#### Chapter 621: Coming To Cause Trouble

The world of stars.

When Chen Xi decided to start cultivating the Wings of Disruption, he'd come to the vast world of stars of the first possible moment.

The reason was extremely simple. Firstly, this place was safe, and he didn't have to be worried about being disturbed by the outside world. Secondly, the Temporal Laws here were different to the outside world, and only a year passed by in the outside world from cultivating 10 years here.

But even though the world of stars was conducive to his cultivation, yet it possessed a flaw that was impossible to overlook when compared to the abode he had in the outside world. The world of stars wasn't like the abode, and it didn't possess extremely vast and thick spirit energy.

So after fully considering the advantages and disadvantages, Chen Xi decided to comprehend Dao Arts of Divine Abilities in the world of stars. After all, just comprehending cultivation techniques didn't require spirit energy.

On the other hand, only when he was solidifying his cultivation and advancing it would he choose to cultivate within his own abode. In this way, he could fully utilize the advantage of the Crimson Origin Spirit Vein and allow it to provide him with boundless spirit energy.

...

As he sat cross-legged within the vast world of stars, Chen Xi took a deep breath before the Shaman Energy in his entire body surged, and then his entire body was instantly bathed in an empty, serious, and tranquil state.

Rumble!

For a time, nine vast Shaman Markings glowed on his back and erupted with an aura that shook the heavens and the earth, then they were interwoven together above him to form a surging nebula that was vast and mysterious, and it echoed with the stars in the sky from a distance.

At the same time, countless tiny apertures suddenly opened up all over his body, and it was like numerous stars had lit up all around his body and emitted blazing rays of light. When looked at carefully, those numerous tiny apertures were like numerous profound little worlds that were magnificent and mysterious, and they seemed to contain the boundless profundities of the Grand Dao in the universe.

As far as body refiners were concerned, the body was a land of treasures that contained the boundless profundities of the world. So long as one opened all 840 million tiny apertures in the body, one's body would become immortal, eternal, and exist forever in the heavens and the earth.

Even though Chen Xi's body refinement cultivation hadn't attained that practically legendary height, it had attained the height of the Rebirth Realm. His body was comparable to a top-grade heaven-rank magic treasure, causing it to be impregnable, and he'd already developed 21,000 tiny apertures in his body.

Presently, he wanted to utilize these mysterious tiny apertures to cultivate the Divine Ability, Wings of Disruption!

Swish!

A strand of hazy grey colored Profound Disruption Divinelight floated out and caused circle after circle of spatial ripples to undulate in the sky with a shocking impetus.

Chen Xi suddenly opened his eyes and circulated the cultivation technique while his hands overlapped swiftly with each other, and he struck out a string of obscure seals with a speed that dazzling the eyes. After that, the Profound Disruption Divinelight seemed as if it was summoned and transformed into an expanse of hazy grey colored rain of light that poured down onto the tiny apertures on his body.

This step was called the refinement of energy, and it was a key step in cultivating the Wings of Disruption. The Profound Disruption Divinelight was placed into the 18,000 tiny apertures around the body to form a mysterious circulation.

At this moment, the Profound Disruption Divinelight had transformed into a rain of light that poured down and flowed into the tiny apertures around his body, and then they slowly crept about before gradually boiling, causing his entire body to seem like a brightly glowing sun.

Suddenly, Chen Xi felt a sharp pain that penetrated the heart and marrow, and it caused his body to tremble.

At the same time, the tiny apertures around his body rumbled like lightning from the nine heavens, and it seemed like resonance of the Grand Dao, causing it to emit an extremely grand aura.

Sharp pain coiled around his body while his tiny apertures rumbled. Chen Xi felt as if something wanted to drill its way out of his back, and it felt like the pain of a myriad of swords stabbing his heart.

Crack! Crack!

Right amidst this boundless pain, inch after inch of skin on his back cracked apart to form numerous bloody lines, and these lines coiled together, overlapped with each other, and were interwoven together in an extremely mysterious and profound way...

They actually gradually formed the shape of a pair of wings!

Chen Xi utilized his internal vision and couldn't help but be enlightened because he deduced that the mysterious pattern that appeared on his back was shockingly the Wings of Disruption condensed from the Profound Disruption Divinelight.

Even though it was only the form of it, those profound lines and curves and the mysterious striations seemed like the brand of the Grand Dao, and they revealed an unparalleled feeling of mysteriousness. Moreover, they possessed an aura of suppressing the five elements and breaking the shackles of the world.

This was sufficient to make other body refiners exclaim with admiration. As expected of a great Divine Ability that's ranked in the top 30 of the Divine Ability Gold Rankings of the three dimensions. Once it's condensed, it actually possesses this unique and vast aura, causing it to seem extremely extraordinary.

This was too different from other Divine Abilities. Even though commonly seen Divine Abilities were miraculous, yet could any one of them directly fuse Profound Disruption Divinelight into the body and temper the body like the Wings of Disruption?

For example, the Deity Transformation, Heavenly Transformation, Eye of Divine Truth, Grand Astral Palm, Starsky Wings, Stellar Lightningform... Even though all these Divine Abilities were formidable, yet they didn't require external things like Profound Disruption Divinelight to be cultivated.

Of course, this didn't mean that the Wings of Disruption was more formidable than these other Divine Abilities, and it could merely show that this ultimate Divine Ability that came from the Azure Phoenix Clan was extremely special.

Perhaps it was precisely because of this 'specialness' that made this Divine Ability shock the primeval times and create such a brilliant and illustrious reputation. It was even to the extent that one could bluntly say that this Divine Ability would cause monstrous waves in the world every single time it made an appearance, and its might could be said to be unprecedented.

But at this moment, Chen Xi had merely condensed the shape of the Wings of Disruption, whereas the hazy grey Profound Disruption Divinelight was still ceaselessly flowing and gushing into his tiny apertures before condensing without end.

Time flowed by. Three days later, Chen Xi's back was covered in innumerable marks of blood, and the bloody marks that were dense and complicated like the milky way seemed like someone had inscribed an extremely complicated 'talismans of blood' on his back. Some of the bloody marks had already formed scabs since long ago, whereas some bloody marks were still surging ceaselessly and spreading...

Rumble!

Another three days of time passed. Suddenly, an extremely heavy and terrifying fluctuation swiftly stretched out from Chen Xi's body. Everywhere it passed, space shook like tidewater and emitted intense swishing sounds, and it was on the verge of shattering.

After that, a grey light flashed, and a pair of wings silently unfolded on Chen Xi's back.

An outline that was slender and sharp like blades, an arc that was simple and clean to the extreme, and an obscure aura that was grey and hazy like chaos. The wings seemed to be over 30m long when unfolded, yet it possessed an immense aura of being linked to the boundless space and covering an enormous expanse of the world.

Most importantly, there were unfathomable and profound talisman markings flickering and being produced on the wings, and they seemed to be narrating the profundities of the world!

Chen Xi exclaimed endlessly with admiration in his heart. He'd been observing this pair of wings since the beginning. Its construct was simple, curved, and smooth. It was like the most flawless artwork of the heavens, yet what shocked him the most was that he was actually unable to see through the talisman markings produced by this pair of wings!

Firstly, the talismans vanished swiftly, and they'd never appeared clearly. Secondly, they were too complicated like stars that covered the sky appearing in one place and constructing a universe there.

This was the Divine Ability, Wings of Disruption, an ultimate technique that came from the Azure Phoenix Clan. According to legend, it was the primeval Divine Beast Azure Phoenix that comprehended this supreme Divine Ability from its own bone markings.

The complicated talisman markings produced on the wings were the innate talisman markings the Divine Beast Azure Phoenix was born with, and they were like the striations of the Grand Dao, indescribably profound and possessing boundless might.

Bang!

Chen Xi withdrew a top-grade heaven-rank magic treasure that contained the element of Earth from the Buddha's Pagoda because he wanted to test the might of the Wings of Disruption. However, right when the magic treasure just appeared, it was instantly swept through fiercely by a strand of fluctuation, and it directly shattered into a pile of scrap metal, whereas the essence of Earth within it was completely obliterated.

Just like this, a top-grade heaven-rank magic treasure was completely destroyed!

Even if Chen Xi had an estimation of the might of the Wings of Disruption earlier, he still couldn't help but be shocked when he saw this sudden scene. It was too overbearing, and this fluctuation that suppressed the world and annihilated the five elements was truly too terrifying.

It was no wonder why the Wings of Disruption could compare with the Fivecolored Divinelight that was ranked in the top 10 during the Primordial Era. Merely this ability to counter the essence of the five elements was sufficient for it to be called world shocking.

After all, no matter the quality of a magic treasure in the world, most of them were refined from the essence of the five elements. Yet it just so happened that the Wings of Disruption innately countered the essence of the five elements, and such a heaven defying effect was absolutely capable of shocking other cultivators.

Chen Xi originally intended to utilize the Talisman Armament to test the might of the Wings of Disruption, but he forcefully restrained this thought in the end. It couldn't be helped, the refinement of the Talisman Armament was fairly difficult, and its might was currently on par with a Quasi Immortal Artifact. If it were to be damaged, then it would truly be too much of a heartache for him.

Swoosh! In the next moment, he'd already returned to his abode from the world of stars, whereas the Wings of Disruption had already been placed back into the numerous tiny apertures on his back, and not a single trace of it couldn't be discerned when he didn't utilize it.

I've successfully cultivated the Wings of Disruption, yet if I want to fuse it with the Starsky Wings, it's extremely difficult to accomplish with my current ability. After all, I've only cultivated the Wings of Disruption to the first level, and rashly fusing it would probably cause many drawbacks to appear... Chen Xi sat cross-legged within his abode while organizing the cultivation techniques of the Wings of Disruption and Starsky Wings once more, and he noticed that he was indeed incapable of fusing these two Divine Abilities with his current strength.

After all, both of these Divine Abilities were extremely formidable, and any one of them was capable of shocking the world if revealed. So perhaps only a great figure at the Earthly Immortal Realm or above would be capable of fusing them together.

Rumble!

Right when Chen Xi was immersed in the deduction of his cultivation technique, his entire abode suddenly shook intensely, and it seemed as if it was attacked from the outside.

This Divine Radiance Peak is the core of the Nine Radiance Sword Sect, whereas, the Crimson Origin Spirit Vein I reside on is a top paradise on the mountain. There would absolutely be no outside enemy attacking this place, so could it be...? Chen Xi suddenly opened his eyes, and strands of extremely piercingly cold bolts of lightning surged within them.

Swoosh!

In the next moment, he'd already vanished on the spot and appeared outside the abode.

His gaze swept out and instantly noticed a few Seed Disciples floating in the surrounding sky. All of them were naturally at the Nether Transformation Realm and were Seed Disciples with extremely formidable auras. Moreover, every single one of them was swollen with arrogance as they looked coldly at Chen Xi who flew out from his abode.

"You're the Seed Disciple that just advanced a few days ago?" The person in the lead wore a light violet colored Daoist Robe and a feathered crown, he had a cold and arrogant expression, and his pair of eyes that were filled with indifference and arrogance were looking coldly at Chen Xi.

Obviously, the attacks that Chen Xi's abode suffered earlier was the work of this group of people!

#### **Chapter 622: Making A Ferocious Show of Strength**

"What? Is there something all of you need?" Chen Xi frowned as he swept the disciples in the surroundings with his gaze, and in the end, his gaze descended onto the young man in a light violet Daoist robe who had a cold and arrogant expression. He'd already perceived that this person was probably the leader amongst these people.

"You're faced with imminent disaster, yet you're still unaware?" A Seed Disciple at the side shouted out explosively. "As a new disciple, you utterly don't have the qualifications to occupy an abode on the Crimson Origin Spirit Vein, yet you actually dared to ask deliberately as if you didn't know. Aren't you courting death!?"

"Leave, quickly! As a new disciple, you can only stay on low grade spirit veins to cultivate, and such a precious location isn't something a person of your status can match. Quickly move out and give up this abode, and we'll forgive you because you're a new disciple!"

"Exactly, this abode has been occupied by my East Radiance Peak!"

The group crossed their arms before themselves successively as they looked coldly at Chen Xi while shouting loudly, and all of them were swollen with arrogance and seemed as if they were driving out a fly.

East Radiance Peak?

Chen Xi instantly understood something in his heart. These fellows are probably part of Yun Ye's gang, and perhaps they came here this time because Yun Ye put them up to it.

He still remembered that when he just entered the Azurecloud Pavilion on his first day here, he'd almost entered into battle with Yun Ye if it wasn't for an elder's obstruction.

The competition between Seed Disciples really is chaotic. If I have the chance, then perhaps I can reverse the positions and occupy some of their abodes. In this way, perhaps I'll be able to deter others to not dare come provoke me... Chen Xi was lost in thought.

"What're you daydreaming there for? Are you going to move or not?" One of the Seed Disciples frowned when he saw Chen Xi remaining silent, and he shouted out explosively with displeasure.

"Was it Yun Ye that asked all of you to come here?" Chen Xi asked abruptly.

"Hmph! So much nonsense." The young man in the lead said coldly, "Chen Xi, I know you made friends with the North Radiance Peak's Luo Qianrong upon entering the Azurecloud Pavilion. But all of this is useless. Even though Luo Qianrong is strong, she doesn't dare to shed all pretenses with my East Radiance Peak. So you should just leave obediently and don't dream that someone would come save you."

"Oh?" Chen Xi's brows raised. "Could it be that the elders on Divine Radiance Peak won't interfere in this matter?"

"Haha, idiot. Not to mention the elders, even those seniors living in seclusion will only watch the competition between Seed Disciples with indifference. Understand?" Those Seed Disciples seemed as if they'd heard a huge joke when they heard what Chen Xi said, and all of them burst into laughter while their voices revealed indescribable ridicule. Moreover, they looked at Chen Xi as if they were looking at an idiot.

Chen Xi started laughing as well, and his laughter was very thought provoking. He'd intentionally asked that earlier only for the sake of confirming his guess, and now that he'd heard their answers, he was instantly reassured in his heart. He understood that no matter how great a commotion he made today, he would at least not have to worry about any consequences.

"Quickly fuck off. Have any one of the disciples from your West Radiance Peak not become figures that were like slaves upon coming to the Divine Radiance Peak? I'll give you one final chance, fuck off now, otherwise, don't blame us for being ruthless!" Another Seed Disciple spoke with a ghastly tone.

These disciples from the East Radiance Peak are really arrogant, and they even dare be so arrogant, overbearing, and lawless in the Divine Radiance Peak. I really wonder who gave them such courage... Chen Xi didn't speak but was just more and more curious in his heart. He really wanted to know who the top figures amongst these Seed Disciples of the East Radiance Peak were. Was it Yun Ye? Or perhaps Wang Zhonghuan?

"Looks like you're really impervious to reason!" A Seed Disciple was already impatient when he saw Chen Xi pondering in silent, and he bluntly threatened. "Since it's like this, then we'll let him know how

formidable we are! Even though we can't kill on the Divine Radiance Peak, we can beat him up to the point he's half dead, then torture and humiliate him to the point not an inch of him remains unscathed!"

"Let's make a move and blast him out from his abode on the Crimson Origin Spirit Vein. We'll allow all the Seed Disciples on Divine Radiance Peak to see this fellow's embarrassing state!" The young man in the light violet colored Daoist robe shouted out abruptly, and he attacked brazenly.

Rumble!

He stretched out with his hand and grabbed, causing space to instantly collapse while cracks appeared everywhere. In a single attack, he'd actually executed a formidable Dao Art, Bloodbale Destruction Fist.

This was an intermediate-grade Dao Art of the Nine Radiance Sword Sect that possessed a peerlessly ferocious might. It was capable of destroying the surroundings and shaking mountains and rivers, and it was an extremely ferocious Dao Art like the Crimson Bear Clan's Bloodbear Skysplit Palm.

This fist struck directly at Chen Xi with an impetus that seemed like the tide, and it carried a shocking might and revealed an aura of obliteration and chaos while bloody winds howled and baleful qi surged along with it.

"Senior Brother Nie's Bloodbale Destruction Fist has become even more formidable. According to rumor, this fist carried monstrous bloody baleful qi that's like an ocean, and it's famous for its ferocity. It's one of the formidable Dao Arts of my Nine Radiance Sword Sect."

"Perhaps all of you don't know but Senior Brother Nie obtained the personal guidance and passing down of knowledge from one of the ancestors in seclusion, so his strength has naturally risen along with that. According to this impetus, it wouldn't take a few years for Senior Brother Nie to be ranked in the top amongst Seed Disciples and be on par with Senior Brother Yun Ye."

"Look, Senior Brother Nie actually executed double combat strength with the Bloodsoul Dao Insight at the Perfection Realm, that's equivalent to two Nether Transformation Realm cultivators attacking at the same time!"

This young man in a light violet colored Daoist robe called Senior Brother Nie seemed to know about some of the strength that Chen Xi revealed at the Azurecloud Pavilion earlier, so he executed double combat strength the instant he made a move, and he wanted to carry out a blitz that didn't give Chen Xi the slightest chance to resist.

"Die!" Amidst an explosive shout, the Bloodbale Destruction Fist Senior Brother Nie executed had approached instantly, and it directly smashed down fiercely at Chen Xi's chest with ferocious appearance of seemed to intent to completely blast Chen Xi flying.

Bang!

Right at this moment, Chen Xi moved. He opened his fist into a palm that carried the might of the heavens and the earth as it slapped out like a myriad of surging waves, and they overlapped each other as if the milky way was pouring down from the nine heavens.

This palm strike carried a surging imposing aura and contained the essence and profundity of the Myriad Netherwave Palm, and merely a single strike completely destroyed Senior Brother Nie's attack!

Most shocking of it all was the force of this palm didn't disperse just like that, but it moved like a soaring dragon, like a raging river of blood, and it directly smashed onto Senior Brother Nie's chest with a bang and made a deep impression on it, causing him to cough up blood without end.

Those disciples of the East Radiance Peak hadn't even reacted to what had happened when they saw their Senior Brother Nie flying out like a kite that had its string severed. Moreover, they even clearly noticed the surprise, frustration, terror, and helplessness on his face...

"Kneel!" After Chen Xi defeated Senior Brother Nie with a single palm strike, his figure flashed out to arrive before Senior Brother Nie in the next moment, and then he grabbed out and grabbed the flying Senior Brother Nie in his hand before directly pressing him down to a kneeling position.

Crack!

The sounds of the bones on in his knee shattering was extremely ear piercing, and it shocked all those Seed Disciples to the point their entire bodies couldn't help but tremble, whereas Senior Brother Nie had already been tortured by this strike to the point of letting out shrill cries of pain since a long time ago.

"Impossible! I fought with double combat strength. How could I have lost to you in a single strike!?" Senior Brother Nie knelt on the ground while he suffered an extremely intense feeling of humiliation and fury in his heart, and he couldn't help but howl in a sharp voice.

"It's very simple. Your strength is too weak, and even double combat strength is like complete trash before me. I won't kill you today, but you must be punished for disturbing my cultivation like this. So, I'll punish you to kneel before my abode to atone for your crimes!" Chen Xi's palm pressed down and directly struck out with the profundities of the Grand Confinement Dao Art, causing Senior Brother Nie to be completely confined to kneeling on the ground, and unless someone with a cultivation more formidable than Chen Xi assisted him, otherwise he could only kneel here and suffer the torment of boundless humiliation.

"AH!!!" Senior Brother Nie was unable to struggle free, and it angered him to the point of letting out a hysterical howl as his body trembled violently like he'd gone mad. This sort of humiliation from kneeling on the ground had caused him to be on the verge of insanity.

Chen Xi was extremely indifferent to all this, and he showed no sympathy. The competition between the Seed Disciples on Divine Radiance Peak was extremely brutal, and if he didn't act slightly overbearingly, it would be utterly difficult for him to gain a foothold.

He acted in this way as a form of warning and to display his attitude to the entire Divine Radiance Peak!

"Hiss! Isn't this fellow too ferocious!?"

"Senior Brother Nie's cultivation is even more formidable than Senior Brother Xiong, yet he still couldn't withstand a single blow in the end. Could it be that this kid is really as the others said, a peerless monster?"

"Let's go! He's formidable to the point that even Senior Brother Nie lost at his hands. We're absolutely not a match for him, and perhaps only existences like Senior Brother Yun Ye are capable of subduing him."

The other disciples of the East Radiance Peak were terrified to the point their entire bodies trembled while their lips twitched, and they turned around and fled like headless flies.

“Could it be that all of you think you’re able to flee?” After he glanced at Senior Brother Nie who knelt on the floor like a dead dog, Chen Xi’s gaze swiftly descended onto the others.

“If I allow all of you to escape this time, then how will I, Chen Xi, gain a foothold here? Your East Radiance Peak wants to use me to make a show of strength, then I’ll use all of you to make a show of strength, and I’ll let the entire Divine Radiance Peak know how miserable are the consequences of offending me, Chen Xi!” In the next moment, Chen Xi already had his hands behind his back as he stood in midair while his jet black hair and clothes fluttered in the wind, and he looked at the disciples that were fleeing in all directions as he took a step, causing a few streams of light to suddenly surge out explosively from his body.

The streams of light were like chains that linked up the world and were like large nets that suddenly spread open as they flew towards those disciples, and they swept those disciples back with a light twist.

This wasn’t a Dao Art, but a combat technique Chen Xi had comprehended from the Allheaven Truth. During the primeval times, when the Chaotic Divine Lotus fought the gods, it had once utilized its divine chains of the Grand Dao to link up the three dimensions like a chain of order, and it instantly confined the numerous experts in the world. Such an extraordinary ability that seemed to surpass the might of nature was like a true miracle.

At this moment, the ability he executed was comprehended from it, and even though it wasn’t a Dao Art, it contained the profundities of Dao Arts, causing its might to be similarly shocking to the extreme.

Bang! Bang! Bang!

Accompanied by a string of muffled bangs, the East Radiance Peak disciples that fled fell before Chen Xi like bottle gourds rolling on the ground, and they were in exceedingly embarrassing states.

At this moment, as they looked at the tall figure before them that was like a mountain that held up the skies, they were terrified to the point their faces turned ashen while their bodies shivered without end. Never had they imagined that even the path they were using to escape would actually be completely blocked off with a casual attack from Chen Xi!

#### **Chapter 623: Savage Five Element Bow**

Presently, Chen Xi had already completely understood that the more overbearing one was on Divine Radiance Peak, the more others would be afraid of you, whereas the weaker one was, the more one would be bullied and humiliated.

The competition between the Seed Disciples of the Nine Radiance Sword Sect was brutal to the extreme, and it was like purgatory. The strong survived, while the weak could only be reduced to be subordinates. If one was unable to endure it, then one could choose to leave and head to the inner court or outer court to be an elder, and one could still cultivate and comprehend the Dao as usual. But one’s accomplishments could only stop here and completely lose all fate one had with becoming a true top expert.

After all, the growth of an expert couldn't do without the baptism of blood and fire. If one was even unable to endure this level of competition, then how could one fight for supremacy with the heavens and the earth and go against the Grand Dao?

Just like the West Radiance Peak's Huo Molei and the others. Their cultivations were really high, yet they weren't skilled in battle, and if it wasn't for the protection of Madman Liu and Chen Xi's assistance, they'd probably have been eliminated from this playing field a long time ago.

After all was said and done, if one wanted to become an expert, then one's cultivation was the foundation, and one couldn't do without competition and tempering.

The reason the competition between the Seed Disciples of Divine Radiance Peak was so brutal was absolutely because the higher-ups of the Nine Radiance Sword Sect intended it to be like this, and it was for the sake of washing away the sand and selecting the true geniuses that could be pillars that could endure great responsibility.

"Senior Brother Wang Zhonghuan! Swiftly come rescue us!" Those East Radiance Peak disciples that were confined by Chen Xi with those rays that were like chains were utterly incapable of moving, and they couldn't help but howl in their terror.

Rumble!

At this instant, as if it had heard their cries for help, the space above the sky shook as an enormous bang that was like a thunderclap resounded out, and then even the group of mountains nearby the Crimson Origin Spirit Vein started to shake violently.

Chen Xi felt his entire body shake as an enormous force that was like an abyss descended with the intention of completely crushing him, and it was arrogant to the extreme.

Chen Xi swept his gaze up into the sky.

He saw a young man in a golden robe was suddenly standing proudly beneath the extremely distant sky. His figure was slender, and he was extremely handsome while his dense golden hair fluttered in the wind, causing him to seem like the son of a Suncrow, arrogant and overbearing. He possessed a bearing of looking down arrogantly upon the world and everything on it.

This person is Wang Zhonghuan?

Chen Xi's eyes narrowed as he recalled the introduction Luo Qianrong gave him earlier. This person possessed great karmic luck, deep fortune, superb natural talent, and deeply received the favor of seniors that were in seclusion.

His temperament was peerlessly ferocious. Even though he'd only entered the Divine Radiance Peak 13 years ago, yet he'd already advanced to become a top figure amongst the Seed Disciples, and he possessed a matchlessly formidable strength that couldn't be underestimated.

Most shocking of it all was Wang Zhonghuan possessed a real Immortal Artifact!

According to logic, even though he was unable to bring forth the true might of an Immortal Artifact with his current cultivation, yet if it was against those of the same generation, it was undoubtedly a great weapon of destruction.

Chen Xi originally thought that 'Senior Brother Nie' and the others were put up to provoking him by Yun Ye, but Wang Zhonghuan's appearance now allowed him to instantly understand that he'd underestimated how overbearing the disciples of East Radiance Peak were.

Earlier, Luo Qianrong intended to arrange his abode to be on the Dark Brilliance Spirit Vein, yet it ended with failure. The reason was that the three empty abodes on the Dark Brilliance Spirit had been forcefully occupied by Wang Zhonghuan, and he'd spread the word that he'd kept them for Leng Qiu, Pang Zhou, and Du Xuan.

Now Leng Qiu and the others had been defeated by him during the Peak Trials, causing them to have their fate with the position of Seed Disciple severed. Logically speaking, this matter ought to have passed just like that. But now it would seem like this Wang Zhonghuan obviously felt that Chen Xi had spoiled his arrangements, and he didn't intend to let Chen Xi off. So he still continued pursuing Chen Xi even after Chen Xi had moved to the Crimson Origin Spirit Vein, and he was going too far!

"Chen Xi! A new disciple like you actually dares to go against my will and humiliate the junior brothers I sent over like this? Do you know that you're challenging my dignity by doing this!?" The golden robed young man, Wang Zhonghuan's, voice sounded out from the sky. His voice wasn't loud yet sufficient to spread throughout this area, and it carried a sense of dignity, arrogance, and conceit, like the descendant of a god arriving in the world.

"Your will? Could it be that you think you're a god?" Chen Xi said coldly, "You're only a Seed Disciple of the Nine Radiance Sword Sect, yet you dare speak so arrogantly and act as you please, could it be that you've really taken this place to be your own house?"

"Audacious! You humiliated the disciples of my East Radiance Peak yet don't repent, and you're ill-mannered and talking back instead. Looks like I must properly punish you today!" Wang Zhonghuan's voice wasn't loud yet carried a feeling of terrifying coldness.

"You're trying to put the blame on me? You ought to know that it was they that provoked me first." Chen Xi spoke indifferently, yet wasn't afraid in the slightest, and he carried a composed aura.

"So what? No matter what your reason is, the disciples of my East Radiance Peak can only be dealt with by my East Radiance Peak. Who do you think you are?" Wang Zhonghuan spoke with a light voice, yet all his words revealed undisguised arrogance and contempt.

"Oh? Is that so?" Chen Xi smiled before raising his hand and pressing down, causing those East Radiance Peak disciples to instantly let out shrill howls as their bodies knelt down uncontrollably onto the ground, and their appearance were miserable.

This was equivalent to using actions to tell Wang Zhonghuan. So what if they're disciples of your East Radiance Peak? Since they dared to offend me, Chen Xi, they have to kneel and suffer punishment all the same!

"You're...courting death!" Wang Zhonghuan was stunned, and then he exploded into rage and withdrew a large multicolored and glazed bow. At the instant it appeared, an indescribable aura appeared in the heavens and the earth, and then five ferocious beast phantoms that were coiled in the colors of the five elements let out roars that shook the heavens.

“Hiss!” A wave of gasps resounded out in the distances. It turned out that since an unknown period of time ago, the vicinity of the Crimson Origin Spirit Vein was already filled with numerous figures that were watching the show, and they revealed a wisp of shock when they saw Wang Zhonghuan withdraw this bow.

“Quasi Immortal Artifact — Savage Five Element Bow!”

“According to rumor, this bow was forged from the tendons of five types of ferocious beasts, namely the Troar, Soarserpent, Bronze Ant, Crimson-tailed Ape, and Aquagale Mink, and it contains the five elements. As soon as it’s utilized, the five elements would combine into one, causing its might to be terrifying to the extreme.”

Om!

Wang Zhonghuan stretched out his hand and placed it onto the bow before lightly pulling on it to the point it formed the shape of a full moon and erupted with five colored divine light that illuminated the heavens and the earth. Moreover, dragon roars and tiger howls resounded out from within it while it enveloped his entire body within a blazing glow, causing him to possess shocking divine might.

Chen Xi revealed a serious expression as True Essence surged throughout his body and glowed, and he stared at Wang Zhonghuan who was beneath the distant sky while being prepared to meet him in battle. Since this person was capable of being ranked into the top amongst Seed Disciples, his strength was naturally extraordinary, and he’d even withdrawn a Quasi Immortal Artifact bow with shocking might at this moment, causing Chen Xi to not dare be careless.

Swish!

In the next moment, a dazzling five colored light arrow tore through the sky and shot out explosively with a speed so swift that it wasn’t inferior to teleportation, and it carried the oppressive might and aura of penetrating through all obstacles and annihilating everything.

Chen Xi’s eyes narrowed and didn’t impatiently meet it head on, and his figure flashed out instead to dodge from the side. The might of this arrow was too great, and Wang Zhonghuan had obviously attained a shocking height in the Dao of Archery, so its edge couldn’t be taken head on.

Bang!

An enormous bang that shook the heavens and the earth resounded out. Everywhere the five colored light arrow passed, violent winds rages as rocks shattered, and even space itself had a horrifying and narrow rift split apart on it.

This might of this arrow was simply capable of penetrating the sun and moon and shattering the world. It was obvious from this that this Savage Five Element Bow was absolutely a terrifying Quasi Immortal Artifact!

Beng! Beng! Beng!

The bowstring shook. Wang Zhonghuan was like a god that drew a large bow with great strength, and he shot out numerous dazzling and resplendent five colored light arrows once more, causing them to tear through the sky while locked onto Chen Xi.

Chen Xi's figure shook as he executed the Violetlotus Goldshadow Barrier, and it formed a divine lotus shaped shield of light that blocked before him and forcefully resisted these arrows.

Bang! Bang! Bang!

The arrows tore through the sky while seeming as if the energy of the five elements were completely gathered on them, and they actually instantly destroyed Chen Xi's Violetlotus Goldshadow Barrier and stared him right in the face.

Chen Xi was calm while facing peril. His hands shook repeatedly as an ancient symbol that was coiled with divine light emerged on his palm, and he once again dealt with the attacks that pressed down upon him one after the other.

In the distance, everyone was already shocked by this scene since long ago. The might of this Savage Five Element Bow is too formidable! Even a casual shot is capable of comparing to a formidable Dao Art!

I never expected this fellow is actually so skilled in the Dao of Archery. If I want to defeat him then perhaps I can only fight him in close combat... Chen Xi knew extremely clearly that when facing an expert in the Dao of Archery, fighting from a distance would cause him to fall into an extremely passive state, and it was extremely disadvantageous.

His gaze locked firmly onto the gold robed young man in the distance and knew that this was a terrifying opponent that possessed a strength that was more than a little bit more formidable than Leng Qiu and the others.

But he wasn't afraid, because up until now, he hadn't utilized his true strength.

"Interesting. No wonder you dared be so arrogant. But this is far from enough. I've only brought forth less than a tenth of my strength. How long do you think you can persist for?" The corners of Wang Zhonghuan's mouth curled into a smile that carried a natural sense of arrogance and contempt.

As soon as these words were spoken, the spectators in the distance were shocked. Less than a tenth of his strength? Then how strong would he be if he exerted his entire strength?

"Could it be that the disciples of your East Radiance Peak only know how to talk big?" Chen Xi spoke calmly.

"Five elements converge into one, circulate endlessly, collapse the world, annihilate!" Wang Zhonghuan grunted coldly and wasn't anxious to utilize his entire strength, and he drew the bow once again as if he was a cat teasing a mouse, causing its divine glow to rise explosively and the five elements surged with a sound that seemed like a resounding bell.

Bang!

A dazzling light arrow that carried the force of the heavens and the earth dragged out a long five colored ray of divine light as it whistled over like a shooting star, and it caused the heavens and the earth to be cast into a shadow.

This might of this arrow was obviously more than a little bit stronger than the arrow from before! The faces of everyone in the distance were covered in shock as they were able to sense its terrifying fluctuation from extremely far away, and it caused their minds to tremble. All of them knew clearly that

if an ordinary Nether Transformation Realm cultivator were to face this attack, the cultivator would surely be completely annihilated by this arrow and not even have the chance to struggle.

After all, the Dao of Archery had converged the essence, spirit, and energy of its user onto this arrow, so it was exceedingly lethal once shot. During the primeval times, every single expert that was capable of flawlessly mastering the Dao of Archery was a supreme expert that shook the three dimensions, and they were capable of shooting through the stars, sun, and universe with peerless might!

Even though this arrow Wang Zhonghuan shot out hadn't attained the height of those experts from the primeval times, yet his cultivation of the Dao of Archery belonged to a top level, and it was practically capable of sweeping through everyone of the same generation.

How will Chen Xi go against this?

At this instant, the hearts of everyone couldn't help but rise to their throats, and they held their breaths in concentration while their gazes stared fixedly at Chen Xi.

### Talisman Emperor

#### **Chapter 624: A Battle That Shocked Divine Radiance Peak**

"Break!" Chen Xi didn't dare be careless when facing this arrow that shook the heavens, and divine lights erupted from between his fingers and formed the Grand Dao of Obliteration within talisman markings that condensed into a horrifying symbol.

This was the Grand Obliteration Fist commanded by the Dao of Talismans and transformed into a profound symbol, causing its might to become even more focused. At the instant it appeared, it caused the dust, light, and airflow in space to be instantly obliterated and transformed completely into nothingness.

Bang!The Obliteration talisman marking revolved and stopped the dazzling light arrow that tore through the sky towards Chen Xi before emitting a brilliant light of Obliteration that spared no effort to go against it.

Crack!Finally, this arrow was worn down and shattered in midair, and it transformed into a dazzling and resplendent five colored wave that drowned the heavens and the earth.

From the beginning until the end, Chen Xi stood without moving and hadn't moved a single step back.

Wang Zhonghuan's eyes squinted. He was actually able to receive my attack. His strength can really be considered to be not bad. At the very least, only that small group of people on Divine Radiance Peak are capable of easily accomplishing this.

"According to my knowledge, you seem to have just advanced to the Nether Transformation Realm?" He asked doubtfully.

"Does it make any difference?" Chen Xi replied indifferently.

Wang Zhonghuan's heart shook. He'd already stepped into the Nether Transformation Realm for many years, yet Chen Xi was able to go head on against him after just advancing into the Nether Transformation Realm. Such natural talent is really extraordinary!

“Haha, don’t be anxious. Being able to receive 30% of my strength isn’t anything great. You can slowly enjoy starting from now!” Wang Zhonghuan recovered his coldness, and his eyes shone brightly and were suffused with an evil and dazzling glow.

Beng!

The bowstring shook like the rumbling of a large bell before another light arrow that was formed from divine might left the bowstring. It shook the winds and the clouds in the surroundings while a brilliant five colored glow coiled around it, and it created a peerlessly sharp spiral penetration force. Its fierce might caused others to feel extreme despair and helplessness just from looking at it from afar.

This was Wang Zhonghuan’s peak attack. Even though he felt contempt towards Chen Xi, yet he didn’t underestimate Chen Xi in battle, and the might of this arrow was much more terrifying than the one from before.

Chen Xi’s expression remained unchanged instead. The rumbling of the Dao resounded out as a few tens of divine rings coiled around him. They were talisman markings formed from numerous Dao Insights, and they were like an expanse of scorching suns that floated around his body, causing his imposing aura to become exceedingly immense.

This was a technique from commanding his Dao Insights with the Dao of Talismans, and with a wave of his hand, he had the imposing aura of commanding everything in the heavens and the earth and ruling over the world.

Presently, the Blackhole World in his body was circulating while his essence, energy, and spirit were in a state of abundance like the full moon. His entire body seemed to have transformed into a sea of talisman markings that was explaining the boundless profundities of the Grand Daos in the heavens and the earth, and it was a horrifying sight.

This is... Wang Zhonghuan was stunned. Chen Xi’s display had exceeded his expectations as Chen Xi’s entire body actually possessed a terrifying aura that was shockingly formidable, and it caused even Wang Zhonghuan to feel a trace of horror.

What sort of might is this?

Bang!

A heaven shaking bang resounded in the world as boundless lights exploded out, circle after circle of waves surged and undulated from Chen Xi’s body as if he was the eye of a storm on the ocean, and it caused countless storms to spread out and obstruct that light arrow.

In the end, the light arrow hadn’t even arrived before Chen Xi when its tip started to collapse inch by inch, and then it shattered with a bang, transforming into five colored powder that covered the sky before dispersing into nothingness.

The distant spectators were shocked when they saw this scene because Chen Xi had actually resisted the peak attack of the Savage Five Element Bow while relying on the rumbling Dao Insight and vital energy of his body, and such an overbearing state shocked everyone then and there.

“How could this be possible? This kid has only just attained the Nether Transformation Realm, yet he has actually already started to command his Dao Insights in battle!?” Wang Zhonghuan’s pupils constricted and flashed with a bright light.

Since he was able to attain his current height, his discerning capabilities were naturally proficient, and he practically instantly noticed that Chen Xi’s strike was actually a technique of commanding one’s own Dao Insights! After all, he’d only just started to comprehend this method of battle now...

Beng! Beng! Beng!

No matter how surprised he was, Wang Zhonghuan’s reaction was extremely swift. He drew the bow and once again shot out numerous dazzling five colored light arrows that were over 300m long, and they were like numerous rainbows that tore through the sky.

Swoosh! Right at the instant he attacked, Chen Xi’s figure had directly vanished on the spot, and in the next moment, he’d already arrived 300m away from Wang Zhonghuan.

“Try my strength as well!” As his cold and indifferent voice resounded out in the air, Chen Xi’s aura changed once more to become peerlessly fierce and with surging Sword Insight, and he was like a king of swords that looked down on the world.

Swish! Swish! Swish!

At practically the exact same instant, countless sword lights that were sharp to the extreme flickered out from space itself, and they carried an aura of destruction and obliteration as they slashed out with extreme speed.

The sword lights were like a storm that surged out. In terms of imposing aura, they weren’t the slightest bit inferior to the numerous light arrows that shot out explosively. Both of them collided in midair and erupted with balls of extremely dazzling light, and it was like a volcano had erupted and drowned the heavens and the earth here.

The commotion of the battle here practically instantly spread throughout the entire Divine Radiance Peak, causing numerous formidable and unknown existences to spread their Divine Senses over to inspect exactly what had occurred.

Especially the experts amongst the Seed Disciples of the Nine Radiance Sword Sect, all of them wanted to see how a peerlessly ferocious high level figure like Wang Zhonghuan would crush the new disciple, Chen Xi.

Divine Radiance Peak was a mountain that stood towering beneath the heavens, and it was like the residence of the gods. This place had been managed by the great figures of the Nine Radiance Sword Sect for countless years, so no one knew exactly how vast it was or how many pockets of space and secret realms it contained.

Even though the commotion caused by the battle between Chen Xi and Wang Zhonghuan was great, it merely affected a small area that was occupied by Seed Disciples. But even though it was only a small area, it was actually vast to the extreme and was practically equivalent to a small scale kingdom.

Wang Zhonghuan wore a golden robe and commanded the Quasi Immortal Artifact, Savage Five Element Bow. Every single draw of the bow caused light arrows to flow out and erupt with divine lights in the sky as they shot through the world. He was like a son of the gods that intended to obliterate the world, and his might was matchlessly shocking.

On the other hand, Chen Xi circulated his Blackhole World while controlling the numerous Grand Dao profundities he'd grasped. Every single attack he struck carried the might to destroy the heavens and the earth, and destructive moves appeared without end. Every single move of his seemed to surpass the might of nature, and they contained numerous profundities.

All the Dao Arts he possessed now were from the secret realm at the top of the lotus platform. Besides the 49 Dao Arts, there also the numerous ultimate inheritances in the Allheaven Truth. Even though he hadn't cultivated it to the point of perfection, its might was already sufficiently shocking.

Moves and profundities came easily and skillfully to him. The Skycontrol Burial Sword, Grand Confinement Dao Art, the Chaotic Nine-Steps Annihilation... All of them were contained in his moves, causing all the spectators in the distance to be dazed and stunned, and they were almost unable to discern what Dao Art it was!

But Wang Zhonghuan was worthy of being a top figure with great karmic luck. He actually didn't fall into the slightest disadvantageous position while facing Chen Xi's numerous profound techniques, and he was actually steadily rising in strength and might as time went by, causing him to be similarly shocking.

It was obvious that even though Wang Zhonghuan had a superb constitution, great karmic luck, and deeply received the favor of the seniors of the sect, since he dared to be so arrogant and intend to crush Chen Xi who was a new disciple, he had something to rely on.

"Chen Xi, do you really think you can go against me with just this little bit of ability? My Immortal Artifact, Exuberant Brahma Sword, is being nurtured and refined within my body, and it's only half a month away from being completely refined successfully. If it wasn't for that, I would only require a single strike to annihilate you, and how could I have allowed you to persist until now?" Wang Zhonghuan seemed to be enraged from being unable to attain success after battling for so long, and his voice that was cold and arrogant had become emotionless and ruthless. It seemed as if so long as he was willing, he would be able to withdraw his Immortal Artifact at any moment and crush Chen Xi.

"Looks like Wang Zhonghuan is really furious. I truly can't imagine that a new disciple like Chen Xi is actually so formidable, and he's able to not fall into a disadvantageous position while facing the attacks of Wang Zhonghuan."

"Exactly, Chen Xi has really concealed his strength deeply. He has executed a few tens of peak-grade Dao Arts successively, and I've actually been unable to discern where it was inherited from. He's truly a monster."

"Hmph! So what if he possesses numerous Dao Arts? Senior Brother Wang Zhonghuan is a genius of the heavens that possesses great karmic luck. According to rumor, he once obtained the inheritance of an immortal abode while tempering himself in the outside world, and his own Blackhole World is extremely solid and vast to the point it far exceeds ordinary Nether Transformation Realm cultivators by ten or

even a hundred times. He's completely capable of exerting half the might of that Immortal Artifact by relying on his heaven defying cultivation!"

"Immortal Artifact? Haha. All I see is that Chen Xi is barehanded and hasn't utilized any magic treasure yet is able to fight Wang Zhonghuan who's holding a Quasi Immortal Artifact equally. Just based on this, his strength is sufficient to be ranked in the top amongst Seed Disciples."

The spectators in the distance discussed animatedly, and all of them were shocked by the horrifying battle before their eyes.

...

"I wonder who will win in the end."

"But Chen Xi is slightly inferior. After all, Senior Brother Wang Zhonghuan has numerous abilities and possesses an extremely shocking cultivation as well. Not too long ago, he battled the peerless genius Long Zhenbei, yet both of them were helpless against each other."

"Yeah, Long Zhenbei is a matchless figure from the Serpent Dragon Clan, and he's rather famous in the entire Dark Reverie. Since Wang Zhonghuan was capable of fighting him on par after joining the sect for over 10 years, he really can't be underestimated."

"Right, I heard that the 10 immortal sects will be holding a gathering not long from now, and the most outstanding geniuses would be chosen from amongst us Seed Disciples. Moreover, those that're victorious will even be able to obtain the favor of a Heavenly Immortal and obtain cultivation techniques and Immortal Artifacts!"

"A gathering of the Immortal path? A Heavenly Immortal passing down techniques? What sort of honor would that be!?"

Within an abode extremely far away on Divine Radiance Peak, two experts amongst the Seed Disciples were sipping tea as they watched this struggle between two evenly matched opponents.

...

Hmm? That arrogant new disciple has actually come into conflict with Wang Zhonghuan so quickly? Yun Ye who possessed the White Emperor's Metal Eyes was in closed door cultivation within his abode when he suddenly sensed something, and he swiftly opened his eyes and swept out with his gaze before instantly seeing the distant battle clearly. No wonder he dared to talk about fighting me. So it turns out that he really has some ability. That ferocious fellow Wang Zhonghuan was actually unable to suppress him. Looks like I have to reappraise this person...

Om!

Right when various figures were discussing animatedly all over Divine Radiance Peak, a terrifying, icy cold, and extremely mysterious fluctuation suddenly surged and stretched out from the battlefield in the sky above the Crimson Origin Spirit Vein.

Everyone present instantly felt suffocated while the True Essence and blood within their bodies actually showed faint signs of falling into disorder and flowing in reverse!

After that, everyone saw that a pair of wings that were suffused with a grey and hazy sheen appeared silently on the back of Chen Xi who was in midair, and it was enshrouded with a grey glow that caused it to seem as if it was suffused with Chaotic Qi.

### Talisman Emperor

#### **Chapter 625: Blasted Flying With A Single Slap**

The pair of wings flowed with a grey and hazy sheen, its edges sharp, and its curves were like the marks of the heavens or the brand of the Grand Dao. It was like the most flawless work of art of the heavens, and it revealed a peerlessly mysterious feeling.

Strands of dense, profound, and unfathomable talisman markings flickered and emerged from it, and it seemed to be narrating the profundities of the world.

Swoosh!

Before everyone could pry into the true profundities of the pair of wings, they felt something flash before their eyes. In the next moment, the grey and hazy wings had suddenly flapped as they unfolded out, and it surged with an immense aura of being connected to the boundless space and covering the heavens and the earth.

In merely an instant, Chen Xi's entire body had actually vanished under the gazes of everyone present!

This is... Under the distant sky, Wang Zhonghuan's heart jerked as he similarly noticed to his astonishment that he was actually unable to lock onto Chen Xi's tracks. This kid seems as if he'd vanished into thin air!

This sudden scene caused him to have utterly no time to think, and he practically shouted instinctively before soaring through the sky while drawing the Savage Five Element Bow and causing the bowstring to rise and fall repeatedly.

Beng! Beng! Beng!

Numerous dazzling light arrows shot through the sky like rainbows, and they shot out like a squall that covered the heavens and the earth and enveloped the world.

This was an extremely violent and ferocious attack, yet was also a superb form of defense, as it tightly and seamlessly defended all the blind spots around him.

"Chen Xi, is this all you've got? Get the fuck out here and die!" Wang Zhonghuan's dense golden hair fluttered as he shouted out arrogantly, and his entire body was filled with an oppressive imposing aura of dominance and extreme ferocity.

Hiss! Right at this moment, a strand of peerlessly fierce sword light caught Wang Zhonghuan off guard and flashed out of thin air by his ears.

This sword light was too sudden and seemed as if it had teleported, causing Wang Zhonghuan to utterly be unable to react before directly having a small piece of his scalp sliced off. Golden hair fell to the ground as blood flowed like a fountain, and it caused his handsome face to seem vicious and savage.

“You’ve made me bleed!” Wang Zhonghuan touched his head while his handsome face convulsed without end. He seemed to have never imagined that he would actually suffer an injury.

Meanwhile, he’d already noticed Chen Xi’s tracks, and Chen Xi was standing far away in the distant sky. Chen Xi’s figure was like a shuttle that was covered by a pair of grey and hazy wings, and he was blurry and indistinct to the point he was practically about to fuse with space itself. If Wang Zhonghuan’s Divine Sense wasn’t strong enough, he would be utterly incapable of detecting Chen Xi.

Bang!

Wang Zhonghuan moved along a profound pattern that seemed like the positions of stars as he flashed out like a thunderclap that was coiled with boundless dazzling five colored divine lights, and then he drew the bow fully before condensing a light arrow that as beautiful like glass and breathtaking.

He was truly enraged. Since he’d started cultivating until now, he’d relied on his great karmic luck, great fortune, and exceedingly high natural talent to practically never meet a person that was capable of being a match for him. So never had he imagined that he would actually suffer such a big loss at the hands of a new disciple.

This was simply like an enormous humiliation to the proud and arrogant Wang Zhonghuan!

After all, young experts with extraordinary natural talent like him were the most conscious about their image. Even a piece of his scalp had been sliced off, and this was truly too embarrassing if news were to spread.

“Die!” Wang Zhonghuan shouted out explosively as a five colored divine radiance arose behind him, and it was like the five elements were circulating and residing there, causing him to possess an oppressive imposing aura.

Om!

At the same time, he let go of the bowstring that he’d drawn and was accumulating force for so long, and then the light arrow that was gorgeous like glass shot out explosively like a shocking rainbow that shot through the nine heavens. It shattered space itself and resounded out with a sharp and deafening sonic boom.

Merely the imposing aura of this arrow shocked everyone on Divine Radiance Peak to the point of stopping their discussions. All of them had already perceived that Wang Zhonghuan was completely enraged this time. How could someone at the Nether Transformation Realm be able to receive such an arrow that could startle the universe and shock the gods?

Chen Xi didn’t continue dodging when facing this arrow.

Even though that strike from before had only sliced of a piece of Wang Zhonghuan’s scalp, it already allowed him to have a slightly deeper understanding of the speed of the Wings of Disruption.

This ultimate technique of the Azure Phoenix Clan wasn’t inferior to the Starsky Wings in terms of speed, and it was similarly capable of being on par with true teleportation.

The rarest part was that the Wings of Disruption moved silently like a moving shadow, and it was simply an ever-successful ultimate weapon for assassinations and surprise attacks.

At this moment, he floated in midair while the Wings of Disruption behind him seemed to effuse the aura of chaos, and it was completely grey and hazy and completely enveloped his entire body within it.

“How could this be possible? This fellow actually isn’t dodging?”

“Could it be that he knows he’s unable to dodge it, so he intends to submit and admit defeat?”

“Indeed. This arrow is too terrifying, and it’s absolutely a peak strike from Wang Zhonghuan that carries the greatest killing intent. Anyone would probably be at a loss for what to do as well, and they would only be able to await death.”

“Alas. Another new disciple is about to be suppressed. I originally thought that this fellow would be able to create a miracle...”

The minds of everyone swirled with thoughts, and all of them revealed expressions of being unable to bear the sight of this. It was even to the extent that some had closed their eyes as they couldn’t bear to see Chen Xi be suppressed like a living punching bag.

All these thoughts passed in merely an instant, and before everyone could restrain their thoughts, the gorgeous and shocking light arrow had already shot out explosively and arrived before Chen Xi.

Bang!

The light arrow collided onto the wings Chen Xi had curled up before his chest, and it rumbled and intended to destroy all obstructions. It erupted with a dazzling glow, and it seemed like the heavens and the earth was collapsing as the glow drowned this expanse of the world with its brilliance.

“Who won and who lost?”

“Chen Xi wouldn’t be directly blasted to death, right?”

“It doesn’t seem likely. If there’s a danger to his life, then those old seniors in seclusion would have stopped it a long time ago. After all, no matter how we Seed Disciples fought each other, once it involved life and death, those great figures would absolutely not continue watching from the sidelines.”

“Even if Chen Xi doesn’t die, he’ll probably suffer an extremely heavy injury. Perhaps a shadow that can’t be eliminated would be left in his heart after this battle, and he’ll be unable to advance in the slightest in his entire lifetime.”

Countless thoughts interweaved together in an instant.

The sky was filled with a dazzling rain of light, and one couldn’t see exactly what was going on. But everyone understood now that perhaps the battle between Chen Xi and Wang Zhonghuan would be decided with this attack.

“Eh! That’s...” After a short moment, the smoke that suffused the sky had dispersed and the dust had settled. However, when they saw the scene clearly, it caused everyone present to be unable to refrain from being stunned and feeling disbelief.

Chen Xi's figure that was tall like a sword was still standing on the spot without moving, whereas the grey and hazy wings that were curled up before him were like an unshakeable barrier, and it blocked out that light arrow that was like glass!

His posture was extremely strange yet seemed like a rock on a precipice. No matter rain or storm, it wouldn't move in the slightest.

"He blocked it!" "Wang Zhonghuan's arrow of annihilation was actually blocked..."

"Not only has this fellow Chen Xi not moved an inch, he's even without a scratch!"

Everyone present gasped because this scene caused them to feel unprecedented shock, and this scene was bound to be branded into their minds for an extremely long time.

"He blocked it?" In an extremely far away abode, Yun Ye who possessed the White Emperor's Metal Eyes saw this scene, and it shocked him to the point his face twitched and was covered in disbelief.

After all, even if it was him blocking this arrow, he would have to exert a great deal of effort, whereas Chen Xi had actually been able to take it head on while standing on the spot, and Chen Xi hadn't even moved an inch nor was he injured in the slightest. How could he not be shocked?

No wonder Leng Qiu and the others lost at his hands. This strength does indeed possess the qualifications to gain a foothold on Divine Radiance Peak... Unfortunately, he's a disciple of the West Radiance Peak, and he'd bound to be an enemy... Yun Ye muttered in his heart, and then his expression recovered its calm.

"How could this be possible!?" In the distance, Wang Zhonghuan was similarly shocked, and he seemed as if he'd seen a ghost. He hadn't held back in this attack and had even aroused true killing intent, yet this arrow that carried his hatred was actually still unable to be of any effect.

Bang! Right at this moment, the light arrow that was blocked out had been weakened to the end, and it shattered with a bang before transforming into a rain of light that covered the skies and vanished without a trace.

At the same time, Chen Xi flapped his wings and charged forward with extreme speed while Dao Insight rumbled throughout his body. He wanted to fight Wang Zhonghuan in close combat and completely crush Wang Zhonghuan without giving him another chance to begin shooting arrows.

"Want to engage in close quarter combat? Impossible!" Cold lights emerged from Wang Zhonghuan's eyes as he knew he'd encountered trouble. But he wasn't worried, and his fingers fluttered about as he flicked the bowstring repeatedly.

Beng! Beng! Beng!

Countless light arrows tore through the sky like a pouring rainstorm, and its might wasn't inferior to the arrows from before. It was obvious from this that Wang Zhonghuan's cultivation in the Dao of Archery had already attained an extremely high accomplishment.

If it was any other person that was facing such a situation, the person would have probably abandoned the bow since a long time ago.

Bang! Bang! Bang!

However, to the shock of everyone including Wang Zhonghuan, Chen Xi actually didn't dodge in the slightest when facing this rain of arrows that covered the heavens and the earth. Every single arrow that collided with his body would be fiercely crushed by an icy cold and mysterious beam of light, and it would explode into an expanse of rain of light, causing it to be utterly incapable of injuring him in the slightest.

"The Wings of Disruption! I recognize it now! That's actually the ultimate technique of the Azure Phoenix Clan that innately counters the five elements, and its capable of eliminating the essence of any magic treasure of the five elements!" Someone cried out in shock.

At this moment, everyone instantly understood everything, and the gazes they shot at Chen Xi changed once more. There was shock, there was realization, and there was disbelief.

The Wings of Disruption was a formidable Divine Ability that was ranked in the top 30 of the Divine Ability Gold Rankings of the three dimensions, and it had once shocked the primeval times with its might. It was the innate Divine Ability of the Divine Beast Azure Phoenix, yet because of the disappearance of Profound Disruption Mountains, this Divine Ability had been obliterated in the annals of history since a long time ago, and it hadn't appeared in the world for countless years.

Who could have imagined that this Divine Ability which possessed a might that shocked the heavens and the earth would actually appear in Chen Xi's possession now?

At the same time, everyone finally figured out why Wang Zhonghuan's light arrow attacks were resisted so easily by Chen Xi, and the reason was the Wings of Disruption.

After all, the Profound Disruption Divinelight was capable of eliminating any essence of the five elements in the world. Even though Wang Zhonghuan's Savage Five Element Bow was a Quasi Immortal Artifact, yet it was innately countered by Chen Xi.

"The Wings of Disruption?" Wang Zhonghuan's face went grim because he'd instantly understood everyone, and he wanted to abandon his bow right away and change his method of battle before continuing to fight Chen Xi.

At this moment, his mind that was calm like water in a lake couldn't help but reveal a trace of panic because of this sudden change of events.

Swoosh!

However, before he could take action, or perhaps it could be said that Chen Xi had grabbed this feeling opportunity. In the next moment, Chen Xi had already appeared before him, and his palm condensed into the form of a seal before it smashed onto Wang Zhonghuan's chest.

Crack! Wang Zhonghuan's chest sunk down as his entire body was slapped flying while endlessly spitting out large mouthfuls of blood, and his countenance had instantly turned pale and translucent.

Obviously, this strike had caused him to suffer a heavy injury!

[Talisman Emperor](#)

**Chapter 626: Skill That Shocked Divine Radiance Peak**

Wang Zhonghuan being heavily injured and spitting blood caused everyone that was observing this battle to be shocked, and they almost didn't dare believe this was true.

After all, since entering the Divine Radiance Peak 13 years ago, Wang Zhonghuan had rarely found a match, and coupled with him possessing great karmic luck, great fortune, extraordinary natural talent, and the deep favor of numerous seniors, it had allowed him to be an existence that practically no one dared offend amongst the Seed Disciples.

Who could have imagined that a peerlessly vicious and ferocious figure like this would actually lose at the hands of a new disciple like Chen Xi?

Swoosh! Right when everyone was shocked, Chen Xi moved once more. The Wings of Disruption flapped before his entire figure vanished on the spot, and he pounced towards the distant Wang Zhonghuan.

Chen Xi naturally didn't intend to kill Wang Zhonghuan but give him a lesson he wouldn't be able forget for his entire lifetime. Chen Xi wanted to make a show of strength in public! In this way, Chen Xi would be able to obtain a steady foothold on Divine Radiance Peak.

But before Chen Xi could approach Wang Zhonghuan, a dangerous aura suddenly gushed into his heart, causing his eyes to squint before he stopped resolutely.

Bang!

Sure enough, just as he'd sensed, the heavily injured Wang Zhonghuan actually stood up while True Essence surged in his entire body, and he practically instantly recovered his peak state.

This is... Chen Xi's eyes squinted as he'd sensed a trace of a feeling that aroused terror in him.

Moreover, it was the first time he'd seen a heavily injured person actually be able to instantly recover to a peak state. This scene was too shocking, and it caused even Chen Xi to feel apprehensive in his heart and be completely on guard.

"Very good. I never imagined that you've actually cultivated the Wings of Disruption, it really is a surprise to me." In the distance, Wang Zhonghuan's golden robe was tainted with blood, yet he seemed like a reborn child of the gods, and his expression was cold and gloomy to the extreme. His eyes were dim and dark, and they were suffused with strands of killing intent. "But I have to tell you that because I was refining my Immortal Artifact, Exuberant Brahma Sword, I didn't multiply my combat strength by five times. Otherwise, do you think you can injure me?"

Five times!?

Even with Chen Xi's level of composure, he couldn't help but be shocked in his heart upon hearing this. If it was really like this, then it also meant that Wang Zhonghuan had already mastered five Grand Dao profundities to the Perfection Realm!

"No wonder! I thought Senior Brother Wang Zhonghuan's strength had weakened. So it turns out that he hadn't exerted his true strength earlier."

"In this way, it looks like Wang Zhonghuan lost this battle, yet Chen Xi actually only won by luck."

“Five times combat strength! If it’s true, then it would indeed be extremely difficult for Chen Xi to obtain victory.”

The distant spectators discussed in low voices. All of them had been shocked by Wang Zhonghuan’s words, and never had any of them imagined that Wang Zhonghuan had actually kept such terrifying strength without exerting it.

“Hmph! Could it be that you think I only have this much ability?” Chen Xi suddenly grunted coldly, and his voice wasn’t loud, yet allowed everyone present to hear it clearly.

In an instant, the atmosphere went perfect silent.

These words of Chen Xi’s had similarly caused everyone present to be shocked. Wang Zhonghuan having not multiplied his combat strength by five times had already surprised them, and now, Chen Xi actually said he hadn’t exerted his full strength. How could this not shock them?

“Shameless boasting!” Wang Zhonghuan’s expression focused slightly, and then he said with disdain, “I’m at the critical moment of my cultivation now, and I’ll surely crush you a few months from now. I’ll make you be reduced to a servant of mine that serves me tea and fetches water for me, and you can dream of escaping my control for your entire lifetime!”

“Cherish this few months of time properly. Because at that time, everything will be out of your control!” As he spoke, Wang Zhonghuan’s figure flashed and vanished.

“What a joke! If you have the ability, then why haven’t you even rescued your lackeys? Yet you still have the nerve to boast like this?” Chen Xi stood above the Crimson Origin Spirit Veins as he looked at Wang Zhonghuan’s disappearing figure, and his eyes couldn’t help but be suffused with a wisp of piercingly cold killing intent.

The intention of taking revenge within Wang Zhonghuan’s words were strong to the extreme. If it wasn’t for them being on Divine Radiance Peak, Chen Xi would have charged out and killed Wang Zhonghuan since a long time ago to completely eliminate this scourge.

...

“Senior Brother Chen Xi, please forgive us this time!”

“We were wrong. We shouldn’t have come looking for trouble with you. Please have mercy and forgive our mistakes since we’re disciples from the same sect.”

“Yes, we guarantee we won’t dare do this again.”

Wang Zhonghuan’s actions of speaking ruthlessly and leaving put those East Radiance Peak disciples that were kneeling before Chen Xi’s abode in a painful situation. When they thought about how Chen Xi might deal with them in a while later, they were instantly unable to sit still and started pleading for mercy.

All these Seed Disciples were top figures amongst Nether Transformation Realm cultivators, and they carried arrogant bearings when they’d just arrived earlier. However, no matter how formidable their strengths were, when they encountered an existence that was even stronger than them like Chen Xi,

they instantly revealed a different appearance that completely exposed the negative side of human personality.

“As Seed Disciples of the Divine Radiance Sect, every single one of you don’t have the slightest pride and unyielding character and bow humbly instead, and it’s contemptible. All of you are simply a disgrace to my Nine Radiance Sword Sect!” Chen Xi swept all these people with his gaze and didn’t conceal his detest in the slightest before he flicked his sleeve and said, “Fuck off! If you dare make an appearance near the Crimson Origin Spirit Vein, then I’ll surely drive all of you out from Divine Radiance Peak!”

“Yes, yes, yes. We’ll surely listen to Senior Brother Chen Xi’s teachings, make determined efforts to turn over a new leaf, and we’ll surely not dare carry out any misdeeds in the future.” The Seed Disciples of East Radiance Peak seemed as if they’d finally extricated themselves, and they nodded repeatedly without the slightest intention of resisting or feelings of dissatisfaction.

Who was Wang Zhonghuan? He was simply an invincible god in their hearts, yet he was still unable to do anything to Chen Xi. So now that they’d been detained, how could they dare complain?

Even if Chen Xi scolded them more relentlessly, they would just listen to it obediently and not dare go against him.

This was the competition between Seed Disciples on Divine Radiance Peak, brutal and realistic. The weak only had a single choice here, and it was to yield to the strong.

After these disciples left in panic, Chen Xi entered his abode once more and sat down cross-legged before heaving a sigh of relief, and he started to cultivate quietly.

The battle with Wang Zhonghuan earlier consumed his strength greatly, and he was almost unable to endure to exertion. The most pressing matter at hand now was to swiftly recover his strength.

From the beginning until the end, the great figures of the sect hadn’t interfered in the battle today. It’s obvious from this that the competition between Seed Disciples on Divine Radiance Peak is really unrestrained to the extreme. No wonder that Wang Zhonghuan dared to be so arrogant and ferocious. Even though he didn’t gain the slightest advantage in the battle against me today, I have to be careful of him in the future. Chen Xi pondered in his heart.

Needless to say, Wang Zhonghuan was really shockingly strong. Not only did he possess the Quasi Immortal Artifact, Savage Five Element Bow, he even possessed the Immortal Artifact, Exuberant Brahma Sword. Moreover, he’d even grasped five types of Grand Dao profundities to the Perfection Realm. He could absolutely be considered to possess tremendous resources and extraordinary natural talent since he possessed such natural endowments and cultivation.

Chen Xi knew that if Wang Zhonghuan had multiplied his combat strength by five times in the battle today, then the chances of Chen Xi winning would become extremely tiny.

Of course, he still had some trump cards he hadn’t utilized, like the mysterious tiny cauldron that had always followed by his side. If he was pressured to the point the tiny cauldron made a move, then not to mention Wang Zhonghuan, even an Earthly Immortal Realm expert would be unable to resist it.

After all, the tiny cauldron had once said that with its strength, it had 30% confidence in being able to kill or heavily injure a real Heavenly Immortal!

But the tiny cauldron's origins were too shocking. It was an existence that had created the laws of the heavens and the earth in the Primeval Battlefield and had personally witnessed the expedition of the gods. Unless there was no other choice, Chen Xi would absolutely not utilize the strength of the tiny cauldron so as to avoid any mishaps from occurring.

Looks like I have to work hard to improve the realms of my Dao Insights in the future and strive to attain the Perfection Realm in all the numerous Dao Insights. In this way, I'll similarly be able to multiply my combat strength, and at that time, why would I be afraid of Wang Zhonghuan's threats? After contemplating for a long time, a wisp of a firm expression had appeared once more in Chen Xi's eyes. He knew that he'd just stepped into the Nether Transformation Realm, and there really was a distance that couldn't be made up for between him and Wang Zhonghuan who'd advanced into the Nether Transformation Realm a long time ago. But so long as he calmed himself and cultivated, it wasn't impossible for his strength to undergo another breakthrough.

If a Nether Transformation Realm cultivator wanted to improve his strength, then there were only two paths. The first was to solidify and temper one's own Blackhole World to improve one's cultivation. The other path was to comprehend Dao Insights and attain the Perfection Realm in the Dao Insights one had grasped. In this way, one could rely on Dao Arts to bring forth a multiplied combat strength! Moreover, these two paths supplemented each other.

Only when the Blackhole World was sufficiently solid and vast would one be able to accumulate even more True Essence to bring forth a multiplied combat strength. Otherwise, even if one had grasped Dao Insights at the Perfection Realm, something couldn't be made out of nothing because one's own True Essence was utterly insufficient.

On the other hand, the higher the comprehension of Dao Insights one possessed, the more it would be reflected in one's Blackhole World. After all, Dao Insight were the core and frame that formed the Blackhole World, so the more Dao Insights one possessed and the higher one's comprehension in these Dao Insights were, the more solid and vast the Blackhole World would be.

Rumble!

When Chen Xi entered into closed door cultivation, countless airflows completely sealed up the entire abode. It was a formidable restriction that he'd set up, and it was capable of preventing others from trespassing.

"Even Wang Zhonghuan left with hatred in his heart. This kid really is unfathomable. Looks like another peerless monster has appeared in my Nine Radiance Sword Sect, and perhaps he'll be able to obtain extraordinary results in the gathering of the Immortal path that's being held not long from now."

"Exactly. This kid's abilities are really shocking. He has mastered numerous peak-grade Dao Arts and cultivated the Wings of Disruption that shocked the primeval times. In the future, he'll surely be able to grow into a top pillar of support of my Nine Radiance Sword Sect."

Within Azurecloud Pavilion, numerous elders had watched this battle from the beginning until the end, and they were extremely shocked in their hearts as well. With their cultivations, they were naturally able to discern how great Chen Xi's potential was, and it was absolutely not inferior to the other top disciples on Divine Radiance Peak.

“This won’t do! This matter must be reported to those seniors that’re living in seclusion within the secret realms. They’ll surely be extremely interested in such an outstanding genius like Chen Xi.” An elder stood up, and he executed a spatial teleportation technique to flash towards the depths of Divine Radiance Peak because he wanted to fully report what had occurred today to those seniors that were in seclusion.

It wasn’t just these elders in Azurecloud Pavilion, and along with the battle coming to an end, heated discussions of Chen Xi rose in all the various abodes, secret realms, and pockets of space on Divine Radiance Peak.

#### **Chapter 627: Dark Parasol's Abyss**

Divine Radiance Peak, within an abode.

“Yun Ye, that Chen Xi does indeed possess the qualifications to challenge you, as he was actually capable of heavily injuring Wang Zhonghuan. This kid is extremely extraordinary as well.” A grey robed old man appeared abruptly like a ghost that had teleported over silently, and he looked at Yun Ye who sat cross-legged on the ground while sighing lightly with emotion. “Even though Wang Zhonghuan hadn’t multiplied his combat strength by five times, Chen Xi probably had contingencies as well. If you want to become the number one Seed Disciple on Divine Radiance Peak, then you’ll probably have numerous obstacles.”

Yun Ye raised his eyes and recognized the person who’d arrived to be an elder in Azurecloud Pavilion called Hua Kong who was from the East Radiance Peak and had always taken care of him. If the elders were divided into various different factions, then Elder Hua Kong absolutely belonged to his side.

After all, every single Seed Disciple had gone through countless stringent selections to arrive at the height they’d attained at this moment. It was possible for every single one of them to grow and become a great figure in the sect that possesses great authority over a certain area and matchless might.

It was even to the extent that practically all the Sect Masters of the Nine Radiance Sword Sect were from the ranks of Seed Disciples. In this way, these Seed Disciples naturally received the care of numerous elders.

This was like the kingdoms of the mortal world, and these Seed Disciples were like the numerous princes that possessed the qualifications to inherit the throne of the Emperor. On the other hand, these elders were the minister and dukes of the kingdom. If they fostered and roped in the Princes now, then once those Princes ascended the throne, the Princes would naturally bring boundless benefits to them.

Yun Ye’s natural talent was shocking, and natural phenomena descended at the time of his birth because he possessed the White Emperor’s Metal Eyes. He’d become a top figure amongst the Seed Disciples a long time ago, so there was naturally no lack of support from elders like Hua Kong by his side.

“Hmph! Wang Zhonghuan was at the critical moment of refining his Immortal Artifact and had forcefully paused the refinement, and it was even to the extent that he didn’t dare utilize his five times combat strength and Immortal Artifact, Exuberant Brahma Sword. Otherwise, Chen Xi would be utterly incapable of injuring him.” Yun Ye’s eyes flickered and were suffused with a cold platinum sheen as he sneered. “But I’m about to break through in a Grand Dao profundity in the near future. In another few

months of time, it would be sufficient for me to grasp the ability to multiply my combat strength by six times. Killing any one of them would be as easy as flipping my hand!”

“Haha, that’s for the best.” Hua Kong roared with laughter, and then he restrained his laughter and said, “You killed all the 18 Bandits of Darkness during the assignment you completed recently, and the higher-ups of the sect are extremely happy, and the rewards have already been announced, a total of 10 Immortal Pills, Clarity Jadeliquid Pills. Every single pill is exquisite and contains the purest Immortal Energy, and it possesses an unbelievable magical effect towards tempering the Blackhole World. There’s also a Quasi Immortal Artifact, Bright Dragonsoul Armor that possesses shocking defensive capabilities, and it’s capable of resisting the full forced strike of an Earthly Immortal Realm expert.”

“Good!” Yun Ye waved his hand and put away all the treasures. “I’ve completed many assignments recently, and I’ve obtained an enormous wealth. I’ll head over to the Ancient City of Emerald to exchange it for the Grand Dao Fragments left behind by the Primordial Heavenly Immortal, Jadelight the unfettered. After I absorb all of them, it would be sufficient for my Grand Dao of Jade to attain the Perfection Realm and completely attain six times my combat strength!”

...

“The Wings of Disruption! I never imagined that a qi refiner like Chen Xi actually possessed such a shocking Divine Ability. Junior Brother Xia Yi, you were right, this kid really is a formidable figure that can’t be underestimated.” Within another abode, a young man with a robust figure and boorish appearance expressed his wonder. “There’re only over 20 Seed Disciples on our Divine Radiance Peak that’re on the path of the School of Fiendgod Body Refinement. If Chen Xi’s body refinement cultivation is similarly formidable to his qi refinement cultivation, then it would be sufficient for him to be ranked in the top five amongst these 20 plus people.”

His forehead was wide and bones were thick. Even though he sat cross-legged on the ground, he emanated an aura that was like a dragon coiled up there, and he was like a marquis that had expanded the territory of the Emperor and controlled the world, causing him to give others a strong oppressive feeling.

There were a few more Seed Disciples sitting cross-legged by this young man’s side, and all of them possessed extremely strong auras.

The number one Elite Disciple from the South Radiance Peak, Xia Yi, was shockingly amongst them. Just like Chen Xi, he’d already been ranked amongst the Seed Disciples now.

“Ranked in the top five amongst us body refiner Seed Disciples?” A Seed Disciple spoke with disbelief. “Senior Brother Ning Zhen, aren’t you slightly overestimating this person?”

“Yeah. This kid’s qi refinement cultivation is extraordinary indeed. But if you say his body refinement cultivation is so formidable as well, then wouldn’t it be too unbelievable?” The others spoke out successively as well.

The boorish young man called Ning Zhen said with a smile, “All of you should ask Junior Brother Xia Yi and you’ll know how terrifying this kid is.”

“Junior Brother Chen Xi is extremely formidable indeed. Even though his body refinement cultivation is only at the perfection-stage of the Rebirth Realm now, all the Divine Abilities he has mastered are rare ultimate techniques that have shocked the ages.” Xia Yi’s expression was cold as usual even when being stared at by everyone, and he went silent for a moment before he said slowly, “If it’s once his body refinement cultivation advances to the Nether Transformation Realm, then not to mention being ranked in the top five, he would even have the qualifications to challenge Senior Brother Chang Le who’s ranked first.”

Instantly, everyone present went silent as their hearts surged without end.

There was a total of 109 Seed Disciples on Divine Radiance Peak, and there were 20 plus body refiners amongst them. Most of them were from the South Radiance Peak.

Amongst these 20 plus body refiners, all those that were capable of being ranked in the top five were top figures amongst all the Seed Disciples on Divine Radiance Peak, and they possessed extraordinary strengths and brilliant accomplishments in battle.

For example, Ning Zhen before them was an existence that was ranked the third amongst the body refiner Seed Disciples, and his strength was utterly not inferior to Wang Zhonghuan, Yun Ye, and the other top figures.

As for ‘Senior Brother Chang Le’ that Xia Yi mentioned, he was a legendary figure that wasn’t just ranked the first amongst body refiner Seed Disciples, he was a famous existence amongst the 109 Seed Disciples in the entire Divine Radiance Peak as well.

Now, Xia Yi had actually said that when Chen Xi’s body refinement cultivation advanced to the Nether Transformation Realm, Chen Xi would have the qualification to challenge ‘Senior Brother Chang Le,’ so how could they not be shocked?

Even Ning Zhen was shocked in his heart when he heard this. My appraisal of Chen Xi can already be considered to be extremely high, yet never had I imagined that Xia Yi’s appraisal would be even higher than mine!

“No matter what, this kid is already an existence that can’t be overlooked on Divine Radiance Peak. Unless there’s no other alternatives, the disciples of our South Radiance Peak shouldn’t make enemies of him in the future.” After pondering for a short moment, Ning Zhen spoke out abruptly. “Besides that, Junior Brother Xia Yi, you can go make contact with Chen Xi in secret. If you’re able to pull him over to our side, then it couldn’t be any better.”

Xia Yi was stunned, and then he nodded in the end.

...

Black Phoenix Spirit Vein.

This was one of the spirit veins with the highest quality on Divine Radiance Peak, and there was only a single abode here that was occupied by the female disciple of the North Radiance Peak, Luo Qianrong.

“Not bad, not bad. Chen Xi’s strength is really formidable to the point of exceeding my expectations.” Luo Qianrong wore a large dress while her disheveled jet black hair hung down loosely as she lay lazily

on her bed like a lazy kitten, and her cherry lips were like flower petals that opened and closed. Her voice carried a trace of a unique magnetism that carried an unusual charm.

On the other side, An Wei sat quietly on a meditation cushion. Her waist was slim and slender, whereas her classical and gorgeous face carried a trace of surprise at this moment.

She'd seen the entire battle between Chen Xi and Wang Zhonghuan earlier, and she felt Chen Xi was even more unfathomable in her heart. She knew that even if it was her, it would probably be difficult to accomplish what Chen Xi had.

"Even I never imagined that this disciple Martial Uncle Liu brought back would actually be so monstrous. Since he entered the sect until now, he has carried out countless deeds that have shocked the sect." An Wei's red lips opened lightly as she said slowly, "I originally thought he would require the assistance of me and my younger sister after Martial Uncle Liu left in order to avoid being bullied and humiliated. But now it would seem like it was me who was thinking too much, and he's already entirely capable of relying on his own strength to open up a world of his own."

"This is a true genius that's bestowed by the heavens. No matter where he goes, he's able to create a legend of his own, lead an era, and shock the entire world." Luo Qianrong's clear eyes spun, and it was unknown what she'd thought of as she sighed endlessly with emotion in a light voice. "Chen Xi, Long Zhenbei, Yun Ye, Chang Le, Wang Zhonghuan... Haha, there're many peerless figures amongst all of us Seed Disciples. But this is only in our Nine Radiance Sword Sect. If it's in the entire Dark Reverie, then I wonder if they'll be able to outshine and crush all others."

"Perhaps the outcome will be known during the gathering of the immortal path that's being held not too long from now. At that time, the top Seed Disciples of the 10 great immortal sects would participate, and the difference in strength would be absolutely clear." An Wei's eyes that were clear like a lake couldn't help but be suffused with a wisp of yearning that couldn't be restrained when she mentioned the gathering of the immortal path.

The gathering of the immortal path was a supreme gathering between the Seed Disciples of the 10 great immortal sects! Only the topmost Seed Disciples had the qualifications to participate.

This grand gathering represented the highest level competition in the entire Dark Reverie, and every time it was carried out, it would be the focus of the entire cultivation world of the Dark Reverie.

After all, it was held by the extraordinary powers like the 10 great immortal sects, whereas all the participants were top and peerless figures in the world, and they could be considered as top-notch figures amongst their peers.

In the past years, practically all those kings, sages, almighty figures, and wisemen that shocked the three dimensions had participated in this grand gathering that had been continuing until now for countless years.

It could be said that so long as those figures who were able to participate in this grand gathering of the immortal path didn't die prematurely, they would sooner or later mature into a great figure that shook the world!

“Exactly, only by participating in the gathering of the immortal path will we be able to know the extent of our ability.” Luo Qianrong sat up on her bed and tilted her head, and she seemed to be lost in thought. “But Junior Sister An Wei, if you want to participate in it, then your current strength is far insufficient.”

An Wei nodded, and then she said with a frank expression. “I feel the same way as you do. So I intend to leave the sect and go gain tempering and experience, and I’ll strive to improve my strength before the gathering.”

Luo Qianrong suddenly started laughing, and she seemed to have thought of something and said, “I know of a good place to go. Numerous disciples of the Immortal Sects have already rushed over. Do you want to participate in it as well and gain tempering?”

“Where?”

“The area of tundra in the extreme west, the Dark Parasol’s Abyss.” Luo Qianrong’s gaze burned as she spoke word by word.

“The Dark Parasol’s Abyss?” An Wei was slightly stunned, and then a wisp of shock couldn’t help but suffuse her beautiful face. “After almost 10,000 years, that place has actually opened up once again?”

Luo Qianrong nodded and said, “Exactly. I just obtained the news as well. If you want to go, then it’s best that you go with Chen Xi. He possesses the supreme Divine Ability that shocked the ages, the Eye of Divine Truth, and he’s able to see through reality and pry into boundless profundities. If you go with him, then perhaps you’ll be able to find the legendary...”

“Alright, I’ll do just that. I’ll go discuss this matter with Chen Xi right now.” Before Luo Qianrong could finish speaking, An Wei had already stood up, and she walked out decisively and without the slightest hesitation.

#### **Chapter 628: Grand Dao Fragments**

Within the abode, Chen Xi sat cross-legged on the ground while circulating his Blackhole World, and he instantly felt strands of vast spirit energy surge over and enter his Blackhole World before circulating within it without end.

His abode was established atop the Crimson Origin Spirit Vein, and it contained spirit energy and extremely pure Immortal Energy. At this moment, as soon as the energies surged into his Blackhole World, it instantly created a marvelous change in it.

The Immortal Energy enshrouded the Blackhole World and caused a myriad of Dao Insight energies that were like strands of gossamer to be formed before interweaving together, condensing, and fusing together, and then they dispersed into every single corner of the Blackhole World, causing the entire world to become even more vast and solid.

Occupying an abode on a top spirit veins in Divine Radiance Peak really is the best path of cultivating. Merely this pure and continuous Immortal Energy is utterly impossible to find in the outside world. Chen Xi instantly experienced the enormous benefits brought to him by this abode.

Under the tempering of Immortal Energy, strand after strand of veins that seemed profound and natural emerged on every single blade of grass and piece of wood within his Blackhole World, striations that were dense and complicated like talisman markings appeared on the rocks and stones, marks appeared in the sky, stars showed their trajectory, the earth revealed its geography...

Every single thing within the world had a circulating and moving feeling, causing the entire world to become even clearer and filled with rich color.

This sort of feeling was extremely wonderful. It was like he'd become the creator that had created a world within the chaos. Every single plant, rock, humanity, natural law, and everything in the world had to be created, constructed, and perfected by him. Moreover, this process was the process of improving his own cultivation because when this world was constructed to a perfect state, he wouldn't be far from breaking through to the next cultivation realm.

Chen Xi was immersed in his cultivation, and he circulated his Blackhole World and recuperated his True Essence, causing him to clearly sense his Blackhole World being strengthened step by step. Boundless Dao Insights were circulating within the world and tempering it, causing the entire world to become even more vast, grand, and magnificent.

But in next to no time, he had no choice but to stop.

Because he sensed that his Blackhole World had already attained its optimum state for now, and if he wanted to improve a step further, then he must advance his cultivation in Dao Insights!

Because only with the improvement of his Dao Insights would he be able to enlarge the scale of the Blackhole World by a step further and make it capable of containing even more True Essence.

I've grasped over 10 Dao Insights now, and all of them have already attained the Advanced Realm. Amongst them, only the Grand Dao of Lightning is only a step away from the 12th level to attain the Perfection Realm... Chen Xi deduced the level of his Dao Insights in his heart, and he noticed the five elements, Yin, Yang, star, wind, Paramita, Oblivion, and so on and so forth were lingering between the 9th level of the Advanced Realm and the 12th level of the Perfection Realm.

Only the Grand Dao of Lightning had attained the 11th level, and it was only a step away from attaining the Perfection Realm at the 12th level.

If he wanted to develop his Blackhole World, then Chen Xi had to attain the Perfection Realm in all these Dao Insights, because only in this way would he be capable of bringing forth multiplied combat strength as well.

For example, if Chen Xi is able to master the Grand Dao of Lightning to the Perfection Realm, then not only would he be able to expand his Blackhole World, he could rely on Dao Arts to execute two times his combat strength.

Further and further, the most Perfection Realm Grand Dao Insights he mastered, the more solid, condensed, and vast Chen Xi's Blackhole World would be, and his combat strength would multiply explosively.

Looks like I have to place emphasis on advancing my Dao comprehension realm during my future cultivation... Chen Xi muttered. He knew extremely well that Nether Transformation Realm cultivators fought on the basis of whether the other was capable of exerting multiplied combat strength.

For example, Wang Zhonghuan had grasped five Grand Dao Insights at the Perfection Realm, and he was already capable of executing five times his combat strength right now. If they were to merely compete in terms of combat strength, then the chances of Chen Xi defeating him was extremely tiny.

“Junior Brother Chen Xi, are you here?” Right at this moment, a cool and pleasing voice suddenly sounded out from outside the abode.

“Senior Sister An Wei? Quickly come in.” Chen Xi rose up and formed seals with his hands to open up the abode when he heard this, and he greeted An Wei.

An Wei was already the number one figure amongst the Elite Disciples even before becoming a Seed Disciple. She possessed a drop dead gorgeous appearance, an ethereal, pure, and beautiful bearing, and it caused her to seem like a celestial maiden that had descended from the Moon Palace.

A genius that received the love and support of countless young geniuses had actually come to pay him a visit now, and it caused Chen Xi to be slightly shocked and surprised.

“I never imagined that Junior Brother Chen Xi actually injured Wang Zhonghuan. You’ve really broadened my horizons.” An Wei walked in with graceful steps and slightly sized up Chen Xi’s abode before her starry eyes descended onto Chen Xi as she spoke with a smile on her face.

“I was just lucky.” Chen Xi smiled as well, and he was slightly unable to figure out the reason An Wei had come.

“Junior Brother Chen Xi, there’s no need to be humble. I saw the battle between you and Wang Zhonghuan from the beginning until the end, and even I might not be able to compete with you with your current strength.” An Wei combed the jet black hair behind her ear as she spoke with a light voice, and she didn’t conceal her admiration towards him.

Might not be able to compete with me? Chen Xi thought in his heart upon hearing this. An Wei had spoke in a relaxed tone and was clearly speaking courteously. Obviously, An Wei surely had some special abilities that made her feel she was still capable of countering Chen Xi, and that was the reason she was so relaxed. Otherwise, if it was another person, the person’s tone would surely carry envy within it.

But Chen Xi possessed a secret trump card like the tiny cauldron, and it was so formidable that it wasn’t something anyone could compare to.

“Junior Brother Chen Xi, I came to look for you today because I have something to discuss with you...” Right when Chen Xi was pondering in his heart, An Wei had already spoken slowly and revealed the reason for her arrival.

“The area of tundra in the extreme west, the Dark Parasol’s Abyss?” Chen Xi couldn’t help but be stunned upon hearing the reason for An Wei’s arrival, and then he recalled the records in the Dark Reverie Manual. According to rumor, the Dark Parasol’s Abyss was a restricted area that contained numerous dangers and was filled with killing intent with every step, and even great figures of the immortal and devil sects didn’t dare enter it rashly.

There was also a rumor that said the Dark Parasol's Abyss was formed from a towering divine tree of the primeval times. This tree converged the brands of the Grand Daos of the world, and every single branch and leaf on it contained the marks of the Heaven Dao. It was so tall that it led directly to the Immortal Dimension, and it was an extraordinary and miraculous bridge that linked up the Mortal Dimension and the Immortal Dimension.

Later on, after experiencing a calamity that affected the three dimensions, this tree was destroyed, whereas its roots that were coiled up on the Tournine Mountain at the extreme west and the fragments from its destruction formed the current Dark Parasol's Abyss.

During the boundless annals of time, there were numerous great figures that had explored it and obtained extremely great fortune that allowed them to soar into the heavens. But comparatively speaking, most of the people that explored it had completely vanished within.

During the Primordial Era, there were even some sages that shook the three dimensions who'd entered there, and they never came back. These incidents shook the world all those years ago, and it caused the name, the Dark Parasol's Abyss, to become a taboo that caused the expressions of all to turn pale upon mentioning it.

"Exactly, the Dark Parasol's Abyss. Even though it's a restricted area, yet the Heaven Dao always leaves a chance for survival. Presently, this chance for survival has already appeared once more. So long as we grab onto it tightly, then perhaps we'll be able to obtain unimaginable benefits." An Wei spoke slowly with a pleasant voice. "Presently, the news of the Dark Parasol's Abyss emerging once more into the world has already been spread far and wide, and numerous young experts from the Immortal Sects, Devil Sects, and clans from the Primordial Era have already chosen it as the place for them to temper themselves, and they intend to grab onto this opportunity bestowed by the heavens. I've come to look for you because I want to go temper myself there with you."

"Why me?" Chen Xi was slightly overwhelmed by the sudden favor as he never imagined that a genius like An Wei would actually choose him as a companion to go temper herself.

An Wei said with a smile, "To be honest, your Divine Ability, the Eye of Divine Truth, is capable of seeing through some of the profundities within the Dark Parasol's Abyss, whereas I've obtained some information related to it from Senior Sister Luo. If we join forces, then we'll entirely be capable of finding some fortune."

"So that's how it is." Chen Xi came to a sudden understanding, and he understood that it turned out that An Wei had chosen him because of the Divine Ability he possessed.

"Junior Brother Chen Xi, don't misunderstand. Actually, even if you don't possess the Eye of Divine Truth, I would still invite you to head there to gain tempering with me. After all, I and my younger sister owe Martial Uncle Liu too many favors, and he instructed us to take care of you before he left. So I naturally wouldn't take you as an outsider." An Wei possessed a pure heart and was able to instantly see through Chen Xi's thoughts, and she explained right away with a light voice. "I noticed that you've advanced to the Nether Transformation Realm and want to improve your cultivation, and you probably have to start from improving your comprehension in Dao Insights. According to my knowledge, there's an extremely miraculous Door of Profundity within the Dark Parasol's Abyss, and within that door is

numerous Grand Dao Fragments. So long as you're able to obtain a few, you'll be completely capable of attaining the Perfection Realm in a Grand Dao Insight within an extremely short period of time."

"The Door of Profundity! Grand Dao Fragments!?" Chen Xi was shocked in his heart, and a wisp of a piercingly cold bright light couldn't help but flash in his eyes. Merely hearing its name allowed him to know that this treasure was exceedingly extraordinary.

"Alright, I'll agree and go along with Senior Sister An Wei." Chen Xi pondered for a short moment before agreeing.

Just like An Wei had said, he wanted to increase his strength now, and he could only start with improving his comprehension of Dao Insights, whereas the Dark Parasol's Abyss actually possessed such divine treasures like Grand Dao Fragments, so how could he let this opportunity slip by?

"Alright, then let's set out right now." An Wei said with a serious expression, "There's no time to be lost in this matter. I heard from Senior Sister Luo that the disciples of some powers have already started rushing overnight to the Dark Parasol's Abyss, and the best treasures will probably be seized by others if we're late."

Both of them left Divine Radiance Peak right away and flashed towards the entrance of the sect.

The Dark Parasol's Abyss was situated in the tundra area in the extreme west of the Dark Reverie and at the side of the Townine Mountain, and it was extremely far away from the Nine Radiance Sword Sect. They chose to set out via the teleportation formations of the sect and arrived at an ancient city within the tundra area in the extreme west called the Ancient City of Icesky before rushing towards the Townine Mountain.

However, right when both of them had just arrived at the teleportation formations of the sect, they saw a tall and handsome young man that wore a bright yellow battle robe standing before the teleportation formation, and his eyes couldn't help but light up when he saw An Wei make an appearance and said with a smile on his face, "Junior Sister An Wei, are both of you heading to the Dark Parasol's Abyss as well?"

This young man had his hands behind his back, and he had a graceful bearing. Even though he was speaking with a smile on his face, yet he possessed monstrous arrogance between his eyes, and it caused him to seem even more extraordinary.

"Senior Brother Long?" An Wei was slightly stunned and seemed to have never imagined that she would actually encounter this young man here, and her beautiful and classical face couldn't help but be suffused with a wisp of surprise.

#### **Chapter 629: The Domain of Ice**

Senior Brother Long? Chen Xi thought in his heart. This person is probably that Long Zhenbei. Supposedly, he's from the Serpent Dragon Clan, possesses an extremely formidable strength, and is a well-renowned and great figure amongst the Seed Disciples.

When he thought up to here, his state of mind was naturally different when he looked once more at this young man in a bright yellow battle robe that possessed a monstrous imposing aura. Because according to his knowledge, even such a ferocious figure like Wang Zhonghuan could only fight this person equally!

After all, Wang Zhonghuan possessed the ability to multiply his combat strength by five times and an Immortal Artifact, yet even he was unable to do anything to Long Zhenbei, so the latter's strength was obvious.

Moreover, Long Zhenbei had cultivated the Innate Dao Art of the Serpent Dragon Clan, the Serpent Dragon's Spiriteyes, and it was even more formidable than the White Emperor's Metal Eyes that Yun Ye possessed.

"Haha. Junior Sister An actually still remembers me, I'm truly overwhelmed by this unexpected favor." Long Zhenbei roared with laughter, and his bearing was rather heroic.

He was tall, handsome, and full of spirit, and he was absolutely that type of remarkable man that drew the favor of countless young women and possessed a unique manly charm.

"Senior Brother Long is too kind." An Wei had recovered her calm at this moment, and her expression was calm as water as she said with a light voice, "Could it be that Senior Brother Long is heading to the Dark Parasol's Abyss as well?"

"Exactly." Long Zhenbei nodded while staring at An Wei with a burning gaze, and he didn't conceal his burning admiration of her in the slightest. "The Dark Parasol's Abyss has opened up once again after 10,000 years, and this matter shook the world a long time ago. I just happened to have cultivated to a bottleneck now, so I intend to gain tempering in the outside world, and perhaps it will be able to assist me in breaking through in my Dao Insight comprehension and grasp the ability to exert six times my combat strength!"

Six times combat strength? Chen Xi's eyes narrowed slightly when he heard this, and then it recovered to its previous state.

"With Senior Brother Long's natural talent, you'll surely be able to obtain success and achieve a new height during this trip," said An Wei with a smile.

"Haha, thank you for your blessings." Long Zhenbei roared with laughter, and then he said, "Let's go. Since Junior Sister An intends to head to the Dark Parasol's Abyss to gain tempering as well, then we just happen to be going in the same direction, and I'm willing to play the role of the escort of a beauty, open the way, and protect Junior Sister An."

It might have been intentional, but from the beginning until the end, Long Zhenbei hadn't spared a glance at Chen Xi, and it seemed that besides An Wei, there wasn't a single person that was capable of drawing his attention.

Of course, this sort of 'cold' treatment wouldn't make Chen Xi inwardly angry. After all, it was the first time he'd met Long Zhenbei, and since Long Zhenbei intentionally put forward such an arrogant bearing, he was happy to be at leisure.

"Senior Brother Long, this is Chen Xi. He's a new Seed Disciple with fairly extraordinary strength, and he'll be heading to the Dark Parasol's Abyss to gain tempering along with me." An Wei noticed as well

that the conversation between her and Long Zhenbei had slightly neglected Chen Xi, and she introduced him right away. "Chen Xi, this is Senior Brother Long Zhenbei, and he's a top expert amongst us Seed Disciples."

"Oh?" Long Zhenbei frowned when An Wei dragged the topic of conversation onto Chen Xi, and then his brows eased up. Only now did he place his gaze onto Chen Xi and slightly size Chen Xi up before withdrawing his gaze, and then he nodded at An Wei with a smile. "Since he's a companion of Junior Sister An Wei's, then he's one of our own. It's already late, so let's set out."

His voice was casual and imperceptibly revealed a slightly unconcerned feeling, and it seemed that if it wasn't because An Wei introduced Chen Xi, he couldn't be bothered to pay attention to Chen Xi in the slightest.

An Wei was intelligent, so how could she have possibly been unable to discern the perfunctory in these words, and she laughed bitterly towards Chen Xi before she said via voice transmission, "Senior Brother Long possesses a lofty and unyielding character, and it's difficult for ordinary people to enter his eyes. Junior Brother Chen Xi, just endure it a bit because it ought to be much safer when we head to the Dark Parasol's Abyss with him joining us."

Chen Xi smiled as well and displayed that he didn't mind, yet he said in his heart, A lofty and unyielding character? He obviously feels his strength is formidable and is just being arrogant and conceited.

Chen Xi had seen countless figures that were like this during these past few years, so he naturally couldn't be bother to fuss about it.

Om!

The three of them had just entered the teleportation formation when a divine light flashed, and they instantly vanished before the entrance to the Nine Radiance Sword Sect.

...

"Master, Chen Xi has left."

"Oh? Have you found out where he's heading?"

"It ought to be the Dark Parasol's Abyss, and Long Zhenbei and An Wei are travelling along with him."

"Long Zhenbei and An Wei? That is slightly troublesome. One of them is a peerless monster of the Serpent Dragon Clan, whereas the other is a genius that deeply receives the favor of the higher-ups. Exactly what ability does this kid Chen Xi possess to actually be able to join them...?"

"Master, then what should we do?"

"Forget it. We'll act according to the initial plan and pass news of this to the Nether Spring Devil Sect. I believe that the Nether Spring Devil Sect will surely be extremely interested with the Grand Dao profundities of the Paramita and Oblivion Grand Daos."

"Then... Should the Heavenflow Dao Sect be notified as well?"

"You go on ahead. I'll personally deal with the Heavenflow Dao Sect."

“Yes!”

East Radiance Peak, within the extremely grand Starvault Pavilion, the Peak Master of East Radiance Peak, Yue Chi, send away a loyal disciple of his before returning to his seat and closing his eyes before entering into deep contemplation.

Paramita, Oblivion... I wonder if this kid has grasped the Grand Dao of Terminus or not. But, since he's able to grasp the Grand Daos of Paramita and Oblivion, it's surely related to the Netherworld Emperor that roamed freely throughout the three dimensions during the Primordial Era... After a long time, Yue Chi opened his eyes and muttered. Nevermind, I'll leave this matter to be handled by the Nether Spring Devil Sect. After I use them to kill Chen Xi, if they really obtain clues to obtain the Grand Dao of Terminus from that kid, it wouldn't be late for me to make a move then...

Haha, Chen Xi, oh, Chen Xi. You probably would have utterly never imagined what sort of dangers you'll encounter when going out from the sect this time. But it can't be helped, who ask you to offend me so thoroughly that day? You can only blame yourself for being too stupid! Yue Chi's gloomy and low muttering drifted within the empty pavilion, whereas Yue Chi himself sat upright within the shadows and seemed to be even more ghastly and terrifying. He wasn't like a figure from the immortal path, but seemed like a true member of the Devil Sect.

...

Icesky City, an ancient city that stood within the tundra area at the extreme west, and it was extremely ancient and had existed for countless years until now, causing it to emit a heavy feeling of age.

This city occupied a vast area and was covered completely by snow and ice. It was even to the extent that the streets and houses within the city were constructed with ice, causing them to be glossy like glass and emanating coldness.

Pure white snow sealed a boundless expanse in ice, and this city was truly a city of ice.

“Wasn't the Dark Parasol's Abyss supposed to have already emerged into the world? Why can't we find the location of the Townine Mountain? Could it be that the Dark Parasol's Abyss is only a legend, otherwise why can't anyone find the path to enter it?” On the streets made from ice, some heroic and exuberant young experts were filled with doubt. They were from the various areas of the Dark Reverie and had entered this ancient city of icy for a period of time, yet they were unable to find the path to enter the Townine Mountain in the end.

“You can't say that. The Townine Mountain was a divine mountain during the primeval times and was filled with mystery, and it was the place gods resided and cultivated in. Unless such a divine mountain emerged by itself, otherwise we're utterly incapable of finding it.”

“Indeed. Only by waiting for the Townine Mountain to appear will we be able to find the path to enter the Dark Parasol's Abyss. Relax yourself and wait. Since the news has already been spread, perhaps the Townine Mountain will appear not too long from now.”

Some people deeply believed that the Townine Mountain would surely appear, and it was only a matter of time, whereas as long as the Townine Mountain appeared, they would be able to find the path to enter the Dark Parasol's Abyss.

Streams of people moved endlessly up and down the streets. This grand and ancient city of ice was a unique city here, and it was extremely prosperous. It possessed an innumerable population, causing it to be bustling, clamorous, and filled with people.

Accompanying the world shocking news of the Dark Parasol's Abyss being about to appear, this city had become even more bustling, and there were experts gushing in here from all over every single day.

The Immortal Sects, Devil Sects, and the various clans... All of them came in throngs. Some living beings that seemed like demons yet weren't demons, seemed like ghosts yet weren't ghosts, and were rare natural born spirits had appeared in this ancient city as well.

When Chen Xi, An Wei, and Long Zhenbei arrived at Icesky City, they saw numerous races with strange appearances that they'd never seen before, but all of them had extremely formidable auras that caused others to pay attention to them.

"There're so many experts," said Chen Xi with surprise.

He swept the surroundings with his gaze and noticed that there was no lack of formidable figures within the crowd, and it was even to the extent that the imposing aura of some experts were even on par with existences like Wang Zhonghuan.

But there were very few experts like this. Amongst the hundred plus people here, only a mere one or two were like this. However, even if it was like this, it was already sufficiently shocking. After all, even if it was within an extraordinary power like the Nine Radiance Sword Sect, there was only a small portion of ferocious figures like Wang Zhonghuan.

Presently, such a figure could be casually encountered on the streets of Icesky City, so it was obvious how many experts from the entire Dark Reverie had been drawn over by the appearance of the Dark Parasol's Abyss this time.

"The Dark Parasol's Abyss has appeared once more after 10,000 years, so it has naturally drawn the interest of the experts from all around. According to my knowledge, some formidable and outstanding disciples of the ten great immortal sects, the six lineages of the devil sects, and the clans from the Primordial Era have rushed over, and they've taken the Dark Parasol's Abyss to be a place to obtain tempering." An Wei spoke with a relaxed tone. "Fortunately, we aren't late, and the Townine Mountain haven't appeared yet, so we've avoided others being ahead of us."

"Would experts at the Earthly Immortal Realm interfere?" asked Chen Xi.

"Don't worry, according to my knowledge, the three dimensions are about to undergo an upheaval, and all the Earthly Immortal Realm experts in the Dark Reverie are worried for their own safety. Most of them have chosen to enter closed door cultivation. So we Nether Transformation Realm cultivators are already peak existences within Icesky City, and we have entirely no reason to be worried." An Wei explained in a light voice.

"That's for the best." Chen Xi heaved a sigh of relief in his heart. If Earthly Immortal Realm experts were to participate in this, then how could all of the Nether Transformation Realm cultivators obtain any benefits? It would even be difficult for them to get scraps.

“Let’s go. We’ll head to Ice Cloud Pavilion first. The disciples of the various extraordinary powers have probably already gathered there, so let’s go over there as well and find out the actual situation. Let’s see exactly which formidable figure is entering the Dark Parasol’s Abyss this time and prepare countermeasures beforehand.” The nearby Long Zhenbei pointed towards the distance as he spoke.

Shockingly, there was a completely translucent pavilion of ice that stood towering into the sky there, and it was suffused with a misty sheen under the sunlight, causing it to be extremely striking.

### Talisman Emperor

#### **Chapter 630: Icesoul Divine Tree**

The pavilion called Ice Cloud Pavilion stood towering in the distance within the city, and it was like a snow white sword that was connected with the sky, and it was alone, cold, and striking to the extreme.

However, most shocking of it all was that there was a matchlessly enormous ancient tree that towered into the clouds standing by the side of Ice Cloud Pavilion. Originally, the Ice Cloud Pavilion was already sufficiently tall, yet it seemed to be slightly short before that enormous tree instead.

This ancient tree seemed as if it was completely formed from ice crystals, and frost curled up from it. No matter if it was the branches or the leaves, everything seemed like icy jade stone. The crown of the tree towered into the sky, and one was actually unable to see exactly how tall the tree was because it seemed as if it had already stretched out beyond the nine heavens and towered into the boundless universe.

“What tree is this?” Chen Xi spoke out with surprise while on the way. This ancient tree was truly too magnificent. Even its trunk required a few tens of people to wrap their arms around it, and it was even more majestic and imposing than a mountain, causing it to be especially dazzling while it stood within the city.

“This is the Icesoul Divine Tree, and its existence can be traced back to the establishment of Icesky City an extremely long time ago. Supposedly, this divine tree was formed from a leaf of the Dark Parasol Divine Tree during the primeval times.” An Wei explained in a light voice.

Formed from a leaf of the Dark Parasol Divine Tree?

Chen Xi had a deep gaze when he heard this. This is too shocking! A single leaf was capable of growing into an ancient tree that towers into the sky, then how miraculous is the true Dark Parasol Divine Tree?

Supposedly, that Dark Parasol Divine Tree was a bridge that linked up the Mortal Dimension with the Immortal Dimension during the primeval times, and it was branded with the profundities of the Grand Daos of the world, causing it to be blazing with brilliance and practically eternal.

Later on, after experiencing a calamity that involved the three dimensions, it vanished within the world, whereas its roots that remained coiled up on Townine Mountain and the fragments that remained after it perished had transformed into the current Dark Parasol’s Abyss.

This Icesoul Divine Tree is actually formed from a leaf of the Dark Parasol Divine Tree. If the truth really is so, then it’s truly too shocking, and it’s absolutely an existence that’s a precious treasure of the heavens and the earth.

“But, logically speaking, once such a divine object like this appears, it would have probably been seized away by great figures. How could it still be standing here and not been obtained by someone?” Chen Xi asked An Wei because he was extremely interested in this, and his intuition told him that this Icesoul Divine Tree was exceedingly extraordinary.

“What a joke! How could it possibly be taken away by another? This tree is the foundation of Icesky City. Every single time the Dark Parasol’s Abyss is about to appear, this tree would emanate strands of a tune of the Grand Dao to remind everyone in the world that the Dark Parasol’s Abyss is about to emerge into the world.”

“Moreover, this time, it was precisely because this tree suddenly emanated the sound of the Grand Dao seven days ago that the experts from all over were drawn over with the intention of entering the Dark Parasol’s Abyss to seek fortune.”

“In other words, without this tree, everyone in the world would be utterly incapable of finding the existence of the Dark Parasol’s Abyss. Under these circumstances, who would dare to cause harm to it? If that were to happen, the person would surely be pursued by all the cultivators in the world, and no one is able to endure such consequences.”

The person that answered Chen Xi wasn’t An Wei, but the nearby Long Zhenbei. He seemed to extremely detest Chen Xi and An Wei whispering in discussion, and he spoke with a cold and indifferent tone that seemed slightly hostile.

But Chen Xi just laughed it off instead. He’d already obtained the answer which he sought, as for the changes in Long Zhenbei’s attitude towards him, he couldn’t be bothered about it.

“Actually, there’s also another rumor. But not many people believe it.” An Wei suddenly spoke to Chen Xi.

“Oh, what rumor?” This time, it wasn’t just Chen Xi, even Long Zhenbei was stunned and revealed a puzzled expression.

“During the primeval times, the gods fought for power while the sages fought for supremacy. It was an extremely brilliant age, and it was also a time of chaos. Moreover, the division of powers within the three dimensions had only just taken form at that time...”

“The existence of the Dark Parasol Divine Tree was like a bridge that linked up the Immortal Dimension and the Mortal Dimension. It innately possessed a body of the Dao and grasped the energy of creation, causing it to surpass all the living beings in the world.”

“However, when that calamity that affected the three dimensions arrives, even it was unable to surmount this calamity with its extremely high ability. So it joined forces with another supreme being and seized a trace of an opportunity to survive. Even though its body had perished, yet a trace of its soul survived in the end.”

“Moreover, this strand of soul is concealed within the Icesoul Divine Tree, and it’s waiting for an opportunity to be reborn.”

“What!?” Long Zhenbei was practically stunned when he heard this because it would be too terrifying if it was true.

Just think about it. It was the soul of a divine tree of the primeval times that had once linked up the Immortal Dimension with the Mortal Dimension. Even though it was only a strand, it would probably cause the gods of the three dimensions to go mad if it really did exist!

Chen Xi was greatly shocked in his heart as well. This rumor was too shocking, and it caused him to practically not dare believe it. After all, the primeval times were already an innumerable amount of years ago, and if the strand of soul of the Dark Parasol Divine Tree still existed, then it would simply be a true miracle and be eternal!

“Of course, this is only a rumor, and I saw it from an ancient book as well. No one is able to confirm if it’s true or not,” said An Wei with a light smile.

“Didn’t you say the Dark Parasol Divine Tree joined forces with a supreme being to obtain a trace of an opportunity to survive and preserve a strand of its soul? What sort of existence was that supreme being?” Even though it was only a rumor, Chen Xi still couldn’t refrain from asking curiously. He faintly felt that even if this rumor was fake, there was no harm in a listening a bit more about it because if it was true, then perhaps it might be of use in the future.

“I don’t know.” An Wei shrugged.

“Let’s go, we’ve arrived at Ice Cloud Pavilion.” Long Zhenbei spoke abruptly.

Chen Xi raised his eyes to look over. Sure enough, he saw the Ice Cloud Pavilion that towered into the sky was already right before his eyes.

The Icesoul Divine Tree was right beside this pavilion, and it could be seen for afar. There were actually numerous figures sitting cross-legged on the branches extremely high above on the Icesoul Divine Tree, and they seemed to be cultivating.

“Moreover, not to mention those rumors, this Icesoul Divine Tree is extremely miraculous indeed. It’s completely formed of ice crystals, and its striations and veins contain copious amounts of the aura of the Grand Dao of Water. If one meditates and comprehends on this tree, it’s extremely easy to grasp the profundities of the Grand Dao of Water.” An Wei said with a light voice from the side, “It’s precisely because of this that this Icesoul Divine Tree has become a natural platform to comprehend the Dao in Icesky City. Every single year, countless young people are attracted here because of the Icesoul Divine Tree’s reputation, and they more or less obtained some gains from comprehending the profundities of the Grand Dao here.”

“It really is miraculous and unfathomable. If I didn’t come out to gain tempering, I would have never imagined that such a wonderful thing actually exists in the heavens and the earth.” Chen Xi nodded as he sighed with admiration, and he had the slight impulse in his heart to ascend this Icesoul Divine Tree to explore it thoroughly.

“Junior Sister An, let’s go up the pavilion. We’ll similarly be able to sense the various auras emitted by this divine tree while sitting at the upper floors of Ice Cloud Pavilion. Moreover, we’ll be able to obtain even more information and see even more experts that’ve come from all over. It can be said to be killing two birds with one stone.” Long Zhenbei smiled as he invited An Wei.

The three of them entered in succession right away.

...

The Ice Cloud Pavilion was tall to the point of towering into the sky, and it was exceedingly grand within as well. It emitted a crystalline sheen from every corner while its surroundings were coiled around by strands of clouds and mist, and no matter if it was layout or decoration, it seemed like an immortal paradise and was wonderful beyond words.

But the prices here were extremely high as well, and ordinary people were utterly unable to enter.

In other words, those that were capable of entering were naturally cultivators, and all of them possessed extraordinary identities. Otherwise, such high prices were sufficient to make ordinary cultivators shrink back at the sight of it.

In a way, along with the news of the imminent appearance of the Dark Parasol's Abyss was spread out, the place had already become the gathering place of the geniuses from the various powers of the Dark Reverie.

As a peerless and monstrous genius of the Serpent Dragon Clan and a top figure amongst the Seed Disciples of the Nine Radiance Sword Sect, Long Zhenbei's wealth was naturally abundant to the extreme. After he very casually paid a great fee to an attendant, the three of them directly went through a teleportation formation and arrived in the highest level of the Ice Cloud Pavilion.

The highest level on Ice Cloud Pavilion was an extremely vast hall that stood proudly in the clouds. Outside the handrails carved from jadestone was the luxuriant crown of the Icesoul Divine Tree that was like an umbrella that held up the sky, whereas there were numerous white clouds and the boundless skies in the extreme distance. The field of vision here was extremely vast.

At this moment, there were a few tens of men and women in luxurious clothes who possessed extraordinary bearings sitting upright there, and there was no lack of outstanding figures from both the Immortal and Devil Sects. Moreover, there were even numerous beings and descendants of the various races that possessed formidable auras present there.

"The Truth Embrace Sect's Daoist Crimson Sun, the Origin Convergence Dao Sect's Zhou Cailing, the Six Desire Devil Sect's Yu Wenta, the Blackwater Clan's Kong Qi... I never imagined that so many well known figures of the various powers in the Dark Reverie have actually come." An Wei swept everyone present in the pavilion with her gaze, and she quickly said via voice transmission, "Junior Brother Chen Xi, the figures here are all extraordinary, and they're the outstanding disciples fostered by the various powers. Looks like we have to be more careful when entering the Dark Parasol's Abyss this time, and there'll probably be no lack of conflicts and competition."

Chen Xi nodded. He's similarly noticed that the person with the weakest aura amongst everyone present here was even stronger than Leng Qiu and Du Xuan, whereas the person with the strongest aura was even comparable to Wang Zhonghuan and Long Zhenbei.

It could be said to be a large assembly of geniuses, and experts were concealed everywhere.

"But we don't have to worry about anything. As one of the 10 great immortal sects, in terms of background and status, our Nine Radiance Sword Sect is only greater than everyone present here." An Wei spoke in a low voice.

"I understand." Chen Xi smiled. After cultivating to the extent that he had, he would naturally not be afraid of anyone, and even if a conflict occurred, he was confident in dealing with it completely.

"Eh, the Nine Radiance Sword Sect's Senior Brother Long Zhenbei?"

"Long Zhenbei? The peerless and monstrous genius of the Serpent Dragon Clan?"

"It's actually him. Supposedly, he has already successfully cultivated his Innate Dao Art, the Serpent Dragon's Spiriteyes, and he's a top existence amongst the Seed Disciples of the Nine Radiance Sword Sect. Now that I've seen him, he really deserves his reputation."

The appearance of Chen Xi's group of three had similarly drawn the attention of everyone in the hall. Especially when they saw the person in the lead was Long Zhenbei, the scene went into a slight uproar.

Obviously, they recognized who Long Zhenbei was. After all, everyone present was an outstanding genius that had come from the various powers, yet they'd actually become slightly restless because of Long Zhenbei's appearance, and this obviously displayed how resounding his reputation was in the outside world.

"Big Sister An Wei, you've come as well?"

"An Wei? Isn't that one of the most outstanding disciples of the Nine Radiance Sword Sect? I heard that she's without equal amongst her peers and reigns supreme amongst them. I never imagined that even she'd be so drop dead gorgeous, and she can be said to possess unsurpassed beauty."

"Beautiful, truly too beautiful. I heard a long time ago that the Nine Radiance Sword Sect's An Wei's appearance is like that of a celestial maiden, and now that I've seen her, it really is true."

Some people had recognized Long Zhenbei while others had recognized An Wei. Most of the males' present couldn't help but be stunned and reveal a wisp of infatuation when they saw her beautiful and classical appearance, and her extremely slender and graceful figure.

Only Chen Xi that followed behind the two of them had become a figure that no one paid attention to instead, and he seemed to be rather inconspicuous.
