TL: Etude

“Senior Brother Peng Yu, how can I trade for the Three Thousand Thunder Movements, this Chaos Divine Ability?” Ye Tian asked.

Heavenly Monarch Peng Yu responded, “Dao Child, ordinary treasures are of no use to me. Considering that you are only at the Divine General level, I doubt you have anything valuable enough for me. If you intend to trade a bunch of useless items for a Chaos Divine Ability inheritance, I won’t agree to it.

Chaos Divine Ability inheritances are extremely difficult to duplicate. To pass on a Chaos Divine Ability, one needs to master it and reach a higher level of proficiency, in addition to having special materials. This alone is enough to prove its value.

Moreover, Chaos Divine Abilities can only be passed on a few times at most. The one I have can only be inherited one more time, but trading it to someone in need could yield substantial resources.

So, Dao Child, if you wish to trade for my Three Thousand Thunder Movements, you can only do so with Void Sky Points.”

“Void Sky Points?” Ye Tian asked, puzzled.

Heavenly Monarch Peng Yu explained, “Void Sky Points are a type of currency owned by disciples of the Void Sky lineage, used to exchange for resources.

As Dao Child, you are a personal disciple of the Dao Ancestor and receive 100 points upon entry. However, since you have not yet entered the Void Sky Realm of the Void Sky lineage, you currently don’t have any points.

But I’ve received news that when a batch of Divine Generals and Heavenly Monarchs enters the Grand Universe, the main forces of the Void Sky lineage will also arrive.

At that time, the Void Sky Points system will be activated in the Grand Universe, and you will have points.

I intend to sell the Three Thousand Thunder Movements Chaos Divine Ability for 300 points.”

“Points, huh!” Ye Tian mused. Though he wasn’t sure about the value, he trusted that Heavenly Monarch Peng Yu wouldn’t dare deceive him, considering his status as a personal disciple of the

Dao Ancestor. Any deception would mean offending him, which would have serious consequences later.

Therefore, Ye Tian agreed. “Alright, 300 points it is. However, I don’t have any points now, so we’ll have to sign an agreement. What do you think?” Ye Tian asked.

“Agreed!” Heavenly Monarch Peng Yu nodded.

In truth, he wasn’t making a significant profit off Ye Tian’s points. The Three Thousand Thunder Movements Divine Ability was definitely worth 350 points, so selling it for 300 points was quite a bargain.

The main issue was that not many were willing to spend so many Void Sky Points on the Three Thousand Thunder Movements. Chaos Divine Abilities were tough to master, and the cultivation requirements for the Three Thousand Thunder Movements were stringent. Most Heavenly Monarchs wouldn’t waste their points on it, and those who could afford it generally preferred abilities more suited to them.

In the Void Sky Realm, there were plenty of Chaos Divine Abilities available for purchase with points.

For this reason, the Three Thousand Thunder Movements Divine Ability had remained unsold. Now that Ye Tian wanted to buy it, Peng Yu was naturally pleased.

Immediately, Heavenly Monarch Peng Yu and Ye Tian signed the agreement.

Heavenly Monarch Peng Yu wasn’t worried about Ye Tian defaulting. With the contract in place, and given Ye Tian’s status as a personal disciple of the Dao Ancestor, 300 Void Sky Points were trivial in the long run.

After signing the agreement, Ye Tian successfully acquired the Three Thousand Thunder Movements Divine Ability.

Having acquired the Chaos Divine Ability, Ye Tian now needed to collect innate origin items of the lightning attribute. Moreover, these had to be of high grade; lower-grade innate origin items would be useless.

Some top-tier divine abilities might work with lower-grade origin items, but Chaos Divine Abilities far surpassed regular divine abilities. Without high-grade innate origin items, it was impossible to practice a Chaos Divine Ability.

“High-grade lightning attribute innate origin items are going to be difficult to gather!” Ye Tian realized.

He asked many people within the Void Sky Hall, but none of them had such high-grade lightning attribute innate origin items. Perhaps some had them but were unwilling to part with them.

Additionally, high-grade lightning attribute innate origin items were not cheap; though perhaps not as valuable as a Chaos Divine Ability inheritance, they were not far behind.

Ye Tian, who aimed to walk the Path of Infinity by condensing numerous primordial forms of the Dao, needed to collect many Chaos Divine Abilities. The cost of doing so was unimaginable to others.

“I will need to rely on the Void Sky lineage in the future. However, the next group to enter the Grand Universe will take a long time to arrive. In the meantime, I can only collect items on my own,” Ye Tian thought.

In the following thousands of years, Ye Tian still hadn’t managed to collect high-grade lightning attribute innate origin items. However, he did manage to acquire a Great Divine Ability, one of the Three Thousand Great Divine Abilities, specifically the Great Divination Technique, ranked 100th among the Three Thousand Great Divine Abilities.

The Great Divination Technique was terrifying in its capabilities. It could deduce fate, deduce techniques, and predict auspiciousness and calamity. It was considered an incredibly heaven-defying divine ability, with some even ranking it among the top ten Great Divine Abilities.

However, it ultimately ranked 100th among the Great Divine Abilities. This low ranking was due to its near-impossible practice requirements. If not for its relatively easier inheritance process compared to Chaos Divine Abilities, no one would have been able to pass it down.

It was said that, from ancient times to the present, no one had managed to cultivate it to perfection. In contemporary times, no one could practice it to completion.

To practice the Great Divination Technique, one needed the combined talents of destiny and deduction—resulting in the Divine Calculation Talent. This prerequisite was a major hurdle for everyone.

Rumor had it that in the past, there were supreme treasures in chaos that could merge fate and deduction talents into the Divine Calculation Talent. However, such treasures no longer existed and couldn’t be born again.

Apart from the Divine Calculation Talent and the inheritance of the Great Divination Technique, two innate origin items were also required: the Destiny Stone and the Chaos Black Tortoise Shell.

The Destiny Stone wasn’t rare and was relatively easy to collect. The Chaos Black Tortoise Shell, however, posed a significant challenge. This shell was unique to the Chaos Black Tortoise race, a high-level chaos lifeform. An adult could reach the peak of the Destiny Realm, with some highly talented ones even becoming True Ancestors.

If not for the Chaos Black Tortoise race lacking a Dao Ancestor, no one would dare to collect their shells. Even so, the race had several True Ancestors and were adept at the art of deduction. While not as powerful as the Great Divination Technique, few dared to provoke them.

Ye Tian had collected the Great Divination Technique, the Destiny Stone, and had even used his copy talent to fuse the fate and deduction talents into the Divine Calculation Talent.

All Ye Tian needed now was the Chaos Black Tortoise Shell to formally practice the Great Divination Technique.

The Great Divination Technique, in some aspects, was even more formidable than a Chaos Divine Ability, and Ye Tian was naturally eager to master it.

Unfortunately, despite his long search, he hadn't found the Chaos Black Tortoise Shell.

One day, while Ye Tian was practicing, an invitation was delivered to him.

"Goddess Yun Zi invited me as a guest," Ye Tian was very surprised.

After reading the content of the invitation, he immediately decided to attend.

Your Talent is Mine #Chapter 872: A Deal with Goddess Yun Zi! - Read Your Talent is Mine Chapter 872: A Deal with Goddess Yun Zi!

TL: Etude

In the territory of the War God Tower.

In front of a white palace, a group of women stood guard. This was the residence of Goddess Yun Zi — the Purple Cloud Palace. (Yun Zi = Cloud Purple btw)

Goddess Yun Zi, being a seven-star Divine General and a personal disciple of a Dao Ancestor, occupied a vast region in the Grand Universe, which was named the Purple Cloud Domain.

The environment of the Grand Universe differed from that of ordinary universes. The Grand Universe consisted mostly of continental terrains, with countless starry sky continents in the void. The largest of these starry sky continents was the Ancestral Stele Continent, where the Ancestral Stele was located. It was boundless, many times the size of previous universes.

The Void Sky Hall was situated on the Void Sky Continent, far from the Purple Cloud Domain.

However, for a Divine General, this distance was negligible.

With his incredible speed, Ye Tian soon arrived at the Purple Cloud Domain.

Standing before the Purple Cloud Palace, Ye Tian quickly made his way inside and met Goddess Yun Zi.

“Greetings to Goddess Yun Zi!” Ye Tian said.

“The Dao Child of Ten Thousand Laws is too polite. Please, have a seat!” Goddess Yun Zi responded, then had all the maids leave, including the Heavenly Monarch who was guarding her.

At this moment, only Ye Tian and Goddess Yun Zi remained.

“Goddess Yun Zi, do you truly have the Chaos Black Tortoise Shell?” Ye Tian asked urgently.

“Yes!” Goddess Yun Zi smiled and said, “The Dao Child of Ten Thousand Laws has been collecting Destiny Stones and Chaos Black Tortoise Shells for years. These two treasures are essential innate origins for cultivating the Great Divination Technique. In the chaos, the Great Divination Technique is considered almost impossible to master and is nearly abandoned by people. If it weren’t for the terrifying power of the Great Divination Technique, it would have long fallen out of the top hundred divine abilities.

The Dao Child of Ten Thousand Laws certainly possesses the Great Divination Technique, but you lack the supreme treasures to fuse the Destiny Talent and the Deduction Talent. Could it be that you already have the Divine Calculation Talent?”

“What do you mean, Goddess Yun Zi? Are you trying to pry into my secrets?” Ye Tian’s tone turned somewhat unpleasant.

Goddess Yun Zi quickly replied, “Dao Child of Ten Thousand Laws, there’s no need to worry. I only wish to know if you can master the Great Divination Technique. If you are confident in mastering it and can help me with a task, I will give you the Chaos Black Tortoise Shell as a gift and even offer you some additional rewards. How about that?”

“First, tell me what you need help with,” Ye Tian demanded.

Goddess Yun Zi’s expression shifted slightly, showing a hint of surprise.

Though Ye Tian hadn’t admitted to mastering the Great Divination Technique, his question about the task indicated his confidence in mastering it. Otherwise, there would be no need to ask.

After all, the premise of their cooperation was the Great Divination Technique!

“I need to enter a forbidden area!” Goddess Yun Zi explained. “The Grand Universe has birthed several forbidden areas, some of which are so dangerous that they can trap even the strongest Heavenly Monarchs on the Heavenly Monarch Rankings.

I discovered that one of these forbidden areas holds a significant opportunity for me, but my master cannot help, and even her power cannot extend into the Grand Universe.

So, I can only rely on myself.

However, the forbidden area is extremely dangerous, a natural killing array. The killing arrays within are completely unpredictable, and the rules there differ from elsewhere. Even formation Heavenly Monarchs cannot comprehend the killing arrays there.

But someone with the Great Divination Technique can deduce which places are dangerous and which are safe.

If the Dao Child of Ten Thousand Laws truly masters the Great Divination Technique, I hope you can accompany me to the center of that forbidden area.”

“Alright, I indeed can master the Great Divination Technique,” Ye Tian conceded, “but such a task is inevitably dangerous. Even if I can avoid the killing arrays, who knows what other dangers lurk within. The Great Divination Technique isn’t all-powerful; it cannot see through the future, only deduce and calculate based on existing things.”

“If that forbidden area truly holds unknown dangers, I might not be able to foresee everything. Therefore, I need more compensation. The Chaos Black Tortoise Shell alone is not enough,” Ye Tian clearly stated.

“Alright, what else do you want?” Goddess Yun Zi asked.

“I want a Chaos Divine Ability of the twelve major attributes and the corresponding innate origin objects. I don’t need anything related to time-space or lightning attributes,” Ye Tian pondered for a moment and then replied.

“Heh, even if you wanted time-space attributes, I wouldn’t be able to provide them!” Goddess Yun Zi rolled her eyes and then nodded. “Alright, I do have a Chaos Divine Ability inheritance, and one of them comes with the corresponding innate origin object. Unfortunately, I lack the necessary talent to cultivate it.

This Chaos Divine Ability is of the metal attribute, called the Devouring Gold Divine Ability. It’s a rather rare cultivation-type Chaos Divine Ability, ranked 121st among Chaos Divine Abilities.”

As Goddess Yun Zi explained, Ye Tian began to understand the Devouring Gold Divine Ability.

Once mastered, the Devouring Gold Divine Ability allowed the practitioner to devour various metals, refining them into a set of full-body armor, and even into weapons. The grade of the armor and weapons corresponded with the practitioner's own strength. When the Devouring Gold Divine Ability reached its perfected realm, it could potentially grant a Divine General Chaos Supreme Treasures-level armor and weapons, perfectly suited to the practitioner. However, getting started with the Devouring Gold Divine Ability was difficult. It required the fusion of the Devouring Talent and the Metal Attribute Talent to form the Devouring Gold Talent, and this talent was resource-intensive, requiring a massive amount of metals. In essence, a poor Divine General couldn't afford to cultivate the Devouring Gold Divine Ability.

Goddess Yun Zi, with her background, could theoretically obtain the Devouring Talent and Metal Attribute Talent from the War God Tower and fuse them into the Devouring Gold Talent using treasures, though at a high cost.

But to pay such a hefty price to cultivate a divine ability she didn't particularly favor was simply not worth it.

Moreover, even with her resources as a personal disciple of the Dao Ancestor, she could at most cultivate only two Chaos Divine Abilities. To cultivate any additional Chaos Divine Abilities, she would have to rely entirely on herself, as the War God Tower wouldn't assist her further.

Thus, she had to choose the Chaos Divine Abilities that suited her best.

For this reason, the Devouring Gold Divine Ability was shelved.

If Ye Tian could truly help her, giving him the Devouring Gold Divine Ability wouldn't be a problem.

"Alright!" Ye Tian agreed on the spot. "I can help you, but after the task is completed, you must give me the Devouring Gold Divine Ability and its corresponding innate origin object."

"Deal!" Goddess Yun Zi also agreed.

After they signed the agreement, Ye Tian obtained the Chaos Black Tortoise Shell.

However, Goddess Yun Zi required Ye Tian to cultivate the Great Divination Technique within the Purple Cloud Palace. She wasn't worried about him running away but was concerned about him being delayed by other matters.

Ye Tian didn't mind; he could cultivate anywhere.

After settling into a side hall of the Purple Cloud Palace, he focused entirely on cultivating the Great Divination Technique.

Time flew by, and a thousand years passed.

One day, Ye Tian finally mastered the Great Divination Technique.

After mastering this supreme divine ability, Ye Tian truly realized the terrifying effectiveness of the Great Divination Technique.

Under its influence, he could perfect his martial arts, deducing and correcting all his flaws.

“It’s terrifying. If I truly perfect myself, my strength can improve even further. Even if I don’t reach the peak of the seven-star Divine Generals, I won’t be far from it.

Moreover, once I master one or two Chaos Divine Abilities, my strength will undoubtedly reach the peak of the seven-star Divine Generals,” Ye Tian exclaimed excitedly.

[Your Talent is Mine #Chapter 873: Forbidden Land, Great Ice World Technique - Read Your Talent is Mine Chapter 873: Forbidden Land, Great Ice World Technique](#)

TL: Etude

Ye Tian did not inform Goddess Yun Zi that he had mastered the Great Divination Technique. Instead, he continued his cultivation, planning to reveal this achievement to her only after his strength had further improved.

In the blink of an eye, several hundred years passed.

By this time, Ye Tian had perfected all his ultimate techniques and concluded his seclusion. He then went to find Goddess Yun Zi and informed her that he had mastered the Great Divination Technique.

Upon hearing this, Goddess Yun Zi was astonished. “With your high talent as the Dao Child of Ten Thousand Laws, mastering a Chaos Divine Ability in such a short time is impressive. Although the power of a Chaos Divine Ability cannot be fully unleashed at the Divine General level, it is still formidable.”

“Dao Child of Ten Thousand Laws, if you are ready, we can depart now!”

“Yes, I am ready,” Ye Tian nodded.

Subsequently, Ye Tian and Goddess Yun Zi set off, accompanied by Yun Zi’s guardian, a Heavenly Monarch, who would ensure her safety until they entered the forbidden land.

Before long, Ye Tian and Goddess Yun Zi reached their destination.

“This is the forbidden land!” Yun Zi pointed to a planet ahead.

Although most of the Grand Universe comprised starry skies and continents, some planets existed, and these planets were extraordinary and colossal. The planet before them was immense, with a radius of at least a hundred billion kilometers, standing like a giant in the starry sky.

The entire planet was a forbidden land where no Divine General dared to enter. Even a Heavenly Monarch could only venture around the periphery, with certain death assured if they went deeper.

“Dao Child of Ten Thousand Laws, could you use your Great Divination Technique to determine if entering will lead to certain death?” Yun Zi asked.

The Great Divination Technique, while not as powerful as true Destiny Divine Abilities in predicting fate and danger, excelled in details. For instance, it could calculate the safest path through a killing array, which Destiny Divine Abilities could not. However, it could not guarantee Ye Tian’s survival in this venture.

Nonetheless, it could determine if their entry would be a sure death situation.

Ye Tian immediately began to perform the Great Divination Technique.

In an instant, the rules of the Great Divination Technique manifested around him, his eyes displaying numerous data rules as he calculated the safety of this expedition.

Soon, he finished the calculation.

“There is danger, but it is not too significant,” Ye Tian said.

Of course, this calculation considered his presence. If Goddess Yun Zi went in alone, it would indeed be a sure death scenario.

“Then we rely on you, Dao Child of Ten Thousand Laws!” Yun Zi said.

“No problem!” Ye Tian responded confidently.

Nearby, the guardian Heavenly Monarch Zishan transmitted a message, “Your Highness, should I accompany you? It’s too dangerous for you to go in alone.”

“No need!” Yun Zi replied hurriedly, “You cannot. This forbidden land is extremely perilous, and the stronger the entrant, the greater the danger. If you go in, it might cause unnecessary risks. Although the Dao Child of Ten Thousand Laws possesses the Great Divination Technique, he only has the rudimentary form of this Chaos Divine Ability, and his cultivation is not high enough to calculate everything. I do not want any unforeseen incidents. Thus, the two of us going in is the best option.”

“Alright,” the Heavenly Monarch Zishan nodded reluctantly, ceasing his persuasion.

Ye Tian and Goddess Yun Zi did not immediately enter the planet. Instead, they began searching for the safest entry point.

The entire planet was a forbidden land, filled with invisible killing arrays that were incredibly terrifying. If they entered carelessly, their seven-star Divine General level strength might result in injuries right from the start.

“Here, Goddess Yun Zi, we should enter from here. In ten seconds, the killing array’s power will be at its weakest,” Ye Tian pointed to a spot.

“Alright,” Yun Zi nodded, trusting Ye Tian’s judgment without any hesitation.

After ten seconds, Ye Tian and Yun Zi entered the forbidden land from that spot.

Ye Tian continuously employed the Great Divination Technique, calculating nearly every step they took. As they ventured deeper into the forbidden land, various attacks descended upon them. However, because they followed the safest route, these attacks posed no threat to Ye Tian and Yun Zi.

Time passed slowly, and they gradually reached the core area of the forbidden land. Despite this, they had not encountered any significant danger and remained unscathed.

It was at this moment that Yun Zi truly realized the terrifying prowess of Ye Tian’s Great Divination Technique. Before this, she had consulted several Divine Generals from the War God Tower, some of whom specialized in the paths of destiny and divination. Yet, each of them had perished in the forbidden land.

Now, they had ventured deep into the forbidden land without encountering any danger. Yun Zi understood that it wasn’t because the forbidden land was safe, but because Ye Tian was exceedingly skilled, preventing her from encountering any danger.

“No wonder the Great Divination Technique is so renowned. Countless geniuses in the Chaos cannot master it, and even my master said he could not help me achieve it. Yet, the Dao Child of Ten Thousand Laws mastered it. How did he acquire such a divine talent?” Yun Zi was curious but did not delve further.

Everyone had their own encounters. If Ye Tian did not wish to disclose his secrets, she could not know, nor was there a need to know.

“Next, it will be a bit dangerous. Goddess Yun Zi, I need to focus entirely on calculations; you will need to protect us!” Ye Tian said.

He could have used the Ancient Origin Defense Divine Ability and the Great Immortality Technique, which would have made it almost impossible to encounter danger here. However, he

did not want to expose the Ancient Origin Defense Divine Ability. If he could use this opportunity to gauge Yun Zi's strength, it would be beneficial.

"Okay," Yun Zi agreed.

Suddenly, a surge of purple flames appeared, and Yun Zi cast a powerful ice-type divine ability, enveloping both herself and Ye Tian.

"The Ice Crystal Divine Ability, ranked 288th, is an ice-type defensive divine ability!" Ye Tian thought.

With the Ice Crystal Divine Ability, they passed through the purple flame area unscathed.

Soon, they entered a desert, where an endless barrage of sand particles attacked them. Each grain of sand seemed to have the impact of a world crashing down, possessing immense destructive power, enough to threaten an ordinary seven-star Divine General.

The sheer volume of sand was enough to annihilate a late-stage seven-star Divine General.

Seeing this, Yun Zi questioned, "Dao Child of Ten Thousand Laws, did your Great Divination Technique miscalculate? How did we end up in such a dangerous area?"

"No mistake. This is the safest route nearby. If we don't go through it, we'll have to turn back. Besides, with your strength, passing through this area won't be difficult," Ye Tian replied.

Yun Zi did not dare to be careless. She quickly cast an even more powerful defensive divine ability.

"Great Ice World Technique!"

Boom! A colossal ice barrier blocked the sand particles, allowing Ye Tian and Yun Zi to swiftly pass through the area.

Ye Tian recognized the Great Ice World Technique. It was ranked within the top hundred of the Three Thousand Great Divine Abilities, specifically 41st, and was one of the strongest defensive divine abilities.

[Your Talent is Mine #Chapter 874: Black Obsidian Gold Vein - Read Your Talent is Mine Chapter 874: Black Obsidian Gold Vein](#)

TL: Etude

With the protection of Goddess Yun Zi, Ye Tian did not need to worry about anything else, but he did not fully immerse himself in his Great Divine Calculation either. He still left a part of his mind to pay attention to the surroundings.

In case Goddess Yun Zi proved unreliable, he could still protect himself in time.

It was always wise to be cautious of others; he would not foolishly place his complete trust in Goddess Yun Zi.

After traversing through several more regions, Ye Tian and Goddess Yun Zi finally arrived at the core area of the forbidden land. Here stood a mountain, filled with an intangible sense of lethal danger.

“Goddess Yun Zi, is this mountain your destination?” Ye Tian asked.

“Yes!” Goddess Yun Zi nodded.

“Goddess Yun Zi, we’re almost there. You should tell me the real reason you came here, right?” Ye Tian inquired curiously.

Goddess Yun Zi hesitated for a moment but eventually revealed her purpose. “There is an Icefire here. I have cultivated a special physique and am only one step away from perfection. The Icefire is essential for that. Unfortunately, it is almost nonexistent in the chaos. Only in this vast universe can it be found. That’s why I entered this universe in the first batch.”

“So that’s how it is!” Ye Tian murmured softly.

“Dao Child of Ten Thousand Laws, the Icefire is on the mountain. I can promise you that aside from the Icefire, all other opportunities will be yours!” Goddess Yun Zi assured.

“Really?” Ye Tian’s expression changed slightly.

Currently, he was quite poor. Compared to an ordinary Divine General, he might be considered relatively wealthy, but compared to a Heavenly Monarch, he was penniless. Even compared to a Divine General like Goddess Yun Zi, he was extremely poor.

This forbidden land was extraordinary. Even though the Icefire was the most precious, other treasures should be plentiful enough to significantly increase his wealth.

“Of course, it’s true!” Goddess Yun Zi replied with a smile.

She only needed the Icefire. Once she obtained it, her strength would surge in a short time. As for other treasures, she didn’t care. With her status, acquiring treasures was not difficult.

Besides, not only her Dao Ancestor master but her parents were also powerful True Ancestors, possessing extremely high statuses.

Therefore, her standards were high. Apart from the Icefire, she did not think there was anything else here worth her attention.

Moreover, the Icefire was not inherently precious, just rare. It was invaluable to her but useless to others.

“Dao Child of Ten Thousand Laws, where should we enter?” Goddess Yun Zi asked.

“Let me calculate!” Ye Tian replied.

Soon, Ye Tian used his Great Divine Calculation to deduce the entrance.

“In three years, we must enter from this spot. Only this way will ensure survival; otherwise, certain death awaits!” Ye Tian stated.

He did not deceive Goddess Yun Zi but spoke the truth. The killing array here was terrifying. Ye Tian admitted he couldn’t break through it. Even if his strength increased a hundred or thousand times, he still couldn’t contend with the power of this killing array.

Thus, they had to wait for three years and then quickly pass through the only life-saving entrance into the mountain.

“Alright!” Goddess Yun Zi agreed.

Three years was a short wait for her.

In the blink of an eye, three years passed.

Swish! Ye Tian and Goddess Yun Zi instantly passed through a weak point in the killing array. Even so, both Ye Tian and Goddess Yun Zi were gravely injured.

The killing array shattered Goddess Yun Zi’s Great Ice World Technique and pierced through her defenses one by one.

Although Ye Tian did not reveal his Ancient Origin Defense Divine Ability and Time-Space Shift Technique, he employed various other means. However, he quickly recovered from his injuries using the Great Immortality Technique.

Inside the mountain peak.

This place resembled a world of its own, devoid of any danger.

Ye Tian and Goddess Yun Zi stayed here to recover from their injuries. After a short while, both of them fully healed.

“Dao Child of Ten Thousand Laws, is there no danger here now?” Goddess Yun Zi asked.

“None!” Ye Tian replied.

He had already used his Great Divine Calculation to deduce that there was absolutely no danger here.

Swish! Goddess Yun Zi moved swiftly towards a certain direction, having sensed the presence of the Icefire.

Ye Tian also had some interest in the Icefire, so he followed to take a look.

In the blink of an eye, the two of them arrived in front of the Icefire.

“So this is the Icefire!” Ye Tian stared in amazement at the flame hovering above a lake.

What was most important was that beneath the flame lay a sheet of ice. The flame seemed to root itself in the void above the ice, an extremely rare phenomenon.

Goddess Yun Zi flew over and took out a precious lotus to collect the Icefire.

However, a surge of power erupted, freezing half of Goddess Yun Zi’s body.

Despite this, she managed to successfully collect the Icefire.

“Success!” Goddess Yun Zi was thrilled. This meant she could now perfect her special physique, significantly boosting her strength. In no time, she might even ascend to the ranks of the eight-star Divine Generals.

Seeing that Goddess Yun Zi had successfully collected the Icefire, Ye Tian said, “Goddess Yun Zi, I’ll go look around and see if there are any other treasures.”

“Alright!” Goddess Yun Zi nodded, but after a moment of thought, she said, “I’ll go with you. I can’t cultivate here in seclusion anyway.”

“Okay!” Ye Tian agreed and led Goddess Yun Zi along.

In the days that followed, Ye Tian gathered resources in this area.

This central part of the forbidden land was truly extraordinary, with resources so abundant that even a Heavenly Monarch would be tempted.

In just six months, Ye Tian had amassed at least a hundred Dao Coins worth of resources.

However, Ye Tian’s greatest gain was not these ordinary resources.

“What is this?” Ye Tian arrived at a valley where a rock within glowed with a black light.

After breaking the rock, he found a type of black metal that was extremely hard. Even Ye Tian's attacks only left slight marks on it.

"Black Obsidian Gold!" Goddess Yun Zi exclaimed in shock, even feeling tempted.

"Goddess Yun Zi, is this metal Black Obsidian Gold?" Ye Tian asked.

"Yes!" Goddess Yun Zi explained, "Black Obsidian Gold is a very precious metal, even in the chaos. Many chaos treasures are made with Black Obsidian Gold. If there is enough of it, it can even be used to forge a Half-Dao Weapon."

"What? This stuff can be used to forge a Half-Dao Weapon?" Ye Tian was astonished.

He might not have known much about Black Obsidian Gold, but he knew about Half-Dao Weapons.

In the chaos, Half-Dao Weapons surpassed chaos treasures. Dao Weapons were supreme weapons that only Dao Ancestors could refine and use, while True Ancestors typically wielded Half-Dao Weapons. Some poorly faring True Ancestors didn't even possess a single Half-Dao Weapon.

It was clear how valuable this Black Obsidian Gold was.

"Goddess Yun Zi, you said that apart from the Icefire, all the gains here belong to me, right?" Ye Tian asked with a smile.

"Right!" Goddess Yun Zi replied, her face full of regret.

Had she known there was a vein of Black Obsidian Gold here, she would never have agreed to such terms. "Master, why didn't you tell me there was Black Obsidian Gold here?" she wondered silently.

Her master could deduce the presence of the Icefire here, so he should have also known about the Black Obsidian Gold.

However, upon reflection, she realized that Black Obsidian Gold might be considered trash in her master's eyes, so he wouldn't have bothered to mention it.

"What a loss!" Goddess Yun Zi thought helplessly.

Your Talent is Mine #Chapter 875: Power Surge - Read Your Talent is Mine Chapter 875: Power Surge

TL: Etude

Goddess Yun Zi sighed but didn't contest Ye Tian for the Black Obsidian Gold vein. After all, she had already promised it to him and couldn't go back on her word. Besides, she needed Ye Tian's help to leave this place. No matter how precious the treasure, she couldn't risk being abandoned here and trapped for ages.

With a roar, Ye Tian continuously blasted at the site, quickly revealing a complete ore vein. Black Obsidian Gold was very heavy, difficult to measure by weight. This particular vein was approximately several thousand cubic meters in size.

The value of such a large quantity of Black Obsidian Gold was unimaginable.

"It's worth at least the equivalent of four or five Half-Dao artifacts!" Yun Zi thought, feeling an immense heartache.

Her entire fortune was nowhere near the value of this Black Obsidian Gold vein.

"Goddess Yun Zi, can the Devouring Gold Divine Ability refine Black Obsidian Gold?" Ye Tian asked.

"It can!" Yun Zi nodded. "However, even if you master the Devouring Gold Divine Ability, there's no need to devour too much Black Obsidian Gold. Once you can no longer use it to enhance the ability, stop devouring it. Otherwise, it will be wasted!"

"Understood!" Ye Tian nodded.

Immediately, he stored the entire Black Obsidian Gold vein into his internal small universe. He already had plans for it: a small portion to enhance the Devouring Gold Divine Ability, another part for trading to acquire chaos divine abilities, and the final part reserved for crafting Half-Dao artifacts in the future.

This Black Obsidian Gold vein was undoubtedly the most precious find here. Afterward, Ye Tian and Yun Zi searched around but found nothing else of value.

"It's time to leave!" Ye Tian said.

Yun Zi had long wanted to leave, so she immediately agreed. With the assistance of Ye Tian's Great Divination Technique, they spent some time before finally exiting the forbidden area and reaching the outside world.

"Your Highness, you've finally come out!" Heavenly Monarch Zishan exclaimed excitedly.

She had been worried about Yun Zi's safety all these years. If anything had happened to Yun Zi in the forbidden area, she would have been unable to atone for her guilt, even with a thousand deaths! Fortunately, Yun Zi came out safely.

"Let's go back!" Yun Zi said excitedly.

Seeing this, Heavenly Monarch Zishan understood that Yun Zi must have obtained the Icefire, so she immediately took Yun Zi back. The most important thing now was for Yun Zi to go into seclusion and cultivate. Perhaps when she emerged, she would already be an eight-star Divine General.

Ye Tian also returned to the Void Sky Hall and began a new phase. Before they exited the forbidden area, Yun Zi had given him the Devouring Gold Divine Ability and the corresponding primordial origin material. Therefore, upon returning, he immediately started cultivating the Devouring Gold Divine Ability.

Two years later, Ye Tian finally mastered the Devouring Gold Divine Ability, forming its initial stage. This Chaos Divine Ability required the refinement of metals to unleash its power.

Thus, Ye Tian began to devour various metals. He had collected quite a few metals; during his last venture into the secret world, he even acquired many precious ores. This time, he devoured and refined them all, and also started refining the Black Obsidian Gold.

However, Black Obsidian Gold was extremely tough. Even with the power of the Chaos Divine Ability, Devouring Gold Divine Ability, it took a long time to devour even a little of it.

As time passed, Ye Tian's Devouring Gold Divine Ability grew increasingly powerful. However, due to the limitations of the ability, which was still in its infancy, the armor and weapons it formed were not of the highest grade.

"An extraordinary grade Chaos Spirit Treasure, just below a Chaos Supreme Treasure. Its power is quite impressive!" Ye Tian was very satisfied.

At the very least, he did not possess an extraordinary grade Chaos Spirit Treasure before. The Ancient Demon Tower was indeed stronger than an extraordinary grade Chaos Spirit Treasure, but he had not yet completely conquered it, having only reached the eleventh level. To fully refine the Ancient Demon Tower, he needed to clear the thirteenth level. It was said that even those newly advanced eight-star Divine Generals failed to conquer the Ancient Demon Tower, as their physical bodies were not strong enough and their combat techniques were average, even inferior to Ye Tian's.

The Devouring Gold Divine Ability could attack, defend, and trap, essentially granting Ye Tian a variety of divine abilities. Unfortunately, it had its limitations; otherwise, this Chaos Divine Ability would have been too formidable.

"It's time to condense the embryonic form of the Dao of Gold!" Ye Tian decided.

After nearly ten thousand years, Ye Tian finally condensed the embryonic form of the Dao of Gold. It took another ten thousand years to successfully inscribe a Dao pattern on his Void Sky Dao Body, allowing it to undergo another transformation. This rapid progress was due to the assistance of his Great Divination Technique. Without this help, condensing the embryonic form of the Dao and inscribing the Dao pattern would have taken him at least a hundred thousand years.

The last time, he managed to condense the Dao of Time and Space and inscribe two Dao patterns within ten thousand years, thanks to the effect of the Ancestral Stele Space. Now, without the Ancestral Stele Space, this speed was already incredibly fast.

“I’m now a peak seven-star Divine General!” Ye Tian tested his strength and was overjoyed.

Unfortunately, he couldn’t yet condense the embryonic forms of the Dao of Defense, the Dao of Devouring, and the Dao of Physical Body. Otherwise, it would affect his fundamental Dao, and he would have definitely reached the level of an eight-star Divine General.

“I need to find someone to trade for high-level thunder attribute primordial materials!” Ye Tian murmured.

Next, he used his status as a Dao Child of the Void Sky Hall to propose trades with other forces, offering Black Obsidian Gold in exchange for high-level thunder attribute primordial materials.

Black Obsidian Gold was a universally treasured item for some Heavenly Monarchs, while high-level thunder attribute primordial materials were not necessarily as important. Thus, Ye Tian quickly received a trading message.

“Heavenly Monarch Dark Fiend!” The Heavenly Monarch trading with Ye Tian was not on the Heavenly Monarch Rankings but was still formidable, being in the late stage of Heavenly Monarch cultivation, far surpassing newly advanced Heavenly Monarchs.

On a continental star not far from the Void Sky Hall, Ye Tian conducted the trade with Heavenly Monarch Dark Fiend.

“Dao Child of Ten Thousand Laws, do you really have Black Obsidian Gold?” Heavenly Monarch Dark Fiend asked.

“Yes, one unit of high-level thunder attribute primordial material for one cubic meter of Black Obsidian Gold. How about it?” Ye Tian asked.

“Agreed!” Heavenly Monarch Dark Fiend consented.

With one hand delivering the Black Obsidian Gold and the other hand exchanging for the high-level thunder attribute primordial material, they quickly completed the trade and parted ways without any further inquiries.

With the high-level thunder attribute primordial material in hand, Ye Tian immediately returned to seclusion.

After ten thousand years, he successfully mastered the Three Thousand Thunder Movements Chaos Divine Ability. Another ten thousand years later, he successfully inscribed the fourth Dao pattern—the Dao Pattern of Thunder—onto his Void Sky Dao Body.

Although Ye Tian’s strength did not reach the level of an eight-star Divine General, it was more than twice as powerful as before.

Your Talent is Mine #Chapter 876: Ranked First on the Divine General Rankings for a Few Minutes - Read Your Talent is Mine Chapter 876: Ranked First on the Divine General Rankings for a Few Minutes

TL: Etude

“Fourth on the Divine General Rankings!”

Goddess Yun Zi was utterly shocked when she saw Ye Tian’s ranking on the Divine General Rankings.

Originally, the fourth position belonged to Divine General Lifeless, who had also been the number one on the rankings. At that time, Ye Tian didn’t even qualify to enter the list.

But now, Ye Tian had surpassed Divine General Lifeless, becoming the strongest below the eight-star Divine Generals.

“The speed at which the Dao Child of Ten Thousand Laws’s strength improved was astonishing,” Yun Zi remarked, deeply surprised.

She considered her own progress rapid, having acquired the Ice-less Flame, which accelerated her advancement to the peak of the seven-star Divine General level.

Given another hundred thousand years, she believed she could fully cultivate her physique to the major realm and, combined with breakthroughs in the Chaos Body Refining Technique, achieve the status of an eight-star Divine General.

“The Dao Child of Ten Thousand Laws must have mastered a Chaos Divine Ability and made breakthroughs in the Chaos Body Refining Technique. However, the gap between a peak seven-

star Divine General and an eight-star Divine General is vast. It's impossible for the Dao Child of Ten Thousand Laws to advance so quickly.

I still have a chance to surpass him. I need to continue my seclusion and strive to become an eight-star Divine General!" Yun Zi silently resolved.

"I lack Chaos Divine Abilities," Ye Tian pondered, feeling troubled.

The cultivation of the Profound Void Technique couldn't be rushed. Reaching his level as a Divine General required a long time, and many had reached a bottleneck, needing millions, even tens of millions of years, to progress further.

Despite his high talent and abundant resources, Ye Tian estimated that elevating his strength to the eight-star Divine General level using the Profound Void Technique alone would take tens of thousands or even millions of years.

He couldn't afford to wait that long. With enough Chaos Divine Abilities to cultivate, he was confident he could ascend to the eight-star Divine General level within a few millennia.

"I must collect more Chaos Divine Abilities," Ye Tian decided.

Immediately, he leaked the news that he possessed a considerable amount of Black Obsidian Gold, proposing to trade it for Chaos Divine Abilities and corresponding innate origin items.

This revelation caught the attention of countless powerful beings across the Grand Universe.

Many harbored greed, curious about how much Black Obsidian Gold Ye Tian had obtained, though few dared to rob him.

The reason was simple: Ye Tian's identity as a personal disciple of a Dao Ancestor was not to be trifled with.

Who would dare to rob a Dao Ancestor's disciple unless they came from some special world that even a Dao Ancestor couldn't penetrate or had a significant background themselves? Otherwise, robbing a Dao Ancestor's disciple would be a death sentence.

However, exceptions existed.

In the chaos, some individuals indeed took risks, targeting Dao Ancestor disciples.

Dao Ancestors had agreements not to intervene lightly, so even if a Dao Ancestor disciple died, their master couldn't act. Otherwise, Dao Ancestor Void Sky wouldn't have so many personal disciples.

But those who dared to target Dao Ancestor disciples would face retaliation from their backers.

Ye Tian's Black Obsidian Gold, though valuable, wasn't enticing enough for Heavenly Monarchs to risk their lives, as it couldn't elevate them to True Ancestor status. It wasn't worth the gamble.

If Ye Tian possessed something that could help one become a Dao, they might risk everything.

When Ye Tian announced the trade of Black Obsidian Gold for Chaos Divine Abilities, the news spread rapidly.

Some Heavenly Monarchs secretly contacted Ye Tian, hoping to trade for his Black Obsidian Gold.

However, most of the Heavenly Monarchs didn't possess high-level Chaos Divine Abilities; some weren't even among the three thousand recognized Chaos Divine Abilities. But Ye Tian didn't care about the strength of these abilities. He merely used them to condense the embryo of the Grand Dao.

Over a millennium, Ye Tian expended a considerable amount of Black Obsidian Gold and collected thirteen Chaos Divine Abilities. Unfortunately, only seven of them belonged to the twelve primary Chaos attributes.

These seven were carefully selected by Ye Tian to avoid overlap with other Chaos Divine Abilities.

Thus, Ye Tian could cultivate these seven Chaos Divine Abilities.

Additionally, Ye Tian spent a lot of Black Obsidian Gold to gather the corresponding high-grade innate origin items, enabling him to begin cultivation immediately.

Originally, Ye Tian planned to continue collecting more abilities, but no more Heavenly Monarchs visited him over the next period, so he decided to stop waiting.

He estimated that the Chaos Divine Abilities held by the Heavenly Monarchs of the Grand Universe had likely been exhausted, making further collection difficult.

Hence, Ye Tian began his secluded cultivation of the seven Chaos Divine Abilities.

One thousand years! Two thousand years! Three thousand years!

Unnoticed, eighty thousand years had passed.

By this time, Ye Tian had successfully mastered all seven Chaos Divine Abilities and had condensed eight Grand Dao embryos. One of these abilities, the Wings of Ice and Fire, contained both the Dao of Fire and the Dao of Ice, effectively representing two attribute Daos.

However, Ye Tian's strength remained at the peak of the seven-star level, meaning his power hadn't undergone a qualitative change. Despite having more Chaos Divine Ability embryos, quantity did not equal quality, and he couldn't cross into the eight-star Divine General level.

This was because he had yet to engrave Dao Patterns onto his Void Sky Dao Body.

At this moment, Ye Tian felt excited because he had finally gathered all twelve attribute Dao embryos.

Within the Origin Pearl.

The Dao embryos had already transformed into a Grand Dao that was 100 meters long and 12 meters wide. Its pressure far exceeded that of others' Dao embryos, being a fusion of twelve attribute Daos into a Chaos Dao embryo.

When these twelve attribute Dao embryos merged, an immensely supreme and powerful Chaos Dao energy manifested, indicating the strength of this Dao.

At this point, Ye Tian's foundation had been established, becoming a supreme foundation.

From now on, Ye Tian could continue to condense other Dao embryos, integrating them into this supreme foundation, which would allow the Chaos Dao to progress endlessly, making his Dao increasingly powerful.

"It's time to engrave Dao patterns. According to my calculations, after engraving two or more Dao patterns, my Void Sky Dao Body will transform, and my strength will rise to the eight-star Divine General level!" Ye Tian estimated.

Thus, Ye Tian began engraving the Dao patterns.

During the first ten thousand years, Ye Tian engraved his fifth Dao Pattern—the Ice Dao Pattern.

In the second ten thousand years, Ye Tian engraved his sixth Dao Pattern—the Fire Dao Pattern.

Upon completing the sixth Dao pattern, the power of the Void Sky Dao Body surged, making his physical body incredibly formidable. Ye Tian's combat strength also broke through, shattering the barrier between the seven-star and eight-star Divine General levels, successfully becoming an eight-star Divine General.

Just a few minutes before Ye Tian became an eight-star Divine General, a joyous laugh echoed from Purple Cloud Palace.

"I, Goddess Yun Zi, have finally surpassed the Dao Child of Ten Thousand Laws, becoming an eight-star Divine General, and even surpassed the other three eight-star Divine Generals, ranking first on the Divine General Rankings!"

Goddess Yun Zi was ecstatic. Achieving the first rank on the Grand Universe's Divine General Rankings was even more thrilling than being first on the Chaos War God Palace's list. This was an immense honor! If her master knew, he would surely praise her! However, before she could enjoy her excitement for a few minutes, a servant of the Divine General guarding the Ancestral Stele brought another message.

"What? the Dao Child of Ten Thousand Laws has also broken through, entering the eight-star Divine General level, and surpassed me to become the new first on the Divine General Rankings?"

Goddess Yun Zi's face darkened. Her position as the top of the Divine General Rankings had barely lasted a few minutes before Ye Tian took it from her.

Was Ye Tian doing this on purpose?

Your Talent is Mine #Chapter 877: Mid-Eight Star Divine General - Read Your Talent is Mine Chapter 877: Mid-Eight Star Divine General

TL: Etude

"Impossible for it to be intentional!"

Goddess Yun Zi let out a bitter laugh, realizing how foolish her previous thoughts had been. How could anyone break through their shackles and reach the battle strength of an eight-star Divine General in just a few minutes? Even if Ye Tian constantly had someone watching the Ancestral Stele, knowing she had just advanced to an eight-star Divine General a few minutes ago, he couldn't immediately choose to advance to an eight-star Divine General just to suppress her. It was simply unrealistic! It could only be called an incredible coincidence that both she and Ye Tian broke through almost simultaneously. Moreover, Ye Tian had just advanced to an eight-star Divine General and already surpassed her, indicating that the Ancestral Stele judged Ye Tian to be stronger.

The judgment criteria of the Ancestral Stele might not be entirely accurate, but to some extent, it did show that Ye Tian was superior, with a stronger foundation than hers.

"The strength enhancement brought by the Icefire has been fully exploited. If I want to increase my strength further, it will take a long time unless the Grand Universe presents another astonishing opportunity. Otherwise, it might take tens of millions or even hundreds of millions of years to advance to the mid-eight-star Divine General level." Goddess Yun Zi murmured to herself.

This was due to her high talent. For other eight-star Divine Generals, even after cultivating for several hundred billion years, they would still be at the initial eight-star Divine General level.

For example, those few eight-star Divine Generals at the top of the Divine General Rankings probably couldn't increase their strength anymore and were likely preparing to advance to the Destiny Realm.

While Goddess Yun Zi fretted over the first rank of the Divine General Rankings, Ye Tian didn't care about the ranking at all.

He was completely immersed in cultivation, as his strength was in a rapid growth phase.

One by one, Dao patterns were inscribed on Ye Tian's Void Sky Dao Body, making it increasingly powerful.

Another ten thousand years passed, and the seventh Dao pattern, the Wood Dao pattern, was inscribed into the Void Sky Dao Body, further increasing his strength! As time flowed, the eighth Dao pattern, the Water Dao pattern, was inscribed into the Void Sky Dao Body, followed by the ninth Dao pattern, the Earth Dao pattern, the tenth Dao pattern, the Wind Dao pattern, and the eleventh Dao pattern, the Light Dao pattern, all inscribed into the Void Sky Dao Body.

Finally, Ye Tian inscribed the twelfth Dao pattern into the Void Sky Dao Body.

Although it took Ye Tian eighty thousand years to inscribe the last eight Dao patterns into the Void Sky Dao Body, the increase in strength was immense.

With the blessing of twelve Dao patterns, the Void Sky Dao Body had undoubtedly reached an unprecedented and unparalleled realm.

At this moment, Ye Tian felt that his strength was infinitely close to that of a mid-eight-star Divine General but still hadn't reached it.

"It's time to condense the embryos of other great Daos!" Ye Tian decided.

For instance, he hadn't yet condensed the Defense Dao contained within the Ancient Origin Defense Divine Ability.

Thus, Ye Tian began condensing the embryo of the Defense Dao, and eventually, the embryo of the Defense Dao was successfully condensed.

Then, Ye Tian inscribed the Defense Dao pattern.

Two thousand years later, the embryo of the Physical Dao was condensed, and the Dao pattern was successfully inscribed.

One by one, the embryos of great Daos broadened Ye Tian's path. Although the length remained at 100 meters, the width gradually approached 200 meters.

Another tens of thousands of years passed, and Ye Tian finally condensed and inscribed the Dao patterns corresponding to all the great Daos related to the Chaos Divine Abilities he had learned.

Now, Ye Tian's Void Sky Dao Body was inscribed with a total of 22 Dao patterns.

If it weren't for the fact that some chaos divine abilities contained identical Daos, Ye Tian would have had more than 22 Dao patterns now.

After so many tens of thousands of years of arduous cultivation, Ye Tian had almost given up on the Profound Void Technique. Yet, his strength had not slowed in the slightest, and he had now reached the mid-eight-star Divine General level. Moreover, he was at the pinnacle within the ranks of mid-eight-star Divine Generals.

On the Divine General Rankings above the Ancestral Stele, the name of Ye Tian, the Divine General of Ten Thousand Laws, consistently held the top spot, with no one able to threaten his position.

In Purple Cloud Palace, Goddess Yun Zi sighed, "The Dao Child of Ten Thousand Laws is too strong. He crossed into the mid-eight-star Divine General level so early, while I still cannot manage to break into the mid-eight-star Divine General level. How does he cultivate? Could the inheritance of the Void Sky lineage be that powerful? Impossible, my master might not be as strong as the one from the Void Sky lineage, but he isn't much weaker either. Moreover, the personal disciples of other Dao Ancestors from the Void Sky lineage are not that formidable. Why is the Dao Child of Ten Thousand Laws so exceptional?"

Goddess Yun Zi couldn't understand and only thought that Ye Tian was too monstrous.

In the Void Sky Hall, the Heavenly Monarch Peng Yu and several other Heavenly Monarchs also discussed Ye Tian.

"The Dao Child's talent is terrifying. In just a few hundred thousand years, he has advanced to a mid-eight-star Divine General, surpassing Goddess Yun Zi from the War God Tower. Even among the numerous personal disciples of Dao Ancestors in the entire Chaos, he ranks at the forefront!" Heavenly Monarch Peng Yu said.

Heavenly Monarch Black Armor admired, "With the talent and progress speed of the Dao Child of Ten Thousand Laws, he might even hope to advance to the pinnacle of a nine-star Divine General in the future!"

"The pinnacle nine-star Divine General is too difficult!" Heavenly Monarch Peng Yu said uncertainly.

Most personal disciples of Dao Ancestors could indeed advance to nine-star Divine Generals, but after reaching the initial nine-star Divine General level, they could no longer advance, and had to advance to the Destiny Realm reluctantly.

The nine-star Divine General stages include initial, mid, late, peak, and pinnacle. These represent the five potential levels of Divine Generals.

Direct disciples of Dao Ancestors, legitimate heirs, offspring, or other talented individuals all aimed to become nine-star Divine Generals. However, their potential and inheritance varied, determining the ultimate limits they could reach.

Genuine talents who could become pinnacle nine-star Divine Generals were extremely rare. Even within the Chaos, it had been many years since one was born. Several late nine-star Divine Generals were still striving, unwilling to transition to the Destiny Realm.

These Divine Generals wanted to enhance their levels within the nine-star Divine General stages because the stronger they were at this level, the greater the benefits they would receive upon breaking through to the Destiny Realm, potentially influencing their entire lives.

For example, an initial nine-star Divine General could receive a baptism of 100 units of Chaos Origin when advancing to the Destiny Realm, significantly enhancing their physical and spiritual potential. On the other hand, a pinnacle nine-star Divine General might receive a baptism of 1000 units of Chaos Origin, resulting in an unimaginable enhancement of their potential. This kind of enhancement was difficult to achieve even for a Dao Ancestor.

Potential represented not only the speed of cultivation but also combat power and future achievements.

For instance, some Dao Ancestors were weak, while others were very strong, which was partly related to their accumulation at the Divine General level.

In short, those true geniuses were unwilling to advance to the Destiny Realm without fully accumulating at the Divine General level.

“Hahaha, I was just saying. Becoming a pinnacle nine-star Divine General is indeed challenging. It seems that no one in the Void Sky lineage has crossed into the pinnacle nine-star Divine General level for many ages. Hopefully, the Dao Child of Ten Thousand Laws can achieve that, and our Void Sky lineage will regain its fame!” Heavenly Monarch Black Armor laughed.

Your Talent is Mine #Chapter 878: Refining the Ancient Demon Tower - Read Your Talent is Mine Chapter 878: Refining the Ancient Demon Tower

TL: Etude

After inscribing twenty-two Dao patterns onto the Void Sky Dao Body, Ye Tian did not continue to collect chaos divine abilities. Instead, he focused on cultivating the Profound Void Technique.

For the past hundreds of thousands of years, he had hardly practiced the Profound Void Technique at all. This was entirely because he had concentrated on cultivating chaos divine abilities, condensing the embryo of the Grand Dao, and inscribing Dao patterns. He had no time to cultivate the Profound Void Technique.

As a result, his Profound Void Technique remained at the seventh level, which was the introductory stage.

In fact, the seventh level of the Profound Void Technique belonged to the Destiny Chapter: it was a chaos body-refinement secret technique for the Destiny Realm. But Ye Tian was not an ordinary person; in his eyes, ordinary Destiny Realm experts were like ants.

Because of this, he could cultivate the seventh level of the Profound Void Technique, which was part of the Destiny Chapter.

However, with his current cultivation level, cultivating the seventh level of the Profound Void Technique was very difficult. But after achieving the Void Sky Dao Body, his cultivation became much easier.

Without the Void Sky Dao Body, attempting to cultivate the Destiny Chapter of the Profound Void Technique would have been a hundred times harder.

Ye Tian had a lot of resources at his disposal and had acquired the Black Obsidian Gold Vein, which could be exchanged for many resources to assist in cultivating the Profound Void Technique.

As a result, Ye Tian's cultivation speed was very fast, and the Profound Void Technique progressed little by little.

After another ten thousand years, Ye Tian finally cultivated the seventh level of the Profound Void Technique to the major realm. His physical body became even more formidable, and his strength improved further, reaching the late stage of the eight-star Divine General level.

Unfortunately, progressing further in the Profound Void Technique became much more difficult. After all, the Destiny Chapter actually only had three levels. Without breaking through to the

Destiny Realm, pushing the Profound Void Technique to the eighth level was too difficult. Even achieving the perfected seventh level required numerous opportunities and rare, heaven-defying resources.

However, such resources were lacking in the current Grand Universe, and others might not have them either.

If Ye Tian could leave the Grand Universe, he could slowly search for them in the chaos. Unfortunately, he could not leave.

Because of this, some truly top-tier geniuses were not necessarily willing to enter the Grand Universe. Once they entered, they lost the chance to seek opportunities in the chaos.

Otherwise, some eight-star Divine Generals from the chaos might have ventured into the Grand Universe.

Figures like Goddess Yun Zi, a personal disciple of a Dao Ancestor, entering the Grand Universe in the first batch undoubtedly meant giving up many things, surprising other factions.

While Goddess Yun Zi dared to do this, not all personal disciples of Dao Ancestors would dare to follow suit.

Ye Tian, although a personal disciple of a Dao Ancestor, was an exception because he was a native being of the Grand Universe.

Another several millennia passed, and Ye Tian's progress remained very slow, even minimal.

At this time, Ye Tian became slightly impatient.

"Cultivating is too difficult. I haven't made much progress despite all this time!" Ye Tian sighed.

But soon, he adjusted his mindset.

"That's right, in the chaos, countless geniuses can't even reach the eight-star Divine General level. Even personal disciples of Dao Ancestors, with countless opportunities, need millions of years to improve their strength.

Being able to reach the late stage of the eight-star Divine General level in such a short time is enough to astonish others!"

With this thought, Ye Tian calmed down again.

However, this did not mean he lost his ambition. He still wanted to improve his strength in a short time.

“Let’s go to the Ancient Demon Tower. It’s been a long time. I should be able to pass the thirteenth level this time!” Ye Tian thought.

If he could pass the thirteenth level of the Ancient Demon Tower, it would be his! A top-tier Supreme Treasure second only to a Chaos Supreme Treasure, possibly even stronger. It would be of great value to him.

Even if he didn’t need it, in the future, it could be provided for the geniuses of the Human Race to use, thereby strengthening the Human Race.

Ancient Demon Cave.

This place originally belonged to the Cangyu Universe. But now, with the two universes merging into the Grand Universe and expanding countless times, the area where the Ancient Demon Cave was located became an unclaimed region.

However, the Ancient Demon Cave was still occupied by various major factions, one of which was the Void Sky Hall.

The holy grounds that had originally occupied the Ancient Demon Cave no longer had the qualifications to stay. Their strength was too poor; even their strongest were only three or four-star Divine Generals. Such strength was comparable to ants in the eyes of the incoming major factions.

As a personal disciple of Dao Ancestor Void Sky, Ye Tian naturally could enter the Ancient Demon Cave for free. No one dared to stop him.

At the entrance of the Ancient Demon Cave, a six-star Divine General stood guard.

After all, it was just a supreme treasure and an ordinary treasure ground. The major factions didn’t pay much attention to it, so assigning a six-star Divine General to guard it was already considered significant.

“Greetings, Dao Child of Ten Thousand Laws!”

The six-star Divine General immediately showed respect upon seeing Ye Tian.

“Mm!” Ye Tian nodded and entered the Ancient Demon Cave.

He then proceeded to the Ancient Demon Tower and went straight to the twelfth floor.

In the past, his physical body wasn’t strong enough to pass the twelfth floor.

But now, with his formidable body, he quickly passed the twelfth floor and reached the final level of the Ancient Demon Tower—the thirteenth floor.

Swish, swish, swish! Ten Ancient Demons appeared, surrounding Ye Tian. Each Ancient Demon had an incredibly strong body and highly advanced combat techniques.

If it were the old Ye Tian, he wouldn't have been able to withstand these ten Ancient Demons. But now, he had a chance to defeat them.

“Kill!”

With a long saber in hand, Ye Tian used his unparalleled physical strength and exceptional combat skills to battle the ten Ancient Demons. From initially being at a slight disadvantage, he gradually took control and gained the upper hand.

After half an hour.

Ye Tian killed one of the Ancient Demons, creating a situation of absolute dominance.

Soon, all ten Ancient Demons were slain by Ye Tian, allowing him to pass the thirteenth floor of the Ancient Demon Tower.

At this moment, pure Ancient Demon essence appeared and was absorbed by Ye Tian, though it didn't significantly boost his strength.

After all, such a small amount of Ancient Demon essence was no longer considered a treasure and naturally failed to attract Ye Tian's interest.

Swish! Ye Tian appeared in a grand hall, the core inner hall of the Ancient Demon Tower.

Here, Ye Tian encountered the spirit of the Ancient Demon Tower.

The tower spirit appeared small, merely the size of a doll, but its eyes were filled with wisdom.

“Challenger, you have passed the thirteenth floor of the Ancient Demon Tower and are qualified to refine it, becoming my master,” the tower spirit, with an old-fashioned tone, said.

“How do I refine it?” Ye Tian asked.

“This is the core of the Ancient Demon Tower. By refining it, you can control the tower!” The spirit replied.

“Alright!” Ye Tian nodded, not feeling particularly excited.

He had acquired so much Black Obsidian Gold that even a supreme treasure wasn't enough to make him overly thrilled. A mere supreme treasure was just a small gain, something he planned to give to the Human Race later, hardly a big surprise.

Soon, Ye Tian completely refined the core of the Ancient Demon Tower.

However, after refining and gaining control of the tower, his expression changed, filled with endless surprise.

“The Ancient Demon Tower is actually...”

Your Talent is Mine #Chapter 879: Realm Treasure - Read Your Talent is Mine Chapter 879: Realm Treasure

TL: Etude

Previously, Ye Tian always believed that the Ancient Demon Tower was a Strongest Supreme Treasure. Even though it was more powerful than a regular Strongest Supreme Treasure and Supreme Chaos Spirit Treasure, he still thought it belonged to the category of Supreme Treasures.

However, after refining the Ancient Demon Tower, he realized it was not a Supreme Treasure but an immature Realm Treasure.

In the past, Ye Tian didn't know what a Realm Treasure was. But after becoming a personal disciple of a Dao Ancestor, he acquired a wealth of knowledge from the Void Sky Hall, including information about Realm Treasures.

Realm Treasures were similar to Chaos Supreme Treasures, and they were even comparable in power. Chaos Supreme Treasures could be born from chaos or forged by skilled craftsmen.

Realm Treasures, on the other hand, couldn't be forged; they could only be nurtured by a universe. Given the rarity of such universes and the long time required to produce a Realm Treasure, they were exceedingly precious.

Ten thousand Supreme Treasures couldn't compare to a single Realm Treasure. To put it bluntly, Supreme Treasures and Chaos Spirit Treasures were practically worthless in comparison. Heavenly Monarchs in the Destiny Realm didn't even consider them, nor did the powerful Divine Generals.

For example, the weapons used by six or seven-star Divine Generals were at least peak-grade Chaos Spirit Treasures, often even supreme-grade Chaos Spirit Treasures. Some Divine Generals of exceptional status even possessed Chaos Supreme Treasures.

Take Goddess Yun Zi, for example. Ye Tian was certain she possessed at least one Chaos Supreme Treasure, if not more.

Ye Tian himself didn't have any Chaos Supreme Treasures and couldn't buy any. Chaos Supreme Treasures were rare even in the chaos, and those naturally born were even harder to find. Only the most powerful artifact refiners could forge Chaos Supreme Treasures using rare materials.

The sheer number of Heavenly Monarchs in the chaos led to a high demand for Chaos Supreme Treasures, making them scarce.

Although the value of Chaos Supreme Treasures was not as high as half-Dao artifacts, they were still extremely precious, and few people were willing to sell them.

Thus, Ye Tian couldn't currently acquire any Chaos Supreme Treasures to enhance his strength. However, he had obtained a half-formed Realm Treasure.

Strictly speaking, a half-formed Realm Treasure didn't offer Ye Tian much value, considering his wealth far surpassed numerous Chaos Supreme Treasures. But if a half-formed Realm Treasure became a full Realm Treasure, it would significantly boost his power, far surpassing any Chaos Supreme Treasure.

This was because Divine Generals couldn't unleash the full power of a Chaos Supreme Treasure; they could barely utilize a fifth of its power. Only Destiny Realm experts could fully harness the power of a Chaos Supreme Treasure.

Destiny Realm Heavenly Monarchs possessed chaos power, transforming their divine force entirely into chaos divine force, which resonated with the Chaos Supreme Treasures.

However, Divine Generals' power didn't quite align with Chaos Supreme Treasures, making it difficult to fully utilize their power.

Realm Treasures were different. They didn't contain chaotic power but world power.

Ye Tian's cultivation system was based on a microcosm, effectively using both divine force and world power, allowing him to fully unleash the power of a Realm Treasure.

In the Grand Universe, native beings could fully utilize the power of Realm Treasures.

For instance, an initial seven-star Divine General wielding a Realm Treasure could easily defeat or even kill a mid-stage seven-star Chaos Divine General.

Ye Tian, now a late-stage eight-star Divine General, would be able to fight on equal footing with a peak eight-star Divine General if he possessed a Realm Treasure, without relying on attrition to wear down the opponent.

Ye Tian knew he would remain at the Divine General level for a long time, making the Realm Treasure extremely significant to him.

“There are many ways to nurture a half-Realm Treasure into a full Realm Treasure. One simple method is to have it devour numerous Supreme Treasures to increase its world origin power.

The Ancient Demon Tower couldn't grow into a Realm Treasure because it was born during the fusion of two universes. If it had been born after the Grand Universe was formed, it would already be a treasure!” Ye Tian murmured to himself.

Supreme Treasures were now useless to him and couldn't be sold. He had a pile of Supreme Treasures, and the Human Race didn't lack them either.

Immediately, Ye Tian threw these Supreme Treasures into the Ancient Demon Tower, letting the tower's artifact spirit devour them.

The Origin Space of the Ancient Demon Tower

Supreme Treasures were shattered one by one, transforming into pure energy to temper the entire Ancient Demon Tower.

Gradually, the power of the Ancient Demon Tower grew stronger, drawing ever closer to becoming a Realm Treasure.

One Supreme Treasure! Ten Supreme Treasures! A hundred Supreme Treasures!

Over thousands of years, Ye Tian consumed a total of 219 Supreme Treasures, all fed to the Ancient Demon Tower.

Finally, on this day, the transformation was complete.

The Ancient Demon Tower underwent its metamorphosis within the Void Sky Hall. As a top-tier half-Dao artifact, Void Sky Hall suppressed all the fluctuations from the tower's ascension.

Otherwise, the birth of a Realm Treasure would undoubtedly have caused a tremendous uproar.

After a long period, the Ancient Demon Tower completed its transformation, turning into a smaller, even darker tower. Powerful world laws emanated from it, striking fear into the hearts of those who beheld it.

Ye Tian gazed at the Ancient Demon Tower, his heart brimming with excitement.

“The Ancient Demon Tower has finally become a Realm Treasure!” Ye Tian exclaimed with a smile.

The Ancient Demon Tower, now a Realm Treasure, possessed three major abilities: defense, suppression, and devouring, greatly aiding in combat.

With the Realm Treasure-level Ancient Demon Tower, Ye Tian's strength surged once more. If he encountered a peak eight-star Divine General, it wouldn't take him long to kill the opponent.

Of course, against the most top-tier, heaven-defying peak eight-star Divine Generals, he admitted he still wasn't their match, at most capable of self-preservation.

The Grand Universe, a Desolate Region

A young man searched within this desolate area.

The Grand Universe was vast, and living beings were scarce. Even the top-tier Heavenly Monarchs couldn't explore the entire Grand Universe, so the major powers' exploration was an ongoing process.

This young man was part of the exploration force, searching an unknown region.

He was formerly a member of the Hidden God Organization—Divine General Zhang Ling. Compared to the past, Divine General Zhang Ling's current situation was even worse, bordering on difficult.

His talent had always been poor. In the chaos, he was only a two-star Divine General. On a small chaos continent, he was a significant figure, but in the vast chaos, he was like an ant.

Now, the Grand Universe gathered the top-tier Heavenly Monarchs and numerous seven and eight-star Divine Generals from the chaos. Even his previous life's cultivation wouldn't amount to much.

After years of cultivation, he had barely reached the late stage of a two-star Divine General, thanks to some fortuitous encounters and joining a major force that provided him with better techniques.

But within that major force, he had no real status and could only take on menial tasks.

At present, he was sent to explore the endless unknown regions of the Grand Universe.

"Hmm, what is that..." Divine General Zhang Ling's gaze pierced the distance, spotting a purple light. As he approached, he realized it emanated from a world.

A world emitting purple light indicated that it was anything but ordinary.

Your Talent is Mine #Chapter 880: The Purple Light World - Read Your Talent is Mine Chapter 880: The Purple Light World

TL: Etude

Divine General Zhang Ling quickly flew over and soon arrived in front of this Purple Light World.

“It should be a newly born world!” thought Divine General Zhang Ling.

Such a Purple Light World was very special. It could be seen from a great distance. If it had been around for a long time, it would have been discovered already, but he had never heard of such a world before. Therefore, it must have been newly born.

Currently, the Grand Universe had no dimensional space, so newly born worlds appeared directly in the void of the Grand Universe, just like the Desolate Realm in the past. Ordinary people couldn’t see them, but strong individuals could still see the world barriers.

Divine General Zhang Ling decided not to inform the powerful forces behind him. He planned to enter and take a look. If it turned out to be a resource-rich world, he would occupy it for himself rather than notify those powerful forces.

With a swish, Divine General Zhang Ling passed through the world barrier of the purple light world and entered.

As soon as he entered, his expression changed drastically, becoming ferocious.

“No!”

Large amounts of purple light penetrated his body. The terrifying power spread, obliterating his body and causing his soul to dissipate under the erosion of the purple light.

In an instant, Divine General Zhang Ling perished.

The Void Sky Hall

Ye Tian was still cultivating when Heavenly Monarch Peng Yu sent a message: “Purple Light World.”

Ye Tian glanced at the message content and was immediately surprised, then left seclusion.

However, he did not see Heavenly Monarch Peng Yu, only Heavenly Monarch Black Armor.

“Heavenly Monarch Black Armor, what’s the situation with the Purple Light World?” Ye Tian asked.

“Dao Child, the Purple Light World is a newly discovered special world. Initially, many Divine Generals perished in it due to a lack of understanding. Recently, a seven-star Divine General entered the Purple Light World and found that the purple light possessed a special ability. Although a seven-star Divine General struggled to withstand its power, those above seven-star, or Heavenly Monarchs, could continuously enhance their physical bodies under the erosion of the purple light. Top-tier Heavenly Monarchs could even absorb the purple light to temper their bodies.

However, the Purple Light World is vast and hasn’t been fully explored yet.

Regardless, it is undoubtedly a top-tier special world with unimaginable value. Many Heavenly Monarchs have already gone there.” Heavenly Monarch Black Armor explained.

“Thank you, Heavenly Monarch Black Armor. I am also interested in the Purple Light World. I will go there now,” said Ye Tian.

Heavenly Monarch Black Armor quickly advised, “Dao Child, your identity is extraordinary. The Purple Light World has caused a huge upheaval. It’s chaotic and somewhat dangerous there now. Let’s go together with a few other Heavenly Monarchs.”

“Alright,” Ye Tian nodded.

Although his strength was considerable, it still lagged behind the Heavenly Monarchs of the Grand Universe. The Heavenly Monarchs of the Grand Universe were essentially the top-tier Heavenly Monarchs of various powerful forces. Some could even contend against weaker True Monarchs. Ye Tian could only handle some local Heavenly Monarchs of the Grand Universe, such as those at the Destiny Realm, but had no way to compete with other top-tier Heavenly Monarchs, let alone those on the Heavenly Monarch Rankings.

He possessed numerous treasures, making it likely that other Heavenly Monarchs would act against him at this time. Therefore, following Heavenly Monarch Black Armor and the others seemed safer.

After waiting for a few days, several other Heavenly Monarchs emerged from seclusion. Around seven or eight Heavenly Monarchs, along with Ye Tian, set off for the Purple Light World.

Before long, they arrived at the Purple Light World. Ye Tian was stunned by the sight. Outside the world, there were numerous void fortresses. The auras of numerous Divine Generals and Heavenly Monarchs permeated the void. This was just the presence outside; who knew how many Divine Generals and Heavenly Monarchs had already entered? It seemed as though every Divine General and Heavenly Monarch from the Grand Universe had come, underscoring the immense value of this place.

“So even the Dao Child of Ten Thousand Laws has come!”

A graceful figure appeared before Ye Tian, none other than Goddess Yun Zi.

At this time, Goddess Yun Zi was still an early-stage eight-star Divine General, far inferior to Ye Tian. However, Ye Tian did not underestimate her. As a personal disciple of a Dao Ancestor, who knew what trump cards and treasures she might possess? If she were highly valued by the Dao Ancestor, she might even be given a powerful treasure capable of challenging a Heavenly Monarch.

“Dao Child of Ten Thousand Laws, how about we enter the Purple Light World together?” suggested Goddess Yun Zi. “I’ve heard that the purple light here is a rare energy beneficial for our cultivation. However, it is highly corrosive, and even Heavenly Monarchs cannot stay long. The deeper regions of the Purple Light World are even more dangerous, beyond our reach.”

“Alright,” Ye Tian agreed.

Immediately, Ye Tian and Goddess Yun Zi passed through the barrier and entered the Purple Light World. As soon as they entered, a large amount of purple light flooded their bodies, attempting to corrode Ye Tian’s flesh. However, his body was incredibly powerful and naturally resistant to the corrosion.

Sensing the energy contained in the purple light, Ye Tian began to cultivate using the Profound Void Technique. Other Divine Generals found it difficult to refine the purple light and could only use it to forcefully temper their bodies for a short time. Those who could endure for ten minutes were considered exceptional.

However, Ye Tian discovered that his Void Sky Dao Body could even absorb the purple light.

“It’s the Dao patterns of light!” Ye Tian was astonished. The Void Sky Dao Body, inscribed with these patterns, could absorb any light energy. Despite the terrifying nature of the purple light, it couldn’t escape being refined by his Void Sky Dao Body.

Although the Void Sky Dao Body couldn’t completely refine the purple light and was still eroded by it, the process was very slow.

"I can stay in the Purple Light World for a long time. This place is a treasure trove for me. Moreover, the purple light is an excellent auxiliary resource for the Profound Void Technique. I might be able to cultivate it to the seventh perfected layer here, or even break through to the eighth layer!" thought Ye Tian.

Ye Tian sat cross-legged, part of his mind alert to his surroundings, while the rest focused on cultivating the Profound Void Technique, continuously refining the purple light that poured into his body.

On the other side, Goddess Yun Zi initially managed well due to her special methods of refining the purple light. However, she gradually began to struggle, her body turning increasingly purple.

She glanced at Ye Tian and was stunned to find his aura perfectly normal. "How can he be unaffected by the purple light? I've cultivated the Ice Purple Holy Body, a rare constitution even in chaos, and reached a major realm, allowing me to refine exotic energies. The purple light doesn't affect me much, but even I can't last for several days. Can he effortlessly refine the purple light?"

Goddess Yun Zi couldn't imagine the existence of the Void Sky Dao Body. Even if she knew about it, she wouldn't comprehend Ye Tian's methods. The Void Sky Dao Body, though not strong on its own, became the top physique in chaos once inscribed with numerous Dao patterns.
