Chapter 1321: Place Of Unres

Huang Lang's neck was held by Chen Xi, and a wave of struggling was done in wait, causing him to be unable to help but let out a shrill cry. "Let go! Let me go! Motherfucker...!"

Crack!

The bones in Huang Lang's neck were shattered, causing his voice to stop abruptly, and then his head tilted sideways as he died.

"Even though Immortal Stones are precious, you need to keep your life to receive them." Chen Xi took his storage pouch back before casually tossing Huang Lang's corpse away.

Li Bao and the others' eyes couldn't help but twitch from this ruthless and decisive scene, and then their expressions turned grim. Looks like this kid is a ruthless figure.

"Do all of you intend to take revenge for him or leave right now?" Chen Xi raised his head, and his gaze was like a blade as it swept coldly past them.

"Friend, this is Sin City. Your actions are going a bit too far!" Li Bai who was in the lead grunted coldly while he stared at Chen Xi with a gloomy expression.

"So all of you intend to take revenge for him?" Chen Xi's expression was calm as before.

Li Bai's eyes narrowed, and he was slightly unable to see through the young man before him. He said after a short while, "Killing is wrong in the end. Friend, why don't you give up your valuables, and we'll immediately let you go. Alright?"

Chen Xi smiled. "What if I don't agree?"

"You don't agree? Then we brothers won't agree as well. Let me remind you again, this is Sin City. You're just a newcomer, don't be muddled and throw your life away!" Li Bao revealed a ghastly smile while the aura of sin in his entire body surged violently.

Behind him, his subordinates laughed coldly without end, and their eyes revealed a cruel and bloodthirsty sheen.

In the recent years that they'd resided in Sin City, they'd seen many newcomers like Chen Xi. All of them were extraordinarily arrogant, yet all of them perished in the end.

Chen Xi's gaze suddenly flowed with a wisp of a piercingly cold and terrifying glow. "I'll warn all of you once more. I'll count to three, all of you better fuck off."

When the words fuck off were spoken, it was like a surging and deafening thunderclap.

Rumble!

Space was shaken by this shapeless soundwave, and it shocked them to the point they became restless. Moreover, many of their faces turned grim, and they were forced back by a few steps from fear.

“Dammit! Who’re you?” Chen Xi’s voice carried a terrifying energy of the Grand Dao, and it shook Li Bao’s heart to the point he experienced hallucinations. He couldn’t help but take a step back, and he instantly shouted in a grim voice after turning angry from embarrassment.

“One!” Chen Xi didn’t answer the question and spoke calmly.

“Attack! All of you! Kill this ignorant bastard!” Li Bai waved his hand, and he roared with a savage and grim expression.

“Kill!”

“Kill!”

Over thirty Mysterious Immortal Realm experts and a few Golden Immortal Realm experts attacked at this moment, and they charged at Chen Xi from all directions.

“Two!” In an instant, Chen Xi’s figure vanished into thin air, and it caused all their attacks to lose their targets.

Li Bao’s pupils constricted while a trace of a bad feeling arose in his heart. Before he could make any reaction, Chen Xi’s voice resounded once more.

“Three!”

When the word three was spoken, Chen Xi’s figure suddenly appeared out of space, and then he flicked his sleeve, causing numerous strands of murderous sword qi to shoot into the sky. In the next moment, it had enveloped the entire heavens and the earth, and it was like a finely woven net of swords!

Pu! Pu! Pu!

Blood sprayed!

Pieces of flesh shot into the sky!

The thirty plus Mysterious Immortal Realm experts that faced the brunt of Chen Xi’s attack were instantly sliced apart, and they didn’t even have the chance to let out a shrill cry. Chen Xi’s sword qi was too swift and sharp, and it exceeded their imagination. They were only at the Mysterious Immortal Realm, so they were simply like ants. How could they possibly resist him?

“What!?” Li Bao was horrified. He annihilated more than half of my subordinates with a single strike? Who exactly is this young man?

Swoosh! Swoosh! Swoosh!

Sword qi tore through the sky both horizontally and vertically. In merely the moment Li Bai was dazed, the subordinates at the Golden Immortal Realm that remained were annihilated by Chen Xi’s sword qi, and it was even to the point that their souls were minced into pieces.

“Dammit! I’ve bitten off more than I can chew!” Li Bao’s face turned pale because a ferocious figure that could kill seven Golden Immortal Realm experts in an instant was rare even in Sin City!

He knew that he'd been led into a trap by Huang Lang this time because this young man was no sheep waiting to be slaughtered, the young man was obviously a terrifying existence that concealed his strength! But at this moment...it was too late for regret.

"Kill!" Li Bao suddenly took a deep breath while the energy of sin within his body surged, and he held a blood red spear as he suddenly assaulted Chen Xi.

Rumble!

Space shattered as this spear flashed violently through the sky like raging thunder, and it had completely displayed the strength of an existence at the advanced-stage of the Golden Immortal Realm. It was even to the extent that Li Bao's attack had achieved a breakthrough, causing even existences at the same realm to probably have no choice but to avoid this attack.

However, Chen Xi's figure suddenly stopped moving when facing this attack. He gazed silently at the blood red spear that filled his field of vision, and only when it was 30cm away from his chest did Chen Xi suddenly stretch out his hand and grab it with ease.

Bang!

The blood red spear stopped in midair, and it was unable to move forward in the slightest!

On the other hand, at the other side of the spear, Li Bao's pupils suddenly dilated while his face turned ghastly pale, and a wisp of terror and astonishment had already uncontrollably suffused his face.

At this instant, he didn't think at all and directly abandoned his blood red spear before flashing away with the intention of fleeing because this young man's strength was too terrifying, and they weren't existences at the same level at all.

"Sorry, but I need to use your head." An indifferent voice resounded by the side of Li Bao's ears, and it caused the hairs on his entire body to stand on end while his soul almost left his body. Under the threat of death, he couldn't help but intend to beg for mercy.

However, right at this moment, he suddenly heard a muffled sound, and then he noticed to his shock that his body was actually headless...

The reason for this was Chen Xi had attacked too swiftly and directly cut through his neck, causing his head to fly into the sky, allowing him to witness such an extremely horrifying scene.

After that, Li Bao's vision turned dark as he lost all consciousness.

Swish!

Blood sprayed like a fountain that shot through the sky, whereas Li Bao's head was already in Chen Xi's hand.

There ought to be no one that'll look for trouble with me while I hold your head... Chen Xi rubbed his chin, and then he didn't spare another glance to the pile of corpses on the ground before leaving swiftly with Li Bao's head in hand.

The entire battle had only lasted for a short moment.

In other words, this wasn't a battle at all, it was a slaughter!

"How ruthless!"

"This young man is probably a newcomer. Unfortunately, that idiot Li Bao became accustomed to acting arrogantly and willfully all these years. He didn't even investigate that young man's ability before rashly making a move. Isn't that like courting death?"

"But it's good that Li Bao is dead. At the very least, it allowed us to be clearly aware that the young man's ability is very extraordinary."

"I'm just curious. Exactly what is the identity of this kid? It would be slightly troublesome if he's an Immortal Hunter..."

"Go, get someone to investigate."

After Chen Xi left, numerous figures appeared at the scene, and their expressions were heavy as they gazed at the corpses and blood that covered the ground. They discussed in low voices for a while before they left successively.

No one buried the dead, nor did anyone clean up the battlefield.

Because there were truly too many battles that occurred in Sin City every single day. Every single villain in Sin City was already accustomed to life and death a long time ago, and it was nothing unusual to them.

...

Chen Xi held Li Bao's head, and all along the way, it drew the surprised gazes of many. However, not a single person dared to come looking for trouble with Chen Xi.

This its deterring might.

At any rate, Li Bao was a renowned figure in Sin City, and as an expert at the advanced-stage of the Golden Immortal Realm, not only were his methods ruthless, he'd gathered a group of subordinates, causing there to be rarely anyone that dared to offend Li Bao.

Now, Li Bao's head was held in the hands of an unfamiliar young man, and the meaning behind this was too obvious.

After ten minutes had passed, Chen Xi finally found Dragonsoul Restaurant.

It was a restaurant that towered into the clouds, and it was situated at the edge of Endless City. The violent and vast Endless Sea was right beside it.

This restaurant was completely constructed from pitch black and enormous rocks while its surface was covered in mottled stains of dark red blood. When looked at from afar, it was like a black dragon towering into the sky, and it emanated a savage aura.

I never expected that a restaurant of such scale would actually exist in Sin City... Chen Xi briefly sized up Dragonsoul Restaurant before directly walking in.

“Young Master, are you here to stay or to have a meal?” When he saw Chen Xi walking in while holding Li Bao’s head, the corners of the manager behind the counter couldn’t help but twitch, and he hurriedly welcomed Chen Xi with a smile.

“I’ll be staying here for some time, but it won’t be more than ten days.” Chen Xi tossed over a storage pouch, and it was precisely the 5,000 Immortal Stones he gave Huang Lang earlier. However, the latter wasn’t alive to spend it any longer.

“Ten days? This is far from sufficient if you’re going to stay.” The manager took a glance at the storage pouch after receiving it, and then it spoke with an awkward expression.

According to the manager’s explanation, Sin City was unlike the outside world, and the prices here was extremely far from what is normal. The reason was that this place was filled with danger, and there were all sorts of villains moving about here, so merchants didn’t dare do business here at all.

This caused Sin City to be severely lacking in goods, thus the costs would naturally be extremely high.

Chen Xi understood this, so he paid another 5,000 Immortal Stones before he was led to a private room on the third floor.

“Young Master, you have to be careful. My Dragonsoul Restaurant holds no responsibility towards any mishaps that occur here.” Before he left, the manager glanced at the head in Chen Xi’s hand, and he warned with deep meaning behind his words.

“Thank you for the reminder.” Chen Xi smiled and wasn’t surprised by this.

After he rested in the room for a while, Chen Xi thought for a moment and left the room in the end. He arrived at the hall on the first floor and ordered some food before eating and drinking by himself.

I wonder when Miss Dian Dian will arrive. The longer I stay here, the more I’ll be unable to restrain myself from killing people... Chen Xi turned around to look outside the window, and he was able to clearly sense that there were countless villains carrying out evil deeds in the area of 500km around him. They were killing, engaging in conflicts, blood, sin... Various auras suffused the air at all times.

It was the energy of sin, and it was the source of sin.

It was utterly impossible to find a kindhearted person here.

This included the manager that was sizing him up from behind the counter at this moment. The manager’s entire body seemed to be clean, yet Chen Xi was actually clearly aware that this fellow had restrained the aura of sin in his body. However, once it was released, it was even be greater than Li Bao’s.

The was Sin City, a haven where villains gathered.

Chapter 1322: Elder Ge Yun

This was a city of sin indeed.

During this period of time where Chen Xi was sitting alone on the first floor of Dragonsoul Restaurant, three conflicts had already erupted within the restaurant. However, they hadn't engaged in battle when they were picked up and tossed out by the manager.

The customers in the restaurant were accustomed to this long ago, and they weren't surprised.

'Friend, do you mind me drinking with you?' Suddenly, a young man in embroidered clothes arrived by Chen Xi's side, and he spoke while a warm smile hanging on his lips. He had fair skin, bright eyes, and seemed like a handsome and amorous young master.

"I do." Chen Xi spoke in a neither cold nor indifferent manner. "I'm waiting for someone. You can go sit with someone else."

The young man blinked yet seemed as if he didn't know the meaning of the word 'rules' at all. He slowly sat down opposite of Chen Xi and grinned as he said, "There are so many bad people here. Could it be that you want me to go drink with those bad people?"

As he finished speaking, the corners of his mouth curled up and carried a pitiable expression.

However, Chen Xi felt a wave of detest in his heart. Isn't this fellow too feminine? Why act like this when you're a man? Many bad people? Could it be that he doesn't know this is Sin City?

But right after that, Chen Xi was stunned. Only now did he realize that this handsome young man before him had a warm and clean look, and when he utilized the Eye of Divine Truth, he was unable to find a shred of the aura of sin on the young man.

"So, it turns out that you came here with other intentions as well." Chen Xi glanced at the young man while seeming to be lost in thought.

The young man was stunned, and then he nodded with a smile. "Right, I'm waiting for someone as well."

"Oh? That really is a coincidence." Chen Xi's brows raised.

"It really is." The young man grinned as he poured a cup of wine for himself, and then he placed his hands on his cheeks before staring at Chen Xi and sighing faintly. "Unfortunately, that person is right before me, yet doesn't recognize me. It's truly sad."

Chen Xi's eyes opened wide while he choked on the mouthful of wine in his mouth, and almost suffocated. After quite a while passed, he finally swallowed the mouthful of wine and sized up the young man before him with a strange expression as if he'd finally come to an understanding.

"Now, you've finally realized?" The young man blinked.

"Yes, I have." Chen Xi nodded. "So, it turns out that you're a man."

Pu!

A mouthful of wine sprayed out from the young man's mouth, and he glared with Chen Xi with an astounded expression. "A man?"

After that, he was amused to the point of laughing while faint dimples appeared on his cheeks, and his eyes formed into the shapes of two crescents. Moreover, his red and moist lips curled into a beautiful act. In an instant, he actually revealed a wisp of peerless beauty.

After that, Chen Xi finally knew that he'd misunderstood, and he couldn't help but be slightly embarrassed.

The young man before him was naturally the mysterious woman that called herself Dian Dian. However, it wasn't Chen Xi's fault that he couldn't recognize her because she'd utilized some sort of secret technique to completely conceal her aura and change it, causing others to be utterly unable to discern her true identity.

"Why did you choose this place as the location?" When he saw her stop laughing, Chen Xi instantly changed the topic. Truthfully speaking, he'd never expected that she would actually be here so early, and it was equivalent to wasting ten thousand Immortal Stones on the room for nothing.

"Only this place leads to the Prehistoric Ruins." Dian Dian restrained her smile and picked up the wine jar before playing with it in her hands. Her fingers were slender, fair, tender, and extraordinarily beautiful.

The Prehistoric Ruins! Chen Xi's eyes focused. It really is as I expected. According to the information he obtained from Ling Bai, the Prehistoric Ruins was currently the location where the upheaval of the three dimensions began, and it was filled with destruction and calamity. So heading over there at this moment was undoubtedly no different than taking an extraordinary risk.

Chen Xi couldn't refrain himself from asking. "Why?"

Dian Dian grinned and said, "It's naturally for the sake of fortuitous encounters. The Prehistoric Ruins is one of the most ancient territories in the three dimensions, and the energy of the World Laws during the prehistoric times still remains there. It isn't just that, numerous sects of the prehistoric times are buried there. Presently, along with the arrival of the upheaval of the three dimensions, some places of fortune are about to emerge there."

She paused for a moment, and then her bright eyes stared at Chen Xi as she said, "This is a rare fortuitous encounter. If we miss it, then the Prehistoric Ruins will be completely obliterated and lost."

Chen Xi frowned instead. "I'm just worried my strength isn't sufficient. What if a mishap occurs? The consequences would be unimaginable."

"Don't worry, you have me." Dian Dian's cherry lips parted lightly as she spoke with a sweet voice, and her face carried a calm and confident expression.

"I still don't understand what I'll be able to help you in during this trip?" asked Chen Xi.

"I'll tell you in detail after we arrive at the Prehistoric Ruins. In short, once the trip concludes, that River Diagram fragment will be yours. At any rate, it already isn't of much use in my hands."

When she spoke up to here, her expression suddenly became serious. "We'll be heading to the Prehistoric Ruins by travelling through the Endless Sea early in the morning tomorrow. At that time, two

disciples from Nuwa's Dao Palace will be joining us. Once we meet, you don't have to pay any attention to them, and you just have to follow by my side."

Nuwa's Dao Palace!

Chen Xi was extremely shocked in his heart. Never had he imagined that this trip to the Prehistoric Ruins would actually be related to Nuwa's Dao Palace as well.

This allowed him to deeply understand that the fortune she planned to obtain during this trip was definitely not minor at all!

"Since the heirs of Nuwa's Dao Palace have appeared, then what about the other sects?" asked Chen Xi with a frown on his face.

He didn't name Oracle Mountain and the Sovereign Sect, but he believed that Dian Dian would definitely be able to understand the meaning behind his words.

"I'm only aware that the Sovereign Sect seems to have sent out some members. However, they aren't our allies." Dian Dian's lips curled into a smile that carried deep meaning. "As for Oracle Mountain... I don't know."

This smile caused Chen Xi's heart to thump. He faintly felt that Dian Dian had probably guessed his identity. But since she didn't state it explicitly, he wouldn't take the initiative to admit it himself.

For a time, Chen Xi was slightly silent.

He needed some time to digest all this shocking information.

According to his knowledge, entering the Prehistoric Ruins from the Immortal Dimension was as simple as just traversing the Endless Sea. They still had to pass through a barrier condensed from the world energy of the Prehistoric Ruins.

This barrier was utterly impossible to pass through without a cultivation at the Half-step Immortal King Realm, and Ling Bai and the others were only able to head to Darkombat City to look for him because Heaven Trampler had helped them break open this barrier.

Looks like no matter if it's Nuwa's Dao Palace or the Sovereign Sect, the strengths of their experts heading to the Prehistoric Ruins this time will definitely be no less than the Half-step Immortal King Realm, and it's even to the extent that there might be existences at the Immortal King Realm! When he thought up to here, Chen Xi couldn't help but raise his eyes to look at Dian Dian who sat before him. However, he noticed that the latter was staring at him with a smile, and this caused him to be stunned before suppressing the questions within his heart in the end.

He stopped thinking about all this because so long as she was able to guarantee his safety, then even if he wasn't able to obtain anything from this trip to the Prehistoric Ruins, it was sufficient so long as she gave him the River Diagram fragment as agreed upon.

"Young Brothers, both of you are truly handsome. Why don't we have a drink?" Right at this moment, a crude and robust man walked over. He had an extremely fierce appearance, a long beard, bell-sized eyes, yet he spoke with an extremely feminine, fine, and terrifying voice.

Especially his dressing. He wore green clothes and red shoes while his hair was coiled into a bun, and his mouth was scarlet red, causing him to seem extremely shocking. His waist swayed as he walked, and he seemed extremely strange.

Chen Xi and Dian Dian exchanged glances, and a wave of detest surged in both their hearts. This fellow is simply too disgusting!

“Haha! Lu Biao is at it again!”

“How disgusting! If his strength hadn’t attained the Saint Immortal Realm, I’d have fucking killed him a long time ago!”

“However, this fellow really has a good nature. No matter who curses him, he actually doesn’t retaliate. I wonder what he did in the outside world to be forced to flee to Sin City.”

“Who cares? Quickly watch the show. These two young men are really unfamiliar, so they’re probably newcomers. Perhaps this horny fellow, Lu Biao, will take them to his bed. Haha!”

The crowd in the hall roared with laughter, and they fearlessly swept their gazes over there.

A Saint Immortal?

Chen Xi was stunned. He’d never expected that this disgusting fellow that seemed like neither a man nor a woman would actually possess such ability.

Dian Dian had an unperturbed expression, and she grinned silently while looking at Chen Xi.

“Young Brothers, don’t listen to their nonsense. I, Lu Biao, really love making friends. Especially handsome young brothers like the two of you. I really sincerely like the both of you.” An extremely delicate and feminine voice came out from Lu Biao’s mouth, and then he bent down and sat at the side of the table while looking at Chen Xi and Dian Dian with a delicate smile on his face.

Goosebumps arose all over Chen Xi’s body, and he almost impulsively raised his sword to kill the fellow.

Right at this moment, Dian Dian seemed to have nothing something, and her watery eyes swiftly swept towards the street outside the window.

Bang!

At this instant, space fluctuated violently in the sky above the street, and then a figure staggered out from within. His black clothes were tainted with blood while his proud and indifferent face was ghastly pale. One could clearly notice that his left shoulder had a bowl sized bloody hole, and fresh blood was streaming out uncontrollably from within.

Shockingly, this person was Wan Jiansheng!

However, he’d obvious suffered a heavy injury, and he was even forcefully forced out from within space while fleeing for his life.

Chen Xi suddenly stood up.

What happened?

Earlier, he was wondering why there was actually no news of Wan Jiansheng after he entered Endless City, yet never had he imagined that Wan Jiansheng would appear before him in such a manner.

Om!

Right after Wan Jiansheng staggered out of space, another wave of spatial fluctuation arose, and then a gloomy, thin, and tall old man that wore a Daoist robe walked out from within space.

As soon as he appeared, a terrifying pressure effused out, and it caused even Chen Xi to feel extreme pressure.

The Half-step Immortal King Realm!

Chen Xi's expression instantly sank as he determined the old man's cultivation. That pressure was even more terrifying than that possessed by a Saint Immortal, and he'd experienced it countless times in the past from the seniors of Dao Emperor Academy, so how could he be unable to distinguish it?

"Elder Ge Yun!"

"He actually made an appearance..."

"That fellow actually offended Elder Ge Yun, he's truly courting death!"

The spectators exclaimed with shock as they recognized the identity of the gloomy and thin old man, and all their expression revealed deep fear and reverence.

Obviously, this existence called Elder Ge Yun was a terrifying and influential figure within Sin City.

[Talisman Emperor](#)

Chapter 1323: The Might Of An Immortal King

Sin City was a place of unrest, it was a shelter for the evil, and its order had collapsed. All the ferocious villains of the Immortal Dimension were gathered here.

There were both strong and weak villains here. Most of them were at the Mysterious Immortal Realm, and those that were capable of possessing a cultivation at the Golden Immortal Realm could already live happily in Sin City.

On the other hand, villains at the Saint Immortal Realm were like overlords in the city. No one dared to offend them, but the most terrifying were existences at the Half-step Immortal King Realm!

For example, Elder Ge Yun within his field of vision was an existence at the Half-step Immortal King Realm that possessed monstrous sin. He was like a supreme king amongst the villains, and he looked down arrogantly upon the city while no one dared to go against his will.

...

"In a short period of two hours, you killed thirty seven of my foster children and nine concubines. Young Man! How audacious of you!" Elder Ge Yun had his hands behind his back as he stood in midair, and his entire body emanated a terrifying pressure that enveloped this expanse of the heavens and the earth.

Wan Jiansheng coughed up blood as he stood alone before Elder Ge Yun, and his pale countenance revealed an unyielding expression.

Even if he was one of the seven blazing suns of the Immortal Dimension, he was still like an ant before an existence at the Half-step Immortal King Realm, and he seemed so tiny.

At this moment, Chen Xi acutely noticed that the time and space on the street seemed to have been frozen, and the scene in his field of vision seemed as if it had transformed into a static scene.

This is the might of a Half-step Immortal King? Chen Xi was shocked, and he was extremely worried for Wan Jiansheng. Since space has been restricted, how can he possibly escape before this Half-step Immortal King, Elder Ge Yun?

Wan Jiansheng was unable to move indeed. He was like an insect that had fallen into the web of a spider, a fist that was frozen beneath ice, and he could only maintain his standing posture yet wasn't even able to blink.

He seemed as if he was a confined lamb waiting to be slaughtered, and it caused Chen Xi's heart to tighten.

As for what Elder Ge Yun said about Wan Jiansheng killing thirty seven foster children and nine concubines of his, Chen Xi didn't care about it at all.

According to his understanding of Wan Jiansheng, Wan Jiansheng would absolutely not kill the innocent.

"There's no need to struggle. If you're able to escape under the influence of my Spatial Laws, then I'll immediately take my own life." Elder Ge Yun spoke indifferently while his gloomy gaze stared at Wan Jiansheng, and he revealed an air of superiority as if he was staring at a prisoner that was being judged.

Especially his tone, it was filled with absolute control and confidence, and it caused the people in the vicinity to be even more terrified. This was the might of a Half-step Immortal King, and it terrified the soul.

"He's a friend of yours?" Amidst this silent, anxious, and oppressive atmosphere, Dian Dian spoke abruptly as she glanced at Chen Xi, and her voice was clear and melodious like a tinkling spring.

Everyone was stunned because they'd never imagined that someone would actually dare speak at this moment.

Elder Ge Yun who stood in midair was stunned as well, and he swiftly turned his head. His gaze was like a black bolt of lightning as it coldly assaulted Dian Dian.

Dian Dian seemed as if she didn't notice this gaze at all, and her expression was calm and composed.

Elder Ge Yun's brows couldn't help but raise when he saw this.

"Yes." Chen Xi nodded.

After that, Dian Dian started smiling. Her red and moist lips curled into a wisp of a helpless arc. "Then why didn't you say so at the beginning?"

Along with this voice, she casually knocked lightly towards the air before her.

Ding!

A clear and melodious sound that sound like glass shattering resounded. The sound grew in loudness until it was thumping, and then it finally rumbled like a tempestuous wave and swept throughout the heavens and the earth.

After that, Chen Xi noticed to his shock that the static scene in his field of vision seemed like glass that had been struck into pieces, and countless cracks split open like a spider web and swiftly spread towards the surroundings.

Rumble!

Under the extremely astounded gazes of all the spectators, the entire heavens and the earth seemed to have been instantly shattered into pieces by a supreme force, and boundless spatial energy rumbled endlessly like tempestuous waves.

Exclaims of shock resounded while the surroundings were filled with panic.

At this moment, even Chen Xi's pupils constricted, and he felt a strand of indescribable fear. With his discerning ability, he was naturally able to discern that the shattered heavens and the earth were actually the energy of space being shattered and destroyed!

"You...exactly who..." Amidst the destruction, Elder Ge Yun's extremely shocked and furious voice sounded out. He seemed to have been extremely irritated, and there was even a wisp of indescribable terror in his voice.

But right after that, his voice stopped abruptly.

Or perhaps, the entire world fell into absolute motionlessness at this instant. Space, time, dust, light, sound, the blood red bugs at the corners of the walls, the people in the restaurant... Everything seemed to have been frozen, and it transformed into a completely static scene.

This included Elder Ge Yun. At this moment, he was standing in midair like a statue, and he didn't move at all while his face still carried a wisp of a frozen expression of shock and anger.

He was a Half-step Immortal King!

Yet at this moment, he was actually unable to move at all, and this scene was too shocking and unimaginable.

Chen Xi was extremely shocked in his heart as well. However, he noticed to his surprise that he was actually still able to move!

He turned around and looked at Dian Dian, yet he noticed she was smiling at him with a calm expression. It was as if all of this was just an extremely simple thing that she'd done casually.

It was so casual and easy.

Yet it was so astounding!

The Immortal King Realm! She's definitely an Immortal King that stands proudly at the peak of the three dimensions! At this instant, Chen Xi finally firmly believed that this peerless beautiful woman that always smiled sweetly was surprisingly an Immortal King!

Because only an Immortal King was capable of attaining such extraordinary accomplishments in the Spatial Laws and easily controlling the heavens and the earth!

"Cough! Cough!" A wave of intense coughing sounded out, and it caused Chen Xi to return completely to his senses. He turned around and looked over, and he saw that Wan Jiansheng who lay on the street had shot his gaze over here as well and was looking at Dian Dian.

At this moment, his proud and indifferent face actually revealed a rare trace of terror and shock. He seemed to not dare believe that someone would rescue him at this critical moment.

Or perhaps, he was even more shocked by Dian Dian's otherworldly ability.

"Thank you." Wan Jiansheng cupped his hands with a solemn expression.

This scene was extremely strange. The entire street, restaurant, and even the heavens and the earth were in an absolutely motionless state. It was like a frozen scene, yet Chen Xi, Wan Jiansheng, and Dian Dian were the only existences capable of moving and speaking.

This was the might of the Spatial Laws.

With Chen Xi's grasp of the Spatial Laws, it was extremely difficult for him to accomplish this, and this made it even more shocking.

"You have to thank Chen Xi and not me. After all, I don't know you." Dian Dian spoke while her beautiful face recovered its composed expression., and her calm and composed bearing actually carried a supreme, mighty, and proud aura.

It was an imposing aura that only existences at the Immortal King Realm could possess, and it was utterly impossible to be learned by others.

Wan Jiansheng was even more shocked when he heard this, and he seemed to have never expected that Chen Xi would have such a good relationship with an Immortal King.

He took a deep breath and cupped his hands to Chen Xi. "Brother Chen, thank you. I, Wan Jiansheng, owe you a life today."

Chen Xi was stunned and hurriedly said, "Senior Brother Wan, there's no need for that."

He was actually smiling bitterly without end in his heart. Since he'd started cultivating until now, he'd rescued countless people, and it seemed like every single one of them would say they owed him a life with a serious expression.

Of course, this wasn't an empty promise. No matter if it was Wan Jiansheng or the people of the past, they definitely remembered Chen Xi. However, this sort of method of repayment caused Chen Xi to feel rather pressured.

Wan Jiansheng was obviously not good with words, so he fell into silence once he finished speaking.

Chen Xi looked at Dian Dian instead when he saw this.

“We have things to do this time, so I’ll send him away first,” said Dian Dian.

Swish!

She waved her hand, and then forcefully opened up a pathway in space. After that, she looked at Wan Jiansheng and said, “Your injuries are severe, so staying behind will only make it even more dangerous for you. Midnight Continent is on the other side of this passageway.”

Wan Jiansheng understood what Dian Dian meant when he heard this. He cupped his hands once more to Chen Xi, and then he didn’t hesitate any longer to immediately step into the spatial passageway before vanishing in the blink of an eye.

After sending Wan Jiansheng off with his gaze, Chen Xi couldn’t help but exclaim with shock in his heart. The abilities of an Immortal King are simply too terrifying. They can even open up a spatial passageway with a swing of the hand. Is there anything in this world that Immortal Kings can’t accomplish?

“These are the Spatial Laws.” Once Wan Jiansheng left, a wisp of that familiar smile she usually had appeared once more on the corners of her mouth, and then she glanced at Chen Xi before she lightly clenched her slender and fair right hand.

Bang!

In the motionless scene, Elder Ge Yun who stood like a statue in midair seemed as if he’d been grabbed by a shapeless hand, and his entire body instantly shattered into pieces, transformed into blood, and then vanished into nothingness!

It was as easy as crushing an ant!

Chen Xi’s pupils suddenly dilated. That...was a Half-step Immortal King! He was easily annihilated just like that?

This was the strength of an Immortal King!

They’d broken through the restraints of the heavens and the earth, and they’d gazed into the door of life and death!

...

Once Elder Ge Yun died, the Spatial Laws in the heavens and the earth instantly returned to normal, yet Chen Xi and Dian Dian’s figures had vanished.

After a short moment, all the people in the restaurant returned to their senses. However, all their faces were covered in a wisp of heartfelt shock and terror. Some were even terrified to the point their legs shivered and they wet their pants.

Even though they were unable to move earlier, they could still use their minds, and they clearly witnessed everything that occurred. Especially when they saw Elder Gu Ye who usually possessed monstrous might in Sin City had actually been easily annihilated, all of them almost didn’t dare believe their eyes!

“An Immortal King! That young man was actually an Immortal King!”

“My god! How terrifying! Why would an Immortal King come to Sin City? Could it be that an upheaval is coming?”

All of them cried out involuntarily. At this moment, all these extremely ferocious villains whose hands were covered in blood were actually terrified to the point their faces seemed as if a loved one had left them. This obviously showed how much they were shocked by the scenes from before.

Especially Lu Biao, he was terrified to the point his entire body shivered without end as he fell to the ground, and he muttered with his scarlet red mouth. “I... I actually went to seduce an Immortal King just now... My god... My little heart is about to leave me...”

Chapter 1324: Successive Pleasant Surprises

The Endless Sea.

Horrifying waves raged as they surged into the sky. The heavens and the earth were filled with lightning while dark clouds roiled. The brilliant lightning tore through space and rained down with expanse after expanse of horrifying pale light.

Time and space were in complete chaos here. It transformed into storms that swept through the air while the sky seemed to be collapsing and transforming into narrow and long black colored rifts, and they densely filled the world.

This scene was extremely terrifying!

If it was a Golden Immortal that was capable of teleporting, the Golden Immortal would probably not dare take a step into this place because the spatial storms were capable of instantly swallowing everything.

This was the northernmost area of the Immortal Dimension, a storm sea that neighbored Endless City.

Om~

A wave of fluctuation arose in space before two figures appeared, and it was Dian Dian and Chen Xi.

At this moment, Dian Dian's entire body was covered in circle after circle of illusory halos, and these halos enveloped both her and Chen Xi. As they stood above this extremely dangerous sea, they actually weren't affected by it at all.

“This is the Endless Sea? It really is terrifying...” Chen Xi swept the surroundings with his gaze, and he was extremely shocked in his heart.

After killing Elder Ge Yun, Dian Dian had directly teleported him along with her away from Sin City to this place. According to Dian Dian, they would be able to arrive at the legendary Prehistoric Ruins after traversing this extremely dangerous sea and passing through a dimensional barrier.

“The Heaven Dao Laws are shattered here, and it doesn't have World Energy to hold it together, thus causing this place to be so violent. However, you don't have to worry because no mishaps will occur

with me bringing you through it.” As she spoke, her figure flashed, and she brought Chen Xi along as she flashed towards the depths of the Endless Sea.

She didn’t utilize teleportation. Obviously, the spatial storms here were too ferocious, and it caused even an existence at the Immortal King Realm like her to not dare be careless.

Bang! Bang! Bang!

As Dian Dian flashed forward, some storms, lightning, and spatial storms surged over all along the way and struck onto the light barrier that covered them, causing thunderous bangs to resound.

However, Chen Xi felt at ease because as the light barrier circulated, it dispersed all the attacks that struck them. It was solid like iron, and it was utterly impossible for them to be injured at all.

Moreover, based on Dian Dian’s relaxed appearance, this dangerous environment was obviously not threatening to her at all.

After he relaxed, Chen Xi couldn’t help but recall what happened earlier, and he asked. “Right. Why didn’t Senior make a move earlier and directly annihilate all the villains in Endless City?”

“I can’t.” Dian Dian explained in a casual manner.

According to what she said, Sin City was like a natural prison. Even though no one guarded it, so long as a villain fled into it, then they can dream of leaving in their entire lifetimes.

Because Immortal Hunters came to hunt villains every day in the surroundings of Endless City, and they imperceptibly played the role of prison guards.

Moreover, Endless City was neighboring to the Endless Sea, but its resources were extremely lacking. Thus, the only way for those villains to survive was to head to the Endless Sea and search for various types of resources.

Even though the Endless Sea was extremely dangerous and there was practically a very slim chance of survival once one entered it, an unimaginable amount of various resources existed in the Endless Sea. There was no lack of Secret Realms, shattered worlds, and hidden minor world within the sea.

The only method those villains could survive was to head over here and risk their lives exploring and searching for resources. This was equivalent to assisting the Immortal Dimension in opening up many new territories.

This was the meaning behind the existence of Sin City. It seemed like the villains weren’t pursued any longer, yet it was actually equivalent to they themselves entering into a jail. Moreover, they even used their lives and blood to help the Immortal Dimension open up numerous Secret Realms and hidden worlds in the Endless Sea.

Of course, if they wanted to destroy Sin City, then it was simply as easy as blowing off dust to all the powers within the Immortal Dimension. However, in that way, the prisoners of the 4,900 continents in the Immortal Dimensions would roam the world because without a place to flee for their lives, they would instead cause great disaster to the Immortal Dimension.

So that's how it is. Chen Xi came to a sudden understanding, and he sighed endlessly with emotion in his heart. He was very clearly aware that the villains in the world were utterly impossible to annihilate completely nor could they be restrained because new villains were born every single day.

On the other hand, the existence of Sin City seemed to be like a place provided to the villains of the world to escape to, yet it was actually a superb method to resolve the disaster they would cause to the Immortal Dimension. It carried extraordinary meaning.

Roar!!!

Suddenly, a shocking roar resounded from far away, and it reverberated through the surroundings and shook apart the dark clouds that covered the sky.

After that, Chen Xi saw a large snake that was an entire 30km long on the distant surface of the sea, and it suddenly charged out of the sea while giving rise to a myriad of layers of waves!

Its entire body was covered in ink black scales and had an extremely savage face of a human. Its eyes seemed crimson red like the sun, and when its bloody mouth was opened, it seemed capable of swallowing a towering mountain. Moreover, it possessed a pair of blood red wings on its back, and they were coiled by strands of condensed Laws that emanated a terrifying might. As soon as it appeared, it was like an overlord of the sea, and it was extremely shocking.

Merely its monstrous and ferocious aura caused Chen Xi to be frightened.

A Hua Snake!

A relic species of the Prehistoric Ruins!

According to rumor, it was born a beast of disaster. Monstrous floods would definitely occur where it resided, and these floods would drown cities and bring disaster to all living beings. It was extremely formidable.

The Hua Snake before his eyes was completely covered in rumbling Laws, and its aura was monstrous. In terms of its ferocious might, it was absolutely above the Golden Immortal Realm!

"I forgot that you're only a step away from attaining the Saint Immortal Realm. Even though this Hua Snake's bloodline isn't pure, it has cultivated for at least 10,000 years. The snake pearl between its eyes is greatly beneficial to your cultivation." As she spoke, Dian Dian casually gestured with her hand. Suddenly, a zigzagged white colored bolt of lightning struck down from midair in the distance, and it was like a blade of judgment descending from the heavens, and it actually easily cut off the head of that Hua Snake!

Swish!

A rain of blood that covered the sky sprayed explosively from the headless body of the snake, and then it fell into the sea with a thump.

Just like that, an ancient relic species with a strength comparable to the Saint Immortal Realm didn't even have the chance to let out a shrill cry before it was easily annihilated by Dian Dian!

Swoosh!

A fist sized pearl that was translucent and crimson red fell into Dian Dian's palm. It was like a small sun and was suffused with a shocking crimson red brilliant. Moreover, it carried a cool fragrance that refreshed the spirit.

"Keep it first. This pearl is quite effective in consolidating your cultivation and condensing Immortal Force. You can consume and absorb it after you break through into the Saint Immortal Realm." Dian Dian grinned as she passed the pearl to Chen Xi, and she didn't give him the chance to refuse at all. "Don't feel shy. Once we enter the Prehistoric Ruins, I'll be relying on you to give me a great deal of your help."

Chen Xi could only accept it when he heard this, and he sighed with emotion in his heart. Following by the side of an Immortal King really is nice. I don't have to worry about anything all along the way, and I'm even able to get a great deal of benefit. This is no different that encountering an extraordinary fortuitous encounter.

Rumble!

As they headed deeper into the Endless Sea, the environment grew more and more adverse. The spatial storms that covered the sky practically filled the heavens and the earth while terrible shattered spatial rifts were everywhere. Most terrifying of it all was that the originally calm space in the surroundings might rumble and shatter at any moment before transforming into spatial turbulence, and it was impossible to take precautions against this.

Under such circumstances, Dian Dian obviously slowed down, and her expression had become much more serious while she passed through the spatial storms.

After all, once they were swept into it, even if they were able to survive, they would probably instantly lose their direction. Because boundless other pockets of space existed within the depths of the spatial storms.

Swish! Swish!

Before long, numerous ferocious figures suddenly surged into appearance from the violent sea. They had the head of a tiger, the body of a wyrm, and they were 3km in length. Their entire bodies were yellowish brown, and numerous sharp and icy cold spikes stood upright on their backbone. When looked at from afar, there were at least over a thousand of these ferocious beasts on the surface of the sea.

This was a group of Tiger Wyrms!

They were similarly a type of relic species from the Prehistoric Ruins, and they were bloodthirsty. During the prehistoric times, there was once a great figure who was a Tiger Wyrm that attained the Dao, and he was extremely terrifying and capable of easily tearing gods apart.

"This group of Tiger Wyrms aren't mature enough. Their ability is only equivalent to Artificial Saint Immortals. However, the Blood Essence in their hearts are a superb material to refine Valiant Grade Immortal Artifacts with. It's roughly like a medicinal catalyst, and it's capable of removing the impurities of an Immortal Artifact." Dian Dian guided in a casual manner.

Subsequently, blood floated above the sea while the corpses of Tiger Wyrms piled up, whereas the Blood Essence within their hearts were completely stored within a jade white bottle.

Obviously, when facing a peerless Immortal King like Dian Dian, their fate was already predetermined.

Without any exception, Chen Xi obtained 500kg of the Blood Essence from the hearts of these Tiger Wyrms. In the Immortal Dimension, this was sufficient to be exchanged for a few Valiant Grade Immortal Artifacts.

This caused Chen Xi to sigh emotionally. In the eyes of others, this Endless Sea is filled with danger and extremely violent, causing them to not dare step foot into it. But in the eyes of Immortal Kings, it's like a sea of treasure that's filled with wealth and fortune, and seizing this fortune and wealth isn't difficult for them at all.

This caused Chen Xi to feel extremely fortunate. I made the right decision coming here!

In the subsequent journey, they once again encountered all sorts of relic species of the prehistoric times, and every single one of them were rare ferocious beasts. However, in Dian Dian's eyes, they were like the immortal herbs planted in her own backyard. When she saw something that was useful to Chen Xi, she would gather it, and when it was useless, she would directly disregard it.

"This Kui Ox Skin can be refined into a drum type immortal artifact. During the prehistoric times, a great figure had once gathered 9,900 Kui Ox Skins and refined a supreme Immortal Artifact, the Immortal Thumper. A light strike of it caused the heavens and earth to rumble while everything in an area of 500,000km shattered into powder. It was extremely formidable."

"This is the bone of a Ya Yu. The Ya Yu is a descendant of the Prehistoric God, Serpent Dragon. Its innately possesses the Laws of Water and Fire, and its Origin Bone can be refined into a water and fire attribute Immortal Artifact. It can be considered as a pretty good toy."

"This is a Pulao Immortal Herb. According to rumor, it was formed from the soul of the Prehistoric Divine Beast, Pulao. It can improve one's cultivation in Heart Energy, and it's extremely rare. Keep it carefully because it's impossible to touch the threshold of the Immortal King Realm without a Heart Energy cultivation at the Heart Infant Realm."

"This is the tendon of a Bai Ze..."

"This is the soul of a Roar Dragon..."

All along the way, as Dian Dian killed more and more ferocious beasts, the amount of precious immortal materials Chen Xi obtained grew in number, and every single one of them were rare precious treasures that were greatly beneficial to his future cultivation.

This caused Chen Xi to be pleasantly surprised in succession, and it was even to the extent that he was slightly numbed by it later on. It couldn't be helped, there were truly too many treasures, and he was dazed by it, causing him to be unable to return to his senses for a very long time.

Chapter 1325: Darkbale Divine Ridge

Swoosh!

A wisp of a dreamlike ray tore through the sky and passed through the layer upon layer of spatial storms in the surroundings as it flashed above the Endless Sea that was covered in danger.

After an entire six hours had passed, while Chen Xi was immersed in a numb feeling from receiving successive pleasant surprises, the 'handsome' Dian Dian who wore an embroidered robe suddenly stopped and spoke in a clear and melodious voice. "We've arrived."

We've arrived? Chen Xi was stunned, and then he quickly returned to his senses. He looked over and saw that a shapeless barrier lay across the heavens and the earth 300m away, and it completely isolated the Endless Sea.

The barrier of light was like an eggshell, it was translucent, bright, and suffused with divine light. Moreover, it emanated strands of a prehistoric, ancient, and grand aura.

The spatial storms, spatial turbulence, tempestuous waves, and everything else within the Endless Sea had suddenly become quiet before this barrier of light, and it didn't seem threatening any longer.

The prehistoric barrier!

Chen Xi recognized it with a single glance. It was definitely the barrier condensed from the world energy of the Prehistoric Ruins, and they would be able to enter the Prehistoric Ruins after passing through this barrier.

Chen Xi couldn't help but feel somewhat dissatisfied because he'd never expected that this trip through the Endless Sea would be so smooth, and they actually arrived outside the Prehistoric Ruins in a mere few hours of time.

He even desired to stay on the Endless Sea for a while longer. After all, there were countless shocking treasures and rare immortal materials in the sea and leaving just like this was regretful to him.

Of course, Chen Xi was clearly aware that all of this was because of an Immortal King like Dian Dian being by his side, otherwise he wouldn't even dare to step foot into the Endless Sea by himself.

"Slightly unwilling?" Dian Dian grinned as she glanced at Chen Xi. As she spoke, her entire body emanated brilliant light while a light violet colored rain of light poured down, and in the blink of an eye, her appearance had changed completely.

Earlier, she wore embroidered clothes, a jade belt, and was handsome.

Yet now, a violet colored dress fluttered while her beautiful brows were shaped like willow tree leaves. Her eyes seemed lively while her appearance was gorgeous, and her figure was slender and graceful. Her jet black hair fluttered behind her like a waterfall, and her fair and clean forehead flickered with the glow of wisdom. She revealed beauty that was matchless in the world.

In an instant, she'd turned beautiful and was filled with a sort of intense visual impact that caused Chen Xi to be unable to help but be slightly stunned and feel his breath taken away.

"I'm slightly unwilling indeed." Chen Xi admitted frankly. All along the way here, Dian Dian had helped him gather precious immortal materials that were either greatly beneficial to his future cultivation or possessed unimaginably shocking value. When all of them were added together, their value was simply an astronomical figure. They were priceless.

Dian Dian grinned and said, "All of these are external wealth, and they're nothing much when compared to the fortune within the Prehistoric Ruins."

Chen Xi nodded and smiled lightheartedly.

He only felt slightly regretful, yet he wouldn't become obsessed.

"The world energy of the Prehistoric Ruins is unlike the three dimensions. Coupled with the upheaval occurring within it now and the successive calamities, it's filled with a great deal of danger. After we enter the Prehistoric Ruins, you must remember not to make a move rashly so as to avoid any mishaps from occurring." Dian Dian instructed before she swung her fair hand, and a violet battle axe shaped immortal artifact that flowed with divine light was like a violet crescent as it drew out a sharp arc in the air.

Swish!

A narrow and long rift was torn open on the prehistoric barrier in the distance.

"Let's go!" Dian Dian's figure emanated divine radiance as she carried Chen Xi along with her. In an instant, they flashed through the rift and vanished out of sight.

...

The Prehistoric Ruins.

After the three dimensions were established, it was the only ancient ruins left behind from the prehistoric times, and it maintained the ancient energy of the world and Laws of the prehistoric times.

The ancient style during the prehistoric times was maintained within the Prehistoric Ruins, and numerous ancient sects that were remnants of the prehistoric times resided here. They were called Prehistoric Sects.

The disciples of these sects thinned in number as the years passed. Some sects only possessed two or three members while the most only had a little more than ten members. For example, the sect Zhen Liuqing and Heaven Trampler were from, Integration Sect, only amounted to a total of three members if their master was included.

However, even though these Prehistoric Sects had few members, all of their members were extremely formidable existences, and there was no lack of extraordinary figures at the Immortal King Realm.

At the bottom of it all, it was because the inheritances of the Prehistoric Sects could be traced back to the ancient times just like Oracle Mountain, Nuwa's Dao Palace, and the Sovereign Sect. They were renowned and supreme sects in the prehistoric times, and they were like overlords.

However, along with the establishment of the three dimensions and the passage of time, coupled with the numerous calamities that occurred here, these Prehistoric Sects were in gradual decline and were left behind in this Prehistoric Ruins.

In the eyes of the living beings in the three dimensions, these members of the Prehistoric Sects were called Ancient Immortals.

Presently, along with the Prehistoric Ruins being the starting point of the upheaval of the three dimensions, calamities occurred successively within the Prehistoric Ruins while the world energy here collapsed. It caused all the members of those Prehistoric Sects to fear for their safety and start searching for a new way out.

On the other hand, in the eyes of the great figures of the three dimensions, this calamity that was occurring within the Prehistoric Ruins were similarly accompanied by supreme fortune, and it aroused the covetous intentions in their hearts.

However, not everyone could come here and get a share of this fortune.

Just like Chen Xi had guessed, without a strength at the Half-step Immortal King Realm, one couldn't even enter the Prehistoric Ruins to participate in this search for great fortune that was accompanied by boundless danger, let alone obtain any of the fortune here.

...

On an expanse of grey and luxuriant mountains, waves of thunderous beast roars resounded from the depths of the mountains, and it alarmed the divine birds that covered the sky, causing them to flap their wings and fly into the boundless azure blue sky.

These divine birds had gorgeous wings while their figures blotted out the sun. They whistled past beneath the sky, and they seemed like flying clouds that covered the sky in an expanse of beauty.

Rumble! Rumble!

Numerous ancient golden furred apes that was huge like lofty mountains whistled and dashed through the mountains. As they moved, they stomped mountains into pieces, and a single jump shot them up into the nine heavens. They stretched out their hands to capture divine bird after divine bird before opening their mouths and taking a bite. They chewed on the birds with large mouthfuls before swallowing the birds, and they revealed monstrous ferocious might.

However, right at this moment, an enormous hand stretched out from the boundless abyss. Its fingers were like pillars that could hold up the sky, and it was suffused with ancient Dao markings. A light grab of the hand covered up the entire sky!

Pu! Pu! Pu!

Before the hand that covered the sky, the ancient golden furred apes that were tall as the sky and possessed ferocious divine might seemed like little bugs that were grabbed in the hand's palm. Their bodies shattered and transformed into bloody goo that sprayed out from the cracks between the palm's fingers, and it was like a blood of rain was pouring down and dying the heavens and the earth red.

"Shut up!" Along with a cold grunt of dissatisfaction that resounded through the heavens and the earth, the hand that covered the sky returned into the deep abyss and didn't make any further movement.

When Chen Xi entered the Prehistoric Ruins under Dian Dian's lead, the first thing he saw was this world shaking scene, and he was instantly shocked speechless.

No matter if it was those divine birds or the ancient golden furred apes, they were unbelievable formidable. They were the ancient variant species Divinelight Bird and Zhuyan. Yet in the end, they were easily annihilated by the enormous hand that came from within the deep abyss!

Chen Xi couldn't help but be astounded by this scene. Exactly what sort of extraordinarily terrifying existence is residing beneath that deep abyss?

"This is the Prehistoric Ruins." Dian Dian's clear eyes glistened and were suffused with divine light. She held her hands behind her back as she stood there, and her entire body emanated a supreme and mighty aura. This aura swept out like she was a king that was deterring all the living beings in the surroundings.

Yes, this was the Prehistoric Ruins!

Everywhere that met the eyes was a scene of desolation and ancientness. Ferocious beasts roamed throughout the surroundings while flying beasts roamed the air, and the ground, sky, and air were all suffused with a primitive aura.

As they stood here, it felt as if they'd returned to the prehistoric times countless years ago. During that time, the gods and sages fought for supremacy while boundless ancient variant beasts and ferocious beasts resided in the world, and it was a primitive and chaotic period.

As he felt this unique prehistoric aura, Chen Xi was extremely dazed as thoughts filled his mind. Even if he was already at Golden Immortal and was only a step away from stepping foot into the Saint Immortal Realm, he felt tiny when residing within the Prehistoric Ruins.

Yes, tiny!

Compared to the Divinelight Birds, Zhuyan, or the enormous hand that came from beneath the deep abyss, his current cultivation was extremely weak indeed.

No wonder that there are very few rumors of the Prehistoric Ruins within the Immortal Dimension since the ancient times until now. Because only existences at the Half-step Immortal King Realm or above can step foot into this place... Chen Xi took a deep breath before his gaze recovered its calm and composure.

He wouldn't look down upon himself because of this.

He was very clearly aware that this trip wasn't something that he could participate in, so he wouldn't get worried because of this and doubt his ability.

Conversely, Chen Xi quickly adjusted his mental state, and he took this trip to be a rare chance to temper himself, broaden his horizons, and accumulate experience. It would definitely be extremely beneficial towards his future cultivation, and he wouldn't be as ignorant as he was now.

When he thought like this, his heart and mind instantly cleared up and became calm while the gaze he shot towards the surroundings didn't contain a dazed and surprise expression any longer.

Dian Dian acutely noticed the change in Chen Xi's mental state, and her cherry lips couldn't help but curl up into a wisp of an arc of admiration. She immediately said in a low voice, "Come, let's go to Darkbale Divine Ridge. If nothing unexpected happens, then the Fellow Daoists from Nuwa's Dao Palace have already been waiting there since long ago."

Swoosh!

As soon as she finished speaking, Dian Dian brought Chen Xi along to tear through space while flying over at full speed.

On the way, Chen Xi couldn't help but ask curiously. "Exactly how big are the Prehistoric Ruins?"

Dian Dian said casually, "No different than a large world, and there are many independent minor worlds within it. Unfortunately, it won't be long from now before the Prehistoric Ruins will collapse and vanish..."

Chen Xi was stunned. He was aware that it was because the Prehistoric Ruins was the location where the upheaval of the three dimensions began, so it was impossible for it to survive before this chaos.

After that, Chen Xi thought about something else. Heaven Trampler once heard news about my Father, Chen Lingjun, in the Prehistoric Ruins. I wonder...exactly where he is now? Would I be able to meet him during my trip to the Prehistoric Ruins this time?

After pondering deeply for a long time, Chen Xi took a deep breath before shaking his head in the end. He stopped carrying any hopes so as to avoid it affecting his mental state.

If they had the fortune to meet, then it was naturally very good.

If they didn't, then it was enough for him so long as his father was fine.

"Junior Sister Li, look! Fellow Daoist Midnight has arrived." Right at this moment, a voice that was clear and cold like the ring of a bell resounded abruptly, and it jolted Chen Xi back to his senses from his deep contemplation. Chen Xi raised his eyes and look over, and he saw an ancient mountain floating into appearance in the distance.

There were two figures standing on the peak of the mountain.

[Talisman Emperor](#)

Chapter 1326: God Attainment Region

These two figures stood at the top of the ancient peak.

One was robust and tall, brilliant and mighty. He was like a blazing flame that was more dazzling than the stars, more resplendent than the moon. He was brilliant to the point it was impossible to focus one's gaze upon him.

The other figure was slender and graceful. Her dress fluttered with the wind while her jet black hair was coiled into a bun, and she wore an exquisite crown of flowers. Her body was suffused with strands of silver light that made her seem like a picturesque celestial maiden.

No matter if it was the man or the woman, both of their bodies carried grand and boundless auras that shook the sky. They were like two kings that stood amidst the heavens and the earth while looking down upon the world, and they were matchlessly mighty.

Without a doubt, they were definitely the heirs of Nuwa's Dao Palace.

The true cause for Chen Xi's shock was that the man had actually called Dian Dian as Midnight earlier! Doesn't this mean that this peerless and otherworldly beauty that's always smiling sweetly is one of the four great Immortal Kings of the Immortal Dimension, the Midnight Immortal King?

When he thought up to here, Chen Xi couldn't help but arouse a complicated feeling in his heart.

Earlier, he'd once looked up to those four great Immortal Kings just like all the living beings in the world. He was curious about their appearances and to know what sort of existences they were, yet never had he imagined that the Midnight Immortal King was following by his side, and he'd only recognized her now...

"You didn't ask about my name." Dian Dian blinked at Chen Xi while grinning lightly, and then she led him onto the ancient peak.

"Daoist Brother Shi Yu, Miss Li." Dian Dian smiled as she nodded to them, and she sent Chen Xi a voice transmission at the same time. "The one on the left is Shi Yu, Nuwa's Dao Palace's Eldest Dao Protecting Disciple, the other on the right is Xiangliu Li, she's a descendant of the Xiangliu Clan and an Elite Disciple of Nuwa's Dao Palace. Both of them are at the Immortal King Realm, and we'll be working together with them this time."

Chen Xi was fiercely shocked in his heart. Two Immortal Kings!

This caused him to be unable to help but think of Oracle Mountain, and he said in his heart, Besides me, all the thirteen other disciples of Oracle Mountain, my Senior Brothers and Senior Sisters are probably mostly at the Immortal King Realm, right?

Of course, this was only his guess, and perhaps only the disciples of Oracle Mountain themselves would know exactly how high their cultivations were.

"This is Chen Xi, my friend. He'll be heading to the God Attainment Region with us this time." As she spoke, Dian Dian introduced Chen Xi in a simple manner.

Swoosh! Swoosh!

In an instant, Chen Xi felt two gazes sweeping over towards him. It was like being stared at by two supreme gods, and it caused his entire body to feel oppressed as if all the secrets within him were noticed investigated by them.

But in merely an instant, these two gazes were withdrawn, and it caused Chen Xi to almost feel like all of this was a hallucination.

"Eh, wait." After that, Shi Yu spoke with surprise. As he spoke, the divine radiance that covered his body was restrained to reveal his true appearance. He was actually a thin man in a black robe who had a broad forehead and sideburns that were sharp like swords.

His skin was fair and crystalline while a flying sword eardrop made of bones that was fine like a needle hung from his left ear, and it caused him to carry a devilish, cold, and proud aura.

At this moment, he frowned as he gazed at Chen Xi, and he seemed to have recalled something.

“Is something wrong?” Dian Dian casually played with the soft and smooth hair by her ears, and she spoke slowly. As she spoke, her figure flashed imperceptibly and blocked before Chen Xi.

“Big Sister Midnight, you’re really considerate down to the slightest detail to this little fellow.” Xiangliu Li who stood at the side glanced at Dian Dian while seeming to be lost in thought, and then she revealed a light smile that was like a flower that bloomed after the rain. It was refreshing, beautiful, and extremely moving.

This woman’s clothes fluttered, and she wore an exquisite crown of flowers. Her bearing was graceful and poised while her figure was slender, and she seemed as if she would float off at any moment.

“It can’t be helped. I brought him here, so I naturally have to be responsible for his safety.” Dian Dian shrugged and spoke as a matter of course.

“I remember now. I once took a glance at you from afar in the Outerealm Battlefield.” Meanwhile, Shi Yu raised his head, and as his eyes opened and closed, divine light surged within them while he stared at Chen Xi. Moreover, his face suddenly revealed a trace of a strange and complicated expression. “So, you’re...that kid...”

This answer caused Dian Dian and Xiangliu Li to be slightly stunned, and they weren’t able to make heads or tails of it.

It wasn’t just them, even Chen Xi was stunned. No matter how he wracked his brains, he wasn’t able to recall when he’d met this Immortal King from Nuwa’s Dao Palace while at the Outerealm Battlefield.

“Senior Brother Shi Yu, exactly what have you figured out? Why don’t you tell us?” Originally, Xiangliu Li didn’t pay much attention to Chen Xi. However, when she saw Shi Yu’s reaction, she instantly realized that this little fellow at the Golden Immortal Realm seemed to have a background that wasn’t simple at all.

Shi Yu shook his head, and his attitude was extremely firm. “It’s meaningless. It doesn’t make a difference if I tell you or not.”

He would naturally not tell her that he’d almost seized the Nine Continent Divine Cauldron this kid before him had obtained in the Outerealm Battlefield, and he’d almost fought with the third senior brother of Oracle Mountain, Li Fuyao...

Of course, most importantly, Li Fuyao had told him something at the time. According to Li Fuyao, the kid before him might be related to a disciple of Oracle Mountain that had just reincarnated and returned to the sect.

He wasn’t able to confirm all of this yet, so he was naturally unwilling to speak about it.

However, even then, Shi Yu faintly understood why Midnight Immortal King would bring this kid along by her side to join them this time.

Unfortunately, his strength is really terrible...

When they saw Shi Yu was unwilling to speak about it, Dian Dian smiled while Xiangliu Li couldn’t help but size Chen Xi up once more. In the end, she noticed to her disappointment that there seemed to be nothing special about this little fellow.

On the other hand, when he heard them constantly call him 'little fellow,' Chen Xi couldn't help but laugh bitterly in his heart. Am I really that small?

However, he was clearly aware that even though the three Immortal Kings present here appeared to be young, in terms of the time they'd cultivated, it was countless of years, and it wouldn't be going too far to call them old seniors.

Of course, he wouldn't constantly address them as senior. At any rate, he was a disciple of Oracle Mountain, and he couldn't seem lower in status while before disciples of Nuwa's Dao Palace!

...

In next to no time, Shi Yu moved his attention from Chen Xi and said frankly, "According to my deduction from before, the God Attainment Region will emerge once more into the world three days from now. However, it's slightly difficult this time. It isn't just the Sovereign Sect, many prehistoric sects have targeted the God Attainment Region as well. At that time, disputes will definitely be unavoidable."

God Attainment Region? Chen Xi was stunned. Even though this name was extremely new to him, he instantly determined that the fortune these three Immortal Kings planned to obtain after arriving at the Prehistoric Ruins was definitely within the God Attainment Region.

"Have you figured out exactly who has come?" Meanwhile, Dian Dian's expression turned serious, and her composed expression carried arrogance and confidence.

"Two of the seven Elite Disciples of the Sovereign Sect, Suiren Ting and Jiang Lingxiao." It was Xiangliu Li that replied. Her starry eyes seemed illusory and were suffused with layer upon layer of rippling divine radiance as she said slowly, "Suiren Ting is ranked at the 2nd amongst the seven disciples. He's a descendant of the Suiren Clan, and he possesses the Sovereign Sect's Overlord Sage Path Pagoda. His strength is on par with Daoist Brother Shi Yu."

"Jiang Lingxiao is ranked at the 5th amongst the seven Elite Disciples of the Sovereign Sect. Her origins are mysterious, and her strength is undeterminable. According to my estimations, her strength is definitely at the Immortal King Realm and can't be underestimated."

The seven Elite Disciples of the Sovereign Sect! A descendant of the Suiren Clan! The Overlord Sage Path Pagoda!

All of these words were so unfamiliar to Chen Xi, yet it allowed him to faintly possess a deeper understanding of the Sovereign Sect. Even though his understanding was still blurry, it wasn't blank like it was before this.

"Suiren Ting, Jiang Lingxiao..." Dian Dian's beautiful brows knit together lightly. "If it's only like this, then merely our strengths are sufficient to firmly surpass them. Could it be that there're some other secrets?"

Shi Yu nodded. "Suiren Ting's group arrived much earlier than us. According to the information I obtained, the Prehistoric Sect, Void Heaven Sect, Sect Master Le Qianchou has agreed to work together with them."

"Le Qianchou? How's that fellow's strength?" Dian Dian was stunned.

According to her knowledge, during the prehistoric times, the Void Heaven Sect was an overlord. However, the sect was extreme, and its disciples acted in an unbridled manner. The technique passed down within the sect was a technique to enslave the myriad of living beings in the world. In the end, it enraged an extraordinary figure of Oracle Mountain, and he destroyed the sect and all its disciples. Moreover, even its inheritance was almost completely destroyed. At that time, this matter shocked the world.

However, Dian Dian had never imagined that the Void Heaven Sect was actually fortunate enough to survive, and a Sect Master of the Void Heaven Sect, Le Qianchou, had made an appearance now.

“This old fellow’s natural endowment is horrible. He cultivated for no less than a few hundreds of thousands of years before he merely stepped into the threshold of the Immortal King Realm. He can’t be considered to be difficult to deal with, but he’s slightly troublesome.” Shi Yu frowned and said, “Le Qianchou has a vast network of relationships, and he’s in contact with many Prehistoric Sects. I’m worried that the Sovereign Sect will use Le Qianchou as a pawn to rope in even more Prehistoric Sects to participate in this.”

Dian Dian seemed to have thought of something as she said. “This is slightly troublesome indeed. However, having more numbers may not necessarily allow them to have an advantage. There are many Restrictions of the Gods within there, and it isn’t so easy to deal with them.”

Chen Xi was unable to interfere in their conversation at all, and he was completely dazed by it. He could only play the role of a spectator and silently remember some useful information.

For example, besides them, the Sovereign Sect’s heirs, Suiren Ting and Jiang Lingxiao, and the Void Heaven Sect’s Le Qianchou were amongst the other powers that were heading to the God Attainment Region this time as well.

Besides that, the ‘Restrictions of the Gods’ existed within the God Attainment Region.

These pieces of information were useless to Chen Xi for now, but perhaps it would be of use once they entered the God Attainment Region.

“Forget it, let’s not mention all of this today so as to avoid it dampening our spirits.” Shi Yu suddenly changed the topic. His gaze shot towards Xiangliu Li that stood by his side, and his proud and clear face actually revealed a wisp of a gentle expression. “It’s Junior Sister Li’s birthday today. Even though we aren’t at the sect now, we should naturally celebrate such an important day.”

Xiangliu Li was stunned. Her glistening and clear eyes suddenly erupted with a wisp of a strange glow, and she seemed to be rather delighted that Shi Yu was actually able to remember her birthday.

“Oh? Then I have to wish Miss Li happy birthday. This is a Phoenix Spirit Hairpin, take it as my birthday gift to you.” Dian Dian’s beautiful brows raised before she flipped her palm, and then a gorgeous jade hairpin that emanated brilliant golden light appeared there. Its surface was inscribed with various auspicious patterns, and it emanated strands of golden flowing lights and auspicious qi. It was extremely beautiful.

[Talisman Emperor](#)

Chapter 1327: The Secret To Attaining The Dao And Becoming A God

This Phoenix Spirit Hairpin was obviously a rare treasure, and it was suffused with auspicious qi.

Chen Xi was able to sense a strand of pure and thick auspicious qi assault his face from afar, and it caused his mind and heart to become relaxed. If he were to wear it, then it would definitely be able to gather luck and ward off danger.

This caused Chen Xi to feel slight disbelief because once one attained the Immortal King Realm, one's lifespan was long to a practically eternal length. Why would they still remember trivial matters like birthdays?

Moreover, based on Dian Dian, Shi Yu, and Xiangliu Li's expressions, they seemed to attach great importance to it.

"Thank you, Big Sister Midnight." Xiangliu Li received the brilliant gold colored jade hairpin and smiled with delight.

"I originally intended to give you my gift later. But now it would seem like I can only do it now." As he spoke, Shi Yu casually flipped his hand, and a translucent and jade-like pearl appeared on his palm. It was the size of an infant's fist and circle after circle of divine radiance floated about with it, and these radiances interweaved together to transform into three ancient symbols — Fortune, Enjoyment, Longevity.

As soon as this pearl appeared, it emanated three shocking auras. One was the aura of fortune, one was the aura of enjoyment, and the last was the aura of longevity. All of these auras seemed material as they shone brilliantly and interweaved together in midair, and they emanated strands of clear, gold, and black colored flowers that enveloped the heavens and the earth. A unique fragrance drifted out from them and assaulted the nose, and they faintly emanated the sound of nature as they slowly spread towards the surroundings.

Chen Xi was dumbstruck by this sight. It was the first time that he'd seen such a precious treasure that was actually capable of completely accommodating fortune, enjoyment, and longevity. It could be considered as an unparalleled treasure.

Isn't this birthday being celebrated too grandly? If it's like this every single year, then this Immortal King Xiangliu Li would probably be unable to finish accepting all her gifts...

"Haha. I knew Daoist Brother Shi Yu would have prepared something a long time ago. This Triple Auspicious Pearl was a precious treasure in the hands of the Outerealm's Treasurelight World's Master. Could it be that you killed that dark and stupid elephant?" Dian Dian seemed to be lost in thought as she looked at Shi Yu.

On the other hand, when Chen Xi heard this, he suddenly recalled that when he participated in the inner court exam that day, he'd noticed an Immortal King battling an enormous black jade elephant in the depths of the river that separated the Immortal Dimension and the Outerealm. With a wave of their hands, stars were shattered into pieces while the sun and moon were on the verge of collapse, and such a great scene was still branded in Chen Xi's mind until now.

When he thought about it now, Chen Xi instantly noticed to his astonishment. That Immortal King from that day was probably this number one disciple of Nuwa's Dao Palace, Shi Yu, right?

“You really killed that black elephant?” Xiangliu Li held the pearl with both hands while she stared at Shi Yu with happiness.

Shi Yu glanced at Chen Xi before he said with slight helplessness. “Kinda.”

That day in the Outerealm Battlefield, the third senior brother of Oracle Mountain, Li Fuyao, had stopped him from forcefully seizing Chen Xi’s fortune, and for the sake of apologizing, Li Fuyao had fought his way deep into the river and annihilated the Master of Treasurelight World, the Black Emperor Hellphant, before giving this pearl to him.

It was precisely because of this that Shi Yu couldn’t help but feel slightly depressed. Even though he’d given the treasure to her, it wasn’t personally obtained by him, so he naturally felt slightly regretful.

“It’s fine so long as it is.” Xiangliu Li smiled lightly and was extremely happy, and her clear eyes carried a wisp of affection.

Chen Xi finally came to an understanding at this moment. There seemed to be some sort of relationship between Shi Yu and Xiangliu Li, and they might have become Dao Companions a long time ago...

But right after that, he didn’t dare continue letting his thoughts run wild because everyone had given her a birthday present, so he had to present her with something as well, right? But... I’m only a Golden Immortal, would an Immortal King even take my gift seriously?

Chen Xi couldn’t help but hesitate slightly.

“Didn’t we gather a great deal of immortal materials all along the way? I heard that you’re a Supreme Grandmaster Spirit Chef. Why don’t you cook some food now, and you can take it as giving Miss Li a birthday gift.” Dian Dian grinned as she spoke to Chen Xi, and she seemed to have seen through Chen Xi’s thoughts.

As soon as these words were spoken, Shi Yu and Xiangliu Li were both stunned, and then they understood the situation Chen Xi was in right now, causing both of them to burst with laughter.

“Alright. Then I have to try this Young Brother Chen Xi’s cooking.” Xiangliu Li was very kind and didn’t make it embarrassing for Chen Xi.

After all, they’d only met for the first time. Even though she was an Immortal Realm, she still had to give Midnight Immortal King face, so she couldn’t make it embarrassing for Chen Xi.

“Alright, then we’ll taste Brother Chen Xi’s cooking.” Shi Yu laughed lightheartedly. He suddenly noticed that being able to make a disciple of Oracle Mountain cook food for them could be considered as an extremely rare enjoyment, and it wasn’t going too far to say that it could only be chanced upon by luck.

Because he was very clearly aware that all those fellows from Oracle Mountain were extremely proud, and it was simply impossible to make them lower themselves to cooking something for him.

Of course, Shi Yu didn’t have any ill intent, and it was just a different way of ‘hunting for novelty.’

Chen Xi was naturally unable to guess Xiangliu Li and Shi Yu’s thoughts, and he didn’t feel there was anything wrong with Dian Dian’s instructions. When he saw that these three Immortal Kings seemed to rather look forward to his culinary skill, he felt slightly proud instead.

After all, not just any Supreme Grandmaster Spirit Chef in the world was able to personally cook for three Immortal Kings...

Especially when Shi Yu had actually addressed him as Brother Chen Xi and didn't utilize his seniority. This caused Chen Xi to feel rather comfortable.

He was very clearly aware of how great the difference was in identity and status between a Golden Immortal and Immortal King.

...

Kui Ox tendons that were thick like a bowl, Azure Pheasant meat that was densely and finely covered in Dao markings, winged fish, jade like and fragrant Taowu bone marrow...

Under the surprised gazes of Dian Dian, Shi Yu, and Xiangliu Li, various rare immortal materials transformed into ingredients in Chen Xi's hands, and they were either fried, stir-fried, stewed, dry braised...

This string of actions were carried out smoothly and in one go, and it was filled with an indescribable sense of beauty that gladdened the heart and pleased the eyes.

"Outstanding! Attaining such a state in the Culinary Dao is truly rare." Shi Yu evaluated and was rather surprised that Chen Xi was actually a Supreme Grandmaster Spirit Chef as well because his culinary skill had already attained the state of infusing a strand of the aura of the Dao within his cooking, and it wasn't something an ordinary spirit chef could accomplish.

"It's not bad indeed. I remember that a great figure of the Taotie Clan from a million years ago utilized a five element immortal wok to forcefully cook all the living beings in the Outerealm's Darkdove World, and it was called the Myriad Soulfeed Banquet, causing him to become renowned throughout the world. Young Brother Chen Xi is restricted by his cultivation now, otherwise he would definitely not be inferior to that great figure of the Taotie Clan from all those years ago." Xiangliu Li smiled and praised as well.

Dian Dian puckered her lips and smiled lightly when facing this, yet she didn't speak. However, she was actually extremely happy for Chen Xi in her heart because this was the praise of two Immortal Kings, and it was impossible for an ordinary Golden Immortal to obtain!

In next to no time, a delicious fragrance drifted out and suffused the air, and it made their mouths water.

Dish after dish was placed properly before everyone took their seats. Shi Yu withdrew a bottle of divine wine and filled the cups of everyone. Supposedly, it was a precious treasure refined using Nuwa's Dao Palace's Creation Furnace, and it possessed supreme effects and was priceless.

Xiangliu Li withdrew some rare immortal fruits of various colors, and she let Chen Xi and Dian Dian taste them one by one. All of them were rare precious treasures in the three dimensions.

After all, it came from the personal storage of an Immortal King, so how could it possibly be ordinary? Not to mention Chen Xi, even the other cultivators of the Immortal Dimension would probably have never enjoyed such treatment.

Before long, all of them were chatting while eating, and it was a scene that overflowed with joy. It seemed as if they'd taken the Prehistoric Ruins that was filled with danger to be a camping spot...

Through their conversations, Chen Xi became familiar with Shi Yu and Xiangliu Li. Even though they couldn't be considered to have any relationship with each other, at the very least, they weren't strangers any longer.

This made Chen Xi feel very satisfied.

These were two Immortal Kings and being able to associate with them was already an extraordinary fortune in itself because no matter how lofty one's status was, it was impossible to obtain such an opportunity.

Chen Xi was very clearly aware of the path he had to take in the future. No matter if it was taking revenge from the Zuoqiu Clan or going against the Sovereign Sect, it was impossible to accomplish by himself.

So he'd gone to Dao Emperor Academy. Through his successive outstanding performances, he'd obtained the praise, good impression, and support of numerous seniors in the academy, and he'd obtained the good impression and admiration of countless seniors and juniors. At the same time, he'd established a society of his own, the Star Alliance.

It could be said that his reputation in Dao Emperor Academy now seemed to already be on par with Ye Tang and Ling Qingwu, and it might even be slightly higher.

Perhaps the might of all these forces couldn't be determined for now, but once he decided to take action and seek revenge, then it would bring forth an unimaginable might.

This was the strength of one's network, relationships, and background!

Of course, all of this was established on his own strength and ability. At the same time, it was something he strived to obtain step by step through his own hard work, and it wasn't related to luck at all.

Especially the relationship he formed now with the Midnight Immortal King, Dian Dian, and the heirs of Nuwa's Dao Palace, Shi Yu and Xiangliu Li. It allowed him to imperceptibly possess a network of relationships with figures of a higher level. So when he roamed through the three dimensions in the future, then perhaps it would be able to reveal its value.

As they continued on with their conversations, Chen Xi wasn't able to restrain himself in the end, and he asked about the God Attainment Region.

Dian Dian smiled and glanced at Shi Yu and Xiangliu Li before she told him about its secrets.

It turned out that it wasn't just the world energy from the prehistoric times that was maintained within the Prehistoric Ruins, there were all sorts of fortunes scattered all over it. These fortunes consisted of those left behind by the Prehistoric Sects that were obliterated in the annals of history, and the treasures of the gods and sages of the prehistoric times...

Amongst all these fortunes, the only one that could draw the attention of experts at the Immortal King Realm was the God Attainment Region.

According to rumor, the God Attainment Region contained the supreme secret to becoming a god. Since the prehistoric times, all experts that had attained the Immortal King Realm had stepped foot into the God Attainment Region to search for the method to attain the Dao and become a god. The most famous amongst these Immortal Kings were the founding ancestors of Oracle Mountain, Nuwa's Dao Palace, and the Sovereign Sect!

Of course, there was no lack of others like the ancestors of some ancient clans like the Sui ren Clan, Youchao Clan, and Xiangliu Clan, and some Fiendgods and spirits that were born from within the chaos at the beginning of the world.

However, after one entered the God Attainment Region, one may not necessarily be able to obtain the technique to attain the Dao and become a god. However, so long as one obtained this technique, then one would definitely step into a realm above the Immortal King Realm, escape the three dimensions, and become a true supreme existence!

This was the reason why the God Attainment Region was capable of arousing the interest of all existences at the Immortal King Realm.

Becoming a god!

It was the realm of the Grand Dao that all Immortal Kings pursued!

[Talisman Emperor](#)

Chapter 1328: Godslaughter Bloodlands

In the three dimensions, Immortal Kings were like supreme existences that were practically eternal.

However, even if they were supreme, they weren't necessarily paramount.

The gazes of the Immortal Kings in the world had long since looked past the scope of the three dimensions, and they were looking towards a higher level.

The Godrank Realm was the higher realm that Immortal Kings pursued.

As it was said, gods were like the sun and moon that illuminated the ages, they were eternal and thus existed everywhere.

For example, in the mortal world, it was said that gods were amongst men, and it meant that the gods were everywhere. A single thought of the gods allowed the gods to sense the karma of the world.

During the early beginning of the world, the living beings and Fiendgods born from the chaos could all be considered as gods. At that time, the gods fought for supremacy in the world, and it could be said to be the most dazzling period of history in the world.

However, along with the prehistoric world's destruction and the establishment of the three dimensions, it was very rare for gods to appear. The reason was that it was too difficult to traverse into the realm of gods.

Of course, the gods of the mortal world were mostly 'river gods,' 'temple gods,' 'fire gods,' and other similar gods, and they were unlike the gods in the eyes of the Immortal Kings.

Because after they surpassed the Immortal King Realm and attained the Godrank Realm, they could be called 'Chaos Gods!'

...

After he finished listening to all these secrets, Chen Xi's heart and mind shook, and he was unable to recover from his shock for a long time.

He'd originally thought that the Immortal King Realm was already the supreme and highest realm in the three dimensions, and they were capable of accomplishing anything. Yet never had he imagined that one could still become a god after attaining the Immortal King Realm...

Exactly how far is the path towards the Dao? Is the Godrank Realm the end?

All of this was too far away from Chen Xi, causing him to not dare rashly make a conclusion, and it was even to the extent that he suspected even Immortal Kings like Dian Dian, Shi Yu, and Xiangliu Li didn't dare confirm where the end of the Grand Dao lay.

Chen Xi couldn't refrain himself from asking. "Are there known Godrank Realm existences in this world?"

Dian Dian, Shi Yu, and Xiangliu Li smiled when they heard this.

"Of course." This was their unanimous answer.

Chen Xi was stunned. When he thought about it carefully, he realized that it was the truth indeed. Shi Yu and Xiangliu Li were from one of the supreme sects of the three dimensions, Nuwa's Dao Palace, and they were at the Immortal King Realm.

However, they were merely heirs, so how could an existence capable of teaching such disciples possibly be merely at the Immortal King Realm?

Chen Xi didn't know these secrets in the past, or perhaps it could be said that he never thought about it carefully. Now that he'd coincidentally found about all of this from these three Immortal Kings, it was like listening to numerous shocking secrets, so tempestuous waves couldn't help but arise in his heart.

This was the restriction of his field of vision.

Without the guidance of these Immortal Kings, how could a Golden Immortal like him possibly know all of this?

When one's field of vision was different, the way one looked at things was different as well. Perhaps when Chen Xi returned to the Immortal Dimension after the end of this trip, his gaze wouldn't be restricted to only his peers, and he would look higher and further...

...

"Let's set out. Our journey won't be peaceful." After the banquet ended, Shi Yu stood up, and as his eyes blinked, divine flames surged. He suddenly gazed towards extremely far in the distance, and along with his voice resounding, his face instantly recovered its cold and proud expression.

“I’ve already deduced that our journey will be obstructed by many disasters, and it’s probably because of the Sovereign Sect. Looks like they’re already slightly impatient...”

Xiangliu Li smiled lightly while her entire body emanated strands of silver radiance, and it enveloped her while the space between her brows was filled with a flowing glow of wisdom.

“From now on, you only have to follow by my side. Perhaps you’ll be able to witness a battle between gods.” Dian Dian blinked at Chen Xi with a relaxed expression, and she wasn’t fearful at all.

Chen Xi could only nod, yet he sighed in his heart. A battle between gods? Even if I want to interfere in a battle of that level, I’ll probably be unable to accomplish it.

“Let’s go!” Shi Yu flicked his sleeve, and his entire body suddenly erupted with dazzling divine brilliance. He shot into the sky like a god of flames, and in the blink of an eye, he’d vanished on the spot along with Dian Dian, Xiangliu Li, and Chen Xi.

...

Thump! Thump! Thump!

The ground quaked and shook the surroundings.

A tall and mighty figure that seemed to be tall like the heavens appeared in the distant wilderness. The layer of clouds merely arrived at his waist, and his upper body was above the clouds!

He was truly too tall. Every single step he took caused mountain after mountain to be easily flattened while lake after lake were crushed into deep abysses. Everywhere he passed, the earth cracked open into ruined rifts, and it was an extremely shocking scene.

Suddenly, an enormous hand that blotted out the sky stretched out from within the deep abyss, and it was covered in ancient Dao markings. Its fingers were like pillars that could hold up the sky, and it grabbed fiercely towards the tall figure.

“Damnable Bastard! Do you have no eyes?” A rumbling shout resounded from above the clouds. Along with this voice, the tall figure suddenly raised his leg and suddenly stepped onto the enormous hand that blotted out the sky.

Bang!

The ground rumbled as it collapsed, and then rocks shattered while rivers were broken apart in an area of 50,000km. It was like a terrifying earthquake had occurred.

On the other hand, the enormous hand was even stomped on to the point it was mangled. Its bones were faintly visible while it struggled violently without end.

“Roar!!! Great Sage Heaven Trampler, forgive me. My eyes were blinded by the Grand Dao, my heart was filled with bloodthirst, and I’ve been trapped here for a million years. I didn’t know it was Great Sage that had come, I realize my mistake now!” Suddenly, a plea for forgiveness that was filled with pain shook through the heavens from within the deep abyss, and it resounded throughout the surroundings.

“Hmph! Stinking worm! I’ll let you off for now out of consideration for your ancestor that has passed away!” A cold grunt sounded out from above the clouds, and then the figure that was as tall as the heavens raised his leg before moving towards the distance.

Rumble! Rumble!

Along with the heaven shaking sounds of footsteps, Heaven Trampler vanished in the distance.

On the other hand, beneath the deep abyss, there was a Primeval Dragonturtle groaning in pain while gasping without end. Its figure was an entire 500,000km in size, and numerous chains that were covered in mysterious Dao marking had shackled its limbs, causing it to be unable to move.

“Hmph! The God Attainment Region! All those years ago, that ancestor of mine wholeheartedly desired to obtain the method to become a god, yet he perished unfortunately. How could such a dangerous place be somewhere that you, Heaven Trampler, can step foot in? It’s best if all of you die there!” The Primeval Dragonturtle’s eyes were suffused with a glow of resentment.

Hmm? Looks like Midnight Immortal King and the Fellow Daoists from Nuwa’s Dao Palace have left already. Heaven Trampler’s towering figure suddenly flashed before Darkbale Divine Ridge, and he transformed into an imposing man that was 3m tall, and he descended onto the peak of the mountain.

He swept the ground with his gaze before he silently deduced in his heart, and then he suddenly revealed a slightly shocked expression. He revealed a wisp of surprise and bewilderment as he said, What a familiar aura... It wouldn’t be that little fellow who has come as well, right?

“Dammit!” Heaven Trampler’s face sank abruptly as he cursed. “That’s the God Attainment Region. Since the ancient times until now, countless Immortal Kings have fallen there. How could this kid be so stupid to dare participate in this dangerous fortuitous encounter?”

“Nevermind, I’ll go over and have a look...” Amidst his restless sighs, Heaven Trampler stopped walking on foot, and he transformed into a wisp of black lightning instead before he vanished on the spot with a swish.

...

Wu~ Wu~ Wu~

Because their speed was too swift, it caused the space before them to warp and change rapidly while a sharp and ear piercing sound resounded. They were like a flash of light, and it caused Chen Xi to be unable to see anything clearly.

When his vision recovered its clarity once more, he’d already arrived on a desolate plain.

This plain seemed as if it was boundless, and he couldn’t see the end of it. It was completely desolate and dry while the earth was covered in narrow cracks that seemed like spiderwebs. It was like a desolate ruin.

The sky here was completely chaotic while the ground seemed as if it had been bathed in blood and was completely dark red. The air was suffused with a horrifying aura that was ancient, deathly silent, and desolate. It caused them to feel extremely oppressed.

“This is Godslaughter Bloodlands. All the blood on the ground were from the primeval gods, and the entrance to the God Attainment Region is at the end of the Godslaughter Bloodlands.” Shi Yu introduced this place casually while his expression had already become serious and murderous. “Everyone, be careful. There are probably many people laying in ambush here now. If anyone obstructs us later, then kill without mercy!”

Om!

As he spoke, the bone immortal sword that was fine like a needle and hung on his ear suddenly flew up and revolved around the tip of his finger without end.

God Mystery Sword!

It was Shi Yu’s Void Grade Immortal Artifact. It was passed down since the primeval times, and it was one of the ancient inheritance swords of Nuwa’s Dao Palace!

Swish!

Even though Xiangliu Li didn’t move, the exquisite and beautiful crown of flowers above her head suddenly emanated strands of thick divine light. It completely enveloped her body, and it seemed illusory and dreamlike while it emanated supreme divine might.

This was another Void Grade Immortal Artifact, and it was called Nine Clarity Jade Crown. It was filled with Nine Clarity Divinelight that separated clear from muddy, and it was impermeable to all evil and possessed boundless abilities.

Dian Dian smiled when she saw this, and then she casually made a tossing movement with her hand. A violet battle axe that seemed like a crescent moon revolved around her body, and it surged with violet qi. It was mysterious, powerful, and possessed boundless might, and it was called the Emperor Divine Battle Axe.

The three Immortal Kings had withdrawn immortal artifacts at the same time. In an instant, strands of terrifying might swept out from them. It disturbed the workings of the heavens and enveloped the surroundings, and it instantly dispelled the oppressive aura that filled the Godslaughter Bloodlands.

“Let’s go!” Shi Yu took the lead, and he flashed towards the depths of Godslaughter Bloodlands.

He’d obviously slowed down greatly as if this Godslaughter Bloodlands was filled with some sort of danger that caused even an Immortal King like him to be rather fearful.

Xiangliu Li followed closely behind him. The Nine Clarity Jade Ground on her head emanated nine clear glows that were respectively the Upper Clarity, Jade Clarity, Grand Clarity, Origin Clarity, Void Clarity, Essence Clarity, Spirit Clarity, Order Clarity, and Dark Clarity divine lights, and these divine lights enveloped their entire group.

Dian Dian resided at the back of the group. The Emperor Divine Battle Axe soared through the sky was revolving, and it emanated violet divine radiance as it remained prepared for combat. Dian Dian didn’t dare be careless at all either.

Only Chen Xi was unoccupied because he was utterly unable to be of any help while under the protection of these three Immortal Kings, and he could only utilize the Eye of Divine Truth to investigate the surroundings.

Investigating wasn't the problem, but as soon as he did, an expanse of a dense sea of blood instantly assaulted his face, and it surged into the Eye of Divine Truth's field of vision. The sea of blood was covered in bones and corpses, and it was filled with boundless killing intent and resentment.

At this instant, Chen Xi's heart and mind trembled with fear, and he was horrified. He sensed an indescribably terrifying aura oppress him to the point he couldn't catch his breath. It seemed as if he would be drowned by the sea of blood and perish in the next moment...

Om~

However, right at this moment, the River Diagram fragments in his sea of consciousness emanated a strange fluctuation, and it was like a storm that completely dispelled and annihilated the sea of blood, bones, and corpses!

"Eh?" Before Chen Xi could even catch his breath, Dian Dian's exclaim of surprise sounded out by his ears.

Talisman Emperor

Chapter 1329: Ancient Bloodgod Corpse

Chen Xi was stunned, and then he raised his eyes to look at Dian Dian.

Dian Dian seemed to be lost in thought and said instead, "I thought that your mind had been invaded by the aura of the Godslaughter Bloodlands, and I was just about to jolt you awake from it. Yet I never expected that you would completely come around so quickly."

When she spoke up to here, she reminded. "The energy in this Godslaughter Bloodlands even affects Half-step Immortal Kings. It invades the mind and might even cause qi deviation. You shouldn't size up the surroundings."

Chen Xi was shocked in his heart and nodded in agreement.

Because there were three Immortal Kings defending against everything all around him, he hadn't considered this. At this moment, when he thought about it, he felt his actions from before were slightly rash indeed.

Fortunately, the River Diagram fragments had assisted him in a timely manner, otherwise the consequences would be unimaginable. After all, the scene of a monstrous sea of blood and piles of bones was truly too terrifying.

"Watch out! Ancient Bloodgod Corpses have appeared!" Suddenly, Shi Yu's voice sounded out from ahead, and his voice carried a trace of a murderous aura.

Roar!!!

Before his voice could finish resounding through the air, a wave of extremely sharp howls suddenly resounded from the depths of the Godslaughter Bloodlands.

Rumble!

In the next moment, it seemed like a powerful army was dashing over from afar, causing the earth to quake while the chaotic sky instantly became blood red.

After that, numerous figures tore through the sky towards them, and they completely blocked off the path ahead.

Amongst these figures were some ferocious beasts that were 30km tall. Their eyes were empty and blazed with surging blood red flames. Every single inch of their bones were covered in a layer of thick dark red colored blood, and they seemed as if they'd walked out of an ocean of blood.

There were also figures that wore broken bronze armor. They seemed like gods, yet seemed like demons. Their skin was withered while their muscles had shriveled up, and their entire bodies flowed with dark red blood, causing them to be extremely terrifying.

They couldn't be considered as living beings any longer. Their entire bodies were covered in a bloody aura and boundless divine might that seemed like an abyss of purgatory that covered every inch of space around them, causing others to tremble before them.

When facing these existences, Chen Xi felt that he was tiny like a speck of dust, and he would be blown away by a gust of wind.

"These are Ancient Bloodgod Corpses, and they're the corpses of the gods that fell here during the prehistoric times and endured innumerable years of time without perishing. They've lost all intelligence and only possess an instinct to kill and a ruthless aura." Dian Dian's voice transmission sounded out by Chen Xi's ears. "Their strengths are roughly equivalent to a Half-step Immortal King, and some formidable existences amongst them are even capable of attaining a strength at the Immortal King Realm. But it's very rare for that to happen."

As she spoke, Shi Yu suddenly let out a long howl and said, "All of you help me hold our ground, I'll kill these corpses!"

His voice was like a thunderclap and was filled with the might of an Immortal King as it reverberated through the surroundings.

Along with his voice, strands of sword qi that shot into the nine heavens surged out from Shi Yu, and they illuminated the heavens and the earth while emanating a murderous and fierce aura filled with peerless divine might.

All the strands of sword qi contained the supreme Laws of Immortal Kings. They froze space and slowed down time, and they were like a myriad of brilliant and dazzling flowing rays of light that whistled through the surroundings.

Swish! Swish!

Sword qi surged violently. At that instant, they covered the entire world with peerless brilliance.

Chen Xi felt a piercing pain in his eyes while he was extremely astounded in his heart. This is the might of an Immortal King? Isn't it a bit too terrifying!?

Pu! Pu! Pu!

The Ancient Bloodgod Corpses hadn't even approached them when they were drowned by the boundless strands of sword qi. The corpses were penetrated, shattered, and transformed into clumps of bloody rain that exploded in the sky.

In merely a blink of the eye, the ten plus Ancient Bloodgod Corpses were actually annihilated by Shi Yu in one go!

Chen Xi was astounded by this sight. Those were all existences at the Half-step Immortal King Realm, yet they actually couldn't resist a single blow from Shi Yu and weren't able to counterattack at all! It was simply as if they were utterly useless!

Of course, Chen Xi was clearly aware that this didn't prove that the Ancient Bloodgod Corpses were very weak, and it could only show that as an Immortal King, Shi Yu's might was truly too formidable and exceeded Chen Xi's imagination.

Moreover, it was the first time he'd witnessed an Immortal King fight from such a close distance, and it was so shocking that it was indescribable with words.

Sword qi rumbled before gradually falling to silence. Shi Yu who stood in midair was like a king of the sword that looked down upon the world and was peerlessly mighty.

He turned around and returned to the group while numerous thumb sized blood colored pearls were held within his palm. All of them glowed brilliantly, and they emanated a strand of a dense and obscure aura.

"Our luck wasn't bad this time. I gathered seven Daospirit Pearls." Shi Yu smiled lightly. He distributed two pearls each to Xiangliu Li and Dian Dian before he himself kept two more, and then he passed the last pearl to Chen Xi. "This pearl contains the energy of a god, and it's the essence of the entire cultivation of the primeval gods that fell here. It's greatly beneficial to the cultivation of an Immortal King. However, you're restricted by your cultivation now, so it's best if you don't absorb it now. It wouldn't be too late to absorb it after you've advanced into the Half-step Immortal King Realm."

Chen Xi was just about to refuse when he heard Dian Dian. "Keep it. All that participate get a share, these are the rules."

"Haha. There's no need to be shy. There are many more treasures in this bloodland. Unfortunately, most of them are slightly useful to Immortal Kings like us, so Little Brother Chen Xi has to make the best use of your time and cultivate. Otherwise, no matter how many treasures you possess, you can only look helplessly at them." Xiangliu Li smiled lightly as well, and her voice carried a slight teasing tone.

Chen Xi immediately accepted it from Shi Yu.

Om~

However, before he could look at it carefully, a strange fluctuation suddenly surged out from within him, and it instantly took away the Daospirit Pearl in his hand.

Chen Xi was stunned before his brows suddenly raised because it was actually the River Diagram fragments!

Could it be that...it needs the energy within the Daospirit Pearls?

Dian Dian acutely noticed the changes in Chen Xi's expression, and she couldn't help but ask. "What's wrong?"

"It's nothing." Chen Xi shook his head. He naturally wouldn't tell her that the pearl he just obtained had been taken by the River Diagram fragments. Moreover, it was the first time that the River Diagram fragments had taken the initiative to take something from him, so he couldn't help but be slightly shocked.

Dian Dian smiled. She thought Chen Xi felt uneasy from taking the pearl from Shi Yu, and she explained warmly right away. "Even though this Daospirit Pearl is the essence of a primeval god, countless years have passed, so these essences have mostly been lost. Only a small portion is left behind within these pearls, so it can't be considered to be really precious."

Only now did Chen Xi understand that these Daospirit Pearls contained dense Dao Origin Energy of the gods yet didn't contain the profundities to becoming a god that Immortal Kings urgently required, so it naturally couldn't be considered as precious.

However, to the Half-step Immortal King Realm, these pearls were rare and priceless treasures, and they were extremely beneficial to charging into the Immortal King Realm.

As for Chen Xi, no matter how rare and precious the Daospirit Pearls were, he couldn't use them for now. It couldn't be helped, his cultivation was too low, and that was the reason why his heart didn't ache when it was taken away by the River Diagram fragments.

As they talked, they'd continued forward and headed towards the depths of the bloodlands.

This deathly silent and desolate plains seemed to be boundless. Moreover, the deeper they went, the slower Shi Yu's speed became, and he seemed as if he'd felt some sort of pressure.

Of course, no matter how great the pressure was, Chen Xi was unable to sense it at all now.

Because the Daospirit Pearl had been taken away by the River Diagram fragments, he'd been observing the River Diagram fragments within his sea of consciousness all along the way, yet he didn't discover anything, and he couldn't help but feel slightly perturbed because of this.

What's going on? Why had the River Diagram fragments never done this in the past, yet they just happened to suddenly do this after we entered the Prehistoric Ruins' Godslaughter Bloodlands? Not only had it resisted the terrifying aura within the bloodlands for me, allowing me to avoid the calamity of having my mind being invaded, it even took away my Daospirit Pearl now. These successive actions are slightly strange...

But in next to no time, Chen Xi couldn't be bothered to think about all of this.

Because numerous terrifying Ancient Bloodgod Corpses had once again appeared from the depths of the bloodlands. Most importantly, they were actually over a hundred times the amount, and there was no less than a thousand of them.

Everywhere that met the eye, a bloody glow shot into the sky while corpses covered the surroundings. They covered the entire ground, and they seemed like an expanse of a blood red ocean that was filled with an extremely oppressive and terrifying bloody and baleful aura.

Over a thousand!

In other words, it was equivalent to over a thousand Half-step Immortal King opponents were waiting for them in the distance!

At this moment, even if it was Shi Yu, he couldn't help but frown and mutter. "Something unexpected seems to have occurred. Unfortunately, I'm unable to deduce the cause."

"It's probably the Sovereign Sect's Suiren Ting who utilized the Overlord Sage Path Pagoda's might to conceal all their karma, causing us to be unable to deduce the reason." Xiangliu Li spoke in a light voice, and her clear and beautiful eyes flickered with a sheen of wisdom. "However, there's no need to worry. I've similarly utilized the strength of the Nine Clarity Jade Crown earlier to completely conceal everything related to us. So they're similarly unable to deduce our actions."

"Perhaps it's only a coincidence. In my opinion, Suiren Ting and the others wouldn't act recklessly before entering the God Attainment Region, otherwise it would be extremely disadvantageous to them as well." Dian Dian gestured casually, and the Emperor Divine Battle Axe flew into her palm before she smiled lightly. "No matter what, let's deal with these ugly things before us first."

Shi Yu and Xiangliu Li both nodded when they heard this.

Rumble!

Strand after strand of brilliant and extraordinary sword qi shot out violently from Shi Yu once more, and they filled the sky!

Om~ Om~

At the same time, Xiangliu Li formed a divine seal with her hand, and the Nine Clarity Jade Crown on her head emanated a myriad of strands of nine colored immortal glows. It was like numerous divine rays of light that surged towards the group of Ancient Bloodgod Corpses in the distance.

"Watch from the side. Be calm alright? Don't allow them to deter your Dao Heart, otherwise it'll be harmful to your cultivation." Dian Dian grinned as she instructed Chen Xi.

In the next moment, a wisp of an arrogant and imposing expression suddenly surged onto her face. She gestured with her fair hand and the violet battle axe soared into the sky, and then it instantly emanated numerous crescent moon shaped arcs of light.

Every single arc of light contained a strand of Immortal King Laws.

A myriad of arcs of light converged together, and it just happened to seem like a violent crescent moon in midair. Moreover, it seemed as if it was about to tear a hole in the world!

Even if he'd received Dian Dian's instructions earlier, Chen Xi's pupils still couldn't help but constrict upon witnessing this shocking scene, and he gasped.

The three Immortal Kings attacked at the same time!

How many people in the entire three dimensions were able to personally witness a grand and world shocking scene like this?

The battle erupted!

Shi Yu, Xiangliu Li, and Dian Dian's attacks were like a whirlwind that forcefully tore the thousand plus Ancient Bloodgod Corpses apart into three groups. Moreover, their attacks were all-powerful like they were sweeping through dry leaves, and it was shocking and terrifying to the extreme.

The might of Immortal Kings was vividly displayed at this moment.

Chapter 1330: Unexpected Change In The River Diagram

Ten minutes later, the slaughter ended. Over a thousand Ancient Bloodgod Corpses were annihilated into pieces, and they formed a horrifying river of blood on the ground.

However, just when Shi Yu, Xiangliu Li, and Dian Dian intended to gather the Daospirit Pearls on the ground, an unexpected event occurred!

A wisp of a black shadow suddenly appeared out of thin air. It flapped its wings, causing green light to fill the sky as it forcefully seized away more than half of the Daospirit Pearls, and then its wings flapped once more with the intention of leaving.

"A Prehistoric Heaven Devouring Bat? Hmph! You're simply courting death by trying to seize these treasures right before my eyes!" Shi Yu suddenly grunted coldly as he slashed out with his sword, and a wisp of pale white and thick sword qi tore through the sky. In the next moment, it appeared 5,000km away, and it slashed down towards the wisp of a black shadow.

This sword strike seemed as if it had penetrated through the river of time, and it was swift to the point Chen Xi was unable to react before he heard a shrill howl resound extremely far away.

"Bone Divinesky Dao! You really are bastards from Nuwa's Dao Palace! All of you just wait, the God Attainment Region will be your burial grounds!" This voice was extremely resentful and filled with a monstrously evil aura. It rumbled through the heavens and the earth while the wisp of a black shadow had vanished without a trace.

"Hmph! That damnable bastard! He's obviously an heir of the Prehistoric Sect, Myriad Sect, yet he actually dared to threaten us. I'll go take his life right now!" Xiangliu Li grunted coldly and intended to teleport away in pursuit yet was stopped by Shi Yu.

"There's no need to pursue him. Heaven Devouring Bats are born in the Prehistoric Sects, and it's much more familiar with the Prehistoric Ruins. Perhaps it's only a pawn that's intentionally drawing us over." Shi Yu frowned as he spoke.

As he spoke, he stretched out his hand and waved, and he gathered the remaining Daospirit Pearls.

During this entire process, Dian Dian had always been standing on guard by Chen Xi's side. She didn't seek to kill their enemies but to ensure Chen Xi's safety, and this obviously showed that in her heart, Chen Xi was at least more important than killing her enemies.

This caused Chen Xi who recovered from his shock to feel warm in his heart because it was indeed extremely moving when an Immortal King treated him in this way.

"What sort of existence is that Prehistoric Heaven Devouring Bat?" Chen Xi couldn't refrain from asking.

"A prehistoric variant beast, and it's said to be one of the ten ferocious beasts. During the prehistoric times, it was a clan that couldn't be underestimated, and it established the renowned Prehistoric Sect, Myriad Sect. However, along with the establishment of the three dimensions, the Myriad Sect suffered a huge disaster, and the Heaven Devouring Bat Clan was practically annihilated. Its fate was roughly similar to the Void Heaven Sect." Dian Dian spoke swiftly. "That fellow that made an appearance earlier was at the Immortal King Realm, so he was presumably the Sect Master of Myriad Sect, Bei Haoling."

Bei Haoling! When Chen Xi thought about it carefully, this was probably the seventh Immortal King he'd heard of since stepping foot into the Prehistoric Ruins.

This caused him to sigh with emotion in his heart. If I didn't make this trip here, I would simply not dare believe that there were actually so many Immortal Kings in this world that were appearing successively around me.

"The situation really isn't good. Even though that animal from before suffered a sword strike of mine, it wasn't heavily injured, so its strength can be considered to be strong. I suspect that they've joined forces with the Suiren Ting and the others from the Sovereign Sect just like the Void Heaven Sect's Master, Le Qianchou, has done." Shi Yu frowned as he pondered deeply. "After all, Junior Sister Li and I weren't able to deduce this disaster when we tried deducing the future together. Obviously, someone is concealing some karma from the shadows."

He paused for a moment and continued. "Moreover, concealing karma isn't something an ordinary Immortal King can accomplish. Even if it's Junior Sister Li, she can only rely on the Nine Clarity Jade Crown passed down by the sect in order to accomplish this."

"So in this way, it's definitely Suiren Ting that relied on the Overlord Sage Path Pagoda's might to assist Bei Haoling from the shadows?" Dian Dian's brows raised as she spoke.

Shi Yu and Xiangliu Li exchanged glances before they both nodded. "That's right."

A wisp of heaviness appeared in the space between Dian Dian's brows. "Looks like for the sake of the fortune here, the Sovereign Sect has made sufficient preparations. However, in my opinion, those members of the Prehistoric Sects might not necessarily be working together sincerely with the Sovereign Sect."

Chen Xi nodded and said when he heard this, "Exactly. When facing fortuitous encounters, every single person desires to take possession of it, so it's impossible to avoid disputes and conflicts. Only when the time comes will we be able to determine exactly who the situation benefits."

After he finished speaking, Chen Xi was instantly slightly embarrassed and said shyly. "I was rambling, don't mind me."

However, he never expected that as soon as these words were spoken, Shi Yu, Xiangliu Li, and Dian Dian's eyes lit up, and they seemed to have thought of something.

"Haha! Well said! What's there to mind about that?" Shi Yu said with a blazing gaze. "We were indeed worrying too much earlier. We've become accustomed to deducing the secrets of the heavens to determine if we'll have good or bad luck, yet we've forgotten that the most variable thing in this world is the hearts of man! So since the heart of man is incomprehensible, how could we possibly judge it based on deductions?"

Xiangliu Li and Dian Dian nodded with smiles on their faces as well.

Chen Xi was surprised, and he was rather happy in his heart. He was naturally very understanding and was clearly aware that it wasn't his words that were extremely profound, and it was merely that all these Immortal Kings had never taken attached importance to these minor details.

"Come, let's continue!" Shi Yu flicked his sleeve and led everyone to continue swiftly towards the depths of the Godslaughter Bloodlands.

On the way, Shi Yu distributed the over sixty Daospirit Pearls he gathered earlier to all of them. Chen Xi obtained fourteen of them. However, as soon as he received them, they were immediately taken by the River Diagram fragments once more, and not a single pearl was left behind!

This caused Chen Xi to be speechless.

Exactly...what's going on?

It was precisely because of this unexpected event that Chen Xi had once again placed his attention onto the River Diagram fragments in his sea of consciousness all along the way, and he observed it carefully.

Presently, he possessed five River Diagram fragments, and he was only lacking four more to complete it.

At present, he was aware that the sixth River Diagram fragment was stored within Dao Emperor Academy, and the seventh was in Dian Dian's possession. As for the remaining two, he had no information related to them for now.

However, even then, Chen Xi had already obtained too many benefits from the River Diagram fragments. But he'd never expected that the River Diagram fragments would actually take things from his as well.

This scene that occurred before him right now naturally caused him to be extremely surprised. He faintly felt that the unexpected change in the River Diagram fragments was probably related to the Godslaughter Bloodlands...

Hmm? Right when Chen Xi's thoughts were flashing in his mind, he suddenly noticed that there seemed to be no change in the River Diagram fragments within his sea of consciousness, yet they seemed to be even more integrated together.

In the past, even though the five River Diagram fragments had joined together, there were traces of cracks in between them, so they seemed to not be complete in the end. However, at this moment, Chen Xi noticed to his shock that even though these traces of cracks still existed, they'd obviously closed up greatly when compared to before.

This sort of changes was extremely tiny, and if he didn't observe it carefully, it would be utterly impossible for Chen Xi to notice it.

Could it be that the energy contained within the Daospirit Pearls are capable of fusing the River Diagram fragments together? Chen Xi frowned as he faintly felt that it probably wouldn't be so simple.

Even if it was only a very slight change, a change in a divine treasure like this might cause unexpected wonders to occur!

According to Chen Xi's knowledge, these Daospirit Pearls were the essence of the primeval gods that were left behind after their deaths. This sort of energy was extremely unfamiliar to him, but according to what Shi Yu said, the Daospirit Pearls were greatly beneficial to one's cultivation in the Immortal King Realm, and it was extremely tempting to Half-step Immortal Kings as well. So it was definitely not anything ordinary.

Now, based on the reaction of the River Diagram fragments, this was even more obvious.

No matter how it changes, I have to gather more Daospirit Pearls because perhaps the River Diagram fragments might undergo some sort of transformation... Chen Xi pondered for a long time before he placed his attention onto the Daospirit Pearls in the end.

Unfortunately, he was restricted by his cultivation, and he could only wait for them to encounter even more Ancient Bloodgod Corpses before Shi Yu and the others would annihilate them and distribute some to him...

Needless to say, this was very troublesome, but it couldn't be helped because he couldn't do anything about his cultivation being only at the Golden Immortal Realm!

Especially disappointing to Chen Xi was that up until the point they arrived at the end of the Godslaughter Bloodlands, they actually didn't encounter another Ancient Bloodgod Corpse!

This caused Shi Yu, Xiangliu Li, and Dian Dian to be slightly surprised as well because such a situation was strange. The Godslaughter Bloodlands was the burial grounds of the gods, and it was abundant with Ancient Bloodgod Corpses.

Yet now, they'd only encountered two groups of Ancient Bloodgod Corpses all along the way, and this was slightly unexpected.

"Looks like someone has swept through the Godslaughter Bloodlands before us, and it might be those fellows from the Sovereign Sect..." Shi Yu spoke in a low voice.

Everyone deeply agreed when they heard this.

In the next moment, all of them shot their gazes towards the distance.

The end of the Godslaughter Bloodlands was a sea of blood!

The sea of blood was boundless, yet it was deathly silent and completely calm, whereas there was actually two enormous bronze doors that towered into the sky standing at the center of the sea!

The enormous bronze doors shot into the sky and was drowned beneath the chaotic and obscure sky. When looked at from afar, it was lofty and imposing. It was of an ancient make, and it was like a door that led to a mysterious place.

Dense and mysterious markings were inscribed on the doors, and it remained intact after experiencing the passage of innumerable years. It emanated a heavy, thick, ancient, aged, and eternal aura.

At this moment, a gap of over 30m had been opened between the two bronze doors, and it faintly emanated strands of obscure light from within.

The light was obscure like chaos, and it was utterly blurry. It caused the bronze doors to seem like the entrance that led to hell, and it seemed as if it intended to swallow its prey, causing it to be extremely terrifying.

“It has actually already been opened beforehand!” Suddenly, Shi Yu’s face sank while his cold and proud face was covered in a murderous expression, and it caused the surrounding space to drone, wail, and tremble.

It wasn’t just him, Xiangliu Li and Dian Dian’s expressions changed slightly as well. They seemed to have never expected that the door which was supposed to be opened three days from now would actually open beforehand!

Chen Xi was slightly stunned. However, when he noticed the reactions of these three Immortal Kings, he roughly understood that the entrance towards the God Attainment Region was definitely behind the enormous bronze doors.

Yet now, this entrance had opened before the predetermined time for some unknown reason.

“Looks like we’ve been schemed against by those bastards from the Sovereign Sect. Not only did they bring the Overlord Sage Path Pagoda along, they even brought the Sovereign Sect’s Boundless World Mirror, and it imperceptibly disturbed our ability of deduction!” Shi Yu spoke with an emotionless expression while his eyes were utterly icy cold.

“The Boundless World Mirror? Isn’t that a treasure that belongs to the Master of the Sovereign Sect?” Dian Dian and Xiangliu Li were shocked as well, and then their faces sank as they understood everything.
