

Tamer Family 41

Chapter 41: The Origin of the Gongsun Family

No matter what, the Gongsun family was still a vassal family of the Beast Tamer Sect. Even if they were destroyed, it would still be a vassal family of the Beast Tamer Sect who would inherit their business and territory.

If the Song family was greedy for this, then they would be too ignorant.

At that time, it wouldn't be the Song family dealing with the Chen family, but the Beast Tamer Sect would have an excuse to deal with the Song family.

One had to know that the Song family was not a vassal family of the Beast Tamer Sect. If they could find an opportunity to deal with the Song family, the Beast Tamer Sect would be more than happy to do so.

Master Song returned the benefits that the Chen family originally deserved to the Chen family in a rewarding tone.

Even so, Yang Chen still had to thank the Song Family." The Chen Family represents several aristocratic families and thanks the Song Family for the reward."

"Yes, you're welcome."

Under Yang Chen's watchful eyes, the Song family head led the Gongsun family and the others out of the Endless Mountain Range.

After it completely disappeared, Chen Yang said expressionlessly, "Great Elder, do you know the background of the Gongsun family?"

Chen Xuan quickly told Chen Yang what he knew." Reporting to the family head, I don't know how the Gongsun family rose to power."

“But I know that the Gongsun family was still an eighth-rank family 300 years ago. In the end, its grade declined, and it became a vassal sect of the Beast Tamer Sect.”

“It’s not surprising that his family has passed down a treasure that even the Song family desires.”

Yang Chen understood. So that was what happened. However, the Song family head had also followed him to the Endless Mountain Range. He was afraid that he did not have good intentions.

“Great Elder, what did I say? The Song family had long been colluding with the Gongsun family.”

“However, this is also good. When we report to the Beast Tamer Sect, we will have a reason to swallow the Gongsun family.”

“The Beast Tamer Sect might not blame the Song family, but they won’t blame us for the destruction of the Gongsun family either.” Yang Chen said.

First Elder nodded. The Song family’s sudden involvement was both good and bad.

“I’m afraid we won’t be able to get a single spirit stone from the Gongsun family.” Thinking that Gongsun Miao was going to take away the spirit stones, Chen Xuan felt a little uncomfortable.

“Alright, First Elder, you have to be content. It was already very good to be able to swallow up the Gongsun family’s business.”

Chen Yang patted Chen Xuan’s shoulder and then went to the three ancestors of the other families.

“Patriarch Feng, I’ll give the Liu family’s business to the Feng family. As for the spirit stones that the Liu family promised, I’m afraid I can’t give them to the Feng family.”

“Alright, I’m already very satisfied with this.” Feng Hui echoed without any arrogance.

Feng Hui was already very satisfied to be able to swallow the Liu family's business to earn spirit stones. If he could maintain this business well, his future income would be more than three thousand spirit stones.

After distributing the Feng family's benefits, Chen Yang looked at Ancestor Mo and Ancestor Xue." Next, it's our family's turn to distribute the benefits."

"Let me say this first. The Gongsun family's business of raising subdued beasts can probably only be inherited by my Chen family. I hope you can understand this."

As a beastmaster family, the Gongsun family's most profitable business was raising subdued beasts. A conservative estimate would be that he could bring the Song family eight hundred spirit stones a year.

For such a big business, Yang Chen had to make a deal in advance.

Ancestor Mo and Ancestor Xue had no objections." Alright then, we'll leave this business to the Chen family."

The Mo family was not a vassal family of the Beast Tamer Sect. Inheriting this business could not sell the Beast Tamer Sect.

As for selling someone else, if the Mo family dared to do so, the Beast Tamer Sect's army would immediately arrive at the Mo family.

The Li family could inherit the subdued beast business, but the Li family was helping the Chen family after all. If they used this reason to take over the production line, the Beast Tamer Sect would probably not acknowledge it.

If the Li family forcefully took it down, the good outcome would be that the Beast Tamer Sect did not care. The bad outcome would be that they would directly take back their rearing qualifications and reward them to other vassal families.

Instead of doing this, it was better to give it to the Chen family.

Seeing that the two ancestors had no objections, Chen Yang continued, "Very well, my Chen family will not interfere in the refined iron ore business. Let the two families develop it."

"In addition, the Liu family has 3,000 spirit stones. We will each have 1,000 spirit stones. What do you think, ancestors?"

The Gongsun family, as an established ninth-rank family, was unlike the Chen family, who could only rely on raising demonic beasts for the Beast Tamer Sect in exchange for spirit stones.

This refined iron ore was another source of Spiritual Stones for the Gong Sun family. It could produce 1,000 Spiritual Stones every year.

However, the mineral resources were limited, and they would be completely exploited one day.

Yang Chen was a little embarrassed to give this business to the two families as compensation.

Ancestor Mo smiled at this. "Don't worry, Chen Clan Leader. The Chen Clan has paid the greatest price in this battle. It's only natural that they would take the majority."

"My Mo Family only needs a promise. One day, when the Chen Family is rich, don't forget about us."

The Mo Family Head had lived for so long, so he was naturally familiar with the "Pattern

"The same goes for my Li family." Ancestor Xue didn't have any objections.

"Don't worry, my Chen Family will never mistreat our allies." Yang Chen patted his chest.

"My suggestion is to divide the territory of the Gongsun family into three. If you don't want to take the territory, it's more convenient for the alliance to exchange for it."

“If you don’t want to change, then everyone should look after each other.”After dividing up the business, it was time for the territory.

There were many people living in each territory. Not only could this bring labor to the aristocratic families, but if they found people with outstanding martial arts talent, they could also be recruited into the family.

It could be said that the importance of population was no less than that of spirit stones.

The two forefathers naturally did not object to the division of the Gongsun family.

The remaining small businesses, such as farms, were not for the three of them to consider. Even if they wanted to divide them, it would be discussed by the elders.

This small matter was not enough to trouble the ancestor.

Looking at the ancestors dividing up the Gongsun family, Ancestor Liu smiled bitterly. He had no choice but to stand on the wrong side.

Moreover, the Chen family had such great potential. The Liu family would probably have a hard time.

For a moment, the Liu family’s Patriarch had already thought about how and where to move.

“Ancestors, go and accept our spoils of war.”

Gongsun City, Gongsun Family.

Gongsun Ke, the young master of the Gongsun family, was waiting at the gate with the direct descendants of the Gongsun family.

As the young master of the family, he naturally knew about the war with the Chen family. Gongsun Ke had a judgment on the outcome of this battle.

Two of our ancestors are here. Do you think a small Chen family can turn the tables?

After annexing the Chen Family, Gongsun Family will definitely become the number one ninth-rank family in Nanyang. By then, Gongsun Ke's power will also increase by leaps and bounds.

At this moment, Gongsun Ke could already imagine the scene of him becoming the first young master of Nanyang County.

Not long after, Gongsun Miao brought the Gongsun family back to the family. Gongsun Ke saw this and quickly went forward." Father, did your trip go smoothly? Do you want to destroy the Chen family?"

Hearing Gongsun Ke's words, Gongsun Miao was furious.

Especially when he thought about how Chen Yang was younger than Gongsun Ke but had already broken through to the Meridian Opening realm, he looked down on his son even more.

Gongsun Miao slapped Gongsun Ke immediately." Look at you.. All these years of cultivation have gone to waste?"

Chapter 42: Feng City Changed to Chen City

Gongsun Ke was stunned. Did she say something wrong? Why was he hit by his father's palm?

"Alright, hurry up and pack your things. Now that my Gongsun family has been defeated, we will have to take refuge in Song City. As the young master, you must remember today's humiliation!"

Only then did Gongsun Ke understand that it was because he had failed that he treated her like this.

Wait a minute...

How could he lose in such a win-win situation?

Gongsun Ke did not know how he lost, but he knew that this time, not only would he not be the First Young Master, he would not even be the Young Master of a ninth-rank aristocratic family.

The news of the Gongsun family's defeat swept through the entire Nanyang County like the autumn wind sweeping away the fallen leaves.

No one had expected that the Gongsun family, which was not considered weak among the ninth-rank families in Nanyang County, would be destroyed so quickly.

At the same time, Yang Chen had also officially entered Nanyang County, and even the entire Jiang Prefecture's aristocratic families.

There was nothing else.

Ever since Yang Chen took over the Chen Family, it had only taken two years for them to grow to this stage. No one would believe that Yang Chen had nothing to do with it.

One had to know that two years ago, before the ancestor of the Chen family had left, the Chen family had not been able to destroy the Gongsun family.

One could imagine how important Yang Chen was to the Chen family.

Moreover, according to the rumors, even the ancestors of the Li family and the Mo family followed Yang Chen's lead. All of a sudden, Yang Chen was shrouded in a layer of mystery.

This was not the end. Compared to Yang Chen's methods, his aptitude was even more shocking.

Breaking through to the Meridian Opening realm at the age of 20. With such talent, not to mention Nanyang County, even in the Beast Tamer Sect, there were few people who could compare to him.

One had to know that Chen Yang's cultivation resources were far inferior to the Beast Tamer Sect disciples.

Even the Zifu Disciple of the Beast Tamer Sect sighed when he heard about it. Chen Yang's talent was even stronger than his.

Admittedly, future achievements weren't something that could be determined by talent alone. But if even Patriarch Zifu had praised his talent, one could imagine how great his future achievements would be.

Some busybodies even called Chen Yang the number one monster in Jiang Prefecture. No genius came out to refute this.

There was nothing they could do. The truth was right there. They had no choice but to accept it.

As all kinds of rumors spread, time moved back by a month.

Within a month, the Chen family successfully swallowed the business and territory of the Gongsun family.

Even the Beast Tamer Sect agreed to transfer the subdued beasts in charge of the Gongsun family to the Chen family because of Chen Yang's talent.

The entire Chen family was thriving.

In the Chen family's meeting hall.

Chen Yang was discussing the matters of the family with Chen Xuan. He would need some time to digest all of these things that he had suddenly swallowed.

Before it was completely digested, there would be a lot of trouble.

However, no matter how troublesome it was, Yang Chen had no choice but to stop. This was because according to the report, the county governor of Nanyang County and the county magistrate of Feng City had been killed. They arrived at the Chen family together and were currently in the reception hall.

Putting down the booklet in his hand, Yang Chen took a deep breath." First Elder, let's see what those two are here for."

"Yes."

Immediately, Yang Chen and Yang Ming put down their work and went to the guest hall together.

In the reception hall, the county governor and county magistrate were sipping hot tea when they heard a hearty voice enter the hall from outside.

"Hahaha, it's an honor for the two of you to visit my humble residence."

Before they entered the reception hall, Yang Chen's voice reached the ears of the two adults. When the county governor and magistrate saw this, they also stood up and waited for Chen Yang.

The Chen family was not ordinary. They could not put on airs anymore.

After entering the hall, Chen Yang quickly walked to the Prefectural Governor's side and helped him to a chair.

As for Chen Xuan, he helped the county magistrate sit down.

"Milords, may I know if there is anything you need my Chen Clan to do for you?" Chen Yang smiled as he supported the Prefectural Governor.

After the county governor sat down, he cupped his hands at Chen Yang. "Chen Clan Leader, we have indeed come here for a reason."

Hearing this, Yang Chen quickly sat down on the main seat and asked, "Oh, may I ask what is it, sir?"

"It's like this. According to tradition, if a city has a ninth-rank aristocratic family guarding it, then the city will be named after the family's surname."

"In the past, although the Chen family was established, they relied on the protection of the ancestor and were not strong, so they did not change their name."

"Now, under the leadership of the Chen Clan, the Chen Clan has become a large clan in Nanyang County. This matter of changing his name could not be delayed."

At this point, the county governor stood up and took out a standard manual. "By the Great Qian King's decree, the Chens obey!"

Yang Chen quickly stood up and bowed.

This was similar to the imperial edict in Yang Chen's previous life, but the Chen family, as a ranked aristocratic family, did not need to kneel down to welcome them.

Seeing that Chen Yang was ready, the Prefectural Governor continued to announce, "The Chen clan of Nanyang County has established a clan in honor of the heavens and guarded a city. In recognition of the achievements of the Chen clan, we have specially renamed Feng City to Chen City!"

"Miss Chen, accept the decree!"

Even though this decree was standard, Yang Chen still received it from the Prefectural Governor respectfully.

After reading the decree, he smiled and said, "There is one more thing. According to the rules, the Chen family needs to send a strong person to take the position of county magistrate of Chen City."

"Lord Chen, I hope that the Chen clan can make arrangements to ensure Chen Cheng's safety."

What the county governor said was an unknown rule in the Great Gan Lord Dynasty.

In the Great Gan Lord Dynasty, every aristocratic family that had entered the ranks had to enter the official career.

This would not only give the aristocratic families another way out, but it would also strengthen the relationship between the aristocratic families and the royal family. To a certain extent, it would prevent the possibility of the aristocratic families rebelling.

Moreover, the county magistrate of this world had quite a bit of power. Not only did he command the soldiers of his city, but he also had the power to appoint and dismiss officials in the city.

In cities without ranked aristocratic families, this position had never been issued before.

Similarly, this position was also a promise the royal family gave to the aristocratic families: From today onwards, this city is yours.

After saying all that, the county governor did not stop and left.

On the other hand, the county magistrate smiled and chatted with Yang Chen. His words expressed his respect for the Chen family.

At the same time, he also hoped that the Chen family would quickly send someone to be the county magistrate so that he could enjoy a peaceful life.

If anything happened, the Chen family would bear the responsibility. If there was merit, he could also use it to rise in rank.

This might be the only benefit of being a county magistrate in a place with a ranked aristocratic family.

After the county magistrate left, Chen Xuan came to Yang Chen's side and sighed, "Patriarch, if this was two years ago, I would never believe that my Chen clan could reach this level under your leadership."

"But now, my Chen family has really done it. As expected of what the ancestor said, the patriarch is my Chen clan's Hu Zi."

Chen Yang smiled and looked at Chen Xuan. "This is nothing. As long as we work together, the Chen family's limit is far from this."

Looking at the sky, Chen Xuan slowly said, "That's right..""

Chapter 43: Rogue Cultivator's Invasion

The matter of Feng City changing its name to Chen City was settled in less than a day.

As for who would be appointed as the county magistrate, the Chen family had not decided yet, so they could only let the county magistrate temporarily take over the position.

Although the county magistrate also found it troublesome, it was someone else's territory after all. The county magistrate could only bitterly agree and pray that someone would replace him soon.

Of course, Yang Chen wasn't trying to make things difficult for the county magistrate. It was just that this position was too important, and he had to go through many rounds of selection.

In the Chen family's meeting hall, Chen Yang and Chen Xuan were still discussing the matter of the county magistrate.

“Grand Elder, I think we should send my big brother over. Not only is my big brother of a suitable age, but his cultivation is also not weak.” Yang Chen advised.

Chen Yang’s eldest brother was the son of the Great Elder, Chen Daodao. He was now thirty years old and his cultivation had already reached the seventh level of the Qi Refining Stage.

This aptitude was already very good in a ninth-rank aristocratic family.

However, Chen Xuan did not agree with this. “No, I know my own son. He’s not cut out for this.”

“Family Head, although Chen Dao’s talent is good, his strategy is limited. Isn’t letting him become the county magistrate pushing him into the fire pit?”

Seeing that the Great Elder was so insistent, Chen Yang felt a little helpless. “In that case, who do you think should be the county magistrate?”

Chen Xuan thought seriously for a moment, then said, “Patriarch, I think it’s more suitable for Second Elder’s son, Chen Shan, to be the county magistrate.” “As a result, Chen Shan has handled many matters in the family and has sufficient management experience.”

“Secondly, Chen Shan is more tactful in his dealings with the world, and is more suitable for the position of county magistrate. After becoming a county magistrate, you won’t be dealing with our family anymore.”

“Besides, Chen Shan’s talent is excellent. He’s only 27 years old now, but he’s already at the seventh level of Qi Refinement. He’s the most suitable person to send.”

After hearing Chen Xuan’s words, Chen Yang pondered for a moment and then said, “In that case, let Second Brother and Second Elder come over.”

Not long after, Chen Meng and Chen Shan both arrived at the meeting hall.

“Greetings, Patriarch.”

“Second Elder, Second Brother, please take a seat.”

After the two of them sat down, Yang Chen continued, “I called the two of you here because I have something to discuss with the two of you.”

Chen Meng and Chen Shan looked at each other and said in unison, “As you wish, Patriarch.”

“It’s like this. I plan to send Second Brother to be the county magistrate. What do you think?” Yang Chen went straight to the point.

“This...”

Chen Yang’s sudden mention stunned Chen Meng and Chen Shan.

After a while, Chen Meng finally reacted. “Master, you can’t. What did Chen

Shan do to deserve such an important position?”

Here it comes again...

After complaining to himself, Chen Yang looked at Chen Xuan. “First Elder, repeat what you said to me just now to Second Elder.”

“Yes.”

Immediately, Chen Xuan explained the reason to Chen Meng again.

After hearing Chen Xuan's explanation, Chen Meng took a deep breath and slowly said, "In that case, let Chen Shan go."

Chen Shan patted his chest and said, "Family Head, don't worry. I will definitely not let down the family's expectations and live up to the family head's high hopes!"

"In that case, the two of you can leave. Second Brother, accompany Second Sister-in-law and Second Elder well. You should go and take up your post tomorrow."

"Yes, sir!"

After Chen Shan came out of the meeting hall, he had something to say in his heart. When there was no one around, he took two steps forward and followed Chen Meng.

"What do you mean? You don't need to know this. You just need to remember that you can't forget the Chen family and betray the family head. That's all." When Chen Shan heard this, he nodded his head in a half-understood manner. Chen Meng sighed at the side. "Our family head isn't as kind as he looks. Of course, if we don't have second thoughts, the family head won't treat us badly." "In short, this is an opportunity. Shan 'er, seize him. One day, you might be able to stand at the peak of Da Qian with the family head."

"I understand."

In the meeting hall, after settling the matter with the county magistrate, there was still a lot of things waiting for Yang Chen to deal with.

Just as Chen Yang and Chen Xuan were discussing how to deal with a troublesome matter, the guard suddenly ran in.

"Patriarch, Grand Elder, the county magistrate has sent a message. If there are any rogue cultivators causing trouble in Chen City, please deal with them as soon as possible."

“Rogue cultivators causing trouble?” Chen Yang looked at Chen Xuan in puzzlement. “This rogue cultivator still has the guts to cause trouble in Chen City? Great Elder, do you know what happened?”

Chen Xuan shook his head. “I don’t know either, but it shouldn’t be a big deal. Just send someone to handle it.”

“No, I don’t think it’s that simple.”

Yang Chen thought for a moment and then said, “How about this? I’ll take my eighth sister, ninth sister, and tenth brother to deal with it. If there’s nothing else, just treat it as training.”

“If there’s anything, I can know in advance.”

“That’s good too. With the patriarch taking action, we can know in advance if there are any schemes.” Chen Xuan did not have any objections.

Immediately, after dealing with the urgent matters, Chen Yang brought the Eighth Brother Chen Yu, the Ninth Brother Chen Ru, and the Tenth Brother Chen Xiao to the place where the rogue cultivators were causing trouble.

Chen City, in a shop.

Chen Yu took out an embroidered handkerchief and wiped the tears from the eight-year-old child’s face. Then, she looked at the owner of the shop.

“What exactly happened?”

The merchant clutched his injured arm and said, “Eighth Miss, about a day ago, five freelance martial artists broke into my house and robbed the spirit stones I had hidden.”

“This lowly one’s strength is weak. Even if I wanted to resist, I couldn’t stop them.”

“However, this group of rogue cultivators seemed to be very anxious. After snatching the spirit stones, they quickly escaped. Otherwise, I wouldn’t be able to keep my life.”

After listening to the merchant, Chen Yu came to Chen Ru and Chen Xiao’s side.” What do you think?”

“Thoughts? My opinion is to kill these bastards!”Chen Xiao had a face full of anger.

Such a thing actually happened in the Chen family’s territory. Wasn’t this a slap to the Chen family’s face?

If it was just slapping the Chen family’s face, it would be fine. However, the future pride of the Chen family, Chen Xiao, the true dragon of the Chen family, was still around. How dare you do this? Aren’t you looking down on me?

After imagining a big show, Chen Xiao went to the shop owner.” Tell me, where are those bastards?”

The merchant was stunned for a moment before stammering,”This... I’m not sure about that. According to the neighbors, this group of freelance martial artists also robbed several merchants and then ran north.”

“North?”

Chen Xiao immediately came to Chen Ru and Chen Yu’s side.” We will search north and use the blood of these bastards to avenge the Chen Family!” “Alright, let’s go!”

Chen Yang, who was following behind, slapped his forehead when he saw this.

Damn it, why did he have to show them those manuscripts? Now, they were all more chuunibyou than the other.

This was especially true for Chen Xiao. He said every day that he was the True Dragon of the Chen family and that he would become an ultimate existence in the future..

Chapter 44: Demonic Beast! Demonic Beast!_i

However, to be honest, this chuunibyouto state was not bad.

At the very least, these people's attitude towards cultivation was much more serious than before.

This was especially so for Chen Xiaomei, who was only fifteen years old and had already reached the fifth level of Qi Refinement. If not for Chen Yang, Chen Xiao would have been given the title of Chen Clan's Huzi.

The only thing Yang Chen regretted was that he didn't have a recording device. Otherwise, he could record this scene and it would definitely be a good show in the future.

Under the investigation of the Chen clan's three little ones, they really found this group of itinerant cultivators in a dilapidated temple in the north of Feng City.

This was also the credit of the county magistrate of Chen City. After he received the report, he quickly sealed the city gate.

These freelance martial artists had the guts to rob the merchants. It would be better to kill them than to force their way through the city gates.

As soon as they met, Chen Xiao drew the sword at his waist." Thief, how dare you cause trouble in a city under my Chen clan? I think you don't want to live anymore. Take this sword!"

Then, Chen Xiao shot out like an arrow leaving the bow. The tip of his sword flickered with a cold light as he stabbed at the rogue cultivator at the front. "Not good!"

The rogue cultivator was forced to resist. However, his strength was only at the fourth level of Qi Refinement. In a few moves, he was stabbed by Chen Xiao.

When the other itinerant cultivators saw this, they looked at each other with madness in their eyes.

“Go! Let’s go all out!”

For a moment, the five itinerant cultivators surrounded Chen Xiao.

Although Chen Xiao was talented and powerful, he was still young and lacked actual combat experience, so he quickly fell into a disadvantage.

When Chen Ru and Chen Yu saw this, they quickly went forward to help Chen Xiao.

Chen Ru and Chen Yu were slightly older than Chen Xiao, one seventeen and one eighteen. However, his martial cultivation was not comparable to Chen Xiao’s.

Now, they were all at the fourth level of Qi Refinement.

But even so, it still relieved quite a bit of pressure on Chen Xiao.

After waiting for an opportunity to stab an itinerant cultivator with his sword, Chen Xiao abandoned his sword and circulated his spiritual energy to gather it in his right fist. Then, he punched out.

“Sun Opening Fist!”

With the combination of the Rank-8 martial art and Chen Xiao’s own powerful strength, he killed the Level 4 Qi Disciple rogue cultivator with one punch.

This was the first time he had killed someone, so Chen Xiao was stunned on the spot.

“Chen Xiao, be careful!”

When the other rogue cultivators saw Chen Xiao’s stunned expression, they hurriedly drew their sabers and slashed at him. The one closest to Chen Xiao was only an inch away.

At this moment, a terrifying aura swept through the ruined temple.

The huge aura pressure directly pressed this group of itinerant cultivators to the ground. At the critical moment, Chen Yang saved Chen Xiao’s life.

“Seventh Brother!”

Seeing Yang Chen come over, the three little ones hurriedly bowed.

Chen Yang glanced at Chen Xiao and said lightly, “Your vacation is over. We can talk about rest when you’re not in such a situation.”

Although Chen Xiao was depressed, he still agreed honestly, “Yes.”

After settling Chen Xiao, Chen Yang looked at the freelance martial artists.

Tell me, why did you rob the merchants?”

“Will you let us go after we toll you?” A rogue cultivator said in trepidation. “Hmm?” Yang Chen’s eyes turned cold. He then punched the rogue cultivator to death. “You have no room to bargain with me.”

When the other rogue cultivators saw this, they were so scared that they fell to the ground and kept kowtowing to Yang Chen.

“Answer my question.”

“Yes, the five of us were originally going to the Endless Mountain Range to hunt demon boasts and search for spiritual herbs.”

“However, for some reason, we’ve been encountering demon general level demon boasts at the edge of the Endless Mountain Range.’1

“We had no choice but to rob the merchants. Please be magnanimous and let us go.”

Yang Chen frowned when he heard the secret practitioner’s words. Why would a demon general level demon beast appear at the edge of the Endless Mountain Range?

It seemed that he really had to go and see for himself. Who knew what had happened?

Immediately, Chen Yang looked at Chen Xiao.” I’ll give the three of you a mission. Send these three freelance martial artists to the county office.””

“After completing the mission, I will reward each of you with a spirit stone.”

When Chen Xiao and the other two heard this, their eyes instantly lit up. Although they were direct descendants, the number of spirit stones they could receive each year was not much.

One spirit stone for escorting a person, where could one find such a deal?

Immediately, the three of them nodded like chicks pecking at rice.

Seeing this, Yang Chen looked at the group of itinerant cultivators again. ” I’ll send you to the county office. You still have a chance to survive. If you dare to escape, you’ll die without a doubt!””

“We understand, we understand.”

When Yang Chen saw this, he released the Light Plucking Eagle and rode it towards the Endless Mountains.

Looking at Chen Yang's receding figure, Chen Yu could not help but ask,..... When

will we be able to have demon general-level subdued beasts?"

When Chen Xiao heard this, he snorted coldly. It was just an unorthodox path. The true path of the strongest would definitely be for him to walk to the peak." "Just wait and see. Sooner or later, I will rely on my own strength to beat Seventh Brother. At that time, I will also let Seventh Brother study day and night."

"Hahaha..."

When Chen Yu saw this, a bitter smile appeared on her face. It was over. Old Ten was dumbfounded. Should he tell the Eighth Elder to give up on Tenth Brother and have another one?

Outside Chen City.

After two hours of traveling, Yang Chen finally arrived at the Endless Mountains.

After taking a look at the Endless Mountains, Yang Chen felt a chill down his spine.

Many demon beasts were lying on the ground at this moment, and there was no lack of demon generals among them. Yang Chen even saw a Demon Venerable level demon beast.

What shocked Yang Chen the most was that many of the demon beasts that were natural enemies of each other were lying on the ground obediently.

At this moment, Yang Chen only had one thought.

Demon Tide!

Demonic beasts attacking the city!

Immediately, Yang Chen did not dare to stay any longer. He quickly urged the Light Plucking Eagle and sped towards Chen Cheng.

In Chen City's county office, the county magistrate was flipping through a book in boredom. Being a county magistrate in a city guarded by a ninth-rank aristocratic family was boring.

"Soon. After the Chen family has made some achievements, I can also be promoted."

The county magistrate lay on the armchair, fantasizing about the scene after he was promoted. Being a county magistrate was so easy, and he could even use this opportunity to be promoted. It was too comfortable.

At this moment, the constable suddenly rushed in, "Report, the Chen Clan Leader requests an audience."

"Chen Clan Leader?!" The county magistrate jumped up from his armchair and quickly tidied his clothes, "Quick, let's invite the Chen Family Head."

When the Chen Clan Leader entered, the county magistrate hurriedly stood up to welcome him. "I didn't know that you would come. Please forgive me!" "Magistrate, something happened! When I went to the Endless Mountain Range, I found many demon beasts gathered at the edge of the Endless Mountain Range. They seemed to be attacking the city."

"Demonic beasts attacking the city?" Yang Chon's words gave the magistrate a fright. It had been a long time since a demon beast attacked the city. How did he manage to catch up?

"Chen Clan Leader, is this true?"

“I’m not joking.” “Please do not hesitate, Magistrate, Once the demonic beasts attack the city, thousands of people will be in purgatory?” Yang Chen said with a serious face.

The county magistrate thought for a moment and then said, “Quick, issue a level one alert order!” All the civilians outside the city were to be moved into the city!

Chapter 45: Demon Tide

“In addition, inform the Prefectural Governor of the news of the demon horde and request reinforcements from the county.”

Due to Yang Chen’s status, the county magistrate did not even ask for confirmation and directly issued a level one alert order.

After informing the magistrate, Yang Chen rushed back to his family.

“Master, you’re back.” Seeing Chen Yang return, Chen Xuan quickly went forward to welcome him.

“Great Elder, something big has happened! I discovered that a large number of demonic beasts had gathered. I reckon that a large demon wave will sweep over.” Yang Chen said seriously.

“Demon horde?” “Patriarch, is this true?” asked the Great Elder hurriedly.

“It’s true, and I estimate that this demon wave will come in a few days.”

“Patriarch, what should we do?” This was the first time Chen Xuan had experienced a demon tide. He was at a loss for a moment and quickly looked at Chen Yang.

“How about this, all the members of my Chen clan, whether they are direct descendants or collateral relatives, or servants. All of them went out and brought the people outside the city into the city in the

shortest time possible.” “At the same time, open up a place urgently to settle our assets outside the city. If he really couldn’t bring it in, then forget it!”

“Alright, I understand.” Chen Xuan nodded and quickly carried out Chen Yang’s orders.

“Wait, tell the other allies about the demon horde. If the demon horde really erupts, they will definitely suffer.”

“Yes, sir!”

With Yang Chen’s order and the order from the county magistrate, the entire Chen City fell into chaos.

No one had expected that the demon tide recorded in the books would actually descend beside them.

There were also people who doubted this. After all, since the royal family’s ancestor and the demon emperor in the Endless Mountain Range made an alliance, the demon tide had not appeared for a long time.

How could there be a demon beast that would violate the alliance agreement between the two sides and attack Chen Cheng?

However, under the suppression of the Chen family and the county government, this kind of argument disappeared. Everyone obediently listened to the orders of the Chen family.

Chen Cheng didn’t control many villages and towns. In just two days, all the residents outside the city were moved into Chen City.

Although there would definitely be a lot of trouble to settle this group of people, under the threat of the demon tide, all the trouble was nothing.

The Chen family’s businesses in Xiaoqing Mountain had all moved to Feng City. Overall, everything was developing smoothly.

However, Yang Chen was not in a good mood.

In the meeting hall, the county magistrate said with a worried expression, "Lord Chen, the Prefectural Governor rejected my request. He said that under the constraints of the alliance agreement, there will definitely not be a demon horde."

"According to my informant in the prefecture capital, it was the Song family who rejected the request."

Pa!

Yang Chen slammed the table and said angrily, "This Song family head is not a son! If they didn't believe it, they could come and check it out themselves!"

"He didn't even take a look at it and directly rejected the request. I think the Song family is eager for my Chen City to be destroyed by the demon wave!" "Patriarch, what should we do? According to the scouts, there were more demonic beasts at the edge of the Endless Mountain Range." Chen Xuan had a worried expression.

"Now, we can only sweep the snow before our doors. Order all the martial arts aristocratic families in Chen City and all the people who cultivate martial arts to be prepared. This battle will definitely be a fierce one."

"Yes."

Yang Chen had already made all the preparations. Now, he could only pray to the heavens.

A day later.

Accompanied by roars, demonic beasts that covered the sky and earth roared and attacked the city.

In the Chen family's meeting hall.

“Report!”

“Patriarch...Outside the city...A large number of demon beasts have swarmed over from outside the city.” The guard rushed in as if he did not care about his life, panting heavily.

When Yang Chen heard this, he knew that the demon wave was really coming. He immediately shouted, “Pass on my orders. All those with cultivation above the fourth level of Qi Refinement, whether they are direct descendants or collateral relatives, follow me to the city wall to resist the demon tide!” Immediately, Yang Chen decided to head to the city wall.

At this moment, Chen Xuan grabbed Chen Yang's arm tightly. “Family Head, the demon horde is dangerous. You should stay in the Chen family and mobilize the overall situation.”

“Bullshit! Once the city wall is broken, not only the citizens of Chen City, but our Chen family members will also be doomed.”

“How can I hide at home in such a dangerous situation?”

This was the first time Chen Xuan had heard Chen Yang swear in so many years. However, from this, it could be seen that Chen Yang was determined to climb the city wall.

Chen Xuan gritted his teeth immediately. “Forget it. In that case, my Chen family will live and die with this city wall!”

Immediately, Chen Yang and Chen Xuan led the Chen Yang clansmen to the city wall.

Along the way, countless citizens of Chen City knelt down to see them off. They all knew that the Chen family was going to use the lives of the Chen family members to exchange for their hope of survival.

In the crowd, an old man sighed." I've lived for so many years and gone to so many cities. Only the Chen family is willing to give up their lives for us ants."

The reputation of a family was not only dependent on kindness, but also the attitude they had in the face of great disasters.

The Chen family's actions had undoubtedly planted a deep seed among the commoners. When it sprouted, even the royal family would not be able to stop the Chen family.

On the city wall.

Yang Chen took a deep breath as he looked down at the horde of demonic beasts.

At a rough glance, there were more than ten thousand demon beasts roaring outside the city wall. Looking over, it was a black mass.

Among them, there was no lack of demon generals.

Although these demon beasts did not attack, Yang Chen knew that they were only waiting for news.

"Roar!"

Accompanied by a wolf roar in the distance, the demon beasts under the city wall opened their bloody mouths and began to attack the city wall.

Some flying demon beasts directly charged onto the city wall and harvested the lives of the martial artists guarding the city.

"Kill them!"

Yang Chen threw a punch and killed a flying demonic beast. Then, he let out an angry roar.

Under Yang Chen's encouragement, the martial artists guarding the city began to fight back. Those without weapons raised their boulders and smashed them down at the demon tide below.

As for the one holding the sharp weapon, it was the guard on the side who dealt with the flying demon beast.

The Chen Family members didn't stay idle either. They controlled the storm wolves and cooperated with the warriors guarding the city to kill the flying demonic beasts.

As for Yang Chen, he even released his subdued beasts and let them fight wantonly.

Perhaps it was because they were testing the waters, but the first batch of demonic beasts that attacked the city did not have any powerful existences.

For a moment, the casualties were still manageable.

The city wall was still quite strong, and there were no signs of it being breached in a short period of time.

As for the flying demon beasts, with the help of the Light Snatching Eagle and the Winged Tiger, they had already been eliminated, greatly relieving the pressure on the city defense.

Of course, the clearing here referred to the flying demon beasts attacking the city. In the distance, there were countless demonic beasts grinding their teeth and claws, ready to reap the lives of the people of Chen City.

"Why are these demonic beasts so organized?" Yang Chen could not help but ask after killing another demon beast that had climbed onto the city wall..

Chapter 46: Surviving the First Wave Attack

“I’m afraid there’s a spirit eared fox commanding the battle.” Chen Xuan, who was at the side, glanced at the depths of the demon tide with fear on his face. “Spirit Eared Fox?” Yang Chen had heard of this demonic beast before, but he only knew that it was smart. He didn’t expect it to be able to command battles. “That’s right, it’s a Spirit Eared Fox. This Spirit Eared Fox had intelligence, and after breaking through to Demon General, it had intelligence that was not much different from humans.”

“I know that there are signs of Spirit Ear Foxes in the demon tides. Every time there was a demon wave, because of the Spirit Ear Fox’s command, Da Qian suffered heavy losses.”

“Then in the eyes of the Great Elder, what level of existence would the Spirit Eared Fox in this demon tide be?” Yang Chen asked again.

Chen Xuan thought for a moment and then said, “Spirit-Eared Foxes are extremely rare. Generally speaking, a demon tide of this level will at most have a Spirit-Eared Fox at the Demon General level.”

“Demon General...”

Yang Chen suddenly had a bold idea, “Great Elder, if I kill the Spirit Eared Fox, do you think it will be easier to pass the demon wave?”

Chen Xuan was shocked by Chen Yang’s thoughts and quickly dissuaded him. “Master, you must not have such thoughts.”

“This Spirit Ear Fox is basically staying behind the demon wave. It’s absolutely impossible to kill it when surrounded by so many demon beasts.”

“I was just thinking. What are you nervous about?” Yang Chen said casually, but his thoughts were still wandering.

If they could really kill the Ling-eared Fox, wouldn’t they be able to easily pass through the demon horde?

Of course, this still required careful planning.

The Spirit Eared Foxes in this demon wave seemed to have other thoughts. Even though the flying demon beasts were all cleared by Chen Yang, they still did not send new flying demon beasts to replace them.

However, this greatly relieved the pressure on everyone. Seeing that there were no new flying demon beasts coming, Yang Chen let the Light Plucking Eagle and the Winged Tiger wait for an opportunity to kill the demon beasts under the city wall.

Time passed slowly, and the corpses of demon beasts piled up outside the city wall.

Inside the city walls, the bodies of human warriors were placed. Although the first batch of demonic beasts that surged up were not strong, they still caused heavy losses to the people on the city wall.

Fortunately, compared to the menacing attack just now, the demonic beast's attack at this moment was already much weaker.

There was also a period of time when no demonic beasts climbed onto the city wall.

As for the city wall itself, its defensive power was not weak. In addition, from time to time, huge rocks and rolling logs would fall from the city wall. For a time, no demon beast could tear a hole in the city wall.

At this moment, Chen Xuan suddenly exclaimed, "Master, look!"

Chen Yang looked in the direction Chen Yang was pointing and was immediately shocked.

A five-meter-long flying demon beast was slowly flying toward Chen Cheng. The terrifying aura it emitted far surpassed that of anyone on the city wall. "Intermediate Demon General Demonic Beast."

Yang Chen's face darkened. I was wondering why the Spirit Eared Fox didn't send a new flying beast. It turned out that it was planning something big. "Patriarch, what should we do? The demonic beast that

came is a middle stage Demon General Claw Vulture. I'm afraid we won't be able to stop it." Chen Xuan said worriedly.

"What's there to be afraid of? I'll stop it."

Immediately, Yang Chen leaped into the air and stood on the Light Plucking Eagle. He then ordered the Light Plucking Eagle and the Winged Tiger to circle around the outer perimeter of the city wall and wait for the arrival of the Claw Vulture.

"Patriarch, it's too dangerous. Come back quickly." On the city wall, Chen Xuan hurriedly shouted when he saw Chen Yang suddenly jump out.

"Great Elder, the matter on the city wall will depend on you. If anything happens, I will hold you responsible."

"As for the Claw Vulture, leave it to me." Yang Chen had chosen to kill the Claw Vulture outside the city walls because of its strength.

If they were to settle this on the city wall, not only would the shockwaves of the battle spread far away, but the sharp claws of the Claw Vulture would also cause great damage to the city wall.

Not long after, the Claw Vulture flew in front of the Light Flashing Eagle.

Immediately, Yang Chen made up his mind and jumped from the back of the Light Flashing Eagle to the back of the Claw Vulture.

Chen Yang's action not only shocked Chen Xuan, but even the Clawed Vulture did not expect it. It did not even react when Chen Yang landed on its back.

The Claw Vulture was stunned. Yang Chen would not let go of this opportunity. He circulated the pure and vigorous Spiritual Qi in his body and quickly performed the Sun Opening Fist.

Bang!

The punch, which contained terrifying spiritual energy, smashed hard on the spine of the clawed vulture. The terrifying force even broke the spine of the clawed vulture.

The Claw Vulture fell down in an instant. Yang Chen saw the opportunity and jumped back onto the back of the Light Flashing Eagle with the help of the Light Flashing Eagle.

“Good!”

Yang Chen’s actions greatly boosted the morale of the martial artists guarding the city.

However, Yang Chen didn’t let his guard down.

That was a Demonic General Intermediate Stage Demonic Beast. Even if Chen Yang had ambushed it and broken its spine, it would not have lost its combat ability just like that.

As expected, the Claw Vulture flapped its wings twice and flew up again. This time, a crazed bloodlust flashed in the eyes of the clawed vulture.

“Aiyo, the beast is anxious.”

Immediately, Yang Chen urged the Winged Tiger and the Flashing Light Eagle to attack the Claw Vulture again.

Even though the Claw Vulture was an existence in the middle stage of the demon general realm, it gradually fell into a disadvantage under the cooperation of the Light Flashing Eagle and the Winged Tiger.

Chen Yang would also punch the Eagle from time to time, making it struggle to deal with the attacks.

However, the Claw Vulture was not willing to die. When the Light Flashing Eagle and the Winged Tiger rushed forward to bite, the Claw Vulture suddenly bit at Yang Chen without caring about anything else.

The sharp teeth that could bite through metal were only a few inches away from Yang Chen.

If he was bitten by these teeth, Yang Chen would either die or be crippled.

“No!” On the city wall, Chen Xuan let out an angry roar. Damn it, the family head, quickly dodge!

At this moment, Yang Chen suddenly jumped up and grabbed the claws of the eagle with both hands. Even if the sharp teeth pierced through his palm, he did not care at all.

Then, Yang Chen gathered all the spiritual energy in his body into his hands and tore it apart!

Rip!

Yang Chen forcefully ripped off the lower jaw of the Claw Vulture!

The Claw Vulture howled in pain and threw Yang Chen off. The Flashing Light Eagle quickly caught Yang Chen.

The Winged Tiger seemed to be angered by the Claw Vulture’s sneak attack on its master. It gathered all the spiritual energy in its body into its mouth, and a dazzling white light carrying terrifying energy whistled toward the Claw Vulture.

Bang!

An explosion resounded through the world. This attack, which had gathered all the spiritual energy of the Winged Tiger, completely killed the already heavily injured Talon Vulture.

After unleashing this attack, the Winged Tiger had expended too much energy. It could not even continue flying.

Seeing this, Yang Chen quickly gave the order to retreat.

The clawed vulture fell heavily outside the city wall, kicking up a cloud of dust.

The death of the Claw Vulture had completely hurt the demonic beast army. Immediately, with roars coming from behind, the demonic beast army slowly left.

The first wave of the demon wave had finally passed..

Chapter 47: Spirit Stone Crossbow

“Patriarch, are you alright?”

Seeing that Yang Chen had returned, Chen Xuan quickly supported Yang Chen and said with a worried expression.

“I’m fine.” Yang Chen shook off the blood on his hand and took a Grade 9 Blood Coagulation Pill. Then, he let the doctor bandage him.

While the doctor was treating the wound on his hand, Yang Chen ordered, “Grand Elder, we have repelled the demon horde this time, but we cannot slack off.”

“I wonder where the next demon wave will come from.”

“The western and eastern regions are likely to become targets for demonic beasts. Even North City, although far away from the Endless Mountains, could still be attacked.”

“I suspect that this demon wave will sweep through the entire Nanyang County. At that time, even the hinterland of Nanyang County will not be safe, let alone our north wall.”

“Yes, Patriarch, don’t worry. There are people guarding the other three walls. They will definitely inform us the moment they discover a demon beast.” Chen Xuan said.

Chen Yang nodded. “That’s good. However, there’s no need to be too anxious, First Elder.” Our Southwall is the closest to the Endless Mountain Range, so the possibility of demonic beasts attacking the Southwall is still very high.”

“Now plus the demon tide, another wave of attack will come to the south wall. Those beasts don’t want to give up halfway. I guess the next demon tide will still attack the south wall.”

“Next time, this group of demon beasts won’t have it easy!”

Chen Xuan sneered. “The Spirit Stone Crossbows in our Chen City are about to be assembled. They are sharp weapons that can threaten Demon Venerables. It’s enough to defend the city.”

Speaking of the spirit stone crossbow, Yang Chen’s pale face also revealed a smile.

Although the Great Gan Lord Dynasty had the various aristocratic families guard the city, it was not as if they had left nothing behind.

Otherwise, when the aristocratic families started to cause trouble, wouldn’t there be no countermeasures at all?

This spirit stone crossbow was the last resort of every city. Not even Venerable Core Condensation could withstand its power.

Because the game was more expensive, it was usually taken apart for maintenance. When it was time to use it, he would assemble it and use it.

It was also because of the spirit stone crossbow that Chen Yang was confident in defending Chen City.

While Chen Yang and Chen Xuan were chatting, a large group of doctors rushed up the city wall to treat the injuries of the martial artists guarding the city.

The citizens of Chen City in the city also spontaneously demolished their own houses and moved the pillars onto the city wall to serve as rolling wood.

As for the other materials, they were used to strengthen the city walls.

As for the masons, they risked their lives to leave the city. Reinforce the cracks caused by the demon beast's attack.

In this time of crisis, due to the example of the Chen family, the people of Chen City were united and guarded their homeland together.

Seeing the houses being demolished by their owners, Yang Chen was silent for a moment before saying, "Pass down the order. My Chen family will remember your friendship. After the demon wave passes, their houses will be contracted by my Chen family."

"Yes, sir! The patriarch is benevolent!"

The eyes of the family members who were listening to his instructions flashed with admiration. It was not a loss to be able to follow such a righteous family head.

After resting for a while, Yang Chen glanced at the endless demon tide again. "No, I have to figure out how big this demon tide is."

"Otherwise, we don't even have a target, so how can we persist?"

"Patriarch, do you mean to send someone to investigate the situation outside?" Chen Xuan said from the side.

“That’s right.” Chen Yang nodded and looked at the Second Elder.” Second Elder, go and call Chen Xuan over.””

“Yes.”

Not long after, Chen Yang jogged to Chen Yang and knelt on one knee.” Greetings, Family Head!””

“There’s no need to be so polite.” Chen Yang helped Chen Xuan up.” I have an extremely dangerous task for you. Are you willing?””

“This subordinate is willing to die for the family head!”As he spoke, Chen Xuan was about to kneel down again. Fortunately, Chen Yang was quick enough to stop him.

“Don’t be in a hurry to agree. This mission isn’t simple. Now that the demon wave is attacking, the most difficult thing is not to defend the city, but that we don’t know the situation outside.”

“I plan to send you out to investigate if the demon horde has affected Nanyang County.”

“You have a strange bloodline that allows you to gather information about the surroundings and avoid demon beasts. Therefore, this mission can only be handed over to you.”Chen Yang patted Chen Xuan’s shoulder.

In the current situation, even if they sent out a Meridian Opening expert, they might not be able to do better than Chen Xuan.

After all, his bloodline ability allowed him to hear sounds within a ten-mile radius. It was easy for him to avoid the demon wave.

Chen Xuan thought for a moment and nodded.” Don’t worry, Family Head. I’ll definitely complete the mission.””

As he spoke, Chen Xuan planned to leave the city.

“Stop!”

After Chen Xuan had walked a dozen meters, Chen Yang suddenly called out to him, “Remember, your life is more important than the information. The only prerequisite for this mission is to keep you alive.”

When Chen Xuan heard this, he remained silent. Then, he nodded heavily. “Understood!”

Following Chen Xuan’s departure, Chen Yang’s thoughts also drifted into the distance.

God bless us, this operation must go smoothly...

Two hours after the truce, the county magistrate of Chen City came to the city wall with the completed spirit stone crossbow.

Seeing the arrival of the county magistrate, Yang Chen strode to the county magistrate’s side. After casually cupping his hands at the county magistrate, he walked towards the spirit stone crossbow with bright eyes.

Although this spirit stone crossbow was called a crossbow bolt, it looked completely like a cannon.

The county magistrate walked to Chen Yang’s side and introduced the situation of the Spirit Stone Crossbow to him. “Lord Chen, the shooting range of this Spirit Stone Crossbow can reach ten miles.”

“As for its power, it can be divided into three levels. One of them is the full power attack of a third level Meridian Unsealing expert, which costs 100 spirit stones.”

“The second level is the full power attack of a seventh level Meridian Unsealing expert.”

“As for the final grade, it’s equivalent to a full-power attack from a first-stage Core Formation expert. The cost is 10,000 spirit stones.”

“I still have 3,000 spirit stones in my county office. I’ve brought all of them here. I hope the Chen clan leader won’t mind.”

“Magistrate, I, Yang Chen, am extremely grateful for your kindness. How could I dislike you?” Yang Chen smiled.

Yang Chen had thought that it would be good enough for the magistrate to take out the spirit stone crossbow, but he didn’t expect that the magistrate would give him three thousand spirit stones as a bonus.

These 3,000 spirit stones were enough to unleash the full power of an expert at the seventh level of Meridian Unsealing three times.

If he used it well, it would not be a problem for him to survive three demon hordes.

As time passed, the night gradually fell. Seeing that the demon tide did not show any signs of attacking, Chen Yang was slightly relieved and arranged for everyone to rest.

The current time should be the safest. Even if the demon horde attacked again, they would attack at night and not in the evening.

The warriors guarding the city were also exhausted. They fell asleep on the city wall and slept until late at night.

At midnight, the second wave of demon wave attack officially arrived, accompanied by a series of wolf howls..

Chapter 48: Another Rare Family General

“Enemy attack!”

As the scout let out a furious roar, the sleeping martial artists on the city wall instantly woke up and looked at the demon tide with fear.

Damn it, the second wave came so quickly.

Looking at the endless demon horde, Yang Chen’s eyes flashed with worry.” This second wave of demon horde is coming at us with such ferocity that I’m afraid it won’t be easy to resist.””

“Patriarch, don’t worry. We have spirit stone crossbows. As long as we use them properly, we can still withstand this attack.” Chen Xuan said.

Yang Chen glanced at the spirit stone crossbow beside him, and the panic in his heart lessened a lot.

“That’s right, don’t panic. When the soldiers come, you will block them. When the water comes, you will cover it with the earth. I don’t believe that we can’t defend Chen City with so many people!”

Immediately, Yang Chen sent out the Light Plucking Eagle to fight the first batch of flying demonic beasts. As for the Winged Tiger, it had not recovered from its exhaustion and was resting under the city wall.

“Caw!”

Accompanied by the cry of an eagle, a killing intent flashed out from the eyes of the Lue Guang Eagle. Its two sharp claws that emitted a cold light instantly pierced through the head of a demon beast, forcefully crushing it.

The Light Plundering Eagle killed a Demonic Beast at an extremely fast speed, which greatly increased the aura of the defending martial artists.

Accompanied by cheers, everyone's fighting spirit rose to the peak, as if the endless demon tide in front of them was not a big deal.

Bang!

Yang Chen threw a punch and shattered a flying demonic beast that had landed on the city wall. Then, he wiped the blood off his fist and twisted his neck.

“Come on, let me see if you animals know pain!”

Immediately, Yang Chen held a longbow and pulled the bowstring to the full moon.

Whoosh!

The sharp arrow pierced through the air, carrying with it a terrifying power, and nailed a late-stage first-rank demonic beast to death.

When the others saw this, the archers also took out their bows and arrows, imitating Chen Yang.

This made up for the fact that Chen City did not have archers and soldiers stationed there.

With the help of the archer, everyone was much more relaxed than before. Even Yang Chen couldn't help but say, “Why didn't I think of using bows and arrows when the demon horde attacked for the first time?”

“This demon wave came so suddenly that everyone was a little flustered and worried about how to defend the city. For a moment, they forgot about the existence of bows and arrows.” Chen Xuan said with a smile.

However, even though the arrows were powerful, the consumption of arrows was simply unbearable. In just ten minutes, more than half of the arrows on the city wall had been used up.

” Gather all the arrows in the city,” Yang Chen ordered.” Be it sharp arrows that are comparable to Spiritual Artifacts or ordinary iron arrows, send them over.””

“In addition, gather all the forging apprentices and blacksmiths in the city and give priority to forging arrows.”

“Okay, I’ll go immediately.” The county magistrate nodded, then jogged away from the city wall and hurriedly collected the arrows in the city.

Under the county magistrate’s command, bundles of arrows were transported to the city wall.

The quality of these arrows was not bad, and there was even an arrow that was comparable to a grade nine spirit weapon.

Chen Yang shook the arrow and then looked at Chen Xuan.” First Elder, do you know who has better archery skills? Such a good arrow could not be wasted.”

Chen Xuan thought for a moment and then said,”Speaking of superb archery skills, I really think of someone. This person is the director of a martial arts school in Chen City. He is at the seventh level of Qi Refinement and his archery skills are unparalleled in Chen City.””

“Then quickly call him over.”

Not long after, a burly man with a full beard came to Yang Chen with a ninth-grade longbow in his hand.

“I, Li Dao, am here to see the Chen Clan Head.”The burly man cupped his hands and bowed to Yang Chen.

“Li Dao, if I give you this arrow, can you kill a demon general?”Yang Chen asked.

Li Dao pondered for a long time before nodding." As long as this beast gets within a mile of the city wall, I will definitely be able to kill it.""

"Alright, I'll give this arrow to you. When a demon general comes within a mile of the city walls, kill him."

"If you can really complete it, you can become a first-class general of my Chen family and enjoy the treatment of a direct descendant."

"If your children have good qualifications, they can also enjoy the treatment of direct descendants. If their qualifications are ordinary, they can also enjoy the treatment of collateral relatives."

"Of course, it doesn't matter if you don't want to join my Chen Clan. After the demon horde ends, I can still reward you with a hundred spirit stones."Yang Chen said.

Li Dao's eyes flashed with joy when he heard that." I can't wait to join the Chen Family!"

"Alright, Li Dao, take the arrow!" Yang Chen handed the arrow to Li Dao.

Li Dao took the arrow with both hands and patted his chest.""Chen Clan Leader, you will have to see this lowly one's performance."

About an hour later, it was time for Li Dao's performance.

A wolf-shaped demonic beast that emitted the aura of an early-stage demonic general approached the city wall step by step.

If it were to reach the bottom of the city wall, it would not take long for the beast to tear a hole in the city wall.

When Yang Chen saw this, he killed a Demonic Beast and shouted at Li Dao," Li Dao, what are you waiting for? Kill him!"

Hearing this, Li Dao circulated his spiritual energy into the longbow and pulled the bowstring to the full moon. His eyes were half-narrowed, and his gaze was like lightning as he stared at the wolf-shaped demonic beast.

After a while, he released his grip and the arrow shot out!

Whoosh!

Accompanied by the sound of air being torn apart, the arrow spun down rapidly. The spiritual energy attached to the arrowhead increased its power by quite a bit.

Puff!

Under everyone's attention, the arrow went through the wolf's forehead, pierced through the skull, and pierced deep into the wolf's head.

The spiritual energy attached to the arrowhead crazily destroyed the wolf's head at this moment. The tearing pain made the wolf continuously howl.

As the arrow completely sank into the ground, the wail disappeared and the early-stage demon general slowly fell to the ground.

“Good! From today onwards, you will change your surname to Chen and become a first-class general of the Chen family. You will enjoy the treatment of a direct descendant of the Chen family.”

Yang Chen, who had witnessed everything from the side, shouted with a smile.

He had actually killed a Demon General. Even though the Demon General's aura was unstable, it was obvious that he had just broken through to become a Demon General.

But even so, it still relieved the pressure on the city walls.

Chen Dao collapsed on the city wall. That attack had consumed all of Chen Dao's spiritual energy. At this moment, he could not move at all.

Fortunately, the heavens had shown mercy and Chen Dao was extremely skilled. He had found the weakness of the wolf-shaped demonic beast, which was why he had made such a great contribution.

Chen Dao struggled to get up and knelt down on one knee in front of Chen Yang." Chen Dao greets Family Head!"

"Alright, hurry up and rest. In the future battles, you won't be able to do much."Yang Chen smiled.

"Yes." Chen Dao nodded and slowly walked down the city wall with the help of the doctor.

After sending Chen Dao off, Yang Chen couldn't hide the smile on his face. This was a demon general, but he was killed just like that.

One had to know that there were so many demon beasts below the city wall, but not a single one had reached the level of a demon general.

Even in the depths of the demon tide, there would not be too many demon generals..

Chapter 49: Hunting the Flame Python Tiger

"Patriarch, stop laughing. Look over there!"Chcn Xuan shook Yang Chen's shoulder violently while Yang Chen was still lamenting Chon Dao's superb archery skills.

Chen Yang came back to his senses and looked in the direction Chen Xuan was pointing.

The demon wave automatically parted to form a path, and a demon beast about eight meters long and five meters tall was walking toward Chen Cheng.

“That is...” Yang Chen narrowed his eyes as he observed the demonic beast. Then, he widened his eyes and came to a realization/’ This is a Flame Python Tiger! There’s actually a Flame Python Tiger among this demonic horde!1” Yang Chen really didn’t expect that there would be a Flame Python Tiger in Chen City.

This Flame Python Tiger was an extremely rare fusion demonic beast. From its appearance, it looked like a python wrapped around a tiger.

But in fact, this was a demonic beast. What was even rarer was that both the snake head and the tiger head had their own thoughts.

Its birth method was also extremely difficult. It required the Flame Python and Flame Tiger to fuse together under specific conditions to become this special demon beast.

The success rate of this fusion was extremely low. Even a success rate of one in ten thousand was somewhat overestimating it.

As for the benefits of successful fusion, the first was the bloodline. Regardless of whether it was the Flame Python or the Flame Tiger, they were only Demon General-level demonic beasts.

After the fusion was successful, one would have the qualifications to step into the Demon Venerable Realm.

Moreover, because it was the fusion of two types of demonic beasts, it could give birth to a demonic core that only Demon Venerables possessed at the Demon General Realm.

Moreover, his strength was extremely powerful. A Flame Python Tiger at the peak of the demon general level could contend with a Demon Venerable.

As for the Flaming Python Tiger that was heading toward Chen Cheng, it had already reached the late stage of the Demon General Realm. In terms of strength, it was comparable to a peak Demon General Realm demonic beast, Chen Cheng was in great danger!

“Patriarch, what should we do?” Chon Xuan was a little flustered and subconsciously looked at Chen Yang.

“What else can we do? We naturally have to kill this boast. Great Elder, although the Flame Python Tiger is a disaster for us, it’s still a disaster for us.” “But from another perspective, isn’t it also an opportunity? One had to know that the Flame Python Tiger’s demon core was a great tonic for tiger-type demon beasts.”

“If my winged tiger can swallow this demon core, it might reach the late demon general stage.” Yang Chen narrowed his eyes as he started to think about the Flame Python Tiger,

Chen Xuan realized that his family head was really bold. If anyone else encountered this Flame Python Tiger, they would at least think of away to stop it, not to mention running away.

But Yang Chen wanted to kill it.

“Patriarch, do you have any plans?”

Yang Chen held his chin and pondered for a moment, then said, “The weakness of this Flame Python Tiger is its head. If we can successfully cut off its head and use the spirit stone crossbow to attack the Flame Python Tiger, we might be able to kill it.”

“But... How could he cut off the snake’s head?”

“There’s quite a gap between each release of the spirit stone crossbow. In order to give the Flame Python Tiger the final blow, we can’t use the spirit stone crossbow to hit the snake’s head.”

Yang Chen paced back and forth, then gritted his teeth and said, “Fine, let me ride the Light Stepping Eagle and give it a try.”

“Patriarch, you must not!” Chen Xuan quickly pulled Chen Yang back.” Master, you’ve already taken a risk once. You can’t take another risk this time!””

“What else can we do if we don’t take the risk? If he did not get rid of this Flaming Python Tiger, Chen City would be breached sooner or later!”

Chen Yang pushed Chen Xuan’s hand away and then jumped onto the back of the Light Plucking Eagle. He urged the Light Plucking Eagle to fly towards the Flame Python Tiger.

When Chen Xuan saw this, he sighed and hurriedly called for the Spirit Stone Crossbow. After putting in 1,000 Spirit Stones, the Spirit Stone Crossbow had already accumulated energy and was ready to pour out at any moment.

Then, he looked at Yang Chen.

The Light Flashing Eagle was not in a hurry to attack the Flame Python Tiger. Instead, it circled in the air for a while.

When the Flame Python Tiger was within a mile of Chen Cheng, the Light Flashing Eagle swooped down, aiming for the Flame Python Tiger.

When the Flame Python Tiger saw the Light Flashing Eagle charging at it, a hint of human-like disdain flashed in its beast eyes.

Then, the snake head opened its bloody mouth, and a ball of flames gathered in the snake head.

“Roar!”

Accompanied by a tiger roar, the snake’s head spat out a ball of flame. This flame looked ordinary, but it contained terrifying energy.

If it landed on the Light Plucking Eagle, it would be fine even if the Light Plucking Eagle didn’t die.

“Caw!”

The Light Flashing Eagle turned its body and successfully dodged this ball of flames. When it swooped down toward the Flame Python Tiger again, another ball of flames descended.

Left with no choice, the Flashing Light Eagle could only dodge again. But at this moment, a group of flying demonic beasts had already arrived in front of the Light Flashing Eagle.

“No, we can’t do this.1’

Looking at the Flame Python Tiger that was so close to him, Yang Chen made up his mind again. Then, he jumped deep into the ground and jumped onto the back of the Flame Python Tiger.

The Flame Python Tiger did not notice Yang Chen on the back of the Light Flashing Eagle at first. It only reacted when Yang Chen jumped onto its back.

Soon after, the snake head turned around and a ball of flames quickly gathered in its mouth. A trace of pride flashed across its eyes.

Are you going to hide or not? If you dodge, don’t even think about attacking me.

“If you want to attack me, you have to consider whether you can withstand this ball of flames!

However, Snake Head didn’t expect Yang Chen to suddenly smile mysteriously. Then, he dodged the flames.

Bang!

The flames exploded, but the target was not Chon Yang, but the flying demon beast that intercepted the Light Flashing Eagle!

This was something Yang Chen had already calculated. He would use the flames of the snake's head to get rid of the flying demonic beast beside the Light Slicing Eagle.

At the same time, he used himself to attract the Flame Python Tiger's attention, allowing the Light Flashing Eagle to approach the snake's head.

As expected, just as the explosion sounded, the Light Flashing Eagle's sharp claws had already arrived in front of the snake's head.

The snake's eyes flickered with fear as it struggled crazily, as if it wanted to escape from the Flame Python Tiger.

However, it was too late. The Light Flashing Eagle's sharp claws had already pierced through the snake's head,

Yang Chen, who was standing at the side, used the Sun Opening Fist to give the snake head a final blow. Then, he jumped deep into the ground and returned to the back of the Light Flashing Eagle.

All of this seemed to take a long time, but in fact, it only took a few breaths. It was so short that the tiger head did not even have time to react before the snake head was killed.

“Roar!”

The Flame Python Tiger let out another roar. However, at this moment, Chen Xuan, who was constantly staring at the battlefield, gave the order to fire. Bang!

Along with the sound of energy pouring down, a beam of light containing terrifying energy quickly arrived in front of the Flame Python Tiger at lightning speed.

Bang!

This time, it was an explosion that resounded throughout Chen City.

The terrifying aftershock from the explosion spread all the way to the city wall. Many martial artists were even blown down by the aftershock.

The Tier 1 demonic beasts within a ten-meter radius of the Flame Python Tiger were turned into dust almost instantly. The Tier 1 demonic beasts within a hundred-meter radius were also seriously injured.

As for Yang Chen and Luc Ying, although they escaped quickly, they were also affected by the explosion and suffered significant injuries.

However, Yang Chen couldn't care less about his injuries. He wiped the blood from the corner of his mouth and urged the Light Plucking Eagle to swoop down. Then, he leaped forward and arrived beside the Flame Python Tiger.

After putting the corpse into his storage bag, Yang Chen jumped onto the back of the Light Flashing Eagle and left..

Chapter 50: The Courage of the People of Chen City

“Patriarch, are you alright?” Chen Xuan caught Chen Yang, who had jumped down from the Light Eagle, and quickly asked about his physical condition.

“Great Elder, I'm fine.” Yang Chen wiped the blood from the corner of his mouth and grabbed the storage bag. “With this, my Winged Tiger's strength will definitely increase.””

“At that time, we will have more confidence in dealing with the demon horde.”

Thinking of this, Yang Chen quickly jumped down the city wall and came to the Winged Tiger's side. Then, he opened his storage bag and took out the Flame Python Tiger's corpse.

“All of you, take out the Flame Python Tiger’s demon core.” Chen Xuan, who had followed them down, looked at the two family generals guarding the winged tiger.

“Yes, sir!” The two family generals drew their swords from their waists and took out the demon cores from the Flame Python Tiger’s body in a few moves. This demon core was white jade in color and had a radius of about five inches. From a few meters away, Yang Chen could already feel the terrifying energy contained in the demon core.

Chen Yang took the demon pill and placed it in front of the winged tiger with both hands. “Be good, eat it.”

The Winged Tiger had long been attracted by the demonic pill, but because of Chen Yang, it had been holding back from opening its mouth.

Hearing Yang Chen’s order, the Winged Tiger couldn’t take it anymore and quickly swallowed the Monster Core.

Immediately after, a terrifying energy erupted from the Winged Tiger’s body. At the same time, the surrounding spiritual energy slowly gathered on the Winged Tiger’s body and was continuously devoured by it.

After looking at the Winged Tiger, Yang Chen nodded with satisfaction. “It will take at least two hours to finish consuming this demon core.”

“Guard the Winged Tiger well and don’t let anyone disturb it. Great Elder, you and I will go up the city wall to meet the enemy.”

“Yes.”

Putting down the winged tiger for the time being, Chen Yang and Chen Xuan once again went up the city wall to meet the enemy.

Yang Chen's action of killing the Flame Python Tiger seemed to have angered the demonic beasts, and a group of demonic beasts rushed towards the city wall without any regard for their lives.

The power of the attack far surpassed the attack of the first demon wave.

"Come on, everyone, hold on! The demon beast is dying!" Yang Chen knew that in this dangerous moment, the city defenders needed encouragement the most.

It might not be much on normal days, but this kind of life and death battle was a battle of willpower.

Even if everyone knew that the demonic beasts would not retreat so quickly, they were still willing to believe Yang Chen's words and hypnotize themselves. Under the fearless resistance of the city guards, the waves of attacks from the demon beasts were all blocked by the city walls.

After defending for two hours, the demon beast's attack finally slowed down. However, everyone knew that this was not the demonic beasts retreating, but they were preparing for their final attack.

If he could push this back, the second wave of attacks would be over.

At this moment, the city wall was covered with the corpses of the city guards. The previous battle had been too intense, and there was not even time to carry these dead warriors down.

Now that the demonic beasts' attacks had slowed down, these warriors were gradually forced off the city walls.

Looking at his good friend who was fighting beside him being carried off the city wall without moving, a pessimistic atmosphere circulated on the city wall.

"Do you think we can really withstand the attacks of the demonic beasts?"

"I still can't figure out how we can stop the demon horde."

“Even if we can’t resist it, we have to resist it. Even if we die, we have to stop the demonic beasts. Don’t forget, our families are still inside the city walls.” “That’s right. At most, we’ll fight it out!”

Hearing the pessimistic voices around him, Yang Chen could only smile bitterly. Now, even he himself was not sure if he could resist the demon tide, so how could he encourage others?

“Roar!”

Before everyone could catch their breath, a roar sounded again. Everyone subconsciously looked outside the city wall.

Immediately, a chill ran down his spine. Demonic beasts emitting terrifying auras were slowly approaching the city wall.

Among them, there were even more than ten demon generals.

As for Tier 1 demonic beasts, there were countless of them. They covered the sky and covered the earth. The ground could no longer be seen. They were all demonic beast bodies.

“Damn it, these bastards don’t even let me rest!”

After cursing under his breath, Yang Chen quickly organized his martial artists to fight back. At the same time, he gathered energy from the spirit stone crossbows in case of emergency.

Bang!

One by one, the demonic beasts rushed to the top of the city wall. The bloodlust in their eyes had already made them forget about death. There was only one thought in their minds, and that was to destroy the city wall.

Coupled with the addition of the demon generals, the city wall could not withstand it anymore. Not long after, a hole was torn open.

Yang Chen saw this and quickly shouted, "Hurry!" Use the spirit stone crossbow!"

Bang!

As the spirit stone crossbow poured out its energy, a beam of light instantly killed a large number of demon beasts. Even the two demon generals died under this attack.

In an instant, the demon beasts at the entrance of the city wall were cleared out.

Although he had tried his best to avoid the city walls when he released the spirit stone crossbows, the aftershocks still caused considerable damage to the city walls.

The beast tore a hole in the land of his condor, making it bigger and bigger.

This attack did not stop the demon beasts for long. In just a few dozen breaths, more demon beasts gradually approached the opening.

"What should we do? If the demonic beast breaks through the hole, all our efforts will be in vain!" Chen Xuan said anxiously.

At this moment, Yang Chen was extremely calm." Now, we can only send people to stop them.""

"Send someone? Who? Patriarch, I'm afraid that Qi Refinement Realm martial artists won't be able to hold on."

"That's right. Qi Refinement can't be defended, but Meridian Opening can!" Chen Yang made up his mind and looked at Chen Xuan." Great Elder, I'll leave the city wall to you.""

Then, Yang Chen jumped!

Seeing that Chen Yang actually used his body to block the opening, Chen Xuan could no longer calm down. Damn it! The Chen family's men, follow me to the expedition and block this entrance!"

Immediately, under Chen Xuan's leadership, the Chen family's children jumped down the city wall with Chen Xuan with the will to die.

The Chen family's actions caused the city guards to freeze on the spot. After a while, a Qi Refinement Level 8 martial artist said,""The Chen Clan Leader is very righteous!"

"We can't retreat either. Those who are stronger, jump down with me and help the Chen family defend the entrance!"

"Those who are weaker will defend against the demonic beasts on the city walls. No matter what, he could not let these beasts break through the city walls!"

Immediately, under the leadership of the eighth-stage Qi Refinement realm cultivator, martial artists flew down one by one and followed the Chen family to guard the city wall.

When Yang Chen saw this, a sense of pride rose in his chest." Good! Let these bastards see the courage of the people of Chen City!"

Immediately, under Yang Chen's lead, the people of Chen City circulated the spiritual energy in their bodies and counterattacked the demon beasts!

Unfortunately, sometimes, courage couldn't solve everything. The huge horde of demonic beasts instantly devoured the people of Chen City.

In just 15 minutes, Chen City's martial artists suffered heavy losses and were forced to the edge of the city wall.

Even Yang Chen was injured. From his right shoulder to his left hip, a wound that almost covered Yang Chen's upper body was bleeding profusely.

“Sun Opening Fist!” Yang Chen didn't care about the injuries on his body. He threw a punch and killed a demonic beast that was waiting for an opportunity to break through their defense line.

But looking at the waves of demonic beasts, Yang Chen felt bitter.. Could it be that Chen Cheng really couldn't take it anymore?
