Chapter 1011: The Mysterious Immortal Meng Xing

The sound of this voice hadn't finished resounding in the air when a tall and robust figure had swiftly appeared.

This person had a focused expression and dense hair. His muscles seemed as if they were made from rocks and steel, and they emanated a feeling of explosive force. As he stood there casually, he was like a lofty mountain that was impossible to move.

Especially that his entire body was suffused with dense energy of the Laws and Immortal Force, and it rumbled through his entire body like a tidal wave while he revealed an extremely oppressive aura.

A Mysterious Immortal? Chen Xi's pupils constricted as he sensed an imposing aura that wasn't inferior to Liang Bing from this person, and it was dense, seething, and extremely profound. So this person was surely a Mysterious Immortal without a doubt.

The others were shocked as well, and they revealed even more fearful expressions.

Only Xiao Yun who came from the Endless World smiled with disdain, and he swaggered off towards the distance with his attendants.

"Lord Meng Xing!" The middle aged man and old man were shocked when they saw this person make an appearance, and they seemed to have never expected that with Meng Xing's identity, he would actually come to the Ascension Hall. They stood up and greeted him.

"Hmph! I asked all of you to stay here! Who dares to leave?" Meng Xing didn't pay the slightest bit of attention to the middle aged man or the old man. Instead, and he grunted coldly with a voice that was like an explosive thunderclap. As he spoke, he suddenly stretched out his hand and grabbed, causing a shapeless forcefield to surge out and fiercely grabbed Xiao Yun's group of three back here like he was grabbing up three chicks.

Thump! Thump! Thump!

Xiao Yun's group of three rolled down onto the ground like gourds and let out shrill cries, and they didn't even have room to struggle.

Merely this ability he revealed had shocked everyone that was present here.

Xiao Yun was in an extremely sorry state, and his expression sank instantaneously from being embarrassed in public. He swiftly stood up and pointed at Meng Xing as he shouted explosively with a grim voice. "How audacious! Do you know who I am?"

This fellow was really arrogant and domineering to actually dare to point at a Mysterious Immortal and berate him. This obviously displayed how arrogant and haughty Xiao Yun was before he ascended into the Immortal Dimension.

“Lord Meng Xing, he’s...” The middle aged man’s expression changed slightly as he hurriedly moved forward and sent a voice transmission in a love voice to notify Meng Xing of Xiao Yun’s identity, so as to prevent Meng Xing from completely offending the Solitary Origin Dao Sect.

“The Solitary Origin Dao Sect?” Meng Xing’s eyes narrowed slightly.

Xiao Yun laughed coldly as he said proudly, “Exactly. The ignorant are innocent. I can let bygones be bygones if you apologize to me.”

His voice hadn’t finished resounding through the air when Meng Xing revealed a savage smile and a mouthful of snow white teeth, and it was an extremely horrifying sight. He swung his hand to slap Xiao Yun flying with a bang, and he hit Xiao Yun to the point blood sprayed from his mouth while Xiao Yun let out endless howls of misery.

“Ptooey! Bastard! You even want me to fucking apologize? Are you even worthy? I’ll fucking kill you if you dare speak another word!” Meng Xing spat with an expression of disdain.

The hearts of everyone went cold when they heard this, and they had a deeper feeling of how overbearingly and domineeringly people of the Immortal Dimension did things because Meng Xing made a move just like that and didn’t give Xiao Yun any chance to speak.

At this moment, Xiao Yun instantly didn’t dare speak another word, and he just stared resentfully at Meng Xing as if he would repay Meng Xing tenfold in the future.

The middle aged man and old man laughed bitterly when facing this scene, yet they didn’t dare say anything.

Meng Xing even couldn’t be bothered about paying attention to Xiao Yun, and he swept Chen Xi and the others with his gaze before his dense brows knit together as he said, “Only this little bit of people ascended from the lower dimension this time?”

“Yes.” The middle aged man hurriedly answered Meng Xing.

“Nevermind, it is what it is.” Meng Xing shook his head and seemed to be slightly displeased. In the end, he waved his hand and said, “These ascenders have been expropriated on orders of Immortal Monarch Lin Hao. I presume both of you have heard of this matter.”

As soon as he finished speaking, he paid no further attention to the middle aged man and old man.

He turned around and looked coldly at Chen Xi and the others before he said, “Little Fellows that are from the lower dimension. All of you have heard me clearly, so I’ll cut to the chase. Follow me obediently, and you’ll naturally be given your freedom once the assignment is completed. If anyone dares to disobey, then don’t blame me for killing you!”

“Remember this! This is the Immortal Dimension and not your Mortal Dimension any longer. Only the strong have the right to speak here!”

“But what assignment do we have to complete?” An ascender asked with a weak voice while the others revealed extremely unsightly expressions. Never had they imagined that they would actually encounter such a thing after just arriving in the Immortal Dimension.

“All of you will know when we get there.” Meng Xing spoke coldly before he flicked his sleeve, causing Chen Xi and the others to be swept within his sleeve, and then he controlled an Immortal Vessel and swiftly tore through the sky.

“Exactly...exactly what is going on?” The middle aged man only recovered from his shock after a long time, and his expression was slightly unsightly.

“Alas, how can anyone guess the thoughts of Immortal Monarch Lin Hao? But I seem to have heard that it isn’t just our Cloudray City, the subordinates of Immortal Monarch Lin Hao are moving about the other nearby cities as well, and so long as they notice an ascender, the ascender would be taken away. No one knows why they’re doing this.” The old man sighed.

The thin middle aged man said with bewilderment, “The identity of these ascenders are related to the various powers of the Immortal Dimension, and they might be the descendant of a great figure. Could it be that Immortal Monarch Lin Hao isn’t afraid of offending others by doing this?”

“Hmph! Even the Immortal Court doesn’t care, so who would care about these matters?” The old man grunted coldly and said, “Not to mention that the three dimensions are about to undergo an upheaval. Does anyone have the time to care about these ascenders? For example, so long as we don’t say anything, then even if that Xiao Yun was killed by Lord Meng Xing, Daoist Xiao Long wouldn’t probably be aware of it.”

The middle aged man was stunned, and he laughed bitterly as he shook his head without end.

...

The sky of the Immortal Dimension was boundlessly high. According to legend, only terrifying existences that had attained the Immortal King Realm had the ability to determine the height of the Immortal Dimension’s sky.

Moreover, the Spatial Laws there were extremely solid and filled with peerlessly condensed energy of the Laws that even Heavenly Immortals were unable to tear open and teleport through, so they could only fly.

Even Mysterious Immortals could only teleport in an area of 500km, and it required an extremely high consumption of Immortal Force.

Only once one attained the Golden Immortal Realm and condensed Golden Immortal Laws would one be able to break through the restraints of the Spatial Laws and move freely through space.

Swoosh!

An Immortal Vessel flew swiftly through the sky.

On the Immortal Vessel, Meng Xing sat cross-legged while his broad back remained ramrod straight, and he had a ferocious expression while he emanated an oppressive aura.

All the ascenders stayed obediently and silently in the hold with unsightly expressions, and the space between their brows were filled with deep worry.

Xiao Yun who'd come from the Endless World even gnashed his teeth while revealing an extremely livid appearance that terrified the attendants by his side to the point that they didn't dare come close to him.

Only Chen Xi had a calm expression and was trying hard to adjust the vital energy in his body.

The benefits he obtained this time from advancing to the Heavenly Immortal Realm was extraordinarily great, and it could even be described as a pleasant surprise. According to his estimation, once the Immortal Force and Immortal Sense in his body recovered, and he condensed the energy of the Laws, then he would even not have to be afraid of existences at the Mysterious Immortal Realm!

Exactly, it was Mysterious Immortal Realm experts and not Heavenly Immortals.

Because Chen Xi's reserves were truly too enormous, and he'd already arrived at an unprecedented state a long time ago while he was still in the Earthly Immortal Realm. His foundation was deep and condensed to the limit, and it was over an entire hundred times than those of the same cultivation.

Now that he'd overcome the tribulation and ascended into Immortality, the benefits brought about by his deep foundation was naturally immeasurable.

For example, if an ordinary Heavenly Immortal's Immortal Force was a vast lake, then Chen Xi's Immortal Force was a boundless ocean! If it was seen by other Heavenly Immortals, it would surely shock their eyeballs out.

Heavenly Immortal, Mysterious Immortal, Golden Immortal, Saint Immortal... My current cultivation is already extremely deep. So long as I cultivate in meditation, I don't have to worry about being unable to advance into a higher cultivation realm. Chen Xi sensed the Immortal Force that was swiftly filling up in his body, and he clenched his fists in secret.

His mentality was very good because he was clearly aware that he was no different than a newbie upon arriving at the Immortal Dimension, and if he wanted to gain a foothold in the Immortal Dimension, then it could only be accomplished through grasping an even more formidable strength.

With the assistance of the Dark Parasol Sapling, he was even able to improve his strength in a short period of time.

The only thing he lacked was the condensing of the Laws.

The Laws were supreme to Dao Insights, yet they came from Dao Insights.

Every single Grand Dao profundity could be condensed into a type of Law. The more condensed a Law was, the greater the strength it possessed would be, whereas under the circumstances that the Laws two people possessed were of the same strength, then the person who'd condensed more Laws would be able to exert an even more formidable strength.

One was a comparison of quality.

The other was a comparison of quantity.

It was absolutely clear.

But there were also some rare laws that couldn't be differentiated like this. For example, the Devour, Oblivion, Creation, and other similar supreme Laws were sufficient for one to be unafraid of everything and howl proudly through the a region by just grasping a single one of them.

Unfortunately, all of this wasn't suitable to be used on Chen Xi.

He didn't just grasp the ordinary Grand Dao profundities like the five elements, Yin, Yang, wind, and lightning, he even possessed rare Grand Dao profundities like Creation, Oblivion, Paramita, Devour, and so on and so forth.

So when he condensed these Grand Dao profundities into the energy of the Laws, the strength he would be able to exert was sufficient to be described as astonishing.

Of course, the more Grand Dao profundities one had grasped meant that one would spend even more time than others to condense them into the energy of the Laws, and the level of difficulty far exceeded what was faced by others.

Perhaps this was the only drawback.

It isn't suitable for me to condense the energy of the Laws at this moment. It wouldn't be late to cultivate after I find an opportunity to free myself... Chen Xi sensed the changes in the vital energy throughout his body before he stopped thinking any further.

The current situation didn't allow him to continue thinking about all of this.

The Mysterious Immortal Meng Xing's sudden appearance and actions of taking all of them away under the authority of Immortal Monarch Lin Hao had completely disrupted Chen Xi's plans.

He was originally prepared to first find out about the situation within the Immortal Dimension after he obtained his Immortal Token, and then he would directly head to the Dao Emperor Academy according to his Senior Sister, Li Yang's, instruction. Once he possessed a foothold in the Immortal Dimension, he would head to Misty Immortal Mountain to make contact with Qiu Yunsheng and find out everything about the Zuoqiu Clan.

But now, he obviously had no choice but to change his plans.

However, this new plan couldn't be considered a plan as well because he was utterly unaware where Meng Xing was taking them, nor did he know what assignment they had to complete...

So he could only act according to the circumstances.

This sort of passive feeling was extremely uncomfortable and filled with the unknown and danger. If it wasn't for Chen Xi's Dao Heart having been tempered to the Heart Soul Realm, and he himself had experienced countless unexpected events, he would probably be anxious and at a loss for what to do just like the other ascenders.

"We're here!" Right at this moment, the Immortal Vessel stopped abruptly before Meng Xing's deep voice sounded out from outside the hold.

[Talisman Emperor](#)

Chapter 1012: Azuresoul Mine

Meng Xing had just finished speaking when he put away the Immortal Vessel.

Instantly, a lofty and precipitous mountain range appeared in their fields of vision.

The tall and precipitous mountain was suffused with dense azure colored mist, and it was like a rising ocean. When looked at from afar, it was actually boundlessly vast and an extremely magnificent sight.

“This is the Azuresoul Mine. There’ll be people who’ll come to receive all of you soon.” Meng Xing pointed towards the distant mountain range as he spoke indifferently.

“A mine?” Someone said with a trembling voice, “We wouldn’t have been brought here to carry out mining, right?”

The others had extremely unsightly expressions as well. The Azuresoul Mine? Just by its name, it’s obviously not a good place, yet Meng Xing actually brought all of us here, so he probably doesn’t have any good intentions.

Meng Xing didn’t answer, and he just glanced at everyone with a cold gaze before he said, “I have to remind all of you that if you want to live, then it’s best that you cooperate obediently. Otherwise, you wouldn’t even know how you died.”

Everyone was horrified while their expressions became unsightly to the extreme.

Before they ascended, they received the respect of everyone in their respective worlds, and they got everything they desired. How could they have imagined that it would be like this after they ascended into the Immortal Dimension?

This sort of feeling was as if they’d suddenly fallen from the peak to an all-time low, and this enormous difference caused them to be caught off guard and feel anxious.

“I never expected that it would actually be Lord Meng Xing that came over personally.” A flowing ray of light suddenly flew over from the distant mountain range that was coiled by azure mist, and it was a cold young man who was thin like a bamboo, possessed a capable bearing, and only had a single eye.

A Heavenly Immortal? Chen Xi’s eyes narrowed before he withdrew his gaze. If it was in the Mortal Dimension, then perhaps he would still be fearful of a Heavenly Immortal, but he’d already attained the Heavenly Immortal Realm now. Moreover, his foundation was extremely thick, so he didn’t take this person seriously at all.

“Wei Zheng, I’ll hand these ascenders over to you.” Meng Xing nodded to the cold young man, and he seemed to refuse to stay here for another moment. So he instructed the young man before turning around and leaving on the Immortal Vessel.

“All of you follow me.” As soon as Meng Xing left, Wei Zheng’s expression instantly turned cold, and his single eye was filled with an indifferent and merciless expression.

Everyone glanced at each other while their expressions changed indeterminately. In the end, they followed obediently behind Wei Zheng and flew towards the Azuresoul Mine.

...

“You’re courting death! How dare you launch a surprise attack! Get the fuck up!”

“Please, I beg you. I beg you to let me rest for a moment. I’ve already done my best, and it isn’t that I’m not working hard, but the Azuresoul Sourcerocks are getting lesser as time goes by.”

“Ptooeey! Trash! If you can’t even hand in ten Azuresoul Sourcerocks every day, then what’s the point of keeping you alive? Die!”

“Has anyone else not completed their assignment? Quickly come over to receive your punishment! If you make me drag you out myself, then don’t hope of surviving!”

“A bunch of useless trash! Your compensation of Immortal Stones for today is cancelled!”

Under the blood red glow of the setting sun, the sound of rageful curses sounded out from the depths of Azuresoul Mine, and it was mixed with a wave of begging and shrill howls. Moreover, the sound of whipping frequently resounded out as well, causing shrill cries to shake the skies and caused chills to run down the spines of all.

When Chen Xi and the others arrived here behind Wei Zheng, they saw an empty flat area at the foot of the mountain. At this moment, numerous figures were standing there.

Most of these figures had disheveled hair and dirty faces, and they were dressed in rags and covered in dirt. They were like beggars of the mortal world.

In the surroundings was row after row of guards that were completely covered in black colored armor, and they held iron whips as they guarded the surroundings while emitting savage and cruel laughter.

A table made of black iron lay at the center of the area, and a fat middle aged man with white skin, a moustache that formed the character ‘八’, and eyes that were tiny like beans sat behind the table. The fat on his body made it seem as if he was almost about to explode.

Beside the fat middle aged man was two pretty and coquettish women that wore sheer fabric clothes. They leaned on the fat middle aged man while helping him to massage his shoulders and back and poured tea for him while frequently emitting strings of sweet laughter.

Those people dressed in rags had formed a line before the table at this moment, and every single one of them held an iron basket that contained some Azuresoul Sourcerocks that were suffused with a dark azure color and were of various different sizes.

Slap! Slap! Slap!

At the other sides were two guards who bared their upper bodies and held iron whips in their hands. They were whipping a group of slaves to the point the skin and flesh on their bodies split open, causing blood to spray out as the slaves rolled on the floor and let out endless shrill cries.

Some didn’t even let out a few shrill cries before no sound came from them as they’d transformed into icy cold corpses.

Every time this happened, an extremely ferocious crimson colored fierce tiger would pounce out swiftly from the side, and it opened its large bloody mouth before completely consuming the corpse.

Slaves that were in rags!

Fiendish guards!

A cruel and violent tiger!

...

These scenes were bloody and brutal, and it aroused extremely intense shock in the hearts of all.

When Chen Xi and the others arrived here and saw this scene, their countenances instantly turned pale while their pupils dilated, and they couldn't help but reveal a wisp of panic.

Only a few people still remained their calm, and one of them was Chen Xi.

A Mysterious Immortal, four Heavenly Immortals, and the remaining one thousand and thirty two are guards. A small portion of these guards are Earthly Immortals, and the rest are at the Nether Transformation Realm...

There are over ten thousand slaves, and over a hundred of them obviously possess foundations at the Heavenly Immortal Realm, yet they haven't condensed the energy of the Laws. Moreover, their cultivations are weak and declining. If I'm not wrong, then they probably just ascended like me before being captured and brought here...

Strange. If it's merely for the sake of mining, then there's entirely no need to capture ascenders from all over. There's probably a reason behind this...

He swept the surroundings with his gaze and understood the situation within the entire mine, causing him to feel relaxed because so long as there wasn't a Golden Immortal holding down the fort, then it didn't pose a fatal threat to him.

"Your assignments are just like them. Excavate Azuresoul Sourcerocks. Before sunset every single day, you must hand in ten Azuresoul Sourcerocks. You'll suffer punishment for every single rock you're lacking, and you'll be directly sentenced to death if you hand in less than five." Meanwhile, Wei Zheng spoke indifferently with a cold and merciless voice. "All of you can chose to try to escape. But I have to remind all of you that not a single ascender that has been captured and brought over here since last month has been successful, and the consequences they faced was over a hundred times more horrifying than dying in the mouth of the Bloodstripe Fierce Tiger."

As soon as these words were spoken, those ascenders that carried hope in their hearts instantly revealed ashen expressions, and they felt helplessness and despair.

"Then...when will we be considered to have completed our assignment?" An ascender spoke with a bitter tone.

"I'll naturally inform all of you when you can leave." Wei Zheng's gaze was icy cold as it swept past the faces of everyone like a blade, and he said, "Now, hand over the storage magic treasures in your possessions, and then line up over there to claim your iron basket from Manager Lou Feng. He'll arrange the area of the mine that all of you will enter."

As he spoke, Wei Zheng pointed towards the side in the distance. There was a house made of rocks there, and an old man with a gloomy expression was laid down and resting on a soft couch before the house.

As if he'd noticed that Wei Zheng was speaking about him, the old man suddenly opened his eyes, and it emanated a gorgeous jade green glow that was ghastly and frightening.

Being gazed at by this gaze was like being stared at by a gloomy poisonous snake, and it caused all those ascenders to feel uncomfortable and horrified.

Lou Feng and Wei Zheng were two of the four Heavenly Immortals that Chen Xi had noticed.

There were another two that were respectively the fat middle aged man that sat behind the table while collecting Azuresoul Sourcerocks, and another who Chen Xi didn't dare to rashly sense. He was only able to faintly sense that this Heavenly Immortal was within a deep and quiet passageway within the mine, and Chen Xi wasn't aware of this person's appearance at all.

As for the Mysterious Immortal, he resided on the peak of a small mountain that was 500km away from here, and his extremely mysterious and profound aura enveloped the entirety of Azuresoul Mine from afar.

When he saw that he wasn't just about to become a member of the mining slaves, he even had to hand over the storage magic treasures in his possession, one of the ascenders couldn't refrain himself and questioned with a grim voice. "Why must we hand over our storage magic treasures? We aren't your slaves!"

As soon as these words were spoken, the atmosphere in the surroundings was silent. The slaves in rags and the guards that guarded the surroundings had all revealed a wisp of pity as they looked over here.

"Haha! There's an ignorant fellow."

"Oh, how do you think this fellow will die? Will his head be directly pulled off by Lord Wei Zheng, or will he be completely refined into lantern oil and hung within the passageways in the mine to illuminate the way?"

The two beautiful and seductive women by the fat middle aged man's side revealed a wisp of excitement, and they spoke without end, yet the content of their conversation caused one's heart to go cold.

"Let me guess. That ascender's appearance isn't bad, so perhaps he'll be seized away by that old pervert Lou Feng, and his butt will be completely ravaged tonight. HAHAHA!" The fat middle aged man roared with laughter while the fat on his entire body trembled like waves. As he spoke, he fiercely grabbed and rubbed the women's plump buttocks, causing them to let out sharp cries that seemed as if they were in pain yet also enjoyed it, and he only stopped after hearing these cries and sighed with satisfaction.

The entire body of that ascender who spoke out in rage trembled when he saw these scenes, and the flames of rage in his heart receded like a tide before being replaced by panic.

Before Wei Zheng could make any reaction, he actually produced three storage magic treasures and handed them over respectfully before he said with a trembling voice, "My Lord, allow me to atone for my crimes. Allow me to atone for my crimes...."

Wei Zheng's only eye glanced coldly at him before Wei Zheng put away the three storage magic treasures and said, "Hand over all the storage magic treasures in your possessions within ten breaths of time. Remember, I said all of them! Bear the consequences if you exceed the time limit."

Everyone didn't dare hesitate and hurriedly handed over the storage magic treasures in their possessions. Moreover, even Xiao Yun from the Endless World had been beaten to the point of losing all his arrogance, and he handed it over obediently.

Chen Xi handed over a storage magic treasure as well. But there were only ten plus Immortal Stones within it. As for the Buddha's Pagoda, it was being nurtured within his Blackhole World since a long time ago, so unless he was killed, otherwise, no one would be able to notice it.

In next to no time, the time of ten breaths had passed.

At this moment, the gazes of everyone had descended onto a young woman that stood by Chen Xi's side, and their gazes carried shock, pity, and pleasure from her misfortune.

Because the young woman had already expressed that she didn't carry any storage magic treasures. But who would believe these words?

"Search her!" Wei Zheng seemed to not be surprised by this, or perhaps he's seen many ascenders like this, so he waved his hand with an emotionless expression.

In the next moment, over ten fierce looking guards charged over while they swept the young woman with gazes filled with ill intent.

[Talisman Emperor](#)

Chapter 1013: The Grades of Immortal Artifacts

The young woman wore a light blue dress, and she possessed fine brows that were shaped like leaves, cherry lips, and a fine nose. Her face was delicate, beautiful and white, and her bearing was a lotus that had emerged from the water and was extremely attractive.

But at this moment, when facing those ten plus fierce looking guards, her small face turned pale while her clear eyes surged with an expression of terror, and she seemed like a tiny deer that had fallen into a dangerous situation and aroused tender feelings in the hearts of all.

Based on Chen Xi's experience, this young woman was probably not lying, and it was impossible for her to lie because under such a situation, lying would absolutely be something that wasn't worth it.

"Oh, this little girl is really beautiful."

"Haha! Little girl, don't be scared. Big Brother will be very gentle."

"Let me guess where that storage magic treasure is hidden. Is it within that jade pendant before her chest or hidden within her belt? Why don't we remove her belt and clothes to carefully search her?"

All of them guards had burning gazes and savage expressions that revealed pervertedness, and they brazenly sized up the young woman's body while speaking in a disgusting and foul manner.

"I, I really don't have a storage magic treasure with me." The young woman was both embarrassed and enraged, and her expression changed indeterminately while her clear eyes surged with a layer of watery mist that almost trickled from her eyes. This sort of fragile appearance caused the guards to roar with laughter once more, and they were even more brazen in their actions.

"Under such circumstances, this miss would probably not lie." Chen Xi frowned and couldn't refrain himself from speaking up.

His voice hadn't finished resounding through the air when the shadows of a whip tore through the sky with a crack, and its impetus was fierce as it whipped down at Chen Xi's face.

Chen Xi's eyes narrowed, yet he forcefully refrained himself from dodging in the end. As expected, this whip shadow hit firmly on his face and left behind a terrifying bloody mark.

"Ptoey! Who the fuck do you think you are? Is there any room for you to speak here? I'll fucking whip you to death if you dare speak another word." The guard put away his iron whip as he glanced at Chen Xi with disdain while his face was covered in killing intent.

Chen Xi wiped of the bloodstain on the corner of his mouth while his expression became calm to the extreme. The taste of blood was something he hadn't tasted for a very long time, yet he never imagined that he would suffer such a strike after he'd just arrived at the Immortal Dimension.

He was very clearly aware that his strength hadn't completely recovered at this moment, nor had he condensed the energy of the Laws, so he could only endure it. However, in his heart, he'd already given this person the death penalty.

"Alright, there's no need to search her." Meanwhile, Wei Zheng glanced coldly at Chen Xi before he glanced at the young woman, and then he waved his hand and ordered those guards to leave.

"Hmph! Kid! You actually dared to fucking spoil it for me! You're finished!" An icy cold voice suddenly sounded out by Chen Xi's ears, and he didn't have to look to be clearly aware that it was surely that guard who whipped him earlier.

Lu Feng? I'll be waiting for you, said Chen Xi in his heart. He'd already firmly remembered the name of that guard from the conversation between the guards.

Subsequently, Chen Xi and the others obtained an iron basket each from the gloomy old man, Lou Feng, before they were led through a hollow by a guard to arrive before a row of houses.

All these houses were constructed from rock, and they were like a winding snake that densely covered the surroundings.

"Hmph! Your lucks aren't bad. Over twenty useless pieces of trash just died today, so all of you can choose any one of the rooms they left behind. Remember, all of you are only allowed to stay in your rooms tonight and prepare to bear the consequences if you disobey these orders!" The guard that led the way grunted coldly before putting his hands behind his back and leaving in large strides.

“Slaves? Who would have imagined that after we ascended into the Immortal Dimension, we would fall to such a state overnight? If I knew this would happen, would there be any need to lust after the path of immortality?” With the guards gone, someone couldn’t help but sigh.

“Hmph! This is only because we had bad luck, so there no need to show resentment against the heavens and lay blame on others. What about the Immortal Dimension? So long as we possess strength, we’ll still be able to thrive here!” Someone didn’t take the words of the first person who spoke seriously.

“Right, every single one of us who’ve ascended from the Mortal Dimension have experienced countless tempering to forcefully slaughter out a path from millions of others and form a path to immortality! Endure it for now. Once we have the opportunity in the future... Hmph!” Someone had a ruthless expression and seemed as if he felt it was never too late to take revenge.

After talking for a short moment, all those ascenders dispersed back to their own rooms.

Just like they’d said, every single expert that was able to experience the numerous tribulations and ascend into the Immortal Dimension wasn’t weak, and they were just new, causing their minds to be unable to adapt to the environment in the Immortal Dimension.

The only thing they lacked was time.

“Thank...thank you, Young Master, for what you did earlier.” The young woman walked forward and thanked Chen Xi in a low voice.

“There’s no need to thank me. Not to mention I didn’t help much and got whipped instead.” Chen Xi laughed with self-ridicule.

“At any rate, Young Master is a good person.” The young woman seemed to have rarely spoken with someone from the opposite gender, so she faintly revealed an embarrassed and weak feeling as she spoke. But in next to no time, she took a deep breath and said seriously, “I’m Mu Linglong from the Skyeath World. Young Master, may I know your name?”

“Chen Xi from the Dark Reverie,” said Chen Xi with a smile.

“Chen Xi...” Mu Linglong repeated his name before she nodded and said, “Young Master Chen Xi, I’ll surely return the favor in the future!”

As soon as she finished speaking, she lowered her head and left hastily.

“The Skyeath World, that’s a large world that’s even more ancient than the Dark Reverie. Senior Sister seemed to have mentioned that an Immortal King with peerless authority in the Immortal Dimension was from the Skyeath World...” Chen Xi pondered deeply, and then he stopped thinking and chose an empty room before walking into it.

...

Late at night, Chen Xi sat cross-legged within the world of stars while he breathed silently.

The Dark Parasol Sapling within his body ceaselessly emitted strands of pure Immortal Energy, and it replenished the boundless vast Blackhole World within his Dantian. At the same time, Immortal Sense surged and whistled like tidewater within his sea of consciousness, and it emanated waves of rumbling.

Advancing from the Earthly Immortal Realm to the Heavenly Immortal Realm was like the relationship between the earth and the heavens, and it was like the distance between the heavens and the earth. It was a qualitative leap.

The most obvious characteristic was the transformation of Immortal Energy into Immortal Force, the transformation of Immortal Perception into Immortal Sense, and the transformation of the mortal body transforming into an immortal physique.

After one attained this realm of cultivation, one was able to live along with the ages and possess an eternal lifespan!

However, this was only a leap in terms of lifespan, and Heavenly Immortals could still fall. So even if one was able to experience a myriad of generations, no one dared to say that they were eternal.

Not bad. According to this speed of advancement, I'll only need half a month to completely recover my strength. Unfortunately, the Temporal Laws within the world of stars has obviously been suppressed greatly after arriving in the Immortal Dimension... After he attained the Heavenly Immortal Realm, Chen Xi was able to clearly sense the circulation of the Temporal Laws in the world of stars. Even though he was unable to comprehend it, he was able to discern that the Temporal Laws within the world of stars had been suppressed by around 50% after he entered the Immortal Dimension.

In other words, in the past, 10 days within the world of stars was equivalent to one day in the outside world.

Yet now, five days in the world of stars was equivalent to one day in the outside world.

This caused Chen Xi to feel rather regretful. However, he felt relieved because even though the Temporal Laws within the world of stars had been restrained, he didn't have to worry that someone would notice the Manor after he entered the Immortal Dimension.

This was because of the different Laws of the Heaven Dao.

In the Mortal Dimension, the great figures of the Immortal Dimension intervened and controlled the Laws of the Heaven Dao, but it was different in the Immortal Dimension. The Laws of the Heaven Dao in the Immortal Dimension was something that even an Immortal King didn't dare talk about controlling and utilizing.

In this way, so long as Chen Xi didn't divulge the secret of the Manor in his possession, then he was able to utilize it at any time without having to be extremely careful and conceal it every time he utilized it like how he had in the Mortal Dimension.

It's good this way as well. My main body will cultivate in the world of stars while my clone will carry out the assignment instead. So long as I make the best use of my time, it wouldn't be long before I'll be able to escape this place. At that time... The figure of that guard, Lu Feng, appeared on Chen Xi's mind, and killing intent flashed within his heart.

After that, he recovered his calm and concentrated as he fell into a deep level of comprehension.

...

Early in the morning the next day.

The sky hadn't even brightened when a wave of furious cursing sounded out from outside.

"It's time to get up! Quickly get the fuck out here to do work! All of you know the rules. You only have to hand over ten Azuresoul Sourcerocks to obtain your compensation of ten Immortal Stones."

"One rock less will gain you a whip!"

"Those who hand in less than five rocks will be put to death on the spot!"

When Chen Xi walked out from the house he resided in, the other ascenders had made an appearance as well.

When he saw everyone was here, a guard waved his hand before bringing all of them forward swiftly, and they flashed past numerous mountains before arriving at a deep and quiet entrance to a mine in the end.

"All of you take a good look. This is a Azuresoul Sourcerock. Every single one has to be this size, and anything smaller will earn you a whip as well!" The guard withdrew a fist sized dark azure rock and allowed everyone to have a look before he said with an icy cold voice, "Don't blame me for not warning all of you. If anyone dares to hide a storage magic treasure, then so long as it's discovered, that person will be killed on the spot, and then the corpse will be fed to the Bloodstripe Fierce Tiger!"

He waved his hand as soon as he finished speaking.

Swoosh! Swoosh! Swoosh!

Everyone charged immediately into the entrance.

This entrance was extremely deep and quiet, and it wound about while opening up into numerous forks. In next to no time, everyone had dashed towards different paths and were separated.

No one was willing to go together with another.

Because according to the introduction given by that guard, the Azuresoul Sourcerocks within this mine had been excavated for an innumerable period of time, so its yield was extremely low, and it was on the verge of being abandoned.

So the difficulty to excavate ten Azuresoul Sourcerocks from here was obvious.

Under such circumstances, if they were to go excavate the ores in groups, then it would clearly be impossible for them to complete their assignment.

Azuresoul Sourcerocks are able to be refined into Azuresoul Steel that contains Azuresoul Baleful Immortal Qi. It's a mid-stage immortal material to refine a Darkspirit Grade Immortal Artifact... Chen Xi moved swiftly towards the depths of the mine while he recalled the information related to the Azuresoul Sourcerock in his mind.

Presently, he was clearly aware that Immortal Artifacts in the Immortal Dimension were divided into the Ordinary Grade, Darkspirit Grade, Cosmic Grade, Valiant Grade, and Void Grade. Every single grade was divided into three ranks of high, medium, and low.

Similarly, immortal materials were divided into five stages according to this, and it was respectively the low-stage, mid-stage, high-stage, extreme-stage, and king-stage. Each of them corresponded to one of the five grades of Immortal Artifacts.

The Azuresoul Sourcerock was a mid-stage immortal material, and it was one of the main materials to refine a Darkspirit Grade Immortal Artifact. Especially when refining an Immortal Sword or offensive treasures like swords and blades, the addition of a small bit of Azuresoul Steel into it would be able to strengthen the treasure's intelligence and toughness, causing it to be rather precious.

I wonder what grade are the treasures like the Saintslaughter Forbidden Sword, Dao Calamity Sword, and Calamity Ward Green Lantern at? Chen Xi unconsciously recalled the various treasures that he carried in his possession.

Chapter 1015: Unfathomable Movement Technique

He'd never taken them to be good people. In other words, he'd taken them to be bad people since the beginning.

Besides feeling at ease when she heard this, Mu Linglong couldn't help but burst into laughter. Her clear eyes curved into arcs that were like crescents that were inlaid into the starry sky, and it was bright and dazzling.

The expressions of Xiao Yun's group of three sank.

"Damnable little girl! You escaped earlier, yet actually dare to return and meddle in this Young Master's business!? Both you and this kid can dream of escaping this time!" Xiao Yun spoke with a ghastly voice. "Xiao Gui, Xiao Yan, you two deal with that kid. Leave that little girl to me!"

As soon as he finished speaking, he'd charged towards Mu Linglong like a dragon, and he dragged out a string of afterimages as he moved swiftly like a bolt of lightning.

Bang!

The shadows of a fist surged towards Mu Linglong's lower abdomen.

Even though this strike was resolute and carried terrifying strength, it was utilized against a young woman and was even aimed at a private area of her body. This was simply despicable and shameless.

"How despicable!" Mu Linglong's figure flashed like a wisp of smoke, and she easily avoided it, but her delicate little face was angered to the point her beautiful brows knit together tightly.

"Hmph! Little girl, is this despicable? Once this Young Master captures you, I'll let you taste the true meaning of the word despicable." Xiao Yun couldn't help but be stunned that his attack missed, and

then he revealed a gloomy and ruthless expression on his face. He flashed forward once more as his figures seemed like hooks that carried surging Immortal Force as they clawed repeatedly at Mu Linglong.

At this moment, the two servants, Xiao Gui and Xiao Yan, were already locked in battle with Chen Xi.

Even though they hadn't condensed the energy of the Laws, they'd still ascended into the Immortal Dimension in the end. Moreover, the Immortal Force in their bodies was thick and ample while their cooperation was extremely good, causing their might to be rather ferocious.

Unfortunately, they'd encountered this freak, Chen Xi, this time, and they were bound to be utterly defeated.

All those years ago, Chen Xi was able to kill the clone of a Golden Immortal like Bing Shitian while at the eighth level of the Earthly Immortal Realm. Now, his clone had cultivated for over six hundred years, and it was only a step away from advancing to the Heavenly Immortal Realm, so it was easy for him to annihilate two Heavenly Immortals that hadn't condensed the energy of the Laws.

So, not long after the battle erupted, Chen Xi's figure flashed while the Shaman Energy in his entire body rumbled, and then a palm that was suffused with an ancient aura slapped down from the sky.

Stars circulated within it while a myriad of phenomenon were enveloped by it, and it was the supreme Divine Ability — Grand Astral Palm!

This Divine Ability came from the inheritance within the Manor, and it had helped Chen Xi annihilate countless experts in the past. It was said to possess boundless might because Dao Insights were boundless, and it was capable of containing various Grand Dao profundities and allowed the Grand Dao profundities to circulate it without conflicting each other. Thus, it was able to erupt with an extremely terrifying and crushing force.

Now that it was executed with Chen Xi's cultivation at the eighth level of the Earthly Immortal Realm in body refinement, the palm print seemed to carry a myriad of stars as it smashed down, and the stars were dazzling and caused circle after circle of ripples to spread through space!

After all, this was the Immortal Dimension, and the Spatial Laws of the heavens and the earth here were extremely solid. So those that were capable of causing ripples to spread through space were practically formidable existences that had grasped the profundities of the Laws.

"Shit!"

"What Divine Ability is this?"

Xiao Gui and Xiao Yan's faces turned pale with fear. They felt a threat to their lives from this palm, and they practically instinctively tried to dodge it.

Unfortunately, both of them had forgotten that this was a narrow and cramped passageway in a mine, whereas, Xiao Yun was pursuing Mu Linglong, so there wasn't much space left to dodge...

Bang! Bang!

Instantly, the Grand Astral Palm descended and erupted with blazing brilliance as it enveloped the two of them, causing a wave of shrill cries to resound before blood sprayed. Both of them had been crushed to death.

If they'd condensed the energy of the Laws, then perhaps they would be able to disregard the threat Chen Xi posed. But unfortunately, all of this was impossible.

The source of a Heavenly Immortal's strength was the Laws!

Without the Laws, a Heavenly Immortal had a body full of strength yet was unable to bring forth its true might.

After he killed Xiao Gui and Xiao Yan, Chen Xi paid no further attention to their corpses and intended to assist Mu Linglong. However, he noticed to his shock that the young woman actually possessed an unfathomable movement technique that allowed her to move swiftly like a bolt of lightning and gracefully like flowing light, and it completely displayed the ability of variation within a small space.

When looked at from afar, she seemed to be stepping on the stars while her sleeves fluttered through the air, and she moved about in the boundless universe. A single stride was like the passage of time and the movement of the stars!

It could be said to be unfathomably profound and extraordinarily astonishing!

No wonder she was able to avoid the pursuit of Xiao Yun and his servants. So it turns out that she possesses a supreme movement technique like this... Chen Xi sighed with admiration in his heart. He was able to clearly distinguish that if Mu Linglong grasped the energy of the Laws before executing this movement technique, then the variations it displayed would be even more formidable and unimaginable.

"Dammit! You actually dared to kill this Young Master's servants. In another ten days, both of you dirty dogs can dream about living!" Meanwhile, Xiao Yun who was unable to defeat Mu Linglong after attacking for so long was both shocked and infuriated when he saw his servants had been killed. He flashed immediately and actually abandoned pursuing Mu Linglong before he fled towards the exit of the mine.

How could Chen Xi let him escape? Chen Xi's figure flashed immediately, and he intended to charge over.

But right when he intended to pursue Xiao Yun, he suddenly noticed that Mu Linglong's figure shook before she actually fell to the ground. She started panting while her little face turned pale, and she seemed to be on the verge of fainting.

"Miss Mu, are you alright?" Chen Xi could only stop and move over to Mu Linglong's side, and then he helped her up.

"I... I'm fine... It's just that I haven't fought with anyone in the past, and I'm slightly not used to it." Mu Linglong took a deep breath and spoke with a slight lingering fear in her heart, and she revealed an exhausted, uncomfortable, and pitiable appearance.

Haven't fought with anyone in the past? Chen Xi was dumbstruck. Never had he imagined that he would get such a reason from her, and he slightly wondered how she was able to cultivate to the point of ascension.

After all, as ascenders, all of them had fought with the heavens and experienced countless battles in order to forcefully slaughter open a path to immortality.

But Mu Linglong had actually not fought with anyone in the past...

If news of this were to be spread, then probably no one would believe it. But as Chen Xi looked at the young woman's serious and horrified expression as she spoke these words, his belief couldn't help but be slightly moved.

Could it be that she really hasn't experienced any battles in the past?

"Young Master Chen Xi, my...my Immortal Force has been consumed too much. I'm afraid it's impossible for me to recover in a short period of time. Why don't you go look for some Azuresoul Sourcerocks first? There's no need to mind me." Mu Linglong spoke weakly. Even though her face was pale, she forcefully squeezed out a smile, and she seemed to be unwilling to delay Chen Xi and was very considerate.

"You should follow by my side." Chen Xi sighed as he passed over a storage pouch that was filled with Immortal Stones. "Use these Immortal Stones to cultivate, and you'll probably be able to recover quickly."

As he spoke, Chen Xi stood up and patted his shoulder. "Come up, I'll carry you."

Mu Linglong looked at the storage pouch in her hand then looked at Chen Xi's serious expression, and then mist arose in her eyes before numerous crystalline and clear beads of tears trickled down.

She actually started crying!

Chen Xi was stunned and slightly astounded while slightly puzzled. He couldn't help but frown as he said, "What is it now?"

If it wasn't for them being in the Immortal Dimension, and he knew that they were both ascenders from the lower dimensions, he would truly suspect that this young woman was a child that was sentimental and didn't know the ways of the world.

Mu Linglong hastily wiped off her tears and shook her head as she said, "I just feel slight regret. I shouldn't have sneaked out and come to the Immortal Dimension. If it wasn't for you, Young Master Chen Xi, I might not even know how I should continue living on here."

Chen Xi was stunned. Sneaked out and came to the Immortal Dimension? Doesn't she think of the Heavenly Tribulation to ascend as something that's too easy?

When she saw Chen Xi didn't understand, Mu Linglong explained patiently. "I've never left my clan since I was young. It's only this time that I heard my cousin brother say that the Immortal Dimension is extremely miraculous. I was truly unable to restrain my curiosity, so I snuck out from my home and ascended to the Immortal Dimension. Never had I imagined that the Immortal Dimension isn't miraculous at all..."

As she finished speaking, a wisp of dense disappointment couldn't help but suffuse her face.

At this point, Chen Xi finally came to an understanding. He couldn't help but ponder which power in the Skyearth World Mu Linglong was from to actually be able to foster such a young woman that was pure to the point of being slightly ignorant.

It just so happened that this young woman's natural talent and cultivation was so high, otherwise it would be impossible for her to so easily and casually sneak out and ascend into the Immortal Dimension from mere curiosity towards the Immortal Dimension.

If other cultivators were to find out about this, they would surely be infuriated to the point of spitting blood.

"So that's how it is. What you experienced caused me to think of a friend. She was just like you and had snuck out of her clan. But she came to the Mortal Dimension from the Immortal Dimension, whereas you went to the Immortal Dimension from the Mortal Dimension." Chen Xi inadvertently thought about A'xiu, and he couldn't help but smile as he spoke.

"There's someone like me?" Mu Linglong was surprised, and she'd stopped being upset and stopped blaming herself. She was really like a child, and the changes in her emotions couldn't be compared to by an ordinary person.

"Yes, I'll introduce her to you if I have the chance. Now, you should calm your heart and recuperate." Chen Xi instructed before he walked over to Xiao Yan and Xiao Gui's corpses. After he searched them, he didn't notice anything, let alone any Azuresoul Sourcerocks.

This caused Chen Xi to be unable to help but sigh in his heart. He glanced at Mu Linglong who was cultivating at the side before he counted the time, and he roughly determined that he would probably have to wait until after the sun set for Mu Linglong to recover.

In this way, it was impossible for him to gather sufficient Azuresoul Sourcerocks today, let alone return to the surface to hand it in.

But Chen Xi didn't mind. Even though the depths of the mine would surge with Azuresoul Baleful Qi after the sun set, it was unable to do anything to him.

The reason was extremely simple, he possessed a large amount of Immortal Stones and Immortal liquid in his possession. Coupled with the Dark Parasol Sapling within the body of his main body, it was entirely capable of sustaining him for countless days and nights. Moreover, he wouldn't be reduced to being on the verge of death like Nangong Hui from the lack of Immortal Stones and invasion of Azuresoul Baleful Qi.

After a short moment, Chen Xi decided. Nevermind. It's fine like this as well. I'll kill my way out of here once my main body's strength recovers and it condenses the energy of the Laws...

At the same time within the Azuresoul Mine, a hoarse and low voice suddenly sounded out by Wei Zheng's ears. "Wei Zheng, call Lou Feng, Xue Kun, and Huang Xin together, and then come see me."

Lord Xiong Ming!

Wei Zheng's body stiffened, and then he bowed as he said via voice transmission, "Yes, my Lord."

Talisman Emperor

Chapter 1016: The Immortal Monarch's Decree

At the top of a hill in the area of Azuresoul Mine stood a gorgeous and imposing palace.

Swoosh! Swoosh! Swoosh!

Wei Zheng, Lou Feng, Xue Kun, and Huang Xin tore through the sky as they swiftly arrived on the hill, and they tidied up their clothes before stepping foot into the palace.

Amongst these four Heavenly Immortals, Wei Zheng who was thin like a piece of bamboo was in-charge of recruiting slaves, the gloomy Lou Feng was in-charge of arranging the residence and the issuing of tools for slaves, Xue Kun who was fat like a ball was similar to a manager and was in-charge of obtaining Azuresoul Sourcerocks.

As for the reserved Huang Xin who possessed an ordinary appearance, he was in-charge of patrolling the mines and was ferocious in combat.

“All of you have come.” Within the hall, a white haired middle aged man in black clothes sat upright on the throne. His figure was robust, his appearance rugged and dignified, and his entire body was suffused with a bloody aura.

Xiong Ming!

A Mysterious Immortal Realm expert that was the master of this entire mine at the same time.

“Greetings, my Lord.” Wei Zheng and the others bowed.

“Sit.” Xiong Ming waved his hand before he said in a low voice. “Just moments ago, I received an order that came from Immortal Monarch Lin Hao, so I gathered all of you here to discuss it together.”

Immortal Monarch Lin Hao!

The eyes of Wei Zheng and the others focused while they revealed solemn expressions.

An Immortal Monarch was a Monarch amongst Immortals!

In the entire Eastern Peace Continent, Immortal Monarch Lin Hao was like a supreme god that caused the myriad of beings in the continent to only be able to look up at him. There were three Golden Immortals, over a thousand Mysterious Immortals, and countless Heavenly Immortal Realm guards under his command, so his authority could be described as monstrous!

“Everyone, I presume all of you are clearly aware that the guards under Immortal Monarch Lin Hao’s command have been capturing all the ascenders that have ascended to Eastern Peace Continent for almost two months, and these ascenders were sent to the various mines to be confined.” Xiong Ming’s deep voice reverberated within the hall. “Our Azuresoul Mine is merely one such place.”

“My Lord, I’ve been wondering about this as well. Those ascenders are like dragons and fish that are mixed together, and there are many that are related to the various great powers in the Immortal Dimension. Under normal circumstances, no one would be willing to offend them rashly so as to avoid drawing unwanted trouble. So why exactly has the Lord Immortal Monarch acted in this way?” The

nearby Xue Kun couldn't refrain from interrupting. "To tell you the truth, there have been almost ten ascenders that have died at my hand during this period, and if this were to be exposed, then I'm afraid..."

He hadn't finished speaking, yet his meaning was fully displayed.

"There's no need to worry about this because even if the heavens collapse, the Immortal Monarch will be there to carry it on his shoulder." Xiong Ming waved his hand and said, "But from today onwards, there's no need to send ascenders over here any longer because the Immortal Monarch's orders have been issued. He wants us to cooperate with him and apprehend an ascender from the Dark Reverie."

"Such great forces were mobilized merely for the sake of apprehending an ascender?" Wei Zheng was bewildered.

Xiong Ming glanced indifferently at Wei Zheng. "Are the intentions of the Immortal Monarch something that you can judge?"

Wei Zheng was stunned, and then he said hastily, "I dare not."

"My Lord, let's move on to that ascenders name and appearance, so that we'll be able to take specific action." Xue Kun asked from the side.

Xiong Ming nodded and said, "I gathered all of you here this time precisely for this matter. That ascender is called Chen Xi, and he's from the Mortal Dimension's Nine Radiance Sword Sect. As for his appearance, I have no knowledge about it. Gather all the ascenders in the mines later and investigate them one by one."

All of them nodded in unison.

"Go on. If we're able to apprehend this person, then the Immortal Monarch will bestow a Darkspirit Grade Immortal Artifact." Xiong Ming waved his hand.

A Darkspirit Grade Immortal Artifact!

The eyes of everyone lit up. They were only Heavenly Immortals and could perhaps act like overlords within this Azuresoul Mine. But in the outside world, they were far from being able to compare to the disciples of those famous sects and ancient powers.

So, a Darkspirit Grade Immortal Artifact was sufficient to arouse extreme covetous feelings in their hearts.

...

Sunset.

The slaves that were excavating Azuresoul Sourcerocks in the depths of the mines started returning successively.

But unlike the days before, the ascenders were gathered together by the guards.

"What's going on?"

“Could it be that we’re going to be released?”

“Don’t have any wishful thoughts. Just wait and see.”

All the ascenders were surprised and bewildered, and they discussed endlessly in soft voices.

Amongst them was Xiao Yun, but his expression was extraordinarily gloomy and livid. Obviously, he’d gained nothing yet lost two servants during his trip into the mines today, and it caused him to be extremely furious.

“Xue Kun, what’s the total amount of ascenders that were sent over recently? Take a look and see if they’re all here.” Wei Zheng swept the ascenders with his gaze before he asked with a frown on his face.

“Nine deaths while a total of 63 remain. So, we’re lacking four.” Xue Kun frowned and said, “If I’m not wrong, these four people seem to belong to that group of ascenders that just arrived yesterday. Should we wait for a while longer?”

“There’s no need. If they don’t return by sunset, then they’ll only perish within the mines and are worthless.” Wei Zheng spoke casually before his expression turned serious, and his sole eye’s gaze was like an icy cold and sharp blade as it swept the ascenders. He said, “Now, make your names and origins known. So long as we’re able to find the person we’re looking for, then we’ll let all of you leave.”

As soon as these words were spoken, everyone was in an uproar.

“Wen Yi, Thousand Spirit World!” Someone exclaimed with the intention of testing if Wei Zheng’s words were true.

“Next.” Wei Zheng spoke with a frown.

When they saw that there was no danger hidden behind this, everyone spoke successively. But up until the end, there wasn’t anyone from the Dark Reverie, let alone someone named Chen Xi.

This caused Wei Zheng and the other three to glance at each other while feeling rather disappointed.

“If you recorded the origins and names of those ascenders in the beginning, then there wouldn’t be so much trouble.” Xue Kun glanced at Wei Zheng with slight displeasure.

“Who would have expected that all these ascenders were captured merely for the sake of apprehending one of them?” Wei Zheng frowned.

“My Lord, can you let us go now?” An ascender couldn’t refrain from asking carefully.

“Let you go? Hmph! All of you are thinking of leaving when we haven’t found the person we’re looking for? You’re all out of your minds!” Wei Zheng berated coldly.

The expressions of everyone turned bleak when they heard this.

“My Lord, who exactly are you looking for? Perhaps we know that person, or perhaps he’s intentionally concealing his identity and is hiding within our midst.”

Meanwhile, an ascender spoke abruptly.

Wei Zheng was stunned, and then he exchanged glances with the other three before he decided immediately and said, "The person we're looking for is from the Dark Reverie, and he's called Chen Xi. If any of you recognize him and provide information, then not only can you leave safely right now, you'll even be able to obtain a reward of one hundred Immortal Stones!"

As soon as these words were spoken, a wisp of hope burned in their hearts. But when they thought carefully, they were utterly unaware about who came from the Dark Reverie, so their gazes instantly dimmed down.

Only Xiao Yun's eyes lit up as he recalled a person, and he said excitedly, "My Lord, I know him!"

"Oh, tell me about him!" Wei Zheng and the others had never imagined that there would be a turn in the situation, and they saw a sudden glimpse of hope.

Xiao Yun gritted his teeth and said, "To tell you the truth, he killed two of my servants just a few hours ago. Presently, he's still within the depths of the mine."

"You wouldn't be intending to make use of us to take revenge, right?" Wei Zheng glanced coldly at him.

Xiao Yun was anxious and said, "Everything I said is the truth. If you don't believe me, then you can capture that kid and you'll find out right away!"

"I'll go take a look." Huang Xin suddenly flashed out towards the mine Xiao Yun spoke of.

"Hmph! Thinking of taking all the merits?" Wei Zheng grunted coldly and intended to chase up to Huang Xin.

"Brother Wei, please wait. Those deep and quiet mines are filled with Azuresoul Baleful Qi once the sun sets, and it can be said to be extremely dangerous. It's better to wait here calmly for Huang Xin's return." Xue Zhen hurriedly stopped Wei Zheng and said in a low voice, "Not to mention that we haven't confirmed if what that kid said is true. So, heading over rashly might cause you to suffer a mishap."

Wei Zheng smiled spuriously as he glanced at Xue Kun and said, "Fatty Xue, don't think that I don't know what you're thinking! If I'm not wrong, you and Huang Xin are from the same sect, right?"

Xue Kun roared with laughter yet didn't speak any further.

"Hmph! I'll let you and Huang Xin take the advantage this time, but only this time." Wei Zheng grunted coldly.

"We'll speak about it after Huang Xin returns." The nearby Lou Feng laughed gloomy before he turned around to stare at the distant Xiao Yun, and then he said unhurriedly, "Little Fellow, I hope what you said is true. Otherwise..."

Xiao Yun's body trembled as if he was being stared at by a venomous snake, and he said in his heart, "Once I fucking escape this place, I'll surely annihilate all of you bastards!"

...

In the depths of the damp, deep, and quiet passageways within the mine, strands of mist that were suffused with a dark azure sheen suddenly surged through them. The mist was dense like water as they drifted through the surroundings, and they emanated the sound of flowing water.

Chen Xi held his breath in concentration while Immortal Shaman Energy suffused his entire body, and it formed a light barrier that protected himself and Mu Linglong within it.

Hiss! Hiss!

Hissing sounds could be heard from the dark azure mist colliding with the light barrier, and it was actually corroding the light barrier bit by bit.

This is the Azuresoul Baleful Qi? No wonder that Nangong Hui would have suffered such an injury from it. If one didn't possess Immortal Stones to replenish one's energy, then even a Heavenly Immortal would probably be unable to persist for a night... Chen Xi sensed the might of the Azuresoul Baleful Qi and couldn't help but be shocked in his heart.

"Young Master Chen Xi, what should we do?" Mu Linglong had recovered. But when she saw the Azuresoul Baleful Qi that surged over from all directions, she couldn't help but be slightly worried.

"Compared to the surface, this place is still much safer. I'll take you out of this place once my strength recovers. Hmm, it won't be more than seven days," said Chen Xi with a smile.

His main body had always been cultivating within the world of stars, and seven days in the outside world was around a month within it. This amount of time was sufficient for him to condense the energy of the laws.

"Chen Xi!!!"

Right at this moment, a should drifted over from the passageway, and it seemed to have been emitted from extremely far away, causing it to seem slightly indistinct.

"Who is it?" Chen Xi's eyes focused as he spoke with surprise, and he seemed to have never imagined that someone would actually be able to speak his name here.

But his only reply was deathly silence, and that voice didn't resound again.

"Shit! Let's go!" Chen Xi's brows knit together as he suddenly realized that the person who spoke his name might have done that to confirm his location. Now that the person had obtained a reply, the person was probably rushing over here swiftly.

When he thought up to here, he couldn't be bothered about the Azuresoul Baleful Qi, and he immediately grabbed onto Mu Linglong's hand before he charged towards the depths of the mine.

[Talisman Emperor](#)

Chapter 1017: Annihilating A Heavenly Immortal

"Young Master Chen Xi, what's wrong?"

"An expert is approaching!"

"What...what does he intend to do?"

“At any rate, it isn’t something good. If a battle really breaks out later, then just hide at the side and watch. Leave everything else to me.”

Within the deep and quiet passageway, Chen Xi led Mu Linglong as he flashed swiftly towards the depths of the mine.

The deeper they went, the denser the Azuresoul Baleful Qi became, and it filled every single inch of space. Later on, it was like a surging river that forced Chen Xi to have no choice but to circulate his Shaman Energy with all his might in order to resist the terrifying corrosive force of the Azuresoul Baleful Qi.

Who exactly is it? Chen Xi’s figure flashed forward as he pondered, yet he was unable to think of any clues, causing him to be unable to refrain from knitting his brows together tightly.

Stomp! Stomp!

Not long after Chen Xi and Mu Linglong’s figure vanished, a wave of strange footsteps resounded throughout the silent and deep passageway. It sounded like muffled thunder, and it shook the rocks to the point of shaking.

In the blink of an eyes, Huang Xin’s robust figure appeared at the place that Chen Xi and Mu Linglong stood at just moments ago.

“Looks like it’s probably that kid...” Huang Xin raised his eyes that were suffused with a silver vortex that seemed like a lightning storm, and he looked towards the depths of the passageway through the layer upon layer of Azuresoul Baleful Qi.

Strands of the energy of the Laws coiled around his body like tiny silver serpents, and they flowed without end while easily knocking back the surging Azuresoul Baleful Qi.

Swoosh!

In the next instant, he’d vanished on the spot like a strong and fierce tiger on the hunt. Everywhere he passed, the Azuresoul Baleful Qi retreated to the side and didn’t affect his speed in the slightest.

“What swift speed. It’s probably one of the four Heavenly Immortal Realm experts in Azuresoul Mine. I can’t continue fleeing, otherwise I’ll fall into an even more passive state...” As he sensed the strand of strange and heavy footsteps from behind that grew closer and closer, Chen Xi’s tightly knit brows relaxed instead.

He stopped immediately and instructed Mu Linglong to temporarily hide herself 3km away before he turned around, and then he looked towards the distance behind him.

A Heavenly Immortal that had grasped the energy of the Laws was entirely not someone that Xiao Yun and Nangong Hui could compare to. If he considered it carefully, such a Heavenly Immortal was even more formidable than the clone of a Golden Immortal!

Because this was the Immortal Dimension, and a true Heavenly Immortal had condensed the Four Pools of Heavenly Origin in his body. Moreover, the Heavenly Immortal’s strength wouldn’t be restrained by the Laws of the Heaven Dao like it was in the Mortal Dimension.

So while facing the pursuit of such an expert within this immeasurably deep passageway, only taking the initiative was the right choice. Otherwise, he would only fall into a hopeless situation.

Before long, a robust figure flashed over within the Azuresoul Baleful Qi that filled the surroundings. He was like a king that had made his arrival, and everywhere he passed, the Azuresoul Baleful Qi moved to the side.

It's him... Chen Xi's eyes narrowed. Long ago when he'd just entered the mine, he'd sensed that there were four Heavenly Immortals and a Mysterious Immortal within this mine.

Amongst them, he'd met Wei Zheng, Lou Feng, and the fat middle aged man Xue Kun. Only Huang Xin had always been positioned within the passageways of the mine, causing Chen Xi to be only able to sense Huang Xin's aura yet be unable to discover Huang Xin's appearance.

"I'm Huang Xin, a Heavenly Immortal Realm guard under the command of Immortal Monarch Lin Hao. Follow me and you can avoid suffering of the flesh. Otherwise, living will be worse than death for you." Huang Xin only stopped when he was 300m away from Chen Xi, and his gaze was like a bolt of electricity as it fell coldly upon Chen Xi. His tone was flat, yet it revealed absolute control.

He was like a hawk that looked down at an ant while proclaiming his orders, and there was no need for speaking loudly, yet he'd already vividly displayed his arrogance and domineeringness.

"Even if you want to capture me, there should be a reason, right?" Chen Xi's expression remained unchanged as he asked with a calm voice.

"You can ask the Lord Immortal Monarch." Huang Xin seemed to have never imagined that Chen Xi would actually be able to be so calm at this moment, so he couldn't help but be slightly stunned before he recovered his calm, and then his reserved and ordinary face was covered in indifference.

"Immortal Monarch Lin Hao?" Chen Xi frowned while he thought swiftly in his mind. I seem to have not offended such a great figure in the past. Could it be the enemies of the Nine Radiance Sword Sect in the Immortal Dimension? Or perhaps it's the Zuoqiu Clan?

Of course, it could also be Bing Shitian.

But Chen Xi didn't feel that Bing Shitian who only possessed a cultivation at the Golden Immortal Realm was capable of making an Immortal Monarch make great efforts for him. Unless Bing Shitian utilized some sort of connections.

Huang Xin didn't answer him this time, and he just stared indifferently at Chen Xi as if he was staring at a dead body. He was just about to say something when his eyes suddenly narrowed, and then he said with surprise, "The eighth level of the Earthly Immortal Realm in body refinement? How did you ascend...?"

He hadn't finished speaking when Chen Xi who was standing there silently had suddenly made a move. The Shaman Energy in his entire body surged and transformed into countless thunderstorm vortices that poured into his right fist as his fist tore through the sky.

Rumble!

The thunder surged as they condensed into his fist, and they emanated blazing vortexes of lightning that seemed like an eye of a storm that crossed the heavens and the earth as it smashed down from mid-air while carrying the booms of thunder.

This punch was absolutely the best punch belonging to the eighth level of the Earthly Immortal Realm in body refinement that Chen Xi had executed, and if this was the Mortal Dimension, it was sufficient to crush 50,000km of the surroundings.

But when facing this punch that suddenly shot over explosively towards him, Huang Xin wasn't shocked nor afraid, and he lightly spat out four words. "You're overestimating your ability!"

Thump!

Huang Xin's figure shot out like a ghost while his eyes erupted with brilliant violet light, and it was like violet lightning that shook one's heart and soul. Moreover, a wisp of boundless might seemed to surge up onto his dull and ordinary face

He casually pointed out with his figure, causing a strand of violet colored flames to coil around it and suffuse his finger with the energy of the Laws. After that, space started rippling as if an expanse of violet flames were spreading through space and burning it.

Bang!

The fist and finger hadn't collided when an expanse of surging violet flames had surged down, and they were like a wild horse that escaped its restrictions as they enveloped Chen Xi's right fist in an overbearing and domineering manner.

The violet flames rose while weaving together with the Laws, and the terrifying temperature seemed as if it had even lit space ablaze.

"The eighth level of the Earthly Immortal Realm in body refinement. It will only cause you to die even more swiftly..." Huang Xin spoke indifferently. His voice hadn't finished resounding in the air when cracking sounds of shattering resounded as Chen Xi's entire right arm was crushed inch by inch before being transformed into ash by the violet flames.

"AH!!!" In the distance, an exclaim of shock sounded out, and it was Mu Linglong's voice.

"Oh, there's another little girl." Huang Xin's eyes narrowed.

However, even though Chen Xi's right arm had been crippled, he didn't retreat but approached Huang Xin instead. He leaped forward like a cannonball and charged to arrive before Huang Xin, and then his left arm stretched out and grabbed tightly onto Huang Xin's neck.

"Looks like you really don't intend continue living." Huang Xin's figure didn't move while surging Immortal Force that was woven with the energy of the Laws rumbled throughout his body. He seemed to have transformed into a violet sea of flames, and not only had he completely dispersed the might of Chen Xi's attack, it even enveloped Chen Xi's entire body.

Hiss! Hiss!

Chen Xi's entire body was being burnt as the violent energy of the Laws charged through his body, and it seemed as if he would transform into a pile of ash in the next moment.

"The body of a body refiner is formidable indeed, and it's said to be capable of being rebuilt with a single thought. But if I completely refine your body and thoughts, then do you think there's any possibility of you surviving?" Huang Xin's eyes seemed to burn like violet flames as he looked at Chen Xi who was close at hand and spoke indifferently.

"Young Master Chen Xi, I'll save you!" Mu Linglong couldn't restrain herself from charging over any longer. Her white hands slapped down as a blade that was snow white like ice condensed in her palm, and it was sharp like a sword while it actually emanated a dignified and divine dragon roar.

"Are you courting death?" Huang Xin's dense brows that were like strands of steel knit together as he flicked his sleeve, causing it to sweep out like a iron whip of violet flames.

This strike contained a terrifying force of the Laws, and it hadn't even approached her when it caused Mu Linglong's face to turn pale while her figure became unsteady like duckweed that floated on the sea.

She was in imminent danger!

However, right at this moment, Chen Xi's main body suddenly appeared out of thin air behind Huang Xin with a pitch black and lusterless sword in hand, and it directly penetrated the back of Huang Xin's head.

Pu!

Blood sprayed into the air.

Huang Xin let out a shocking roar of fury that sounded like a beast on the verge of death. "Bastard! Even if I die, both of you'll be buried along with me!"

Amidst his roar of fury, his aura erupted like a violent scorching sun, and then his arms shook as each of his arms slapped down towards Chen Xi and Mu Linglong. He actually intended to kill them before he died.

"Die!" Unfortunately, he was still a step too late. The sword that pierced the back of his head suddenly spun before slashing down forcefully, and it chopped Huang Xin into two!

The strike he intended to execute before he perished was affected by this as well, and it became slightly off-target and smashed onto the rock wall at the side, causing rumbling that was like a thunderclap to echo out while rocks shot into the surroundings and the earth quaked.

Pu!

Mu Linglong suddenly spat out a mouthful of blood while her figure was blasted 300m away. Her small face was extremely pale and translucent because even though Huang Xin's strike had gone off-target, it was the dying strike of a Heavenly Immortal in the end. The force emanated from the palm strike was so overbearing that she was lucky to have survived.

On the other side, Chen Xi smashed fiercely onto the rock wall like a bashed up sandbag as well, and his entire body emanated the sound of bones breaking while he bled from all seven apertures.

“Luckily, my clone survived...” Chen Xi’s main body put the Talisman Armament away and thought for a moment before swiftly returning to the world of stars.

Huff! Huff!

Chen Xi’s clone forcefully endured the violent pain as he sat down cross-legged and gasped for breath. The injuries in his entire body were quickly recovering instead, and in practically the time for a few breaths, the numerous terrifying injuries and broken bones had been completely healed.

This was one of the reasons the Earthly Immortal Realm in body refinement was so formidable. So long as the Soul Core remained, then one could rebuild the body with a single thought and recover completely. It was even greater than rebuilding the body from a drop of blood.

But every time a body refiner suffered a heavy injury, the Blood Essence within the body would suffer an enormous consumption, and it was absolutely not something that could be completely recovered overnight.

“Are you alright?” After a short moment, Chen Xi stood up and arrived by Mu Linglong’s side, and he helped her check her injuries. He heaved a long sigh of relief when he saw her vital energy was slightly weak, yet her life wasn’t in danger. “Didn’t I ask you to stay at the side earlier?”

Mu Linglong’s jet black hair was disheveled while her beautiful and delicate face was pale and translucent. She lowered her head like a child that had done something wrong before she muttered. “I...thought you were about to die, so how could I do nothing to save you?”

Chen Xi was stunned, and he couldn’t bear to continue being hard on her.

“Be at ease and recuperate. I’ll stand on guard for you.” Chen Xi instructed before he stood up and walked towards Huang Xin’s corpse because he intended to clean up the spoils of the battle.

“Hmm?” But, right at this moment, his gaze inadvertently noticed that a rift had broken open at the bottom of a nearby rock wall, and it was suffused with a strand of a lustrous sheen that seemed like clear lake water...

[Talisman Emperor](#)

Chapter 1018: Azuresoul Divinejade

That area of the rock wall had suffered the force of the battle from before, and it was covered in cracks that had collapsed and shattered open, causing the area around it to be in a mess.

If this was the Mortal Dimension, then not to mention a rock wall, even the entire mine would have been completely shattered and obliterated into nothingness.

After all, it was a battle between Heavenly Immortals!

This obviously displayed how solid the energy of the Laws in the heavens and the earth of the Immortal Dimension were, and it was impossible to be capable of plucking the stars from the skies and incinerating seas like in the Mortal Dimension without attaining the Golden Immortal Realm.

All beings beneath the Golden Immortal Realm were restrained by the Laws!

For example, the Spatial Laws that filled the Immortal Dimension caused Heavenly Immortals to be utterly incapable of teleporting within it, whereas Mysterious Immortals were merely capable of teleporting 500km away, and it would cause an enormous consumption to their strength.

Only existences at the Golden Immortal Realm and above were capable of moving freely through the Immortal Dimension at their will.

It was a rift at the bottom of the rock wall that drew Chen Xi's attention, and the rift was suffused with a faint and lustrous sheen that was clear like a lake. However, it wasn't really striking within this gloomy and damp passageway.

Swish!

Chen Xi moved forward and sized it up briefly before he stretched out his right hand, and his fingers were like iron thongs that crushed inch after inch of the rocks around the rift.

In next to no time, a hole that was half the height of an average man was opened up on the rock wall, and there was actually a completely sealed off and narrow space within it. The strands of clear and lustrous glow were coming from the rocks that lay on the ground of the space.

This seems to be... Chen Xi was surprised while the name of an object couldn't help but float up into his mind. But he didn't dare confirm it because that thing was truly too rare.

After he scanned the surroundings and found no danger, Chen Xi bent down and entered the space.

He squatted carefully on the ground and felt the ground carefully for a short moment. He was able to clearly sense a strand of strange feeling that was warm and cool suffuse his entire body, causing his soul to feel refreshed as if his entire body was bathed in snow, and he felt completely cleansed.

This sort of feeling further confirmed Chen Xi's guess, and he couldn't help but be slightly excited. He immediately took a deep breath before he formed a sword with his right hand, and it emanated a strand of extremely verdant Azurewood Immortal Shaman Energy.

Hiss!

His index finger was sharp like a blade, and he carefully and gently cut open the rocks on the ground as if he was deeply afraid of damaging the treasure beneath the rocks.

After a short moment, Chen Xi flicked away the bits of rocks that had been cut off, and then an 1.3m by 1.3m large azure colored jadestone that was smooth like a mirror and covered with mysterious striations was reflected in his field of vision.

At that instant, a wisp of clear air rose up in a cloud, and the jadestone was like an azure ray of light that floated atop the clear blue sea as it emanated a gentle aura that refreshed the heart and mind.

Its aura was so pure, warm, dense, and ethereal, and it actually caused Chen Xi's mind and body to feel tranquil as if it had returned to the embrace of its maker.

Chen Xi's eyes erupted with divine light as he recognized this piece of jade.

According to rumor, the Azuresoul Divinejade was a type of Divinejade that was born from the spirit of Azurewood, and it was said that a great expert of the Immortal Dimension during the primeval times, Immortal Monarch Qing Hu, was born from Azuresoul Divinejade.

This jadestone could be considered to be a priceless treasure, and the jadestone itself was one of the best materials to refine a Valiant Grade Immortal Artifact. Besides that, its core was capable of condensing the soul, and only a single drop of it could completely cure a heavily injured soul!

In the Immortal Dimension, Azuresoul Divinejade, Dragonbeard Immortal Spring, Auspicious Spirit Silver, Moonlight Dew, and Truesoul Brilliantwood were called the five precious immortal treasures.

Every single one of them were priceless, and it was said that various treasures were easy to obtain, yet the five precious treasures were impossible to find.

Chen Xi could be said to be very familiar with this, yet he never imagined that there would be a day where he would encounter such a precious treasure. Moreover, it was such a large piece, so he couldn't help but be slightly stunned.

I wonder what sort of Immortal Artifact could be obtained in exchange for such a piece of Azuresoul Divinejade. The Darkspirit Grade? Cosmic Grade? Or Valiant Grade? Chen Xi was slightly unable to confirm it. After all, he'd just arrived in the Immortal Dimension and wasn't aware of the prices of treasures in the Immortal Dimension, so he didn't dare rashly pass judgment. But without any doubt, this Azuresoul Divinejade's value was absolutely out of his imagination.

Most importantly, according to Chen Xi's knowledge, he would be able to craft a true 'Divine Talisman' with the Azuresoul Divinejade as the material!

For example, when the Azurewood Divine Talisman was crafted successfully, it would contain the image of the ancient Azure Emperor and Wood Empress. Similarly, the Whitegold Divine Talisman contained the ancient White Emperor and Gold Empress's images.

The word 'divine' in Divine Talismans represented the might of the gods.

The requirements of materials to create a Divine Talisman were extremely harsh. At least according to Chen Xi's knowledge, besides the Azuresoul Divinejade, there were another few tens of types of treasures that could also be utilized as materials to craft a Divine Talisman. But even if the value of every single one of these treasures might not be on par with the Azuresoul Divinejade, it wasn't much different.

This was merely the material needed to craft a Divine Talisman. There was also the need of the combination of Talisman Brush and Ink, and the utilization of technique in crafting it, so it could be considered to be extremely complicated.

This obviously displayed how difficult it was to complete a Divine Talisman.

I never imagined that I would be blessed from misfortune and encounter such great fortune. Chen Xi took a deep breath after a long time, and he stopped hesitating and carefully unearthed the Azuresoul Divinejade before storing it away.

However, after Chen Xi turned around to leave this sealed off space and entered the passageway once more, he saw Mu Linglong was still cultivating in meditation. He immediately sat cross-legged at the side and carefully pondered about the incident from before.

The sudden arrival of the Heavenly Immortal, Huang Xin, could be said to have taken Chen Xi by surprise, and it caused him to be unable to locate any leads. The only lead he had was the Immortal Monarch, Lin Hao.

Unfortunately, existences capable of becoming Immortal Monarchs were experts at the Saint Immortal Realm, so even if he was clearly aware that he would be able to obtain an answer from the Immortal Monarch, Lin Hao, he didn't dare take the risk for now.

After all, the gap between their cultivations was too great.

No matter what, Huang Xin has perished at my hand, so if I return to the surface at this moment, I'll absolutely be walking into a trap. Looks like I can only calm myself and stay here. I'll kill my way out once my main body condenses the energy of the Laws. After he pondered deeply for a long time, Chen Xi couldn't help but shake his head. He noticed that this situation actually hadn't changed regardless of whether he killed Huang Xin, and only by grasping strength sufficient to annihilate all his enemies would he be able to escape this place. The Laws, everything falls on the laws. Without condensing the energy of the Laws, then I would only be a paper tiger even if I've attained the Heavenly Immortal Realm, and I would only be a Heavenly Immortal in name yet be unable to change my current situation...

...

Outside the mine.

At the instant Huang Xin was killed, one of the mountains there suddenly started shaking violently, and the earth quaked for a short while before it returned to calm.

This commotion was naturally unable to escape the notice of Wei Zheng, Lou Feng, Xiong Ming, and the others, and it was even to the extent that the ascenders who'd been reduced to slaves had clearly noticed it as well.

Instantly, the expressions of everyone revealed slight shock.

"Junior Brother Huang Xin is dead!" Xue Kun's face was gloomy while he withdrew a shattered Soulfate Tablet from his possession. "This is something he and I secretly brought out from the sect when we left."

His voice was hoarse and revealed rage and hatred that was impossible to conceal.

Dead?

The hearts of everyone jerked when they heard this, and they were surprised and bewildered.

"Are you sure you aren't mistaken? That ascender has just arrived at the Immortal Dimension for less than two days. At this moment, he probably hasn't even condensed the Laws, so how could he possibly be a match for Huang Xin?" The nearby Lou Feng frowned as he spoke, and he was slightly puzzled.

Xue Kun's eyes turned red when he heard Lou Feng actually daring to question the death of his junior brother at this moment, and he glared fiercely at Lou Feng before he gritted his teeth and roared. "I might fucking lie, but would a Soulfate Tablet?"

"Alright, everyone calm down!" Wei Zheng's brows knit together tightly while his sole eye glanced coldly at the two of them, and then he said, "It has already happened, so we should think about how to deal with it. According to my evaluation, that kid is probably that Chen Xi from the Dark Reverie. But he was able to kill Huang Xin, and this is slightly surprising."

"Could it be that this kid is carrying a rare treasure?" asked Lou Feng.

"It might be possible." Wei Zheng pondered deeply for a short moment before his gaze inadvertently noticed Xiao Yun who was within the crowd, and he immediately grabbed and dragged Xiao Yun over like a dead dog before stepping on Xiao Yun's body as he said, "Weren't your servants killed by Chen Xi? Tell me exactly what sort of person he is."

Xiao Yun was caught off guard and dragged over before being bluntly trampled on by Wei Zheng, and this humiliation that arrived abruptly infuriated him to the point even his face warped while his eyes were filled with resentment and rage.

Bastard!

Only nine days remain! Once this Young Master's backup arrives, I'll dismember all of you alive and feed you to dogs!

Xiao Yun roared endlessly in his heart.

"I'll torture and kill you right now if you still don't speak!" The nearby Xue Kun's eyes were filled with blood while he panted heavily like a wild beast that was on the verge of erupting, and his chubby face was covered in a vicious, sorrowful, and indignant expression.

Xiao Yun shuddered, and he knew that he had to forcefully endure this extraordinary humiliation if he wanted to survive.

"I don't know that kid's exact strength. But I'm sure that he's of the School of Fiendgod Body Refinement, and he possesses an extremely terrifying Divine Ability..." In next to no time, Xiao Yun had spoken about everything he'd seen without holding back in the slightest because he didn't just want Wei Zheng and the others to die, he wouldn't allow Chen Xi who'd killed his servants.

If he was able to utilize Wei Zheng and the others to eliminate Chen Xi, it conformed fully to his intentions.

The School of Fiendgod Body Refinement!

Wei Zheng and Lou Feng exchanged a glance while both of them came to a slight understanding. Body refiners innately suppressed qi refiners, and it was the same even after one became a Heavenly Immortal.

Even though he hasn't condensed the energy of the Laws, if that kid possesses an extremely formidable Divine Ability, then it's possible for him to kill Huang Xin.

Of course, it was only a very tiny possibility.

If they knew that Chen Xi's clone was only at the eighth level of the Earthly Immortal Realm and not the Heavenly Immortal Realm, they would absolutely not think in this way.

Swoosh!

Right at this moment, Xue Kun suddenly turned around and flashed towards the distance.

"Fatty Xue! Where are you going!?" Wei Zheng shouted with a grim voice.

"I'm going to kill of course! Isn't that kid a body refiner? I exhausted painstaking effort in the Poison Calamity Bloodcave a few years ago to refine the Five Poison Calamity Mist, yet I've always been unwilling to utilize it. But this time... I'll start with this kid!" Xue Kun's resentful voice drifted through the heavens and the earth, causing the hearts of everyone to go cold. The Five Poison Calamity Mist! That's forbidden!!

Talisman Emperor

Chapter 1019: Calamity Ward Radiance

Five Poison Calamity Mist!

When they heard this name, even Wei Zheng and Lou Feng's expressions turned slightly grim.

This was a forbidden and malicious treasure that was refined from the calamity aura of war combined with the Blood Essence of the Jadescale Bloodeye Snake, the Brilliant Silver Crimson-tailed Scorpion, the Whitebone Manface Spider, the Thousand-leg Blossom Centipede, and the Onyx Toad that were all extremely toxic beasts.

It was amber, beautiful, and dreamlike, but just a single strand was sufficient to transform an area of 5,000km into a place of absolute death that was completely barren and without any signs of life!

So long as any living being was tainted by a single shred of it, the poison would surely invade the soul and transform the being into a bloody corpse. Even a Mysterious Immortal would perish within the time for an incense stick to burn if the expert wasn't treated in time.

"Could it be that this bastard has gone mad!?" Wei Zheng couldn't refrain himself from cursing because it was something forbidden, and once news of this were to be exposed, Xue Kun would absolutely be like a rat that ran across a street and everyone had the right to kill him.

"Let's go with him. We absolutely must not allow the poison to affect other parts of the mine." Lou Feng's expression was extremely gloomy as well. Never had he imagined that Xue Kun would actually refine such a malicious treasure that aroused the indignation of all.

"Let's go!" The two of them flashed and tore through the sky as they pursued Xue Kun.

Xue Kun revealed a savage and warped smile as he stood before the passageway, and he held a black bottle in his hand while strands of amber and dreamlike mist poured out from the mouth of the bottle and surged towards the depths of the passageway.

“Junior Brother Huang Xin, you saved my life all those years ago. This time, even if Senior Brother has to put his life on the line, I’ll surely take revenge for you. Just wait, that kid will transform into a bloody corpse very soon... HAHHAH!!” Amidst his muttering, Xue Kun’s expression revealed insanity and viciousness.

“Dammit! It really is the Five Poison Calamity Mist!”

“Fatty Xue! Do you fucking intend to die!? Quickly put away that thing!” Wei Zheng and Lou Feng’s faces sank when they saw this scene from afar, yet they didn’t dare move forward and stood 3km in the distance as they shouted endlessly with grim and explosive voices.

As they spoke, the Laws rumbled around their bodies before transforming into a light barrier that enveloped their bodies. The Five Poison Calamity Mist was too overbearing, and even they would perish without a doubt if they were tainted by a single shred of it.

“Stop making a fuss! So what if everyone dies? So long as I’m able to take revenge for my junior brother, why would I care about anything else?” Xue Kun glanced at the two of them before roaring with mad laughter.

Wei Zheng and Lou Feng’s expression became even more unsightly when they heard this, and they exchanged glances and knew that they couldn’t hesitate any longer.

Swish! Swish! Swish!

Numerous apricot yellow formation flags flew out from Wei Zheng’s grasp, and they were embedded into the ground in an area of 3km before they formed a grand formation that completely sealed off this area of 3km.

At the same time, Lou Feng sent a voice transmission to report everything that occurred here to the Mysterious Immortal, Xiong Ming.

“Kill everyone that’s aware of this after the matter is done. We absolutely can’t allow a shred of information to be leaked, otherwise, we’ll all die when Immortal Monarch Lin Hao delivers his punishment!”

Before long, Lou Feng received Xiong Ming’s reply, and he couldn’t help but be stunned. Kill them all? There are many ascenders amongst those people.

After he told Wei Zheng about this matter, Wei Zheng’s sole eye revealed a wisp of icy cold killing intent as he said coldly, “Then we’ll kill all of them. What’s there to hesitate about?”

Lou Feng was stunned, and then he sighed. “Alas, we can only do that.”

...

In the depths of the passageway within the mine, Mu Linglong slowly woke up from her meditation, and she couldn’t help but lower her head in embarrassment when she saw Chen Xi was standing on guard for her. “I troubled Young Master Chen Xi again this time.”

Chen Xi shook his head. “It was nothing.”

Mu Linglong seemed to have thought of something and asked. "Right, someone seemed to have helped us earlier. Why...did he vanish in the blink of an eye?"

Chen Xi was stunned, and then he understood that she was speaking about his main body, so he said with a smile, "That's only a technique of mine."

Mu Linglong was suddenly enlightened, and her clear eyes glowed brilliantly.

Hiss~! Hiss~!

Right at this moment, the Azuresoul Baleful Qi that enveloped the distance emitted a wave of violent noise while it roiled without end, and Chen Xi was faintly able to see that strands of mist were penetrating through the Azuresoul Baleful Qi and were surging towards him.

The strands of mist seemed dreamlike and illusory, and they were extraordinarily beautiful. Within this dark passageway, they emanated a glow that enchanted the heart.

But when Chen Xi's gaze swept over, his expression turned grim instead, and he said with shock, "Five Poison Calamity Mist?"

Mu Linglong's small face turned pale when she heard this, and she said, "How could it be this malicious treasure! I heard that it's forbidden to refine it!"

Obviously, she'd heard about the Five Poison Calamity Mist as well.

"Hmph! There are too many people in this world that aren't afraid of death, and so long as it's done in a secretive manner, then who would be able to discover it? Let's go hide within the space in the wall. Even though this thing is malicious, I naturally have a way to deal with it." Chen Xi laughed coldly. As he spoke, he stretched out his hand to grab Mu Linglong's hand before he entered into the narrow space where he found the Azuresoul Divinejade.

Om!

As soon as he entered, Chen Xi didn't hesitate in the slightest to withdraw the Calamity Ward Green Lantern. As it floated before him, the flame within it flickered while it emanated a jade white and solemn glow, and it enveloped their figures beneath its radiance.

The Calamity Ward Green Lantern was an ancient treasure of the Buddha Dimension, and Chen Xi had obtained it from the Sea of Misery. There were three thousand layers of Buddhist Sect restrictions inscribed on it, and every single layer contained dense and powerful Buddha Energy. However, it was mostly damaged, so only a mere hundred plus layers of restrictions were still undamaged.

But even then, the might of the lantern was extraordinarily great, and it completely exceeded the scope of an ordinary Immortal Artifact and was capable of being compared to a Darkspirit Grade Immortal Artifact!

Strands of Buddhist radiance flowed in the surroundings of the lantern, and it illuminated the surrounding space and dyed it in scenes of paradise. There were heavenly dragons coiling through the sky, phoenixes soaring, golden lotuses descending, chanting echoing...

Mu Linglong couldn't help but be stunned when she saw this scene, and she muttered. "This is the supreme Calamity Ward Radiance of the Buddhist Sect? How beautiful! This sort of treasure is extremely rare, and very few people in the Buddha Dimension are capable of possessing one."

Chen Xi glanced at her with surprise as he never imagined that this inexperienced young woman didn't just know about the Five Poison Calamity Mist, but she even possessed some knowledge of the Calamity Ward Green Lantern.

Hiss! Hiss!

Meanwhile, those strands of dreamlike and illusory mist drifted in through the crack on the wall. But it hadn't even approached Chen Xi and Mu Linglong when it was lightly swept away by the Calamity Ward Radiance, causing the radiance emitted by the lantern to seem extraordinarily miraculous.

The Calamity Ward Radiance was a divine radiance that eliminated calamity and innately countered various poisonous and evil things in the world. It could be said that so long as the Calamity Ward Green Lantern stayed lit, then the Five Poison Calamity Mist was utterly incapable of injuring Chen Xi and Mu Linglong in the slightest.

Conversely, along with the passage of time, the Five Poison Calamity Mist would be completely eliminated by the Calamity Ward Radiance instead.

"Great! The Calamity Ward Radiance really is formidable." The nearby Mu Linglong said with excitement while her face was brimming with smiles and her clear eyes revealed a gentle gaze, and she seemed extremely overjoyed like a child.

Chen Xi's brows knit together gradually because the enemy had actually utilized the Five Poison Calamity Mist. Obviously, the enemy didn't intend to leave anyone alive, and it wouldn't be long before those fellows will probably enter the passageway to clean up his corpse.

Of course, they would have never guessed that he would possess a treasure like the Calamity Ward Green Lantern.

But what should I do when that Mysterious Immortal is deployed?

Looks like I must make the best use of my time...

After a short moment, Chen Xi's expression recovered its calm. His only hope was placed on his main body being able to condense the energy of the Laws before his enemies arrived. In that way, he would be confident in his ability to overcome the approaching predicament.

...

Within the world of stars.

Chen Xi's main body had a tranquil expression as he sat cross-legged on the ground with a ramrod straight figure. Immortal Force flowed around his body while emanating blazing and brilliant radiance that wove together with the starlight from the universe, causing him to seem like an extraordinarily divine statue.

Within his body, dense and powerful Immortal Force whistled and roiled without end like an ocean, and it emitted the profound tune of the Grand Dao that sounded like the roar of a dragon.

On the other hand, four oceans of Immortal Force had actually been opened up in the surroundings of his Dantian! They respectively resided on the four directions and just happened to be like the four-symbols that guarded the borders!

These were the Four Pools of Heavenly Origin.

After one attained the Heavenly Immortal Realm, the body would conform to the heavens and the earth, causing Heavenly Origin to reside at the location of the four-symbols surrounding the Dantian. The Black Tortoise was the foundation, the Azure Dragon took the auxiliary position, the Vermillion Bird represented vitality, and the White Tiger represented the destruction of all disease!

The Four Pools of Heavenly Origin also represented the initial-stage, intermediate-stage, advanced-stage, and perfection-stage of the Heavenly Immortal Realm.

When the four oceans of Immortal Force that represented the Four Pools of Heavenly Origin had been cultivated to perfection, then one had to see through the mysteries and charge through the profundities to enter into the Mysterious Immortal Realm.

For example, an ocean of Immortal Force that was heavy like the earth had been condensed within Chen Xi's Dantian, and an enormous Black Tortoise image was floating within the ocean while breathing Immortal Force and emanating hazy divine light.

The appearance of the Black Tortoise meant the Immortal Foundation had been established, and it represented a cultivation at the initial-stage of the Heavenly Immortal Realm.

However, unlike other Heavenly Immortals, the foundation Chen Xi established when he advanced into the Heavenly Immortal Realm was too enormous and dense that the scale of his Immortal Force ocean was extraordinarily vast, and it was an entire hundred plus times larger than an ordinary Heavenly Immortal!

The Black Tortoise image that floated within the ocean of Immortal Force seemed material. Its limbs were like pillars that held up the heavens as they held down the four corners of the ocean.

If this scene were to be seen by other Heavenly Immortals, it would surely shock their jaws off.

Rumble!

The Black Tortoise ocean was linked up to Chen Xi's Blackhole World and circulated like the circulation of Yin and Yang as they exchanged Immortal Force with each other. The marvelous scene was like that of a whale swallowing water or heavenly dragons covering the sky like raindrops.

It was even to the extent that it revealed an aura of perfection.

But he was still a little bit away from the intermediate-stage of the Heavenly Immortal Realm. It couldn't be helped, his foundation was too enormous, and it was much more difficult for him to charge into the intermediate-stage of the Heavenly Immortal Realm than it was for an ordinary Heavenly Immortal.

But even then, with Chen Xi's current cultivation, his combat strength would be sufficient to sweep through all his peers once he condensed the energy of the Laws, and even surmounting a realm to do battle with a Mysterious Immortal wasn't a problem.

The key was the energy of the Laws because the effect of the Laws in battle was too important.

Ordinary Heavenly Immortals could be said to possess extraordinary attainments if they were able to condense the energy of three complete Laws, and over five Laws was considered astonishing.

Of course, most Heavenly Immortals remained at a state of possessing less than three complete Laws.

The reason was the difference in their comprehension of the Dao.

It was common knowledge that the Laws came from Dao Insights and were superior to Dao Insights. If one intended to condense the energy of the Laws, then one had to attain perfection in a Grand Dao profundity.

Most Heavenly Immortals hadn't even attained perfection in the Grand Dao profundities they possessed, so how could they condense the energy of the Laws?

But all of this wasn't a barrier to Chen Xi because he'd attained perfection in almost all the Grand Dao profundities he'd grasped while he was still in the Mortal Dimension!

[Talisman Emperor](#)

Chapter 1020: The Moment Of Retaliation

The five elements are the foundation, and I've grasped the Five Element Divine Talismans. So if I'm condensing the energy of the Laws, I should start with the five elements... With a command in his heart, boundless profundities of the Grand Dao of the five elements suddenly erupted around his body, and they circulated around his body while flickering between an extremely verdant form, a form that was completely yellow and surged like a dragon, a form that fluttered about like liquid metal, a form that seemed to be blazing like flames...

They wove together and gradually contracted and condensed bit by bit!

Om!

A wave of strange fluctuation of the Dao resounded as if the tune of the heavens and the earth flowed within it, and it emanated a myriad of rays of divine radiance.

The strands of Grand Dao profundities seemed to be in a furnace of the heavens and the earth, and they were tempered over and over again like fine jade that were being carefully polished by the hands of the heavens.

This was an evolution of Dao Insight, and it was a process that carried the profundities of the world.

The Laws were being born within it.

Similarly, this was a force that could only be possessed by a Heavenly Immortal. It was the Laws of a Heavenly Immortal, and it was the advancement of a Heavenly Immortal's understanding of the universe.

The world is unable to stand in order without laws.

Everything in the world was actually suffused with the traces of the laws.

After all is said and done, the Laws were a higher level Dao Insight, and one was a true Immortal that was completely differentiated from all the living beings in the world when one grasped the Laws.

However, no one had imagined that as soon as Chen Xi started condensing the Laws, he'd instantly started condensing five types of Grand Dao profundities...

Of course, Chen Xi didn't know how much of a shock his actions would cause if others were to find out about it.

Time slowly flowed by, bit by bit.

Chen Xi was immersed in the process of the condensing of the Laws. His mind was clear and flawless like a clear ocean that reflected the image of a full moon while his heart was completely without ripples like an ancient well that reflected the heavens. He'd completely forgotten his own existence and was unaware of the passage of time.

...

Outside the mine, the veil of night had descended, and the array of stars were flickering in the sky.

"Just a little bit longer, a little bit longer. Half a day has passed, and even a Mysterious Immortal Realm expert would be at death's door by now..." Along with the passage of time, the resentment and ruthlessness in Xue Kun's heart hadn't decreased but increased instead, and his fat and white face had even become completely warped, causing his appearance to be extremely hideous.

Wei Zheng and Lou Feng were silent. Both of them had accepted reality. Now, they could only wait for the outcome before ruthlessly eliminating all the people that found out about the Five Poison Calamity Mist.

"That kid has just ascended, so how can he compare to a Mysterious Immortal? He's probably dead by now, right?" Lou Feng couldn't refrain from asking.

Xue Kun frowned and seemed to be slightly displeased from being disturbed, and he was just intending to lecture Lou Feng when his face suddenly turned grim before he cried out involuntarily. "Wait, my treasure is weakening! Dammit! What exactly has happened?"

Instantly, his expression became gloomy and livid.

"What?" Wei Zheng and Lou Feng were stunned.

"What else? The might of the Five Poison Calamity Mist is weakening!" Xue Kun shouted explosively with rage. It turned out the even he was intending to draw in the net, yet how could he have imagined that such an unexpected event would occur? If it wasn't for him having sensed it momentarily earlier, he would have almost been unable to notice this unexpected change.

"It can't be! That's the Five Poison Calamity Mist!" said Lou Feng with shock.

“Would I joke with the treasure that I refined painstakingly?” Xue Kun became restless as he strode up and down on the spot, and his voice was like the howl of a wild beast. “This won’t do. I’m going to go down and have a look myself!”

“Wait!” Wei Zheng and Lou Feng spoke in unison, and they’d obstructed Xue Kun as they spoke.

“Since something unexpected has occurred, it’s better to send those ascenders to investigate. They’re going to die anyway.” Wei Zheng spoke indifferently, and he seemed extremely cold.

“Even Huang Xin has died, so what’s the fucking point of them going?” asked Xue Kun with a grim voice.

Wei Zheng patted Xue Kun on the shoulder and said, “At least we can determine if that kid is actually dead or not, right?”

Xue Kun’s expression was indeterminate, and he gritted his teeth and agreed after a short while.

He withdrew a black colored bottle and formed seals that caused the mouth of the bottle to emanate wailing sounds. In next to no time, strands of Five Poison Calamity Mist surged out from within the passageway.

But when he finished gathering all the poison mist, Xue Kun’s expression was unsightly to the extreme because the Five Poison Calamity Mist had reduced by too much, and he’d lost at least around 70% of it.

Dammit!

If I fucking find out who did it, I’ll burn his bones and scatter his ashes!

At this moment, even Xue Kun’s heart was bleeding because it was a treasure that he’d exhausted countless years and painstaking effort to refine. Yet now, the fate of his enemy was unknown while his own treasure had been damaged by around 70%. How could he not feel pained?

“What? You want us to head into the passageway?”

“Could it be that all of you intend to annihilate us? There’s Five Poison Calamity Mist within that passageway, so is asking us to enter it any different than asking us to give away our lives?”

“No! I’ll absolutely not agree to this!”

Meanwhile, Lou Feng and Wei Zheng had brought all the ascenders over, and when they found out that they were actually required to risk their lives and head into the passageway to capture Chen Xi, all of their expressions turned pale while they shouted in succession.

Pu!

A snow white blade light appeared abruptly before a head flew up into the sky, and then an expanse of a scarlet red rain of blood that was tragic yet gorgeous filled everyone’s fields of vision.

All the clamorous noise stopped abruptly while the pupils of all dilated.

“The Five Poison Calamity Mist within the passageway has already been retracted. Perhaps you’ll be able to survive if you go in, but you’ll die right now if you don’t!” Wei Zheng spoke indifferently. As he spoke, he stretched out the tip of his tongue to lightly lick the snow white blade in his hand. A strand of

scarlet red blood flowed on the blade and entered into his mouth before spreading into numerous threads of blood, and it was an extremely icy cold and terrifying scene.

The bodies of everyone went cold as if they'd fallen into an icy pit.

"You, head down first." Wei Zheng raised his eyes and looked at Xiao Yun.

Xiao Yun's figure shook, and he couldn't help but cry out. "Why do I have to go first?"

"You refuse to go?" Wei Zheng's brows raised while his sole eye flowed with a wisp of a piercingly cold and sharp light.

Xiao Yun's expression was a mix of a livid and ashen expression, and he compromised in the end. He glanced resentfully at Wei Zheng and the others before he gritted his teeth and entered the deep, quiet, and dark passageway.

"Do all of you need a reminder?" Wei Zheng's gaze turned to descend on the other ascenders.

Instantly, all of them could only forcefully endure the terror and rage in their hearts as they turned around and followed behind Xiao Yun to enter the passageway, and they quickly vanished from Wei Zheng's field of vision.

"They probably won't go in deep because so long as they hide themselves, we'll be helpless against them as well," said Lou Feng with a frown on his face.

"So we have to send some forces to order them about." Wei Zheng seemed to have thought of this a long time ago, and he smiled as he clapped lightly.

In next to no time, row after row of guards had dashed over. There were around a hundred of them, and all of them were guards that guarded the mines, but their cultivations were merely around the Earthly Immortal Realm.

However, it was more than enough to deal with those ascenders.

After all, those ascenders had just finished mining for an entire day, and they hadn't condensed the energy of the Laws. Moreover, the ascenders didn't possess sufficient Immortal Stones to maintain their strengths, causing their auras to be weak and feel extremely exhausted as if they were sick. So once they entered into a battle, the ascenders wouldn't be a match for these capable guards at all.

"All of you follow behind them and kill anyone that dares to try avoiding entering deep into the passageway." Wei Zheng instructed.

"Yes!" All the guards received their orders and surged into the passageway like a black torrent.

Wei Zheng stared fixedly at the dark entrance to the passageway before he said, "I suddenly feel slight understanding towards why Immortal Monarch Lin Hao would mobilize such great forces to apprehend this kid all over the Eastern Peace Continent."

"What do you mean?" Lou Feng frowned.

“Huang Xin died, and the Five Poison Calamity Mist seems to have lost its might. This isn’t like something an ordinary figure can achieve, and I’m even slightly worried that more unexpected events will occur.” Wei Zheng sighed.

Xue Kun’s expression instantly became savage when Huang Xin was mentioned, and he said coldly, “I don’t fucking care who he is! He must die!”

“Of course. Otherwise, we’ll all be in danger.” Wei Zheng nodded as he said, “So we have to seize the time where he has just ascended into the Immortal Dimension and hasn’t condensed the energy of the Laws to kill him no matter what.”

“Is there any need to be worried about an ascender with the three of us present here?” Lou Feng said indifferently, “Not to mention we have Lord Xiong Ming holding down the fort. That kid can’t escape even if he grows wings!”

...

“Young Master Chen Xi, look! Quickly! The Five Poison Calamity Mist has vanished.” In the depths of the passageway and within the narrow space in the wall, Mu Linglong spoke with pleasant surprise.

Chen Xi had noticed this a long time ago, and he wasn’t pleasantly surprised at all while he instructed with a calm voice. “Prepare for battle.”

“Battle?” Mu Linglong was stunned, and then she came to an understanding. The enemy probably realized that the Five Poison Calamity Mist is useless against us, so they’ve changed their plan.

When she thought up to here, her delicate and jade white face couldn’t help but reveal a wisp of a vexed expression because since she was young until now, she’d never fought with anyone. It was even to the extent that she hadn’t even stepped on an ant to death, so how could she know how to fight?

“Just execute that movement technique of yours. It’s fine so long as you can guarantee your own safety. Leave everything else to me.” Chen Xi perceived Mu Linglong’s thoughts, and he couldn’t help but console her.

“Oh, you’re talking about the Spiritvoid Illusion God Steps? Ah, I can do that.” Mu Linglong’s eyes lit up before she said in a slightly apologetic tone, “This time... I’ll... I’ll have to trouble Young Master Chen Xi again.”

Chen Xi was flabbergasted.

Right at this moment, a wave of clamorous noise sounded out from extremely far away in the passageway.

“Hurry up! I’ll fucking kill you if you continue making noise!”

“It’s filled with Azuresoul Baleful Qi, so how can we move swiftly?”

“How dare you talk back! Do you want to live or not?”

Slap! Slap! Slap!

After that, a wave of the sound of iron whips striking and shrill cries of rage resounded, and it was extremely ear piercing and horrifying in this gloomy passageway that was filled with Azuresoul Baleful Qi.

So, it's a group of ascenders and some guards at the Earthly Immortal Realm... Chen Xi heaved a sigh of relief in his heart when he sensed all of this. His main body in the world of stars was at a critical moment in the condensation of the Laws, so being disturbed at this moment might cause all his previous efforts to be wasted.

But Chen Xi was confident that if it was only dealing with some ascenders and Earthly Immortal Realm experts, then he would be able to fight until the moment his main body completed his closed door cultivation.

"Miss Mu, it looks like you only have to stay here." Chen Xi turned around and smiled at Mu Linglong. In the next moment, he'd left the space within the wall. "Remember my instructions this time and just protect yourself."

"Oh." Mu Linglong clenched her small fists and said in a clear voice, "Don't worry Young Master Chen Xi, I guarantee to not be a burden to you!"

Within the passageway, Chen Xi stood all alone by himself with a calm expression that revealed a wisp of indifference.

He'd been captured and made a mining slave as soon as he entered the Immortal Dimension, and then he even repeatedly suffered assaults and surprise attacks. This string of encounters caused killing intent to arise in his heart since a long time ago.

Now, it was the moment of his retaliation!
