

Tamer Family 331

Chapter 331: Finally Meeting (1)

As for the daughters of the Li family, they were filled with envy and jealousy towards Li Qingya.

They are both the daughters of the Li family. How can you get such a grand treatment when you get married, and we don't even have the family head to congratulate you?

However, what was the use of being envious? It still could not change the outcome. Who asked her husband to take in a good disciple, a disciple that even the Li family had no choice but to curry favor with.

Of course, regardless of whether it was the live-in son-in-law or the daughter of the first wife, they only dared to whisper a few words. When Zhou Tianli approached, they did not even dare to mutter. A warm smile quickly appeared on their faces, afraid that Zhou Tianli would think that they had lost their manners.

Hahaha, Justice, you're finally here. Qingya is counting the days on her fingers every day, waiting for you to marry her." Seeing Zhou Tianli walk over, the Li Family Head hurriedly stepped forward.

After walking forward, although the Li family head continued to talk nonsense with Zhou Tianli, his gaze unconsciously drifted towards the bridal procession.

Strange, where was the Chen Family Head?

Justice!" The Li Family Head smiled, " Oh, Justice! How are the preparations for the bridal procession coming along?"

Patriarch, everything is ready." Zhou Tianli laughed.

What about Mou 'er and his wife? They were the children of the Grand Maiden Qingya. Although it was not appropriate for them to show their faces at such an occasion, they should still come along." Patriarch Li grumbled.

Hearing this, Zhou Tianli explained, "It's like this. The Chen Family has something important that they need Mou 'er to do. That's why they can't come.""

Oh, I see.

Hearing that Zhou Mou had gone to do something for the Chen family, the Li family's head instantly showed an understanding expression. However, in an instant, the Li family's head changed the topic.

"What about the Chen Clan Leader? As your only disciple, did he not come with you?"

Only then did Zhou Tianli understand. It turned out that Zhou Mou was a lie and Chen Yang was the real deal.

Master, you don't know this." Zhou Tianli smiled and said, "In our place, I'm not allowed to follow Master to fetch the bride.""

Of course, my disciple is already prepared in Yi City and is only waiting for the arrival of the Li family."

Actually, Da Qian did not have many rules. The reason why Yang Chen did not come was because he was too busy to leave.

Furthermore, this was Zhou Tianli's wedding. With Chen Yang's status, it would be a bit of a ruckus if he followed.

Hearing Zhou Tianli's explanation, the Li Family Head hurriedly waved his hand. "It's alright, it's alright. Since you don't have such a custom, my Li Family will naturally abide by it."

Aiyo, what are we talking about here? Justice, follow me in.

Immediately, the Li family head grabbed Zhou Tianli's hand and entered the Li family's residence along the intersection accompanied by festive music.

At the same time, the Li family had already made preparations. Li Qingya was waiting quietly in her own manor, waiting for Zhou Tianli to arrive.

Li Qingya was a little nervous when she thought about how the separation of 300 years would end today.

Seeing this, Li Ke patted his daughter's shoulder and said, "Qingya, don't be nervous. Isn't this your dream?"

Hearing this, Li Qingya took a deep breath and said slowly, "Father, don't worry. I'm not nervous. I'm just a little excited."

That's true. My wish for the past 300 years is about to come true today. It would be a lie to say that I'm not excited."

But daughter, I have something to tell you.

Father, please say,

You should know why you were able to reunite with Justice." Li Kehua sighed.

I understand. It's because Justice has taken in a good disciple." Li Qingya nodded her head, and a gleam of light flashed in her eyes.

Li Qingya felt that it was a little unreal when she thought of such a monstrous person.

Not only was he talented, but he also had a terrifying force behind him. Where was the logic in this?

But no matter what, she still had to thank Yang Chen. If it wasn't for Yang Chen, she wouldn't have been able to reunite with her husband.

Hearing Li Qingya's words, Li Kehua continued, "It's good that you know. I'm also telling you that Yang Chen's ability is not limited to this."

Father doesn't expect you to ask Yang Chen to help father or the Li family.

However, Father hopes that the two of you can follow in Yang Chen's footsteps and break through to the Daoyuan Realm in the future."

"As a father, I naturally hope that my daughter will have a better future.

Li Qingya understood what her father meant and immediately said, "I've heard a lot about Yang Chen."

From what he has done, I believe that he is a person who values relationships so he naturally wouldn't forget about Justice."

Father, you're thinking too much.

Li Qingya did not want to put her husband in a difficult position because of this matter.

No one knew their daughter better than their father. Li Kehua naturally understood Li Qingya's thoughts and sighed faintly. "Fine, since you think so, I can't say anything."

However, daughter, you have to know that you still have your father behind you. If you suffer any grievances, even if I have to risk my old life, I will still seek justice for you."

Thank you, Father.

She knew that what her father was worried about would most likely not happen.

However, Li Qingya understood her father's love for her. He didn't say anything about worrying for nothing and just agreed.

As the father and daughter conversed, Zhou Tianli followed the Li family head into the manor.

Hearing the noise outside, Li Kehua knew that Zhou Tianli had come.

Immediately, Li Kehua took a deep breath." Daughter, stay here and take care of her. I'm going out for a while."

"Yes." Li Qingya nodded and grabbed her lapels excitedly.

In the manor, Zhou Tianli hurriedly bowed when he saw Li Ke." My son-in-law greets father-in-law!"

"Yes." Li Kehua nodded and sighed."Justice, I've handed my daughter over to you. Don't let her down, or I won't forgive you."

Father-in-law, don't worry. Justice will never let Qing Ya down in this lifetime."Zhou Tianli said solemnly.

Seeing this, Li Ke made way for her." Go and see Qingya. You haven't seen each other for 300 years. You must have a lot to say.""

Hearing this, Zhou Tianli stood up and looked at the room in front of him. He did not dare to move at all.

After a short while, Zhou Tianli took a deep breath and walked towards the door with firm steps.

Dong dong dong.

Enter!

Creak...

After pushing open the door, Zhou Tianli saw the person he had been thinking about for 300 years.

Li Qingya also saw the person she had missed for 300 years.

The two of them did not speak. They just slowly walked in front of each other and looked straight at each other.

After a while, the two of them hugged each other and did not speak. They just let tears flow from the corners of their eyes.

No one knew what the two of them talked about in the room. They only knew that not long after, Zhou Tianli pulled Li Qingya out of the room.

Both of them had a blissful smile on their faces..

Chapter 332: Secret Conversation Between Yang Chen and

Master Li

Seeing this, the Li family head quickly went forward and said, "There's no time like the present. I don't think you should pick an auspicious day. You should return to Yi City now."

"I don't think the two of you are willing to wait another breath now."

Hearing this, Zhou Tianli nodded his head. "Thank you, Clan Head."

Immediately, Zhou Tianli pulled Li Qingya and entered the Zhou Family's flying carriage, heading towards Da Qian.

The Li Family's dowry team also headed toward Da Qian under the leadership of the Li Family Head.

Seeing this, the Li family members were even more jealous.

No way. It was fine if he welcomed her personally, but now he even followed her. Could it be that the family head was so free?

As the head of a fifth-rank aristocratic family, how could the Li family head be idle? However, there were some matters that the Li family head had to meet with Chen Yang.

If this matter was handled well, not only would the gap between the two sides be eliminated, but the Li family would also prosper. It was even possible for them to be on par with the Li family in Mianyang.

Time flew by, and in the blink of an eye, half a month had passed.

In this half a month, Zhou Tianli successfully brought Li Qingya to his pavilion in Chen City, Jiang Prefecture.

The reason why they settled down in Chen City was because the wedding date had not arrived yet. It was not appropriate to send them to Yi City.

As Chen City and Yi City were closer to each other, Zhou Tianli would be able to pick Li Qingya up from Chen City after the wedding.

After arriving in Chen City, the Li family head could not wait to go to the Chen family.

Chen family, meeting hall.

Looking at the Li Family Head who wanted to say something but hesitated, Chen Yang smiled and said, "Patriarch Li must have something to tell my Chen family. Since that's the case, there's no need to stammer."

Hearing this, the Li Family Head braced himself and said, "I don't dare to give orders. I just want to ask if the Chen Clan knows about the situation outside the Endless Mountain Range."

Hearing this, Yang Chen nodded, "I don't dare to say much, but the forces near the Endless Mountain Range know a little."

"Among them, there are more than 40 Rank-6 forces that rely on the Endless Mountain Range to live. If we look at the expansion, there are a few scattered Rank-6 forces."

"And these forces are covered by a fifth-rank dynasty. From the outside, one could only see the fifth-grade dynasty and not the forces within the dynasty." "Chen Clan Leader is right."

Master Li nodded and asked, "I wonder if Chen Clan Leader has any thoughts of rushing out of the Hidden Dragon Mountain Range?"

The fact that the Li family head called the Endless Mountain Range the Hidden Dragon Mountain Range, which was also what the outside world called it, meant that the Li family was planning to rush out.

Seeing that the Li family had revealed themselves, Yang Chen smiled and said, "It would be a lie to say that I don't want to. One day, my Chen family naturally wants to go and see the scenery outside."

Hearing this, a hint of joy flashed across the eyes of the Li family's head. He immediately continued, "But the situation outside the Hidden Dragon Mountain Range has been seen by the Chen Clan Head.

If he wanted to rush out, he would not be able to avoid that dynasty no matter what."

"But does the Chen Clan Leader know anything about that empire?"

Hearing the words of the Li Family Head, Yang Chen's eyes narrowed. This Li Family Head is here to agitate my Chen Family today.

Forget it, let's see what this person is up to.

Thinking of this, Chen Yang cupped his hands at Master Li."

"Not really. We're all forces in the Hidden Dragon Mountain Range. We should help each other. We should share some information."

Patriarch Li sorted out his words and slowly said, "The value and resources of the Hidden Dragon Mountain Range should be clear to the Chen Clan Leader. Otherwise, it would be impossible to support more than 40 rank 6 forces."

"But has the Chen Clan Leader ever thought about why there isn't a fifth-grade force?"

"What else could it be?" Yang Chen laughed. "It's the suppression of the dynasty, just like how the Li family dealt with the forces in the Endless Mountain Range."

Hearing this, Master Li smiled awkwardly. "That's different. We suppressed it because there aren't many resources here.

If another fifth-grade force appeared, both sides would starve to death."

"But that dynasty is different. They will do everything they can to weaken the strength of these rank 6 forces."

"It's true that this is something that every faction would do. It's just that it's more or less.

However, that dynasty didn't just want to stop a fifth-grade force from appearing. They wanted to control all the forces around the Hidden Dragon Mountain Range."

“For example, the Li family controls the Spiritual Crystal lode. In the end, it’s also to isolate the promotion channels of the sixth-rank forces.

“However, we don’t target Rank-6 forces too much.”

“Otherwise, the Endless Mountains wouldn’t have so many nominal vassals.”

“But that’s not what Dynasty thinks. He really plans to control all the factions and use them as nourishment to promote Dynasty’s faction.”

“The evidence is that all the pills, spirit weapons, and arrays in the rank 6 faction came from that dynasty.”

“And once the major powers have an Alchemist or Armament Master, as long as they are above the ninth grade, they will die without knowing why.”

Yang Chen took a deep breath when he heard Master Li’s words.

Good heavens, this was even more overboard than the Li family.

Master Li had a good saying. No matter how much the Li family went overboard, they did not interfere with the decisions of other Rank-6 forces.

At most, they would be biased in certain matters, just like how Great Qian and Great Kun fought over the Spiritual Crystal mine.

However, the Li Family didn’t force Da Qian to give up the Spiritual Crystal mine.

“Those forces never rebelled?” Yang Chen asked in confusion.

Logically speaking, since they had already done this much, even if they did not stand up and resist, they should at least think of moving their forces.

“They do want to.”

“ Don’t tell anyone.” Master Li sneered. “ But under the lockdown of the dynasty, the dynasty will send people to kill you if you move.””

“Dynasty has done this more than once or twice.”

“Then why didn’t they join forces?”” More than 40 Rank-6 forces?” Yang Chen was puzzled.” If these forces join forces, they’ll be able to deal with them.””

“As I said, Dynasty has taken away all their cultivation resources.”

“ The way the Li family controls the Spiritual Crystal lode is something they left behind,” the Li family master said.”

“I heard that those Rank-6 forces now have to obtain the permission and supervision of the dynasty if they want to use spirit stones.”

“ Don’t you think it’s funny? These factions have gone to great lengths to dig out some resources. If they want to use them, they have to get permission from the dynasty and use them under their supervision. They’re afraid that you’ll save more than one piece.”

“Even the spirit stones are stuck. What can they do? If they really fight, when the spiritual qi is exhausted, they can only use the spiritual qi of heaven and earth to recover.”

“Then have they ever thought of stealing some spirit stones from the Endless Mountain Range? I don’t believe that I can’t even do this.”Yang Chen said.

Master Li glanced at Chen Yang. This is how you guys got Zhou Tianli’s crystals, right?

“The most fatal part is here. The dynasty has already made an alliance with the demon emperors and above demon emperors in the Endless Mountain Range. Only those forces are allowed to mine in specific areas.”

“Once they mine elsewhere, what awaits them will be the joint attack of the dynasty and the demon emperors..”

Chapter 333: Master Li’s Plan, Ten Years of Qi Yuan

Listening to the words of the Li family head, Chen Yang thought for a moment and then concluded, “In other words, the use of the Spiritual Stones and Spiritual Crystals of the forces outside the Endless Mountains is under the control of the dynasty.”

“If they want to buy pills or spirit weapons for cultivation, they can only buy them from the channels of the dynasty.”

“As long as Dynasty wants to, they can completely cut off the cultivation resources of a Rank-6 faction from the stage to the Qi Refinement stage.”

“You can say that.”

The Li Family Head nodded. “However, that Dynasty is also afraid that these forces will be forced too much. Before they die, they will drag a few Dynasty people to die with them.”

“Therefore, in most cases, they are not stopped from applying for spirit stones.”

“It’s to give those Rank-6 forces a feeling that I have complete control over you, but I’m not mistreating you.”

“Are you cheap?” Yang Chen laughed.

The Li Family Head smiled.” The Chen Family Head might not know this, but the habits they have developed over a long period of time have long wiped out the heroic spirit in their hearts.””

“In other words, even if they still have the pride of a rank 6 force, in order to protect their power, they don’t dare to say much and can only pretend to be used to it.”

“Then what does Master Li want to do with me? Just to tell me how domineering Dynasty is?”Yang Chen smiled and looked at Master Li.

Master Li already knew that the Chen family was backed by the fourth-rank family, the Shen family. If the Chen family wanted to go out, the dynasty would not dare to stop them no matter how bold they were.

It was probably the wrong idea to make the Chen family and Dynasty enemies.

It was impossible for the Li family head not to know, so he naturally would not use such a clumsy method to sow discord.

Therefore, Yang Chen concluded that the Li Family Head must have something else to say.

Hearing this, the Li Family Head smiled.” The Chen Family Head is indeed intelligent. Forget it, I’ll be straightforward. Let’s join forces and earn the spirit stones of those large factions.”

“Oh, forming a joint caravan?”

Chen Yang smiled and picked up his teacup.” Didn’t Master Li say that Dynasty has already monopolized the business of pills and spiritual weapons? How could they let us profit from it?””

“The Chen Clan Leader might not know this, but he only monopolizes the medicinal pills needed for cultivation and the spirit weapons that increase one’s strength.”

“I won’t stop you from selling some decorative items or medicinal pills that are not beneficial to cultivation.”

“Dynasty’s intention is to control the cultivation of those large factions and not let them have the chance to surpass Dynasty.”

“The dynasty won’t stop those goods that aren’t helpful for cultivation.” Master Li smiled.

Hearing this, Yang Chen sipped the tea in his teacup and put it down before speaking slowly.

“Patriarch Li, you said that you can only sell things that are not helpful for cultivation, but that’s the problem.”

“Would those big forces really be willing to buy goods that are not helpful for cultivation, such as the Beauty Pill?”

“I think it’s better to do business with Dynasty directly. After all, there won’t be any greater forces stopping us from selling the resources for their cultivation.”

“You are wrong about this, Chen Clan Leader.”

The Li Family Head smiled and shook his head, “Chen Family Head, why don’t you think about it? They can already sell the resources for cultivation to those forces. Didn’t they keep it for themselves?”

“Besides, even if they don’t have enough, why don’t they buy it from other fifth-grade forces? Instead, they want to buy it from forces like us who are in their own territory?”

“Aren’t they afraid that we’ll use their spirit stones to increase our cultivation and overthrow their dynasty?”

Yang Chen remained silent.

After a while, Yang Chen smiled and said, "It was my negligence this time. I didn't consider this point."

"However, I still have the same question. How many spirit stones can we earn by selling those resources that are not beneficial to cultivation?"

"Could it be that your Li family thinks highly of these scattered spirit stones?"

Hearing Yang Chen's words, Master Li did not rush to answer. Instead, he handed Yang Chen a pill.

Yang Chen took the pill and glanced at it before looking at the Li Family Head in confusion. "Family Head Li, why did you give me the Beauty Pill?"

"Take a closer look at the stage." Master Li smiled.

Hearing this, Yang Chen looked at the pill seriously and even used his spiritual energy to examine it. However, no matter how he looked at it, it was still a Beauty Pill.

"Wait!"

Suddenly, Yang Chen felt a different aura from the pill.

However, from the outside, there was still nothing unusual.

Holding the pill, Yang Chen looked at Master Li in confusion. "Master Li, what's going on? Why do I feel the aura of a Meridian Unlocking Pill from this Beauty Pill?"

"That's because this is a Meridian Unlocking Pill." The Li Family Head's words were shocking.

"What?"

Yang Chen was stunned. He looked at the Beauty Pill in his hand again. This time, Yang Chen used the Illusory Spirit Eye Bloodline in his body.

With the help of the golden light in his eyes, Yang Chen pierced through the appearance of the Beauty Pill.

What greeted his eyes was a Meridian Unlocking Pill!

“This... How is this possible?” Yang Chen looked at Master Li in shock.

How did the Li Family do it? They actually hid the Meridian Unlocking Pill under the appearance of the Beauty Pill!

Master Li did not answer Chen Yang’s question. Instead, he narrowed his eyes and looked at Chen Yang.” Is this the bloodline of the Shen family?” You’re indeed powerful.”

Hearing this, Yang Chen finally realized that he was a little anxious. He actually used his bloodline in front of the Li family head.

However, Yang Chen was not worried. With the Shen family’s warning, the Li family would not dare to leak the news..

Chapter 334: Master Li’s Plan, Ten Years of Qi Yuan

The Li family head seemed to have thought of the Shen family’s warning and pretended not to see anything. He smiled to himself and said,”How is it? Impressive.”

“Patriarch Li, please enlighten me.” Yang Chen returned the pill to the Li Family Head.

The two of them seemed to have forgotten about the bloodline and seriously discussed the matter of the Beauty Pill.

Under the explanation of the Li family head, Chen Yang finally understood the mystery of the Beauty Pill. In fact, it could not be said to be mysterious. The principle was quite simple.

It was nothing more than a Grade 9 maze formation engraved on this Meridian Unlocking Pill.

However, Yang Chen didn't think about it in this way. In addition, he wasn't an array master and wasn't sensitive to arrays, so he didn't notice it.

"So, Patriarch Li wants to use the Bewildering Array as a cover to sell all kinds of cultivation resources to those Rank-6 forces?" Yang Chen asked.

"That's right." The Li Family Head nodded. "A low-level cultivation resource like the Meridian Unlocking Pill can only be engraved with a simple maze."

"As for those high-grade cultivation pills, they will be engraved with complicated bewildering formations."

"When the time comes, we'll raise the price of the medicinal pills. We'll definitely be able to make a huge profit."

Although Master Li's description was good, Yang Chen was not in a hurry to reply. Instead, he looked at Master Li with a smile.

After Patriarch Li finished speaking, he said, "The future that Patriarch Li described is not bad, but I have three questions."

"The first method to solve the problem is indeed not bad, but the price is so high. How can Dynasty not be suspicious?"

“The second question. Even if he doesn’t doubt your price, Dynasty should be suspicious of you for selling so many pills that are useless for cultivation every time.”

“The third question, Patriarch Li, your method is very simple, but I think it won’t be so easy to put it into practice.”

“Although I don’t know anything about formations, I do have a formation master in my family. If you want to inscribe a formation on a small pill without damaging the medicinal properties of the pill, how can you do it without a long period of accumulation?”

“Can this production keep up with the demand? If you can’t meet the demand, aren’t you afraid that they will sell you out to exchange for cultivation resources with Dynasty?”

“I think Dynasty will definitely be willing to reward them.”

Hearing Yang Chen’s series of questions, Master Li smiled and said, “Chen Clan Leader, this isn’t just three questions.”

“Alright, I’ll answer the questions one by one.”

“Actually, we have a unified answer to the first and second questions. Chen Clan Leader should know the disadvantages of being a powerful force, which was that if it developed for a long time, it would inevitably lead to internal strife.”

“And we can use this to bribe some people in the dynasty in advance.”

“Of course, we definitely can’t say it out loud. We just say that we plan to sell some special pills.”

“Even though the people from Dynasty are not fools, they are still willing to turn a blind eye in front of so many resources.”

“Of course, we can’t sell them one by one. We have to hide what we should.

At that time, the price of a medicinal pill would be a little higher, and then he would secretly give more medicinal pills.”

“This way, the overall price will be the same, and it’ll give Dynasty an explanation that we’re just selling at a higher price.”

“Take this Beauty Pill for example. We can say that this Beauty Pill can not only preserve one’s appearance, but it can also make one’s skin smooth and delicate. It can even be said that one’s appearance will become younger.”

“It’s reasonable to sell such a magical beauty pill at a higher price.”

“This is just one way of thinking. We can all exaggerate the use of these medicinal pills or spirit weapons.

In short, we just need to give Dynasty an explanation so that they can cover up for us.”

“As for the third question, you don’t have to worry about it.

“My Li family has long made preparations. Now, there are many array masters who can inscribe array formations on pills. We can completely supply those large factions.”

“And when I sell it, I will only sell it to professionals and make them swear a Heaven and Earth Oath.”

“As for the others who want to buy, we’ll sell the normal Beauty Pills to them.

At that time, if they come looking for us, we can also say that it was the alchemist’s mistake and compensate them.”

“They already took a beauty pill, and we compensated them at the original price. Most people will let it go.”

“Of course, if someone doesn’t want to settle things peacefully.”

At this point, a cold glint flashed across the Li Family Head’s eyes.” Then I’ll make sure he never speaks again.”

“I’ll also give the Chen Clan Lord a heads-up. Selling spirit stones is one aspect of this plan. The most important thing is to let these large factions secretly become stronger so that they can disrupt the situation.”

“Then, Clan Leader Chen, are you willing to join forces with us?”

“If we can really get rid of that Dynasty, then we can split the Dynasty’s territory.”

Hearing Master Li’s words, Yang Chen smiled and looked at Master Li.” Master Li, why did you come to me for such a good business?”

Then, Yang Chen stared at Master Li.

Master Li also looked at Yang Chen in silence.

The two of them looked at each other in silence for a long time.

“Hahahaha...”

Suddenly, the two of them burst into laughter at the same time. After laughing, Master Li poured a cup of tea for Chen Yang.” I think Master Chen has thought it through.””

“No matter how detailed the plan is, there is a possibility of it being leaked. If it is leaked, there must be a backer.”

“And the Shen family is the backing that we have chosen. I wonder what the Chen family head is thinking.. Is he willing to do this business with my Li family?”

Chapter 335: Master Li’s Plan, Ten Years of Qi Yuan

“This is a serious matter. Can you give my Chen family some time to consider?” Yang Chen asked with a smile.

Yang Chen couldn’t give Master Li an answer immediately.

After all, the truth of this matter and the gains and losses needed to be discussed.

Moreover, even if what Master Li said was true, there was still a very important question, which was whether there was any power behind Dynasty.

If there was, then what was the relationship between the faction and the Shen family? All of this needed to be investigated and considered.

Hearing this, Master Li smiled.” It’s alright. There’s no hurry. Even if we decide on it, we’ll have to prepare for a long time before we can carry it out.””

“However, I still hope that the Chen Clan Leader can give us a deadline. Don’t let my Li Clan wait aimlessly.”

Yang Chen thought for a moment and smiled.” How about this? I’ll give Master Li an answer in ten years.” This kind of plan to overthrow a rank 5 force could still wait for ten years.”

“No problem, absolutely no problem.”

” Let’s not talk about ten years,” the Li Family Head hurriedly said.” Even waiting for a hundred years won’t be a problem. The Chen Family Head can go and investigate to see if the information I said is correct.””

After the two of them set a date, they began to chat.

As they talked, Yang Chen suddenly changed the topic and asked,””Master Li, I have a question. Dynasty controls the lifeline of a Rank-6 force.”

“If we were to control it, the amount of manpower required would be too great.”

“If we don’t control them, the rank-6 organizations can use the organizations below to gather resources. This goes against Dynasty’s original intention.”

“You mean this? Half and half.” Master Li said.

“Half and half?” Yang Chen frowned.” What do you mean?”

“As for the spirit stones, Dynasty doesn’t have any control over them. As you said, it’s too troublesome. Dynasty only needs to control the source and use of the spirit stones of a Rank-6 force.”

“As for the forces below the sixth rank, they didn’t understand or control them.”

” As for resources such as elixirs and spiritual herbs that are helpful for cultivation, the dynasty still has them. However, the method they use is different. They rely on the merchant associations to defeat the other merchant associations.”

“If we let these merchant associations defeat the other merchant associations, in the end, these small factions will only be able to buy the resources of the Dynasty merchant associations.”

“We have some understanding of the situation outside.” As soon as Chen Xuan entered, Chen Yang told him what had happened just now.

After listening to Chen Yang’s explanation, Chen Xuan thought for a moment and then looked at Chen Yang. “What’s the family head’s plan?”

“I don’t want to fight if I can, but I don’t want to fight. The losses are too great. Even the Shen family can’t accept it.”

“But here comes the problem again. If it’s really as the Li family said, Dynasty will be overbearing, and this war will have to be fought sooner or later.” “Patriarch can bring out the Shen family. With the Shen family around, the dynasty would not dare to say anything.” Chen Xuan said.

“You can’t say that.”

Yang Chen shook his head. “If we always trouble the Shen family and rely on them, wouldn’t the Chen family really become a vassal of the Shen family?” “Also, is there any power behind this dynasty? If there is, what is the relationship between this power and the Shen family?”

“Right now, we don’t have any information, so we really can’t make a decision.”

Hearing this, Chen Xuan smiled and said, “Then why is the family head still thinking so much? Won’t everything be clear the next time the Shen family comes?”

“When the time comes, whether we fight or think of other methods, we will have information as a basis, right?”

“That’s true.”

Chen Yang nodded and handed a cup of tea to Chen Xuan. “Great Elder, there’s one more thing. Although this dynasty doesn’t control any forces below Rank-6, it’s still a small matter.”

“However, the merchant group of the dynasty still controls the business of medicinal pills, spiritual medicines, and spiritual weapons. This is not a good thing for our merchant group’s plan.”

“Forget it, let’s not think too much about it. As for what to do, we still need information.”

“For now, it’s better to develop the family steadily.”

“Yes.”

In the following period of time, the development of the Chen family was just as Chen Yang had said, stable and stable.

As for Deshun Commandery Prince’s wedding, it was specially organized by the Great Qian Dynasty’s royal family. They wished that they could invite all the dynasties in the Endless Mountain Range.

Under the witness of all the experts, Zhou Tianli officially married Li Qingya into the family..

Chapter 336: Master Li’s Plan, Ten Years of Qi Yuan

Looking at the glorious Zhou Tianli, the group of experts could only drink silently.

Good heavens, even the Li family’s patriarch had come to attend the wedding. The dowry of the Li family was almost enough to buy an entire dynasty.

All of this was because he had taken in a good disciple.

It’s not a big deal. This time, we’re also taking in disciples. Perhaps we can find such a good disciple.

For Zhou Tianli's wedding, the Chen Family naturally had to present a congratulatory gift.

After careful selection, Chen Yang decided to offer a grade six spirit weapon.

This time, it made the experts even more jealous.

In the Endless Mountain Range, a fifth-grade spirit weapon could completely be used as a nation-guarding spirit weapon. As for a sixth-grade spirit weapon below the fifth-grade, it was an existence that was sought after by everyone. Even the ancestor on stage needed it extremely.

The Chen family had offered a sixth-grade spirit artifact, and it could be said that they were extremely generous.

After Zhou Tianli's wedding, the entire Great Gan and even the Endless Mountain Range did not have any major events. Everything was developing smoothly.

Until the tenth year of Qiyuan.

This year, Zhou Tianke officially stepped down from the position of Human King, and the person who took over the position was Zhou Tianli's grandson, Zhou Yingzhao.

Even if Zhou Yingzhao found it troublesome and was unwilling to take over the throne, in order to stabilize the relationship between Zhou Tianli and the royal family, he still chose Zhou Yingzhao.

As for Zhou Tianli's consideration, it was very simple. Becoming a Human King meant that the Zhou Consortium would vigorously nurture you.

If that was the case, why not?

As for finding it troublesome, that was even better. It was a good time to train.

As for the Chen family, there were also major events that happened in the tenth year of Qi Yuan.

Of course, it was only targeted at Yang Chen.

To be precise, it was targeted at the Dao Integration Pearl.

In the 10th year of the Qiyuan period, the Dao Integration Pearl had accumulated another 100,000 points of energy. This meant that Chen Yang could push a Demon Venerable level demon beast into the Demon King realm.

As for Yang Chen's choice, it was the Red Dragon of the True Dragon race.

Although the Red Dragon was born with injuries and could only cultivate to the Daemon King realm, its cultivation speed would not slow down as it was below the Daemon King realm.

Chen Yang had hatched the Red Dragon for more than 20 years, and the Red Dragon had successfully cultivated to the early stage of the Demon Venerable Realm.

This was the dominance of the True Dragon Race. Before the Monster King, the cultivation speed of the True Dragon Race was not inferior to any super genius or powerful race.

They could completely abandon the restrictions of their bloodline and crazily increase their cultivation.

Of course, after becoming a demon king, one still had to follow the restrictions of the bloodline.

It was precisely this monstrous characteristic that caused those who did not understand the True Dragon Race to think that the True Dragon Race was a natural king, an existence at the level of a demon king.

Back to the main topic.

Yang Chen chose the Red Dragon because he wanted to save energy.

If he chose the Winged Tiger, he would need to raise the Winged Tiger's bloodline to the Demon King realm, which would cost him another 10,000 energy points.

This wasn't a small amount, so Yang Chen could only let the winged tiger suffer for the time being.

Of course, it might not be a grievance.

Ever since the appearance of the Underworld Dragon, the Winged Tiger had returned to the days of cultivating the Yang Pass. Every day, it would lie down in the Yang Pass and open its mouth. Someone would send food over. It was very happy.

Now that the Red Dragon had broken through, he didn't need the Winged Tiger to waste his energy anymore. He could enjoy life even more.

When Chen Yang told his own decision to tell the other familiars, the familiars were all a little disappointed. Only the winged tiger had a bigger smile on his face.

In short, Chen Yang's second Natal subdued beast of the Daemon King realm was this red dragon.

After bringing the red dragon to the Endless Mountain Range, Chen Yang released the Dao Integration Pearl and mobilized the energy in the Dao Integration Pearl to pour into the red dragon's body.

Looking at the red dragon that was screaming in pain, Yang Chen said slowly, "Endure it. Endure it and you'll be able to pass. Then, you'll be able to become an existence at the demon king level."

"Wait, does this mean that from now on, my mount can be changed to a red dragon? Dragons were more domineering than dragon-type demon beasts." The Underworld Dragon was speechless.

Winged Tiger: "Don't worry, just get used to it. I'm already used to it.."

Chapter 337: Chen Family Advancing to Rank-7

Yang Chen still underestimated the commotion caused by the Red Dragon breaking through to the Daemon King realm.

However, the moment the red dragon broke through to the demon king realm, it still attracted many demon beasts.

Especially since he had attracted the flood dragon demon emperor.

Looking at the red dragon circling in the sky and stretching its body wantonly, the flood dragon demon emperor's dragon saliva kept dripping down.

"Yang Chen, you didn't tell me that you have a red dragon as your familiar." The Spirit Eared Fox translated.

Hearing this, Yang Chen looked at the flood dragon demon emperor cautiously. "What do you mean? Are you planning to take me as your subdued beast?"

"Hahaha!"

Dragon Demon Emperor smiled awkwardly and said, "Look, your subdued beast is an adult now. Isn't it normal to find him a partner?"

Yang Chen finally understood that he had misunderstood.

"So that's what happened. I thought you were planning to eat my subdued beast." Yang Chen heaved a sigh of relief.

“No, I’m not Chen Qing, why would I eat a red dragon? Besides, if I really ate the red dragon, how could I join the true dragon race?” Dragon Demon Emperor glanced at Chen Yang.

“Let’s not talk about this. How did you sense the red dragon?” Yang Chen asked.

This place was quite a distance away from the Dragon Demon Emperor’s lair. If the Dragon Demon Emperor could sense it, it would be too unreasonable.

“I don’t stay at home every day,” Dragon Demon Emperor explained. “I came out for a walk and sensed the aura of the dragon race.”

“At first, I thought that your underworld dragon had a breakthrough, so I dragged a Spirit Eared Fox over.”

“Who would have thought that you would have a red dragon as your familiar?”

“However, Yang Chen, I can remind you that if the True Dragon Tribe finds out about this, they won’t let it go.”

“Unless you can defeat them, they will definitely harass you day and night.”

Yang Chen smiled. “Don’t worry, I know what’s important. I won’t tell the True Dragon Tribe that I have a Red Dragon.”

“That’s good.”

Dragon Demon Emperor nodded and asked, “Yang Chen, you haven’t mentioned my suggestion yet. What do you think?”

Hearing this, Yang Chen sized up the Dragon Demon Emperor and said with a strange expression, “My red dragon is male, and so are you. How can we form a partner?”

“What are you thinking?”

” What do you mean?” The flood dragon demon emperor was speechless.” What I mean is that you should find a flood dragon from my descendants to mate with your red dragon.”

“So that’s what’s going on. There’s no rush. My Red Dragon isn’t old, so let’s wait a little longer.”Yang Chen said.

“What a pity.”

Dragon Demon Emperor shook his head and looked at the red dragon with envy. He then forced himself to forget about it and continued to talk to Yang Chen.

“Oh right, didn’t you say that you were going to deal with the three-headed wolf? Chen Qiu asked me to ask you when we’re going to take action.”

“Soon. My Chen family has almost collected all the information about the three-headed wolf. I estimate that we will be able to make a move on the three-headed wolf in a few months.”Yang Chen said.

“Alright, I’ll tell Chen Qiu now.”

Dragon Demon Emperor nodded and was about to leave.

Suddenly, Dragon Demon Emperor seemed to have thought of something. He turned around and asked,“”Right, should we lure the Three-Headed Wolf into the Alliance?”

“That will depend on the Three-Headed Wolf’s performance. If it is sensible, we can recruit it into the Secondary Alliance and make it our subordinate.”

“As for being on the same level as us, forget it. After all, every member of the Alliance has a wish, and that’s too much of a burden for the Alliance.”

“As for the secondary level, the Ashaia is a Level 2 Alliance. I plan to be similar to the Level 1 Alliance, but I don’t need the Alliance to fulfill one of its wishes.” Yang Chen said.

As he listened to Yang Chen’s description, a huge and strict alliance appeared in his mind.

As for the few of them, they were existences at the top of the pyramid.

At the thought of this, the Dragon Demon Emperor could not help wagging his tail and looked at Yang Chen.” Then, do we still accept people in this level one alliance?”

“If we encounter a powerful existence, we still have to take it in.” Yang Chen said without hesitation.

As for what was considered powerful, it was easy to judge. What they couldn’t deal with was powerful.

“Alright, I’ll pass on your message to Chen Qiu.” Then, the flood dragon demon emperor turned around and left.

Yang Chen put away the red dragon and left on the Underworld Dragon.

The Dragon Demon Emperor’s words reminded Yang Chen that it was better not to be too arrogant before the Chen family officially rose.

The Underworld Dragon was enough.

The Underworld Dragon was speechless.

After riding the Underworld Dragon back to the family, Chen Yang quickly found Chen Xuan.” Great Elder, send out an invitation and say that our Chen family is going to advance to Rank-7.”

“It’s true!”

Chen Xuan's eyes widened and he said excitedly, "Patriarch, the red dragon has successfully broken through to the Daemon King realm?"

"Of course. With that thing around, how can it fail?" Yang Chen smiled.

Seeing that Chen Yang had confirmed his thoughts, Chen Xuan became even more excited.

A demon king, the Chen family had another demon king!

At this rate, Yang Chen would become a Rank-6 soon.

After reaching Rank-6, would Rank-5 be far away?

For a moment, Chen Xuan fell into a fantasy..

Chapter 338: The Chen Family's Seventh Stage

Not long after, Chen Xuan broke free from his fantasies and reconsidered this matter. He looked at Chen Yang with some worry. "Patriarch, isn't it too fast and arousing suspicion?"

"Don't worry, First Elder."

Chen Yang poured a cup of tea for Chen Xuan. "The current Chen family is no longer the same as before. Even if the Chen family really has secrets, they don't dare to investigate."

"As for the Li family, they will only think that this is all the credit of the Shen family and will not suspect us. In short, we will do it."

“This... Alright, I’ll do it right away.”

Chen Xuan really did not understand why the family head wanted to advance to Rank-7 so quickly. However, since it was the family head’s order, he just had to carry it out.

For so many years, the family head’s orders had never been wrong. He must have his own considerations for advancing to Rank-7 this time.

Indeed, Yang Chen had his own considerations.

And this consideration concerned the Dao Integration Pearl.

In the first year of Qi Yuan, when the Underworld Dragon broke through to the Demon King realm, the Dao Integration Pearl had given Chen Yang a piece of news. It was that the Chen Family’s fate could break through the restrictions of the family’s rank and be the same as a seventh-rank aristocratic family.

This was also the reason why the Chen family’s luck had been relatively good in the past ten years. Chen Yang was able to obtain the Spirit Lotus Flower and the Dao Integration Pearl was able to accumulate 100,000 energy points so quickly.

However, there was a time limit to this breakthrough.

That’s right, it was a 10-year restriction. After 10 years, the Chen family’s family fortune would become Rank-8 again.

This was an unacceptable existence for the Chen family and the Dao

Integration Pearl to absorb energy.

The news about the Dao Integration Pearl also made Chen Yang speculate.

The Dao Integration Pearl was forcing the Chen family to advance, preventing them from hiding and slowly improving their family.

After all, they had already enjoyed the fate of a Rank-7 force. Now that they had fallen to Rank-8, no one could bear it.

“In that case, let’s fight. Let’s see who can have the last laugh. Let’s see if our

Chen family can get the first chance in this torrent.”

Yang Chen had been making all sorts of plans for this day.

As long as the Chen family remained strong, no one would doubt it even if the

Chen family’s growth rate far exceeded that of ordinary forces.

To be precise, no one dared to doubt it.

Now that they had the Shen family backing them up, in the future, they would have to rely on the Chen family’s powerful strength, as well as the commercial routes that spread throughout the world, and the huge Demon Beast Alliance to back them up.

Of course, when it was time to hide, Yang Chen would still hide. But now, there was no need for the Chen family to hide.

Time flew by, and in the blink of an eye, another month had passed. Within this month, almost the entire Da Qian knew that the Chen Family was about to advance to Level Seven.

Immediately, all the big forces took action and went to the Chen family with the prepared gifts to congratulate the Chen family for advancing to Level

Seven.

The Chen family's advancement speed had already exceeded their imagination. However, they were still not surprised. They even had a puppet on stage. They would not be surprised at how many secrets and experts the Chen family had hidden.

Even if the Chen family could advance to Rank-6 in a short period of time, they would not doubt it.

On the other hand, the Li family had a serious discussion after hearing the news. In the end, they came to an answer.

The Shen family really valued the Chen family.

This Chen Yang definitely had one of the ten bloodlines.

Of course, regardless of why the Chen family had grown so quickly, the most important thing at this stage was to be on good terms with the Chen family. Immediately, the Li Family Master decided to send the Great Elder to the Chen Family on behalf of the Li Family to congratulate the Chen Family on reaching Level Seven.

At the same time that the Li family made their decision, in Chen City, in the

Chen family's meeting hall.

Chen Xuan first picked up his teacup and drank a full cup of tea. He panted twice before saying, "Patriarch, the news has been sent out. We will officially hold the promotion ceremony on the 10th of next month.

"En, First Elder has worked hard."

Chen Yang smiled and poured a cup of tea for Chen Xuan." Great Elder, how are

the preparations in the family?”

“Head clan master, there isn’t much of a problem. Basically, everything is arranged according to your instructions.” Chen Xuan said.

Hearing this, Chen Yang laughed and said, “I am naturally at ease when the

Great Elder does things.””

“Alright, First Elder has worked hard. Rest first. Leave the matters at home to

me first.”

“Yes.”

In the following period of time, the Chen family had been preparing for the family promotion ceremony. Not only did they recall their clansmen who were outside, but they also recalled them back home so that they could enjoy this glorious moment together.

Of course, after he was summoned back, he was busy with many things. For example, the specialties of each city needed to be collected by the clansmen and family members.

According to the rules of Da Qian, the promotion to Level Seven meant that one would be famous in Da Qian. The banquet would be filled with specialties from various cities in Da Qian.

In Yi City, the team led by Chen Xuan was in charge of collecting Yi City’s specialties.

Behind Chen Xuan, Qi Yuan said excitedly, ““Captain, you’ve witnessed the appearance of the family’s promotion to Rank-8.”

“Eighth Stage.”

Chen Xuan seriously recalled for a moment, then smiled and said, “At that time, the family wasn’t too powerful, but the Deshun Commandery Prince and the Beast Tamer Sect still came to congratulate them.”

“I remember that back then, when the important figures of the various large families saw the Beast Tamer Sect and the De Shun Prince’s mansion, their faces were filled with shock.”

“They didn’t expect that a ninth rank aristocratic family’s promotion to eighth rank would attract such terrifying forces.”

Listening to Chen Xuan’s narration, the faces of the group of family generals revealed looks of yearning. The scene back then should have been very exciting.

However, it wouldn’t be long before they could experience such an exciting scene.

“Captain, do you think the royal family will send someone to congratulate us this time?” Qiyuan asked again.

“That’s for sure.”

“The last time you advanced to Rank-8, the Deshun Commandery Prince and the Beast Tamer Sect had already sent people to congratulate you,” Chen Xuan said without hesitation. “How could the royal family not send people to congratulate you this time?”

“YOU have to know that in terms of strength, our Chen family is no weaker than the royal family.”

“Alright, you’ll know the exact scene when the time comes. Now, it’s time to hurry up and buy some specialties.”

“Yes, sir!”

Under the purchase of the Chen Family members and generals, the specialties of the main cities of Da Qian were continuously transported to Chen City.

The time for the Chen family to advance to Rank-7 was gradually approaching.

As the Chen family's promotion ceremony approached, Chen City became more and more congested.

As mentioned earlier, generally speaking, forces weaker than the Chen family would come to Chen City before the ceremony to show their respect for the Chen family.

This was the rule of Da Qian, and it was also a etiquette that had been passed down since ancient times.

However, the problem was that in the entire Da Qian, was there any other force stronger than the Chen Family?

As a result, almost all the forces had to arrive in Chen City in advance to show their respect for the Chen family.

Although the Chen family had only invited Rank-8 and above forces outside of Jiang Prefecture, there shouldn't be too many people.

However, the problem was that Chen City had long become the holy city in everyone's hearts. They had always yearned for Chen City, and now that they had finally gotten a chance, those forces could not wait for all their people to rush over.

This resulted in Chen City being overcrowded even though it had been expanded.

This made Chen Xuan extremely busy. He was afraid that if he was not careful, something that the Chen family did not want to see would happen in the city. Chen Xuan was not the only one who was busy. Chen Ying and his Piercing Guard were also not having it easy. Who knew if there were any people with ill intentions hidden among these factions? Naturally, they had to investigate them properly.

However, the two of them didn't have to work hard for long because the day of the Chen family's promotion to Rank-7 had officially arrived!

On the 10th day of the 3rd month of the 10th year of Qiyuan, the Chen Family, an Eighth-rank Aristocratic Family of Da Qian, was officially promoted to the 7th-rank today.

On this day, before dawn, a large number of forces had already arrived in front of the Chen family's door, quietly waiting for the sun to appear.

The Chen family also knew about this situation, so they didn't let these forces wait too long. When the sun rose, they opened their doors and sent their direct descendants to welcome these forces.

With the Chen family's current strength and status, it was already enough to give face to the leaders of these forces by using their direct descendants.

Only a Rank-7 powerhouse was qualified to be welcomed by the Chen Clan's elder.

However, according to the rules, a Rank-7 powerhouse would not appear now. Therefore, only the direct descendants and generals of the Chen family were responsible for welcoming them at the Chen family's entrance.

Even so, those forces still felt that they were valued and felt the sincerity of the Chen family.

At the very least, he didn't let the branch family welcome him..

Chapter 339= Gift (1)

"Thank you, thank you. Please come in."

“There’s no need to be so polite. Please come in.”

Chen Mingde wiped the sweat from his forehead. As the oldest member of the Chen family, the heavy responsibility of welcoming guests was completely on Chen Mingde’s shoulders.

Almost all the forces had to say a few words to Chen Mingde before entering.

As for Chen Mingde, he repeated the words that he had long gotten tired of saying and continued to be polite with the leaders of these forces.

However, it took too long for this polite act to be made. According to the time, it was time for the Rank-7 strength to appear.

Among them, there were definitely Rank-8 and 9 forces mixed in, but at the very least, there were elders who did not need to talk to him.

“The Beast Tamer Sect has arrived!”

Suddenly, the Chen family guard in the distance shouted. Along with this shout, Wang Shuo slowly walked over with the Beast Tamer Sect elders.

When the leaders of the forces along the way saw this, they hurriedly made way for the Beast Tamer Sect.

At the same time, everyone knew that it was time for the seventh-rank forces to enter.

As soon as this shout sounded, Chen Xuan led a group of elders from the Chen family and quickly flashed to the front of the door, preparing to welcome the Beast Tamer Sect members.

“Greetings, Sect Master Wang. How have you been?” Chen Xuan went forward to welcome him.

Wang Shuo smiled." Same old. But the Great Elder is still as elegant as ever.""

"You're welcome." Chen Xuan waved his hand and subconsciously glanced over. He saw an old figure in the Beast Tamer Sect's camp.

Chen Xuan's expression changed, and he hurriedly went forward to bow." Chen Xuan greets Supremacy Wang!"

Wang Ming had actually come with Wang Shuo.

"Great Elder, you don't have to be so polite. I just want to witness the Chen family's promotion to Rank-7. Just treat me as an ordinary observer."Wang Ming laughed.

Hearing this, Chen Xuan nodded. Then, he led the people from the Beast Tamer Sect into the Chen family.

Following that, rank-7 forces appeared one after another.

Coincidentally, the Zifu Disciples of these powers had all come with them to participate in the Chen Clan's promotion ceremony.

It was not hard to guess the reason. Although the Chen family had just advanced to Level Seven today, everyone knew that the Chen family's strength was far beyond theirs. They naturally had to pay attention to the Chen family and treat them as a Level Six force.

As for the grand ceremony of a power of the sixth rank, Patriarch Zifu would naturally have to participate.

When the seventh-rank forces arrived, Prince De led the royal family to the Chen family's door.

The royal family was a sixth-rank force. It was naturally against the rules to use elders to welcome guests.

Thus, Chen Yang personally came to the door of the mansion and welcomed Prince De and his entourage to the Chen family.

After the royal family arrived, the guests were about to enter. Chen Mingde and the others could handle the rest.

Immediately, Yang Chen decided to bring the elders to chat with the major forces who were watching the ceremony to show their hospitality as the host.

At this moment, a loud shout suddenly sounded from the sky.

“The Li family congratulates the Chen family for advancing to Rank-7!”

Although this loud shout was not shouted by the Chen Clan guard, it made the large factions within the Chen Clan extremely shocked.

This was because the power represented by this sentence was the Li family, the ruler of the Endless Mountains.

The Li family had actually come!

The moment this shout rang out, Yang Chen leaped out and arrived at the Chen Clan’s main gate.

The group of elders followed closely behind Chen Yang and arrived at the door.

If the Li family were to come, the Chen family would naturally have to move out and welcome them together.

Outside the gate of the Chen family, a flying chariot slowly descended from the sky. This flying chariot floated ten meters above the ground. Then, the Li family members jumped down from the chariot one after another.

The leader had a head of white hair and skin like a child's. He wore a purple robe and had an immortal appearance.

Seeing Yang Chen step forward, the purple-robed elder smiled and said, "This old man is the Li family's grand elder. Greetings, patriarch Chen."

"Great Elder, there's no need to be so polite. It's our honor to have the Li family here today. Great Elder, everyone, please follow me." Yang Chen smiled and welcomed the Li family into the Chen family.

The arrival of the Li family pushed the promotion ceremony to its peak.

Then, under the witness of all the leaders of the forces, Yang Chen stepped onto the Ancestral Remembrance Platform and announced to the heavens that the Chen family had advanced to Rank-7.

Accompanied by a seven-colored light, the Chen family officially became a seventh-rank family!

Next, it was time for the main event, the congratulatory gifts from the spectating forces.

Although there was nothing special about this eighth or ninth-grade congratulatory gift, Yang Chen still personally received it to represent the etiquette of the Chen family.

When the last noble family of the eighth rank had finished offering their gifts, everyone's spirits were completely lifted.

Because everyone knew that it was the Rank-7 faction's turn to present their gifts.

Under everyone's watchful eyes, Wang Shuo took the lead and walked up to Yang Chen. He took out a jade pendant from his storage pouch and handed it to Yang Chen.

“My Beast Tamer Sect specially offers the Tiger Soul Jade Pendant to congratulate the Chen family on advancing to Rank-7. May the Chen family’s martial arts luck prosper!”

Regarding the Beast Tamer Sect’s gift, the group of faction leaders fell into confusion. What exactly was this jade pendant?

However, from Yang Chen’s slightly excited eyes, it was not difficult to see that this jade pendant was definitely not as simple as an ordinary jade pendant.

Of course, this was not an ordinary jade pendant. It was a Tiger Soul Jade Pendant that could increase the cultivation of tiger-type demon beasts as recorded in the ancient books of the Beast Tamer Sect!

The origin of the Tiger Soul Jade Pendant was not recorded in the ancient books of the Beast Tamer Sect, but its effects were clearly recorded.

It could allow a tiger-type demon beast to advance from the mid-stage Demon Venerable to the late-stage Demon Venerable.

This treasure could be used as the Spiritual Lotus of a tiger type demonic beast.

“Beast Tamer Sect is too polite.” Yang Chen smiled as he put the jade pendant into his pocket and exchanged a few more pleasantries with Wang Shuo.

After the formalities, Wang Shuo returned to his seat and looked at the gifts from the other seventh-rank forces.

The gifts that these seventh-grade forces had taken out were all extremely precious. Basically, they were all sixth-grade.

Although it had just entered Rank-6, it could be regarded as a family treasure for a Rank-7 force.

This was a feast for everyone's eyes.

After the final offering of gifts from the seventh-rank forces ended, everyone's eyes were focused on the Duke of Deshun.

At the same time, a strong curiosity arose in his heart.

What kind of gift would the royal family give?

Was it Peak Rank-6 or the legendary Rank-5?

Under everyone's gaze, Prince De left his seat and slowly came to Yang Chen. He stopped ten meters away from Yang Chen.

Then, Prince De took out a storage bag from his bosom and presented it with both hands." The royal family of Da Qian congratulates the Chen family on advancing to Rank-7. May the Chen family's martial arts luck prosper?"

Chen Yang looked at Chen Xuan. Immediately, Chen Xuan took the storage bag from Prince De and placed it in front of Chen Yang.

Looking at the storage pouch in front of him, Yang Chen didn't use his spiritual energy to check it.. Instead, he asked,""Prince De, what is inside this storage pouch?"

Chapter 340: The Li Family's Gift

It wasn't just Yang Chen. The others were also curious. What was in the storage bag? Was there a need to be so mysterious?

Hearing this, Prince De smiled." I'm not trying to be mysterious. It's just that this thing is too huge. If it's released, I'm afraid our banquet will be ruined by it.""

Hearing this, Yang Chen became even more curious." Prince De, what is this thing?"

Immediately, Prince De didn't keep him in suspense." There's a grade six spirit weapon inside, but it's just an incomplete piece that can't be used."

Remnant? What was it?

No one would think that the royal family was deliberately making fun of the Chen family. Since they were able to take out an incomplete piece, it meant that even if it was an incomplete piece, its value was self-evident.

"I wonder if Clan Head Chen and everyone here have heard of the White Tiger Crossbow?" Prince De laughed.

Hearing this, everyone was puzzled.

White Tiger Crossbow, what was that?

Immediately, everyone looked at the Li family's First Elder. If there was anyone who knew this White Tiger Crossbow, it would be the Li family's First Elder.

When the Li family's first elder saw this, he smiled and explained,"This White Tiger Crossbow was developed by blacksmiths based on the White Tiger Rage, one of the four saint beasts."

"The complete form of the White Tiger Crossbow is a grade four spirit weapon. Once it is used, everyone can imagine its might."

Hearing this, everyone's faces revealed shock.

A grade four spirit weapon level crossbow, was there still a need to talk about its might?

Take the spirit stone crossbow as an example. A grade seven spirit weapon level spirit stone crossbow was able to erupt with a full-powered strike equivalent to a first level Core Formation expert.

That fourth grade level of the Gramatrix.

The royal family of Da Qian had taken out something good!

Hearing the Li Family's First Elder's explanation, Yang Chen also hurriedly injected his Spiritual Energy into his storage bag.

Sure enough, Yang Chen sensed a huge creature from the storage bag.

Although it looked broken, one could still recognize that it was a tiger-type crossbow.

However, even though it was broken, Yang Chen could still feel the terrifying aura emitted by the White Tiger Crossbow.

It seemed that he would have to find a blacksmith who could repair the White Tiger Crossbow in the future.

After putting away the storage bag, Yang Chen smiled and said, "Yang thanks the royal family for their gifts."

Next, everyone turned their attention to the Li Family's Great Elder. As the ruler of the Endless Mountains, how could the Li Family be so simple?

Under everyone's gaze, the Li family drank the spiritual wine in their cups and immediately stood up to go forward." Everyone knows that the Chen family is an aristocratic family of beastmasters."

“In this beastmaster family, the most important thing is the subdued beasts.”

“Today, when the Chen family has advanced to the Seventh Stage, the Li family has brought out an egg of a demon emperor level demon beast to congratulate the Chen family on their prosperous martial arts!”

What was that?

Demon Emperor’s egg!

All of a sudden, everyone stood up in shock and looked at the Li family’s grand elder in disbelief.

To the Li family, the Demon King’s egg was very precious. They did not expect the Li family to take out the Demon King’s egg to congratulate the Chen family.

Could it be that there was some secret between the Chen family and the Li family that they did not know?

Otherwise, why would the Li family be so generous?

Under everyone’s watchful eyes, the Li family took out a five-meter-tall giant egg from their subdued beast bag.

Placing it in the middle of the crowd, everyone could feel a heart-palpating aura from this huge egg.

As expected of the Demon Emperor’s egg, it was indeed extraordinary.

Everyone immediately looked at the Li family grand elder, wanting to know the origin of this egg from the Li family grand elder.

When the Li family's great elder saw this, a trace of pride flashed in his eyes. He said calmly, "There were some interesting things that happened regarding the Demon Emperor's egg."

"About ten years ago, when my Li family elder went to explore the Endless Mountain Range, he was attacked by a demon emperor."

"Originally, the attack on the Demon Sovereign wasn't a big deal. However, the Li family elders discovered that the Demon Sovereign seemed to have lost his mind and wanted to tear apart all the creatures in his eyes.¹

"I had no choice but to kill this demon emperor in order to protect myself."

"After killing him, the Li family elders realized that the demon emperor seemed to have just given birth. After exploring its nest, the Li family elders came to a conclusion."

"That means that the demon beast's egg was stolen by a human or a demon beast."

"This has angered the elders of my family. You took the benefits and made me bear the price. What kind of logic is this?"

"Immediately, my Li family's elders began to search the Endless Mountain Range."

"Perhaps it was luck, but the Li family elders really found the thief. It was a demon beast that was also a demon emperor."

"Immediately, our Li family elders fought with him. In the end, in order to protect himself, the demon emperor had no choice but to give the demon beast egg to our Li family."

"This is the origin of the demon beast egg."

Hearing the words of the Li Family's Grand Elder, everyone only had one thought in their minds. The Li Family was really strong. They could deal with the Demon Emperor just like that.

This was the effect that the Li family's First Elder wanted.

Seeing the fear on everyone's faces, the Li family's first elder said, "As for the Demon Sovereign, he is the Heavenly Wolf."

"This demon beast egg is naturally the egg of the Heavenly Wolf."

Heavenly Wolf.

Everyone came to a sudden realization. They did not expect this demon beast egg to actually be the egg of a heavenly wolf.

The Sky Wolf was not an ordinary person. Although it did not appear many times, its name was so famous that even the ninth-rank forces had more or less heard of it.

The reason why he was so famous was because of Tian Lang's original yao art, Wolf Howl.

Once this howl was unleashed, all the wolf demon beasts within a radius of ten thousand miles would listen to Tian Lang's orders unless they were one level higher than Tian Lang by a large margin.

Although everyone was puzzled as to how those demon beasts heard the wolf howl, it was not loud.

But no matter what, it could not change the terror of Tian Lang's innate yao arts.

"Patriarch Li, you're too kind. What right does my Chen family have to bear such a treasure?" Yang Chen said a few words of courtesy before putting the Heavenly Wolf egg into his bag.

At this point, the promotion ceremony officially ended. The rest of the time was for the people present to chat.

The banquet lasted for three days before it came to an end.

After advancing to Level Seven, Yang Chen didn't stay and celebrate too much. When the banquet ended, he went to the Endless Mountains to discuss the plan against the Three-Headed Wolf with the Dragon Demon Emperor and the others.

In the Dragon Demon Emperor's lair, Chen Yang was quietly waiting for the Demon Emperors to arrive.

When Yang Chen told the Dragon Demon Emperor that he was going to attack the Three-Headed Wolf, the Dragon Demon Emperor did not stop for a moment. He quickly rushed to the nest of the other demon emperors and informed them to come to his nest to discuss the plan.

About five days later, the group of demon emperors arrived at the lair of the flood dragon demon emperor.

"Yang Chen, what's there to discuss? Let's just go over and take action. That Three-Headed Wolf has just entered the intermediate stage of the Demon Sovereign Realm. In terms of strength, it's only equivalent to the fourth stage of your Human Race."

The Gold-splitting Armadillo asked anxiously.

If annexing the Three-Headed Wolf would benefit the Golden Armadillo the most, the Golden Armadillo would not be willing to stay for even a moment.

Seeing this, Chen Yang smiled and shook his head." Chen Qiu, don't be anxious. You have to be careful with everything.""

"By the way, have you found anything about the matter I asked you to investigate?"

" Yes," the Four-Winged Horned Eagle said." There's no powerful Demon Emperor behind the Three-Headed Wolf.""

“And some of the demon emperors who have a good relationship with the three-headed wolf are not very strong. We don’t have to worry about their revenge.”

Hearing this, Chen Yang nodded and looked at the Gold-Splitting Armadillo.” Chen Qiu, I know you want to annex the Three-Headed Wolf’s territory.”

“But I have something to say first. If the Three-Headed Wolf is stubborn, then you can do whatever you want.”

“If the Three-Headed Wolf is willing to submit, you can’t swallow its entire territory.”

“Yang Chen, don’t worry.” “Do you think I’m that kind of beast that doesn’t know how to weigh the pros and cons?” the gold-splitting armadillo laughed.”

“Besides, why would I annex the Three-Headed Wolf’s territory? Isn’t it to strengthen our strength?”

“Since the Three-Headed Wolf has submitted, why would he still want to annex the territory? Isn’t it better to have a subordinate of the Demon Sovereign?”

Seeing that the Gold-Splitting Armadillo had no other thoughts, Yang Chen heaved a sigh of relief.” That’s good. I’m afraid that because of this, there will be a gap between our alliance. That would not be worth it.””

“How is that possible?”

“That’s right. You humans just like to worry about nothing.”

“It won’t happen. Don’t worry about making a plan.”

Seeing that all the demon emperors said so, Yang Chen continued,””In that case, I’ll start making plans.”

“First of all, we can’t rush over. After all, many demon emperors have already known about our alliance. If we go over with such great fanfare, the three-headed wolf will definitely find out and run away in advance.”

“I suggest that those who can fly fly a little higher and pass through the air. As for those who can’t fly...”

Yang Chen looked at the Gold-splitting Armadillo. Only the Gold-splitting Armadillo couldn’t fly.

When the Gold-Splitting Armadillo saw this, its face turned red and it said, “Tell me, what should I do?”

Seeing this, Yang Chen said, “I want to sign a contract with an ordinary familiar with you. That way, I can put you in a familiar bag and bring you there. I’m just afraid you won’t be willing.”

“I was wondering what it was.”

“It’s just an ordinary subdued beast contract,” the Gold-splitting Armadillo said indifferently. “It’s a contract that can be terminated at will. What’s the big deal about signing it?”

“I agree.”

Hearing this, Yang Chen let out a sigh of relief. He was really afraid that the Gold-splitting Armadillo would be unwilling.

Although the contract with an ordinary subdued beast didn’t have any binding force, it was still a humiliation for the Demon Emperor to become Yang Chen’s subdued beast in name.

When the flood dragon demon emperor heard this, his dragon eyes turned and he said gloomily, “Since that’s the case, why don’t we all sign ordinary subdued beast contracts with Yang Chen?”

“After all, no matter how high we fly, there is still a possibility of being exposed. If we let Yang Chen go alone, the possibility of being exposed is much smaller.”

“When the time comes, we’ll directly attack the three-headed wolf and well definitely succeed! Even if the Three-Headed Wolf wanted to run, it had no chance to.”

The Gold-Splitting Armadillo looked at Demon Emperor Flood Dragon in surprise.

“Good fellow, you are indeed the Demon Emperor who has been in contact with Yang Chen for the longest time..”
