

Tamer Family 37

Chapter 37

The Chen family.

After discussing the next matter with the First Elder, Chen Yang returned to his courtyard and prepared to use the energy of the Dao Integration Bead to upgrade the Winged Tiger to a Demon General.

According to Chen Yang's calculations, after upgrading the Winged Tiger to a Demon General, he would be able to accumulate 100 points of energy the day before the two families headed to the Endless Mountains.

At that time, when the First Elder's beast was upgraded to a demon general, the Chen family would be able to set up a battle array of two first level Genesis Realm and four demon generals.

Even if Gongsun Lu returned, it was not an impossible fight.

Of course, there was a premise. First Elder had to quickly find a demon beast that contained the bloodline of a demon general.

The First Elder also knew that the matter was urgent, so he put a lot of effort into this. Now, he had already found several clues.

It probably wouldn't be long before the First Elder took down the demon beast with the demon general bloodline.

In Chen Yang's courtyard.

After stroking the tiger's head, Chen Yang extended his right hand, and the Dao Integration Bead appeared. Then, under Chen Yang's instructions, a stream of energy came out of the Dao Integration Bead and quickly surged into the Winged Tiger.

This terrifying energy quickly expedited the growth of the Winged Tiger's body and raised its cultivation.

“ROAR!”

As the Winged Tiger roared, a terrifying aura spread out. The Winged Tiger had officially become a demon general-level demon beast!

Chen Yang nodded in satisfaction as he looked at the terrifying demon beast that was five meters long and about three meters tall. The wings on its back flickered with a cold light.

In terms of appearance, this Winged Tiger could be said to be the most domineering existence among Chen Yang's natal beasts.

“Now we wait for the final battle.”

Chen Yang was naturally prepared for the life-and-death battle with the Gongsun family. After this battle, the Chen family's strength would definitely rise, and it was only a matter of time before they became the number one ninth-grade aristocratic family in Nanyang County.

Time passed day by day. Facing the upcoming decisive battle, neither the Chen family nor the Gongsun family showed any unusual movements.

The ordinary martial artists and commoners in the two cities continued to do what they were doing and did not notice anything amiss.

On the other hand, the merchants could smell something different in the calm atmosphere.

All of them fled early, but the Chen family and the Gongsun family did not care. When the war ended, they would naturally return.

This peaceful state lasted for nearly four months.

Gongsun City, Gongsun family.

“Hahaha, Big Brother, you’re finally back.” Gongsun Mang looked at the travel-worn Gongsun Lu and hurriedly went up to welcome him.

“Second Brother, it’s been hard on you to maintain the family during this period of time.” Gongsun Lu patted Gongsun Mang’s shoulder.

“What are you saying, Big Brother? It’s just my duty. On the other hand, Big Brother even lost his natal beast in this war.”

“That’s nothing. My merit points are enough to nurture a new natal beast. Besides, after destroying the Chen family, I might be able to step into the late-stage Genesis Realm.” Gongsun Lu smiled.

When Gongsun Mang heard this, a cruel smile appeared on his face. “Chen Tao has suppressed us brothers for so long. Let’s see how arrogant he can be after we destroy his family this time!”

The Chen family’s Patriarch, Chen Tao, had already become a sore point for the two Gongsun family’s ancestors.

However, after tomorrow, this worry would be gone because the Chen family would no longer exist!

The Chen family.

Looking at the Green-horned Bull in front of him, Chen Xuan could not hide the smile on his face.

“Laugh if you want.” Glancing at Elder Chen Xuan, Chen Yang teased.

When Chen Xuan heard this, he did not hold back and directly laughed wantonly. This was the demon general level natal beast. It would be a lie to say that he was not happy.

Speaking of which, this beast was born from the Chen family’s Green Mountains.

The Green-horned Bull contained the bloodline of a Demon General, but its bloodline was not rich enough to break through.

However, there were always exceptions. The Green-horned Bull had also mutated and its demon general bloodline had become richer.

After learning that a Green Horn Bull with a demon general bloodline had appeared on Green Mountains, Chen Xuan hurriedly accepted it and refined it into his natal beast.

Perhaps even the heavens could not stand the Gongsun family and stood on the Chen family’s side, allowing Elder Chen Xuan to successfully obtain this Green-horned Bull.

Of course, this also depended on the Chen family’s careful nurturing.

In any case, the appearance of the Green-horned Bull made the Chen family more confident about battle on the next day.

Chen Yang ignored the giggling Elder Chen Xuan and digested the news sent by the Dao Integration Bead.

After the Green-horned Bull became a Demon General, the Chen family’s luck officially reached the level of refining one point a day.

Next, even if he were to further increase his clan’s luck, the Dao Integration Bead would also not be able to assimilate it.

The Dao Integration Bead also told him how to increase the daily refinement quota.

That was, if a Ningdan or a Demon Venerable-level beast appeared in the Chen family.

Only in this way would the quality of the Chen family's luck change from ninth-grade to eighth-grade.

Only then would the Dao Integration Bead reach the second stage and increase the amount of energy it could refine every day.

At the same time, the Dao Integration Bead also told Chen Yang the energy needed to increase the demon beast bloodline.

According to the information of the Dao Integration Bead, upgrading the demon beast bloodline to the minimum Demon Venerable level required at least 1,000 energy points.

As for the demon general bloodline, the Dao Integration Bead was not interested.

“Stop laughing for now. Let's go to Feng City now.” Chen Yang pulled Elder Chen Xuan back from his silly laughter.

“To Feng City? I understand.” Elder Chen Xuan knew that Chen Yang was planning to instigate the Feng family in rebellion.

He immediately packed up and rode the Green-horned Bull to Feng City with Chen Yang.

As Maple City was close to Feng City, the two of them did not hide and headed to Feng City with great fanfare.

Of course, there was no need to hide it. In fact, ten days ago, Chen Yang had already arranged for his clansmen to disperse the Gongsun family's spies.

The Gongsun family was also afraid of pricking the Chen family's nerves and making them fight or escape in advance, so they recalled all their spies.

As for Feng City, the Gongsun family also did not want to plant spies in Feng City at such a critical moment.

The Alliance was already weak. It would be a huge loss if the Alliance collapsed because of the spies.

As for how Chen Yang knew that Feng City did not have any spies from the Gongsun family, what a joke, Chen Yang had already sent his spies to Feng City earlier on.

In Feng City, the head of the Feng family was drinking in a restaurant when his subordinate suddenly reported, "Family Head, the scouts have reported that the head of the Chen family and the first elder of the Chen family are here."

"The Chens? What's he doing here?"

Family Head Feng held his wine glass and thought for a moment before instructing, "Bring them to the reception hall. Remember, don't let anyone else discover it."

"Yes!"

At this moment, Family Head Feng had a rough guess in his heart. This Family Head Chen had probably come to instigate the Feng family.

However, Family Head Feng could not figure out what the Chen family had to rely on to instigate the Feng family in rebellion.

Taking advantage of the unhappiness between the alliances? That wouldn't be enough.

Chapter 38

At the Feng residence.

Under the lead of the Feng family's trusted general, Chen Yang and Elder Chen Xuan arrived at the Feng family's meeting hall.

At this moment, the Feng family's head was sitting on the main seat and looking at the two of them solemnly. "I didn't know that the Chen family's head was coming. Please forgive me for not welcoming you."

"Master Feng, I'm here to save the Feng family." Chen Yang didn't know what to say, so he went straight to the point.

"Save us? Family Head Chen, I know the reason you came this time is to instigate our Feng family. To tell you the truth, it's impossible!"

"Mo Yu, send the guest out!" Family Head Feng immediately ordered them to leave.

As for Family Head Feng's trusted aide, he came to Chen Yang's side and pointed at the door. "Family Head Chen, please."

"Slow down!"

Chen Yang waved his hand, indicating for Mo Yu to leave first.

After receiving a nod from Family Head Feng, Mo Yu left the meeting hall and closed the door.

After no one was around, Family Head Feng said again, "Family Head Chen, just say what you have to say. I'll say this in advance. I definitely won't betray the alliance."

Hearing this, Chen Yang was not angry at all. Instead, he opened his Beast Taming Bag. One by one, demon generals crawled out of the Beast Taming Bag and stood motionless in the meeting hall.

The Feng family's meeting hall was not small, but after the four demon generals appeared, it became a little crowded.

Then, Chen Yang and Elder Chen Xuan emitted the aura of the Genesis Realm together. "Family Head Feng, can we do it now?"

Looking at this situation, the corners of the Feng family's head's mouth twitched, but he still refused to admit it. "These are not enough to make my Feng family betray the alliance."

Not enough. That meant he could still betray the alliance.

Sensing Family Head Feng's softening, Chen Yang took a step forward. "Family Head Feng, listen to me."

"I wonder if Family Head Feng knows that Gongsun Lu has returned?"

"What did you say? Gongsun Lu is back?" Family Head Feng stood up with a look of disbelief.

As expected!

Seeing that the Feng family's head was so shocked, Chen Yang felt much more confident in instigating the Feng family's betrayal. "Look, even though their Patriarch had returned, they didn't inform the Feng family of it. The Gongsun family doesn't really treat the Feng family as an ally."

Family Head Feng frowned. "Family Head Chen, what do you mean?"

"I don't mean anything. I just want Family Head Feng to consider clearly what the Gongsun family is planning."

“Let me answer for Family Head Feng. The Gongsun family hid the news of Gongsun Lu’s return because they wanted to catch everyone off guard.”

“But who is this surprise attack aimed at? You have to know that the Gongsun family doesn’t know that our Chen family has so many demon generals hidden.”

“The answer is self-evident. The Gongsun family wants to wait for the alliance to deal with my Chen family before joining forces with the other family to get rid of the family that stands between the two families, which is the Feng family.” Chen Yang smiled.

After hearing Chen Yang’s words, Family Head Feng took two steps before sitting back down on his chair and picking up his teacup again.

However, Family Head Feng himself probably did not know that his hands holding the teacup were trembling.

‘In the end, it’s just a figment of your imagination.’

“Imagination?” Chen Yang slowly walked up to Family Head Feng and looked straight into his eyes. “Family Head Feng, if what I just said was just a delusion, then the Gongsun family letting the Feng family be harassed by us is not a delusion, right?”

“Think about it. If an alliance can’t even guarantee the safety of its allies, how can it guarantee that the alliance leader has no other intentions?”

The Chen family’s words completely stung Family Head Feng.

The Feng family head was drinking alone in the restaurant because the Gongsun family and the Liu family ignored the problems that the Feng family had encountered.

When Chen Yang saw this, he knew that he had almost succeeded in instigating the rebellion. He immediately struck while the iron was hot. "Family Head Feng has also seen our strength."

"As long as the Feng family is willing to stand on our side, our four families will definitely be able to devour the Gongsun family and the Liu family tomorrow."

"You have to know that including the Feng family's Patriarch, we can display the battle strength of 10 Genesis experts."

"In order to compensate the Feng family, you can have the Liu family completely."

****PA!****

Family Head Feng slammed the table with a furious expression. "It was your Gongsun family and the Liu family who were heartless to me first. Then don't blame me for being ruthless!"

"As I expected, Family Head Feng is indeed a person who does great things. In that case, it's settled. We'll see what happens tomorrow." Chen Yang smiled.

"Family Head Chen, don't worry. My Feng family will definitely follow your orders." Family Head Feng revealed a look of submission.

After instigating the Feng family, Chen Yang and Elder Chen Xuan returned to the Chen family overnight. They had to make arrangements for the battle tomorrow.

"Family Head, First Elder, all the clansmen who have learned the SunBurst Fist are ready. We're just waiting for the Family Head's order."

In the meeting hall, Second Elder Chen Meng cupped his fists and reported the situation to Chen Yang.

This SunBurst Fist was an eighth-grade martial art that Chen Xuan had obtained. Chen Yang had long instructed his clansmen to practice it.

For this life and death battle, Chen Yang had long made preparations a year in advance to do everything possible to increase the strength of his clansmen.

Although in the end, they still had to compete with the strength of the Genesis powerhouses on both sides, Chen Yang valued the safety of his clansmen.

It was night and quiet. Chen Yang also sat quietly in the meeting hall for the entire night.

After the morning light shone through the window into the meeting hall, Chen Yang stood up and slowly walked to the door.

He grabbed the door latch with both hands and pulled hard. The light quickly shone on Chen Yang's face.

“Changes in the world. A great battle is about to begin!”

At the same time, in the Gongsun Family in Gongsun City.

At this moment, Gongsun Miao was giving his final speech.

“My clansmen, this battle concerns the battle for my Gongsun family to become the overlord of Nanyang County. After this battle, you will all be members of the number one ninth-grade family in Nanyang!”

“Therefore, I hope that you can carry on the honor of the Gongsun family and kill the enemy with all your might!”

“However, you don't have to worry. The Chen family is exhausted, and our Gongsun family's Patriarch Gongsun Lu returned yesterday.”

“With the help of the Feng family and the Liu family, we have the advantage in this battle!”

In order to verify Gongsun Miao's words, Gongsun Lu also stood in front of the Gongsun Clan, transmitting his will to win.

“Victory! Victory! Victory!”

As the clansmen roared three times, the fighting spirit of the Gongsun family had already reached its peak.

Then silence followed.

As everyone waited, the agreed time finally arrived. Gongsun Miao and Chen Yang gave the order to set off almost at the same time.

“Move out!”

Immediately, the Gongsun family and the Chen family headed towards the Endless Mountains.

The citizens of the two cities also learned of the bet between the two families.

This was undoubtedly a good thing for them. No matter who won, many demon beasts in the Endless Mountains would definitely be eliminated.

That was only what they thought, of course.

However, there were also many smart people who guessed the meaning of the decisive battle between the two families. They quickly packed their bags and ran.

The world is changing, and a great battle began. It was still unknown who would win!
