

## Tamer Family 35

### Chapter 35

“Forty days have passed. I wonder if anything happened at home.”

In the forty days that Chen Yang had been in seclusion, the First Elder had been handling the family matters. With the First Elder’s personality, even if the sky collapsed, he would not disturb Chen Yang.

Therefore, as soon as Chen Yang broke through, he went straight to the meeting hall.

“Are you out of seclusion, Family Head?”

In the meeting hall, Elder Chen Xuan was dealing with the family matters. When he saw Chen Yang coming out of seclusion, he hurriedly put down what he was doing.

“Fortunately, I didn’t disappoint you and successfully broke through to the Genesis Realm.” Chen Yang smiled.

When Chen Xuan heard this, the smile on his face widened. “In that case, we have another chance to deal with the Gongsun family.”

“Let’s not talk about me first. What about you? Have you found the beast with the Demon General bloodline?” Chen Yang asked.

Chen Xuan smiled awkwardly. “There’s no progress yet, but don’t worry, Patriarch. Before the Gongsun family attacks, I’ll definitely find a beast that contains the bloodline of a demon general.”

“Well, that’s good.” Sitting on the main seat, Chen Yang continued to ask, “Did anything happen with the three families?”

At the mention of the three families, Chen Xuan could not hide the smile on his face. "Hehe, Family Head, some stories really happened in these three families."

"Oh? Tell me about it."

"It's like this. After the Feng family returned from Donglin Town, they learned that their business had been attacked by the Li and Mo families."

"The enraged Feng family immediately wanted to pull the Liu family and the Gongsun family to fight. However, the Liu family and the Gongsun family rejected the Feng family's head."

"Well, the alliance of the three families didn't last long before they had a big fight."

"That's expected." Chen Yang smiled disdainfully. "The Liu family has a conflict with the Feng family, so they're naturally happy to see the Feng family suffer."

"As for the Gongsun family, it's because Gongsun Lu is about to return, so they don't want to complicate things. With their alliance, it's very easy to instigate the Feng family into rebellion."

"Tell Family Head Li and Family Head Mo to continue targeting the Feng family. I don't believe that the Feng family won't be disloyal!"

"Yes!" Elder Chen Xuan understood.

"By the way, how are things with Chen Xuan?"

Although he had asked Chen Xuan to come over after settling his mother down, how could Chen Yang be at ease? After all, this was a bloodline martial artist.

Before Chen Yang and the others left Donglin Town, the Chen family's spies were already in position.

Not only was he paying attention to Chen Xuan's movements, but he was also responsible for protecting Chen Xuan and his mother.

Hearing the Family Head's question, Elder Chen Xuan said, "According to the scouts, Chen Xuan's mother has recovered. Chen Xuan is rushing towards our Chen family with his mother."

"However, Chen Xuan's mother is an ordinary person, and Chen Xuan has yet to start cultivating. It will probably take a month for him to reach the Chen family."

"Yes, they've been instructed to keep them both safe."

After explaining the most important thing to him, Chen Yang had nothing to worry about. He continued with his usual routine.

This leisurely life lasted for seventy days.

In these 70 days, the energy of the Dao Integration Bead had accumulated to 100 points. According to Chen Yang's plan, the next step was to increase the strength of the Blazing Eagle and enter the ruins.

As for the rest, Chen Xuan had successfully arrived at the Chen family a month ago.

Under Chen Xuan's arrangements, Chen Xuan and the Chen family entered the family school to study.

Chen Xuan's aptitude was extraordinary, so it was impossible for him to be treated like an ordinary guard.

Chen Xuan knew how well the Chen family treated him. He would always remember it and wait for a chance to repay the Chen family.

As for the Feng family, under the joint suppression of the Chen family and the other three families, they were already exhausted.

According to the scouts, the Feng family's Patriarch had gone to look for the Gongsun family and the Liu family more than once, but every time, he returned empty-handed.

According to Chen Yang's estimation, he would be able to successfully instigate the Feng family in a few months.

In the Chen family's courtyard. In the Chen family's courtyard.

Looking at the Blazing Eagle that had already grown to a meter tall, Chen Yang smiled and said, "As expected of the Demon Venerable bloodline. Its growth speed is really fast."

"In just a few months, it has already reached the peak of early-stage Level One. But this is far from enough for me."

"So ..."

Immediately, Chen Yang forced out the blood essence in his body and signed a natal contract with the Blazing Eagle. The Blazing Eagle was extremely familiar with Chen Yang, so it naturally did not refuse.

After signing the life contract, Chen Yang raised his right hand. The Dao Integration Bead flickered with light and appeared above his right hand.

"Dao Integration Bead, consume 100 energy points to upgrade the Blazing Eagle to a Demon General."

Following Chen Yang's order, a supreme energy emerged from the Dao Integration Bead and surged into the body of the Blazing Eagle.

As soon as this energy entered the Blazing Eagle's body, it let out a scream. Fortunately, Chen Yang was there to comfort it, so it did not escape in pain.

By the time the pain ended, the Blazing Eagle had already grown to three meters long and had reached the Demon General Realm.

“Not bad. Now, it’s time to visit the ruins again.”

Chen Yang did not intend to bring anyone into the ruins this time. Firstly, he did not need them, and secondly, he was afraid of being exposed.

After informing the First Elder, Chen Yang left the Chen family and headed for the Endless Mountains.

In the Endless Mountains, 10,000 feet away from the mountain peak.

Looking at the entrance of the ruins, Chen Yang couldn’t help but say, “As expected of a demon beast that can grow to the level of a Demon Venerable.”

“He’s only an early-stage Demon General, but his flying speed is already so fast. In just half a day, he arrived at the ruins.”

After praising it slightly, Chen Yang took a step with his right foot and completely entered the ruins.

In the cave in the mountain, the giant moth looked at Chen Yang who had appeared again and was a little puzzled. How long has it been?

‘Whatever. What’s that got to do with me?’

Immediately, the giant moth ignored Chen Yang and turned around to continue sleeping.

In the dome, Chen Yang did not say anything after arriving. He directly entered the courtyard of the Beastmaster Inheritance.

The inheritance here still recognized its owner. Once the inheritor was confirmed, no one would be allowed to enter unless the inheritor failed or died.

Although Chen Yang did not know how they confirmed the death of the successor.

In the courtyard room, as soon as Chen Yang entered, the robotic female voice sounded again. "Hello, inheritor. Do you want to complete the first stage of the assessment?"

"I've already nurtured the Blazing Eagle to become a Demon General." Chen Yang opened the Beast Taming Bag, and the Blazing Eagle flew out. After letting out a cry, it stood obediently beside Chen Yang.

The moment the Blazing Eagle appeared, the robotic female voice continued, "After testing, the inheritor will complete the first stage of the assessment."

"Second stage of the assessment activated."

As the mechanical female voice fell, the bedroom door on the right opened quietly.

Chen Yang understood that the second stage of the assessment was in this bedroom. At the same time, a powerful demon beast with at least a Demon Venerable bloodline was also here.

Immediately, Chen Yang's figure flashed and he disappeared, entering the bedroom.

## Chapter 36

The bedroom had the same furnishings as the living room. It was also a mahogany table near the north end. There was nothing else.

Chen Yang, who had already received his reward once, came to the table before the mechanical female voice could speak.

But this time, Chen Yang did not have a choice.

The wall opened and a demon beast egg rolled onto the table.

At the same time, the mechanical female voice sounded again. "You have passed the first stage of the assessment. You are rewarded with the Demon Venerable bloodline, the Winged Tiger."

"At the same time, the second stage of the assessment will begin. Within 30 years, nurture the Winged Tiger to the Demon Venerable level."

"If you succeed, you will obtain all the inheritances in this courtyard. If you fail, you have to find a Winged Tiger egg within a hundred years and return the inheritance."

"It's actually a Winged Tiger."

This reward was beyond Chen Yang's expectations. It was not that the Winged Tiger was strong, but that it was too rare.

In the Endless Mountains corresponding to the Great Qian Dynasty, there were almost no footprints of Winged Tigers.

As for the other dynasties, Chen Yang was not sure, but they were probably also very rare. Otherwise, those nobles would have long bought the cubs of the Winged Tiger for fun.

Unlike now, no one in the entire Great Qian Dynasty had a Winged Tiger beast.

After putting the Winged Tiger Egg into the Beast Taming Bag, Chen Yang did not stay for long. After leaving the ruins, he rode the Blazing Eagle and left.

In the following days, Chen Yang first hatched the Winged Tiger and signed a natal contract.

After that, there was only waiting.

With the Chen family's current luck, they only needed 140 days to accumulate 100 points of energy.

当然了,在等待合道珠吸收能量的日子里,陈阳也没有闲着.

有事没事,就组织李家和墨家,三大世家联手给冯家找不痛快.

As the three aristocratic families knew their limits, the Gongsun family did not want to cause trouble, so they naturally did not organize a counterattack.

As for the Liu family, they hoped that the Feng family would be quickly killed by the Chen family.

During this period, the conflict between the Feng family and the other two aristocratic families became even more intense. If not for the fact that they had heard some news from the Gongsun family, the Feng family would probably have quit long ago.

As for within the family, due to hearing that his reputation was not very good among the children, Chen Yang would sometimes tell them stories personally during his free time.

Under the bombardment of all kinds of stories, the children of the Chen family respected and feared Chen Yang. Chen Yang was quite satisfied with this.

‘Well, there’s a good saying that we should temper power with grace.’

These simple but not boring days lasted until the 140th day.

He specially pointed out this day not only because the Dao Integration Bead had accumulated 100 points of energy, but also because the Gongsun family had sent a letter on this day.

“What does the letter say, Family Head?”

In the meeting hall, Chen Xuan saw Chen Yang finish reading the letter sent by the Gongsun family and hurriedly asked.

Chen Yang handed the letter to Elder Chen Xuan and said disdainfully, “The letter said that we shouldn’t be in a hurry to go to the year end hunt.”

“Instead, in four months, the two families will enter the Endless Mountains together and resolve the conflict between our two families through the number of demon beasts hunted by the two sides.”

“The letter also said that whoever kills less needs to give their family’s most precious business to the other party.”

“This bet will be carried out under the surveillance of the Song family. It will be absolutely fair and just. They told us not to decline. After that, the two families have no more grudges.”

“In addition, the Gongsun family also sent a letter from the Song family. Both the letter and the letter have the same meaning. They want us to prioritize peace.”

After reading the letters from the Gongsun family and the Song family, Elder Chen Xuan looked at Chen Yang in confusion. “Family Head, what exactly is the Gongsun family up to?”

“What are they up to?” Chen Yang sneered and said, “Didn’t he just want to finish us off in the Endless Mountains? He was afraid that we would escape, so he deliberately played this trick.”

“No way. With the Song family watching, the Gongsun family still dares to do this?” Elder Chen Xuan was in disbelief.

“The Song family? What good can the Song family do? If the Song family is really a good family, they wouldn’t have let us be cannon fodder for them last time.”

What Chen Yang was talking about was the last time the ten great clans cleaned up the Endless Mountains.

During that sweep, the ten great aristocratic families suffered casualties. If not for the Chen family being lucky enough to enter the ruins, they would probably have been wiped out.

“But I heard that the Song family didn’t even want the Spirit Eye Python that time and even compensated the various families.”

“That’s because the Song family obtained what they wanted. Otherwise, why would the Song family use such a huge martial technique in the Endless Mountains?”

“Even a three-year-old knows that we have to act quietly in the Endless Mountains. How could the Song family not think of it?” In any case, Chen Yang did not believe that the Song family would be so kind. There was definitely a conspiracy.

Chen Xuan was also convinced by Chen Yang, but he still had some doubts in his heart. “Family Head, if the Song family wants to destroy our Chen family, why don’t they do it themselves?”

“There are two reasons. Firstly, our Chen family is a vassal family of the Beastmaster Sect, while the Song family is not. If they want to destroy our Chen family, they have to consider the face of the Beastmaster Sect.”

“The second reason is that he wants to keep his mask of kindness.” Chen Yang had already seen through the Song family, they were still just acting.

“If First Elder doesn’t believe me, we’ll naturally know after the battle. But before that, we still have to go to the Feng family.”

“Family Head wants to go to the Feng family?” Chen Xuan asked.

“Of course. We still have to instigate the Feng family.” Chen Yang smiled confidently. “By the way, reply to the Gongsun family and say that the Chen family has agreed!”

At the same time, in the Song family in Song City.

Gongsun Miao respectfully served Family Head Song a cup of tea. “Thank you for helping us eliminate the Chen family.”

Family Head Song glanced at Gongsun Miao, then took the teacup and said indifferently, “Family Head Gongsun, you exaggerate. Our Song family didn’t send any troops.”

“Of course, of course. I know that. However, the fact that the Song family is willing to help my Gongsun family stop the Chen family from escaping and lure them into the Endless Mountains is already a great help to the Gongsun family.”

“After you leave, I don’t want to hear this again. This is your own conflict, understand?” Family Head Song looked at Gongsun Miao threateningly.

The Song family still did not dare to eliminate the vassal families of the Beastmaster Sect for the time being.

Gongsun Miao knew what Family Head Song meant and nodded repeatedly. “I understand, I understand.”

“Yes, it’s good that you understand.” The Family Head blew on his tea and took a sip. “I don’t want to eliminate the Chen family either.”

“But if you want to blame someone, blame the Chen family’s ancestor for making a great contribution and insisting on using his own merit to exchange for the Ten Thousand Beast Technique’s Ningdan realm cultivation technique.”

“Isn’t he courting death? You have to know that in the entire Nanyang County, there can only be one eighth-grade aristocratic family, and that’s my Song family!”

“That’s right, the Chen family is courting death. Family Head Song, don’t worry. Our Gongsun family will definitely destroy their entire family!”

As Gongsun Miao echoed Family Head Song’s words, his eyes revealed a bloodthirsty look.

This time, your Chen family will definitely die!
