### **Chapter 1011**

Khalid had always felt that he loathed Emily, but seeing her get close to another man, he suddenly found that his heart was as tormented.

His eyebrows knitted, and his voice was cold and almost creepy.

“I am her husband!”

Josiah was abruptly shocked, and he, who was used to keeping all his emotions inside, could not control his expression for a moment.

He fiercely turned his face and looked at Emily with disbelief, “He’s lying, isn’t he?!”

Emily’s heart was in an unprecedented mess, she didn’t love Khalid, she would marry him purely because she was forced to, but she had to admit that that demon was her husband in law.

She didn’t want to admit in front of Josiah that Khalid was her husband, but she didn’t want to deceive him, so she could only lean back into the bed in a panic.

Seeing Emily’s appearance, Josiah understood that Khalid was not lying.

In an instant, disappointment, pain, resentment welled up in her heart.

A myriad of emotions filled his heart, making him so uncomfortable that he couldn’t breathe.

It was only with great difficulty that he made up his mind to give his love with Emily another chance, but he had not expected that she had a husband.

She did not marry Cassius, and after all, she should not have married him, Josiah.

“Emily, you’re amazing! You have impressed me!”

Dropping these words coldly, Josiah turned around and walked away.

“Josiah ...”

Emily subconsciously wanted to explain to him, but she was in too much pain, she couldn’t move, she couldn’t get out of bed and stop him.

Besides, it was a fact that she and Khalid were legally married, so what could she explain?!

In his mind, she was dirty.

When she thought of the time she was unconscious, Elis was in great danger. She couldn’t care less about the pain on her body.

When she moved so hard, her wounds were viciously torn open, causing her face to twist in pain.

“Emily, what are you doing?! Are you crazy?!”

Emily bravely shook off Khalid’s hand, “I’m going to find Elis, I’m going to find my Elis ...”

“Elis is fine!” Khalid really couldn’t see Emily abusing herself like this, he forcibly pressed her back into bed. Seeing a large area of bright red seeping out of her hospital gown, he panicked and shouted, “Doctor!”

“I’m going to get Elis!” Even if she knew that Elis was fine, Emily still couldn’t feel at ease until she saw him with her own eyes.

“Emily, you don’t want to live anymore, do you!” When Khalid saw her disregard for her own body, he became angry, and his voice couldn’t help but grow colder.

Hearing this cold threat from him, Emily couldn’t help but shiver all over.

She couldn’t hear the care in his voice, she just thought what means he was going to use to torture her again.

“Mr. Smith, I ...”

Emily wanted to live, but she didn’t know how to say it to Khalid.

There was a long silence before she stammered out, “Mr. Smith, my father is gone, please let me go, okay?”

“I know you hate my father and you hate me, but you’ve been torturing me for six years. Mr. Smith, please give me a way out, okay?”

Khalid’s eyes were as dead as a pool of stagnant water, and then, a wave of shock that almost swallowed him up.

He hated the fact that Emily was so afraid of him, and he hated the fact that she could pander to that man just now, like a carefree little girl.

Thinking that Emily had asked him to let her go in order to stay with that man, Khalid was annoyed like never before.

“Emily, wanting me to let you go? You’re dreaming!”

Emily’s face went pale.

In this life, she would never be able to get rid of this demon.

“Mr. Smith, I got it.” Only after a long time did Emily shiver her lips.

Khalid’s heart was on fire, she got it? What did she get?!

Even he himself didn’t understand his inexplicable heart, how could she understand it!

Seeing that Khalid was still standing with an icy face inside the ward, Emily’s body stiffened, “Mr. Smith, is there anything else you want?”

Khalid opened his mouth, “Emily ...”

Emily, I was cheated by Adeline, and I want to apologize to you. Emily, in the future, can we try to get along well?

However, as cold and arrogant as he was, he could not say such humiliating words.

He could only order her coldly, "Emily, you are not allowed to see this man again! Even if I don't love you, right now, you are still my nominal wife, don't even think about having an affair with another man!"

After that, Khalid coldly turned around and walked out of Emily's ward.

Only after walking out of the ward did he realise how stupid his words had just been, he smashed his head in chagrin, but now he did not want to go back to explain to Emily.

After Khalid left, until the doctor came over and re-stitched her open wound, Emily's face was still pale.

Just now, Josiah had taken the initiative to kiss her, and she really thought that there would still be light in her life, and that they could still live happily together as a family of three.

But Khalid's appearance completely knocked her heart down from heaven to hell, and she recognized the reality.

In this life, she was destined to be tormented by the devil.

If she wanted to be free from his control, unless she died.

Joanna's 92nd birthday was celebrated.

The large old mansion of the Fitzgerald family was ablaze with lights.

In order to celebrate Joanna's 92nd birthday, both Patricia and Samuel terminated their trip around the world and flew back to wish her a happy birthday.

Freya had been having a real hard time with Joanna recently, and she didn't want to see her cold, serious face, but she was after all Kieran's grandmother, and as a granddaughter-in-law, she couldn't miss such an occasion.

Today was Joanna's birthday, and it was only logical that Joanna should be the center, but Freya found that it was obviously Regina was favored.

Everyone knew that Regina was pregnant with Simon's only bloodline, so they were all praising her.

Joanna cared a lot about her, fearing that the baby inside her might be hurt.

Even when Patricia saw Regina's belly, she kept wiping her tears and held her hand warmly.

Freya was not jealous of Regina, she also wanted Simon's baby to come into the world.

Tonight, she just wanted to be a transparent person and have a quiet night.

She didn't want to stir up more trouble, but apparently someone wasn't willing to leave her in peace. She went back to her room on the second floor to change into a pair of comfortable shoes, and as she had just reached the staircase, she was stopped by Regina.

## **Chapter 1012**

There were many people coming over to celebrate Joanna's birthday this evening, and the living room couldn't accommodate so many people, so everyone was in the banquet hall at the back of the main building.

So now, upstairs in front, apart from a few servants who were delivering things to the banquet hall at the back, there were only Freya and Regina.

When she met Regina's spiteful eyes, Freya knew that she had no good intentions in coming over to her.

Not wanting to let Regina affect her mood, Freya gave her a cool sweeping glance and was about to go downstairs.

Regina was obviously unwilling to let her go, as she grabbed Freya's wrist, her voice like a poisonous snake wrapping around her ear.

"Freya, don't leave! I still want to have a good chat with you!"

Regina's hand was cold and her palm was sticky, making Freya feel she was like a poisonous snake.

What Freya hated most in her daily life was that cold, sticky, cold-blooded creature, and being clutched by Regina made her uncomfortable all over.

She coldly shook off Regina's hand, "Regina, what do you want to say to me? I don't have time to waste with you here!"

"Freya, you especially hate me, don't you?"

Regina was obviously addicted to talking nonsense, she stared at Freya sorrowfully and continued to talk nonsense, "Freya, in fact, I hate you too, more than you hate me."

"Freya, do you know why I hate you?"

Without waiting for Freya's answer, she added quietly, "I hate your self-righteous, high-minded look! I hate the way you can take everything I want away from me without any effort at all! Freya, I hate you, you are the person I hate most in my life! I hate that I can't eat your flesh, drink your blood, and cut you to pieces so that you will never be able to live forever!"

The more Regina spoke, the more agitated she became, and her voice was sharp, causing Freya's eardrums to hurt.

Freya gently rubbed her ears and said indifferently, "Unfortunately, Regina, if you want to harm me, you won't have a chance in this life!"

"I don't believe you had nothing to do with Simon's death! Also, for all those good things you did to me before, I will definitely get back at you!"

"Yes, you are now carrying Simon's child in your belly, so I won't really do anything to you. But can you use this amulet for the rest of your life? Regina, you'll have to pay the price sooner or later for what you have done!"

Freya took a step forward, forcing Regina to stagger back, and she stared at her with an irresistible intensity, "Regina, don't always put on a victim-like look! Who can you fool with that look! Don't you get disgusted with yourself when you pretend to be innocent?"

"Regina, I advise you to nurse your baby well, don't let this filth of yours contaminate Simon's child!"

"Freya, who are you calling filth?!" Regina shouted in anger, glaring at Freya.

"Regina, you got blood in your hand, aren't you filth! When you are awakened by nightmares, don't you also feel dirty and disgusting?!" After a pause, Freya then said word by word, "It must be unpleasant to have nightmares of being killed by Simon night after night!"

Regina's heart pounded violently, and her legs trembled uncontrollably.

Indeed, ever since Simon's death, every night, she had nightmares.

Countless times she had been woken up by nightmares, covered in cold sweat, her heart almost beating out of her mouth. She was unable to go back to sleep, she could only rely on alcohol and sleeping pills to force herself to drift off to sleep.

However, her child, because of her excessive drinking and drug abuse deformities, would not live.

"Freya, I don't know what you are babbling about!" Regina said without confidence.

Freya didn't continue to argue with her, but smiled mockingly, "Never mind, I don't expect you can understand."

"Freya!" Regina was so angry that she gritted her teeth, "Freya, do you really think that I don't understand anything that you say?!"

"Freya, I'm telling you, I understand, I understand everything! Yes, I killed Simon, I'm the one responsible for killing him! Steven was a fool, he was stupid enough to take on all the sins for me!"

Regina gently stroked her belly, and when she initially looked down at her belly, the corners of her lips curled with only determinedly ruthless.

"Freya, the doctor said, the child in my belly won't survive."

"I drink too much, abuse drugs, the child is deformed, even if I don't abort him, in a few days, I will automatically miscarry."

"Freya, I've worked so hard to conceive this child, I don't want him, but I don't want him to die so worthless! How about you fulfill the value of this child?!"

Freya was not stupid, she naturally understood what Regina was trying to do.

Of course she couldn't let her have her way, she subconsciously wanted to keep some distance from her, but Regina grabbed her wrist tightly and wouldn't let go.

It wasn't difficult for Freya to shake her off, but if she shook Regina hard enough, Regina might just get her way, so she had to stay put for the time being.

“Freya, what are you so nervous about? You’ve already guessed what I want to do, haven’t you? Don’t blame me, just blame it on the fact that you stole my Kieran and got in my way, I can only let you never get back on your feet again!”

“Freya, what do you think they would do if Grandma, Mom, and Kieran all thought you killed the baby in my belly?”

“They were so looking forward to this child, if you killed it, they would want to tear you to pieces, right? When the time comes, if you become the murderer of Kieran’s nephew, will Kieran still want you?”

“There’s a life between you, a blood feud that can’t be spanned, how do you think your love continue?!”

“Hahahahaha!” Regina couldn’t stop herself from laughing wildly, “Freya, just take all the sins yourself, in that way, I won’t have planned for vain!”

With that, Regina gently let go of Freya’s hand, and she walked towards the edge of the stairs with a fierce smile.

“Regina, what are you doing? Don’t you go crazy!”

“What am I doing?! I’m sending my child to the hell! Remember, Freya, I didn’t get this sinful child killed, it was you who killed Simon’s only bloodline!”

As soon as Regina gritted her teeth, her body quickly rolled down the stairway. Freya stepped forward and tried to grab her, but Regina was too fast and she was a step too late.

After rolling down the hall on the second floor, Regina screamed hysterically, “Help! Save the baby in my belly! Freya is trying to kill me!”

The door was opened. Patricia helped Joanna walked in. When she saw Regina in a pool of blood, she was so shocked that her walking stick fell to the ground.

### **Chapter 1013**

“Regina?! What the hell is going on here?!” Joanna could not control her cry, her pale hands trembling incessantly. It was as if she had aged by dozens of years again in an instant.

“Regina!” Patricia was also in a state of shock, after she helped the shaking Joanna to sit down on the sofa, she quickly rushed to Regina to check her injuries.

Patricia had lived for so many years and had experienced injuries, and seeing how much blood Regina had lost, she naturally knew that the child in her stomach was in a bad way.

“Help me! Grandma, Mom, help me! Freya is going to kill me! Save me! Save the baby in my belly ...”

Regina collapsed helplessly in a pool of blood, the stinging bright red reflecting her pale face more and more miserable.

The people in the back of the banquet hall somehow also learned of Regina’s fall down the stairs, and they all flocked to the front hall.

Samuel's face was unpleasant when he saw Regina who had fallen in a pool of blood, and he asked in a stern voice, "What the hell is going on here?!"

"Dad, save me ... save me ..."

Regina trembled and spoke, "Freya wants to kill me and the baby in my belly, Dad, save me ..."

Freya coldly watched Regina make a play, she had to admire that Regina was ruthless to herself, even went so far as to roll down the stairs in order to trap her.

If Regina rolled down like that, not only would she miscarry, but she would also cause irreparable damage to her body.

Freya sneered and hooked her lips.

How stupid!

Samuel turned his face to look at Freya incredulously, he had a good impression of Freya, he really didn't want to believe that Freya would kill the child in Regina's stomach.

But there was no way that Regina could have rolled down the stairs on her own, even if he wanted to believe Freya, he had to admit that Freya was the most suspicious person!

"Freya, was it really you who pushed Regina down the stairs?"

Faced with Samuel's questioning, Freya spoke without humility, "Dad, I didn't, it was Regina herself who rolled down the stairs, trying to set me up."

Samuel seemed to be in deep thought, and Patricia's eyes were sunken, but she did not speak up either. On the contrary, when Joanna heard Freya's words, she was so angry that she jerked up from the sofa.

"Freya, are you saying that Regina rolled down the stairs by herself? How could Regina have rolled down by herself!"

Joanna was so angry that she really wanted to tear Freya apart, but, her body was getting weaker and weaker due to her recent emotion, plus she was so frightened today that she was unable to walk up to Freya.

She stared at Freya with hatred, "Freya, I don't believe that Regina would sacrifice the child in her belly to frame you! How could Regina be that stupid?"

"Freya, why did you do this to Regina?! Do you know that the child Regina is carrying is the only bloodline Simon has left in this world? If this child is lost, Simon's last hope will be gone! Freya, what has our Fitzgerald family done to offend you that you would be so cruel as to kill Simon's child!"

"Grandma, I didn't push Regina down." For Joanna's habitual indiscriminate, Freya was really quite speechless.

She went down the stairs and walked up to Regina, wanted to take her pulse and treat the injuries.

Freya loathed Regina, she wanted her to die and go to hell, but she was a doctor, and in front of so many people, she could not leave an injured person alone.

When she saw Freya walking towards Regina, Joanna became anxious, she walked over with the help of her maids, shielding Regina and scolding Freya in a stern voice, "Freya, what are you trying to do?"

"Hasn't Regina been harmed enough by you? What do you want to do to her again?!"

"Grandma, I'm not trying to harm Regina, I'm a doctor and I want to check her injuries."

"Freya, you don't need to pretend to be merciful here!" Joanna stared viciously at Freya, no longer having any semblance of the gentle kindness of an elder, "Regina has lost so much blood, the child in her belly can't be saved. Freya, you have killed Simon's only bloodline, I will not stand against you!"

"No! I want you to pay for the life of my precious great grandson! I want you to pay for your blood!"

What about the grace of the head of the family, what about the dignity of a lady? Now, Joanna could no longer care.

The only thing she wanted to do was to avenge her precious great grandson.

She gestured to the maid to help her pick up her walking stick that had fallen to the ground. She gritted her teeth, clenched the walking stick in her hand, and slammed it fiercely into Freya.

Kieran's eyes sank as he quickly shielded himself in front of Freya, and the hard crutch slammed hard into his back.

"Kieran, get out of the way!" Joanna's eyes were bloodshot as she ordered coldly, "Today, I'm here to get justice for Simon, for my precious great grandson!"

"Grandma, the matter has not been clearly investigated, I forbid you to wrongfully accuse Freya!" Kieran hugged Freya tightly, silently telling her that with him around, she had nothing to fear.

Freya's heart was so warm, in fact, she looked calm, but when Joanna was to beat her, she was scared and aggrieved, but at this moment, nestled in his warm and strong embrace, she was not afraid of anything.

"Wrongfully accused her? There was only her and Regina on the stairs, who else would it be if she didn't push Regina?" Joanna's eyes were cold as she stared at Freya, "Freya, I know you and Regina have a problem, but you shouldn't have tried to kill the child in Regina's belly!"

"Freya, you are making an enemy of our entire Fitzgerald family!"

"Joanna, shut up!" As soon as Sabrina, who had hurriedly arrived, entered the door, she saw the scene of Joanna moving her cane against Freya.

She huffed and rushed to Joanna, "What Kieran said is right, the matter has not yet been investigated, so who are you to wrongly accuse Freya?"

After saying this to Joanna, Sabrina turned her face to Freya and said comfortingly, "Freya, don't be afraid, I will back you up! You've done nothing wrong, no one can accuse you!"

"Didn't do anything wrong?" Joanna was so angry that she jumped to her feet, "Sabrina, she killed the baby in Regina's belly, that's not a wrongdoing?"

“If killing life is not wrong, then what is wrong? Sabrina, shame on you that you covering up you family!”

“It hurts so much ... it hurts so much ... save my baby ...”

Regina pretended to weak, “Save me, save my child ...”

Joanna hurriedly had someone carry Regina carefully to the soft sofa, “Regina, tell me, how exactly did Freya harm you? Don’t worry, as long as she is the one who is in the wrong, I will still seek justice for you!”

## **Chapter 1014**

Joanna was reluctant to let Freya treat Regina, so she had someone call for a private doctor.

The private doctor didn’t come over that soon, so Regina could only endure the pain in her body and curl up on the sofa to wait.

When she had just rolled down the stairs, Regina had lost a lot of blood, but her body didn’t really hurt that much.

After lying on the sofa, she felt her stomach hurt as if it was about to be torn open.

Her lips quivered as she tried to suppress the pain in her body and spoke in a hoarse voice, “Grandma, I ran into Freya on the second floor and she said she had something to say to me.”

“I’ve had a lot of misunderstandings with Freya recently, I wanted to clear up the misunderstanding with her and get along well in the future, but to my surprise, she called out to me, not to clear up the misunderstanding with me, she wanted to kill me!”

“She said that she hated me and wanted to send me to hell! She also said that there weren’t many people inside this front hall, the maids didn’t even notice us, and there were no cameras in the house, so even if she killed me, I would only die in vain.”

“I realised the danger, I was terrified, I ran as fast as I could, but Freya was faster than me, she grabbed my hand and wouldn’t let go, so I struggled desperately, and I pleaded with her, but she still pushed me down the stairs cruelly!”

“Grandma, I’m carrying Simon’s baby inside my belly! This is the only bloodline Simon has left in this world. I would rather die myself than want this child to live.

“Grandma, I am sorry that I have failed to protect this child! Grandma, let me die!”

With that, Regina made a move to go down from the sofa to commit suicide.

Joanna held her, preventing her from doing anything stupid.

She looked at Regina and burst into tears, “Regina, it’s not your fault, it’s the fault of Freya, the poisonous woman! She killed Simon’s only bloodline, and I will make her pay in blood!”

Patricia’s tears, too, kept falling, Simon’s tragic death had already taken half of her life, and she still hadn’t eased up, and the only way she could feel slightly more comfortable was to think that he still had blood in this world, so that she would feel as if her Simon wasn’t far away.

But now, with that child gone, she felt that she could no longer hold on to her Simon.

“Kieran, call the police! Freya killed Simon’s child, she deliberately killed someone, I want her to go through jail!” Joanna stared coldly at Freya, “Freya, don’t you like to talk about the law? This time, I’ll use the law to punish you!”

“Grandma, the matter has not yet been investigated, I forbid you to wrongly accuse Freya at will!” Kieran wrinkled his eyebrows slightly, for he carried an innate aura of a king, even if he didn’t need to shout, the invisible pressure on his body could make people involuntarily submit.

“Kieran, you’re determined to protect Freya, aren’t you? Good! If you insist on protecting her, today, I will die in front of you!”

“Grandma, Freya is not a poisonous woman!” Even though he respected Joanna, he was full of displeasure when said harsh words to Freya.

“Not a poisonous woman? If she wasn’t a poisonous woman, she would not have killed Simon’s only bloodline. Kieran, have you forgotten how good Simon was to you when he was alive? Who did he become a vegetable for? For you! For you, Simon risked his life and died for you, but what about you? You don’t even care about right and wrong for the sake of a woman!”

“This poisonous woman killed Simon’s child, yet you insist on protecting her, are you ashamed of Simon? How can you have the nerve to call Simon brother again? Kieran, you are unfair to Simon!”

“Grandma, I will find out who killed Simon’s child, but that person will definitely not be Freya!” Kieran said, word for word, without giving in.

Regina was biting her lip to death, she had not imagined that Kieran would still protect Freya so much.

The one who died today was the only bloodline of his beloved Simon! He loved Freya so much that he considered her more important than his own brother!

Regina was so resentful!

She pressed her stomach hard and spoke with pity, “Kieran, there were only me and Freya at the stairway, so it’s easy to find out who killed my baby. Kieran, I know you love Freya, but my child’s life has been lost, how can you still protect her?!”

The more she spoke, the more agitated she became, and finally, she screamed hysterically at Freya, “Freya, why did you kill my child! Why! Freya, you hate me, I’ll give you my life after I give birth, but you shouldn’t have killed my child!”

“Freya, you give me back my child! My child ... my child ...”

“Simon, I’m sorry, it’s my incompetence, I couldn’t protect our child. Even if I die, I can’t make it up for you ...”

The voice of Regina was so desperate and miserable, and many of the soft-hearted guests at the scene wiped tears for her.

The people outside did not know in detail the love-hate relationship between Regina, Freya and Kieran, only that, when Simon died, Regina insisted on giving birth to their child, and even, stayed in the Fitzgerald family.

But a vicious woman would suddenly appear and kill the child.

Seeing that Kieran was so protective of the culprit, many of the guests voiced their discontent.

“Miss Wells is so pathetic! Simon is gone and now their child is gone!”

“Yes, she’s so pitiful! Freya has really gone too far! What kind of deep hatred is there that she has to harm an unborn child!”

“I think Freya is worried that the child in Miss Wells’ belly will compete with her child for the Fitzgerald family’s property in the future! Money is important, but what a pity to sacrifice a human life!”

“Mr. Fitzgerald shouldn’t have defended Freya. Since she had made a mistake, she should be punished, not to mention the fact that it’s a matter of life!”

“Yes, I think Freya must go to jail! If she doesn’t have to pay for what she did, then there’s really no justice in this world!”

.....

Seeing that almost everyone was on her side, Regina couldn’t help but raise the corner of her mouth, but in the blink of an eye, she returned to that sad and helpless look, “Kieran, I’m begging you, for the sake of Simon, please get justice for my child who died so tragically, okay?”

## **Chapter 1015**

“I will get justice for this child.” Kieran looked at Regina with bitter eyes, “But not from Freya, but from you, Regina!”

“Why does he want to seek justice from Miss Wells? To be honest, I think Mr. Fitzgerald has really gone too far today!”

“Yes, I also think that Mr. Fitzgerald has gone too far today. Although I am quite afraid of him, I still want to say that he can’t turn right and wrong upside down like this just because of a woman!”

“That’s right, Simon treats him well, how can he ... ugh!”

.....

“Kieran, I don’t understand what you mean.” Regina smiled miserably, looking pity, “Kieran, I’ve lost my lover and my child, why do you have to treat me so unfairly?”

“Kieran, you’re really going too far!” Joanna panted and spoke, “Kieran, I want you to dispose of Freya with your own hands and apologise to Regina!”

“Grandma, leave me alone, I don’t want you to get into this mess with Kieran for my sake. Grandma, please don’t make me so embarrassed, okay?” Regina held back the pain and pretended to be a good

person, she had wanted to say more, but her stomach was just too painful and she could only pretend to this point.

“Regina, you have suffered so much for our Fitzgerald family, how could I leave you alone! Don’t worry, I will give you justice!”

Joanna stepped forward, her gaze was stern as she stared at Freya, “Freya, I’m giving you one last chance to admit your crime in front of everyone, otherwise, I will definitely make you receive the harshest punishment!”

“Joanna, you want to abuse lynching on Freya again, don’t you? As long as I am alive, no one will try to bully Freya!”

Jacob, who had arrived in a hurry after receiving the news, also spoke with a fierce aura, “And !! As long as I am here, no one will bully my Freya!”

When they heard Jacob’s words, the crowd was shocked to hear that Sabrina and Jacob said.

Wasn’t Mr. Wells pursuing Freya a while ago?

How could Freya become his sister in the blink of an eye?

The relationship between these powerful families was really complicated!

“Brother, Freya is your sister, but I’m not your sister, am I? Do you think it is right even if I’m bullied to death by Freya?” Regina’s tears fell, “Brother, even if you are biased, you can’t do that! It’s not fair! It’s not fair to me!”

“Regina, it’s because it’s fair that I’m protecting Freya!” Jacob looked at Regina without a trace of warmth in his eyes, “Regina, stop framing Freya!”

“I frame Freya?!” Regina’s voice raised, “There were only me and Freya at the stairway, how can I frame her? Brother, do you also think that I rolled down the stairs on purpose? In my stomach it is my child, how could I possibly do such a thing!”

“Brother, you don’t believe me and are so biased towards Freya, you make my heart really sad!”

When she saw Walter, who was standing in a cold and sullen manner, Regina cried even harder, she looked like a little girl who had been wronged, “Dad, you don’t believe me either, do you? Will you only believe me if I’m killed by Freya? Dad, I’m your daughter, your grandson had been killed, don’t you feel sad at all?”

Seeing Regina’s body covered in red, Walter was also distressed.

He did not like Gracie, but he had watched Regina grow up and still cared for her.

However, he believed in Freya’s character. He was silent for a moment, but still said indifferently, “Regina, behave yourself!”

Regina’s hatred surged up, this was her father, she was so miserable, and he still told her to behave herself!

But today she had already paid such a heavy price, even if the whole world was on Freya's side, she would still send Freya to hell herself!

Suppressing the hatred in her heart, Regina turned to Joanna, who was the only one who favoured her, and said, "Grandma ..."

Hearing this pitiful voice, Joanna was so sad that her heart was breaking.

She clutched Regina's hand tightly, "Regina, don't be afraid! The Wells family doesn't distinguish between right and wrong, we don't care about them! I won't be confused by Freya's vicious but hypocritical face like they are! Regina, I will call the police now!"

In fact, Joanna would have preferred to use the family law to deal with Freya, but now in front of so many guests, she could not engage in that feudal dictatorship, she took the mobile phone handed over by the maid and dialed the police number.

After making the call, Joanna stared grimly at Freya, "Freya, are you going to wait for the police to come before admitting your crime, or are you going to confess to Regina early?!"

"Grandma, I won't repent, let alone admit my guilt! I'm not at fault and I won't take the blame voluntarily!" Freya met Joanna's gaze with a breeze, "Grandma, I believe in the law, and I believe in the police, they will return my innocence!"

"Innocence?" Joanna laughed coldly, "Freya, there were only you and Regina upstairs, only you could have pushed Regina down the stairs, what innocence can you have?!"

"Who said there were only Mommy and Regina upstairs!"

As soon as Joanna's words left her mouth, Jaden and Jayla walked hand in hand to the middle of the living room.

"Jaden, Jayla? Why have you come over?" Joanna didn't like Freya, but she couldn't hate these two cute little kids.

Jayla meekly and coquettishly hugged her arm, "Great Grandma, there were not only Mommy and Regina upstairs, my brother and I were also upstairs. Great Grandma, don't misunderstand Mommy all the time, okay? My brother and I saw it, Mommy didn't push Regina, she rolled down on her own intention and set Mommy up!"

Originally, seeing this pair of cute little kids had softened Sabrina's heart, but now, hearing Jayla's words, she put on a cold face.

She really should do something about it, with Freya the wicked mother, these two lovely great grandchildren of hers had become full of lies and incapable of distinguishing good from evil!

She held Jayla's hand with a sullen face, "Jayla, don't ever go back to Kelsington Bay again! From now on, you and your brother will stay at here, I will personally educate you!"

## **Chapter 1016**

Hearing these words from Joanna, Freya was so speechless.

She just didn't understand how good it was for Joanna enjoyed her late lives, why did she come to meddle in her children's affairs, trying to interfere in everything, and trying to separate her from her children every day?

"Great Grandma, I like you and I want to spend more time with you, but I have to go back to Kelsington Bay to spend time with Mommy! I can't be biased!"

"Jayla, I'm afraid your Mommy won't have time to spend with you in the future!" Joanna did not want to expose the filth of the adult world to her two lovely children, but she also did not want them to resent her in the future, so she decided to expose Freya's ugly face.

"Your Mommy has committed a crime and is going to jail, but I will take good care of you in the future!"

Jaden's face quickly flashed a touch of dissatisfaction, "Great Grandma, I don't understand what crime Mommy has committed. Being falsely accused is considered a crime?"

"Jaden ..."

As Joanna was about to scold Jaden, the large LCD screen inside the living room, which was originally playing birthday wishes to her, turned into a video of Freya and Regina tugging and pulling.

Although only the sides of them were captured and the rest were almost all backs, everyone could still clearly recognise them.

Because the volume of the video was turned up to the maximum, the people in the living room could clearly hear Freya and Regina's conversation.

"Freya, don't leave! I still want to have a good chat with you!"

Regina's voice, with a very unpleasant and sinister tone, took the crowd by surprise when they heard this.

The few guests who had been lambasting Freya for being vicious earlier were even more shocked.

"Is this really Miss Wells' voice? Why does this voice sound so creepy?"

"Yeah, it's too creepy, the voice of a villainous female match in a TV drama! It gives me goose bumps!"

"Didn't Miss Wells just say that Freya stopped her and had something to say to her, but in the video it was clearly her stopped Freya!"

"It feels like she's really not being honest!"

"Forget it, we haven't seen who's right and who's wrong yet! Let's just watch the video first!"

.....

Freya was not surprised by the sudden appearance of the video in the big screen. If not for the fact that after Regina grabbed her hand, she saw the two heads peeking out of the doorway of the room to the side, as well as Jaden holding up his mobile phone, she would not have been talking to Regina for so long at the stairway.

Regina had not expected the video of her and Freya pulling at the stairway entrance to suddenly appear on the LCD screen?

She clutched her phone in a panic, she had already done certain measures on her phone, and Jaden couldn't hack her phone again that soon.

So what was this video about?

Could it be that, as those two kids had just said, they were really watching when she was setting Freya up? And they had recorded the video?

Thinking about what she had just said to Freya, Regina's face turned pale. If everyone knew that she had killed Simon, she would be completely finished!

No!

She absolutely could not let this video continue to be shown!

With this in mind, Regina hurriedly climbed off the sofa and went to turn off the player in the living room, but before she could take a single step, Bradley stopped her.

"Bradley, let go!"

"Miss Wells, you are injured, please rest on the sofa." Bradley's voice was gentle, but his face was not half as gentle. He forcefully pressed Regina back onto the sofa, her body was already in severe pain, and when he pressed her so hard, she was unable to move at all.

Winnie came up to him with a smile, "Bradley, why are you so gentle to her? Next time you deal with a woman like this, just throw her away!"

Regina was so angry hear that, but Winnie was Joanna's granddaughter, so Regina couldn't really do anything to her.

In the hall, Regina's voice still echoed coolly, "Freya, you hate me, don't you? Freya, in fact, I hate you too, more than you hate me."

"Freya, do you know why I hate you?"

"I hate your self-righteous, high-minded look! I hate the way you can take everything I want away from me without breaking a sweat! You're the one person I hate most in my life! I hate that I can't eat your flesh, drink your blood, and cut you to death by a thousand cuts so that you will never be able to live forever and ever!"

"Crap! Miss Wells is scary, isn't she? She actually wants to eat Freya's flesh and drink her blood! What kind of devil is this!"

There was a lot of chatter in the hall, "Yeah, it's really horrible! I thought she was kind, but to my surprise, she's even scarier than a demon!"

"A woman's jealousy is so terrifying! I suddenly feel sorry for Freya, it's so unlucky to be haunted by someone with such severe delusions of victimhood!"

“Turn it off!” Regina screamed hysterically, as soon as what she said later was released, she would never be able to turn her life around!

Without waiting for Regina to get up, Winnie directly put a leg across her body, pressing her down so that she couldn't move.

“Regina, don't move! I don't know anything about mercy! If I accidentally make you bleed again, you'll really have to suffer!”

“Winnie, let go of me! I have no grudge against you, why are you targeting me like this?!”

“No grudge?” Winnie laughed coldly, “Last time you caused my Bradley to be beaten and god badly injured, how can there be no grudge between us? Regina, if you bully my Bradley, I'll hold a grudge against you for the rest of my life!”

Regina tried to turn to Joanna for help, but Joanna was too stunned by her eerie, malicious voice to notice what was happening on her side.

The video finally reached the part where Regina went hysterically mad.

In the video, she stared viciously at Freya, “Freya, I'm telling you, I know everything! Yes, I killed Simon, I'm the one responsible for killing him! Steven is a fool, he was stupid enough to take on all the sins for me!”

There was a brief pause, and after a few seconds, Regina's eerie voice rang out. With her distorted face, it was creepy.

“Freya, the doctor said that the child in my belly won't survive.”

“I drank too much, abused drugs, so the baby is deformed, even if I don't abort him, in a few days, I will automatically miscarry.”

“Freya, I've worked so hard to conceive this child, I don't want him, but I don't want him to die so worthless either! Freya, how about you fulfill the value of this child?”

“Freya, what are you so nervous about? You've already guessed what I want to do, haven't you? Don't blame me, blame it on the fact that you stole my Kieran and got in my way, I can only make you never get back on your feet again!”

## **Chapter 1017**

“Freya, if Grandma, Mom, and Kieran all think that you killed the child in my belly, killed the only blood and bone Simon left in this world, what would they do?!”

“They were so looking forward to this child, if you killed it, they would want to tear you to pieces, right? Freya, if you become the murderer of Kieran's nephew, will Kieran still want you?”

“There's a life between you, a blood feud that can't be spanned, how do you think your love should continue?!”

“Hahaha! Freya, you should bear all the sins yourself, in that way, I will not have planned everything in vain!”

Hearing Regina's spiteful and vicious voice, the people in the living room, including Joanna, had been completely petrified.

When they first heard the recording, they thought that Regina might not be as gentle and kind as she appeared, but to their surprise, she would really go to the extent of killing her child in order to frame Freya!

In the end, the video ended with Regina herself rolling down the stairs and collapsing in a pool of blood.

Looking at Regina, who was covered in blood and screaming her heart out, there was no more pity in everyone's heart, they only felt that she deserved it.

"This video seems to be real! It seems like it was really Miss Wells who rolled down the stairs herself and framed Freya!"

"Crap! It's so horrible! How can there be such a horrible woman under the sky?!"

"What else did Regina say in the video just now? Did she say that she was the one who killed Simon? She also said that her cousin Steven was a stupid person who took the blame for her?!"

"What the hell is this about Regina! Didn't she love Simon? How could she kill him?"

"Women are so scary, Regina has made me have a serious psychological shadow towards women, scaring me so much that I dare not date with a woman in my life!"

.....

The video ended a long time ago, and Joanna still could not pull her mind back from this skyrocketing event.

She only felt that her mind collapsed, as if, all her previous perceptions had been wrong.

It was only when Patricia let out a heartbreaking cry of pain that she was able to regain her senses.

After watching the video, Patricia had emotionally collapsed. She rushed to Regina, in deep pain and despair, "Regina, you really killed my Simon, didn't you? Regina, didn't you say you loved Simon? If you loved him, why did you kill him?"

"Mom, I didn't ..."

Regina closed her eyes and tried to squeeze out a tear, "Mom, I didn't hurt Simon, I really didn't hurt him! I love him so much, I love him so much that I would even give up my life for him, how could I possibly harm him?!"

"I just ... I was really mad at Freya, I said something out of turn, what I said can't be taken seriously! Mum, believe me, what I just said was out of anger, I said that to anger Freya! Mum, you must believe me!"

"Angry words?" Patricia snorted, "Regina, don't tell me that you abused drugs and drank too much, causing my grandson to become deformed, or even that you deliberately rolled down the stairs and killed my grandson, you also deliberately anger Freya!"

“Regina, stop your sophistry, your hypocritical face is disgusting!”

“Mom, I didn’t, I really didn’t!” Regina pitifully grabbed Patricia’s hand, “Mom, you have to believe me, I really didn’t harm Simon! There’s something wrong with this video! This video has been deliberately manipulated to frame me! Mum, you can’t be fooled by Freya!”

Patricia’s eyes were filled with sorrowful disappointment, “Regina, even now, you still don’t repent! You are incorrigible!”

“Regina, I’ve watched you grow up, I thought you were good-hearted, I wanted you to be my daughter-in-law, I even tried to break up Freya and Kieran in order to get you to marry into the Fitzgerald family! Now it seems that I was really blind! Regina, you killed my Simon, you give me back my Simon!”

Patricia burst into tears, “Regina, you give me back my Simon! My Simon is so good, what has he done to offend you that you have to put him to death!”

“Regina, my Simon has been a vegetable for so many years, he can’t speak, he can’t move, how could he have offended you? You don’t even spare a vegetable, you’re simply inhuman!”

“Simon! My Simon ...”

The thought that Simon had become a vegetable and was killed in a tragic car accident deliberately created by someone, Patricia’s heart hurt so much that she couldn’t breathe.

She grabbed her heart hard, that pain still unabated.

Before Simon’s car accident, Kieran had told her that he was getting better, and that it wouldn’t be long before he woke up.

She waited with joy for his precious son to wake up, but never thought that he would die.

Patricia had been travelling around to ease the pain of losing her son, but even if she could still smile brightly as she used to, but there are some pains could not be forgotten!

When Samuel saw Patricia crying so hard she couldn’t breathe, his heart ached to the core.

He wrapped her into his arms with all his might, but her body continued to tremble uncontrollably.

She bit down hard on his arm, whimpering silently and tearing her heart out.

“Samuel, our Simon died so miserably! He died so miserably! My Simon ...”

“Patricia, don’t cry. The murderer who killed our Simon will pay in blood!” Samuel gently stroked Patricia’s back, trying to calm her heartache.

But even his heartache was difficult to calm, how could her heartache be easily removed!

Regina was so close to Samuel that his words fell clearly into her ears.

Her body trembled.

If she couldn’t think of a good way to get back on her feet, her life would be ruined!

Joanna's vision was already clouded by tears, and with the help of her maids, she stumbled over to Regina.

"Regina, how did Simon really die?!"

"Grandma, I know you won't believe me if I tell you the truth, but I really didn't harm Simon, I only said those words to anger Freya! Grandma, please believe me, okay?"

"Grandma, if even you don't believe me, no one in this world will believe me."

Joanna laughed despondently as she suddenly spoke up in self-deprecation, "Regina, do you think I'm stupid, so that I will be fooled by you?!"

### **Chapter 1018**

"Grandma ..."

Regina's face changed drastically, in her opinion, the confused Joanna was indeed the biggest key for her to get back to her feet, to she did not expect that at such an important moment, Joanna, who was usually fooled by her, was not confused.

"I am indeed an old fool! I can't even tell if you are evil or not, I am indeed confused!" Joanna's eyes were stern as she stared at Regina, "Regina, you killed my grandson and destroyed my great grandson, our entire Fitzgerald family is at odds with you!"

"Grandma, I didn't!" Regina shook her head in panic, "Grandma, I'm a victim too! There's really something wrong with the video!"

"Losing a child hurts so much, how could I be so stupid as to joke with my own body! Grandma, it's really Freya who's trying to harm me! If you didn't believe me, you really would have fallen into her trap!"

"Regina, since you care so much about your body, let me check your injuries first." Freya walked up to Regina, grabbed her wrist, and began to take her pulse.

Freya was really not being virtuous in her kindness by taking her pulse so actively, she just felt that the punishment Regina had received was not enough and she wanted to stimulate her even more.

"Freya, let go of me! You've already put me in such a bad way, what tricks are you trying to pull!" Regina tried hard to shake off Freya's hand, but her strength was already inferior to Freya's, plus she had injuries on her body, her so-called struggle was completely futile.

"Regina, you've gotten your comeuppance for torturing your own body like this." After taking her pulse, Freya spoke indifferently.

Hearing Freya's words, a bad feeling came over Regina's heart, "Freya, what do you mean by that?"

"Regina, in this life, you will never have the chance to be a mother again."

"What?!" Regina's eyes suddenly rounded as she stared at her back in disbelief.

In other words, she had not only failed to send Freya to hell by destroying her own body, but she had also made it impossible for herself to even be a normal woman?

How could this be possible!

Seeing Regina shocked, Freya was happy in her heart.

People like Regina deserved to be as miserable as possible.

Some people, when given the chance, would not cherish it and would only do evil to the end.

Regina finally got her comeuppance, Freya was very happy, but seeing Patricia's sad face and Kieran's tense face, Freya was distressed.

If only Simon were still alive.

It was really too bad that Simon was ruined in the hands of a crazy woman.

Regina knew that there was no way to count on Joanna, so she could only think of other ways.

She knew that Sabrina and Walter preferred Freya, but she was the daughter of the Wells family after all, and she didn't believe that they could really care about her at all.

She climbed down from the sofa, her body still bleeding, and where she had crawled, a large area of bright red snaked out.

She flung herself at Sabrina's feet and clutched her leg as hard as she could.

"Grandma, help me! Help me! I know I'm wrong, I shouldn't always fight with Freya, Grandma, please help me! I don't want to go to jail! I really don't want to go to jail! If I go to jail, my whole life will be ruined!"

"Grandma, I know you don't like me, but no matter how much you don't like me, I'm still your granddaughter! I have the blood of the Wells family in my body, how can I go to jail! Grandma, please, please save me ..."

"Regina, are you admitting to the crime of killing Simon?" Sabrina spoke in a flat voice.

"I ..." Of course Regina did not want to admit to killing Simon, but the evidence was overwhelming and there was no way for her to deny it, or it would only invite more disgust.

Regina gritted her teeth hard, "Yes, Grandma, I killed Simon. But I was forced to do it by Steven! Grandma, save me, please!"

Sabrina dropped her eyes, and it was then that Regina saw that the ever cheerful and optimistic Sabrina's face had been covered in tears.

Regina was pleased. Her grandmother naturally couldn't have shed tears for Simon, could it be that grandmother was shedding so tears because she was worried that she would go to jail?

"Regina, you are indeed unrepentant! You're still putting all the fault on Steven!"

"I know Steven's character, not only do he and Simon have no grudges, he and Kieran are also close friends, how could he want Simon dead? Regina, did Steven force you to kill Simon, or did you force him?"

“I ...”

Sabrina knew everything, and Regina suddenly didn't know how to lie to her.

In her heart, she was flustered like never before, it turned out that the tears her grandmother was dropping were not for her, but for her grandson who had died by suicide.

“Samuel is right, killing pays for life. Regina, you have made the mistake and you are unforgivable, you deserve to pay the price!” Sabrina snapped, she jerked her foot back and Regina fell to the ground in a heap.

“No! Grandma, you can't leave me alone! You can't leave me alone!”

Now, all Regina could think about was staying out of jail, and she could no longer care about her image at all.

She crawled around on the floor like a dog, she tried to hug Sabrina's leg again, but before she could even touch her leg, she had already kicked away in disgust.

She couldn't count on Sabrina, so she had to beg Walter.

Regina looked up at her father, whom she had always worshipped, with snot and tears.

“Dad ...”

Regina grabbed Walter's arm hard, “Dad, I made a mistake, I have disgraced you!”

“Regina, you've really let me down!” Walter wanted to shake Regina off, but she was after all his daughter, and he couldn't be completely cold-hearted.

“Dad, I'm sorry, I'm sorry!” Regina hung her head, “Dad, I know I've wronged you, I've brought shame on the Wells family! But dad, I really don't want to die, I still want to be by your side to honor you, I want to try my best to be a good daughter, dad, please help me, give me a chance to be your good daughter again, okay?”

Thinking of the scene where Steven shot himself, Walter felt his heart ache, he didn't know how much of Regina's and Steven's fault each accounted for in Simon's tragic death, but he wanted to give her one last chance.

After all, she was his daughter.

“I will help you find a lawyer.”

Hearing this from Walter, Regina's eyes instantly lit up, it meant that he was agreeing to step in and help her!

With his power, it would be possible for her to turn her life around!

Regina hadn't even been happy for three seconds when Jacob's voice suddenly rang out in the air, “Dad, are you sure you really want to help a murderer who has no blood ties to you?”

**Chapter 1019**

Regina's body stiffened violently, she looked at Jacob uncertainly and asked, "Brother, what do you mean by that? I'm dad's daughter, how could I not have any blood ties to him?!"

"Literally!" Jacob was really not in the mood to talk nonsense to Regina and spoke without any half-hearted emotion.

"Literally ..." Regina murmured lowly, "Brother, you're talking nonsense! Are you bewitched by Freya again and want to help her harm me? I know that you have incestuous feelings for Freya, but even if that's the case, you can't divide me and Dad like this for her! You've gone too far!"

Jacob threw a fierce slap at Regina's face, he didn't care to hit a woman, but he couldn't stand others insulting his sister.

If Regina dared to slander his sister like that in front of him, she was just looking for abuse!

The force of Jacob's blow was so strong and hard that it knocked Regina's face off course. She covered her painful face, but in the end, she suddenly burst out laughing with a sneer.

"See, brother, you're really not normal to Freya! Why are you so good to Freya and so bad to me? Brother, do you dare say that there is nothing dirty and nasty between you and Freya?!"

Originally, Walter still had a trace of compassion for Regina, but when he heard her speak so harshly, his heart suddenly turned cold.

How could the daughter born to Gracie compare to the daughter born to him by Bernice!

"You and Freya, in my heart, are indeed incomparable!"

The fierce aura of Jacob's body quickly spread out, making people breathless, "Freya is my sister, and I hold her dearly as a treasure. But what about you, Regina? You're just the product of Gracie's affair with the chauffeur, you're not even worthy of Freya's shoes!"

"What?!" Regina stared her eyes wide open, "Brother, what are you saying? I don't believe it! You are deliberately slandering me and my mother for the sake of Freya! How can you accuse my mother so falsely!"

"Regina, you really don't give up!" Jacob snorted in disdain as his eyes swept through the hall, "After just watching a video, you must not have had enough, so I will show you another video."

With that, Jacob sent a flash drive inside the player.

Every time a video or something was played, it was never a good thing to Regina, so as soon as Jacob turned on the LCD screen, she couldn't restrain herself from getting nervous again.

This time, the female protagonist in the video was not her, however, it was related to her.

The heroine in the video was her mother, Gracie.

There was another person in the video, to be precise, a man who was still handsome despite being past middle age.

Regina knew this man, he was the driver Gracie had used for over twenty years.

He had served Gracie since before she was married, and had been loyal to her for the past twenty years.

She had always thought that the driver and Gracie were simply a relationship between a superior and a subordinate, but she had never expected that, in the video, they would be clinging to each other.

Moreover, it was still in bed, unclothed.

Everyone was not a fool, and when they saw this image, they naturally knew how impure the relationship between the two of them was.

It was only after Jacob put on this video that he remembered, as an afterthought, that there were still two minors inside this hall.

He found Jaden and Jayla's position, one on each side, and covered the eyes of these two.

But there was nothing too unholy in this video, even if this covering of eyes was not timely, it would do no harm to the two kids.

Inexplicably being blocked from view, Jaden and Jayla were somewhat unhappy.

However, thinking that both of them were still pure babies, they were obediently covered.

After a short daze, Regina came back to her senses, "Brother, what do you mean by playing this video? Even if mum did something wrong, you can't just assume that I'm not dad's real daughter!"

As soon as Regina's words left her mouth, Gracie's voice suddenly rang out in the video, "Hunter, when you go to T Country this time, you must get Bloom! As long as you get Bloom and completely ruin Freya's face, she will never be able to steal a man from our Regina again in her life!"

"Gracie, don't worry, for the sake of our precious daughter, even if I have to go through and difficulties, I will get Bloom! What qualifications does Freya have to compete with our daughter? Our Regina will definitely get what she wants!"

"No!!!" Regina screamed at the top of her lungs, she could not believe that she was not really Walter's daughter.

Jacob looked on indifferently at Regina's hysteria, as if she was watching a clown.

Seeing this video, the hall went uproar once again.

"Regina is not the daughter of the Wells family! Oh my God! What a shock! I thought how noble her origins were! It turns out it was Gracie's secret birth with someone else!"

"I heard something back then, it seems that Mr. Wells didn't want to marry Gracie, it was Gracie who took advantage of his drunkenness to do something and got married with him! I didn't expect Mr. Wells to be tricked!"

"Like mother, like daughter! Her mother is a scheming woman, and she is no good either!"

"So Freya is the real daughter of the Wells family? Oh my God, I thought Freya was marrying a rich family, but I didn't realize that Freya was also from a rich family!"

“I heard that Freya has 10 percent of Well’s shares in her hand, she and Mr. Fitzgerald are together was a strong union!”

.....

“Shut up! All of you shut up! I am the daughter of the Wells family, Freya is nothing! She’s nothing!”  
With the successive blows, Regina had completely lost her senses.

Seeing that the two people next to her were still exchanging words, she pushed them to the ground with all her strength, like a mad dog.

Her face was fierce, “Shut up, all of you! I’m the Wells family’s only daughter, if you dare to talk nonsense here again, I’ll tear your mouths off!”

“Dad, don’t believe them! I’m your daughter, I’m your daughter! Dad, you can’t leave me alone!”

Walter coldly pushed the pouncing Regina away, “Regina, Freya is my real daughter!”

Walter hated the fact that he had been so badly deceived by Gracie that he had broken the heart of the person he loved most, and that he had been separated from her forever.

Regina fell to the ground in dismay, her hair scattered, her body covered in blood, wretched and miserable.

The day had gone beyond her expectations, and she knew that she would never be able to turn her life around.

It was too lonely to go to hell alone, even if she had to die, she would have to drag Freya with her!

With this in mind, she pulled out the folding knife she had hidden in her bag for emergencies and stabbed towards Freya like a madman.

“Freya, let’s die together!”

## **Chapter 1020**

Freya did not expect Regina to suddenly make such a crazy move in front of so many people, she could not help but be shocked, but she quickly dodged and was about to dodge the knife that Regina swung over.

Kieran and Jacob moved even faster. Jacob was as quick as a leopard, and before Regina could even get close to Freya, he had already deftly snatched the knife from her hand.

Kieran, on the other hand, broke Regina’s once-wounded wrist again, causing her to scream hysterically in pain.

Someone kicked Regina in the knee, and she stumbled violently and fell to her knees.

Regina tried to lift her hand, but her broken wrist was too painful for her to do so.

She could only stare at Freya viciously, like an evil ghost crawling out of the sea of blood, “Freya, I will not spare you! I won’t spare you!”

“Regina is really sick! She’s been framing Freya, but she still said that Freya was harming her!”

“I told you, Regina has a serious delusional victimization! I think she’s just a lunatic! And she still claimed that she was the first beauty in the upper circle.”

“I’ve had a crush on her for years, but I never thought I’d have a crush on such a filthy thing!”

“You have a crush on her? You might as well have had a crush on a sow!”

“Fuck off! You’re the one with a crush on a sow, your whole family has a crush on a sow!”

“Even if we had a crush on a sow, we wouldn’t dare to have a crush on such a horrible woman!”

.....

Regina’s heart was already in turmoil, she could still clearly hear the chatter of the people around her.

She heard the rich men who used to be so fond of her comparing her to a sow, no, in their eyes, she was worse than a sow! Regina was so angry that she rolled her eyes!

Even if she was accused by a thousand people, there was no way that she was no better than Freya!

“Shut up! You shut up!” Regina glared fiercely at the few gentry in front of her who were still laughing, “Jack, shut up! You are the one following me around like a dog the other day? Do you think you are noble? Even if I am down and out, I still don’t look up to you!”

“I pooh!” The man called Jack spat fiercely at Regina.

“Regina, what do you think you are? You don’t look up to me? Do you think I can look up to a horrible woman with a snake’s heart like you? I’d rather live with a dog than touch you!”

“Regina, in my eyes, you are worse than a dog!”

Regina was already angry, and Jack’s words made her gasp for breath, especially when she listened to the shameful laughter of the remaining gentry next to her, she wanted to kill them all.

To be laughed at, to be disliked, to have her dignity trampled underfoot, this would not be the end for her.

Even if she had been trampled to the deepest depths of the mud, she would still be able to stand up again and trample all those who had hurt her, one by one, under her feet!

“You will regret this! One day, you will regret it!”

Regina’s voice was hoarse, but the creeping resentment had not diminished one bit, “What you have done to me, sooner or later, I will get it back a thousand times over!”

Regina’s bloodshot eyes stared at the people in the living room, she moved her lips, everyone thought she was going to say something vicious again, but, her body trembled violently, she spat out a mouthful of blood, and fell to the ground.

Freya coolly swept at Regina who was lying on the ground like a corpse. She had always thought that being so angry that she vomited blood or something was really too exaggerated, but she had never thought that there were really people who could be so angry that they vomited blood.

Well, she felt that she had no medical ethics at the moment, she was so happy to see her patient vomiting blood!

All the evil things Regina had done had been exposed in front of the public, so naturally she couldn't escape the law.

Soon after, the police, who had been called to the scene, brought Regina back to the police station for investigation.

Without the help of the Wells family, Regina could not even hire a defence lawyer, and even though she was gnashing her teeth, she could not make any big waves.

After such a disastrous incident at the birthday banquet, Joanna was in no mood to accept everyone's blessings.

She asked the maids to send the guests away and then leaned back on the sofa exhaustedly, her face pale.

Master Zachary was about to leave with the crowd, but Joanna called out to him.

"Master Zachary, wait."

Hearing Joanna's voice, Master Zachary was nervous.

He turned around somewhat stiffly, "Madam, what do you want with me?"

Joanna's eyes were stern, "Master Zachary, is Regina truly a blessing to my Fitzgerald family?!"

"Master Zachary, Regina killed my Simon, she destroyed the only bloodline Simon had left in this world, she also framed Freya time and time again, causing our Fitzgerald family to be unsettled, is she really the lucky star of our Fitzgerald family?!"

Faced with Joanna's questioning, Master Zachary involuntarily took a step back, Winnie was straightforward, "Grandma, why are you still wasting words with him! He must have received a favour from Regina for speaking up for her before!"

"Grandma, if you don't believe me, I'll ask Bradley to check his account for you! I bet he's received a huge transfer of money in his account! Those are all favours paid to him by Regina!"

"Madam, misunderstanding! This is a misunderstanding!" Master Zachary did not want to ruin his years of friendship with Joanna, and he panicked and tried to explain himself.

But Joanna had now seen through many of the mists that had once shrouded her heart, and she naturally no longer believed Master Zachary.

For the sake of her long-time friend, Joanna did not want to pursue his responsibility any further.

She rubbed her temples wearily and sighed softly, "Even masters like money!" And she ordered the servants to send the guest away.

After Master Zachary left, Joanna closed her eyes and did not speak for a long time.

It was about five or six minutes later that she opened her pale eyes, and she looked at Freya, who was embraced by Kieran, and gently beckoned, "Freya, come here."

Freya hesitated and still walked towards Joanna.

There had been so much unhappiness between her and Joanna that she was actually unsure how to face her.

Joanna took the initiative to take Freya's hand. At this moment, she no longer looked like the high and mighty head of the family, but just a most ordinary and kind grandmother.

Suddenly, she got up from the sofa, and with her legs bent, she knelt heavily on the floor.
