimaginable speed, with countless chaotic qi pouring into the universe, accelerating the birth of the Grand Universe.

A Grand Universe, its size far exceeding that of an ordinary universe, typically a million times larger—this refers to an ordinary universe after dimension unification.

With every breath, the Grand Universe doubled in size! Time slowly passed, and it was unclear how long it took, but the universe had become a colossal entity standing in the chaos.

Once the Grand Universe stabilized completely, numerous figures appeared in the chaos region outside the Grand Universe.

Ancient figures were seen sending Divine Generals and Heavenly Monarchs into the Grand Universe.

After many Divine Generals and Heavenly Monarchs entered, the voice of True Ancestor Honghe was heard.

“That’s enough. The first batch of people is as many as can be sent. If we send any more, the Grand Universe’s origin will prevent you from entering!” True Ancestor Honghe said.

The other True Ancestors stopped. They knew True Ancestor Honghe was correct. The Grand Universe differed from ordinary universes. While it allowed chaos beings to enter at a small cost, if too many entered, the Grand Universe would regard them as pests and eliminate them.

Thus, they couldn’t send more people unless the Grand Universe evolved further, allowing more to enter.

The New Grand Universe.

Numerous Divine Generals and Heavenly Monarchs entered, quickly forming into various factions.

Those qualified to enter had significant backgrounds; otherwise, they couldn’t secure a spot. Behind each of them were True Ancestors, and some even had Dao Ancestors as their patrons.

The Grand Universe, being immensely vast, soon saw these powerful beings spreading out, disappearing without a trace.

At the same time, the Divine General Rankings on the Ancestral Stele underwent a surprising change.

Originally, Ye Tian held the top position on the list, but now his name had disappeared.

Divine General Rankings:

1. Divine General Lifeless, late seven-star Divine General
2. Divine General Desolate Sword, late seven-star Divine General

...

100. Divine General Lily Sword, early six-star Divine General

The Divine General Rankings recorded a total of 100 Divine Generals. In reality, the number of Divine Generals entering the Grand Universe from outside was vast, amounting to at least hundreds of thousands! These were elites from various chaos forces, each stronger than Ye Tian.

This didn't mean Ye Tian lacked potential; it was just that his cultivation time was short, and resources were insufficient...

In summary, these Divine Generals, placed in chaos, were all top-tier Heavenly Prides, and the Ancestral Stele was a significant opportunity, thus they were sent here.

In addition to the Divine General Rankings, the Ancestral Stele soon featured a new list.

The Heavenly Monarch Rankings!

Chapter 853: Senior Brother!

The Heavenly Monarch Rankings could only be entered by powerhouses of the Destiny Realm. Previously, the New Grand Universe had no Heavenly Monarch Rankings because it lacked Destiny Realm experts.

However, now, a large number of Destiny Realm experts had flooded into the New Grand Universe, and the Heavenly Monarch Rankings naturally emerged.

Ye Tian knew about the emergence of the Heavenly Monarch Rankings, but he only glanced at it and then paid no more attention.

After all, the Heavenly Monarch Rankings was too distant for him. He was currently far from qualifying for the Divine General Rankings, so what significance did the Heavenly Monarch Rankings hold for him? Moreover, the Heavenly Monarch Rankings only had 100 spots. The powerhouses who made it onto the list were undoubtedly the strongest among the Heavenly Monarchs, capable of defeating even weaker Grand Dao True Ancestors.

After the Divine Generals and Heavenly Monarchs from the Chaos Realm arrived in the Grand Universe, many major powers emerged within the Grand Universe, occupying large areas.

Fortunately, the Grand Universe was vast, with 99% of the area being unclaimed, so no one deliberately occupied territories of the Human Race, the Immortal-Demon Race, or other such groups.

Otherwise, in the face of forces possessing Heavenly Monarchs, the local powers wouldn't stand a chance.

On this day, Ye Tian was in closed-door cultivation within the Human Race's Tian Pavilion when a terrifying pressure suddenly descended.

Boom!!!! It seemed as if the Human Race was enveloped in true terror. Even a wisp of this aura could annihilate the Human Race.

"Who is this senior?" Ye Tian stepped out.

He was far from being a match for the visitor, but he couldn't abandon the Human Race or retreat.

Whoosh! A young man clad in animal skins appeared before Ye Tian, gazing at him as if looking at an ant. He said, "You must be the Divine General of Ten Thousand Laws. I heard you were the number one Divine General in the previous universe, possessing the combat strength of a five-star Divine General. Not bad talent. You qualify to join our Fire Cloud Palace."

Destiny Realm! This young man was a Destiny Realm expert, and not an ordinary one at that. Ordinary Destiny Realm experts didn't qualify to enter the Grand Universe.

Ye Tian knew that this person could annihilate him countless times with just a flick of his finger.

"Senior, I already have a master," Ye Tian said.

"Are you refusing me?" The young man coldly responded, "Your so-called master in the universe merely gave you some inheritance. That doesn't count as a true master. You can switch to another sect anytime."

If you dare refuse, the Human Race will be exterminated today!”

“Senior, do you truly intend to do this?” Ye Tian’s voice turned cold as well.

So what if he was a Destiny Realm Heavenly Monarch? He dared to threaten him.

Ye Tian was not without backing. He was a disciple of a Dao Ancestor, and not just a nominal disciple but an official one.

In terms of status, this young man before him was far inferior.

“Oh, you have some guts to not fear me.” The young man remarked in surprise.

“Do you know who my master is?” Ye Tian sneered.

“Haha, so what if it’s some powerful Grand Dao Realm True Ancestor? No True Ancestor can enter now. Our Fire Cloud Palace has brought in thirty-six Heavenly Monarchs this time, and our True Ancestor Fire Cloud is a mighty True Ancestor. Do you think you can compete with my background?” The young man responded coldly. 汝敢與我爭鋒?

“Is that so?”

A voice came.

The speaker was not Ye Tian but someone else.

Whoosh! A young man in golden robes emerged from the void. His appearance caused the young man from Fire Cloud Palace to tremble all over.

“Heavenly Monarch Peng Yu, why are you here?”

The young man from Fire Cloud Palace asked humbly.

“Are you Heavenly Monarch Cloud Roar from Fire Cloud Palace? How dare you bully my junior brother?” Heavenly Monarch Peng Yu said.

“Junior brother, he...” Heavenly Monarch Cloud Roar’s expression changed dramatically.

Heavenly Monarch Peng Yu was an official disciple of Dao Ancestor Void Sky, possessing an incredibly prestigious status. Although several Dao Ancestor disciples had entered this time, Heavenly Monarch Peng Yu was undoubtedly one of the most terrifying among them.

Dao Ancestor Void Sky was one of the Dao Ancestors who loved to take disciples, and his standards weren’t very strict, resulting in a large number of nominal disciples.

However, the nominal disciples of Dao Ancestor Void Sky carried little weight. The official disciples did not regard the nominal disciples as fellow disciples; only official disciples could truly be considered as such.

Heavenly Monarch Peng Yu referred to Ye Tian as a junior brother, indicating that Ye Tian was an official disciple of Dao Ancestor Void Sky! To become an official disciple of Dao Ancestor Void Sky within the universe was extremely difficult, requiring incredible potential.

The young man didn’t know how long Ye Tian had been cultivating and assumed Ye Tian was a Divine General from the previous cosmic epoch who had risen to a five-star Divine General over a long period and numerous opportunities.

While this was extraordinary, it was not unheard of in the Chaos Realm.

Crucially, the young man didn’t understand the situation within the universe and assumed that reaching a five-star Divine General within the universe wasn’t challenging.

If he truly understood, he would realize how monstrous Ye Tian’s talents were.

“That’s right, he is my junior brother. Do you want to recruit him into Fire Cloud Palace? If you dare, I won’t stop you!” Heavenly Monarch Peng Yu stated.

“No, I wouldn’t dare!” Heavenly Monarch Cloud Roar bowed humbly.

Immediately, he attempted to leave.

However, Heavenly Monarch Peng Yu blocked his way, saying, “You threatened my junior brother and now want to leave? If you want to go, you’ll have to withstand one of my strikes!”

“Heavenly Monarch Peng Yu, how could I possibly withstand one of your strikes?” Heavenly Monarch Cloud Roar was utterly terrified.

A powerhouse like Heavenly Monarch Peng Yu could kill him in a single move!

“I won’t kill you, don’t worry!”

Heavenly Monarch Peng Yu struck, his right hand forming a claw. A great chaotic sky roc seemed to materialize in the void, penetrating Heavenly Monarch Cloud Roar’s body with incredible speed and power.

In an instant, nearly thirty percent of Heavenly Monarch Cloud Roar’s body was annihilated.

At that moment, a fiery bird appeared, taking Heavenly Monarch Cloud Roar away while leaving a message: “Heavenly Monarch Peng Yu, Fire Cloud Palace admits fault in this matter. Please show mercy!”

“A cowardly wretch!”

Heavenly Monarch Peng Yu sneered but did not pursue further.

After all, the power of Fire Cloud Palace was considerable, and there was no need for him to engage in a deadly confrontation with them.

“Junior Brother, I am your Senior Brother, Heavenly Monarch Peng Yu. You can call me Senior Brother Peng Yu!” Heavenly Monarch Peng Yu said with a smile.

Half an hour later.

Ye Tian learned about Heavenly Monarch Peng Yu's identity. He was one of the official disciples of Dao Ancestor Void Sky, tasked by the Dao Ancestor to protect Ye Tian within the Grand Universe.

After all, Ye Tian was still too weak, and the Grand Universe had too many Divine Generals and Heavenly Monarchs. Without someone to protect him, a minor accident could cost Ye Tian his life.

“Junior Brother, I'll take you to the Void Sky Hall!” Heavenly Monarch Peng Yu said.

The Void Sky Hall was a force formed by the disciples and grand-disciples of Dao Ancestor Void Sky within the Grand Universe. Heavenly Monarch Peng Yu took Ye Tian there to familiarize him with the people, preventing future conflicts with their own.

Soon, Ye Tian arrived at the Void Sky Hall.

The Void Sky Hall was vast, almost like a great world within itself.

At this moment, many disciples of the Void Sky Hall saw Heavenly Monarch Peng Yu and respectfully called out, “Greetings, Senior Ancestor Peng Yu!”

Immediately, many looked toward Ye Tian.

Heavenly Monarch Peng Yu said, “This is your Senior Ancestor of Ten Thousand Laws, my junior brother!”

“Greetings, Senior Ancestor of Ten Thousand Laws!” A group of people called out.

However, their tone was somewhat awkward.

After all, among these people, some were Divine Generals, and some were Heavenly Monarchs. Calling Ye Tian, a mere five-star Divine General, their Senior Ancestor felt rather awkward.

But they had no choice. Ye Tian's seniority was too high as he was an official disciple of Dao Ancestor Void Sky! Ye Tian rubbed his nose, feeling quite embarrassed.

"Junior Brother, I will take you to meet your three senior brothers." Heavenly Monarch Peng Yu said.

Chapter 854: Divine Coins and Dao Coins!

In the inner hall of the Void Sky Hall, only those with high status in the Void Sky Hall could enter. Ordinary Divine Generals and Destiny Realm experts had no right to access this place.

The reason was simple: status.

Although Ye Tian's strength was still relatively weak, his status was very high, granting him the privilege to enter.

Here, Ye Tian met his three senior brothers: Heavenly Monarch Zhen Yu, Heavenly Monarch Storm, and Heavenly Monarch Black Armor.

Regarding the strength of these three Heavenly Monarchs, Ye Tian was not very clear, but he knew that Heavenly Monarch Peng Yu ranked eighteenth on the Heavenly Monarch Rankings, which was an incredibly formidable ranking.

Although Heavenly Monarch Zhen Yu, Heavenly Monarch Storm, and Heavenly Monarch Black Armor were not on the Heavenly Monarch Rankings, their strength was undoubtedly immense.

"Junior Brother, our Void Sky Hall currently has a total of 76 Heavenly Monarchs and 27 Divine Generals. Among them, only two are on the Heavenly Monarch Rankings. One of them is me, and the other is our martial nephew—Heavenly Monarch Dark Light!" Peng Yu explained.

"Martial nephew?" Ye Tian exclaimed in surprise.

Heavenly Monarch Peng Yu clarified, "Master has taken many disciples in the chaos, and some of these disciples have even reached the Grand Dao Realm early on, becoming invincible True Ancestors, second only to Dao Ancestors.

Moreover, Master has three disciples who are Dao Ancestors and not much weaker than him.

Among so many disciples, some have also taken on disciples of their own. Heavenly Monarch Dark Light's master is a powerful True Ancestor.

In terms of status, Heavenly Monarch Dark Light is not weaker than us. Even though you are his martial uncle, you cannot use your title to oppress him.

According to our rules, we interact as peers!"

"Understood!" Ye Tian nodded.

Communicating with Heavenly Monarch Dark Light as peers was necessary. If they adhered strictly to seniority, encountering a True Ancestor martial nephew one day, would he dare to demand to be addressed as martial uncle? In reality, in the chaos, many forces ranked their members based on strength.

The Void Sky lineage highly respected their teachers and valued traditions, which was why Ye Tian held such a high status. Otherwise, who would care about him entering the Void Sky Hall?

"Senior brothers, what is the current situation in the Grand Universe? Can you enlighten me?" Ye Tian asked.

Heavenly Monarch Peng Yu smiled and said, "The current situation in the Grand Universe is very complicated. The birth of the Ancestral Stele has aroused the greed of many True Ancestors. They all want to turn this Grand Universe into a Dao Realm to facilitate their arrival.

However, the chaos is vast, and without reaching the level of a Dao Ancestor, it is impossible to touch the true high levels of chaos.

The Ancestral Stele affects only a small part of the region. Many True Ancestors would take a long time to arrive here. Those Divine Generals and Heavenly Monarchs who are too far away simply can't make it in time.

In the chaos, even though I am a top-tier Heavenly Monarch, there are countless who are stronger than me. In our Void Sky lineage alone, I don't even rank in the top ten."

“Gasp!” Ye Tian took a deep breath, truly realizing the immense power of the chaos, where strong individuals were as numerous as rain.

“Junior Brother, although you are an official disciple of our master, all resources and legacies must be earned by yourself. We cannot provide them to you; this is also Master’s intention.

However, some techniques and treasures of the Void Sky Hall are available to exchange, but you must offer an equivalent price.” Heavenly Monarch Peng Yu said.

“Senior Brother, I understand!” Ye Tian nodded. After looking at his senior brothers, he asked, “Senior Brothers, does our Void Sky Hall have methods to cultivate Limit Talents?”

“Limit Talents!”

Heavenly Monarch Peng Yu looked at Ye Tian in surprise, not expecting him to know about Limit Talents. “There are indeed methods to cultivate Limit Talents, but they must be practiced after reaching the Heavenly Monarch level. You are currently a Divine General and cannot cultivate them.

Moreover, the methods for cultivating Limit Talents are very precious and cannot be taught. They must be learned in the Void of Chaos.

Alternatively, if you obtain an inheritance item of the Extreme/Limit Methods, you can also learn from that.

But such inheritance items are extremely rare. I don’t have any with me.”

Ye Tian was not too disappointed. He inquired about the Limit Talent methods for his wife and sister; he did not need them himself, as he could copy talents.

At that moment, he used his copy talent to examine the talents of Heavenly Monarch Peng Yu and the others. Among them, Peng Yu possessed several Limit Talents, some of which overlapped with Ye Tian’s existing talents.

In the end, Ye Tian copied five non-overlapping Limit Talents from the Heavenly Monarchs present:

[Fire Spear Talent: God-level Limit],

[Water Realm Talent: God-level Limit],

[Water Dragon Talent: God-level Limit],

[Earth Splitting Talent: God-level Limit],

[Metal Cutting Talent: God-level Limit].

Among these, two were water-related talents, which somewhat overlapped.

Ye Tian decided not to merge them on the spot to avoid arousing suspicion from his senior brothers. He planned to do so after leaving.

Additionally, Ye Tian noticed that among his senior brothers, only Peng Yu possessed an Origin Talent, which was the Speed Origin Talent.

As for the other senior brothers, they had no Origin Talents.

This observation highlighted the rarity of Origin Talents, even in the vast chaos.

Ye Tian refrained from asking about Origin Talents to avoid raising eyebrows. Such talents were highly confidential, and he couldn't explain how he knew about them.

Therefore, he chose not to ask.

Heavenly Monarch Peng Yu handed Ye Tian a token, symbolizing his status within the Void Sky lineage. After refining it, Ye Tian connected to the Void Sky Hall's artifact spirit, allowing him to access a virtual rule network.

Here, he could browse various resources and choose to trade for them if he found anything suitable.

“Dark Lin Crystal, capable of tempering the divine soul, worth 300 Divine Coins!”

“Horns of a Chaos Life Unicorn, can be used for crafting, worth 100 Divine Coins!”

“Tempering Divine Liquid, used for body refining, worth 500 Divine Coins per portion!”

“Destiny Pill, used to break through to the Destiny Realm, worth 5 Dao Coins!”

Seeing the utility of each treasure, Ye Tian’s eyes sparkled with desire, wishing he could buy them all.

Unfortunately, he had no money! Not a single coin! He didn’t possess any Divine Coins or Dao Coins.

Initially, Ye Tian didn’t understand the value of Divine Coins and Dao Coins, but after asking some disciples of the Void Sky Hall, he learned about them.

One Dao Coin equaled 100 Divine Coins. Dao Coins were crafted by Grand Dao True Ancestors, requiring their powerful energies and rare materials, making them highly valuable.

Divine Coins, on the other hand, were made by Destiny Realm Heavenly Monarchs. However, they were also difficult to craft. A Heavenly Monarch could produce only 100 Divine Coins in a year, factoring in the costs of materials and time, making it impractical for powerful Heavenly Monarchs to focus on minting Divine Coins. Only those who saw no hope of advancing often engaged in crafting Divine Coins.

Both Divine Coins and Dao Coins had significant uses. They served not only as currency but also as cultivation resources.

For example, Divine Coins could restore divine force and enhance cultivation, while Dao Coins were even more versatile. They could heal rule-related injuries and help comprehend the embedded rule forces.

“Let me exchange some Divine Coins first. In the future, at a Divine General, the currency will undoubtedly be Divine Coins. I must acquire some Divine Coins to purchase resources and treasures!” Ye Tian thought.

Chapter 855: The Legend of Limit Divine Abilities!

Ye Tian initially thought his wealth could be exchanged for a considerable amount of divine coins, but he was quickly disappointed.

Low-level resources held no value for the Divine Generals and Heavenly Monarchs; they simply didn't need them and thus wouldn't trade divine coins with Ye Tian.

However, the most powerful Supreme Treasures and Chaos Spirit Treasures were still considered currency within the chaos and could be used for trading.

So, Ye Tian brought out a considerable number of powerful Supreme Treasures and some Chaos Spirit Treasures to trade for divine coins.

Despite this, the prices for the most powerful Supreme Treasures were quite low. One powerful Supreme Treasure was worth at most ten divine coins, while a Chaos Spirit Treasure could fetch about fifteen divine coins. Even the top-tier powerful Supreme Treasures were not worth a hundred divine coins.

After trading many treasures, Ye Tian ultimately acquired 982 divine coins.

This amount of divine coins was neither much nor little for a Divine General.

Many Divine Generals indeed possessed a few Dao Coins, equivalent to several thousand divine coins, but most of their wealth was in the value of their treasures rather than actual divine coins.

Furthermore, Divine Generals consumed a lot of resources for their cultivation, so they couldn't hoard many divine coins.

Ye Tian spent 500 divine coins to exchange for some resources that could assist in his cultivation of the Profound Void Technique. He then roamed the Void Sky Hall, copying all the talents he could find.

Unfortunately, Ye Tian couldn't find any particularly impressive talents.

It was clear that even within the chaos, outstanding talents were rare.

Ye Tian could have continued cultivating within the Void Sky Hall, but he chose to return to the Human Race.

At the very least, the Human Race needed his protection and could assist him in gathering information and rare resources, something the Void Sky Hall couldn't truly provide.

With the newly formed universe, numerous high-level resources had emerged. One could say that the entire universe was brimming with opportunities and treasures.

Ye Tian dispatched the members of the Tian Pavilion to various parts of the universe to gather resources and information while he began integrating the talents he had copied from the disciples and Heavenly Monarchs of the Void Sky Hall.

It didn't take long for Ye Tian to successfully integrate all the talents.

At this point, his talents were as follows:

Host: Ye Tian

Cultivation Talent: Supreme-level

Origin Strength Talent: Super God-level Limit

Origin Speed Talent: Super God-level Limit

Origin Body Talent: Super God-level Limit

Origin Saber Talent: Supreme-level

Origin Sword Talent: Supreme-level

Origin Time-Space Talent: Super God-level

Origin Fire Talent: God-level Limit

Origin Earth Talent: God-level Limit

Origin Metal Talent: God-level Limit

Origin Wood Talent: God-level Limit

Origin Water Talent: God-level Limit

Origin Immortality Talent: God-level

Origin Eternal Light Talent: God-level

Origin Annihilation Talent: God-level

After elevating several talents to the limit level, Ye Tian's strength increased significantly, and he gained a deeper understanding of the rules of metal, water, earth, and fire, almost reaching an extremely high level of comprehension of these rules.

Ye Tian intended to elevate his other talents to the limit level as well, but he couldn't get close to the Divine Generals and Heavenly Monarchs.

Each Divine General and Heavenly Monarch belonged to their own factions, and Ye Tian couldn't just infiltrate their headquarters to copy talents without risking capture.

Although the Void Sky Hall was powerful, it wasn't the strongest faction. Some major factions within the chaos, while not overwhelmingly powerful, had still sent their top Divine Generals and Heavenly Monarchs.

The Void Sky Hall, however, hadn't sent their top-tier Heavenly Monarchs and Divine Generals. For instance, although Heavenly Monarch Peng Yu was strong, he wasn't even among the top ten in the Void Sky Hall, indicating that the top ten Heavenly Monarchs hadn't entered this new universe.

If the Void Sky Hall had fully mobilized, they could undoubtedly dominate the universe, allowing Ye Tian to bask in their glory. But currently, such a move was impossible.

"Wait for the opportunity!" Ye Tian murmured to himself.

In the following days, Ye Tian alternated between cultivating and visiting the Void Sky Hall.

Although the Void Sky Hall couldn't provide him with resources, some ancient texts were available for free, courtesy of the Heavenly Monarchs of the Void Sky Hall.

For other disciples of the Void Sky Hall, those free texts were of little use, but for Ye Tian, whose knowledge was quite lacking, they were invaluable. He meticulously browsed through them.

Gradually, Ye Tian's understanding of chaos knowledge grew, and naturally, his foundation became stronger.

Decades passed.

Ye Tian finally comprehended the true purpose of limit talents: they were related to divine abilities.

Divine abilities were classified into four levels: entry, minor accomplishment, major accomplishment, and perfection. However, above perfection, there existed another level—limit! If one cultivated a divine ability to its limit, it became a limit divine ability. The power of a limit divine ability far surpassed that of a perfected divine ability. Mastering a limit divine ability meant possessing terrifying combat power.

For instance, Heavenly Monarch Peng Yu had mastered a limit divine ability, making his strength incredibly formidable.

"Who would have thought that limit talents could allow someone to cultivate limit divine abilities? This means that in the future, I have the potential to master numerous limit divine abilities," Ye Tian mused. However, this step was still too distant for him.

One day, news arrived that Divine General Primordial Era had crossed into the Destiny Realm.

After entering the Destiny Realm, Divine General Primordial Era's strength skyrocketed, and he entered seclusion to transform his body into a chaos lifeform.

However, he only managed to condense an ordinary chaos lifeform, with limited future potential. It was possible he might remain in the early stage of the Destiny Realm for his entire life.

But he had no choice. Divine General Primordial Era lacked backing and was too weak, with a strength of just a one-star Divine General. Any Divine General could bully him. This time, hundreds of thousands of Divine Generals had flooded into the chaos, all immensely powerful, placing enormous pressure on him.

Thus, he had to elevate to the Destiny Realm to become a Heavenly Monarch.

Some time later, Heavenly Monarch Primordial Era announced that he and many Earthly Venerables of Primordial Era Holy Land had joined the Qilin Hall.

The Qilin Hall was under the command of the True Master Qilin. Divine General Primordial Era had once entered the Qilin Hall's land of inheritance and had some affinity with them. Although he wasn't qualified to become the True Master Qilin's nominal disciple, this affinity allowed him to cling to the Qilin Hall.

While the Qilin Hall wasn't very strong, it had a True Ancestor in the background and a few powerful Heavenly Monarchs, allowing Heavenly Monarch Primordial Era to live a relatively stable life for now.

Those like Heavenly Monarch Primordial Era, who entered the Destiny Realm early without accumulating much strength, weren't few. Some ten-star Earthly Venerables, believing they lacked the potential to become Divine Generals, began to charge into the Destiny Realm.

Some failed, while others succeeded.

Overall, though, the failure rate was about ninety percent, as crossing into the Destiny Realm wasn't easy. Failing the breakthrough didn't lead to death, but it severely damaged one's strength and shattered their foundation, making future attempts futile.

Even within the chaos, many Earthly Venerables at the peak of their cultivation didn't dare to recklessly attempt to break through to the Destiny Realm.

Furthermore, breaking through to the Destiny Realm was harder within the chaos, whereas it was relatively easier in the Grand Universe due to the rules governing it. Otherwise, the Grand Universe wouldn't be considered a true treasure trove of opportunities.

If these Earthly Venerables from the universe attempted to break through within the chaos, it's estimated that out of a hundred, ninety-nine would fail.

The Human Race had no strong practitioners in the Destiny Realm because Ye Tian forbade the Earthly Venerables from attempting a breakthrough recklessly. Only when they truly couldn't progress any further were they allowed to attempt it.

After all, the Human Race had the Void Sky Hall as backing, so they naturally didn't fear threats from other factions.

Chapter 856: Madly Copying Talents!

Thousands of years had passed.

By now, the forces within the vast universe had gradually stabilized, and the population of its living beings had multiplied several times over. The number of members within the major factions had also increased significantly.

Initially, the major factions comprised only Divine Generals and Heavenly Monarchs. However, these forces were not meant to stay in the universe for merely tens of thousands or millions of years but for an indefinitely long period.

Therefore, the major factions began developing their influence by recruiting disciples. Some Heavenly Monarchs even enjoyed the taste of becoming regional overlords.

Moreover, the vast universe had birthed many Innate Deities and other races. The talents of these Innate Deities were exceptional, making them the primary targets for recruitment by the major factions.

Nevertheless, the progress of the Human Race was not slow either, as they had produced a large number of Divine Generals, although most were only one or two-star Divine Generals.

As for Ye Tian, he had also made significant progress.

By now, he had cultivated the fifth layer of the Profound Void Technique to a perfected realm, but it had exhausted all the auxiliary resources he had purchased from the Void Sky Hall.

His strength had advanced to the mid-stage of a five-star Divine General!

On this day.

A message came from the Void Sky Hall, and upon receiving it, Ye Tian was overjoyed.

“A secret realm world has appeared, containing great opportunities!”

Ye Tian’s expression shifted, and he hurried to the Void Sky Hall.

At this time.

Dozens of Divine Generals had already gathered at the entrance of the Void Sky Hall, and Heavenly Monarch Peng Yu was also present, evidently the leader of this expedition.

Upon Ye Tian’s arrival, he said, “Greetings, Senior Brother Peng Yu!”

“Junior Brother Ye Tian, you’re here!” Heavenly Monarch Peng Yu nodded slightly.

After waiting for a while longer, until most of the people had arrived, Heavenly Monarch Peng Yu said, “Let’s go, move out!”

Swish, swish, swish!!!

The group set off grandly towards a secret realm world somewhere in the vast universe.

On the way, Ye Tian inquired about the specific details of the secret realm world from Heavenly Monarch Peng Yu.

“Senior Brother Peng Yu, what kind of opportunities does this newly appeared secret realm world hold?” Ye Tian asked.

Heavenly Monarch Peng Yu replied, “Junior Brother Ye Tian, this secret realm world emerged several decades ago, and as soon as it appeared, it was sealed off by our numerous top-tier factions. After exploration, it was found that only Earthly Venerables can enter, and Heavenly Monarchs in the Destiny Realm cannot.

The resources inside are extremely abundant. This is virtually the first secret realm world to be born and to appear in the vast universe, completely different from the secret realms in your previous ordinary universe.

In fact, some of the resources within this secret realm world can even be of great use to us Heavenly Monarchs.”

Hearing this, Ye Tian’s interest was piqued.

If he could harvest a lot from this secret realm world, his strength would surely increase rapidly.

However, at this moment, Heavenly Monarch Peng Yu cautioned, “Junior Brother Ye Tian, I’m not sure whether allowing you to enter this secret realm world is right or wrong. But on the path of cultivation, one must fight for any resource. If you don’t fight, how will you grow? Although you are currently only a five-star Divine General, many Divine Generals will enter the secret realm world, including even seven-star Divine Generals....”

Heavenly Monarch Peng Yu’s words were clear; entering the secret realm world posed a high risk of dying.

As for asking the disciples of the Void Sky Hall to look after Ye Tian, it was uncertain whether they would or not. Once inside the secret realm world, it was unknown if those disciples would take care of Ye Tian or potentially even cause his death.

The human heart was the hardest to fathom. Even close brothers or family members could turn against each other, let alone members of the same faction!

“Senior Brother Peng Yu, my strength may not be sufficient, but my means are not lacking. As long as I don’t encounter a seven-star Divine General, I can protect myself!” Ye Tian said.

“Really?” Heavenly Monarch Peng Yu was incredibly surprised.

Given Ye Tian’s confidence in surviving against a six-star Divine General, one must realize that even at his current level, he wouldn’t typically be able to accomplish such a feat unless he had a life-saving artifact bestowed by his master. However, Dao Ancestor Void Sky was an extraordinary figure who likely wouldn’t bestow an overwhelmingly powerful life-saving artifact, and even if he did, it would probably be limited to a few uses.

Heavenly Monarch Peng Yu couldn’t be sure if the life-saving means Ye Tian mentioned were his own or granted by Dao Ancestor Void Sky. He didn’t probe further, as his relationship with Ye Tian was merely that of fellow disciples without deep ties.

If it weren’t for his master’s instructions to look after Ye Tian to some extent, he wouldn’t have cared about him at all. This time, the secret realm world offered significant opportunities, and since Ye Tian volunteered to enter, if he fell, the master wouldn’t blame Peng Yu. Moreover, the master had many official disciples, many of whom had fallen on the path of growth.

Soon, they arrived at the secret realm world! At this moment, Ye Tian was extremely excited.

He anticipated being able to copy the talents of numerous Divine Generals. Perhaps this time, he could elevate all his talents to the Super God level and even reach the Limit-level.

At the entrance to the secret realm world, a portal had formed, guarded by several Heavenly Monarchs. The arriving Divine Generals dared not rush in recklessly.

Ye Tian scanned the area, seeing countless Divine Generals and several Heavenly Monarchs.

“Copy talent, observe!”

Ye Tian activated his talent-copying ability, covering the entire area without drawing any attention from the Heavenly Monarchs.

In an instant, the talents of everyone present appeared in his vision.

Most Divine Generals had unremarkable, common talents, but some Divine Generals and Heavenly Monarchs had exceptionally good talents.

“So many limit talents!” Ye Tian was shocked.

Particularly in one area, almost every Divine General had limit talents, clearly indicating that in the Chaos existed many of such talents.

“Copy!”

“Copy!”

“Copy!”

Ye Tian joyfully continued copying talents, soon accumulating dozens of limit talents.

There were also many Super God-level talents here. Considering the Divine Generals and Heavenly Monarchs present were among the top in the chaos, it was difficult to elevate ordinary attribute talents to the Super God level without significant effort, achievable only by true geniuses.

But here, these were indeed such true geniuses.

Additionally, Ye Tian found a Super God-level physical talent called the Chaos Battle Body Talent.

The Super God-level Chaos Battle Body Talent came from a Divine General.

Ye Tian recognized this Divine General, who was a strong contender on the Divine General Rankings.

Ranked sixth on the Divine General Rankings: Sky Tyrant Divine General, a late-stage seven-star Divine General. Ye Tian only glanced briefly at the Sky Tyrant Divine General to avoid drawing attention.

While others awaited the opening of the secret realm world with anticipation, Ye Tian leisurely copied Super God-level talents. However, he still hadn't gathered all the attribute Super God-level talents.

He lacked two attribute Super God-level talents: the Super God-level Dark Talent and the Super God-level Thunder Talent.

Among so many Divine Generals and Heavenly Monarchs, he hadn't found these two Super God-level talents.

However, not all Divine Generals and Heavenly Monarchs from the vast universe were present, so he still had hope of finding them within the universe.

“Still, I'm satisfied. Once I enter the secret realm world, I'll find a place to fuse these talents. My strength will definitely surge.

Moreover, once I fuse the Super God-level Earth Origin Talent and the Super God-level Physical Talent, I'll be able to create the Super God-level Earth Origin Element Talent and start cultivating the Chaos Divine Ability—Ancient Origin Defense Divine Ability!” Ye Tian thought to himself.

Chapter 857: Super God-level Limit Enlightenment Talent!

After a while, another group of Divine Generals arrived, led by several Heavenly Monarchs.

This group caused a commotion!

“The people from the War God Tower have arrived!”

Many Divine Generals and Heavenly Monarchs turned to look.

Even Heavenly Monarch Peng Yu glanced over, his eyes focusing on a young Divine General.

Around them, the discussions of the Divine Generals reached Ye Tian's ears.

"The War God Tower's Goddess Yun Zi has also come. Isn't the War God Tower afraid that Goddess Yun Zi might fall in this secret realm world?"

"Hahaha, Goddess Yun Zi is a personal disciple of the Dao Ancestor behind the War God Tower. She must have many life-saving treasures. How could she fall so easily?"

"It's said that Goddess Yun Zi has great talent. In just a mere hundred thousand years, she has cultivated to six-star Divine General battle power. It's rumored that she has the potential to become an eight-star Divine General. I wonder if it's true."

"It should be true. I wonder why such a heavenly genius has come here. Although the Ancestral Stele is a great opportunity, it's mainly for True Ancestors. For us, this Grand Universe is a place of great opportunities, but it's difficult to attract a truly top-tier genius."

"Goddess Yun Zi staying here would find it hard to leave in a short time. How could she obtain precious resources and the best training? The cultivation of a Grand Universe can't compare to countless trials in the chaos!"

"Who knows, maybe Goddess Yun Zi also wants to seize the Ancestral Stele. If she advances to the True Ancestor realm before the birth of the Dao Realm, wouldn't she qualify to compete for a place in the Ancestral Stele?"

As these people discussed, Ye Tian gradually understood the identity of Goddess Yun Zi.

A personal disciple of a Dao Ancestor! What an honor and status that was! Ye Tian's copy talent enveloped Goddess Yun Zi, observing her talents, and he was instantly astonished.

Goddess Yun Zi's cultivation talent was also at the supreme level, and she possessed multiple God-level Limit talents and even several super God-level talents. Moreover, her three basic talents had all become origin talents.

More importantly, this Goddess Yun Zi possessed a super enlightenment talent at the God-level Limit.

[Super Enlightenment Talent: God-level Limit]

The God-level Limit super enlightenment talent provided an unbelievably immense boost to comprehension.

“No wonder Goddess Yun Zi’s talent and potential are so high. She possesses such a talent!” Ye Tian was quite excited.

All along, his comprehension had been a flaw. Compared to ordinary Divine Generals, it was indeed excellent, but it was quite average when compared to the true geniuses in the chaos.

Because of his difficulty in enhancing his comprehension, he had not been able to fully comprehend the Void Sky Diagram.

If he could obtain this God-level Limit super enlightenment talent, he would be able to quickly comprehend the Void Sky Diagram, giving him a glimmer of hope to fully understand it and become a personal disciple of Dao Ancestor Void Sky.

“Super Enlightenment Talent, copy!”

With a single thought, Ye Tian successfully copied the talent.

With the super enlightenment talent in hand, Ye Tian’s heart trembled with excitement, but he restrained his urge to laugh out loud.

However, Heavenly Monarch Peng Yu noticed Ye Tian’s state and gaze, thinking Ye Tian had developed feelings for Goddess Yun Zi. He then transmitted a message, “Junior Brother Ye Tian, are you interested in Goddess Yun Zi? I advise you to abandon that thought. Countless geniuses in the chaos wish to marry Goddess Yun Zi, but none are worthy.”

“A genius like Goddess Yun Zi is destined to become a True Ancestor in the future, and not an ordinary one. She’ll be an immensely powerful True Ancestor, possibly even capable of reaching the Dao Ancestor realm!”

“Senior Brother Peng Yu, you’re overthinking. I don’t have such thoughts!” Ye Tian quickly explained.

Senior Brother Peng Yu didn’t respond, just showing a look that said, “You can’t fool me.”

Seeing this, Ye Tian felt quite helpless.

He was a married man and would not casually fall for someone else, but it was no use explaining this to Heavenly Monarch Peng Yu.

Misunderstood or not, it didn’t matter! Another half month passed, and this great world finally reopened. The Heavenly Monarchs guarding the entrance all left one by one.

Boom!!! The portal opened, and numerous Divine Generals surged into the secret realm.

Before entering, Heavenly Monarch Peng Yu transmitted a reminder: “Junior Brother Ye Tian, if you encounter real danger, send a distress signal to the nearby disciples of the Void Sky Hall!”

“Thank you, Senior Brother Peng Yu!” Ye Tian replied.

Immediately, he flew into the secret realm world.

A large number of Divine Generals poured into the secret realm world and quickly dispersed, flying in all directions.

The rules of this secret realm were quite powerful. Ye Tian felt a bit uncomfortable upon entering, but he ignored the discomfort and quickly traversed using his Eternal Light Divine Ability.

Being merely a five-star Divine General and having not offended any major figures, no one specifically targeted him or followed him to kill and rob him.

Soon.

Ye Tian flew into a mountain range and then hid himself, using an earth escape divine ability to burrow underground. He created a small underground space and set up a concealment formation, preparing to cultivate in seclusion for a while.

Once everything was ready, Ye Tian began to integrate the talents he had copied.

Each talent took about half an hour to integrate, so the numerous talents required considerable time.

As time passed, about half a month went by.

On this day.

Ye Tian finally finished integrating all the talents, undergoing a massive transformation.

At this moment, his talents were exceedingly splendid—

Host: Ye Tian

Cultivation Talent: Supreme level

Origin Strength Talent: Super God-level Limit

Origin Speed Talent: Super God-level Limit

Origin Body Talent: Super God-level Limit

Origin Saber Talent: Supreme Level

Origin Sword Talent: Supreme Level

Origin Time-Space Talent: Super God-level

Origin Fire Talent: Super God-level Limit

Origin Earth Talent: Super God-level Limit

Origin Metal Talent: Super God-level Limit

Origin Wood Talent: Super God-level Limit

Origin Water Talent: Super God-level Limit

Origin Immortal Talent: God-level

Origin Eternal Light Talent: God-level

Origin Annihilation Talent: God-level

Origin Thunder Talent: God-level Limit

Origin Dark Talent: God-level Limit

Super Enlightenment Talent: God-level Limit

The Super God-level Sloth Armor Talent and Super God-level Chaos Battle Body Talent had not yet been integrated. Other fused talents also needed to be re-fused to become limit fusion talents.

So, Ye Tian began using his copy talent for integration and activated time acceleration.

This secret realm world had no time limit for opening, meaning one could stay here as long as it didn't get destroyed.

After all, no major force could jointly control a secret realm world, and there were countless opportunities in the future Grand Universe. There was no need to focus solely on one realm.

Hence, this secret realm was treated as an open development world.

However, during the first entry into the secret realm, the harvest would be the greatest. Once the secret realm was mostly developed, the resources and treasures would diminish, and its value would naturally decline.

Ye Tian did not collect resources at the optimal time but chose to integrate talents here, which seemed like a waste of time.

But Ye Tian was well aware that he was too weak to compete with those Divine Generals for resources.

Instead, it was better to integrate talents here. Once all integrations were complete, his strength would undoubtedly soar.

Time slowly passed, and in the blink of an eye, decades went by.

Ye Tian finally completed the talent integration. Origin Immortal Talent, Origin Eternal Light Talent, and Origin Annihilation Talent all advanced to Super God-level Limit talents, achieving true transformation.

Due to the transformation of these three major talents, the power of Ye Tian's three great divine abilities also increased significantly.

Originally, Ye Tian's strength was equivalent to a mid-stage five-star Divine General, but now his power had undergone earth-shattering changes, reaching a late-stage, peak five-star Divine General, just one step away from the pinnacle of five-star.

...

We're seeing a return of the term "Heavenly Pride". I guess it's now not used as a classification of strength at the Emperor-level but rather means "Heavenly Genius" more accurately. I'll instead just use "genius" as a replacement though.

## Chapter 858: Encounter with the Enemy! Two Peak Five-Star Divine Generals!

“I already possessed the Super God-level Earth Origin talent. Coupled with this innate origin item, the Origin Well, I could now cultivate the Ancient Origin Defensive Divine Ability.

Although I hadn’t reached the Destiny Realm, which would prevent me from mastering a true Chaos Divine Ability, I could still achieve the embryonic form of one. Its power far exceeded that of typical Great Divine Abilities, potentially rivaling the top few among the Three Thousand Great Divine Abilities.” Ye Tian murmured to himself.

Once he cultivated the Ancient Origin Defensive Divine Ability, his strength would undoubtedly soar. He would easily reach the power of a peak five-star Divine General and might even withstand a direct confrontation with a six-star Divine General without perishing.

Moreover, with the Great Immortality Technique and the Eternal Light Divine Ability enhancing his speed, he could even exhaust an early six-star Divine General to death.

However, Ye Tian did not immediately start cultivating the Ancient Origin Defensive Divine Ability, as this would require a considerable amount of time.

Having finally arrived in this Secret Realm Great World, he needed to seize every opportunity and not waste time. Otherwise, by the time he sought treasures again, there might not be much left.

After all, with his speed, few six-star Divine Generals could surpass him.

In a flash, Ye Tian left the underground and surfaced, beginning his search for resources.

This newly born Secret Realm Great World was filled with innate yuan qi and faint traces of chaos yuan qi, creating an extremely dense atmosphere. It was also rich in spiritual herbs, spiritual plants, and precious minerals.

While many fierce beasts had also emerged here, most were not particularly strong, with the mightiest only comparable to an Earthly Venerable. A newly formed great world like this could hardly nurture beasts on par with Divine Generals or Heavenly Monarchs at the outset.

Therefore, in such a Secret Realm Great World, the beasts and other native creatures posed no significant threat. The greatest danger came from other Divine Generals.

Before long, Ye Tian found numerous rare spiritual herbs and plants, all of which he collected into his internal small universe.

Half a month later.

While gathering resources in a particular area, Ye Tian's Life Heavenly Eye suddenly detected the presence of a Divine General, whose aura was exceptionally strong, estimated to be at the level of a peak five-star Divine General, nearing the strength of a six-star Divine General.

Ye Tian, unwilling to engage in conflict, changed direction.

However, the other party pursued him relentlessly.

No matter how Ye Tian altered his course, the pursuer seemed to follow him closely.

"The other person must also possess the Life Heavenly Eye!" Ye Tian realized.

Seventh-stage lifeforms naturally had the Life Heavenly Eye. While there were almost no Divine Generals with seventh-stage lifeforms in the universe, they were quite common in chaos. In chaos, even eighth-stage lifeforms were present among Divine Generals.

This meant Ye Tian found it hard to shake off the pursuer.

Just as the peak five-star Divine General was still some distance away, a chilling killing intent descended.

With a ripping sound, a sword tore through the void, targeting Ye Tian. This was a full-force strike from the peak five-star Divine General, moving at a speed nearly on par with an early six-star Divine General.

Moreover, the sword seemed to lock onto him, making it difficult for him to escape even with his time-space talent.

“Great Immortality Technique!”

Ye Tian activated this defensive Great Divine Ability.

With a resounding clash, the lethal sword struck Ye Tian, piercing through various defensive talents and measures, and finally striking the last layer of defense formed by the Great Immortality Technique.

Boom! Ye Tian’s body was sent flying, crashing through several giant mountains. Yet, he only felt slightly shaken, without sustaining major injuries.

Regaining his footing, Ye Tian stared at the young man in black armor not far away. The youth held a Chaos Spirit Treasure long sword, likely an extremely valuable top-grade Chaos Spirit Treasure.

“Great Immortality Technique? How is this possible? How could you master the Great Immortality Technique?” The black-armored youth was stunned, disbelief written all over his face.

This was ranked 26th among the Chaos Three Thousand Great Divine Abilities—the Immortality Technique. Its cultivation conditions were extremely stringent. Not even his faction’s Divine Generals had mastered any Great Divine Abilities.

The Great Immortality Technique was renowned as the ultimate life-saving Great Divine Ability. The black-armored youth was shocked, and Ye Tian was equally surprised.

His Life Heavenly Eye had not detected the black-armored youth, allowing the youth to catch him off guard. Without the Great Immortality Technique, Ye Tian might have been seriously injured or killed in that initial strike.

The black-armored youth was incredibly strong, nearly a six-star Divine General. Though not much in the grand cosmos, he was much stronger than Ye Tian.

“You could shield your life force, even from the Life Heavenly Eye. How did you do it?” Ye Tian asked.

“You don’t even know this? Are you perhaps a native of the Grand Universe?” The black-armored youth laughed.

He seemed to be waiting for something and didn’t immediately attack. Instead, he explained, “The Life Heavenly Eye isn’t a big deal in chaos. Many treasures and techniques can shield it. I’ve mastered a fragment of a Life Great Divine Ability. Although it’s far from a complete Life Great Divine Ability, it can easily block your Life Heavenly Eye.”

“I might spare your life if you hand over the inheritance jade slip of the Great Immortality Technique and the corresponding innate origin item.”

“And since you could master the Great Immortality Technique, you must have a supreme treasure capable of integrating defense and annihilation talents. Hand over that treasure as well.”

“I’ve already used it up. I don’t have it anymore. Besides, even if I did, why should I give it to you?” Ye Tian sneered.

“Used it up?” The black-armored youth didn’t doubt him. After all, possessing such a treasure was already rare, and it was normal for Ye Tian to have none left. Otherwise, the Great Immortality Technique wouldn’t be so difficult to cultivate.

However, the black-armored youth suddenly laughed, “Sorry, I was just stalling for time. My companion has arrived. You can’t escape now!”

With a swoosh, the peak five-star Divine General who had been at a distance teleported over, joining the black-armored youth to encircle Ye Tian. Their combined aura locked onto Ye Tian, preventing him from escaping.

In this situation, even general space Great Divine Abilities wouldn’t allow Ye Tian to leave. Only a high-ranking space Great Divine Ability from the Three Thousand Great Divine Abilities could easily tear through space to escape.

“Kill!”

They had committed murder for treasures many times. While they didn’t dare target six-star Divine Generals, they often aimed at solitary five-star Divine Generals. One would lure the target out in the open, while the other would strike from the shadows.

Their plan had been sound, but they hadn't anticipated Ye Tian's mastery of the Great Immortality Technique, which thwarted their assassination attempt.

However, they couldn't let Ye Tian escape now.

Boom! The two peak five-star Divine Generals attacked, but Ye Tian showed no fear. Activating the Great Immortality Technique and the Eternal Light Divine Ability, he moved with incredible speed and launched his counterattack.

Blades of light tore through the void as Ye Tian, bolstered by the Eternal Light Divine Ability, moved at extreme speed. Each strike was executed with precision, embodying techniques that bordered on the Dao, making every attack as powerful as an ultimate move.

Occasionally, Ye Tian unleashed his strongest techniques—Primordial Slash and the sixth form of the Heavenly Saber, Infinite Saber Domain. This transformed the area into a domain of sabers, with endless saber qi erupting with terrifying power.

Yet, even with these ultimate techniques, Ye Tian couldn't overcome the two peak five-star Divine Generals, as the difference in their strengths was significant.

However, the two peak five-star Divine Generals couldn't defeat Ye Tian either, as they couldn't match his speed. In this intense battle, both sides consumed a great deal of energy.

One day! Two days! Three days! With each breath, they clashed countless times. Gradually, the two peak five-star Divine Generals were mostly exhausted, while Ye Tian had consumed much less energy due to his profound foundation and the continuous support from his internal small universe.

Comparatively, the two peak five-star Divine Generals had weaker stamina and couldn't replenish their divine force or restore their strength during the fight.

Slowly, Ye Tian began to suppress the two peak five-star Divine Generals.

However, Ye Tian feigned weakness, pretending to be in a state of exhaustion, as if using a forbidden technique.

“Hold on, he’s almost done!” the two peak five-star Divine Generals said excitedly.

In their eyes, Ye Tian, with his immense strength and multiple Great Divine Abilities, must possess significant wealth. Killing Ye Tian would bring them a huge fortune.

As time passed, they felt they were always just a step away from severely injuring or killing Ye Tian.

Then, at a certain moment, they realized their own condition had deteriorated significantly.

Suddenly, Ye Tian erupted with a terrifying aura, appearing as if he were in peak condition.

“No! Run!” the black-armored youth shouted in fear.

At that moment, a chaos halo appeared, trapping one of the peak five-star Divine Generals within. If he had been at peak strength, he could have easily shattered the halo, but now it was impossible.

This was Ye Tian’s other ultimate move—the sixth form of the Primordial System, Primordial Ring, designed to suppress and confine enemies.

“Die!” Ye Tian unleashed his full power, combining Primordial Slash and the Great Destruction Technique, striking the trapped Divine General’s head. The blow shattered his head and annihilated his soul, completely killing him.

Ye Tian then pursued the black-armored youth.

After a half-hour chase, Ye Tian finally killed the black-armored youth over a river.

After slaying the two, Ye Tian quickly left the area and found a random place to hide.

Chapter 859: Mystic Breath Divine Ability!

“These two people were truly wealthy!”

Ye Tian opened the personal storage spaces of the two peak five-star Divine Generals and expressed his astonishment.

Just in divine coins alone, the two possessed tens of thousands, not to mention the ten Dao coins. Their wealth far surpassed that of other Divine Generals! It was evident that they must have acquired this wealth through killing and looting.

Aside from the divine coins, the two had a plethora of treasures, including Chaos Spirit Treasures, various top-tier spiritual herbs, spiritual plants, ores, and numerous cultivation manuals.

Ye Tian spent a long time organizing everything, discarding any items that contained others' soul imprints. Such items posed a threat; perhaps these two weren't afraid, but he didn't know who they came from, so he dared not use them recklessly.

To Ye Tian's delight, there were quite a few resources among their belongings that could temper the body, useful even for six-star Divine Generals. Clearly, these were prepared by the two for their own use, but now they all fell into Ye Tian's hands.

The ultimate excitement, however, came from discovering a divine ability.

“Life Divine Ability—Mystic Breath Divine Ability!”

According to the description, this Mystic Breath Divine Ability ranked 241st among the Three Thousand Great Divine Abilities, which was quite high. Being an auxiliary divine ability, its high ranking indicated immense power.

In addition to the Mystic Breath Divine Ability, there was also a rather inferior fragment of the Mystic Breath Divine Ability, created by a powerful being based on the original divine ability.

Yes, it was deliberately created as a fragment, rather than being just a partial piece.

This fragment had much lower cultivation requirements. Although it required a God-level Life Talent and a God-level Invisibility Talent, it didn't need their fusion. Hence, anyone with these talents could cultivate this fragment.

The reduced cultivation conditions meant that many could train in this fragment of the Mystic Breath Divine Ability. The black-armored youth from earlier had trained in this fragment, allowing him to conceal his life aura, making him undetectable to others, and also to hide his form.

However, the fragment had a flaw: it couldn't deceive stronger Divine Generals.

That black-armored youth was a peak five-star Divine General, meaning his Mystic Breath Divine Ability fragment couldn't fool a six-star Divine General.

As a result, this fragment was considered quite trashy in the Chaos realm. But when used against weaker Divine Generals, it became an unparalleled divine technique.

Ye Tian dismissed the fragment of the Mystic Breath Divine Ability. He was interested in the complete version of the Mystic Breath Divine Ability.

He was qualified to cultivate the full Mystic Breath Divine Ability. Once mastered, no Divine General could detect his life aura, making him extremely safe in this secret realm world.

Afterward, Ye Tian spent some time fusing his Life Talent and Invisibility Talent, then began using a life-type innate origin object to cultivate the Mystic Breath Divine Ability.

This life-type innate origin object naturally came from the black-armored youth. It seemed that the youth had also intended to cultivate the true Mystic Breath Divine Ability and had prepared a fairly good life-type innate origin object called Life True Earth.

One had to admit, the black-armored youth was indeed a bringer of wealth! With time acceleration, Ye Tian took only a few decades to completely master the Mystic Breath Divine Ability, thanks to the benefits of his God-level Limit Super Enlightenment Talent.

Otherwise, in his previous state, it would have taken him a long time to master it.

After mastering the Mystic Breath Divine Ability, Ye Tian activated it, completely concealing his life aura.

However, if someone with powerful enough strength came too close, they could still sense him, unless he perfected the Mystic Breath Divine Ability. At that point, even seven-star or eight-star Divine Generals standing before him wouldn't detect his presence.

With the Mystic Breath Divine Ability, Ye Tian navigated the secret realm world with ease, no longer needing to be overly cautious.

One resource after another fell into his hands without fear of being discovered.

Of course, he sometimes encountered bad luck, running into six-star or even seven-star Divine Generals, but he relied on the Mystic Breath Divine Ability to fully conceal his life aura and remained motionless.

Only when those Divine Generals left did he choose to move on.

Hundreds of years passed.

Ye Tian had amassed a vast amount of resources. With these resources, he even felt confident about reaching the level of a six-star Divine General in a short time.

However, by then, it was clear that the secret realm world was running low on resources. After all, tens of thousands of Divine Generals had entered; how could one secret realm world withstand such a massive plunder?

One day.

Ye Tian noticed many Divine Generals moving in one direction. Curiously, he followed.

Soon, he found a large gathering of Divine Generals, each vigilant of the others, yet no one left.

A quick estimate showed at least ten thousand Divine Generals had gathered there! At the center of this area stood a mountain, with a blood-red vine winding around it, encircling the entire peak.

After arriving, Ye Tian did not continue maintaining the Mystic Breath Divine Ability.

With so many Divine Generals present, it was possible that some might possess abilities to see through the Mystic Breath Divine Ability. If he remained hidden, he might become a target.

Moreover, some disciples of the Void Sky Hall were also present, providing him a certain degree of backing.

Even if these disciples didn't hold him in high regard, given the circumstances, they would definitely support him.

With a swish, Ye Tian appeared beside the disciples of the Void Sky Hall. There were more than ten disciples, with the leader being the early-stage seven-star Divine General, Divine General Yutian.

This Divine General Yutian saw Ye Tian but did not acknowledge him.

In Yutian's eyes, his own talent far surpassed that of some official disciples of Dao Ancestor Void Sky.

If not for his relatively low status, he wouldn't even glance at Ye Tian.

However, other disciples of the Void Sky Hall still addressed Ye Tian as master out of respect.

"Divine General Yutian, is everyone's target that vine?" Ye Tian asked.

"Indeed!" Divine General Yutian nodded, finally responding to Ye Tian. "That vine is not an ordinary vine but a Blood-Devouring Vine. Its body is as tough as a top-tier Chaos Spirit Treasure and can partially ignore energy attacks. Once hit by the Blood-Devouring Vine, all your blood is absorbed.

Currently, the strength of this Blood-Devouring Vine has reached the mid to even late-stage seven-star Divine General level. Its threat level is even more terrifying than that of a late-stage seven-star Divine General."

"What use does this Blood-Devouring Vine have?" Ye Tian inquired again.

“Its sap can refine blood, creating True Blood. With enough Blood-Devouring Vine, it can convert up to thirty percent of one’s blood into True Blood.” Divine General Yutian said with some hope.

“Thirty percent True Blood!” Ye Tian’s pupils contracted sharply.

What did this mean? Typically, descendants with True Blood only had a True Blood concentration of about 0.8 percent. Those with a high concentration could reach 1 to 2 percent.

Genuine True Blood descendants might possess up to ten percent True Blood, which would be sensational within a True Blood family.

For outsiders, achieving ten percent True Blood was incredibly difficult.

However, the Blood-Devouring Vine could convert thirty percent of one’s blood into True Blood, which was extraordinary.

Ye Tian’s True Blood level was comparable to that of an outstanding True Blood descendant, but it was only about 3 to 4 percent, far from ten percent True Blood.

If he could obtain the sap of the Blood-Devouring Vine, it would be a huge gain, and his strength would soar in a short time.

However, with so many Divine Generals here, even if they managed to kill the Blood-Devouring Vine, the competition would be fierce, and many Divine Generals would likely fall in the process.

As time passed, the Divine Generals remained inactive.

Additionally, many Divine Generals captured fierce beasts and threw them onto the mountain, allowing the Blood-Devouring Vine to devour them.

At first, Ye Tian didn’t understand why they were doing this.

But soon, he understood.

They were trying to make the Blood-Devouring Vine evolve further. Although its strength would increase to the late-stage seven-star Divine General level, making it a threat to even peak seven-star Divine Generals, the quality would improve, enhancing the blood refining effect.

Crucially, the Blood-Devouring Vine was only one step away from evolving. They naturally wanted to assist its evolution, ensuring greater rewards upon its defeat.

Chapter 860: Blood-Devouring Vine Fragments!

As time passed, the Blood-Devouring Vine devoured more and more fierce beasts, growing stronger with an increasingly formidable aura. Gradually, it began to transform.

At a certain moment, the Blood-Devouring Vine emitted countless blood-red lights, and its entire body started to expand rapidly. An intangible pressure spread in all directions, causing some of the five and six-star Divine Generals to change their expressions.

Strictly speaking, the Blood-Devouring Vine was a Destiny Realm spirit plant, albeit a weaker one. Under normal circumstances, a well-established Destiny Realm Heavenly Monarch had the power of a six-star Divine General. This meant that anyone who reached the level of a six-star Divine General had the qualification to fight against a Heavenly Monarch.

The Blood-Devouring Vine had the strength of a seven-star Divine General, which was considered average within the Destiny Realm. It could even be said that, despite having the power of an eight-star Divine General, it would still struggle against tens of thousands of Divine Generals.

“All Divine Generals, attack together! After we kill the Blood-Devouring Vine, we will compete for its sap based on our own abilities!” One seven-star Divine General shouted.

“Alright!”

The other Divine Generals agreed. Even some five and six-star Divine Generals were qualified to vie for the Blood-Devouring Vine’s sap, though whether they could survive to seize it was uncertain.

In the face of such an opportunity, status meant nothing; no one would give you any face. If you fell here, even if your faction backed you in the future, you wouldn’t be around to see it.

Some weaker Divine Generals, fearful of the risks, decided to leave, unwilling to involve themselves in this opportunity.

“Divine General of Ten Thousand Laws, you should leave too!” the Divine General Yutian glanced at Ye Tian, advising him.

“Divine General Yutian, don’t worry about me,” Ye Tian responded.

Seeing that Ye Tian refused to listen, Divine General Yutian gave up. If Ye Tian truly died here, it would have nothing to do with him.

With a swish, Divine General Yutian flew over and stood at the forefront with a group of seven-star Divine Generals.

In no time, thousands of Divine Generals surrounded the Blood-Devouring Vine and began their assault.

Boom! Boom! Boom! Countless attacks turned the mountain peak to dust in an instant, even tearing the void apart.

However, the Blood-Devouring Vine’s defense was incredibly strong and wasn’t destroyed in one strike; only some of its vines were broken.

As the vines shattered and scattered, chaos ensued. Some Divine Generals seized fragments of the vines and started to flee.

“Courting death!”

Some seven-star Divine Generals became furious. The Blood-Devouring Vine was not yet dead, and these Divine Generals were already snatching its fragments.

Boom! A mid-level six-star Divine General was directly killed by a seven-star Divine General.

The Blood-Devouring Vine also retaliated, driving back a group of seven-star Divine Generals and killing many five and six-star Divine Generals.

Chaos reigned! Greed lurked in everyone's hearts; given the chance, they would snatch the vine fragments.

Despite this, the Blood-Devouring Vine continued to suffer heavy injuries, scattering numerous vine fragments in all directions.

Initially, the seven-star Divine Generals tried to stop others from grabbing the vine fragments. Eventually, they gave up and joined the scramble themselves.

Ye Tian also began to seize the vine fragments. He was extremely fast, surpassing most six-star Divine Generals in speed. His secretive divine ability made it difficult for other Divine Generals to detect him, allowing him to move unpredictably.

Despite Ye Tian's relative weakness, he managed to snatch quite a few vine fragments, securing more than many six-star Divine Generals, second only to the seven-star Divine Generals.

Suddenly, a group of seven-star Divine Generals completely annihilated the Blood-Devouring Vine, shattering its core, which transformed into streaks of blood-red light that flew in all directions.

Instantly, the Divine Generals went mad with desire. The core of the Blood-Devouring Vine was immensely valuable; a single core fragment was worth dozens, if not hundreds, of other vine fragments.

Even the seven-star Divine Generals were driven to madness. Anyone who dared to seize a core fragment would be treated as an enemy.

“Kill!”

The seven-star Divine Generals attacked, even turning on each other. Some of the weaker early-stage seven-star Divine Generals were heavily injured by their more powerful counterparts due to their greed.

Countless Divine Generals fell, and the battle grew exceedingly brutal.

Ye Tian did not dare to grab those core fragments, but by sheer coincidence, a sizable core fragment flew straight towards him.

Ye Tian instinctively grabbed it! Immediately, numerous eyes fixated on him. Under such scrutiny, his secretive divine ability was rendered useless.

“Escape!”

Ye Tian employed the Eternal Light Divine Ability and fled quickly.

“Leave the Blood-Devouring Vine core fragment behind!” several seven-star Divine Generals roared.

The surrounding space solidified. Normally, any other Divine General wouldn’t have escaped, but Ye Tian’s Eternal Light Divine Ability was nearing the perfected realm. Additionally, his proficiency in spatial techniques allowed him to break through the spatial constraints and flee.

However, despite his speed, he could not outpace a seven-star Divine General. One of them pursued him, while the others gave up, likely believing they couldn’t outcompete this seven-star Divine General. The pursuer struck with a palm from a distance, not considering Ye Tian capable of surviving the blow, thus paying him little attention.

Yet, he underestimated Ye Tian.

Compared to when he first entered this secret realm, Ye Tian’s strength had significantly increased. He was now a peak five-star Divine General and had focused extensively on survival techniques. Among them, the Great Immortality Technique was the one he had trained in the longest.

Utilizing his supreme comprehension talent and time acceleration, coupled with numerous spiritual herbs and resources from the secret realm, he had painstakingly cultivated the Great Immortality Technique to the perfected realm.

Although it consumed countless resources, his survival abilities had greatly improved! The perfected Great Immortality Technique offered incredible protection. The pursuing seven-star Divine General, a mid-stage seven-star, could easily kill a mid to late six-star Divine General with a casual palm strike.

Ye Tian's various defensive measures, including his strongest supreme treasure defensive armor and several defensive talismans, shattered instantly. His body was reduced to a mass of flesh, falling to the ground.

Due to Ye Tian's timely use of his secretive divine ability, his opponent believed him dead and did not strike again, focusing instead on retrieving the core fragment from Ye Tian's body.

Unexpectedly, Ye Tian moved. The immortality material generated by the Great Immortality Technique instantly restored him. He then used the Eternal Light Divine Ability to escape rapidly, activating multiple teleportation talismans to move swiftly away from the battlefield.

The mid-stage seven-star Divine General was dumbfounded. If he had been prepared, Ye Tian, despite his speed and teleportation talismans, would not have managed to escape.

After all, his techniques were numerous! He had believed Ye Tian dead, directing his attention elsewhere.

He had never imagined that a mere peak five-star Divine General could survive his palm strike.

"Eternal Light Divine Ability, Great Immortality Technique, two out of Three Thousand Great Divine Abilities mastered... Who is this person?" The mid-stage seven-star Divine General frowned.

At this point, he realized he had thoroughly offended Ye Tian. Considering Ye Tian's likely significant background, possibly a disciple of a Dao Ancestor or even a hidden personal disciple, he decided not to dwell on it.

"Hmph, once I reach eight-star Divine General, advancing to the Destiny Realm with an unparalleled foundation, not even a personal disciple of a Dao Ancestor will easily threaten me!"

With that, he stopped worrying and continued to seize Blood-Devouring Vine fragments.
