

## **Tamer Family 321**

### Chapter 321: Shen Qiyu Arrives in the Sixth Year of Qiyuan

“It’s better if you don’t know now. Otherwise, it will only increase panic.”

Shen Qiyu’s words made Yang Chen even more curious.

Good heavens, so mysterious.

Wait a minute, it was rumored that the Alkaid World had once suffered an invasion by demons. Could this Blood Demon Stone be related to that demon?

Could it be that the invasion of the demons had not ended?

Doubts rose in Yang Chen’s heart one after another. However, Shen Qiyu was right about one thing. Yang Chen did not need to know about these things now.

If the sky collapsed, there would be a tall man to hold it up. When the Chen family’s strength reached a certain level, he would pay attention to these things.

After leaving the tunnel, Chen Yang ordered the Piercing Guard to guard it strictly. No one was allowed to enter. If anyone tried to barge in, they would be killed.

After leaving Zhou Muchun’s manor, the two of them returned to the Chen family.

Not long after, the Piercing Guard brought back information about the Li family’s encampment. The two of them immediately sat on the Shen family’s carriage and rushed to the Li family from the sky.

In the center of the Endless Mountain Range, there was a huge city that could accommodate tens of millions of people.

The city wall was 50 meters tall. From afar, it looked like an ancient beast lying on the ground, emitting a soul-stirring aura.

This giant city was called Li City.

There were only two kinds of people living in Li City. One was the Li family, and the other was the people who served the Li family.

Even if they lived in Li City, the true vassals of the Li family served the Li family.

Usually, this Li Cheng was in a peaceful state.

Because no one would dare to behave atrociously in Li City.

But today, Li Cheng's people sensed an unusual scent.

Many people saw a black dot streaking across the sky, heading straight for the Li family's base.

In the center of Li City, in the manor where the Li family's direct descendants lived.

Patriarch Li was in the meeting hall, discussing matters with a group of elders when he suddenly sensed a terrifying aura.

Master Li did not dare to delay and immediately led the elders out of the hall.

However, just as the Li Family Head walked to the door of the hall, he heard the cry of an eagle. A terrifying aura belonging to the late stage of the Demon Emperor Realm spread out from the sky.

At the same time, a loud shout resounded in the sky.

“The head of the Li family is still here. Why haven’t you come and welcome me?”

“You’re courting death!”

Hearing this, a trace of ruthlessness flashed across the eyes of the Li family’s head. Where did this arrogant person come from? He actually rushed to the Li family to behave atrociously!

This commotion was not small. Almost all the direct descendants of the Li family had discovered the huge black shadow in the sky.

“This is a demon beast in the late stage of the Demon Sovereign Realm. I didn’t expect a Demon Sovereign to invade my Li family. Moreover, this Demon Sovereign seems to be under someone’s command.”

“Humph! So what if he dares to behave atrociously in my Li family? Even if he has a demon beast in the late stage of the Demon Emperor Realm, he will pay a painful price!”

“You can’t say that. Since this person dares to come to my Li family alone, he must have his own confidence. I don’t believe that this person is a reckless fool.”

“So what if you are confident? My Li family is not a place where anyone can come and go as they please. Just wait and see. This person will definitely pay the price for his arrogance.”

“That’s right, that’s right. Coming to my Li family to behave atrociously is no different from courting death!”

In the sky, Master Li brought a group of elders and flew in front of Shen Qiyu.

Looking at Chen Yang who was beside Shen Qiyu, the Li Family Head was deep in thought. Then, he came to a realization.” I remember now. Aren’t you the Chen Family Head?”

“I was wondering why your Chen family developed so quickly. So there’s someone behind it.”

“However, do you think that a demon beast in the late stage of the Demon Emperor Realm can behave atrociously in front of the Li family?”

As soon as he finished speaking, the Li family’s head also emitted an aura of the late stage of the stage. The two auras collided, dyeing the sky above Li City into a doomsday-like scene.

Elder Li Ke, who was behind the Li family head, saw this and a hint of resentment flashed across his eyes.

Yang Chen, you’re such a smart person, why did you make such a mistake at this time?”

Even if you have someone backing you up, you can’t bring it to the Li family to behave atrociously. We can discuss it properly..

Chapter 322: The Tyrannical Shen Qiyu

This was great. Since they had come knocking on their door, the grudge must have been formed.

Even if Yang Chen was backed by a fifth-grade force, the Li family would not let this matter go, not to mention that you only brought a late-stage Demon Emperor demon beast with you.

Li Kehua shook his head disappointedly. Yang Chen was still too young and didn’t know the principle of leaving a line in the line.

Mow that things have come to this point, how could the Li family let the matter rest?

If he had been the one to deal with it, how could it have come to this?

Now that things had come to this point, let's see how the Chen family would clean up the mess.

Hearing the threatening words of the Li Family Head, Shen Qiyu laughed disdainfully and said/"Acting atrociously? What, is your Qianyuan Li family some kind of great family? You can't even fly above your family?"

"Even the Li family of Mianyang would not stop the demonic beasts from flying over their family, right?11

The Li Family Head frowned and glanced at Shen Qiyu in front of him. He threatened,""Who exactly are you? Which family do you come from? I low dare you act so impudently in front of my Li family?11

"Although my Li family has fallen, it is not something that can be casually insulted by a single person on stage.11

"If 1 force you to stay, your family will not become enemies with my Li family because of this!"

Obviously, the Li Family Head also treated Shen Qiyu as someone from a

Rank-5 force. Since everyone was a Rank-5 and you were rude first, the Li Family Head could totally make Shen Qiyu stay.

However, the Li family head was still unwilling to do so. The Li family was weak now, so he would not offend anyone if he could.

At that moment, the Li family head made up his mind. If this person admitted defeat, he would let this person leave.

"Are you even worthy of keeping me?"

What the Li Family Head did not expect was that not only did Shen Qiyu not give in, he did not even change the arrogance on his face.

Immediately, the Li Family Head snorted and said angrily, "In that case, I'll educate you on behalf of your family!"

In an instant, the spiritual energy in the Li Family Head's body whizzed out and blasted towards Shen Qiyu. It was obvious that he was planning to kill Shen Qiyu.

Even a clay man had a temper, let alone the leader of a fifth-grade force.

Since this person was so provocative, even if he came from a fifth-grade force, the Li family head did not intend to let them off.

If the Li family head admitted defeat at this time, then the Li family would lose all face.

Shen Qiyu's expression did not change in the face of the Li Family Head's attack. He crushed the ring on his finger.

Then, a figure made of fire appeared in front of Shen Qiyu.

The figure glanced at the Li family head and then punched out.

Bang!

A loud sound rang out. Under the horrified gazes of the elders, the Li Family Head fell down like a bird with broken wings. He landed heavily on the ground, creating a deep pit in the Li Family Manor.

This might not be the case!

Li Kerning was shocked. When Shen Qiyu and Chen Yang provoked the Li family, Li Kerning was secretly happy.

In Li Kerning's imagination, the Li family head would kill the two of them on the spot in a fit of anger.

At that time, the matter between his lineage and Zhou Muchun would no longer be known by anyone.

However, the result was beyond Li Kerning's imagination. The usually invincible family head actually couldn't withstand a casual attack from the phantom!

It wasn't just Li Kerning. Li Kehua and the other elders also widened their eyes and mouths in disbelief.

Damn it, who was this person?

in the deep pit, the Li family head struggled to get up. He looked at the phantom above him with fear, and a trace of horror flashed in his eyes."

"You know the Dao Origin phantom? It seems that your Li family hasn't forgotten the glory of the past." Shen Qiyu sneered.

Hearing Shen Qiyu's sarcastic words, the Li Family Head's anger rose.

My Li family has only been banished for more than a thousand years. It's not to the extent that our inheritance will be severed!

However, no matter how angry Patriarch Li was, he did not dare to express it with the Dao Origin phantom.

Immediately, Master Li flew back to Shen Qiyu and asked indifferently, ""Which clan are you from? Can you tell me?"

“Since you know the Dao Origin phantom, you should know that you’re not qualified to talk to me now.” Shen Qiyu had a domineering look on his face.

Hearing this, Master Li took a deep breath. “Please wait a moment. I’ll go get our ancestor.”

With that, the Li Family Head turned around and left.

Taking advantage of this time, Yang Chen asked, “Second Great-grandfather, what is this Dao Origin phantom?”

“You’re talking about this Daoyuan phantom. This is a phantom that can only be condensed by a Daoyuan realm expert. Its power will also change according to the strength of the Daoyuan realm expert.”

“However, the weakest Dao Origin phantom has the strength of a first-stage Dao Origin Realm expert.

Of course, if one wanted to condense a Dao Origin phantom, the Dao they comprehended had to reach a certain realm. Their strength had to be above the third level of Dao Origin. It was very troublesome to condense it.

“Unfortunately, this Dao Origin phantom can’t be maintained for long. Otherwise, I could have rewarded you and helped you protect the Chen family.” Shen Qiyu said.

After listening to Shen Qiyu’s words, Chen Yang finally knew the background of this phantom.

At the same time, he also learned about the next realm of the mighty figures on stage, the Daosource realm!

It sounded like it was inseparable from Dao. At that time, resources would no longer be of much use. It would all depend on one’s own talent.

Of course, ordinary resources like spirit stones and crystals were not very useful. Some precious resources were still useful.

However, that was a matter for the future. It was not Yang Chen's turn to worry about it..

Chapter 323: The Tyrannical Shen Qiyu (2)

Not long after, Master Li returned. Following him was a white-haired old man.

When he saw the old man, Shen Qiyu put away the arrogance on his face and cupped his hands at the old man." Greetings, Venerable Li.""

Hearing Shen Qiyu's address, Chen Yang was somewhat puzzled. Wasn't the honorific title of a Purple Mansion Realm expert a Venerable? Why did the Daosource Realm have to address him as Supremacy?

The old man seemed to have noticed Chen Yang's confusion. He smiled and said,""Clan Lord Chen, you might not know this, but Supremacies at the Zifu level are addressed by ordinary people and weaker martial artists."

"After you break through to the Zifu Disciple level, if you have any teachers, you will inform them. Don't use the name of that Sovereign."

"Because only those at the Daoyuan Realm and above are qualified to be addressed. Even if the strong addressed the weak, they still had to address them respectfully."

"You haven't heard of anyone addressing a Zifu Disciple as a Supremacy on stage, right? However, when addressing someone above Daosource, you still have to bring along a Supremacy. This is a rule passed down since ancient times."

“The difference between us humans and demon beasts is precisely these etiquette laws, so everyone has to abide by them.”

Hearing the Li family’s Dao Origin Patriarch’s words, Chen Yang nodded and cupped his hands. ‘Thank you, Venerable One.’”

Fortunately, he knew about this beforehand. If he didn’t know about this, he might make a fool of himself when he went out in the future.

Yang Chen decided that he would never allow those people to call him a superior when he returned. He had to get used to it in advance.

After telling Yang Chen how to address him, the Li family’s Dao Origin Patriarch continued to smile. “Sir, may I ask which faction you are from and why you have come to my Li family?”

” I’m from the Hundred Lineages ‘Shen Family. Speaking of which, I’m also related to your Li Family by marriage.” Shen Qiyu said slowly.”

Hundred Lineages Shen Clan!

This person was actually from the Hundred Lineages ‘Shen Clan!

Things were not going well. Among the three great fourth-ranked families in the Eastern Ridge Region, the Hundred Lineages ‘Shen family was the strongest.

But why did the Shen family of the Hundred Lineages want to take the Chen family’s name?

With doubts, the Li family ancestor asked, “So it’s the genius of the Shen family. This old man greets you. Shen Tianjiao, may I know why you have come to my Li family?”

“It’s like this. The Chen Clan Head has the blood of my Shen Clan in his body, so he can be considered a member of my Shen Clan.”

“Now, a branch of my Shen family has been forcefully taken in by your Li family and extorted more than a million spirit stones from the Chen family. Li Zunzhe, isn't this a little too much?”

“Is there such a thing as a feeling?” The Li family's Dao Origin Patriarch frowned and looked at Patriarch Li. “Patriarch, what's wrong with you? Didn't you investigate properly when you recruited the vassal families?”

“Yes, yes, yes. I was careless. The main reason is that I saw the Chen family developing rapidly and the Chen Yang family head was like a blazing sun. I suddenly developed a love for talent and took him in as a vassal.”

“I forgot to investigate properly. This matter is my fault. I am willing to accept the punishment of the Shen family.”

Hearing the patriarch's words, the Li family's ancestor's eyes flashed with a trace of satisfaction.

As expected of the clan head I chose. This shows that this was a coincidence and not intentional. There was also the boasting of the Chen family and Chen Yang, killing two birds with one stone.

Shen Qiyu could not blame the Li Family Head, so he said, ““Since it's a misunderstanding, then it's fine to resolve it.”

“How about this, you cut off your relationship with the Chen family and return the spirit stones you extorted.”

“Yes, yes, yes,” the Li Family Head quickly replied. “The Li Family will immediately repay 10 million Spirit Stones to compensate the Chen Family.”

Seeing this, Shen Qiyu's expression softened. Then, he said unhurriedly, ““By the way, I hope that the Li family can keep the Chen family's matter a secret and not leak it to other forces. Can you do that?”

“No problem, of course not.” Master Li agreed readily.

“Words are useless. Swear an oath to the heavens and the earth.” Shen Qiyu said calmly.

“You!” Master Li’s words paused. How could this Heaven and Earth Oath be made so easily?

“Hmm? Did the Li Family Head have some difficulties? If there is, you can tell me. I’ll get my family’s ancestor to help solve it.” Shen Qiyu smiled.

Hearing this, the Li family head took a deep breath and circulated the spiritual energy in his body.” 1, Li Daoyuan, swear an oath to the heavens and earth that I will never leak the matter of the Chen family. If I violate this oath, I will be punished by the heavens and the earth!”

The moment the Li family head swore, the Heavenly Dao immediately reacted.

Seeing this, Shen Qiyu nodded in satisfaction.” Master Li, this oath of heaven and earth will not do any harm to your Li family.”

“After all, if the relationship between the Chen family and my Shen family is leaked in the future, my Shen family will not look for your Li family.”

“If you didn’t make the Heaven and Earth Oath, I’m afraid the first person you’ll look for will be your Li family. Not only will it cause trouble, but the ancestor will also destroy your Li family in a fit of anger.”

Hearing Shen Qiyu’s words, the Li Family Head nodded.

Shen Qiyu continued,” Since the Li Clan is willing to swear the Heaven and Earth Oath and is also willing to compensate the Chen Clan, then let’s drop this matter.””

“Oh right, you also said that the Chen family is your vassal, so we should hide as much as we can.”

“No problem.” Master Li didn’t want to refuse anything now. He had to send this God of Plagues away quickly.

Seeing this, Shen Qiyu nodded." Since that's the case, we'll be leaving. As for the spirit stones as compensation, send them to the Chen family as soon as possible.""

Then, Shen Qiyu brought Chen Yang and swaggered out of the Li family.

After Shen Qiyu completely disappeared, the Li Family Patriarch said with a gloomy expression,""Follow me to the meeting hall. Also, tell the clansmen that no one is allowed to leak what happened today. Otherwise, they will be expelled from the clan."

"Yes, sir!"

In the Li family's meeting hall, the Li family's ancestor looked coldly at the trembling elders in front of him and said indifferently,"Tell me about the Chen family."

Immediately, the Li family head told the ancestor everything about the Chen family.

After hearing the words of the Li family's head, the Li family's ancestor slammed the table and said angrily,"Foolish! Do you think that this puppet can be born for no reason?"

"Or do you think that there are ruins of such puppets in this desolate place?" "There's obviously a force behind this. Can't you guys think of it? Or are you guys used to being domineering and forgetting that there's always someone better than you?"

Hearing the patriarch's reprimand, the elders lowered their heads. They were only attracted by the benefits of this puppet and had forgotten that there must be many secrets hidden inside.

However, Elder Li Kerning asked unwillingly,"Ancestor, is that person really from the Shen family?"

"Could it be that he was lucky enough to obtain the Dao Origin phantom phantom and came over to pretend?"

“I won’t.”

The Li Family Patriarch shook his head.” I sensed a bloodline from that person. This is indeed the aura of the Hundred Lineages ‘Shen Family.”

“Of course, the most important thing is that the Dao Origin phantom is clearly condensed by a peak Dao Origin expert.”

“The only peak Dao Origin expert in the Eastern Ridge Region who has comprehended the Dao of Fire is the Shen family’s Venerable Lord Huo.”

Hearing the ancestor’s words, the last trace of hope in Li Kerning’s heart was completely extinguished.

He did not expect that such a huge figure would stand behind this small Chen family.

“Patriarch, how should we deal with the Chen family next?” Patriarch Li asked.”

“What else can we do? With the Shen family backing us, the Chen family can do whatever they want in the Endless Mountains.”

“According to what the Shen family said, on the surface, the Chen family is still a vassal of our Li family. In fact, we have to be careful with the Chen family.”

As he said this, the Li family ancestor sighed faintly.” My Li family is no longer the ruler of the Endless Mountain Range.”

When the elders heard this, their expressions turned ugly.

Their Li family had been banished to such a remote place, but they could not rule this place. Where was the logic in this?

Li Kehua reminded him, "Ancestor, I have a question. Why does the Shen family value Chen Yang so much?"

"Needless to say, he must have outstanding talent." The Li family ancestor said without hesitation.

But as soon as he finished speaking, the Li family ancestor suddenly felt that something was wrong. "If Chen Yang's talent is outstanding, then why didn't the Shen family recruit him?"

"Maybe Yang Chen is unwilling?" Patriarch Li tried.

"He's not willing. Is this something that he can do just because he's not willing? Can he still reject the Shen family's decision?"

"Wait, if he is..."

Chapter 324: Endless Mountain Range Development Plan

The Li family ancestor seemed to have thought of something and his words suddenly stopped.

The Li family elders were listening attentively to the ancestor's analysis. When they saw the ancestor suddenly stop, all of them had puzzled expressions.

On the other hand, the Li family head seemed to have thought of something and looked at his ancestor in shock. "Ancestor, could it be..."

"That's right, that's the only explanation." The ancestor nodded with a bitter smile.

The elders were even more confused when they heard the two riddlers' words.

The Li family's first elder could not help but ask, "Ancestor, Patriarch, what is the explanation?"

"First Elder, let me ask you. What is the most famous bloodline of the Hundred Lineages 'Shen family?'"

"That is naturally the top grade bloodline of the ten great spirit meridians that the Shen family calls the ten meridians." First Elder said without hesitation.

As soon as he finished speaking, the First Elder also reacted and said with a shocked expression, "Patriarch, could it be that Chen Yang has ten meridians in his body?"

"Most likely."

The old ancestor sighed faintly and continued, "Only the 10 lineages have the qualifications to bargain with the Shen family and let them stay in the Chen family."

Hearing this, the Great Elder of the Li Family revealed a smile that was uglier than crying. "This Chen Yang is actually from the 10 lineages. Doesn't that mean that as long as he is given time, it will only be a matter of time before the Chen Family conquers the Endless Mountain Range?"

"Sigh."

The ancestor did not reply. He only sighed again.

After sighing, the Li Family Patriarch continued, "Whether Chen Yang is from the ten lineages or not, as long as we have the support of the Shen family, it is only a matter of time before we unify the Endless Mountain Range."

"We have to make plans early and leave a chance for our family to survive during this change."

Hearing the ancestor's words, the Li family head made a decision.

The Li Family Head looked at Li Kehua." Elder Kehua, I have a mission for you.

You will go and help our Li Family and Chen Family form a good relationship."

"We must dispel the bad impression of our family in Chen Yang's heart. Of course, it would be better if we can form an in-law with the Chen family."

"As for your daughter and Zhou Tianli's marriage, our Li family will hold a grand ceremony and let your daughter marry Zhou Tianli in a grand manner.

n

"In addition, the family will compensate for your daughter's imprisonment and push your daughter to the stage as soon as possible."

"At the same time, the family will also give your daughter a large amount of resources every year until she breaks through to the late stage of the stage."

These words completely confused Li Ke.

However, he felt ecstatic after making a profit. He immediately said,""Patriarch, don't worry. I'll definitely complete the mission."

The elders at the side looked at Li Kehua with envy and jealousy.

They knew that the Li family had completely prospered. In order for the Li family to continue living in the Endless Mountains, the family had to maintain a good relationship with the Chen family.

As the only elder of the Li family who had a relationship with Yang Chen, Li Kehua was definitely valued.

In addition to the compensation the family gave to Li Kezhao's daughter, Li Kezhao's bloodline would soon become the direct bloodline second only to the family head's bloodline.

Humph! He was just lucky to have a good daughter who married Yang Chen's master.

What was the big deal?

Wait a minute!

Yang Chen didn't seem to be married. If that was the case...

All of a sudden, the elders had a plan in their hearts.

If a woman from his bloodline was married to Chen Yang, wouldn't that mean that he was also related to Chen Yang?

Moreover, their relationship was even closer than Li Ke's.

Now that the rise of the Chen family had become an inevitable trend, if the marriage could be successful, it might not be impossible for him to obtain benefits from it.

At the thought of this, the elders smiled at each other. In the end, they could see the meaning in each other's eyes.

Immediately, all the elders cursed in their hearts. Humph! A bunch of old foxes.

Great Qian, Jiang State's Chen family.

After returning from the Li family, Shen Qiyu planned to leave the Chen family.

However, Chen Yang insisted on letting Shen Qiyu rest and play in Chen City for a few days before leaving.

Seeing that Chen Yang was so insistent, Shen Qiyu could only accept Chen

Yang's good intentions and stroll around Chen City for a few days.

A few days later, Shen Qiyu left Chen City in satisfaction after Chen Yang sent him off.

After leaving Chen City, Shen Qiyu quickly rushed back to his family. This time, his harvest was not small. Not only did he know the whereabouts of the Li Family, but he also found the Blood Demon Stone.

If he told the clan about this, the clan would definitely reward him with a lot of resources.

After Shen Qiyu left, Chen Yang gathered the elders in the meeting hall.

Ever since the Chen family's territory had become larger and larger, each elder had to be responsible for more and more things. It was not so easy to gather these elders now.

It wasn't that Yang Chen hadn't thought of expanding his position as an elder, but people of his generation were all freer than the other, and they were unwilling to become an elder.

They had accompanied Yang Chen through tough times, so Yang Chen couldn't force them, so he had to take a step back.

They were to become elders of the family after they turned 100 years old.

As for this period of time, he would let the elders hold up.

Even Yang Chen's father had been invited out of the library by Yang Chen to be an elder of the family to share the burden of the other elders.

In the past, Yang Chen's father was willing to hide in the library for the sake of Yang Chen's authority.

Yang Chen's prestige was at its peak, not to mention him, even the Patriarch couldn't compare to him.

In addition to the fact that there were a lot of things to do in the family, Yang Chen's father was willing to come out of the mountain to be an elder.

Back to the main topic.

After all the elders arrived at the meeting hall, Yang Chen took the lead and said, "Everyone, I have gathered all the elders back to the clan today because there is a major matter that concerns the clan that needs to be discussed with the elders."

As soon as Chen Yang finished speaking, First Elder Chen Xuan took the lead and asked, "Patriarch, is there anything important? Hadn't the Li family's matter been resolved?"

"First Elder, don't be anxious. Although what I want to say is not important at the moment, it concerns the future development of my Chen Family." Yang Chen smiled.

Hearing this, Chen Xuan seemed to have thought of something and quickly asked, "Patriarch, is it about the trade route we talked about last time?"

"That's right."

Yang Chen nodded and explained to the elders, "I won't beat around the bush anymore. I've already discussed with the Great Elder and planned to open a trade route."

"This trade route runs through the entire Endless Mountain Range, connecting our Endless Mountain Range with the outside world."

“As long as we control this trade route, our Chen family will no longer be short of spirit stones in the future. At that time, we can buy a lot of aptitude pills and make every member of our Chen family a monster of the world.”

Hearing Yang Chen’s words, the elders looked forward to it.

If it was as Yang Chen said, what would happen to the Chen family in the future?

Any random person from the Chen family was at least a seventh-grade talent genius.

If that was the case, how could the Chen family not prosper?

“Patriarch, let’s move out.

mi

“That’s right, Patriarch. We have no objections. We’ll listen to your arrangements.”

Seeing that the elders wanted to open the trade route immediately, Yang Chen smiled and waved his hand.

Seeing this, the elders quickly quieted down and waited for Chen Yang to continue.

“Everyone, this trade route is a hundred-year, or even thousand-year, ten-thousand-year plan. We can’t rush it. We need to plan it slowly.”

“Moreover, just relying on the current manpower of my Chen family is not enough to pull up such a huge trade route.”

“Then, Patriarch, what do you plan to do?” Chen Xuan asked.

"I'm planning to integrate all the forces in Jiang Prefecture and open up this trade route with them."  
Yang Chen smiled."

"We do need manpower. Instead of letting other factions participate, it's better to let the Jiang Prefecture's factions participate. After all, the Jiang Prefecture is still under our control."

"Secondly, let the Jiang Prefecture's factions participate. After we give them spirit stones, if they want to buy cultivation resources, their first choice will be our Chen family."

"After going around in circles, the spirit stones will still return to our Chen family."

"Of course, this is on the premise that our Chen family's items can really move them."

"That's why we can't slack off in the development of the ruins, especially the spiritual herbs and spiritual weapons."

"In addition, if we can buy the pill formulas and forging blueprints from the outside world, it's best if we can buy what the outside world has and what it doesn't have."

"Right, regarding the training of Alchemists and Artifact Refiners, don't slack off. Even if there are pill recipes and Artifact Refining blueprints, there must be someone to refine them."

"Yes, sir!"

All the elders nodded and remembered Yang Chen's instructions.

"Do you think there are any details that need to be perfected?" Yang Chen asked. Let's discuss it together."

"Patriarch, I do. I think..."

“Patriarch, I think...”

Immediately, a heated discussion broke out in the Chen family’s meeting hall. The elders brought out all the problems they could think of for everyone to discuss and solve.

After half a day of discussion, everyone had already concluded a perfect cooperation.

Seeing this, Chen Yang smiled and looked at Chen Xuan.” Great Elder, send an invitation to the leaders of the forces in Jiang Prefecture. Tell them to come to my Chen family on the loth of next month. I want to invite them to a banquet.”

“Yes, sir!”

While the Chen Family was discussing the development of the Endless Mountains, Li Kehua had already gone to look for Zhou Tianli.

Chen Cheng, Zhou Tianli’s residence.

Seeing that Lord Tai Shan was looking for him, Zhou Tianli hurriedly went out to welcome him and brought Li Kehua into his manor.

After Li Kehua sat down, Zhou Tianli hurriedly served him a cup of tea and carefully asked,”Lord Tai Shan, is there anything you need from me?”

Li Kebo leisurely took a sip of tea, then said unhurriedly,””There is indeed a small matter that needs you to prepare.”

“Oh, what is it?” Zhou Tianli asked.

“The patriarch has decided to marry my daughter to you in a grand manner. As her husband, you naturally have to prepare in advance and give my daughter a grand wedding procession.”Li Ke said.

“Wha... What was that? The Li Family Head is willing to let Madam reunite with me?” Zhou Tianli’s eyes widened in disbelief..

Chapter 325: The Life Is Unpredictable, The Li Family Begging For Mercy

Looking at Zhou Tianli’s face that was filled with disbelief, Li Kezhao could not help but laugh, “Of course it’s true. I estimate that in less than a month, this news will spread to the entire Da Qian.”

Hearing this, Zhou Tianli stood up excitedly, pacing back and forth to hide the excitement in his heart. This is actually true!”

After pacing around, Zhou Tianli took a deep breath and looked at Li Kehua.” Lord Taishan, can you tell me why Master Li changed his mind?”

Hearing this, Li Kehua sighed deeply.” The world is unpredictable. You have to thank your disciple.”

“My disciple? Yang ‘er? What does this have to do with Yang Er?” Zhou Tianli was confused.

“Because my Li family has made a promise, I can’t tell you the details. You only need to know that Yang Chen has a terrifying force behind him.” Li Ke said.

“What a terrifying force!”

Zhou Tianli took a deep breath. A force that the Li family feared would at least be at the peak of Rank-5, or maybe even Rank-4.

He did not expect Yang ‘er to have such a terrifying force behind her.

No wonder Yang 'er's family had developed so quickly. No wonder Yang' er had so many trump cards.

No wonder Yang 'er was so confident in the face of any difficulties.

It turned out that there was already an answer to all of this.

He had never thought that one day, he would actually reunite with his wife because of his disciple.

At this moment, Zhou Tianli felt extremely fortunate. He was glad that his decades of treasuring talents had brought him such great help.

"So, the Li family wants to use me to ease their relationship with the Chen family?"

Zhou Tianli wasn't a fool. After pondering for a moment, he guessed the reason why the Li Family Head was willing to let his wife reunite with him.

"That's right."

Li Kehua nodded and said, "My Li family doesn't ask for much. As long as the Chen family guarantees that they won't destroy my Li family in the future, it's fine."

Hearing Li Kehua's words, Zhou Tianli recalled what Li Kehua had just said about the impermanence of the world.

A fifth-grade force that had dominated the Endless Mountain Range for more than a thousand years would actually worry about being destroyed by other forces in the Endless Mountain Range one day.

Of course, Zhou Tianli didn't completely believe Li Kehua's words. He only promised, "Lord Tai Shan, don't worry. If this is all the Li family wants, then leave it to me."

In other words, if there were any other excessive requests, he would not be able to do it.

Hearing this, Li Kehua smiled in satisfaction." That's good.

mi

It wasn't that Li Ke didn't understand the meaning behind Zhou Tianli's words.

The reason why he was still very satisfied was that the Li family had no intention of using Zhou Tianli to complete other things.

It was already very difficult for the Chen family to guarantee that they would not destroy the Li family.

If he wanted the Chen family to make other promises, then this relationship was not enough.

Of course, the Li family was not unprepared. They had been recruiting women in the family for the past few days. They did not want to marry Chen Yang, but at the very least, they wanted to marry into the Chen family.

With in-laws, some matters and benefits could be discussed.

At that time, no matter who suffered a loss, they would not go to the point of war.

Seeing that Li Kehua didn't ask him to do anything else, Zhou Tianli quickly said,""Lord Tai Shan, there's no time like the present. I'll go find Yang 'er now."

"This old master will go with you. There are some things that need to be said by the Li family to conform to etiquette."Li Ke said.

When Zhou Tianli saw this, he didn't refute and brought Li Kehua to the Chen Family.

Chen Clan, in the meeting hall.

After discussing the development plan of the Endless Mountains with the elders, Yang Chen lowered his head and began to deal with the family matters.

At this moment, Chen Xuan walked in." Family Head, Deshun Prince requests an audience.""

"Master is here." Yang Chen put down what he was doing and said,""Just ask Master to come to the meeting hall. Why do you still want to see him?"

"It's like this. Elder Li Ke also came over."Chen Xuan said.

Hearing this, Chen Yang thought for a moment and said,"Bring my master and

Elder Li Ke to the reception hall. I'll be there immediately."

"Yes, sir!"

In the reception hall, Li Kehua was a little nervous. Who knew if Chen Yang would value his relationship with Zhou Tianli?

After all, this was related to the territory of the entire Endless Mountains. If they could destroy the Li family, the benefits that would be brought to the Chen family would be astronomical.

"I didn't know Elder Li Ke had come and didn't welcome you."

Not long after, a hearty laugh came from outside the reception hall.

Immediately after, Yang Chen's figure entered the guest hall from outside.

Seeing Chen Yang come over, Li Kehua quickly stood up to welcome him." Greetings, Master Chen."

"Aiyo, Elder Ke Lu is killing me." Yang Chen smiled and helped Li Diao to the chair, then strode to the main seat.

After sitting down, Yang Chen picked up his teacup and asked with a smile, "May I know why Elder Ke Mu is here?"

"I'm here to represent the Li family and apologize to the Chen family.

mi

"My Li family didn't come at the right time and offended the Chen family. This is my Li family's fault, and my Li family is willing to bear it."

"There are ten million spirit stones in this bag of holding."

As he spoke, Li Ke took out a storage bag from his pocket and respectfully handed it to Yang Chen.

Seeing this, Yang Chen took the storage bag and placed it on the tea table. He then smiled and said, "What are you talking about, Elder Ke Lu? What the Li family did was for the benefit of the family."

Hearing Yang Chen's words, Li Kehua frowned.

Although Yang Chen's words sounded nice, he didn't reveal any intention of forgiving the Li family.

Or rather, he didn't have the intention of not destroying the Li family in the future.

Immediately, Li Mo turned to Zhou Tianli.

Zhou Tianli stood up and said, "Yang 'er, I have good news for you. Your master's wife is going to be reunited with me."

H

It's true!

ii

Yang Chen stood up excitedly and asked, "The Li family is willing to let him go?"

"That's right." Zhou Tianli nodded his head, "This is all thanks to you, Yang 'er.

The Li family only allowed Madam to reunite with me because of you."

"Yang Er, can you give me face and make a promise that when you become rich in the future, you won't destroy the Li family?"

Hearing this, Yang Chen didn't even think and said directly, "Since Master has said it, I will naturally follow. As long as the Li family does not go against my Chen family in the future, my Chen family will naturally not touch the Li family."

Hearing Yang Chen's words, Li Kehua looked at Zhou Tianli in shock.

He had already expected that Chen Yang would listen to Zhou Tianli. However, he had not expected that Chen Yang would agree to Zhou Tianli's request without even thinking.

It seemed that this master had a very high position in Yang Chen's heart.

Immediately, Li Diao cupped his hands and bowed. "Thank you, Master Chen!

HU

“There’s no need to be so polite, Elder Ke Lu.” Chen Yang helped Li Kehua up,” In the future, my Chen Family still has many things to do that will disturb the Li Family. When the time comes, I would like to ask Elder Kehua to put in a good word for me.””

H

It’s not a big deal. The Li family will definitely do as instructed.”

“It’s not a short time. This old man won’t disturb the Chen clan leader. This old man will take his leave.”

“Oh right, Justice, there’s no need for you to send me off. Prepare for the wedding properly and don’t let my daughter lose face.”

Then, he turned around and left.

As for Yang Chen and Tianli, they sent him to the entrance of the guest hall and watched him leave.

After Li Ke’s figure disappeared completely, Zhou Tianli sighed.” Disciple, I’ve let down your Chen Family.”

“Master, what are you saying? Even if you didn’t say it, I would have found a random reason to tell the Li family that my Chen family wouldn’t touch them.”Yang Chen smiled.

“Oh, why is that?” Zhou Tianli was confused.

“Master, please come in.”

Yang Chen and Zhou Tianli entered the guest hall together. After they sat down, Yang Chen explained, ""! think Master already knows the reason why the Li family has to admit defeat."

"I know." Zhou Tianli nodded his head, " It's because you have a terrifying power backing you."

"That's right."

"Although I have the Shen family behind me, that terrifying force. However, the Shen family is too far away from my Chen family."

"If my Chen family forces the Li family too much, they can completely use the entire family's strength to destroy my Chen family with lightning speed and then quickly escape."

"With the strength of my Chen family, it is not enough to fight against the Li family. We must pretend to be a snake and numb the Li family first."

"Since that's the case, why don't we give Master some face? This way, Master, you can also occupy a certain amount of weight in the Li family." Yang Chen smiled.

Hearing this, Zhou Tianli nodded his head, " I see. This way, I'll feel better. I won't drag your Chen Family down because of me."

"But my disciple, when your Chen family becomes stronger, how will you deal with the Li family?"

"Oh, I'm just curious. I don't intend to plead for the Li family."

"I know what Master means." Chen Yang smiled and said, "In the past, the Beast Tamer Sect also prevented my Chen family from dominating Jiang Prefecture. However, my Chen family did not destroy the Beast Tamer Sect.""

"As for whether our Chen family will destroy the Li family in the future, that will depend on the Li family's performance."

Zhou Tianli nodded.

He understood Yang Chen's meaning. Whether the Li family would be destroyed or not would depend on the Li family's own choice.

If they chose to submit, move, or give in, the Chen family would naturally not be willing to make a big fuss.

If he was stubborn...

"By the way, when you mentioned the Beast Tamer Sect, I remembered something. Your Chen family's cultivation technique can only be cultivated to the Purple Prefecture. How do you solve the problem of the cultivation technique after that?" Zhou Tianli asked.

Zhou Tianli didn't believe that a mere Purple Prefecture Realm cultivator could satisfy Chen Yang.

However, if he wanted to cultivate to the Zifu level or above, he had to solve the problem of the cultivation technique.

Hearing this, Yang Chen smiled. "I've discussed this with Wang Shuo. The follow-up to the Ten Thousand Beast Technique is in their sect. In order to find the technique, I've also made some preparations."

"Oh, what preparations?" Zhou Tianli asked.

"Endless Mountains Development Plan." Yang Chen smiled..

Chapter 326: Building a Merchant Band (1)

” Endless Mountains Development Plan?”

Zhou Tianli frowned, ” So, disciple, you’re not fooling those demon emperors, but you’re really planning to strengthen the Endless Mountain Range?”

“Of course.” Yang Chen smiled and said, ” This Endless Mountain Range has fed us. We naturally have to strengthen it. Of course, the premise is that they have to be obedient.””

Yang Chen didn’t say it explicitly, but Zhou Tianli knew who he was referring to.

They were nothing more than demon emperors living in the Endless Mountains. If they were obedient, Yang Chen would definitely bring them along to develop.

If he didn’t listen...

Perhaps the front gate of the Chen family was a little monotonous and needed some statues made of the corpses of demon emperors.

“So, while you are carrying out the Endless Mountain Development Plan, you are also gathering your own strength to prepare for the cultivation method?” Zhou Tianli asked.

“More or less.”

Chen Yang said, ” I don’t believe that the main sect of the Beast Tamer Sect would give me the cultivation technique so easily.””

“Whether we use force to convince them or use resources to exchange, we need to accumulate our strength.”

Zhou Tianli nodded. ” Then, what do you plan to do?”

“The first step is very simple. Build a trade route. Earning resources is one thing, but more importantly, learn about the situation outside.”

Speaking of this, Yang Chen’s eyes were cast in the direction of the Endless Mountain Range.” Although the Endless Mountain Range has blocked the external dangers for us, it has also blocked our vision.”

“I understand what you mean.”

Zhou Tianli understood and asked,““Is there anything I can help you with?”

Hearing Zhou Tianli’s words, Yang Chen didn’t stand on ceremony,“ 1 need an expert to lead the caravan out of the Endless Mountain Range.”

Hearing this, Zhou Tianli pondered for a moment before saying,““You mean, you want me to lead the team?”

“No, it doesn’t necessarily have to be you, Master, leading the team. As long as there’s an expert at the Zifu level leading the team, it’ll be fine.”Yang Chen said.

“Understood.” Zhou Tianli nodded.” Since that’s the case, I’ll get your senior brother to lead the team. He already broke through to the Zifu Disciple level three years ago, and his wife also broke through to the Zifu Disciple level five years ago.”

“With two Zifu Disciples leading the troops, our safety will be guaranteed.”

“Senior Brother?”

Yang Chen knew that this senior brother was Zhou Tianli’s son, which was also Zhou Ying Zhao’s father.

“That’s right. Your senior brother, who is also my son, Zhou Mou, is cautious by nature. 1 can be more at ease if I use him to lead the team.”Zhou Tianli said.

“Zhou Mou? Senior Brother doesn’t have a travel license?” Yang Chen was stunned for a moment.

“No. After all, his mother is from the Li family. The Zhou family can’t let him take the title. Even Ying Zhao’s title was added because I strongly requested it.” Zhou Tianli explained.

Hearing this, Yang Chen understood and said worriedly, “But would Master’s wife be willing to let Senior Brother lead the team?”

“Don’t worry, Madam won’t refuse. It’s because Mou ‘er has a strong personality and is unwilling to rely on his mother and me.”

“Now that there’s such an opportunity for him to rely on his own hands to earn a breakthrough and ascend to the stage, and even to have rich resources for his parents, Mou ‘er won’t reject it.”

“My wife also respects the choice of her descendants, so she naturally won’t refuse.”

Hearing Zhou Tianli’s words, Yang Chen couldn’t say anything and could only promise, “Don’t worry, Master. I’ll arrange for a Demon Sovereign to accompany you.

With the Demon Sovereign guarding them, there was no problem with their safety.”

“Even if we are unlucky and break into the encampment of other demon emperors, they will not make things difficult for our caravan for the sake of the demon emperors who are accompanying us.”

With Yang Chen’s promise, Zhou Tianli’s last bit of worry disappeared. He smiled and said, “Disciple, don’t worry. I’ll go back and call your senior brother over.”

“En, there’s no need to rush. I’ll only start planning on the tenth of next month. It won’t be too late to ask Shixiong to come over then.” Yang Chen said.

“Alright, see you on the tenth of next month.”

After discussing the matter, the two of them left and went to do their own things.

Chen Yang was preparing for the trade route while Zhou Tianli was preparing for his wife.

Since the Li family was willing to let them go, they naturally had to show the Li family respect. Zhou Tianli estimated that even if he started setting up now, it would take a few years before he could complete it.

Proposing marriage, welcoming the bride, and building a special manor, each of these required a long time.

Regarding this, Zhou Tianli was no longer anxious.

After all, he had waited for so many years. It was not a big deal to wait for a few more years. He still had to let his wife marry into the family in a grand manner and give her enough face.

This could be considered Zhou Tianli's insignificant compensation.

While Zhou Tianli was busy with the wedding, Chen Xuan had already spread the news of the gathering at the Chen family on the 10th of next month to all the factions in Jiang Prefecture.

Almost immediately, the leaders of the forces who received the news immediately took action and rushed to Chen City as if they were risking their lives, afraid that they would delay the day and make Chen Yang unhappy.

As the leaders of the various forces hurried on, the days passed. In the blink of an eye, it was the 10th of next month that Chen Yang had set.

On this day, a group of faction leaders were brought to a certain hall in the Chen family by the Chen family elders.

In the hall, Yang Chen was sitting on the main seat, smiling at everyone.

“Greetings, Patriarch Chen!”

Almost instantly, all the leaders of the forces, including Wang Shuo, bowed to Chen Yang.

Yang Chen, on the other hand, graciously accepted their salutations and immediately smiled, “There’s no need to be so polite. Please take a seat and have a good taste of my Chen family’s food.”

Hearing this, the group of faction leaders came to their seats under the lead of the Chen family guards.

After that, no one dared to delay and sat down obediently.

After everyone sat down, Yang Chen smiled and asked, “Do you know the reason why I invited you here?”

As soon as he finished speaking, everyone replied in unison, “We don’t know.”

Seeing this, Yang Chen didn’t keep them in suspense anymore. He immediately smiled and said, “I called you here today because I have a business that will make you rich.”

“This...”

Yang Chen’s words had completely stunned them. The leaders of these forces began to discuss in low voices, analyzing the meaning behind Yang Chen’s words.

Yang Chen sat on the main seat and watched them discuss without stopping them.

Not long after, the discussion gradually died down. Wang Shuo stood up and asked, “Clan Leader Chen, what kind of business is it? What do you need us to do?”

Hearing this, Yang Chen smiled and nodded. He gestured for Wang Shuo to sit down and said, "I won't keep you in suspense. This business is built by us with money and effort."

"And the destination of the caravan is the world outside the Endless Mountain Range."

"What?!"

His words shocked everyone, including Wang Shuo. No one had expected Yang Chen to be so bold..

Chapter 327: Building a Caravan (2)

No one had expected Yang Chen to be so bold.

What kind of place was the Endless Mountains? It was not an exaggeration to say that it was a forbidden land in the human world.

Who knew how many demon emperors and demon kings there were inside? Not to mention crossing the Endless Mountain Range, even if they could go 10,000 miles deep, it would already be considered a blessing from the heavens.

Seeing everyone's shock and fear, Yang Chen smiled and said, "Everyone, there is no need to be afraid. This matter is led by my Chen family, and the one who has contributed the most is naturally my Chen family."

"There's no need to be shocked, because I already had a plan for this."

"If we don't connect the trade routes and rely on the resources in the Endless Mountain Range, we will sooner or later run out of food."

“If we don’t work hard now, are we going to leave this problem for future generations?”

“If you are unlucky and die early, it’s fine. If you are lucky and really break through to the stage, you won’t even have the resources to cultivate.”

“I’m not trying to scare you. If you don’t believe me, you can ask Sect Leader Wang Shuo. Although his family hasn’t made it to the stage, he doesn’t lack cultivation resources.”

Hearing this, all the leaders looked at Wang Shuo. Seeing this, Wang Shuo sighed.” Sigh, actually, since a hundred years ago, cultivation resources have been very scarce.”

“More than a hundred years ago, our Beast Tamer Sect could still maintain the glory of having three or four Zifu Disciples. Now, it’s impossible.”

“It’s not that I don’t have enough talent. It’s just that I don’t have the resources to nurture another Zifu Disciple.”

“And even if my Beast Tamer Sect has fallen, the status of the sect has not decreased. What does this mean? It means that the sect in Da Qian has fallen as a whole.”

“By the same logic, the Great Gan’s martial arts declined, but its position in the other dynasties did not change. This also means that the other dynasties have also declined.”

Hearing Wang Shuo’s words, the faces of all the leaders turned ugly.

Their forces were weak and could not directly sense the shortage of resources. However, sometimes, they felt that it was not easy to earn spirit stones.

Seeing the expressions on everyone’s faces, Yang Chen struck while the iron was hot and said,“Have you never thought of going to a higher place to see the scenery?”

“ If everyone really sees the scenery at a higher place, but they are stuck in a dilemma for the rest of their lives because of the limited training resources, won’t they be even more helpless?”

This time, the leaders of the various forces were no longer silent. Instead, they began an intense discussion.

After a while, Master Meng asked,““Lord Chen, we are all willing to follow the footsteps of the Chen Clan.”

“However, the Endless Mountains are simply too dangerous. We are all afraid that this is just a meaningless attempt.”

Yang Chen understood that these people were still afraid.

Even if the Chen family would bear the greatest losses, they were still afraid that their investment would not return.

Every leader of a force had many things to consider and would not act rashly.

This was because their rash decision could very likely cause the entire faction to be buried with them.

It was also for this reason that they did not dare to take the risk.

Seeing this, Yang Chen smiled and said,“ I understand what you mean. Please rest assured, I will not joke with the lives of my Chen family members.”“

“Admittedly, there will definitely be damage in opening up the trade route, but I can guarantee that the damage will definitely be within your tolerance.”

“Words are useless. Before the caravan sets off, I will show everyone the confidence of my promise.”

“Furthermore, I will give everyone a freedom to leave the caravan at any time. I will not stop you, nor will I blame you.”

“However, there is something I must say first. Once you quit, you cannot join the caravan again.”

“Now, everyone, please make your declaration.”

Hearing this, the group of leaders did not express their opinions. Instead, they continued to discuss the possibility of this matter with the other leaders.

Yang Chen didn't rush them. He just sat in the main seat and watched them discuss with a smile.

Not long after, he asked again, “I believe in Chen Clan Leader and I am willing to join the caravan. However, Chen Clan Leader, how should we split the benefits?”

Yang Chen smiled and said, “The Chen family will take 70% of the profits from this caravan operation. The remaining 30% will be divided according to how much you have contributed.”

“I'll let the Great Elder tell everyone the specific rules. Of course, if my Chen family wants 70% of the profits, we will naturally put in 70% of our effort.”

“At any time, it will be placed in front of everyone to let everyone judge whether the Chen family's distribution method is reasonable or not.”

“We believe in the Chen family's reputation.” Wang Shuo nodded and said, “However, isn't 30% too little for us to share?”

Hearing this, the other clan leaders and sect leaders nodded.

They did not doubt that the Chen family would have to contribute 70% of their strength.

Whether it was the Chen family's current strength or the reputation that the Chen family had accumulated over the years, they believed that Chen Yang did not lie to them.

But still, 30% was too little.

There were so many forces here, could they be divided?

Hearing Wang Shuo's question, Yang Chen was delighted. Since they had already started to talk about benefits, then this matter would be settled soon.

"Sect Master Wang, everyone, you still don't understand how much profit this trade route can bring us." Yang Chen quickly said.

"Let's not talk about the distant places. Let's talk about the Endless Mountain Range. The isolation of the Endless Mountain Range caused the martial arts heritage here to be almost cut off."

"There are many martial arts, cultivation techniques, pills, spiritual weapons,

and array formations. I've never even heard of them, let alone heard of them..'"

Chapter 328: Building a Caravan (2)

"If we bring those things back, everyone can think about how much we will gain."

"There's one more thing. I don't know if everyone has thought about it, but if there's something outside that we don't have, then what we have will definitely be outside?"

"Although this long period of isolation has blocked the inheritance from the outside world, it has also forced us to develop resources such as medicinal pills and spirit weapons."

"When the time comes, we can sell the things that are unique to us here and make a huge profit."

Hearing Yang Chen's description, everyone's eyes were filled with yearning.

Not to mention earning spirit stones from the outside world, just selling resources from the outside world into the city could earn a lot of money.

Even if they split the remaining 30% of the profits, they would still be able to obtain a lot of cultivation resources such as spirit stones.

With such a huge amount of resources, even if they had to bear some risks, it was enough for them to gamble.

Immediately, one after another, the leaders of the forces expressed their willingness to join the caravan.

At a glance, no one objected.

After all, the gap between the Chen family and them was too great. If an ordinary family took the lead, they might consider the gains and losses.

However, with the Chen family taking the lead, they would not care about these things and were willing to work together with the Chen family.

Seeing this, Yang Chen smiled and said, "Alright, thank you for your trust." I, Yang Chen, guarantee that it won't be long before all the major forces in Jiang Prefecture will become at least an eighth-rank force."

"At that time, our province will be comparable to an empire, or even stronger than an empire!"

Hearing Yang Chen's words, everyone's eyes were filled with yearning.

He would, he definitely would!

After everyone returned to reality from their fantasy, Yang Chen began to talk about the specific details of the caravan.

"Let me remind everyone first. Joining the caravan doesn't mean that you will immediately earn spirit stones."

"I can tell everyone very clearly that not only will we not earn a single spirit stone from this first operation, but we might even lose some."

"Because our first operation is mainly to find a safe trade route to the outside world. Along the way, we can pick some resources to make up for everyone's losses."

"But there won't be too many resources. According to the peddler, the first deal will definitely be a loss."

Yang Chen explained the situation of the first time in advance to avoid any future conflicts.

Hearing Yang Chen's words, everyone expressed their understanding.

"We all understand what the Chen Family Head is saying. This is a business. We have to lose money and earn money from the beginning."

"That's right, that's right. Everyone here knows that this plan is a thousand-year or even ten-thousand-year undertaking. Naturally, we can't be calculative about temporary gains and losses."

"Chen Clan Leader, do as you wish. We all believe in you."

"That's right. We all believe in the Chen family and are willing to follow them."

Seeing this, Chen Yang continued, "Of course, everyone doesn't have to worry too much. The Endless Mountains are rich in resources. Maybe we can still harvest some.""

“In short, this is an uncertain matter, but it is also a plan that requires patience. Everyone, please wait patiently and don’t be anxious.”

“After this, we should talk about the composition of the caravan. This is also related to the distribution of benefits for everyone.”

Upon hearing this, everyone became alert.

Compared to the beautiful wish just now, the distribution of benefits was what they valued the most.

Seeing this, Yang Chen didn’t keep her in suspense and quickly said, “The simplest way to distribute the profits is to pay the capital with the spirit stones each family pays.”

“That’s why we’ll do the same. We’ll first determine the spirit stones we need and then split them among the various families.”

“According to the number of spirit stones offered, we will distribute everyone’s share.”

“Of course, this trip is special. We can’t distribute the benefits according to the number of spirit stones.”

“After all, we are separated by an endless mountain range.”

“For such a dangerous operation, there must be experts guarding it. Therefore, I suggest that we mark a certain number of spirit stones on the opening of meridians, the condensation of the core, and even the stage.”

“At that time, everyone can send out experts to offset a portion of the spirit stones needed.”

“Of course, there are also accompanying personnel, maps, and some necessary facilities. As for the specific division, my Chen family’s elders will discuss it with everyone.”

After listening to Yang Chen’s distribution plan, everyone fell silent.

In his heart, this method of dividing the spirit stones was very suitable. It also avoided the situation of the family being short of spirit stones.

However, everyone felt that something was wrong. If everyone took the spirit stones, who would be in charge of the caravan?

If everyone took out their experts, who would pay for the capital to buy the goods?

Everyone looked at Wang Shuo at the same time. They believed that Wang Shuo had the same thoughts.

When Wang Shuo saw this, he stood up and looked at Chen Yang. “Chen Clan Leader, I have a question.”

“Sect Master Wang, please speak.” Yang Chen smiled.

“It’s like this. If we all take spirit stones or send experts, what should we do?” Wang Shuo said concisely.

“So this is what everyone is worried about.”

Yang Chen smiled and shook his head. “Did everyone forget that our Chen Family will never take 70% of the profits for nothing?”

“With my Chen family backing you up, the situation you’re worried about won’t happen.”

“If everyone takes out more spirit stones, my Chen family will send more people. If everyone takes out less spirit stones, my Chen family will take more people.”

“As long as the total value of the spirit stones doesn’t change, it’ll be fine.”

“I hope that everyone will take the experts. That way, my Chen family only needs to take the spirit stones.”

Everyone understood that Chen Yang’s last sentence was a joke, but it also indirectly expressed that the Chen family was confident that they could guarantee the emergence of any special circumstances.

To put it bluntly, the experts and spirit stones they sent were really nothing to the Chen family.

“With the Chen Clan Leader’s guarantee, we have nothing to worry about.” Wang Shuo cupped his hands and said, “Chen Clan Leader, when are we going to take action?”

“There’s no time like the present. Right now, let’s start discussing everything about the caravan, including the spirit stones corresponding to each expert, as well as how many experts will be needed to guard the caravan.”

“Although we have the Chen family backing us up, we still have to plan in advance. Don’t let there be too many or too few experts.”

“As for the first caravan operation, since the purpose was to scout the way, there was no need to distinguish between these and those. The resources directly belonged to whoever obtained them.”

“However, there is one thing that we cannot fight for internally.”

“Alright, you guys can discuss.”

Then, Yang Chen stood up and left.

Chen Yang didn’t need to do this, the Chen Family elders would handle it.

Yang Chen continued to head to the meeting hall. While waiting for the results of the discussion, he could also deal with the Chen family’s matters.

This discussion lasted for half a month.

After all, this was a matter of great importance. No one could relax.

During this half a month, Zhou Tianli brought Zhou Mou and his wife to meet Chen Yang.

From Zhou Mou’s attitude, it could be seen that he was very willing to do this.

Seeing this, Yang Chen didn’t feel burdened anymore. The escort mission of the caravan was handed over to Zhou Mou.

Half a month later, Chen Xuan found Yang Chen with the results of the discussion.

“What’s the specific situation?” Yang Chen asked.”

“After everyone’s discussion, due to the dangers of the Endless Mountain Range, everyone decided that there can’t be any ordinary people in the caravan.”

“For Qi Refining martial artists, everyone’s fixed price is one spirit stone, regardless of realm. However, every force had to take out a late-stage Qi Refinement martial artist.”

“As for opening meridians, it’s 100 in the early stage, 500 in the middle stage, and 1,000 in the late stage.”

“As for Core Condensation, it’s 5,000 for the early stage, 20,000 for the middle stage, and 50,000 for the late stage. For the Zifu Disciple, it was 100,000 for the early stage, 500,000 for the middle stage, and 1 million for the late stage.” “As for the stage, it can be worth 10 million. However, everyone believes that in the early stages, when the scale is small, there is no need to use the stage to guard it.”

“As for the other prices, they are all in this booklet.” Chen Xuan said as he handed Chen Yang a yellow book..

Chapter 329: Zhou Tianli’s Wedding Is Near

Yang Chen took the booklet and glanced at it. He couldn’t help but praise it. It was indeed the result of half a month’s discussion. Almost everything was marked.

For example, the coachman who knew the way, the carriage, and the demon beast that pulled the carriage.

There were also storage bags for all kinds of storage spaces. Even Chef had marked them with spirit stones of equal value.

It could be said that basically all the people or items related to the caravan were marked with a price.

At that time, everyone could take out their own things according to the specific situation.

After reading it, Yang Chen nodded and asked, “Have you confirmed the time for the first exploration?”

“It’s confirmed. It’s the seventh year of the Qiyuan.” Chen Xuan said.

“Alright, do it. In addition, my master is going to hold a wedding, so we have to prepare our gifts in advance. I’ll leave it to you to raise them.” Yang Chen ordered.

“Yes, sir!”

After confirming the situation of the caravan, the leaders of the various forces returned to their own forces in satisfaction and quietly waited for the arrival of the first day of the first month of the seventh year of Qiyuan.

As for the Chen family, they were not idle either.

While making the final preparations for the caravan, Yang Chen also went to the Endless Mountains to contact the Demon Emperor.

There would definitely be danger in exploring the path, and if there were demon emperors guarding it, it would be much safer.

The Demon Emperors agreed to Yang Chen's request without hesitation.

In the end, it was decided that the strongest Demon Emperor, the Blue Phoenix, would be in charge of guarding the caravan.

This operation was not only to explore a safe trade route, but also to explore the territory and strength of the demon emperors in the Endless Mountains to prepare for the expansion of the alliance.

Just like that, while everyone was silently preparing, the first day of the first month of the seventh year of Qiyuan quietly arrived.

Early in the morning, all the major forces of the Jiang Prefecture arrived at the Endless Mountain Range corresponding to Chen City.

Since this operation did not require a number of people, each force only sent one martial artist out of caution.

Although there was only one, these martial artists were almost all the second strongest in their respective forces.

In short, all the major forces had implemented a principle: it was important to have quality, not quantity.

As for the Chen family, not only did they send Zhou Mou and his wife out, but they also sent Chen Dao along.

Chen Dao had been cultivating for so long, and his cultivation had long reached the sixth level of Qi Refinement. He could completely take charge.

This strength was already not considered weak among this group of people.

After all, the other factions in Jiang Prefecture were not too powerful. Other than the Beast Tamer Sect, those who could send out a fifth level Qi Refinement realm faction were already considered powerful.

The reason Yang Chen wanted to go with them was mainly because he needed them to assist him and send out some low-level martial artists.

As for the experts who would protect the caravan, Yang Chen did not intend to rely on these forces.

When these people gathered outside the Endless Mountain Range under the leadership of the leader of this force, it caused quite a commotion.

Those who didn't know were all thinking about what they were going to do with so many people gathered together.

Not long after, Chen Yang brought Zhou Mou, his wife, and Chen Dao to the Endless Mountains.

When everyone saw Chen Yang, they quickly bowed in unison." Greetings, Master Chen."

"Everyone, please rise!"

Chen Yang used his spiritual energy to drag the crowd up. Then, he smiled and said, "Everyone knows the purpose of this trip. Let's stop chatting and enter the Endless Mountain Range with me."

Immediately, under Yang Chen's lead, everyone set off into the Endless Mountains.

Although they were wondering where Yang Chen was taking them.

However, no one asked. Relying on their trust in Yang Chen, everyone followed closely behind him.

After entering the Endless Mountain Range, Yang Chen stopped.

When everyone saw this, they stopped in their tracks and all their gazes gathered on Yang Chen.

Sweeping a glance at everyone, Yang Chen smiled faintly and said, "Everyone, I have promised everyone's safety. Now, I have come to fulfill my promise."

"Demon Emperor Blue Phoenix, show yourself."

As soon as Yang Chen finished speaking, everyone's gaze shifted to the depths of the Endless Mountains.

This was because everyone could feel a terrifying aura emanating from the depths of the Endless Mountain Range.

As time passed, this terrifying aura became more and more intense.

Not long after, everyone saw the source of such a terrifying aura.

It was a Green Luan that was more than 100 meters long. From the aura emitted from its body, it was not difficult for everyone to sense that it was a Demon Emperor!

Immediately, someone ran away.

Most of them were scared silly by this terrifying aura and stood rooted to the ground, not knowing what to do.

Seeing this, Yang Chen quickly shouted, "Everyone, everyone!" Everyone, don't be nervous. This Demon Emperor is a friend of my Chen family!"

As Yang Chen's voice spread, the fear in everyone's hearts lessened.

Those martial artists who were preparing to escape also stopped in their tracks and slowly moved into the main group.

Seeing that everyone had calmed down, Yang Chen smiled and said, "Chen Qing, greet everyone."

"Caw!"

"Friends of the human race, I am Yang Chen's friend. Today, I am here to protect you as you explore the Endless Mountains!" the Spirit Eared Fox translated.

Hearing this, everyone was stunned on the spot.

Since when could demon beasts be friends with humans?

Especially since this demonic beast was a terrifying existence at the level of a demon emperor.

Seeing that everyone was dumbfounded, Yang Chen smiled and said, "I know that everyone is very surprised and can't believe it.

However, everyone should know that if this Demon Emperor wasn't my friend, he could completely destroy us now."

Hearing Yang Chen's words, everyone finally reacted.

Yeah, what are we worried about? If the Demon Emperor isn't Yang Chen's friend, how could we still be here?

After thinking it through, everyone looked at him in admiration. As expected of the Chen Clan Leader, he could actually be friends with the Demon Emperor.

This was not all. This Chen Yang could actually make the Demon Emperor work for him.

Such ability was simply beyond everyone's imagination. It was even stronger than ordinary mighty figures on stage.

After all, those mighty figures could only force the demon emperors to not invade their territories.

As for commanding the Demon Emperor, there was no need to even think about it.

The other party not violating the agreement was already giving face to the mighty figure on stage.

On second thought, everyone became excited again.

With the Demon Sovereign escorting them, their safety would definitely be guaranteed.

After all, they were both demon emperors of the Endless Mountain Range. As long as they were not enemies, they would still give face.

Thinking of this, everyone remembered what Yang Chen had said. The Chen family would definitely prove that they would not take the 70% of the profits for nothing.

From the looks of it, not only did he not take it for nothing, but he also took too little.

They were just assistants, how could they take 30% of the profits?

After thinking about it, he could only come up with one sentence. The Chen family leader was righteous, the Chen family was righteous!

It is our fortune to be born in the Jiang Prefecture because there is such a benevolent and powerful existence in the Jiang Prefecture!

Yang Chen did not know what these people were thinking. Seeing that everyone had accepted the existence of the Blue Luan, he immediately smiled and said, "Since that's the case, let's not delay."

"Use the map in your hands to explore a trade route that carries the foundation of ten thousand years!"

"Yes, sir! We will obey!"

For a moment, their voices echoed throughout the endless mountain range.

After seeing off the pioneers, they returned to their respective forces as if nothing had happened.

At the same time, a piece of news was circulating among the major factions.

The Li family wanted to marry their first daughter, Li Qingya, to Zhou Tianli!

As soon as this matter came out, the major factions spread the news to each other, probing and inquiring about the reason for this matter.

Everyone was puzzled. Why would the Li family, which had never married a legitimate daughter, marry their legitimate daughter to Zhou Tianli?

Could it be that something special had happened in Da Qian?

Unfortunately, no matter how hard they tried, they couldn't find any information that satisfied them.

On the other hand, the royal family of Da Qian immediately took action after learning of this news. They mobilized the treasures in their family to prepare for the marriage proposal.

In the end, under Zhou Tianli's lead, the royal family and the Li family decided on the wedding date.

On the 17th day of the 10th month of the 7th year of Qiyuan of Great Gan, the Li family officially married their daughter.

After receiving the news, the royal family of Da Qian immediately took action.

After asking for Zhou Tianli's opinion, they specially built a manor in Jiang Prefecture's Yi City.

Although Zhou Tianli spent most of his time in Chen City, Chen City was still the Chen Family's territory. Naturally, the bridal manor could not be set up in Chen City.

Moreover, Chen City was a newly built city. There were not many manors in the city. As for rebuilding it from scratch, there was not enough time.

He could only use the Deshun Commandery Prince's Mansion in Yi City as the foundation to expand a manor.

While the royal family of Da Qian was busy building the manor, the Li family was not idle either. They were also preparing dowry, experts, and servants for Li Qingya.

With such a grand occasion, those who didn't know better would think that the most beloved daughter of the Li family's patriarch had gotten married.

After knowing the reason, the Li Family could only sigh. This Zhou Tianli had taken in a good disciple. Even Zhou Tianli's wife had an extremely respected status in the Li Family.

Although both parties were making preparations, there was still some time before the wedding. For the guests, there was no need to be too anxious.

Just like the Chen family, after deciding what gift to give, they did not continue to worry about this matter and continued to develop the Chen family silently.

Chen Clan, in the meeting hall.

After the servant left, only Chen Yang and Chen Xuan were left in the meeting hall.

At this moment, the two rulers of the Chen family were gathered together, their eyes filled with joy as they stared at the map in front of them.

“Grand Elder, this Three-Headed Wolf Demon Emperor isn’t strong, and the resources in his territory are relatively few.

There’s no need to mention the number of Spiritual Crystals. If we can kill him, we probably won’t get much resources.”

“However, in the Three-Headed Wolf’s territory, there are most of the spiritual herbs that can increase the number of wolf beasts.

Because our Chen family used to raise storm wolves, most of the subdued beasts chosen by our clansmen are wolf demonic beasts.

These resources will be of great help to the improvement of our clan’s beast-controlling abilities.”

“As for the other Golden Lion Demon Emperor, he is very powerful and is a tough nut to crack.”

“Of course, what matches its strength is the large amount of resources and Spiritual Crystal veins in its territory. If we can kill it, we can probably get a lot of resources.”

“Which of the two Demon Emperors should I choose first?” Chen Yang smiled and looked at Chen Xuan..

Chapter 330: Zhou Tianli’s Wedding

After deciding on the business route, Chen Yang did not idle, but set his eyes on the other demon emperors.

Of course, it didn’t mean that they had to deal with him immediately.

Those demon emperors that were easier to deal with had almost been dealt with. If he wanted to deal with those demon emperors that were easier to deal with, he would have to run tens of thousands of miles along the Endless Mountain Range.

The distance was too far. Even if they managed to conquer this territory, they would not be able to digest it.

After all, Yang Chen's original intention was not to kill the Demon Emperor, but to annex the Demon Emperor's territory.

If the territory was too far away, even if they managed to conquer it, they would not be able to use it effectively.

As mentioned before, the nearby demon beasts were all relatively powerful demon emperors. To deal with them, it was natural to plan slowly and formulate a plan a few years in advance.

Therefore, Chen Yang pulled Chen Xuan along and discussed which Demon Emperor to deal with next.

The two Demon Emperors that Yang Chen had chosen were not easy to deal with. The weaker one was similar to the Gold-splitting Armadillo, who had just entered the intermediate stage of the Demon Emperor Realm.

As for the stronger Golden Lion, it was even stronger than the Blue Luan. It was already at the peak of the intermediate stage of the Demon Emperor Realm, which was equivalent to the peak of the sixth level of the Human Realm.

These two opponents were not easy to deal with. If they were not careful, they would cause damage to the Alliance. This was something Yang Chen did not want to see.

Hearing Chen Yang's words, Chen Xuan thought for a moment and then asked, "Patriarch, have you discussed this with the demon emperors?"

They did say a few words, but they had a huge disagreement. The Blue Luan had its eyes on the Golden Lion and wanted to kill it no matter what."

On the other hand, the Gold-splitting Armadillo wants to deal with the Three-headed Wolf. After all, the Three-headed Wolf's territory is adjacent to the Gold-splitting Armadillo's territory. If the Three-headed Wolf is annexed the Gold-splitting Armadillo will benefit the most."

As for the other demon emperors, they all chose sides. Generally speaking, they were evenly matched. That's why they gave me the right to choose." Yang Chen explained.

Hearing this, Chen Xuan slowly said, "Actually, no matter whose territory we annex, the benefits to our Chen family are about the same."

This Three-Headed Wolf can increase the strength of your subdued beasts. The Golden Lion has many precious resources."

"What nonsense.

Chen Yang glanced at Chen Xuan and then looked at the map. "If we can annex the Golden Lion's territory, it will be extremely beneficial to the merchant group."

This means that they will be able to pass through the sixty thousand li in a straight line without any obstructions."

But there's one thing. I've sent out the Blue Luan. Without the Blue Luan, the remaining Demon Emperors combined won't be able to defeat this Golden Lion."

Who knows how long it will take for the Blue Luan to return?

However, I still feel that it is not satisfying to only annex the territory of the three-headed wolf..."

Yang Chen scratched his head and slapped his forehead. "Why should I be bothered about this? I just want them all."

What?" Chen Xuan looked at Chen Yang in shock.

Patriarch, do you mean to annex the territories of these two demon emperors?"

That's right." Yang Chen nodded." Before the Blue Luan returned, I took the other Demon Emperors and swallowed the Three-Headed Wolf."

"When the time comes to digest the resources in the Three-Headed Wolf's territory, its strength will definitely increase. When the Blue Luan returns, it can swallow the Golden Lion as well."

"When the time comes, we can also help the caravan sweep away the obstacles within sixty thousand li."

Yang Chen remembered a saying from his previous life:" Only children make choices. I want all of them."

Since the family head has decided, when should we take action?"Chen Xuan asked.

No rush." Yang Chen raised his head and looked in the direction of the Endless Mountains." We'll talk about this after Master's wedding. It can also be considered a big gift from me to Master.""

Understood.

Time passed in a flash, and in the blink of an eye, it was the first day of the ninth month of the seventh year of Qiyuan.

On this day, Zhou Tianli officially set off. He sat in a flying carriage pulled by a demon king and led a group of flying carriages filled with betrothal gifts to the Li family.

The betrothal gifts here were different from the ancient rules in Yang Chen's previous life. The betrothal gifts were given on the day of the wedding.

It meant that we valued the woman we married and wanted to give up all our wealth for her.

After all, this was a good fortune. Even the Li family would not act alone.

Da Qian was three dynasties away from the Li Family, so Zhou Tianli had to leave early so that he could return in time for the wedding.

As for the flying demonic beasts that the royal family of Da Qian had chosen to pull Zhou Tianli's carriage, they were all demonic beasts that were fast and had strong endurance so that they would not delay the wedding.

As they continued on their journey, time passed until the 15th day of the ninth month. After half a month of traveling, the carriage finally arrived at the south gate of Li City.

Stop, who is it?

Seeing such a large number of flying carriages arrive at the city gate, the city gate guards were shocked.

Immediately, the city gate guards did not dare to delay and hurriedly ran forward to ask.

Zhou Tianli jumped out of the carriage and handed a token to the guard. "I'm here to welcome the bride."

The guard looked at the token for a moment before his pupils constricted. He returned the token to Zhou Tianli and said carefully, "You are Zhou Tianli, son-in-law Zhou?"

"Aiya, this lowly one's eyes are blind and actually didn't recognize guye's face. Guye, please come in."

The guards obviously knew about this and quickly dispersed the pedestrians, clearing a path for Zhou Tianli.

Presumably, the Li family would not let the guards at the city gate appear and stop their son-in-law from entering.

Seeing this, Zhou Tianli said, "Thank you" and swaggered into the city.

As for the flying chariot that followed them, it flew over the city gate and entered from the top of the wall.

Li family.

After receiving news of Zhou Tianli's arrival, the Li family acted as if they had already rehearsed this. They quickly filled the main road into the Direct Line Manor with people to escort the bride.

This spread for dozens of miles, and the sounds of singing and playing could be heard endlessly. The entire Li City fell into the joy of marriage.

As for the Li family head, he led the Li family elders to welcome Zhou Tianli at the main entrance.

When the old sons-in-law of the Li family saw this, they said sourly, "What's so great about it? Isn't it just taking in a good disciple?"

When they thought of the hardships they had gone through to marry a direct descendant of the Li family, they felt unspeakable pain.

In terms of talent, they were not inferior to Zhou Tianli.

After all, if one wanted to marry into the Li family's direct line of descent, one had to at least have a fifth-grade aptitude and have the potential to become a mighty figure.

However, not only were they not welcomed, but they were also rolled their eyes.

Now that there was a person with similar qualifications as them, not only did he not have to marry into the Li family, but he was also welcomed by the Li family with such great fanfare. How could they not be jealous?

It was just taking in a good disciple. It was no big deal.

Of course, they only mumbled softly and did not dare to say it out loud. After all, the family head had ordered them to stop what had happened some time ago.

Only the people who lived in the manor knew a little about that.

As for the Collateral Branch, they could only hear some movements..
