

## Talisman 1781

### [Talisman Emperor](#)

#### Chapter 1781: Going Against An Imperial Monarch

At the instant his identity was exposed, Chen Xi was clearly aware that it wouldn't end peacefully today.

So, as soon as he attacked, he'd decided to end the battle quickly and strive to break out of the encirclement. Moreover, he'd even not hesitated to utilize his full strength to achieve this goal.

So, he'd killed Ye Yunlong with a single strike of the sword.

So, he'd severed that short and plump old man's arm with a single strike of the sword. Of course, he intended to take the old man's life.

However, the development of the situation had still exceeded Chen Xi's expectations. Those Universe Enlightened Ancestral Gods of the Ye Clan were much stronger than he'd expected. Moreover, their reaction speed was top-rate, causing his plan to break out of the encirclement to fail.

Under such circumstances, Chen Xi immediately decided that he could only annihilate these Universe Enlightened Ancestral Gods before dealing with everything else.

Thus, he'd revealed the might of the 2nd level of the Sword Emperor Realm as soon as they collided, and a single strike of the 'Dismemberment Style' had practically annihilated all his opponents.

But in this way, it caused Chen Xi to completely lose any chance of fleeing. However, he'd expected this since the beginning, so he didn't panic at all when facing Imperial Monarch Nandu who arrived here with violent fury.

However, Chen Xi would absolutely not dare to be careless.

Early on when he was still at the Domain Enlightened Spirit God Realm, he'd once experienced the ability of the Imperial Monarch Realm. At that time, it was outside Phoenix Perch City and at the shore of the God Burial Ocean, and he was facing the Luo Clan's Imperial Monarch Chong Dou!

At that time, Imperial Monarch here mere spoken a single sentence before rendering Chen Xi completely powerless, and Chen Xi was completely suppressed and restrained. If Empress Yu Che hadn't come to his rescue in time, then the consequences would truly be unimaginable.

Later on, before he advanced into the Universe Enlightened Ancestral God Realm, the conversations he had with Empress Yu Che allowed Chen Xi to have a deeper understanding of the Imperial Monarch Realm, and he had a clearer understanding of the gap between the Universe Enlightened Ancestral God Realm and Imperial Monarch Realm.

For example, Imperial Monarchs could absolutely be considered as the top force in the Ancient God Domain. All of them were like peerless overlords that controlled a myriad of Daos, could overturn the world, and utilize the might of the world.

Existences beneath the Imperial Monarch Realm could only bow and submit before them!

Even if he'd advanced into the intermediate-stage of the Universe Enlightened Ancestral God Realm now, possessed a foundation established by the Imperial Sovereign Dao Root, attained the second forging of the True Heart Sutra, and possessed a combat strength that couldn't be compared to the past, Chen Xi still had no choice but to be cautious when facing this Imperial Monarch Nandu from the Ye Clan.

It was even to the extent that Chen Xi didn't dare be careless at all.

...

Terrifying pressure enveloped this area like a dark cloud.

The eyes of Imperial Monarch Nandu who'd fallen into an infuriated state were like a blazing pair of sun and moon that reflected the ages. Moreover, his entire body emanated an imposing aura that caused this expanse of the starry sky to fall into a terrifying and deathly silent atmosphere.

Space, light, the meteors, dust, airflow, the stars.... Everything was shivering, and they were bowing and submitting to him.

The rage of an monarch caused a million corpses to be born. Imperial Monarch Nandu was an imperial monarch amongst gods, so once he was enraged, how could his might and imposing aura he revealed be ordinary?

At this moment, Chen Xi's expression became solemn to the extreme as well. His eyes surged with strands of piercingly cold light, and he seemed to be deducing something and accumulating strength.

His entire body was suffused with a myriad of strands of divine radiance, and the Infinite Divine Talisman in the universe within his body circulated at full strength, causing every single inch of his skin to seem as if it was burning like lava while his spirit, energy, and essence seethed. He was ready to go all out.

"Little Bastard, do you know that I originally didn't intend to kill you. After all, your origins are slightly strange, and I just have to capture you in order to complete my mission's objective." Imperial Monarch Nandu's voice seemed as if it was emitted from his chest, and it revealed piercingly cold and terrifying killing intent that assaulted the face.

"However, you really shouldn't have killed so many clansmen of my Ye Clan. If I don't eliminate you today, then would I have any face to maintain my foothold in the world?" Imperial Monarch Nandu's entire body surged with killing intent while his voice resounded like a thunderclap that shook the surroundings. "So, what if you're from Oracle Mountain? So long as you're dead, then would anyone in this world know that it was I who did it?"

He wasn't talking nonsense. Because as he spoke, this expanse of the starry sky was completely locked down after his imposing aura seeped through it.

In other words, unless an Imperial Monarch arrived personally right now, otherwise, Chen Xi would be utterly unable to flee!

Chen Xi's eyes narrowed. He'd naturally noticed the change in the aura of this area. However, he didn't become flurried because of it, and he said indifferently instead, "It isn't so easy to kill me. Watch out or you might pay with your lowly life!"

Lowly life! When he heard this insult, Imperial Monarch Nandu couldn't help but start laughing from extreme rage, and his laughter was like thunderclaps that rumbled through the surroundings.

"Hahaha! The disciples of Oracle Mountain really are extraordinary. Since I've stepped into the Imperial Monarch Realm until now, you're the first that dared to provoke me like this!" When he spoke up to here, Imperial Monarch Nandu took a deep breath, and then a ghastly and cruel arc arose on the corners of his mouth.

Bang!

He attacked in an extremely sudden manner, and his palm that was thick and broad like a cattail leaf fan clawed lightly through space.

In the next moment, this expanse of space collapsed. A strand of terrifying tearing force whistled out and smashed fiercely towards Chen Xi with the intention of crushing his body and tearing it into powder.

This strike really did possess inconceivable might. Everywhere it passed, everything was crushed into powder, and this expanse of the world was thrown into disorder.

It was like this expanse of the heavens and the earth had been transformed into a piece of canvas. At this moment, this strike had completely torn apart, crushed, and collapsed it, and it was an extremely shocking sight.

This was the might of an Imperial Monarch!

As soon as one attacked, it was sufficient to control a myriad of Daos and collapse the world.

...

This was the first time Chen Xi faced the attack of a furious Imperial Monarch head-on after he'd advanced into the Universe Enlightened Ancestral God Realm, and its terrifying might caused his entire body to be unable to help but stiffen.

Swoosh!

Chen Xi didn't hesitate at all. The Banisher glowed like it was burning, and it illuminated the world as it slashed down with formidable might.

The Ocean Cliff Style!

The most vast and powerful strike in the Profound Heart Sword Technique.

Bang!

The sound of a violent collision resounded, and divine radiance rumbled towards the surroundings.

On the other hand, Chen Xi was struck to the point of staggering back by over 10 steps. Moreover, numerous holes were stomped upon in space as he staggered back. This obviously showed how terrifying the impact Chen Xi suffered from this strike was.

When he steadied himself, Chen Xi's countenance suddenly turned pale while the vital blood in his entire body roiled without end.

But in the end, he'd resisted this attack!

With a cultivation at the intermediate-stage of the Universe Enlightened Ancestral God Realm, he'd resisted the attack of an expert at the Imperial Monarch Realm!

Even though it was merely a single strike and the outcome of the battle was impossible to determine, being able to accomplish this was sufficient to shock all the cultivators in the world and cause countless people to burst into an uproar!

"Hmm?" Imperial Monarch Nandu's eyes narrowed, and he seemed to have never imagined that the young man standing before him would actually be able to resist a blow of his. Even though the young man was in a slightly sorry state, he'd survived after all.

"No wonder you dared to be so arrogant. With your natural talent, perhaps it would be sufficient for you to be ranked in the top 50 of the Universe Enlightened Chart. Unfortunately, the stronger you seem to be, the firmer it makes my resolution to kill you!" Every single word he spoke rumbled like the Grand Dao, and they were cold and murderous.

As he spoke, Imperial Monarch Nandu attacked once more. A wisp of dazzling silver lightning surged out from his palm.

The bolt of silver lightning shook fiercely in space, and then it swiftly transformed into a bright silver spear that seemed like the spear of judgment that came from the heavens and possessed the might to destroy the world.

This attack was clearly much more terrifying than the previous attack. As soon as it appeared, the surroundings dimmed down, and it seemed like the energy of the Grand Dao in this entire expanse of the heavens and the earth had been extracted and converged onto that silver spear.

Swish!

Chen Xi practically instinctively shook the Banisher, and it reversed Yin and Yang to draw a completely round sword barrier. On the sword barrier, divine radiance flowed, the sun and moon alternated, and all sorts of Divine Dao Order circulated, and strands of obscure and crystalline Heart Energy seethed and glowed within it.

The Impeccable Style!

The strongest defensive move in the Profound Heart Sword Technique!

All those years ago, for the sake of tempering this move, Chen Xi had once been attacked by countless Staray Butterflies in Master Xuan's Divine Temple, and he'd completely comprehended its core profundities a long time ago.

Now, his cultivation was completely different from then, so the Impeccable Style he revealed was even more formidable and flawless.

Bang!

In an instant, that silver spear struck down. It was like a bolt of Chaotic Lightning had exploded from the nine heavens, and it actually instantly shattered the sword barrier!

In other words, Chen Xi's strongest defensive move was actually unable to resist a strike from an Imperial Monarch before it collapsed.

After that, Chen Xi was blasted back once more. He let out a muffled groan and almost coughed up blood while his countenance turned completely pale.

However, his black eyes became even colder and indifferent. His gaze was like burning and seething lave, and it truly seemed like it intended to incinerate the sky.

He'd fully determined that even though Imperial Monarch Nandu's combat strength was formidable, it was much more inferior to Imperial Monarch Chong Dou, and it was even to the extent of being inferior to Imperial Monarch Kun Mu and Imperial Monarch Xue Ying.

Of course, even if he was clearly aware of this, Chen Xi knew that he was utterly unable to guarantee that his current strength could shake Imperial Monarch Nandu.

After all, an Imperial Monarch was like a supreme monarch, and since the ancient times until now, how many Universe Enlightened Ancestral Gods had been able to surmount a realm and kill an Imperial Monarch?

At the very least, based on Chen Xi's present knowledge, he'd never heard of such an incident.

"He blocked it?" Imperial Monarch Nandu was stunned once more, and his expression grew even more gloomy and livid. The tenacious combat strength Chen Xi revealed had completely exceeded his expectations, and it caused him to wonder if this kid could rival those two descendants of the Yea Clan and Yu Clan, Yea Chen and Yu Jiuyue, that were renowned throughout the world now.

It was precisely this sort of understanding that caused killing intent to blaze in Imperial Monarch Nandu's heart. He was very clearly aware that once a peerlessly monstrous young man like this were to mature in the future, he would absolutely be a disaster for the Ye Clan!

These thoughts had flashed through his heart in an instant, and then Imperial Monarch Nandu practically didn't stop and attacked once more.

Swish! Swish! Swish!

He clawed with both hands, causing bolts of bright silver lightning to surge out explosively from the center of his palms. They were dazzling, brilliant, and covered in supreme Divine Dao Laws. Moreover, they were dazzling to the point they even illuminated this entire expanse of the starry sky.

"Thunderzap Blast!" Imperial Monarch Nandu roared loudly. He seemed like he'd transformed into a supreme god that controlled lightning, and he lifted up a myriad of bolts of silver lightning like he was swinging a silver whip, and then he struck it down forcefully at Chen Xi who stood in the distance.

This scene was too terrifying. It possessed the might to destroy the world and reign supreme over it. Merely the murderous aura it emanated caused all the meteors in an area of 50,000km in the surroundings to explode into powder.

Obviously, he'd been utterly infuriated, and he'd utilized the true might of an Imperial Monarch with the intention of annihilating Chen Xi with a single strike and putting an end to all future troubles.

Bang!

Chen Xi had clearly realized this, so he flipped his palm at practically the exact same moment.

An umbrella with a gold frame suddenly opened up before him. The umbrella was completely round like the fusion of Yin and Yang, and it promoted the generation of spirit and essence. Moreover, it emanated an expanse of dazzling azure light that illuminated the world!

### Talisman Emperor

#### **Chapter 1782: Spirit Treasures Shooting Into The Sky**

The Azurelight Goldframe Umbrella!

A Natural Spirit Treasure passed down in the Kunwu Clan. All those years ago, Kunwu Qing had taken it into the Desolate Manku Ruins, and it had fallen into Chen Xi's hands after Chen Xi had killed him.

Om!

At this moment, this treasure was utilized by Chen Xi. It instantly emanated Chaotic Qi and an azure glow. It was boundlessly bright, and it even illuminated this entire expanse of the heavens and the earth.

It fluctuated without end and produced obscure markings that ceaselessly flowed throughout the surface of the umbrella, causing it to seem extraordinarily divine.

Rumble!

At practically the exact same moment, Imperial Monarch Nandu had already arrived with the myriad of bright and silver bolts of lightning that he whipped down. They were like violently dancing silver snakes that blasted forcefully onto the Azurelight Goldframe Umbrella, and they caused deafening rumbling that sounded like thunderclaps from the nine heavens to resound.

In an instant, the umbrella was blasted flying.

However, to Imperial Monarch Nandu's surprise, Chen Xi had actually vanished!

"The Azurelight Goldframe Umbrella, isn't that the Natural Spirit Treasure that's passed down in the Kunwu Clan? How could it have fallen into this little bastard's hands?" Imperial Monarch Nandu's gaze swept over inadvertently, and his attention was instantly drawn by the treasure that had been blasted flying.

"Hmm? That little bastard couldn't be that Chen Xi, right?" Suddenly, Imperial Monarch Nandu recalled a rumor from a few years ago. The rumor said that the personal disciple of Oracle Mountain, Chen Xi, had killed Luo Shaonong, Gongye Zhefu, and four more Spirit God Exalts in the Desolate Manku Ruins. In the end, this matter had even caused Imperial Monarch Chong Dou, Empress Yu Che, and the Grand

Lord of Oracle Mountain, Wu Xuechan, to make an appearance successively. Thus, this matter caused the world to be stirred.

It was also at that time that Chen Xi's name seemed as if it had grown wings and was well known to the entire Ancient God Domain.

If it was any other cultivator, it would naturally not draw the attention of a figure like Imperial Monarch Nandu. However, when Chen Xi was a personal disciple of Oracle Mountain and the Little Junior Brother of the Grand Lord, Wu Xuechan, even Imperial Monarch Nandu had no choice but to pay attention.

However, never had he imagined that the little bastard he was going against right now was actually extremely likely to be that Chen Xi!

It's definitely him! The Divine Talismans this kid revealed in the battle just now are secrets of Oracle Mountain that aren't passed down to outsiders. Coupled with the heaven defying combat strength this kid possesses at such a young age, only a place like Oracle Mountain can foster such a freak....

These thoughts had practically flashed through Imperial Monarch Nandu's heart in an instant, and it caused him to be unable to help but feel slightly hesitant.

If Chen Xi was merely an ordinary disciple of Oracle Mountain, then it would be unlikely for him to feel fearful, and he would kill decisively.

However, when Chen Xi had the identity of being the Little Junior Brother of Oracle Mountain's Grand Lord, Wu Xuechan, Imperial Monarch Nandu had no choice but to be fearful.

As a senior of the Eternal Ye Clan, Imperial Monarch Nandu was naturally much more clearly aware of exactly how terrifying Oracle Mountain's resources and reserves were.

This was precisely the reason why he felt a trace of fear at this moment.

However, in merely an instant, when he saw the Azurelight Goldframe Umbrella that had been blasted into the distance and recalled his son, Ye Feng, that had perished miserably and all those Universe Enlightened Ancestral God Realm clansmen of his that had been slaughtered earlier, the last remaining trace of fear in Imperial Monarch Nandu's heart had vanished without a trace.

Rage and greed burned like a wildfire in his heart, and it caused his killing intent to seethe once more. He'd decided to annihilate Chen Xi.

So long as I complete it in secrecy, then who would know that it was I who did it? Not to mention that this little bastard killed my son! How can I spare him because of that?

...

"Hmph! Let me see what sort of tricks you can play, little bastard!" Even though he was unable to sense Chen Xi's tracks, Imperial Monarch Nandu relied on his instinct and instantly locked onto the Azurelight Goldframe Umbrella with his vital energy.

Moreover, he dared guarantee that Chen Xi hadn't fled because the area of 500,000km in the surroundings had been sealed off by his aura since the beginning!

Bang!

Imperial Monarch Nandu stretched out his hand with the intention of grabbing the Azurelight Goldframe Umbrella. Because if he was able to seize this opportunity to obtain a Natural Spirit Treasure, then it would be an unexpected gain.

Om!

However, right at the instant he made a move, an apricot yellow flag suddenly soared into the sky. It formed expanse after expanse of divine radiance that instantly constructed a divine formation that smashed down ruthlessly towards Imperial Monarch Nandu.

The Fifth-Earth Apricot Yellow Flag! The Natural Spirit Treasure passed down by the ancestors of the Di Clan.

Imperial Monarch Nandu's pupils constricted as he suddenly shouted loudly, and a bright silver ball of lightning floated up from his palm and collided head-on with the divine formation.

Rumble!

A wave of terrifying sounds of collision resounded. The formation created by the Fifth-Earth Apricot Yellow Flag collapsed while divine radiance shot into the surroundings.

"What a treasure! Unfortunately, its might was completely wasted when utilized in the hands of a little bastard like you. In the future, I'll be taking care of it!" Imperial Monarch Nandu sneered as he grabbed towards the Fifth-Earth Apricot Yellow Flag.

At this moment, Imperial Monarch Nandu had confirmed that Chen Xi was nearby and had just utilized a concealment technique in order to deceive his senses.

Bang!

When Imperial Monarch Nandu was just about to succeed, a desolate and heavy dragon roar resounded abruptly. It seemed like it had come from the moment the Chaos was split apart, and it was extremely loud.

At practically the exact same moment, a brilliant azure pearl revolved as it floated up into the air. Its surface was branded with countless mysterious markings of the Dao, and the dragon roar had come from this pearl.

Om!

The extremely loud dragon roar caught Imperial Monarch Nandu off-guard, and it shook him to the point he felt a piercing pain from his ear drums. Moreover, his head felt slightly swollen while the vital blood in his heart seethed, causing him to feel extremely agitated.

"The Dragon Origin Pearl!" Imperial Monarch Nandu was shocked, and he recognized this treasure as a Natural Spirit Treasure that was passed down in the Jin Clan. Besides causing him to feel shocked and infuriated, a wisp of burning greed couldn't help but surge from his heart.

The Azurelight Goldframe Umbrella, the Fifth-Earth Apricot Yellow Flag, and the Dragon Origin Pearl. It was an entire three Natural Spirit Treasures!

Figures like Imperial Monarch Nandu usually possessed one or two Natural Spirit Treasures, so how could he have imagined that a little fellow would actually possess so many Natural Spirit Treasures?

“Hahaha! Let me see exactly what other methods you possess!” Imperial Monarch Nandu roared with laughter. When he thought about how he would be able to obtain so many Natural Spirit Treasures after killing Chen Xi, he couldn’t help but feel overjoyed and extremely excited.

As he spoke, he stood in an imposing manner as he swung his hands repeatedly, and he grabbed towards the three Natural Spirit Treasures with the intention of taking them for himself.

Swoosh!

A simple bronze mirror appeared in the air, and then strands of dazzling violet divine radiance erupted from it.

Om!

A yellow bell resounded, and waves of divine energy swept out like ripples.

Swoosh!

A divine sword that was pitch black like the eternal veil of night shot into the sky. It carried a myriad of strands of lightning as it rumbled and swept down like a river of stars.

In an instant, another three Natural Spirit Treasures had soared into appearance, and they shot explosively towards Imperial Monarch Nandu from three different directions.

“The Yue Clan’s Ancient Soul Refinement Mirror! The Pei Clan’s Divine Blood Desolation Bell! The Luo Clan’s... Blackspirit Sword!” When he saw these three Natural Spirit Treasures appear, even with Imperial Monarch Nandu’s mental state, his heart couldn’t help but twitch fiercely at this moment while he was stunned for a brief moment.

So many Natural Spirit Treasures!

How could Imperial Monarch Nandu have imagined that he would actually see so many precious treasures that could only be chanced upon by luck while trying to annihilate a little fellow at the Universe Enlightened Ancestral God Realm!

This was simply no different that witnessing natural treasure troves being revealed successively before his eyes.

Bang!

The strand of violet divine light that shot out explosively from the Ancient Soul Refinement Mirror was like a sharp blade, and it forcefully tore open a bloody mark on Imperial Monarch Nandu’s left shoulder. Moreover, his skin and flesh had been split open by this attack, and his bones were faintly visible.

This attack caused Imperial Monarch Nandu to return completely to his senses, and it caused his eyes to go red with greed.

This little injury was naturally unable to make his countenance change, and the true reason for his excitement was that it would be extremely likely that he would instantly obtain six Natural Spirit Treasures after this battle ended!

When facing such an unexpected and enormous gain, any Imperial Monarch would probably go mad with envy!

Rumble!

Imperial Monarch Nandu took a deep breath, and then a bright golden spear suddenly appeared in his palm before he swept it horizontally through the starry sky.

In an instant, he'd completely crushed the attacks of the Blackspirit Sword, Ancient Soul Refinement Mirror, and Divine Blood Desolation Bell, and his attack shook those three Natural Spirit Treasures to the point they trembled violently and were on the verge of falling.

"Hahaha! Little Fellow, a man's wealth is his own ruin. With this little bit of ability you possess, it's useless no matter how many Natural Spirit Treasures you possess!" Imperial Monarch Nandu roared with laughter and was extremely self-satisfied. He flicked his sleeve and intended to take all these six Natural Spirit Treasures away.

Swoosh!

Just like before, another blood red sabre soared into the sky at this instant, and it was like a blood red full moon that was descending into the world.

The Netherblood Sabre! A Natural Spirit Treasure passed down in the Gongye Clan! Imperial Monarch Nandu almost jumped for joy when he saw this. He truly wished for nothing more than to roar loudly and ask Chen Xi to utilize all the Natural Spirit Treasures he possessed.

At this moment, he was even unable to restrain the excitement in his heart. He suddenly flashed forward while his palm carried a terrifying force, and he forcefully grabbed the Netherblood Sabre!

Rumble!

Blood colored divine radiance shot out while the Netherblood Sabre wailed violently. It was actually forcefully grabbed by Imperial Monarch Nandu.

"Hahaha! This sabre isn't bad, I'll accepting this gift of yours...." Imperial Monarch Nandu couldn't help but roaring happily with laughter. However, in the next moment, his pupils constricted abruptly. He suddenly noticed that an extremely dangerous aura seemed to be faintly spreading through the Netherblood Sabre in his hand.

Hmm? This caused Imperial Monarch Nandu to be slightly stunned. Before he could recover from his shock, a world shocking bang resounded. The Netherblood Sabre had exploded in his palm, and it emanated an indescribably terrifying force that rumbled as it swept out.

In an instant, the expanse of the starry sky where Imperial Monarch Nandu stood had been blasted into pieces, and it collapsed to swiftly form a black hole.

The scene of it was simply shocking to the extreme.

“AH!!!!” A shrill cry resounded. It was completely chaotic there. Blood red divine light flowed, and it was impossible to see Imperial Monarch Nandu’s figure any longer.

Swish!

Right at this moment, Chen Xi’s tall figure suddenly appeared extremely far away in the distance, and he put the six Natural Spirit Treasures away with a flick of his sleeve.

“Now, that old dog is probably dead, right?” Chen Xi gasped for breath with a pale countenance. Earlier, he’d utilized the Daoseal Mark to conceal himself and hide in space, and then he utilized divine artifact after divine artifact to attack Imperial Monarch Nandu. He was almost unable to bear the exertion from this.

It was even to the extent that for the sake of taking Imperial Monarch Nandu by surprise and killing him, Chen Xi had even utilized the Terminus Dao Insight to ceaselessly damage the internal structure of the Netherblood Sabre while he hid in the shadows. He’d done it for the sake of seizing the opportunity when Imperial Monarch Nandu dropped his guard to utilize the force of the Netherblood Sabre’s explosion to annihilate Imperial Monarch Nandu!

Fortunately, he’d accomplished all of this successfully. Even though he’d lost a Natural Spirit Treasure, it was worth it if he could kill an Imperial Monarch.

### Talisman Emperor

#### **Chapter 1783: Sudden Change In The Situation**

Actually, Chen Xi had taken an extremely great risk when executing this attack.

Firstly, he wasn’t sure if the might of the Terminus Dao Insight would be able to damage a Natural Spirit Treasure’s internal structure in order to accomplish his objective of making it explode.

Secondly, Chen Xi was unable to confirm if Imperial Monarch Nandu would fall into his trap. If he was unable to attain success, then he would have wasted a Natural Spirit Treasure for nothing.

Fortunately, after he deduced and tested from the shadows, he realized that the heaven defying force of the Terminus Dao Insight which was a taboo in the world really deserved its reputation. It wasn’t just able to terminate all things in the world, even Natural Spirit Treasures that were born from within the Chaos were unable to endure the assault of its might.

This allowed Chen Xi to obtain a deeper understanding of how formidable the Terminus Dao Insight was.

On the other hand, everything that had occurred before him proved that he’d made the right bet!

If it wasn’t for this, then he would be utterly unable to shake an Imperial Monarch while relying solely on his combat strength at the intermediate-stage of the Universe Enlightened Ancestral God Realm.

This was a gap between two realms, and it was like a natural chasm. At the very least, Chen Xi was unable to surmount it for now.

So, he could only form such a plan and risk everything as he had done by destroying a Natural Spirit Treasure to fight for a chance at victory.

...

The starry sky was still collapsing while divine radiance flowed in a disorderly manner, and then entire area there had fallen into great chaos.

However, right when Chen Xi felt that Imperial Monarch Nandu had already perished, a roar that carried extreme rage resounded abruptly.

“Little Bastard! I’ll kill you!!” Along with this voice, rumbling resounded as a figure charged out from that expanse of chaos, and his entire figure flowed with extremely terrifying killing intent. Surprisingly, it was Imperial Monarch Nandu!

He’s actually still alive! Chen Xi was shocked in his heart, and he couldn’t help but feel slight disbelief. Who would have imagined that Imperial Monarch Nandu would have actually been able to survive such an extremely terrifying explosion?

However, at this moment, even though Imperial Monarch Nandu was still alive, he was in an extremely horrifying state. His hair was disheveled, a large patch of skin on his face had been scorched black, his left arm had vanished, and the exposed skin on his entire body was covered in scars while his bones were faintly visible.

When looked at from afar, it was like looking at a mangled corpse.

This obviously showed that even though the blast from the destruction of the Netherblood Sabre hadn’t completely put an end to Imperial Monarch Nandu’s life, it had caused him to suffer a heavy injury and was in a miserable state.

This allowed Chen Xi to finally realize how terrifying an Imperial Monarch was!

“Die!” As soon as he appeared, Imperial Monarch Nandu seemed as if he’d gone mad. He held the golden spear and shattered space as he assaulted Chen Xi ferociously.

Even though he’d suffered a heavy injury and was in a miserable state, he was still an Imperial Monarch after all. A starving camel was still larger than a horse. At this moment, when he attacked in an infuriated state, his might was so formidable that it was even on par to his might from before he suffered these injuries.

Bang!

Chen Xi was caught off guard, and he could only meet this strike head-on. However, he was struck by this attack to the point the bones in his entire body were on the verge of breaking, and his entire figure was blasted flying.

“Die!” Imperial Monarch Nandu roared, and he’d pursued Chen Xi before Chen Xi could even make any reaction. The gold spear in his hand was like the scythe of the reaper, and it carried an obliterating might as it stabbed forcefully towards Chen Xi’s head.

If this strike were to hit, then no matter how formidable Chen Xi’s soul was, he would definitely be slaughtered on the spot.

Bang!

At this critical moment, a golden figure suddenly flew out from Chen Xi. It waved the iron rod in its hand and forcefully blocked this attack, and it even shook Imperial Monarch Nandu to the point of staggering back by a few steps.

“Old bastard! Allow your grandfather to deal with you!” This golden figure instantly transformed to a size of 300m in height, and it had three heads and six arms. Its golden eyes were brilliant like the sun, and it held a pitch black iron rod while its entire body emanated an oppressive and ferocious aura that threw the surroundings into disorder.

Surprisingly, it was the Gold-eyed Rhesus Monkey, Little Bao!

He'd been hiding in the universe within Chen Xi's body since the beginning. At this moment, when Chen Xi's life was in danger, Chen Xi had immediately decided to summon Little Bao.

“A Gold-eyed Rhesus Monkey! So, it's you! That animal that killed my son!” At this moment, Imperial Monarch Nandu finally saw his opponent's appearance clearly. For a time, his eyes almost split apart from rage, and his eyes became bloodshot.

“Die!” Imperial Monarch Nandu roared furiously.

A shocking scene occurred. This expanse of the starry sky was boundlessly vast, and it was situated at the border of Specter Galaxy. However, at this instant, an expanse of stars in the distance actually exploded into pieces along with this roar, and they transformed into meteors that shot towards the surroundings.

Such might was extraordinary. His rage collapsed the world and forcefully shattered an expanse of stars to the point they transformed into meteors that descended towards the surroundings.

At this moment, even though Imperial Monarch Nandu was heavily injured, he'd fallen into a berserk state and seemed to be extraordinarily terrifying.

The gold spear in his hand flowed with divine radiance, and it seemed as if it was burning. It was covered in a layer of violent energy of Divine Dao Order, and he swung it forcefully and attacked Little Bao.

Bang!

The image of a golden spear burned through space and even melted this expanse of the heavens and the earth. It was like they'd fallen into an expanse of purgatory that was covered in scorching lava.

However, Little Bao wasn't afraid at all. His golden eyes burned with battle intent instead, and he held the iron rod in his hand as he attacked in an extremely ferocious and overbearing manner.

Rumble!

In the next moment, both of them were locked in battle. It was like two divine mountains colliding in the starry sky, and a myriad of torrents of dazzling divine light erupted from their collisions, causing the world, sun, and moon to dim in comparison.

Such a scene could really be described as 'doomsday' because the signs of destruction were everywhere.

If this had occurred on land where living beings resided, then it would have destroyed countless cities and expanses of landscape.

...

Chen Xi gasped for breath as he stood up, and his expression gradually turned solemn as he gazed at the extremely intense battle in the distance.

As Chen Xi had expected, Little Bao was only able to easily crush Shaohao Yu, Imperial Monarch Kun Mu, and Imperial Monarch Xue Ying that day because he'd relied on the might of the restrictions in Divine Arambha Garden, and it had allowed Little Bao to accomplish something that was practically impossible with Little Bao's cultivation at the Universe Enlightened Ancestral God Realm.

Yet now, they'd left Divine Arambha Garden. So, even though Little Bao's combat strength could still be considered as heaven defying, his combat strength was merely able to evenly match Imperial Monarch Nandu who was in a heavily injured state.

If it was at Imperial Monarch Nandu's prime, then Little Bao would probably not be a match for him.

On the other hand, the tenacious vitality and combat strength Imperial Monarch Nandu revealed had shocked Chen Xi to the extreme as well.

An old fellow that was heavily injured and on the verge of death was actually still able to bring forth such terrifying might, and this obviously showed how extraordinary an Imperial Monarch's strength was.

"Animal! Even if I completely damage my foundation today, I'll definitely burn your bones and scatter your ashes!" Imperial Monarch Nandu grew even more infuriated from being unable to attain success after attacking for so long. The blood red glow in his eyes seethed while his face warped and had a savage expression on it. Moreover, his entire body emanated a violent aura that seemed almost capable of destroying the world.

Bang!

Amidst his roar, his imposing aura actually rose explosively once more. His gold spear crushed through space and forcefully blasted Little Bao's 300m tall figure back.

Roar!

Little Bao roared repeatedly as he fought as well. The battle had completely aroused the ferocity in Little Bao's bones, and he swung the iron rod violently.

However, Chen Xi was able to discern that if this continued, then Little Bao might be unable to persist until the end of the battle....

What should I do? Chen Xi's expression changed indeterminately, and he seemed to be hesitating about something.

In the end, he suddenly gritted his teeth while a wisp of a resolute expression arose in his black eyes that were deep like an abyss.

Bang!

In the next moment, the blood, spirit, energy, and essence within Chen Xi's body seemed like a volcano that had awakened from its dormant state, and they burned and erupted simultaneously before falling into a completely berserk state.

One could clearly notice that this dense jet black hair had instantly turned snow white while his imposing aura rose ceaselessly and steadily.

At this moment, it was like an ancient ferocious beast had come back to life within his body, and it intended to charge into the world and swallow its enemies!

The Godslaughter Burst!

An ultimate technique that was passed down in the Yazi Clan.

It was a supreme technique that harmed the spirit, energy, essence, and foundation within one's body as the price to induce an explosive increase in one's strength, causing one's combat strength to double. Since he'd cultivated it until now, Chen Xi would absolutely not utilize this technique unless it was a moment of life and death.

In an instant, the heavens and the earth rumbled while a peerlessly terrifying aura shot out from Chen Xi's body, and it formed into powerful divine radiance that coiled around Chen Xi.

Earlier, while Imperial Monarch Nandu was still at his prime, Chen Xi was able to resist his attacks by merely relying on Chen Xi's own combat strength. Now, Chen Xi's combat strength had doubled, and it was obvious how formidable his might would be. It caused even the starry sky to suddenly explode into pieces.

"Hmm?" This scene drew the attention of Imperial Monarch Nandu who was in an intense battle in the distance, and it caused him to be unable to avoid feeling shocked.

However, before he could even make any reaction, Little Bao had swung his iron rod at Imperial Monarch Nandu, causing him to not dare allow himself to be distracted again.

Clang!

At practically the exact same moment, Chen Xi held the Banisher while his snow white hair fluttered, and he was like an emperor of the sword as he attacked.

The heavens and the earth collapsed while the might of this strike shook the nine heavens, and it was like the moment the Chaos was split apart to form the world.

The Dismemberment Style!

This was the most accurate, sharp, and fierce attack in the Profound Heart Sword Technique. When utilized by Chen Xi, the sword qi emanated from it even formed a world of the sword that reflected the entire universe!

"Dammit!" Imperial Monarch Nandu's expression changed abruptly while his mind cleared up from its previously berserk state. He'd realized that an enormous change had occurred in Chen Xi's combat strength, and it was sufficient to threaten him.

However, he was in a battle with Little Bao now, and he was unable to extricate himself from the battle. So, he could only go head-on against Chen Xi's attack that struck from the side.

A violent bang resounded. It seemed like everything was destroyed while extreme radiance shot towards the surroundings. After that, the light in this expanse of the starry sky suddenly collapsed like a vast ocean, and then it started burning!

The vast waves were extremely gorgeous, and they could be said to be capable of startling the universe and moving the gods!

Bang!

When facing this attack, Imperial Monarch Nandu who'd been heavily injured a long time ago wasn't able to hold on any longer, and he was blasted flying. At this moment, his mangled corpse emanated numerous sounds of cracking and exploding. Blood sprayed from his body while his bones were revealed between his flesh, and he seemed to be extremely miserable and terrifying.

"Bastard!" Imperial Monarch Nandu felt extremely infuriated, and he was overwhelmed with rage and extreme resentment.

He was originally certain of his victory when he set out this time because he'd brought numerous clansmen at the Universe Enlightened Ancestral God Realm along with him, and he felt that it would be sufficient to capture and annihilate his targets.

However, never had he imagined that merely a young man at the intermediate-stage of the Universe Enlightened Ancestral God Realm would actually cause him to suffer losses repeatedly, and at this moment, he'd even encountered lethal danger.

He was simply unable to accept this!

Since when were Imperial Monarchs capable of being defeated by Universe Enlightened Ancestral Gods?

"Damnable little bastard, animal! I'll definitely get even with all of you in the future!" No matter how disgruntled he was, Imperial Monarch Nandu was clearly aware that the situation had gone out of his control, and if this continued, then the situation he faced would absolutely be unimaginable.

He turned around and teleported with the intention of fleeing.

"Trying to flee?" A wisp of a cold arc arose on the corners of Chen Xi's mouth, and then he flicked his sleeve, causing a clear seemingly illusory net to suddenly spread out from his palm.

### **[Talisman Emperor](#)**

#### **Chapter 1784: Using Others To Commit The Deed**

The Overarching Heaven Net!

A Natural Spirit Treasure passed down from the Master of Oracle Mountain, Fuxi, and it possessed unfathomable might.

As soon as it appeared, it transformed into a clear and chilly ripple that enveloped this expanse of the starry sky, and it completely sealed off Imperial Monarch Nandu's paths of retreat.

“The Overarching Heaven Net!” Imperial Monarch Nandu’s face sank as he suddenly let out a grim howl, and he swung the gold spear in his hand to block the Overarching Heaven Net that was approaching him from ahead.

Powerful cold winds surged by while the image of the spear was like a scorching sun.

Swish!

The illusory net that seemed like chilly starlight was struck by this strike of the spear to the point it shook violently. However, it wasn’t stopped, and it started to close together like a net used to capture a shoal of fish in the ocean. It was time to harvest the gains.

“Bastard!” Imperial Monarch Nandu was both shocked and furious. A wisp of an extremely strong feeling of danger arose in his heart, and it caused him to not hesitate at all before swiftly spitting out a mouthful of Blood Essence. This caused the imposing aura emanated from his body to rise explosively once more, and he charged and attacked once more.

Bang!

The gold spear was like a surging bolt of lightning that was bright golden, dazzling, and resplendent. It truly seemed as if it intended to pierce through this expanse of the heavens and the earth, and it carried a terrifying and all-powerful aura.

However, right at this moment, an iron rod whistled over. It was like a myriad of mountains crushing down from the sky, and it was violent and ferocious.

Space shattered and collapsed while sharp and ear-piercing rumbling resounded.

In an instant, Imperial Monarch Nandu’s expression changed abruptly. He didn’t dare continue charging at all, and he turned around and forcefully swept his spear towards the iron rod.

Bang!

Divine radiance shot towards the surroundings while thunderous rumbling resounded.

Little Bao’s 300m tall figure was actually struck to the point of staggering back in midair.

Swoosh!

However, before Imperial Monarch Nandu could be delighted by his success, a wisp of sword qi that was simple, primitive, seemed as if it had traversed the ages, and was filled with a chaotic and natural aura arrived before him.

This attack was too swift, and it just happened to appear at the instant Imperial Monarch Nandu blasted Little Bao flying, causing him to be unable to avoid this attack at all.

Imperial Monarch Nandu was terrified to the point his hairs stood on end, and his soul almost left his body. For the first time, he felt terror that came from the heart.

“Once...” He opened his to shout, yet merely a single word had left his mouth before his voice stopped abruptly, and then his eyeballs bulged out from their sockets.

Swish!

A bloody hole had suddenly been blasted open on his neck, and it caused blood to surge out from it like a waterfall and dye the sky red.

It turned out that Chen Xi's sword strike was too quick, quick to the point Imperial Monarch Nandu didn't even have the time to react to it before his throat had been pierced!

"Uh.... Uh...." Imperial Monarch Nandu's eyes were opened wide. Having his neck pierced caused strange sounds to escape his lips, and he seemed as if he still didn't dare believe that this would have occurred.

At this moment, Imperial Monarch Nandu's appearance seemed extremely shocking. His entire body was mangled, his bones were faintly visible, his expression was warped and savage, his eyes had bulged out, and his throat was pierced. He was simply miserable to the extreme, and it caused others to be unable to believe that this was an Imperial Monarch that possessed monstrous authority and the might to control the world.

Swoosh!

Chen Xi's hair was snow white as snow. He held the Banisher in his hand as he slashed off Imperial Monarch Nandu's head without the slightest hesitation, and he put a complete end to this Imperial Monarch's life.

Om!

However, right at the instant Imperial Monarch Nandu was killed, a wisp of white light suddenly flashed out from his corpse and tore through space.

It was the Spirit Plate!

Chen Xi had seen this treasure when Ye Feng had just been killed, and it was even to the extent that if it wasn't for this treasure, then they would have probably not encountered such danger when traversing the Specter Galaxy this time.

Yet now, after Imperial Monarch Nandu perished, the Spirit Plate in his possession intended to fly off as well. If news of this were to spread back to the Ye Clan, then it would probably draw over even more danger to Chen Xi's group.

Unfortunately, Chen Xi had been vigilant towards all of this since the very beginning, and he reacted.

Swish!

The Overarching Heaven Net emanated a gentle glow as it lightly closed together, and it captured that white light formed from the Spirit Plate and caused it to be unable to struggle free at all.

This was the strong point of the Overarching Heaven Net. Even though its offensive ability couldn't be considered to be formidable, it was capable of capturing the Karmic Luck of the Heaven Dao and confining everything in the surroundings. Now, it was merely restraining a Spirit Plate, so it was naturally extremely easy.

Bang!

Chen Xi took the Spirit Plate in his hand, and then he crushed it into pieces, causing it to transform into a rain of light that dispersed into the surroundings.

After he did all of this, he immediately flicked his sleeve and took Imperial Monarch Nandu's corpse along with the gold spear, and then he flashed off from here with Little Bao.

...

Since this battle erupted until it came to an end, merely the time of an incense stick to burn had passed. However, it was so dangerous and intense that it could be said to be world shocking.

If the outside world found out that 16 Universe Enlightened Ancestral Gods and an Imperial Monarch from the Eternal Ye Clan had perished miserable at Chen Xi's hands, then it would definitely cause a mighty uproar.

However, Chen Xi had paid a huge price to accomplish this. Firstly, he'd lost a Natural Spirit Treasure, the Netherblood Sabre. After that, for the sake of annihilating Imperial Monarch Nandu, he'd executed a technique like the Godslaughter Burst which brought as much harm to one's self as it would to one's enemies.

Even though it allowed his combat strength to instantly double, the consequences were extremely severe. At the very least, he would be in a 'weak' state for three to five months of time, and he was bound to be unable to fight back if he encountered the pursuit of a formidable enemy.

It was precisely because of this that Chen Xi didn't hesitate to leave with Little Bao after he'd annihilated Imperial Monarch Nandu. He'd done it for the sake of passing through the path that was established within Specter Galaxy before the side effects of utilizing the Godslaughter Burst technique appeared.

...

"An Imperial Monarch actually perished in that battle just now!"

"If I'm not wrong, that was probably Imperial Monarch Nandu from the Ye Clan. It's truly impossible to imagine exactly who killed him?"

"They lost 16 Universe Enlightened Ancestral Gods in one go and even an Imperial Monarch perished. Now, the Ye Clan would definitely become furious."

"Quickly send the news back. This matter is too serious, and I believe it won't take long before it'll stir the entire Ancient God Domain."

Not long after Chen Xi left, numerous figures flew over from extremely far away in the starry sky, and all of them couldn't help but be astounded when they saw this expanse of the starry sky that had been reduced to ruins and was covered in desolation.

They were cultivators from Lunar Pool Region, and they noticed the commotion here and sensed this battle from afar.

However, because it was too far, they were unaware about exactly who'd entered into battle with Imperial Monarch Nandu and the others from the Ye Clan.

But they were sure that Imperial Monarch Nandu was dead! Moreover, even the 16 Universe Enlightened Ancestral Gods that came with Imperial Monarch Nandu had perished in this battle as well!

Such a world shocking and extremely tragic battle had never occurred in the Ancient God Domain throughout the recent years. Especially when the cultivators who had died were clansmen of the Ye Clan, it was even more shocking.

There was no doubt that this battle was bound to cause a mighty uproar and cause the Ancient God Domain to fall into an uproar!

...

The Imperial Region. The Ye Clan.

The atmosphere before the ancient Ancestral Hall of the Ye Clan was deathly silent, and it was like the air had frozen.

The Ye Clan's Patriarch, Ye Beihe, and all the higher-ups were surprisingly present here.

However, at this moment, their expressions were extremely gloomy while their eyes were filled with a cold and fierce glow. Moreover, the imposing auras emanated from their bodies terrified the female attendants in the distance to the point they shivered and almost fell to their knees.

"They're all dead..." An aged sigh sounded out from within the Ancestral Hall, and it caused the expressions of all the great figures from the Ye Clan to turn unsightly.

Earlier, they'd received over 10 Spirit Plates that had returned simultaneously, and all of them belonged to the experts of the Ye Clan that had headed out with Imperial Monarch Nandu.

All of them had perished, and the Spirit Plate that returned recorded everything that occurred before the pathway through Specter Galaxy.

This caused them to finally discern that it was done by a green clothed man at the intermediate-stage of the Universe Enlightened Ancestral God Realm!

"Ancestor, that kid is probably the disciple of Oracle Mountain, Chen Xi." Ye Beihe took a deep breath before he said in a low voice. "This kid is skilled in Divine Talismans and formations. Moreover, his combat strength is heaven defying and far surpasses an ordinary Universe Enlightened Ancestral God. Only a disciple of Oracle Mountain is able to possess such might."

"You're saying that a Universe Enlightened Ancestral God Realm disciple of Oracle Mountain like him was able to kill Nandu?" That aged voice resounded once more, and it had become indifferent.

"Even though it's unbelievable, Nandu... has definitely suffered calamity." Ye Beihe's expression was gloomy while a wisp of indescribable sorrow and rage surged from his heart. Imperial Monarch Nandu was his younger brother, yet Imperial Monarch Nandu had perished now. So, how could his heart not ache?

The aged voice asked. "What do you intend to do?"

"We must kill that kid no matter the cost!" Ye Beihe gritted his teeth, and his voice seemed to have been squeezed out from the cracks between his teeth and carried extreme killing intent.

"Oracle Mountain... isn't terrifying. So long as we make the best use of our time and form an alliance with the Shaohao Clan and Sovereign Sect, then we don't have to fear Oracle Mountain at all." After remaining silent for a short while, the aged voice resounded once more. "However, we should temporarily exercise forbearance until then."

Ye Beihe and the others were stunned. Never had they imagined that their ancestor would actually make the decision to swallow this insult and humiliation silently.

This caused all of them to be disgruntled.

"Ancestor, you mean that we should let the matter go? Then what would the Imperial Region and the entire Ancient God Domain think of our Ye Clan in the future?" Ye Beihe couldn't restrain himself from saying. "We lost an Imperial Monarch and 16 Universe Enlightened Ancestral Gods this time!"

When he spoke up to here, Ye Beihe's heart was on the verge of bleeding. Even though the loss of so many clansmen was unlikely to injure the foundation of the Ye Clan, it was sufficient to be considered as a heavy injury.

If they didn't launch a counterattack, then their Ye Clan would definitely become the laughingstock of the world!

"No matter how disgruntled all of you are, you have to observe the times and act accordingly. Our Ye Clan has experienced countless calamities and tribulations in order to remain towering through the boundless years of time and possesses the title of an Eternal Clan. Could it be that it's not even able to endure this little bit of pain now?" The aged voice paused for a moment and continued. "Of course, it's merely temporary forbearance. But we can send news of this to the Shaohao Clan and Sovereign Sect. Tell them that Ye Yan's betrayal and the deaths of Shaohao Yu and the others are very likely to be related to that little fellow from the Oracle Mountain, and they should do as they see fit."

The eyes of Ye Beihe and the other great figures lit up when they heard this. Using others to kill him?

"Go on. If I'm not wrong, then this kid... definitely intends to return to Oracle Mountain. Tell the Shaohao Clan and Sovereign Sect about this as well. They'll naturally understand what to do. If that kid is allowed to return safely to Oracle Mountain, then it would be difficult to kill him in the future."

After he finished providing his instructions, the aged voice went silent.

On the other hand, at this moment, Ye Beihe had finally decided to exercise temporary forbearance and use the Shaohao Clan and Sovereign Sect to kill Chen Xi instead!

### [Talisman Emperor](#)

### **Chapter 1785: Arriving Successively**

Swoosh!

Space fluctuated violently, and an extremely sharp howl resounded.

It was the effect of teleporting at an extremely swift speed. When the sharp howl had just resounded, Chen Xi's figure was already 50,000km away.

This obviously showed how shocking his current speed of teleportation was.

It was indeed so. Since he decided to withdraw from there, Chen Xi travelled at full speed and flew ceaselessly along that path through Specter Galaxy.

During this entire process, Chen Xi's snow white hair silently started to gradually turn grey, and it slowly lost its luster and color. Moreover, his imposing aura was gradually weakening....

This was the sign of his strength starting to disperse after executing the Godslaughter Burst technique.

According to Chen Xi's deduction, he would probably fall completely into a 'weak' state in six hours from now.

He couldn't help but frown because of this. Because according to Ye Yan, not to mention six hours of time, even if he flew for an entire day at his current speed, it would still be impossible for him to traverse this path that was established through Specter Galaxy.

If I really can't carry on, then I can only ask Little Bao to do the travelling.... Chen Xi sighed in his heart.

The combat strength Little Bao revealed was extremely shocking. Even if he'd left Arambha Temple and was unable to utilize the energy of the restrictions that covered the Divine Arambha Garden, merely his own combat strength was sufficient to equally match Imperial Monarch Nandu that was in a heavily injured state. This was something that even Chen Xi felt slightly unable to accomplish.

However, Chen Xi was clearly aware that if Little Bao were to do the travelling, then it would absolutely be a horrible idea. Because it was the first time Little Bao had stepped foot into the outside world. Even though his combat strength was ferocious, he didn't have any experience and knowledge in the end. He was like a blank piece of paper that was probably be utterly unable to deal with the deception and dangers of the world.

On the other hand, if Ye Yan did it instead, it would be extremely easy for them to be exposed. Because it wasn't just the Ye Clan that knew her, even the colossi that were the Sovereign Sect and Shaohao Clan knew her as well.

Under such circumstances, once someone noticed her, it would similarly cause all sorts of danger for them.

"Little Bao." Chen Xi spoke abruptly.

Little Bao asked. "What is it?"

"If we encounter any unforeseen events throughout the way, then you must listen to my instructions and must not get entangled with the enemy." Chen Xi instructed swiftly.

He was really worried about Little Bao because Little Bao had a hot temper and was easily infuriated, so it very easy for it to be used by the enemy.

"Hehe! Don't worry Chen Xi, I'll listen to everything you say." Little Bao grinned as he spoke.

Chen Xi pondered deeply for a moment. He was just about to give further instructions while his pupils constricted abruptly, and he suddenly stopped moving.

“Eh!”

“Quickly take a look and see if it’s that kid!”

“Pursue them!”

At practically the exact same moment that Chen Xi stopped moving, numerous formidable strands of will suddenly swept over from extremely far away in the starry sky.

Because Chen Xi possessed the Dao Seal Mark, he’d practically instantly heard the content of their conversations, and he determined that they were most probably after him!

When he realized this, Chen Xi’s gaze glanced at the area that was covered by Specter Energy, and then a wisp of a resolute expression flashed abruptly in his eyes.

Swoosh!

In the next moment, Chen Xi swiftly vanished on the spot with Little Bao, and he flashed towards the area of Specter Galaxy outside the path that was covered in Specter Energy.

Leaving this path represented danger and calamity. Because according to rumor, all the cultivators who’d tried to enter Specter Galaxy since the ancient times had practically never survived.

But at this moment, Chen Xi couldn’t be bothered about all of that.

The strength he obtained after executing the Godslaughter Burst was weakening, and he was about to fall into a ‘weak’ state. So, he didn’t have much time to go head-on against his enemies.

Thus, charging into Specter Galaxy to lie low was undoubtedly the only choice he had.

...

Rumble!

Not long after Chen Xi left, a golden treasured vessel that was extremely grand had crushed through space to arrive here. When looked at from afar, it was like an extremely magnificent divine mountain moving about.

At this moment, over 10 figures were standing on that treasured vessel. There were both men and women of all ages, and all of them wore luxuriant clothes, possessed formidable auras, and were at least at the Universe Enlightened Ancestral God Realm.

Especially the green robed man in the lead. As he stood there casually, he emanated an imposing aura of supremacy and control, and he was actually an Imperial Monarch!

“That kid was actually terrified to the point of fleeing into the dangerous area of Specter Galaxy. Haha, he really is cowardly.”

“He didn’t even dare to meet us. This kid... is probably one of those culprits that murdered Ye Feng.”

“According to the information provided by the Ye Clan, it’s very likely that he’d the personal disciple of Oracle Mountain, Chen Xi. Moreover, Young Master Ye, Imperial Monarch Kun Mu, and Imperial Monarch Xue Ying’s deaths were related to him.”

“What should we do?”

“We should naturally pursue that kid and annihilate him!”

“May I know what 15th Elder thinks?”

Amidst their discussions, all of these Universe Enlightened Ancestral Gods shot their gazes towards the green robed man in the lead.

All of them were from the forces of the Shaohao Clan, and many of them were Universe Enlightened Ancestral God Realm experts from the vassal clans of the Shaohao Clan.

For example, they were from powers like the Swallow Clan, the Azure Phoenix Clan, the Wood God Clan, the Gold God Clan, and the five doves and five pheasants.

Only the green robed man in the lead was a true clansman of the Shaohao Clan. His name was Shaohao Tai, and he was called Imperial Monarch Tai Jing. He was the 15th elder of the Shaohao Clan, and he could be said to possess monstrous authority and a lofty status.

After they found out about the deaths of Shaohao Yu, Imperial Monarch Kun Mu, and Imperial Monarch Xue Ying, the entire Shaohao Clan was furious, and it sent this force led by Shaohao Tai to pursue and kill Chen Xi’s group.

However, it may have been a coincidence, or their luck was too good, but they’d actually encountered their target while they were travelling.

But to their disappointment, their target had actually disregarded his own safety and charged into the area that was enveloped by dense Specter Energy. This caused them to be unable to help but hesitate slightly, and they didn’t know if they should continue their pursuit.

“Pursue!” When he saw all of their gazes descend onto him, Imperial Monarch Tai Jing who had narrow and long eyes and a skinny face was silent for a moment before he lightly spat out a single word.

Merely this word alone had clearly displayed his attitude towards the matter.

When they heard this, all of them intended to say something. However, they were actually terrified to the point of speechlessness when they met Imperial Monarch Tai Jing’s icy cold and horrifying gaze.

However, they were clearly aware that Shaohao Yu’s death had utterly infuriated the Shaohao Clan. Under such circumstances, as the person in-charge of this mission, Imperial Monarch Tai Jing would naturally not shrink back before anything.

“All of you split up and search for the target with all your ability. I’ll lock onto your positions with the Lofty Cloudview Disk. I’ll rush over at the first possible moment if you encounter any mishaps.” Imperial Monarch Tai Jing spoke slowly while a powerful and low voice. It was like the sound of metal colliding, and it carried an icy cold and oppressive aura of slaughter.

As he spoke, a completely round bronze disk had silently floated up into appearance on his palm. It was around the size of a cattail leaf fan, and its borders were inscribed with extremely dense markings and patterns. Moreover, the center of the disk was smooth like a mirror and seethed with strands of illusory divine mist.

This was the Lofty Cloudview Disk. So long as one's aura was branded within it, then that person would be accurately detected by the Lofty Cloudview Disk no matter where that person went.

"Do any of you have objections?" Imperial Monarch Tai Jing glanced at them before asking in an icy cold tone.

All of them knew that Imperial Monarch Tai Jing had made his decision when they say this. So, no matter how dangerous Specter Galaxy was, they were unable to shake his resolution.

All of them immediately agreed, and they successively branded a strand of their auras into the disk.

"Then let's set out!" Imperial Monarch Tai Jing waved his hand. The golden treasured vessel beneath his feet rumbled, and then it crushed through space and charged towards the expanse of Specter Galaxy that was covered in Specter Galaxy.

In next to no time, the gold treasured vessel vanished.

...

"Looks like the Shaohao Clan can't wait any longer."

"Then let's allow them to make a move first. It's fine for us to wait a while."

"Exactly. Shaohao Tai has probably not received the news of the deaths of Imperial Monarch Nandu and the 16 Universe Enlightened Ancestral Gods. Otherwise, he would probably not act so rashly."

"Let's watch first. I keep having the feeling that since he was able to kill Imperial Monarch Nandu, that little fellow from the Oracle Mountain would absolutely not be so simple."

"He isn't just not simple. Once you find out about his accomplishments in the three dimensions, you'll understand that this kid is definitely a trump card Oracle Mountain planted, and he absolutely can't be taken to be an ordinary cultivator."

Not long after Imperial Monarch Tai Jing's group left, a wave of fluctuation arose in that expanse of space, and then five more figures actually floated up into appearance.

These five people were extremely unique. There were three men and two women amongst them. All of their bodies flowed with extremely pure energy of the five elements, and their auras were either violent like fire, gentle like water, sharp like metal, heavy like earth...

Even the clothes they wore respectively reflected the different colors of the five elements, and it was extremely conspicuous.

They were the five Divine Spirit Generals of the Sovereign Sect!

They were spirits that were born from the quintessence of the five elements, and they were gods that were innately strong. They respectively possessed the ability to control the might of the Grand Daos of metal, wood, water, fire, and earth!

According to rumor, the Sovereign Sect's Master had personally made a move and brought them back to the Sovereign Sect all those years ago. He guided them in their cultivations, passed down supreme techniques to them, and took them to be his personal disciples. This caused their cultivations to not just be unfathomable, their status in the Sovereign Sect was extremely lofty as well. They were simply comparable with red robed Grand Priests that were at the Imperial Monarch Realm.

Obviously, these five Divine Spirit Generals had made an appearance here for the sake of annihilating Chen Xi as well. Moreover, they'd already found out that Ye Yan's betrayal was closely related to Chen Xi.

"Come, let's follow them. Killing Ye Yan is nothing. We wouldn't have made this trip in vain if we're able to reclaim the Copper Coin of Treasurefall and River Diagram fragments in that kid's possession." After discussing for a moment, Gold Spirit who was in the lead spoke. He had light golden skin, brows that were sharp and slanted like swords, and his entire body was suffused with a fierce and murderous aura, causing him to seem like a god of death.

Swoosh! Swoosh! Swoosh!

In the next moment, these five Divine Spirit Generals had swiftly vanished on the spot.

...

Even Chen Xi himself had never imagined that he'd seemed to have become prey in the eyes of others now, and he was in a precarious situation.

However, since he distinguished that the golden treasured vessel had come for him, Chen Xi had determined that the following part of the journey was bound to be extremely dangerous.

Swoosh!

Four hours later.

Chen Xi stopped on a desolate star that was completely covered by Specter Energy, and he found a natural cave in an inconspicuous gap within a hill, and he flashed into it and hid himself there.

"Little Bao, you just have to stay calm and stand on guard by my side for now. Once I've recovered my strength, I'll naturally bring you along to have some fun with these bastards." Chen Xi took a deep breath before he quickly instructed Little Bao, and a wisp of piercingly cold killing intent couldn't help but suffuse his eyes as he spoke.

### [Talisman Emperor](#)

#### **Chapter 1786: Dangerous Area**

This time, Chen Xi had really been infuriated.

Even the nicest person had a temper, let alone Chen Xi. As soon as he left Arambha Temple, he'd encountered pursuit after pursuit, and they really took him to be a 'ripe persimmon' that they could squash at will.

Little Bao scratched his head and asked. "What if the enemy notices us?"

"It isn't so easy for them to notice us." Chen Xi spoke indifferently. As he spoke, he circulated the energy of the Daoseal Mark within his soul, and it swiftly swept out and concealed both Little Bao and him.

In an instant, Little Bao's eyes opened wide, and he said with disbelief, "Why... why do I suddenly feel like I've vanished from this world?"

In an instant, Little Bao understood the meaning behind Chen Xi's words and clicked his tongue with admiration. "This technique is truly profound. Even the technique Goddess passed down to me is far from being capable to compare with it."

Chen Xi smiled and didn't explain further.

He withdrew numerous bottles of pills and various peerless medicinal herbs, and then he chose those that were suitable for him before he started meditating while sitting cross-legged on the ground.

He'd gathered all of these medicinal pills and medicinal herbs throughout the years, and he'd been unwilling to sell them in order to avoid the situation where he was powerless to save himself when he encountered an unexpected event.

Huff~

Chen Xi took a deep breath, discarded the distracting thoughts in his mind, and started to absorb the medicinal strength contained within them in order to repair his body that was damaged by the Godslaughter Burst technique.

According to his estimations, it would at least take three months under the assistance of all this medicine in order to completely recover to his prime state.

Little Bao squatted silently at the side instead, and he glanced vigilantly towards the surroundings. Even though the energy of the Daoseal Mark had concealed them, he didn't dare be careless.

...

Time passed unnoticeably, and over a month had quickly passed by.

Everything was calm and tranquil, and nothing unexpected had occurred. This caused Little Bao who'd been constantly staying vigilant by Chen Xi's side to be unable to help but heave a sigh of relief.

It was even to the extent that he was only too eager for such a situation to continue, and he was waiting for Chen Xi to recover completely before they could charge out and kill all of those bastards that just refused to leave.

However, a mishap had still occurred.

Two days later, a wave of conversations conducted via voice transmission had been captured by the Daoseal Mark, and it caused Chen Xi who'd fallen into deep levels of cultivation to be jolted awake.

“Dammit! Over a month has passed, but besides encountering endless waves of Specter Beasts, we haven’t even encountered a hair from that kid. Could he have perished here?”

“There’s no need to be anxious. According to 16th Elder, that kid is definitely still in this galaxy.”

“Then what should we now?”

“We naturally have to do as 15th Elder instructed. No matter if we find him or not, we have to destroy all the stars we encounter on the way. In this way, the places that kid can hide at would grow lesser and lesser, and he’ll be exposed sooner or later.”

“That’s the only thing we can do. However, have you not noticed that as we head deeper into Specter Galaxy, the atmosphere here seemed to grow dangerous?”

At this moment, how could we be bothered about that? Let’s take action first.”

When he heard this, Chen Xi’s heart instantly shook. They intend to destroy all the stars they encounter on the way?

“Little Bao, there’s something I need you to do.” Chen Xi practically didn’t hesitate to swiftly send a voice transmission to Little Bao.

...

Two figures stood side by side on a desolate star.

One of them had the totem of a Blessed Dove embroidered on his chest while the other had the totem of a King Dove embroidered on his chest. Obviously, these two Universe Enlightened Ancestral Gods had come from two different ancient bird races.

“Let’s begin.” The expert from the Blessed Dove Race spoke in a deep voice. As he spoke, he made a grabbing motion with his palm, and an expanse of dazzling flames silently surged into appearance within his palm before it burned and corroded black hole after black hole in the surrounding space.

Clang!

At the other side, the expert from the King Dove Race drew a blood red spider club.

Rumble!

In an instant, both of them made a move at the same time. The glow of flames seethed and instantly swept out, and it covered more than half of the star. On the other hand, the blood red spider club tore through the sky as it ascended, and then it smashed down forcefully towards the star beneath it.

Both these Universe Enlightened Ancestral Gods had attacked and targeted a single star, so it was indeed sufficient to easily crush the star into powder.

This was the might of the Universe Enlightened Ancestral God Realm. If it was Domain Enlightened Spirit Gods instead, then it would be slightly difficult to accomplish this.

Bang!

However, right at the instant that they attacked, the space above their heads had suddenly collapsed and exploded into pieces.

After that, an iron rod carried monstrous ferocious might as it smashed down at them.

This scene had occurred so suddenly, and they were caught off guard. The head of the expert from the Blessed Dove Race was instantly smashed into mush, and he perished on the spot.

“Bastard!” At the other side, the expert from the King Dove Race was extremely formidable. He’d actually relied on the experienced he’d gain through years of tempering to swing the blood red spider club instinctively and block this attack.

Bang!

However, in the next moment, the blood red spiked club in his hand was blasted flying. Moreover, a ‘crack’ resounded as his right arm exploded into pieces, and his entire body was blasted towards the ground like a sandbag.

“AH!!!” He let out a shrill cry and was both furious and terrified while his eyes almost split apart from rage. He still didn’t dare believe that such an unexpected event would occur in a short instant.

Bang!

In the next moment, his entire figure was enveloped by peerlessly violent images of the iron rod. His body was smashed into mush, and his shrill cry stopped abruptly.

In an instant, the battle had come to an end, and two Universe Enlightened Ancestral Gods had perished!

All of this had occurred too swiftly, and if an ordinary cultivator was here, that cultivator would definitely think that he was seeing things.

“How weak.” Little Bao’s figure appeared in midair, and he shook his head with dissatisfaction. However, he was clearly aware that if Chen Xi hadn’t helped him conceal his aura and caused them to be unable to detect him, it would have been absolutely impossible for him to kill two Universe Enlightened Ancestral Gods so easily.

“We have to leave quickly! If I’m not wrong, then their companions will probably arrive here very soon.” At this moment, Chen Xi was lying on Little Bao’s back, and he had a cold expression while he spoke swiftly via voice transmission.

Because his injuries hadn’t recovered completely, he was still in a ‘weak’ state at this moment. Even though he could move normally, he didn’t possess sufficient strength to teleport.

“Where are we going?” Little Bao’s heart shook.

“Deeper.” Chen Xi gazed at the distant area that was completely covered by grey and hazy Specter Energy as he decided.

He was clearly aware that the closer they got to the depths of this area, the more dangerous it would be. At that time, they wouldn't just have to be on guard against their enemies that may catch up to them, they had to be on guard against the various calamities and dangers in Specter Galaxy.

However, Chen Xi obviously couldn't be bothered about all of that.

He urgently required time to recover his injuries, and just two months would be sufficient. He wasn't willing to see the scene of them going head-on against their enemies occurring before then.

Two months of time!

It seemed to be very short, but it seemed extremely long now.

This obviously showed that if Little Bao wasn't travelling alongside Chen Xi this time, then he might have really suffered calamity.

...

Swoosh!

Right when Little Bao left with Chen Xi on his back, the space above this desolate star suddenly exploded into pieces, and then a figure that was covered in a murderous aura appeared.

He wore a green robe, had a skinny face, and eyes that were narrow and long like blades. He was exactly the Shaohao Clan's 15th Elder, Imperial Monarch Tai Jing!

At this moment, he held the Lofty Cloudview Disk in his hand while his gaze swept through the surroundings like a bolt of lightning, and his expression instantly sank.

Dead! Two Universe Enlightened Ancestral Gods perished in less than 30 breaths of time!

This caused the killing intent in Imperial Monarch Tai Jing's heart to almost go out of control, and his expression grew even more icy cold and murderous.

Rumble!

A strand of peerlessly enormous will suddenly swept out like a gale from Imperial Monarch Tai Jing, and it shattered the space before it as it swept out in all directions.

After a short moment, a golden figure flashed in the area covered by Imperial Monarch Tai Jing's will, and when he intended to lock onto that figure once more, he was unable to find it because it was too far away.

However, this was already sufficient for Imperial Monarch Tai Jing.

After over a month had passed, the enemy had finally revealed himself. So, even if he'd lost two subordinates, but Imperial Monarch Tai Jing couldn't help but heave a sigh of relief while feeling furious at the same time. At the very least, it proved that his target hadn't escaped!

"Hear my orders! The target has shown himself. Quickly move towards the depths of Specter Galaxy and make sure to completely seal off his paths of retreat!" Imperial Monarch Tai Jing sent a voice

transmission via the Lofty Cloudview Disk in his palm, and it was instantly transmitted to the other Universe Enlightened Ancestral Gods.

After he finished doing all of this, he didn't hesitate any longer. He flicked his sleeve and directly tore through space and pursued along the path Chen Xi had fled.

...

"Looks like this Chen Xi possesses a unique technique to conceal his aura, and it's able to conceal him from the detection of an Imperial Monarch. No wonder he seemed as if he'd vanished from the world for over a month now."

"Imperial Monarch Tai Jing has already gone off in pursuit. Should we continue forward? We'll arrive at the most dangerous area in Specter Galaxy if we continue forward. Calamities descend successively and death is everywhere there. At that time, we might fall into a predicament before we're even able to capture that kid."

"It should be fine if we act carefully."

"Exactly, we have Imperial Monarch Tai Jing playing the role of vanguard. So even if there are any dangers ahead, it would be very difficult for us to be dragged into it as well."

After a short moment, the figures of the five Divine Spirit Generals from the Sovereign Sect appeared on that desolate star, and they gazed at the direction Imperial Monarch Tai Jing left towards. They discussed for a moment before they decided to continue forward.

However, compared to before, they seemed to be have become much more cautious and careful now.

Because all of them were clearly aware that if they went deeper into Specter Galaxy, then it would become extremely dangerous, and it might even threaten their lives!

...

Expanse after expanse of meteors whistled by. They whistled ceaselessly through space like an enraged god was venting the flames of rage in his heart.

Spatial rifts that were sufficient to cause Universe Enlightened Ancestral Gods to become lost within them swayed in space, and they were like translucent ribbon that lay across the surroundings and were faintly visible.

Spatial black holes that swallowed everything before them appeared from time to time and vanished from time to time as well. They were like the bloody mouths of ferocious primeval beasts that intended to swallow their prey.

Multicolored illusory droplets of light that could penetrate and corrode the soul rained down....

All along the way, Chen Xi noticed to his surprise that Specter Galaxy really became more and more dangerous the deeper they went, and calamities occurred frequently all over the surroundings. Moreover, they were covered by the grey and hazy Specter Energy, so if one didn't look carefully, then it would be utterly impossible to notice them.

Under such circumstances, if one ventured into one of these calamities, then the dangers of the consequences was obvious.

However, Chen Xi was even more surprised and shocked that Little Bao seemed as if he possessed the ability to predict the future, and while Little Bao seemed to be charging recklessly all along the way, but he was always able to barely avoid all of these dangers. It was an extremely miraculous sight.

### Talisman Emperor

#### **Chapter 1787: Ancestral Dragon Daolord**

In next to no time, Chen Xi noticed that Little Bao was able to accomplish this because of his pair of bright golden eyes.

As his eyes opened and closed, golden divine radiance flowed within them, and numerous obscure and mysterious symbols seethed in the depths of his pupils. They transformed and reflected all sorts of profundities, and they seemed as if they were capable of seeing through the truths of the world and observe the secrets of the Grand Dao. It seemed extremely terrifying.

This was the innate ability of Gold-eyed Rhesus Monkeys. They were said to be unique in the world, capable of observing the Karmic Luck in the world, and hearing the profundities of the heavens and the earth. They were extremely miraculous.

Actually, it was obvious. Since Little Bao was able to cultivate by the side of the Goddess from Arambha Temple and even caused Senior White to click his tongue in admiration, it was obvious how heaven defying Little Bao's natural talent was.

This sort of natural talent allowed Little Bao to safely avoid all sorts of dangers as he flew in this area that was filled with unfathomable danger and kill intent.

If it was any other cultivator, that cultivator would probably encounter difficulty with every step he took and fall into an extremely story state. It was even to the extent that an ordinary cultivator wouldn't dare enter arbitrarily into the depths of this place.

After all, this area was covered in boundless Specter Energy, and it was filled with numerous meteors, spatial rifts, spatial black holes and vortexes, multicolored rains of light, and various other terrifying natural disasters. The slightest carelessness would cause one to face death.

Swoosh!

Little Bao carried Chen Xi on his back as he flew like a wisp of dazzling golden light, and he moved straight through the dense Specter Energy and vanished in an instant.

However, after just the time for an incense stick to burn, an unexpected event occurred.

Little Bao stopped abruptly and didn't move forward any longer. Golden light flowed in his eyes while he revealed a restless, hesitant, and indeterminate expression.

Chen Xi was stunned, and then he raised his eyes to look over. He instantly noticed that numerous burning stars were actually floating in the distant starry sky!

There was a dense mass of them, and he was actually unable to see the end of them. Every single star was covered in strange pale green divine flames, and it was horrifying and seemed like Ghost Flames.

They were floating and burning silently. The pale green flames caused the starry sky to be covered in a ghastly and deathly aura, and it was actually like a graveyard in space!

Even with Chen Xi's disposition that was firm like a rock, he couldn't help but gasp when he saw such a strange, grand, and ghastly scene.

A myriad of stars were burning while pale green divine flames illuminated the starry sky. Would anyone dare believe that such a shocking scene actually existed in the starry sky?

The atmosphere here was deathly silent and horrifying. There was practically no need to think before one could instantly determine that this place was extremely dangerous!

"What the heck is this place?" Chen Xi frowned. He was very clearly aware that if they turned back or went around this place now, then it would be no different from delivering himself to the enemy.

"I don't know." Little Bao scratched his head and was very upset because even his golden eyes were unable to see through its secrets. "However, if I possess a cultivation at the Imperial Monarch Realm, then I'll definitely be able to see through it."

"How ignorant! This is a Dao Domain that has been covered by Tribulation Energy. So, no matter how extraordinary your strength becomes, little monkey, you'll still be unable to see through its secrets." Suddenly, a lazy voice resounded, and it carried a teasing and ridiculing tone.

Senior White! Chen Xi's spirits were refreshed. He immediately noticed that Senior White had actually awakened from that obsessed state Senior White was in before this.

"What're you still standing there for, quickly let your ancestor, I, out!" Senior White ordered in an extremely proud manner.

Since he obtained that Origin Bone of a Holy Shaman five years ago, this old bird seemed as if he'd been possessed and had constantly stayed in the universe within Chen Xi's body to study that treasure. Moreover, Senior White even forgot to eat and sleep, and he'd simply attained a state where he'd forgotten everything but the Origin Bone.

He didn't even pay any attention to Chen Xi's calls.

However, never had Chen Xi imagined that Senior White would awaken at this moment. Moreover, Senior White had recovered his complacent, proud, and self-satisfied bearing.

Chen Xi didn't have the mood to joke with Senior White now, and he directly dragged Senior White out and said swiftly, "You said this is a Dao Domain?"

Senior White was extremely displeased by Chen Xi's rudeness. He struggled free from Chen Xi's palm before he puffed up his chest and said indifferently, "Wrong, this is a Dao Domain that's covered by Tribulation Energy!"

"Is there a difference?" Chen Xi frowned.

“Little Fellow, have you still not noticed. A Daolord suffered tribulation here, and the Tribulation Energy that enveloped his body hadn’t dispersed after he fell, so it corroded his Dao Domain.” Senior White sighed. “However, it makes sense because you haven’t even seen a Daolord suffer tribulation, so you’re naturally not aware of how such a scene would look like.”

A Daolord suffering tribulation!

In an instant, Chen Xi recalled the legend that Ye Yan had told him about.

Countless years ago, Specter Galaxy was a paradise of cultivation, but along with a supreme existence at the Daolord Realm suffering calamity here, it caused this paradise to be affected as well. Specter Energy covered it and caused it to become completely desolate, and it became a place of great danger.

Chen Xi originally thought that it was merely a legend, but after Senior White said this, he immediately realized that the legend was probably true!

When he thought about how a Daolord had perished here countless years ago, and the Tribulation Energy remaining on the Daolord’s body after the Daolord’s death was still capable of completely transforming a galaxy into a place of danger and desolation, Chen Xi’s heart couldn’t help but experience a wave of terror.

This was simply too alike to the Roc Daolord that had transformed into the Last Days Domain.

“Do you have a way to traverse this Dao Domain?” Chen Xi took a deep breath, and he focused his gaze towards the distance as he spoke.

Presently, time was of the essence. There were formidable experts pursuing them from behind, so he couldn’t allow his thoughts to run wild at all.

When he heard this, Senior White revealed a strange expression as he glanced at Chen Xi, and then he suddenly held his belly and roared with laughter.

Chen Xi glared at the old bird and simply wished to choke the old bird to death. He still refuses to be serious even at a time like this! “Alright, alright! Don’t get angry!” Senior White instantly cried out when he noticed this. “Could it be that you’re unaware that Tribulation Energy destroys one’s fate? Fate is the Karmic Luck of life, and everything is determined by destiny. Presently, your destiny is impossible to determine, and even your ancestor, I, am unable to see through it. So, do you think this Tribulation Energy can harm you?”

Chen Xi was stunned because he didn’t know about this.

“You’re still too young. You possess a precious treasure yet just fail to realize it.” Senior White let out a long sigh. “Even though it’s easy for the Heaven Dao to take one with unfathomable fate to be a variant that isn’t tolerated by the Heaven Dao, it’s precisely because of this that you have an advantage that other cultivators don’t. It’s impossible for your fate to be seen through and controlled by others!”

When he spoke up to here, a wisp of ridicule couldn’t help but suffuse the corners of Senior White’s mouth. “Merely this alone is sufficient to cause the eyes of Daolords to turn red with envy. Existences like them have started to comprehend and cultivate in one’s own destiny. They seek the Dao of Destiny, and it can be said to be a path that defied the heavens. Every single step on this path is filled with

danger, and the slightest mistake would end with death. If they possessed ability like yours, they would at least be able to avoid more than half of these dangers.”

A tempestuous wave couldn't help but arise in Chen Xi's heart when he heard this. He finally understood that existences at the Daolord Realm comprehended their own destiny!

Destiny!

Control over one's own self. It was the most illusory, ethereal, and difficult to figure out. The energy of destiny was one of the most mysterious and supreme taboos in the world.

As it was said, 'defy the heavens and change one's fate'. It meant that one could only change fate by 'defying' the heavens. This obviously showed how great of a taboo this force was, and it had already touched upon the Heaven Dao's 'reverse scale'!

There were always arrogant and conceited young people in the mortal world that screamed 'I control my own fate, and not the heavens!'. However, they didn't know how laughable and ignorant such actions were.

Because they didn't know what 'fate' was at all!

Even Chen Xi was unable to pry into and try to figure out such a force. Even though he was able to understand all of this, he was unable to figure out its profundities.

It was still too far away from him now. If he was really able to attain such a state, then he would simply be no different than the 'creator' that created all things.

For Chen Xi right now, the important matter at hand was to leave this place first, avoid the dangers that were about to arrive, and recover his injuries. As for the Grand Dao of Destiny, he would definitely have a chance to seek it in the future so long as he was still alive.

“You have to be careful. Even though the Tribulation Energy in this Dao Domain is unable to harm you, there are other dangers within it as well.” Senior White couldn't help but remind when he noticed Chen Xi was about to act. “If my deductions aren't wrong, then this Dao Domain is a form of protection, and it's protecting that fallen Daolord's tomb!”

Chen Xi was shocked, and he was just about to ask about it when an extremely terrifying strand of will suddenly swept over.

Shit! Chen Xi's eyes narrowed, and he shouted in a low voice. “Little Bao, move quickly!”

There was practically no need for Chen Xi to say anything because Little Bao had noticed that strand of will as well. His figure suddenly flashed while carrying Chen Xi on his back, and he charged into the mysterious Dao Domain that was covered in Tribulation Energy.

Rumble!

Right after the two of them had just left, the space where they stood moment ago suddenly exploded into pieces and collapsed. It was like it had collapsed into a blackhole, and it was rather shocking.

It was obvious that if Chen Xi and Little Bao had been a step slower, then merely this attack alone would have been sufficient to annihilate them.

“Hmph! Little Fellow, let me see how long you can struggle for.” At practically the exact same time, Imperial Monarch Tai Jing’s mighty figure appeared abruptly. His eyes that were narrow and long like blades emanated cold bolts of lightning as he glanced towards the distance.

But in merely an instant, his face sank, and he said with surprise and bewilderment, “This.... Could this be the Jaderain Dao Domain of legend?”

Numerous stars were burning while suffused with horrifying pale green divine flames. It was like clusters of Ghost Flames had studded the quiet starry sky, and it created a grand and mysterious scene that made it seem like a graveyard in the starry sky.

The atmosphere here was deathly silent, strange, and horrifying.

With Imperial Monarch Tai Jing’s experience and knowledge, he was naturally clearly aware that the Ancestral Dragon Race of an innate god that was born from the Chaos resided here countless years ago.

However, the Ancestral Dragon Daolord failed to overcome his tribulation here, it caused the paradise that the Ancestral Dragon Race resided in to be transformed into the dangerous expanse of ruins that lay before him right now.

But even though he was aware of this, it was the first time Imperial Monarch Tai Jing had arrived at such a dangerous place, and when he noticed the Dao Domain that was covered in Tribulation Energy, he finally determined that the legends were true.

“The Jaderain Dao Domain. The tomb where the Ancestral Dragon Daolord’s corpse is buried.... If this is true, then the supreme fortune of legend is probably hidden in there....” At this instant, Imperial Monarch Tai Jing suddenly recalled that numerous formidable cultivators had come to Specter Galaxy since the ancient times until now, and they’d come here for the sake of searching for a supreme fortune that resided within Specter Galaxy. However, no one had succeeded until now.

Moreover, as time passed by, this supreme fortune had been gradually forgotten by the world....

### [Talisman Emperor](#)

#### **Chapter 1788: Mirage Dragon’s World**

According to legend, the Ancestral Dragon Daolord had utilized his supreme ability to establish a tomb to bury himself before perishing, and he’d left a supreme fortune behind.

Some said that it was a strand of Dragon Soul.

Some said it was a strand of Quintessence Energy from the Ancestral Dragon Daolord.

Some said that it was a Dragon Pearl that contained Ancestral Dragon Daolord’s entire inheritance.

It could be said that there were all sorts of different opinions.

But it was undoubtable that it was absolutely a supreme fortune.

Because of this legend, this extremely dangerous area in Specter Galaxy had attracted countless cultivators to explore it throughout the boundless years of the past.

Unfortunately, not only were they unable to locate that supreme fortune, most of them perished within Specter Galaxy in the end.

Up until now, rumors related to this supreme fortune had gone silent, and very few people knew about it. However, a figure like Imperial Monarch Tai Jing had never forgotten this legend.

Even if he was unable to determine exactly what the true appearance of that supreme fortune the Ancestral Dragon Daolord left behind was, he was very clearly aware that even if he was merely able to locate the Ancestral Dragon Daolord's corpse, then it could be considered as a fortuitous encounter as well!

Why?

Because unlike other Daolords, the Ancestral Dragon Daolord was a true dragon! He was an innate god born from within the Chaos, and his bloodline was much more noble than the likes of the Qilin, the Bi'an, the Bai Ze, and the Xiezhì.

Only a divine flying beast like the True Phoenix could compare with it.

Moreover, the Ancestral Dragon Daolord's cultivation was extraordinary and had attained the Daolord Realm, so how could the corpse he left behind be normal?

No matter how useless it was, it would still be sufficient to be forged into a divine weapon!

Of course, if one really obtained the Ancestral Dragon Daolord's corpse, then there would probably be no one that would waste god's given gifts like that.

...

All of these thoughts flashed through Imperial Monarch Tai Jing's heart in an instant, and it caused his gaze towards the Jaderain Dao Domain in the distance to be unable to help but carried a wisp of burning desire.

If I'm able to obtain this supreme fortune while annihilating my target, then it would really be a great fortune for me!

But in next to no time, Imperial Monarch Tai Jing started to hesitate slightly.

People had been searching for this fortuitous encounter since the ancient times until now, but all of them had failed without exception! Moreover, they came to extremely horrifying ends. Not only had they perished, there was no news about them at all. So, they weren't able to receive a proper burial.

In the current cultivation world, Specter Galaxy was simply like a restricted area that none dared to trespass into because entering it was equivalent to waiting for a horrifying end to befall.

Not to mention that according to Imperial Monarch Tai Jing's knowledge, all those cultivators that dared to enter this area were extraordinary and formidable fellows that were renowned during their time. However, they were never heard of again after arriving here....

Under such circumstances, no matter how confident Imperial Monarch Tai Jing was towards his strength, he didn't dare act rashly and carelessly.

Swoosh! Swoosh! Swoosh!

Right at this moment, a wave of spatial fluctuation suddenly surged, and then numerous figures appeared. Surprisingly, it was those Universe Enlightened Ancestral God Realm experts from the Shaohao Clan's vassal clans.

This caused Imperial Monarch Tai Jing to be instantly jolted awake from his deep thought, and he glanced at them before he couldn't help but frown. "Why are there only 11 of you? Where are the others?"

Their expressions turned slightly unsightly when they heard this, and a wisp of terror still remained in the space between many of their brows. It seemed like they'd encountered something terrifying on the way here.

"15th Elder, there were too many dangers and natural disasters all along the way, and we can be considered to have been lucky to arrive here safely. As for the others, I'm afraid that...." Someone spoke with a slightly heavy tone.

Imperial Monarch Tai Jing's face instantly sank. He withdrew the Lofty Cloudview Disk and carefully checked the aura of the brands within it, and then he instantly noticed that besides the two Universe Enlightened Ancestral Gods who were killed by Chen Xi, merely this period of pursuit had actually caused three Universe Enlightened Ancestral Gods to suffer calamity!

Their auras weren't even present within the Lofty Cloudview Disk, so they'd clearly perished!

"What a bunch of trash!" Imperial Monarch Tai Jing berated coldly. Even though he was clearly aware that the way here was filled with all sorts of dangers like meteor showers, spatial rifts, spatial blackholes, multicolored rains of light.... It could be said to be a place of grave danger, and it was extremely threatening even to Universe Enlightened Ancestral Gods.

However, when he thought about how even Chen Xi was able to arrive here safely while three of their Universe Enlightened Ancestral God Realm experts had perished on the way here, he felt that they were truly too useless.

At this moment, all the other Universe Enlightened Ancestral Gods in the surroundings couldn't help but go silent like cicadas in the winter, and they were slightly aggrieved in their hearts. Because they'd taken an extremely great risk in order to arrive here. How could those natural disasters be things that could be avoided so easily?

"Forget it. Our mission is more important. I'd already locked onto that kid's tracks earlier. Unfortunately, he'd seized the opportunity before I arrived to flee into the Jaderain Dao Domain. After this...." When he spoke up to here, Imperial Monarch Tai Jing suddenly took a deep breath, and then he gritted his teeth and said, "We'll set out together. No matter how dangerous it is, all of you don't have to worry with me there."

The Jaderain Dao Domain!

Hearing this name caused the expressions of those Universe Enlightened Ancestral Gods to instantly change. Obviously, they'd heard of the numerous legends about the Ancestral Dragon Daolord.

It was even to the extent that many revealed a wisp of deep terror, and they were extremely hesitant.

Unfortunately, Imperial Monarch Tai Jing had already made his decision, and refusal wouldn't be tolerated.

"Don't worry. If we're able to succeed this time, then not only would we be able to kill the target, we might even be able to obtain a supreme fortune. At that time, I will definitely not treat all of you unfairly." Imperial Monarch Tai Jing's narrow and long eyes swept past all of them and gave them a promise. This caused the expressions of those Universe Enlightened Ancestral Gods to ease up slightly.

Om!

Imperial Monarch Tai Jing withdrew a portrait of landscape that emanated blue ripples, and divine radiance shot out from it and enveloped all of them.

"Let's go!" In the next moment, they charged into the Jaderain Dao Domain that was like a graveyard in space.

...

It wasn't long before another wave of fluctuation arose in this expanse of space, and then five dazzling lights that were in the color of gold, green, blue, crimson, and yellow had appeared.

After that, these lights emanated a wave of fluctuation before they formed the figures of the five Divine Spirit Generals from the Sovereign Sect.

"The Jaderain Dao Domain!"

"The place where the Ancestral Dragon Daolord is buried!"

"Haha! I never expected that kid would actually accidentally enter this place. I wonder if I should call him unfortunate or too lucky?"

"Imperial Monarch Tai Jing still dared to bring that group of subordinates with him even to such a place of danger. He clearly hasn't done that merely for the sake of killing that kid."

"This is the burial ground of the Ancestral Dragon Daolord. According to legend, a supreme fortune is hidden here. There's probably no one that can resist such temptation."

All of them simultaneously looked towards the expanse of starry sky that was covered in burning stars and pale green divine flames, and they revealed all sorts of expressions.

"Should we give it a try?" said Fire Spirit. She had fiery red lips, misty starry eyes, and a charming and enchanting figure. She wore a thin lace dress and had a slender and curvaceous figure. The skin on her entire body was extremely fair like snow, and every single move she made revealed a wild and amorous aura.

Just like Water Spirit, they were the only two women amongst the five Divine Spirit Generals. One was fire and the other was water, and it was a very interesting combination.

“To give our lives away?” Gold Spirit who led the group spoke coldly, and his gaze was like a sharp blade that was murderous and oppressive.

“Then what do you think we should do? After all, if that kid is killed by Imperial Monarch Tai Jing, then the River Diagram fragments and Copper Coin of Treasurefall in his possession would fall into Imperial Monarch Tai Jing’s hands! Can you... bear to watch that happen?” Fire Spirit spoke slowly with a uniquely attractive voice, and it was like invisible charm that plucked one’s heartstrings.

“You’re wrong. We just have to wait here. At that time, no matter if it’s that kid who’s lucky enough to return or if it’s Imperial Monarch Tai Jing’s group that escape safely, we just have to kill them, and it’ll be equivalent to completing our mission.” Gold Spirit spoke indifferently, and his suggestion was none other than to be the oriole that watched the mantis stalk the cicada.

“What if all of them die in there?” Fire Spirit frowned. When facing such a supreme fortune, she was truly unwilling to wait outside.

“Then we should be happy that we hadn’t stepped foot into that area.” Gold Spirit spoke without the slightest hesitation. “It’s decided. Even though fortune is great, you need to be alive to obtain it!”

The others exchanged glances before they provided their silent approval.

...

Deathly silence.

This Dao Domain that was covered by Tribulation Energy was completely silent. Only the sound of Little Bao teleporting resounded, and it was strange and terrifying.

Numerous stars were burning and emanating pale divine flames. They were like numerous bright lanterns that were guarding a stellar tomb that had been buried in history a long time ago.

It was grand, strange, and terrifying.

After entering into this Dao Domain, Chen Xi acutely noticed that the energy of the Heaven Dao in the Ancient God Domain had been isolated outside, and the air was filled with the energy of tribulation that caused one’s heart to go cold. It seemed like so long as one was even tainted by a trace of it, then even one’s soul would suffer calamity and be dragged into oblivion.

However, Chen Xi quickly noticed that as soon as this invisible Tribulation Energy approached him, they were like waves that had collided against a cliff, and they were dispersed and retreated.

“It really is as I’d expected. The Tribulation Energy here is unable to harm you...” Senior White heaved a sigh of relief, and he seemed to have been enduring extremely great pressure just now.

“You weren’t sure just now?” Chen Xi’s brows raised.

“Err.” Senior White’s face froze, and he seemed to be speechless. After that, he refused to admit his mistakes and said, “Your ancestor, I, has never encountered a freak like you in the past, so it was normal for me to be unsure. Not to mention that haven’t you see it already? The Tribulation Energy is really unable to harm you at all.”

Chen Xi glared angrily at this old bird. "If a mishap really occurred, then you can dream off surviving!"

"Chen Xi, which way are we going?" Little Bao asked with wonder in his tone. Since they entered this Dao Domain, he'd completely lost his sense of direction. It was like he'd entered into a maze. Burning stars and pale green divine flames covered the surroundings, and it was a horrifying sight.

Chen Xi was stunned, and then he glanced towards the surroundings. He couldn't help but be shocked because he was actually unable to determine the direction!~

"Could we have... fallen into some sort of restriction?" Chen Xi frowned as he started to deduce swiftly.

"It's not a restriction. It's the Mirage Dragon's World!" Senior White's expression was extremely unsightly while he said with exasperation. "Why would this damnable thing appear here!?"

Chen Xi was immediately shocked in his heart, and he said with surprise, "Is it very formidable?"

Senior White seemed to have lost his patience and said swiftly, "Forget that for now. Both of you mustn't make a sound from now on, and don't reveal any fear as you move forward, otherwise, we're dead this time. As for everything else, leave it to me..."

Senior White's voice hadn't finished resounding when an unexpected event suddenly occurred!

### Talisman Emperor

#### **Chapter 1789: The Dragon Tongue**

Roar!

A dragon roar that was heavy like a thunderclap resounded. It surged through the surroundings, causing the heavens and the earth to dim down while space roiled violently.

Along with this dragon roar, an extremely terrifying pressure swept over like tidewater, and it stretched throughout the starry sky.

In an instant, Chen Xi felt as if he'd fallen into an icy pit, and his entire body stiffened. This pressure was too formidable, and it caused his hairs to stand on end while he shuddered with fear.

It wasn't just him, even Little Bao suddenly opened his eyes wide and grimaced. He was just about to exclaim with shock when he received a voice transmission from Chen Xi. "Stay calm and leave everything to Senior White!"

As soon as Chen Xi finished speaking, an extremely enormous dragon head suddenly stretched out from the depths of the starry sky. Its eyes were like a pair of blazing suns, its horn was like a mountain, and its brilliant whiskers were like silver rivers that were descending from the sky.

Merely this head alone had actually filled the starry sky in the distance.

Its aura was dignified, vast, and filled with a primitive aura that seemed as if it came from the ancient times. It seemed like an overlord that controlled all things, and it even caused this expanse of the starry sky to fall into deathly silence.

In an instant, Chen Xi felt cold from top to bottom, and he was astounded in his heart. If Senior White hadn't warned them beforehand, he would have almost been unable to restrain himself from fleeing.

It was even to the extent that he felt the aura emanated by this dragon head was even more horrifying than any Imperial Monarch he'd met in the past!

Roar!

Its dragon roar rumbled towards the surroundings like a current, and it was deafening. Moreover, this expanse of the starry sky seemed to be on the verge of exploding into pieces because of it.

"How lucky! How lucky! It's only a Mirage Dragon's brand..." While Chen Xi was in a surprised and anxious state, Senior White's relived voice transmission suddenly sounded out by his ears. Before Chen Xi could react, he saw Senior White reveal a solemn expression, and then Senior White strode through space while his entire body actually revealed a rare imposing aura that was sacred and mighty.

He raised his head to gaze at the dragon head in the starry sky, and he remained silent for a long time before he emanated a wave of extremely obscure and desolate syllables.

Every single syllable was extremely complicated. Its tone changed repeatedly with pauses and transitions that were sometimes simple and sometimes forceful. As soon as Senior White started emanating these sounds, he actually revealed a terrifying pressure that shook the soul.

It was the Dragon Tongue!

Moreover, it carried the unique pressure and aura of supremacy that belonged to the Dragon Race.

Even though Chen Xi had never heard it in the past, he was sure that it was definitely the Dragon Tongue. As for what Senior White was saying, he was utterly unable to discern that.

The ancient and desolate Dragon Tongue resounded through the starry sky, and it seemed extremely sacred.

The dragon head in the starry sky had originally revealed a ferocious glare, and it was roaring without end and seemed to intend to annihilate Chen Xi's group. However, when it heard Senior White speak with the Dragon Tongue, its roars stopped abruptly, and its eyes narrowed and locked onto Senior White.

At this instant, Chen Xi acutely noticed that Senior White's wings that were folded behind his back had trembled imperceptibly.

However, on the surface, Senior White seemed to be extremely calm and composed at this moment, and he emanated another wave of the obscure and desolate Dragon Tongue.

This sound was extremely long. It seemed to be recollecting an ancient period of time, and it was like it was describing a solemn and divine achievement.

Chen Xi could clearly notice that the ferocious glow in the dragon's eyes were flickering without end, and it seemed to be pondering and seemed to be unable to ascertain something.

When Senior White stopped speaking, the enormous dragon head actually spoke with the Dragon Tongue as well. It was forceful yet simple, and it was thunderous like lightning and shook the heavens and the earth.

Senior White seemed to heave a sigh of relief when he heard this, and he actually smiled and continued conversing with it via the Dragon Tongue.

This scene seemed to be extremely strange. One was a mysterious enormous dragon that resided in the starry sky and merely revealed its head, and the other was a bird with snow white feathers and sharp claws that seemed as if they were made from gold.

One was like the lord of the heavens and the earth while the other was like an ant. However, at this moment, they were conversing via the Dragon Tongue, and they seemed as if they were of the same race.

This caused Chen Xi to be unable to help but exclaim with admiration in his heart. Never had he imagined that this old bird actually possessed such ability, and he was unable to guess the content of the conversation between Senior White and the mysterious dragon.

However, Chen Xi was able to clearly sense that as their conversation continued, the Dragon Pressure that filled this expanse of the heavens and the earth was gradually weakening, and it wasn't so horrifying as it was before this.

Even this expanse of the starry sky had become quiet.

This allowed Chen Xi to heave a sigh of relief in his heart. At the very least, it proved that Senior White's communication with the dragon had gained a great deal of progress.

After the time for an entire incense stick to burn, Senior White suddenly waved his wings towards the dragon, and it was like Senior White was bidding his farewells. After that, Senior White turned around in a carefree manner and arrived by Chen Xi's side.

When he turned his back to the dragon, Senior White's originally calm, composed, and jovial expression had suddenly crumbled, and he revealed a wisp of lingering fear. He swiftly sent a voice transmission and ceaselessly repeated the same time. "That scared me to death. That scared me to death...."

Chen Xi was stunned. He raised his head to look over, and he saw the dragon in the distance actually nod lightly to him, and then it swiftly transformed into an expanse of brilliant light that vanished in the starry sky and was impossible to find.

When he saw this, Chen Xi understood that Senior White had merely relied on his talking skills to deal with the danger that they faced!

However, at this moment, Senior White seemed to be in a slightly sorry state. His entire body was trembling, and he seemed as if he'd returned from death's door.

"What exactly did you say that it actually terrified you to such an extent?" Little Bao couldn't help but ask this question.

"Does your ancestor, I, look like I'm terrified?" Senior White's expression turned solemn, and he criticized. "Monkey, your ancestor, I, am like this because of happiness. To think that you possess a pair of golden eyes that are capable of seeing through the secrets of the heavens and the earth, yet you're actually unable to discern that your ancestor, I, am happy?"

Little Bao grinned. "I really didn't notice. You clearly seem like you've been scared out of your wits, yet you refuse to admit it. You really try to keep up appearance no matter the cost."

Senior White's face sank immediately, and he was just about to berate Little Bao when he was directly stopped by Chen Xi. "Alright, what exactly happened just now?"

When this topic was mentioned, Senior White was instantly delighted. "Heh, even you witnessed the scene from before. That was a Will Brand left behind by a Mirage Dragon who was born from within the Chaos. Unfortunately, he was too inexperienced and was easily deceived by your ancestor, I, and he took me to be his senior. Hahaha."

The more Senior White spoke about it, the more excited he became, and his face was covered in pride and complacency.

"Be careful." Chen Xi glanced at the surroundings and reminded. "It would be bad if he notices this and returns."

"It's fine, it's fine." Senior White spoke while seeming to be in high spirits. "I've already coaxed it to obtain a great deal of secrets from it. So, this Mirage Dragon's World is unable to harm us any longer."

Chen Xi couldn't help but smile when he heard this, and he praised. "Senior White, you did well!"

"Hmph! Stop trying to flatter your ancestor." Senior White grunted coldly, yet his face was covered in a complacent and proud expression.

However, in the next moment, he beamed and chuckled. "Oh, I never expected that you would learn how to flatters others, little fellow. Forget it, forget it, your ancestor, I, will lead all of you out of this Mirage Dragon's World."

As he spoke, he flapped his wings and flashed towards the distance.

"Follow me. According to that Mirage Dragon, this Dao Domain is called Jaderain, and it's the tomb of the Ancestral Dragon Daolord from extremely far in the past.

"This Mirage Dragon's World isn't the only dangerous place here, and this means that it wont be so easy for us to find that Ancestral Dragon Daolord's tomb.

"After all, 99% of the cultivators that came to explore this place perished here, and there still hasn't been a single person that was able to obtain the fortune left behind by the Ancestral Dragon Daolord. This obviously shows how dangerous this place is.

"Of course, so long as both of you follow your ancestor, I, then there'll naturally be no mishaps. Otherwise, where would your ancestor, I, put my face?"

All along the way, Senior White chirped on continuously as he led the way, and his mouth hadn't stopped for even a moment.

The Jaderain Dao Domain was extremely dangerous. It was filled with Tribulation Energy, and all sorts of terrifying dangers were hidden within it. Since the ancient times, countless peerlessly formidable figures had perished here, and this caused it to seem extremely ghastly and terrifying.

Yet now, with Senior White explaining everything without end while leading the way, it caused the originally deathly silent and horrifying atmosphere here to become completely nonexistent.

Besides feeling that this was absurd, Chen Xi couldn't help but feel slightly speechless. With a weirdo like Senior White here, it seems like even the most terrifying places in the world would be transformed to have a very... strange atmosphere.

The stars burned and emanated pale green divine flames. They were like specks of Ghost Flames that studded the graveyard that resided in the starry space, and it caused the surroundings to be enveloped in a deathly still and ghastly auras.

It was right amidst this atmosphere that Senior White's voice resounded without end, and it frequently carried complacent laughter. It caused anyone who witnessed this scene to really feel that it was inconceivable.

"Senior White." After a long time, Chen Xi couldn't help but interrupt. "I just want to look for a place to recover. Who told you that I'm determined to seek for fortune in that Ancestral Dragon Daolord's tomb?"

Senior White was stunned, and he cried out. "Could it be that you're able to restrain yourself? That's a fortune left behind by a Daolord! Everyone else would fight to the death to obtain it, yet you actually remain indifferent towards it?"

Chen Xi said angrily, "Then do you dare guarantee that we'll be able to obtain that fortune when I'm in my current condition?"

Senior White was stunned, and he actually revealed a rare moment of deep contemplation. He said after a long time, "It's slightly troublesome indeed. That Ancestral Dragon Daolord's tomb is extremely mysterious. If we don't make sufficient preparations and head over rashly, then we might really suffer a setback."

"So, the first thing you should do is help me find a place to meditate and cultivate, and it wouldn't be late to decide what to do after I fully recover my strength." Chen Xi took a deep breath, and then he said seriously, "Not to mention that there are numerous formidable enemies rushing over from behind us!"

"Them?" Senior White laughed with ridicule, and he said with disdain, "They don't have a 'destiny' like yours that's able to avoid being affected by Tribulation Energy, nor do they have your ancestor, I, to lead the way. Once they fall into the Mirage Dragon's World, how many of them do you think will be able to survive?"

"But what if they really overcome it?" Chen Xi frowned as he spoke.

"Nevermind, I'll listen to you." Senior White puckered his lips.

After 10 minutes of following behind Senior White, Chen Xi felt the scene before his eyes change, and an expanse of space that had numerous skeletons floating in it had appeared before Chen Xi's eyes!

The smallest amongst those skeletons was over 30km long. It was like a mountain that lay across space, and it was extremely enormous.

On the other hand, the largest skeleton could even lay across numerous stars, and they were like masses of land that floated in the starry sky.

Shockingly, all of them were the skeletons of dragons!

There was a dense mass of them that covered this expanse of the starry sky, and it was an extremely shocking sight.

“This is the Tomb of Dragons, and some of the experts from the Dragon Race that perished alongside the Ancestral Dragon Daolord all those years ago were buried here. Remember that you must not touch those bones, otherwise, I’ll draw down an unimaginable calamity!”

When they arrived here, Senior White’s expression had suddenly turned solemn, and he sent a voice transmission and warned both Chen Xi and Little Bao in a serious tone.

### Talisman Emperor

#### **Chapter 1790: The Tomb Of Dragons**

The Tomb of Dragons!

The dense expanse of dragon skeletons floating in the starry sky where actually left behind by the experts who’d been buried alongside the Ancestral Dragon Daolord all those years ago!

Chen Xi gasped. He was truly unable to imagine why the Dragon Race would commit such a practically insane action all those years ago.

Why did they do this? Was it a belief? Or perhaps it was a form of ceremony? Chen Xi was unable to figure out all of this. However, this allowed him to possess a deeper understanding of how extraordinary the Ancestral Dragon Daolord was.

“Even though this place is dangerous, there’s no need to worry about danger so long as we don’t touch those skeletons. If you want to meditate and cultivate, then this place is the most suitable.” Senior White spoke swiftly via voice transmission.

Chen Xi nodded, and then he swept the surroundings with his gaze. He looked for a safe and concealed place before he sat down cross-legged.

However, right when he intended to meditate and recover from his injuries, Senior White spoke abruptly with a mysterious expression. “Little Fellow, do you want to know what sort of secret technique your ancestor, I, comprehended from that Origin Bone of a Holy Shaman?”

As he finished speaking, his voice carried a wisp of uncontrollable excitement, and he seemed extremely complacent.

Chen Xi glanced at this old bird and said, “no.”

As he spoke, he closed his eyes. He was very clearly aware that the more curious he seemed, the more this old bird would keep him guessing, and he wasn’t willing to let this old bird have his way.

Senior White’s face froze, and he said anxiously, “Wait! Your ancestor, I, hasn’t finished speaking, yet you’ve already refused it. Aren’t you not giving me face at all?”

Chen Xi remained silent and acted as if he hadn't heard Senior White at all, and the scene of this caused Little Bao to chuckle without end from the side.

"Alright! Remember that it's you who refused it. What a pity. If you cultivate such a secret technique that was passed down from the last Era, it would at least be able to eliminate half of the side effects left behind by the Godslaughter Burst Technique. Unfortunately, someone just refuses to appreciate it." Senior White's eyeballs spun about as he sighed deeply.

Chen Xi's heart shook, and he suddenly opened his eyes and said, "What technique?"

Senior White said complacently, "Weren't you unwilling to cultivate it? Don't ask me about it. This secret technique that your ancestor, I, comprehended painstakingly is probably unsuitable for you."

Chen Xi said angrily, "Hurry up and tell me!"

"Hey, learn how to speak to your ancestor!" Senior White was extremely displeased.

"I'll give you one last chance. Will you tell me or not?" Chen Xi's face sank, and he spoke indifferently.

When he saw Chen Xi act like this, Senior White was utterly defeated. He hadn't forgotten the miserable state he encountered in the past when Chen Xi would just grab his throat.

"Alright, I'll tell you. But you must agree to a condition of mine." Senior White spoke in a dispirited manner.

"Speak." Chen Xi lightly spat out a single word.

"If we're able to find the supreme fortune left behind by that Ancestral Dragon Daolord, then you must give it to me!" Senior White spoke extremely swiftly.

Chen Xi was stunned. He stared at Senior White for a long time, and when Senior White felt utterly uncomfortable from being stared at by Chen Xi for so long, Chen Xi finally said indifferently, "Alright."

When he heard Chen Xi agree so readily, Senior White seemed to feel slight disbelief, and he was stunned for a short moment before he suddenly sighed. "Actually, it isn't that your ancestor, I, am being insatiably greedy, and it's because that it's very likely for that supreme fortune to be able to help your ancestor, I, overcome a tribulation."

His voice carried a rare wisp of sorrow.

This sorrow wasn't feigned, otherwise, Chen Xi would have been able to instantly discern it. This caused Chen Xi to be unable to help but feel slightly surprised, and he said, "Senior White, exactly what sort of calamity is it?"

"You wouldn't understand." Senior White shook his head. "You just have to understand that if I want to survive, then I have to do this. Perhaps... this is because the damnable heavens envy your ancestor's ability?"

As he finished speaking, he actually laughed with self-ridicule.

"Chen Xi doesn't understand, but I do. I heard the Goddess say that you were born from within the Chaos and innately possess the ability to see through everything. Moreover, with just a little bit of

cultivation, you're able to possess great knowledge of both ancient and present information and discern all techniques of the world. You're said to be a Master of all!" Little Bao grinned from the side and said, "Actually, it isn't much different from the divine abilities I possess. These eyes of mine can see through everything in the heavens and the earth, and my ears can hear the profundities of the world."

A Master of all!

Chen Xi's heart shook, and he couldn't help but glance at Senior White with surprise. However, he noticed that the latter actually had a dazed expression and seemed to have recalled matters of the past.

No wonder this old bird frequently mentioned that even the Master of the Manku Period, Xuan, addressed him as teacher. Could it be that it's true? Chen Xi was surprised. Since he'd known Senior White until now, it was the first time he'd found out about Senior White's origins.

"However, Goddess also said that the Grand Dao takes from those that have too much and provides for the lacking. A natural talent that's too heaven defying will suffer the envy of the heavens in the end. In my opinion, Senior White will definitely frequently encounter some tribulations as he cultivates, and it'll be his end if he's unable to overcome them." Little Bao spoke casually and had utterly not noticed that it wasn't just Chen Xi's expression that had changed slightly, even Senior White actually seemed to be laden with anxiety.

"Senior White, is that true?" Chen Xi was silent for a long time before he suddenly asked in a serious tone.

"Yes." Senior White nodded with a slightly heavy voice. "If I didn't leave Master Xuan's Divine Temple, the I naturally wouldn't have to worry about the descent of any tribulations. After all, with the protection of Xuan's Dao Domain, it would be impossible for the Heaven Dao to notice my existence.

"Unfortunately, I wasn't willing to hide there forever. Even though I would be able to live longer that way, but wouldn't it be meaningless?"

"Not to mention that there's another disadvantage from hiding in Master Xuan's Divine Temple, and that disadvantage is that even though I don't have to worry about encountering tribulations, my cultivation would remain stagnant. Even you've seen that I'm still merely at the Domain Enlightened Spirit God Realm now."

A wisp of self-ridicule arose on the corners of Senior White's mouth, and he muttered. "The heavens envy me. Otherwise, with all the knowledge I possess, why would I worry about being unable to attain a supreme path in the Dao?"

When he spoke up to here, Senior White's voice carried a wisp of resolution. "If I can choose, I would rather not possess this ability. I would rather use my own strength to seek the Grand Dao like all the cultivators of the world!"

Chen Xi was actually at a loss for words. Because Chen Xi had never imagined that Senior White had so many worries hidden within his heart and an existence that like him that knew practically everything would actually have so many difficulties.

"Heh! What a pity! This is fate!" Senior White spoke with self-ridicule and sighed with emotion. "So long as my cultivation is on the verge of advancing, it would incur the envy of the heavens, and a tribulation

would descend. The higher my cultivation is, the more terrifying the tribulation would be. It would be fine if it was an ordinary tribulation, but...”

When he spoke up to here, Senior White’s voice carried a wisp of hatred and rage. “But the damnable heavens are clearly too unjust! Not to mention a Universe Enlightened Ancestral God, even an Imperial Monarch would find it difficult to resist the tribulations that are sent to deal with me! Yet I’m... merely a Domain Enlightened Spirit God!”

At this moment, Senior White had clearly stopped calling himself ‘ancestor’, and this obviously showed how agitated he was right now.

Chen Xi couldn’t help but sigh with emotion when he finished listening to all of this.

Senior White’s ability was sufficiently heaven defying, and he was called the Master of all. But it was precisely because of this that it caused his cultivation to easily draw down tribulations. This was the might of the Heaven Dao that took from those that had too much and provided for the lacking/

“So, in this way, you intend to rely on the fortune left behind by the Ancestral Dragon Daolord to deal with the tribulation that you have to face when advancing in your cultivation?” Chen Xi asked after waiting for Senior White’s emotions to calm down.

Senior White remained silent, and it could be considered as tacit approval.

“Alright. Once my cultivation recovers completely, I’ll help you seize this fortune!” Chen Xi’s voice was flat, yet it revealed a wisp of firm determination.

Senior White was stunned. He stared at Chen Xi for a long time before he suddenly chuckled and roared with laughter. “Your ancestor, I, knew that you wouldn’t leave your ancestor, I, in the lurch. Oh, you’re agreed to it, so you can’t go back on your word.”

As he finished speaking, he’d recovered his complacent appearance from before.

Chen Xi felt relaxed in his heart when he saw this. Chen Xi would rather see Senior White always like this than see Senior White being angry and helpless like he was just now.

“Don’t worry, I’ve never gone back on my word.” Chen Xi smiled.

Swoosh!

Senior White tossed out a jade slip to Chen Xi and said, “This is a technique that your ancestor, I, comprehended from that Holy Shaman’s Origin Bone, and it’s called the Blood Tempering Spirit Control Technique. It’s from the last Era, and it’s different from the cultivation techniques of the current era.”

Senior White paused for a moment and continued. “This technique can’t be said to be really formidable. However, it has extremely inconceivable effects towards the recovery of injuries, and you’ll naturally understand it once you’ve cultivated it.”

Chen Xi received the jade slip and nodded.

...

Rumble!

Jaderain Dao Domain.

Numerous burning stars circulated while emanating expanse after expanse of pale green divine flames, and they surged ceaselessly through the starry sky.

When looked at from afar, it was like an ocean of pale green flames was roiling while numerous stars rose and fell within it, causing it to be an extremely shocking scene.

At this moment, a group was ceaselessly moving forward in this expanse of the starry sky. Surprisingly, it was the Shaohao Clan's Imperial Monarch Tai Jing and the others.

Unlike Chen Xi, they suffered the assault of strands of Tribulation Energy as soon as they arrived here. Moreover, they were caught off guard by it, and a Universe Enlightened Ancestral God suffered calamity. His body was inflicted by Tribulation Energy, and it caused him to instantly suffer qi deviation and perish on the spot.

If Imperial Monarch Tai Jing hadn't come to their rescue in time, it wouldn't be merely this Universe Enlightened Ancestral God that perished.

Om!

A landscape painting created with splashes of ink revolved in the air above Imperial Monarch Tai Jing, and it emanated divine radiance and strands of blazing symbols that isolated all the Tribulation Energy which surged over from the surroundings.

They'd already been trapped in this place that seemed like a stellar graveyard for a very long time, and it could be said that it was difficult for them to even take a single step forward. Because they encountered all sorts of dangers with every small amount of distance they traversed.

Some came from the Tribulation Energy that surged out ceaselessly, some came from the burning stars in the surroundings, and some came from the ocean of pale green divine flames.

When looked at from afar, they were like a little boat that was floating on a vast ocean, and they were suffering the strikes of tempestuous waves. They were in a dangerous situation and could lose their lives at any moment.

Such a dangerous situation caused the expressions of everyone including Imperial Monarch Tai Jing to be extremely gloomy.

It was even to the extent that many felt extraordinarily regretful in their hearts and felt that they shouldn't have taken the risk to come here with Imperial Monarch Tai Jing. Of course, they merely dared to grumble and feel regretful in their hearts.

"Everyone, encountering some danger is unavoidable in order to obtain that supreme fortune. According to my deduction, it won't be long before we'll be able to escape this predicament and leave this damnable place. So, all of you must be sure to not be careless at such a moment." Imperial Monarch Tai Jing took a deep breath and spoke in a deep voice via voice transmission.

He was very clearly aware of how these people thought in their hearts, but he didn't care. So long as he was able to kill Chen Xi and obtain the fortune left behind by the Ancestral Dragon Daolord, then any price was worth paying!
