Chapter 611: Peerless Imposing Aura

Everyone was shocked that the joint attack of Leng Qiu and Pang Zhou had actually injured Chen Xi!

“That’s double combat strength! Senior Brother Leng Qiu has obviously already comprehended the Grand Dao of Wind to the Perfection Realm!”

“Senior Brother Pang Zhou is extremely extraordinary as well. The might of that slash fused the Grand Dao of Yin and Grand Dao of Fire, causing it to be peerlessly violent and similarly astounding.

“Yeah. I’m truly unable to imagine who amongst those that possessed a similar cultivation would be able to resist the joint attack of Senior Brother Leng Qiu and Pang Zhou.”

Perhaps this was the correct explanation. After all, as far as everyone was concerned, no matter how heaven-defying Chen Xi’s strength was, he was all alone in the end. Moreover, he’d only just cultivated and comprehended Dao Arts for less than three months of time, so he was already innately inferior to Pang Zhou and Leng Qiu.

Rumble!

On the ring, after they succeeded with their attacks, Pang Zhou and Leng Qiu didn’t hesitate in the slightest to launch a ferocious attack at Chen Xi.

Leng Qiu was the like the king hurricanes that was raging, piercingly cold, and carried along boundless wind vortexes. He was like a hurricane that stirred the ocean and swept through the world with invincible might.

Pang Zhou’s entire body was fiery red instead, and his aura was terrifying as he seemed to have transformed into a crimson red colored flame. His hands seemed as if they held divine flames that were capable of incinerating space and melting everything between them.

Their attacks this time were like a falcon swooping down from the sky and a hawk that struck from the sky. Both of them grasped the situation of the battle tightly and attacked fiercely in a fleeting moment, and they didn’t hold back in the slightest because they wanted to crush Chen Xi completely. The terrifying and fierce imposing aura they emitted caused the hearts and minds of everyone present to shake.

Bang!

Blood flowed out of the corners of Chen Xi’s mouth, yet he didn’t retreat backwards. Conversely, his figure was like an unmoving mountain as he took the ninth step since the battle began!

Right at this instant, everyone seemed to have heard the roar of a dragon and the cry of a phoenix. It was like the chanting of the gods were resounding in the nine heavens, whereas boundless light erupted from beneath Chen Xi’s feet and sprayed down like a rain of light before transforming into boundless talisman markings that condensed into numerous lotus flower images that were crystalline like black jade, and they spread out into the surroundings.

Chaotic Nine-Step Annihilation — The ninth step, World Chaos!

The numerous lotus flowers that were like crystalline black jade were condensed from vast killing intent. At this moment, when all of them bloomed, they caused Chen Xi to seem like an Emperor that caused lotuses to bloom with every step he took, and he possessed a peerless imposing aura.

Bang!

As soon as this step was taken, killing intent shot out while the black lotuses were like a hell that sealed off the surroundings, and it simply intended to cause the sky to fall into chaos and be shattered!

Just this strike had destroyed all attacks and blasted both Leng Qiu and Pang Zhou who'd assaulted him flying, and they were like kites that had their strings severed and almost descended outside the ring.

The sudden change in the situation caused everyone to be shocked to the extreme once again. Earlier, Chen Xi had suffered an injury and everyone thought that he would lose without a doubt. Never had they imagined that in only a single move, Leng Qiu and Pang Zhou who possessed imposing auras that shot into the sky like rainbows had similarly suffered injuries!

The sight of such a change in events dazzled their eyes, and some spectators were even unable to see through exactly who the situation was more beneficial to. But it was indisputable that Chen Xi's strength was really terrifying and had repeatedly surpassed the expectations in the hearts of everyone, causing them to not dare confirm exactly how much of his strength hadn't been exposed yet.

"Chaotic Nine-Step Annihilation, it was actually executed by him to such an extent..." In the distance, Lie Ping muttered in a light voice.

He hadn't cultivated the Chaotic Nine-Step Annihilation, yet he'd seen it before in the past. It was a peak-grade Dao Art that possessed an extremely high ability of slaughter, and it was exceedingly difficult to cultivate. However, Chen Xi had cultivated it to such an extent within three months, and this caused Lie Ping to be slightly shocked.

Blood flowed out of the corners of both Pang Zhou's and Leng Qiu's mouths, yet vanished in the blink of an eye while a wisp of seriousness and shock gushed out onto their faces. After that, their eyes recovered its calm, and they soared into the sky to attack Chen Xi once again.

Bang!

An intense wave of the rumbling of the Dao resounded out as an image that wore an emperor's crown emerged from behind Leng Qiu, and it possessed a supreme dignity that was like who'd been reborn and looked down upon everything in the world.

On the other hand, Pang Zhou's entire body seemed as if it was on fire, and the glow of flames that was dazzling and resplendent shot into the sky. His imposing aura had attained its peak, and it was arrogant and fierce.

Up until this moment, both of them understood that there was nothing to conceal, and only by going all out would they be able to crush the strong enemy before them completely.

At the same time, Chen Xi went all out as well. His figure flashed out while coiled with divine rings of light, and numerous ancient and fierce sword shaped talisman markings surged around him, causing his imposing aura to change abruptly.

Even the sky above him grew slightly dim, and he seemed to be accumulating his imposing aura with the intention of slashing out with a sword technique that shook the world, a sword technique that annihilated both past and future and buried the world!

If it was said that Chen Xi was mighty and overbearing earlier like a king that ruled the world, and blood flowed into rivers with a swing of his hand; then at this moment, he was like a monarch of the Sword Dao that was invincible and peerlessly fierce, and he'd vividly displayed the essence of the Grand Dao of the Sword.

"This is..." Everyone turned pale from astonishment. Never had they imagined that Chen Xi's imposing aura would actually undergo such a tremendous change. Even though it was completely different from before, the fierce and murderous feeling it emanated still caused others to be horrified.

"Kill!" Leng Qiu's and Pang Zhou's pupils constricted when they sensed the changes in Chen Xi's imposing aura, and they shouted out explosively without the slightest hesitation. They launched an attack of certain annihilation, causing hurricanes to sweep out while waves of flames soared into the sky, and it was terrifying to the extreme.

At the same time, Chen Xi's hands flicked about repeatedly, causing numerous fierce sword qi that were 30m long to crisscross throughout the sky before crushing down with the intention of annihilating everything and burying everything in the world.

Rumble!

This was a great collision that shook the heavens. Hurricanes howled as seas of flames surged into the sky, and the peerless sword qi swept out in all directions, causing the ring to shake violently and seem as if it was about to be shattered.

Everyone in True Martial Peak was astounded. All these combat rings were constructed from special materials and had terrifying grand formations placed upon them by almighty figures in the sect, causing them to be capable of withstanding the full forced strike of an Earthly Immortal Realm cultivator.

Even then, there were still fine cracks that appeared on the foundation stone of the ring, and it was like a spreading spider web that was shocking to the extreme!

"In all the numerous Peak Trials of the previous years, a battle that's horrifying like this is rare to the extreme!" Someone exclaimed with admiration, and he felt heartfelt shock.

"Junior Brother Chen Xi really is formidable." The eyes of the South Radiance Peak's Xia Yi that was usually silent like a rock couldn't help but be suffused with a trace of burning battle intent when he witnessed this scene.

He couldn't help but glance at An Wei who was on the other side, yet he noticed her beautiful hair waved with the wind while her dress fluttered, and her beautiful and classical face was extremely calm and didn't reveal much shock. This caused Xia Yi to be unable to help but be stunned, and then he recovered his calm and looked towards the ring once more.

“Kill!” Chen Xi fought with Leng Qiu and Pang Zhou on the stage, and they crossed each other like bolts of lightning with extremely swift speeds. In merely an instant, over a thousand collisions that were extremely intense had occurred between them, and they fought to the point the heavens and the earth trembled, the sun and the moon were cast into a shadow, and the space in the surroundings shook. They caused everything to fall to the verge of chaos and collapse, and they were swift to the point everyone was incapable of following up to their speed.

“How terrifying! Such a battle is truly unprecedented, and matchlessly shocking!”

Amidst the low sounds of discussion from everyone present here, they felt that coming to watch the Peak Trials was worth it because being able to observe a collision of such a level was greatly beneficial to their future cultivation.

“I wonder who’ll win and who’ll lose at the end of this battle?”

“It ought to be Senior Brothers Leng Qiu and Pang Zhou who have a greater chance at victory. After all, they’re fighting against one, and if they fight until the end, Chen Xi would probably lose from exhausting all his energy.”

“That might not be the case, that might not be the case. Even if Senior Brother Chen Xi loses this battle, his reputation wouldn’t be harmed in the slightest. Conversely, it would attain an unprecedented height and be like the sun in the midday sky amongst the Elite Disciples. After all, he faced the disciples of the entire East Radiance Peak by himself this time, and how many people are capable of such a magnificent feat?”

Up until this point of the battle, everyone was unable to perceive who had the better chance of winning. But, without a doubt, the ferocious strength Chen Xi revealed today was bound to be branded in the hearts of everyone, and it wouldn’t disappear for a long time.

“Skycontrol Burial Sword... Another peak-grade Dao Art...” Chen Xi’s various displays that exceeded the expectations of everyone had shocked Lie Peng to the point his face was slightly numbed. Since the beginning of the battle, just the Dao Arts he’d seen included the Violetlotus Goldshadow Barrier, the Chaotic Nine-Steps Annihilation, and the current Skycontrol Burial Sword.

Every single one of these were peak-grade Dao Arts that possessed might that shook the heavens and the earth. Even if it was someone with extremely high natural talent, it would be extremely difficult to comprehend and grasp one of these Dao Arts within a short few years.

However, Chen Xi had actually grasped three Dao Arts in a short three months of time!

How could this not shock Lie Peng?

These were only the Dao Arts he’d seen, and he was even unable to be certain if Chen Xi had grasped even more Dao Arts...

Bang!

Chen Xi calmly and unhurriedly executed the fierce and ghastly Skycontrol Burial Sword, and he circulated the Blackhole World within his body to the limit.

Bang! Bang!

Leng Qiu and Pang Zhou spat out a mouthful of blood, and both of them suffered an injury from the fierce and invincible sword qi.

“Could it be that a victor is going to be decided?” Someone exclaimed with shock.

“Impossible. Senior Brothers Leng Qiu and Pang Zhou will absolutely not be eliminated just like this.”

“Indeed. Until the final moment arrives, no one can make a rash judgement, because once Senior Brothers Leng Qiu and Pang Zhou adapt to Chen Xi’s combat rhythm, then perhaps it would be time to turn the situation around.”

Most of the people present revealed expressions of disbelief when they saw the two of them getting injured, and they were unable to believe that Leng Qiu and Pang Zhou who were members of the five great Elite Disciples would actually suffer an injury under the circumstances of fighting an enemy two against one.

“Chen Xi, your Dao Art is really formidable. But if you only have this little ability, then you’re bound to lose today!” Leng Qiu wiped off the blood on the corners of his mouth as he spoke with an icy cold tone.

He was speaking the truth. Chen Xi’s sudden change of Dao Art and executing the Skycontrol Burial Sword had really caught him off guard. But now, he’d already completely adapted to all of this, and it was the moment of his counterattack next.

Rumble!

As soon as he finished speaking, hurricanes surged around Leng Qiu’s body before suddenly condensing into countless translucent blades of wind that carried the might of the heavens and the earth, and then he charged out abruptly. Vortexes rumbled between his palm and fingers while divine lights surged into the sky, and it emanated a terrifying energy that intended to annihilate everything.

This was a type of annihilation technique and a forbidden technique in the Emperor Windsoul Technique. Supposedly, if it was grasped perfectly, then it was sufficient to mince a real Fiendgod to death!

On the other side, Pang Zhou made a move as well. His entire body emanated the glow of fire that was like the scorching sun, and he seemed like a god that had been born from a sea of lava as he charged at Chen Xi like a blazing ray of light.

“Get the fuck down!” But, right at the instant they made a move, Chen Xi had already taken great steps to charge over with extreme speed, and the surroundings of his entire body surged with a myriad of enormous waves that seemed like an ocean was sweeping over. Layer upon layer of palm images overlapped onto each other, causing its might to rise explosively!

Its impetus was different when compared to the Sword Dao technique from before that possessed a peerlessly fierce impetus. It was a peerlessly might impetus like a boundless ocean or abyss, and nothing in the world was capable of resisting it!

“The Myriad Netherwave Palm!” Lie Peng was almost unable to refrain from crying out. Exactly how many peak-grade Dao Arts has this little fellow grasped?

Talisman Emperor

Chapter 612: Crushed Completely

The Myriad Netherwave Palm was a peak-grade Dao Art from the secret realm at the top of the lotus platform, and it was formed from Grand Dao profundities absorbed by the Chaotic Divine Lotus from the surging river of blood after it rooted itself in the Netherworld.

As it was said, there was a river in the Netherworld, it washed the hearts of man and eliminated their sins. The myriad of waves are like a tide that is impossible to resist by both ghost and god! Moreover, the Grand Dao contained within this Myriad Netherwave Palm was from the cycle of rebirth in the Netherworld and the six paths of hell!

If it was any other person, then perhaps the person would only be able to comprehend superficial knowledge of the Myriad Netherwave Palm and be unable to obtain its essence. After all, the paths of man and ghost were completely different, and it was very rare for a mortal cultivator to be able to comprehend and grasp profundities of the Netherworld.

But Chen Xi was different. The Grand Dao profundities of Paramita and Oblivion that he'd grasped were from the six paths of reincarnation. Using them to execute the Myriad Netherwave Palm allowed its might to be absolutely extraordinary.

Rumble!

As Chen Xi's palm was slapped out, the phenomena of an expanse of a sea of flowers suddenly gushed out into appearance amidst the myriad of palm images. The flowers were red like blood and covered the entire heavens and the earth. When looked at from afar, it was like a carpet that was covered in fresh blood, and it lay across the sky and led towards the last path of sin in hell.

Paramita Dao Insight — The path illuminated by fire!

The breathtaking crimson red flowers were the famous Red Spider Lilies of the Netherworld that were also called Paramita Flowers. They were like fire, like blood, and they represented calamity, separation, and death.

According to legend, after one perished, one's soul would only be able to enter the Netherworld and return to the six paths of reincarnation under the guidance of the Paramita Flowers.

"Hmm? It's actually the Paramita Dao Insight! Where did this fellow cultivate such a rare Grand Dao profundity from?!" In the distance, Lie Peng's expression suddenly revealed shock as a cold light suffused his eyes, and he was surprised and bewildered.

Once one had attained a cultivation like his, one would possess knowledge of the Mortal Dimension, Immortal Dimension, and the Netherworld that far exceeded an ordinary person. So he naturally noticed with a single glance that Chen Xi had actually struck out with a Grand Dao profundity that belonged to the Netherworld in his palm strike!

On the other side, Yue Chi similarly revealed a shocked expression, and his beard and hair fluttered. The Paramita Dao Insight, one of the three Grand Daos that the Netherworld Emperor of the Primordial Era possessed. Where did this kid learn it from?

Bang!

In the ring, the attacks of Chen Xi collided head on with the attacks of Pang Zhou and Leng Qiu. It was like a thunderclap that shook the world, causing hurricanes, seas of flames, and tempestuous waves of palm images to explode together. The area shattered apart like a scorching sun, causing great waves to surge violently and be unable to disperse for a long time.

After that, a scene that shocked the heart of all appeared within everyone's field of vision.

Leng Qiu and Pang Zhou were heavily injured and coughing blood, and they were gasping heavily for breath while standing at the border of the ring. Their figures were on the verge of collapse, and they were actually only a step away from being blasted out of the ring.

On the other hand, Chen Xi's clothes fluttered with the wind while his figure remained ramrod straight, and he seemed to be completely unharmed, while only his countenance was pale and practically translucent. Even though he wasn't injured, his consumption of strength was enormous.

Up until this point in the battle, the situation had already entered into the final and hot phase. At this moment, perhaps merely a single move would decide on the final victor!

But based on the current circumstances, Leng Qiu and Pang Zhou had obviously suffered a loss because they seemed to have already suffered a heavy injury...

At this moment, the entire True Martial Peak was perfectly silent to the point a falling needle could be heard, and the atmosphere was silent and oppressive to the point of being terrifying.

Everyone held their breaths in concentration and forgot to breathe as they stared fixedly at the ring and the three figures that were like three young exalted figures because they were deeply afraid of missing the slightest detail.

"Hahaha! Chen Xi, you really boasted shamelessly! I and Senior Brother Leng Qiu are still standing in the ring after this strike, and we haven't lost!" Right amidst this silence, Pang Zhou suddenly roared with laughter towards the sky, and his voice was already completely hoarse. He recalled that Chen Xi had spoken about blasting them down the ring, yet now, they were still fine and well on the ring and hadn't lost!

Leng Qiu remained indifferent. His white clothes were tainted completely scarlet red with blood, and only his gaze similarly revealed an unyielding expression that was resolute and ruthless. The final victor was still unknown, so he hadn't given up as well.

These two people deserved to be one of the five great Elite Disciples and possess brilliant reputations. Merely this persistence in battle was sufficient to display how firm their Dao Hearts were.

Similarly, since they were capable of attaining their current accomplishments, then it was surely not an unearned reputation.

"Oh, really?" On the other side, the corners of Chen Xi's mouth was suffused with a trace of coldness as his backbone straightened abruptly.

Bang!

The airflow in the surroundings suddenly transformed into a muddy and pale yellow sea, and it lay across the heavens and the earth while muddy waves surged on its boundless expanse.

At the same time, a matchless suppressive force gushed out from the sea, and it surged and roared as if countless gods were shouting. 'Sink! Sink!'

It seemed as if it wanted to suppress the entire sky within this boundless sea.

Bang! Bang! Leng Qiu and Pang Zhou were caught off guard and were instantly swept into the muddy sea before being blasted out of the ring. They simply didn't have any room to struggle before directly falling to the ground and spitting blood endlessly.

This change in events occurred too swiftly. No one had imagined that Chen Xi actually still had residual strength at this moment, and only a command in his heart had drawn the energy of the heavens and the earth to completely blast Leng Qiu and Pang Zhou out of the ring.

"The Grand Dao of Oblivion. As expected, it's another Grand Dao profundity of the Netherworld!" Lie Peng's expression revealed shock once more as he'd recalled a great figure of the Primordial Era that looked down upon the world, and his heart and mind shook with terror.

"Paramita, Oblivion... Has he also grasped the Grand Dao that according to legend caused the gods to be extremely fearful as well... The Terminus Dao Insight?" Yue Chi's eyes flickered repeatedly, and the gaze he shot at Chen Xi already carried a wisp of an unusual feeling. It seemed to be astonishment, greed, bewilderment, and disbelief, and it was complicated to the extreme.

But when he saw Leng Qiu and Pang Zhou who'd been struck down by Chen Xi, the distracting thoughts in his mind were instantly replaced by extreme rage.

He'd worked bitterly and prepared for such a long time, and even set up layer after layer of contingencies, yet was actually still incapable of pulling Chen Xi down. This outcome caused him to be depressed to the point he almost spat blood.

"They've lost. Senior Brothers Pang Zhou and Leng Qiu have actually lost..."

"Terrifying, truly too terrifying. Senior Brother Chen Xi has just entered the sect for less than three months, yet has actually swept through all the disciples of the East Radiance Peak by himself. Such strength is sufficient to take control of the four great peaks for Elite Disciples!"

"I even suspect that if Senior Sister An Wei were to ascend the ring, would she be a match for Senior Brother Chen Xi?"

After a short period of silence, the entire True Martial Peak instantly exploded into an uproar with waves of clamorous noise that shot into the sky and resounded in the nine heavens. Some people felt pity for Leng Qiu and Pang Zhou, some were rejoicing for Chen Xi, and the atmosphere was explosive and seething with excitement to the limit.

Leng Qiu and Pang Zhou struggled to stand up before the ring, and as their gazes looked at Chen Xi who stood alone on the ring, they revealed a strand of unwillingness.

But both of them knew clearly that it was already too late now. They'd already been blasted off the ring and had been completely eliminated. Even if they stood up once more, it was impossible for them to go challenge Chen Xi who was in the ring.

"I never imagined that such a figure would actually appear in my Nine Radiance Sword Sect..." Leng Qiu took a deep breath and shook his head before turning around to leave in an upright and lighthearted manner.

"Junior Brother Chen Xi, even though we've lost, but next..." Pang Zhou's gaze swept through the distant South Radiance Peak and North Radiance Peak disciples and said with a smile, "I hope you can persist until the end and seize a position to become a Seed Disciple."

The meaning of his words were self-evident. 'The Peak Trials can't be considered to have ended at this point because besides the disciples of the East Radiance Peak, there're also the disciples of the South Radiance Peak and the North Radiance Peak. Since you, Chen Xi, are on the verge of exhaustion now, don't be blasted down the ring by a nobody.'

Chen Xi smiled indifferently, yet didn't say anything.

He naturally understood the meaning within Pang Zhou's words. But he wasn't afraid because not only was he a qi refiner, he was also a body refiner!

Chapter 613: Seed Disciple

Including Leng Qiu, Pang Zhou, and Du Xuan, all the disciples of the East Radiance Peak that were participating in the Peak Trails had been defeated and eliminated! The person who'd done all of this was only Chen Xi!

This scene shocked everyone on the entire True Martial Peak. No matter if it was those inner court and outer court disciples or the other Elite Disciples, all of them were in animated discussion and in an uproar. It was like they'd witnessed the birth of an unprecedented miracle, and it brought deep shock to their hearts.

No one had imagined that a new disciple that had just entered the sect for less than three months would actually be capable of accomplishing this!

On the platform at the peak of True Martial Peak.

The disciples of the East Radiance Peak that were participating in the Peak Trials had already withdrawn themselves, and only the disciples of the South Radiance Peak and North Radiance Peak remained standing there. No one said a word as they looked at Chen Xi who was on one of the rings and the two empty rings.

The atmosphere was slightly strange.

Those empty rings originally belonged to Leng Qiu and Pang Zhou. But both of them had already been eliminated now, so they were without an owner now.

On the other hand, based on his outward appearance, Chen Xi seemed to already be on the verge of exhaustion after experiencing that battle that shook the heavens and the earth, and it seemed...that so long as another person challenged Chen Xi, that person would be able to defeat Chen Xi.

In other words, up until this point in the Peak Trials, along with Leng Qiu and Pang Zhou being eliminated and Chen Xi's physical strength being consumed intensely, it imperceptibly seemed as if the chances for the other disciples before the platform had risen!

It was even to the extent that so long as they grabbed this opportunity firmly, they would be able to obtain a position and become a Seed Disciple!

Before this, it was absolutely something that all of them didn't dare imagine. After all, in the previous Peak Trials, the positions of the five Seed Disciples were practically prepared for the five great Elite Disciples, and it was rare for anyone else to obtain a position.

However, it was different now. Two rings were empty, whereas there was a ferocious figure on another ring yet he seemed to be unable to endure another battle because of fatigue.

Instantly, it seemed as if there were three more positions that could be fought for!

This caused those disciples that hadn't ascended the rings to issue a challenge to be unable to help but feel restless in their hearts, and even their breathing became much more rapid.

"This combat ring is mine!" Right amidst this slightly strange and oppressive atmosphere, a fiery red and beautiful figure suddenly soared into the sky like a ray of flames, and it instantly appeared on one of the rings.

She wore a fiery red dress and had beautiful hair that hung loosely on her shoulders. Her appearance was young, pure, and gorgeous, her skin was crystalline, white, and supple, and her figure was tall and graceful, causing her to be gorgeous and charming. She was precisely the female disciple of the North Radiance Peak, An Ke.

The ring she stood on just happened to be neighboring to her big sister, An Wei. Both sisters stood on their respective rings with peerlessly beautiful appearances and bearings that each carried its own advantage, and they formed a gorgeous scenery.

But the disciples before the platform didn't have the mood to admire it, and their moods became slightly terrible instead.

An Ke's strength could be considered to be first-rate as well. Even though it couldn't compare to her big sister, she was a top existence amongst the Elite Disciples of the four peaks. Coupled with her big sister being the number one figure that reigned supreme above all Elite Disciple, would anyone have the thought of challenging her when they saw her appear on a ring now?

What if they were to offend An Wei because of this?

Even if they took the risk of offending An Wei and challenged An Ke, there were very few people that dared say they were surely capable of defeating An Ke.

So everyone instantly understood that this ring was bound to belong to An Ke without a doubt, and even if they challenged her, it would probably be impossible to turn the situation around.

Swoosh!

Right when everyone was slightly stunned by An Ke's appearance, another figure flashed out towards the other empty ring.

This was a disciple of the South Radiance Peak called Che Xun, and he was from the One-Legged Tiger Clan. He was a body refiner at the perfection-stage of the Rebirth Realm, and his strength was rather formidable.

But everyone heaved a sigh of relief in their hearts when they saw Chen Xun appear. This fellow's strength was extraordinary indeed, yet he wasn't like An Ke who still had a formidable big sister to rely on. Moreover, everyone felt their strengths weren't inferior to Che Xun, so there were many people that had made preparations to challenge Che Xun.

On the other hand, there were some people that shot their gazes at Chen Xi, and their expressions were hesitant and indeterminate. They wanted to defeat Chen Xi and seize the ring, yet were worried of suffering Chen Xi's counterattack and being eliminated instead.

Chen Xi stood calmly and quietly when facing these gazes, and he was confident and without the slightest nervousness.

"All of you aren't a match for Junior Brother Chen Xi. Don't forget that he's also a body refiner just like us." Right at this moment, the usually reticent Xia Yi on the other ring suddenly swept the South Radiance Peak disciples before the platform with his gaze before speaking.

Those South Radiance Peak disciples were over 20 in number, and all of them were body refiners. All of them were shocked in their hearts when they heard this, and then they suddenly recalled that according to rumor, Chen Xi had indeed utilized a body refinement cultivation technique when he defeated Du Xuan three months ago...

If this rumor was true, then even if the True Essence of Chen Xi who was on the ring had dried up and was impossible to recover in a short period of time, Chen Xi could still utilize Shaman Energy to do battle!

When they thought up to here, some South Radiance Peak disciples instantly discarded any thoughts of challenging Chen Xi, and they shot their gazes at the ring Che Xun was on instead.

But there was still a small group of South Radiance Peak disciples that weren't convinced, and they remained indifferent towards Xia Yi's words and still persisted on defeating Chen Xi with the School of Fiendgod Body Refinement they were most skilled in to seize the combat ring.

"If all of you want to challenge Junior Brother Chen Xi, then it's best if you're mentally prepared to fail." Meanwhile, An Wei suddenly spoke with a light voice, and her voice was gentle, cold, melodious, and pleasing to the ear.

The target of her words was those female disciples of the North Radiance Peak. She was extremely clearly aware of Chen Xi's strength, and she knew that relying on the Divine Ability, the Eye of Divine Truth, those junior sisters of her were bound to be unable to gain any advantage.

All those female disciples were stunned before glancing at each other, and they chose to listen to their Senior Sister An Wei in the end and completely discard all thoughts of challenging Chen Xi.

Comparatively speaking, the gains of their North Radiance Peak had already far exceeded expectations. An Wei and An Ke were both from their North Radiance Peak, and if both of them were able to become Seed Disciples, then they would feel honored from An Wei and An Ke' accomplishments.

Swoosh!

A South Radiance Peak Disciple was unable to restrain the yearning in his heart in the end. In the next moment, he'd already ascended Chen Xi's ring, and said while cupping his fists, "I'm Xie Feng of the South Radiance Peak. Junior Brother Chen Xi, please give me your guidance."

Xie Feng had a stalwart figure and firm appearance, and his body refinement cultivation was at the perfection-stage of the Rebirth Realm. At this moment, he stood upright on the ring with a composed appearance and bearing, and he seemed rather extraordinary.

"Senior Brother Xie Feng, please go ahead." Chen Xi nodded. In the next moment, the vital blood in his entire body rumbles as Shaman Energy surged abruptly, and he emitted a desolate, mysterious, and extremely powerful and vast imposing aura.

Bang!

Xie Feng's eyes narrowed when he saw this. But he wasn't afraid and took a step forward before striking out with his fist like the tail of a dragon, and it carried the spirit to destroy mountains and split seas as it crushed space itself and smashed directly at Chen Xi.

This push was powerful, direct, simple, and heavy. This punch simply struck out like the swing of a dragon's tail, and it enveloped the surroundings while emitting the enormous roars of dragons that shook the hearts of all in the sky.

When facing this strike, Chen Xi's figure flashed out as he clenched his palm into a fist, and then it gushed with thunderstorm vortexes as it struck down like a bolt of lightning and collided directly with Xie Feng.

Bang!

A muffled band resounded out before waves of air swept out, and it was like a tsunami and earthquake had erupted. Xie Feng's figure staggered back over 10 steps uncontrollably, and he was shaken by the strike to the point his right arm was numb while his chest rose and fell rapidly.

On the other hand, Chen Xi stood on the spot without moving and with a composed expression, and his imposing aura seemed to be even more powerful. He was like a lofty mountain that was impossible to move, and he emanated an intense feeling of pressure.

With just a single strike, the difference between them was instantly visible!

There wasn't a single idiot amongst all the disciples that were able to participate in the Peak Trials. Conversely, every single one of them was more formidable and possessed a more discerning gaze than the other, so they were naturally able to clearly determine that Xie Feng was absolutely not a match for Chen Xi.

Especially shocking to those disciples of the South Radiance Peak was that Chen Xi's body refinement cultivation technique was actually pure and thick to the limit, and it was even more formidable than they who specialized in cultivating in the School of Fiendgod Body Refinement!

Freak!

His qi refinement cultivation is already so terrifying, yet even his body refinement cultivation is on par with it. How could this not be shocking?

All of them knew clearly that there were many people who cultivated both qi refinement and body refinement at the same time. But only very few or one in a million was capable of cultivating both to the point of being extraordinary like Chen Xi!

"Junior Brother Chen Xi, I'm not a match for you." Xie Feng's expression changed indeterminately before smiling bitterly in the end, and he cupped his fists while admitting defeat. The collision from before allowed him to clearly understand the distance between himself and Chen Xi, and it would be futile to continue fighting.

"It was a good fight." Chen Xi cupped his fist from afar.

This instantly caused those disciples that intended to challenge Chen Xi to instantly discard these thoughts, and they moved their targets onto Che Xun.

...

Compared to the previous battles, the next few battles were obviously much more dull and uninteresting. Chen Xi, An Wei, An Ke, and Xia Yi stood on the rings without anyone challenging them, and it seemed to be extremely quiet.

On the other hand, there was no lack of challengers on Che Xun's ring, causing the person in control of the ring to be replaced frequently. In the end, it was overbearingly occupied by a South Radiance Peak disciple called Yu Ze, and he won the final victory.

Up until this point, the Peak Trials had ended.

On the other hand, Chen Xi, An Wei, An Ke, Xia Yi, and Yu Ze had naturally and indisputably obtained the positions to become Seed Disciples.

Actually, comparatively speaking, An Ke and Yu Ze's strengths was slightly inferior to Leng Qiu, Pang Zhou, and Du Xuan. Unfortunately, Leng Qiu and the others had lost in their challenge against Chen Xi, and it caused them to lose the chance to become a Seed Disciple in the end, causing it to be a pity.

Perhaps, this was the circle of cause and effect, and karma was a bitch. It was precisely because they wanted to do harm to Chen Xi that it would cause such an adverse consequence.

"An Wei, An Ke, Xia Yi, Yu Ze, and Chen Xi. All five of you come with me. Some elders of the Divine Radiance Peak want to see all of you who've just advanced to become Seed Disciples, and then they'll arrange cultivation locations for all of you." After the Peak Trials ended, Elder Lie Peng called Chen Xi and the others over and instructed before bringing them along to flash towards the Divine Radiance Peak.

What a bastard! But I can be considered to have gained something this time. At the very least, I know that this kid Chen Xi actually possesses the Grand Dao profundities of Paramita and Oblivion that come from the Netherworld... Elder Yue Chi's expression seemed to be exceedingly gloomy as he watched them leave, and his eyes flickered with cold lights. He seemed to have thought of something, and it caused the corners of his mouth to actually be suffused with a faint and mysterious smile in the end.

Kid, this is only the beginning, but it hasn't ended. If I reveal news of this to the Devil Sect, then coupled with the Heavenflow Dao Sect's Bing Shitian... Haha...

Chapter 614: Immortal Stone

The curtains were drawn on the Peak Trials, whereas Chen Xi and the others followed Elder Lie Peng towards the Divine Radiance Peak, and they quickly vanished without a trace.

After all the disciples on the entire True Martial Peak sent them off with their gazes, they stayed for a long time before they left.

The Peak Trials this year was absolutely unprecedentedly spectacular and breathtaking. In terms of its level of brilliance, it even surpassed most Peak Trials from the past and shocked the hearts of all.

Moreover, the most dazzling amongst them was undoubtedly Chen Xi!

He'd swept through all the disciples of the East Radiance Peak that were participating in the Peak Trials by himself, and he'd defeated Leng Qiu, Pang Zhou, and Du Xuan who were members of the five great Elite Disciples to become a Seed Disciple and be like the sun in the midday sky!

"How extraordinary! A figure like Senior Brother Chen Xi emerged from the West Radiance Peak."

"In my opinion, with Senior Brother Chen Xi's natural talent, he'll surely be able to grow into an overlord in less than a hundred years and shock the entire Dark Reverie!"

"If I have the chance, I'll surely head to the West Radiance Peak and pay a visit to Senior Brother Chen Xi."

On this day, the entire Nine Radiance Sword Sect was discussing the same name, and it was Chen Xi! The numerous incidents that had occurred around him had become the hot topics of discussion for everyone.

It was even to the extent that when some inner court and outer court elders taught lessons, then even took Chen Xi as a model to guide and encourage their disciples to work hard and cultivate, so that they may become hot and renowned figure like Chen Xi.

Only the East Radiance Peak was completely silent and had an oppressive atmosphere.

From the Peak Master Yue Chi right down to Leng Qiu and all the other Elite Disciples, all of them were silent and no one mentioned Chen Xi's name. But this name was like a thorn that pierced deep into their hearts, and it caused them to be aggrieved and unhappy.

On the other hand, if it was in terms of how bustling it was, then the West Radiance Peak was undoubtedly the most bustling.

Huo Molei and the others were beaming with smiles as they gathered happily before the Sword Purification Pool, and they were drinking and enjoying themselves while laughter echoed in the air. They felt that this was the most complacent, happiest, and most satisfying day since they came to West Radiance Peak.

They felt incomparable pride towards possessing a Little Junior Brother like Chen Xi!

...

At the back of True Martial Peak, within an extremely vast secret realm that was enshrouded with Immortal Energy, numerous mighty figures that were suffused with tremendous divine might sat upright there.

Shockingly, one of these mighty figures belonged to the Sect Master, Wen Huating, and the others were evidently the higher-ups of the Nine Radiance Sword Sect.

"With the 49 peak-grade Dao Art inheritances, my Nine Radiance Sword Sect doesn't have to worry about being unable to recover its former glory. Now, I've already passed all these Dao Arts to the Divine Radiance Peak's Ancestor Li Han." Wen Huating spoke indifferently with a heavy voice that reverberated in the entire secret realm. "When the time comes, the Ancestor will pass them down to those Seed Disciples. According to my calculations, my Nine Radiance Sword Sect will foster a large batch of pillars of support within a hundred years and be renowned in the world!"

"Exactly. The resurgence of my Nine Radiance Sword Sect is at hand. If we're to consider all of this carefully, then it's actually owed to that little fellow, Chen Xi. If it wasn't for him ascending the top of the lotus platform and having the fortune to encounter Senior Dao Lotus, these 49 peak-grade Dao Art inheritances of my Nine Radiance Sword Sect would probably still be laying on shelves and be unable to emerge into the world!" A tall and extremely dignified old man with a face redder than dates spoke with a booming voice. He was the Peak Master of the South Radiance Peak, Lei Chong, and he was a great expert with a monstrous body refinement cultivation.

"Chen Xi's display is extraordinary indeed. This kid is someone that possesses great fortune and peerless karmic luck. Moreover, his natural talent is extraordinary while his strength far exceeds those of the same generation. Emphasis must be placed on fostering such an outstanding genius, otherwise, it would truly be a waste of god's given gifts."

When Chen Xi was mentioned, a wisp of a smile couldn't help but suffuse Wen Huating's face, and he said, "Even though Senior Brother Liu has gone to the Immortal Dimension, it would be sufficient for him to feel gratified if he found out that Chen Xi made such a display."

"But Sect Master. I heard that Senior Brother Yue Chi has been making it difficult for Chen Xi on every occasion, and he has used all kinds of schemes and tricks. Isn't this pushing Chen Xi into a trap? What if a huge incident occurs, it would probably be difficult to deal with." On the other side, a beautiful woman in a luxurious robe spoke slowly. She was the Peak Master of the North Radiance Peak, Gond Sujin. She possessed a quiet disposition, a kind heart, and possessed an extremely terrifying strength.

"It's fine." Wen Huating went silent for a moment before he waved his hand and said, "No matter how far Senior Brother Yue Chi goes, he's a member of my Nine Radiance Sword Sect in the end, and he ought to not push Chen Xi to death."

Swoosh!

Right when he finished speaking, a golden light suddenly flew over from the distance and transformed into a jade slip.

“The outcome for the Peak Trails is out so quickly? Come, come, come. Let’s see who obtained the position to become a Seed Disciple this time.” Wen Huating pointed out with his finger, causing this jade slip to transform into an enormous screen that flowed with divine lights, and on it was various scenes of battles and some clear voices.

“Eh, in less than three months, this little fellow Chen Xi has advanced into the Nether Transformation Realm? Amazing, even Du Xuan who’s a genius expert of the Nethercrow Clan was blasted flying out of the ring by him.”

“My god, he actually said he wanted to challenge all the participating disciples of the East Radiance Peak by himself!”

“Ridiculous! Aren’t Senior Brother Yue Chi’s methods going a bit too far. Chen Xi isn’t taking the initiative to rise to the challenge, he was obviously forced to do this. Senior Brother Lie Peng didn’t even interfere in this.”

“Chaotic Nine-Steps Annihilation! Ha, what a formidable little fellow. He actually blasted over 10 East Radiance Peak disciples flying with a single step... Hiss! How could this be possible! Even Pang Zhou and Leng Qiu made a move yet they actually lose!”

“Violetlotus Goldshadow Barrier, Chaotic Nine-Steps Annihilation, Skycontrol Burial Sword, Myriad Netherwave Palm... All of these are peak-grade Dao Arts. How could this little fellow have possibly comprehended and grasped them within three months?”

“Everyone, look quickly! What’s that! It seems to be...”

When they saw Chen Xi strike out with blood red flowers that covered the heavens and the earth and a muddy sea within the screen, all the great figures present were shocked in their hearts, and a strand of cold light shot out from their eyes while they felt bewildered and surprised.

“Paramita, Oblivion... Two of the three Dao Insights grasped by the Netherworld Emperor of the Primeval Era!” After a long time, Wen Huating spoke out slowly, and his voice still carried a trace of surprise and bewilderment.

“Exactly. It’s indeed the Grand Dao profundities of the Netherworld. Even if it’s in the Netherworld, they’re supreme Grand Daos!” The South Radiance Peak’s Master, Lei Chong, spoke word by word, and his eyes were covered in a serious expression.

“Could it be that this little fellow is the inheritor of the Netherworld Emperor?” The North Radiance Peak’s Master, Guan Sujin spoke hesitantly.

As soon as these words were spoken, the scene instantly went silent, and they seemed to have recalled a great figure that had shocked the three dimensions, causing their expressions to become indeterminate.

“He probably isn’t. The little fellow didn’t execute the Terminus Grand Dao. I presume everyone knows that as soon as the Terminus Grand Dao appears, the Laws of the Heaven Dao would react and annihilate the little fellow. But now, the Laws of the Heaven Dao haven’t made any unusual reactions. So I reckon that he only grasped the Paramita and Oblivion Grand Daos by luck.” Lei Chong frowned and spoke after pondering for some time.

“That might not be the case. Even though he didn’t execute it, but we can’t be sure if he has grasped it.” On the other side, Guan Sujin refuted.

“Enough!” Wen Huating spoke out abruptly, and he restrained them. “Don’t mention this matter again in the future. No matter if Chen Xi has grasped a Grand Dao that’s a taboo like the Terminus Grand Dao, he’s currently a disciple of my Nine Radiance Sword Sect in the end!”

When he spoke up to here, Wen Huating’s expression was already awe-inspiring and murderous to the extreme. “Besides that, this matter can’t be leaked outside of the sect. otherwise, no matter who it is, don’t blame me for being ruthless!”

Everyone felt apprehensive and extremely awed in their hearts.

They knew clearly that if the matter of Chen Xi having grasped the Paramita and Oblivion Dao Insight were to be leaked out of the sect, then not to mention the gods of the three dimensions, merely the six lineages of the Devil Sect would be eager to act harmfully to Chen Xi.

But no matter how clear it was to them, they understood this matter was like how paper couldn’t wrap up fire, and it would occur in the end.

After all, there were truly too many disciples that had seen Chen Xi execute those two Grand Dao profundities during the Peak Trails. How could they guarantee that someone with ulterior motives wasn’t present amongst them?

“Everyone, don’t be worried. The three dimensions are about to undergo an upheaval. All the great figures in the world are busy enough with their own affairs, so how could they possibly place their attention towards a remote place like ours?” Wen Huating himself knew as well that some things were indeed impossible to avoid. But he similarly had his own plans. “No one can determine if Chen Xi’s possession of the supreme Dao Insights of the Netherworld is a fortune or calamity. We can only do what we can and leave the rest to fate!”

“I’m just worried that Senior Brother Yue Chi will...” Lei Chong suddenly spoke out.

“There’s no need to speak any further!” Wen Huating interrupted. “Senior Brother Yue Chi does indeed possess a wide range of friends, and he possesses friends both amongst those of the Immortal path and Devil path. But everyone must not forget that he’s the son of the previous Sect Master, and the bloodline of my Nine Radiance Sword Sect flows within his veins. If he really dares to disregard the benefit of the sect and act willfully, then I’ll be the first to not let him off!”

“I hope it will be like that.” When Lei Chong saw Wen Huating’s expression was firm, he couldn’t help but sigh and not speak any further.

“Sect Master, Junior Brother Lei Chong is speaking for your own good. After all, Senior Brother Yue Chi didn’t have the fate to become the Sect Master all those years ago and resentment has been

accumulating for a long time in his heart as well.” Guan Sujin said slowly, “During these past few years, the forces of his East Radiance Peak has been expanding ceaselessly as well. He has drawn over many seniors of the sect to his side and the disciples of his peak are even distributed all through the inner court, outer court, Elite Disciples, and Seed Disciples. It has come to the point of being faintly on par with your forces, and you have to be on guard against him.”

“I know all of this.” Wen Huating was stunned, and then he sighed and muttered. “I just want to give him a chance to become aware of his errors and turn back onto the right path...”

Everyone went silent when they heard this.

...

Chen Xi only found out how vast the Nine Radiance Sword Sect was on the way to Divine Radiance Peak. Layer upon layer of lofty mountain ranges were like dragons coiled on the ground, and they were luxuriant, towering, and rose and fell without end.

Amidst them was numerous grand palaces that floated and drifted in the boundless sky while emanating divine lights. They were like immortal palaces and divine kingdoms that were built in the sky, and they carried an immortal atmosphere.

“These are five Immortal Stones. Each of you take one and quickly recover your strength. After we arrive at Divine Radiance Peak, there’ll probably be people that will provoke all of you new disciples, so you must properly make preparations beforehand.” On the way, Elder Lie Peng suddenly instructed them, and he flicked his sleeve as he spoke, causing five multicolored rays of light to flash out and descend into the hands of Chen Xi and the others.

Immortal Stones!

Chen Xi was shocked in his heart when he heard these words, and a wisp of burning yearning couldn’t help but gush out into his eyes as he looked at the crystalline and translucent duck egg sized rock that emanated strands of immortal radiance in his hand.

According to legend, Immortal Stones were only produced in the Immortal Dimension, and they were precious treasures that came from Immortal Veins!

[Talisman Emperor](#)

Chapter 615: Azurecloud Pavilion

Currently, spirit stones were nothing to Chen Xi, whereas only spirit liquids and spirit pills at the heaven-rank or above were capable of satisfying the basic requirements of his cultivation.

On the other hand, existences like Immortal Stones were slightly too rare, and they were utterly impossible to find in minor worlds. Even if it was the Dark Reverie, they were extremely rare and precious.

Since he started cultivating until now, Chen Xi had only heard its name, yet had never seen one.

Such a treasure was only produced from the Immortal Veins in the Immortal Dimensions, and in the entire Dark Reverie, only extraordinary powers like the 10 great immortal sects that had communications with the Immortal Dimension were lucky enough to obtain some Immortal Stones.

In the Nine Radiance Sword Sect, only Earthly Immortal Realm experts had the qualifications to obtain Immortal Stones and utilize it to cultivate. But even Earthly Immortal Realm experts cherished Immortal Stones like their lives and wouldn't dare waste them easily.

How precious Immortal Stones were was obvious from this.

The Immortal Stone before his eyes was only the size of a pigeon egg, crystalline, translucent, and covered in an immortal glow. There were strands of golden energy of the Law of the Heaven Dao branded on its surface, and its quality was exceedingly extraordinary.

Even though it was only the size of a pigeon's egg, yet it was extremely heavy when held in his hand.

Chen Xi tried to absorb a strand of the Immortal Energy within the Immortal Stone, and he instantly felt his entire body tremble as a strand of energy that was vast and powerful to the extreme gush into his body like a torrent. It spread throughout his limbs and body before charging through the meridians and apertures in his body, and then it gathered into the Blackhole World within his Dantian in the end.

In an instant, the True Essence within his Blackhole World that was originally dried up suddenly became dazzling, resplendent, and full of vigor. The heavens and the earth within his Blackhole World flowed with tremendous True Essence, causing everything in the world to come back alive and form a beautiful scenery.

This was only the True Essence formed from a strand of Immortal Energy, yet it instantly recovered Chen Xi's True Essence that had been consumed to the point of drying up by 30%!

Chen Xi couldn't help but be astounded in his heart as he felt this change, and he exclaimed endlessly with admiration. This is an Immortal Stone, and just a strand that's fine like a hair is capable of comparing to a few hundred heaven-rank spirit pills!

Moreover, utilizing an Immortal Stone to recover True Essence was extremely swift, and it was pure and vast to the limit. He utterly didn't have to refine it before it transformed into True Essence within his body, and if he utilized it in battle, then he even didn't have to worry at all about his True Essence being exhausted during battle while holding an Immortal Stone in his hand.

In the time for a few breaths, Chen Xi had recovered his True Essence to his peak state, whereas the Immortal Stone in his hand was still enshrouded with an immortal glow and seemed to have not been consumed in the slightest.

"What a miraculous thing!"

"If I utilize Immortal Stones to cultivate every single day, then not only would I be able to increase my cultivation, even the quality of the True Essence within my body will increase, allowing me to bring forth an even greater might!"

"It's indeed a rare and precious treasure. The Immortal Energy within it is greatly beneficial to tempering my body as well."

After the nearby An Wei, An Ke, Xia Yi, and Yu Ze felt the might of the Immortal Stones, they exclaimed endlessly with admiration as well, and then they carefully put it away into their storage magic treasures.

"All of you will probably be unable to completely refine this Immortal Stone in a single month." Lie Peng couldn't help but burst into laughter when he saw Chen Xi and the others reveal shocked expressions.

"I heard that once we become Seed Disciples, we're able to obtain an Immortal Stone to cultivate with every single month. Moreover, we can obtain an abode on Divine Radiance Peak that's filled with Immortal Energy to cultivate in. I wonder if this is true?" An Ke spoke with a melodious voice from the side. Her figure was tall, her face jade white and exquisite, and she was gorgeous and lively. Compared to her big sister's unsurpassed beauty, she had the tenderness and cuteness of a young girl.

"Of course, it's true." Lie Peng smiled as he glanced at An Ke, and then his expression turned serious as he said, "Immortal Stones are benefits that every single Seed Disciple can enjoy. But those abodes require all of you to rely on your own strengths and fight for them."

"I heard that the competition between Seed Disciples is even more brutal than the competition between Elite Disciples, and if one's strength is insufficient, then one would only be suppressed and ridiculed, causing it to be impossible to cultivate in peace." Yu Ze spoke slowly. "My South Radiance Peak's Senior Brother Luo Zhen had already become a Seed Disciple a hundred years ago. But because he wasn't able to compete with the others, he left Divine Radiance Peak resentfully and went to cultivate on his own in the end."

Chen Xi's expression was instantly covered in shock when he heard this, and he realized that the competition between Seed Disciples wasn't as simple as he'd thought.

"All in all, as new disciples, all of you should be careful and on guard when you arrive at Divine Radiance Peak in a while. When facing the provocation of old disciples, endure it temporarily if you know your strength is inferior. Out of respect for me, they wouldn't dare act without restraint." Lie Peng instructed seriously from the side.

"What if my strength is stronger than the person?" Xia Yi who was usually quiet and reticent raised his head abruptly and asked.

"Then there's no need to hold back. The more unyielding your behavior is, the firmer your status as a Seed Disciple would be in the future, and ordinary people wouldn't dare look down upon you again." Lie Peng glanced lightly at Xia Yi as he spoke.

...

During this period of flying, they'd already passed a distance of a few tens of thousands of kilometers.

All along the way, Chen Xi was able to clearly sense that the spirit energy in the surrounding heavens and the earth became thicker and thicker, and it faintly transformed into clumps of spirit clouds that drifted in the sky.

It was even to the extent that pure Immortal Energy was dense within it. Only a single breath of it caused one's mind to be refreshed and entire body to feel light while one's entire body felt clear, and it was indescribably comfortable.

After a short while, Chen Xi was already able to see from afar that there was actually an extremely enormous mountain floating in the distant sky!

The mountain was boundlessly vast like a divine mountain that hung beneath the sky, and it went up all the way to the nine heavens and went down to the depths of the earth. It was fused with the boundless space, converged the spirit energy in the heavens and the earth, and emanated a myriad of rays of light that flew down like a rain of light, causing it to seem like the place where ancient gods stayed, and it was shocking.

Swoosh!

After flying swiftly for a while longer, Chen Xi and the others had finally stopped. Expanses of abodes that were like paradises and numerous buildings that were ancient and vast appeared before their eyes, these abodes and buildings were arranged in rows after rows, and they seemed like dragons that were coiled up the mountain, causing it to be a majestic sight.

This was the Divine Radiance Peak, the true core and important place in the Nine Radiance Sword Sect!

There weren't just inner court elders, outer court elders, and peak masters of the Elite Disciple peaks in the Nine Radiance Sword Sect. The true seniors and old figures with extremely high seniority lived in seclusion on Divine Radiance Peak.

This enormous mountain that was connected to the nine heavens contained countless spirit veins, and it was absolutely a paradise bestowed by the heavens. In the entire Dark Reverie, only extraordinary powers like the 10 great immortal sects were capable of possessing such a place.

On the mountain, spirit energy gushed about while the fragrance of aged medicine suffused the air. Some precious and rare beasts were moving about hesitantly, and there were red-crowned cranes, spirit apes, divine wyrms, old turtles, and various other formidable existences.

These rare and precious beasts couldn't be compared to ordinary beasts. The weakest amongst them had a cultivation at the Rebirth Realm, whereas, the formidable beasts had even cultivated to the Nether Transformation Realm and developed a Blackhole World that belonged to themselves.

In next to no time and under the lead of Elder Lie Peng, everyone had swiftly descended to an enormous pavilion built within the sea of clouds at the lowest levels of Divine Radiance Peak.

The pavilion was ancient, vast, and emitted an extremely aged aura. It seemed as if it had been standing here since ancient times, and it emanated an exceedingly ancient and dignified feeling.

This was the place that new Seed Disciples reported to — The Azurecloud Pavilion!

Chen Xi and the others had only just arrived when they saw a few scattered disciples moving in and out of the pavilion, and they were actually all Nether Transformation Realm cultivators! Obviously, all of them were Seed Disciples cultivating on Divine Radiance Peak. Every single one of them possessed extremely formidable aura, and the weakest amongst them wasn't inferior to Du Xuan. All of them had extraordinary bearings and seemed like striking geniuses.

The facts were really like this. Since they were capable of becoming the Seed Disciples of an extraordinary power like the Nine Radiance Sword Sect, their natural talent and endowment was surely extraordinary, and they were top phoenixes and dragons amongst men. In any other place within the Dark Reverie, their cultivations were already sufficient for them to assume the position of a Sect Master!

“Eh? There’re actually new disciples coming to report themselves?”

“Haha, I remember it now. Today is precisely the day of the Peak Trials. Now it would seem like the five new Seed Disciples have already been chosen.”

“Interesting. I wonder what the strength of these new Seed Disciples is at?”

Many disciples noticed Elder Lie Peng arriving while bringing Chen Xi and the others along, and they instantly started discussing. Moreover, their gazes were ridiculing while some sneered, and some even seemed as if they were looking at new toys.

As Seed Disciples, all of them were proud geniuses of the heavens, and the elders of the sect rarely intervened in their actions. So they were even more arrogant and willful than other disciples, and it was even to the extent that they didn’t take the elders of the sect seriously.

Chen Xi sensed numerous ridiculing gazes shooting at him from the surroundings, and he instantly understood why Elder Lie Ping had instructed them like that earlier. It turns out that it was really easy for new disciples to be bullied by the old disciples.

Even if Elder Lie Peng was present, those Seed Disciples still had wild and unconcerned gazes, and it was obvious from this how high the status of Seed Disciples were and how arrogant their dispositions were.

If one wanted to survive here, then it was obvious how horrifying the competition here was.

“Junior Sister An Wei, Junior Sister An Ke, both of you have actually become Seed Disciples. Congratulations.” Right at this moment, a violet haired young woman walked over trippingly, and she spoke excitedly upon seeing An Wei and An Ke.

“Senior Sister Lu Qi!” An Ke cried out with pleasant surprise as she’d recognized this violet haired young woman, and it was precisely a senior sister from the North Radiance Peak, and she was called Lu Qi.

After Lu Qi arrived, she greeted Elder Lie Peng before leaving with An Wei and An Ke. Obviously, with her looking after them, An Wei and An Ke didn’t have to worry about anything.

“Junior Brother Xia Yi, Junior Brother Yu Ze!” In next to no time, Xia Yi and Yu Ze were recognized, and they were taken away from Lie Peng’s side.

Actually, it was obvious. These Seed Disciples were mostly from the four Elite Disciples Peaks, and with their presence, they would naturally take good care of the companions from their own peaks that had just advanced to become Seed Disciples. So there was no need to worry about any mishaps occurring.

In next to no time, only Chen Xi remained by Elder Lie Peng’s side.

This indirectly showed that even if it was within the ranks of Seed Disciples, the West Radiance Peak was extremely weak and lacking in number. There was actually no Seed Disciple from the West Radiance Peak that had come to greet Chen Xi up until this moment.

On the other hand, when those Seed Disciples moving about Azurecloud Pavilion saw this scene, the gazes they shot at Chen Xi revealed a ridiculing expression as they pointed at him and criticized him without the slightest fear.

Chapter 616: Heedless of Consequences

Divine Radiance Peak, outside Azurecloud Pavilion.

As he looked at all the disciples pointing at him while gazing at him with ridiculing gazes, Chen Xi suddenly felt as if he'd entered into a barbaric forest where wild beasts roamed freely.

All rules and restraints were established on the basis of strength. Those with low cultivations could only swallow insult and humiliation, whereas those with high cultivations were able to obtain even more resources, stand even higher, and possess an even better status.

Simply speaking, the person with the bigger fist had more space to stand and speak!

"Let's go. No one will dare look for trouble with you while you follow behind me." Elder Lie Peng noticed this scene yet was completely indifferent to it, and he only instructed with a light voice.

"Then would they instantly come looking for trouble with me once you've left?" Chen Xi asked abruptly.

"This..." Lie Peng was stunned, yet tacitly approved.

"Elder Lie, you can return. Let me do the rest myself. After all, I'm a Seed Disciple now, and facing various competitions is something that'll occur sooner or later." Chen Xi smiled lightly as he cupped his fist and spoke.

"Do you know that if you're unable to gain a foothold here, then you'll only be forced out of Divine Radiance Peak? If you fall slightly too terribly, it would even be to the extent you can only assume the position of elder in the outer court or inner court, and your entire lifetime would be gone just like this?" Lie Peng couldn't help but frown and remind when he saw Chen Xi had actually refused his good intentions.

"Elder Lie, don't worry. If someone wants to make me, Chen Xi, leave dejectedly, then that person has to be really capable." Chen Xi smiled.

"Alright, then I won't force you." Lie Peng pondered for a moment before suddenly bursting into laughter. "How could I have forgotten? You aren't like ordinary Seed Disciples that have just advanced."

As soon as he finished speaking, Lie Peng glanced deeply at Chen Xi before turning and leaving.

...

"Hey, this new disciple actually refused Elder Lie Peng's good intentions. He seems to be very arrogant?"

"Hmph! He probably thinks he's an extremely extraordinary figure since he's capable of becoming a Seed Disciple. Truly laughable! What is this place? The core of the Nine Radiance Sword Sect, a paradise bestowed by the heavens where only the seniors and Seed Disciples of the sect can reside in!"

"This little fellow is probably not from the North Radiance, South Radiance, or East Radiance Peak. Otherwise, there ought to have been someone to greet him. According to this, could it be that he's from the West Radiance Peak?"

“West Radiance Peak? Haha, that’s a wonderful place where various pieces of trash pile up together. Looks like we must let him know who’s more formidable. Otherwise, people might think that our Divine Radiance Peak takes in all sorts of trash.”

“Right, since he’s a new disciple, he has to be taught a bitter lesson before he’ll become obedient, and we must beat him up mercilessly so that he’ll do everything we say just like how we treated the disciples of the West Radiance Peak from before. It couldn’t be any better than to order him about like our servant.” “Hehe, then let me experience exactly what level of strength this new disciple that came from the Trash Concentration Camp, the West Radiance Peak, possesses!”

Right when Chen Xi was just about to step foot into Azurecloud Pavilion, a stalwart figured violet robed young man who had a broad chin and leopard shaped eyes flashed over to completely block Chen Xi’s path.

The most unbridled part of all this was that after the violet robed young man obstructed Chen Xi’s path, his backbone straightened while his momentum didn’t reduce in the slightest, and he actually wanted to collide with Chen Xi and carried the ferocious appearance of intending to forcefully knock Chen Xi flying.

Bang!

Before they collided, a terrifying imposing aura suddenly surged out explosively from within the young man’s body, and it was like a mountain, overbearing and heavy, causing the surrounding space to be shaken to the point of droning and being on the verge of shattering.

This was obviously a formidable Dao Art that utilized ‘pressure’ as a form of attack. If it was an ordinary person that was facing this knock, the person would instantly have the powerless and tiny feeling of being crushed by a mountain, and the person’s end would surely be extremely miserable.

It was obvious from this that the violet robed young man that intentionally came looking for trouble with Chen Xi was a Nether Transformation Realm cultivator that was extremely formidable and had comprehended and grasped a Dao Art.

“Fuck off!” Chen Xi’s eyes erupted with cold lights as he shouted out loudly, and then he slapped out fiercely with his palm. This slap secretly contained the profundities of the Myriad Netherwave Palm, causing it to seem very ordinary, yet contain supreme force, and its might overlapped itself layer upon layer, causing it to be extremely ferocious, powerful, and capable of crushing mountains and splitting the earth.

Bang!

The violet robed young man sneered as his body shrunk back with the intention of avoiding Chen Xi’s slap before sweeping Chen Xi flying with a slap of his own. Yet never had he imagined that before he could even react, Chen Xi’s palm actually instantly smashed onto his face as if it had teleported. It was already too late to avoid, causing it to directly smash onto his right cheek, and his entire body was blasted flying.

“AH!!!” He let out a shrill and miserable cry as he flew out like a kite that had its string cut before falling 300m away with a thump, and he lay flat on the floor like a dead dog while constantly spitting out large

mouthfuls of blood. Moreover, his right face seemed to have been slapped to the point of sinking down, and it was an extremely terrifying sight.

The pain his body felt was nothing, the most key was that the humiliation in his heart angered him to the point of being on the verge of insanity!

He struggled with the intention of standing up, yet suddenly felt a leg stomp fiercely onto his body, and it felt like a myriad of mountains were pressing onto him and it pressed onto him to the point the bones in his entire body emitted cracking sounds. At this moment, it hurt to the point he didn't even have the energy to let out a shrill cry. Bloody froth flowed out from his mouth as his entire body trembled, and he seemed as if he'd suffered a seizure.

"What!? Senior Brother Xiong was actually slapped flying?"

"Senior Brother Xiong is from the Crimson Bear Clan and innately possesses extraordinary physical strength. Moreover, he'd attained mastery in the Dao Art, Titan Sky Crusher, since a long time ago. A single knock from him would cause even a 30km tall mountain to be shattered, so how could he possibly be blasted 300m away by a single slap?"

"What a ferocious figure! Not only did he slap Senior Brother Xiong flying with a single slap, he even stomped on Senior Brother Xiong to the point of being unable to move on the ground. No wonder he dared to head to Azurecloud Pavilion by himself. So it turns out that he possesses real ability."

"Haha, this is going to be interesting. Even a new disciple from the West Radiance Peak dares to be so arrogant and ferocious, it'll surely alarm some peerless geniuses of our Divine Radiance Peak..."

All of this occurred too swiftly, and the violet robed young man was already completely suppressed in an instant, causing all the surrounding disciples to stare their eyes wide open and start discussing animatedly.

"I'll cripple both your eyes if you dare do that again!" Chen Xi glanced coldly at the violet robed young man before slowly turning around and sweeping the surroundings with his gaze, and some Seed Disciples that originally intended to bully him avoided his gaze successively and didn't dare provoke him any longer.

Looks like it's really as Elder Lie Peng said. Only by making an even more mighty and overbearing display amongst the Seed Disciples would one be able to safely obtain a foothold. Otherwise, one would only be bullied, suppressed, and finally fall to become an existence that's like a servant. Experiencing this incident allowed Chen Xi to deeply understand how violent the competition between Seed Disciples was. If one didn't possess a formidable strength, then it would be utterly impossible to survive here.

"You actually dared! You actually dared to seize the moment I was off guard to launch a surprise attack! You're simply courting death!" Chen Xi had just turned around with the intention of leaving when Senior Brother Xiong leaped up from the ground. His entire body surged with a bloody light while his eyes turned crimson red, and then he spread open his hand before assaulting Chen Xi from behind.

He actually intended to put up a desperate fight!

Rumble!

This strike of Senior Brother Xiong was obviously a full forced strike. His hand grabbed out, causing countless bloody clouds to soar up into the sky while rays of bloody light shot up into the horizon, and they even transformed into mountains of corpses, seas of blood, piles of bones, a blood tainted ground, and numerous other phenomena.

“Bloodbear Skysplit Palm!”

“This is the Crimson Bear Clan’s Innate Dao Art. Senior Brother Xiong actually intends to put up a desperate fight. During an assignment not too long ago, he’d just directly torn apart a Nether Transformation Realm cultivator of the Evil Dao with this extremely terrifying Dao Art!”

Some disciples retreated successively when they saw this scene because they were deeply afraid of being affected by it.

“Trash from the tiny West Radiance Peak dares to humiliate me? Kneel!” Senior Brother Xiong charged forward while carrying a surging bloody glow. He was like a brave and skillful warrior in battle that strode on mountains of corpses and seas of blood, causing blood to taint thousands of kilometers of river water, and he was ferocious and tyrannical to the limit.

“You’re heedless of consequence!” Chen Xi turned around with his hands behind his back, and he didn’t make a move with his hands but took a step forward while executing the Dao Art, Chaotic Nine-Steps Annihilation. Killing intent surged out as Yin and Yang were thrown into chaos, and it stretched out with a bang.

Rumble!

All the bloody clouds and bloody lights were directly shattered and dispersed, whereas the mountains of corpses, seas of blood, ghastly bones, and the various other phenomena were easily crushed and obliterated into nothingness.

Senior Brother Xiong’s figure that charged over was even directly sliced up by the violent energy of Slaughter to the point of being covered in injuries while blood flowed like a fountain from his body. He let out a shrill cry as he fell down directly from midair, and he was heavily injured, breathing weakly, and on the verge of being in a precarious situation. It would at least require more than a year for him to recover completely.

“You don’t know what’s good for you. If it wasn’t for us being from the same sect, I’d have killed you a long time ago.” Chen Xi didn’t even spare a glance at Senior Brother Xiong before directly striding towards Azurecloud Pavilion.

“What... Dao Art was that? A single strike caused killing intent to surge out, and it actually directly destroyed Senior Brother Xiong’s Innate Dao Art?”

“He’s so ferocious and overbearing! Is he really a new disciple?”

“Unexpected, truly unexpected. Come on, let’s quickly go notify those other Senior Brothers. Such a formidable new disciple had actually come to our Divine Radiance Peak this time, I presume everyone will be very interested.”

Those Seed Disciples couldn't stand by any longer when they saw this scene, and they dispersed in all directions as they were deeply afraid that Chen Xi would be ruthless and even deal with all of them. After all, this new disciple was too ferocious, and they didn't want to fall to the same fate as Senior Brother Xiong.

Chen Xi paid no attention to all this and directly walked into Azurecloud Pavilion, and then his gaze swept out and swiftly descended towards a direction in the depths of the pavilion.

There were some elders with great martial prowess sitting upright there. They'd seen the scenes from before as well, and all of them clicked their tongues in admiration when they saw this new disciple entering because they understood that this little fellow was a ferocious figure as well.

"Who injured Junior Brother Xiong earlier!?" Right at this moment, a voice suddenly sounded out from outside the pavilion. It was ethereal and weightless, causing one's mind to be at peace upon hearing it, and it was like listening to a sage explaining the profundities of the Grand Dao.

Subsequently, a divine ray of light swiftly arrived. Golden lights swirled about as a rain of light poured down, and a blue clothed young man walked out from within these lights. He had a sword on his back, jet black hair that fluttered behind him, and fierce features, causing him to have an oppressive aura.

Most shocking of it all was that this blue clothed young man actually had platinum colored eyes, and as his eyes spun, they emitted stands of golden sacred light that seemed like blades that sliced through space itself, causing others to not dare stare at his eyes.

"Senior Brother Yun Ye!" The pupils of some Seed Disciples in Azurecloud Pavilion constricted when they saw this person appear, and they revealed heartfelt reverence.

Obviously, this person was absolutely a great figure amongst the Seed Disciples, otherwise it would absolutely be impossible for him to receive such treatment.

Chapter 617: White Emperors Metal Eyes

An aqua blue Daoist robe, jet black and dense hair, a warm and handsome appearance, and there was a fierce expression between his brows. There wasn't a single accessory on his entire body, and he was extremely neat like an elegant young master of the mortal world.

But his eyes surged with a blazing platinum glow that shone brilliantly like a blade, and it emitted a sharp feeling as if it was capable of cutting through everything in the world and destroying all evil and obstacles.

This pair of eyes were too terrifying and filled with phenomena, causing others to not dare stare at them.

This was Yun Ye, a formidable figure amongst the Seed Disciples. Phenomena descended from the skies when he was born, and his eyes were called the 'White Emperor's Metal Eyes,' and it was even more formidable than the 'Phantom Eyes' that the Feng Clan's Feng Jianbai possessed.

According to rumor, a person that possessed the 'White Emperor's Metal Eyes' was born with the ability to control the Grand Dao of Metal, allowing the person to cut through all obstacles, and the person's

cultivation speed of the Grand Dao of Metal was ten or even a hundred times swifter than a normal person.

But what drew Chen Xi's gaze the most was the sword that Yun Ye carried on his back. It was 60cm in length, three fingers wide, and completely reddish green. Its surface was covered densely with countless profound talisman markings, and it emitted an ancient and desolate aura.

The sword was within its sheath and seemed like a dragon that lay in hibernation within a chasm. Even though it hadn't been unsheathed, the trace of aura emitted by the sword caused Chen Xi to sense that this was absolutely a great weapon that possessed a might which was surely not beneath a Quasi Immortal Artifact!

Since he dared to fearlessly carry such a great weapon when he made an appearance and not be the slightest bit worried that it would draw the greed of others, it could only show that Yun ye was extremely confident of his strength and was a formidable figure that was extremely arrogant and conceited in his bones.

"It's actually Senior Brother Yun Ye? Didn't he head to the Dark Devil Sea to carry out an assignment?"

"The Dark Devil Sea is boundlessly vast and is the place where one of the six lineages of the Devil Sect, the Dark Devil Sect, resides. There're countless atrocious devils that roam freely there and bring calamity to the surroundings. Senior Brother Yun Ye took the assignment to annihilate the 18 Bandits of Darkness, yet he has actually returned to the sect after only a little over a month has passed? Could it be that he has completed the assignment?"

"Every single one of the 18 Bandits of Darkness have committed countless crimes. Over 10 years ago, they'd poisoned and harmed numerous Seed Disciples of our Nine Radiance Sword Sect, and they were constantly pursued, yet none succeeded. Senior Brother Yun Ye headed over by himself this time and fought within an area of a few hundreds of thousands of kilometers, and since he has returned safely now, he has surely completed the assignment."

There were Seed Disciples ceaselessly entering Azurecloud Pavilion, and all of them were extremely shocked and started discussion in low voices when they saw Yun Ye appear here.

The Azurecloud Pavilion was a pavilion on Divine Radiance Peak that managed Seed Disciples. Not only did it assist new Seed Disciples with the arrangement of their places of cultivation and daily benefits, it also distributed assignments for Seed Disciples to take at the same time.

It was even to the extent some old seniors that lived in seclusion on Divine Radiance Peak and possessed shocking seniority would frequently choose the Azurecloud Pavilion as the place to clear the doubts of disciples and pass down profound techniques.

"Yun Ye? Since you've returned so quickly, then have you annihilated the 18 Bandits of Darkness?" The elders of Azurecloud Pavilion walked out successively when they saw Yun Ye make an appearance, and their gazes faintly carried a trace of delight.

"We'll speak about this later. I just want to know who injured Junior Brother Xiong earlier?" Yun Ye nodded to those elders, and his attitude even carried a trace of arrogance.

But those elders didn't mind in the slightest because Seed Disciples like Yun Ye had extremely respected statuses and identities, and they were thought highly of by some seniors. So even if they were elders, none of them dared to take Yun Ye as a junior.

Swoosh!

In the next moment, practically most of the gazes in the pavilion descended onto Chen Xi, and their faces carried a strange and ridiculing expression.

Most of them had witnessed the scenes of Chen Xi crushing 'Senior Brother Xiong,' and when they saw Yun Ye wanted to denounce the crimes of someone and stand up for 'Senior Brother Xiong,' they were naturally happy to watch the show.

"It was you?" Yun Ye's eyes opened like two dazzling platinum suns flickering as he looked at Chen Xi.

Swish!

Space shattered as Chen Xi instantly felt an extremely fierce and ghastly airflow envelop towards him, and he felt as if a myriad of sharp swords were pointed at him, causing the skin on his entire body to have the feeling as if it was cut open by sharp blades.

This was merely a gaze yet it possessed such might!

This is the might of someone that possesses the White Emperor's Metal Eyes? It really is formidable, and he's even more domineering than Leng Qiu, Pang Zhou, and the others... The Blackhole World within Chen Xi's body circulated, causing a tremendous airflow to gush throughout his body, and it instantly eliminated the feeling of his entire body being sliced while his expression remained as it was before.

Yun Ye's display allowed him to understand that the formidableness of Seed Disciples was absolutely not something those Elite Disciples he'd encountered in the past could compare to. Seed Disciples were absolutely stronger and more terrifying, and he really had to be slightly cautious if he wanted to have a foothold here.

"Hmm?" Yun Ye couldn't help but be slightly stunned when he saw Chen Xi had actually easily deal with the aura he exerted, and then he said indifferently, "You're a new disciple that has just advanced? What's your name?"

"Chen Xi." Chen Xi replied in a composed manner.

"Compared to the new disciples from the previous years, your display is not bad indeed." Yun Ye said, "At the very least, you're able to maintain your composure when talking to me, and you're unlike those others that don't even have the courage to look me in the eye." Even though his voice was indifferent, yet his unhurried tone, his attitude that seemed it was a matter of course, and the bearing of being superior that he revealed inadvertently had vividly displayed his arrogant and conceited disposition.

"Both of us are Seed Disciples and are on equal footing, so what's there to make a fuss about just from looking you in the eye?" Chen Xi couldn't help but feel a wave of speechlessness when he heard this. These Seed Disciples really are arrogant, and their arrogance runs down into their bones.

"Hmph! Being composed is one thing but being too arrogant isn't beneficial to your growth!" Yun Ye's eyes narrowed as cold lights flashed within, and then strands of blazing platinum sacred light surged out

explosively from his eyes, causing his imposing aura to rise abruptly. He seemed like an enormous and unshakeable sword that stood towering in the heavens and the earth while revealing its edges.

Rumble!

The surrounding space suffered the pressure from his imposing aura, causing it to suddenly emit rumbling and shattering sounds, and it seemed as if it was forcefully slashed apart by a myriad of blades.

Instantly, Chen Xi felt as if he was within an expanse of a dim purgatory, and there was sharp and ghastly rain of blades everywhere. It seemed as if it wanted to completely obliterate him, and it gave him a strong feeling of pressure.

“Whether I, Chen Xi, am arrogant or not isn’t something you can decide!” Chen Xi’s clothes fluttered as he took a step forward, causing a piercingly cold killing intent to explode out like a stream of coldness that gushed towards the surroundings, and it directly crushed, destroyed, and obliterated all the boundless ghastly might in his surroundings.

Even though the might of the ‘White Emperor’s Metal Eyes’ that Yun Ye executed was formidable, how could it possibly be a match for the Slaughter Dao Insight that Chen Xi possessed?

After all, the Slaughter Dao Insight was a quintessence Grand Dao that carried the intent of slaughter. In the past, Chen Xi hadn’t brought its might out in the slightest, and it was like a bright pearl that was hidden away and had never revealed its brilliance.

Now it was different. He’d utilized the Dao of Talismans to command the various Grand Dao profundities he possessed, and he’d transformed the Slaughter Dao Insight into a ‘X’ character symbol. Amidst the left and right strokes of this symbol, the killing intent that was possessed by the Slaughter Dao Insight was brought out completely.

So utilizing this to annihilate the might Yun Ye emanated was simply as easy as blowing dust off.

Of course, this was merely the collision of the auras exerted by the two of them, and it couldn’t represent that Yun Ye’s strength was inferior to Chen Xi.

“Good!” Yun Ye coldly spat out a single word when he saw this, and it looked as if he was praising Chen Xi yet it was filled with ghastly killing intent and coldness, causing others to instantly understand that he’d probably been infuriated.

“Chen Xi, you’ve just entered Divine Radiance Peak, so you probably still don’t know the ability of me, Yun Ye, so you dare be so disrespectful to me.” Sacred lights roiled endlessly within Yun Ye’s eyes, and they were like a myriad of matchlessly ghastly swords dancing about. Moreover, his voice was even icy cold and bone piercing like a blade, and it pierced directly into one’s heart, causing even the surrounding air to seem to have become icy cold.

“Respect is always returned tenfold. You’re only a Seed Disciple just like me, and you aren’t a senior of the sect. So why should I respect you?” Chen Xi spoke indifferently.

“Good backbone! Good courage! Then I’ll let you know why you have to respect me right now!” Yun Ye clapped as he roared with laughter. Golden lights soared up on his body while phenomena appeared within his eyes, and he seemed as if he wanted to make a move right away.

“Alright, Yun Ye, Chen Xi, both of you take a step back. This is the interior of the Azurecloud Pavilion, and fighting is prohibited.” Right when both of them were in confrontation and Yun Ye intended to make a move and fiercely beat up Chen Xi to the point Chen Xi was half dead, an elder at the side spoke out abruptly.

This elder wore grey robes, and he had white hair, a youthful complexion, and a sage-like air. A strand of obscure Immortal Energy flowed around his body while his aura seemed like a bottomless abyss. Obviously, he was a great figure that was at the Earthly Immortal Realm.

When they saw this elder stand out and stop Chen Xi and Yun Ye, all the disciples in Azurecloud Pavilion that intended to watch the show revealed disappointed expressions. But they knew that disciples were really prohibited from getting into fights within Azurecloud Pavilion.

Of course, this rule would become invalid once a person leaves Azurecloud Pavilion. At that time, so long as the person isn’t beaten to death, then not to mention these elders, even the old seniors that’re living in seclusion on Divine Radiance Peak couldn’t be bothered to pay attention to it.

“Hmph! How disappointing!” Yun Ye grunted coldly, and then he tossed out with his hand, causing a string of bloody heads to roll down onto the floor. When counted carefully, there were actually 18 heads.

“The heads of the 18 Bandits of Darkness!”

“My god! Senior Brother Yun Ye really completed the assignment. He annihilated all 18 of these Nether Transformation Realm devils that have committed countless crimes by himself!”

“Amazing! This incident will probably shake the entire Nine Radiance Sword Sect in less than a day! Moreover, the reputation of Senior Brother Yun Ye is bound to become like the sun in the midday sky and renowned throughout the world!”

When they saw the appearances of those heads that covered the ground clearly, all the disciples present instantly went into an uproar, and all of them were extremely shocked. Obviously, they never expected that Yun Ye had actually completed this extremely dangerous assignment.

“These are the heads of the 18 Bandits of Darkness. I’ve already completed the assignment. Elders, please dispatch someone to send over the rewards and remuneration to my abode.” As he listened to the bustling voices of shock in the surroundings, a wisp of arrogance couldn’t help but be revealed from the corners of Yun Ye’s mouth, and then his gaze descended onto Chen Xi as he laughed coldly before pointing at the 18 heads on the floor and said, “Look, that’s the consequences of being disrespectful to me, Yun Ye! Chen Xi, since you’ve just entered Divine Radiance Peak today, then as a Senior Brother, I naturally won’t make it difficult for a new disciple like you. But you better watch out in the future!”

Chapter 618: Dark Brilliance Spirit Vein

As soon as he finished speaking, Yun Ye glanced at Chen Xi with disdain before turning to leave.

“Truly strange. Why would this little girl An Ke be so good to a male disciple? Could it be that this little girl has fallen in love...?” However, right when Yun Ye hadn’t stepped foot out of Azurecloud Pavilion, a lazy voice suddenly resounded out from outside the pavilion. It was a voice that was clear and

melodious like the sound of a pearl falling on a jade tray, yet it just happened that this voice revealed a lazy feeling as if it was the sleep talk of someone who'd just awoken from sleep.

Accompanying this voice was a young woman that had disheveled hair, wore a large crescent moon colored Daoist Robe, and whose entire body seemed to be limp, and she walked in while rubbing her sleepy eyes.

This woman had beautiful jet black, soft, and smooth hair, yet it just happened to be disheveled like a clump of straw, and her clothes were extremely large, causing it to not conform to her slender and graceful figure. Moreover, she walked extremely carelessly and shook sideways with every step, causing her to have a slovenly and unkempt appearance that could simply compare with Madman Liu.

But unlike Madman Liu, even though this young woman seemed completely unkempt, she was clean to the extreme, and her exposed skin was even tender and white like fine jade, causing her to give others an extremely strong visual impact.

"Qianrong, what have you come for?" Yun Ye's footsteps stopped when he saw this young woman that rubbed her sleepy eyes while making an appearance at the entrance of the Azurecloud Pavilion, and the platinum scared glow within his eyes was slightly reduced as he seemed to be somewhat afraid of this young woman.

On the other hand, when the other disciples within the pavilion saw this young woman, their eyes stared wide open, and they were extremely astounded. They seemed to not dare believe that this young woman would actually appear here.

"That's...her?"

"Right, it's her."

"It...it can't be, right? How many years has she not stepped foot into Azurecloud Pavilion?"

"Shh! Speak softer!"

Some disciples couldn't refrain from whispering in discussion. Their overcautious appearances caused them to seem like mice that had seen a cat, and it was even to the extent they didn't even dare mention her name.

On the other hand, Chen Xi's gaze had similarly descended onto this young woman. From his perspective, this young woman looked to be slovenly, yet was completely clean and possessed smooth and fair skin. Every single move of hers had an indescribable feeling to it, a feeling that seemed natural and simple, and she even emanated a profound aura that was beautiful and natural.

To Chen Xi's shock, Chen Xi was actually unable to discern exactly what cultivation this young woman possessed!

"I heard you went to the Dark Devil Sea to annihilate the 18 bandits, and I wanted to see to what extent your cultivation has risen to. Can't I?" This young woman glanced at Yun Ye with jet black eyes that were like profound stars, and they were deep and clear, whereas her voice still remained lazy yet was still extremely pleasing to the ear like the sound of nature.

As she spoke, her gaze swept the surroundings before finally descending onto Chen Xi, and then she waved her hand right away. "Hey, you're that new disciple, right?"

"Yes." Chen Xi was stunned, and then he nodded and replied.

"I heard you're an extraordinary genius that Martial Uncle Liu brought back? That Leng Qiu, Pang Zhou, Du Xuan, and the others joined forces, yet still lost miserably at your hands in the end?" The young woman sized Chen Xi up from head to toe as she expressed her surprise.

"What!? The junior brothers of my East Radiance Peak lost at your hand?" The nearby Yun Ye couldn't help but turn his head around when he heard this, and he glanced at Chen Xi with a flickering gaze.

"It was just luck." Chen Xi replied calmly. Up until this moment, he was still unable to figure out who exactly this mysterious young woman was, but he could be sure that she didn't have any ill intent towards him.

"What're you talking about? A win is a win. Those disciples from East Radiance Peak ought to be bashed by someone, otherwise if they're too arrogant, they would die even more swiftly." The young woman spoke disapprovingly, yet her attitude was utterly blunt. A portion of the disciples in the pavilion were from the East Radiance Peak, and they laughed bitterly without end when they heard this, yet didn't take any drastic actions.

Obviously, they knew the temper and strength of this young woman extremely clearly, and they didn't dare act rashly before her.

"Qianrong, what do you mean by that?" Yun Ye frowned instead, and he said with displeasure, "Amongst the 109 Seed Disciples, my East Radiance Peak occupies 32 positions. This is strength that you can't deny!"

The young woman called Qianrong raised her head and glanced lazily at Yun Ye before she said, "Are numbers of any use? If you're disgruntled, how about we have a battle?"

"Hmph! What a waste of time. The day will come when a victor will surely be decided amongst us, but it isn't now." Yun Ye grunted coldly before flicking his sleeve and leaving.

"Fleeing from battle again. With so many excuses, I'm the one that feels it's a waste of time." The corners of Qianrong's mouth curled up as she spoke with disdain.

The figure of Yun Ye outside the pavilion froze briefly when he heard this, and then he sped up and vanished in the blink of an eye. Based on how he seemed, Qianrong was obviously an extremely great headache for him as well.

There really outstanding talents hidden on Divine Radiance Peak. Yun Ye was already so extraordinary, yet he was faintly suppressed by this young woman that arrived abruptly. I've truly widened my horizons. Chen Xi sighed endlessly with emotion in his heart. He'd only just arrived at Azurecloud Pavilion yet had successively encountered two existences with strengths that was deeper than the previous, and he had no choice but to sigh with emotion.

It was at this moment that Qianrong suddenly asked. "You seem to have been in conflict with Yun Ye?"

"I'm a new disciple, so why would I go offend another?" Chen Xi shrugged as he spoke.

"You should be careful. Your future can be said to be boundless since you've become a Seed Disciple of the Nine Radiance Sword Sect, so there's no need entertain disputes caused by personal feelings. Even though you're formidable now, yet there's numerous people more formidable than you amongst the Seed Disciples." Qianrong combed her disheveled and beautiful hair as she reminded.

"Do you think I'm not a match for Yun Ye?" asked Chen Xi with a smile.

"Do you think you are?" Qianrong answered with a question.

"Then how are you compared to Yun Ye?" Chen Xi similarly avoided the question and didn't answer it.

"Hmph! What a slippery kid that's not willing to take the slightest loss!" Qianrong rolled her eyes at Chen Xi before she said lazily, "Mine and Yun Ye's strengths are almost on par, and no one is able to do anything to the other. But if we were to put our lives on the line, then he's slightly inferior. Do you know why?"

As she spoke, she glanced at Chen Xi with a mysterious expression.

"Why?" Chen Xi couldn't help but ask.

"I won't tell you." After she finished speaking, Qianrong couldn't help but chuckle as flowing lights flashed past her beautiful eyes, and they revealed a slightly sly expression.

Chen Xi was stunned. Only now did he realize that the young woman before him seemed to be slovenly, yet wasn't. She had clear eyes, attractive looks, a sweet smile, moist cherry lips, and snow white skin, whereas her disheveled jet black and beautiful hair gave her a lazy and alluring quality instead.

"You've just become a Seed Disciple and have offended Yun Ye, so it's extremely easy for you to be arranged to an exceedingly inferior abode to cultivate in. Moreover, your benefits will be reduced. Let me help you register yourself." Qianrong stood on tiptoe and patted Chen Xi on the shoulder, and she had the appearance of an elder sister protecting her younger brother. But, standing on tiptoes caused her actions to seem much more childish and cut.

"Err?" Chen Xi rubbed his nose and was slightly unable to wrap his head around why this young woman would treat him so kindly. Could it be that she wants to draw me over to her side? Or does she have other intentions?

"Don't worry, I'm not trying to draw you over to my side. I don't want to become enemies with that group of people from the East Radiance Peak because of you. Besides that, I'm not delusional and fell in love with you on first sight. The reason is simple, only that silly little girl An Ke would take a fancy to a pretty boy like you."

Chen Xi was extremely embarrassed when his thoughts were directly exposed by her, and then he suddenly realized something and said with surprise, "It was An Ke that asked you to help me?"

"She didn't ask, but begged me to help you, understand? Alright, follow behind me and cut the crap. You're a new disciple at any rate, so you ought to put on a much more obedient display when being helped by a senior, right?" Qianrong glared her clear eyes at Chen Xi before turning around and walking towards the depths of the pavilion.

All the disciples in the pavilion were dumbstruck. This new disciple, Chen Xi, is extraordinary indeed. He was just in confrontation with Yun Ye who possessed the White Emperor's Metal Eyes and was born with phenomena descending from the heavens, and they were on the verge of battle and wished for nothing more than to come to blows. However, in the next moment, he struck up a relationship with a formidable female cultivator like Qianrong, and they're chatting happily and seem to have a rather intimate relationship...

"This new disciple is formidable. He heavily injured Senior Brother Xiong and entered into confrontation with Senior Brother Yun Ye, he's simply overbearing to the extreme. After all, all the new disciples of the previous years were dealt with outside the pavilion to the point of being docile and obedient."

"Shh, softer. Luo Qianrong possesses the 'Profound Spirit Ancient Vein' body and is a brilliant figure that can't be offended as well. Her strength is entirely capable of ranking in the top rankings amongst all the Seed Disciples, and she can be called a monster. Moreover, she has the support of an overlord level clan like the Flame County's Luo Clan supporting her, causing her identity and status to be extremely respected. It's really enviable that this new disciple is able to strike up a relationship with her."

When everyone saw Luo Qianrong leading Chen Xi towards the depths of the pavilion, they couldn't help but whisper in discussion and secretly exclaim with admiration. They seemed to have never imagined that this new disciple would actually be able to cause such a commotion on his first day arriving at the Divine Radiance Peak.

"Chen Xi, hand over your command token. I'll arrange an abode for you to cultivate in. The Triple Profundity Abode has a Violetsun Spirit Vein beneath it, and it just happens to be suitable for your cultivation." The elders of the Azurecloud Pavilion moved over to greet Chen Xi and Luo Qianrong upon noticing their arrival.

"Triple Profundity Abode? No, that won't do. The location of that abode is faraway, and it can only be considered to be normal amongst the numerous abodes on Divine Radiance Peak and can't be said to be outstanding." Luo Qianrong frowned. "How about this? Choose an abode at the place where the Dark Brilliance Spirit Vein is and give it to him. I remember there're many abodes empty there."

"Dark Brilliance Spirit Vein?" The elders were stunned, and then they looked at Luo Qianrong and said with embarrassment, "There're indeed many empty abodes there, but they've already had their occupancy assigned by someone."

"Hmm? They were forcibly occupied?" The tips of Luo Qianrong's brows raised up, and she said with displeasure, "Who's so overbearing to even dare occupy the abodes on the Dark Brilliance Spirit Vein?"

"It was Wang Zhonghuan. He has already assigned the three empty abodes on the Dark Brilliance Spirit Vein to the newly advanced Seed Disciples of the East Radiance Peak this time. I presume you're well aware that if Wang Zhonghuan wants to do something, then we're unable to stop it as well." An elder sighed. Even though speaking like this would harm his own dignity, yet it was a fact that couldn't be denied. After all, Wang Zhonghuan's reputation was too great, and he received the favor of many old seniors of the sect that possessed extremely high seniorities. So even they who were elders could only turn a blind eye to it as well.

Talisman Emperor

Chapter 619: Joining Forces

Wang Zhonghuan?

Luo Qianrong was slightly stunned when she heard this name, and then she said with displeasure, "That Wang Zhonghuan that possesses an Immortal Artifact handed down from his clan? He just entered the Divine Radiance Peak and attained the Nether Transformation Realm 13 years ago, yet dares be so arrogant now and forcefully occupied three abodes on the Dark Brilliance Spirit Vein with just a single word? Who gave him the nerve to do that?"

On the other hand, when Chen Xi heard those three empty abodes were actually kept for Leng Qiu, Pang Zhou, and Du Xuan, he instantly understood that this Seed Disciple called Wang Zhonghuan was probably just like Yun Ye who possessed the White Emperor's Metal Eyes, and he was from the East Radiance Peak as well.

Chen Xi couldn't help but frown when he thought up to here. If this Wang Zhonghuan found out that Leng Qiu and the others lost miserably at my hands, he'd probably take me as an enemy just like that Yun Ye did, right?

This is truly troublesome. No matter where I go, I seem to be unable to escape being entangled with the forces of the East Radiance Peak...

"Miss Luo, you must not look down on Wang Zhonghuan. He possesses great karmic luck and deeply receives the favor of some seniors that're living in seclusion. Coupled with his peerlessly ferocious temperament, he's completed numerous assignments during these 10 plus years and obtained various fortuitous encounters, and he has already advanced to become a top figure amongst the Seed Disciples."

"Indeed. He possesses great good fortune and has an extraordinary physique, causing his cultivation speed to be more than 10 times swifter than an ordinary person, and he actually fought Long Zhenbei equally when seizing an assignment the other time!"

When they saw Luo Qianrong being displeased, the elders of Azurecloud Pavilion hurriedly started speaking.

"Hmm? He actually dared to fight Long Zhenbei? And it was even an equal fight?" A wisp of surprise flashed past Luo Qianrong's clear eyes, and then she bit her lips and shook her head as she smiled. "I never imagined that I was only in closed door cultivation for 20 years yet there're really numerous geniuses on Divine Radiance Peak."

He possesses an Immortal Artifact, formidable strength, great fortune, and receives deep favor from the old seniors of the sect, allowing him to become a top figure amongst the Seed Disciples in a short 13 years. This Wang Zhonghuan can be called an outstanding figure that's favored by the heavens... Chen Xi seemed to be lost in thought, and he was extremely astounded in his heart. He felt that Divine Radiance Peak was simply the concentration camp for geniuses, and it converged the extraordinary figures from all over, causing numerous experts to be concealed within it. Moreover, every single one of them had natural talents that were more shocking than the previous.

“Who’s this Long Zhenbei?” Chen Xi couldn’t help but ask.

“Long Zhenbei is a genius that’s rare to come by in ten thousand years, and he isn’t inferior to Yun Ye. He’s a disciple that a senior that lives in seclusion on Divine Radiance Peak brought back from the Serpent Dragon Clan while wandering the world. He possessed the Innate Dao Art ‘Serpent Dragon’s Spirit Eyes,’ and it’s slight more formidable than the White Emperor’s Metal Eyes.” Luo Qianrong’s cherry lips parted slightly as she spoke slowly. “His strength is roughly equal to mine. So since that Wang Zhonghuan was actually capable of fighting him equally, Wang Zhonghuan’s strength can’t be underestimated.”

Chen Xi was stunned once again, and he said in his heart, No wonder the Divine Radiance Peak is the core of the Nine Radiance Sword Sect. It’s obvious from the numerous Seed Disciples that possess extraordinary natural talent and the old seniors that’re cultivating in seclusion here.

Perhaps, this is where the resources and reserves of the Nine Radiance Sword Sect are, and only an extraordinary power like this is capable of recruiting so many formidable figures.

“Miss Luo, how about we arrange Chen Xi’s abode on the Crimson Origin Spirit Vein? That place is on par with the Dark Brilliance Spirit Vein, and it’s similarly a top-class location.” An elder noticed Luo Qianrong’s expression was turning more and more unsightly, and he couldn’t help but grit his teeth and suggest with a light voice.

“Crimson Origin Spirit Vein?” Luo Qianrong’s expression eased up greatly when she heard this. “That’s good as well. Even though its location is faraway, yet it’s indeed comparable to the Dark Brilliance Spirit Vein.”

...

The Divine Radiance Peak shot up into the nine heavens like a divine mountain that was constructed beneath the sky. It was a majestic scene that glowed brilliantly, and strands of auspicious qi hung down like waterfalls, causing this place to seem like an immortal paradise.

The entirety of the mountain was covered densely with countless secret realms and pockets of space. It looked to be only a mountain, yet the area it covered was so vast it was like a boundlessly vast kingdom that continued on without end, and an ordinary person would probably get lost instantly when walking on it.

Those old seniors that lived in seclusion were cultivation within independent pockets of space that were opened up on Divine Radiance Peak whereas, the abodes where those Seed Disciples cultivated at were distributed atop the spirit veins on Divine Radiance Peak.

Crimson Origin Spirit Vein was a spirit vein with an extremely high quality on Divine Radiance Peak, and the Seed Disciples that were able to cultivate on this spirit vein were at least ranked at the higher levels of the Seed Disciples and had extremely impressive statuses and identities.

Swoosh! Swoosh! Two figures tore through the sky and instantly arrived before the Crimson Origin Spirit Vein.

“Look, that’s the Crimson Origin Spirit Vein.” Luo Qianrong pointed towards a mountain in the distance that was enshrouded with Immortal Energy and flowing rays of light, and she said, “Unlike other spirit

veins, not only does the Crimson Origin Spirit Vein have vast and pure spirit energy, it also produces strands of Immortal Energy, causing it to be a superb place of cultivation. Cultivating here a single day is sufficient to compare with cultivating 100 days in the outside world.”

Chen Xi looked over. Sure enough, the mountain was completely empty, and when looked at from above, the entire mountain was suffused with a type of vast violet energy and enshrouded with spirit energy and wisps of Immortal Energy. Compared to ordinary spirit veins, it had an indescribable profound aura.

Chen Xi was already aware now that Nether Transformation Realm cultivators could only temper the Blackhole Worlds within their bodies to become even more vast and solid by absorbing spirit energy of the most superior quality, and only then would it be possible for them to comprehend the Earthly Immortal Realm.

After all, the Blackhole World formed a world of its own within the body, and the True Essence it required was enormous. It was absolutely more than ten or a hundred times more than what a Rebirth Realm cultivator possessed, so an ordinary spirit vein was already unable to satisfy the requirements of a Nether Transformation Realm cultivator.

There was a natural abode within the mountain, and it was completely empty without anyone cultivating within it nor were there any decorations. Obviously, it had been cleaned up since a long time ago.

When Chen Xi walked into this abode that belonged to him while holding his command token in his hand, he instantly felt strands of pure and vast spirit energy converging over from all directions, and only a light breath caused him to have a light feeling as if he was about to become an immortal. Moreover, even the Blackhole World within his body circulated in a slightly livelier manner.

If he were to cultivate here all through the year, then he would surely be able to temper his Blackhole World to the point of being more solid and vast.

To Golden Core Realm and Rebirth Realm cultivators, the golden core and Rebirth Wheel were the key to a cultivator’s cultivation, whereas the solidity and vastness of the Blackhole World within their bodies decided the cultivations of Nether Transformation Realm cultivators.

On the other hand, the quality and might of the Blackhole World had an inseparable relationship with the amount of Grand Dao Insights grasped and level of True Essence of the cultivator.

All in all, the paths sought by Nether Transformation Realm cultivators were practically completely reflected on the Blackhole World. No matter if it was for the sake of bringing forth an even more formidable strength or for the sake of advancing into the Earthly Immortal Realm, it couldn’t do without the cultivation of the Blackhole World.

“I have to thank Miss Luo for your assistance in helping me obtain this abode, and I’ll surely repay you greatly.” After he finished sizing up this abode that belonged to him, Chen Xi was rather satisfied in his heart and gestured at Luo Qianrong as he thanked her seriously.

He knew that if it wasn’t because of Luo Qianrong, those elders in the Azurecloud Pavilion would utterly not give such a superb abode to a new disciple that came over alone like him.

“Repay me greatly? There’s no need, if you really want to repay someone, then repay that little girl An Ke.” Luo Qianrong smiled, and then she revealed a solemn expression as she said seriously, “Perhaps you already know, but there’re a total of 109 Seed Disciples in our Nine Radiance Sword Sect, and even though it’s only a few, they’re the central force of the entire sect.”

“These disciples are mostly geniuses and monsters that have their own respective fortuitous encounters. Even though it looks boundlessly wonderful from the outside, the competition between each other is intense to the extreme, and it’s rather difficult to survive here. If you want to obtain a foothold here, then merely fighting on your own won’t do.” When she spoke up to here, Luo Qianrong stared directly at Chen Xi and smiled as she continued. “I helped you because I took a fancy to your potential, and having another friend is better than having another opponent to compete with.”

The meaning behind her words were extremely obvious. The reason she’d done this was actually for the sake of pulling Chen Xi over to her side.

“Then I, Chen Xi, will surely take Senior Sister Luo as my friend.” Chen Xi smiled.

He understood that what Luo Qianrong said wasn’t wrong, because when competition had developed to its most intense state, it would usually be reflected by people joining forces. For example, the Senior Brother Xiong he encountered previously was from the same group as Yun Ye, and they were both from the East Radiance Peak.

Actually, it was very easy to organize the relationships between disciples on Divine Radiance Peak. If one separated them according to where they came from, then they could be separated to the East Radiance, West Radiance, South Radiance, and North Radiance Peaks that formed the four great forces.

Amongst them, the East Radiance Peak was the strongest and the West Radiance Peak the weakest.

Besides these four great forces, the relationships of a portion of Seed Disciples was extremely complicated. These Seed Disciples weren’t from any of the four Elite Disciple Peaks, and they were personally brought back here from the outside world by some old seniors on Divine Radiance Peak to directly become Seed Disciples. For example, the Serpent Dragon Clan’s Long Zhenbei was such an existence.

This portion of disciples were around 20 plus people, and they occupied a fifth of the total number of Seed Disciples. Moreover, all of their natural talents were monstrous, causing them to be amongst the top ranks.

“Alright. Chen Xi, just cultivate in your own abode. If there’s anything, you can feel free to come to the Black Phoenix Spirit Vein to look for me.” Luo Qianrong nodded to Chen Xi before flicking her finger, and a jade talisman flew out into Chen Xi’s hand. “This is a talisman I refined. Keep it well. In the future, no matter if you want to find me or I want to find you, you only have to input your True Essence into it, and my location will be revealed.”

As she spoke, a flowing streak of light flashed, and Luo Qianrong had already vanished without a trace.

This young woman probably has an extremely intimate relationship with An Wei and An Ke. Could it be that she’s a Senior Sister from the North Radiance Peak? But, her presence really did spare me from

much trouble, and I must remember this kindness... Chen Xi put away the jade talisman yet turned around to leave the abode just like Luo Qianrong, and he flashed towards the West Radiance Peak.

During the time he followed Elder Lie Peng to the Divine Radiance Peak, he'd already received Huo Molei's voice transmission that the Profound Disruption Mountain had been refined completely. Moreover, Qing Yu had recorded the technique of cultivating the Wings of Disruption as well, and they were just waiting for him to return before he could rely on the Profound Disruption Divinelight to cultivate the supreme Divine Ability that belonged to the Azure Phoenix Clan — the Wings of Disruption!

Talisman Emperor

Chapter 620: Profound Disruption Divinelight

West Radiance Peak, before the Sword Purification Pool.

Huo Molei held a jade box carefully while sweeping his fellow Junior Brothers and Junior Sister in his surroundings with his gaze, and then he said with an extremely serious expression, "Quickly put away all the objects related to the five elements in your possession. Otherwise, once the Profound Disruption Divinelight appears, then any treasure would transform into a pile of scrap!"

Clang! Clank!

Second Senior Brother Lu Sheng hastily put away the zither made of thousand year old paulownia wood, Third Senior Brother Yi Chenzi rushed to put away his go board made of Darzure Metal and the black and white pieces made of glasswood into his storage pouch.

On the other side, Fourth Senior Brother Duan Yi, Fifth Senior Sister A'Jiu, and Sixth Senior Brother Qing Yu respectively carefully put away the stone tablet with various ancient markings inscribed on it, the Crimson Banana Ink used for drawing, and a palm sized puppet that were in their hands.

Chen Xi searched his own body as well when he saw this, and when he noticed he wasn't carrying anything that carried the attribute of the five elements, he said, "Eldest Senior Brother, it's alright, you can withdraw the Profound Disruption Divinelight now."

Huo Molei nodded before gesturing with his hand to make everyone move further away, and then he took a deep breath before striking out with a string of complicated, dense, and profound seals.

Crack!

At the instant the jade box opened up, a fluctuation that was like tidewater stretched out towards the surroundings. This fluctuation was heavy, gloomy, and mysterious... It seemed as if it contained the power to crush the aura of all life, and it caused others to feel the True Essence within their bodies become restless while their blood flowed in the opposite direction and be on the verge of disorder just by looking at it from afar.

Om!

Accompanying this terrifying fluctuation was a strand of hazy grey brilliance that swiftly floated up into midair, and it caused circle after circle of ripples that were visible to the eye to undulate in the sky and stretch out towards the surroundings. The energy of the five elements that floated in the heavens and the earth were completely destroyed and obliterated into nothingness by this fluctuation.

This strand of hazy grey brilliance was like a small tongue of flames. It was 30cm tall, thin like a spirit serpent, and at the instant it appeared, it was like the light of the gods that possessed a terrifying imposing aura capable of bringing chaos to the world and annihilating the five elements!

“This is the Profound Disruption Divinelight? According to legend, my Ancestor resided on the Profound Disruption Mountain and cultivated the supreme Divine Ability that shocked the ancient times — the Wings of Disruption.” A wisp of unrestrainable excitement appeared on Qing Yu’s face as he looked at the strand of hazy grey brilliance, and he muttered. “Unfortunately, the Profound Disruption Mountain had vanished and was obliterated in the world a very long time ago, and it was extremely difficult to find another in the entire Dark Reverie. So not a single one of my Azure Phoenix clansmen were able to cultivate this Divine Ability ever again...”

As he finished speaking, his voice already carried a wisp of deep sorrow.

The others sighed endlessly as well when they heard this. No matter how precious and rare it was, any treasure in the heavens and the earth was unable to resist the changes of time, and it would be blown away by the passage of time.

Weren’t cultivators who cultivated and sought the Dao just like this as well?

They were unwilling to allow their lifespans to be ground down by time, unwilling to transform into a pile of dirt, unwilling to see their loved ones grow old... So they cultivated and sought the Dao to attain immortality, and living along with the ages had become the pursuit of all cultivators in the heavens and the earth.

Regretfully, in the boundless annals of time, only a small portion of people that were like phoenix feathers and qilin horns amongst the myriad of living beings in the world were capable of attaining the Grand Dao and obtaining true immortality.

“Little Junior Brother, this is the strand of Profound Disruption Divinelight extracted from the Profound Disruption Mountain. Even though it’s only just a strand, it’s a priceless treasure, and it would absolutely be more than enough to cultivate the Wings of Disruption.” After a short moment, Huo Molei restrained his thoughts, and he pointed at the Profound Disruption Divinelight that floated in midair as he spoke.

“Thank you for your assistance, Eldest Senior Brother.” Chen Xi cupped his fists, and he was extremely grateful. After all, if it wasn’t for the assistance of Huo Molei to extract the Profound Disruption Divinelight, he would be helpless, as he couldn’t make something out of nothing.

“Oh, right. This is the cultivation technique of the Wings of Disruption, take it, Little Junior Brother.” The nearby Qing Yu slapped himself on the forehead before hurriedly taking out a jade slip and passed it to Chen Xi before he said with a smile, “Even though this Divine Ability is an ultimate technique of my Azure Phoenix Clan, no one has been able to cultivate it successfully since the primeval times, so it’s useless even if it’s kept in my possession. Now that you have the Profound Disruption Divinelight, it’s just suitable for you to cultivate, and it will live up to its worth.”

Qing Yu’s gaze was extremely sincere and without the slightest unwillingness, and it wasn’t like he was giving away an ultimate technique that shook the primeval times, but seemed as if he was casually giving away a present.

But Chen Xi knew how much this 'present' was worth, and he knew extremely clearly that Senior Brother Qing Yu treated him in this way because Qing Yu had obviously taken him to be someone dear that was worthy of being trusted. These feelings caused his heart to be heavy with warmth and a touched feeling.

"Eldest Senior Brother, there's only a single strand of Profound Disruption Divinelight?" Chen Xi asked abruptly.

"It really is only this much. After all, even though the entire Profound Disruption Mountain is enormous, the Profound Disruption Divinelight contained within it is extremely scarce to a pitiable level, and it was already extremely uncommon for so much to be extracted." Eldest Senior Brother scratched his head as he spoke.

"Then can you split this strand of Profound Disruption Divinelight into two?" Chen Xi continued.

"You wouldn't be thinking of giving half to Junior Brother Qing Yu, right?" Eldest Senior Brother spoke with an astonished tone.

The others were exceedingly stunned as well because they knew that even though there was only a strand of it, a treasure like the Profound Disruption Divinelight was absolutely worth an Immortal Artifact. After it was cultivated into the Wings of Disruption, not only would it be capable of tearing through space and move 5,000km in an instant, a light flap of the wings in battle would cause all magic treasures of the five elements to lose their properties and transform into a pile of scrap. In terms of might, it wasn't the slightest bit inferior to the Fivecolored Divinelight that was ranked in the top ten during the Primordial Era!

At this moment, when they saw Chen Xi actually wanted to give half of it to Qing Yu, they couldn't help but be astounded.

"You can't, you can't." Qing Yu was in panic, and his handsome face was flushed red as he waved his hand successively. "Little Junior Brother, you know as well that I'm not good at battle, and it would be useless, a waste of god's given gifts, even if I obtain the Profound Disruption Divinelight. Little Junior Brother, you must not do this."

"Eldest Senior Brother, just do as I said." Chen Xi spoke with an indisputable tone, and then he turned around to look at Qing Yu and said seriously, "Senior Brother Qing Yu, you must take this strand of Profound Disruption Divinelight for the sake of the clansmen behind you."

For the sake of my clansmen?

Qing Yu's body trembled as a wisp of an extremely complicated expression suffused his face, and it seemed to be an expression of pain, helplessness, and slight sorrow from recollection. He said after being stunned for a long time, "Right, no matter how they treated me, I'm a member of the Azure Phoenix Clan in the end, and I've inherited the bloodline of the Azure Phoenix..."

The others sighed endlessly in their hearts as well when they heard this. They had an extremely deep relationship with Qing Yu and knew since a long time ago that even though Qing Yu possessed a rare pure blooded physique in the Azure Phoenix Clan, yet because he wasn't adept in battle and had a pure,

kind, and weak character, his status within the clan wasn't high, causing many of his clansmen to take him to be trash.

If it wasn't for their Master, Madman Liu, passing by the Azure Phoenix Clan while wandering the world and took Qing Yu to be his disciple, Qing Yu would probably still be in the Azure Phoenix Clan and would be ordered about like trash.

"Little Junior Brother, thank you!" After a long time, a wisp of a firm expression suffused Qing Yu's face as he spoke seriously.

Chen Xi nodded and smiled.

After he arrived alone in the Dark Reverie, amongst the people he'd made friend with, only these seniors of his from the West Radiance Peak gave him a close feeling, and he treasured this feeling to the extreme.

So he was extremely happy to be able to do something for them.

...

Crimson Origin Spirit Vein, within Chen Xi's abode.

Chen Xi sat cross-legged on the ground as soon as he returned from the West Radiance Peak, and he placed the jade slip that recorded the Divine Ability, Wings of Disruption, before him as he carefully comprehended it.

The Wings of Disruption was the ultimate technique of the Azure Phoenix Clan that shocked the primeval times. This Divine Ability utilized the tiny apertures of one's body as the foundation and fused the Profound Disruption Divinelight into the body to condense this great Divine Ability.

When one cultivated it successively, one could move 5,000km in an instant, causing a boundless expanse of land to pass by in the snap of a finger. One could fly up into the nine heavens and dive down into the nine hells with a speed so swift that it wasn't the slightest bit different to teleportation.

Moreover, unlike ordinary movement techniques, the Wings of Disruption possessed offensive characteristics. A flap of the wings was capable of eliminating the properties of all magic treasures of the five elements and innately countered the five elements.

During the Primordial Era, the Divine Beast Azure Phoenix relied on this formidable great Divine Ability to become renowned in the world, and it had eliminated the properties of the magic treasures of countless great figures in the three dimensions all those years ago and possessed monstrous might.

Even if it was on the Divine Ability Gold Rankings of the three dimensions, no matter if it was speed or offense, the rankings of the Wings of Disruption was sufficient to be ranked in the top 30!

What sort of notion was it to be ranked in the top 30?

After all, the three dimensions were tremendously large, and they contained 3,000 large worlds, a myriad of minor worlds, and contained countless mysterious pockets of space and secret realms. Moreover, there were a myriad of living beings living within the three dimensions. So the amount of Divine Abilities in the three dimensions was simply vast like the ocean and dense like a river of stars.

Since the Wings of Disruption was capable of being ranked in the top 30 of the Divine Ability Gold Rankings of the three dimensions, it was sufficient to prove how terrifying its might was.

But it wasn't so easy to cultivate this Divine Ability successfully. Besides requiring the Profound Disruption Divinelight that was a top precious treasure in the world, it required the cultivator's body to be sufficiently strong.

For example, the Azure Phoenix was a Divine Beast born with an extremely formidable body, so cultivating the Wings of Disruption was naturally nothing difficult for it, but it was different for the human race because their bodies were innately far inferior to the other races.

Even if it was Chen Xi who'd already attained the perfection-stage of the Rebirth Realm in body refinement now, he still felt a wave of extreme shock when he saw the requirements to cultivate the Wings of Disruption.

The Wings of Disruption were divided into seven levels, and merely the first level required a body refiner to have developed 18,000 tiny apertures in the cultivator's body!

It was common knowledge that after a body refiner attained the Rebirth Realm, every single tempering of the Rebirth Realm would develop 3,000 tiny apertures in the body, and when the body refiner attained the 7th tempering of the Rebirth Realm, only 21,000 tiny apertures would have been developed.

On the other hand, the first level of the Wings of Disruption actually required 18,000 tiny apertures as its foundation. How difficult was this? In other words, even if body refiners beneath the Rebirth Realm obtained the cultivation technique of the Wings of Disruption, they were utterly incapable of cultivating it!

This was merely the basic requirements to cultivate the Wings of Disruption.

Of course, Chen Xi had already basically attained all these extremely harsh requirements now. He possessed the Profound Disruption Divinelight, had 21,000 tiny apertures developed in his body, and it wasn't a problem if he only cultivated the first level of the Wings of Disruption.

But Chen Xi wasn't satisfied with just this. He was extremely curious, if he was able to fuse the Wings of Disruption with the Starsky Wings, then how much greater potential could be brought out from it?

Multiplied speed?

Or shocking offensive strength?

Chen Xi put down the jade slip with glistening eyes and burning anticipation couldn't help but arise in his heart.
