Chapter 1031: Warran

Chen Xi couldn't help but be slightly stunned when he saw his rankings clearly, and a strange expression could be faintly noticed on the corners of his mouth. He seemed to be surprised and puzzled.

But in the end, he smiled as he shook his head before turning around and leaving.

He intended to obtain information about teleporting between continents. At the same time, he wanted to sell off some of the Azuresoul Soucerocks in his possession and see if it could be exchanged for some immortal materials used to improve the Talisman Armament.

Not long after Chen Xi left, an immortal that stood before the floating wall of light suddenly cried out. "Eh, quickly take a look at that name. It's rising so swiftly!"

As soon as these words were spoken, the attention of everyone was instantly drawn over, and they shot their gazes over. Sure enough, they saw that a dazzling golden light at the bottom of the wall was rising swiftly, and it left name after name behind it.

"My god! This name seems to have not been amongst the top 1,000. I've studied our Eastern Peace Continent's Ascensio Rankings for countless years, and I've never seen this name in the past!"

"Chen Xi? Who's this fellow? Which sect is he from?"

"My god! He has ascended to the top 500!"

This scene caused the surrounding crowd to be instantly thrown into an uproar, and they stared with their eyes wide open at the golden light that rose without end. Their gazes carried a wisp of surprise and bewilderment because this name was too unfamiliar to them.

This was extremely normal because the Eastern Peace Continent was enormous, and it possessed 86,000 cities and a myriad of living beings. Sects stood in it like trees in a forest while experts were like the clouds in the sky. Moreover, Cloudray City was merely one of the cities in the continent.

Not to mention that the matter of Immortal Monarch Lin Hao issuing a warrant for Chen Xi was something that only the experts subordinate to the Immortal Monarch knew about. So it was within reason that Chen Xi's name was unfamiliar to them.

Unfamiliarity also implied the unknown.

All the immortals present before the wall had grown up in the continent, and they were very clearly aware that amongst those 1,000 experts on the Continent Ascensio Rankings, practically all of them were disciples from the various powers. There were very rarely any independent cultivators or unfamiliar people that appeared on it.

For example, Lin Xinghun who was ranked at the first was from the Immortal Monarch's Estate. The second, Yuwen Chong, was from an ancient clan of the Eastern Peace Continent, the Yuwen Clan, and so on and so forth.

Now, an unfamiliar name had actually appeared on the ranking, and not only had that name charged into the top 1,000 rankings, it had charged into the top 500 in the short time of a few breaths. How could this not be shocking?

“What do all of you think this Chen Xi’s final ranking will be?”

“Who knows? He has already entered the top 300, and based on the manner it’s rising, it actually shows no sign of stopping at all. I’m truly unable to imagine exactly what position his name will be able to rise to.”

“Strange, truly strange. Could it be that another matchless genius has appeared in one of the great powers in Eastern Peace Continent? Why have I never heard of this name?”

“How many years has it been, an unfamiliar name has finally appeared! This is a rare and grand event, and perhaps we’ll even be able to witness a miracle today!”

Everyone discussed with low voices and fascinated expressions on their faces.

Along with the passage of time, the golden light that represented Chen Xi’s name was still rising at a steady speed. Everyone couldn’t help but be excited, dazed, and bewildered before all of this transformed into shock and speechlessness.

The originally bustling atmosphere actually instantly became silent, perfectly silent.

The gazes of everyone stared fixedly at the wisp of rising golden light, and they held their breaths in concentration as if they were gamblers that were looking with eager eyes for the results to be revealed.

In the end, this name stopped at the 137th ranking.

This position just happened to be above Immortal Ran Jing that was the center of attention earlier...

When they saw this, the originally deathly silent atmosphere erupted into an uproar, and a wave of bustling noise charged into the sky.

“The 137th! He actually instantly defeated over 800 people on the rankings!”

“Fuck! Am I fucking seeing things? Immortal Ran Jing was ranked at the 338th earlier, and it was only today that she charged into the 138th position.”

“Who’s this fellow? He’s simply a shocker.”

“Chen Xi... Could it be that this fellow is a disciple of the Immortal Monarch’s Estate?”

“The Immortal Monarch’s Estate? That’s very much possible. I remember that all those years ago, the Immortal Monarch’s Estate’s Lin Xinghun charged into the top 100 in a single day as well. After that, he experienced ten years of tempering before dominating the first position until now, and it had already been over thirty years since then. Even though this Chen Xi is slightly inferior to Lin Xinghun, he isn’t much inferior.”

“Impossible!” Right at this moment, a beautiful woman with rosy cheeks that was covered in fiery divine mist suddenly walked out from within the crowd to arrive before the floating wall of light. She stared at Chen Xi’s name while her lips parted slightly, and she revealed an expression of disbelief.

“Immortal Ran Jing!” The crowd instantly recognized the woman, causing them to enter into an uproar. They seemed to have never imagined that a genius figure that was ranked on the rankings would actually make an appearance here.

Within Cloudray City, the Cloudray Sect was naturally the more famous sect, whereas within Cloudray Sect, Immortal Ran Jing was absolutely one of the most outstanding disciples in the recent years.

Not only did she possess extraordinary natural talent, she’d advanced to the ranks of Mysterious Immortals from the Heavenly Immortal Rank in a mere thirty plus years. Moreover, she was a rather renowned gorgeous beauty in the hearts of countless young men in Cloudray City, so it was impossible for a woman that possessed both cultivation and beauty to not be known by all.

Now, Ran Jing had actually appeared before the floating wall of light, so how could these cultivators be able to restrain themselves. All of them became extremely excited and noisy.

However, Ran Jing seemed to be completely unaware of all of this instead. She stared blankly at the name that was ranked at the 137th position, and her peerlessly beautiful face changed indeterminately for a long time before she suddenly cried out. “Bastard! How can an unknown fellow possibly sit above me!?”

Her voice revealed a wisp of anger and unwillingness.

But when these words entered into the ears of everyone that was present here, it caused them to be stunned before they revealed a slightly strange expression because these words were simply too connotative, and it was too easy to cause others to indulge in a train of thought...

Sit above her?

This...

Meanwhile, Ran Jing reacted to this as well. But her character was blazing like flames and was rather bold and unrestrained, so she didn’t show any signs of blushing. Only her beautiful eyes swept fiercely past everyone as she said with disdain, “Ptoeey! All of you pieces of dirty trash, why don’t all of you sit above me as well if you have the balls!?”

Everyone couldn’t help but glance at each other when they heard this because this request was something they didn’t have the ability to accomplish even if they wanted to!

Ran Jing raised her jade white chin when she saw this, and her proud expression was filled with disdain. She couldn’t be bothered to pay attention to these fellows, and she flipped her long train before turning around with the intention of leaving.

But right at this moment, a wave of shouts that were like thunderclaps suddenly sounded out from the distance. “Move aside! Move aside!”

Accompanying these voices was a group of guards formed from Heavenly Immortals that descended from the sky, and the person in the lead was a thin young man who wore dark clothes tied up with a loose girdle and possessed a fierce bearing.

“These are the guards of the Immortal Monarch’s Estate. Why have they made an appearance here?”

Some people recognized the identity of these guards, causing shock to arise in their hearts because these guards were the elite forces under the command of the Eastern Peace Continent's Immortal Monarch. They were at least existences that had condensed the energy of the Laws, and they possessed formidable combat strengths and were famous for their ferocity.

"They have probably come to our Cloudray City to issue the command of the Immortal Monarch. Look, isn't there a warrant held in the hands of the young man in the lead?" Someone seemed to have faintly guessed something and spoke with surprise.

Sure enough, the dark clothed young man went directly to the back of the floating wall of light. Unlike the front of the wall that recorded the Eastern Peace Continent's Ascension Rankings, the back of the wall was completely empty besides for numerous warrants.

Swoosh!

The young man opened the warrant in his hand and imprinted it onto the wall, causing a shadow brand to appear on the wall. Surprisingly, it was the lifelike image of a person.

The name of the person, the crimes committed by the person, and the reward was indicated beneath the image.

After he did all of this, the young man led all the guards behind him and left, and they came in a hurry and left in one as well. Obviously, they had to head to other places to issue this warrant.

"A warrant issued by the Immortal Monarch's Estate? My god! Another fiendish villain wouldn't have appeared in our Eastern Peace Continent, right?"

The crowd moved forward in unison and looked towards the warrant that was branded on the wall.

"Chen Xi! Ha! This unlucky wanted fellow is actually called Chen Xi as well..." An Immortal noticed the name on the warrant and couldn't help but explode with laughter, and then his smile froze on his face. This Chen Xi wouldn't be that Chen Xi, right?

Meanwhile, the others noticed this as well, and all of them were surprised and bewildered.

The warrant stated that Chen Xi who came from the Dark Reverie had ascended into the Immortal Dimension seven days ago, and he'd brutally murdered the person in-charge of the Azuresoul Mine, the Mysterious Immortal Xiong Ming, and four Heavenly Immortals subordinate to Xiong Ming...

Moreover, it stated that Chen Xi was cruel and had committed monstrous crimes. Those who were able to provide information on Chen Xi would be rewarded with 10,000 Immortal Stones, whereas those who were able to capture him would be rewarded with 10,000 Immortal Stones and a Darkspirit Grade Immortal Artifact.

At the bottom of the warrant was the mark of a seal, and it represented the supreme authority of the Eastern Peace Continent's Immortal Monarch's Estate.

"An ascender? He killed a Mysterious Immortal? How...how could this be possible?" Someone exclaimed with shock and disbelief.

An ascender was only at the initial-stage of the Heavenly Immortal Realm, and it was utterly impossible to condense the energy of the laws within a short period of seven days. This was something that was publicly acknowledged.

Now, the warrant of the Immortal Monarch's Estate actually said that an ascender had brutally murdered a Mysterious Immortal. This was naturally extremely difficult for them to accept, causing them to extraordinarily shocked.

"Could this Chen Xi be...that fellow that just appeared on our Eastern Peace Continent's Ascensio Rankings?" Someone spoke in a weak voice and was slightly unsure.

"This really is possible. But when I think of a fellow at the initial-stage of the Heavenly Immortal Realm actually being able to be ranked at the 137th position on the Continental Ascensio Rankings, it's truly too difficult to accept."

"Yeah, amongst those that are in the top 1,000, practically all of them are at the Mysterious Immortal Realm. So who could be able to accept someone at the Heavenly Immortal Realm suddenly appearing amongst them? Moreover, he's even at the initial-stage of the Heavenly Immortal Realm!"

Everyone discussed animatedly, and all of them were extremely surprised. In a single day, Chen Xi's name had actually appeared on the Eastern Peace Continent's Ascensio Rankings and the warrants of the continent at the same time, and this was simply too astounding.

Ran Jing was similarly in the crowd, and she stared at that figure on the warrant before she gritted her teeth and said, "Chen Xi, it's Chen Xi again! This name is too detestable!"

"Why do I remember that this fellow seems to have been standing by my side just a moment ago?" A nearby immortal stared at the image on the warrant and couldn't help but mutter to himself.

Ran Jing's beautiful eyes instantly lit up when she heard this while her lips that were red like fire curled up slightly, and she said complacently in her heart, He's actually in Cloudray City. Let me see exactly what ability you possess to sit above me, Ran Jing!

Her intuition told her that no matter if it was the name on the Continental Ascensio Rankings or that wanted villain, they were surely the same person!

Chapter 1032: Goldwave Immortal Pavilion

There was actually no teleportation formation in Cloudray City!

After Chen Xi asked about in the city for some time, he came to a single conclusion, and he couldn't help but feel slightly depressed.

Especially depressing to him was that his path was obstructed in an alley earlier, and if he didn't notice something was off and fled beforehand, he would have almost been surrounded by an entire group.

Later on, he found out that Immortal Monarch Lin Hao had issued a warrant for him in the entire Eastern Peace Continent, and the reward for him was rather generous.

In other words, Chen Xi had become a public target now, and he was absolutely someone that would be chased after as soon as he was noticed.

In his helplessness, Chen Xi could only change his appearance to avoid a great deal of trouble.

Presently, he took the image of a young man with an ordinary appearance and sedate bearing, and he was so ordinary that he wouldn't cause a ripple when thrown into a crowd.

Unfortunately, this sort of disguise can only deceive ordinary figures. Once I encounter some experts that possesses special Immortal Techniques or Divine Abilities, then they'll probably be able to see through my disguise. Chen Xi walked on the bustling and streaming streets while he frowned without end and being unable to find a teleportation formation and being reduced to a wanted criminal caused the situation he was in to not be promising.

According to his understanding, only two cities in Eastern Peace Continent possessed teleportation formations that were connected to other continents, and one of them was Phoenix Nest City, the place the Immortal Monarch's Estate resided, so it was directly ignored by Chen Xi.

The other was situated in Spirit Radiance City, but it was an entire five million kilometers away from Clouday City. If it was in the Mortal Dimension, then this little bit of distance was naturally unable to pose any difficulty to Chen Xi, and he would be able to teleport over in an instant.

But this was the Immortal Dimension, and only Golden Immortals could move freely through space. Those beneath the Golden Immortal Realm could only utilize magic treasures or execute movement techniques to carry out their journey.

Most importantly, Chen Xi suspected that a large number of troops were set up in Spirit Radiance City a long time ago, and they were just waiting for him to leap into their trap.

It was very simple. Immortal Monarch Lin Hao would have surely guessed that if he wanted to escape with his current strength, the only way would be to leave Eastern Peace Continent. There was no other way besides this.

It could be said that so long as they stood on guard at Phoenix Rest City and Spirit Radiance City, Chen Xi would be like a fish in a net, a turtle in a jar. Along with the passage of time, Chen Xi's situation would grow more and more dangerous.

They really intend to do all they can to kill me... Immortal Monarch Lin Hao, no matter who sent you to go against me, Chen Xi, I'll get even with you one day! Chen Xi resolved in his heart. No one would be able to accept being pursued as a wanted criminal as soon as they entered the Immortal Dimension.

Unknowingly, Chen Xi had arrived before an extremely grand pavilion that was completely constructed from jade. It towered into the skies and was suffused with a faint cloudy glow.

Compared to the buildings in the surroundings, this pavilion was like a crane amongst chickens, and it was especially striking.

Three ancient and large words 'Goldwave Immortal Pavilion' were written on the plaque on the building. The strokes of these words were heavy, powerful, and winding. Just a glance from afar caused a heavy and lofty aura to assault one's face.

What a formidable soul brand! Even though it's merely a strand, it's actually heavy like a mountain and seems to be impenetrable. The cultivation of the person that wrote on this plaque is probably at the Golden Immortal Realm or above! Chen Xi was stunned, and he praised endlessly in his heart. Merely this plaque allowed him to discern how extraordinary the resources and reserves of the Goldwave Immortal Pavilion was.

Without any further hesitation, Chen Xi walked in immediately.

According to the information he obtained earlier, the Goldwave Immortal Pavilion was a large trading company that was spread throughout the Immortal Dimension, and practically a quarter of the 4,900 continents in the Immortal Dimension had a store that belonged to it.

It could be said to have bloomed all over, and it was extremely wealthy.

The Goldwave Immortal Pavilion didn't just deal in various precious immortal treasures, it also dealt in medicinal pills, cultivation techniques, spirit medicine, and various other things that were required by cultivators. It could be said to contain and cover everything.

Chen Xi had come here for the sake of dealing with some of the Azuresoul Sourcerocks in his possession as he wanted to exchange them for some immortal materials that he needed.

But right at the moment before he stepped foot through the entrance of the Goldwave Immortal Pavilion, a group of male and female attendants suddenly charged through the door and unrolled a scarlet red carpet from within the pavilion until the area outside the entrance.

During this entire process, those guests that intended to enter the Goldwave Immortal Pavilion like Chen Xi were naturally blocked out to the side. But they didn't say anything because merely the Goldwave Immortal Pavilion's reputation caused them to not dare cause any trouble.

After that, all of these attendants split up into two rows and stood solemnly and respectfully at the sides of the red carpet, and they actually seemed as if they were greeting the arrival of a great figure.

"I'm sorry everyone. There's a distinguished guest arriving at my Goldwave Immortal Pavilion today, so I hope everyone can forgive us and come back tomorrow." A middle aged man that seemed like a manager cupped his fists towards the surroundings and spoke with a warm voice.

"We understand, we understand. But Manager Lion, your Goldwave Immortal Pavilion will probably be losing a few tens of thousands of Immortal Stones by closing for a single day, right?" A guest joked.

Manager Liao smiled slightly yet didn't speak any further.

"Manager Liao, may I ask which distinguished guest is arriving to actually make you personally come to welcome his arrival?" Someone else asked curiously.

Manager Liao smiled again when facing this question, and he didn't answer it.

In this way, it caused all those guests that were frequent patrons of Goldwave Immortal Pavilion to be even more curious. According to their knowledge, Manager Liao might not even personally welcome the arrival of the Cloudray Sect's Master.

But now, he'd actually mobilized so many attendants and made preparation to welcome this distinguished guest, and this caused everyone to be curious. Could it be that it's a distinguished guest at the Golden Immortal Realm?

Chen Xi felt even more depressed when facing this situation, and he felt that his luck today seemed to be extremely horrible.

First, he was unable to find a teleportation formation, then he was pursued as a criminal. Now, he was just intending to make an exchange for some immortal materials yet had the door shut upon his face and was told that they were closing for the day. How could he not feel depressed?

Chen Xi shook his head, and then he turned around and left. As for the identity of the person that was about to arrive at Goldwave Immortal Pavilion, he couldn't be bothered to find out, let alone have any interest towards it.

...

Immortal Indulgence Restaurant.

The second floor.

Chen Xi ordered some dishes before pouring himself a cup of wine and drinking it. He recalled everything he'd encountered today, and he couldn't help but feel slight suspicion. Could it be that my luck instantly started to become bad once Bai Kui left my side?

Even if he disregarded everything he experienced in Cloudray City today and carefully thought about everything that had happened since he entered the Immortal Dimension, Chen Xi actually noticed that he hadn't encountered a single good incident!

Alas, I can only wait for tomorrow to make another trip to the Goldwave Immortal Pavilion... Chen Xi shook his head and was staring blankly through the window as he pondered deeply.

The Immortal Indulgence Restaurant was a name that was chosen with extremely poor taste because it was a name that was used throughout the Mortal Dimension, and it seemed as if it couldn't be proved to be a restaurant without utilizing this name.

But in Cloudray City, even though the name of the Immortal Indulgence Restaurant was in poor taste, it was a first-rate restaurant. Guests that were capable of enjoying themselves here were nobles that wore exquisite clothes and behaved in a becoming manner. So it caused Chen Xi to not fit in.

At this moment, he was all alone while his appearance had become extremely ordinary and sedate. Because he was too ordinary in appearance, it caused him to seem slightly shabby instead.

But Chen Xi didn't care, and he was feeling depressed in his heart, so how could he care about these minor details?

At this moment, a group of figures appeared at the end of the stairways. It was a group of well-dressed young men and women, and the men possessed imposing appearances while the women were gorgeous.

Half of them emanated strong fluctuations of Immortal Force, and they seemed to possess extraordinary cultivations.

“Is that the Huang Clan’s Eldest Son, Huang Tianhu?”

“The Ren Clan’s Ren Yue’er, the Guo Clan’s Guo Yu...”

The outstanding disciple of the Cloudray Sect, Zhao Cheng, is here as well. My god! Four out of the seven great Ascension experts of our Cloudray City are here!”

The guests on the second floor whispered in discussion. Obviously, they’d recognized the origins of this group of young people and were extremely surprised.

Chen Xi glanced casually at them, and he withdrew his gaze and fell once more into a state of deep contemplation when he saw it was only a group of young Heavenly Immortals.

This group of three men and one woman had condensed the energy of the Laws, and they could be considered to possess extraordinary strength amongst their peers. But in Chen Xi’s eyes, they were merely not bad and weren’t really worthy of his attention.

After a short moment, this group of people sat down together, and they conversed loudly, causing the people in the surroundings to look over successively and make them the center of attention.

Amongst the people in this group, a young man with brown hair sat at the center. He had white skin and a pair of eyes that were fine, long, and slanted upwards. His entire body emanated a dense and icy cold aura. The people in the surroundings looked at him with a gaze that carried a trace of respect.

“Brother Zhao Cheng, why exactly have you called all of us over this time?” After they finished engaging in small talk, a young man couldn’t refrain himself from asking.

The others went silent successively as they looked at the brown haired young man.

The brown haired young man called Zhao Cheng’s dense brows raised before he said, “Could it be that all of you haven’t heard? An unfamiliar name appeared on the floating wall of light today, and his ranking actually surpassed Senior Sister Ran Jing. According to my knowledge, it’s very likely that this kid is the villain wanted by the Immortal Monarch’s Estate.”

“You’re speaking about that Chen Xi?” asked the nearby young woman. She wore sky blue palace clothes, and she possessed a hot body, fine brows, cherry lips, and a rather beautiful appearance. Her name was Ren Yue’er, and she was from the Cloudray City’s Ren Clan.

“Exactly!” Zhao Cheng nodded while his expression turned cold and grim. “Hmph! That bastard just ascended into the Immortal Dimension and has already dared to cause trouble here. I heard that he has already made an appearance in Cloudray City, and this just happens to be the best opportunity to capture him!”

“Zhao Cheng, you wouldn’t have called us over here to capture Chen Xi, right?” Another one of the young men said with shock, “He killed a Mysterious Immortal. Now, he’s even ranked at the 137th position on the Continental Ascensio Rankings. He far exceeds us in rankings, so if we...”

Before he could finish speaking, he was interrupted by Zhao Cheng who revealed a gloomy expression. "Guo Yu, leave right now if you're scared!"

Guo Yu's expression changed and he was slightly embarrassed.

Ren Yue'er hurriedly mediated from the side. "Alright, since Senior Brother Zhao Cheng has said this, he has surely made complete preparations. Why don't we listen to his arrangement first before we make a decision?"

Guo Yu grunted coldly, and he still left in the end.

Zhao Cheng's expression eased up when he saw this, and he swept the surroundings with his gaze before he stood abruptly and said, "I'm the Cloudray Sect's Zhao Cheng, and I intend to discuss an important matter with my friends, so I want to occupy the area on the second floor of this restaurant. Everyone, please leave right now, and you can leave your bills to me."

All the guests on the second floor stood up successively when they heard this and left without the slightest hesitation. There were even some people that gave their regards to Zhao Cheng and the others, and they didn't feel the slightest displeasure.

After a short moment, besides Zhao Cheng and the others, the entire second floor was empty as most of the guests had left. Only Chen Xi still sat upright by the window at a corner, and he was staring blankly out of the window.

Chapter 1033: Driving Back His Enemies

As he stared at the back of Chen Xi's figure and saw that Chen Xi didn't have the slightest intention of leaving, Zhao Cheng's face sank as he said with a calm tone, "Friend, please give me some face and leave."

Chen Xi turned around with an expressionless face, and the flames of depression that had accumulated in his heart for a long time couldn't help but surge.

I'm truly too unlucky today!

There were no teleportation formations, then I was reduced to becoming a wanted criminal, and I even had the door shut on my face when I intended to exchange for some immortal materials. Moreover, there's even a group of fellows looking for trouble with me after I entered a restaurant, and they're making a ruckus about how to plan their pursuit against me...

Could it be that I really seem to be so easily bullied?

Chen Xi took a deep breath and forcefully calmed down the impulse to go berserk within his heart, and he went silent for a long time before he said, "I just want some silence, so it's best that you don't disturb me."

He really wanted some silence and wasn't willing to stir up trouble at this moment because he was very worried that some unexpected misfortune would come looking for him once he bashed up these bastards.

But as soon as these words were spoken, the expressions of those young men and woman sank, and they were even more displeased. They were truly unable to understand why a fellow that was ordinary from head to toe would dare to speak with them in such a manner.

“Kid, what did you say just now? I dare you to say it again!” Zhao Cheng frowned, and his face was slightly gloomy.

“Ha! Looks like this kid doesn’t know the rules of Cloudray City and actually dares to speak like that to us. He looked like an inexperienced idiot at first glance.”

“Forget it. Let’s give him another chance because the ignorant are innocent. Making a fuss about it with an idiot will only drag down our status.”

The others crossed their arms before their chests and sneered without end as well.

The female attendants of Immortal Indulgence Restaurant in the surroundings had gone pale, and the gazes they looked at Chen Xi with were slightly complicated. They seemed to take pleasure in his misfortune yet seemed to pity him at the same time, but the strongest expression in their eyes was bewilderment and wonder.

They were indeed unable to understand, and they felt Chen Xi was an idiot. Could it be he doesn’t know that these young men and woman present here are the outstanding disciples of the various great powers in Cloudray City? Moreover, four of them are existences that are ranked on the Continent Ascensio Rankings!

He isn’t leaving now but staying here like an idiot instead. This is simply no different than courting his own death!

“Kid, could it be that you really want us to invite you out?” When they saw Chen Xi sitting there without moving and remaining indifferent to all of them, Zhao Cheng’s brows knit together even more tightly, and his voice carried an angry and threatening tone.

“What waste your breath on this fellow? Just throw him onto the streets.” Huang Tianhu who had the most explosive temper strode forward, and his entire body was suffused with a cold aura.

Zhao Cheng raised his head slightly and glanced at Huang Tianhu before he said, “Tianhu, this is the Immortal Indulgence Pavilion, so don’t go too far.”

“Don’t worry, I’ll surely throw this kid out in one piece.” Huang Tianhu sneered before swiftly moving over to stand before Chen Xi’s table, and his palms opened up like dustpans that surged with icy cold Immortal Force as he grabbed towards Chen Xi’s shoulders.

“Ignorant little fellow. Allow this Young Master to teach you the consequences of failing to appreciate someone’s kindness today!” His palms grabbed down with a ferocious impetus. Even though he said he wouldn’t harm Chen Xi, but under the force of this strike, any other person would surely face the consequence of having his shoulders shattered.

“Fuck off!” Chen Xi suddenly raised his hand while a pair of flames surged within his indifferent eyes, whereas his hand had suddenly stretched out like iron chain that lay across a river, and he grabbed onto

Huang Tianhu's right wrist before swinging lightly, causing Huang Tianhu's robust figure to be directly thrown out the window.

"AH!!!" Huang Tianhu's face turned grim, and he intended to swiftly readjust his figure before charging back at Chen Xi. However, he was struck by a light flick of Chen Xi's finger, causing a strand of force to silently assault him and enter his body, and it sealed up all the vital energy within his body, causing him to seem like a stiff wooden puppet.

In the next moment, a bang resounded as Huang Tianhu fell onto the street outside with his face flat on the ground, and he'd passed out. His entire body was suffused with a layer of ice, and it was caused by the strand of the Laws of Water that was contained within Chen Xi's strike and had sealed up the vital energy in his body.

On the second floor of the restaurant, the expressions of Zhao Cheng and the others turned grim because Huang Tianhu had actually been tossed out and passed out from falling.

How could this be possible?

Amongst all of them, Huang Tianhu had a cultivation at the intermediate-stage of the Heavenly Immortal Realm, and he'd condensed two Laws. Moreover, his rankings on the Continental Ascensio Rankings were merely slightly lower than Zhao Cheng and Ren Yue'er.

But this fellow that was extremely ordinary in appearance, dressing, and cultivation had actually instantly blasted Huang Tianhu flying, and this was simply like a scene from a nightmare.

"Who exactly are you? If you still don't reveal your name, then don't blame us for being rude!" Zhao Cheng spoke in a low voice while his expression was extremely gloomy. He knew very well that someone who could defeat Huang Tianhu so easily was absolutely not an ordinary figure.

The others revealed hostile expressions as well.

"Fuck off!" Once he made a move, Chen Xi was clearly aware that it was probably impossible to end the incident peacefully today. So in the next moment, he's stood up while his gaze that was like a bolt of lightning swept coldly past Zhao Cheng and the others.

Fuck off?

When these mere two words entered into the ears of Zhao Cheng and the others, it was no different than getting slapped to the face because did anyone in Cloudray City dare to speak like this to them in the past?

"Attack!"

"Bash him up!"

Zhao Cheng and the others exchanged glances before they shouted successively, and they called out to their companions as they attacked fiercely.

Sure enough, I'm unable to escape the annoyance of these flies this time... Chen Xi laughed with self-ridicule while the ill feelings in his heart that had been accumulated throughout the day transformed completely into battle intent that surged out of his body. In an instant, Chen Xi seemed to have become

a different person, and he was like a peerless weapon of slaughter that had bathed in the blood of countless people and was unsheathed at this moment!

Bang!

He took a step forward, causing a seemingly material force field to carry killing intent that was violent and vast like an ocean as it stretched out and swept towards the surroundings.

Zhao Cheng and the others who were the first to bear the brunt of it felt as if they were hit by a myriad of mountains, causing their bodies to tremble abruptly while they stopped in their tracks.

Bang! Bang! Bang!

A wave of muffled bangs resounded as all of them were blasted flying. They spat out mouthfuls of blood while they lay scattered on the floor, and they'd smashed apart countless tables, chairs, and other furniture.

Some of them with weak cultivations lay weakly on the ground while bleeding from all their seven apertures, and they'd passed out.

Chaotic Nine-Step Annihilation!

This was a peak-grade Dao Art that came from the Allheaven Truth, and now that it was utilized by Chen Xi with the Laws of the five elements and coupled with his peerlessly thick Immortal Force, it was sufficient to sweep through all opponents at the Heavenly Immortal Realm.

Even the Mysterious Immortal Xiong Ming who relied on a Darkspirit Grade Immortal Artifact had been killed by Chen Xi, let alone these young men and woman that were only around the Heavenly Immortal Realm?

After all is said and done, these fellows were courting death by looking for trouble with Chen Xi who'd been enduring all along and keeping a low profile, so they deserved to be bashed up.

Bang!

Chen Xi took another step forward, causing strong winds to whistle as they stretched out, and terrifying energy of the Laws that carried killing intent swept out like a shapeless tempest that blasted through the world.

Pu! Pu! Pu!

Zhao Cheng and the others felt their minds buzz while golden stars moved about randomly before their eyes. All of them spat out a mouthful of blood while their countenances had become pale as sheets, and they were shocked to the extreme.

Who exactly is this fellow? He was actually able to easily defeat all of us with a mere two steps. He's so unfathomable. Could it be that he's a Mysterious Immortal Realm expert?

"Friend, no, Senior..." Zhao Cheng hurriedly called out with a terrified expression, and he knew that he'd bit off more than he could chew this time and intended to quickly remedy the situation.

“Guest... Guest, please calm your rage.” The nearby female attendants of the Immortal Indulgence Restaurant were terrified to the point their beautiful faces turned pale, and when they saw Chen Xi actually didn’t intend to let those rather famous young men and women from Cloudray City off, they hurriedly shouted loudly to plead for mercy on the behalf of Zhao Cheng and the others.

It couldn’t be helped, if Zhao Cheng and the others were to suffer any mishaps in the Immortal Indulgence Restaurant, then all of them would probably be unable to avoid being implicated as well.

Chen Xi stopped moving and glanced coldly at those young men and women with an indifferent gaze, and then his gaze descended onto those attendants in the end while a wisp of ridicule suffused the corners of his mouth. “If it was I who lost, would all of you plead for mercy on my behalf?”

All the attendants were instantly stunned while their expressions changed indeterminately because Chen Xi’s words caused them to be speechless.

“They aren’t aware of Young Master’s identity, so they naturally don’t dare to make any decisions on their own. I hope that Young Master can let them off.” At this moment, a beautiful figure walked in from the entrance of the second floor. This was a gorgeous woman with snow white skin and a hot and seductive figure. Every single move she made carried a hasty, bold, and unrestrained feeling.

As soon as she walked into the second floor and saw the ground covered in a mess while Zhao Cheng and the others sat on the ground with blood stained clothes, her beautiful brows couldn’t help but raise.

“Senior Sister Ran Jing!”

“Senior Sister Ran Jing, you’ve come just at the right time. This fellow is domineering, arrogant, and acts willfully, and he beat all of us up. You must uphold justice for all of us.” When Zhao Cheng saw Ran Jing make an appearance, he seemed as if he’d encountered his savior and spoke in a loud voice.

“Exactly. This fellow went too far and regarded the members of our Cloudray Sect as nothing. He’s truly detestable!” The others complained at the same time as well.

“Junior Brother Zhao Cheng, did you ask me to come see this revolting performance all of you put on?” Contrary to Zhao Cheng’s expectations, Ran Jing’s beautiful brows knit together and actually turned to blame him instead, and she scolded him without concealing her rage in the slightest. “You worthless trash! You were beaten up, yet don’t resolve yourself to work harder, and you wail and whine instead. Do you know shame or not? Fuck off! All of you fuck off! Vanish from my sight right now!”

The expressions of Zhao Cheng and the others turned grim, and it was unsightly to the limit.

“Senior Sister Ran Jing, I actually invited you here this time for the sake of discussing how to capture that...” Zhao Cheng hurriedly explained.

However, he was interrupted with a wave of Ran Jing’s hand as she said, “What? You think you’ve grown wings and can fly on your own, so you don’t respect me anymore?”

Zhao Cheng and the others revealed dejected expressions from being berated like this, and they didn’t dare hesitate any longer. All of them got up from the ground with livid expressions before leaving dejectedly.

Chen Xi glanced at Ran Jing with a slightly surprised gaze when he saw this, and then he shook his head and intended to leave.

“Wait!” Ran Jing suddenly flashed to obstruct Chen Xi’s path.

Chen Xi frowned and said, “What else do you want?”

Ran Jing’s beautiful eyes stared right at Chen Xi while her red lips opened lightly, and she said abruptly, “Chen Xi?”

Chen Xi was slightly stunned before he came to an understanding that this woman was probing his identity. So he immediately said without a change in his voice or expression, “Miss, I’m afraid you’ve got the wrong person. If there’s nothing else, then please move aside.”

Ran Jing didn’t back down in the slightest instead, and she started at Chen Xi and spoke while seeming to be lost in thought. “A cultivation at the initial-stage of the Heavenly Immortal Realm, yet you were able to defeat my Junior Brother and those young geniuses of Cloudray City. Moreover, your appearance is so unfamiliar. Obviously, you aren’t someone from Cloudray City. If you aren’t Chen Xi, then who could you be?”

Chen Xi frowned while a wisp of vigilance arose in his heart instead, and he said, “If I’m Chen Xi, I would have probably killed you a long time ago.”

As he spoke, he turned around with the intention of leaving.

This time, Ran Jing didn’t stop him but followed him instead, and she said with a chuckle, “If you still don’t admit it, then I’ll scream your name.”

Chapter 1034: Treasure Exchange Hall

Ran Jing’s tone revealed a feeling of confidence in her victory. She firmly believed that the fellow before her eyes was surely Chen Xi, and even if this fellow had changed his appearance, his cultivation and combat strength were impossible to be concealed.

Not to mention in the entirety of Cloudray City, there probably wasn’t a second person at the initial-stage of the Heavenly Immortal Realm that was capable of crushing Zhao Cheng and the others.

I never expected that my luck would be so good this time. Oh, once I defeat this fellow, should I hand him over to the Immortal Monarch’s Estate? I heard the reward includes a Darkspirit Grade Immortal Artifact... Ran Jing was extremely excited in her heart. Actually, she wasn’t interested towards the reward, and she just wanted to defeat Chen Xi and prove she was stronger than him before surpassing him in the rankings of the Continental Ascensio Rankings. It was sufficient just like this.

But right after she finished speaking, a bone piercing icy cold feeling of terror suddenly arose in her heart, and it caused the hairs on her entire body to stand on end.

Ran Jing swiftly raised her head and saw a pair of icy cold and indifferent eyes that didn’t contain the slightest warmth or feelings, and they were deep like doors that let to the Netherworld and seemed to intend to swallow her soul.

“What...what do you intend to do?” This sort of feeling caused Ran Jing to be shocked while her entire body felt as if it had fallen into an icy pit, and it was oppressive to the point it felt extremely uncomfortable. Her gaze inadvertently surged with a wisp of dense vigilance, and she was completely unaware that her countenance had already become ghastly pale.

Chen Xi didn't say anything further before he withdrew his gaze, turned around, and left.

“You...” Ran Jing was about to follow him, but when she recalled Chen Xi's icy cold, indifferent, and completely emotionless gaze, she couldn't help but shudder and instantly stop moving.

It felt as if Chen Xi would kill her without the slightest hesitation if she dared to speak another word. Moreover, she would be utterly unable to stop the descent of death.

She stood before the stairways while staring blankly at the disappearing tall figure, and she only returned to her senses after a long time. She couldn't help but let out a long sigh as she muttered. That was too terrifying! That fellow has surely killed countless people, otherwise it would be utterly impossible to possess such a frightening gaze...

She hesitated for a long time before Ran Jing finally gave up any thoughts of going against Chen Xi.

She was able to sense the meaning within his gaze before he left. It was a type or warning and a soundless threat, and she didn't dare disregard it.

“Dammit! Do you think you're very strong? Just you wait! I'll surely surpass you in the Continental Ascensio Rankings!” Ran Jing took a deep breath and tried her best to calm the surging waves in her heart as she gnashed her teeth with hatred.

...

The veil of night descended.

Chen Xi found an inn and started to comprehend the energy of the Laws with concentration.

Since he condensed the Laws of Metal, Wood, Water, Fire, and Earth, it allowed his combat strength to attain an unprecedented transformation, and he successfully annihilated Xiong Ming who was at the Mysterious Immortal Realm.

This sort of splendid combat achievement caused countless people to shrink back at the sight of it. At least amongst those at the Heavenly Immortal Realm, there was rarely anyone who could be a match for him.

But Chen Xi wasn't satisfied because his opponents were too strong. The weakest, Bing Shitian, possessed a cultivation at the Golden Immortal Realm, and it caused him to be unable to arouse any feelings of pride and complacency.

Conversely, along with his understanding towards the Immortal Dimension deepened, he was able to even more clearly realize his shortcomings, and this was a sort of haunting feeling of danger that was impossible to eliminate.

All of this came from the Immortal Monarch Lin Hao's warrant, Bing Shitian, the enemy forces of the Nine Radiance Sword Sect in the Immortal Dimension, the Zuoqiu Clan...

He had to become stronger as soon as possible.

There were many paths to become stronger, yet condensing the energy of the Laws was the swiftest for Chen Xi at this moment, and it was the most effective path.

Ordinary Heavenly Immortals had mostly condensed less than three Laws, and those that were capable of condensing three complete Laws could be considered to possess extraordinary attainments. Those that had condensed more than five Laws could already be described as shocking amongst their peers.

Chen Xi had already grasped the Laws of the five elements and practically all the Grand Dao profundities he'd comprehended had attained perfection. So if he condensed all of them into Laws, the combat strength he exerted would absolutely be beyond imagination.

But at that time, it would depend on how terrifying the strength his cultivation was able to exert would be. After all, a cultivation at the initial-stage of the Heavenly Immortal was restrictive towards the exertion of combat strength in the end.

Om! Om!

In the room, one black and one white, two Grand Dao profundities emerged from his body and transformed into a black dragon and white tiger. They circulated and pursued each other around Chen Xi's body while forming the strange scene of Yin and Yang blending and tiger and dragon meeting.

These were the Grand Dao profundities of Yin and Yang, and they represented the muddy qi of the universe that rose to form the sky and descended to form the earth. The development of the world was set by Yin and Yang.

At this moment, these two Grand Dao's were controlled by Chen Xi and gradually tempered by him. They emanated strands of the chanting of the Grand Dao, and it seemed like the sound of ironwork, yet it was so pleasing to the ear like the sound of nature.

Unknowingly, it was already early in the morning.

Chen Xi took a deep breath while the black and white qi that surrounded his body like dragons surged back into his body. Unfortunately, the time I have is too short. It will probably require over a month to condense the Laws of Yin and Yang. Moreover, this inn is rather unsafe. Once I exchange off the Azure Soul Sourcing Rocks, I'll buy an abode so that I can enter into closed door cultivation within the world of stars...

Chen Xi shook his head before he stood up, and then he pushed open the door and walked out.

A night of tempering had only condensed the Laws of Yin and Yang by less than 10%, and its effects were very really small. But Chen Xi was very helpless as well because his situation was too dangerous, so he didn't dare choose to enter into closed door cultivation within the inn.

...

Goldwave Immortal Pavilion.

Chen Xi walked in and swept the surroundings with his gaze, and then he couldn't help but exclaim with surprise in his heart.

The area inside the Goldwave Immortal Pavilion was like a completely different world. Nephrite covered the ground while palace lanterns hung high above, and its interior was large with carved beams. It was grand yet didn't lose a sense of elegance, and it was like a small-scale city.

This was obviously a space that was opened up by extraordinary experts, and it possessed a grand and magnificent style of its own.

Row after row of counters were spread out within it, and beautiful attendants moved about. Even if it was early in the morning, guests flowed like streams of water in the Goldwave Immortal Pavilion, and its business was extremely good.

"Welcome to the Goldwave Immortal Pavilion. May I know if Young Master desires to purchase treasures or exchange treasures?" A beautiful attendant welcomed Chen Xi in a warm and polite manner, and a professional smile hung on her face.

"I intend to sell some immortal materials," said Chen Xi.

"Young Master, please follow me." The beautiful attendant immediately smiled when she heard this, and she led Chen Xi through the hall towards the depths of the pavilion.

In next to no time, they arrived at a place called the 'Treasure Exchange Hall.'

Counters stood like trees in a forest within it, and there were many appraisers here. But compared to the other places, the guests here were much fewer. After all, if wasn't urgent, then no one would come over here early in the morning to sell their treasures.

"Young Master, this is the place to exchange your treasures. Please choose the corresponding appraiser based on the stage of your immortal material. I hope you have a pleasurable exchange." The beautiful attendant bowed before she turned around and left.

Chen Xi swept the surroundings with his gaze and saw a jade plaque standing before the counter of every single appraiser, and the jade plaques were labeled with the words immortal materials, medicinal pills, puppets, magic treasures, equipment, and so on and so forth.

Every single one of these labels were further divided into various ranks, and they were differentiated in a rather meticulous manner. Corresponding to this was numerous appraisers, and they were at least over a hundred in number.

This obviously showed how deep the resources and reserves of the Goldwave Immortal Pavilion was because merely these appraisers weren't something that ordinary stores could possess.

"Keep your eyes peeled!"

"How could that fellow possibly come so early in the morning?"

"Hmph! Don't forget that it's an entire Azuresoul Soucerock mine! Presently, the Immortal Monarch's Estate is furious, so ordinary stores wouldn't dare to receive such goods. Only the Goldwave Immortal Pavilion would dare to disregard the authority and power of the Immortal Monarch and disregard the source of the treasures. If I was that kid, I'll surely chose this place to sell off those goods!"

"But maybe he hasn't even come to Cloudray City, so what good would waiting here do?"

“That might not be the case. Cloudray City is the closest to the Azuresoul Mine, so it’s extremely likely that he has already entered the city. I heard that someone saw that kid make an appearance before the floating wall of light yesterday.”

“Both of you shut your mouths. Don’t you see that someone has come?” Within the Treasure Exchange Hall was some chairs for guests to rest. At this moment, there was a middle aged man and two young men sitting there while chatting in low voices, and all of them stopped talking and shot their gazes over when they saw Chen Xi enter.

But a wisp of disappointment appeared on the two young men’s faces when they saw Chen Xi’s appearance clearly.

Only the grey clothed middle aged man continuously sized up Chen Xi with an imperceptible gaze and a calm expression. But when one looked closely at him, one would be able to notice that a wisp of faint cold scrutiny was surging within the depths of his eyes.

“These bastards really are everywhere...” Chen Xi noticed all of this, and he was clearly aware in his heart that they were most probably waiting for him. He originally intended to turn around and leave, yet he thought for a moment and walked into the hall in the end.

All along the way, Chen Xi revealed a calm and unperturbed expression, and coupled with his ordinary and sedate appearance, he didn’t draw any attention. Moreover, he didn’t stop before the counter labelled mid-stage immortal materials and arrived before a counter at the deepest depths of the hall instead.

The two young men become even more relaxed when they saw this, and they shook their heads weakly.

The grey clothes middle aged man was slightly stunned instead, yet he didn’t stop sizing up and scrutinizing Chen Xi, and he continued to observe Chen Xi in a concealed manner.

“Lord Sun Hong, that kid is obviously not our target. So why are you still wasting your energy to pay attention to him?” A young man couldn’t refrain from asking via voice transmission.

“Don’t you think this kid is very strange? He came to the Goldwave Immortal Pavilion early in the morning, and he didn’t pay any attention to us when he saw us here. Moreover, his appearance is ordinary while his cultivation is low, yet he dared to go over to the counter that dealt with extreme-stage immortal materials. He can be said to be filled with questionable points, and perhaps he might be our target.” The grey clothed middle aged man spoke via voice transmission.

“Oh, now that you said that, that kid is very strange indeed.” The young man was stunned, and he pondered carefully and really did find many questionable points.

“Be on guard and don’t give yourself away. Merely these questionable points are already sufficient for us to make a move against him.” The middle aged man seemed to be extremely calm and instructed in an orderly manner. “This is the Goldwave Immortal Pavilion after all. So it wouldn’t be too late for us to make a move against him after he leaves this place.”

The other two young men nodded imperceptibly when they heard this.

“Young Master, are you sure you intend to transact with extreme-stage immortal materials? Those are precious treasures used to refine Valiant Grade Immortal Artifacts.” Meanwhile, a white haired old man that sat behind the counter raised his head to size Chen Xi up with a glance before he asked with an indifferent tone.

Talisman Emperor

Chapter 1035: Avoided Safely

The old man was called Yu Yan, and they called him Master Yu. He was the most qualified appraiser in Goldwave Immortal Pavilion, and practically more than half of the appraisers in the Treasure Exchange Hall were his disciples or the disciples of his disciples, so the height of his prestige was obvious.

Logically speaking, such a figure ought to be sitting behind the scenes and enjoying a time of leisure, yet Master Yu still arrived at the Treasure Exchange Hall early in the morning every single day, and he'd honored his duty for five hundred years without wavering in the slightest.

Perhaps it was easy to persist for a few years yet persisting every single day for an entire five hundred years was enough to arouse admiration in the hearts of all.

Even an ordinary thing had become extraordinary.

If one was able to immerse one's self into any job and persist to the point it became a part of one's existence, then it was something worthy of pride and respect.

Chen Xi didn't know about Master Yu Yan, yet he was able to sense a tranquil force from Master Yu. It was something that was tempered through the baptism of countless years, allowing one to calm one's aura, and this caused Chen Xi to be unable to help but exclaim with admiration in his heart that the Goldwave Immortal Pavilion was really extraordinary.

Merely this old man was sufficient to become a 'specialty' of the store.

“Senior, this is the immortal material I wish to exchange, please take a look.” Chen Xi casually withdrew a palm sized jade that was suffused with azure divine radiance, and he passed it over with both hands while not daring to be disrespectful in the slightest.

“Oh?” Master Yu seemed to have never expected that this young man before him had actually come to exchange a extreme-stage immortal material, and he couldn't help but be stunned. But when his gaze descended onto this piece of jade, his calm eyes suddenly erupted with a wisp of extraordinary splendor.

He stretched out his hand to receive it and sized it up carefully. Along with the passage of time, his expression that was originally calm like the surface of water gradually became excited while his appearance was like an art lover who was observing a peerless painting, and he was silent for a very long time.

The nearby appraisers revealed a wisp of curious expressions when they saw this. In these past few years, the amount of people that came to the Goldwave Immortal Pavilion to exchange extreme-stage immortal materials had become scarce, thus it was very rare for them to witness Master Yu personally appraising a treasure.

After all, the five stages of immortal materials, low, mid, high, extreme, and king corresponded to the grades of Immortal Artifacts that was ordinary, Darkspirit, Cosmic, Valiant, and Void.

Extreme-stage immortal materials were rare and precious treasures utilized to refine Valiant Grade Immortal Artifacts, and they were rare even in the Immortal Dimension. These immortal materials could only be chanced upon by luck, so even if someone obtained one, they would absolutely not sell it away unless they had no other choice.

So when they saw Master Yu reveal such an expression, all the appraisers were curious. Most importantly, never had they imagined that this young man who possessed a low cultivation and an ordinary and sedate appearance would actually be able to produce that even moved Master Yu to the extreme.

For a time, the gazes of everyone in the hall descended onto Master Yu and Chen Xi, and they were curious, surprised, and so on and so forth.

“Lord Sun Hong, there seems to be a change in the situation.” On the seats for guests, one of the young men spoke via voice transmission in a low voice.

“Let’s observe for a while longer.” The grey robed middle aged man frowned. He had similarly not expected the young man to actually be able to produce an extreme-stage immortal material and not the mid-stage immortal material, Azuresoul Sourcerocks, that he expected.

This had slightly exceeded his expectations. But he still refused to give up and decided to observe a while longer before he made a further decision.

“How rare! It’s truly rare that an Azuresoul Divinejade is of such superb quality. I haven’t seen one in a very long time.” After a long time, Master Yu sighed emotionally in a low voice.

What!?! One of the five precious immortal treasures, the Azuresoul Divinejade?

The other appraisers were stunned when they heard this, and they revealed a wisp of shock from their eyes. As appraisers, they were very clearly aware that there was a difference in quality of extreme-stage immortal materials, whereas Azuresoul Divinejade, Dragonbeard Immortal Spring, Auspicious Spirit Silver, Moonlight Dew, and Truesoul Brilliantwood were the rarest five types of precious treasures, and it was frequently said that all treasures could be found with ease except the five precious treasures.

The Azuresoul Divinejade was already extremely rare, yet not it had been personally appraised as being of superb quality by Master Yu himself, so its value far exceeded other extreme-stage immortal materials.

When they heard this name, even the grey robed middle aged man and the others were stunned. Azuresoul Divinejade! That’s one of the most superb immortal materials to refine Valiant Grade Immortal Artifacts. The most precious part of it is that its core is capable of condensing the soul, and only a single drop is able to completely heal a heavily injured soul!

Chen Xi’s expression remained unchanged. If it wasn’t for the sake of dispelling the suspicion of the grey robed middle aged man’s group, he would absolutely not produce this piece of Azuresoul Divinejade because he’d come to the Goldwave Immortal Pavilion this time merely for the sake of selling some Azuresoul Sourcerocks, and he’d never thought of selling the Azuresoul Divinejade.

Even though the Azuresoul Divinejade before him now was merely a small piece he cut off from the large piece he possessed, it was a precious treasure that could only be chanced upon by luck after all. Moreover, it was one of the immortal materials that could be refined into Divine Talismans, so how could he have the heart to sell it off?

But now, he could only act in this way.

“This treasure is of great value. Young Master, please follow me to a private room for discussion.” Master Yu suddenly stood up and invited Chen Xi.

“Of course.” This invitation conformed completely with Chen Xi’s intention, so he immediately followed behind Master Yu and moved through the side door of the hall before vanishing in next to no time.

“Lord Sun Hong, what should we do?” This sudden scene caused the two young men to be stunned, and they were slightly at a loss for what to do.

The grey robed middle aged man, Sun Hong, frowned and pondered deeply for a long time before he said, “This is troublesome indeed. Forget it, we’ll stay outside for now and make a move after that kid leaves the Goldwave Immortal Pavilion.”

The two young men glanced at each other before they nodded.

“Eh, isn’t this the Immortal Monarch’s Estate’s Commander Sun Hong?” Right at this moment, two figures walked in the hall from outside. The person in the lead wore a violetgold colored robe, and he was a dignified middle aged man with hair that was coiled into a bun and three strands of beard that hung beneath his chin. He was slightly stunned when he saw the grey robed middle aged man, and then he walked in while laughing loudly.

“Fellow Daoist Zichun?” The grey robed middle aged man was slightly surprised because he never imagined that he would encounter this person here. The middle aged man was called Zichun, and he was the Third Elder of the Cloudray Sect that possessed a cultivation at the advanced-stage of the Mysterious Immortal Realm. Moreover, he was one of the eminent figures in Cloudray City.

But Sun Hong’s relationship with Zichun wasn’t very good, so they engaged in brief small talk before he said while seeming to be lost in thought, “Fellow Daoist Zichun, could it be that you came to the Treasure Exchange Hall to sell off some treasures?”

Zhang Zichun shook his head and glanced at Sun Hong while a gaze that seemed to contain deep meaning as he said, “My target is actually the same as Commander Sun Hong.”

“Oh.” Sun Hong’s gaze was deep as he said, “You’re here for that little fellow as well?”

Zhang Zichun nodded and pointed at a young man by his side as he said, “Exactly, this useless disciple of mine was defeated in a restaurant yesterday. His opponent’s combat strength was extraordinary yet was only at the initial-stage of the Heavenly Immortal Realm. I thought about it carefully, and I recalled that such a formidable figure didn’t exist in the entirety of Cloudray City, so I suspect that kid is the villain the Immortal Monarch’s Estate wishes to apprehend, Chen Xi.”

The young man that was pointed at by Zhang Zichun had brown hair, and he was tall and thin. It was exactly the young disciple from the Cloudray Sect, Zhao Cheng, who was renowned as one of the seven great experts on the Continental Ascensio Rankings of Eastern Peace Continent.

Sun Hong glanced at Zhao Cheng with surprise and said while his expression remained unchanged, "So in this way, Fellow Daoist Zichun has already locked onto your target?"

"Haha, Commander Sun Hong, haven't you noticed a long time ago as well?" Zhang Zichun smiled while he cursed in his heart instead. You sly old fox, you're still putting on an act now?

Looks like that kid from before is Chen Xi! Sun Hong thought in his heart, yet he sighed instead. "I'm unable to pass judgment on this. Not to mention that kid has already been invited into a private room of the Goldwave Immortal Pavilion, and I don't dare to trespass there to investigate."

"He was invited into a private room?" Zhang Zichun's brows raised as he said, "Could it be that something unexpected occurred?"

Sun Hong shrugged and said, "It's very simple, that kid sold a piece of Azuresoul Divinejade."

Azuresoul Divinejade!

When he heard this name, even Zhang Zichun couldn't avoid being stunned, and he stared blankly for a long time before he sighed with emotion. "That's a great treasure! No wonder, no wonder!"

Sun Hong grinned as he glanced deeply at Zhang Zichun and said, "If Fellow Daoist Zichun has the desire, you can probably obtain some Azuresoul Divinejade from that kid when he leaves. According to my observation, that Azuresoul Divinejade had clearly distinguished corners, and its corners were smooth like the surface of mirrors. Obviously, it was a piece that had been cut off."

Zhang Zichun was shocked in his heart while a wisp of burning greed suddenly flashed in the depths of his eyes, and then he laughed while his expression remained unchanged. "Haha! If it's really like that, then it couldn't be any better."

Sun Hong smiled before he cupped his hands and bid his farewells, and then he turned around and left with the two young men.

"Master, why have the members of the Immortal Monarch's Estate left?" The nearby Zhao Cheng asked with a low voice.

Zhang Zichun's expression had recovered its calm, and he couldn't help but grunt coldly when he heard this. "Left? That Sun Hong is the most loyal dog under the command of Immortal Monarch Lin Hao, and he possesses an acute sense of smell. So long as it's a target that he set his sights on, he'll absolutely not let go."

Zhao Cheng was astounded in his heart as he never expected that his Master would actually call Sun Hong a dog.

"Come, let's leave as well. That fellow Sun Hong is probably intending to make me go against that kid so that he can gain reap the rewards. Hmph! How could there be such an easy thing in the world?" Zhang Zichun shook his head before turning around and heading out.

“Master, could it be that we’re just letting it go like this?” Zhao Cheng hurriedly caught up and asked with a slightly unwilling tone.

“Of course not. The Cloudray City is the territory of our Cloudray Sect. Since we’ve locked onto the target, how could we allow another to encroach on the target? Once that kid makes an appearance, I’ll naturally have a way to deal with him.” Zhang Zichun smiled proudly as he walked out with large strides.

Zhao Cheng sighed in his heart when he saw this. “Isn’t it because you’re afraid of the Goldwave Immortal Pavilion. If it was any other trading company, would there be any need to be so fearful?”

Of course, Zhao Cheng was very clearly aware that the power and influence of the Goldwave Immortal Pavilion was spread throughout the Immortal Dimension, causing both the members of the Immortal Monarch’s Estate and the higher-ups of the Cloudray Sect to have no choice but to keep away temporarily and not dare cause trouble even if they were clearly aware that their target was here.

At this moment, Chen Xi was sitting within a quiet and elegant room instead, and he was discussing the matter of price for the Azuresoul Divinejade with Master Yu. He was completely unaware that he’d coincidentally safely avoided the pursuit of two forces.

Chapter 1036: A Test In The Dao Of Talismans

Within the private room, Master Yu pondered deeply for a brief moment before he said, “A rare precious treasure like the Azuresoul Divinejade is impossible to be measured by Immortal Stones. If I’m not wrong, Young Master has probably not come to exchange it for Immortal Stones.” Chen Xi nodded and said, “Exactly.”

He had of course not come for the sake of exchanging for Immortal Stones, and it was even to the extent that if an unexpected even didn’t occur, he wouldn’t even sell off this piece of Azuresoul Divinejade. But it had already come to this, so he couldn’t go back on his decision now.

“I need some immortal materials.” As he spoke, Chen Xi took up a brush and paper from the table before he wrote the name of some immortal materials with a few swishes, and then he passed the paper to Master Yu.

“Spirit Devour Fine Gold, Coldflame True Water, Yellow Spot Ferrocalamus... Master Yu swept the list before his snow white brows couldn’t help but raise, and he said, “My Goldwave Immortal Pavilion doesn’t lack these 16 types of high-stage immortal materials, but the amount is a bit too high.”

As he finished speaking, his snow white brows had knit together tightly. Obviously, he felt that Chen Xi had demanded an exorbitant price.

Chen Xi smiled instead and wasn’t moved in the slightest as he said, “I believe that the value of this piece of Azuresoul Divinejade is far above these immortal materials. One can be bought while the other can only be chanced upon by luck. Comparatively speaking, the price I’m asking for is already very low.”

As he spoke, he picked up the paper and brush before he wrote the names of another 100 plus immortal materials, and he passed it over. “I feel the price is fair if these are added on.”

Actually, he didn't know the market price of the Azuresoul Divinejade, but he held on forcefully to a single principle, and that was the Azuresoul Divinejade was a rare and priceless treasure that couldn't be found on the market. So its price depended entirely on the buyer's ability.

Master Yu stretched out his hand to take the second piece of paper, and the corners of his mouth couldn't help but twitch fiercely when he saw the names of the over 100 mid-stage immortal materials written on it. He said with slight displeasure, "Kid, you're going a bit too far."

Chen Xi sighed and said, "Then I can only hold on to this piece of Azuresoul Divinejade."

As he spoke, he intended to take it back, yet was hastily stopped by Master Yu. "Alright, alright, the price will be according to your request."

Chen Xi smiled as he sat back down and seemed as if he knew it would be like this.

Master Yu glared at him and grunted. "You little fellow, if it wasn't for my Goldwave Immortal Pavilion urgent need for this treasure, you would have been kicked out for daring to ask for such a price!"

Chen Xi cupped his hand and said seriously, "Thank you, Senior, for fulfilling my wish."

Master Yu's expression eased up greatly when he saw this, and he stared at the Azuresoul Divinejade in his hand and said while seeming to be lost in thought, "There's more than just this piece of Azuresoul Divinejade in your possession, right?"

Before Chen Xi could answer him, he waved his hand and said, "There's no need to explain. I only hope that if you intend to sell off another piece of this treasure, please come to the Goldwave Immortal Pavilion. The price is negotiable."

Chen Xi nodded and said with a smile, "Of course."

He was rather pleased in his heart because he'd used a palm sized piece of Azuresoul Divinejade this time to exchange for almost all the immortal materials required to refine the Talisman Armament, and it could be said to be an unexpected gain.

Of course, this proved that the value of Azuresoul Divinejade was indeed shocking. Otherwise, it would be impossible to exchange it for such an amount of immortal materials. After all, this was the Goldwave Immortal Pavilion, and they would surely not accept a losing transaction.

Thump! Thump! Thump!

Right at this moment, the sound of the door being knocked sounded out.

Master Yu's brows knit together, and he was extremely displeased. This was his personal private room, and it was a taboo to be disturbed during a transaction.

Even though he was annoyed in his heart, he still waved his sleeve to make the door open without emitting a sound.

A tall and dignified middle aged man in embroidered clothes appeared at the entrance. His brows knit together slightly while he carried a trace of anxiousness on his face, and he was instantly delighted when he saw the door open. But when he saw Master Yu's angry expression, he instantly revealed a wisp of

embarrassment and said with a smile, "Master Yu, I heard a customer sold a piece of Azuresoul Divinejade?"

As he spoke, he'd walked into the private room, and his gaze instantly descended onto the piece of jadestone on the table that was suffused with strands of hazy radiance. His spirits were raised as he immediately walked over with vigorous strides and grabbed the piece of Azuresoul Divinejade, and then he said while roaring with laughter. "With this treasure, why would my son worry about being unable to accomplish the important task at hand? Master Yu, I'll be using this treasure first, and I'll apologize to you later."

As soon as he finished speaking, he'd already left. It was only a few breaths of time since his arrival to departure, and he came and went hastily, causing him to seem rather anxious.

Chen Xi's brows were originally knit together, yet when he saw Master Yu didn't stop this person, he could only watch coldly from the side.

"Alas, did you see that? Another treasure is going to be destroyed. What a pity! Truly a pity!" Master Yu shook his head and sighed as he sat back down.

Chen Xi couldn't refrain himself from asking. "Who was that? Why did he need an extreme-stage immortal material so urgently? Could it be that it's for the sake of refining a Valiant Grade Immortal Artifact?"

"Him? He's naturally the administrator of this Goldwave Immortal Pavilion, Wu Yuan." Master Yu glanced at Chen Xi with slight surprise before he shook his head and sighed. "He isn't refining an Immortal Artifact, and it's only for the sake of preparing some talisman crafting materials for his son."

Talisman crafting? Chen Xi thought in his heart. The reason he wasn't willing to sell the Azuresoul Divinejade was because besides being able to be refined into Valiant Grade Immortal Artifacts, the Azuresoul Divinejade could be utilized as a superb material to refine Divine Talismans.

"Unfortunately, even though Wu Xun is crazy about the Dao of Talismans, he doesn't have the guidance of a master in the end. So his studies in the Dao of Talismans hasn't attained the level of Supreme Grandmaster. Thus, refining a Heavenly Talisman is easier said than done." Master Yu sighed with emotion.

"Since it's crafting talismans, then he shouldn't be so anxious, right?" Chen Xi frowned. He was clearly aware that the lack of steadiness of the heart was a taboo when crafting talisman but based on the expression of Wu Yuan that was filled with anxiety earlier, there wasn't a trace of composure at all.

Even though it was his son that was doing the actual talisman crafting, Chen Xi was able to perceive from this that Wu Xun's state of mind at this moment was probably not very composed.

"That little fellow is receiving a test that's related to his future." Master Yu spoke vaguely before he stood up. "Young Master, please wait a moment. I'll send someone to help you prepare those immortal materials."

As he spoke, he'd left the private room and left Chen Xi all alone by himself.

“A test in crafting a talisman? That’s interesting.” Chen Xi smiled before he restrained his thoughts, and he frowned as he pondered the matter of what he saw and heard in the Treasure Exchange Hall earlier.

If his perception didn’t deceive him, then that grey robed middle aged man was probably an extremely formidable expert at the Mysterious Immortal Realm who possessed a cultivation that was at least above the initial-stage of the Mysterious Immortal Realm. The man had constantly been sizing him up in a seemingly imperceptible manner, so the man obviously had ill intent.

As for the two young men by the side of the grey robed middle aged man, they were only at the Heavenly Immortal Realm, so they weren’t really worthy of much attention.

Were they members of the Immortal Monarch’s Estate? Looks like my situation seems to be even more severe than I imagined. Once I completely condense all the energy of the Laws from the Dao Insights I possess, it’s best to find an opportunity and swiftly leave the Eastern Peace Continent... Chen Xi fell into deep contemplation.

After an unknown period of time, the door to the room was opened, yet it was two people that entered. One of them was Master Yu, and at his side was the administrator of the Goldwave Immortal Pavilion, Wu Yuan, that had returned.

“Young Master, may I ask if you still have any Azuresoul Divinejade in your possession. So long as you name a price, I’ll take all of them.” As soon as he entered through the door, Wu Yuan’s gaze had descended onto Chen Xi before he cupped his fists and spoke.

Even though his voice was calm, yet it couldn’t avoid carrying a wisp of anxiousness.

“Young Master, if it’s possible, please help him. The test this time is related to his son’s future, and it’s a matter of great importance. If it wasn’t like this, he wouldn’t come and disturb Young Master.” Master Yu spoke from the side.

“Exactly, so long as Young Master is willing to help, then I’ll agree to any condition you have!” Wu Yuan spoke while gritting his teeth. As the administrator of the Goldwave Immortal Pavilion, he naturally had the confidence to speak these words.

Chen Xi was moved, and he said, “You’ll agree to any condition?”

Wu Yuan knew he had a chance when he heard this, and he hurriedly said, “Of course. So long as it’s a treasure possessed by my Goldwave Immortal Pavilion, then Young Master can choose them freely.”

Chen Xi pondered deeply before he said, “I do have another piece of Azuresoul Divinejade, but...”

“Good, that’s good!” Before Chen Xi could finish speaking, Wu Yuan revealed an expression of delight as he walked forward to pull on Chen Xi’s arm, and he said as he walked out of the room, “Young Master, please allow us to talk as we move because there isn’t much time left.”

Chen Xi was shocked in his heart, and he heaved a sigh of relief in his heart when he saw that besides an expression of delight, there wasn’t a trace of unusualness in Wu Yuan’s expression. But Chen Xi was still extremely vigilant in his heart.

Fortunately, nothing unexpected occurred all along the way. Under Wu Yuan’s lead, they quickly arrived at a gorgeous and magnificent hall.

The hall was empty, bright, and grand. There was only a table polished from crystal at the center of the hall, and there was a white clothed young man behind the table.

His long hair hung loosely on his shoulder, and his appearance was rather handsome. However, his expression was slightly stiff while he sat there on the chair before the table and stared blankly, and he seemed to be dazed.

At the seat of the host in the hall was an old man with a withered figure that wore green robes and a black colored round hat, and he maintained an emotionless expression while he sat with his eyes closed. Even though he didn't say a word, he emanated a frightening aura.

The atmosphere in the hall was extremely oppressive.

"Father, you've come. Have you brought the Azuresoul Divinejade?" The white clothed young man heard the sound of footsteps and jumped up as he spoke anxiously, and his eyes were actually filled with strings of scarlet red blood while the space between his brows were covered in exhaustion.

Obviously, he was Wu Yuan's son, Wu Xun.

"I've brought it, I've brought it. Calm and prepare yourself. This is your last chance. You must grab it no matter what." As he spoke, Wu Yuan turned around to look at Chen Xi as he said, "Young Master, I'm counting on you."

Chen Xi nodded and withdrew another palm sized piece of Azuresoul Divinejade before he said, "Administrator Wu, remember the conditions you promised me."

Wu Yuan nodded repeatedly as he passed the Azuresoul Divinejade to Wu Xun, and then he cupped his hands towards the emaciated old man that sat at the seat of the host. "Senior Xuan Yun, we'll be troubling you."

The eyelids of the old man called Xuan Yun lifted to reveal eyes that surged with divine light, and he said indifferently, "If he's unable to succeed this time, then don't blame me for not trying."

Wu Yuan hurriedly nodded and said, "I understand, I understand."

"Begin." Xuan Yun waved his hand before he closed his eyes once more.

The white clothed Wu Xun took a deep breath before sitting upright before the table once more, and he placed the piece of Azuresoul Divinejade before his eyes. He lifted up the talisman brush and waved the wolf fur on it as he started to draw energetically on the piece of jade.

Hiss! Hiss! Strands of divine light sprayed out from the tip of the brush and transformed into profound talisman markings that wound on the surface of the clean and level Azuresoul Divinejade.

When he saw this, Chen Xi couldn't refrain himself from moving forward and carefully sizing up Wu Xun's actions.

Chapter 1037: Fifth-Earth Netherstar Immortal Talisman

The hall was filled with an expanse of silence.

Only Wu Xun sat upright behind the table while holding a talisman brush that was refined from Immortal Yellow Vine Wood that was soaked in ink that was refined from various immortal materials like Stardrunk Herb, Immortal Poria, White Bamboo Seven Mystery Herb, Jadesoul Slaughterox Blood, and so on and so forth as he drew talisman markings on the palm sized Azuresoul Divinejade.

No matter if it was the crafting of an immortal talisman or Divine Talisman, all of them created another world within a tiny space.

Wu Xun's movements were smooth like flowing water as he drew numerous profound and agile talisman markings, and it seemed that his basics were extremely solid.

With Chen Xi's discerning gaze, he was actually unable to find many flaws.

But this was merely the beginning and refining a Heavenly Talisman that was comparable to the full forced strike of a Heavenly Immortal wasn't so simple.

Chen Xi felt that no matter if it was the talisman brush, ink, or the Azuresoul Divinejade that acted as the talisman paper, everything this fellow used to craft talismans were too extravagant and even slightly wasteful.

If these things were in his hands instead, not to mention crafting a Heavenly Talisman, it would even be more than enough for him to craft a Mysterious Immortal Talisman.

Of course, this person was the son of the administrator of Goldwave Immortal Pavilion who was undergoing an extremely important test at this moment, so it was justifiable that he made such sufficient preparations.

No one spoke in the hall, and only the swishing sounds from talisman crafting flowed in the hall like the sounds of insects.

Wu Yuan and Master Yu stared fixedly at Wu Xun, and they held their breaths in concentration while they couldn't help but reveal a wisp of nervousness that was impossible to conceal. They stood on the spot without moving as they were deeply afraid of disturbing Wu Xun.

At the seat of the host, the emaciated old man that Wu Yuan addressed as Xuan Yun had already closed his eyes once more when Wu Xun started to craft the talisman, and his face remained emotionless while he seemed to be in deep contemplation or was having a nap.

This person is probably that distinguished guest that came to the Goldwave Immortal Pavilion yesterday... Amongst the people present, perhaps Chen Xi seemed to be the most relaxed. He swept a glance towards the old man, Xuan Yun, and then he couldn't help but recall the scenes from yesterday.

At that time, he was intending to sell the Azuresoul Sourcerocks in his possession, yet he never expected that the Goldwave Immortal Pavilion would close for the day upon his arrival, and it was for the sake of welcoming the arrival of a distinguished guest of respected status.

Now it would seem that the distinguished guest was undoubtedly the old man, Xuan Yun.

But Chen Xi was curious exactly who this old man was. Could it be that he's from a great power that's renowned in the world in the Dao of Talismans?

Meanwhile, Chen Xi suddenly acutely noticed that the aura of Wu Yuan who stood by his side had become much heavier while the nervous expression on Wu Yuan's face grew deeper, and even Wu Yuan's hands beneath his sleeves couldn't help but be clenched together tightly.

Chen Xi raised his eyes and swept Wu Xun with his gaze, and he instantly understood the reason.

Since an unknown period in time, the speed Wu Xun moved his brush while crafting the talisman had become sluggish while the veins on his right hand that held the brush had even bulged up. It was like he was dragging along a heavy mountain as he crafted the talisman, and it seemed to be extremely difficult.

Moreover, his countenance had become slightly pale while his slanted and sharp brows were knit together tightly, and he puckered his lips tightly as numerous beads of sweat emerged from his forehead and crept down his face.

Especially the expression of confidence and clarity in his gaze was gradually being replaced by a wisp of struggling and pain.

Wu Xun had encountered a problem!

Chen Xi noticed with a careful scan that the Azuresoul Divinejade was already densely covered in various talisman markings by Wu Xun, and it seemed as if it was breathing and was emanated strands of seemingly material azure divine radiance.

But this sort of glow was gradually dimming down, and it was like a fish that was on the verge of drying up and perishing.

Chen Xi's brows raised as he was deeply aware that if this situation wasn't changed, then Wu Xun's test of talisman crafting would one more end in failure.

Wu Xun himself was very well aware of the current situation, or perhaps it could be said that the few times he'd crafted this talisman earlier, he'd failed at this final barrier as well.

But after bitterly pondering for a long time, he was unable to find the way to resolve this final barrier. Originally, he thought that if he relied on the superb quality of the Azuresoul Divinejade, it would be sufficient to avoid this barrier.

Unfortunately... It still didn't work!

At this moment, his confidence was on the verge of collapse, and he even slightly doubted if he was suitable to persist on the path of the Dao of Talismans.

Could it be that I really don't have natural talent in this path?

Wu Xun was frustrated while his countenance was ghastly pale. When one started to doubt one's path towards the Dao, then one wasn't far away from failure, and he was similarly clearly aware of this, yet he was utterly unable to change this sort of situation that he faced.

What should I do?

Exactly what should I do?!

His aura became heavy while his eyes were bloodshot, and he seemed like a trapped beast that was on the verge of falling into a hopeless situation.

Persist! You're only a step away! Only a single step! The nearby Wu Yuan shouted soundlessly in his heart and was extremely worried. He was a very capable person, yet he was utterly unable to help his son, and this caused him to be restless like an ant on a hot pan while his expression changed indeterminately.

On the other hand, Master Yu couldn't help but sigh lightly and shake his head without end instead. Even if he wasn't skilled in the Dao of Talismans, how could he be unable to discern that Wu Xun's failure was inevitable and even struggling would be in vain?

Meanwhile, even the old man, Xuan Yun, that sat at the seat of the host opened his eyes and sized it up briefly before he shook his head silently, and his emaciated face already revealed a wisp of indifference as he prepared to announce the outcome.

The atmosphere in the hall suddenly became oppressive and deathly silent, and it caused others to be almost suffocated.

On the other hand, Wu Xun's expression became more and more unsightly while he seemed as if he'd just emerged from water as his entire body was drenched in cold sweat, and even his vital energy had started to fall into disorder.

This is truly...damnable!

Wu Xun felt extremely bitter in his heart, and he was on the verge of being unable to persist any longer.

It was at this moment that a voice sounded out by his ear, and it dragged him back from various negative feelings.

"Enter the Dubhe Star and pass through its soul with a stroke that's sharp like an awl to suppress the earth."

Wu Xun didn't know who was speaking, yet he knew that this was the content of the Fifth-Earth Netherstar Immortal Talisman.

He subconsciously held the brush and spun his wrist while his Immortal Force flowed along with this movement, and he disregarded the barrier that obstructed him like a mountain while he directly relied on the tip of his brush to draw a talisman marking that was extremely unfamiliar even to him from the position of the 'Dubhe Star.' It was like a world shaking talisman marking that entered into the 'earth' position of the Immortal Talisman.

After that, he suddenly noticed that after this unfamiliar talisman marking appeared, the array of talisman markings on the Azuresoul Divinejade didn't collapse.

What's next?

Wu Xun thought with slight wonder.

Right when this thought arose in his heart, that voice resounded once more.

“The sixty four formations of the eight directions circulate in unison, and you should enter through the Lunarstar position and connect it with the forces of sky and wind.”

Enter through the Lunarstar position and connect it with the forces of sky and wind? Wu Xun was stunned as he didn't understand what this meant. According to his understanding towards the Fifth-Earth Netherstar Immortal Talisman, no matter if it was the position of the Lunarstar position or the forces of sky and wind, they were places of no importance, and they could be said to be of very insignificant effect towards the talisman markings of the entire Immortal Talisman.

Suddenly, he came to sudden understanding.

The position of Lunarstar was the foundation of Fifth-Earth while the winds of sky were all-pervasive yet wouldn't shake the foundation of the Fifth-Earth at the same time.

Wu Xun's eyes instantly lit up while he moved the brush energetically to draw a completely new talisman marking on the Azuresoul Divinejade, and it seemed like an iron rope that lay across the Azuresoul Divinejade and enveloped all the talisman markings on it.

“Eh!” The old man Xuan Yun who sat at the seat of the host exclaimed as he acutely noticed that the Azuresoul Divinejade which was on the verge of failure and collapse was actually glowing once more with life that was exuberant like the glow of stars, and it glowed brilliantly.

Meanwhile, Wu Yuan and Master Yu had noticed this slight change as well, and they were slightly stunned before their hearts shook while a wisp of hope arose once more in them.

“Auxiliary Star and Truelead to the center.”

“Form Soulgather and Forceassemble into a formation.”

“Start from Fifth-Earth, move to corner, and a line through the Netherstar causes a myriad of profundities to be born.”

Subsequently, the voice ceaselessly resounded by Wu Xun's ears, and he didn't hesitate in the slightest to move his brush according to the voice.

Along with the passage of time, his backbone became straight once more while his eyes glowed, and the frustration, struggling, sense of defeat, and various other negative feelings in his heart were completely wiped away.

His aura was composed while his mind was clear.

It was even to the extent that an indescribable expression appeared on the space above his brows.

These changes were noticed entirely by Wu Yuan and Master Yu, causing both of them to be slightly surprised and puzzled, but they were even more relieved, delighted, and in high spirits.

As for the old man, Xuan Yun, he sized up all of this carefully before his gaze swiftly descended onto Chen Xi, and then he frowned and entered into deep contemplation.

Om!

After a short moment, a wisp of blazing glow accompanied by a shocking and shapeless fluctuation suddenly stretched out through the hall, and the dazzling and resplendent glow was like a scorching sun that rose from the table before Wu Xun.

All of this was like a breath that returned to silence in a short moment.

But Wu Xun knew that he'd succeeded!

He stared blankly at the Azuresoul Divinejade on the table that had undergone a tremendous change as he sat on the chair, and his mouth gaped while he still felt slight disbelief that he'd actually really crafted a Fifth-Earth Netherstar Immortal Talisman.

"He did it!" Wu Yuan and Master Yu were unable to restrain the pleasant surprise in their hearts any longer, and they roared with laughter in unison.

Meanwhile, Xuan Yun had stood up and arrived before the table. He held the Azuresoul Divinejade in his hand and sized it up briefly before a wisp of surprise and bewilderment couldn't help but suffuse his gaze.

This was a Fifth-Earth Netherstar Immortal Talisman indeed, but the talisman marking structure on it and the arrangement of formations on it wasn't that which he was familiar with. It had become even more mysterious and profound, causing him to be barely able to comprehend its profundities after studying it for a long time.

This caused him to be slightly surprised because an ordinary Fifth-Earth Netherstar Immortal Talisman was roughly equivalent to the full forced strike of a mid-stage Heavenly Immortal, yet the might of the Fifth-Earth Netherstar Immortal Talisman before him was probably on par with the full forced strike of an expert at the advanced-stage of the Heavenly Immortal Realm!

How...could this be possible? With Xuan Yun's grasp and knowledge of the Dao of Talismans, he couldn't help but be shocked repeatedly at this moment because not only had some of the structure of the talisman markings in the talisman been changed, even the quality of this immortal talisman had been forcefully improved by a stage, and this sort of practically miraculous ability was something that even he was unable to accomplish in such a short period of time!

The nearby Wu Yuan couldn't refrain himself from asking. "Senior Xuan Yun, how is it?"

Xuan Yun recovered from his deep contemplation, and then he glanced at the immortal talisman in his hand before he glanced at Wu Xun and nodded in the end. "Not bad indeed. He has passed the test."

"Thank you, Senior, for allowing this. Thank you Senior!" After he obtained a confirmed answer, Wu Yuan was excited to the point his entire body trembled, and he cupped his fists and expressed his gratitude repeatedly without end.

"Administrator Wu Yuan, you're welcome. This is also because your son has true ability." Xuan Yun waved his hand, but in the next moment, he shot his gaze at Chen Xi instead and asked. "May I know who this Young Master is?"

His voice actually carried a trace of respect and equal treatment.

Chapter 1038: Damaged Ancient Talisman

When he heard Xuan Yun ask Chen Xi's name, Wu Yuan was about to introduce Chen Xi yet was stunned on the spot instead because from the beginning until the end, he'd actually not asked Chen Xi's name.

This caused Wu Yuan to be unable to help but feel slightly embarrassed.

Chen Xi smiled instead and didn't mind as he said, "I'm Chen Ke."

He didn't dare reveal his identity before leaving Eastern Peace Continent.

"Right, it's Young Master Chen Ke." Wu Yuan introduced warmly. "Young Master Chen Ke, this is Senior Xuan Yun from the Southbridge Continent's Four Divinity Academy. It's a renowned paradise of the Dao of Talismans in the Immortal Dimension, and Senior Xuan Yun is one of the teachers in the academy that's in-charge of recruiting disciples."

The Four Divinity Academy?

It was the first time that Chen Xi had heard the name of this academy, yet based on Wu Yuan's respectful attitude towards Xuan Yun, Chen Xi was very clearly aware that this academy was definitely not an ordinary small power.

"So it's Young Master Chen Ke, you really are extraordinary." Xuan Yun nodded while his voice carried a wisp of admiration that wasn't concealed in the slightest.

Wu Yuan couldn't help but be stunned. Extraordinary? What does he mean?

"Young Master Chen Ke really isn't an ordinary person. It was all thanks to Young Master's guidance that I was able to craft the Fifth-Earth Netherstar Immortal Talisman this time. Please receive my respect." Meanwhile, Wu Xun suddenly stood up from before the table and took a deep breath before moving over to stand before Chen Xi, and then he directly knelt on the ground in a serious and solemn manner.

When they saw Wu Xun pay such respects to Chen Xi, Wu Yuan and Master Yu were extremely shocked and were slightly puzzled.

Chen Xi raised his hand to help Wu Xun up, and then he teased. "It can't be considered as guidance. I just couldn't bear to see a piece of Azuresoul Divinejade destroyed."

Wu Xun's blushed and was slightly embarrassed, but his attitude still remained extremely respectful.

Just like there was seniority in the attainment of the Dao, there were those that specialized in a technique.

Chen Ke's attainments in the Dao of Talismans was obviously too much greater than his own, so Chen Ke was naturally worthy of such treatment.

Chen Xi couldn't help but nod to himself when he saw this because Wu Xun's character wasn't bad, and Wu Xun was modest and devoted, so Chen Xi hadn't guided him in vain.

"So it turns out that my son actually received the assistance of Young Master Chen Ke." Meanwhile, Wu Yuan finally came to an understanding, and he felt both surprise and disbelief.

Master Yu was even shocked to the point his snow white brows trembled without end, and he said, “Wu Xun was able to refine the talisman successfully earlier because of... Young Master Chen Ke’s guidance?”

Chen Xi smiled lightly yet didn’t give any explanation.

Wu Yuan and Master Yu glanced at each other, and they were both could see the shock in each other’s eyes as they still felt that it was difficult to accept this. After all, the matters of talisman formations were related to extremely vast and subtle profundities. Not to mention providing guidance, an ordinary person wouldn’t even be able to understand it.

On the other hand, Wu Xun was actually able to smoothly craft an immortal talisman under the guidance of Chen Ke, so how could this possibly be something an ordinary person could accomplish?

But...

This Chen Ke is clearly only at the initial-stage of the Heavenly Immortal Realm. Could it be that his grasp of the Dao of Talismans has already attained the peak of supreme grandmasters?

“Hmph! What is there not to believe? If you son was able to refine this immortal talisman without the guidance of Young Master Chen Ke, then I’ll take him as my master right now!” Xuan Yun was slightly displeased with Wu Yuan and Master Yu’s attitudes, and he grunted coldly.

Wu Yuan’s expression instantly became slightly unsightly when he heard this, but out of consideration for Xuan Yun’s power and influence, he didn’t dare say anything as he was deeply afraid that Xuan Yun would change his mind and cancel the qualifications his son attained from passing the test.

“Father, Senior Xuan Yun is absolutely right. If it wasn’t for Young Master Chen Ke’s assistance, I would have been absolutely unable to succeed.” The nearby Wu Xun couldn’t help but persuade his father when he saw his father’s expression was extremely unsightly.

Wu Yuan shook his head and smiled. “Right, I’ve already agreed that so long as Young Master Chen Ke made a request, I would agree to all of them in order to repay his kindness.”

Wu Xun deeply agreed. “That is something that ought to be done.”

As they spoke, everyone looked towards Chen Xi. Even though Chen Xi’s cultivation was low and had an ordinary appearance, no one dared to take him as an ordinary person after they witnessed the scenes from before, and their gazes even carried a wisp of admiration and respect.

They firmly believed that a figure that even if a figure that was skilled in the Dao of Talismans like this had a low cultivation, he was bound to become a great figure in the Immortal Dimension that commanded the winds and the clouds!

Subsequently, Chen Xi went straight to the point and made his request. He didn’t want Immortal Stones nor treasures, and it was an extremely simple request of asking Wu Yuan to help him leave Eastern Peace Continent.

When they heard such a request, it wasn’t just Wu Yuan, but everyone else was slightly stunned and felt disbelief.

It wasn't that the request was extremely harsh, but it was too simple. To the Goldwave Immortal Pavilion whose forces were scattered throughout a quarter of the Immortal Dimension, escorting someone out of a continent was even easier than blowing off dust.

Even if Wu Yuan was merely the administrator of the Cloudray City's Goldwave Immortal Pavilion, a small matter like this could be easily accomplished by him.

But in next to no time, Wu Yuan seemed to have realized something, and his eyes focused as he sized Chen Xi up from head to toe before he probed. "Young Master Chen Ke, you wouldn't be that Chen Xi that the Immortal Monarch's Estate issued a warrant for lately, right?"

As soon as these words were spoken, the hearts of Master Yu and Wu Xun jerked. In these past few days, the name, Chen Xi, could be said to have given rise to much discussion, and even they had heard some of the rumors related to him.

For example, he forcefully made his way into the 137th position on the Continental Ascensio Rankings overnight.

For example, he annihilated the Mysterious Immortal Xiong Ming while at the initial-stage of the Heavenly Immortal Realm and caused great trouble in the Azuresoul Mine, drawing the fury of the Immortal Monarch's Estate to the point of issuing a warrant for his arrest in the entire Eastern Peace Continent.

Even a great appraiser like Master Yu who cut himself off from the world had heard of this matter, so this obviously showed how famous Chen Xi was in the Eastern Peace Continent at this moment.

Only Xuan Yun glanced at Chen Xi while seeming to be lost in thought, and he didn't reveal any surprise.

Chen Xi didn't reveal a trace of anxiousness when his identity was revealed, and he just sighed with emotion in his heart instead. The old really are experienced. He deduced my identity by relying solely on a single sentence. This sort of perception isn't something that anyone can possess.

"Exactly, I'm Chen Xi. It was because of the dangerous situation I'm in, and I absolutely didn't conceal my identity intentionally. I hope all of you don't take offence." Chen Xi thought for a moment before he spoke truthfully in the end.

After he finished speaking, he stared fixedly at Wu Yuan as he wanted to see Wu Yuan's reaction.

Or perhaps, he was gambling. Gambling that as a member of the Goldwave Immortal Pavilion, Wu Yuan would absolutely not make it difficult for him. Not to mention he'd even helped Wu Yuan's son greatly and given up a piece of Azuresoul Divinejade. If Wu Yuan intended to repay kindness with ingratitude, then the actions of the Goldwave Immortal Pavilion would be too disappointing.

Sure enough, Wu Yuan only pondered deeply for a moment before he shook his head and sighed. "No wonder you were able to produce Azuresoul Divinejade and guide my son in talisman crafting. I was thinking that another extraordinary young man had appeared in Cloudray City, yet it turned out to be Young Master Chen Xi."

Master Yu said with a smile on his face, "He really does deserve his reputation."

The atmosphere instantly eased up greatly when they said this.

“Young Master Chen Xi is actually so formidable. I wonder how you offended the Immortal Monarch’s Estate?” Wu Xun asked curiously from the side.

“I was taken away by the members of the Immortal Monarch’s Estate as soon as I ascended into the Immortal Dimension and was reduced to a slave in a mine. Under these circumstances, I could only kill my way out.” Chen Xi shrugged and said helplessly, “As for the exact reason behind this, even I haven’t figured it out yet.”

“I’ve heard about this matter as well. It was roughly at the beginning of last month that the guards under the Immortal Monarch’s Estate had started to repeatedly capture the ascenders from the various Ascension Halls in Eastern Peace Continent. So it turns out that Young Master Chen Xi is one of the victims as well.” Wu Yuan came to a sudden understanding when he heard this.

Chen Xi had a flash of inspiration in his heart and asked. “Then does Administrator Wu Yuan know why Immortal Monarch Lin Hao did this?”

Wu Yuan shook his head and said, “I don’t know. Immortal Monarch Lin Hao is extremely shrewd and acts in a cold and ruthless manner. Unless a great figure like him reveals it himself, otherwise there’s probably no one that’s able to guess the true reason.”

When he spoke up to here, his brows knit together while he pondered deeply before he said, “Presently, Young Master Chen Xi is actually wanted by the Immortal Monarch’s Estate, so it’s slightly difficult to leave the Eastern Peace Continent...”

Chen Xi naturally knew it was extremely difficult, otherwise he wouldn’t put forward such a request.

“Father, you have to help Young Master Chen Xi no matter what. If I didn’t have his guidance, then not only would I have been unable to pass Senior Xuan Yun’s test, a shadow might have been cast over my Dao Heart because of my failure, causing my path towards the Dao to stop here forever.” The nearby Wu Xun looked at Wu Yuan with a hopeful gaze.

“It isn’t that I refuse to help, but even if I arrange for Young Master Chen Xi to leave Eastern Peace Continent with the Goldwave Immortal Pavilion’s merchant group, it would probably be impossible to avoid the detection and pursuit of the Immortal Monarch’s Estate’s forces. In that way, it would be too dangerous, and it would be extremely harmful to the safety of Young Master Chen Xi.” Wu Yuan sighed before he looked at Chen Xi and said, “But don’t worry Young Master Chen Xi, I’ll surely think of a foolproof plan to send you out of Eastern Peace Continent!”

Chen Xi didn’t reveal a shred of delight when he heard this, and his feelings became slightly heavy instead. As the administrator of the Goldwave Immortal Pavilion in Cloudray City, even Wu Yuan said the matter was extremely difficult, and this obviously showed how terrifying the forces of the Immortal Monarch’s Estate were.

“Thank you, Administrator Wu.” Chen Xi restrained his thoughts and spoke solemnly.

“Oh, Young Master Chen Xi, please don’t speak like this. Being unable to help you right away has already caused me to feel rather ashamed.” Wu Yuan hurriedly waved his hand and spoke very regretfully.

“If Young Master Chen Xi is able to repair the talisman marking structures and talisman formations contained within this damaged ancient talisman, then I can guarantee that I’ll be able to send you safely

out of the Eastern Peace Continent.” Right at this moment, Xuan Yun who’d kept silent all along spoke abruptly. As he spoke, he carefully withdrew a crescent shaped and completely pitch black object, and it was like an extremely inconspicuous piece of charred ceramic.

Chen Xi’s brows raised as he never expected that Xuan Yun would make such a request.

“Everyone, please don’t misunderstand me. Actually, according to my own personal will, I really desire to help Young Master Chen Xi. Unfortunately, my strength is limited. But if Young Master Chen Xi is able to repair this talisman formation for me to send back to the Four Divinity Academy, then I can rely on the strength of the academy to help Young Master Chen Xi leave.” Xuan Yun explained patiently.

Everyone came to a sudden understanding and understood Xuan Yun’s intentions. Actually, it was extremely normal because Chen Xi and Xuan Yun weren’t related, so how could he take the risk of offending an Immortal Monarch to help Chen Xi?

So this request he put forward made it more believable that he really did intend to help Chen Xi.

Chapter 1039: Nethergod Nine Cauldron Form

Chen Xi pondered briefly before he answered. “Let me try.”

If he was able to receive the assistance of the Four Divinity Academy through the repair of the talisman marking structures and talisman diagrams on this damaged ancient talisman, then it naturally couldn’t be any better.

Xuan Yun immediately handed over the ancient talisman in his hand to Chen Xi. “This treasure was obtained by a student of my Four Divinity Academy while wandering through the ruins of a battlefield of the gods and devils. It ought to be no less than ten thousand years old. Unfortunately, I and the other teachers have studied it for a few hundreds of years, yet were unable to repair it.” As he finished speaking, his voice already carried a wisp of regret.

Wu Yuan and Master Yu were shocked when they heard this. They were clearly aware that the Four Divinity Academy in Southbridge Continent was a renowned paradise of the Dao of Talismans in the Immortal Dimension.

In terms of its forces and inheritance, it was merely inferior to the seven great academies of the four great continents. Even then, amongst the 4,900 continents in the Immortal Dimension, it was still a first-rate paradise of cultivation.

The attainments in the Dao of Talismans of every single teacher in the academy had already arrived at the ranks of supreme grandmasters!

Xuan Yun was naturally no exception. Even though his cultivation was only at the advanced-stage of the Mysterious Immortal Realm, yet merely his identity as a supreme talisman formation grandmaster was something that caused even a Golden Immortal to not dare be disrespectful towards him.

The other teachers he spoke of were definitely supreme talisman formation grandmasters as well, yet such a group of people had actually been stuck in their efforts to repair this damaged ancient talisman for a few hundreds of years, so it obviously showed how shocking the origins of this treasure was.

Of course, no matter how shocking its origins were, it was trash if it couldn't be repaired, so it wasn't so easy to determine its value.

Chen Xi didn't know much about all of this, and he just received the talisman in his hand before starting to study it carefully.

This ancient talisman seemed to be crescent shaped and completely pitch black. It was around the size of an infant's palm, and it was extremely inconspicuous. But it felt extremely heavy in the hand and was icy cold like metal, and it was suffused with a strand of an ancient aura.

Intricate and profound traces of talisman markings could be seen on its surface, and it seemed as if it was inscribed with the tip of a blade. The lines of the talisman markings were rough, firm, and revealed a heavy and powerful aura.

Unfortunately, the talisman marking structures and talisman formations were extremely damaged like a piece of ceramic that had been crushed into pieces, and it was impossible to determine what sort of talisman it was merely by the talisman markings it revealed.

Chen Xi sized it up for a long time yet was similarly unable to discern any clues.

But this caused him to be even more curious because since he travelled through the Talisman Dimension and ascended the Grand Deduction Tower, it was extremely difficult for him to encounter a talisman that he didn't understand. Yet it just so happened that the talisman marking structures on this damaged ancient talisman were something he'd never seen before, so how could he not be curious?

If Wu Xun was crazy about talismans, then Chen Xi was absolutely mad about them, and his persistence and passion towards the Dao of Talismans had been branded on his bones.

At this moment, he naturally couldn't avoid having his interest awakened when he saw such a damaged ancient talisman.

Let me see exactly what profundities are hidden within this thing and why it's so obscure and difficult to comprehend... Chen Xi pondered in his heart.

He was just about to pour his Immortal Force into the ancient talisman to investigate it when he heard the nearby Xuan Yun.

"This treasure is impervious to flames and water, and weapons can't harm it in the slightest. In these past few years, we've used all sorts of methods, yet they were all in vain."

When he mentioned this damaged ancient talisman, Xuan Yun's emotionless and emaciated face obviously revealed the color of unusual emotion.

"Oh," said Chen Xi while he instantly dispelled the thoughts in his heart, and he obtained a conclusion. Looks like ordinary methods are useless to this treasure, otherwise, it would have been comprehended a long time ago and wouldn't have fallen to me to comprehend.

"How is it? Are you able to discern anything?" Master Yu couldn't refrain from asking.

Chen Xi shook his head. "Not yet."

Wu Yuan and Master Yu glanced at each other when they heard this, whereas Xuan Yun couldn't help but reveal a wisp of disappointment before he laughed lightheartedly right after.

Right, perhaps his attainments and natural talent in the Dao of Talismans is shocking, yet he's too young after all. Even those old friends of mine and I were unable to see through this treasure, so how could he possibly see through it in a mere ten minutes?

"But if it's possible, I'd like to study it carefully in meditation and perhaps I'll be able to learn something." Chen Xi pondered deeply before he spoke.

Xuan Yun was slightly dispirited and waved his hand as he said, "Go ahead. It's fine even if you're unable to repair it."

"Senior Xuan Yun, would this mean that you're unable to help Young Master Chen Xi?" Wu Xun was slightly anxious.

Xuan Yun was stunned, and then he laughed bitterly. "Perhaps I'll be able to be unafraid of the threat posed by the Immortal Monarch's Estate if I was alone, but if I were to bring Young Master Chen Xi along, then it might not be the case."

The brows of the others knit together even more tightly when they heard this because this was truly troublesome.

"Young Master Chen Xi, are you confident in being able to repair it?" Wu Xun was slightly unwilling to give up and asked in a low voice.

"Don't cause trouble! How can he know without trying and completing it?" Wu Yuan glared at his son and felt his son was slightly rash.

Chen Xi smiled and said instead, "I do have some confidence, and it's at around fifty percent for now."

Everyone was instantly stunned as they never imagined that Chen Xi would actually be confident in repairing this damaged ancient talisman.

After a short moment, Xuan Yun shook his head and said, "I'll be leaving three days from now. I'll be awaiting good news from you during this period of time."

His voice was dispirited while his attitude was perfunctory. Obviously, he felt that Chen Xi had said this only out of Chen Xi's desire to excel, and he understood it very well because which young person wasn't like this?

As soon as he finished speaking, he'd stood up and left the hall.

Wu Yuan couldn't help but go forward and encourage Chen Xi when he saw this. "Young Master Chen Xi, you don't have to put yourself to such trouble. Even if you don't have Senior Xuan Yun's assistance, you still have mine."

Chen Xi smiled and nodded to display his understanding.

Subsequently, Wu Yuan instructed Wu Xun to take Chen Xi to a clean and elegant room before he left.

...

Once there was no one else present, Chen Xi didn't delay any longer. He immediately sat cross-legged on the bed before placing the damaged ancient talisman before him.

Om!

In the next moment, a vertical eye suddenly opened up between his brows. It was pitch black, icy cold, and deep like the mysteries of the universe were being developed and destroyed within it.

The Eye of Divine Truth!

This Divine Ability was said to be able to see through reality and the essence of everything in the world, and it was an unprecedented Divine Ability that was ranked in the top thirty of the Divine Ability Gold Rankings in the three dimensions.

The fifty percent confidence Chen Xi spoke of earlier came from his confidence towards the Eye of Divine Truth. Unfortunately, it wasn't just Xuan Yun, even Wu Yuan and the others didn't take his confidence seriously, and Chen Xi was unable to explain it.

After all was said and done, everything depended on whether he was able to repair this damaged ancient talisman. After all, facts were always more convincing than meaningless talk.

The Eye of Divine Truth emanated a strand of deep and jet black light that completely enveloped the entire ancient talisman. In next to no time, some intriguing scenes floated up into Chen Xi's mind.

This caused his spirits to be instantly refreshed. It really works!

But right after that, he didn't have the time to think about anything else as his entire mind was enveloped by a vast and marvelous scene, and it was like he'd arrived at an ancient world.

Countless obscure talisman markings were like numerous dazzling stars that flickered in every inch of space. They sometimes transformed into rains of light that fluttered about, sometimes rose up like mist, sometimes emanated strands of blazing and resplendent glows, sometimes resounded with low and unknown obscure sounds...

They were talisman markings that were evolving before his eyes, and they were ancient talisman markings that came from countless years in the past. But Chen Xi faintly had a familiar feeling towards them.

It seems as if...I've seen them somewhere?

Chen Xi frowned as he pondered bitterly. Talisman markings were formed from the markings in the heavens and the earth, and every single plant, rock, and so on and so forth contained various markings and lines.

Later on, the myriad of living beings in the world had comprehended traces of the 'Dao' from within the markings of nature in the world. Thus, it formed words and symbols that brought intelligence and profound techniques to all the living beings in the world.

These words and symbols included various types of inscriptions and symbols that represented everything in the world. All of this formed a variety of cultures and civilizations like the civilization of Fiendgods, monsters, spirit souls, beasts, nether souls...

All in all, the formation of words and symbols represented the birth and continuation of civilization, and all of this followed along the traces of the 'Dao.'

These traces could all be attributed to 'talismans.'

Amongst the 3,000 Grand Daos, the Dao of Talismans was the most ordinary, yet it was publicly acknowledged in the three dimensions as the most difficult and obscure Grand Dao. This perception was absolutely not from irresponsible remarks, but it was a conclusion formed from tests and verification by predecessors along a period of countless years.

After a long time, a flash of inspiration arose in Chen Xi's mind as he suddenly thought of a possibility — the writing of Fiendgods! Instantly, the gaze he shot at the talisman markings that covered the sky had changed, and it was as if he was looking at traces of the Dao that were branded with the civilization of Fiendgods floating and evolving in the heavens and the earth.

So it turns out that these talisman markings are the source of the writing of Fiendgods, and they formed the foundation of it. Similarly, it's the most primeval traces of the Dao that the Fiendgods comprehended after being born in the world... Along with the change in his understanding, Chen Xi's eyes became brighter and brighter, and it seemed as if they were flickering with a deep glow of wisdom.

Om!

After an unknown period of time, the ancient talisman markings that covered the sky had suddenly stopped before seeming to transform into a mountain torrent as they surged and rumbled towards Chen Xi.

Chen Xi felt his entire body stiffen as he instantly awoke from the strange scenes he was witnessing, and he was extremely dazed for some time. Everything he experienced earlier seemed as if he'd gone through time to the ancient times when Fiendgods reigned supreme, and this unique experience caused his heart to be unable to calm down for a long time.

Nethergod Nine Cauldron Form... I never expected that this damaged ancient talisman actually had a cultivation technique inherited from the Fiendgods sealed within it. If I didn't possess the Eye of Divine Truth, it would have probably been impossible to comprehend this... After a long time, Chen Xi's mind regained clarity while an ancient and obscure cultivation technique had appeared within his mind, and it was like a brand that was impossible to remove.

On the other hand, the damaged ancient talisman in his hand had already transformed from the shape of a crescent into the shape of a full moon. Moreover, it had shed its pitch black and charred outer appearance to reveal a jade white and translucent appearance that seemed flawless.

Chapter 1040: Supreme Body Refinement Technique

Chen Xi didn't impatiently start to comprehend the mysterious Nethergod Nine Cauldron Form, and he sized up the damaged ancient talisman in his hand instead.

Its outline was completely round and flawless, its quality snow white like jade, and strands of dense golden talisman markings crept all around its surface while it was suffused with a vast and ancient aura that assaulted Chen Xi's face.

This damaged ancient talisman seemed to be completely different when compared to before.

Chen Xi picked it up and scanned it for some time before noticing the profundity hidden within it. Strictly speaking, this was an ancient Shaman Talisman, and it was called 'A World Hidden In A Moment.'

The formation on the talisman was similar to a seal, yet it was even more concealed and obscure than a seal. The damaged talisman markings weren't actually damaged, and it was a form of disguise that was put up for the sake of sealing what was hidden within the talisman instead.

The supreme talisman formation grandmaster. Xuan Yun, from the Four Divinity Academy had spent a few hundred years yet was unable to see through this disguise, so it obviously showed the shocking attainments in the Dao of Talismans that was possessed by the owner of this ancient talisman.

Even Chen Xi had relied on the assistance of the Eye of Divine Truth to unravel the veil that enveloped the talisman to see through to its true form.

However, such an ancient talisman was crafted merely for the sake of sealing a cultivation technique called the Nethergod Nine Cauldron Form, thus Chen Xi was able to determine that this cultivation technique was surely extraordinary.

Presently, this damaged ancient talisman can be said to have recovered by itself. I only have to hand it over to Xuan Yun, and I'll be able to make him fulfill his promise. Now, I'll have a look at what sort of profundities are contained within this cultivation technique... Chen Xi pondered briefly before he put the ancient talisman away, and he entered into a state of meditation before he started to comprehend the mysterious cultivation technique branded in his mind.

"A cauldron, the weapon of an emperor that rules over the land and universe. Nothing before it cannot be ruled..."

"Traced back from the Grand Dao, the cauldron was a weapon and tool capable of embracing the profundities of the universe within it..."

"Nine, the limit of numbers. It returns to one at the end of nine, a restart, and it evolves continuously into infinity..."

Numerous obscure and vast comprehensions surged into Chen Xi's heart like a river, and along with the passage of time, his calm expression couldn't help but reveal a wisp of shock.

The Nethergod Nine Cauldron Form was actually a rare body refinement cultivation technique that reached the limits of the Grand Dao and secrets of the heavens, and it transformed strength into the form of nine cauldrons. It was inherited from an ancient Fiendgod that was born from chaos, and this inheritance was so ancient that it was simply unimaginable.

If it was merely this, then Chen Xi wouldn't be so shocked. After all, the Allheaven Truth, Sword of Creation, and various other cultivation techniques weren't inferior to this technique in terms of age.

The real reason for Chen Xi's shock was that merely the starting requirements to comprehend and cultivate the Nethergod Nine Cauldron Form was the comprehension of nine Grand Dao profundities to perfection!

In other words, if one didn't grasp nine or more Grand Dao profundities to perfection, one wouldn't even have the qualifications to cultivate this technique!

This was sufficient to prove how extraordinary this cultivation technique was, and it was absolutely the cultivation technique with the harshest requirements amongst those that Chen Xi had encountered.

Chen Xi took a deep breath and forcefully restrained the shock in his heart before he continued to look through it.

Subsequently were numerous strings of obscure and profound key points to cultivate it. According to what was recorded within it, this cultivation technique was divided into nine levels, and it was called the nine levels of the Nethergod.

Every single level would cause the strength of a body refiner to undergo a tremendous change that was akin to rebirth. When one cultivated it to the highest level, it would be sufficient for one to look proudly upon the ages and reign supreme in the world!

Moreover, as his comprehension grew deeper and deeper, Chen Xi gradually noticed that instead of calling this body refinement cultivation technique as something made for body refiners to cultivate, it could be said to be specially made for immortals that took cultivated in the School of Fiendgod Body Refinement.

Because the requirements of this cultivation technique were truly too harsh. The initial requirements of nine Perfection Realm Grand Dao profundities merely satisfied the basic requirements. In the subsequent cultivation of the technique, the advancement of every single level required extraordinarily enormous amounts of Immortal Shaman Energy as foundation, otherwise, it would be like the saying, one couldn't make something out of nothing.

After a long time, Chen Xi returned to his senses from his deep levels of comprehension, and he heaved a long sigh of relief and said while seeming to be in deep thought, My current body refinement cultivation only lacks sufficient Immortal Shaman Bloodsoul Stones to charge into the Heavenly Immortal Realm. When that time comes, perhaps choosing the Nethergod Nine Cauldron Form as my cultivation technique would be a good choice...

Right at this moment, a wave of knocking resounded.

...

Within the courtyard, Wu Yuan couldn't help but smile bitterly without end as he looked at Xuan Yun who carried a slightly displeased expression, and he hesitated for a long time before he gritted his teeth as he moved forward and said in a low voice, "Senior Xuan Yun, why don't you stay for two more days and wait for a while? Perhaps Young Master Chen Xi will give you a pleasant surprise."

Xuan Yun didn't even give it a thought before he refused with an angry expression. "There's no need to persuade me. The original agreement was three days of time, yet it has been five days now. If I was free, then I would be happy to disturb you for a few more days."

"But even you're aware that the period of recruitment for my Four Divinity Academy is ending in two days. If I still don't return to manage the affairs in the sect, then the students that I recruited in the

various continents this year would lose their qualifications to enter the academy, and I can't afford to bear the responsibility for this."

Wu Yuan's mouth opened, yet he didn't say anything further in the end.

He was naturally aware of these things because his son, Wu Xun, was one of the students that Xuan Yun had recruited this time. If Wu Xun lost his qualifications to enter the academy because Xuan Yun was delayed, then the consequences were something that even he was unable to accept.

"Alas, there's no need to try to persuade me. That Chen Xi's attainments and natural talent in the Dao of Talismans are extraordinary indeed, but the time he has is too short in the end. So how could he possibly comprehend anything?" Xuan Yun sighed, and then he thought for a moment before he suddenly said, "But since I've agreed to help him earlier. Even though he was unable to complete the conditions I put forward, I can give him a chance as well. So long as he's willing, he can follow by my side and leave the Eastern Peace Continent."

Wu Yuan said with delight, "That can't be any better."

Xuan Yu said indifferently instead, "Don't get happy too early. If the Immortal Monarch's Estate's forces insist on capturing him, then it's impossible for me to protect him by myself, and it will surely be extremely dangerous."

Wu Yuan was stunned, and then he sighed in the end.

The Immortal Monarch's Estate seemed to be merely three simple words, yet the strength of the forces it represented was simply like the ruler of the Eastern Peace Continent, so how could an existence that was wanted by the Immortal Monarch's Estate escape so easily?

It was precisely because he was very well aware of the Immortal Monarch's Estate's strength that Wu Yuan and Xuan Yun would feel that it was so difficult and not dare guarantee that they would be able to send Chen Xi safely out of the Eastern Peace Continent.

"Go on, ask Young Master Chen Xi what he thinks. If he's willing, he can follow by my side, and if he isn't then I can only leave first." Xuan Yun looked at Wu Xun who stood by his side as he instructed.

Wu Xun was slightly conflicted, and he glanced at his father, Wu Yuan.

"Go on, you and Senior Xuan Yu can't delay leaving any longer. I'll try my best to make it up to Young Master Chen Xi." Wu Yuan waved his hand.

Wu Xun nodded, and then he walked forward immediately. He hesitated for a long time before he finally knocked on Chen Xi's door.

Creak!

The door was opened to reveal Chen Xi's tall figure.

"Young Master Chen Xi, there's no need to feel dispirited. It's alright that you weren't able to repair the damaged ancient talisman because Senior Xuan Yun has already agreed that you can leave with him right now if you're willing to do so." Wu Xun seemed to have a slight feeling of having let Chen Xi down, and he didn't wait for Chen Xi to speak before speaking a great deal of things with a regretful tone.

Chen Xi was bewildered and stunned, and he said, "Three days have passed already?"

"It's five." Wu Xun spoke casually.

"Five days have actually passed..." A wisp of a dazed expression flashed in Chen Xi's eyes as he never expected that such a long period of time would pass after a brief moment of meditation.

Wu Xun felt even more ashamed when he saw Chen Xi's slightly dazed expression because he thought Chen Xi was unable to accept this reality, and he immediately said in a regretful tone, "If it wasn't for Young Master Chen Xi's guidance, then it would be impossible for I, Wu Xun, to pass Senior Xuan Yun's test, yet I'm unable to help Young Master after you've showed me such kindness, and it causes me to feel ill at ease in my heart. Young Master, feel free to put forward any request you have, and my father will surely agree to it."

"Exactly, I do indeed feel extremely uneasy for being unable to help Young Master Chen Xi this time. If there's anything you need, feel free to tell me." The nearby Wu Yuan spoke as well, and he revealed a complicated expression.

It was obvious from this that this pair of father and son were indeed sincere towards Chen Xi, otherwise, they wouldn't humble themselves like this.

Meanwhile, Chen Xi finally came to an understanding, and he couldn't help but rub his nose and laugh bitterly, "Could it be that all of you still think that I'm really unable to repair that damaged ancient talisman?"

Wu Yuan and Wu Xun felt slight disbelief, and they thought Chen Xi was ashamed and was intentionally joking with them.

"Haha! Of course not. It's just that Senior Xuan Yun has to leave today, and the time given to Young Master Chen Xi was too short. If Young Master Chen Xi had more time, then I believe Young Master Chen Xi would surely be able to succeed with your attainments in the Dao of Talismans." Wu Yuan roared with laughter while revealing a considerate expression, and everything he said was said to give Chen Xi a way out of the embarrassing situation.

"Young Master Chen Xi, don't let this bother you because repairing that ancient talisman is too difficult in the end, and it can't be accomplished overnight. If you have the chance, you can come look for me at the Four Divinity Academy, and we can consider how to repair it together." Meanwhile, Xuan Yun spoke as well. There was no ridicule or coldness in his tone, yet the meaning within his words were obvious. He felt that Chen Xi was joking and looking for a way out of the embarrassing situation.

Chen Xi laughed bitterly once more and shrugged helplessly before he flipped his palm, and then he passed over the ancient talisman that looked brand new. "Senior Xuan Yun, please have a look."

Wu Yuan was stunned.

Wu Xun was stunned.

Xuan Yun's entire body stiffened instead while his gaze suddenly erupted with a wisp of divine light that locked firmly onto the flawless and snow white ancient talisman that was suffused with a vast and ancient aura.

“It’s...actually true?” Xuan Yun was slightly excited, yet he still felt slight disbelief. He couldn’t be bothered about maintaining his graceful bearing as he strode over with a vigorous stride and grabbed the ancient talisman from Chen Xi’s hand, and then he raised it to his eyes and sized it up carefully.
