

Tamer Family 141

Chapter 141: An Extravagant Breakthrough Method

Yang Chen didn't know what other benefits there would be after advancing to Level Eight, but since Deshun Prince had said so, the Chen family should advance to Level Eight as soon as possible.

There were two steps for an aristocratic family to advance to Rank-8. The first step was to announce it to the world. Only after obtaining the approval of the heavens could the second step be carried out.

Generally speaking, as long as there were two Core Formation experts in the clan, the first step would not be a problem.

The second step was to invite some aristocratic families to a banquet to show off their status as an Eighth-rank aristocratic family.

In Da Qian, the second step was called the Promotion Banquet. If a family advanced to Rank Eight, all the Prefecture Overseers of the prefecture would go back to participate.

The Prefecture Overseer attending was to represent the royal family in recognizing his Rank-8 status, and also to rope him in.

After all, the Great Gan Lord Dynasty was short of resources. A county could only support one eighth-rank aristocratic family.

There were less than 100 Rank-8 aristocratic families in the entire Great Gan Lord Dynasty, so it was impossible for the royal family to not value them.

As for the seventh-rank aristocratic families and sects, although they were nominally affiliated with the royal family of Da Qian, they were secretly trying to surpass the royal family of Da Qian.

There was always some unhappiness between them.

Back to the main topic.

After agreeing that the Chen family had advanced to Rank Eight, the Deshun Commandery Prince asked, "Disciple, why are you looking for me?"

When Chen Yang heard this, he said, "I'm here to ask Master to help me buy a Grade Seven Aptitude Pill. The spirit stones will be paid by my Chen family." "Tier 7 aptitude pill? That was easy to say. When the time came, he could just ask Pill King Mo Xiao for it. He had quite a few." Deshun Commandery Prince immediately agreed.

A Tier 7 Aptitude Pill might be extremely precious to others, but it was nothing to the Deshun Commandery Prince and some powerful Tier 7 forces.

Of course, it was not possible for an alchemist to refine pills for a long period of time. However, if he were to buy one every once in a while, no matter which alchemist it was, even Pill King Mo Xiao, would give him face.

Seeing that there was a seventh-grade aptitude pill, Yang Chen continued to ask, "Master, is there anyway to help a martial artist at the peak of the Qi Refining realm break through and open their meridians quickly?"

Chen Yang asked this question because of Chen Die.

There was only a year left before the 10-year period for the Primary Spirit Pill assessment. Yang Chen was naturally anxious and asked Die Chen to break through to the Meridian Opening Stage.

Upon hearing this, Deshun Commandery Prince stroked his beard and thought for a moment before saying, "This matter is also simple. The safer way is to continuously use Meridian Unlocking Pills to break through."

"This Meridian Unlocking Pill has mild medicinal properties. Even if you fail to break through, there won't be any consequences."

“As long as you’re willing to spend spirit stones, breaking through to Meridian Unsealing in a short period of time shouldn’t be a problem.”

“Let’s use this method.” Yang Chen’s eyes lit up.

Chen Die was the only alchemist in the Chen Family, so Yang Chen naturally had to pay attention to her safety.

If he could settle it with spirit stones, why would he gamble his safety?

Deshun Commandery Prince was stunned, but he immediately scolded with a smile, “You brat, your family has earned quite a lot of spirit stones. You’re actually so generous.”

” Even if they are in the royal family, they wouldn’t be willing to push for Meridian Unsealing regardless of the price unless they are disciples that they value.”

“Your Chen family is more noble than the royal family.”

Seeing this, Yang Chen smiled and scratched his head, “The one who needs to break through and open his meridians is the only alchemist in our Chen family. Naturally, we have to pay attention to safety and play it safe.”

“That’s true. We naturally have to value such a precious talent.” Deshun Commandery Prince understood.

“Since that’s the case, I have nothing else to do. I hope A/laster will pay more attention to the matter of the grade-7 aptitude pill.”

Chen Yang turned around and left after bowing to the Prince of Deshun.

Chen Yang, who had left the Deshun Prince’s Mansion, was not in a hurry to return to the Chen Family. Instead, he headed to the Zhou Trading Company in Yi City.

“Customer, what do you need?”

As soon as they entered the mall, an attendant greeted them with a smile.

Seeing this, Chen Yang gave Zhou Mingxiao to Chen Yang and showed the token that represented the status of the Zhou Trading Company’s distinguished guest to the attendant.

The attendant took the token and examined it for a moment. Then, his pupils constricted and he returned the token to Chen Yang with a cautious expression. Then, he said, “Esteemed guest, please wait a moment. I will go and invite my shopkeeper.”

Seeing this, Chen Yang nodded his head and then started to size up the business.

Not long after, the Yi City shopkeeper came up with a smile and bowed to Chen Yang. “I didn’t know you were here. I hope you can forgive me.”

“Shopkeeper, there’s no need to be so polite.” Yang Chen smiled as he helped the shopkeeper up and said, “I want to buy some medicinal pills. I wonder if the shopkeeper has them here.”

“Yes, sir. Please follow me.”

Immediately, under the surprised gazes of the guests, Yang Chen followed the shopkeeper into the inner room.

After the two of them disappeared, the guests began to chat with ease.

“Who is that person? Why is he welcomed by the shopkeeper? I remember that even though the Patriarch of an Eight-rank Aristocratic Family came, the shopkeeper here didn’t come out to welcome him.”

“Who knows? I guess he’s a royal descendant. Forget it, what does this have to do with you and me? Just do what you need to do.”

This wave came and fell quickly. Soon, everyone stopped paying attention to this matter.

In the inner chamber.

After serving him a cup of tea, the shopkeeper looked at Chen Yang with a flattering expression.” What kind of pills do you need, sir?”

“Meridian Unlocking Pill.” Yang Chen took a sip of tea and said leisurely.

Hearing that Yang Chen wanted the Meridian Unlocking Pill, the shopkeeper’s smile widened and he quickly asked,“How much does AAlord want?”

“How much...”

Yang Chen thought about it and felt that it was better to be safe. He immediately said,“Give me ten pills first.”

Ten!

The shopkeeper felt that his eyes were blinded by the light of the spirit stone. How much commission could he get from ten Meridian Unlocking Elixirs?

The shopkeeper immediately stood up.” Please wait a moment, sir. I’ll be right back.””

“Okay, go ahead.”

Not long after, the shopkeeper came over with a storage bag. After bowing to Yang Chen, he took out ten ice-white jade bottles from the storage bag.

“Sir, here are ten Meridian Unlocking Pills.”

Yang Chen looked at it and smiled.” Not bad. The quality is not bad. Tell me, how many spirit stones do you want?””

“Milord, your token can be used to purchase anything at the Zhou Trading Company at an 80% discount. After this discount, the total price is 24,000 spirit stones.”

“The price is quite reasonable. I’ll keep it on record. Later, I’ll ask the manager of the Zhou Trading Company in Chen City to go to my Chen Family to get the spirit stones.”

Yang Chen put away the Meridian Unlocking Pill and turned to leave.

“Sir, wait.” The shopkeeper stopped Yang Chen. After Yang Chen stopped, the shopkeeper said in embarrassment, ”There’s no problem with accounting, but can you send the spirit stones here?”

“Oh, is there a difference?” Yang Chen asked.

“Well, if you don’t know, if you let Shopkeeper Chen Cheng take the spirit stones, this commission won’t be counted as mine.’The shopkeeper smiled awkwardly.

Chen Yang laughed.” Alright, within ten days, my Chen Family will hand over the spirit stones..””

Chapter 142: Entering the Ruins Again, the Chen Family Added Two Great Weapons

Chen City, Chen Family.

Chen Yang took out 24,000 Spiritual Stones and had the Second Elder ride the Light Eagle to Yi City. After that, he went straight to Chen Die’s courtyard.

“Sixth Sister, I’m coming in.”

“Please come in, Patriarch.”

Pushing open the courtyard door, Chen Yang saw Chen Die packing up the alchemy furnace. He smiled and said, “Sixth Sister must have been refining pills again.”

When Chen Die heard this, she smiled a little embarrassedly. “I think that I won’t be able to break through to Meridian Opening in a short period of time. I might as well refine some pills and earn some spirit stones for the family.”

“Sixth Sister, you always belittle yourself and think that you owe the family. Think about how many spirit stones you’ve earned for the clan. Why would you owe the clan anymore?”

After laughing and complaining, Yang Chen placed ten jade bottles containing Meridian Unlocking Pills on the stone table in Chen Die’s courtyard.

Looking at these jade bottles, Chen Die asked curiously, “Patriarch, this is...”

“Sixth Sister, these are Meridian Unlocking Pills. Within this month, you will consume the Meridian Unlocking Pill to prepare for a breakthrough.”

“With the help of the Meridian Unlocking Pill, even if you fail to break through, there won’t be any consequences. On the contrary, it will increase your foundation and increase your chances of succeeding in the next breakthrough.” Yang Chen smiled.

“You mustn’t do that.” Chen Die jumped up from her chair and waved her hands repeatedly. “Master, I wasted so many Meridian Unlocking Pills? This won’t do. Absolutely not.”

“Sixth Sister.”

Yang Chen pressed Chen Die onto the chair and smiled, “You’re the clan’s Alchemist. As long as you can break through, the clan is willing to expend any resources.”

“Besides, do you still think our Chen family is the same as the Chen family from more than ten years ago? Our Chen family has spirit stones. It shouldn't be a problem for us to push a person into the Meridian Opening Stage.”

Chen Yang was right. After the end of the clan war, the Chen family's annual income of spirit stones had increased by a lot.

Every year, they could earn 50,000 Spiritual Stones. After ten years of saving, the Chen family's wealth was almost comparable to that of a seventh-rank force.

Even if the Chen family's cultivation resources had increased tenfold, they could still accumulate a lot of spirit stones every year.

In the past year, the land in various places had gradually recovered. According to the lease contract, the Chen family had gradually returned the land, and the profits had been reduced.

However, the food needed by the royal family did not decrease. With the five million soldiers of the royal family, each soldier would consume ten catties of food every day. It could still generate a lot of income for the Chen family every year.

The profits would definitely be less than during the famine, but that was only by chance. If this continued for a long time, even the royal family would not do it.

Even if it was less, it was still equivalent to the combined earnings of three or four Eighth-rank aristocratic families.

To be honest, although the Chen family valued the 20,000 spiritual stones, it was not impossible to give them up.

Back to the main topic.

Chen Die bit her lip and nodded.

Chen Die also knew that only by breaking through to Meridian Opening could she create a higher income for the family.

Immediately, Chen Die did not decline. She put away the Meridian Unlocking Pill and said to Yang Chen solemnly, "Don't worry, Patriarch. I'll definitely break through to Meridian Opening within a month."

"Don't worry, don't put too much pressure on yourself. It's fine even if you fail. Your safety is what the clan values the most."

"Alright, I still have other things to deal with, so I won't stay any longer with Sixth Sister."

"Farewell, Patriarch."

In the following month, nothing major happened to the Chen family.

Oh, other than Chen Die breaking through to the Meridian Opening realm, Chen Xuan returning to the Chen family, and the winged tiger slaughtering the demon beasts that occasionally invaded the pass.

In short, everything was still under Yang Chen's control.

However, Yang Chen couldn't control what happened next.

In Chen Die's courtyard, Yang Chen looked at the alchemy furnace and said, "Sixth Sister, are you ready?"

"Naturally." Chen Die said confidently.

As soon as they talked about alchemy, Chen Die changed from her usual behavior to a domineering and confident one.

Seeing this, Yang Chen nodded his head in relief." In that case, please refine the pill for me, Sixth Sister."

Immediately, the elders distanced themselves and circulated the spiritual energy in their bodies at the same time. If anything happened, they would be able to rescue them in time.

After taking a deep breath, Chen Die threw the spirit herbs into the alchemy furnace and started to refine pills.

As Chen Die had already refined it many times before, she was very familiar with refining the spiritual herbs. In less than fifteen minutes, all the spiritual herbs were refined.

Next, it was time to condense the pill. Chen Die failed because of this.

Taking a deep breath again, Chen Die's eyes were fixed, and she sent her spiritual energy into the alchemy furnace.

Under the infusion of spiritual energy, the medicinal liquid condensed together and formed the embryonic form of a medicinal pill.

When Chen Die saw this, her eyes lit up and she immediately let out a sigh of relief. Her guess was indeed correct. Only those in the Pulse Unsealing realm could condense this Spirit Essence Pill.

Unlike Chen Die, who was relaxed, the elders were nervous because the most dangerous time was coming.

Then, accompanied by a group of elders, Chen Die carefully polished the Primary Spirit Pill.

After the alchemy furnace shook, Chen Die patted the alchemy furnace, and a Spirit Essence Pill that was emitting a pill fragrance shot out from the alchemy furnace.

Chen Die's pretty face revealed a look of joy as she grabbed the Primary Spirit Pill." Family Head, Elders, I've succeeded!"

"Good! Good! Good!"

After saying 'okay' three times, Yang Chen smiled and said,"Sixth Sister, you should focus on refining the Primary Spirit Pill. After you're familiar with it, we'll go to the ruins to receive the inheritance."

"No need." Chen Die shook her head." It's not like you don't know that I've already refined the Primary Spirit Pill many times. It's just that my martial arts realm hasn't reached the Meridian Opening stage, so I failed.."

Chapter 143: Entering the Ruins Again, the Chen Family

"Now that I've reached a certain level, I'm confident that I can pass the test."

"Sixth Sister's words are not without reason. Forget it, while Sixth Sister's hands are hot, let's go to the ruins immediately."

Immediately, Yang Chen rode on the winged tiger and rushed to the ruins with Die Chen.

Now that the Winged Tiger had broken through to the Demon Venerable Realm, its speed had changed. In less than half a day, it had rushed to the ruins.

Inside the Paradise.

"Sixth Sister, don't worry. Don't feel pressured."Yang Chen said.

"Yes." Chen Die nodded and smiled,"Patriarch, don't worry. I'll definitely pass the test."

Then, Chen Die took a deep breath and pushed open the door of the Alchemist Inheritance. With firm steps, she slowly stepped into the courtyard.

On the dome, the giant moth opened its beast eyes and glanced at Yang Chen. Its cold voice entered Yang Chen's ears.

"Human brat, you guys haven't been here for years."

Yang Chen raised his head to look at the giant moth and smiled, "My Chen family has been recuperating recently, so we've been slacking on the inheritance."

"Wouldn't the inheritance help your family rise? Don't delay, quickly accept the inheritance."

"This..." Chen Yang hesitated, "But my Chen family is weak. If we were to find the inheritance, we would be suspected by others."

"If the ruins are discovered, then our Chen family will be in for a calamity."

When the giant moth heard this, a hint of mockery flashed in its eyes. "Are you trying to trick me into helping your Chen family?"

"Yang Chen wouldn't dare."

Drops of cold sweat dripped from Yang Chen's forehead. Damn it, he was so anxious to trick the giant moth into working for the Chen family.

How could he forget that this was an old monster? How could he not see through his tricks?

"You don't dare? What does it have to do with me whether you dare or not?"

"However, I can promise you that I will save you when your Chen family is in danger."

Don't be in a hurry to thank me. I have a request.' A different look flashed in the giant moth's eyes.

"Please speak, Senior."

Yang Chen didn't know what the giant moth's request was, but he knew that if he could rope the giant moth in, the Chen family would be able to develop freely without having to worry about anything else.

"I want you to receive the inheritance within 200 years. If the inheritance is not received within 200 years, I will destroy your family and wait for the next inheritor to appear."

"And every time I make a move, I will reduce the time limit by ten years. I wonder if you agree?"

The giant moth's words were like a demon's whisper, sending chills down Yang Chen's spine.

If he agreed, wouldn't there be a sharp sword hanging over the Chen family's head? Moreover, once this sharp sword slashed down, the Chen family would be exterminated.

But if he didn't agree, how could Yang Chen not be tempted by such help?

If the clan developed rapidly, it would definitely attract the attention of various forces. There would definitely be many who coveted the Chen clan.

If there were no Omnipotent Experts guarding the place, the Chen Family would not be able to develop in peace.

He was in a dilemma.

Seeing this, a smile flashed across the giant moth's eyes." You can take your time to think about it. It's not too late to calculate the time from the first time you invited me to attack."

Yang Chen knew that the giant moth was trying to lure him into agreeing to its conditions. But to be honest, Yang Chen was already very tempted by this condition.

After all, the Chen family still had a lot of time to receive the inheritance before the giant moth attacked.

At the same time, with the help of the giant moth, the Chen family could develop as they wished without having to worry about other forces.

On the other hand, they were also developing wantonly. The time before the giant moth made its move was all earned by the Chen family.

Immediately, Yang Chen cupped his hands and bowed to the giant moth." Senior, I agree.""

It didn't matter if the Chen family developed wantonly or steadily. As long as the giant moth was here, the Chen family's safety was guaranteed.

"Alright, remember what you said."

The giant moth closed its eyes, secretly delighted.

There was a saying in the human race: with a sharp weapon, one's killing intent would naturally be triggered.

With a weapon like me around, I don't believe that this human won't use it!

Once he used it, he would definitely have to accept the inheritance with all his might. In order to survive, he would even have to spread the inheritance.

This way, I can escape as soon as possible.

Yang Chen more or less guessed the meaning of the giant moth, but he also had his own plans.

The giant moth was only supporting the clan. Receiving the inheritance had to be done step by step and would not be rushed.

“Oh right, my Winged Tiger has also reached the Demon Venerable Realm. It’s time to go in and hand over the inheritance.”

Yang Chen slapped his forehead. He had forgotten about this.

Immediately, Yang Chen pushed open the beastmaster door and entered the main hall.

“I’ve already nurtured the Winged Tiger to the Demon Venerable Realm. I’m now here to receive the next inheritance.”

“Inheritor, please release the Winged Tiger.”

Hearing this, Yang Chen opened the Imperial Beast Bag. The Winged Tiger let out a roar and landed in the courtyard.

“After examination, the inheritor has passed the test. Please proceed to the left room for the final test.”The mechanical female voice reached Yang Chen’s ears.

The moment the mechanical female voice sounded, Yang Chen pushed open the inner door of the left room.

The left room had the same furnishings as the right room. Other than the table, there was nothing else.

When Yang Chen arrived at the left room, the wall against which the table was leaning opened and a demon beast egg rolled onto the table.

At the same time, the mechanical female voice sounded again.

“This demonic beast is the Underworld Dragon. Inheritor, please nurture it to the Demon Venerable realm within thirty years. It can obtain all the beastmasters ‘legacies here.”

“If you can’t raise it to the Demon Venerable realm within 30 years, you have to find an underworld dragon egg within 300 years and return it to this place.”

Underworld dragon!

Yang Chen didn’t expect that the reward would be the Underworld Dragon!

The Hell Earthwurm was a sub-dragon, a descendant of the Nine Hell Crimson Dragon and the Rock Ground Shuttle Ox.

Be it the Nine Abyss Crimson Dragon or the Rock Ground Shuttle Bull, they were both powerful existences above the demon emperor level.

However, due to the conflict between their bloodlines, their descendants were only Daemon Kings.

However, even a demon king bloodline was a rare existence. Zhou Yinglan did not hesitate to start a war for the demon king bloodline Red Refined Python.

One could imagine how precious a demon beast that could grow to a demon king was.

Speaking of which, the Nine Abyss Crimson Dragon and the Rock Ground Shuttle Bull were somewhat related to the Beast Tamer Sect.

The Beast Tamer Sect’s sect symbol was the Nine Abyss Crimson Dragon. As for the Beast Tamer Sect’s Founding Ancestor, his favorite subdued beast was the Rock Ground Shuttle Ox.

Of course, this was referring to the sect outside the Endless Mountain Range.

As a sub-sect in Da Qian, the Beast Tamer Sect naturally had special books about these two powerful existences.

Because of this, Yang Chen was fortunate enough to understand the Hell Dragon.

After keeping the Underworld Dragon's egg, Yang Chen left the courtyard and waited for Chen Die's results.

An hour later, the door to the Alchemist Legacy Courtyard opened.

Yang Chen saw this and quickly went forward to welcome her." Sixth Sister, how is it?"

"Fortunately, I didn't fail you." Chen Die wiped the dust off her face." Reporting to the family head, I successfully passed the assessment and received the reward and the final assessment content."

"Oh, what is it?" Yang Chen quickly asked.

"Xue Na Dan."

"Blood Na Pill? What kind of pill is that?" Yang Chen frowned. He had never heard of such a pill before. Could it be a pill from outside the Endless Mountain Range?

Sure enough, Chen Die continued,"According to the inheritance, this pill is very rare outside the Endless Mountain Range."

"As for the effects of this Blood Natal Pill, Patriarch, you would never have imagined that it could bestow human bloodlines."

"Give him a bloodline?" "What bloodline is it?" Yang Chen was delighted."

“As for the specific bloodline, we have to decide for ourselves, but it won’t exceed the beast bloodline.” Chen Die said.

“Decide for yourself. What do you mean?”

“Patriarch, this Blood Nucleation Pill needs to be used together with a demonic beast that contains the bloodline of a Demon Venerable.”

“The specific method of use is for the martial artist to first consume the Blood Na Pill, then extract the blood essence from the demon beast’s body and let the martial artist soak in it.”

“When the blood narcodan is activated, the warrior can refine the bloodline of the demonic beast and become a bloodline warrior.”

“The higher the level of the demonic beast, the stronger the bloodline.

However, the strongest bloodline will not exceed the beast bloodline.” Chen Die said.

“Oh? There was such a mystical pill? Then, did the required demon beasts have to reach the strength of a Demon Venerable, or could a Demon Venerable’s cub do it?”

“Also, what about the success rate?” Yang Chen asked.

“Patriarch, as long as you have the bloodline of a Demon Venerable, it’s fine. You don’t have to reach the Demon Venerable level.”

“As for the success rate, according to the inheritance, it varies from person to person, but it’s about one-fifth.” Chen Die said..

Chapter 144: The First Bloodline Warrior

“20% success rate.” Yang Chen’s heart skipped a beat. He frowned and looked at Chen Die.” Sixth Sister, what will happen if we fail?””

“According to the inheritance, if you fail, you will have to rest in bed for a month. The next time you consume a blood natalite, you will have to wait for a year,”

“If you fail again in the future, you will need to wait for two years. “Every time you fail, you need to increase the interval by one year,” Chen Die said.

Hearing that his life was not in danger after the failure, Yang Chen heaved a sigh of relief and smiled, “in that case, our Chen family will have a sharp weapon to rise!”

“That’s not all.” Chen Die smiled, “Family Head, you know, this inheritance even gave me ten Blood Na Pills. Our family is about to give birth to a bloodline warrior.”

“He even bestowed you with a Blood Na Dan?” Yang Chen’s eyes lit up. “Can this Blood Natalins still be used?”

“According to my observation, the fragrance of the Blood Absorption Pill has not dissipated yet. It should be usable,” Chen Die said.

“It’s good that it can be used.”

Whether a pill was useful or not depended on whether it had a pill fragrance. Other than some special pills, generally speaking, only pills that retained a pill fragrance could be used.

immediately, the two of them left together and rode the winged tiger back to the Chen family.

Chen City, Chen family’s inner chamber

Chen Yang gathered the elders of the Chen Family into the meeting hall, “Everyone, I called you here today because of the Blood Absorption Pill.”

“The medicinal effects of this Blood Na Pill can grant a martial artist a bloodline. Tell me, who should we give it to first?”

Everyone looked at each other, and then Chen Xuan cupped his hands and said, “Master, I suggest that we give it to the direct descendants first. After the direct descendants become bloodline warriors, we can give it to the collateral relatives.”

“I don’t think it’s appropriate. We’re all from the Chen family. Although there’s a saying of direct descent and collateral descent, the difference can’t be so obvious. I suggest we split it 20 – 80.”

“I have an idea. We should hold a martial arts competition and let the winner use it.”

All of a sudden, the elders began a heated discussion about the Blood Nucleation Pill.

After listening to the opinions of the elders, Chen Yang gestured for everyone to quiet down and said, “Everyone, I have an idea.”

“Since we have a contribution system and a sequence system, there’s no need for rewards. If it’s a clan war, let them exchange for it with contribution points.”

“The clan doesn’t have many Na Pellets at the moment. For the time being, I can only exchange them with members of the lower generation.”

“Elders, what do you think?”

Hearing Chen Yang’s words, the elders thought for a moment and then cupped their hands together, “We’ll listen to the clan head’s orders.”

The matter of the Blood Nucleation Pill was settled. The entire Chen Clan was shaken, and all of them began to head toward the Endless Mountains. He planned to find a treasure or spirit herb to exchange for this Blood Na Pill.

Bloodline Warriors, the legendary high and mighty Bloodline Warriors, they actually had the chance to become one.

Chen Ke, the son of the third elder, Chen Zhen, was extremely eager for the Blood Na Pill.

Chen Ke was the third in Chen Yang's generation. The eldest was the commander of the Dragon Cavalry Guards, and the second had entered the official ranks. He was the only third in his generation.

If not for the fact that the Chen family had not lacked resources in recent years, he would probably not have been able to cultivate to the late-stage Qi Refinement realm.

Of course, there was another reason. Two years ago, when he was helping to guard the dark iron mine, he saw a woman.

The moment they met, this woman shattered Chen Ke's plan to immerse himself in martial arts for the rest of his life. Immediately, Chen Ke decided to marry this woman.

As they talked, the woman also fell in love with Chen Ke.

Originally, with the Chen family's current strength, as a direct descendant of the Chen family, it would not be a problem for Chen Ke to marry an eighth-grade Di daughter.

However, this woman was the direct daughter of the Sun family.

The Sun family had suffered a loss in front of the Chen family, so they were naturally unwilling to marry their daughter to the Chen family. However, his daughter was willing, so he could only bear the pain and marry her.

Naturally, the beauty that he had brought to Chen Ke was extremely beautiful.

However, his wife was not so happy. Because of her rebellious actions, the Sun family head directly ordered that the Sun family would not have this Di daughter in the future.

Even though Old Ancestor Sun had stopped him, he still gave the order.

When Chen Ke was able to break through and open his meridians, the Sun family would acknowledge this legitimate daughter and allow the madam to visit her parents.

Although his wife said that it was fine if she didn't go back, Chen Ke knew that his wife still wanted to go back and see her parents.

Because of the smile on his wife's face, Chen Ke had to obtain the Blood Na Pili no matter what. Only then would he be able to quickly break through and open his meridians.

It would not cause a tragedy where the son wanted to raise his parents but their parents were not around.

That was why Chen Ke took the risk to enter the Endless Mountains.

"Third Uncle, where are you looking at?"

Just as Chen Ke was thinking about the past, someone suddenly shook his arm.

Chen Ke returned to his senses and smiled as he patted the 18-year-old young man." Mingde, you brat, if you continue to cause trouble. I'll send you back""

"I also don't understand why you insisted on coming to the Endless Mountains with me. You said that you wanted to get your father a Blood Natal Pill, but your father's contribution points are enough for both of you."

Hearing Chen Ke's words, Chen Mingde smiled and scratched the back of his head." I just want to repay my father.""

"What are you talking about? Third Uncle, look over there."

Chen Ke smiled as he looked in the direction Chen Mingde was pointing at. His pupils immediately constricted." Good fellow, you brat. You really have the possibility of getting a Bloodline Pili for your father."

Chen Ke said this because he was looking at a demon beast lying on the ground weakly..

Chapter 145: The First Bloodline Warrior

"If I'm not wrong, this is a demon beast at the Demon Venerable level."Chen Mingde was a little nervous.

It was a demon beast at the Demon Venerable realm. They would probably lose their lives with just a breath.

"This is a hundred miles away from the Endless Mountain Range. How can there be a Demon Venerable level demon beast?"

"Could it be that there are treasures here?"Chen Mingde's eyes lit up.

"Stop it!"

Chen Ke patted Chen Mingde." Look at that demonic beast. There isn't a single good spot on its body. It's obvious that it was forced here by the enemy."

"Look, if my guess is correct, the enemy of this beast is coming soon."

As if to confirm Chen Ke's words, not long after, a few figures flashed over.

These people were dressed in the same uniform. Their pure white clothes were decorated with white clouds and flowing water. They seemed to be from the same sect.

“This is the Drifting Cloud Gown. It seems like he’s a disciple of the Spirit Sword Pavilion. The Spirit Sword Pavilion is in another state. Why did they come to our Jiang State?” Chen Ke was puzzled.

At this moment, the leader of these disciples, a core condensation realm elder, killed the demon beast with a sword.

Seeing this, Chen Ke knew that he could not delay any longer. He immediately stood up and went forward.

“Stop!”

Their actions alerted the disciples of the Spirit Sword Pavilion. One of them, a beautiful and tall female disciple, drew her sword and shouted.

“Everyone, we have no ill intentions.”

Chen Ke quickly raised his hands and smiled. “I want to ask if you are selling the blood of this demon beast.”

“Get lost, I’m not selling!”

As Chen Ke finished speaking, a young disciple immediately berated him.

“Wang Chen, what are you talking about? How did I teach you? To be kind to others, are you sure that the person you meet now will not be looked up to in the future?”

After scolding his male disciple, the Spirit Sword Pavilion’s Core Formation Elder turned to Chen Ke and smiled kindly, “Young man, why do you want this demon beast blood?”

“This...” “It’s a family secret. Please forgive me for not being able to tell you.””

“It’s fine. If you don’t want to say it, then don’t say it. It’s just that this is the Demon Venerable’s blood. Are you sure your family head can afford it?”The elder of Spirit Sword Pavilion said with a smile.

When Chen Ke heard this, a smile appeared on his face.” Don’t worry, Venerable One. Not to mention blood, even the entire demonic beast, my Chen family can afford it.””

“Chen family?” “Are you from the Chen family of Nanyang, Jiang Prefecture?” the elder asked with a frown.”

“That’s right.”

Seeing Chen Ke’s affirmation, the elder counted with his fingers.” The way of the Ming Dynasty is the way of the dragon. Loyalty is passed down from generation to generation. You’re not in the same generation. Are you from the collateral family or the same generation as your family head?”

“The venerable one also has some understanding of my Chen family.””I’m a direct descendant of the Chen family, the third brother of my family head.””

“I see.” The old man stroked his beard and smiled. Then, he said,”Fine, it’s just a mere demon beast blood. It won’t sell for many spirit stones, so I’ll give it to you.”

When Chen Ke heard this, he quickly brought Chen Mingde and cupped his hands.” Thank you, Master.””

Then, the two of them quickly put the demon beast blood in. At this moment, they couldn’t care less about anything else. They freed up a storage bag and used it to store the demon beast blood.

After draining most of the blood, Chen Ke stood up.” That’s enough. If we continue, I’m afraid we’ll destroy the beast skin. Chen Ke once again thanked the Venerable One.””

“In that case, this old man will be leaving. Chen Ke, right?”

With that, the old man put away the corpse of the Demonic Beast and left with his disciple.

“Let’s go.” After these people left, Chen Ke called Chen Mingde to leave.

However, after greeting him twice, he realized that Chen Mingde was still staring in the direction where the Spirit Sword Pavilion had left. He immediately smiled and said, “Why? Are you interested in a female disciple?”

“I didn’t.” Chen Mingde’s face turned red and he said in embarrassment.

“So be it. With the potential of our Chen family and the status of the family head, we can still marry a disciple from a seventh-rank force.”

“Of course, the prerequisite is that you have to be talented.” Chen Ke laughed.

“Yes, I understand.”

Immediately, Chen Mingde was filled with enthusiasm and left with Chen Ke.

At the same time, on the other side, Wang Chen, a disciple of the Spirit Sword Pavilion, said indignantly, “Master, I really don’t understand why you’re so polite to a ninth rank aristocratic family’s disciple.”

When the old man heard this, he glanced at Wang Chen and said indifferently, “This is not an ordinary ninth-rank family. The potential of their family and the future achievements of their family head are far higher than ours.”

“Such a clan naturally has to be treated kindly no matter how weak it is. Otherwise, when they rise one day, the first person they will deal with will be you.”

Hearing the old man’s words, the group of disciples nodded their heads in a half-understanding manner.

Chen Clan, in the meeting hall.

After obtaining the Demon Venerable's blood, Chen Ke and Chen Mingde rushed back to the Chen family without stopping.

As soon as they arrived at the Chen Family, the two of them went to the meeting hall and reported the situation to Yang Chen.

"Did you say that the people from the Spirit Sword Pavilion came to my Jiang Prefecture?" Yang Chen asked with a frown.

"That's right." "Yes." Chen Ke nodded and asked, "Clan Head, do you think Jiang Prefecture is hiding something that allowed the Spirit Sword Pavilion to come here?"

"It's not impossible. Forget it, this has nothing to do with our Chen family. If it's really some treasure, we'll get the news soon."

"But this time, Third Brother and Ming De obtained the Demon Venerable's blood. The contribution points accumulated by the two of you can already be exchanged for Blood Na Pills." Yang Chen asked with a smile.

The two of them looked at each other and immediately said, "We are willing to exchange."

"Alright, after the Demonic Beast Blood Essence is extracted, I'll arrange for the two of you to consume the Blood Blood Blood Blood Blood Pill and refine your bloodline." Yang Chen said.

The matter of refining the Blood Na Pill was naturally the most serious matter for the Chen Clan.

Immediately, the group of elders took action. After refining the blood, they called Chen Ke and Chen Mingde over.

Looking at the blood in the barrel, Chen Ke made up his mind and looked at Chen Yang,” Master, I’m ready.””

“Yes, don’t worry. I’ll watch over you.”

Chen Ke immediately consumed the Blood Na Pill and jumped into the wooden barrel.

At the same time, everyone from the Chen family also became nervous. Although there were no consequences, they did not have the confidence to see it with their own eyes.

He could only prepare in advance and save her if anything happened.

As time passed, the blood essence of the demon beasts in the wooden bucket was absorbed into Chen Ke’s body. Together with the Blood Na Dan, it began to bestow Chen Ke with his bloodline.

At the same time, Chen Ke’s veins were bulging. It was obvious that he was in pain.

Time trickled by, and in the blink of an eye, two hours had passed. Chen Ke’s face turned purple from the pain, and he was on the verge of collapse.

“Ah!”

Chen Ke let out a painful roar as he jumped out of the wooden bucket and fell onto the green stone floor.

When the elders saw this, they quickly went forward to save Chen Ke, but they were stopped by Chen Yang.

“Elders, don’t be anxious. Look at their chests.”

When the elders heard this, they looked at Chen Ke's chest. The figure of a demonic beast slowly appeared on his chest.

"The appearance of the demon shadow is a sign of bloodline awakening. It seems that Chen Ke succeeded." Chen Xuan's eyes lit up as he shouted happily.

When the elders heard this, the palpitations in their hearts dissipated as they waited patiently for Chen Ke.

After about ten minutes, Chen Ke suddenly stood up and wiped the sweat from his forehead. He said excitedly, "Patriarch, elders, I've succeeded!"

"Alright."

Yang Chen grabbed Chen Ke's arm, "Third Brother, what bloodline did you awaken?"

"Clan Head, my demonic beast bloodline is the Flowing Wind Evil Wolf. My ability is also the innate demonic art of the Flowing Wind Evil Wolf, Wolf Roar."

"This wolf roar can increase my combat strength by 50%. However, every time

I use it, I have to rest in bed for a year." Chen Ke said excitedly.

Hearing this, Yang Chen let go of Chen Ke's arm and said thoughtfully, "It seems that this Blood Na Dan is not only absorbing the bloodline of the demon beasts, but also the innate divine techniques of the demon beasts."

"In that case, arrange for Chen Mingde to use it."

Seeing this, Chen Mingde cupped his hands at Chen Yang and said, "Seventh Uncle, I want to give this spot to my father. I'm still young and there's no hurry.."

Chapter 146: Upgraded Dao Integration Pearl, Chen Xiao's Return

Seeing this, Yang Chen smiled and looked at Chen Dao." Big brother, you have a good son.""

When Chen Dao heard this, he smiled stiffly.

Chen Yang knew that Chen Dao was a wooden person, so he stopped joking and arranged for Chen Dao to refine the blood.

Unfortunately, Chen Dao did not succeed.

However, it wasn't as if he had gained nothing. At the very least, it proved that the consequences of failure were indeed as the inheritance had said. It wouldn't harm his life.

Seeing that Chen Dao was a little dispirited, Chen Yang consoled,"Big brother, you don't have to worry. Because you've caused trouble for the clan, I'll leave you a Blood Nucleation Pill. After a year, you can still refine your bloodline."

This was something that Yang Chen had long thought about. No matter who failed first, he would prepare a Blood Na Pill for them. After all, they were Pioneers and did not succeed. He had to compensate them no matter what.

When Chen Dao heard this, he forced a smile and nodded.

Chen Yang knew that Chen Dao wouldn't be able to recover for a while, so he immediately asked Chen Mingde to help him down and take good care of him.

After settling Chen Dao down, Yang Chen's body suddenly swayed.

This frightened the elders. They quickly went forward to support Chen Yang." Master, are you okay?""

Yang Chen smiled and waved his hand." It's okay. I'm just a little tired. I'll be fine after some rest.""

Immediately, the elders helped Yang Chen into the courtyard. Then, under Yang Chen's instructions, they all left, leaving Yang Chen alone.

When no one was around, Chen Yang opened his right hand and the Dao Integration Pearl appeared.

Looking at the Dao Integration Pearl, Yang Chen smiled. "I thought you forgot to tell me the information. I didn't expect it to be updated."

Just now, the Dao Integration Pearl had told Chen Yang the information about the next stage of accumulating energy. It was because of this information that Chen Yang was stunned.

According to the information provided by the Dao Integration Pearl, the maximum amount of energy accumulated per day had been increased to 10 points.

At the same time, one more Core Formation expert or demonic beast would increase the clan's luck by 1,000 points. Of course, the 100 points of clan luck added after opening the meridians did not count.

In other words, after breaking through to the Core Formation realm, the total number of points increased by 900. As for puppets, they didn't have clan luck.

After all, puppets could only be considered spirit weapons. If spirit weapons were added to clan fate, then spirit pills and spirit medicines could also be added to clan fate.

Chen Yang could only say that the Dao Integration Pearl was indeed worthy of its name.

The Chen family's clan fate had already reached 2,000 points. The newly added 400 points of clan fate came from Fourth Elder Chen Liu, Elder Liu Chen Nan, and Chen Die and Chen Dao's natal subdued beasts, the Flaming Mane Horses.

In other words, the Dao Integration Pearl could now increase 20 points of clan luck every week. At this rate, it wouldn't be long before the Chen family gave birth to another Demon Venerable level subdued beast.

“The future is promising.”

After sighing, Yang Chen suddenly realized that his clan luck had increased by another 100 points.

“Strange, who broke through and opened meridians again?”

At this moment, First Elder’s voice came from outside the door, “Clan Head, Chen Xiao is back.”

When Yang Chen heard this, he had a guess in his heart. “It seems that this brat Old Ten has broken through to Meridian Opening. I remember that when he came back four years ago, he was at the peak of the Qi Refining Stage.”

“At that time, the clan tested his aptitude and found that he was ranked seventh. With his Seventh Stage aptitude, it was normal for him to break through to the Meridian Unsealing Realm in four years. It might not even be as simple as just the first level of Meridian Unsealing.”

Immediately, Chen Yang stood up and opened the door of the courtyard. “Let’s go. Let’s go and see Old Ten.””

In the meeting hall, looking at Chen Xiao, who had lost his chuunibyuu aura and was tall and straight like a noble son, Chen Yang smiled and said, “Not bad, brat. I haven’t seen you for a few years and you’ve broken through to the Meridian Opening realm.”

When Chen Xiao heard this, he smiled bitterly. “Seventh Brother, don’t tease me. How can my aptitude compare to yours?” I’m already twenty-five, but I’ve only cultivated to the second level of Meridian Unsealing.”

“Seventh Brother, you’re already at the peak of Unsealing Meridian at the age of 30.”

“No, no. I’m just average.”

Chen Xuan suddenly felt that he should not have come in with Chen Yang. The conversation between these two brothers was too heart-wrenching.

“Alright, let’s not talk about this anymore. Tenth, how long do you plan to stay at home this time?”Yang Chen asked.

Chen Xiao thought for a moment and then said,“ Jiang Prefecture is peaceful now, and the demon beasts don’t often launch demon tides. They should be able to stay for a few months.””

“Yes, after the last demon wave, the demon beasts in the Endless Mountain Range are still in the midst of reproduction. There is no territorial dispute, so I think there will not be a large-scale demon wave.”Yang Chen nodded.

“Right, the family has a new pill called the Blood Absorption Pill. It can add a warrior’s bloodline. Are you interested?”Yang Chen asked.

When Chen Xiao heard this, he shook his head.” I’ve also heard about this matter. However, my aptitude is at the seventh grade. It’s a little wasteful to use medicinal pills.”

Chen Yang understood and patted Chen Xiao’s shoulder.” Forget it. The current family only has the blood essence of the Demon Venerable and can’t give you a high-grade beast bloodline. It won’t improve your aptitude much.”

“How about this? When the clan has the blood essence of a demon king, you’ll be the first to be bestowed with a bloodline.”

After they finished talking, the two brothers started chatting. Chen Xiao told Chen Yang about what he had seen and heard, while Chen Yang told Chen Xiao about his family.

While the two brothers were chatting, in the Great Kun Dynasty, in the residence of King Ke of the First Rank.

King Ke looked at his butler and said lightly,“Are you sure you want to do this?”

“That’s right!” Butler Qi’s eyes revealed a hint of hatred.” Da Qian made my nearly 100 years of cultivation go to waste. Of course, I have to take revenge.” “Revenge?” “Do you know that with your revenge, the revival of the Fiend Soul Sect will be pushed back?””

“It doesn’t matter. Right now, Great Kun is searching for the remnants of the Fiend Soul Sect and can’t revive it. It’s better to take revenge on Great Qian!”Butler Qi gritted his teeth.

When Prince Ke saw this, he smiled and raised his teacup.” Alright, I’ll listen to you. However, don’t forget what you promised me.”

“There are still a hundred years left. If you can’t do it in a hundred years, it won’t just be you. The rest of the Fiend Soul Sect survivors will become my pet’s food.”

As soon as King Ke finished speaking, a bloody mist suddenly appeared behind him. In the bloody mist, a demon that looked like it had come from hell was staring at Butler Qi.

When Butler Qi saw this, he trembled and said,”Rest assured, Your Highness. My Fiend Soul Sect will definitely fulfill your promise.”

“That’s good.”

In the Jiang Prefecture, there was a river that ran through the entire Jiang Prefecture. It flowed out of the Endless Mountain Range and passed through several dynasties before flowing into the Endless Mountain Range. As for where it ended, no one knew.

The widest part of the river in Jiang Prefecture was over a hundred miles long, and the narrower part was more than ten miles long.

This big river was called the Great River in the Great Gan, and Jiang Prefecture was also named after it.

Of course, whether it was Big River or Great River, they were not its original names.. In the hearts of all the Dynasties, its true name was the Heavenspan River!

Chapter 147: Hatching of the Underworld Dragon, Butler Qi's Revenge

There were countless demonic beasts in the 1 leavenspan River, Even in this small section of Da Qian, there were demonic beasts at the level of demon kings.

Legend has it that the widest part of the Heavenspan River even has demon emperor level demon beasts.

With so many demonic beasts, the 1 leavenspan River had become a forbidden area for martial artists.

In Da Qian, the royal family had to sign an alliance agreement with the demon kings to ensure peace. Otherwise, Jiang Prefecture would have been split into two.

A month after Chen Xiao returned to the Chen Clan, an uninvited guest came to the Great Gan Sky River,

This uninvited guest was none other than Great Kunke Prince's butler.

Butler Qi drove a small boat on the Heaven Pass River. Glancing at the Jiang Prefecture territory behind him, Butler Qi revealed a cruel smile." The blood essence of millions of children can only be refined into a Blood Spirit Pill."

"Even with my Fiend Soul Sect's nearly a thousand years of accumulation, we only have a few. Now that we have to waste one here, I really can't bear to."

"However, as long as we can destroy the Jiang Prefecture, everything will be worth it."

"Not only can it vent my anger, but it can also disrupt Great Qian and help Great Kun win the war."

"When the Great Gan is in chaos, I can take the opportunity to plunder some children to make up for my losses."

Then, Butler Qi took out a jade red dragon statue from his pocket and threw it into the Heaven Pass River. Then, he turned around and disappeared.

As the red dragon statue fell into the Heavenspan River, the entire Heavenspan River began to ripple, but in the blink of an eye, it was calm, as if nothing had happened.

In the Chen family's school.

After more than ten years of development, the Chen family academy had already begun to take shape. It was not built in the Chen family, but in the city of Chen.

The school was all-encompassing and taught all kinds of knowledge.

However, the most popular course among the Chen clan members was still the one related to beast taming.

After all, the Chen family was a family of subdued beasts. After being influenced by them, the new members naturally liked subdued beasts.

Of course, the most important thing was that the mister who talked about familiars always liked to talk about some interesting things and the treasures of familiars.

This day, they were talking about it again.

"Young masters, do you know of any treasures that are highly sought after by the demon beasts in the water?" The mister stroked his white beard and asked.

"I don't know." A crisp reply was heard.

The underground students widened their eyes and focused their attention. They knew that Sir was going to tell a story again.

As expected, the teacher continued, "There are many treasures in the world that are sought after by the demon beasts in the water. The treasure that I'm telling you today is a treasure recorded in the Da Qian Dynasty."

"This treasure is called Red Dragon Jade."

"Let's talk about the Red Dragon Jade again. I want to test you guys. Do you know about the Red Dragon?"

"I know. The Red Dragon is the dragon with the lowest bloodline level among the True Dragons, but its strength is still above that of a Demon Emperor,"

Chen Mingru, the eldest daughter of Chen Shou, stood up and replied.

"Yes, very good." The master waved his hand, signaling for Chen Mingru to sit down. Then, he said, "The Red Dragon Jade I mentioned has a great relationship with the Red Dragon."

The True Dragon Clan had a tradition of infusing their own spiritual aura and comprehension into a treasure when they died, as an inheritance for future generations."

"Generally speaking, this treasure is a dragon core. However, the red dragon naturally liked jade, which was the item that carried the inheritance."

"However, most of the jade in the world can't bear such terrifying spiritual energy. There's only one kind of jade that has this function, and that jade is the Red Dragon Jade."

"Of course, before being infused with spiritual energy and comprehension, the Red Dragon Jade cannot be called Red Dragon Jade."

"Only when the red dragon infuses spiritual energy and comprehension into the jade and turns it into a red dragon statue can it be called red dragon jade."

“The Red Dragon is good at water. The Red Dragon Jade is naturally very attractive to the demon beasts that live in the water.”

At this point, the teacher seemed to be a little thirsty. He picked up the teacup on the podium and gulped it down.

After wiping his mouth with his sleeve, the mister continued, “I can guarantee that if the Red Dragon Jade appears in the river, all the demon beasts in the river will gather together.”

“At that time, there will be no difference in strength or status. It will definitely be a shocking battle.”

“When the time comes, the rivers will flow backward and the flood will be monstrous. It will be another purgatory on earth.”

At this point, a child from the Chen family asked, “Sir, why would the rivers flow backward and the flood surge into the sky when the demon beasts fight?”

“It’s obvious that you haven’t studied martial arts properly.” The teacher laughed and raised the teacup in his hand.

“Look, there’s only some tea left in my teacup. Does anyone have a way to make it spill out?”

“I know, I know, sir. You just have to shake your hand.” a clansman said.

“Smart.”

The teacher smiled in satisfaction. He then waved his hand, causing the tea in the teacup to spill out.

“Do you understand now?” the man asked.”

“That river is this teacup. The battle between demon beasts is like my hand. There isn’t much tea left now, but I can still shake it out. If it’s full, can you imagine the consequences?”

The group of children nodded in understanding.

Seeing this, the teacher gestured for him to sit down.

After he sat down, the master continued, “According to Da Qian’s records, the first time the Red Dragon Jade appeared in the Endless Mountains was 1200 years ago..11

Chapter 148: Hatching of the Underworld Dragon, Butler Qi’s Revenge

“At that time, in order to fight for the Red Dragon Jade, countless demon beasts that liked to stay in the water came ashore and started a long-lasting battle between the land demon beasts and the humans.”

“In the end, when everyone was in the heat of battle, it was stolen by a heretic practitioner who had obtained the inheritance of the Ghost Fiend Sect. At this point, the Red Dragon Jade never appeared again.”

Speaking up to this point, the master’s face revealed a look of pity.

The students below were in a heated discussion. After a while, Chen Mingru asked, “Sir, can this Red Dragon Jade be absorbed by humans?”

“If it can be absorbed, wouldn’t it be able to create an unimaginable expert?”

“Your question is very thoughtful, but let me tell you, you can’t.”

The master shook his head. “This red dragon’s spiritual energy is exclusive to the dragon race. Other than bloodline martial artists with the dragon race’s bloodline, no one else can absorb it.”

“Moreover, among the demon beasts, only the dragon bloodline and water-type demon beasts can absorb and refine it. Moreover, the degree of refinement of water-type demon beasts is not as good as that of demon beasts with dragon bloodline.”

“besides, compared to the pure spiritual energy, the comprehension is the most sought after by the demon beasts.

Otherwise, those highly intelligent water-type demon beasts would not have risked their lives to fight for it.”

“Alright, the story is over. Let’s continue the class.”

Outside the door, Yang Chen, who was listening with great interest, sighed when he saw that his teacher was in class.” Sigh, I really want to give him some local specialties.””

“That’s right.” The First Elder wiped the spirit sword in his hand.

Of course, the two of them were just talking. After listening to the story, they left the school and continued to inspect Chen Cheng.

Looking at the completed New town area, Yang Chen was satisfied. The people living in the new city district were definitely the happiest in Da Qian.

There was a zoo, a tavern, a theater...

Which resident could have such a rich leisure life?

After the inspection, Yang Chen returned home and continued to deal with the family affairs.

The peaceful life lasted for a week before it was broken by a piece of news.

“Chen Ying, did you say that the river is not peaceful?” In the meeting hall, Chen Yang looked at Chen Ying.

“That’s right. According to the report from the Piercing Guard, the winds suddenly surged and the waves surged. The ships were unable to move on the river.” Chen Ying said.

Hearing this, Yang Chen frowned slightly. “Do you know the reason?”

“I’m not sure. It’s just that some people have seen demon beasts fighting in the river.” Chen Ying shook his head and said,

“Demonic beast battle?” Yang Chen suddenly had a bad idea. How could a battle between ordinary demonic beasts stir up the river like this?

Chen Yang looked at Chen Xuan. “First Elder, I’m going to the riverside. I’ll leave the matters at home to you.”

“Family Head, be careful.”

Immediately, Yang Chen summoned the Winged Tiger and rode it towards Song City.

Song Cheng was next to the river. If something happened and the river flooded, Song Cheng would be the first to suffer in Nanyang.

Now that Song Cheng had been taken over by the Chen Family, Chen Yang naturally did not want anything to happen to Song Cheng.

By the river.

After half a day’s journey, Yang Chen arrived outside Song City, near the river.

Looking at the surface of the river that was constantly raising waves, Yang Chen leaned over and patted the Winged Tiger." Winged Tiger, can you sense what's going on?"

The Winged Tiger shook his head.

Yang Chen's heart skipped a beat. He wasn't afraid of an accident, but he was afraid that he wouldn't know why it happened.

Immediately, Yang Chen mustered his courage and commanded the winged tiger to fly to the river surface.

However, before it could fly out for a mile, a water snake demon beast at the level of a Demon Venerable jumped out of the water and forced the Winged Tiger to retreat.

When Yang Chen saw this, he recalled the story that his teacher had told him and had a bad idea." Could it be that there was a large-scale battle between the demon beasts in the water?"

"Not good! Quickly withdraw the people from the river!

Immediately, Yang Chen rode on the winged tiger and was about to leave when someone suddenly stopped him.

Yang Chen looked up and saw that this person was none other than Yang Chen's master, the Deshun Prince of the Great Gan.

"Greetings, Master!"

Yang Chen saw that his master had come and quickly jumped down from the winged tiger, cupping his hands.

"There's no need to be so polite." Deshun Commandery Prince came to Chen Yang's side and helped him up." Yang 'er, you came here for the matter of the Great River?"

“That’s right.” Yang Chen nodded, “If my guess is correct, something must have happened in the river, causing a battle between the demonic beasts.”

“That’s right. I’ve inspected the great river in Jiang Prefecture and found that there are demon beasts fighting in every place.

Moreover, the battle was getting more and more intense, and even the river water in some places was dyed red.”Deshun Commandery Prince said.

When Chen Yang heard this, he took a deep breath and looked at the Duke of Deshun.” Master, let the people take refuge. If this battle continues, the river will definitely flood.”“

“At that time, it will be another human tragedy.”

When De shun Commandery Prince heard this, he looked at the river and made up his mind.” Alright, let’s take refuge first. As for howto deal with Dajiang, we’ll have to wait for His Majesty’s decree.”

“How about this, you go back first. In two days, there will be an edict to be sent to the various families.”

“Yes, I will take my leave.”

Chen Clan, in the meeting hall.

After returning from Song Cheng, Yang Chen gathered all the elders in the meeting hall and told them his guess.

After hearing Chen Yang’s words, the elders fell silent. After a while, Chen Xuan took the lead and asked,“What do you mean?”

“What I mean is to follow the order. My master said to evacuate the people, so we will evacuate the people.”Yang Chen said.

“But Patriarch, how can we have so many places to place so many commoners?”

Ten percent of the population of Nanyang lived by the river, so they did not have to worry about things.

If they were to move all of them to Chen City, Chen City would probably be overcrowded.” Chen Xuan said worriedly.

“Then build a straw hut as soon as possible. It should be possible to build everything outside the pass.” Yang Chen said.

“What if they don’t want to come? No one would be willing to leave their homeland unless a knife was placed on their neck.”

What Chen Xuan said was true. It was difficult to leave one’s homeland. It was not a joke. How could a possible disaster make one leave their homeland and head to another place to take refuge?

Yang Chen was silent for a moment, then said, “Force them to come over and tell them that if the flood didn’t happen, the Chen family would bear their losses.”

“In addition, I’ve asked the Prefectural Governor for help. He should have received the news. With the county governor and our Chen family persuading them together, these people won’t resist much.”

“Go and borrow a photographic stone from my master. Let the commoners see the situation by the river every day. This way, we can prove that what we said is true.”

Hearing Chen Yang’s words, the family heads nodded. Immediately, Chen Xuan said, “Alright, well do as the clan head says.”

“Oh right, after moving them here, how are we going to settle them down?”

“Continue to use work as a form of relief, expand Chen City for me. If you have the ability, expand Chen City into the Endless Mountain Range.” Yang Chen said.

“Yes, sir!”

Immediately, the Chen family moved quickly. Not only the Chen family guards, but also the warriors of Chen City and the surrounding cities were warned by the Chen family to move the people.

At the same time as the Chen Family took action, the Deshun Commandery Prince’s order was also passed down. All the people by the river had to move inward to avoid the flood.

While the Chen family was busy, Yang Chen came to the Chen family’s incubation room.

The Underworld Dragon egg that he had obtained from the inheritance had officially hatched.

Yang Chen was also fortunate enough to meet this demonic beast whose parents were powerful but he was not.

It had to be said that this Hell Dragon was the most domineering demon beast that Yang Chen had ever seen

Similar to the Western Dragon, the Qilin had a dragon head and two sharp horns on its head. Below the sharp horns were many small horns.

Its fiery red fur showed its nature as a Fire Dragon Beast. There were also fiery red horns on its neck, emitting a mysterious and soul-stirring cold light.

The two wings of flesh and blood had a horn that could pierce through grade seven ling armor at the joint of the front and back bones.

Its four limbs were extremely thick and strong, and they contained terrifying power.

Its tail had even more horns than its neck. If it was swung on a person's body, one could imagine the feeling..

Chapter 149: Huge Waves

Chen Yang smacked his tongue as he looked at the Nether Earth Dragon.

As expected of a demonic beast that could grow to become a demonic king. It was already two meters tall when it was born.

His childish roar could still make people feel their hearts palpitate.

However, Yang Chen couldn't figure out why the Hell Earthwurm didn't seem to be related to the Rock Ground Shuttle Bull at all. Whether it was its appearance or its innate demonic arts, it was inherited from the Nine Hell Crimson Dragon.

Could it be that the Rock Ground Shuttle Bull only had the effect of blocking the Nine Abyss Crimson Dragon's bloodline?

Perhaps it was because of this that the Underworld Dragon's upper limit was only a demon king, far from his parents' achievements.

Walking to the side of the Underworld Dragon, Yang Chen rubbed its head and fed it a piece of meat.

While he was feasting, Yang Chen took the opportunity to sign a Common Familiar Contract with him.

As for the Natal Familiar Contract, Yang Chen didn't have a spot for it right now. After he broke through to the Core Formation realm, he would have three more spots. At that time, he would be able to sign a Natal Familiar Contract with the Hell Dragon.

After bringing the Underworld Dragon back to his courtyard, Yang Chen called the Light Plucking Eagle back." Light Plucking Eagle, I'll leave this Underworld Dragon to you. You must raise it as your child.""

Flashing Light Eagle tilted its head and looked at the Underworld Dragon and Chen Yang, then looked at the space between its legs.

No, I'm a male.

The Light Flashing Eagle argued. In their race, the female Light Flashing Eagle usually took care of the children, and the male only needed to hunt.

However, his efforts were futile. Yang Chen had an all-round development attitude and let the Light Plucking Eagle be both a father and a mother.

After taking care of the Underworld Dragon, Yang Chen rode on the winged tiger and flew to Song City.

In Song City, Chen Yang looked at the water under his feet with a worried expression. "Is it flooding so quickly?"

"Don't worry, family head. It's only a small-scale flood. It didn't cause any losses."

"Moreover, this flood is a good thing. It is precisely because of this flood that the obstruction for us to migrate the commoners is much smaller. Most of the commoners are extremely cooperative. There are even strong commoners who help us migrate."

Hearing Chen Xuan's words, Chen Yang nodded. "Hurry up and move. We should try to complete it within a month."

"I'm afraid that this river won't give us a month."

With Yang Chen personally taking charge, the migration was naturally much smoother. With the cooperation of the County Governor's Office, a large number of people were moved outside Chen City.

Outside Chen City, there were thatched cottages built for everyone to live in.

At the same time, the Chen family also said that if they wanted to live in a better place, they could apply for wood and stones from the county government. These were all transported from the Endless Mountain Range and were enough to build several cities.

During the transportation process, the river would flood from time to time, but fortunately, there was not much damage.

Just like that, after moving for half a month, there were only a few people left in Jiang Zhou. According to Yang Chen's estimation, the work would be done after another migration.

"Everyone, you've worked hard. If you can persevere, I'll reward everyone with an additional spirit stone when we return!"

In order to encourage the martial artists, Yang Chen waved his hand and rewarded them with thousands of spirit stones.

With the reward, everyone was naturally more motivated. Coupled with the cooperation of the people here, the migration went very smoothly.

Bang!

At this moment, a loud sound came from the riverside.

Chen Yang and the others looked over, and their pupils immediately constricted. Under everyone's gaze, a thousand-meter-tall wave rose in the river.

The huge wave crashed down, the river bank shattered, and the houses collapsed. The flood rushed toward Song Cheng with an unstoppable momentum.

This is still not over, and then there is a deafening sound in the river, a thousand-meter-long wave, as if it is venting its anger, rushing towards the river bank and Song City.

“Quick, hurry up!”

Seeing this, Yang Chen urged everyone to hurry up and move.

At the same time, he rushed to the city gate and mobilized the spiritual energy in his body to form a spiritual energy barrier, blocking the roaring flood outside Song City.

With Yang Chen’s Spiritual Qi barrier, Song Cheng was safe for the time being. However, Yang Chen’s Spiritual Qi was limited and he would not be able to hold on for long.

The martial artists in Chen City also knew about it and quickly moved the people out.

At the same time, the Patriarchs of the ninth-rank families in Nanyang also came to help Yang Chen stop the flood.

The power of man could not defeat the heavens.

After a quarter of an hour, Yang Chen and the others could no longer hold on. They could only let the flood break through the city walls and rush in, doing whatever they wanted in Song City.

Of course, Yang Chen and the others’ persistence was still useful. Most of them had already left Song City, and only a small portion remained.

“Chen Clan Leader, retreat!”

“That’s right. Chen family, let’s retreat.”

Hearing the elders’ persuasion, Yang Chen glanced at the flood behind him and nodded, “Let’s go!”

Immediately, a group of Patriarchs flew over. Each of them was carrying a few people from Song City, trying to save as many people as possible.

Under the relentless efforts of the people, the people of Song City were successfully relocated.

As for the people of Song City who would rather die than leave, Yang Chen respected his decision.

After the release of the Song City, the flood of the small, many, although still spread to the knees, but at least, the water flow slowed down, will not be swept away.

After five days and five nights of traveling, the last batch of people from Song City had successfully moved out of Chen City.

At this point, most of the people near the river in Nanyang County had moved to Chen City.

Looking at the exhausted crowd, Yang Chen said, "We'll provide them with food for seven days for free and let them take a break."

Although it was good to provide relief through work, it also depended on the time. In such a situation, it was better to provide relief for free and let them survive first.

While Yang Chen was settling down the citizens, Zhou Ying Zhao arrived at Chen City and informed Yang Chen about what had happened in the river.

"Are you saying that there are demon emperors fighting in the river?" Yang Chen said in disbelief.

"That's right." Zhou Yingzhao nodded with a serious expression. "My grandfather personally investigated. Two demon emperors are fighting in the river."

"That thousand-meter-long wave was created because of the battle between the demon emperors."

"Does the royal family have any ideas?" Yang Chen asked again.

“The royal family doesn’t have any good ideas at the moment. After all, these two demon emperors swam over from outside the Great Qian Dynasty. We didn’t talk to them, so we can only let the ancestor try to see if he can make them stop.”

Zhou Yingzhao looked at Chen Yang again.” Brother Chen, my grandfather asked me to bring you a message.””

“The demon beasts in the Endless Mountain Range will definitely know about the flood of the river. Grandpa wants you to pay attention to the Endless Mountain Range. Perhaps it won’t be long before a large-scale demon tide will descend again.”

Yang Chen frowned.

Troubled times. They had just developed steadily for ten years, and now this kind of major event that could wipe out the entire clan had occurred.

“Brother Zhou, don’t worry. I’ve already managed Chen City to this extent. I will never allow those bastards to ruin my hard work..”

Chapter 150: The Chen Family Added a Grade Eight Weapons Craftsman

Who knew what had happened to Dajiang that even the demon emperors outside were involved.

Could it be that something was attracting the demon emperor, or that a demon emperor had killed the son of another demon emperor?

After Zhou Yingzhao left, Chen Yang stayed alone in the reception hall, thinking about the reason.

However, no matter how he thought about it, he could not understand why these two demon emperors would come to Jiang Prefecture to fight.

“I hope that no other demon emperors will be involved. If there are only two demon emperors, the area where the river will flood can be controlled, and the losses will be within an acceptable range.”

Yang Chen sighed faintly and immediately threw these annoying things to the back of his mind. He first dealt with the matter at hand.

Now that there were so many people in Chen City, Yang Chen still needed to settle them down.

It was impossible for her to just touch her lips and say that she would be given work relief.

Just as Chen Yang was dealing with things, Chen Xuan ran in with a smile.”

“A happy occasion? What good news could there be? Could it be that Sir System had broken through to Meridian Opening?” Yang Chen guessed.

Chen Xuan smiled and said, “Family head, don’t joke around. My father’s aptitude is only at the ninth level. It’s already not bad for him to cultivate to the ninth level of Qi Refinement.””

” Great Elder, don’t worry. I’m at the ninth level of Qi cultivation. I’ll live to the end without any problems.””

“There’s still 30 years before my life ends. We have plenty of time to search for aptitude pills for me.” Yang Chen said.

“I hope so.” Chen Xuan nodded and immediately reacted. He did not come here for his father.

“Patriarch, Chen Shou has successfully refined a grade eight spirit weapon.”

“It’s true!”

Yang Chen stood up from his chair excitedly.” When did this happen? Why haven’t I heard about it?””

“Just now, under our witness, Chen Shou successfully refined the Beast Taming Bracelet and advanced to a grade eight Weapons Craftsman.”

“Because the family head is mainly dealing with the disaster victims, so I didn’t disturb the family head.

“Now that Chen Shou has successfully advanced, I rushed over to tell the family head the good news.” Chen Xuan said with a smile.

Yang Chen saw this and quickly left. “I’ll go see Fifth Brother first.””

In Chen Shou’s courtyard, looking at the Beast Taming Bracelet on the table, Chen Yang couldn’t hide the smile in his eyes. “Fifth Brother, congratulations.””

Chen Shou caressed the Beast Taming Bracelet, his eyes filled with joy. “I didn’t expect to be able to refine the Beast Taming Bracelet so quickly.”

“Patriarch, this Beast Taming Bracelet should be able to bring a lot of benefits to the clan, right?”

“That’s for sure.” Yang Chen said without hesitation, “This Beast Taming Bracelet is not only a Grade Eight Spirit Weapon, but it can also give martial artists another chance to tame beasts.””

“A Beast Taming Bracelet can be considered the foundation of a ninth-rank aristocratic family.”

“Such a mystical spirit weapon is surely much more precious than an ordinary grade eight spirit weapon.

I am certain that once the information about this Beast Taming Bracelet is spread, it will definitely be sought after by many aristocratic families.”

When Chen Shou heard this, a smile appeared on his stern face. “That’s good, that’s good.””

“Since Fifth Brother has successfully refined the Beast Taming Bracelet, let’s hurry to the ruins and receive the final reward and assessment.” Yang Chen said.

“Patriarch, I’m not in a hurry.” Chen Shou waved his hand. “Let’s deal with the family matters first.”

“It’s precisely because I have to deal with family matters that I’m in a hurry to bring you over. When I get busy in the future, I might not be able to free myself for two or three years.”

“Now that I have some spare time, I’ll quickly take you to receive the remaining inheritance.” Yang Chen explained.

Chen Shou didn’t reject Chen Yang’s offer.

Then, the two of them rode on the winged tiger and quickly rushed to the ruins.

In the Grotto-heaven, while waiting for Chen Shou, Chen Yang looked at the giant moth.

This giant moth was obviously an existence above the demon emperor level. Its perception ability must be extraordinary. Why don’t we ask the giant moth what happened in the river?

Yes, ask.

Immediately, Chen Yang cleared his throat, “Cough cough, senior, do you know what happened in the Heaven Pass River? Why would a demon emperor come to our small place?”

The giant moth opened its eyes and glanced at Chen Yang. Its cold voice entered Chen Yang’s ears, “What is the Heavenspan River?”

“It’s the river that flows out from the west of the Endless Mountain Range, flows through our Great Gan, and flows into the Endless Mountain Range from the east.

This is the largest river in our area. Senior should know, right?" Yang Chen looked at the giant moth.

In the Endless Mountains, the Heavenspan River was the largest. If he didn't know the second largest river, how could he not know the largest?

The giant moth thought for a moment, then smiled. "Fufufu, that river is worthy of the name of Tongtian? You'd better hurry up and absorb the inheritance and go out to broaden your horizons."

Chen Yang was convinced. How could you drag any problem into the inheritance?

Even though he was grumbling in his heart, Chen Yang still maintained his respectful expression. "Yes, Senior is right.

But Senior, the battle of the Demon Emperor has already affected my family. If I can't resolve it, I'm afraid I won't be in the mood to receive the inheritance."

"This is troublesome."

The giant moth snorted coldly. There's a maze here, so I can't sense it clearly. Those demon emperors should be fighting for something."

"Group?"

Yang Chen caught the word and said nervously, "Senior, do you mean that many more demon emperors are coming?"

"That's right, about seven or eight." the giant moth said.

"Seven or eight?" Yang Chen was stunned. There were so many demon emperors. They were probably going to tear down Jiang Prefecture.

“Senior...Are you sure you didn’t sense wrongly?” Yang Chen couldn’t believe that there were still seven or eight Demon Emperors on the way.

“I sensed wrongly?”

The giant moth’s eyes revealed a mocking look. “If you say that others sensed wrongly, that’s still possible. However, I will never sense anything wrong.”

“The natal saint spell of my race is perception. Otherwise, that bastard wouldn’t have tricked me into guarding the inheritance for his sect.”

“Let me put it this way. If I use all my senses, I can sense every flower and grass within a million miles, let alone a demon emperor.”

Good heavens, this was a true big shot.

Yang Chen clicked his tongue in wonder. In the future, no matter what, he would try to trick the giant moth into joining his family.

Of course, that was just a matter. What Yang Chen wanted to know the most was what these demon emperors were fighting for.

“Senior, do you know what treasure these demon emperors are fighting for?”

“I’m not sure. I haven’t sensed it specifically. However, I sensed a trace of dragon energy. It should be a treasure related to the True Dragon Race.”

At this point, the giant moth smacked its lips as if it had thought of something delicious.

True dragons, I ate one of your red dragons, and you trapped me in the tribe for nearly a thousand years. I haven’t taken revenge yet.

Yang Chen didn't notice the moth smacking its lips. At this moment, Yang Chen was deep in thought.

True dragons, demon emperors in the water...

Could it be a red dragon jade?

Yang Chen's eyes lit up. It was very possible.

Of course, he couldn't be sure. Perhaps there were other treasures that had the same characteristics as the Red Dragon Jade.

However, this provided a clue..
