

Tamer Family 161

Chapter 161: End of the Matter (1)

Great Gan, Jiang Prefecture, inside the whirlpool.

The golden-robed middle-aged man took out Chen Yang and the others' wooden tokens and used his spiritual energy to float them in front of everyone. Then, he looked at a seven-colored mussel beside him and said, "Clam king, please tell us how many pearls you have produced."

"Eh eh eh!"

The Spirit Eared Fox quickly translated, "The Clam King said that it produced a total of 90 pearls."

"Ninety?" The golden-robed man's gaze shifted to the floating wooden tokens. At the same time, he called out to the other higher-ups of the royal family. "Everyone, come and take a look."

Hearing this, the royal family's big shots gathered their gazes on the wooden token.

The Commandery Prince of De'an glanced at them briefly and then nodded. "They're not bad. They're not too ridiculous."

"Look at Zhou Yingjian. The answer he gave was fifty-three pills, which is the closest to the correct answer I have seen."

"Loyalty Marquis, you have a good grandson."

Hearing the praise from the others, the loyal and righteous Marquis' old face creased together happily. "Hahaha, everyone, you flatter me. Little Sun is just lucky. Maybe there is also someone who is closer to the correct answer."

"You don't say. There really is."

Hearing this, the loyal duke's smile froze and he quickly asked, "Who is it?"

"It's Prince De's great-grandson, Zhou Ying Lan. His answer is eighty-three."

When the loyal Marquis heard this, although he was somewhat unwilling, he still looked at Prince De with a smile. "Congratulations Prince De, Ying Lan has locked in a spot as a judge."

"Not at all. Ying Jian isn't bad either. At the very least, he can get a spot." Prince De could not hide the smugness on his face.

"Look here!" Suddenly, the Duke of De 'an seemed to have discovered something extraordinary and hurriedly called out to everyone.

"De An, what is it?" Prince De hurriedly asked.

"Prince De, look here. Someone actually guessed the correct answer." The Duke of De 'an said in disbelief.

There was actually someone who could count the number of pearls. It seemed that the royal family was going to give birth to another genius.

"Who is this person? He actually has such keen observation skills."

"Haha, it seems that our Royal Family is going to give birth to another genius. Duke De 'an, quickly take a look at whose child this is."

"Alright, let me see." The Duke of De An smiled as he looked at the name on the back of the wooden tablet. However, the smile on his face instantly froze.

"Duke De 'an, what's wrong? What's there to be stunned about looking at a name?"

“This...” “It’s Chen Yang,” the Duke of De ‘an said with a strange expression.” “Who is it? Chen Yang?”

“This... Are you sure you didn’t see wrongly? It’s Yang Chen?”

The Commandery Prince of De ‘an confirmed it again and again, and then said,“”I didn’t see wrongly. It’s indeed Yang Chen.”

Hearing this, everyone gasped. They could see the shock in each other’s eyes.

None of them had expected Yang Chen to be the one to answer the question.

Especially those who didn’t believe that Yang Chen could get the spot, their faces were filled with shame.

However, in the blink of an eye, this shame disappeared and was replaced by a smile.” Deshun Commandery Prince, congratulations. You have accepted a good disciple.”

“That’s right. When Chen Yang becomes the Purple Mansion in the future, he will definitely become a powerful helper for your Deshun Prince’s Mansion.”

“This Deshun Commandery Prince is not only powerful, but he also has a good eye on people. If it were you or me, would you accept a ninth rank family head as a disciple?”

As a big shot of the royal family, it was a must to learn how to change one’s expression. The Deshun Commandery Prince was already used to it and similarly answered everyone with a smile.

“Not at all, not at all. Little disciple was just lucky.”

“No, no, 1 was just lucky.”

Seeing that everyone was still praising him, the golden-robed middle-aged man coughed." Cough cough, everyone, if there are no objections, I will announce the results."

"Go, go. Don't let the children wait anxiously."

"That's right."

The golden-robed middle-aged man nodded when he saw that no one was refuting him. With a flick of his sleeve, he kept the wooden tokens back into his sleeve and then turned around to announce the result.

Chen Yang and the others.

Seeing that the golden-robed man had not returned for a long time, everyone was a little flustered.

Could it be that something unexpected had happened that caused them to not be allowed to be judges? Or could it be that something had happened that caused the big shots to lose their composure?

This kind of panic did not last long. After the middle-aged man arrived, the panic turned into anticipation and curiosity.

Everyone hoped that their answer was the closest to the correct answer, because this was related to the generous reward.

The golden-robed middle-aged man swept his gaze across the crowd and said,""The results are out. The five judges are Zhou Yinglan, Zhou Yingjian, Zhou Yingzhao, Zhou Yingping, and Chen Yang."

As soon as he said this, everyone was in an uproar.

They weren't doubting the result, but they were curious about the correct number.

This was because the answers given by Chen Yang and Zhou Yingjian differed by nearly 40 points. With both of them being selected at the same time, how could one not be curious about the correct answer?

When the middle-aged man saw this, he also understood what everyone meant. He immediately said, "The correct answer this time is 90."

"It's actually 90!" A royal disciple exclaimed.

Yang Chen looked over and found that this person was the one who had argued with Zhou Ying Lan earlier.

"This... How is this possible?" The man swallowed his saliva and said in disbelief, "Yang Chen didn't miss a single one!"

"What did you say?" Hearing this, Zhou Yingjian hurriedly looked at that person. "What do you mean by not missing a single pill?"

Seeing this, that person calmed down and said, "Yang Chen's answer is 90 crystals, which is exactly the same as the correct answer."

"What?"

"How is this possible?"

The royal family looked at Yang Chen in shock. They knew better than anyone how many pearls there were.

But now, there was actually a person who didn't have a bad pill. How did he do it!

Unfortunately, no one told them the answer. After the results of the selection were announced, the golden-robed man sent the others away, leaving only five people who passed the selection.

Looking at these five people, the golden-robed man slowly said, "First of all, congratulations on passing the selection. Secondly, you don't have to worry about the referee. With us watching from the side, you're just going through the motions."

"After the battle is over, you can leave after receiving your rewards."

Yang Chen and the others nodded.

The development of the matter was indeed as the golden-robed man had said. With the supervision of the demon emperors and the royal family's big shots, there were no accidents in the competition.

Yang Chen and the other four just repeated the beginning and end mechanically.

Three days later, the competition for the Red Dragon Jade officially ended. In the end, the Blackwater Dragon's descendant won.

After the flood dragon took the Red Dragon Jade, it quickly left the river. When the other demon emperors saw this, they secretly followed, clearly unwilling to give up.

Seeing this, the royal family's ancestor did not refuse because his original intention was to let these demon emperors leave Da Qian. As for the ownership of the Red Dragon Jade, the royal family's ancestor really did not care..

Chapter 162: Receiving the Reward, the Chen Family

Obtains the Core Formation Technique

Great Gan, Jiang Prefecture, Yi City.

After the Demon Emperors left Da Qian, the royal family's big shots heaved a sigh of relief and left Jiang Prefecture. Chen Yang and the other five judges followed the golden-robed man and Deshun Commandery Prince to Yi City. Yi City, Deshun County Prince's Mansion.

The golden-robed man looked at Yang Chen and the others, then smiled and said, "Relax, there's something good waiting for you."

When everyone heard this, they stared at the golden-robed man with burning gazes.

They were all aware of this good news. It was just the reward for the referee.

As expected, the golden-robed man smiled and said, "This good thing is the benefit that I promised you. The royal family has decided that you can obtain a sixth-grade treasure."

"Other than cultivation techniques, as long as the royal family has them, they will give them to you. Of course, if he had to choose a cultivation technique, he could only choose a seventh-grade one."

The golden-robed man looked at Chen Yang. Obviously, only Chen Yang needed the cultivation technique.

"Alright, think about it carefully. Tell me when you've made a decision."

Then, the golden-robed man left the main hall together with Deshun Commandery Prince and went to the side hall to drink tea to make space for Chen Yang and the others.

After the golden-robed man and De Shun Commandery Prince left, the five of them quickly started discussing.

"Ying Lan, what treasure do you think we should choose?" Zhou Yingjian looked at Zhou Yinglan.

Zhou Yinglan smiled when she heard this. "You have to decide for yourself. Think about what you lack and choose what you want."

Then, Zhou Ying Lan looked at Chen Yang, "Brother Chen, do you have any treasures that you like?"

"A treasure you like?" Chen Yang thought for a moment, then smiled and said, "My Chen Family lacks everything, but what we need the most right now is probably the Ten Thousand Beast Art's Core Formation realm cultivation method."

"Brother Chen, do you mean to say that you want to exchange for the Ten Thousand Beast Technique's Core Formation Technique?" Zhou Yinglan asked. "Can I exchange codes?" Chen Yang was a little surprised and said, "Is this the foundation of the Beast Tamer Sect? Can the royal family give it to my Chen family?"

"Of course." A hint of disdain appeared in Zhou Yinglan's eyes. "This Beast Tamer Sect's background isn't small, but it's just a background. They were only rank-seven forces now. What qualifications did they have to challenge the royal family?"

"Besides, if it was a sixth-grade Purple Mansion cultivation technique, perhaps the Beast Tamer Sect would still resist and not hand it over no matter what."

"But to be honest, the Beast Tamer Sect can still give our royal family face for a seventh-grade Core Formation technique."

Fearing Zhou Ying Lan's words, Chen Yang immediately heaved a sigh of relief. He then smiled and said, "Since that's the case, I'll choose to exchange for the Myriad Beast Technique's Core Formation technique."

After fifteen minutes of discussion, the golden-robed man returned to the main hall and smiled at everyone. "Have you decided? Tell me what reward you want. Let's start with Yang Chen."

Yang Chen stepped forward and said, "I want the Ten Thousand Beasts Technique's Core Formation Technique."

The golden-robed man wasn't surprised at all when he faced Chen Yang's request..

“Where are the others?”

“I want...”

After everyone had listed the treasures they wanted, the golden-robed man nodded and said, “Alright, I’ve noted down everyone’s requests. Within a month, the rewards will be delivered to you.”

“Let’s go our separate ways now.”

Then, the golden-robed man took the lead and left. After the other members of the royal family bowed to the Deshun Commandery Prince, they also took their leave.

Before long, only Deshun Commandery Prince and Chen Yang were left in the main hall.

Deshun Commandery Prince patted Chen Yang’s shoulder and said, “Disciple, I don’t think there’s any problem with this cultivation technique, but the Beast Tamer Sect will definitely want your Chen family to pay something.” “What does the Beast Tamer Sect need from my Chen family?” Chen Yang was a little confused.

“With our royal family around, the Beast Tamer Sect will definitely not go too far. “I reckon that after your Chen family advances to the Eighth Stage, they will continue to be a vassal family of the Beast Tamer Sect.”

“Even our royal family can’t refuse this price. After all, the Beast Tamer Sect’s cultivation technique has not been passed on to outsiders.” Deshun Commandery Prince said.

Hearing this, Chen Yang heaved a sigh of relief. He then smiled and looked at Deshun Commandery Prince. “It doesn’t matter. It’s just a vassal family. It’s no big deal.”

At the moment, the Chen family’s strength was still a little weak, and Jiang Zhou was the territory of the Beast Tamer Sect. It was better to temporarily choose to be a vassal to President Hu. When they became stronger in the future, they would make other plans.

“Fortunately, the Demon Emperor’s Chaos ended quickly. Otherwise, Da Qian would have been dragged to death.”

Deshun Commandery Prince sighed deeply. What an eventful time.

After complaining, the Deshun Commandery Prince looked at Chen Yang. “Disciple, I still have something to do. I’ll be leaving first.””

“Goodbye, Master.”

After Chen Yang watched the Deshun Commandery Prince leave, he looked for Chen Xuan. “Great Elder, I have good news for you.””

“Good news?” Chen Xuan was badly battered by the flood. At this moment, he really could not think of any good news.

“Master, what’s the news?” Chen Xuan asked immediately.”

“I have the Ten Thousand Beast Technique’s Core Condensation Technique.” Yang Chen smiled.

“What?” Chen Xuan’s eyes widened. “The Beast Tamer Sect has always regarded the Myriad Beast Art as the sect’s most precious treasure. Why would they be willing to hand it over to the family head?””

“It’s such a thing,”

Chen Yang told Chen Xuan everything about the referee. After Chen Xuan heard it, he was still in a daze.

“In that case, my Chen clan has a tier 7 Core Formation Qi Method...”

“Flahaha, my Chen family has a level seven Core Formation technique!”

Chapter 163: The Flood Retreats, The Royal Family Rewards According to Merit

Half a month later, at the north gate of Chen City.

The county magistrate of Chen City was clearing the roads outside the city with the people of Chen City. After the flood, it was all muddy land, so it naturally had to be cleaned up.

Now that Chen City was bustling, the city gate, as the face of the city, naturally had to be clean.

If there was mud and water, they would cover it with sand. At the very least, they had to make it look like it was real.

This was also for Chen Cheng’s sake.

Of course, the county magistrate would never say that he had nothing to do and was afraid that people would forget that there was another county magistrate in Chen City. That was why he had led everyone to clean up the city gate.

“Phew!”

Putting the broom aside, the county magistrate of Chen City picked up the towel hanging around his neck and wiped the sweat from his forehead.

Then, he took the kettle handed over by the advisor and greedily swallowed a few mouthfuls. Then, he wiped his mouth and heaved a long sigh of relief.

“Advisor Zhao, tell everyone that if they persevere, the north gate will be cleared out. We must clean up the city gates before the Chen Clan Leader returns.”

“Alright.” Advisor Zhao smiled and took the water bottle, then took the broom from the magistrate. “Your Excellency, what treasure do you think the royal family will reward the Chen family?”

“How would I know?” The county magistrate glanced at the advisor and said, “However, no one in Chen City died in this flood. Such a shocking achievement will naturally be commended.”

“I reckon that if the Chen Clan decided to switch to a cultivation technique, the royal family would probably send over a sixth-grade cultivation technique that would allow one to reach the Zifu level.” The county magistrate said enviously.

He was born in an eighth-rank clan, and he knew from a young age how precious cultivation techniques were, and how difficult it was to obtain a good one.

There were so many talented people who had been stuck at the peak of the Core Formation realm for their entire lives because of their cultivation techniques, and they had all died of depression.

The Chen Family had made a great contribution this time, and with this, they could obtain the Purple Mansion cultivation technique that more than 100 eighth-ranked families in Da Qian dreamed of.

The county magistrate had a guess in his heart that it would not be long before the Chen Family became the first seventh-rank family in Jiang Prefecture under the leadership of Chen Yang.

Of course, he couldn't see it because the transfer order had already been issued. He was going to be transferred to the neighboring state to be the governor.

Thanks to the Chen family's construction of Chen City, he, who had reached the peak of his career as a county magistrate, would one day become the governor of a county, even if it was only on the surface.

Looking at the light blue sky, the county magistrate could not help but sigh. “Although I've been promoted, why don't I feel happy?”

“Could it be that the sky in Chen City is really bluer than anywhere else?”

Yi City, Prefecture Overseer’s Office.

In order to commend the aristocratic families of Jiang Prefecture for their contributions to the flood disaster, the Human King specially sent Deshun Commandery Prince to reward the aristocratic families on behalf of the Human King.

The location of the reward was naturally placed in the main hall of the Prefecture Overseer Estate.

In the main hall, looking at Chen Yang who was surrounded by a group of Eighth-rank Family Heads, the Mo Family Head could not help but sigh, “Back then, the Chen Clan Leader was only enjoying himself while the Nanyang Clan was surrounded by stars.”

” And now, the Chen Clan Leader is still enjoying the attention of the masses. However, the ones surrounding him are no longer us ninth-grade Clan Leaders, but eighth-grade Clan Leaders.”

When the Li Family Head heard this, he nodded.” That’s right. The changes in the Chen Family are too shocking.”

“How long has it been? The Chen family has become so powerful under the leadership of Chen Yang.”

“Back then, I still wanted to marry my clansmen to the Chen Clan Head. Now, it seems that I’ve reached a higher level. The Chen Clan Head is so heroic. How can an ordinary woman be worthy of him?”

“Isn’t that so? I even sent my daughter to the Chen family to act as a liaison, intending to let the two of them develop feelings for each other while they get along.

Now it seems that it has delayed my daughter.” Mo Family Head sighed.

“It’s not considered delaying your daughter, right?”

” Your daughter has been following the Chen Family for a long time.” The Li Family Head said with some envy, ” Although she didn’t gain the Chen Family Head’s favor, she still received a lot of rewards from the Chen Family.””

“He’s only thirty years old now, but he’s already cultivated to the ninth level of Qi Refinement. He’s already caught up to you, his father.”

“Yes, your daughter has an eighth grade aptitude, so her cultivation speed is naturally much faster. However, without the resources of the Chen family, it was impossible for an Eighth Grade aptitude to cultivate so quickly.”

“If this continues, I’m afraid your Mo clan will give birth to the first female Meridian Opening Ancestor.”

When the Mo Family Head heard this, he could not hide the joy on his face. As a father, he was proud that his daughter could have such achievements.

Excluding the Chen Family, which had already surpassed Level Nine, his daughter, Mo Xingling, was one of the best among the disciples of the Nanyang Family.

Over the years, there were many disciples who wanted to marry Mo Xingling, and some of them were even heirs of eighth-rank families.

Unfortunately, perhaps because she had been with Yang Chen for a long time, Mo Xingling was not interested in these ordinary people.

The Mo Family Head could only sigh at this. In everything in the world, there were gains and losses.

In front of the hall, the Xu family head of the Xu family of Aiming looked at Chen Yang with some flattery. ” Chen family head, we’ve checked the mine. There’s no problem.”

“What I mean is that the four of us will clean up the sewage for the Chen family first before starting work.”

“Oh, then I’ll have to trouble all of you.” Yang Chen smiled.

“It’s nothing. It’s just a piece of cake.” The Xu family and the other four family heads shook their heads repeatedly, indicating that they were willing to help the Chen family discharge the dirty water.

After talking to Master Xu twice, Yang Chen discussed other things with the other masters.

When the Xu family’s head and the others saw this, they did not feel the slightest bit of displeasure. Instead, they felt that it was only natural.

Because all the aristocratic families knew that the Chen Family would at least be a top eighth-rank aristocratic family in the future. It was not something they could compare to.

Even now, the Chen family’s strength was enough to fight with them.

Not long after the crowd conversed, the Deshun Commandery Prince and the Prefecture Overseer arrived.

“Greetings, Deshun Commandery Prince and Prefecture Overseer.” Everyone stood up and bowed.

“Everyone, there is no need to be so courteous. Quickly sit down.” The Deshun Commandery Prince pressed everyone down on the chairs with a light press. Then, he and the Prefecture Overseer walked to the main seat unhurriedly.

After the two of them sat down, Deshun Commandery Prince smiled and said, “First of all, congratulations to everyone for successfully surviving the flood.”

“There’s another thing that everyone needs to know. In this flood, there were three eighth-rank aristocratic families in Jiang Prefecture, and thirty-two ninth-rank aristocratic families were annihilated by the flood, becoming the history of Da Qian.”

“The resources in Jiang Prefecture have suffered heavy losses. It will probably take decades for them to recover. At this difficult time, I hope that everyone can put aside their past grudges and develop steadily.”

“During this period of time, don’t break out in the clan war. Rest in peace and recuperate.”

“We understand.” Chen Yang and the others said in unison.

When the Deshun Commandery Prince saw this, he nodded in satisfaction.” That’s good. Next, on behalf of the royal family, I will reward the aristocratic families who have made great contributions to Jiang Prefecture during the flood disaster..”

Chapter 164: Bountiful Reward, Wang Shuo Gives You a Core Formation Technique

He was here!

Chen Yang and the other leaders of the aristocratic families looked at Deshun Commandery Prince with excitement. The reward promised by the royal family was a great motivation for them to persevere.

Now that the suffering had come to an end, they naturally looked forward to the benefits of the royal family.

The Commandery Prince of De Shun took in everyone’s expressions and said with a faint smile,“Everyone, there’s no need to be anxious.”

“First, the families that provide cities will be ranked according to the number of citizens left in Jiang Prefecture.”

“According to our statistics, the highest ranking is Nanyang Chen City.”

Everyone was not surprised by this result.

They had already learned from the other family heads who lived in Chen City that no one had died in the flood.

They didn't even dare to think about this result, let alone fight for first place with the Chen family.

Under the envious gazes of the family heads, Chen Yang stood up and walked forward. He cupped his hands and bowed to the Duke of Deshun.

Seeing this, Deshun Commandery Prince hurriedly helped Chen Yang up and immediately smiled, "Disciple, according to the rules, you can choose a sixth-grade treasure, even a cultivation technique. As long as the royal family has it, it will be rewarded to you."

Yang Chen hesitated for a moment. To be honest, he really didn't know what to choose.

The main thing was that Yang Chen didn't know what treasures the royal family had.

The cultivation method that the Chen family needed the most was also given to the Chen family by the royal family when Chen Yang was the referee.

Immediately, Chen Yang looked at the Duke of Deshun. "Master, what do you think I should choose?"

As the most powerful king in the Great Qian Dynasty, the Deshun Commandery Prince naturally knew what treasures the royal family had.

He might be able to give Chen Yang some advice if he asked Deshun Prince.

Deshun Commandery Prince thought carefully and said, "In my opinion, what your Chen family lacks the most is the kind of treasure that can be used as the family's foundation."

“After all, your Chen Clan has only been established for a short period of time. If you can obtain a treasure that can be used as a foundation, you can also erase the gap between your foundation and the other aristocratic families.”

Hearing the words of Deshun Commandery Prince, Chen Yang nodded. These words were true.

Although the Chen family’s development momentum was fierce, to be honest, it was all thanks to Yang Chen himself.

If Yang Chen was excluded, the Chen Family would be no different from an ordinary ninth-rank aristocratic family.

In such an awkward situation, he naturally needed a treasure that could serve as a foundation.

Immediately, Chen Yang hurriedly said, “Then Master, do you know what treasures the royal family has that can serve as a foundation?”

Upon hearing this, Deshun Commandery Prince waved his right hand, and three illusory figures condensed from Spiritual Qi appeared in front of Chen Yang.

“The so-called foundation is usually a powerful spirit weapon, such as the spirit stone crossbow. Perhaps it was some kind of powerful spiritual medicine or a clan protection array.”

“Only these three treasures can help the clan turn the tide when it is in the most dangerous moment.”

“In the royal family, the most famous spiritual weapon is the Divine Martial Crossbow. The royal family had obtained them from the ruins of a dynasty. There were three of them.”

“The spirit stone crossbows of our Da Qian Empire were created based on this Divine Martial Crossbow. As the main family’s Divine Martial Crossbow, its power was naturally much stronger than the Spirit Stone Crossbow.”

“The Divine Martial Crossbow also has three levels of attack.

The first level of attack consumed 30,000 spirit stones and could be fired by the Divine Martial Crossbow. It was equivalent to the full power of a fourth-stage Core Formation expert’s spiritual energy crossbow bolt.”

“This second level of attack requires fifty thousand spirit stones to be able to fire an arrow that is equivalent to the full power of a seventh level Core Formation expert.”

“The third level of attack costs 100,000 spirit stones. When the Divine Martial Crossbow is fired, it is equivalent to the full power of an expert of the first level of the Zifu Disciple realm.”

Yang Chen’s eyes lit up. He didn’t expect the royal family to have such a powerful weapon.

If the Chen family obtained this Divine Martial Crossbow, even a Rank-7 force would treat the Chen family as a force of the same rank.

Looking at the shadow of the Divine Martial Crossbow, Chen Yang was tempted. Just as he was about to choose the Spirit Stone Crossbow, he heard the Deshun Commandery Prince talk about the remaining treasures.

Seeing this, Yang Chen temporarily suppressed his excitement and listened to the effects of the remaining treasures.

“There are more than ten kinds of spirit herbs in the royal family that can be used as the foundation of the family. Among them, the most suitable one for your Chen family is the Sky Pond Purple Lotus.”

“It is rumored that the Heavenly Pond Purple Lotus is produced in the Heavenly Pond. Its entire body is snow-white, and its petals are a demonic purple.”

“And the effects of the Heaven Pond Purple Lotus are extremely attractive to your Chen family. It could allow a Demon Venerable level demon beast to have the strength of a Demon King for a month.”

“When the medicinal effects of the purple lotus dissipate, the demonic beast will also obtain many benefits. The chances of breaking through to the Demon King realm will also increase by 10%.”

After hearing about the effects of the Heaven Pond Purple Lotus, excitement and greed appeared in the eyes of the family heads of the imperial beast families below the stage.

Such a treasure was far more precious than the Divine Martial Crossbow to the beastmaster aristocratic families.

But for the Chen family, it was nothing.

With the Dao Integration Pearl, Chen Yang wasn't worried about his family's familiars. He didn't want such a treasure.

Of course, if the royal family gave it to him for free, Yang Chen would gladly accept it.

After he finished talking about the spirit herbs, the Duke of De Shun continued to talk about formations.” Formations that can be called the foundation of a clan are all formations that have great defensive power.”

“And the royal family has a formation, a killing formation.

Even if a Zifu Disciple was trapped within, if there was no one outside to help him, he would still be killed by this formation.”

“This formation is called the Sirius Star Formation. It is engraved on a grade-6 formation artifact and was obtained by the royal family in the ruins of a dynasty..”

Chapter 165: Bountiful Reward, Wang Shuo Gives You a Core Formation Technique

“The so-called array artifact is a special existence of a spirit artifact. Its function is to carry an array formation.

If your Chen Clan chooses the Sirius Star Array, then this array artifact will probably be rewarded to you.”

“After the Sirius Star Array loses its effect, your Chen family can still take the array tool and find an array master to engrave a new array.”

“Ever since we found the Sirius Array, the royal family has treated it as a treasure. After all, the royal family does not have many such killing arrays.

If it weren't for the Demon Sovereign Rebellion, the royal family probably wouldn't have taken it out.”

“Alright, I've told you all three things. Which one do you want to choose?”The Deshun Commandery Prince laughed.

Yang Chen hesitated. To be honest, Yang Chen wanted all three treasures, but the royal family would not give them all to the Chen family.

If he had to make a choice, the Heaven Pond Purple Lotus would be the first to be eliminated.

With the Dao Integration Pearl, why would he need the Heaven Pond Purple Lotus?

As for the Sirius Star Formation and the Divine Martial Crossbow, Yang Chen was still a little conflicted.

In terms of power, the Sirius Star Array was definitely stronger, and it could protect the entire Chen family.

As for the advantage of the Divine Martial Crossbow, it was more flexible and could be used in battles instead of being passively beaten.

It could be said that each had their own benefits.

Yang Chen thought for a moment and decided to choose the Divine Martial Crossbow. It was still the same reason. Although the Sirius Star Formation was good, it could only be passively beaten.

On the other hand, the Divine Martial Crossbow could help the Chen Clan conquer cities and territories, and conquer other forces.

“Master, I want to choose the Divine Martial Crossbow.” Yang Chen said.

The Deshun Commandery Prince was not surprised to hear Chen Yang’s choice. He already had a good understanding of his disciple’s temperament.

How could such a person with great ambitions and good ideas choose a treasure that was passively beaten up?

“Alright, within a month, the treasure will be delivered to your Chen family.”

In the following period of time, the royal family gave out treasures one by one. While everyone accepted the rewards with satisfaction, they also saw the foundation of the royal family of Da Qian.

After all the rewards were given out, the Duke of Deshun dismissed everyone, leaving only Yang Chen alone.

“ My dear disciple, do you still have a seventh-grade treasure that you haven’t chosen? What do you want to choose?”

This seventh-grade treasure was a basic reward and had nothing to do with ranking.

Yang Chen thought about it for a moment and said, “Can I give up this treasure and let my Patriarch return from the battlefield?”

Upon hearing this, Deshun Commandery Prince stroked his beard and thought for a moment. Then, he smiled and said, "You value relationships. Fine, the war at the front line has reached a tug-of-war.

In that case, let your ancestor come back."

Hearing this, Chen Yang quickly cupped his hands and bowed. "Thank you, Master, on behalf of Patriarch Yang!"

"There's no need to thank me. It's just an equivalent exchange." Deshun Commandery Prince waved his hand, indicating that Chen Yang did not need to be so polite.

After receiving the reward, Yang Chen rode his winged tiger and rushed to Chen City without stopping.

What made the magistrate feel a little regretful was that Yang Chen did not even look at the city gate and flew straight into the Chen family.

In the Chen family's meeting hall, after Chen Xuan learned that the ancestor was returning, he could not hide the joy on his face.

However, in the blink of an eye, her joy was replaced by worry. She said carefully, "Patriarch, the ancestor is back. What about the marriage?"

"What should we do?" Yang Chen smiled and said, "According to what we agreed on before, we will rely on you to persuade the ancestor."

When Chen Xuan heard this, he swallowed a mouthful of saliva and immediately gritted his teeth. "Patriarch, can I advance all the spirit stones I have for the rest of my life and ask the patriarch to buy me a grade-7 aptitude pill?"

"Hmm? Why did you suddenly make this decision?" Yang Chen asked.

When Chen Xuan heard this, he smiled awkwardly. "I'm afraid of Fourth Grandpa. Now that you've arranged Fourth Grandpa's marriage without my permission, I'm really afraid that Fourth Grandpa will spank me in public."

"My grandson is already so old. I really can't afford to lose face like this. It's better to let my father do it."

Hearing the First Elder's words, Chen Yang smiled and said, "Alright, the clan will buy a grade-7 aptitude pill for First Grandfather."

"As for the resources for the rest of my life, there's no need for that. According to the normal rules, I'll deduct all of them."

"However, you still have to convince the other elders."

"That's easy." Chen Xuan made up his mind. "If they're unwilling, then let them talk to fourth grandfather about this personally."

"If they want to lose face, then I don't care."

Chen Xuan was only joking. After all, Chen Xuan's father was the only survivor of the previous generation. He had dedicated his life to the family.

Now that they were near the end of their lives, they needed the aptitude pill to break through and save their lives. The other elders naturally would not reject it.

Moreover, if they agreed to Chen Xuan, then in the future, when they needed a Grade 7 aptitude pill, the Great Elder would return the favor and would not reject them.

As expected, after Chen Xuan asked, the elders all said that they had been taken care of by their uncle since they were young, so they were naturally willing to let their uncle extend their lifespan.

Moreover, the elders took out a year's worth of cultivation resources to subsidize Chen Xuan.

Although it wasn't much, it was still a gesture of goodwill. The maintenance of clansmen's relationships often relied on this kind of goodwill.

Immediately, Chen Yang asked Chen Xuan to take his token to the Deshun Prince's residence and ask the Deshun Prince to help buy a Grade Seven Elixirs.

As for why Yang Chen didn't go personally, it was because there was a big matter waiting for Yang Chen to deal with.

In the reception hall, Yang Chen smiled as he held up his teacup, "Young Sect Master, we haven't met for a while."

When Wang Shuo heard this, he said awkwardly, "Brother Chen, it's not that I don't want to come. It's just that I want to carry out the plan you set up to cross the sea and drive the tiger to swallow the wolf."

"I couldn't escape, so I didn't come to pay my respects to Brother Chen just now."

"Now that the plan has worked, my father and my second uncle have disregarded the interests of the sect and caused the elders to be separated from each other."

"I also took the opportunity to rope in a group of elders. Now, 70% of the elders in the entire Beast Tamer Sect have pledged loyalty to me."

"Even if my father finds out about my plan, he can't touch me."

Wang Shuo couldn't hide the smugness on his face.

"All of this is thanks to Brother Chen's scheme. Otherwise, I reckon that my father would have long stripped me of my position as the Young Sect Master."

“You don’t know how desperate I was when he gave the grade-6 aptitude pill to that illegitimate child. At the same time, it also strengthened my determination to carry out the plan.”

“Now, as long as we wait for the two of them to fight to the death, our great cause will be accomplished!”

Hearing this, Chen Yang put down his teacup and smiled at Wang Shuo.” I’m Chen Yang, the head of a vassal family. Greetings, Sect Master.””

When Wang Shuo saw this, he quickly helped Chen Yang up.” Brother Chen, what are you doing? One day, when I become the sect master, I will definitely not treat the Chen family as a vassal sect.”

“Our two clans are brothers. If Brother Chen doesn’t believe me, I’m willing to swear an oath to the heavens.”

“No need, no need.” Chen Yang smiled and waved his hand,” How can 1 not trust Young Sect Master?”

Then, Yang Chen returned to the main seat and continued to smile,””Young Sect Master has come here to give my Chen Clan a cultivation technique, right?”

“That’s right.” Wang Shuo nodded and took out a jade slip from his storage bag.” This is the Ten Thousand Beast Technique.””

“Brother Chen, please accept it.”

As he spoke, Wang Shuo placed the jade slip on the tea table beside Yang Chen.

After putting the jade slip down, Wang Shuo said hesitantly,””Brother Chen, there is something 1 have let you down.

“The sect has decided that after your Chen family advances to the Eighth Stage, you will still become a subordinate sect of our Beast Tamer Sect.”

“However, Brother Chen, don’t worry. After my argument, the sect didn’t make your Chen family swear a great oath on the fate of the clan.”

“After I take over, your Chen family can leave the Beast Tamer Sect.”

“Young Sect Master, what are you saying?” Yang Chen picked up his teacup and leisurely took a sip. Then, he said, “My Chen family will never betray the Beast Tamer Sect.”

Wang Shuo was touched by Yang Chen’s words, but he was not impressed.

Who were they trying to fool? With the Chen family’s future potential, how could they be willing to be a vassal family of the Beast Tamer Sect?

Now, Wang Shuo only hoped that after the Chen family rose to power, they would remember his friendship and not let the Beast Tamer Sect become a vassal sect of the Chen family..

Chapter 166: Chen Yang’s Breakthrough, Chen Family’s

Advancement to Rank-8

Playing with the jade slip containing the Ten Thousand Beast Technique’s Core Formation realm cultivation technique, Chen Yang looked at Wang Shuo, “Young Sect Master, what are your plans?”

“I have no other plans at the moment. I will carry out Brother Chen’s plan obediently. As for Brother Chen, I’m afraid he’s about to break through to the Core Formation realm.”

Wang Shuo looked at Yang Chen sourly. In ten years, he had cultivated from the third level of Pulse Unsealing to the peak of Pulse Unsealing.

This cultivation speed was probably the best in Da Qian.

It was said that in the capital, some busybodies had already listed Chen Yang as the number one monster in Da Qian. This naturally attracted the dissatisfaction of the geniuses.

However, no matter how dissatisfied they were, their cultivation speed was right there and then. They had no choice but to say anything.

However, as the Young Sect Master of a seventh-rank faction, Wang Shuo had never lacked cultivation resources since he was young. Yet, he was only at the fifth level of Pulse Unsealing.

“That’s right.” Yang Chen smiled and nodded.

Seeing this, Wang Shuo took a deep breath.” Alright, I’ll take my leave then. I hope Brother Chen’s breakthrough will be successful and that you’ll become a Core Formation cultivator soon.”

“Have a safe journey, Young Sect Master.”

After sending Wang Shuo off, Yang Chen handed over the family matters to the Second Elder while he went into seclusion in his courtyard to cultivate.

The Second Elder also knew that Yang Chen’s breakthrough to the Core Formation realm was the most important matter for the Chen family. He immediately made Yang Chen’s courtyard a forbidden area for the family, and no one was allowed to disturb him.

Time passed bit by bit. Yang Chen also learned the Ten Thousand Beast Technique’s Core Formation realm cultivation method, making the final preparations for breaking through to the Core Formation realm.

The path of martial artists, Qi Refinement, Meridian Unsealing, Core Condensation, Zifu, and the stage...

Every step was to improve the quality of the spiritual energy and increase the amount of spiritual energy stored in his dantian.

Meridian Unsealing was to open up the blocked meridians and let the spiritual energy turn into liquid. Core Condensation was to condense this liquid into a spiritual energy pill.

The remaining cultivation was to break through the spiritual qi pill and increase the size of the spiritual qi pill. When the size of the spiritual qi pill was equivalent to the entire dantian, he could break through to the Purple Prefecture.

Yang Chen's body was filled with spiritual liquid, and now he was only short of turning it into a pill.

After turning the liquid into a pill, not only would the storage of spiritual energy increase, but the quality of the spiritual energy would also increase.

Three months later, in Yang Chen's courtyard.

Yang Chen's eyes were tightly shut, and his shoulders were covered in dust. It was obvious that Yang Chen had been motionless for some time.

Around Yang Chen, there were spirit stones. These spirit stones quickly produced spiritual energy and were absorbed by Yang Chen at the same time.

A small Spirit Qi vortex had already formed above Yang Chen's head.

Suddenly, Yang Chen opened his eyes and a strong aura came out of his body.

A gust of wind suddenly rose up in the entire courtyard.

Bang!

Wherever the strong wind passed, the walls of the courtyard collapsed, and the houses collapsed. The entire courtyard was instantly turned into ruins.

Many people heard the commotion here, but because of the ban issued by the Second Elder, no one came over to check.

All he could do was report the news.

After the strong wind swept for a while, it gradually disappeared, and a spiritual energy storm suddenly appeared around Chen Yang.

Yang Chen, who was in the middle of the storm, jumped up from the ground and jumped to the top of the spiritual energy storm.

Clenching his hands, a huge absorption force formed in his body and absorbed the spiritual energy storm into his body.

The spiritual energy storm dispersed, and Yang Chen landed on the ground with a peace of mind.

Spreading his fists, Yang Chen could feel the terrifying power contained in his body. He couldn't help but say, "Is this the strength of a Core Formation expert? It's indeed extraordinary!"

At this moment, the First Elder, the Second Elder, and the Chen family rushed over.

Feeling the terrifying aura emitted by Chen Yang, Chen Xuan's eyes lit up."

"Congratulations to the Patriarch for breaking through to the Core Formation realm. May the Patriarch live forever!"

The congratulations pulled Yang Chen back to reality.

Yang Chen immediately turned around and smiled. He wanted to say something, but when he saw an old man in the crowd, he quickly ran to the old man's side and held his hand.

"First grandfather, why have you come to welcome me..."

Before Chen Yang could finish his sentence, he was stunned and immediately smiled, "Grandpa, you've broken through to Unlocking Meridian!"

The old man, Chen Xuan's father, Chen De, smiled and said, "I have to thank the family head for being willing to give me a grade-7 aptitude pill."

"With the help of the Meridian Unlocking Pill, I was lucky enough to break through to Meridian Unlocking."

"Xuan'er has told me about the family head's predicament. Don't worry, family head. How can Fourth Uncle let me say it? I guarantee that not only will Fourth Uncle not get angry, but he will also happily marry Aunt Xue."

Chen Yang looked at Chen Xuan. What did he mean by my predicament?

When Chen Xuan saw this, he pretended not to see anything.

Chen Yang sighed in his heart. Forget it, he would take the blame for the Great Elder.

"First Grandfather, it's a great blessing for the clan that you've broken through to Unlocking Meridians. We must congratulate you." Yang Chen smiled.

"No need, no need." Chen De waved his hand repeatedly. "I'm already very satisfied with breaking through to the Meridian Opening Stage. How can I ask for a Meridian Opening Feast?"

“If Patriarch really wants to celebrate with me, then agree to one of my requests.”

“Please speak, First Grandfather.”

Chen De looked at Chen Xuan and immediately said, “I heard that Xuan ‘er used his own cultivation resources to exchange for my grade-7 aptitude pill and meridian opening.”

“That’s fine. Patriarch, I’ll use the rest of my cultivation resources to repay you.”

When Chen Xuan heard this, he hurriedly said, “No, absolutely not.””

Chen De glared at Chen Xuan. “Brat, you dare to go against the decision your father made?”

After saying that, Chen De looked at Chen Yang again. “Please promise me, Master.”” As he spoke, he bowed to Yang Chen..

Chapter 167: Yang Chen’s Breakthrough, Chen Family’s

Advancement to Rank-8

How could Chen Yang accept Chen De’s courtesy? He quickly moved aside and helped Chen De up at the same time. “Alright, since Grandpa has said so, I’ll agree to it.””

Chen Xuan wanted to say something, but he was suppressed by Chen Yang’s words. “First Elder, if you want to restore First Grandfather’s cultivation resources as soon as possible, then you have to create more benefits for the family.”

“For now, let’s listen to First Grandfather.”

When Chen Xuan saw this, he could only give up.

Everyone surrounded Yang Chen and went to the meeting hall.

After Chen Yang sat down, Chen Xuan took the lead and said, "Patriarch, now that you've broken through to the Core Formation realm, I suggest that our Chen family announce to the Jiang Prefecture that you've advanced to Rank-8."

"That's right. It just so happens that we can also hold a Core Formation Banquet for the patriarch."

"That's right, Patriarch. Make your decision."

Faced with the desire of the elders, Chen Yang took a deep breath and immediately said, "Grand Elder, send an invitation to the forces of the Jiangzhou. Tell them that our Chen family is going to hold a banquet to promote to the Eighth Stage."

"Yes, sir!"

Hearing this, the elders revealed excited expressions.

Rank-8 was undoubtedly an unreachable existence for the Chen family in the past. Now, the Chen Family was about to promote to the 8th Rank!

Invitation cards were sent out from the Chen family. Almost the entire Jiang Prefecture knew that the Chen family was going to advance to the Eighth Stage.

At the same time, the news of Yang Chen breaking through to the Core Formation realm swept across Jiang Prefecture like a gust of wind.

No one was surprised by the news that the Chen family had advanced to the Eighth Stage. With the puppets and Demon Venerable level subdued beasts around, it would be hard for the Chen family not to advance to the Eighth Stage.

Compared to the Chen family's promotion to Rank-8, the news of Chen Yang breaking through to the Core Formation realm shocked them the most.

A thirty-year-old Core Formation cultivator had probably set a new record in Jiang Prefecture.

Even in the entire history of Da Qian, it was considered the first grade.

From the looks of it, Rank-8 was not the limit of the Chen family.

If this kind of aristocratic family wanted to advance to Rank-8, they naturally had to curry favor with them.

Immediately, all the forces in Jiang Prefecture took action and prepared generous gifts at the same time to attend the Chen family's promotion banquet.

If an aristocratic family wanted to advance in rank, it would usually be divided into two parts.

The first part was to obtain the approval of the heavens. In other words, the clan's fate would be connected to the heavens and receive the feedback of the Heavenly Dao. Then, they would be able to bear the clan fate of that grade.

The clan's fate was extremely mysterious. In terms of quality, there was no obvious difference between an eighth-grade clan's fate and a ninth-grade clan's fate.

This was also why the Heavenly Dao Pearl had broken the absorption limit and only allowed the Chen family to have one Core Formation realm cultivator.

After all, at that time, the Heavenly Jewel could be used as an eighth-grade clan luck to absorb energy.

The ones with a clear difference in quality would still have to start from the seventh grade. After the seventh grade, the difference in the quality of the clan's fate was especially large between each grade.

If the Dao Integration Pearl wanted to break through the upper limit, the Chen family would have to bear the seventh-grade clan fate first.

The second part required the approval of the surrounding forces.

The specific method was to hold a promotion banquet. Those who were willing to attend would have to recognize the class of the aristocratic family.

This wasn't particularly important. After all, no matter how strong they were, even if the other aristocratic families didn't agree, they would still be an aristocratic family of whatever rank they were.

Of course, if there were other aristocratic families who acknowledged it, then it would naturally be boundless glory.

Time flew by, and in the blink of an eye, a month had passed.

There was still a month before the Chen Family's Rank-8 Advancement Banquet.

At this moment, there were many carriages on the road to Chen City in Nanyang County.

Because there were simply too many carriages, even the roads were blocked.

"The one in front, move aside. Don't you recognize the symbol on this chariot? This is the symbol of the Chu Clan, an eighth-rank aristocratic family. Are you courting death by blocking our way?"

When the carriages heard that this was the Chu Clan's carriage, they hurriedly drove it away to make way for the Chu Clan.

However, not all the carriages gave the Chu Clan face.

Not far ahead, there was still a pair of carriages moving as usual.

When the Chu family saw this, they immediately scolded, "Are you deaf? Didn't you hear me telling you to get lost?"

"Humph! The Chu family is so mighty. I want to see who dares to make my Meng family's convoy make way today!"

A cold shout came from the carriage ahead.

Only then did everyone realize that the convoy in front was not to be trifled with. They were also from the eighth-rank aristocratic family, the Meng family.

Faced with the cold snort of the Meng family, the Chu family said disdainfully, "I was wondering who it was. So it's the Meng family, a vassal family of the Beast Tamer Sect."

The Chu Family emphasized the words "vassal family",

"What? You can look down on other families just because you have the Beast Tamer Sect backing you? Let me tell you, we're going to the Chen family's promotion banquet."

"If we delay our journey because of you, when the Chen family blames us, the Beast Tamer Sect won't be able to protect your Meng family!"

Seeing this, everyone's gazes gathered on the Meng family.

The Chen family was like the sun in the sky. If the Chen family blamed them, the Meng family would really not feel good.

“Who doesn’t attend the Chen family’s promotion banquet? Since he was already here, he would leave obediently!”

The Meng Clan was also attending the Chen Clan’s promotion banquet, so they naturally weren’t afraid of the Chu Clan’s excuse.

When the people of the Chu Clan heard this, their words froze. Finally, an old man understood the quarrel.” Since we’re all going to the Chen Clan’s promotion banquet, let’s go together.””

Someone recognized the voice. It was the voice of the Chu Clan’s First Elder.

Since the Chu family had eased up first, the Meng family naturally accepted their goodwill.” Since that’s the case, let’s go together. Don’t delay the Chen family’s promotion banquet.”

“This is a grand occasion for our Jiang Prefecture.”

“It’s the voice of the Meng family’s grand elder. The Meng family’s grand elder is here too. It seems that everyone values the Chen family very much.”

“Aren’t you talking nonsense? Now, all the forces in Jiang Prefecture, even the Beast Tamer Sect, need to pay attention to the Chen family.”

“Alright, alright, let’s hurry up and hurry.”

In Chen City, many aristocratic families had already arrived. These aristocratic families were basically ninth rank aristocratic families.

After all, the lower the rank of the aristocratic family, the earlier they had to come to participate in this promotion banquet.

As for Rank-8 aristocratic families, they only needed to arrive io days in advance.

If a seventh-rank force attended the Chen family's promotion banquet, they would not say anything when they arrived.

This was the rule among the aristocratic families of the Great Gan.

There was still some time before the promotion banquet. These people from the aristocratic families naturally had to take a good look around Chen City.

I don't know if I don't shop, but I'm scared.

Good heavens, is this where the people of Chen City live?

This was simply not a place for humans to stay. This was a paradise!

Take a look, a demonic beast zoo, treating demonic beasts as pets for ordinary people to visit. There was probably no such thing in the capital.

Not to mention the tavern here. The cup made the disciples of the ninth-rank aristocratic families feel like they were from a seventh-rank force.

There was also the drama theater. Not only did it have a variety of plays, but every play also had a point of laughter and tears.

Especially the play "The People of Chen City", which told the touching story of Chen Cheng's encounter with the demon tide and flood.

Just this play alone was enough to make him cry.

Moreover, Chen Cheng actually had a sewer, a divine artifact that could discharge sewage!

Living in Chen City must be a very enjoyable thing.

This was the first experience of countless disciples of aristocratic families living in Chen City.

When the elders of the aristocratic families saw that their children had already fallen, they wished they could become generals of the Chen family just to stay in Chen City.

These elders had no choice. Even the experienced and knowledgeable people were reluctant to leave Chen City, let alone the young people. They wanted to live in Chen City forever.

Moreover, according to Chen Cheng's Chen Bao, the Chen family's leisure villa in the Endless Mountains was almost completed.

This was a place specially used by the Chen family to entertain experts. It was probably a more livable immortal land than Chen City.

I really want to go there and take a look...

Time flew by, and in the blink of an eye, a month had passed.

Today was the day of the Chen family's promotion banquet.

On this day, all the heads of the aristocratic families in Jiang Prefecture brought their gifts and rushed into the Chen family.

Due to the large number of people who came, the Chen Family could only leave five spots for each ninth-rank aristocratic family and twenty spots for the eighth-rank aristocratic families.

The aristocratic families didn't feel that it was inappropriate. Instead, they felt that the Chen family was very generous.

In the past, when they went to the Beast Tamer Sect, Rank-8s only allowed ten people to enter, while Rank-9s only allowed two!

With this comparison, the difference was obvious..

Chapter 168: Beast Tamer Sect and De Shun Prince's Residence Arrived with Gifts

At the main entrance of the Chen family, First Elder Chen Xuan was standing outside the door, welcoming the families who had come to observe the ceremony.

Towards Chen Xuan's personal welcome, the ninth-grade aristocratic families were filled with fear and trepidation. This was a figure equivalent to their own ancestor, yet he actually came to welcome them personally.

"Congratulations, congratulations."

"Same here."

After welcoming them for about two hours, Chen Xuan hammered his waist. Almost all the aristocratic families in Jiang Prefecture had gone in, and he finally had time to rest for a while.

At this moment, a loud shout suddenly sounded from the sky.

"The Beast Tamer Sect wishes the Chen family to advance to Rank-8 and specially sent Young Sect Master Wang Shuo to attend the ceremony!" Everyone was stunned on the spot.

The Beast Tamer Sect actually came to watch the ceremony personally!

When the other eighth-rank aristocratic families were promoted, the Beast Tamer Sect had never attended the ceremony.

After all, even if he advanced to the Eighth Stage, it was still nothing to a behemoth like the Beast Tamer Sect.

To be able to send a message saying that the Beast Tamer Sect recognized their grade was already a great privilege.

But now, it was the first time.

Moreover, the person watching the ceremony was not an ordinary person. It was the Beast Tamer Sect's Young Sect Master!

This made everyone even more shocked.

Chen Xuan was also stunned on the spot. Only after the flying carriage in the sky descended did he recover his senses and hurriedly went forward to welcome it.

"Chen Xuan welcomes young sect master and elders. It is our Chen family's greatest honor that the Beast Tamer Sect can come to our Chen family to observe the ceremony."

When Wang Shuo saw Chen Xuan coming to welcome him, he quickly took two steps forward and helped Chen Xuan up with a smile." Great Elder, there's no need to be so polite. This is what I should do.""

"Brother Chen and I are friends, and the Chen family is a vassal family of my Beast Tamer Sect."

Wang Shuo's kind gesture made the eyes of the aristocratic families pop out.

Since when was the Beast Tamer Sect's Young Sect Master so polite?

One had to know that even if the Core Formation Patriarch of an Eighth-rank Aristocratic Family was in front of him, Wang Shuo probably wouldn't say much.

Not to mention, he had made a mistake by acting so kindly.

Perhaps only an elder from a seventh-rank force was worthy of Wang Shuo's kind treatment.

It seemed that the Chen Clan was already treated as an equal in the eyes of the Beast Trainer Sect.

"Everyone, please come in." After exchanging a few pleasantries, Chen Xuan quickly brought Wang Shuo and the others into the Chen family.

At this moment, a loud shout came from the sky again.

"The Deshun Prefecture King's Mansion wishes to congratulate the Chen Family on advancing to Rank-8. They have specially sent Zhou Yingzhao to attend the ceremony!"

This time, even the people from the Beast Tamer Sect were stunned on the spot.

That was the Deshun Prince's Mansion!

If it was taken out alone, it could be considered a peak seventh-grade force. Even if Chen Yang was Deshun Prince's disciple, he was not worthy of such treatment.

Chen Xuan looked at the Beast Tamer Sect and then at the flying chariot that was about to land. For a moment, he was a little conflicted.

Was he bringing the people from Beast Tamer Sect into the residence, or was he going to welcome the De Shun Imperial Residence?

Fortunately, Wang Shuo helped Chen Xuan out.” I haven’t seen the young prince in a long time. I really miss him. First Elder, come with me to welcome the young prince.””

When Chen Xuan heard this, it was as if he had been pardoned. He hurriedly said, “Good, good, good. Everyone, please follow me.”

After the flying carriage landed, Chen Xuan cupped his hands and bowed.” Welcome to the De Shun Prince’s Residence. It is the Chen family’s greatest honor for Vice Prince De Shun to come and observe the ceremony.”

Zhou Yingzhao, who had alighted from the carriage, helped Chen Xuan up. A smile that was like a spring breeze appeared on his face.” First Elder, there’s no need to be so polite. Where’s my Martial Uncle?””

“The Patriarch is currently preparing to advance to the Eighth Stage, so he can’t come to welcome you.” Chen Xuan said in embarrassment.

When Zhou Yingzhao heard this, he waved his hand.” No need, no need. There’s no reason for Martial Uncle to welcome Martial Nephew. Alright, let’s go in.””

“Oh, Brother Wang is here. Let’s go in and have a drink. We haven’t seen each other for a long time.”

“I’m willing to do as you say.”

The arrival of these two forces in succession had already made everyone so excited that they forgot about time.

After the two forces disappeared for a while, they finally reacted and hurriedly entered the Chen family.

Chen Family, Ancestral Remembrance Platform.

This was the building that the Chen family had built in order to advance to Rank-8. The plaza was the center of the plaza, with a 33-meter-tall platform in the center.

As for the name of the Ancestral Remembrance Platform, it was to warn the Chen family not to forget the hardships their ancestors had gone through when they established the family.

Below the Ancestral Platform, the forces that came to watch the ceremony were divided into two rows by the Chen family.

Zhou Yingzhao and Wang Shuo naturally sat on the left and right.

The rest of the families sat according to their strength.

On the table of the aristocratic families, there were plates of sunflower seeds.

In this regard, everyone did not feel that the Chen family was stingy at all. Instead, they felt that the Chen family was too generous.

This was the sunflower seed of the Devil Vine Sunflower Tree, and it was a Devil Vine Sunflower Tree at the Demon General level. Its sunflower seed had many benefits to martial artists.

The fact that the Chen family could take out this to entertain them made them feel fear and trepidation.

Wang Shuo and Zhou Yingzhao didn't think much of it.

After all, they were knowledgeable. The sunflower seeds of the Demon General's Devil Vine Sunflower Tree were nothing. Only the Devil Vine Sunflower Tree of the Demon Venerable level would surprise them slightly.

Time passed. In the blink of an eye, it was time for the Chen family to advance to Rank-8.

Under everyone's gaze, Yang Chen, who was wearing a brocade robe and a jade crown, walked step by step to the top of the Ancestral Remembrance Platform.

“Chen Family Head Chen Yang is here to pay his respects to the heavens. I hope that the heavens will pity me and allow me to advance to Rank-8!”

As Yang Chen’s voice fell, the two Demon Generals were pressed onto the Ancestral Remembrance Platform.

Amidst his unwilling wails, his head was cut off by the Chen family.

Using demonic beasts to worship the heavens was an ancient system of the human race. Although the Chen family was a beastmaster aristocratic family, they would not do anything special.

Time passed bit by bit. Everyone held their breaths and waited for the Heavenly Dao’s feedback.

After about the time it takes to brew a cup of tea, a seven-colored light suddenly appeared and circled around Yang Chen before disappearing.

Although the seven-colored light only appeared for a few breaths, it still made the Chen family members extremely excited.

Because this meant that the Heavenly Dao had already recognized the Chen family.

From today onwards, the Chen Family was an eighth-rank family!

“Congratulations to the Chen family, congratulations to the Chen family head!”

Immediately, everyone stood up to congratulate him. Yang Chen also responded with a smile.

“Thank you all for coming. I hope that everyone can drink and laugh in my Chen family and let my Chen family do our part as a host.”

As soon as Yang Chen finished speaking, plates of exquisite dishes made from demon beast meat were placed on the table by the Chen family.

At the same time, the spirit wine refined by the Qing Family was also served to entertain everyone.

Some people who had real goods revealed the origin of this wine, which attracted the envy of everyone.

The Chen family was truly different. In just a short dozen years, there had been such earth-shattering changes.

Following that, Yang Chen led a group of elders and toasted everyone to show the host's etiquette.

After three rounds of wine and five dishes, Chen Yang gave Chen Xuan a look.

When Chen Xuan saw this, he stood up and shouted, "The time is up.. Please present your congratulatory gifts!"

Chapter 169: De Shun Prince's Mansion's Big Deal, Chen

Family Discovers Spiritual Fields

There were many rules for gifting gifts for a banquet like the promotion Banquet, which was held because of a major event.

It was impossible to present the gifts according to the order of sitting in front and back like Wang Shuo's coming-of-age ceremony.

For example, the Chen family's promotion banquet this time, the order of the gifts was strictly calculated.

Merely calculating the order of the gifts had made the Second Elder busy for an entire month.

The final result also made the families who participated in the promotion banquet very satisfied.

First, the gifts were divided into three batches. The first batch was the gifts from the ninth-rank aristocratic families.

Then, according to the order of strength, the first person who was almost in the middle would present the gift, and the rest would present the gift according to the order of strength from weak to strong.

The rules for the order of the fights for an Eighth-rank Aristocrat Family were exactly the same as the rules for a Ninth-rank Aristocrat Family.

Don't think that this arrangement is simple. You have to know that there are many families with similar strength. If you say who is stronger or weaker, there will be people who will be unhappy.

The reason why the Second Elder had been busy for a month was to calculate the strength of the aristocratic families.

"The Mo Family of Nanyang presents a gift to the Chen Family to congratulate them on reaching Level Eight. May the Chen Family live forever!"

"Jiangyou's Liu Family presents a gift to the Chen Family, congratulating them on advancing to Rank-8. May the Chen Family live forever!"

"The Zuo Ling Wei Clan presents a gift to the Chen Clan to congratulate them on advancing to Rank-8. May the Chen Clan prosper!"

As the ninth-rank aristocratic families presented gifts, many more treasures were added to the Chen family's treasury.

Don't think that a ninth-rank aristocratic family can't bring out good things. For a promotion banquet like this, the gifts are all presentable.

Moreover, the Deshun Commandery Prince had requested for everyone to develop peacefully. Only such a promotion banquet could display the strength of the family and gain an advantage in business with other aristocratic families.

In addition, this was also a matter of face. No one wanted to lose face to other aristocratic families, especially hostile aristocratic families, in such a big situation.

After all the ninth-rank aristocratic families had presented their gifts, it was time for the eighth-rank aristocratic families.

Yang Chen also focused his attention. The treasure that an Eight-rank Aristocratic Family had brought out was definitely not ordinary.

The first person to offer a gift was the Sun family of Zuo Ling.

Sun Tianke, the head of the Sun family of Zuo Ling, walked to a place ten meters away from Chen Yang and cupped his hands to congratulate him." The Sun family of Zuo Ling has specially presented an eighth-grade ling armor. May the Chen family's martial arts prosper!"

Hiss!

Everyone sucked in a mouthful of spirit wine!

As expected of an Eighth-rank Aristocratic Family, they were generous.

Take this Grade Eight ling armor for example. It could be considered the foundation of a Grade Nine family, yet it was generously presented to them.

Yang Chen also said happily, "Alright, the Sun family of Zuo Ling is generous. The Chen family will appreciate it."

When Sun Tianke saw this, a hint of joy flashed in his eyes. It was painful for him to offer such a treasure.

However, there was nothing they could do about it. About ten years ago, the Sun family offended the Chen family. Although it was a normal business fight, it still made the Chen family unhappy.

Now that the Chen family was developing rapidly, they were almost on par with the Beast Tamer Sect. Sun Tianke naturally wanted to ease the relationship between the three families.

Now that Yang Chen was satisfied with the Sun Family's gift, Sun Tianke finally felt relieved.

Next, they only needed to cling onto the Chen Family's thigh and follow behind them to cheer for the Chen Family. Then, the Sun Family would be able to earn a lot of money.

After the Sun family of Zuo Ling was the Xu family of An Ning.

The Xu Clan had no objections to the Chen Clan's arrangement. After all, the Xu Clan was weak and their strength was indeed at the bottom of the Rank-8.

Of course, the Xu family also wanted to use this opportunity to tell the other families. Although the Xu family was weak, they had a lot of resources. They were not someone that ordinary families could provoke.

Master Xu took out a spirit sword from his storage bag and handed it over with both hands. "An Ning's Xu family specially offers the Peak Rank-8 Spiritual Qi Cold Rain Sword. May the Chen family reach Rank-7 as soon as possible." "Alright, alright, alright."

Yang Chen said three times in a row, then smiled and said, "The Xu family is indeed an old eighth-rank family. The family's foundation is indeed extraordinary."

Yang Chen naturally knew the reason why the Xu family was so generous. He also wanted to help the Xu family, so he deliberately said this.

Sure enough, after hearing Chen Yangpu's praise, the family heads showed hesitation on their faces.

Although the Xu family was weak, they still had their roots. They were not someone they could offend.

The next gift from an Eighth-rank Aristocrat Clan was a feast for the eyes.

One by one, extremely precious treasures were placed in front of the stage, making everyone exclaim in satisfaction.

With so many treasures, it also greatly increased the foundation of the Chen family.

After this promotion banquet, excluding the high-end combat power, the Chen family's foundation was almost the same as the other eighth-rank aristocratic families.

After the last Eighth-rank Aristocratic Family finished offering their gifts, the crowd didn't feel tired. Instead, they became even more excited.

Because they knew that the people who were going to present gifts next were all legendary big shots.

After the family head who was the last to present the gifts sat down, Wang Shuo finished the wine in his cup and stood up.

"Brother Chen, I remember that during my coming-of-age ceremony, you once presented a Howling Moon Wolf cub. This Howling Moonwolf has become my main fighting force."

"Courtesy should be reciprocated. Now, my Beast Tamer Sect will also present a Demon Venerable cub to the Chen family."

Then, Wang Shuo took out a demon beast egg from his beast pouch." This is Zhihe's egg.""

"It's actually Zhihe!"

After hearing that the demon beast egg in Wang Shuo's hand was Zhihe's egg, the Meng family's head stood up from his chair in shock.

Seeing this, Sun Tianke quickly pulled Master Meng to a chair." Master Meng, you are the head of the family. Why are you so impatient?""

When the Meng family's head heard this, he smiled embarrassedly." It's mainly because this demon beast egg is Zhihe's egg, that's why I'm so excited.."

Chapter 170: De Shun Prince's Mansion's Big Deal, Chen

Family Discovers Spiritual Fields

"Zhihe?" "Master Meng, is there anything special about this paper crane?" Sun Tianke asked in confusion. I heard from Young Sect Master Wang that it's the Demon Venerable's egg."

" Master Sun doesn't know that if it's just the Demon Lord's egg, I wouldn't have lost my composure like this."

Master Meng took a deep breath and slowly said,""The paper crane is just like its name. It looks no different from a crane folded from paper by a child." "Of course, just its appearance isn't much. The main thing is that its ability is extremely terrifying."

"Zhihe's original yao art is strange parasitism, it uses a feather on its body to parasitize a martial artist.

The wings would continue to devour the martial artist's spiritual energy and flesh before finally breaking out of the shell and obeying Zhihe's orders." "A Demon Venerable Zhihe can completely parasitize a Core Formation realm expert and silently assassinate a Core Formation realm expert."

"A Zhihe clone nurtured by a Core Formation expert has the battle prowess of a half-step Core Formation expert."

"If it wasn't for the fact that Zhihe can only parasitize three times in its lifetime, this kind of demonic beast would have been exterminated by the human race long ago."

After listening to Master Meng's explanation, Sun Tianke finally understood why Master Meng had lost his composure.

Yang Chen also knew how powerful Zhihe was, so he immediately stood up and went to Wang Shuo's side. He held the Zhihe egg with both hands and slowly exhaled," Young Sect Master, you've given me a big gift."

"As long as Brother Chen likes it." Wang Shuo laughed.

Immediately, under everyone's envious gazes, Wang Shuo returned to his seat. He held a wine glass and tasted the spiritual wine refined by the Qing family. The taste of this wine is better than other wines.

The Beast Tamer Sect's gift made everyone even more curious about what kind of gift the De Shun Imperial Residence would present.

Under everyone's watchful eyes, Zhou Yingzhao stepped forward and also took out an egg from his beast pouch.

"I originally thought that only my De Shun Imperial Residence would use demon beast eggs as gifts. I didn't expect that the Beast Tamer Sect would do the same."

"Martial Uncle, this is a congratulatory gift from my Imperial Residence, a Fire Crow egg."

Fire Raven's egg!

Just these four words made the entire place fall silent!

Compared to Zhihe's mysteriousness, Fire Raven's name was famous.

In the entire Da Qian, there was no one who did not know about the Fire Crow. The founding master of Da Qian had this Fire Crow as his natal subdued beast! He had the bloodline of a peak Daemon King and was a fire-type demonic beast. His speed was extremely fast, and his natal demonic art, the Sun Fire, could be said to be an existence that could burn the heavens.

There was once a record of a peak Daemon King Fire Crow defeating a Demon Emperor!

Although the demon emperor was a wood-type demon beast and was naturally restrained by the fire crows, it could also show the power of the fire crows.

No one had expected that the De Shun Imperial Residence would actually gift the Fire Crow egg to the Chen Family.

With such a demonic beast, why didn't he keep it for himself?

Yang Chen was also stunned, but he immediately waved his hand." No, no, this is too expensive. I can't accept it.""

"Hey, just take it." "My grandfather said that ever since Martial Uncle became his disciple, he hasn't given a proper disciple acceptance gift." This Fire Crow Egg was partly to congratulate the Chen Family on advancing to the Eighth Stage."

"The other portion will be given to Martial Uncle as a disciple acceptance gift." Seeing this, Chen Yang slowly walked to Zhou Yingzhao's side and took the Fire Crow egg with a serious expression." I will remember Master's kindness and will never forget it.""

Zhou Ying Zhao had given him the Fire Crow egg, and he had been given to the peak.

In the following period of time, the honored guests enjoyed themselves. There were also many young disciples sparring here for everyone to enjoy.

This promotion banquet had given the Chen family unlimited glory.

After everyone left, Yang Chen brought the elders to the meeting hall.

“Tell me, how should we deal with Zhihe and Fire Crow?” On the main seat, Chen Yang glanced at the elders and asked.

The elders looked at each other and then looked at Chen Xuan together. Seeing this, Chen Xuan stood up and said, “My suggestion is to give the paper cranes to the young disciples, or to exchange them for contribution points.”

“As for this Fire Raven, I’ll give it to the patriarch to form a contract.”

“Now that the family head has broken through to the Core Formation realm, he has three more spots for his natal subdued beasts. It’s just right to contract this Fire Crow.”

“We agree!” After Chen Xuan finished speaking, the group of ancestors echoed.

Seeing this, Yang Chen did not decline. “Alright, I’ll contract this Fire Crow.” As for Zhihe, he did as the Great Elder said and let the young clansmen exchange for it with contribution points.”

“By the way, the clansmen who contract Zhihe have to join the Beast Tamer Sect.”

“Enter the Beast Tamer Sect?” “Master, why is that?” Chen Xuan asked curiously.”

“Now that my Chen Family has become an Eighth-rank Aristocratic Family, it’s time to set our sights on the entire Da Qian Empire. Among them, intelligence was the most important.”

“Although we have Chen Ying’s Piercing Guard to gather information for us, it’s still far from enough. We have to plant our people among the various factions.”

“Only in this way can we understand the news of the various large factions.” “It’s not just the Beast Tamer Sect. I plan to send my clansmen to the other seventh-rank sects as well. As for the seventh-rank aristocratic families, if they were unable to find a master, they would place more Piercing Guards.” “In short, I want the news of the entire Da Qian to gather in Chen City.” Yang Chen said slowly.

Hearing Yang Chen’s plan, the elders took a deep breath.

Only then did they know that the family head was not proud of his advancement to Rank-8. Instead, he had his eyes set on the entire Da Qian Empire.

“I’m willing to listen to the clan head’s orders!”

After the plan was set, the Chen family continued to develop in an orderly manner. Although they had advanced to Rank-8, in the eyes of outsiders, the Chen family did not change at all.

Just like that, a month passed smoothly.

Nothing major had happened to the Chen family in the past month.

If he had to find one, it would be the Fire Raven that was hatched and refined into a Life Familiar by Chen Yang along with the Hell Dragon.

Oh, there was one more thing. The Divine Martial Crossbow was sent over and Chen Yang was asked to place it in the clan’s treasury.

At the beginning of the month, in the meeting hall.

Yang Chen was sitting on the main seat, dealing with the family affairs when he saw the Great Elder walk in with a smile.

“Great Elder, what’s the good news?” Yang Chen asked with a smile.

“Patriarch, a ling field has been born in our Chen family’s territory.” Chen Xuan said excitedly.

“Really? Where is it?” Yang Chen quickly asked.

No matter how strong a faction was, they wouldn’t complain about having too many spiritual fields.

Chen Xuan sorted out his thoughts and said, “My lord, the ling fields are in the north of Song City, near the river.”

“According to my estimation, it is a hundred acres. Unfortunately, the amount of spiritual energy was insufficient, so it could only grow ninth-grade spiritual rice and ninth-grade spiritual herbs.”

When Yang Chen heard this, there was not a trace of disappointment on his face.

“That’s fine. A hundred mu of ling fields, even if only ninth-grade ling rice is planted, combined with ling qi fertilizer, can generate 5,000 spirit stones for the clan every year.”

“Whoever discovered this has to be properly rewarded.”

“It was discovered by the Dragon Riders when they were patrolling.” Chen Xuan said.

Seeing this, Chen Yang waved his hand and said, “Reward the Dragon Riders who discover the ling fields with 100 spirit stones. The leader of the Dragon Riders will be rewarded with a Blood Na Pill for free.”

“In any case, this pill was left for big brother. Now, I’ll reward it to big brother.” Chen Xuan still wanted to refuse, but when he saw Chen Yang’s smiling face, he swallowed his words.

His son had a bright future. As a father, he was naturally happy.

Chen Yang did not notice the change in Chen Xuan’s expression. He continued to say excitedly, “Since we’ve discovered the ling fields, we must send people to guard them.”

“How about this, we will build a small town next to the ling fields and recruit the people to become tenants. They will specially grow the ling fields for us. As for the fertile land next to the ling fields, he would treat it as wages.”

“Yes.”

“Oh right, why was this ling field formed?” After the excitement, Yang Chen started to think about the reason for the formation of the spiritual field.

Chen Xuan thought for a moment and then said, “Master, I think it should be because of the flood.”

“This time, the flood brought up the flesh and blood of many demonic beasts. Now that the river had receded, there was still a lot of flesh and blood piled up on the land.”

“Perhaps it is because of this that ling fields are formed.”

Yang Chen nodded. “This is similar to the reason why brown soil is formed. It seems that there is another way to cultivate spiritual fields in the future.” Just as Chen Yang and Chen Xuan were discussing the matter of the ling fields, a handsome middle-aged man with sword-like eyebrows and starry eyes stepped onto Nanyang County.

“It has been more than ten years.. I, Chen Tao, have finally returned!”
