Chapter 791: Killing Successively

Huai Ming perished while the energy of sin within him was completely absorbed within Chen Xi's body, and after it was refined by the Netherworld Register, it was drawn into the cycle of reincarnation in the Netherworld.

At practically the exact same time, Goldlight of Virtue rained down within Chen Xi's Blackhole World, causing the entire world to seem even more peaceful, tranquil, and like an immortal paradise.

His cultivation of the Dao Heart rose along with this as well. The 'mysterious energy that came from his Dao Heart' seemed material, pure, translucent, and effused an ethereal and hazy golden light, and it was like a ball of mercury condensing within his heart.

But after the cultivation of his Heart Energy attained this step, it seemed to have encountered a barrier that was difficult to surmount, and it was unable to improve any longer, yet seemed to become more and more condensed.

It was like a cocoon was being formed within his heart, and it surged with a strange rhythm that seemed as if so long as the day the 'cocoon hatched into a butterfly,' his Dao Heart cultivation would undergo a qualitative transformation.

At this instant, in his daze, Chen Xi had the unique feeling that his heart could embrace anything in the universe.

The energy of the heart was the most mysterious!

Unlike True Essence, Shaman Energy, Immortal Energy, or any other form of energy, the Heart Energy was ethereal and imperceptible, and it was impossible to comprehend like the workings of the heavens. It was a unique energy that rarely possessed any cultivation techniques in the world, and it was even difficult for Heavenly Immortals to grasp it.

During the primeval times, there were great figures that had once sighed with emotion. "Amongst the 3,000 paths of the Grand Dao, only the Heart Energy is difficult to find."

"How audacious!" Huai Ming's death caused Priest Zi Yun's expression to be extraordinarily gloomy, and he shouted out fiercely while moving the Prime Blood God Flags to exert its most formidable might to blast fiercely onto Chen Xi.

Wu~ Wu~

The blood red flag fluttered while emitting the wails of ghosts and the howls of wolves, and it transformed this place into a blood ocean of purgatory. Chen Xi was actually unable to avoid it because this set of evil treasures had frozen the surrounding space into one, causing it to transform into a small world that enveloped him.

Everyone knew very well that during the primeval times, the Prime Blood God Flag had once killed countless extraordinary figures in the world, and it was truly all-powerful. Moreover, its might was so formidable that caused others to turn pale just from the mention of it.

However, no one had expected that Chen Xi would be calm and unafraid when facing this, and then he suddenly slashed out with his sword, causing talisman markings to surge and creation to be deduced as it actually went head on against the might of the blood red flags.

Bang!

A bang that shook the heavens resounded out as the Talisman Armament and Prime Blood God Flags collided, and it directly blasted the latter away!

Everyone was horrified and flabbergasted. This was simply like a miracle, the might of a single sword strike had actually blasted the Prime Blood God Flags back, and if it wasn't for them seeing it with their own two eyes, who would dare believe this?

Could it be that sword is an extremely formidable Immortal Artifact?

Some of them felt their hearts palpitate and faintly felt that even though Chen Xi's strength was formidable, the might revealed by this strike couldn't be done without the contribution of the sword in his hand.

Swoosh!

At the same time, Chen Xi's Creation Sword Qi was executed once more, and it slashed towards Priest Zi Yun with a terrifying aura while emanating dazzling light.

The expression of Priest Zi Yun had already changed repeatedly. He knew that Chen Xi was formidable, yet he never imagined that a little fellow at the Nether Transformation Realm would actually be able to go against the Prime Blood God Flags because as soon as this great weapon of slaughter was utilized, it was sufficient to annihilate an expert at the 5th level of the Earthly Immortal Realm!

Even though he thought like this in his heart, his movements weren't slow in the slightest, and he retreated explosively repeatedly while drawing out a surging bloody light that blocked this terrifying sword qi and caused an expanse of blazing light to erupt.

Swoosh!

Chen Xi wasn't surprised in the slightest when he saw this, and his Sword Qi swept out horizontally to slash at Bei Huang.

Bang!

An enormous bang that shook the heavens resounded out as it slashed apart Bei Huang's magic treasure and his right hand, and it terrified Bei Huang to the point his soul almost left his body.

Sword Qi whistled through the surroundings while Chen Xi seemed to meet no resistance!

At this moment, Chen Xi fully revealed a heaven defying strength that shouldn't be possessed by his cultivation realm, and even those great sinners at the Earthly Immortal Realm found it impossible to stop his footsteps.

“Kill!” Bei Huang roared furiously while a bloody glow shot into the sky from his body, and it transformed into a bloody wind of Immortal Energy that was completely crimson red as it enveloped the entire heavens and the earth.

However, he didn’t charge over but turned around and fled instead. Because he knew that even the Prime Blood God Flags were unable to kill Chen Xi, so it was undoubtedly impossible with his cultivation, and continuing the battle would only lead to his death.

Unfortunately, he was still a step too slow.

Chen Xi erupted, the Talisman Armament fused with his figure, causing him to seem like a divine sword that could hold up the heavens while he exerted the Creation Sword Insight to the limit and slashed down.

Pu!

The sword qi slashed down and split apart the screen of bloody radiance before slashing apart all of it, and then it cut off a head, causing scarlet red blood to spray out.

Another great sinner at the Earthly Immortal Realm had perished!

A rain of blood rained down and dyed the sky red. Everyone within the estate that witnessed this scene was shocked speechless and were unable to recover from their shock because this was the ‘slaughtering of immortals’ while surmounting the gap of a realm!

Even though it was only an Earthly Immortal, but Chen Xi’s ability to defy the heavens to such an extent with the might of the Nether Transformation Realm was sufficient to shock the world. If news of this were to be spread out, it would surely shock the world and give rise to a mighty uproar!

Chen Xi didn’t even spare a glance to all of this, and he just charged past Bei Huang’s corpse. Every single step he took caused a golden lotus platform to bloom in space, and he was like a king that moved on lotuses. His fierce aura became even sharper as he charged towards Chi Ya and Huang Jiao at the other side.

“You’re going too far!” Chen Xi’s counterattack that killed his companions caused Chi Ya’s expression to be exceedingly gloomy. He raised his hand and pointed out, causing an expanse of blood colored light to rain down while blood qi coiled through the entire sky, and it carried a might akin to a mountain pressing down as it enveloped Chen Xi.

“Old goat, do you have the right so speak such words!?” This short sentence of his revealed boundless killing intent. Even though his face was gorgeous, Chen Xi had a dignified air that emanated the pressure of a sovereign that had descended into the world, and then he slashed out with a raise of his hand.

Rumble!

An enormous mountain suddenly surged out into appearance above Chi Ya while the glow of blood shot into the sky. The rocks, plants, trees, and everything else in the mountain was formed from vengeful and evil spirits that rumbled with a savage, vicious, and fiendish aura.

This was his true body, a spirit mountain that had been tainted by the blood of a god, and after experiencing the tempering of countless years, his true body had already transformed into a magic treasure that was comparable to an Immortal Artifact.

As soon as it surged out into appearance, it actually went head on against Chen Xi's sword, but his entire body was blasted flying while he coughed out blood without end.

"Die!" On the other side, Lord Huang Jiao seized this opportunity strike. His fingers grew explosively as sharp and pitch black nails that were like 10 devilish weapons tore through space and grab fiercely at Chen Xi's head.

"Fuck off!" Chen Xi made a backhanded strike with his sword, causing Huang Jiao's entire body to be slashed flying like a kite that had its string cut off, and he was so weak before Chen Xi that it caused the scalps of everyone to go numb.

Clang!

In the next instant, Chen Xi charged once more towards Chi Ya. The Talisman Armament soared through the sky while it emitted a thick and large sword qi that shot into the sky, and it was lustrous, dazzling, sharp, and oppressive to the extreme. This was one of the most formidable Dao Arts he'd grasped up until now, and it was the Creation Sword Insight comprehended from the bone left behind by the Exalted Ant Emperor from the primeval times.

A single strike was capable of slashing down the stars!

This was the extraordinary technique possessed by the Exalted Ant Emperor, and it was the target Chen Xi worked hard towards – the ability to cut down the sun and moon and cause the stars to fall with a raise of his sword! This was the true bearing of a supreme exalted figure!

Hmm? Chi Ya's expression went grim. Even though he was at the 3rd level of the Earthly Immortal Realm, his strength far exceeded those that possessed a similar cultivation to him. Otherwise, how could he have possibly been invited over by Huai Ming and the others? However, Chen Xi's sword strike aroused a terrifying feeling of horror because this sword qi was too frightening. Not only did it deter the body, it even suppressed the soul.

He didn't dare hesitate in the slightest. The blood red mountain above him rumbled while the boundless bloody glow transformed into a myriad of wailing and miserable howls, and it descended down onto Chen Xi like a comet from outer space.

Bang!

Sword howls shook the surroundings. Under the astonished gazes of everyone present, Chen Xi's sword qi actually easily slashed the enormous mountain into two like tofu, whereas Chi Ya didn't have time to dodge and was slashed into two as well. A rain of blood flowed down while his soul was instantly obliterated by the sword qi!

Everyone was horrified to the limit. Another great sinner at the Earthly Immortal Realm has perished!

Chen Xi spirits were roused from this killing. The Wings of Disruption flapped swiftly, and he seemed like a wisp of flowing light that moved between the void and reality. He flickered repeatedly to avoid Priest Zi Yun's attack before directly appearing before Lord Huang Jiao and grabbing out.

Bang!

Lord Huang Jiao was terrified to the point his soul almost left his body when he saw Chi Ya perishing, and he didn't hesitate in the slightest to teleport with the intention of fleeing.

Unfortunately, his teleportation lost its effect under the gaze of Chen Xi's Eye of Divine Truth, and he was directly grabbed out from within space before he was directly annihilated with the raise and descent of the Talisman Armament.

Everyone present was unable to find a word to describe their current feelings, and they were shocked speechless because these were Earthly Immortal Realm experts with monstrous crimes and hands that were dyed red with blood.

But now, they were killed without discrimination by Chen Xi as if he was slaughtering chickens, and only Priest Zi Yun actually remained after less than 10 minutes passed!

Who could have imagined this would have happened?

Om!

At this moment, Priest Zi Yun's expression was livid to the extreme as it changed indeterminately. Everything that had occurred today was like an inconceivable nightmare that caused it to be difficult and almost impossible for him to accept.

He didn't dare hesitate as well, and he activated the Prime Blood God Flags with all his strength, causing them to erupt with their strongest might to blast down at Chen Xi. It was simply like he wanted to take Chen Xi down with him and not stop until one of them died.

Chen Xi slashed out repeatedly when he saw this, and he slashed from all eight directions with strikes that were branded with the profundity of 'Cage Etching.'

Instantly, the entire universe actually underwent a reversal, and it was confined by him instead!

This technique, Cage Etching, was passed down to him by the tiny cauldron, and when compared with the Grand Confinement Dao Arts, each of them had their own merits. At this moment, Chen Xi executed it with his entire strength, causing them to overlap with each other and exert an unimaginable effect.

At this moment, the Prime Blood God Flags were completely confined and trembled violently without end, but they were unable to escape the might of the 'Cage Etching.'

Swoosh!

A sword qi swept by, causing Priest Zi Yun to feel a chill run down his spine, and he was terrified to the point his soul almost left his body, causing him to turn around and flee. After he lost the Prime Blood God Flags, he was like a tiger without its teeth, so how could he dare fight Chen Xi head on?

However, this sword qi seemed as if it tore through space and arrive instantaneously before him, forcing him to have no choice but to withdraw a magic treasure before continuing to flee.

Crack!

The magic treasure in his hand was slashed into pieces while the sword qi was like a ray of light that swept towards him. Priest Zi Yun's entire body went cold and he exerted all his might to resist it.

Pu!

But in the end, he still lost an arm.

Everything happened in a blink of the eye. Chen Xi had successively killed Chi Ya and Huang Jiao before slashing off an arm from Priest Zi Yun, and he revealed peerless and all-powerful might. He was simply like a god than had descended down to roam the mortal world.

"Blood river transform into spirit, connect to the Netherworld!" However, right at this moment, Priest Zi Yun suddenly let out a stern shout that shook the heavens, and he was like a madman as the Blood Essence in his entire body actually surged violently into the Prime Blood God Flags.

Instantly, the Prime Blood God Flags that were confined suddenly started to tremble violently. Moreover, they emitted a shocking divine consciousness that was vast like an ocean, and then they struggled free of the confinement at the instant Chen Xi was heading to slaughter Priest Zi Yun!

"The will of a great figure has descended within the Prime Blood God Flags!" The two old servants by Baili Yan's side were terrified, and they exclaimed with shock in unison.

Talisman Emperor

Chapter 792: Forcing The Great Figure Back

The will of a great figure has descended within the Prime Blood God Flags! Baili Yan's expression suddenly turned grim when she heard this. Under these circumstances, an existence that was capable of causing his will to descend was absolutely an existence above the Heavenly Immortal Realm!

Everyone present acutely sensed that the imposing aura of the Prime Blood God Flags rose steadily and surged with a might that was 10 times more formidable than before. Merely its aura struck numerous cultivators to the point of fainting on the spot.

"Haha! I sacrificed 3,000 years of my lifespan to communicate with the spirit of the blood river in the Netherworld to draw support from the might of the true Prime Blood God Flag. Unless a Heavenly Immortal arrives here, all of you will have to die!" Priest Zi Yun howled with laughter while his hair hung loosely on his shoulder, and his countenance was ghastly pale as his eyes flickered with flames of madness. This sort of secret technique that consumed his lifespan caused him to suffer severe injuries, and it was even to the extent that it was already impossible for him to take another step forward in his path towards the Dao.

But at this moment, he couldn't care about anything else!

Chen Xi's display was too overbearing and too terrifying, and it caused him to sense a fatal threat. So if he still didn't execute this secret technique, then he was worried that he would perish here today.

Instead of that, wouldn't it be better to risk his life? He didn't stint to take himself down with Chen Xi!

What?

Draw support from the might of the true Prime Blood God Flag?!

Everyone felt their hearts twitch fiercely, and they were shocked to the point of almost suffocating. Isn't this sort of secret technique too terrifying? This is the Mortal Dimension, yet that Priest Zi Yun was actually able to link up with the might of the blood river in the Netherworld? This simply exceeded the imagination of all of them.

Chen Xi's face darkened as well, and he circulated his entire cultivation while mobilizing the Talisman Armament with the intention of enveloping Priest Zi Yun once more and using all his strength to crush Zi Yun.

Bang!

However, never had he expected that the Prime Blood God Flags would actually become terrifying to the extreme. Before he could even slash out with a strand of sword qi, it actually transformed into a screen of blood that covered the sky and swept his entire body into it.

Everyone present here became restless when they witnessed this scene, and they didn't dare believe that a young man with peerless divine might like Chen Xi would actually even lack the strength to resist it.

If Chen Xi were to perish, who amongst them would be a match for Priest Zi Yun? And their end would probably be...

Everyone didn't dare continue thinking about this, and they couldn't help but shudder with fear.

Priest Zi Yun roared endlessly with sharp laughter. "Little Brother, this is the consequence of going against me! No matter how extraordinary your natural talent is, or how heaven defying your strength is, you'll still die for sure after encountering me!"

He was extremely delighted. Even though he'd exhausted 3,000 years of his lifespan, being able to exchange it for the life of a heaven defying and monstrous genius like Chen Xi was enough!

At this moment, he was waiting for Chen Xi to be crushed before washing the estate with blood and seizing the treasure map to the Sky Dao Abandoned Mountain from Wen Tianshuo because if he was able to locate the treasure vault within the Sky Dao Abandoned Mountain, then its value would absolutely exceed the value of 3,000 years of his lifespan!

This was Priest Zi Yun's plan, and it was ruthless, decisive, and unscrupulous. Not only was he ruthless to his enemies, he was the same to himself. He was absolutely a desperate and ruthless figure, and one who didn't fear being cut into pieces dared to pierce apart the heavens!

Rumble!

A river of blood surged while savage and ruthless evil spirits and ferocious souls raged about. It was world that was like a hell of blood, and Chen Xi was restrained within it like a piece of duckweed floating on the clear ocean, pitifully insignificant.

He tried his best to struggle but was only barely able to defend himself, and he was utterly incapable of struggling free.

Because these Prime Blood God Flags contained the terrifying and monstrous will of a great figure, and it was like the Artifact Spirit of an Immortal Artifact and possessed a strength comparable to a true Heavenly Immortal!

“Kill!”

“Die!”

“What attractive aura of Blood Essence. I’ve already been hungry for over a thousand years, and I’m unbearably hungry and thirsty!

Numerous sharp cackles filled the air and tore at Chen Xi’s eardrums. The vengeful spirits within the blood river seemed like a formidable army that laughed savagely as they pounced at Chen Xi.

Even though these vengeful spirits were numerous, they weren’t much, and what caused Chen Xi to have a heavy feeling was that this expanse of space was filled with a terrifying pressure at all times.

This pressure caused the cultivation in his entire body to be suppressed, causing him to be like a surrounded beast, a prisoner in a cage, and even if he exerted all his strength to resist it, he was only able to exert less than 40% of his strength in the end!

This was absolutely a fatal restraint. Chen Xi knew that if he didn’t break out of this predicament right away, then he would probably be like an ordinary person that had fallen into the ocean, and he would be drowned gradually and have no chance of surviving.

Om!

In the end, he gritted his teeth and put the Talisman Armament away before holding the Netherworld Register in his left hand and the Condemn Evil brush in his right!

Ji Yu had once warned him that he must never utilize these two precious treasures from the Netherworld before his strength attained a level sufficient to resist the gods and devils of the world. But at this moment, he didn’t have any other choice.

Kill! Kill! Kill!

As soon as the Condemn Evil Brush that seemed like iron yet wasn’t iron, seemed like jade yet wasn’t jade, and was completely pitch black to the extreme appeared, countless icy cold and resolute shouts resounded and rumbled through the air. The aura of slaughter shot into the sky, and it intended to judge the world and annihilate all evil!

The Condemn Evil Brush managed life and death!

When the third Netherworld Emperor controlled the six paths of reincarnation, the Condemn Evil Brush had slaughtered countless gods and devil, and he’d done it for the sake of reconstructing the order in the three dimensions.

Its might caused all the gods in the three dimensions to feel threatened, and they had no choice but to move out jointly before being able to crush the Netherworld Empire.

At this moment, this supreme divine weapon from the Netherworld had fallen into Chen Xi's hands, and merely the energy of slaughter that gushed from it shook the Prime Blood God Flags to the point of trembling.

Swoosh! Swoosh! Chen Xi held the Condemn Evil Brush in his hand, and it formed a horizontal and vertical line that intersected together like a cross and emanated a terrifying force that caused one's heart to palpitate. The flat and clear lines seemed to slash apart the heavens, the earth, and man into black and white, form order between good and evil, and differentiate between pure and turbid!

It seemed as if it wanted to completely judge all the evil, spirits, and disaster in the world and blast them into the cycle of reincarnation!

Bang! Bang! Bang!

Everywhere it passed, the groups of evil and ferocious souls were like pieces of paper that were easily annihilated, whereas the surging and roaring river of blood was directly slashed into pieces, and it was severed into a myriad of pieces.

Its imposing aura seemed as if it was capable of sweeping through the entire world, and everywhere its tip passed, everything before it was judged!

At the same time, the thick Netherworld Register in Chen Xi's left hand suddenly flipped open by itself, and its pages swished while it emanated a deep, solemn, and vast energy of deliverance that was blazing and resplendent to the limit.

With his cultivation, he still felt a piercing pain when he relied on the Eye of Divine Truth, and he was actually unable to clearly see exactly what was written in the Netherworld Register!

But in next to no time, Chen Xi didn't have time to bother about all this. He clearly sensed that along with the Netherworld Register purifying the energy of sin within the group after group of vengeful and evil spirits, numerous Goldlights of Virtue swirled gracefully into appearance within his Blackhole World.

On the other hand, the pure and translucent 'mysterious energy from his Dao Heart' became more and more condensed, and it seemed to have been thoroughly tempered. It was gradually condensing into form from a cocoon, and it faintly revealed a completely round outline like that of a Golden Core.

The energy of virtue was the opposite of the energy of sin, and it was similarly mysterious to the extreme. It came from the Heaven Dao, and it was a type of judgment of the Heaven Dao towards everything in the world. When one possessed virtue, one would receive the protection of the Heaven Dao, and no matter if it was in terms of cultivating or karmic luck, it possessed a profound benefit.

For example, even though some great charitable people in the mortal world didn't cultivate, their family business thrived, and had a long lifespan and numerous children and grandchildren. Even if they passed away, their next life would possess great wealth and even be able to possess an innate spirit body that allowed them to step on the path towards the Grand Dao.

On the other hand, once a person with monstrous sins died, they would even be unable to enter the cycle of reincarnation and be obliterated in the heavens and the earth for eternity. Even if they were lucky to enter the Netherworld, they would either be sent into the 18 levels of hell or be reduced to the path of animals and be reborn as an animal in their next life, causing them to suffer boundless torment.

All in all, the Goldlight of Virtue could be considered a blessing from the Heaven Dao, whereas the glow of sin was a type of punishment instead, and it carried an extremely great restrictive force towards cultivators.

Perhaps all of this wasn't very obvious at the Nether Transformation Realm or before it, but once one cultivated to the Earthly Immortal Realm and faced the nine levels of heavenly tribulation, the benefits brought about by the Goldlight of Virtue would be fully revealed.

In merely an instant, Chen Xi felt his entire body become much more at ease. His spirits were refreshed while his body and mind felt as if it had been cleaned by clear water of immortals, causing him to feel extremely tranquil. Even though he was still restrained within the Prime Blood God Flags, he wasn't tainted by the karma of blood within it.

"Hmm? It's actually the Netherworld Register! The Condemn Evil Brush! Weren't these two damnable things destroyed along with the Netherworld Emperor by the gods of the world!?" Suddenly, a terrifying and extremely icy cold consciousness sounded out from within the Prime Blood God Flags, and it swept past Chen Xi. It was the strand of will of the great figure that had descended into the flags, and it had noticed the existence of the Netherworld Register and Condemn Evil Brush, causing it to be unable to maintain its composure any longer and roar furiously.

Along with this roar, Chen Xi's entire body felt cold while a chill ran down his spine, and he sensed an oppressive and deterring imposing aura.

But right after that, the Condemn Evil Brush in his hand suddenly shook before the tip of the brush swept out in midair by itself, and it seemed like a stroke that judged Yin and Yang and created the world as it slashed out horizontally.

"AH!!!" A furious cry of pain sounded out. "Bastard! The three dimensions are about to undergo an upheaval. At that time, I'll be able to escape the seal within the blood river, and I'll kill my way into the Netherworld and completely destroy the six paths of reincarnation! I'll make you and the Netherworld Register lose the source of your powers forever!"

"And you little fellow! I'll remember you! Wait for me to take your head during the upheaval of the three dimensions!" His voice hadn't finished reverberating in the air when Chen Xi acutely sensed that the will of that great figure seemed to have felt threatened and fled resolutely.

This will was probably emanated by the real Prime Blood God Flag. It was actually able to break through the barriers between the Netherworld and the Mortal Dimension to descend here. The ability of this Priest Zi Yun is really extraordinary. Unfortunately, he probably never expected that I would actually possess existences like the Netherworld Register and Condemn Evil Brush in my possession... Chen Xi seemed to be lost in thought. In the next moment, he restrained his thoughts and didn't waste any more time to instantly put away the Netherworld Register and Condemn Evil Brush.

These two treasures couldn't be exposed in the world!

At the very least, unless he was in a critical situation of life and death, then he wouldn't dare take it out and utilize it until he cultivated to an extent capable of going against the various gods in the world.

Even though it seemed complicated in writing, all of this merely occurred in a short moment.

"Hmm? Why is it like this!?" When the will of the great figure vanished, it was instantly noticed by Priest Zi Yun, and his face that still carried a wisp of mad complacency instantly turned stiff to the extreme.

How could this be possible!?

I exhausted 3,000 years of my lifespan to cause a strand of a true great figure to descend here, and even a Heavenly Immortal wouldn't be able to resist it. Why would it suddenly vanish without reason or rhyme?

Priest Zi Yun stared fixedly at the Prime Blood God Flags, and he still didn't dare believe everything he'd noticed, causing him to be in a dazed and distracted state.

Talisman Emperor

Chapter 793: Stirring The Dark Reverie

Priest Zi Yun's face went grim, while he was driven to distraction in his disbelief.

At the same time, everyone within the estate noticed the unusualness within the Prime Blood God Flags.

"It seems...as if the Prime Blood God Flags have become weaker again?" Someone was surprised and bewildered because he acutely noticed that compared from before, the strength of the Prime Blood God Flags had simply weakened by more than 10 times!

"The will of that great figure has vanished!" Earthly Immortal Realm experts like Wen Tianshuo, Qing Ping, Hui Zhong, Lou Qi, and the others very clearly determined the changes within it, and all of them were extremely horrified. Could it be that all of this was done by that young man?

"Uncle Yong, can you discern what sort of change has occurred within it?" Baili Yan stared blankly and was bewildered.

"I can't." The old servant shook his head and frowned. "A force capable of forcing the will of a great figure back is truly impossible to be determined. Unless...Chen Xi carries an extremely terrifying secret treasure in his possession."

"Exactly. No matter how heaven defying his strength is, he's restrained by his cultivation, and it's utterly insufficient to go against the will of a great figure. Based on this inference, he surely possesses an extraordinary treasure." The other old servant pondered briefly before he spoke as well.

"An extraordinary secret treasure?" Baili Yan was shocked in her heart, and then she muttered. "Could it be the ultimate treasure of the Nine Radiance Sword Sect, the Chaotic Magic Sword? Impossible! That's the great weapon of slaughter that only the Sect Master of the Nine Radiance Sword Sect can possess, and it holds down the karmic luck of the entire sect. How could it possibly be passed down to be used by Chen Xi?"

Bang!

Right when everyone was surprised and bewildered, extremely violent trembles suddenly arose from within the Prime Blood God Flags, and then it suddenly shattered apart with a bang.

A wisp of dazzling sword qi that seemed capable of reaching the heavens surged out with a bang, and it shot into the sky and surged through the surroundings!

After that, under the astounded gazes of everyone, a tall figure stepped out from within the shattered Prime Blood God Flags, and his clothes fluttered with the wind while he revealed a gaze that was like bolts of lightning. It was Chen Xi.

At this moment, as they looked at this figure, everyone was shocked speechless, and the atmosphere was perfectly silent.

A young man that was obviously only at the Nether Transformation Realm had actually forced the will of a great figure back and slashed apart the Prime Blood God Flags that were comparable to an Immortal Artifact. Is there anything in the world that can stop him?

Who exactly is he?

How could such a heaven defying and monstrous figure suddenly appear in the Dark Reverie?

At this instant, even Wen Tianshuo, Qing Ping, and the other Earthly Immortal Realm experts couldn't help but feel a deep feeling of frustration in their hearts, and they didn't dare take Chen Xi to be a junior any longer.

"You... You... You..." Compared to the shock of the others, Priest Zi Yun was shocked out of his wits, and his face was covered in deep disbelief and terror.

He simply seemed as if he'd seen a ghost.

Swoosh!

A wisp of Creation Sword Qi flashed. The head of Priest Zi Yun who hadn't awakened from his shock was chopped off directly, causing fresh blood to spray out as he perished. He couldn't figure out exactly how this young man before him had accomplished all this no matter how he wracked his brains.

At this point, eight Earthly Immortal Realm experts and great sinners that were ranked in the top 100 of the Villain Rankings had been completely wiped out!

The person that accomplished this was merely Chen Xi alone!

Such a splendid and magnificent accomplishment in combat had simply created history because throughout the ancient times until now, it was capable of being called world shaking and a record that has never been attained and will never be attained again.

Everyone believed that if news of this battle were to spread, the entire Dark Reverie would fall into extremely great shock.

The battle had ended, and the sky was still suffused with a dense and pungent smell of blood.

Chen Xi didn't become free. He executed his techniques to completely wipe out the energy of sin here, and then he swept out with his sleeve, causing all the broken pieces of the Prime Blood God Flags to be put away.

After completing all this, Chen Xi put the sword away and descended back to the ground.

Swish!

The crowd seemed to tacitly and automatically open up a path for Chen Xi to tread on. The faces of every single one of them was covered in deep reverence that came from the heart, and they seemed to be welcoming a king respectfully.

All of them were clearly aware that if it wasn't for Chen Xi, then they would have probably died a long time ago, and they would utterly be incapable of safely surviving until now.

There was nothing embarrassing about admitting this. After all, it was eight great sinners at the Earthly Immortal Realm! It was even to the extent that there was no need for all of them to make a move before they could crush every here like ants!

So the reverence and gratitude they felt towards Chen Xi was absolutely from the heart.

"It's all thanks to Young Hero Chen's life saving grace that everyone within my estate was able to survive this calamity. Please accept my gratitude." Wen Tianshuo took a large stride forward with a serious expression, and then he bowed.

"Thank you, Young Hero Chen, for your life saving grace!"

No matter their cultivations, everyone bowed deeply in unison when they saw this because such a great kindness of saving their lives was worthy of them treating him in such a way.

Those cultivators that had lashed out at Chen Xi earlier even revealed embarrassed expressions, and they were extremely anxious, causing the degree of their bows to be much greater than the others. Moreover, they wished for nothing more than to bury their heads into the ground in order to seek the slightest forgiveness from Chen Xi.

"Everyone, it's fine. I was just lucky enough to be here at the right time." Chen Xi raised his hands slightly when he saw this, causing a gentle and shapeless force to surge out and help up the bowed figures of everyone.

"Young Hero Chen, you're too modest. I'm unable to repay such a life saving grace as well. If Young Hero Chen doesn't mind, then I'm willing to use the treasure map in my possession as an invite, and I hope that you'll head to the Sky Dao Abandoned Mountain with me in the future to carry out this important matter!" Wen Tianshuo spoke with a serious expression.

"We'll discuss this matter later. I just want to have a good rest now." Chen Xi changed the topic of conversation.

"Of course, of course." When he saw Chen Xi didn't refuse directly, Wen Tianshuo instructed right away. "Quickly prepare the best room for Young Hero Chen!"

As he spoke, he glanced at the nearby Wen Hua in an imperceptible manner.

Thump!

Wen Hua understood what he meant, and then suddenly knelt down on the path ahead and kowtowed as he spoke in a loud voice. "Senior is righteous and possesses an extraordinary cultivation. I admire Senior extremely, and I earnestly request that Senior takes me as a disciple!"

Chen Xi glanced at the young man on the ground with a calm expression, and not the slightest fluctuation could be seen on his face before he walked away. From the beginning until the end, he didn't speak a single word, nor did he make his stand clear.

Everyone was stunned when they saw this scene, and some of them were unable to figure out what was going on. According to their thoughts, Chen Xi was entirely able to smoothly take Wen Hua as a disciple at this moment. After all, this little fellow was born with the Goldstar Body and extraordinary natural talent. Coupled with Marquis Wen being willing to share the treasure map with Chen Xi, taking Wen Hua as his disciple could be considered to satisfy both parties, so why not?

Unfortunately, they were unable to figure out Chen Xi's thoughts, nor did they dare to question him. So they could only bury this bewilderment in their hearts.

But Wen Hua who knelt on the ground was slightly embarrassed. He'd been disregarded by Chen Xi in front of so many people, causing him to feel extremely embarrassed, and a wisp of indignation flashed inadvertently in the depths of his eyes.

Wen Tianshuo had similarly not expected that Chen Xi's attitude would be so cold and indifferent, and his expression stiffened slightly before recovering to normal, then he patted the shoulder of his son as he smiled. "Oh you, you're too eager to acknowledge him as your master. Young Hero Chen just experienced a great battle, and he's tired and exhausted, so how could he have the mood to pay attention to you? Quickly get up. It isn't too late to pay a visit to Young Hero Chen after he rests."

Wen Hua nodded as he knew this was his father giving him a way out of the predicament, and he stood up along with this. But his expression was slightly depressed as he couldn't figure out why Chen Xi would be so cold and indifferent to him.

In next to no time, everyone within the estate dispersed because witnessing the shocking battle from before had caused their minds to be worn to the extreme, and all of them felt slightly exhausted.

But they didn't disperse for the sake of resting but for the sake of reporting the news of what had occurred here to the various powers behind them. Most importantly, they wanted to investigate the identity of that young man!

After all, the incident that had occurred today was too shocking. Eight great sinners had been annihilated by him alone, and such a heaven defying and monstrous figure had to be clearly ascertained.

Besides that, the matter of Wen Tianshuo possessing a treasure map to enter the Sky Dao Abandoned Mountain was extremely important as well. The matter was related to everything possessed by the Sky Dao Palace, so they had no choice but to attach great importance to it.

As for Baili Yan and those two old servants of hers, they seemed to not intend to continue pestering Chen Xi, and they left Corona City on that very day to return to the Eternal Spirit Mountain that night.

Baili Yan met Chen Xi once more before she left. On the contrary to how she usually acted, she didn't continue pursuing the question of how Chen Xi had comprehended and grasped the Eternal profundity. She seemed to know as well that no matter how she questioned Chen Xi, Chen Xi wouldn't give her a clear answer.

She only chatted with Chen Xi about some topics of no importance like the upheaval of the three dimensions, the Xeno-race, and various other situations in the world. When she left in the end, she even cordially invited Chen Xi to drop in at the Eternal Spirit Mountain when he was free.

According to what she said, even though Chen Xi wasn't a disciple of the Eternal Spirit Mountain, since he'd already grasped the Eternal Dao Insights and the Five Moves of the Eternal, he was already no different than an inheritor of the Eternal Spirit Mountain.

Chen Xi naturally knew that this was because Baili Yan was helpless against him, and since she knew very well that she was unable to do anything to him, she intended to form goodwill with him and win him over.

Chen Xi accepted this with pleasure. After all, there was no enmity between him and the Eternal Spirit Mountain, so it couldn't be any better if they were able to become friends.

...

On this day, a piece of news seemed as if it had grown wings and flew out of Corona City, and it spread towards the various powers in the Dark Reverie and caused a mighty uproar.

Eight great sinners at the Earthly Immortal Realm had been annihilated!

A treasure map related to the Sky Dao Palace had appeared!

Such inside news caused the entire cultivation world to be stirred. After they understood all of this clearly, practically every single power was guessing who exactly the young man that was surnamed Chen was?

Before long, some powers caught the true answer through various clues – Chen Xi!

Actually, it was very easy to guess. Chen Xi had once said that killing Priest Zi Yun and the others was for the sake of completing an assignment of his sect, and it just happened that many great powers had obtained the news that the Nine Radiance Sword Sect's disciple, Chen Xi, had just recently been promoted to an elder. Now, he'd left the sect to complete the two assignments of 'passing down the flames' and 'enforcing justice on behalf of the heavens.'

Once these two things were combined, the answer naturally surfaced.

In practically a single night, Chen Xi's name shook the entire Dark Reverie once more, and it drew the attention of the various powers.

After a long period of five years, this young man that had ceaselessly created miracle after miracle and done numerous deeds that shocked the world had appeared once more in the world!

It wasn't just that, he'd actually slaughtered eight great sinners at the Earthly Immortal Realm with a cultivation at the Nether Transformation Realm. This magnificent feat of surmounting a realm to

'slaughter an immortal' caused the various powers to be extremely shocked because how many people since the ancient times until now were capable of accomplishing this?

Talisman Emperor

Chapter 794: Audacious Servant

An array of stars flickered in the night sky.

Within a room for honored guests in Marquis Wen's Estate.

Chen Xi sat cross-legged while his entire body emanated a golden light that stretched out for 30m into the surroundings. It wasn't dazzling but mellow and gentle instead, causing the air in the surroundings to seem as if it was cheering and jumping with joy because it was bathed beneath this divine radiance.

It was the energy of virtue that innately carried an aura that conformed with the heavens and the earth and favored by everything in the world.

Numerous objects that were filled with a bloody glow and coiled with sin lay before him, there was a variety of magic treasures and various extremely vicious materials like skeletons, the Blood Essence of vengeful spirits, and so on and so forth.

All of these were obtained from Priest Zi Yun and the others, and after he carefully looked through them and saw that they were useless to him, Chen Xi immediately decided to completely refine them so as to avoid them falling into the outside world and bringing disaster to the world.

Moreover, he was able to obtain a certain amount of Goldlight of Virtue from refining them, and it would consolidate and condense his cultivation of the Dao Heart, so it was an unexpected gain instead.

Swish!

The sin on numerous evil objects was cleansed and purified, whereas Chen Xi's Blackhole Word was suffused with the Goldlight of Virtue, and it was like a golden rain had descended from the skies and dyed the entire heavens and earth with a layer of pure, clear, divine, and perfect sheen. Everything within his Blackhole World was within a tranquil atmosphere as if it was the paradise that members of the Buddhist Sect dreamt of.

At the same time, the Heart Energy within his soul started to condense gradually, and it became clearer.

When Chen Xi completely refined the Prime Blood God Flags, his Heart Energy had already condensed into the size of a chicken egg, and it was a core shaped object that was pure and round!

This was the Golden Core of Virtue that was also called the Heart Core. It emanated a myriad of rays of golden radiance that illuminated all the internal organs within his body, and it seemed like they were plated with a layer of divine crystal and were suffused with a pure and holy sheen.

Presently, Chen Xi was already aware that the so-called Heart Core was condensed from the mysterious energy that came from his Dao Heart. This sort of energy was extremely unique, and it seemed to not have any cultivation technique at all. This also determined that it was extremely difficult to grasp.

At the very least, he was far from being capable of grasping it with his current cultivation.

On the other hand, if he wanted to improve his cultivation in Heart Energy, there were methods to be found. For example, slaughtering great sinners was the most direct and most obvious method.

At present, the benefits brought about by Heart Energy to Chen Xi was extremely shocking.

This sort of energy was capable of allowing him to increase his endurance in battle, and he wouldn't have to suffer like before when even though he possessed the Dark Parasol Sapling to ceaselessly provide him with True Essence, he felt exhausted and weary because he'd exhausted himself mentally.

If it was said that True Essence and Shaman Energy were the source of energy for battle, then the Divine Sense was a type of method to control one's strength, and this Heart Energy was a type of energy that increased one's battle endurance instead.

It seemed to be inconspicuous. But when a battle really occurred, then under the circumstances that the cultivation and combat strength of both parties were equal, it would depend on the Heart Energy to decide the final victor.

As the saying goes, a battle of endurance was based solely on a single word, dawdling. After one dawdled until the end, it would be a competition of the tenacity of one's mind!

Of course, this was merely the only effect that Chen Xi had unearthed for now. Perhaps, only along with the ceaseless improvement of his cultivation would Chen Xi be able to comprehend exactly what sort of profound uses the Heart Energy possessed.

After he cleaned up all these objects that had the energy of sin coiled around them, Chen Xi heaved a long sigh of relief, and he didn't feel much in his heart when he recalled the battle during the daytime.

He'd attained the 'extreme realm' amongst his peers in both cultivation and Dao comprehension, and he possessed a terrifying combat strength at the Exalted Realm.

In terms of Dao Arts and Divine Abilities, the Allheaven Truth he'd grasped was the ultimate inheritance of the Nine Radiance Sword Sect, whereas the Creation Sword Insight he'd comprehended was even the inherited from the Exalted Ant Emperor from the primeval times. Besides that, his other Divine Abilities like the Eye of Divine Truth and Wings of Disruption were top and supreme Divine Abilities in the three dimensions.

In terms of weapons, he possessed the Immortal Artifact Nethermist Feathered Armor to protect himself, the Talisman Armament that was on par with a true Immortal Artifact as a weapon of slaughter, and he even possessed the Netherworld Register and Condemn Evil Brush to rely on.

Under these circumstances, slaughtering Priest Zi Yun and the other seven Earthly Immortal Realm experts was something that happened when the conditions were ripe, and it would be strange if he was unable to kill them.

Moreover, his clone was in closed door cultivation within the world of stars now, and it was charging into the Nether Transformation Realm. With the assistance from the blood crystals condensed from the Lightning Spirit and coupled with the unique Temporal Laws in the world of stars, there was no need to worry that his clone would be unable to advance into the Nether Transformation Realm within a short period of time.

At that time, exactly how much would his strength increase when his clone fused with his main body?

Chen Xi really looked forward to the arrival of that day.

With my current combat strength, I'm barely able to defeat a 4th level Earthly Immortal Realm expert, and even a 5th level Earthly Immortal Realm expert would probably be unable to prevent me from escaping... Chen Xi was pondering deeply. He knew very well that this was in terms of ordinary Earthly Immortal Realm experts, and once he encountered those figures at the Earthly Immortal Realm who possessed peerless natural talent, he would probably only be able to flee.

After all, the Nether Transformation Realm was separated by an entire realm from the Earthly Immortal Realm, and it was like the difference between the heavens and the earth. So no matter how formidable his combat strength was, he was merely able to deal with ordinary Earthly Immortal Realm experts.

Hmm? Right at this moment, Chen Xi seemed to have noticed something, and he raised his eyes to look out his window.

...

Beneath the veil of night, Chen Yan silently made his way to Chen Xi's room, and then carefully inspected the surroundings before heaving a sigh of relief in his heart when he noticed that there was no one guarding this place.

But when he stood before the door at this moment, he was slightly hesitant and indeterminate instead.

As a servant of the estate, he'd witnessed Chen Xi's battle with the eight great sinners during the daytime as well, and at that moment, he was shocked to the point his soul almost left his body.

Never had he imagined that the Young Master that spoke to him with a warm and amiable attitude would actually possess such a terrifying combat strength and was almost like an all-powerful god of war!

He possessed an aura of supremacy and overflowed with overbearingness as he slaughtered Earthly Immortal Realm experts as if he was slaughtering chickens! That sort of peerless graceful bearing and techniques that shook the heavens and the earth caused him to forget to breathe as he watched, and he still couldn't avoid feeling a wisp of shock when he thought about it now.

This Young Master is neither a friend nor relative of mine, and he merely spoke a few words to me. Would I cause him to be unhappy by disturbing him rashly, and cause him to kick me out?

Alas, Chen Yan! Oh! Chen Yan! Your opportunity is right before you, could it be that you're willing to let it go just like this? Could it be that you've forgotten the trampling, disdain, rejection, and bullying from all these years?

Right! I have to become strong, and I must strive for it myself! A nobody isn't pitiable, but it's pitiable when even I look down upon myself. Then would there be any meaning in living?

I must try my best to fight for it, even if I only have a slim hope for success. Even though it's tiny, at least I tried, and I'll have no regrets and a clear conscience. But if I don't even dare to fight for it and give up directly, it would be equivalent to giving up on my life!

Give it your best! Chen Yan!

Chen Yan muttered in his heart while cheering himself on, and the pair of eyes on his dark and firm face gradually became firm and bright.

An existence like Chen Xi was simply like a supreme god to him, and Chen Xi was so far away from his reach. On the other hand, the decision he made at this moment was like disturbing a god, and the agitated and perturbed feeling in his heart was obvious.

But in the end, he intended to give it a try. So he took a deep breath and took a step forward to raise his hand and knock the door.

Creak!

However, before his hand could touch the tightly closed door, the door actually opened from within.

Chen Yan was stunned, and then he saw a tall figure was smiling at him from within the room. The figure had a warm and deep gaze that caused his perturbed and anxious heart to unconsciously calm down.

“Se... Senior... I...” However, as soon as he spoke, Chen Yan instantly started stuttering, and he was slightly at a loss for how to express the reason for his arrival, causing his dark and small face to flush red.

“You want to acknowledge me as your master?” asked Chen Xi.

Chen Yan hurriedly nodded like a chick pecking on grains on the ground.

Chen Xi smiled and patted Chen Yan’s weak shoulders as he said, “There’s no need to be anxious. You don’t get an opportunity by waiting, nor do you obtain it resorting to trickery. You had to courage to come here and fight for it, so even if you encounter refusal, your accomplishments in the future will surely be limitless.”

Chen Xi asked while staring blankly at him. “Then is Senior willing to take me as your disciple?”

Chen Xi nodded. “Of course, you fought for this opportunity, so I’ll give you the opportunity to receive a test.”

Chen Yan was shocked in his heart, and then he was pleasantly surprised to the point he couldn’t help but clench his fists tightly before he hurriedly took a deep breath to forcefully restrain this excitement as he said, “Senior, please enlighten me. No matter what test it is, I’ll do all I can to complete it!”

Chen Xi smiled and was just about to say something when a deep sound of reproach suddenly sounded out from the distance. “Audacious servant! Instead of sleeping at night, you came to disturb the rest of Young Hero Chen instead. You simply deserve death! Are you still not going to withdraw yourself!?”

Along with this voice, Wen Tianshuo walked over with large strides. His figure was tall and robust, his shoulders broad, and he walked with firm strides and carried an awe-inspiring presence of his own.

The Junior Marquis Wen Hua was following by his side as well. He similarly frowned when his gaze swept past Chen Yan who was by Chen Xi’s side, and a wisp of fierce coldness flashed within his eyes.

Chen Yan seemed as if he was doused with a pail of cold water. The excitement and pleasant surprise he had before vanished instantly without a trace, and it was replaced by dense astonishment and coldness.

To Chen Yan who was a servant of the estate, Wen Tianshuo and Wen Hua were simply existence that couldn't be disobeyed, and they possessed the authority of life and death over him. Now that the matter of him paying a visit to Chen Xi deep in the night had been exposed and he'd been caught red handed, the consequences were simply unimaginable.

"What're you still standing there for? Leave, quickly!" Wen Huo berated Chen Yan with a low voice because he didn't dare act too presumptuously before Chen Xi.

Chen Yan's entire body stiffened while he revealed a struggling and indeterminate expression, and then he raised his head to look at Chen Xi before looking at the Marquis and Junior Marquis that stared at him with a hostile expression. A strand of fury arose in his heart for no reason and rhyme, and he stood on the spot without moving.

He knew that this was his only chance, and if he were to leave just like this, then his corpse would probably be dealt with soundlessly before tomorrow.

After all, he was merely a servant, so how could he possibly be able to survive when he was targeted by both the Marquis and Junior Marquis?

"You lowly servant! You actually don't know what's good for you and don't follow the rules at all. What's the point of keeping you here!?" Wen Hua was furious, and then he took a step forward with the intention of killing Chen Yan.

"Stay your hand!" Chen Xi spoke as he frowned.

Instantly, Wen Hua's raised hand froze in midair, and he was slightly astounded.

Wen Tianshuo's eyelids twitched inadvertently, and then he waved his hand to indicate that Wen Hua should stand back before he said with a smile, "Young Hero Chen is kind and benevolent, and is unable to stand seeing someone killed. So I'll spare him."

"Marquis, you're mistaken. I intend to take Chen Yan as my disciple. If the Junior Marquis made a move against him, then the Junior Marquis's life would be at risk, so I gave him a warning." Chen Xi replied indifferently.

His words revealed a piercingly cold and murderous aura, causing the hearts of Wen Tianshuo and Wen Hua to thump while their faces turned pale.

Chapter 795: Enemies Drop In

The expressions of the father and son pair, Wen Tianshuo and Wen Hua, changed indeterminately.

Chen Xi's words had allowed them to finally understand that this damnable and lowly servant before them had somehow obtained the favor of Chen Xi, and Chen Xi wanted to take him as a disciple!

"Why!?" Wen Hua cried out with agitation, and his face was covered in a disgruntled expression.

"Senior, in which aspect am I, Wen Hua, not superior to this servant? In terms of natural talent, I possess the Goldstar Body; in terms of status, I'm the Junior Marquis of Marquis Wen's Estate; in terms of cultivation, even though I'm young, I've advanced into the Golden Core Realm a long time ago. Why would you choose a servant as your disciple and not choose me?"

He'd knelt down with the intention of acknowledging Chen Xi as his master in front of everyone earlier today, but he was disregarded by Chen Xi, causing flames of rage to pile up in his heart. Now, when he saw Chen Xi had actually taken an extremely lowly servant as his disciple, Wen Hua was instantly unable to control his feelings and completely vented the flames of rage in his heart.

Of course, he didn't dare question Chen Xi, so his tone and expression seem extremely aggrieved like a youth that was complaining tearfully and begging his senior.

A child that cried would get candy.

As the Junior Marquis of Marquis Wen's Estate, Wen Hua had been nurtured by his father since a young age, causing his mentality and shrewdness to far exceed an ordinary person, so he naturally understood this deeply.

Unfortunately, how could these little tricks escape Chen Xi's detection?

The more he acted in this way, the more Chen Xi disliked him instead because he was so full of trickery at such a young age, then how would it be when he grew up?

Perhaps a person like this would become an overlord of an area and possess the ability to command the winds and clouds. But he was too selfish and emotionless, so once his interests were harmed, he would surely consider himself first and not others.

It was even to the extent that it was very likely for him to abandon kindnesses from others, friendships, and family relationships for the sake of himself, and he would become someone that refused to acknowledge his relations.

Chen Xi didn't like such a person, and he similarly didn't hope for his personal disciple to become such a person.

Wen Tianshuo hurriedly spoke with a smile when he saw Chen Xi staying silent. "Young Hero Chen, you have seen it as well. My son is absolutely sincere in wanting to acknowledge you as his master, how about..."

Chen Xi waved his hand to interrupt Wen Tianshuo before he could finish speaking. "Young Wen is extraordinary indeed, and it's a matter of course that he would be able to join one of the 10 great immortal sects with his natural endowment."

Wen Tianshuo and Wen Hua's expressions rose with spirit when they heard this.

"But I've already said it before earlier. Even if the person that I chose possesses inferior natural endowments, I'll surely foster him with all my might, whereas if it isn't someone I select, then even if the person is an innate saint, that person would be like trash to me and would be of no consequence."

The following words Chen Xi spoke caused the expressions of the pair of father and son to stiffen, and they slightly didn't dare believe that Chen Xi would refuse so directly.

On the other hand, Chen Ya was completely relieved, and he felt even more admiration and grateful towards Chen Xi.

“Senior, can you tell me the reason?” Wen Hua took a deep breath and was still disgruntled, so he asked slowly.

Chen Xi frowned and disregarded him before leaving Chen Yan back into his room.

“Why? Could it be that I, Wen Hua, am inferior to a lowly servant in your eyes?” Wen Hua completely erupted when he saw this, and he gritted his teeth as he obstructed the path before Chen Xi and raised his head with a disgruntled expression.

Chen Xi turned around to glance at Wen Tianshuo.

Wen Tianshuo hurriedly pulled Wen Hua back when he saw this, and then he berated. “Shut up! Show some respect to your seniors!”

Creak!

The door to the room closed tightly, and he shut the door on the father and son pair.

Wen Hua was driven to dejection when he saw this, and he knew that there was no chance for him to be master and disciple with Chen Xi any longer.

...

Within a beautiful and majestic room.

Wen Tianshuo and Wen Hua sat facing each other with extremely gloomy expressions.

“That damnable servant! He actually dared to seize away my fortune, I’ll surely kill him! Kill him!” In his own territory, Wen Hua completely tossed aside all disguises and roared endlessly with rage.

The space between Wen Tianshuo’s brows were filled with rage as well. The fortune of his own son being seized away by a servant of his own estate caused him to be furious as well, and if it wasn’t for the exceedingly terrifying strength that Chen Xi had revealed earlier, he would have burnt the bones of the servant and scattered his ashes a long time ago.

“And that Chen, he looks down upon everyone else and disregarded me repeatedly. He really thinks he’s a great figure. Once I, Wen Hua, grow up, I’ll surely have my revenge!” Wen Hua’s handsome face was completely livid while his gaze was filled with resentment, and he’d actually hated Chen Xi as well.

“Enough!” Wen Tianshuo frowned and slapped Wen Hua on the face, causing Wen Hua’s face to swell up while a strand of blood flowed out from the corner of his mouth.

Wen Hua was in disbelief and stared blankly at his own father. If memory served, this was the first time his father had struck him since he was young.

“Idiot! Don’t you know that calamity comes from the mouth!?” Wen Tianshuo berated. “It wouldn’t be late to speak these words when you’ve truly matured. Now you better shut your mouth obediently, or I’ll be the first one to cripple you if you dare speak anymore nonsense!”

Wen Hua couldn’t help but shudder with fear, and he muttered after a long time. “But I can’t accept this!”

Clap! Clap! Clap!

Right at this moment, a wave of clear clapping sounded out from outside the room. At the same time, a clear voice resounded out. "It's good if you're disgruntled. If you don't even have the courage to be angry after being refused, then you're just trash."

Who is it!?

Wen Tianshuo and Wen Hua's expressions went grim as they stood up in unison.

This was the depths of the estate that was heavily guarded and covered densely with countless restrictions. Now, someone had actually approached it soundlessly, and they didn't even notice it!

Especially Wen Tianshuo, he had an extremely heavy expression. He was at the Earthly Immortal Realm yet had actually not noticed anyone approaching, so exactly how terrifying was the cultivation of this person?

The voice hadn't finished reverberating in the air when the door to this room was opened from the outside.

After that, a group of people entered in single file. The person in the lead was a beautiful young woman in a gorgeous robe embroidered with a phoenix, and she was followed in by a group of people that were like a host of stars surrounding a bright moon.

This beautiful young woman had an exquisite and gorgeous appearance, a tall and graceful figure, and her skin was supple, translucent, and crystalline. There was a red colored mark between her brows while her eyes were actually sky blue, causing her to possess unusual beauty.

This was absolutely a peerlessly elegant young woman.

But the most terrifying to Wen Tianshuo were the people behind the young woman. There were an entire 10 plus of them, and all of them were actually Earthly Immortal Realm experts!

Especially astonishing to him was the black robed old man that was gaunt like a bamboo only lightly glanced at him, yet he couldn't help but feel coldness arise from his heart, and the black robed old man's strength could simply be described as unfathomable.

The beautiful young woman, the black robed old man, and over 10 Earthly Immortal Realm experts. Such a group of people had suddenly arrived deep into the night, and the shock they created was obvious.

At this instant, the expressions of both Wen Tianshuo and Wen Hua went pale as they stood stiffly on the spot while feeling at a loss for what to do, and they were even slightly panicked.

After all, the might represented by these forces was too shocking, and it was even more shocking than Priest Zi Yun and the seven other great sinners.

"Marquis, there's no need to be alarmed. We're from the Heavenflow Dao Sect. I'm the Heavenflow Dao Sect's Core Disciple, Leng Chan'er. We've come to your distinguished estate this time because we have an extraordinarily good thing that we want to cooperate with Marquis to accomplish."

After they entered the room, the beautiful young woman spoke directly and proclaimed the name of her sect with an indifferent expression while carrying a calm and composed aura.

The Heavenflow Dao Sect!

Wen Tianshuo heaved a sigh of relief in his heart. This was one of the 10 great immortal sects and couldn't be compared to those great sinners, so they ought to have not come specially to deal with him.

But right after that, he was terrified in his heart. They wouldn't have come this time for the sake of that treasure map to the Sky Dao Abandoned Mountains in my possession, right?

Even though he thought like this in his heart, he'd already recovered a little bit of composure, and he hurriedly invited them to take a seat before ordering his son, Wen Hua, to personally pour tea for them. He said respectfully after he finished doing all this, "Then may I know what Young Miss and the others want to cooperate with me to do?"

He'd already discerned that even though Leng Chan'er's cultivation was only at the Nether Transformation Realm, she was the core figure amongst this group and akin to a leader.

Not to mention she represented one of the 10 great immortal sects, the Heavenflow Dao Sect, whereas he was a tiny Marquis in Golden Supremacy Kingdom. Moreover, the gap between Earthly Immortal Realm experts between these two powers were too great, so he had no choice but to be reverent and respectful.

"It's very simple, to kill a person," replied Leng Chan'er indifferently.

"Oh?" Wen Tianshuo was relieved in his heart because it was fine so long as they didn't come for the treasure map. "Then may I ask who exactly this person is to actually dare offend the Heavenflow Dao Sect. He's simply tired of living."

"That person is called Chen Xi." Leng Chan'er glanced deeply at Wen Tianshuo. "Marquis has probably heard of this name, right?"

Chen Xi? Wen Tianshuo was horrified and said, "That's the number one figure in the younger generation of the Nine Radiance Sword Sect. It seems...seems..." When he spoke up to here, he seemed to suddenly realize something and cried out involuntarily. "That Young Hero Chen wouldn't be Chen Xi, right!?"

Leng Chan'er nodded and grinned. "Exactly, we came to kill him."

Wen Tianshuo was completely dumbstruck. That person is actually really Chen Xi! This name was like a thunder that reverberated in his ears. Causing a great commotion in the Dark Parasol's Abyss, slaughtering Yan Shisan, defeating the top disciples of the Eternal Spirit Mountain, and a string of other great deeds that shook the world were all done by Chen Xi, so how could he have possibly not heard of this name?

The thing that he truly never imagined was Chen Xi had actually appeared within his estate, and he just happened to have not recognized Chen Xi!

It was even to the extent that his son had almost become Chen Xi's disciple!

At the same time, he finally understood why Leng Chan'er and the others would come over. After all, the enmity between Chen Xi and the Heavenflow Dao Sect had become the common knowledge of everyone in the cultivation world since a long time ago.

When he thought up to here, he couldn't help but feel troubled in his heart. Why have I suddenly been swept into a storm between the Nine Radiance Sword Sect and Heavenflow Dao Sect?

He knew very well that compared to these two colossi, his Marquis Wen's Estate was simply no different from an ant, and the slightest accident would cause his estate to be instantly obliterated without a doubt!

At this moment, Wen Tianshuo wished for nothing more than for Leng Chan'er and the others to have come for the treasure map. At the very least, he would be able to obtain some benefits, but if it was for the sake of killing Chen Xi...

Then regardless of whether Chen Xi died or not, it would probably be impossible for his estate to continue existing!

What should I do? Wen Tianshuo's expression was indeterminate while he struggled to the extreme in his heart.

"Don't worry, Marquis. I guarantee that so long as you agree to this, your son will be the disciple of my Heavenflow Dao Sect. At that time, even if the Nine Radiance Sword Sect wants to take revenge, it would be absolutely impossible for it to affect your son." Leng Chan'er silently waited for Wen Tianshuo to consider it for a long time before her red lips parted lightly, and she said slowly, "As for you, Marquis, you're completely able to join my Heavenflow Dao Sect. Even though you'll be unable to assume a high position, striving for a position as an elder is an extremely easy thing."

Chapter 796: Dao River and Dragon Mountain

Wen Tianshuo's body stiffened when he heard the conditions Leng Chan'er had put forward. She's going to take my son as a disciple of the Heavenflow Dao Sect and take me as an elder?

These were absolutely extremely tempting conditions.

As an Earthly Immortal Realm expert, Wen Tianshuo was only capable of commanding the clouds and wind in the Golden Supremacy Kingdom, and he was utterly nothing in the entire Dark Reverie, let alone compared to an extraordinary power like the 10 great immortal sects.

For a time, Wen Tianshuo was greatly moved in his heart. If it was like this, then even if Chen Xi was killed, he would have no worries for his Marquis Wen's Estate. After all, no matter how large his estate was, there were only a few hundred people that were the closest clansmen to him, and he was entirely able to move them all to the Heavenflow Dao Sect.

At that time, as an elder of the Heavenflow Dao Sect, he would be entirely capable of striving for a better future for his clansmen!

“Father, I’m willing!” Before Wen Tianshuo could speak, Wen Hua was already unable to restrain the excitement in his heart, and he replied in a loud voice. “That Chen Xi humiliated me like that, so what are you hesitating for, Father?”

Wen Tianshuo’s brows raised as he hurriedly stood up and looked out of the room as if he was deeply afraid that someone would overheard.

“Marquis, don’t worry. We’ve already sealed off this place when we came, so any sound in an area of 300m in the surroundings will be unable to be transmitted to the outside world.” Leng Chan’er laughed in a carefree manner, and she had a confident appearance as if the entire situation was within her grasp.

Wen Tianshuo was really worried that everything that had occurred here would be heard by Chen Xi. After all, Priest Zi Yun and the others had died miserably at Chen Xi’s hand in the daytime, and with Chen Xi’s cultivation, even the slightest rustle of leaves within an area of 5,000km would probably be unable to escape his detection.

He was much more at ease when Leng Chan’er said this.

“Miss Leng, to tell you’re the truth, Chen Xi’s current strength is extremely heaven defying. Even though he’s only at the Nether Transformation Realm in cultivation, his combat strength is sufficient to against a fifth level Earthly Immortal Realm expert...” Wen Tianshuo was still hesitant and pondered briefly before he spoke.

Before he could finish speaking, Leng Chan’er interrupted him. “We’ve already found out about all of this before we came. There’s no need to worry, Marquis. Since we dared to come, we naturally possess methods that would absolutely annihilate him.”

When she spoke up to here, her beautiful face was silently suffused with a wisp of a resolute and murderous expression.

She wasn’t exaggerating. When he heard that Chen Xi had left the sect to carry out assignments, Bing Shitian had already arranged everything. Not only had he sent out 12 Earthly Immortal Realm experts, he’d even prepared an ultimate weapon for them!

It was for the sake of achieving the whole task at one go and annihilate Chen Xi.

Especially when he heard Chen X had annihilated eight great sinners by himself, Bing Shitian had even sent out a 6th level Earthly Immortal Realm expert, Elder Yun Zhu, without the slightest hesitation!

It would be a joke if they were still unable to kill Chen Xi under these circumstances!

Wen Tianshuo was absolutely not an irresolute and hesitant figure, and he briefly pondered before gritting his teeth and nodding. “Alright, I agree. I’ll listen to Miss Leng’s instructions in everything!”

Leng Chan’er couldn’t help but grin slightly when she heard this, and she said in her heart. Chen Xi! Oh! Chen Xi! If I’m still unable to do anything against you this time, then I admit that you have the qualifications to be together with Martial Ancestor Qing, and if you die, then you can’t blame anyone else. Who asked you to go against Lord Bing Shitian?

...

A few hours before dawn.

Outside Corona City.

Chen Xi patted Chen Yan on the shoulder and said, "It's over 6,800km from here to the Nine Radiance Sword Sect. It's a long way there, and there are numerous dangerous places all along the way. Take care. You'll be considered to have passed the test if you're able to arrive there safely."

Chen Yan nodded without the slightest hesitation and said firmly, "Senior, don't worry. Even if I crawl, I'll crawl into the Nine Radiance Sword Sect!"

Chen Xi smiled and withdrew a jade talisman from his pocket and passed it to Chen Yan. "Keep this jade talisman. Crash it if you encounter danger, and it'll protect your life once."

Chen Yan received the jade talisman, and then put it away carefully before he knelt down and said, "Thank you, Senior! Chen Yan will surely cherish this opportunity to the extreme!"

As soon as he finished speaking, he rose up and left, and his thin and small figure quickly vanished within the deep cover of the night.

"Little Fellow, I've even give you the Cosmic Immortal Talisman. Don't let me down..." Chen Xi muttered and sincerely hoped that Chen Yan would be able to pass through this test smoothly.

The gentle night breeze carried a trace of coldness, and Chen Xi stood there staring into the distance for a long time before he turned around and left.

So long as nothing unexpected happens, the assignment of passing down the flames can be considered to be completed. As for the enforcement of justice on behalf of the heavens, I still lack two great sinners... Chen Xi pondered deeply as he walked.

Chen Xi raised his head thoughtlessly, and he looked from afar at the Sky Dao Abandoned Mountain that stood towering in the distance and couldn't help but think to himself. Since entering Corona City, I still haven't entered the Sky Dao Abandoned Mountain to search it. Since I have nothing else to do, I can go look through it first.

Swoosh!

In the next moment, he'd vanished on the spot.

The icy moon hung high in the sky while the array of stars flickered. Chilly silver radiance that seemed like a mist suffused the Sky Dao Abandoned Mountain that rose and fell continuously, causing it to seem as if it was covered in a soft silver veil.

This ancient mountain spanned for a few tens of thousands of kilometers, and it was luxuriant and lofty. Under the moonlight, dense mist and clouds curled up while waves of wild beast howls sounded out frequently from within it, causing it to seem mysterious and dangerous.

Chen Xi's figure was like a wisp of flowing light that flickered through the layer of clouds and between the group of mountains, and his Divine Sense that was comparable to an Earthly Immortal Realm expert stretched out as he carefully searched the ground below him.

A very long time ago, the Sky Dao Palace's sect was constructed within this luxuriant mountain range, and after experiencing the passage of countless years, it had completely changed since then, so it was impossible to find the slightest signs of human habitation here.

All along the way, Chen Xi saw many evil spirits, wood spirits, stone creatures, and there was even no lack of demons with extremely formidable auras. But under the scan of his Divine Sense, all these beings in the mountain trembled with fear and could only stay obediently on the spot.

"According to what Huai Ming said, Zi Yun, Huang Jiao, and Chi Ya were originally standing on guard within the Sky Dao Abandoned Mountain, and they were only waiting for Huai Ming to seize the treasure map before they intended to explore the treasure vault. I wonder where the place they were stationed at was..." Chen Xi couldn't help but frown slightly as he'd flown for an entire 10 minutes yet came up empty handed. However, right at this moment, he suddenly noticed something, and his figure flashed. In the next moment, he'd already descended on a nearby craggy mountain and concealed himself.

A short moment later, a few streaks of light flashed over from the extreme distance.

"Be careful. Even though Priest Zi Yun and those other old freaks are dead, the news about the Sky Dao Abandoned Mountain's treasure map has already spread throughout the cultivation world, and there are numerous experts rushing here overnight."

"Senior brother, have you found out where Priest Zi Yun and the others noticed the scouts from Marquis Wen's Estate?"

"It's 3,500km ahead, at the peak of a mountain that's the shape of a dragon's head. That mountain is extremely special, and there's a river coiling nearby it. When looked down from high above in the sky, the river winds and flows to actually form the '道' character, and it's extremely miraculous."

"Oh? There's even such an unusual place? It would seem like that mountain might be the place the Sky Dao Palace resided on all those years ago!"

"Hmph! If it was so easy to distinguish, then the treasure vault left behind by the Sky Dao Palace would have been unearthed a long time ago. In my opinion, there's surely a secret behind this." All these cultivators were around the Nether Transformation Realm. Even though they were communicating via voice transmission, how could they conceal it from Chen Xi's detection? So the content of their discussion was instantly and completely heard by Chen Xi.

A mountain that's the shape of a dragon and a river that's the sake of the character '道' that represents the Dao? After all of them vanished, Chen Xi walked out from the shadows and pondered briefly, and then he didn't delay any longer to flash out towards the distance.

The river roiled while the clean and crystalline flow of water was dyed by a layer of hazy silver radiance under the moonlight. The mountain at its side was extremely high and could hold up the heavens. It was like the head of a dragon raised up high to stare at the universe, and it carried a powerful imposing aura.

When Chen Xi arrived here and saw all of this clearly, he couldn't help but exclaim with admiration in his heart.

At this moment, he was hidden within a layer of clouds high above in the sky, and from his field of vision, the winding and flowing river was like strong and vigorous strokes of a brush, and it wrote a '道' character that emanated an ancient aura on the ground!

It felt as if it was a masterpiece of the lord of creation. It was so natural and written with divine skill. But even though it seemed to be natural, it revealed a shocking energy that pointed directly towards one's heart

Dao!

Weren't all the living beings and cultivators in the world pursuing this mere 'word' for all their lives?

The mountain that towered in the sky was extremely miraculous as well. It was shaped like the head of a dragon looking up into the sky and carried a powerful imposing aura. Moreover, it emanated a vast aura of looking down onto the world, intending to break through the shackles of the world, and wander through the universe.

It really is a combination of the miraculousness and beauty of nature. Such an outstanding location is simply a superb place for cultivation in the heavens and the earth. I wonder why no sect has established themselves here until now... Chen Xi seemed to be lost in thought because he noticed a trace of unusualness just from this.

Moreover, he noticed as well that many auras were concealed beneath the dragon head shaped mountain. Some were extremely obscure, some weren't concealed in the slightest and were vast to the extreme. He roughly estimated that there was actually no less than over 100 people concealed there!

Looks like most of these people obtained some information and rushed over successively with the intention of trying their fortune. Chen Xi pondered deeply and stood there for a moment before turning around and leaving.

He's already carefully inspected the dragon head shaped mountain with the Eye of Divine Truth, and he hadn't noticed anything. Moreover, he'd even utilized the Sky Key to sense the area yet came up empty handed, so continuing to stay here would be a waste of time as well.

Instead of that, wouldn't it be better to leave first? Perhaps he would discover something from the treasure map in the possession of Wen Tianshuo.

Moreover, Chen Xi firmly believed that even if he didn't take Wen Hua as his disciple, Wen Tianshuo wouldn't dare stop him from inspecting the treasure map. After all, if it wasn't for him having slaughtered Priest Zi Yun and the others that day, Wen Tianshuo's estate would have been obliterated a long time ago.

If such a life saving grace couldn't be exchanged for a chance to expect the treasure map once, then even the heavens wouldn't tolerate it!

10 minutes later, Chen Xi returned to his dwellings.

Unexpectedly, he'd just entered the courtyard while Wen Tianshuo was already waiting there.

"Young Hero Chen, you've finally returned." Wen Tianshuo seemed to have heaved a sigh of relief in his heart before greeting Chen Xi with a smile.

Chen Xi was surprised. “Marquis, is there anything you need from me?”

“To tell you the truth, the reason I came to pay a visit to you deep in the night is the treasure map of the Sky Dao Abandoned Mountain.” Wen Tianshuo smiled bitterly. “After all, the news has already been spread out today, and I’m worried that undue delay may bring trouble and cause an unexpected event to occur. So I decided to head to the Sky Dao Abandoned Mountain earlier than planned and explore it!”

Chapter 797: Universal Devil Suppression

What Wen Tianshuo said was perfectly logical and reasonable.

The news that he possessed a treasure map related to the Sky Dao Abandoned Mountain had been leaked today, and it had probably spread throughout the entire cultivation world by now.

After all, if cultivators wanted to spread a piece of news, it was truly too easy because a standard Transmission Jade Slip would be able to instantly spread it to every corner of the world.

Under these circumstances, Wen Tianshuo’s intentions to impatiently enter the Sky Dao Abandoned Mountain ahead of schedule was reasonable because if he were to wait for the experts from the outside world to arrive here successively, then the chances of an unexpected event occurring would undoubtedly increase greatly.

It was even to the extent that an overbearing figure might pay a visit to the estate and forcefully demand the treasure map.

But Chen Xi still felt it was slightly strange. After all, he’d just refused taking Wen Hua as his disciple a few hours ago, and with Wen Tianshuo’s nature, Wen Tianshuo actually turned around and came looking for him to discuss the matter of entering the Sky Dao Abandoned Mountain a short time later. Could it be that there isn’t the slightest grievance in his heart?

“Young Hero Chen, to tell you the truth, I’m already aware that you’re actually the number one figure in the younger generation of the Nine Radiance Sword Sect, Chen Xi. So if I have your assistance, this trip will surely be carried out without effort, and I’ll have no fear of any possible danger.” Wen Tianshuo said respectfully, “What do you think, Young Hero Chen?”

“Alright.” Chen Xi pondered briefly and said, “When are we leaving?”

“Now.” Wen Tianshuo was greatly delighted and replied hastily.

“Just you and me?” Chen Xi felt that it was slightly strange, and he kept having the feeling that Wen Tianshuo’s reactions were slightly too anxious.

“It’s better the less people there are. With Young Hero Chen’s strength combined with mine and coupled with the treasure map in my possession, there’s entirely no need to find any other assistance. If we’re fortunate enough to locate the treasure vault of the Sky Dao Palace, then we’ll share it equally, and we don’t have to worry about anyone else taking a share.” Wen Tianshuo replied swiftly.

Chen Xi chuckled to himself. You only have the treasure map. So even if you locate the treasure vault, you’ll probably be unable to enter it without the Sky Key, right?

Of course, he'd already decided that if he was really able to locate the treasure vault of the Sky Dao Palace during this trip, then he wouldn't mind sharing some of the gains with Wen Tianshuo.

"There's no time to lose, let's go."

Swoosh! Swoosh!

In the next moment, two flowing lights tore through the night sky, and they flashed towards the Sky Dao Abandoned Mountain.

...

All along the way, Wen Tianshuo noticed to his shock that Chen Xi seemed to be extremely familiar with the path within the Sky Dao Abandoned Mountain, and Chen Xi didn't need his guidance at all to fly directly towards their destination.

He couldn't help but ask Chen Xi. "Young Hero Chen, you've...come before to the Sky Dao Abandoned Mountain?"

"Oh, I just happened to have gone around here earlier, and I encountered you when I returned. It was truly a coincidence." Chen Xi nodded and said, "That place with a river shaped in '道' character and a mountain shaped like the head of a dragon is indeed a rare and extraordinary place."

Wen Tianshuo's eyelids couldn't help but twitch when he heard this, and he was slightly anxious. The plan between me and the Heavenflow Dao Sect couldn't have already been noticed by this fellow, right?

He couldn't help but raise his eyes to glance at Chen Xi, yet he noticed Chen Xi's expression remained as normal and didn't seem off, and it caused him to heave a sigh of relief in his heart. But he was still slightly perturbed in his heart.

After all, the operation this time was too shocking, and the slightest mistake might cause him to die a graveless death, and he couldn't help but be anxious.

"Marquis, what's is it? You seem to have a load on your mind?" Chen Xi suddenly turned around and seemed to have thought of something.

"Huh?" Wen Tianshuo was stunned, and then he shook his head and smiled. "I just thought that I might be seeing the Sky Dao Treasure Vault of legend soon, and my mood couldn't help but be slightly worried about what we'll find there."

"Marquis, you have to be careful. Presently, there are many experts concealed nearby the dragon head shaped mountain, and their intentions are obvious. You must not be careless in the slightest." Chen Xi reminded.

"Young Hero Chen is right, it's related to the Sky Dao Palace's treasure vault, and we really can't be careless." Wen Tianshuo nodded repeatedly.

Chen Xi smiled and didn't speak any further.

In next to no time, they were able to see the towering mountain that was shaped like the head of a dragon from afar, and it was lofty and magnificent while bathed until the silver radiance of the moon.

It was at this moment that Chen Xi suddenly stopped moving and concealed himself within the layer of clouds, and he said, "Marquis, there are many cultivators concealed in the mountain ahead, and there's no lack of Earthly Immortal Realm experts amongst them. Why don't you take out the treasure map for us to comprehend it jointly before deciding how to make a move?"

Wen Tianshuo was stunned, and then he said, "Alright, that works as well."

As he spoke, he withdrew a jade slip and passed it over. "I obtained this from an auction house in Corona City half a year ago. I originally thought that it was a cultivation technique, yet never had I imagined that the second half of the jade slip was actually a treasure map. According to what is said within the jade slip, it ought to undoubtedly be the treasure map to enter the Sky Dao Palace's treasure vault."

Chen Xi stretched out his hand to receive it before sizing it up carefully.

Just like Wen Tianshuo had said. This jade slip drew out the patterns of numerous mountains and terrain, and the mountain shaped like the head of a dragon and the '道' character shaped river around the mountain was present within the jade slip.

Moreover, according to the indication of this treasure map, the entrance into the Sky Dao Palace was actually not on the mountain but beneath the '道' character shaped river!

This greatly exceeded Chen Xi's expectations, and the most surprising to him was that there was actually a 300km deep and seemingly bottomless abyss beneath the '道' character shaped river.

This wasn't much. The thing that caused Chen Xi to be surprised was that the deep river wasn't just filled with restrictions, there were even some exceedingly formidable ferocious beasts lurking within it.

Moreover, the deeper one went, the greater the might of the restrictions was, and the greater the strength of those ferocious beasts!

At the bottom of the river was a dark tunnel, and that tunnel was merely the path towards the outer area of the Sky Dao Palace's treasure vault. Besides that, it was filled with numerous barriers, restrictions, and so on and so forth, causing it to be complicated and terrifying to the extreme.

While Chen Xi was carefully examining the treasure map, Wen Tianhua was sizing hi up imperceptibly as well. Wen Tianhua's expression remained as before, but if one were to look carefully, one would notice that his current gaze was changing slightly indeterminately.

This treasure map was real, and Wen Tianshuo hadn't done anything to it. After all, once Chen Xi noticed the slightest error, it might disrupt the plan between him and the Heavenflow Dao Sect, and that wouldn't be worth it.

Now, he was most worried about whether the operation this would be able to achieve success instead!

When he thought up to here, Wen Tianshuo couldn't help but glance towards the distance. The place he glanced at was the vast and mighty river that was sharpened in the form of the character '道', and they had to enter from there if they wanted to search for the treasure vault.

“Looks like this treasure map is probably real.” Chen Xi raised his head and let out a long sigh of relief, and his brilliant gaze shot towards the river as well.

“Of course, I wouldn’t dare disturb Young Hero Chen if I didn’t have some confidence.” Wen Tianshuo instantly organized his feelings and replied with a smile on his face.

“Let’s make a move now?” asked Chen Xi.

Actually, according to his opinion, it was fine to directly charge over. Because he’d noticed that some cultivators nearby the mountain had noticed something strange about the ‘道’ character shaped river, and they were exploring within the river water.

So they didn’t have to worry about any unexpected events happening if they entered at this moment. The only thing they had to worry about was Wen Tianshuo’s identity. After all, the entire world knew that Wen Tianshuo possessed a treasure map.

“Daybreak hasn’t arrived yet, so if we go under the cover of the night and I disguise myself slightly, my identity will probably not be seen through.” Wen Tianshuo was prepared since the beginning, and he executed some sort of secret technique, causing his figure to shake before instantly transforming into a robust man.

Both of them immediately approached the river soundlessly.

Swish!

The river water was clear and surged with silver colored spindrifts under the moonlight. Chen Xi and Wei Tianshuo stood upright above the river, and they just happened to be standing above the top right hand corner of the ‘道’ character and at the short stroke there.

At this moment, there were many figures distributed all around the surroundings of the river. Some had executed underwater movement techniques to split the surface of the water apart before diving in; some stood at the banks of the river and seemed to be searching for something, and they weren’t anxious to make a move.

Moreover, these cultivators seemed to know as well that it was inadvisable to fall into a dispute with the others before the treasure vault was found, so even though their gazes carried vigilance, they didn’t disturb each other and got along peacefully with each other.

“I’ll go down first.” Wen Tianshuo stood above the surface of the river while feeling slightly excited, and his voice carried a trace of trembling and seemed hoarse and low.

“Be careful, this river water isn’t ordinary.” Chen Xi stretched out his Divine Sense to sweep the river beneath him. To his surprise, the river water seemed to contain a shapeless restriction that actually blocked the detection of his Divine Sense!

Swish!

Wen Tianshuo didn’t reply and seemed to be too impatient to wait, and he leaped into the river water and quickly vanished from sight.

Chen Xi didn’t make a move right away when he saw this.

Because, right at the instant when he decided to make a move, a wisp of terror arose and flashed within his heart for no reason or rhyme. This wisp of feeling arrived so suddenly that it caused him to instantly become slightly vigilant.

According to the indication of the treasure map, this river water is an entire 300km deep, and it's densely covered in restrictions and formidable ferocious beasts. Could it be that there are existences within the river that are capable of threatening my life? Chen Xi pondered deeply, and then he executed the Eye of Divine Truth before he bent down to size up the surface of the river.

Rumble!

However, right when his gaze had just touched the surface of the river, it suddenly exploded open and rumbled with an enormous bang that was like a thunderclap that resounded down from the nine heavens.

At the same time, the myriad of splashes of water that sprayed out were even like sharp sword that carried a sharp and fierce howl as they rumbled and spread towards the surroundings, and they seemed like a myriad of swords spreading out and were extremely shocking.

This scene occurred so suddenly, and it occurred on the surface of the river that was less than one meter away from his feet, so even with Chen Xi's reaction speed, he was still caught off guard and dodged repeatedly.

Unfortunately, he was still a step too slow.

A wisp of extremely dazzling and resplendent light suddenly surged out explosively, and it transformed into a screen of light that enveloped Chen Xi's entire body within it.

"The Universal Devil Suppression Sword Formation succeeded!"

"Haha! The kid will be absolutely unable to escape calamity this time!"

"Exactly. It's all thanks to the Marquis's contribution that we're able to smoothly capture this kid today."

"Martial Uncles, don't be careless. It wouldn't be late to celebrate after Chen Xi is crushed."

A wave of clamorous voices seemed to sound out from the horizon. In the next moment, Chen Xi wasn't able to hear the slightest sound any longer, and he seemed to have entered into a world that was separated from the outside world. The scene before him was an endless expanse of whiteness, and he didn't know where he was.

Chapter 798: You Group Of Old Dogs

Rumble!

The waves of water shot into the sky and revealed an extremely vast screen of light, and it was like a picture scroll that covered the skies and was suffused with blazing Immortal Energy. As soon as it appeared, it illuminated the entire heavens and the earth brightly!

When looked at carefully, this picture scroll was formed by eight drawings of swords, and every single drawing of the swords revealed an Immortal Sword and a magnificent scenery.

One of the Immortal Swords was like a pillar of flames that was connected to the sky and covered in surging and blazing lava that raged violently.

One was like a furious dragon rising from the water, causing violent waves to sweep through the sky

One was like a mountain that held up the sky and guarded the heavens and the earth.

One was like the everchanging wind and roamed the universe.

...

The eight drawing of swords revealed eight scenes, and when they were positioned together, sword lights shot out violently into the sky, causing even the heavens and the earth to be cast under a shadow!

All the cultivators nearby the river shaped like the character '道' were alarmed, and their faces revealed shocked expressions.

"This is!?"

"Has a battle broken out? I seem to have seen a figure being swept into that terrifying sword drawing earlier!"

"This seems to be the Universal Devil Suppression Sword Formation from one of the 10 great immortal sects, the Heavenflow Dao Sect!"

Exclaims of shock resounded out while the nearby cultivators revealed heavy expression as they looked at the eight sword drawings that floated in midair and flowed with Immortal Energy, and they were exceedingly shocked.

Swoosh! Swoosh! Swoosh!

Right at this moment, three figures suddenly flashed out from the surface of the water, and it was a young woman, a middle aged man, and an old man.

The young woman wore a luxurious robe, had an exquisite and gorgeous appearance, a graceful and tall figure, a red mark between her brows, and eyes that were like a sky blue ocean, causing her to possess unusual and striking beauty.

The middle aged man had a tall figure, a dignified expression, and his body flowed with Immortal Energy.

The old man wore a black robe, and he was gaunt like a bamboo, yet was the most unfathomable, causing everyone to be unable to help but feel a wisp of indescribable terror from glancing at him from afar.

These three people were Leng Chan'er, Wen Tianshuo, and Elder Yun Zhu, a terrifying existence whose cultivation had attained the 6th level of the Earthly Immortal Realm long ago.

After Wen Tianshuo disguised himself, his appearance had changed greatly, so there had been no one that had seen through his disguise for now, whereas the identity of Leng Chan'er and Elder Yun Zhu was quickly seen through.

After all, amongst the two of them, one was a genius of the Heavenflow Dao Sect's younger generation, and the other was a terrifying great figure at the 6th level of the Earthly Immortal Realm. So how could they possibly be overlooked by the others?

"Fellow Daoists present here today, my Heavenflow Dao Sect has set up the Universal Devil Suppression Sword Formation here for the sake of killing an evil villain. I'm sorry for the disturbance, and I hope all of you can be understanding." Leng Chan'er stood proudly at the bank of the river while her clothes fluttered with the wind. Her beautiful hair flowed down like a waterfall, and every single move she made carried the composed bearing that belonged to someone in a high position.

Everyone was extremely shocked in their hearts when they heard this. On one hand, they'd finally confirmed the identities of Leng Chan'er and the others, and they knew that Leng Chan'er and the others were great figures from the Heavenflow Dao Sect. On the other hand, they were shocked by that 'evil villain' she spoke of.

Evil villain?

Who exactly is he to actually cause so many great figures of the Heavenflow Dao Sect to be deployed, and they even utilized such a terrifying weapon like the Universal Devil Suppression Sword Formation?

The Universal Devil Suppression Sword Formation was truly too famous and was renowned for its ferociousness. Every single sword drawing was an Immortal Artifact, and when the eight sword drawings were joined together, they were an extremely terrifying Immortal Formation!

According to rumor, this formation was possessed by the Sect Master of the Heavenflow Dao Sect, and it had been passed down for a few tens of thousands of years. The Heavenflow Dao Sect had relied on this formation to annihilate countless powerful and monstrous fiends.

Moreover, the requirements to execute this formation was similarly harsh. It required eight experts at the Earthly Immortal Realm or above to be deployed and respectively take charge of one of the sword drawings. Once the enemy fell into the formation, it was like being trapped within a world that was cut off from the outside world, and the enemy would suffer boundless suppression and killing intent, causing the consequences of falling into the formation to be unimaginable.

Presently, the Heavenflow Dao Sect has actually utilized such a great weapon, so exactly how formidable is the strength of this 'evil villain' they are dealing with?

At the very least...it's at the Earthly Immortal Realm, right?

"Fellow Daoists, I presume all of you have heard that this sword formation seals up the heavens and the earth, and it forms a world of its own. So long as the enemy remains, the formation will stand. Moreover, one will be swept in so long as one approaches it. So, it's better for everyone to stay on the spot, so as to avoid being affected." Right when the hearts of everyone were filled with surprise and bewilderment, Leng Chan'er spoke indifferently with a voice that faintly carried a warning tone.

“It wouldn’t be Chen Xi within it, right?” Someone seemed to have thought of something and exclaimed with shock.

As soon as these words were spoken, every single person present here was shocked, and they suddenly recalled that Chen Xi had appeared in the Corona City’s Marquis Wen’s Estate this morning and had annihilated eight great sinners at the Earthly Immortal Realm with a cultivation at the Nether Transformation Realm!

Even though less than a day had passed since this incident occurred, the cultivation world had long since fallen into extremely great shock because of this.

Moreover, it was common knowledge that because Chen Xi had slaughtered Yan Shisan and competed with Bing Shitian, he was like fire and water with the Heavenflow Dao Sect, and they were in a state of irreconcilable enmity that wouldn’t end without the death of the other part.

Now, numerous Earthly Immortal Realm experts of the Heavenflow Dao Sect had suddenly made an appearance in the Sky Dao Abandoned Mountain and utilized the Universal Devil Suppression Sword Formation with the intention of dealing with an evil villain. How could they not suspect that this evil villain was Chen Xi?

Instantly, the expressions of everyone present here became slightly anxious and doubtful.

They were clearly aware that if it really was Chen Xi being trapped within the Universal Devil Suppression Sword Formation now, then the two extraordinary powers, Heavenflow Dao Sect and the Nine Radiance Sword Sect, would surely enter into war!

After all, this character the Heavenflow Dao Sect revealed was truly too despicable.

Right at this moment, the gaunt and bony Elder Yun Zhu who wore a black robe and stood by Leng Chan’er’s side suddenly straightened his backbone before raising his eyes to sweep everyone present here with his gaze.

At this instant, an extremely terrifying aura swiftly suffused the entire heavens and the earth, and it was like a god had awakened from its slumber. Everywhere it looked, the heavens and earth were filled with terror!

The expressions of everyone froze on their faces because a wisp of coldness that felt as if they’d fallen into an icy pit couldn’t be refrained from arising in their hearts when they were swept by this gaze.

“Guessing rashly will only bring harm to yourself!” Elder Yun Zhu spoke indifferently before withdrawing his gaze and recovering his composed appearance from before.

Everyone felt fearful in their hearts when they heard this, and they didn’t dare continue gossiping away.

Leng Chan’er couldn’t help but grin when she saw this, and then she sent a voice transmission to Elder Yun Zhu. “Martial Uncle Yun Zhu, there are eight Martial Uncles taking charge within the Universal Devil Suppression Sword Formation, and another five Martial Uncles have even formed the Grand Five Elements Heavenflow Slaughter Formation. With two formations overlapping each other, it ought to be sufficient to annihilate Chen Xi, right?”

Elder Yun Zhu thought for a moment and replied with a single sentence. "Wait silently for the good news."

...

This was a ghastly world. The ground was vast yet barren, and it was filled with an extremely sharp and murderous aura.

Chen Xi had already recovered his calm from his initial terror.

He already knew that he'd fallen for Wen Tianshuo's deceit this time, and it had caused him to fall into a trap that had been lying in ambush here for a long time.

Very good, I rescued the lives of everyone within your Marquis Wen's Estate, but you repaid kindness with enmity and joined forces with others to entrap me. You're really heedless of consequences... Chen Xi gritted his teeth while his heart was filled with flames of rage. But in next to no time, he couldn't be bothered to be furious because he noticed that the aura of this expanse of the heavens and the earth was actually completely separated from the outside world!

In other words, unless he was able to slash apart the confinement of this world, otherwise, even if he shouted to the point his throat tore apart, not a single sound would be heard in the outside world.

The Universal Devil Suppression Sword Formation... This seems to be a renowned weapon of slaughter of the Heavenflow Dao Sect, and it's formed from eight Immortal Artifact sword drawings... Instantly, Chen Xi understood how adverse his circumstances were. Wen Tianshuo had actually colluded with the members of the Heavenflow Dao Sect with the intention of utilizing the Universal Devil Suppression Sword Formation to annihilate him.

Obviously, he'd already fallen into the confinements of this sword formation!

At this moment, even Chen Xi had no choice but to admire the ability of the person that set up the trap to deal with him this time. The person had first utilized Wen Tianshuo's treasure map as bait to draw him out, and then set up an ambush within the river before suddenly making a move. It seemed to be simple and ordinary, yet its advantage was that it took him by surprise.

They neither chose to attack him along the way nor to make a move after he entered the river nor make a move at one of the dangerous points indicated on the treasure map, and they just happened to have chosen the moment he was about to enter the river to make a move. It seemed to be the most sloppy and ordinary location, but it was the most capable of attaining the effect of taking him by surprise.

Swish! Swish! Swish!

Five rays of light suddenly descended from the sky, and they formed a five elemental formation in the shape of a plum blossom, causing them to seem like a blazing circle that descended down with a sharp aura that shot into the sky.

They were five old men with fluttering sleeves. Every single one of them held Immortal Swords while their bodies were coiled with Immortal Energy, and they moved as if they were a whole and formed a piercingly cold, peerless, and exquisite slaughter formation.

The Grand Five Element Heavenflow Slaughter Formation? Chen Xi's eyes narrowed as he dodged repeatedly. Never had he imagined that these old goats from the Heavenflow Dao Sect would find it insufficient to just utilize the Universal Devil Suppression Sword Formation, and they'd even encased another formation within the formation to form another slaughter formation. Obviously, they intended to use absolute strength to annihilate him here.

"Vile spawn! Kneel down and receive your death!" Right when Chen Xi hadn't moved very far away, numerous tall and mighty figures suddenly surged out from all directions once more, and they respectively stood in the positions of Sky, Ground, Wind, Water, Fire, Mountain, Marsh, and Lightning in the eight trigrams and obstructed all his paths of retreat.

They seemed to reveal an approach of causing him to have nowhere to dodge before exterminating him ruthlessly.

This group of Earthly Immortal Realm experts similarly held Immortal Swords in their hands, and the attribute revealed by the Immortal Swords in their hands varied according to the positions they stood on.

For example, the Earthly Immortal Realm expert that stood on the position of Fire held an Immortal Sword with a flaming glow that shot into the sky. As the saying goes, the trigram of Li had a mutually promoting relationship with fire, and the karmic luck of fire was held within it.

The other Earthly Immortal Realm experts were just like this as well. Even though they stood at different positions, they cooperated with each other from a distance and formed a unique connection that fused their auras together, causing them to become a whole that was extremely terrifying.

On the other hand, regardless of it was the Grand Five Element Heavenflow Slaughter Formation or the Universal Devil Suppression Sword Formation, both of them were led by the yellow robed old man that stood in the 'Kun' position.

The trigram of Kun represented ground. It resided in the center and commanded the surroundings, and it was a central and crucial point.

Moreover, this position furtively conformed with the element of Earth in the five elements, and it was like a single whole, causing the yellow robed old man to easily control two slaughter formations!

The person that shouted at Chen Xi earlier was precisely this yellow robed old man as well. He had a lean appearance, and a strand of a long beard beneath his chin. His sleeves fluttered while he emanated a sage-like aura, and he seemed to be filled with a sense of righteousness.

"13 experts with equivalent cultivations at the 3rd level of Earthly Immortal Realm, it is indeed capable of bringing forth the greatest lethality from these two grand formations. Looks like Bing Shitian really exhausted a great deal of resources this time." Chen Xi placed his hands behind his back, and he stopped dodging and stood silently at the center.

His eyes swept the surroundings with his gaze before descending onto the yellow robed old man in the end, and then a wisp of deep ridicule suffused the corners of his mouth. "You group of old dogs, aren't you ashamed of yourselves? You mobilized so many people to deal with me and even used a trap to

ambush me, yet you still act so righteous? You've really lost face for your superior. Have all of you lived so long for nothing?"

Chapter 799: Breaking Apart The Five Elements

Group of old dogs?

The expressions of the yellow robed old man and the others darkened when they heard this.

Every single one of them Earthly Immortal Realm elders from the Heavenflow Dao Sect had cultivations at the 3rd level of the Earthly Immortal Realm, and they'd lived for countless years. Now, they were actually insulted as 'old dogs' in their faces by a junior, and this was simply an enormous disrespect!

"You're courting death!"

"Kill! Kill this suckling kid!"

"Senior Brother Jing Kong, let's make a move. There's nothing to say to a lawless little bastard!"

The group of Earthly Immortal Realm experts were infuriated, and they berated him successively with low voices.

The person addressed respectfully at Senior Brother Jing Kong was exactly the yellow robed old man, and he was similarly infuriated to the extreme, and he sneered immediately. "Junior Brothers Ding Yuan, Ding Yu, Ding Rong, Ding Zhen, and Ding Ping, make a move and annihilate this kid!"

As soon as he finished speaking, those five Earthly Immortal Realm experts that formed the Grand Five Element Heavenflow Slaughter Formation were already unable to restrain themselves and attacked brazenly.

Rumble!

Terrifying Immortal Energy rumbled as it transformed into five strands of sword qi that could pierce through the heavens, and they assumed the state of a chain of the five elements before smashing down at Chen Xi!

This was an attack from five 3rd level Earthly Immortal Realm experts that held Immortal Swords in their hands, had formed a grand formation, and attacked with rage, and it seemed practically capable of obliterating the heavens and the earth and crushing everything in the world.

If it was placed in the outside world, merely this strike was sufficient to crush 50,000km of landscape!

Swoosh!

Chen Xi didn't dare resist this strike forcefully as well. He held the Talisman Armament in his hand while executing the Wings of Disruption with all his might, and he was like a flowing light that moved through space and flickered between reality and the void.

At the same time, the Talisman Armament in his hand flickered with sword lights that deduced the energy of creation as it slashed repeatedly, and it dispersed all attacks against Chen Xi. Every single move he made naturally carried a calm, composed, majestic, and powerful imposing aura of its own.

Instantly, the two parties had exchanged over a hundred blows, and they fought to the point the sky dimmed, rocks and dust fluttered in the air, and mountains and rocks shattered. Vast and mighty sword qi that were terrifying like a tide rumbled and surged as it stretched out towards the surroundings, and it threw the entire surroundings into great chaos.

Chen Xi grew more valiant as the battle progressed. Sword qi whistled freely through the surroundings, and a Grand Five Element Heavenflow Slaughter Formation was actually incapable of doing anything to him, and it was instead on the verge of being beaten to the point of collapse!

These five Earthly Immortal Realm experts from the Heavenflow Dao Sect were only at the 3rd level of the Earthly Immortal Realm, and if it wasn't for them possessing Immortal Swords and forming the slaughter formation, they would have been slashed to death by Chen Xi a long time ago.

After all, his current combat strength was already sufficient to slaughter experts at the 4th level of the Earthly Immortal Realm, and even if a 5th level Earthly Immortal Realm expert were to make a move, he had sufficient confidence to escape safely!

On the other hand, in terms of magic treasures, the Talisman Armament in his hand was even comparable to a true Immortal Artifact, and it even contained a strand of Chaotic Source Qi within it. When these two factors were combined together, it was like adding wings to a tiger, so why would he be afraid of the Immortal Swords in their hands?

Even if it was the Grand Five Element Heavenflow Slaughter Formation, it was nothing in Chen Xi's opinion. His cultivation in the Dao of Talismans that had attained an otherworldly state a long time ago, and coupled with the supreme Divine Ability in three dimensions, the Eye of Divine Truth, it was sufficient for him to easily see through the flaws and secrets of all formations in the world.

The only thing he was afraid of was that the tacit cooperation between these five Earthly Immortal Realm experts was too extraordinary, causing them to execute the slaughter formation to a flawless state. Even if there was a flaw, it was only momentary and utterly didn't give him an opportunity to seize.

But he disregarded all this. He intended to overcome everything with force and destroy all with his sword!

Bang!

Chen Xi soared through the sky with a gaze that was like a bolt of lightning, and his body transformed into an ocean of talisman markings. The pitch black and lusterless Talisman Armament was like a blade that ploughed through the sky, slashed Yin and Yang into a chaotic state, tore space apart, and carried the terrifying aura of boundless creation and the obliteration of both past and future as it slashed down.

Bang!

The Earthly Immortal Realm expert that resided in the position of 'metal' in the five elements was the first to bear the brunt. He was slashed by this strike to the point his entire body trembled while he staggered back, and then a sweet taste entered his mouth before a mouthful of blood suddenly sprayed out from his mouth.

He had an astounded expression as he dodged repeatedly.

“Old dog! Die!” Chen Xi shouted explosively and stepped forward as if he’d shrunk the distance into an inch. As soon as he took the stride, a terrifying strand of Creation Sword Qi directly arrived before the Earthly Immortal Realm expert, and it carried an oppressive imposing aura of advancing boldly without ever stopping.

If one wants to break out of an encirclement, then first kill one of them. The slaughter formation would break up on its own because its strength would reduce greatly.

“How dare you, little bastard!” Right at this moment, four Immortal Swords tore through the sky and slashed down right towards Chen Xi’s heart, eyes, head, and Dantian, and they carried fierce sword qi that were ghastly and murderous to the extreme.

Those four Earthly Immortal Realm experts that stood in the other four positions within the five element sword formation saw that the situation was bad and came to assist him, and they aimed to rescue the besieged by besieging the besieger instead. As far as they were concerned, Chen Xi would surely dodge if he wanted to survive, and in this way, all danger would be smoothly overcome with ease.

However, never had they imagined that Chen Xi would actually not dodge!

Moreover, he seemed as if he hadn’t noticed these attacks and was still charging forward as if he wanted to take the Earthly Immortal Realm expert down with him. Chen Xi slashed down with his sword and split open the Earthly Immortal Realm expert before him.

Pu!

Fresh blood sprayed out as the Earthly Immortal Realm expert before him was blasted into a ball of bloody foam by this sword strike before exploding in midair. The scene of his death was horrifying to the extreme, and he didn’t even have the chance to let out a shrill cry!

This scene caused the eyes of the other nearby Earthly Immortal Realm experts to almost split apart while blood oozed out from them, and their faces were covered in deep disbelief.

But at the same time, Chen Xi suffered the blast of four Immortal Swords.

“Die!”

The death of their companion caused those four Earthly Immortal Realm experts to shout explosively while filled with extreme rage. They naturally didn’t hold back in the slightest upon grasping onto this opportunity to annihilate Chen Xi, and they attacked with all their might.

Chen Xi did indeed have nowhere to escape and was unable to dodge, and he seemed like a prisoner that had fallen into the grasp of shackles and could only silently await his doom. However, unexpectedly, his entire body suddenly erupted with a strand of Immortal Energy that actually blocked this lethal strike!

Bang! Bang! Bang! Bang!

Four Immortal Swords collided fiercely with Chen Xi’s body and emitted enormous bangs that shook the heavens and the earth. It was like thunderclaps descending from the heavens, and it shook him to the point of being blasted flying like a kite that had its string cut off. He coughed up blood repeatedly while the sounds of bones breaking echoed out throughout his entire body.

Even though he seemed to be in a miserable state, he survived in the end!

It was even to the extent that as soon as his figure stabilized, the injuries that covered his entire body recovered instantaneously, and besides his countenance being slightly pale, he actually seemed to be completely unharmed!

It was too swift!

From the moment Chen Xi annihilated the Earthly Immortal Realm expert and suffered a counterattack, this string of actions happened extremely swiftly, and it was swift to the point that Elder Jing Kong and the others that resided in the other eight positions didn't even have the time to make a move before all of this had occurred.

"An immortal armor! He's actually wearing an immortal armor!"

"How could this be possible!? A precious treasure like this is comparable to a Darkspirit Grade Immortal Artifact, so how could it be possessed by a kid at the Nether Transformation Realm?"

"Dammit! What a cunning and ruthless little bastard!"

"It's over. Junior Brother Ding Zhen didn't fall to the heavenly tribulation but died at the hands of a despicable little bastard..."

"Kill! Activate the Universal Devil Suppression Sword Formation and attack together with full force. I want to burn the bones of this kid and scatter his ashes, I want him to be unable to enter the cycle of reincarnation forever!"

All of the Earthly Immortal Realm experts were furious, and their roars shook the heavens.

They were an entire 13 Earthly Immortal Realm experts that had even set up two layers of terrifying slaughter formations, yet they actually still allowed Chen Xi to kill one of their companions right under their noses. This caused them to feel unprecedented humiliation and fury.

At the same time, they had no choice but to admit that Chen Xi's strength was really too heaven defying, and he even possessed various formidable magic treasures. So if they were unable to eliminate such a heaven defying and monstrous genius today, he would surely become a great calamity for them in the future.

"Attack!" Elder Jing Kong roared.

Om!

In the next moment, the entire world underwent a tremendous change. The figures Jing Kong and the other Earthly Immortal Realm experts that resided at eight different directions in the surroundings suddenly shook before they transformed into eight extremely vast and sword drawings.

It seemed as if the surroundings were a world ruled by Immortal Swords. It contained the world deducing profundities of Qian, Kun, Xun, Kan, Li, Gen, Dui, and Zhen that embraced everything within the world and emanated an extremely terrifying might.

Its aura practically intended to overturn the world, bring chaos to the universe, and throw everything in the world back into chaos. Moreover, a seemingly material murderous aura surged out from it.

At this moment, if it was any other cultivator at the Nether Transformation Realm, then merely experiencing this aura would cause the cultivator to be shaken to the point of being overwhelmed with terror and perishing!

At the same time, those four remaining Earthly Immortal Realm experts, Ding Yuan, Ding Yu, Ding Rong, and Ding Ping, had formed their formation together once more, and they stood in the position of the four-symbols and cooperated with each other from a distance.

When looked at from afar, it seemed as if the entire heavens and the earth was dominated, controlled, and commanded by these 12 Earthly Immortal Realm experts, causing them to seem like rulers that looked down upon all living beings and wielded absolute power.

“Kill!”

“Kill!”

“Kill!”

Numerous roars that shook the heavens sounded out like the howls of Fiendgods, and then several extremely blazing and resplendent strands of sword qi were like a group of falling comets from outer space as they covered the heavens and the earth and smashed down towards Chen Xi from all directions!

This terrifying phenomenon simply seemed no different than the end of the world.

Bang!

The heavens and the earth were collapsing, mountains were turned into ash, and the ground had numerous bottomless rifts torn open on it. Everywhere the peerless and blazing sword qi passed, everything fell into collapse, obliteration, and extermination.

Chen Xi was caught within this, and he seemed like an ant that suffered a calamity of the heavens and the earth. He seemed to be so tiny, and it seemed as if he would be obliterated in the next moment.

At this moment, his expression became extremely serious for the first time, and he practically didn't hesitate in the slightest to utilize his entire cultivation and exert 10 times his combat strength before swings the Talisman Armament while charging towards these strands of sword qi!

Even though he was all alone and extremely tiny, he carried the courage to slaughter his way up to the nine heavens with his sword in hand.

Bang!

A strand of sword qi smashed down, and Chen Xi didn't have enough time to dodge, so he could only meet it head on.

Bang!

Chen Xi was shaken to the point his figure staggered while the vital blood in his entire body roiled without end.

But he couldn't care about all this, and he gritted his teeth while charging repeatedly with the intent to kill!

At this moment, there was no room for him to be distracted in the slightest because his opponents were 12 Earthly Immortal Realm experts, the renowned Universal Devil Suppression Sword Formation of the Heavenflow Dao Sect, and this entire world before him!

Indeed, the situation before him was no different to him going against an entire world by himself. Terrifying strands of sword qi that swarmed towards him filled the entire surroundings, and it intended to slaughter and bury him here.

Even time seemed to have slowed down.

Chen Xi charged with all his might, but the attacks that covered the heavens and the earth were too dense and terrifying. At this moment, he seemed like a worm that had fallen into a spiderweb, and he had no way to struggle free at all.

It was even to the extent that his situation was gradually becoming dangerous, and the room to turn the situation around grew smaller and smaller...

Bang!

Almost 100 terrifying strands of sword qi blasted down like torrents, and they collided with Chen Xi's body. It struck him to the point his face went pale while a mouthful of blood suddenly sprayed out from his mouth, and a wave of violent cracking sounded out from the bones and tendons in his entire body while every single inch of his skin oozed strands of blood.

Instantly, he was like a blood covered figure that had fallen into a hopeless situation!

Chapter 800: Slaughtering Successively

At the bank of the river shaped like the character

Suddenly, under the focused gazes of everyone present here, the drawing that blotted out the sky and was floating in midair all along emanated boundless immortal radiance that shot into the nine heavens, and it instantly dispelled the dark veil of night!

"The Universal Devil Suppression Sword Formation has been activated!"

"Could it be that the victor is about to be decided?"

"What a terrifying scene. Once a slaughter formation like this is activated, how many people in the world are capable of escaping it?"

Everyone was shocked and exploded into an uproar. All of them had heavy expressions while they stared with eyes wide open fixedly at the drawings that formed the Universal Devil Suppression Sword Formation, as they were deeply afraid that they would miss the slightest detail.

“The Universal Devil Suppression Sword Formation has actually been activated. Looks like the Grand Five Element Heavenflow Slaughter Formation wasn’t capable of crushing Chen Xi.” Leng Chan’er sighed with emotion, and she had a slightly complicated expression on her face. A figure like Chen Xi is really a peerless figure that leads ahead of all his peers in the world. Unfortunately, he went against Lord Bing Shitian, so he’s destined to be an enemy.

After that, she recovered her composure and smiled as she spoke to the nearby Elder Yun Zhu. “There’s no need for Martial Uncle to make a move this time.”

Elder Yun Zhu stood with his hands behind his back and replied indifferently. “Not to mention that little kid, even I only have 40% confidence in escaping 13 Earthly Immortal Realm experts and the Universal Devil Suppression Sword Formation.”

Leng Chan’er smiled, and then she looked at the nearby Wen Tianshuo. “Marquis, it won’t be a moment before Chen Xi will undoubtedly die. Why don’t we seize this opportunity to look into some matters related to the treasure map?”

Wen Tianshuo had always been staring fixedly at the eight terrifying sword drawings in midair, and he seemed to be lost in thought. He suddenly recovered his senses when he heard this, and then nodded repeatedly. “That’s for the best, that’s for the best.”

At this moment, he finally heaved a long sigh of relief when he found out that Chen Xi would die for sure.

Truthfully speaking, he’d always been in a state of anxiety and fear when cooperating with the members of the Heavenflow Dao Sect to trap Chen Xi in this hopeless situation.

It couldn’t be helped, Chen Xi was truly too terrifying. Not only did Chen Xi possess a heaven defying strength, even his background was terrifying to the extreme, and his Marquis Wen’s Estate would surely be subjected to the danger of annihilation if Chen Xi didn’t die.

It was even to the extent that even if he fled into the protection of the Heavenflow Dao Sect, he would surely become a thorn in the side of Chen Xi and the Nine Radiance Sword Sect, and days like that were absolutely horrible.

But now that he found out that Chen Xi would die without a doubt, it could be considered as a great consolation that allowed him to be much more at ease.

Subsequently, Leng Chan’er paid no further attention to the situation in the Universal Devil Suppression Sword Formation, and she started look into some details related to the treasure map that led to the Sky Dao Palace’s treasure vault with Wen Tianshuo.

They revealed a carefree appearance as if they were just waiting for Chen Xi to be slaughtered before instantly going to unearth the treasure vault.

...

Pu!

Blood sprayed out from Chen Xi's mouth as he staggered, and he was heavily injured by that strike, causing his entire body to be bathed in blood. He was like a trapped beast in a hopeless situation, and he seemed as if he would be crushed in the next moment.

He gritted his teeth and circulated the Shaman Energy to repair his body. At the same time, the Blackhole World within his Dantian rumbled as it circulated in full force, causing his entire body to seem like a wisp of blazing light as he charged forward once again.

The Talisman Armament in his hand soared through the sky while spraying out both horizontal and vertical dazzling Creation Sword Qi that seemed like a river of stars descending from the nine heavens. He fought while bathed in blood, and he emanated a bold and fearless imposing aura.

This battle was the most dangerous battle he'd encountered since leaving the sect to temper himself this time, because Priest Zi Yun and the others were utterly incapable of comparing with these geezers from the Heavenflow Dao Sect.

Even though their cultivations were roughly comparable, in terms of combat strength and cooperation, they were utterly not on the same level.

The reason for this was the Universal Devil Suppression Sword Formation. This grand formation was formed from eight Immortal Artifacts, and it was a true Immortal Formation. If it was utilized in the hands of a Heavenly Immortal, then it would even possess the might to annihilate a world!

At this moment, it was executed under the joint forces of Elder Jing Kong and the others, so even though its might was incapable of annihilating a world, it was sufficient to trap and kill an existence at the sixth level of the Earthly Immortal Realm.

"Hmph! You can be considered to be extraordinary since you were able to struggle until now, and if you were given a period of time, you would surely grow into an overlord. But, unfortunately, you'll surely die here today!" Elder Jing Kong sneered while the Immortal Sword in his hand swept out repeatedly while combined with the Universal Devil Suppression Sword Formation, and it sprayed out a myriad of vast and murderous strands of terrifying sword qi, causing it to seem like a rainstorm descending from the sky and crashing down at Chen Xi.

Bang! Bang! Bang!

Chen Xi suffered a heavy strike, causing his figure to sway indeterminately while his countenance grew even paler. At this moment, he was like a tiny leaf on the ocean, and he was struck by the violent waves, causing him to in a precious and extremely dangerous situation.

However, to the surprise of all the Earthly Immortal Realm experts, Chen Xi who seemed as if he would die in the next moment actually recovered every single time and persisted for an entire 10 minutes of time!

"This little bastard's cultivation is so deep. The True Essence within his body actually seems boundless, and its resiliency is so strong as well. It's as if it's being reproduced endlessly. No wonder he was able to surmount a realm to do battle and kill Priest Zi Yun and the others."

"Kill! We must kill this little bastard today. The more he's like this, the greater the threat he poses. If he's allowed to mature, then he'll absolutely be a great enemy of our Heavenflow Dao Sect!"

“Exactly. Since such a monstrous and heaven defying genius can’t be of use to us, then only by killing him would we be able to be rid of all future trouble!”

Chen Xi’s extremely tenacious vitality caused all the Earthly Immortal Realm experts to be shocked, and the more he was like this, the greater the killing intent in their hearts blazed.

He’s only at the Nether Transformation Realm now. If he’s allowed to advance into the Earthly Immortal Realm, then how extraordinary would he be?

Such evil has to be annihilated as soon as possible!

“Cold lights rise when the world is at war, and rustling sword howls eliminate all devils!” Elder Jing Kong shouted loudly while directing everyone to execute one of the three ultimate moves of the Universal Devil Suppression Sword Formation – Universal Destruction!

Bang!

The clouds roiled in the surroundings as sword howls surged out like a tide. The space in the surroundings shattered abruptly before transforming in a myriad of peerless sharp strands of sword qi before sweeping out towards Chen Xi who was at the center!

When facing this terrifying ultimate move that sealed up and enveloped the surroundings, Chen Xi had no place to dodge at all. Even if he possessed the protection of the Immortal Artifact, Nethermist Feathered Armor, he was still shaken to the point of bleeding from all seven apertures while numerous terrifying injuries were sliced open all over his body by the sharp sword qi, causing blood to flow, and it was an extremely shocking scene.

Instantly, his entire body was drowned by the terrifying sword qi that seemed like a tempest.

“Is he dead?”

“he ought to be dead!”

“Haha! If this strike was unable to kill him, then wouldn’t it seem like we’re too useless?”

All the Earthly Immortal Realm experts stopped attacking as they looked at the center of the battlefield with proud and relaxed expressions.

“This Chen Xi can be considered to be a peerless genius. Unfortunately, he was still too young... Let’s go, I presume Lord Bing Shitian will probably be very happen when he finds out about this.” Elder Jing Kong smiled unhurriedly before instructing indifferently.

Bang! However, right at this moment, a peerless and terrifying fluctuation suddenly stretched out from the center of the battlefield, and it seemed like an unmatched ferocious beast from the primeval times had awoken from its deep sleep and looked down upon the world!

That’s...

Instantly, the faces of Jing Kong and all the other Earthly Immortal Realm experts froze, and then they revealed expressions of disbelief.

Within their fields of vision, a tall figure walked out from within a great expanse of chaos, and his entire body was bathed in blood. Every single step he took seemed like a Fiendgod striking a heavenly drum, and it emitted resounding thumps that shook the space and surged throughout the surroundings.

He was exactly Chen Xi!

But unlike before, his jet black and dense hair had actually become silver like snow, and it was extremely dazzling. Coupled with his handsome appearance, it caused him to carry a murderous, experienced, and chilly aura.

His figure was straight like a spear and carried the Talisman Armament in his hand. Moreover, his footsteps were like thunder, while his white hair seemed like a flowing waterfall! At this moment, Chen Xi's aura had completely doubled!

Merely the aura he emitted caused all the Earthly Immortal Realm experts to feel apprehensive in their hearts. Earlier, his combat strength was already comparable with the 4th level of the Earthly Immortal Realm, and now that it had actually doubled explosively, how terrifying would he be?

Could it be that he'd always been concealing his strength?

"The Godslaughter Burst! The Yazi Clan's ultimate technique!" An Earthly Immortal Realm expert seemed to have noticed a clue, and he couldn't help but exclaim involuntarily with a voice that was filled with disbelief.

The Godslaughter Burst!

The hearts of the other Earthly Immortal Realm experts jerked, and their expressions instantly darkened to the extreme.

This terrifying Dao Art came from the primeval ferocious beast, Yazi, and once it was executed, it was capable of condensing the spirit, energy, and essence within the entire body and cause one's strength to double explosively through a secret technique!

Unlike the multiplying combat strength grasped by cultivators at the Nether Transformation Realm, if a cultivator that executed this Dao Art already possessed 10 times combat strength, then the cultivator would be able to exert 20 times his combat strength!

During the primeval times, the ferocious beast Yazi had once slaughter a true god, allowing it to make a peerless reputation for itself, and it relied exactly on this terrifying Dao Art that was almost heaven defying.

Obviously, the imposing aura Chen Xi revealed at this moment entirely conformed with the characteristics of the Godslaughter Burst.

"Attack! Even though this technique is formidable, it possesses an extremely great flaw. Every time it's executed, it'll exhaust an enormous amount of spirit, energy, and essence. Moreover, it can only be sustained for an extremely short period of time. Once this period of time passes, he'll be returned back to normal and would even suffer backlash!"

"Right! Quickly attack and kill this little bastard!"

All the Earthly Immortal Realm experts howled successively with rage before attacking once more, and they utilized the Universal Devil Suppression Sword Formation to blast down upon Chen Xi once again.

“You group of old dogs! Do all of you think I’d give you the chance?” Amidst his indifferent and murderous voice, Chen Xi’s entire body suddenly vanished on the spot. In the next moment, he’d already arrived before an Earthly Immortal Realm expert, and the Talisman Armament soared through the sky.

Pu!

A head was slashed off!

A golden rain of blood fell. Even until his death, the Earthly Immortal Realm expert didn’t understand how Chen Xi’s strengths would become so terrifying.

“Junior Brother Ding Rong!” The other Earthly Immortal Realm experts roared with rage and shock, and they were furious to the point blood oozed out from their eyes that were filled with disbelief.

“Die!”

His white hair and clothes fluttered in the wind. At this moment, Chen Xi was like a god of devils that had walked out from a mountain of corpses and a sea of blood, and he intended to use the sword in his hand to sate himself with the blood of his enemies!

Bang!

Another Earthly Immortal Realm expert was slaughtered. His body was slashed into two before exploding open in midair, and it transformed into bloody froth that sprayed through the sky, causing it to be a horrifying, beautiful, and shocking scene.

Kill!

Chen Xi moved forward with large strides and an indifferent expression. He killed one in every 10 steps, and no one was capable of stopping him. Everywhere he passed, numerous cries that were shrill and miserable to the extreme resounded out while strings of scarlet red blood sprayed towards the surroundings.

The entire heavens and the earth were covered in miserable shrill cries, rains of fresh blood, and severed limbs flying about. It was like a field of slaughter in purgatory, and the targets of the slaughter were the blood and souls of Earthly Immortals!

Everywhere the tip of his blade reached, no one was capable of stopping it!

In merely the time of a few breaths, there were nine Earthly Immortal Realm experts that had their lives reaped like weeds, and they fell on the spot.

These terrifying scenes shocked Elder Jing Kong and the others to the point they couldn’t endure the shock and terror in their hearts any longer, and they cried out repeatedly. “How could this be possible!? How could this be possible!?”
