#### Chapter 451: Arriving At The Isle

Bang!

Amidst the dense mass of Savage Hummingbirds, Li Jun's spear shook as a ball of misty starlight exploded out like dazzling fireworks that spread far and wide, causing all the nearby Savage Hummingbirds to be instantly wiped out. Meanwhile, he noticed the Thousandplume Dragonboat, and his eyes lit up as he said with a ghastly voice, "It's actually the Darchu Dynasty's Thousandplume Dragonboat, looks like it's surely Huangfu Qingying up there!"

"The Darchu Dynasty!" The eyes of Yan Yu'er and the other three went cold and revealed dense hatred. Never had they imagined that they would actually encounter the sworn enemy of their Skywolf Dynasty here.

"Catch up to them. We'll make them bring us along, and then we'll seize this opportunity to seize the Thousandplume Dragonboat!" Li Jun made a prompt decision. They'd already been trapped here for half a day, and if it wasn't for them bringing sufficient medicinal pills, they'd probably have been trapped to death long ago. If they were able to seize the Thousandplume Dragonboat, then their chances of slaughtering their way out of this tight encirclement would undoubtedly increase greatly.

"Right, we'll seize their Thousandplume Dragonboat." Yan Yu'er and the others came to an understanding as well. If they continued as they were now, the probability they fell was extremely high, so they became even more eager.

Swish! Swish! Swish!

Li Jun's group of five gathered together right away, then they mobilized their True Essence as they chased towards the Thousandplume Dragonboat with all their might, and they forcefully slaughtered out a path of blood in the sea of Savage Hummingbirds.

"They're coming over!" Young Master Zhou frowned and warned.

"Fellow Daoists, encountering each other is fate. Can you bring us along with you? With our addition, all of us will be able to slaughter our way out more easily." Meanwhile, Li Jun's voice had already entered their ears.

Huangfu Qingying said coldly and disdainfully, "Everyone from the Skywolf Dynasty, do all of you think that we would help our own enemies? You really don't know what's good for you and are thinking wishfully!"

With a single sentence, she'd pointed out that both parties were enemies and not kicking them when they were already down was already sufficiently merciful, and they must be mad to still speak of such an excessive request!

"That's the hatred between two Dynasties, what does it have to do with us? We're the disciples of the younger generation, and so long as we enter the Dark Reverie, we would become friends in the same

situation. Isn't fussing about some trifles at a time like this too narrow minded?" Yan Yu'er spoke with displeasure from the side.

"All of you can consider it once more. It wouldn't be beneficial to anyone if we fight it out." Li Jun's tone was hostile, and his voice carried a dense threatening intent.

"Stop kidding yourself, no way in hell!" Young Master Zhou refused bluntly.

"Hmph! If we suffer, then don't dream of having an easy time, kill! Seize their treasured vessel!" Li Jun knew that time was of the essence, and they couldn't dally in the slightest, so he took the lead to launch an attack.

Bang! Bang! Bang!

Even though Li Jun's group of five were within the sea of Savage Hummingbirds, the Savage Hummingbirds were incapable of doing anything to them for a short period of time, and seizing this opportunity, all of them attacked brazenly. Various martial technique and magic treasures were blasted freely towards the Thousandplume Dragonboat with full force, and it shook the Thousandplume Dragonboat to the point it tremored endlessly.

"Bastards!" Young Master Zhou was angered to the point of let loose a string of curses, and he successively and fiercely struck out over 10 Azure Spirit Void Fingers in counterattack. If the Thousandplume Dragonboat were to be shaken to the point of changing its course, then they would become completely lost within the sea of Savage Hummingbirds as well, and it would become extremely difficult for them to break out of the encirclement.

"Chen Xi, I'll try hard to control the treasured vessel, and I'll leave everything else to the two of you." Huangfu Qingying was extremely irritated as well. But at this moment, she could only exert all her strength to guide the Thousandplume Dragonboat and guarantee that it wouldn't deviate from its course, so she was utterly unable to lend a hand to deal with the enemies.

"Don't worry, leave it to us." Chen Xi nodded as thunderstorms flickered all over his body and bolts of lightning flowed, and then numbered vortexes transformed into a stream of storms that swept out and smashed down towards his enemies.

As soon as Chen Xi made a move, he instantly blocked the frenzied attacks of Li Jun's group of five. But he was only able to block their attack, and he was utterly unable to annihilate the five of them

After all, there were countless Savage Hummingbirds in between their groups. The strengths of these Savage Hummingbirds was comparable to Golden Core Realm cultivators, so when sandwiched in between the two groups, they instantly became victims that offset more than half of the might of his attack, causing him to be utterly unable to injure Li Jun and the others.

Just like this, ahead of them was a black mass of Savage Hummingbirds, and behind them was five experts of the Skywolf Dynasty that were in hot pursuit. Both parties were in a deadlock, their situations were extremely grim.

Both parties knew clearly that so long as they relaxed in the slightest, it would cause unforeseeable consequences, and these consequences were something neither side wanted to see. But comparatively speaking, the situation of Chen Xi's group was slightly better as they'd just entered into the sea of

Savage Hummingbirds, they were at their peak states, and they possessed the Thousandplume Dragonboat to carry them. So long as they continued persisting, then they would surely be able to easily charge out of the sea of Savage Hummingbirds and shake off the enemies behind them.

On the other hand, even though Li Jun's group of five occupied an absolute advantage in terms of number, they'd been trapped here for half a day, causing their bodies and minds to be exhausted long ago. If they still didn't change their situation, then they would probably be trapped in the sea of Savage Hummingbirds and die with hatred in their hearts in the end.

"I've said it before, all of you will regret it!" When Li Jun saw they were unable to obtain success after attacking for so long and were unable to do anything to the Thousandplume Dragonboat, a ghastly and resolute expression flashed on his face.

"Scorching flames burn far and wide, world destroying spear!" With an explosive shout, the silver spear in his hand droned before piercing out with a myriad of rays of flames that were like a myriad of fire dragons dancing about as they swept out in all directions/

Poof! Poof! Poof!

The might of this spear strike was fierce, swift, and matchlessly overbearing. Everywhere it passed, the sea of Savage Hummingbirds ahead was incinerated into nothingness, and it instantly arrived above the Thousandplume Dragonboat before fiercely smashing down.

If this strike were to hit, then even if the Thousandplume Dragonboat wasn't destroyed, it would probably be struck to the point it deviated from its course.

"You're truly courting death!" Chen Xi's eyes went cold as killing intent gushed out, then his arms swept through the sky and condensed a thunderstorm vortex that was enormous like a millstone, and it instantly devoured all the flaming rays that covered the sky.

"Go!" Chen Xi stretched out his hand to grab onto this thunderstorm vortex, and then he swung it out fiercely.

Bang!

After this thunderstorm vortex had devoured the energy of the surging rays of flames, its volume had enlarged by more than 10 times, and it was like a thunderstorm sun that charge out ferociously. Everywhere it passed, it was like an explosive torrent that easily traversed the distance between Chen Xi and Li Jun's group, and a young man by Li Jun's side didn't avoid it in time, causing him to be instantly swallowed by the thunderstorm vortex and crushed into mush that evaporated in the blink of eye.

Li Jun himself didn't feel very good as well. This thunderstorm vortex was too terrifying and contained the Grand Dao profundities of Lightning and Devour. It flew all the way and devoured energy all along the way, causing its might to rise explosively by a few times, and if it wasn't for him dodging as early as possible, he'd probably have been swept into the thunderstorm vortex as well and suffer the same end as that young man.

"When did such a terrifying fellow appear in the Darchu Dynasty!" Yan Yu'er was astonished in her heart, and when she saw Li Jun was being suppressed, she hurriedly lent a hand. The jade green curved

blade in her hand danced about as it emanated numerous piercingly cold Jade Phosphorus Flames that shot out explosively like a storm.

“A tiny pearl dares compete in brightness with the sun?!” Chen Xi’s expression remained unchanged as he condensed another thunderstorm vortex once more, and it was like a Roc swallowing water as it completely devoured all the Jade Phosphorus Flames before it was once again swung out by him to smash down towards Li Jun’s group.

Under Chen Xi’s terrifying attack, another young man in Li Jun’s group wasn’t able to dodge in time, and he was devoured by the vortex. His flesh sprayed out as he was instantly crushed into nothingness, and the sight was too horrible to look at.

In the time of a few breaths, two people had died in battle, and only Li Jun, Yan Yu’er, and another young man remained. At this moment, all three of them were both shocked and furious, and they had no choice but to keep their distance with the Thousandplume Dragonboat and give up their pursuit.

“I, Li Jun, will remember this!” Li Jun’s voice that was icy cold to the extreme sounded out from afar.

“Could it be that we would be afraid of you?” Young Master Zhou spoke disdainfully. Without the annoyance of Li Jun’s group, the pressure on them abruptly lessened, and they only had to kill the Savage Hummingbirds in their paths.

Gradually, the density of the Savage Hummingbird became much thinner, and they were already faintly able to see trace of bright light in the extreme distance.

Swoosh! In the next moment, everyone felt the pressure upon them lighten up as the Thousandplume Dragonboat had already charged out from the dense mass of Savage Hummingbirds and once again saw the light of day.

“Fortunately, we had the Thousandplume Dragonboat. If we were alone, it would truly be difficult for us to kill these inexhaustible little things.” Young Master Zhou heaved a sigh of relief as he smiled.

“Look, isn’t that Pei Yu and the others?” Chen Xi looked towards the distance, and he saw Pei Yu and the others standing in the extremely distant sky while looking towards them.

“Hmph! These fellows ran really quickly, yet they’re waiting there now. Obviously, they wanted to watch us die, but unfortunately, we disappointed them.” Young Master Zhou grunted coldly.

“Let’s go quickly. We’ve already charged out of the sea of Savage Hummingbirds, and we’re probably already not far from the Isle of Fallen Treasures. So long as we arrive at the Isle of Fallen Treasures, we’ll split up with Pei Yu and the others so as to avoid being vexed by the sight of them.” Huangfu Qingying smiled and spoke excitedly.

Chen Xi nodded, and then he said to himself in his heart, I’m afraid that Pei Yu will absolutely not let me leave so easily after we arrive at the Isle of Fallen Treasures...

Their group converged with Pei Yu and the others before continuing on their way.

...

Not long after they left, three figures that were in sorry states bore out from the dense mass of Savage Hummingbirds, and they were precisely Li Jun, Yan Yu'er, and the other young man.

"Dammit! I, Li Jun, have never suffered such a loss!" Li Jun gnashed his teeth as his expression changed indeterminately. As the leading figure in the younger generation of the Skywolf Dynasty, being crushed by Chen Xi this time caused him to be extremely vexed in his heart.

"That young man by Huangfu Qingying's side ought to be Chen Xi, the number one expert in the younger generation of the Darchu Dynasty. According to the information, this person's strength even slightly surpasses the reincarnated Heavenly Immortal, Qing Xiuyi." Yan Yu'er frowned as she spoke.

"Hmph! The Darchu Dynasty is an ordinary Dynasty in the end, so how can it compare with a first-rate Dynasty?" Li Jun's eyes narrowed into slits as he said gloomily, "They're presumably heading over to the Isle of Fallen Treasures to explore it, whereas we're heading there as well to gather with the genius experts of the Darqin Dynasty. At that time, we must find an opportunity to take revenge!"

"The Darqin Dynasty? That's a formidable existence that's one of the seven first-rate Dynasty." Yan Yu'er's eyes lit up as she asked. "Senior Brother Li Jun, when did you get in touch with them?"

Li Jun's eyes flashed with a trace of a complacent expression, yet he spoke casually. "The Seventh Prince of the Darqin Dynasty, Senior Brother Qin Xiao, is the disciple of my Master's Senior Brother from the same sect, so both of us are actually considered to be brothers of the same sect. With his assistance, I don't believe we'll be unable to annihilate Chen Xi!"

When he spoke up to here, Li Jun's gaze swept Yan Yu'er and the other young man as he said, "There's no time to lose. Let's depart right away. Savage Hummingbird are reputed as birds of the fallen, and the place they make an appearance is surely not far from the Isle of Fallen Treasures."

"Yes!" Yan Yu'er and the other young man nodded before following behind Li Jun and flashing towards the distance. They were five when they came, yet had become three now, causing them to be slightly miserable.

### **Chapter 452: Numerous Experts**

A gale surged while violent waves shook the skies above the Primitive Sea.

Chen Xi and the others were flying in midair. Since they charged through the line of defense of the Savage Hummingbirds, they'd encountered numerous formidable demon beasts all along the way, and there were even existences on par with Violent Waterflame Apes.

For example, Ironhide Ghostfishes, Three-headed Jade Turtles, Devilflame Horned Sharks, and so on and so forth. But their numbers weren't great, whereas Chen Xi and the others didn't get locked in battle for too long, and they charged and killed all along the way to forcefully slaughter out a bloodied path.

Even then, Chen Xi still obtained a great amount of benefit.

The skin, fur, bones, and Origin Pearls within the bodies of these sea demons were extremely valuable and precious materials. Some could be refined into spirit pills, some could be used for equipment refinement, and they possessed numerous usages. Amongst them, Chen Xi had gathered numerous

materials that were capable of improving the quality of the Talisman Armament, so it could be considered to be a good harvest.

But when the Talisman Armament's quality was improved once more, its might would be comparable to a top-grade heaven-rank magic treasure or even a Quasi Immortal Artifact, and because of this, it had extremely harsh requirements towards the various materials that were needed. Not only was the number of materials needed enormous, even the requirement of quality was extremely high. After gathering all along the way, Chen Xi had only gathered one tenth of the various materials that were needed.

At the same time, Chen Xi could be considered to have truly experienced the dangers of the Primitive Sea. Countless sea demons of all sorts formed large groups that covered a large expanse that was like a dense mass of darkness, and they numbered in the thousands, ten thousands, or even hundred thousands!

Moreover, the deeper they ventured into the Primitive Sea, the strengths of the sea demons that appeared grew stronger, and Chen Xi had even noticed many terrifying overlord level sea demons that possessed auras that were like bottomless chasms and were simply comparable to Earthly Immortal Realm experts in terms of strength!

When they noticed these extremely dangerous existences, Chen Xi and the others avoided them as soon as possible and went around them. Fortunately, these overlord level sea demons seemed to be cultivating in seclusion and couldn't be bothered to pay attention to little fish like them, so they were only shocked, yet didn't suffer any danger nor lethal attacks all along the way.

As they went deeper into the Primitive Sea, a strange treasure had appeared in the hands of the Darjin Dynasty's Crown Prince, Pei Yu. It was palm sized and seemed like the shell of a turtle, and its surface had numerous strange talisman markings inscribed on it, causing it to seem like a compass. Pei Yu had relied on this treasure to lead everyone in the boundless sea to find the Isle of Fallen Treasure.

"We've finally arrived at the Isle of Fallen Treasure!" Suddenly, Pei Yu stopped moving and raised his head to look into the distance, and his voice revealed a trace of excitement and happiness.

The spirits of the others were refreshed when they heard this, and then they raised their eyes to look into the distance.

Bum! Brum! Bruuuuummm!

Chen Xi had just spread out his Divine Sense when he sensed countless desolate sounds that were like war horns and a piercingly cold iron blooded aura of battle coming out from the distant surface of the sea. It seemed as if the gods of ancient times were at battle, and it shook his heart.

We've finally arrived at the Isle of Fallen Treasures!

Their group had travelled in the Primitive Sea for around a few days and nights, and they'd experienced countless dangers before arriving at this mysterious Isle of Fallen Treasures.

The Isle of Fallen Treasures was enveloped in a layer of dense mist that drifted in the surroundings while staying extremely condensed and showing no signs of dissipating, and it caused them to be unable to clearly see if the isle really existed.

It was said to be an isle, yet it was no different than a continent that floated on the surface of the sea as one couldn't see the end of the isle with a single glance, and it at least covered an area of a few hundreds of thousands of kilometers.

Gales and violent waves whistled past, causing the mist above the Isle of Fallen Treasures to drift indeterminately, yet it didn't dissipate from the beginning until the end, and it seemed as if the isle would forever stay extremely mysterious and be enveloped within the mist.

The sound of desolate war horns, the furious shouts of the gods that shook the heavens, and miserable howls that caused one's scalp to go numb could be faintly heard, and it put a terrifying veil on the Isle of Fallen Treasures.

"According to rumor, not only are there numerous treasures and the shattered pieces of things left behind by the fallen gods, there are numerous extremely formidable demons concealed on the Isle of the Fallen Treasures. There are even ancient souls of the dead drifting within the isle, causing it to be extremely dangerous and terrifying. Once we enter the isle, everyone must be sure to be careful." Pei Yu's expression had become completely serious as an extremely sharp and pure golden ray of sword light floated out into appearance and guarded in his surroundings.

The hearts of the others became apprehensive when they heard this, and more than half of the excitement and delight on their faces vanished as they became completely on guard.

"Let's go. The experts of other Dynasties have probably entered the isle long ago. Once we enter the isle, we'll be unable to avoid some competition from occurring. So everyone must be united and not give others an opportunity to take advantage of." Pei Yu glanced at everyone and especially took a second glance at Chen Xi before turning around and charging towards the distant isle.

Chen Xi thought for a moment and decided to temporarily stay in Pei Yu's group. After all, this fellow seemed to be rather knowledgeable about the Isle of Fallen Treasure, so it wouldn't be late for them to leave after they entered with him and familiarized themselves with the situation in the isle.

In next to no time, they'd passed through the roiling and dense mist to arrive on the Isle of Fallen Treasures.

This isle had no plants and lacked vitality, the ground was crimson red as if it had once been tainted with fresh blood, and everywhere the eye could see was like ruins after a battle.

However, this place wasn't silent. Within the coiling mist was the flickering light of treasures and overflowing divine lights, and it seemed to contain countless treasures, causing the isle to seem like a forgotten place that was filled with treasures.

There was a door that was formed from two majestic and large mountains. The area within it was cast and covered with layers of mist that enveloped most of the ruins, causing one to be unable to see exactly what was within. But there were numerous dazzling glows of treasures that whistled in the air and charged out frequently from within.

Obviously, those dazzling glows of treasures seemed to be from the treasures left behind by the ancient gods during their expedition in the legend, and the glows of treasures seemed like rain droplets that covered the sky and seemed to possess intelligence as they tempted the hearts of everyone.

At this moment, there were many people gathered outside the door.

Moreover, these people were extremely numerous. All of them were extremely young in appearance, and they were in groups of two to five and scattered all around the mountain door. Obviously, all of them were genius experts from the various Dynasties.

When Chen Xi and the others arrived, they saw this extremely magnificent scene. Dense mist enveloped the area within the mountain door as the glow of treasures frequently flashed by, whereas outside the mountain door was numerous young geniuses that walked about and seemed to be unable to decide whether to enter or not.

“The Snowray Dynasty, the Eagle Dynasty, the Century Pool Dynasty, the Darqin Dynasty... There are so many genius experts!” When they arrived here, Young Master Zhou felt his eyes were insufficient to take in everything here, and at the same time, he wasn’t so arrogant anymore and didn’t go beyond his bounds. Because there were numerous geniuses here, and all of them were extremely formidable and emitted auras that caused his heart to palpitate.

Chen Xi marveled at it as well. The scene of so many genius experts gathered together was rather magnificent indeed, and it gave one an extremely strong visual impact.

“Look, quickly! That group of fellows are actually demon cultivators with pure bloodlines and formidable auras. Could it be that they’re the descendants of ferocious beasts of the primordial era?” Young Master Zhou spoke out with astonishment.

Chen Xi raised his eyes to look over. Sure enough, he saw a few young men in the distance that were covered in surging demonic qi. Their demonic qi coiled in midair and faintly formed the appearance of various formidable creatures. One was a golden and enormous bird, one was a white colored liger, one was a bronze colored divine ant, and so on and so forth. All of them were the appearances of rare ferocious beasts of the primordial era.

“These demon cultivators ought to be the genius experts from the Century Pool Dynasty, as it’s a Dynasty of demon cultivators. There are numerous rivers and lakes within the Century Pool Dynasty, allowing infinite amounts of beasts to reside there. But since these demon cultivators were able to enter the Primeval Battlefield, they obviously possess extremely noble ferocious beast bloodlines, and their strength can’t be underestimated.” Chen Xi was extremely shocked in his heart.

The appearance of Chen Xi’s group had also drawn the attention of the experts of the various Dynasties that were present here.

“It’s the Darjin Dynasty’s Crown Prince, Pei Yu!”

“The Darjin Dynasty? My god! After the Darqin Dynasty, another genius expert from a first-rate Dynasty has appeared. With them joining in, the competition will probably become even greater.”

“Wait, look! Those three behind Pei Yu’s group are probably the disciples of the Darchu Dynasty. If I’m not wrong, the young woman in the lead is undoubtedly the daughter of Emperor Chu, Huangfu Qingying.”

“The Darchu Dynasty? Haha, interesting, interesting! Members of the Snowray Dynasty and Eastern Summer Dynasty that have a bitter feud with the Darchu Dynasty are present. If these people were to collide, the scene would surely be extremely interesting.”

“But those three people from the Darchu Dynasty are intelligent. They’ve attached themselves to the experts of the Darjin Dynasty to obtain protections, and anyone who wants to make a move against them would probably have to weigh their ability.”

When everyone nearby saw the appearance of Chen Xi and the others, all of them started discussing. Some were afraid of Pei Yu’s group, and there were some that took pleasure in the misfortune of Chen Xi’s group of three.

Chen Xi’s expression was indifferent, and even until now, he was still extremely curious in his heart. The Darchu Dynasty is a mere ordinary Dynasty, yet how did it provoke so many enemies?

In the information given by the Civil Marquis, there were two first-rate Dynasties amongst those that had enmity with the Darchu Dynasty, and they were respectively the Darqian Dynasty and Darxuan Dynasty. Besides these two Dynasties, there were countless other ordinary Dynasties like the Skywolf Dynasty, Snowray Dynasty, Eastern Summer Dynasty, and so on and so forth.

Chen Xi was truly unable to imagine exactly what sort of horrible thing had Emperor Chu done to actually offend so many formidable enemies, and this had imperceptibly made numerous enemies for all of them young disciple that had entered the Primeval Battlefield.

Chen Xi saw the Snowray Dynasty’s Sword Crazy Kid, Taishu Huarong’s, group and the Skywolf Dynasty’s Di Wanlou’s group in the crowd, and the gazes of these people that contained hostility swept over coldly when they saw Chen Xi and the others appear.

Chen Xi couldn’t help but think in his heart. Li Jun and Yan Yu’er are both from the Skywolf Dynasty as well. If they arrive at the Isle of Fallen Treasures to converge with Di Wanlou’s group, then they would be a formidable force.

“Hmph! I never imagined I would actually be able to see Brother Pei here. The wills of the heavens really plays tricks on us all!” Right at this moment, a cold grunt resounded out abruptly.

The entire crowd was in a commotion when they heard this, and they seemed to recognize the owner of this voice, causing them to move aside successively and open up a path.

After that, the figures of three young men appeared within Chen Xi’s field of vision.

The young man in the lead had a tall and impressive figure, his facial features had firm outlines, and his aura was formidable and towered above all. Obviously, he wasn’t someone that an ordinary genius expert could compare to.

“That’s the Darqin Dynasty’s Crown Prince, Qin Xiao. The two young men by his side are Wei Kong and Cheng Feng.” Huangfu Qingying spoke swiftly via voice transmission. “Just like the Darjin Dynasty, the Darqin Dynasty is a first-rate Dynasty. Moreover, as the Crown Prince of the Darqin Dynasty, Qin Xiao is famous for being brave and skillful in battle, and his strength is absolutely strong to the extreme.”

Qin Xiao, Wei Kong, Cheng Feng... Chen Xi only paid slight attention to Qin Xiao before his gaze descended onto the two people behind Qin Xiao, as he'd immediately recalled who these two people were, and the corners of his mouth couldn't help but curl into a spurious smile.

### Talisman Emperor

#### **Chapter 453: Peerless Flying Beast**

When he'd just arrived at the Primeval Battlefield, Chen Xi had once fought with the Full Moon Kingdom's Xu Lengye, and at that time, Wei Kong and Cheng Feng were hiding in the distance with the intention of reaping the benefit from whichever side that won.

At that time, Chen Xi had sensed the existence of these two people, so he'd always held back for the sake of being on guard against these two interfering. Later on, for some unknown reason, the two of them had left half way.

Now when he saw Wei Kong and Cheng Feng once again, Chen Xi instantly came to an understanding. These two fellows had probably received a message from Qin Xiao, causing them to leave hastily, and it was for the sake of entering the Isle of Fallen Treasures with Qin Xiao.

If it wasn't for this, these two people would probably not allow me to so easily seize that Quasi Immortal Artifact, Flaming Peacock Fan, from Xu Lengye.

All in all, even though these two people hadn't made a move on that day, but their intentions deserved death, and Chen Xi didn't mind finding an opportunity in the Isle of Fallen Treasures to fiercely deal with the two of them.

Meanwhile, Wei Kong and Cheng Feng had noticed Chen Xi as well, and they were slightly stunned before swiftly sending a voice transmission to Qin Xiao who was by their side.

When he saw this, Chen Xi didn't have to guess to know that the two of them had surely told Qin Xiao about the matter of him seizing Xu Lengye's Quasi Immortal Artifact.

These two fellows are really troublesome. Killing intent was unconsciously aroused in Chen Xi's heart. A Quasi Immortal Artifact was a matter of great importance that even Earthly Immortal Realm experts covered extremely. After Qin Xiao found out about this, he would probably arouse covetous intentions towards Chen Xi.

Sure enough, in the next moment, Qin Xiao suddenly shot his gaze onto Chen Xi, and he briefly sized Chen Xi up before a trace of disdain arose on the corners of his mouth. His expression seemed like that of a ravenous wolf that had fixed its eyes on its prey, and it caused Chen Xi to feel uncomfortable.

"Hmph! I never imagined that Brother Qin would appear here as well. It's truly disappointing to the extreme." Pei Yu was stunned when he saw Qin Xiao's group of three, and then he grunted coldly.

"Haha, both of us can't bear the sight of each other. Why don't we decide a winner once and for all on this Isle of Fallen Treasures? I heart the Darjin Dynasty's Imperial Family's Ultimate Technique, Exalted Jadegold Sword Control, contains deep understanding of the Dao of kings. A single sword strike is like the arrival of a king, and I've wanted to have a taste of it since a long time ago. Brother Pei, do you dare to enlighten me?" Qin Xiao laughed towards the sky with a voice that was like a thunderclap that shook the surroundings, and an overbearing and conceited expression was clearly revealed from him.

“What is there to be afraid of? I too want to see if it’s your Darqin Dynasty’s Nine Dragon Heavenshock Blade or my Darjin Dynasty’s Exalted Jadegold Sword Control that’s more formidable!” As Pei Yu’s eyes opened and closed, the battle intent in his entire body surged, and he similarly displayed the proud bearing of the Crown Prince of a first-rate Dynasty.

One was the Crown Prince of the Darqin Dynasty, the other was the Crown Prince of the Darjin Dynasty, both of them were extremely respected figures in the world, and if it was in terms of status, then practically no one present could compare to them.

At this moment, they’d jumped at each other’s throats as soon as they met, and they intended to determine a victor amongst them. This instantly drew an enormous uproar in the crowd.

The countless gazes present converged onto them and revealed excitement, and they seemed to have never expected that they hadn’t started exploring for treasures yet were already able to witness an extraordinary battle. It’s really too exciting!

Screech! Screech!

However, right at this moment, a fierce bird cry shook the sky as violent winds blew, causing sand and pebbles to fly up into the sky, and an enormous bird suddenly plunged down from the sky. The bird was completely green in color yet possessed crimson shine flickering on its body, and it emitted a brilliant glow.

This was a ferocious flying beast with wings that were bright and translucent like jade, its beak was pure white in color, and most peculiar of it all was that it actually only possessed a single leg. But it descended extremely stably on the ground and caused countless cracks that were like spider webs to crack apart on the ground.

Instantly, Qin Xiao and Pei Yu both abandoned their confrontation and swiftly shot their gazes towards this flying beast, whereas the others shot their gazes over in unison as well. It couldn’t be helped, the imposing aura emitted by this flying beast was too astonishing.

“Inferno Crane, it’s actually the Inferno Crane[1] of legend!” Someone cried out in shock.

The expressions of everyone couldn’t help but go grim. A flying beast like this was extremely rare and was absolutely an overlord in the primordial era, and it was a peerless flying beast that was claimed to be able to tear gods apart.

Everyone was shocked to the extreme. Flying beasts like this were exceedingly rare and even rarer than ancient divine beasts. I wonder if this Inferno Crane’s bloodline is pure. If it’s really a pure-blooded descendant of the Inferno Crane, then it’s probably capable of swallowing a group of geniuses with a single gulp.

Chen Xi was extremely shocked in his heart as well. But he couldn’t be said to be fearful. He only suddenly recalled the words his Third Senior Brother had once said. Without exception, all peerless divine beasts and flying beasts contain Grand Dao markings in their bodies. If cultivators are able to obtain them by luck, then a cultivator could comprehend various Grand Daos from within it and develop formidable martial techniques and Divine Abilities.

For example, the Stellar Lightningform was obtained from the markings on the Roc's bone, and compared with the Inferno Crane before him, an existence that was almost heaven defying like the Roc was obviously much more terrifying.

Chen Xi carefully sized up this Inferno Crane while holding such thoughts. Its form was like a crane that was completely made of green jade, and it was suffused with a glossy sheen. Its beak was pure white, while its entire body was coiled with divine lights that were dazzling and resplendent.

Moreover, Chen Xi also noticed that the single leg of this Inferno Crane had dense and mysterious markings covering it. These markings seemed to be natural, and it emitted the aura of a mysterious Grand Dao.

Oh, if I capture it and extract its leg bone, I wonder if I'll be able to comprehend the profundities of the Grand Dao markings on the bone like Third Senior Brother said? Chen Xi was lost in thought.

"Eldest Senior Sister!" Meanwhile, the demon cultivators from the Century Pool Dynasty suddenly cried out with pleasant surprise, and then they flashed towards the Inferno Crane and actually addressed it as Eldest Senior Sister!

The hearts of everyone jerked when they saw this, and then they instantly came to an understanding. This peerless flying beast is actually one of the formidable demon cultivators that have entered the Primeval Battlefield from the Century Pool Dynasty.

Even though the Century Pool Dynasty was a kingdom where various living creatures resided and possessed countless demon cultivators, yet its strength could only be considered to be ordinary, and it was far from being able to compare with a first-rate Dynasty.

Before this, everyone had taken the groups from the Darqin Dynasty and Darjin Dynasty to be the strongest groups present, but at this moment, the appearance of this Inferno Crane caused them to instantly realize that these demon cultivators from the Century Pool Dynasty were probably amongst the strongest groups present.

Swoosh!

In the next moment, the wings of the green colored Inferno Crane that emitted dazzling divine lights spread open, and it instantly transformed into a green clothed young woman. Her appearance was beautiful, her eyes pitch black, her hair jet black and long like a waterfall, and her skin was white and crystalline while flowing with strands of divine light. Especially the space between her brows had a naturally grown triangular shape crystal that flowed with multicolored lights that were dazzling and resplendent.

Not only did she wear green clothes, her clothes were plain and neat, and her figure was tall and graceful with beautiful and alluring curves. If it wasn't for them knowing that this woman was transformed from an Inferno Crane, anyone who saw her would be unable to help but take her to be a naturally gorgeous peerless beauty.

Chen Xi couldn't help but be dumbstruck when he saw this scene. Earlier, he was thinking about how to capture the Inferno Crane and extract its leg bone to comprehend the Grand Dao markings on it. Now

the Inferno Crane had instead become a young beauty that was cold and pure as jade. This caused him to hesitate, and he contemplated whether he should commit a deed of ruthlessly destroying a flower.

"I remember now. She ought to be the number one expert of the Century Pool Dynasty, Bi Lingyun. But never had I imagined that she's actually the descendant of a peerless flying beast.

"Since she was able to be sent into the Primeval Battlefield by the Century Pool Dynasty, this woman's bloodline is probably extremely pure, and her potential is surely extremely shocking. Once she matures, she'll absolutely be terrifying to the extreme."

"Hmph! She's only a female demon. There's no lack of existences that are capable of firmly suppressing her amongst our human cultivators. For example, Crown Prince Qin Xiao and Crown Prince Pei Yu's strengths are absolutely not inferior to her."

When they saw Bi Lingyun reveal her beautiful and extraordinary appearance, a wisp of shock suffused the eyes of everyone present, and some even recalled Bi Lingyun's identity, causing them to start discussing animatedly.

Strictly speaking, demon cultivators and human cultivators were born enemies. But once demon cultivators possessed supreme intelligence and formidable strengths, they'd already become existences that were equal to human cultivators. So they competed with each other in strength and wouldn't demarcate each other based on race.

Moreover, according to rumor, the boundlessly vast continent of the Dark Reverie had a myriad of races like the number of trees in a forest. Various races were present there, and the birth of some could even be traced back to the absolute beginning of the world, causing them to be even more respectable than human cultivators. Thus, if they still demarcated each other according to race, then human cultivators could only be considered to be an ordinary race.

Bi Lingyun's clear eyes spun as she swept the surroundings with her gaze, and the hearts of everyone who was discussing softly tightened before instantly shutting their mouths. When she saw this, Bi Lingyun walked gracefully to arrive at a secluded spot, and then she looked silently at the region after the mountain door.

The other genius demon cultivators of the Century Pool Dynasty gathered by her side in high spirits, and they seemed to have found their backbone, causing them to no be afraid any longer.

Nearby the lofty mountain door, genius experts ceaselessly rushed over and grew more and more numerous, more and more dense, causing them to become a boundless dense mass. All of them were extremely terrifying and were top figures that were selected from the younger generation of their respective Dynasties.

But once they arrived here, all of them became cautious and careful, and they didn't dare be careless. After all, this wasn't their respective Dynasties, and it wasn't a place where they could act willfully.

Conversely, this Isle of Fallen Treasures was a place the treasures possessed by the gods of ancient times were left behind, and it was filled with boundless dangers and ancient dead spirits drifting about. Once they encountered these things, they would surely perish.

Coupled with them having to be on guard against the genius experts of the various other Dynasties competing with them while exploring, their situation had become even more grim, so they didn't dare be careless and inattentive at this moment.

"Crown Prince, Big Brother Di, look, that's Chen Xi. It's he who killed Fan Rong and Zhang Qin!" Suddenly, Li Jun's voice that was filled with deep rooted hatred sounded out from within the crowd.

Chen Xi raised his head to look over, and he couldn't help but frown.

It turned out that Li Jun, Yan Yu'er, and the other young man had arrived at the Isle of Fallen Treasures without him noticing. Moreover, at this moment, they'd already gathered with the Skywolf Dynasty's Di Wanlou and the others. Their group consisted of an entire eight people, and it practically covered all the genius experts of the Skywolf Dynasty that had entered the Primeval Battlefield this time.

Most importantly, at this moment, Li Jun and these other disciples of the Skywolf Dynasty had gathered with Qin Xiao's group from the Darqin Dynasty, forming a force that was enormous to the point of causing one to feel fearful.

After all, the forces of the Darqin Dynasty, Darjin Dynasty, and Century Pool Dynasty was the most enormous amongst the people present. At this moment, the addition of Li Jun's group of three had instantly caused the force of the Darqin Dynasty to become the most enormous amongst the other forces present here.

Meanwhile, while residing within such a force, Li Jun had suddenly taken action against Chen Xi, causing his situation to instantly become precarious.

1. '毕方' It's a bird of legend that's an omen of imminent flaming destruction

### [Talisman Emperor](#)

#### **Chapter 454: Rising To The Challenge**

Li Jun's voice had similarly drawn the attention of the others nearby. The Darchu Dynasty's Chen Xi killed two genius experts of the Skywolf Dynasty?

Everyone revealed interested expressions. The Darchu Dynasty and the Skywolf Dynasty had a bitter feud with each other, and since the genius experts of these two Dynasties had encountered each other here, they would probably carry out an intense life and death battle.

Pei Yu frowned. So this fellow is a troublemaker. I haven't even used him yet he has caused a pile of trouble instead. If he seeks help from me, then... Should I help him or not?

"Crown Prince, we should look on coldly as a bystander in this matter. Even you've seen that those members of the Skywolf Dynasty had gathered together with Qin Xiao. If we stand out for Chen Xi, then it would be equivalent to going against the Darqin Dynasty, and it isn't worth it." When he saw Pei Yu frown, Cui Xiuhong instantly guessed Pei Yu's thoughts, and he swiftly suggested.

"Hmph! Do you think I would be afraid of Qin Xiao?" Pei Yu spoke with displeasure.

"Crown Prince, you've mistaken what I meant." Cui Xiuhong hurriedly explained. "I'm worried about those members of the Century Pool Dynasty. After all, it's perfectly obvious how formidable that Bi

Lingyun is, and if you and Qin Xiao fight with each other, it would probably allow her to reap the final benefit.”

Pei Yu expression was hesitant, and he pondered silently.

...

Meanwhile, Qin Xiao frowned as well, and then he said, “Li Jun, that Chen Xi is with Pei Yu now. If it was any normal time, I would surely make a move and kill him myself. But, there’re formidable enemies lying in wait, and once I start a full-scale fight with Pei Yu, I’m afraid others would reap the benefit from this battle.”

Event though he had an overbearing character, he wasn’t stupid, and he naturally understood that it was truly inadvisable to shed all pretenses with Pei Yu under these current circumstances.

The expression of Li Jun, Yan Yu’er, and the other young man in their group became stiff. Since killing their way out of the sea of Savage Hummingbirds, they’d always been holding back a belly full of rage. When they saw Chen Xi again at this moment, their eyes could be said to be blazing with hatred when coming face to face with their enemy, so how could a few words make them give up their thoughts of taking revenge?

“Crown Prince, how about I make a move to probe Pei Yu’s reaction? If Pei Yu defends Chen Xi, then we’ll find another opportunity to make a move, and if Pei Yu disregards Chen Xi, then I’ll kill him directly. In this way, you and Pei Yu wouldn’t become thoroughly hostile with each other because of this.” The nearby Di Wanlou suddenly spoke out.

Qin Xiao pondered for a moment, and then he nodded and said, “That is fine as well, then it’s up to you.”

“Thank you, Brother Di.” The expressions of Li Jun’s group of three was refreshed, and all of them were extremely delighted. Di Wanlou’s strength was extremely formidable and matchless amongst all of the genius experts of the Skywolf Dynasty, and if he made a move, then dealing with Chen Xi would be as easy as turning over one’s hand.

Di Wanlou smiled lightly, and then he didn’t say anything further before turning around to walk towards Chen Xi.

...

“Chen Xi, the situation seems to be bad.” At the same time that Qin Xiao and the others were discussing the matter, Huangfu Qingying said while frowning, “These fellows have actually gathered together with Qin Xiao’s group, whereas Pei Yu holds hostility towards you and probably won’t protect you too much. Once a battle erupts, our situation would be worrisome.”

“Hmph! Why think so much? If they dare go against us then we’ll fight together and kill as many as we can.” Young Master Zhou grunted coldly and spoke with a murderous air.

Chen Xi shook his head instead. “Both of you don’t make any rash movements for now. In my opinion, they wouldn’t dare rashly cause trouble in front of so many people.”

When he spoke up to here, he smiled as a wisp of confidence suffused his eyes, and it seemed as if everything was within his control as he continued. "At most, they'll send out one or two people to challenge me. In this way, they'll be able to control the situation to a certain extent and avoid others reaping the benefit from the battle. Qin Xiao and Pei Yu aren't stupid, so they surely understand this logic."

Huangfu Qingying and Young Master Zhou were stunned, yet they were slightly doubtful.

However, in the next moment, what happened instantly caused them to feel heartfelt admiration towards the precision of Chen Xi's deduction.

The reason was fairly simply, Di Wanlou had come to challenge Chen Xi alone!

Di Wanlou possessed a tall figure, a powerful aura, and a gaze that was like bolts of lightning. He walked over in a dignified manner while his aura rose steadily, and his icy cold and indifferent expression revealed a peerlessly powerful bearing.

"Chen Xi, I presume you heard what Brother Li said earlier. A debt of blood must be repaid in blood. Do you dare come forward and fight me to completely put an end to this enmity?" Di Wanlou stopped abruptly when he was 300m away from Chen Xi, and he stood there like a lofty mountain while speaking with a deep voice.

His voice was like the sound of weapons collided with each other and shook the surroundings, causing even the air to carry a trace of a heavy and murderous feeling.

Within the lofty mountain door was layer upon layer of mist while numerous dazzling and resplendent glows of treasures flew about and were faintly visible. According to rumor, the things left behind by the gods of ancient times during their expedition had obtained intelligence long ago.

On the other hand, numerous genius experts were distributed all around the area outside the mountain door. But they didn't dare make any rash movements and didn't enter the mountain door right away. The gazes of everyone had been drawn over by the actions of Di Wanlou for now.

Pei Yu's heart tightened as he repeated to himself. Please don't seek help from me, please don't...

As if the gods had felt the devotion in his heart, Chen Xi really didn't seek for help from him, and Chen Xi didn't even ask Pei Yu's opinion before directly walking out and saying indifferently. "Killing two is still killing, killing a group is still killing. Since you're looking for death, I'll fulfil your wish."

At the same time that Pei Yu heaved a sigh of relief in his heart when he saw this, he couldn't help but feel a sense of loss in his heart, and he was annoyed in his heart. He didn't even notify me. Could it be that I'm completely useless in the heart of this fellow?

After that, he laughed in self ridicule. What's wrong with me? A tiny little Chen Xi is able to make me anxious?

Meanwhile, the expressions of everyone instantly became excited when they saw Chen Xi had actually accepted the challenge and had spoken so ferociously. A battle of life and death between the genius experts of two great Dynasties was about to begin, and it would absolutely be extremely brilliant.

Everyone consciously moved to open up an empty space for Chen Xi and Di Wanlou to fight.

“He succeeded! This fellow is really boasting shamelessly and is courting death. Without the protection of Pei Yu, how could he possibly be a match for Senior Brother Di?” Li Jun and the others were extremely excited, and they stared at Chen Xi with a gaze that seemed like they were looking at a dead man.

“What high sounding sentiments! It has been a long time since someone dared speak to me like this. I hope your strength is as formidable as your mouth, otherwise, you’ll become a joke if you’re killed by me.” Di Wanlou grunted coldly, and his eyes were extremely icy cold and revealed unconcealed killing intent.

Chen Xi smiled indifferently yet didn’t say anything further, but killing intent was surging in his heart.

Bang!

When he saw Chen Xi was actually still able to smile when the battle was about to begin, it was simply like contempt towards him, causing Di Wanlou’s heart to be filled with hatred, and he directly made a move brazenly. His right arm stretched out as True Essence condensed on his fist, and it condensed into an expanse of dazzling divine light, causing him to seem like a black dragon that emerged from the ocean and charged towards Chen Xi.

Pu! Pu! Pu!

The punch possessed vast might and the divine lights seemed like a stream as they crushed a 300m long area of space, and it was extremely shocking.

Crack!

Chen Xi casually raised his hand while a thunderstorm blazed in his palm, and then a lightning vortex flew out to collide with the fist and divine light. Instantly, a dazzling ball of light exploded out in midair as a rain of light sprayed out and descended onto the ground and rocks before hissing sounds resounded out as terrifying holes appeared on the ground.

“You have some skill.” The tips of Di Wanlou feet tapped forcefully on the ground, causing the ground to instantly crack apart, and the black colored cracks stretched out for an entire 100 plus meters in distance.

In the next moment, he’d already soared into the sky, and then his arms spread open as he plunged down forward like an extremely fierce roc that had spread its wings. The aura in his entire body was terrifying like an awl, and everywhere his figure passed, sonic booms actually exploded out in the sky like thunderclaps and seemed extremely frightening.

Everyone was instantly shocked in their hearts. Di Wanlou’s aura was too imposing and simply seemed like an erupting mountain torrent that blasted down from the peak of a mount, and it caused others to be unable to look directly at it and not dare go against it.

“He’s too strong. I never imagined the Skywolf Dynasty possessed such a figure!”

“This kid’s is probably the strongest genius figure in the Skywolf Dynasty. His natural talent is shocking and isn’t something the others can compare to.”

“Looks like we have to be on guard against this person in the future.”

Besides exclaiming with shock, all the genius experts present had heavy expressions because besides their own groups, everyone else on the Isle of Fallen Treasures was a potential enemy, and they had no choice but to carefully take precautions against the other people.

Meanwhile, Di Wanlou had already plunged down while carrying along a violent gale that caused sand and stones to fly about, the mist to roil, and the ground to crack open, and it was extremely shocking.

Right when everyone was shocked and their hearts shuddered, Young Master Zhou shook his head and started smiling. Because only he knew how terrifying Chen Xi's body refinement cultivation was. In a battle with him, using magic treasures or martial techniques are fine, but why did you have to pounce forward to him? He expressed pity for Di Wanlou.

The nearby Huangfu Qingying revealed a slight smile as well, and her gaze even carried a trace of pity as she looked at Di Wanlou.

Bang!

Divine light dazzled as Di Wanlou descended from the sky, and his arms swung out like sledgehammers to smash fiercely at Chen Xi's head. He wanted to end this battle in the most dominating manner and shatter his opponents skull with a single strike.

Chen Xi's eyes were deep and he stood on the spot without moving when facing an attack like this. He only stretched out a single hand and easily tore apart the dazzling divine light and might of the fists, and then a bang resounded in the air as he grabbed onto Di Wanlou's right arm before surging thunderstorm vortexes left his body.

Shit! Di Wanlou's pupils constricted as he knew that he'd been careless. He never imagined that Chen Xi's strength would actually be even stronger than he'd expected, and he hurriedly circulated his True Essence with all his might with the intention of shaking off Chen Xi's hand that had grabbed onto him.

However, at the next moment, he noticed to his shock that no matter how strong the True Essence he utilized was, it was actually like a clay ox that entered the sea, and it was completely devoured by the thunderstorm vortexes and wasn't off the slightest use!

What sort of bloody cultivation technique is this? This discovery shocked Di Wanlou to the point of being astounded in his heart, and he disregarded everything and intended to withdraw his trump card to save his life.

But how could Chen Xi allow Di Wanlou to accomplish what he wished to do? After he grabbed onto Di Wanlou's right arm, he'd fiercely swung Di Wanlou up before smashing him onto the ground with a bang.

Numerous cracks spread out on the ground as Di Wanlou's entire body was smashed into the dirt and rocks, and his entire body was convulsing as he coughed out large mouthfuls of blood while dust and smoke spread out into the surroundings.

The expressions of all the genius experts from the various Dynasties present instantly stiffened when they saw this scene. No one had expected that the outcome would be like this, and the contrast from the beginning and the end was really too great.

Di Wanlou had charged down mightily from the sky, and his fist strike was like a divine light blooming in the sky. But in the end, Chen Xi had stretched his hand out to grab onto Di Wanlou's arm and flung him directly into the ground like a little chick, and this was truly too shocking.

After all, this...was a top genius expert from the Skywolf Dynasty!

Everyone was slightly flabbergasted.

### Talisman Emperor

#### **Chapter 455: Crushing His Enemies**

Pu!

Blood sprayed out from the mouth of Di Wanlou's mouth as his eyes rolled up, and he almost fainted directly. Even though he had True Essence protecting him, being directly lifted up and smashed into the ground by Chen Xi still caused him to be overwhelmed with pain and see stars before his eyes, and he struggled with the intention of crawling up.

Bang!

However, Chen Xi held onto his right hand and swung him up once more before smashed him onto an enormous rock at the side. This time, Di Wanlou directly fainted, his body was badly mutilated and many of his bones had been broken.

"Brother Di!" Li Jun was furious and his eyes almost split apart, and he actually disregarded everything and charged towards Chen Xi. The silver spear in his hand shook as layer upon layer of spear images appeared, and then starry glows that were like flowers in a storm exploded out from the tip of the spear. The starry glows pierced through the sky and shot out swiftly to assault Chen Xi's back.

Bang!

Chen Xi swung the captive in his hand to block before him, causing blood to spray as Di Wanlou let out a shrill cry and woke up from his fainted state, and his body had almost become a sieve from being pierced by Li Jun's spear lights.

"Shameless!" Li Jun let out an exclaim of shock, and he felt a tremendous lingering fear in his heart. He'd actually almost killed Di Wanlou earlier! This caused him to hate Chen Xi even more. His spear spun as it flew out with his figure that was like a bolt of lightning, and he launched another fierce attack towards Chen Xi.

Chen Xi turned around while his right hand still held his captive, and his left hand lightly slashed out in midair, causing an expanse of thunderstorm vortexes that flickered with bolts of lightning to gush out. The lightning blazed and emitted rumbling that shook the heavens as it directly swept out.

Lightning surged amongst the layer upon layer of vortexes, causing space to be crushed and the heavens and the earth to rumble. The impetus caused by Chen Xi's attack that seemed casual was terrifying and vast instead, it seemed like the god of thunder was furious, the mother of lightning was shouting in fear, and it was extremely astonishing.

Bang!

Li Jun's attacks were instantly dissolved and crushed, causing him to stagger back while blood sprayed out in large mouthfuls, and he'd actually suffered a heavy injury in the span of a single move!

This was extremely shocking, but Chen Xi was unsatisfied. After all, long ago on the way to the Isle of Fallen Treasures, he'd already mastered all the variations of the Stellar Lightningform, and his full forced strike was sufficient to crush a Devilflame Horned Sharks that was comparable to a Rebirth Realm expert, yet he didn't kill Li Jun with a single strike and had only caused him to cough blood. So it didn't attain its expected effects.

It was obvious from this that Li Jun's strength was extremely formidable indeed, otherwise, he would absolutely be unable to escape calamity.

However, it was different in the eyes of the others. This was simply too terrifying as Chen Xi had actually heavily injured another genius expert of the Skywolf Dynasty in a single strike!

Swoosh!

Chen Xi charged forward while thunderstorms vortexes covered the sky and rumbled, and the Grand Dao profundities of the Lightning and Devour Dao Insight enveloped the area ahead.

Li Jun who'd suffered a heavy injury was naturally incapable of resisting, and especially because Chen Xi's speed was too swift and had arrived practically instantly before Li Jun, thus instantly causing Li Jun to be in a situation of imminent danger.

Bang!

Li Jun was immediately blasted flying, his entire body was charred and emitted strands of white smoke as he convulsed on the ground, and he was unable to stand up again.

Actually, this outcome could still be considered to be good. If Chen Xi was willing, he would even be able to directly shatter and devour Li Jun and transform Li Jun's Blood Essence and True Essence into his own strength.

But Chen Xi wasn't a cold wild beast that was without taboos. Doing this was no different than eating a person, and even though it could replenish his strength, unless he had no other choice, he would absolutely not do this.

Next, Chen Xi tossed Li Jun to the side to lay by the side of Di Wanlou. Both of them had suffered heavy injuries and were unable to stand up.

Everyone was astounded. This fellow is too ferocious. It has only been a few moves and he has already dealt with two great genius experts of the Skywolf Dynasty. Is...is he still human?

"I've said before, killing two is killing, killing a group is still killing. All the members of your Skywolf Dynasty can feel free to come forward and challenge me, and I'll accompany all of you until the end!" Chen Xi's indifferent and calm voice suddenly resounded out.

His figure was tall, his clothes fluttered with the wind, and he possessed an extraordinary bearing. But at this moment, along with his voice resounding out in the heavens and the earth, it imperceptibly caused him to emit an overbearing and haughty aura, and as he looked around, there was actually no one that dared look him in the eye.

Everyone was stunned and slightly didn't dare believe it. Could it be that this fellow wants to make a clean sweep of all the genius experts of the Skywolf Dynasty?

"Overbearing!" "Truly too overbearing!"

"Supposedly, he's the number one expert in the younger generation of the Darchu Dynasty, and his strength is even superior to the reincarnated Heavenly Immortal, Qing Xiuyi. Now it would seem like he really is ferocious to the extreme, and it's even to the extent that he's on par with some of the top experts in some first-rate Dynasties."

At this moment, Yan Yu'er and the other genius experts of the Skywolf Dynasty felt slightly apprehensive. Di Wanlou and Li Jun were the most formidable figures in their Skywolf Dynasty, yet they'd actually lost like this and were directly mowed down to a heavily injured state. So they would be unable to do anything even if they challenged Chen Xi.

"What? All of you aren't going to take revenge for your dead companions?" A trace of coldness suffused the corners of Chen Xi's mouth.

"You're too arrogant, I'll fight you to the death!" Yan Yu'er expression suddenly went grim as she rebuked furiously, and she was unable to restrain herself from flashing out. The jade green curved blade cleaved down from midair, causing a myriad of fierce and cold Jade Phosphorus Flames to explode out, and it even caused space itself to be slashed to burning pieces.

Chen Xi's eyes squinted and was prepared to enter into battle, and he wouldn't be unable to strike ruthlessly just because his opponent was a woman.

However, right at this moment, a crimson ray of light that was extremely terrifying charged over, and it soundlessly assaulted the back of his head. This strike was vicious and ruthless, and it intended to pierce his head with a single strike.

Obviously, this person that launched a surprise attack had already discerned that Chen Xi was a formidable body refiner, whereas the head was the weakness of all body refiners. Once the head was shattered apart, no matter how formidable the body refiner's body was, it would mean certain death.

It was a genius expert of the Snowray Dynasty that had made a move. This person was called Mo Ling, he wore black clothes, his countenance white like paint, and his eyes were narrow and long, and he was extremely inconspicuous when hiding within the crowd.

But once he attacked, it was exceedingly ruthless and shocking. A flying sword that was palm size, scarlet red, and was coiled with the glow of fire shot out explosively, and it moved soundlessly.

I never expected that the Sword Crazy Kid Taishu Huarong hasn't made a move yet this fellow was the first to be unable to restrain himself. Chen Xi's Divine Sense was extraordinarily enormous, and he'd instantly locked onto his enemy.

He'd noticed since before the battle that amongst the forces that had arrived at the Isle of Fallen Treasures this time, there was the Brightray Dynasty and Eastern Summer Dynasty who besides the Skywolf Dynasty had feuds with the Darchu Dynasty, and he'd been secretly on the alert since long ago, so how could he be taken by surprise?

He swiftly leaned to one side right away and avoided the sword light, and then he struck the sword with his fingers with the intention of seizing it. But the intelligence of this flying sword was extremely high, and it swiftly avoided his fingers before exploding out with an infinite glow of flames with the intention of severing his fingers.

A great battle erupted just like this. In midair, the flames of Yan Yu'er's jade green curved blade poured down like the rain while the genius expert of the Snowray Dynasty, Mo Ling, launched surprise attacks with his flying sword from the side. Both of them attacked swiftly and violently, and their attacks emitted dazzling and blazing lights.

...

"Shameless! They're actually joining forces against him! I'll go help Chen Xi!" Young Master Zhou was instantly furious when he saw this scene, and True Essence surged around his body as he raised his leg with the intention of charging into the battlefield to lend Chen Xi a hand.

But Cui Xiuhong had stopped him instead, and then he coldly berated. "Idiot! Could it be that you want us to enter into a full scale battle with the group from the Darqin Dynasty? If you want to court death, don't drag us down with you!"

He was afraid of Chen Xi in his heart, yet he didn't take Young Master Zhou seriously, and he spoke extremely bluntly and scolded Young Master Zhou in his face.

Young Master Zhou had always had an overbearing temper, and when had he been scolded by another like this? He instantly revealed killing intent as he pointed at Cui Xiuhong's face and cursed. "I dare you to say that again if you have the balls! Even if I have to fucking give up my life, I'll slaughter a despicable and treacherous dog like you!"

Cui Xiuhong was stunned as he seemed to have never imagined that besides Chen Xi, this fellow called Fourth Young Master Zhou would dare curse at him like this, and it was even to the extent that Young Master Zhou had spoken even more viciously than Chen Xi.

He was instantly in a towering rage, and he had a gloomy expression as he turned around and said to Pei Yu, "Crown Prince, look. This fellow is being protected by us, yet not only does he know how to feel grateful, he has become even more arrogant and haughty instead. He simply knows no bounds like Chen Xi. If we still don't teach him a lesson, then I'm afraid he'll even go against us!"

"You dog! You..." Young Master Zhou's temper as a Young Master arose in his heart, and he was just about to disregard everything and kill this treacherous and despicable person called Cui Xiuhong when Huangfu Qingying had stopped him. She instructed him that he must endure it patiently, otherwise not only would they be unable to save Chen Xi, they would completely offend Pei Yu's group, and that would be really not worth it.

"Alright, stop fighting. What would it look like if others saw this? If you still disregard the overall situation, then don't blame me for being merciless!" Meanwhile, Pei Yu spoke out with displeasure as well, yet his gaze that contained a strand of hidden killing intent stared coldly at Young Master Zhou, and it was filled with warning and threats. Obviously, he was siding with Cui Xiuhong.

Young Master Zhou was angered to the point his entire body trembled, and he gnashed his teeth. If it wasn't for Huangfu Qingying's instructions, he'd long since disregarded everything and acted willfully.

On the other hand, Cui Xiuhong revealed a gloomy smile instead, and he was extremely complacent as he said cruelly in his heart, "Chen Xi, oh, Chen Xi! Without anyone assisting you, let me see for how long you can survive!"

Bang!

However, in the next moment, Cui Xiuhong saw a scene that caused him to feel disbelief. Chen Xi actually blasted out an enormous thunderstorm vortex that directly blasted Yan Yu'er flying, and she flew out like a kite that had its string severed and fell heavily on the ground. She coughed up blood endlessly and didn't even struggle for a moment before fainting completely.

Isn't this fellow too abnormal? That's the joint forces of two genius experts! Cui Xiuhong's eyeballs almost fell out, and he felt both hate and terror towards Chen Xi in his heart.

"Hmph! Shocked?" Young Master Zhou glanced at Cui Xiuhong with disdain yet he secretly heaved a sigh of relief in his heart, and Chen Xi being fine caused more than half of the anxiousness and rage in his heart dissipate.

Bolts of lightning fluttered about as thunderstorm vortexes revolved. After he deal with Yan Yu'er, Chen Xi didn't stop in the slightest before turning to charge towards the Snowray Dynasty's Mo Ling.

Clang!

Chen Xi attacked and started going head on with the scarlet red flying sword, and his entire body erupted with boundless arcs of lightning as he intended to subdue this flying sword.

Mo Ling's expression instantly went grim. After the battle was carried out for a few moves, he'd already aroused the intention to retreat as he'd exerted all his strength yet was unable to do anything to Chen Xi, whereas Chen Xi had instantly defeated Yan Yu'er instead. An outcome like this caused him to be terrified in his heart and intend to flee. "Want to flee? It isn't that easy!" Chen Xi suddenly flashed out, and his fist was like a vortex that was condensed with lightning as he smashed it out with full force.

Crack!

The heaven-rank flying sword was actually instantly shattered into pieces!

### [Talisman Emperor](#)

#### **Chapter 456: Deterring All Experts**

Because of the difference in the Laws of the Heaven Dao in the Primeval Battlefield, cultivators weren't restrained by their cultivations when utilizing magic treasures of any quality.

For example, the Quasi Immortal Artifact of Xu Lengye, the Flaming Peacock Fan, the Quasi Immortal Artifact of Pei Yu, the Skysorrow Sword, were all like this.

Even though the scarlet red flying sword in Mo Ling's possession wasn't a Quasi Immortal Artifact, yet it was a top-grade heaven-rank magic treasure that was refined with Firecrystal Iron from core of the earth, and it was covered in various profound talisman markings, causing it to be peerlessly marvelous.

However, at this moment, this flying sword had been shattered into pieces with a single punch of Chen Xi's, and it transformed into a rain of flaming pieces that covered the sky as it sprayed down before vanishing like fireworks. The scene was beautiful, yet it caused one's heart to palpitate.

Everyone was shocked and were really unable to imagine exactly how terrifying of a force was contained within this strike of Chen Xi's to actually be able to directly and easily shatter a top-grade heaven-rank Magic Treasure.

Pu!

His flying sword being destroyed caused Mo Ling's mind to suffer a heavy injury, and he abruptly spat out a mouthful of blood before his expression went pale and carried dense terror.

He originally thought that while relying on this soundless top-grade heaven-rank flying sword, he would be entirely capable of killing Chen Xi with a surprise attack. Yet never had he imagined that the strength Chen Xi revealed would actually be so terrifying.

This was like the saying, to know is easy, but to do is difficult. Only one that had fought Chen Xi themselves would be able to completely understand how terrifying he was.

Swoosh!

Right at this moment, Chen Xi charged over once more, his right palm pressed out before him, causing a thunderstorm vortex to condense on his palm before transforming into a zigzagged and sharp bolt of lightning.

Pu!

A bloody light arose as Mo Ling's right arm was almost severed, and fresh blood overflowed.

Bang!

Subsequently, Chen Xi slashed out an extremely dazzling and resplendent thunderstorm vortex once more. This time, it completely struck onto the body of the heavily injured Mo Ling, and it was impossible for him to defend against it.

"AH!!" Mo Ling let out a shrill cry, his body was completely charred and was directly blasted flying, and he was unable to stand up again.

From Yan Yu'er fainting after suffering a heavy injury to Chen Xi striking out his fist swiftly like bolts of lightning to blast Mo Ling away, this series of attacks and movements were completed smoothly and in one stretch, and it only occurred in the time of a few breaths and was quick to the point everyone was unable to react to it.

Bang! Bang! Yan Yu'er and Mo Ling were thrown to the side by Chen Xi, and they lay side by side with Li Jun and Di Wanlou while heavily injured and unconscious.

This scene caused everyone to shudder with fear. Only a short period of time had passed yet four formidable experts had lost, and they were utterly not a match for Chen Xi. Their miserable appearances simply caused everyone to be unable to bear the sight of it.

Pei Yu, Qin Xiao and the others revealed shocked expressions, and they were swiftly pondering in their minds.

“He’s really strong. I never imagined that there’s such a figure amongst the humans. Merely his body refinement cultivation is sufficient to compare with the descendants of Ancient Fiendgods.” Bi Lingyun’s clear eyes had a profound expression within them as she muttered to herself in a light voice, and the green crystal between her brows emitted a dazzling sheen.

Chen Xi swept everyone in the surroundings with his gaze, and he saw most people revealed expressions of terror. Especially the genius experts of the Snowray Dynasty and Skywolf Dynasty, even though they looked hatefully at him, yet they didn’t dare make a move rashly. As for the genius experts of the Eastern Summer Dynasty at the other side, they watched on coldly from the beginning until the end, and they didn’t take any offensive action.

Chen Xi’s felt slightly at ease in his heart when he obtained such a deterring effect.

Since arriving at the Isle of Fallen Treasures, the situation of Huangfu Qingying, Young Master Zhou, and himself was far from good. There were numerous enemies glaring fiercely at them from nearby and allies that hid malicious intent by their side, causing their situation to be worrisome.

If he wanted to temporarily change this sort of situation, then he could only bare his sharp fangs and reveal his strength and overbearingness to fiercely deter everyone. Only in this way would he be able to make his enemies arouse great fear in their hearts and not dare make a move rashly.

Thus, the scenes from before were born.

It could be said that no matter if it was when defeating Di Wanlou and Li Jun or heavily injuring Yan Yu’er and Mo Ling, he’d practically not held back in the slightest, and it was for the sake of using an all powerful offensive strength to crush his enemies in the shortest period of time so as to create intense shock and impact in the hearts of all the spectating cultivators.

When the king of beasts roared, it was even capable of deterring a hundred beasts and commanding 10,000 more. Not to mention Chen Xi had crushed four genius experts by himself?

This was called deterrent force.

...

“The Darchu Dynasty’s Qing Xiuyi didn’t come, yet Chen Xi has, and his strength is similarly shocking to the extreme. If such a figure isn’t eliminated as soon as possible, he’ll surely grow into a leading figure that controls a great power.” Within the distant crowd, a few young men were conversing via voice transmission in low voices.

“Unfortunately, the top experts of our Darxuan Dynasty aren’t present, and even the Crown Prince has headed towards another restricted area in the Primeval Battlefield to search for secret realms. Presently only the four of us are present, and it’s extremely difficult for us to kill these three people from the Darchu Dynasty.”

“Hmph! Chen Xi has already made so many enemies, so we make no difference. After we enter the ruins, we’ll seek out an opportunity to make a move. I don’t believe we’ll be unable to annihilate a single Chen Xi.”

The appearances of all the people who were conversing were extremely young, and they were the genius experts from the first-rate Dynasty, the Darxuan Dynasty. But they seem to have concealed their identity, and up until now, no one had noticed which Dynasty they belonged to.

“Hmph! Members of the Darxuan Dynasty have actually come as well. Coupled with our Darqian Dynasty, all the enemies of the Darchu Dynasty are almost gathered here. It’s truly a magnificent scene.” On the other side, there was a similar group of people that had piercingly cold eyes that flickered with cold lights that revealed hatred, and they were sending voice transmissions to each other to similarly discuss how to deal with Chen Xi’s group of three after entering the ruins.

If it was considered carefully, since Chen Xi step foot on the Isle of Fallen Treasures, various enemies had appeared successively like bamboo shoots that sprung up after the rain. The Darxuan Dynasty, the Darqian Dynasty, the Snowray Dynasty, the Skywolf Dynasty, the Eastern Summer Dynasty, and coupled with the Darjin Dynasty’s Pei Yu and the Darqin Dynasty’s Qin Xiao that held malicious intentions towards Chen Xi... This number was simply horrifying.

Moreover, such a scene was sufficient to be described as a calamity of slaughter was about to arrive and undercurrents were flowing in secret.

...

Chen Xi didn’t kill Li Jun and the others. The reason was extremely simply, once he killed these four people in front of everyone, it would absolutely be something the powers behind these people were unable to endure. At that time, a fierce battle couldn’t be avoided.

On the others hand, so long as these four people didn’t die, the matter had slight room for mediation, and it was extremely beneficial towards the situation of Chen Xi and the others.

All in all, Chen Xi had indeed aroused killing intent at the beginning before defeating these four, but after analyzing the advantages and disadvantages, he intended to let them off. After all, he’d done this for the sake of deterring everyone and not to enrage everyone.

“Chen Xi, amazing!” When he saw Chen Xi approaching them, Young Master Zhou spoke out with heartfelt praise.

“It’s good that you’re fine. Thank you so much for this.” Huangfu Qingying grinned as she spoke. She was intelligent and guessed that Chen Xi was putting on a show of force earlier, and it was for the sake of changing their current situation. So she was naturally extremely moved by this.

“Even though we’re safe for now, we still can’t be careless. I observed the surroundings earlier, and there are enemies of the Darchu Dynasty hiding in the shadows, so we still have to carefully take precautions so as to avoid any mishaps from happening.” Chen Xi smiled as he hinted towards two groups of people in the distance, and those two groups were precisely the genius experts of the Darxuan Dynasty and Darqian Dynasty.

Young Master Zhou and Huangfu Qingying nodded seriously. They'd felt wholehearted belief towards the ability Chen Xi displayed since long ago, so they naturally followed his suggestions and opinions.

"Strange, the glow of treasures frequently flashes within the mountain door, and it can be discerned to be treasures left behind during the expedition of the ancient gods with a single glance. So why isn't everyone going in to pursue these treasures?" Chen Xi smiled as he looked at the lofty mountain door, and he couldn't help but ask.

"I've already found out clearly earlier. There was a batch of people that had entered early on before we arrived at the Isle of Fallen Treasures, yet they seemed to have perished. Those treasures seem to have intelligence and are extremely difficult to capture. Moreover, the treasures will sometimes be accompanied by the ancient spirits of the dead. Once one approaches it, one will suffer from terrifying attacks." Huangfu Qingying explained.

"Practically all have died?" Chen Xi's eyes squinted.

Bang!

Right at this moment, a black shadow penetrated the mist within the lofty mountain door before falling outside the door with a thump. The figure was completely covered in bloody injuries, and its exposed skin was suffused with black energy that caused one's heart to palpitate.

"No!!" The person stumbled and intended to stand back up yet an expanse of black mist suddenly soared up from the surface of his body and swallowed him completely, and in the blink of an eye, he'd vanished completely and only a shrill and miserably cry resounded out in the heavens and the earth.

"Another person has died." The pupils of everyone present constricted when they saw this scene, and their expressions became much heavier. However, they weren't alarmed and seemed to have become accustomed to scenes like this.

The ruins are actually so dangerous. No wonder no one dares rashly step foot within it. Chen Xi looked at the layer upon layer of mist within the ruins and the numerous glows of treasures that frequently flashed within the mist, and extreme vigilance arose in his heart.

Even though the Isle of Fallen Treasures was a treasure vault that caused one to drool, it was similarly a den of monsters. Wealth and danger coexisted, and if one wanted to obtain benefits, then one had to pay an extremely great price.

But Chen Xi also noticed that even though everyone hadn't stepped foot into the ruins, they seemed to not be anxious, and they seemed to be waiting for something.

Rumble!

Right when this thought had just arose in Chen Xi's heart, an extremely dazzling and resplendent sun had suddenly arose within the ruins behind the lofty mountain door, and the golden light it emitted seemed to be burning as it illuminated the world. The layer upon layer of mist that enveloped the ruins instantly surged violently, and then it dissipated successively.

In the time of a few breaths, more than half of the layers of mist had dissipated, yet it hadn't vanished completely, and had only become thin and faintly visible. But this had already allowed everyone to clearly see the scene within the ruins.

"The time has finally come! The dense mist had been dissipated and the ruins have emerged once more. The danger within had been reduced greatly!" The crowd was in a commotion, and they were extremely excited and delighted as if they'd been waiting for this scene for a long time.

"Let's go!" Suddenly, Bi Lingyun's figure flashed and revealed her true form. Her green wings shook the sky as she emitted a clear screech, and she led the few other demon cultivators of the Century Pool Dynasty to swiftly charge into the ruins.

"Hahaha! When the Golden Crow floats in the sky, the ruins will once again see the light of day! We should make a move as well." The Darqin Dynasty's Crown Prince, Qin Xiao, laughed loudly, and then he immediately flashed towards the ruins without the slightest hesitation. Behind him, Wei Kong, Cheng Feng, and the other genius experts of the Skywolf Dynasty followed closely behind.

When the others saw this, they made a move successively as well. They transformed into numerous black shadows that flashed out explosively, and they were afraid of being a step slower and narrowly missing an opportunity to obtain a treasure.

On the other hand, Chen Xi and the others had joined these ranks as well. They transformed into a few streaks of light that charged into the mysterious ruins that according to rumor contained the treasures left behind by the gods of ancient times during their expedition.

In the blink of an eye, the area outside the lofty mountain door was already completely deserted, and there wasn't a single person left.

#### **Chapter 457: Treasures Left Behind By The Gods**

Isle of Fallen Treasures.

It was like a boundlessly vast continent that floated atop the Primitive Sea.

Since the gods of ancient times set out on an expedition until now, there would be young geniuses from the various Dynasties that entered the Primeval battlefield every 100 years, and the Isle of Fallen Treasures came to be known by all. Many people came here for the sake of searching for the mysterious and formidable treasures left behind by the gods.

When Chen Xi entered into the ruins on the Isle of Fallen Treasures, there were already a group of genius experts that had entered long before him, and in other words, they weren't the first batch of people to enter the ruins.

The ruins were boundlessly vast, illuminated by the golden crow that floated in the sky, and it was coiled with a light layer of mist, causing the entire heavens and earth to be suffused with the color of dusk and everything in the surroundings to seem hazy and indistinct.

The ground here was completely crimson red as if it was bathed in fresh blood, whereas the surroundings were covered in rubble and ruined buildings, and it was like an exceedingly ancient ruin that seemed to be recounting the mercilessness of time.

Om!

Suddenly, a glowing treasure charged out of the ruins like a fiery ray of light that tore through the sky and soared into the sky, and it shocked everyone present as this glowing treasure had practically flown off from their sides.

“A treasure left behind by the god, give chase!” A large group of geniuses cried out before flashing up into the sky and pursuing the fiery ray of light. A treasure like this had become intelligent since long ago, and if they were able to obtain it, it would absolutely be worth a fortune.

There really are numerous treasures here. Chen Xi swept his gaze over and had long since clearly seen that the fiery ray of light was a damaged bronze shard that was mottled with rust. But since it was able to remain intact after experiencing the long passage of time and possessed intelligence, it could be called as a rare treasure.

But he was bewildered. Could it be that all the treasures that were left behind in the expedition of the gods are concealed in these ruins?

“All these treasures left behind by the gods are extremely intelligent and won’t hide in a single spot, and they’re distributed all over these boundless ruins. In other words, we’ll be able to encounter them anywhere in these ruins.” Pei Yu who was ahead turned around and said, “But it’s extremely difficult to obtain one of these treasures left behind by the gods, and it requires many people working together to achieve success. So I suggest that everyone cooperates temporarily to search for and subdue the treasure. The treasures obtained will be distributed one by one, and I guarantee that it’ll be fair between all of us. How about it?”

“Crown Prince is very right, I’ll listen to you in everything.” Cui Xiuhong was the first to make his attitude clear, and needless to say, Wei Muyun and Leng Qianqiu agreed as well.

Huangfu Qingying and Young Master Zhou hesitated for a moment before looking at Chen Xi as they wanted to seek his opinion.

A trace of hatred couldn’t help but flash past the depths of Pei Yu’s eyes when he saw this, it flashed momentarily before his eyes returned to normal, and then he put on a warm smile as he said, “Brother Chen, what do you think?”

Chen Xi nodded and said, “Of course. But Brother Pei, can you be more specific about the division of treasures?”

“Hmph! With the Crown Prince’s identity, how could he possibly take advantage of you? Aren’t you looking too highly upon yourself?” Cui Xiuhong sneered.

Chen Xi looked at Pei Yu and utterly disregarded Cui Xiuhong. This fellow had a vicious and malicious heart, and he really loved driving a wedge between people, so there wasn’t any meaning in arguing with him.

“How about this? We’ll make a move together when we encounter a treasure. As for who’s able to seize and obtain it, we’ll depend on our own abilities. Of course, the precondition is we can’t fight each other. How about it?” said Pei Yu after pondering for a moment.

Chen Xi contemplated briefly before he said, “That’s the best way.”

“Haha. Nice. So long as we work together, we don’t have to worry about being unable to obtain various treasures.” Pei Yu laughed heartily as he spoke, and he seemed happy, yet what he was thinking in his heart was unknown.

Their group immediately set out towards the depths of the ruins.

“Chen Xi, if it’s according to Pei Yu’s suggestion, then we seem to be slightly at a disadvantage. Pei Yu possesses a Quasi Immortal Artifact to rely on. Moreover, he has the cooperation of Cui Xiuhong’s group of three, whereas, there are only three of us. Once we start competing for the treasure, they’re bound to occupy a slight advantage.” On the way, Young Master Zhou spoke via voice transmission.

“Indeed, this agreement is obviously disadvantageous to us.” Huangfu Qingying spoke out as well.

“There’s nothing to worry about. It’s only seizing treasures. Numbers aren’t important.” Chen Xi said with a smile, “Don’t worry, since I dared to agree to his suggestion, I’ll absolutely not allow us to suffer a loss.”

“Then it’s fine.” When they saw Chen Xi seemed to have considered everything thoroughly, Young Master Zhou and Huangfu Qingying were at ease.

On the other side, Pei Yu was instructing the other three via voice transmission as well. “So long as we encounter a treasure, you three tie down the three of them, and leave the rest to me. Of course, this kid Chen Xi’s strength is formidable, so don’t force yourself if you’re unable to stop him, just leave him to be as well.”

As he spoke, a wisp of coldness couldn’t help but suffuse the corners of his mouth as he said with disdain, “Perhaps this fellow Chen Xi has guessed my intentions. But he’s utterly unable to guess that there isn’t merely a single Quasi Immortal Artifact amongst the treasures in my possessions...”

Cui Xiuhong’s eyes lit up as he asked. “Crown Prince, then what if a battle is unavoidable while seizing the treasures?”

“Then I’ll kill him!” Pei Yu replied with a ghastly tone and without the slightest hesitation. “This kid’s strength had already exceeded my expectations, and if can’t be of use to me, then I should eliminate him as soon as possible to put an end to all future troubles.”

Cui Xiuhong was delighted in his heart as his eyes spun.

“Of course, Brother Cui, you better know your place. If I find out that you include me in your schemes for the sake of annihilating Chen Xi, then don’t blame me for being merciless!” Pei Yu glanced at Cui Xiuhong as he spoke coldly, and his voice was filled with a threatening tone.

“Of course. Don’t worry, Crown Prince, I’ll absolutely not spoil your plans.” Cui Xiuhong’s heart jerked, and he revealed a slightly forced smile.

...

The ruins on the Isle of Fallen Treasures was extremely vast and boundless, and it stretched all the way to the end of the continent, causing one to doubt that they were on an isle.

Chen Xi's group moved deeper into the ruins, causing cracking sounds to be emitted as they stepped on the rubble that were left behind since ancient times, and these sounds seemed to be recounting the expedition of the gods from all those years ago, causing one's heart to be unable to feel tranquil.

Moreover, numerous glowing treasures frequently flew out from the ruins that was covered in rubble, and it passed through the dusky clouds and mist to vanish at the horizon. Everything here was so mysterious.

Auwu!

Suddenly, a thick green light appeared in the ruins ahead as a desolate howl was emitted, and then a glowing treasure charged out along with this. It was a dark green colored horn of a beast, and it tore through the ruins and shot straight into the nine heavens.

"What a desolate sound, it's actually capable of disturbing the soul and suppressing the energy of the soul. It's surely a formidable treasure of the gods! Pursue it!" Pei Yu's eyes lit up as he shouted out loudly.

The eyes of the others had gone red with covetous feelings since long ago. This beast horn was absolutely rare to the extreme, its sound waves extended out and were capable of creating a shapeless soundwave attack, so it was surely a rare treasure.

Pei Yu was the first to soar up into the sky and stretched out a hand condensed from True Essence, and he fiercely grabbed towards the beast horn.

Bang!

The sound of collision resounded out, and it was really grabbed by him. But the dark green colored beast horn was unharmed and the dense glow that covered it became even more dazzling and resplendent, causing the hand condensed from True Essence to be blasted open and shattered to dispersal.

The strength of Pei Yu's grab was actually incapable of doing anything to a treasure!

"Everyone, make a move together!" When they saw this, all of them were even more assured of the beast horn's worth, and they attacked together, causing divine lights to fill the sky and envelop down towards the beast horn.

At the same time, all of them scattered apart to encircle the beast horn as they wanted to lock down all its paths of retreats.

Bang!

However, the green colored beast horn seemed to have nothing that its situation was far from good. It emitted boundless dazzling and resplendent green lights with a bang, and then it actually directly pierced through space and instantly fled into the extremely distant sky. Moreover, due to its speed being so swift, it vanished in the blink of an eye.

“What a formidable treasure!” “This green beast horn is absolutely a treasure kept by the side of the gods during their expedition, causing it to be intelligent, formidable, and difficult to subdue.”

Everyone felt extremely regretful as they’d watched helplessly as the green beast horn had fled from right beneath their noses yet were unable to do anything.

Even Chen Xi was shocked in his heart. The speed of his Starsky Wings was extraordinary, but when compared to the speed of this green beast horn, it was actually slightly inferior. In other words, the speed of this beast horn was already no different than teleportation!

At the same time, he’d clearly understood how difficult it was to obtain the treasures left behind by the gods. It was even to the extent that he suspected that if the green beast horn took the initiative to attack them, then probably none of them would be a match for it.

This was the divine might of the treasures left behind by the gods. Even though the gods had fallen for innumerable years, these treasures were absolutely not something an ordinary person was capable of subduing.

Rumble!

Suddenly, the heavens and the earth shook endlessly, as an extremely blazing light suddenly lit up at the end of the horizon, and it was like a golden crow that was slowly rising up to shake the heavens and the earth and fill the world with its cry.

“Shit! Flee, quickly! Numerous treasures of the gods have actually driven a few tens of thousands of ferocious beasts to form a beast tide!”

“Dammit! Those ferocious beasts are actually so obedient? Could it be that these treasures really possess intelligence?”

“Hurry, flee!”

A clamor resounded out in the extreme distance as a few hundred of genius experts of the various Dynasties were fleeing back towards the entrance with panicked expressions and pale countenances, and they seemed as if they’d encountered some sort of terrifying thing.

At this moment, it seemed as if everyone who’d entered the ruins was fleeing in fear and panic.

Numerous treasures of the gods have joined forces to command a few tens of thousands of ferocious beasts to form a beast tide!? Chen Xi’s eyes squinted. Something like this sounded simply inconceivable, and it caused him to feel disbelief.

But everything before his eyes proved that it was true.

Rumble!

The heavens and the earth shook within the entire ruins as enormous bangs that were like thunderclaps resounded out. Various divine lights blazed and illuminated the world as various ferocious beasts converged into a vast torrent that swiftly smashed over with a shocking impetus.

All the genius experts were fleeing, as no one dared to go against a beast tide army like this.

Chen Xi's eyes stared wide open as he'd seen a 300m long enormous Earth Dragon, a bright silver centipede, a pitch black flying beast whose wings covered the heavens and the earth, a golden and enormous ape that was over 30m tall, and many others within the beast side. Every single ferocious beast emitted an aura that was extremely terrifying. At this moment, all of them were gathered in this vast army, and everywhere they passed, everything was swept away.

What aroused the greatest fear in Chen Xi's heart was that at the back of the beast tide army were over 10 glowing treasures that emitted various gorgeous colors, and they were fluttering about while overflowing with lights that were brilliant to the point of shaking the heavens! Shockingly, all of them were extremely terrifying treasures left behind by the gods.

Obviously, the formation of the beast tide this time was done precisely by these ten plus treasures. When he thought up to here, Chen Xi was even more curious in his heart. What sort of heaven defying existences are those treasures?

"Flee!" At this moment, when the beast tide approached, Pei Yu couldn't care about anything else, and he shouted loudly before turning around and fleeing with everyone else.

This beast tide was truly too terrifying. Not to mention all of them who were genius experts of the various Dynasties, even Earthly Immortal Realm experts wouldn't dare go against this beast tide.

### Talisman Emperor

#### **Chapter 458: A Precious Treasure Emerges**

Pu!

Blood sprayed out as a genius expert was still fleeing when the horn of a ferocious beast behind him swept over and penetrated through his belly, causing him to be swung flying up in midair while blood splattered out in midair, and after his corpse descended to the ground, it was instantly crushed before vanishing in the beast tide.

"AH!" A group of genius experts howled miserably from nearby as they were besieged by over a hundred crimson red ferocious flying beasts, and flames surged into the sky as an entire ten plus people were instantly transformed into ash and left nothing behind.

Tragic scenes like this could be seen all over these ruins, the beast tide dashed and surged like an explosive river or a mighty army, and they shook the skies as they transformed this place into a purgatory of slaughter and blood.

Roar!

A Dracophant that was enormous like a mountain charged out, and its feet were like pillars as they fiercely trampled the ground, causing numerous genius experts to be crushed alive into meat pies on the spot. Everyone present here was terrified, they rarely met anyone that could go against them amongst their peers, yet they noticed their lives weren't worth a cent here.

The smell of blood within the ruins assaulted the room as slaughters were being carried out all over, and it was a sight so horrifying one couldn't bear to look.

Scenes like this only stopped two hours later, whereas the vast beast tide had retreated and the ten plus treasures of the gods that commanded the beast tide had vanished along with it as well.

The heavens and the earth returned to calm once more, but the air contained a dense bloody aura, whereas the dazzling and resplendent glow of treasures occasionally charged into the sky from the distant ruins and were like comets that streaked through the sky.

But everyone wasn't so covetous anymore, and they instead felt extremely icy cold as everything in the ruins was too terrifying. Extremely formidable ferocious beasts were actually commanded by the treasures left behind by the gods, and such might was simply capable of destroying everything and nothing could stop it.

The beast tide had really dispersed, yet an entire few hundreds of genius experts had died at the hands of the beast tide, causing their corpses to lay on the ruins and taint the rubble and ruined buildings.

Many people had aroused the intention to retreat. The Isle of Fallen Treasures was simply like a den of devils. Even though treasures were good, they weren't as important as one's life, and the slightest carelessness could cost them their lives.

Chen Xi was in a sorry state and had tattered clothes as he stood up straight within the ruins. He was a member of the great army of people that were fleeing, and he'd safely avoided this calamity.

It's really terrifying. Who would have thought that the ferocious beasts on the Isle of Fallen Treasures would actually be so terrifying? Chen Xi rubbed his left shoulder. The spot he rubbed had been slit open by the fangs of an enormous lizard, but it had already healed now.

At this time, he'd long since become separated from Huangfu Qingying, Young Master Zhou, Pei Yu, and the others. Because the beast tide was too terrifying and had crushed down while emitting a rumbling sound, they were utterly unable to stay gathered together for the sake of escaping with their lives.

Om!

The sky trembled as a ray of light appeared like a streak of silver and swept towards Chen Xi's waist, and this frightful sword light intended to cut him apart from the waist.

Chen Xi's eyes squinted as he swiftly avoided it. The sword light was like a ray that swiftly brushed past him before slicing apart a 50,000kg enormous rock that was ahead of him, and the place it was sliced was smooth like a mirror.

This sword strike was extremely sharp and terrifying. Obviously, the person that executed it had flawlessly combined the Grand Dao of Metal into their sword move.

The person that sneak attacked him was a black clothed young man, and he decisively retreated explosively without the slightest hesitation when his strike missed, and he seemed to know how formidable Chen Xi was.

But how could Chen Xi let his enemy slip through his fingers? He executed the Starsky Wings right away, and with a few flickers, he'd already appeared behind the black clothed young man.

“It’s impolite not to reciprocate!” Chen Xi’s Talisman Armament soared through the sky like a flash as the piercingly cold Sword Insight transformed into a stream that swept out like this enemy’s move, and he intended to slash his enemy apart from the waist.

Clang! Sparks sprayed out. At the critical moment, the black clothed young man had stopped and turned around before suddenly moving his sword to block before him. Even though he’s blocked this sword strike that struck towards his waist, he was blasted flying and staggered to the ground.

“Hmm? So you’re a member of the Eastern Summer Kingdom? No wonder you dared to launch a sneak attack at me.” The hair of the black clothed young man was disheveled, and his true appearance was revealed, causing him to be instantly recognized by Chen Xi.

“In this way, I can’t let you live!” Chen Xi didn’t hold back in the slightest. The Talisman Armament let out a clear howl as it flashed through the sky, and then a dazzling sword light that surged with Dao insight slashed down once more.

Even though the black clothed young man was formidable and far surpassed ordinary geniuses, how could he be a match for Chen Xi? After he successively resisted a few sword strikes of Chen Xi’s, his entire body had already been shaken to the point blood flowed from all his five aperture of the face, and even a few of his bones had been broken.

Swoosh!

Chen Xi struck out once more with his sword.

The black clothed young was already extremely terrified since long ago. When he faced this sword strike, he gritted his teeth in the end and crushed the Universe Teleportation Talisman in his hand, causing him to instantly vanish on the spot.

The Universe Teleportation Talisman again. Chen Xi frowned. This type of jade talisman contained the profundities of the Spatial Grand Dao, and it was something only Earthly Immortal Realm experts were capable of refining. Moreover, there was utterly no way to effectively counter it. For example, Xu Lengye who he’d met before had relied on this talisman to escape calamity.

Looks like I have to be even more ruthless and decisive when I encounter another enemy... In the blink of an eye, half a month had passed, and Chen Xi had entered the depths of the ruins. During this process, another few more beast tides had arisen, and he’d already gradually grasped its pattern. After a beast tide, there was bound to be two days of a peaceful and dormant period.

Mountains formed into a forest before him, and every single one of them were extremely tall and precipitous. Moreover, some mountains frequently flashed with a strand of the light of treasure, and the sound of battle could be heard faintly.

This is the depths of the ruins and the beast tide gathers here. But compared to the outside world, it’s much safer. Moreover, there seems to be numerous treasures hidden here. Chen Xi spoke in a light voice. According to his estimations, the deeper he went into the depths of the ruins, the safer he would be, whereas the outer area of the ruins was the place that it was the easiest to suffer the invasion and collision of the best side.

Looks like it isn't just me who has figured out the situation, and many people seem to have already arrived here long ago. At the same time, Chen Xi also noticed the sounds of battle that resounded out from the extremely distant mountain peak.

He became cautious in his heart, as none of those who were able to safely arrive here would be weaklings, and they were existences with extraordinary ability and terrifying strengths.

Chen Xi silently arrived before the mountain and when he saw the parties to the battle weren't Huangfu Qingying and Young Master Zhou, Chen Xi turned around and continued moving towards the depths of the ruins.

All along this way, he'd always been looking for the whereabouts of the two of them, but unfortunately, he hadn't found a single clue until now, causing him to be unable to help but feel really heavy in the heart.

Pu!

Three days later, Chen Xi encountered an ambush, causing even his belly to have a large hole opened up on it, and his heart was almost shattered. But he who possessed a body refinement cultivation recovered extremely quickly.

At the same time, his right arm shook, and the might of his fist tore through the sky and directly smash a person's head into mush, causing brain matter mixed with blood to spray out and reveal a terrifying and bloody scene.

"Kill!" It was a group of people that had ambushed Chen Xi. At this moment, there were still six of them that were fine, and all of them were genius experts from the Darxuan Dynasty. They pounced fiercely towards Chen Xi like wolves and tigers, and they revealed an extremely formidable strengths.

The Darxuan Dynasty was a first-rate Dynasty, so the strength of its disciples was naturally formidable to the extreme. All of them were existences equal to Zhao Qinghe, and when jointly besieging Chen Xi, they instantly caused Chen Xi's situation to become dangerous.

Bang!

If it was three or four people, Chen Xi would still have the strength to fight until the end, but if it was the joint forces of six, Chen Xi knew he wasn't a match unless he utilized the Quasi Immortal Artifact, Flaming Peacock Fan. But he wasn't willing to reveal his trump card too early, so he had no choice but to execute the Starsky Wings with his entire strength, and in the next moment, he'd already transformed into a streak of light and fled temporarily.

If it was in terms of the speed of their movement techniques, then there was probably rarely anyone amongst the numerous genius experts who'd entered the Primeval Battlefield who were capable of comparing with Chen Xi. The six members of the Darxuan Dynasty were unable to catch up, and they could only unwillingly give up the pursuit.

Even I've suffered so many assaults. I wonder how's the condition of the Young Princess and Young Master Zhou... A few days later, Chen Xi walked out from a concealed cave as his eyes stared off towards the distance, and he felt very heavy in his heart.

During these past few days, he'd successively encountered the assaults of the experts from the Eastern Summer Dynasty, Darxuan Dynasty, Darqian Dynasty, Snowray Dynasty, and so on and so forth. Even though most of them were easily annihilated by him, there were quite a few times that he'd fallen into danger and was almost besieged to death, and it could be said that he had to be careful with every step he took.

This also caused him to be unable to help but be even more worried about the safety of Huangfu Qingying and Young Master Zhou.

These bastards are really like haunting ghosts that don't go away. I must find a chance to completely eliminate them! When he thought about his sorry state during these past few days, Chen Xi's eyes couldn't help but be suffused with a wisp of a piercingly cold light.

Hmm? Chen Xi was surprised. At this moment, waves of bright lights were emitted from a distance gorge within the ruins, and it seemed like a formidable treasure of the gods was concealed there. Chen Xi flashed out right away and headed swiftly and stealthily towards there.

The gorge was completely barren with broken walls and ruined buildings accumulated within, and he could even see an enormous stone pillar that was 300m in length. But all of this was already extremely damaged and were mottled with parts that were faded from the corrosion of time.

This place seemed like a vast palace from the ancient times, yet it seemed to have experienced some sort of unexpected event, causing it to transform into its current appearance that was damaged and ruined.

Chen Xi entered carefully, and with a sweep of his gaze, his pupils dilated in the next moment. There really is a treasure left behind by the gods!

The treasure was a completely pure white and flawless jade ornament. It floated indeterminately in the depths of the ruins while flickering with a bright glow, and it emanated a myriad of milky white strands of auspicious qi, causing it to be extremely magnificent and shocking.

A jade ornament had always been a sign of auspiciousness, and this jade ornament actually produced such a shocking scene, so it was absolutely an extraordinary treasure without a doubt.

Chen Xi's heart rose with spirits but he became even more cautious as he was deeply afraid of alarming this treasure, and he was even slightly worried he would be utterly incapable of subduing it.

Swoosh!

In the next moment, Chen Xi had already executed the Starsky Wings with his full strength and flashed out explosively. At the same time, thunderstorms rumbled around him as they condensed into a myriad of vortexes that enveloped the surroundings and pressed down with the intention of confining the jade ornament.

Rumble! Lightning instantly shook within the gorge as rays of light shot into the sky, and there was also surging milky white strands of auspicious qi mixed within the divine rays of light, causing it to be extremely dazzling and resplendent and completely flooding the entire gorge.

On a distant mountain were three young men who were searching for something.

One of them wore coarse linen clothes, his bones thick and large, his appearance ordinary, yet his eyes were deep and sharp like swords. It was precisely the number one expert in the younger generation of the Snowray Dynasty, Taishu Huarong who possessed the nickname of the Sword Crazy Kid.

“Hmm? What a shocking phenomenon! A precious treasure has surely emerged! Let’s go! No matter who it is, we’ll kill him and seize the precious treasure!” Taishu Huarong suddenly turned out as a terrifying light shot out from his eyes, and then he immediately brought the other two along to fly towards the gorge with extreme speed.

Bang!

The three of them struck with their full strength as soon as they arrived at the gorge. Various formidable martial techniques and magic treasures surged and poured out, shattering the gorge and tearing space apart, and it practically drowned the entire gorge.

Chen Xi’s eyes squinted and was furious in his heart. Someone had interfered at such a critical moment, they struck ferociously while disregarding everything and had obstructed him from subduing the jade ornament, and it had caused him to be completely furious.

### Talisman Emperor

#### **Chapter 459: Battling The Sword Crazy Kid**

Taishu Huarong’s group of three floated in midair in the gorge, True Essence surged around them as various martial techniques gushed and poured out, causing brilliant rays of light to shoot out and practically drown the entire gorge.

Under this wanton and indiscriminate blasting, the rocks in the surroundings of the gorge shattered into pieces, causing enormous pieces of rubble to fly about while dust and smoke charged into the sky.

Chen Xi dodged ceaselessly, and his figure moved about indeterminately amidst these attacks while his gaze had already become icy cold to the extreme. He’d used great efforts to try and subdue this jade ornament, yet never had he imagined that Taishu Huarong’s group would charge in and completely destroy his efforts.

This jade ornament was really extraordinary and possessed shocking intelligence. It floated indeterminately while shrouded by auspicious qi and glowing brightly, and he’d exerted all his ability, yet found it impossible to approach.

In the end, he could only use force against force, and he’d utilized his entire cultivation to emit a myriad of thunderstorm vortexes to try and lock onto the jade ornament before slowly subduing it. However, he’d just obtained a tiny bit of results when Taishu Huarong’s group of three had charged in and instantly alarmed this extraordinary treasure, causing his plans to be completely disrupted.

Taishu Huarong stood upright in midair. Even though he wore coarse linen clothes, he possessed a shockingly mighty aura, and his eyes seemed to have a myriad of swords surging within it while emitting a piercingly cold bright light.

“Chen Xi, even though you’ve already cultivated the Myriad Convergence Sword Scripture to perfection, you’re far from being a match for me. Give up that treasure and leave now, and I’ll let you live.” These

were the first words Taishu Huarong spoke since seeing Chen Xi, and his voice was calm and heavy while revealed an extremely strong confidence.

Chen Xi had seen many outstanding genius experts, yet there were none like Taishu Huarong.

As Taishu Huarong stood there, he seemed to constantly emanate the feeling of daring to do anything and the unrestrained feeling as if he could do anything, and it felt as if he knew no bounds. It seemed as if he firmly believed he was capable of defeating the heavens, the earth, and everything in the world.

But Chen Xi was slightly disgusted.

“Are you talking to me? I heard you’re called the Sword Crazy Kid, I think you should be called the Idiotic Kid!” Chen Xi’s eyes were icy cold to the extreme and killing intent had already risen completely within his heart. Being continuously pursued, ambushed, and having surprise attacks launched at him during the past few days had caused him to have a belly full of rage long ago. At this moment, when he saw that not only had Taishu Huarong disrupted his plans, Taishu Huarong still dared to act so arrogantly, the rage in his heart was instantly and entirely aroused.

“No one has ever dared to call me an idiot! You’re courting death!” Taishu Huarong’s voice was indifferent as he took a step forward.

Swish!

He was 30km up in the sky earlier, yet in the next moment, he’d already approached close to Chen Xi, and his sword pierced directly towards Chen Xi’s heart.

This strike was angular like a serpent and filled with sharpness, and it seemed like a rising sun. Merely its aura could command the skies and move the sun and moon.

“Spirit Control Sword!” The eyes of Taishu Huarong’s companions lit up as they’d recognized the sword technique Taishu Huarong executed.

This sword technique was comprehended by Taishu Huarong from the heavens, the earth, and everything in nature, and this sword move linked up with the heavens and the earth to command everything in the world. It was like a strong gale when it swept out ferociously, and when it was gentle, one could even rub it with one’s finger. Yin and Yang were fused together, causing it to contain both softness and ferocity, and it contained numerous Grand Dao Insights. It was precisely by relying on this sword technique that Taishu Huarong had obtained the nickname of Sword Crazy Kid in the Snowray Dynasty.

Rumble!

Chen Xi held up the Talisman Armament and swept it horizontally through the sky as he executed the eight great sword moves of the Myriad Convergence Sword Technique to receive Taishu Huarong’s strike head on. The two swords collided in midair, and in an instant, they’d already crossed swords over a thousand times.

Swoosh!

The two figures that were like bolts of lightning split up.

Taishu Huarong's hair fluttered as his sword pointed up towards the sky while he stood in midair, and he seemed to have become the one and only king in the heavens and the earth, a sword that commanded everything in the world.

On the other side, Chen Xi's clothes fluttered as the Talisman Armament was coiled with countless arcs of lightning that shook the space in his surroundings. At this moment, he was like an emperor that controlled lightning.

"Good, very good. Chen Xi, you were actually capable of withstanding my Sword Insight. It truly causes me to be excited." Taishu Huarong's eyes burned, and he deserved the nickname of Sword Crazy Kid as the aura emanated from his body became stronger. "I only exerted half my strength earlier, and you being able to withstand it is sufficient to prove that your cultivation in the Sword Dao isn't bad."

"Obviously." Chen Xi suddenly put away the Talisman Armament and said with disdain, "I didn't even utilize half my strength earlier. Truthfully speaking, you're very disappointing. Sword Crazy Kid? You don't even have the qualifications to make me take out my sword!"

"I don't have the qualifications?" Chen Xi's words directly caused Taishu Huarong to become upset. As the Sword Crazy Kid, his sword technique was the best in the younger generation of the Snowray Dynasty, yet it was the first time he'd heard someone dare to say this, and this was simply the greatest offense towards the Sword Dao that he'd always been pursuing!

"I spared your life yet you actually dare provoke me instead? I'll take your blood and soul to atone for your crimes today!" His gaze of piercingly cold to the extreme and surged with dense killing intent.

Bang!

A powerful sword light pierced out and actually developed into a vast world that directly crushed down. This sword strike wasn't sharp, yet was powerful and immense, and it seemed as if the entire heavens and the earth was within this sword strike and was crushing down along with it. It gave others an insurmountable and terrifying pressure, as if one was going against the heavens and the earth.

Swoosh!

Chen Xi executed the Starsky Wings and charged up as his fists struck out like raindrops. Every single fist contained countless thunderstorm vortexes that blasted out, and the scene created was like countless lightning millstones were rumbling, revolving, and smashing down. It directly and utterly shattered the might of this sword strike.

"You took the heavens and the earth as your master? It's nothing great. Receive a punch of mine as well!" Chen Xi's counterattacked with his fist and directly arrived before Taishu Huarong. A punch blasted out like a myriad of lightning striking down from the heavens as vortexes covered the surroundings.

"Hmph! My sword is the heavens and the earth, and the heavens and the earth are me! How can you understand such profundity? Heavens and earth be my sword, transform into a cage, die!" Even though he was speaking, Taishu Huarong's hand didn't stop in the slightest. The sword in his palm flew about around him while piercing into space. Every single time it pierced out, a sword net would appear, and they covered the entire sky densely before enveloping down and obstructing Chen Xi's footsteps.

His sword technique was calm and unhurried, and his expression seemed as if he was taking an idle stroll in the courtyard while looking at the scenery. But his sword move became more and more fierce as the sword strikes transformed into a cage that contained both the ability of entrapment and slaughter within it, and every single attack it released pierced directly towards Chen Xi's heart or head.

Every single sword strike was capable of confining the ages, locking down light and darkness, and enveloping the void.

This move was one of Taishu Huarong's strongest killer moves.

"Us cultivators seek the ability to leave the three dimensions and transcend the five elements, to wander all corners of the universe and obtain great freedom. How can this be something that a tiny cage is able to trap?" Chen Xi utilized the Starsky Wings to the limit, causing a myriad of stars to circulate on it, and it carried him to move in between the sword lights and move about between the sword nets. The sharp sword lights and sword nets were entirely incapable of injuring him as his body seemed to have transformed into an unreal shadow that couldn't be tainted by anything.

Bang!

At the same time, Chen Xi's figure shook as he successively executed the three great Divine Abilities, Heavenly Transformation, Deity Transformation, and the Eye of Divine Truth, and he transformed into 57m tall giant with three heads, six arms, and a vertical eye between the brows. The sun and moon floated while worlds alternated within the vertical eye, and it contained the truth behind all the changes in the universe.

Swoosh!

The Eye of Divine Truth swept out causing the heavens and the earth to become dim and space to tremble, and it instantly saw through the various variations within Taishu Huarong's sword move.

At this instant, Chen Xi had executed all the numerous Divine Abilities he'd cultivated until now and overlapped all of them with the Stellar Lightningform. His six arms overlapped in pairs, causing him to seem as if he was embracing the world, and a rumbling thunderstorm vortex that was dazzling like the sun and contains surging arcs of lightning was condensed. When looked at from afar, it was like an enormous black hole had been torn open in midair.

Its impetus seemed almost capable of swallowing the heavens and the earth and sweeping through the world!

Bang! Bang! Bang!

Layer after layer of sword nets were destroyed instantly. Even Taishu Huarong's hair started flying up as the clothes he wore fluttered with the wind, and he seemed as if he was about to be swallowed into the vortex.

"Do you think you can defeat me with just this?" When facing this extremely dangerous strike, Taishu Huarong didn't become panicked and seemed to have expected how terrifying Chen Xi's strength was long ago. The imposing aura emitted from his entire body rose explosively with a bang, and it actually became stronger by more than a few times in an instant!

Most terrifying of it all was that strong baleful energy that was extremely piercingly cold surged madly around him, and it minced apart the surrounding space and caused everything in the world to be afraid of approaching him.

“Hahaha! Chen Xi probably never imagined that Senior Brother Taishu had already advanced to the Rebirth Realm three days ago. Moreover, he broke through to the 4th level of the Rebirth Realm in one go!”

“He actually forced Senior Brother Taishu to utilize the strength of the Rebirth Realm. Chen Xi’s strength is extraordinary indeed. There’s probably rarely anyone in the same generation that’s capable of being a match for him. Unfortunately, there’s an entire realm of difference between him and Senior Brother Taishu, so he’s bound to lose.”

When the companions of Taishu Huarong saw this, the nervous and worried expressions on their faces were completely wiped clear, and they became relaxed and excited, as if they firmly believed Chen Xi would lose for sure.

“Kill!” At the same time, after Taishu Huarong revealed his formidable imposing aura at the Rebirth Realm, he suddenly exploded out. His sword swept through the sky and transformed into golden lights that were like 10 scorching suns. “Spirit Control Sword, crushing the world with 10 suns!”

Rumble!

It seemed as if 10 suns had appeared in the sky at the same time, the scorching suns evaporated everything before them and transformed everything into ash, and they were brilliantly bright to the point it caused others to be unable to open their eyes.

Instantly, the thunderstorm vortexes Chen Xi condensed started shaking violently, and they faintly showed signs of dispersing.

The Rebirth Realm? It was seen through by my Eye of Divine Truth since long ago, does he really think he’ll be able to steal away a chance at survival like this? A trace of coldness suffused the corners of Chen Xi’s mouth as he opened his mouth and spat, causing a crimson red jade fan that was coiled in flames to appear on his palm.

After that, he fanned it lightly.

A strand of a flaming tidal wave roared and surged out like lava, and it covered the heavens and the earth while gushing and flowing out. The mountains, earth, ruins, and rubble, everything was enveloped by the flames, and they were incinerated into nothingness.

“This is...a Quasi Immortal Artifact! No! How can this be possible? How can a disciple from an ordinary Dynasty like you possess such a precious treasure? The heavens are unfair!” Taishu Huarong’s extremely terrified howl sounded out from within the sea of flames. His entire body was enveloped by the flames, causing him to transform into a flaming man, and he’d already suffered from a heavy injury and was struggling with the intention of fleeing.

But how could Chen Xi let him go? He repeatedly fanned the flaming fan in his hand once more, causing the glow of flames to gush out with a bang and transform an area of 5,000km around him into a sea of flames.

“Chen Xi, how ruthless of you! If I’m reborn, I’ll surely burn your bones and scatter your ashes so that you’ll never be able to be reborn.” Taishu Huarong was instantly unable to flee, and his shrill cries slowly and gradually became softer and weaker before completely vanishing. He’d perished, completely incinerated into nothingness, and not even a corpse of bones remained.

After he killed Taishu Huarong, Chen Xi didn’t sigh with emotion, but turned around and wanted to kill Taishu Huarong’s two companions. However, right at this moment, a terrifying fluctuation suddenly arose nearby, and it caused the heavens and the earth to tremble violently!

The pure white jade ornament had been agitated repeatedly, and it had finally erupted at this moment...

### Talisman Emperor

#### **Chapter 460: Whitebone Divineflame**

Bang!

Taishu Huarong had just died when the pure white jade ornament had suddenly erupted, and a milky white light flew out from it before transforming into a terrifying fluctuation that completely blasted apart the entire gorge. After that, it soared up into the sky while emitting a sea of light that caused the heavens and the earth to tremble violently.

“Shit, this treasure seems to have become enraged!” A shocked cry sounded out from afar. When Taishu Huarong’s companions saw Chen Xi withdraw the Quasi Immortal Artifact, they noticed it wasn’t going well and turned around and fled.

I’ll try one last time, and if it doesn’t work, I’ll leave right away. Meanwhile, Chen Xi already couldn’t be bothered to kill these two people, and he exerted his entire cultivation to condense a myriad of thunderstorm vortexes that enveloped the jade ornament. This treasure was intelligent and formidable, and Chen Xi would truly feel disgruntled if he was unable to subdue it.

Om!

The jade ornament shook and actually withdrew all its brilliance, revealing its entire body that was crystalline and almost translucent. At almost the exact same moment, a fluctuation that caused one’s heart to fluctuate stretched out abruptly from it.

When Chen Xi saw this, he instantaneously transformed into a flowing light and fled, as he’d sensed an extremely dangerous aura.

Rumble!

Sure enough, right when Chen Xi had just left, an explosion suddenly occurred behind him. The jade ornament emitted a great brilliance, causing it to seem like a descending comet, and it shockingly collapsed and shattered the mountains and even the sky. The terrifying force swept out to the surroundings and completely obliterated this area, causing it to become a place of death.

What a formidable treasure. It wouldn’t be something personally refined by a god of the ancient times, right? Chen Xi fled swiftly and felt extremely regretful in his heart. This treasure was truly too powerful and probably even Earthly Immortal Realm experts would be covetous upon laying sight on it.

Swoosh!

An ear piercing sound of the sky being torn apart sounded out from afar, and the jade ornament actually transformed into a ray of light that flashed into the distance, causing the shattered mountain to return to a tranquil state.

Hmm? This treasure is so formidable, yet why would it choose such a concealed place? Chen Xi turned around and couldn't help but be stunned when he saw this scene. The treasure actually leaving so hastily caused him to be extremely bewildered.

"Let me see where exactly it is going." Chen Xi didn't hesitate in the slightest to pursue like a wisp of smoke, and he chased after it all along the way.

However, the jade ornament's speed was too swift, and even slightly faster than teleportation. Even if Chen Xi executed the Starsky Wings with his full strength, he was unable to catch up and could only watch helplessly as it vanished into the distance.

But Chen Xi didn't give up and went forward all the way, causing the scenery of mountains and rivers to swiftly pass by. Unknowingly, he'd actually already entered the deepest regions of this boundlessly vast ruins.

After half a day of time, Chen Xi finally sensed the fluctuations of the jade ornament treasure.

There was actually a vast and continuous river in the distance, and to his shock, the river was filled with countless bones, and what flowed within it was entirely made up of bones and skeletons.

Chen Xi stood at the side of the river while chilly winds whistled by and blew into the skeletons within this river of bones, causing them to emit empty creaking sounds that sounded like the wails of ghosts and made one's scalp go numb.

The center of the river of bones was actually blazing with a type of milky white flame that seemed like brilliant white lava surging and gurgling, and it was a peculiar scene that seemed extremely terrifying.

This is Whitebone Divineflame! Chen Xi was shocked as he'd recognized this type of flame, causing him to be extremely shocked in his heart.

According to rumor, after some extraordinary gods of the ancient times fell, when the divinity branded within their bones wasn't destroyed after experiencing countless years of time, it would form into Whitebone Divineflame that shocked the world, and it was the best divine flame for refining Immortal Artifacts!

At the center of this river of bones was a ball of extremely dazzling and brilliant flames leaping about, and there was faintly a trace of the glow of divinity flowing within it. Moreover, it emitted strands of the tune of the Grand Dao, causing it to be an extremely shocking phenomenon.

Chen Xi's gaze was deep as he looked carefully from afar. If that's really Whitebone Divineflame, then wouldn't it mean that the remains of an ancient god is buried beneath this river of bones?

The remains of gods were covered in the Grand Dao and contained divinity within them, causing their will to be eternal. Moreover, they possessed boundless divinity, causing their value to be so great that even Heavenly Immortals would fight to the death for it.

This was the like innate bone markings on some peerless ferocious beasts, and it contained numerous Grand Dao profundities. Moreover, it also possessed the comprehension and wisdom of the god towards the Laws of the Grand Dao. If one was capable of comprehending a trace of the essence within it, then it would be absolutely and boundlessly beneficial to one.

The jade ornament is within the flames! In the next moment, Chen Xi noticed to his shock that the pure white and crystalline jade ornament was actually floating within the Whitebone Divineflames, and it was enduring the tempering of the flames.

Could it be that this jade ornament treasure is injured and wants to utilize the Whitebone Divineflame to repair itself, or perhaps seek a transformation? If it's true, then the intelligence possessed by this treasure is too terrifying.

Only the Artifact Spirits of an Immortal Artifact is capable of possessing such intelligence, right? At this moment, Chen Xi even suspected that this jade ornament was an Immortal Artifact, and even if it wasn't an Immortal Artifact, it would absolutely not be much inferior to one.

The river of bones roiled while covered in corpses, and the divine flames at the center of the river blazes brilliantly with milky white colored flames that were like erupting lava. The aura emitted by it was extremely terrifying and dangerous, causing Chen Xi to have no choice but to temporarily avoid it.

He remained around the river of bones for the next few days and had always been waiting for the Whitebone Divineflame to be extinguished. However, it was blazing brilliantly while emitting a surging glow, and it entirely didn't show signs of extinguishing.

Another seven days passed and a change finally occurred in the Whitebone Divineflame. It stopped gushing out and submerged into the river instead, whereas the jade ornament submerged itself into the river along with the flames. If Chen Xi didn't constantly pay attention to it, he'd probably have thought that they'd vanished.

Hiss!

On this day, Chen Xi was staring at it from the side of the river when a sword light flashed over abruptly. A white clothed young man appeared while flashing through midair with a sword in his hand, and he struck towards Chen Xi while looking down at him from above.

Figures appeared successively in the surroundings. Shockingly, they were numerous genius experts of the Snowray Dynasty, and the white clothed young man was precisely one of Taishu Huarong's two companions.

Chen Xi dodged the sword light before staring fixedly at these people, and he noticed to his shock that this group of an entire 15 people weren't only made up of the genius experts of the Snowray Dynasty and there were also members of the Eastern Summer Dynasty, Skywolf Dynasty, and Darqian Dynasty.

"All of you are really like ghosts that are unwilling to leave." As Chen Xi spoke, a vertical eye appeared between his brows before sweeping past everyone present, and he felt greatly relaxed when he didn't notice an aura at the Rebirth Realm.

On that day in the gorge, it felt extremely troublesome to him when Taishu Huarong revealed a cultivation at the 4th level of the Rebirth Realm. If he didn't possess the Quasi Immortal Artifact, the Flaming Peacock Fan, it would be utterly impossible for him to kill Taishu Huarong so easily.

Actually, Emperor Chu had made it clear before they entered the Primeval Battlefield that one only possessed the strength to protect one's self in the slaughters and competitions in the Primeval Battlefield after advancing to the Rebirth Realm.

But the environment in the Primeval Battlefield was too adverse, and it was practically impossible to find a peaceful place when one could cultivate and break through. Coupled with Chen Xi being alone and having no one to stand guard for him, he didn't have the time to charge into the Rebirth Realm all this time.

But he'd decided since long ago that he would break through to the Rebirth Realm no matter what once he left the Isle of Fallen Treasures. Because only in this way would he possess the qualifications to go against the true experts within the Primeval Battlefield.

"Hmph! Hatred should of course be resolved with force. It's your fault for being a member of the Darchu Dynasty!" The young man in the lead wore a luxurious robe and was called Geng Luo, and he was a genius expert of the Darqian Dynasty. Obviously, this group of people took orders from him.

Chen Xi smiled when he heard this, and then he said while shaking his head, "Have too few of the genius experts of your various Dynasties died during these past few days? You still dare continue pursuing me? Could it be that you're not afraid that all of you will perish in these ruins?"

He was speaking the truth. Since the first beast tide erupted until this day, it had already been over two months of time, and during this period of time, he'd experienced countless surprise attacks and ambushes, causing the amount of genius experts that had died at his hand to be extremely shocking.

But when these words entered the ears of the group of people present, it was like an undisguised insult and ridicule, causing all their faces to be covered in rage and become as unsightly as unsightly could be.

"Do you think you'll be able to continue living after today? For the sake of killing you, the genius experts of our various Dynasties have gathered together this time, and no matter how swift your movement technique is, you'll be unable to escape death this time!" Geng Luo shouted out loudly before attacking brazenly.

Since he was able to be pushed out as the leader of everyone, his strength was naturally not weak, and the truth was indeed so. Geng Luo was an outstanding talent of the first-rate Dynasty, the Darqian Dynasty, and there was rarely anyone amongst those of the same generation who could go against him. He'd ambushed Chen Xi within these ruins on numerous occasions, yet hadn't succeeded a single time, and it was truly a humongous humiliation to him.

He'd gathered so many people over this time precisely for the sake of completely locking down all of Chen Xi's paths of retreat before annihilating him.

Swoosh!

Geng Luo's blade flashed through the sky while emitting a sharp and blazing light that covered and shook the heavens as it slashed down towards Chen Xi.

This was an ambush and it was indeed difficult to escape based on the current circumstances. But Chen Xi didn't intend to flee again. He stretched out his hand and grabbed the Talisman Armament before the might of his sword surged out like a tidal wave as it dashed forward and completely destroyed Geng Luo's attack.

"Everyone, attack together and annihilate this fiend!" One of the young men moved forward and attacked along with Geng Luo.

At the same time, everyone else scattered out in the surroundings and locked down every corner with their figures before successively attacking with their full strengths towards Chen Xi, who stood at the side of the river.

Bang!

The battle erupted. Chen Xi successively collided forcefully with a few of them, causing his vital energy and blood to boil, and the various attacks that covered the sky pressed down upon him to the point he was almost suffocated.

This wasn't one or two people, but 15!

The 15 people were top geniuses of the younger generation that came from various Dynasties. The martial techniques they cultivated were all perfect Dao Grade martial techniques, and the magic treasures they possessed were all top-grade heaven-rank magic treasures. At this moment, when they attacked jointly with the intention of annihilating Chen Xi, their might was something that even a Rebirth Realm expert had to flee from.

Chen Xi's heart went cold as he knew he was unable to go against them, and if he was completely trapped, then he would surely die a graveless death.

He didn't get locked in combat, but fought while retreating.

"Chen Xi, your strength is formidable indeed, and it isn't inferior to the strongest young experts of my Darqian Dynasty. But you'll undoubtedly die today. Moreover, it won't be just you, all the geniuses of your Darchu Dynasty will perish in the Primeval Battlefield!" Geng Luo shouted out loudly as his attacks became even more ferocious like a storm.

Chen Xi was shaken by these attacks to the point his vital energy and blood roiled, and he repeatedly executed the Starsky Wings to dodge the attacks. But his expression wasn't panicked, and in the end, he flashed out to charge towards the river of bones.

He had a daring thought in his heart, and not only did he want to survive, he wanted to completely annihilate all these people that besieged him this time!
