Chapter 1481: Advancing Courageously

The Dao Emperor Divine Palace stood towering in the heavens and the earth, and it was solemn and ancient.

On the square before the palace, Chen Xi faced the numerous powers all by himself, and he seemed to be lacking in strength and numbers.

If it was any other person in Chen Xi's position, that person's legs would probably go weak from terror and utterly lack the courage to resist this sort of pressure. After all, existences that could stand here were at least at the Half-step Immortal King Realm.

Even a Saint Immortal would be terrified while residing here and have no sense of existence at all.

However, Chen Xi seemed to be extremely unique. Even though he stood there by himself, the imposing aura emanated by him was murderous, and it linked up with the heavens and fused with the earth while the aura of the Dao coiled around his entire body. He possessed an oppressive imposing aura that caused others to not dare underestimate him.

It was even to the extent that when the killing intent in his heart surged at this moment, it instantly threw the wind and clouds in the surroundings into disorder, causing the expressions of many people to change slightly.

"I never expected that the calamity was unable to arouse terror in your hearts, and the re-emergence of the Sovereign Sect was similarly unable to arouse your vigilance. Instead, all of you've gotten into a fight for the sake of the position of Dean in my Dao Emperor Academy!" His indifferent voice suddenly resounded through this expanse of the heavens and the earth. Chen Xi swiftly strode forward while looking arrogantly down at the surroundings, and his gaze was extremely cold and indifferent while he didn't conceal his killing intent at all.

Even though he was all alone, he actually revealed a domineering attitude and advanced courageously.

When all of them heard this, they either felt disdain, angry from embarrassment, had gloomy expressions, shook their heads and laughed, frowned without end, or felt Chen Xi had lost his mind and was actually speaking such naïve words.

Chen Xi remained cold and indifferent towards this.

"You destroyed the grand formations of my academy, killed the instructors and students of my academy, destroyed the territory of my academy, and brought chaos to my academy! All of you harbor evil intentions and...deserve death!"

Deserve death!

It was merely two words, yet it was filled with killing intent that struck directly at the heart, and it caused the expressions of many to change.

“What an unbridled little bastard. As a student of the academy, you don’t know how to respect your seniors and talk nonsense instead. Do you really think you can be lawless after you obtained the inheritance of the Dao Emperor?” An old man was unable to restrain himself and berated Chen Xi. He was an instructor of the inner court, and he was reprimanding Chen Xi in the name of a senior.

Chen Xi suddenly turned around while his icy cold and deep gaze was like a bolt of lightning that locked onto the old man from afar, and a wisp of a cold and indifferent arc appeared on the corners of his mouth.

“Helping the wicked perpetuate evil with the intention of obtaining authority in the academy by relying on external assistance. Instructor, that’s turning matters upside down. I’ll give all of you one last chance. You can avoid death by realizing your errors and correcting your mistakes. Otherwise, I’ll kill all of you without showing any mercy!” These words were obviously not merely a warning to the old man, and he was announcing his attitude towards all those instructors that had sided with powers from outside the academy!

His voice was like the howl of a sword. It clanged and surged as it resounded through the world, and it caused the expressions of everyone began to change once more while they felt shocked in their hearts.

Because Chen Xi was already acting so resolute, cold, and mercilessly when he’d just arrived outside the Dao Emperor Divine Palace, and it had truly exceeded all their expectations.

After that, a strand of rage couldn’t help but arose in their hearts!

Yes, they’d been infuriated by Chen Xi. They felt that this young man was too arrogant, and they felt that he was simply courting death by actually daring to look down upon all of them while at the Half-step Immortal King Realm!

On the other hand, Chen Xi went silent after he finished. His gaze was overbearing like a blade as it swept past everyone, and it carried a type of indifference and resolution. He looked down upon them like a god and looked down upon the world.

The surroundings were deathly silent, and the atmosphere was rather strange.

“Haha...” Someone suddenly started laughing. Even though there was no actual substance in this reply, yet the feeling of ridicule and mocking within it was so piercing to the ear.

“Young man, if it was before the calamity arrived, then with your display in the academy, everyone would have to be slightly respectful to you. But it isn’t the same now, without the protection of those seniors, you’re only a fledgling that’s all alone. I advise you not to act on impulse, otherwise it’ll only put an end to your life.” Someone else sneered and spoke with a tone of arrogance.

“Even though you’ve obtained the inheritance of the Dao Emperor and according to convention, you possess the qualifications to succeed the position of Dean. But now that the calamity has arrived, the academy is like a host of dragons without a leader. Under such circumstances, there must be a figure of high prestige that commands universal respect to assume control of the academy, and not a young man like you that’s lacking in seniority, lacking a stable foundation in the academy, and lacking in might.” Someone else spoke in a neither fast nor slow pace and spoke righteously. It seemed to be within

reason, yet it was actually ridiculing Chen Xi to be inexperienced like a suckling child and didn't have the qualifications to assume the position of Dean at all.

For a time, Chen Xi seemed like a criminal that was condemned by all!

However, Chen Xi remained indifferent towards all his this. His gaze was deep as he looked towards the palace in the distance, and he stood there silently with his hands behind his back as if he'd fallen into deep thought.

The entire palace was constructed with primeval limestones, and it was suffused with an imposing and ancient aura. It remained firm for eternity, and it stood there since ancient times. It had witnessed the movement of countless years, and it held down the eternal karmic luck of the academy.

It was grand, lofty, silent, and it was entirely covered in a bright glow and enshrouded with a powerful and divine aura. It was like a true palace of the gods, and it caused others to feel reverence towards it.

Since he arrived here, a trace of a link had arisen between the Nineflow Jade Seal in Chen Xi's possession and the palace, causing him to feel as if he'd returned to his home and aroused a feeling affinity towards it for no rhyme or reason.

It was even to the extent that this unique feeling caused his mental state to feel as if it had been cleared, and it was translucent and clear. He faintly aroused a unique feeling of returning to the period of chaos, attaining the Dao, and existing eternally.

Chen Xi was clearly aware that it was the might of the Dao Emperor Divine Palace, and it was from the energy of Karmic Luck that had been held down here since ancient times. It was thick and powerful to an unimaginable extent!

If he was able to utilize it, then would there be any need for him to be afraid of the gods?

Chen Xi was temporarily unable to accomplish this, but he had a feeling that if he stepped foot into the palace, then he would definitely be able to fuse into one with this energy of Karmic Luck.

When they saw Chen Xi remaining silent, all the cultivators from those powers acted in an even more unbridled manner. They laughed with ridicule without end, and many people even felt disappointed. They felt that Chen Xi's display was too weak, and he didn't deserve his reputation.

Suddenly, Chen Xi raised his head, and his calm expression revealed coldness and indifference as he said slowly, "You can only blame yourselves if you insist on finding it too late to regret when you're at death's door."

"Let me see who's able to stop me today!"

As soon as these words were spoken, it was like a shapeless pressure had spread out, and it swiftly suffused the heavens and the earth, causing the expressions of everyone in the surroundings to turn serious while the sounds of ridicule and mocking stopped abruptly.

Amidst this deathly silence, Chen Xi started walking forward along that straight path that led to the palace.

His footsteps were steady and neither too fast nor too slow.

He looked neither right nor left, and he a dignified bearing. Every single move he made was filled with an imposing aura that looked down upon the world, and even though he was all alone, he had an aura of standing supreme in the world!

He was fierce like a tiger that intended to go against the world by itself!

At this moment, no matter what sort of thoughts all of them had, all of them were shocked in their hearts and couldn't help but recall Chen Xi's deeds from the past.

Since he entered the academy, he'd never lost a battle, and he'd created numerous impressive miracles. He'd swept invincibly through all his peers, and his reputation shook the entire Immortal Dimension. He was reputed to be the leading figure in the younger generation of the Immortal Dimension!

Presently, even though he was only at the Half-step Immortal King Realm, with his brilliant achievements in combat, would anyone at the same cultivation as Chen Xi dare to fight him?

The path before the lofty and imposing palace was 9m long, and it was mottled and suffused with an ancient aura, and Chen Xi's green clothed figure walked step by step towards the palace via that path.

Every single step he took would definitely cause a golden lotus to bloom. The golden lotuses swayed about and stood on guard around his figure while emanating golden light, and he was enshrouded by golden radiance as if a divine miracle was following at his side!

The expressions of all the great figures in the surroundings turned grim while their hearts trembled. *This is the scene of attaining supremacy in the Grand Dao and fusing one's heart with the Heaven Dao. Chen Xi is only at the Half-step Immortal King Realm, how could he possibly possess such extraordinary attainments? Even Immortal Kings may not necessarily be able to put on such a display.*

"Chen Xi, you're too overbearing and unbridled. If you continue approaching the palace, then don't blame me for killing you!" When he saw Chen Xi approaching the palace step by step, an old man's expression couldn't help but turn grim before he threatened in a grim voice.

"Hmph! Presently, everyone in the world is clearly aware that Chen Xi has already obtained the inheritance of the Dao Emperor. Now that he's made an appearance, then the position of Dean should be his!" Suddenly, a cold grunt resounded, and it was actually Mu Rongtian.

Everyone was shocked. They never expected that the Mu Clan would actually clarify its position at this moment and intended to support Chen Xi up into the position of Dean.

Presently, the area before the palace was in disorder as the various great powers had formed complex and complicated groups because the instructors of the academy had joined forces with the seven great ancient clans, the Buddha Dimension, the Dragon Dimension, the Phoenix Clan, and other powers from the outside with the intention of obtaining the position of Dean in the academy.

Now, an Immortal King like Mu Rongtian had suddenly clarified his position, and it caused the atmosphere at the scene to become even more strained.

"The Mu Clan? Haha! Could anyone here be unaware of your clan's thoughts? You're still planning to support this little fellow up into the position of Dean to become a puppet of your clan?" A sharp and hoarse voice resounded, and it drifted indeterminately through the air.

Mu Rongtian's expression sank, yet before he could speak.

Bang!

Chen Xi suddenly flicked his sleeve, and then an expanse of sword qi sprayed out like an ocean from within his sleeve. In an instant, it blasted onto the space in the distance, and it forced a grey clothed middle aged man to show himself.

He revealed a terrified expression as he never expected that Chen Xi would actually see through his location.

"No!" Before he could make any reaction, the expanse of sword qi had enveloped his entire body, and then it exploded into pieces before being minced by the myriad of strands of sword qi, causing him to transform into a mist of blood.

This was an expert from the Zhongli Clan, and his cultivation was extremely formidable. However, as soon as he spoke earlier, he was crushed by a single decisive strike from Chen Xi.

"No one can take away what belongs to me, Chen Xi, and I don't need the help of anyone!" Chen Xi spoke in a cold and indifferent manner. Even if he was facing numerous great figures by himself, he was still fierce, arrogant, overbearing, and domineering.

The hearts of everyone shook while their expressions turned gloomy. They'd never expected that Chen Xi would actually dare to make a move against them, and they felt that he was simply arrogant and overbearing to the limit!

They'd finally realized that Chen Xi wasn't joking earlier, and his actions of easily crushing a Half-step Immortal King obviously showed that he intended to fight them to the end.

When he heard this, Mu Rongtian shook his head in the end, and he didn't speak any further. However, he was rather regretful in his heart because he was unable to form goodwill with Chen Xi at the right time.

Stomp! Stomp! Stomp!

After he casually crushed an expert, Chen Xi's expression remained tranquil as he started moving once more, and he walked towards the palace in the distance. Moreover, the imposing aura he emanated rose with every single stride he took.

He was making a display of his resolution, and he was accumulating strength because he was clearly aware that a bloody battle couldn't be avoided in this chaotic situation before him.

However, he was completely unafraid of it.

It was even to the extent that the killing intent and rage in his heart seethed like lava, and it was on the verge of losing control.

"Little Bastard! You actually dared to kill a member of my Zhongli Clan!" Finally, an old man in a gold robe couldn't refrain from standing out, and he had a furious expression that revealed boundless killing intent.

Bang!

As he spoke, he swung out a dragon shaped pagoda that flowed with multicolored light, and it shattered the space before it as it shot towards Chen Xi.

This attack seemed to be extremely ruthless. It threw space and time into disorder, and it restrained and shackled the space around Chen Xi. Obviously, he intended to utterly annihilate Chen Xi and not leave any future troubles behind.

Talisman Emperor

Chapter 1482: My Sword Desires Blood

Time and space were restrained while the dragon shaped pagoda that flowed with divine radiance smashed down.

This was obviously an extraordinary Immortal Artifact, and it was suffused with terrifying divine might. It formed numerous dragon shaped images that swam through the surrounding space, and it emanated oppressive and formidable might.

Swish!

Chen Xi didn't even spare it a glance before casually slashing a strand of sword qi out.

Bang!

It actually forcefully slashed the dragon shaped pagoda open, causing a rain of light and fragments to shoot towards the surroundings.

The old man in gold robes coughed up a mouthful of blood while his expression turned grim. However, before he could even react, that wisp of sword qi didn't lose momentum at all and slashed down towards him!

"Junior, don't you dare!" Another expert from the Zhongli Clan made a move with the intention of rescuing the old man. He withdrew a bronze umbrella that revolved as it soared into the sky, and it emanated a myriad of talismans with the intent of obstructing Chen Xi's attack.

Bang!

The sword qi blasted onto the bronze umbrella and erupted with blazing specks of light.

This attack had been obstructed indeed, yet the person that obstructed the attack was similarly shaken to the point of coughing up blood, and his figure staggered back.

"Hmph!" Chen Xi grunted coldly. His figure remained on the spot while his fingers seemed like blooming lotus flowers that emanated strands of powerful sword qi, and they tore through space as they shot out explosively.

All of these strands of sword qi were covered in the energy of talismans, and they carried the secrets of Order as they formed into a myriad of profundities that were spread out via the Sword Dao. The swift and fierce might revealed by it seemed even capable of cutting down the sky.

A wave of muffled groans sounded out. Even though the old man in gold robes and the other expert resisted with all their might, the protective treasures in their possession were still penetrated, and they let out shrill cries on the spot as the strands of sword qi annihilated them.

Swish!

A rain of blood sprayed down while corpses fell to the ground, and a nauseating bloody scene spread throughout the surroundings.

All of this occurred in the blink of an eye. It began too quickly and ended too quickly as well, and it was extremely shocking for the others. Many of their expressions had turned grim, and they still didn't dare believe their eyes.

Isn't he a bit too formidable? Half-step Immortal Kings are actually worthless and can't even resist a strike of his!

If they didn't witness it with their own two eyes, could anyone believe it?

"You're courting death!"

"You're going too far! We weren't willing to make things difficult for you out of consideration that you're young and ignorant, yet you've repeatedly tried to take a yard when given an inch, and you're even running wild now. Your crimes are simply unforgivable!" Amongst the forces present in the surroundings, the joint forces of the Zhongli Clan, Wanqi Clan, and Jiang Clan were the most enormous group. After they witnessed all of this, all of those great figures amongst them were furious and revealed killing intent. They were prepared to make a move against Chen Xi.

"Going too far? Most of you aren't members of my academy. Who invited all of you here? Who gave all of you the courage to destroy my academy and kill my instructors and students?" Chen Xi was cold and indifferent, and every single word he spoke was accompanied by a resolute tone.

After that, he turned around because this wasn't the only group in the surroundings, and there were also great figures from the Buddha Dimension, Dragon Dimension, Phoenix Clan, Ji Clan, and so on and so forth.

As he looked at these groups, Chen Xi said indifferently, "All of you...intend to fight until the end as well?"

Because of his relationship with Zhao Taici, Ao Jiuhui, Zhao Mengli, Ji Xuanbing, Zhen Lu, and the others, he'd forcefully restrained the killing intent in his heart and intended to give them one last chance.

"Fight? Aren't you thinking too highly of yourself?" said an old man from the Dragon Dimension. He was arrogant and conceited, and his voice revealed a strand of indifference. Moreover, all the members of the Dragon Dimension standing behind him sneered as well.

"Chen Xi, don't you dare act arrogantly. If it wasn't out of consideration for the good relationship you have with Xuanbing, how could we have tolerated you until now?" A man from the Ji Clan spoke and represented the attitude of the Ji Clan.

“Buddha be praised. Destiny emerges and vanishes while karma is born. Now it seems like this isn’t an opportunity for my Buddha Dimension, so we naturally won’t interfere,” said a monk that wore a moon yellow robe and had a benevolent appearance.

“Alright, if you’re able to seize the position of Dean, then my Phoenix Clan will withdraw itself as well, and before this, my Phoenix Clan is unwilling to cause harm to you as well.” A beautiful woman that wore dark green palace robes spoke slowly.

In an instant, four powers made their stands clear, and the Dragon Dimension and Ji Clan weren’t willing to withdraw.

On the other hand, the Buddha Dimension and Phoenix Clan had temporarily chosen to watch the fight. In the end, all of it depended on whether Chen Xi was able to obtain the position of Dean on his own.

Chen Xi nodded when he heard all of this. “Good. At the very least, all of your choices have allowed me to have no worries when I kill.”

“What high-sounding sentiments! Do you really think no one in the world can do anything to you?!” The old man from the Dragon Dimension shouted loudly, and the expressions of many other great figures had turned gloomy.

Chen Xi didn’t speak another word. His entire body was glowing while golden lotuses grew with every step he took, and his battle intent surged as he strode forward. He pressed down towards those forces in a domineering manner, and he intended to stop hesitating and kill his way into Dao Emperor Divine Palace.

“How presumptuous! Leave your life behind!” A young man flashed out with a wooden sword in hand, and it was simple, ordinary, yet emanated an oppressing dignified aura.

Everyone felt delighted in their hearts. This young man was a senior of the Jiang Clan that was at the Immortal King Realm, and he was called Jiang Cangyun. Moreover, he possessed extremely formidable ability. Even though his reputation was inferior to the four great Immortal Kings, he was extremely extraordinary.

Besides that, another grey clothed old man stood out as well. Half his skin was fair and glistened, while the other half was withered and dead. He had a weird appearance that was both withering and flourishing. He held a sword breaker that emanated strands of black and white baleful mist, and it was extremely terrifying. [1]

The old man was a senior from the Zhongli Clan called Zhongli Gui. According to rumor, he’d once tried to attain the Dao and become a god, yet even though he failed on the verge of success in the end, he didn’t perish from it, and his strength was unfathomable like an abyss.

“Two Immortal Kings?” Chen Xi started smiling, and his smile carried a wisp of coldness. He swept the two of them with his gaze and said, “Presently, the gods have ceased to exist, but could it be that all of you Immortal Kings really think that no one in the world can do anything to all of you?”

Everyone was shocked in their hearts. *Where did this Chen Xi get such courage from? Indeed, he can easily annihilate existences at the Half-step Immortal King Realm, but could it be that he can even go against Immortal Kings?*

Many people faintly admired Chen Xi's courage. After all, not just anyone in the world dared to disregard the might of an Immortal King like Chen Xi had.

"Your courage is laudable, yet you're courting death," said Jiang Cangyun.

"Being dealt with by two Immortal Kings is sufficient for you to die without leaving any regrets behind." Zhongli Gui spoke indifferently.

Clang!

A blood red sword appeared in Chen Xi's hand, and it was scarlet red to the point it seemed blood would drip out from it at any moment. Moreover, it was suffused with an ancient killing intent. It was the Dao Calamity Sword.

"This sword has always been left aside and silent in my possession. Until today, I've only allowed it to drink the blood of two Immortal Kings. Today, I can allow it to drink until it's satisfied!"

Bang!

Chen Xi attacked, and he intended to annihilate two Immortal Kings by himself!

The heavens and earth were suddenly dyed blood red while a blood red gale arose, and dark clouds surged. Its murderous aura threw the surroundings into disorder, and the sounds of Fiendgods crying and god roaring furiously before their death could be faintly heard.

Om!

An expanse of sword images arose in space, and they transformed into the sun, moon, and stars as Jiang Cangyun took the initiative to launch the first attack.

At the same time, Zhongli Gui's sword breaker glowed before black and white qi arose from it. The qi transformed into an unfathomable space-time black hole that devoured the surroundings, and it intended to swallow Chen Xi as well.

The two Immortal Kings had attacked. The moment they chose was so precise and their cooperation was so tacit that it was already flawless. Even if it was an Immortal King in Chen Xi's position, it would be impossible to dodge these attacks, let alone a Half-step Immortal King.

Swish!

Chen Xi didn't dodge at all, and he met these attacks head-on. In other words, he'd never thought of dodging!

The blood red sword surged through the sky while suffused with boundless brilliant sword qi.

Bang!

It wasn't just the sun, moon, and stars that were shattered, even the space-time blackhole was slashed into two.

With a single strike, he'd actually destroyed the joint attacks of two Immortal Kings!

Swoosh!

At practically the exact same time, Chen Xi's figure flashed, and moved like a flying Roc as he actually charged down towards the side.

*Shit!*The expressions of many people in the surroundings turned grim, and they rapidly dodged in succession because Chen Xi was obviously coming for them.

In other words, at this moment, he'd already decided to carry out a slaughter, and he wasn't just going against the two Immortal Kings, he even intended to seize this opportunity to kill the others because he intended to throw the situation into chaos!

Such a domineering attitude shocked many people in the surroundings once more, and it exceeded their imagination.

Pu!

At the instant Chen Xi attacked, the expression of a short and fat middle aged man turned grim. He originally intended to dodge, yet it was too late, and he was enveloped by a sword veil that sliced him into pieces, causing blood to spray towards the surroundings.

The short and fat middle aged man was precisely the head instructor of the Pill Reserve, Zuoqiu Sheng!

Blood sprayed into the surroundings, and Zuoqiu Sheng's shrill cry was still drifting through the air, yet he'd already been annihilated. All of this truly occurred too quickly, and Chen Xi's combat strength was so formidable that it exceeded their imagination.

In just a single move, he hadn't just clashed head-on with two Immortal Kings, and he'd even seized the opportunity to kill Zuoqiu Sheng. Could any other Half-step Immortal King be able to accomplish this?

"Bastard! Die!" Jiang Cangyun's face sank, and he pursued Chen Xi while holding the wooden sword in his hand. The sword insight from it was powerful like the void, and it transformed into all sorts of phenomena as it smashed down towards Chen Xi from all directions.

Bang!

Chen Xi executed a backhanded sword strike. A bloody glow shot into the sky and resisted this attack, whereas his entire body was blasted flying.

However, Chen Xi seized this opportunity to flash into space.

In the next instant, a myriad of sword formations were created in space, and they bloomed like numerous lotus flowers made from sword formations. They were suffused with dense talismans, and they were dazzling and resplendent as they smashed down towards the forces of the Zhongli Clan, Wanqi Clan, and Jiang Clan.

"Retreat!" The expressions of everyone turned pale because the might of these sword formations was too formidable, and it was utterly not something that Half-step Immortal Kings could resist.

Pu! Pu! Pu!

But in the end, there were still a few people that were unable to flee in time, and they were annihilated by the joint forces of those myriad of sword formations. They were minced into mush, and it was an extremely horrifying sight.

In the distance, Mu Rongtian and all the others from the Phoenix Clan and Buddha Dimension were terrified by this sight, and they gasped. They were shocked by the terrifying combat strength that Chen Xi revealed.

“Don’t you dare!” Jiang Cangyun charged over once more, and his expression was already extremely gloomy. In the two successive collisions he had with Chen Xi, not only was he unable to kill Chen Xi, Chen Xi had seized the opportunity instead to kill quite a few others. This caused him to be embarrassed, and he was infuriated to the extreme.

Rumble!

The wooden sword in his hand flashed through the sky and swept out without end. It smashed down like a lofty divine mountain, and even though it seemed extremely ordinary, it revealed a terrifying aura capable of crushing the ages and destroying the world.

Chen Xi was shocked, yet he wasn’t afraid. Moreover, battle intent surged in his heart instead.

He stopped pursuing those fleeing Half-step Immortal Kings and leaped up, and then the Dao Calamity sword swept out furiously like a bloody river.

Under the might of this strike, time and space were destroyed while the world was thrown into disorder, and then a blood colored purgatory of the sword appeared. The purgatory was a cage of the Sword Dao, and the cage was a talisman formation!

Rumble!

Their attacks collided and erupted with boundless might that swept through the world and enveloped the entire square.

The impetus of this collision was too terrifying, and it was only restrained after it caused the restrictions of the Dao Emperor Divine Palace to activate itself. Only in this way were the buildings in the vicinity spared from being affected by this collision.

Otherwise, merely this collision would probably be able to destroy the entirety of Dao Emperor Academy!

Stomp! Stomp! Stomp!

Under the shocked gazes of everyone in the surroundings, Jiang Cangyun was actually struck to the point of staggering back in the sky. Moreover, with every single step back he took, space collapsed and shattered into pieces while his countenance turned slightly paler.

After he took an entire seven steps back, a strand of golden blood couldn’t help but seep out from the corner of his mouth!

1. Look it up, the ‘sword breaker’ isn’t a cool name but a real historical weapon.

Talisman Emperor

Chapter 1483: Unstoppable

With a single strike, an Immortal King, Jiang Cangyun, showed signs of being defeated!

This scene was too shocking, and it filled the others with disbelief.

Earlier, Chen Xi had killed Half-step Immortal Kings as easily as slaughtering chickens, and it had already allowed the others to realize how extraordinary he was. They felt that no one amongst his peers could go against him.

But no one had imagined that his combat strength would actually be formidable to the extent that he wasn't just able to go against Immortal Kings, he even faintly showed signs of crushing an Immortal King!

Since the ancient times until now, how many Half-step Immortal Kings in the entire world were capable of being as heaven defying as Chen Xi?

It was simply unprecedented, and he'd created history!

Jiang Cangyun's expression was extremely unsightly. Besides feeling shocked and furious, he couldn't help but have a heavy feeling in his heart. *This kid is so terrifying that he can't be compared to an ordinary Half-step Immortal King at all, nor can he be judged by convention.*

Swish!

A wisp of indistinct sword qi slashed down once more. It seemed like a glow that was flowing through the void, and it swift to the point it caused one's scalp to go numb.

Jiang Cangyun had a solemn expression as he swiftly formed a mysterious seal with his hands.

Om!

A wisp of the golden glow of the Grand Dao arose, and it enveloped his entire body.

"Impermeable Dao Light Guard!" Someone exclaimed with shock as he'd recognized that it was an extraordinary secret technique executed via an ancient seal, and it fused together with the Dao Quintessence of the heavens and the earth, allowing one to transform into the Grand Dao.

This was a primeval secret technique passed down within the Jiang Clan. According to rumor, it was deduced from a divine technique that possessed extraordinary might, the Boundless Dao Light technique, and it was boundlessly profound.

Obviously, Jiang Cangyun was extraordinary, and he was even on par with Mu Rongtian. Otherwise, how could he possibly possess such ability?

Bang!

A sound of violent collision resounded as the sword qi slashed onto the golden glow of the Grand Dao, and it was actually unable to slash it apart.

Chen Xi's eyes narrowed as he noticed this fellow really did have some ability.

Presently, if it wasn't for the sake of establishing a Primeval Dao Quintessence and seeking a flawless Immortal King Grand Dao, Chen Xi could step foot into the Immortal King Realm at any moment.

Even then, his own combat strength was sufficient for him to surmount a realm and do battle, and even defeat Immortal Kings. All of this came from his deep foundation in the Immortal Dao and the strand of the energy of Order he absorbed from the Divine Chains of Order.

While he thought like this in his heart, Chen Xi's actions weren't slow at all, and he charged over once more.

Swish! Swish!

Sword qi and the golden glow of the Grand Dao collided, and it rumbled without end.

After a short moment, Jiang Cangyun was unable to persist any longer. His countenance was pale while the golden glow of the Grand Dao that covered his body shattered into pieces, causing him to be unable to help but cough up blood repeatedly.

He was about to be slaughtered on the spot when suddenly...

A Taici Diagram formed from black and white qi appeared out of thin air. It revolved without end while warping time and space, and it transformed into a deep black hole that seemed to intend to drag everything in the world into it.

This was an attack from Zhongli Gui. As soon as he made a move, he utilized his strongest lethal attack, the Yin Yang Blackhole. Once this attack was executed, it was even capable of swallowing the sun, moon, and stars. Moreover, it was capable of severing the link between a world and the universe, causing it to be extremely terrifying.

At this moment, it wasn't just Chen Xi who was visibly moved, and the others were shocked as well. Such a secret technique was truly extraordinary, and it could be considered to be rare even amongst Immortal Kings.

"Hmph!" Chen Xi didn't dodge, and he met it head-on. A muffled bang resounded, and it caused the sky to rumble without end before shattering into a chaotic flow of energy.

If the surroundings of the Dao Emperor Divine Palace weren't protected by supreme restrictions, it would absolutely be destroyed by this collision.

On the other hand, the great figures of the other powers had retreated far away, and they revealed shocked expressions because once the fluctuations of such a collision spread over, the consequences would be unimaginable.

At this moment, Chen Xi had become locked in battle with Zhongli Gui and they collided without end. They fought up into the heavens and moved throughout the surroundings, and the battle was extremely intense as they utilize all the lethal attacks they possessed.

In merely a short moment, Zhongli Gui coughed up a mouthful of blood and was blasted flying. After over a thousand collisions, he wasn't a match for Chen Xi in the end, and his quintessence was injured by a strand of Chen Xi's sword qi, causing him to be defeated.

When they saw this scene, everyone was shocked to the point their scalps went numb, and their breathing stopped. *Isn't he a little too strong?*

If they hadn't already confirmed that Chen Xi was at the Half-step Immortal King Realm, they wouldn't dare believe this scene even if they were bashed to death.

Because that was an Immortal King!

An existence that possessed great Karmic Luck and possessed supreme might in the three dimensions. After the arrival of the calamity, the gods had ceased to exist, and the Immortal Kings were exalted. Yet now, two Immortal Kings had both been successively defeated by a Half-step Immortal King!

If news of this was to spread, would anyone dare believe it?

Only Mu Rongtian had witnessed Chen Xi's combat strength before, so he could still be considered to be composed. However, he felt even more regretful in his heart because he was unable to form a good relationship with Chen Xi early on.

Bang!

The battle didn't end. Zhongli Gui had lost, yet he hadn't perished. So Chen Xi naturally wouldn't show mercy. He immediately charged down with the intention of annihilating Zhongli Gui.

At this moment, the aura emanated by Chen Xi seethed like lava, and the universe within his body rumbled. He resonated with the heavens and the earth while strands of the aura of the Dao coiled around his body, and his imposing aura seemed to be extremely formidable.

"Stay your hand!" Someone intended to stop Chen Xi yet was obliterated into ash with a flick of Chen Xi's sleeve. He died in an extremely direct and swift manner.

Pu!

Zhongli Gui was unable to escape death in the end, and his head was chopped off by a single sword strike from Chen Xi, causing blood to dye the sky red.

Even at this moment, this Immortal King still stared furiously with his eyes wide open and had a furious and unwilling expression. He was unable to imagine how an ant at the Half-step Immortal King Realm was actually able to accomplish this.

This scene completely deterred everyone in the surroundings. It caused the expressions of all the great figures from the Zhongli Clan, Jiang Clan, and Wanqi Clan to turn ghastly pale, and a strand of terror couldn't help but spread through their hearts.

The strongest amongst them was fighting for possession of the Ancient Dao Inheritance Cauldron within the Dao Emperor Divine Palace while Jiang Cangyun had been defeated and Zhongli Gui had been killed. There wasn't another Immortal King amongst them, so how could they go against Chen Xi?

It wasn't just them, the hearts of the great figures from the other great powers like the Ji Clan and Dragon Dimension felt cold, and their entire bodies felt cold as if they'd fallen into an icy pit.

All the disdain, contempt, and scorn they had for Chen Xi earlier had completely been replaced by terror and disbelief.

Only Mu Rongtian and all the others from the Phoenix Clan and Buddha Dimension broke out into cold sweat, and they felt extremely fortunate that they didn't join in this because it was absolutely a wise decision.

"Quickly retreat!" Jiang Cangyun roared furiously. He'd clearly realized how terrifying Chen Xi was, and he knew that it was utterly impossible to be a match for Chen Xi with those forces that were present here. Under such circumstances, he could only temporarily avoid Chen Xi.

As he spoke, he'd already torn space apart and teleported away. He fled without the slightest hesitation.

Swish!

Chen Xi had taken precautions against this since the beginning, and he slashed with his sword. Space collapsed as this sword strike shot towards the boundless depths of the rift in the distance.

Outside numerous layers of space, space suddenly exploded apart, and then a rain of blood poured down. After that, a shattered corpse fell out from it. Shockingly, it was Jiang Cangyun!

He deserved to suffer misfortune. The outside area of the Dao Emperor Divine Palace was densely covered in layer upon layer of space and restrictions, causing him to repeatedly be obstructed as he teleported. In the end, he failed on the verge of success and perished beneath Chen Xi's sword qi.

At this moment, the others had already recovered from their shock, and they retreated swiftly.

"Fleeing? Since you dared to come cause trouble in my Dao Emperor Academy, then how can you possibly just come and go as you wish!?" Chen Xi was cold and indifferent. Sword qi flowed at the center of his palm before it shot out in all directions. In merely a short moment of time, it completely wiped out all of them, and not a single one survived.

The surroundings were perfectly silent like cicadas in the winter!

What was it like to sweep through all obstacles? Chen Xi had given them the best explanation. He was invincible amongst his peers and could surmount a realm to do battle. So could anyone in the surroundings go against him?

The mottled ancient limestones on the square were dyed with blood and suffused with a bloody aura. The aura of slaughter suffused the entire surroundings, and it was an utterly horrifying scene.

The joint forces of the Zhongli Clan, Wanqi Clan, and Jiang Clan were actually not a match for Chen Xi, and they were completely annihilated instead, causing all the other remaining powers to be shocked. *How should we go against him now?*

Especially all the great figures of the Dragon Dimension and Ji Clan. Their countenances were pale, while their hearts were filled with terror. Never had they imagined that the situation would actually develop to such an extent.

A single person went against all the powers, yet there was actually no one that could go against him. How many people like this even existed in the entire world?

Swoosh!

Right at this moment, Chen Xi's gaze swept over like a cold bolt of lightning, causing the members of the Ji Clan and Dragon Dimension to feel their scalps go numb. All of them had extremely unnatural expressions that were utterly unsightly.

"Chen Xi, I'm willing to support you to assume the position of Dean!" An instructor that had sided with the Ji Clan spoke with a trembling voice, and he intended to defect to Chen Xi's side in exchange for forgiveness.

"Earlier, you were assisting the wicked to perpetuate evil and refused to realize your mistakes. Now, you're unwillingly surrendering to me. You don't have integrity at all. What's the point of keeping a coward like you that changes his mind constantly?" Amidst his icy cold and indifferent voice, Chen Xi lightly flicked his finger, and a wisp of sword qi shot out and severed the instructor's head!

"We realize our mistakes!" Some of the instructors that sided with other powers were extremely terrified. They'd truly been terrified by Chen Xi, and their hearts were filled with a mix of regret and hatred.

As for the outsiders from the Ji Clan and Dragon Dimension, they'd chosen to remain silent instead. They respectively represented a great power, so they wouldn't surrender just like that.

"Chen Xi, the calamity has arrived now, and the Sovereign Sect is casting its covetous eyes on the three dimensions. So it's unavoidable that their hearts would be unsteady. If you intend to take over the position of Dean, then it's inadvisable to carry out a slaughter here so as to avoid causing injury to the academy. It would be disadvantageous to the overall situation of the academy in the end." Suddenly, Mu Rongtian spoke via voice transmission and reminded Chen Xi.

"The calamity? The Sovereign Sect? In their eyes, nothing can ever compare to their own benefit. Leaving such corrupted people alive will only bring disaster sooner or later!" Chen Xi was displeased, and he frowned as he glanced at Mu Rongtian.

He didn't intend to stop just like this. Since he was making a show of strength, then he had to eliminate all that harbored ill intent. Only in this way could the internal situation within the academy stabilize completely, and only then would they be able to jointly resist the attacks of the calamity and the Sovereign Sect.

As it was said, internal security had to be maintained before a foreign invasion could be resisted.

Dang!

At this moment, the ancient and melodious ring of a cauldron suddenly swept out from within the Dao Emperor Divine Palace, and it revealed a mysterious energy that caused the heavens and the earth to tremble.

Chen Xi's face instantly sank, and he looked towards the distant palace from afar.

He vaguely guessed that the curtains to the fight for the Ancient Dao Inheritance Cauldron was probably about to be drawn.

Without any hesitation at all, Chen Xi turned around and charged towards the palace because he'd sensed that the Nineflow Jade Seal in his possession actually faintly showed signs of escaping his control.

This was absolutely bad news to him.

Everyone present in the surroundings couldn't help but heave a sigh of relief in their hearts when they saw this, and they watched Chen Xi leave with complicated expressions on their faces. No one dared to stop him, nor did anyone dare to go against him again.

Earlier, Chen Xi had already completely deterred them with his cold and resolute actions.

Everyone there is at the Immortal King Realm. I wonder if this fellow will be able to endure it... Mu Rongtian muttered. According to his knowledge, for the sake of taking control of the Ancient Dao Inheritance Cauldron, no less than ten Immortal Kings had already gathered within the Dao Emperor Divine Palace a long time ago.

Amongst them were three Immortal Kings that were respectively from the Wanqi Clan, Zhongli Clan, and Jiang Clan, whereas the others were from the Dragon Dimension, Phoenix Clan, Buddha Dimension, Ji Clan, and the other powers.

Besides these Immortal Kings, there was another existence that couldn't be overlooked — the Valiant Star Immortal King!

Chapter 1484: Fight For Supremacy In the Divine Palace

The Dao Emperor Divine Palace stood towering in the heavens and the earth, and it towered into the sky.

This was the place where the Karmic Luck of the entire Dao Emperor Academy was kept. Dean after Dean of the academy had resided here while comprehending profound techniques and controlling the academy. It was the paramount restricted area in the academy.

Compared to it, Chen Xi's figure was tiny like an ant, and he swiftly vanished behind the door that led to the palace.

The Dao Emperor Divine Place was extremely large, vast, and grand. It seemed capable of accommodating the sun, moon, stars, and the world.

As he stood within it, it was like being within a vast world.

The decoration within the palace was extremely simple. Numerous thick, large, and ancient stone pillars stood upright like pillars that could hold up the sky, and various grand scenes like offering sacrifices to the gods, dragon, and phoenixes were carved upon them.

The space within the palace was enshrouded by Immortal Energy, Chaotic Qi, Creation Qi, Primeval Qi, Auspicious Qi... Various auspicious energies flowed within it, and it was covered in a dreamlike mist.

Stomp! Stomp!

When Chen Xi entered the palace, only the empty sounds of his footsteps could be heard. The palace seemed to be extremely quiet, and it revealed a solemn aura.

At this moment, the Nineflow Jade Seal that Chen Xi carried in his possession suddenly started glowing, and it emanated a lively aura that linked up with the entire palace from afar.

It was like every breath they took was connected.

For no rhyme or reason, Chen Xi's heart became completely clear. His heart and mind felt as if he'd heard waves of the sound of ancient scriptures being read, the Dao being explained, and sacrifices being offered, and they were melodious and ancient.

All of this had come from the energy of Karmic Luck held down by the palace, and it was branded here after experiencing the baptism of time. Karmic Luck had always been something that was ethereal. It came from the Heaven Dao, the desires of all living beings, the prayers of all beings, the great aspirations of the gods, the sacrifices offered by the predecessors...

It was a pure and auspicious energy that was indescribably profound, yet it existed everywhere.

At this moment, Chen Xi clearly sensed this energy. It was so powerful, so thick, yet so clean and lively. It caused him to feel as if he'd returned to the chaos at the absolute beginning of the world, and he'd attained the Dao.

It was even to the extent that under the guidance of this energy, he was almost unable to control his cultivation and step into the Immortal King Realm!

Chen Xi suddenly took a deep breath and restrained this impulse before standing there quietly. For a time, it seemed as if he'd completely fused into one with the entire palace, and with Karmic Luck suffusing his body, he seemed like a monarch that had descended to the world.

As expected, I can link up with the palace by relying on the Nineflow Jade Seal and utilize the energy of Karmic Luck within it... Chen Xi seemed to be lost in thought. He was silent for a moment before he moved forward with large strides.

The palace was extremely vast like a world within a Secret Realm. At this moment, Chen Xi didn't intend to conceal himself any longer, and he took a stride out and teleported through space.

In next to no time, he arrived at the depths of the palace.

"Yes, I, Feng Xingwu, have not been a member of the academy since long ago. However, if I didn't receive the teaching and guidance of the academy, I would probably have no hope to step foot into the Immortal King Realm in my entire lifetime. Thus, so long as I exist, all of you can dream of obtaining this Ancient Dao Inheritance Cauldron!" Suddenly, a voice that was filled with boundless killing intent sounded out from the depths of the palace, and it revealed a domineering aura that looked down upon the world.

Feng Xingwu? Could it be the Valiant Star Immortal King?

Chen Xi's brows raised while divine light rose within his eyes.

“Fellow Daoist Xingwu, why act in this way? Presently, the calamity has arrived, and Dean Meng Xinghe has already headed to the Last Days Domain a long time ago. The important matter at hand is to select a new Dean as soon as possible. Otherwise, the academy would definitely fall into chaos.”

“Valiant Star Immortal King, you’re already heavily injured. We’re truly unwilling to make things difficult for you any longer. But if you continue to be so impervious to reason, then don’t blame us for being merciless!”

“Hmph! There’s no need to speak further. Let me see exactly how long this Valiant Star Immortal King can persist for!”

Bang!

In the blink of an eye, a wave of the sound of violent battle resounded, and it drowned out the conversation.

Chen Xi’s eyes narrowed, and he flashed forward with a swish.

...

The area deep within the palace was extremely spacious, and it was vast like an expanse of the heavens and the earth.

This was originally the place where the Dean of the academy cultivated, and an incense burner, meditation cushion, table, and various other things were set up here.

Yet now, the incense burner had been completely obliterated, the meditation cushion had vanished a long time ago, and as for the table, it had been shattered into bits that lay all over the ground.

In short, it was in a complete mess.

At this moment, there were numerous figures in battle here. Every move they made was filled with supreme might and surging Immortal Energy that shook the surroundings.

If the inside of the palace wasn’t covered in numerous restrictions and even had the energy of Karmic Luck protecting it, it would have probably been reduced to ruins a long time ago.

There was an extremely large gap between the parties to the battle. One party was all alone, completely bathed in blood, and his hair was disheveled. However, he was still extremely ferocious. He moved about freely as he fought, and he completely overlooked the horrifying injuries on his body.

Undoubtedly, this was Valiant Star Immortal King, a supreme existence that had attained the Dao in Dao Emperor Academy. Moreover, the reputation he enjoyed in the Immortal Dimension was on par with Midnight Immortal King, Icesky Immortal King, and Profound Path Immortal King.

On the other hand, he had an entire eight or nine opponents!

However, these opponents weren’t from the same power. They were roughly divided into two forces, and they didn’t cooperate with each other. Moreover, it was even to the extent that they faintly showed signs of being in confrontation. It was precisely because of this that they were unable to quickly suppress their opponent that was fighting all alone.

One of these forces was formed from a total of three Immortal Kings that were respectively from the Wanqi Clan, Zhongli Clan, and Jiang Clan. The other force was formed from a total of five Immortal Kings that were respectively from the Buddha Dimension, Phoenix Clan, Ji Clan, and Dragon Dimension!

However, this second force faintly showed signs of being in confrontation with each other as well, so they seemed to be extremely disorderly.

Reality was indeed like this. They were all from different powers, and all of them desired to seize control of the Ancient Dao Inheritance Cauldron, so they naturally wouldn't cooperate so tacitly.

But no matter what, Valiant Star Immortal King was in imminent danger now, and he was in danger of losing his life at any moment!

Bang!

Sure enough, it wasn't long before an old man with snow white hair suddenly moved forward with a lightning hammer in hand, and he suddenly broke through Valiant Star Immortal King's defense before forcefully smashing Valiant Star Immortal King flying.

This strike actually smashed firmly onto Valiant Star Immortal King, causing a wave of the sound of bones breaking to resound. His entire body was smashed to the point blood shot out from it, and even his chest sunk down!

"Die!" The old man's eyes revealed killing intent when he saw this, and he pressed down step by step towards Valiant Star Immortal King. He intended to seize this opportunity to annihilate Valiant Star Immortal King and seize the Ancient Dao Inheritance Cauldron from Valiant Star Immortal King's possession.

"Hmph! Let me do it instead!"

"Fuck off! I'll kill whoever who dares to try and seize it from me!"

"How laughable! Let's all rely on our own ability then!"

At this instant, it wasn't just that old man, the others rushed out as well because they intended to seize this opportunity to seize possession of the Ancient Dao Inheritance Cauldron, and they seemed to be extremely frenzied.

Bang!

However, right at this moment, a strand of terrifying sword qi shot out. It was like a raging ocean and contained boundless killing intent as it floated out into appearance before Valiant Star Immortal King, and then it swept out.

This strand of sword qi had simply appeared like a flash of lightning, and it seemed to intend to pierce through the sun and shake the river of stars!

This strand of sword qi was exuberant and impossible to resist. It was vast, mighty, and contained powerful killing intent!

As soon as this sword strike was executed, the energy of Karmic Luck within the entire palace seemed to have been summoned, and it swarmed over to converge into the sword qi, causing it to actually emanate a dignified aura of supremacy!

Rumble!

In an instant, all the Immortal Kings were blasted back, and they dodged repeatedly as they didn't dare bear the brunt of this attack!

"Who is it!"

"Dammit! We were only one step away!"

"Hmm? It's you, little fellow, Chen Xi!"

All the Immortal Kings were shocked and furious while their expressions changed indeterminately. When they clearly saw that the person who'd arrived here was surprisingly Chen Xi, they were unable to believe that the attack from before had come from Chen Xi.

For a time, all of them were slightly surprised and bewildered in their hearts. They thought that there was an expert hiding in the shadows, so they didn't dare move forward rashly.

"Hah! I never expected that it would be you who saved me in the end... As expected... As expected of the...successor...that the Dean personally appointed. Extraordinary." On the ground, Valiant Star Immortal King who'd escaped death coughed up blood repeatedly, and his countenance was ghastly pale. However, the gaze he shot at Chen Xi carried a rare wisp of gratification.

"Senior, there's no need to speak any further. Please calm yourself and meditate. Leave the rest to me." Chen Xi spoke calmly in a composed manner, and only his eyes that were deep like stars burned with surging killing intent. He looked at those Immortal Kings as if he was looking at a group of dead people, and there wasn't any emotion in his eyes.

This sort of feeling of being provoked caused the expressions of those Immortal Kings to instantly turn gloomy.

"Young man, who brought you in here?" asked the old man with snow white hair. Earlier, it was exactly this old man that had heavily injured Valiant Star Immortal King with a single strike of his hammer, and he'd seized a trace of an opportunity with great difficulty and was about to obtain the Ancient Dao Inheritance Cauldron. However, all of this was spoiled by Chen Xi, and it caused him to be extremely furious in his heart.

"Old Bastard, it should be I who asks you who gave you the gall to actually trespass into the restricted area of my academy!" Chen Xi spoke with a cold and indifferent tone, and he was overbearing and domineering. Moreover, he didn't conceal his detest and killing intent at all.

"Junior, you're courting death!" The old man almost exploded from rage. He was from the ancient Jiang Clan. Moreover, in the Jiang Clan, he possessed boundless influence while his words carried extreme weight in the clan. When had he ever suffered such offense?

He was immediately unable to restrain himself, and he pressed his palm down towards Chen Xi from afar.

“You overestimate your ability!” Chen Xi grunted coldly as he casually slashed with the blood red sword in his hand.

Bang!

He easily slashed the force of that palm strike apart, and it didn't lose momentum before fiercely smashing down towards the old man.

After that, a bang resounded, and the old man was struck to the point of staggering back. His expression was both livid and pale, and he was shocked, furious, and filled with disbelief.

The other Immortal Kings were originally extremely furious, but when they witnessed this scene, all of them were shocked in their hearts, causing their pupils to constrict while their expressions became serious. *This kid's strength is too strange!*

He's clearly only at the Half-step Immortal King Realm, yet his combat strength is actually formidable to an unfathomable degree.

If Mu Rongtian and the others were here, they would definitely notice that while he resided within the Dao Emperor Divine Palace, Chen Xi was actually much stronger than he was before this!

All of this came from the Nineflow Jade Seal, and it came from the energy of Karmic Luck that existed all over the palace!

Chen Xi naturally wouldn't explain this to the others. His gaze suddenly shot towards two of the Immortal Kings amongst the group, and he said coldly, “Before I came here, the members of the Phoenix Clan and Buddha Dimension had already decided to withdraw themselves from this matter. I can give both of you a chance to survive. Leave now, otherwise I'll definitely kill both of you without showing any mercy!”

Those two Immortal Kings were precisely from the Buddha Dimension and Phoenix Clan, and their expressions changed when they heard this. Never had they imagined that such an unexpected event had actually occurred outside the palace.

“Why should we believe you?” The Immortal King from the Phoenix Clan spoke while frowning.

Chen Xi instantly frowned, and he said coldly, “Since I was able to arrive here, it naturally explains everything. As for whether both of you believe me or not, it doesn't matter. It all depends on whether the both of you cherish your lives!”

His words were utterly blunt, and he couldn't be bothered to give them an explanation. If they believed him, then they should leave, if they didn't, then die. The meaning behind his words was extremely simple.

In another way, this revealed exactly how domineering and overbearing Chen Xi was at this moment, and he seemed to reveal an arrogant bearing of looking down upon all Immortal Kings in the world.

Chapter 1485: Silent Night Buddhist Master

Chen Xi's domineering attitude caused the expressions of all the Immortal Kings in the surroundings to change once more, and they felt that their dignity had been severely insulted!

After all, when Chen Xi had just stepped into Dao Emperor Academy, all of these old fellows had stepped into the Immortal King Realm countless years before, and they were supreme existences whose might deterred the world. They possessed an imposing might and authority that was sufficient to make all living beings in the Immortal Dimension tremble before them.

At that time, Chen Xi probably hadn't been born yet!

Now, such a little fellow actually dared to speak with them in such a way, and it was simply great disrespect!

Indeed, seniority on the path of cultivation wasn't determined by age, and it was determined by one's own strength. However, as far as these Immortal Kings were aware, Chen Xi had just stepped foot into the Half-step Immortal King Realm for a few years!

So how could he dare to go against them?

However, everything that occurred before their eyes didn't just cause these Immortal Kings to be furious, they even didn't dare rashly make a move.

Earlier, when Chen Xi arrived at the Dao Emperor Divine Palace, a single sword strike from him had shocked them all and blasted them back. Moreover, he even forced the white haired old man back with a single casual sword strike.

That old man was an extremely senior existence from the Jiang Clan called Jiang Tingfang, and he'd lived for countless years while his strength was even unfathomable. He was an existence from the same generation as Zhao Taici, Chi Cangsheng, and Ao Jiuhui.

Now, he was blasted back by a single sword strike from Chen Xi, and he didn't occupy the slightest bit of advantage in the collision. All of this caused the Immortal Kings in the surroundings to be shocked, and they this felt slightly unusual to them.

After all, a Half-step Immortal King was actually able to surmount a realm and do battle, and even collide head-on with an Immortal King. This in and of itself was extremely inconceivable and could be considered as unprecedented.

"When there's obsession in the heart, it's difficult to withdraw in the end. Benefactor, please give me your guidance in order to sever this karma and destroy the obsession in my heart." Suddenly, the Immortal King from the Buddha Dimension spoke. He wore linen clothes, was barefooted, and had a resolute expression. Moreover, his eyes were deep like a vast ocean and revealed a firm and empty meditative feeling.

His Buddhist name was Silent Night, and he was a great Buddhist Master of the Buddha Dimension. He sat on a golden lotus with twelve petals, and he preached the Buddhist doctrine of the past and future. In the Buddha Dimension, he was already respectfully addressed as a real Buddha.

“If all of you want to fight, then go ahead. I’ll withdraw.” Unlike Silent Night, not only was the Immortal King from the Phoenix Clan not infuriated when she heard Chen Xi’s blunt words, she fell into deep thought instead. At this moment, she’d made her decision.

As soon as she finished speaking, she turned around and left without the slightest hesitation.

This exceeded the expectations of everyone, yet no one stopped her.

Chen Xi cupped his hands and sent her off with his gaze. In his opinion, this Immortal King from the Phoenix Clan was obviously much more admirable than Silent Night because she was willing to part with the opportunity before her. As it was said, only by willing to give up something would one be able to obtain something in return.

“Are you sure you want to make a move against me?” In the next instant, Chen Xi recovered his coldness and indifference as he glanced at Silent Night.

The atmosphere suddenly became murderous and deathly silent.

The other Immortal Kings remained silent. After they witnessed this scene, they intended to watch coldly from the sidelines and have a good look at Chen Xi’s exact strength.

“Please provide me with your guidance.” Silent Night chanted the name of the Buddha before his body suffused effused boundless golden light, and then a twelve petal golden lotus arose beneath his feet. It burned with strands of pure Karmic Flames, and it was imposing, dignified, and possessed a terrifying aura.

Moreover, waves of chanting were faintly resounding from within space while the scenes of heavenly dragons soaring about, golden flowers descending from the sky, and various others appeared. It seemed to be sacred and grand.

This was the might of a Buddhist cultivator. A true mighty eternal body that existed eternally with the flames of karma, and it was called the Buddha Gold Body as well. It was boundless and without any impurity.

Clang!

The Dao Calamity Sword in Chen Xi’s hand howled while suffused with an obscure and murderous blood red aura. “Old Fellow, if it was at any other time, I would respect you. But now, you’ve completely disappointed me.”

Chen Xi’s voice was filled with disdain and a murderous tone.

Presently, Valiant Star Immortal King was heavily injured and on the verge of death, so only Chen Xi himself was facing all of these Immortal Kings. At such a moment, Silent Night was actually unable to put down the obsession in his heart and intended to fight Chen Xi. So even though he seemed to be upright and frank, was he any different from the others?

After all, Chen Xi had already said that he intended to let Silent Night and the Immortal King from the Phoenix Clan go, and it was even to the extent that he didn’t intend to make a fuss about their crimes of trespassing into the academy and doing as they wished within it. He’d already exercised sufficient forbearance!

But Silent Night didn't appreciate this kindness and still persisted on obtaining the Ancient Dao Inheritance Cauldron. Obviously, such actions had crossed Chen Xi's limits!

"Please provide me with your guidance." Silent Night had a firm expression that didn't contain any fluctuations of emotion. His entire body burned with Karmic Flames while the lotus beneath him glowed brightly, and his imposing aura grew even grander.

Bang!

He actually took the initiative to attack. He pressed his hands together and chanted. "Buddha be praised!"

It was merely three words, yet it seemed like a decree had descended from the heavens, and it carried a force that struck directly at the heart. In an instant, the Karmic Flames in the surrounding space burned and transformed into numerous images of the Buddhas.

These images seemed material and emanated a supreme dignified aura. They either had three heads and six arms, were glaring furiously, smiling while picking flowers, taking pity on the people of the world, or holding a Demon Subduing Mace, horsetail whisk, wooden clapper, bell, jade bottle, sword, prayer beads, and various other Buddhist treasures.

"Hell will never go silent before it's empty. The world is like the bodhi tree, it lives for a myriad of generations, yet it's unable to avoid turning into ash from calamity..."

"The world is never at a constant size, the heart is never at a constant state, techniques never had a constant might, the Buddha never has a constant obsession. Everything is empty."

"If the mind is filled with obsession, it should be severed. If the heart is filled with fear, it should be crushed. If the world is filled with dirt, it should be destroyed. The Buddha is without impurity, and thus the Buddha is boundless!"

Numerous grand Buddhist chanting resounded through the entire palace while a sacred glow rumbled. The images of numerous Buddhas resided in the sky, and they caused all sorts of phenomena to arise!

In an instant, this expanse of space seemed to have transformed into 'Paradise,' and it was completely illuminated by a sacred glow and boundless divine strength.

Yet all of this came from merely a single Buddhist chant that Silent Night proclaimed!

At this moment, all the Immortal Kings in the surroundings were moved, and they moved aside successively, as they were unwilling to be affected by this attack.

Chen Xi's eyes turned completely icy cold because the might of this attack was extremely terrifying, and it caused a wisp of terror to arise in his heart as well. He'd sensed the smell of danger.

Silent Night obviously intended to attain victory in one go and utilize his stronger attack to decide the victor of the battle!

Bang!

Chen Xi took a deep breath, and then the universe within his body circulated madly. Sword Insight once again rose explosively around his body, and he'd arrived at his peak state. Moreover, the Dao Calamity Sword in his hand was completely scarlet red to the point it seemed that blood would drip out of it at any moment.

However, right at the instant Chen Xi intended to attack...

Suddenly, the numerous images of Buddhas, the grand sounds of Buddhist chanting, and the energy of the Buddhist techniques that seemed like a 'Paradise' had actually smashed down towards the Immortal Kings in the vicinity!

Chen Xi was instantly stunned. *What this?*

Rumble!

In an instant, boundless golden light transformed into a 'World of Karmic Flames,' and it enveloped all the Immortal Kings within it!

On the other hand, Silent Night sat cross-legged within it. He was dignified, imposing, and had a still expression that revealed a feeling of openness and emptiness. Moreover, his entire body surged with a myriad of strands of sacred light as he maintained the 'World of Karmic Flames.'

"Dammit!"

"Sly Old Baldy! What's the meaning of this?"

"We've been tricked! This old bastard is on that little fellow's side!"

"Dammit! Let's join forces and kill this baldy!"

All of the Immortal Kings were in a thundering rage, and their expressions were extremely unsightly from being taken by surprise like this. They were both shocked and furious, and no matter how they wracked their brains, they'd never imagined that such an unexpected event would actually occur.

It wasn't just them, even Chen Xi was shocked by this scene, and it was difficult for him to believe. *Why would Silent Night act in this way? Could it be...*

"All living beings will suffer beneath the calamity. The path of cultivation is on the verge of collapse, and the myriad of cultivators in the world will only gradually approach death. Even my Buddha Dimension is unable to avoid this. At this moment, it's impossible for me to survive, and I can only give it my all to buy ten minutes for you."

"Go on, take control of the Ancient Dao Inheritance Cauldron and you'll be able to take control of all the energy of Karmic Luck within the Dao Emperor Divine Palace. At that time, you can utilize it for slaughtering kings, annihilating invaders, killing thieves, and sweeping through the world." Silent Night's voice resounded by Chen Xi's ears, causing him to be completely moved!

He finally understood that from the beginning until the end, Silent Night never had any intention of making things difficult for him, and it was even to the extent that Silent Night was sacrificing his own life in order to buy time for Chen Xi!

Rumble!

Waves of rumbling resounded from the 'World of Karmic Flames' in the distance as a violent battle was being carried out within it. It seemed to be extremely terrifying, and it was impossible to clearly see exactly what was going on within it.

Chen Xi held the blood red sword in his hand as he stared at all of this.

He understood what Silent Night meant, and he knew that Silent Night felt he wasn't a match for those Immortal Kings.

He himself was very clearly aware that he did indeed possess the ability to surmount a battle and do battle, and he could go head-on against Immortal Kings. Coupled with the Nineflow Jade Seal in his possession, he was able to utilize a portion of the energy of Karmic Luck in the palace. In this way, it was sufficient for him to annihilate Immortal Kings.

However, even though he was able to annihilate Immortal Kings, there were six or seven Immortal Kings there, and once they joined forces, even Chen Xi was unable to guarantee that he could obtain victory in the battle.

Perhaps, Silent Night had precisely seen through this, and that was why he'd taken such action.

This caused Chen Xi to be both shocked and frustrated in his heart. *Why...did he act in this way?*

"Chen Xi, quickly come over here!" Valiant Star Immortal King that was heavily injured and on the verge of death suddenly struggled and stood up, and then he said to Chen Xi. "This Silent Night Buddhist Master was a very good friend of the Dean's. If he didn't assist me in secret, I wouldn't have been able to survive until now."

He was telling the truth. Before Chen Xi had arrived here, Valiant Star Immortal King had gone against seven or eight Immortal Kings by himself in this battle to seize the Ancient Dao Inheritance Cauldron, and if it was at an ordinary time, he would have been annihilated a long time ago.

Besides the fact that all of those Immortal Kings weren't united, the reason he was able to persist until now was because Silent Night Buddhist Master was assisting him in secret. He seemed to have repeatedly attacked Valiant Star Immortal King, yet he was actually imperceptibly helping Valiant Star Immortal King block off numerous lethal attacks!

At this moment, Chen Xi finally understood the sequence of events the situation, and he sighed with emotion without end within his heart. He really had misunderstood Silent Night earlier, but it was precisely because of this misunderstanding that he felt even more admiration towards Silent Night.

"I'm going to help him!" Chen Xi suddenly decided.

"Chen Xi, if you don't want Silent Night to sacrifice himself for nothing, then seize this moment to refine the Ancient Dao Inheritance Cauldron! At that time, the restrictions in the entire academy will be under your control and annihilating Immortal Kings wouldn't be difficult at all!" Valiant Star Immortal King withdrew an ancient bronze cauldron and passed it to Chen Xi.

This cauldron was completely round and heavy. It had three legs, two handles, and a single opening. It was simple to the extreme. However, as soon as it was taken out, it emanated an indescribable aura that caused others to be unable to help but arouse reverence in their hearts.

The three legs of the cauldron represented the heavens, earth, and man, the two handles represented Yin and Yang, and the single opening represented the chaos at the absolute beginning of the world.

This cauldron was completely round because it represented perfection in the Grand Dao, and its boundless cycle.

This cauldron was simply because it represented that the Grand Dao moved towards simplicity. It had returned to simplicity, so it wasn't decorated.

It was merely a single cauldron, yet it caused others to feel as if they'd witnessed the birth of chaos, the splitting of the world, the quintessence of the Grand Dao, the situation of all life. It just happened to point towards the true meaning of the Grand Dao, the Dao was natural!

This was the Ancient Dao Inheritance Cauldron.

The core ancient treasure of Dao Emperor Academy that held down its Karmic Luck for innumerable years!

Chapter 1486: The New Dean

Om~

At the instant when Valiant Star Immortal King withdrew the Ancient Dao Inheritance Cauldron, the Nineflow Jade Seal in Chen Xi's possession fluctuated as well, and it flowed with an auspicious glow as if it was summoning the cauldron.

Chen Xi didn't make a move to receive the cauldron, and he gazed at the 'World of Karmic Flames' instead. The group of Immortal Kings were roaring furiously over there as they fought with all their might, whereas Silent Night Buddhist Master sat cross-legged in a silent and solemn manner while his entire body emanated strands of pure Karmic Flames.

When looked at from afar, his entire body seemed to be burning, and he intended to utilize the flames from his own body to incinerate everything.

"If you continue to hesitate, then not only will Silent Night have sacrificed himself in vain, both of us might perish here as well while Dao Emperor Academy will fall into the hands of others!" Valiant Star Immortal King spoke in a low voice and reminded Chen Xi.

Chen Xi puckered his lips and went silent for a moment. In the end, he withdrew his gaze while he said lightly in his heart, Karma arises from life, and it's passed down to the next lifetime upon death. It's impossible to remove. Senior, I'll completely sever it for you.

After that, he turned around and took the Ancient Dao Inheritance Cauldron in his hand.

Bang!

A strand of resolute will surged out from Chen Xi's body, and it transformed into a spirit brand that surged into the cauldron, causing waves of droning to arise.

He was refining this treasure and branding his own will within it, and then it would be equivalent to taking control of it.

A wisp of a gratified expression appeared on Valiant Star Immortal King's ghastly pale countenance when he saw this. This is the successor chosen by the Dean, and he has even obtained the Dao Emperor's inheritance. This treasure ought to be possessed by him!

"How audacious! Chen Xi, you're playing with fire! Quickly put down the Ancient Dao Inheritance Cauldron, otherwise no one in the world will be able to save you!" A furious roar sounded out from within the World of Karmic Flames.

Obviously, someone had noticed all of this.

"Bastard! Bastard! Allowing a fledging little bastard to succeed the position of Dean is simply absurd! Valiant Star Immortal King, Silent Night Buddhist Master...both of you deserve death!" The other Immortal Kings were furious as well, and they executed all their ability to attack the World of Karmic Flames with the intention of charging out from it and killing Chen Xi to stop all of this.

"Buddha be praised!"

Bang!

Silent Night proclaimed a Buddhist chant once more, and then his entire body started burning. He was enveloped by pure and vast Karmic Flames that emanated a boundless sacred glow before it smashed down fiercely.

Chen Xi watched all of this in a cold and indifferent manner while the aura he emanated grew even stronger. He was making great efforts to refine the Ancient Dao Inheritance Cauldron as boundless energy of Karmic Luck and even strands of terrifying will surged within this treasure.

With Chen Xi's current cultivation, if it was at an ordinary time, he would at least require ten to fifteen days in order to accomplish it. After all, his cultivation was only at the Half-step Immortal King Realm in the end.

But the current situation was urgent, and it would obviously not give him more time.

"Chen Xi, I'll leave the academy to you. Don't feel too pressured, and it's sufficient to let fate decide everything." Suddenly, Valiant Star Immortal King raised his head and spoke with a smile on his face, and he seemed to reveal a sense of relief.

Chen Xi's heart shook fiercely as a bad premonition arose within it, and he blurted out, "Don't!"

But he was still a step too late. When he finished speaking, Valiant Star Immortal King had already executed some sort of secret technique, causing his entire body to explode into pieces, and then it transformed into a strand of crimson gold colored blood that boiled and gurgled.

Rumble!

This strand of crimson gold blood blazed like the scorching sun, and it contained the Quintessence Energy of Valiant Star Immortal King. It was powerful and vast, and at this moment, it completely surged into the Ancient Dao Inheritance Cauldron.

He'd actually chosen to take his own life and sacrifice his quintessence in order to help Chen Xi completely refine the cauldron!

In the entire three dimensions, how many Immortal Kings possessed such resolution and courage to die for a noble cause?

Yet now...

Silent Night Buddhist Master had done so.

Valiant Star Immortal King had done so as well!

At this instant, Chen Xi was utterly stunned, and his mind went blank. It felt as if something had utterly blocked up his heart, and it oppressed him to the point his entire body trembled, causing him to be unable to restrain himself from shouting towards the sky!

His voice was like a thunderclap that was filled with boundless anger, frustration, rage, and hatred. It rumbled and surged throughout the entire palace, and it seemed like the howl of a Fiendgod that was unwilling to submit to fate!

Bang!

The palace glowed as strands of vast energy of Karmic Luck suddenly converged towards Chen Xi from all directions, and it completely enveloped him.

At practically the exact same moment, the Nineflow Jade Seal in Chen Xi's possession floated up into the sky and glowed, and then it suddenly emanated a myriad of strands of auspicious energy that enveloped the Ancient Dao Inheritance Cauldron.

In merely an instant, the Ancient Dao Inheritance Cauldron suddenly vanished, and then a completely round and simple bronze cauldron that had three legs, two handles, and an opening appeared at the bottom of the Nineflow Jade Seal!

Obviously, the two of them had already fused into one.

"Bastard!"

"Dammit!"

Suddenly, numerous furious roars resounded, and it was from those Immortal Kings. They'd already noticed that the situation was bad, and all of them were disgruntled. They exerted all their might and actually broke open the World of Karmic Flames at this moment!

Meanwhile, at this moment, Silent Night Buddhist Master suddenly stood up and stood amidst the surging Karmic Flames that covered the sky. He turned around to glance at Chen Xi before he pressed his palms together, and then he lowered his head and proclaimed a Buddhist chant.

After that, he revealed a wisp of a grin that seemed like a grin of release. It was so pure and happy, and it seemed like the smile of an ignorant child.

Swish!

His entire body transformed into an expanse of Karmic Flames that flowed out along with the wind, and a Buddhist chant faintly drifted through the surroundings. "Everything isn't constant. Everything in the world is like an illusion while life and death is never constant. Buddha be praised."

Silent Night Buddhist Master vanished in the heavens and the earth at this moment!

At this moment, Chen Xi had calmed down completely. After he witnessed all of this, he was strangely calm, and he seemed to not know grief.

He'd become completely indifferent, and he seemed to be completely devoid of emotion from his extreme rage.

At this moment, those Immortal Kings had charged out from the World of Karmic Flames, and their faces were covered with anger, unwillingness, and uncontrollable killing intent. They wanted to annihilate Chen Xi.

Bang!

However, right at this moment, the entire palace suddenly shook while a strand of material energy of Karmic Luck coiled around Chen Xi's entire body, causing him to seem like an emperor that controlled the world.

At the same time, a grand voice resounded through the palace, and then it swept into the heavens...

"Successor, Chen Xi!"

At this instant, all the living beings in the entire academy were shocked at this moment. This was the voice of the Dean, Meng Xinghe, and it appeared at this moment to pass down his position to Chen Xi!

Dang! Dang!

At the outer court, the Dao Bell of Vie that lay silent and motionless started rumbling at this moment.

In the Dao Development Reserve, the Heavenflow Divine Mirror emanated clear radiance that shot out and covered the sky before it descended through the heavens and the earth.

In the Pill Reserve, the Nine Profundity Divine Cauldron emanated a wave of clear howls while the sound of nature arose from within it. It caused a myriad of strands of auspicious light to arise, and it rained down throughout the entire academy, causing the entire academy to be nurtured and illuminated by an auspicious glow.

In the Scripture Reserve, the Daolight Jade Scripture rose into the sky and flipped open by itself before waves of chanting resounded from within it, and the sounds of chanting surged through every single inch of space in the heavens and the earth.

At this moment, every single restriction within the academy awoke from their deathly silence, and they seemed to be greeting the arrival of the new Dean into the world!

“It’s Chen Xi! He obtained the Ancient Dao Inheritance Cauldron and succeeded the position of Dean!”
Waves of exclams of surprise resounded out.

In the academy, at this moment, the numerous instructors and students that were hiding in the shadows were shocked, and they were excited and speechless. At this moment, the academy’s situation of being a host of dragons without a leader had finally ended!

“Chen Xi?”

“Chen Xi!”

“The new Dean of Dao Emperor Academy!”

“This battle and unrest are finally ending!”

The grand voice resounded through the heavens and the earth, and it spread into Darkombat City. All the living beings within the city were able to hear it, and they were all shocked while their gazes shot towards Dao Emperor Academy in succession.

They knew that when Chen Xi succeeded the position of Dean, it meant that a new era was about to begin in Dao Emperor Academy after Meng Xinghe’s departure!

At this moment, within the Dao Emperor Divine Palace.

Energy of Karmic Luck that could be seen with the eye coiled around Chen Xi like numerous dragons, and they roamed and whistled around him while fusing into one with him.

Chen Xi stood there while his might grew more and more supreme, and his aura became even more unfathomable and immovable. He was like an overlord that commanded the ages and controlled the world, and his eyes were icy cold and indifferent, and they seemed capable of seeing through the essence of the world. Moreover, Karmic Luck coiled around his body like enormous dragons, and they vividly displayed an exalted might that tolerated no offense.

When they witnessed all of these changes, all of the Immortal Kings suddenly stopped moving. They were extremely shocked in their hearts, and their expressions changed indeterminately as they felt both hatred and anger. Yet it was impossible to change all of this now.

Unless...they killed Chen Xi!

The Immortal King of the Phoenix Clan had left, Valiant Star Immortal King had sacrificed himself and perished, Silent Night Buddhist Master had sacrificed himself for a noble cause, so only six Immortal Kings remained in the palace now.

They were respectively from the Jiang Clan, Wanqi Clan, Zhongli Clan, Dragon Dimension, and Ji Clan.

Presently, the gods had ceased to exist within the three dimensions, so Immortal Kings were already invincible and paramount existence, let alone when there was an entire six of them here.

So even if Chen Xi had obtained the Karmic Luck of the entire palace, these Immortal Kings were still unwilling to leave, and they intended to kill Chen Xi at any cost in order to reclaim the Ancient Dao Inheritance Cauldron.

“Chen Xi! How audacious of you! You forcefully seized the Ancient Dao Inheritance Cauldron and seized the position of Dean. Is this something that a Half-step Immortal King like you can forcefully occupy? Quickly allow yourself to be captured! Don’t bring harm to yourself!” said Jiang Tingfang from the ancient Jiang Clan. His words were fierce because he knew that if this continued, then Chen Xi’s imposing aura would only grow more and more exuberant, and they had to make a move as soon as possible.

“Everyone, what’re all of you waiting for? Could it be that you’re all willing to watch as this kid usurps the position of Dean?” Another Immortal King spoke with a grim voice.

Chen Xi was currently only at the Half-step Immortal King Realm, yet his strength was already so terrifying, and he was even capable of surmounting a realm to battle Immortal Kings. If he was allowed to succeed the position of Dean, then could anyone subdue him in the future?

Presently, they’d already completely offended Chen Xi. Enmity had already been sown between them, and it was irredeemable. So, at this moment, they could only kill Chen Xi, otherwise they would never be able to be at ease.

“All of you’ve made the right choice because I’ve decided to not allow a single one of you to leave.” Chen Xi’s gaze grew even colder and indifferent, and he truly seemed like a monarch as he spoke in an icy cold tone.

His voice was calm and ordinary, yet it was murderous like lightning, and it surged within the hearts of those Immortal Kings, causing their expressions to change and reveal extreme shock and fury.

“Everyone, do you see it now? This kid is running wild! So why don’t we kill him, because he’ll definitely become an enormous worry in our hearts in the future, and it’s even to the extent that he’ll bring calamity to the powers that stand behind us!” Jiang Tingfang had a livid expression as she roared furiously.

At this moment, the Immortal Kings that were originally hesitating had finally made up their minds, and their gazes revealed killing intent in succession while locking onto Chen Xi who stood in the distance.

Could it be that the joint forces of six Immortal Kings would still be unable to kill an existence at the Half-step Immortal King Realm?

They didn’t believe it!

Chapter 1487: Boundless Divine Migh

Bang!

After they made their decisions, Jiang Tingfang was the first to attack. He flicked his sleeve, causing Immortal Force to rumble before 3,000 Immortal Troops actually charged out from within his sleeve.

All of these Immortal Troops possessed surging imposing auras and seemed material. Moreover, every single one of them possessed a cultivation at the Half-step Immortal King Realm. All of them held Immortal Artifacts in their hands as they shouted and charged towards Chen Xi.

This was similar to the technique of 'casting out beans that transformed into soldiers,' yet it was even more terrifying. It was a supreme technique of the ancient Jiang Clan called Spirit Servant Summoning.

When one utilized this technique, so long as one had refined sufficient souls, then one could form them into servant troops that were equal in number to the refined souls. Moreover, the stronger the strength of the soul that was refined, the stronger the strength of the servant troop would be!

Kill!

It was like the shout of a Fiendgod as the 3,000 servant troops at the Half-step Immortal King Realm roared furiously, and they charged at Chen Xi like tidewater. Their numbers were so huge that they seemed like a dark cloud pressing down towards Chen Xi, and it was a horrifying sight.

Bang!

Chen Xi's expression was indifferent. He just raised a single hand and swiftly pressed it forward. A myriad of strands of Immortal Force surged out, causing the heavens and the earth to rumble while the palm swiftly enlarged, and it was coiled with numerous chains of talismans and seemed like a cloud that was descending from the sky as it enveloped the servant troops.

Bang! Bang! Bang!

The tide of 3,000 servant troops hadn't even approached Chen Xi when they were pushed aside and crushed into pieces, causing them to transform into a rain of light that covered the sky as it poured down. In an instant, they were actually almost completely wiped out!

It was truly a scene like sweeping through dry leaves and crushing everything.

The palm vanished and the mysterious energy of Karmic Luck seethed. Chen Xi stood firmly on the spot like a rock, and his gaze was icy cold and deep. He looked down upon the group of Immortal Kings, and he seemed as if he'd done something that was extremely ordinary.

"What a shocking imposing aura!" Many Immortal Kings were shocked in their hearts. Compared to before, as soon as Chen Xi attacked at this moment, he revealed an oppressive aura that was vast, supreme, and terrifying.

They were clearly aware that it was because Chen Xi had taken control of the Ancient Dao Inheritance Cauldron. It had caused the Karmic Luck within the entire palace to converge onto him, so his imposing might naturally couldn't be underestimated.

"Attack!" Even though they thought like that in their hearts, their reactions weren't slow at all. They executed all sorts of techniques and utilized Immortal Artifacts, causing a glow to rise into the surroundings. They intended to join forces and deal with Chen Xi.

At practically the exact same moment, Chen Xi made a move as well, and he strode forward. In an instant, the energy of Karmic Luck transformed into numerous large dragons that coiled around his body, and then they raised their heads and howled as they covered him, causing his imposing aura to be powerful like an emperor that looked down upon the world.

Even though he was all alone, he seemed like an overlord that was patrolling the world while receiving the Karmic Luck of the heavens and the earth. He had an extremely imposing aura and a bearing that deterred the universe, and he seemed composed and calm.

“Die!” An old woman charged over explosively. She held a cane with a silver snake on top, and it carried the might of an Immortal King as it tore through the sky and smashed down towards Chen Xi.

This old woman was from the Wanqi Clan, and she was called Wanqi Ying. She was an extremely respected senior in the clan that possessed boundless might, and she was a senior that made a name for herself countless years ago.

Rumble!

The cane tore through the sky and actually transformed time and space into balls of lightning that possessed a shocking imposing aura, and it rained down with the intention of crushing Chen Xi into powder.

It was lightning of time and space, and even its aura was sufficient to annihilate numerous Half-step Immortal Kings!

“Old Fellow, you actually have some courage!” Chen Xi suddenly raised his head while a divine glow flashed within his eyes, and then blazing light erupted from his entire body. At the same time, a wisp of a blood red sword soared into the sky before it slashed down.

Bang!

Sword Insight shot into the sky. It was thick, large, and reached the heavens, and it flowed with the glow of talismans, Order, and Karmic Luck. It easily destroyed the myriad of lightning of space and time, and then a clang resounded as it struck the cane to the point it droned.

Swoosh!

Wanqi Ying’s expression turned grim, and her figure flashed and vanished on the spot.

Om!

At practically the same time that Chen Xi met this attack head-on, numerous other attacks shot towards him from within space. There were Immortal Artifacts that possessed terrifying might and there were supreme and profound techniques, and they’d all converged together and enveloped down towards him from the sky.

These were the joint attacks of the other five Immortal Kings, and all of their attacks had gathered ahead of them and shot towards Chen Xi, who’d just succeeded the position of Dean.

Chen Xi stopped moving while a glow erupted explosively from his eyes, and then his black hair fluttered while the aura on his body rumbled like an abyss. It seemed like a void had effused out, and it shook the palace.

At this moment, the heavens and the earth seemed to have returned to deathly silence, and it revealed the scene where ‘the loudest sounds were silent, and the greatest scenes were shapeless.’ A strand of horrifying deathly silence was suffused within this empty atmosphere.

At this moment, only Chen Xi's imposing aura was rumbling, and it was like the roar of a dragon and the tune of the Dao as it resounded through the nine heavens!

Swish!

Countless talismans that were dense like the stars in the sky soared out from Chen Xi, and they transformed into numerous brilliant strands of sword qi that formed into numerous profound sword formations. After that, they whistled out while carrying a might that shook the heavens and the earth!

Rumble! Rumble!

A wave of the sounds of collision that shook the heavens and the earth resounded. It was like a myriad of volcanoes had erupted, and peerlessly terrifying jets of air rumbled as they swept out, causing the entire palace to quake.

The collision between them this time was too shocking, and if it occurred in the outside world, then it would definitely crush countless cities into powder.

Amidst the dust and dirt that was dispersing in the air, Chen Xi's completely unharmed figure remained on the spot while numerous dragons formed from Karmic Luck resided in his surroundings, causing him to seem like Fiendgod that was born from the Chaos.

On the other hand, many of the six Immortal Kings were gasping for breath while their expressions were livid and ashen. Even though they hadn't suffered any injury, they'd obviously been impacted by the collision this time.

This was shocking because Chen Xi was all alone, yet he was actually able to directly resist the joint attacks of six Immortal Kings while remaining completely unharmed!

The expressions of all the Immortal Kings turned gloomy while a solemn expression suffused their eyes. They knew that all of this was probably related to the Ancient Dao Inheritance Cauldron because it had caused the energy of Karmic Luck within the entire academy to envelop Chen Xi!

After all, Chen Xi was still only at the Half-step Immortal King Realm, yet he was able to meet all six of them head-on in battle by relying on this energy of Karmic Luck. So if he was allowed to grow, then he would definitely become a great latent trouble for them!

All of this had occurred in an instant, so even though it took a long time to describe, it was actually something that occurred in a mere instant.

Bang!

A rugged middle aged man with a bare chest attacked. He executed a mysterious technique that formed beautiful and ethereal five colored divine light, and it shot fiercely towards Chen Xi.

This was the supreme inheritance of the ancient Ji Clan, 'Five-colored Divine Light,' and it was said to be able to destroy the five elements and counter all treasures in the world. Its reputation shook the ages.

Chen Xi's gaze was calm. When facing such a secret technique, he didn't underestimate it at all, yet he wasn't fearful either!

Swoosh!

He pressed his fingers together to form a sword, and then he utilized the might of his Sword Dao to slash a wisp of sword qi towards the middle aged man. This wisp of sword qi was extremely simple, yet it was filled with the profundities of Enduring, and it was densely covered with the three rare and supreme profundities of Eternal, Devour, and Creation.

The Dao was eternal, so it could devour boundlessly. The energy of boundlessness could form boundless profundities that cycled endlessly, thus it was called enduring!

This sword strike could be called the Enduring Sword. Even though the Five-colored Divine Light could destroy the five elements and counter all treasures in the world, it would still be useless if the sword qi was enduring.

“Hmm?” The eyes of that Immortal King from the Ji Clan narrowed. As soon as he attacked, he knew that Chen Xi was far stronger than he’d imagined! Because as soon as Chen Xi attacked, Chen Xi intended to break through his secret technique and crush him.

Bang!

The Five-colored Divine Light rumbled as it shattered both time and space. It countered everything, and it’s might was extremely formidable. However, when it collided with that wisp of sword qi, it was obstructed and was even on the verge of being cut into pieces!

This caused the expression of the Immortal King from the Ji Clan to change.

Bang!

Before he could react, Chen Xi had already charged over once more, and every single pore on his body emanated sword qi, causing him to seem as if he’d transformed into an ocean of swords that whistled as it moved forward.

Bang!

Since he was taken by surprise, the Immortal King from the Ji Clan had no choice but to meet Chen Xi head-on, yet he was blasted flying by this strike. Moreover, he fell on the ground.

This string of events had truly occurred too quickly, and it had been completely in a thousandth of an instant, causing the other Immortal Kings to be unable to give him any timely assistance.

“Die!” Chen Xi charged forward once more. However, he was obstructed by a person this time.

It was a beautiful woman from the Zhongli Clan. She held a lotus seal that possessed properties of extreme Yin and gentleness. It was like a wisp of ethereal and soft wind that coiled towards Chen Xi.

This attack was gentle like water. It seemed like a tender and loving glance from a lover, yet the killing intent contained within it was even more terrifying than the Five-colored Divine Light!

“Hmph!” Chen Xi grunted coldly as he raised his hand and clawed as he met this attack head-on. After that, a world that was like a void suddenly floated out into appearance from within his palm, and it seemed as if it was a work of nature.

This was a 'Sword Domain' created from the energy of the Sword Dao, and it was constructed into form by boundless mysterious talismans before being executed by the energy of the Sword Dao. It was a sight that caused others to exclaim with admiration and surprise.

Such a technique was similar to the Buddhist Technique 'Buddhist Kingdom Within A Palm,' and it was absolutely impossible to execute by existences that didn't control the energy of time and space.

Swish!

The extremely gentle lotus seal that was filled with killing intent was directly shattered into pieces, causing the beautiful woman to frown while she revealed an expression of pain. Moreover, she was extremely shocked and had no choice but to dodge.

This attack from Chen Xi was too overbearing and unrestrained, and it destroyed everything before it, causing her to not dare obstruct it.

However, even though she desired to retreat, Chen Xi took the initiative to charge over. The 'Sword Domain' within his palm raged through time and space, and it was like he was carrying a world of swords that contained boundless might and attacked all his enemies.

Rumble!

For a time, so long as an Immortal King came close to Chen Xi, that Immortal King would be blasted back no matter what technique or ability that Immortal King executed, and they found it impossible to obstruct Chen Xi.

At this moment, they finally deeply understood how terrifying Chen Xi was. His divine might was world shocking, and he pressured them to the point they weren't able to gain the slightest advantage against him.

This caused them to be horrified in their hearts, and they felt an unprecedentedly heavy feeling. They didn't dare get distracted any longer and had no choice but to execute all their ability to jointly crush Chen Xi.

A Half-step Immortal King that had just succeeded the position of Dean in the academy actually forced six Immortal Kings to have no choice but to go all out. If the others in the outside world were able to witness this scene, their jaws would definitely hit the floor from shock.

This couldn't just simply be described as world shocking because it was simply a true heaven defying scene! It had broken the perception that had been passed down since ancient times, and it couldn't be judged by convention.

Om!

Suddenly, a grand and boundless Immortal Formation soared into the sky, and it formed into a dense expanse of stars before it descended all around Chen Xi. It linked up with the might of the universe, and it emanated boundless killing intent.

These six Immortal Kings had actually jointly set up an extreme Slaughter Formation!

Obviously, they were clearly aware that ordinary methods were utterly unable to do anything to Chen Xi, thus they utilized such a method.

The six Immortal Kings heaved sighs of relief in their hearts when they saw Chen Xi's figure being enveloped within the grand formation because this formation was from the Dragon Dimension, and it had once slaughtered a real god. It was extremely formidable, so even if a heaven defying little monster like Chen Xi entered it, he would definitely suffer a heavy injury.

All of them were filled with extremely great confidence, and they felt that the outcome was decided. Because in their opinion, this was the most destructive trump card in their arsenal.

However, reality exceeded their expectations instead. Chen Xi who was trapped within the grand formation actually roared with laughter at this moment, and then he suddenly took a step forward.

Bang!

Under the might of this step, not only was the formation unable to trap and kill Chen Xi, the entire formation actually rumbled and shattered into pieces like paper instead.

A rain of blazing light shot into the surroundings, and it caused Chen Xi who walked out with large strides to seem like a god. It seemed like all the techniques in the world were useless before him.

The six Immortal Kings were instantly stunned. How...how could this be possible?

Talisman Emperor

Chapter 1488: Slaying A Dragon

As soon as the grand formation was set up, it was destroyed with a single step by Chen Xi!

Such an unexpected event occurred too quickly, and it was to the point the Immortal Kings didn't even have the time to react.

After all, it was personally set up by six Immortal Kings, and the formation itself was passed down in the Dragon Dimension. Moreover, this formation had even annihilated a real god during the primeval times.

But no one had imagined that the grand formation they took to be their strongest trump card would actually be so weak, and it was simply like a piece of paper!

How could this be possible? All of them were completely stunned, and they still didn't dare believe their eyes.

"Everyone, we've overlooked something. This kid isn't just a student of Dao Emperor Academy, he's even deeply related to Oracle Mountain. So utilizing a formation to trap and kill him is no different than using our weakness against his strength. We were asking for trouble!" Jiang Tingfang's face sank as he spoke via voice transmission.

The others instantly felt terrified while their expressions changed indeterminately, and they'd come to a complete understanding of everything.

"No matter what, we're currently in a situation where the battle won't end until one side is killed. With us six Immortal Kings attacking jointly, it's impossible for this little bastard to turn the situation around!"

The old woman, Wanqi Ying, that held the cane with a silver serpent at the top shouted in a grim and ghastly voice.

Perhaps if it was just one or two Immortal Kings, then they would be unable to do anything to Chen Xi. But if six Immortal Kings fought desperately, then could it be that they would still be unable to deal with Chen Xi?

Stomp! Stomp!

Chen Xi walked out from the grand formation while numerous dragons formed from Karmic Luck coiled around his body, and his imposing aura had grown even more formidable. He was like an eternal king that had descended to the world.

His gaze was deep and icy cold as he looked at the six Immortal Kings, and a wisp of undisguised ridicule and mocking couldn't help but suffuse the corners of his mouth. Using a formation against me? These fools are simply idiotic!

If I was really trapped within it, then would I have any qualifications to be a personal disciple of Oracle Mountain?

Even though he thought like this in his heart, Chen Xi's actions weren't slow at all. As soon as he stepped out of the formation, his figure flashed while the blood red sword in his hand soared through the sky, and then it slashed down furiously.

Bang!

A myriad of sword qi formed from talismans surged in a peerless and murderous manner.

At practically the exact same moment, 3m tall young man in gold clothes made a move as well. His fists were densely covered in dragon scales and burned with sacred dragon flames. He suddenly let out a long howl, and his fists tore apart the heavens and the earth as he charged explosively towards Chen Xi.

He was from the Dragon Dimension, and he was an Immortal King with the same seniority as Ao Jiuhui. His name was Ao Reng. His true body was that of a primeval green dragon, and he possessed an extremely cold and bloodthirsty disposition.

At this moment, as soon as he attacked, his attack seemed otherworldly, yet it contained hidden killing intent and monstrous divine might!

One could clearly hear waves of shocking dragon roars surging through the surroundings, and the dragon roars revealed an imposing aura and emanated the boundless might of a dragon as it charged towards Chen Xi with Ao Reng.

Bang!

The blood red sword soared through the sky and shot out to collide directly with Ao Reng's attack.

Clanging resounded while dazzling and resplendent sparks shot into the surroundings.

"Dammit!" Ao Reng's figure shook while he staggered back, and he was in intense pain that caused his face to twist into a bunch as he spoke.

In this head-on collision, the sword qi formed from dense talismans had almost cut his arms into pieces, and they left behind numerous terrifying injuries. Moreover, even the dragon scales that were famous for being strong had been torn off from his arms!

“Senior Ao Jihui was an extremely sincere person that lived an upright life, yet as a member of the Dragon Dimension, you’ve associated yourself with undesirable people, and you even acted in an unrestrained manner and refused to realize your mistakes. Today, I’ll start with you. I’ll chop off the head of a dragon and let the blood spray as a warning to others!” Amidst his indifferent and steady voice, Chen Xi’s expression was cold and murderous as he strode through space, and he held the blood red Dao Calamity Sword in his hand as he attacked.

Rumble!

The blood red sword emanated boundless sword formations that densely covered the surrounding space with the intention of trapping and killing Ao Reng.

Ao Reng’s expression changed abruptly. There was fury on his face, and even terror. This little bastard’s strength is too heaven defying, and when he’s covered in the energy of Karmic Luck from within the palace, he simply shows signs of being invincible and impossible to shake.

“Hmph! What an audacious little bastard!” The other Immortal Kings would naturally not watch as Ao Reng was killed. At the moment Chen Xi made a move, all of them had moved out with the intention of stopping Chen Xi.

Presently, they were all bound together in life and death, and they made no distinction between each other. Moreover, they’d tacitly taken Chen Xi to be their number one enemy.

“If I, Chen Xi, intend to kill someone, then neither the heavens nor the earth can obstruct me. So who do all of you think you are to try and stop me!?” Chen Xi grunted coldly, and he didn’t alter the attack he’d executed. Suddenly, he withdrew a large net that was piercingly cold and seemed as if it was weaved together by illusory threads of light, and it swiftly soared through space and time before it enveloped Ao Reng.

At the same time, the blood red sword in his hand slashed upwards like a river of stars that surged in the opposite direction, and it swept away the five Immortal Kings that came to obstruct him.

Rumble!

A wave of shocking sounds of collision resounded while a rain of light stormed down and spread throughout the surroundings.

Stomp! Stomp! Stomp!

Chen Xi and his opponents were both shaken by the attack to the point of moving back in midair. They were actually equally matched in this attack.

However, those Immortal Kings were unable to arouse any happiness in their hearts, and it was even to the extent that their expressions became unsightly to the extreme. It wasn’t just because Chen Xi had repelled all five of them by himself and fought them equally, it was instead because at this moment, they witnessed a horrifying scene...

A large net that was piercingly cold and seemed as if it was weaved from starlight teleported through time and space before it enveloped Ao Reng. However, no matter how the latter fought against it, he was actually unable to shake the net at all!

Or perhaps, it could be said that Ao Reng's attacks were unable to touch the net at all, and the net passed through the attacks instead while continuing to envelop him. No matter how he struggled, he was actually unable to avoid it at all.

In an instant, Ao Reng was forcefully trapped within the large net!

All of this took a long time to describe, yet it was actually completed in a thousandth of an instant. When those Immortal Kings raised their eyes to look over, Ao Reng had already been trapped within the large net and was unable to struggle free.

That was an Immortal King!

Yet now, he was trapped like prey and was unable to struggle free. He was in such a sorry and aggrieved state, and the intensity of the shock this caused the others was obvious.

It caused the pupils of the other Immortal Kings to suddenly constrict while they revealed terrified expressions. This is?

"A Natural Spirit Treasure! Dammit! This is the Oracle Mountain's Divine Artifact, the Overarching Heaven Net! How could a Half-step Immortal King like you possibly possess a Divine Artifact from Oracle Mountain!?" Ao Reng had gone completely berserk, and he was both furious and terrified. He struggled with all his might with the intention of struggling from of the Overarching Heaven Net's restraints.

However, the more he struggled, the more the large net constricted. Moreover, the numerous threads of the net that seemed like piercingly cold starlight forcefully tightened into his bones, restrained his body, and coiled around his spirit, energy, and essence. Even his soul was on the verge of being restrained!

All the other Immortal Kings were shocked in their hearts when they witnessed this scene. A Natural Spirit Treasure? The Overarching Heaven Net?

This a renowned precious treasure passed down within Oracle Mountain, and it was obtained by the Master of Oracle Mountain, Fuxi, from within the Chaos. It's said to be able to capture the secrets of the heavens, Karmic Luck, auspicious qi, and other ethereal energies. It can be said to possess boundless divine might!

Moreover, this indirectly proved Chen Xi's identity — he was an heir of Oracle Mountain!

Even though the calamity had descended now, and as one of the three supreme sects of the three dimensions, all the members of Oracle Mountain had probably been taken into the Last Days Domain, but even then, the influence of Oracle Mountain still remained!

Especially to all of these Immortal Kings, Chen Xi's identity of being an heir of Oracle Mountain undoubtedly caused them to feel fearful and feel that this matter was difficult to handle.

“Everyone, what’re all of you waiting for? Quickly save me... AH!!!” Suddenly, Ao Reng’s extremely terrified howl resounded, yet it stopped abruptly because Chen Xi had already arrived by his side and grabbed his throat.

This scene caused the expressions of the other Immortal Kings to turn completely livid, and they shouted loudly without end.

“Junior, don’t you dare!”

“Quickly stay your hand!”

“If you dare make a move against him, then we’ll definitely annihilate you today, and you’ll be eternally unable to be reincarnated!”

Furious howls surged through the surroundings, and it was impossible to differentiate if these words were sincere or not. However, in short, this scene was extremely shocking. If it was anyone else facing the threats of five Immortal Kings, that person would have probably been frightened out of his wits since a long time ago.

However, Chen Xi turned a deaf ear to all of this, and his expression remained indifferent.

It was even to the extent that from the moment Ao Reng was restrained by the Overarching Heaven Net to the point he arrived by Ao Reng’s side, his movements hadn’t stopped for a moment!

Swoosh!

Under the furious gazes of all the Immortal Kings, the blood red sword in Chen Xi’s hand soared through the sky, and it chopped off a head.

Swish!

Golden blood sprayed out, and it was an extremely horrifying, yet beautiful scene.

I’ll chop off the head of a dragon and let the blood spray!

At this moment, Chen Xi’s words from before had really appeared before their eyes, and the shock they felt from it had simply arrived at an extreme. It caused the hearts of all the Immortal Kings to feel cold, and they couldn’t help but tremble.

An Immortal King from the Dragon Dimension had fallen just like that!

A warning to others?

This was precisely that!

Chen Xi utilized his utterly unhesitant methods of slaughter and reality itself to prove this.

It was even to the extent that for the sake of taking precautions against any unexpected events from occurring, Chen Xi had even utilized the energy of Terminus when he killed Ao Reng, and he completely terminated Ao Reng’s spirit, energy, essence, and even soul, causing Ao Reng to perish completely!

“You... How audacious of you!” Jiang Tingfang had a livid expression, and her voice seemed as if it was squeezed out from between the cracks of her teeth and revealed boundless killing intent and rage. She was extremely offended by this scene.

The expressions of the other Immortal Kings were gloomy to the extreme as well.

They'd already felt pressured when Chen Xi utilized the energy of Karmic Luck earlier, yet it wasn't to the extent that it aroused fear in their hearts. However, when they saw Chen Xi utilize the Overarching Heaven Net, their hearts instantly felt heavy.

Because it was a Natural Spirit Treasure, a natural Divine Artifact that was born from within the Chaos, and it possessed boundless profound effects. Even if Chen Xi was only at the Half-step Immortal King Realm now, if he utilized such a treasure, it still caused them to feel extremely fearful.

It was even to the extent that a few Immortal Kings had already aroused the intent to withdraw...

“Audacious? I can't compare to all of you!” Chen Xi spoke with an icy cold tone as he kicked Ao Reng's corpse away, and then he glanced indifferently at the five remaining Immortal Kings while the killing intent in his heart didn't reduce, but grew instead.

These fellows had willfully trespassed into the academy and led others to kill innocent students and instructors, destroy the landscape and restrictions of the academy, and had even acted in an unbridled manner within the Dao Emperor Divine Palace with the intention of encroaching on the position of Dean.

Even Valiant Star Immortal King and Silent Night Buddhist Master had perished because of them!

All of this caused Chen Xi to be furious to the extreme. Because the calamity had swept through the three dimensions now, and the Sovereign Sect had resurfaced, yet these old fellows who were respected as Immortal Kings didn't think about how to resist the calamity and had instead come to run wild in Dao Emperor Academy. He felt that their crimes simply deserved death!

Suddenly, Wanqi Ying said, “Chen Xi, if we acknowledge you as the Dean and stop going against you, then can you let bygones be bygones for all of this?”

As soon as these words were spoken, it caused many Immortal Kings to glare furiously at her, and they were slightly displeased. They blamed her for making a unilateral decision, yet there were also a few Immortal Kings that were greatly tempted by this, and their gazes flickered while they remained silent.

Unfortunately, no matter what all of them were thinking in their hearts, Chen Xi's reply was extremely decisive. He didn't even hesitate at all before he replied. “Absolutely impossible!”

It was merely two words, yet it was spoken in a resolute and decisive manner.

This meant that Chen Xi intended to fight until the bloody end, and he intended to make all of them leave their lives behind!

“Hmph! I was kind enough to give you a way out, yet you really think that we're afraid of you?” Wanqi Ying's expression was extremely unsightly, and she turned angry from embarrassment.

“It doesn't matter if you're fearful or not because it's unable to change all of your fates today!”

Bang!

As soon as he finished speaking, Chen Xi had already attacked once more, and he fought the five Immortal Kings by himself!

Chapter 1489: Slaughtering The Immortal Kings

The battle erupted once more in the Dao Emperor Divine Palace.

Chen Xi was overbearing and arrogant as he went against five Immortal Kings by himself, and he was overwhelming.

At this moment, numerous large dragons formed from Karmic Luck coiled around his body while talismans glistened and flowed around him, and the blood red sword in his hand slashed out both horizontally and vertically, causing him to see like a domineering Fiendgod that intended to bring peace to the world.

Bang!

The surroundings shook from a single strike of his. Chen Xi collided head on with Wanqi Ying, the blood red sword and silver cane struck against each other, and it was like the collision of two divine mountains, causing Immortal Force to surge while the collision emanated a terrifying aura.

In the blink of an eye, Wanqi Ying was forced back and coughed up blood without end.

Before Chen Xi could make a move to crush Wanqi Ying, the beautiful woman from the Zhongli Clan assaulted him from the side. Her beautiful hair fluttered while her skin glistened, and her fair and beautiful face was covered in a heavy expression.

On the other hand, her fair hands were coiled with strands of an extremely gentle technique. It was called the Heaven Refining Grace, and it possessed shocking might.

Unfortunately, she was still no match for Chen Xi. His expression was indifferent while his palm glowed, and an all-powerful and obliterating 'Sword Domain' surged out from within it.

The beautiful woman was defeated, and she had no choice but to avoid the brunt of his attack.

At this moment, Chen Xi became even calmer. Every single move he made was boosted by the energy of Karmic Luck, and his sword qi shot towards the surroundings while suffused with boundless profundities of talismans, causing them to possess boundless might.

Moreover, from the beginning until the end, he hadn't even taken a step back!

"Kill! The energy of Karmic Luck here is boundless and inexhaustible. If we still don't kill this kid, then the consequences will be unimaginable!" Jiang Tingfang was both shocked and furious to the extreme when he noticed Chen Xi's might was growing more and more terrifying, and he roared successively while he'd completely lost his calm and composure.

How could the other Immortal Kings not be aware of this? They immediately attacked in an even more frenzied manner, and they seemed as if they'd fallen into a desperate state.

Bang!

Chen Xi wasn't moved by this at all. He attacked with large swings that drew upon the Karmic Luck within the entire palace, and it seemed like he controlled the Grand Dao of the heavens and the earth and intended to utilize the might of the world to crush his enemies.

This was why Karmic Luck was terrifying. After the Nineflow Jade Seal fused with the Ancient Dao Inheritance Cauldron, Chen Xi had obtained the acknowledgement of the Dao Emperor Divine Palace, and it allowed him to utilize the Karmic Luck that had been suppressed and accumulated here for countless years.

Bang!

Chen Xi slashed with the blood red sword. It seemed like a very simple move, yet it blasted Jiang Tingfang extremely far away, causing Jiang Tingfang to reveal an expression of pain. The might of this sword strike was too powerful, and it caused Jiang Tingfang's vital blood to surge while he suffered a heavy injury.

All of the others looked at each other in astonishment. With Karmic Luck surrounding him, no techniques can even reach him. Could it be that this little bastard really can overwhelm Immortal Kings and sweep through the world? But...but he's only at the Half-step Immortal King Realm!

Could it be that he would be able to surmount a realm and slaughter gods after he steps foot into the Immortal King Realm?

Crack!

Right at the instant all of the others felt horrified in their hearts, Chen Xi's figure flashed forward and flickered repeatedly through space. In an instant, he'd actually appeared before the old woman, Wanqi Ying, and then he severed her silver cane with a single sword strike, causing her entire body to tremble violently while crashing to the ground.

"Bastard! Don't you dare!"

Rumble!

At the critical moment, the Immortal King from the Ji Clan carried Five-colored Divine Light along as he arrived, and he attacked Chen Xi from the side.

"Hmph!" The strange thing was that Chen Xi seemed to have been waiting for him from the beginning, and before he could even approach Chen Xi, the blood red sword in Chen Xi's hand trembled and droned as it slashed apart a myriad of layers of space and swept over fiercely.

All of this occurred too quickly. In other words, Chen Xi's target wasn't Wanqi Ying at all, but the Immortal King from the Ji Clan!

Bang!

The Five-colored Divine Light shattered into dazzling and resplendent pieces.

Pu!

The momentum of the sword didn't reduce at all, and because that Immortal King from the Ji Clan had been caught off guard, it forcefully slashed into his chest, causing a wave of the sounds of bones breaking to resound while blood sprayed.

If that Immortal King from the Ji Clan didn't dodge in time, then he would have almost been slashed into two! However, even then, he was already heavily injured, and it was impossible for him to bring forth any combat strength in a short period of time.

All the others were horrified, and they felt the situation was bad because not only were their joint forces unable to suppress Chen Xi, they were actually defeated one by one, causing the pressure they felt to grow heavier and heavier.

"Hmph! I'll kill only you this time. If it wasn't because of Ji Xuanbing, your entire Ji Clan would have to atone for your crimes!" Chen Xi frowned as he never expected that he would actually be unable to succeed with this strike. So he immediately charged forward with the intention of putting a complete end to the life of this Immortal King from the Ji Clan.

Rumble!

Right at this moment, a bronze halberd swept over, and it was Jiang Tingfang that came to his rescue.

Chen Xi could only turn around to once more enter into battle with Jiang Tingfang.

"Kill!" Chen Xi shouted loudly while the energy of Karmic Luck surged, and he blasted Jiang Tingfang away before he fought with the other Immortal Kings.

Amidst terrifying sounds of rumbling, he was like an invincible overlord that emanated an imposing aura while talismans flowed around him, and a myriad of strands of sword qi swept towards all directions as he exerted his entire strength.

Pu!

After a short moment, another one of them was injured. In a moment of carelessness, the beautiful woman from the Zhongli Clan's shoulder bone was shattered by a single sword strike from Chen Xi, and her entire right arm was almost completely crippled.

At this point, a wisp of uncontrollable coldness suddenly surged out from their hearts. This kid is too strong.

At this moment, three people amongst them had already been heavily injured by him, and only two more of them still had the strength to fight.

Such a situation was already severely disadvantageous to them, and they were on the verge of suffering lethal danger!

"Everyone if we still don't execute our forbidden techniques, then we'll probably have to leave our lives behind here today!" Jiang Tingfang roared furiously because Chen Xi's might was so formidable that it caused him to feel terrified.

Om!

As he spoke, a bowl soared into the sky while surging with white light, and it flowed with hazy divine radiance and a shocking imposing aura. It was translucent and crystalline, and it actually surged with strands of the obscure aura of divinity as it surged towards Chen Xi.

Moreover, in this expanse of space, numerous images of the gods could be faintly seen to be floating up into appearance. They were suffused with surged divine glows that were dazzling, resplendent, and extremely oppressive.

Obviously, this was a Divine Artifact!

Chen Xi's eyes narrowed. This Divine Artifact was obviously an Artificial Spirit Treasure, and its aura was even inferior to the Nine Continent Divine Cauldrons. However, when it was utilized by an Immortal King, its imposing aura was still rather shocking.

He didn't dare utilize the Dao Calamity Sword to collide with it head-on, and he utilized the Overarching Heaven Net with the intention of capturing this treasure!

However, right at this instant, an unexpected event suddenly occurred...

When Jiang Tingfang executed a forbidden technique and utilized the Divine Artifact to assault Chen Xi, Wanqi Ying's figure actually flashed, and she teleported and charged out of the palace!

Obviously, she didn't intend to fight Chen Xi to the death, and she intended to seize this opportunity to flee.

This scene instantly infuriated Jiang Tingfang, and it caused even his heart and mind to be affected by it.

Om!

Right at this moment, the Overarching Heaven Net restrained the bowl and intended to forcefully take it away!

"Don't you dare!" Jiang Tingfang was instantly infuriated once more, and he didn't dare get distracted any longer as he circulated all his strength to control the bowl.

At practically the exact same moment, besides the Immortal King from the Ji Clan that was heavily injured, the other two Immortal Kings had charged once more at Chen Xi and lent Jiang Tingfang a hand.

"Hmph!" Chen Xi was cold and indifferent, and he controlled the Overarching Heaven Net while he utilized the Dao Calamity sword to resist the attacks of the others.

For a time, Immortal Artifacts flew through the sky and resisted each other while numerous techniques collided. The situation of the battle was extremely horrifying, and it faintly showed signs of ending in a deadlock.

"Zhao Lingxi! Dammit! You actually dared to ambush me!" Right at this moment, a shrill howl suddenly resounded from outside the palace entrance, and it was actually the voice of Wanqi Ying that had just fled from within the palace. After that, her voice stopped abruptly.

This caused the hearts of all the Immortal Kings within the palace to shake once more, and their expressions became unsightly to the extreme. Zhao Lingxi! That was naturally the Immortal King from the Phoenix Clan that Chen Xi had allowed to leave earlier!

They didn't have to guess to know that Wanqi Ying had definitely been killed. In other words, after the death of Ao Reng, Wanqi Ying had fallen in his footsteps!

Chen Xi heard all of this as well, and his eyes narrowed slightly. He suddenly increased his might once more and fought bravely with all his strength because the current situation had already placed him in a position of absolute advantage, and he had to grasp onto this superb opportunity.

Kill!

Chen Xi's entire body glowed while the universe within his body seethed, and it completely fused with the energy of Karmic Luck within the entire palace. Moreover, the blood red sword in his hand suddenly emanated numerous clear colored divine lotuses.

Every single clear colored divine lotus was formed from hazy sword qi, and it emanated boundless obscure and mysterious energy that was peerlessly powerful. It was even to the extent that waves of the furious howls of gods being slaughtered and the shouts of Fiendgods accompanied it.

At this instant, Chen Xi had actually activated the strength within the Dao Calamity Sword!

This scene had once appeared in the God Attainment Region. At that time, it was activated for the sake of dealing with the Nine Heaven Calamity Dao Annihilation Divine Formation, and the Dao Calamity Sword had attacked by itself and helped Chen Xi to deal with the dangers he faced.

On the other hand, it was different this time. This strike was executed by Chen Xi himself, so its might was naturally unlike before. These numerous clear colored sword lotuses that seemed as if they were from the world of the gods emanated an aura that caused the expressions of those Immortal Kings to change, and they felt lethally threatened.

Swoosh! Swoosh! Swoosh!

The clear colored sword lotuses rained down and threw both time and space into disorder. Strands of obscure and mysterious sword qi sprayed out from the center of the lotuses, and they covered the heavens and the earth as they swept out like a storm.

Pu! Pu!

A wave of muffled bangs resounded. The heavily injured Immortal King from the Ji Clan didn't even have the chance to dodge before he countless strands of sword qi pierced him to the point he seemed like a hornet's nest. His entire body was covered in bloody holes as he perished on the spot.

At practically the exact same moment, the beautiful woman from the Zhongli Clan whose right arm had been crippled earlier suffered calamity as well. She was struck by the sword qi to the point her entire body was covered in injuries while blood dyed her clothes red, and she crashed to the ground and perished amidst a miserable and shrill howl that was filled with unwillingness.

With a single sword strike, two Immortal Kings were annihilated!

This scene was so shocking that it caused chills to run down the spines of the other two Immortal Kings that remained, and they felt their souls almost leave their bodies and cold as if they'd fallen into an icy pit.

It was too terrifying!

Such might wasn't something that Immortal Kings could go against.

"The battle is lost. Let's go!" Jiang Tingfang suddenly gritted his teeth before he turned around and fled with the other Immortal King because there was utterly no chance of winning in this battle any longer, so they would truly be idiots if they still didn't flee.

"If I allow the both of you to escape, then what would be the point of me assuming the position of Dean!?" Chen Xi grunted coldly as his figure flashed and pursued them.

Rumble!

The door to the palace was blasted open, and Jiang Tingfang and the other Immortal King were just about to charge out when a True Phoenix that was bathed in blazing flames suddenly obstructed their path. A myriad of strands of True Phoenix Flames rained down from its gorgeous wings, and it flowed throughout the entire sky and completely blocked their paths.

"Zhao Lingxi! You traitor!" Jiang Tingfang roared furiously and was overwhelmed with anger as he fiercely smashed down the bowl in his hand.

However, right at this moment, a large net that was dream-like and piercingly cold like starlight appeared out of thin air, and it enveloped him and forcefully restrained the bowl.

At practically the exact same moment, numerous clear colored sword lotuses swept over like a storm, and they completely drowned Jiang Tingfang and the other Immortal King within them.

Rumble!

An extremely terrifying fluctuation arose, and amidst the blazing chaotic flow of energy was waves of shrill and furious howls that revealed unwillingness, hatred, terror, and despair.

After a short moment, the dust and dirt dispersed while everything returned to silence.

In the area before the ancient entrance of the palace, the True Phoenix flapped its wings while a myriad of strands of flames flowed within it, and in the depths of the flames was a tall figure that held a blood red sword in his hand as he stood there silently.

Moreover, there were two mangled corpses belonging to Immortal Kings at his feet!

At this point, all six of the Immortal Kings that had come to fight for the position of Dean were annihilated. Not a single one of them survived!

Chapter 1490: Shadow Of The Sovereign Sec

The battle had ended.

Six Immortal Kings were annihilated.

At this moment, the entrance to the Dao Emperor Divine Palace was opened wide while dust and dirt suffused the surroundings, and a blazing glow flowed throughout the palace.

The True Phoenix Zhao Lingxi transformed into fluttered in the sky while her gorgeous wings emanated a myriad of strands of flames and boundless divine might that illuminated the world.

However, the most dazzling and resplendent was that tall figure that stood proudly by himself before the entrance!

His dense long hair fluttered while his deep gaze seemed like bolts of cold lightning. As his eyes opened and closed, it seemed as if he could see through the secrets of the world, and a blood red ancient sword that was still dripping with the bright golden blood of Immortal Kings was casually held in his hand.

Roar! Roar!

The energy of Karmic Luck within the entire palace transformed into numerous enormous dragons that coiled around his body before they raised their heads and roared towards the sky. Their roars resounded through the nine heavens, and it caused him to seem like the overlord of this expanse of the heavens and the earth!

At his feet were two mangled corpses that belonged to Immortal Kings, and they gave him an extra oppressive aura.

“I was filled with greed earlier, yet I’ve realized my mistakes now. Please do forgive me.” Suddenly, Zhao Lingxi spoke while she withdrew her wings and transformed into a slender figure with bright eyes, white teeth, and jet black hair that flowed down like a waterfall, and her beautiful face carried a wisp of an apologetic expression.

Chen Xi waved his hand. “I understand, there’s no need to mention this again.”

As he spoke, he put the blood red sword away, and then his gaze suddenly shot towards the square outside the palace.

“Greetings, Dean!” Right at this moment, a wave of cheers that seemed like a tidal wave resounded. It was in a completely orderly manner, and it shook the sky. Moreover, it was a rather magnificent sight that revealed a grand and solemn aura.

Before Chen Xi crushed the six Immortal Kings, a dense mass of people had gathered on the boundlessly vast square before the palace.

It wasn’t just the outsiders of the Mu Clan, Dragon Dimension, Phoenix Clan, Ji Clan, and the other powers that were amongst them, most of the people gathered here were the students and instructors of the academy led by Zhou Zhili, Wang Daolu, and the other instructors.

In other words, since the moment they found out that Chen Xi had obtained the Ancient Dao Inheritance Cauldron and succeeded the position of Dean, all the instructors and students of the entire academy were excited, and they’d simultaneously gathered here.

The outer court, inner court, Scripture Reserve, Pill Reserve, Dao Development Reserve... So long as they were fortunate enough to survive this disaster, then all the instructors and students had arrived here.

At this moment, all of them had personally witnessed the scene of Chen Xi annihilating two Immortal Kings. His supreme bearing caused him to seem like a peerless emperor, and it shook the hearts of everyone present here in the surroundings. Thus, at this moment, all of them couldn't refrain themselves from shouting.

This was their new Dean, the leader of the entire academy!

When they witnessed this scene, all of them were clearly aware in their hearts that Chen Xi himself had annihilated all the Immortal Kings who'd brought disaster to the academy this time, and he'd resolved this disaster, allowing them to see hope once more. Thus, they were naturally excited and delighted to the extreme in their hearts.

Their cheers were filled with sincere happiness, and it converged into an ocean that shook the heavens and the earth.

As for those outsiders from the Mu Clan, Phoenix Clan, Dragon Dimension, Ji Clan, and the other powers, all of them were shocked to the extreme. They were deterred by Chen Xi's imposing aura, and they were slightly terrified.

Earlier, all of them had malicious intent, and they only realized their mistakes later on. Now that Chen Xi had annihilated all the Immortal Kings and crushed the unrest in the academy before appearing once more in the world while carrying a supreme imposing aura, all of them couldn't help but feel slightly perturbed in their hearts.

In short, as Chen Xi stood upright before the Dao Emperor Divine Palace, the energy of Karmic Luck coiled around his body, and every single move he made was filled with the imposing might of a monarch, causing him to become the center of attention.

However, Chen Xi seemed strangely composed when facing all of this. He swept everyone in the surroundings with his gaze. He saw Wang Daolu, Zhou Zhili, Xuanyuan Pojun, and all the other instructors; and he also noticed A'Xiu, Ji Xuanbing, Zhao Mengli, Ye Tang, Ling Qingwu, Zhen Lu, and the other students.

Their expressions were filled with excitement and happiness, and the gazes they shot at him even carried a wisp of reverence and heartfelt happiness.

Similarly, Chen Xi noticed that all the outsiders from the Dragon Dimension, Ji Clan, Mu Clan, and the other powers revealed a perturbed and reverent expression when looking at him.

At this instant, Chen Xi finally realized that he'd already become the Dean of this number one academy in the Immortal Dimension!

"Greetings, Dean!" Another wave of orderly and loud shouts resounded through the surroundings.

A wisp of a heavy feeling of responsibility suddenly surged out into Chen Xi's heart, and there was even a feeling of pride amidst it. He knew that from this moment onward, his fate was already closely linked to the entire academy.

...

“Haha! Congratulations Dean Chen Xi for taking control of Dao Emperor Academy!” Suddenly, musical laughter that was pleasing to the ear resounded from above the sky and resounded through the heavens and the earth, and it completely destroyed the solemn atmosphere in the surroundings.

Along with this voice, a graceful figure floated into appearance above the sky. She had a bearing that was tender like water, and the space between her brows flickered with the glow of wisdom.

The hearts of everyone present in the surroundings shook. Who’s this woman? She was actually able to appear here without anyone noticing at all?

“Jiang Lingxiao!” When he saw this figure, Chen Xi’s eyes suddenly became icy cold and murderous. Shockingly, it was one of the seven Elite Disciples of the Sovereign Sect, Jiang Lingxiao!

Why...would she make an appearance within the academy?

“This time, I have to thank Dean Chen Xi for being a great help to my Sovereign Sect and eliminating those Immortal Kings. I’ll come disturb Dean Chen Xi later once my Sovereign Sect deals with other miscellaneous matters. Farewell!” Jiang Lingxiao’s entire body flowed with a wisp of illusory light blue immortal radiance. She smiled sweetly while speaking in a pleasing voice, and she seemed like she was a good friend of Chen Xi’s as she spoke with him.

As soon as she finished speaking, her figure flashed and intended to leave.

Bang!

Right at this moment, a hand that blotted out the sky appeared out of thin air, and it grabbed fiercely towards her.

“Since you’ve come, then why don’t you stay for some time!?” Chen Xi’s murderous and oppressive voice resounded along with this attack.

“That won’t do. But it won’t be long before we’ll meet again.” Jiang Lingxiao had executed some sort of secret technique, causing her figure to gradually turn translucent amidst her tender laughter, and she actually avoided Chen Xi’s attack and vanished.

Chen Xi soared into the sky before his Immortal Sense swept towards the surroundings. In the end, he confirmed that she’d already fled the academy, and it was impossible to capture her any longer. This caused Chen Xi’s expression to turn gloomy.

She actually fled right under my nose! The Sovereign Sect really is capable!

A cold glow surged in Chen Xi’s eyes while his originally relaxed mood had become slightly heavy because of this unexpected event. He was faintly able to guess that in this disaster that befell the academy this time, the Sovereign Sect had probably been encouraging and pushing these Immortal Kings from behind!

Otherwise, how could the Immortal Kings of the Jiang Clan, Zhongli Clan, Wanqi Clan, Ji Clan, Buddha Dimension, Dragon Dimension, and the various other powers have arrived jointly at the academy? All of this seemed to be too much of a coincidence.

It was even to the extent that Chen Xi was able to guess that no matter if these Immortal Kings were able to seize the position of Dean during the disaster this time, it was more beneficial than harmful to the Sovereign Sect.

If they succeeded, then Dao Emperor Academy would be reduced to a pawn in the control of the other powers, and there would definitely be all sorts of latent troubles within the academy that would provide the Sovereign Sect an opportunity to invade it.

If they failed, then these Immortal Kings would be killed. In this way, it would probably become even easier for the Sovereign Sect to deal with the powers that stood behind those Immortal Kings.

Just like now. All the Immortal Kings from the Wanqi Clan, Zhongli Clan, and Jiang Clan had perished here. So how could those powers that had lost these Immortal Kings resist the invasion of the Sovereign Sect?

Conversely, if Dao Emperor Academy was controlled by these powers, then all the instructors and students of the academy would probably be unwilling to submit. At that time, all sorts of incidents couldn't be avoided, and the Sovereign Sect would seize that opportunity to invade the academy!

It really is a good plan, a great scheme. However, when you come next, I'll make all of the members of your Sovereign Sect leave their lives behind! Chen Xi was silent for a moment before a wisp of hatred and killing intent that was impossible to conceal flashed within his eyes.

He truly hated the Sovereign Sect to the bone.

At this moment, everyone present on the square were terrified in their hearts, and their expressions had turned grim. The Sovereign Sect! The shadow of the Sovereign Sect was actually present behind all of this chaos as well!

Especially the Mu Clan, Dragon Dimension, Phoenix Clan, and other powers from outside the academy. At this moment, all of their hearts were filled with shock and fury. Never had they imagined that they'd become tools for the Sovereign Sect since the beginning!

Especially when they thought about the six Immortal Kings that had been killed by Chen Xi just now, a wisp of coldness couldn't help but arise in the hearts of everyone. If all of this was really encouraged and instigated by the Sovereign Sect from behind the scenes, then isn't it a little too terrifying...

"Dean, at this moment, the important matter at hand is..." Wang Daolu and Zhou Zhili moved forward while carrying a wisp of reverence on their faces, and even their method of address towards Chen Xi had changed.

Chen Xi understood their thoughts. He immediately glanced at Mu Rongtian, Zhao Lingxi, and the other forces from outside the academy. "Everyone, my academy is currently in a state of unrest, so we have no time to entertain guests. Please leave."

His voice was flat, yet it was filled with an extraordinary imposing aura.

Not only did Mu Rongtian and the others not feel that Chen Xi was going too far, they heaved a sigh of relief in their hearts instead. At the very least, it proved that Chen Xi had no intention of getting even with them after the battle had ended.

“Then we’ll respectfully comply to your wishes, and we’ll come disturb Dean and the Fellow Daoists here on another day.” Mu Rongtian cupped his hands. As soon as he finished speaking, he led all the members of the Mu Clan to turn around and leave.

The other powers successively bid their farewells and left when they saw Mu Rongtian’s actions.

Presently, all of them were aware that Chen Xi had slaughtered all the Immortal Kings by himself and had succeeded the position of Dean. Chen Xi’s might had already arrived at an unprecedented height, so even an Immortal King wouldn’t dare go against Chen Xi’s will at this moment.

This was his power and influence!

In the entire three dimensions, gods had ceased to exist, so were there any Immortal Kings that dared to go against Chen Xi?

Only Chen Xi was clearly aware that if he didn’t rely on the assistance from the energy of Karmic Luck within the palace, then he would definitely be unable to attain the battle accomplishments he’d attained right now.

Of course, if he was facing one or two Immortal Kings, then even if he didn’t rely on the energy within the palace, he still wouldn’t be afraid of them at all.

“They’d willfully destroyed the academy. Why did you let them go?” A’Xiu came over, and she was still slightly resentful.

“It was the overall situation at the time that caused all of this. These powers were just deceived by others, and our enemy is still the Sovereign Sect in the end.” Chen Xi spoke with a calm expression.

Wang Daolu and the other instructors were extremely gratified when they heard this because merely a single sentence allowed them to perceive that Chen Xi’s current gaze wasn’t restricted to the internal strife between the various powers of the Immortal Dimension, and it was placed at the height of the entire three dimensions instead.

As the Dean of Dao Emperor Academy, he precisely required such a bearing and vision.

“After this, I’ll have to entrust all the various affairs within the academy to all of you. I have to enter into closed door cultivation for a period of time and strive to step foot into the Immortal King Realm before the Sovereign Sect attacks!” Chen Xi took a deep breath as he glanced at Wang Daolu and the others, and then he spoke slowly. He was very clearly aware of how formidable his enemy was, and only by allowing his own strength to become even stronger would he be able to survive these chaotic times.
