

Tamer Family 201

Chapter 201: Mother's Family

"All, I see." The woman felt a little wronged. Then, she turned her eyes mischievously. "Great-grandfather Qi Yu, perhaps Great-grandfather Qi Huan is in the city below.""

"I think we should go down and search. If we miss it, it won't be easy to meet again in this vast sea of people."

The middle-aged man glanced at the woman and took out a pearl with seven stars engraved on it. "This Meridian Seeking Pearl can sense the bloodline fluctuations of my Shen family members within a hundred miles. There's no need to trouble us to go down.""

"Look, this Vein Searching Pearl has not changed at all... I got it!

Shen Qiyu widened his eyes. The Vein Seeking Pearl in his hand was shining brightly.

Even the woman's mouth was wide open. She had only said it casually. She did not expect Qi Huan's great-grandfather to really be in this city.

"Great-grandfather Qi Yu, look! There's really one! Great-grandfather Qi Huan is really here!" the woman said excitedly."

"I saw it." Shen Qiyu was a little excited. He then looked at the city below. "Let's put away the carriage and enter the city later.""

"Brother Qi Huan should be used to life here and probably doesn't want to expose himself. Let's move secretly."

Immediately, the flying chariot landed in the Endless Mountains. After collecting the demonic beasts and the chariot, the three of them flew towards Chen City.

In Chen City, the woman looked at the surrounding buildings excitedly and said, "Great-grandfather Qi Yu, I think we should ask the people in this city first."

"There is a path." Shen Qiyu nodded. Then, under the woman's resentful gaze, he stopped a pedestrian.

"Hello, fellow villager. We came from outside. May I ask what this city is called and who is the ruler of this place? Have you heard of a person called Shen Qihuan?"

"Foreign?" The person who was stopped by Shen Qiyu sized him up and smiled. "This city is called Chen City. The ruler of this place is the Chen family, an eighth-rank aristocratic family."

"As for the Shen Qiyu you mentioned, I've never heard of him. If he's famous, I suggest you ask the elders in this city to see if they've heard of him."

"Thank you."

After the pedestrians left, Shen Qiyu frowned and said, "You actually don't know Brother Qi Yu? Could it be that Brother Qi Yu has hidden himself so deeply?"

Immediately, Shen Qiyu brought the two people behind him and strolled around Chen City. When they found a white-haired old man, they stopped in their tracks.

Immediately, Shen Qiyu came to the old man's side. "Hello, I want to ask if you know a person called Shen Qiyu?"

"Shen Qiyu?" The old man frowned and thought for a while before shaking his head. "Forget about Shen Qiyu. I've never even heard of anyone with the surname Shen in Chen City."

When Shen Qiyu heard that, he sighed in his heart and said, "Thank you."

Next, Shen Qiyu stopped a few more people. Unfortunately, the answer was that they had never seen him before.

At this moment, the young man walked to Shen Qiyu's side." Great-grandfather Qi Yu, why don't we go to the ruling family clan here and ask?

Great-grandfather Qi Huan has only left the family clan for 200 years."

"Excluding the time spent on the road, I've only been here for about a hundred years. I think the Eighth-rank Families here should have heard of Great-grandfather Qi Huan."

Shen Qiyu nodded." Alright, we'll do as you say.

mi

Immediately, Shen Qiyu asked where the Chen Family was and headed to the Chen Family.

At the Chen family's main entrance, Shen Qiyu looked up at the plaque and immediately went forward to say,""Please inform that I request to see your family head."

"You wish to meet our Patriarch?" The two generals looked at each other, and the left general asked,""May I ask your name and what business you have with the head of the Chen family?"

"My name is Shen Qiyu. As for looking for your family head, I'm asking a person."Shen Qiyu smiled.

"Shen Qiyu?" The guard frowned." Please forgive me for being short-sighted. I've never heard of your name."

"As for your matter, the head of the Chen family is busy every day. I'm afraid he doesn't have the time to entertain you."

When Shen Qiyu heard this, he was not angry. Instead, he smiled." Not bad. It seems like this Chen Family has a way of doing things. Even if he rejected, he would still be polite.""

Immediately, Shen Qiyu emitted a wisp of aura and smiled at the guard. "Can the two of you report now?"

The two guards sensed the terrifying aura that Shen Qiyu was emitting and looked at each other. They then said, "Milord, please wait a moment. I'll go report immediately."

In the Chen family's meeting hall, Chen Yang was handling the Chen family's affairs.

At this moment, the guard suddenly ran in. "Family Head, there's a strong person visiting outside!"

"A visit from an expert? What kind of expert?" Yang Chen frowned and asked.

"I'm not sure, but the aura on the body of the elder is even stronger than that on your body." The guard said.

Yang Chen frowned even more. "Do you know why that expert is looking for me?"

"Patriarch, I heard that he wants to ask the patriarch about someone."

"Ask someone?" Yang Chen was confused. He waved his hand and said, "Bring that expert to the reception hall."

After dispersing the guards, Yang Chen tidied up his clothes and went to the reception hall.

In the guest hall.

When he saw Shen Qiyu and the other two coming to the door of the reception hall, Chen Yang stood up to welcome them. "I didn't know that you came and didn't come far to welcome you. I hope you can forgive me."

“Hahaha, there’s no need to be so polite, Patriarch Chen. We’ve come to disturb you, so please don’t blame us.” Shen Qiyu smiled.

After inviting the three of them to take their seats, Yang Chen returned to the main seat and smiled, “Senior, do you need my Chen family’s help?”

When Shen Qiyu heard this, he smiled and cupped his hands at Chen Yang. “There’s really a small matter. I would like to ask if you’ve heard of Shen Qihuan before, Master Chen?”

“This person isn’t weak. He might be living in seclusion somewhere, so I came to ask the Chen Clan if they know him.”

“Shen Qihuan?” Yang Chen frowned, “I have never heard of it, but Senior, don’t worry. I will ask the elders in the clan.”

Immediately, Chen Yang summoned a guard. “Please come over, Great Elder.

mi

After the guard left, Yang Chen continued to ask with a smile, “Senior, are you sure Senior Shen Qihuan is in my Chen City?”

“I’m sure.” Shen Qiyu nodded.

Seeing this, Chen Yang asked again, “Then how many years did this Shen

Qihuan come to my Chen City? Why have I never heard of him?”

Shen Qiyu thought about it and then said, “It’s been a hundred years.

mi

“A hundred years?” Chen Yang smiled. “Senior, don’t be anxious. I’m still young after all. It’s normal that I’ve never heard of Senior Shen Qihuan.””

“My Grand Elder is now in his seventies. He should have heard of the person from a hundred years ago.”

When Shen Qiyu heard this, he asked in surprise, “Please forgive me for being rude, but how old are you, Chen Clan Leader?”

ii

“I’m thirty-seven this year.” Yang Chen smiled.

Shen Qiyu’s pupils constricted. He had reached the Core Formation realm in his thirties. There was actually a genius of this level in such a remote place.

This cultivation speed could be considered a genius in the Shen family.

If they were to be absorbed into the Shen family, the Shen family would have another expert in a few hundred years.

Shen Qiyu cherished this talent. After he found out Brother Qi Huan’s location, he could bring this person along and leave.

Not long after, Chen Xuan arrived at the reception hall.

“Great Elder is here. This senior wants to ask someone if you’ve heard of him.”

When Chen Xuan saw this, he cupped his hands and bowed to Shen Qiyu. “May I ask who Senior wants to know?”

“Shen Qihuan.”

“Shen Qihuan?” Chen Xuan frowned and said, “I seem to have heard of this person somewhere.””

When Shen Qiyu heard that, he clenched his right fist and asked nervously, “Where have you heard of him?”

“Don’t worry, let me think about it.”

Chen Xuan paced back and forth, wondering where he had heard of this person. Although Shen Qiyu was anxious, he could only wait patiently.

Suddenly, Chen Xuan stopped and looked at Chen Yang.

Yang Chen pointed at himself. “What does it have to do with me?”

Pa!

Chen Xuan slapped his forehead and said excitedly, “Master, isn’t Shen Qihuan your great-grandfather’s name?”

Chen Yang was speechless.

Shen Qiyu was speechless.

Immediately, Shen Qiyu stood up and walked in front of Chen Yang, grabbing his wrist.

Yang Chen was speechless.

“Senior, what are you doing?”

Shen Qiyu ignored Chen Yang. Instead, he channeled his spiritual energy into Chen Yang's body. When he felt the familiar fluctuations coming from Chen Yang's body, Shen Qiyu's eyes widened.

"You... You're really my brother Qi Huan's descendant!"

"This... Could it be a coincidence?" Yang Chen asked weakly.

"No, it won't." Shen Qiyu looked at Chen Yang with a gratified expression. "I can feel the Shen family's bloodline in your body."

"Although I'm not sure which bloodline of my Shen family you belong to, the origin of the bloodline cannot be wrong."

"By the way, my Brother Qi Huan is your great-grandfather. How come you don't even know your great-grandfather's name?"

"My great-grandfather passed away when my mother was young. How would I know his name?" Yang Chen said.

"What? This is impossible!"

Shen Qiyu had a look of disbelief. "Brother Qi Huan was already at the peak of the Purple Prefecture 200 years ago. How could he have fallen?!"

"With his talent, he should have broken through to the stage by now!"

"That's why I asked if there was a mistake." Chen Yang reminded.

Shen Qiyu took a deep breath and said kindly, "Where is your mother? I want to meet her and ask her personally."

Seeing this, Chen Yang looked at Chen Xuan. Seeing this, Chen Xuan went to the library to look for Chen Yang's mother.

Not long after, Yang Chen's mother, Shen Meng, walked into the guest hall.

As soon as they met, Shen Qiyu grabbed Shen Meng's wrist and tested her bloodline.

"It can't be wrong, it can't be wrong. It's the bloodline of my Shen family. Although I didn't inherit one of the hundred bloodlines, the aura of my Shen family's bloodline can't be wrong!"

Shen Qiyu calmed himself down and asked with a smile, "Little girl, do you know how your grandfather passed away?"

Shen Meng looked at Yang Chen first and then fell into her memories. "I remember that a few days before my grandfather passed away, he coughed up blood every day."

"Coughing up blood?" Shen Qiyu frowned. "Is it blackish-purple blood with a foul smell?"

Chapter 202: The Shen Clan of the Hundred Veins, Chen

Yang's Bloodline

"Yes, yes, yes. Senior, how did you know?" Shen Meng said in surprise.

Shen Qiyu's face turned gloomy. "This is the Meridian Breaking Poison. It's a terrifying poison that can kill a Zifu Disciple."

“Also, if I’m not wrong, your father died in the same way as your grandfather.”

“That’s right.” Shen Meng nodded. “Senior, how did you know?”

“Because this Meridian Breaking Poison is hereditary.”

“What?” When Shen Meng heard Shen Qiyu say that the Meridian Breaking Poison was hereditary, she asked nervously, “Then, will my son?”

When Shen Qiyu heard this, he smiled and shook his head. “Don’t worry, the Meridian Breaking Poison will only be passed down for one generation. You and your son will be fine.”

Shen Meng heaved a sigh of relief when she heard that. “It’s good that you’re alright. It’s good that you’re alright.”

Shen Qiyu adjusted his clothes. “Young lady, let me introduce myself. I’m your grandfather’s blood brother. According to our family’s seniority, you should call me Second Grandfather.”

“However, our Hundred Lineages Shen Clan is a large clan with a large number of people. If you address me like second grandpa, it will be much more troublesome. Therefore, you can directly address me as grandpa Qi Yu.”

Shen Meng looked at Shen Qiyu in surprise. “You...” Are you really my grandpa’s brother?”

“I have already sensed the aura of my Chen clan from your bloodline. Naturally, it cannot be fake.” Shen Qiyu smiled.

“This...”

Seeing that Shen Meng did not believe him, Shen Qiyu took out a half-broken jade pendant. “I think that before your grandfather passed away, he should have given you a half-broken jade pendant like this.”

“This is what my mother, your great-grandmother, personally gave to us two brothers.”

“If you don’t believe me, you can take it out and take a look. The two jade pendants can definitely be combined into one.”

When Shen Meng heard that, she believed him a little. She took out a half-broken jade pendant and handed it to Shen Qiyu.

Shen Qiyu took a deep breath and took the jade pendant with a slight tremble. Then, the two jade pendants combined into one.

Just as the two of them merged into one, Shen Meng’s jade pendant suddenly shone with a dazzling light.

Then, an illusory figure appeared in front of everyone.

“Grandpa!”

“Big brother!”

That’s right, this illusory figure was the Shen Qihuan that Shen Qiyu was looking for.

Shen Qihuan’s phantom smiled slightly, and his bright voice entered everyone’s ears.” Qi Yu, my miniature image array is not bad, right?”

“Back then, you said that I lost my will by playing with things. Now, it seems that it worked, right? Hahaha...”

Hearing his big brother’s laughter, Shen Qiyu’s eyes were filled with tears.” Big brother...” I...”

“When you see this video, I should be dead. Don’t cry yet. I still have something to tell you.”

“The Poisonous Fiend Sect has successfully refined the Meridian Cutting Poison. In the future, when the family fights with the Poisonous Fiend Sect, we must pay attention to the Meridian Cutting Poison.”

“This Meridian Cutting Poison is blue in color and has the fragrance of purple orchids. It’s still very easy to distinguish.”

Upon hearing Shen Qihuan’s words, tears rolled down Shen Qiyu’s cheeks.” Eldest Brother, you’re still concerned about the family at a time like this.”

“However, Big Brother, don’t worry. The clan has long known about this Meridian Cutting Poison. Now that the Poisonous Fiend Sect is being suppressed by the clan, our clan will soon win this battle!”

Shen Qihuan’s phantom could not hear Shen Qiyu’s words and continued to narrate his last wishes.

“Other than the matter of the Meridian Cutting Poison, I still have a granddaughter that I want to entrust to you. She’s called Shen Meng. I think you’ve met her before, because I’ll definitely give the jade pendant to my granddaughter.”

“The reason why I didn’t name her according to the family’s seniority was that I wanted her to stay away from family disputes for the rest of her life.”

“Second brother, you know very well how I left the clan back then. So many years have passed, and it doesn’t matter whether it’s right or wrong.”

“I only hope that you won’t let my granddaughter return to the family and let her stay in Feng City safely.”

“Feng City?” Shen Qiyu looked at Chen Yang in confusion.” Where is Feng City?””

“This is the place. Now that my Chen family has risen, this city has also been renamed Chen City.”Yang Chen explained.

Shen Qiyu understood and continued to listen to Shen Qihuan's last wishes.

"Of course, if my granddaughter awakens any of the Hundred Lineages, you can bring her back and let her receive the family's nurturing."

"If not, it's better to let my granddaughter stay away from disputes."

"If you can, please give her some help so that she won't be bullied."

"Alright, I'll tell you one last thing. Don't avenge me, live peacefully. Only when I'm close to death did I realize how blissful it is to be alive."

Then, Shen Qihuan's figure disappeared.

When he heard Shen Qihuan's words, a vicious glint flashed across Shen Qiyu's eyes. "Big Brother, it's impossible not to avenge you. Don't blame me for not listening to you."

"The younger brother that you protected back then has now ascended the stage. Whether it's the Poisonous Fiend Sect or the people who chased Big Brother out of the clan, I won't let them off!"

As if he was a little agitated, Shen Qiyu emitted strands of terrifying aura. When Chen Yang saw this, he quickly released his cultivation to protect Shen Meng and Chen Xuan.

Shen Qiyu only reacted when he sensed Chen Yang's aura. He quickly retracted his aura. "I'm a little excited."

Seeing this, Yang Chen retracted his aura..

Chapter 203: Hundred Lineages Shen Clan, Chen Yang's Bloodline

After calming himself down, Shen Qiyu looked at Shen Meng." Shen Meng...Meng 'er, can you acknowledge me now?"

Shen Meng took a deep breath and glanced at her son. She then cupped her hands and bowed." Greetings, Second Grandpa."

"Good, good, good." Shen Qiyu happily helped Shen Meng up and then helped her to the chair." Quick, tell me how your grandfather spent his last moments."

Shen Meng thought for a moment and said,"I was still young at that time, so I don't remember much. However, I know that in the years before my grandfather passed away, the smile on his face never stopped."

When Shen Qiyu saw this, he sighed faintly." Sigh, looks like Eldest Brother still likes this kind of paradise from the bottom of his heart."

"Meng 'er, do you plan to go back with your second grandpa?"

"No thanks." Shen Meng shook her head." I'm living quite well here. Besides, I haven't awakened my bloodline. It's useless to go back. I might as well stay here."

When Shen Qiyu heard this, he nodded and then looked at Chen Yang, who was sitting on the main seat." I can sense the aura of my Shen family's Hundred Lineages in your body. I think you must have inherited one of the Hundred Lineages."

"How about it? Do you want to go back with me?"

"No thanks." Yang Chen shook his head." Second Great Grandpa, my surname is Chen. I'm the head of the Chen Clan."

Shen Qiyu sighed deeply when he heard this. "Forget it. Since you are not willing, I will not force you. I will come often in the future. If you need anything, just tell me."

"Oh right, what bloodline do you have? I'll record it and inform the clan when I get back."

"Bloodline? I don't know? My bloodline is still hidden." Yang Chen said.

"What?" Shen Qiyu suddenly stood up. "It's still hidden. How can it have such a strong bloodline aura?"

"This... Could it be one of the ten lineages?"

Immediately, Shen Qiyu took out a pearl from his storage bag.

The pearl was about two inches in radius and was light blue in color. There were stars embedded on the outside of the pearl.

Shen Qiyu took the bead and walked in front of Chen Yang. "Chen Yang, right? Drip a drop of your blood."

Hearing this, Yang Chen used his right hand as a knife to cut the pad of his left index finger and forced out a drop of blood.

Drip.

The blood dripped onto the light blue pearl and was quickly absorbed. Everyone's gaze also gathered here, curious about Yang Chen's bloodline.

Not long after, the light blue pearl emitted a golden light. Immediately after, the golden light transformed into two eyes.

This eye seemed to come from the ancient times and emitted an ancient aura. Wherever his gaze swept past, everyone felt as if they had been seen through. "This... This... It really is one of the ten branches!" Seeing this scene, Qiyu was so excited that he started to tremble.

After a long time, Shen Qiyu finally calmed down. After putting away the pearl, he looked at Chen Yang with a gratified expression. "I didn't expect that among Big Brother's descendants, there would actually be such a monstrous existence like you."

Seeing this, Yang Chen was a little confused. "Second Great-Grandfather, I heard you say something about 100 meridians and then 10 meridians. What's going on?"

When Shen Qiyu heard this, he patiently explained, "If you want to explain the 100 and 10 lineages, you need to understand our Chen clan first."

"My Chen clan rose to prominence ten thousand years ago and was founded by ten brothers from a fallen ninth ranked family."

"Legend has it that 10,000 years ago, the ten ancestors of the Shen family chose to explore together in order to revitalize the family after the family declined and fell in rank."

"In the end, in a mysterious place, we discovered a blood pool. There seemed to be some kind of magical power in that blood pool that attracted the ten brothers to jump into it."

"After entering, the ten brothers finally reacted and quickly swam up. Unfortunately, the attraction force of the blood pool firmly grabbed onto them, making them unable to move."

"Just as the ten forefathers were feeling despair, they suddenly discovered that the blood pool had bestowed them with a bloodline."

"Later on, our ancestors found out that the blood pool was an inheritance of a sect from 100,000 years ago. It could be bestowed to the human bloodline."

“It’s just that it’s quite dangerous, and the probability of failure is extremely high. It’s not bad if you can give one out of ten people in.”

“If the consequences of failure are severe, one will die. If it’s light, one will be seriously injured. No matter what, one will have to recuperate for one to two hundred years.”

“When the ancestors learned of this success rate, they couldn’t help but feel lucky.”

“Back then, our ancestors relied on their own bloodline to create this ten-thousand-year-old Shen family. The ten great bloodlines inherited by the ancestors were also called the ten bloodlines.”

“Back then, after the ancestors established the Shen clan, they brought back that blood pool to serve as the clan’s foundation. Unfortunately, other than the ten patriarchs, the blood pool had never given any other ten branches.”

“As for the other bloodlines, they are inferior to the ten bloodlines. These lower-grade bloodlines were called the Hundred Lineages.”

“It is precisely because of this blood pool that my Chen clan is called the Hundred Lineages Shen clan.”

“But the Patriarch’s ten bloodlines can only be inherited and restored. Unfortunately, in the last thousand years, no more ten bloodlines have been born.”

“Yang Er, you inherited the Illusory Spirit Eye bloodline of the ten meridians. It’s a high-grade spirit meridian!”

High-grade spirit vein!

Hearing Shen Qiyu’s words, Chen Yang was slightly stunned. He was going to strike it rich this time. A high-grade spirit meridian was equivalent to a third-grade aptitude existence.

Relying on this Illusory Spirit Eye bloodline, as long as Yang Chen didn't die, it was only a matter of time before he became an Omnipotent Expert.

Shen Qiyu's gaze was as if he was looking at a treasure, and it made Chen Yang feel that something was wrong. He quickly changed the topic, "Second Grand Elder, why can't the blood pool grant ten meridians?"

"It's like this. According to the ancestor's judgment, this blood pool should need to consume some kind of energy. If the energy is insufficient, it naturally can't bestow a powerful bloodline."

"This is also the reason why the bloodline bestowed by the blood pool has become lower and lower in recent years." Shen Qiyu explained.

"Then why didn't you replenish your energy?"

"The clan also wants to, but unfortunately, we don't know what kind of energy this blood pool needs, so we naturally can't replenish it."

"But it's still alright. After ten thousand years of development, we can continuously produce bloodline martial artists by relying on inheritance alone. We don't really rely on the blood pool anymore." Shen Qiyu said.

Chen Yang nodded. When they developed in the future, the Chen family would not need to use the Blood Na Dan to bestow the bloodline to their clansmen. They could just rely on inheritance.

"Yang 'er, now that you've awakened the Illusory Spirit Eye bloodline, you'll definitely be nurtured as the number one seed in the family." Shen Qiyu smiled.

"This..." Yang Chen shook his head. "No, I'm fine here. I don't want to move."

When Shen Qiyu heard this, he was silent for a moment. "Yang 'er, this is not up to you. Once the family knows about your talent, they will bring you back no matter what."

When Chen Yang heard that, he smiled and looked at Shen Qiyu. "I'll have to ask you to keep this a secret, Second Great-Grandpa."

"Is it a secret?" Shen Qiyu looked at the family disciples who had followed him and shook his head. "I can't keep it a secret. This is disloyalty to the family."

"However, I can buy you some time. Geniuses can be given special treatment. When the time comes, you can cultivate here."

"Second Grandpa," Shen Meng said worriedly, "Doesn't my grandfather have enemies in the family? If they knew about Yang'er's bloodline, would they..."

When Shen Qiyu saw this, he smiled and shook his head. "Don't worry, it won't happen. Once the Patriarch finds out about this, he will definitely send his trusted experts to protect Chen Yang."

"With that kind of expert protecting them, they won't dare to have any bad ideas."

Shen Meng heaved a sigh of relief.

Yang Chen hesitated and said, "Second Great Grandpa, can you tell only the ancestor and not anyone else and let me secretly cultivate here?"

Yang Chen would never allow outsiders to stay in the Chen Family. With outsiders around, how could they exploit the inheritance in the Endless Mountains?

Shen Qiyu pondered for a moment and said, "It's not impossible. After all, the Chen clan has many enemies."

Since you don't want to go back, it's normal for the ancestor to pretend that you don't exist for safety reasons."

"There's no hurry. I know what you mean. Don't worry, as long as the ancestor

recognizes your talent, he won't let anyone disturb you..”

Chapter 204: A Map of the Outer World

Shen Qiyu's meaning was very simple. He only needed the Shen family's ancestor to confirm that Chen Yang's talent was not fake, then he would hide the news of Chen Yang until he truly grew up.

Hearing this, Yang Chen nodded his head in relief. As long as he didn't send anyone over.

In other words, it was not a problem to send someone over. Chen Yang would only be at ease to let this person stay in the Chen family after he made a great oath of loyalty to the Chen family like the Chen family's Honored Guest.

At this point, Shen Qiyu stood up and said,“”Alright, this matter concerns the future of the Shen family and I cannot delay any longer.”

“Wen Dao, Wen Li, this concerns the family's secret. I can only trouble the two of you to stay in Chen City and wait for me and the ancestor to come.”

When Shen Wendao and Shen Wenli saw this, they quickly stood up and replied,“”Great Grandfather Qi Yu, don't worry. We will definitely not leave Chen City and will definitely not leak the news of this place.”

Shen Qiyu nodded in satisfaction and looked at Chen Yang.” Yang 'er, according to their age, you're their elder brother.”

“In these few years, you have to take good care of your younger brother and sister.”

“I'm willing to do as you say.” Yang Chen nodded.

Upon seeing this, Shen Qiyu left in relief. However, before he left the reception hall, he returned." Look at my memory. I forgot to give you a greeting gift.""

"Tell me, what do you want? This has nothing to do with the Shen family. It's just a greeting gift from an elder to a junior."

Shen Meng looked at Yang Chen, implying that Yang Chen was in charge.

Yang Chen thought for a moment and said,"I want a map of the Endless Mountains.""

"A map?" Shen Qiyu looked at Chen Yang meaningfully before taking out a jade slip from his storage bag.

"Inside this is the map of the Hidden Dragon Mountain Range, which is the one million miles around the Endless Mountain Range."

Yang Chen quickly took the jade slip and injected his spiritual energy into it.

The jade slip emitted a ray of light. Immediately after, a blue map appeared in front of everyone.

Seeing this, Shen Qiyu walked up to Chen Yang and gathered spiritual energy in his hands. He pulled the illusion and the map quickly expanded. Soon, it was almost the same size as the entire reception hall.

As the map expanded, some blurry things gradually became clear.

"This map can still be expanded, but I'm afraid that this room of yours won't allow it. The larger the map is, the more detailed the terrain inside will be."Shen Qiyu smiled.

Yang Chen looked at the map in front of him with joy and asked,""Second Great-Grandpa, can this map enlarge the terrain of a certain place, but the overall size remains the same?"

“That works too.”

Immediately, Shen Qiyu used his finger that was imbued with spirit energy to tap on a certain map. The map kept enlarging until he tapped on it again before stopping.

“This way, I can observe the specific situation of a certain terrain, but I can’t observe the overall situation.” Shen Qiyu said.

“Enough, enough.” Yang Chen looked at the map in front of him as if he had obtained a treasure. With this map, the Chen family had opened their horizons.

In the future, he could also use the map to expand his business beyond the Endless Mountain Range.

Yang Chen believed that with such a large mountain range separating them, the treasures on both sides would definitely be different. When the time came, the Chen family would definitely make a lot of money.

“The method of recovery is also very simple.” As he spoke, Shen Qiyu pulled out the map. As expected, the map quickly shrank until it returned to its previous appearance.

This was similar to the electronic map in Yang Chen’s previous life, but it was more realistic.

After putting away the map, Chen Yang thanked Shen Qiyu again.” Thank you, Second Great Grandpa.””

“It’s fine, it’s just a meeting gift. I reckon that after Old Ancestor comes, he will represent the Shen family to give you a meeting gift. At that time, this thing of mine will not be able to be put on the table.”

“Alright, I’ll be leaving first. I should be back in five years.” Shen Qiyu said.

“Goodbye, Second Great-Grandpa.”

After sending Shen Qiyu off, Chen Yang returned to the guest hall and looked at his younger brother and sister." What do you two plan to do?"

Seeing this, Shen Wendao cupped his hands and bowed to Chen Yang." Brother Chen Yang will arrange everything for us.""

Seeing this, Yang Chen thought for a moment and said,""The two of you can stay in my Chen family for now. You can go to Chen City and other cities on weekdays."

"Although this place is not as prosperous as the outside world, there are still many interesting places."

Shen Wenli and Wen Xi applauded repeatedly." Good, good. Brother, let's take a stroll around Chen City first.""

"Wen Li, don't be rude." Shen Wendao frowned and then looked at Chen Yang." Then I'll have to trouble the Chen family.""

After settling the siblings down, Yang Chen brought the Great Elder to the meeting hall.

"Hehe, First Elder, is the door closed?"

"It's closed. Patriarch, come on."

"Yes."

Immediately, Yang Chen took out the map jade slip and injected his spiritual energy into it. Not long after, a light blue map appeared in front of the two of them.

Chen Yang rubbed his hands and then looked at Chen Xuan." First Elder, where should we look first?"

“Let’s look outside the Endless Mountains first. The forces here are the closest to our Chen Family.” Chen Xuan said.

Yang Chen nodded and looked at the corner of the map. After finding the Endless Mountain Range that was extremely prominent in the map, Yang Chen gently pointed.

The map expanded rapidly. In no time, the Endless Mountains occupied half of the map.

Seeing this, Yang Chen quickly stopped the map.

Then, he pulled the map with both hands and expanded it to the size of the entire meeting hall.

After doing all this, Chen Yang and Chen Xuan looked at the border of the Endless Mountain Range together.

“One, two, three...Forty-two. Who would have thought that there would be forty-two sixth rank forces near the Endless Mountain Range?”

Looking at the Rank-6 faction marked on the map, Chen Xuan took a deep breath. Damn it, did it have to be so terrifying? Was he going to let them out?

Yang Chen’s expression turned ugly.” Although we don’t know where we are, we will definitely encounter a Rank-6 force once we get out.”

“There are so many Rank-6 forces in the Endless Mountain Range. Are the forces outside that strong?”

When Yang Chen continued to look at other places, he heaved a sigh of relief.” 1 thought there were as many Rank-6 forces as dogs outside. It turns out that only the Rank-6 forces near the Endless Mountain Range have more.””

“It seems that there are many resources hidden in the Endless Mountain Range. Otherwise, they wouldn’t be able to support so many Rank-6 forces.”

According to the map, the territories of 42 rank 6 forces near the Endless Mountain Range were equivalent to the size of the territories of five rank 6 forces.

This gave Yang Chen a message. The Endless Mountains was a treasure mountain. Once it was developed, it would not be a problem to support more than 40 Rank-6 forces.

Moreover, Yang Chen judged that these 40 Rank-6 forces had not fully developed the Endless Mountain Range.

Otherwise, someone would have discovered them long ago..

Chapter 205: The Debate of the Shen Family's Ancestor

Looking outside, Yang Chen found the first fifth-grade force.

This fifth-rank force was a dynasty. The territory of the dynasty was like a pot lid, enveloping the sixth-rank forces near the Endless Mountain Range.

Looking further out, there was a mix of fifth and sixth rank forces. As for the forces below the seventh rank, they were not marked.

After going through the entire map, Yang Chen had some idea of the forces within a million miles of the Endless Mountains.

Among them, there were about five fifth-rank forces and sixty-seven sixth-rank forces.

Yang Chen kept these forces in mind.

These were all potential customers. If Yang Chen wanted to resell the treasures of both parties in the future, he would have to greet them.

“Unfortunately, this map doesn’t have many markings on the Endless Mountains. Otherwise, we can follow the signs and open up a route leading to the Endless Mountain Range.” Yang Chen sighed.

Chen Xuan smiled at the side and said, “Family head, there’s no need to be anxious. When the time comes, someone will naturally help us open up the passageway.”

“For now, our main task is to develop steadily. When the time comes, we can raise our flags and expand our territory.”

“That makes sense.”

If the flying speed of a Demon Venerable level demon beast was a thousand miles per day, then the flying speed of a Demon Emperor level demon beast was ten thousand miles per day.

As for Monster Kings, they didn’t have a single standard.

The fast demon kings could even compete with the demon emperors in speed, while the slow demon kings could not even catch up with the flying speed of the Demon Venerable.

Back to the main topic.

Ever since the Chen Family left, Shen Qiyu had been rushing day and night. However, even with the speed of a Demon Sovereign, it would be two years later when he arrived at the Shen Family.

The reason why they had spent so much time was partly because Shen Qiyu and the Demon Sovereign needed to rest. The bigger reason was that the Shen family was really quite far from the Endless Mountain Range.

Not only were there many Rank-5 and 6 forces, but there was also a Rank-4 aristocratic family, the Mianyang Li family.

A fourth-rank force ruled over more than a million territories. It would take a year to cross the territory of a fourth-rank force, even with the speed of a Demon Emperor.

However, no matter what, two years later, Shen Qiyu finally arrived at the Shen family.

After arriving at the Shen residence, Shen Qiyu did not visit anyone and went straight to the residence of the family head.

In the Shen family's meeting hall, the Shen family's head was dealing with the matters at hand when the family guard walked in." Head, Shen Qiyu requests an audience.111

"Shen Qiyu?" Master Shen thought about it carefully and then came to a realization." I remember now. This Shen Qiyu must be Brother Yuanding's descendant. He just broke through to the stage a few years ago."

Shen Qiyu really had to thank himself. If he had not broken through to the stage a few years ago, it would have been difficult for Master Shen to remember that he had such a person in his family.

"Let him in.""

The guard understood and turned to leave.

Not long after, Shen Qiyu followed the guard into the meeting hall.

"Qi Yu pays his respects to the patriarch. May the patriarch live forever!" Shen Qiyu bowed respectfully.

After receiving Shen Qiyu's big gift, the Shen Family Head smiled and said,""Qi Yu, no need to be so polite. I have a good relationship with Brother Yuanding. His descendants are my descendants."

"Come, sit down first."

“Thank you, Patriarch.” When Shen Qiyu heard that, he sat on the chair respectfully.

After Shen Qiyu sat down, Master Shen smiled and asked, “Qi Yu, what’s the matter?”

When Shen Qiyu heard that, he quickly cupped his hands and said, “Patriarch, I request to see the ancestor.”

According to seniority, there were many people in the Shen family who were Shen Qiyu’s ancestors, but the ancestors that were mentioned in front of the family head were only the Shen family’s stabilizing pillars.

When Master Shen heard this, the smile on his face disappeared. “Qi Yu, why are you looking for the ancestor?”

“This matter is of great importance. Please forgive Qi Yu for not being able to discuss it in detail here.” Shen Qiyu said.

When Master Shen saw this, he smiled and shook his head. “Qi Yu, I can’t bring you to the ancestor with this reason. Old Ancestor’s time was precious. If anyone could go and see, Old Ancestor would not be able to cultivate with so many people in the Shen family.”

Seeing this, Shen Qiyu knew that he had no choice but to say it, so he immediately said, “Patriarch, do you know that my brother Qi Huan has left the family?”

Master Shen frowned. Who was this Shen Qihuan?

However, Master Shen still nodded. “I know. I thought highly of your Brother

Qi Huan back then. Unfortunately, sigh!”

“Why? Have you found your Brother Qi Huan?”

A trace of pain flashed across Shen Qiyu's face when he heard this." Brother Qi Huan has been poisoned by the Broken Meridian Poison and has already passed away.""

"Oh, what a pity."" What does this have to do with you looking for the ancestor?""

"Of course it's related." Shen Qiyu sorted out his words and said,""Although my brother Qi Huan has passed away, he left behind descendants."

" After my rest, I have awakened ten meridians among the descendants of Brother Qi Huan."

Before Shen Qiyu's pulse was out, Master Shen had already gagged him.

"Don't say anything first. Come with me to find the ancestor. ""

Immediately, the Shen Family Head dragged Shen Qiyu and quickly headed to where the ancestor was.

In a quiet place in the Shen family's main city. The three Shen family ancestors were currently sitting together playing chess..

Chapter 206: The Debate of the Shen Family's Ancestor

"Respect, you should come down here."

"Renxu, you should come down here."

The two old men who were playing chess looked at the old man sitting in the middle helplessly." Ancestor Chongde, you can't point fingers at us just because you're senior."

"No matter what, we're the ones playing chess."

When Shen Chongde heard this, he smiled disdainfully and said, "Just get used to it. The two Patriarchs in front of me were even more outrageous. They didn't want to play chess, but forced me to play against myself."

"Compared to my treatment, your treatment is much better. At most, someone will nag at the side and not let you play by yourself."

"If you feel wronged, you can bully the next ancestor. In any case, he's younger than you."

When the respected ancestor and the Renxu ancestor heard this, they smiled helplessly. They also wanted to bully the newcomer, but it had been so many years. Where had the newcomer gone?

There was a hint of danger hidden within this bitter smile. The Shen family was probably going to be in a state of crisis.

Once the position of ancestor was broken or weakened, the Shen family's power would definitely be damaged.

At this moment, Master Shen brought Shen Qiyu over.

"Hmm? Master, what are you doing here? Don't you need to deal with the family matters?" Shen Jingzun said seriously.

The Shen Family Head was the direct descendant of Shen Jingzun. The only one who could scold the Shen Family Head for his inappropriate behavior was Shen Jingzun.

Although the other ancestors were also ancestors, they still had to take into account the dignity of the family head.

The Shen Family Head did not have the time to bow to the three ancestors and said excitedly, "Ancestors, our Shen family has another ten lineages descendant."

“What?!”

The three old ancestors rose to their feet, their eyes filled with ecstasy. Aiya, he was just lamenting that he was not able to connect it, but now, it was connected again?

Immediately, the most senior ancestor, Shen Chongde, hurriedly said, “Quickly let us see him. After we confirm that the bloodline is real, we’ll quickly take over as the family head so that you can come down and focus on cultivation.” When Master Shen heard this, his face was filled with gratification. After more than a thousand years, there was finally someone who could take over his position!

The position of the family head was simply not something a human could take on.

The first few hundred years were still fine. The feeling of having power and commanding a fourth-rank aristocratic family was indeed fascinating.

However, after a long time, it was just one word. It was really tiring.

There were many things that needed to be handled by the family head every day, and what was placed in front of the family head was a major matter in the family. The family head had to deal with it as soon as possible.

After being the clan head for more than a thousand years, the Shen clan head had long had enough of it. He had long hoped that a genius who had awakened ten meridians would appear and take over his position.

As for him, he could focus on cultivation and strive to break through as soon as possible to become the clan’s ancestor. Wasn’t it more comfortable to be the patriarch of the clan?

Immediately, Patriarch Shen looked at Shen Qiyu. “Qi Yu, tell your Elder

Brother Qi Huan’s descendant to Patriarch Ji.”

“Yes.”

Shen Qiyu bowed respectfully and said, “Ancestors, do you know that my

Brother Qi Huan ran away from home?”

“I know. Back then, I was still lamenting why a genius would leave home.” “That’s right, that’s right. Because of this, I couldn’t sleep for several nights.” “Who says so? Why? Have you found Qi Huan? Is he willing to return to the family?”

“Ancestors, my brother Qi Huan has passed away.” Shen Qiyu said sadly.

When the three old ancestors saw this, they all looked sad and regretful.

When Master Shen saw this, he pursed his lips in his heart. As expected of someone who had been the master of the family. His acting skills were simply passed down from generation to generation.

Shen Qiyu put away the grief on his face and said happily, “Although I, Brother Qi Huan, have passed away, one of my descendants has awakened the Illusory Spirit Eye Bloodline.”

“Illusory Spirit Eye Bloodline?” “The number of times this bloodline has appeared can be counted on one’s fingers. So far, our Shen family has only seen it three times.” Shen Chongde said in surprise.

“Once the Illusory Spirit Eye Bloodline matures, its ability is self-evident. Not only can it see through weaknesses, but it can also distinguish between real and fake spirit tools and spirit medicines, as well as see through formation points.”

“In short, among the ten meridians, this illusory spirit meridian can be said to have the strongest comprehensive ability.”

After explaining the ability of the Illusory Spirit Eye Bloodline, Shen Chongde asked doubtfully, “Where’s that person? Why didn’t you bring him here?”

The others also looked at Shen Qiyu in confusion.

When Shen Qiyu saw this, he took a deep breath and slowly

explained, "Ancestors, Family Head, that descendant is my great-grandson, Qi Huan. He is the family head of an eighth-rank family, but he is unwilling to come with me."

"Not willing to come back with you?" Master Shen was a little anxious. Don't. If you don't come back, how can I get rid of the burden of the master?

"That's right. I think my brother Qi Huan's great-grandson seems to value his aristocratic family more. I've asked around. That family used to be a weak ninth-rank family."

"Now, it's all thanks to Brother Qi Huan's great-grandson that we've grown to Rank-8. It can be said that he created the Rank-8 aristocratic family single-handedly."

"And because of this, he doesn't seem to want to leave this family."

When Shen Chongde heard this, he nodded in agreement. "I feel the same way.

I remember that when I was the head of the family, I created the clan protection team."

"When I handed over my position, I realized that compared to the patriarch, I valued the position of leader of the clan guards more."

"In my opinion, these clan guards are like my sons. Presumably, that person also felt the same way."

"That won't do." Shen Jingzun did not agree. "In my opinion, the descendants of our Shen family should return to the Shen family."

“A mere eighth-rank aristocratic family, even if it was created by itself, can it compare to the fourth-rank Shen family?”

“Since he wants to be the family head, then he can come to the Shen family to be the family head. His power and status are not higher than the family head of a mere eighth-rank aristocratic family?”

“You can’t say that.” Shen Renxu shook his head. “You didn’t listen to Ancestor Chongde. Although the eighth-rank aristocratic family is small, it was founded by him.”

“Although the Shen family is strong, to others, they are merely a passerby.” “Then what do you think we should do? We should just let a io-meridian cultivator wander around?” Shen Zang frowned.

Shen Renxu could not make a decision for a moment. He looked at Shen Chongde and said, “Ancestor Chongde, you are the most senior. Tell me.” Shen Chongde pondered for a moment, then looked at everyone. “How about this? Let’s discuss it together and share your thoughts.”

Hearing this, Master Shen took the lead and said, “My opinion is to wait for this person to come back and take over the position of the master.”

“You must know that the resources that the head of our Shen family can enjoy are definitely not something that the head of an eighth-rank aristocratic family can compare to. Only such resources can allow that person to awaken his bloodline earlier.”

“If you want to awaken ten meridians, you have to reach the Zifu level. How can we let him waste time below the Zifu level?”

“I agree with the Patriarch.” Shen Jingzun nodded. “Not only are there few resources in the outside world, but it’s also not safe. Why don’t we bring it back to the Shen family?”

Shen Renxu did not agree with them. “I don’t agree. She has not received any favor from the Shen family, and she is willing to return to our family?” “Besides, he doesn’t agree with the Shen family in his heart. In the future, when he becomes a strong person, will he really be loyal to the Shen family?” Shen Renxu’s words were true, and it made Shen Zunxi and Master Shen ponder this possibility seriously.

Shen Chongde looked at Shen Qiyu." Qi Yu, tell me your opinion."

Shen Qiyu didn't expect that he would still have the right to speak here. He immediately suppressed the excitement in his heart and thought of the promise he made to Chen Yang. Then, he slowly said,"

"Patriarch, three ancestors, my suggestion is to let Chen Yang continue to be the patriarch of the Chen family. We are only providing him with help."

"With the Illusory Spirit Eye Bloodline, the Chen Family will at least become a Fifth Stage Family in the future. If we're lucky and Yang Chen successfully breaks through to the Ancestor Realm, then it won't be a problem for the Chen Family to become a Fourth Stage Family."

"During this period, we will protect the Chen family. After the Chen family reaches Rank-4, how can we not thank the Shen family?"

"In addition, there is a layer of bloodline connection. If we marry the Chen family, we will be even closer. At that time, we might gain an ally of a fourth-rank aristocratic family."

"As long as we treat them sincerely, the allies of this Fourth-rank Aristocratic Family might be sworn allies. We will never betray each other in this lifetime."

"To put it bluntly, once our Shen family falls one day, the death alliance of a fourth-ranked family is more important than an ancestor.."

Chapter 207: The Shen Family's Ancestor's Decision

Hearing Shen Qiyu's words, everyone was silent.

No one expected Shen Qiyu to think that way.

A dead alliance of a rank four force sounded good, but to be honest, it was still more reliable to be a family member.

When Shen Qiyu saw this, he added, " Even if we don't plan to form an alliance with the Chen Family, we shouldn't be in a hurry to recall Chen Yang."

"Give him cultivation resources first and let him receive the favor of my Shen family. When Chen Yang's cultivation has reached a certain level in the future, the possibility of summoning him back will be higher."

When Shen Chongde heard this, he looked at Shen Qiyu in satisfaction. " Qi Yu's words make sense. Whether it's finding us a dead alliance or recalling Chen Yang, we have to give him a favor first."

The other patriarchs nodded in agreement.

Indeed, by giving some favors first, it would show the Shen family's sincerity. Then, whether it was the alliance or recall, the success rate would be much higher than now.

The Shen family head felt a little uncomfortable. It would be great if he could directly summon him back to take over his position as the family head.

"Since no one has any objections, then let's settle on this. We'll give them at least a hundred years of grace first." Shen Chongde said.

When everyone heard this, no one objected.

Shen Chongde continued, " Since it's been decided, get ready. We're going to meet this little genius.""

Seeing this, the other two Patriarchs nodded and thought about what treasures they should prepare for Chen Yang.

At this moment, Master Shen suddenly said, "Ancestors, I think we should make a bet with Chen Yang."

"Bet?" Shen Jingzun looked at his descendant in confusion. "What bet?"

"My idea is to give Yang Chen 100 years. In this 100 years, we will support the Chen family with a certain amount of resources."

"In a hundred years, if the Chen family meets our requirements, we will continue to provide resources to help the Chen family become at least a fifth-grade force."

"If the Chen family doesn't fulfill their requirements, then Yang Chen must return to our Shen family."

As for the Chen family, we can bring them back and bring them into the Shen family's side branch or become our Shen family's vassal family.

Our Shen family will continue to help the Chen family grow to the sixth rank to make up for the kindness they have shown to Chen Yang."

"This way, if Yang Chen loses the bet, he will be willing to come back with us. Secondly, we can also test the potential of the Chen family."

"If Yang Chen wins the bet, it means that the Chen family does have the potential to become a Rank-4. Then we'll fully fund the Chen family and form such a dead alliance."

Hearing the words of the Shen Family Head, the three ancestors looked at each other. Then, Shen Chongde said, "Sure, since that Chen Yang was able to single-handedly create an Eighth-rank Aristocratic Family, he naturally has the heart to accept our bet."

"As for the details of the bet, what do you think is appropriate?"

Shen Renxu thought for a moment and said, "Within a hundred years, the Chen family must reach the seventh stage, and they must have two Zifu Disciples within their ranks."

“Only in this way can the Chen Family have the potential to become a Fourth-rank Aristocratic Family.”

This condition was very difficult, but only by fulfilling this condition could one become a Fourth-rank Aristocratic Family.

Of course, it was just a possibility. To become a Fourth-rank Aristocratic Family, one needed both potential and luck.

“I agree.” Shen Chongde nodded.

Master Shen nodded in agreement with Shen Renxu.

Shen Chongde saw this and decided, “Alright, since that’s the case, then it’s settled.” In the following time, everyone is preparing to give a greeting gift to the little monster we haven’t met.”

“I’ll give everyone three days. After three days, we’ll officially set off.”

“Understood.”

“No problem.”

Three days passed in a flash. After a few people’s discussion, they decided to let Shen Zunxi and the Shen family head stay in the Shen family. The two ancestors, Shen Chongde and Shen Renxu, would go to the Chen family as representatives.

This time, in order to hide their tracks, the Shen family did not take out any demon beasts above the Demon Sovereign Realm to travel. Instead, they continued to use the Demon Sovereign Realm to pull the carriage.

However, in order to save time, the Shen family took out a total of three demon emperors and took turns to travel. After a year and a half, they successfully crossed the Endless Mountain Range and arrived at Chen City.

Looking at the city below, Shen Chongde nodded." Not bad. It's rare for a city guarded by an eighth-ranked aristocratic family to have such a look."

"Looks like this Chen Yang is quite talented in governing cities."

"Let's go down and meet this little genius."

Immediately, the group parked the flying carriage outside Chen City. After putting away the carriage and the demon beasts, the group walked into Chen City.

Chen Cheng, Chen Family, Chen Yang's courtyard.

Yang Chen was sitting cross-legged in the courtyard, looking at the name list of the cultivation of the family members.

Ever since Shen Qiyu left the Chen Family, Chen Yang had been developing steadily for another three and a half years. During these three and a half years, the Chen family had gained many experts.

The first was the elders' natal subdued beasts. In the past three years of exploring the ruins, all the elders had obtained new natal subdued beasts.

These subdued beasts all had the bloodline of demon generals. They were many times stronger than the subdued beasts from before.

Although he had yet to break through to Demon General, it was still a good sign.

The strength of the various elders had also more or less increased. The strongest among them was naturally the first elder, Chen Xuan.

After consuming the Grade 7 Aptitude Pill, Chen Xuan's aptitude had already reached Grade 7. In addition to so many years of dedicated cultivation, his cultivation had already reached the sixth level of Meridian Unsealing.

He was currently the Chen family's expert closest to the Core Formation realm other than Chen Xiao.

After Yang Chen's parents consumed the Grade-7 Elixirs, their aptitude and cultivation increased significantly.

Currently, Yang Chen's father had already broken through to the Meridian Opening realm and had added 100 points of clan luck to the clan. Although Yang Chen's mother had yet to break through to the Meridian Opening Stage, she had also reached the peak of the Qi Refining Stage.

It was only a matter of time before he opened his meridians.

Compared to the older generation, the disciples of Chen Yang's generation were the ones whose cultivation soared.

Among them, Yang Chen's eldest brother and third brother had already broken through to the Meridian Opening realm after consuming the Blood Na Pill. In addition to the three years of accumulation, their cultivation had also increased.

Among them, Big Brother was at the third level of Pulse Unsealing, and Third Brother was at the first level of Pulse Unsealing.

Yang Chen's second brother had also purchased the Family's Indulgence Elixirs and his cultivation had reached Meridian Unsealing.

As for Chen Yang's fourth sister, Chen Meng, she was already at the Eighth Stage. All these years, in order to cultivate the Devil Vine Sunflower Tree, she had delayed her cultivation.

However, a year ago, he successfully broke through to Meridian Opening and increased his clan's luck by 100 points.

As for Chen Xuan and Chen Dao, they had both broken through to the Meridian Opening realm and increased the clan's foundation.

In addition, there was also the breakthrough of the Fire Maned Horse. In short, in these three years of development, the Chen family had gained another seven Meridian Opening experts, which added 700 clan luck points to the Chen family.

However, the Dao Integration Pearl still had some limitations. Otherwise, the energy it could absorb would have reached 77 points.

Just as Yang Chen was reading the book with relish, the Underworld Dragon lying in Yang Chen's courtyard suddenly looked into the distance.

"What? Is there an expert here?"

Chapter 208: The Ancestor's Gift

Chen family, in the guest hall.

After noticing the unusual behavior of the Underworld Dragon, Chen Yang summoned the leader of the Piercing Guards, Chen Ying. After confirming it again and again, Chen Yang found out that his cheap second great grandfather had brought people to Chen City.

Immediately, Chen Yang brought Chen Xuan to the reception hall.

Chen Yang sat in the reception hall and waited quietly for Shen Qiyu to arrive.

Before long, the guard ran over to report, "Master, Senior Shen Qiyu is here."

When Chen Yang heard this, he looked at Chen Xuan. "First Elder, come with me to welcome my second great grandfather."

"That's right."

Outside the Chen family's main entrance, after informing the guard of his identity, Shen Qiyu and the rest did not wait long before they saw Chen Yang and Chen Xuan flash over.

Seeing this, Shen Qiyu introduced the two ancestors, Shen Chongde and Shen Renxu, "Ancestor, that young man is Chen Yang."

Shen Chongde looked at Shen Renxu. Both of them could see the satisfaction in each other's eyes.

"He's at the peak of the third level of Core Formation at such a young age. Even if he doesn't have the Illusory Spirit Eye bloodline, his talent is definitely not low." Shen Chongde said.

"That's right." Shen Renxu nodded in agreement.

"Yang greets second great grandfather and seniors!" After arriving at the main entrance, Yang Chen quickly tidied up his clothes and immediately cupped his hands in greeting.

When Shen Qiyu saw this, he first looked at his Patriarch. After his Patriarch agreed, he stood up and helped Chen Yang up.

"Yang 'er, there's no need to be so polite."

"Second Great-grandfather, seniors, please come in with me."

In the reception hall, after everyone sat down, Shen Qiyu introduced, "Let me introduce you. This is Old Ancestor Shen Chongde."

"Greetings, Shen Chongde." Yang Chen quickly stood up and bowed.

"Yes, there's no need to be so polite." Shen Chongde smiled and nodded.

"This is Forefather Shen Renxu."

"Greetings, Patriarch Shen Renxu." Yang Chen continued to bow.

"Get up." Shen Renxu smiled and raised his hand.

After greeting them, Shen Qiyu took out the bead that tested Chen Yang's bloodline. "Yang'er, I still have to test your bloodline in front of the two ancestors."

Then, Shen Qiyu passed the bead to Chen Yang.

"No problem."

Yang Chen took the bead and continued to force out a drop of blood using the old method. The blood dripped onto the bead and was quickly absorbed.

Immediately after, a pair of eyes from the ancient times appeared and scanned the people in the reception hall.

"It really is the Illusory Spirit Eye Bloodline." Shen Chongde stood up excitedly and came to Yang Chen, holding his hand.

"Don't be nervous. Relax."

Hearing this, Yang Chen relaxed his body. Not long after, he felt a wisp of Spiritual Qi swimming through his body.

After letting go of Chen Yang's hand, Shen Chongde smiled at Shen Renxu." That's right, it's indeed an illusion that sought another bloodline."

After several tests, the two Patriarchs finally confirmed that Chen Yang's bloodline was the Illusory Spirit Eye Bloodline.

Immediately, the two old ancestors looked at Shen Qiyu, indicating for him to explain their intentions.

Shen Qiyu took a deep breath and said,""Yang 'er, since I've confirmed that you have the Illusory Spirit Eye bloodline, I should explain why I'm here."

When Chen Yang heard this, he sat upright." I'd like to hear the details.""

"It's like this. We originally planned to bring you back to the Shen family. However, considering that the Chen family was built by you, I have feelings for you."

"That's why we plan to make a bet with you based on the Chen family."Shen Qiyu said.

"Bet? What was the bet? What is the bet?" Yang Chen asked.

Shen Qiyu sorted out his words and said slowly,""This bet is whether the Chen Clan can reach the Seventh Stage within a hundred years and possess the battle prowess of two Zifu Disciples."

Every year, the Shen family would sponsor the Chen family's resources to help the Chen family grow."

"However, if the Chen family does not meet the requirements after a hundred years, then you will have to return with us and take over the position of the head of the Chen family."

“Of course, we won’t give up on the Chen family. We will at least raise the Chen family to Rank-6 to repay the Chen family for raising you.”

Hearing this, Yang Chen calculated in his heart.

“In a hundred years, even if our cultivation base doesn’t increase at all, the energy produced by the Dao Integration Pearl can create two Demon Kings.

Wasn’t this bet a sure win?

Yang Chen usually didn’t care about gambling, but he was still willing to invest in this kind of winning situation.

“Then, Second Great-grandfather, what if the Chen family succeeds?” Yang Chen asked.

“If you succeed, my Shen family will continue to sponsor your Chen family every year until your Chen family reaches the Fifth Stage.”

“When the time comes, the two families will form a death alliance. They will not betray each other and help each other.” Shen Qiyu said.

Hearing Shen Qiyu’s words, Chen Yang pretended to hesitate for a moment before smiling at the Shen family.” Alright, I, Chen Yang, will accept this bet.””

“Good. As expected of the head of the Chen family.” Shen Chongde smiled and nodded.” We’ll discuss the specific resources of the annual sponsorship later.”

“Before that, I’ll give you my greeting gift.”

Shen Chongde rummaged through his storage pouch and took out a puppet not long after.

Patting the puppet, Shen Chongde smiled and said,““Since you are unwilling to follow us back, your safety must be guaranteed.”

“I originally planned to send experts to protect you, but after thinking about it, this is your territory.”

“Thus, I took out this puppet. It’s a grade four spirit weapon level puppet, and can unleash the strength of a mighty figure on stage.”

“With this puppet protecting you, there shouldn’t be any problems. Of course, you can’t use this as your clan’s combat strength to deal with our bet.”

“It won’t happen.” Yang Chen smiled and shook his head.

“I’ve already put a lot of Spiritual Crystals in this puppet. If we don’t do anything, it’ll be able to maintain a hundred years of combat power.”

“If you use your full strength, you can last for ten years. Come over and acknowledge me as your master.”Shen Chongde laughed.

When Chen Yang heard this, he walked to the puppet with slight excitement. Under everyone’s gaze, he successfully recognized the puppet as his master.

After putting away the puppet, Chen Yang bowed again.” Thank you, Ancestor Chongde!”

Shen Renxu smiled and shook his head.” I didn’t expect you to take out such a precious treasure. I can’t bring it out.””

Chen Yang smiled at Shen Renxu.” Any treasure of any rank is just a token of appreciation from the Patriarchs. There is no difference between them.””

Shen Renxu heard this and scolded with a smile, "You are a slippery one. Now I can't take out good things."

"Forget it, I'll leave this embarrassing matter to the head of the family and respect.."

Chapter 209: Agreed on the specific funding plan

Shen Renxu smiled as he took out a blood-red fruit from his storage bag.

"Fortunately, your Chen family is a beastmaster family. Otherwise, it would have been difficult for me to find precious treasures. This spirit herb was called the Dragon Blood Fruit, and it was formed by watering the Profound Spirit Fruit with the dragon race's blood essence."

"Don't look down on the fact that this Dragon Blood Fruit is only a fifth-grade spirit herb. To a beastmaster aristocratic family, its value is not much different from a fourth-grade spirit herb."

"The reason is that one of the raw materials of this Dragon Blood Fruit is the Profound Spirit Fruit. It contains a terrifying amount of spiritual energy that can allow a Demon Venerable Realm demon beast to break through a small realm after refining the Profound Spirit Fruit."

"After being nourished by the blood essence of a dragon beast, its effect on dragon-type demon beasts is even stronger. If a dragon beast in the early stage of the Demon Venerable realm consumes it, its cultivation can be raised to the late stage of the Demon Venerable realm."

"If it's not a dragon-type demonic beast, it will also have great benefits."

"After consuming this Dragon Blood Fruit, other than the effect of increasing your cultivation base, there's also a slight chance of obtaining dragon blood and becoming a dragon-type demon beast." Shen Renxu laughed.

Yang Chen took the Dragon Blood Fruit and a satisfied smile appeared on his face.

If this Dragon Blood Fruit was consumed by the Underworld Dragon, it could save a lot of energy.

A demon beast needed 100,000 points of energy to advance from a Demon Venerable to a Demon King, which was ten times more than before. The amount of energy required to advance in stages was also ten times higher than before.

In other words, if the Earth Dragon consumed the Dragon Blood Fruit and reached the Advanced Stage of the Demon Venerable Realm, Chen Yang only needed to use 40,000 points of energy to push the Earth Dragon to the Demon King Realm.

Seeing Yang Chen's satisfied smile, Shen Renxu knew that his gift had been delivered to Yang Chen's heart.

Shen Renxu heaved a sigh of relief. Fortunately, he did not embarrass himself in this aspect.

After giving his gifts, Shen Renxu took out a jade bottle and an array device." This is a gift from the head of the Shen family and our respected ancestor." "Because they need to guard the clan, they can't come to see you personally. Please forgive them."

"Patriarch Renxu, what are you talking about? How can Yang He be worthy of being met by Patriarch Shen and the other patriarchs?" Yang Chen bowed slightly, indicating that there was no need to blame himself.

Shen Renxu nodded and continued,""This pill is a gift from the Patriarch, a Tier 6 pill, the Vitality Consolidating Pill."

"Although this name isn't very good, its effect is indeed not weak."

"The reason why this Fortifying Pill can become a sixth-grade pill is because it can increase the probability of a peak Meridian Unsealing martial artist breaking through to the Core Formation realm by 30%."

“And if the breakthrough fails, this Vitality Fortifying Pill will also protect the martial artist’s dantian. Not only can it ensure the martial artist’s life and safety, but it can also ensure that their cultivation will not fall.”

Vitality Fortifying Pill!

Yang Chen understood. The effect of this Fortifying Pill on peak Meridian Unsealing martial artists was equivalent to the effect of the Meridian Unsealing Pill on peak Qi Cultivating martial artists.

They were all the kind of medicinal pills that could assist martial artists in breaking through.

This thing was not bad. At the very least, with this pill, the probability of the family members breaking through to the Core Formation realm would greatly increase.

At the same time, if the breakthrough failed, it would not affect the next breakthrough.

It could be said that if this medicinal pill was taken out to auction, it would definitely be fought over crazily.

After all, Yang Chen didn’t have such a pill that could help a martial artist break through to the Core Formation realm.

Moreover, Yang Chen also saw a business opportunity in this.

If the Chen family could afford to buy the pills and auction them off, they would be able to make a fortune.

Of course, with the Chen family’s current size, they were still unable to resell this Vitality Fortifying Pill. However, it was still a business opportunity, so Yang Chen kept it in mind.

Shen Renxu placed the jade bottle on the table and continued to introduce the array device in his hand.”
This is a gift from the ancestor.”

“You should recognize this array artifact. I’ll mainly introduce the array engraved inside. This formation is called the Sirius Star Formation.” “Speaking of which, there is a small interesting story about my Shen family obtaining this Sirius Star Array.

Back then, there was a dynasty that offended our Chen family and caused the respected ancestor to destroy the entire imperial family.”

“Most of the members of the royal family were demoted to slaves. Only a small portion of the royal family ran away with some treasures.”

“Back then, we tried to look for it, but unfortunately, we couldn’t find it.”

Yang Chen smiled awkwardly. Of course you can’t find it, because that group of people ran to our place and left behind a ruin.

Yang Chen couldn’t help but sigh. This world was really small. He didn’t expect that the ruins of the Great Qian Dynasty’s royal family were actually a small part of the ruins left behind by the Shen family.

Actually, it was normal. If it was really all the ruins, then Da Qian would have taken off long ago.

“Although this Sirius Star Formation is a sixth-grade formation, if it is used well, its value is not inferior to my Dragon Blood Fruit.”

“Of course, I hope that you will never need to use this Sirius Star Array.”

The implication of this sentence was that the Chen family would enjoy eternal peace. This was also an auspicious sentence that was asked for when the forces gave their followers to the array.

After listening to Shen Renxu's introduction, Yang Chen cupped his hands and bowed." I thank you, Master Shen. Thank you for your grace.""

After receiving the gifts, Yang Chen invited the three of them to the Chen family's banquet.

The three of them were naturally not interested in the Chen family's food, but they were still quite pleased with the Chen family's sincerity.

For an eight-rank aristocratic family to hold such a banquet, the importance of it was self-evident.

After the guests were satisfied, everyone returned to the reception hall to discuss how the Shen family would fund the Chen family.

In the guest hall, Chongde took a sip of the Chen family's hot tea and then looked at Chen Yang." Yang 'er, tell me first, what kind of support does your Chen family want?"

Chen Yangbo thought for a moment, then looked at Shen Chongde." Ancestor Chongde, the specific support will be decided by the Shen family. However, I hope that it won't be all Spiritual Stones."

"To be arrogant, with the Chen family's current ability to earn spirit stones, they can still afford to support the Chen family."

"If you want more spirit stones, it would be a waste. We don't have so many treasures here that are worth buying with spirit stones."

After listening to Yang Chen's words, Shen Chongde nodded and said,""How about this, my Shen family will support your Chen family according to the amount of spirit stones that a seventh rank force can obtain in a year." "However, it won't be spirit stones. Instead, it will be exchanged for various resources. What do you think?"

In the Endless Mountains, on average, a Rank-7 force would earn about 100,000 Spiritual Stones a year.

This was because the Endless Mountains lacked spirit stones. If they were outside the Endless Mountains, there would be more.

Yang Chen naturally wouldn't reject the gift of so many treasures in a year." My Chen Family is willing."

Seeing this, Shen Chongde smiled and nodded." Don't think that my Shen family is stingy. A mere 150,000 spiritual stones a year is nothing to my Shen family."

"The reason why I gave your Chen family so few resources was because I had carefully considered it."

"If a seventh-grade power can't produce a new Zifu Disciple within a hundred years, then this seventh-grade power will be like this. It won't be able to reach the sixth-grade in its lifetime."

"And looking at those fifth-rank powers, when they were seventh-rank

powers, on average, a Zifu Disciple would be born every fifty years.."

Chapter 210: The Ancestors Who Are Addicted to Movies

Shen Chongde's words were not without reason. The Shen family was here to inspect their allies, not to forcefully support a puppet.

The Shen family could also provide resources equivalent to a fifth-rank aristocratic family every year. However, with such a huge amount of resources, even if the Chen family could complete the bet with the Shen family, it could not prove their own potential.

This went against the original intention of the bet.

Yang Chen thought about it and was very satisfied with the funding plan. Anyway, it was all for free. He could give her anything.

Seeing that Yang Chen agreed, Shen Chongde continued, "Let Qi Yu discuss the specific funding method with your family's First Elder."

"As for the two of us old men, you can bring us around the Endless Mountain Range. I was also very curious about the scenery here."

When Shen Qiyu heard that, he became excited.

What the ancestor meant was that he could get in touch with some major matters of the family. In the past, Shen Qiyu did not even dare to think about it.

Shen Qiyu looked at Chen Yang gratefully.

If it wasn't for Yang Chen, this cheap descendant, he probably wouldn't have been able to come into contact with some of the major events of the family.

When Yang Chen heard this, he looked at the Great Elder and stood up. "Since the ancestor has given the order, I will naturally abide by it."

Immediately, Yang Chen left the reception hall with Shen Chongde and Shen Renxu.

After the three of them left, Shen Qiyu and Chen Xuan had a heated discussion about the funding share.

Inside Chen City, Yang Chen was walking on a clean street. He smiled and asked, "Ancestors, what do you want to see?"

"Anything is fine. We just want to see how you govern Chen City."

Hearing this, Yang Chen thought for a moment and said, "In that case, my two ancestors, come with me to the cinema."

"Movie theater? It sounded fresh. Let's go and take a look." Shen Renxu laughed.

Seeing this, Yang Chen brought the two elders to the cinema.

But before he could walk far, Yang Chen ran into two familiar faces.

"Brother Chen Yang, you actually came out."

Shen Wendao joked and then looked at the people beside Chen Yang. His pupils immediately constricted and he quickly cupped his hands and bowed." Shen Wendao greets Ancestor Chongde and Ancestor Renxu."

Shen Wenli, who was behind him, also bowed." Shen Wenli greets Ancestor Chongde and Ancestor Renxu!"

"Get up." Shen Chongde raised his hand to signal the two of them to get up. Then, he asked, "Why are you here?"

"Ancestor, back then, the two of us came here with Great-grandfather Qi Yu. In order to keep it a secret, Great-grandfather Qi Yu left us here." Shen Wendao said respectfully.

Shen Chongde nodded and said habitually, "I've been suffering for a long time. I've been here for a long time. I'm sure I'm not used to it."

"It's not that I'm not used to it. It's quite good here." Shen Wenli said.

Shen Wendao quickly glared at Shen Wenli." Just agree to whatever the ancestor says."

“Oh?” Shen Chongde smiled. Really? Not to mention anything else, the food here is different from the food at home. Can you get used to it?”

“It’s just a desire for food. You can give it up. There are too many fun things in Chen City. Compared to this, it’s okay if you’re not used to eating.” Shen Wenli smiled.

Hearing this, Shen Chongde became even more curious.” Oh, then can you tell me what fun things are there in Chen City?”

“Sure.” Shen Wenli nodded and smiled.”! don’t think I’ll get tired of the movies, the stage plays, and the zoo for decades.”

“Is this movie really that charming?” Shen Chongde looked at Yang Chen.” I’m getting more and more curious about your movie. Let’s go, take me to see it.”” “The two of you, follow me.”

“Yes, sir!”

Immediately, the group entered the cinema.

After taking a few glances at the cinema, Shen Chongde understood the mystery behind it.” Using a photographic crystal to record a certain scene, interesting.”

After figuring out the principle inside, the two ancestors looked on with interest.

The two ancestors were immersed in the story. Although they knew the principle of the movie, it didn’t affect them at all.

After the movie was over, Shen Renxu smacked his lips.” I don’t think we can discuss the sponsorship in a short period of time. It’s better if we don’t disturb them.””

“Agreed.” Shen Chongde nodded and looked at Chen Yang.” Let’s not disturb them. Let’s stay here for a while.””

“I’m willing to do as you say.”

Then, the five of them watched a new movie.

After reading it, Shen Renxu smacked his lips and wanted to say something. Seeing this, Yang Chen took the lead and said, “Ancestors, this movie is adapted from a play. The play is also very exciting. Why don’t you two go and watch it together?”

Hearing this, the two old ancestors could see the intention in each other’s eyes and immediately said: ““Alright, let’s go take a look.””

After watching the entire play, the two ancestors expressed different views.

“Although this play is good, it tests the state of the people above. Compared to the play, I still prefer movies.” Shen Renxu said.

Shen Chongde, on the other hand, had a different opinion. “Although movies are good, the emotions are not as strong as dramas. If I had to choose between them, I would still choose dramas.”

Seeing that the two ancestors had a small disagreement, Chen Yang smiled and said, “Since the two forefathers have their own preferences, why don’t we look at it separately? After all, my Chen City isn’t big, so it won’t affect anything.”

“That makes sense.”

“I agree.”

Immediately, Chen Yang, Shen Wendao, and Shen Wenli split into two groups. One group watched a play with Shen Chongde, while the other watched a movie with Shen Renxu.

Just like that, a day passed.

After a day of discussion, Shen Qiyu and Chen Xuan came up with a funding plan that satisfied both parties.

The total value of the annual sponsorship was 150,000 spirit stones.

And the specific methods were to sponsor medicinal pills, spiritual weapons, and other types of funding.

Medicinal pills were the largest part of the total, and they were worth around 100,000 spirit stones every year.

Among them, the vast majority were medicinal pills that assisted in opening meridians and condensing cores. The remaining medicinal pills were medicinal pills that assisted in qi cultivation.

As for the other types of pills, the Chen family did not want them. However, both parties had also made an agreement. If the Chen family needed them, they could pay spirit stones to buy them from the Shen family.

Most of these spirit weapons were offensive spirit weapons, and a small number of them were defensive. The total value was about 30,000 spirit stones.

As for the remaining sponsorship, it was more complicated. The Chen family had to make a list and let the Shen family sponsor the Chen family according to the contents of the list. They would get 20,000 spiritual stones every year.

Because the two parties were too far apart, they decided to sponsor once every ten years and deliver ten years 'worth of resources at once.

As for the start of the bet, it was also when the first batch of resources was sent over from the Shen family.

As for the first batch of sponsors, the Chen family wanted treasures that could increase the cultivation of demon beasts..
