

I CAN COPY TALENT

Chapter 7

“Ye Tian Cadet, do you really want to sign up for the trial?” Although as long as you reach the level of martial disciple, you can participate in the trial, but the martial artist who does not have 500 pounds of strength is best not to participate, otherwise it is easy to die in the trial. ”

Yue Cheng, the teacher of the Fifth Academy, looked at Ye Tian in front of him and dissuaded him.

A practitioner like Ye Tian, he had seen several of them, and he always thought that if he was lucky, he would get the blood of the fierce beasts, but he didn't want to think about it, even if there were no fierce beasts in that small wild area, some powerful beasts would be enough to kill most of the martial artists, and the practitioners who had just become martial artists would be like ants in front of the powerful beasts, unless they relied on numbers or powerful weapons.

“Teacher, I have already formed a group, relying on the number of people should have the hope of getting a good harvest!”

Ye Tian deliberately said so.

“Well, it's your own business anyway, but if you sign up, you need to sign a life-and-death contract, and once you sign the contract, even if you die in Ono District, our Fifth Academy will not make any compensation!” Teacher Yuecheng reminded.

“I know!”

Ye Tian calmly signed the contract.

“Ten days later, come to the fifth martial arts training ground of the academy before 8 o’clock in the morning, and there will be a teacher to take you over!” Teacher Yuecheng instructed.

“Yes, teacher!”

Ye Tianying said.

Successfully registered, Ye Tian was relieved.

For the next ten days, he didn’t want to waste it, although he was confident in his own strength, but his strength was still weak after all, and he still needed to make some preparations.

For example, buying weapons and equipment.

In this era, there is no control on weapons, anyone can carry weapons at any time, and weapons are also divided into several levels, such as weapons made of general steel are called ordinary weapons, and weapons made of some yuan force materials are very suitable for the flow of martial yuan force, such weapons are called yuan soldiers.

Ye Tian couldn’t afford to buy Yuan Bing, and there was no need to buy Yuan Bing, the quality of ordinary Yuan Bing was similar to that of ordinary weapons, but it only had more Yuan Force characteristics.

On a trip to the weapons shop, Ye Tian bought a knife made of fine iron, and also bought a bow and arrow, as well as some arrows.

These weapons cost Ye Tian 5,000 yuan, and this is enough for him to spend a year.

Originally, Ye Tian only had 20,000 yuan, and now there were only 15,000 yuan left, but it was necessary to buy these weapons.

In a blink of an eye, ten days have passed.

Ye Tian did not mention the trial to his sister Ye Yu, but only told his sister that the academy had organized an event that would take three days and would come back after three days.

Ye Yu naturally didn't think too much, otherwise Ye Tian would definitely not be allowed to go to the Ono District for trials.

.....

Fifth Academy, No. 5 Martial Arts Training Ground.

When Ye Tian came, he saw nearly 100 students, and it was obvious that this was not all of them.

It is estimated that there are at least 150 trainees participating in the trial, or even more.

"It seems that the attraction of the fierce beast blood is too strong, and it is the hope for the students who are not highly talented!" Ye Tian secretly said in his heart.

"Ye Tian, aren't you coming?"

Zhang Bao's voice came.

Ye Tian looked at Zhang Bao and said lightly, "I didn't say no, I just didn't want to form a team!" "

"Can't you find a master to take you?" Zhang Bao was shocked.

Ye Tian did not speak and remained silent, while Zhang Bao's eyes were envious, obviously thinking that Ye Tian had found a master, which made him unwilling to team up with them.

For Zhang Bao's thoughts, Ye Tian did not explain, and the misunderstanding was better.

After waiting for about half an hour, the students basically came, and all the students were about 160.

These 160 trainees are basically inferior talents, and they are basically very old, and there are even students in their twenties.

There are very few young apprentices like Ye Tian, after all, young means low strength.

So many students may not be able to come back, but in this era there is no strength, they will die at any time, such as the Silver Moon Marten incident some time ago, many ordinary people have been affected, it is really a disaster from home.

Only strength is everything!

“When everyone arrives, get on the bus!”

A teacher shouted at the students.

Soon.

Several buses similar to those of the past life appeared in front of many students.

The first time all students saw a car, they could only see this kind of pre-apocalyptic car in the textbook.

“Teacher, isn’t the rules of heaven and earth changed drastically now, and isn’t the car of a hundred years ago impossible to use?” Some students were curious.

“This is the latest research out of the bus, powered by Yuanli, is the technology exchanged by the high-level people of the coastal base from a large base, it has just been opened, only the warriors are eligible to buy cars, I believe that soon you will be able to see all kinds of cars on the street!” The teacher replied.

“A car powered by Yuanli!”

A group of students suddenly realized.

Some of them had also heard of such Yuanli equipment, but they did not expect that the coastal base also had it.

A group of cadets got on the bus and the bus headed outside the base.

An hour later, the bus passed a city gate and headed for the wilderness.

Entering the wilderness, many students were a little flustered.

There were many fierce beasts in the wilderness, and these warriors did not have the slightest resistance to the fierce beasts.

“Rest assured, not long ago, the big men of the coastal base cleaned up this wild area, and there will be no fierce beasts in the three miles radius, and our destination is a small wild area a mile away.” The head teacher smiled.

Hearing the teacher say this, the students breathed a sigh of relief.

Moreover, there are more than ten teachers in several cars to protect, and each teacher is a martial artist, and safety can be guaranteed.

Before long, a valley appeared in front of everyone.

“This valley is our destination.”

The teacher introduced.

There are quite a few buses at the entrance of the valley, which are the cars of other colleges.

“It’s the students of the Fifth Academy, haha, this garbage academy also sent people, don’t you want to destroy the whole army?”

“The students of the Fifth Academy probably haven’t seen any blood, right?”
Where like our First Academy, the teachers are hunting beasts and even

weak beasts for us to practice, our combat effectiveness is not comparable to the students of the Fifth Academy, I guess they may see the beast will be scared and cry! ”

“Although the students of the Fifth Academy are not good, the dean of the Fifth Academy is a big man in the coastal base, let’s still be less ridiculed, offending the dean of the Fifth Academy, we don’t have good fruit to eat!”

These mocking students are naturally all students of the First Academy, and as for the students of other colleges who are not much better than the Fifth Academy, where are the qualifications to mock.

“Damn, these First Academy students are too arrogant!”

Many students of the Fifth Academy said angrily.

But they only dared to talk about it, but they didn’t dare to really find the students of the First Academy to theorize, and they also knew the gap between themselves and each other.

After getting off the bus.

Ye Tian’s eyes burned as he stared at the students of the First Academy

“The students of the First Academy are at least beginners, maybe they will meet students with medium talents, my replication talent can already be copied again, this time maybe I can copy a good talent!”
