[Talisman Emperor](#)

Chapter 2171: Indifference

Chen Xi! Suiren Kuanglan was certain that he wasn't mistaken, and he felt that he would be able to recognize Chen Xi even if Chen Xi had transformed into ashes!

How could that damnable Savior have returned alive?

Suiren Kuanglan was unable to accept it. That day at the campsite on Slaughter Highlands, he'd been terrified by Chen Xi's words to the point of fleeing in public. How could he possibly forget such extraordinary humiliation?

In merely an instant, Suiren Kuanglan's face had turned livid, savage, and ghastly to the extreme. That Savior actually dared to come back here! Does he think that the experts of our Divine Dao Protector Clans would be helpless against him just because those Dao Defiants didn't kill him?

Chen Xi's figure slowly became clear in the sky. He had his hands behind his back, his green clothes fluttered with the wind, and he seemed like he was strolling through his own backyard.

While his footsteps seemed to be neither fast nor slow, every single step he took made space bow before him, and his speed was swift to the extreme.

"Chen Xi! Stop right there!" Suiren Kuanglan wasn't able to restrain himself anymore and shouted loudly when he saw that Chen Xi's figure was about to vanish.

"What?" Chen Xi's figure stopped slightly, and then he glanced indifferently at Suiren Kuanglan as if he were looking down upon an ant.

The indifference in his gaze caused Suiren Kuanglan to seem as if he'd been infuriated by it, and his face became gloomy while his flames of rage were about to overwhelm his reason.

You're just a Savior, yet you still dare to act so arrogantly when you've returned to the campsite which the 13 Dao Servants reside at? You simply deserve death for your sins!

"What? Do I have to remind you? Get the fuck down here, prostrate yourself, and atone for your crimes!" Suiren Kuanglan berated in a grim voice, and he seemed to be completely fearless. As far as he was concerned, the enormous consciousnesses of the 13 Dao Servants covered the entire campsite, so Chen Xi wouldn't dare attack him at all.

Conversely, Chen Xi was equivalent to have walked into a trap right now and wouldn't dare continue acting arrogantly. Otherwise, just a single Dao Servant would be sufficient to instantly crush Chen Xi as easily as crushing an ant!

Unfortunately, Suiren Kuanglan still hadn't realized that the current Chen Xi was completely different from before.

If he knew that Chen Xi had just annihilated the Time, Light, and Lightning Daolords, then he would probably be horrified to the point of fleeing once more. How could he possibly dare to act arrogantly like he was right now?

Chen Xi would naturally not tell him all of that because it was entirely unnecessary. He just glanced indifferently at Suiren Kuanglan who was courting death by making noise incessantly in front of him, and then he shook his head and left.

In the past, he might have attacked and annihilated Suiren Kuanglan.

But he was different now. Chen Xi was standing at a height which Suiren Kuanglan could never come into contact with throughout his entire lifetime, so Chen Xi naturally couldn't be bothered to make a fuss about it.

Would a Roc that flew through the sky pay any attention to the provocation of an ant on the ground below?

It wouldn't!

That was Chen Xi's current state of mind.

"Stop right there! Stop!!" Suiren Kuanglan was overwhelmed with rage when he saw Chen Xi just walk off while completely disregarding him since the beginning, and his face warped. He charged over madly as if he intended to fight Chen Xi to the death.

Suiren Kuanglan's actual thoughts were that of wonder. What the fuck is going on!? That Savior, Chen Xi, has shown himself, so why are the 13 Dao Servants acting indifferent towards all of this?

So, he'd decided to take a risk and take action to stop Chen Xi. He refused to believe that the 13 Dao Servants would just stand by idly and watch with indifference as a battle erupted between him and Chen Xi right now.

It was even to the extent that he felt he could seize this opportunity and bring death to Chen Xi by just speaking a few words to the Dao Servants!

Needless to say, Suiren Kuanglan's thoughts were absolutely correct, and it was a very rational method to use the strength of the Dao Servants. If it were at any other ordinary time, the 13 Dao Servants wouldn't hesitate at all to kill a heretic like Chen Xi in order to protect an unparalleled figure from a high level clan amongst the Divine Dao Protector Clans.

But now....

The situation was completely different!

Unfortunately, Suiren Kuanglan wasn't aware how laughable and absurd his actions were.

When he was just about to get close to Chen Xi, he saw Chen Xi suddenly stop moving, and then he was delighted in his heart. This fellow has clearly been terrified and doesn't dare continue fleeing!

However, Suiren Kuanglan didn't attack directly out of fear for Chen Xi's combat strength.

He was waiting.

Chen Xi didn't take any further action after he stopped there, and it seemed like he'd been terrified to the point of being stunned on the spot. Suiren Kuanglan couldn't help but feel a wisp of excitement from this scene. As expected, this fellow has noticed that danger is approaching and has been scared stiff!

In merely a short moment, a low and aged voice suddenly resounded from the distant sky. "Savior, I never expected that it was actually you who did it."

That voice was filled with a supremely dignified aura, and it was like a decree of the heavens. It caused Suiren Kuanglan's heart to constrict, and he felt an unprecedented pressure press down upon him to the point he was on the verge of kneeling.

But right after that, a wave of wild joy surged into his heart. It's a Lord Dao Servant! A Dao Servant has really acted against him! How can that bastard, Chen Xi, possibly survive now?

Right when all of these thoughts arose in Suiren Kuanglan's mind, a mighty figure had appeared out of thin air in the distance. That figure seemed as if he was condensed from shadows and seemed to be ethereal. Moreover, he emanated a supreme imposing aura of control over all Daos and power of judgment over all living beings.

Thump!

At this moment, Suiren Kuanglan had actually been pressured to the point that his knees became weak, and he knelt down in midair. However, he didn't care at all, and he revealed an excited and sincere expression instead as he cried. "Lord Dao Servant, that kid, Chen Xi, had committed all sorts of wicked deeds and cruelly killed numerous Fellow Daoists. His methods are despicable and bloody, and his crimes deserve death! Lord Dao Servant, please act immediately. Crush such a villain and bring peace back to the world!"

These words were really spoken with a resolute, decisive, fervent, and passionate tone, and it carried extraordinary rage and righteous indignation.

But to Suiren Kuanglan's astonishment, while the heavens and the earth were deathly silent and only his voice was surging through the surroundings, he didn't obtain any reply.

Chen Xi who stood there on the spot in the distance paid no attention to him.

The 1st Dao Servant, the Heavenly Wrath Daolord, who stood even further in the distance seemed to have not noticed his existence as well.

Suiren Kuanglan couldn't help but feel bewildered, and then he consoled himself. The Dao Servants are extraordinary figures, so he has definitely heard me and won't stand by idly.

"Yes, they were killed by me." Chen Xi who'd remained silent until now suddenly raised his head and looked up into the sky. His gaze swept over to the 1st Dao Servant while his expression remained indifferent as before.

"It really was this kid?"

"Wait! How could a Savior like him possibly accomplish that?"

"It's already a fact. Perhaps that kid obtained some sort of extraordinary and supreme fortuitous encounter, or perhaps... he possesses the Sword of Samsara."

"It really is possible if he possesses the Sword of Samsara, but it's far from sufficient."

“There’s no need to care about all of that. The truth will definitely be revealed once we crush that kid!”

To Suiren Kuanglan’s shock and astonishment, numerous extremely mighty figures had appeared successively in the distant horizon once Chen Xi had just finished speaking. Surprisingly, all of them were Dao Servants, and coupled with the 1st Dao Servant who was the first to show himself, there were an entire 10 Dao Servants present here!

What’s going on? Why have they mobilized such forces just to deal with a single Savior like Chen Xi? Aren’t they thinking too highly of Chen Xi by using 10 Dao Servants against him!?

Suiren Kuanglan suddenly felt that his mind seemed to be unable to process all of this. The situation before him allowed him to acutely notice that something was off, but he was unable to determine what exactly it was.

However, the situation before his eyes allowed him to be filled with confidence. No matter what, since 10 Lord Dao Servants have made an appearance, it’s sufficient to prevent Chen Xi from escaping. Perhaps even those seniors of Oracle Mountain would be helpless even if they came here personally to save him!

“Lord Dao Servants, this kid really is a heretic. He relied on a cultivation at the Ninth Star Region Lord Realm to cause the deaths of numerous Fellow Daoists from our Divine Dao Protector Clans. Perhaps the secrets he possesses can be discovered once he’s killed!” Suiren Kuanglan restrained the excitement in his heart and kowtowed as he spoke once more, and his voice was even more fervent, passionate, and louder.

From the beginning until the end, he remained kneeling and seemed to be extremely sincere.

At this moment, he even couldn’t help but imagine the tragic scene that would play out when Chen Xi was crushed, and a wisp of a complacent and savage smile couldn’t help but arise on the corners of his mouth.

He even muttered in his heart. Chen Xi, even if I’m not a match for you, but... since you’ve offended me, then you’re bound to face death!

“How noisy!” Suddenly, a dignified voice resounded like a thunderclap by Suiren Kuanglan’s ears, and it shook him to the point his entire body shivered incessantly.

After that, he raised his head with a dazed expression. Noisy? Who is the Lord Dao Servant calling noisy?

After that, a wave of piercing pain surged through his entire body as an extremely terrifying consciousness locked onto him. This caused him to be astounded. What’s going on? Chen Xi is clear far away in the distance, so why has a Dao Servant’s consciousness locked onto me? Could it be that....

Bang!

Suiren Kuanglan didn’t even have the time to recover from his shock when he felt like a bolt of lightning had struck his soul, and it suddenly exploded into pieces. A strand of indescribably violent pain surged throughout his body, and it made Suiren Kuanglan unable to help but let out an extremely miserable and shrill cry while his entire body twitched uncontrollably.

He finally understood that those Dao Servants were saying that he was noisy....

This caused Suiren Kuanglan to be unable to help but look towards the side. Right at this moment, Chen Xi had turned his head to glance at Suiren Kuanglan as well, and Chen Xi's indifferent gaze carried a trace of pity.

Pity?

Suiren Kuanglan was dazed, and then his vision went blank as he lost consciousness.

Even at the moment before his death, he hadn't been able to figure out why all of this had happened....

Perhaps even Suiren Kuanglan hadn't imagined that while he hadn't died at the hands of his enemy, Chen Xi, it was the Dao Servants who he entrusted his hopes to that had killed him in the end. Wasn't this a huge irony?

...

Suiren Kuanglan was dead, and his corpse fell to the ground like a broken sandbag while a wisp of bewilderment still remained in his pupils.

Unfortunately, no one here spared another glance at him

In Chen Xi's opinion, Suiren Kuanglan's death didn't matter to him at all, and it wasn't able to cause even the slightest ripple in his heart.

As for the Dao Servants, Suiren Kuanglan was like a noisy and annoying clown, and killing him didn't matter to them at all.

This was the treatment that Suiren Kuanglan received upon his death. No pity, no sorrow, and not even the slightest ripple.

Before he participated in the Battle of Dao Protectors, he was one of the most renowned peak Ninth Star Region Lords amongst all the Divine Dao Protector Clans, and he was a direct line descendant of the high level Suiren Clan. He was peerlessly dazzling, and he was an unparalleled figure who had the best chance to advance into the Daolord Realm!

Yet now, he'd transformed into a corpse in the end, and it was one that no one showed any interest or paid any attention to.

[Talisman Emperor](#)

Chapter 2172: A Heaven Defying Battle

The heavens and the earth were deathly silent.

This was Godrank Mountain, and it was the territory of the 13 Dao Servants. They'd resided here since the moment that Godrank Mountain had appeared within the world.

However, 3 of those 13 Dao Servants had perished from the world now, and only 10 remained on Godrank Mountain.

This was definitely an unprecedented upheaval to the entire Godrank Mountain and the 10 remaining Dao Servants!

The cause of it all... was that Savior who was standing in the distance!

At this moment, the gazes and consciousnesses of all 10 Dao Servants had locked onto Chen Xi, and they revealed all sorts of expressions on their faces while they kept silent.

The atmosphere was heavy to the point of being practically suffocating, and the world was deathly silent.

All of them had previously thought that Light, Time, and Lightning would definitely be able to accomplish their mission with ease and bring the Spirit of Samsara back.

But never had they imagined that the 3 of them would never return.

Earlier, all of them were furious and thought that the Time Daolord's group of three had definitely perished at the hands of the Dao Defiants' first ancestor.

Never had they imagined that the culprit would actually be that Savior.

They'd never taken the Savior seriously since the very beginning, and they'd merely treated him as bait to draw out the Dao Defiants' first ancestor who was in deep sleep.

Never had they expected that this bait would transform into the culprit of all misfortune!

All sort of unexpected outcomes had caused the 10 Dao Servants to be unable to maintain their calm and composure. They were either overwhelmed with rage, surging explosively with killing intent, or feeling boundless sorrow.

It was just a Savior. He was merely at the Ninth Star Region Lord Realm when he participated in the Battle of Dao Protectors, and he was even weak like an ant in the eyes of the Dao Servants. So, they'd never taken him seriously.

However, the matters of the world were always changing. No one had expected that such an ant which they treated with indifference would cause so many bloody storms upon participating in the Battle of Dao protectors!

He hadn't just suppressed all peak Divine Children by himself, even figures like Shi Chuge, Beiming Canghai, Sui ren Kuanglan, and the others dimmed in comparison to him.

It would be fine if that was the extent of it. After all, no matter how formidable he was, he was merely a Ninth Star Region Lord in the end.

But what occurred later in the Springs caused all the Dao Servants to be visibly moved, and they finally started taking this Savior seriously for the very first time.

They watched as the Savior utilized a cultivation at the Ninth Star Region Lord Realm to successively crush Yan Zhen and Qi Ya who were veteran Daolords amongst the Dao Defiants.

They saw him fight his way out of the joint attacks of 10 Daolords, and all those Daolords were annihilated by him.

At that time, this Savior was still at the Ninth Star Region Lord Realm!

How could they not be shocked and visibly moved by such an extremely heaven defying combat strength?

It was also from that moment onward that these Dao Servants had started to remember Chen Xi, and they'd taken him to be a heretic that they would crush and eliminate once he returned. Otherwise, he would definitely become a huge problem for them in the future.

But never had they imagined that Chen Xi would have advanced into the Daolord Realm when he returned, and he'd even killed the 2nd, 3rd, and 4th Dao Servants!

This filled them with disbelief, and they were even unable to accept it. However, they had no choice but to take all of this seriously when facing the cruel reality of the matter.

Chen Xi was very strong. He was strong to an inconceivable level. Because there was almost no one in the world who could kill Dao Servants like them.

Yet now, there was another existence like that, Chen Xi!

A heaven defying monster who was still at the Ninth Star Region Lord Realm when he entered Godrank Mountain yet now possessed the strength to kill Dao Servants like them!

So, they didn't dare continue underestimating Chen Xi in the slightest.

Just like this very moment, all of them had set out when facing Chen Xi who was all by himself, and all of them were even accumulating strength while waiting for the battle to erupt. They'd taken him to be a true enemy of theirs, and they refused to disregard him like they had in the past.

But....

They were still bewildered in their hearts. How did this Savior accomplish all of this?

They didn't know that that was exactly what the Light, Time, and Lightning Daolords couldn't figure out as well.

However, all of that wasn't important at this moment.

Because they would be able to obtain the answer once they killed Chen Xi!

...

"Everyone is here, so let's begin." At the same time, Chen Xi glanced indifferently at them. He did so in an upright and composed manner, and there was a strand of indescribably arrogance amidst the calm of his voice.

This was an attitude that was completely equal and even surpassed the Dao Servants. It seemed like regardless of who his opponents were or how formidable they were, he would still act without any fear!

The Dao Servants were naturally able to sense this arrogant attitude, and the eyes of a few immediately narrowed slightly while the killing intent within their eyes grew denser.

Bang!

Suddenly, five wheels appeared in the sky. They appeared in the position of the five elements, and every single wheel emanated the supreme glow of the Order of the Heaven Dao. Their radiance intersected together to form a magnificent world.

This was the 6th Dao Servant, the Five Element Daolord's, Highgod Domain — Heavenly Wheels of the Five Elements!

The five elements were the foundation that established a world. As for the saying of exceeding the five elements and transcending from the world, it actually meant that one's cultivation had attained an otherworldly state to the point of escaping the restraints of a world.

The Heavenly Wheels of the Five Elements was different, it was formed from the Grand Dao of Destiny and the Order of the Heaven Dao that the 6th Dao Servant possessed, and its might was unprecedented.

Clang!

At practically the exact same moment, a dark blue sword appeared in Chen Xi's palm, and then it flashed.

After that, the Heavenly Wheels of the Five Elements which were about to converge into form had actually been slashed open and exploded into pieces.

Chen Xi had destroyed the Highgod Domain of the Five Element Daolord with a single casual swing of his sword!

The Five Element Daolord's face instantly fell, and his expression was unprecedentedly solemn.

"Attack him together!" The 1st Dao Servant spoke softly.

Even though it was just a single attack, it allowed them to fully understand that Chen Xi really did possess the strength to threaten them!

Moreover, this indirectly proved that the Time, Light, and Lightning Daolords really had been killed by this Savior!

There was utterly no need for the 1st Dao Servant to remind them. All the other Dao Servants were existences that had experienced countless battles and possessed boundlessly abundant experience, so they'd practically instantly determined the severity of the situation.

So, all of them who were originally standing quietly and ready for battle had attacked when the 1st Dao Servant's voice had just started resounding through the air. They were like numerous volcanoes that had been sleeping for a long time and erupted at this moment!

Om!

A black colored purgatory condensed into form. The purgatory was filled with mountains of corpses, oceans of blood, and endless energy of the Order of the Heaven Dao transformed into blood red divine chains that fluttered about wildly like dragons as they whipped through the world.

It was the Highgod Domain of the 5th Dao Servant, the Dark Purgatory Daolord — the Path of Darkness!

Swish!

The figures of a myriad of gods whistled out from space. All of them revealed peerless divine radiance and monstrous imposing auras. They were like heavenly soldiers that formed a vast army, and they trampled through the world.

It was the Highgod Domain of the 13th Dao Servant, the Battle Spirit Daolord — Battle Spirits of the Heavens!

In just an instant, the two Highgod Domains, the Path of Darkness and the Battle Spirits of the Heavens, had fused perfectly together, and it was like a completely new Highgod Domain.

A myriad of divine troops were dashing through the mountains of corpses and oceans of blood in the black colored world of purgatory, and they shouted incessantly while their killing intent surged towards the surroundings. They were terrifying to the extreme.

That wasn't the end of it. At this instant, numerous dazzling balls of golden divine flames started to start burning from every single inch of space within the Highgod Domain, and then the energy of space here became even more refined and grand. It simply seemed like it intended to trap everything in the world within it and incinerate them completely!

This was the Highgod Domain of the 11th Dao Servant, the Void Daolord, and it was called the Light of the Void!

However, it was very obvious that the Light of the Void had fused perfectly with the other two Highgod Domains from before.

In other words, the 5th, 11th and 13th Dao Servants had fused their Highgod Domains as soon as they attacked, and they were trying to utilize their strongest attack to crush Chen Xi completely!

Actually, the 3 of them were the Dao Servants who were the most strongly against the cooperation with the Sovereign Sect, but they'd completely abandoned all grudges and targeted Chen Xi because of the deaths of the Light, Time, and Lightning Daolords.

In an instant, Chen Xi had been drowned within the world that was formed by the merged Highgod Domains of the 3 Dao Servants.

Blood red chains of order whipped about wildly through the world while a myriad of troops charged violently, and numerous golden balls of flames were burning in space. They forcefully trapped Chen Xi on the spot.

After that, all of these destructive forces were like a storm that completely swallowed Chen Xi up.

They could clearly see that Chen Xi's body seemed as if it was being ceaselessly cut apart. Inch after inch of his bones and tendons exploded apart while his flesh and blood vanished, In just an instant, he seemed as if he was about to be completely obliterated.

Many Dao Servants revealed cold smiles when they witnessed this scene.

They were clearly aware that the 5th, 11th, and 13th Dao Servants had utilized their strongest attacks at once, and when they jointly attacked at full strength, then even Dao Servants like them wouldn't be able to resist such an attack.

This was the benefit of possessing abundant experience in combat. It made them refrain from holding back in the slightest once a battle began, and they immediately launched a swift and lethal attack!

But none of them relaxed as well. Unless they confirmed that Chen Xi was dead, otherwise, they would absolutely not allow themselves to reveal any weak points.

Just like this very moment. Even though the other Dao Servants weren't able to lend a hand in this situation, they were in combat ready states, and they were ready to provide the strongest assistance they could provide at the slightest sign that the situation changed for the worse!

The reason they were so cautious and vigilant was because of the combat strength Chen Xi revealed had allowed them to sense a trace of danger.

After all, the Light, Time, and Lightning Daolords had died at Chen Xi's hands. Even though they were unable to figure out exactly how Chen Xi had accomplished it, it was a fact. So, it made them grow even more vigilant.

Rumble!

In the world that seemed like a black colored purgatory, Chen Xi seemed as if he'd been nailed to a point in space, and he was whipped by the violent blood red divine chains of Order, and he was struck by the myriad of troops. The bones and tendons throughout his body were collapsing, and he'd almost vanished from where he stood.

Such a scene was astonishing indeed, and it was simply unprecedented. After all, how could the joint forces of 3 Dao Servants be ordinary?

If it were any other Daolord who was in such a situation, that Daolord would probably have no chance at survival.

However, to the horror of all the Dao Servants present here, even though Chen Xi's body had clearly been completely obliterated, his aura had actually not been completely erased even after quite some time had passed!

[Talisman Emperor](#)

Chapter 2173: Divine Punishmen

His body has been destroyed but his aura remains?

These Dao Servants had experienced countless incidents and events throughout their time on Godrank Mountain, so they were naturally clearly aware that a cultivator hadn't been completely annihilated until that Daolord's aura had been dispersed.

At the very least, they had almost 100 methods to revive an expert whose body had been destroyed yet a trace of that expert's aura still remained.

However, it was only his aura in the end. The destruction of Chen Xi's body was equivalent to an injury to his quintessence. It was no different than being heavily injured and on the verge of death, so he wasn't terrifying to them any longer.

At this moment, they just had to eliminate his aura, and then it would be equivalent to completely destroying him without any chance of revival.

The 5th, 11th, and 13th Dao Servants were naturally clearly aware of that, so there was no need to remind them at all. The three of them took deep breaths as they circulated their strengths to its limits and utilized all of it to crush that remaining strand of Chen Xi's aura.

In the blink of an eye, the killing intent within the world which seemed like a black colored purgatory grew even more terrifying. Boundless supreme energy overlapped together and emanated a terrifying force capable of overturning the world and turning back the void.

It was too terrifying!

If the cultivators of the outside world were to witness this scene, they would definitely be terrified to the point of shivering with fear!

This was the ability of those 3 Dao Servants!

Compared to the Light, Time, and Lightning Daolords who'd perished at Chen Xi's hands, their combat strengths weren't much stronger, but they hadn't revealed a single flaw since they entered into combat and hadn't underestimated Chen Xi at all.

Conversely, they'd utilized all the strength as soon as they attacked Chen Xi, and that was why they were able to attain such shocking results....

However....

The development of the entire situation was quite unexpected. Even if they'd crushed him with all their strengths, that strand of Chen Xi's aura still hadn't been destroyed!

How could this be possible?

The eyes of all the Dao Servants in the vicinity narrowed, and they had a deeper understanding of how tenacious and terrifying Chen Xi was. They were very clearly aware that if they hadn't succeeded at subduing Chen Xi in one go just now, then the situation would have absolutely not developed so smoothly.

"Continue." The 1st Dao Servant spoke indifferently.

He'd spoke just that word alone, and it carried an indisputable aura.

The 5th, 11th, and 13th Dao Servants took deep breaths before they gritted their teeth, and they merged practically all their strengths into that world which was formed from their Highgod Domains.

If this attack still couldn't obliterate that strand of Chen Xi's aura, then they would truly be embarrassed!

However, at the instant that they used every ounce of strength available to them, an indifferent voice suddenly resounded from that area which had completely enveloped Chen Xi's figure. "My body is like Chaos itself, so can anyone even destroy me?"

These words were calm yet carried an arrogant aura of supremacy.

Just these words caused the blood red divine chains which whipped about violently through the sky to seem like snakes that were held by their weak points, and they trembled violently before exploding into pieces.

The myriad of divine troops who emanated boundless radiance seemed like they'd been swept away by a storm, and they were obliterated into nothingness.

The balls of golden divine flames in space seemed to suddenly wail and collapse, and they were extinguished and dispersed.

Right after those words resounded, Chen Xi's figure appeared once more. His green clothes fluttered and were completely untainted by even a speck of dust, and his dark and deep eyes seemed to reflect the entire world within them and were suffused with a trace of indifferent ripples.

It was terrifying!

The pupils of all the Dao Servants dilated while their hearts trembled from this sudden scene that appeared before their eyes, and it made them feel slight disbelief.

Only a strand of his aura remained, so why was he able to be revived instantaneously and charge through the restraints and shackles that were upon him?

Rumble!

The dark world of purgatory that was formed from the Highgod Domains of the 3 Dao Servants surged violently without end and wailed repeatedly. It actually seemed to be on the verge of collapse.

"Attack!" A divine light flashed through the 1st Dao Servant's eyes, and then 3 more Dao Servants attacked immediately.

Rumble!

A blood red abyss appeared in the dark and surging world, and it resided upside down in the air above Chen Xi. The abyss seemed like an abyss of blood, and it seemed to be on the verge of swallowing the ages while it emanated a terrifying swallowing force.

The 8th Dao Servant, the Blood Abyss Daolord, had utilized his Highgod Domain, the Abyss of Blood Sacrifice!

Swish!

At the same time, the 6th Dao Servant, the Five Element Daolord, reformed his Heavenly Wheels of the Five Elements, and it illuminated the world as it spun incessantly.

The 7th Dao Servant, the Bramble Daolord, attacked as well. A path appeared beneath Chen Xi's feet. The path was uneven, rough, and covered densely by brambles as it led far off into the unknown.

This was the 'Bramble Path', a Highgod Domain that seemed ordinary yet actually possessed extremely terrifying offensive ability. Once one stepped foot onto the path, then it would be like falling into a maze. One's Dao Heart would be blinded while it felt like one had been abandoned by the Grand Dao. It was simple like one had been exiled.

When the Abyss of Blood Sacrifice appeared, the originally surging world instantly started to show signs of stabilizing.

When the Heavenly Wheels of the Five Elements appeared, Chen Xi was suppressed once more, and he was drowned beneath the radiance of the five elements.

When the Bramble Path appeared, every single step Chen Xi took was like walking on brambles, and he fell into a state of being abandoned.

After that, the boundless blood red divine chains started whipping about madly, the myriad of divine troops swarmed out once more, and the golden divine flames started burning every inch of space again....

In other words, this world which Chen Xi was trapped in had transformed from containing 3 Highgod Domains to containing 6 Highgod Domains!

Six Dao Servants had attacked in unison, and it was obvious how terrifying the destructive force of this was!

At the very least, as far as the 1st Dao Servant was concerned, even if Wu Xuechan, Di Shun, and Wen Daozhen were to come here to save Chen Xi, it would be impossible for the 3 of them to break Chen Xi free in a short period of time!

As for other ordinary Daolords, they weren't worth mentioning at all. Because if they were to head into the battlefield, then not to mention rescuing Chen Xi, they wouldn't even be able to protect themselves!

...

But this time, even though Chen Xi's figure was drowned by boundless attacks, his figure was like a steady mountain that wasn't just completely unharmed, his imposing aura grew even stronger instead.

What!?!? All the Dao Servants were astounded. How could this be happening? 3 more of us have attacked yet it's actually inferior to when only 3 of us were attacking him? How could this be possible? Could it be that he hadn't utilized his true combat strength just now?

The calm and composed hearts of the Dao Servants couldn't help but shake at this moment, and they became anxious, surprised, and seemed as if they were facing a formidable enemy.

They finally understood why the Time, Light, and Lightning Daolords who were ranked at the 2nd, 3rd, and 4th position had perished.

Merely this scene alone was sufficient to discern how terrifying Chen Xi was. He couldn't be judged by convention at all!

Bang!

Chen Xi didn't wait for them to recover from their shock. He stopped acting passively like he had before this, and he launched an attack.

He took a step forward, and then the Bramble Path beneath his feet exploded into pieces. It was weak like a piece of paper.

The Bramble Daolord's countenance turned pale.

Clang!

The dark blue and ancient Sword of Samsara resided in Chen Xi's hand as it stabbed it upward into the sky, and then the Abyss of Blood Sacrifice which resided in the sky above him collapsed as it was stabbed into pieces.

The Blood Abyss Daolord groaned with pain.

Swish!

He swept the Sword of Samsara horizontally. In an instant, the Heavenly Wheels of the Five Elements, the Battle Spirits of the Heavens, the Light of the Void, the path of darkness....

Everything was blasted into pieces!

At the same time, the figures of the 6th, 11th, 13th, and 5th shook while a trace of blood seeped out from the corner of their mouths.

All of this took time to describe, but it had actually been a mere instant since Chen Xi attacked and eliminated all the attacks around him!

In an instant, this world that was jointly formed by the Highgod Domains of 6 Dao Servants had collapsed and transformed into a violent rain of light that stormed down into the surroundings.

Such a scene couldn't just be described as just being world shocking because it was simply beyond common sense and surpassed the boundaries of the world!

All the Dao Servants were astounded while their cold and indifferent expressions had finally changed. They became anxious and indeterminate while tempestuous waves of shock which couldn't be suppressed surged within their hearts.

Is this even something that a Savior who has just advanced into the Daolord Realm can accomplish? Even the Master of Oracle Mountain himself, Fuxi, wouldn't be much stronger, right?

"All of you were born from within the Order of Godsbane Heaven. Even though your combat strengths have arrived at the limits of the Daolord Realm, you are unable to lay eyes upon the Ultimate Path throughout your lifetimes, and all of you don't dare to do so as well. Because Godsbane Heaven would seize and reclaim your strengths if you were to do that. This is your fate." Chen Xi strode forward amidst his indifferent voice, and his handsome face carried a faint trace of ridicule.

The expressions of all the Dao Servants became gloomy. They were naturally clearly aware of the meaning behind Chen Xi's words. But as far as they were concerned, all cultivators who dared to seek the Ultimate Path were heretics! They were existences that the Heaven Dao didn't tolerate!

"Savior, there's no need to say anymore. You're bound to be unable to leave Godrank Mountain alive since we're here. Now, receive your punishment!" Meanwhile, the 1st Dao Servant who'd been silent until now had taken a deep breath before he spoke in a low voice, and his voice carried a wisp of unprecedented resolve.

At the same time, the other Dao Servants in the vicinity actually revealed a practically devoted and resolute expression.

All of them looked up into the sky.

In this instant, an indifferent and cold eye had suddenly appeared in the sky. That eye surged with boundless energy of the Order of the Heaven Dao, and it was filled with supreme and terrifying heavenly might.

As soon as it appeared, the entire Godrank Mountain started to tremble violently, and it was like it was waking up after countless years of slumber.

All the participants from the Divine Dao Protector Clans who still hadn't left were horrified by this, and they were shocked to the point of lying prone on the ground while shivering with terror and unease.

The Springs. All the Dao Defiants were alarmed by this, and their expressions changed. But they didn't know what exactly had happened.

The Primal Chaos Origin. The hearts of all the strongest seniors in the Divine Dao Protector Clans shook, and they looked towards the same while shock and wonder covered their faces.

"Heavenly wrath!" Chen Taichong crushed the teacup in his hand while he seemed as if he'd lost his soul.

"Heavenly wrath...."

Wu Xuechan muttered while a rare trace of a serious expression appeared in the depths of his eyes.

At this moment, the entire Godrank Mountain, and the area around it had fallen into a terrifying state, and they were enveloped by a strand of a supreme and dignified aura.

At this moment, Chen Xi had raised his head and looked up into the sky, and his expression was indifferent when he saw that familiar Eye of Heavenly Tribulation in the sky above him.

[Talisman Emperor](#)

Chapter 2174: True Defiance of the Heavens

The Eye of Heavenly Tribulation!

This mysterious eye which had been born from within the Heaven Dao was truly too familiar to Chen Xi. It was condensed into form from the energy of the Order of the Heaven Dao, and it represented the supreme dignity of the Heaven Dao.

Chen Xi had seen it a very long time ago when he was in the three dimensions.

Moreover, he'd encountered it a few more times on his path of cultivation, and it had sent its boundless heavenly wrath down.

It was very familiar to Chen Xi because the River Diagram fragments would definitely awaken whenever it appeared, and they would emanate a strong fluctuation which carried aversion and detest.

This time, the Eye of Heavenly Tribulation had appeared once more on Godrank Mountain while he was besieged by the 10 Dao Servants, and it emanated boundless and supreme heavenly might!

All living beings in the surroundings were shocked while all Daos fell into silence, and endless waves surged out into the starry sky with Godrank Mountain at its center.

At this instant, a trace of an unusual feeling arose in Chen Xi's heart as well.

The River Diagram fragments had fused perfectly into Chen Xi's body, causing him to be completely different from before. At this moment, Chen Xi didn't feel any shock and horror that he had felt in the past while he faced the Eye of Heavenly Tribulation right now.

His Dao Heart was calm and clear, his expression was indifferent as before, and it was like he was facing a foe that had appeared many times in his life.

The enemy was very strong, but Chen Xi was unafraid.

In merely an instant, Chen Xi withdrew his gaze and looked at the 10 Dao Servants in the distance.

Those Dao Servants had revealed solemn and devoted expressions when the Eye of Heavenly Tribulation appeared, and their imposing auras had actually grown stronger by more than just a little bit.

Vast divine radiance that was filled with indescribably dignified energy of the Order of the Heaven Dao was sweeping out incessantly from them, and it caused them to seem as if they'd merged flawlessly with the Order of the Heaven Dao which covered the sky.

It was like they were the overlords that the heavens mandated. They were there to uphold justice on behalf of the heavens and fight on its behalf!

Especially the Heavenly Wrath Daolord. His entire body flowed with the glow of Order at this moment, and it was boundless, grand, linked with the heavens, and absolutely horrifying!

He was like a supreme judge that managed the might of heavenly wrath, and he looked down upon all living beings with the intention of eliminating all evil and displaying the awe-inspiring might of the Heaven Dao!

It was extremely terrifying!

The strength the Heavenly Wrath Daolord and the others revealed wasn't something that Daolords could possess, and it was a supreme force which belonged to the Order of the Heaven Dao.

At this moment, the expression of any other Daolord in the world would probably turn pale with fright when facing such a scene. They would be filled with fear while beneath the might of the heavens, and they would be terrified by it!

Even though Daolord had grasped the energy of Destiny, stood above all Daos, and rivalled the heavens, they couldn't go against the true Order of the Heaven Dao.

At this moment, the gazes the 10 Dao Servants shot towards Chen Xi didn't carry any surprise, bewilderment, rage, or any other emotions anymore. There was only extreme indifference in their eyes.

They were like 10 overlords of the heavens, and they possessed absolute power.

Obviously, after they drew down the Eye of Heavenly Tribulation and linked themselves to the energy of the Order of the Heaven Dao, the 10 Dao Servants had rebuilt their confidence and were determined to crush Chen Xi.

Indeed, it was the energy of the Order of the Heaven Dao, and even the Eye of Heavenly Tribulation had appeared here. Could anyone go against such supreme forces?

All those years ago, the first ancestor of the Dao Defiants, the Chaotic Divine Lotus, had been killed by the energy of the Order of the Heaven Dao which the Sovereign Sect's Master drew down at that time!

The Chaotic Divine Lotus was an extraordinary figure, yet she was still unable to survive, let alone a mere Savior like Chen Xi?

That was where the confidence of the Dao Servants came from. They resided on Godrank Mountain with the duty of acting in accordance with the Heaven Dao and protecting the Heaven Dao. In their opinion, all forces would collapse immediately before the Heaven Dao!

Chen Xi was able to sense the aura of confidence and indifference which came from the Dao Servants. He didn't say anything, and he just pointed the Sword of Samsara towards them from afar.

Bang!

A strand of an obscure and strange energy of the five elements shout out from Chen Xi. It covered the sky and actually faintly showed signs of covering up the Eye of Heavenly Tribulation in the sky.

The Order of all the Daos within the Eye of Heavenly Tribulation surged, and it emanated an extremely terrifying, supreme, and dignified aura.

However, no matter how it displayed its might, it was actually unable to suppress the obscure and strange aura that came from Chen Xi.

On the other hand, the 10 Dao Servants were clearly affected by this, and it was like the link between their auras and the Eye of Heavenly Tribulation was about to be severed.

This caused their eyes to narrow.

The 1st Dao Servant spoke indifferently. "The darkness of purgatory eliminates all evil and crushes all heretics!"

Every single word he spoke was like a decree of the heavens, and it was filled with an extraordinarily dignified aura.

Bang!

His voice had just resounded when the 5th Dao Servant, the Dark Purgatory Daolord, transformed into a ray of light that shot up into the air, and he actually instantly fused into the Eye of Heavenly Tribulation!

After that, the Eye of Heavenly Tribulation was covered in a layer of darkness. Moreover, the energy of Order within it seemed like it had been tainted by the darkness, and it rumbled as it rained down.

These dark strands of Order covered the heavens and the earth, and they instantly formed a dark purgatory that crushed space as it enveloped down towards Chen Xi!

This was heavenly wrath. It had fused with the complete strength of the 5th Dao Servant and the supreme might of the Order of the Heaven Dao to descend down into the world!

The entire Godrank Mountain started to shake while the weather here changed. Moreover, it seemed like eternal darkness had covered the entire mountain. It was an extremely horrifying sight.

“Light.” Chen Xi pointed his sword up into the sky while he spoke a single word softly.

After that, a ray of light shot into the sky. It smashed space apart, struggled free of the restraints of the world, and tore a dazzling rift open in the darkness.

“Dawn!” Chen Xi spoke two more words, and it occurred as soon as he spoke.

Rumble!

Blazing light whistled out from the boundless depths of space like surging lava, and they crushed and incinerated the myriad of strands of dark energy of the Order of the Heaven Dao into nothingness.

At this moment, Chen Xi’s entire body was glowing with boundless radiance, and it seemed like a scorching sun had arisen in the abyss of darkness and illuminated the world!

Rumble!

A wave of shocking rumbling resounded. It was like the sky had been blasted apart, and boundless radiance swept through the world.

At the same time, a shrill cry of extreme pain resounded!

Surprisingly, it was the voice of the 5th Dao Servant, the Dark Purgatory Daolord!

The expressions of the other 9 Dao Servants changed slightly while their confidence had ceased to exist. None of them had imagined that not only would they still be unable to crush Chen Xi immediately after they fused with the supreme might of the Eye of Heavenly Tribulation, the 5th Dao Servant had actually perished in the collision!

After all, it carried a strand of the aura and energy of the Heaven Dao, so how could the strength of a person possibly go against it?

However, Chen Xi had actually emanated boundless light with just his own strength, and it incinerated the Order of the Heaven Dao and even annihilated the 5th Dao Servant in one go!

This was simply too terrifying to them!

“I’ve told you. All of you are Spirits that were born from the Order of Godsbane Heaven, and you’re only able to utilize a mere strand of the Order of the Heaven Dao.” Chen Xi spoke indifferently while the dark blue sword in his hand was howling. Strands of strange and obscure fluctuations covered his entire body, and it caused his imposing aura to seem even more mysterious.

“The five elements are the foundation that protect the path of the heavens; the void a lock that confines the world!” The 1st Dao Servant took a deep breath, and then he was linked with the world as he sent out a strand of grand will.

In an instant, the 6th Dao Servant, the Five Element Daolord, and the 11th Dao Servant, the Void Daolord, stepped forward with resolute expressions, and their figures swiftly fused with the Eye of Heavenly Tribulation.

Rumble! Rumble!

The Eye of Heavenly Tribulation started circulating madly. The radiance of the five elements surged while the secrets of space flowed within the depths of that indifferent and cold eye, and then the terrifying might of the Heaven Dao fused into it and condensed a dazzling and resplendent five colored divine spear!

It was the Spear of Judgment!

The five elements represented the will of the world.

Space represented a law of survival.

When both were combined, they transformed into the energy of heavenly wrath, and they finally transformed into a terrifying force that possessed the might of 'judgment'.

At this instant, the Dao Hearts of all the members of the Divine Dao Protector Clans in the Primal Chaos Origin and the Divine Children of the Heavens in the Springs shook. It felt like they were facing judgment, and they had a feeling of terror and helplessness as if they couldn't escape calamity.

A wisp of a piercingly cold arc couldn't help but suffuse the corners of Chen Xi's mouth when he faced this attack. "The past and the present. The heavens and the earth. All exist for me. My fate is on the path of the eternal; my heart is without restraint. Who dares to disrespect me?"

As he spoke in a calm and indifferent tone, it seemed like it had seized the divine aura that existed throughout the world. Even though he stood there without moving, that Spear of Judgment which was descending from the heavens had merely arrived 3 inches away from his foreheads before it couldn't advance even a little further!

Moreover, when Chen Xi finished speaking that last word, the Spear of Judgment actually caught flames in an instant, and then it transformed into ash that dispersed into nothingness!

The terrifying aura of judgment which suffused the heavens and the earth had vanished along with this, and it ceased to exist. Only Chen Xi stood indifferently on the spot, and he hadn't moved or suffered any harm from the beginning until the end.

This meant that the 6th Dao Servant, the Five Element Daolord, and the 11th Dao Servant, the Void Daolord, had been wiped out of existence without even being able to let out a shrill cry.

They were born from the Order of the Heaven Dao, so they'd vanished along with the Spear of Judgment that they'd formed.

Dying in such a way was even more miserable than how the Dark Purgatory Daolord has perished just now. It was completely silent and horrifying!

"NO!!!!"

“How could this be possible? How could a Savior like him possess strength capable of resisting and destroying the Order of the Heaven Dao?”

“The Sword of Samsara definitely doesn’t possess such terrifying strength!”

In the blink of an eye, they’d watched helplessly as 3 of their companions had perished in succession. Besides feeling shocked, all the 7 remaining Dao Servants couldn’t help but feel infuriated to the extreme.

Their faces were livid and covered in disbelief while their eyes almost split apart from rage. Who could have imagined that even the Order of the Heaven Dao would be helpless against a Savior?

So, could anyone in the world kill him?

At this moment, even the expression of the 1st Dao Servant had changed. They’d realized that this Savior before them wasn’t just a formidable enemy!

After all, how could anyone have imagined that a force which was capable of going against the Order of the Heaven Dao existed in this world?

At the very least, all of these Dao Servants had never laid eyes on such a force. Throughout the countless years since their birth, they’d never witnessed or experienced such an astonishing scene.

This allowed them to experience what true defiance of the heavens was like for the very first time in their lives!

[Talisman Emperor](#)

Chapter 2175: The Godrank Char

In the sky, the Eye of Heavenly Tribulation was cold and indifferent as always, and it surged and roiled with boundless energy of the Order of the Heaven Dao.

Chen Xi was clearly at an extremely dangerous position by standing beneath it, but Chen Xi had used the slaughter he carried out just now to prove that he wasn’t afraid of such danger at all.

This caused the Dao Servants to be astounded, and their faces had turned livid. They were truly unable to figure out how someone in this world could actually accomplish this.

The experience and knowledge they possessed from the past seemed to have become useless at this moment because they were unable to figure out how Chen Xi had accomplished this.

But it was very obvious that Chen Xi didn’t intend to give them a chance to figure it out.

Clang!

The Sword of Samsara carried a strange and obscure force as it emanated an excited howl that was filled with the desire for blood.

Even if they were extremely shocked, it didn’t represent that the Dao Servants would reveal any weak points for Chen Xi to exploit.

So, they attacked at the instant that Chen Xi had attacked.

“Fellow Daoists, it’s a moment of life and death. For the sake of the dignity of the Heaven Dao, we can only sacrifice ourselves and seek assistance from the Godrank Chart to annihilate this bastard!” The 1st Dao Servant shouted loudly in a deep voice.

As he spoke, his entire body emanated grand and boundless divine radiance, and he seemed to have transformed into a dazzling shadow that stood towering in the world.

At the same time, , the other 6 Dao Servants revealed a wisp of resolve on their faces.

“Beneath the vast sky, I, your servant, offer a sacrifice of blood. I will use my life to summon the Heart of the Heavens, kill to protect the Dao and annihilate the evil!”

“Kill to protect the Dao and annihilate the evil!”

“Kill to protect the Dao and annihilate the evil!”

The Dao Servants actually started burning amidst voices that were filled with resolve, devotion, and solemnness.

They seemed as if they didn’t notice the flames that burned them, and they stood upright amidst the heavenly flames while seeming devoted and solemn to the extreme.

At practically the exact same instant, the Eye of Heavenly Tribulation which had been cold and indifferent since it appeared in the sky had suddenly blinked! It was like a mysterious and primitive force was awakening after countless years of slumber!

Chen Xi suddenly frowned, and his figure shot towards those Dao Servants. But right at this instant, he sensed a strand of danger.

He didn’t hesitate to dodge to the side before quickly looking up towards the sky.

He saw that the Eye of Heavenly Tribulation had actually vanished, and it was replaced by a strand of blazing golden light that tore apart the chaotic mist in the surroundings of Godrank Mountain.

At the same time, an indescribably dignified aura rumbled down from the sky, and it seemed like a supreme overlord was looking down upon the world.

That aura was extremely supreme and grand. It made all living beings have no choice but to kneel down in worship and devotion. It was boundless and immeasurable.

After that, a scroll that was covered in mysterious golden divine radiance of the Heaven Dao slowly appeared in the sky. It was extremely dazzling and resplendent, and it covered the entirety of Godrank Mountain, causing even the world here to be dyed bright gold by its radiance while it emanated a supreme and majestic aura.

The Godrank Chart!

The Springs. The descendants of all the Dao Defiant Clans couldn’t help but lie prostrate on the ground while their entire bodies shivered as indescribable reverence arose in their hearts.

The Godrank Chart!

The Primal Chaos Origin. All the strongest seniors of the Divine Dao Protector Clans seemed as if they'd been struck by lightning, and they were dazed by this.

The Godrank Chart!

The anxiousness in Chen Taichong's heart rose to its extremes, whereas, a rare and unprecedentedly serious expression had appeared on Wu Xuechan's composed face.

The Godrank Chart!

Daolord Xu Tuo's aged face changed indeterminately while he seemed to be extremely conflicted in his heart. In the end, he suddenly said in a grim voice. "Both of you... leave right now! Tell the Sect Master about everything that occurred here!"

Leng Xinghun and Dao Wushuang's bodies stiffened while a heavy expression appeared on their faces. They didn't hesitate to turn around and leave hastily.

They'd witnessed the scenes which had occurred on Godrank Mountain just now, so they were extremely clearly aware what the successive appearance of the Eye of Heavenly Tribulation and the Godrank Chart represented.

The Godrank Chart! Chen Xi's eyes narrowed.

When he was at the Immortal Dimension, he'd seen the Godrank Chart descend into the world. At that time, he'd even heard that the name of every single Immortal King who attained the Dao and advanced into the Godrank Realm would be recorded on the Godrank Chart as a form of eternal glory.

Even if that person perished, even if all things were obliterated, even if a new era began.... The Godrank Chart would still be branded with the mark of that cultivator!

Perhaps that legend was true. But with the knowledge Chen Xi possessed, he was naturally clearly aware that the Godrank Chart wasn't that simple.

Just like this very moment. Even if he'd fused with the complete River Diagram and advanced into a true Daolord, he still felt a form of pressure and danger when he saw the Godrank Chart descend from the sky!

Chen Xi wasn't aware of the Godrank Chart's origins, nor did he know the reason for its existence, or who was in control of it.

But he was very well aware that the situation he was in would probably take a slow turn for the worse if he didn't act right now.

Bang!

A strand of obscure and strange energy suddenly swept out from within Chen Xi, and it raged through the surroundings like a storm and caused the world to tremble.

His green clothes fluttered along with his dense and long hair, and he merely took a single stride before he arrived before the Dao Servants who were offering themselves up with devotion and were on fire.

All of those Dao Servants seemed as if they hadn't noticed him at all, and there hadn't been any change in their devoted and solemn expressions. It was even to the extent that they didn't move at all.

"Kill to protect the Dao and annihilate the evil!"

"Kill to protect the Dao and annihilate the evil!"

Their voices were still that devoted and solemn, and it carried a shocking force that struck directly at the heart.

Pu!

Chen Xi didn't hesitate to swing the Sword of Samsara, and a dark blue glow flashed before it swiftly pierced through the throat of a Dao Servant.

From the beginning until the end, it was actually easy to the extreme, and he didn't encounter any resistance!

Swish!

On the other hand, that Dao Servant whose throat was stabbed had actually revealed a grin before he died, and he swiftly transformed into ashes that vanished into nothingness.

Chen Xi's heart didn't ease up at all when he saw this, and it made his eyes narrow instead. He glanced at the sky. The Godrank Chart was dazzling and resplendent, and its bright golden radiance covered the sky in its boundless and supreme aura.

Pu!

Chen Xi raised his hand and annihilated another Dao Servant with a single swing of his sword. That Dao Servant didn't resist or stop him as well, and it was completed with extreme ease.

However, the aura of the Godrank Chart which was unfolding in midair grew even stronger and boundless, and its golden glow seemed to have become material and was filled with a dignified aura that was boundless and terrifying.

All living beings laid prostrate on the ground while they shivered. The world had fallen into deathly silence, and it seemed like all living beings were worshipping with devotion and submission to it.

Pu! Pu! Pu!

The feeling of danger within Chen Xi's heart grew stronger and stronger. So, he didn't hesitate at all to swing his sword repeatedly, and he instantly killed 4 more Dao Servants!

However, right when he was about to kill the last Dao Servant, the Heavenly Wrath Daolord, his pupils suddenly constricted while he instinctively flashed backward at full speed.

At the very same time, the 1st Dao Servant sighed, and it contained boundless sorrow and grief.

After that, the tune of the Dao rumbling in the sky, and it formed into all sorts of mysterious phenomena like the gods singing praise, seething auspicious clouds, divine chanting....

The phenomena were extremely vast and dignified. It rumbled like a bell while the radiance of the Grand Dao illuminated the world. However, when such rumbling entered into Chen Xi's ears, he couldn't help but let out a muffled groan while his brows swiftly knit together.

At this moment, his consciousness, heart, and mind seemed to have been suppressed by a supremely dignified aura, and it caused him to have the misconception that he was on the verge of suffocation.

This is the strength of the Godrank Chart?

When this thought had just flashed into Chen Xi's mind, he felt a wave of piercing pain from his eyes, and then his entire body was suddenly swept away by a strand of golden radiance!

...

At the same time, the 1st Dao Servant raised his head, and he watched as Chen Xi's figure was carried away and taken into the Godrank Chart.

After that, the Godrank Chart which was unfolded like a portrait in midair had started to slowly roll back up....

The 1st Dao Servant was clearly aware that once the Godrank Chart had been completely rolled up, then even the Master of Oracle Mountain, Fuxi, would be powerless to save Chen Xi!

It was even to the extent that the Heavenly Wrath Daolord was sure that it was impossible for Chen Xi to survive since the moment he saw Chen Xi being swept into the Godrank Chart.

Because that was the Godrank Chart!

It was the strongest and most terrifying precious treasure on Godrank Mountain!

Its energy covered the universe, its aura was sufficient to make any god lose all ability to resist it, and it existed to control and manipulate the life and death of all gods!

It was a treasure that was fully tempered into form from the Order of the Heaven Dao, and it represented the will and strength of the heavens!

Even the 13 Dao Servants could only offer up their lives as sacrifice in order to draw down the Godrank Chart, and they were utterly unable to control it.

Alas, even if the Savior is dead, it's impossible to get their lives back.... The 1st Dao Servant looked up at the sky as he muttered lightly. His lone figure seemed to be extremely lonely and desolate. Since the moment they were born, all 13 of them had been together. They acted in accordance with the will of the heavens, protected the Heaven Dao, and experienced the passage of countless years while being together. Moreover, they had never been separated no matter what.

Yet now, a single Savior had caused 12 of them to perish successively, and only he remained!

How could the 1st Dao Servant accept such an enormous and drastic change?

The divine and dazzling Godrank Chart was slowly rolling up in the sky, and it was on the verge of closing fully.

The heavens and the earth were silent. Regardless of whether it was the Dao Defiants at the Springs or the Divine Dao Protector Clans at the Primal Chaos Origin, all of them were surprised, bewildered, dazed, and at a loss for what to do.

The battle on Godrank Mountain is about to end? Yes, it's about to end! The 1st Dao Servant was very sure that this battle which was the most dangerous and turbulent battle Godrank Mount had ever experienced was about to come to an end.

However, he wasn't able to feel any happiness. The Savior was dead, but all 12 of his companions weren't able to be revived. That was why the 1st Dao Servant wasn't able to arouse any happiness in his heart.

Moreover, when he thought about how all of this had occurred merely because of the Spirit of Samsara, the 1st Dao Servant couldn't help but be slightly dazed. He wondered if his insistence to cooperate with the Sovereign Sect's Master was right or wrong?

The 1st Dao Servant sighed and was flagging with interest. So, he turned around with the intent to leave.

Right at this moment, a strand of rumbling suddenly resounded by his ears. It was like something had been broken, and it shook him to the point the vital blood throughout his body couldn't help but roil.

At the same time, the entire Godrank Mountain shook as well, and it seemed to be wailing as if it couldn't bear the enormous burden placed upon it. Besides that, all the experts who heard the rumbling felt as if they'd been struck by lightning, and they almost lost control over their Dao Hearts. It was so uncomfortable that they almost coughed up blood!

What happened? A strand of horror arose in the 1st Dao Servant's heart while he raised his head with slight difficulty and looked up towards the sky.

[Talisman Emperor](#)

Chapter 2176: Death Isn't Terrifying

The heavens and the earth rumbled.

The entire Godrank Mountain was shaking violently, and it seemed to be on the verge of collapse.

Boundless shock and panic were like a storm that swept through the Dao Defiants in the Springs and the Divine Dao Protectors in the Primal Chaos Origin. All of them felt extremely terrified and anxious.

This scene was simply like one where the sky was about to collapse, and doomsday was about to descend!

However, the 1st Dao Servant seemed as if he hadn't noticed all of that. His gaze swiftly shot towards the sky, and it was at that exact instant which his pupils suddenly dilated while his entire body froze on the spot.

A rift had actually been forcefully torn open on the Godrank Chart which was about to roll up completely in the sky!

The violent energy of the Order of the Heaven Dao transformed into golden divine radiance that sprayed from within the rift, swept through the sky, and illuminated the world.

The Godrank Chart... has actually been damaged!The 1st Dao Servant simply felt as if his mind was on the verge of exploding apart, and unprecedentedly tempestuous waves surged through his heart.

The Godrank Chart was the strongest and most terrifying treasure on Godrank Mountain!

Its energy covered the universe, its aura was sufficient to make any god lose all ability to resist it, and it existed to control and manipulate the life and death of all gods!

It was a treasure that was fully tempered into form from the Order of the Heaven Dao, and it represented the will and strength of the heavens!

At the same time, it was the 13 Dao Servants' greatest source of reliance on Godrank Mountain since they'd been protecting it!

Yet now, such a practically eternal treasure which represented the dignity and Order of the Heaven Dao actually had a rift torn open on it....

It was probably impossible to believe for anyone in the 1st Dao Servant's position!

Swish!

In merely an instant, a tall figure walked out from that rift on the Godrank Chart. He was enveloped in golden divine radiance yet didn't suffer any harm from them. When looked at from afar, it seemed like he'd walked out from the Heaven Dao, and he revealed an indescribably divine and supreme aura.

The 1st Dao Servant's heart shook fiercely when he saw that figure, and his heart almost collapsed.

Chen Xi! That fellow actually survived!?Doesn't that mean the rift on the Godrank Chart was created by him?But....How could he have possibly accomplished that?

The 1st Dao Servant was astounded, and his expression turned grim. He wasn't able to maintain his composure anymore. He was truly unable to imagine how the Godrank Chart which was drawn down after they'd sacrificed the lives of an entire 6 Dao Servants wouldn't just be unable to obliterate the Savior, the Savior had even been able to escape from it!

How could this be possible?How could this be possible!?!?

The 1st Dao Servant's Dao Heart was extremely firm, and he'd witnessed countless inconceivable events throughout the boundless years of the past. But at this moment, he truly experienced what panic and horror was like!

The Godrank Chart covered the sky above Godrank Mountain, and the presence of the Godrank Chart represented that the brilliance of the Heaven Dao would eternally envelop Godrank Mountain. Thus, Godrank Mountain would be revered by all.

Yet now, a rift had been ripped open on the Godrank Chart, and that was simply equivalent to heavily injuring its foundation, and it was on the verge of destroying Godrank Mountain's supreme status in the world!

How could this have happened?

The 1st Dao Servant was dazed and frustrated. He instantly seemed as if he'd aged by countless years. Because his 12 companions had left in succession, and even the Godrank Chart wasn't able to protect him and Godrank Mountain now. This made the 1st Dao Servant feel indescribable sorrow and despair.

Could it be that... Godrank Mountain will really be dragged back down to the ground, and lose its eternal and inviolable status today?No!No!!

The 1st Dao Servant's heart could be said to be bleeding as he shouted in his heart. His face had even warped and turned livid while his eyes almost split apart from the rage he experienced, and they almost bled as well.

At this moment, he simply seemed like a trapped beast that had been forced into a hopeless situation, and the unwillingness and rage in his heart almost drove him to madness.

Rumble!

The 1st Dao Servant's body emanated a violent and terrifying aura that surged through the world. His grey hair fluttered violently while his aged face was warped and ferocious. He was completely furious, and he was filled with hatred, madness, and the intent to disregard everything.

Because he couldn't accept all of this!

He was absolutely unable to accept it!

"Chen Xi! I'll kill you! Kill you!!" The 1st Dao Servant shot into the sky while he shouted madly, and he seemed to have transformed into a pillar of light that linked up with the Order of the Heaven Dao in the sky, causing his imposing aura to rise explosively. It was even to the extent that he seemed to be burning himself and using his life as sacrifice to slaughter his enemy.

In an instant, clouds roiled violently in the sky while the energy of the Order of the Heaven Dao surged like the tide. It transformed into the terrifying energy of Heavenly Wrath which converged onto the 1st Dao Servant.

He was the number one Dao Servant on Godrank Mountain, and he was called Heavenly Wrath. His strength was strong to the point it was the strongest and at the peak beneath the Heaven Dao.

But because of the unexpected change of events he encountered, he'd gone completely mad and decided to make a last and desperate effort. He intended to fight with his life on the line. So, it was obvious how terrifying his might was.

In merely an instant, it was like the end of the world had arrived. Space collapsed, all things were destroyed, and it was like the world had fallen into an unprecedented upheaval.

The strength he revealed caused even the myriad of Daos throughout the world to wail!

Such a scene really could be described as unprecedented, and it was practically as dazzling and magnificent as a scene from the legends or epics.

Chen Xi suddenly encountered such a terrifying attack after he walked out from within the Godrank Chart.

Any other Daolord would have probably been instantly annihilated when facing such a situation.

However, Chen Xi wasn't. He seemed as if he'd expected such a scene, and he just glanced at the Heavenly Wrath Daolord in the distance before he withdrew his gaze.

At the same time, a calm and indifferent voice resounded from between his lips. "All forces in this world which are created to attack me will be destroyed; all those who judge and vilify me shall be punished! All living beings and all the Daos of the world are no exception!"

That voice was like an inviolable decree, and it rumbled as it resounded through the world.

The Order of the Heaven Dao in the sky surged and fell into deathly silence, the Godrank Chart wailed and vanished without a sound, and the terrifying energy which filled the world was even eliminated in an instant!

The surroundings were completely calm and tranquil.

The doomsday-like scene from before seemed like it hadn't occurred at all, and the surroundings had fallen into a state of extreme silence.

On the other hand, Chen Xi's voice was still reverberating incessantly through the silent world.

At the same time, the 1st Dao Servant seemed as if he'd been shackled. It was like the heavens had abandoned and exiled him, and his aged face was covered in a dazed expression.

It was like he'd become a prisoner who'd been nailed on the pillar of judgment, and only boundless desolation existed around him. It was like his Destiny and strength had been taken away, and only his empty body remained.

He couldn't understand all of this.

Everything that occurred before his eyes was so absurd and unreal. It was like a nightmare that was impossible to accept, so it made him feel dazed.

What sort of energy was this?

He didn't know.

How did Chen Xi accomplish this?

He didn't know.

How was the Order of the Heaven Dao destroyed?

He didn't know as well.

But when he saw Chen Xi's figure gradually grow clearer in his field of vision, as he gazed at the calm and indifferent expression on Chen Xi's face, and as he looked at that pair of black eyes that seemed as if they could reflect the world within them, the 1st Dao Servant finally realized that they'd been utterly defeated!

All 13 Dao Servants, Godrank Mountain, and even the Godrank Chart. All of them had lost at the hands of a Savior who'd just advanced into the Daolord Realm.

Someone who was a Ninth Star Region Lord that they treated with indifference and even disregarded as an ant when he participated in the Battle of Dao Protectors had now become a terrifying existence that crushed their lives, destroyed the majesty of Godrank Mountain, and even heavily injured the Godrank Chart!

Wasn't this fact a huge irony?

Suddenly, the 1st Dao Servant fell into despair. He suddenly thought about how the Heaven Dao was undergoing an unexpected change right now, and the most unfathomable calamity in history had swept through the world. The world was covered in the flames of war and battle, and the scenes of life being destroyed, misery, suffering, and chaos filled the world....

They had no choice but to cooperate with the Sovereign Sect in order to survive this unexpected change in the Heaven Dao, but it had caused such a tragic outcome instead.

Exactly whose fault was all of this? Could it be that all of this was somehow related to this Savior that's standing before me?

The 1st Dao Servant didn't have the time to figure it out when he suddenly noticed that his consciousness was gradually becoming blurry and weak....

That was a sign that death was approaching.

However, the 1st Dao Servant wasn't terrified at all, and he heaved a sigh of relief instead. All thoughts within his heart vanished, and he had a relaxed feeling of completely unloading and being relieved of everything.

So, death isn't terrifying... sometimes....

That was the last thought the 1st Dao Servant had before he perished. He died without making a single sound, and he didn't struggle or resist at all.

It was like he'd been waiting for this moment for a very long time....

...

Swish!

The 1st Dao Servant's figure transformed into a rain of light that dispersed into the surroundings.

Chen Xi wasn't visibly moved at all when he witnessed all of this. He raised his head, glanced at the sky, and then a wisp of comprehension couldn't help but appear on the corners of his lips while he looked towards the spot where the Godrank Chart had vanished from and gazed at the Order of the Heaven Dao which had fallen into silence and was disappearing.

The Godrank Mountain really isn't where the quintessence energy of Godsbane Heaven resides. At the very most, it's just a strand of its majesty that it reveals in the world. Perhaps I should make a trip to the Dao Terra Firma....

Chen Xi fell silent for a while before he suddenly turned his head, and he saw an aged and hunched figure flash in the distance.

Swoosh!

At the same time, a wisp of piercing coldness appeared in Chen Xi's deep eyes, and his figure suddenly vanished.

...

After all 13 Dao Servants were annihilated, the Godrank Mountain wasn't unstable and in chaos anymore, and it recovered its tranquil state from before.

But unlike before, Godrank Mountain had become completely different.

It didn't possess the dignified and supreme aura which it had in the past, it didn't possess that horrifying heavenly might that once covered it, and it didn't possess the eternal glory which once suffused it.

Or perhaps, from today onward, this divine place which had stood towering beneath the Heaven Dao for countless years had fallen and was in decline.

Perhaps the myriad of living beings in the world would feel reverence and fear towards Godrank Mountain in the past, and perhaps only Daolords could approach it, comprehend it, and revere it in the past.

But now, the Godrank Mountain had become a barren mountain that was without an owner, and its glory and majesty were gone with the wind.

Dammit! Dammit! Daolord Xu Tuo muttered while his aged face was covered in terror and astonishment. The dignified and composed expression he usually possessed in the past was nowhere to be seen.

There was only a single thought in his mind, and it was to use all his ability to leave this nightmarish place as soon as possible!

He didn't want to stay here for another moment!

[Talisman Emperor](#)

Chapter 2177: Returning To The Primal Chaos Origin

Xu Tuo had seen everything that occurred just now.

Especially when Chen Xi tore the Godrank Chart open and leaped out from within it, it caused Xu Tuo's cold sweat to practically stream out and drench his entire body while indescribable horror and coldness filled his heart.

Just like the 1st Dao Servant, he was unable to imagine how exactly Chen Xi had accomplished this. But the facts before his eyes told him that it was all true!

This made him immediately determine that he had to leave!

Xu Tuo was an overlord that commanded great authority in power in the Ancient God Domain. He was at the peak of all living beings, and he looked down proudly upon the world.

However, he was very clearly aware that not to mention the 1st Dao Servant, his combat strength was extremely inferior even when compared with the other 12 Dao Servants.

But Chen Xi hadn't just annihilated all 13 Dao Servants by himself, even the Order of the Heaven Dao and the Godrank Chart were helpless against Chen Xi. So, how could Xu Tuo not feel horrified?

Flee! I must flee! The further the better! It was even to the extent that he felt quite a bit of regret. He regretted not leaving earlier with Leng Xinghun and Dao Wushuang!

But no one could be blamed for this. It was his fault for thinking that Chen Xi would be unable to escape calamity when the Godrank Chart had appeared to crush Chen Xi!

It was clearly too late to regret all of it now.

Xu Tuo had stopped thinking about all of that. The experience he'd accumulated through years of battle told him that he didn't have the time to regret anything right now.

In next to no time, Xu Tuo's figure had charged out of Godrank Mountain, and he saw that familiar expanse of face. Moreover, he even faintly remembered that he'd launched a meticulously prepared ambush against Chen Xi at a certain area in the depths of that starry sky.

However, the circumstances had changed with the passage of time. While Daolord Xu Tuo was still the same person, Chen Xi wasn't the same anymore....

Xu Tuo couldn't help but feel frustrated when he thought of that. How could all of this have happened if I killed that kid all those years ago?

"Are you regretting being unable to kill me all those years ago?" Suddenly, a calm and indifferent voice resounded.

In an instant, the hairs throughout Xu Tuo's body stood on end while his pupils constricted into the size of needles. He swiftly looked towards the side and saw Chen Xi's tall figure was standing there and quietly looking at him with a pair of pitch black and deep eyes.

Chen Xi's gaze was calm and indifferent, but the blood throughout Xu Tuo's body felt like it had frozen when Chen Xi gazed at him, and his extremely aged face changed indeterminately.

"I don't regret it." Xu Tuo took a deep breath and shook his head. He knew that he'd lost the best opportunity to flee. "I just never imagined that your combat strength would transform that quickly."

"There are many unexpected things in this world." After he spoke those words, Chen Xi said frankly, "You won't be able to escape today. Shall I do it or will you do it yourself?"

Xu Tuo stared blankly for a long time before he said, "Death isn't terrifying. I only seek to die in battle."

As he spoke, a wisp of resolve appeared on his aged face, and his muddy eyes even revealed a wisp of terrifying battle intent.

As a Divine Sovereign Priest of the Sovereign Sect and a Daolord who'd taken control of the energy of Destiny, he naturally refused to wait helplessly for death to arrive.

Even if he were about to die, he intended to die fighting!

However, to his despair, Chen Xi merely raised a single finger, and then he instantly felt that the energy throughout his body seemed to have been imprisoned and actually didn't obey him at all!

It made him feel like a tied up beast, and even struggling for his life had become a wild wish.

Why is it like this? This isn't the battle that I desired!

A strand of extreme rage and humiliation surged into his heart before sweeping throughout his body. It caused Xu Tuo to roar in a sharp voice. "Chen Xi! How despicable of you!"

"You can't even resist the strength of a single finger of mine, yet you say that I'm despicable? You can only blame yourself for being too weak. But you're just unwilling to admit it." Chen Xi's words were like a sharp awl that stabbed forcefully into Xu Tuo's heart, and it caused his face to warp and reveal boundless unwillingness.

But he suddenly sighed dejectedly in the end, and he seemed to mutter with despair. "Right, I'm unable to accept it even until now. How could an ant like you possibly become so strong?"

Pu!

Chen Xi withdrew his finger, and then it seemed like the energy within Xu Tuo's entire body had been sucked dry, causing him to suddenly explode and transform into a rain of light that dispersed into the surroundings.

A Divine Sovereign Priest who commanded great authority and had forced Chen Xi into a hopeless situation in the past had actually been unable to resist the might from a single finger of Chen Xi's, and he'd exploded into pieces!

If other cultivators were to have witnessed this scene, one could only imagine the storm it would create.

However, Chen Xi seemed as if he'd done something extremely insignificant, and he raised his head and looked towards Godrank Mountain once he was done.

He remained silent for a long time before he gave up on his impulse to destroy Godrank Mountain. He turned around and flashed off in another direction.

The Primal Chaos Origin was floating silently in that direction.

...

The Spring.

All the Divine Children of the Heavens were dazed. They crawled up from the ground while a wisp of terror still remained between their brows.

Everything that had occurred earlier was too terrifying, and it caused them to be at a loss for what to do. It was like the end of the world had arrived, and they didn't know where to flee.

Yet now, all of that unrest had vanished. But... there was still a dazed feeling in their hearts. What exactly occurred just now?

“All 13 Dao Servants have been killed!” An aged voice resounded through every single corner of the Springs.

This news was simply too shocking. As soon as they heard it, many of them actually exclaimed involuntarily and fell into deathly silence.

After that, all sorts of clamorous noise erupted like a volcano and resounded from every single corner of the Springs, and it surged through the world here.

Some cheered, some expressed their shock, some felt disbelief, some couldn't imagine it....

“Everyone!” That aged voice resounded again, and it suppressed all the clamorous noise in one go.

“From today onward, we Divine Children of the Heavens have a new leader, and that's Chen Xi! It's he who obtained the acknowledgement of the Lord First Ancestor, and it was also he who helped us kill those 13 Dao Servants! Do any of you have objections?”

Chen Xi!

There was deathly silence in the surroundings for a long time before all of them shouted in unison and acknowledged the decision.

...

The Primal Chaos Origin.

All the strongest Daolords amongst the Divine Dao Protector Clans had fallen silent, and there were all sorts of expressions on their faces.

At this moment, they'd similarly determined that all 13 Dao Servants had been annihilated!

However, they were unable to imagine why the Battle of Dao Protectors would have come to that.

How did Chen Xi... become so strong?

When they thought about how many of them had come to an agreement before the Battle of Dao Protectors began to order the participants from their respective clans to target Chen Xi, all of their hearts felt cold, anxious, and uneasy.

The death of the 13 Dao Servants allowed them to fully realize how terrifying Chen Xi was. What would we do if that maleficent existence intended to take revenge on us?

They were at a total loss for what to do.

Some clans weren't able to sit still and started to set out towards the Chen Clan. They gave away an enormous amount of precious treasures, and they even gave the most sincere and apologetic promises they could provide in the hopes of obtaining the Chen Clan's forgiveness. They did all of this so Chen Xi would let bygones be bygones and resolve the enmity between them.

Chen Xi wasn't aware of all that. At this moment, he was standing in front of the Primal Chaos Origin and bidding farewell to Tang Xiao'xiao, Xia Ruoyuan, and Jin Yunsheng.

Chen Xi had hidden them within his body during the battle in order to prevent them from suffering any harm. Now that the situation had stabilized, it was naturally time to bid farewell with each other.

Even though Chen Xi didn't describe the entire battle, their safe arrival at the Primal Chaos Origin proved that Chen Xi had won the battle!

Tang Xiao'xiao, Xia Ruoyuan, and Jin Yunsheng weren't stupid, so they'd naturally discerned all of that. So, it caused their faces to be covered in complicated expressions while their gazes towards Chen Xi couldn't help but carry deep reverence.

Chen Xi didn't provide any further explanation when he noticed this. He just chatted with them for a while before he waved his hand and bid farewell. After that, he entered the Nine Spirit World.

After they watched Chen Xi leave, Tang Xiao'xiao and the others sighed endlessly with emotion in their hearts while all sorts of thoughts ran through their minds. Who could have imagined that Chen Xi who was originally at the Ninth Star Region Lord Realm just like us would possess such a heaven defying combat strength now?

They didn't sigh with emotion for too long, and they left successively and returned to their respective clans.

...

Bang!

Chen Taichong's body stiffened when he saw Chen Xi's familiar figure appear within his field of vision, and the teacup in his hand crashed to the ground.

However, he seemed as if he hadn't noticed at all. He just stared blankly at Chen Xi for a long time, confirmed that he hadn't mistaken someone else for Chen Xi, and then he couldn't help but cry out. "Chen Xi, you've finally returned!"

Both his voice and face were filled with excitement.

In just this short period of less than 3 months, his heart had been filled with worry, anxiety, and uneasiness. Even he didn't know how many teacups he'd destroyed. Now that he'd seen Chen Xi return safely, the anxiousness suppressed within his heart for a long time had been swept away, and it was replaced by pleasant surprise and excitement.

"Chen Xi..." Ming stood up swiftly as well. Her clear eyes surged with a wisp of pleasant surprise which couldn't be concealed, and that was something which was rarely seen from her.

In the past, Ming had been quiet and reticent, and she seemed to be indifferent to everything. She only had slightly unusual fluctuations of emotions when she faced Chen Xi.

But at this moment, those emotions of hers were especially obvious.

Chen Xi nodded while a smile of reuniting with them appeared on the corners of his mouth. He was the same as her, and he only expressions his emotions freely when he was facing his friends and loved ones.

But he was stunned right after that. "Where's my Eldest Senior Brother?"

These words instantly caused Chen Taichong to calm down from his feelings of wild joy, and he said, "The Grand Lord seemed to have sensed something urgent just 15 minutes before you returned, and he left hastily."

"Eldest Senior Brother left?" Chen Xi's eyes narrowed. He acutely determined that his Eldest Senior Brother would definitely not leave hastily without even bidding farewell to him if it weren't for something extremely urgent.

Chen Taichong said, "The Grand Lord left a message for you before he left, and he asked you to return to Oracle Mountain as soon as possible."

Chen Xi nodded and immediately said, "Senior, please take me to my parents. I intend to take them with me."

Talisman Emperor

Chapter 2178: A Regret In The Shadow Of Glory

Chen Taichong was stunned. "You intend to leave right away?"

Chen Xi nodded. "Right now."

Wu Xuechan's sudden departure had caused him to feel worried, and he sensed a trace of unusualness in all of it.

Chen Taichong seemed to be hesitant to speak. He seemed to intend to ask about something, but he restrained himself in the end.

Chen Xi said, "The Battle of Dao Protectors has come to an end. There shouldn't be anyone who dares to provoke the Chen Clan from now onward."

Chen Taichong's heart shook while a wisp of excitement appeared on his face. He seemed to intend to pat Chen Xi on the shoulder, but his heart couldn't help but tremble when he saw Chen Xi's gaze, and he actually felt indescribable pressure and fear.

Chen Taichong couldn't help but be shocked by this, and he nodded instinctively. "Alright, I'll take you to see them."

Such a reaction was quite normal. Even though he knew that all the 13 Dao Servants had been killed and it was extremely likely to have been done by Chen Xi, he hadn't witnessed it himself, so he couldn't help but feel slightly uncertain in the end.

But when he met Chen Xi's gaze at this moment and sensed that feeling of pressure and fear, Chen Taichong was completely sure of it.

Besides extreme shock, Chen Taichong didn't feel any sorrow from the death of the 13 Dao Servants. Even if the Divine Dao Protector Clans were said to be responsible for protecting the Heaven Dao and stood on the same side as the 13 Dao Servants.

Because it was a connection that only existed in name, and they couldn't be said to have any relationship at all. So, there was naturally no feelings between them.

The only thing Chen Taichong couldn't figure out was how Chen Xi had accomplished all of it.

...

Snow fluttered and painted the world white.

Chen Lingjun and Zuoqiu Xue were silently staring at the fluttering snow in the surroundings.

The two of them hadn't spoken for a few days as they were both preoccupied with the loads on their hearts. Because they'd already spoken about everything that should be spoken about while their worries had sunken to the bottom of their hearts. All that was left for them... was to wait.

"Hmm? Is that Xi'er?" Zuoqiu Xue's eyelashes shook as she opened her eyes wide, and she was able to notice a faint black colored figure amidst the snow which covered the world.

"That's the 103rd time that you've said the same thing." Chen Lingjun didn't even raise his head as he spoke lazily. "Just wait calmly. Xi'er isn't as weak as you think."

Zuoqiu Xue had frequently made such guesses during their days of waiting, and she always thought that Chen Xi had arrived to take them with him.

Chen Lingjun had gotten bored of hearing it. But he was clearly aware that it was because Zuoqiu Xue was too concerned and worried.

According to Zuoqiu Xue, it was very normal for a mother to be worried and concerned about her child! Moreover, she even scolded Chen Lingjun for being such a carefree father and lamented about how she'd been blind all those years ago to have chosen such a useless fellow as her husband.

Chen Lingjun could only shrug helplessly and smile bitterly when facing all of that. What else could he said in response to his own wife's nagging?

"Look! Quickly! It's true! It's really Xi'er!" Suddenly, pain came from Chen Lingjun's arm as Zuoqiu Xue was pinching it forcefully while her face was covered in excitement and happiness.

"Oh, let me have a look." Chen Lingjun turned around. His pupils instantly dilated when he saw that tall figure that had appeared amidst the snow in the distance, and he immediately stood up and roared with laughter. "Look! As expected of my son, how could he possibly not return?"

His lighthearted laughter surged through the world and caused numerous waves of snow to sweep towards the surroundings.

"Hmph! You seem to be even more excited than I am." Zuoqiu Xue stood up, shot a sideways glance at Chen Lingjun, and spoke with disdain.

"Haha!" Chen Lingjun merely roared with laughter, and it was clear that he was extremely excited.

"Father, Mother. I've come to take you with me." Chen Xi smiled as he watched all of this from afar, and as he gazed at the happiness and excitement his parents revealed, a strand of warmth that he hadn't felt for a long time surged out from within his heart.

...

On this very day, Chen Xi took his parents with him, and he brought Ming along as he left the Chen Clan and headed back to the Ancient God Domain.

They had just left when group after group of people arrived at the Chen Clan. Surprisingly, they were the important figures of all the various Divine Dao Protector Clans, and some were even the patriarchs of those clans.

Moreover, if one looked carefully, it wasn't difficult to notice the five high level clans amongst them as well....

The guards at the entrance to the Nine Spirit World were shocked at the time, and their expressions changed drastically. They even thought that their enemies had come to denounce their clan's crimes.

Unexpectedly, all of those great figures from the various clans were extremely amiable.

The guards of the Chen Clan had never experienced such treatment, so they couldn't avoid being overwhelmed by the unexpected favor. Only after they asked about it in detail did they find out that all of these great figures had actually come to 'offer their apologies'!

Moreover, they'd even brought huge amounts of precious treasures!

It wasn't long before news of this had spread throughout the Chen Clan, and it caused the entire clan to be stirred.

After all, the Chen Clan was only a mid level clan amongst the Divine Dao Protector Clans. Not to mention the 5 high level clans, even some of the other mid level clans had looked down upon the Chen Clan in the past. The reason was that the Chen Clan had started showing signs of decline after Chen Lingjun had chosen to reincarnate himself all those years ago.

Under such circumstances, they'd naturally never imagined that the important figures of the strongest amongst the Divine Dao Protector Clans, the five high level clans, and various other formidable clans would actually take the initiative to come to their Chen Clan with all sorts of precious treasures to offer an apology?

It was simply inconceivable to them!

It was like a dream to all the members of the Chen Clan.

Only Chen Taichong was very clearly aware that all of this was actually because of Chen Xi, and he couldn't help but sigh with emotion in his heart. *If I were able to persuade him to join the Chen Clan, then how could our Chen Clan possibly not rise into the ranks of high level clans? It's even to the extent that we might even be able to reign supreme over all the Divine Dao Protector Clans!*

When they found out that Chen Xi had left and didn't intend to pursue the matter, all of those great figures from the various clans heaved sighs of relief in their hearts. *What luck!*

Moreover, they'd decided that they would try their best to avoid fighting even if the Chen Clan provoked them in the future.

They were very clearly aware that while Chen Xi had left, there was always a chance that he would return! So, they couldn't afford to offend the Chen Clan at all.

After this group of great figures had been sent off, the great figures of various other clans had arrived in succession, and they'd similarly brought all sorts of precious treasures with them while intending to offer an apology as well....

Such events went on for three days, and practically all the great figures throughout all the Divine Dao Protector Clans had visited the Chen Clan during that time.

In the end, even the Divine Children of the Heavens who'd always taken the Divine Dao Protector Clans to be their enemies had somehow found out about Chen Xi's relationship with the Chen Clan, and they sent an ambassador over with a huge amount of precious treasures as a gift.

Moreover, the Divine Children of the Heavens even proclaimed that the Chen Clan was their strongest ally, and anyone who went against the Chen Clan would be going against them as well!

This proclamation was like a stone that caused a thousand ripples on the surface of a lake. All the Divine Dao Protector Clans were shocked, furious, envious, and couldn't help but sigh endlessly with emotion. They were clearly aware that the rise of the Chen Clan was unstoppable because of Chen Xi.

Such a magnificent scene was truly something that the entire Chen Clan could never forget.

Moreover, they finally understood that the glory which the Chen Clan possessed today was all because of Chen Xi who they'd never acknowledged and accepted into their clan....

Perhaps, this was the only regret in the shadow of this glory.

...

After Chen Xi left with his parents and Ming, he started teleporting through space at full speed and rushed towards the Ancient God Domain.

Chen Xi and his parents naturally had unending topics to speak about on the way, and he gave his parents a concise description of everything he'd experienced during the Battle of Dao Protectors.

But even if it was brief, it still made Chen Lingjun and Zuoqiu Xue exclaim endlessly with wonder and sigh with emotion. They were unable to imagine that their son actually possessed such heaven defying and dazzling accomplishments in battle.

However, besides feeling happy, they couldn't avoid feeling worried for Chen Xi as well. They were clearly aware that Chen Xi's current strength was a severe threat to the Order of the Heaven Dao, so he might encounter danger in the future.

They weren't able to be of any help to him, and they could only do their best to tell Chen Xi to be careful.

Others were only able to see the glory and accomplishments that Chen Xi had attained, and only they would worry about their son's future path.

That was what being parents was like.

Chen Xi really enjoyed this feeling of being cared for, and he tried his best to avoid topics related to battle because he didn't want his parents to be too worried about him.

Ming stood silently at the side all along the way, and she listened attentively to the conversation between Chen Xi and his parents. There wasn't a trace of impatience on her face throughout this time, and she even revealed an occasional grin.

Because their conversations allowed her to see a rare side of Chen Xi for the very first time. Compared to the disposition that Chen Xi displayed in the past, she preferred how he acted all along the way.

He would smile bitterly and helplessly when Zuoqiu Xue berated him, he would admit his mistakes with an embarrassed expression on his face while he guaranteed to his parents that he would absolutely not take any risks in the future, he reveal an embarrassed expression and blush when his parents asked about his wives and children.

Moreover, he would be at a complete loss for what to do and try to avoid the question when his parents asked about the relationship between him and her.

When she thought up to this point, a wisp of a strange feeling couldn't help but arise in Ming's heart. *Right, what exactly is the relationship between me and Chen Xi?*

Are we friends? Not friends? Or none of the above?

Ming was quite bewildered by this.

But in next to no time, this bewilderment had transformed into distress. Because since Zuoqiu Xue had asked Chen Xi about his relationship with her, while Chen Xi hadn't said anything, the gazes both Zuoqiu Xue and Chen Lingjun shot towards her had changed....

After examining and sizing her up in the beginning, those gazes became gazes of fondness and tenderness. It was like they were looking at their future daughter-in-law....

However, Ming was instantly unable to stand such a feeling, and it was the first time in her life that she felt what being embarrassed and shy was like.

But she didn't feel any aversion towards it. She just felt distressed on occasion and wondered what Chen Xi thought about this misunderstanding.

...

[Talisman Emperor](#)

Chapter 2179: Genesis Energy

The starry sky was boundlessly vast.

Besides chatting with his parents all along the way, Chen Xi had placed most of his attention onto Oracle Mountain.

The sudden departure of his Eldest Senior Brother, Wu Xuechan, allowed Chen Xi to acutely sense a trace of an unusual aura. Unfortunately, there had been an unexpected change in the Heaven Dao, and it had caused the workings of the heavens to fall into a state of chaos. Otherwise, his current cultivation was sufficient for him to deduce some details about it.

The Heaven Dao has changed unexpectedly, calamity has descended upon the world, and the Sovereign Sect are like fish in water amidst this calamity and have swept fearlessly through the world. What exactly is the Sovereign Sect's Master thinking? Chen Xi suddenly thought of the Sovereign Sect's Master and recalled the Chaotic Divine Lotus's instruction before she vanished — You must be careful of the Sovereign Sect's Master. Everyone in the world thinks that the Sovereign Sect's Master is just a dog who guards the Heaven Dao's door, but only I am clearly aware that he's far more terrifying than any other expert. It's even to the extent that what he seeks... isn't something that the Heaven Dao can give him at all!

What exactly does the Sovereign Sect's Master seek?

Chen Xi was unable to figure it out, but he faintly felt that whatever the Sovereign Sect's Master sought, it was definitely within the Dao Terra Firma!

I'll head to the three dimensions once I've returned to Oracle Mountain. Let me see what the Dao Terra Firma looks like.... Chen Xi pondered for a long time before he decided.

He had that jade slip which Zhen Liuqing's master, Daoist Dao Que, had left behind, and the jade slip had some information related to the Dao Terra Firma on it.

Moreover, before he left Oracle Mountain to participate in the Battle of Dao Protectors,

his Eldest Senior Brother, Wu Xuechan, had promised to prepare for his return to the three dimensions once he returned from Godrank Mountain.

So, Chen Xi stopped thinking about all of that and concentrated his consciousness into his body. There was another matter of utmost importance which he had to complete before he arrived at Oracle Mountain!

...

After he advanced into the Daolord Realm, the region within Chen Xi's body had completely transformed into an expanse of boundless Chaos, and his divine energy had been transformed into Chaos Energy.

The Divine Dao Parasol Tree stood towering amidst the Chaos. Its branches and leaves were verdant, and it emanated surging Chaos Energy. It seemed extremely divine.

This was the Daolord Realm. The body transformed into Chaos, it was a state that was beyond description, and so it was supreme and boundless.

But it was very obvious that the Chaos Chen Xi possessed was unlike any other ordinary Daolord. It carried a primitive, ancient, and strangely obscure aura. The aura had fused flawlessly with the Chaos within his body, causing the Chaos to seem as if it had existed within Chen Xi since the beginning of time. So, he was completely different from other Daolords.

Besides that, merging with the Era Brands of the last 8 eras and the convergence of the inheritances of all 8 previous Saviors of this era had caused Chen Xi's reserves in the Daolord Realm to be unprecedented and unrivaled.

All of this was obvious from Chen Xi's ability to kill all 13 Dao Servants in succession.

But in the end, all of these were just a form of accumulation, and the true source of Chen Xi's transformation was the energy of Destiny which he possessed!

It was a complete river of Destiny that flowed through both the past and future. It surged across the barriers of time, and it was boundlessly vast.

It was precisely because he's grasped the complete secrets of Destiny that Chen Xi had attained comprehension and seen through a supreme and otherworldly secret — the Ultimate Path towards the Dao!

Even though he hadn't completely comprehended its secrets, Chen Xi was very clearly aware that it was the extremes of the Grand Dao which he was looking for!

It was also from that moment onward that Chen Xi finally understood the true origins of the River Diagram. It was born within the core of the quintessence of the three dimensions' Chaos, and it possessed the Genesis Energy in the Chaos of the three dimensions!

Genesis was a form of energy that existed when the quintessence of the three dimension's Chaos was born, so it was obvious how ancient the River Diagram was.

The reason Chen Xi had been able to lay eyes on the complete River of Destiny before he advanced into the Daolord Realm was closely related to the River Diagram.

Because the Grand Dao of Destiny came from the Genesis Energy of the three dimensions' Chaos as well!

In other words, grasping the energy of Destiny was actually like spying on the Genesis Laws of the three dimensions' Chaos. The more Genesis Laws one had grasped, the greater one's grasp of the energy of the heavens and the earth would be. Moreover, it provided immeasurable benefits to the condensing of the Chaos within the body of a Daolord.

Genesis Energy was like a seed. Only by comprehending and grasping it would one be able to grow the energy of Chaos within one's body.

At the same time, everything in the world had been formed from the Chaos of the three dimensions, so the greater one's grasp of Genesis Energy was, the stronger one would be in the world.

This was the path of cultivation for Daolords. They'd grasped the energy of Destiny and laid eyes on the Genesis Laws which belonged to the three dimensions' Chaos. So, they were naturally considered to be boundlessly supreme and capable of rivaling the heavens.

On the other hand, the River Diagram was a force that came from the Genesis of the three dimensions. So, it was like a seed itself.

Chen Xi had obtained it a long time ago, but his realm of cultivation wasn't sufficient at that time, so he was unable to take control of it and was naturally unable to comprehend the secrets it contained.

When he finally advanced into the Daolord Realm and comprehended Destiny, Chen Xi was finally fully aware of the River Diagram's origins.

Of course, regardless of whether it was the River Diagram or the Genesis Energy of the three dimensions' chaos, they weren't the true Ultimate Path.

The Ultimate Path was the end of the Grand Dao, and it was a supreme existence that broke through the current and transcended to the other side.

Such a realm of cultivation was something that even Daolords found difficult to lay eyes upon. At the very least, only a small handful of extraordinary overlords throughout the world had been able to lay eyes on and step foot onto the Ultimate Path towards the Dao.

The River Diagram had allowed Chen Xi to comprehend the complete Grand Dao of Destiny, and he'd relied on it to lay eyes on the Ultimate Path towards the Dao as well. So, very few other Daolords could compare to him.

That was why he'd said during the battle with the 13 Dao Servants that those Dao Servants wouldn't be a match for him even if they'd attained the highest possible level of cultivation in the Daolord Realm.

The reason was that the Dao Servants were restrained by the Order of the Heaven Dao, so it was utterly impossible for them to lay eyes on the profundities of the Ultimate Path towards the Dao.

Under such circumstances, while Chen Xi seemed to have only just advanced into the Daolord Realm, the strength he possessed had actually far surpassed the Dao Servants!

Swish!

When Chen Xi converged his consciousness within his body, a glistening, translucent pearl that seemed to be suffused with the dark blue glow of the ocean appeared in the Chaos within his body.

It was illusory and peerlessly beautiful.

If one looked carefully, one could even see countless strands of Order and Laws coiled around it, and they were like mysterious divine chains that were interweaved around it.

It was the Core of Origin World!

Chen Xi had obtained it from the Origin World all those years ago, and it was the energy of the Order of the Heaven Dao which belonged to the Origin Heaven!

Having it in his possession was no different than having control over the entire Origin World.

Swoosh!

Chen Xi separated a strand of his consciousness, and it shot soundlessly into the Core or Origin World. In an instant, the scene within the Origin World was revealed down to the slightest detail within his mind.

Even though he'd left for less than 100 years, the Origin World had undergone a huge transformation. Sects were numerous like the trees in a forest. Even though they seemed to be rather simple and small-scaled, the Origin World showed faint signs of entering into a period where sects prospered.

The myriad of living beings which inhabited the Origin World utilized the Origin Creation Technique as the foundation to comprehend techniques and create paths of cultivation. They taught lessons and

spread the Dao throughout the world. The cultivation system within Origin World had clearly started taking shape.

If it were to continue developing at this rate, then a complete and unique system of cultivation would definitely be born within the Origin World.

At this moment, Chen Xi transformed into the will of the entire Origin World once more, and everything within it was reflected clearly within his eyes.

Chen Xi saw that descendant from the Thunderbird Clan, Emerald. Currently, Emerald had become the patriarch of his clan, and he was passing down the Dao with a dignified expression.

Chen Xi saw the Greater Horned Rabbit, Meng'meng. Currently, Meng'meng had become the Founding Ancestor of a sect and was called Ancestor Meng who was respected and worshipped by countless living beings.

Chen Xi couldn't help but smile at this sight, and he was clearly aware that King Gu Yuan's assistance was definitely closely related to Meng'meng's accomplishments.

He didn't disturb Meng'meng, and just utilized the Order of the Heaven Dao to 'toss' a strand of his consciousness to Meng'meng who was snoring loudly.

"Hmm?" Meng'meng opened her drowsy eyes and looked towards the surroundings in a slight daze.

After that, she opened her eyes wide and noticed to her shock that a cultivation technique had actually appeared within her heart. Words such as 'the 3rd level of the Origin Creation Technique, the 9 levels of the Fate Realm'.

The Fate Realm represented coming into contact with the Daolord Realm.

It was the next phase of the Origin Creation Technique's 1st level and 2nd level which were the Chrysalis Realm and Apotheosis Realms respectively!

Meng'meng had heard Chen Xi speak of this level. But at that time, Chen Xi had merely given it a name, and he hadn't left behind any techniques to cultivate it.

Yet now, it had suddenly appeared within her mind!

In an instant, Meng'meng became excited. She charged out of the place she resided and cultivated at, and then she looked up into the sky. She searched carefully for a long time, but she didn't notice anything in the end.

This caused her pair of sharp snow white ears to droop down, and a downcast expression appeared on her face while she stared blankly on the spot.

A long time later, Meng'meng suddenly slapped herself on the forehead and cracked a smile which revealed her snow white front teeth which seemed like two doors, and then she raised her head and let out a long howl. It was like she was expressing her gratitude.

On this very same day, a piece of news started to spread madly through Origin World — Master Chen who had vanished for a long time had suddenly made an appearance and passed down the cultivation technique of the 3rd level of the Origin Creation Technique, the Fate Realm!

For a time, all the living beings in the entire Origin World felt grateful. They kowtowed on the ground while they worshipped Chen Xi to an unprecedented height.

Meanwhile, Chen Xi's consciousness had found King Gu Yuan, and he told King Gu Yuan about everything he intended to do.

"You intend to establish the cycle of reincarnation within the Origin World and fuse it into the Order of the Heaven Dao?" King Gu Yuan was stunned as he didn't know why Chen Xi wanted to do that.

"Yes. If Origin Heaven is to avoid following in the footsteps of Godsbane Heaven, then it must become completely different. The energy of Samsara is sufficient to accomplish that." Chen Xi casually explained.

"Alright!" King Gu Yuan didn't understand all of that, and it was very difficult for him to understand the difference between Godsbane Heaven and Origin Heaven with the experience and knowledge that he possessed.

However, when he found out that Chen Xi was doing that for the sake of Origin World, that was the only reason he needed.

At this point, Chen Xi withdrew his consciousness from within the Core of Origin World, and then he didn't hesitate to silently pour the profundities of Samsara he possessed into the Core of Origin World....

Talisman Emperor

Chapter 2180: The Sect Master's Arrival

The Core of Origin World trembled while a gorgeous glow flowed through it.

It was the energy of the Order of the Heaven Dao possessed by Origin Heaven, and it had been in deep slumber for countless years upon suffering a heavy injury. At this moment, Chen Xi was branding the profundities of Samsara which he'd comprehended and grasped into the Order of the Heaven Dao which belonged to Origin Heaven.

He wasn't created a completely new Order of the Heaven Dao, and he was merely using Origin Heaven as a medium to circulate and release the energy of Samsara.

It was like inscribing a talisman. The Core of Origin World was the talisman paper, the energy of Samsara was his ink, and they were fused perfectly together.

Later on, Chen Xi even placed the Sword of Samsara within the Core of Origin World, and he utilized it as a source to allow the energy of Samsara to surge into the Order of the Heaven Dao of Origin Heaven.

Chen Xi stopped after he did all of that. He was very clearly aware that from today onward, Origin Heaven's development was bound to be completely different from Godsbane Heaven.

...

At the same time.

A figure stood at the foot of Oracle Mountain. He wore black clothes with wide sleeves, and his hands were placed behind his back as he looked up and scanned Oracle Mountain.

The mountain was lofty, gorgeous, and stood towering there. It was completely covered in mist and seething divine radiance while a myriad of strands of auspicious light descended from it.

It was truly too tall. It seemed like it had pierced through the sky itself and standing before it made others have the misconception that they were tiny like ants.

“The Heaven and the Earth form the Dao, and the Dao takes the form of nature.... So many years have passed yet it’s still completely the same. Looks like Oracle Mountain has started to become self-satisfied and lacking a desire to advance after Fuxi left.” The black clothed man withdrew his gaze, and then he strode slowly up the mountain along the small limestone path at the side.

He had a carefree bearing and seemed like he was taking a stroll through his own backyard, yet it also seemed like Oracle Mountain was extremely familiar to him as he just continued walking by himself.

Ancient trees hung down from the sides of the little path while moss covered it, and numerous rare Divine Herbs grew around it. Moreover, they emanated divine essence and emanated sweet fragrances that rained down towards the surroundings. Besides that, one could frequently see impressive looking cypress trees, towering pine trees, surging fountains and waterfalls, all sorts of flowers and plants, and wild fruits scattered all around the mountain.

The black clothed man didn’t seem like he was ascending the mountain as a guest, and he seemed even more carefree than a guest would be.

“Who are you?” It wasn’t long before a handsome young man leaped out from the side and asked this question in a curious tone.

“An old friend.” The black clothed man grinned.

“An old friend of whom?” The handsome young man continued in a curious tone.

“You’re just a spirit formed from a tiny violet cloud, and you’ve only lived for a little over a thousand years, so you naturally don’t know who I am.” The black clothed man grinned before he continued forward.

“Don’t go! Eh.... Where did he go?” The young man was about to get to the bottom of it when he suddenly noticed that he was actually unable to find that black clothed man anymore. It was like the man had vanished into thin air.

He couldn’t help but scratch his head with a dazed expression on his face. *Could it be that I’ve become too exhausted from cultivating and I’m seeing things?*

The black clothed man continued up the mountain, and it wasn’t long before he met a youth who was formed from a green lotus. He patted the youth on the shoulder and said, “Where’s your Founding Ancestor?”

The young man seemed as if he was possessed and stared blankly as he said, “I don’t know, I don’t know.”

The black clothed man sighed and said, "Nevermind, just sleep. This dream of yours can be considered to be a lucky encounter.

His voice hadn't finished resounding when the youth's body slumped down to the ground, and then transformed into a green lotus that emanated loud snoring sounds.

The black clothed man merely shot his gaze towards the peak of the mountain once he saw the youth fall asleep.

At the same time, a clear, resounding, and composed voice resounded. "May I know why the Master of the Sovereign Sect has arrived here?"

Along with this voice, a handsome and cold man with jade white skin appeared out of thin air, and he wore a fiery red Daoist's robe which was covered in wood grain patterns while his bare feet were standing on a divine lotus.

As he stood casually there, he was like a supreme divine sun that was radiating its dazzling brilliance, and it illuminated the world with resplendent and brilliant light.

Surprisingly, he was Tang Xian, the number one disciples in the line of the Third Founding Ancestor of Oracle Mountain, Wen Daozhen!

However, at this moment, there was a rare wisp of a solemn expression on Tang Xian's face as he faced that black clothed man who had his hands behind his back.

Because the black clothed man was the Sovereign Sect's Master!

Just the words 'the Sovereign Sect's Master' was like an eternal and supreme legend that could make the hearts of all living beings shudder!

The black clothed man's bearing and appearance were both extremely ordinary, and it was almost impossible for anyone to find anything unusual about him while he stood there with his hands behind his back.

However, his appearance was impossible to discern!

Even though they were facing each other, and Tang Xian could see him clearly, even a figure like Tang Xian was actually unable to lay eyes on the black clothed man's appearance.

It was like his image would be instantly eliminated from Tang Xian's mind, and it was an extremely uncomfortable feeling. It was like he didn't exist yet was standing right in front of Tang Xian.

This made Tang Xian's expression grow even more solemn while his crimson red robe fluttered.

"I've only come here for a single reason. I intend to see if Fuxi left anything in Oracle Mountain before he left." The black clothed man's voice was indistinct and impossible to capture. It felt like his voice was coming from all directions yet seemed like he hadn't spoken at all.

"This is Oracle Mountain and not the Sovereign Sect." Tang Xian spoke in a serious tone.

At this moment, his aura was being accumulated and restrained within his body like a fully drawn bow or like a volcano that was on the verge of erupting after countless years of accumulation and slumber.

If any other Daolord were to face Tang Xian right now, that Daolord would probably be horrified and flee with dread.

However, the black clothed man seemed as if he didn't sense anything, and he said, "No one in the world can stop me from going anywhere. You are no exception."

As he spoke, he took a stride forward and continued up the mountain as if Tang Xian didn't exist at all.

However, Tang Xian's countenance suddenly turned pale at the instant that the Sovereign Sect's Master took that step, and his entire body actually started to tremble.

Pu!

When the black clothed man brushed past him, Tang Xian couldn't refrain from coughing up a mouthful of blood any longer, and then his figure crashed down to the ground as if he was experiencing unimaginable pain.

"You're really not bad. Unfortunately, you were born at the wrong time." The black clothed man judged Tang Xian in a casual manner before he continued forward. He didn't seem to have moved at all, but he just instantly vanished on the spot.

Pu!

Tang Xian couldn't help but spew out another mouthful of blood while his countenance turned ghastly pale. He took a deeper breath, and his expression changed indeterminately as he looked towards the direction that the Sovereign Sect's Master had left towards.

Tang Xian had expected that Oracle Mountain would definitely be affected once the Sovereign Sect had swept through the Ancient God Domain, but he hadn't imagined that it would actually be the Sovereign Sect's Master who came!

It was too sudden, so Tang Xian didn't have the chance to make any preparations.

Moreover, a wisp of a rare sense of defeat had arisen in Tang Xian's heart when he confronted the Sovereign Sect's Master just now. The gap between them was truly too huge. The Sovereign Sect's Master wasn't someone he could resist at all.

But am I supposed to just watch as he charges up to the peak of the mountain?

When he thought about how there weren't just all his fellow disciples on the mountain, and even his little junior brother's friends were there as well, Tang Xian's heart burned with anxiety.

Eldest Senior Brother isn't here, and only Founding Ancestors Di Shun and Wen Daozhen are present in the sect. Will they be able to stop his footsteps? Tang Xian intended to push himself up, yet he felt his soul tremble while his vital blood fell into disorder. He was actually unable to exert even a trace of strength, so he couldn't help but sit down on the ground in dejection and sigh without end.

...

The path led all the way to the peak of Oracle Mountain. But a mighty and slender figure was standing at the end of that path.

He wore a cloth robe and had a golden violet colored crown of feathers on his head. His backbone was like a pillar that could hold up the heavens while her shoulders were like mountain ranges that lay across the world, and his handsome yet rough face was covered in a focused and firm expression.

When looked at from afar, it seemed like one wasn't looking at a person, and it was like gazing up a god of creation that resided in the world. His imposing aura was boundlessly vast and supreme!

He was the Second Founding Ancestor of Oracle Mountain, Di Shun!

He stood there silently as if he was waiting for something, and he only spoke flatly when he saw the figure of that black clothed man in the distance. "Since you were clearly aware that he was no match for you, then why be so hard on him?"

The black clothed man grinned. "He isn't a disciple of my Sovereign Sect, so I've already given Fuxi some face by refraining from killing him."

Di Shun said calmly, "What exactly have you come for? It's impossible to make my Oracle Mountain submit to you, and it doesn't seem necessary for you to come yourself if you wanted to destroy my Oracle Mountain."

The black clothed man nodded and said, "You're right, I've come with a very simple objective. I want to see if Fuxi left anything behind before he left all those years ago, and also take a few people with me while I'm here."

A wisp of indifference appeared on Di Shun's firm and focused expression. "My Senior Brother Fuxi only left this mountain behind, and you've seen it now. As for taking a few people with you... you'll have to pass through me first."

The black clothed man shook his head and said, "You don't understand your senior brother, and you're far inferior to him. So, I'm afraid you're far from capable of stopping me."

Di Shun said indifferently, "Don't forget that you're only a strand of will."

The black clothed man grinned and said, "It's fine. It won't affect my ability to complete my objective."

"Why don't you give it a try?" Di Shun raised his hand while a vortex appeared at the tip of his finger. The vortex was glistening, translucent, pure, and emanated a strand of horrifying energy of Destiny that seemed to be ready to swallow his enemies.

"Alright." The black clothed man raised his hand as well before a vortex appeared on the tip of his finger as well. Moreover, it similarly contained the mysterious and supreme energy of Destiny.

At this moment, nothing had occurred to the world around them, and it hadn't been affected in the slightest.

However, Di Shun's expression had instantly become solemn while the vortex on the tip of his finger revolved incessantly, causing the energy of Destiny to surge out like lava.

The black clothed man couldn't help but shake his head. "Your sight is too narrow, and it's insufficient to seek control of the whole world. Moreover, your courage is really lacking when compared to your senior brother."

As he spoke, he moved the tip of his finger lightly, and then a strand of the energy of Destiny surged out from within it, transformed into a translucent blade of light, and stabbed straight at the center of Di Shun's forehead.

It wasn't swift, and it seemed extremely slow instead. It was slow to the point that Di Shun could see it very clearly, yet the more it was like that, the heavier Di Shun's expression became. His originally indifferent face had actually flushed slightly red, and the veins on his forehead were faintly bulging.

I can't stop it!

Di Shun was clearly aware that no matter how he dodged or resisted, he wouldn't be able to avoid suffering death from that blade of Destiny.

It was like his Destiny had been judged at the moment that blade of Destiny had appeared, and it wasn't in his control anymore!

The outside world was still extremely silent, and there hadn't even been a ripple around them.

As it was said, the loudest can't be heard and the greatest seemed the most ordinary.

All its killing intent had been hidden beneath its calm. One would naturally be able to sense it if one's cultivation was sufficient; but if one's cultivation wasn't sufficient, then it would be impossible to understand regardless of how one studied it.

At this moment, Di Shun seemed to have been surprised and seemed to have noticed something. He gazed at the blade of Destiny which was right before his forehead and spoke in a low voice. "This isn't your own strength!"
